

§ 600.1018

(14) Make false statements to NMFS, any of the NMFS' employees, or any of NMFS' agents about any of the matters in this subpart;

(15) Obstruct, prevent, or unreasonably delay or attempt to obstruct, prevent, or unreasonably delay any audit or investigation NMFS or its agents conduct, or attempt to conduct, in connection with any of the matters in this subpart; and/or

(16) Otherwise materially interfere with the efficient and effective conduct of reduction and the repayment of reduction loans under this subpart.

(b) Any party who violates one or more of the prohibitions of paragraph (a) of this section is subject to the full range of penalties the Magnuson-Stevens Act and 15 CFR part 904 provide—including, but not limited to: civil penalties, sanctions, forfeitures, and punishment for criminal offenses—and to the full penalties and punishments otherwise provided by any other applicable law of the United States.

(c) Additionally, NMFS may take any and all appropriate actions, including the communication of action at law, against each party responsible for the non-payment, non-collection, non-deposit, and/or non-disbursement in accordance with § 600.1013 and/or § 600.1014 to enforce the United States' receipt from such party of any fee—including penalties and all costs of collection—due and owing the United States on account of the reduction loan that such party should have, but did not, pay, collect, deposit, and/or disburse in accordance with § 600.1013 and/or § 600.1014. All such reduction loan recoveries shall be applied to reduce the unpaid balances of reduction loans.

§ 600.1018 Implementation regulations for each program. [Reserved]

PART 622—FISHERIES OF THE CARIBBEAN, GULF, AND SOUTH ATLANTIC

Subpart A—General Provisions

- Sec.
- 622.1 Purpose and scope.
 - 622.2 Definitions and acronyms.
 - 622.3 Relation to other laws and regulations.
 - 622.4 Permits and fees.

50 CFR Ch. VI (10–1–01 Edition)

- 622.5 Recordkeeping and reporting.
- 622.6 Vessel and gear identification.
- 622.7 Prohibitions.
- 622.8 At-sea observer coverage.

Subpart B—Effort Limitations

- 622.15 Wreckfish individual transferable quota (ITQ) system.
- 622.16 Red snapper individual transferable quota (ITQ) system.
- 622.17 South Atlantic golden crab controlled access.
- 622.18 South Atlantic snapper-grouper limited access.

Subpart C—Management Measures

- 622.30 Fishing years.
- 622.31 Prohibited gear and methods.
- 622.32 Prohibited and limited-harvest species.
- 622.33 Caribbean EEZ seasonal and/or area closures.
- 622.34 Gulf EEZ seasonal and/or area closures.
- 622.35 South Atlantic EEZ seasonal and/or area closures.
- 622.36 Seasonal harvest limitations.
- 622.37 Size limits.
- 622.38 Landing fish intact.
- 622.39 Bag and possession limits.
- 622.40 Limitations on traps and pots.
- 622.41 Species specific limitations.
- 622.42 Quotas.
- 622.43 Closures.
- 622.44 Commercial trip limits.
- 622.45 Restrictions on sale/purchase.
- 622.46 Prevention of gear conflicts.
- 622.47 Gulf groundfish trawl fishery.
- 622.48 Adjustment of management measures.

Subpart A—General Provisions

§ 622.1 Purpose and scope.

(a) The purpose of this part is to implement the FMPs prepared under the Magnuson Act by the CFMC, GMFMC, and/or SAFMC listed in Table 1 of this section.

(b) This part governs conservation and management of species included in the FMPs in or from the Caribbean, Gulf, Mid-Atlantic, or South Atlantic

Fishery Conservation and Management

§ 622.2

EEZ, as indicated in Table 1 of this section. For the FMPs noted in the following table, conservation and management extends to adjoining state waters for the purposes of data collection and monitoring.

TABLE 1—FMPs IMPLEMENTED UNDER PART 622

FMP title	Responsible fishery management council(s)	Geographical area
Atlantic Coast Red Drum FMP	SAFMC	Mid-Atlantic and South Atlantic.
FMP for Coastal Migratory Pelagic Resources	GMFMC/SAFMC	Gulf, ¹ Mid-Atlantic ^{1,2} and South Atlantic. ^{1,3}
FMP for Coral and Coral Reefs of the Gulf of Mexico.	GMFMC	Gulf.
FMP for Coral, Coral Reefs, and Live/Hard Bottom Habitats of the South Atlantic Region.	SAFMC	South Atlantic.
FMP for Corals and Reef Associated Plants and Invertebrates of Puerto Rico and the U.S. Virgin Islands.	CFMC	Caribbean.
FMP for the Golden Crab Fishery of the South Atlantic Region.	SAFMC	South Atlantic
FMP for Queen Conch Resources of Puerto Rico and the U.S. Virgin Islands.	CFMC	Caribbean.
FMP for the Red Drum Fishery of the Gulf of Mexico.	GMFMC	Gulf. ¹
FMP for the Reef Fish Fishery of Puerto Rico and the U.S. Virgin Islands.	CFMC	Caribbean.
FMP for the Reef Fish Resources of the Gulf of Mexico.	GMFMC	Gulf. ¹
FMP for the Shrimp Fishery of the Gulf of Mexico.	GMFMC	Gulf. ¹
FMP for the Shrimp Fishery of the South Atlantic Region.	SAFMC	South Atlantic.
FMP for the Snapper-Grouper Fishery of the South Atlantic Region.	SAFMC	South Atlantic. ^{1,4}
FMP for the Spiny Lobster Fishery of Puerto Rico and the U.S. Virgin Islands.	CFMC	Caribbean.

¹ Regulated area includes adjoining state waters for purposes of data collection and quota monitoring.
² Only king and Spanish mackerel and cobia are managed under the FMP in the Mid-Atlantic.
³ Bluefish are not managed under the FMP in the South Atlantic.
⁴ Bank, rock, and black sea bass and scup are not managed by the FMP or regulated by this part north of 35°15.3' N. lat., the latitude of Cape Hatteras Light, NC.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43956, Aug. 27, 1996; 61 FR 65483, Dec. 13, 1996; 63 FR 10565, Mar. 4, 1998]

§ 622.2 Definitions and acronyms.

In addition to the definitions in the Magnuson Act and in §600.10 of this chapter, and the acronyms in §600.15 of this chapter, the terms and acronyms used in this part have the following meanings:

Allowable chemical means a substance, generally used to immobilize marine life so that it can be captured alive, that, when introduced into the water, does not take Gulf and South Atlantic prohibited coral and is allowed by Florida for the harvest of tropical fish (e.g., quinaldine, quinaldine compounds, or similar substances).

Allowable octocoral means an erect, nonencrusting species of the subclass Octocorallia, except the seafans *Gorgonia flabellum* and *G. ventalina*, plus

the attached substrate within 1 inch (2.54 cm) of an allowable octocoral.

NOTE: An erect, nonencrusting species of the subclass Octocorallia, except the seafans *Gorgonia flabellum* and *G. ventalina*, with attached substrate exceeding 1 inch (2.54 cm) is considered to be live rock and not allowable octocoral.

Aquacultured live rock means live rock that is harvested under a Federal aquacultured live rock permit, as required under §622.4(a)(3)(iii).

Authorized statistical reporting agent means:

- (1) Any person so designated by the SRD; or
- (2) Any person so designated by the head of any Federal or State agency that has entered into an agreement with the Assistant Administrator to collect fishery data.

§ 622.2

50 CFR Ch. VI (10–1–01 Edition)

Automatic reel means a reel that remains attached to a vessel when in use from which a line and attached hook(s) are deployed. The line is payed out from and retrieved on the reel electrically or hydraulically.

Bandit gear means a rod and reel that remain attached to a vessel when in use from which a line and attached hook(s) are deployed. The line is payed out from and retrieved on the reel manually, electrically, or hydraulically.

BRD means bycatch reduction device.

Buoy gear means fishing gear consisting of a float and one or more weighted lines suspended therefrom, generally long enough to reach the bottom. A hook or hooks (usually 6 to 10) are on the lines at or near the end. The float and line(s) drift freely and are retrieved periodically to remove catch and rebait hooks.

Carapace length means the straight-line distance from the orbital notch inside the orbital spine, in a line parallel to the lateral rostral sulcus, to the posterior margin of the cephalothorax. (See Figure 1 in Appendix C of this part.)

Caribbean means the Caribbean Sea around Puerto Rico and the U.S. Virgin Islands.

Caribbean conch resource means one or more of the following species, or a part thereof:

- (1) Atlantic triton's trumpet, *Charonia variegata*.
- (2) Cameo helmet, *Cassis madagascarensis*.
- (3) Caribbean helmet, *Cassis tuberosa*.
- (4) Caribbean vase, *Vasum muricatum*.
- (5) Flame helmet, *Cassis flammea*.
- (6) Green star shell, *Astrea tuber*.
- (7) Hawking conch, *Strombus raninus*.
- (8) Milk conch, *Strombus costatus*.
- (9) Queen conch, *Strombus gigus*.
- (10) Roostertail conch, *Strombus gallus*.
- (11) True tulip, *Fasciolaria tulipa*.
- (12) West Indian fighting conch, *Strombus pugilis*.
- (13) Whelk (West Indian top shell), *Cittarium pica*.

Caribbean coral reef resource means one or more of the species, or a part thereof, listed in Table 1 in Appendix A of this part, whether living or dead.

Caribbean prohibited coral means, in the Caribbean; a gorgonian, that is, a Caribbean coral reef resource of the Class Anthozoa, Subclass Octocorallia, Order Gorgonacea; a live rock; or a stony coral, that is, a Caribbean coral reef resource of the Class Hydrozoa (fire corals and hydrocorals) or of the Class Anthozoa, Subclass Hexacorallia, Orders Scleractinia (stony corals) and Antipatharia (black corals); or a part thereof.

Caribbean reef fish means one or more of the species, or a part thereof, listed in Table 2 in Appendix A of this part.

Caribbean spiny lobster means the species *Panulirus argus*, or a part thereof.

CFMC means the Caribbean Fishery Management Council.

Charter vessel means a vessel less than 100 gross tons (90.8 mt) that meets the requirements of the USCG to carry six or fewer passengers for hire and that engages in charter fishing at any time during the calendar year. A charter vessel with a commercial permit, as required under §622.4(a)(2), is considered to be operating as a charter vessel when it carries a passenger who pays a fee or when there are more than three persons aboard, including operator and crew.

Coastal migratory pelagic fish means one or more of the following species, or a part thereof:

- (1) Bluefish, *Pomatomus saltatrix* (Gulf of Mexico only).
- (2) Cero, *Scomberomorus regalis*.
- (3) Cobia, *Rachycentron canadum*.
- (4) Dolphin, *Coryphaena hippurus*
- (5) King mackerel, *Scomberomorus cavalla*.
- (6) Little tunny, *Euthynnus alletteratus*.
- (7) Spanish mackerel, *Scomberomorus maculatus*.

Coral area means marine habitat in the Gulf or South Atlantic EEZ where coral growth abounds, including patch reefs, outer bank reefs, deep water banks, and hard bottoms.

Dealer, in addition to the definition specified in §600.10 of this chapter, means the person who first receives rock shrimp harvested from the EEZ upon transfer ashore.

Drift gillnet, for the purposes of this part, means a gillnet, other than a long gillnet or a run-around gillnet, that is

Fishery Conservation and Management

§ 622.2

unattached to the ocean bottom, regardless of whether attached to a vessel.

Fish trap means—

(1) In the Caribbean EEZ, a trap and its component parts (including the lines and buoys), regardless of the construction material, used for or capable of taking finfish.

(2) In the Gulf EEZ, a trap and its component parts (including the lines and buoys), regardless of the construction material, used for or capable of taking finfish, except a trap historically used in the directed fishery for crustaceans (that is, blue crab, stone crab, and spiny lobster).

(3) In the South Atlantic EEZ, a trap and its component parts (including the lines and buoys), regardless of the construction material, used for or capable of taking fish, except a sea bass pot, a golden crab trap, or a crustacean trap (that is, a type of trap historically used in the directed fishery for blue crab, stone crab, red crab, jonah crab, or spiny lobster and that contains at any time not more than 25 percent, by number, of fish other than blue crab, stone crab, red crab, jonah crab, and spiny lobster).

Fork length means the straight-line distance from the tip of the head (snout) to the rear center edge of the tail (caudal fin). (See Figure 2 in Appendix C of this part.)

Golden crab means the species *Chaceon feneri*, or a part thereof.

Golden crab trap means any trap used or possessed in association with a directed fishery for golden crab in the South Atlantic EEZ, including any trap that contains a golden crab in or from the South Atlantic EEZ or any trap on board a vessel that possesses golden crab in or from the South Atlantic EEZ.

GMFMC means the Gulf of Mexico Fishery Management Council.

Gulf means the Gulf of Mexico. The line of demarcation between the Atlantic Ocean and the Gulf of Mexico is specified in § 600.105(c) of this chapter.

Gulf reef fish means one or more of the species, or a part thereof, listed in Table 3 in Appendix A of this part.

Gulf and South Atlantic prohibited coral means, in the Gulf and South At-

lantic, one or more of the following, or a part thereof:

(1) Coral belonging to the Class Hydrozoa (fire corals and hydrocorals).

(2) Coral belonging to the Class Anthozoa, Subclass Hexacorallia, Orders Scleractinia (stony corals) and Antipatharia (black corals).

(3) A seafan, *Gorgonia flabellum* or *G. ventalina*.

(4) Coral in a coral reef, except for allowable octocoral.

(5) Coral in an HAPC, including allowable octocoral.

Handline means a line with attached hook(s) that is tended directly by hand.

HAPC means habitat area of particular concern.

Headboat means a vessel that holds a valid Certificate of Inspection issued by the USCG to carry passengers for hire. A headboat with a commercial vessel permit, as required under § 622.4(a)(2), is considered to be operating as a headboat when it carries a passenger who pays a fee or—

(1) In the case of persons aboard fishing for or possessing South Atlantic snapper-grouper, when there are more persons aboard than the number of crew specified in the vessel's Certificate of Inspection; or

(2) In the case of persons aboard fishing for or possessing coastal migratory pelagic fish or Gulf reef fish, when there are more than three persons aboard, including operator and crew.

Headrope length means the distance, measured along the forwardmost webbing of a trawl net, between the points at which the upper lip (top edge) of the mouth of the net are attached to sleds, doors, or other devices that spread the net.

Hook-and-line gear means automatic reel, bandit gear, buoy gear, handline, longline, and rod and reel.

Live rock means living marine organisms, or an assemblage thereof, attached to a hard substrate, including dead coral or rock (excluding individual mollusk shells).

Long gillnet means a gillnet that has a float line that is more than 1,000 yd (914 m) in length.

Longline means a line that is deployed horizontally to which gangions and hooks are attached. A longline

may be a bottom longline, i.e., designed for use on the bottom, or a pelagic longline, i.e., designed for use off the bottom. The longline hauler may be manually, electrically, or hydraulically operated.

MAFMC means the Mid-Atlantic Fishery Management Council.

Mid-Atlantic means the Atlantic Ocean off the Atlantic coastal states from the boundary between the New England Fishery Management Council and the MAFMC, as specified in § 600.105(a) of this chapter, to the boundary between the MAFMC and the SAFMC, as specified in § 600.105(b) of this chapter.

Migratory group, for king and Spanish mackerel, means a group of fish that may or may not be a separate genetic stock, but that is treated as a separate stock for management purposes. King and Spanish mackerel are divided into migratory groups—the Atlantic migratory group and the Gulf migratory group. The boundaries between these groups are as follows:

(1) *King mackerel*—(i) *Summer separation*. From April 1 through October 31, the boundary separating the Gulf and Atlantic migratory groups of king mackerel is 25°48' N. lat., which is a line directly west from the Monroe/Collier County, FL, boundary to the outer limit of the EEZ.

(ii) *Winter separation*. From November 1 through March 31, the boundary separating the Gulf and Atlantic migratory groups of king mackerel is 29°25' N. lat., which is a line directly east from the Volusia/Flagler County, FL, boundary to the outer limit of the EEZ.

(2) *Spanish mackerel*. The boundary separating the Gulf and Atlantic migratory groups of Spanish mackerel is 25°20.4' N. lat., which is a line directly east from the Miami-Dade/Monroe County, FL, boundary to the outer limit of the EEZ.

Off Florida means the waters in the Gulf and South Atlantic from 30°42'45.6" N. lat., which is a line directly east from the seaward terminus of the Georgia/Florida boundary, to 87°31'06" W. long., which is a line directly south from the Alabama/Florida boundary.

Off Georgia means the waters in the South Atlantic from a line extending

in a direction of 104° from true north from the seaward terminus of the South Carolina/Georgia boundary to 30°42'45.6" N. lat., which is a line directly east from the seaward terminus of the Georgia/Florida boundary.

Official sunrise or *official sunset* means the time of sunrise or sunset as determined for the date and location in *The Nautical Almanac*, prepared by the U.S. Naval Observatory.

Off Louisiana, Mississippi, and Alabama means the waters in the Gulf other than off Florida and off Texas.

Off North Carolina means the waters in the South Atlantic from 36°34'55" N. lat., which is a line directly east from the Virginia/North Carolina boundary, to a line extending in a direction of 135°34'55" from true north from the North Carolina/South Carolina boundary, as marked by the border station on Bird Island at 33°51'07.9" N. lat., 78°32'32.6" W. long.

Off South Carolina means the waters in the South Atlantic from a line extending in a direction of 135°34'55" from true north from the North Carolina/South Carolina boundary, as marked by the border station on Bird Island at 33°51'07.9" N. lat., 78°32'32.6" W. long., to a line extending in a direction of 104° from true north from the seaward terminus of the South Carolina/Georgia boundary.

Off Texas means the waters in the Gulf west of a rhumb line from 29°32.1' N. lat., 93°47.7' W. long. to 26°11.4' N. lat., 92°53' W. long., which line is an extension of the boundary between Louisiana and Texas.

Penaeid shrimp trawler means any vessel that is equipped with one or more trawl nets whose on-board or landed catch of brown, pink, or white shrimp (penaeid shrimp) is more than 1 percent, by weight, of all fish comprising its on-board or landed catch.

Powerhead means any device with an explosive charge, usually attached to a speargun, spear, pole, or stick, that fires a projectile upon contact.

Processor means a person who processes fish or fish products, or parts thereof, for commercial use or consumption.

Purchase means the act or activity of buying, trading, or bartering, or attempting to buy, trade, or barter.

Red drum, also called redfish, means *Sciaenops ocellatus*, or a part thereof.

Red snapper means *Lutjanus campechanus*, or a part thereof, one of the Gulf reef fish species.

Regional Administrator (RA), for the purposes of this part, means the Administrator, Southeast Region, NMFS, 9721 Executive Center Drive N., St. Petersburg, FL 33702, or a designee.

Rod and reel means a rod and reel unit that is not attached to a vessel, or, if attached, is readily removable, from which a line and attached hook(s) are deployed. The line is payed out from and retrieved on the reel manually, electrically, or hydraulically.

Run-around gillnet means a gillnet, other than a long gillnet, that, when used, encloses an area of water.

SAFMC means the South Atlantic Fishery Management Council.

Sale or sell means the act or activity of transferring property for money or credit, trading, or bartering, or attempting to so transfer, trade, or barter.

Science and Research Director (SRD), for the purposes of this part, means the Science and Research Director, Southeast Fisheries Science Center, NMFS (see Table 1 of § 600.502 of this chapter).

Sea bass pot means a trap has six rectangular sides and does not exceed 25 inches (63.5 cm) in height, width, or depth.

Shrimp means one or more of the following species, or a part thereof:

- (1) Brown shrimp, *Penaeus aztecus*.
- (2) Pink shrimp, *Penaeus duorarum*.
- (3) Rock shrimp, *Sicyonia brevirostris*.
- (4) Royal red shrimp, *Pleoticus robustus*.
- (5) Seabob shrimp, *Xiphopenaeus kroyeri*.
- (6) White shrimp, *Penaeus setiferus*.

Shrimp trawler means any vessel that is equipped with one or more trawl nets whose on-board or landed catch of shrimp is more than 1 percent, by weight, of all fish comprising its on-board or landed catch.

SMZ means special management zone.

South Atlantic means the Atlantic Ocean off the Atlantic coastal states from the boundary between the MAFMC and the SAFMC, as specified in § 600.105(b) of this chapter, to the

line of demarcation between the Atlantic Ocean and the Gulf of Mexico, as specified in § 600.105(c) of this chapter.

South Atlantic snapper-grouper means one or more of the species, or a part thereof, listed in Table 4 in Appendix A of this part.

Stab net means a gillnet, other than a long gillnet, or trammel net whose weight line sinks to the bottom and submerges the float line.

Total length (TL), for the purposes of this part, means the straight-line distance from the tip of the snout to the tip of the tail (caudal fin), excluding any caudal filament, while the fish is lying on its side. The mouth of the fish may be closed and/or the tail may be squeezed together to give the greatest overall measurement. (See Figure 2 in Appendix C of this part.)

Toxic chemical means any substance, other than an allowable chemical, that, when introduced into the water, can stun, immobilize, or take marine life.

Trammel net means two or more panels of netting, suspended vertically in the water by a common float line and a common weight line, with one panel having a larger mesh size than the other(s), to entrap fish in a pocket of netting.

Trip means a fishing trip, regardless of number of days duration, that begins with departure from a dock, berth, beach, seawall, or ramp and that terminates with return to a dock, berth, beach, seawall, or ramp.

Try net, also called test net, means a net pulled for brief periods by a shrimp trawler to test for shrimp concentrations or determine fishing conditions (e.g., presence or absence of bottom debris, jellyfish, bycatch, seagrasses).

Wild live rock means live rock other than aquacultured live rock.

Wreckfish means the species *Polyprion americanus*, or a part thereof, one of the South Atlantic snapper-grouper species.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43956, Aug. 27, 1996; 61 FR 47448, Sept. 9, 1996; 61 FR 65483, Dec. 13, 1996; 62 FR 18539, Apr. 16, 1997; 63 FR 10565, Mar. 4, 1998; 63 FR 18144, Apr. 14, 1998; 64 FR 59125, Nov. 2, 1999; 65 FR 52957, Aug. 31, 2000]

§ 622.3

50 CFR Ch. VI (10–1–01 Edition)

§ 622.3 Relation to other laws and regulations.

(a) The relation of this part to other laws is set forth in § 600.705 of this chapter and paragraphs (b) and (c) of this section.

(b) Except for regulations on allowable octocoral, Gulf and South Atlantic prohibited coral, and live rock, this part is intended to apply within the EEZ portions of applicable National Marine Sanctuaries and National Parks, unless the regulations governing such Sanctuaries or Parks prohibit their application. Regulations on allowable octocoral, Gulf and South Atlantic prohibited coral, and live rock do not apply within the EEZ portions of the following National Marine Sanctuaries and National Parks:

(1) Everglades National Park (36 CFR 7.45).

(2) Looe Key National Marine Sanctuary (15 CFR part 937).

(3) Fort Jefferson National Monument (36 CFR 7.27).

(4) Key Largo Coral Reef National Marine Sanctuary (15 CFR part 929).

(5) Biscayne National Park (16 U.S.C. 410gg).

(6) Gray's Reef National Marine Sanctuary (15 CFR Part 938).

(7) Monitor Marine Sanctuary (15 CFR part 924).

(c) For allowable octocoral, if a state has a catch, landing, or gear regulation that is more restrictive than a catch, landing, or gear regulation in this part, a person landing in such state allowable octocoral taken from the Gulf or South Atlantic EEZ must comply with the more restrictive state regulation.

(d) General provisions on facilitation of enforcement, penalties, and enforcement policy applicable to all domestic fisheries are set forth in §§ 600.730, 600.735, and 600.740 of this chapter, respectively.

(e) An activity that is otherwise prohibited by this part may be conducted if authorized as scientific research activity, exempted fishing, or exempted educational activity, as specified in § 600.745 of this chapter.

§ 622.4 Permits and fees.

(a) *Permits required.* To conduct activities in fisheries governed in this

part, valid permits, licenses, and endorsements are required as follows:

(1) *Charter vessel/headboat permits.* For a person aboard a vessel that is operating as a charter vessel or headboat to fish for or possess coastal migratory pelagic fish, Gulf reef fish, or South Atlantic snapper-grouper in or from the EEZ, a charter vessel/headboat permit for coastal migratory pelagic fish, Gulf reef fish, or South Atlantic snapper-grouper, respectively, must have been issued to the vessel and must be on board. A charter vessel or headboat may have both a charter vessel/headboat permit and a commercial vessel permit. However, when a vessel is operating as a charter vessel or headboat, a person aboard must adhere to the bag limits.

(2) *Commercial vessel permits, licenses, and endorsements—(i) Fish traps in the Gulf.* For a person to possess or use a fish trap in the EEZ in the Gulf of Mexico, a commercial vessel permit for Gulf reef fish with a fish trap endorsement must have been issued to the vessel and must be on board. See paragraph (n) of this section regarding fish trap endorsements.

(ii) *Gillnets for king mackerel in the southern Florida west coast subzone.* For a person aboard a vessel to use a run-around gillnet for king mackerel in the southern Florida west coast subzone (see § 622.42(c)(1)(i)(A)(3)), a commercial vessel permit for king mackerel with a gillnet endorsement must have been issued to the vessel and must be on board. See paragraph (o) of this section regarding a moratorium on endorsements for the use of gillnets for king mackerel in the southern Florida west coast subzone and restrictions on transferability of king mackerel gillnet endorsements.

(iii) *King mackerel.* For a person aboard a vessel to be eligible for exemption from the bag limits and to fish under a quota for king mackerel in or from the Gulf, Mid-Atlantic, or South Atlantic EEZ, a commercial vessel permit for king mackerel must have been issued to the vessel and must be on board. To obtain or renew a commercial vessel permit for king mackerel, at least 25 percent of the applicant's earned income, or at least \$10,000, must have been derived from commercial

fishing (i.e., harvest and first sale of fish) or from charter fishing during one of the 3 calendar years preceding the application. See paragraph (q) of this section regarding a moratorium on commercial vessel permits for king mackerel, transfers of permits during the moratorium, and limited exceptions to the earned income or gross sales requirement for a permit.

(iv) *Spanish mackerel*. For a person aboard a vessel to be eligible for exemption from the bag limits and to fish under a quota for Spanish mackerel in or from the Gulf, Mid-Atlantic, or South Atlantic EEZ, a commercial vessel permit for Spanish mackerel must have been issued to the vessel and must be on board. To obtain or renew a commercial vessel permit for Spanish mackerel, at least 25 percent of the applicant's earned income, or at least \$10,000, must have been derived from commercial fishing (i.e., harvest and first sale of fish) or from charter fishing during one of the 3 calendar years preceding the application.

(v) *Gulf reef fish*. For a person aboard a vessel to be eligible for exemption from the bag limits, to fish under a quota, or to sell Gulf reef fish in or from the Gulf EEZ, a commercial vessel permit for Gulf reef fish must have been issued to the vessel and must be on board. To obtain or renew a commercial vessel permit for Gulf reef fish, more than 50 percent of the applicant's earned income must have been derived from commercial fishing (i.e., harvest and first sale of fish) or from charter fishing during either of the 2 calendar years preceding the application. See paragraph (m) of this section regarding a moratorium on commercial vessel permits for Gulf reef fish and limited exceptions to the earned income requirement for a permit.

(vi) *South Atlantic snapper-grouper*. For a person aboard a vessel to be eligible for exemption from the bag limits for South Atlantic snapper-grouper in or from the South Atlantic EEZ, to engage in the directed fishery for tilefish in the South Atlantic EEZ, to use a longline to fish for South Atlantic snapper-grouper in the South Atlantic EEZ, or to use a sea bass pot in the South Atlantic EEZ between 35°15.3' N. lat. (due east of Cape Hatteras Light,

NC) and 28°35.1' N. lat. (due east of the NASA Vehicle Assembly Building, Cape Canaveral, FL), a commercial vessel permit for South Atlantic snapper-grouper must have been issued to the vessel and must be on board. A vessel with longline gear and more than 200 lb (90.7 kg) of tilefish on board is considered to be in the directed fishery for tilefish. It is a rebuttable presumption that a fishing vessel with more than 200 lb (90.7 kg) of tilefish on board harvested such tilefish in the EEZ. See §622.18 for limitations on the use, transfer, and renewal of a commercial vessel permit for South Atlantic snapper-grouper.

(vii) *Wreckfish*. For a person aboard a vessel to fish for wreckfish in the South Atlantic EEZ, possess wreckfish in or from the South Atlantic EEZ, off-load wreckfish from the South Atlantic EEZ, or sell wreckfish in or from the South Atlantic EEZ, a commercial vessel permit for wreckfish must have been issued to the vessel and must be on board. To obtain a commercial vessel permit for wreckfish, the applicant must be a wreckfish shareholder; and either the shareholder must be the vessel owner or the owner or operator must be an employee, contractor, or agent of the shareholder. (See §622.15 for information on wreckfish shareholders.)

(viii) *South Atlantic rock shrimp*. For a person aboard a vessel to fish for rock shrimp in the South Atlantic EEZ or possess rock shrimp in or from the South Atlantic EEZ, a commercial vessel permit for rock shrimp must be issued to the vessel and must be on board.

(ix) *Gulf red snapper*. For a person aboard a vessel for which a commercial vessel permit for Gulf reef fish has been issued to retain red snapper under the trip limits specified in §622.44(d)(1) or (2), a Class 1 or Class 2 Gulf red snapper license must have been issued to the vessel and must be on board. See paragraph (p) of this section regarding initial issue of red snapper licenses.

(x) *South Atlantic golden crab*. For a person aboard a vessel to fish for golden crab in the South Atlantic EEZ, possess golden crab in or from the South Atlantic EEZ, off-load golden crab from the South Atlantic EEZ, or

sell golden crab in or from the South Atlantic EEZ, a commercial vessel permit for golden crab must be issued to the vessel and must be on board. It is a rebuttable presumption that a golden crab on board a vessel in the South Atlantic or off-loaded from a vessel in a port adjoining the South Atlantic was harvested from the South Atlantic EEZ. See § 622.17 for limitations on the use, transfer, and renewal of a commercial vessel permit for golden crab.

(3) *Coral permits*—(i) *Allowable chemical*. For an individual to take or possess fish or other marine organisms with an allowable chemical in a coral area, other than fish or other marine organisms that are landed in Florida, a Federal allowable chemical permit must have been issued to the individual. Such permit must be available when the permitted activity is being conducted and when such fish or other marine organisms are possessed, through landing ashore.

(ii) *Allowable octocoral*. For an individual to take or possess allowable octocoral in the Gulf or South Atlantic EEZ, other than allowable octocoral that is landed in Florida, a Federal allowable octocoral permit must have been issued to the individual. Such permit must be available for inspection when the permitted activity is being conducted and when allowable octocoral is possessed, through landing ashore.

(iii) *Aquacultured live rock*. For a person to take or possess aquacultured live rock in the Gulf or South Atlantic EEZ, a Federal aquacultured live rock permit must have been issued for the specific harvest site. Such permit, or a copy, must be on board a vessel depositing or possessing material on an aquacultured live rock site or harvesting or possessing live rock from an aquacultured live rock site.

(iv) *Prohibited coral*. A Federal permit may be issued to take or possess Gulf and South Atlantic prohibited coral or Caribbean prohibited coral only as scientific research activity, exempted fishing, or exempted educational activity. See § 600.745 of this chapter for the procedures and limitations for such activities and fishing.

(v) *Florida permits*. Appropriate Florida permits and endorsements are re-

quired for the following activities, without regard to whether they involve activities in the EEZ or Florida's waters:

(A) Landing in Florida fish or other marine organisms taken with an allowable chemical in a coral area.

(B) Landing allowable octocoral in Florida.

(C) Landing live rock in Florida.

(4) *Dealer permits*. For a dealer to receive Gulf reef fish, golden crab harvested from the South Atlantic EEZ, South Atlantic snapper-grouper, rock shrimp harvested from the South Atlantic EEZ, or wreckfish, a dealer permit for Gulf reef fish, golden crab, South Atlantic snapper-grouper, rock shrimp, or wreckfish, respectively, must be issued to the dealer. To obtain a dealer permit, the applicant must have a valid state wholesaler's license in the state(s) where the dealer operates, if required by such state(s), and must have a physical facility at a fixed location in such state(s).

(b) *Applications for permits*. Application forms for all permits are available from the RA. Completed application forms and all required supporting documents must be submitted to the RA at least 30 days prior to the date on which the applicant desires to have the permit made effective. All vessel permits are mailed to owners, whether the applicant is an owner or an operator.

(1) *Coral permits*. (i) The applicant for a coral permit must be the individual who will be conducting the activity that requires the permit. In the case of a corporation or partnership that will be conducting live rock aquaculture activity, the applicant must be the principal shareholder or a general partner.

(ii) An applicant must provide the following:

(A) Name, address, telephone number, and other identifying information of the applicant.

(B) Name and address of any affiliated company, institution, or organization.

(C) Information concerning vessels, harvesting gear/methods, or fishing areas, as specified on the application form.

Fishery Conservation and Management

§ 622.4

(D) Any other information that may be necessary for the issuance or administration of the permit.

(E) If applying for an aquacultured live rock permit, identification of each vessel that will be depositing material on or harvesting aquacultured live rock from the proposed aquacultured live rock site, specification of the port of landing of aquacultured live rock, and a site evaluation report prepared pursuant to generally accepted industry standards that—

(1) Provides accurate coordinates of the proposed harvesting site so that it can be located using LORAN or Global Positioning System equipment;

(2) Shows the site on a chart in sufficient detail to determine its size and allow for site inspection;

(3) Discusses possible hazards to safe navigation or hindrance to vessel traffic, traditional fishing operations, or other public access that may result from aquacultured live rock at the site;

(4) Describes the naturally occurring bottom habitat at the site; and

(5) Specifies the type and origin of material to be deposited on the site and how it will be distinguishable from the naturally occurring substrate.

(2) *Dealer permits.* (i) The application for a dealer permit must be submitted by the owner (in the case of a corporation, an officer or shareholder; in the case of a partnership, a general partner).

(ii) An applicant must provide the following:

(A) A copy of each state wholesaler's license held by the dealer.

(B) Name, address, telephone number, date the business was formed, and other identifying information of the business.

(C) The address of each physical facility at a fixed location where the business receives fish.

(D) Name, address, telephone number, other identifying information, and official capacity in the business of the applicant.

(E) Any other information that may be necessary for the issuance or administration of the permit, as specified on the application form.

(3) *Vessel permits.* (i) The application for a commercial vessel permit, other than for wreckfish, or for a charter ves-

sel/headboat permit must be submitted by the owner (in the case of a corporation, an officer or shareholder; in the case of a partnership, a general partner) or operator of the vessel. A commercial vessel permit that is issued based on the earned income qualification of an operator is valid only when that person is the operator of the vessel. The applicant for a commercial vessel permit for wreckfish must be a wreckfish shareholder.

(ii) An applicant must provide the following:

(A) A copy of the vessel's valid USCG certificate of documentation or, if not documented, a copy of its valid state registration certificate.

(B) Vessel name and official number.

(C) Name, address, telephone number, and other identifying information of the vessel owner and of the applicant, if other than the owner.

(D) Any other information concerning the vessel, gear characteristics, principal fisheries engaged in, or fishing areas, as specified on the application form.

(E) Any other information that may be necessary for the issuance or administration of the permit, as specified on the application form.

(F) If applying for a commercial vessel permit, documentation, as specified in the instructions accompanying each application form, showing that applicable eligibility requirements of paragraph (a)(2) of this section have been met.

(G) If a fish trap or sea bass pot will be used, the number, dimensions, and estimated cubic volume of the traps/pots that will be used and the applicant's desired color code for use in identifying his or her vessel and buoys (white is not an acceptable color code).

(c) *Change in application information.* The owner or operator of a vessel with a permit, a person with a coral permit, or a dealer with a permit must notify the RA within 30 days after any change in the application information specified in paragraph (b) of this section. The permit is void if any change in the information is not reported within 30 days.

(d) *Fees.* A fee is charged for each application for a permit, license, or endorsement submitted under this section, for each request for transfer or replacement of such permit, license, or endorsement, and for each fish trap or sea bass pot identification tag required under § 622.6(b)(1)(i)(B). The amount of each fee is calculated in accordance with the procedures of the NOAA Finance Handbook, available from the RA, for determining the administrative costs of each special product or service. The fee may not exceed such costs and is specified with each application form. The appropriate fee must accompany each application, request for transfer or replacement, or request for fish trap/sea bass pot identification tags.

(e) *Initial issuance.* (1) The RA will issue an initial permit at any time to an applicant if the application is complete and the specific requirements for the requested permit have been met. An application is complete when all requested forms, information, and documentation have been received.

(2) Upon receipt of an incomplete application, the RA will notify the applicant of the deficiency. If the applicant fails to correct the deficiency within 30 days of the date of the RA's letter of notification, the application will be considered abandoned.

(f) *Duration.* A permit remains valid for the period specified on it unless it is revoked, suspended, or modified pursuant to subpart D of 15 CFR part 904 or the vessel or dealership is sold.

(g) *Transfer.* A vessel permit, license, or endorsement or dealer permit issued under this section is not transferable or assignable, except as provided in paragraph (m) of this section for a commercial vessel permit for Gulf reef fish, in paragraph (n) of this section for a fish trap endorsement, in paragraph (o) of this section for a Gulf king mackerel gillnet endorsement, in paragraph (p) of this section for a red snapper license, in paragraph (q) of this section for a king mackerel permit, in § 622.17(c) for a commercial vessel permit for golden crab, or in § 622.18(e) for a commercial vessel permit for South Atlantic snapper-grouper. A person who acquires a vessel or dealership who desires to conduct activities for which a permit or endorsement is required

must apply for a permit or endorsement in accordance with the provisions of this section. If the acquired vessel or dealership is currently permitted, the application must be accompanied by the original permit and a copy of a signed bill of sale or equivalent acquisition papers.

(h) *Renewal.* Although a permit, license, or endorsement required by this section is issued on an annual basis, an application for its renewal is required only every 2 years. In the interim years, renewal is automatic (without application) for a vessel owner or dealer who has met the specific requirements for the requested permit, license, or endorsement; who has submitted all reports required under the Magnuson-Stevens Act; and who is not subject to a sanction or denial under paragraph (j) of this section. An owner or dealer whose permit, license, or endorsement is expiring will be mailed a notification by the RA approximately 2 months prior to its expiration. That notification will advise the status of the renewal. That is, the notification will advise that the renewal will be issued without further action by the owner or dealer (automatic renewal); that the permit, license, or endorsement is ineligible for automatic renewal; or that a new application is required.

(1) *If eligible for automatic renewal.* If the RA's notification indicates that the owner's or dealer's permit, license, or endorsement is eligible for automatic renewal, the RA will mail the automatically renewed permit, license, or endorsement approximately 1 month prior to expiration of the old permit, license, or endorsement.

(2) *If ineligible for automatic renewal.* If the RA's notification indicates that the owner's or dealer's permit, license, or endorsement is ineligible for automatic renewal, the notification will specify the reasons and will provide an opportunity for correction of any deficiencies. If the owner or dealer does not correct such deficiencies within 60 days after the date of the RA's notification, the renewal will be considered abandoned. A permit, license, or endorsement that is not renewed within the applicable deadline will not be re-issued.

Fishery Conservation and Management

§ 622.4

(3) *If new application is required.* If the RA's notification indicates that a new application is required, the notification will include a preprinted renewal application. If the RA receives an incomplete application, the RA will notify the applicant of the deficiency. If the applicant fails to correct the deficiency within 30 days of the date of the RA's letter of notification, the application will be considered abandoned. A permit, license, or endorsement that is not renewed within the applicable deadline will not be reissued.

(4) *If notification is not received.* A vessel owner or dealer who does not receive a notification from the RA regarding status of renewal of a permit, license, or endorsement by 45 days prior to expiration of the current permit must contact the RA.

(i) *Display.* A vessel permit, license, or endorsement issued under this section must be carried on board the vessel. A dealer permit issued under this section, or a copy thereof, must be available on the dealer's premises. In addition, a copy of the dealer's permit must accompany each vehicle that is used to pick up from a fishing vessel reef fish harvested from the Gulf EEZ. The operator of a vessel must present the permit, license, or endorsement for inspection upon the request of an authorized officer. A dealer or a vehicle operator must present the permit or a copy for inspection upon the request of an authorized officer.

(j) *Sanctions and denials.* A permit, license, or endorsement issued pursuant to this section may be revoked, suspended, or modified, and a permit, license, or endorsement application may be denied, in accordance with the procedures governing enforcement-related permit sanctions and denials found at subpart D of 15 CFR part 904.

(k) *Alteration.* A permit, license, or endorsement that is altered, erased, or mutilated is invalid.

(l) *Replacement.* A replacement permit, license, or endorsement may be issued. An application for a replacement permit, license, or endorsement is not considered a new application.

(m) *Moratorium on commercial vessel permits for Gulf reef fish.* The provisions of this paragraph (m) are applicable through December 31, 2005.

(1) No applications for additional commercial vessel permits for Gulf reef fish will be accepted. Existing vessel permits may be renewed, are subject to the restrictions on transfer or change in paragraphs (m)(2) through (5) of this section, and are subject to the requirement for timely renewal in paragraph (m)(6) of this section.

(2) An owner of a permitted vessel may transfer the commercial vessel permit for Gulf reef fish to another vessel owned by the same entity.

(3) An owner whose earned income qualified for the commercial vessel permit for Gulf reef fish may transfer the permit to the owner of another vessel, or to the new owner when he or she transfers ownership of the permitted vessel. Such owner of another vessel, or new owner, may receive a commercial vessel permit for Gulf reef fish for his or her vessel, and renew it through April 15 following the first full calendar year after obtaining it, without meeting the earned income requirement of paragraph (a)(2)(v) of this section. However, to further renew the commercial vessel permit, the owner of the other vessel, or new owner, must meet the earned income requirement not later than the first full calendar year after the permit transfer takes place.

(4) An owner of a permitted vessel, the permit for which is based on an operator's earned income and, thus, is valid only when that person is the operator of the vessel, may transfer the permit to the income qualifying operator when such operator becomes an owner of a vessel.

(5) An owner of a permitted vessel, the permit for which is based on an operator's earned income and, thus, is valid only when that person is the operator of the vessel, may have the operator qualification on the permit removed, and renew it without such qualification through April 15 following the first full calendar year after removing it, without meeting the earned income requirement of paragraph (a)(2)(v) of this section. However, to further renew the commercial vessel permit, the owner must meet the earned income requirement not later than the first full

calendar year after the operator qualification is removed. To have an operator qualification removed from a permit, the owner must return the original permit to the RA with an application for the changed permit.

(6) A commercial vessel permit for Gulf reef fish that is not renewed or that is revoked will not be reissued. A permit is considered to be not renewed when an application for renewal is not received by the RA within 1 year of the expiration date of the permit.

(n) *Endorsements for fish traps in the Gulf.* The provisions of this paragraph (n) are applicable through February 7, 2007. After February 7, 2007, no fish trap endorsements are valid.

(1) Only those fish trap endorsements that are valid on February 7, 1997, may be renewed. Such endorsements are subject to the restrictions on transfer in paragraphs (n)(2) and (3) of this section and are subject to the requirement for timely renewal in paragraph (n)(5) of this section.

(2) Through February 7, 1999, a fish trap endorsement may be transferred only to a vessel that has a commercial permit for reef fish.

(3) After February 7, 1999, a fish trap endorsement is not transferable except as follows:

(i) An owner of a vessel with a fish trap endorsement may transfer the endorsement to another vessel owned by the same entity.

(ii) A fish trap endorsement is transferable upon a change of ownership of a permitted vessel with such endorsement from one to another of the following: Husband, wife, son, daughter, brother, sister, mother, or father.

(iii) When a change of ownership of a vessel with a fish trap endorsement is directly related to the disability or death of the owner, the RA may issue such endorsement, temporarily or permanently, with the commercial vessel permit for Gulf reef fish that is issued for the vessel under the new owner. Such new owner will be the person specified by the owner or his/her legal guardian, in the case of a disabled owner, or by the will or executor/administrator of the estate, in the case of a deceased owner. (Paragraphs (m)(3) and (4) of this section apply for the transfer of a commercial vessel permit

for Gulf reef fish upon disability or death of an owner.)

(iv) A fish trap endorsement may be transferred to a vessel with a commercial vessel permit for Gulf reef fish whose owner has a record of landings of reef fish from fish traps in the Gulf EEZ, as reported on fishing vessel logbooks received by the SRD, from November 20, 1992, through February 6, 1994, and who was unable to obtain a fish trap endorsement for the vessel with the reported landings.

(4) The owner of a vessel that is to receive a transferred endorsement must return the originals of the endorsed commercial vessel permit for Gulf reef fish and the unendorsed permit to the RA with an application for a fish trap endorsement for his or her vessel.

(5) A fish trap endorsement that is not renewed or that is revoked will not be reissued. Such endorsement is considered to be not renewed when an application for renewal is not received by the RA within 1 year of the expiration date of the permit.

(o) *Moratorium on endorsements for the use of gillnets for king mackerel in the southern Florida west coast subzone.* (1) An initial king mackerel gillnet endorsement will be issued only if—

(i) The vessel owner was the owner of a vessel with a commercial mackerel permit with a gillnet endorsement on or before October 16, 1995; and

(ii) The vessel owner was the owner of a vessel that had gillnet landings of Gulf migratory group king mackerel in one of the two fishing years, July 1, 1995, through June 30, 1996, or July 1, 1996, through June 30, 1997. Such landings must have been documented by NMFS or by the Florida Department of Environmental Protection trip ticket system as of December 31, 1997. Only landings when a vessel had a valid commercial permit for king mackerel with a gillnet endorsement and only landings that were harvested, landed, and sold in compliance with state and Federal regulations may be used to establish eligibility.

(2) Paragraphs (o)(1)(i) and (o)(1)(ii) of this section notwithstanding, the owner of a vessel that received a commercial king mackerel permit through transfer, between March 4, 1998, and March 28, 2000, from a vessel that met

the eligibility requirements in paragraphs (o)(1)(i) and (o)(1)(ii) also qualifies for an initial king mackerel gillnet endorsement.

(3) To obtain an initial king mackerel gillnet endorsement under the moratorium, an owner or operator of a vessel that does not have a king mackerel gillnet endorsement on March 28, 2000 must submit an application to the RA, postmarked or hand delivered not later than June 26, 2000. Except for applications for renewals of king mackerel gillnet endorsements, no applications for king mackerel gillnet endorsements will be accepted after June 26, 2000. Application forms are available from the RA.

(4) The RA will not issue an owner more initial king mackerel gillnet endorsements under the moratorium than the number of vessels with king mackerel gillnet endorsements that the owner owned simultaneously on or before October 16, 1995.

(5) An owner of a vessel with a king mackerel gillnet endorsement issued under this moratorium may transfer that endorsement upon a change of ownership of a permitted vessel with such endorsement from one to another of the following: Husband, wife, son, daughter, brother, sister, mother, or father. Such endorsement also may be transferred to another vessel owned by the same entity.

(6) A king mackerel gillnet endorsement that is not renewed or that is revoked will not be reissued. An endorsement is considered to be not renewed when an application for renewal is not received by the RA within 1 year after the expiration date of the permit that includes the endorsement.

(p) *Gulf red snapper licenses*—(1) *Class 1 licenses*. To be eligible for the 2,000-lb (907-kg) trip limit for Gulf red snapper specified in § 622.44(d)(1), a vessel must have been issued both a valid commercial vessel permit for Gulf reef fish and a valid Class 1 Gulf red snapper license, and such permit and license must be on board.

(2) *Class 2 licenses*. To be eligible for the 200-lb (91-kg) trip limit for Gulf red snapper specified in § 622.44(d)(2), a vessel must have been issued both a valid commercial vessel permit for Gulf reef fish and a valid Class 2 Gulf red snap-

per license, and such permit and license must be on board.

(3) *Operator restriction*. An initial Gulf red snapper license that is issued for a vessel based on the qualification of an operator or historical captain is valid only when that operator or historical captain is the operator of the vessel. When applicable, this operator restriction is shown on the license.

(4) *Transfer of Gulf red snapper licenses*. A red snapper license may be transferred independently of a commercial vessel permit for Gulf reef fish. To request the transfer of a red snapper license, complete the transfer information on the reverse of the license and return it to the RA.

(5) *Initial issue of Gulf red snapper licenses*—(i) *Class 1 licenses*. (A) An initial Class 1 license will be issued for the vessel specified by the holder of a valid red snapper endorsement on March 1, 1997, and to a historical captain. In the event of death or disability of such holder between March 1, 1997, and the date Class 1 licenses are issued, a Class 1 license will be issued for the vessel specified by the person to whom the red snapper endorsement was transferred.

(B) Status as a historical captain is based on information collected under Amendment 9 to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP) (59 FR 39301, August 2, 1994). A historical captain is an operator who—

(1) From November 6, 1989, through 1993, fished solely under verbal or written share agreements with an owner, and such agreements provided for the operator to be responsible for hiring the crew, who was paid from the share under his or her control;

(2) Landed from that vessel at least 5,000 lb (2,268 kg) of red snapper per year in 2 of the 3 years 1990, 1991, and 1992;

(3) Derived more than 50 percent of his or her earned income from commercial fishing, that is, sale of the catch, in each of the years 1989 through 1993; and

(4) Landed red snapper prior to November 7, 1989.

(ii) *Class 2 licenses*. (A) An initial Class 2 license will be issued for the

vessel specified by an owner or operator whose income qualified for a commercial vessel permit for reef fish that was valid on March 1, 1997, and such owner or operator was the person whose earned income qualified for a commercial vessel permit for reef fish that had a landing of red snapper during the period from January 1, 1990, through February 28, 1997.

(B) For the purpose of paragraph (p)(5)(ii)(A) of this section, landings of red snapper are as recorded in the information collected under Amendment 9 to the FMP (59 FR 39301, August 2, 1994) for the period 1990 through 1992 and in fishing vessel logbooks, as required under § 622.5(a)(1)(ii), received by the SRD not later than March 31, 1997, for the period from January 1, 1993, through February 28, 1997.

(C) A vessel's red snapper landings record during the period from January 1, 1990, through February 28, 1997, is retained by the owner at the time of the landings if the vessel's permit was transferred to another vessel owned by him or her. When a vessel has had a change of ownership and concurrent transfer of its permit, the vessel's red snapper landings record is credited to the owner of that vessel on March 1, 1997, unless there is a legally binding agreement under which a previous owner retained the landings record. An owner who claims such retention of a landings record must submit a copy of the agreement to the RA postmarked or hand delivered not later than January 30, 1998. However, an owner who submits a copy of such agreement after January 6, 1998, is not assured that a red snapper license will be issued before the opening of the commercial fishery for red snapper on February 1, 1998.

(6) *Implementation procedures*—(i) *Initial notification*. The RA will notify each owner of a vessel that had a valid permit for Gulf reef fish on March 1, 1997, each operator whose earned income qualified for a valid permit on that date, and each potential historical captain of his or her eligibility for a Class 1 or Class 2 red snapper license. Initial determinations of eligibility will be based on NMFS' records of red snapper endorsements, red snapper landings during the period from Janu-

ary 1, 1990, through February 28, 1997, and applications for historical captain status under Amendment 9 to the FMP (59 FR 39301, August 2, 1994). An owner, operator, or potential historical captain who concurs with NMFS' initial determination of eligibility need take no further action. Each owner, operator, and historical captain who is initially determined to be eligible will be issued an appropriate license not later than January 23, 1998.

(ii) *Reconsideration*. (A) An owner, operator, or potential historical captain who does not concur with NMFS' initial determination of eligibility for historical captain status or for a Class 2 red snapper license may request reconsideration of that initial determination by the RA.

(B) A written request for reconsideration must be submitted to the RA postmarked or hand delivered not later than February 10, 1998, and must provide written documentation supporting the basis for reconsideration. However, an owner who submits such request after January 13, 1998, is not assured that a red snapper license will be issued before the opening of the commercial fishery for red snapper on February 1, 1998. Upon request by the owner, operator, or potential historical captain, the RA will forward the initial determination, the request for reconsideration, and pertinent records to a committee consisting of the principal state officials who are members of the GMFMC, or their designees. An owner, operator, or potential historical captain may request to make a personal appearance before the committee in his or her request for reconsideration. If an owner, operator, or potential historical captain requests that his or her request be forwarded to the committee, such a request constitutes the applicant's written authorization under section 402(b)(1)(F) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) for the RA to make available to the committee members such confidential catch and other records as are pertinent to the matter under reconsideration.

(C) Members of the committee will provide their individual recommendations for each application for reconsideration referred to the committee to

the RA. The committee may only deliberate whether the eligibility criteria specified in paragraph (p)(5) of this section were applied correctly in the applicant's case, based solely on the available record, including documentation submitted by the applicant. Neither the committee nor the RA may consider whether a person should have been eligible for historical captain status or a Class 2 license because of hardship or other factors. The RA will make a final decision based on the initial eligibility criteria in paragraph (p)(5) of this section and the available record, including documentation submitted by the applicant, and, if the request is considered by the committee, the recommendations and comments from each member of the committee. The RA will notify the applicant of the decision and the reason therefore, in writing, within 15 days of receiving the recommendations of the committee members. If the application is not considered by the committee, the RA will provide such notification within 15 days of the RA's receipt of the request for reconsideration. The RA's decision will constitute the final administrative action by NMFS on an application for reconsideration.

(q) Moratorium on commercial vessel permits for king mackerel. This paragraph (q) is effective through October 15, 2005.

(1) No applications for additional commercial vessel permits for king mackerel will be accepted. Existing vessel permits may be renewed, are subject to the restrictions on transfer or change in paragraphs (q)(2) through (q)(5) of this section, and are subject to the requirement for timely renewal in paragraph (q)(6) of this section.

(2) An owner of a permitted vessel may transfer the commercial vessel permit for king mackerel issued under this moratorium to another vessel owned by the same entity.

(3) An owner whose percentage of earned income or gross sales qualified him/her for the commercial vessel permit for king mackerel issued under the moratorium may request that NMFS transfer that permit to the owner of another vessel, or to the new owner when he or she transfers ownership of the permitted vessel. Such owner of an-

other vessel, or new owner, may receive a commercial vessel permit for king mackerel for his or her vessel, and renew it through April 15 following the first full calendar year after obtaining it, without meeting the percentage of earned income or gross sales requirement of paragraph (a)(2)(iii) of this section. However, to further renew the commercial vessel permit, the owner of the other vessel, or new owner, must meet the earned income or gross sales requirement not later than the first full calendar year after the permit transfer takes place.

(4) An owner of a permitted vessel, the permit for which is based on an operator's earned income and, thus, is valid only when that person is the operator of the vessel, may request that NMFS transfer the permit to the income-qualifying operator when such operator becomes an owner of a vessel.

(5) An owner of a permitted vessel, the permit for which is based on an operator's earned income and, thus, is valid only when that person is the operator of the vessel, may have the operator qualification on the permit removed, and renew it without such qualification through April 15 following the first full calendar year after removing it, without meeting the earned income or gross sales requirement of paragraph (a)(2)(iii) of this section. However, to further renew the commercial vessel permit, the owner must meet the earned income or gross sales requirement not later than the first full calendar year after the operator qualification is removed. To have an operator qualification removed from a permit, the owner must return the original permit to the RA with an application for the changed permit.

(6) NMFS will not reissue a commercial vessel permit for king mackerel if the permit is revoked or if the RA does not receive an application for renewal within 1 year of the permit's expiration date.

[61 FR 34937, July 3, 1996, as amended at 61 FR 43956, Aug. 27, 1996; 61 FR 47448, Sept 9, 1996; 61 FR 48414, Sept. 13, 1996; 62 FR 13986, Mar. 25, 1997; 62 FR 67721, 67722, Dec. 30, 1997; 63 FR 10565, 10569, Mar. 4, 1998; 63 FR 38301, July 16, 1998; 63 FR 57590, Oct. 28, 1998; 64 FR 59126, Nov. 2, 1999; 65 FR 16339, Mar. 28, 2000; 65 FR 41017, July 3, 2000; 65 FR 52956, Aug. 31, 2000; 65 FR 61115, Oct. 16, 2000]

§ 622.5 Recordkeeping and reporting.

Participants in fisheries governed in this part are required to keep records and report as follows.

(a) *Commercial vessel owners and operators*—(1) *Requirements by species*—(i) *Coastal migratory pelagic fish*. The owner or operator of a vessel that fishes for or lands coastal migratory pelagic fish for sale in or from the Gulf, Mid-Atlantic, or South Atlantic EEZ or adjoining state waters, or whose vessel is issued a commercial permit for king or Spanish mackerel, as required under § 622.4(a)(2)(iii) or (iv), who is selected to report by the SRD, must maintain a fishing record on a form available from the SRD and must submit such record as specified in paragraph (a)(2) of this section.

(ii) *Gulf reef fish*. The owner or operator of a vessel for which a commercial permit for Gulf reef fish has been issued, as required under § 622.4(a)(2)(v), or whose vessel fishes for or lands reef fish in or from state waters adjoining the Gulf EEZ, who is selected to report by the SRD must maintain a fishing record on a form available from the SRD and must submit such record as specified in paragraph (a)(2) of this section.

(A) *Fish traps*. In addition to the other reporting requirements in paragraph (a)(1)(ii) of this section, the owner or operator of a vessel for which a fish trap endorsement has been issued, as required under § 622.4(a)(2)(i), must comply with the following requirements.

(1) *Inspection*. The RA will establish a 1-month period for mandatory inspection of all fish trap gear, permits, and vessels. The RA will provide written notification of the inspection period to each owner of a vessel for which a fish trap endorsement has been issued as required under § 622.4(a)(2)(i). Each such owner or operator must contact the Special Agent-in-Charge, NMFS, Office of Enforcement, Southeast Region, St. Petersburg, FL (SAC) or his designee by telephone (727–570–5344) to schedule an inspection during the 1-month period. Requests for inspection must be made between 8:00 a.m. and 4:30 p.m. Monday through Friday and must be made at least 72 hours in advance of the desired inspection date. Inspections

will be conducted Monday through Friday between 8:00 a.m. and 4:30 p.m. only. On the inspection date, the owner or operator must make all fish trap gear with attached trap tags and buoys and all applicable permits available for inspection on land. Vessels must also be made available for inspection as directed by the SAC or his designee. Upon completion of the inspection and a determination that all fish trap gear, permits, and vessels are in compliance, an owner or operator may resume fishing with the lawful gear. However, an owner or operator who fails to comply with the inspection requirements during the 1-month inspection period or during any other random inspection may not use or possess a fish trap in the Gulf EEZ until the required inspection or reinspection, as directed by the SAC, has been completed and all fish trap gear, permits, and vessels are determined to be in compliance with all applicable regulations.

(2) *Trip reports*. For each fishing trip on which a fish trap will be used or possessed, an owner or operator of a vessel for which a fish trap endorsement has been issued, as required under § 622.4(a)(2)(i), must submit a trip initiation report and a trip termination report to the SAC or his designee, by telephone, using the following 24-hour toll-free number—800–305–0697.

(i) *Trip initiation report*. The trip initiation report must be submitted before beginning the trip and must include: vessel name; official number; number of traps to be deployed; sequence of trap tag numbers; date, time, and point of departure; and intended time and date of trip termination.

(ii) *Trip termination report*. The trip termination report must be submitted immediately upon returning to port and prior to any offloading of catch or fish traps. The trip termination report must include: vessel name; official number; name and address of dealer where catch will be offloaded and sold; the time offloading will begin; notification of any lost traps; and notification of any traps left deployed for any reason.

(B) [Reserved]

(iii) *Gulf shrimp*. The owner or operator of a vessel that fishes for shrimp in the Gulf EEZ or in adjoining state

waters, or that lands shrimp in an adjoining state, must provide information for any fishing trip, as requested by the SRD, including, but not limited to, vessel identification, gear, effort, amount of shrimp caught by species, shrimp condition (heads on/heads off), fishing areas and depths, and person to whom sold.

(iv) *South Atlantic snapper-grouper.*

(A) The owner or operator of a vessel for which a commercial permit for South Atlantic snapper-grouper has been issued, as required under § 622.4(a)(2)(vi), or whose vessel fishes for or lands South Atlantic snapper-grouper in or from state waters adjoining the South Atlantic EEZ, who is selected to report by the SRD must maintain a fishing record on a form available from the SRD and must submit such record as specified in paragraph (a)(2) of this section.

(B) The wreckfish shareholder under § 622.15, or operator of a vessel for which a commercial permit for wreckfish has been issued, as required under § 622.4(a)(2)(vii), must maintain a fishing record on a form available from the SRD and must submit such record as specified in paragraph (a)(2) of this section.

(C) The wreckfish shareholder under § 622.15, or operator of a vessel for which a commercial permit for wreckfish has been issued, as required under § 622.4(a)(2)(vii), must make available to an authorized officer upon request all records of offloadings, purchases, or sales of wreckfish.

(v) *South Atlantic golden crab.* The owner or operator of a vessel for which a commercial permit for golden crab has been issued, as required under § 622.4(a)(2)(x), who is selected to report by the SRD must maintain a fishing record on a form available from the SRD.

(2) *Reporting deadlines.* (i) Completed fishing records required by paragraphs (a)(1)(i), (ii), and (iv) of this section must be submitted to the SRD postmarked not later than 7 days after the end of each fishing trip. If no fishing occurred during a calendar month, a report so stating must be submitted on one of the forms postmarked not later than 7 days after the end of that month. Information to be reported is

indicated on the form and its accompanying instructions.

(ii) Reporting forms required in paragraph (a)(1)(v) of this section must be submitted to the SRD postmarked not later than 30 days after sale of the golden crab offloaded from a trip. If no fishing occurred during a calendar month, a report so stating must be submitted on one of the forms postmarked not later than 7 days after the end of that month. Information to be reported is indicated on the form and its accompanying instructions.

(b) *Charter vessel/headboat owners and operators—(1) Coastal migratory pelagic fish, reef fish, and snapper-grouper.* The owner or operator of a vessel for which a charter vessel/headboat permit for coastal migratory pelagic fish, Gulf reef fish, or South Atlantic snapper-grouper has been issued, as required under § 622.4(a)(1), or whose vessel fishes for or lands such coastal migratory pelagic fish, reef fish, or snapper-grouper in or from state waters adjoining the Gulf or South Atlantic EEZ, who is selected to report by the SRD must maintain a fishing record for each trip, or a portion of such trips as specified by the SRD, on forms provided by the SRD and must submit such record as specified in paragraph (b)(2) of this section.

(2) *Reporting deadlines—(i) Charter vessels.* Completed fishing records required by paragraph (b)(1) of this section for charter vessels must be submitted to the SRD weekly, postmarked not later than 7 days after the end of each week (Sunday). Information to be reported is indicated on the form and its accompanying instructions.

(ii) *Headboats.* Completed fishing records required by paragraph (b)(1) of this section for headboats must be submitted to the SRD monthly and must either be made available to an authorized statistical reporting agent or be postmarked not later than 7 days after the end of each month. Information to be reported is indicated on the form and its accompanying instructions.

(c) *Dealers—(1) Coastal migratory pelagic fish.* (i) A person who purchases coastal migratory pelagic fish from a fishing vessel, or person, that fishes for or lands such fish in or from the EEZ

§ 622.5

50 CFR Ch. VI (10-1-01 Edition)

or adjoining state waters who is selected to report by the SRD must submit information on forms provided by the SRD. This information must be submitted to the SRD at monthly intervals, postmarked not later than 5 days after the end of each month. Reporting frequency and reporting deadlines may be modified upon notification by the SRD. If no coastal migratory pelagic fish were received during a calendar month, a report so stating must be submitted on one of the forms, in accordance with the instructions on the form, and must be postmarked not later than 5 days after the end of the month. The information to be reported is as follows:

(A) Dealer's or processor's name and address.

(B) County where fish were landed.

(C) Total poundage of each species received during that month, or other requested interval.

(D) Average monthly price paid for each species.

(E) Proportion of total poundage landed by each gear type.

(ii) *Alternate SRD.* For the purposes of paragraph (c)(1)(i) of this section, in the states from New York through Virginia, or in the waters off those states, "SRD" means the Science and Research Director, Northeast Fisheries Science Center, NMFS (see Table 1 of § 600.502 of this chapter), or a designee.

(2) *Gulf red drum.* A dealers or processor who purchases red drum harvested from the Gulf who is selected to report by the SRD must report to the SRD such information as the SRD may request and in the form and manner as the SRD may require. The information required to be submitted must include, but is not limited to, the following:

(i) Dealer's or processor's name and address.

(ii) State and county where red drum were landed.

(iii) Total poundage of red drum received during the reporting period, by each type of gear used for harvest.

(3) *Gulf reef fish.* A person who purchases Gulf reef fish from a fishing vessel, or person, that fishes for or lands such fish in or from the EEZ or adjoining state waters must maintain records and submit information as follows:

(i) A dealer must maintain at his/her principal place of business a record of Gulf reef fish that he/she receives. The record must contain the name of each fishing vessel from which reef fish were received and the date, species, and quantity of each receipt. A dealer must retain such record for at least 1 year after receipt date and must provide such record for inspection upon the request of an authorized officer or the SRD.

(ii) When requested by the SRD, a dealer must provide information from his/her record of Gulf reef fish received the total poundage of each species received during the month, average monthly price paid for each species by market size, and proportion of total poundage landed by each gear type. This information must be provided on forms available from the SRD and must be submitted to the SRD at monthly intervals, postmarked not later than 5 days after the end of the month. Reporting frequency and reporting deadlines may be modified upon notification by the SRD. If no reef fish were received during a calendar month, a report so stating must be submitted on one of the forms, postmarked not later than 5 days after the end of the month.

(iii) The operator of a car or truck that is used to pick up from a fishing vessel reef fish harvested from the Gulf must maintain a record containing the name of each fishing vessel from which reef fish on the car or truck have been received. The vehicle operator must provide such record for inspection upon the request of an authorized officer.

(4) *Gulf shrimp.* A person who purchases shrimp from a vessel, or person, that fishes for shrimp in the Gulf EEZ or in adjoining state waters, or that lands shrimp in an adjoining state, must provide the following information when requested by the SRD:

(i) Name and official number of the vessel from which shrimp were received or the name of the person from whom shrimp were received, if received from other than a vessel.

(ii) Amount of shrimp received by species and size category for each receipt.

(iii) Exvessel value, by species and size category, for each receipt.

Fishery Conservation and Management

§ 622.5

(5) *South Atlantic snapper-grouper.* (i) A person who purchases South Atlantic snapper-grouper that were harvested from the EEZ or from adjoining state waters and who is selected to report by the SRD and a dealer who has been issued a dealer permit for wreckfish, as required under § 622.4(a)(4), must provide information on receipts of South Atlantic snapper-grouper and prices paid, by species, on forms available from the SRD. The required information must be submitted to the SRD at monthly intervals, postmarked not later than 5 days after the end of the month. Reporting frequency and reporting deadlines may be modified upon notification by the SRD. If no South Atlantic snapper-grouper were received during a calendar month, a report so stating must be submitted on one of the forms, postmarked not later than 5 days after the end of the month. However, during complete months encompassed by the wreckfish spawning-season closure (that is, February and March), a wreckfish dealer is not required to submit a report stating that no wreckfish were received.

(ii) A dealer reporting South Atlantic snapper-grouper other than wreckfish may submit the information required in paragraph (c)(5)(i) of this section via facsimile (fax).

(iii) A dealer who has been issued a dealer permit for wreckfish, as required under § 622.4(a)(4), must make available to an authorized officer upon request all records of offloadings, purchases, or sales of wreckfish.

(6) *South Atlantic golden crab.* A dealer who receives from a fishing vessel golden crab harvested from the South Atlantic EEZ and who is selected by the SRD must provide information on receipts of, and prices paid for, South Atlantic golden crab to the SRD at monthly intervals, postmarked not later than 5 days after the end of each month. Reporting frequency and reporting deadlines may be modified upon notification by the SRD.

(7) *South Atlantic rock shrimp.* (i) A dealer who has been issued a permit for rock shrimp, as required under § 622.4(a)(4), and who is selected by the SRD must provide information on receipts of rock shrimp and prices paid on forms available from the SRD. The

required information must be submitted to the SRD at monthly intervals postmarked not later than 5 days after the end of each month. Reporting frequencies and reporting deadlines may be modified upon notification by the SRD.

(ii) On demand, a dealer who has been issued a dealer permit for rock shrimp, as required under § 622.4(a)(4), must make available to an authorized officer all records of offloadings, purchases, or sales of rock shrimp.

(d) *Individuals with coral or live rock permits.* (1) An individual with a Federal allowable octocoral permit must submit a report of harvest to the SRD. Specific reporting requirements will be provided with the permit.

(2) A person with a Federal aquacultured live rock permit must report to the RA each deposition of material on a site. Such reports must be postmarked not later than 7 days after deposition and must contain the following information:

(i) Permit number of site and date of deposit.

(ii) Geological origin of material deposited.

(iii) Amount of material deposited.

(iv) Source of material deposited, that is, where obtained, if removed from another habitat, or from whom purchased.

(3) A person who takes aquacultured live rock must submit a report of harvest to the RA. Specific reporting requirements will be provided with the permit. This reporting requirement is waived for aquacultured live rock that is landed in Florida.

(e) *Additional data and inspection.* Additional data will be collected by authorized statistical reporting agents and by authorized officers. A person who fishes for or possesses species in or from the EEZ governed in this part is required to make the applicable fish or parts thereof available for inspection by the SRD or an authorized officer upon request.

(f) *Commercial vessel, charter vessel, and headboat inventory.* The owner or operator of a commercial vessel, charter vessel, or headboat operating in a fishery governed in this part who is not selected to report by the SRD under paragraph (a) or (b) of this section

§ 622.6

50 CFR Ch. VI (10–1–01 Edition)

must provide the following information when interviewed by the SRD:

- (1) Name and official number of vessel and permit number, if applicable.
- (2) Length and tonnage.
- (3) Current home port.
- (4) Fishing areas.
- (5) Ports where fish were offloaded during the last year.
- (6) Type and quantity of gear.
- (7) Number of full- and part-time fishermen or crew members.

[61 FR 34940, July 3, 1996, as amended at 61 FR 43956, Aug. 27, 1996; 61 FR 47448, Sept. 9, 1996; 63 FR 10567, Mar. 4, 1998; 63 FR 57590, Oct. 28, 1998; 64 FR 59126, Nov. 2, 1999; 64 FR 68935, Dec. 9, 1999]

§ 622.6 Vessel and gear identification.

(a) *Vessel identification*—(1) *Applicability*—(i) *Official number*. A vessel for which a permit has been issued under § 622.4, and a vessel that fishes for or possesses shrimp in the Gulf EEZ, must display its official number—

(A) On the port and starboard sides of the deckhouse or hull and, for vessels over 25 ft (7.6 m) long, on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft.

(B) In block arabic numerals permanently affixed to or painted on the vessel in contrasting color to the background.

(C) At least 18 inches (45.7 cm) in height for vessels over 65 ft (19.8 m) long; at least 10 inches (25.4 cm) in height for vessels over 25 ft (7.6 m) long; and at least 3 inches (7.6 cm) in height for vessels 25 ft (7.6 m) long or less.

(ii) *Official number and color code*. The following vessels must display their official number as specified in paragraph (a)(1)(i) of this section and, in addition, must display their assigned color code: A vessel for which a fish trap endorsement has been issued, as required under § 622.4(a)(2)(i); a vessel for which a permit has been issued to fish with a sea bass pot, as required under § 622.4(a)(2)(vi); a vessel in the commercial Caribbean reef fish fishery fishing with traps; and a vessel in the Caribbean spiny lobster fishery. Color codes required for the Caribbean reef fish fishery and Caribbean spiny lobster fishery are assigned by Puerto Rico or

the U.S. Virgin Islands, whichever is applicable; color codes required in all other fisheries are assigned by the RA. The color code must be displayed—

(A) On the port and starboard sides of the deckhouse or hull and, for vessels over 25 ft (7.6 m) long, on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft.

(B) In the form of a circle permanently affixed to or painted on the vessel.

(C) At least 18 inches (45.7 cm) in diameter for vessels over 65 ft (19.8 m) long; at least 10 inches (25.4 cm) in diameter for vessels over 25 ft (7.6 m) long; and at least 3 inches (7.6 cm) in diameter for vessels 25 ft (7.6 m) long or less.

(2) *Duties of operator*. The operator of a vessel specified in paragraph (a)(1) of this section must keep the official number and the color code, if applicable, clearly legible and in good repair and must ensure that no part of the fishing vessel, its rigging, fishing gear, or any other material on board obstructs the view of the official number or the color code, if applicable, from an enforcement vessel or aircraft.

(b) *Gear identification*—(1) *Traps/pots and associated buoys*—(i) *Traps or pots*—(A) *Caribbean EEZ*. A fish trap or spiny lobster trap used or possessed in the Caribbean EEZ must display the official number specified for the vessel by Puerto Rico or the U.S. Virgin Islands so as to be easily identified.

(B) *Gulf and South Atlantic EEZ*. A fish trap used or possessed in the Gulf EEZ and a sea bass pot used or possessed in the South Atlantic EEZ between 35°15.3' N. lat. (due east of Cape Hatteras Light, NC) and 28°35.1' N. lat. (due east of the NASA Vehicle Assembly Building, Cape Canaveral, FL), or a fish trap or sea bass pot on board a vessel with a commercial permit for Gulf reef fish or South Atlantic snapper-grouper, must have a valid identification tag issued by the RA attached. A golden crab trap used or possessed in the South Atlantic EEZ or on board a vessel with a commercial permit for golden crab must have the commercial vessel permit number permanently affixed so as to be easily distinguished,

Fishery Conservation and Management

§ 622.7

located, and identified; an identification tag issued by the RA may be used for this purpose but is not required.

(ii) *Associated buoys.* A buoy that is attached to a trap or pot must display the official number and assigned color code so as to be easily distinguished, located, and identified as follows:

(A) *Caribbean EEZ.* Each buoy must display the official number and color code assigned to the vessel by Puerto Rico or the U.S. Virgin Islands, whichever is applicable.

(B) *Gulf and South Atlantic EEZ.* Each buoy must display the official number and color code assigned by the RA. In the Gulf EEZ, a buoy must be attached to each trap, or each end trap if traps are connected by a line. In the South Atlantic EEZ, buoys are not required to be used, but, if used, each buoy must display the official number and color code. However, no color code is required on a buoy attached to a golden crab trap.

(iii) *Presumption of ownership.* A Caribbean spiny lobster trap, a fish trap, a golden crab trap, or a sea bass pot in the EEZ will be presumed to be the property of the most recently documented owner. This presumption will not apply with respect to such traps and pots that are lost or sold if the owner reports the loss or sale within 15 days to the RA.

(iv) *Unmarked traps, pots, or buoys.* An unmarked Caribbean spiny lobster trap, a fish trap, a golden crab trap, a sea bass pot, or a buoy deployed in the EEZ where such trap, pot, or buoy is required to be marked is illegal and may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(2) *Gillnet buoys.* On board a vessel with a valid Spanish mackerel permit that is fishing for Spanish mackerel in, or that possesses Spanish mackerel in or from, the South Atlantic EEZ off Florida north of 25°20.4' N. lat., which is a line directly east from the Miami-Dade/Monroe County, FL, boundary, the float line of each gillnet possessed, including any net in use, must have a maximum of nine distinctive floats, i.e., different from the usual net buoys, spaced uniformly at a distance of 100 yd (91.4 m) or less. Each such distinc-

tive float must display the official number of the vessel.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43957, Aug. 27, 1996; 63 FR 10567, Mar. 4, 1998; 63 FR 57590, Oct. 28, 1998; 64 FR 59126, Nov. 2, 1999; 65 FR 52957, Aug. 31, 2000]

§ 622.7 Prohibitions.

In addition to the general prohibitions in § 600.725 of this chapter, it is unlawful for any person to do any of the following:

(a) Engage in an activity for which a valid Federal permit, license, or endorsement is required under § 622.4 without such permit, license, or endorsement.

(b) Falsify information on an application for a permit, license, or endorsement or submitted in support of such application, as specified in § 622.4(b), (g), (p), or (q), or in § 622.18.

(c) Fail to display a permit, license, or endorsement, as specified in § 622.4(i).

(d) Falsify or fail to maintain, submit, or provide information or fail to comply with inspection requirements or restrictions, as specified in § 622.5(a) through (f).

(e) Fail to make a fish, or parts thereof, available for inspection, as specified in § 622.5(e).

(f) Falsify or fail to display and maintain vessel and gear identification, as specified in § 622.6 (a) and (b).

(g) Fail to comply with any requirement or restriction regarding ITQ coupons, as specified in § 622.15(c)(3), (c)(5), (c)(6), or (c)(7).

(h) Possess wreckfish as specified in § 622.15(c)(4), receive wreckfish except as specified in § 622.15(c)(7), or offload a wreckfish except as specified in § 622.15(d)(3) and (d)(4).

(i) Transfer—

(1) A wreckfish, as specified in § 622.15(d)(1);

(2) A limited-harvest species, as specified in § 622.32(c) introductory text;

(3) A species/species group subject to a bag limit, as specified § 622.39(a)(1);

(4) South Atlantic snapper-grouper from a vessel with unauthorized gear on board, as specified in § 622.41(d)(2)(iii); or

(5) A species subject to a commercial trip limit, as specified in § 622.44.

§ 622.8

50 CFR Ch. VI (10–1–01 Edition)

(j) Use or possess prohibited gear or methods or possess fish in association with possession or use of prohibited gear, as specified in § 622.31.

(k) Fish for, harvest, or possess a prohibited species, or a limited-harvest species in excess of its limitation, sell or purchase such species, fail to comply with release requirements, or molest or strip eggs from a Caribbean spiny lobster, as specified in § 622.32.

(l) Fish in violation of the prohibitions, restrictions, and requirements applicable to seasonal and/or area closures, including but not limited to: Prohibition of all fishing, gear restrictions, restrictions on take or retention of fish, fish release requirements, and restrictions on use of an anchor or grapple, as specified in § 622.33, § 622.34, or § 622.35, or as may be specified under § 622.46 (b) or (c).

(m) Harvest, possess, offload, sell, or purchase fish in excess of the seasonal harvest limitations, as specified in § 622.36.

(n) Except as allowed under § 622.37(c) (2) and (3) for king and Spanish mackerel, possess undersized fish, fail to release undersized fish, or sell or purchase undersized fish, as specified in § 622.37.

(o) Fail to maintain a fish intact through offloading ashore, as specified in § 622.38.

(p) Exceed a bag or possession limit, as specified in § 622.39.

(q) Fail to comply with the limitations on traps and pots, including but not limited to: Tending requirements, constructions requirements, and area specific restrictions, as specified in § 622.40.

(r) Fail to comply with the species-specific limitations, as specified in § 622.41.

(s) Fail to comply with the restrictions that apply after closure of a fishery, as specified in § 622.43.

(t) Possess on board a vessel or land, purchase, or sell fish in excess of the commercial trip limits, as specified in § 622.44.

(u) Fail to comply with the restrictions on sale/purchase, as specified in § 622.45.

(v) Interfere with fishing or obstruct or damage fishing gear or the fishing

vessel of another, as specified in § 622.46(a).

(w) Fail to comply with the requirements for observer coverage as specified in § 622.10.

(x) Assault, resist, oppose, impede, intimidate, or interfere with a NMFS-approved observer aboard a vessel.

(y) Prohibit or bar by command, impediment, threat, coercion, or refusal of reasonable assistance, an observer from conducting his or her duties aboard a vessel.

(z) Fish for or possess golden crab in or from a designated fishing zone of the South Atlantic EEZ other than the zone for which the vessel is permitted, as specified in § 622.17(b).

(aa) Falsify information submitted regarding an application for testing a BRD, testing of a BRD, or the results of such testing, as specified in § 622.41(g)(3)(i) or (h)(3).

(bb) [Reserved]

[61 FR 34934, July 3, 1996, as amended at 61 FR 43957, Aug. 27, 1996; 61 FR 48415, Sept. 13, 1996; 62 FR 67722, Dec. 30, 1997; 63 FR 38301, July 16, 1998; 63 FR 57590, Oct. 28, 1998; 64 FR 37693, July 13, 1999; 64 FR 43941, Aug. 12, 1999; 64 FR 68935, Dec. 9, 1999]

§ 622.8 At-sea observer coverage.

(a) If a vessel's trip is selected by the SRD for observer coverage, the owner or operator of a vessel for which a commercial permit for golden crab has been issued, as required under § 622.4(a)(2)(x), must carry a NMFS-approved observer.

(b) When notified in writing by the SRD that his or her vessel has been selected to carry an NMFS-approved observer, an owner or operator must advise the SRD in writing not less than 5 days in advance of each trip of the following:

(1) Departure information (port, dock, date, and time).

(2) Expected landing information (port, dock, and date).

(c) An owner or operator of a vessel on which a NMFS approved observer is embarked must:

(1) Provide accommodations and food that are equivalent to those provided to the crew.

(2) Allow the observer access to and use of the vessel's communications equipment and personnel upon request

Fishery Conservation and Management

§ 622.15

for the transmission and receipt of messages related to the observer's duties.

(3) Allow the observer access to and use of the vessel's navigation equipment and personnel upon request to determine the vessel's position.

(4) Allow the observer free and unobstructed access to the vessel's bridge, working decks, holding bins, weight scales, holds, and any other space used to hold, process, weigh, or store golden crab.

(5) Allow the observer to inspect and copy the vessel's log, communications logs, and any records associated with the catch and distribution of golden crab for that trip.

[61 FR 43957, Aug. 27, 1996, as amended at 63 FR 57590, Oct. 28, 1998]

Subpart B—Effort Limitations

§ 622.15 Wreckfish individual transferable quota (ITQ) system.

The provisions of this section apply to wreckfish in or from the South Atlantic EEZ.

(a) *Percentage shares.* (1) In accordance with the procedure specified in the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region, percentage shares of the quota for wreckfish have been assigned. Each person has been notified by the RA of his or her percentage share and shareholder certificate number.

(2) All or a portion of a person's percentage shares may be transferred to another person. Transfer of shares must be reported on a form available from the RA. The RA will confirm, in writing, each transfer of shares. The effective date of each transfer is the confirmation date provided by the RA. The confirmation date will normally be not later than 3 working days after receipt of a properly completed transfer form. A fee is charged for each transfer of shares. The amount of the fee is calculated in accordance with the procedures of the NOAA Finance Handbook, available from the RA, for determining the administrative costs of each special product or service provided by NOAA to non-Federal recipients. The fee may not exceed such costs and is specified with each transfer form. The

appropriate fee must accompany each transfer form.

(b) *Lists of wreckfish shareholders and permitted vessels.* Annually, on or about March 1, the RA will provide each wreckfish shareholder with a list of all wreckfish shareholders and their percentage shares, reflecting share transactions on forms received through February 15. Annually by April 15, the RA will provide each dealer who holds a dealer permit for wreckfish, as required under § 622.4(a)(4), with a list of vessels for which wreckfish permits have been issued, as required under § 622.4(a)(2)(vii). Annually, by April 15, the RA will provide each wreckfish shareholder with a list of dealers who have been issued dealer permits for wreckfish. From April 16 through January 14, updated lists will be provided when required. Updated lists may be obtained at other times or by a person who is not a wreckfish shareholder or wreckfish dealer permit holder by written request to the RA.

(c) *ITQs.* (1) Annually, as soon after March 1 as the TAC for wreckfish for the fishing year that commences April 16 is known, the RA will calculate each wreckfish shareholder's ITQ. Each ITQ is the product of the wreckfish TAC, in round weight, for the ensuing fishing year, the factor for converting round weight to eviscerated weight, and each wreckfish shareholder's percentage share, reflecting share transactions reported on forms received by the RA through February 15. Thus, the ITQs will be in terms of eviscerated weight of wreckfish.

(2) The RA will provide each wreckfish shareholder with ITQ coupons in various denominations, the total of which equals his or her ITQ, and a copy of the calculations used in determining his or her ITQ. Each coupon will be coded to indicate the initial recipient.

(3) An ITQ coupon may be transferred from one wreckfish shareholder to another by completing the sale endorsement thereon (that is, the signature and shareholder certificate number of the buyer). An ITQ coupon may be possessed only by the shareholder to whom it has been issued, or by the shareholder's employee, contractor, or agent, unless the ITQ coupon has been

§ 622.16

50 CFR Ch. VI (10-1-01 Edition)

transferred to another shareholder. An ITQ coupon that has been transferred to another shareholder may be possessed only by the shareholder whose signature appears on the coupon as the buyer, or by the shareholder's employee, contractor, or agent, and with all required sale endorsements properly completed.

(4) Wreckfish may not be possessed on board a fishing vessel—

(i) In an amount exceeding the total of the ITQ coupons on board the vessel;

(ii) That does not have on board a commercial vessel permit for wreckfish, as required under § 622.4(a)(2)(vii); or

(iii) That does not have on board logbook forms for that fishing trip, as required under § 622.5(a)(1)(iv)(B).

(5) Prior to termination of a trip, a signature and date signed must be affixed in ink to the "Fisherman" part of ITQ coupons in denominations equal to the eviscerated weight of the wreckfish on board. The "Fisherman" part of each such coupon must be separated from the coupon and submitted with the logbook forms required by § 622.5(a)(1)(iv)(B) for that fishing trip.

(6) The "Fish House" part of each such coupon must be given to the dealer to whom the wreckfish are transferred in amounts totaling the eviscerated weight of the wreckfish transferred to that dealer. A wreckfish may be transferred only to a dealer who holds a dealer permit for wreckfish, as required under § 622.4(a)(4).

(7) A dealer may receive a wreckfish only from a vessel for which a commercial permit for wreckfish has been issued, as required under § 622.4(a)(2)(vii). A dealer must receive the "Fish House" part of ITQ coupons in amounts totaling the eviscerated weight of the wreckfish received; enter the permit number of the vessel from which the wreckfish were received, enter the date the wreckfish were received, enter the dealer's permit number, and sign each such "Fish House" part; and submit all such parts with the dealer reports required by § 622.5(c)(5)(i).

(8) An owner or operator of a vessel and a dealer must make available to an authorized officer all ITQ coupons in his or her possession upon request.

(d) *Wreckfish limitations.* (1) A wreckfish taken in the South Atlantic EEZ may not be transferred at sea, regardless of where the transfer takes place; and a wreckfish may not be transferred in the South Atlantic EEZ.

(2) A wreckfish possessed by a fisherman or dealer shoreward of the outer boundary of the South Atlantic EEZ or in a South Atlantic coastal state will be presumed to have been harvested from the South Atlantic EEZ unless accompanied by documentation that it was harvested from other than the South Atlantic EEZ.

(3) A wreckfish may be offloaded from a fishing vessel only between 8 a.m. and 5 p.m., local time.

(4) If a wreckfish is to be offloaded at a location other than a fixed facility of a dealer who holds a dealer permit for wreckfish, as required under § 622.4(a)(4), the wreckfish shareholder or the vessel operator must advise the NMFS, Office of Enforcement, Southeast Region, St. Petersburg, FL, by telephone (1-800-853-1964), of the location not less than 24 hours prior to offloading.

[61 FR 34934, July 3, 1996, as amended at 64 FR 59126, Nov. 2, 1999]

§ 622.16 Red snapper individual transferable quota (ITQ) system.

The ITQ system established by this section will remain in effect through March 31, 2000, during which time NMFS and the GMFMC will evaluate the effectiveness of the system. Based on the evaluation, the system may be modified, extended, or terminated.

(a) *Percentage shares.* (1) Initial percentage shares of the annual quota of red snapper are assigned to persons in accordance with the procedure specified in Amendment 8 to the Fishery Management Plan for the Reef Fish Fishery of the Gulf of Mexico (FMP) and in paragraphs (c)(1) through (c)(4) of this section. Each person is notified by the RD of his or her initial percentage shares. If additional shares become available to NMFS, such as by forfeiture pursuant to subpart F of 15 CFR part 904 for rule violations, such shares will be proportionately reissued to shareholders based on their shares as of November 1, after the additional shares become available. If NMFS is required

to issue additional shares, such as may be required in the resolution of disputes, existing shares will be proportionately reduced. This reduction of shares will be based on shares as of November 1 after the required addition of shares.

(2) All or a portion of a person's percentage shares may be transferred to another person who is a U.S. citizen or permanent resident alien. (See paragraph (c)(5) of this section for restrictions on the transfer of shares in the initial months under the ITQ system.) Transfer of shares must be reported on a form available from the RD. The RD will confirm, in writing, the registration of each transfer. The effective date of each transfer is the confirmation date provided by the RD. The confirmation of registration date will normally be not later than 3 working days after receipt of a properly completed transfer form. However, reports of share transfers received by the RD from November 1 through December 31 will not be recorded or confirmed until after January 1. A fee is charged for each transfer of percentage shares. The amount of the fee is calculated in accordance with the procedures of the NOAA Finance Handbook for determining the administrative costs of each special product or service provided by NOAA to non-Federal recipients. The fee may not exceed such costs and is specified with each transfer form. The appropriate fee must accompany each transfer form.

(3) On or about January 1 each year, the RD will provide each red snapper shareholder with a list of all red snapper shareholders and their percentage shares, reflecting share transfers as indicated on properly completed transfer forms received through October 31. Updated lists may be obtained at other times, and by persons who are not red snapper shareholders, by written request to the RD.

(b) *ITQs.* (1) Annually, as soon after November 15 as the following year's red snapper quota is established, the RD will calculate each red snapper shareholder's ITQ in terms of eviscerated weight. Each ITQ is the product of the red snapper quota, in round weight, for the ensuing fishing year, the factor for converting round weight to eviscerated

weight, and each red snapper shareholder's percentage share, reflecting share transfers reported on forms received by the RD through October 31.

(2) The RD will provide each red snapper shareholder with ITQ coupons in various denominations, the total of which equals his or her ITQ, and a copy of the calculations used in determining his or her ITQ. Each coupon will be coded to indicate the initial recipient.

(3) An ITQ coupon may be transferred. If the transfer is by sale, the seller must enter the sale price on the coupon.

(4) Except when the red snapper bag limit applies, red snapper in or from the EEZ or on board a vessel that has been issued a commercial permit for Gulf reef fish, as required under § 622.4(a)(2)(v), may not be possessed in an amount, in eviscerated weight, exceeding the total of ITQ coupons on board. (See § 622.39(a) for applicability of the bag limit.)

(5) Prior to termination of a trip, the operator's signature and the date signed must be written in ink on the "Vessel" part of ITQ coupons totaling at least the eviscerated weight of the red snapper on board. An owner or operator of a vessel must separate the "Vessel" part of each such coupon, enter thereon the permit number of the dealer to whom the red snapper are transferred, and submit the "Vessel" parts with the logbook forms for that fishing trip. An owner or operator of a vessel must make available to an authorized officer all ITQ coupons in his or her possession upon request.

(6) Red snapper harvested from the EEZ or possessed by a vessel with a commercial permit for Gulf reef fish, as required under § 622.4(a)(2)(v), may be transferred only to a dealer with a Gulf reef fish permit, as required under § 622.4(a)(4). The "Fish House" part of each ITQ coupon must be given to such dealer, or the agent or employee of such dealer, in amounts totaling at least the eviscerated weight of the red snapper transferred to that dealer.

(7) A dealer with a Gulf reef fish permit may receive red snapper only from a vessel that has on board a commercial permit for Gulf reef fish. A dealer, or the agent or employee of a dealer, must receive the "Fish House" part of

ITQ coupons totaling at least the eviscerated weight of the red snapper received. Immediately upon receipt of red snapper, the dealer, or the agent or employee of the dealer, must enter the permit number of the vessel received from and date and sign each such "Fish House" part. The dealer must submit all such parts as required by paragraph (d)(6) of this section. A dealer, agent, or employee must make available to an authorized officer all ITQ coupons in his or her possession upon request.

(c) *Procedures for implementation—(1) Initial shareholders.* The following persons are initial shareholders in the red snapper ITQ system:

(i) Either the owner or operator of a vessel with a valid permit on August 29, 1995, provided such owner or operator had a landing of red snapper during the period 1990 through 1992. If the earned income of an operator was used to qualify for the permit that is valid on August 29, 1995, such operator is the initial shareholder rather than the owner. In the case of an owner, the term "person" includes a corporation or other legal entity; and

(ii) A historical captain. A historical captain means an operator who meets all of the following qualifications:

(A) From November 6, 1989, through 1993, fished solely under verbal or written share agreements with an owner, and such agreements provided for the operator to be responsible for hiring the crew, who was paid from the share under his or her control.

(B) Landed from that vessel at least 5,000 lb (2,268 kg) of red snapper per year in 2 of the 3 years 1990, 1991, and 1992.

(C) Derived more than 50 percent of his or her earned income from commercial fishing, that is, sale of the catch, in each of the years 1989 through 1993.

(D) Landed red snapper prior to November 7, 1989.

(2) *Initial shares.* (i) Initial shares are apportioned to initial shareholders based on each shareholder's average of the top 2 years' landings in 1990, 1991, and 1992. However, no person who is an initial shareholder under paragraph (c)(1) of this section will receive an initial percentage share that will amount to less than 100 lb (45.36 kg), round

weight, of red snapper (90 lb (41 kg), eviscerated weight).

(ii) The percentage shares remaining after the minimum shares have been calculated under paragraph (c)(2)(i) of this section are apportioned based on each remaining shareholder's average of the top 2 years' landings in 1990, 1991, and 1992. In a case where a landing is associated with an owner and a historical captain, such landing is apportioned between the owner and historical captain in accordance with the share agreement in effect at the time of the landing.

(iii) The determinations of landings of red snapper during the period 1990 through 1992 and historical captain status are made in accordance with the data collected under Amendment 9 to the FMP. Those data identify each red snapper landing during the period 1990 through 1992. Each landing is associated with an owner and, when an operator's earned income was used to qualify for the vessel permit at the time of the landing, with such operator. Where appropriate, a landing is also associated with a historical captain. However, a red snapper landings record during that period that is associated solely with an owner may be retained by that owner or transferred as follows:

(A) An owner of a vessel with a valid commercial permit for Gulf reef fish on August 29, 1995, who transferred a vessel permit to another vessel owned by him or her will retain the red snapper landings record for the previous vessel.

(B) An owner of a vessel with a valid commercial permit for Gulf reef fish on August 29, 1995, will retain the landings record of a permitted vessel if the vessel had a change of ownership to another entity without a substantive change in control of the vessel. It will be presumed that there was no substantive change in control of a vessel if a successor in interest received at least a 50 percent interest in the vessel as a result of the change of ownership whether the change of ownership was—

(1) From a closely held corporation to its majority shareholder;

(2) From an individual who became the majority shareholder of a closely held corporation receiving the vessel;

Fishery Conservation and Management

§ 622.16

(3) Between closely held corporations with a common majority shareholder; or

(4) From one to another of the following: Husband, wife, son, daughter, brother, sister, mother, or father.

(C) In other cases of transfer of a permit through change of ownership of a vessel, an owner of a vessel with a valid commercial permit for Gulf reef fish on August 29, 1995, will receive credit for the landings record of the vessel before his or her ownership only if there is a legally binding agreement for transfer of the landings record.

(iv) Requests for transfers of landings records must be submitted to the RD and must be postmarked not later than December 14, 1995. The RD may require documentation supporting such request. After considering requests for transfers of landings records, the RD will advise each initial shareholder or applicant of his or her tentative allocation of shares.

(3) *Notification of status.* The RD will advise each owner, operator, and historical captain for whom NMFS has a record of a red snapper landing during the period 1990 through 1992, including those who submitted such record under Amendment 9 to the FMP, of his or her tentative status as an initial shareholder and the tentative landings record that will be used to calculate his or her initial share.

(4) *Appeals.* (i) A special advisory panel, appointed by the GMFMC to function as an appeals board, will consider written requests from persons who contest their tentative status as an initial shareholder, including historical captain status, or tentative landings record. In addition to considering written requests, the board may allow personal appearances by such persons before the board.

(ii) The panel is only empowered to consider disputed calculations or determinations based on documentation submitted under Amendment 9 to the FMP regarding landings of red snapper during the period 1990 through 1992, including transfers of such landings records, or regarding historical captain status. In addition, the panel may consider applications and documentation of landings not submitted under Amendment 9 if, in the board's opinion,

there is justification for the late application and documentation. The board is not empowered to consider an application from a person who believes he or she should be eligible because of hardship or other factors.

(iii) A written request for consideration by the board must be submitted to the RD, postmarked not later than December 27, 1995, and must contain documentation supporting the allegations that form the basis for the request.

(iv) The board will meet as necessary to consider each request that is submitted in a timely manner. Members of the appeals board will provide their individual recommendations for each appeal to the GMFMC, which will in turn submit its recommendation to the RD. The board and the GMFMC will recommend whether the eligibility criteria, specified in Amendment 8 to the FMP and paragraphs (c)(1) and (c)(2) of this section, were correctly applied in each case, based solely on the available record including documentation submitted by the applicant. The GMFMC will also base its recommendation on the recommendations of the board. The RD will decide the appeal based on the above criteria and the available record, including documentation submitted by the applicant and the recommendation of the GMFMC. The RD will notify the appellant of his decision and the reason therefor, in writing, normally within 45 days of receiving the GMFMC's recommendation. The RD's decision will constitute the final administrative action by NMFS on an appeal.

(v) Upon completion of the appeal process, the RD will issue share certificates to initial shareholders.

(5) *Transfers of shares.* The following restrictions apply to the transfer of shares:

(i) The transfer of shares is prohibited through September 30, 1996.

(ii) From October 1, 1996, through September 30, 1997, shares may be transferred only to other persons who are initial shareholders and are U.S. citizens or permanent resident aliens.

(d) *Exceptions/additions to general measures.* Other provisions of this part notwithstanding—

(1) Management of the red snapper ITQ system extends to adjoining state

§ 622.17

waters in the manner stated in paragraphs (d)(2) and (d)(3) of this section.

(2) For a dealer to receive red snapper harvested from state waters adjoining the Gulf EEZ by or possessed on board a vessel with a commercial permit for Gulf reef fish, the dealer permit for Gulf reef fish specified in § 622.4(a)(4) must have been issued to the dealer.

(3) A copy of the dealer's permit must accompany each vehicle that is used to pick up from a fishing vessel red snapper from adjoining state waters harvested by or possessed on board a vessel with a commercial permit for Gulf reef fish.

(4) As a condition of a commercial vessel permit for Gulf reef fish, without regard to where red snapper are harvested or possessed, a vessel with such permit must comply with the red snapper ITQ requirements of paragraph (b) of this section; may not transfer or receive red snapper at sea; and must maintain red snapper with head and fins intact through landing, and the exceptions to that requirement contained in § 622.38(d) do not apply to red snapper. Red snapper may be eviscerated, gilled, and scaled but must otherwise be maintained in a whole condition.

(5) As a condition of a dealer permit for Gulf reef fish, as required under § 622.4(a)(4) or under paragraph (d)(2) of this section, without regard to where red snapper are harvested or possessed, a permitted dealer must comply with the red snapper ITQ requirements of paragraph (b) of this section.

(6) In any month that a red snapper is received, a dealer must submit the report required under § 622.5(c)(3)(ii). The "Fish House" parts of red snapper individual transferable coupons, received during the month in accordance with paragraph (b) of this section, must be submitted to the SRD with the report.

(7) It is unlawful for a person to do any of the following:

(i) Receive red snapper from a fishing vessel without a dealer permit for Gulf reef fish.

(ii) Fail to carry a copy of the dealer's permit, as specified in paragraph (d)(3) of this section.

(iii) Fail to comply with a condition of a permit, as specified in paragraph (d)(4) or (d)(5) of this section.

50 CFR Ch. VI (10-1-01 Edition)

(iv) Fail to report red snapper received, as specified in paragraph (d)(6) of this section.

EFFECTIVE DATE NOTE: At 61 FR 48415, Sept. 13, 1996, § 622.16 was stayed indefinitely.

§ 622.17 South Atlantic golden crab controlled access.

(a) *General.* In accordance with the procedures specified in the Fishery Management Plan for the Golden Crab Fishery of the South Atlantic Region, initial vessel permits have been issued for the fishery. No additional permits may be issued.

(b) *Fishing zones.* (1) The South Atlantic EEZ is divided into three fishing zones for golden crab. A permitted vessel may fish for golden crab only in the zone shown on its permit. A vessel may possess golden crab only in that zone, except that other zones may be transited if the vessel notifies NMFS, Office of Enforcement, Southeast Region, St. Petersburg, FL, by telephone (727-570-5344) in advance and does not fish in an unpermitted zone. The designated fishing zones are as follows:

(i) Northern zone—the South Atlantic EEZ north of 28° N. lat.

(ii) Middle zone—the South Atlantic EEZ from 25° N. lat. to 28° N. lat.

(iii) Southern zone—the South Atlantic EEZ south of 25° N. lat.

(2) An owner of a permitted vessel may request that NMFS change the zone specified on a permit from the middle or southern zone to the northern zone. A request for such change and the existing permit must be submitted from an owner of a permitted vessel to the RA.

(c) *Transfer.* (1) An owner of a vessel with a valid golden crab permit may request that NMFS transfer the permit to another vessel by returning the existing permit(s) to the RA with an application for a permit for the replacement vessel.

(2) To obtain a commercial vessel permit via transfer, the owner of the replacement vessel must submit to the RA a valid permit for a vessel with a documented length overall, or permits for vessels with documented aggregate lengths overall, of at least 90 percent of the documented length overall of the replacement vessel.

(3) In addition to the provisions of paragraph (c)(2) of this section, the owner of a permitted vessel who has requested that NMFS transfer that permit to a smaller vessel (i.e., downsized) may subsequently request NMFS transfer that permit to a vessel of a length calculated from the length of the permitted vessel immediately prior to downsizing.

(d) *Renewal.* In addition to the procedures and requirements of § 622.4(h) for commercial vessel permit renewals, for a golden crab permit to be renewed, the SRD must have received reports for the permitted vessel, as required by § 622.5(a)(1)(v), documenting that at least 5,000 lb (2,268 kg) of golden crab were landed from the South Atlantic EEZ by the permitted vessel during at least one of the two 12-month periods immediately prior to the expiration date of the vessel permit.

[63 FR 57590, Oct. 28, 1998, as amended at 64 FR 59126, Nov. 2, 1999; 65 FR 61116, Oct. 16, 2000]

§ 622.18 South Atlantic snapper-grouper limited access.

(a) *Applicability.* Beginning December 14, 1998, the only valid commercial vessel permits for South Atlantic snapper-grouper are those that have been issued under the limited access criteria in this section. A vessel may have either a transferable commercial permit or a trip-limited commercial permit for South Atlantic snapper-grouper.

(b) *Initial eligibility.* A vessel is eligible for an initial limited access commercial permit for South Atlantic snapper-grouper if the owner owned a vessel with a commercial vessel permit for South Atlantic snapper-grouper at any time from February 11, 1996, through February 11, 1997, and owned a permitted vessel that had at least one landing of snapper-grouper from the South Atlantic from January 1, 1993, through August 20, 1996, as reported on fishing vessel logbooks received by the SRD on or before August 20, 1996. An owner whose permitted vessels had landings of snapper-grouper from the South Atlantic of at least 1,000 lb (453.6 kg), whole weight, in any one of the years 1993, 1994, or 1995, or in 1996 through August 20, as reported on fishing vessel logbooks received by the

SRD on or before August 20, 1996, is eligible for an initial transferable permit. All other qualifying owners are eligible for an initial trip-limited permit.

(c) *Determinations of eligibility—(1) Permit history.* The sole basis for determining whether a vessel had a commercial vessel permit for South Atlantic snapper-grouper at any time from February 11, 1996, through February 11, 1997, is NMFS' permit records. An owner of a currently permitted vessel who believes he/she meets the February 11, 1996, through February 11, 1997, permit history criterion based on ownership of a vessel under a different name, as may have occurred when ownership has changed from individual to corporate or vice versa, must document his/her continuity of ownership. No more than one owner of a currently permitted vessel will be credited with meeting the permit history criterion based on a vessel's permit history.

(2) *Landings.* (i) Landings of snapper-grouper from the South Atlantic during the qualifying period are determined from fishing vessel logbooks received by the SRD on or before August 20, 1996. State trip ticket data may be considered in support of claimed landings provided such trip ticket data were received by the state on or before September 20, 1996.

(ii) Only landings when a vessel had a valid commercial permit for snapper-grouper and only landings that were harvested, landed, and sold in compliance with state and Federal regulations may be used to establish eligibility.

(iii) For the purpose of eligibility for a limited access commercial permit for snapper-grouper, the owner of a vessel that had a commercial snapper-grouper permit during the qualifying period retains the snapper-grouper landings record of that vessel during the time of his/her ownership unless a sale of the vessel included a written agreement that credit for such landings was transferred to the new owner. Such transfer of credit must be for the vessel's entire record of landings of snapper-grouper from the South Atlantic.

(d) *Implementation procedures—(1) Notification of status.* On or about July 27, 1998, the RA will notify each owner of a vessel that had a commercial permit

for South Atlantic snapper-grouper at any time from February 11, 1996, through February 11, 1997, and each owner of a vessel that has a commercial permit for South Atlantic snapper-grouper on July 16, 1998, of NMFS' initial determination of eligibility for either a transferable or a trip-limited, limited access commercial permit for South Atlantic snapper-grouper. Each notification will include an application for such permit. Addresses for such notifications will be based on NMFS' permit records. A vessel owner who believes he/she qualifies for a limited access commercial permit for South Atlantic snapper-grouper and who does not receive such notification must obtain an application from the RA.

(2) *Applications.* (i) An owner of a vessel who desires a limited access commercial permit for South Atlantic snapper-grouper must submit an application for such permit postmarked or hand-delivered not later than October 14, 1998. Failure to apply in a timely manner will preclude permit issuance even when the vessel owner meets the eligibility criteria for such permit.

(ii) A vessel owner who agrees with NMFS' initial determination of eligibility, including type of permit (transferable or trip-limited), need provide no documentation of eligibility with his/her application.

(iii) A vessel owner who disagrees with the initial determination of eligibility or type of permit must specify the type of permit applied for and provide documentation of eligibility. Documentation and other information submitted on or with an application are subject to verification by comparison with state, Federal, and other records and information. Submission of false documentation or information may disqualify an owner from initial participation in the limited access commercial South Atlantic snapper-grouper fishery and is a violation of the regulations in this part.

(iv) If an application that is post-marked or hand delivered in a timely manner is incomplete, the RA will notify the vessel owner of the deficiency. If the owner fails to correct the deficiency within 20 days of the date of the RA's notification, the application will be considered abandoned.

(3) *Issuance.* (i) If a complete application is submitted in a timely manner and the eligibility requirements specified in paragraph (b) of this section are met, the RA will issue an initial commercial vessel permit, transferable or trip-limited, as appropriate, and mail it to the vessel owner not later than December 3, 1998.

(ii) If the eligibility requirements specified in paragraph (b) of this section are not met, the RA will notify the vessel owner, in writing, not later than November 13, 1998 of such determination and the reasons for it.

(4) *Reconsideration.* (i) A vessel owner may request reconsideration of the RA's determination regarding initial permit eligibility by submitting a written request for reconsideration to the RA. Such request must be postmarked or hand delivered within 20 days of the date of the RA's notification denying initial permit issuance and must provide written documentation supporting permit eligibility.

(ii) Upon receipt of a request for reconsideration, the RA will forward the initial application, the RA's response to that application, the request for reconsideration, and pertinent records to an Application Oversight Board consisting of state directors (or their designees) from each state in the Council's area of jurisdiction. Upon request, a vessel owner may make a personal appearance before the Application Oversight Board.

(iii) If reconsideration by the Application Oversight Board is requested, such request constitutes the vessel owner's written authorization under section 402(b)(1)(F) of the Magnuson-Stevens Act for the RA to make available to the Application Oversight Board members such confidential catch and other records as are pertinent to the matter under reconsideration.

(iv) The Application Oversight Board may only deliberate whether the eligibility criteria specified in paragraph (b) of this section were applied correctly in the vessel owner's case, based solely on the available record, including documentation submitted by the owner. The Application Oversight Board may not consider whether an owner should have been eligible for a commercial vessel permit because of

Fishery Conservation and Management

§ 622.31

hardship or other factors. The Application Oversight Board members will provide individual recommendations for each application for reconsideration to the RA.

(v) The RA will make a final decision based on the eligibility criteria specified in paragraph (b) of this section and the available record, including documentation submitted by the vessel owner, and the recommendations and comments from members of the Application Oversight Board. The RA may not consider whether a vessel owner should have been eligible for a commercial vessel permit because of hardship or other factors. The RA will notify the owner of the decision and the reason for it, in writing, within 15 days of receiving the recommendations from the Application Oversight Board members. The RA's decision will constitute the final administrative action by NMFS.

(e) *Transfers of permits.* A snapper-grouper limited access permit is valid only for the vessel and owner named on the permit. To change either the vessel or the owner, an application for transfer must be submitted to the RA.

(1) *Transferable permits.* (i) An owner of a vessel with a transferable permit may request that the RA transfer the permit to another vessel owned by the same entity.

(ii) A transferable permit may be transferred upon a change of ownership of a permitted vessel with such permit from one to another of the following: Husband, wife, son, daughter, brother, sister, mother, or father.

(iii) A transferable permit may be transferred to a vessel whose owner had, as of August 20, 1996, a written contract for the purchase of a vessel that included a provision transferring to the new owner the rights to any limited access permit to which the former owner might become entitled under the provisions for initial issue of limited access permits. To be considered, any such written contract must be submitted to the RA postmarked or hand-delivered on or before December 14, 1998.

(iv) Except as provided in paragraphs (e)(1)(i), (ii), and (iii) of this section, a person desiring to acquire a limited access, transferable permit for South At-

lantic snapper-grouper must obtain and exchange two such permits for one new permit.

(v) A transfer of a permit that is undertaken under paragraph (e)(1)(ii), (e)(1)(iii), or (e)(1)(iv) of this section will constitute a transfer of the vessel's entire catch history to the new owner.

(2) *Trip-limited permits.* An owner of a vessel with a triplimited permit may request that the RA transfer the permit to another vessel owned by the same entity.

(f) *Renewal.* NMFS will not reissue a commercial vessel permit for South Atlantic snapper-grouper if the permit is revoked or if the RA does not receive an application for renewal within 60 days of the permit's expiration date.

[63 FR 38301, July 16, 1998, as amended at 64 FR 59126, Nov. 2, 1999; 65 FR 51252, Aug. 23, 2000]

Subpart C—Management Measures

§ 622.30 Fishing years.

The fishing year for species or species groups governed in this part is January 1 through December 31 except for the following:

(a) *Allowable octocoral*— October 1 through September 30.

(b) *King and Spanish mackerel.* The fishing year for the king and Spanish mackerel bag limits specified in § 622.39(c)(1) is January 1 through December 31. The following fishing years apply only for the king and Spanish mackerel quotas specified in § 622.42(c):

(1) *Gulf migratory group king mackerel*— July 1 through June 30.

(2) *All other migratory groups of king and Spanish mackerel*— April 1 through March 31.

(c) *Wreckfish*— April 16 through April 15.

(d) *South Atlantic greater amberjack*— May 1 through April 30.

[61 FR 34934, July 3, 1996, as amended at 64 FR 3627, Jan. 25, 1999]

§ 622.31 Prohibited gear and methods.

In addition to the prohibited gear/methods specified in this section, see §§ 622.33, 622.34, and 622.35 for seasonal/area prohibited gear/methods and

§ 622.32

50 CFR Ch. VI (10-1-01 Edition)

§ 622.41 for species specific authorized and unauthorized gear/methods.

(a) *Explosives.* An explosive (except an explosive in a powerhead) may not be used to fish in the Caribbean, Gulf, or South Atlantic EEZ. A vessel fishing in the EEZ for a species governed in this part, or a vessel for which a permit has been issued under § 622.4, may not have on board any dynamite or similar explosive substance.

(b) *Chemicals and plants.* A toxic chemical may not be used or possessed in a coral area, and a chemical, plant, or plant-derived toxin may not be used to harvest a Caribbean coral reef resource in the Caribbean EEZ.

(c) *Fish traps.* (1) A fish trap may not be used in the South Atlantic EEZ.

(2) A fish trap may not be used or possessed in the Gulf EEZ west of 85°30' W. long. and, after February 7, 2007, may not be used or possessed in the Gulf EEZ.

(3) A fish trap used other than where authorized in paragraph (c) (1) or (2) of this section may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(d) *Longlines for wreckfish.* A bottom longline may not be used to fish for wreckfish in the South Atlantic EEZ. A person aboard a vessel that has a longline on board may not retain a wreckfish in or from the South Atlantic EEZ. For the purposes of this paragraph, a vessel is considered to have a longline on board when a power-operated longline hauler, a cable of diameter suitable for use in the longline fishery longer than 1.5 mi (2.4 km) on any reel, and gangions are on board. Removal of any one of these three elements constitutes removal of a longline.

(e) *Poisons.* (1) A poison, drug, or other chemical may not be used to fish for Caribbean reef fish in the Caribbean EEZ.

(2) A poison may not be used to take Gulf reef fish in the Gulf EEZ.

(3) A poison may not be used to fish for South Atlantic snapper-grouper in the South Atlantic EEZ.

(f) *Power-assisted tools.* A power-assisted tool may not be used in the Caribbean EEZ to take a Caribbean coral reef resource or in the Gulf or South Atlantic EEZ to take allowable

octocoral, prohibited coral, or live rock.

(g) *Powerheads.* A powerhead may not be used in the Caribbean EEZ to harvest Caribbean reef fish or in the EEZ off South Carolina to harvest South Atlantic snapper-grouper. The possession of a mutilated Caribbean reef fish in or from the Caribbean EEZ, or a mutilated South Atlantic snapper-grouper in or from the EEZ off South Carolina, and a powerhead is *prima facie* evidence that such fish was harvested by a powerhead.

(h) *Rebreathers and spearfishing gear.* In the South Atlantic EEZ, a person using a rebreather may not harvest South Atlantic snapper-grouper with spearfishing gear. The possession of such snapper-grouper while in the water with a rebreather is *prima facie* evidence that such fish was harvested with spearfishing gear while using a rebreather.

(i) *Sea bass pots.* A sea bass pot may not be used in the South Atlantic EEZ south of 28°35.1' N. lat. (due east of the NASA Vehicle Assembly Building, Cape Canaveral, FL). A sea bass pot deployed in the EEZ south of 28°35.1' N. lat. may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(j) *Spears and hooks.* A spear, hook, or similar device may not be used in the Caribbean EEZ to harvest a Caribbean spiny lobster. The possession of a speared, pierced, or punctured Caribbean spiny lobster in or from the Caribbean EEZ is *prima facie* evidence of violation of this section.

[61 FR 34934, July 3, 1996, as amended at 62 FR 13987, Mar. 25, 1997; 63 FR 10567, Mar. 4, 1998; 63 FR 57590, Oct. 28, 1998]

§ 622.32 Prohibited and limited-harvest species.

(a) *General.* The harvest and possession restrictions of this section apply without regard to whether the species is harvested by a vessel operating under a commercial vessel permit. The operator of a vessel that fishes in the EEZ is responsible for the limit applicable to that vessel.

(b) *Prohibited species.* Prohibited species, by geographical area, are as follows:

Fishery Conservation and Management

§ 622.32

(1) *Caribbean.* (i) Caribbean prohibited coral may not be fished for or possessed in or from the Caribbean EEZ. The taking of Caribbean prohibited coral in the Caribbean EEZ is not considered unlawful possession provided it is returned immediately to the sea in the general area of fishing.

(ii) Four-eye, banded, and longsnout butterflyfish; jewfish; Nassau grouper; and seahorses may not be harvested or possessed in or from the Caribbean EEZ. Such fish caught in the Caribbean EEZ must be released immediately with a minimum of harm.

(iii) Egg-bearing spiny lobster in the Caribbean EEZ must be returned to the water unharmed. An egg-bearing spiny lobster may be retained in a trap, provided the trap is returned immediately to the water. An egg-bearing spiny lobster may not be stripped, scraped, shaved, clipped, or in any other manner molested, in order to remove the eggs.

(2) *Gulf.* (i) Gulf and South Atlantic prohibited coral taken as incidental catch in the Gulf EEZ must be returned immediately to the sea in the general area of fishing. In fisheries where the entire catch is landed unsorted, such as the scallop and groundfish fisheries, unsorted prohibited coral may be landed ashore; however, no person may sell or purchase such prohibited coral.

(ii) Jewfish may not be harvested or possessed in or from the Gulf EEZ.

(iii) Red drum and Nassau grouper may not be harvested or possessed in or from the Gulf EEZ. Such fish caught in the Gulf EEZ must be released immediately with a minimum of harm.

(3) *Mid-Atlantic.* Red drum may not be harvested or possessed in or from the Mid-Atlantic EEZ south of a line extending in a direction of 115° from true north commencing at a point at 40°29.6' N. lat., 73°54.1' W. long., such point being the intersection of the New Jersey/New York boundary with the 3-nm line denoting the seaward limit of state waters. Red drum caught in such portion of the Mid-Atlantic EEZ must be released immediately with a minimum of harm.

(4) *South Atlantic.* (i) Gulf and South Atlantic prohibited coral taken as incidental catch in the South Atlantic EEZ must be returned immediately to the

sea in the general area of fishing. In fisheries where the entire catch is landed unsorted, such as the scallop and groundfish fisheries, unsorted prohibited coral may be landed ashore; however, no person may sell or purchase such prohibited coral.

(ii) Jewfish and Nassau grouper may not be harvested or possessed in or from the South Atlantic EEZ. Jewfish and Nassau grouper taken in the South Atlantic EEZ incidentally by hook-and-line must be released immediately by cutting the line without removing the fish from the water.

(iii) Red drum may not be harvested or possessed in or from the South Atlantic EEZ. Red drum caught in the South Atlantic EEZ must be released immediately with a minimum of harm.

(iv) Wild live rock may not be harvested or possessed in the South Atlantic EEZ.

(v) It is intended that no female golden crabs in or from the South Atlantic EEZ be retained on board a vessel and that any female golden crab in or from the South Atlantic EEZ be released in a manner that will ensure maximum probability of survival. However, to accommodate legitimate incidental catch and retention, the number of female golden crabs in or from the South Atlantic EEZ retained on board a vessel may not exceed 0.5 percent, by number, of all golden crabs on board. See § 622.45(f)(1) regarding the prohibition of sale of female golden crabs.

(vi) South Atlantic snapper-grouper may not be possessed in whole, gutted, or filleted form by a person aboard a vessel fishing for or possessing golden crab in or from the South Atlantic EEZ or possessing a golden crab trap in the South Atlantic. Only the head, fins, and backbone (collectively the "rack") of South Atlantic snapper-grouper may be possessed for use as bait.

(c) *Limited-harvest species.* A person who fishes in the EEZ may not combine a harvest limitation specified in this paragraph (c) with a harvest limitation applicable to state waters. A species subject to a harvest limitation specified in this paragraph (c) taken in the EEZ may not be transferred at sea, regardless of where such transfer takes place, and such species may not be transferred in the EEZ.

§ 622.33

(1) *Cobia*. No person may possess more than two cobia per day in or from the Gulf, Mid-Atlantic, or South Atlantic EEZ, regardless of the number of trips or duration of a trip.

(2) *Cubera snapper*. No person may harvest more than two cubera snapper measuring 30 inches (76.2 cm), TL, or larger, per day in the South Atlantic EEZ off Florida and no more than two such cubera snapper in or from the South Atlantic EEZ off Florida may be possessed on board a vessel at any time.

(3) *Speckled hind and warsaw grouper*. The possession of speckled hind and warsaw grouper in or from the South Atlantic EEZ is limited to one of each per vessel per trip.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43959, Aug. 27, 1996; 62 FR 13988, Mar. 25, 1997; 63 FR 10567, Mar. 4, 1998]

§ 622.33 Caribbean EEZ seasonal and/or area closures.

(a) *Seasonal closures*. (1) *Mutton snapper spawning aggregation area*. From March 1 through June 30, each year, fishing is prohibited in that part of the following area that is in the EEZ. The area is bounded by rhumb lines connecting, in order, the points listed.

Point	North lat.	West long.
A	17°37.8'	64°53.0'
B	17°39.0'	64°53.0'
C	17°39.0'	64°50.5'
D	17°38.1'	64°50.5'
E	17°37.8'	64°52.5'
A	17°37.8'	64°53.0'

(2) *Red hind spawning aggregation areas*. From December 1 through February 28, each year, fishing is prohibited in those parts of the following areas that are in the EEZ. Each area is bounded by rhumb lines connecting, in order, the points listed.

(i) East of St. Croix.

Point	North lat.	West long.
A	17°50.2'	64°27.9'
B	17°50.1'	64°26.1'
C	17°49.2'	64°25.8'
D	17°48.6'	64°25.8'
E	17°48.1'	64°26.1'
F	17°47.5'	64°26.9'
A	17°50.2'	64°27.9'

(ii) *West of Puerto Rico*—(A) Bajo de Cico.

50 CFR Ch. VI (10–1–01 Edition)

Point	North lat.	West long.
A	18°15.7'	67°26.4'
B	18°15.7'	67°23.2'
C	18°12.7'	67°23.4'
D	18°12.7'	67°26.4'
A	18°15.7'	67°26.47'

(B) *Tourmaline Bank*.

Point	North lat.	West long.
A	18°11.2'	67°22.4'
B	18°11.2'	67°19.2'
C	18°08.2'	67°19.2'
D	18°08.2'	67°22.4'
A	18°11.2'	67°22.4'

(C) *Abrir La Sierra Bank*.

Point	North lat.	West long.
A	18°06.5'	67°26.9'
B	18°06.5'	67°23.9'
C	18°03.5'	67°23.9'
D	18°03.5'	67°26.9'
A	18°06.5'	67°26.9'

(3) *Queen conch closure*. From July 1 through September 30, each year, no person may fish for queen conch in the Caribbean EEZ and no person may possess on board a fishing vessel a queen conch in or from the Caribbean EEZ.

(b) *Year-round area closures*. (1) *Hind Bank Marine Conservation District (MCD)*. The following activities are prohibited within the Hind Bank MCD: Fishing for any species, and anchoring by fishing vessels. The Hind Bank MCD is bounded by rhumb lines connecting, in order, the points listed.

Point	North lat.	West long.
A	18°13.2'	65°06.0'
B	18°13.2'	64°59.0'
C	18°11.8'	64°59.0'
D	18°10.7'	65°06.0'
A	18°13.2'	65°06.0'

(2) [Reserved]

[64 FR 60133, Nov. 4, 1999]

§ 622.34 Gulf EEZ seasonal and/or area closures.

(a) *Alabama SMZ*. The Alabama SMZ consists of artificial reefs and surrounding areas. In the Alabama SMZ, fishing by a vessel that is operating as a charter vessel or headboat, a vessel that does not have a commercial permit for Gulf reef fish, as required under § 622.4(a)(2), or a vessel with such a permit fishing for Gulf reef fish is limited to hook-and-line gear with three or

Fishery Conservation and Management

§ 622.34

fewer hooks per line and spearfishing gear. A person aboard a vessel that uses on any trip gear other than hook-and-line gear with three or fewer hooks per line and spearfishing gear in the Alabama SMZ is limited on that trip to the bag limits for Gulf reef fish specified in §622.39(b) and, for Gulf reef fish for which no bag limit is specified in §622.39(b), the vessel is limited to 5 percent, by weight, of all fish on board or landed. The Alabama SMZ is bounded by rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
A	30°02.5'	88°07.7'
B	30°02.6'	87°59.3'
C	29°55.0'	87°55.5'
D	29°54.5'	88°07.5'
A	30°02.5'	88°07.7'

(b) *Florida middle grounds HAPC.* Fishing with a bottom longline, bottom trawl, dredge, pot, or trap is prohibited year round in the area bounded by rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
A	28°42.5'	84°24.8'
B	28°42.5'	84°16.3'
C	28°11.0'	84°00.0'
D	28°11.0'	84°07.0'
E	28°26.6'	84°24.8'
A	28°42.5'	84°24.8'

(c) *Reef fish longline and buoy gear restricted area.* A person aboard a vessel that uses, on any trip, longline or buoy gear in the longline and buoy gear restricted area is limited on that trip to the bag limits for Gulf reef fish specified in §622.39(b)(1) and, for Gulf reef fish for which no bag limit is specified in §622.39(b)(1), the vessel is limited to 5 percent, by weight, of all fish on board or landed. The longline and buoy gear restricted area is that part of the Gulf EEZ shoreward of rhumb lines connecting, in order, the points listed in Table 1, in Appendix B of this part.

(d) *Riley's Hump seasonal closure.* From May 1 through June 30, each year, fishing is prohibited in the following area bounded by rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
A	24°32.2'	83°08.7'

Point	North lat.	West long.
B	24°32.2'	83°05.2'
C	24°28.7'	83°05.2'
D	24°28.7'	83°08.7'
A	24°32.2'	83°08.7'

(e) *Shrimp/stone crab separation zones.* Five zones are established in the Gulf EEZ and Florida's waters off Citrus and Hernando Counties for the separation of shrimp trawling and stone crab trapping. Although Zone II is entirely within Florida's waters, it is included in this paragraph (e) for the convenience of fishermen. Restrictions that apply to Zone II and those parts of the other zones that are in Florida's waters are contained in Rule 46-38.001, Florida Administrative Code. Geographical coordinates of the points referred to in this paragraph (e) are as follows:

Point	North lat.	West long.
A	28°59'30"	82°45'36"
B	28°59'30"	83°00'10"
C	28°26'01"	82°59'47"
D	28°26'01"	82°56'54"
E	28°41'39"	82°55'25"
F	28°41'39"	82°56'09"
G	28°48'56"	82°56'19"
H	28°53'51"	82°51'19"
I ¹	28°54'43"	82°44'52"
J ²	28°51'09"	82°44'00"
K	28°50'59"	82°54'16"
L	28°41'39"	82°53'56"
M ³	28°41'39"	82°38'46"
N	28°41'39"	82°53'12"
O	28°30'51"	82°55'11"
P	28°40'00"	82°53'08"
Q	28°40'00"	82°47'58"
R	28°35'14"	82°47'47"
S	28°30'51"	82°52'55"
T	28°27'46"	82°55'09"
U	28°30'51"	82°52'09"

¹ Crystal River Entrance Light 1A.
² Long Pt. (southwest tip).
³ Shoreline.

(1) *Zone I* is enclosed by rhumb lines connecting, in order, points A, B, C, D, T, E, F, G, H, I, and J, plus the shoreline between points A and J. It is unlawful to trawl in that part of Zone I that is in the EEZ from October 5 through May 20, each year.

(2) *Zone II* is enclosed by rhumb lines connecting, in order, points J, I, H, K, L, and M, plus the shoreline between points J and M.

(3) *Zone III* is enclosed by rhumb lines connecting, in order, points P, Q, R, U, S, and P. It is unlawful to trawl in that part of Zone III that is in the EEZ from October 5 through May 20, each year.

§ 622.34

50 CFR Ch. VI (10–1–01 Edition)

(4) *Zone IV* is enclosed by rhumb lines connecting, in order, points E, N, S, O, and E.

(i) It is unlawful to place a stone crab trap in that part of *Zone IV* that is in the EEZ from October 5 through December 1 and from April 2 through May 20, each year.

(ii) It is unlawful to trawl in that part of *Zone IV* that is in the EEZ from December 2 through April 1, each year.

(5) *Zone V* is enclosed by rhumb lines connecting, in order, points F, G, K, L, and F.

(i) It is unlawful to place a stone crab trap in that part of *Zone V* that is in the EEZ from October 5 through November 30 and from March 16 through May 20, each year.

(ii) It is unlawful to trawl in that part of *Zone V* that is in the EEZ from December 1 through March 15, each year.

(f) *Southwest Florida seasonal trawl closure.* From January 1 to 1 hour after official sunset on May 20, each year, trawling, including trawling for live bait, is prohibited in that part of the Gulf EEZ shoreward of rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
B ¹	26°16.0'	81°58.5'
C	26°00.0'	82°04.0'
D	25°09.0'	81°47.6'
E	24°54.5'	81°50.5'
M ¹	24°49.3'	81°46.4'

¹ On the seaward limit of Florida's waters.

(g) *Reef fish stressed area.* The stressed area is that part of the Gulf EEZ shoreward of rhumb lines connecting, in order, the points listed in Table 2, in Appendix B of this part.

(1) A powerhead may not be used in the stressed area to take Gulf reef fish. Possession of a powerhead and a mutilated Gulf reef fish in the stressed area or after having fished in the stressed area constitutes *prima facie* evidence that such reef fish was taken with a powerhead in the stressed area. The provisions of this paragraph do not apply to the following species: dwarf sand perch, hogfish, and sand perch.

(2) A roller trawl may not be used in the stressed area. Roller trawl means a trawl net equipped with a series of large, solid rollers separated by several

smaller spacer rollers on a separate cable or line (sweep) connected to the footrope, which makes it possible to fish the gear over rough bottom, that is, in areas unsuitable for fishing conventional shrimp trawls. Rigid framed trawls adapted for shrimping over uneven bottom, in wide use along the west coast of Florida, and shrimp trawls with hollow plastic rollers for fishing on soft bottoms, are not considered roller trawls.

(3) A fish trap may not be used in the stressed area. A fish trap used in the stressed area will be considered unclaimed or abandoned property and may be disposed of in any appropriate manner by the Assistant Administrator (including an authorized officer).

(h) *Texas closure.* (1) From 30 minutes after official sunset on May 15 to 30 minutes after official sunset on July 15, trawling, except trawling for royal red shrimp beyond the 100-fathom (183-m) depth contour, is prohibited in the Gulf EEZ off Texas.

(2) In accordance with the procedures and restrictions of the Fishery Management Plan for the Shrimp Fishery of the Gulf of Mexico, the RA may adjust the closing and/or opening date of the Texas closure to provide an earlier, later, shorter, or longer closure, but the duration of the closure may not exceed 90 days or be less than 45 days. Notification of the adjustment of the closing or opening date will be published in the FEDERAL REGISTER.

(i) *Tortugas shrimp sanctuary.* (1) The Tortugas shrimp sanctuary is closed to trawling. The Tortugas shrimp sanctuary is that part of the EEZ off Florida shoreward of rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
N ¹	25°52.9'	81°37.9'
F	24°50.7'	81°51.3'
G ²	24°40.1'	82°26.7'
H ³	24°34.7'	82°35.2'
P ⁴	24°35.0'	82°08.0'

¹ Coon Key Light.
² New Ground Rocks Light.
³ Rebecca Shoal Light.
⁴ Marquesas Keys.

(2) The provisions of paragraph (i)(1) of this section notwithstanding—

(i) Effective from April 11 through September 30, each year, that part of

Fishery Conservation and Management

§ 622.34

the Tortugas shrimp sanctuary seaward of rhumb lines connecting the following points is open to trawling: From point T at 24°47.8' N. lat., 82°01.0' W. long. to point U at 24°43.83' N. lat., 82°01.0' W. long. (on the line denoting the seaward limit of Florida's waters); thence along the seaward limit of Florida's waters, as shown on the current edition of NOAA chart 11439, to point V at 24°42.55' N. lat., 82°15.0' W. long.; thence north to point W at 24°43.6' N. lat., 82°15.0' W. long.

(ii) Effective from April 11 through July 31, each year, that part of the Tortugas shrimp sanctuary seaward of rhumb lines connecting the following points is open to trawling: From point W to point V, both points as specified in paragraph (i)(2)(i) of this section, to point G, as specified in paragraph (i)(1) of this section.

(iii) Effective from May 26 through July 31, each year, that part of the Tortugas shrimp sanctuary seaward of rhumb lines connecting the following points is open to trawling: From point F, as specified in paragraph (i)(1) of this section, to point Q at 24°46.7' N. lat., 81°52.2' W. long. (on the line denoting the seaward limit of Florida's waters); thence along the seaward limit of Florida's waters, as shown on the current edition of NOAA chart 11439, to point U and north to point T, both points as specified in paragraph (i)(2)(i) of this section.

(j) *West and East Flower Garden Banks HAPC.* Fishing with a bottom longline, bottom trawl, dredge, pot, or trap is prohibited year-round in the HAPC. The West and East Flower Garden Banks are geographically centered at 27°52'14.21" N. lat., 93°48'54.79" W. long. and 27°55'07.44" N. lat., 93°36'08.49" W. long., respectively. The HAPC extends from these centers to the 50-fathom (300-ft) (91.4-m) isobath.

(k) *Closure of the Madison and Swanson sites and Steamboat Lumps.* No person may fish within the Madison and Swanson sites or Steamboat Lumps for any species of fish except highly migratory species. Highly migratory species means tuna species, marlin (*Tetrapturus spp.* and *Makaira spp.*), oceanic sharks, sailfishes (*Istiophorus spp.*), and swordfish (*Xiphias gladius*). This prohibition is effective through

June 16, 2004. For the purpose of this paragraph (k), fish means finfish, mollusks, crustaceans, and all other forms of marine animal and plant life other than marine mammals and birds. The Madison and Swanson sites are bounded by rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
A	29°17'	85°50'
B	29°17'	85°38'
C	29°06'	85°38'
D	29°06'	85°50'
A	29°17'	85°50'

Steamboat Lumps is bounded by rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
A	28°14'	84°48'
B	28°14'	84°37'
C	28°03'	84°37'
D	28°03'	84°48'
A	28°14'	84°48'

(1) *Closures of the commercial fishery for red snapper.* The commercial fishery for red snapper in or from the Gulf EEZ is closed from January 1 to noon on February 1 and thereafter from noon on the 10th of each month to noon on the first of each succeeding month until the quota specified in §622.42(a)(1)(i)(A) is reached or until noon on October 1, whichever occurs first. From October 1 to December 1, the commercial fishery for red snapper in or from the Gulf EEZ is closed from noon on the 10th of each month to noon on the first of each succeeding month until the quota specified in §622.42(a)(1)(i)(B) is reached or until the end of the fishing year, whichever occurs first. All times are local times. During these closed periods, the possession of red snapper in or from the Gulf EEZ and in the Gulf on board a vessel for which a commercial permit for Gulf reef fish has been issued, as required under §622.4(a)(2)(v), without regard to where such red snapper were harvested, is limited to the bag and possession limits, as specified in §622.39(b)(1)(iii) and (b)(2), respectively, and such red snapper are subject to the prohibition

§ 622.35

on sale or purchase of red snapper possessed under the bag limit, as specified in § 622.45(c)(1). However, when the recreational quota for red snapper has been reached and the bag and possession limit has been reduced to zero, the limit for such possession during a closed period is zero.

(m) *Closures of the recreational fishery for red snapper.* The recreational fishery for red snapper in or from the Gulf EEZ is closed from January 1 through April 20 and from November 1 through December 31. During a closure, the bag and possession limit for red snapper in or from the Gulf EEZ is zero.

(n) [Reserved]

(o) *Seasonal closure of the commercial fishery for gag, red grouper, and black grouper.* From February 15 to March 15, each year, no person aboard a vessel for which a valid Federal commercial permit for Gulf reef fish has been issued may possess gag, red grouper, or black grouper in the Gulf, regardless of where harvested. However, a person aboard a vessel for which the permit indicates both charter vessel/headboat for Gulf reef fish and commercial Gulf reef fish may continue to retain gag, red grouper, and black grouper under the bag and possession limit specified in § 622.39(b), provided the vessel is operating as a charter vessel or headboat. From February 15 until March 15, each year, the sale or purchase of gag, red grouper, or black grouper is prohibited as specified in § 622.45(c)(4).

(p) *Closures of the Gulf group king mackerel gillnet fishery.* The gillnet fishery for Gulf group king mackerel in or from the Gulf EEZ is closed each fishing year from July 1 until 6:00 a.m. on the day after the Martin Luther King Jr. Federal holiday. The gillnet fishery also is closed during all subsequent weekends and observed Federal holidays, except for the first weekend following the Martin Luther King Jr. holiday which will remain open to the gillnet fishery provided a notification of closure of that fishery has not been filed under § 622.43(a). Weekend closures are effective from 6:00 a.m. Saturday to 6:00 a.m. Monday. Holiday closures are effective from 6:00 a.m. on the observed Federal holiday to 6:00 a.m. the following day. All times are eastern standard time. During these closures, a

50 CFR Ch. VI (10–1–01 Edition)

person aboard a vessel using or possessing a gillnet with a stretched-mesh size of 4.75 inches (12.1 cm) or larger in the southern Florida west coast subzone may not fish for or possess Gulf group king mackerel.

[61 FR 34934, July 3, 1996, as amended at 61 FR 48642, Sept. 16, 1996; 62 FR 46679, Sept. 4, 1997; 62 FR 47767, Sept. 11, 1997; 62 FR 67722, Dec. 30, 1997; 64 FR 47713, Sept. 1, 1999; 64 FR 57404, Oct. 25, 1999; 64 FR 59126, Nov. 2, 1999; 65 FR 30363, May 11, 2000; 65 FR 31830, May 19, 2000; 65 FR 50162, Aug. 17, 2000]

§ 622.35 South Atlantic EEZ seasonal and/or area closures.

(a) *Allowable octocoral closed area.* No person may harvest or possess allowable octocoral in the South Atlantic EEZ north of 28°35.1' N. lat. (due east of the NASA Vehicle Assembly Building, Cape Canaveral, FL).

(b) *Longline closed areas.* A longline may not be used to fish in the EEZ for South Atlantic snapper-grouper south of 27°10' N. lat. (due east of the entrance to St. Lucie Inlet, FL); or north of 27°10' N. lat. where the charted depth is less than 50 fathoms (91.4 m), as shown on the latest edition of the largest scale NOAA chart of the location. A person aboard a vessel with a longline on board that fishes on a trip in the South Atlantic EEZ south of 27°10' N. lat., or north of 27°10' N. lat. where the charted depth is less than 50 fathoms (91.4 m), is limited on that trip to the bag limit for South Atlantic snapper-grouper for which a bag limit is specified in § 622.39(d)(1), and to zero for all other South Atlantic snapper-grouper. For the purpose of this paragraph, a vessel is considered to have a longline on board when a power-operated longline hauler, a cable or monofilament of diameter and length suitable for use in the longline fishery, and gangions are on board. Removal of any one of these three elements constitutes removal of a longline.

(c) *Oculina Bank—(1) HAPC.* The Oculina Bank HAPC encompasses an area bounded on the north by 28°30' N. lat., on the south by 27°30' N. lat., on the east by the 100-fathom (183-m) contour, as shown on the latest edition of NOAA chart 11460, and on the west by 80°00' W. long.; and two adjacent areas: the first bounded on the north by 28°30'

Fishery Conservation and Management

§ 622.35

N. lat., on the south by 28°29' N. lat., on the east by 80°00' W. long., and on the west by 80°03' W. long.; and the second bounded on the north by 28°17' N. lat., on the south by 28°16' N. lat., on the east by 80°00' W. long., and on the west by 80°03' W. long. In the Oculina Bank HAPC, no person may:

(i) Use a bottom longline, bottom trawl, dredge, pot, or trap.

(ii) If aboard a fishing vessel, anchor, use an anchor and chain, or use a grapple and chain.

(iii) Fish for rock shrimp or possess rock shrimp in or from the area on board a fishing vessel.

(2) *Experimental closed area.* Within the Oculina Bank HAPC, the experimental closed area is bounded on the north by 27°53' N. lat., on the south by 27°30' N. lat., on the east by 79°56' W. long., and on the west by 80°00' W. long. No person may fish for South Atlantic snapper-grouper in the experimental closed area, and no person may retain South Atlantic snapper-grouper in or from the area. In the experimental closed area, any South Atlantic snapper-grouper taken incidentally by hook-and-line gear must be released immediately by cutting the line without removing the fish from the water.

(d) *South Atlantic shrimp cold weather closure.* (1) Pursuant to the procedures and criteria established in the FMP for the Shrimp Fishery of the South Atlantic Region, when Florida, Georgia, North Carolina, or South Carolina closes all or a portion of its waters of the South Atlantic to the harvest of brown, pink, and white shrimp, the Assistant Administrator may concurrently close the South Atlantic EEZ adjacent to the closed state waters by filing a notification of closure with the Office of the Federal Register. Closure of the adjacent EEZ will be effective until the ending date of the closure in state waters, but may be ended earlier based on the state's request. In the latter case, the Assistant Administrator will terminate a closure of the EEZ by filing a notification to that effect with the Office of the Federal Register.

(2) During a closure, as specified in paragraph (d)(1) of this section—

(i) No person may trawl for brown shrimp, pink shrimp, or white shrimp in the closed portion of the EEZ (closed

area); and no person may possess on board a fishing vessel brown shrimp, pink shrimp, or white shrimp in or from a closed area, except as authorized in paragraph (d)(2)(iii) of this section.

(ii) No person aboard a vessel trawling in that part of a closed area that is within 25 nm of the baseline from which the territorial sea is measured may use or have on board a trawl net with a mesh size less than 4 inches (10.2 cm), as measured between the centers of opposite knots when pulled taut.

(iii) Brown shrimp, pink shrimp, or white shrimp may be possessed on board a fishing vessel in a closed area, provided the vessel is in transit and all trawl nets with a mesh size less than 4 inches (10.2 cm), as measured between the centers of opposite knots when pulled taut, are stowed below deck while transiting the closed area. For the purpose of this paragraph, a vessel is in transit when it is on a direct and continuous course through a closed area.

(e) *SMZs.* (1) The SMZs consist of artificial reefs and surrounding areas as follows:

(i) *Paradise Reef* is bounded on the north by 33°31.59' N. lat.; on the south by 33°30.51' N. lat.; on the east by 78°57.55' W. long.; and on the west by 78°58.85' W. long.

(ii) *Ten Mile Reef* is bounded on the north by 33°26.65' N. lat.; on the south by 33°24.80' N. lat.; on the east by 78°51.08' W. long.; and on the west by 78°52.97' W. long.

(iii) *Pawleys Island Reef* is bounded on the north by 33°26.58' N. lat.; on the south by 33°25.76' N. lat.; on the east by 79°00.29' W. long.; and on the west by 79°01.24' W. long.

(iv) *Georgetown Reef* is bounded on the north by 33°14.90' N. lat.; on the south by 33°13.85' N. lat.; on the east by 78°59.45' W. long.; and on the west by 79°00.65' W. long.

(v) *Capers Reef* is bounded on the north by 32°45.45' N. lat.; on the south by 32°43.91' N. lat.; on the east by 79°33.81' W. long.; and on the west by 79°35.10' W. long.

(vi) *Kiawah Reef* is bounded on the north by 32°29.78' N. lat.; on the south by 32°28.25' N. lat.; on the east by

§ 622.35

50 CFR Ch. VI (10–1–01 Edition)

79°59.00' W. long.; and on the west by 80°00.95' W. long.

(vii) *Edisto Offshore Reef* is bounded on the north by 32°15.30' N. lat.; on the south by 32°13.90' N. lat.; on the east by 79°50.25' W. long.; and on the west by 79°51.45' W. long.

(viii) *Hunting Island Reef* is bounded on the north by 32°13.72' N. lat.; on the south by 32°12.30' N. lat.; on the east by 80°19.23' W. long.; and on the west by 80°21.00' W. long.

(ix) *Fripp Island Reef* is bounded on the north by 32°15.92' N. lat.; on the south by 32°14.75' N. lat.; on the east by 80°21.62' W. long.; and on the west by 80°22.90' W. long.

(x) *Betsy Ross Reef* is bounded on the north by 32°03.60' N. lat.; on the south by 32°02.88' N. lat.; on the east by 80°24.57' W. long.; and on the west by 80°25.50' W. long.

(xi) *Hilton Head Reef/Artificial Reef—T* is bounded on the north by 32°00.71' N. lat.; on the south by 31°59.42' N. lat.; on the east by 80°35.23' W. long.; and on the west by 80°36.37' W. long.

(xii) *Artificial Reef—A* is bounded on the north by 30°57.4' N. lat.; on the south by 30°55.4' N. lat.; on the east by 81°13.9' W. long.; and on the west by 81°16.3' W. long.

(xiii) *Artificial Reef—C* is bounded on the north by 30°52.0' N. lat.; on the south by 30°50.0' N. lat.; on the east by 81°08.5' W. long.; and on the west by 81°10.9' W. long.

(xiv) *Artificial Reef—G* is bounded on the north by 31°00.0' N. lat.; on the south by 30°58.0' N. lat.; on the east by 80°56.8' W. long.; and on the west by 80°59.2' W. long.

(xv) *Artificial Reef—F* is bounded on the north by 31°06.8' N. lat.; on the south by 31°04.8' N. lat.; on the east by 81°10.5' W. long.; and on the west by 81°13.4' W. long.

(xvi) *Artificial Reef—J* is bounded on the north by 31°36.7' N. lat.; on the south by 31°34.7' N. lat.; on the east by 80°47.3' W. long.; and on the west by 80°50.1' W. long.

(xvii) *Artificial Reef—L* is bounded on the north by 31°46.0' N. lat.; on the south by 31°44.0' N. lat.; on the east by 80°34.7' W. long.; and on the west by 80°37.1' W. long.

(xviii) *Artificial Reef—KC* is bounded on the north by 31°51.2' N. lat.; on the

south by 31°49.2' N. lat.; on the east by 80°45.3' W. long.; and on the west by 80°47.7' W. long.

(xix) *Ft. Pierce Inshore Reef* is bounded on the north by 27°26.8' N. lat.; on the south by 27°25.8' N. lat.; on the east by 80°09.24' W. long.; and on the west by 80°10.36' W. long.

(xx) *Ft. Pierce Offshore Reef* is bounded by rhumb lines connecting, in order, the following points:

Point	North lat.	West long.
A	27°23.68'	80°03.95'
B	27°22.80'	80°03.60'
C	27°23.94'	80°00.02'
D	27°24.85'	80°00.33'
A	27°23.68'	80°03.95'

(xxi) *Key Biscayne/Artificial Reef—H* is bounded on the north by 25°42.82' N. lat.; on the south by 25°41.32' N. lat.; on the east by 80°04.22' W. long.; and on the west by 80°05.53' W. long.

(xxii) *Little River Offshore Reef* is bounded on the north by 33°42.10' N. lat.; on the south by 33°41.10' N. lat.; on the east by 78°26.40' W. long.; and on the west by 78°27.10' W. long.

(xxiii) *BP-25 Reef* is bounded on the north by 33°21.70' N. lat.; on the south by 33°20.70' N. lat.; on the east by 78°24.80' W. long.; and on the west by 78°25.60' W. long.

(xxiv) *Vermilion Reef* is bounded on the north by 32°57.80' N. lat.; on the south by 32°57.30' N. lat.; on the east by 78°39.30' W. long.; and on the west by 78°40.10' W. long.

(xxv) *Cape Romaine Reef* is bounded on the north by 33°00.00' N. lat.; on the south by 32°59.50' N. lat.; on the east by 79°02.01' W. long.; and on the west by 79°02.62' W. long.

(xxvi) *Y-73 Reef* is bounded on the north by 32°33.20' N. lat.; on the south by 32°32.70' N. lat.; on the east by 79°19.10' W. long.; and on the west by 79°19.70' W. long.

(xxvii) *Eagles Nest Reef* is bounded on the north by 32°01.48' N. lat.; on the south by 32°00.98' N. lat.; on the east by 80°30.00' W. long.; and on the west by 80°30.65' W. long.

(xxviii) *Bill Perry Jr. Reef* is bounded on the north by 33°26.20' N. lat.; on the south by 33°25.20' N. lat.; on the east by 78°32.70' W. long.; and on the west by 78°33.80' W. long.

(xxix) *Comanche Reef* is bounded on the north by 32°27.40' N. lat.; on the south by 32°26.90' N. lat.; on the east by 79°18.80' W. long.; and on the west by 79°19.60' W. long.

(xxx) *Murrel's Inlet 60 Foot Reef* is bounded on the north by 33°17.50' N. lat.; on the south by 33°16.50' N. lat.; on the east by 78°44.67' W. long.; and on the west by 78°45.98' W. long.

(xxxii) *Georgetown 95 Foot Reef* is bounded on the north by 33°11.75' N. lat.; on the south by 33°10.75' N. lat.; on the east by 78°24.10' W. long.; and on the west by 78°25.63' W. long.

(xxxiii) *New Georgetown 60 Foot Reef* is bounded on the north by 33°09.25' N. lat.; on the south by 33°07.75' N. lat.; on the east by 78°49.95' W. long.; and on the west by 78°51.45' W. long.

(xxxiv) *North Inlet 45 Foot Reef* is bounded on the north by 33°21.03' N. lat.; on the south by 33°20.03' N. lat.; on the east by 79°00.31' W. long.; and on the west by 79°01.51' W. long.

(xxxv) *CJ Davidson Reef* is bounded on the north by 33°06.48' N. lat.; on the south by 33°05.48' N. lat.; on the east by 79°00.27' W. long.; and on the west by 79°01.39' W. long.

(xxxvi) *Greenville Reef* is bounded on the north by 32°57.25' N. lat.; on the south by 32°56.25' N. lat.; on the east by 78°54.25' W. long.; and on the west by 78°55.25' W. long.

(xxxvii) *Charleston 60 Foot Reef* is bounded on the north by 32°33.60' N. lat.; on the south by 32°32.60' N. lat.; on the east by 79°39.70' W. long.; and on the west by 79°40.90' W. long.

(xxxviii) *Edisto 60 Foot Reef* is bounded on the north by 32°21.75' N. lat.; on the south by 32°20.75' N. lat.; on the east by 80°04.10' W. longitude; and on the west by 80°05.70' W. long.

(xxxix) *Edisto 40 Foot Reef* is bounded on the north by 32°25.78' N. lat.; on the south by 32°24.78' N. lat.; on the east by 80°11.24' W. long.; and on the west by 80°12.32' W. long.

(xl) *Beaufort 45 Foot Reef* is bounded on the north by 32°07.65' N. lat.; on the south by 32°06.65' N. lat.; on the east by 80°28.80' W. long.; and on the west by 80°29.80' W. long.

(xli) *Artificial Reef—ALT* is bounded on the north by 31°18.6' N. lat.; on the south by 31°16.6' N. lat.; on the east by

81°07.0' W. long.; and on the west by 81°09.4' W. long.

(xlii) *Artificial Reef—CAT* is bounded on the north by 31°40.2' N. lat.; on the south by 31°38.2' N. lat.; on the east by 80°56.2' W. long.; and on the west by 80°58.6' W. long.

(xliii) *Artificial Reef—CCA* is bounded on the north by 31°43.7' N. lat.; on the south by 31°41.7' N. lat.; on the east by 80°40.0' W. long.; and on the west by 80°42.3' W. long.

(xliv) *Artificial Reef—DRH* is bounded on the north by 31°18.0' N. lat.; on the south by 31°16.0' N. lat.; on the east by 80°56.6' W. long.; and on the west by 80°59.0' W. long.

(xlv) *Artificial Reef—DUA* is bounded on the north by 31°47.8' N. lat.; on the south by 31°45.8' N. lat.; on the east by 80°52.1' W. long.; and on the west by 80°54.5' W. long.

(xlvi) *Artificial Reef—DW* is bounded on the north by 31°22.8' N. lat.; on the south by 31°20.3' N. lat.; on the east by 79°49.8' W. long.; and on the west by 79°51.1' W. long.

(xlvii) *Artificial Reef—KBY* is bounded on the north by 30°48.6' N. lat.; on the south by 30°46.6' N. lat.; on the east by 81°15.0' W. long.; and on the west by 81°17.4' W. long.

(xlviii) *Artificial Reef—KTK* is bounded on the north by 31°31.3' N. lat.; on the south by 31°29.3' N. lat.; on the east by 80°59.1' W. long.; and on the west by 81°01.5' W. long.

(xlix) *Artificial Reef—MRY* is bounded on the north by 30°47.5' N. lat.; on the south by 30°45.5' N. lat.; on the east by 81°05.5' W. long.; and on the west by 81°07.8' W. long.

(l) *Artificial Reef—SAV* is bounded on the north by 31°55.4' N. lat.; on the south by 31°53.4' N. lat.; on the east by 80°45.2' W. long.; and on the west by 80°47.6' W. long.

(li) *Artificial Reef—SFC* is bounded on the north by 31°00.8' N. lat.; on the south by 30°59.8' N. lat.; on the east by 81°02.2' W. long.; and on the west by 81°03.4' W. long.

(lii) *Artificial Reef—WW* is bounded on the north by 31°43.5' N. lat.; on the south by 31°42.2' N. lat.; on the east by 79°57.7' W. long.; and on the west by 79°59.3' W. long.

§ 622.36

50 CFR Ch. VI (10–1–01 Edition)

(2) To determine what restrictions apply in the SMZs listed in § 622.35(e)(1), follow this table:

IN SMZs SPECIFIED IN THE FOLLOWING PARAGRAPHS OF § 622.35	THESE RESTRICTIONS APPLY
(e)(1)(i) through (x), (e)(1)(xx), and (e)(1)(xxii) through (xxxix)	Use of a powerhead to take South Atlantic snapper-grouper is prohibited. Possession of a powerhead and a mutilated South Atlantic snapper-grouper in, or after having fished in, one of these SMZs constitutes <i>prima facie</i> evidence that such fish was taken with a powerhead in the SMZ.
(e)(1)(i) through (xviii) and (e)(1)(xxii) through (li)	Fishing may only be conducted with handline, rod and reel, and spearfishing gear.
(e)(1)(i) through (li) (e)(1)(xii) through (xviii) and (e)(1)(xl) through (li)	Use of a sea bass pot or bottom longline is prohibited. Possession of South Atlantic snapper-grouper taken with a powerhead is limited to the bag limits specified in § 622.39(d)(1).
(e)(1)(xix) and (e)(1)(xx)	A hydraulic or electric reel that is permanently affixed to the vessel is prohibited when fishing for South Atlantic snapper-grouper.
(e)(1)(xix) and (e)(1)(xxi)	Use of spearfishing gear is prohibited.

(f) *Golden crab trap closed areas.* In the golden crab northern zone, a golden crab trap may not be deployed in waters less than 900 ft (274 m) deep. In the golden crab middle and southern zones, a golden crab trap may not be deployed in waters less than 700 ft (213 m) deep. See § 622.17(b) for specification of the golden crab zones.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43959, Aug. 27, 1996; 61 FR 47449, Sept. 9, 1996; 63 FR 10567, Mar. 4, 1998; 63 FR 57590, Oct. 28, 1998; 63 FR 71794, Dec. 30, 1998; 65 FR 37295, June 14, 2000; 65 FR 61115, Oct. 16, 2000]

§ 622.36 Seasonal harvest limitations.

(a) *Gulf EEZ.* During March, April, and May, each year, the possession of greater amberjack in or from the Gulf EEZ and in the Gulf on board a vessel for which a commercial permit for Gulf reef fish has been issued, as required under § 622.4(a)(2)(v), without regard to where such greater amberjack were harvested, is limited to the bag and possession limits, as specified in § 622.39(b)(1)(i) and (b)(2), respectively, and such greater amberjack are subject to the prohibition on sale or purchase of greater amberjack possessed under the bag limit, as specified in § 622.45(c)(1).

(b) *South Atlantic EEZ—(1) Greater amberjack spawning season.* During April, each year, the possession of greater amberjack in or from the South Atlantic EEZ and in the South Atlantic on board a vessel for which a valid Federal commercial or charter

vessel/headboat permit for South Atlantic snapper-grouper has been issued, without regard to where such greater amberjack were harvested, is limited to one per person per day or one per person per trip, whichever is more restrictive. Such greater amberjack are subject to the prohibition on sale or purchase, as specified in § 622.45(d)(6).

(2) *Mutton snapper spawning season.* During May and June, each year, the possession of mutton snapper in or from the EEZ on board a vessel that has a commercial permit for South Atlantic snapper-grouper is limited to 10 per person per day or 10 per person per trip, whichever is more restrictive.

(3) *Wreckfish spawning-season closure.* From January 15 through April 15, each year, no person may harvest or possess on a fishing vessel wreckfish in or from the EEZ; offload wreckfish from the EEZ; or sell or purchase wreckfish in or from the EEZ. The prohibition on sale or purchase of wreckfish does not apply to trade in wreckfish that were harvested, offloaded, and sold or purchased prior to January 15 and were held in cold storage by a dealer or processor.

(4) *Black grouper and gag.* During March and April, each year, the possession of black grouper and gag in or from the South Atlantic EEZ and in the South Atlantic on board a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, without regard to where

such black grouper or gag were harvested, is limited to two black grouper or gag, combined, per person per day or two black grouper or gag, combined, per person per trip, whichever is more restrictive. Such black grouper or gag are subject to the prohibition on sale or purchase, as specified in § 622.45(d)(5).

(5) *Red porgy*. During January, February, March, and April, each year, the harvest or possession of red porgy in or from the South Atlantic EEZ, and in the South Atlantic on board a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued without regard to where such red porgy were harvested, is limited to one per person per day or one per person per trip, whichever is more restrictive. Such red porgy are subject to the prohibition on sale or purchase, as specified in § 622.45(d)(5).

[61 FR 34934, July 3, 1996, as amended at 62 FR 67723, Dec. 30, 1997; 64 FR 3627, Jan. 25, 1999; 65 FR 51252, Aug. 23, 2000]

§ 622.37 Size limits.

All size limits in this section are minimum size limits unless specified otherwise. Except for undersized king and Spanish mackerel allowed in paragraphs (c)(2) and (c)(3) of this section, a fish not in compliance with its size limit, as specified in this section, in or from the Caribbean, Gulf, South Atlantic, and/or Mid-Atlantic EEZ, as appropriate, may not be possessed, sold, or purchased. A fish not in compliance with its size limit must be released immediately with a minimum of harm. The operator of a vessel that fishes in the EEZ is responsible for ensuring that fish on board are in compliance with the size limits specified in this section.

(a) *Caribbean reef fish*: Yellowtail snapper—12 inches (30.5 cm), TL.

(b) *Caribbean spiny lobster*—3.5 inches (8.9 cm), carapace length.

(c) *Coastal migratory pelagic fish*. (1) Cobia in the Gulf, Mid-Atlantic, or South Atlantic—33 inches (83.8 cm), fork length.

(2) King mackerel in the Gulf, South Atlantic, or Mid-Atlantic—24 inches (61.0 cm), fork length, except that a vessel fishing under a quota for king

mackerel specified in § 622.42(c)(1) may possess undersized king mackerel in quantities not exceeding 5 percent, by weight, of the king mackerel on board.

(3) Spanish mackerel in the Gulf, South Atlantic, or Mid-Atlantic—12 inches (30.5 cm), fork length, except that a vessel fishing under a quota for Spanish mackerel specified in § 622.42(c)(2) may possess undersized Spanish mackerel in quantities not exceeding 5 percent, by weight, of the Spanish mackerel on board.

(d) *Gulf reef fish*—(1) *Snapper*. (i) Lane snapper—8 inches (20.3 cm), TL.

(ii) Vermilion snapper—10 inches (25.4 cm), TL.

(iii) Cubera, dog, gray, mahogany, and yellowtail snappers and schoolmaster—12 inches (30.5 cm), TL.

(iv) Red snapper—16 inches (40.6 cm), TL, for a fish taken by a person subject to the bag limit specified in § 622.39(b)(1)(iii) and 15 inches (38.1 cm), TL, for a fish taken by a person not subject to the bag limit.

(v) Mutton snapper—16 inches (40.6 cm), TL.

(2) *Grouper*. (i) Scamp—16 inches (40.6 cm), TL.

(ii) Red grouper and yellowfin grouper—20 inches (50.8 cm), TL.

(iii) Black grouper and gag—(A) For a person not subject to the bag limit specified in § 622.39(b)(1)(ii)—24 inches (61.0 cm), TL.

(B) For a person subject to the bag limit specified in § 622.39(b)(1)(ii)—22 inches (55.9 cm), TL.

(3) *Other Gulf reef fish species*. (i) Gray triggerfish—12 inches (30.5 cm), TL.

(ii) Hogfish—12 inches (30.5 cm), fork length.

(iii) Banded rudderfish and lesser amberjack—14 inches (35.6 cm), fork length (minimum size); 22 inches (55.9 cm), fork length (maximum size).

(iv) Greater amberjack—28 inches (71.1 cm), fork length, for a fish taken by a person subject to the bag limit specified in § 622.39(b)(1)(i); and 36 inches (91.4 cm), fork length, for a fish taken by a person not subject to the bag limit.

(e) *South Atlantic snapper-grouper*—(1) *Snapper*. (i) Lane snapper—8 inches (20.3 cm), TL.

(ii) Vermilion snapper—11 inches (27.9 cm), TL, for a fish taken by a person

§ 622.38

50 CFR Ch. VI (10-1-01 Edition)

subject to the bag limit specified in § 622.39 (d)(1)(v) and 12 inches (30.5 cm), TL, for a fish taken by a person not subject to the bag limit.

(iii) Blackfin, cubera, dog, gray, mahogany, queen, silk, and yellowtail snappers; and schoolmaster—12 inches (30.5 cm), TL.

(iv) Mutton snapper—16 inches (40.6 cm), TL.

(v) Red snapper—20 inches (50.8 cm), TL.

(2) *Grouper*. (i) Red, yellowfin, and yellowmouth grouper; and scamp—20 inches (50.8 cm), TL.

(ii) Black grouper and gag—24 inches (61.0 cm), TL.

(3) *Other snapper-grouper species*. (i) Black sea bass—10 inches (25.4 cm), TL.

(ii) Gray triggerfish in the South Atlantic EEZ off Florida—12 inches (30.5 cm), TL.

(iii) Hogfish—12 inches (30.5 cm), fork length.

(iv) Red porgy—14 inches (35.6 cm), TL.

(v) Greater amberjack—28 inches (71.1 cm), fork length, for a fish taken by a person subject to the bag limit specified in § 622.39(d)(1)(i) and 36 inches (91.4 cm), fork length, for a fish taken by a person not subject to the bag limit.

(f) *Gulf shrimp*. White shrimp harvested in the EEZ are subject to the minimum-size landing and possession limits of Louisiana when possessed within the jurisdiction of that State.

(g) *Caribbean queen conch*—9 inches (22.9 cm) in length, that is, from the tip of the spire to the distal end of the shell, and $\frac{3}{8}$ inch (9.5 mm) in lip width at its widest point. A queen conch with a length of at least 9 inches (22.9 cm) or a lip width of at least $\frac{3}{8}$ inch (9.5 mm) is not undersized.

[61 FR 34934, July 3, 1996, as amended at 61 FR 65483, Dec. 13, 1996; 62 FR 13988, Mar. 25, 1997; 63 FR 444, Jan. 6, 1998; 63 FR 10567, Mar. 4, 1998; 64 FR 3628, Jan. 25, 1999; 64 FR 45459, Aug. 20, 1999; 64 FR 57404, Oct. 25, 1999; 65 FR 31831, May 19, 2000; 65 FR 50162, Aug. 17, 2000]

§ 622.38 Landing fish intact.

The operator of a vessel that fishes in the EEZ is responsible for ensuring that fish on that vessel in the EEZ are maintained intact and, if taken from the EEZ, are maintained intact

through offloading ashore, as specified in this section.

(a) The following must be maintained with head and fins intact: Cobia, king mackerel, and Spanish mackerel in or from the Gulf, Mid-Atlantic, or South Atlantic EEZ, except as specified for king mackerel in paragraph (g) of this section; South Atlantic snapper-grouper in or from the South Atlantic EEZ, except as specified in paragraph (h) of this section; yellowtail snapper in or from the Caribbean EEZ; and finfish in or from the Gulf EEZ, except as specified in paragraphs (c) and (d) of this section. Such fish may be eviscerated, gilled, and scaled, but must otherwise be maintained in a whole condition.

(b) A Caribbean spiny lobster in or from the Caribbean EEZ must be maintained with head and carapace intact.

(c) Shark, swordfish, and tuna species are exempt from the requirements of paragraph (a) of this section.

(d) In the Gulf EEZ:

(1) Bait is exempt from the requirement to be maintained with head and fins intact.

(i) For the purpose of this paragraph (d)(1), bait means—

(A) Packaged, headless fish fillets that have the skin attached and are frozen or refrigerated;

(B) Headless fish fillets that have the skin attached and are held in brine; or

(C) Small pieces no larger than 3 in³ (7.6 cm³) or strips no larger than 3 inches by 9 inches (7.6 cm by 22.9 cm) that have the skin attached and are frozen, refrigerated, or held in brine.

(ii) Paragraph (d)(1)(i) of this section notwithstanding, a finfish or part thereof possessed in or landed from the Gulf EEZ that is subsequently sold or purchased as a finfish species, rather than as bait, is not bait.

(2) Legal-sized finfish possessed for consumption at sea on the harvesting vessel are exempt from the requirement to have head and fins intact, provided—

(i) Such finfish do not exceed any applicable bag limit;

(ii) Such finfish do not exceed 1.5 lb (680 g) of finfish parts per person aboard; and

(iii) The vessel is equipped to cook such finfish on board.

(e) A golden crab in or from the South Atlantic EEZ must be maintained in whole condition through landing ashore. For the purposes of this paragraph, whole means a crab that is in its natural condition and that has not been gutted or separated into component pieces, e.g., clusters.

(f) A Caribbean conch resource in or from the Caribbean EEZ must be maintained with meat and shell intact.

(g) Cut-off (damaged) king or Spanish mackerel that comply with the minimum size limits in §622.37(c)(2) and (c)(3), respectively, and the trip limits in §622.44(a) and (b), respectively, may be possessed in the Gulf, Mid-Atlantic, or South Atlantic EEZ on, and offloaded ashore from, a vessel that is operating under the respective trip limits. Such cut-off fish also may be sold. A maximum of five additional cut-off (damaged) king mackerel, not subject to the size limits or trip limits, may be possessed or offloaded ashore but may not be sold or purchased and are not counted against the trip limit.

(h) In the South Atlantic EEZ, snapper-grouper lawfully harvested in Bahamian waters are exempt from the requirement that they be maintained with head and fins intact, provided valid Bahamian fishing and cruising permits are on board the vessel and the vessel is in transit through the South Atlantic EEZ. For the purpose of this paragraph (i), a vessel is in transit through the South Atlantic EEZ when it is on a direct and continuous course through the South Atlantic EEZ and no one aboard the vessel fishes in the EEZ.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43959, Aug. 27, 1996; 61 FR 65483, Dec. 13, 1996; 63 FR 10567, Mar. 4, 1998; 63 FR 38303, July 16, 1998; 64 FR 3628, Jan. 25, 1999; 65 FR 16340, Mar. 28, 2000]

§ 622.39 Bag and possession limits.

(a) *Applicability.* (1) The bag and possession limits apply for species/species groups listed in this section in or from the EEZ. Unless specified otherwise, bag limits apply to a person on a daily basis, regardless of the number of trips in a day. Unless specified otherwise, possession limits apply to a person on a trip after the first 24 hours of that trip. The bag and possession limits

apply to a person who fishes in the EEZ in any manner, except a person aboard a vessel in the EEZ that has on board the commercial vessel permit required under §622.4(a)(2) for the appropriate species/species group. However, see §622.32 for limitations on taking prohibited and limited-harvest species. The limitations in §622.32 apply without regard to whether the species is harvested by a vessel operating under a commercial vessel permit or by a person subject to the bag limits. The possession of a commercial vessel permit notwithstanding, the bag and possession limits apply when the vessel is operating as a charter vessel or headboat. A person who fishes in the EEZ may not combine a bag limit specified in this section with a bag or possession limit applicable to state waters. A species/species group subject to a bag limit specified in this section taken in the EEZ by a person subject to the bag limits may not be transferred at sea, regardless of where such transfer takes place, and such fish may not be transferred in the EEZ. The operator of a vessel that fishes in the EEZ is responsible for ensuring that the bag and possession limits specified in this section are not exceeded.

(2) Paragraph (a)(1) of this section notwithstanding, bag and possession limits also apply for Gulf reef fish in or from the EEZ to a person aboard a vessel that has on board a commercial permit for Gulf reef fish—

(i) When trawl gear or entangling net gear is on board. A vessel is considered to have trawl gear on board when trawl doors and a net are on board. Removal from the vessel of all trawl doors or all nets constitutes removal of trawl gear.

(ii) When a longline or buoy gear is on board and the vessel is fishing or has fished on a trip in the reef fish longline and buoy gear restricted area specified in §622.34(c). A vessel is considered to have a longline on board when a power-operated longline hauler, a cable of diameter and length suitable for use in the longline fishery, and gangions are on board. Removal of any one of these three elements, in its entirety, constitutes removal of a longline.

(iii) For a species/species group when its quota has been reached and closure has been effected.

(iv) When the vessel has on board or is tending any trap other than a fish trap authorized under § 622.40(a)(2), a stone crab trap, or a spiny lobster trap.

(3) Paragraph (a)(1) of this section notwithstanding, the bag and other limits specified in § 622.35(b) apply for South Atlantic snapper-grouper in or from the EEZ to a person aboard a vessel for which a commercial permit for South Atlantic snapper-grouper has been issued that has on board a longline in the longline closed area.

(4) Paragraph (a)(1) of this section notwithstanding, a person aboard a vessel for which a commercial permit for South Atlantic snapper-grouper has been issued must comply with the bag limits specified in paragraph (d)(1) of this section for South Atlantic snapper-grouper taken with a powerhead, regardless of where taken, when such snapper-grouper are possessed in an SMZ specified in § 622.35(e)(1)(xii) through (e)(1)(xviii) or (e)(1)(xl) through (e)(1)(li).

(b) *Gulf reef fish*—(1) *Bag limits.* (i) Greater amberjack—1.

(ii) Groupers, combined, excluding jewfish and Nassau grouper—5 per person per day, but not to exceed 1 speckled hind and 1 Warsaw grouper per vessel per day.

(iii) Red snapper—4.

(iv) Snappers, combined, excluding red, lane, and vermilion snapper—10.

(v) Gulf reef fish, combined, excluding those specified in paragraphs (b)(1)(i) through (b)(1)(iv) and paragraphs (b)(1)(vi) through (b)(1)(vii) of this section and excluding dwarf sand perch and sand perch—20.

(vi) Banded rudderfish and lesser amberjack, combined—5.

(vii) Hogfish—5.

(2) *Possession limits.* A person, or a vessel in the case of speckled hind or Warsaw grouper, on a trip that spans more than 24 hours may possess no more than two daily bag limits, provided such trip is on a vessel that is operating as a charter vessel or headboat, the vessel has two licensed operators aboard, and each passenger is issued and has in possession a receipt issued

on behalf of the vessel that verifies the length of the trip.

(c) *King and Spanish mackerel*—(1) *Bag limits.* (i) Atlantic migratory group king mackerel—

(A) Mid-Atlantic and South Atlantic, other than off Florida—3.

(B) Off Florida—2, which is the daily bag limit specified by Florida for its waters (Rule 46-12.004(1), Florida Administrative Code). If Florida changes its limit, the bag limit specified in this paragraph (c)(1)(i)(B) will be changed to conform to Florida's limit, provided such limit does not exceed 5.

(ii) Gulf migratory group king mackerel—2.

(iii) Atlantic migratory group Spanish mackerel—15.

(iv) Gulf migratory group Spanish mackerel—15.

(2) *Possession limits.* A person who is on a trip that spans more than 24 hours may possess no more than two daily bag limits, provided such trip is on a vessel that is operating as a charter vessel or headboat, the vessel has two licensed operators aboard, and each passenger is issued and has in possession a receipt issued on behalf of the vessel that verifies the length of the trip.

(d) *South Atlantic snapper-grouper*—(1) *Bag limits.* (i) Greater amberjack—1.

(ii) Groupers, combined, excluding jewfish and Nassau grouper, and tilefishes—5. However, within the 5-fish aggregate bag limit, no more than two fish may be gag or black grouper, combined.

(iii) Hogfish in the South Atlantic off Florida—5.

(iv) Snappers, combined, excluding cubera snapper measuring 30 inches (76.2 cm), TL, or larger, in the South Atlantic off Florida, and excluding vermilion snapper—10, of which no more than 2 may be red snapper. (See § 622.32(c)(2) for limitations on cubera snapper measuring 30 inches (76.2 cm), TL, or larger, in or from the South Atlantic EEZ off Florida.)

(v) Vermilion snapper—10.

(vi) Red porgy—1.

(vii) Black sea bass—20.

(viii) South Atlantic snapper-grouper, combined, excluding tom-tate and

Fishery Conservation and Management

§ 622.40

blue runner and those specified in paragraphs (d)(1)(i) through (vii) of this section—20.

(2) *Possession limits.* (i) Provided each passenger is issued and has in possession a receipt issued on behalf of the vessel that verifies the duration of the trip—

(A) A person aboard a charter vessel or headboat on a trip that spans more than 24 hours may possess no more than two daily bag limits of species other than red porgy.

(B) A person aboard a headboat on a trip that spans more than 48 hours and who can document that fishing was conducted on at least 3 days may possess no more than three daily bag limits of species other than red porgy.

(ii) A person aboard a vessel may not possess red porgy in or from the EEZ in excess of one per day or one per trip, whichever is more restrictive.

(3) *Longline bag limits.* Other provisions of this paragraph (d) notwithstanding, a person on a trip aboard a vessel for which the bag limits apply that has a longline on board is limited on that trip to the bag limit for South Atlantic snapper-grouper for which a bag limit is specified in paragraph (d)(1) of this section, and to zero for all other South Atlantic snapper-grouper. For the purpose of this paragraph (d)(3), a vessel is considered to have a longline on board when a power-operated longline hauler, a cable or monofilament of diameter and length suitable for use in the longline fishery, and gangions are on board. Removal of any one of these three elements constitutes removal of a longline.

(e) *Caribbean queen conch*—(1) *Applicability.* Paragraph (a)(1) of this section notwithstanding, the bag limit of paragraph (e)(2) of this section does not apply to a fisherman who has a valid commercial fishing license issued by Puerto Rico or the U.S. Virgin Islands. See §622.44 for the commercial daily trip limit.

(2) *Bag limit.* The bag limit for queen conch in or from the Caribbean EEZ is

3 per person or, if more than 4 persons are aboard, 12 per boat.

[61 FR 34934, July 3, 1996, as amended at 61 FR 65483, Dec. 13, 1996; 61 FR 65985, Dec. 16, 1996; 62 FR 23674, May 1, 1997; 62 FR 67723, Dec. 30, 1997; 63 FR 8356, Feb. 19, 1998; 63 FR 38303, July 16, 1998; 63 FR 72203, Dec. 31, 1998; 64 FR 3628, Jan. 25, 1999; 64 FR 33800, June 24, 1999; 64 FR 45459, Aug. 20, 1999; 64 FR 47713, Sept. 1, 1999; 64 FR 57404, Oct. 25, 1999; 65 FR 30363, May 11, 2000; 65 FR 41016, July 3, 2000; 65 FR 50162, Aug. 17, 2000; 65 FR 51252, Aug. 23, 2000; 65 FR 61116, Oct. 16, 2000; 66 FR 17369, Mar. 30, 2001]

§ 622.40 Limitations on traps and pots.

(a) *Tending*—(1) *Caribbean EEZ.* A fish trap or Caribbean spiny lobster trap in the Caribbean EEZ may be pulled or tended only by a person (other than an authorized officer) aboard the fish trap or spiny lobster trap owner's vessel, or aboard another vessel if such vessel has on board written consent of the trap owner, or if the trap owner is aboard and has documentation verifying his identification number and color code. An owner's written consent must specify the time period such consent is effective and the trap owner's gear identification number and color code.

(2) *Gulf EEZ.* A fish trap in the Gulf EEZ may be pulled or tended only by a person (other than an authorized officer) aboard the vessel with the fish trap endorsement to fish such trap. If such vessel has a breakdown that prevents it from retrieving its traps, the owner or operator must immediately notify the nearest NMFS Office of Enforcement and must obtain authorization for another vessel to retrieve and land its traps. The request for such authorization must include the requested effective period for the retrieval and landing, the persons and vessel to be authorized to retrieve the traps, and the point of landing of the traps. Such authorization will be specific as to the effective period, authorized persons and vessel, and point of landing. Such authorization is valid solely for the removal of fish traps from the EEZ and for harvest of fish incidental to such removal.

(3) *South Atlantic EEZ*. A sea bass pot or golden crab trap in the South Atlantic EEZ may be pulled or tended only by a person (other than an authorized officer) aboard the vessel permitted to fish such pot or trap or aboard another vessel if such vessel has on board written consent of the owner or operator of the vessel so permitted. For golden crab only, a vessel with written consent on board must also possess a valid commercial vessel permit for golden crab.

(b) *Escape mechanisms*—(1) *Caribbean EEZ*. (i) A fish trap used or possessed in the Caribbean EEZ must have a panel located on each of two sides of the trap, excluding the top, bottom, and side containing the trap entrance. The opening covered by a panel must measure not less than 8 by 8 inches (20.3 by 20.3 cm). The mesh size of a panel may not be smaller than the mesh size of the trap. A panel must be attached to the trap with untreated jute twine with a diameter not exceeding $\frac{1}{8}$ inch (3.2 mm). An access door may serve as one of the panels, provided it is on an appropriate side, it is hinged only at its bottom, its only other fastening is untreated jute twine with a diameter not exceeding $\frac{1}{8}$ inch (3.2 mm), and such fastening is at the top of the door so that the door will fall open when such twine degrades. Jute twine used to secure a panel may not be wrapped or overlapped.

(ii) A spiny lobster trap used or possessed in the Caribbean EEZ must contain on any vertical side or on the top a panel no smaller in diameter than the throat or entrance of the trap. The panel must be made of or attached to the trap by one of the following degradable materials:

(A) Untreated fiber of biological origin with a diameter not exceeding $\frac{1}{8}$ inch (3.2 mm). This includes, but is not limited to tyre palm, hemp, jute, cotton, wool, or silk.

(B) Ungalvanized or uncoated iron wire with a diameter not exceeding $\frac{1}{16}$ inch (1.6 mm), that is, 16 gauge wire.

(2) *Gulf EEZ*. A fish trap used or possessed in the Gulf EEZ must have at least two escape windows on each of two sides, excluding the bottom (a total of four escape windows), that are 2 by 2 inches (5.1 by 5.1 cm) or larger.

In addition, a fish trap must have a panel or access door located opposite each side of the trap that has a funnel. The opening covered by each panel or access door must be 144 in² (929 cm²) or larger, with one dimension of the area equal to or larger than the largest interior axis of the trap's throat (funnel) with no other dimension less than 6 inches (15.2 cm). The hinges and fasteners of each panel or access door must be constructed of one of the following degradable materials:

(i) Untreated jute string with a diameter not exceeding $\frac{3}{16}$ inch (4.8 mm) that is not wrapped or overlapped.

(ii) Magnesium alloy, time float releases (pop-up devices) or similar magnesium alloy fasteners.

(3) *South Atlantic EEZ*. (i) A sea bass pot that is used or possessed in the South Atlantic EEZ between 35°15.3' N. lat. (due east of Cape Hatteras Light, NC) and 28°35.1' N. lat. (due east of the NASA Vehicle Assembly Building, Cape Canaveral, FL) is required to have—

(A) On at least one side, excluding top and bottom, a panel or door with an opening equal to or larger than the interior end of the trap's throat (funnel). The hinges and fasteners of each panel or door must be made of one of the following degradable materials:

(1) Ungalvanized or uncoated iron wire with a diameter not exceeding 0.041 inches (1.0 mm), that is, 19 gauge wire.

(2) Galvanic timed-release mechanisms with a letter grade designation (degradability index) no higher than J.

(B) An unobstructed escape vent opening on at least two opposite vertical sides, excluding top and bottom. The minimum dimensions of an escape vent opening (based on inside measurement) are:

(1) $1\frac{1}{8}$ by $5\frac{3}{4}$ inches (2.9 by 14.6 cm) for a rectangular vent.

(2) 1.75 by 1.75 inches (4.5 by 4.5 cm) for a square vent.

(3) 2.0-inch (5.1-cm) diameter for a round vent.

(ii) A golden crab trap that is used or possessed in the South Atlantic EEZ must have at least one escape gap or escape ring on each of two opposite vertical sides. The minimum allowable inside dimensions of an escape gap are 2.75 by 3.75 inches (7.0 by 9.5 cm); the

minimum allowable inside diameter of an escape ring is 4.5 inches (11.4 cm). In addition to the escape gaps—

(A) A golden crab trap constructed of webbing must have an opening (slit) at least 1 ft (30.5 cm) long that may be closed (relaced) only with untreated cotton string no larger than $\frac{3}{16}$ inch (0.48 cm) in diameter.

(B) A golden crab trap constructed of material other than webbing must have an escape panel or door measuring at least 12 by 12 inches (30.5 by 30.5 cm), located on at least one side, excluding top and bottom. The hinges or fasteners of such door or panel must be made of either ungalvanized or uncoated iron wire no larger than 19 gauge (0.04 inch (1.0 mm) in diameter) or untreated cotton string no larger than $\frac{3}{16}$ inch (4.8 mm) in diameter.

(c) *Construction requirements and mesh sizes*—(1) *Caribbean EEZ*. A bare-wire fish trap used or possessed in the EEZ that has hexagonal mesh openings must have a minimum mesh size of 1.5 inches (3.8 cm) in the smallest dimension measured between centers of opposite strands. A bare-wire fish trap used or possessed in the EEZ that has other than hexagonal mesh openings or a fish trap of other than bare wire, such as coated wire or plastic, used or possessed in the EEZ, must have a minimum mesh size of 2.0 inches (5.1 cm) in the smallest dimension measured between centers of opposite strands.

(2) *Gulf EEZ*. A fish trap used or possessed in the Gulf EEZ must meet all of the following mesh size requirements (based on centerline measurements between opposite wires or netting strands):

(i) A minimum of 2 in² (12.9 cm²) opening for each mesh.

(ii) One-inch (2.5-cm) minimum length for the shortest side.

(iii) Minimum distance of 1 inch (2.5 cm) between parallel sides of rectangular openings, and 1.5 inches (3.8 cm) between parallel sides of square openings and of mesh openings with more than four sides.

(iv) One and nine-tenths inches (4.8 cm) minimum distance for diagonal measures of mesh.

(3) *South Atlantic EEZ*. (i) A sea bass pot used or possessed in the South Atlantic EEZ must have mesh sizes as fol-

lows (based on centerline measurements between opposite, parallel wires or netting strands):

(A) Hexagonal mesh (chicken wire)—at least 1.5 inches (3.8 cm) between the wrapped sides;

(B) Square mesh—at least 1.5 inches (3.8 cm) between sides; or

(C) Rectangular mesh—at least 1 inch (2.5 cm) between the longer sides and 2 inches (5.1 cm) between the shorter sides.

(ii) A golden crab trap deployed or possessed in the South Atlantic EEZ may not exceed 64 ft³ (1.8 m³) in volume in the northern zone or 48 ft³ (1.4 m³) in volume in the middle and southern zones. See §622.17(b) for specification of the golden crab zones.

(d) *Area-specific restrictions*—(1) *Gulf EEZ*. In the Gulf EEZ, a fish trap may be pulled or tended only from official sunrise to official sunset. The operator of a vessel from which a fish trap is deployed in the Gulf EEZ must retrieve all the vessel's fish traps and return them to port on each trip. A fish trap that is not returned to port on a trip, and its attached line and buoy, may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer. The owner of such trap and/or the operator of the responsible vessel is subject to appropriate civil penalties. A buoy that floats on the surface must be attached to each fish trap, or to each end trap of traps that are connected by a line, used in the Gulf EEZ. The maximum allowable size for a fish trap fished in the Gulf EEZ shoreward of the 50-fathom (91.4-m) isobath is 33 ft³ (0.9 m³) in volume. Fish trap volume is determined by measuring the external dimensions of the trap, and includes both the enclosed holding capacity of the trap and the volume of the funnel(s) within those dimensions. There is no size limitation for fish traps fished seaward of the 50-fathom (91.4-m) isobath. The maximum number of traps that may be assigned to, possessed, or fished in the Gulf EEZ by a vessel is 100.

(2) *South Atlantic EEZ*. (i) In the South Atlantic EEZ, sea bass pots may not be used or possessed in multiple configurations, that is, two or more pots may not be attached one to another so that their overall dimensions

exceed those allowed for an individual sea bass pot. This does not preclude connecting individual pots to a line, such as a “trawl” or trot line.

(ii) Rope is the only material allowed to be used for a buoy line or mainline attached to a golden crab trap, except that wire cable is allowed for a mainline through December 31, 2000.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43959, Aug. 27, 1996; 62 FR 13988, Mar. 25, 1997; 63 FR 10568, Mar. 4, 1998; 63 FR 38303, July 16, 1998; 63 FR 57590, Oct. 28, 1998; 64 FR 3628, Jan. 25, 1999]

§ 622.41 Species specific limitations.

(a) *Aquacultured live rock.* In the Gulf or South Atlantic EEZ:

(1) Aquacultured live rock may be harvested only under a permit, as required under § 622.4(a)(3)(iii), and aquacultured live rock on a site may be harvested only by the person, or his or her employee, contractor, or agent, who has been issued the aquacultured live rock permit for the site. A person harvesting aquacultured live rock is exempt from the prohibition on taking prohibited coral for such prohibited coral as attaches to aquacultured live rock.

(2) The following restrictions apply to individual aquaculture activities:

(i) No aquaculture site may exceed 1 acre (0.4 ha) in size.

(ii) Material deposited on the aquaculture site—

(A) May not be placed over naturally occurring reef outcrops, limestone ledges, coral reefs, or vegetated areas.

(B) Must be free of contaminants.

(C) Must be nontoxic.

(D) Must be placed on the site by hand or lowered completely to the bottom under restraint, that is, not allowed to fall freely.

(E) Must be placed from a vessel that is anchored.

(F) In the Gulf EEZ, must be distinguishable, geologically or otherwise (for example, be indelibly marked or tagged), from the naturally occurring substrate.

(G) In the South Atlantic EEZ, must be geologically distinguishable from the naturally occurring substrate and, in addition, may be indelibly marked or tagged.

(iii) A minimum setback of at least 50 ft (15.2 m) must be maintained from natural vegetated or hard bottom habitats.

(3) Mechanically dredging or drilling, or otherwise disturbing, aquacultured live rock is prohibited, and aquacultured live rock may be harvested only by hand. In addition, the following activities are prohibited in the South Atlantic: Chipping of aquacultured live rock in the EEZ, possession of chipped aquacultured live rock in or from the EEZ, removal of allowable octocoral or prohibited coral from aquacultured live rock in or from the EEZ, and possession of prohibited coral not attached to aquacultured live rock or allowable octocoral, while aquacultured live rock is in possession. See the definition of “Allowable octocoral” for clarification of the distinction between allowable octocoral and live rock. For the purposes of this paragraph (a)(3), chipping means breaking up reefs, ledges, or rocks into fragments, usually by means of a chisel and hammer.

(4) Not less than 24 hours prior to harvest of aquacultured live rock, the owner or operator of the harvesting vessel must provide the following information to the NMFS Law Enforcement Office, Southeast Area, St. Petersburg, FL, telephone 727–570–5344:

(i) Permit number of site to be harvested and date of harvest.

(ii) Name and official number of the vessel to be used in harvesting.

(iii) Date, port, and facility at which aquacultured live rock will be landed.

(b) *Caribbean reef fish.* A marine aquarium fish may be harvested in the Caribbean EEZ only by a hand-held dip net or by a hand-held slurp gun. For the purposes of this paragraph, a hand-held slurp gun is a device that rapidly draws seawater containing fish into a self-contained chamber, and a marine aquarium fish is a Caribbean reef fish that is smaller than 5.5 inches (14.0 cm), TL.

(c) *Coastal migratory pelagic fish*—(1) *Authorized gear.* Subject to the prohibitions on gear/methods specified in § 622.31, the following are the only fishing gears that may be used in the Gulf, Mid-Atlantic, and South Atlantic EEZ

Fishery Conservation and Management

§ 622.41

in directed fisheries for coastal migratory pelagic fish:

(i) King mackerel, Atlantic migratory group—

(A) North of 34°37.3' N. lat., the latitude of Cape Lookout Light, NC—all gear except drift gillnet and long gillnet.

(B) South of 34°37.3' N. lat.—automatic reel, bandit gear, handline, and rod and reel.

(ii) King mackerel, Gulf migratory group—hook-and-line gear and, in the southern Florida west coast subzone only, run-around gillnet. (See §622.42(c)(1)(i)(A)(3) for a description of the southern Florida west coast subzone.)

(iii) Spanish mackerel, Atlantic migratory group—automatic reel, bandit gear, handline, rod and reel, cast net, run-around gillnet, and stab net.

(iv) Spanish mackerel, Gulf migratory group—all gear except drift gillnet, long gillnet, and purse seine.

(v) Cobia in the Mid-Atlantic and South Atlantic EEZ, dolphin in the South Atlantic EEZ, and little tunny in the South Atlantic EEZ south of 34°37.3' N. lat.—automatic reel, bandit gear, handline, rod and reel, and pelagic longline.

(vi) Cero in the South Atlantic EEZ and little tunny in the South Atlantic EEZ north of 34°37.3' N. lat.—all gear except drift gillnet and long gillnet.

(vii) Bluefish, cero, cobia, dolphin, and little tunny in the Gulf EEZ—all gear except drift gillnet and long gillnet.

(2) *Unauthorized gear.* Gear types other than those specified in paragraph (c)(1) of this section are unauthorized gear and the following possession limitations apply:

(i) *Long gillnets.* A vessel with a long gillnet on board in, or that has fished on a trip in, the Gulf, Mid-Atlantic, or South Atlantic EEZ may not have on board on that trip a coastal migratory pelagic fish.

(ii) *Drift gillnets.* A vessel with a drift gillnet on board in, or that has fished on a trip in, the Gulf EEZ may not have on board on that trip a coastal migratory pelagic fish.

(iii) *Other unauthorized gear.* Except as specified in paragraph (c)(2)(iv) of this section, a person aboard a vessel

with unauthorized gear other than a drift gillnet in the Gulf EEZ or a long gillnet on board in, or that has fished in, the EEZ where such gear is not authorized in paragraph (c)(1) of this section, is subject to the bag limit for king and Spanish mackerel specified in §622.39(c)(1)(ii) and to the limit on cobia specified in §622.32(c)(1).

(iv) *Exception for king mackerel in the Gulf EEZ.* The provisions of this paragraph (c)(2)(iv) apply to king mackerel taken in the Gulf EEZ and to such king mackerel possessed in the Gulf. Paragraph (c)(2)(iii) of this section notwithstanding, a person aboard a vessel that has a valid commercial permit for king mackerel is not subject to the bag limit for king mackerel when the vessel has on board on a trip unauthorized gear other than a drift gillnet in the Gulf EEZ, a long gillnet, or a run-around gillnet in an area other than the southern Florida west coast subzone. Thus, the following applies to a vessel that has a commercial permit for king mackerel:

(A) Such vessel may not use unauthorized gear in a directed fishery for king mackerel in the Gulf EEZ.

(B) If such a vessel has a drift gillnet or a long gillnet on board or a run-around gillnet in an area other than the southern Florida west coast subzone, no king mackerel may be possessed.

(C) If such a vessel has unauthorized gear on board other than a drift gillnet in the Gulf EEZ, a long gillnet, or a run-around gillnet in an area other than the southern Florida west coast subzone, the possession of king mackerel taken incidentally is restricted only by the closure provisions of §622.43(a)(3) and the trip limits specified in §622.44(a). See also paragraph (c)(4) of this section regarding the purse seine incidental catch allowance of king mackerel.

(3) *Gillnets*—(i) *King mackerel.* The minimum allowable mesh size for a gillnet used to fish in the Gulf, Mid-Atlantic, or South Atlantic EEZ for king mackerel is 4.75 inches (12.1 cm), stretched mesh. A vessel in such EEZ, or having fished on a trip in such EEZ, with a gillnet on board that has a mesh size less than 4.75 (12.1 cm) inches, stretched mesh, may not possess on

§ 622.41

50 CFR Ch. VI (10-1-01 Edition)

that trip an incidental catch of king mackerel that exceeds 10 percent, by number, of the total lawfully possessed Spanish mackerel on board.

(ii) *Spanish mackerel.* (A) The minimum allowable mesh size for a gillnet used to fish for Spanish mackerel in the Gulf, Mid-Atlantic, or South Atlantic EEZ is 3.5 inches (8.9 cm), stretched mesh.

(1) A vessel in the Gulf EEZ, or having fished on a trip in the Gulf EEZ, with a gillnet on board that has a mesh size less than 3.5 inches (8.9 cm), stretched mesh, may not possess on that trip any Spanish mackerel.

(2) A vessel in the South Atlantic or Mid-Atlantic EEZ, or having fished on a trip in such EEZ, with a gillnet on board that has a mesh size less than 3.5 inches (8.9 cm), stretched mesh, may possess or land on the day of that trip no more than 500 lb (227 kg) of incidentally caught Spanish mackerel.

(B) On board a vessel with a valid Spanish mackerel permit that is fishing for Spanish mackerel in, or that possesses Spanish mackerel in or from, the South Atlantic EEZ off Florida north of 25°20.4' N. lat., which is a line directly east from the Miami-Dade/Monroe County, FL, boundary—

(1) No person may fish with, set, place in the water, or have on board a gillnet with a float line longer than 800 yd (732 m).

(2) No person may fish with, set, or place in the water more than one gillnet at any one time.

(3) No more than two gillnets, including any net in use, may be possessed at any one time; provided, however, that if two gillnets, including any net in use, are possessed at any one time, they must have stretched mesh sizes (as allowed under the regulations) that differ by at least .25 inch (.64 cm).

(4) No person may soak a gillnet for more than 1 hour. The soak period begins when the first mesh is placed in the water and ends either when the first mesh is retrieved back on board the vessel or the gathering of the gillnet is begun to facilitate retrieval on board the vessel, whichever occurs first; providing that, once the first mesh is retrieved or the gathering is begun, the retrieval is continuous until

the gillnet is completely removed from the water.

(5) The float line of each gillnet possessed, including any net in use, must have the distinctive floats specified in § 622.6(b)(2).

(4) *Purse seine incidental catch allowance.* A vessel in the EEZ, or having fished in the EEZ, with a purse seine on board will not be considered as fishing, or having fished, for king or Spanish mackerel in violation of a prohibition of purse seines under paragraph (c)(2) of this section, in violation of the possession limits under paragraph (c)(2)(iii) of this section, or, in the case of king mackerel from the Atlantic migratory group, in violation of a closure effected in accordance with § 622.43(a), provided the king mackerel on board does not exceed 1 percent, or the Spanish mackerel on board does not exceed 10 percent, of all fish on board the vessel. Incidental catch will be calculated by number and/or weight of fish. Neither calculation may exceed the allowable percentage. Incidentally caught king or Spanish mackerel are counted toward the quotas provided for under § 622.42(c) and are subject to the prohibition of sale under § 622.43(a)(3)(iii).

(d) *South Atlantic snapper-grouper*—(1) *Authorized gear.* Subject to the gear restrictions specified in § 622.31, the following are the only gear types authorized in a directed fishery for snapper-grouper in the South Atlantic EEZ: Bandit gear, bottom longline, buoy gear, handline, rod and reel, sea bass pot, and spearfishing gear.

(2) *Unauthorized gear.* All gear types other than those specified in paragraph (d)(1) of this section are unauthorized gear and the following possession and transfer limitations apply.

(i) A vessel with trawl gear on board that fishes in the EEZ on a trip may possess no more than 200 lb (90.7 kg) of South Atlantic snapper-grouper, excluding wreckfish, in or from the EEZ on that trip. It is a rebuttable presumption that a vessel with more than 200 lb (90.7 kg) of South Atlantic snapper-grouper, excluding wreckfish, on board harvested such fish in the EEZ.

(ii) Except as specified in paragraphs (d)(3) through (d)(5) of this section, a person aboard a vessel with unauthorized gear on board, other than trawl

gear, that fishes in the EEZ on a trip is limited on that trip to:

(A) South Atlantic snapper-grouper species for which a bag limit is specified in § 622.39(d)(1)—the bag limit.

(B) All other South Atlantic snapper-grouper—zero.

(iii) South Atlantic snapper-grouper on board a vessel with unauthorized gear on board may not be transferred at sea, regardless of where such transfer takes place, and such snapper-grouper may not be transferred in the EEZ.

(iv) No vessel may receive at sea any South Atlantic snapper-grouper from a vessel with unauthorized gear on board, as specified in paragraph (d)(2)(iii) of this section.

(3) *Possession allowance regarding sink nets off North Carolina.* A vessel that has on board a commercial permit for South Atlantic snapper-grouper, excluding wreckfish, that fishes in the EEZ off North Carolina with a sink net on board, may retain, without regard to the limits specified in paragraph (d)(2)(ii) of this section, otherwise legal South Atlantic snapper-grouper taken with bandit gear, buoy gear, handline, rod and reel, or sea bass pot. For the purpose of this paragraph (d)(3), a sink net is a gillnet with stretched mesh measurements of 3 to 4.75 inches (7.6 to 12.1 cm) that is attached to the vessel when deployed.

(4) *Possession allowance regarding bait nets.* A vessel that has on board a commercial permit for South Atlantic snapper-grouper, excluding wreckfish, that fishes in the South Atlantic EEZ with no more than one bait net on board, may retain, without regard to the limits specified in paragraph (d)(2)(ii) of this section, otherwise legal South Atlantic snapper-grouper taken with bandit gear, buoy gear, handline, rod and reel, or sea bass pot. For the purpose of this paragraph (d)(4), a bait net is a gillnet not exceeding 50 ft (15.2 m) in length or 10 ft (3.1 m) in height with stretched mesh measurements of 1.5 inches (3.8 cm) or smaller that is attached to the vessel when deployed.

(5) *Possession allowance regarding cast nets.* A vessel that has on board a commercial permit for South Atlantic snapper-grouper, excluding wreckfish, that fishes in the South Atlantic EEZ

with a cast net on board, may retain, without regard to the limits specified in paragraph (d)(2)(ii) of this section, otherwise legal South Atlantic snapper-grouper taken with bandit gear, buoy gear, handline, rod and reel, or sea bass pot. For the purpose of this paragraph (d)(5), a cast net is a cone-shaped net thrown by hand and designed to spread out and capture fish as the weighted circumference sinks to the bottom and comes together when pulled by a line.

(6) *Longline species limitation.* A vessel that has on board a valid Federal commercial permit for South Atlantic snapper-grouper, excluding wreckfish, that fishes in the EEZ on a trip with a longline on board, may possess only the following South Atlantic snapper-grouper: snowy grouper, warsaw grouper, yellowedge grouper, misty grouper, golden tilefish, blueline tilefish, and sand tilefish. For the purpose of this paragraph, a vessel is considered to have a longline on board when a power-operated longline hauler, a cable of diameter suitable for use in the longline fishery on any reel, and gangions are on board. Removal of any one of these three elements constitutes removal of a longline.

(e) *South Atlantic golden crab.* Traps are the only fishing gear authorized in directed fishing for golden crab in the South Atlantic EEZ. Golden crab in or from the South Atlantic EEZ may not be retained on board a vessel possessing or using unauthorized gear.

(f) *Caribbean queen conch.* In the Caribbean EEZ, no person may harvest queen conch by diving while using a device that provides a continuous air supply from the surface.

(g) *Shrimp in the South Atlantic—(1) BRD requirement.* Except as exempted in paragraph (g)(3)(ii) of this section, on a penaeid shrimp trawler in the South Atlantic EEZ, each trawl net that is rigged for fishing and has a mesh size less than 2.50 inches (6.35 cm), as measured between the centers of opposite knots when pulled taut, and each try net that is rigged for fishing and has a headrope length longer than 16.0 ft (4.9 m), must have a certified BRD installed. A trawl net, or try net, is rigged for fishing if it is in the

water, or if it is shackled, tied, or otherwise connected to a sled, door, or other device that spreads the net, or to a tow rope, cable, pole, or extension, either on board or attached to a shrimp trawler.

(2) *Certified BRDs.* The following BRDs are certified for use by penaeid shrimp trawlers in the South Atlantic EEZ. Specifications of these certified BRDs are contained in Appendix D of this part.

- (i) Extended funnel.
- (ii) Expanded mesh.
- (iii) Fisheye.

(3) *Certification of BRDs*—(i) A person who seeks to have a BRD certified for use in the South Atlantic EEZ must submit an application to test such BRD, conduct the testing, and submit to the RA the results of the test conducted and recorded in accordance with the Testing Protocol for BRD Certification, which along with forms and procedures, is included in the *Bycatch Reduction Device Testing Protocol Manual* which is available from the SAFMC, One Southpark Circle, Suite 306, Charleston, SC 29407-4699, and from the RA. A BRD that meets the certification criterion, as determined under the Testing Protocol for BRD Certification, will be added to the list of certified BRDs in paragraph (g)(2) of this section.

(ii) A penaeid shrimp trawler that is authorized to test a BRD in the EEZ for possible certification, has such written authorization on board, and is conducting such test in accordance with the Testing Protocol for BRD Certification is granted a limited exemption from the BRD requirement specified in paragraph (g)(1) of this section. The exemption from the BRD requirement is limited to those trawls that are being used in the certification trials. All other trawls rigged for fishing must be equipped with certified BRDs.

(h) *Shrimp in the Gulf*—(1) *BRD requirement.* (i) Except as exempted in paragraphs (h)(1)(ii) through (iv) and paragraph (h)(3)(iii) of this section, on a shrimp trawler in the Gulf EEZ shoreward of the 100-fathom (183-m) depth contour west of 85°30' W. long., each net that is rigged for fishing must have a certified BRD installed. A trawl

net is rigged for fishing if it is in the water, or if it is shackled, tied, or otherwise connected to a sled, door, or other device that spreads the net, or to a tow rope, cable, pole, or extension, either on board or attached to a shrimp trawler.

(ii) A shrimp trawler is exempt from the requirement to have a certified BRD installed in each net provided that at least 90 percent (by weight) of all shrimp on board or offloaded from such trawler are royal red shrimp.

(iii) A shrimp trawler is exempt from the requirement to have a BRD installed in a single try net with a headrope length of 16 ft (4.9 m) or less provided the single try net is either pulled immediately in front of another net or is not connected to another net.

(iv) A shrimp trawler is exempt from the requirement to have a certified BRD installed in up to two rigid-frame roller trawls that are 16 ft (4.9 m) or less in length used or possessed on board. A rigid-frame roller trawl is a trawl that has a mouth formed by a rigid frame and a grid of rigid vertical bars; has rollers on the lower horizontal part of the frame to allow the trawl to roll over the bottom and any obstruction while being towed; and has no doors, boards, or similar devices attached to keep the mouth of the trawl open.

(2) *Certified BRDs.* The following BRDs are certified for use by shrimp trawlers in the Gulf EEZ. Specifications of these certified BRDs are contained in Appendix D to this part.

- (i) Fisheye.
- (ii) Gulf fisheye.
- (iii) Jones-Davis.

(3) *Procedures for certification of additional BRDs.* The process for the certification of additional BRDs consists of two phases—an optional pre-certification phase and a required certification phase.

(i) *Pre-certification.* The pre-certification phase allows a person to test and evaluate a new BRD design for up to 60 days without being subject to the observer requirements and rigorous testing requirements specified for certification testing in the *Gulf Of Mexico Bycatch Reduction Device Testing Protocol Manual*.

(A) A person who wants to conduct pre-certification phase testing must submit an application, as specified in the *Gulf Of Mexico Bycatch Reduction Device Testing Protocol Manual*, to the RA. The *Gulf Of Mexico Bycatch Reduction Device Testing Protocol Manual*, which is available from the RA, upon request, contains the application forms.

(B) After reviewing the application, the RA will determine whether to issue a letter of authorization (LOA) to conduct pre-certification trials upon the vessel specified in the application. The RA will issue a pre-certification phase LOA if the BRD design is substantially unlike any BRD design previously determined not to meet the BRD certification criterion or, if the design is substantially similar to a BRD design previously determined not to meet the BRD certification criteria, and the application demonstrates that the design could meet the certification criterion through design revision or upon retesting (e.g., the application shows that statistical results could be improved upon retesting by such things as using a larger sample size than that previously used). If the RA authorizes pre-certification, the RA's letter of authorization must be on board the vessel during any trip involving the BRD testing.

(ii) *Certification.* A person who proposes a BRD for certification for use in the Gulf EEZ must submit an application to test such BRD, conduct the testing, and submit the results of the test in accordance with the *Gulf Of Mexico Bycatch Reduction Device Testing Protocol Manual*. The RA will issue a LOA to conduct certification trials upon the vessel specified in the application if the RA finds that: The test plan meets the requirements of the protocol; the observer identified in the application is qualified and has no current or prior financial relationship with the entity seeking BRD certification; the application presents a BRD candidate substantially unlike BRDs previously determined not to meet the current bycatch reduction criterion, or the applicant has shown good cause for reconsideration (such as the likelihood of improved statistical results yielded

from a larger sample size than that previously used); and for BRDs not previously tested for certification, the results of any pre-certification trials conducted have been reviewed and deemed to indicate a reasonable scientific basis for conducting certification testing. If authorization to conduct certification trials is denied, the RA will provide a letter of explanation to the applicant, together with relevant recommendations to address the deficiencies resulting in the denial. If a BRD meets the certification criterion, as determined under the testing protocol, NMFS will publish a notice in the FEDERAL REGISTER adding the BRD to the list of certified BRDs in paragraph (h)(2) of this section providing the specifications for the newly certified BRD, including any special conditions deemed appropriate based on the certification testing results.

(iii) A shrimp trawler that is authorized to participate in the pre-certification phase or to test a BRD in the EEZ for possible certification has such written authorization on board and is conducting such test in accordance with the *Gulf Of Mexico Bycatch Reduction Device Testing Protocol Manual* is granted a limited exemption from the BRD requirement specified in paragraph (h)(1) of this section. The exemption from the BRD requirement is limited to those trawls that are being used in the certification trials. All other trawls rigged for fishing must be equipped with certified BRDs.

(i) *Gulf reef fish exhibiting trap rash.* Gulf reef fish in or from the Gulf EEZ that exhibit trap rash may be possessed on board a vessel only if that vessel has a valid fish trap endorsement, as required under § 622.4(a)(2)(i), on board. Possession of such fish on board a vessel without a valid fish trap endorsement is prima facie evidence of illegal trap use and is prohibited. For the purpose of this paragraph, trap rash is defined as physical damage to fish that characteristically results from contact with wire fish traps. Such damage includes, but is not limited to, broken fin spines, fin rays, or teeth; visually obvious loss of scales; and cuts or abrasions

§ 622.42

50 CFR Ch. VI (10–1–01 Edition)

on the body of the fish, particularly on the head, snout, or mouth.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43959, Aug. 27, 1996; 61 FR 65484, Dec. 13, 1996; 62 FR 18539, Apr. 16, 1997; 63 FR 10568, Mar. 4, 1998; 63 FR 18144, Apr. 14, 1998; 63 FR 38303, July 16, 1998; 64 FR 3628, Jan. 25, 1999; 64 FR 36781, July 8, 1999; 64 FR 37694, July 13, 1999; 64 FR 43941, Aug. 12, 1999; 64 FR 45459, Aug. 20, 1999; 64 FR 52428, Sept. 29, 1999; 64 FR 59126, Nov. 2, 1999; 64 FR 68935, Dec. 9, 1999; 65 FR 16340, Mar. 28, 2000; 65 FR 52957, Aug. 31, 2000; 65 FR 61116, Oct. 16, 2000]

§ 622.42 Quotas.

Quotas apply for the fishing year for each species or species group. Except for the quotas for Gulf and South Atlantic coral, the quotas include species harvested from state waters adjoining the EEZ. Quotas for species managed under this part are as follows. (See § 622.32 for limitations on taking prohibited and limited-harvest species. The limitations in § 622.32 apply without regard to whether the species is harvested by a vessel operating under a commercial vessel permit or by a person subject to the bag limits.)

(a) *Gulf reef fish*—(1) *Commercial quotas*. The following quotas apply to persons who fish under commercial vessel permits for Gulf reef fish, as required under § 622.4(a)(2)(v).

(i) Red snapper—4.65 million lb (2.11 million kg), round weight, apportioned as follows:

(A) Two-thirds of the quota specified in § 622.42(a)(1)(i), 3.10 million lb (1.41 million kg), available at noon on February 1 each year, subject to the closure provisions of §§ 622.34(1) and 622.43(a)(1)(i).

(B) The remainder available at noon on October 1 each year, subject to the closure provisions of §§ 622.34(1) and 622.43(a)(1)(i).

(ii) Deep-water groupers (i.e., yellowedge grouper, misty grouper, warsaw grouper, snowy grouper, and speckled hind), and, after the quota for shallow-water grouper is reached, scamp, combined—1.60 million lb (0.73 million kg), round weight.

(iii) Shallow-water groupers (i.e., all groupers other than deep-water groupers, jewfish, and Nassau grouper), including scamp before the quota for shallow-water groupers is reached,

combined—9.80 million lb (4.45 million kg), round weight.

(2) *Recreational quota for red snapper*. The following quota applies to persons who harvest red snapper other than under commercial vessel permits for Gulf reef fish and the commercial quota specified in paragraph (a)(1)(i) of this section—4.47 million lb (2.03 million kg), round weight.

(3) Shallow-water groupers, that is, all groupers other than deep-water groupers, jewfish, and Nassau grouper, including scamp before the quota for shallow-water groupers is reached, combined—9.8 million lb (4.4 million kg), round weight.

(b) *Gulf and South Atlantic allowable octocoral*. The quota for all persons who harvest allowable octocoral in the EEZ of the Gulf and South Atlantic is 50,000 colonies. A colony is a continuous group of coral polyps forming a single unit.

(c) *King and Spanish mackerel*. King and Spanish mackerel quotas apply to persons who fish under commercial vessel permits for king or Spanish mackerel, as required under § 622.4(a)(2)(iii) or (iv). A fish is counted against the quota for the area where it is caught when it is first sold.

(1) *Migratory groups of king mackerel*—(i) *Gulf migratory group*. The quota for the Gulf migratory group of king mackerel is 3.26 million lb (1.48 million kg). The Gulf migratory group is divided into eastern and western zones separated by 87°31'06" W. long., which is a line directly south from the Alabama/Florida boundary. Quotas for the eastern and western zones are as follows:

(A) Eastern zone—2.25 million lb (1.02 million kg), which is further divided into quotas as follows:

(1) Florida east coast subzone—1,040,625 lb (472,020 kg).

(2) Florida west coast subzone—(i) *Southern*—1,040,625 lb (472,020 kg), which is further divided into a quota of 520,312 lb (236,010 kg) for vessels fishing with hook-and-line and a quota of 520,312 lb (236,010 kg) for vessels fishing with run-around gillnets.

(ii) *Northern*—168,750 lb (76,544 kg).

(3) Description of Florida subzones. The Florida east coast subzone is that part of the eastern zone north of 25°20.4' N. lat., which is a line directly east

from the Miami-Dade/Monroe County, FL, boundary. The Florida west coast subzone is that part of the eastern zone south and west of 25°20.4' N. lat. The Florida west coast subzone is further divided into southern and northern subzones. From November 1 through March 31, the southern subzone is that part of the Florida west coast subzone that extends south and west from 25°20.4' N. lat. to 26°19.8' N. lat., a line directly west from the Lee/Collier County, FL, boundary (i.e., the area off Collier and Monroe Counties). From April 1 through October 31, the southern subzone is that part of the Florida west coast subzone that is between 26°19.8' N. lat. and 25°48' N. lat., which is a line directly west from the Monroe/Collier County, FL, boundary (i.e., off Collier County). The northern subzone is that part of the Florida west coast subzone that is between 26°19.8' N. lat. and 87°31'06' W. long., which is a line directly south from the Alabama/Florida boundary.

(B) Western zone—1.01 million lb (0.46 million kg).

(ii) *Atlantic migratory group*. The quota for the Atlantic migratory group of king mackerel is 3.71 million lb (1.68 million kg). No more than 0.40 million lb (0.18 million kg) may be harvested by purse seines.

(2) *Migratory groups of Spanish mackerel*—(i) *Gulf migratory group*. The quota for the Gulf migratory group of Spanish mackerel is 5.187 million lb (2.353 million kg).

(ii) *Atlantic migratory group*. The quota for the Atlantic migratory group of Spanish mackerel is 3.87 million lb (1.76 million kg).

(d) *Royal red shrimp in the Gulf*. The quota for all persons who harvest royal red shrimp in the Gulf is 392,000 lb (177.8 mt), tail weight.

(e) *South Atlantic snapper-grouper, excluding wreckfish*. The quotas apply to persons who are not subject to the bag limits. (See §622.39(a)(1) for applicability of the bag limits.)

(1) *Snowy grouper*—344,508 lb (156,266 kg), gutted weight, that is, eviscerated but otherwise whole.

(2) *Golden tilefish*—1,001,663 lb (454,347 kg), gutted weight, that is, eviscerated but otherwise whole.

(3) *Greater amberjack*—1,169,931 lb (530,672 kg), gutted weight, that is, eviscerated but otherwise whole.

(f) *Wreckfish*. The quota for wreckfish applies to wreckfish shareholders, or their employees, contractors, or agents, and is 2 million lb (907,185 kg), round weight. See §622.15 for information on the wreckfish shareholder under the ITQ system.

[61 FR 34934, July 3, 1996, as amended at 61 FR 48643, Sept. 16, 1996; 62 FR 13988, Mar. 25, 1997; 62 FR 23674, May 1, 1997; 62 FR 46679, Sept. 4, 1997; 62 FR 67723, Dec. 30, 1997; 63 FR 8356, Feb. 19, 1998; 63 FR 10569, Mar. 4, 1998; 64 FR 3629, Jan. 25, 1999; 64 FR 45459, Aug. 20, 1999; 64 FR 59126, Nov. 2, 1999; 65 FR 16340, Mar. 28, 2000; 65 FR 30363, May 11, 2000; 65 FR 41016, July 3, 2000; 65 FR 50162, Aug. 17, 2000; 66 FR 17369, Mar. 30, 2001]

§ 622.43 Closures.

(a) *General*. When a quota specified in §622.42 is reached, or is projected to be reached, the Assistant Administrator will file a notification to that effect with the Office of the Federal Register. On and after the effective date of such notification, for the remainder of the fishing year, the following closure restrictions apply:

(1) *Gulf reef fish*—(i) *Commercial quotas*. The bag and possession limits specified in §622.39(b) apply to all harvest or possession in or from the Gulf EEZ of the indicated species, and the sale or purchase of the indicated species taken from the Gulf EEZ is prohibited. In addition, the bag and possession limits for red snapper apply on board a vessel for which a commercial permit for Gulf reef fish has been issued, as required under §622.4(a)(2)(v), without regard to where such red snapper were harvested. However, the bag and possession limits for red snapper apply only when the recreational quota for red snapper has not been reached and the bag and possession limit has not been reduced to zero under paragraph (a)(1)(ii) of this section.

(ii) *Recreational quota for red snapper*. The bag and possession limit for red snapper in or from the Gulf EEZ is zero.

(2) *Gulf and South Atlantic allowable octocoral*. Allowable octocoral may not be harvested or possessed in the Gulf EEZ or South Atlantic EEZ and the sale or purchase of allowable octocoral

§ 622.44

50 CFR Ch. VI (10–1–01 Edition)

in or from the Gulf EEZ or South Atlantic EEZ is prohibited.

(3) *King and Spanish mackerel.* The closure provisions of this paragraph (a)(3) do not apply to Atlantic migratory group Spanish mackerel, which are managed under the commercial trip limits specified in § 622.44(b) in lieu of the closure provisions of this section.

(i) A person aboard a vessel for which a commercial permit for king or Spanish mackerel has been issued, as required under § 622.4(a)(2)(iii) or (iv), may not fish for king or Spanish mackerel in the EEZ or retain king or Spanish mackerel in or from the EEZ under a bag or possession limit specified in § 622.39(c) for the closed species, migratory group, zone, subzone, or gear, except as provided for under paragraph (a)(3)(ii) of this section.

(ii) A person aboard a vessel for which the permit indicates both charter vessel/headboat for coastal migratory pelagic fish and commercial king or Spanish mackerel may continue to retain fish under a bag and possession limit specified in § 622.39(c), provided the vessel is operating as a charter vessel or headboat.

(iii) The sale or purchase of king or Spanish mackerel of the closed species, migratory group, zone, subzone, or gear type is prohibited, including such king or Spanish mackerel taken under the bag limits.

(4) *Royal red shrimp in the Gulf.* Royal red shrimp in or from the Gulf EEZ may not be retained, and the sale or purchase of royal red shrimp taken from the Gulf EEZ is prohibited.

(5) *South Atlantic snapper-grouper, excluding wreckfish—(i) Greater amberjack.* The bag limit specified in § 622.39(d)(1)(i) and the possession limits specified in § 622.39(d)(2) apply to all harvest or possession of greater amberjack in or from the South Atlantic EEZ, and the sale or purchase of greater amberjack taken from the EEZ is prohibited. In addition, the bag and possession limits for greater amberjack and the prohibition on sale/purchase apply in the South Atlantic on board a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, without regard to

where such greater amberjack were harvested.

(ii) *Golden tilefish and snowy grouper.* Golden tilefish and snowy grouper, for which there are quotas, are managed under the commercial trip limits specified in § 622.44(c) in lieu of the closure provisions of this section.

(6) *Wreckfish.* Wreckfish in or from the South Atlantic EEZ may not be retained, and the sale or purchase of wreckfish taken from the South Atlantic EEZ is prohibited.

(b) *Exception to prohibition on sale/purchase.* (1) The prohibition on sale/purchase during a closure for Gulf reef fish, king and Spanish mackerel, royal red shrimp, greater amberjack, or wreckfish in paragraphs (a)(1), (a)(3)(iii), (a)(4), (a)(5)(i), or (a)(6) of this section does not apply to the indicated species that were harvested, landed ashore, and sold prior to the effective date of the closure and were held in cold storage by a dealer or processor.

(2) The prohibition on sale/purchase during a closure for allowable octocoral in paragraph (a)(2) of this section does not apply to allowable octocoral that was harvested and landed ashore prior to the effective date of the closure.

(c) *Reopening.* When a fishery has been closed based on a projection of the quota specified in § 622.42 being reached and subsequent data indicate that the quota was not reached, the Assistant Administrator may file a notification to that effect with the Office of the Federal Register. Such notification may reopen the fishery to provide an opportunity for the quota to be reached.

[61 FR 34934, July 3, 1996, as amended at 62 FR 13988, Mar. 25, 1997; 62 FR 46679, Sept. 4, 1997; 62 FR 67723, Dec. 30, 1997; 63 FR 10569, Mar. 4, 1998; 64 FR 3629, Jan. 25, 1999; 64 FR 59126, Nov. 2, 1999]

§ 622.44 Commercial trip limits.

Commercial trip limits are limits on the amount of the applicable species that may be possessed on board or landed, purchased, or sold from a vessel per day. A person who fishes in the EEZ may not combine a trip limit specified in this section with any trip or possession limit applicable to state

Fishery Conservation and Management

§ 622.44

waters. A species subject to a trip limit specified in this section taken in the EEZ may not be transferred at sea, regardless of where such transfer takes place, and such species may not be transferred in the EEZ. For fisheries governed by this part, commercial trip limits apply as follows (all weights are round or eviscerated weights):

(a) *King mackerel*—(1) *Atlantic group*. The following trip limits apply to vessels for which commercial permits for king mackerel have been issued, as required under § 622.4(a)(2)(iii):

(i) North of 29°25' N. lat., which is a line directly east from the Flagler/Volusia County, FL, boundary, king mackerel in or from the EEZ may not be possessed on board or landed from a vessel in a day in amounts exceeding 3,500 lb (1,588 kg).

(ii) In the area between 29°25' N. lat. and 28°47.8' N. lat., which is a line directly east from the Volusia/Brevard County, FL, boundary, king mackerel in or from the EEZ may not be possessed on board or landed from a vessel in a day in amounts exceeding 3,500 lb (1,588 kg) from April 1 through October 31.

(iii) In the area between 28°47.8' N. lat. and 25°20.47' N. lat., which is a line directly east from the Miami-Dade/Monroe County, FL, boundary, king mackerel in or from the EEZ may not be possessed on board or landed from a vessel in a day in amounts exceeding 75 fish from April 1 through October 31.

(iv) In the area between 25°20.4' N. lat. and 25°48' N. lat., which is a line directly west from the Monroe/Collier County, FL, boundary, king mackerel in or from the EEZ may not be possessed on board or landed from a vessel in a day in amounts exceeding 1,250 lb (567 kg) from April 1 through October 31.

(2) *Gulf group*. Commercial trip limits are established in the eastern and western zones as follows. (See § 622.42(c)(1)(i) for specification of the eastern and western zones and § 622.42(c)(1)(i)(A)(3) for specifications of the subzones in the eastern zone.)

(i) *Eastern zone-Florida east coast subzone*. In the Florida east coast subzone, king mackerel in or from the EEZ may be possessed on board at any time or landed in a day from a vessel

with a commercial permit for king mackerel as required under § 622.4(a)(2)(iii) as follows:

(A) From November 1 through January 31—not to exceed 50 fish.

(B) Beginning on February 1 and continuing through March 31—

(1) If 75 percent or more of the Florida east coast subzone quota as specified in § 622.42(c)(1)(i)(A)(1) has been taken—not to exceed 50 fish.

(2) If less than 75 percent of the Florida east coast subzone quota as specified in § 622.42(c)(1)(i)(A)(1) has been taken—not to exceed 75 fish.

(ii) *Eastern zone-Florida west coast subzone*—(A) *Gillnet gear*. (1) In the southern Florida west coast subzone, king mackerel in or from the EEZ may be possessed on board or landed from a vessel for which a commercial permit with a gillnet endorsement has been issued, as required under § 622.4(a)(2)(ii), in amounts not exceeding 25,000 lb (11,340 kg) per day, provided the gillnet fishery for Gulf group king mackerel is not closed under § 622.34(p) or § 622.43(a).

(2) In the southern Florida west coast subzone:

(i) King mackerel in or from the EEZ may be possessed on board or landed from a vessel that uses or has on board a run-around gillnet on a trip only when such vessel has on board a commercial permit for king mackerel with a gillnet endorsement.

(ii) King mackerel from the southern west coast subzone landed by a vessel for which such commercial permit with endorsement has been issued will be counted against the run-around gillnet quota of § 622.42(c)(1)(i)(A)(2)(i).

(iii) King mackerel in or from the EEZ harvested with gear other than run-around gillnet may not be retained on board a vessel for which such commercial permit with endorsement has been issued.

(B) *Hook-and-line gear*. In the Florida west coast subzone, king mackerel in or from the EEZ may be possessed on board or landed from a vessel with a commercial permit for king mackerel, as required by § 622.4(a)(2)(iii), and operating under the hook-and-line gear quotas in § 622.42(c)(1)(i)(A)(2)(i) or (c)(1)(i)(A)(2)(ii):

(1) From July 1, each fishing year, until 75 percent of the respective

northern or southern subzone's hook-and-line gear quota has been harvested—in amounts not exceeding 1,250 lb (567 kg) per day.

(2) From the date that 75 percent of the respective northern or southern subzone's hook-and-line gear quota has been harvested, until a closure of the respective northern or southern subzone's fishery for vessels fishing with hook-and-line gear has been effected under § 622.43(a)—in amounts not exceeding 500 lb (227 kg) per day.

(iii) *Notice of trip limit changes.* The Assistant Administrator, by filing a notification of trip limit change with the Office of the Federal Register, will effect the trip limit changes specified in paragraphs (a)(2)(i) and (a)(2)(ii)(B) of this section when the requisite harvest level has been reached or is projected to be reached.

(iv) *Western zone.* In the western zone, king mackerel in or from the EEZ may be possessed on board or landed from a vessel for which a commercial permit for king mackerel has been issued, as required under § 622.4(a)(2)(ii), from July 1, each fishing year, until a closure of the western zone's fishery has been effected under § 622.43(a)—in amounts not exceeding 3,000 lb (1,361 kg) per day.

(b) *Spanish mackerel.* (1) Commercial trip limits are established for Atlantic migratory group Spanish mackerel as follows:

(i) North of 30°42'45.6" N. lat., which is a line directly east from the Georgia/Florida boundary, Spanish mackerel in or from the EEZ may not be possessed on board or landed in a day from a vessel for which a permit for Spanish mackerel has been issued, as required under § 622.4(a)(2)(iv), in amounts exceeding 3,500 lb (1,588 kg).

(ii) South of 30°42'45.6" N. lat., Spanish mackerel in or from the EEZ may not be possessed on board or landed in a day from a vessel for which a permit for Spanish mackerel has been issued, as required under § 622.4(a)(2)(iv)—

(A) From April 1 through November 30, in amounts exceeding 3,500 lb (1,588 kg).

(B) From December 1 until 75 percent of the adjusted quota is taken, in amounts as follows:

(1) Mondays through Fridays—unlimited.

(2) Saturdays and Sundays—not exceeding 1,500 lb (680 kg).

(C) After 75 percent of the adjusted quota is taken until 100 percent of the adjusted quota is taken, in amounts not exceeding 1,500 lb (680 kg).

(D) After 100 percent of the adjusted quota is taken through the end of the fishing year, in amounts not exceeding 500 lb (227kg).

(2) For the purpose of paragraph (b)(1)(ii) of this section, the adjusted quota is 3.62 million lb (1.64 million kg). The adjusted quota is the quota for Atlantic migratory group Spanish mackerel reduced by an amount calculated to allow continued harvests of Atlantic migratory group Spanish mackerel at the rate of 500 lb (227 kg) per vessel per day for the remainder of the fishing year after the adjusted quota is reached. By filing a notification with the Office of the Federal Register, the Assistant Administrator will announce when 75 percent and 100 percent of the adjusted quota is reached or is projected to be reached.

(3) For the purpose of paragraph (b)(1)(ii) of this section, a day starts at 6 a.m., local time, and extends for 24 hours. If a vessel terminates a trip prior to 6 a.m., but retains Spanish mackerel on board after that time, the Spanish mackerel retained on board will not be considered in possession during the succeeding day, provided the vessel is not underway between 6 a.m. and the time such Spanish mackerel are unloaded, and provided such Spanish mackerel are unloaded prior to 6 p.m.

(c) *South Atlantic snapper-grouper.* When a vessel fishes on a trip in the South Atlantic EEZ, the vessel trip limits specified in this paragraph (c) apply, provided persons aboard the vessel are not subject to the bag limits. See § 622.39(a) for applicability of the bag limits.

(1) *Trip-limited permits.* A vessel for which a trip-limited permit for South Atlantic snapper-grouper has been issued is limited to 225 lb (102.1 kg) of snapper-grouper.

(2) *Golden tilefish.* (i) Until the fishing year quota specified in § 622.42(e)(2) is reached, 5,000 lb (2,268 kg).

Fishery Conservation and Management

§ 622.45

(ii) After the fishing year quota specified in § 622.42(e)(2) is reached, 300 lb (136 kg).

(3) *Snowy grouper*. (i) Until the fishing year quota specified in § 622.42(e)(1) is reached, 2,500 lb (1,134 kg).

(ii) After the fishing year quota specified in § 622.42(e)(1) is reached, 300 lb (136 kg).

(4) *Red porgy*. (i) From May 1 through December 31, 50 lb (22.7 kg).

(ii) From January 1 through April 30, the seasonal harvest limit specified in § 622.36(b)(5) applies.

(5) *Greater amberjack*. Until the fishing year quota specified in § 622.42(e)(3) is reached, 1,000 lb (454 kg). See § 622.43(a)(5)(i) for the limitations regarding greater amberjack after the fishing year quota is reached.

(d) *Gulf red snapper*. (1) The trip limit for red snapper in or from the Gulf for a vessel that has on board a valid commercial permit for Gulf reef fish and a valid Class 1 red snapper license is 2,000 lb (907 kg), round or eviscerated weight.

(2) The trip limit for red snapper in or from the Gulf for a vessel that has on board a valid commercial permit for Gulf reef fish and a valid Class 2 red snapper license is 200 lb (91 kg), round or eviscerated weight.

(3) The trip limit for red snapper in or from the Gulf for any other vessel for which a commercial permit for Gulf reef fish has been issued is zero.

(4) As a condition of a commercial vessel permit for Gulf reef fish, as required under § 622.4(a)(2)(v), without regard to where red snapper are harvested or possessed, a vessel that has been issued such permit—

(i) May not possess red snapper in or from the Gulf in excess of the appropriate vessel trip limit, as specified in paragraphs (d)(1) through (d)(3) of this section.

(ii) May not transfer or receive at sea red snapper in or from the Gulf.

(e) *Caribbean queen conch*. A person who fishes in the Caribbean EEZ and is not subject to the bag limit may not

possess in or from the Caribbean EEZ more than 150 queen conch per day.

[61 FR 34934, July 3, 1996, as amended at 61 FR 48415, Sept. 13, 1996; 61 FR 48851, Sept. 17, 1996; 61 FR 65484, Dec. 13, 1996; 62 FR 23674, May 1, 1997; 62 FR 67723, Dec. 30, 1997; 63 FR 8356, Feb. 19, 1998; 63 FR 10569, Mar. 4, 1998; 63 FR 38303, July 16, 1998; 64 FR 45459, Aug. 20, 1999; 64 FR 59126, Nov. 2, 1999; 65 FR 16341, Mar. 28, 2000; 65 FR 30364, May 11, 2000; 65 FR 41016, July 3, 2000; 65 FR 51252, Aug. 23, 2000; 65 FR 55205, Sept. 13, 2000; 66 FR 17370, Mar. 30, 2001]

§ 622.45 Restrictions on sale/purchase.

In addition to restrictions on sale/purchase related to closures, as specified in § 622.43 (a) and (b), restrictions on sale and/or purchase apply as follows.

(a) *Caribbean coral reef resource*. (1) No person may sell or purchase a Caribbean prohibited coral harvested in the Caribbean EEZ.

(2) A Caribbean prohibited coral that is sold in Puerto Rico or the U.S. Virgin Islands will be presumed to have been harvested in the Caribbean EEZ, unless it is accompanied by documentation showing that it was harvested elsewhere. Such documentation must contain:

(i) The information specified in subpart K of part 300 of this title for marking containers or packages of fish or wildlife that are imported, exported, or transported in interstate commerce.

(ii) The name and home port of the vessel, or the name and address of the individual, harvesting the Caribbean prohibited coral.

(iii) The port and date of landing the Caribbean prohibited coral.

(iv) A statement signed by the person selling the Caribbean prohibited coral attesting that, to the best of his or her knowledge, information, and belief, such Caribbean prohibited coral was harvested other than in the Caribbean EEZ or the waters of Puerto Rico or the U.S. Virgin Islands.

(b) *Caribbean reef fish*. A live red hind or live mutton snapper in or from the Caribbean EEZ may not be sold or purchased and used in the marine aquarium trade.

§ 622.45

50 CFR Ch. VI (10–1–01 Edition)

(c) *Gulf reef fish.* (1) A Gulf reef fish harvested in the EEZ on board a vessel that does not have a valid commercial permit for Gulf reef fish, as required under § 622.4(a)(2)(v), or a Gulf reef fish possessed under the bag limits specified in § 622.39(b), may not be sold or purchased.

(2) A Gulf reef fish harvested on board a vessel that has a valid commercial permit for Gulf reef fish may be sold only to a dealer who has a valid permit for Gulf reef fish, as required under § 622.4(a)(4).

(3) A Gulf reef fish harvested in the EEZ may be purchased by a dealer who has a valid permit for Gulf reef fish, as required under § 622.4(a)(4), only from a vessel that has a valid commercial permit for Gulf reef fish.

(4) From February 15 until March 15, each year, no person may sell or purchase a gag, black grouper, or red grouper harvested from the Gulf by a vessel with a valid Federal commercial permit for Gulf reef fish. This prohibition on sale/purchase does not apply to gag, black grouper, or red grouper that were harvested, landed ashore, and sold prior to February 15 and were held in cold storage by a dealer or processor.

(d) *South Atlantic snapper-grouper.* (1) A person may sell South Atlantic snapper-grouper harvested in the EEZ only to a dealer who has a valid permit for South Atlantic snapper-grouper, as required under § 622.4(a)(4).

(2) A person may purchase South Atlantic snapper-grouper harvested in the EEZ only from a vessel that has a valid commercial permit for South Atlantic snapper-grouper, as required under § 622.4(a)(2)(vi), or from a person who has a valid commercial license to sell fish in the state where the purchase occurs.

(3) Except for the sale or purchase of South Atlantic snapper-grouper harvested by a vessel that has a valid commercial permit for South Atlantic snapper-grouper, the sale or purchase of such fish is limited to the bag limits specified in § 622.39(d)(1).

(4) A warsaw grouper or speckled hind in or from the South Atlantic EEZ may not be sold or purchased.

(5) During January, February, March, and April, no person may sell or purchase a red porgy harvested from the

South Atlantic EEZ or, if harvested by a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, harvested from the South Atlantic. The prohibition on sale/purchase during January through April does not apply to red porgy that were harvested, landed ashore, and sold prior to January 1 and were held in cold storage by a dealer or processor. This prohibition also does not apply to a dealer's purchase or sale of red porgy harvested from an area other than the South Atlantic, provided such fish is accompanied by documentation of harvest outside the South Atlantic. Such documentation must contain:

(i) The information specified in 50 CFR part 300 subpart K for marking containers or packages of fish or wildlife that are imported, exported, or transported in interstate commerce;

(ii) The official number, name, and home port of the vessel harvesting the red porgy;

(iii) The port and date of offloading from the vessel harvesting the red porgy; and

(iv) A statement signed by the dealer attesting that the red porgy was harvested from an area other than the South Atlantic.

(6) During April, no person may sell or purchase a greater amberjack harvested from the South Atlantic EEZ or, if harvested by a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, harvested from the South Atlantic. The prohibition on sale/purchase during April does not apply to greater amberjack that were harvested, landed ashore, and sold prior to April 1 and were held in cold storage by a dealer or processor. This prohibition also does not apply to a dealer's purchase or sale of greater amberjack harvested from an area other than the South Atlantic, provided such fish is accompanied by documentation of harvest outside the South Atlantic. Such documentation must contain:

(i) The information specified in 50 CFR part 300 subpart K for marking containers or packages of fish or wildlife that are imported, exported, or transported in interstate commerce;

Fishery Conservation and Management

§ 622.45

(ii) The official number, name, and home port of the vessel harvesting the greater amberjack;

(iii) The port and date of offloading from the vessel harvesting the greater amberjack; and

(iv) A statement signed by the dealer attesting that the greater amberjack was harvested from an area other than the South Atlantic.

(7) During March and April, no person may sell or purchase a gag or black grouper harvested from the South Atlantic EEZ or, if harvested by a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, harvested from the South Atlantic. The prohibition on sale/purchase during March and April does not apply to gag or black grouper that were harvested, landed ashore, and sold prior to March 1 and were held in cold storage by a dealer or processor. This prohibition also does not apply to a dealer's purchase or sale of gag or black grouper harvested from an area other than the South Atlantic, provided such fish is accompanied by documentation of harvest outside the South Atlantic. Such documentation must contain:

(i) The information specified in 50 CFR part 300 subpart K for marking containers or packages of fish or wildlife that are imported, exported, or transported in interstate commerce;

(ii) The official number, name, and home port of the vessel harvesting the gag or black grouper;

(iii) The port and date of offloading from the vessel harvesting the gag or black grouper; and

(iv) A statement signed by the dealer attesting that the gag or black grouper was harvested from an area other than the South Atlantic.

(e) *Gulf and South Atlantic wild live rock*. Wild live rock in or from the Gulf EEZ or South Atlantic EEZ may not be sold or purchased. The prohibition on sale or purchase does not apply to wild live rock from the South Atlantic EEZ that was harvested and landed prior to January 1, 1996, or to wild live rock from the Gulf EEZ that was harvested and landed prior to January 1, 1997.

(f) *South Atlantic golden crab*. (1) A female golden crab in or from the South

Atlantic EEZ may not be sold or purchased.

(2) A golden crab harvested in the South Atlantic EEZ on board a vessel that does not have a valid commercial permit for golden crab, as required under § 622.4(a)(2)(x), may not be sold or purchased.

(3) A golden crab harvested on board a vessel that has a valid commercial permit for golden crab may be sold only to a dealer who has a valid permit for golden crab, as required under § 622.4(a)(4).

(4) A golden crab harvested in the South Atlantic EEZ may be purchased by a dealer who has a valid permit for golden crab, as required under § 622.4(a)(4), only from a vessel that has a valid commercial permit for golden crab.

(g) *South Atlantic rock shrimp*. (1) Rock shrimp harvested in the South Atlantic EEZ on board a vessel that does not have a valid commercial permit for rock shrimp, as required under § 622.4(a)(2)(viii), may not be transferred, received, sold, or purchased.

(2) Rock shrimp harvested on board a vessel that has a valid commercial permit for rock shrimp may be transferred or sold only to a dealer who has a valid permit for rock shrimp, as required under § 622.4(a)(4).

(3) Rock shrimp harvested in the South Atlantic EEZ may be received or purchased by a dealer who has a valid permit for rock shrimp, as required under § 622.4(a)(4), only from a vessel that has a valid commercial permit for rock shrimp.

(h) *Cut-off (damaged) king or Spanish mackerel*. A person may not sell or purchase a cut-off (damaged) king or Spanish mackerel that does not comply with the minimum size limits specified in § 622.37(c)(2) or (c)(3), respectively, or that is in excess of the trip limits specified in § 622.44(a) or (b), respectively.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43960, Aug. 27, 1996; 61 FR 47449, Sept. 9, 1996; 63 FR 10569, Mar. 4, 1998; 63 FR 57590, Oct. 28, 1998; 64 FR 3629, Jan. 25, 1999; 64 FR 59126, Nov. 2, 1999; 65 FR 16341, Mar. 28, 2000; 65 FR 31831, May 19, 2000; 65 FR 51253, Aug. 23, 2000]

§ 622.46

§ 622.46 Prevention of gear conflicts.

(a) No person may knowingly place in the Gulf EEZ any article, including fishing gear, that interferes with fishing or obstructs or damages fishing gear or the fishing vessel of another; or knowingly use fishing gear in such a fashion that it obstructs or damages the fishing gear or fishing vessel of another.

(b) In accordance with the procedures and restrictions of the FMP for the Shrimp Fishery of the Gulf of Mexico, the RA may modify or establish separation zones for shrimp trawling and the use of fixed gear to prevent gear conflicts. Necessary prohibitions or restrictions will be published in the FEDERAL REGISTER.

(c) In accordance with the procedures and restrictions of the FMP for Coastal Migratory Pelagic Resources, when the RA determines that a conflict exists in the king mackerel fishery between hook-and-line and gillnet fishermen in the South Atlantic EEZ off the east coast of Florida between 27°00.6' N. lat. and 27°50.0' N. lat., the RA may prohibit or restrict the use of hook-and-line and/or gillnets in all or a portion of that area. Necessary prohibitions or restrictions will be published in the FEDERAL REGISTER.

[61 FR 34934, July 3, 1996, as amended at 64 FR 59126, Nov. 2, 1999]

§ 622.47 Gulf groundfish trawl fishery.

Gulf groundfish trawl fishery means fishing in the Gulf EEZ by a vessel that uses a bottom trawl, the unsorted catch of which is ground up for animal feed or industrial products.

(a) Other provisions of this part notwithstanding, the owner or operator of a vessel in the Gulf groundfish trawl fishery is exempt from the following requirements and limitations for the vessel's unsorted catch of Gulf reef fish:

(1) The requirement for a valid commercial vessel permit for Gulf reef fish in order to sell Gulf reef fish.

(2) Minimum size limits for Gulf reef fish.

(3) Bag limits for Gulf reef fish.

(4) The prohibition on sale of Gulf reef fish after a quota closure.

50 CFR Ch. VI (10-1-01 Edition)

(b) Other provisions of this part notwithstanding, a dealer in a Gulf state is exempt from the requirement for a dealer permit for Gulf reef fish to receive Gulf reef fish harvested from the Gulf EEZ by a vessel in the Gulf groundfish trawl fishery.

§ 622.48 Adjustment of management measures.

In accordance with the framework procedures of the applicable FMPs, the RA may establish or modify the following items:

(a) *Caribbean coral reef resources*. Species for which management measures may be specified; prohibited species; harvest limitations, including quotas, trip, or daily landing limits; gear restrictions; closed seasons or areas; and marine conservation districts.

(b) *Caribbean reef fish*. Size limits, closed seasons or areas, fish trap mesh size, and the threshold level for overfishing.

(c) *Coastal migratory pelagic fish*. For a species or species group: Age-structured analyses, target date for rebuilding an overfished species, MSY (or proxy), stock biomass achieved by fishing at MSY (B_{MSY}) (or proxy), maximum fishing mortality threshold (MFMT), minimum stock size threshold (MSST), OY, TAC, quota (including a quota of zero), bag limit (including a bag limit of zero), size limits, vessel trip limits, closed seasons or areas and reopenings, gear restrictions (ranging from regulation to complete prohibition), reallocation of the commercial/recreational allocation of Atlantic group Spanish mackerel, permit requirements, definitions of essential fish habitat, and essential fish habitat HAPCs or Coral HAPCs.

(d) *Gulf reef fish*. (1) For a species or species group: Target date for rebuilding an overfished species, TAC, bag limits, size limits, vessel trip limits, closed seasons or areas, gear restrictions, quotas, MSY (or proxy), OY, and estimates of stock biomass achieved by fishing at MSY (B_{MSY}), minimum stock size threshold (MSST), and maximum fishing mortality threshold (MFMT).

(2) SMZs and the gear restrictions applicable in each.

(e) *Gulf royal red shrimp*. MSY, OY, and TAC.

(f) *South Atlantic snapper-grouper and wreckfish*. Biomass levels, age-structured analyses, target dates for rebuilding overfished species, MSY, ABC, TAC, quotas, trip limits, bag limits, minimum sizes, gear restrictions (ranging from regulation to complete prohibition), seasonal or area closures, definitions of essential fish habitat, essential fish habitat, essential fish habitat HAPCs or Coral HAPCs, and restrictions on gear and fishing activities applicable in essential fish habitat and essential fish habitat HAPCs.

(g) *South Atlantic golden crab*. Biomass levels, age-structured analyses, MSY, ABC, TAC, quotas (including quotas equal to zero), trip limits, minimum sizes, gear regulations and restrictions, permit requirements, seasonal or area closures, time frame for recovery of golden crab if overfished, fishing year (adjustment not to exceed 2 months), observer requirements, authority for the RA to close the fishery when a quota is reached or is projected to be reached, definitions of essential fish habitat, and essential fish habitat HAPCs or Coral HAPCs.

(h) *South Atlantic shrimp*. Biomass levels, age-structured analyses, BRD certification criteria, BRD specifications, BRD testing protocol, certified BRDs, nets required to use BRDs, times and locations when the use of BRDs is required, definitions of essential fish habitat, and essential fish habitat HAPCs or Coral HAPCs.

(i) *Gulf shrimp*. Bycatch reduction criteria, BRD certification and decertification criteria, BRD testing protocol, certified BRDs, and BRD specifications.

(j) *Gulf red drum*. Target date for rebuilding an overfished species, MSY (or proxy), stock biomass achieved by fishing at MSY (B_{MSY}), OY, TAC, minimum stock size threshold (MSSST), maximum fishing mortality threshold (MFMT), escapement rates for juvenile fish, bag limits, size limits, gear harvest limits, and other restrictions required to prevent exceeding allocations or quotas.

(k) *Atlantic coast red drum*. Definitions of essential fish habitat and essential fish habitat HAPCs or Coral HAPCs.

(l) *South Atlantic coral, coral reefs, and live/hard bottom habitats*. Definitions of

essential fish habitat and essential fish habitat HAPCs or Coral HAPCs.

[61 FR 34934, July 3, 1996, as amended at 61 FR 43960, Aug. 27, 1996; 62 FR 13988, Mar. 25, 1997; 62 FR 18539, Apr. 16, 1997; 63 FR 10569, Mar. 4, 1998; 63 FR 18144, Apr. 14, 1998; 64 FR 36781, July 8, 1999; 65 FR 31835, May 19, 2000; 65 FR 37296, June 14, 2000; 65 FR 51253, Aug. 23, 2000]

APPENDIX A TO PART 622—SPECIES TABLES

TABLE 1 OF APPENDIX A TO PART 622—CARIBBEAN CORAL REEF RESOURCES

- I. Sponges—Phylum Porifera
 - A. Demosponges—Class Demospongiae
 - Aphimedon compressa*, Erect rope sponge
 - Chondrilla nucula*, Chicken liver sponge
 - Cynachirella alloclada*
 - Geodia neptuni*, Potato sponge
 - Haliclona* sp., Finger sponge
 - Myriastria* sp.
 - Niphates digitalis*, Pink vase sponge
 - N. erecta*, Lavender rope sponge
 - Spinosella pollicifera*
 - S. vaginalis*
 - Tethya crypta*
- II. Coelenterates—Phylum Coelenterata
 - A. Hydrocorals—Class Hydrozoa
 - 1. Hydroids—Order Athecatae
 - Family Milleporidae
 - Millepora* spp., Fire corals
 - Family Stylasteridae
 - Stylaster roseus*, Rose lace corals
 - B. Anthozoans—Class Anthozoa
 - 1. Soft corals—Order Alcyonacea
 - Family Anthothelidae
 - Erythropodium caribaeorum*, Encrusting gorgonian
 - Iciligorgia schrammi*, Deepwater sea fan
 - Family Briaridae
 - Briareum asbestinum*, Corky sea finger
 - Family Clavulariidae
 - Carijoa riisei*
 - Telesto* spp.
 - 2. Gorgonian corals—Order Gorgonacea
 - Family Ellisellidae
 - Ellisella* spp., Sea whips
 - Family Gorgoniidae
 - Gorgonia flabellum*, Venus sea fan
 - G. mariae*, Wide-mesh sea fan
 - G. ventalina*, Common sea fan
 - Pseudopterogorgia acerosa*, Sea plume
 - P. albatrossae*
 - P. americana*, Slimy sea plume
 - P. bipinnata*, Bipinnate plume
 - P. rigida*
 - Pterogorgia anceps*, Angular sea whip
 - P. citrina*, Yellow sea whip
 - Family Plexauridae
 - Eunicea calyculata*, Warty sea rod
 - E. clavigera*
 - E. fusca*, Doughnut sea rod
 - E. knighti*
 - E. laciniata*

E. laxispica
E. mammosa, Swollen-knob
E. succinea, Shelf-knob sea rod
E. touneforti
 Muricea atlantica
M. elongata, Orange spiny rod
M. laxa, Delicate spiny rod
M. muricata, Spiny sea fan
M. pinnata, Long spine sea fan
Muriceopsis sp.
M. flavida, Rough sea plume
M. sulphurea
Plexaura flexuosa, Bent sea rod
P. homomalla, Black sea rod
Plexaurella dichotoma, Slit-pore sea rod
P. fusifera
P. grandiflora
P. grisea
P. nutans, Giant slit-pore
Pseudoplexaura crucis
P. flagellosa
P. porosa, Porous sea rod
P. wagnaari
 3. Hard Corals—Order Scleractinia
 Family Acroporidae
Acropora cervicornis, Staghorn coral
A. palmata, Elkhorn coral
A. prolifera, Fused staghorn
 Family Agaricidae
Agaricia agaricities, Lettuce leaf coral
A. fragilis, Fragile saucer
A. lamarcki, Lamarck's sheet
A. tenuifolia, Thin leaf lettuce
Leptoseris cucullata, Sunray lettuce
 Family Astrocoeniidae
Stephanocoenia michelinii, Blushing star
 Family Caryophyllidae
Eusmilia fastigiata, Flower coral
Tubastrea aurea, Cup coral
 Family Faviidae
Cladocora arbuscula, Tube coral
Colpophyllia natans, Boulder coral
Diploria clivosa, Knobby brain coral
D. labyrinthiformis, Grooved brain
D. strigosa, Symmetrical brain
Favia fragum, Golfball coral
Manicina areolata, Rose coral
M. majori, Tortugas rose coral
Montastrea annularis, Boulder star coral
M. cavernosa, Great star coral
Solenastrea bournoni, Smooth star coral
 Family Meandrinidae
Dendrogyra cylindrus, Pillar coral
Dichocoenia stellaris, Pancake star
D. stokesi, Elliptical star
Meandrina meandrites, Maze coral
 Family Mussidae
Isophyllastrea rigida, Rough star coral
Isophyllia sinuosa, Sinuous cactus
Mussa angulosa, Large flower coral
Mycetophyllia aliciae, Thin fungus coral
M. danae, Fat fungus coral
M. ferox, Grooved fungus
M. lamarckiana, Fungus coral
Scolymia cubensis, Artichoke coral
S. lacera, Solitary disk
 Family Oculinidae

Oculina diffusa, Ivory bush coral
 Family Pocilloporidae
Madracis decactis, Ten-ray star coral
M. mirabilis, Yellow pencil
 Family Poritidae
Porites astreoides, Mustard hill coral
P. branneri, Blue crust coral
P. divaricata, Small finger coral
P. porites, Finger coral
 Family Rhizangiidae
Astrangia solitaria, Dwarf cup coral
Phyllangia americana, Hidden cup coral
 Family Siderastreidae
Siderastrea radians, Lesser starlet
S. siderea, Massive starlet
 4. Black Corals—Order Antipatharia
Antipathes spp., Bushy black coral
Stichopathes spp., Wire coral
 5. Anemones—Order Actiniaria
Aiptasia tagetes, Pale anemone
Bartholomea annulata, Corkscrew anemone
Condylactis gigantea, Giant pink-tipped anemone
Hereractis lucida, Knobby anemone
Lebrunia spp., Staghorn anemone
Stichodactyla helianthus, Sun anemone
 6. Colonial Anemones—Order Zoanthidea
Zoanthus spp., Sea mat
 7. False Corals—Order Corallimorpharia
Discosoma spp. (formerly *Rhodactis*), False coral
Ricordia florida, Florida false coral
 III. Annelid Worms—Phylum Annelida
 A. Polychaetes—Class Polychaeta
 Family Sabellidae, Feather duster worms
Sabellastarte spp., Tube worms
S. magnifica, Magnificent duster
 Family Serpulidae
Spirobranchus giganteus, Christmas tree worm
 IV. Mollusks—Phylum Mollusca
 A. Gastropods—Class Gastropoda
 Family Elysiidae
Tridachia crispata, Lettuce sea slug
 Family Olividae
Oliva reticularis, Netted olive
 Family Ovulidae
Cyphoma gibbosum, Flamingo tongue
 Family Ranellidae
Charonia tritonis, Atlantic triton trumpet
 Family Strombidae, Winged conchs
Strombus spp. (except Queen conch, *S. gigas*)
 B. Bivalves—Class Bivalvia
 Family Limidae
Lima spp., Fileclams
L. scabra, Rough fileclam
 Family Spondyliidae
Spondylus americanus, Atlantic thorny oyster
 C. Cephalopods—Class Cephalopoda
 1. Octopuses—Order Octopoda
 Family Octopodidae
Octopus spp. (except the Common octopus, *O. vulgaris*)
 V. Arthropods—Phylum Arthropoda
 A. Crustaceans—Subphylum Crustacea
 1. Decapods—Order Decapoda

- Family Alpheidae
Alpheus armatus, Snapping shrimp
- Family Diogenidae
Paguristes spp., Hermit crabs
P. cadenati, Red reef hermit
- Family Grapsidae
Percnon gibbesi, Nimble spray crab
- Family Hippolytidae
Lysmata spp., Peppermint shrimp
Thor amboinensis, Anemone shrimp
- Family Majidae, Coral crabs
Mithrax spp., Clinging crabs
M. cinctimanus, Banded clinging
M. sculptus, Green clinging
Stenorhynchus seticornis, Yellowline arrow
- Family Palaemonida
Periclimenes spp., Cleaner shrimp
- Family Squillidae, Mantis crabs
Gonodactylus spp.
Lysiosquilla spp.
- Family Stenopodidae, Coral shrimp
Stenopus hispidus, Banded shrimp
S. scutellatus, Golden shrimp
- VI. Bryozoans—Phylum Bryozoa
- VII. Echinoderms—Phylum Echinodermata
- A. Feather stars—Class Crinoidea
Analcidometra armata, Swimming crinoid
Davidaster spp., Crinoids
Nemaster spp., Crinoids
- B. Sea stars—Class Asteroidea
Astropecten spp., Sand stars
Linckia guildingii, Common comet star
Ophiaster guildingii, Comet star
Oreaster reticulatus, Cushion sea star
- C. Brittle and basket stars—Class Ophiuroidea
Astrophyton muricatum, Giant basket star
Ophiocoma spp., Brittlestars
Ophioderma spp., Brittlestars
O. rubicundum, Ruby brittlestar
- D. Sea Urchins—Class Echinoidea
Diadema antillarum, Long-spined urchin
Echinometra spp., Purple urchin
Eucidaris tribuloides, Pencil urchin
Lytechinus spp., Pin cushion urchin
Tripneustes ventricosus, Sea egg
- E. Sea Cucumbers—Class Holothuroidea
Holothuria spp., Sea cucumbers
- VIII. Chordates—Phylum Chordata
- A. Tunicates—Subphylum Urochordata
- IX. Green Algae—Phylum Chlorophyta
Caulerpa spp., Green grape algae
Halimeda spp., Watercress algae
Penicillus spp., Neptune's brush
Udotea spp., Mermaid's fan
Ventricaria ventricosa, Sea pearls
- X. Red Algae—Phylum Rhodophyta
- XI. Sea grasses—Phylum Angiospermae
Halodule wrightii, Shoal grass
Halophila spp., Sea vines
Ruppia maritima, Widgeon grass
Springodium filiforme, Manatee grass
Thalassia testudinum, Turtle grass
- Ocean surgeonfish, *Acanthurus bahianus*
 Doctorfish, *Acanthurus chirurgus*
 Blue tang, *Acanthurus coeruleus*
- Antennariidae—Frogfishes
 Frogfish, *Antennarius* spp.
- Apogonidae—Cardinalfishes
 Flamefish, *Apogon maculatus*
 Conchfish, *Astrapogon stellatus*
- Aulostomidae—Trumpetfishes
 Trumpetfish, *Aulostomus maculatus*
- Balistidae—Leatherjackets
 Scrawled filefish, *Aluterus scriptus*
 Queen triggerfish, *Balistes vetula*
 Whitespotted filefish, *Cantherhines macrocerus*
 Ocean triggerfish, *Canthidermis sufflamen*
 Black durgon, *Melichthys niger*
 Sargassum triggerfish, *Xanthichthys rigens*
- Blenniidae—Combtooth blennies
 Redlip blenny, *Ophioblennius atlanticus*
- Bothidae—Lefteye flounders
 Peacock flounder, *Bothus lunatus*
- Carangidae—Jacks
 Yellow jack, *Caranx bartholomaei*
 Blue runner, *Caranx crysos*
 Horse-eye jack, *Caranx latus*
 Black jack, *Caranx lugubris*
 Bar jack, *Caranx ruber*
 Greater amberjack, *Seriola dumerili*
 Almaco jack, *Seriola rivoliana*
- Chaetodontidae—Butterflyfishes
 Longsnout butterflyfish, *Chaetodon aculeatus*
 Foureye butterflyfish, *Chaetodon capistratus*
 Spotfin butterflyfish, *Chaetodon ocellatus*
 Banded butterflyfish, *Chaetodon striatus*
- Cirrhitidae—Hawkfishes
 Redspotted hawkfish, *Amblycirrhitus pinos*
- Dactylopteridae—Flying gurnards
 Flying gurnard, *Dactylopterus volitans*
- Ephippidae—Spadefishes
 Atlantic spadefish, *Chaetodipterus faber*
- Gobiidae—Gobies
 Neon goby, *Gobiosoma oceanops*
 Rusty goby, *Priolepis hipoliti*
- Grammatidae—Basslets
 Royal gramma, *Gramma loreto*
- Haemulidae—Grunts
 Porkfish, *Anisotremus virginicus*
 Margate, *Haemulon album*
 Tomtate, *Haemulon aurolineatum*
 French grunt, *Haemulon flavolineatum*
 White grunt, *Haemulon plumieri*
 Bluestriped grunt, *Haemulon sciurus*
- Holocentridae—Squirrelfishes
 Squirrelfish, *Holocentrus adscensionis*
 Longspine squirrelfish, *Holocentrus rufus*
 Blackbar soldierfish, *Myripristis jacobus*
 Cardinal soldierfish, *Plectrypops retrospinis*
- Labridae—Wrasses
 Spanish hogfish, *Bodianus rufus*
 Creole wrasse, *Clepticus parrae*
 Yellowcheek wrasse, *Halichoeres cyanocephalus*
 Yellowhead wrasse, *Halichoeres garnoti*
 Clown wrasse, *Halichoeres maculipinna*

TABLE 2 OF APPENDIX A TO PART 622—
 CARIBBEAN REEF FISH

Acanthuridae—Surgeonfishes

- Puddingwife, *Halichoeres radiatus*
 Pearly razorfish, *Hemipteronotus novacula*
 Green razorfish, *Hemipteronotus splendens*
 Hogfish, *Lachnolaimus maximus*
 Bluehead wrasse, *Thalassoma bifasciatum*
- Lutjanidae—Snappers
 Black snapper, *Apsilus dentatus*
 Queen snapper, *Etelis oculatus*
 Mutton snapper, *Lutjanus analis*
 Schoolmaster, *Lutjanus apodus*
 Blackfin snapper, *Lutjanus buccanella*
 Gray snapper, *Lutjanus griseus*
 Dog snapper, *Lutjanus jocu*
 Mahogany snapper, *Lutjanus mahogani*
 Lane snapper, *Lutjanus synagris*
 Silk snapper, *Lutjanus vivanus*
 Yellowtail snapper, *Ocyurus chrysurus*
 Wenchman, *Pristipomoides aquilonaris*
 Vermilion snapper, *Rhomboplites aurorubens*
- Malacanthidae—Tilefishes
 Blackline tilefish, *Caulolatilus cyanops*
 Sand tilefish, *Malacanthus plumieri*
- Mullidae—Goatfishes
 Yellow goatfish, *Mulloidichthys martinicus*
 Spotted goatfish, *Pseudupeneus maculatus*
- Muraenidae—Morays
 Chain moray, *Echidna catenata*
 Green moray, *Gymnothorax funebris*
 Goldentail moray, *Gymnothorax miliaris*
- Ogcocephalidae—Batfishes
 Batfish, *Ogcocephalus* spp.
- Ophichthidae—Snake eels
 Goldspotted eel, *Myrichthys ocellatus*
- Opistognathidae—Jawfishes
 Yellowhead jawfish, *Opistognathus aurifrons*
 Dusky jawfish, *Opistognathus whitehursti*
- Ostraciidae—Boxfishes
 Spotted trunkfish, *Lactophrys bicaudalis*
 Honeycomb cowfish, *Lactophrys polygona*
 Scrawled cowfish, *Lactophrys quadricornis*
 Trunkfish, *Lactophrys trigonus*
 Smooth trunkfish, *Lactophrys triqueter*
- Pomacanthidae—Angelfishes
 Cherubfish, *Centropyge argi*
 Queen angelfish, *Holacanthus ciliaris*
 Rock beauty, *Holacanthus tricolor*
 Gray angelfish, *Pomacanthus arcuatus*
 French angelfish, *Pomacanthus paru*
- Pomacentridae—Damsel-fishes
 Sergeant major, *Abudefduf saxatilis*
 Blue chromis, *Chromis cyanea*
 Sunshinefish, *Chromis insolata*
 Yellowtail damselfish, *Microspathodon chrysurus*
 Dusky damselfish, *Pomacentrus fuscus*
 Beaugregory, *Pomacentrus leucostictus*
 Bicolor damselfish, *Pomacentrus partitus*
 Threespot damselfish, *Pomacentrus planifrons*
- Priacanthidae—Bigeyes
 Bigeye, *Priacanthus arenatus*
 Glasseye snapper, *Priacanthus cruentatus*
- Scaridae—Parrotfishes
 Midnight parrotfish, *Scarus coelestinus*
 Blue parrotfish, *Scarus coeruleus*
 Striped parrotfish, *Scarus croicensis*
 Rainbow parrotfish, *Scarus guacamaia*
 Princess parrotfish, *Scarus taeniopterus*
 Queen parrotfish, *Scarus vetula*
 Redband parrotfish, *Sparisoma aurofrenatum*
 Redtail parrotfish, *Sparisoma chrysopteron*
 Redfin parrotfish, *Sparisoma rubripinne*
 Stoplight parrotfish, *Sparisoma viride*
- Sciaenidae—Drums
 High-hat, *Equetus acuminatus*
 Jackknife-fish, *Equetus lanceolatus*
 Spotted drum, *Equetus punctatus*
- Scorpaenidae—Scorpionfishes
- Serranidae—Sea basses
 Rock hind, *Epinephelus adscensionis*
 Graysby, *Epinephelus cruentatus*
 Yellowedge grouper, *Epinephelus flavolimbatus*
 Coney, *Epinephelus fulvus*
 Red hind, *Epinephelus guttatus*
 Jewfish, *Epinephelus itajara*
 Red grouper, *Epinephelus morio*
 Misty grouper, *Epinephelus mystacinus*
 Nassau Grouper, *Epinephelus striatus*
 Butter hamlet, *Hypoplectrus unicolor*
 Swissguard basslet, *Liopropoma rubre*
 Yellowfin grouper, *Mycteroperca venenosa*
 Tiger grouper, *Mycteroperca tigris*
 Creole-fish, *Paranthias furcifer*
 Greater soapfish, *Rypticus saponaceus*
 Orangeback bass, *Serranus annularis*
 Lantern bass, *Serranus baldwini*
 Tobaccosfish, *Serranus tabacarius*
 Harlequin bass, *Serranus tigrinus*
 Chalk bass, *Serranus tortugarum*
- Soleidae—Soles
 Caribbean tonguefish, *Symphurus arawak*
- Sparidae—Porgies
 Sea bream, *Archosargus rhomboidalis*
 Jolthead porgy, *Calamus bajonado*
 Sheepshead porgy, *Calamus penna*
 Pluma, *Calamus pennatula*
- Syngnathidae—Pipefishes
 Seahorses, *Hippocampus* spp.
 Pipefishes, *Syngnathus* spp.
- Synodontidae—Lizardfishes
 Sand diver, *Synodus intermedius*
- Tetraodontidae—Puffers
 Sharpnose puffer, *Canthigaster rostrata*
 Porcupinefish, *Diodon hystrix*
- TABLE 3 OF APPENDIX A TO PART 622—GULF REEF FISH
- Balistidae—Triggerfishes
 Gray triggerfish, *Balistes caprisicus*
- Carangidae—Jacks
 Greater amberjack, *Seriola dumerili*
 Lesser amberjack, *Seriola fasciata*
 Almaco jack, *Seriola rivoliana*
 Banded rudderfish, *Seriola zonata*
- Labridae—Wrasses
 Hogfish, *Lachnolaimus maximus*
- Lutjanidae—Snappers

APPENDIX C TO PART 622—FISH LENGTH MEASUREMENTS

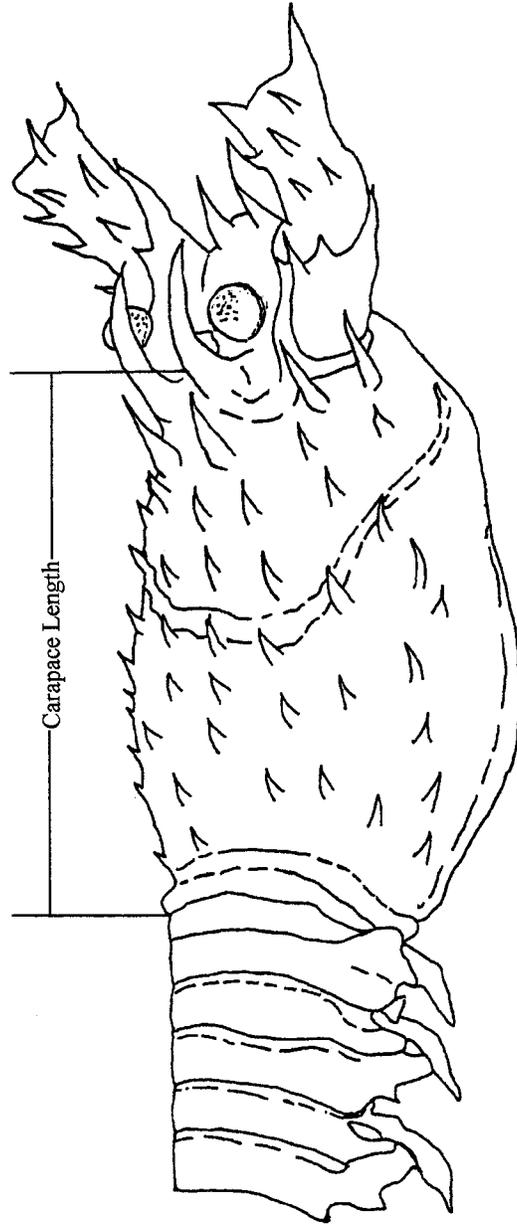

Figure 1 of Appendix C to Part 622—Carapace Length

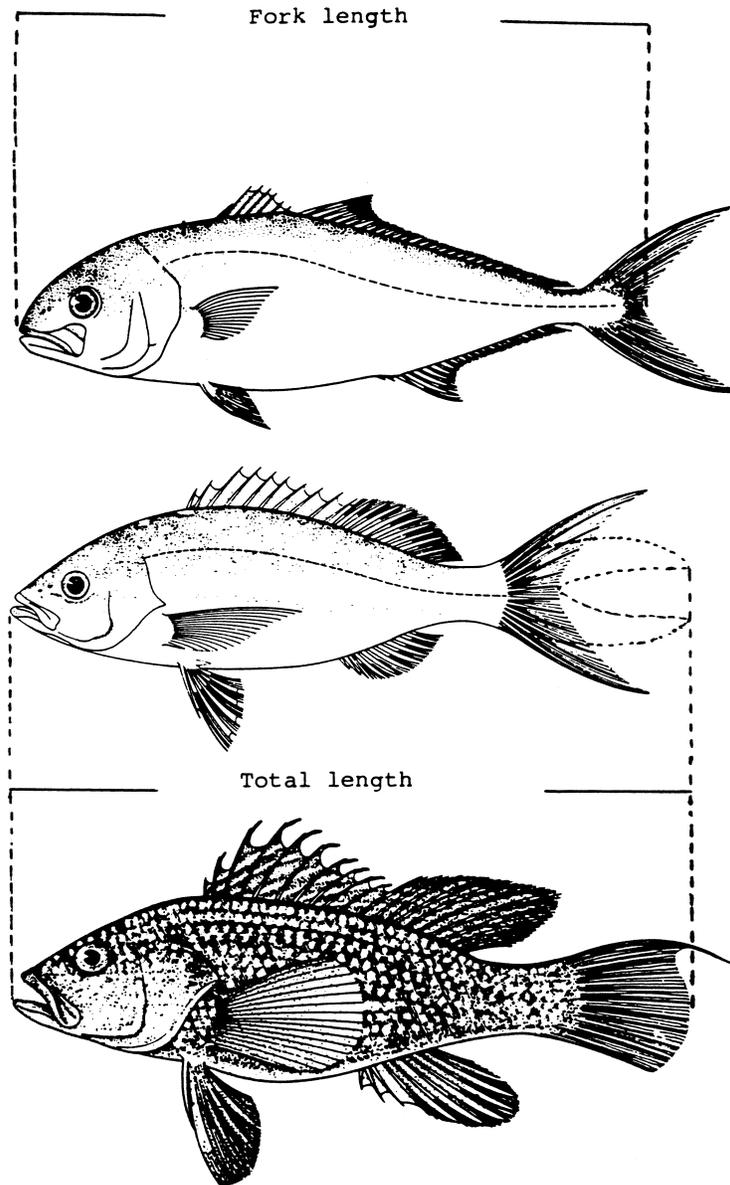

Figure 2 of Appendix C to Part 622—Illustration of Length Measurements

[61 FR 34934, July 3, 1996, as amended at 64 FR 3630, Jan. 25, 1999]

APPENDIX D TO PART 622—
SPECIFICATIONS FOR CERTIFIED BRDS

A. *Extended Funnel.*

1. *Description.* The extended funnel BRD consists of an extension with large-mesh webbing in the center (the large-mesh escape section) and small-mesh webbing on each end held open by a semi-rigid hoop. A funnel of small-mesh webbing is placed inside the extension to form a passage for shrimp to the codend. It also creates an area of reduced water flow to allow for fish escapement through the large mesh. One side of the funnel is extended vertically to form a lead panel and area of reduced water flow. There are two sizes of extended funnel BRDs, a standard size and an inshore size for small trawls.

2. *Minimum Construction and Installation Requirements for Standard Size.*

(a) *Extension Material.* The small-mesh sections used on both sides of the large-mesh escape section are constructed of 1 $\frac{3}{8}$ inch (4.13 cm), No. 30 stretched mesh, nylon webbing. The front section is 120 meshes around by 6 $\frac{1}{2}$ meshes deep. The back section is 120 meshes around by 23 meshes deep.

(b) *Large-Mesh Escape Section.* The large-mesh escape section is constructed of 8 to 10 inch (20.3 to 25.4 cm), stretched mesh, webbing. This section is cut on the bar to form a section that is 15 inches (38.1 cm) in length by 95 inches (241.3 cm) in circumference. The leading edge is attached to the 6 $\frac{1}{2}$ -mesh extension section and the rear edge is attached to the 23-mesh extension section.

(c) *Funnel.* The funnel is constructed of 1 $\frac{1}{2}$ inch (3.81 cm), stretched mesh, No. 30 depth-stretched and heat-set polyethylene webbing. The circumference of the leading edge is 120 meshes and the back edge is 78 meshes. The short side of the funnel is 34 to 36 inches (86.4 to 91.4 cm) long and the opposite side of the funnel extends an additional 22 to 24 inches (55.9 to 61.0 cm). The circumference of the leading edge of the funnel is attached to the forward small-mesh section three meshes forward of the large-mesh escape section and is evenly sewn, mesh for mesh, to the small-mesh section. The after edge of the funnel is attached to the after small-mesh section at its top and bottom eight meshes back from the large-mesh escape panel. Seven meshes of the top and seven meshes of the bottom of the funnel are attached to eight meshes at the top and bottom of the small-mesh section, such eight meshes being located immediately adjacent to the top and bottom centers of the small-mesh section on the side of the funnel's extended side. The extended side of the funnel is sewn at its top and bottom to the top and bottom of the small-mesh section, extending at an angle toward the top and bottom centers of the small-mesh section.

(d) *Semi-Rigid Hoop.* A 30-inch (76.2-cm) diameter hoop constructed of plastic-coated trawl cable, swaged together with a $\frac{3}{8}$ -inch (9.53-mm) micropress sleeve, is installed five meshes behind the trailing edge of the large-

mesh escape section. The extension webbing must be laced to the ring around the entire circumference and must be equally distributed on the hoop, that is, 30 meshes must be evenly attached to each quadrant.

(e) *Installation.* The extended funnel BRD is attached 8 inches (20.3 cm) behind the posterior edge of the TED. If it is attached behind a soft TED, a second semi-rigid hoop, as prescribed in paragraph A.2.(d), must be installed in the front section of the BRD extension webbing at the leading edge of the funnel. The codend of the trawl net is attached to the trailing edge of the BRD.

3. *Minimum Construction and Installation Requirements for Inshore Size.*

(a) *Extension Material.* The small-mesh sections used on both sides of the large-mesh escape section are constructed of 1 $\frac{3}{8}$ inch (3.5 cm), No. 18 stretched mesh, nylon webbing. The front section is 120 meshes around by 6 $\frac{1}{2}$ meshes deep. The back section is 120 meshes around by 23 meshes deep.

(b) *Large-Mesh Escape Section.* The large-mesh escape section is constructed of 8 to 10 inch (20.3 to 25.4 cm), stretched mesh, webbing. This section is cut on the bar to form a section that is 15 inches (38.1 cm) by 75 inches (190.5 cm) in circumference. The leading edge is attached to the 6 $\frac{1}{2}$ -mesh extension section and the rear edge is attached to the 23-mesh extension section.

(c) *Funnel.* The funnel is constructed of 1 $\frac{3}{8}$ inch (3.5 cm), stretched mesh, No. 18 depth-stretched and heat-set polyethylene webbing. The circumference of the leading edge is 120 meshes and the back edge is 78 meshes. The short side of the funnel is 30 to 32 inches (76.2 to 81.3 cm) long and the opposite side of the funnel extends an additional 20 to 22 inches (50.8 to 55.9 cm). The circumference of the leading edge of the funnel is attached to the forward small-mesh section three meshes forward of the large-mesh escape section and is evenly sewn, mesh for mesh, to the small-mesh section. The after edge of the funnel is attached to the after small-mesh section at its top and bottom eight meshes back from the large-mesh escape panel. Seven meshes of the top and seven meshes of the bottom of the funnel are attached to eight meshes at the top and bottom of the small-mesh section, such eight meshes being located immediately adjacent to the top and bottom centers of the small-mesh section on the side of the funnel's extended side. The extended side of the funnel is sewn at its top and bottom to the top and bottom of the small-mesh section, extending at an angle toward the top and bottom centers of the small-mesh section.

(d) *Semi-Rigid Hoop.* A 24-inch (61.0-cm) diameter hoop constructed of plastic-coated trawl cable, swaged together with a $\frac{3}{8}$ -inch (9.53-mm) micropress sleeve, is installed five meshes behind the trailing edge of the large mesh section. The extension webbing must

be laced to the ring around the entire circumference and must be equally distributed on the hoop, that is, 30 meshes must be evenly attached to each quadrant.

(e) *Installation.* The extended funnel BRD is attached 8 inches (20.3 cm) behind the posterior edge of the TED. If it is attached behind a soft TED, a second semi-rigid hoop, as prescribed in paragraph A.3.(d), must be installed in the front section of the BRD extension webbing at the leading edge of the funnel. The codend of the trawl net is attached to the trailing edge of the BRD.

B. *Expanded Mesh.* The expanded mesh BRD is constructed and installed exactly the same as the standard size extended funnel BRD, except that one side of the funnel is not extended to form a lead panel.

C. *Fisheye.*

1. *Description.* The fisheye BRD is a cone-shaped rigid frame constructed from aluminum or steel rod of at least ¼ inch diameter, which is inserted into the codend to form an escape opening. Fisheyes of several different shapes and sizes have been tested in different positions in the codend.

2. *Minimum Construction and Installation Requirements.* The fisheye has a minimum opening dimension of 5 inches (12.7 cm) and a minimum total opening area of 36 square inches (91.4 square cm). The fisheye must be installed at the top center of the codend of the trawl to create an opening in the trawl facing in the direction of the mouth of the trawl no further forward than 11 ft (3.4 m) from the codend drawstring (tie-off rings) or 70 percent of the distance between the codend drawstring and the forward edge of the codend, excluding any extension, whichever is the shorter distance. In the Gulf EEZ only, when the fisheye BRD is installed in this position, no part of the lazy line attachment system (i.e., any mechanism, such as elephant ears or choker straps, used to attach the lazy line to the codend) may overlap the fisheye escape opening when the fisheye is installed aft of the attachment point of the codend retrieval system.

D. *Gulf fisheye.*

1. *Description.* The Gulf fisheye BRD is a cone-shaped rigid frame constructed from aluminum or steel that is inserted into the top center of the codend, or is offset not more than 15 meshes perpendicular to the top center of the codend, to form an escape opening.

2. *Minimum Construction and Installation Requirements.* The Gulf fisheye is a cone-shaped rigid frame constructed of aluminum or steel rods. The rods must be at least ¼-inch (6.35-mm) diameter. Any dimension of the escape opening must be at least 5.0 inches (12.7 cm), and the total escape opening area must be at least 36.0 in² (232.3 cm²). The Gulf fisheye must be installed in the codend of the trawl to create an escape opening in the trawl, facing in the direction of the mouth of the

trawl, no further forward than 12.5 ft (3.81 m) and no less than 8.5 ft (2.59 m) from the codend tie-off rings. When installed in this position, no part of the lazy line attachment system (i.e., any mechanism, such as elephant ears or choker straps, used to attach the lazy line to the codend) may overlap the fisheye escape opening when the fisheye is installed aft of the attachment point of the codend retrieval system. The Gulf fisheye may not be offset more than 15 meshes perpendicular to the top center of the codend.

E. *Jones-Davis.*

1. *Description.* The Jones-Davis BRD is similar to the expanded mesh and the extended funnel BRDs except that the fish escape openings are windows cut around the funnel rather than large-mesh sections. In addition, a webbing cone fish deflector is installed behind the funnel.

2. *Minimum Construction and Installation Requirements.* The Jones-Davis BRD must contain all of the following.

(a) *Webbing extension.* The webbing extension must be constructed from a single piece of 1½-inch (3.5-cm) stretch mesh number 30 nylon 42 meshes by 120 meshes. A tube is formed from the extension webbing by sewing the 42-mesh side together.

(b) *28-inch (71.1-cm) cable hoop.* A single hoop must be constructed of ½-inch (1.3-cm) steel cable 88 inches (223.5 cm) in length. The cable must be joined at its ends by a 3-inch (7.6-cm) piece of ½-inch (1.3-cm) aluminum pipe and pressed with a ⅜-inch (0.95-cm) die to form a hoop. The inside diameter of this hoop must be between 27 and 29 inches (68.6 and 73.7 cm). The hoop must be attached to the extension webbing 17½ meshes behind the leading edge. The extension webbing must be quartered and attached in four places around the hoop, and every other mesh must be attached all the way around the hoop using number 24 twine or larger. The hoop must be laced with ⅜-inch (0.95-cm) polypropylene or polyethylene rope for chaffing.

(c) *24-inch (61.0-cm) hoop.* A single hoop must be constructed of either number 60 twine 80 inches (203.2 cm) in length or ⅜-inch (0.95-cm) steel cable 75½ inches (191.8 cm) in length. If twine is used, the twine must be laced in and out of the extension webbing 39 meshes behind the leading edge, and the ends must be tied together. If cable is used, the cable must be joined at its ends by a 3-inch (7.6-cm) piece of ⅜-inch (0.95-cm) aluminum pipe and pressed together with a ¼-inch (0.64-cm) die to form a hoop. The inside diameter of this hoop must be between 23 and 25 inches (58.4 and 63.4 cm). The hoop must be attached to the extension webbing 39 meshes behind the leading edge. The extension webbing must be quartered and attached in four places around the hoop, and every other mesh must be attached all the way around the hoop using number 24 twine or larger.

The hoop must be laced with $\frac{3}{8}$ -inch (0.95-cm) polypropylene or polyethylene rope for chaffing.

(d) *Funnel*. The funnel must be constructed from four sections of $1\frac{1}{2}$ -inch (3.8-cm) heat-set and depth-stretched polypropylene or polyethylene webbing. The two side sections must be rectangular in shape, $29\frac{1}{2}$ meshes on the leading edge by 23 meshes deep. The top and bottom sections are $29\frac{1}{2}$ meshes on the leading edge by 23 meshes deep and tapered 1 point 2 bars on both sides down to 8 meshes across the back. The four sections must be sewn together down the 23-mesh edge to form the funnel.

(e) *Attachment of the funnel in the webbing extension*. The funnel must be installed two meshes behind the leading edge of the extension starting at the center seam of the extension and the center mesh of the funnel's top section leading edge. On the same row of meshes, the funnel must be sewn evenly all the way around the inside of the extension. The funnel's top and bottom back edges must be attached one mesh behind the 28-inch (71.1-cm) cable hoop (front hoop). Starting at the top center seam, the back edge of the top funnel section must be attached four meshes each side of the center. Counting around 60 meshes from the top center, the back edge of the bottom section must be attached 4 meshes on each side of the bottom center. Clearance between the side of the funnel and the 28-inch (71.1-cm) cable hoop (front hoop) must be at least 6 inches (15.2 cm) when measured in the hanging position.

(f) *Cutting the escape openings*. The leading edge of the escape opening must be located within 18 inches (45.7 cm) of the posterior edge of the turtle excluder device (TED) grid. The area of the escape opening must total at least 864 in² (5,574.2 cm²). Two escape openings 10 meshes wide by 13 meshes deep must be cut 6 meshes apart in the extension webbing, starting at the top center extension seam, 3 meshes back from the leading edge and 16 meshes to the left and to the right (total of four openings). The four escape openings must be double selvaged for strength.

(g) *Alternative Method for Constructing the Funnel and Escape Openings*. The following method for constructing the funnel and escape openings may be used instead of the method described in paragraphs F.2.d., F.2.e., and F.2.f. of this section. With this alternative method, the funnel and escape openings are formed by cutting a flap in each side of the extension webbing; pushing the flaps inward; and attaching the top and bottom edges along the bars of the extension webbing to form the v-shape of the funnel. Minimum requirements applicable to this method include: (1) The funnel's top and bottom back edges must be attached one mesh behind the 28-inch (71.1-cm) cable hoop (front hoop); (2) clearance between the side of the

funnel and the 28-inch (71.1-cm) cable hoop (front hoop) must be at least 6 inches (15.2 cm) when measured in the hanging position; (3) the leading edge of the escape opening must be located within 18 inches (45.7 cm) of the posterior edge of the turtle excluder device (TED) grid; and, (4) the area of the escape opening must total at least 864 in² (5,574.2 cm²). To construct the funnel and escape openings using this method, begin $3\frac{1}{2}$ meshes from the leading edge of the extension, at the top center seam, count over 18 meshes on each side, and cut 13 meshes toward the back of the extension. Turn parallel to the leading edge, and cut 26 meshes toward the bottom center of the extension. Next, turn parallel to the top center seam, and cut 13 meshes forward toward the leading edge, creating a flap of webbing 13 meshes by 26 meshes by 13 meshes. Lengthen the flap to 18 meshes by adding a $4\frac{1}{2}$ -mesh by 26-mesh rectangular section of webbing to the 26-mesh edge. Attach the 18-mesh edges to the top and bottom of the extension by sewing 2 bars of the extension to 1 mesh on the flap in toward the top center and bottom center of the extension, forming the exit opening and the funnel. Connect the two flaps together in the center with a 7-inch piece of number 42 twine to allow adequate clearance for fish escapement between the flaps and the side openings. On each side, sew a 6-mesh by $10\frac{1}{2}$ -mesh section of webbing to 6 meshes of the center of the 26-mesh cut on the extension and 6 meshes centered between the 13-mesh cuts $3\frac{1}{2}$ meshes from the leading edge. This forms two 10-mesh by 13-mesh openings on each side.

(h) *Cone fish deflector*. The cone fish deflector is constructed of 2 pieces of $1\frac{1}{8}$ -inch (4.13-cm) polypropylene or polyethylene webbing, 40 meshes wide by 20 meshes in length and cut on the bar on each side forming a triangle. Starting at the apex of the two triangles, the two pieces must be sewn together to form a cone of webbing. The apex of the cone fish deflector must be positioned within 10–14 inches (25.4–35.6 cm) of the posterior edge of the funnel.

(i) *11-inch (27.9-cm) cable hoop for cone deflector*. A single hoop must be constructed of $\frac{5}{16}$ -inch (0.79-cm) or $\frac{3}{8}$ -inch (0.95-cm) cable $34\frac{1}{2}$ inches (87.6 cm) in length. The ends must be joined by a 3-inch (7.6-cm) piece of $\frac{3}{8}$ -inch (0.95-cm) aluminum pipe pressed together with a $\frac{1}{4}$ -inch (0.64-cm) die. The hoop must be inserted in the webbing cone, attached 10 meshes from the apex and laced all the way around with heavy twine.

(j) *Installation of the cone in the extension*. The cone must be installed in the extension 12 inches (30.5 cm) behind the back edge of the funnel and attached in four places. The midpoint of a piece of number 60 twine 4 ft (1.22 m) in length must be attached to the apex of the cone. This piece of twine must be attached to the 28-inch (71.1-cm) cable hoop

Fishery Conservation and Management

§ 635.1

at the center of each of its sides; the points of attachment for the two pieces of twine must be measured 20 inches (50.8 cm) from the midpoint attachment. Two 8-inch (20.3-cm) pieces of number 60 twine must be attached to the top and bottom of the 11-inch (27.9-cm) cone hoop. The opposite ends of these two pieces of twine must be attached to the top and bottom center of the 24-inch (61-cm) cable hoop; the points of attachment for the two pieces of twine must be measured 4 inches (10.2 cm) from the points where they are tied to the 11-inch (27.9-cm) cone hoop.

PART 635—ATLANTIC HIGHLY MIGRATORY SPECIES

Subpart A—General

- Sec.
- 635.1 Purpose and scope.
 - 635.2 Definitions.
 - 635.3 Relation to other laws.
 - 635.4 Permits and fees.
 - 635.5 Recordkeeping and reporting.
 - 635.6 Vessel and gear identification.
 - 635.7 At-sea observer coverage.

Subpart B—Limited Access

- 635.16 Limited access permits.

Subpart C—Management Measures

- 635.20 Size limits.
- 635.21 Gear operation and deployment restrictions.
- 635.22 Recreational retention limits.
- 635.23 Retention limits for BFT.
- 635.24 Commercial retention limits for sharks and swordfish.
- 635.25 [Reserved]
- 635.26 Catch and release.
- 635.27 Quotas.
- 635.28 Closures.
- 635.29 Transfer at sea.
- 635.30 Possession at sea and landing.
- 635.31 Restrictions on sale and purchase.
- 635.32 Specifically authorized activities.
- 635.33 Archival tags.
- 635.34 Adjustment of management measures.

Subpart D—Restrictions on Imports

- 635.40 Restrictions to enhance conservation.
- 635.41 Species subject to documentation requirements.
- 635.42 Documentation requirements.
- 635.43 Contents of documentation.
- 635.44 Validation requirements.
- 635.45 Products denied entry.
- 635.46 Import requirements for swordfish.
- 635.47 Ports of entry.

Subpart E—International Port Inspection

- 635.50 Basis and purpose.
- 635.51 Authorized officer.
- 635.52 Vessels subject to inspection.
- 635.53 Reports.

Subpart F—Enforcement

- 635.69 Vessel monitoring systems.
- 635.70 Penalties.
- 635.71 Prohibitions.

APPENDIX A TO PART 635—SPECIES TABLES

AUTHORITY: 16 U.S.C. 971 *et seq.*; 16 U.S.C. 1801 *et seq.*

SOURCE: 64 FR 29135, May 28, 1999, unless otherwise noted.

Subpart A—General

§ 635.1 Purpose and scope.

(a) The regulations in this part govern the conservation and management of Atlantic tunas, Atlantic billfish, Atlantic sharks, and Atlantic swordfish under the authority of the Magnuson-Stevens Act and ATCA. They implement the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks, and the Fishery Management Plan for Atlantic Billfishes. The Atlantic tunas regulations govern conservation and management of Atlantic tunas in the management unit. The Atlantic billfish regulations govern conservation and management of Atlantic billfish in the management unit. The Atlantic swordfish regulations govern conservation and management of North and South Atlantic swordfish in the management unit. North Atlantic swordfish are managed under the authority of both ATCA and the Magnuson-Stevens Act. South Atlantic swordfish are managed under the sole authority of ATCA. The shark regulations govern conservation and management of sharks in the management unit, solely under the authority of the Magnuson-Stevens Act. Sharks are managed under the authority of the Magnuson-Stevens Act.

(b) Under section 9(d) of ATCA, NMFS has determined that the regulations contained in this part with respect to Atlantic tunas are applicable within the territorial sea of the United States adjacent to, and within the boundaries of, the States of New Hampshire, Massachusetts, Rhode Island, New York, New Jersey, Delaware,
