

§ 82.34

cargo compartment of the vehicle is contaminated with material from broken eggs, or other material or litter that could spread *Salmonella*, he or she shall order the operator of the vehicle to clean and disinfect the compartment in accordance with § 71.7 of this chapter prior to the time the vehicle leaves the premises of the egg products plant.

(b) Live chickens may be moved interstate from a test poultry house, test flock, infected poultry house, or infected flock only if:

(1) A permit has been obtained for the interstate movement in accordance with § 82.35 of this subpart;

(2) The chickens are moved interstate to a Federally inspected slaughtering establishment;

(3) The chickens are slaughtered within 24 hours of arrival at the Federally inspected slaughtering establishment; and

(4) The wheels and exposed surfaces of the vehicle used to move the chickens are cleaned and disinfected in accordance with § 71.7 of this chapter after the chickens are unloaded and prior to the time the vehicle leaves the premises of the slaughtering establishment.

(c) Cages, coops, containers, troughs, and other equipment may be moved interstate from a test poultry house, test flock, infected poultry house, or infected flock only if:

(1) A permit has been obtained for the interstate movement in accordance with § 82.35 of this subpart;

(2) The equipment is made of hard plastic or metal,

(3) The equipment has been cleaned and disinfected in accordance with § 71.7 of this chapter,

(4) The equipment was inspected by a Federal or State representative after it was cleaned but before it was disinfected, and then was disinfected in the presence of a Federal or State representative; and

(5) The wheels and exposed surfaces of the vehicle used to move the equipment are free of manure at the time the equipment leaves the premises of the test or infected poultry house.

(d) Manure may be moved interstate from a test poultry house, test flock, infected poultry house, or infected flock only if: A permit has been ob-

9 CFR Ch. I (1-1-01 Edition)

tained for the interstate movement in accordance with § 82.35 of this subpart; the wheels and exposed surfaces of the vehicle used to move the manure are free of manure at the time the manure leaves the premises of the flock; and the manure is moved interstate for one of the following purposes:

(1) Burial,

(2) Spreading and turning under on fields not used for grazing or poultry production; or

(3) Composting in a covered compost heap for a period of at least one month.

[56 FR 3738, Jan. 30, 1991, as amended at 59 FR 67613, Dec. 30, 1994]

§ 82.34 Interstate movement of hatching eggs and newly-hatched chicks.

No hatching eggs or newly-hatched chicks from egg-type chicken breeding flocks may be moved interstate unless they are classified "U.S. S. Enteritidis Monitored" under the National Poultry Improvement Plan (NPIP), or meet the requirements of a State classification plan determined by the Administrator to be equivalent to the NPIP, in accordance with § 145.23(d) of this chapter. Flocks which meet this requirement are designated Certified *Salmonella enteritidis* serotype *enteritidis* Tested Free Flocks.

[56 FR 3738, Jan. 30, 1991, as amended at 61 FR 11517, Mar. 21, 1996]

§ 82.35 Issuance of permits.

Permits required by this part may be obtained by the owner of poultry or other items, or the agent of the owner, by applying in writing to a Federal representative.⁵ The application shall specify the following: The name and mailing address of the owner of the poultry or other items to be moved, or the name and address of the agent of the owner; the name and mailing address of the person who will receive the poultry or other items; the street addresses of both the origin and destination of the shipment; the number and types of poultry and other items to be moved; and the reason for their movement. An application for a permit to move eggs for export in accordance with § 82.33(a) of this subpart must also
