**Title 14:**

- Chapter V—National Aeronautics and Space Administration .............. 3
- Chapter VI—Office of Management and Budget ................................. 489

**Finding Aids:**

- Table of CFR Titles and Chapters ................................................ 501
- Alphabetical List of Agencies Appearing in the CFR .......................... 519
- List of CFR Sections Affected ..................................................... 529
Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 14 CFR 1201.100 refers to title 14, part 1201, section 100.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16..........................as of January 1
- Title 17 through Title 27..........................as of April 1
- Title 28 through Title 41..........................as of July 1
- Title 42 through Title 50..........................as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 2002), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, or 1973–1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume. An index to the text of “Title 5—The President” is carried within that volume. The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register. A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages. For inquiries concerning CFR reference assistance, call 202–523–5227 or write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408 or e-mail info@fedreg.nara.gov.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call 202–512–1800, M–F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202–512–2250, 24 hours a day. For payment by check, write to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250–7954. For GPO Customer Service call 202–512–1803.

ELECTRONIC SERVICES

The Office of the Federal Register also offers a free service on the National Archives and Records Administration's (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA's web site at www.nara.gov/fedreg. The NARA site also contains links to GPO Access.

RAYMOND A. MOSLEY,
Director,
Office of the Federal Register.

January 1, 2002.
Title 14—AERONAUTICS AND SPACE is composed of five volumes. The parts in these volumes are arranged in the following order: parts 1–59, 60–139, 140–199, 200–1199, and part 1200–End. The first three volumes containing parts 1–199 are comprised of chapter I—Federal Aviation Administration, Department of Transportation (DOT). The fourth volume containing parts 200–1199 is comprised of chapter II—Office of the Secretary, DOT (Aviation Proceedings) and chapter III—Commercial Space Transportation, Federal Aviation Administration, DOT. The fifth volume containing part 1200–End is comprised of chapter V—National Aeronautics and Space Administration and chapter VI—Office of Management and Budget. The contents of these volumes represent all current regulations codified under this title of the CFR as of January 1, 2002.

Redesignation tables appear in the Finding Aids section of the volume containing parts 60–139.
Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the Federal Register Index, or both.

LSA
The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $31 per year.

Federal Register Index
The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $28 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Superintendent of Documents Subscription Order Form

Order Processing Code: ☐ YES, send me the following indicated subscriptions for one year:

☐ LSA (List of CFR Sections Affected), (LCS) for $31 per year.
☐ Federal Register Index (FRSU) $28 per year.

The total cost of my order is $_________.
Price is subject to change. International customers please add 25%.

Company or personal name
Street address
City, State, Zip code
Daytime phone with area code
Purchase order No. (optional)

Fax your orders (202) 512-2250
Phone your orders (202) 512-1800

(Includes regular shipping and handling.)

For privacy check box below:
☐ Do not make my name available to other mailers

Check method of payment:
☐ Check payable to Superintendent of Documents
☐ GPO Deposit Account ________
☐ VISA ☐ MasterCard ________ (expiration date)

Credit card No. (must be 20 digits)

Thank you for your order!

PART 1200 [RESERVED]

PART 1201—STATEMENT OF ORGANIZATION AND GENERAL INFORMATION

Subpart 1—Introduction

Sec.
1201.100 Creation and authority.
1201.101 Purpose.
1201.102 Functions.
1201.103 Administration.

Subpart 2—Organization

1201.200 General.

Subpart 3—Boards and Committees

1201.300 Boards and committees.

Subpart 4—General Information

1201.400 NASA procurement program.
1201.401 Special document depositories.
1201.402 NASA Industrial Applications Centers.

AUTHORITY: 5 U.S.C. 552.

SOURCE: 55 FR 37222, Sept. 10, 1990, unless otherwise noted.

Subpart 1—Introduction

§ 1201.100 Creation and authority.

The National Aeronautics and Space Administration was established by the National Aeronautics and Space Act of 1958 (72 Stat. 426, 42 U.S.C. 2451 et seq.), as amended (hereafter called the “Act”).

§ 1201.101 Purpose.

It is the purpose of the National Aeronautics and Space Administration to carry out aeronautical and space activities of the United States. Such activities shall be the responsibility of, and shall be directed by, the National Aeronautics and Space Administration, except that activities peculiar to or primarily associated with the development of weapons systems, military operations, or the defense of the United States shall be the responsibility of, and shall be directed by, the Department of Defense.

§ 1201.102 Functions.

In order to carry out the purpose of the Act, NASA is authorized to conduct research for the solution of problems of flight within and outside the Earth’s atmosphere; to develop, construct, test, and operate aeronautical and space vehicles for research purposes; to operate a space transportation system including the space shuttle, upper stages, space program, space station, and related equipment; and to perform such other activities as may be required for the exploration of space. The term aeronautical and space vehicles means aircraft, missiles, satellites, and other space vehicles, together with related equipment, devices, components, and parts. It conducts activities required for the exploration of space with manned and unmanned vehicles and arranges for the most effective utilization of the scientific and engineering resources of the United States with other nations engaged in aeronautical and space activities for peaceful purposes.

§ 1201.103 Administration.

(a) NASA is headed by an Administrator, who is appointed from civilian life by the President by and with the advice and consent of the Senate. The Administrator is responsible, under the supervision and direction of the President, for exercising all powers and discharging all duties of NASA.

(b) The Deputy Administrator of NASA is also appointed by the President from civilian life by and with the advice and consent of the Senate. The Deputy Administrator acts with or for the Administrator within the full scope of the Administrator’s responsibilities. In the Administrator’s absence, the Deputy Administrator serves as Acting Administrator.

Subpart 2—Organization

§ 1201.200 General.

(a) NASA’s basic organization consists of the Headquarters, eight field installations, the Jet Propulsion Laboratory (a Government-owned, contractor-operated facility), and several component installations which report to Directors of Field Installations. Responsibility for overall planning, coordination, and control of NASA programs is vested in NASA Headquarters
located in Washington, DC. NASA Headquarters is comprised of:

(1) The Office of the Administrator which includes the Administrator, Deputy Administrator, Associate Deputy Administrator, Assistant Deputy Administrator, and the Executive Officer.

(2) Four Program Offices which are responsible for planning, direction, and management of agencywide research and development programs. Officials-in-Charge of these Program Offices report directly to the Administrator and they consist of:

(i) The Office of Aeronautics, Exploration and Technology which is responsible for conducting programs to develop advanced technology to enable and enhance an aggressive pursuit of national objectives in aeronautics, space, and transatmospherics, including the National Aero-Space Plane Program; to demonstrate the feasibility of this advanced technology in ground, flight, and in-space facilities to ensure its early utilization; and to ensure the application of agency capabilities and facilities to programs of other agencies and the United States aerospace industry. The Office is the focal point for the Space Exploration Initiative, a long-term program of robotic and human exploration which will include sending humans to the Moon early in the 21st century to establish a permanent outpost, and then conducting human missions to the planet Mars. In addition, the Office is responsible for managing the Ames, Langley, and Lewis Research Centers.

(ii) The Office of Space Science and Applications is responsible for efforts to understand the origin, evolution, and structure of the universe, the solar system, and the integrated functioning of the Earth. The Office conducts space application activities, such as remote sensing of the Earth, developing and understanding microgravity processes, and developing and testing advanced space communications as well as basic and applied science to facilitate life in space. The Office also is responsible for managing the Goddard Space Flight Center and the Jet Propulsion Laboratory and maintaining contacts with the Space Science Board of the National Academy of Sciences, the Space Applications Board, and other science advisory boards and committees. The Office coordinates its program with various government agencies, foreign interests, and the private sector. Its objectives are accomplished through research and development in astrophysics, life sciences, Earth sciences and applications, solar system exploration, space physics, communications, microgravity science and applications, and communications and information systems. The Office also utilizes the space shuttle, expendable launch vehicles, automated spacecraft, human-occupied spacecraft, sounding rockets, balloons, aircraft, and ground-based research to conduct its programs.

(iii) The Office of Space Flight is responsible for advancing the space shuttle, for developing Freedom, a permanently manned space station, and for carrying out space transportation and other associated programs, including the management of the Johnson Space Center, Marshall Space Flight Center, Kennedy Space Center, and John C. Stennis Space Center. The Office plans, directs, and executes the development, acquisition, testing, and operations of all elements of the Space Transportation System; plans, directs, and manages execution of prelaunch, launch, flight, landing, postflight operations, and payload assignments; maintains and upgrades the design of ground and flight systems throughout the operational period; procures recurring system hardware; manages all U.S. Government civil launch capabilities and spacelab development, procurement, and operations; develops and implements necessary policy with other government and commercial users of the Space Transportation System; and coordinates all research. The Office is also responsible for managing and directing all aspects of the Space Station Freedom Program and achieving the goals established by the President. These goals include developing a permanently manned space station in the mid-1990’s and involving other countries in the program, and promoting scientific research, technology development, and private-sector investment in space. The Johnson Space Center, the Marshall Space Flight Center, the Goddard Space Flight Center, and the Lewis Research Center are responsible
for developing major elements of the space station. The concept of the Space Station Freedom Program is to provide a manned base, initially accommodating a crew of eight people.

(iv) The Office of Space Operations is responsible for an array of functions critical to operations of this Nation’s space programs. They include spacecraft operations and control centers; ground and space communications; data acquisition and processing; flight dynamics and trajectory analyses; spacecraft tracking; and applied research and development of new technology. The Space Transportation System, Tracking and Data Relay Satellite System, Deep Space Network, Spaceflight Tracking and Data Network, and various other facilities currently provide the requirements for NASA’s space missions. A global communications system links tracking sites, control centers, and data processing facilities that provide real-time data processing for mission control, orbit, and attitude determination, and routine processing of telemetry data for space missions.

(3) Thirteen Headquarters Offices which provide agencywide leadership in management and administrative processes. Officials-in-Charge of these offices report to the Administrator.

(b) Directors of NASA Field Installations and other component installations are responsible for execution of NASA’s programs, largely through contracts with research, development, and manufacturing enterprises. A broad range of research and development activities are conducted at NASA field installations and other component installations by Government-employed scientists, engineers, and technicians to evaluate new concepts and phenomena and to maintain the capability required to manage contracts with private enterprises. Although these field installations have a primary program responsibility to the program office to which they report, they also conduct work for the other program offices.

(c) The NASA field installations and a brief description of their responsibilities are as follows:

(1) Ames Research Center, Moffett Field, CA 94035. The Center manages a diverse program of research and development in support of the Nation’s aerospace program and maintains unique research and test facilities including wind tunnels, simulators, supercomputers, and flight test ranges. Current areas of emphasis include the development of aerospace vehicle concepts through synergistic application of the Center’s complete capabilities, ranging from computation and experimentation (in wind tunnels and simulators) to flight testing; research in support of human adaptation and productivity in the microgravity environment; and research and development of human/machine interfaces and levels of automation to optimize the operation of future aerospace systems, as well as future hypersonic vehicles and probes. Specifically, the Center’s major program responsibilities are concentrated in computational and experimental fluid dynamics and aerodynamics; fluid and thermal physics; rotocraft, powered-lift, and high-performance aircraft technology; flight simulation and research; controls and guidance; aerospace human factors; automation sciences, space and life sciences; airborne sciences and applications; space biology and medicine; and ground and flight projects in support of aeronautics and space technology. In addition to these major program responsibilities, the Center provides support for military programs and major agency projects such as the Space Transportation System, Space Station, and the National Aero-Space Plane.

(2) Goddard Space Flight Center, Greenbelt, MD 20771. The Center conducts Earth-orbital spacecraft and experiment development flight operations. It develops and operates tracking and data acquisition systems and conducts supporting mission operations. It also develops and operates spacelab payloads; space physics research program; Earth science and applications programs; life science programs; information systems technology; sounding rockets and sounding rocket payloads; launch vehicles; balloons and balloon experiments; planetary science experiments; and sensors for environmental monitoring and ocean dynamics.

(3) John F. Kennedy Space Center, Kennedy Space Center, FL 32899. The Center designs, constructs, operates, and
§ 1201.200

maintains space vehicle facilities and ground support equipment for launch and recovery operations. The Center is also responsible for prelaunch operations, launch operations, and payload processing for the space shuttle and expendable launch vehicle programs, and landing operations for the space shuttle orbiter; also recovery and refurbishment of the reusable solid rocket booster.

(4) Langley Research Center, Hampton, VA 23665. The Center performs research in long-haul aircraft technology; general aviation commuter aircraft technology; military aircraft and missile technology; National Aero-Space Plane; fundamental aerodynamics; computational fluid dynamics; propulsion/airframe integration; unsteady aerodynamics and aeroelasticity; hypersonic propulsion; aerospace acoustics; aerospace vehicle structures and materials; computational structural mechanics; space structures and dynamics; controls/structures interaction; aeroservoelasticity; interdisciplinary research; aerothermodynamics; aircraft flight management and operating procedures; advanced displays; computer science; electromagnetics; automation and robotics; reliable, fault-tolerant systems and software; aircraft flight control systems; advanced space vehicle configurations; advanced space station development; technology experiments in space; remote sensor and data acquisition and communication technology; space electronics and control systems; planetary entry technology; nondestructive evaluation and measurements technology; atmospheric sciences; Earth radiation budget; atmospheric dynamics; space power conversion and transmission; space environmental effects; and systems analysis of advanced aerospace vehicles.

(5) Lewis Research Center, Cleveland, OH 44135. The Center manages the development and operation of the space shuttle, a manned space transportation system developed for the United States by NASA. The shuttle is designed to reduce the cost of using space for commercial, scientific, and defense needs. The Center is responsible for development, production, delivery, and flight operation of the orbiter vehicle, that portion of the space shuttle that is designed to take crew and experiments into space, place satellites in orbit, retrieve ailing satellites, etc. The shuttle crew (up to seven people) includes pilots, mission specialists, and payload specialists. Crew personnel (other than payload specialists) are recruited, selected, and trained by the Center. It is also responsible for design, development, and testing of spaceflight payloads and associated systems for manned flight; for planning and conducting manned spaceflight missions; and for directing medical, engineering, and scientific experiments that are helping us understand and improve the environment. For the space station program, the Center provides support in the areas of headquarters level A responsibilities and project management.
(7) George C. Marshall Space Flight Center, Marshall Space Flight Center, AL 35812. The Center manages, develops, and tests the External Tank, Solid Rocket Booster, and main engines, which are major portions of the space shuttle project; oversees the development of the U.S. Spacelab; manages the space telescope; and conducts research in structural systems, materials science engineering, electronics, guidance, navigation, and control.

(8) John C. Stennis Space Center, Stennis Space Center, MS 39529. The Center plans and manages research and development activities in the field of space and terrestrial applications; space flight; research in oceanography, meteorology, and environmental sciences. The Center coordinates research between the Administration and other government agencies.

(d) The NASA Office of Inspector General is established pursuant to Act of Congress, Public Law 95–452, as amended, 5 U.S.C. App. III. The Inspector General is appointed by the President, by and with the advice and consent of the Senate, without regard to political affiliation and solely on the basis of integrity and demonstrated ability in accounting, auditing, financial analysis, law, management analysis, public administration, or investigations. The Inspector General appoints an Assistant Inspector General for Auditing, who is responsible for supervising the performance of auditing activities relating to NASA’s programs and operations, and an Assistant Inspector General for Investigations, who is responsible for supervising the performance of NASA’s investigative activities. It is the duty and responsibility of the Inspector General to provide policy direction, to conduct, supervise and coordinate audits and investigations related to NASA’s programs and operations in order to promote economy and efficiency, and to prevent and detect fraud and abuse in these programs and operations. The Inspector General must report expeditiously to the Attorney General whenever the Inspector General has reasonable grounds to believe there has been a violation of Federal criminal law. The Inspector General is responsible for keeping the Administrator and Congress fully and currently informed, by reports concerning fraud and other serious problems, abuses, and deficiencies related to NASA’s programs and operations, for recommending corrective actions, and for reporting on the progress in implementing such corrective actions. The Inspector General reports to the Administrator, but neither the Administrator nor the Deputy Administrator can prevent or prohibit the Inspector General from initiating, carrying out, or completing any audit or investigation, or from issuing any subpoena under authority of the Inspector General Act. In carrying out the responsibilities, the Inspector General shall comply with standards established by the Comptroller General of the United States for audits of governmental organizations, programs, activities, and functions. The Inspector General reports to Congress on a semiannual basis, summarizing the activities of the office. The reports are available to the public upon request within 60 days of their transmission to the Congress. Anyone wishing to report instances of fraud, waste, or mismanagement in NASA’s programs and operations can call the Inspector General Hotline at 755–3402 in the Washington, DC, area or toll free (800) 424–9183 for all other areas. The office maintains a 24-hour answering service. Identities of complainants can be kept confidential. Written complaints can be sent to the NASA Inspector General, P.O. Box 23089, L’Enfant Plaza Station, Washington, DC 20026.

(e) For more detailed description of NASA’s organizational structure, see the “U.S. Government Manual.”

Subpart 3—Boards and Committees

§ 1201.300 Boards and committees.

Various boards and committees have been established as part of the permanent organization structure of NASA. These include:

(a) Board of Contract Appeals. (1) The Board is established in accordance with the Contract Disputes Act of 1978 (41 U.S.C. 601–613). The function of the Board is to decide appeals from decisions of contracting officers relating to a contract made by NASA.
§ 1201.400 NASA procurement program.

(a) The Office of Procurement, headed by the Assistant Administrator for Procurement, serves as a central point of control and contact for NASA procurements. Although the procurements may be made by the field installations, selected contracts and contracts of special types are required to be approved by the Assistant Administrator for Procurement prior to their execution. The Office of Procurement is also responsible for formulation of NASA procurement policies and provides overall assistance and guidance to NASA field installations to achieve uniformity in NASA procurement processes.

(b) The NASA procurement program is carried out principally at the NASA field installations listed in subpart 2 of this part and in the "U.S. Government Manual." The Headquarters Acquisition Division is responsible for contracts with foreign governments and foreign commercial organizations, the procurement of materials and services required by Headquarters offices except for minor office supplies and services procured locally, and the award of grants and cooperative agreements for Headquarters. The Headquarters Space Station Freedom Procurement Office is responsible for managing and directing the full range of acquisition functions in support of the Space Station Freedom Program Office.

(c) All procurements are made in accordance with the Federal Acquisition Regulation (FAR) (48 CFR chapter 1) and the NASA Federal Acquisition Regulation Supplement (NASA/FAR Supplement) (48 CFR chapter 18).Copies of these publications are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, on an annual subscription basis.
§ 1201.401 Special document depositories.

NASA provides the National Technical Information Service (NTIS), U.S. Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161, with copies of NASA and/or NASA-sponsored unclassified unlimited documents to provide availability to the public. These documents may be reproduced by NTIS and sold at prices established by NTIS. NASA also uses the regional depository libraries established through the Federal Depository Library Program by chapter 19 of title 44 of the U.S. Code under the Government Printing Office (GPO) to make its technical documents and bibliographic tools available to the general public. These depository libraries are responsible for permanent retention of material, interlibrary loan, and reference services.

§ 1201.402 NASA Industrial Applications Centers.

(a) As part of its Technology Utilization Program—a program designed to transfer new aerospace knowledge and innovative technology to nonaerospace sectors of the economy—NASA operates a network of Industrial Applications Centers. These centers serve U.S. industrial clients on a fee paying basis by providing access to literally millions of scientific and technical documents published by NASA and by other research and development organizations. Using computers, the NASA Industrial Applications Centers conduct retrospective and current awareness searches of available literature in accordance with client interests, and assist in the interpretation and adaption of retrieved information to specified needs. Such services may be obtained by contacting one of the following:

(1) Aerospace Research Applications Center (ARAC), Indianapolis Center for Advanced Research, 611 N. Capital Avenue, Indianapolis, IN 46204.

PART 1203—INFORMATION SECURITY PROGRAM

Subpart A—Scope

Sec. 1203.100 Legal basis.
1203.101 Other applicable NASA regulations.

Subpart B—NASA Information Security Program

1203.200 Background and discussion.
1203.201 Information security objectives.
1203.202 Responsibilities.
1203.203 Degree of protection.

Subpart C—Classification Principles and Considerations

1203.300 General.
1203.301 Identification of information requiring protection.
1203.302 Combination, interrelation or compilation.
1203.303 Dissemination considerations.
1203.304 Internal effect.
1203.305 Restricted data.

Subpart D—Guides for Original Classification

1203.400 Specific classifying guidance.
§ 1203.100

1203.401 Effect of open publication.
1203.402 Classifying material other than documentation.
1203.403 State-of-the-art and intelligence.
1203.404 Handling of unprocessed data.
1203.405 Proprietary information.
1203.406 Additional classification factors.
1203.407 Duration of classification.
1203.408 Assistance by installation security classification officers.
1203.409 Exceptional cases.
1203.410 Limitations.
1203.411 Restrictions.
1203.412 Classification guides.

Subpart E—Derivative Classification

1203.500 Use of derivative classification.
1203.501 Applying derivative classification markings.

Subpart F—Declassification and Downgrading

1203.600 Policy.
1203.601 Responsibilities.
1203.602 Authorization.
1203.603 Systematic review for declassification.
1203.604 Mandatory review for declassification.

Subpart G—Foreign Government Information

1203.700 Identification.
1203.701 Classification.
1203.702 Duration of classification.
1203.703 Declassification.

Subpart H—Delegation of Authority to Make Determinations in Original Classification Matters

1203.800 Delegations.
1203.801 Redegulation.
1203.802 Reporting.

Subpart I—NASA Information Security Program Committee

1203.900 Establishment.
1203.901 Responsibilities.
1203.902 Membership.
1203.903 Ad hoc committees.
1203.904 Meetings.

SOURCE: 44 FR 34913, June 18, 1979, unless otherwise noted.
§ 1203.101 Other applicable NASA regulations.

(a) Subpart H of this part, “Delegation of Authority to Make Determinations in Original Security Classification Matters.”

(b) Subpart I of this part, “NASA Information Security Program Committee.”

Subpart B—NASA Information Security Program

§ 1203.200 Background and discussion.

(a) In establishing a civilian space program, the Congress required NASA to “provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof,” and for the withholding from public inspection of that information that is classified to protect the national security.

(b) In recognition of the essential requirement for an informed public concerning the activities of its Government, as well as the need to protect certain national security information from unauthorized disclosure, “the Order” was promulgated. It designates the National Aeronautics and Space Administration certain responsibility for matters pertaining to national security and confers on the Administrator of NASA, or such responsible officers or employees as the Administrator may designate, the authority for original classification of official information or material which requires protection in the interest of national security. It also provides for:

(1) Basic classification, downgrading and declassification guidelines;

(2) The issuance of directives prescribing the procedures to be followed in safeguarding classified information or material;

(3) A monitoring system to ensure the effectiveness of the Order;

(4) Appropriate administrative sanctions against officers and employees of the United States Government who are found to be in violation of the Order or implementing directive; and

(5) Classification limitations and restrictions as discussed in §§ 1203.410 and 1203.411.

(c) “The Order” requires the timely identification and protection of that NASA information the disclosure of which would be contrary to the best interest of national security. Accordingly, the determination in each case must be based on a judgment as to whether disclosure of information could reasonably be expected to result in damage to the national security.

[44 FR 34913, June 18, 1979, as amended at 48 FR 5889, Feb. 9, 1983]

§ 1203.201 Information security objectives.

The objectives of the NASA Information Security Program are to:

(a) Ensure that information is classified only when a sound basis exists for such classification and only for such period as is necessary.

(b) Prevent both the unwarranted classification and the overclassification of NASA information.

(c) Ensure the greatest practicable uniformity within NASA in the classification of information.

(d) Ensure effective coordination and reasonable uniformity with other Government departments and agencies, particularly in areas where there is an interchange of information, techniques or hardware.

(e) Provide a timely and effective means for downgrading or declassifying information when the circumstances necessitating the original classification change or no longer exist.

§ 1203.202 Responsibilities.

(a) The Chairperson, NASA Information Security Program Committee (Subpart I of this part), is responsible for:

(1) Directing the NASA Information Security Program in accordance with NASA policies and objectives and applicable laws and regulations.

(2) Ensuring effective compliance with and implementation of “the Order” and the Information Security Oversight Office Directive No. 1 relating to security classification matters.
§ 1203.202

(3) Reviewing, in consultation with the NASA Information Security Program Committee, questions, suggestions, appeals and compliance concerning the NASA Information Security Program and making determinations concerning them.

(4) Coordinating NASA security classification matters with NASA installations, the Department of Defense, the Department of Energy and other Government agencies.

(5) Issuing Security Classification Guides for NASA programs and projects.

(6) Developing, maintaining and recommending to the Administrator guidelines for the systematic review covering 30-year-old classified information under NASA’s jurisdiction.

(7) Reviewing and coordinating with appropriate offices all appeals of denials of requests for records under sections 552 and 552a of Title 5, United States Code (Freedom of Information and Privacy Acts) when the denials are based on the records continued classification.

(8) Recommending to the Administrator appropriate administrative action to correct abuse or violations of any provision of the NASA Information Security Program, including notifications by warning letter, formal reprimand and to the extent permitted by law, suspension without pay and removal.

(b) All NASA employees are responsible for bringing to the attention of the Chairperson of the NASA Information Security Program Committee any information security problems in need of resolution, any areas of interest wherein information security guidance is lacking, and any other matters likely to impede achievement of the objectives prescribed herein.

(c) Each NASA official to whom the authority for original classification is delegated shall be accountable for the propriety of each classification (see subpart H) and is responsible for:

(1) Ensuring that classification determinations are consistent with the policy and objectives prescribed above, and other applicable guidelines.

(2) Bringing to the attention of the Chairperson, NASA Information Security Program Committee, for resolution, any disagreement with classification determinations made by other NASA officials.

(3) Ensuring that information and material which no longer requires its present level of protection is promptly downgraded or declassified in accordance with applicable guidelines.

(d) Other Officials-in-Charge of Headquarters Offices are responsible for:

(1) Ensuring that classified information or material prepared within their respective offices is appropriately marked.

(2) Ensuring that material proposed for public release is reviewed to eliminate classified information.

(e) Directors of Field Installations are responsible for:

(1) Developing proposed Security Classification Guides.

(2) Ensuring that classified information or material prepared in their respective installations is appropriately marked.

(3) Ensuring that material proposed for public release is reviewed to eliminate classified information.

(4) Designating Security Classification Officers at their respective installations, to whom responsibilities listed in paragraphs (e)(1), (2), and (3) of this section may be reassigned.

(f) The Senior Security Specialist, NASA Security Office, NASA Headquarters, who serves as a member and Executive Secretary of the NASA Information Security Program Committee, is responsible for the NASA-wide coordination of security classification matters.

(g) The Director, NASA Security Management Office, is responsible for establishing procedures for the safeguarding of classified information or material (e.g., accountability, control, access, storage, transmission, and marking) and for ensuring that such procedures are systematically reviewed; and those which are duplicative or unnecessary are eliminated.

§ 1203.303 Degree of protection.

(a) General. Upon determination that information or material must be classified, the degree of protection commensurate with the sensitivity of the information must be determined. If there is reasonable doubt about the need to classify information, it shall be safeguarded as if it were classified pending a determination by an original classification authority, who shall make this determination within 30 days. If there is reasonable doubt about the appropriate level of classification, it shall be safeguarded at the higher level of classification pending a determination by an original classification authority, who shall make this determination within 30 days.

(b) Authorized categories of classification. The three categories of classification, as authorized and defined in "the Order," are set out below. No other restrictive markings are authorized to be placed on NASA classified documents or materials except as expressly provided by statute or by NASA Directives.

(1) Top Secret. Top Secret is the designation applied to information or material the unauthorized disclosure of which could reasonably be expected to cause exceptionally grave damage to the national security. Examples of exceptionally grave damage include armed hostilities against the United States or its allies; disruption of foreign relations vitally affecting the national security; the compromise of vital national defense plans or complex cryptologic and communications intelligence systems; the revelation of sensitive intelligence operations; and the disclosure of scientific or technological developments vital to national security.

(2) Secret. Secret is the designation applied to information or material the unauthorized disclosure of which could reasonably be expected to cause serious damage to the national security. Examples of serious damage include disruption of foreign relations significantly affecting the national security; significant impairment of a program or policy directly related to the national security; revelation of significant military plans or intelligence operations; and compromise of significant scientific or technological developments relating to national security.

(3) Confidential. Confidential is the designation applied to that information or material for which the unauthorized disclosure could reasonably be expected to cause damage to the national security.

[44 FR 34913, June 18, 1979, as amended at 48 FR 5890, Feb. 9, 1983]

Subpart C—Classification Principles and Considerations

§ 1203.300 General.
In general, the types of NASA-generated information and material requiring protection in the interest of national security lie in the areas of applied research, technology or operations.

§ 1203.301 Identification of information requiring protection.
Classifiers shall identify the level of classification of each classified portion of a document (including subject and titles), and those portions that are not classified.

§ 1203.302 Combination, interrelation or compilation.
An interrelationship of individual items, classified or unclassified, may result in a combined item requiring a higher classification than that of any of the individual items. Compilations of unclassified information are considered unclassified unless some additional significant factor is added in the process of compilation. For example:

(a) The way unclassified information is compiled may be classified;

(b) The fact that the information is complete for its intended purpose may be classified; or

(c) The fact the compilation represents an official evaluation may be classified. In these cases, the compilations would be classified.

§ 1203.303 Dissemination considerations.
The degree of intended dissemination, use of the information and whether the end purpose to be served renders effective security control impractical
§ 1203.304 Considerations during the classification process. These factors do not necessarily preclude classification, but must be considered in order not to impose security controls which are impractical to enforce.

§ 1203.304 Internal effect.

The effect of security protection on program progress and cost and on other functional activities of NASA should be considered. Impeditive effects and added costs inherent in a security classification must be assessed in light of the detrimental effects on the national security interests which would result from failure to classify.

§ 1203.305 Restricted data.

Restricted Data or Formerly Restricted Data is so classified when originated, as required by the Atomic Energy Act of 1954, as amended. Specific guidance for the classification of Restricted Data is provided in “Classification Guides” published by the Department of Energy.

Subpart D—Guides for Original Classification

§ 1203.400 Specific classifying guidance.

Technological and operational information and material, and in some exceptional cases scientific information falling within any one or more of the following categories, must be classified if its unauthorized disclosure could reasonably be expected to cause damage to the national security. In cases where it is believed that a contrary course of action would better serve the national interests, the matter should be referred to the Chairperson, NASA Information Security Program Committee, for a determination. It is not intended that this list be exclusive; original classifiers are responsible for initially classifying any other type of information which, in their judgment, requires protection under “the Order.”

(a) Information which provides the United States, in comparison with other nations, with a significant scientific, engineering, technical, operational, intelligence, strategic, tactical or economic advantage related to national security.

(b) Information which, if disclosed, would significantly diminish the technological lead of the United States in any military system, subsystem or component, and would result in damage to such a system, subsystem or component.

(c) Scientific or technological information in an area where an advanced military application that would in itself be classified is foreseen during exploratory development.

(d) Information which, if known, would:

(1) Provide a foreign nation with an insight into the defense application or the war or defense plans or posture of the United States;

(2) Allow a foreign nation to develop, improve or refine a similar item of defense application;

(3) Provide a foreign nation with a base upon which to develop effective countermeasures;

(4) Weaken or nullify the effectiveness of a defense or military plan, operation, project, weapon system or activity which is vital to the national security.

(e) Information or material which is important to the national security of the United States in relation to other nations when there is sound reason to believe that those nations are unaware that the United States has or is capable of obtaining the information or material; i.e., through intelligence activities, sources, or methods.

(f) Information which if disclosed could be exploited in a manner prejudicial to the national security posture of the United States by discrediting its technological power, capability or intentions.

(g) Information which reveals an unusually significant scientific or technological “breakthrough” which there is sound reason to believe is not known to or within the state-of-the-art capability of other nations. If the “breakthrough” supplies the United States with an important advantage of a technological nature, classification also would be appropriate if the potential application of the information, although not specifically visualized, would afford the United States a significant national security advantage in terms of technological lead time or an
(h) Information of such nature that an unfriendly government in possession of it would be expected to use it for purposes prejudicial to U.S. national security and which, if classified, could not be obtained by an unfriendly power without a considerable expenditure of resources.

(i) Information which if disclosed to a foreign government would enhance its military research and development programs to the detriment of U.S. counterpart or competitive programs.

(j) Operational information pertaining to the command and control of space vehicles, the possession of which would facilitate malicious interference with any U.S. space mission, that might result in damage to the national security.

(k) Information which if disclosed could jeopardize the foreign relations or activities of the United States; for example, the premature or unauthorized release of information relating to the subject matter of international negotiations, foreign government information or information regarding the placement or withdrawal of NASA tracking stations on foreign territory.

(l) United States Government programs for safeguarding nuclear materials or facilities.

(m) Other categories of information which are related to national security and which require protection against unauthorized disclosure as may be determined by the Administrator. The Chairperson, NASA Information Security Program Committee, will promptly inform the Director, Information Security Oversight Office, General Services Administration (GSA) of such determinations.

[44 FR 34913, June 18, 1979, as amended at 48 FR 5890, Feb. 9, 1983]

§ 1203.403 State-of-the-art and intelligence.

A logical approach to classification requires consideration of the extent to which the same or similar information available from intelligence sources is known or is available to others. It is also important to consider whether it is known publicly, either domestically or internationally, that the United States has the information or even is interested in the subject matter. The known state-of-the-art in other nations
§ 1203.404 Handling of unprocessed data.

It is the usual practice to withhold the release of raw scientific data received from spacecraft until it can be calibrated, correlated and properly interpreted by the experimenter under the monitorship of the cognizant NASA office. During this process, the data are withheld through administrative measures, and it is not necessary to resort to security classification to prevent premature release. However, if at any time during the processing of raw data it becomes apparent that the results require protection under the criteria set forth in this subpart D, it is the responsibility of the cognizant NASA office to obtain the appropriate security classification.

§ 1203.405 Proprietary information.

Proprietary information made available to NASA is subject to examination for classification purposes under the criteria set forth in this subpart D. Where the information is in the form of a proposal and accepted by NASA for support, it should be categorized in accordance with the criteria of §1203.400. If NASA does not support the proposal but believes that security classification would be appropriate under the criteria of §1203.400 if it were under Government jurisdiction, the contractor should be advised of the reasons why safeguarding would be appropriate, unless security considerations preclude release of the explanation to the contractor. NASA should identify the Government department, agency or activity whose national security interests might be involved and the contractor should be instructed to protect the proposal as though classified pending further advisory classification opinion by the Government activity whose interests are involved. If such a Government activity cannot be identified, the contractor should be advised that the proposal is not under NASA jurisdiction for classification purposes, and that the information should be sent, under proper safeguards, to the Director, Information Security Oversight Office, General Services Administration, Washington, DC 20405, for a determination.

§ 1203.406 Additional classification factors.

In determining the appropriate classification category, the following additional factors should be considered:

(a) Uniformity within government activities. The effect classification will have on technological programs of other Government departments and agencies should be considered. Classification of official information must be reasonably uniform within the Government.

(b) Applicability of classification directives of other Government agencies. It is necessary to determine whether authoritative classification guidance exists elsewhere for the information under consideration which would make it necessary to assign a higher classification than that indicated by the applicable NASA guidance. Generally, the classification by NASA should not be higher than that of equivalent information in other departments or agencies of the Government.

§ 1203.407 Duration of classification.

(a) Information shall be classified as long as required by national security considerations. When it can be determined, a specific date or event for declassification shall be set by the original classification authority at the time the information is originally classified.

(b) Information classified under predecessor orders and marked for declassification review shall remain classified until reviewed for declassification under the provisions of the "Order."

[48 FR 5890, Feb. 9, 1983]

§ 1203.408 Assistance by installation security classification officers.

Installation Security Classification Officers, as the installation point-of-contact, will assist installation personnel in:

(a) Interpreting security classification guides and classification assignments for the installation.

(b) Answering questions and considering suggestions concerning security classification matters.
(c) Ensuring a continuing review of classified information for the purpose of declassifying or downgrading in accordance with subpart E of this part.

(d) Reviewing and approving, as the representative of the contracting officer, the DD Form 254, Contract Security Classification Specification, issued to contractors by the installation.

§ 1203.409 Exceptional cases.

(a) In those cases where a person not authorized to classify information originates or develops information which is believed to require classification, that person should safeguard the material as though it were classified until it has been evaluated and a decision made by an appropriate classifying authority. For NASA employees the classifying authority is normally the Installation Security Classification Officer. Persons other than NASA employees should forward, under appropriate safeguards, material in which NASA has primary interest to the NASA Information Security Program Committee, Security Division, Washington, DC 20546 for a classification determination.

(b) Information in which NASA does not have primary interest shall be returned promptly, under appropriate safeguards, to the sender in accordance with §1203.405.

(c) Material received from another agency for a NASA security classification determination shall be processed within 30 days. If a classification cannot be determined during that period, the material shall be sent, under appropriate safeguards, to the Director, Information Security Oversight Office, GSA, for a determination.

§ 1203.410 Limitations.

(a) Classification may not be used to conceal violations of law, inefficiency of administrative error; to prevent embarrassment to a person, organization or agency; or to restrain competition.

(b) Basic scientific research information not clearly related to the national security may not be classified.

(c) A product of non-government research and development that does not incorporate or reveal classified information to which the producer or developer was given prior access may not be classified under this part 1203 until and unless the Government acquires a proprietary interest in the product. This part does not affect the provisions of the Patent Secrecy Act of 1952 (35 U.S.C. 181–188).

(d) References to classified documents that do not disclose classified information may not be classified or used as a basis for classification.

(e) Classification may not be used to limit dissemination of information that is not classifiable under the provisions of this part or to prevent or delay the public release of such information.

(f) Information may be classified or reclassified after receipt of a request for it under the Freedom of Information Act (5 U.S.C. 552) or the Privacy Act of 1974 (5 U.S.C. 552a), or the mandatory review provisions of “the Order” if such classification meets the requirements of “the Order” and is accomplished personally on a document-by-document basis by an official with original Top Secret classification authority.

(g) The Administrator, the Chairperson, NASA Information Security Program Committee, or an official with original Top Secret classification authority may reclassify information previously declassified and disclosed if it is determined in writing that (1) The information requires protection in the interest of national security; and (2) the information may reasonably be recovered. These reclassification actions shall be reported promptly to the Director of the Information Security Oversight Office, GSA.

[44 FR 3913, June 18, 1979, as amended at 48 FR 5890, Feb. 9, 1983]

§ 1203.411 Restrictions.

(a) Except as provided by directives issued by the President through the National Security Council, classified information originating in one agency may not be disseminated outside any other agency to which it has been made available without the consent of the originating agency. For purposes of this section, the Department of Defense shall be considered one agency.

(b) Classified information shall not be disseminated outside the Executive Branch except under conditions that ensure the information will be given
§ 1203.412 Classification guides.

(a) General. A classification guide, based upon classification determinations made by appropriate program and classification authorities, shall be issued for each classified system, program or project. Classification guides shall:

1. Identify the information elements to be protected, using categorization and subcategorization to the extent necessary to ensure that the information involved can be readily and uniformly identified.

2. State which of the classification designations (i.e., Top Secret, Secret or Confidential) apply to the identified information elements.

3. State the duration of each specified classification in terms of a period of time or future event. Whenever a specific time or future event for declassification cannot be predetermined, the following notation will be used: DECLASSIFY ON: Originating Agency’s Determination Required or "OADR."

4. Indicate specifically that the designations, time limits, markings and other requirements of "the Order" are to be applied to information classified pursuant to the guide.

5. Be approved personally and in writing by an official with original Top Secret classification authority; the identity of the official will be shown on the guide. Such approval constitutes an original classification decision. Normally, all guides will be approved by the Chairperson, NASA Information Security Program Committee, whose office will maintain a list of all classification guides in current use.

(b) Review of classification guides. Classification guides shall be reviewed by the originator for currency and accuracy not less than once every two years. Changes shall be in strict conformity with the provisions of this part 1203 and shall be issued promptly. If no changes are made, the originator shall so annotate the record copy and show the date of the review.

[48 FR 5890, Feb. 9, 1983]

§ 1203.500 Use of derivative classification.

The application of derivative classification markings is a responsibility of those who incorporate, paraphrase, restate, or generate in new form information that is already classified, and of those who apply markings in accordance with instructions from an authorized original classifier or in accordance with an authorized classification guide. If a person who applied derivative classification markings believes that the paraphrasing, restating, or summarizing of classified information has changed the level of or removed the basis for classification, that person must consult for a determination with an appropriate official of the originating agency or office of origin who has the authority to upgrade, downgrade, or declassify the information.

[48 FR 5891, Feb. 9, 1983]

§ 1203.501 Applying derivative classification markings.

Persons who apply derivative classification markings shall:

(a) Observe and respect original classification decisions;

(b) Verify the information’s current level of classification so far as practicable before applying the markings; and

(c) Carry forward to newly created documents any assigned authorized markings. The declassification date or event that provides the longest period of classification shall be used for documents classified on the basis of multiple sources.

[44 FR 34913, June 18, 1979, as amended at 48 FR 5891, Feb. 9, 1983]

Subpart F—Declassification and Downgrading

§ 1203.600 Policy.

Information shall be declassified or downgraded as soon as national security considerations permit. NASA reviews of classified information shall be coordinated with other agencies that have a direct interest in the subject matter. Information that continues to
meet the classification requirements prescribed by §1203.400 despite the passage of time will continue to be protected in accordance with “the Order.”

[48 FR 5891, Feb. 9, 1983]

§ 1203.601 Responsibilities.

Officials authorized original classification authority may declassify or downgrade information that is subject to the final classification jurisdiction of NASA and shall take such action in accordance with the provisions of this subpart F.

§ 1203.602 Authorization.

Information shall be declassified or downgraded by the official who authorized the original classification, if that official is still serving in the same position, the originator’s successor, a supervisory official of either, or officials delegated such authority in writing by the Administrator or the Chairperson, NASA Information Security Program Committee.

[48 FR 5891, Feb. 9, 1983]

§ 1203.603 Systematic review for declassification.

(a) General. (1) Except for foreign government information as provided in subpart G of this part, classified information constituting permanently valuable records of the government as defined by 44 U.S.C. 2103, and information in the possession and control of the Administrator of General Services Administration pursuant to 44 U.S.C. 2107 or 2107 note, shall be reviewed for declassification as it becomes 30 years old.

(2) Systematic review for declassification of classified cryptologic information will be coordinated through the National Security Agency.

(3) Systematic review for declassification of classified information pertaining to intelligence activities (including special activities) or intelligence sources or methods will be coordinated through the Central Intelligence Agency.

(4) The Chairperson, NASA Information Security Program Committee, shall designate experienced personnel to assist the Archivist of the United States in the systematic review of 30-year old U.S. originated information and 30-year old foreign information.

Such personnel shall:

(i) Provide guidance and assistance to National Archives and Records Service employees in identifying and separating documents and specific categories of information within documents which are deemed to require continued classification; and

(ii) Develop reports of information or document categories so separated, with recommendations concerning continued classification.

(b) Systematic review guidelines. The Chairperson, NASA Information Security Program Committee, shall develop, in coordination with NASA organizational elements, guidelines for the systematic review for declassification of 30-year old classified information under NASA’s jurisdiction. (See subpart G of this part, Foreign Government Information.) The guidelines shall state specific limited categories of information which, because of their national security sensitivity, should not be declassified automatically but should be reviewed item-by-item to determine whether continued protection beyond 30 years is needed. These guidelines are authorized for use by the Archivist of the United States and, with the approval of the Administrator, by an agency having custody of the information covered by the guidelines. All information, except foreign government information, cryptologic information, and information pertaining to intelligence sources or methods, not identified in these guidelines as requiring review and for which a prior automatic declassification date has not been established shall be declassified automatically at the end of 30 years from the date of original classification. These guidelines shall be reviewed at least every 5 years and revised as necessary unless an earlier review for revision is requested by the Archivist of the United States. Copies of the declassification guidelines promulgated by NASA will be provided to the Information Security Oversight Office, GSA.

(c) Systematic review procedures. (1) All security classified records 30 years old or older, whether held in storage areas under installation control or in Federal Records Centers, will be surveyed to
§ 1203.604 Mandatory review for declassification.

(a) Information covered. All information classified under "the Order" or predecessor orders, except as provided at §1203.604(b) shall be subject to a review for declassification by the originating agency, if:

(1) The request is made by a United States citizen or permanent resident alien, a Federal agency, or a State or local government; and

(2) The request describes the document or material containing the information with sufficient specificity to enable the agency to locate it with a reasonable amount of effort. After review, the information or any reasonable segregable portion thereof that no longer requires protection shall be declassified and released unless withholding is otherwise warranted under applicable law.

(b) Presidential papers. (1) Information originated by a President, the White House Staff, by committees, commissions, or boards appointed by the President, or others specifically providing advice and counsel to a President or acting on behalf of a President is exempted from the provisions of §1203.604(a).

(2) The Archivist of the United States shall have the authority to review, downgrade and declassify information under the control of the Administrator of General Services Administration or the Archivist pursuant to sections 2107, 2107 note, or 2203 of Title 44, U.S. Code.

Review procedures developed by the Archivist shall provide for consultation
with NASA in matters of primary subject interest to NASA.

(c) Submission of requests for review. Requests for mandatory review of classified information shall be submitted in accordance with the following:

(1) Requests originating within NASA shall, in all cases, be submitted directly to the NASA installation which originated the information.

(2) For most expeditious action, requests from other Governmental agencies or from members of the public should be submitted directly to NASA installations which originated the material, or, if the originating component is not known, the requestor may submit the request to:

(i) The Chairperson, NASA Information Security Program Committee; or the head of the NASA organization most concerned with the subject matter of the material requested; or

(ii) The office designated to receive requests for records specifically citing the Freedom of Information Act pursuant to part 1206 of this chapter.

(d) Requirement for processing. (1) Requests which are submitted under the Freedom of Information Act shall be processed in accordance with part 1206 of this chapter.

(2) Other requests for declassification review and release of information shall be processed in accordance with the provisions of this section, subject to the following conditions:

(i) The request is in writing and reasonably describes the information sought with sufficient particularity to enable the installation to identify it.

(ii) The requestor shall be asked to correct a request that does not comply with paragraph (d)(2)(i) of this section, to provide additional information or to narrow the scope of the request and shall be notified that no action will be taken until the requestor complies.

(iii) If the request requires the rendering of services for which fees may not be charged under part 1206, but may be charged under 31 U.S.C. 483a (1976), the rates prescribed in §1206.700 shall be used, if appropriate.

(e) Processing of requests. Requests that meet the requirements of paragraph (d)(2) of this section will be processed as follows:

(1) NASA installation action upon the initial request shall be completed within 60 days.

(2) Receipt of the request shall be acknowledged promptly. The NASA installation shall determine whether, under the declassification provisions of this part 1203, the requested information may be declassified and, if so, shall make such information available to the requestor, unless withholding is otherwise warranted under applicable law. If the information may not be released in whole or in part, the requestor shall be given a brief statement of the reasons for denial, a notice of the right to appeal the determination to the Chairperson, NASA Information Security Program Committee, National Aeronautics and Space Administration, Washington, DC 20546, and a notice that such an appeal must be filed within 60 days in order to be considered.

(3) All appeals of denials of requests for declassification shall be acted upon and determined finally within 30 days after receipt and the requestor shall be advised that the appeal determination is final. If continued classification is required under the provisions of this part 1203, the requestor shall be notified of the reasons thereof.

(4) The declassification and release of foreign government information that is subjected to mandatory review under this section shall be determined only in accordance with §1203.703.

(5) When a NASA installation receives any request for declassification of information in documents in its custody that was classified by another NASA installation or Government agency, it shall refer copies of the request and the requested documents to the originating installation or agency, inform the requester of the referral. In cases in which the originating NASA installation determines in writing that a response under §1203.604(f) is indicated, such cases will be promptly forwarded to the Chairperson, NASA Information Security Program Committee, for final resolution and appropriate response.
§ 1203.604 14 CFR Ch. V (1–1–02 Edition)

(f) Neutral response. In response to a request for information under the Freedom of Information Act, the Privacy Act of 1974, or the mandatory review provisions of “the Order,” NASA shall refuse to confirm or deny the existence or non-existence of requested information whenever the fact of its existence or non-existence is itself classifiable under “the Order.”

(g) Declassification of transferred documents or material—(1) Material officially transferred. In the case of classified information or material transferred by or pursuant to statute or Executive Order to NASA in conjunction with a transfer of functions (not merely for storage purposes) for NASA’s use and as part of its official files or property, as distinguished from transfers merely for purposes of storage, NASA shall be deemed to be the original classifying authority over such material for purposes of downgrading and declassification.

(2) Material not officially transferred. When any NASA installation has in its possession classified information or material originated by an agency which has since ceased to exist and that information has not been officially transferred to another department or agency, or when it is impossible for the possessing NASA installation to identify the originating agency, and a review of the material indicates that it should be downgraded or declassified, the possessing NASA installation shall be deemed to be the originating agency for the purpose of downgrading or declassifying such material. If it appears probable that another agency or another NASA organization may have a substantial interest in whether the classification of any particular information should be maintained, the possessing NASA installation shall not exercise the power conferred upon it by this paragraph, until after consultation with any other agency or NASA organization having an interest in the subject matter.

(3) Transfer for storage or retirement. (i) Insofar as practicable, classified documents shall be reviewed to determine whether or not they can be downgraded or declassified prior to being forwarded to records centers or to the National Archives for storage. Any downgrading or declassification determination shall be indicated on each document by appropriate markings.

(ii) Classified information transferred to the General Services Administration for accession into the Archives of the United States shall be downgraded or declassified by the Archivist of the United States in accordance with “the Order,” the directives of the Information Security Oversight Office, GSA, and NASA guidelines.

(h) Downgrading and declassification actions—(1) Notification of changes in classification or declassification. When classified material has been marked with specific dates or events for downgrading or declassification, it is not necessary to issue notices of such actions to any holders. However, when such actions are taken earlier than originally scheduled, or the duration of classification is shortened, the authority making such changes shall, to the extent practicable, ensure prompt notification to all addressees to whom the information or material was originally transmitted. The notification shall specify the marking action to be taken, the authority therefor, and the effective date. Upon receipt of notification, recipients shall effect the proper changes and shall notify addressees to whom they have transmitted the classified information or material.

(2) Posted notice. If prompt remarking of large quantities would be unduly burdensome, the custodian may attach declassification, downgrading, or upgrading notices to the storage unit in lieu of the remarking action otherwise required. Each notice shall indicate the change, the authority for the action, the date of the action, and the storage units to which it applies. Items withdrawn from such storage units shall be promptly remarked. However, when information subject to a posted downgrading or declassification notice is withdrawn from one storage unit solely for transfer to another, or a storage unit containing such information is transferred from one place to another, the transfer may be made without remarking if the notice is attached to or remains with each shipment.

(i) Foreign Relations Series. In order to permit the State Department editors of Foreign Relations of the United States to meet their mandated goal of publishing
20 years after the event, NASA shall assist these editors by facilitating access to appropriate classified materials in its custody and by expediting declassification review of items from its files selected for publication.

(ii)[Reserved]

Subpart G—Foreign Government Information

§ 1203.700 Identification.

In order to qualify as foreign government information, information must fall into one of the two following categories:

(a) Information provided to the United States by a foreign government or international organization of governments, such as the North Atlantic Treaty Organization (NATO), where the United States has undertaken an obligation, expressed or implied, to keep the information in confidence. The information is considered to have been provided in confidence if it is marked in a manner indicating it is to be treated in confidence or if the circumstances of the delivery indicate that the information be kept in confidence.

(b) Information requiring confidentiality produced by the United States pursuant to a written, joint arrangement with a foreign government or international organization of governments. A written, joint arrangement may be evidenced by an exchange of letters, a memorandum of understanding, or other written record of the joint arrangement.

§ 1203.701 Classification.

(a) Foreign government information that is classified by a foreign entity shall either retain its original classification designation or be marked with a United States classification designation that will ensure a degree of protection equivalent to that required by the entity that furnished the information. Original classification authority is not required for this purpose.

(b) Foreign government information that was not classified by a foreign entity but was provided to NASA with the expressed or implied obligation that it be held in confidence must be classified. “The Order” states that unauthorized disclosure of foreign government information, the identity of a confidential foreign source, or intelligence sources or methods is presumed to cause damage to the national security. Therefore, such foreign government information shall be classified at least Confidential. However, at the time of classification, judicious consideration shall be given to the sensitivity of the subject matter and the impact of its unauthorized disclosure upon both the United States and the originating foreign government or organization of governments in order to determine the most appropriate level of classification. Levels above Confidential must be assigned by an original classification authority.

[44 FR 34913, June 18, 1979, as amended at 48 FR 5892, Feb. 9, 1983]

§ 1203.702 Duration of classification.

Unless the guidelines for the systematic review of 30-year old foreign government information developed pursuant to §1203.603(b) prescribe dates or events for declassification:

(a) Foreign government information shall not be assigned a date or event for declassification unless such is specified or agreed to by the foreign entity.

(b) Foreign government information classified after December 1, 1978, shall be annotated: DECLASSIFY ON: Originating Agency’s Determination Required or “OADR.”

[48 FR 5893, Feb. 9, 1983]

§ 1203.703 Declassification.

(a) Information classified in accordance with §1203.400 shall not be declassified automatically as a result of any unofficial publication or inadvertent or unauthorized disclosure in the United States or abroad of identical or similar information.

(b) Following consultation with the Archivist of the United States and where appropriate, with the foreign government or international organization concerned and with the assistance of the Department of State, NASA will
issue guidelines for the systematic review of 30-year old foreign government information that will apply to foreign government information of primary concern to NASA. These guidelines are authorized for use by the Archivist of the United States and, with the approval of NASA, by an agency having custody of such information. The Chairperson, NASA Information Security Program Committee, will initiate administrative functions necessary to effect review of these guidelines at least once every 5 years and submit recommendations to the Administrator based on these reviews. If, after applying the guidelines to 30-year old foreign government information, a determination is made by the reviewer that classification is necessary, a date for declassification or DECLASSIFY ON: Originating Agency’s Determination Required or “OADR” shall be shown on the face of the document.

(c) Requests for mandatory review for declassification of foreign government information shall be processed and acted upon in accordance with the provisions of §1203.603 except that foreign government information will be declassified only in accordance with the guidelines developed for that purpose under §1203.702 and after consultation with other Government agencies with subject matter interest as necessary. In those cases where these guidelines cannot be applied to the foreign government information requested, the foreign originator normally should be consulted, through appropriate channels, prior to final action on the request. However, when the responsible NASA installation knows the foreign originator’s view toward declassification or continued classification of the types of information requested, consultation with the foreign originator is not necessary.

(d) Requests for mandatory review for declassification of foreign government information which NASA has not received or classified shall be referred to the Government agency having a primary interest. The requestor shall be advised of the referral.

[44 FR 34913, June 19, 1979, as amended at 48 FR 5863, Feb. 9, 1983]
writing, by the Senior Agency Official for Classified National Security Information.

(4) **Declassification Authority, Secret and Confidential.** (i) Security Administrative Team Leader, Headquarters NASA.

(ii) Such other officials as may be delegated declassification authority, in writing, by the Senior Agency Official for Classified National Security Information.

(c) Written requests for original classification authority or declassification authority shall be forwarded to the Senior Agency Official for Classified National Security Information, with appropriate justification appended thereto.

(d) The Senior Agency Official for Classified National Security Information shall maintain a list of all delegations of original classification and declassification authority by name or title of the position held.

(e) The Senior Agency Official for Classified National Security Information shall conduct a periodic review of delegation lists to ensure that the officials so designated have demonstrated a continuing need to exercise such authority.

(f) Original classification authority shall not be delegated to persons who only reproduce, extract, or summarize classified information, or who only apply classification markings derived from source material or as directed by a classification guide.

§ 1203.902 Redelegation.

Redelegation of TOP SECRET, SECRET, or CONFIDENTIAL original classification authority or declassification authority is not authorized.

§ 1203.902 Reporting.

The officials to whom original classification authority has been delegated under this section shall ensure that feedback is provided to the Senior Agency Official for National Security Information. The Senior Agency Official for National Security Information shall keep the Administrator currently informed of all significant actions, problems, or other matters of substance related to the exercise of the authority delegated hereunder.

Subpart I—NASA Information Security Program Committee

SOURCE: 54 FR 6881, Feb. 15, 1989, unless otherwise noted.

§ 1203.900 Establishment.

Pursuant to Executive Order 12958, "National Security Information," and the National Aeronautics and Space Act of 1958, as amended, there is established a NASA Information Security Program Committee (hereinafter referred to as the Committee) as part of the permanent administrative structure of NASA. The Director, NASA Security Management Office, is designated to act as the Chairperson of the Committee. The Senior Security Specialist, NASA Security Management Office, is designated to act as the Committee Executive Secretary.

[64 FR 72353, Dec. 28, 1999]

§ 1203.901 Responsibilities.

(a) The Chairperson reports to the Administrator concerning the management and direction of the NASA Information Security Program as provided for in subpart B of this part. In this connection, the Chairperson is supported and advised by the Committee.

(b) The Committee shall act on all appeals from denials of declassification requests and on all suggestions and complaints with respect to administration of the NASA Information Security Program as provided for in subpart B of this part.

(c) The Executive Secretary of the Committee shall maintain all records produced by the Committee, its subcommittees, and its ad hoc panels.

(d) The NASA Security Office, NASA Headquarters, will provide staff assistance, and investigative and support services for the Committee.

§ 1203.902 Membership.

The Committee will consist of the Chairperson and Executive Secretary. In addition, each of the following NASA officials will nominate one person to Committee membership:

(a) Associate Administrator for:

(1) Aero-Space Technology.

(2) Space Science.

(3) Space Flight.
§ 1203.903

(4) External Relations.
(5) Life and Microgravity Sciences and Applications.
(b) Associate Deputy Administrator.
(c) General Counsel.
Other members may be designated upon specific request of the Chairperson.

[54 FR 6881, Feb. 15, 1989, as amended by 64 FR 72535, Dec. 28, 1999]

§ 1203.903 Ad hoc committees.
The Chairperson is authorized to establish such ad hoc panels or subcommittees as may be necessary in the conduct of the Committee’s work.

§ 1203.904 Meetings.
(a) Meetings will be held at the call of the Chairperson.
(b) Records produced by the Committee and the minutes of each meeting will be maintained by the Executive Secretary.

PART 1203a—NASA SECURITY AREAS

Sec.
1203a.100 Purpose and scope.
1203a.101 Definitions.
1203a.102 Establishment, maintenance, and revocation of security areas.
1203a.103 Access to security areas.
1203a.104 Violation of security areas.
1203a.105 Implementation by field and component installations.

SOURCE: 38 FR 8056, Mar. 29, 1973, unless otherwise noted.

§ 1203a.100 Purpose and scope.

(a) To insure the uninterrupted and successful accomplishment of the NASA mission, certain designated security areas may be established and maintained by NASA installations and component installations in order to provide appropriate and adequate protection for facilities, property, or classified information and material in the possession or custody of NASA or NASA contractors located at NASA installations and component installations.

(b) This part 1203a sets forth:
(1) The designation and maintenance of security areas,
(2) The responsibilities and procedures in connection therewith, and
(3) The penalties that may be enforced through court actions against unauthorized persons entering security areas.

§ 1203a.101 Definitions.

For the purpose of this part, the following definitions apply:
(a) Security area. A physically defined area, established for the protection or security of facilities, property, or classified information and material in the possession or custody of NASA or a NASA contractor located at a NASA installation or component installation, entry to which is subject to security measures, procedures, or controls. Security areas which may be established are:
(1) Restricted area. An area wherein security measures are applied primarily for the safeguarding or the administrative control of property or to protect operations and functions which are vital or essential to the accomplishment of the mission assigned to a NASA installation or component installation.
(2) Limited area. An area wherein security measures are applied primarily for the safeguarding of classified information and material or unclassified property warranting special protection and in which the uncontrolled movement of visitors would permit access to such classified information and material or property, but within which area such access may be prevented by appropriate visitor escort and other internal restrictions and controls.
(3) Closed area. An area wherein security measures are applied primarily for the purpose of safeguarding classified information and material; entry to the area being equivalent, for all practical purposes, to access to such classified information and material.
(b) Temporary security area. A designated interim security area, the need for which will not exceed 30 days from date of establishment. A temporary security area may also be established on an interim basis, pending approval of its establishment as a permanent security area.
(c) Permanent security area. A designated security area, the need for
which will exceed 30 days from date of establishment.

§ 1203a.102 Establishment, maintenance, and revocation of security areas.

(a) Establishment. (1) Directors of NASA field and component installations, and the Director of Headquarters Administration for NASA Headquarters (including component installations) may establish, maintain, and protect such areas as restricted, limited, or closed depending upon the opportunity available to unauthorized persons either to:
   (i) Obtain knowledge of classified information,
   (ii) Damage or remove property, or to
   (iii) Disrupt Government operations.

(2) The concurrence of the Director of Security NASA Headquarters, will be obtained prior to the establishment of a permanent security area.

(3)(i) As a minimum, the following information will be submitted to the Director of Security 15 workdays prior to establishment of each permanent security area:
   (a) The name and specific location of the NASA field or component installation, facility, or property to be protected.
   (b) A statement that the property is owned by, or leased to, the United States for use by NASA or is the property of a NASA contractor located on a NASA installation or component installation.
   (c) Designation desired: i.e., restricted, limited, or closed.
   (d) Specific purpose(s) for the establishment of a security area.

(ii) For those areas currently designated by the installation as “permanent security areas,” the information set forth in paragraph (d)(3)(i) of this section will be furnished to the Security Division, NASA Headquarters, within 30 workdays of the effective date of this part.

(b) Maintenance. The security measures which may be utilized to protect such areas will be determined by the requirements of individual situations. As a minimum such security measures will:
   (1) Provide for the posting of signs at entrances and at such intervals along the perimeter of the designated area as to provide reasonable notice to persons about to enter thereon. The Director of Security, NASA Headquarters, upon request, may approve the use of signs that are now being used pursuant to a State statute.
   (2) Regulate authorized personnel entry and movement within the area.
   (3) Deny entry of unauthorized persons or property.
   (4) Prevent unauthorized removal of classified information and material or property from a NASA installation or component installation.

(c) Revocation. Once the need for an established permanent security area no longer exists, the area will be returned immediately to normal controls and procedures or as soon as practicable. The Director of Security will be informed of permanent security area revocations within 15 workdays.

§ 1203a.103 Access to security areas.

(a) Only those NASA employees, NASA contractor employees, and visitors who have a need for such access and who meet the following criteria may enter a security area:
   (1) Restricted area. Be authorized to enter the area alone or be escorted by or under the supervision of a NASA employee or NASA contractor employee who is authorized to enter the area.
   (2) Limited area. Possess a security clearance equal to the level of the classified information or material involved or be the recipient of a satisfactorily completed national agency check if classified material or information is not involved. Personnel who do not meet the requirements for unescorted access may be escorted by a NASA employee or NASA contractor employee who meets the access requirements and has been authorized to enter the area.
   (3) Closed area. Possess a security clearance equal to the classified information or material involved.

(b) The directors of NASA field and component installations, and the Director of Headquarters Administration for NASA Headquarters (including component installations) may rescind previously granted authorizations to enter a security area when an individual’s continued presence therein is no
§ 1203a.104 Violation of security areas.

(a) Removal of unauthorized persons. The directors of NASA field and component installations (or their designees) and the Director of Headquarters Administration for NASA Headquarters (including component installations) or his designee may order the removal or eviction of any person whose presence in a designated security area is in violation of the provisions of this part or any regulation or order established pursuant to the provisions of this part.

(b) Criminal penalties for violation. Whoever willfully violates, attempts to violate, or conspires to violate any regulation or order establishing requirements or procedures for authorized entry into an area designated restricted, limited, or closed pursuant to the provisions of this part may be subject to prosecution under 18 U.S.C. 799 which provides penalties for a fine of not more than $5,000 or imprisonment for not more than 1 year, or both.

§ 1203a.105 Implementation by field and component installations.

If a Director of a NASA field or component installation finds it necessary to issue supplemental instructions to any provision of this part, the instructions must first be published in the FEDERAL REGISTER. Therefore, the proposed supplemental instructions will be sent to the Security Division (Code DHZ), NASA Headquarters, in accordance with NASA Management Instruction 1410.10 for processing.

PART 1203b—SECURITY PROGRAMS; ARREST AUTHORITY AND USE OF FORCE BY NASA SECURITY FORCE PERSONNEL

Sec.
1203b.100 Purpose.
1203b.101 Scope.
1203b.102 Definitions.
1203b.103 Arrest authority.
1203b.104 Exercise of arrest authority—general guidelines.
1203b.105 Use of non-deadly physical force when making an arrest.
1203b.106 Use of deadly force.

§ 1203b.100 Purpose.

This regulation implements section 304(f) of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2456a), by establishing guidelines for the exercise of arrest authority and for the exercise of physical force, including deadly force, in conjunction with such arrest authority.

§ 1203b.101 Scope.

This part applies to only those NASA and NASA contractor security force personnel who are authorized to exercise arrest authority in accordance with 42 U.S.C. 2456a and this regulation.

§ 1203b.102 Definitions.

Accredited Course of Training. A course of instruction offered by the Federal Law Enforcement Training Center, or an equivalent course of instruction offered by another Federal agency. See §1203b.103(a)(1).

Arrest. An act, resulting in the restriction of a person’s movement, other than a brief detention for purposes of questioning about a person’s identity and requesting identification, accomplished by means of force or show of authority under circumstances that would lead a reasonable person to believe that he/she was not free to leave the presence of the officer.

Contractor. NASA contractors and subcontractors at all tiers.

§ 1203b.103 Arrest authority.

(a) NASA security force personnel may exercise arrest authority, provided that:

(1) They graduate from an accredited training course (see §1203b.102(a)); and

(2) They have been certified in writing by the Associate Administrator for Management Systems and Facilities, or designee, as specifically authorized to exercise arrest authority.
(b) The authority of NASA security force personnel to make a warrantless arrest is subject to the following conditions:

(1) The arresting officer must be guarding and protecting property owned or leased by, or under the control of, the United States under the administration and control of NASA or one of its contractors or subcontractors, at facilities owned by or contracted to NASA; and

(2) The person to be arrested has committed in the arresting officer's presence any offense against the United States; or

(3) The arresting officer has reasonable grounds to believe that the person to be arrested has committed or is committing any felony cognizable under the laws of the United States.

(c) The Office of the General Counsel, NASA Headquarters, or the Installation Chief Counsel's Office, as appropriate, shall provide guidance as to the applicability of these regulations.

§ 1203b.104 Exercise of arrest authority—general guidelines.

(a) In making an arrest, the security force officer should announce his/her authority and that the person is under arrest prior to taking the person into custody. If the circumstances are such that making such announcements would be useless or dangerous to the security force officer or others, the security force officer may dispense with these announcements.

(b) The security force officer at the time and place of arrest may search the arrested person and the area immediately surrounding the arrested person for weapons and criminal evidence. This is to protect the arresting officer and to prevent the destruction of evidence.

(c) After the arrest is effected, the arrested person shall be advised of his/her constitutional right against self-incrimination. If the circumstances are such that making such advisement is dangerous to the officer or others, this requirement may be postponed until the immediate danger has passed. However, no interrogation of the individual may occur until he/she has been properly advised of his/her right against self-incrimination.

(d) Custody of the person arrested should be transferred to other Federal law enforcement personnel (e.g., United States Marshals or FBI agents) or to local law enforcement agency personnel, as appropriate, as soon as possible, in order to ensure that the person is brought before a magistrate without unnecessary delay.

§ 1203b.105 Use of non-deadly physical force when making an arrest.

When a security force officer has the right to make an arrest, as discussed in §1203b.103, the officer may use only that non-deadly physical force which is reasonable and necessary to apprehend and arrest the offender; to prevent the escape of the offender; or to defend himself/herself or a third person from what the security force officer reasonably believes to be the use or threat of imminent use of non-deadly physical force by the offender. Verbal abuse alone by the offender cannot be the basis under any circumstances for use of non-deadly physical force by a security force officer.

§ 1203b.106 Use of deadly force.

Deadly force shall be used only in those circumstances where the security force officer reasonably believes that either he/she or another person is in imminent danger of death or serious bodily harm.

§ 1203b.107 Use of firearms.

(a) If it becomes necessary to use a firearm in any of the circumstances described in §1203b.106, NASA security force personnel shall comply with the following precautions whenever possible:

(1) Give an order to halt before firing.

(2) Do not fire if shots are likely to harm innocent bystanders.

(3) Shoot to stop.

(b) Warning shots are not authorized.

(c) In the event that a security force officer discharges a weapon while in a duty status:

(1) The incident shall be reported to the Installation Chief of Security who, in turn, will report it to the NASA Security Office as expeditiously as possible, with as many details supplied as are available.
§ 1203b.108 Management oversight.

(a) The Administrator shall establish a committee to exercise management oversight over the implementation of arrest authority.

(b) The Administrator shall establish a reporting requirement for Headquarters and Field Installations.

(c) The Associate Administrator for Management Systems and Facilities, or designee, will ensure that all persons who are authorized to exercise arrest authority will, before performing these duties:

(1) Receive instructions on regulations regarding the use of force, including deadly force; and

(2) Demonstrate knowledge and skill in the use of unarmed defense techniques and their assigned firearms.

(d) The Associate Administrator for Management Systems and Facilities, or designee, will also:

(1) Provide periodic refresher training to ensure continued proficiency and updated knowledge as to the use of unarmed defense techniques;

(2) Require security force officers exercising arrest authority to requalify semiannually with their assigned firearms; and

(3) Require periodic refresher training to ensure continued familiarity with regulations.

(e) The Associate Administrator for Management Systems and Facilities and Installation Directors shall issue local management instructions, subject to prior NASA Headquarters approval, which will supplement this regulation for Headquarters/Installation-specific concerns.

[57 FR 4926, Feb. 11, 1992, as amended at 58 FR 5263, Jan. 21, 1993]

§ 1203b.109 Disclaimer.

These regulations are set forth solely for the purpose of internal National Aeronautics and Space Administration guidance. They are not intended to, do not, and may not be relied upon to create any rights, substantive or procedural, enforceable at law by any party in any matter, civil or criminal, and they do not place any limitations on otherwise lawful activities of security force personnel or the National Aeronautics and Space Administration.

PART 1204—ADMINISTRATIVE AUTHORITY AND POLICY

Subparts 1–3 [Reserved]
§ 1204.400 Scope of subpart.
This subpart establishes NASA’s small business policy and outlines the delegation of authority in implementing this policy as required by Federal law.

§ 1204.401 Policy.
(a) It is the policy of NASA to enable small business concerns (including small women-owned businesses), Historically Black Colleges and Universities, and other minority educational institutions the opportunity to participate equitably and proportionately in its total purchases and contracts consistent with NASA’s needs to execute its missions.

APPENDIX A TO PART 1204—ITEMS TO COVER IN MEMORANDA OF AGREEMENT

Subparts 6–9 [Reserved]

Subparts 10–13 [Reserved]
§ 1204.402 Responsibilities.

(a) Office of Small and Disadvantaged Business Utilization (OSDBU). The Associate Administrator for Small and Disadvantaged Business Utilization, NASA Headquarters, is responsible for the development, supervision, and coordination of the NASA Small Business Program. The Associate Administrator is also responsible for formulating policy and procedures relating to small business, and representing NASA before other Government agencies on matters primarily affecting small business.

(b) NASA Headquarters and Field Installations. The Directors of Field Installations and the Associate Administrator for Procurement at Headquarters will designate a qualified individual as a “Small Business Specialist” to provide a central point of contact to which small and small disadvantaged business concerns may direct inquiries concerning participation in the NASA procurement program, or secure assistance in submitting bids or proposals and performance of contracts. Where the Director of the Field Installation considers that the volume of procurement at the Installation does not warrant a full-time Small Business Specialist, the Director may assign such duties to qualified procurement personnel on a part-time basis. NASA Field Installations shall establish and maintain liaison with the Small Business Administration (SBA) Procurement Center Representative (PCR) or the appropriate Small Business Administration Regional Office in matters relating to Field Installation procurement activities. A Small Business Technical Advisor shall be assigned to each contracting officer within the agency to which the SBA has assigned a PCR.

§ 1204.403 General requirements.

(a) All proposed procurement transactions in excess of $25,000 shall be examined by a Small Business Specialist prior to issuance of bids or requests for proposals to determine suitability for small participation or set-asides, unless the transaction has already been set-aside for small business by the contracting officer.

(b) The appropriate office of the Small Business Administration (assigned PCR) shall be informed of proposed procurements estimated to exceed $25,000.

(c) A Bidder’s list shall be maintained at each Field Installation on a current basis and reviewed to ensure that small business firms are given an equitable opportunity to participate in those procurements suitable for performance by such firms. Installations may use, at their option, the SBA Procurement Automated Source System (PASS) in lieu of the separate Center Bidder’s list, if resources can be conserved.

(d) NASA Small Business Specialists shall acquire descriptive data, brochures, or other information concerning small business firms that appear competent to perform research and development (R&D) work in fields in which NASA is interested and furnish such information to appropriate NASA personnel for consideration of these firms in future R&D procurements. The Small Business Specialists at Headquarters and Field Installations shall assist and consult, as necessary, with NASA technical personnel in analyzing such information, arranging field inspection of facilities, making appointments for technical personnel with representatives of small business firms, and obtaining from other agencies appraisals of work performance by
such firms. When feasible, Small Business Specialists shall conduct or participate in outreach conferences and training sessions to inform small businesses of contracting opportunities with the Agency.

(e) In accordance with Public Law 95–507, NASA will require contractors having contracts in excess of $1 million for the construction of any public facility, and in excess of $500,000 for all other contracts, and of such nature as to afford opportunities for subcontracting in substantial amounts, to establish and conduct small business subcontracting programs. Such programs will be periodically reviewed by NASA Small Business Specialists to evaluate their adequacy.

(f) NASA will encourage competent small business concerns to submit unsolicited proposals for research and development work in areas within NASA’s responsibility, which may lead to contracts for such work. The formation of contractor pools or joint ventures to perform research and development work will also be encouraged.

(g) NASA Small Business Specialists will disseminate to small business concerns information concerning inventions for which NASA holds patents on behalf of the United States and under which it is NASA policy to grant licenses.

(h) Small business participation in NASA procurement shall be accurately measured, recorded, and publicized.

(i) NASA small business personnel shall assist small business concerns to obtain payments under their contracts, late payment interest penalties, or information due to such concerns.

Subpart 5—Delegations and Designations

Authority: 42 U.S.C. 2473.

§ 1204.500 Scope of subpart.

This subpart establishes various delegations of authority to, and designations of, National Aeronautics and Space Administration officials and other Government officials acting on behalf of the agency to carry out prescribed functions of the National Aeronautics and Space Administration.

[30 FR 3378, Mar. 13, 1965]

§ 1204.501 Delegation of authority—to take actions in real estate and related matters.

(a) Delegation of authority. The Associate Administrator for Management Systems and Facilities and the Director, Facilities Engineering Division, are delegated authority, in accordance with applicable laws and regulations, and subject to conditions imposed by immediate superiors, to:

1. Prescribe agency real estate policies, procedures, and regulations;

2. Enter into and take other actions including, but not limited to, the following:

i. Acquire (by purchase, lease, condemnation, or otherwise) fee and lesser interests in real property and, in the case of acquisition by condemnation, to sign declarations of taking.

ii. Use, with their consent, the facilities of Federal and other agencies with or without reimbursement.

iii. Determine entitlement to and quantum of, financial compensation under, and otherwise exercise the authority contained in the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (42 U.S.C. 4601), and regulations in implementation thereof.

iv. Grant easements, leaseholds, licenses, permits, or other interests (wherever located) controlled by NASA.

vi. Exercise control over the acquisition, utilization, and disposal of movable/relocatable structures including prefabricated buildings, commercial packaged accommodations, trailers, and other like items used as facility substitutes.
§ 1204.502

(viii) Request other government agencies to act as real estate agent for NASA.

(ix) Authorize other NASA officials to take specific implementing action with regard to any real property transaction included in the scope of authority delegated in paragraph (a)(2) of this section.

(b) Redegation. (1) The authority delegated in paragraph (a)(1) of this section may not be redelegated.

(2) The authority delegated in paragraph (a)(2) of this section may be redelegated with power of further redelegation.

(c) Reporting. The officials to whom authority is delegated in this section shall ensure that feedback is provided to keep the Administrator fully and currently informed of significant actions, problems, or other matters of substance related to the exercise of the authority delegated hereunder.

§ 1204.502 [Reserved]

§ 1204.503 Delegation of authority to grant easements.

(a) Scope. 40 U.S.C. 319 to 319C authorizes executive agencies to grant, under certain conditions, the easements as the head of the agency determines will not be adverse to the interests of the United States and subject to the provisions as the head of the agency deems necessary to protect the interests of the United States.

(b) Delegation of authority. The Associate Administrator for Management Systems and Facilities and the Director, Facilities Engineering Division, are delegated authority to take actions in connection with the granting of easements.

(c) Definitions. The following definitions will apply:

(1) State means the States of the Union, the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States.

(2) Person includes any corporation, partnership, firm, association, trust, estate, or other entity.

(d) Determination. It is hereby determined that grants of easements made in accordance with the provisions of this section will not be adverse to the interests of the United States.

(e) Redegation. (1) The Directors of Field Installations with respect to real property under their supervision and management may, subject to the restrictions in paragraph (f) of this section, exercise the authority of the National Aeronautics and Space Act of 1958, as amended, and 40 U.S.C. 319 to 319C to authorize or grant easements in, over, or upon real property of the United States controlled by NASA as will not be adverse to the interests of the United States.

(2) The Directors of Field Installations may redelegate this authority to only two senior management officials of the appropriate field installation.

(f) Restrictions. Except as otherwise specifically provided, no such easement shall be authorized or granted under the authority stated in paragraph (e) of this section unless:

(1) The appropriate Director of the Field Installation determines:

(i) That the interest in real property to be conveyed is not required for a NASA program.

(ii) That the grantee's exercise of rights under the easement will not interfere with NASA operations.

(2) Monetary or other benefit, including any interest in real property, is received by the government as consideration for the granting of the easement.

(3) The instrument granting the easement provides:

(i) For the termination of the easement, in whole or in part, and without cost to the government, if there has been:

(A) A failure to comply with any term or condition of the grant;

(B) A nonuse of the easement for a consecutive 2-year period for the purpose for which granted; or

(C) An abandonment of the easement; or

(D) A determination by the Associate Administrator for Management Systems and Facilities, the Director, Facilities Engineering Division, or the appropriate Director of the Field Installation that the interests of the national space program, the national defense, or the public welfare require the termination of the easement; and a 30-
§ 1204.504 Delegation of authority to grant leaseholds, permits, and licenses in real property.

(a) Delegation of authority. The National Aeronautics and Space Act of 1958, as amended, authorizes NASA to grant leaseholds, permits, and licenses in real property. This authority is delegated to the Associate Administrator for Management Systems and Facilities and the Director, Facilities Engineering Division.

(b) Definition. Real Property means land, buildings, other structures and improvements, appurtenances, and fixtures located thereon.

(c) Determination. It is hereby determined that grants of leaseholds, permits, or licenses made in accordance with the provisions of this section will not be adverse to the interests of the United States.

(d) Redelegation. (1) The Directors of Field Installations with respect to real property under their supervision and management may, subject to the restrictions in paragraph (e) of this section, grant a leasehold, permit, or license to any person or organization, including other Government agencies, a State, or political subdivision or agency thereof. This authority may not be exercised with respect to real property which is (i) excess within the meaning of 40 U.S.C. 472(e), or (ii) proposed for use by a NASA exchange and subject to the provisions of NASA Management Instruction 9050.6, NASA Exchange Activities.

(2) The Directors of Field Installations may redelegate this authority to only two senior management officials of the Field Installation concerned.

(e) Restrictions. Except as otherwise specifically provided, no leasehold, permit, or license shall be granted under the authority stated in paragraph (d) of this section unless:

(i) The Director of the Field Installation concerned determines:

(1) That the interest to be granted is not required for a NASA program.

(ii) That the grantee’s exercise of rights granted will not interfere with NASA operations.

(2) Fair value in money is received by NASA on behalf of the Government as consideration.

(3) The instrument provides:

day notice, in writing, to the grantee that the determination has been made.

(ii) That written notice of the termination shall be given to the grantee, or its successors or assigns, by the Associate Administrator for Management Systems and Facilities, the Director, Facilities Engineering Division, or the appropriate Director of the Field Installation, and that termination shall be effective as of the date of the notice.

(iii) For any other reservations, exceptions, limitations, benefits, burdens, terms, or conditions necessary to protect the interests of the United States.

(g) Waivers. If, in connection with a proposed granting of an easement, the Director of a Field Installation determines that a waiver from any of the restrictions in paragraph (f) of this section is appropriate, authority for the waiver may be requested from the Associate Administrator for Management Systems and Facilities or the Director, Facilities Engineering Division.

(h) Services of the Corps of Engineers. In exercising the authority herein granted, the Directors of Field Installations, under the applicable provisions of any cooperative agreement between NASA and the Corps of Engineers (in effect at that time), may:

(1) Utilize the services of the Corps of Engineers, U.S. Army.

(2) Delegate authority to the Corps of Engineers to execute, on behalf of NASA, grants of easements in real property, as authorized in this section, provided that the conditions set forth in paragraphs (f) and (g) of this section are complied with.

(i) Distribution of documents. One copy of each document granting an easement interest under this authority, including instruments executed by the Corps of Engineers, will be forwarded for filing in the Central Depository for Real Property Documents to: National Aeronautics and Space Administration, Facilities Operations and Maintenance Branch (Code JXG), Facilities Engineering Division, Washington, DC 20546.

§ 1204.505 Delegation of authority to execute certificates of full faith and credit.

(a) Scope. This section designates NASA officials authorized to certify NASA documents to be submitted in evidence in Federal Courts.

(b) Delegation of authority. The following NASA Headquarters officials are delegated authority to execute certificates of full faith and credit (Office of the Administrator section of NASA Form 955) certifying the signatures and authority of employees of the National Aeronautics and Space Administration, whenever such certification is required to authenticate copies of official records for possible admission in evidence in judicial proceedings pursuant to 28 U.S.C. 1733 or any other statute:

(1) General Counsel;
(2) Deputy General Counsel;
(3) [Reserved];
(4) Assistant General Counsels.

[51 FR 27528, Aug. 1, 1986, as amended at 56 FR 57592, Nov. 13, 1991]

§§ 1204.506–1204.507 [Reserved]

§ 1204.508 Delegation of authority of certain civil rights functions to Department of Health, Education, and Welfare.

(a) Pursuant to the authority of §1250.111(c) of this chapter, the following responsibilities of the National Aeronautics and Space Administration and of the responsible NASA official under Title VI, Civil Rights Act of 1964
§ 1204.1001

National Aeronautics and Space Admin.

(78 Stat. 252) (42 U.S.C. 2000d), with respect to institutions of higher education were delegated by the Administrator, NASA, to the Secretary, Department of Health, Education, and Welfare, on March 15, 1966:

(1) Responsibilities with respect to compliance reports, including receiving and evaluation thereof under §1250.105(b) of this chapter, and other actions under §1250.105 of this chapter.

(2) All actions under §1250.106 of this chapter, including periodic compliance reviews, receiving of complaints, investigations, determination of recipient’s apparent failure to comply, and resolution of matters by informal means.

(b) NASA specifically has reserved to itself the responsibilities for effectuation of compliance under §§1250.107, 1250.108, and 1250.109 of this chapter.

(c) The responsibilities so delegated were and are to be exercised in accordance with the “Plan for Coordinated Enforcement Procedures for Higher Education” (dated February 1966), developed by interested Government agencies and approved by the Department of Justice; and redelegation by the Secretary to other officials of the Department of Health, Education, and Welfare was authorized.

(d) NASA has retained the right to exercise these responsibilities itself in special cases with the agreement of the appropriate official in the Department of Health, Education, and Welfare. The Office of Grants and Research Contracts, NASA Headquarters, has been designated to represent NASA in carrying out the provisions of this delegation.

[32 FR 3883, Mar. 9, 1967]

§ 1204.509 Delegation of authority to take action regarding “liquidated damage” assessments under the Contract Work Hours and Safety Standards Act, and associated labor statutes.

(a) Delegation of authority. The Director, Industrial Relations Office, is hereby delegated the authority to act for the Administrator in all matters where the “Agency Head” is authorized to act under 29 CFR part 5, labor standards provisions applicable to contracts covering federally financed and assisted construction and labor standards provisions applicable to nonconstruction contracts as they are subject to the Contract Work Hours and Safety Standards Act, in regards to the assessment of liquidated damages.

(b) Redegulation. None authorized except by virtue of succession.

(c) Reporting. The official to whom authority is delegated in this regulation will assure that feedback is provided to keep the Administrator informed of significant actions, problems, or other matters of substance related to the exercise of the authority delegated hereunder.

[52 FR 35538, Sept. 22, 1987]

Subparts 6–9 [Reserved]

Subpart 10—Inspection of Persons and Personal Effects at NASA Installations or on NASA Property; Trespass or Unauthorized Introduction of Weapons or Dangerous Materials

AUTHORITY: 42 U.S.C. 2455.

SOURCE: 65 FR 47663, Aug. 3, 2000, unless otherwise noted.

§ 1204.1000 Scope of subpart.

This subpart establishes NASA policy and prescribes minimum procedures concerning the inspection of persons and property in their possession while entering, or on, or exiting NASA real property or installations (including NASA Headquarters, Centers, or Component Facilities). In addition, it prescribes unauthorized entry or the unauthorized introduction of weapons or other dangerous instruments or materials at any NASA installation.

§ 1204.1001 Policy.

(a) In the interest of national security, NASA will provide appropriate and adequate protection or security for personnel, property, installations (including NASA Headquarters, Centers, and Component Facilities), and information in its possession or custody. In furtherance of this policy, NASA reserves the right to conduct an inspection of any person, including any property in the person’s possession or control, as a condition of admission to,
continued presence on, or exiting from, any NASA installation.

(b) It is determined that this policy is intended to comply with the heightened security measures for installations owned or occupied by Federal agencies (in this case NASA), to mitigate threats to such installations and to better protect the persons and property thereon.

§ 1204.1002 Responsibility.

The NASA Center Directors and the Associate Administrator for Headquarters Operations are responsible for implementing the provisions of this subpart. In implementing this subpart, these officials will coordinate their action with appropriate officials of other affected agencies.

§ 1204.1003 Procedures.

(a) All entrances to NASA real property or installations (including NASA Headquarters, Centers, or Component Facilities) will be conspicuously posted with the following notices:

(1) CONSENT TO INSPECTION: Your entry into, continued presence on, or exit from, this installation is contingent upon your consent to inspection of person and property.

(2) UNAUTHORIZED INTRODUCTION OF WEAPONS OR DANGEROUS MATERIALS IS PROHIBITED: Unless specifically authorized by NASA, you may not carry, transport, introduce, store, or use firearms or other dangerous weapons, explosives or other incendiary devices, or other dangerous instrument, substance, or material likely to produce substantial injury or damage to persons or property.

(b) Only NASA security personnel or members of the installation’s uniformed security force will conduct inspections pursuant to this subpart. Such inspections will be conducted in accordance with guidelines established by the Director, Security Management Office, NASA Headquarters.

(c) If an individual does not consent to an inspection, it will not be conducted, but the individual will be denied admission to, or be escorted off the installation.

(d) If, during an inspection, an individual is found to be in unauthorized possession of items believed to represent a threat to the safety or security of the installation, the individual will be denied admission to or be escorted off the installation, and appropriate law enforcement authorities will be notified immediately.

(e) If, during an inspection conducted pursuant to this subpart, an individual is in possession of U.S. Government property without proper authorization, that person will be required to relinquish the property to the security representative pending proper authorization for the possession of the property or its removal from the installation. The individual relinquishing the property will be provided with a receipt for the property.

§ 1204.1004 Trespass.

Unauthorized entry upon any NASA real property or installation is prohibited.

§ 1204.1005 Unauthorized introduction of firearms or weapons, explosives, or other dangerous materials.

(a) The unauthorized carrying, transporting, or otherwise introducing or causing to be introduced, or using firearms or other dangerous weapons, explosives or other incendiary devices, or other dangerous instrument, substance, or material likely to produce substantial injury or damage to persons or property, into or upon NASA real property, facility, or installation, is prohibited.

(b) Paragraph (a) of this section shall not apply to:

(1) The lawful performance of official duties by an officer, agent, or employee of the United States, a State, or a political subdivision thereof, or NASA contractor, who is authorized to carry firearms or other material covered by paragraph (a) of this section.

(2) The lawful carrying of firearms or other dangerous weapons at or on a NASA installation after written prior approval has been obtained from the installation Security Office in connection with sanctioned hunting, range practice, or other lawful purpose.

§ 1204.1006 Violations.

Please take notice that anyone violating these regulations may be cited for violating Title 18 of the United States Code (U.S.C.) Section 799, which states that whoever willfully shall violate, attempt to violate, or conspire to
violate any regulation or order promulgated by the Administrator of the National Aeronautics and Space Administration for the protection or security of any laboratory, station, base or other facility, or part thereof, or any aircraft, missile, spacecraft, or similar vehicle, or part thereof, or other property or equipment in the custody of the Administration [NASA], or any real or personal property or equipment in the custody of any contractor under any contract with the Administration or any subcontractor of any such contractor, shall be fined under this title (Title 18), or imprisoned not more than one year, or both.

Subparts 11–13 [Reserved]

Subpart 14—Use of NASA Airfield Facilities by Aircraft Not Operated for the Benefit of the Federal Government

AUTHORITY: 42 U.S.C. 2473(c)(1).
SOURCE: 56 FR 35812, July 29, 1991, unless otherwise noted.

§ 1204.1400 Scope.
This subpart establishes the responsibility and sets forth the conditions and procedures for the use of NASA airfield facilities by aircraft not operated for the benefit of the Federal Government.

§ 1204.1401 Definitions.
For the purpose of this subpart, the following definitions apply:
(a) NASA Airfield Facility. Those aeronautical facilities owned and operated by NASA that consist of the following:
(1) Shuttle Landing Facility. The aeronautical facility which is a part of the John F. Kennedy Space Center (KSC), Kennedy Space Center, Florida, and is located at 80°41′ west longitude and 28°37′ north latitude.
(2) Wallops Airport. The aeronautical facility which is part of the Wallops Flight Facility (WFF), Wallops Island, VA, and is located at 75°28′ west longitude and 37°56′ north latitude in the general vicinity of Chincoteague, Virginia.
(3) Moffett Federal Airfield (MFA). The aeronautical facility which is part of the Ames Research Center, Moffett Field, California, and is located at 122°03′ west longitude and 37°25′ north latitude.
(4) Crows Landing Airport. The aeronautical facility which is a part of the Crows Landing Flight Facility (CLEF) and is located at 121°06′ west longitude and 37°25′ north latitude, 45 miles east of the Ames Research Center.
(b) Aircraft not Operated for the Benefit of the Federal Government. Aircraft which are not owned or leased by the United States Government or aircraft carrying crew members or passengers who do not have official business requiring the use of a NASA airfield facility in the particular circumstance in question.
(c) Official Business. Business, in the interest of the U.S. Government, which personnel aboard an aircraft must transact with U.S. Government personnel or organizations at or near a NASA facility. The use of a NASA airfield facility by transient aircraft to petition for U.S. Government business or to obtain clearance, servicing, or other items pertaining to itinerant operations is not considered official business.
(d) User. An individual partnership or corporation owning, operating, or using an aircraft not operated for the benefit of the Federal Government in whose name permission to use a NASA airfield facility is to be requested and granted.
(e) Hold Harmless Agreement. An agreement executed by the user by which the user acknowledges awareness of the conditions of the permission to use a NASA airfield facility, assumes any risks connected therewith, and releases the U.S. Government from all liability incurred by the use of such facility.
(f) Use Permit. The written permission signed by the authorized approving official to land, take off, and otherwise use a NASA airfield facility. Such use permit may be issued for single or multiple occasions. The specific terms of the use permit and the provisions of this subpart govern the use which may be made of the airport by aircraft not operated for the benefit of the Federal Government.
(g) Certificate of Insurance. A certificate signed by an authorized insurance
§ 1204.1402 Policy.

(a) NASA airfields are not normally available to the general public; hence, any use of airfield facilities by aircraft not operated for the benefit of the Federal Government shall be within the sole discretion of the approving authorities.

(b) Except in the event of a declared in-flight emergency (see §1204.1406) or as otherwise determined by an approving authority, aircraft not operated for the benefit of the Federal Government are not permitted to land or otherwise use NASA airfield facilities.

(c) Any use of a NASA airfield facility by aircraft not operated for the benefit of the Federal Government shall be free of charge and no consideration (monetary or otherwise) shall be exacted or received by NASA for such use. However, each user, as a condition of receiving permission to use such airfield facility, shall agree to become familiar with the physical condition of the airfield; abide by the conditions placed upon such use; subject the aircraft, the user, and those accompanying the user to any requirements imposed by NASA in the interest of security and safety while the aircraft or persons are on a NASA facility; use the facilities entirely at the user's own risk; hold the Federal Government harmless with respect to any and all liabilities which may arise as a result of the use of the facilities; and carry insurance covering liability to others in amounts not less than those listed in the Hold Harmless Agreement.

(d) Permission to use a NASA airfield facility will be granted only in accordance with the limitations and procedures established by an approving authority and then only when such use will not compete with another airport in the vicinity which imposes landing fees or other user charges.

(e) In no event, except for an in-flight emergency (see §1204.1406), will permission to use NASA airfield facilities be granted to an aircraft arriving directly from, or destined for, any location outside the continental United States unless previously arranged and approved by the authorized approving official.

(f) Permission to use NASA airfields may be granted only to those users having the legal capacity to contract and whose aircraft are in full compliance with applicable Federal Aviation Administration (FAA) or other cognizant regulatory agency requirements.

(g) Permission to use NASA airfields, except in connection with a declared in-flight emergency, will consist only of the right to land, park an aircraft, and subsequently take off. NASA is not equipped to provide any other services such as maintenance or fuel and such services will not be provided except following an in-flight emergency.

§ 1204.1403 Available airport facilities.

The facilities available vary at each NASA Installation having an airfield. The airport facilities available are:

(a) Shuttle Landing Facility—(1) Runways. Runway 15–33 is 15,000 feet long and 300 feet wide with 1,000-foot runways. The first 3,500 feet at each end of the runway have been modified for smoothness. The center 8,000 feet of the runway is grooved for improved braking under wet conditions.

(2) Parking Areas and Hangar Space. No hangar space is available. Limited available concrete parking ramp space makes precoordination necessary.

(3) Control Tower. The control tower is normally in operation from 0800 to 1600 local time, Monday through Friday. Additional hours of operation are filed with the St. Petersburg Flight Service Station (FSS). The tower may be contacted on 128.55 MHz or 284.0 MHz. FAA regulations pertaining to the operation of aircraft at airports with an operating control tower (§91.87 of this title) will apply. When the tower is not in operation, the FAA regulations pertaining to the operation of aircraft at airports without an operating control tower (§91.89 of this title) will apply.
National Aeronautics and Space Admin.  
§ 1204.1403

(4) **Navigation aids.** A Microwave Scanning Beam Landing System (MSBLIS) and a Tactical Airborne Navigation System (TACAN) are installed at the Facility. There are two published TACAN approaches and an approved and published nondirectional beacon (NDB) approach available from Titusville. Runway approach lighting (similar to Category II ALSF-2) and edge lights are available by prior arrangement.

(5) **Hazards.** There are towers and buildings south, southeast, and northeast of the facility as high as 550 feet that could pose hazards to air navigation. All are marked with obstruction lights.

(6) **Emergency Equipment.** Aircraft Rescue and Fire-fighting (ARFF) equipment will be provided in accordance with 14 CFR part 139.

(b) **Wallops Airport—(1) Runways.** There are three hard surfaced runways in satisfactory condition. The runways and taxiways are concrete and/or asphalt. Runway 10–28 is 8,000 feet long, 200 feet wide with maximum wheel load of 57,500 pounds; runway 04–22 is 8,750 feet long, 150 feet wide with maximum wheel load of 57,500 pounds; and runway 17–35 is 4,020 feet long, 150 feet wide with maximum wheel load of 14,700 pounds.

(2) **Parking Areas and Hangar Space.** No hangar space is available. However, limited concrete parking ramp space is available as directed by the control tower.

(3) **Control Tower.** This control tower is normally in operation from 0630 to 1830 local time, Monday through Friday, excluding Federal holidays. The tower may be contacted on 126.5 MHz or 394.3 MHz. When the tower is in operation, FAA regulations pertaining to the operation of aircraft at airports with an operating tower (§91.87 of this title) will apply. When the tower is not in operation, all aircraft operations will be handled by Wallops UNICOM on the tower frequency, and FAA regulations pertaining to the operation of aircraft at airports without an operating control tower (§91.89 of this title) will apply. In addition to Federal Aviation Regulations (FAR’s) (§ 91 of this title), Wallops requires that pilots obtain clearances from the Wallops UNICOM before landings, takeoffs, and taxiing. Civil aircraft operations are normally confined to daylight hours.

(4) **Navigation Aids.** All runways, 04–22, 10–28, and 17–35 are lighted. Both active taxiways, parallels 04–22 and 10–28, are lighted. Airfield lighting is available upon request. All runway approaches are equipped with operating precision approach path indicator (PAPI) systems and are available on request. All airfield obstructions are equipped with red obstruction lights.

(5) **Hazards.** Numerous towers in airport vicinity up to 241 feet above ground level. Existing tree obstructions are located 1500 feet west of runway 10 threshold. High shore bird population exists in the Wallops area. Deer occasionally venture across runways. Light-controlled traffic crossovers are in existence. Potential radio frequency (RF) hazards exist from tracking radars. Hazards involving aircraft and rocket launch operations exist when Restricted Area R–6004 is active.

(6) **Emergency Equipment.** Aircraft rescue and fire-fighting equipment is normally available on a continuous basis.

(c) **Moffett Federal Airfield—(1) Runways.** There are two parallel runways, 32–14, both in satisfactory to good condition. The runways and taxiways are concrete and/or asphalt. Runway 32R–14L is 9,200 feet long, 200 feet wide; 32L–14R is 8,125 feet long, 200 feet wide with a 600 foot displaced threshold on 32L.

(2) **Parking areas and hangar space.** Hangar space is not available; concrete parking ramp space is available as directed by the control tower.

(3) **Control tower.** The control tower normally operates from 0700 to 2300 local time, 7 days a week, excluding Federal holidays. The tower frequencies are 126.2 Mhz, 353.2 Mhz, and 340.2 Mhz. When the tower is operating, FAA regulations pertaining to the operation of aircraft at airports with an operating tower (§91.87 of this title) will apply. When the tower is not in operation, all aircraft operations will be conducted by Moffett UNICOM on the tower frequency. FAA regulations pertaining to the operation of aircraft at airports without an operating control tower (§91.89 of this title) will apply.

(4) **Navigation aids.** An Instrument Landing System (ILS) is installed. An
§ 1204.1404 Requests for use of NASA airfield facilities.

(a) Request for use of a NASA airfield, whether on a one time or recurring basis, must be in writing and addressed to the appropriate NASA facility, namely:

(1) *Shuttle Landing Facility*. Director of Center Support Operations, John F. Kennedy Space Center, Kennedy Space Center, Florida 32899.

(2) *Wallops Airport*. Director of Suborbital Projects and Operations, Goddard Space Flight Center, Wallops Flight Facility, Wallops Island, Virginia 23337.

§ 1204.1406

(b) Such requests will:

(1) Fully identify the prospective user and aircraft.

(2) State the purpose of the proposed use and the reason why the use of the NASA airfield is proposed rather than a commercial airport.

(3) Indicate the expected annual use, to include number and approximate date(s) and time(s) of such proposed use.

(4) State that the prospective user is prepared to fully comply with the terms of this subpart 14 and the use permit which may be issued.

(c) Upon receipt of the written request for permission to use the airport, the NASA official designated by each facility will request additional information, if necessary, and forward both this regulation and the required Hold Harmless Agreement for execution by the requestor or forward, where appropriate, a denial of the request.

(d) The signed original of the Hold Harmless Agreement shall be returned to the designated NASA official, and a copy retained in the aircraft at all times. Such copy shall be exhibited upon proper demand by any designated NASA official.

(e) At the same time that the prospective user returns the executed original of the Hold Harmless Agreement, the user shall forward to the designated NASA official the required Certificate of Insurance and waiver of rights to subrogation. Such certificate shall evidence that during any period for which a permit to use is being requested, the prospective user has in force a policy of insurance covering liability in amounts not less than those listed in the Hold Harmless Agreement.

(f) When the documents (in form and substance) required by paragraphs b through e of this section have been received, they will be forwarded with a proposed use permit to the approving authority for action.

(g) The designated NASA official will forward the executed use permit or notification of denial thereof to the prospective user after the approving authority has acted.

§ 1204.1405

Approving authority.

The authority to establish limitations and procedures for use of a NASA airfield, as well as the authority to approve or disapprove the use of the NASA airfield facilities subject to the terms and conditions of this subpart and any supplemental rules or procedures established for the facility is vested in:

(a) Shuttle Landing Facility. Director of Center Support Operations, Kennedy Space Center, NASA.

(b) Wallops Airport. Director of Suborbital Projects and Operations, Goddard Space Flight Center, Wallops Flight Facility, NASA.

(c) Moffett Federal Airfield and Crow Landing Flight Facility. Chief, Airfield Management Office, Ames Research Center, NASA.

§ 1204.1406

Procedures in the event of a declared in-flight emergency.

(a) Any aircraft involved in a declared in-flight emergency that endangers the safety of its passengers and aircraft may land at a NASA airfield. In such situations, the requirements for this subpart for advance authorizations, do not apply.

(b) NASA personnel may use any method or means to clear the aircraft or wreckage from the runway after a landing following an in-flight emergency. Care will be taken to preclude unnecessary damage in so doing. However, the runway will be cleared as soon as possible for appropriate use.

(c) The emergency user will be billed for all costs to the Government that result from the emergency landing. No landing fee will be charged, but the charges will include the labor, materials, parts, use of equipment, and tools required for any service rendered under these circumstances.

(d) In addition to any report required by the Federal Aviation Administration, a complete report covering the landing and the emergency will be filed with the airfield manager by the pilot or, if the pilot is not available, any other crew member or passenger.

(e) Before an aircraft which has made an emergency landing is permitted to
§ 1204.1407 Procedure in the event of an unauthorized use.

Any aircraft not operated for benefit of the Federal Government which lands at a NASA airfield facility without obtaining prior permission from the approving authority, except in a bona fide emergency, is in violation of this subpart. Such aircraft will experience delays while authorization for departure is obtained pursuant to this subpart and may, contrary to the other provisions of this subpart, be required, at the discretion of the approving authority, to pay a user fee of not less than $100. Before the aircraft is permitted to depart, the approving authority will require full compliance with this subpart 1204.14, including the filing of a complete report explaining the reasons for the unauthorized landing. Violators could also be subject to legal liability for unauthorized use. When it appears that the violation of this subpart was deliberate or is a repeated violation, the matter will be referred to the Aircraft Management Office, NASA Headquarters, which will then grant any departure authorization.

Subpart 15—Intergovernmental Review of National Aeronautics and Space Administration Programs and Activities

Source: 48 FR 29340, June 24, 1983, unless otherwise noted.

Editorial Note: For additional information, see related documents published at 47 FR 57369, December 23, 1982, 48 FR 17101, April 21, 1983, and 48 FR 29096, June 24, 1983.

§ 1204.1501 Purpose.

(b) These regulations are intended to foster an intergovernmental partnership and a strengthened federalism by relying on state processes and on state, areawide, regional and local coordination for review of proposed direct Federal development.

(c) These regulations are intended to aid the internal management of the Agency, and are not intended to create any right or benefit enforceable at law by a party against the agency or its officers.

§ 1204.1502 Definitions.

Administrator means the Administrator of the U.S. National Aeronautics and Space Administration or an official or employee of the Agency acting for the Administrator under a delegation of authority.

Agency means the U.S. National Aeronautics and Space Administration.

State means any of the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Islands, or the Trust Territory of the Pacific Islands.

§ 1204.1503 Programs and activities subject to these regulations.

The Administrator publishes in the Federal Register a description of the Agency’s programs and activities that are subject to these regulations.

§ 1204.1504 [Reserved]

§ 1204.1505 Federal interagency coordination.

The Administrator to the extent practicable, consults with and seeks
advice from all other substantially affected federal departments and agencies in an effort to assure full coordination between such agencies and the Agency regarding programs and activities covered under these regulations.

§ 1204.1506 Procedures for selecting programs and activities under these regulations.

(a) A state may select any program or activity published in the Federal Register in accordance with § 1204.1503 of this part for intergovernmental review under these regulations. Each state, before selecting programs and activities shall consult with local elected officials.

(b) Each state that adopts a process shall notify the Administrator of the Agency’s programs and activities selected for that process.

(c) A state may notify the Administrator of changes in its selections at any time. For each change, the state shall submit to the Administrator an assurance that the state has consulted with local elected officials regarding the change. The Agency may establish deadlines by which states are required to inform the Administrator of changes in their program selections.

(d) The Administrator uses a state’s process as soon as feasible, depending on individual programs and activities, after the Administrator is notified of its selections.

§ 1204.1507 Communicating with State and local officials concerning the Agency’s programs and activities.

(a) For those programs and activities covered by a state process under §1204.1506 the Administrator, to the extent permitted by law:

(1) Uses the official state process to determine views of state and local elected officials; and;

(2) Communicates with state and local elected officials, through the official state process, as early in a program planning cycle as is reasonably feasible to explain specific plans and actions.

(b) The Administrator provides notice to directly affected state, areawide, regional and local entities in a state of proposed direct Federal development if:

(1) The state has not adopted a process under the Order; or

(2) The development involves a program or activity not selected for the state process.

This notice may be made by publication in a periodical of general circulation in the area likely to be affected or other appropriate means, which the Agency in its discretion deems appropriate.

§ 1204.1508 Time limitations for receiving comments on proposed direct Federal development.

(a) Except in unusual circumstances, the Administrator gives state processes or state, areawide, regional and local officials and entities at least 60 days from the date established by the Administrator to comment on proposed direct Federal development.

(b) This section also applies to comments in cases in which the review, coordination, and communication with the Agency has been delegated.

§ 1204.1509 Receiving and responding to comments.

(a) The Administrator follows the procedures in §1204.1510 if:

(1) A state office or official is designated to act as a single point of contact between a state process and all federal agencies; and

(2) That office or official transmits a state process recommendation for a program selected under §1204.1506.

(b)(1) The single point of contact is not obligated to transmit comments from state, areawide, regional or local officials and entities where there is no state process recommendation.

(b)(2) If a program process recommendation is transmitted by a single point of contact, all comments from state, areawide, regional, and local officials and entities that differ from it must also be transmitted.

(c) If a state has not established a process, or is unable to submit a state process recommendation, state, areawide, regional and local officials and entities may submit comments to the Agency.

(d) If a program or activity is not selected for a state process, state, areawide, regional and local officials and entities may submit comments to
§ 1204.1510 Efforts to accommodate intergovernmental concerns.

(a) If a state provides a state process recommendation to the Agency through its single point of contact, the Administrator either:

(1) Accepts the recommendation;
(2) Reaches a mutually agreeable solution with the state process; or
(3) Provides the single point of contact with a written explanation of its decision, in such form as the Administrator in his or her discretion deems appropriate. The Administrator may also supplement the written explanation by providing the explanation to the single point of contact by telephone, other telecommunication, or other means.

(b) In any explanation under paragraph (a)(3) of this section, the Administrator informs the single point of contact that:

(1) The Agency will not implement its decision for a least ten days after the single point of contact receives the explanation; or
(2) The Administrator has reviewed the decision and determined that, because of unusual circumstances, the waiting period of at least ten days is not feasible.

(c) For purposes of computing the waiting period under paragraph (b)(1) of this section, a single point of contact is presumed to have received written notification five days after the date of mailing of such notification.

§ 1204.1511 Coordination in interstate situations.

(a) The Administrator is responsible for—

(1) Identifying proposed direct Federal development that has an impact on interstate areas;
(2) Notifying appropriate officials and entities in states which have adopted a process and which select the Agency’s program or activity;
(3) Making efforts to identify and notify the affected state, areawide, regional, and local officials and entities in those states that have not adopted a process under the Order or do not select the Agency’s program or activity;
(4) Responding pursuant to §1204.1510 of this part if the Administrator receives a recommendation from a designated areawide agency transmitted by a single point of contact, in cases in which the review, coordination, and communication with the Agency have been delegated.

(b) The Administrator uses the procedures in §1204.1510 of this part if a state process provides a state process recommendation to the Agency through a single point of contact.

§ 1204.1512 [Reserved]

§ 1204.1513 Waivers of provisions of these regulations.

In an emergency, the Administrator may waive any provision of these regulations.

APPENDIX A TO PART 1204—ITEMS TO COVER IN MEMORANDA OF AGREEMENT

The items to be covered in Memoranda of Agreement between NASA Installations and state and areawide OMB Circular A–95 clearinghouses for coordinating NASA and civilian planning:

1. Clearinghouses will be contacted at the earliest practicable point in project planning. Generally, this will be during the preparation of Preliminary Engineering Reports, or possibly earlier if meaningful information is available that could practically serve as an input in the decision-making process. It should be noted that clearinghouses are generally comprehensive planning agencies. As such, they are often the best repositories of information required for development planning and constitute a resource that can often save Federal planners substantial time and effort, if consulted early enough. In addition
to providing information necessary for preliminary engineering, clearinghouses can make useful inputs to the development of environmental impact statements, as well as in reviewing draft statements. Thus, consultation at the earliest stage in planning can have substantial payoffs in installation development.

2. Clearinghouses will be afforded a minimum time of 30 days in which to review and comment on a proposed project and a maximum time of 45 days in which to complete such review.

3. The minimum information to be provided to the clearinghouse will consist of project description, scope and purpose, summary technical data, maps and diagrams where relevant, and any data which would show the relationship of the proposed project or action to applicable land use plans, policies, and controls for the affected area.

4. Establish procedures for notifying clearinghouses of the actions taken on projects, such as implementation, timing, postponement, abandonment, and explaining, where appropriate, actions taken contrary to clearinghouse recommendations.

PART 1205 [RESERVED]

PART 1206—AVAILABILITY OF AGENCY RECORDS TO MEMBERS OF THE PUBLIC

Sec.

Subpart 1—Basic Policy

1206.100 Scope of part.
1206.101 Definitions.
1206.102 General policy.

Subpart 2—Records Available

1206.200 Types of records to be made available.
1206.201 Records which have been published.
1206.202 Deletion of segregable portions of a record.
1206.203 Creation of records.
1206.204 Records of interest to other agencies.
1206.205 Incorporation by reference.
1206.206 Availability for copying.
1206.207 Copies.
1206.208 Release of exempt records.

Subpart 3—Exemptions

1206.300 Exemptions.
1206.301 Limitation of exemptions.

Subpart 4—Location for Inspection and Request of Agency Records

1206.400 Information Centers.

§ 1206.100 Scope of part.

This Part 1206 establishes the policies, responsibilities, and procedures for the release of Agency records which
§ 1206.101 Definitions.

For the purposes of this part, the following definitions shall apply:

(a) The term Agency records or records means any information that would be an Agency record subject to the requirements of the Freedom of Information Act (FOIA) when maintained by NASA in any format, including an electronic format. Such information includes all books, papers, maps, photographs, or other documentary materials made or received by NASA in pursuance of Federal law or in connection with the transaction of public business and preserved by NASA as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities or because of the informational value of data contained therein. It does not include tangible objects or articles, such as structures, furniture, paintings, sculptures, exhibits, models, vehicles or equipment; library or museum material made or acquired and preserved solely for reference or exhibition purposes; or records of another agency, a copy of which may be in NASA’s possession.

(b) The term initial determination means a decision by a NASA official, in response to a request by a member of the public for an Agency record, on whether the record described in the request can be identified and located after a reasonable search and, if so, whether the record (or portions thereof) will be made available under this part or will be withheld from disclosure under Subpart 3 of this part.

(c) The term appeal means a request by a member of the public, hereinafter requester, to the Administrator or designee, or, in the case of records as specified in §1206.504, to the Inspector General or designee for reversal of any adverse initial determination the requester has received in response to a request for an Agency record.

(d) The term final determination means a decision by the Administrator or designee, or, in the case of records as specified in §1206.504, by the Inspector General or designee on an appeal.

(e) The term working days means all days except Saturdays, Sundays, and Federal holidays.

(f) As used in §1206.608, the term unusual circumstance means, but only to the extent reasonably necessary to the proper processing of a particular request for Agency records—

(1) The need to search for and collect the requested records from NASA Centers or other establishments that are separate from the NASA Information Center processing the request (see Subpart 6 of this part for procedures for processing a request for Agency records);

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of NASA having substantial subject-matter interest therein.

(g) A statute specifically providing for setting the level of fees for particular types of records (5 U.S.C. 552(a)(4)(A)(v)) means any statute that specifically requires a government agency to set the level of fees for particular types of records in order to:

(1) Serve both the general public and private sector organizations by conveniently making available government information;

(2) Ensure that both groups and individuals pay the cost of publications and other services that are for their special use so that these costs are not borne by the general taxpaying public;

(3) Operate, to the maximum extent possible an information dissemination activity on a self-sustaining basis (to the maximum extent possible); or

(4) Return revenue to the Treasury for defraying, wholly or in part, appropriated funds used to pay the cost of disseminating government information.
(h) The term direct costs means those expenditures that NASA actually incurs in searching for, duplicating, and downloading computer files and documents in response to a FOIA request. Direct costs include, for example, the salary of the employee who would ordinarily perform the work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits) and the cost of operating duplicating machinery. Direct costs do not include overhead expenses such as costs of space, heating, or lighting in the records storage facility.

(i) The term search includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within documents. A search for Agency records that are responsive to the request may be accomplished by manual or automated means. NASA will make reasonable efforts to search for records in electronic form or format, except when such efforts would significantly interfere with the operation of NASA’s automated information systems. NASA will ensure that searching for material is done in the most efficient, least expensive manner so as to minimize costs for both the Agency and the requester and will only utilize line-by-line, page-by-page search when consistent with this policy. Search should be distinguished, however, from review of material in order to determine whether the material is exempt from disclosure (see paragraph (k) of this section).

(j) The term duplication means the process of making a copy of a document in order to respond to a FOIA request. Such copies can take the form of paper copy, electronic forms, microfilm, audio-visual materials, or machine-readable documentation (e.g., magnetic tape on disk), among others.

(k) The term review means the process of examining documents located in response to a request (see paragraph (l) of this section) to determine whether any portion of any document located is permitted to be withheld. It also includes processing any documents for disclosure, e.g., doing all that is necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(l) The term commercial use request means a request from or on behalf of one whom seeks information for a use or purpose that furthers the commercial, trade, or profit interests of either the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, NASA will look first to the use to which a requester will put the documents requested. When NASA has reasonable cause to doubt the use to which a requester will put the records sought or when the use is not clear from the request itself, NASA will ask the requester to further clarify the immediate use for the requested records. A request from a corporation (not a news media corporation) may be presumed to be for commercial use unless the requester demonstrates that it qualifies for a different fee category.

(m) The term educational institution refers to a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, and an institution of vocational education, operating a program or programs of scholarly research.

(n) The term noncommercial scientific institution refers to an institution that is not operated on a commercial basis as that term is referenced in paragraph (l) of this section, and which is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

(o) The term representative of the news media means any person actively gathering news for an entity that publishes, broadcasts, or makes news available to the public. The term news means information about events that would be of interest to the public. Examples of news media include, but are not limited to, television or radio stations broadcasting to the public at large, publishers of periodicals who make their products available for purchase or subscription by the general public (but only in those instances when they can qualify as disseminators of news), and
§ 1206.102 General policy.

(a) In accordance with section 203(a)(3) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2473(a)(3)), it has been and continues to be NASA policy to provide for the “widest practicable and appropriate dissemination of information concerning its activities and the results thereof.”

(b) In compliance with the Freedom of Information Act, as amended (5 U.S.C. 552), a positive and continuing obligation exists for NASA to make available to the fullest extent practicable upon request by members of the public all Agency records under its jurisdiction, as described in Subpart 2 of this part, except to the extent that they may be exempt from disclosure under Subpart 3 of this part.

Subpart 2—Records Available

§ 1206.200 Types of records to be made available.

(a) Records required to be published in the FEDERAL REGISTER. The following records are required to be published in the FEDERAL REGISTER, for codification in Title 14, Chapter V, of the CFR.

(1) Description of NASA Headquarters and NASA Centers and the established places at which, the employees from whom, and the methods whereby, the public may secure information, make submittals or requests, or obtain decisions;

(2) Statements of the general course and method by which NASA’s functions are channeled and determined, including the nature and requirements of all formal and informal procedures available;

(3) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions regarding the scope and contents of all papers, reports, or examinations;

(4) Substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability formulated and adopted by NASA;

(5) Each amendment, revision, or repeal of the foregoing.

(b) Agency opinions, orders, statements, and manuals.
(1) Unless they are exempt from disclosure under Subpart 3 of this part, or unless they are promptly published and copies offered for sale, NASA shall make available the following records for public inspection and copying or purchase:

(i) All final opinions (including concurring and dissenting opinions) and all orders made in the adjudication of cases;

(ii) Those statements of NASA policy and interpretations which have been adopted by NASA and are not published in the Federal Register;

(iii) Administrative staff manuals (or similar issuances) and instructions to staff that affect a member of the public;

(iv) Copies of all records, regardless of form or format, which have been released to any person under subpart 6 herein and which, because of the nature of their subject matter, the Agency determines have become or are likely to become the subject of subsequent requests for substantially the same records.

(v) A general index of records referred to under paragraph (b)(1)(iv) of this section.

(2) (i) For records created after November 1, 1997, which are covered by paragraph (b)(1)(i) through (b)(1)(v) of this section, such records shall be available electronically, through an electronic reading room and in electronic forms or formats.

(ii) In connection with all records required to be made available or published under this paragraph (b), identifying details shall be deleted to the extent required to prevent a clearly unwarranted invasion of personal privacy. However, in each case the justification for the deletion shall be explained fully in writing. The extent of such deletion shall be indicated on the portion of the record which is made available or published, unless including that indication would harm an interest protected by an exemption in Subpart 3. If technically feasible, the extent of the deletion shall be indicated at the place in the record where the deletion is made.

(3) Other Agency records.

(c) Other Agency records.

(1) In addition to the records made available or published under paragraphs (a) and (b) of this section, NASA shall, upon request for other records made in accordance with this part, make such records promptly available to any person, unless they are exempt from disclosure under Subpart 3 of this part, or unless they may be purchased from other readily available sources, as provided in §1206.201.

(2) Furthermore, at a minimum, NASA will maintain in its electronic reading room records created after November 1, 1997, under paragraphs (b)(1)(iv) and (v) and a guide for requesting records or information from NASA. Such guide shall include all NASA major information systems, a description of major information and record locator systems, and a handbook for obtaining various types and categories of NASA public information through the FOIA.

§1206.201 Records which have been published.

Publication in the Federal Register is a means of making certain Agency records are available to the public. NASA has a FOIA Electronic Reading Room at NASA Headquarters and each of its Centers. Also, the Commerce Business Daily, Synopsis of U.S. Government Proposed Procurement, Sales and Contract Awards (Department of Commerce) is a source of information concerning Agency records or actions. Various other NASA publications and documents, and indexes thereto, are available from other sources, such as the U.S. Superintendent of Documents, the National Technical Information Service (Department of Commerce), and the Earth Resources Observation Systems Data Center (Department of the Interior). Such publications and documents are not required to be made available or reproduced in response to a request unless they cannot be purchased readily from available sources. If a publication or document is readily available from a source other than NASA, the requester shall be informed of the procedures to follow to obtain the publication or document.

§1206.202 Deletion of segregable portions of a record.

If a record requested by a member of the public contains both information required to be made available and that
§ 1206.203 Creation of records.
Records will not be created by compiling selected items from the files at the request of a member of the public, nor will records be created to provide the requester with such data as ratios, proportions, percentages, frequency distributions, trends, correlations, or comparisons.

§ 1206.204 Records of interest to other agencies.
If a NASA record is requested and another agency has a substantial interest in the record, such an agency shall be consulted on whether the record shall be made available under this part (see §1206.101(f)(3)). If a record is requested that is a record of another agency, the request shall be returned to the requester, as provided in §1206.604(c) unless NASA has possession and control of the record requested.

§ 1206.205 Incorporation by reference.
Records reasonably available to the members of the public affected thereby, shall be deemed published in the FEDERAL REGISTER when incorporated by reference in material published in the FEDERAL REGISTER (pursuant to the FEDERAL REGISTER regulation on incorporation by reference, 1 CFR Part 51).

§ 1206.206 Availability for copying.
Except as provided in §1206.201, the availability of a record for inspection shall include the opportunity to extract information therefrom or to purchase copies.

§ 1206.207 Copies.
The furnishing of a single copy of the requested record will constitute compliance with this part.

§ 1206.208 Release of exempt records.
If a record which has been requested is exempt from disclosure under Subpart 3 of this part, the record may nevertheless be made available under the procedures of Subpart 6 of this part if it is determined by an official authorized to make either an initial determination or a final determination that such action would not be inconsistent with a purpose of the exemptions set forth in Subpart 3 of this part.

Subpart 3—Exemptions

§ 1206.300 Exemptions.
(a) Under 5 U.S.C. 552(b) Agency records falling within the exemptions of paragraph (b) of this section are not required to be made available under this part. Such records may nevertheless be made available if it is determined that such actions would not be inconsistent with a purpose of the exemption (see §1206.208).

(b) The requirements of this part to make Agency records available do not apply to matters that are—

(i) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and

(ii) Are in fact properly classified pursuant to such Executive Order;

(2) Related solely to the internal personnel rules and practices of NASA;

(3) Specifically exempted from disclosure by statute (other than 5 U.S.C. 552), provided that such statute:

(i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or
(ii) Establishes particular criteria for withholding or refers to particular types of matters to be withheld;
(4) Trade secrets and commercial or financial information obtained from a person which is privileged or confidential;
(5) Interagency or intra-agency memoranda or letters which would not be available by law to a party other than an agency in litigation with NASA;
(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;
(7) Records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information—
(1) Could reasonably be expected to interfere with enforcement proceedings,
(A) Whenever a request is made which involves access to these records and—
(1) The investigation or proceeding involves a possible violation of criminal law; and
(2) There is reason to believe that the subject of the investigation or proceeding is not aware of its pendency, and disclosure of the existence of the records could reasonably be expected to interfere with enforcement proceedings, the Agency may, during only such time as that circumstance continues, treat the records as not subject to the requirements of 5 U.S.C. 552.
(B) [Reserved]
(ii) Would deprive a person of a right to a fair trial or an impartial adjudication,
(iii) Could reasonably be expected to constitute an unwarranted invasion of personal privacy.
(iv) Could reasonably be expected to disclose the identity of a confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of a record or information compiled by criminal law enforcement authority in the course of a criminal investigation or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source.
Whenever informant records maintained by a criminal law enforcement agency under an informant’s name or personal identifier are requested by a third party according to the informant’s name or personal identifier, the Agency may treat the records as not subject to the requirements of 5 U.S.C. 552 unless the informant’s status as an informant has been officially confirmed.
(v) Would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or
(vi) Could reasonably be expected to endanger the life or physical safety of any individual.
(8) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or
(9) Geological and geophysical information and data, including maps, concerning wells.

§ 1206.301 Limitation of exemptions.
(a) This Part 1206 does not authorize the withholding of information or the availability of records to the public, except as specifically stated in this part.
(b) Nothing in this part shall be construed as authority to withhold information from Congress.

Subpart 4—Location for Inspection and Request of Agency Records

§ 1206.400 Information Centers.
NASA will maintain Information Centers as set forth in this subpart.

§ 1206.401 Location of NASA Information Centers.
(a) NASA will maintain the following Information Centers, at which Agency records may be inspected, from which copies of Agency records may be requested and at which copies of Agency forms may be obtained:
§ 1206.402 Documents available for inspection at NASA Information Centers.

(a) Each NASA Information Center will have available for inspection, as a minimum, a current version of the following documents:

1. 5 U.S.C. 552;
2. Title 14 CFR Chapter V, and Title 41 CFR Chapter 18, and material published in the FEDERAL REGISTER for codification but not yet included in the Code of Federal Regulations;
3. A master list and index of NASA Issuances, and a copy of all such issuances;
4. A list and index of the management issuances of the NASA Center at which the Information Center is located, and a copy of such issuances;
5. NASA’s Scientific and Technical AeroSpace Reports and current indexes thereto;
6. Cumulative Index to Selected Speeches and News Releases issued by NASA Headquarters;
8. Decisions of the NASA Contract Adjustment Board and a current index thereto;
10. Collection of all issues of “NASA Activities”;

(b) In addition a requester may submit a FOIA request electronically. The addresses are as follows: (HQ) foia@hq.nasa.gov; (ARC) foia@arc.nasa.gov; (DFRC) foia@dfrc.nasa.gov; (GRC) foia@grc.nasa.gov; (GSFC) foia@gsfc.nasa.gov; (JSC) foia@ems.jsc.nasa.gov; (KSC) FOIA@ksc.nasa.gov; (LaRC) foia@larc.nasa.gov; (MSFC) foia@msfc.nasa.gov and (SSC) foia@ssc.nasa.gov; and for Inspector General records, foiaog@hq.nasa.gov.
(11) List of licenses granted under NASA-owned patents; and
(12) A master list and an index of NASA Policy Directives, Guidelines, and Charters, and a copy of all such Directives, Guidelines, and Charters.

(b) Because the indexes listed in paragraph (a) of this section are voluminous and because current versions thereof will be available for inspection at NASA Information Centers, from which copies of the indexes may be requested under §1206.603, it is determined and so ordered that publication of the indexes quarterly in the Federal Register would be unnecessary and impractical.

§ 1206.403 Duty hours.

The NASA Information Centers listed in §1206.401 shall be open to the public during all regular workdays, from 9 a.m. to 4 p.m.

Subpart 5—Responsibilities

§ 1206.500 Associate Deputy Administrator.

Except as otherwise provided in §1206.504, the Associate Deputy Administrator or designee is responsible for the following:

(a) Providing overall supervision and coordination of the implementation of the policies and procedures set forth in this Part 1206;

(b) After consultation with the General Counsel, making final determinations under §1206.607, within the time limits specified in Subpart 6 of this part;

(c) Determining whether unusual circumstances exist under §1206.608 as would justify the extension of the time limit for a final determination.

§ 1206.501 General Counsel.

The General Counsel is responsible for the interpretation of 5 U.S.C. 552 and of this part, and for the handling of litigation in connection with a request for an Agency record under this part.

§ 1206.502 Centers and Components.

(a) Except as otherwise provided in §1206.504, the Director of each NASA Center or the Official-in-Charge of each Component, is responsible for the following:

(1) After consultation with the Chief Counsel or the Counsel charged with providing legal advice to a Center or a Component Facility, making initial determinations under §1206.603 and §1206.604;

(2) Determining whether unusual circumstances exist under §1206.608 as would justify the extension of the time limit for an initial determination; and

(3) In coordination with the Associate Deputy Administrator, ensuring that requests for records under the cognizance of his/her respective Center are processed and initial determinations made within the time limits specified in Subpart 6 of this part.

(b) If so designated by the Director or Officials-in-Charge of the respective Center, the principal Public Affairs Officer at the Center may perform the functions set forth in paragraphs (a)(1) and (2) of this section.

§ 1206.503 NASA Headquarters.

(a) Except as otherwise provided in §1206.504, the Associate Administrator for Public Affairs, is responsible for the following:

(1) Preparing the annual reports required by §1206.900, including establishing reporting procedures throughout NASA to facilitate the preparation of such reports;

(2) After consultation with the Office of General Counsel, making initial determinations under §1206.603 and §1206.604;

(3) Determining whether unusual circumstances exist under §1206.608 as would justify the extension of the time limit for an initial determination; and

(4) In coordination with the Associate Deputy Administrator, ensuring that requests for Agency records under the cognizance of Headquarters are processed and initial determinations made within the time limits specified in Subpart 6 of this part.

(b) The functions set forth in paragraphs (a)(1), (2) and (3) of this section may be delegated by the Associate Administrator for Public Affairs to a Public Affairs Officer or Specialist and to the Manager or his/her designee, NASA Management Office—JPL.
§ 1206.504 Inspector General.

(a) The Inspector General or designee is responsible for making final determinations under §1206.607, within the time limits specified in Subpart 6 of this part, concerning audit inspection and investigative records originating in the Office of the Inspector General records from outside the Government related to an audit inspection or investigation, records prepared in response to a request from or addressed to the Office of the Inspector General, or other records originating within the Office of the Inspector General, after consultation with the General Counsel or designee on an appeal of an initial determination to the Inspector General.

(b) The Assistant Inspectors General or their designees are responsible for making initial determinations under §1206.603 and §1206.604 concerning audit inspection and investigative records originating in the Office of the Inspector General, records from outside the Government related to an audit inspection or investigation, records prepared in response to a request from or addressed to the Office of the Inspector General, or other records originating with the Office of the Inspector General, after consultation with the Attorney-Advisor to the Inspector General or designee.

(c) The Inspector General or designee is responsible for ensuring that requests for Agency records as specified in paragraphs (a) and (b) of this section are processed and initial determinations are made within the time limits specified in Subpart 6 of this part.

(d) The Inspector General or designee is responsible for determining whether unusual circumstances exist under §1206.608 that would justify extending the time limit for an initial or final determination, for records as specified in paragraphs (a) and (b) of this section.

(e) Records as specified in paragraphs (a) and (b) of this section include any records located at Regional and field Inspector General Offices, as well as records located at the Headquarters Office of the Inspector General.

§ 1206.505 Delegation of authority.

Authority necessary to carry out the responsibilities specified in this subpart is delegated from the Administrator to the officials named in this subpart.

Subpart 6—Procedures

§ 1206.600 Requests for records.

A member of the public may request an Agency record by mail, facsimile (FAX), electronic-mail (e-mail), or in person from the FOIA Office having cognizance over the record requested or from the NASA Headquarters FOIA Office.

§ 1206.601 Mail, fax and e-mail requests.

In view of the time limits under 5 U.S.C. 552(a)(6) for an initial determination on a request for an Agency record (see §1206.603), a request must meet the following requirements:

(a) The request must be addressed to an appropriate NASA FOIA Office or otherwise be clearly identified in the letter as a request for an Agency record under the “Freedom of Information Act.”

(b) The request must identify the record requested or reasonably describe it in a manner that enables a professional NASA employee who is familiar with the subject area of the request to identify and locate the record with a reasonable amount of effort. NASA need not comply with a blanket or categorical request (such as “all matters relating to” a general subject) where it is not reasonably feasible to determine what is sought. NASA will in good faith endeavor to identify and locate the record sought and will consult with the requester when necessary and appropriate for that purpose. However, as provided in §1206.203, NASA will undertake no obligation to compile or create information or records not already in existence at the time of the request.

(c) If a fee is chargeable under Subpart 7 of this part for search or duplication costs incurred in connection with a request for an Agency record, and the requester knows the amount of the fee at the time of the request, the request should be accompanied by a check or money order payable in that amount to the “National Aeronautics and Space Administration.” NASA cannot be responsible for cash sent by mail; stamps
§ 1206.602 Requests in person.

(a) A member of the public may request an Agency record in person at a NASA FOIA Office (see § 1206.401) during the duty hours of NASA Headquarters or the Center.

(b) A request at a FOIA Office must identify the record requested or reasonably describe it as provided in § 1206.601(b).

(c) If the record requested is located at the FOIA Office or otherwise readily obtainable, it shall be made available to the requester upon the payment of any fees that are chargeable (see Subpart 7 of this part), which fees may be paid by a check or money order payable to the ‘’National Aeronautics and Space Administration’’. If the record requested is not located at the FOIA Office or otherwise readily obtainable, the request will be docketed at the FOIA Office and processed in accordance with the procedures in §1206.603 and §1206.604, with any fee chargeable being handled in accordance with §1206.601(c).

§ 1206.603 Procedures and time limits for initial determinations.

(a) Except as provided in §1206.608, an initial determination on a request for an Agency record, addressed in accordance with §1206.601(a) or made in person at a NASA FOIA Office shall be made, and the requester shall be sent notification thereof, within 20 working days after receipt of the request, as required by 5 U.S.C. 552(a)(6).

(b) An initial determination on a request for an Agency record by mail not addressed in accordance with §1206.601(a) shall be made, and the requester shall be sent notification thereof, within 20 working days after the correspondence is recognized as a request for an Agency record under the ‘’Freedom of Information Act’’ and received by the appropriate NASA FOIA Office. With respect to such a request, unless an initial determination can reasonably be made within 20 working days of the original receipt, the request will be promptly acknowledged and the requester notified of the date the request was received at that FOIA Office and that an initial determination on the request will be made within 20 working days of that date.

(c) If it is determined that the requested record (or portion thereof) will be made available, and if the charges are under $250, NASA will either send a copy of the releasable record and a bill for the fee or send the initial determination and a bill for the fee to the requester. In the latter case, the documents will be released when the fee is received. If the fee chargeable is over $250, a request for payment of the fee will always be sent with the initial determination, and the records will be mailed only upon receipt of payment. When records are sent before payment is received, the fact that interest will be charged from the 31st day after the day of the response shall be stated in the response. The date of the mailing of an initial determination, with or without the records(s), shall be deemed to satisfy the time limit for initial determinations.

(d) Any notification of an initial determination that does not comply fully with the request for an Agency record, including those searches that produce no documents, shall include a statement of the reasons for the adverse determination, include the name and title of the person making the initial determination, and notify the requester of the right to appeal to the Administrator, or the Inspector General, as appropriate, under §1206.605.

(e) If the requester demonstrates a ‘’compelling need’’ as defined in §1206.101(r) for records, NASA shall provide expedited processing of the request. NASA will inform the requester as to whether the request for expedited processing has been granted within 10 working days after the date of the request.

§ 1206.604 Request for records that exist elsewhere.

(a) If a request for an Agency record is received by a FOIA Office not having
cognizance of the record (for example, when a request is submitted to one NASA Center or Headquarters and the requested record exists only at another NASA Center), the FOIA Office receiving the request shall promptly forward it to the NASA FOIA Office having cognizance of the record requested. That Center shall acknowledge the request and inform the requester that an initial determination on the request will be sent within 20 working days from the date of receipt by such Center.

(b) If a request is received for Agency records which exist at two or more Centers, the FOIA Office receiving the request shall undertake to comply with the request, if feasible, or to forward the request (or portions thereof) promptly to a more appropriate Center for processing. The requester shall be kept informed of the actions taken to respond to the request.

(c) If a request is received by a NASA FOIA Office for a record of another agency, the requester shall promptly be informed of that fact, and the request shall be returned to the requester, with advice as to where the request should be directed.

§ 1206.605 Appeals.

(a) A member of the public who has requested an Agency record in accordance with §1206.601 or §1206.602, and who has received an initial determination which does not comply fully with the request, may appeal such an adverse initial determination to the Administrator, or, for records as specified in §1206.504, to the Inspector General under the procedures of this section.

(b) The Appeal must:
1. Be in writing;
2. Be addressed to the Administrator, NASA Headquarters, Washington, DC 20546, or, for records as specified in §1206.504, to the Inspector General, NASA Headquarters, Washington, DC 20546;
3. Be identified clearly on the envelope and in the letter as an “Appeal under the Freedom of Information Act”;
4. Include a copy of the request for the Agency record and a copy of the adverse initial determination;
5. To the extent possible, state the reasons why the requester believes the adverse initial determination should be reversed; and
6. Be sent to the Administrator or the Inspector General, as appropriate, within 30 calendar days of the date of receipt of the initial determination.

(c) An official authorized to make a final determination may waive any of the requirements of paragraph (b) of this section, in which case the time limit for the final determination (see §1206.607(a)) shall run from the date of such waiver.

§ 1206.606 Request for additional records.

If, upon receipt of a record (or portions thereof) following an initial determination to comply with a request, the requester believes that the materials received do not comply with the request, the requester may elect either to request additional records under the procedures of §1206.601 or §1206.602, or to file an appeal under the procedures of §1206.605, in which case the appeal must be sent to the Administrator, or to the Inspector General, in the case of records as specified in §1206.504, within 30 days of receipt of the record (or portions thereof), unless good cause is shown for any additional delay.

§ 1206.607 Actions on appeals.

(a) Except as provided in §1206.608, the Administrator or designee, or in the case of records as specified in §1206.504, the Inspector General or designee, shall make a final determination on an appeal and notify the requester thereof, within 20 working days after the receipt of the appeal.

(b) If the final determination reverses in whole or in part the initial determination, the record requested (or portions thereof) shall be made available promptly to the requester, as provided in the final determination.

(c) If the final determination sustains in whole or in part an adverse initial determination, the notification of the final determination shall:
1. Explain the basis on which the record (or portions thereof) will not be made available;
2. Include the name and title of the person making the final determination;
(3) Include a statement that the final determination is subject to judicial review under 5 U.S.C. 552(a)(4); and

§ 1206.608 Time extensions in unusual circumstances.
(a) In “unusual circumstances” as that term is defined in §1206.101(f), the time limits for an initial determination (see §1206.603 and §1206.604) and for a final determination (see §1206.607) may be extended, but not to exceed a total of 10 working days in the aggregate in the processing of any specific request for an Agency record.

(b) If an extension of time under this section would be required, the requester shall be promptly notified of the reasons therefor and the date when a determination will be sent.

(c) If a record described in a request cannot be located within the 20-working-day time limit for an initial determination, after consultation with a professional NASA employee who is familiar with the subject area of the request, that fact normally will justify an initial determination that the record requested cannot be identified or located, rather than a decision that an extension of time under this section would be appropriate.

(d) In exceptional circumstances, if it would be impossible to complete a search for or review of Agency records within the 20-working-day period for an initial determination, an official authorized to make an initial determination or the designee may seek an extension of time from the requester. If such an extension of time can be agreed upon, that fact should be clearly documented and the initial determination made within the extended time period; if not, an initial determination that the record cannot be identified or located, or reviewed, within the 20-working-day time limit shall be made under §1206.603. “Exceptional circumstances” do not include a delay that results from a predictable Agency workload of requests unless the Agency demonstrates reasonable progress in reducing its backlog of pending requests. Refusal by the requester to reasonably modify the scope of a request or arrange an alternative time frame for processing the request shall be considered as a factor in determining whether exceptional circumstances exist.

§ 1206.609 Litigation.
In any instance in which a requester brings suit concerning a request for an Agency record under this part, the matter shall promptly be referred to the General Counsel together with a report on the details and status of the request. In such a case, if a final determination with respect to the request has not been made, such a determination shall be made as soon as possible, under procedures prescribed by the General Counsel in each case.

§ 1206.610 Notice to submitters of commercial information.
(a) General policy. Upon receipt of a request for commercial information pursuant to the Freedom of Information Act, NASA shall provide the submitter with notice of the request in accordance with the requirements of this section.

(b) Notice to submitters. Except as provided in paragraph (g) or (h) of this section, the Agency shall make a good faith effort to provide a submitter with prompt notice of a request appearing to encompass its commercial information whenever required under paragraph (c) of this section. Notice shall be given to a submitter whenever the information has been designated by the submitter as information deemed

61
§ 1206.610

protected from disclosure under Exemption 4 of the Act, or the Agency otherwise has reason to believe that the information may be protected from disclosure under Exemption 4.

(d) Opportunity to object to disclosure. Through the notice described in paragraph (b) of this section, the Agency shall afford a submitter a reasonable period within which to provide the Agency with a detailed statement of any objection to disclosure. This period shall not exceed 10 working days from the date after which the Agency can reasonably assume receipt of notice by the submitter, unless the submitter provides a reasonable explanation justifying additional time to respond. If the Agency does not receive a response from the submitter within this period, the Agency shall proceed with its review of the information and initial determination. The submitter’s response shall include all bases, factual or legal, for withholding any of the information pursuant to Exemption 4. Information provided by a submitter pursuant to this paragraph may itself be subject to disclosure under the FOIA. Submitters will not be provided additional opportunities to object to disclosure, and, therefore, should provide a complete explanation of any and all bases for withholding any information from disclosure.

(e) Notice of intent to disclose. The Agency shall carefully consider any objections of the submitter in the course of determining whether to disclose commercial information. Whenever the Agency decides to disclose commercial information over the objection of a submitter, the Agency shall forward to the submitter a written statement which shall include the following:

(1) A brief explanation as to why the Agency did not agree with any objections;

(2) A description of the commercial information to be disclosed, sufficient to identify the information to the submitter; and

(3) A date after which disclosure is expected. Such notice of intent to disclose shall be forwarded to the submitter in a reasonable number of working days prior to the expected disclosure date.

(f) Notice of FOIA lawsuit. Whenever a requester brings suit seeking to compel disclosure of commercial information covered by paragraph (c) of this section, the Agency shall promptly notify the submitter. Whenever a submitter brings suit against the Agency in order to prevent disclosure of commercial information, the Agency shall promptly notify the requester.

(g) Exceptions to notice requirements. The notice requirements of this section do not apply if—

(1) The information has been published or otherwise made available to the public.

(2) Disclosure of the information is required by law (other than 5 U.S.C. 552);

(3) The submitter has received notice of a previous FOIA request which encompassed information requested in the later request, and the Agency intends to withhold and/or release information in the same manner as in the previous FOIA request;

(4) Upon submitting the information or within a reasonable period thereafter,

(i) The submitter reviewed its information in anticipation of future requests pursuant to the FOIA,

(ii) Provided the Agency a statement of its objections to disclosure consistent with that described in paragraph (e) of this section, and

(iii) The Agency intends to release information consistent with the submitter’s objections;

(5) Notice to the submitter may disclose information exempt from disclosure pursuant to 5 U.S.C. 552(b)(7).

(h)(1) An additional limited exception to the notice requirements of this section, to be used only when all of the following exceptional circumstances are found to be present, authorizes the Agency to withhold information which is the subject of a FOIA request, based on Exemption 4 (5 U.S.C. 552(b)(4)), without providing the submitter individual notice:

(i) The Agency would be required to provide notice to over 10 submitters, in which case, notification may be accomplished by posting or publishing the notice in a place reasonably calculated to accomplish notification.
(ii) Absent any response to the published notice, the Agency determines that if it provided notice as is otherwise required by paragraph (c) of this section, it is reasonable to assume that the submitter would object to disclosure of the information based on Exemption 4; and,

(iii) If the submitter expressed the anticipated objections, the Agency would uphold those objections.

(2) This exemption shall be used only with the approval of the Chief Counsel of the Center, the Attorney-Advisor to the Inspector General, or the Associate General Counsel responsible for providing advice on the request. This exception shall not be used for a class of documents or requests, but only as warranted by an individual FOIA request.

[64 FR 39404, July 22, 1999, as amended at 65 FR 19647, Apr. 12, 2000]

Subpart 7—Search, Review, and Duplication Fees

§ 1206.700 Schedule of fees.

The fees specified in this section shall be charged for searching for, reviewing, and/or duplicating Agency records made available in response to a request under this part.

(a) Copies. For copies of documents such as letters, memoranda, statements, reports, contracts, etc., $0.10 per copy of each page. For copies of oversize documents, such as maps, charts, etc., $0.15 for each reproduced copy per square foot. These charges for copies include the time spent in duplicating the documents. For copies of computer disks, still photographs, blueprints, videotapes, engineering drawings, hard copies of aperture cards, etc., the fee charged will reflect the full direct cost to NASA of reproducing or copying the record.

(b) Clerical searches. For each one-quarter hour spent by clerical personnel in searching for an Agency record in response to a request under this part, $3.75.

(c) Nonroutine, nonclerical searches. When a search cannot be performed by clerical personnel; for example, when the task of determining which records fall within a request and collecting them requires the time of professional or managerial personnel, and when the amount of time that must be expended in the search and collection of the requested records by such higher level personnel is substantial, charges for the search may be made at a rate in excess of the clerical rate, namely for each one-quarter hour spent by such higher level personnel in searching for a requested record, $7.50.

(d) Review of records. For commercial use requests only, when time is spent reviewing to determine whether they are exempt from mandatory disclosure, a charge may be made at the rate for each one-quarter hour spent by an attorney, $11.25. No charge shall be made for the time spent in resolving general legal or policy issues regarding the application of exemptions. This charge will only be assessed the first time NASA reviews a record and not at the administrative appeal level.

(e) Computerized records. Because of the diversity in the types and configurations of computers which may be required in responding to requests for Agency records maintained in whole or in part in computerized form, it is not feasible to establish a uniform schedule of fees for search and printout of such records. In most instances, records maintained in computer data banks are available also in printed form and the standard fees specified in paragraph (a) of this section shall apply. If the request for an Agency record required to be made available under this part requires a computerized search or printout, the charge for the time of personnel involved shall be at the rates specified in paragraphs (b) and (c) of this section. The charge for the computer time involved and for any special supplies or materials used shall not exceed the direct cost to NASA. This charge may be as high as $125.00 per quarter hour. Before any computer search or printout is undertaken in response to a request for an Agency record, the requester shall be notified of the applicable unit costs involved and the total estimated cost of the search and/or printout.

(f) Other search and duplication costs. Reasonable standard fees, other than as specified in paragraphs (a) through (e) of this section, may be
charged for additional direct costs incurred in searching for or duplicating an Agency record in response to a request under this part. Charges which may be made under this paragraph include, but are not limited to, the transportation of NASA personnel to places of record storage for search purposes or freight charges for transporting records to the personnel searching for or duplicating a requested record.

(g) Charges for special services. Complying with requests for special services such as those listed in (g)(1), (2), and (3) of this section is entirely at the discretion of NASA. Neither the FOIA nor its fee structure cover these kinds of services. To the extent that NASA elects to provide the following services, it will levy a charge equivalent to the full cost of the service provided:

(1) Certifying that records are true copies.

(2) Sending records by special methods such as express mail.

(3) Packaging and mailing bulky records that will not fit into the largest envelope carried in the supply inventory.

(h) Unsuccessful or unproductive searches. Search charges, as set forth in paragraphs (b) and (c) of this section, may be made even when an Agency record which has been requested cannot be identified or located after a diligent search and consultation with a professional NASA employee familiar with the subject area of the request, or if located, cannot be made available under Subpart 3 of this part. Ordinarily, however, fees will not be charged in such instances unless they are substantial (over $50.00) and the requester has consented to the search after having been advised that it cannot be determined in advance whether any records exist which can be made available (see §1201206.704) and that search fees will be charged even if no record can be located and made available.

(i) Fees not chargeable.

(1) NASA will not charge for the first 100 pages of duplication and the first 2 hours of search time either manual or electronic except to requesters seeking documents for commercial use.

(2) If the cost to be billed to the requester is equal to or less than $15.00, no charges will be billed.

(j) Records will be provided in a form or format specified by the requester if they are readily reproducible in such format with reasonable efforts. If the records are not readily reproducible in the requested form or format, the Agency will so inform the requester. The requester may specify an alternative form or format that is available. If the requester refuses to specify an alternative form or format, the Agency will not process the request further.

§ 1206.701 Categories of requesters.

There are four categories of FOIA requesters: Commercial use requesters; educational and noncommercial scientific institutions; representatives of the news media; and all other requesters. The Act prescribes specific levels of fees for each of these categories:

(a) Commercial use requesters. When NASA receives a request for documents appearing to be for commercial use, it will assess charges which recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Requesters must reasonably describe the records sought. Moreover, in the case of such a request, NASA will not consider a request for waiver or reduction of fees based upon an assertion that disclosure would be in the public interest. Commercial use requesters are not entitled to 2 hours of free search time or to 100 free pages of reproduction of documents.

(b) Education and noncommercial scientific institution requesters. NASA shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, requesters must show that the request being made is authorized by and under the auspices of a qualifying institution and that the records are not being sought for a commercial use, but are being sought in furtherance of scholarly (if the request is from an educational institution) or scientific (if the request is from a noncommercial scientific institution) research. Requesters must reasonably describe the records sought.
§ 1206.703 Requesters who are representatives of the news media. NASA shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, a requester must demonstrate that he/she meets the criteria in §1206.101(o) of this part, and his/her request must not be made for a commercial use. Requesters must reasonably describe the records sought.

(d) All other requesters. NASA shall charge requesters who do not fit into any of the categories mentioned in this section, fees which recover the full direct reasonable cost of searching for and reproducing records that are responsive to the request, except that the first 100 pages of reproduction and the first 2 hours of search time shall be furnished without charge. Moreover, requests from individuals for records about themselves located in NASA’s systems of records will continue to be processed under the fee provisions of the Privacy Act of 1974, which permits fees only for reproduction. Requesters must reasonably describe the records sought.

§ 1206.702 Waiver or reduction of fees.

The burden is always on the requester to provide the evidence to qualify him/her for a fee waiver or reduction.

(a) NASA shall furnish documents without charge or at reduced charges in accordance with 5 U.S.C. 552(a)(4)(A)(iii), provided that:

(1) Disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and

(2) It is not primarily in the commercial interest of the requester.

(b) Where these two statutory requirements are satisfied, based upon information supplied by the requester or otherwise made known to NASA, the FOIA fee shall be waived or reduced. Where one or both of these requirements is not satisfied, a fee waiver or reduction is not warranted under the statute.

(c) In determining whether disclosure is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government, the following considerations shall be applied:

(1) Whether the subject of the requested records concerns “the operations or activities of the government”;

(2) Whether the disclosure is “likely to contribute” to an understanding of government operations or activities;

(3) Whether disclosure of the requested information will contribute to “public understanding”; and

(4) Whether the disclosure is likely to contribute “significantly” to public understanding of government operations or activities.

(d) In determining whether disclosure of the information “is not primarily in the commercial interest of the requester,” the following consideration shall be applied:

(1) Whether the requester has a commercial interest that would be furthered by the requested disclosure; and if so,

(2) Whether the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the public interest in disclosure, that disclosure is “primarily in the commercial interest of the requester.”

§ 1206.703 Aggregation of requests.

A requester may not file multiple requests at the same time, each seeking portions of a document or documents, solely in order to avoid payment of fees. When NASA has reason to believe that a requester or a group of requesters acting in concert, is attempting to break a request down into a series of requests for the purpose of evading the assessment of fees, NASA will aggregate any such requests and charge accordingly. NASA will consider that multiple requests made within a 30-day period were so intended, unless there is evidence to the contrary. Where the relevant time period exceeds 30 days, NASA will not assume such a motive unless there is evidence to the contrary. In no case will NASA aggregate multiple requests on unrelated subjects from one requester.
§ 1206.704  Advance payments.

(a) NASA will not require a requester to make an advance payment, i.e., payment before work is commenced or continued on a request, unless:

(1) NASA estimates or determines that the allowable charges are likely to exceed $250. NASA will notify the requester of the likely cost and obtain satisfactory assurance of full payment where the requester has a history of prompt payment of FOIA fees, or require an advance payment of an amount up to the full estimated charges in the case of requesters with no history of payment; or

(2) A requester has previously failed to pay a fee in a timely fashion (within 30 days of billing), then NASA may require the requester to pay the full amount owed plus any applicable interest as provided below (see §1206.706(a)), or demonstrate that he/she has, in fact, paid the fee, and to make an advance payment of the full amount of the estimated fee before the Agency begins to process a new request or a pending request from that requester.

(b) When NASA acts under paragraphs (a)(1) and (2) of this section, the administrative time limits will begin only after NASA has received the fee payments described in paragraph (a) of this section.

§ 1206.705  Form of payment.

Payment shall be made by check or money order payable to the "National Aeronautics and Space Administration" and sent per instructions in the initial determination.

§ 1206.706  Nonpayment of fees.

(a) Interest to be charged. Requesters are advised that should they fail to pay the fees assessed, they may be charged interest on the amount billed starting on the 31st day following the day on which the billing was sent. Interest will be at the rate prescribed in section 3717 of Title 31 U.S.C.

(b) Applicability of Debt Collection Act of 1982 (Pub. L. 97-365). Requesters are advised that if full payment is not received within 60 days after the billing was sent, the procedures of the Debt Collection Act may be invoked (14 CFR 1261.407-1261.409). These procedures include three written demand letters at not more than 30-day intervals, disclosure to a consumer reporting agency, and the use of a collection agency, where appropriate.

Subpart 8—Failure to Release Records to the Public

§ 1206.800  Failure to release records to the public.

(a) Except to the extent that a person has actual and timely notice of the terms thereof, a person may not in any manner be required to resort to, or be adversely affected by, a matter required to be published in the Federal Register under §1206.200(a) and not so published.

(b) A final order, opinion, statement of policy, interpretation, or staff manual or instruction that affects a member of the public may be relied upon, used, or cited as precedent by NASA against any member of the public only if it has been indexed and either made available or published as provided by §1206.200(b) or if the member of the public has actual and timely notice of the terms thereof.

(c) Failure to make available an Agency record required to be made available under this part could provide the jurisdictional basis for a suit against NASA under 5 U.S.C. 552(a)(4)(B) through (G), which provides as follows:

(B) On complaint, the District Court of the United States in the district in which the complainant resides, or has his principal place of business, or in which the Agency records are situated, or in the District of Columbia, has jurisdiction to enjoin the Agency from withholding Agency records and to order the production of any Agency records improperly withheld from the complainant. In such a case the court shall determine whether such records or any part thereof shall be withheld under any of the exemptions set forth in subsection (b) of this section, and the burden is on the Agency to sustain its action.

(C) Notwithstanding any other provision of law, the defendant shall serve an answer or otherwise plead to any complaint made under this subsection within 30 days after service upon the defendant of the pleading in which such complaint is made, unless the court otherwise directs for good cause shown.

(a) Prohibition. Employees are prohibited by criminal statute, 18 U.S.C. 208(a), from participating personally and substantially in an official capacity in any particular matter in which, to their knowledge, they, or any person whose interests are imputed to them under the statute, have a financial interest, if the particular matter will have a direct and predictable effect on that interest.

(b) Specific waiver available. A NASA employee may request a waiver of this prohibition. NASA may grant a specific waiver of the prohibition only if the Agency determines that the employee’s financial interest is not so substantial as to be deemed likely to affect the integrity of the employee’s services. The waiver must be obtained before the employee participates in the matter.

(c) Officials authorized to make waiver determinations. (1) For the employees listed below, waivers must be approved by the Administrator or Deputy Administrator. No further delegation is authorized.

(a) Prohibition. Employees are prohibited by criminal statute, 18 U.S.C. 208(a), from participating personally and substantially in an official capacity in any particular matter in which, to their knowledge, they, or any person whose interests are imputed to them under the statute, have a financial interest, if the particular matter will have a direct and predictable effect on that interest.

(b) Specific waiver available. A NASA employee may request a waiver of this prohibition. NASA may grant a specific waiver of the prohibition only if the Agency determines that the employee’s financial interest is not so substantial as to be deemed likely to affect the integrity of the employee’s services. The waiver must be obtained before the employee participates in the matter.

(c) Officials authorized to make waiver determinations. (1) For the employees listed below, waivers must be approved by the Administrator or Deputy Administrator. No further delegation is authorized.

(a) Prohibition. Employees are prohibited by criminal statute, 18 U.S.C. 208(a), from participating personally and substantially in an official capacity in any particular matter in which, to their knowledge, they, or any person whose interests are imputed to them under the statute, have a financial interest, if the particular matter will have a direct and predictable effect on that interest.

(b) Specific waiver available. A NASA employee may request a waiver of this prohibition. NASA may grant a specific waiver of the prohibition only if the Agency determines that the employee’s financial interest is not so substantial as to be deemed likely to affect the integrity of the employee’s services. The waiver must be obtained before the employee participates in the matter.

(c) Officials authorized to make waiver determinations. (1) For the employees listed below, waivers must be approved by the Administrator or Deputy Administrator. No further delegation is authorized.

(a) Prohibition. Employees are prohibited by criminal statute, 18 U.S.C. 208(a), from participating personally and substantially in an official capacity in any particular matter in which, to their knowledge, they, or any person whose interests are imputed to them under the statute, have a financial interest, if the particular matter will have a direct and predictable effect on that interest.

(b) Specific waiver available. A NASA employee may request a waiver of this prohibition. NASA may grant a specific waiver of the prohibition only if the Agency determines that the employee’s financial interest is not so substantial as to be deemed likely to affect the integrity of the employee’s services. The waiver must be obtained before the employee participates in the matter.

(c) Officials authorized to make waiver determinations. (1) For the employees listed below, waivers must be approved by the Administrator or Deputy Administrator. No further delegation is authorized.
§ 1207.103

(i) Employees who are required by 5 CFR 2634.202 to file Public Financial Disclosure Reports;

(ii) Employees who are appointed under authority of section 203(c)(2) ("NASA Excepted Positions") or section 203(c)(10) ("Alien Scientists") of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2473(c)(2) and 2473(c)(10));

(iii) Astronauts and astronaut candidates;

(iv) Chief Counsel; and

(v) Procurement Officers.

(2) For all other Headquarters employees, the Associate Administrator for Headquarters Operations may approve waivers of 18 U.S.C. 208. This authority may not be redelegated.

(3) For all other Center employees, the Center Director or Deputy Center Director may approve waivers of 18 U.S.C. 208. This authority may not be redelegated.

(d) Procedures for specific waiver. The employee’s request for a waiver must be in writing. The request must describe the particular matter involved, the relevant duties of the employee, and the exact nature and amount of the disqualifying financial interest.

(1) Headquarters employees. (i) Those Headquarters employees described in paragraph (c)(1) of this section must submit their requests to the Official-in-Charge of the Headquarters office in which they are employed and to the General Counsel for concurrence. The Official-in-Charge will then submit the request to the Administrator with recommendations on the proposed waiver.

(ii) Other Headquarters employees must submit their requests to the Associate General Counsel (General) for concurrence and then to the Director of the Center where they are employed. The Center Director will provide the request, with recommendations, to the appropriate Enterprise Associate Administrator and to the General Counsel for review and submission to the Administrator.

(ii) Other Center employees must submit their requests to the Center Chief Counsel for concurrence, and then to their Center Director or Deputy Center Director for approval.

(3) Copies of approved waivers must be forwarded to the Associate Administrator for Human Resources and Education, the General Counsel, and the Office of Government Ethics.

(e) Cross-references. For regulations concerning general waiver guidance and exemptions under 18 U.S.C. 208, see 5 CFR part 2640.

[66 FR 59137, Nov. 27, 2001]

§ 1207.103 Designations of responsible officials.

(a) Designated Agency Ethics Official. The General Counsel of NASA is the Designated Agency Ethics Official and is delegated the authority to coordinate and manage NASA’s ethics program as set forth in 5 CFR 2638.203.

(b) Alternate Designated Agency Ethics Official. The Associate General Counsel (General) is the Alternate Designated Agency Ethics Official.

(c) Deputy Ethics Officials. The following officials are designated as Deputy Ethics Officials:

(1) The Deputy General Counsel;

(2) The Associate General Counsel (General);

(3) The Senior Ethics Attorney assigned to the Associate General Counsel (General); and

(4) The Chief Counsel at each NASA Center and Component Facility.

(d) Agency Designee. As used in 5 CFR part 2635, the term “Agency Designee” refers to the following:

(1) For employees at NASA Headquarters, or for matters affecting employees Agencywide, the Associate Deputy Administrator, the Designated Agency Ethics Official, the Alternate Designated Agency Ethics Official, or the Chief of Staff; and

(2) For Center employees, the Center Director, who may delegate specific responsibilities of the Agency Designee to the Center Chief Counsel or to another official who reports directly to the Center Director.

(e) Cross-references. For regulations on the appointment, responsibilities,
and authority of the Designated Agency Ethics Official, Alternate Designated Agency Ethics Official, and Deputy Ethics Officials, see 5 CFR part 2638. For the responsibilities of the Agency Designee, see 5 CFR part 2635.

(66 FR 59138, Nov. 27, 2001)

Subpart B—Post-Employment Regulations

§ 1207.201 Scope of subpart.

This subpart provides guidance to former NASA government employees who are subject to the restrictions of Title V of the Ethics of Government Act of 1978, as amended, and who want to communicate scientific or technical information to NASA.

§ 1207.202 Exemption for scientific and technological communications.

(a) Whenever a former government employee who is subject to the constraints of post-employment conflict of interest, 18 U.S.C. 207, wishes to communicate with NASA under the exemption in section 207(j)(5) for the making of a communication solely for the purpose of furnishing scientific or technological information, he or she shall state to the NASA employee contracted, the following information:

(1) That he or she is a former government employee subject to the post employment restrictions of 18 U.S.C. 207 (a), (c), or (d)—specify which;

(2) That he or she worked on certain NASA programs—enumerate which; and

(3) That the communication is solely for the purpose of furnishing scientific or technological information.

(b) If the former government employee has questions as to whether the communication comes within the scientific and technological exemption, he or she should contact the General Counsel, the designated agency ethics official.

§ 1209.300 Scope.

This subpart continues in effect the Contract Adjustment Board (hereinafter referred to as “the Board”) to consider and dispose of requests for extraordinary contractual adjustments by contractors of the National Aeronautics and Space Administration (hereinafter referred to as NASA).

§ 1209.301 Authority.

(a) The Act of August 28, 1958 (50 U.S.C. 1431–35) (hereinafter referred to as “the Act”), empowers the President to authorize departments and agencies exercising functions in connection with the national defense to enter into contracts or into amendments or modifications of contracts and to make advance payments, without regard to other provisions of law relating to the making, performance, amendment, or modification of contracts, whenever the President deems that such action would facilitate the national defense.

(b) Executive Order No. 10789, dated November 14, 1958 (23 FR 8897), authorizes the Administrator, NASA, to exercise the authority conferred by the Act and to prescribe regulations for the carrying out of such authority.

(c) Federal Acquisition Regulation (FAR), part 50, April 1, 1985, and NASA/FAR Supplement 84–2, part 18–50, October 19, 1984, establishes standards and procedures for the disposition of requests for extraordinary contractual adjustments by NASA contractors.

§ 1209.302 Establishment of Board.

The Board was established on May 15, 1961, and is continued in effect by NASA Management Instruction (NMI) 1152.5 and this regulation.

§ 1209.303 Functions of Board.

(a) The Board is authorized to act for and exercise the authority of the Administrator in cases involving requests by NASA contractors for extraordinary contractual adjustments under the Act. Such authority will be exercised in accordance with the standards and procedures established by the Administrator, subject to such limitations as the Administrator may prescribe.

(b) The Board shall have the power to approve, authorize or direct any action, including the modification or release of any obligations, and to make determinations and findings which are necessary or appropriate for the conduct of its functions, and may adopt such rules of procedure as it considers desirable.

(c) The concurring vote of a majority of the total Board membership shall constitute an action of the Board. Decisions of the Board shall be final but the Board may reconsider and modify, correct or reverse any Board decision previously made.

§ 1209.304 Membership.

The Board will consist of a chairperson and four other members, all of whom shall be appointed by the Administrator.

§ 1209.305 Legal advice and assistance.

The General Counsel of NASA shall provide the Board with all necessary advice and assistance.

Subpart 4—Inventions and Contributions Board

Authority: 42 U.S.C. 2457(f) and 2458.

Source: 51 FR 3945, Jan. 31, 1986, unless otherwise noted.

§ 1209.400 Scope.

This subpart describes the functions, authority, and membership of the NASA Inventions and Contributions Board (hereafter referred to as “the Board”).

§ 1209.401 Establishment.

Pursuant to the authority of the National Aeronautics and Space Act of 1958 as amended (42 U.S.C. 2457(f) and 2458) and the Government Employees Incentive Awards Act of 1954 (5 U.S.C. 4501–6), the Board was established on December 4, 1958, and is further continued in effect by this subpart 4.
§ 1209.402 Responsibilities.

(a) Waiver of rights in inventions. Under the authority of 42 U.S.C. 2457(i) and pursuant to 14 CFR part 1245 subpart 1 (NASA Management Instruction 5109.2), the Board will receive and evaluate petitions for waiver of rights of the United States to inventions, accord each interested party an opportunity for a hearing, and transmit to the Administrator its findings of fact as to such petitions and its recommendations for action to be taken with respect thereto.

(b) Patent licenses. Under the authority of 35 U.S.C. 207(b) and pursuant to 14 CFR part 1245 subpart 2 (NASA Management Instruction 5109.3), the Board will accord a licensee or applicant for license an opportunity for a hearing with respect to an appeal which raises a dispute over material facts and will be responsible for making findings of fact and forwarding them to the Administrator or designee.

(c) Monetary awards for scientific and technical contributions. (1) Under the authority of 42 U.S.C. 2458 and pursuant to 14 CFR part 1240, the Board will receive and evaluate each application for award for any scientific or technical contribution to the Administration which is determined to have significant value in the conduct of aeronautical and space activities, will accord each applicant an opportunity for a hearing upon such application, and will then transmit to the Administrator its recommendation as to the amount of the monetary award and terms of the award, if any, to be made for such contribution.

(2) If the contribution is made by a Government employee, the Board is also authorized to consider such contribution for award under the incentive awards program and to make an award, if any, on its own cognizance, up to the amount of $10,000 in accordance with NASA supplements to Chapter 451 of the Federal Personnel Manual covering this subject.

§ 1209.403 Organizational location.

The Board is established within the Office of Policy Coordination and International Relations.

[59 FR 35623, July 13, 1994]

§ 1209.404 Membership.

(a) The Board will consist of a full-time Chairperson and at least six members appointed by the Administrator from within NASA. One of the members will be designated by the Chairperson as Vice-Chairperson. The Chairperson is responsible directly to the Administrator.

(b) The Chairperson of the Board is appointed for an unlimited period. All other Board members normally will be appointed initially for a period of 3 years. The Chairperson is authorized to extend the initial appointment of any Board member for an additional period of service. If a member resigns or is otherwise unable to participate in the Board's activities, a replacement may be appointed for the remainder of the uncompleted term and, with the approval of the Chairperson, may be appointed for a full 3-year term upon the expiration of the original term. This procedure will provide the Board with a continual infusion of new members with a variety of professional backgrounds and interests. Duties performed by the members of the Board will be in addition to their regular duties.

(c) The Chairperson is authorized to:

(1) Assemble the Board as required to discharge the duties and responsibilities of the Board;

(2) Establish such panels as may be considered necessary to discharge the responsibilities and perform the functions of the Board; and

(3) Issue implementing rules and procedures, and take such other actions as are necessary to perform the Board's functions.

§ 1209.405 Supporting services.

(a) The staff of the Board is established to assist the Board in discharging its functions and responsibilities. The staff will:
(1) Prepare analyses of petitions for waiver of rights to inventions for the consideration of the Board;
(2) Prepare evaluation of proposed awards;
(3) Document Board actions; and
(4) Perform such other functions as may be required.

(b) A full-time director of the staff will serve as a nonvoting member of the Board, and will direct the activities of the staff of the Board.

(c) The director of the staff of the Board will report to the Chairperson of the Board.

PART 1210—DEVELOPMENT WORK FOR INDUSTRY IN NASA WIND TUNNELS

Sec.
1210.1 Introduction.
1210.2 General classes of work.
1210.3 Priorities and schedules.
1210.4 Company projects.
1210.5 Government projects.
1210.6 Test preparation and conduct.

AUTHORITY: 50 U.S.C. 511–515, 42 U.S.C. 2473(c)(5) and (6).

SOURCE: 51 FR 34083, Sept. 25, 1986, unless otherwise noted.

§ 1210.1 Introduction.

(a) Authority. The regulations, as they apply to the Unitary Wind Tunnel Plan facilities, are promulgated under authority of the Unitary Wind Tunnel Plan Act of 1949, as amended, codified at 50 U.S.C. 511–515. This statute states "The facilities authorized * * * shall be operated and staffed by the National Aeronautics and Space Administration but shall be available primarily industry for testing experimental models in connection with the development of aircraft and missiles. Such tests shall be scheduled and conducted in accordance with the requirements of each military service and due consideration of civilian needs."

(b) Unitary wind tunnel plan facilities. The unitary wind tunnel plan facilities are the Ames Research Center 11- by 11-foot wind tunnel, 9- by 7-foot wind tunnel, and 8- by 7-foot wind tunnel; the Langley Research Center 4- by 4-foot high Mach number test section and the 4- by 4-foot low Mach number test section; and the Lewis Research Center 10- by 10-foot wind tunnel. These wind tunnels are operated by NASA for industry, NASA, the Department of Defense, and other Government agency projects.

(c) National aeronautical facilities. The national aeronautical facilities include the National Transonic Facility (NTF) at Langley Research Center and the National Full-Scale Aerodynamic Complex, consisting of the 40- by 80-foot and the 80- by 120-foot wind tunnels and related support facilities at Ames Research Center. These facilities are operated by NASA for industry, NASA, the Department of Defense, and other Government agency projects.

(d) All other wind tunnels. All other NASA wind tunnels will be used primarily for NASA research. However, all of these wind tunnels may be used for industry work when it is in the public interest either in joint programs with NASA or on a fee basis.

(e) NASA policy. All the projects to be performed in any of the NASA wind tunnels must be appropriate to the facility.

§ 1210.2 General classes of work.

(a) Company projects. Includes work for industry on:
(1) Projects which are neither under contract nor supported by a letter of intent from a Government agency; and
(2) Company desired tests which are related to a project which is either under contract with or supported by a letter of intent from a Government agency, but are beyond the scope of the tests requested by the Government agency.

(3) A fee will be charged for company projects.

(b) Government projects. Includes work for industry on projects which are either under contract with or supported by a letter of intent from a Government agency. The work must be requested by the Government agency. No fee will be charged for Government projects.
§ 1210.4 Company projects.
(a) Initiation of company projects. Company projects will be initiated by a letter to the Center Director followed by a conference between company and NASA representatives at the center having responsibility for the facility proposed for the project. The company representatives will be required to explain the technical need for the project and why the NASA facility is required, as well as to define the extent of the test program, model and equipment requirements, and schedule. The center shall maintain a file of all company requests and their disposition. The company will be required to provide a Safety Analysis Report (SAR) describing potential hazards that the company test program, model, and equipment may present to NASA facilities and personnel, and other documentation required by the facility management to assure that safety requirements are met.

(b) Scheduling of tests. In scheduling time for company projects, the responsible NASA center will consider the merits of all projects, including government, company, and NASA research work relative to the national interest and priorities specified in §1210.3. Every reasonable attempt will be made to accommodate technically justifiable projects on as timely a basis as possible.

(c) Fees for company projects. The policy on charges for the use of NASA facilities is explained in NASA Management Instruction 9080.1, “Review, Approval, and Imposition of User Charges.” The fee imposed for a company project will cover all direct and indirect costs to NASA for the wind tunnel test.

(1) Occupancy time charge. (i) The occupancy time will be computed from the start of installation of the test article in the wind tunnel test section through the time that the test article is removed from the test section and the test section is restored to its original condition.

(ii) The occupancy time rate will be determined in accordance with NASA Management Instruction 9080.1.

(2) Energy/Fuel. The charge for energy/fuel will be determined from the energy/fuel consumed during the tests and the actual cost to NASA.

(3) Data reduction. The cost of data reduction and the data report will include labor, materials, computational costs, and appropriate indirect charges in accordance with NASA Management Instruction 9080.1.
§ 1210.5 Government projects.

(a) Initiation of Government projects. Government projects shall be initiated through a conference of representatives from the contracted company, the sponsoring Government agency, and the staff of the NASA center having responsibility for the facility proposed for the project. The purpose of the conference will be to establish the technical basis for the project and why the NASA facility is required as well as to define the extent of the test program, model and instrumentation requirements, and schedule. Upon concurrence of the NASA staff, the sponsoring Government agency will submit a letter of request to the Center Director. A Safety Analysis Report (SAR) will be required, describing the potential hazards that the project test program, model, and equipment may present to NASA facilities and personnel, as well as other documentation required by the facility management to assure that safety requirements have been met.

(b) Scheduling of tests. In scheduling time for Government projects, the responsible NASA center will consider the merits of all projects, including Government, company, and NASA research work relative to the national interest and priorities specified in

(e) Proprietary rights. In order to protect the trade secrets of companies, NASA will generate one set of final results, which will become the property of the company and be promptly transmitted to the company. If, subsequently, there is need to review the results, it will be the responsibility of the company to provide the NASA center with copies of the resulting data. Upon completion of the review, the data will be returned to the company. Should the company desire to maintain its trade secret rights in the data during the loan period, it should mark the data with a notice stating that the data shall not be used or disclosed other than for review purposes without prior written permission of the company. NASA, in turn, will protect that data covered by the notice which is protected under the law as a trade secret.

(f) Test data transmittal. The basic data for company projects will be transmitted to the requesting company without detailed analysis but with the necessary description of methods and techniques employed to permit proper interpretation of the data.

(d) Test data transmittal. The basic data for company projects will be transmitted to the requesting company without detailed analysis but with the necessary description of methods and techniques employed to permit proper interpretation of the data.

(4) Cancellation of scheduled wind tunnel time. Upon determination of a test schedule by the representatives of the company and of NASA, it becomes the responsibility of the company to meet this schedule. A project may be cancelled by the company without charge on 60 days' notice if succeeding projects are ready for testing and can be moved into the company's previously scheduled time. In the event subsequently scheduled work cannot be scheduled in lieu of the company's work, when cancelled with less than 60 days' notice, the company shall be required to pay the occupancy time charge for the scheduled test period or for the period the facility test section is idle due to the cancellation, whichever results in the smaller charge. Cancellation of a project underway before the end of the scheduled test period may be made by the company. In this event, the company shall be required to pay the occupancy charge for the time used plus the unused scheduled time or for the idle time of the test section, whichever is the smaller.

(5) High-power requirements. Unavailability of adequate power or economic considerations may, on occasion, cause delay or cancellation of high-powered test runs. The company shall cooperate with the facility staff in the scheduling of low-powered runs during periods when large blocks of power are unavailable. However, should rescheduling of test runs to accommodate power shortages be impractical, occupancy time charge credits will be made for time lost arising from such shortages. The basis for these credits, which will also be made for delays due to breakdown or malfunction of Government-furnished equipment or instrumentation, or due to other reasons beyond the control of the company, will be determined by each center. For example, the test period allotted for the program may be extended to offset delays in lieu of a refund.
§1210.3. Every reasonable attempt will be made to accommodate technically justifiable projects on a timely basis.

(c) Test data transmittal. The basic data for Government projects, without detailed analysis but with the necessary description of methods and techniques employed to permit the proper interpretation of the data, will be transmitted to the company for whom the tests were made and to the sponsoring Government agency. Further disclosure by NASA of the test results will be made only with the prior concurrence of the sponsoring Government agency.

§1210.6 Test preparation and conduct.

(a) Programming by user. The user will be given the greatest possible freedom within the objectives of the scheduled program to obtain the quality and quantity of information desired, to determine the sequence and number of test runs to be made, and to make modifications to the program arising from the results obtained, subject to requirements of safety, energy conservation, practicability, and the total time assigned.

(b) Model systems criteria. Information will be furnished for each facility on the permissible size of model, standard balances, safety margins to be used in the design of models, model mounting details, and other pertinent factors. All model systems criteria required by the facility for safety consideration including the necessary drawings and stress analyses of the articles to be tested will be furnished at a time specified by the facility staff for their use in preparing for the test.

(c) Instrumentation. Each facility will provide basic instrumentation suitable for the test range of the respective facility and computing equipment for the reduction of test data. If the basic instrumentation furnished by the facility does not meet these test requirements, the user will provide suitable instrumentation which will be calibrated by the facility staff to ensure accuracy of measurement. This instrumentation will be made available sufficiently in advance of the test date to accomplish the calibration. Serious delays arising from inaccuracies in user supplied instrumentation, if occurring during the scheduled test period, may result in re-assignment of the position of the tests on the facility schedule. Detailed specifications and arrangements for special instrumentation will be established by mutual agreement. The user will be required to furnish all information necessary to prepare the data reduction software program at a date specified by the facility staff.

(d) Test program. All tests will be conducted under NASA supervision and by NASA personnel or by NASA support service contractor personnel unless approved otherwise by the facility manager. The test program shall be approved by NASA personnel before the test project is accepted. By agreement between the user (company representatives or the requesting agency) and the center staff, changes in the test program may be made within the objectives of the scheduled program if time is available. When tests are not totally conducted by NASA personnel or by NASA support service contractor personnel, the NASA Field Installation Safety Officer shall verify that the user personnel are fully cognizant of facility safety problems and operations. A current SAR on the facility shall be available to the user personnel for review.

(e) Test data. The NASA staff will be responsible for obtaining all test data, its reduction to suitable coefficient form, and the accuracy of the final data, but NASA will assume no responsibility for the interpretation of the data by others. Transmittal of the data will be made as soon as the test is completed and the data are deemed releasable by NASA. For company projects, the data will be transmitted as directed by the company. The data for Government projects will be transmitted simultaneously to the sponsoring Government agency and the contractor (if applicable), unless otherwise directed by the sponsoring agency.

(f) Shops and office space. During the conduct of user testing, NASA will provide desk space and at least limited use of the shop facilities to the user whose projects are under test.

(g) User furnished personnel. User personnel associated with each project will be agreed upon between the user and facility staff prior to the test.
14 CFR Ch. V (1–1–02 Edition)

PART 1212—PRIVACY ACT—NASA REGULATIONS

Subpart 1212.1—Basic Policy

§ 1212.100 Scope and purpose.

This part 1212 implements the Privacy Act of 1974, as amended (5 U.S.C. 552a). It establishes procedures for individuals to access their Privacy Act records and to request amendment of information in records concerning them. It also provides procedures for administrative appeals and other remedies. This part applies to systems of records located at or under the cognizance of NASA Headquarters, NASA Field Installations, and NASA Component Installations, as defined in part 1201 of this chapter.

§ 1212.101 Definitions.

For the purposes of this part, the following definitions shall apply in addition to definitions contained in the Privacy Act of 1974, as amended (5 U.S.C. 552a):

(a) The term individual means a living person who is either a citizen of the United States or an alien lawfully admitted for permanent residence.

(b) The term maintain includes maintain, collect, use or disseminate.

(c) The term record means any item, collection, or grouping of information about an individual including, but not limited to, education, financial transactions, medical history, and criminal or employment history, and that contains a name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph.
(d) The term system of records means a group of any records from which information is retrieved by the name of the individual or by some identifying number, symbol or other identifying particular assigned to the individual.

(e) The term system manager means the NASA official who is responsible for a system of records as designated in the system notice of that system of records published in the Federal Register. When a system of records includes portions located at more than one NASA Installation, the term system manager includes any subsystem manager designated in the system notice as being responsible for that portion of the system of records located at the respective Installation.

(f) The term systems notice means, with respect to a system of records the publication of information in the Federal Register upon establishment or revision of the existence and character of the system of records. The notice shall include that information as required by 5 U.S.C. 552a(e)(4).

(g) The term routine use means, with respect to the disclosure of a record, the use of the record for a purpose which is compatible with the purpose for which it was collected.

(h) The term NASA employee or NASA official, particularly for the purpose of §1212.203(g) related to the disclosure of a record to those who have a need for the record in the performance of their official duties, includes employees of a NASA contractor which operates or maintains a NASA system of records for or on behalf of NASA.

(i) The term NASA information center refers to information centers established to facilitate public access to NASA records under part 1206 of this chapter. See §1206.401 of this chapter for the address of each NASA information center.

Subpart 1212.2—Access to Records

§1212.200 Determining existence of records subject to the Privacy Act.

The procedures outlined in this subpart 1212.2 apply to the following types of requests under the Privacy Act made by individuals concerning records about themselves:

(a) To determine if information on the requester is included in a system of records;

(b) For access to a record; and

(c) For an accounting of disclosures of the individual’s Privacy Act records.

§1212.201 Requesting a record.

(a) Individuals may request access to their Privacy Act records, either in person or in writing.

(b) Individuals may also authorize a third party to have access to their Privacy Act records. This authorization shall be in writing, signed by the individual and contain the individual’s address as well as the name and address of the representative being authorized access. The identities of both the subject individual and the representative must be verified in accordance with the procedures set forth in §1212.202 of this part.

(c)(1) Requests must be directed to the appropriate system manager, or, if unknown, to the NASA Headquarters or Field Installation Information Center. The request should be identified clearly on the envelope and on the letter as a “Request Under the Privacy Act.”

(2) Where possible, requests should contain the following information to ensure timely processing:

(i) Name and address of subject.

(ii) Identity of the system of records.

(iii) Nature of the request.

(iv) Identifying information specified in the applicable system notice to assist in identifying the request, such as location of the record, if known, full name, birth date, etc.

(d) NASA has no obligation to comply with a nonspecific request for access to information concerning an individual, e.g., a request to provide copies of “all information contained in your files concerning me,” although a good faith effort will be made to locate records if there is reason to believe NASA has records on the individual. If the request is so incomplete or incomprehensible that the requested record cannot be identified, additional information or clarification will be requested in the acknowledgement, and assistance to the individual will be offered as appropriate.
§ 1212.202 Identification procedures.

(a) The system manager will release records to the requester or representative in person only upon production of satisfactory identification which includes the individual’s name, signature, and photograph or physical description.

(b) The system manager will release copies of records by mail only when the circumstances indicate that the requester and the subject of the record are the same. The system manager may require that the requester’s signature be notarized or witnessed by two individuals unrelated to the requester.

(c) Identity procedures more stringent than those required in this section may be prescribed in the system notice when the records are medical or otherwise sensitive.

§ 1212.203 Disclosures.

(a) The system manager shall keep a disclosure accounting for each disclosure to a third party of a record from a system of records. This includes records disclosed pursuant to computer matching programs (See NASA Management Instruction (NMI) 1382.18).

(b) Disclosure accountings are not required but are recommended for disclosures made:

(1) With the subject individual’s consent; or

(2) In accordance with § 1212.203(g) (1) and (2), below.

(c) The disclosure accounting required by paragraph (a) of this section shall include:

(1) The date, nature, and purpose of the disclosure; and

(2) The name and address of the recipient person or Agency.

(d) The disclosure accounting shall be retained for at least 5 years after the disclosure or for the life of the record, whichever is longer.

(e) The disclosure accounting maintained under the requirements of this section is not itself a system of records.

(f) Records in a NASA system of records may not be disclosed to third parties without the consent of the subject individual. However, in consonance with 5 U.S.C. 552(b), disclosure may be authorized without consent, if disclosure would be:

(1) To an officer or employee of NASA who has a need for the record in the performance of official duties;

(2) Required under the Freedom of Information Act (5 U.S.C. 552) and part 1206 of this chapter;
(3) For a routine use described in the system notice for the system of records;

(4) To the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of Title 13, U.S. Code;

(5) To a recipient who has provided NASA with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

(6) To the National Archives and Records Administration as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government or for evaluation by the Archivist of the United States or the Archivist's designee to determine whether the record has such value;

(7) To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity, if the activity is authorized by law and if the head of the agency or instrumentality has made a written request to NASA specifying the particular portion desired and the law enforcement activity for which the record is sought;

(8) To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(9) To either House of Congress or, to the extent the matter is within its jurisdiction, any committee or subcommittee, or any joint committee of Congress or subcommittee of any such joint committee;

(10) To the Comptroller General, or any of the Comptroller’s authorized representative(s), in the course of the performance of the duties of the General Accounting Office;

(11) Pursuant to the order of a court of competent jurisdiction; or

(12) To a consumer reporting agency in accordance with section 3711(f) of Title 31.

§ 1212.204 Fees.

(a) Fees will not be charged for:

(1) Search for a retrieval of the requesting individual’s records;

(2) Review of the records;

(3) Making a copy of a record when it is a necessary part of the process of making the record available for review;

(4) Transportation of the record(s);

(5) Making a copy of an amended record to provide evidence of the amendment; or

(6) Copies of records if this is determined to be in the best interest of the Government.

(b) Fees for the duplication of records will be assessed in accordance with §1206.700(a) of this chapter.

(c) Where it appears that duplication fees chargeable under this section will exceed $25, the requester shall be provided an estimate of the fees before copies are made. Where possible, the requester will be afforded the opportunity to confer with Agency personnel in a manner which will reduce the fees, yet still meet the needs of the requester.

(d) Where the anticipated fee chargeable under this section exceeds $25, an advance deposit of part or all of the anticipated fee may be required.

§ 1212.205 Exceptions to individual’s rights of access.

(a) The NASA Administrator has determined that the systems of records set forth in §1212.501 are exempt from disclosure to the extent provided therein.

(b) Medical records. Normally, an individual’s medical record shall be disclosed to the individual, unless the system manages, in consultation with a medical doctor, determines that access to the record could have an adverse effect upon the individual. In this case, NASA shall allow access to the record by a medical doctor designated in writing by the requesting individual.

(c) Test and qualification materials. Testing or examination material used solely to determine individual qualifications for appointment or promotion in the Federal service the disclosure of
§ 1212.300 Requesting amendment.

Individuals may request that NASA amend their records maintained in a NASA system of records. This request shall be in writing, addressed to the appropriate system manager, and shall contain the following:

(a) A notation on the envelope and on the letter that it is a “Request for Amendment of Individual Record under the Privacy Act;”

(b) The name of the system of records;

(c) Any information necessary to retrieve the record, as specified in the system notice for the system of records (See §1212.201(c)(2));

(d) A description of that information in the record which is alleged to be inaccurate, irrelevant, or untimely; and,

(e) Any documentary evidence or material available to support the request.

§ 1212.301 Processing the request to amend.

(a) Within 10 work days of receipt by NASA of a request to amend a record, the system manager shall provide the requester with a written determination or acknowledgment advising when action may be taken.

(b) When necessary, NASA may utilize up to 30 work days after receipt to provide the determination on a request to amend a record.

(c) If the request for amendment is denied, the determination shall explain the reasons for the denial and inform the requester of the procedures to follow for appeal (See §1212.4).

§ 1212.302 Granting the request to amend.

NASA shall make the requested amendment clearly on the record itself and all information deemed to be inaccurate, irrelevant, or untimely shall be deleted and destroyed. Incomplete information shall either be amended or deleted and destroyed. The individual shall then be informed in writing that the amendment has been made. If the inaccurate, irrelevant, untimely, or incomplete portion of the record has previously been disclosed, then the system manager shall notify those persons or agencies of the amended information, referencing the prior disclosures (See §1212.402).

Subpart 1212.4—Appeals and Related Matters

§ 1212.400 Appeals.

(a) Individuals may appeal to the Assistant Deputy Administrator when they:

(1) Have requested amendment of a record and have received an adverse initial determination;

(2) Have been denied access to a record; or,

(3) Have not been granted access within 30 work days of their request.

(b) An appeal shall:

(1) Be in writing and addressed to the Assistant Deputy Administrator, NASA, Washington, DC 20546;

(2) Be identified clearly on the envelope and in the letter as an “Appeal under the Privacy Act;”

(3) Include a copy of any pertinent documents; and

(4) State the reasons for the appeal.

(c) Appeals from adverse initial determinations or denials of access must be submitted within 30 work days of the date of the requester’s receipt of the initial determination. Appeals involving failure to grant access may be submitted any time after the 30 work day period has expired (See §1212.201(f)).

(d) A final determination on an appeal shall be made within 30 work days after its receipt by the Assistant Deputy Administrator, unless, for good
cause shown, the Assistant Deputy Administrator extends such 30 work day period. Prior to the expiration of the 30 work day period, the requester shall be notified of any such extension.  
(e) If a denial of a request to amend a record is upheld, the final determination shall:
(1) Explain the basis for the detail;
(2) Include information as to how the requester goes about filing a statement of dispute under the procedures of §1212.401; and,
(3) Include a statement that the final determination is subject to judicial review under 5 U.S.C. 552a(g).

§ 1212.401 Filing statements of dispute.
(a) A statement of dispute shall:
(1) Be in writing;
(2) Set forth reasons for the individual’s disagreement with NASA’s refusal to amend the record;
(3) Be concise;
(4) Be addressed to the system manager; and,
(5) Be identified on the envelope and in the letter as a “Statement of Dispute under the Privacy Act.”
(b) The system manager shall prepare an addendum to the statement explaining the basis for NASA’s refusal to amend the disputed record. A copy of the addendum shall be provided to the individual.
(c) The system manager shall ensure that the statement of dispute and addendum are either filed with the disputed record or that a notation appears in the record clearly referencing the statement of dispute and addendum so that they may be readily retrieved.

§ 1212.402 Disclosure to third parties of disputed records.
(a) The system manager shall promptly provide persons or agencies to whom the disputed portion of a record was previously disclosed and for which an accounting of the disclosure exists under the requirements of §1212.206 of this part, with a copy of the statement of dispute and addendum, along with a statement referencing the prior disclosure. The subject individual shall be notified as to those individuals or agencies which are provided with the statement of dispute and addendum.
(b) Any subsequent disclosure of a disputed record shall clearly note the portion of the record which is disputed and shall be accompanied by a copy of the statement of dispute and addendum.

Subpart 1212.5—Exemptions to Individuals’ Rights of Access

§ 1212.500 Exemptions under 5 U.S.C. 552a (j) and (k).
(a) These provisions authorize the Administrator of NASA to exempt certain NASA Privacy Act systems of records from portions of the requirements of this regulation.
(b) The Administrator has delegated this authority to the Assistant Deputy Administrator (See §1212.701).
(c) For those NASA systems of records that are determined to be exempt, the system notice shall describe the exemption and the reasons.

§ 1212.501 Record systems determined to be exempt.
The Administrator has determined that the following systems of records are exempt to the extent provided hereinafter.
(a) Inspector General Investigations Case Files—(1) Sections of the Act from which exempted. (i) The Inspector General Investigations Case Files system of records is exempt from all sections of the Privacy Act (5 U.S.C. 552a) except the following: (b) relating to conditions of disclosure; (c) (1) and (2) relating to keeping and maintaining a disclosure accounting; (e)(4) (A) through (F) relating to publishing a system notice setting forth name, location, categories of individuals and records, routine uses, and policies regarding storage, retrievability, access controls, retention and disposal of the records; (e) (6), (7), (9), (10), and (11) relating to dissemination and maintenance of records, and (i) relating to criminal penalties. This exemption applies to those records and information contained in the system of records pertaining to the enforcement of criminal laws.
(ii) To the extent that there may exist noncriminal investigative files within this system of records, the Inspector General Investigations Case

81
§ 1212.501

Files system of records is exempt from the following sections of the Privacy Act (5 U.S.C. 552a): (c)(3) relating to access to the disclosure accounting, (d) relating to access to records, (e)(1) relating to the type of information maintained in the records; (e)(4)(G), (H), and (I) relating to publishing the system notice information as to agency procedures for access and amendment and information as to the categories of sources or records, and (f) relating to developing agency rules for gaining access and making corrections.

(2) Reason for exemptions. (i) The Office of Inspector General is an office of NASA, a component of which performs as its principal function activity pertaining to the enforcement of criminal laws, within the meaning of 5 U.S.C. 552a(j)(2). This exemption applies only to those records and information contained in the system of records pertaining to criminal investigations. This system of records is exempt for one or more of the following reasons:

(A) To prevent interference with law enforcement proceedings.
(B) To avoid unwarranted invasion of personal privacy, by disclosure of information about third parties, including other subjects of investigation, investigators, and witnesses.
(C) To protect the identity of Federal employees who furnish a complaint or information to the OIG, consistent with section 7(b) of the Inspector General Act of 1978, as amended, 5 U.S.C. App.
(D) To protect the confidentiality of non-Federal employee sources of information.
(E) To assure access to sources of confidential information, including that contained in Federal, State, and local criminal law enforcement information systems.
(F) To prevent disclosure of law enforcement techniques and procedures.
(G) To avoid endangering the life or physical safety of confidential sources and law enforcement personnel.

(ii) Investigative records within this system of records which are compiled for law enforcement purposes, other than material within the scope of subsection (j)(2), are exempt under the provisions of 5 U.S.C. 552a(k)(2); Provided, however, That if any individual is denied any right, privilege, or benefit that they would otherwise be entitled by Federal law, or for which they would otherwise be eligible, as a result of the maintenance of such material, such material shall be provided to such individual, except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to January 1, 1975, under an implied promise that the identity of the sources would be held in confidence. This system of records is exempt for one or more of the following reasons:

(A) To prevent interference with law enforcement proceedings.
(B) To protect investigatory material compiled for law enforcement purposes.
(C) To avoid unwarranted invasion of personal privacy, by disclosure of information about third parties, including other subjects of investigation, law enforcement personnel, and sources of information.
(D) To fulfill commitments made to protect the confidentiality of sources.
(E) To protect the identity of Federal employees who furnish a complaint or information to the OIG, consistent with section 7(b) of the Inspector General Act of 1978, as amended, 5 U.S.C. App.
(F) To assure access to sources of confidential information, including that contained in Federal, State, and local criminal law enforcement information systems.
(G) To prevent disclosure of law enforcement techniques and procedures.
(H) To avoid endangering the life or physical safety of confidential sources and law enforcement personnel.

(iii) Records within this system of records comprised of investigatory material compiled solely for the purpose of determining suitability or eligibility for Federal civilian employment or access to classified information, are exempt under the provisions of 5 U.S.C. 552a(k)(5), but only to the extent that disclosure would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or prior to
January 1, 1975, under an implied promise that the identity of the source would be held in confidence. This system of records is exempt for one or more of the following reasons:

(A) To fulfill commitments made to protect the confidentiality of sources.

(B) To assure access to sources of confidential information, including that contained in Federal, State, and local criminal law enforcement information systems.

(b) Security Records System—(1) Sections of the Act from which exempted. The Security Records System is exempt from the following sections of the Privacy Act (5 U.S.C. 552a): (c)(3) relating to access to the disclosure accounting; (d) relating to access to the records; (e)(1) relating to the type of information maintained in the records; (e)(4) (G), (H), and (I) relating to publishing the system notice information as to agency procedures for access and amendment, and information as to the categories of sources of records; and (f) relating to developing Agency rules for gaining access and making corrections.

(2) Reason for exemption. (i) Personnel Security Records contained in the system of records which are compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, Federal contracts, or access to classified information under the provisions of 5 U.S.C. 552a(k)(3), but only to the extent that the disclosure of such material would reveal the identity of the source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to January 1, 1975, under an implied promise that the identity of the sources would be held in confidence. This system of records is exempt for one or more of the following reasons:

(A) To prevent interference with law enforcement proceedings.

(B) To protect investigatory material compiled for law enforcement purposes.

(C) To avoid unwarranted invasion of personal privacy, by disclosure of information about third parties, including other subjects of investigation, law enforcement personnel, and sources of information.

(D) To fulfill commitments made to protect the confidentiality of sources.

(E) To assure access to sources of confidential information, including that contained in Federal, State, and local criminal law enforcement information systems.

(F) To prevent disclosure of law enforcement techniques and procedures.

(G) To avoid endangering the life or physical safety of confidential sources and law enforcement personnel.

(ii) Criminal Matter Records are contained in the system of records and are exempt under the provisions of 5 U.S.C. 552a(k)(2): Provided, however, That if any individual is denied any right, privilege, or benefit that they would otherwise be entitled by Federal law, or for which they would otherwise be eligible, as a result of the maintenance of such material, such material shall be provided to such individual, except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to January 1, 1975, under an implied promise that the identity of the sources would be held in confidence. This system of records is exempt for one or more of the following reasons:

(A) To prevent interference with law enforcement proceedings.

(B) To protect investigatory material compiled for law enforcement purposes.

(C) To avoid unwarranted invasion of personal privacy, by disclosure of information about third parties, including other subjects of investigation, law enforcement personnel, and sources of information.

(D) To fulfill commitments made to protect the confidentiality of sources.

(E) To assure access to sources of confidential information, including that contained in Federal, State, and local criminal law enforcement information systems.

(F) To prevent disclosure of law enforcement techniques and procedures.

(G) To avoid endangering the life or physical safety of confidential sources and law enforcement personnel.

(iii) The system of records includes records subject to the provisions of 5 U.S.C. 552(b)(1) (required by Executive order to be kept secret in the interest of national defense or foreign policy), and such records are exempt under 5 U.S.C. 552a(k)(1).

Subpart 1212.6—Instructions for NASA Employees

§ 1212.600 General policy.

In compliance with the Privacy Act and in accordance with the requirements and procedures of this regulation, NASA has an obligation to:
§ 1212.601 Maintenance and publication requirements for systems of records.

(a) In maintaining systems of records, NASA shall:

(1) Maintain any record in a system of records for necessary and lawful purposes only, assure that the information is current and accurate for its intended use, and provide adequate safeguards to prevent misuse of the information.

(2) Maintain only information about an individual relevant and necessary to accomplish a purpose or to carry out a function of NASA authorized by law or by Executive order of the President.

(3) Maintain records used by NASA officials in making any determination about any individual with such accuracy, relevance, timeliness, and completeness reasonably necessary to assure fairness to the individual in making the determination.

(4) Maintain no record describing how an individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute, by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity.

(5) Maintain and provide access to records of other agencies under NASA’s control consistent with the regulations of this part.

(b) Any system of records maintained by NASA which is in addition to or substantially different from a Governmentwide system of records described in a systems notice published by another agency shall be regarded as a NASA system of records subject to the requirements of this part, and the NASA system notice shall include a reference to the system notice of the other agency.

(c) NASA shall provide adequate advance notice to Congress and OMB of any proposal to establish a new system of records or alter any existing system of records as prescribed by OMB Circular No. A–130, appendix I.

§ 1212.602 Requirements for collecting information.

In collecting information for systems of records, the following requirements shall be met:

(a) Information shall be collected to the greatest extent practicable directly from the subject individual when the information may result in adverse determinations about an individual’s rights, benefits, and privileges under Federal programs. Exceptions to this policy may be made under certain circumstances, such as the following:

(1) There is a need to verify the accuracy of the information supplied by an individual.

(2) The information can only be obtained from a third party.

(3) There is no risk that information collected from third parties, if inaccurate, could result in an adverse determination to the individual concerned.

(4) Provisions are made to verify with the individual information collected from a third party.

(b) Each individual who is asked to supply information shall be informed of the following:

(1) The authority (whether granted by statute, or by Executive order of the President) for requesting the information;

(2) Whether disclosure is mandatory or voluntary;

(3) The intended official use of the information;

(4) The routine uses which may be made of the information, as published in the system notices;

(5) The effects, if any, of not providing all or any part of the requested information.

§ 1212.603 Mailing lists.

NASA will not sell, rent, or otherwise disclose an individual’s name and
§ 1212.604 Social security numbers.

(a) It is unlawful for NASA to deny to individuals any rights, benefits, or privileges provided by law because of the individuals’ refusal to disclose their social security numbers, except where:

(1) The disclosure is required by law; or

(2) The disclosure is from a system of records in existence and operating before January 1, 1975, and was required under statute or regulation adopted before that date to verify the identity of the individual(s).

(b) Any time individuals are requested to disclose their social security numbers, NASA shall indicate whether that disclosure is mandatory or voluntary, by what authority the numbers are requested, and what uses will be made of them.

§ 1212.605 Safeguarding information in systems of records.

(a) Safeguards appropriate for a NASA system of records shall be developed by the system manager in a written plan approved by the Installation Security Officer.

(b) When records or copies of records are distributed within NASA they shall be prominently identified as records protected under the Privacy Act and shall be subject to the same safeguard, retention, and disposition requirements applicable to the system of records.

(c) When records or copies of records are distributed to other Federal agencies, other than those having custody of the systems of records, they shall be prominently identified as records protected under the Privacy Act.

(d) Records that are otherwise required by law to be released to the public need not be safeguarded or identified as Privacy Act records.

§ 1212.606 Duplicate copies of records or portions of records.

(a) NASA officials may maintain and use, for official purposes, duplicate copies of records or portions of records from a system of records maintained by their own organizational unit. This practice should occur only where there are justifiable organizational needs for it, e.g., where geographic distances make use of the system of records time consuming or inconvenient. These duplicate copies shall not be considered a separate NASA system of records. For example, an office head or designee may keep duplicate copies of personnel, training, or similar records on employees within the organization for administrative convenience purposes.

(b) No disclosure shall be made from duplicate copies outside of the organizational unit. Any outside request for disclosure shall be referred to the appropriate system manager for response.

(c) Duplicate copies are subject to the same safeguard requirements applicable to the system of records.

Subpart 1212.7—NASA Authority and Responsibilities

§ 1212.700 NASA employees.

(a) Each NASA employee is responsible for adhering to the requirements of the Privacy Act and this regulation.

(b) An employee shall not seek or obtain access to a record in a NASA system of records or to copies of any portion of such records under false pretenses. Only those employees with an official “need to know” may seek and obtain access to records pertaining to others.

(c) Employees shall refrain from discussing or disclosing personal information about others which they have obtained because of their official need to know such information in the performance of official duties.

(d) To the extent included in a contract which provides for the maintenance by or on behalf of NASA of a system of records to accomplish a function of NASA, the requirements of this section shall apply to contractor employees who work under the contract.

§ 1212.701 Assistant Deputy Administrator.

The Assistant Deputy Administrator is responsible for:

(a) Making final Agency determinations on appeals (§1212.400);

(b) Authorizing exemptions from one or more provisions of the Privacy Act.
§ 1212.702

for NASA systems of records (See §1212.500); and,
(c) Authorizing an extension for making a final determination on an appeal (§1212.400(d)).

§ 1212.702 Associate Administrator for Management Systems and Facilities.

(a) The Associate Administrator for Management Systems and Facilities is responsible for the following:

(1) Providing overall supervision and coordination of NASA’s policies and procedures under this regulation;
(2) Approving system notices for publication in the FEDERAL REGISTER;
(3) Assuring that NASA employees and officials are informed of their responsibilities and that they receive appropriate training for the implementation of these requirements; and,
(4) Preparing and submitting the biennial report on implementation of the Privacy Act to OMB and special reports required under this regulation, including establishing appropriate reporting procedures in accordance with OMB Circular No. A–130.

(b) The Associate Administrator for Management Systems and Facilities may establish a position of ‘NASA Privacy Officer,’ or designate someone to function as such an officer, reporting directly to the Associate Administrator for Management Systems and Facilities, and delegate to that officer any of the functions described in paragraph (a) of this section.

§ 1212.703 Headquarters and Field or Component Installations.

(a) Officials-in-Charge of Headquarters Offices, Directors of NASA Field Installations and Officials-in-Charge of Component Installations are responsible for the following with respect to those systems of records maintained in their organization:

(1) Avoiding the establishment of new systems of records or new routine uses of a system of records without first complying with the requirements of this regulation;
(2) Ensuring that the requirements of this regulation and the Privacy Act are followed by employees;
(3) Ensuring that there is appropriate coordination within NASA before a determination is made to disclose information without the individual’s consent under authority of 5 U.S.C. 552a(b) (See §1212.203(g)); and
(4) Providing appropriate oversight for responsibilities and authorities exercised by system managers under their jurisdiction (§1212.704).

(b) Directors of NASA Field Installations and Officials-in-Charge of Component Installations or designees may establish a position of installation Privacy Officer to assist in carrying out the responsibilities listed in paragraph (a) of this section.

§ 1212.704 System manager.

(a) Each system manager is responsible for the following with regard to the system of records over which the system manager has cognizance:

(1) Overall compliance with the ‘‘Privacy Act—NASA Regulations’’ (NASA Management Instruction (NMI) 1382.17) and the Computer Matching Program (NMI 1382.18);
(2) Ensuring that each person involved in the design, development, operation, or maintenance of the system of records is instructed with respect to the requirements of this regulation and the possible penalties for noncompliance;
(3) Submitting a request to the Assistant Deputy Administrator for an exemption of the system under subpart 1212.5 of this part, setting forth in proposed rulemaking form the reasons for the exemption and citing the specific provision of the Privacy Act which is believed to authorize the exemption;
(4) After consultation with the Office of the General Counsel or the Chief Counsel, making reasonable efforts to serve notice on an individual when any record on such individual is made available to any person under compulsory legal process when such process becomes a matter of public record;
(5) Making an initial determination on an individual’s request to correct or amend a record, in accordance with §1212.302;
(6) Prior to disclosure of any record about an individual, assuring that the record is first reviewed for accuracy, completeness, timeliness, and relevance;
§ 1212.801 Assistant Administrator for Procurement.

The Assistant Administrator for Procurement is responsible for developing appropriate procurement regulations and procedures under which NASA contracts requiring the maintenance of a system of records in order to accomplish a NASA function are made subject to the requirements of this part.

§ 1212.706 Delegation of authority.

Authority necessary to carry out the responsibilities specified in this regulation is delegated to the officials named, subject to any conditions or limitations imposed in accordance with this subpart 1212.7.

Subpart 1212.8—Failure to Comply With Requirements of This Part

§ 1212.800 Civil remedies.

Failure to comply with the requirements of the Privacy Act and this part could subject NASA to civil suit under the provisions of 5 U.S.C. 552a(g).

§ 1212.801 Criminal penalties.

(a) A NASA officer or employee may be subject to criminal penalties under the provisions of 5 U.S.C. 552a(i) (1) and (2).

(1) Section 552a(i)(1). Any officer or employee of an agency, who by virtue of employment or official position, has possession of, or access to, agency records which contain individually identifiable information the disclosure of which is prohibited by this section or by rules or regulations established thereunder, and who knowing that disclosure of the specific material is so prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than $5,000.

(2) Section 552a(i)(2). Any officer or employee of any agency who willfully maintains a system of records without meeting the notice requirements of subsection (e)(4) of this section shall be guilty of a misdemeanor and fined not more than $5,000.

(b) Where a system of records has subsystems described in the system notice, the subsystem manager will have the responsibilities outlined in paragraph (a) of this section. Although the system manager has no line authority over subsystem managers, the system manager does have overall functional responsibility for the total system, and may issue guidance to subsystem managers on implementation of this part. When furnishing information for required reports, the system manager will be responsible for reporting the entire system of records, including any subsystems.

(c) Exercise of the responsibilities and authorities in paragraph (a) of this section by any system or subsystem managers at a NASA Installation shall be subject to any conditions or limitations imposed in accordance with § 1212.703 (a)(4) and (b).
as those employees of a NASA contractor with responsibilities for maintaining a Privacy Act system of records.

(b) Section 552a(1)(3). Any person who knowingly and willfully requests or obtains any record concerning an individual from an agency under false pretenses shall be guilty of a misdemeanor and fined not more than $5,000.

PART 1213—RELEASE OF INFORMATION TO NEWS AND INFORMATION MEDIA

Sec.
1213.100 Scope.
1213.101 Policy.
1213.102 Responsibility.
1213.103 Procedures for issuance of news releases.
1213.104 Procedures for news release coordination and concurrence.
1213.105 Interviews.
1213.106 Audiovisual material.
1213.107 International news releases.

AUTHORITY: 42 U.S.C. 2473(a)(3) and NSDD–84, "Safeguarding National Security Information."

SOURCE: 52 FR 45936, Dec. 3, 1987, unless otherwise noted.

§ 1213.100 Scope.
This part 1213 sets forth the policy governing the release of information in any form to news and information media. Not included is the release of scientific and technical information to scientific and technical journals and audiences.

§ 1213.101 Policy.
(a) Consistent with NASA statutory responsibility, NASA will "** provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof. **"

(b) Release of information concerning NASA activities and the results will be made promptly, factually and completely. Exceptions include that information which may be exempt from disclosure under the "Freedom of Information Act" (5 U.S.C. 552, as amended) (14 CFR part 1212). For classified DoD missions on the National Space Transportation System (NSTS), release of information concerning NASA activities will be restricted by the STS Security Classification Guide. In addition, information concerning the survivability/vulnerability of the NSTS may be classified for all NSTS operations.

(c) NASA will respond promptly to queries from the information media and industry, and cooperate with contractors in their release of NASA related informational material including advertising.

(d) NASA officials may participate in interviews and speak for the Agency in areas of their assigned responsibility.

§ 1213.102 Responsibility.
(a) The Associate Administrator for Public Affairs is responsible for the development and overall administration of an integrated Agencywide communications program and determines whether the specific information is to be released. The Associate Administrator for Public Affairs will:

(1) Direct and coordinate all Headquarters and agencywide public information activities.

(2) Direct and coordinate all agencywide news-oriented audiovisual activities.

(b) In accordance with §1213.104, the Public Affairs Officers assigned to Headquarters Program and Staff Offices are responsible for developing plans and coordinating all public information activities covering their respective programs at Headquarters and in the field.

(c) In accordance with §1213.104, Directors of Field Installations, through their Public Affairs Officers, are responsible for initiating and obtaining concurrences for information programs and public releases issued by their respective installation and component installations.

(d) The requirements of this section do not apply to the Office of Inspector General (IG) regarding IG activities.

§ 1213.103 Procedures for issuance of news releases.
(a) All Headquarters news releases will be issued by the Office of Public Affairs, Media Services Division.

(b) Directors of Field Installations, through their Public Affairs Officer,
may release information for which that Field Installation is the primary or sole source, i.e., launch, mission, and planetary encounter commentary; telephone recorded messages; status reports; and releases of local or regional interest. Release of information that has national significance will be coordinated with the Associate Administrator for Public Affairs. Material received from contractors prior to its public release may be reviewed for technical accuracy at the contracting Installation.

(c) The requirements of this section do not apply to the Office of Inspector General regarding IG activities.

§1213.104 Procedures for news release coordination and concurrence.

(a) General. All organizational elements of NASA involved in preparing and issuing NASA news releases are responsible for proper coordination and obtaining concurrences and clearances prior to issuance of the news release. Such coordination will be accomplished through the Associate Administrator for Public Affairs, NASA Headquarters.

(b) Headquarters-field. (1) The Headquarters Office of Public Affairs will release information after obtaining all necessary concurrences and clearances from the appropriate Program or other Headquarters Office. Field Installations will obtain clearances from the appropriate Institutional Program or other Headquarters Office.

(2) Headquarters issuance of a news release bearing on a Field Installation will be coordinated with the Installation through the Associate Administrator for Public Affairs, Associate Administrator for Public Affairs, or Director, Media Services Division. If Headquarters is the issuing Agency for a release for which the primary source is an Installation, the Office of Public Affairs will keep the Installation fully informed.

(3) If the Office of Public Affairs changes, delays, or cancels a release proposed for issuance by a Field Installation, the Installation and the appropriate Institutional Program Office affected will be notified of the reasons for the action.

(c) Field-other. A release originating in one Field Installation that involves the activities of another installation (including Headquarters) will not be issued until the concurrences of all installations and appropriate Institutional Program Offices concerned have been obtained. The originating installation is responsible for arranging a mutually acceptable release time.

(d) Simultaneous release. Where a release is to be simultaneously issued, whether by Headquarters, a Field Installation, industry-NASA, or university-NASA, it will be so stated on the news release. Simultaneous release will be coordinated by the Headquarters Director, Media Services Division.

(e) Date lines. Out-of-town date lines will not be used on releases issued by Headquarters except in the case of an advance release of a speech text intended for regional distribution in the area where the speech will be delivered.

(f) Exchange of releases. All Agency releases will be exchanged electronically with all field installations by the Headquarters newsroom. The full text of important releases, regardless of source, which may generate unusual interest and queries shall be sent by electronic mail or telephoned to all interested installations and Headquarters in advance of release time to enable public information officers to respond intelligently to queries arising locally.

(g) Exchange of communication activities. All field installations will exchange information with the appropriate Headquarters Public Affairs Officers concerning news events and releases. Immediate notification will be made to Headquarters and any impacted installation of events or situations that will make news, particularly of a negative nature.

(h) The requirements of this section do not apply to the Office of Inspector General regarding IG activities.

§ 1213.105 Interviews.

(a) NASA personnel will respond promptly to requests to media representatives for information or interviews.

(b) Normally, requests for interviews with NASA officials will be made through the appropriate Public Affairs Office. However, journalists will have direct access to those NASA officials they seek to interview.

(c) Information given to the press will be on an “on-the-record” basis only and attributable to the person(s) making the remarks. Any NASA employee providing material to the press will identify himself/herself as the source.

(d) Any attempt by news media representatives to obtain classified information will be reported through the Headquarters Office of Public Affairs or Installation Public Affairs Office to the Installation Security Office. The knowing disclosure of classified information to unauthorized individuals will be cause for disciplinary actions against the NASA employee involved.

(e) Public information volunteered by a NASA official will not be considered exclusive to any one media source and will be made available to other sources, if requested.

(f) For a DoD classified operation, all inquiries concerning this activity will be responded to by the designated DoD officer.

§ 1213.106 Audiovisual material.

(a) NASA’s central repository of audiovisual material will be available to the information media and to all NASA installations.

(b) Field installations will provide NASA Headquarters with:

1. Selected prints and original or duplicate negatives of news-oriented photographs generated within their respective areas.

2. Selected color motion picture footage (prints) which, in the opinion of the installation, would be appropriate for use as features in programs.

3. Audio and/or video tapes of significant news developments and other events of historical or public information interest.

4. For DoD classified operations, all audiovisual material of or related to the classified operation will be reviewed and deemed releasable by the designated DoD officer.

§ 1213.107 International news releases.

(a) All releases of information involving NASA activities or views affecting another country or an international organization require prior coordination with the International Relations Division, Office of External Relations, through the Public Affairs Officer assigned to that division.

(b) NASA field installations and Headquarters offices will report all visits proposed by representatives of foreign media to the Public Affairs Officer for the International Relations Division, NASA Headquarters.

(c) Safeguards intended to control access to classified information, materials, or facilities and provisions to protect the NSTS as a national resource will not be diminished in providing assistance to foreign or U.S. news representatives.

It is the responsibility of each Public Affairs Officer to implement the STS Security Classification Guide for each DoD classified operation on the NSTS. Guidance for this implementation will be provided in the joint NASA and USAF Public Affairs plan for each mission. In addition, each NASA installation involved in the NSTS will have information concerning the protection of the NSTS as a national resource. This category of information, including NSTS survivability/vulnerability data, may be classified. Therefore, all questions regarding security classification will be resolved by the appropriate security classification officer at any NASA installation or by the designated DoD security officer for DoD classified information.
PART 1214—SPACE FLIGHT

Subpart 1214.1—General Provisions Regarding Space Shuttle Flights of Payloads for Non-U.S. Government, Reimbursable Customers

Sec.
1214.100 Scope.
1214.101 Eligibility for flight of a non-U.S. government reimbursable payload on the Space Shuttle.
1214.102 Definitions.
1214.103 Reimbursement for standard services.
1214.104 Reimbursement for optional services.
1214.105 Apportionment and/or assignment of services.
1214.106 Minor delays.
1214.107 Postponement.
1214.108 Termination.
1214.109 Scheduling.
1214.110 Reflight.
1214.111 Rendezvous services.
1214.112 Patent, data and information matters.
1214.113 Allocation of risk.
1214.114 Provision of services.
1214.115 Standard services.
1214.116 Typical optional services.
1214.117 Launch and orbit parameters for a standard launch.
1214.118 Special criteria for deployable payloads.
1214.119 Spacelab payloads.

Subpart 1214.2—Reimbursement for Shuttle Services Provided to Civil U.S. Government Users and Foreign Users Who Have Made Substantial Investment in the STS Program

Sec.
1214.200 Scope.
1214.201 Definition.
1214.202 Reimbursement policy.
1214.203 Optional reflight guarantee.
1214.204 Patent and data rights.
1214.205 Revisit and/or retrieval services.
1214.206 Damage to payload.
1214.207 Responsibilities.

APPENDIX A TO SUBPART 1214.2—COSTS FOR WHICHNASA SHALL BE REIMBURSED

APPENDIX B TO SUBPART 1214.2—OCCUPANCY SCHEDULE

Subpart 1214.3—Payload Specialists for Space Transportation System (STS) Missions

Sec.
1214.300 Scope.
1214.301 Definitions.
1214.302 Background.
1214.303 Policy.
1214.304 Process.
1214.305 Payload specialist responsibilities.

Subpart 1214.4—International Space Station Crew

Sec.
1214.400 Scope.
1214.401 Applicability.
1214.402 International Space Station crewmember responsibilities.
1214.403 Code of Conduct for the International Space Station Crew.
1214.404 Violations.

Subpart 1214.5—Mission Critical Space System Personnel Reliability Program

Sec.
1214.500 Scope.
1214.501 Applicability.
1214.502 Definitions.
1214.503 Policy.
1214.504 Screening requirements.
1214.505 Program implementation.

Subpart 1214.6—Mementos Aboard Space Shuttle Flights

Sec.
1214.600 Scope.
1214.601 Definitions.
1214.602 Policy.
1214.603 Official Flight Kit (OFK).
1214.604 Personal Preference Kit (PPK).
1214.605 Preflight packing and storing.
1214.606 Postflight disposition.
1214.607 Media and public inquiries.
1214.608 Safety requirements.
1214.609 Loss or theft.
1214.610 Violations.

Subpart 1214.7—The Authority of the Space Shuttle Commander

Sec.
1214.700 Scope.
1214.701 Definitions.
1214.702 Authority and responsibility of the Space Shuttle commander.
1214.703 Chain of command.
1214.704 Violations.

Subpart 1214.8—Reimbursement for Spacelab Services

Sec.
1214.800 Scope.
1214.801 Definitions.
1214.802 Relationship to Shuttle policy.
1214.803 Reimbursement policy.
1214.804 Services, pricing basis, and other considerations.
1214.805 Unforeseen customer delay.
1214.806 Premature termination of Spacelab flights.
1214.807 Exceptional payloads.
1214.808 Standby payloads.
1214.809 Short-term call-up and accelerated launch.
1214.810 Integration of payloads.
1214.811 Reflight guarantee.
§ 1214.100

1214.812 Payload specialists.
1214.813 Computation of sharing and pricing parameters.

Subpart 1214.9—Small Self-Contained Payloads (SSCPs)

1214.900 What does this subpart cover?
1214.901 What is the relationship of this subpart with subparts 1214.1 and 1214.2?
1214.902 Definitions.
1214.903 What are the requirements concerning Launch Services Agreements (LSA)?
1214.904 What are the conditions of use for a SSCP?
1214.905 What is NASA’s reimbursement policy?
1214.906 When will my payload be scheduled to fly?
1214.907 Will NASA re-fly my payload if something goes wrong (and it’s not my fault)?
1214.908 Who gets rights to patents resulting from the payload or to the scientific/research data generated?
1214.909 What if my payload is damaged?
1214.910 What are the standard services NASA provides for my payload?
1214.911 Can I buy optional services for my payload from NASA?
1214.912 Are there special provisions for SSCP participants who already have a signed LSA governed by regulations in effect before April 23, 1999?

Subpart 1214.10 [Reserved]

Subpart 1214.11—NASA Astronaut Candidate Recruitment and Selection Program

1214.1100 Scope.
1214.1101 Announcement.
1214.1102 Evaluation of applications.
1214.1103 Application cutoff date.
1214.1104 Evaluation and ranking of highly qualified candidates.
1214.1105 Final ranking.
1214.1106 Selection of astronaut candidates.
1214.1107 Notification.

Subparts 1214.12–1214.16 [Reserved]

Subpart 1214.17—Space Flight Participants

1214.1700 Scope.
1214.1701 Applicability.
1214.1702 Relation to other part 1214 material.
1214.1703 Definitions.
1214.1704 Policy.
1214.1705 Selection of space flight participants.
1214.1706 Program management.

1214.1707 Media and public inquiries.

Subpart 1214.1—General Provisions Regarding Space Shuttle Flights of Payloads for Non-U.S. Government, Reimbursable Customers

SOURCE: 57 FR 4545, Feb. 6, 1992, unless otherwise noted.

§ 1214.100 Scope.

This subpart 1214.1 sets forth general provisions regarding flight of Space Shuttle cargo bay payloads for non-U.S. government, reimbursable customers. It does not apply to Small Self-Contained Payloads flown under the provisions of subpart 1214.9 or payloads flown on a space-available basis on NASA-provided Hitchiker carriers.

§ 1214.101 Eligibility for flight of a non-U.S. government reimbursable payload on the Space Shuttle.

To be eligible for flight on the Space Shuttle, non-U.S. government, reimbursable payloads must meet criteria for use of the Shuttle established by U.S. law and public policy. The NASA Administrator will determine and/or certify the compliance of the payload with these criteria. To qualify for flight on the Space Shuttle, non-U.S. government, reimbursable payloads must require the unique capabilities of the Shuttle, or be important for either national security or foreign policy purposes.

§ 1214.102 Definitions.

(a) Customer. Any non-U.S. government person or entity who, by virtue of a contract or other arrangement with NASA, arranges for or otherwise provides payloads to be flown on the Shuttle on a reimbursable basis.

(b) Dedicated flight. A shuttle flight flown for a single customer.

(c) Dedicated flight price. The price established by NASA for a dedicated
flight that provides the standard services listed in §1214.115 for 1 day of single-shift, on-orbit mission operations.

(d) Jettison. To physically separate all or a portion of a payload from the Shuttle after liftoff of the Shuttle without the intent of fulfilling the payload operations requirements agreed to by NASA and the customer.

(e) Launch agreement. The primary document between NASA and the non-U.S. government, reimbursable customer, containing the detailed terms, conditions, requirements and constraints under which NASA commits to provide launch services.

(f) Marginal cost. Solely for the purposes of determining the cost of a reflight launch, marginal cost is defined as the cost to the U.S. Government, as determined by NASA’s normal accounting procedures, associated with the addition or reduction of one flight in a given U.S. government fiscal year.

(g) Non-U.S. government reimbursable customers are:

(1) All non-U.S. Government persons or entities paying NASA for Shuttle services under this subpart 1214.1; or

(2) U.S. Government agencies obtaining reimbursable Shuttle services for those persons or entities cited in paragraph (g)(1) of this section; e.g., the Department of Defense under a Foreign Military sales case.

(h) Optional services. Those non-standard services provided at the customer’s request and with the concurrence of NASA. The price for optional services is not included in the standard flight price.

(i) Payload integration documentation. Documentation developed to reflect NASA/customer agreements on payload requirements, payload/Shuttle interfaces, and ground and flight implementation of the mission. Includes the Payload Integration Plan, its Annexes and all related documentation.

(j) Payload length. The maximum length of the payload in the Space Shuttle cargo bay at any time during launch, landing, operations, deployment, servicing or retrieval. It includes any clearance length necessary for items such as dynamic envelope considerations, deployment, retrieval, servicing and use of the remote manipulator system.

(k) Payload weight. The maximum weight of the payload in the Space Shuttle cargo bay, including the weight of the payload itself and a pro rata share of the weight of any special equipment or materials needed for the mission.

(l) Scheduled launch date. NASA’s official then-best-estimate of the data of launch. This will be the date of record for all scheduling and reimbursement procedures.

(m) Shared flight. A flight that may be shared by more than one customer.

(n) Shuttle standard flight price. The price for Shuttle standard services provided to the customer.

(o) Standard launch. A launch meeting all the launch and orbit criteria defined in §1214.117.

(p) Standard services. Those services which are generally made available for all customers, which for Space Shuttle are generically defined in NASA document NSTS 07700, Volume XIV, and which are included in the standard flight price. If the payload uses only a portion of the standard services, the standard flight price will not be affected.
news release entitled “Productivity and Costs.”

(e) Independence of pricing and manifesting. The standard flight price for a shared flight payload as computed from §1214.103(g) will be independent from the actual payload manifest for a specific shared flight.

(f) Allocation of services. (1) Customers contracting for a dedicated flight are eligible for the full standard services, as defined in §1214.115, available on the flight.

(2) Customers contracting for a standard shared flight meeting the criteria of §1214.117 are eligible for a portion of the standard services, as defined in §1214.115, available on the flight. The basis of apportionment will be determined by NASA and will be a function of the payload load factor.

(g) Computation of prices. (1) The Shuttle standard flight price for a dedicated flight is the dedicated flight price as defined in §1214.102(c).

(2) The Shuttle standard flight price for a standard shared flight is the product of the payload’s charge factor and the dedicated flight price as defined in §1214.102(c).

(3) The computed charge factor for a payload is defined as:

\[
\text{Load Factor} = \frac{\text{Payload length, m}}{18.29 \text{ m}}, \text{ or } \frac{\text{Payload weight, kg}}{\text{Shuttle lift capability, kg}}
\]

where:

(i) Payload length is as defined in §1214.102(j);

(ii) Payload weight is as defined in §1214.102(k);

(iii) For those payloads for which NASA has reviewed and accepted a NASA Form 1628 (Request for Flight Assignment) and received earnest money (if required) prior to (insert date of publication in FEDERAL REGISTER), the Shuttle lift capability for a shared flight, standard launch will be 29,478 kg. For all other payloads, the lift capability for a shared flight, standard launch will be 21,542 kg.

(h) Payment schedule—(1) Earnest money. Earnest money in the amount of $100,000 per payload will be paid to NASA by the customer. The earnest money will be paid at the time of submission of a NASA Form 1628, and will be applied to the first payment made by the customer toward the standard flight price, or will be retained by NASA unless NASA determines that the payload does not meet the eligibility criteria referenced in §1214.101.

(2) Payment schedule for standard services. (i) Payment for standard services will be made in accordance with the following schedule:

<table>
<thead>
<tr>

</table>

*Additional charges pursuant to §1214.103(h)(2)(ii) also may apply.

(ii) Unless otherwise agreed to by NASA, for purposes of the payment schedule of §1214.103(h)(2)(i), the percent of price due at the time of scheduling will be the cumulative amount due at the time of:

(A) NASA’s initial commitment to the schedule of a newly scheduled payload;
(B) A customer’s requested rescheduling of a payload such that it will be launched at an earlier date; or
(C) Rescheduling of a payload postponed at the request of the customer or caused by the customer.
(iii) If the time from a customer’s request for initial scheduling or rescheduling of a payload is less than 1 year from the launch date being requested, and NASA can accommodate the request, NASA may also charge the customer any estimated additional cost of providing standard services on such a shortened schedule.
(iv) Normally no charges for standard services will be made after the flight, except for a final adjustment for escalation.
(i) Late payment fees. Customers who do not meet the payment schedule defined in §1214.103(h) will be subject to a late payment fee established by NASA in the launch agreement.
§ 1214.107 Postponement.
(a) Provisions of this paragraph apply to postponements requested or caused by the customer.
(b) Integration of apportioned/assigned payload elements within the payload is the responsibility of the customer. Any NASA assistance in such integration will be provided as an optional service.
(c) Customers intending to apportion and/or assign services will so designate at the time the launch agreement is signed.

(b) Integration of apportioned/assigned payload elements within the payload is the responsibility of the customer. Any NASA assistance in such integration will be provided as an optional service.
(c) Customers intending to apportion and/or assign services will so designate at the time the launch agreement is signed.

§ 1214.106 Minor delays.
NASA will attempt to accommodate customer requested minor launch delays. Such delays will normally be requested just prior to launch. Except for potential optional service charges, delays up to 72 hours can normally be accommodated at no charge. This 72-hour period is shared by all customers on a particular flight. The basis of proportion will be established in the launch agreement. Delays beyond 72 hours will require NASA’s approval and will result in an additional charge as established in the launch agreement.

§ 1214.107 Postponement.
(a) Provisions of this paragraph apply to postponements requested or caused by the customer.
(b) A customer postponing the flight of a payload will pay a postponement fee to NASA. The fee will be computed as a percentage of the customer’s Shuttle standard flight price and will be based on the table below.

<table>

(c) If at any point, a customer postponement results in a launch date...
more than 12 months later than the original scheduled launch date, the standard flight price for the customer's payload may be adjusted by NASA to reflect any new standard flight price applicable at the time of the postponed launch, if such new price is higher than the originally contracted price.

(d) The payment schedule for postponed flights will be as defined in §1214.103(h)(2).

(e) Customers postponing the flight of a payload may also be subject to new or additional charges for optional services.

§1214.108 Termination.

(a) Customers terminating the launch of a payload will pay a termination fee for standard services to NASA.

(1) The termination fee for dedicated flights will be computed as a percentage of the Shuttle standard flight price and will be based on the table below.

<table>
<thead>
<tr>

(2) The termination fee for shared flights will be the sum of all payments previously paid or due for the standard flight price, as defined in §1214.103(h)(2), at the time of termination.

(b) NASA may establish, in the launch agreement, certain conditions under which the customer may terminate a payload launch with reduced termination fees if NASA delays the launch of the customer's payload for an extended period.

(c) Customers terminating the flight of a payload may also be subject to new or additional charges for optional services.

§1214.109 Scheduling.

(a) Establishment of a launch date. (1) NASA will assign a tentative launch date for a payload only after NASA's receipt, review and acceptance of a customer-submitted NASA Form 1628 requesting flight assignment and NASA's receipt of the customer's earnest money.

(2) NASA's confirmation of a particular launch date will be at the time a launch services agreement is signed, normally not later than 36 months prior to the desired launch date.

(b) NASA changes to launch date. NASA will attempt to maintain the customer's launch date as long as the customer's obligations, as established by NASA, are met. However, NASA may revise the launch date under those circumstances contained in the launch agreement. If practical, NASA launch date changes will be in consultation with the customer; however, NASA reserves the unilateral right to make decisions with regard to launch schedules.

(c) Payload delivery. NASA, in consultation with the customer, will establish a date for payload delivery to the launch site.

(d) Reflight scheduling. NASA will attempt to schedule a payload reflight at the earliest opportunity, but normally no earlier than 14 months after a determination is made that a customer is entitled to, and in fact requests a reflight.

§1214.110 Reflight.

(a) NASA will provide a reflight of a customer's payload under conditions defined in the launch agreement. The standard flight price for reflights will be based on NASA's marginal cost as defined in §1214.102(f). Reflights only apply to dedicated flights and those shared-flight payloads that can be accommodated on a standard launch as defined in §1214.117.

(b) Reflights as defined in this §1214.110 apply only to the same payload involved in the launch that necessitated the reflight, or to an essentially identical payload with essentially identical integration and flight operations requirements.
§ 1214.111 Rendezvous services.

(a) A rendezvous mission involves the rendezvous of the Space Shuttle orbiter with an orbiting spacecraft for one or more of the following purposes:

(1) Retrieval and return to Earth of the orbiting spacecraft (or part thereof), including a spacecraft deployed earlier on the same Space Shuttle flight.

(2) Exchange of a spacecraft (or part thereof) delivered to orbit on a particular Space Shuttle mission for an already orbiting spacecraft (or part thereof) and return of already orbiting spacecraft to Earth.

(3) Revisit of an orbiting spacecraft for purposes such as resupply, repair, reboost or inspection.

(b) Mission operational requirements and associated optional service charges and conditions for both dedicated and shared flight rendezvous services will be negotiated on a case-by-case basis.

§ 1214.112 Patent, data and information matters.

(a) Patent and data rights. NASA will not acquire rights to inventions, patents or proprietary data which may be used in, or arise from, activities for which a customer has reimbursed NASA under the policies set forth herein. However, in certain instances in which the NASA Administrator has determined that activities may have a significant impact on the public health, safety or welfare, NASA may obtain assurances from the customer that the results will be made available to the public on terms and conditions reasonable under the circumstances.

(b) Information. All customers will be required to furnish NASA with sufficient information to ensure Shuttle safety and NASA’s and the U.S. Government’s continued compliance with law, published policy and the U.S. Government’s obligations.

§ 1214.113 Allocation of risk.

The U.S. Government will assume no risk for damages to the customer resulting from certain activities conducted under the launch agreement or to third parties resulting from launch related activities or on-orbit operations. The customer will be required to agree to be bound by a cross-waiver of liability among the customer, other customers, related entities and NASA for all activities under the launch agreement. The customer will also be required to purchase third-party liability insurance covering launch and on-orbit operations in an amount deemed appropriate by NASA.

§ 1214.114 Provision of services.

NASA will provide, solely at its discretion, services to the extent consistent with U.S. obligations, law, policy and capability.

§ 1214.115 Standard services.

Standard services for the Space Shuttle are generically defined in NASA document NSTS 07700, Volume XIV. The standard services to be provided for a specific payload will be agreed to between NASA and the customer in the launch agreement and associated payload integration documentation. Typical standard services include the following for each customer.

(a) A standard launch that meets the criteria established in §1214.117.

(b) Transportation of the customer’s payload in the orbiter cargo bay in a location selected by NASA.

(c) One day of single-shift, on-orbit mission operations.

(d) A five-person flight crew: commander, pilot and three mission specialists.

(e) Orbiter flight planning services.

(f) One day of transmission of payload data to compatible receiving stations via an Independent Payload Data Stream. (Subject to availability, NASA may make excess orbiter instrument downlink capability available to payloads at no additional charge.)

(g) Deployment of a free flyer, provided the payload meets all the conditions stated in §1214.118.

(h) NASA support of selected payload design reviews.

(i) Prelaunch payload installation, verification and orbiter compatibility testing.

(j) NASA payload safety reviews.

§ 1214.116 Typical optional services.

Typical optional services that may be provided by NASA include the following, and will be further defined and
§ 1214.117 Limited in payload integration documentation agreed upon by NASA and the customer.
(a) Use of Extended Duration Orbiter (EDO) capability or other mission kits to extend basic orbiter capability.
(b) Extravehicular activity (EVA) services.
(c) Transportation to orbit of all or a part of the customer’s payload in other than the orbiter cargo bay.
(d) Unique payload/orbiter integration and test.
(e) Payload mission planning services, other than for launch, deployment and entry phases.
(f) Additional time on orbit.
(g) Payload data processing.
(h) Flight of payload specialists.
(i) Transmission of payload data via an Independent Payload Data Stream during additional time on orbit.
(j) Transmission of payload data via a Direct Data Stream.

§ 1214.118 Special criteria for deployable payloads.
To qualify for the standard flight price, deployable payloads must meet certain criteria in terms of time of day of launch, and other factors. These criteria will be specified in the launch agreement and associated payload integration documentation.

§ 1214.119 Spacelab payloads.
(a) Special provisions. This § 1214.119 establishes the special provisions for Spacelab services provided to Space Shuttle customers. Where designated, provisions of this § 1214.119 supersede those of other portions of this document. The following five types of Spacelab flights are available to accommodate payload requirements:
(1) Dedicated-Shuttle Spacelab flight (Ref. § 1214.119(d)(3)).
(2) Dedicated-pallet flight (Ref. § 1214.119(d)(4)).
(3) Dedicated-FMDM/MPESS (flexible multiplexer-demultiplexer/multipurpose experiment support structure) flight (Ref. § 1214.119(d)(4)).
(4) Complete-pallet flight (Ref. § 1214.119(d)(5)).
(5) Shared-element flight (Ref. § 1214.119(d)(6)).
(b) Definitions—(1) Spacelab elements. Pallets (3-meter segments), pressurized modules (long or short), and the FMDM/MPESS (1-meter cross-bay structure), all as maintained in the NASA-approved Spacelab configuration.
(2) Spacelab standard flight price. The price for standard services provided to Spacelab customers. If a customer elects not to use a portion of the standard services, the Spacelab standard flight price will not be affected. The Spacelab standard flight price is a prorata share of:
(i) The dedicated flight price as defined in § 1214.102(c);
(ii) The standard price for use of the selected Spacelab elements; and
(iii) For complete-pallet and shared-element flights:
(A) The price for 6 extra days on orbit; and
(B) The price for 7 days of second-shift operation.
(c) Mandatory use of dedicated-Shuttle Spacelab flight. (1) The customer will be

§ 1214.117 Launch and orbit parameters for a standard launch.
To qualify for the standard flight price, all payloads must meet the following launch criteria:
(a) For dedicated flights:
(1) Launch from Kennedy Space Center (KSC) into the customer’s choice of two standard mission orbits: 160 NM circular orbit, 28.5° inclination (nominal), or 160 NM circular orbit, 57° inclination (nominal).
(2) Launch on a date selected by NASA within the scheduling constraints specified in the launch agreement.
(3) Launch at a time, selected by NASA, from a launch window of not less than 1 hour (a more restrictive launch window may be provided as an optional service).
(b) For shared flights from KSC to the standard mission orbit of 160 NM circular orbit, 28.5° inclination (nominal):
(1) Launch on a date selected by NASA within the scheduling constraints specified in the launch agreement.
(2) Launch at any time of day, selected by NASA.
required to fly under the provisions of §1214.119(d)(3), if the customer requires exclusive use of any of the following:

(i) Pressurized module (long or short).

(ii) Three pallets in the “1+1+1” configuration.

(iii) Four pallets in the “2+2” configuration.

(2) In the cases cited in paragraph (1)(i) of this section, if the customer requests, NASA will attempt to find compatible sharees to fly with the customer’s payload. If NASA is successful, the customer’s Shuttle standard flight price will be the greater of:

(i) The dedicated flight price less reimbursements from sharees actually flown; or

(ii) The computed Shuttle shared-flight price for the customer’s Spacelab payload.

(d) Reimbursement for standard services. (1) Customers will reimburse NASA an amount equal to the Spacelab standard flight price computed according to the following provisions:

(2) Earnest money. For those customers required to pay earnest money in accordance with §1214.103(h)(1), the total earnest money payment per payload for Spacelab payloads (including Shuttle services) will be either $150,000 or 10 percent of the customer’s estimated Spacelab standard flight price, whichever is less.

(3) Dedicated-Shuttle Spacelab flight. (i) A dedicated-Shuttle Spacelab flight is a Shuttle flight flown for a single customer who is entitled to select the Spacelab elements used on the flight.

(ii) In addition to the standard services listed in §1214.119(j), the following standard services are provided to customers of dedicated-Shuttle Spacelab flights and form the basis for the Spacelab standard flight price:

(A) Use of the full standard services of the Shuttle and the Spacelab elements selected.

(B) One day of one-shift on-orbit operations.

(C) Standard mission destinations consistent with launch criteria as defined in §1214.117.

(D) The available payload operations time of two NASA-furnished mission specialists.

(iii) Customers contracting for a dedicated-Shuttle Spacelab flight will reimburse NASA for standard services an amount that is the sum of:

(A) The dedicated flight price as defined in §1214.102(c); and

(B) The price for the use of all Spacelab elements used (including all necessary mission-independent Spacelab equipment).

(4) Dedicated 3-meter pallets and dedicated FMDM/MPESS. (i) A dedicated pallet (or a dedicated FMDM/MPESS) is one that is flown for a single customer and includes all Spacelab hardware necessary to permit it to be flown on any shared flight as an autonomous payload (e.g., a dedicated 3-meter pallet may either be supplied with its own exclusive igloo or be flown without an igloo, if it requires only standard Shuttle services).

(ii) In addition to a pro rata share of the standard services listed in §1214.119(j), the following standard services are provided to customers of dedicated pallets (or dedicated FMDM/MPESS) and form the basis for establishing the Spacelab standard flight price:

(A) A pro rata share of the standard services listed in §1214.119(j), where the basis for proration is the customer’s Shuttle load factor as defined in §1214.119(l)(4)(i) for dedicated pallets and in §1214.119(l)(5)(ii) for a dedicated FMDM/MPESS.

(B) The exclusive services of the pallet (or FMDM/MPESS) and all Spacelab hardware provided to support the pallet (or FMDM/MPESS).

(C) One day of one-shift on-orbit operations.

(D) Launch on a shared standard Shuttle flight as defined in §1214.117.

(E) A pro rata share of the on-orbit payload operations time of two NASA-furnished mission specialists, where the basis of proration will be the customer’s Shuttle load factor.

(iii) Customers contracting for a dedicated-pallet (or FMDM/MPESS) flight will reimburse NASA for standard services an amount that is the sum of:

(A) The product of the customer’s Shuttle charge factor and the dedicated flight price as defined in §1214.102(c); and
§ 1214.119

(B) The price for the use of the pallet (or FMDM/MPESS) selected (including all necessary mission-independent Spacelab equipment).

(5) Complete pallet. (i) A complete Spacelab pallet is one that is flown for a single customer, but flies with other Spacelab elements on a NASA or NASA-designated Spacelab flight and shares the common standard Spacelab services (e.g., shares an igloo with other pallets).

(ii) In addition to a pro rata share of the standard services listed in §1214.119(j), the following standard services are provided to customers of complete pallets and form the basis for the Spacelab standard flight price:

(A) The pallet’s pro rata share of standard services listed in §1214.115, where the basis of proration will be the customer’s Shuttle load factor as defined in §1214.119(l)(6)(i).

(B) A pro rata share of 7 days of two-shift on-orbit operations, where the basis of proration will be the customer’s Shuttle load factor.

(C) Mission destination selected by NASA in consultation with the customer.

(D) Assignment, with the customer’s concurrence, to a Spacelab flight designated by NASA.

(E) Launch date established by NASA.

(F) A pro rata share of the on-orbit payload operations time of two NASA-furnished mission specialists and two payload specialists, where the basis of proration will be the customer’s Shuttle load factor.

(G) Use of the entire volume above a pallet.

(iii) Customers contracting for complete-pallet flights will reimburse NASA for standard services an amount which is the sum of:

(A) The product of the customer’s Shuttle charge factor and the sum of:

(1) The dedicated flight price as defined in §1214.102(c).

(2) The charge for 6 extra days of one-shift on-orbit operations.

(3) The standard price for additional services required to support a second shift of on-orbit operations for 7 days.

(B) The price for the use of a complete pallet, including all necessary mission-independent Spacelab equipment.

(6) Shared element. (i) A shared element is a Spacelab pallet, FMDM/MPESS, or module that:

(A) May be shared by two or more customers on a NASA-designated Spacelab flight; and

(B) Shares common standard services with other Spacelab elements on the same flight.

(ii) In addition to a pro rata share of the standard services listed in §1214.119(j), the following standard services are provided to customers of shared elements and form the basis for the Spacelab standard flight price:

(A) For shared pallets, a pro rata share of the standard services provided by a pallet. The basis of proration will be the customer’s Spacelab load fraction as defined in §1214.119(l)(7)(i)(A).

(B) For shared modules, a pro rata share of the standard services provided by a module flown on a dedicated-Shuttle Spacelab flight. The basis of proration will be the customer’s Spacelab load fraction as defined in §1214.119(l)(7)(i)(B). The type of pressurized module actually used to meet a customer’s requirement for a shared module will be determined by NASA subsequent to launch agreement negotiations.

(C) A pro rata share of the element’s share of standard services listed in §1214.115, where the basis for proration will be the customer’s Shuttle load fraction.

(D) A pro rata share of 7 days of two-shift on-orbit operations, where the basis of proration will be the customer’s Shuttle load factor as defined in §1214.119(l)(7)(i).

(E) Mission destination selected by NASA in consultation with the customer.

(F) Assignment, with the customer’s concurrence, to a Spacelab flight designated by NASA.

(G) Launch date established by NASA.

(H) A pro rata share of the on-orbit operations time of two NASA-furnished mission specialists, where the basis of proration will be the customer’s Shuttle load factor.

(iii) Customers contracting for shared-element flights will reimburse
National Aeronautics and Space Admin.

NASA for Standard services an amount that is the sum of:

(A) The product of the customer’s Shuttle charge factor and the sum of:
   (1) The dedicated flight price as defined in §1214.102(c);
   (2) The charge for 6 extra days of one-shift on-orbit operations; and
   (3) The standard price for additional services required to support a second shift of on-orbit operations for 7 days.

(B) The product of the customer’s element charge factor and the price for the use of the Spacelab element being used, including all necessary mission-independent Spacelab equipment.

(e) Minor delays. The minor delay provisions of §1214.106 will apply only to those Spacelab payloads whose Shuttle load factor is equal to or greater than 0.05.

(f) Postponement and termination. (1) A customer may postpone the flight of a Spacelab payload one time with no additional charge if postponement occurs more than 18 months before the scheduled launch date.

(2) Postponement or termination fees for Spacelab payloads will consist of the sum of:
   (i) A fee for postponement or termination of the Shuttle launch.
   (ii) A fee for use of the Spacelab elements.

(3) For Shuttle launch postponement and termination fee customers will be governed by the provisions of §1214.107 or §1214.108, as appropriate.

(4) The postponement and termination fees for use of the Spacelab elements are computed as a percentage of the customer’s price for use of the Spacelab elements and will be based on the table below. When postponement or termination occurs less than 18 months before launch, the fees will be computed by linear interpolation using the points provided.

(5) At the time of signing of the launch agreement, NASA will define a payload removal cutoff date (relative to the launch date) for each Spacelab payload to be flown on a shared flight. A customer may still postpone or terminate a flight after the payload’s cutoff date; however, NASA will not be required to remove the payload before flight.

(6) Customers postponing or terminating the flight of a payload may also be subject to new or additional charges for optional services associated with Shuttle or Spacelab support provided by NASA.

(g) Spacelab reflight. (1) For Spacelab payloads, the provisions of §1214.110 apply.

[Reserved]

(h) Premature termination of Spacelab flights. If a dedicated-Shuttle Spacelab flight, a dedicated-pallet flight or dedicated-FMDM/MPESS flight is prematurely terminated, NASA will refund the optional services charges for planned, but unused, extra days on orbit. If a complete-pallet or shared-element flight is prematurely terminated, NASA will refund a pro rata share of the charges for planned, but unused, extra days on orbit to customers whose payload operations are, in NASA’s judgment, adversely affected by such premature termination. The basis for proration will be the customer’s Shuttle load factor.

(i) Integration of payloads. (1) The customer will bear the cost of the following typical Spacelab-payload mission management functions:

   (i) Performing analytical design of the mission.
§ 1214.119

(i) Generating mission requirements and their documentation in the Payload Integration Plan (PIP).

(ii) Providing mission-unique training and payload specialists (if appropriate).

(iv) Physically integrating experiments into racks and/or onto pallets.

(v) Providing payload-unique software for use during ground processing, on orbit or in POCC operations.

(vi) Providing operation support.

(vii) Ensuring the mission is safe.

(2) All physical integration (and de-integration) of payloads into racks and/or onto pallets will normally be performed at KSC by NASA. When the customer provides Spacelab elements, these physical integration activities may be done by the customer at a location chosen by the customer.

(3) Except for the restrictions noted in paragraph (i)(2) of this section, and the implementation of paragraph (i)(1)(vii), customers contracting for dedicated-Shuttle and dedicated-pallet flights may perform the Spacelab-payload mission management functions defined in paragraph (i)(1) of this section. NASA will assist customers in the performance of these functions, if requested. Charges for this service will be based on estimated actual costs, or actual costs where appropriate, and will be in addition to the price for standard services.

(4) For complete pallets or shared elements, NASA will normally perform the Spacelab-payload mission management functions listed in paragraph (i)(1) of this section. Charges for this service will be based on estimated actual costs, or actual costs where appropriate, and will be in addition to the price for standard services.

(5) Integration of payload entities mentioned in paragraphs (i)(2) through (i)(4) of this section with NASA-furnished Spacelab support systems and with the Shuttle will be performed by NASA as a standard service for all payloads flown on customer-furnished Spacelab elements. Customers will be available to participate as required by NASA in these levels of integration. Customer equipment will be operated only to the extent necessary for interface verification. Customers requiring additional payload operation after delivery of the payload to NASA will negotiate such operation as an optional service.

(j) Common standard services for Spacelab payloads. The following standard services are common to all Spacelab flights:

(1) Use of Shuttle¹ and Spacelab hardware.

(2) Spacelab interface analysis.

(3) A five-person NASA flight crew consisting of commander, pilot and three mission specialists.

(4) Accommodations for a five-person flight crew.

(5) Prelaunch integration and interface verification of preassembled racks and pallets (Levels III, II and I for NASA-furnished Spacelab hardware; Level I only for customer-furnished Spacelab hardware).

(6) Shuttle¹ and Spacelab flight planning.

(7) Payload electrical power.

(8) Payload environmental control.

(9) On-board data acquisition and processing services.

(10) One day of transmission of payload data to compatible receiving stations via an Independent Payload Data Stream. (Subject to availability NASA may make excess orbiter instrument downlink capability available to payloads at no additional charge.)¹

(11) Use of NASA-furnished standard payload monitoring and control facilities.

(12) Voice communications between on-orbit flight personnel operating the customer’s payload and a NASA-designated payload monitoring and control facility.

(13) NASA payload safety review.¹

(14) NASA support of payload design reviews.¹

(k) Typical optional services for Spacelab payloads. The following are typical optional Spacelab services.

(1) Use of special payload support equipment, e.g., instrument pointing system.

(2) Nonstandard mission destination.

(3) Additional time on orbit.

(4) Mission-independent training, use of, and accommodations for all flight personnel in excess of five.

¹Typical standard Shuttle services repeated for clarity.

(6) Analytical and/or hands-on integration (and de-integration) of the customer’s payload into racks and/or onto pallets.

(7) Unique integration or testing requirements.

(8) Additional resources beyond the customer’s pro rata share.

(9) Additional experiment time or crew time beyond the customer’s pro rata share.

(10) Special access to and/or operation of payloads.

(11) Customer-unique requirements for software development for the Command and Data Management Subsystem (CDMS) onboard computer, configuration of the Payload Operations Control Center (POCC) and/or CDMS used during KSC ground processing.

(12) Extravehicular Activity (EVA) services.

(13) Payload flight planning services.

(14) Transmission of Spacelab data contained in the Shuttle OI telemetry link to a location other than a NASA-designated monitoring and control facility.

(15) Transmission of payload data via a Direct Data Stream.

(16) Transmission of payload data via an Independent Payload Data Stream during additional time on orbit.

(17) Level III/II integration of customer-furnished Spacelab hardware.

(1) Computation of sharing and pricing parameters—(1) General. (i) Computational procedures as contained in the following subparagraphs will be applied as indicated. The procedure for computing Shuttle load factor, charge factor and flight price for Spacelab payloads replaces the procedure contained in §1214.103.

(ii) The customer’s individual (dedicated, complete or shared) elements, with the limitation that the customer’s Shuttle charge factor will not exceed 1.0.

(iv) Customers contracting for pallet-only payloads are entitled to locate minimal controls as agreed to by NASA in a pressurized area to be designated by NASA. There is no additional charge for this service.

(v) NASA will, at its discretion, adjust, up or down, the load factors and load fractions calculated according to the procedures defined in this section. Adjustments will be made for special space or weight requirements, which include, but not limited to:

(A) Sight clearances, orientation or placement limits.

(B) Clearances for movable payloads.

(C) Unusual access clearance requirements.

(D) Clearances extending beyond the bounds of the normal element envelope.

(E) Extraordinary shapes.

The adjusted values will be used as the basis for computing charge factors and prorating services.

(2) Definitions used in computations. (i) \(L_c\)=Chargeable payload length, m. The total length in the cargo bay occupied by the customer’s experiment and the Spacelab element(s) used to carry it.

(ii) \(W_c\)=The weight, kg, of the customer’s payload and the customer’s pro rata share of the weight of NASA mission-peculiar equipment carried to meet the customer’s needs.

(3) Dedicated-Shuttle Spacelab flight (1-day mission). The total reimbursement is as defined in §1214.119(d)(3)(iii).

(4) Dedicated-pallet flight (1-day mission). (i) The Shuttle load factors, charge factors and nominal payload capacities for dedicated-pallet flights are shown in the table below. Subject to other Shuttle Spacelab structural limits, customers are entitled to use the payload weight capability of the pallets as indicated in the table. Payload weights in excess of those shown are subject to NASA approval and may entail optional services charges.
§ 1214.119

*Three pallets requiring the "1+1+1" configuration will be flown on a dedicated-flight basis [See §1214.119(c)(1)].

(ii) **Total reimbursement.** The customer’s total reimbursement is as defined in §1214.119(d)(4)(iii).

(5) **Dedicated FMDM/MPESS flight (1-day mission)—(1) Shuttle charge factor.** The Shuttle charge factor for dedicated FMDM/MPESS flights is defined as:

\[
\text{Shuttle Load Factor} = 0.75
\]

(ii) **Shuttle load factor.** (A) The Shuttle load factor is defined as the maximum of:

\[
\frac{L_c}{18.29 \text{ m}}
\]

or

\[
\frac{W_c + 767}{21,542 \text{ kg}}
\]

(B) The minimum value of \(L_c\) is based on the element length, plus clearances, and is 1.18 m.

(iii) **Total reimbursement.** The customer’s total reimbursement is as defined in §1214.119(d)(4)(iii).

(6) **Complete pallets (7-day mission).** (1) The Shuttle load factor and charge factor for a complete pallet are 0.198 and 0.228, respectively, and its payload weight capability is 2,583 kg. Subject to other Shuttle or Spacelab structural limits, customers are entitled to use this payload weight capability. Payload weight in excess of 2,583 kg is subject to NASA approval and may entail optional service charges.

(ii) **Total reimbursement.** The customer’s total reimbursement is as defined in §1214.119(d)(5)(iii).

(7) **Shared elements (7-day mission).**

(i) **Spacelab load fractions and Shuttle load factors.**

(A) **Pallet.** Spacelab load fraction is the greater of:

\[
\frac{W_c}{2,583 \text{ kg}}
\]

or

\[
\frac{\text{Payload volume, m}^3}{15 \text{ m}^3}
\]

Shuttle load factor is the greater of:

\[
\frac{\text{Payload volume, m}^3}{76 \text{ m}^3}
\]

or

\[
\frac{W_c}{4,319 \text{ kg}}
\]

(B) **Pressurized module.** Spacelab load fraction and Shuttle load factor are identical and are the greater of:

\[
\frac{W_c}{13,045 \text{ kg}}
\]

or

\[
\frac{2 \times (\text{Experiment volume}) + \text{Storage volume, m}^3}{40 \text{ m}^3}
\]

(ii) **Shuttle charge factors and element charge factors for pressurized modules.**
charge factors are identical and are defined as follows:

<table>
<thead>
<tr>
<th>Spacelab Load Fraction</th>
<th>Element Charge Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 0.00435</td>
<td>0.005</td>
</tr>
<tr>
<td>0.00435 to 0.87</td>
<td>Spacelab load fraction divided by 0.87</td>
</tr>
<tr>
<td>Greater than 0.87</td>
<td>1.0</td>
</tr>
</tbody>
</table>

(iii) Element charge factors for shared pallets.

<table>
<thead>
<tr>
<th>Spacelab Load Fraction</th>
<th>Element Charge Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 0.0189</td>
<td>0.0218</td>
</tr>
<tr>
<td>0.0189 to 0.87</td>
<td>Spacelab load fraction divided by 0.87</td>
</tr>
<tr>
<td>Greater than 0.87</td>
<td>1.0</td>
</tr>
</tbody>
</table>

(iv) Shuttle charge factors for shared pallets.

<tr>
<td>0.00375 to 0.75</td>
<td>Shuttle load factor divided by 0.75</td>
</tr>
<tr>
<td>Greater than 0.75</td>
<td>1.0</td>
</tr>
</tbody>
</table>

(v) Total reimbursement.

(A) The customer’s total reimbursement is as defined in §1214.119(d)(6)(iii).

(B) If a customer contracts for portions of more than one element, the charges for the use of the elements will apply individually to each element used.

(vii) Pressurized module storage volume. Storage volume in the pressurized module is defined as the volume of one or more rectangular parallelepipeds enclosing the customer’s stowed payload. No edge of the parallelepiped(s) will be less than 30 centimeters in length.

Subpart 1214.2—Reimbursement for Shuttle Services Provided to Civil U.S. Government Users and Foreign Users Who Have Made Substantial Investment in the STS Program

SOURCE: 42 FR 8631, Feb. 11, 1977, unless otherwise noted.

§ 1214.200 Scope.

This subpart 1214.2 sets forth:

(a) The policy on reimbursement for Shuttle services which are provided by NASA to users (as defined in §1214.201) under launch services agreements, and

(b) Responsibilities for putting such policy into effect and carrying it out.

§ 1214.201 Definition.

For the purpose of this subpart, the term users means:

(a) For all civil U.S. Government agencies who request Shuttle services from NASA, and

(b) Foreign users who have made substantial investment in the STS program, i.e., European Space Agency (ESA), ESA member or observer nations participating in Spacelab development, and Canada, when conducting experimental science or experimental applications missions with no near-term commercial implications.

§ 1214.202 Reimbursement policy.

(a) Features of policy. (1) All users will be charged on a fixed price basis; there will be no post-flight charges, except for prespecified optional services.

(2) The price will be based on estimated costs.
§ 1214.202

(3) The price will be held constant for flights in the first three years of Space Transportation System (STS) operations.

(4) Payments shall be escalated according to the Bureau of Labor Statistics Index for Compensation per hour, Total Private.

(5) Subsequent to the first three years, the price will be adjusted annually to insure that total operating costs are recovered over a twelve-year period.

(6) Pricing incentives are designed to maximize the proper utilization of the STS.

(b) Dedicated flight reimbursements.

(1) For the purposes of this policy, a dedicated flight is one sold to a single user.

(2) The policy is established for two distinct phases of Shuttle operations. The first phase is through the third full fiscal year of Shuttle operations and the second phase consists of nine full fiscal years subsequent to the first phase.

(i) For a dedicated Shuttle flight during the first phase, NASA shall be reimbursed in an amount which is a pro-rata share of forecast additive costs averaged over the first phase of three years; however, the price shall not be less than a pro-rata share of forecast total operating costs averaged over both the first and second phases of the twelve year Shuttle operation period.

(ii) For a dedicated Shuttle flight during the second phase, NASA shall be reimbursed a pro-rata share of forecast total operating costs over both phases to insure that total operating costs are recovered over the twelve year period.

(iii) The definition of the costs are specified in this subpart are set forth in appendix A to this subpart.

(iv) Subject to NASA approval, a dedicated flight user may apportion and assign STS services to other STS users provided they satisfy STS user requirements. The price of integrating additional payloads will be negotiated.

(v) A summary of standard Shuttle services included in the flight price is set forth in appendix B to subpart 1214.1.

(vi) The prices of optional Shuttle services are being developed and shall be set forth in the Shuttle Price Book which is being developed. A summary of the optional services is set forth in appendix C to subpart 1214.1.

(vii) For the user with an experimental, new use of space or first time use of space of great public value, the reimbursement to NASA for the dedicated, standard Shuttle flight in either the first or second phase shall be a pro-rata share of the average twelve year additive costs as estimated at the time of negotiations. Programs which qualify for this price will be determined by an STS Exceptional Program Selection Process. In all cases, the Administrator will be the selection official.

(viii) For dedicated flight users, NASA and the user will identify a desired launch date within a period of ninety days three years prior to flight. One year prior to the flight, a firm launch and payload delivery date will be identified by NASA. The firm launch date will be within the first sixty days of the original ninety day period. Launch will occur on the firmly scheduled launch date or within a period of thirty days thereafter. The payload must be ready to launch for the duration of that period.

(c) Shared flight reimbursements.

(1) The price of a shared Shuttle flight will be a fraction of the dedicated Shuttle flight price. The fraction will be based on the length and weight of the payload and the mission destination at the time of contract negotiations. The formula for computing the fraction is set forth in appendix D to subpart 1214.1.

(2) For shared flight users, NASA and the user will identify a desired launch date three years prior to flight. Launch will occur within a period of ninety days, beginning on the desired launch date. One year prior to flight, a payload delivery date and a firm launch date will be coordinated among the shared flight users. This firm launch date will be within the first thirty days of the original ninety day period. The launch will occur on the firmly scheduled launch date or within a period of sixty days thereafter. The payloads must be ready to launch for the duration of that period.

(3) A 20 percent discount on the standard flight price will be given to shared flight users who will fly on a space-available (standby) basis. NASA...
will provide launch services within a prenegotiated period of one year. Shared flight payloads must be flight deliverable to the launch site on the first day of the one year period and sustain that condition until delivery to the launch site. The user will be notified sixty days prior to the firmly scheduled launch date which has been established by NASA. At that time, NASA will also establish a payload delivery date. The payload must be available at the launch site on the assigned delivery date and ready to launch for a period of sixty days after the firmly scheduled launch date.

(d) Small self-contained payloads. Packages under 200 pounds and smaller than five cubic feet which require no Shuttle services (power, deployment, etc.), and are for R&D purposes, will be flown on a space-available basis during both phases of Shuttle operation. The price for this service will be negotiated based on size and weight, but will not exceed $10,000 in 1975 dollars. A minimum charge of $3,000 in 1975 dollars will be made. If Shuttle services are required, the price will be individually negotiated. Reimbursement to NASA will be made at the time the package is scheduled for flight.

(e) Options. (1) In order to allow the user greater flexibility in selecting a launch date, the user may purchase a "floating launch date" option. At the time of contract execution, the user will begin to make payments according to a 33 month reimbursement schedule for this launching. At any time during Phase 1 or 2, the user may exercise this option by informing NASA of his desired launch date for this option which will then be negotiated by NASA and the user. This launch date must be at least 33 months after the date of the first reimbursement payment. If the desired launch date is within one year of the date of declaration, the short term call-up option and associated fee will apply. If the desired launch is to occur in a year for which a new price per flight is in effect, the user will pay the new price. The fee for this option is 10 percent of the user's flight price in effect at the time of contract execution and is payable at that time. This fee will not be applied to the price of the user's flight.

(2) Options must be exercised for a flight by the end of the second phase of operations or the option fee will be retained by NASA.

(f) Fixed price period and escalation. (1) The price will remain constant for flights during the first phase of Shuttle operations. For flights during the second phase, the price will be adjusted on a yearly basis, if necessary, to assure recovery of total operating costs over a twelve-year period. These adjusted prices will be applicable only to agreements executed after the adjustment is made.

(2) Shuttle services for both phases will be contracted on a fixed price basis. The payments in the contract will be escalated to the time of the payment using the Bureau of Labor Statistics Index for Compensation per hour, Total Private.

(g) Earnest money. Earnest money shall be paid to NASA prior to NASA's accepting a launch reservation. The earnest money required shall be $100,000 per payload; however, if the payload is a small self-contained payload, the earnest money shall be $500.00 per payload. The earnest money shall be applied to the first payment for each payload made by the customer, or shall be retained by NASA if a launch services agreement is not signed.

(h) Reimbursement schedule. (1) Reimbursement shall be made in accordance with the reimbursement schedule contained in this subsection. No charges shall be made after the flight, except as negotiated in the contract for prespecified extra services. Those users who contract for Shuttle services less than three years before the desired launch date will be accommodated and will pay on an accelerated basis according to the reimbursement schedule.

(2) Standby payloads. (i) Before the establishment of a firmly scheduled launch date, the number of months before launch will be computed assuming a launch date at the mid-point of the designated one-year period.

(ii) Once the firmly scheduled launch date is established, the user shall reimburse NASA to make his payments current according to the reimbursement schedule.

(3) Reimbursement schedule.
§ 1214.202

14 CFR Ch. V (1–1–02 Edition)

<table>
<thead>
<tr>
<th>Percent of price</th>
<th>Number of months before launch flight is scheduled</th>
<th>Months prior to scheduled launch date</th>

</tr>
<tr>
<td></td>
<td>3 to 8 months ...................................</td>
<td></td>
</tr>
</tbody>
</table>

This schedule holds unless there are offsetting advantages to the U.S. Government of an accelerated launch schedule.

(4) Contracts for Shuttle services made one year or less before a flight and up to three months before a flight will be made on a space-available basis unless short term call-up option is elected.

(1) Short term call-up option. (1) For flights contracted on year or less before launch, but not less than three months before launch, short term call-up will be provided to dedicated flight users at the dedicated flight prices according to the reimbursement schedule.

(2) For dedicated flight users requiring short term call-up flights less than three months before launch, NASA will provide STS launch services on a space-available basis. NASA shall be reimbursed the dedication flight price according to the reimbursement schedule plus short term call-up additional costs. The additional costs will be based on estimated costs to be incurred.

(6) For the purposes of this paragraph, adjusted reimbursements is defined to be reimbursements assuming all shared users are among those defined in §1214.201.

(7) The load factor-recovery fee will never be less than zero.

(8) The load factor-recovery fee is payable upon receipt of NASA’s billing therefor.

(j) Accelerated launches. For users who reschedule a launch so that it occurs earlier than the planned launch, the user will pay on an accelerated reimbursement schedule. The user will reimburse NASA to make his payments current on the new accelerated reimbursement schedule. If the time from notification of acceleration is less than one year from the new launch date, short term call-up reimbursements will also apply.

(k) Postponements—(1) Non-standby payloads. (i) A user can postpone a flight of his payload one time with no additional charge if postponement occurs more than one year before launch. For subsequent postponed flights more than one year before launch, the user shall reimburse NASA a postponement fee of 5 percent of the user’s flight price. For postponements one year or less before launch, the user shall reimburse NASA 5 percent of the user’s flight price plus an occupancy fee according to the occupancy fee schedule in appendix B.

(ii) If the postponement of a flight causes the payload to be launched in a year for which a different price per flight has been established, the new price shall apply if it is higher than the originally contracted price.
§ 1214.205 Optional relight guarantee.

(a) If relight insurance is purchased from NASA, NASA guarantees one relight of:

(1) The launch and development of a free flying payload into a Shuttle compatible mission orbit if, through no fault of the user, the first launch and deployment attempt is unsuccessful and if the payload returns safely to earth or a second payload is provided by the user.

(2) The launch of an attached payload into its mission orbit if the first launch attempt is unsuccessful through no fault of the user, and if the payload returns safely to earth or a second payload is provided by the user.

(b) Relight insurance is not applicable to payloads or upper stages placed into orbits other than the Shuttle mission orbit.

§ 1214.204 Patent and data rights.

(a) When accommodating missions under this subpart, i.e., experimental science or experimental applications missions for ESA, ESA member states or Canada with no near-term commercial implications, NASA will obtain for U.S. Governmental purposes rights to inventions, patents and data resulting from such missions, subject to the user’s retention of the rights to first publication of the data for a specified period of time.

(b) The user will be required to furnish NASA with sufficient information to verify peaceful purposes and to ensure Shuttle safety and NASA’s and the U.S. Government’s continued compliance with law and the Government’s obligations.

§ 1214.205 Revisit and/or retrieval services.

These services will be priced on the basis of estimated costs. If a special dedicated Shuttle flight is required, the full dedicated price will be charged. If the user’s retrieval requirement is
§ 1214.206 Damage to payload.

The price does not include a contingency or premium for damage that may be caused to a payload through the fault of the U.S. Government or its contractors. The U.S. Government, therefore, will assume no risk for damage or loss to the user’s payload. The users will assume that risk or obtain insurance protecting themselves against that risk.

§ 1214.207 Responsibilities.

(a) Headquarters officials. (1) The NASA Comptroller, in coordination with the Associate Administrator for Space Flight will:
   (i) Prescribe guidelines, procedures, and other instructions which are necessary for estimating costs and setting prices and publishing them in the NASA Issuance System, and
   (ii) Review and arrange for the billing of users.
   (2) The Associate Administrator for Space Flight will arrange for:
      (i) Developing estimates for costs and establishing prices in sufficient detail to reveal their basis and rationale.
      (ii) Obtaining approval of the NASA Comptroller of such estimates and related information prior to the execution of any agreement, and
      (iii) Reviewing of final billings to users prior to submission to the NASA Comptroller.

(b) Field installation officials. The Directors of Field Installations responsible for the STS operations will:
   (1) Maintain and/or establish agency systems which are needed to identify costs in the manner prescribed by the NASA Comptroller,
   (2) Compile financial records, reports, and related information, and
   (3) Provide assistance to other NASA officials concerned with costs and related information.

APPENDIX A TO SUBPART 1214.2—COSTS FOR WHICH NASA SHALL BE REIMBURSED

Total Operating Costs. Total Operating Costs include all direct and indirect costs, excluding costs of composing the use charge. Such costs include direct program charges for manpower, expended hardware, refurbishment of hardware, spares, propellants, provisions, consumables and launch and recovery services. They also include a charge for program support, center overhead and contract administration.

APPENDIX B TO SUBPART 1214.2—OCCUPANCY FEE SCHEDULE

For a postponed or cancelled dedicated flight, the occupancy fee will be zero.

For a postponed or cancelled shared flight, the occupancy fee will be computed according to the computation instructions set forth below. If the computation results in an occupancy fee which is less than zero, the occupancy fee will be reset to zero.

For a postponed or cancelled shared flight one year or less, but more than six months before launch, the user shall reimburse NASA an occupancy fee of half the user’s flight price less any adjusted reimbursements from other users who contract for the same flight subsequent to the postponement or cancellation date.

For a postponed or cancelled shared flight six months or less before launch, the user shall reimburse NASA an occupancy fee of 90% of the user’s flight price less any adjusted reimbursements from other users who contract for the same flight subsequent to the postponement or cancellation date.

For a given shared flight, if the occupancy fee so computed would result in total adjusted reimbursements (exclusive of the 5% (10%) postponement (cancellation) fee) in excess of the price of a dedicated flight, the occupancy fee will be reduced in order to recover the price of a dedicated flight.

In the event that, as a result of the postponement or cancellation, the Shuttle is not launched at all for the intended flight, the occupancy fee will be zero.

For purposes of this attachment, adjusted reimbursements is defined to be reimbursements assuming all users are among those defined in §1214.201.

Subpart 1214.3—Payload Specialists for Space Transportation System (STS) Missions

SOURCE: 54 FR 48587, Nov. 24, 1989, unless otherwise noted.
§ 1214.300 Scope.

(a) This revision of subpart 1214.3 redefines the title of payload specialist and sets forth NASA’s policy on and process for the determination of need, selection, and utilization of payload specialists and additional mission specialists to be assigned to a Space Transportation System (STS) flight in addition to the standard NASA flight crew.

(b) This subpart does not apply to the selection of crew for the Space Station Freedom. It is recognized that the Space Station has unique requirements regarding its crew and that a separate, specifically tailored policy will need to be developed in the future.

§ 1214.301 Definitions.

(a) Payload specialists. Individuals other than NASA astronauts (commanders, pilots, and mission specialists), whose presence is required on board the Space Shuttle to perform specialized functions with respect to operation of one or more payloads or other essential mission activities.

(b) NASA or NASA-related payload. A specific complement of instruments, space equipment, and support hardware, developed by a NASA Program Office or by another party with which NASA has a shared interest, and carried into space to accomplish a mission or discrete activity in space.

(c) Mission. The performance of a coherent set of investigations or operations in space to achieve program goals. A single mission might require more than one flight or more than one mission might be accomplished on a single flight.

(d) Mission manager. The official responsible for the implementation of the payload portion of an STS flight(s).

(e) Mission specialist. A career NASA astronaut trained and skilled in the operation of STS systems related to payload operations and thoroughly familiar with the operational requirements and objectives of the payloads with which the mission specialist will fly. The mission specialist, when designated for a flight, will participate in the planning of the mission and will be responsible for the coordination of overall payload/STS interaction. The mission specialist will direct the allocation of STS and crew resources to the accomplishment of the combined payload objectives during the payload operations phase of the flight in accordance with the approved flight plan.

(f) Investigator Working Group (IWG). A group composed of the Principal Investigators, or their representatives, whose primary purpose is facilitating or coordinating the development and execution of the operational plans of an approved NASA program or reporting the progress thereof.

(g) Payload sponsor. For NASA and NASA-related payloads the payload sponsor is the Associate Administrator of the sponsoring Program Office whose responsibilities are most closely related to the particular scientific or engineering discipline associated with a payload. For all other payloads, the payload sponsor is identified by the Associate Administrator who contracts with the agency or organization, whether foreign or domestic, private-sector or governmental, to fly a payload on the STS.

(h) Unique requirements. The need for a highly specialized or unusual technical or professional background or the need for instrument operations requiring a highly specialized or unusual background that is not likely to be found in the group of mission specialists or cannot be attained in a reasonable training period.

§ 1214.302 Background.

(a) The Space Transportation System (STS) has been developed to expand the Nation’s capabilities to utilize the unique environment of space. It provides opportunity for individuals other than career astronauts to participate as onboard members of the flight crew under specified conditions. The purpose of such participation by these individuals is to ensure the achievement of the payload or mission-related objectives.

(b) The STS will provide these additional crew members with a habitable working environment and support services in such a way as to require a minimum of dedicated space flight training, allowing them to concentrate their efforts on the accomplishment of their scientific, technical, or mission objectives.
§ 1214.303 Policy.

(a) General. (1) The Challenger accident marked a major change in the U.S. outlook and policies with respect to the flight of other than NASA astronauts. NASA and interested external parties, domestic and international, must re-examine previous understandings, expectations, and commitments regarding flight opportunities in light of the new policies now being enunciated.

(2) NASA policies and their implementation recognize that:

(i) Every flight of the Shuttle involves risks;

(ii) Flight opportunities will now generally be limited to professional NASA astronauts and payload specialists essential for mission requirements; and

(iii) Top priority must be given to:

(A) Establishing, proving, and maintaining the reliability and safety of the Shuttle system;

(B) Timely and efficient reduction of the backlog of high priority scientific and national security missions; and maximum utilization of the Shuttle capacity for primary and secondary payloads that require transportation to or from orbit by the Space Shuttle.

(3) All Shuttle flights will be planned with a minimum NASA crew of five astronauts (commander, pilot, and three mission specialists). When payload or other mission requirements define a need and operational constraints permit, the crew size can be increased to a maximum of seven. Any such additional crew members must be identified at least 12 months before flight and be available for crew integration at 6 months.

(4) NASA policy and terminology are revised to recognize two categories of persons other than NASA astronauts, each of which requires separate policy treatment. They are:

(i) Payload specialists, redefined to refer to persons other than NASA astronauts (commanders, pilots, and mission specialists), whose presence is required onboard the Space Shuttle to perform specialized functions with respect to operation of one or more payloads or other essential mission activities.

(ii) Space flight participants, defined to refer to persons whose presence onboard the Space Shuttle is not required for operation of payloads or for other essential mission activities, but is determined by the Administrator of NASA to contribute to other approved NASA objectives or to be in the national interest.

(b) Payload specialists. Payload specialists may be added to Shuttle crews when more than the minimum crew size of five is needed and unique requirements are involved. In the case of foreign-sponsored missions and payloads, the need and requirements for payload specialists will be negotiated and mutually agreed between the foreign sponsors and NASA. The selection process for additional crew members to meet approved requirements will first give consideration to qualified NASA mission specialists. When payload specialists are required, they will be nominated by the appropriate NASA, foreign, or other designated payload sponsor. In the case of NASA or NASA-related payloads, the nominations will be based on the recommendations of the appropriate Investigator Working Group (IWG).

(c) Space flight participants. NASA remains committed to the long-term goal of providing space flight opportunities for persons outside the professional categories of NASA astronauts and payload specialists when this contributes to approved NASA objectives or is determined to be in the national interest. However, NASA is devoting its attention to proving the Shuttle system’s capability for safe, reliable operation and to reducing the backlog of high priority missions. Accordingly, flight opportunities for space flight participants are not available at this time. NASA will assess Shuttle operations and mission and payload requirements on an annual basis to determine when it can begin to allocate and assign space flight opportunities for future space flight participants, consistent with safety and mission considerations. When NASA determines that a flight opportunity is available for a space flight participant, first priority will be given to a “teacher in space,” in fulfillment of space education plans.
§ 1214.304 Process.

(a) Determining the need for additional crew members. The payload sponsor will be responsible for recommending the number of addition crew members and for establishing the technical or scientific need, the selection criteria, uniqueness of qualifications, the proposed training, and other requirements for the additional crew members. The payload sponsor’s requirements for additional crew members, their qualifications, and the proposed duration for training will be reviewed with and concurred in by the Associate Administrator for Space Flight.

(b) Selection of additional crew members for NASA and NASA-related payloads. After the requirement for additional crew members has been established, the IWG will be tasked by the payload sponsor to commence the selection process. The IWG review process will include the participation of a senior astronaut from the Flight Crew Operations Directorate at the Johnson Space Center who will provide operational and applicant suitability criteria.

(1) Prior to the payload sponsor’s recommendation for additional crew members and at his/her direction, the IWG will have studied the requirements of the selected investigations, the number, qualifications, training requirements and other requirements of payload specialists, and backups necessary to support the payload objectives, and made recommendations to the payload sponsor.

(2) Members of the mission specialist cadre will be considered first. The payload mission manager, on behalf of the IWG, will convey the selection criteria for the proposed additional crew members to the Chief, Astronaut Office. The IWG, the mission manager, and the Astronaut Office will coordinate the review of the proposed candidates and the mission manager will forward recommendations to the payload sponsor. Recommendations from the payload sponsor will be submitted to the Associate Administrator for Space Flight for approval.

(3) If mission specialists meeting the requirements cannot be provided because of the uniqueness of requirements or impracticability of the required training obligation, or if backup payload specialists are required, the IWG may then solicit candidate payload specialists from outside the career astronaut corps. The solicitation will require, as a minimum, that a summary of professional qualifications be submitted to the IWG. In addition, a medical history, and the results of the physical examination described in paragraph (b)(3)(ii) of this section will be required. The IWG will be responsible for:

(i) Establishing professional and operational criteria for payload specialists for specific payloads. The criteria will include willingness on the part of the candidate to accept the applicable provisions of §1214.306 and satisfactory completion of a background investigation conducted to NASA’s standards, as determined by the Director, NASA Security Office.

(ii) Evaluating all candidates using the criteria established.

(iii) Determining which candidate payload specialists, who meet the NASA Class III Space Flight Medical Selection Standards, are deemed best professionally qualified. (The preselection phases of the medical examination will be conducted at Johnson Space Center by certified examiners approved by the Director, Life Sciences Division, NASA Headquarters).

(iv) Submitting its recommendations for payload specialists through the mission manager to the payload sponsor who in turn will determine final recommendations which will be reviewed with and concurred in by the Associate Administrator for Space Flight.

(4) The payload sponsor and the Associate Administrator for Space Flight will advise the Administrator of the payload specialist selections.

(c) Selection of additional crew members for foreign payloads. The need and requirements for payload specialists will be negotiated and mutually agreed to between the foreign sponsor and NASA. This negotiating process will include the participation of a senior astronaut from the Flight Crew Operations Directorate at the Johnson Space Center.
§ 1214.304 who will provide operational and applicant suitability criteria. After agreement is reached, the payload sponsor will initiate the selection process. Subject to the negotiated agreement, subsequent steps in the process will be similar to those described in §1214.304(b) modified as follows:

(1) The IWG functions will be performed by a selection committee or other procedure designated by the payload sponsor.

(2) The payload sponsor will designate an individual to perform the mission manager functions.

(3) The committee or procedure in paragraph (c)(1) of this section and the person named in paragraph (c)(2) of this section will be established during the negotiations between the foreign sponsor and NASA, consistent with the specific circumstances.

(4) The payload sponsor will also be responsible for submission to NASA by an appropriate authority of written assurance that an inquiry has been made into the recommended payload specialist’s background and suitability on the basis of standards similar to those applied to NASA payload specialist candidates and a statement by the selected candidate asserting a willingness to accept the applicable provisions of §1214.306. These written assurances must be received and accepted by NASA before selection and before any NASA training can begin.

d) Selection of additional crew members for other payloads. After the request for additional crew members is approved, the payload sponsor will commence the selection process. The payload sponsor review process will include the participation of a senior astronaut from the Flight Crew Operations Directorate at the Johnson Space Center who will provide operational and applicant suitability criteria.

(1) The payload sponsor will first consider members of the mission specialist cadre. A representative of the payload sponsor selection committee will convey the selection criteria for the proposed payload specialists to the Chief, Astronaut Office, and coordinate on the recommendations for mission specialists to satisfy the requirements. The recommendations will be submitted to the Associate Administrator for Space Flight for approval who will then advise the Administrator of the selections.

(2) If mission specialists meeting the requirements cannot be provided because of the uniqueness of qualifications or impracticability of the resultant training obligation, the payload sponsor selection committee, with concurrence from the payload sponsor and the Associate Administrator for Space Flight, may then consider other candidate payload specialists. The payload sponsor will be responsible for:

(i) Establishing professional and operational criteria for payload specialists for specific payloads. The criteria will include willingness on the part of the candidate to accept the applicable provisions of §1214.306 and satisfactory completion of a background investigation conducted to NASA’s standards, as determined by the Director, NASA Security Office.

(ii) Evaluating all candidates using the criteria established.

(iii) Determining which candidate payload specialists, who meet the NASA Class III Space Flight Medical Selection Standards, are deemed best professionally qualified. (The preselection phases of the medical examination will be conducted at the Johnson Space Center by certified examiners approved by the Director, Life Sciences Division, NASA Headquarters).

(iv) Submitting its recommendations for payload specialist selection to the Associate Administrator for Space Flight for approval.

e) Preflight activities for additional crew members. Mission specialists serving as additional crew for the payload, once selected, will be primarily responsible to the mission manager who, together with the IWG (or comparable body designated by the payload sponsor) and the Director, Flight Crew Operations, will determine the integrated training and work schedules as appropriate to the areas of responsibilities outlined in the following paragraphs.

(1) The IWG for NASA and NASA-related payloads or the Payload Sponsor for all other payloads is responsible for defining the training necessary for payload elements within its cognizance. The mission manager is responsible for
the total integrated payload training and will assist the IWG as necessary in carrying out the defined training activities.

(2) The Director, Flight Crew Operations, is responsible for establishing the training requirements for payload specialists on Orbiter, Spacelab, and STS-provided payload support systems as appropriate. In order to enhance the crew integration process, the additional crew members (payload specialists and additional mission specialists) will be based at the Johnson Space Center 6 months prior to flight, unless otherwise agreed between the payload sponsor and the Director, Flight Crew Operations, Johnson Space Center.

(3) The payload specialists must be certified for flight by the Director, Flight Crew Operations, upon satisfactory completion of all required training and demonstrated performance of assigned tasks. Certification of the payload specialist’s readiness for flight will be made to the payload mission manager and will include an assessment by the crew commander of the payload specialist’s suitability for space flight.

(4) The mission manager is responsible for verifying to the payload sponsor that all crew members are properly trained for in-flight payload operations.

(i) The medical program for payload specialists will be continued during the preflight period in accordance with the NASA Class III Space Flight Medical Selection Standards.

(ii) If, during the preflight period, the number of additional crew members is reduced to fewer than that agreed to, or an additional crew member does not meet the certification requirements, the necessary reprocessing may be initiated to provide replacements consistent with the above described selection process and the STS training requirements.

(f) Designation of primary and backup payload specialists (when required). At an appropriate time designated by the mission manager (not later than 9 months prior to flight), the IWG for NASA and NASA-related payloads or payload sponsor for all other payloads will recommend which payload specialists should be designated as prime and which as backup. However, in cases where mission specialists have been selected for the payload specialist position(s), they will be considered as primary at the time of selection. The recommendations will be forwarded by the mission manager to the Program Office which will review the recommendations and forward them to the Associate Administrator for Space Flight for concurrence. The payload sponsor and the Associate Administrator for Space Flight will advise the Administrator of the selection process.

(g) Effective date. The described selection process will apply to all STS missions, for which selections have not been approved prior to December 31, 1988.

§1214.305 Payload specialist responsibilities.

(a) Relationship with flight crew. The crew commander has overall responsibility for crew integration and the safe and successful conduct of the mission. With respect to crew and vehicle safety, the commander has ultimate responsibility and authority for all assigned crew duties. The payload specialist is responsible to the authority of the commander and operates in compliance with mission rules and Payload Operation Control Center directives. Payload specialists are expected to operate as an integral part of the crew and will participate in crew activities as specified by the crew commander.

(b) Operation of payload elements. The payload specialist will be responsible for the operation of the assigned payload elements. Onboard decisions concerning assigned payload operations will be made by the payload specialist. A payload specialist may be designated to resolve conflicts between the payload elements and approve such deviation from the flight plan as may arise from equipment failures or STS factors. In the instance of STS factors, the mission specialist will present the available options for the payload-related decisions by the payload specialist.

(c) Operation of STS equipment. The payload specialist will be responsible for knowing how to operate certain Orbiter systems, such as hatches, food,
§ 1214.306 Payload specialist relationship with sponsoring institutions.  

Specialists who are not U.S. Government employees must enter into a contractual or other arrangement establishing an obligatory relationship with an institution participating in the payload as designated by the payload sponsor prior to selection and before entering into training at a NASA installation or NASA-designated location. Payload specialists who are not otherwise U.S. Government employees will not become U.S. Government employees by virtue of being selected as a payload specialist. Except as specified in the following paragraphs of this section, NASA will not enter into any direct contractual or other arrangement with individual payload specialists. Any exception must be approved by the NASA Administrator.

(a) Payload specialists who are not citizens of the United States will be required to enter into an agreement with NASA in which they agree to accept and be governed by specified standards of conduct. Any such agreement will be signed on behalf of NASA by the NASA General Counsel or designee.

(b) Payload specialists who are citizens of the United States and who are not employees of the U.S. Government, will be required to enter into an agreement with NASA in which they agree to accept and be governed by specified standards of conduct. Any such agreement will be signed on behalf of NASA by the NASA General Counsel or designee.

Subpart 1214.4—International Space Station Crew

SOURCE: 65 FR 80303, Dec. 21, 2000, unless otherwise noted.

§ 1214.400 Scope.

(a) This subpart sets forth policy and procedures with respect to International Space Station crewmembers provided by NASA for flight to the International Space Station.

(b) In order to provide for the safe operation, maintenance of order, and proper conduct of crew aboard the International Space Station, the January 29, 1998, Agreement Among the Government of Canada, Governments of Member States of the European Space Agency, the Government of Japan, the Government of the Russian Federation, and the Government of the United States of America Concerning Cooperation on the Civil International Space Station (hereinafter Agreement), which establishes and governs the International Space Station, requires the development and approval of a Code of Conduct for International Space Station crew. Pursuant to Article 11 of the Agreement, each International Space Station partner is obliged to ensure that crewmembers which it provides observe the Code of Conduct.

§ 1214.401 Applicability.

This subpart applies to all persons provided by NASA for flight to the International Space Station, including
§ 1214.402 International Space Station crewmember responsibilities.

(a) All NASA-provided International Space Station crewmembers are subject to specified standards of conduct, including those prescribed in the Code of Conduct for the International Space Station Crew, set forth as §1214.403. NASA-provided International Space Station crew members may be subject to additional standards and requirements, as determined by NASA, which will be made available to those NASA-provided crewmembers, as appropriate.

(1) NASA-provided International Space Station crewmembers who are not citizens of the United States will be required to enter into an agreement with NASA in which they agree to comply with specified standards of conduct, including those prescribed in the Code of Conduct for the International Space Station Crew (§1214.403). Any such agreement will be signed on behalf of NASA by the NASA General Counsel or designee.

(2) NASA-provided International Space Station crewmembers who are citizens of the United States but are not employees of the U.S. Government will be required to enter into an agreement with NASA in which they agree to comply with specified standards of conduct, including those prescribed in the Code of Conduct for the International Space Station Crew (§1214.403). Any such agreement will be signed on behalf of NASA by the NASA General Counsel or designee.

(3) NASA-provided International Space Station crewmembers who are employed by a branch, department, or agency of the U.S. Government may, as determined by the NASA General Counsel, be required to enter into an agreement with NASA to comply with specified standards of conduct, including those prescribed in the Code of Conduct for the International Space Station Crew (§1214.403). Any such agreement will be signed on behalf of NASA by the NASA General Counsel or designee.

(b) All NASA-provided personnel on board the International Space Station are additionally subject to the authority of the International Space Station Commander and shall comply with Commander’s orders and directions.

§ 1214.403 Code of Conduct for the International Space Station Crew.

The Code of Conduct for the International Space Station Crew, which sets forth minimum standards for NASA-provided International Space Station crewmembers, is as follows:

CODE OF CONDUCT FOR THE INTERNATIONAL SPACE STATION CREW

I. INTRODUCTION

A. Authority

This Code of Conduct for the International Space Station (ISS) crew, hereinafter referred to as Crew Code of Conduct (CCOC), is established pursuant to:

(1) Article 11 (Crew) of the intergovernmental Agreement Among the Government of Canada, Governments of Member States of the European Space Agency, the Government of Japan, the Government of the Russian Federation, and the Government of the United States of America Concerning Cooperation on the Civil International Space Station (the IGA) signed by the Partner States on January 29, 1998; and

(2) Article 11 (Space Station Crew) of the Memoranda of Understanding between, respectively, the National Aeronautics and Space Administration of the United States of America (NASA) and the Canadian Space Agency (CSA), NASA and the European Space Agency (ESA), NASA and the Government of Japan (GOJ), and NASA and the Russian Space Agency (RSA) Concerning Cooperation on the Civil International Space Station (the MOU’s), which require, inter alia, that the crew Code of Conduct be developed by the partners.

B. Scope and Content

The partners have developed and approved this CCOC to: establish a clear chain of command on-orbit; establish a clear relationship between ground and on-orbit management; establish a management hierarchy; set forth standards for work and activities in space, and, as appropriate, on the ground; establish responsibilities with respect to elements and equipment; set forth disciplinary regulations; establish physical and information security guidelines; and define the ISS Commander’s authority and responsibility.
on behalf of all the partners, to enforce safety procedures, physical and information security procedures and crew rescue procedures for the ISS. This CCOC and the disciplinary policy referred to in Section IV shall not limit the application of Article 22 of the IGA. This CCOC succeeds the NASA-RSA Interim Code of Conduct, which was developed pursuant to Article 11.2 of the MOU between NASA and RSA to cover early assembly prior to other partners' flight opportunities.

This CCOC sets forth the standards of conduct applicable to all ISS crewmembers during preflight, on-orbit, and post-flight activities, (including launch and return phases). ISS crewmembers are subject to additional requirements, such as the ISS Flight Rules, the disciplinary policy, and requirements imposed by their Cooperating Agency or those relating to the Earth-to-Orbit Vehicle (ETOV) transporting an ISS crewmember. Each ISS crewmember has a right to know about such additional requirements. ISS crewmembers will also abide by the rules of the institution hosting the training, and by standards and requirements defined by the Multilateral Crew Operations Panel (MCOP), the Multilateral Space Medicine Board (MSMB) and the Multilateral Medical Operations Panel (MMOP). Each ISS crewmember will be informed by the Cooperating Agency providing him or her through the crew training curriculum and normal program operations as to ISS program rules, operational directives and management policies. Completion of postflight activities shall not affect an ISS crewmember’s continuing obligations under Section V of this CCOC.

C. Definitions

For the purposes of the CCOC:

1. “Cooperating Agency” means NASA, CSA, ESA, Rosaviakosmos (formerly RSA) and, in the case of Japan, the Science and Technology Agency of Japan (STA) and, as appropriate, the National Space Development Agency of Japan (NASDA), assisting agency to STA.

2. “Crew Surgeon” means a Flight Surgeon assigned by the MMOP to any given expedition. He or she is the lead medical officer and carries primary responsibility for the health and well-being of the entire ISS crew.

3. “Disciplinary policy” means the policy developed by the MCOP to address violations of the CCOC and impose disciplinary measures.

4. “ETOV” means Earth-to-Orbit Vehicle travelling between Earth and the ISS.

5. “Flight Director” means the Flight Director in control of the ISS.

6. “Flight Rules” means the set of rules used by the Cooperating Agencies to govern flight operations.

7. “ISS crewmembers” means any person approved for flight to the ISS, including both ISS expedition crew and visiting crew, beginning upon assignment to the crew for a specific and ending upon completion of the postflight activities related to the mission.

II. General Standards

A. Responsibilities of ISS Crewmembers

ISS Crewmembers shall comply with the CCOC. Accordingly, during preflight, on-orbit, and postflight activities, they shall comply with the ISS Commander’s orders, all Flight and ISS program Rules, operational directives, and management policies, as applicable. These include those related to safety, health, well-being, security, and other operational or management matters governing all aspects of ISS elements, equipment, payloads and facilities, and non-ISS facilities, to which they have access. All applicable rules, regulations, directives, and policies shall be made accessible to ISS crewmembers through appropriate means, coordinated by the MCOP.

B. General Rules of Conduct

ISS Crewmembers’ conduct shall be such as to maintain a harmonious and cohesive relationship among the ISS crewmembers and an appropriate level of mutual confidence and respect through an interactive, participative, and relationship-oriented approach which duly takes into account the international and multicultural nature of the crew and mission.

No ISS crewmember shall, by his or her conduct, act in a manner which results in or creates the appearance of: (1) Giving undue preferential treatment to any person or entity in the performance of ISS activities; and/or (2) adversely affecting the confidence of the public in the integrity of, or reflecting unfavorably in a public forum on, any ISS partner, partner state or Cooperating Agency.

ISS crewmembers shall protect and conserve all property to which they have access for ISS activities. No such property shall be altered or removed for any purpose other than those necessary for the performance of ISS duties. Before altering or removing any such property, ISS crewmembers shall first obtain authorization from the Flight Director, except as necessary to ensure the immediate safety of ISS crewmembers or ISS elements, equipment, or payloads.

C. Use of Position

ISS crewmembers shall refrain from any use of the position of ISS crewmember that is motivated, or has the appearance of being
motivated, by private gain, including financial gain, for himself or herself or other persons or entities. Performance of ISS duties shall not be considered to be motivated by private gain. Furthermore, no ISS crewmember shall use the position of ISS crewmember in any way to coerce, or give the appearance of coercing, another person to provide any financial benefit to himself or herself or other persons or entities.

D. Mementos and Personal Effects

Each ISS crewmember may carry and store mementos, including flags, patches, insignia, and similar small items of minor value, onboard the ISS, for his or her private use, subject to the following:

(1) mementos are permitted as a courtesy, not an entitlement; as such they shall be considered as ballast as opposed to a payload or mission requirement and are subject to manifest limitations, on-orbit stowage allocations, and safety considerations;

(2) mementos may not be sold, transferred for sale, used or transferred for personal gain, or used or transferred for any commercial or fundraising purpose. Mementos which, by their nature, lend themselves to exploitation by the recipients, or which, in the opinion of the Cooperating Agency providing the ISS crewmember, engender questions as to good taste, will not be permitted. An ISS crewmember’s personal effects, such as a wristwatch, will not be considered mementos. Personal effects of any nature may be permitted, subject to constraints of mass/volume allowances for crew personal effects.

(3) mementos may not be sold, transferred for sale, used or transferred for personal gain, or used or transferred for any commercial or fundraising purpose. Mementos which, by their nature, lend themselves to exploitation by the recipients, or which, in the opinion of the Cooperating Agency providing the ISS crewmember, engender questions as to good taste, will not be permitted. An ISS crewmember’s personal effects, such as a wristwatch, will not be considered mementos. Personal effects of any nature may be permitted, subject to constraints of mass/volume allowances for crew personal effects.

(4) mementos may not be sold, transferred for sale, used or transferred for personal gain, or used or transferred for any commercial or fundraising purpose. Mementos which, by their nature, lend themselves to exploitation by the recipients, or which, in the opinion of the Cooperating Agency providing the ISS crewmember, engender questions as to good taste, will not be permitted. An ISS crewmember’s personal effects, such as a wristwatch, will not be considered mementos. Personal effects of any nature may be permitted, subject to constraints of mass/volume allowances for crew personal effects.

(5) mementos may not be sold, transferred for sale, used or transferred for personal gain, or used or transferred for any commercial or fundraising purpose. Mementos which, by their nature, lend themselves to exploitation by the recipients, or which, in the opinion of the Cooperating Agency providing the ISS crewmember, engender questions as to good taste, will not be permitted. An ISS crewmember’s personal effects, such as a wristwatch, will not be considered mementos. Personal effects of any nature may be permitted, subject to constraints of mass/volume allowances for crew personal effects.

(6) mementos may not be sold, transferred for sale, used or transferred for personal gain, or used or transferred for any commercial or fundraising purpose. Mementos which, by their nature, lend themselves to exploitation by the recipients, or which, in the opinion of the Cooperating Agency providing the ISS crewmember, engender questions as to good taste, will not be permitted. An ISS crewmember’s personal effects, such as a wristwatch, will not be considered mementos. Personal effects of any nature may be permitted, subject to constraints of mass/volume allowances for crew personal effects.

(7) mementos may not be sold, transferred for sale, used or transferred for personal gain, or used or transferred for any commercial or fundraising purpose. Mementos which, by their nature, lend themselves to exploitation by the recipients, or which, in the opinion of the Cooperating Agency providing the ISS crewmember, engender questions as to good taste, will not be permitted. An ISS crewmember’s personal effects, such as a wristwatch, will not be considered mementos. Personal effects of any nature may be permitted, subject to constraints of mass/volume allowances for crew personal effects.

If a Cooperating Agency carries and stores items onboard the ISS in connection with separate arrangements, these items will not be considered mementos of the ISS crewmembers.

III. AUTHORITY AND RESPONSIBILITIES OF THE ISS COMMANDER, CHAIN OF COMMAND AND SUCCESSION ORDER, RELATIONSHIP BETWEEN GROUND AND ON-ORBIT MANAGEMENT

A. Authority and Responsibilities of the ISS Commander

The ISS Commander, as an ISS crewmember, is subject to the standards detailed elsewhere in this CCOC, in addition to the command-specific provisions set forth below:

The ISS Commander will seek to maintain a harmonious and cohesive relationship among the ISS crewmembers and an appropriate level of mutual confidence and respect through an interactive, participative, and relationship-oriented approach which duly takes into account the international and multicultural nature of the crew and mission.

For avoidance of doubt, nothing in this Section shall affect the ability of the MCOP to designate the national of any Partner State as an ISS Commander.

(1) During Preflight and Postflight Activities

The ISS Commander is the leader of the crew and is responsible for forming the individual ISS crewmembers into a single, integrated team. During preflight activities, the ISS Commander, to the extent of his or her authority, leads the ISS crewmembers through the training curriculum and mission-preparation activities and seeks to ensure that the ISS crewmembers are adequately prepared for the mission, acting as the crew’s representative to the ISS program’s training, medical, operations, and utilization authorities. During postflight activities, the ISS Commander coordinates as necessary with these authorities to ensure that the ISS crewmembers complete the required postflight activities.

(2) During On-Orbit Operations

(a) General

The ISS Commander is responsible for and will, to the extent of his or her authority and the ISS on-orbit capabilities, accomplish the mission program implementation and ensure the safety of the ISS crewmembers and the protection of the ISS elements, equipment, or payloads.

(b) Main Responsibilities

The ISS Commander’s main responsibilities are to: (1) Conduct operations in or on the ISS as directed by the Flight Director and in accordance with the Flight Rules, plans and procedures; (2) direct the activities of the ISS crewmembers as a single, integrated team to ensure the successful completion of the mission; (3) fully and accurately inform the Flight Director, in a timely manner, of the ISS vehicle configuration, status, commanding, and other operational activities; (3) direct the activities of the ISS crewmembers as a single, integrated team to ensure the successful completion of the mission; (4) enforce procedures for the physical and information security of operations and utilization data; (5) maintain order; (6) ensure crew safety, health and well-being including crew rescue and return; and (7) take all reasonable action necessary for the protection of the ISS elements, equipment, or payloads.

(c) Scope of Authority

During all phases of on-orbit activity, the ISS Commander, consistent with the authority of the Flight Director, shall have the authority to use any reasonable and necessary means to fulfill his or her responsibilities. This authority, which shall be exercised consistent with the provisions of Sections 11 and
IV, extends to: (1) the ISS elements, equipment, and payloads; (2) the ISS crewmembers; (3) activities of any kind occurring in or on the ISS; and (4) data and personal effects in or on the ISS where necessary to protect the safety and well-being of the ISS crewmembers and the ISS elements, equipment, and payloads. Any matter outside the ISS Commander's authority shall be within the purview of the Flight Director.

Issues regarding the Commander's use of such authority shall be referred to the Flight Director as soon as practicable, who will refer the matter to appropriate authorities for further handling. Although other ISS crewmembers may have authority over and responsibility for certain ISS elements, equipment, payloads, or tasks, the ISS Commander remains ultimately responsible, and solely accountable, to the Flight Director for the successful completion of the activities and the mission.

B. Chain of Command and Succession On-orbit

(1) The ISS Commander is the highest authority among the ISS crewmembers on-orbit. The MCOP will determine the order of succession among the ISS crewmembers in advance of flight, and the Flight Rules set forth the implementation of a change of command.

(2) Relationship of the ISS Commander to ETOV and Other Commanders

The Flight Rules define the authority of the ETOV Commander, the Rescue Vehicle Commander, and any other commanders, and set forth the relationship between their respective authorities and the authority of the ISS Commander.

C. Relationship Between the ISS Commander (On-Orbit Management) and the Flight Director (Ground Management)

The Flight Director is responsible for directing the mission. A Flight Director will be in charge of directing real-time ISS operations at all time. The ISS Commander, working under the direction of the Flight Director and in accordance with the Flight Rules, is responsible for conducting on-orbit operations in the manner best suited to the effective implementation of the mission. The ISS Commander, acting on his or her own authority, is entitled to change the daily routine of the ISS crewmembers where necessary to address contingencies, perform urgent work associated with crew safety and the protection of the ISS elements, equipment or payloads, or conduct critical flight operations. Otherwise, the ISS Commander should implement the mission as directed by the Flight Director. Specific roles and responsibilities of the ISS Commander and the Flight Director are described in the Flight Rules. The Flight Rules outline decisions planned in advance of the mission and are designed to minimize the amount of real-time discussion required during mission operations.

IV. DISCIPLINARY REGULATIONS

ISS crewmembers will be subject to the disciplinary policy developed and revised as necessary by the MCOP and approved by the Multilateral Coordination Board (MCB). The MCB has developed an initial disciplinary policy which has been approved by the MCB. The disciplinary policy is designed to maintain order among the ISS crewmembers during preflight, on-orbit and postflight activities. The disciplinary policy is administrative in nature and is intended to address violations of the CCO. Such violations may, inter alia, affect flight assignments as an ISS crewmember. The disciplinary policy does not limit a Cooperating Agency’s right to apply relevant laws, regulations, policies, and procedures to the ISS crewmembers it provides, consistent with the IGA and the MOU.

V. PHYSICAL AND INFORMATION SECURITY GUIDELINES

The use of all equipment and goods to which ISS crewmembers have access shall be limited to the performance of ISS duties. Marked or otherwise identified as export controlled data and marked proprietary data obtained by an ISS crewmember in the course of ISS activities shall only be used in the performance of his or her ISS duties. With respect to data first generated on-board the ISS, the ISS crewmembers will be advised by the appropriate Cooperating Agency or by the data owner or provider through that Cooperating Agency as to the proprietary or export-controlled nature of the data and will be directed to mark and protect such data and to continue such protection for as long as the requirements for such protection remain in place. Additionally, ISS crewmembers shall act in a manner consistent with the provisions of the IGA and the MOU’s regarding protection of operations data, utilization data, and the intellectual property of ISS users. They shall also comply with applicable ISS program rules, operational directives, and management policies designed to further such protections.

Personal information about ISS crewmembers, including all medical information, private family conference, or other private information, whether from verbal, written, or electronic sources, shall not be used or disclosed by other ISS crewmembers for any purpose, without the consent of the affected ISS crewmember, except as required for the immediate safety of ISS crewmembers or the protection of ISS elements, equipment, or payloads. In particular, all personal medical information, whether derived from medical
monitoring, investigations, or medical contingency events, shall be treated as private medical information and shall be transmitted in a private and secure fashion in accordance with procedures to be set forth by the MMOP. Medical data which must be handled in this fashion includes, for example, biomedical telemetry, private medical communications, and medical investigation data. Nothing in this paragraph shall be interpreted to limit an ISS crewmember’s access to all medical resources aboard the ISS, to ground-based medical support services, or to his or her own medical data during pre-flight, on-orbit, and postflight activities.

VI. PROTECTION OF HUMAN RESEARCH SUBJECTS

No research on human subjects shall be conducted which could, with reasonable foresight, be expected to jeopardize the life, health, physical integrity, or safety of the subject.

No research procedures shall be undertaken with any ISS crewmember as a human subject without: (1) written approval by the Human Research Multilateral Review Board (HRMRB) and (2) the full written and informed consent of the human subject. Each such approval and consent shall be obtained prior to the initiation of such research, and shall fully comply with the requirements of the HRMRB. The HRMRB is responsible for procedures for initiation of new experiments on-orbit when all consent requirements have been met, but the signature of the human subject cannot be obtained; explicit consent of the human subject will nonetheless be required in all such cases. Subjects volunteering for human research protocols may at their own discretion, and without providing a rationale, withdraw their consent for participation at any time, without prejudice, and without incurring disciplinary action. In addition, approval or consent for any research may be revoked at any time, including after the commencement of the research, by: the HRMRB, the Crew Surgeon, the Flight Director, or the ISS Commander, as appropriate, if the research would endanger the ISS Crew Member or otherwise threaten the mission success. A decision to revoke consent by the human subject or approval by the other entities listed above will be final.

§ 1214.502 Violations.

This subpart is a regulation within the meaning of 18 U.S.C. 799, and whoever willfully violates, attempts to violate, or conspires to violate any provision of this subpart or any order or direction issued under this subpart may be cited for violating title 18 of the U.S. Code and could be fined or imprisoned not more than 1 year, or both.

Subpart 1214.5—Mission Critical Space System Personnel Reliability Program

SOURCE: 55 FR 53289, Dec. 28, 1990, unless otherwise noted.

§ 1214.500 Scope.

This subpart 1214.5 establishes a program designed to ensure that personnel assigned to mission critical positions/duties meet the screening requirements outlined in §1214.504 of this part.

§ 1214.501 Applicability.

(a) This regulation applies to civil service and contractor personnel at NASA Headquarters and field installations who work in activities that are vital to the safety and success of mission critical space systems.

(b) The provisions of this regulation apply to all civil service and contractor personnel assigned to mission critical positions/duties with the exception of the personnel addressed in §1214.501(c) of this part. This includes command and decision making personnel as well as technicians.

(c) This regulation does not include flight crew or payload specialists. They are covered by NASA Management Instruction (NMI) 33304 (14 CFR part 1214, subpart 1214.11), “NASA Astronaut Candidate Recruitment and Selection Program.”

(d) This regulation applies to Space Station Freedom International Partners in that the certification requirements in §1214.505(f) of this part apply to foreign personnel in mission critical positions/duties.

§ 1214.502 Definitions.

(a) Mission Critical Space Systems. The Space Shuttle and other critical space systems, including Space Station Freedom, designated Expendable Launch Vehicles (ELV’s), designated payloads, Shuttle Carrier Aircraft and other designated resources that provide access to space. The Director of each NASA Installation will designate areas associated with these systems that are mission critical space systems areas.

(b) Mission Critical Positions/Duties. Positions/duties which, if performed in
§ 1214.503

(a) The Space Shuttle and the Space Station Freedom are included in the NASA National Resource Protection Program as delineated in NMI 8610.22, “National Resource Protection Program.” The Space Shuttle and the Space Station Freedom provide a capability to support a wide range of scientific applications and commercial, defense, and international uses. Since they will contribute significantly to ensuring a scientifically, technologically, and economically strong and secure nation, program reliability, operational and safety considerations require that stringent measures be taken to provide for the protection of the systems. In addition to the Space Shuttle and the Space Station Freedom, designated ELVs, designated payloads, Shuttle Carrier Aircraft and other designated resources which provide the same critical access to space or the ability to accomplish critical objectives in space are considered to constitute valued national resources.

(b) Measures to ensure this protection are:

(1) Special physical security provisions as provided in NMI 8610.22.

(2) Procedures to ensure that personnel assigned to mission critical positions/duties meet screening requirements, as set forth in §1214.504 of this part prior to unescorted access to areas where mission critical space systems are located.

§ 1214.504

Screening requirements.

(a) Only those persons who are certified under the PRP will have unescorted access to mission critical space systems areas, be assigned to, employed in, or retained in mission critical positions/duties. While this regulation provides for unescorted access to mission critical space systems areas, it does not preclude the need for escorting of PRP personnel who do not have security clearances in classified areas. The certification will be based on an evaluation of screening data which is to be undertaken by a trained evaluator using evaluation guidance and criteria contained in Federal Personnel Manual (FPM) chapter 731 and Attachment B (Adjudication Guidelines) of NMI 8610.13. The need for impartial and consistent evaluation of data based on a set of standards is considered paramount to the successful implementation of this program.

(b) Determination of suitability for assignment to mission critical positions/duties will be made on the basis of the following criteria:

Copies may be obtained from NASA Headquarters (Code NA-2), Washington, DC 20546.
§ 1214.505 Program implementation.

(a) The Director of each NASA Installation will designate mission critical space systems areas.

(b) NASA installations will identify positions/duties subject to this regulation and will identify all civil service and contractor personnel assigned to these positions/duties. The number of persons so identified must be the absolute minimum necessary to meet operational requirements.

(c) Each NASA installation to which this regulation is applicable will establish:

(1) A suitability certification system including a designated certifying official to ensure that the screening requirements of this regulation are met. Adjudication Guidelines (Attachment B of NMI 8610.13) provides a baseline for each installation to consider in formulating a certification approach. The screening/evaluation plans and procedures formulated at each installation will be approved by Headquarters (Office of Safety and Mission Quality (Code Q) and appropriate Program Associate Administrators) before implementation.

(2) A management review process to validate the objectivity of individual suitability certification determinations and to ensure that reassignments or other personnel actions taken pursuant to this regulation are fair and in consonance with applicable personnel policies and procedures.

(3) An adequate training program for certifying officials, supervisors, adjudicators, and other installation personnel approved by Headquarters Code Q before implementation.

(4) Each NASA installation will maintain a roster of installation adjudicators. Directors of the Installations will approve appointment of adjudicators.

(d) Supervisors will:

(1) Review for reliability and nominate personnel whose duties require certification under the PRP.

(2) Certify that the PRP candidate holds current licenses, skill training certificates, and other documentation issued as required by applicable directives.

(3) Brief PRP candidates and rebrief PRP personnel on the needs and intent of the PRP.

(4) Monitor and continually evaluate personnel for steady reliable performance and notify the certifying official
§ 1214.600  Scope.

This subpart establishes policy, procedures, and responsibilities for selecting, approving, packing, storing, and disposing of mementos carried on Space Shuttle flights.

§ 1214.601  Definitions.

(a) Mementos. Flags, patches, insignia, medallions, minor graphics, and similar items of little commercial value, especially suited for display by the individuals or groups to whom they have been presented.

(b) Official Flight Kit (OFK). A container, approximately 0.057 cubic meters (2 cubic feet) in size, reserved for carrying official mementos of NASA and other organizations aboard Space Shuttle flights. No personal items will be carried in the OFK.

(c) Personal Preference Kit (PPK). A container, approximately 12.82 centimeters × 20.51 centimeters × 5.13 centimeters (5′′×8′′×2′′) in size, separately assigned to each individual accompanying a Space Shuttle flight for carrying personal mementos during the flight.

§ 1214.602  Policy.

(a) Premise. Mementos are welcome aboard Space Shuttle flights. However, they are flown as a courtesy—not as an entitlement. The Associate Administrator for Space Flight is free to make exceptions to this accommodation without explanation. Moreover, mementos are ballast not payload. They can be reduced or eliminated (by the Deputy Director, Space Shuttle Program, Johnson Space Center) for weight, volume, or other technical reasons without reference to higher authority.

(b) Constraints. Mementos to be carried on Space Shuttle flights must be approved by the Associate Administrator for Space Flight and are stowed only in an OFK or a PPK.
§ 1214.604 Personal Preference Kit (PPK).

(a) Purpose. The PPK enables persons accompanying Space Shuttle flights to carry personal items for use as mementos. Only those individuals actually accompanying such flights (astronaut crew members, payload specialists, and space flight participants) may request authorization to carry personal items as mementos. These items must be carried in individually assigned PPK’s.

(b) Limitations. The contents of a PPK must be limited to 20 separate items, with a total weight of 0.682 kilograms (1.5 pounds). Each item is allocated for a different recipient and distributed accordingly. The volume of a PPK must be contained in a 12.82 centimeters × 20.51 centimeters × 5.13 centimeters (5”×8”×2”) bag provided by NASA. Increases in these limitations will be authorized only by the Associate Administrator for Space Flight.

(c) Approval of Contents. At least 60 days before the scheduled launch of a Space Shuttle flight, each person assigned to the flight who desires to carry items in a PPK must submit a
§ 1214.605 Proposed list of items and their recipients to the Associate Director, Johnson Space Center. The Associate Director will review the requests for compliance with this subpart and submit the crew members’ PPK lists through supervisory channels to the Associate Administrator for Space Flight for approval. A signed copy of the Associate Administrator for Space Flight’s approval will be returned to the Director, Johnson Space Center, for appropriate distribution.

§ 1214.605 Preflight packing and storing.
   (a) Items intended for inclusion in OFK’s or PPK’s must arrive at the Johnson Space Center, Code AC, at least 45 days prior to the flight on which they are scheduled in order for them to be listed on the cargo manifest, packaged, weighed, and stowed aboard the Orbiter. Items must arrive at the Johnson Space Center prior to the 45-day limit even if the Associate Administrator for Space Flight’s approval is still pending. Items not approved by the Associate Administrator for Space Flight will be returned to the requesting individual/organization.
   (b) The Associate Director, Johnson Space Center, is responsible for the following:
      (1) Securing the items while awaiting the launch on which they are manifested.
      (2) Packaging, weighing, and stowing the items according to the manifests approved by the Associate Administrator for Space Flight.

§ 1214.606 Postflight disposition.
   The Associate Director, Johnson Space Center, will:
   (a) Receive and inventory all items flown in the OFK and PPK’s following each Shuttle flight.
   (b) Return the contents of the PPK’s to the persons who submitted them.
   (c) Return all other flown items to the submitting organizations with an appropriate letter of certification.
   (d) Retain and secure mementos flown by the Agency for future use.

§ 1214.607 Media and public inquiries.
   (a) Official Flight Kit. Information on the contents of OFK’s will be routinely released to the media and to the public upon their request, but only after the contents have been approved by the Associate Administrator for Space Flight.
   (b) Personal Preference Kit. Information on the contents of PPK’s will be routinely released to the media and to the public upon their request immediately following postflight inventory.
   (c) Responsibility for Release of Information. The Director of Public Affairs, Johnson Space Center, is responsible for the prompt release of information on OFK and PPK contents.

§ 1214.608 Safety requirements.
   The contents of OFK’s and PPK’s must meet the requirements set forth in NASA Handbook 1700.7, “Safety Policy and Requirements for Payloads Using the Space Transportation System (STS).”

§ 1214.609 Loss or theft.
   (a) Responsibility. The National Aeronautics and Space Administration will not be responsible for the loss or theft of, or damage to, items carried in OFK’s or PPK’s.
   (b) Report of Loss or Theft. Any person who learns that an item contained in an OFK or a PPK is missing shall immediately report the loss to the Johnson Space Center Security Office and the NASA Inspector General.

§ 1214.610 Violations.
   Any item carried in violation of the requirements of this subpart shall become the property of the U.S. Government, subject to applicable Federal laws and regulations, and the violator may be subject to disciplinary action, including being permanently prohibited from use of, or, if an individual, from flying aboard the Space Shuttle or any other manned spacecraft of the National Aeronautics and Space Administration.

Subpart 1214.7—The Authority of the Space Shuttle Commander

SOURCE: 45 FR 14845, Mar. 7, 1980, unless otherwise noted.
§ 1214.700 Scope.

This subpart establishes the authority of the Space Shuttle commander to enforce order and discipline during all flight phases of a Shuttle flight to take whatever action in his/her judgment is necessary for the protection, safety, and well-being of all personnel and onboard equipment, including the Space Shuttle elements and payloads. During the final launch countdown, following crew ingress, the Space Shuttle commander has the authority to enforce order and discipline among all onboard personnel. During emergency situations prior to liftoff the Space Shuttle commander has the authority to take whatever action in his/her judgment is necessary for the protection or security, safety, and well-being of all personnel on board.

[56 FR 27899, June 18, 1991]

§ 1214.701 Definitions.

(a) Space Shuttle Elements consists of the Orbiter, an External Tank, two Solid Rocket Boosters, Spacelab, Upper Stage Boosters (Solid Spinning Upper Stage and Interim Upper Stages) and others as specified in NASA Management Instruction 8040.9.

(b) The flight crew consists of the commander, pilot, and mission specialist(s).

(c) A flight is the period from launch to landing of a Space Shuttle—a single round trip. (In the case of a forced landing the Space Shuttle commander’s authority continues until a competent authority takes over the responsibility for the Orbiter and for the persons and property aboard.)

(d) The flight-phases consist of launch, in orbit, deorbit, entry, landing, and postlanding.

(e) A payload is a specific complement of instruments, space equipment, and support hardware/software carried into space to accomplish a scientific mission or discrete activity.

(f) Personnel on board refers to those astronauts or other persons actually in the Orbiter or Spacelab during any flight phase of a Space Shuttle flight (including any persons who may have transferred from another vehicle) and including any persons performing extravehicular activity associated with the mission.

§ 1214.702 Authority and responsibility of the Space Shuttle commander.

(a) During all flight phases of a Space Shuttle flight, the Space Shuttle commander shall have the absolute authority to take whatever action is in his/her discretion necessary to:

(1) Enhance order and discipline,

(2) Provide for the safety and well-being of all personnel on board, and

(3) Provide for the protection of the Space Shuttle elements and any payload carried or serviced by the Space Shuttle.

The commander shall have authority throughout the flight to use any reasonable and necessary means, including the use of physical force, to achieve this end.

(b) The authority of the commander extends to any and all personnel on board the Orbiter including Federal officers and employees and all other persons whether or not they are U.S. nationals.

(c) The authority of the commander extends to all Space Shuttle elements, payloads, and activities originating with or defined to be a part of the Space Shuttle mission.

(d) The commander may, when he/she deems such action to be necessary for the safety of the Space Shuttle elements and personnel on board, subject any of the personnel on board to such restraint as the circumstances require until such time as delivery of such individual or individuals to the proper authorities is possible.

§ 1214.703 Chain of command.

(a) The Commander is a career NASA astronaut who has been designated to serve as commander on a particular flight, and who shall have the authority described in §1214.702 of this part.

Under normal flight conditions (other than emergencies or when otherwise
§ 1214.704 Violations.

(a) All personnel on board a Space Shuttle flight are subject to the authority of the commander and shall conform to hisher orders and direction as authorized by this subpart.

(b) This regulation is a regulation within the meaning of 18 U.S.C. 799, and whoever willfully violates, attempts to violate, or conspires to violate any provision of this subpart or any order or direction issued under this subpart shall be fined not more than $5,000 or imprisoned not more than 1 year, or both.

Subpart 1214.8—Reimbursement for Spacelab Services

Source: 50 FR 30809, July 30, 1985, unless otherwise noted.

§ 1214.800 Scope.

This subpart 1214.8 establishes the special reimbursement policy for Spacelab services provided to Space Transportation System (STS) customers governed by the provisions of subpart 1214.1 or subpart 1214.2. It applies to flights occurring in the second phase of STS operations (U.S. Government fiscal years 1986, 1987, and 1988). The following five types of Spacelab flights are available to accommodate payload requirements:

(a) Dedicated-Shuttle Spacelab flight [Ref. §1214.804(e)].

(b) Dedicated-pallet flight [Ref. §1214.804(f)].

(c) Dedicated-FMDM/MPESS (flexible multiplexer-demultiplexer/multipurpose experiment support structure) flight [Ref. §1214.804(f)].

(d) Complete-pallet flight [Ref. §1214.804(g)].

(e) Shared-element flight [Ref. §1214.804(h)].

§ 1214.801 Definitions.

(a) Shuttle policy. The appropriate subpart (1214.1 or 1214.2) governing use of the Shuttle. Determination of the appropriate subpart for each customer shall be made by reference to §§1214.101 and 1214.201.

(b) Spacelab elements. Pallets (3-meter segments), pressurized modules (long or short), and the FMDM/MPESS (1-meter cross-bay structure), all as maintained in the NASA-approved Spacelab configuration.

(c) Standard flight price. The price for standard Shuttle and standard Spacelab services provided. If a customer elects not to use a portion of the standard services, the standard flight price shall not be affected.

(d) Shuttle load factor. The parameter used to compute the customer’s pro rata share of Shuttle services and used to compute the Shuttle charge factor. Means of computing this parameter are defined in §1214.813.

(e) Spacelab load fraction. The parameter used to compute the customer’s pro rata share of each element’s services and used to compute the element charge factor. Means of computing this parameter are defined in §1214.813.
§ 1214.804 Services, pricing basis, and other considerations.

(a) Mandatory use of dedicated-Shuttle Spacelab flight. (1) Customers shall be required to fly under the provisions of paragraph (e) of this section if the customer requires exclusive use of any of the following:
   (i) Pressurized module (long or short).
   (ii) Three pallets in the “1+1+1” configuration.
   (iii) Four pallets in the “2+2” configuration.

(b) Escalation. Payments shall be escalated in accordance with the Shuttle policy.

(c) Customers shall reimburse NASA an amount which is the sum of the customer’s standard flight price and the price for all optional services provided.

(d) Earnest money. For those customers required to pay earnest money by the Shuttle policy, the total earnest money payment per payload for Spacelab payloads (including Shuttle services) shall be the lesser of $150,000 or 10% of the customer’s estimated standard flight price. Earnest money will be applied to the first payment for standard services made for each payload by the customer or will be retained by NASA if a Launch Services Agreement is not signed.

§ 1214.802 Relationship to Shuttle policy.

Except as specifically noted, the provisions of the Shuttle policy also apply to Spacelab payloads. Although some language in the Shuttle policy is Shuttle-specific, it is the intent of this subpart 1214.8 that the Shuttle policy be applied to Spacelab also, including the policy on patent and data rights. However, in the event of any inconsistencies in the policies, the Spacelab policy will govern with respect to Spacelab services.

§ 1214.803 Reimbursement policy.

(a) Reimbursement basis. (1) This policy is established for the second phase of STS operations (U.S. Government fiscal years 1986, 1987, and 1988).

(2) Standard flight price. During this phase, customers covered by subpart 1214.1 or subpart 1214.2 shall reimburse NASA for standard Spacelab services an amount which is a pro rata share of:
   (i) The appropriate dedicated flight price for the customer’s Spacelab mission.
   (ii) The standard price for use of the selected Spacelab elements during the second phase of STS operations.

(3) The price shall be held constant for flights during this phase of STS operations.

(4) Reimbursement policies for subsequent phases of STS operations will be developed after NASA has obtained more operational experience.

§ 1214.804 Services, pricing basis, and other considerations.

(a) Mandatory use of dedicated-Shuttle Spacelab flight. (1) Customers shall be required to fly under the provisions of paragraph (e) of this section if the customer requires exclusive use of any of the following:
   (i) Pressurized module (long or short).
   (ii) Three pallets in the “1+1+1” configuration.
   (iii) Four pallets in the “2+2” configuration.

(b) Escalation. Payments shall be escalated in accordance with the Shuttle policy.

(c) Customers shall reimburse NASA an amount which is the sum of the customer’s standard flight price and the price for all optional services provided.

(d) Earnest money. For those customers required to pay earnest money by the Shuttle policy, the total earnest money payment per payload for Spacelab payloads (including Shuttle services) shall be the lesser of $150,000 or 10% of the customer’s estimated standard flight price. Earnest money will be applied to the first payment for standard services made for each payload by the customer or will be retained by NASA if a Launch Services Agreement is not signed.

§ 1214.802 Relationship to Shuttle policy.

Except as specifically noted, the provisions of the Shuttle policy also apply to Spacelab payloads. Although some language in the Shuttle policy is Shuttle-specific, it is the intent of this subpart 1214.8 that the Shuttle policy be applied to Spacelab also, including the policy on patent and data rights. However, in the event of any inconsistencies in the policies, the Spacelab policy will govern with respect to Spacelab services.

§ 1214.803 Reimbursement policy.

(a) Reimbursement basis. (1) This policy is established for the second phase of STS operations (U.S. Government fiscal years 1986, 1987, and 1988).

(2) Standard flight price. During this phase, customers covered by subpart 1214.1 or subpart 1214.2 shall reimburse NASA for standard Spacelab services an amount which is a pro rata share of:
   (i) The appropriate dedicated flight price for the customer’s Spacelab mission.
   (ii) The standard price for use of the selected Spacelab elements during the second phase of STS operations.

(3) The price shall be held constant for flights during this phase of STS operations.

(4) Reimbursement policies for subsequent phases of STS operations will be developed after NASA has obtained more operational experience.

(b) Escalation. Payments shall be escalated in accordance with the Shuttle policy.

(c) Customers shall reimburse NASA an amount which is the sum of the customer’s standard flight price and the price for all optional services provided.

(d) Earnest money. For those customers required to pay earnest money by the Shuttle policy, the total earnest money payment per payload for Spacelab payloads (including Shuttle services) shall be the lesser of $150,000 or 10% of the customer’s estimated standard flight price. Earnest money will be applied to the first payment for standard services made for each payload by the customer or will be retained by NASA if a Launch Services Agreement is not signed.
Spacelab payload one time with no additional charge if postponement occurs more than 18 months before the scheduled launch date.

(2) Postponement or termination fees for Spacelab payloads shall consist of the sum of:
   (i) A fee for Shuttle transporation.
   (ii) A fee for use of the Spacelab elements.

(3) Shuttle transportation fee. Customers shall be governed by the provisions of the Shuttle policy with the following exception. When computing occupancy fees for shared-element payloads, the “adjusted reimbursements from other customers” shall be defined as the adjusted reimbursements from those customers who subsequently contract for the use of the element being shared.

(4) Spacelab use fee. The postponement and termination fees for use of the Spacelab elements are computed as a percentage of the customer’s price for use of the Spacelab elements and shall be based on the table below. When postponement or termination occurs less than 18 months before launch, the fees shall be computed by linear interpolation using the points provided.

(5) At the time of signing of the Launch Services Agreement, NASA shall define a payload removal cutoff date; however, NASA shall not be required to remove the payload before flight.

(d) Minor delays. The minor delay provisions of the Shuttle policy shall apply only to those Spacelab payloads whose Shuttle load factor is equal to or greater than 0.05.

(e) Dedicated-Shuttle Spacelab flight. (1) A dedicated-Shuttle Spacelab flight is a Shuttle flight sold to a single customer who is entitled to select the Spacelab elements used on the flight.

(2) In addition to the standard services listed in paragraph (i) of this section, the following standard services are provided to customers of dedicated-Shuttle Spacelab flights and form the basis for the standard flight price:
   (i) Use of the full standard services of the Shuttle and the Spacelab elements selected.
   (ii) One day of one-shift on-orbit operations.
   (iii) Standard mission destinations as defined in the Shuttle policy.
   (iv) Launch within a negotiated 90-day period in accordance with the dedicated flight scheduling provisions of the Shuttle policy.
   (v) The available payload operations time of two NASA-furnished mission specialists.

(3) Customers contracting for a dedicated-Shuttle Spacelab flight shall reimburse NASA an amount which is the sum of:
   (i) The one-shift operation dedicated flight price for a 1-day Spacelab mission.
   (ii) The price for the use of all Spacelab elements used (including all necessary mission-independent Spacelab equipment).
   (iii) The price for all optional services provided.

(f) Dedicated 3-meter pallets and dedicated FMDM/MPESS. (1) A dedicated pallet (or a dedicated FMDM/MPESS) is one which is sold to a single customer and which includes all Spacelab hardware necessary to permit it to be flown on any shared Shuttle flight as an autonomous payload (e.g., a dedicated 3-meter pallet may either be supplied with its own exclusive igloo or may fly without an igloo if it requires only standard Shuttle services).
§ 1214.804

(2) In addition to a pro rata share of the standard service listed in paragraph (i) of this section, the following standard services are provided to customers of dedicated pallets (or dedicated FMDM/MPESS) and form the basis for establishing the standard flight price:

(i) A pro rata share of the Shuttle services normally provided, where the basis for proration is the customer’s Shuttle load factor as defined in §1214.813(d)(1) for dedicated pallets and in §1214.813(e)(2) for dedicated FMDM/MPESS.

(ii) The exclusive services of the pallet (or FMDM/MPESS) and all Spacelab hardware provided to support the pallet (or FMDM/MPESS).

(iii) One day of one-shift on-orbit operations.

(iv) Launch to the standard mission destination of 160 nmi, 28.5° as defined in the Shuttle policy.

(v) Launch within a prenegotiated 90-day period in accordance with the shared-flight scheduling provisions of the Shuttle policy.

(vi) A pro rata share of the on-orbit payload operations time of two NASA-furnished mission specialists, where the basis of proration shall be the customer’s Shuttle load factor.

(3) Customers contracting for a dedicated pallet (or FMDM/MPESS) flight shall reimburse NASA an amount which is the sum of:

(i) The product of the customer’s Shuttle charge factor and the one-shift-operation dedicated flight price of a 1-day Spacelab mission.

(ii) The price for the use of the pallet (or FMDM/MPESS) selected (including all necessary mission-independent Spacelab equipment).

(iii) The price for all optional services provided.

(g) Complete pallet. (1) A complete Spacelab pallet is one which is sold to a single customer but flies with other Spacelab elements on a NASA or NASA-designated Spacelab flight and shares the common standard Spacelab services, e.g., shares an igloo with other pallets.

(2) In addition to a pro rata share of the standard services listed in paragraph (i) of this section, the following standard services are provided to customers of complete pallets and form the basis for the standard flight price:

(i) The pallet’s pro rata share of standard Shuttle services, where the basis of proration shall be the customer’s Shuttle load factor as defined in §1214.813(f)(1).

(ii) A pro rata share of 7 days of two-shift on-orbit operations, where the basis of proration shall be the customer’s Shuttle load factor.

(iii) Mission destination selected by NASA in consultation with the customer.

(iv) Assignment, with the customer’s concurrence, to a Spacelab flight designated by NASA.

(v) Launch date established by NASA.

(vi) A pro rata share of the on-orbit payload operations time of two NASA-furnished mission specialists, where the basis of proration shall be the customer’s Shuttle load factor.

(vii) Use of the entire volume above a pallet.

(3) Users contracting for complete pallet flights shall reimburse NASA an amount which is the sum of:

(i) The product of the customer’s Shuttle charge factor and the two-shift-operation dedicated flight price of a 7-day Spacelab mission. The dedicated flight price for a 7-day complete-pallet mission is the sum of the dedicated flight price for a 1-day two-shift mission and the charge for 6 extra days of two-shift on-orbit operation.

(ii) The price for the use of a complete pallet, including all necessary mission-independent Spacelab equipment.

(iii) The price for all optional services provided.

(h) Shared element. (1) A shared element is a Spacelab pallet or module which:

(i) Is shared by two or more customers on a NASA-designated Spacelab flight.

(ii) Shares common standard Spacelab services with other Spacelab elements on the same flight.

(2) In addition to a pro rata share of the standard services listed in paragraph (i) of this section, the following standard services are provided to customers of shared elements and form the basis for the standard flight price:
§ 1214.804

(i) For shared pallets, a pro rata share of the standard services provided by a pallet. The basis of proration shall be the customer’s Spacelab load fraction as defined in §1214.813(g)(1)(i).

(ii) For shared modules, a pro rata share of the standard services provided by a long module flown on a dedicated-Shuttle Spacelab flight. The basis of proration shall be the customer’s Spacelab load fraction as defined in §1214.813(g)(1)(ii). The type of pressurized module actually used to meet a customer’s requirement for a shared module shall be determined by NASA subsequent to contract negotiations.

(iii) A pro rata share of the element’s share of standard Shuttle services, where the basis for proration shall be the customer’s Spacelab load fraction.

(iv) A pro rata share of 7 days of two-shift on-orbit operations, where the basis of proration shall be the customer’s Shuttle load factor as defined in §1214.813(g)(1).

(v) Mission destination selected by NASA in consultation with the customer.

(vi) Assignment, with the customer’s concurrence, to a Spacelab flight designated by NASA.

(vii) Launch date established by NASA.

(viii) A pro rata share of the on-orbit operations time of two NASA-furnished mission specialists, where the basis of proration shall be the customer’s Shuttle load factor.

(3) Customers contracting for shared-element flight shall reimburse NASA an amount which is the sum of:

(i) The product of the customer’s Shuttle charge factor and the two-shift operation dedicated flight price of a 7-day Spacelab mission. The dedicated flight price for a 7-day shared-element mission is the sum of the dedicated flight price for a 1-day two-shift-mission and the charge for 6 extra days of two-shift on-orbit operations.

(ii) The product of the customer’s element charge factor and the price for the use of the Spacelab element being used, including all necessary mission-independent Spacelab equipment.

(iii) The price for all optional services provided.

(i) Common standard Spacelab services. The following standard Spacelab services are common to all Spacelab flights:

1. Use of Shuttle and Spacelab hardware.
2. Spacelab interface analysis.
3. Kennedy Space Center (KSC) launch.
4. A five-person NASA flight crew consisting of commander, two pilots, and two mission specialists.

5. Accommodations for a five-person flight crew.

6. Prelaunch integration and interface verification of preassembled racks and pallets (Levels III, II, and I for NASA-furnished Spacelab hardware; Level I only for customer-furnished Spacelab hardware).

7. Shuttle and Spacelab flight planning.

8. Payload electrical power.

9. Payload environmental control.

10. On-board data acquisition and processing services.

11. Transmission of data to a NASA-designed monitoring and control facility via the basic STS Operational Instrumentation (OI) telemetry system.

13. Voice communications between personnel operating the customer’s payload and a NASA-designed payload monitoring and control facility.

14. NASA payload safety review.
15. NASA support of payload design reviews.

(j) Typical optional Spacelab services. The following are typical optional Spacelab services:

1. Use of special payload support equipment, e.g., instrument pointing system.
2. Vandenberg Air Force Base (VAFB) launch.
4. Additional time on orbit.
5. Mission-independent training, use of, and accommodations for all flight personnel in excess of five.

1Typical standard Shuttle services repeated for clarity.
§ 1214.810 Integration of payloads.

(a) The customer shall bear the cost of performing the following typical Spacelab-payload mission management functions:

(1) Analytical design of the mission.

(2) Generation of mission requirements and their documentation in the Payload Integration Plan (PIP).

(3) Provision of mission unique training and payload specialists (if appropriate).

(4) Physical integration of experiments into racks and/or onto pallets.

(5) Provision of payload unique software for use during ground processing, on orbit, or in POCC operations.

(6) Supporting operations.

(7) Assuring the mission is safe.

(b) All physical integration (and de-integration) of payloads into racks and/or onto pallets will normally be performed at KSC by NASA. When the customer provides Spacelab elements, these physical integration activities planned, but unused, extra days on orbit. If a complete-pallet or shared-element flight is prematurely terminated, NASA shall refund a pro rata share of the charges for planned, but unused, extra days on orbit to customers whose payload operations are, in NASA’s judgment, adversely affected by such premature termination. The basis for proration shall be the customers’ Shuttle load factor.

§ 1214.807 Exceptional payloads.

Customers whose payloads qualify under the NASA Exceptional Program Selection Process shall reimburse NASA for Spacelab and Shuttle services on the basis indicated in the Shuttle policy.

§ 1214.808 Standby payloads.

The standby payload provisions of the Shuttle policy do not apply to Spacelab flights.

§ 1214.809 Short-term call-up and accelerated launch.

The short-term call-up and accelerated launch provisions of the Shuttle policy normally are not offered to Spacelab customers. NASA will negotiate any such customer requirements on an individual basis.

§ 1214.810 Integration of payloads.

(a) The customer shall bear the cost of performing the following typical Spacelab-payload mission management functions:

(1) Analytical design of the mission.

(2) Generation of mission requirements and their documentation in the Payload Integration Plan (PIP).

(3) Provision of mission unique training and payload specialists (if appropriate).

(4) Physical integration of experiments into racks and/or onto pallets.

(5) Provision of payload unique software for use during ground processing, on orbit, or in POCC operations.

(6) Supporting operations.

(7) Assuring the mission is safe.

(b) All physical integration (and de-integration) of payloads into racks and/or onto pallets will normally be performed at KSC by NASA. When the customer provides Spacelab elements, these physical integration activities planned, but unused, extra days on orbit. If a complete-pallet or shared-element flight is prematurely terminated, NASA shall refund a pro rata share of the charges for planned, but unused, extra days on orbit to customers whose payload operations are, in NASA’s judgment, adversely affected by such premature termination. The basis for proration shall be the customers’ Shuttle load factor.

§ 1214.807 Exceptional payloads.

Customers whose payloads qualify under the NASA Exceptional Program Selection Process shall reimburse NASA for Spacelab and Shuttle services on the basis indicated in the Shuttle policy.

§ 1214.808 Standby payloads.

The standby payload provisions of the Shuttle policy do not apply to Spacelab flights.

§ 1214.809 Short-term call-up and accelerated launch.

The short-term call-up and accelerated launch provisions of the Shuttle policy normally are not offered to Spacelab customers. NASA will negotiate any such customer requirements on an individual basis.

§ 1214.810 Integration of payloads.

(a) The customer shall bear the cost of performing the following typical Spacelab-payload mission management functions:

(1) Analytical design of the mission.

(2) Generation of mission requirements and their documentation in the Payload Integration Plan (PIP).

(3) Provision of mission unique training and payload specialists (if appropriate).

(4) Physical integration of experiments into racks and/or onto pallets.

(5) Provision of payload unique software for use during ground processing, on orbit, or in POCC operations.

(6) Supporting operations.

(7) Assuring the mission is safe.

(b) All physical integration (and de-integration) of payloads into racks and/or onto pallets will normally be performed at KSC by NASA. When the customer provides Spacelab elements, these physical integration activities planned, but unused, extra days on orbit. If a complete-pallet or shared-element flight is prematurely terminated, NASA shall refund a pro rata share of the charges for planned, but unused, extra days on orbit to customers whose payload operations are, in NASA’s judgment, adversely affected by such premature termination. The basis for proration shall be the customers’ Shuttle load factor.

§ 1214.807 Exceptional payloads.

Customers whose payloads qualify under the NASA Exceptional Program Selection Process shall reimburse NASA for Spacelab and Shuttle services on the basis indicated in the Shuttle policy.

§ 1214.808 Standby payloads.

The standby payload provisions of the Shuttle policy do not apply to Spacelab flights.

§ 1214.809 Short-term call-up and accelerated launch.

The short-term call-up and accelerated launch provisions of the Shuttle policy normally are not offered to Spacelab customers. NASA will negotiate any such customer requirements on an individual basis.

§ 1214.810 Integration of payloads.

(a) The customer shall bear the cost of performing the following typical Spacelab-payload mission management functions:

(1) Analytical design of the mission.

(2) Generation of mission requirements and their documentation in the Payload Integration Plan (PIP).

(3) Provision of mission unique training and payload specialists (if appropriate).

(4) Physical integration of experiments into racks and/or onto pallets.

(5) Provision of payload unique software for use during ground processing, on orbit, or in POCC operations.

(6) Supporting operations.

(7) Assuring the mission is safe.

(b) All physical integration (and de-integration) of payloads into racks and/or onto pallets will normally be performed at KSC by NASA. When the customer provides Spacelab elements, these physical integration activities planned, but unused, extra days on orbit. If a complete-pallet or shared-element flight is prematurely terminated, NASA shall refund a pro rata share of the charges for planned, but unused, extra days on orbit to customers whose payload operations are, in NASA’s judgment, adversely affected by such premature termination. The basis for proration shall be the customers’ Shuttle load factor.
may be done by the customer at a location chosen by the customer.

(c) With the exception of the restrictions noted in paragraph (b) of this section, customers contracting for dedicated-Shuttle and dedicated-pallet flights may perform the Spacelab-payload mission management functions defined in paragraph (a) of this section. NASA will assist customers in the performance of these functions, if requested. Charges for this service will be based on estimated actual costs, or actual costs where appropriate, and will be in addition to the price for standard services.

(d) For complete pallets or shared elements, NASA will normally perform the Spacelab-payload mission management functions listed in paragraph (a) of this section. Charges for this service will be based on estimated actual costs, or actual costs where appropriate, and will be in addition to the price for standard services.

(e) Integration of payload entities mentioned in paragraphs (b)-(d) of this section with NAS-furnished Spacelab support systems and with the Shuttle shall be performed by NASA as a standard service for all payloads flown on customer-furnished Spacelab elements. Customers shall be available to participate as required by NASA in these levels of integration. Customer equipment shall be operated only to the extent necessary for interface verification. Customers requiring additional payload operation after delivery of the payload to NASA shall negotiate such operation as an optional service.

§ 1214.811 Reflight guarantee.

(a) During the second phase of STS operations, there is no additional reflight premium for those shared-flight Spacelab payloads which can be accommodated on a standard Shuttle launch to 160 nmi, 28.5° as defined in the Shuttle policy and all dedicated-flight Spacelab payloads.

(b) NASA and the customer may negotiate appropriate reflight provisions (e.g., scheduling, reflight premiums) for payloads not covered by paragraph (a) of this section. Otherwise, no reflight services shall be provided.

(c) Reflight guarantees, if provided, must cover the customer’s entire payload.

(d) Payloads covered by reflight guarantees shall be entitled to a reflight with no charge for standard Spacelab and Shuttle services if both the following occur:

1. Through no fault of the customer or defect in the customer’s payload, Spacelab systems (i.e., data, power, and cooling) are not within nominal specifications, as measured by NASA at normal Spacelab monitoring points, at the time of first turn-on of the customer’s payload, all as defined in the Launch Services Agreement.

2. The customer’s mission objective is not achieved solely as a direct result of the occurrence, at the time of first turn-on of the customer’s payload, of events described in paragraph (d)(1) of this section.

(e) If more than one reflight is required, no additional reflight premium shall be charged.

(f) If a payload being reflown was not initially covered by a reflight guarantee, the reimbursements for the reflight shall be the same as for a newly-scheduled launch.

§ 1214.812 Payload specialists.

(a) The use of customer-furnished payload specialists shall be subject to the approval of the NASA Administrator or the Administrator’s designee.

(b) Customers with payloads whose Shuttle load factor is equal to or greater than 0.5 are entitled to request that a customer-selected payload specialist be flown with the customer’s payload. Dedicated-flight customers are entitled to request the flight of two customer-selected payload specialists.

(c) NASA may approve the flight of a customer-selected payload specialist with payloads whose Shuttle load factor is less than 0.5 if, in NASA’s judgment, there is sufficient scientific need to warrant such a flight.

(d) The standard Spacelab flight price is based on operation of the customer’s payload by two NASA-furnished mission specialists. Accommodations for, and mission-independent training of, any payload specialists and backups required for the customer’s mission shall be provided as
optional services and shall be paid for by the customer. The price for this service shall be the same for both customer-furnished and NASA-furnished payload specialists.

§ 1214.813 Computation of sharing and pricing parameters.

(a) General. (1) Computational procedures as contained in the following subparagraphs of this paragraph of this section shall be applied as indicated. The procedure for computing Shuttle load factor, charge factor, and flight price for Spacelab payloads replaces the procedure contained in the Shuttle policy.

(2) Shuttle charge factors as derived herein apply to the standard mission destination of 160 nmi altitude, 28.5° inclination. Customers shall reimburse NASA an optional services fee for flights to nonstandard destinations.

(3) The customer’s total Shuttle charge factor shall be the sum of the Shuttle charge factors for the customer’s individual (dedicated, complete, or shared) elements, with the limitation that the customer’s Shuttle charge factor shall not exceed 1.0.

(4) Customers contracting for pallet-only payloads are entitled to locate minimal controls as agreed to by NASA in a pressurized area to be designated by NASA. There is no additional charge for this service.

(5) NASA shall, at its discretion, adjust up or down the load factors and load fractions calculated according to the procedures defined in this section.

Adjustments shall be made for special space or weight requirements which include, but are not limited to:

(i) Sight clearances, orientation, or placement limits.

(ii) Clearances for movable payloads.

(iii) Unusual access clearance requirements.

(iv) Clearances extending beyond the bounds of the normal element envelope.

(v) Extraordinary shapes.

The adjusted values shall be used as the basis for computing charge factors and prorating services.

(b) Definitions used in computations—

(1) \( L_c \) = Chargeable payload length, m.

The total length in the cargo bay occupied by the customer’s experiment and the Spacelab element(s) used to carry it.

(2) \( W_c \) = The weight of the customer’s payload and the customer’s pro rata share of the weight of NASA mission-peculiar equipment carried to meet the customer’s needs, kg.

(c) Dedicated-shuttle Spacelab flight (1-day mission).

The total reimbursement is as defined in §1214.804(e)(3).

(d) Dedicated-pallet flight (1-day mission).

(1) The Shuttle load factors and charge factors for dedicated-pallet flights are shown in table 1. Subject to other STS Spacelab structural limits, customers are entitled to utilize the payload weight capability of the pallets as indicated in table 1. Payload weights in excess of those shown are subject to NASA approval and may entail optional services charges.

The computed charge factor for dedicated FMDM/MPESS flights is defined as:

Table 1—Shuttle Load Factors, Charge Factors, and Nominal Capacities for Dedicated Pallets

<table>
<thead>
<tr>
<th>Number of pallets</th>

</tbody>
</table>

\(^1\) Three pallets requiring the “1+1+1” configuration shall be flown on a dedicated flight basis [See §1214.804(a)].
§ 1214.813

Shuttle Load Factor

0.75

(2) Shuttle load factor. (1) The Shuttle load factor is defined as the maximum of:

\[ \frac{L_C}{18.29} \text{ or } \frac{W_C + 767}{29,478} \]

(ii) The minimum value of \( L_C \) is based on the element length, plus clearances, and is 1.18 m.

(3) Total reimbursement. The customer’s total reimbursement is as defined in §1214.804(f)(3).

(f) Complete pallets (7-day mission). (1) The Shuttle load factor and charge factor for a complete pallet are 0.198 and 0.228, respectively, and its payload weight capability is 2,583 kg. Subject to other STS or Spacelab structural limits, customers are entitled to utilize this payload weight capability. Payload weight in excess of 2,583 kg is subject to NASA approval and may entail optional service charges.

(2) Total reimbursement. The customer’s total reimbursement is as defined in §1214.804(g)(3).

(g) Shared elements (7-day mission)—(1) Spacelab load fractions and Shuttle load factors—(i) Pallet. Spacelab load fraction is the greater of:

\[ \frac{W_C}{2,583} \text{ or } \frac{\text{Payload volume, m}^3}{15} \]

Shuttle load factor is the greatest of:

\[ \frac{W_C}{13,045} \text{ or } \frac{\text{Payload volume, m}^3}{76} \]

(ii) Pressurized module. Spacelab load fraction and Shuttle load factor are identical and are the greater of:

\[ \frac{W_C}{4,319} \text{ or } \frac{2 \times \text{(Experiment volume)} + \text{Storage volume, m}^3}{40} \]

(2) Shuttle charge factors and element charge factors for pressurized modules. Shuttle charge factors and element charge factors are identical and are defined as follows:

<table>
<thead>
<tr>
<th>If the Spacelab load fraction and Shuttle load factor is—</th>
<th>The element charge factor and Shuttle charge factor shall be—</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 0.00375 ..................................</td>
<td>.005. Shuttle load factor divided by 0.75.</td>
</tr>
<tr>
<td>0.00375 to 0.75 ...................................</td>
<td>Greater than 0.75 ........................................ 1.0.</td>
</tr>
</tbody>
</table>

(3) Element charge factors for shared pallets.

<table>
<thead>
<tr>
<th>If the Spacelab load fraction is—</th>
<th>The element charge factor shall be—</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 0.0189 ..................</td>
<td>0.0218. Spacelab load fraction divided by 0.87.</td>
</tr>
<tr>
<td>0.0189 to 0.87 ...................</td>
<td>Greater than 0.87 ................. 1.0.</td>
</tr>
</tbody>
</table>

(4) Shuttle charge factors for shared pallets.

<table>
<thead>
<tr>
<th>If the Shuttle load factor is—</th>
<th>The Shuttle charge factor shall be—</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 0.00375 ...............</td>
<td>0.005. Shuttle load factor divided by 0.75.</td>
</tr>
<tr>
<td>0.00375 to 0.75 ................</td>
<td>Greater than 0.75 ............... 1.0.</td>
</tr>
</tbody>
</table>

(5) Total reimbursement. (i) The customer’s total reimbursement is as defined in §1214.804(h)(3).

(ii) If a customer contracts for portions of more than one element, the charges for the use of the elements shall apply individually to each element used.

(6) Experiment volume in the pressurized module is defined to be the sum of the customer’s payload volume in racks and in the center aisle.

(i) Rack volume is defined relative to basic Air Transportation Rack (ATR) configurations. The customer’s rack volume shall be defined as the volume of one or more rectangular parallelepipeds (rectangular-sided box) which totally enclosed the customer’s payload. Width dimensions shall be either 45.1 or 94.0 centimeters. Height dimensions shall be integral multiples of
§1214.902 Definitions.

(a) What is a SSCP? SSCP’s, otherwise known as Get Away Specials (GAS), are small (200 pounds or less and 5 cubic feet or less) scientific research and development payloads flown on a space-available basis in a NASA-supplied standard cylindrical container under the provisions of this subpart.

(b) Who is a SSCP participant? A SSCP participant is any individual or entity that meets the following criteria:

(1) Submits a letter requesting a SSCP flight opportunity (for an authorized representative of NASA, this is considered a “Letter of Intent”) and includes a brief description of the proposed payload to the Shuttle Small Payload Projects Office (SSPPO), Goddard Space Flight Center, Wallops Flight Facility, National Aeronautics and Space Administration, Wallops Island, VA 23337.

(2) Any individual, entity or U.S. Government agency (other than NASA), shall also submit an earnest money deposit of $500 to pursue a SSCP flight opportunity.

(3) The party submitting the $500 earnest money deposit need not be the entity providing the payload. The party entering into the Launch Services Agreement (LSA) is responsible for payment of standard and optional service fees agreed upon in the signed LSA.

(4) The party signing the LSA may enter into a joint venture or other arrangement (sponsorship) with one or more parties to fly the payload in one NASA container. All participants involved in the project shall be identified in the signed LSA.

(c) What are payload classes? NASA determines the class for each payload based on the type of institution or organization providing or supplying the payload, as defined in the LSA. Classes of payloads are defined as follows:

(1) Class I payloads are payloads flown for scientific educational purposes by a recognized domestic educational institution. For a payload to qualify for flight as a Class I, “domestic educational institution payload”:

(i) The applying institution must be a U.S. public or private nonprofit (Section 501(c)(3) of the Internal Revenue Code (26 U.S.C.)) educational institution, which may include universities, colleges, community colleges, elementary or secondary schools, or university-affiliated education research foundations. Entities other than Section 501(c)(3) domestic education institutions may sponsor a Class I, domestic...
education payload, providing the educational institution meets the criteria established for domestic educational institutions in this policy.

(ii) The payload must be certified, by an authorized official of the institution, to be part of an educational or research project that is principally for the benefit of students, rather than non-students, such as faculty, research staff or the sponsor. The certification shall include a brief explanation of the educational aspects of the payload project and how it principally benefits students.

(iii) Payload experiments should involve students in all phases of the project, including concept development, initial planning, design, conduct, and analysis of the results of the experiments.

(2) Class II payloads are payloads flown for the U.S. Government.

(3) Class III payloads are payloads flown for other U.S. commercial and private entities.

(4) Class IV payloads are payloads flown for international entities, whether they be educational institutions, government or industry. Class IV payloads are subject to the same existing U.S. laws and regulations as are domestic payloads. Class IV payloads are subject to review and approval by the NASA Office of External Relations. Only payloads whose use is exclusively for peaceful purposes are eligible for flight through the GAS Program.

(d) What is an earnest money deposit? An earnest money deposit is a non-refundable $500 down payment required for participation in the SSCP Program.

(e) Why is the earnest money receipt (EMR) date important? The earnest money receipt (EMR) date is the date NASA receives the earnest money deposit from a non-NASA participant or a “Letter of Intent” from a NASA participant. Upon receipt of the earnest money or “Letter of Intent”, a payload identification number is assigned. The EMR date determines the payload’s position in the flight assignment queue. To retain the EMR date, the terms defined in the Launch Services Agreement (LSA) must be met.

(f) What is a LSA? A Launch Services Agreement (LSA) is a binding contract that describes the governing terms and conditions for flight of an SSCP payload, including the price for standard and optional services. For more information on contents of the LSA, refer to §1214.903.

(g) What is a PAR? A Payload Accommodations Requirements (PAR) document is the technical agreement, between NASA’s SSCP Program and the parties designated in the LSA, which defines the unique information required for the preparation, flight and disposition of a GAS payload.

(h) What is a PIP? A Payload Integration Plan (PIP) defines the technical agreement between NASA’s SSCP Program and the Space Shuttle Program Office at Johnson Space Center (JSC) and defines any Shuttle related optional service requirements.

(i) What is the “queue”? (1) The Flight Assignment Queue is the queue of payloads eligible to be manifested on a shuttle flight. To be eligible, the payload must meet the following criteria:

(i) A LSA has been signed within the requirements outlined in §1214.903.

(ii) The requirements of the signed PAR and PIP have been met.

(iii) NASA has assessed the technical readiness of the payload and a Phase II Safety Data Package equivalent has been submitted, in accordance with the NSTS 1700.7, Safety Policy and Requirements for Payloads Using the STS and the NSTS 13830, Payload Safety Review and Data Submittal Requirement.

(2) Once a payload has met these criteria, it enters the queue with its position based on the EMR date.

(j) What is the “Two-in-Twenty” rule? The SSCP Program utilizes a flight assignment process in which no entity may receive more than two out of any twenty consecutive payload opportunities, as long as there are other payloads available for assignment.

(k) What is a cancellation? When the party signing the LSA fails to meet its obligations under the LSA, with no undue administrative delay on the part of NASA, the payload will be removed from participation in the SSCP Program with no refund of monies paid.

(l) What are standard services? Standard services provided to all SSCP’s are listed in §1214.910.
§ 1214.903 What are the requirements concerning Launch Services Agreements (LSA)?

(a) Once the Earnest Money Deposit is received, the LSA shall designate:
(1) All participants involved in the project;
(2) The class of the payload;
(3) The general nature and purpose of the payload;
(4) The size and weight of the payload;
(5) The price for standard services to be provided;
(6) Any restrictions on the type of Shuttle flight appropriate for flying the payload;
(7) The payment schedule and the terms of cancellation;
(8) The optional services to be provided by NASA and the price of those services; and
(9) The means of compliance with the provisions of § 1214.906 regarding significant impact on public health, safety or welfare.

(b) A separate LSA shall be signed for each payload.

(c) The LSA must be signed within 12 months from the date of the letter forwarding the LSA to the SSCP participants for signature. If the LSA is not signed within the required time, the $500 earnest money deposit will be forfeited and the payload will be cancelled.

§ 1214.904 What are the conditions of use for a SSCP?

(a) The payload must be flown in a NASA-supplied standard container.

(b) The payload shall be used only to conduct experiments of a scientific research and development nature or scientific education purposes.

(c) All participants shall be required to furnish NASA with sufficient information to ensure Shuttle safety. NASA shall reserve the right to inspect and/or test all materials, components, and elements of the payload at any time, including sealed and commercially supplied payload elements.

(d) The party signing the LSA shall be required to furnish NASA with sufficient information to verify peaceful purposes and NASA’s and the U.S. Government’s continued compliance with law and the Government’s obligations.

(e) NASA participants shall submit a “Letter of Intent”, signed by an authorized NASA representative, to initiate the process of arranging for a SSCP flight. A NASA Center is required to seek sponsorship from a NASA Headquarters Program Office, identify that sponsoring code and obtain their concurrence in the “Letter of Intent”.

(f) The NASA Administrator reserves the right to determine the acceptability of any SSCP participant and any payload, on a case-by-case basis. The NASA Administrator may reject any payload, which, in his/her opinion, would be contrary to the educational mission of this program or NASA’s mission.

(g) To assure humane treatment, the Office of Biological and Physical Research at NASA Headquarters will review all experiments using live animals.

§ 1214.905 What is NASA’s reimbursement policy?

(a) Will I get my earnest money back if I cancel? No, the earnest money is non-refundable, but is applied to the standard flight price if the LSA is signed within the required time. If the LSA is not signed within the required time,
the $500 earnest money will be forfeited and the payload will be cancelled.

(b) How will I reimburse NASA for services?

(1) NASA shall be reimbursed an amount, which is the sum of the price for standard services and the price for optional services.

(2) All standard services shall be charged on a fixed-price basis. Prices are based on the payload classification, weight and volume.

(3) NASA shall be reimbursed in accordance with the reimbursement schedule specified in the signed LSA.

(c) When there is no undue administrative delay on the part of NASA, and the progress payments are not reimbursed to NASA within the allocated time provided in the LSA, all monies paid to date will be forfeited and the payload will be cancelled.

§ 1214.906 When will my payload be scheduled to fly?

(a) NASA shall not be obligated to perform any standard or optional services, including flight scheduling and placement of the payload on the STS, if the terms of the signed LSA have not been met.

(b) How does the flight queue work? Tentative flight assignments of payloads shall be made on a rotation basis using the rotation sequence of Class I, II, I, III, I, IV, I, II, etc. (refer to §1214.902(d)). Rotation is maintained in a continuing sequence from mission to mission. Payloads must meet all other mission requirements to be assigned to the available space. If, at the time of a tentative flight assignment, there are no payloads in the current class of the continuing rotation that meet all the requirements of payloads of the next class in the rotation sequence shall be considered until a payload meeting the requirements is found available.

(c) Are there reasons my payload would not be assigned to an available flight? Payloads shall be assigned on the basis of their positions in the flight assignment queue within each class with the following exceptions:

(1) If the available flight does not meet the payload’s requirements as defined in their signed PAR and LSA, the payload shall not be assigned to the flight but shall retain its position in the flight assignment queue until a suitable flight becomes available.

(2) If the “Two-in-Twenty” rule applies to a payload, that payload shall not be assigned to the flight, but shall retain its position in the flight assignment queue (refer to §1214.902(k)).

(d) Once a payload has been given a tentative flight assignment, it shall not be removed from a flight as a result of another SSCP participants’ subsequent signing of a LSA.

(e) NASA may reschedule a payload tentatively assigned to a flight as a result of other Shuttle operational considerations. Should this be necessary, rescheduling shall be done on a last-on, first-off basis.

(f) Payloads being re-flown pursuant to §1214.907 and payloads rescheduled by NASA after tentative flight assignment shall have flight assignment priority, in that order, on subsequent flights over all other payloads including those already assigned to other flights.

(g) NASA may reschedule the payload delivery to the launch site. Payment of launch fees, as defined in the signed LSA, is required before payload delivery to launch site.

§ 1214.907 Will NASA re-fly my payload if something goes wrong (and it’s not my fault)?

(a) NASA will provide a one-time re-flight of a payload at no additional charge for SSCP standard services, if all the following occur:

(1) Standard SSCP systems are not within nominal specifications, at the time of first turn-on of the payload in orbit, through no fault of the SSCP participant (including all its related entities).

(2) The payload’s mission objectives are not achieved solely as a direct result of the conditions or events described in paragraph (a)(1) of this section and

(3) The payload returns safely to Earth or a second (essentially identical) payload is provided for re-flight.

(b) A re-flight shall be provided with a dollar credit towards future optional SSCP services, or the party signing the LSA shall be refunded, for any unused optional SSCP services purchased and
§ 1214.910 What are the standard services NASA provides for my payload?

The following are standard services provided for SSCP’s:

(a) Flight in a NASA flight-qualified standard container.

(b) Use of a NASA shipping container.

(c) One “on” and one “off” signal provided on each of three NASA-provided inputs to the container.

(d) Choice of one standard NASA container atmosphere (vacuum, breathing air, inert gas, inert gas vented in space).

(e) Limited consultation on space systems provided by NASA at designated NASA centers.

(f) Standard NASA payload safety reviews at a designated NASA center. (Safety shall not be compromised. Unusually complex safety reviews or testing/analysis requires additional funding as an optional service.)

(g) Pre-integration storage of the payload at Kennedy Space Center (KSC).

(h) Limited access to the payload prior to integration.

(i) Installation of the payload in the container and removal of the payload from the container after flight.

(j) Installation of the container in the Shuttle and removal of the container from the Shuttle after flight.

(k) KSC launch.

(l) On-orbit payload operational time consistent with the primary Space Shuttle mission.

(m) Brief post-flight documentation of the Space Shuttle mission profile and payload operational times.

(n) Return of payload to the participant at the launch site.

§ 1214.911 Can I buy optional services for my payload from NASA?

(a) Optional services are available, and the price, terms, and conditions for such services shall be negotiated on a case-by-case basis and agreed upon in the LSA.

(b) Optional services could result in substantial additional charges and increased liability insurance requirements and/or affect NASA’s ability to manifest the payload.
§ 1214.912 Are there special provisions for SSCP participants who already have a signed LSA governed by regulations in effect before April 23, 1999?

(a) Where there are participants with a signed LSA governed by the provisions of 14 CFR 1214.9 and 1214.10 in effect before April 23, 1999 (and contained in the 14 CFR, Part 1200 to end, edition revised as of January 1, 1999), and there will be new participants with a signed LSA governed by the provisions of this subpart 14 CFR 1214.9, the following provisions apply to the manifesting of payloads:

(1) Participants with a signed LSA may elect to sign a new LSA, and retain their Earnest Money Receipt date as defined in their original signed LSA. Once the new LSA is signed, the provisions of this subpart apply to those participants.

(2) Participants who do not have a signed LSA or have not met the terms of their signed LSA will be required to either sign a new LSA or their payload will be cancelled and all monies paid will be forfeited.

(b) The primary differences between the provisions in effect before April 23, 1999 and the provisions in this subpart are the payload classification and rotation sequence for manifesting payloads, as set forth in the following table:

<table>
<thead>
<tr>
<th>The previous rotation sequence:</th>
<th>If you remain under the old signed LSA, your payload class will be:</th>
<th>If and when you sign a new LSA, your payload class will be:</th>
<th>The new rotation sequence:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class II, Class I, Class II, Class III, Class II, Class I, etc.</td>
<td>Class I—Domestic Education Class II—Other U.S. and International Class III—U.S. Government</td>
<td>Class I—Domestic Education Class II—U.S. Government Class III—Other U.S. Class IV—International</td>
<td>Class I, Class II, Class I, Class III, Class I, Class IV, Class I, etc.</td>
</tr>
</tbody>
</table>

(c) Payloads will be offered tentative flight opportunities for each mission in the following sequence until the flight manifest is fulfilled:

(1) As defined in the provisions of 14 CFR 1214.9 and 1214.10 in effect before April 23, 1999, payloads with signed LSA’s will be tentatively manifested utilizing the class rotation of II, I, II, III until this queue is exhausted;

(2) If the previous queue is exhausted and additional payloads are needed to fulfill the flight manifest, the new class rotation of I, II, I, III, I, IV, as defined in this subpart 1214.9, will then be used to tentatively manifest payloads with signed LSA’s until the manifest is fulfilled.

(3) NASA participants are not required to sign a LSA and are considered a government class payload in both rotation sequences as defined in paragraphs (c)(1) and (2) of this section.

Subpart 1214.10 [Reserved]
§ 1214.1105

Final ranking.

Final rankings will be based on a combination of the selection board's initial evaluations and the results of the interview process. Veteran's preference will be included in this final ranking in accordance with applicable regulations.
§ 1214.1106 Selection of astronaut candidates.

The selection board will recommend to the JSC Director its selection of candidates from among those finalists who are medically qualified. The number and names of candidates selected to be added to the corps will be approved, as required, by JSC/ NASA management and the Associate Administrator for Space Flight, prior to notifying the individuals or the public.

§ 1214.1107 Notification.

Selectees and the appropriate military services will be notified and the public informed. All unsuccessful qualified applicants will be notified of nonselection and given the opportunity to update their applications and indicate their desire to receive consideration for future selections.

Subparts 1214.12–1214.16 [Reserved]

Subpart 1214.17—Space Flight Participants

AUTHORITY: 42 U.S.C. 2473 and the National Aeronautics and Space Act of 1958, as amended.

SOURCE: 49 FR 17737, Apr. 25, 1984, unless otherwise noted.

§ 1214.1700 Scope.

This subpart establishes NASA policy and selection procedures for accommodation of space flight participants aboard flights of the Space Shuttle.

[56 FR 47148, Sept. 18, 1991]

§ 1214.1701 Applicability.

This subpart applies to NASA Headquarters and field installations.

§ 1214.1702 Relation to other part 1214 material.

Except as specifically noted, all regulatory provisions of Space Shuttle policies also apply to space flight participants. In the event of any inconsistencies in the policies, the regulatory policies established for crew members will govern with respect to space flight participants.

§ 1214.1703 Definitions.

(a) Space flight participants. All persons whose presence aboard a Space Shuttle flight is authorized in accordance with this regulation.

(b) Committee. The Space Flight Participant Evaluation Committee, established in NASA Headquarters for the purpose of directing and administering the program for space flight participants. The Committee consists of the following NASA Headquarters officials: Associate Deputy Administrator (Chair), General Counsel, Associate Administrator for External Relations, Associate Administrator for Management, Associate Administrator for Space Flight, Associate Administrator for Public Affairs and Assistant Administrator for Equal Opportunity Programs.

[56 FR 47148, Sept. 18, 1991]

§ 1214.1704 Policy.

(a) NASA policy is to provide Space Shuttle flight opportunities to persons (individuals outside the professional categories of NASA astronauts and payload specialists) whose presence onboard the Space Shuttle is not required for operation of payloads or for other essential mission activities, but is determined by the Administrator of NASA to contribute to other approved NASA objectives or to be in the national interest. However, flight opportunities for space flight participants will not be available in the near term. NASA will assess Shuttle operations and mission and payload requirements on an annual basis to determine when it can begin to allocate and assign space flight opportunities for future space flight participants, consistent with safety and mission considerations. When NASA determines that a flight opportunity is available for a space flight participant, first priority will be given to a "teacher in space," in fulfillment of space education plans.

(b) To be considered for selection as space flight participants, applicants must:

(1) Be free of medical conditions which would either impair the applicant’s ability to participate in, or be aggravated by, space flight, as determined by NASA physicians.
(2) Be willing to undergo appropriate background investigation.
(3) Be willing to undergo necessary training.
(4) Meet additional requirements that may be stated in Announcements of Opportunity (AO) soliciting applications for particular spaceflights.
(c) Persons accepted as space flight participant candidates will enter into an agreement with NASA for the period of training, flight, debriefing, and post-flight activities. The agreements will cover such pertinent matters as, but not limited to, responsibilities and authorities of the respective parties, compensation where appropriate, insurance, and liability.
(d) Typically the selection of space flight participants will be based on their comparative abilities to fulfill the objectives and purposes stated in Announcement of Opportunities (AO’s) covering one or more Space Shuttle missions in which their participation is desired. A NASA-designated outside review panel will evaluate the qualifications of applicants to select those who most appropriately meet those purposes of participant flight associated with the particular AO. NASA will encourage the participation of a wide and diverse array of participants, including women and minorities.

§ 1214.1705 Selection of space flight participants.
(a) The agency will publicly announce each space flight participant opportunity through appropriate means, including notice in the Federal Register and press releases. Each such Announcement of Opportunity will include a listing of basic qualification requirements to be met (including those of §1214.1704(b)), a statement of the specific National Aeronautics and Space Act purposes to which this opportunity is directed, what information is required of applicants to demonstrate their ability to fulfill those purposes, the criteria on which applicants will be judged, and administrative information such as to whom applications should be directed, the opening and closing dates for applications, and any other information or matters determined to be pertinent to the program in general and/or the specific flight.
(b) All applications received in response to the AO will be screened to eliminate those applicants not meeting the basic qualification requirements.
(c) Remaining applications will be forwarded to the outside review panel established for the announcement in question and composed of members appropriate to the specific purposes stated in that announcement. The review panel will evaluate all the applications and recommend to NASA a list of those applicants who appear most likely to meet the purposes.
(d) NASA selection of applicants qualified to undergo necessary training and be certified for flight will be made by the Committee, based upon criteria that include:
(1) Recommendation of the outside review panel.
(2) Ability to undergo successfully the necessary period of training to ensure adaptation to flight experience and mission activities.
(3) Ability to pass medical and psychological examinations to minimize the possibility of hazard to persons or missions.
(4) Adaptability to living and working in space.
(5) Willingness to enter into an agreement with NASA covering pre-flight, flight, and post-flight activities, with individual rights and responsibilities set forth in that agreement.
(6) Satisfactory completion of a background investigation conducted to NASA’s standards as adjudicated by the NASA Security Officer.
(e) The Committee will submit a list of those candidates suitable for selection to the NASA Administrator, who will select the requisite number to undergo the necessary training to prepare them for space flight.
(f) Those candidates who successfully complete the training will become qualified as space flight participants. Flight assignments will be made by the Administrator from this qualified
§ 1214.1706

The Associate Administrator for Space Flight is responsible for program management under the direction of the Committee chairperson.

§ 1214.1707

(a) The Associate Administrator for External Relations will respond to all inquiries directed to the agency concerning space flight participants and the process by which they are selected.

(b) The names of all applicants will be withheld from public release until the space flight participants are selected by the Administrator.

PART 1215—TRACKING AND DATA RELAY SATELLITE SYSTEM (TDRSS)

Subpart 1215.1—Use and Reimbursement Policy for Non-U.S. Government Users

Sec.
1215.100 General.
1215.101 Scope.
1215.102 Definitions.
1215.103 Services.
1215.104 Apportionment and assignment of services.
1215.105 Delivery of user data.
1215.106 User command and tracking data.
1215.107 User data security and frequency authorizations.
1215.108 Defining user service requirements.
1215.109 Scheduling user service.
1215.110 User cancellation of all services.
1215.111 User postponement of service.
1215.112 User/NASA contractual arrangement.
1215.113 User charges.
1215.114 Service rates.
1215.115 Payment and billing.

Appendix A to Part 1215—Estimated Service Rates in 1997 Dollars for TDRSS Standard Services (Based on NASA Estimation Estimate)

Appendix B to Part 1215—Factors Affecting Standard Charges

Appendix C to Part 1215—Typical User Activity Timeline
services for cooperative missions will be covered in a Memorandum of Understanding (MOU), as a consequence of negotiations between NASA and the other concerned party. Any MOU which includes provision for any TDRSS service will require signatory concurrence by the Associate Administrator for Space Operations prior to dedicating Office of Space Operations resources for support of a cooperative mission.

[56 FR 28048, June 19, 1991]

§ 1215.102 Definitions.

(a) User. Any non-U.S. Government representative or entity who contracts with NASA to use TDRSS services.

(b) TDRSS. The Tracking and Data Relay Satellite System including Tracking and Data Relay Satellites (TDRS), the White Sands Ground Terminal (WSGT), and the necessary TDRSS operational areas, interface devices and NASA communication circuits to unify the above into a functioning system. It specifically excludes the user ground system/TDRSS interface.

(c) Bit stream. The digital electronic signals acquired by TDRSS from the user craft or the user generated input commands for transmission to the user craft.

(d) Flexible support. Support requests which permit NASA, at its option, to schedule service at any time during the period of a single orbit of the user mission. Missions requiring multiple support periods during a single orbit may be classified as constrained support.

(e) Constrained support. Support requests which specify the exact times NASA is to provide service, or conditions of support which can be translated into exact times for service, such as sub-satellite positions, apogee/perigee position, etc., for which support is needed.

(f) Scheduling service period. One scheduled contact utilizing a single TDRS whereby the user by requesting service is allotted a block of time for operations between the user satellite and TDRSS.

§ 1215.103 Services.

(a) Standard services. These are services which the TDRSS is capable of providing to low-earth orbital user spacecraft or other terrestrial users.

1. Tracking services.

2. Data acquisition service.

3. Command transmission service.

4. Emergency line outage recording in the event of a communications failure between White Sands, Goddard Space Flight Center (GSFC), and Johnson Space Center (JSC).

5. A weekly user spacecraft orbit determination in NASA standard orbital elements as determined by NASA for TDRSS target acquisition purposes.

6. Delivery of user data at the NASA Ground Terminal (NGT) located at White Sands.

7. Pre-launch support for data flow test and related activities which require use of a TDRS.

8. Pre-launch support planning and documentation.

9. Scheduling user services via TDRSS.

10. Access to tracking data to enable users to perform orbit determination at their option.

(b) Mission unique services. Other tracking and data services desired by the user beyond the standard service and the charges therefor, will be identified and assessed on a case-by-case basis.

§ 1215.104 Apportionment and assignment of services.

No user may apportion, assign, or otherwise convey to any third party its TDRSS service. Each user may obtain service only through contractual agreement with the Associate Administrator for Space Operations.

[56 FR 28048, June 19, 1991]

§ 1215.105 Delivery of user data.

(a) As a standard service, NASA will provide to the user its data from the TDRSS as determined by NASA in the form of one or more digital or analog bit streams synchronized to associated clock streams at the NGT.

(b) User data handling requirements beyond the NGT interface will be provided as a standard service to the user, to the extent that the requirements do not exceed NASA’s planned standard
§ 1215.106 Communications system. Any additional data transport or handling requirements exceeding NASA’s capability will be dealt with as a mission-unique service.

(c) No storage of the user data is provided in the standard service. NASA will provide short-term temporary recording of data at White Sands, only in event of a NASA Communications Network (NASCOM) link outage.

(d) NASA will provide TDRSS services on a “reasonable efforts” basis and, accordingly, will not be liable for damages of any kind to the user or third parties for any reason, including but not limited to failure to provide contracted-for services. The price for TDRSS services does not include a contingency or premium for any potential damages. The user will assume any risk of damages or obtain insurance to protect against any risk.

[48 FR 9845, Mar. 9, 1983, as amended at 56 FR 28049, June 19, 1991]

§ 1215.106 User command and tracking data.

(a) User command data may enter the TDRSS via the NASCOM interface at one of three locations:

(1) For Shuttle payloads which utilize the Shuttle commanding system, command data must enter the system via the Johnson Space Center (JSC) and is governed by the policies established for STS services (see §1215.101).

(2) For free flyers and other payloads, command data must enter the system at the Goddard Space Flight Center (GSFC) if it is to be a standard service.

(3) The use of other command data entry points [e.g., the NASA Ground Terminal (NGT) at White Sands, NM, the Goddard Space Flight Center (GSFC), for payloads using an independent direct link from TDRS to the user payload] is considered to be a mission unique service.

(b) NASA is required to maintain the user satellite orbital elements to sufficient accuracy to permit the TDRS system to establish and maintain acquisition. This can be accomplished in two ways:

(1) The user can provide the orbital elements in a NASA format to GSFC to meet TDRSS operational requirements.

(2) The user shall insure that a sufficient quantity of tracking data is received at GSFC to permit the determination of the user satellite orbital elements. The charges for this service will be determined by using the on-orbit service rates.

§ 1215.107 User data security and frequency authorizations.

(a) User data security is not provided by the TDRSS. Responsibility for data security resides solely with the user. Users desiring data safeguards shall provide and operate, external to the TDRSS, the necessary equipment or systems to accomplish data security. Any such user provisions must be compatible with data flow through TDRSS and not interfere with other users.

(b) All radio frequency authorizations associated with operations pursuant to this directive are the responsibility of the user. If appropriate, authority(ies) must be obtained from the Federal Communications Commission (FCC) for operations consistent with U.S. footnote 303 of the National Table of Frequency Allocations, FCC Rules and Regulations, at 47 CFR 2.106.

[56 FR 28049, June 19, 1991]

§ 1215.108 Defining user service requirements.

Potential users should become familiar with TDRSS capabilities and constraints, which are detailed in the TDRSS User’s Guide (GSFC document, STDN No. 101.2), as early as possible. This action allows the user to evaluate the trade-offs available among various TDRSS services, spacecraft design, operations planning, and other significant mission parameters. When these user evaluations have been completed, and the user desires to use TDRSS, the user should initiate a request for TDRSS service.

(a) Initial requests for TDRSS service from non-U.S. Government users should be addressed to NASA Headquarters, Code OX, Space Network Division, Washington, DC 20546. Upon review and preliminary acceptance of the service requirements by NASA Headquarters, the appropriate areas of GSFC will be assigned to the project to produce the detailed requirements, plans and documentation necessary for
support of the mission. Changes to user requirements shall be made as far in advance as possible and shall be submitted in writing to both NASA Headquarters, Code OX, Space Network Division, and GSFC, Code 501, Greenbelt, MD 20771.

(b) Acceptance of user requests for TDRSS service is the sole prerogative of NASA. Although TDRSS represents a significant increase to current support capabilities, service capacity is finite, and service will be provided in accordance with operational priorities established by NASA. Request for services within priority groups shall be negotiated with non-NASA users on a first come, first service basis for inclusion into the TDRSS mission model.

[48 FR 9845, Mar. 9, 1983, as amended at 56 FR 28049, June 19, 1991]

§ 1215.109 Scheduling user service.

(a) User service shall be scheduled only by NASA. Scheduling refers to that activity occurring after the user has been accepted and placed in the TDRSS mission model as specified in § 1215.108(b). See appendix C for a description of a typical user activity timeline.

(b) Schedule conflict will be resolved in general by application of principles of priority to user service requirements. Services shall be provided either as normally scheduled service or as emergency/disruptive update service. Priorities will be different for emergency/disruptive updates than for normal services.

(1) Normally scheduled service is service which is planned and ordered under normal operational conditions and is subject to schedule conflict resolution under normal service priorities. Priorities are established by the NASA Administrator or his/her designee. Requests for normally scheduled service must be received by the schedulers at the GSFC Network Control Center (NCC) no later than 45 minutes prior to requested support time.

(2) Normal scheduling principles of priority are generally ordered as follows beginning with the highest priority:

(i) Launch, reentry, landing of the STS Shuttle, or other NASA launches.

(ii) NASA payloads/spaceship.

(iii) Other payloads/spaceship of interest to the United States.

(iv) Other payloads/spaceship launched by a NASA launch vehicle.

(v) Other payloads/spaceship.

(vi) Support of other launches.

(3) Exceptions to these priorities may be determined on a case-by-case basis with the NASA Administrator or his/her designee as the priorities stated in paragraph (b)(2) of this section are indicative of general rather than specific cases.

(4) Emergency service conditions are those requiring rapid response to changing user service requirements. Emergency service may be instituted under the following conditions:

(i) Circumstances which pose a threat to the security of the United States.

(ii) Circumstances which threaten human life.

(iii) Circumstances which threaten user mission loss.

(iv) Other circumstances of such a nature which make it necessary to preempt normally scheduled services.

(5) At times, emergency service requirements will override normal schedule priority. Under emergency service conditions, disruptions to schedule service will occur. As a consequence, users requiring emergency service shall be charged for emergency service at rate factors set forth in appendix B.

(6) Disruptive updates are scheduled updates which, by virtue of priorities, cause previously scheduled user services to be rescheduled or deleted or are requested by the user less than 45 minutes prior to the scheduled support period.

(i) Disruptive updates will be charged at the same rates as emergency service. User initiated schedule requests which are received less than 45 minutes prior to the requested support time will be considered a disruptive update.

(ii) User initiated schedule requests which are received more than 45 minutes and less than 12 hours prior to the scheduled support period will be acted upon as a routine input provided other users are unaffected. If other users are affected, the scheduling input will be considered a disruptive update and the appropriate charge factor will be applied.
§ 1215.110  
(iii) The Network Control Center (NCC) at GSFC reserves the sole right to schedule, reschedule or cancel TDRSS service. Schedule changes brought about through no fault of the user are not charged the factor for a disruptive update.  
(7) While the priority listing remains the general guide for establishing support availability, the NASA schedulers will exercise judgment and endeavor to see that lower priority users are not excluded from a substantial portion of their contracted-for service due to the requirements of higher priority users.  
(8) When a user contracts for TDRSS service for an “operational satellite” which interfaces with a significant number of national and world-wide users on a regularly scheduled basis as opposed to a “research and development satellite,” NASA will place special emphasis on the operational requirement when planning schedules. This should reduce the probability of losing perishable operational data such as meteorological, climate, or earth resources information.  
(c) General user service requirements, which will be used for preliminary planning and mission modeling, should include as a minimum, the following:  
(1) Date of service initiation.  
(2) Expected date of service termination.  
(3) The type of TDRSS services desired [e.g., multiple access, tracking, etc.].  
(4) The frequency and duration of each service, including orbital position or time constraints on service delivery from a given spacecraft where appropriate.  
(5) Orbital or trajectory parameters and tracking data requirements.  
(6) Spacecraft events affecting tracking, telemetry or command requirements.  
(7) Signal parameters and data rates by type of service, type and location of antennas and other related information dealing with user tracking, command, and data systems.  
(8) Special test requirements, compatibility testing, data flows, simulations, etc.  
(9) Identification of type and quantity of user information necessary for control functions, location of user control facility, and identification of communications requirements.  
(10) Identification of ground communications requirements and interface points, including the level of support to be requested from NASCOM.  
(d) To provide for effective planning, general service requirements should be provided at least 3 years before initiation of service. With these data NASA will determine whether the requested services can be provided.  
(e) Detailed requirements for user services must be provided 18 months before the initiation of service. These data will be the basis for the technical definition of the Interface Control Document (ICD). If requirements are received late, necessitating extraordinary NASA activities [e.g., overtime, special printing of documents], such activities will be considered to be mission unique and their cost charged the user.  

[48 FR 9845, Mar. 9, 1983, as amended at 56 FR 28049, June 19, 1991]  
§ 1215.110  User cancellation of all services.  

The user has the right to terminate its service contract with NASA at any time. A user who exercises this right after contracting for service shall pay the charge agreed upon for services previously rendered, and the cost incurred by the Government for support of pre-launch activities, services, and mission documentation not included in that charge. The user will remain responsible for the charges for any services actually provided.  

§ 1215.111  User postponement of service.  

The user may postpone the initiation of contracted service (e.g., user launch date) by delivery of written notification to NASA Headquarters, Code OX. Any delay in the contracted start of service date may affect the quantity of service to be provided due to commitments to other support requirements. Therefore, the validity of previous estimates of predicted support availability may no longer be applicable.  

[56 FR 28049, June 19, 1991]
§ 1215.112 User/NASA contractual arrangement.

(a) The NASA Administrator reserves the right to waive any portion of the reimbursement due to NASA under the provisions of the reimbursement policy.

(b) When NASA has determined that a potential user has not made sufficient progress toward concluding a contractual arrangement for service, after being placed in a mission model, NASA shall have the unilateral right to remove that user from the mission model.

(c) NASA shall have the right to determine unilaterally that the potential user has failed to make progress toward concluding a contractual arrangement.

§ 1215.113 User charges.

(a) The user shall reimburse NASA the sum of the charges for standard and mission-unique services. Charges will be based on the service rates applicable for the calendar year.

(b) For standard services the user shall be charged only for services rendered, except that if a total cancellation of service occurs, the users shall be charged in accordance with the provisions of §1215.110.

(1) Standard services which are scheduled, and then cancelled by the user less than 12 hours prior to the start of that scheduled service period, will be charged as if the scheduled service actually occurred.

(2) The time scheduled by the user project shall include the slew time, setup and/or configuration time, TDRSS contact time, and all other conditions for which TDRSS services were allocated to the user.

(3) Charges will be accumulated by the minute, based on the computerized schedule/configuration messages which physically set up the TDRSS equipment at the start of a support period and free the equipment for other users at the end of a support period.

(c) The user shall reimburse NASA for the costs of any mission unique services provided by NASA.

(d) Any person or entity which pays to NASA the initial administrative charge (see §1215.115) does so with the understanding that it is not refundable whether or not an agreement is entered into with NASA for TDRSS services.

[48 FR 9845, Mar. 9, 1983, as amended at 56 FR 28049, June 19, 1991]

§ 1215.114 Service rates.

(a) Non-U.S. Government user rates will reflect TDRSS total operational and maintenance costs prorated to a per-minute basis.

(b) Rates for TDRSS services will be set by the Associate Administrator for Space Operations each October for the following year, January through December. Rate variations will reflect changes in operating costs, loading formulas and escalation.

(c) Projected estimates will include escalation bases on the Bureau of Labor Statistics Index for compensation per hour—total private.

(d) Appendix A is provided for preliminary planning purposes only. It delineates the rate per minute by service and type of user. These rates are subject to change.

(e) The per minute charge for TDRSS service is computed by multiplying the charge per minute for the appropriate service by the number of minutes scheduled and the appropriate factor (for flexible, constrained or disruptive/emergency service).

§ 1215.115 Payment and billing.

(a) To each user there will be an initial non-refundable administrative charge of $25,000 which is applicable toward TDRSS operational services.

(b) The procedure for billing and payment of standard TDRSS services is as follows:

(1) The calendar year is divided into two service periods, January through June and July through December. The charge for TDRSS service will be determined in October for the succeeding calendar year.

(2) The estimated cost of service, January through June period, will be due the previous July 1, and will be billed 60 days prior to the payment due date.

(3) The estimated cost of service, July through December period, will be due the previous January 1, and will be
Pt. 1215, App. A

billed 60 days prior to the payment due date.

(4) Adjustments to the amounts prepaid will be made to the succeeding billings as the actual service time is tabulated. Amounts due to the user will be credited to the next service period or refunded to the user if no more service is to be provided.

(5) The total estimated cost of all standard pre-launch services such as mission planning, documentation, link analysis, testing, computer, human resources, etc., with the exception of TDRSS operational services, will be paid to the Government prior to NASA rendering such services. This advance payment will be applied as a credit to the charges billed for post-launch TDRSS operational services as specified in paragraphs (b) (1) through (4) of this section.

(c) Payment schedules for mission unique services will be mutually developed between NASA the user on a case-by-case basis, dependent upon level of engineering effort, long-lead items, special communication services or other considerations. Payment will generally be made prior to NASA incurring a cost for mission unique services.

(d) Late payments by the user will require the user to pay a late payment charge equal to 1 1/2% per month of the unpaid balance calculated daily from the date the payment was due until the date payment is made.

APPENDIX A TO PART 1215—ESTIMATED SERVICE RATES IN 1997 DOLLARS FOR TDRSS STANDARD SERVICES (BASED ON NASA ESCALATION ESTIMATE)

TDRSS user service rates for services rendered in CY-97 based on current projections in 1997 dollars are as follows:

1. Single Access Service—Base rate is $180 per minute for non-U.S. Government users.

2. Multiple Access Forward Service—Base rate is $184.00 per minute for non-U.S. Government users.

3. Multiple Access Return Service—Base rate is $13 per minute for non-U.S. Government users.

CSLA customer rates are slightly different for CSLA customers.

CSLA customer rates:

1. Single Access Service—Base rate is $180 per minute for CSLA users.

2. Multiple Access Forward Service—Base rate is $39 per minute for CSLA users.

3. Multiple Access Return Service—Base rate is $15 per minute for CSLA users.

[61 FR 46713, Sept. 5, 1996]

APPENDIX B TO PART 1215—FACTORS AFFECTING STANDARD CHARGES

Charges for services shall be determined by multiplying the factors below by the base rates for standard services set forth in appendix A.

Subpart 1216.1—Policy on Environmental Quality and Control

SOURCE: 44 FR 44485, July 30, 1979, unless otherwise noted.

§1216.100 Scope.

This subpart sets forth NASA policy on environmental quality and control and the responsibilities of NASA officials in carrying out these policies.

§1216.101 Applicability.

This subpart is applicable to NASA Headquarters and field installations.

§1216.102 Policy.

NASA policy is to:
(a) Use all practicable means, consistent with NASA’s statutory authority, available resources, and the national policy, to protect and enhance the quality of the environment;
(b) Provide for proper attention to and ensure that environmental amenities and values are given appropriate consideration in all NASA actions, including those performed under contract, grant, lease, or permit;
(c) Recognize the worldwide and long-range character of environmental concerns and, when consistent with the foreign policy of the United States and
§ 1216.103 Responsibilities of NASA officials.

(a) The Associate Administrator for Management or designee shall:

(1) Coordinate the formulation and revision of NASA policies and positions on matters pertaining to environmental protection and enhancement;
(2) Represent NASA in working with other governmental agencies and interagency organizations to formulate, revise, and achieve uniform understanding and application of governmentwide policies relating to the environment;
(3) Develop and ensure the implementation of agencywide standards, procedures, and working relationships for protection and enhancement of environmental quality and compliance with applicable laws and regulations;
(4) Develop, as an integral part of NASA's basic decision processes, procedures to ensure that environmental factors are properly considered in all proposals and decisions;
(5) Establish and maintain working relationships with the Council on Environmental Quality, Environmental Protection Agency, and other national, state, and local governmental agencies concerned with environmental matters;
(6) Acquire information for and ensure the preparation of appropriate NASA reports on environmental matters.

(b) Officials-in-Charge of Headquarters Offices and NASA Field Installation Directors are responsible for:

(1) Identifying matters under their cognizance which may affect protection and enhancement of environmental quality and for employing the proper procedures to ensure that necessary actions are taken to meet the requirements of applicable laws and regulations;
(2) Coordinating environmental quality-related activities under their cognizance with the Associate Administrator for Management; and
(3) Supporting and assisting the Associate Administrator for Management on request.

(c) Officials-in-Charge of Headquarters Offices are additionally responsible for:

(1) Giving high priority, in the pursuit of program objectives, to the identification, analysis, and proposal of research and development which, if conducted by NASA or other agencies, may contribute to the achievement of beneficial environmental objectives; and
(2) In coordination with the Associate Administrator for Management, making available to other parties, both governmental and nongovernmental, advice and information useful in protecting and enhancing the quality of the environment.

(d) NASA Field Installation Directors are additionally responsible for:

(1) Implementing the NASA policies, standards and procedures for the protection and enhancement of environmental quality and supplementing them as appropriate in local circumstances;
(2) Specifically assigning responsibilities for environmental activities under the installation’s cognizance to appropriate subordinates, while providing for the coordination of all such activities; and
(3) Establishing and maintaining working relationships with national,
state, regional and governmental agencies responsible for environmental regulations in localities in which the field installations conduct their activities.

[44 FR 44485, July 30, 1979, as amended at 53 FR 9760, Mar. 25, 1988]

Subpart 1216.2—Floodplain and Wetlands Management

AUTHORITY: E.O. 11988 and E.O. 11990, as amended; 42 U.S.C. 2473(c)(1).

SOURCE: 44 FR 1089, Jan. 4, 1979, unless otherwise noted.

§ 1216.200 Scope.

This subpart 1216.2 prescribes procedures to:

(a) Avoid long- and short-term adverse impacts associated with the occupancy and modification of floodplains and wetlands;

(b) Avoid direct or indirect support of floodplain and wetlands development wherever there is a practicable alternative;

(c) Reduce the risk of flood loss;

(d) Minimize the impact of floods on human health, safety and welfare;

(e) Restore, preserve and protect the natural and beneficial values served by floodplains and wetlands;

(f) Develop an integrated process to involve the public in the floodplain and wetlands management decision-making process;

(g) Incorporate the Unified National Program for Flood Plain Management; and,

(h) Establish internal management controls to monitor NASA actions to assure compliance with the Orders.

§ 1216.201 Applicability.

These procedures are applicable to Federal lands and facilities under the management control of NASA Headquarters and field installations regardless of location.

(a) Directors of Field Installations and, as appropriate, the Associate Administrator for Management at NASA Headquarters, are responsible for implementing the requirements and procedures prescribed in §§1216.204 and 1216.205.

(b) The Assistant Associate Administrator for Facilities Engineering, NASA Headquarters, is responsible for overall coordination of floodplain and wetlands management activities, and for conducting periodic on-site reviews of each Installation’s floodplain and wetlands management activities, and for conducting periodic on-site reviews of each Installation’s floodplain and wetlands management activities to assure compliance with the Executive Orders.

§ 1216.203 Definition of key terms.

(a) Action—any NASA activity including, but not limited to, acquisition, construction, modification, changes in land use, issuance of facilities use permits, and disposition of Federal lands and facilities.

(b) Base flood—is that flood which has a one percent chance of occurrence in any given year (also known as a 100-year flood). This term is used in the National Flood Insurance Program (NFIP) to indicate the minimum level of flooding to be used by a community in its floodplain management regulations.

(c) Base floodplain—the 100-year floodplain (one percent chance floodplain). Also see definition of floodplain.

(d) Critical action—any activity for which even a slight chance of flooding would be too great, such as storing lunar samples or highly toxic or water reactive materials.

(e) Facility—any item made or placed by a person including buildings, structures and utility items, marine structures, bridges and other land development items, such as levees and drainage canals.

(f) Flood or flooding—a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland and/or tidal waters, and/or the unusual and rapid accumulation or runoff of surface waters from any source.

(g) Flood fringe—that portion of the floodplain outside of the regulatory floodway (often referred to as “floodway fringe”).
(h) **Floodplain**—the lowland and relatively flat areas adjoining inland and coastal waters including flood-prone areas of offshore islands, including at a minimum, that area subject to a one percent or greater chance of flooding in any given year. The base floodplain shall be used to designate the 100-year floodplain (one percent chance floodplain). The critical action floodplain is defined as the 500-year floodplain (0.2 percent chance floodplain). A large portion of NASA coastal floodplains also encompasses wetlands.

(i) **Floodproofing**—the modification of individual structures and facilities, their sites, and their contents to protect against structural failure, to keep water out or to reduce the effects of water entry.

(j) **Minimize**—to reduce to the smallest possible amount or degree.

(k) **One percent chance flood**—the flood having one chance in 100 of being exceeded in any one-year period (a large flood). The likelihood of exceeding this magnitude increases in a time period longer than one year, e.g., there are two chances in three of a larger flood exceeding the one percent chance flood in a 100-year period.

(l) **Practicable**—capable of being done within existing constraints. The test of what is practicable depends upon the situation and includes consideration of the pertinent factors, such as environment, cost or technology.

(m) **Preserve**—to prevent modification to the natural floodplain environment or to maintain it as closely as possible to its natural state.

(n) **Regulatory floodway**—the area regulated by Federal, State or local requirements: the channel of a river or other watercourse and the adjacent land areas that must be reserved in an open manner; i.e., unconfined or unobstructed either horizontally or vertically to provide for the discharge of the base flood so the cumulative increase in water surface elevation is no more than a designated amount (not to exceed one foot as set by the National Flood Insurance Program (NFIP)).

(o) **Restore**—to re-establish a setting or environment in which the natural functions of the floodplain can again operate.

(p) **Wetlands**—those areas that are frequently inundated by surface or ground water and normally support a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs, and similar areas such as sloughs, potholes, river overflows, mud flats, wet meadows, and natural ponds. Because all NASA wetlands lie in floodplains, and for purposes of simplifying the procedures of this subpart, floodplains will be understood as to encompass wetlands, except in cases where wetlands factors require special consideration. (Also, see definition of floodplain.)

(q) **Support**—actions which encourage or otherwise provide incentives to undertake floodplain or wetlands development, such as extending roads or utilities into or near a floodplain, therefore making floodplain development more feasible.

§ 1216.204 General implementation requirements.

(a) Each NASA Field Installation shall prepare, if not already available, an Installation base floodplain map based on the latest information and advice of the appropriate District Engineer, Corps of Engineers, or, as appropriate, the Director of the Federal Emergency Management Agency. The map shall delineate the limits of both the 100-year and 500-year floodplains. A copy of the map, approved by the Field Installation Director, will be provided to the Assistant Associate Administrator for Facilities Engineering, NASA Headquarters, by February 28, 1979. The map will conform to the definitions and requirements specified in the Floodplain Management Guidelines for Implementing Executive Order 11988.

(b) For any proposed action or critical action, as defined in §1216.203(a), using the approved floodplain map, the Field Installation Director, while concurrently seeking to avoid the floodplain, shall determine if the proposed action will or will not be located in, or may indirectly impact or indirectly support development in, the base (substitute “500-year” for “base” in critical
action cases) floodplain and proceed accordingly:

(1) If the action or critical action will be located in the base floodplain or may indirectly impact or indirectly support floodplain development, and is not excepted under §1216.204(h), field installations will adhere to the procedures prescribed in §1216.205.

(2) If such action or critical action will not be located in the base floodplain, or is the type of action that will clearly nor indirectly impact or indirectly support floodplain development, the action may be implemented without further review or coordination, provided all other applicable NASA requirements and policies have been met.

(c) Any request for new authorizations or appropriations transmitted to the Office of Management and Budget shall indicate, on a case-by-case basis, if the action proposed will be located in a floodplain and whether the proposed action is in accordance with Executive Orders 11988 and 11990.

(d) Each field installation shall: Take floodplain management and wetlands protection into account when formulating its water and land use plans—and when evaluating like plans of others—as an integral part of its facilities master planning activities; Restrict the use of land and water resources appropriate to the degree of flood hazard involved; and, Incorporate recommended Federal and State actions for the continuing unified program for planning and action at all levels of government to reduce the risk of flood losses in accordance with the Unified National Program for Flood Plain Management (U.S. Water Resources Council, 1978).

(1) Descriptive documentation supporting these planning matters shall be included in the “land use” section of each field installation’s facilities master plan, as prescribed in NASA Management Instruction 7232.1, Master Planning of NASA Facilities. The evaluation and quantification of flood hazards should be expressed in terms of:

(i) Potential for monetary loss;

(ii) Human safety, health, and welfare;

(iii) Shifting of costs, damage or other adverse impacts to off-site properties; and,

(iv) Potential for affecting the natural and beneficial floodplain values.

(2) NASA shall provide appropriate guidance to applicants for facilities use permits and grants to enable them to similarly evaluate, in accordance with the Orders, the effects of their proposals in floodplains and wetlands. This evaluation will be a precondition of any NASA approval of such permit or grant involving floodplains or wetlands.

(e) Facilities to be located in floodplains will be constructed in accordance with the standards and criteria promulgated under the National Flood Insurance Program (NFIP). Deviations are allowed only to the extent that these standards are inappropriate for NASA operations, research and test activities. Because construction of NASA facilities will rarely be necessary in floodplains and wetlands, expertise in the latest flood proofing measures, standards and criteria will not be normally maintained within the NASA staff. To assure full compliance with the NFIP regulations, and that the Order’s key requirement to minimize harm to or within the floodplain or wetlands is met, field installations will:

(1) Consult with the appropriate local office of the Corps of Engineers or Federal Emergency Management Agency and/or U.S. Fish and Wildlife Service, as applicable, on a regular basis throughout the facility design or action planning phase. Documentation of this consultation will be recorded in the Field Installation’s project file.

(2) Submit evidence of the successful completion of this consultation to the Assistant Associate Administrator for Facilities Engineering, NASA Headquarters, prior to the start of project construction.

(f) If NASA property used or visited by the general public is located in an identified flood hazard area, the Installation shall provide on structures, in this area and other places where appropriate (such as where roads enter the flood hazard area), conspicuous delineation of the 100-year and 500-year flood levels, flood of record, and probable flood height in order to enhance public awareness of flood hazards.
addition, Field Installations shall review their storm control and disaster plans to assure that adequate provision is made to warn and evacuate the general public as well as employees. These plans will include the integration of adequate warning time into such plans. The results of this review shall be submitted to the Assistant Associate Administrator for Facilities Engineering, NASA Headquarters, by February 28, 1979.

(g) When property in floodplains is proposed for lease, permit, out-grant, easement, right-of-way, or disposal to non-Federal public or private parties, the field installation shall:

(1) Reference in the conveyance document (prepared by the General Services Administration in disposal actions) those uses that are restricted under identified Federal, State, and local floodplain regulations, such as State coastal management plans.

(2) Except where prohibited by law, attach other appropriate restrictions, equal to the Order’s in scope and strictness, to the uses of properties by the grantee or purchaser and any successors which assure that:

(i) Harm to lives, property and floodplain values are identified; and

(ii) Such harm is minimized and floodplain values are restored and preserved.

(3) Withhold such properties from conveyance if the requirements of paragraphs (g)(1) and (2) of this section cannot be met.

(h) The NASA Administrator has determined that certain types of actions taken in coastal floodplains and wetlands typically do not possess the potential to result in long- or short-term adverse impacts associated with the occupancy or modification of floodplains, or result in direct or indirect support of floodplain development. Nevertheless, in undertaking these actions, any opportunities to minimize, restore, and preserve floodplain and wetlands values must be considered and implemented. With this understanding, for the following types of actions, Directors of Field Installations in coastal locations may determine that undertaking such actions does not warrant full application of the procedures prescribed in §1216.205.

(1) Hazard mitigation actions taken by a field installation on an emergency basis to reduce and control hazards associated with established NASA test or operations activities in accordance with the field installation’s approved Safety Plan. Any such action must be approved in writing by the Field Installation’s Safety Officer, and the approval document retained in the Safety Office files.

(2) Repair, maintenance or modification to existing roadways, bridges and utility systems in coastal floodplains or wetlands which provide long-term support for major NASA operations and test facilities (usually located out of the base floodplain), provided such repair, maintenance or modification activities are of a routine or emergency nature for which the “no action” alternative is not practicable; and it is ostensibly evident that:

(i) The proposed action would not impact the floodplain or wetlands.

(ii) The only alternative would be to construct new duplicate facilities near the same site with attendant impacts on the floodplain or wetlands area.

(3) Rehabilitation and modification of existing minor technical facilities (such as camera pads, weather towers, repeater buildings), including the repair of such damaged facilities to a condition closely matching the original construction, provided it can be readily determined by Directors of Field Installations that there is no practicable alternative but to continue the activity in its current coastal floodplain site. In such cases, the sitings of such facilities must be rigidly constrained by nationally recognized master planning criteria, such as “line-of-sight, quantity-distance, and acoustic sound-pressure-level” factors. In addition, certification of these determinations by Directors of Field Installations will be retained in the project file.

may adversely affect a floodplain or wetlands, using the method prescribed in §1216.204(b).

(b) These procedures apply only to evaluations of those proposed actions which are to be located in or may adversely impact floodplains. These evaluations shall be made at the earliest practicable stage of advance planning, such as during facilities master plan development or when preparing preliminary engineering reports. These evaluations shall include analyses of harm to lives and property, the natural and beneficial values of floodplains and wetlands, and the cumulative impacts of multiple actions over the long term.

(1) Early public notice is the next step in the evaluation process and will normally be accomplished using only the appropriate Single State Point of Contact and coordinating with that party pursuant to Executive Order (E.O.) 12372, as amended, “Intergovernmental Review of Federal Programs,” as appropriate. If, however, actions involving land acquisition or a major change in land or water use is proposed, the overall public audience will be as broad as reasonably possible including, but not limited to, adjacent property owners and residents, near-by floodplain residents and local elected officials. To assure their continuous interaction and involvement, the Field Installation will issue public notices and newsletters, and hold public hearing and/or workshops on a formalized scheduled basis to provide the opportunity for public input and understanding of the proposed action. Regardless of the scope of action proposed, initially a notice will be provided to the appropriate State Single Point of Contact pursuant to E.O. 12372 that will not exceed three pages and will include:

(i) A location map of the proposed action.

(ii) The reasons why the action is proposed to be located in a floodplain.

(iii) A statement indicating whether the action conforms to applicable state and local floodplain protection standards.

(iv) A list of any NASA identified alternatives to be considered.

(v) A statement explaining the timing of public notice review actions to provide opportunities for the public to provide meaningful input.

(2) Working with the appropriate State Single Point of Contact pursuant to E.O. 12372 and, if applicable, other public groups and officials, to identify practicable alternatives in addition to those already identified by NASA. The alternatives will include:

(i) Carrying out the proposed action at a location outside the base floodplain (alternative sites).

(ii) Other means which accomplish the same purpose as the proposed action (alternative actions).

(iii) Taking no action, if the resulting hazards and/or harm to or within the floodplain overbalances the benefits to be provided by the proposed action.

(3) The costs and impacts of all practicable alternatives must now be fully determined to properly assess the practicability of avoiding the base floodplain, or of minimizing harm to the floodplain if alternatives directly or indirectly support floodplain development or have other adverse impacts.

(i) The basic criteria to be used in determining the impacts of the various alternatives appear in the Floodplain Management Guidelines for Implementing Executive Order 11988 (43 FR 6030). These criteria discuss in detail the three basic types of impacts which are to be addressed:

(A) Positive and negative impacts (beneficial and harmful);

(B) Concentrated and dispersed impacts (impacts on-site, near-site, and remote from the installation); and

(C) Short and long-term impacts (include temporary changes and those that take the form of delayed changes resulting from the cumulative effects of many individual actions).

(ii) Also to be determined is the nature of resulting hazards and risk to lives and property; and the restoration and preservation of natural and beneficial floodplain and wetlands values.

(iii) In determining the type, magnitude, costs, timing factors, etc., of the impacts, it is emphasized that subjective assessments have little value. To qualify for inclusion in the evaluation process, an impact must be fully
§ 1216.205

described and quantified in a measurable way compatible with good scientific or engineering practice. Briefly stated, an impact is effected by or based on, and limited to, a quantified alteration of existing coastal or riverine systems including:

(A) Anticipated flood levels, sheet flow, coursing and velocity of flood caused surface water;
(B) Ground water flows and recharge;
(C) Tidal flows;
(D) Topography; and,
(E) Ecology, including water quality, vegetation and the terrestrial and aquatic habitats.

(4) For the proposed action and those alternatives which will impact the floodplain or wetlands, additional analysis must be undertaken to minimize, restore and preserve the natural and beneficial floodplain or wetlands values. Because NASA does not retain expertise in these areas of floodplain management, field installations will consult, on a case-by-case basis, with the appropriate local office of the U.S. Fish and Wildlife Service to assure that, for each of the above alternatives, methods are prescribed which will:

(i) Minimize harm to lives and property from flood hazards;
(ii) Minimize harm to natural and beneficial values of floodplains and wetlands; and
(iii) Restore floodplains or wetlands values, if applicable, to the proposed action.

(5) The proposed action and alternatives shall now be comparatively evaluated taking into account the identified impacts, the steps necessary to minimize these impacts and opportunities to restore and preserve floodplain and wetlands values. The comparison will emphasize floodplain values.

(i) If this evaluation indicates that the proposed action in the base floodplain is still practicable, consider limiting the action so that a non-floodplain site could be more practicable.
(ii) If the proposed action is outside the floodplain but has adverse impacts or supports floodplain development, consider modifying or relocating the action to eliminate or reduce these effects or even taking no action.

(6) If, upon completing the comparative evaluation, the Field Installation Director determines that the only practicable alternative is locating in the base floodplain, a statement of fundings and public explanation must be provided to all those who have received the early public notice, and specifically to the appropriate State Single Point of Contact pursuant to E.O. 12372, and will include as a minimum:

(i) The reasons why the proposed action must be located in the floodplain.
(ii) A statement of all significant facts considered in making the determination including alternative sites and actions.
(iii) A statement indicating whether the actions conform to applicable State and local floodplain protection standards.
(iv) In cases where land acquisition or major changes in land use are involved, it may also be appropriate to include:

(A) A provision for publication in the FEDERAL REGISTER or other appropriate vehicle.
(B) A description of how the activity will be designed or modified to minimize harm to or within the floodplain.
(C) A statement indicating how the action affects natural or beneficial floodplain or wetlands values.
(D) A statement listing other involved agencies and individuals.

(7) After a reasonable period (15 to 30 days) to allow for public response, the proposed action may proceed through the normal NASA approval process, or if disposal is anticipated, the action can be implemented in accordance with Federal Property Management Regulations real property disposal procedures. If, however, significant new information is revealed in comments by the public, the field installation shall re-evaluate the proposed action in accordance with the provisions of paragraph (b)(5) of this section.

(8) For major NASA actions significantly affecting the quality of the human environment, the evaluations required above will be included in any statement prepared under Section 102(2)(C) of the National Environmental Policy Act.

(9) In accordance with §1216.202(b), the Assistant Associate Administrator
for Facilities Engineering, NASA Headquarters, will conduct periodic on-site reviews to assure that the action is carried out in accordance with the stated findings and plans for the proposed action, in compliance with the Executive orders.

Subpart 1216.3—Procedures for Implementing the National Environmental Policy Act (NEPA)

SOURCE: 44 FR 44485, July 30, 1979, unless otherwise noted.

§ 1216.300 Scope.

This subpart sets forth NASA procedures implementing the provisions of section 102(2) of the National Environmental Policy Act (NEPA). The NASA procedures of this subpart supplement the regulations of the Council on Environmental Quality (43 FR 55978) which establish uniform procedures for implementing those provisions of NEPA.

§ 1216.301 Applicability.

(a) This subpart is applicable to NASA Headquarters and field installations.

(b) The procedures established by this subpart apply to all NASA actions which may have an impact on the quality of the environment. These actions may fall within any of the four NASA budget categories: Research and Development (R&D), Construction of Facilities (CoF), Research and Program Management (R&PM), and Space Flight Control and Data Communications (SFCDC), or, if not involving budget authority or other congressional approval, may be separate from the categories.

[44 FR 44485, July 30, 1979, as amended at 53 FR 9760, Mar. 25, 1988]

§ 1216.302 Definition of key terms.

The definitions contained within part 1508, Terminology and Index, CEQ Regulations, 43 FR 55978, apply to subpart 1216.3. Additional definitions, necessary for the purpose of this subpart, are as follows:

(a) Budget line items. The individual items in the annual NASA authorization legislation which are used here to classify the range of NASA actions. The four main budget line items are:

(1) Research and Development (R&D). Those activities directed towards attaining the objectives of a specific mission, project, or program. All NASA's aeronautics and space program elements are categorized within the R&D program categories. R&D funds are expended chiefly for contracted research and development and for research grants. Some R&D funds are also expended in support of in-house research (e.g., equipment purchases and other research support, but not civil service salaries).

(2) Research and Program Management (R&PM). Those activities directed towards the general support of the NASA institution charged with the conduct of the aeronautics and space program. R&PM funds are expended for the NASA civil service work force (both for performing in-house R&D and for planning, managing, and supporting contractor and grantee R&D), and for other general supporting functions.

(3) Construction of Facilities (C of F). Those activities directed towards construction of new facilities; repair, rehabilitation, and modification of existing facilities; acquisition of related facility equipment; design of facilities projects; and advance planning related to future facilities needs.

(4) Space Flight, Control and Data Communications (SFCDC). Has similar scope to R&D but covers activities which are primarily of a production and operational nature related to space flight. The content includes the national fleet of Space Shuttle orbiters, including main engines, launch site and mission operations, initial spares,
§ 1216.303 Responsibilities of NASA officials.

(a) The Associate Administrator for Management or designee, who is responsible for developing the procedures of this subpart and for ensuring that environmental factors are properly considered in all NASA planning and decisionmaking, shall:

(1) Monitor these processes to ensure that the agency procedures are achieving their purposes;

(2) Advise line management and inform NASA employees of technical and management requirements of environmental analysis, of appropriate expertise available in and out of NASA, and—with the assistance of the NASA General Counsel—of relevant legal developments; and

(3) Consolidate and transmit to the appropriate parties NASA comments on environmental impact statements and other environmental reports prepared by other agencies.

(b) Officials-in-Charge of Headquarters Offices (hereafter termed “Headquarters officials”) are responsible for implementing the procedures established by these regulations for the consideration and documentation of the environmental aspects of the decision processes in their respective areas of responsibility.

(c) The Assistant Administrator for Legislative Affairs is responsible for ensuring that the legislative environmental impact statements accompany NASA recommendations or reports on proposals for legislation submitted to Congress. The Associate Administrator for Management, the Chief Financial Officer (CFO)/Comptroller and the General Counsel will provide guidance as required.

§ 1216.304 Major decision points.

The possible environmental effects of a proposed action must be considered, along with technical, economic, and other factors, in the earliest planning.
At that stage, the responsible Headquarters official shall begin the necessary steps to comply with all the requirements of section 102(2) of the National Environmental Policy Act of 1969. Major NASA activities, particularly R&D (or SFCDC) and facility projects, generally have four distinct phases: The conceptual study phase; the detailed planning/definition phase; the development/construction phase; and the operation phase. (Other NASA activities have fewer, less well-defined phases, but can still be characterized by phases representing general or feasibility study, detailed planning or definition, and implementation.) Environmental documentation shall be linked to major decision points as follows:

(a) Completion of an environmental assessment and the determination as to whether an environmental impact statement is required must be made prior to the decision to proceed from the conceptual study phase to the detailed planning/definition phase of the proposed action. For example, this determination must be concurrent with:

1. Proposal of an R&D (or SFCDC) project for detailed planning and project definition;
2. Proposal of a major Construction of Facilities project for detailed planning and project definition;
3. Proposal of an institutional action (other than a facility project) for detailed planning and definition; and
4. Proposal of a plan to define changes in an approved project.

(b) The final environmental impact statement (EIS) should be completed and circulated prior to the decision to proceed from the detailed planning/definition phase to the development/construction (or implementation) phase of the proposed action. For example, the EIS should be completed by, and incorporated with:

1. Proposal of an R&D (or SFCDC) project for development/construction;
2. Proposal of a major Construction of Facilities project for development/construction;
3. Proposal to undertake a significant institutional action (other than a facility project); and
4. Proposal to implement a program change.

§ 1216.305 Criteria for actions requiring environmental assessments.

(a) Whether a proposed NASA action within the meaning of the CEQ Regulations (43 FR 55978) requires the preparation of an environmental assessment, an environmental impact statement, both, or neither, will depend upon the scope of the action and the context and intensity of any environmental effects expected to result. A NASA action shall require the preparation of an environmental assessment (§§ 1501.3 and 1508.9 of the CEQ Regulations) provided the action is not one normally requiring an environmental impact statement (paragraph (c)) or it is not categorically excluded from the requirement for an environmental assessment and an environmental impact statement (paragraph (d)).

(b) Specific NASA actions normally requiring an environmental assessment are:

1. Specific spacecraft development and flight projects in space science.
2. Specific spacecraft development and flight projects in space and terrestrial applications.
3. Specific experimental projects in aeronautics and space technology and energy technology applications.
4. Development and operation of new space transportation systems and advanced development of new space transportation and spacecraft systems.
5. Reimbursable launches of non-NASA spacecraft or payloads.
7. Actions to alter ongoing operations at a NASA installation which could lead, either directly or indirectly, to natural or physical environmental effects.

(c) NASA actions expected to have a significant effect upon the quality of the human environment shall require an environmental impact statement. For these actions an environmental assessment is not required. Criteria to be used in determining significance are
§ 1216.306 Preparation of environmental assessments.

(a) For each NASA action meeting the criteria of 14 CFR 1216.305(b) and for other actions as required, the responsible Headquarters official shall prepare an environmental assessment (40 CFR 1501.3 and 1508.9 of the CEQ Regulations) and, on the basis of that assessment, determine if an EIS is required; except where action meeting the criteria is strictly of a local nature under the purview of the Field Installation Director.

(b) If the determination is that no environmental impact statement is required, the Headquarters official or Field Installation Director, shall, in
coordination with the Associate Administrator for Management, prepare a “Finding of No Significant Impact.” (See 40 CFR 1506.13 of the CEQ Regulations.) The “Finding of No Significant Impact” shall be made available to the affected public through direct distribution and publication in the Federal Register, or coordinated with the State Single Point of Contact pursuant to E.O. 12372, as amended, “Intergovernmental Review of Federal Programs,” as appropriate.

(c) If the determination is that an environmental impact statement is required, the Headquarters official shall proceed with the “notice of intent to prepare an EIS” (see 40 CFR 1508.22 of the CEQ Regulations). The Headquarters official shall transmit this notice to the Associate Administrator for Management for review and subsequent publication in the Federal Register (see 40 CFR 1507.3(e) of the CEQ Regulations). The Headquarters official shall then apply procedures set forth in 14 CFR 1216.307 to determine the scope of the EIS and proceed to prepare and release the environmental statement in accordance with the CEQ Regulations and the procedures of this subpart.

(d) Environmental assessments may be prepared for any actions, even those which meet the criteria for environmental impact statements (§1216.305(c)) or for categorical exclusion (§1216.305(d)), if the responsible Headquarters official believes that the action may be an exception or that an assessment will assist in planning or decisionmaking.

[44 FR 44485, July 30, 1979, as amended at 53 FR 9761, Mar. 25, 1988]  
§1216.307 Scoping.  
The responsible Headquarters official shall conduct an early and open process for determining the scope of issues to be addressed in environmental impact statements and for identifying the significant issues related to a proposed action. The elements of the scoping process are defined in §1501.7 of the CEQ Regulations and the process must include considerations of the range of actions, alternatives, and impacts discussed in §1508.25 of the CEQ Regulations. The range of environmental categories to be considered in the scoping process shall include, but not be limited to:

(a) Air quality;
(b) Water quality;
(c) Waste generation, treatment, transportation disposal and storage;
(d) Noise, sonic boom, and vibration;
(e) Toxic substances;
(f) Biotic resources;
(g) Radioactive materials and non-ionizing radiation;
(h) Endangered species;
(i) Historical, archeological, and recreational factors;
(j) Wetlands and floodplains; and
(k) Economic, population and employment factors, provided they are interrelated with natural or physical environmental factors.

§1216.308 Preparation of draft statements.  
(a) The responsible Headquarters official shall prepare the draft environmental impact statement in the manner provided in 40 CFR part 1502 of the CEQ Regulations and shall submit the draft statement and any attachments to the Associate Administrator for NASA review prior to any formal review outside NASA. This submission shall be accompanied by a list of Federal, State, and local officials (40 CFR part 1503 of the CEQ Regulations) and a list of other interested parties (40 CFR 1506.6 of the CEQ Regulations) from whom comments should be requested.

(b) After the NASA review is completed, the Associate Administrator for Management shall submit the approved draft statement to the Environmental Protection Agency (EPA), Office of Federal Activities, and shall seek the views of appropriate agencies and individuals in accordance with 40 CFR part 1503 and §1506.6 of the CEQ Regulations.

(c) Comments received shall be provided to the originating official for consideration in preparing the final statement. To the extent possible, requirements for review and consultation with other agencies on environmental matters established by statutes other than NEPA, such as the review and
§ 1216.309 Public involvement.

(a) Interested persons can get information on NASA environmental impact statements and other aspects of NASA's NEPA process by contacting the Assistant Associate Administrator for Facilities Engineering, Code NX, NASA Headquarters, Washington, DC 20546, 202–453–1965. Pertinent information regarding any aspect of the NEPA process may also be mailed to the above address.

(b) Responsible Headquarters officials and NASA Field Installation Directors shall identify those persons, community organizations, and environmental interest groups who may be interested or affected by the proposed NASA action and who should be involved in the NEPA process. They shall submit a list of such persons and organizations to the Associate Administrator for Management at the same time they submit:

(1) A recommendation regarding a "Finding of No Significant Impact,"
(2) A "Notice of Intent to Prepare an EIS,"
(3) A recommendation for public hearings,
(4) A preliminary draft EIS,
(5) A preliminary final EIS,
(6) Other preliminary environmental documents (14 CFR 1216.321(d)).

(c) The Associate Administrator for Management may modify such lists referred to in paragraph (b) of this section as appropriate to ensure that NASA shall comply, to the fullest extent practicable, with 40 CFR 1506.6 of the CEQ Regulations and section 2–4(d) of Executive Order 12114.

(d) The decision whether to hold public hearings shall be made by the Associate Administrator for Management in consultation with the General Counsel.

§ 1216.310 Preparation of final statements.

(a) After conclusion of the review process with other Federal, State, and local agencies and the public, the responsible Headquarters official shall consider all suggestions, revise the statement as appropriate, and forward the proposed final statement to the Associate Administrator for Management. The Associate Administrator for Management shall submit the approved final statement to the EPA Office of Federal Activities, to all parties who commented, and to other interested parties in accordance with CEQ Regulations.

(b) Each draft and final statement, the supporting documentation, and the record of decision shall be available for public review and copying at the office of the responsible Headquarters official, or at the office of a suitable designee. Copies of draft and final environment impact statements shall also be available at the NASA Information Center, 600 Independence Avenue, SW., Washington, DC 20546; at information centers at appropriate NASA field installations; and at appropriate state and local clearinghouses.

§ 1216.311 Record of the decision.

At the time of the decision on the proposed action, the originating Headquarters official shall consult with the Associate Administrator for Management and prepare a concise public record of the decision. (See 40 CFR 1505.2 of the CEQ Regulations.)

§ 1216.312 Timing.

(a) Environmental impact statements are drafted when the Headquarters official has determined that the statement shall be prepared. No decision to proceed to the development/construction (or implementation) phase of the proposed action (the major decision point of § 1216.304(b)) shall be made by NASA until the later of the following dates (§1506.10 of the CEQ Regulations):

(1) Ninety days after publication of an EPA notice of a NASA draft EIS.
(2) Thirty days after publication of an EPA notice of a NASA final EIS.

(b) When necessary to comply with other specific statutory requirements, NASA shall consult with and obtain from EPA time periods other than those specified by the Council for timing of agency action.

§ 1216.313 Implementing and monitoring the decision.

(a) Section 1505.3 of the CEQ Regulations provides for agency monitoring to assure that mitigation measures and other commitments made with the decision and its implementation and described in the EIS are carried out and have the intended effects.

(b) The responsible Headquarters official shall, as necessary, conduct the required monitoring and shall provide periodic reports as required by the Associate Administrator for Management.

(c) If the monitoring activity indicates that resulting environmental effects differ from those described in the current documents, the Headquarters official shall reassess the environmental impact and consult with the Associate Administrator for Management to determine the need for additional mitigation measures and whether to prepare a supplement to the EIS (see 40 CFR 1502.9 of the CEQ Regulations).

§ 1216.314 Tiering.

Actions which are the subject of an environmental impact statement and which represents projects of broad scope may contain within them component actions of narrower scope, perhaps restricted to individual sites of activity or sequential stages of a mission, and which themselves may require environmental assessments and, where necessary, environmental impact statements. The CEQ Regulations provide that agencies may use “Tiering” (§1508.28 of the CEQ Regulations) of environmental impact statements to relate such broad and narrow actions. When employing tiering, Headquarters officials shall, by reference, make maximum use of environmental documentation already available, and avoid repetition.

§ 1216.315 Processing legislative environmental impact statements.

(a) Preparation of a legislative environmental impact statement shall conform to the requirements of 40 CFR 1506.8 of the CEQ Regulations. The responsible Headquarters official, in coordination with the Associate Administrator for Management, shall identify those NASA recommendations or reports on legislation that would require preparation of environmental impact statements in accordance with criteria set forth in 14 CFR 1216.305.

(b) For the purposes of this provision, “legislation” not only excludes requests for appropriations (40 CFR 1508.17 of the CEQ Regulations), but also excludes the annual authorization bill submitted to the Congress.

§ 1216.316 Cooperating with other agencies and individuals.

(a) The Associate Administrator for Management, in coordination with the Associate Administrator for External Relations, shall ensure that NASA officials have an opportunity to cooperate with other agencies and individuals. He/she shall keep abreast of the activities of Federal, state, and local agencies, particularly activities in which NASA has expertise or jurisdiction by law (see 40 CFR 1508.15 of the CEQ Regulations). He/she shall inform the responsible Headquarters official of the need for cooperation as necessary.

(b) At the request of the Associate Administrator for Management, Headquarters officials shall initiate discussions with another Federal agency concerning those activities which may be the subject of that agency’s EIS on which NASA proposes to comment.

(c) At the request of the Associate Administrator for Management, the responsible Headquarters official shall, in the interest of eliminating duplication, prepare joint analyses, assessments, and statements with state and local agencies. These joint environmental documents shall conform with the requirements of these procedures and overall NASA policy.
(d) Because of the uniqueness of the NASA's aerospace activities, it is unlikely that NASA will have the opportunity to "adopt" environmental statements prepared by other agencies (40 CFR 1506.3 of the CEQ Regulations). However, should the responsible NASA official wish to adopt a Federal draft or final environmental impact statement or portion thereof, he/she shall consult with the Associate Administrator for Management to determine whether that statement meets NASA requirements.

(e) From time to time, there may be disagreements between NASA and other Federal agencies regarding which agency has primary responsibility to prepare an environmental impact statement in which both parties are involved. The Headquarters official with primary responsibility for the activity in question shall consult with the Associate Administrator for Management to resolve such questions in accordance with 40 CFR 1501.5 of the CEQ Regulations.

(f) Responsibility for the environmental analyses and any necessary environmental assessments and environmental impact statements required by permits, leases, easements, etc., proposed for issuance to non-Federal applicants rests with the Headquarters official responsible for granting of that permit, lease, easement, etc. The responsible Headquarters official shall consult with the Associate Administrator for Management for advice on the type of environmental information needed from the applicant and on the extent of the applicant's participation in the necessary environmental studies and their documentation.

§ 1216.317 Classified information.

Environmental assessments and impact statements which contain classified information to be withheld from public release in the interest of national security or foreign policy shall be organized so that the classified portions are appendices to the environmental document itself. The classified portion shall not be made available to the public.

§ 1216.318 Deviations.

From time to time there will arise good and valid reasons for a deviation from these procedures. These procedures are not intended to be a substitute for sound professional judgment. Accordingly, if and as problems arise which justify a deviation, the proposed deviation and supporting rationale shall be forwarded to the Associate Administrator for Management. Unless such documentation is received, it will be assumed that each planning and decisionmaking action is in accordance with these procedures.

§ 1216.319 Environmental resources document.

Each Field Installation Director shall ensure that there exists an environmental resources document which describes the current environment at that field installation, including current information on the effects of NASA operations on the local environment. This document shall include information on the same environmental effects as included in an environmental impact statement (see 14 CFR 1216.307). This document shall be coordinated with the Associate Administrator for Management and shall be published in an appropriate NASA report category for use as a reference document in preparing other environmental documents (e.g., environmental impact statements for proposed actions to be located at the NASA field installation in question). The Director of each NASA field installation shall ensure that existing resource documents are reviewed and updated, if necessary, by December 31, 1980, and at appropriate intervals thereafter.

§ 1216.320 Environmental review and consultation requirements.

(a) Headquarters officials and Field Installation Directors shall, to the maximum extent possible, conduct environmental analyses, assessments, and any impact statement preparation...
concurrently with environmental reviews required by the laws and regulations listed below:

1. Section 106 of the National Historic Preservation Act of 1966 (16 U.S.C. 470(h)) requires identification of National Register properties, eligible properties, or properties which may be eligible for the National Register within the area of the potential impact of a NASA proposed action. Evaluation of the impact of the NASA action on such properties shall be discussed in draft environmental impact statements and transmitted to the Advisory Council on Historic Preservation for comments.

2. Section 7 of the Endangered Species Act (16 U.S.C. 1531 et seq.) requires identification of and consultation on aspects of the NASA action that may affect listed species or their habitat. A written request for consultation, along with the draft statement, shall be conveyed to the Regional Director of the U.S. Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate, for the Region where the action will be carried out.

3. Executive Order 11988 (Floodplains Management) and Executive Order 11990 (Wetlands), as amended, and implemented by 14 CFR subpart 1216.2—Floodplains and Wetlands Management, prescribe procedures to avoid adverse impacts associated with the occupancy and modification of floodplains and wetlands and require identification and evaluation of actions which are proposed for location in or which may affect a floodplain or wetland. A comparative evaluation of such actions shall be discussed in draft environmental impact statements and transmitted to appropriate State Single Point of Contact for comments.

(b) Other environmental review and consultation requirements peculiar to NASA, if any, may be identified in the NASA environmental impact implementation handbook.

169

§ 1216.321 Environmental effects abroad of major Federal actions.

(a) In accordance with these procedures and E.O. 12114, "Environmental Effects Abroad of Major Federal Actions" (44 FR 44565, July 30, 1979, as amended at 53 FR 7663, Mar. 25, 1988), the Headquarters official shall analyze actions under his/her cognizance with due regard for the environmental effects abroad of such actions. The Headquarters official shall consider whether such actions involve:

1. Potential environmental effects on the global commons (i.e., oceans and the upper atmosphere);

2. Potential environmental effects on a foreign nation not participating with or not otherwise involved in the NASA activity;

3. The export of products or facilities producing products (or emission/effluents) which in the United States are prohibited or strictly regulated because their effects on the environment create a serious public health risk. The Associate Administrator for Management will provide additional guidance regarding the types of chemical, physical, and biological agents involved.

4. A physical project which, in the U.S., would be prohibited or strictly regulated by Federal law to protect the environment against radioactive substances;

5. Potential environmental effects on natural and ecological resources of global importance and which the President in the future may designate (or which the Secretary of State designates pursuant to international treaty). A list of any such designations will be available from the Associate Administrator for Management.

(b) Prior to decisions (§1216.304) on any action falling into the categories specified in paragraph (a), the Headquarters official shall make a determination whether such action may have a significant environmental effect abroad.

(c) If the Headquarters official determines that the action will not have a significant environmental effect abroad, he/she shall prepare a memorandum for the record which states the reasoning behind such a determination. A copy of the memorandum shall be forwarded to the Associate Administrator for Management. Note that these procedures do not allow for categorical exclusions (E.O. 12114, section 2-5(d)).

(d) If the Headquarters official determines that an action may have a significant environmental effect abroad,
he/she shall consult with the Associate Administrator for Management and the Director, International Relations Division. The Associate Administrator for Management, in coordination with the Director, International Relations Division, shall (as specified in E.O. 12114) make a determination whether the subject action requires:

(1) An environmental impact statement,

(2) Bilateral or multilateral environmental studies, or

(3) Concise reviews of environmental issues.

(e) When informed of the determination of the Associate Administrator for Management, the Headquarters official shall proceed to take the necessary actions in accordance with these implementing procedures.

(f) The Associate Administrator for Management shall, in coordination with the Associate Administrator for External Relations, determine when an affected nation shall be informed regarding the availability of documents referred to in paragraph (d) of this section and coordinate with the Department of State all NASA communications with foreign governments concerning environmental matters as related to E.O. 12114.

[44 FR 44485, July 30, 1979, as amended at 53 FR 9763, Mar. 25, 1988]

PART 1217—DUTY-FREE ENTRY OF SPACE ARTICLES

Sec.
1217.100 Scope.
1217.101 Applicability.
1217.102 Background.
1217.103 Authority to certify.
1217.104 Certification forms.
1217.105 Procedures.
1217.106 Articles brought into the United States by NASA from space.

SOURCE: 62 FR 6467, Feb. 12, 1997, unless otherwise noted.

§ 1217.100 Scope.

This part sets forth policy and procedures with respect to the use of the NASA’s authority to certify to the U.S. Commissioner of Customs duty-free entry of articles into the United States for the use of NASA or for implementation of a NASA international program, including articles that will be launched into space, spare parts for such articles, ground support equipment, or uniquely associated equipment for use in connection with a NASA international program or launch service agreement. This part also sets forth NASA’s procedures with respect to the use of its authority to bring foreign-owned articles and articles from space into the customs territory of the United States, and describes the non-import status of such articles.

§ 1217.101 Applicability.

This part applies to qualifying articles entered or withdrawn from warehouse for consumption in the customs territory of the United States, and to articles brought into the customs territory of the United States by NASA from space or from foreign country as part of the NASA international program.

§ 1217.102 Background.

In order to encourage and facilitate the use of NASA’s launch services for the exploration and use of space, section 116 of Public Law 97–446 provided for the duty-free entry into the United States of certain articles imported by NASA for its space-related activities or articles imported by another person or entity for the purpose of meeting its obligations under a launch services agreement with NASA. Such articles were certified by NASA to the Commissioner of Customs for duty-free entry to be launched into space or space parts or necessary and uniquely associated support equipment for use in connection with a launch into space. This exemption from duty was provided for in Subheading 9806.00.80, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202). Also, HTSUS, Chapter VIII, U.S. note 1, pursuant to the same law, provided that return of articles by NASA from space to the United States would not be considered an importation, and similarly not be subject to a duty.
As a result of the Uruguay Round agreements of the 1994 General Agreement on Tariffs and Trade, this authority was revised and expanded in scope. It now provides that imports of articles for NASA's use and articles imported to implement NASA's international programs, including articles to be launched into space, parts thereof, ground support equipment, and uniquely associated equipment for use in connection with NASA's international programs and launch service agreements would be eligible for duty-free customs entry upon certification by NASA to the Commissioner of Customs. The revised authorities also provided, in U.S. note 1 to subchapter VIII of chapter 98 of the HTSUS, that articles brought into the customs territory of the United States by NASA from space or from a foreign country as part of a NASA's international programs would not be considered imports or subject to customs entry requirements.

§1217.103 Authority to certify.

(a) The following NASA officials, their deputies, and designees within their respective organizations are authorized, under the conditions described herein, to make the certification to the Commissioner of Customs required for the duty-free entry of space articles pursuant to subheading HTSUS 9808.00.80.

(1) The NASA Associate Administrator for Procurement is authorized to issue the certification for articles imported into the United States which are procured by NASA or by other U.S. Government agencies, or by U.S. Government contractors or subcontractors when title to the articles is or will be vested in the U.S. Government pursuant to the terms of the contract or subcontract. Requests for certification should be sent to: Office of Procurement, Attn: HK/Director, Contract Management Division, National Aeronautics and Space Administration, Washington, DC 20546.

(2) The NASA Associate Administrator for External Relations is authorized to issue the certification for articles imported into the United States pursuant to international agreements. Requests for certification should be sent to: Office of External Relations, Attn: ID/Manager, International Technology Transfer Policy, National Aeronautics and Space Administration, Washington, DC 20546.

(3) The NASA Associate Administrator for Space Flight is authorized to issue the certification for articles imported into the United States by persons or entities under agreements other than those identified in paragraphs (a)(1) and (a)(2) of this section, including launch services agreements. Requests for certification should be sent to: Office of Space Flight, Attn: M/Director, Space Operations Utilization, National Aeronautics and Space Administration, Washington, DC 20546.

(b) Each certification by the officials identified in paragraphs (a)(1), (a)(2), and (a)(3) of this section shall receive the concurrence of the Office of the General Counsel.

(c) Subject to procedures established by the officials identified in paragraphs (a)(1), (a)(2), or (a)(3) of this section, as appropriate, the Center Procurement Officer or a Program Manager at a NASA Installation who is designated by an official identified in paragraphs (a)(1), (a)(2), or (a)(3) of this section may make the certification to the Commissioner of Customs required for the duty-free entry of space articles pursuant to subheading HTSUS 9808.00.80. Such procedures shall include the following requirements:

(1) All such certifications by designated Procurement Officers or Program Managers shall receive the concurrence of the Chief Counsel of the issuing NASA Installation; and

(2) All such certifications by designated Procurement Officers or Program Managers shall be promptly reported to an official identified in paragraphs (a)(1), (a)(2), or (a)(3) of this section, as appropriate.

§1217.104 Certification forms.

To the extent an authorized NASA official approves a request for certification, that official shall sign a certificate in the following form:

(a) For articles procured by NASA, a Customs Service Form CP 7501 (Entry Summary) shall be completed, and the following certification shall be used:
§ 1217.105

ARTICLES FOR THE NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Item 9808.00.80, Harmonized Tariff Schedule of the United States

Program:

I hereby certify that the articles identified in [attached invoice] are being imported for the use of the National Aeronautics and Space Administration (NASA) in accordance with 9808.00.80, Harmonized Tariff Schedule of the United States.

Name ____________________________

Date ____________________________

(b) For articles imported by NASA to implement international programs of NASA to which NASA will take title, or which remain the property of foreign entities under such programs, no entry is required pursuant to U.S. note 1 to HTSUS subchapter VIII of chapter 98. For such articles, the following certification shall be used:

ARTICLES FOR USE IN AN INTERNATIONAL PROGRAM OF THE NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Item 9808.00.80, Harmonized Tariff Schedule of the United States

Program:

Foreign Owner(s) (if applicable):

In accordance with subheading 9808.00.80 and U.S. note 1 to subchapter VIII of chapter 98, Harmonized Tariff Schedule of the United States, I hereby certify that the above-described shipment is being brought into the customs territory of the United States as part of an international program of the National Aeronautics and Space Administration (NASA). No CF 7501 entry is required for this shipment. All articles contained in this shipment are, and shall remain, the property of NASA or of the foreign entities identified above. Except for articles consumed in the execution of the above-described Program, none of these articles will be made available for sale or other disposition to persons or institutions not directly involved in the Program identified above.

Name ____________________________

Date ____________________________

(c) A blanket certificate for a series of imports under a specific NASA international program or procurement is authorized but shall require written verification by a NASA official designated by a Director of a receiving NASA Installation that the articles received meet the conditions of the certificate. The blanket certificate shall be in the form of the certifications set forth in paragraphs (a) or (b) of this section, as appropriate, but shall include the following paragraph at the end thereof:

Before this certification is used to obtain duty-free entry of these articles, a cognizant NASA official at the receiving NASA Installation, who is designated by the Installation Director, shall verify in writing that specifically identified articles to be entered on a particular date are the articles described in this certificate or its attachments. This verification and this certification shall be presented to the U.S. Customs Service at the time entry for the particular articles is sought.

Name ____________________________

Date ____________________________

With respect to articles represented to be: procurements by NASA; or imports to implement international programs of NASA to which NASA will take title, or foreign-owned articles for use in a NASA international program, the NASA official issuing the blanket certificate shall review the proposed articles and approve their eligibility for duty-free entry. A description of these articles shall either be referred to in the blanket certificate and provided in Form CP 7501 (Entry Summary) for procurements or attached to the certificate for imports to implement NASA international programs, as appropriate.

§ 1217.105 Procedures.

(a) Requests for certification shall be forwarded to an appropriate NASA official or designee as provided for in §1217.103 of this part.

(b) Each request for certification shall be accompanied by:

(1) A proposed certificate as provided for in §1217.104 of this part;

(2) The information and documentation required by 19 CFR 10.102(a), including invoice documentation or a description of covered articles; and

(3) The anticipated date of entry of entry and port of entry for each article. If the article is to be transported in bond from the port of arrival to another port of entry in the United States, identify both ports.

(c) A blanket certificate and its attachment(s) will be forwarded to the NASA Installation responsible for
duty-free entry of the materials, unless issued at such Installation by an authorized official in accordance with §1217.103(c) of this part. These documents shall be presented to an appropriated Customs official at the port(s) of entry. The procedures specified in 19 CFR 10.102 will be followed by the NASA Installation in obtaining duty-free entry at the Customs port(s) of entry. The NASA Installation should ensure that, at the time the articles are to be released after Customs entry, the custody of the imported articles is transferred directly from the carrier or from the U.S. Customs Service to the NASA Installation, its agent, or the launch service customer in the case of a Launch and Associated Services Agreement.

(d) If articles procured under contract by NASA are imported prior to compliance with these procedures and it is essential that the articles be released from Customs custody prior to such compliance, the procedures outlined in 19 CFR 10.101 may be followed by cognizant NASA officials to secure the release of the articles from Customs custody. To the extent applicable, the procedures in §1217.105 of this part shall be followed when time permits to obtain duty-free entry for the articles released from Customs custody.

§1217.106 Articles brought into the United States by NASA from space.

Pursuant to U.S. note 1 subchapter VIII of chapter 98, HTSUS, articles brought into the customs territory of the United States by NASA from space shall not be considered an importation, and no certification or entry of such materials through U.S. Customs shall be required. This provision is applicable to articles brought to the U.S. from space whether or not the articles were launched into space aboard a NASA vehicle.

APPENDIX A TO PART 1221—CONGRESSIONAL SPACE MEDAL OF HONOR

Subpart 1221.2—The Congressional Space Medal of Honor

1221.200 Scope.
1221.201 Basis for award of the medal.
1221.202 Description of the medal.
1221.203 Nominations.
1221.204 Proceedings of the NASA Incentive Awards Board.

APPENDIX A TO PART 1221—CONGRESSIONAL SPACE MEDAL OF HONOR

Subpart 1221.1—NASA Seal, NASA Insignia, NASA Logotype, NASA Program Identifiers, NASA Flags, and the Agency’s Unified Visual Communications System

AUTHORITY: 42 U.S.C. 2472(a) and 2473(c)(1).
§ 1221.100 Scope.

This subpart sets forth the policy governing the use of the NASA Seal, the NASA Insignia, NASA Logotype, NASA Program Identifiers, and the NASA Flags. This subpart also establishes and sets forth the concept and scope of the NASA Unified Visual Communications System and prescribes the policy and guidelines for implementation of the system.

§ 1221.101 Policy.

(a) The NASA Seal, the NASA Insignia, NASA Logotype, NASA Program Identifiers, the NASA Flags, and the Agency’s Unified Visual Communications System, as prescribed in §1221.102 through §1221.108 of this subpart, shall be used exclusively to represent NASA, its programs, projects, functions, activities, or elements. The use of any devices other than those provided by or subsequently approved in accordance with the provisions of this subpart is prohibited.

(b) The use of the devices prescribed in this section shall be governed by the provisions of this subpart. The use of the devices prescribed in this section for any purpose other than as authorized by this subpart is prohibited. Their misuse shall be subject to the penalties authorized by statute, as set forth in §1221.115 and shall be reported as provided in §1221.116.

(c) Any proposal for a new NASA Insignia, NASA Logotype, NASA Program Identifier, or for modification to those prescribed in this section shall be processed in accordance with §1221.114.

§ 1221.102 Establishment of the NASA Seal.

The NASA Seal was established by Executive Order 10849 (24 FR 9559, November 27, 1959, as amended by Executive Order 10942 (24 FR 4419, May 22, 1961. The NASA Seal, established by the President, is the Seal of the Agency and symbolizes the achievements and goals of NASA and the United States in aeronautical and space activities. The NASA Seal shall be used as set forth in §1221.109.
§ 1221.103 Establishment of the NASA Insignia.

The NASA Insignia was designed by the Army Institute of Heraldry and approved by the Commission of Fine Arts and the NASA Administrator. It symbolizes NASA's role in aeronautics and space and is established by the NASA Administrator as the signature design element for visual communications formerly reserved for the NASA Logotype. The NASA Insignia shall be used as set forth in §1221.110, the NASA Graphics Standards Manual, NASA Insignia Standards Supplement, and any related NASA directive or specification approved by the NASA Administrator and published subsequent hereto.

TECHNICAL DESCRIPTION:

The official seal of the National Aeronautics and Space Administration is a disc of blue sky strewn with white stars. To the left, there is a large yellow sphere bearing a red flight vector symbol. The wings of the vector symbol envelope and cast a brown shadow upon it. A white horizontal orbit also encircles the sphere. To the right, there is a small light blue sphere. A white band which circumscribes the disc is edged in gold and is inscribed with "National Aeronautics and Space Administration U.S.A." in red letters.
§ 1221.104 Establishment of the NASA Logotype.

The NASA Logotype was approved by the Commission of Fine Arts and the NASA Administrator. It symbolizes NASA’s role in aeronautics and space from 1975 to 1992 and has been retired.

TECHNICAL DESCRIPTION:

The official insignia of the National Aeronautics and Space Administration is a dark blue disc with white stars. The white hand-cut letters "NASA" are in the center of the disc and are encircled by a white diagonal orbit. A solid red vector symbol also appears behind and in front of the letters.

REPRODUCTION:

The NASA Insignia may be reproduced black-on-white (single color) as shown above or two-color (blue and red on white). The colors are PMS 286 blue and PMS 185 red.

The Insignia may be reproduced in various sizes but not less than five-eighths (5/8) of an inch. The sizes are determined on the basis of (a) desired effect for visual identification or publicity purposes, (b) relative size of the object on which the Insignia is to appear, and (c) consideration of any design, layout, reproduction, or other problems involved. For more information, refer to the NASA Insignia Standards Supplement.
\textbf{§1221.106 Establishment of the NASA Logotype.}

The NASA Logotype shall be used as set forth in §1221.111.

\textbf{FIGURE C}

The NASA Logotype

\textbf{REPRODUCTION:}

Black-on-white or single color: As shown.

One color: The preferred color of the NASA Logotype is NASA red (PMS 179), used only when a second color is available and appropriate. Against a white background, the NASA Logotype may be shown in NASA red, black, or NASA warm gray (PMS 416). For background of other values, the Graphics Standards Manual is to be consulted and followed.

\textbf{SIZE:}

The NASA Logotype may be reproduced or used in various sizes. Size to be determined on the basis of (a) desired effect for visual identification or publicity purposes, (b) relative size of the object on which the NASA Logotype is to appear, and (c) consideration of any design, layout, reproduction or other problems involved. Refer to the Graphics Standards Manual for details.

\textbf{RESTRICTION:}

The NASA Logotype will not be used for any purpose without the written approval of the Administrator.

\textbf{§1221.105 Establishment of NASA Program Identifiers.}

A separate and unique identifier may be designed and approved in connection with or in commemoration of a major NASA program. Each approved identifier shall be officially identified by its title such as "Apollo," "Skylab," "Viking," "Space Shuttle," "Space Station," or a major NASA anniversary. NASA Program Identifiers shall be used as set forth in §1221.112 pursuant to approval as set forth in §1221.114.

\textbf{§1221.106 Establishment of the NASA Flag.}

The NASA Flags for interior and exterior use were created by the NASA Administrator in January 1960. Complete design, size, and color of the NASA interior and exterior flags for manufacturing purposes are detailed in U.S. Army QMG Drawing 5-1–209, revision September 14, 1960. The NASA Flags shall be used as set forth in §1221.113.
§ 1221.107 Establishment of the NASA Administrator's, Deputy Administrator's, and Associate Deputy Administrator's Flags.

(a) Concurrently with the establishment of the NASA Flag in January 1960, the NASA Administrator also established NASA Flags to represent the NASA Administrator, Deputy Administrator, and Associate Deputy Administrator. Each of these flags conforms to the basic design of the NASA Flag except for the following:

1. The size of the flag is 3 feet x 4 feet;

2. The Administrator's Flag has four stars;
§ 1221.109 Use of the NASA Seal.

(a) The Associate Deputy Administrator shall be responsible for custody of the NASA Impression Seal and custody of NASA replica (plaques) seals. The NASA Seal is restricted to the following:

(1) NASA award certificates and medals.

(2) NASA awards for career service.

(3) Security credentials and employee identification cards.

(4) NASA Administrator’s documents; the Seal may be used on documents such as interagency or intergovernmental agreements and special reports to the President and Congress, and on other documents, at the discretion of the NASA Administrator.

(5) Plaques: the design of the NASA Seal may be incorporated in plaques for display in Agency auditoriums, presentation rooms, lobbies, offices of senior officials, and on the fronts of buildings occupied by NASA. A separate NASA seal in the form of a 15-inch, round, bronze-colored plaque on a walnut-colored wood base is also available, but prohibited for use in the above representational manner. It is restricted to use only as a presentation item by the Administrator and the Deputy Administrator.
(6) The NASA Flag and the NASA Administrator’s, Deputy Administrator’s, and Associate Deputy Administrator’s Flags, which incorporate the design of the Seal.

(7) NASA prestige publications which represent the achievements or missions of NASA as a whole.

(8) Publications (or documents) involving participation by another Government agency for which the other Government agency has authorized the use of its seal.

(b) Use of the NASA Seal for any purpose other than as prescribed in this section is prohibited, except that the Associate Deputy Administrator may authorize, on a case-by-case basis, the use of the NASA Seal for purposes other than those prescribed when the Associate Deputy Administrator deems such use to be appropriate.

§ 1221.110 Use of the NASA Insignia.

The NASA Insignia is authorized for use on the following:

(a) NASA articles. (1) NASA letterhead stationary.

(2) Films, videotapes, and sound recordings produced by or for NASA.

(3) Wearing apparel and personal property items used by NASA employees in the performance of their duties.

(4) Required uniforms of contractor employees when performing public affairs, guard or fire protection duties, and similar duties within NASA installations or at other assigned NASA duty stations, and on any required contractor-owned vehicles used exclusively in the performance of these duties, when authorized by NASA contracting officers.

(5) Spacecraft, aircraft, automobiles, trucks and similar vehicles owned by, leased to, or contractor-furnished to NASA, or produced for NASA by contractors, but excluding NASA-owned vehicles used and operated by contractors for the conduct of contractor businesses.

(6) Equipment and facilities owned by, leased to, or contractor-furnished to NASA, such as machinery, major tools, ground handling equipment, office and shop furnishings (if appropriate), and similar items of a permanent nature, including those produced for NASA by contractors.

(7) NASA publications, including pamphlets, brochures, manuals, handbooks, house organs, bulletins, general reports, posters, signs, charts, exhibits, and items of similar nature for general use, as specified in the NASA Graphics Standards Manual and the NASA Insignia Standards Supplement.

(8) Briefcases or dispatch cases issued by NASA.

(9) Certificates covering authority to NASA and contractor security personnel to carry firearms.

(10) NASA occupied buildings when the use of the NASA Insignia is more appropriate than use of the NASA Seal.

(b) Personal articles—NASA employees.

(1) Business calling cards of NASA employees may carry the imprint of the NASA Insignia.

(2) Limited usage on automobiles. If determined appropriate by the cognizant Installation official, it is acceptable to place a NASA Insignia sticker on personal automobiles where such identification will facilitate entry or control of such vehicles at NASA installations or parking areas.

(3) Personal items used in connection with NASA employees’ recreation association activities.

(4) Items for sale through NASA employees’ nonappropriated fund activities subject to paragraph (c) of this section.

(5) NASA employees shall not use the NASA Insignia in any manner that would imply that NASA endorses a commercial product, service, or activity or that material of a nonofficial nature represents NASA’s official position.

(c) Miscellaneous articles.

(1) The manufacture and commercial sale of the NASA Insignia as a separate and distinct device in the form of an emblem, patch, insignia, badge, decal, vinylcal, cloth, metal, or other material which would preclude NASA’s control over its use or application is prohibited.

(2) Use of the NASA Uniform Patches, which incorporate the NASA Insignia, is authorized only as prescribed in the NASA Graphics Standards Manual and the NASA Insignia Standards Supplement, for NASA personnel and NASA contractor personnel identification.
(3) No approval for use of the NASA Insignia will be authorized when its use can be construed as an endorsement by NASA of a product or service.

(4) Items bearing the NASA Insignia such as souvenirs, novelties, toys, models, clothing, and similar items (including items for sale through the NASA employees’ nonappropriated fund activities) may be manufactured and sold only after the NASA Insignia application has been submitted to, and approved by, the Associate Administrator for Public Affairs, or designee, NASA Headquarters, Washington, DC 20546.

(d) Use of the NASA Insignia for any other purpose than as prescribed in this section is prohibited, except that the Associate Administrator for Public Affairs may authorize on a case-by-case basis the use of the NASA Insignia for other purposes when the Associate Administrator for the Public Affairs deems such use to be appropriate.

§ 1221.111 Use of the NASA Logotype.

The NASA Logotype has been retired and is used only in an authentic historical context, and only with prior written approval of the NASA Administrator.

§ 1221.112 Use of the NASA Program Identifiers.

(a) Official NASA Program Identifiers will be restricted to the uses set forth in this section and to such other uses as the Associate Administrator for Public Affairs may specifically approve.

(b) Specific approval is given for the following uses:

(1) Use of exact reproductions of a badge in the form of a patch made of cloth or other material, or a decal, or a gummed sticker on articles of wearing apparel and personal property items; and

(2) Use of exact renderings of a badge on a coin, medal, plaque, or other commemorative souvenirs.

(c) The manufacture and sale or free distribution of identifiers for the uses approved or that may be approved under paragraphs (a) and (b) of this section are authorized.

(d) Portrayal of an exact reproduction of a badge in conjunction with the advertising of any product or service will be approved on a case-by-case basis by the Associate Administrator for Public Affairs.

(e) The manufacture, sale, or use of any colorable imitation of the design of an official NASA Program Identifier will not be approved.

§ 1221.113 Use of the NASA Flags.

(a) The NASA Flag is authorized for use only as follows:

(1) On or in front of NASA buildings.

(2) At NASA ceremonies.

(3) At conferences (including display in NASA conference rooms).

(4) At governmental or public appearances of NASA executives.

(5) In private offices of senior officials.

(b) As otherwise authorized by the NASA Administrator or designee.

(7) The NASA Flag must be displayed with the United States Flag. When the United States Flag and the NASA Flag are displayed on a speaker’s platform in an auditorium, the United States Flag must occupy the position of honor and be placed at the speaker’s right as the speaker faces the audience, with the NASA Flag at the speaker’s left.

(b) The NASA Administrator’s, Deputy Administrator’s, and Associate Deputy Administrator’s Flags shall be displayed with the United States Flag in the respective offices of these officials but may be temporarily removed for use at the discretion of the officials concerned.

§ 1221.114 Approval of new or change proposals.

(a) Except for NASA Astronaut Mission Crew Badges/Patches, any proposal to change or modify the emblematic devices set forth in this subpart or to introduce a new emblematic device other than as prescribed in this subpart requires the written approval of the NASA Administrator with prior approval and recommendation of the Director, Public Services Division.

(b) In addition to the written approval of the NASA Administrator, any proposal for a new or for a modification to the design of the NASA Insignia may also be submitted to the Commission of Fine Arts for its advice as to the merit of the design. If approved in writing by the NASA Administrator
§ 1221.115 Violations.

(a) NASA Seal. Any person who uses the NASA Seal in a manner other than as authorized in this subpart shall be subject to the provisions of Title 18 U.S.C. 1017.

(b) NASA Insignia, NASA Logotype, and NASA Program Identifiers. Any person who uses the NASA Insignia, NASA Logotype, or NASA Program Identifier in a manner other than as authorized in this subpart shall be subject to the provisions of title 18 U.S.C. 701.

§ 1221.116 Compliance and enforcement.

In order to ensure adherence to the authorized uses of the NASA Seal, the NASA Insignia, the NASA Logotype, NASA Program Identifiers, and the NASA Flags as provided, in this subpart, a report of each suspected violation of this subpart (including the use of unauthorized NASA Insignias) or of questionable usages of the NASA Seal, the NASA Insignia, the NASA Logotype, NASA Program Identifiers, or the NASA Flags, shall be submitted to the Inspector General, NASA Headquarters, in accordance with NASA Management Instruction 9810.1, “The NASA Investigations Program.”

Subpart 1221.2—The Congressional Space Medal of Honor

Source: 43 FR 15624, Apr. 14, 1978, unless otherwise noted.
such as eyewitness statements, extracts from official records, sketches, photographs, etc.

(c) All recommendations for nominations submitted to the Administrator or made on his own initiative will be referred to the NASA Incentive Awards Board for the purpose of investigating and making findings of fact and giving advice to the Administrator.

(d) Any recommendation involving an astronaut who is a member of the armed services on active duty or who is employed by another agency of the Federal Government but temporarily assigned or detailed to NASA shall also be transmitted to the Secretary of Defense or the head of the employing agency, as appropriate, for his or her recommendation.

(e) The Administrator will forward to the President his recommendation, and that of the astronaut’s employing agency, as appropriate.

§ 1221.204 Proceedings of the NASA Incentive Awards Board.

The NASA Incentive Awards Board shall thoroughly consider the facts giving rise to a recommendation for nomination and shall prepare a report for the Administrator. The Board should, to the extent practicable, coordinate its efforts with those of the astronaut’s employing agency, as appropriate. Its final report must take into account any pertinent information submitted by the employing agency.

APPENDIX A TO PART 1221—
CONGRESSIONAL SPACE MEDAL OF HONOR

OVERSE

DESCRIPTION

A circular green enamel wreath of laurel surmounted by a five-pointed gold star (with vertical point downward) and issuing from between each point a gold flame, the star surmounted by a light blue enamel cloud bank with five lobes edged in gold bearing a five-pointed dark blue enamel star fimbriated gold and charged in center with a diamond; standing upon the wreath at top center a gold eagle with wings displayed.

SYMBOLISM

The laurel wreath, a symbol of great achievement, with the overlapping star points, simulates space vehicles moving to greater accomplishments through space. The flames signify the dynamic energy of the rocket era and the imagination of the men in the space program of the United States. The stylized glory cloud alludes to the glory in the coat of arms of the United States and to the high esteem of the award. The dark blue voided star symbolizes the vast mysteries of outer space while the brilliancy of the feat is represented by a diamond. The eagle with wings raised in the spirit of peace represents man’s first landing on another planet.

REVERSE

DESCRIPTION

The reverse bears in center the inscription “CONGRESSIONAL” arranged in a semicircle above the inscription “SPACE MEDAL PRESENTED TO”; in base is space for the name of the recipient and the date all within an outer circle of fifty stars.

SUSPENSION RIBBON

DESCRIPTION

A ribbon 1 ⅜ inches in width consisting of the following vertical stripes: gold ¼ inch, dark blue ⅜ inch, light blue ⅜ inch, white ¼ inch, red ⅓ inch, white ¼ inch, light blue ⅜ inch, dark blue ⅜ inch, gold ⅛ inch.

CABLE NOS. OF COLORS

Gold ................................ 65021 (old gold).
Dark Blue ....................... 70076 (independence blue).
Blue ................................ 65014 (light blue).
Red ................................. 65006 (scarlet).
White .............................. 65005.

SYMBOLISM

The scarlet center line on the white band symbolizes the courage of the astronauts in the nation’s manned space program and the fire power of rockets that carry the crew through the earth’s atmosphere (light blue); the light blue is the same color as the chief of the shield of the coat of arms of the United States which appears on the President’s flag. The dark blue symbolizes the hostile environment of space, the gold edge representing success and accomplishment. Red, white and blue are also the national colors of the United States.

MINIATURE

DESCRIPTION

A one-half size replica of the medal and suspension ribbon approximately 2⅜ inches in overall length.

LAPEL EMBLEM

DESCRIPTION

A miniature of the obverse of the medal, ¾ inch in diameter, all gold with a diamond in center.

SOURCE: 56 FR 28012, 28019, June 18, 1991, unless otherwise noted.

§1230.101 To what does this policy apply?

(a) Except as provided in paragraph (b) of this section, this policy applies to all research involving human subjects conducted, supported or otherwise subject to regulation by any federal department or agency which takes appropriate administrative action to make the policy applicable to such research. This includes research conducted by federal civilian employees or military personnel, except that each department or agency head may adopt such procedural modifications as may be appropriate from an administrative standpoint. It also includes research conducted, supported, or otherwise subject to regulation by the federal government outside the United States.

1. Research that is conducted or supported by a federal department or agency, whether or not it is regulated as defined in §1230.102(e), must comply with all sections of this policy.

2. Research that is neither conducted nor supported by a federal department or agency but is subject to regulation as defined in §1230.102(e) must be reviewed and approved, in compliance with §§1230.101, 1230.102, and 1230.107 through 1230.117 of this policy, by an institutional review board (IRB) that operates in accordance with the pertinent requirements of this policy.

(b) Unless otherwise required by department or agency heads, research activities in which the only involvement of human subjects will be in one or more of the following categories are exempt from this policy:

1. Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (i) research on regular and special education instructional strategies, or (ii) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

2. Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless:

(i) Information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and
(ii) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation.

3. Research involving the use of educational tests (cognitive, diagnostic,
§ 1230.101

aptitude, achievement), survey procedures, interview procedures, or observation of public behavior that is not exempt under paragraph (b)(2) of this section, if:

(i) The human subjects are elected or appointed public officials or candidates for public office; or (ii) federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research, involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in such a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine:

(i) Public benefit or service programs; (ii) procedures for obtaining benefits or services under those programs; (iii) possible changes in or alternatives to those programs or procedures; or (iv) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (i) if wholesome foods without additives are consumed or (ii) if a food is consumed that contains a food ingredient at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

(c) Department or agency heads retain final judgment as to whether a particular activity is covered by this policy.

(d) Department or agency heads may require that specific research activities or classes of research activities conducted, supported, or otherwise subject to regulation by the department or agency but not otherwise covered by this policy, comply with some or all of the requirements of this policy.

(e) Compliance with this policy requires compliance with pertinent federal laws or regulations which provide additional protections for human subjects.

(f) This policy does not provide any state or local laws or regulations which may otherwise be applicable and which provide additional protections for human subjects.

(g) This policy does not affect any foreign laws or regulations which may otherwise be applicable and which provide additional protections to human subjects of research.

(h) When research covered by this policy takes place in foreign countries, procedures normally followed in the foreign countries to protect human subjects may differ from those set forth in this policy. [An example is a foreign institution which complies with guidelines consistent with the World Medical Assembly Declaration (Declaration of Helsinki amended 1989) issued either by sovereign states or by an organization whose function for the protection of human research subjects is internationally recognized.] In these circumstances, if a department or agency head determines that the procedures prescribed by the institution afford protections that are at least equivalent to those provided in this policy, the department or agency head may approve the substitution of the foreign procedures in lieu of the procedural requirements provided in this policy. Except when otherwise required by statute, Executive Order, or the department or agency head, notices of these actions as they occur will be published in the Federal Register or will be otherwise published as provided in department or agency procedures.

(i) Unless otherwise required by law, department or agency heads may waive the applicability of some or all of the provisions of this policy to specific research activities or classes of research activities otherwise covered by this policy. Except when otherwise required by statute or Executive Order, the department or agency head shall forward advance notices of these actions to the Office for Protection from Research
§ 1230.102

Risks, Department of Health and Human Services (HHS), and shall also publish them in the Federal Register or in such other manner as provided in department or agency procedures. ¹

[56 FR 28012, 28019, June 18, 1991; 56 FR 29756, June 28, 1991]

§ 1230.102 Definitions.

(a) Department or agency head means the head of any federal department or agency and any other officer or employee of any department or agency to whom authority has been delegated.

(b) Institution means any public or private entity or agency (including federal, state, and other agencies).

(c) Legally authorized representative means an individual or judicial or other body authorized under applicable law to consent on behalf of a prospective subject to the subject’s participation in the procedure(s) involved in the research.

(d) Research means a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge. Activities which meet this definition constitute research for purposes of this policy, whether or not they are conducted or supported under a program which is considered research for other purposes.

For example, some demonstration and service programs may include research for other purposes. Considered research for other purposes.

(e) Research subject to regulation, and similar terms are intended to encompass those research activities for which a federal department or agency has specific responsibility for regulating as a research activity, (for example, Investigational New Drug requirements administered by the Food and Drug Administration). It does not include research activities which are incidentally regulated by a federal department or agency solely as part of the department’s or agency’s broader responsibility to regulate certain types of activities whether research or non-research in nature (for example, Wage and Hour requirements administered by the Department of Labor).

(f) Human subject means a living individual about whom an investigator (whether professional or student) conducting research obtains

(1) Data through intervention or interaction with the individual, or

(2) Identifiable private information.

Intervention includes both physical procedures by which data are gathered (for example, venipuncture) and manipulations of the subject or the subject’s environment that are performed for research purposes. Interaction includes communication or interpersonal contact between investigator and subject. “Private information” includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a medical record). Private information must be individually identifiable (i.e., the identity of the subject is or may readily be ascertained by the investigator or associated with the information) in order for obtaining the information to constitute research involving human subjects.

(g) IRB means an institutional review board established in accord with and for the purposes expressed in this policy.

(h) IRB approval means the determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and federal requirements.

(i) Minimal risk means that the probability and magnitude of harm or discomfort anticipated in the research are...
§ 1230.103 Assuring compliance with this policy—research conducted or supported by any Federal Department or Agency.

(a) Each institution engaged in research which is covered by this policy and which is conducted or supported by a federal department or agency shall provide written assurance satisfactory to the department or agency head that it will comply with the requirements set forth in this policy. In lieu of requiring submission of an assurance, individual department or agency heads shall accept the existence of a current assurance, appropriate for the research in question, on file with the Office for Protection from Research Risks, HHS, and approved for federalwide use by that office. When the existence of an HHS-approved assurance is accepted in lieu of requiring submission of an assurance, reports (except certification) required by this policy to be made to department and agency heads shall also be made to the Office for Protection from Research Risks, HHS.

(b) Departments and agencies will conduct or support research covered by this policy only if the institution has an assurance approved as provided in this section, and only if the institution has certified to the department or agency head that the research has been reviewed and approved by an IRB provided for in the assurance, and will subject to continuing review by the IRB. Assurances applicable to federally supported or conducted research shall at a minimum include:

(1) A statement of principles governing the institution in the discharge of its responsibilities for protecting the rights and welfare of human subjects of research conducted at or sponsored by the institution, regardless of whether the research is subject to federal regulation. This may include an appropriate existing code, declaration, or statement of ethical principles, or a statement formulated by the institution itself. This requirement does not preempt provisions of this policy applicable to department- or agency-supported or regulated research and need not be applicable to any research exempted or waived under §1230.101(b) or (i).

(2) Designation of one or more IRBs established in accordance with the requirements of this policy, and for which provisions are made for meeting space and sufficient staff to support the IRB’s review and recordkeeping duties.

(3) A list of IRB members identified by name; earned degrees; representative capacity; indications of experience such as board certifications, licenses, etc., sufficient to describe each member’s chief anticipated contributions to IRB deliberations; and any employment or other relationship between each member and the institution; for example: full-time employee, part-time employee, member of governing panel or board, stockholder, paid or unpaid consultant. Changes in IRB membership shall be reported to the department or agency head, unless in accord with §1230.103(a) of this policy, the existence of an HHS-approved assurance is accepted. In this case, change in IRB membership shall be reported to the Office for Protection from Research Risks, HHS.

(4) Written procedures which the IRB will follow (i) for conducting its initial and continuing review of research and for reporting its findings and actions to the investigator and the institution; (ii) for determining which projects require review more often than annually and which projects need verification from sources other than the investigators that no material changes have occurred since previous IRB review; and (iii) for ensuring prompt reporting to the IRB of proposed changes in a research activity, and for ensuring that such changes in approved research, during the period for which IRB approval has already been given, may not be initiated without IRB review and

approval except when necessary to eliminate apparent immediate hazards to the subject.

(5) Written procedures for ensuring prompt reporting to the IRB, appropriate institutional officials, and the department or agency head of (i) any unanticipated problems involving risks to subjects or others or any serious or continuing noncompliance with this policy or the requirements or determinations of the IRB and (ii) any suspension or termination of IRB approval.

(c) The assurance shall be executed by an individual authorized to act for the institution and to assume on behalf of the institution the obligations imposed by this policy and shall be filed in such form and manner as the department or agency head prescribes.

(d) The department or agency head will evaluate all assurances submitted in accordance with this policy through such officers and employees of the department or agency and such experts or consultants engaged for this purpose as the department or agency head determines to be appropriate. The department or agency head’s evaluation will take into consideration the adequacy of the proposed IRB in light of the anticipated scope of the institution’s research activities and the types of subject populations likely to be involved, the appropriateness of the proposed initial and continuing review procedures in light of the probable risks, and the size and complexity of the institution.

(e) On the basis of this evaluation, the department or agency head may approve or disapprove the assurance, or enter into negotiations to develop an approvable one. The department or agency head may limit the period during which any particular approved assurance or class of approved assurances shall remain effective or otherwise condition or restrict approval.

(f) Certification is required when the research is supported by a federal department or agency and not otherwise exempted or waived under §1230.101 (b) or (i). An institution with an approved assurance shall certify that each application or proposal for research covered by the assurance and by §1230.103 of this Policy has been reviewed and approved by the IRB. Such certification must be submitted with the application or proposal or by such later date as may be prescribed by the department or agency to which the application or proposal is submitted. Under no condition shall research covered by §1230.103 of the Policy be supported prior to receipt of the certification that the research has been reviewed and approved by the IRB. Institutions without an approved assurance covering the research shall certify within 30 days after receipt of a request for such a certification from the department or agency, that the application or proposal has been approved by the IRB. If the certification is not submitted within these time limits, the application or proposal may be returned to the institution.

(Approved by the Office of Management and Budget under control number 9999–0020)

§§ 1230.104–1230.106 [Reserved]

§ 1230.107 IRB membership.

(a) Each IRB shall have at least five members, with varying backgrounds to promote complete and adequate review of research activities commonly conducted by the institution. The IRB shall be sufficiently qualified through the experience and expertise of its members, and the diversity of the members, including consideration of race, gender, and cultural backgrounds and sensitivity to such issues as community attitudes, to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review specific research activities, the IRB shall be able to ascertain the acceptability of proposed research in terms of institutional commitments and regulations, applicable law, and standards of professional conduct and practice. The IRB shall therefore include persons knowledgeable in these areas. If an IRB regularly reviews research that involves a vulnerable category of subjects, such as children, prisoners, pregnant women, or handicapped or mentally disabled persons, consideration shall be given to the inclusion of one or more individuals who
§ 1230.110 Expedited review procedures for certain kinds of research involving no more than minimal risk, and for minor changes in approved research.

(a) The Secretary, HHS, has established, and published as a Notice in the Federal Register, a list of categories of research that may be reviewed by the IRB through an expedited review procedure. The list will be amended, as appropriate after consultation with other departments and agencies, through periodic republication by the Secretary, HHS, in the Federal Register. A copy of the list is available from the Office for Protection from Research Risks, National Institutes of Health, HHS, Bethesda, Maryland 20892.
§ 1230.111 Criteria for IRB approval of research.
(a) In order to approve research covered by this policy the IRB shall determine that all of the following requirements are satisfied:
(1) Risks to subjects are minimized: (i) By using procedures which are consistent with sound research design and which do not unnecessarily expose subjects to risk, and (ii) whenever appropriate, by using procedures already being performed on the subjects for diagnostic or treatment purposes.
(2) Risks to subjects are reasonable in relation to anticipated benefits, if any, to subjects, and the importance of the knowledge that may reasonably be expected to result. In evaluating risks and benefits, the IRB should consider only those risks and benefits that may result from the research (as distinguished from risks and benefits of therapies subjects would receive even if not participating in the research). The IRB should not consider possible long-range effects of applying knowledge gained in the research (for example, the possible effects of the research on public policy) as among those research risks that fall within the purview of its responsibility.
(3) Selection of subjects is equitable. In making this assessment the IRB should take into account the purposes of the research and the setting in which the research will be conducted and should be particularly cognizant of the special problems of research involving vulnerable populations, such as children, prisoners, pregnant women, mentally disabled persons, or economically or educationally disadvantaged persons.
(4) Informed consent will be sought from each prospective subject or the subject's legally authorized representative, in accordance with, and to the extent required by § 1230.116.
(5) Informed consent will be appropriately documented, in accordance with, and to the extent required by § 1230.117.
(6) When appropriate, the research plan makes adequate provision for monitoring the data collected to ensure the safety of subjects.
(7) When appropriate, there are adequate provisions to protect the privacy of subjects and to maintain the confidentiality of data.
(b) An IRB may use the expedited review procedure to review either or both of the following:
(1) Some or all of the research appearing on the list and found by the reviewer(s) to involve no more than minimal risk.
(2) Minor changes in previously approved research during the period (of one year or less) for which approval is authorized.
Under an expedited review procedure, the review may be carried out by the IRB chairperson or by one or more experienced reviewers designated by the chairperson from among members of the IRB. In reviewing the research, the reviewers may exercise all of the authorities of the IRB except that the reviewers may not disapprove the research. A research activity may be disapproved only after review in accordance with the non-expedited procedure set forth in § 1230.108(b).
(c) Each IRB which uses an expedited review procedure shall adopt a method for keeping all members advised of research proposals which have been approved under the procedure.
(d) The department or agency head may restrict, suspend, terminate, or choose not to authorize an institution's or IRB's use of the expedited review procedure.
§ 1230.112 Review by institution.
Research covered by this policy that has been approved by an IRB may be subject to further appropriate review and approval or disapproval by officials of the institution. However, those officials may not approve the research if it has not been approved by an IRB.
§ 1230.113 Suspension or termination of IRB approval of research.

An IRB shall have authority to suspend or terminate approval of research that is not being conducted in accordance with the IRB’s requirements or that has been associated with unexpected serious harm to subjects. Any suspension or termination of approval shall include a statement of the reasons for the IRB’s action and shall be reported promptly to the investigator, appropriate institutional officials, and the department or agency head.

(Approved by the Office of Management and Budget under control number 9999–0020)

§ 1230.114 Cooperative research.

Cooperative research projects are those projects covered by this policy which involve more than one institution. In the conduct of cooperative research projects, each institution is responsible for safeguarding the rights and welfare of human subjects and for complying with this policy. With the approval of the department or agency head, an institution participating in a cooperative project may enter into a joint review arrangement, rely upon the review of another qualified IRB, or make similar arrangements for avoiding duplication of effort.

§ 1230.115 IRB records.

(a) An institution, or when appropriate an IRB, shall prepare and maintain adequate documentation of IRB activities, including the following:

(1) Copies of all research proposals reviewed, scientific evaluations, if any, that accompany the proposals, approved sample consent documents, progress reports submitted by investigators, and reports of injuries to subjects.

(2) Minutes of IRB meetings which shall be in sufficient detail to show attendance at the meetings; actions taken by the IRB; the vote on these actions including the number of members voting for, against, and abstaining; the basis for requiring changes in or disapproving research; and a written summary of the discussion of controverted issues and their resolution.

(3) Records of continuing review activities.

(4) Copies of all correspondence between the IRB and the investigators.

(5) A list of IRB members in the same detail as described is §1230.103(b)(3).

(6) Written procedures for the IRB in the same detail as described in §§1230.103(b)(4) and 1230.103(b)(5).

(7) Statements of significant new findings provided to subjects, as required by §1230.116(b)(5).

(b) The records required by this policy shall be retained for at least 3 years, and records relating to research which is conducted shall be retained for at least 3 years after completion of the research. All records shall be accessible for inspection and copying by authorized representatives of the department or agency at reasonable times and in a reasonable manner.

(Approved by the Office of Management and Budget under control number 9999–0020)

§ 1230.116 General requirements for informed consent.

Except as provided elsewhere in this policy, no investigator may involve a human being as a subject in research covered by this policy unless the investigator has obtained the legally effective informed consent of the subject or the subject’s legally authorized representative. An investigator shall seek such consent only under circumstances that provide the prospective subject or the representative sufficient opportunity to consider whether or not to participate and that minimize the possibility of coercion or undue influence.

The information that is given to the subject or the representative shall be in language understandable to the subject or the representative. No informed consent, whether oral or written, may include any exculpatory language through which the subject or the representative is made to waive or appear to waive any of the subject’s legal rights, or releases or appears to release the investigator, the sponsor, the institution or its agents from liability for negligence.

(a) Basic elements of informed consent. Except as provided in paragraph (c) or (d) of this section, in seeking informed consent the following information shall be provided to each subject:

(1) A statement that the study involves research, an explanation of the
§ 1230.116

purposes of the research and the expected duration of the subject’s participation, a description of the procedures to be followed, and identification of any procedures which are experimental;

(2) A description of any reasonably foreseeable risks or discomforts to the subject;

(3) A description of any benefits to the subject or to others which may reasonably be expected from the research;

(4) A disclosure of appropriate alternative procedures or courses of treatment, if any, that might be advantageous to the subject;

(5) A statement describing the extent, if any, to which confidentiality of records identifying the subject will be maintained;

(6) For research involving more than minimal risk, an explanation as to whether any compensation and an explanation as to whether any medical treatments are available if injury occurs and, if so, what they consist of, or where further information may be obtained;

(7) An explanation of whom to contact for answers to pertinent questions about the research and research subjects’ rights, and whom to contact in the event of a research-related injury to the subject; and

(8) A statement that participation is voluntary, refusal to participate will involve no penalty or loss of benefits to which the subject is otherwise entitled, and the subject may discontinue participation at any time without penalty or loss of benefits to which the subject is otherwise entitled.

(b) Additional elements of informed consent. When appropriate, one or more of the following elements of information shall also be provided to each subject:

(1) A statement that the particular treatment or procedure may involve risks to the subject (or to the embryo or fetus, if the subject is or may become pregnant) which are currently unforeseeable;

(2) Anticipated circumstances under which the subject’s participation may be terminated by the investigator without regard to the subject’s consent;

(3) Any additional costs to the subject that may result from participation in the research;

(4) The consequences of a subject’s decision to withdraw from the research and procedures for orderly termination of participation by the subject;

(5) A statement that significant new findings developed during the course of the research which may relate to the subject’s willingness to continue participation will be provided to the subject; and

(6) The approximate number of subjects involved in the study.

(c) An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth above, or waive the requirement to obtain informed consent provided the IRB finds and documents that:

(1) The research or demonstration project is to be conducted by or subject to the approval of state or local government officials and is designed to study, evaluate, or otherwise examine:

(i) Public benefit of service programs;

(ii) procedures for obtaining benefits or services under those programs;

(iii) possible changes in or alternatives to those programs or procedures; or

(iv) possible changes in methods or levels of payment for benefits or services under those programs; and

(2) The research could not practically be carried out without the waiver or alteration.

(d) An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth in this section, or waive the requirements to obtain informed consent provided the IRB finds and documents that:

(1) The research involves no more than minimal risk to the subjects;

(2) The waiver or alteration will not adversely affect the rights and welfare of the subjects;

(3) The research could not practically be carried out without the waiver or alteration; and

(4) Whenever appropriate, the subjects will be provided with additional pertinent information after participation.

(e) The informed consent requirements in this policy are not intended
to preempt any applicable federal, state, or local laws which require additional information to be disclosed in order for informed consent to be legally effective.

(f) Nothing in this policy is intended to limit the authority of a physician to provide emergency medical care, to the extent the physician is permitted to do so under applicable federal, state, or local law.

(Approved by the Office of Management and Budget under control number 9999–0020)

§ 1230.117 Documentation of informed consent.

(a) Except as provided in paragraph (c) of this section, informed consent shall be documented by the use of a written consent form approved by the IRB and signed by the subject or the subject’s legally authorized representative. A copy shall be given to the person signing the form.

(b) Except as provided in paragraph (c) of this section, the consent form may be either of the following:

(1) A written consent document that embodies the elements of informed consent required by §1230.116. This form may be read to the subject or the subject’s legally authorized representative, but in any event, the investigator shall give either the subject or the representative adequate opportunity to read it before it is signed; or

(2) A short form written consent document stating that the elements of informed consent required by §1230.116 have been presented orally to the subject or the subject’s legally authorized representative. When this method is used, there shall be a witness to the oral presentation. Also, the IRB shall approve a written summary of what is to be said to the subject or the representative. Only the short form itself is to be signed by the subject or the representative. However, the witness shall sign both the short form and a copy of the summary, and the person actually obtaining consent shall sign a copy of the summary. A copy of the summary shall be given to the subject or the representative, in addition to a copy of the short form.

(c) An IRB may waive the requirement for the investigator to obtain a signed consent form for some or all subjects if it finds either:

(1) That the only record linking the subject and the research would be the consent document and the principal risk would be potential harm resulting from a breach of confidentiality. Each subject will be asked whether the subject wants documentation linking the subject with the research, and the subject’s wishes will govern; or

(2) That the research presents no more than minimal risk of harm to subjects and involves no procedures for which written consent is normally required outside of the research context. In cases in which the documentation requirement is waived, the IRB may require the investigator to provide subjects with a written statement regarding the research.

(Approved by the Office of Management and Budget under control number 9999–0020)

§ 1230.118 Applications and proposals lacking definite plans for involvement of human subjects.

Certain types of applications for grants, cooperative agreements, or contracts are submitted to departments or agencies with the knowledge that subjects may be involved within the period of support, but definite plans would not normally be set forth in the application or proposal. These include activities such as institutional type grants when selection of specific projects is the institution’s responsibility; research training grants in which the activities involving subjects remain to be selected; and projects in which human subjects’ involvement will depend upon completion of instruments, prior animal studies, or purification of compounds. These applications need not be reviewed by an IRB before an award may be made. However, except for research exempted or waived under §1230.101 (b) or (i), no human subjects may be involved in any project supported by these awards until the project has been reviewed and approved by the IRB, as provided in this policy, and certification submitted, by the institution, to the department or agency.
§ 1230.119 Research undertaken without the intention of involving human subjects.

In the event research is undertaken without the intention of involving human subjects, but it is later proposed to involve human subjects in the research, the research shall first be reviewed and approved by an IRB, as provided in this policy, a certification submitted, by the institution, to the department or agency, and final approval given to the proposed change by the department or agency.

§ 1230.120 Evaluation and disposition of applications and proposals for research to be conducted or supported by a Federal Department or Agency.

(a) The department or agency head will evaluate all applications and proposals involving human subjects submitted to the department or agency through such officers and employees of the department or agency and such experts and consultants as the department or agency head determines to be appropriate. This evaluation will take into consideration the risks to the subjects, the adequacy of protection against these risks, the potential benefits of the research to the subjects and others, and the importance of the knowledge gained or to be gained.

(b) On the basis of this evaluation, the department or agency head may approve or disapprove the application or proposal, or enter into negotiations to develop an approvable one.

§ 1230.121 [Reserved]

§ 1230.122 Use of Federal funds.

Federal funds administered by a department or agency may not be expended for research involving human subjects unless the requirements of this policy have been satisfied.

§ 1230.123 Early termination of research support: Evaluation of applications and proposals.

(a) The department or agency head may require that department or agency support for any project be terminated or suspended in the manner prescribed in applicable program requirements, when the department or agency head finds an institution has materially failed to comply with the terms of this policy.

(b) In making decisions about supporting or approving applications or proposals covered by this policy the department or agency head may take into account, in addition to other eligibility requirements and program criteria, factors such as whether the applicant has been subject to a termination or suspension under paragraph (a) of this section and whether the applicant or the person or persons who would direct or have directed the scientific and technical aspects of an activity have, in the judgment of the department or agency head, materially failed to discharge responsibility for the protection of the rights and welfare of human subjects (whether or not the research was subject to federal regulation).

§ 1230.124 Conditions.

With respect to any research project or any class of research projects the department or agency head may impose additional conditions prior to or at the time of approval when in the judgment of the department or agency head additional conditions are necessary for the protection of human subjects.

PART 1232—CARE AND USE OF ANIMALS IN THE CONDUCT OF NASA ACTIVITIES

Sec.
1232.100 Scope.
1232.101 Applicability.
1232.102 Policy.
1232.103 Definitions.
1232.104 Implementation procedures by non-NASA institutions.
1232.105 Implementation procedures by NASA field installations.
1232.106 Management authority and responsibility.
1232.107 Sanctions.

SOURCE: 54 FR 35870, Aug. 30, 1989, unless otherwise noted.

§ 1232.100 Scope.

This rule establishes the policy, implementation procedures, and management authority and responsibility for
the care and use of vertebrate animals
(hereinafter referred to as "animal sub-
jects") in the conduct of NASA activi-
ties.

§1232.101 Applicability.

This rule applies to NASA Head-
quarters and NASA field installations
and will be followed in all activities
using animal subjects that are sup-
ported by NASA, conducted in NASA
facilities, aircraft, or spacecraft, or
which involve NASA to any degree. All
activities using animal subjects con-
ducted under a contract, grant, cooper-
ative agreement, memorandum of un-
derstanding, or joint endeavor agree-
ment entered into by NASA and an-
other Government agency, private en-
tity, non-Federal public entity, or for-
eign entity are included within the
scope of this rule.

§1232.102 Policy.

(a) It is NASA policy to require its
laboratories and the institutions per-
forming NASA-supported activities
using animal subjects to comply with
the Animal Welfare Act of 1966 (Pub. L.
89–544), as amended (Pub. L. 91–579,
U.S.C. 2131 et seq., and 39 U.S.C. 3001,
and with the regulations promulgated
thereunder by the Secretary of Agri-
culture (9 CFR subchapter A parts 1, 2,
3, and 4) pertaining to the care, han-
dl ing, and treatment of animal subjects
held or used for research, testing,
teaching, or other activities supported
by the Federal government. Inves-
tigators shall follow the guidelines de-
scribed in the National Institutes of
Health (NIH) Publication No. 85–23
(Rev. 1985), "Guide for the Care and Use
of Laboratory Animals" (the Guide) or
subsequent revisions. Attention is
called to the U.S. Government "Prin-
ciples for the Utilization and Care of
Vertebrate Animals Used in Testing,
Research, and Training" on pp. 81–83 of
the Guide. In order to implement these
guidelines and principles, investigators
will comply with the revised Public
Health Service (PHS) Policy on Hu-
mane Care and Use of Laboratory Ani-

cimals (hereinafter referred to as PHS
Policy) effective November 1, 1986.1
(b) This rule authorizes NASA to
have the same authority for NASA-supp-
ported programs as that delegated to
PHS by the PHS Policy, including the
functions and responsibilities of the
Animal Care and Use Committees
(ACUC's).
(c) All research supported by NASA
that involves activities using animal
subjects shall be conducted under pro-
tocols that conform to this rule and
that are reviewed and approved as pre-
scribed in this rule.

§1232.103 Definitions.

The following definitions of terms
comply with the PHS Policy and apply
to the conduct of all NASA activities
related to the care and use of animal
subjects.

(a) Activity includes research, testing
of hardware for animal use, flight ex-
perimentation, and any other tasks in-
volving the use of animal subjects.
(b) Animal is any live vertebrate ani-
mal.

(c) Animal Care and Use Committee
(ACUC) is the committee established at
each institution and NASA field instal-
lation involved in research with animal
subjects. It is responsible for evalu-
ating the care and use of animal sub-
jects at the facility and for ensuring
that the care and use of animal sub-
jects at the facility is in compliance
with this rule and PHS Policy.
(d) Authorized NASA Official is the Di-
rector, Life Sciences Division, NASA
Headquarters, or designee, who is the
NASA Administrator's representative
and is responsible for all NASA activi-
ties involving animal subjects. This in-
dividual is responsible for implementa-
tion of the provisions of this rule and
for ensuring that agency programs in-
volving animal subjects comply fully
with all applicable laws, regulations,
and guidelines.
(e) Field Installation Director is the Di-
rector of a NASA Field Installation, or
designee, who is the institutional offi-
cial responsible for the care and use of

1Available from the Office of Protection
from Research Risks (OPRR), National Insti-
tutes of Health, 9000 Rockville Pike, Bldg. 31,
Room SH59, Bethesda, MD 20892, Telephone
301–496–7005.
animal subjects in research conducted at that field installation and for ensuring compliance with this rule at that field installation.

(f) Investigator is any person who uses or proposes to use live animal subjects in NASA-supported activities, e.g., receives funds, salaries, or support under a grant, award, agreement, contract, or direct employment by NASA, or the use of any NASA facilities, aircraft, or spacecraft for the purpose of carrying out research, tests, or experiments using animal subjects.

(g) PHS Assurance is a document prepared by an awardee institution assuring its compliance with PHS Policy.

(h) Research of Flight Program Manager is the NASA Headquarters manager of each program in which NASA has a manifest interest.

(i) Supported pertains to activities either funded in part or in whole by NASA or an approved activity that is not funded by NASA but that utilizes NASA facilities, including spacecraft and aircraft.

(j) Veterinarian is the NASA attending veterinarian, a person who has graduated from a veterinary school accredited by the American Veterinary Medical Association’s Council on Education or has a certificate issued by the American Veterinary Medical Association’s Education Commission for Foreign Veterinary Graduates, has received training and/or experience in the care and management of the species being attended, and who has direct or delegated authority and responsibility for activities involving animal subjects at the NASA field installation.

§ 1232.104 Implementation procedures by non-NASA institutions.

(a) Proposal Information. No animal subjects may be utilized unless a proposal justifying and describing their use is submitted to NASA for approval. The required proposal information is outlined in the PHS Policy (IV.D.1.a.–e.).

(b) Proposal Approval by the Institutional ACUC. Before a proposal for research involving the use of animal subjects will be considered for NASA support, the NASA Headquarters Research or Flight Program Manager must receive a statement that the research has been reviewed in accordance with the PHS Policy (IV.C.) and approved by the appropriate ACUC at the participating institution.

(c) Proposal Approval for Flight Experiments. In addition to the institution’s ACUC review, activities involving animal subjects to be flown on NASA spacecraft will be subject to review and approval by the Ames Research Center (ARC) ACUC. The ARC ACUC will submit each evaluation report to the ARC Director who will transmit the report with his/her recommendation to the Authorized NASA Official, NASA Headquarters. Animal activities to be flown onboard NASA manned spacecraft may also be subject to review by the Human Research Policy and Procedures Committee (HRPPC) at the Johnson Space Center (JSC). Animal activities utilizing the facilities of any NASA field installation are also subject to approval of that field installation’s ACUC (§1232.105(d)).

(d) Institutions with PHS Assurance on File. The institution, by an approved or provisionally acceptable Assurance on file at the NIH Office for Protection from Research Risks (OPRR), Department of Health and Human Services (HHS), assures NASA that it will comply with the PHS Policy. The Assurance file number must be included in the research proposal submitted to NASA.

(e) Institutions with no PHS Assurance on File. Proposals from institutions without an approved Assurance on file with the NIH OPRR will first be peer-reviewed for scientific merit. If the proposed research is deemed worthy of support, NASA will arrange for a special Assurance to be negotiated by the Director, Life Sciences Division, NASA Headquarters. The arrangements for a special Assurance review by NIH should be undertaken in consultation with the NASA representative to the Interagency Research Animal Committee (IRAC) and will be handled on a case-by-case basis.

(f) Foreign institutions must comply with the PHS Policy (see Section II Of PHS Policy) and this rule before being supported by NASA for any activities involving animal subjects.
§ 1232.105 Implementation procedures by NASA field installations.

(a) Proposal Information. The information required for proposals involving the use of animal subjects is identical to that described in §1232.104(a).

(b) Proposal Approval by the NASA ACUC. Before a proposal for research involving the use of animal subjects will be considered for NASA support, the NASA Headquarters Research or Flight Program Manager must receive a statement that the research has been reviewed in accordance with PHS Policy (IV.C.) and approved by the ACUC at the appropriate field installation.

(c) Proposal Approval for Flight Experiments. In addition to the Field Installation ACUC review, activities involving animal subjects to be flown on NASA spacecraft will be subject to review and approval by the ARC ACUC. The ARC ACUC will submit each evaluation report to the ARC Director who will transmit the report with his/her recommendation to the Authorized NASA Official, NASA Headquarters. Animal activities to be flown on board NASA manned spacecraft may also be subject to review by the HRPPC at JSC.

(d) Approval for Use of Field Installation Facilities. The NASA Field Installation ACUC will review and approve or disapprove those parts of proposals that call for the use of their facilities to conduct any activity involving animal subjects (e.g., Kennedy Space Center or ARC Dryden facilities used to support experiments using animal subjects). The ACUC will submit each evaluation report to the Field Installation Director who will transmit the report with his/her recommendation to the Authorized NASA Official, NASA Headquarters.

(e) NASA Animal Care and Use Committees. (1) The Director of each NASA Field Installation that is involved in animal research activities will establish an ACUC to ensure compliance with the policies and provisions of this rule. The membership of the ACUC shall be in accordance with PHS Policy.

(2) The NASA Field Installation ACUC’s will review and approve or disapprove all proposals using animal subjects. In accordance with the PHS Policy (IV.C.), the ACUC will submit each report to the Field Installation Director who will, upon request, transmit the report with his/her recommendation to the Authorized NASA Official, NASA Headquarters.

(3) NASA ACUC’s have the authority to approve, disapprove, or require changes to be made in those components of proposals involving the care and use of animal subjects that are submitted by NASA investigators. All decisions shall be based on the response of a majority of a quorum of the members. A minority opinion including abstentions should be recorded; this record should include a justification for the opinion.

(4) The ACUC shall conduct continuing review of proposals at appropriate intervals as determined by the ACUC, but not less than once every 3 years.

(5) Proposals that have been approved by the ACUC may be subject to further appropriate review by the Authorized NASA Official, NASA Headquarters. However, the official may not approve those sections of a proposal related to the care and use of animal subjects if they have not been approved by the ACUC.

(6) Once experimental procedures are approved, no substantial changes can be made unless a formal request with appropriate justification for such a request is submitted to and approved by the appropriate ACUC. If the experiment involves exposure of the flight crew to the animal subjects, the HRPPC at JSC must review and approve the proposed modifications. Copies of ACUC approval of the proposed modifications shall be submitted to the Field Installation Director who will, upon request, transmit the report to the Authorized NASA Official, NASA Headquarters.

(7) Other functions of the field installation ACUC include:

(i) Reviewing at least once every 6 months the field installation’s program for humane care and use of animals, using the Guide as a basis for evaluation;

(ii) Inspecting at least once every 6 months all of the field installation’s animal facilities (including satellite facilities), using the Guide as a basis for evaluation;
(iii) Preparing reports of the ACUC evaluations conducted as required by §1232.105 (e)(7)(i) and (ii), and submitting the reports to the Field Installation Director. (Note: the reports shall be updated at least once every 6 months upon completion of the required semiannual evaluations and shall be maintained by the field installation and made available to the Authorized NASA Official upon request. The reports must contain a description of the nature and extent of the field installation’s adherence to the Guide and this rule and must identify specifically any departures from the provisions of the Guide and this rule, and must state the reasons for each departure. The reports must distinguish significant deficiencies from minor deficiencies. A significant deficiency is one which, consistent with PHS Policy, and, in the judgment of the ACUC and the Field Installation Director, is or may be a threat to the health or safety of the animals. If program or facility deficiencies are noted, the reports must contain a reasonable and specific plan and schedule for correcting each deficiency.)

(iv) Reviewing concerns involving the care and use of animals at the field installation;

(v) Making recommendations to the Field Installation Director regarding any aspect of the field installation’s animal program, facilities, or personnel training.

(f) NASA Assurances. Each NASA field installation involved in activities using animal subjects must assure that its programs and facilities have been evaluated and accredited by the American Association for the Accreditation of Laboratory Animal Care (AAALAC). Written assurance of compliance with the provisions of the PHS Policy and this rule is also required from NASA field installations involved in activities using animal subjects shall maintain:

(i) An Assurance of compliance with PHS Policy and this rule (§1232.105 (f));

(ii) Minutes of ACUC meetings, including records of attendance, activities of the committee, and committee deliberations;

(iii) Records of applications, proposals, and proposed significant changes in the care and use of animals and whether ACUC approval was given or withheld;

(iv) Records of semiannual ACUC reports and recommendations (including minority views) as forwarded to the Field Installation Director;

(v) Records of AAALAC accreditation; and

(2) All records shall be maintained for at least 3 years; records that relate directly to applications, proposals, and proposed significant changes in ongoing activities reviewed and approved by the ACUC shall be maintained for the duration of the activity and for an additional 3 years after completion of the activity. All records shall be furnished upon request to the Authorized NASA Official.

(h) Reporting Requirements. For each NASA field installation involved in activities using animal subjects:

(1) Statements of ACUC approval of research proposals, ACUC evaluation reports of flight experiment proposals and of experiment proposals utilizing field installation facilities, and the field installation’s Assurance of compliance shall be submitted in the manner prescribed in §§1232.104(c) and 1232.105 (b), (c), (d), and (f).

(2) At least once every 12 months, the ACUC, through the Field Installation Director, shall report in writing to the Authorized NASA Official:

(i) Any change in the field installation’s program or facilities that would affect the AAALAC accreditation status;
§ 1232.106 Management authority and responsibility.

(a) Authorized NASA Official. The Authorized NASA Official is the NASA Administrator’s representative and is responsible for all NASA activities involving animal subjects. This individual is responsible for implementation of the provisions of this rule and for ensuring that agency programs involving animal subjects comply fully with all applicable laws, regulations, and guidelines.

(b) Field Installation Director. The Field Installation Director is responsible for and has the authority to:

(1) Sign the field installation’s Assurance, making a commitment on behalf of the field installation that the requirements of the PHS Policy and this rule will be met in all field installation activities involving animal subjects;

(2) Create and oversee the functioning of the field installation ACUC;

(3) Decide and administer sanctions in cases of noncompliance with this rule;

(4) Fulfill the reporting requirements assigned to this individual in §1232.105(h); and

(5) Sign the annual USDA report.

(c) NASA Field Installation(s) ACUC Responsibility. Each NASA Field Installation ACUC is responsible to its Field Installation Director for the activities described in §§1232.106(c) and 1232.105(b), (c), (d), (e) and (h).

(d) Research or Flight Program Manager Responsibility. The Research or Flight Program Manager is responsible for ascertaining the presence of the required PHS Assurance file number for proposals involving animal subjects received from non-NASA institutions, and a statement of ACUC review and approval of all NASA and non-NASA proposals involving animal subjects. No awards for activities involving animal subjects can be made without this documentation [see §§1232.104(b) and (d) and 1232.105(b)].

(e) NASA Veterinarian(s) Responsibility. NASA veterinarian(s) have direct or delegated authority and responsibility for activities involving animal subjects at their field installation. Such authority and responsibilities shall include recommending approval or disapproval of procedures involving animal subjects as a member of the ACUC, continual monitoring of these activities, surveillance of the health and condition of animal subjects, and reporting any observed deviations from approved procedures involving animal subjects to the Field Installation Director and the ACUC. In the case of deviation from ACUC-approved practices or procedures, the veterinarian shall have the authority to immediately halt such procedures until they are reviewed and resolved by the ACUC. In cases of a conflict concerning animal usage by an investigator that cannot be resolved between him/her and the veterinarian, the matter may be brought to the attention of the Field Installation ACUC for review and recommendation for action as set forth in this rule. Whereas the performance of the veterinarian’s duties can be delegated to other qualified individuals, the ultimate responsibility rests with
§ 1232.107 Sanctions.

(a) Non-NASA Institutions. Principal investigators not employed by NASA whose activities are supported by NASA but whose activities using animal subjects are restricted to non-NASA facilities shall be subject to the control of their institution’s ACUC and responsible institutional official. Notification of noncompliance with this rule shall be made either as described in §1232.106(f) or by the non-NASA institution to the Director of the NASA Field Installation through which the activity has been supported and to the Authorized NASA Official. Any continued noncompliance may be cause for termination of funding or support.

(b) NASA Field Installations. (1) Inappropriate procedures on animal subjects by NASA principal investigators shall be halted by the NASA Field Installation Veterinarian or line management and brought to the attention of the ACUC if the issue cannot be immediately resolved. The ACUC will review the activity and report any noncompliance with this rule to the Field Installation Director. Principal investigators not employed by NASA, whose activities using animal subjects are performed in NASA facilities, aircraft, or spacecraft, are subject to similar action. Such noncompliance will be cause for sanctions. The principal investigator can contest, in writing, these decisions to the ACUC.

(2) The ACUC as the agent of the Field Installation Director may suspend an activity that it previously approved if it determines that the activity is not being conducted in accordance with applicable provisions of the Animal Welfare Act, the Guide, PHS Policy requirements, or this rule.

(3) Any suspension or termination of approval will include a statement of the reasons for the action and will be promptly reported to the principal investigator and the appropriate Field Installation Director. In the case of investigators from non-NASA institutions, notification should be sent to the investigator, the appropriate institution, and the Director of the Field Installation through which the activity has been supported. If the ACUC suspends an activity involving animal subjects, the Field Installation Director in
consultation with the ACUC shall review the reasons for suspension, take appropriate corrective action, and report that action with a full explanation to the Authorized NASA Official, NASA Headquarters. If an ACUC recommends disapproval suspension, termination, or conditional approval of an activity, the principal investigator will be given the opportunity to ask for reconsideration of the decision in person and/or in writing to the appropriate NASA ACUC.

(4) If, after notification of the Field Installation Director and an opportunity for correction, such deficiencies or deviations remain uncorrected, the ACUC will notify (in writing) the Authorized NASA Official, NASA Headquarters, who is then responsible for all corrective action to be taken.

Subpart 1—Awards for Scientific and Technical Contributions

§ 1240.100 Purpose.

This subpart prescribes procedures for submitting applications for monetary awards to the Administrator of NASA for scientific and technical contributions which have significant value in the conduct of aeronautical and space activities pursuant to 42 U.S.C. 2458, and establishes the awards program consistent with the Federal Technology Transfer Act of 1986, Section 12, 15 U.S.C. 3710b(1).

§ 1240.101 Scope.

This subpart applies to any scientific or technical contribution, whether or not patentable, which is determined by the Administrator after referral to the Inventions and Contributions Board to have significant value in the conduct of aeronautical and space activities for which an application for award has been submitted to NASA under 42 U.S.C. 2458.

§ 1240.102 Criteria.

(a) Only those contributions to NASA which have been (1) used in a NASA program or adopted or sponsored or supported by NASA, and (2) found to have significant value in the conduct of aeronautical and space activities will be recommended for award under this subpart.

(b) In determining the amount, terms, and conditions of any award, the following criteria will be considered:

(1) The value of the contribution to the United States;
(2) The aggregate amount of any sums which have been expended by the applicant for the development of such contribution;
(3) The amount of any compensation (other than salary received for services rendered as an officer or employee of the Government) previously received by the applicant for or on account of the use of such contributions by the United States; and
(4) Such other factors as the Administrator shall determine to be material.

§ 1240.103 Applications for awards.

(a) Eligibility. Applications for award may be submitted by any person including any individual, partnership, corporation, association, institution, or other entity.

(b) Information required. Applications for award should be addressed to the Inventions and Contributions Board
§ 1240.104 Special procedures—NASA and NASA contractor employees.

(a) A NASA Headquarters office, a NASA field installation, or a NASA contractor may submit to the Board an application for an award identifying the originator(s) of any scientific or technical contribution conceived or developed during the performance of a NASA program or contract, and which is considered to be of value in advancing the state of knowledge in space or aeronautical activities, whether or not the contribution is the subject of a NASA Tech Brief or of a U.S. patent application.

(b) When the Board receives written notice (NASA Form 1548) that the Associate General Counsel for Intellectual Property at NASA Headquarters or the cognizant Patent Counsel at a NASA field installation has authorized the filing of a U.S. patent application for an invention made and reported by an employee of NASA or an employee of a NASA contractor, the Board will recommend to the Administrator or a designee that an initial award of at least $500 be granted to a sole inventor, and an award in the amount of at least $250 will normally be granted to each of joint inventors. The Board is authorized to recommend a supplemental monetary award in an amount that will be based on the evaluation of the technical and commercial merits of the invention.

(c) When the Board receives written notice (NASA Form 1546) that the Technology Utilization Officer at a NASA field installation has approved for publication a selected NASA Tech Brief based on an innovation made and
§ 1240.106 Notification by the Board.

(a) With respect to each completed application where the Board has recommended to the Administrator the granting of an award, and the Administrator has approved such award, the Board will notify the applicant of the amount and terms of the award. In the case of NASA employees or employees of NASA contractors, such notification will normally be made through the appropriate NASA field installation representative.

(b) Except for applications from NASA employees or employees of NASA contractors, where the Board does not propose to recommend to the Administrator the granting of an award, a notification will be provided which includes a brief statement of the reasons for such decision.

§ 1240.107 Reconsideration.

(a) In those cases where the Board does not recommend an award, the applicant may, within such period as the Board may set but in no event less than 30 days from notification, request reconsideration of the Board’s decision.

(b) If reconsideration has been requested within the prescribed time, the applicant will, within 30 days from the date of the request for reconsideration, or within any other time as the Board may set, file its statement setting forth the issues, points, authorities, arguments, and any additional material on which it relies.

(c) Upon filing of the reconsideration statement by the applicant, the case will be assigned for reconsideration by the Board upon the contents of the application, the record, and the reconsideration statement submitted by the applicant.

(d) If after reconsideration, the Board again does not propose to recommend the granting of an award, the applicant, after such notification by the Board, may request an oral hearing within the time set by the Board.

(e) An oral hearing without reconsideration may be granted upon determination of the Chairperson that good cause exists to do so.
§ 1240.108 Hearing procedure.

(a) Oral hearing held by the Board will be in accordance with the following procedures:
(1) If the applicant requests a hearing within the time set in accordance with §1240.107(d) or (e), the Board will set a place and date for such hearing and notify the applicant.
(2) The applicant may be represented by an attorney or any other appropriately designated person.
(3) Hearings will be open to the public unless the applicant requests that a closed hearing be held.
(4) Hearings may be held before the full membership of the Board or before any panel of Board members designated by the Chairperson.
(5) Hearings will be conducted in an informal manner with the objective of providing the applicant with a full opportunity to present evidence and arguments in support of the application. Evidence may be presented through means of such witnesses, exhibits, and visual aids as are arranged for by the applicant. While proceedings will be ex parte, members of the Board and its counsel may address questions to witnesses called by the applicant, and the Board may, at its option, utilize the assistance and testimony of technical advisors or other experts.
(6) Subject to the provisions of §1240.103(c)(2), the applicant will submit a copy of any exhibit or visual aid utilized unless otherwise directed by the Board. The Board may, at its discretion, arrange for a written transcript of the proceedings and a copy of such transcript will be made available by the recorder for purchase by the applicant.
(7) No funds are available to defray traveling expenses or any other cost incurred by the applicant.

(b) [Reserved]

§ 1240.109 Recommendation to the Administrator.

Upon a determination by the Board that a contribution merits an award, the Board will recommend to the Administrator or a designee the terms and conditions of the proposed award, including a specific amount and distribution thereof for any multiple contributors. The recommendation of the Board to the Administrator or designee will reflect the views of the majority of the Board members. Dissenting views may be transmitted with the majority opinion.

§ 1240.110 Release.

Under subsection 306(b)(1) of the National Aeronautics and Space Act of 1958, as amended, no award will be made to an applicant unless the applicant submits a duly executed release, in a form specified by the Administrator, of all claims the applicant may have to receive any compensation (other than the award recommended) from the United States Government for use of the contribution or any element thereof at any time by or on behalf of the United States, or by or on behalf of any foreign government pursuant to any existing or future treaty or agreement with the United States, within the United States, or at any other place.

§ 1240.111 Presentation of awards.

(a) Monetary awards and accompanying written acknowledgments to employees of NASA will be presented in a formal ceremony by the appropriate Official-in-Charge at the Headquarters Office, or by the Director of the cognizant field installation or designee.
(b) Monetary awards and accompanying written acknowledgments to employees of NASA contractors will be forwarded to contractor officials for suitable presentation.

§ 1240.112 Financial accounting.

(a) An Award Check Receipt (NHQ DIV Form 622), which accompanies the transmittal of each group of award checks from the Board will be dated and signed by the responsible Award Liaison Officer/Technology Utilization Officer and returned to the Board without delay.
(b) Not later than December 10 of each year, the responsible field installation official will submit a report certifying that all award checks, which were issued and received by the field installation during the year, have been delivered to the proper employees of NASA and employees of NASA contractors. In the case of those checks that
have not been delivered by December 10, the certification report will be accompanied by all undelivered checks and a brief explanation of the reasons for the failure to make delivery. This annual certification report is essential in order to assure that income and withholding tax totals for all awardees are correct and complete at the close of each calendar year.

§ 1240.113 Delegation of authority.

(a) The Associate Administrator for Management and the Chairperson, Inventions and Contributions Board, are delegated authority to execute grants of awards for significant scientific or technical contributions not exceeding $1000 per contributor, when in accordance with the recommendation of the Board and in conformity with applicable law and regulations.

(b) The Chairperson, Inventions and Contributions Board, is delegated authority to execute grants of initial awards upon the decision to file for a U.S. patent application, and upon approval to publish a selected NASA Tech Brief.

(c) No redelegation is authorized except by virtue of succession.

(d) The Chairperson, Inventions and Contributions Board, will ensure that feedback is provided so that the Administrator, through official channels, is currently informed of significant actions, problems, or other matters of substance related to the exercise of the authority delegated in this section.

1245.500 Scope.
1245.501 General Counsel.
1245.502 Associate General Counsel for Intellectual Property.
1245.503 Patent Counsel of Field Installations.
1245.504 Further redelegation.

Subpart 1—Patent Waiver Regulations

SOURCE: 52 FR 43748, Nov. 16, 1987, unless otherwise noted.

§ 1245.100 Scope.

This subpart prescribes regulations for the waiver of rights of the Government of the United States to inventions made under NASA contract in conformity with section 305 of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2457).

§ 1245.101 Applicability.

The provisions of the subpart apply to all inventions made or which may be
made under conditions enabling the Administrator to determine that the rights therein reside in the Government of the United States under section 305(a) of the National Aeronautics and Space Act of 1958, as amended, 42 U.S.C. 2457(a). The provisions do not apply to inventions made under any contract, grant, or cooperative agreement with a nonprofit organization or small business firm that are afforded the disposition of rights as provided in 35 U.S.C. 200–204 (Pub. L. 96–517, 94 Stat. 3019, 3020, 3022 and 3023; and Pub. L. 98–620, 98 Stat. 3364–3367).

§ 1245.102 Definitions and terms.

As used in this subpart:

(a) Contract means any actual or proposed contract, agreement, understanding, or other arrangement with the National Aeronautics and Space Administration (NASA) or another Government agency on NASA’s behalf, including any assignment, substitution of parties, or subcontract executed or entered into thereunder, and including NASA grants awarded under the authority of 42 U.S.C. 1891–1893.

(b) Contractor means the party who has undertaken to perform work under a contract or subcontract.

(c) Invention includes any art, method, process, machine, manufacture, design, or composition or matter, or any new and useful improvement thereof, or any variety of plant, which is or may be patentable under the Patent Laws of the United States of America or any foreign country.

(d) Made, when used in relation to any invention, means the conception or first actual reduction to practice of such invention.

(e) Practical application means to manufacture in the case of a composition or product, to practice in the case of a process or method, or to operate in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are to the extent permitted by law or Government regulations available to the public on reasonable terms.

(f) Board means the NASA Inventions and Contributions Board established by the Administrator of NASA within the Administration under section 305(f) of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2457(f)).

(g) Chairperson means Chairperson of the NASA Inventions and Contributions Board.

(h) Petitioner means a contractor or prospective contractor who requests that the Administrator waive rights in an invention or class of inventions made or which may be made under a NASA contract. In the case of an identified invention, the petitioner may be the inventor(s).

(i) Government agency includes any executive department, independent commission, board, office, agency, administration, authority, Government corporation, or other Government establishment of the executive branch of the Government of the United States of America.

(j) Administrator means the Administrator of the National Aeronautics and Space Administration or the Administrator’s duly authorized representative.

§ 1245.103 Policy.

(a) In implementing the provisions of section 305(f) of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2457(f)), and in determining when the interests of the United States would be served by waiver of all or any part of the rights of the United States in inventions made in the performance of work under NASA contracts, the Administrator will be guided by the objectives set forth in the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2451–2477) and by the basic policy of the Presidential Memorandum and Statement of Government Patent Policy to the Heads of the Executive Departments and agencies dated February 18, 1983. Among the most important goals are to provide incentives to foster inventiveness and encourage the reporting of inventions made under NASA contracts, to provide for the widest practicable dissemination of new technology resulting from NASA programs, and to promote early utilization, expeditious development, and continued availability of this new technology for commercial purposes and the public benefit. In applying this regulation,
both the need for incentives to draw forth private initiatives and the need to promote healthy competition in industry must be weighed.

(b) Several different situations arise when waiver of all or any part of the rights of the United States may be requested and are prescribed in §§1245.104–1245.106. Under §1245.104, advance waiver of rights to any or all of the inventions which may be made under a contract may be requested prior to the execution of the contract, or within 30 days after execution of the contract. Waiver of rights to an identified invention made and reported under a contract are to be requested under §1245.105, and may be requested under this provision even though a request under §1245.104 was not made, or if made, was not granted. Waiver of foreign rights under §1245.106 may be requested concurrently with domestic rights under §1245.104 or §1245.105, or may be made independently.

(c) With respect to inventions which may be or are made or conceived in the course of or under contracts for research, development or demonstration work awarded by NASA on behalf of the Department of Energy (DOE) or in support of a DOE program, on a reimbursable basis pursuant to agreement between DOE and NASA, the waiver policy, regulations, and procedures of DOE will be applied. NASA will normally grant waiver of rights to inventions made under contracts awarded by NASA on behalf of, or in support of, programs funded by another Government agency, unless the funding agency recommends and justifies denial of the waiver. See §§1245.110(c) and 1245.111(b).

§1245.104 Advance waivers.

(a) The provisions of this section apply to petitions for waiver of domestic rights to any or all of the inventions which may be made under a contract.

(b) The NASA Inventions and Contributions Board normally will recommend grant of a request for advance waiver of domestic rights submitted prior to execution of contract or within 30 days after execution of the contract unless the Board finds that the interests of the United States will be better served by restricting or eliminating all or part of the rights of the contractor in one or more of the following situations:

(1) When the contractor is not located in the United States or does not have a place of business in the United States or is subject to the control of a foreign government;

(2) When a determination has been made by Government authority which is authorized by statute or Executive order to conduct foreign intelligence or counter-intelligence activities that the restriction or elimination of the right to retain title to any inventions made in the performance of work under the contract is necessary to protect the security of such activities; or

(3) Where the Board finds that exceptional circumstances exist, such that restriction or elimination of the right to retain title will better promote one or more of the following objectives:

(i) Promoting the utilization of inventions arising from federally supported research and development;

(ii) Encouraging maximum participation of industry in federally-supported research and development;

(iii) Ensuring that inventions are used in a manner to promote free competition and enterprise;

(iv) Promoting the commercialization and public availability of inventions made in the United States by United States industry and labor; and

(v) Ensuring that the Government obtains sufficient rights in federally-supported inventions to meet the needs of the Government and protect the public against nonuse or unreasonable use of inventions.

(c)(1) An advance waiver, when granted, will be subject to the reservations set forth in §1245.107. Normally, the reservations of §1245.107(a), License to the Government, and §1245.107(b), March-in rights, will apply. However, should one or more of the situations set forth in paragraphs (b)(1) through (b)(3), of this section exist, rather than denying the advance waiver request, the Board may recommend restricting or eliminating only part of the rights of the contractor to the extent necessary to address the particular situation, consistent with the policy and goals of §1245.103. In that event, the
§ 1245.105  Waiver after reporting inventions.

(a) The provisions of this section apply to petitions for waiver of domestic rights to identified inventions which have been reported to NASA and to which a waiver of rights has not been granted pursuant to §1245.104.

(b)(1) When an individual identified invention has been reported to NASA under the applicable terms of the contract and waiver of rights has not been granted under §1245.104, the Board normally will recommend grant of a request for waiver of domestic rights to such invention if the request is received within 8 months of first disclosure to NASA (or such longer period that the Board may permit for good cause shown), unless the Board finds that one or more of the situations set forth in §1245.104(b)(3)(i) through (v) exist. When granted, the waiver will be subject to the reservations set forth in §1245.107 in the same manner as discussed in §1245.104(c)(1).

(2) The waiver shall extend to the invention claimed in the patent application filed on the reported invention, including any subsequent divisional or continuation application thereof, provided the claims of the subsequent application do not substantially change the scope of the reported invention.

(d) When a petition for waiver is submitted under paragraph (b) of this section, prior to contract execution, it will be processed expeditiously so that a decision on the petition may be reached prior to execution of the contract. However, if there is insufficient time or insufficient information is presented, or for other reasons which do not permit a recommendation to be made without unduly delaying execution of the contract, the Board will inform the contracting officer that no recommendation has been made and the reasons therefor. The contracting officer will then notify the petitioner of the Board's action.

(e) After notification by the contracting officer under paragraph (d) of this section, the petitioner may, upon its execution of the contract, or within 30 days, request the Board to reconsider the matter under paragraph (b) of this section either on the record or with any additional statements submitted in the subpart of the original petition.

(f) A waiver granted pursuant to a petition submitted under this section shall extend to any contract changes, modifications, or supplemental agreements, so long as the purpose of the contract or the scope of work to be performed is not substantially changed.

§ 1245.106  Waiver of foreign rights.

(a) The Board will consider the waiver of foreign rights in any designated country concurrently with the waiver of domestic rights when so requested under §1245.104 or §1245.105.

(b) The Board will also consider a separate request for foreign rights for an individual identified invention in any designated country if a request was not made pursuant to paragraph (a) of this section, or for countries not designated pursuant to paragraph (a) of this section.
§ 1245.108 License to contractor.

(a) Each contractor reporting an invention is granted a revocable, non-exclusive, royalty-free license in each patent application filed in any country on the invention and in any resulting patent in which the Government acquires title. The license extends to the contractor’s domestic subsidiaries and affiliates, if any, within the corporate structure of which the contractor is a party and includes the right to grant sublicenses of the same scope to the extent the contractor was legally obligated to do so at the time the contract was awarded. The license and right is transferable only with the approval of the Administrator except when transferred to the successor of that part of the contractor’s business to which the invention pertains.

(b) The contractor’s domestic license may be revoked or modified by the Administrator to the extent necessary to achieve expeditious practical application of the invention pursuant to an application for an exclusive license submitted in accordance with the Licensing of NASA Inventions (14 CFR

§ 1245.107 Reservations.

(a) License to the Government. Any invention for which waiver of domestic or foreign rights has been granted under this subpart shall be subject to the reservation by the Administrator of an irrevocable, nonexclusive, non-transferable, royalty-free license for the practice of the invention throughout the world by or on behalf of the United States or any foreign government pursuant to any treaty or agreement with the United States.

(b) March-in rights. For any invention for which waiver of rights has been granted under this subpart, NASA has the right in accordance with 35 U.S.C. 203 and 210, and with the procedures set forth in §1245.117 and 37 CFR 401.6, to require the contractor, assignee, or exclusive licensee of the invention to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the contractor, assignee, or exclusive licensees refuses such a request, NASA has the right to grant such a license itself if NASA determines that:

(1) Such action is necessary because the contractor or assignee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the invention in such field of use;

(2) Such action is necessary to alleviate health or safety needs which are not reasonably satisfied by the contractor, assignee, or their licensees;

(3) Such action is necessary to meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the contractor, assignee, or licensees; or

(4) Such action is necessary because the agreement required by the “Preference for United States industry” has not been obtained or waived or because a licensee of the exclusive right to use or sell any invention in the United States is in breach of such agreement.

(c) Additional reservations. In the event one or more of the situations set forth in §1245.104 (b)(1) through (b)(3) exist, the Board may determine to recommend partial grant of the waiver request (rather than denial) by making the grant subject to additional reservations (than those set forth in (a) and (b) of this section) to the extent necessary to address the particular situation. Such additional reservations may include, but not be limited to, field-of-use or terrestrial-use limitations, or additions to the march-in rights.
§ 1245.109 Assignment of title to NASA.

(a) The instrument of waiver set forth in §1245.115(c) shall be voided by NASA with respect to the domestic title to any invention for which a patent application has not been filed within 1 year (or a reasonable time thereafter for good cause shown) from notification to NASA of election of title, as required by §1245.104(c)(2), for an advanced waiver pursuant to §1245.104, or within 1 year from the granting of a waiver for an individual invention granted pursuant to §1245.105.

(b) The instrument of waiver set forth in §1245.115(c) shall be voided by NASA with respect to title in any foreign country for which waiver has been granted pursuant to §1245.106, if a patent application has not been filed in that country (or in the European Patent Office or under the Patent Cooperation Treaty and that country designated) within either 10 months (or a reasonable time thereafter for good cause shown) from the date a corresponding U.S. patent application has been filed or 6 months (or a reasonable time thereafter for good cause shown) from the date a license is granted by the Commissioner of Patents and Trademarks to file foreign patent applications where such filing has been prohibited by a Secrecy Order.

(c) In any country in which the waiver recipient decides not to continue prosecution of any application, to pay maintenance fees on, or defend in reexamination or opposition proceedings on a patent on a waived invention, the waiver recipient shall notify the patent representative within sufficient time for NASA to continue prosecution, pay the maintenance fee or defend the reexamination or opposition, and upon written request, convey title to NASA and execute all papers necessary for NASA to proceed with the appropriate action.

§ 1245.110 Content of petitions.

(a) Each request for waiver of domestic or foreign rights under §1245.104, §1245.105, or §1245.106 shall be by petition to the Administrator and shall include:

1. An identification of the petitioner, its place of business, and address;
2. If the petitioner is represented by counsel, the name, address, and telephone number of the counsel;
3. A citation to the section (§1245.104, §1245.105, or §1245.106) under which the petition is submitted, the nature and extent of the rights requested, and a positive statement that waiver of rights under the cited section is being requested;
4. If the petitioner is an employee inventor of the contractor, a statement from the contractor that the contractor does not object to this petition.
5. Information identifying the proposed contract or resulting contract, if any;
6. A designation of the country or countries, the United States of America and/or foreign, in which waiver of title is requested;
7. A copy of the invention disclosure if the request is for an individual identified invention (under §1245.105);
8. The name, address, and telephone number of the party with whom the Board is to communicate when the request is acted upon;
§ 1245.111 Submission of petitions.

(a) Petitions for advance waiver of domestic rights under §1245.104 or for advance waiver of foreign rights under §1245.106 presented prior to contract execution, must be submitted to the contracting officer. Any petition submitted by a prospective contractor and selected for negotiation of a contract will be processed and forwarded to the Board for consideration. All other petitions will be submitted to the patent representative designated in the contract for processing prior to forwarding to the Board.

(b) A copy of any waiver petitions submitted under §1245.103(c) should be forwarded to the appropriate NASA field installation patent counsel, if not supplied earlier, for (1) transmittal to the Department of Energy for processing by that agency, or (2) coordination with other agencies, as applicable.

§ 1245.112 Notice of proposed Board action and reconsideration.

(a) Notice. Except as provided by §1245.104(d), the Board will notify the petitioner, through the contracting officer, with respect to petitions for advance waiver prior to contract execution, and directly to the petitioner for all other petitions:

(1) Whether it proposes to recommend to the Administrator that the petition be:
   (i) Granted in the extent requested;
   (ii) Granted in an extent different from that requested; or
   (iii) Denied.

(2) Of the reasons for any recommended action adverse to or different from the waiver of rights requested by the petitioner.

(b) Request for reconsideration and statements required.

(1) If, under paragraph (a) of this section, the Board notifies the petitioner that the Board proposes to recommend action adverse to or different from the waiver requested, the petitioner may, within the period as the Board may set, but not less than 15 days from the notification, request reconsideration by the Board.

(2) If reconsideration has been requested within the prescribed time, the petitioner shall, within 30 days from the date of the request for reconsideration, or within any other time as the Board may set, file its statement setting forth the points, authorities, arguments, and any additional material on which it relies.

(3) Upon filing of the reconsideration statement by the petitioner, the petition will be assigned for reconsideration by the Board upon the contents of the petition, the record, and the reconsideration statement submitted by the petitioner.

(4) The Board, after its reconsideration, will promptly notify the petitioner of its proposed recommendation to the Administrator. If the Board’s proposed action is adverse to, or different from, the waiver requested, the petitioner may request an oral hearing within the time as the Board has set.

§ 1245.113 Hearing procedure.

(a) If the petitioner requests an oral hearing within the time set, under §1245.112(b)(4), the Board shall set the time and place for the hearing and shall notify the petitioner.

(b) Oral hearings held by the Board shall be open to the public and shall be held in accordance with the following procedures:

(1) Oral hearings shall be conducted in an informal manner, with the objective of providing the petitioner with a
§ 1245.114 Findings and recommendations of the Board.

(a) Findings of the Board. The Board shall consider the petition, the NASA contract, if relevant, the goals cited in §1245.103(a), the effect of the waiver on the objectives of the related NASA programs, and any other available facts and information presented to the Board by an interested party. The Board shall document its findings.

(b) Recommendation of the Board. (1) Except as provided in §1245.104(d), after making the findings of fact, the Board shall formulate its proposed recommendation to the Administrator as to the grant of waiver as requested, the grant of waiver upon terms other than as requested, or denial of waiver.

(2) If the Board proposes to recommend, initially or upon reconsideration or after oral hearing, that the petition be granted in the extent requested or, in other cases, where the petitioner does not request reconsideration or a hearing during the period set for the action or informs the Board that the action will not be requested, or fails to file the required statements within the prescribed time, the Board shall transmit the petition, a summary record of hearing proceedings, if applicable, its findings of fact, and its recommendation to the Administrator.

§ 1245.115 Action by the Administrator.

(a) After receiving the transmittal from the Board, the Administrator shall determine, in accordance with the policy of §1245.103, whether or not to grant any petition for waiver of rights to the petitioner.

(b) In the event of denial of the petition by the Administrator, a written notice of such denial will be promptly transmitted by the Board to the petitioner. The written notice will be accompanied with a statement of the grounds for denial.

(c) If the waiver is granted by the Administrator, the petitioner shall be sent for execution, an instrument of waiver confirmatory of the conditions and reservations of the waiver grant. The petitioner shall promptly return the executed copy of the instrument of waiver to the Chairperson.

§ 1245.116 Miscellaneous provisions.

(a) Filing of patent applications and reimbursement of costs. In order to protect the interests of the Government and the petitioner in inventions, a petitioner may file United States patent applications for such inventions prior to the Administrator’s determination on a petition for waiver. If an application on an identified invention is filed during the pendency of the petition, or within 60 days prior to the receipt of a petition, NASA will reimburse the petitioner for any reasonable costs of the filing and patent prosecution that may have occurred, provided:

(1) Similar patent filing and prosecution costs are not normally reimbursed to the petitioner as direct or indirect costs chargeable to the Government contracts;

(2) The petition is ultimately denied with respect to domestic rights, or with respect to foreign and domestic rights, if both are requested, and

(3) Prior to reimbursement, petitioner assigns the application to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration.

(b) Statement of Government rights. The waiver recipient shall include, within the specification of any United
§ 1245.117 March-in and waiver revocation procedures.

(a) The exercise of march-in procedures shall be governed by 35 U.S.C. 203 and by the applicable provisions of 37 CFR 401.6, entitled ‘‘Exercise of march-in rights for inventions made by nonprofit organizations and small business firms.’’

(b) Whenever NASA receives information that it believes might warrant the exercise of march-in rights, before initiating any march-in proceeding, it shall notify the waiver recipient in writing of the information and request informal written or oral comments from the waiver recipient as well as information relevant to the matter. In the absence of any comments from the waiver recipient within 30 days, NASA may, at its discretion, proceed with the procedures set forth in 37 CFR 401.6. If a comment is received within 30 days, or later if NASA has not initiated the procedures, then NASA shall, within 60 days after it receives the comment, either initiate the procedures or notify the waiver recipient, in writing, that it will not pursue march-in rights on the basis of the available information.

(c) If march-in procedures are to be initiated, the Administrator of NASA, or designee, shall undertake or refer the matter for fact finding to the NASA Board of Contract Appeals (BCA) and its Chairperson.

(d) Fact-finding shall be conducted by the NASA BCA and its Chairperson in accordance with its procedures that are consistent with the procedures set forth in 37 CFR 401.6. Any portion of the march-in proceeding, including a confidential and not subject to disclosure under 5 U.S.C. 552.

(g) Communications. Unless otherwise specifically set forth in this subpart, all communications relating to waived inventions, and all information and documents required to be submitted to NASA in this subpart, shall be furnished to the patent representative designated in the contract under which the waived invention was made.

(Recordkeeping and reporting requirements contained in paragraph (f) were approved by the Office of Management and Budget under control number 2700–0050)
§ 1245.118

fact-finding hearing that involves testimony or evidence relating to the utilization or efforts at obtaining utilization that are being made by the waiver recipient, its assignee, or licensees shall be closed to the public, including potential licensees. In accordance with 35 U.S.C. 202(c)(5), NASA shall not disclose any such information obtained during a march-in proceeding to persons outside the Government except when such release is authorized by the waiver recipient (assignee or licensee).

(e) The preparation of written findings of fact and recommended determination by the Chairperson of the NASA BCA and the determination by the Administrator, or designee, of NASA shall be in accordance with 37 CFR 401.6.

(f) NASA may, at any time, terminate a march-in proceeding if it is satisfied that it does not wish to exercise march-in rights.

§ 1245.118 Record of decisions.

The findings of fact and recommendations made to the Administrator by the Board with respect to each petition for waiver shall be recorded by the Board and be available to the public.

Subpart 2 [Reserved]

Subpart 3—NASA Foreign Patent Program

AUTHORITY: 42 U.S.C. 2457(h) and Executive Orders 9865 and 10096.

SOURCE: 30 FR 1844, Feb. 10, 1965, unless otherwise noted.

§ 1245.300 Scope of subpart.

This subpart establishes policy, criteria, and procedures concerning the NASA Foreign Patent Program.

§ 1245.301 Inventions under NASA contracts.

(a) Pursuant to §1245.113, NASA has facilitated the filing of foreign patent applications by contractors by providing for the granting of a waiver of title to a contractor to any identified invention in countries other than the United States in the event the Administrator of NASA does not desire to file a patent application covering the invention in such countries. However, any such waiver is subject to the reservation by the Administrator of the license required to be retained by NASA under section 305(f) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2457(f)).

(b) Conversely, where the principal rights in an invention made under a NASA contract remain in the contractor by virtue of waiver, §1245.19(a)(5) provides that the contractor, upon written request, will convey to the Administrator of NASA the entire right, title, and interest in the invention in any foreign country in which the contractor has elected not to file a patent application.

(c) With respect to inventions in which NASA has acquired and retained the principal rights, NASA will file patent applications in countries other than the United States on inventions selected in accordance with the criteria set forth in §1245.303.

§ 1245.302 Inventions by NASA employees.

(a) The foreign rights of NASA and of the NASA employee making an invention are determinable in accordance with Executive Orders 9865 and 10096 and Government Patent Board Administrative Order No. 6 issued pursuant thereto.

(b) Where NASA acquires an assignment of the domestic rights in an invention made by a NASA employee, NASA will also obtain an option to acquire the foreign rights, including the right to file foreign patent applications on the invention.

(c) Where NASA is entitled to only a governmental license in the invention, the principal foreign rights in the invention are retained by the employee unless he agrees in writing to assign such rights to NASA.

§ 1245.303 Criteria.

The following categories of inventions will be considered for the filing of patent applications by NASA in countries other than the United States:

(a) Inventions which may be utilized abroad in governmental programs of the United States.
§ 1245.405 Procedures.

(b) Inventions which may be exploited abroad in the public interest by license to U.S. nationals or others.
(c) Inventions which may be utilized in applications type satellites, such as communications and meteorological satellites.
(d) Inventions considered to be basic discoveries or of major significance in an art.
(e) Inventions in fields which directly concern the public health or public welfare.

§ 1245.304 Procedures.

(a) The patent counsel at each NASA field installation will review all invention disclosures at the time of docketing and will expedite the processing and preparation of a U.S. patent application, if justified, on those inventions which appear to fall within the criteria set forth in §1245.303. The patent counsel will make a recommendation as to whether or not foreign patent coverage appears justified at the time of assigning a priority evaluation to a disclosed invention.
(b) Preparation and filing of patent applications in foreign countries will be subject to approval of the Assistant General Counsel for Patent Matters, NASA Headquarters.
(c) The Office of Assistant General Counsel for Patent Matters will budget for and administer the filing of all patent applications in countries other than the United States.
(d) Coordination with other interested NASA offices will be undertaken by the Assistant General Counsel for Patent Matters.

Subpart 4—Foreign Patent Licensing Regulations

Authority: 42 U.S.C. 2457(g) and (h).
Source: 31 FR 10958, Aug. 18, 1966, unless otherwise noted.

§ 1245.400 Scope of subpart.

(a) The subpart establishes the policy, terms, conditions, and procedures under which NASA-owned foreign patents and patent applications may be licensed.
(b) The provisions of this subpart apply to all NASA-owned patents granted in countries other than the United States and to NASA-owned patent applications pending in such countries and supplement the provisions of subpart 2 of this part for foreign patent licensing.

§ 1245.401 Policy.

The foreign licensing program of the National Aeronautics and Space Administration serves to promote and utilize foreign patent rights vested in the Administration. The objectives of this program are to further the interests of United States industry in foreign commerce, to enhance the economic interests of the United States and to advance the international relationships of the United States.

§ 1245.402 Types of licenses and terms and conditions.

Licenses will be individually negotiated and may be granted to any applicant, foreign or domestic, on a non-exclusive or exclusive basis for royalties or other considerations and on such other terms and conditions as are deemed appropriate to the interests of the United States. Preference in the granting of foreign license rights will be shown to those applicants who have previously been granted a license under the corresponding U.S. patent or patent application.

§ 1245.403 Government license.

There will be reserved from each exclusive license an irrevocable, non-exclusive, nontransferable, royalty-free license for the practice of such invention throughout the world by or on behalf of the United States or any foreign government pursuant to any existing or future treaty or agreement with the United States.

§ 1245.404 Enforcement of patent rights.

An exclusive licensee will be authorized to enforce the licensed patent and to sue infringers of the patent at its own expense.

§ 1245.405 Procedures.

(a) NASA will publish in the United States, and elsewhere as may be appropriate, lists of NASA-owned foreign patent applications in each country in which a patent will be obtained.

VerDate 11<MAY>2000 07:12 Jan 15, 2002 Jkt 197044 PO 00000 Frm 00215 Fmt 8010 Sfmt 8010 Y:\SGML\197044T.XXX pfrm09 PsN: 197044T
§ 1245.500  
patents or patent applications available for licensing:
(b) NASA will also furnish written notice of the availability for licensing of NASA-owned foreign patents or patent applications to any licensee under the corresponding U.S. patent or patent application.
(c) Applications for license should be addressed to the Administrator, National Aeronautics and Space Administration, Washington, DC 20456. The application must fully identify the patent or patent application, and state the type of license requested together with proposed terms and conditions thereof.
(d) The conduct of negotiations with prospective licensees will be the responsibility of the General Counsel, NASA. In the conduct of such negotiations, due regard shall be had for the possible interests of NASA program and staff offices, and their coordination will be obtained as deemed appropriate.
(e) NASA will publish notice in the FEDERAL REGISTER, and elsewhere as may be appropriate, of its intention to grant an exclusive license under an identified patent or patent application. An exclusive license will not be granted until the expiration of 60 days from the date of notice in order to provide a suitable time interval for interested persons or other Government agencies to interpose comment or objection.
(f) All licenses shall become effective upon the written acceptance by the licensee of a license instrument specifying the type of license and terms and conditions thereof.

Subpart 5—Authority and Delegations to Take Certain Actions Relating to Patents and Other Intellectual Property Rights

Authority: 42 U.S.C. 2473, 2457; 14 CFR 1204.506.

Source: 43 FR 34122, Aug. 3, 1978, unless otherwise noted.

§ 1245.500  Scope.

This subpart 5 sets forth the authority and delegations relating to intellectual property rights, and the administration of the NASA patent program.
National Aeronautics and Space Admin.

§ 1245.502 Associate General Counsel for Intellectual Property.

The Associate General Counsel for Intellectual Property provides functional direction to all Patent Counsel and is redelegated the authority to take the following actions:

(a) Rights determinations. (1) To execute notifications of the Administrator's determinations made pursuant to section 305(a) of the National Aeronautics and Space Act of 1958, as amended; (2) To make determinations, under Executive Order 10096 of January 23, 1950 as amended, of the respective rights of the Government and of the inventor in and to inventions made by employees under the administrative jurisdiction of the National Aeronautics and Space Administration, and to appoint a liaison officer to deal with the Commissioner of Patents in such matters pursuant to 37 CFR 100.10, "Administration of a Uniform Patent Policy With Respect to the Domestic Rights in Inventions Made by Government Employees";

(b) Powers of attorney. To appoint and/or revoke principal attorneys and to execute necessary powers of attorney for the purpose of filing and prosecuting patent applications in which the United States, as represented by the Administrator, has an interest by way either of title or license;

(c) Application papers and statements. To receive patent applications, documents, and statements transmitted to the Administrator pursuant to section 305(c) of the National Aeronautics and Space Act of 1958, as amended;

(d) Acceptance of licenses and assignments. To accept, on behalf of the United States, licenses under, assignments of, and other rights in inventions, patents, and applications for patents; and

(e) Secrecy orders. To exercise all powers of the Administrator with respect to secrecy orders in patent cases and foreign filing under 35 U.S.C. 181 et seq.

§ 1245.503 Patent Counsel of Field Installations.

Patent Counsel of Field Installations and Patent Counsel, NASA Resident Legal Office, Pasadena, Calif., are redelegated authority to take the following actions:

(a) Rights determination. To make determination, under Executive Order 10096 of January 23, 1950, as amended, or the respective rights of the Government and of the inventor in and to inventions made by employee under the administrative jurisdiction of their installations in those instances where the Government is entitled to obtain the entire right, title, and interest, and to make each determination, with the concurrence of the Associate General Counsel for Intellectual Property, in those instances where the Government acquires less than the entire domestic right, title, and interest.

(b) Acceptance of licenses and assignments. To accept on behalf of the United States licenses under, assignments of and other rights in inventions, patents, and applications for patents.

§ 1245.504 Further redelegation.

None authorized except by virtue of succession.

APPENDIX A TO PART 1250—NASA FEDERAL FINANCIAL ASSISTANCE TO WHICH THIS PART APPLIES

AUTHORITY: Sec. 602, 78 Stat. 252, 42 U.S.C. 2000d-1; and the laws listed in appendix A to this part.

SOURCE: 30 FR 391, Jan. 9, 1965, unless otherwise noted.

§ 1250.100 Purpose.

The purpose of this part is to effectuate the provisions of Title VI of the Civil Rights Act of 1964 (hereafter referred to as “the Act”) to the end that no person in the United States shall, on the ground of race, color or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving Federal financial assistance from the National Aeronautics and Space Administration, hereinafter referred to as NASA.

§ 1250.101 Applicability.

(a) Covered programs. (1) This part applies to any program for which Federal financial assistance is authorized under a law administered by NASA, including the federally-assisted programs and activities listed in appendix A to this part. The fact that a program or activity is not listed in appendix A shall not mean, if Title VI of the Act is otherwise applicable, that such program is not covered. Other programs under statutes now in force or hereafter enacted may be added to appendix A by notice published in the Federal Register.

(2) This part applies to money paid, property transferred, or other Federal financial assistance extended under any such program after the effective date of this part pursuant to an application approved prior to such effective date.

(b) Excluded activities. This part does not apply to (1) any Federal financial assistance by way of insurance or guaranty contracts, (2) money paid, property transferred, or other assistance
§ 1250.102 Definitions.

As used in this part—

(a) Administrator means the Administrator of the NASA.

(b) Applicable means one who submits an application, request, proposal, or plan required to be approved by a responsible NASA official, or by a primary recipient, as a condition to eligibility for Federal financial assistance; and the term application means such an application, request, proposal or plan.

(c) Facility includes all or any portion of structures, equipment, or other real or personal property or interests therein, and the provision of facilities includes the construction, expansion, renovation, remodeling, alteration or acquisition of facilities.

(d) Federal financial assistance includes (1) grants and loans of Federal funds, (2) the grant or donation of Federal property and interests in property, (3) the detail of Federal personnel, (4) the sale and lease of, and the permission to use (on other than a casual or transient basis), Federal property or any interest in such property without consideration or at a nominal consideration, or at a consideration which is reduced for the purpose of assisting the recipient, or in recognition of the public interest to be served by such sale or lease to the recipient, and (5) any Federal agreement, arrangement, or other contract which has as one of its purposes the provision of assistance.

(e) NASA means the National Aeronautics and Space Administration.

(f) Primary recipient means any recipient which is authorized or required to extend Federal financial assistance to another recipient for the purpose of carrying out a program.

(g) Principal Compliance Officer means the Director, Equal Employment Opportunity Office, Office of Organization and Management, NASA Headquarters, or any successor officer to whom the Administrator should delegate authority to perform the functions assigned to the Principal Compliance Officer by this part.

(h) Program includes any program, project, or activity for the provision of services, financial aid, or other benefits to individuals (including education or training) whether provided through employees of the recipient of Federal financial assistance or provided by others through contracts or other arrangements with the recipient, and including work opportunities and cash or loan or other assistance to individuals, or for the provision of facilities for furnishing services, financial aid or other benefits to individuals. The services, financial aid, or other benefits provided under a program receiving Federal financial assistance shall be deemed to include any services, financial aid, or other benefits provided with the aid of Federal financial assistance or with the aid of any non-Federal funds, property, or other resources required to be expended or made available for the program to meet matching requirements or other conditions which must be met in order to receive the Federal financial assistance, and to include any services, financial aid, or other benefits provided in or through a facility provided with the aid of Federal financial assistance or such non-Federal resources.

(i) Recipient means any State, political subdivision of any State, or instrumentality of any State or political subdivision, any public or private agency, institution, or organization, or other entity, or any individual, in any State, to whom Federal financial assistance is extended, directly or through another recipient, for any program, including any successor, assign, or transferee thereof, but such term does not include any ultimate beneficiary under any such program.

(j) Responsible NASA official means:

(1) The heads of Offices at NASA Headquarters responsible for making
§ 1250.103  Discrimination prohibited.

§ 1250.103–1  General.

No person in the United States shall, on the ground of race, color or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program to which this part applies.

§ 1250.103–2  Specific discriminatory acts prohibited.

(a) A recipient under any program to which this part applies may not, directly or through contractual or other arrangements, on ground of race, color, or national origin:

(1) Deny an individual any service, financial aid, or other benefit provided under the program;

(2) Provide any service, financial aid, or other benefit to an individual which is different, or is provided in a different manner, from that provided to others under the program;

(3) In determining the site or location of facilities, a recipient or applicant may not make selections with the purpose or effect of excluding individuals from, denying them the benefits of, or subjecting them to discrimination under any program to which this regulation applies, on the grounds of race, color, or national origin; or with the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the Act or this regulation.

(b) A recipient, in determining the types of services, financial aid, or other benefits, or facilities which will be provided under any such program, or the class of individuals to whom, or the situations in which, such services, financial aid, other benefits, or facilities will be provided under any such program, or the class of individuals to be afforded an opportunity to participate in any such program, may not, directly or through contractual or other arrangements, utilize criteria or methods of administration which have the effect of subjecting individuals to discrimination because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program as respects individuals of a particular race, color, or national origin.

(c) As used in this section the services, financial aid, or other benefits provided under a program receiving Federal financial assistance shall be deemed to include any service, financial aid, or other benefit provided in or through a facility provided with the aid of Federal financial assistance.

(4) Subject an individual to segregation or separate treatment in any matter related to his receipt of any service, financial aid, or other benefit under the program;

(5) Restrict an individual in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under the program;

(6) Treat an individual differently from others in determining whether he satisfies any admission, enrollment, quota, eligibility, membership or other requirement or condition which individuals must meet in order to be provided any service, financial aid, or other benefit provided under the program;

(7) Deny an individual an opportunity to participate in the program through the provision of services or otherwise or afford him an opportunity to do so which is different from that afforded others under the program (including the opportunity to participate in the program as an employee but only to the extent set forth in §1250.103–3).

(8) Subject an individual to segregation or separate treatment in any matter related to his receipt of any service, financial aid, or other benefit under the program;
(d) A recipient may not take action that is calculated to bring about indirectly what this part forbids it to accomplish directly.

(e) The enumeration of specific forms of prohibited discrimination in this section does not limit the generality of the prohibition in §1250.103-1. This regulation does not prohibit the consideration of race, color, or national origin if the purpose and effect are to remove or overcome the consequences of practices or impediments which have restricted the availability of, or participation in, the program or activity receiving Federal financial assistance, on the grounds of race, color, or national origin. Where previous discriminatory practices or usage tends, on the grounds of race, color, or national origin, to exclude individuals from participation in, to deny them the benefits of, or to subject them to discrimination under any program or activity to which this regulation applies the applicant or recipient has an obligation to take reasonable action to remove or overcome the consequences of the prior discriminatory practice or usage, and to accomplish the purpose of the Act.

(30 FR 301, Jan. 9, 1965, as amended at 38 FR 17936, July 5, 1973)

§ 1250.103-3 Employment practices.

(a) Where a primary objective of the Federal financial assistance to a program to which this part applies is to provide employment, a recipient may not directly or through contractual or other arrangements subject an individual to discrimination on the ground of race, color, or national origin in its employment practices under such program (including recruitment or re-recruitment advertising, employment, layoff or termination, upgrading, demotion, or transfer, rates of pay or other forms of compensation, and use of facilities), including programs where a primary objective of the Federal financial assistance is (1) to assist such individuals through employment to meet expenses incident to the commencement or continuation of their education or training, or (2) to provide work experience which contributes to the education or training of such individuals.

(b) Employment opportunities provided in connection with any of the programs listed in appendix A, which opportunities are limited, or for which preference is given, to students, fellows, or other persons in training for the same or related employments, are programs of the kind described in paragraph (a)(1) and (2) of this section.

(c) The requirements applicable to construction employment under any such program shall be those specified in or pursuant to Executive Order 11246 or any Executive order which supersedes it.

(d) Where a primary objective of the Federal financial assistance is not to provide employment, but discrimination on the grounds of race, color, or national origin in the employment practices of the recipient or other persons subject to the regulation tends, on the grounds of race, color, or national origin, to exclude individuals from participation in, to deny them the benefits of, or to subject them to discrimination under any program to which this regulation applies, the provisions of paragraph (a) of this section shall apply to the employment practices of the recipient or other persons subject to the regulation, to the extent necessary to assure equality of opportunity to, and nondiscriminatory treatment of, beneficiaries.

(30 FR 301, Jan. 9, 1965, as amended at 38 FR 17936, July 5, 1973)

§ 1250.103-4 Illustrative applications.

(a) In training grant programs discrimination is forbidden in the selection or eligibility of individuals to be trained and in their treatment by the grantee during their training. In any case where selection is made from a predetermined group, such as the students in an institution, the group must have been selected without discrimination.

(b) In a research or training grant to a university for activities to be conducted in a graduate school, discrimination in the admission and treatment of students in the graduate school is prohibited and the prohibition extends to the entire university unless it satisfies the responsible NASA official that practices with respect to other parts or programs of the university will not
§ 1250.103–5

interfere, directly or indirectly, with fulfillment of the assurance required with respect to the graduate school.

c) Discrimination in the treatment of students or other trainees includes the prohibition of discrimination among the students or trainees in the availability or use of any academic, dormitory, eating, recreational, or other facilities of the grantee or other recipient.

d) In a research or training grant, discrimination is prohibited with respect to the availability or use of any educational activity and any provision of medical or other services and any financial aid to individuals incident to the grant.

e) Upon transfers of real or personal property for research or educational uses, discrimination is forbidden to the same extent as in the case of grants for the construction of facilities or the provision of equipment for like purposes.

In some situations even though past discriminatory practices have been abandoned, the consequences of such practices continue to impede the full availability of a benefit. If the efforts required of the applicant or recipient under §1250.105 to provide information as to the availability of the program or activity, and the rights of beneficiaries under this regulation, have failed to overcome these consequences, it will become necessary for such applicant or recipient to take additional steps to make the benefits fully available to racial and nationality groups previously subjected to discrimination. This action might take the form, for example, of special arrangements for obtaining referrals or making selections which will insure that groups previously subjected to discrimination are adequately served. For example, where a university is not adequately serving members of a particular racial or nationality group, it may establish special recruitment policies to make its program better known and more readily available to such group, and take other steps to provide that group with more adequate service.

§ 1250.103–6 Special programs.

An individual shall not be deemed subjected to discrimination by reason of his exclusion from the benefits of a program limited by Federal law to individuals of a particular race, color, or national origin different from his.

§ 1250.103–6 Medical emergencies.

Notwithstanding the provisions of §§1250.103 to 1250.103–5, a recipient of Federal financial assistance shall not be deemed to have failed to comply with §1250.103–1, if immediate provision of a service or other benefit to an individual is necessary to prevent his death or serious impairment of his health, and such service or other benefit cannot be provided except by or through a medical institution which refuses or fails to comply with §1250.103–1.

§ 1250.104 Assurances.

(a) General requirement. Every application for Federal financial assistance to carry out a program to which this part applies, and every application for Federal financial assistance to provide a facility shall, as a condition to its approval and the extension of any Federal financial assistance pursuant to the application, contain, be accompanied by, or identify and make reference to, an assurance that the program will be conducted or the facility operated in compliance with all requirements imposed by or pursuant to this part. If the assurance is not made a part of the application, the application shall identify the assurance which is applicable to the application. One assurance shall suffice for all applications of an applicant if the assurance complies with the conditions made applicable by this part to each such application for Federal financial assistance.
Every assurance shall include provisions which give the United States a right to seek its judicial enforcement.

(b) Duration of assurances. The period of time to be covered by the assurances required under this § 1250.104 shall be as follows:

(1) Real property. In the case of an application for Federal financial assistance for providing real property or structures thereon, the assurance shall obligate the recipient, or in the case of a subsequent transfer, the transferee, for the period during which the real property or structures are used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

(2) Personal property. In the case of an application for Federal financial assistance for providing personal property, the assurance shall obligate the recipient for the period during which he retains ownership or possession of the property.

(3) Other kinds of Federal financial assistance. In the case of an application for any other kind of Federal financial assistance, the assurance shall obligate the recipient for the period during which Federal financial assistance is extended pursuant to the application.

(c) Assurances for research, training, or educational programs. (1) In the case of application by an institution of higher education or any other organization for Federal financial assistance for a program or activity which involves participation by students, fellows or trainees, including but not limited to assistance for research, training, or the provision of facilities, the assurance required by this § 1250.104 shall extend to admission practices and to all other practices relating to the treatment of students or other participants.

(2) The assurances from such an applicant shall be applicable to the entire organization of the applicant unless the applicant establishes, to the satisfaction of the officer administering the program or activity involved, that its practices in designated parts or programs of the organization of the applicant will in no way affect its practices in the program of the applicant for which Federal financial assistance is sought, or the beneficiaries of or participants in such program.

(d) Assurances for construction of facilities. (1) In the case of assurance for the construction of a facility, or part thereof, the assurance shall extend to the entire facility and to facilities operated in connection therewith. In grants to assist in the construction of facilities for the provision of research, training, or educational services, assurances will be required that services will be provided without discrimination, to the same extent that discrimination would be forbidden as a condition of grants for the support of such services. Thus, as a condition of grants for the construction of academic, research or other facilities at institutions of higher education, assurances will be required that there will be no discrimination in the admission or treatment of students. Also, see paragraph (c) of this section for the requirement as to the applicability of the assurance to the applicant’s organization.

(2) In other construction grants the assurances required will similarly be adapted to the nature of the activities to be conducted in the facilities for construction of which the grants have been authorized by Congress.

(e) Instrument effecting or recording transfers of real property. The instrument effecting or recording the transfer, shall contain a covenant running with the land assuring nondiscrimination for the period during which the real property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits. Where no transfer of property is involved, but property is improved under a program of Federal financial assistance, the recipient shall agree to include such a covenant in any subsequent transfer of such property. Where the property is obtained from the Federal Government, such covenant may also include a condition coupled with a right to be reserved by NASA to revert title to the property in the event of a breach of the covenant where, in the discretion of the responsible NASA official, such a condition and right of reverter is appropriate to
§ 1250.105 Compliance information.

(a) Cooperation and assistance. Each responsible NASA official shall to the fullest extent practicable seek the cooperation of recipients in obtaining compliance with this part and shall provide assistance and guidance to recipients to help them comply voluntarily with this part.

(b) Compliance reports. Each recipient shall keep such records and submit to the Principal Compliance Officer or his designee timely, complete and accurate compliance reports at such times, and in such form and containing such information, as the Principal Compliance Officer or his designee may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this part. In the case of any program under which a primary recipient extends Federal financial assistance to any other recipient, such other recipient shall also submit such compliance reports to the primary recipient as may be necessary to enable the primary recipient to carry out its obligations under this part.

(c) Access to sources of information. Each recipient shall permit access by the Principal Compliance Officer or his designee during normal business hours to such of its books, records, accounts and other sources of information, and its facilities as may be pertinent to ascertain compliance with this part. Where any information required of a recipient is in the exclusive possession of any other agency, institution or person and that agency, institution or person shall fail or refuse to furnish this information, the recipient shall so certify in its report and shall set forth what efforts it has made to obtain the information.

(d) Information to beneficiaries and participants. Each recipient shall make available to participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the program under which the recipient receives Federal financial assistance, and make such information available to them in such manner, as the Principal Compliance Officer finds necessary to apprise such persons of the protection against discrimination assured them by the Act and this part.

§ 1250.106 Conduct of investigations.

(a) Periodic compliance reviews. The responsible NASA official or his designee shall from time to time review the practices of recipients to determine whether they are complying with this part.

(b) Complaints. Any person who believes himself or any specific class of individuals to be subjected to discrimination prohibited by this part may by himself or by a representative file with the Principal Compliance Officer or his designee a written complaint. A complaint must be filed not later than 90 days from the date of the alleged discrimination, unless the time for filing is extended by the Principal Compliance Officer or his designee.

(c) Investigations. The Principal Compliance Officer or his designee will make a prompt investigation whenever a compliance review, report, complaint, or any other information indicates a possible failure to comply with
this part. The investigation should include, where appropriate, a review of the pertinent practices and policies of the recipient, the circumstances under which the possible noncompliance with this part occurred, and other factors relevant to a determination as to whether the recipient has failed to comply with this part.

(d) Resolution of matters. (1) If an investigation pursuant to paragraph (c) of this section indicates a failure to comply with this part, the Principal Compliance Officer or his designee will so inform the recipient and the matter will be resolved by informal means whenever possible. If it has been determined that the matter cannot be resolved by informal means, action will be taken as provided for in §1250.107.

(2) If an investigation does not warrant action pursuant to paragraph (d)(1) of this section, the responsible NASA official or his designee will so inform the recipient and the complainant, if any, in writing.

(e) Intimidatory or retaliatory acts prohibited. No recipient or other person shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by section 601 of the Act or this part, or because he has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. The identity of complainants shall be kept confidential except to the extent necessary to carry out the purposes of this part, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

§1250.107 Procedure for effecting compliance.

(a) General. If there appears to be a failure or threatened failure to comply with this part, and if the noncompliance or threatened noncompliance cannot be corrected by informal means, compliance with this part may be effected by the suspension or termination of or refusal to grant or to continue Federal financial assistance or by any other means authorized by law. Such other means may include, but are not limited to, (1) a reference to the Department of Justice with a recommendation that appropriate proceedings be brought to enforce any rights of the United States under any law of the United States (including other titles of the Act), or any assurance or other contractual undertaking, and (2) any applicable proceeding under State or local law.

(b) Noncompliance with §1250.104. If an applicant fails or refuses to furnish an assurance required under §1250.104 or otherwise fails or refuses to comply with a requirement imposed by or pursuant to that section, Federal financial assistance may be refused in accordance with the procedures of paragraph (c) of this section. NASA shall not be obligated to provide assistance in such a case during the pendency of the administrative proceedings under such subsection except that NASA shall continue assistance during the pendency of such proceedings where such assistance is due and payable pursuant to an application therefor approved prior to the effective date of this part.

(c) Termination of or refusal to grant or to continue Federal financial assistance. No order suspending, terminating or refusing to grant or continue Federal financial assistance shall become effective until (1) the responsible NASA official has advised the applicant or recipient of his failure to comply and has determined that compliance cannot be secured by voluntary means, (2) there has been an express finding on the record, after opportunity for hearing, of a failure by the applicant or recipient to comply with a requirement imposed by or pursuant to this part, (3) the action has been approved by the Administrator pursuant to §1250.109(e), and (4) the expiration of 30 days after the Administrator has filed with the committee of the House and the committee of the Senate having legislative jurisdiction over the program involved, a full written report of the circumstances and the grounds for such action. Any action to suspend or terminate or to refuse to grant or to continue Federal financial assistance shall be limited to the particular political entity, or part thereof, or other applicant or recipient as to whom such a
§ 1250.108

Finding has been made and shall be limited in its effect to the particular program, or part thereof, in which such noncompliance has been so found.

(d) Other means authorized by law. No action to effect compliance by any other means authorized by law shall be taken until (1) the Principal Compliance Officer has determined that compliance cannot be secured by voluntary means, (2) the recipient or other person has been notified of its failure to comply and of the action to be taken to effect compliance and (3) the expiration of at least 10 days from the mailing of such notice to the recipient or other person. During this period of at least 10 days additional efforts shall be made to persuade the recipient or other person to comply with this part and to take such corrective action as may be appropriate.

§ 1250.108 Hearings.

(a) Opportunity for hearing. Whenever an opportunity for a hearing is required by § 1250.107(c), reasonable notice shall be given by registered or certified mail, return receipt requested, to the affected applicant or recipient. This notice shall advise the applicant or recipient of the action proposed to be taken, the specific provision under which the proposed action against it is to be taken, and the matters of fact or law asserted as the basis for this action, and either (1) fix a date not less than 20 days after the date of such notice within which the applicant or recipient may request of the Principal Compliance Officer that the matter be scheduled for hearing or (2) advise the applicant or recipient that the matter in question has been set down for hearing at a stated place and time. The time and place so fixed shall be reasonable and shall be subject to change for cause. The complainant, if any, shall be advised of the time and place of the hearing. An applicant or recipient may waive a hearing and submit written information and argument for the record. The failure of an applicant or recipient to request a hearing under this paragraph or to appear at a hearing for which a date has been set shall be deemed to be a waiver of the right to a hearing under section 602 of the Act and § 1250.107(c) of this part and consent to the making of a decision on the basis of such information as is available.

(b) Time and place of hearing. Hearings shall be held at NASA Headquarters in Washington, DC, at a time fixed by the Principal Compliance Officer unless he determines that the convenience of the applicant or recipient or of NASA requires that another place be selected. Hearings shall be held before the Administrator, or, at his discretion, before a hearing examiner designated in conformity with 5 U.S.C. 3105 and 3344 (section 11 of the Administrative Procedure Act).

(c) Right to counsel. In all proceedings under this section, the applicant or recipient and NASA shall have the right to be represented by counsel.

(d) Procedures, evidence, and record. (1) The hearing, decision, and any administrative review thereof shall be conducted in conformity with 5 U.S.C. 554–557 (section 5–8 of the Administrative Procedure Act), and in accordance with such rules of procedure as are proper (and not inconsistent with this section) relating to the conduct of the hearing, giving of notices subsequent to those provided for in paragraph (a) of this section, taking of testimony, exhibits, arguments, and briefs, requests for findings, and other related matters. Both NASA and the applicant or recipient shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the officer conducting the hearing at the outset of or during the hearing.

(2) Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary by the officer conducting the hearing. The hearing officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side.
§ 1250.109 Decisions and notices.

(a) Decision by person other than the NASA Principal Compliance Officer. If the hearing is held by a hearing examiner, such hearing examiner shall either make an initial decision, if so authorized, or certify the entire record including his recommended findings and proposed decision to the Principal Compliance Officer for a final decision, and a copy of such initial decision or certification shall be mailed to the applicant or recipient. Where the initial decision is made by the hearing examiner, the applicant or recipient may, within 30 days of the mailing of such notice of initial decision, file with the Principal Compliance Officer his exceptions to the initial decision with his reasons therefor. In the absence of exceptions, the Principal Compliance Officer may on his own motion, within 45 days after the initial decision, serve on the applicant or recipient a notice that he will review the decision. Upon the filing of such exceptions or of such notice of review the Principal Compliance Officer shall review the initial decision and issue his own decision thereon including the reasons therefor. In the absence of either exceptions or a notice of review the initial decision shall constitute the final decision of the Principal Compliance Officer.

(b) Decisions on record or review by the NASA Principal Compliance Officer. Whenever a record is certified to the Principal Compliance Officer for decision or he reviews the decision of a hearing examiner pursuant to paragraph (a) of this section, or whenever the Administrator conducts the hearing, the applicant or recipient shall be given reasonable opportunity to file with him briefs or other written statements of its contentions, and a copy of the final decision of the Principal Compliance Officer shall be given in writing to the applicant or recipient and to the complainant, if any.

(c) Decisions on record where a hearing is waived. Whenever a hearing is waived pursuant to §1250.108, a decision shall be made by the Principal Compliance Officer on the record and a copy of such decision shall be given in writing to the applicant or recipient, and to the complainant, if any.

(d) Rulings required. Each decision of a hearing officer or the Principal Compliance Officer shall set forth his ruling on each finding, conclusion, or exception presented, and shall identify the requirement or requirements imposed by or pursuant to this part with which it is found that the applicant or recipient has failed to comply.

(e) Approval by administrator. Any final decision of the NASA Principal Compliance Officer which provides for the suspension or termination of, or the refusal to grant or continue Federal financial assistance, or the imposition of any other sanction available under this part or the Act, shall promptly be transmitted to the Administrator, who may approve such decision, may vacate it, or remit or mitigate any sanction imposed.

(f) Content of orders. The final decision may provide for suspension or termination of, or refusal to grant or continue Federal financial assistance, in whole or in part, under the program involved, and may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purposes of the Act and this part including provisions designed to assure that no Federal financial assistance
§ 1250.110 Judicial review.

Action taken pursuant to section 602 of the Act is subject to judicial review as provided in section 603 of the Act.

§ 1250.111 Effect on other regulations; forms and instructions.

(a) Effect on other regulations. All regulations, orders, or like directions heretofore issued by any officer of NASA which impose requirements designed to prohibit any discrimination against individuals on the ground of race, color, or national origin under any program to which this part applies, and which authorize the suspension or termination of or refusal to grant or to continue Federal financial assistance to any applicant for or recipient of such assistance under such program for failure to comply with such requirements, are hereby superseded to the extent that such discrimination is prohibited by this part, except that nothing in this part shall be deemed to relieve any person of any obligation assumed or imposed under any such superseded regulation, order, instruction, or like direction prior to the effective date of this Instruction. Nothing in this part, however, shall be deemed to supersede any of the following (including future amendments thereof): (1) Executive Orders 10925 and 11246 and regulations or instructions issued thereunder, or (2) any other regulations or instructions, insofar as such other regulations or instructions prohibit discrimination on the ground of race, color, or national origin in any program or situation to which this part is inapplicable, or prohibit discrimination on any other ground.

(b) Forms and instructions. Each responsible NASA official shall issue and promptly make available to interested persons forms and detailed instructions and procedures for effectuating this part as applied to financial assistance to which this part applies and for which he is responsible.

(c) Supervision and coordination. The Administrator may assign to officials of other departments or agencies of the Government, with the consent of such departments or agencies, responsibilities in connection with the effectuation of the purposes of Title VI of
the Act and this part (other than re-

sponsibility for final decision as pro-

vided in §1250.109), including the 

achievement of effective coordination

and maximum uniformity within 

NASA and within the Executive 

Branch of the Government in the appli-

cation of Title VI and this part to simi-

lar programs and in similar situations. 

Any action taken, determination made, 
or requirement imposed by an official 
of another department or agency act-
ing pursuant to an assignment of re-
sponsibility under this subsection shall 

have the same effect as though such ac-
tion has been taken by the responsible 
oficial of this agency. 

[30 FR 301, Jan. 9, 1965, as amended at 38 FR 

19937, July 5, 1973] 

§ 1250.112 Relationship with other offi-
cials. NASA officials, in performing the 
functions assigned to them by this 
part, are responsible for recognizing 
the delegations of authority and re-
sponsibility of other NASA officials 
and for seeing the actions taken or in-
structions issued by them are properly 
coordinated with the offices and divi-
sions having joint interests. 

APPENDIX A TO PART 1250—NASA FED-
ERAL FINANCIAL ASSISTANCE TO 
WHICH THIS PART APPLIES 

1. Grants made under the authority of Pub. 

L. 85–934, approved September 6, 1958 (42 

2. Contracts with nonprofit institutions of 
higher education or with nonprofit organiza-
tions whose primary purpose is the conduct 
of scientific research, wherein title to equip-
ment purchased with funds under such con-
tracts may be vested in such institutions or 
or organizations under the authority of section 
2 of Pub. L. 85–934, approved September 6, 

3. Training grants made under the author-
ity of the National Aeronautics and Space 
Act of 1958, as amended (42 U.S.C. 2451–2460, 
2472–2473). 

4. Facilities grants made under authority 
in annual NASA authorization and appro-
priation acts. 

[30 FR 301, Jan. 9, 1965, as amended at 38 FR 

17936, July 5, 1973] 

PART 1251—NONDISCRIMINATION 
ON BASIS OF HANDICAP 

Subpart 1251.1—General Provisions 

Sec. 

1251.100 Purpose. 

1251.101 Application. 

1251.102 Definitions. 

1251.103 Discrimination prohibited. 

1251.104 Assurances required. 

1251.105 Remedial action, voluntary action, 
and self-evaluation. 

1251.106 Designation of responsible em-
ployee and adoption of grievance proce-
dures. 

1251.107 Notice. 

1251.108 Administrative requirements for 
small recipients. 

1251.109 Effect of State or local law or other 
requirements and effect of employment 
opportunities. 

Subpart 1251.2—Employment Practices 

1251.200 Discrimination prohibited. 

1251.201 Reasonable accommodation. 

1251.202 Employment criteria. 

Subpart 1251.3—Program Accessibility 

1251.300 Discrimination prohibited. 

1251.301 Existing facilities. 

1251.302 New construction. 

Subpart 1251.4—Procedures 

1251.400 Procedures for compliance. 

Subpart 1251.5—Enforcement of Non-
discrimination on the Basis of Handi-
cap in Programs or Activities Con-
ducted by the National Aeronautics 
and Space Administration 

1251.500 Purpose. 

1251.502 Application. 

1251.503 Definitions. 

1251.504–1251.509 (Reserved) 

1251.510 Self-evaluation. 

1251.511 Notice. 

1251.512–1251.529 (Reserved) 

1251.530 General prohibitions against dis-

crimination. 

1251.531–1251.539 (Reserved) 

1251.540 Employment. 

1251.541–1251.548 (Reserved) 

1251.549 Program accessibility: Discrimina-
tion prohibited. 

1251.550 Program accessibility: Existing fa-
cilities. 

1251.551 Program accessibility: New con-
struction and alterations. 

1251.552–1251.559 (Reserved)
Subpart 1251.1—General Provisions

§ 1251.100 Purpose.

This part effectuates section 504 of the Rehabilitation Act of 1973, which is designed to eliminate discrimination on the basis of handicap in any program or activity receiving Federal financial assistance.

§ 1251.101 Application.

This part applies to each recipient of Federal financial assistance from the National Aeronautics and Space Administration and to each program or activity that receives or benefits from such assistance.

§ 1251.102 Definitions.

As used in this part, the term:

(b) Section 504 means section 504 of the Act.

(c) Assistant Administrator means the Assistant Administrator for Equal Opportunity Programs for NASA.

(d) Recipient means any state or its political subdivision, any instrumentality of a state or its political subdivision, any public or private agency, institution, organization, or other entry, or any person to which Federal financial assistance is extended directly or through another recipient, including any successor, assignee, or transferee of a recipient, but excluding the ultimate beneficiary of the assistance.

(e) Applicant for assistance means one who submits an application, request, or plan required to be approved by a NASA official or by a recipient as a condition to becoming a recipient.

(f) Federal financial assistance means any grant, loan, contract (other than a procurement contract or a contract of insurance or guaranty), or any other arrangement by which the agency provides or otherwise makes available assistance in the form of:

(1) Funds;

(2) Services of Federal personnel; or

(3) Real and personal property or any interest in or use of such property, including:

(i) Transfers or leases of such property for less than fair market value or for reduced consideration; and

(ii) Proceeds from a subsequent transfer or lease of such property if the Federal share of its fair market value is not returned to the Federal Government.

(g) Facility means all or any portion of buildings, structures, equipment, roads, walks, parking lots, or other real or personal property or interest in such property.

(h) Handicapped person. (1) Handicapped persons means any person who:

(i) Has a physical or mental impairment which substantially limits one or more major life activities;

(ii) Has a record of such an impairment; or

(iii) Is regarded as having such an impairment.

(2) As used in paragraph (h)(1) of this section, the phrase:

(i) Physical or mental impairment means:

(A) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or

(B) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term physical or mental impairment includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, drug addiction, and alcoholism.

(ii) Major life activities means functions such as caring for one’s self, performing manual tasks, walking, seeing,
§ 1251.103 Discrimination prohibited.

(a) General. No qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity which receives or benefits from Federal financial assistance.

(b) Discriminatory actions prohibited.

(1) A recipient, in providing any aid, benefit, or services, may not, directly or through contractual, licensing, or other arrangements, on the basis of handicap:

(i) Deny a qualified handicapped person the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified handicapped person an opportunity to participate in or benefit from aid, benefit, or service that is not as effective as that provided to others;

(iii) Provide a qualified handicapped person with an aid, benefit, or service that is not as effective as that provided to others;

(iv) Provide different or separate aid, benefits, or services to handicapped persons or to any class of handicapped persons unless such action is necessary to provide qualified handicapped persons with aid, benefits, or services that are as effective as those provided to others;

(v) Aid or perpetuate discrimination against a qualified handicapped person by providing significant assistance to an agency, organization, or person that discriminates on the basis of handicap in providing any aid, benefit, or service to beneficiaries of the recipient’s program;

(vi) Deny a qualified handicapped person the opportunity to participate as a member of planning or advisory boards; or

(vii) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving an aid, benefit, or service.

(2) For purposes of this part, aids, benefits, and services, to be equally effective, are not required to produce the identical result or level of achievement for handicapped persons and nonhandicapped persons, but must afford handicapped persons equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement, in the most integrated setting appropriate to the person’s needs.

(3) Recipients shall take appropriate steps to ensure that no handicapped individual is denied the benefits of, excluded from participation in, or otherwise subjected to discrimination in any program receiving or benefiting from Federal financial assistance because of the absence of auxiliary aids for individuals with impaired sensory, manual, or speaking skills.

(4) Despite the existence of separate or different programs or activities provided in accordance with this part, a
§ 1251.104 Assurances required.

(a) Assurances. An applicant for Federal financial assistance for a program or activity to which this part applies shall submit an assurance, on a form specified by the Assistant Administrator, that the program will be operated in compliance with this part. An applicant may incorporate these assurances by reference in subsequent applications to NASA.

(b) Duration of obligation. (1) In the case of Federal financial assistance extended in the form of real property or to provide real property or structures on the property, the assurance will obligate the recipient or, in the case of a subsequent transfer, the transferee, for the period during which the real property or structures are used for the purpose for which Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

(2) In the case of Federal financial assistance extended to provide personal property, the assurance will obligate the recipient for the period during which it retains ownership or possession of the property.

(3) In all other cases, the assurance will obligate the recipient for the period during which Federal financial assistance is extended.

(c) Covenants. (1) Where Federal financial assistance is provided in the form of real property or interest in the property from NASA, the instrument effecting or recording this transfer shall contain a covenant running with the land to assure nondiscrimination for the period during which the real property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

(2) Where no transfer of property is involved but property is purchased or improved with Federal financial assistance, the recipient shall agree to include the covenant described in paragraph (c)(3) of this section in the instrument effecting or recording any subsequent transfer of the property.
(3) Where Federal financial assistance is provided in the form of real property or interest in the property from NASA, the covenant shall also include a condition coupled with a right to be reserved by NASA to revert title to the property in the event of a breach of the covenant. If a transferee of real property proposes to mortgage or otherwise encumber the real property as security for financing construction of new, or improvement of existing facilities on the property for the purposes for which the property was transferred, the Assistant Administrator may, upon request of the transferee and if necessary to accomplish such financing and upon such conditions as he or she deems appropriate, agree to forbear the exercise of such right to revert title for so long as the lien of such mortgage or other encumbrance remains effective.

§ 1251.106 Designation of responsible employee and adoption of grievance procedures.

(a) Designation of responsible employee. A recipient that employs 15 or more persons shall designate at least one person to coordinate its efforts to comply with this part.

(b) Voluntary action. A recipient may take steps, in addition to any action that is required by this part, to overcome the effects of conditions that resulted in limited participation in the recipient’s program or activity by qualified handicapped persons.

(c) Self-evaluation. (1) A recipient shall, within 1 year of the effective date of this part; or within 1 year of first becoming a recipient:

(i) Evaluate, with the assistance of interested persons, including handicapped persons or organizations representing handicapped persons, its current policies and practices and the effects thereof that do not or may not meet the requirements of this part;

(ii) Modify, after consultation with interested persons, including handicapped persons or organizations representing handicapped persons, any policies and practices that do not meet the requirements of this part;

(iii) Take, after consultation with interested persons, including handicapped persons or organizations representing handicapped persons, appropriate remedial steps to eliminate the effects of any discrimination that resulted from adherence to these policies and practices.

(2) A recipient that employs 15 or more persons shall, for at least 3 years, follow completion of the evaluation required under paragraph (c)(1) of this section, maintain on file, make available for public inspection, and provide to the Assistant Administrator upon request:

(i) A list of the interested persons consulted;

(ii) A description of areas examined and any problems identified; and

(iii) A description of any modifications made and of any remedial steps taken.
§ 1251.107 Adoption of grievance procedures. A recipient that employs 15 or more persons shall adopt grievance procedures that incorporate appropriate due process standards and that provide for the prompt and equitable resolution of complaints alleging any action prohibited by this part. Such procedures need not to be established with respect to complaints from applicants for employment or from applicants for admission to postsecondary educational institutions.

§ 1251.107 Notice. (a) A recipient that employs 15 or more persons shall take appropriate initial and continuing steps to notify participants, beneficiaries, applicants, and employees, including those with impaired vision or hearing, and unions or professional organizations holding collective bargaining or professional agreements with the recipient that it does not discriminate on the basis of handicap in violation of section 504 and this part. The notification shall state, where appropriate, that the recipient does not discriminate in admission or access to, or treatment or employment in, its programs and activities. The notification shall also include an identification of the responsible employee designated pursuant to §1251.106(a). A recipient shall make the initial notification required by this paragraph within 90 days of the effective date of this part. Methods of initial and continuing notification may include the posting of notices, publication in newspapers and magazines, placement of notices in recipient’s publication, and distribution of memoranda or other written communications.

(b) If a recipient publishes or uses recruitment materials or publications containing general information that it makes available to participants, beneficiaries, applicants, or employees, it shall include in those materials or publications a statement of the policy described in paragraph (a) of this section. A recipient may meet the requirement of this section and this paragraph either by including appropriate inserts in existing materials and publications or by revising and reprinting the materials and publications.

§ 1251.108 Administrative requirements for small recipients.

The Assistant Administrator may require any recipient with fewer than 15 employees, or any class of such recipients, to comply with §§1251.106 and 1251.107, in whole or in part, when the Assistant Administrator finds a violation of this part or finds that such compliance will not significantly impair the ability of the recipient or class of recipients to provide benefits or services.

§ 1251.109 Effect of State or local law or other requirements and effect of employment opportunities.

(a) The obligation to comply with this part is not obviated or alleviated by the existence of any state or local law or other requirement that, on the basis of handicap, imposes prohibitions or limits upon the eligibility of qualified handicapped persons to receive services or to practice any occupation or profession.

(b) The obligation to comply with this part is not obviated or alleviated because employment opportunities in any occupation or profession are or may be more limited for handicapped persons than for nonhandicapped persons.

Subpart 1251.2—Employment Practices

§ 1251.200 Discrimination prohibited. (a) General. (1) No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity to which this part applies.

(2) A recipient that receives assistance shall take positive steps to employ and advance in employment qualified handicapped persons in programs assisted under the Act.

(3) A recipient shall make all decisions concerning employment under any program or activity to which this part applies in a manner which ensures that discrimination on the basis of handicap does not occur and may not limit, segregate, or classify applicants or employees in any way that adversely affects their opportunities or status because of handicap.
§ 1251.202 Employment criteria.

(a) A recipient may not make use of any employment test or other selection criterion that screens out or tends to screen out handicapped persons or any class of handicapped persons unless:

(1) The test score or other selection criterion, as used by the recipient, is
§ 1251.203 Preemployment inquiries.

(a) Except as provided in paragraphs (b) and (c) of this section, a recipient may not conduct a preemployment medical examination or may not make preemployment inquiry of an applicant as to whether the applicant is a handicapped person or as to the nature or severity of a handicap. A recipient may, however, make preemployment inquiry into an applicant’s ability to perform job-related functions.

(b) When a recipient is taking remedial action to correct the effects of past discrimination pursuant to §1251.105(a), when a recipient is taking voluntary action to overcome the effects of conditions that resulted in limited participation in its Federally assisted program or activity pursuant to §1251.301(a), or when a recipient is taking affirmative action pursuant to section 504 of the Act, the recipient may invite applicants for employment to indicate whether and to what extent they are handicapped, provided that:

(1) The recipient states clearly on any written questionnaire used for this purpose or makes clear orally if no written questionnaire is used that the information requested is intended for use solely in connection with its remedial action obligations or its voluntary of affirmative action efforts; and

(2) The recipient states clearly that the information is being requested on a voluntary basis, that it will be kept confidential as provided in paragraph (d) of this section, that refusal to provide it will not subject the applicant or employee to any adverse treatment, and that it will be used only in accordance with this part.

(c) Nothing in this section shall prohibit a recipient from conditioning an offer of employment on the results of a medical examination conducted prior to the employee’s entrance on duty, provided that:

(1) All entering employees are subjected to such an examination regardless of handicap; and

(2) The results of such an examination are used only in accordance with the requirements of this part.

(d) Information obtained in accordance with this section as to the medical condition or history of the applicant shall be collected and maintained on separate forms that shall be accorded confidentiality as medical records, except that:

(1) Supervisors and managers may be informed regarding restrictions on the work or duties of handicapped persons and regarding necessary accommodations;

(2) First aid and safety personnel may be informed, where appropriate, if the condition might require emergency treatment; and

(3) Government officials investigating compliance with the Act shall be provided relevant information upon request.

Subpart 1251.3—Program Accessibility

§ 1251.300 Discrimination prohibited.

No qualified handicapped person shall, because a recipient’s facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity to which this part applies.

§ 1251.301 Existing facilities.

(a) Program accessibility. A recipient shall operate each program or activity to which this part applies so that the program or activity, when viewed in its
entirety, is readily accessible to handicapped persons. This paragraph does not require a recipient to make each of its existing facilities or every part of a facility accessible to and usable by handicapped persons.

(b) Methods. A recipient may comply with the requirement of paragraph (a) of this section through such means as redesign of equipment; reassignment of classes or other services to accessible buildings; assignment of aides to beneficiaries; home visits; delivery of health, welfare, or other social services at alternate accessible sites; alteration of existing facilities and construction of new facilities in conformance with the requirements of §1251.302; or any other methods that result in making its program or activity accessible to handicapped persons. A recipient is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with paragraph (a) of this section. In choosing among available methods for meeting the requirement of paragraph (a) of this section, a recipient shall give priority to those methods that offer programs and activities to handicapped persons in the most integrated setting appropriate.

(c) Time period. A recipient shall comply with the requirement of paragraph (a) of this section within 60 days of the effective date of this part except that where structural changes in facilities are necessary, such changes shall be made within 3 years of the effective date of this part, but in any event as expeditiously as possible.

(d) Transition plan. In the event that structural changes to facilities are necessary to meet the requirement of paragraph (a) of this section, a recipient shall develop, within 6 months of the effective date of this part, a transition plan setting forth the steps necessary to complete such changes. The plan shall be developed with the assistance of interested persons, including handicapped persons or organizations representing handicapped persons. A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum:

1. Identify physical obstacles in the recipient's facilities that limit the accessibility of its program or activity to handicapped persons;
2. Describe in detail the methods that will be used to make the facilities accessible;
3. Specify the schedule for taking the steps necessary to achieve full program accessibility and, if the time period of the transition plan is longer than 1 year, identify steps that will be taken during each year of the transition period; and
4. Indicate the person responsible for implementation of the plan.

(e) Notice. The recipient shall adopt and implement procedures to ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of services, activities, and facilities that are accessible to and usable by handicapped persons.

§ 1251.302 New construction.

(a) Design and construction. Each facility or part of a facility constructed by, on behalf of, or for the use of a recipient shall be designed and constructed in such manner that the facility or part of the facility is readily accessible to and usable by handicapped persons, if the construction (ground breaking) was commenced after the effective date of this part.

(b) Alteration. Each facility or part of a facility which is altered by, on behalf of, or for the use of a recipient after the effective date of this part in a manner that affects or could affect the usability of the facility or part of the facility shall, to the maximum extent feasible, be altered in such manner that the altered portion of the facility is readily accessible to and usable by handicapped persons.

(c) Conformance with Uniform Federal Accessibility Standards. (1) Effective as of January 18, 1991, design, construction, or alteration of buildings in conformance with sections 3-8 of the Uniform Federal Accessibility Standards (USAF) (appendix A to 41 CFR subpart 101-19.6) shall be deemed to comply with the requirements of this section with respect to those buildings. Departures from particular technical and scoping requirements of UFAS by the use of other methods are permitted where substantially equivalent or
§ 1251.400 Procedures for compliance.

The procedural provisions applicable to Title VI of the Civil Rights Act of 1964 apply to this part. These procedures are found in §§ 1250.106, 1250.108 and 1250.110 of this chapter.

Subpart 1251.5—Enforcement of Nondiscrimination on the Basis of Handicap in Programs or Activities Conducted by the National Aeronautics and Space Administration

Source: 53 FR 25882 and 25885, July 8, 1988, unless otherwise noted.

§ 1251.501 Purpose.

The purpose of this regulation is to effectuate section 119 of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, which amended section 504 of the Rehabilitation Act of 1973 to prohibit discrimination on the basis of handicap in programs or activities conducted by Executive agencies or the United States Postal Service.

§ 1251.502 Application.

This regulation (§§ 1251.501–1251.570) applies to all programs or activities conducted by the agency, except for programs or activities conducted outside the United States that do not involve individuals with handicaps in the United States.

§ 1251.503 Definitions.

For purposes of this regulation, the term—

Assistant Attorney General means the Assistant Attorney General, Civil Rights Division, United States Department of Justice.

Auxiliary aids means services or devices that enable persons with impaired sensory, manual, or speaking skills to have an equal opportunity to participate in, and enjoy the benefits of, programs or activities conducted by the agency. For example, auxiliary aids useful for persons with impaired vision include readers, Brailled materials, audio recordings, and other similar services and devices. Auxiliary aids useful for persons with impaired hearing include telephone handset amplifiers, telephones compatible with hearing aids, telecommunication devices for deaf persons (TDD’s), interpreters, notetakers, written materials, and other similar services and devices.

Complete complaint means a written statement that contains the complainant’s name and address and describes the agency’s alleged discriminatory action in sufficient detail to inform the agency of the nature and date of the alleged violation of section 504. It shall be signed by the complainant or by someone authorized to do so on his or her behalf. Complaints filed on behalf of classes or third parties shall describe or identify (by name, if possible) the alleged victims of discrimination.

Facility means all or any portion of buildings, structures, equipment, roads, walks, parking lots, rolling stock or other conveyances, or other real or personal property.

Historic preservation programs means programs conducted by the agency that have preservation of historic properties as a primary purpose.

Historic properties means those properties that are listed or eligible for listing in the National Register of Historic Places or properties designated as historic under a statute of the appropriate State or local government body.

Individual with handicaps means any person who has a physical or mental impairment that substantially limits
National Aeronautics and Space Admin.

§ 1251.510

one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

As used in this definition, the phrase:

(1) **Physical or mental impairment** includes—

(i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: Neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or

(ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term **physical or mental impairment** includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addiction and alcoholism.

(2) **Major life activities** includes functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(3) **Has a record of such an impairment** means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) **Is regarded as having an impairment** means—

(i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the agency as constituting such a limitation;

(ii) Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment; or

(iii) Has none of the impairments defined in paragraph (1) of this definition but is treated by the agency as having such an impairment.

**Qualified individual with handicaps** means—

(1) With respect to preschool, elementary, or secondary education services provided by the agency, an individual with handicaps who is a member of a class of persons otherwise entitled by statute, regulation, or agency policy to receive education services from the agency;

(2) With respect to any other agency program or activity under which a person is required to perform services or to achieve a level of accomplishment, an individual with handicaps who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the agency can demonstrate would result in a fundamental alteration in its nature;

(3) With respect to any other program or activity, an individual with handicaps who meets the essential eligibility requirements for participation in, or receipt of benefits from, that program or activity; and

(4) **Qualified handicapped person** as that term is defined for purposes of employment in 29 CFR 1613.702(f), which is made applicable to this regulation by §1251.540.

**Substantial impairment** means a significant loss of the integrity of finished materials, design quality, or special character resulting from a permanent alteration.

§§ 1251.504–1251.509 [Reserved]

§ 1251.510 Self-evaluation.

(a) The agency shall, by September 6, 1989, evaluate its current policies and practices, and the effects thereof, that do not or may not meet the requirements of this regulation and, to the extent modification of any such policies
and practices is required, the agency shall proceed to make the necessary modifications.

(b) The agency shall provide an opportunity to interested persons, including individuals with handicaps or organizations representing individuals with handicaps, to participate in the self-evaluation process by submitting comments (both oral and written).

(c) The agency shall, for at least three years following completion of the self-evaluation, maintain on file and make available for public inspection:

1. A description of areas examined and any problems identified; and
2. A description of any modifications made.

§ 1251.511 Notice.

The agency shall make available to employees, applicants, participants, beneficiaries, and other interested persons such information regarding the provisions of this regulation and its applicability to the programs or activities conducted by the agency, and make such information available to them in such manner as the head of the agency finds necessary to apprise such persons of the protections against discrimination assured them by section 504 and this regulation.

§§ 1251.512–1251.529 [Reserved]

§ 1251.530 General prohibitions against discrimination.

(a) No qualified individual with handicaps shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

(b)(1) The agency, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of handicap—

(i) Deny a qualified individual with handicaps the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified individual with handicaps an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provide a qualified individual with handicaps with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement as that provided to others;

(iv) Provide different or separate aid, benefits, or services to individuals with handicaps or to any class of individuals with handicaps than is provided to others unless such action is necessary to provide qualified individuals with handicaps than is provided to others;

(v) Deny a qualified individual with handicaps the opportunity to participate as a member of planning or advisory boards;

(vi) Otherwise limit a qualified individual with handicap in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.

(2) The agency may not deny a qualified individual with handicaps the opportunity to participate in programs or activities that are not separate or different, despite the existence of the agency finds necessary to apprise such persons of the protections against discrimination assured them by section 504 and this regulation.

(3) The agency may not, directly or through contractual or other arrangements, utilize criteria or methods of administration the purpose or effect of which would—

(i) Subject qualified individuals with handicaps to discrimination on the basis of handicap; or

(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to individuals with handicaps.

(4) The agency may not, in determining the site or location of a facility, make selections the purpose or effect of which would—

(i) Exclude individuals with handicaps from, deny them the benefits of, or otherwise subject them to discrimination under any program or activity conducted by the agency; or

(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to individuals with handicaps.

(5) The agency, in the selection of procurement contractors, may not use
criteria that subject qualified individuals with handicaps to discrimination on the basis of handicap.

(6) The agency may not administer a licensing or certification program in a manner that subjects qualified individuals with handicaps to discrimination on the basis of handicap, nor may the agency establish requirements for the programs or activities of licensees or certified entities that subject qualified individuals with handicaps to discrimination on the basis of handicap. However, the programs or activities of entities that are licensed or certified by the agency are not, themselves, covered by this regulation.

(c) The exclusion of nonhandicapped persons from the benefits of a program limited by Federal statute or Executive order to individuals with handicaps or the exclusion of a specific class of individuals with handicaps from a program limited by Federal statute or Executive order to a different class of individuals with handicaps is not prohibited by this regulation.

(d) The agency shall administer programs and activities in the most integrated setting appropriate to the needs of qualified individuals with handicaps.

§§ 1251.531–1251.539 [Reserved]

§ 1251.540 Employment.

No qualified individual with handicaps shall, on the basis of handicap, be subject to discrimination in employment under any program or activity conducted by the agency. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally conducted programs or activities.

§ 1251.541–1251.548 [Reserved]

§ 1251.549 Program accessibility: Discrimination prohibited.

Except as otherwise provided in §1251.550, no qualified individual with handicaps shall, because the agency’s facilities are inaccessible to or unusable by individuals with handicaps, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

§ 1251.550 Program accessibility: Existing facilities.

(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by individuals with handicaps. This paragraph does not—

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by individuals with handicaps;

(2) In the case of historic preservation programs, require the agency to take any action that would result in a substantial impairment of significant historic features of an historic property; or

(3) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §1251.550(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that individuals with handicaps receive the benefits and services of the program or activity.

(b) Methods—(1) General. The agency may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate

241
§ 1251.551 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the agency shall be designed, constructed, or altered so as to be readily accessible to and usable by individuals with handicaps. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151–4157), as established in 41 CFR 101–19.600 to 101–19.607, apply to buildings covered by this section.

§§ 1251.552–1251.559 [Reserved]

§ 1251.560 Communications.

(a) The agency shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The agency shall furnish appropriate auxiliary aids where necessary to afford an individual with handicaps an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the agency.
§ 1251.570 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs and activities conducted by the agency.

(b) The agency shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) The Assistant Administrator for Equal Opportunity Programs shall be responsible for coordinating implementation of this section. Complaints may be sent to the Office of Equal Opportunity Programs, Room 6119, 400 Maryland Avenue, SW., Washington, DC 20546.

(d) The agency shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The agency may extend this time period for good cause.

(e) If the agency receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate Government entity.

(f) The agency shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), is not readily accessible to and usable by individuals with handicaps.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the agency shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;
§§ 1251.571–1251.999

(2) A description of a remedy for each violation found; and
(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by §1251.570(g). The agency may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the head of the agency.

(j) The head of the agency shall notify the complainant of the results of the appeal within 60 days of the receipt of the request. If the head of the agency determines that additional information is needed from the complainant, he or she shall have 60 days from the date of receipt of the additional information to make his or her determination on the appeal.

(k) The time limits cited in paragraphs (g) and (j) of this section may be extended with the permission of the Assistant Attorney General.

(l) The agency may delegate its authority for conducting complaint investigations to other Federal agencies, except that the authority for making the final determination may not be delegated to another agency.

[53 FR 25882 and 25885, July 8, 1989]

§§ 1251.571–1251.999 [Reserved]
To what programs do these regulations apply?

(a) These regulations apply to each NASA recipient and to each program or activity operated by the recipient which receives or benefits from Federal financial assistance provided by NASA.

(b) The Age Discrimination Act of 1975 does not apply to:

(1) An age distinction contained in that part of a Federal, State, or local statute or ordinance adopted by an elected body which:

(i) Provides any benefits or assistance to persons based on age; or

(ii) Establishes criteria for participation in age-related terms; or

(iii) Describes intended beneficiaries or target groups in age-related terms.

(2) Any employment practice of any employer, employment agency, labor organization, or any labor-management joint apprenticeship training program, except for any program or activity receiving Federal financial assistance for public service employment under the Comprehensive Employment and Training Act of 1974 (CETA) (29 U.S.C. 801 et seq.).

§ 1252.103 Definitions.

As used in these regulations, the term:

(a) Act means the Age Discrimination Act of 1975, as amended. (Title III of Pub. L. 94–135.)

(b) Action means any act, activity, policy, rule, standard, or method of administration; or the use of any policy, rule, standard, or method of administration.

(c) Age means how old a person is, or the number of elapsed years from the date of a person’s birth.

(d) Age distinction means any action using age or an age-related term.

(e) Age-related term means a word or words which necessarily imply a particular age or range of ages (for example, “children,” “adult,” “older persons,” but not “student”).

(f) Discrimination means unlawful treatment based on age.

(g) NASA means the National Aeronautics and Space Administration.

(h) Federal financial assistance means any grant, entitlement, loan, cooperative agreement contract (other than a procurement contract or a contract of insurance or guaranty), or any other arrangement by which the agency provides or otherwise makes available assistance in the form of:

(1) Funds;

(2) Services of Federal personnel; or interest in or use of property, including:

(i) Transfer or lease of property for less than fair market value or for reduced consideration; and

(ii) Proceeds from a subsequent transfer or lease of property if the Federal share of its fair market value is not returned to the Federal Government.

(i) FMCS means the Federal Mediation and Conciliation Service.

(j) Recipient means any State or its political subdivision, any instrumentality of a State or its political subdivision, any public or private agency, institution, organization, or other entity, or any person to which Federal financial assistance is extended, directly or through another recipient. Recipient includes any successor, assignee, or transferee, but excludes the ultimate beneficiary of the assistance.

(k) Administrator means the Administrator of the National Aeronautics and Space Administration or designee.

(l) Subrecipient means any of the entities in the definition of “recipient” to which a recipient extents or passes on Federal financial assistance. A subrecipient is generally regarded as a recipient of Federal financial assistance and has all the duties of a recipient in these regulations.

(m) United States means the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, Guam, Wake Island, the Canal Zone, the Trust Territory of the Pacific Islands, the Northern Marianas, and the territories and possessions of the United States.

Subpart 1252.2—Standards for Determining Age Discrimination

§ 1252.200 Rules against age discrimination.

The rules stated in this section are limited by the exceptions contained in § 1252.201.

(a) General rule: No person in the United States shall, on the basis of age
§ 1252.201 Exceptions to the rules against age discrimination.

(a) Definitions. For purposes of this section, the terms normal operation and statutory objective shall have the following meaning:

(1) Normal operation means the operation of a program or activity without significant changes that would impair its ability to meet its objectives. (2) Statutory objective means any purpose of a program or activity expressly stated in any Federal statute, state statute or local statute or ordinance adopted by any elected, general purpose legislative body.

(b) Normal operation or statutory objective of any program or activity. A recipient is permitted to take an action otherwise prohibited by §1252.200 if the action reasonably takes into account age as a factor necessary to the normal operation of the achievement of any statutory objective of a program or activity. An action reasonably takes into account age as a factor necessary to the normal operation or the achievement of any statutory objective of a program or activity, if:

(1) Age is used as a measure of approximation of one or more other characteristics; and

(2) The other characteristic(s) must be measured or approximated in order for the normal operation of the program or activity to continue, or to achieve any statutory objective of the program or activity; and

(3) The other characteristic(s) can be reasonably measured or approximated by the use of age; and

(4) The other characteristic(s) are impractical to measure directly on an individual basis.

(c) Reasonable factors other than age. A recipient is permitted to take an action otherwise prohibited by §1252.200 which is based on a factor other than age, even though that action may have a disproportionate effect on persons of different ages. An action may be based on a factor other than age only if the factor bears a direct and substantial relationship to the normal operation of the program or activity or to the achievement of a statutory objective.

§ 1252.202 Burden of proof.

The burden of proving that an age distinction or other action falls within the exceptions outlined in §1252.201 (b) and (c) is on the recipient of Federal financial assistance.

§ 1252.203 Special benefits for children and the elderly.

If a recipient operating a program provides special benefits to the elderly or to children, such use of age distinctions shall be presumed to be necessary to the normal operation of the program, notwithstanding the provision of §1252.10.

Subpart 1252.3—Responsibilities of Recipients

§ 1252.300 General responsibilities of recipients.

Each NASA recipient must ensure that its programs and activities comply with these regulations.

§ 1252.301 Notice to subrecipients.

Where a recipient passes on Federal financial assistance from NASA to subrecipients, the recipient shall provide the subrecipient written notice of their obligations under these regulations.
§ 1252.302 Assurance of compliance and recipient assessment of age distinctions.

(a) Each recipient of Federal financial assistance from NASA shall sign a written assurance as specified by NASA that it will comply with the Act and these regulations.

(b) Recipient assessment of age distinctions. (1) As part of a compliance review under §91.41, NASA may require a recipient employing the equivalent of 15 or more employees to complete a written self-evaluation, in a manner specified by the responsible Agency official, of any age distinction imposed in its program or activity receiving Federal financial assistance from NASA to assess the recipient’s compliance with the Act.

(2) Whenever an assessment indicates a violation of the Act and the NASA regulations, the recipient shall take corrective action.

§ 1252.303 Information requirements.

(a) Keep records in a form that contains information which NASA determines may be necessary to ascertain whether the recipient is complying with the Act and these regulations.

(b) Provide to NASA, upon request, information and reports which NASA determines are necessary to ascertain whether the recipient is complying with the Act and these regulations.

(c) Permit reasonable access by NASA to the books, records, accounts, and other recipient facilities and sources of information to the extent NASA determines is necessary to ascertain whether the recipient is complying with the Act and these regulations.

Subpart 1252.4—Investigation, Conciliation, and Enforcement Procedures

§ 1252.400 Compliance reviews.

(a) NASA may conduct compliance reviews and pre-award reviews of recipients or use other similar procedures that will permit it to investigate and correct violations of the Act and these regulations. NASA may conduct these reviews even in the absence of a complaint against a recipient. The review may be as comprehensive as necessary to determine whether a violation of these regulations has occurred.

(b) If a compliance review or pre-award review indicates a violation of the Act or these regulations, NASA will attempt to secure the recipient’s voluntary compliance with the Act. If voluntary compliance cannot be achieved, NASA will arrange for enforcement as described in §1252.405.

§ 1252.401 Complaints.

(a) Any person, individually or as a member of a class or on behalf of others, may file a complaint with NASA, alleging discrimination prohibited by the Act or these regulations based on an action occurring on or after July 1, 1979. A complaint must be filed within 180 days from the date the complainant first had knowledge of the alleged act of discrimination. However, for good cause shown, NASA may extend this time limit.

(b) NASA will attempt to facilitate the filing of complaints wherever possible, including taking the following measures:

(1) Accepting as a sufficient complaint, any written statement, which identifies the parties involved and the date the complainant first had knowledge of the alleged violation, describes generally the action or practice complained of, and assigned by the complainant.

(2) Freely permitting a complainant to add information to the complaint to meet the requirements of a sufficient complaint.

(3) Widely disseminating information regarding the obligations of recipients under the Act and these regulations.

(4) Notifying the complainant and the recipient of their rights and obligations under the complaint procedure, including the right to have a representative at all stages of the complaint procedure.

(5) Notifying the complainant and the recipient (or their representatives) of their right to contact NASA for information and assistance regarding the complaint resolution process.

(c) NASA will return to the complainant any complaint outside the jurisdiction of these regulations, and will
§ 1252.402 Mediation.

(a) Referral of complaints for mediation. NASA will refer to the Federal Mediation and Conciliation Service all complaints that:

(1) Fall within the jurisdiction of the Act and these regulations; and

(2) Contain all information necessary for further processing.

(b) Both the complainant and the recipient shall participate in the mediation process to the extent necessary to reach an agreement or make an informed judgment that an agreement is not possible. There must be at least one meeting with the mediator before NASA will accept a judgment that an agreement is not possible. However, the recipient and the complainant need not meet with the mediator at the same time.

(c) If the complainant and the recipient reach an agreement, the mediator shall prepare a written statement of the agreement and have the complainant and recipient sign it. The mediator shall send a copy of the agreement to NASA. NASA will take no further action on the complaint unless the complainant or the recipient fails to comply with the agreement. However, NASA retains the right to monitor the recipient’s compliance with the agreement.

(d) The mediator shall protect the confidentiality of all information obtained in the course of the mediation process. No mediator shall testify in any adjudicative proceeding, produce any document, or otherwise disclose any information obtained in the course of the mediation process without prior approval of the head of the mediation agency.

(e) NASA will use the mediation process for a maximum of 60 days after receiving a complaint.

(f) Mediation ends if:

(1) 60 days elapse from the time NASA receives the complaint; or

(2) Prior to the end of that 60-day period, an agreement is reached; or

(3) Prior to the end of that 60-day period, the mediator determines that an agreement cannot be reached.

(g) The mediator shall return unresolved complaints to NASA.

§ 1252.403 Investigation.

(a) Informal inquiry. (1) NASA will investigate complaints that are unresolved after mediation or are reopened because of a violation of a mediation agreement.

(2) As part of the initial inquiry, NASA will use informal fact finding methods, including joint or separate discussions with the complainant and recipient to establish the facts, and, if possible, settle the complaint on terms that are mutually agreeable to the parties. NASA may seek the assistance of any involved State program agency.

(3) NASA will put any agreement in writing and have it signed by the parties and an authorized official at NASA.

(4) The settlement shall not affect the operation of any other enforcement effort of NASA, including compliance reviews and investigation of other complaints which may involve the recipient.

(b) Formal investigation. If NASA cannot resolve the complaint through informal means it will develop formal findings through further investigations of the complaint. If the investigation indicates a violation of these regulations, NASA will attempt to obtain voluntary compliance. If NASA cannot obtain voluntary compliance, it will begin enforcement as described in §1252.405.

§ 1252.404 Prohibition against intimidation or retaliation.

A recipient may not engage in acts of intimidation or retaliation against any person who:

(a) Attempts to assert a right protected by the Act or these regulations; or

(b) Cooperates in any mediation, inquiry, hearing, or other part of NASA’s investigation, conciliation, and enforcement process.

§ 1252.405 Compliance procedure.

(a) NASA may enforce the Act and these regulations through:
(1) Termination of a recipient’s Federal financial assistance from NASA under the program or activity involved where the recipient has violated the Act or these regulations. The determination of the recipient’s violation may be made only after a recipient has had an opportunity for a hearing on the record before an administrative law judge. Therefore, cases which are settled in mediation, or prior to a hearing, will not involve termination of a recipient’s Federal financial assistance from NASA. 

(2) Any other means authorized by law including but not limited to:

(i) Referral to the Department of Justice for proceedings to enforce any rights of the United States or obligations of the recipient created by the Act or these regulations.

(ii) Use of any requirement of or referral to any Federal, State, or local government agency that will have the effect of correcting a violation of the Act or these regulations.

(b) NASA will limit any termination under §1252.405(a)(1) to the particular program activity NASA finds in violations of these regulations. NASA will not base any part of a termination on a finding with respect to any program or activity of the recipient which does not receive Federal financial assistance from NASA.

(c) NASA will take no action under paragraph (a) until:

(1) The Administrator has advised the recipient of its failure to comply with the Act and these regulations and has determined that voluntary compliance cannot be obtained.

(2) 30 days have elapsed after the Administrator has sent a written report of the circumstances and grounds of the action to the committees of Congress having legislative jurisdiction over the Federal program or activity involved. The Administrator will file a report whenever any action is taken under paragraph (a) of this section.

(d) NASA also may defer granting new Federal financial assistance from NASA to a recipient when a hearing under §1252.405(a)(1) is initiated.

(1) New Federal financial assistance from NASA includes all assistance for which NASA requires an application or approval, including renewal or continu-
(b) The Administrator will require any alternate recipient to demonstrate:
(1) The ability to comply with these regulations; and
(2) The ability to achieve the goals of the Federal statute authorizing the program or activity.

§ 1252.410 Exhaustion of administrative remedies.

(a) A complainant may file a civil action following the exhaustion of administrative remedies under the Act. Administrative remedies are exhausted if:
(1) 180 days have elapsed since the complainant filed the complaint and NASA has made no finding with regard to the complaint; or
(2) NASA issues any findings in favor of the recipient.

(b) If NASA fails to make a finding within 180 days or issues a finding in favor of the recipient, NASA will:
(1) Promptly advise the complainant of this fact; and
(2) Advise the complainant of his or her right to bring a civil action for injunctive relief; and
(3) Inform the complainant:
   (i) That the complainant may bring a civil action only in a United States district court for the district in which the recipient is located or transacts business;
   (ii) That a complainant prevailing in a civil action has the right to be awarded the costs of the action, including reasonable attorney’s fees, but that the complainant must demand these costs in the complaint.
   (iii) That before commencing the action the complainant shall give 30 days notice by registered mail to the Administrator, the Attorney General of the United States, and
   (iv) That the notice must state: the alleged violation of the Act; the relief requested; the court in which the complainant is bringing the action; and, whether or not attorney’s fees are demanded in the event the complainant prevails; and
   (v) That the complainant may not bring an action if the same alleged violation of the Act by the same recipient is the subject of a pending action in any court of the United States.

§ 1252.411 Age distinctions.

There are no Federal statutes or regulations containing age distinctions which affect financial assistance administered by the agency.

PART 1253—NONDISCRIMINATION ON THE BASIS OF SEX IN EDUCATION PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Subpart A—Introduction

Sec.
1253.100 Purpose and effective date.
1253.105 Definitions.
1253.110 Remedial and affirmative action and self-evaluation.
1253.115 Assurance required.
1253.120 Transfers of property.
1253.125 Effect of other requirements.
1253.130 Effect of employment opportunities.
1253.135 Designation of responsible employee and adoption of grievance procedures.
1253.140 Dissemination of policy.

Subpart B—Coverage

1253.200 Application.
1253.205 Educational institutions and other entities controlled by religious organizations.
1253.210 Military and merchant marine educational institutions.
1253.215 Membership practices of certain organizations.
1253.220 Admissions.
1253.225 Educational institutions eligible to submit transition plans.
1253.230 Transition plans.
1253.235 Statutory amendments.

Subpart C—Discrimination on the Basis of Sex in Admission and Recruitment Prohibited

1253.300 Admission.
1253.305 Preference in admission.
1253.310 Recruitment.

Subpart D—Discrimination on the Basis of Sex in Education Programs or Activities Prohibited

1253.400 Education programs or activities.
1253.405 Housing.
1253.410 Comparable facilities.
1253.415 Access to course offerings.
1253.420 Access to schools operated by LEAs.
1253.425 Counseling and use of appraisal and counseling materials.
§ 1253.105 Definitions.

As used in these Title IX regulations, the term:

Administratively separate unit means a school, department, or college of an educational institution (other than a local educational agency) admission to which is independent of admission to any other component of such institution.

Admission means selection for part-time, full-time, special, associate, transfer, exchange, or any other enrollment, membership, or matriculation in or at an education program or activity operated by a recipient.

Applicant means one who submits an application, request, or plan required to be approved by an official of the Federal agency that awards Federal financial assistance, or by a recipient, as a condition to becoming a recipient.

Designated agency official means Associate Administrator for Equal Opportunity Programs.

Educational institution means a local educational agency (LEA) as defined by 20 U.S.C. 8801(18), a preschool, a private elementary or secondary school, or an applicant or recipient that is an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, or an institution of vocational education, as defined in this section.

Federal financial assistance means any of the following, when authorized or extended under a law administered by the Federal agency that awards such assistance:

(1) A grant or loan of Federal financial assistance, including funds made available for:

(i) The acquisition, construction, renovation, restoration, or repair of a building or facility or any portion thereof; and

(ii) Scholarships, loans, grants, wages, or other funds extended to any entity for payment to or on behalf of students admitted to that entity, or extended directly to such students for payment to that entity.

(2) A grant of Federal real or personal property or any interest therein, including surplus property, and the proceeds of the sale or transfer of such property, if the Federal share of the fair market value of the property is not, upon such sale or transfer, properly accounted for to the Federal Government.

(3) Provision of the services of Federal personnel.
§ 1253.110 Remedial and affirmative action and self-evaluation.

(a) Remedial action. If the designated agency official finds that a recipient has discriminated against persons on the basis of sex in an educational program or activity, such recipient shall (4) Sale or lease of Federal property or any interest therein at nominal consideration, or at consideration reduced for the purpose of assisting the recipient or in recognition of public interest to be served thereby, or permission to use Federal property or any interest therein without consideration.

(5) Any other contract, agreement, or arrangement that has as one of its purposes the provision of assistance to any education program or activity, except a contract of insurance or guaranty.

Recipient means any State or political subdivision thereof, or any instrumentality of a State or political subdivision thereof, any public or private agency, institution, or organization, or other entity, or any person, to whom Federal financial assistance is extended directly or through another recipient and that operates an education program or activity that receives such assistance, including any subunit, successor, assignee, or transferee thereof.

Student means a person who has gained admission.

Title IX regulations means the provisions set forth at §§1253.100 through 1253.605.

Transition plan means a plan subject to the approval of the Secretary of Education pursuant to section 901(a)(2) of the Education Amendments of 1972, 20 U.S.C. 1681(a)(2), under which an educational institution operates in making the transition from being an educational institution that admits only students of one sex to being one that admits students of both sexes without discrimination.
§ 1253.115 Assurance required.

(a) General. Either at the application stage or the award stage, Federal agencies must ensure that applications for Federal financial assistance or awards of Federal financial assistance contain, be accompanied by, or be covered by a specifically identified assurance from the applicant or recipient, satisfactory to the designated agency official, that each education program or activity operated by the applicant or recipient and to which these Title IX regulations apply will be operated in compliance with these Title IX regulations. An assurance of compliance with these Title IX regulations shall not be satisfactory to the designated agency official if the applicant or recipient to whom such assurance applies fails to commit itself to take whatever remedial action is necessary in accordance with §1253.110(a) to eliminate existing discrimination on the basis of sex or to eliminate the effects of past discrimination whether occurring prior to or subsequent to the submission to the designated agency official of such assurance.

(b) Duration of obligation. (1) In the case of Federal financial assistance extended to provide real property or structures thereon, such assurance shall obligate the recipient or, in the case of a subsequent transfer, the transferee, for the period during which the real property or structures are used to provide an education program or activity.

(2) In the case of Federal financial assistance extended to provide personal property, such assurance shall obligate the recipient for the period during which it retains ownership or possession of the property.

(3) In all other cases such assurance shall obligate the recipient for the period during which Federal financial assistance is extended.

(c) Form. (1) The assurances required by paragraph (a) of this section, which may be included as part of a document that addresses other assurances or obligations, shall include that the applicant or recipient will comply with all applicable Federal statutes relating to nondiscrimination. These include but

take such remedial action as the designated agency official deems necessary to overcome the effects of such discrimination.

(b) Affirmative action. In the absence of a finding of discrimination on the basis of sex in an education program or activity, a recipient may take affirmative action consistent with law to overcome the effects of conditions that resulted in limited participation therein by persons of a particular sex. Nothing in these Title IX regulations shall be interpreted to alter any affirmative action obligations that a recipient may have under Executive Order 11246, 3 CFR, 1964–1965 Comp., p. 339; as amended by Executive Order 11375, 3 CFR, 1966–1970 Comp., p. 684; as amended by Executive Order 11478, 3 CFR, 1966–1970 Comp., p. 803; as amended by Executive Order 12086, 3 CFR, 1978 Comp., p. 230; as amended by Executive Order 12107, 3 CFR, 1978 Comp., p. 264.

(c) Self-evaluation. Each recipient education institution shall, within one year of September 29, 2000:

(1) Evaluate, in terms of the requirements of these Title IX regulations, its current policies and practices and the effects thereof concerning admission of students, treatment of students, and employment of both academic and non-academic personnel working in connection with the recipient’s education program or activity:

(2) Modify any of these policies and practices that do not or may not meet the requirements of these Title IX regulations; and

(3) Take appropriate remedial steps to eliminate the effects of any discrimination that resulted or may have resulted from adherence to these policies and practices.

(d) Availability of self-evaluation and related materials. Recipients shall maintain on file for at least three years following completion of the evaluation required under paragraph (c) of this section, and shall provide to the designated agency official upon request, a description of any modifications made pursuant to paragraph (c)(2) of this section and of any remedial steps taken pursuant to paragraph (c)(3) of this section.

§ 1253.115 Assurance required.

(a) General. Either at the application stage or the award stage, Federal agencies must ensure that applications for Federal financial assistance or awards of Federal financial assistance contain, be accompanied by, or be covered by a specifically identified assurance from the applicant or recipient, satisfactory to the designated agency official, that each education program or activity operated by the applicant or recipient and to which these Title IX regulations apply will be operated in compliance with these Title IX regulations. An assurance of compliance with these Title IX regulations shall not be satisfactory to the designated agency official if the applicant or recipient to whom such assurance applies fails to commit itself to take whatever remedial action is necessary in accordance with §1253.110(a) to eliminate existing discrimination on the basis of sex or to eliminate the effects of past discrimination whether occurring prior to or subsequent to the submission to the designated agency official of such assurance.

(b) Duration of obligation. (1) In the case of Federal financial assistance extended to provide real property or structures thereon, such assurance shall obligate the recipient or, in the case of a subsequent transfer, the transferee, for the period during which the real property or structures are used to provide an education program or activity.

(2) In the case of Federal financial assistance extended to provide personal property, such assurance shall obligate the recipient for the period during which it retains ownership or possession of the property.

(3) In all other cases such assurance shall obligate the recipient for the period during which Federal financial assistance is extended.

(c) Form. (1) The assurances required by paragraph (a) of this section, which may be included as part of a document that addresses other assurances or obligations, shall include that the applicant or recipient will comply with all applicable Federal statutes relating to nondiscrimination. These include but
§ 1253.120 Transfers of property.

If a recipient sells or otherwise transfers property financed in whole or in part with Federal financial assistance to a transferee that operates any education program or activity, and the Federal share of the fair market value of the property is not upon such sale or transfer properly accounted for to the Federal Government, both the transferor and the transferee shall be deemed to be recipients, subject to the provisions of §§ 1253.205 through 1253.235(a).

§ 1253.125 Effect of other requirements.

(b) Effect of State or local law or other requirements. The obligation to comply with these Title IX regulations is not obviated or alleviated because employment opportunities in any occupation or profession are or may be more limited for members of one sex than for members of the other sex.

§ 1253.130 Effect of employment opportunities.

The obligation to comply with these Title IX regulations is not obviated or alleviated because employment opportunities in any occupation or profession are or may be more limited for members of one sex than for members of the other sex.

§ 1253.135 Designation of responsible employee and adoption of grievance procedures.

(a) Designation of responsible employee. Each recipient shall designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under these Title IX regulations, including any investigation of any complaint communicated to such recipient alleging its noncompliance with these Title IX regulations or alleging any actions that would be prohibited by these Title IX regulations. The recipient shall notify all its students and employees of the name, office address, and telephone number of the employee or employees appointed pursuant to this paragraph.

(b) Complaint procedure of recipient. A recipient shall adopt and publish grievance procedures providing for prompt and equitable resolution of student and employee complaints alleging any actions that would be prohibited by these Title IX regulations.

§ 1253.140 Dissemination of policy.

(a) Notification of policy. (1) Each recipient shall implement specific and continuing steps to notify applicants for admission and employment, students and parents of elementary and secondary school students, employees, sources of referral of applicants for admission and employment, and all
§ 1253.210

Military and merchant marine educational institutions.

These Title IX regulations do not apply to an educational institution whose primary purpose is the training of individuals for a military service of the United States or for the merchant marine.
§ 1253.215 Membership practices of certain organizations.

(a) Social fraternities and sororities. These Title IX regulations do not apply to the membership practices of social fraternities and sororities that are exempt from taxation under section 501(a) of the Internal Revenue Code of 1954, 26 U.S.C. 501(a), the active membership of which consists primarily of students in attendance at institutions of higher education.

(b) YMCA, YWCA, Girl Scouts, Boy Scouts, and Camp Fire Girls. These Title IX regulations do not apply to the membership practices of the Young Men’s Christian Association (YMCA), the Young Women’s Christian Association (YWCA), the Girl Scouts, the Boy Scouts, and Camp Fire Girls.

(c) Voluntary youth service organizations. These Title IX regulations do not apply to the membership practices of a voluntary youth service organization that is exempt from taxation under section 501(a) of the Internal Revenue Code of 1954, 26 U.S.C. 501(a), and the membership of which has been traditionally limited to members of one sex and principally to persons of less than nineteen years of age.

§ 1253.220 Admissions.

(a) Admissions to educational institutions prior to June 24, 1973, are not covered by these Title IX regulations.

(b) Administratively separate units. For the purposes only of this section, §§1253.225 and 1253.230, and §§1253.300 through 1253.310, each administratively separate unit shall be deemed to be an educational institution.

(c) Application of §§1253.300 through 1253.310. Except as provided in paragraphs (d) and (e) of this section, §§1253.300 through 1253.310 apply to each recipient. A recipient to which §§1253.300 through 1253.310 apply shall not discriminate on the basis of sex in admission or recruitment in violation of §§1253.300 through 1253.310.

(d) Educational institutions. Except as provided in paragraph (e) of this section as to recipients that are educational institutions, §§1253.300 through 1253.310 apply only to institutions of vocational education, professional education, graduate higher education, and public institutions of undergraduate higher education.

(e) Public institutions of undergraduate higher education. §§1253.300 through 1253.310 do not apply to any public institution of undergraduate higher education that traditionally and continuously from its establishment has had a policy of admitting students of only one sex.

§ 1253.225 Educational institutions eligible to submit transition plans.

(a) Application. This section applies to each educational institution to which §§1253.300 through 1253.310 apply that:

(1) Admitted students of only one sex as regular students as of June 23, 1972; or

(2) Admitted students of only one sex as regular students as of June 23, 1965, but thereafter admitted, as regular students, students of the sex not admitted prior to June 23, 1965.

(b) Provision for transition plans. An educational institution to which this section applies shall not discriminate on the basis of sex in admission or recruitment in violation of §§1253.300 through 1253.310.

§ 1253.230 Transition plans.

(a) Submission of plans. An institution to which §1253.225 applies and that is composed of more than one administratively separate unit may submit either a single transition plan applicable to all such units, or a separate transition plan applicable to each such unit.

(b) Content of plans. In order to be approved by the Secretary of Education, a transition plan shall:

(1) State the name, address, and Federal Interagency Committee on Education Code of the educational institution submitting such plan, the administratively separate units to which the plan may be addressed. The person who submits the plan shall be the chief administrator or president of the institution, or another individual legally authorized to bind the institution to all actions set forth in the plan.

(2) State whether the educational institution or administratively separate
unit admits students of both sexes as regular students and, if so, when it began to do so.

(3) Identify and describe with respect to the educational institution or administratively separate unit any obstacles to admitting students without discrimination on the basis of sex.

(4) Describe in detail the steps necessary to eliminate as soon as practicable each obstacle so identified and indicate the schedule for taking these steps and the individual directly responsible for their implementation.

(5) Include estimates of the number of students, by sex, expected to apply for, be admitted to, and enter each class during the period covered by the plan.

(c) Nondiscrimination. No policy or practice of a recipient to which §1253.225 applies shall result in treatment of applicants to or students of such recipient in violation of §§1253.300 through 1253.310 unless such treatment is necessitated by an obstacle identified in paragraph (b)(3) of this section and a schedule for eliminating that obstacle has been provided as required by paragraph (b)(4) of this section.

(d) Effects of past exclusion. To overcome the effects of past exclusion of students on the basis of sex, each educational institution to which §1253.225 applies shall include in its transition plan, and shall implement, specific steps designed to encourage individuals of the previously excluded sex to apply for admission to such institution. Such steps shall include instituting recruitment programs that emphasize the institution’s commitment to enrolling students of the sex previously excluded.

§ 1253.235 Statutory amendments.

(a) This section, which applies to all provisions of these Title IX regulations, addresses statutory amendments to Title IX.

(b) These Title IX regulations shall not apply to or preclude:

(1) Any program or activity of the American Legion undertaken in connection with the organization or operation of any Boys State conference, Boys Nation conference, Girls State conference, or Girls Nation conference;

(2) Any program or activity of a secondary school or educational institution specifically for:

(i) The promotion of any Boys State conference, Boys Nation conference, Girls State conference, or Girls Nation conference; or

(ii) The selection of students to attend any such conference;

(3) Father-son or mother-daughter activities at an educational institution or in an education program or activity, but if such activities are provided for students of one sex, opportunities for reasonably comparable activities shall be provided to students of the other sex;

(4) Any scholarship or other financial assistance awarded by an institution of higher education to an individual because such individual has received such award in a single-sex pageant based upon a combination of factors related to the individual’s personal appearance, poise, and talent. The pageant, however, must comply with other nondiscrimination provisions of Federal law.

(c) Program or activity or program means:

(1) All of the operations of any entity described in paragraphs (c)(1)(i) through (iv) of this section, any part of which is extended Federal financial assistance:

(i)(A) A department, agency, special purpose district, or other instrumentality of a State or of a local government; or

(B) The entity of such State or local government that distributes such assistance and each such department or agency (and each other State or local government entity) to which the assistance is extended, in the case of assistance to a State or local government;

(ii)(A) A college, university, or other postsecondary institution, or a public system of higher education; or

(B) A local educational agency (as defined in section 8801 of title 20), system of vocational education, or other school system;

(iii)(A) An entire corporation, partnership, or other private organization, or an entire sole proprietorship—
§ 1253.300 Admission.

(a) General. No person shall, on the basis of sex, be denied admission, or be subjected to discrimination in admission, by any recipient to which §§1253.300 through §§1253.310 apply, except as provided in §§1253.225 and §§1253.230.

(b) Specific prohibitions. (1) In determining whether a person satisfies any policy or criterion for admission, or in making any offer of admission, a recipient to which §§1253.300 through 1253.310 apply shall not:

(i) Give preference to one person over another on the basis of sex, by ranking applicants separately on such basis, or otherwise;

(ii) Apply numerical limitations upon the number or proportion of persons of either sex who may be admitted; or

(iii) Otherwise treat one individual differently from another on the basis of sex.

(2) A recipient shall not administer or operate any test or other criterion for admission that has a disproportionately adverse effect on persons on the basis of sex unless the use of such test or criterion is shown to predict validly success in the education program or activity in question and alternative tests or criteria that do not have such a disproportionately adverse effect are shown to be unavailable.

(c) Prohibitions relating to marital or parental status. In determining whether a person satisfies any policy or criterion for admission, or in making any offer of admission, a recipient to which §§1253.300 through 1253.310 apply:
§ 1253.400 Education programs or activities.

(a) General. Except as provided elsewhere in these Title IX regulations, no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any academic, extracurricular, research, occupational training, or other education program or activity operated by a recipient that receives Federal financial assistance. Sections 1253.400 through 1253.455 do not apply to actions of a recipient in connection with admission of its students to an education program or activity of a recipient to which §§ 1253.300 through 1253.310 do not apply, or an entity, not a recipient, to which §§ 1253.300 through 1253.455 would not apply if the entity were a recipient.

(b) Specific prohibitions. Except as provided in §§ 1253.400 through 1253.455, in providing any aid, benefit, or service to a student, a recipient shall not, on the basis of sex:

(1) Treat one person differently from another in determining whether such person satisfies any requirement or condition for the provision of such aid, benefit, or service;

(2) Provide different aid, benefits, or services or provide aid, benefits, or services in a different manner;

(3) Deny any person any such aid, benefit, or service;

(4) Subject any person to separate or different rules of behavior, sanctions, or other treatment;

(5) Apply any rule concerning the domicile or residence of a student or applicant, including eligibility for in-state fees and tuition;
§ 1253.405

(6) Aid or perpetuate discrimination against any person by providing significant assistance to any agency, organization, or person that discriminates on the basis of sex in providing any aid, benefit, or service to students or employees;

(7) Otherwise limit any person in the enjoyment of any right, privilege, advantage, or opportunity.

(c) Assistance administered by a recipient educational institution to study at a foreign institution. A recipient educational institution may administer or assist in the administration of scholarships, fellowships, or other awards established by foreign or domestic wills, trusts, or similar legal instruments, or by acts of foreign governments and restricted to members of one sex, that are designed to provide opportunities to study abroad, and that are awarded to students who are already matriculating at or who are graduates of the recipient institution; Provided, that a recipient educational institution that administers or assists in the administration of such scholarships, fellowships, or other awards that are restricted to members of one sex provides, or otherwise makes available, reasonable opportunities for similar studies for members of the other sex. Such opportunities may be derived from either domestic or foreign sources.

(d) Aids, benefits or services not provided by recipient. (1) This paragraph (d) applies to any recipient that requires participation by any applicant, student, or employee in any education program or activity not operated wholly by such recipient, or that facilitates, permits, or considers such participation as part of or equivalent to an education program or activity operated by such recipient, including participation in educational consortia and cooperative employment and student-teaching assignments.

(2) Such recipient:

(i) Shall not facilitate, require, permit, or consider such participation if such action occurs.

§ 1253.405 Housing.

(a) Generally. A recipient shall not, on the basis of sex, apply different rules or regulations, impose different fees or requirements, or offer different services or benefits related to housing, except as provided in this section (including housing provided only to married students).

(b) Housing provided by recipient. (1) A recipient may provide separate housing on the basis of sex.

(2) Housing provided by a recipient to students of one sex, when compared to that provided to students of the other sex, shall be as a whole:

(i) Proportionate in quantity to the number of students of that sex applying for such housing; and

(ii) Comparable in quality and cost to the student.

(c) Other housing. (1) A recipient shall not, on the basis of sex, administer different policies or practices concerning occupancy by its students of housing other than that provided by such recipient.

(2)(i) A recipient which, through solicitation, listing, approval of housing, or otherwise, assists any agency, organization, or person in making housing available to any of its students, shall take such reasonable action as may be necessary to assure itself that such housing as is provided to students of one sex, when compared to that provided to students of the other sex, is as a whole:

(A) Proportionate in quantity; and

(B) Comparable in quality and cost to the student.

(ii) A recipient may render such assistance to any agency, organization, or person that provides all or part of such housing to students of only one sex.

§ 1253.410 Comparable facilities.

A recipient may provide separate toilet, locker room, and shower facilities on the basis of sex, but such facilities provided for students of one sex shall be comparable to such facilities provided for students of the other sex.
§ 1253.415 Access to course offerings.

(a) A recipient shall not provide any course or otherwise carry out any of its education program or activity separately on the basis of sex, or require or refuse participation therein by any of its students on such basis, including health, physical education, industrial, business, vocational, technical, home economics, music, and adult education courses.

(b)(1) With respect to classes and activities in physical education at the elementary school level, the recipient shall comply fully with this section as expeditiously as possible but in no event later than one year from September 29, 2000. With respect to physical education classes and activities at the secondary and post-secondary levels, the recipient shall comply fully with this section as expeditiously as possible but in no event later than three years from September 29, 2000.

(2) This section does not prohibit grouping of students in physical education classes and activities by ability as assessed by objective standards of individual performance developed and applied without regard to sex.

(3) This section does not prohibit separation of students by sex within physical education classes or activities during participation in wrestling, boxing, rugby, ice hockey, football, basketball, and other sports the purpose or major activity of which involves bodily contact.

(4) Where use of a single standard of measuring skill or progress in a physical education class has an adverse effect on members of one sex, the recipient shall use appropriate standards that do not have such effect.

(5) Portions of classes in elementary and secondary schools, or portions of education programs or activities, that deal exclusively with human sexuality may be conducted in separate sessions for boys and girls.

(6) Recipients may make requirements based on vocal range or quality that may result in a chorus or choruses of one or predominantly one sex.

§ 1253.420 Access to schools operated by LEAs.

A recipient that is a local educational agency shall not, on the basis of sex, exclude any person from admission to:

(a) Any institution of vocational education operated by such recipient; or

(b) Any other school or educational unit operated by such recipient, unless such recipient otherwise makes available to such person, pursuant to the same policies and criteria of admission, courses, services, and facilities comparable to each course, service, and facility offered in or through such schools.

§ 1253.425 Counseling and use of appraisal and counseling materials.

(a) Counseling. A recipient shall not discriminate against any person on the basis of sex in the counseling or guidance of students or applicants for admission.

(b) Use of appraisal and counseling materials. A recipient that uses testing or other materials for appraising or counseling students shall not use different materials for students on the basis of their sex or use materials that permit or require different treatment of students on such basis unless such different materials cover the same occupations and interest areas and the use of such different materials is shown to be essential to eliminate sex bias. Recipients shall develop and use internal procedures for ensuring that such materials do not discriminate on the basis of sex. Where the use of a counseling test or other instrument results in a substantially disproportionate number of members of one sex in any particular course of study or classification, the recipient shall take such action as is necessary to assure itself that such disproportion is not the result of discrimination in the instrument or its application.

(c) Disproportion in classes. Where a recipient finds that a particular class contains a substantially disproportionate number of individuals of one sex, the recipient shall take such action as is necessary to assure itself that such disproportion is not the result of discrimination on the basis of sex in counseling or appraisal materials or by counselors.
§ 1253.430 Financial assistance.

(a) General. Except as provided in paragraphs (b) and (c) of this section, in providing financial assistance to any of its students, a recipient shall not:

(1) On the basis of sex, provide different amounts or types of such assistance, limit eligibility for such assistance that is of any particular type or source, apply different criteria, or otherwise discriminate;

(2) Through solicitation, listing, approval, provision of facilities, or other services, assist any foundation, trust, agency, or organization, or person that provides assistance to any of its students in a manner that discriminates on the basis of sex; or

(3) Apply any rule or assist in application of any rule concerning eligibility for such assistance that treats persons of one sex differently from persons of the other sex with regard to marital or parental status.

(b) Financial aid established by certain legal instruments. (1) A recipient may administer or assist in the administration of scholarships, fellowships, or other forms of financial assistance established pursuant to domestic or foreign wills, trusts, bequests, or similar legal instruments or by acts of a foreign government that require that awards be made to members of a particular sex specified therein; Provided, that the overall effect of the award of such sex-restricted scholarships, fellowships, and other forms of financial assistance does not discriminate on the basis of sex.

(2) To ensure nondiscriminatory awards of assistance as required in paragraph (b)(1) of this section, recipients shall develop and use procedures under which:

(i) Students are selected for award of financial assistance on the basis of nondiscriminatory criteria and not on the basis of availability of funds restricted to members of a particular sex;

(ii) An appropriate sex-restricted scholarship, fellowship, or other form of financial assistance is allocated to each student selected under paragraph (b)(2)(i) of this section; and

(iii) No student is denied the award for which he or she was selected under paragraph (b)(2)(i) of this section because of the absence of a scholarship, fellowship, or other form of financial assistance designated for a member of that student’s sex.

(c) Athletic scholarships. (1) To the extent that a recipient awards athletic scholarships or grants-in-aid, it must provide reasonable opportunities for such awards for members of each sex in proportion to the number of students of each sex participating in interscholastic or intercollegiate athletics.

(2) A recipient may provide separate athletic scholarships or grants-in-aid for members of each sex as part of separate athletic teams for members of each sex to the extent consistent with this paragraph (c) and §1253.450.

§ 1253.435 Employment assistance to students.

(a) Assistance by recipient in making available outside employment. A recipient that assists any agency, organization, or person in making employment available to any of its students:

(1) Shall assure itself that such employment is made available without discrimination on the basis of sex; and

(2) Shall not render such services to any agency, organization, or person that discriminates on the basis of sex in its employment practices.

(b) Employment of students by recipients. A recipient that employs any of its students shall not do so in a manner that violates §§1253.500 through 1253.550.

§ 1253.440 Health and insurance benefits and services.

Subject to §1253.235(d), in providing a medical, hospital, accident, or life insurance benefit, service, policy, or plan to any of its students, a recipient shall not discriminate on the basis of sex, or provide such benefit, service, policy, or plan in a manner that would violate §§1253.500 through 1253.550 if it were provided to employees of the recipient. This section shall not prohibit a recipient from providing any benefit or service that may be used by a different proportion of students of one sex than of the other, including family planning services. However, any recipient that provides full coverage health service shall provide gynecological care.
§ 1253.445 Marital or parental status.
(a) Status generally. A recipient shall not apply any rule concerning a student’s actual or potential parental, family, or marital status that treats students differently on the basis of sex.
(b) Pregnancy and related conditions.
(1) A recipient shall not discriminate against any student, or exclude any student from its education program or activity, including any class or extracurricular activity, on the basis of such student’s pregnancy, childbirth, false pregnancy, termination of pregnancy, or recovery therefrom, unless the student requests voluntarily to participate in a separate portion of the program or activity of the recipient.
(2) A recipient may require such a student to obtain the certification of a physician that the student is physically and emotionally able to continue participation as long as such a certification is required of all students for other physical or emotional conditions requiring the attention of a physician.
(3) A recipient that operates a portion of its education program or activity separately for pregnant students, admittance to which is completely voluntary on the part of the student as provided in paragraph (b)(1) of this section, shall ensure that the separate portion is comparable to that offered to non-pregnant students.
(4) Subject to §1253.235(d), a recipient shall treat pregnancy, childbirth, false pregnancy, termination of pregnancy and recovery therefrom in the same manner and under the same policies as any other temporary disability with respect to any medical or hospital benefit, service, plan, or policy that such recipient administers, operates, offers, or participates in with respect to students admitted to the recipient’s educational program or activity.
(5) In the case of a recipient that does not maintain a leave policy for its students, or in the case of a student who does not otherwise qualify for leave under such policy, a recipient shall treat pregnancy, childbirth, false pregnancy, termination of pregnancy, and recovery therefrom as a justification for a leave of absence for as long a period of time as is deemed medically necessary by the student’s physician, at the conclusion of which the student shall be reinstated to the status that she held when the leave began.

§ 1253.450 Athletics.
(a) General. No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, be treated differently from another person, or otherwise be discriminated against in any interscholastic, intercollegiate, club, or intramural athletics offered by a recipient, and no recipient shall provide any such athletics separately on such basis.
(b) Separate teams. Notwithstanding the requirements of paragraph (a) of this section, a recipient may operate or sponsor separate teams for members of each sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport. However, where a recipient operates or sponsors a team in a particular sport for members of one sex but operates or sponsors no such team for members of the other sex, and athletic opportunities for members of that sex have previously been limited, members of the excluded sex must be allowed to try out for the team offered unless the sport involved is a contact sport. For the purposes of these Title IX regulations, contact sports include boxing, wrestling, rugby, ice hockey, football, basketball, and other sports the purpose or major activity of which involves bodily contact.
(c) Equal opportunity. (1) A recipient that operates or sponsors interscholastic, intercollegiate, club, or intramural athletics shall provide equal athletic opportunity for members of both sexes. In determining whether equal opportunities are available, the designated agency official will consider, among other factors:
(i) Whether the selection of sports and levels of competition effectively accommodate the interests and abilities of members of both sexes;
(ii) The provision of equipment and supplies;
(iii) Scheduling of games and practice time;
(iv) Travel and per diem allowance;
(v) Opportunity to receive coaching and academic tutoring;
(vi) Assignment and compensation of coaches and tutors;
§ 1253.455  Textbooks and curricular material.

Nothing in these Title IX regulations shall be interpreted as requiring or prohibiting or abridging in any way the use of particular textbooks or curricular materials.

Subpart E—Discrimination on the Basis of Sex in Employment in Education Programs or Activities Prohibited

§ 1253.500  Employment.

(a) General. (1) No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination in employment, or recruitment, consideration, or selection therefor, whether full-time or part-time, under any education program or activity operated by a recipient that receives Federal financial assistance.

(2) A recipient shall make all employment decisions in any education program or activity operated by such recipient in a nondiscriminatory manner and shall not limit, segregate, or classify applicants or employees in any way that could adversely affect any applicant’s or employee’s employment opportunities or status because of sex.

(3) A recipient shall not enter into any contractual or other relationship which directly or indirectly has the effect of subjecting employees or students to discrimination prohibited by §§1253.500 through 1253.550, including relationships with employment and referral agencies, with labor unions, and with organizations providing or administering fringe benefits to employees of the recipient.

(b) Application. The provisions of §§1253.500 through 1253.550 apply to:

(1) Recruitment, advertising, and the process of application for employment;

(2) Hiring, upgrading, promotion, consideration for and award of tenure, demotion, transfer, layoff, termination, application of nepotism policies, right of return from layoff, and rehiring;

(3) Rates of pay or any other form of compensation, and changes in compensation;

(4) Job assignments, classifications, and structure, including position descriptions, lines of progression, and seniority lists;

(5) The terms of any collective bargaining agreement;

(6) Granting and return from leaves of absence, leave for pregnancy, childbirth, false pregnancy, termination of pregnancy, leave for persons of either sex to care for children or dependents, or any other leave;

(7) Fringe benefits available by virtue of employment, whether or not administered by the recipient;

(8) Selection and financial support for training, including apprenticeship,
professional meetings, conferences, and other related activities, selection for tuition assistance, selection for sabbaticals and leaves of absence to pursue training;
   (9) Employer-sponsored activities, including social or recreational programs; and
   (10) Any other term, condition, or privilege of employment.
§ 1253.505 Employment criteria.
A recipient shall not administer or operate any test or other criterion for any employment opportunity that has a disproportionately adverse effect on persons on the basis of sex unless:
   (a) Use of such test or other criterion is shown to predict validly successful performance in the position in question; and
   (b) Alternative tests or criteria for such purpose, which do not have such disproportionately adverse effect, are shown to be unavailable.
§ 1253.510 Recruitment.
   (a) Nondiscriminatory recruitment and hiring. A recipient shall not discriminate on the basis of sex in the recruitment and hiring of employees. Where a recipient has been found to be presently discriminating on the basis of sex in the recruitment or hiring of employees, or has been found to have so discriminated in the past, the recipient shall recruit members of the sex so discriminated against so as to overcome the effects of such past or present discrimination.
   (b) Recruitment patterns. A recipient shall not recruit primarily or exclusively at entities that furnish as applicants only or predominantly members of one sex if such actions have the effect of discriminating on the basis of sex in violation of §§1253.500 through 1253.550.
§ 1253.515 Compensation.
A recipient shall not make or enforce any policy or practice that, on the basis of sex:
   (a) Makes distinctions in rates of pay or other compensation;
   (b) Results in the payment of wages to employees of one sex at a rate less than that paid to employees of the opposite sex for equal work on jobs the performance of which requires equal skill, effort, and responsibility, and that are performed under similar working conditions.
§ 1253.520 Job classification and structure.
A recipient shall not:
   (a) Classify a job as being for males or for females;
   (b) Maintain or establish separate lines of progression, seniority lists, career ladders, or tenure systems based on sex; or
   (c) Maintain or establish separate lines of progression, seniority systems, career ladders, or tenure systems for similar jobs, position descriptions, or job requirements that classify persons on the basis of sex, unless sex is a bona fide occupational qualification for the positions in question as set forth in §1253.550.
§ 1253.525 Fringe benefits.
   (a) “Fringe benefits” defined. For purposes of these Title IX regulations, fringe benefits means: Any medical, hospital, accident, life insurance, or retirement benefit, service, policy or plan, any profit-sharing or bonus plan, leave, and any other benefit or service of employment not subject to the provision of §1253.515.
   (b) Prohibitions. A recipient shall not:
      (1) Discriminate on the basis of sex with regard to making fringe benefits available to employees or make fringe benefits available to spouses, families, or dependents of employees differently upon the basis of the employee’s sex;
      (2) Administer, operate, offer, or participate in a fringe benefit plan that does not provide for equal periodic benefits for members of each sex and for equal contributions to the plan by such recipient for members of each sex; or
      (3) Administer, operate, offer, or participate in a pension or retirement plan that establishes different optional or compulsory retirement ages based on sex or that otherwise discriminates in benefits on the basis of sex.
§ 1253.530 Marital or parental status.
   (a) General. A recipient shall not apply any policy or take any employment action:
§1253.535 Effect of state or local law or other requirements.

(a) Prohibitory requirements. The obligation to comply with §§1253.500 through 1253.550 is not obviated or alleviated by the existence of any State or local law or other requirement that imposes prohibitions or limits upon employment of members of one sex that are not imposed upon members of the other sex.

(b) Benefits. A recipient that provides any compensation, service, or benefit to members of one sex pursuant to a State or local law or other requirement shall provide the same compensation, service, or benefit to members of the other sex.

§1253.540 Advertising.

A recipient shall not in any advertising related to employment indicate preference, limitation, specification, or discrimination based on sex unless sex is a bona fide occupational qualification for the particular job in question.

§1253.545 Pre-employment inquiries.

(a) Marital status. A recipient shall not make pre-employment inquiry as to the marital status of an applicant for employment, including whether such applicant is “Miss” or “Mrs.”

(b) Sex. A recipient may make pre-employment inquiry as to the sex of an applicant for employment, but only if such inquiry is made equally of such applicants of both sexes and if the results of such inquiry are not used in connection with discrimination prohibited by these Title IX regulations.

§1253.550 Sex as a bona fide occupational qualification.

A recipient may take action otherwise prohibited by §§1253.500 through 1253.550 provided it is shown that sex is a bona fide occupational qualification for that action, such that consideration of sex with regard to such action is essential to successful operation of the employment function concerned. A recipient shall not take action pursuant to this section that is based upon alleged comparative employment characteristics or stereotyped characterizations of one or the other sex, or upon preference based on sex of the recipient, employees, students, or other persons, but nothing contained in this section shall prevent a recipient from considering an employee’s sex in relation to employment in a locker room or toilet facility used only by members of one sex.
§ 1253.600 Notice of covered programs.
Within 60 days of September 29, 2000, each Federal agency that awards Federal financial assistance shall publish in the FEDERAL REGISTER a notice of the programs covered by these Title IX regulations. Each such Federal agency shall periodically republish the notice of covered programs to reflect changes in covered programs. Copies of this notice also shall be made available upon request to the Federal agency’s office that enforces Title IX.

§ 1253.605 Enforcement procedures.
The investigative, compliance, and enforcement procedural provisions of Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) ("Title VI") are hereby adopted and applied to these Title IX regulations. These procedures may be found at 14 CFR 1250.105 through 1250.110.

1259.603 Responsibilities.

SOURCE: 54 FR 19880, May 9, 1989, unless otherwise noted.

Subpart 1—Basic Policy

§ 1259.100 Scope of part.

(a) This part 1259 establishes the policies, responsibilities and procedures relative to the National Space Grant College and Fellowship Program established by Title II of the National Aeronautics and Space Administration Authorization Act of 1988 (Pub. L. 100–147, Oct. 30, 1987, 101 Stat. 869–875, 42 U.S.C. 2486). This statute authorizes the Administrator of the National Aeronautics and Space Administration (NASA), in order to carry out the purposes of the National Space Grant College and Fellowship Act (the Act), to accept conditional or unconditional gifts and donations, to accept and use funds from other Federal departments, agencies and instrumentalities, to make awards with respect to such needs or problems and to designate Space Grant colleges. It further directs the Administrator to establish a graduate fellowship program to provide educational assistance to qualified individuals in fields related to space, and to establish an independent committee known as the Space Grant Review Panel to review and advise the Administrator with respect to Space Grant programs.

(b) The regulations of this part do not apply to awards made by NASA under any other authority.
§ 1259.101 Definitions.

For the purposes of this part, the following definitions shall apply:

(a) **Field related to space** means any academic discipline or field of study (including the physical, natural and biological sciences, and engineering, space technology, education, economics, psychology, communications, planning, law, international affairs and public administration) which is concerned with or likely to improve the understanding, assessment, development and utilization of space.

(b) **Institution of higher education** means any college or university in any State which:

(1) Admits as regular students only individuals who have a certificate of graduation or equivalent from a secondary school;

(2) Is legally authorized within such State to provide a program of education beyond secondary education;

(3) Provides an educational program for which a bachelor's degree or other higher degree is awarded;

(4) Is a public or other nonprofit institution; and

(5) Is accredited by a nationally recognized accrediting agency or association.

(c) **National of the United States** means a citizen of the United States or a native resident of a possession of the United States. It does not refer to or include a citizen of another country who has applied for United States citizenship.

(d) **Panel** means the Space Grant Review Panel established pursuant to section 210 of the Act.

(e) **Person** means any individual, public or private corporation, partnership or other association or entity (including any Space Grant college, Space Grant consortium, institution of higher education, institute or laboratory), or any State, political subdivision thereof, or agency or officer of a State or political subdivision thereof.

(f) **Space means aeronautical and space activities** which has the meaning given to such term in section 103(1) of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2452).

(g) **Space Grant college** means any public or private institution of higher education which is designated as such by the Administrator or designee pursuant to section 208 of the Act.

(h) **Space Grant regional consortium** means any association or other alliance which is designated as such by the Administrator or designee pursuant to section 208 of the Act.

(i) **Space Grant program** means any program which:

(1) Is administered by any Space Grant college, Space Grant regional consortium, institution of higher education, institute, laboratory or State or local agency; and

(2) Includes two or more projects involving education and one or more of the following activities in the fields related to space:

(A) Research;

(B) Training; or

(C) Advisory services.

(j) **Space Grant program award** means any award contemplated under section 206(a) of the Act.

(k) **Special Space Grant program award** means any award extended under section 206(b) of the Act.

(l) **Specific national need grant** means any award extended under section 207 of the Act.

(m) **State** means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands and any other territory or possession of the United States.

(n) **State Space Grant cooperating institution** means any institution of higher education in a State which does not have a designated Space Grant college that is named by the Administrator or designee to provide selected Space Grant program functions within that State.

§ 1259.102 General policy.

(a) In accordance with subsections 103(a)(2) and (3) of the National Aeronautics and Space Act of 1958, as amended, (42 U.S.C. 2457(a)(3)), it is NASA’s policy, through various educational programs, to provide direct support for and encouragement to teachers, students and prospective students in fields related to space.

(b) In compliance with the National Space Grant College and Fellowship
National Aeronautics and Space Admin.

Act (42 U.S.C. 2486), it shall be NASA’s purpose to:

(1) Increase the understanding, assessment, development and utilization of space resources by promoting a strong educational base, responsive research and training activities and broad and prompt dissemination of knowledge and techniques;

(2) Utilize the abilities and talents of the universities of the Nation to support and contribute to the exploration and development of the resources and opportunities afforded by the space environment;

(3) Encourage and support the existence of interdisciplinary and multi-disciplinary programs of space research, to engage in activities of training (including teacher education), research and public service and to have cooperative programs with industry;

(4) Encourage and support the existence of consortia, composed of university and industry members, to advance the exploration and development of space resources in cases in which national objectives can be better fulfilled than through the programs of single universities;

(5) Encourage and support Federal funding for graduate fellowships in fields related to space;

(6) Support activities in colleges and universities generally for the purpose of creating and operating a network of institutional programs that will enhance achievements resulting from efforts under this Act; and

(7) Encourage cooperation and coordination among Federal agencies and Federal programs concerned with space issues.

(c) It shall be NASA’s policy to designate Space Grant colleges, State Space Grant cooperating institutions and Space Grant regional consortia and award fellowships, grants, contracts and other transactions competitively in a merit-based review process.

(d) It shall be NASA’s policy to designate and make awards without discriminating on the basis of sex, race, color, religion, national origin or handicap.

§1259.103 Special authorities—gift acceptance and other Federal funding.

(a) Acceptance of gifts:

(1) In order to carry out the provisions of the Act, the Administrator is authorized to accept conditional or unconditional gifts or donations of services, money or property, real, personal or mixed, tangible or intangible. This authority is delegated to the Director, Educational Affairs Division.

(2) The Administrator or designee may decline any gift or donation that the Administrator determines is not in accord with the purposes of the program. Also, conditional gifts or donations that are not in compliance with the Act or the implementing regulations shall be declined. NASA may use a reasonable amount from a gift or donation to cover any administrative costs associated with such gift or donation.

(b) Acceptance and use of funds from other Federal agencies:

(1) To carry out the provisions of the Act, the Administrator is authorized to accept and use funds from other Federal departments, agencies and instrumentalities to pay for awards under this program. This authority is delegated to the Director, Educational Affairs Division.

(2) The Administrator or designee may decline any such funds when the Administrator determines acceptance would not be in accord with the purposes of the program. NASA may use a reasonable amount from transferred Federal funds to cover any administrative costs associated with such transfer.

Subpart 2—Space Grant Program and Project Awards

§1259.200 Description.

Awards are authorized to establish any Space Grant and/or fellowship program or project if such program or project will further the purposes of the Act.
§ 1259.201 Types of Space Grant program and project awards—regular and special.

(a) A regular Space Grant program or project award shall:
   (1) Be funded by NASA up to 66 percent of the total cost of the Space Grant award and/or fellowship program involved; or
   (2) Be funded up to 100 percent of its cost if funded by another Federal entity.

(b) A special Space Grant program or project award may be funded up to 100 percent of the total cost of the special project if the Administrator or designee, the Director, Educational Affairs Division, finds that:
   (1) No reasonable means is available through which the applicant can meet the matching requirements for a regular Space Grant award under paragraph (a) of this section;
   (2) The probable benefit of such project outweighs the public interest in such matching requirement; and
   (3) The same or equivalent benefit cannot be obtained through the award of a regular Space Grant program or project award under paragraph (a) of this section or the award of a specific national need grant under section 207 of the Act.

§ 1259.202 Application procedures.

(a) The opportunity to apply shall be announced by the Director, Educational Affairs Division.

(b) The application procedures and evaluation guidelines for awards under this section will be included in the announcements of such programs.

(c) The applications will be reviewed by a peer review merit selection panel appointed by the Director, Educational Affairs Division.

§ 1259.203 Limitations.

Public Law 100–147, Section 206(d)(2) and (3), states that:

(a) Funds for awards made under this section may not be used to:
   (1) Purchase land;
   (2) Purchase, construct, preserve or repair any building; or
   (3) Purchase or construct any launch facility or launch vehicle.

(b) Funds may be used to lease any of the items listed in paragraph (a) of this section as long as prior written approval is obtained from the Administrator or designee.

Subpart 3—National Needs Grants

§ 1259.300 Description.

National needs awards may be awarded by the Administrator or designee to meet such needs or problems relating to aerospace identified by the Space Grant Review Panel, by NASA officials or by any person. Such awards may be up to 100 percent of the total cost of the program or project.

§ 1259.301 Identification of national needs.

National needs shall be identified by the Administrator who shall consider specific national needs and problems relating to space proposed by the Space Grant Review Panel, any NASA official or any person.

§ 1259.302 Application procedures.

(a) The Administrator or designee has the authority to make awards to meet identified national needs.

(b) The Director, Educational Affairs Division, shall establish a competitive, merit-based review process to examine unsolicited national needs proposals.

§ 1259.303 Limitations.

The same limitations shall apply as are stated in §1259.203.

Subpart 4—Space Grant College and Consortium Designation

§ 1259.400 Description.

(a) The Administrator may designate Space Grant colleges, Space Grant college consortia and Space Grant regional consortia in order to establish Federal/university partnerships to promote a strong educational base in the space and aeronautical sciences. These designated colleges and consortia will provide leadership for a network of American colleges and universities, industry and State and local governments in space-related fields. The Administrator hereby delegates this authority to the Director, Educational Affairs Division.
§ 1259.501 Responsibilities.

Each designated Space Grant college or consortium will receive:

(1) A Space Grant award that requires a 100 percent match; and
(2) Funds for fellowships.

§ 1259.401 Responsibilities.

Each designated Space Grant college or consortium shall:

(a) Designate a Space Grant Program Director;
(b) Establish a Space Grant Office;
(c) Administer a fellowship program;
(d) Develop and implement programs of public service, interdisciplinary space-related programs, advisory activities and cooperation with industry, research laboratories, State and local governments and other colleges and universities, particularly institutions in their State and/or region with significantly large enrollments of racial minorities who are under-represented in science and technology; and
(e) Provide nonfederal matching funds (exclusive of in-kind contributions) for the Space Grant program equal to that provided by NASA.

§ 1259.402 Basic criteria and application procedures.

(a) Any institution of higher education may be designated a Space Grant college if the Administrator or designee finds that it has a balanced program of research, education, training and advisory services in fields related to space, as further defined in the program announcement.

(b) Any association or other alliance of two or more persons may be designated a Space Grant regional consortium, if the Administrator or designee finds that such association or alliance:

(1) Is established for the purpose of sharing expertise, research, educational or training facilities and other capabilities in order to facilitate research, education, training and advisory services, in any field related to space;
(2) Will encourage and follow a regional approach to solving problems or meeting needs relating to space, in cooperation with other institutions of higher education, Space Grant program grantees and other persons in the region.

(c) The opportunity to apply for designation shall be announced by the Director, Educational Affairs Division. The application procedures and evaluation guidelines for designation shall be included in the designation announcement.

(d) Designation will be decided by a competitive merit review of the program proposal measured against the purposes of the Act and including, but not limited to, proposed linkages with other colleges and universities (particularly institutions with significant enrollments of under-represented minority groups), public service and collaboration with space-related industry.

§ 1259.403 Limitations.

The same limitations shall apply as are stated in §1259.203.

§ 1259.404 Suspension or termination of designation.

The Administrator or designee, the Director, Educational Affairs Division, may, for cause, and after an opportunity for a hearing before an Administrative Judge appointed by the Deputy Administrator, suspend or terminate the Space Grant designation of any institution or consortium.

Subpart 5—Space Grant Fellowships

§ 1259.500 Description.

The Space Grant fellowship program will provide educational and training assistance to qualified individuals at the graduate level in fields related to space. Awards will be made to institutions of higher education for fellowships. The student recipients shall be known as NASA Space Grant Fellows.

§ 1259.501 Responsibilities.

(a) All institutions which receive Space Grant fellowships will be expected to use the awards to increase
the pool of graduate students in fields related to space.

(b) The overall fellowship program shall be cognizant of institutional diversity and geographical distribution.

§ 1259.502 Application procedures.

(a) All applicants for designation as Space Grant colleges and consortia must apply for Space Grant fellowships.

(b) Applicants for Space Grant program or project grants (under § 1259.200) and for national needs grants (under § 1259.300) may also apply for Space Grant fellowships.

(c) There will be a merit review selection of Space Grant fellowship awards.

§ 1259.503 Limitations.

(a) Fellowships shall be awarded only to Nationals of the United States.

(b) Any students supported under this fellowship program shall not be funded for more than 4 years unless the Director, Educational Affairs Division, makes an exception.

Subpart 6—Space Grant Review Panel

§ 1259.600 Panel description.

An independent committee, the Space Grant Review Panel, which is not subject to the Federal Advisory Committee Act, shall be established to advise the Administrator with respect to Space Grant program and project awards, the Space Grant fellowship program and the designation and operation of Space Grant colleges and consortia. A majority of the voting members shall be individuals who, by reason of knowledge, experience, or training are especially qualified in one or more of the fields related to space. The other voting members shall be individuals who, by reason of knowledge, experience or training, are especially qualified in, or representative of, education, extension services, State government, industry, economics, planning or any other activity related to the purposes of the Space Grant program.

§ 1259.601 Establishment and composition.

(a) The Panel, to be located at NASA Headquarters in Washington, DC, will be composed of ten voting members who are not current NASA employees.

(b) It shall include four from Federal departments, agencies or entities that have an interest in space programs or science and education, and six nonfederal representatives.

(c) The nonfederal representatives shall include two persons who are directly involved with the Space Grant program at a Space Grant college or consortium, one person involved with the Space Grant program at a university that is not a designated Space Grant college, a university president or chancellor, one representative of a space-related industry and the last person to be from whatever field the Administrator determines to be of greatest concern.

(d) The Panel members shall be appointed by the Administrator or designee.

(e) The relevant organizations and associations in aerospace and science education fields will be asked to provide three names for each position on the panel. The Administrator shall consider them, but not be limited to them, in the selection process.

(f) The Administrator or designee shall select a Chair and a Vice Chair. The Vice Chair shall act as Chair in the absence or incapacity of the Chair.

(g) The Administrator or designee may select NASA officials to serve as ex officio, nonvoting members of the panel.

§ 1259.602 Conflict of interest.

Any member of the Panel who has a personal or financial interest in an issue before the Panel shall abstain from voting on such issue.

§ 1259.603 Responsibilities.

(a) The Panel shall advise the Administrator and the Director, Educational Affairs Division, with respect to:

(1) Applications or proposals for, and performance under, awards made pursuant to sections 206 and 207 of Title II of the Act;

(2) The Space Grant fellowship program;

(3) The designation and operation of Space Grant colleges and Space Grant regional consortia, and the operation
of Space Grant and fellowship programs;
(4) The formulation and application of the planning guidelines and priorities pursuant to section 205 (a) and (b)(1) of Title II of the Act; and
(5) Such other matters as the Administrator refers to the Panel for review and advice.
(b) The Panel shall meet biannually and at any other time at the call of the Chair or upon a request from a majority of the voting members or at the call of the Administrator.
(c) The Panel may exercise such powers as are reasonably necessary in order to carry out the duties enumerated in paragraph (a) of this section.
(d) The Director, Educational Affairs Division, shall appoint an Executive Secretary who shall perform administrative duties for the Panel.
(e) Federal members of the Panel will have their agencies reimbursed by NASA for any travel costs and per diem expenses required to attend Panel meetings.
(f) Nonfederal members of the Panel will be reimbursed by NASA for travel costs and per diem expenses required to attend Panel meetings.

PART 1260—GRANTS AND COOPERATIVE AGREEMENTS

Subpart A—General

Sec.
1260.1 Authority.
1260.2 Purpose.
1260.3 Definitions.
1260.4 Applicability.
1260.5 Amendment.
1260.6 Publication.
1260.7 Deviations.

PRE-AWARD REQUIREMENTS

1260.10 Proposals.
1260.11 Evaluation and selection.
1260.12 Choice of award instrument.
1260.13 Award procedures.
1260.14 Limitations.
1260.15 Format and numbering.
1260.16 Distribution.

PROVISIONS

1260.20 Provisions.
1260.21 Compliance with OMB Circular A–110.
1260.22 Technical publications and reports.
1260.23 Extensions.
1260.24 Termination and enforcement.
1260.25 Change in principal investigator or scope.
1260.26 Financial management.
1260.27 Equipment and other property.
1260.28 Patent rights.
1260.29 (Reserved).
1260.30 Rights in data.
1260.31 National security.
1260.32 Nondiscrimination.
1260.33 Subcontracts.
1260.34 Clean air and water.
1260.35 Investigative requirements.
1260.36 Travel and transportation.
1260.37 Safety.
1260.38 Drug-free workplace.

SPECIAL CONDITIONS

1260.50 Special conditions.
1260.51 Cooperative agreement special condition.
1260.52 Multiple year grant or cooperative agreement.
1260.53 Incremental funding.
1260.54 Cost sharing.
1260.55 Reports substitution.
1260.56 Withholding.
1260.57 New technology.
1260.58 Designation of new technology representative and patent representative.
1260.59 Choice of law.
1260.59A Invention reporting and rights.
1260.60 Public information.
1260.61 Allocation of risk/liability.
1260.62 Payment—to foreign organizations.
1260.63 Customs clearance and visas.
1260.64 Taxes.
1260.65 Exchange of technical data and goods.
1260.66 Listing of reportable equipment and other property.
1260.67 Equipment and other property under grants with commercial firms.
1260.68 Invoices and payments under grants with commercial firms.
1260.69 Electronic funds transfer payment methods.

POST-AWARD REQUIREMENTS

1260.70 Delegation of administration.
1260.71 Supplements and renewals.
1260.72 Adherence to original budget estimates.
1260.73 Transfers, novations, and change of name agreements.
1260.74 Property use, disposition, and vesting of title.
1260.75 Summary of report requirements.
1260.76 Termination and enforcement.
1260.77 Closeout procedures.

APPENDIX TO SUBPART A TO PART 1260—LISTING OF EXHIBITS

273
Subpart B—Uniform Administrative Requirements for Grants and Cooperative Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations

GENERAL

§ 1260.101 Purpose.
§ 1260.102 Definitions.
§ 1260.103 Effect on other issuances.
§ 1260.104 Deviations.

§ 1260.117 Certifications and representations.

POST-AWARD REQUIREMENTS

FINANCIAL AND PROGRAM MANAGEMENT

§ 1260.120 Purpose of financial and program management.
§ 1260.121 Standards for financial management systems.
§ 1260.122 Payment.
§ 1260.123 Cost sharing or matching.
§ 1260.124 Program income.
§ 1260.125 Revision of budget and program plans.
§ 1260.126 Non-Federal audits.
§ 1260.127 Allowable costs.
§ 1260.128 Period of availability of funds.

PROPERTY STANDARDS

§ 1260.130 Purpose of property standards.
§ 1260.131 Insurance coverage.
§ 1260.132 Real property.
§ 1260.133 Federally-owned and exempt property.
§ 1260.134 Equipment.
§ 1260.135 Supplies and other expendable property.
§ 1260.136 Intangible property.
§ 1260.137 Property trust relationship.

PROCUREMENT STANDARDS

§ 1260.140 Purpose of procurement standards.
§ 1260.141 Recipient responsibilities.
§ 1260.142 Codes of conduct.
§ 1260.143 Competition.
§ 1260.144 Procurement procedures.
§ 1260.145 Cost and price analysis.
§ 1260.146 Procurement records.
§ 1260.147 Contract administration.
§ 1260.148 Contract provisions.

APPENDIX A TO SUBPART B OF PART 1260—CONTRACT PROVISIONS

SOURCE: 65 FR 62900, Oct. 19, 2000, unless otherwise noted.

Subpart A—General

§ 1260.1 Authority.

(b) The Office of Management and Budget (OMB) approved information collection under the Paperwork Reduction Act and assigned OMB control numbers 2700–0047, Property Management and Control; 2700–0048, Patents; 2700–0049, Financial Management and Control; and 2700–0097, Central Contractor Registration.

§ 1260.2 Purpose.

(a) This subpart A of the NASA Grant and Cooperative Agreement Handbook (also subpart A of 14 CFR part 1260), provides supplemental NASA policies that clarify and amplify government-wide regulations for awarding and administering grants and cooperative agreements with educational and non-
profit organizations. The government-wide regulations that this subpart supplements are set forth in OMB Circular A–110 “Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations.” (NASA has adopted OMB Circular A–110 as subpart B of this part 1260.)

(b) As required by the Office of Management and Budget (OMB), NASA has also adopted the standards set forth in OMB Circular No. A–133, Audits of States, Local Governments, and Non-Profit Organizations.

§ 1260.3 Definitions.

(a) The following definitions are a supplement to the subpart B definitions set forth at §1260.102. Additional definitions applicable to specific categories of grants and cooperative agreements are set forth at 14 CFR 1273.3 and 14 CFR 1274.102.

(b) Throughout subpart A to this part 1260, the term “grant” includes “cooperative agreement” unless otherwise indicated.

Administrative grant officer means a Federal employee delegated responsibility for grant administration; e.g., a NASA grant officer who has retained grant administration responsibilities, or an Office of Naval Research (ONR) grant officer delegated grant administration by a NASA grant officer.

Amendment means any document used to effect modifications to grants and cooperative agreements. Amendments may be issued unilaterally at the discretion of the grant officer.

Commercial firm means any corporation, trust or other organization which is organized primarily for profit.

Effective date means the date work can begin, which could be earlier or later than the date of signature on a basic award or modification. Expenditures made prior to award of a grant are incurred at the recipient’s risk.

Expiration date means the date of completion specified in the grant, after which expenditures may not be charged against the grant except to satisfy obligations to pay allowable costs committed on or before that date.

Historically Black Colleges and Universities means institutions determined by the Secretary of Education to meet the requirements of 34 CFR 608.2 and listed therein.

Minority educational institution means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 637.4.

Progress report means a concise statement of work accomplished during the report period (see §§1260.22 and 1260.75(b)(3)).

Recipient acquired equipment means equipment purchased or fabricated with grant funds by a recipient for the performance of work under its grant.

Small business concern means a concern, including its affiliates, which is independently owned and operated, not dominant in the field of operation in which it is bidding, and qualifies as a small business under the criteria and size standards in 13 CFR part 121.

Small disadvantaged business concern means a small business concern owned and controlled by individuals who are both socially and economically disadvantaged and meets the criteria set forth at 13 CFR part 24.

Summary of research means a document summarizing the results of the entire project, which includes bibliographies, abstracts, and lists of other media in which the research was discussed.

Women-owned small business concern means a small business concern that is at least 51 percent owned by women who are U.S. citizens and who also control and operate the business (15 U.S.C. 637(d)).

§ 1260.4 Applicability.

(a) Subparts A and B of this part 1260 establish policies and procedures for grants and cooperative agreements awarded by NASA to institutions of higher education, hospitals, and other non-profit organizations.

(b) Subject to the special considerations in this paragraph, subparts A and B of this part 1260 are also applicable to NASA grants and cooperative agreements awarded to commercial
§ 1260.5

firms which do not involve cost sharing. (This does not prohibit voluntary cost sharing.) When the commercial firm is expected to receive substantial compensating benefits for performance of the work, resource contributions are required for the award of a grant or cooperative agreement. For policies on cooperative agreements requiring resource contributions by the Recipient, see 14 CFR part 1274.

(1) The allowability of costs incurred by commercial firms is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR part 31.

(2) NASA does not allow for payment of profit or fee to commercial firms under grant awards.

(3) When applying the policies set forth under § 1260.74, the grant officer shall vest title to any equipment purchased under the grant with the Government. The special condition at § 1260.67, Equipment and Other Property Under Grants With Commercial Firms, shall be incorporated into all grants with commercial firms in place of the provision at § 1260.27, Equipment and Other Property.

(4) Due to differing NASA patent policies applicable to large businesses, special conditions at § 1260.57, New Technology, and § 1260.58, Designation of New Technology Representative and Patent Representative, shall be incorporated into all grants with commercial firms other than those with small businesses, in place of the provision at § 1260.28, Patent Rights. Grants with small businesses should retain the § 1260.28 provision.

(5) Payments under grants with commercial firms will be made based on incurred costs. NASA Form 272 is not required. Commercial firms will be required to submit invoices on a no more than quarterly basis. Payments to be made on a more than quarterly basis require the written approval of the grant officer. The center finance office should also be informed when payments are to be made on other than a quarterly basis. The special condition at § 1260.68, Invoices and Payments Under Grants With Commercial Firms, shall be incorporated into all grants with commercial firms in place of the provision at § 1260.26, Financial Management.

(6) Payments will be made to commercial firms via electronic funds transfer. The special condition at § 1260.69, Electronic Funds Transfer Payment Method, shall be incorporated into all grants with commercial firms.

(7) Delegation of grant administration functions consistent with the policies set forth at § 1260.70 (i.e., property administration and closeout are to be delegated) will be made to the cognizant field office of the Defense Contract Management Agency instead of to the Office of Naval Research. Delegations will be made using NASA Form 1674, Letter of Delegation, for the Administration of Grants and Cooperative Agreements (Exhibit F to subpart A of this part 1260, available at the address given in Exhibit F). Cognizant offices for performing administration under individual grants are set forth in the “DoD Directory of Contract Administration Services Components,” which is available on the internet at: http://www.dcmc.hq.dla.mil/casbook/casbook.htm

§ 1260.5 Amendment.

This part 1260 will be amended by publication of changes in the FEDERAL REGISTER. Changes will be issued as Grant Notices and incorporated into the official version of the handbook located at the internet web site.

§ 1260.6 Publication.

The official site for accessing the NASA Grant and Cooperative Agreement Handbook, including current Grant Notices, is on the internet at: http://ec.msfc.nasa.gov/hq/grcover.htm

§ 1260.7 Deviations.

(a) A deviation is required for any of the following:

(1) When a prescribed provision (but not a special condition) set forth verbatim in this part 1260 is modified or omitted.

(2) When a provision is set forth in this part 1260, but not for use verbatim, and the Center substitutes a provision which is inconsistent with the intent, principle, and substance of the provision.
(3) When a form prescribed by this part 1260 is altered or another form is used in its place.
(4) When limitations, imposed by this handbook upon the use of a grant provision, form, procedure, or any other grant action, are changed.
(5) When a form is created for recipient use that constitutes a "Collection of Information" within the meaning of the Paperwork Reduction Act (44 U.S.C. 35) and its implementation in 5 CFR part 1320.

(b) Requests for authority to deviate from this part 1260 shall be submitted to the Office of Procurement, NASA Headquarters, Procurement Operations Division (HS). Requests, signed by the procurement officer, shall contain:
(1) A full description of the deviation, the circumstances in which it will be used, and identification of the requirement from which a deviation is sought;
(2) The rationale for the request, pertinent background information, and the intended effect of the deviation;
(3) The name of the recipient, identification of the grant affected, and the dollar value;
(4) A statement as to whether the deviation has been requested previously, and, if so, details of that request; and
(5) A copy of legal counsel's concurrence or comments.

(c) Where it is necessary to obtain a deviation on OMB Circular A–110 (subpart B of this part 1260), Code HS will process all necessary documents in accordance with §1260.104.

PRE-AWARD REQUIREMENTS

§ 1260.10 Proposals.

(a) Consistent with 31 U.S.C. 6301(3), NASA's policy is to use competitive procedures to award grants whenever possible. A grant can result from:
(1) A proposal submitted in response to a Broad Agency Announcement (BAA) such as a NASA Research Announcement (NRA) or an Announcement of Opportunity (AO), a Cooperative Agreement Notice (CAN), an Agencywide program announcement such as the Graduate Student Research Program, or other forms of announcements approved by the Associate Administrator for Procurement (HS). NRA's are described in the NASA FAR Supplement (NFS) 48 CFR 1835.016. AO's are described in 48 CFR part 1872.
(2) An Unsolicited Proposal for new and innovative ideas. Guidance on the submission of unsolicited proposals is contained in the Federal Acquisition Regulation (FAR) 48 CFR subpart 15.6 and (NFS) 48 CFR subpart 1815.6. The synopsis requirement in FAR Part 5, however, does not apply to the grant process. Contact with NASA technical personnel prior to proposal submission is encouraged to determine if preparation of a proposal is warranted. These discussions should be limited to understanding NASA research needs and do not jeopardize the unsolicited status of any subsequently submitted proposal.
(3) When a form prescribed by this part 1260 is altered or another form is used in its place.
(4) When limitations, imposed by this handbook upon the use of a grant provision, form, procedure, or any other grant action, are changed.
(5) When a form is created for recipient use that constitutes a "Collection of Information" within the meaning of the Paperwork Reduction Act (44 U.S.C. 35) and its implementation in 5 CFR part 1320.

(b) The proposal shall contain a detailed narrative description of the work to be undertaken, including the objectives of the project and the applicant's plan for carrying it out.
(1) All proposals shall include budget data as prescribed in the Budget Summary (Exhibit A to subpart A of this part 1260, available at the address given in Exhibit A). Narrative detail must support the proposed budget as required in Exhibit A.
(2) A full description of the deviation, the circumstances in which it will be used, and identification of the requirement from which a deviation is sought;
(3) The rationale for the request, pertinent background information, and the intended effect of the deviation;
(4) The name of the recipient, identification of the grant affected, and the dollar value;
(5) A statement as to whether the deviation has been requested previously, and, if so, details of that request; and
(6) A copy of legal counsel's concurrence or comments.

(c) Where it is necessary to obtain a deviation on OMB Circular A–110 (subpart B of this part 1260), Code HS will process all necessary documents in accordance with §1260.104.

PRE-AWARD REQUIREMENTS

§ 1260.10 Proposals.

(a) Consistent with 31 U.S.C. 6301(3), NASA's policy is to use competitive procedures to award grants whenever possible. A grant can result from:
(1) A proposal submitted in response to a Broad Agency Announcement (BAA) such as a NASA Research Announcement (NRA) or an Announcement of Opportunity (AO), a Cooperative Agreement Notice (CAN), an Agencywide program announcement such as the Graduate Student Research Program, or other forms of announcements approved by the Associate Administrator for Procurement (HS). NRA's are described in the NASA FAR Supplement (NFS) 48 CFR 1835.016. AO's are described in 48 CFR part 1872.
(2) An Unsolicited Proposal for new and innovative ideas. Guidance on the submission of unsolicited proposals is contained in the Federal Acquisition Regulation (FAR) 48 CFR subpart 15.6 and (NFS) 48 CFR subpart 1815.6. The synopsis requirement in FAR Part 5, however, does not apply to the grant process. Contact with NASA technical personnel prior to proposal submission is encouraged to determine if preparation of a proposal is warranted. These discussions should be limited to understanding NASA research needs and do not jeopardize the unsolicited status of any subsequently submitted proposal.

(b) The proposal shall contain a detailed narrative description of the work to be undertaken, including the objectives of the project and the applicant's plan for carrying it out.
(1) All proposals shall include budget data as prescribed in the Budget Summary (Exhibit A to subpart A of this part 1260, available at the address given in Exhibit A). Narrative detail must support the proposed budget as required in Exhibit A.
(2) A full description of the deviation, the circumstances in which it will be used, and identification of the requirement from which a deviation is sought;
(3) The rationale for the request, pertinent background information, and the intended effect of the deviation;
(4) The name of the recipient, identification of the grant affected, and the dollar value;
(5) A statement as to whether the deviation has been requested previously, and, if so, details of that request; and
(6) A copy of legal counsel's concurrence or comments.

(c) Where it is necessary to obtain a deviation on OMB Circular A–110 (subpart B of this part 1260), Code HS will process all necessary documents in accordance with §1260.104.

PRE-AWARD REQUIREMENTS

§ 1260.10 Proposals.

(a) Consistent with 31 U.S.C. 6301(3), NASA's policy is to use competitive procedures to award grants whenever possible. A grant can result from:
(1) A proposal submitted in response to a Broad Agency Announcement (BAA) such as a NASA Research Announcement (NRA) or an Announcement of Opportunity (AO), a Cooperative Agreement Notice (CAN), an Agencywide program announcement such as the Graduate Student Research Program, or other forms of announcements approved by the Associate Administrator for Procurement (HS). NRA's are described in the NASA FAR Supplement (NFS) 48 CFR 1835.016. AO's are described in 48 CFR part 1872.
(2) An Unsolicited Proposal for new and innovative ideas. Guidance on the submission of unsolicited proposals is contained in the Federal Acquisition Regulation (FAR) 48 CFR subpart 15.6 and (NFS) 48 CFR subpart 1815.6. The synopsis requirement in FAR Part 5, however, does not apply to the grant process. Contact with NASA technical personnel prior to proposal submission is encouraged to determine if preparation of a proposal is warranted. These discussions should be limited to understanding NASA research needs and do not jeopardize the unsolicited status of any subsequently submitted proposal.

(b) The proposal shall contain a detailed narrative description of the work to be undertaken, including the objectives of the project and the applicant's plan for carrying it out.
(1) All proposals shall include budget data as prescribed in the Budget Summary (Exhibit A to subpart A of this part 1260, available at the address given in Exhibit A). Narrative detail must support the proposed budget as required in Exhibit A.
(2) A full description of the deviation, the circumstances in which it will be used, and identification of the requirement from which a deviation is sought;
(3) The rationale for the request, pertinent background information, and the intended effect of the deviation;
(4) The name of the recipient, identification of the grant affected, and the dollar value;
(5) A statement as to whether the deviation has been requested previously, and, if so, details of that request; and
(6) A copy of legal counsel's concurrence or comments.

(c) Where it is necessary to obtain a deviation on OMB Circular A–110 (subpart B of this part 1260), Code HS will process all necessary documents in accordance with §1260.104.
§ 1260.11 NASA policy to foster continuity of research, multiple year grant proposals are encouraged, where appropriate, for a period generally up to three years. Proposals for multiple year grants shall describe the entire research project and include a complete budget for year one and separate estimates for each subsequent year.

(2) A Taxpayer Identification Number (TIN) must be included with the address listed on the proposal. If an award is made, advance payments cannot be made without a TIN (31 U.S.C. 7702(c)(1)).

(3) Prior to implementation of the Integrated Financial Management (IFM) System at each center, all grant and cooperative agreement recipients are required to register in the Department of Defense (DoD) Central Contractor Registration (CCR) database. Registration is required in order to obtain a Commercial and Government Entity (CAGE) code, which will be used as a grant and cooperative agreement identification number for the new system. The grant officer shall verify that the prospective awardee is registered in the CCR database using the DUNS number or, if applicable, the DUNS+4 number, via the Internet at http://www.ccr2000.com or by calling toll free: 800-841-4431, commercial: 696-961-5757.

(c)(1) Grant officers are required to ensure that all necessary certifications, disclosures, and assurances have been obtained prior to awarding a grant or cooperative agreement. In order to reduce paper work required by the submitting institutions, and as directed by NASA; signature by the Authorizing Institutional Representative on the proposal Cover Page may confirm that all necessary certifications and assurances are met.

(2) Each new proposal shall include a certification for debarment and suspension under the requirements of 14 CFR 1265.510 and 1260.117.

(3) Each new proposal for an award exceeding $100,000 shall include a certification, and a disclosure form (SF LLL) if required, on Lobbying under the requirements of 14 CFR 1271.110 and 1260.117.

(4) Each application for funding must contain assurances on NASA Form 1206, or specifically identify and make reference to an assurance that the recipient’s programs and activities comply with civil rights and non-discrimination statutes specified in 14 CFR parts 1250 through 1253. The assurances provided on NASA Form 1206 shall suffice for all proposals of an applicant, if they remain current and accurate. An applicant may incorporate these assurances by reference in subsequent applications to NASA.

§ 1260.11 Evaluation and selection.

(a) Technical evaluation of proposals will be conducted by the cognizant NASA technical office and may be based on peer reviews.

(b) Under NRA’s, AO’s, other BAA’s, and CAN’s, the selecting official will furnish documentation requested by the grant officer, (including a copy of the NRA, selection statement, and peer review evaluation if requested), to confirm that the award is being made as a result of a selection under a NRA, AO, other BAA, or CAN. The technical office will forward to the grant office a completed award package, including a funded procurement request, technical evaluation of the proposed budget, and other support documentation, and any data deliverables that may be required when potentially hazardous operations, such as those related to flight and/or mission critical ground systems have been proposed (e.g. Payload Safety Data Review Package) at least 29 days prior to the requested award date, or before the expiration of the funded period in the case of the renewal of an existing effort.

(c) If a proposal is not selected, the proposer will be notified by the selecting official in accordance with the procedures set forth in the NRA, AO, CAN, or BAA.

(d) Unsolicited proposals will be evaluated in accordance with the following procedure:

(1) Evaluations of unsolicited proposals to be awarded as grants or cooperative agreements will be conducted using the same criteria used for reviewing unsolicited proposals to be awarded as contracts, as set forth at FAR subpart 15.6 and (NFS) 48 CFR subpart 1815.6. Normally, unsolicited proposals
are accepted to perform discrete projects with defined anticipated outcomes and completion dates. An unsolicited proposal that results in a grant or cooperative agreement with no defined end date, and which requires subsequent submission of follow-on unsolicited proposals to ensure continuation of the effort, should be closely reviewed to ensure that it meets the FAR definition for a valid unsolicited proposal.

(2) An unsolicited proposal recommended for acceptance shall be supported by a Justification for Acceptance of an Unsolicited Proposal (JAUP) prepared by the cognizant technical office. The JAUP shall be submitted for the approval of the grant officer after review and concurrence at a level above the technical officer. However, this review and concurrence is not required for technical officers at a division chief or higher level. The grant officer’s signature on the award document will indicate approval of the JAUP.

(3) NASA will notify in writing organizations that submit unsolicited proposals that will not be funded. Method of notification is at the discretion of the grant officer. Proposals will be returned only when requested. Agency procedures for handling unsolicited proposals are specified at NFS 48 CFR 1815.606.

(e) For awards made non-competitively, written justifications for equipment or travel will be submitted by the technical office for grant officer approval when more than half of the proposed budget is for equipment or travel and associated indirect cost. The justification shall describe the extent to which the equipment or travel is necessary. The grant officer’s signature on the award will indicate approval of the justification.

(f) The evaluation of the proposal budget will conform to the following procedure:

(1) The technical officer will review the proposer’s estimated cost for conformance to program requirements and fund availability. The results of this review shall be recorded in Column B of the proposed Budget Summary Form (Exhibit A to subpart A of this part 1260, available at the address given in Exhibit A). New budgets are not required when the program office recommended funding is within twenty percent (20 percent) of the proposed amount, provided that, if requested by the proposer, a revised scope of work based on the recommended funding is submitted by the proposer for acceptance by the technical officer. However, when funding decreases in equipment and/or subcontracts are involved, the cognizant program office is required to identify the cost element(s) affected by the change in funding level.

(2) The grant officer will review the budget, and any changes made by the technical officer, to identify any item which may be unallowable under the cost principles, or which appears unreasonable or unnecessary. The grant officer will complete Column C of the Budget Summary after discussing significant changes with the recipient and/or technical office. Requests for details from the recipient should be limited.

(3) The grant officer will address requests for direct charge of equipment in the negotiation summary, and state whether the purchase is approved as a direct cost.

(g) 42 U.S.C. 2459d prohibits NASA from funding any grant for longer than one year if the effect is to provide a guaranteed customer base for new commercial space hardware or services. The only exception would be if an Appropriations Act specifies the new commercial space hardware or services to be used.

(h) NASA reserves the right to either fully fund or incrementally fund grants based on fiscal law and program considerations. Grants with anticipated annual funding exceeding $50,000 may be funded for less than the amount stated in the proposal.

(1) The grant officer will determine the number of incremental funding actions that will be allowed.

(2) The special condition at §1260.53, Incremental Funding, will be included in the grant.

(i) Proposals for efforts that involve printing, binding, and duplicating in excess of 25,000 pages are subject to the Government Printing and Binding Regulations, No. 26, February 1990, S. Pub. 101–9, U.S. Government Printing Office,
\section*{Choice of award instrument.}

(a) This section and \S 1260.111 provide guidance on the appropriate choice of award instruments consistent with 31 U.S.C. 6301 to 6308. Throughout \S 1260.12, the term "grant" does not include "cooperative agreements."

(b)(1) A procurement contract is a mutually binding legal relationship obligating the seller to furnish supplies or services (including construction), and the buyer pays for them.

(2) The principal purpose of a procurement contract is to acquire, for NASA’s direct use or benefit, a well-defined, specific effort clearly required for the accomplishment of a scheduled NASA mission or project.

(3) If it is determined that a procurement contract is the appropriate type of funding instrument to meet NASA's purposes, the procurement shall be conducted under the FAR and the NFS (48 CFR Chapter 18).

(4) If an action is to be awarded for a dollar amount below the simplified acquisition threshold, the action may be completed by a contracting officer as a purchase order. The purchase order must be properly modified to include necessary language pertaining to data rights, key personnel requirements, and any other necessary requirements as determined by the contracting officer.

(c) A grant shall be used as the legal instrument to reflect a relationship between NASA and a recipient whenever the principal purpose is the transfer of anything of value to the recipient to accomplish a public purpose of support or stimulation authorized by Federal statute. Grants are distinguished from cooperative agreements in that substantial involvement is not expected between NASA and the recipient when carrying out the activity. Grants are distinguished from contracts in that grants provide financial assistance to the recipient to conduct a fairly autonomous program; contracts entail acquisition. Various types of NASA grants contain different provisions and conditions as described in \S\S 1260.20 and 1260.50. The major types of grants and cooperative agreements are defined as follows. Grants and cooperative agreements to carry out other authorized purposes should be used to the extent appropriate, and must be in compliance with OMB Circular A–110.

(1) Research grant. A research grant shall be used to accomplish a NASA objective through stimulating or supporting the acquisition of knowledge or understanding of the subject or phenomena under study, or attempting to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques and advance the state of the art. The recipient will bear prime responsibility for the conduct of research, and exercises judgment and original thought toward attaining the scientific goals within...
(2) Education grant. Students and faculty receiving direct support under a NASA education grant must be U.S. citizens. An education grant is an agreement that provides funds to an educational institution or other nonprofit organizations within one or more of the following areas:

(i) Capturing student interest and/or improving student performance in science, mathematics, technology, or related fields;

(ii) Enhancing the skill, knowledge, or ability of teachers or faculty members in science, mathematics, or technology;

(iii) Supporting national educational reform movements;

(iv) Conducting pilot programs or research to increase participation and/or to enhance performance in science, mathematics, or technology education at all levels; and

(v) Developing instructional materials (e.g., teacher guides, printed publications, computer software, and videotapes) or networked information services for education;

(3) Training grant. A training grant is an agreement that provides funds primarily for scholarships, fellowships, or stipends to students, teachers, and/or faculty.

(i) NASA training grants are awarded to colleges, universities, or other nonprofit organizations; not to individual students, teachers, or faculty members. It is the responsibility of the institution receiving the grant to approve the faculty, teachers, and/or students who will participate in the specific program, in cooperation with NASA. If a student, teacher, or faculty member ceases to participate in the program for any reason, the institution, with prior NASA approval, may appoint another student, teacher, or faculty member to complete the remaining portion of the grant period. Replacement students, teachers, and/or faculty electing to apply for the following program year are not automatically entitled to an award and are subject to the evaluation/selection procedures administered to new applicants. Any participant receiving support under a NASA training grant may not concurrently hold another Federal fellowship or traineeship.

(ii) No applicant shall be denied consideration or appointment on the grounds of race, creed, color, national origin, age, sex, or disability.

(iii) Students and faculty receiving direct support under a NASA training grant must be U.S. citizens, except for those supported by the NASA Earth System Science Fellowship Program, the Graduate Student Fellowship in Global Change Research Program, and the GLOBE Program.

(iv) Duration of the award is program specific. Refer to program policies and procedures for details. Renewal is contingent upon a successful performance evaluation as prescribed by the program, concurrence by the NASA technical officer, and the availability of funds.

(v) No substantial involvement is expected between NASA and the recipient. A student or faculty member receiving support under a NASA training grant does not incur any formal obligation to the Government.

(vi) The use of training grant funds to acquire equipment, or to acquire or construct facilities will not be permitted. Government furnished equipment will not be provided.

(vii) An Administrative Report must be submitted under the guidelines described by the specific program policies and procedures.

(4) Facilities grant. A facilities grant is used to provide for the acquisition, construction, use, maintenance, and disposition of facilities. Facilities, as used in this section, means property used for production, maintenance, research, development, or testing. Prior approval by the Associate Administrator of Procurement is required before proceeding with a facilities grant. To obtain prior approval, a package will be forwarded to the Director, Program Operations Division (HS), during the planning phase of the grant, that includes pertinent background information, details on Congressional Authorization, dollar value, and name of the recipient. Other information, such as a copy of the proposed facility grant award document, is not required. It is
unlikely an award will be approved unless specifically authorized by Congress. A review by legal counsel to assure legal sufficiency is also required.

(d) Cooperative agreement. A cooperative agreement shall be used as the legal instrument reflecting a relationship between NASA and a recipient whenever the principal purpose is the transfer of anything of value to the recipient to accomplish a public purpose of support or stimulation authorized by Federal statute, and substantial involvement is anticipated between NASA and the recipient during performance of the contemplated activity (31 U.S.C. 6305). Characteristics inherent in a cooperative agreement include those that apply to a grant, plus the following:

(1) Substantial NASA involvement in and contribution to the technical aspects of the effort are necessary for its accomplishment. This could involve an active NASA role in collaborative relations, access to a NASA site or equipment, or sharing NASA facilities and personnel. For example, a university investigator could work for a substantial amount of time at a NASA Center, a NASA investigator could work at a university, or when the collaboration is such that a jointly authored report or education curriculum product is appropriate;

(2) The project, conducted as proposed, would not be possible without extensive NASA-recipient technical collaboration;

(3) The nature of the collaboration shall be clearly defined and specified in the special condition at §1260.51.

(e)(1) Grants and cooperative agreements with foreign organizations provide for research to be performed in whole, or in part, by a foreign organization, with funding being provided by NASA to the foreign organization as reimbursement for the work performed.

(2) It is NASA policy that, in general, research with foreign organizations will not be conducted through grants or cooperative agreements, but instead will be accomplished on a no-exchange-of-funds basis. In these cases, NASA enters into agreements undertaking projects of international scientific collaboration. NASA policy on performing research with foreign organizations on a no-exchange-of-funds basis is set forth at NFS 1833.016-70. In rare instances, NASA may enter into an international agreement under which funds will be transferred to a foreign recipient.

(3) Grants and cooperative agreements to foreign organizations are made on an exceptional basis only. Awards require the prior approval of the Headquarters Office of External Relations (Code I) and the Headquarters Office of the General Counsel (Code G). Requests to award foreign grants or cooperative agreements are to be coordinated through the Office of Procurement, Program Operations Division (Code HS). Requests for approval shall contain:

(i) The identity of the foreign entity, the country or countries involved, and the purpose of the grant or cooperative agreement.

(ii) The Space Act Agreement(s) or underlying international agreement involved, if any.

(iii) A description of the effort to be undertaken by the entity described in paragraph (e)(3)(i) of this section, including their dollar value.

(iv) The reason why the grant or cooperative agreement requires a placement with a foreign organization.

(v) The reason why the work can not be accomplished on a no exchange of funds basis.

(4) Grants and cooperative agreements to foreign organizations require a review by the Office of General Counsel.

(5) The requirements of this section do not apply to the purchase of supplies or services (excluding research) from non-U.S. sources by U.S. grant or cooperative agreement recipients, when necessary to support research efforts.

(f)(1) The decision whether to use a contract, grant or cooperative agreement as an award instrument must be based on the principal purpose of the relationship. When NASA, within its authority, enters into a transaction where the principal purpose is to accomplish a public purpose of support or stimulation authorized by Federal
statute, a grant or a cooperative agreement is the appropriate instrument. Conversely, if the principal purpose of a transaction is to accomplish a NASA requirement, i.e., to produce something for NASA’s own use, a procurement contract is the appropriate instrument. Two essential questions must be asked to ensure that a grant or cooperative agreement is the appropriate instrument. The first question is: Will NASA be directly harmed in furthering a specific NASA mission requirement if the effort is not accomplished? The answer to this question must be “no.” The second question is: Is the work being performed by the recipient primarily for its own purposes, which NASA is merely supporting with financial or other assistance? The answer to this question must be “yes.” If these criteria are met, then the effort is not a NASA requirement, and can then be considered as to whether it supports or stimulates a public purpose.

(2) In applying the principal purpose test, it must be determined whether the Government is the direct beneficiary or user of the activity. If NASA provides the specifications for the project; or is having the project completed based on its own identified needs; or will directly use the report or result of the project for a scheduled NASA mission, then, in most cases, the principal purpose is to acquire property or services for the direct benefit or use of NASA, and thus, a contractual relationship exists. However, there may be cases where NASA expects to derive some incidental use or benefit from funded activities. In fact, any extramural expenditure that furthers the Agency’s goals or mission can be said to be of benefit or use to the Government. But not every expenditure produces for the Government a benefit or use that is direct; i.e., immediate, uninterrupted, or specific. Where an expenditure will produce a benefit or use that is only indirect in nature, a grant or cooperative agreement may be used.

(3) The status of the entity involved is not a primary factor in determining the appropriate award instrument. For example, an entity that operates on a non-profit basis may receive funding through a contract, and is not limited to receiving grants or cooperative agreements. Similarly, a profit-making firm may receive funding through grants, cooperative agreements, or contracts.

(4) NASA offices may be mandated through their missions to support specific scientific, educational, or training programs. The office may be accountable to NASA management, the Administration, or Congress for oversight and proper implementation of the program, may require direct oversight, may be directly accountable for the results of the program and that the work be successfully completed. Whenever the office requesting the grant or cooperative agreement would be directly harmed in performing its mission if an award was not made, a grant or cooperative agreement is not appropriate. Specific examples of situations requiring special scrutiny include—

(i) Education grants that for the administration of a program for which the education office is directly responsible;

(ii) Research or education grants to establish and support university laboratories on a non-competitive basis, with the resulting work of direct benefit to NASA; or

(iii) Training grants that hire university students, on a non-competitive basis, to perform work at a NASA Center in direct support of NASA personnel, and perform work which is required in support of a NASA mission.

(5) A grant may be used to provide funding to an association to hold a conference (among its members and NASA officials) where the benefits flow primarily to the association and its members, not to NASA. The principal purpose will be to advance research or other purposes of the association. Thus, NASA may not direct an association in arranging the conference or in providing other services for NASA’s benefit. The conference should be run by the association, not by NASA. Conferences sponsored or initiated by NASA primarily to meet a specific NASA need or obtain information for the direct benefit of NASA must be supported by means of a contract.
§1260.13

(1) Annual grants are grants awarded for a short term (e.g., on an annual basis).

(2) Multiple year grants support research projects that may span several years. NASA policy is to make maximum use of multiple year grants. A Multiple Year Grant is generally selected for a period of three years in keeping with NASA's policy calling for research to be peer reviewed at least every three years. Grants with periods of performance in excess of three years may be appropriate when the NASA technical office determines at the inception of the grant that a period of performance in excess of three years is necessary to complete a discrete research effort.

(i) If the decision to provide multiple year funding to a research proposal is made, the special condition at §1260.52, Multiple Year Grant or Cooperative Agreement, will be included in the award.

(ii) Periods approved under the Multiple Year Grant or Cooperative Agreement special condition at §1260.52, and funded at the levels specified in the special condition, are not considered to be new awards. Therefore, new proposals, new proposal-related certifications (such as Disclosure of Lobbying Activities, and Debarment and Suspension), new technical evaluations, and new budget proposals are not required, as long as this information for the multiple year period was reviewed and approved as part of the original proposal.

(iii) If NASA program constraints or developments within the research project dictate a reduction in the funding level specified under a Multiple Year Grant period, research may continue at the reduced level under the terms of the provisions; however, the recipient may rebudget under the grant provisions to keep the project within the funding actually provided.

(3) An augmentation to a grant may be issued as a supplement at any time when work is introduced which is outside the scope of the approved proposal or when there is a need for substantial unanticipated funding. The grant officer must first determine whether the augmentation requires a separate approval as a non-competitive addition to the work to be performed under the grant. Augmentations require the submission of revised budget proposals and technical evaluations covering the additional work. Since augmentations will be performed within the existing period of performance, certifications will not normally be required.

(4) A grant extension may be placed to extend the grant beyond the expiration date, in accordance with the provision at §1260.23. Extensions, if additional time beyond the established period of performance is required to assure adequate completion of the original scope of work within the available funding.

(5) Grant renewals provide for continuation of research beyond the original scope, period of performance and funding levels; therefore, new proposals, certifications and technical evaluations are required prior to the execution of a grant renewal. Grant renewals will be awarded as new grants. Continued performance within a period specified under the Multiple Year Grant provision does not constitute a renewal. For research originally awarded through a competitive NRA, CAN, or other competitive announcement that has completed its period of performance, peer review of a proposal to continue the research should be accomplished prior to selecting the research grant for renewal. If the effort was originally awarded through an unsolicited proposal, a new justification to accept the unsolicited proposal would be required (however, also see §1260.12(f)(1)). Multiple year grant special conditions may be incorporated into renewals.

(b) While NASA normally provides full funding support for research grants, alternate methods of grant funding are as follows:

(1) Since NASA grant recipients usually gain no measurable commercial or economic benefit from grants, other than conducting research, cost sharing for research grants is not generally required. NASA may, however, accept cost sharing when voluntarily offered. Additionally, in instances when the grant officer determines that the recipient will benefit from the research results through sales to non-Federal entities, cost sharing based upon this mutuality of interest will apply. See

284
§ 1260.123. When cost sharing is used, the grant officer shall insert a Special Condition substantially as shown in §1260.54, Cost Sharing. (See 14 CFR part 1274 for grants and cooperative agreements involving cost sharing.)

(2) NASA may provide partial support for a research project or conference where additional funding is being provided by other Federal agencies. If the grant also involves cost sharing by the recipient, the grant officer will ensure that the recipient’s share does not include any Federal funds.

§ 1260.14 Limitations.

(a) NASA does not award grants merely to provide donative assistance no matter how worthy the purpose, but to the extent that appropriations are available to carry out authorized Agency programs. Research in any academic discipline related to NASA interests normally will qualify. However, advice of legal counsel should be sought in unusual situations, or when unusual project activities or organizational attributes are evident.

(b) It is NASA’s policy that non-monetary (zero dollar) grants or cooperative agreements shall not be used, except for no-cost extensions.

(c) Loans of Government personal property not associated with a contract, grant, or cooperative agreement under 31 U.S.C. 6301 to 6308, and made under the Space Act of 1958, should be consummated as loan agreements. Also, excess Government research property may be donated to educational institutions and nonprofit organizations pursuant to 15 U.S.C. 3710(d). See §1260.139(a)(2).

(d) Neither grants nor cooperative agreements shall be used as legal instruments for consulting service arrangements.

§ 1260.15 Format and numbering.

(a) A grant shall be brief, containing only those provisions and special conditions necessary to protect the interests of the Government.

(b) Cover page formats shown in Exhibit B to subpart A of this Part 1260 shall be used for all NASA grant and cooperative agreement award documents. Provisions for grants with U.S. organizations shall be incorporated by reference, and preprinted checklists may be used (Exhibit C to subpart A of this part 1260). Both special conditions and provisions for grants with foreign organizations will be printed in full text. An acceptance block may be added when the grant officer finds it necessary to require bilateral execution of the grant. Program budgets are not generally attached to the award document. When it is necessary to attach the budget due to revisions to the original proposed budget or other reasons, this information should be suitably marked as confidential, and is not to be disclosed outside of the Government without the consent of the grantee.

(c) The Identification Numbering System to be used prior to Integrated Financial Management Project (IFMP) implementation will be applied as follows:

(1) For research, education, and facilities grants, numbering shall conform to (NFS) 48 CFR 1804.7102(a) by including the Center Identification Number, except that a NAG prefix will be used in lieu of the NAS prefix (e.g., NAG5 would be the Goddard prefix designation). They will be sequentially numbered.

(2) Cooperative agreements will use the prefix NCC plus the Center Identification Number. They will be sequentially numbered.

(3) Training grants will use the prefix NGT plus the Center Identification Number. They will be sequentially numbered.

(4) The Catalog of Federal Domestic Assistance (CFDA) Numbers does not apply to NASA grants.

(d) The Identification Numbering System will be revised after IFMP implementation. There will be a phase-in term for Center implementation of the IFMP. For centers using IFMP Performance Purchasing: the following numbering system shall be used for new awards (awards made prior to conversation to IFMP will retain previously assigned numbers):

(1) Document Type for grants. For research, education, facilities, and training grants, the document type prefix GR shall be used.
§ 1260.16 Distribution.

(a) Copies of grants and supplements will be provided to—
(1) Payment offices (original copy);
(2) Technical officers;
(3) Administrative grant officers when delegated;
(4) The NASA Center for AeroSpace Information (CASI), Attn: Document Processing Section, 7121 Standard Drive, Hanover, MD 21076; and
(5) Other appropriate offices as determined by the grant officer.

(b) In addition to receipt of grants and supplements, the administrative grant officer will receive a copy of the approved budget.

(c) The file will record the addresses for distribution.

§ 1260.20 Provisions.

(a) Research grants, education grants, and cooperative agreements with U.S. educational institutions and nonprofit organizations shall incorporate by reference the provisions set forth in §§ 1260.21 through 1260.38. Training grants shall incorporate by reference the provisions set forth in §§ 1260.21 through 1260.38, except that the grant officer will substitute § 1260.22, Technical Publications and Reports, with reporting requirements as specified by the program office.

(b) Facilities grants provisions will be selected on a case-by-case basis (see § 1260.50).

(c) Research grants awarded to foreign organizations, when approved by Headquarters, will include the following provisions at a minimum: §§ 1260.21, 1260.22, 1260.23, 1260.24, 1260.25, 1260.26, 1260.27, 1260.29, 1260.33, 1260.35, 1260.36 and 1260.37. Additional special conditions will be selected on a case by case basis (see § 1260.50). All provisions will be provided in full text. Referenced handbooks, statutes, or other regulations, which the recipient may not have access to, must be made available when requested by the foreign organization.

(d) The provisions set forth at §§ 1260.21 through 1260.38 do not apply to awards made under the Federal Demonstration Partnership (FDP). FDP awards are subject to the FDP Phase III General Terms and Conditions and the NASA Agency Specific Requirements Modifications to the General Terms and Conditions (Exhibit D to subpart A of this part 1260). Since these documents are provided directly to the FDP institutions, they are not to be attached to FDP grants. However, the grant officer will include a statement similar to the following on FDP grants: “The Federal Demonstration Partnership General Terms and Conditions and NASA Agency-specific Requirements apply to this award.”
(e) Grants or cooperative agreements awarded by NASA to the Commercial Space Centers under the Space Development and Commercial Research (SDCR) Program require special conditions in addition to those set forth at §§1260.21 through 1260.38. SDCR Special Conditions are required to be included in full text for all SDCR Grants and Cooperative Agreements (Exhibit E to subpart A of this part 1260). Changes or additions to these Special Conditions must be approved by the Office of Space Utilization and Product Development (Code UM) prior to the award of the grant. Requests for changes or additions are to be coordinated through the Office of Procurement, Program Operations Division (Code HS).

(f) Grants and cooperative agreements awarded by NASA to commercial organizations where cost sharing is not required shall incorporate the provisions set forth at §§1260.21 through 1260.38, modified as set forth under 1260.4(b).

(g) Grants and cooperative agreements not specifically classified elsewhere in this section, but that are awarded for other authorized purposes, shall include provisions selected on a case-by-case basis.

(h) Whenever the word “grant” appears in §§1260.21 through 1260.38, it shall be deemed to include, as appropriate, the term “cooperative agreement.”

§ 1260.21 Compliance With OMB Circular A–110.

COMPLIANCE WITH OMB CIRCULAR A–110

October 2000

This grant or cooperative agreement is subject to the requirements set forth in OMB Circular A–110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations. Recipients are required to comply with the requirements of A–110, as adopted by NASA as subpart B of Part 1260 of Title 14 of the Code of Federal Regulations. Specific provisions set forth in this award document are provided to supplement and clarify, not replace, the Circular, except in circumstances where a waiver from Circular requirements has been obtained by NASA.

§ 1260.22 Technical publications and reports.

(This provision describes standard reporting requirements that should be applied in most circumstances. The requirements set forth under this provision may be modified by the grant officer based on specific report needs for the grant or cooperative agreement, provided that reporting requirements do not conflict with §1260.151. Any special reporting requirements (e.g. Payload Safety Data Review) will be set forth as a special condition in the award document.)

TECHNICAL PUBLICATIONS AND REPORTS

October 2000

(a) NASA encourages the widest practicable dissemination of research results at any time during the course of the investigation.

(1) All information disseminated as a result of the grant shall contain a statement which acknowledges NASA’s support and identifies the grant by number (e.g., “The material is based upon work supported by NASA under award No(s) GRNASM99G000001, etc.”).

(2) Except for articles or papers published in scientific, technical, or professional journals, the exposition of results from NASA supported research should also include the following disclaimer: “Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Aeronautics and Space Administration.”

(b) Reports shall be in the English language, informal in nature, and ordinarily not exceed three pages (not counting bibliographies, abstracts, and lists of other media). The recipient shall submit the following reports:

(1) A Progress Report for all but the final year of the grant. Each report is due 60 days before the anniversary date of the grant and shall briefly describe what was accomplished during the reporting period as outlined in §1260.151(d). A special condition specifying more frequent reporting may be required.

(2) A Summary of Research (or Educational Activity Report in the case of Education Grants) is due within 90 days after the expiration date of the grant, regardless of whether or not support is continued under another grant. This report shall be a comprehensive summary of significant accomplishments during the duration of the grant.

(c) Progress Reports, Summaries of Research, and Educational Activity Reports shall include the following on the first page:

(1) Title of the grant.

(2) Type of report.

(3) Name of the principal investigator.

(4) Period covered by the report.)
§ 1260.23

(5) Name and address of the recipient’s institution.

(6) Grant number.

(d) Progress Reports, Summaries of Research, and Educational Activity Reports shall be distributed as follows:

(1) The original report, in both hard copy and electronic format, to the Technical Officer.

(2) One copy to the NASA Grant Officer, with a notice to the Administrative Grant Officer, (when administration of the grant has been delegated to ONR), that a report was sent.

(e) For Summaries of Research and published reports, one micro-reproducible copy shall also be sent to the NASA Center for AeroSpace Information (CASI), Attn: Document Processing Section, 7121 Standard Drive, Hanover, MD 21076.

[End of provision]

§ 1260.24 Termination and enforcement.

TERMINATION AND ENFORCEMENT

October 2000

Termination and enforcement conditions of this award are specified in §§1260.160 through 1260.162.

[End of provision]

§ 1260.25 Change in principal investigator or scope.

CHANGE IN PRINCIPAL INVESTIGATOR OR SCOPE

October 2000

The following guidance is provided as an amplification to prior approval requirements set forth at §1260.125(c):

(a) The Recipient shall obtain the approval of the NASA Grant Officer for a change of the Principal Investigator, or for a significant absence of the Principal Investigator from the project, defined as a three month absence from the program or a 25 percent reduction in time devoted to the project. Significantly reduced availability of the services of the Principal Investigator(s) named in the grant instrument could be grounds for termination, unless alternative arrangements are made and approved in writing by the Grant Officer.

(b) Prior written approval is required from NASA if there is to be a significant change in the objective or scope.

[End of provision]

§ 1260.26 Financial management.

FINANCIAL MANAGEMENT

October 2001

(a) Effective October 1, 2001, advance payments by electronic funds transfer will be made by the Financial Management Office of the NASA Center which issued the grant in accordance with procedures provided to the recipient. The Recipient shall submit Federal Cash Transaction Reports (SF 272) to the aforementioned office and to the Administrative Grant Officer (if NASA has delegated administration) within 15 working days following the end of each Federal Fiscal quarter. The final SF 272 is due within 90 days after the expiration date of the grant. The final SF 272 shall be submitted to the Financial Management Office, with copies sent to the NASA Grant Officer.

(b) Unless otherwise directed by the Grant Officer, any unexpended balance of funds which remains at the end of any funding period, except the final funding period of the grant, shall be carried over to the next funding period, and may be used to defray costs.
of any funding period of the grant. This includes allowing the carry over of funds to the second and subsequent years of a multiple year grant. This provision also applies to any purpose except performing substantive work under the grant. For grant renewals, the estimated amount of unexpended funds shall be identified in the grant budget section of the renewal proposal. NASA reserves the right to remove unexpended balances from grants when insufficient efforts have been made by the grantee to liquidate funding balances in a timely fashion.

[End of provision]

§ 1260.27 Equipment and other property. 

EQUIPMENT AND OTHER PROPERTY

OCTOBER 2000

(a) NASA permits acquisition of special purpose and general purpose equipment specifically required for use exclusively for research activities.

(1) Acquisition of special purpose or general purpose equipment costing in excess of $5,000 (unless a lower threshold has been established by the Recipient) and not included in the approved proposal budget, requires the prior approval of the NASA Grant Officer. Grant awards under the Federal Demonstration Partnership are exempt from this requirement. Requests to the NASA Grant Officer for the acquisition of equipment shall be supported by written documentation setting forth the description, purpose, and acquisition value of the equipment, and including a written certification that the equipment will be used exclusively for research activities. (A change in the model number of a prior approved piece of equipment does not require resubmission for that item.)

(2) Special purpose and general purpose equipment costing in excess of $5,000 (unless a lower threshold has been established by the Recipient) acquired by the recipient under a grant or cooperative agreement for the purpose of research shall be titled to the Recipient as “exempt” without further obligation to NASA, including reporting of the equipment, in accordance with §1260.133(b). Special purpose or general purpose equipment costing in excess of $5,000 (unless a lower threshold has been established by the Recipient) acquired by the Recipient under a grant or cooperative agreement for non-research work shall be titled to the Recipient in accordance with §1260.134.

(b) The Recipient shall submit an annual Inventory Report, to be received no later than October 31 of each year, which lists all reportable (non-exempt equipment and/or Federally owned property) in its custody as of September 30. Negative responses for annual Inventory Reports (when there is no reportable equipment) are not required. A Final Inventory Report of Federally Owned Property, including equipment where title was taken by the Government, will be submitted by the Recipient no later than 60 days after the expiration date of the grant. Negative responses for Final Inventory Reports are required.

(1) All reports will include the information listed in paragraph (f)(1) of §1260.134, Equipment. No specific report form or format is required, provided that all necessary information set forth at §1260.134(f)(1) is provided.

(2) The original of each report shall be submitted to the Deputy Chief Financial Officer (Finance). Copies shall be furnished to the Center Industrial Property Officer and to ONR.

[End of provision]

§ 1260.28 Patent rights.

PATENT RIGHTS

OCTOBER 2000

As stated at §1260.136, this award is subject to the provisions of 37 CFR 401.3(a) which requires use of the standard clause set out at 37 CFR 401.14 “Patent Rights (Small Business Firms and Nonprofit Organizations)” and the following:

(a) Where the term “contract” or “Contractor” is used in the “Patent Rights” clause, the term shall be replaced by the term “grant” or “Recipient,” respectively.

(b) In each instance where the term “Federal Agency,” “agency,” or “funding Federal agency” is used in the “Patent Rights” clause, the term shall be replaced by the term “NASA.”

(c) The following item is added to the end of paragraph (f) of the “Patent Rights” clause: “(3) The Recipient shall include a list of any Subject Inventions required to be disclosed during the preceding year in the performance report, technical report, or renewal proposal. A complete list (or a negative statement) for the entire award period shall be included in the summary of research.”
(d) The term " subcontract" in paragraph (g) of the " Patent Rights" clause shall include purchase orders.

(e) The NASA implementing regulation for paragraph (g)(2) of the " Patent Rights" clause is at 48 CFR 1267.304(c)(1)(B).

(f) The following requirement constitutes paragraph (l) of the " Patent Rights" clause: " "(1) Communications. A copy of all submissions or requests required by this clause, plus a copy of any reports, manuscripts, publications or similar material bearing on patent matters, shall be sent to the Center Patent Counsel and the NASA Grant Officer in addition to any other submission requirements in the grant provisions. If any reports contain information describing a "subject invention" for which the recipient has elected or may elect to retain title, NASA will use reasonable efforts to delay public release by NASA or publication by NASA in a NASA technical series until an application filing date has been established, provided that the Recipient identify the information and the "subject invention" to which it relates at the time of submittal. If required by the NASA Grant Officer, the Recipient shall provide the filing date, serial number and title, a copy of the patent application, and a patent number and issue date for any "subject invention" in any country in which the Recipient has applied for patents." "

(g) NASA Inventions. NASA will use reasonable efforts to report inventions made by NASA employees as a consequence of, or which bear a direct relation to, the performance of specified NASA activities under this agreement and, upon timely request, will use reasonable efforts to grant the Recipient an exclusive, or partially exclusive, revocable, royalty-bearing license, subject to the retention of a royalty-free right of the Government to practice or have practiced the invention by or on behalf of the Government.

(h) In the event NASA contractors are tasked to perform work in support of specified activities under a cooperative agreement and inventions are made by Contractor employees, the Recipient will normally retain title to its employee inventions in accordance with 35 U.S.C. 202, 14 CFR Part 1245, and Executive Order 12591. In the event the Recipient decides not to pursue rights to title in any such invention and NASA obtains title to such inventions, NASA will use reasonable efforts to report such inventions and, upon timely request, will use reasonable efforts to grant the Recipient an exclusive, or partially exclusive, revocable, royalty-bearing license, subject to the retention of a royalty-free right of the Government to practice or have practiced the invention by or on behalf of the Government.

[End of provision]
National Aeronautics and Space Admin.

§ 1260.34

“§ 1260.34 Clean air and water.

CLEAN AIR AND WATER

October 2000

(A) Recipients shall notify NASA when a subcontract award will be made that falls within the thresholds established at §1260.14(e). When pre-award review of a subcontract is requested by the NASA Grant Officer in accordance with §1260.14(e), the following specific documents will be made available to the NASA Grant Officer. (The Grant Officer can request additional documents):

(1) A copy of the proposed subcontract.

(2) The basis for subcontractor selection.

(3) Justification for lack of competition when competitive bids or offers are not obtained.

(b) The Recipient (with the exception of foreign organizations) shall utilize small business concerns, small disadvantaged business concerns, Historically Black Colleges and Universities, minority educational institutions, and women-owned small business concerns as subcontractors to the maximum extent practicable.

[End of provision]
§ 1260.35 Investigative requirements.

INVESTIGATIVE REQUIREMENTS
October 2000

(a) As requested by NASA, the Recipient of each grant, and any other individuals to perform on the grant, agree to provide sufficient personal/biographical information necessary to conduct an investigation of the individual’s background. The purpose of the investigation is to allow access to a NASA Center, or to NASA information, for performance of this grant. The Recipient acknowledges that NASA reserves the right to perform security checks, and to deny or restrict access to a NASA Center, facility, computer system, or technical information as appropriate.

(b) All visit requests must be submitted in a timely manner in accordance with instructions provided by the Center(s) to be visited.

(End of provision)

§ 1260.36 Travel and transportation.

TRAVEL AND TRANSPORTATION
October 2000

(a) The Fly American Act, 49 U.S.C. 1517, requires the Recipient to use U.S. flag air carriers for international air transportation of personnel and property to the extent that service by those carriers is available.

(b) Department of Transportation regulations, 49 CFR Part 173, govern Recipient shipment of hazardous materials and other items.

(End of provision)

§ 1260.37 Safety.

SAFETY
October 2000

(a) The Recipient shall act responsibly in matters of safety and shall take all reasonable safety measures in performing under this grant or cooperative agreement. The Recipient shall comply with all applicable federal, state, and local laws relating to safety. The Recipient shall maintain a record of, and will notify the NASA Grant Officer immediately (within one workday) of any accident involving death, disabling injury or substantial loss of property in performing this grant or cooperative agreement. The Recipient will immediately (within one workday) advise NASA of hazards that come to its attention as a result of the work performed.

(b) Where the work under this grant or cooperative agreement involves flight hardware, the hazardous aspects, if any, of such hardware will be identified, in writing, by the Recipient. Compliance with this provision by subcontractors shall be the responsibility of the Recipient.

(End of provision)

§ 1260.38 Drug-free workplace.

DRUG-FREE WORKPLACE
October 2000

(a) Definitions. As used in this provision—

Controlled substance means a controlled substance in schedules I through V of section 202 of the Controlled Substances Act (21 U.S.C. 812) and as further defined in regulation at 21 CFR 1308.11 through 1308.15.

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes.

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, possession, or use of any controlled substance.

Drug-free workplace means the site(s) for the performance of work done by the Recipient in connection with a specific grant or cooperative agreement at which employees of the Recipient are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance.

Employee means an employee of a Recipient directly engaged in the performance of work under a Government grant or cooperative agreement. “Directly engaged” is defined to include all direct cost employees and any other Recipient employee who has other than a minimal impact or involvement in
§ 1260.50 Special conditions.

(a) In addition to the provisions set forth in 1260.21 through 1260.38, NASA grants and cooperative agreements are subject to special conditions, which either are not applicable to all awards or are temporary in nature. Examples are found in §§1260.51 through 1260.69, but NASA may impose other conditions as discussed in §1260.114 or as the requirements dictate. Deviations are not required for changes made to special conditions.

(b) Special conditions will be printed in full text.

(c) In facilities grants, special conditions will be selected on a case-by-case basis. As appropriate, the requirements of the following sections will apply: §1260.123(c), Cost Sharing or Matching; §1260.125(h), Revision of Budget and Program Plans; and §1260.132, Real Property.

(d) Research grants with foreign organizations will include special conditions at §§1260.59 through 1260.61, modified as necessary, when not covered under a Memorandum of Agreement (MOA). In addition, other special conditions (e.g., §§1260.62 through 1260.65) will be written with the aid of legal counsel, and added when necessary.

(e) Grants and cooperative agreements awarded by NASA to commercial organizations where cost sharing is not required shall incorporate the special conditions prescribed at §1260.4.
§ 1260.51 Cooperative agreement special condition.

COOPERATIVE AGREEMENT SPECIAL CONDITION

(a) This award is a cooperative agreement as it is anticipated there will be substantial NASA involvement during performance of the effort. NASA and the Recipient mutually agree to the following statement of anticipated cooperative interactions which may occur during the performance of this effort:

(b) The terms “grant” and “Recipient” mean “cooperative agreement” and “Recipient of cooperative agreement,” respectively, wherever the terms appear in provisions and special conditions included in this agreement.

(c) NASA’s ability to participate and perform its collaborative effort under this cooperative agreement is subject to the availability of appropriated funds and nothing in this cooperative agreement commits the United States Congress to appropriate funds therefor.

§ 1260.52 Multiple year grant or cooperative agreement.

MULTIPLE YEAR GRANT OR COOPERATIVE AGREEMENT

This is a multiple year grant or cooperative agreement. Contingent on the availability of funds, scientific progress of the project, and continued relevance to NASA programs, NASA anticipates continuing support at approximately the following levels:

- Second year $\ldots$, Anticipated funding date
- Third year $\ldots$, Anticipated funding date

(Periods may be added or omitted, as applicable)

§ 1260.53 Incremental funding.

INCREMENTAL FUNDING

(a) Only $\ldots$ of the amount indicated on the face of this award is available for payment and allotted to this award. NASA contemplates making additional allotments of funds during performance of this effort. It is anticipated that these funds will be obligated as appropriated funds become available without any action required by the Recipient. The Recipient will be given written notification by the NASA Grant Officer.

(b) The recipient agrees to perform work up to the point at which the total amount paid or payable by the Government approximates but does not exceed the total amount actually allotted to this grant or cooperative agreement. NASA is not obligated to reimburse the Recipient for the expenditure of amounts in excess of the total funds allotted by NASA to this grant or cooperative agreement. The Recipient is not authorized to continue performance beyond the amount allotted to this award.

§ 1260.54 Cost sharing.

COST SHARING

(a) NASA and the Recipient will share in providing the resources necessary to perform the agreement. NASA funding and non-cash contributions (personnel, equipment, facilities, etc.) and the dollar value of the Recipient’s cash and/or non-cash contribution will be on a $\ldots$ percent NASA; $\ldots$ percent Recipient basis.

(b) The funding and non-cash contributions by both parties is represented by the following dollar amounts:

- Government Share
- Recipient Share
- Total Amount

(c) Criteria and procedures for the allowability and allocability of cash and non-cash contributions shall be governed by §1260.123, Cost Sharing or Matching. The applicable Federal cost principles are cited in §1260.127.

(d) The Recipient’s share shall not be charged to the Government under this agreement or under any other contract, grant, or cooperative agreement.

§ 1260.55 Reports substitution.

REPORTS SUBSTITUTION

Technical Reports may be substituted for the required Performance Reports. The title page of such reports shall clearly indicate that the substitution has been made and will show the period covered by the originally required Performance Report.

§ 1260.56 Withholding.

WITHHOLDING

If a Recipient fails to comply with the terms and conditions of this grant or cooperative agreement, including reporting requirements, NASA may withhold advance payments under this award, and may also withhold future awards to the Recipient.
pending correction of the deficiency by the Recipient. If advance payments are withheld, the Grant Officer will notify the NASA Financial Management Office when payments may resume.

§ 1260.57 New technology.

NEW TECHNOLOGY

October 2000

(a) Definitions.

Administrator, as used in this special condition, means the Administrator of the National Aeronautics and Space Administration (NASA) or duly authorized representative.

Grant, as used in this special condition, means any actual or proposed grant, cooperative agreement, understanding, or other arrangement, and includes any assignment, substitution of parties, or subcontract executed or entered into thereunder.

Made, as used in this special condition, means conception or first actual reduction to practice; provided, that in the case of a variety of plant, the date of determination (as defined in section 41(d) of the Plant Variety Protection Act, 7 U.S.C. 2401(d)) must also occur during the period of grant performance.

Nonprofit organization, as used in this special condition, means a domestic university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)), or any domestic nonprofit scientific or educational organization qualified under a State nonprofit organization statute.

Practical application, as used in this special condition, means to manufacture, in the case of a composition or product; to practice, in the case of a process or method; or to operate, in case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

Reportable item, as used in this special condition, means any invention, discovery, improvement, or innovation of the grantee, whether or not patentable or otherwise protectable under Title 35 of the United States Code, made in the performance of any work under any NASA grant or in the performance of any work that is reimbursable under any provision in any NASA grant providing for reimbursement of costs incurred before the effective date of the grant. Reportable items include, but are not limited to, new processes, machines, manufactures, and compositions of matter, and improvements to, new applications of, existing processes, machines, manufactures, and compositions of matter. Reportable items also include new computer programs, and improvements to, or new applications of, existing computer programs, whether or not copyrightable or otherwise protectable under Title 17 of the United States Code.

Small business firm, as used in this special condition, means a domestic small business concern as defined at 15 U.S.C. 632 and implementing regulations (see 13 CFR section 121.401 et seq.) of the Administrator of the Small Business Administration.

Subject invention, as used in this special condition, means any reportable item which is or may be patentable or otherwise protectable under Title 35 of the United States Code, or any novel variety of plant that is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321 et seq.).

(b) Allocation of principal rights.

(1) Presumption of title.

(i) Any reportable item that the Administrator considers to be a subject invention shall be presumed to have been made in the manner specified in paragraph (1) or (2) of section 305(a) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2457(a)) (hereinafter called “the Act”), and that presumption shall be conclusive unless at the time of reporting the reportable item the Recipient submits to the Grant Officer a written statement, containing supporting details, demonstrating that the reportable item was not made in the manner specified in paragraph (1) or (2) of section 305(a) of the Act.

(ii) Regardless of whether title to a given subject invention would otherwise be subject to an advance waiver or is the subject of a petition for waiver, the Recipient may nevertheless file the statement described in paragraph (b)(1)(i) of this special condition. The Administrator will review the information furnished by the Recipient in any such statement and any other available information relating to the circumstances surrounding the making of the subject invention and will notify the Recipient whether the Administrator has determined that the subject invention was made in the manner specified in paragraph (1) or (2) of section 305(a) of the Act.

(2) Property rights in subject inventions.

Each subject invention for which the presumption of paragraph (b)(1)(i) of this special condition is conclusive or for which there has been a determination that it was made in the manner specified in paragraph (1) or (2) of section 305(a) of the Act shall be the exclusive property of the United States as represented by NASA unless the Administrator waives all or any part of the rights of the United States, as provided in paragraph (b)(3) of this special condition.

(3) Waiver of rights.

§ 1260.57
§ 1260.57 14 CFR Ch. V (1–1–02 Edition)

(1) Section 305(f) of the Act provides for the promulgation of regulations by which the Administrator may waive the rights of the United States with respect to any invention or class of inventions made or that may be made under conditions specified in paragraph (1) or (2) of section 305(a) of the Act. The promulgated NASA Patent Waiver Regulations, 14 CFR part 1245, subpart I, have adopted the Presidential Memorandum on Government Patent Policy of February 18, 1983, as a guide in acting on petitions (requests) for such waiver of rights.

(2) As provided in 14 CFR Part 1245, subpart I, Recipients may petition, either prior to execution of the grant or within 30 days after execution of the grant, for advance waiver of rights to any or all of the inventions that may be made under a grant. If such a petition is not submitted, or if after submission it is denied, the Recipient (or an employee inventor of the Recipient) may petition for waiver of rights to an identified subject invention within eight months of first disclosure of the invention in accordance with paragraph (e)(2) of this special condition, or within such longer period as may be authorized in accordance with 14 CFR 1245.105.

(c) Minimum rights reserved by the Government.

(1) With respect to each subject invention for which a waiver of rights is applicable in accordance with 14 CFR part 1245, subpart I, the Government reserves—

(i) An irrevocable, nonexclusive, nontransferable, royalty-free license for the practice of such invention throughout the world by or on behalf of the United States or any foreign government in accordance with any treaty or agreement with the United States; and

(ii) Such other rights as stated in 14 CFR 1245.107.

(2) Nothing contained in this paragraph (c) shall be considered to grant to the Government any rights with respect to any invention other than a subject invention.

(d) Minimum rights to the Recipient.

(1) The Recipient is hereby granted a revocable, nonexclusive, nontransferable, royalty-free license in each patent application filed in any country on a subject invention and any resulting patent in which the Government acquires title, unless the Recipient fails to disclose the subject invention within the times specified in paragraph (e)(2) of this special condition. The Recipient’s license extends to its domestic subsidiaries and affiliates, if any, within the corporate structure of which the Recipient is a party and includes the right to grant sublicenses of the same scope to the extent the Recipient was legally obligated to do so at the time the grant was awarded. The license is transferable only with the approval of the Administrator except when transferred to the successor of that part of the Recipient’s business to which the invention pertains.

(2) The Recipient’s domestic license may be revoked or modified by the Administrator to the extent necessary to achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with 37 CFR part 404, Licensing of Government Owned Inventions. This license will not be revoked in that field of use or the geographical areas in which the Recipient has achieved practical application and continues to make the benefits of the invention reasonably accessible to the public. The license in any foreign country may be revoked or modified at the discretion of the Administrator to the extent the Recipient, its licensees, or its domestic subsidiaries or affiliates have failed to achieve practical application in that foreign country.

(e) Invention identification, disclosures, and reports.

(1) The Recipient shall establish and maintain active and effective procedures to assure that reportable items are promptly identified and disclosed to Recipient personnel responsible for the administration of this New Technology special condition with six months of conception and/or first actual reduction to practice, whichever occurs first in the performance of work under this grant. These procedures shall include the maintenance of laboratory notebooks or equivalent records and other records as are reasonably necessary to document the conception and/or the first actual reduction to practice of the reportable items, and records that show that the procedures for identifying and disclosing reportable items are followed. Upon request, the Recipient shall furnish the Grant Officer a description of such procedures for evaluation and for determination as to their effectiveness.

(2) The Recipient will disclose each reportable item to the Grant Officer within two months after the inventor discloses it in writing to Recipient personnel responsible for the administration of this New Technology special condition or, if earlier, within six months after the Recipient becomes aware that a reportable item has been made, but in any event for subject inventions before any on sale, public use, or publication of such invention known to the Recipient. The
disclosure to the agency shall be in the form of a written report and shall identify the grant under which the reportable item was made and the inventor(s) or innovator(s). It shall be sufficiently complete and in technical detail to convey a clear understanding, to the extent known at the time of the disclosure, of the nature, purpose, operation, and physical, chemical, biological, or electrical characteristics of the reportable item. The disclosure shall also identify any publication, on sale, or public use of any subject invention and whether a manuscript describing such invention has been submitted for publication and, if so, whether it has been accepted for publication at the time of disclosure.

In addition, after disclosure to the agency, the Recipient will promptly notify the agency of the acceptance of any manuscript describing a subject invention for publication or of any on sale or public use planned by the Recipient for such invention.

(3) The Recipient shall furnish the Grant Officer the following:

(i) Interim reports every 12 months (or such longer period as may be specified by the Grant Officer) from the date of the grant, listing reportable items during that period, and certifying that all reportable items have been disclosed (or that there are no such inventions) and that the procedures required by paragraph (e)(1) of this special condition have been followed.

(ii) A final report, within 3 months after completion of the grant work, listing all reportable items or certifying that there were no such reportable items, and listing all subcontracts at any tier containing a patent rights clause or certifying that there were no such subcontracts.

(4) The Recipient agrees, upon written request of the Grant Officer, to furnish additional technical and other information available to the Recipient as is necessary for the preparation of a patent application on a subject invention and for the prosecution of the patent application, and to execute all papers necessary to file patent applications on subject inventions and to establish the Government’s rights in the subject inventions.

(5) The Recipient agrees, subject to FAR 27.302(j), that the Government may duplicate and disclose subject invention disclosures and all other reports and papers furnished or required to be furnished pursuant to this special condition.

(f) Examination of records relating to inventions.

(i) The Grant Officer or any authorized representative shall, until 3 years after final payment under this grant, have the right to examine any books (including laboratory notebooks), records, and documents of the Recipient relating to the conception or first actual reduction to practice of inventions in the same field of technology as the work under this grant to determine whether—

(ii) Any such inventions are subject inventions;

(iii) The Recipient has established and maintained the procedures required by paragraph (e)(1) of this special condition; and

(iv) The Recipient and its inventors have complied with the procedures.

(2) If the Grant Officer learns of an unreported Recipient grantee invention that the Grant Officer believes may be a subject invention, the Recipient may be required to disclose the invention to the agency for a determination of ownership rights.

(3) Any examination of records under this paragraph will be subject to appropriate conditions to protect the confidentiality of the information involved.

(g) Withholding of payment (this paragraph does not apply to subcontracts).

(i) Any time before final payment under this grant, the Grant Officer may, in the Government’s interest, withhold payment until a reserve not exceeding $50,000 or 5 percent of the amount of this grant, whichever is less, shall have been set aside if, in the Grant Officer’s opinion, the Recipient fails to—

(i) Establish, maintain, and follow effective procedures for identifying and disclosing reportable items pursuant to paragraph (e)(1) of this special condition;

(ii) Disclose any reportable items pursuant to paragraph (e)(2) of this special condition;

(iii) Deliver acceptable interim reports pursuant to paragraph (e)(3)(i) of this special condition; or

(iv) Provide the information regarding subcontracts pursuant to paragraph (h)(4) of this special condition.

(2) Such reserve or balance shall be withheld until the Grant Officer has determined that the Recipient has rectified whatever deficiencies exist and has delivered all reports, disclosures, and other information required by the grant.

(3) Final payment under the grant shall not be made before the Recipient delivers to the Grant Officer all disclosures of reportable items required by paragraph (e)(2) of this special condition, and an acceptable final report pursuant to paragraph (e)(3)(i) of this special condition.

(4) The Grant Officer may decrease or increase the sums withheld up to the maximum authorized in paragraph (g)(1) of this special condition. No amount shall be withheld under this paragraph while the amount specified by this paragraph is being withheld under other provisions of the grant. The withholding of any amount or the subsequent payment thereof shall not be construed as a waiver of any Government rights.

(h) Subcontracts.

(1) Unless otherwise authorized or directed by the Grant Officer, the Recipient shall—

(i) Include the clause at NASA FAR Supplement (NFS) 1852.227-76, New Technology.
(suitably modified to identify the parties) in any subcontract hereunder (regardless of tier) with other than a small business firm or nonprofit organization for the performance of experimental, developmental, or research work; and

(ii) Include the clause at FAR 52.227-11 (suitably modified to identify the parties) in any subcontract hereunder (regardless of tier) with a small business firm or nonprofit organization for the performance of experimental, developmental, or research work.

(2) In the event of a refusal by a prospective subcontractor to accept such a clause the Recipient—

(i) Shall promptly submit a written notice to the Grant Officer setting forth the subcontractor's reasons for such refusal and other pertinent information that may expedite disposition of the matter; and

(ii) Shall not proceed with such subcontract without the written authorization of the Grant Officer.

(3) In the case of subprocesses at any tier, the agency, subcontractor, and Recipient agree that the mutual obligations of the parties created by this special condition constitute a contract between the subcontractor and NASA with respect to those matters covered by this grant.

(4) The Recipient shall promptly notify the Grant Officer in writing upon the award of any subcontract at any tier containing a patent rights clause by identifying the subcontractor, the applicable patent rights clause, the work to be performed under the subcontract, and the dates of award and estimated completion. Upon request of the Grant Officer, the Recipient shall furnish a copy of such subcontract, and, no more frequently than annually, a listing of the subprocesses that have been awarded.

(5) The subcontractor will retain all rights provided for the Recipient in paragraph (h)(1)(i) or (ii) of this special condition, whichever is included in the subcontract, and the Recipient will not, as part of the consideration for awarding the subcontract, obtain rights in the subcontractor's subject inventions.

(i) Preference for United States industry. Unless provided otherwise, no Recipient that receives title to any subject invention and no assignee of any such Recipient shall grant to any person the exclusive right to use or sell any subject invention in the United States unless such person agrees that any products embodying the subject invention will be manufactured substantially in the United States. However, in individual cases, the requirement may be waived by the Administrator upon a showing by the Recipient or assignee that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States or that under the circumstances domestic manufacture is not commercially feasible.

§ 1260.58 Designation of new technology representative and patent representative.

DESIGNATION OF NEW TECHNOLOGY REPRESENTATIVE AND PATENT REPRESENTATIVE

October 2000

(a) For purposes of administration of the special condition of this grant entitled “New Technology,” the following named representatives are hereby designated by the Grant Officer to administer such special condition:

Title, Office Code, Address (including zip code)

New Technology Representative

Patent Representative

(b) Reports of reportable items, and disclosure of subject inventions, interim reports, final reports, utilization reports, and other reports required by the special condition, as well as any correspondence with respect to such matters, should be directed to the New Technology Representative unless transmitted in response to correspondence or request from the Patent Representative. Inquires or requests regarding disposition of rights, election of rights, or related matters should be directed to the Patent Representative. This special condition shall be included in any subcontract hereunder requiring a “New Technology” provision or “Patent Rights—Retention by the Contractor (Short Form)” clause, unless otherwise authorized or directed by the Grant Officer. The respective responsibilities and authorities of the above-named representatives are set forth in 1827.305–370 of the NASA FAR Supplement.

§ 1260.59 Choice of law.

CHOICE OF LAW

October 2000

The rights and obligations of the parties to the grant (or cooperative agreement) shall be ascertainable by recourse to the laws of the United States of America. However, it is understood that the laws of the Recipient’s country will generally apply to recipient activities within that country.

§ 1260.59A Invention reporting and rights.

INVENTION REPORTING AND RIGHTS

October 2000

(a) As used in this provision:

(1) The term “invention” means any invention or discovery which is or may be patentable or otherwise protectable under Title 35
of the United States Code, or any novel variety of plant which is or may be protected under the Plant Variety Protection Act (7 U.S.C. 2321 et seq.).
(2) The term “made” when used in relation to any invention means the conception or first actual reduction to practice of such invention.
(b) The Recipient shall report promptly to the grant officer each invention made in the performance of work under this grant. The report of such invention shall—
(1) Identify the inventor(s) by full name; and
(2) Include such full and complete technical information concerning the invention as is necessary to enable an understanding of the nature and operation thereof.
(c) Reporting shall be made on NASA Form 1679 Disclosure of Invention and New Technology (Including Software).
(d) The Recipient hereby grants to the Government of the United States of America, as represented by the Administrator of the National Aeronautics and Space Administration, the full rights, title, and interest in and to each such invention throughout the world.
§ 1260.60 Public information.
PUBLIC INFORMATION
October 2000
Information regarding this grant (including a copy of this award document) may be released by the Recipient without restriction. However, technical information relating to work performed under this grant where the NASA contribution should be released by the Recipient only after consultation with the NASA Technical Officer.
§ 1260.61 Allocation of risk/liability.
ALLOCATION OF RISK/LIABILITY
October 2000
(a) With respect to activities undertaken under this agreement, the Recipient agrees not to make any claim against NASA or the U.S. Government with respect to the injury or death of its employees or its contractors and subcontractor employees, or to the loss of its property or that of its Contractors and subcontractors, whether such injury, death, damage or loss arises through negligence or otherwise, except in the case of willful misconduct.
(b) In addition, the Recipient agrees to indemnify and hold the U.S. Government and its Contractors and subcontractors harmless from any third party claim, judgment, or cost arising from the injury or death of any person, or for damage to or loss of any property, arising as a result of its possession or use of any U.S. Government property.
§ 1260.62 Payment—to foreign organizations.
PAYMENT—TO FOREIGN ORGANIZATIONS
(For grants or cooperative agreements with foreign organizations, this clause will be developed on a case-by-case basis.)
§ 1260.63 Customs clearance and visas.
CUSTOMS CLEARANCE AND VISAS
(For grants or cooperative agreements with foreign organizations, this clause will be developed on a case-by-case basis.)
§ 1260.64 Taxes.
TAXES
(For grants or cooperative agreements with foreign organizations, this clause will be developed on a case-by-case basis.)
§ 1260.65 Exchange of technical data and goods.
EXCHANGE OF TECHNICAL DATA AND GOODS
(For grants or cooperative agreements with foreign organizations, this clause will be developed on a case-by-case basis.)
§ 1260.66 Listing of reportable equipment and other property.
LISTING OF REPORTABLE EQUIPMENT AND OTHER PROPERTY
October 2000
(a) Title to federally-owned property provided to the Recipient remains vested in the Federal Government, and shall be managed in accordance with §1260.133. The following items of federally-owned property are being provided to the Recipient for use in performance of the work under this grant or cooperative agreement:
(1) [List property or state “not applicable.”]
(b) The following specific items of equipment acquired by the Recipient have been identified by NASA for transfer of title to the Government when no longer required for performance under this grant or cooperative agreement. This equipment will be managed in accordance with 1260.134, and shall be transferred to NASA or NASA’s designee in accordance with the procedures set forth at 1260.134(g):
(1) [List property or state “not applicable.”]
§ 1260.67 Equipment and other property under grants with commercial firms.

EQUIPMENT AND OTHER PROPERTY UNDER GRANTS WITH COMMERCIAL FIRMS

(a) This grant permits acquisition of special purpose equipment required for the conduct of research. Acquisition of special purpose equipment costing in excess of $5,000 and not included in the approved proposal budget requires the prior approval of the Grant Officer unless the item is merely a different model of an item shown in the approved proposal budget.

(b) Recipients may not purchase, as a direct cost to the grant, items of general purpose equipment, examples of which include but are not limited to office equipment and furnishings, air conditioning equipment, reproduction and printing equipment, motor vehicles, and automatic data processing equipment. If the Recipient requests an exception, the Recipient shall submit a written request for Grant Officer approval, prior to purchase by the Recipient, stating why the Recipient cannot charge the general purpose equipment to indirect costs.

(c) Under no circumstances shall grant funds be used to acquire land or any interest therein, to acquire or construct facilities (as defined in 48 CFR (FAR) 45.301), or to procure passenger carrying vehicles.

(d) The Government shall have title to equipment and other personal property acquired with Government funds. Such property shall be disposed of pursuant to 48 CFR (FAR) 45.903.

(e) Title to Government furnished equipment (including equipment, title to which has been transferred to the Government prior to completion of the work) will remain with the Government.

(f) The Recipient shall establish and maintain property management standards for Government property and otherwise manage such property as set forth in 48 CFR (FAR) 45.5 and 48 CFR (NFS) 1845.5.

(g) Recipients shall submit annually a NASA Form 1018, NASA Property in the Custody of Contractors, in accordance with the instructions on the form, the provisions of 48 CFR (NFS) 1845.71 and any supplemental instructions that may be issued by NASA for the current reporting period. The original NF 1018 shall be submitted to the center Deputy Chief Financial Officer (Finance) with three copies sent concurrently to the center Industrial Property Officer. The annual reporting period shall be from October 1 of each year through September 30 of the following year. The report shall be submitted in time to be received by October 31. Negative reports (i.e., no reportable property) are required. The information contained in the reports is entered into the NASA accounting system to reflect current asset values for agency financial statement purposes. Therefore, it is essential that required reports be received no later than October 31. A final report is required within 30 days after expiration of the agreement.

(h) The requirements set forth in this special condition supersede grants provision 1260.27, Equipment and Other Property.

§ 1260.68 Invoices and payments under grants with commercial firms.

INVOICES AND PAYMENTS UNDER GRANTS WITH COMMERCIAL FIRMS

October 2000

(a) Invoices for payment of actual incurred costs shall be submitted by the Recipient no more frequently than on a quarterly basis.

(b) Invoices shall be submitted by the Recipient to the following offices:

(1) Name, address, and telegraphic abbreviation of the financing institution receiving payment.

(2) The American Bankers Association 9-digit identifying number for wire transfers of the financing institution receiving payment.

(3) The requirements set forth in this special condition supersede grants provision 1260.26, Financial Management.

§ 1260.69 Electronic funds transfer payment methods.

ELECTRONIC FUNDS TRANSFER PAYMENT METHODS

October 2000

(a) Payments under this grant will be made by the Government by electronic funds transfer through the Treasury Fedline Payment System (FEDLINE) or the Automated Clearing House (ACH), at the option of the Government. After award, but no later than 14 days before an invoice is submitted, the Recipient shall designate a financial institution for receipt of electronic funds transfer payments, and shall submit this designation to the Grant Officer or other Government official, as directed.

(b) For payment through FEDLINE, the Recipient shall provide the following information:

(1) Name, address, and telegraphic abbreviation of the financial institution receiving payment.

(2) The American Bankers Association 9-digit identifying number for wire transfers of the financing institution receiving payment if the institution has access to the Federal Reserve Communication System.
(3) Payee's account number at the financial institution where funds are to be transferred.

(4) If the financial institution does not have access to the Federal Reserve Communications System, name, address, and telegraphic abbreviation of the correspondent financial institution through which the financial institution receiving payment obtains wire transfer activity. Provide the telegraphic abbreviation and American Bankers Association identifying number for the correspondent institution.

(c) For payment through ACH, the Recipient shall provide the following information:

(1) Routing transit number of the financial institution receiving payment (same as American Bankers Association identifying number used for FEDLINE).

(2) Number of account to which funds are to be deposited.

(3) Type of depositor account ("C" for checking, "S" for savings).

(4) If the Recipient is a new enrollee to the ACH system, a "Payment Information Form," SF 3881, must be completed before payment can be processed.

(d) In the event the Recipient, during the performance of this grant, elects to designate a different financial institution for the receipt of any payment made using electronic funds transfer procedures, notification of such change and the required information specified above must be received by the appropriate Government official 30 days prior to the date such change is to become effective.

(e) The documents furnishing the information required in this clause must be dated and contain the signature, title, and telephone number of the Recipient official authorized to provide it, as well as the Recipient's name and contract number.

(f) Failure to properly designate a financial institution or to provide appropriate payee bank account information may delay payments of amounts otherwise properly due.

(g) The requirements set forth in this special condition override grant provision 1260.26, Financial Management.

§ 1260.70 Delegation of administration.

(a) Property administration and closeout of NASA grants and cooperative agreements will be delegated to the Office of Naval Research (ONR). Exceptions to this policy are:

(1) Training grants will not be delegated.

(2) Grants of short duration (9 months or less) or low dollar value ($50k or less) will normally not be delegated.

(3) Grant officers may waive specific administration requirements in exceptional circumstances for individual grants. Exceptions to delegation must be justified and approved in writing by the Grant Officer, and made part of the file.

(4) Waiver of delegation of property administration or closeout to be instituted by a center as a standard practice constitutes a deviation to this handbook, and requires approval in accordance with §1260.7.

(b) Delegations will be made by use of NF 1674 (Exhibit F to subpart A of this part 1260). The NF 1674, the award document, and the approved budget will be sent to ONR in a single package (electronically, when possible).

(c) Upon acceptance of a delegation, ONR agrees to the following:

(1) On a monthly basis, ONR will provide each center a Report of Accepted Delegations listing each grant or cooperative agreement accepted for administration, with pertinent information including the ONR point of contacts name, phone number, and e-mail address.

(2) On a monthly basis, ONR will electronically send to each Center Commercial Technology Office a listing of New Technology Reports it has received.

(3) On a quarterly basis, ONR will provide the cognizant grant officers a "List of Delinquent Recipients" that failed to provide timely interim or final reports.

(4) Property administration should always be delegated, even if it is not anticipated that property will be provided by the government or acquired by the recipient. ONR shall follow DoD property administration policies and procedures, plus the following NASA requirements:

(i) The recipient shall maintain property records and manage nonexpendable personal property in accordance with 14 CFR 1260.134. During Property Control System Analyses (PCSA), ONR will check the recipient’s understanding and test compliance of property management requirements, including the accuracy of recipient property reports. ONR will provide one
§ 1260.71 Copies and Supplements

(1) A NASA grant officer can unilaterally make minor or administrative changes to a grant; e.g., Reports Substitution (§1260.55) and Withholding (§1260.56).

(b) To ensure timely completion and closeout of grants, renewal proposals to continue the same effort at the same institution that are accepted for award by NASA will be awarded as new grants versus continuation of the existing grant.

(1) When work under a grant is to be continued through an extension, or through a renewal of the work under a new grant, the continuation effort should be instituted concurrent with the original expiration date. When possible, the period of performance should be continuous with the prior grant period of performance. The extension or a renewal of a grant (see §1260.13(a)) beyond the original expiration date is a unilateral decision by NASA based upon availability of funds, continued research relevance, and progress made by the recipient.

(2) To insure uninterrupted programs, the technical office should forward to the grant office a completed award package, including a funded procurement request, technical evaluation of the proposed budget, and other support documentation, at least 29 days before the expiration of the funded period.

(c) Requests by the recipient to have a grant modified must be in writing to the grant officer. Prior approvals and changes are detailed in §1260.125.

(d) A no-cost extension can be issued by the recipient as detailed in paragraph (b) of the provision at §1260.23, Extensions, and §1260.125(e). NASA reserves the right to disapprove the extension request if the requirements set forth at §1260.125(e)(2) are not met, including if the extension request is not received ten days prior to the grant expiration date.

(e) When two or more actions are completed on a single supplement, the supplement will reflect the effective date of the earliest action.

§ 1260.72 Adherence to original budget estimates.

(a) Although NASA assumes no responsibility for budget overruns, the recipient may spend grant funds without strict adherence to individual allocations within the proposed budgets, except that recipients must comply with prior approval requirements for property and subcontracts as provided in §§1260.27 and 1260.33.

(b) The revision of budgets and program plans are covered in §1260.125.

§ 1260.73 Transfers, novations, and change of name agreements.

(a) When the principal investigator changes organizational affiliation and desires support for the research at a new location, (i.e., for the grant to be transferred), the grant officer should first consult with the institution that originally received the grant to ascertain whether an acceptable replacement principal investigator can be substituted to complete the research effort. The final decision on whether an acceptable replacement is available, or that the research effort should follow the original principal investigator to the new location, is at the discretion of the NASA technical Officer. If the decision is made to transfer the grant, the grant at the original institution must be terminated, and a new proposal must be submitted to NASA via the appropriate officials of the new institution. Although such a proposal will be
reviewed in the normal manner, every effort will be made to expedite a decision. Regardless of the action taken on the new proposal, final reports on the original grant, describing the scientific progress and expenditure to date, will be required.

(b) Novation and change of name agreements are administrative actions requiring the involvement of the grant officer. Novations are legal instruments under which obligations of an organization, (including the performance of grants), are assumed by a new organization arising out of a transfer of assets, usually as a result of a merger or acquisition by the new organization. Change of name agreements are legal instruments executed by an organization and NASA that recognizes the legal change of name of the organization without disturbing the original rights or obligations of the parties. Procedures for completing novation and change of name agreements are set forth at FAR subpart 42.12. All novation agreements and change of name agreements of the recipient, prior to execution, shall be reviewed by legal counsel for legal sufficiency. It is recommended that the cognizant ONR office be contacted to determine responsibilities to complete novation or change of name agreements.

§ 1260.74 Property use, disposition, and vesting of title.

(a) Approval for acquisition of property shall conform to the following procedures:

(1) Providing existing government equipment or property, or allowing acquisition of property by a grant recipient, should only be allowed in situations where the recipient justifies the need for the property and cannot carry out the effort with existing property already in the possession of the recipient.

(2) In accordance with OMB Circulars A–21 and A–122, prior approval of property acquisitions is required for special purpose equipment with a unit cost over $5,000, general purpose equipment with a unit cost over $5,000, (unless a lower threshold has been established by the recipient), or coherent systems (as defined in §1260.74(e)) with a value of over $5,000. Grant awards under the Federal Demonstration Partnership are exempt from this requirement. The NASA grant officer will retain authority for approving the expenditure of grant funds for the acquisition of such equipment. Requests by grant recipients for the acquisition of equipment shall be supported by written documentation setting forth the description, purpose, and acquisition value of the equipment, and include a written certification that the equipment will be used exclusively for research. (A change in the model number of a prior approved piece of equipment does not require re-submission for that item.) NASA grant officers shall not approve the expenditure of grant funds for the acquisition of equipment unless the recipient’s justification for the equipment demonstrates that the equipment will be used exclusively for research activities.

(b) Vesting of title to property acquired by the recipient shall conform to the following procedures:

(1) For awards to educational institutions and non-profit organizations, special purpose and general purpose equipment costing in excess of $5,000 (unless a lower threshold has been established by the recipient) acquired by the recipient under a grant or cooperative agreement for the purpose of research shall be titled to the recipient as “exempt” equipment as set forth at §1260.133(b). The recipient shall have no further obligation or accountability to the Federal Government for the use or disposition of “exempt” property, including reporting requirements. Special purpose and general purpose equipment costing in excess of $5,000 (unless a lower threshold has been established by the recipient) acquired by the recipient under a grant or cooperative agreement for non-research work shall be titled to the recipient in accordance with §1260.134.

(2) For awards to commercial organizations, the following property procedures will apply:

(i) Acquisition of special purpose equipment costing in excess of $5,000 and not included in the approved proposal budget requires the prior approval of the grant officer unless the item is merely a different model of an
§ 1260.74 14 CFR Ch. V (1–1–02 Edition)

Item shown in the approved proposal budget.

(ii) Recipients may not purchase, as a direct cost to the grant, items of general purpose equipment, examples of which include but are not limited to office equipment and furnishings, air conditioning equipment, reproduction and printing equipment, motor vehicles, and automatic data processing equipment. If the recipient requests an exception, the recipient shall submit a written request for grant officer approval, prior to purchase by the recipient, stating why the recipient cannot charge the general purpose equipment to indirect costs.

(iii) Under no circumstances shall grant funds be used to acquire land or any interest therein, to acquire or construct facilities (as defined in 48 CFR (FAR) 45.301), or to procure passenger carrying vehicles.

(iv) The Government shall have title to equipment and other personal property acquired with Government funds. Such property shall be disposed of pursuant to 48 CFR (FAR) 45.603.

(v) Title to Government furnished equipment (including equipment, title to which has been transferred to the Government prior to completion of the work) will remain with the Government.

(vi) The Recipient shall establish and maintain property management standards for Government property and otherwise manage such property as set forth in 48 CFR (FAR) 45.5 and 48 CFR (NFS) 1845.5.

(vii) Recipients shall submit annually a NASA Form 1018, NASA Property in the Custody of Contractors, in accordance with the instructions on the form, the provisions of 48 CFR (NFS) 1845.71 and any supplemental instructions that may be issued by NASA for the current reporting period. The original NF 1018 shall be submitted to the center Deputy Chief Financial Officer. Finance, with three copies sent concurrently to the center industrial property officer. The annual reporting period shall be from October 1 of each year through September 30 of the following year. The report shall be submitted in time to be received by October 31. Negative reports (i.e., no reportable property) are required. The information contained in the reports is entered into the NASA accounting system to reflect current asset values for agency financial statement purposes. Therefore, it is essential that required reports be received no later than October 31. A final report is required within 30 days after expiration of the agreement.

(c) Equipment with a unit price of $5,000 or less (unless a lower threshold has been established by the recipient) is properly classified as “supplies,” is not subject to transfer to the Agency, and will be titled to the recipient in accordance with §1260.135.

(d) Title to Federally-owned property remains with the Government, and is subject to the following additional requirements:

1. In accordance with Public Law 94–519, NASA will not acquire property from other agencies for use on NASA grants.

2. Government property provided to a grant recipient for use under a grant will be identified through inclusion of the special condition at §1260.66, Listing of Reportable Equipment and Other Property.

3. When Federally-owned property is reported excess by a recipient, the administrative grant officer will report the equipment to the center industrial property officer, who will consult with the technical officer concerning property disposition.

4. NASA policy encourages the donation of existing, excess NASA property to nonprofit organizations whose primary purpose is the conduct of scientific research.

(e) When two or more components are fabricated into a single coherent system in such a way that the components lose their separate identities, and their separation would render the system useless for its original purpose, the components will be considered as integral parts of a single system. If such a system includes recipient-owned components, the property will be considered to be exempt. The requirement for agreement regarding NASA’s retention of its option to take title shall further apply where it is expected that one or more recipient-acquired components costing $5,000 or less will be fabricated into a single coherent system costing...
in excess of $5,000. However, an item that is used ancillary to a system, without loss of its separate identity and usefulness, will be considered as a separate item and not as an integral component of the system.

(f) Property administration and plant clearance for all grants and cooperative agreements will be delegated to the appropriate ONR office.

(g) NASA grant officers will provide copies of property related grant documentation to the center industrial property officer and to the Office of Naval Research (at time of award or modification) when the NASA program office elects to retain title to an existing item of Government property, to furnish the property to the recipient in lieu of donation, or to take title to property acquired by the recipient. When NASA acquires title to items of recipient acquired equipment or when NASA transfers an item of Government property to a recipient as Federally owned property, the NASA grant officer shall notify the cognizant NASA center financial management officer, the industrial property officer and Office of Naval Research to ensure proper entries in financial and property accounting records.

§ 1260.75 Summary of report requirements.

(a) Report responsibilities of the grant officer are set forth as follows:

(1) The grant officer is responsible for submitting the Individual Procurement Action Report (NF 507) for all grant and cooperative agreement actions.

(2) The Committee on Academic Science and Engineering (CASE) Report (NF 1356), for grants and cooperative agreements awarded to educational institutions, is submitted by the program office with the basic award procurement request and completed by the grant officer. The grant officer should initiate an amendment to the NF 1356 whenever the principal investigator or the technical officer changes.

(b) Intermediate report responsibilities of the recipient are as follows:

(1) The Federal Cash Transactions Report (SF 272) shall be submitted by the recipient in accordance with §1260.26(a), as a condition of receiving advance payments. Instructions and answers to payment questions will be provided by the Financial Management Office of the Center that issued the grant. (see §1260.152.)

(2) The annual Inventory Report of Federally Owned Property in Custody of the Recipient will be submitted by the recipient as required by §1260.27(e). The listing shall include information specified in §1260.134(f) together with beginning and ending dollar value totals for the reporting period. Negative reports (i.e., where no property has been acquired or provided, or where all acquired property has been titled to the recipient as exempt) are not required. Please note that any property acquired by the recipient and not titled to the recipient as exempt, must be reported, even when titled to the recipient as non-exempt property in accordance with the procedures set forth at §1260.134.

(3) A Progress Report shall be submitted in accordance with §§1260.22 and 1260.151. Recipients are not required to submit more than the original and two copies. At the request of the technical officer, technical reports can be submitted as new findings are made rather than on a predetermined time schedule, by use of the special condition at §1260.55, entitled “Reports Substitution.”

(4) An Educational Activity Report is required annually for education grants in accordance with §1260.22. The report is due 60 days prior to the anniversary date of the grant or cooperative agreement.

(5) A Report of Joint NASA/Recipient Inventions is required for all grants and cooperative agreements, as applicable, in accordance with §1260.28.

(6) A Disclosure of Subject Invention is required for all grants and cooperative agreements, as applicable, in accordance with §1260.28. The reporting of the invention shall be made within two months after the inventor discloses it to the recipient, and will be reported on NASA Form 1679 Disclosure of Invention and New Technology (Including Software) in accordance with the procedures set forth under §1260.28.

(7) An Election of Title to a Subject Invention is required for all grants and
cooperative agreements, as applicable, in accordance with §1260.28. The notice is due within 1 year after disclosure of the subject invention if a statutory bar exists, otherwise within 2 years.

(8) A Listing of Subject Inventions is required for all grants and cooperative agreements, in accordance with §1260.28. The listing is due annually.

(9) A Notification of Decision to Forego Patent Protection is required for all grants and cooperative agreements, as applicable, in accordance with §1260.28. The notification is due 30 days before the expiration of the response period.

(10) A Utilization of Subject Invention Report is required for all grants and cooperative agreements, as applicable, in accordance with §1260.28. The report is due annually.

(11) A Notice of Proposed Transfer of Technology is required for all grants and cooperative agreements, as applicable, in accordance with §1260.30. The notice is required prior to transferring technology to a foreign firm or institution.

(12) An Annual NASA Form 1018, NASA Property in the Custody of Contractors, is required for all grants and cooperative agreements with commercial organizations. The reports are due October 31st of each year. Negative reports (i.e., no reportable property) are required.

(c) Final report responsibilities of the recipient are as follows:

(1) A Subject Inventions Final Report is required for all grants and cooperative agreements, as applicable, in accordance with §1260.28. The report is due within 90 days after the expiration of the grant or cooperative agreement.

(2) A properly certified Final Federal Cash Transactions Report, SF 272, is required from the recipient for each grant, in accordance with §§1260.26(a) and 1260.152. The report is due within 90 days after the expiration of the grant or cooperative agreement.

(3) A Summary of Research is required for all research grants in accordance with §1260.22. Citation of publications resulting from research, or abstracts thereof, may serve as all or part of the Summary of Research. The Summary of Research shall also include a complete list of all subject inventions (or negative statement) required to be disclosed that resulted from the work (see the provision at §1260.28).

(4) A Final Inventory Report of Federally Owned Property, including equipment where title was taken by the Government, is required for all grants and cooperative agreements, where property or equipment has been provided by the government or acquired by the recipient, §1260.27. The report is due within 60 days after the expiration of the grant or cooperative agreement. Negative reports (i.e., where no property has been acquired or provided) are required.

(5) A Final Educational Activity Report is required for all education grants or cooperative agreements. The report is due within 90 days after the expiration of the grant or cooperative agreement.

(6) A Faculty Advisor Survey is required for all training grants. The report is due from the student’s faculty advisor within 60 days after the expiration of the training grant.

(7) A Summary of Research is required for all training grants. The report is due from the student within 90 days after the expiration of the training grant.

(8) An Administrative Report is required for all training grants. The report is due within 90 days after the expiration of the training grant.

(9) A Student Evaluation Form is required for all training grants. The form is due from the student within 90 days after the expiration of the training grant.

(10) A Final NASA Form 1018, NASA Property in the Custody of Contractors, is required for all grants and cooperative agreements with commercial organizations. The report is due within 30 days after the expiration of the grant or cooperative agreement.

(d) To clarify report requirements to grant and cooperative agreement recipients, the grant officer will include the “Required Publications and Reports” form (Exhibit G to subpart A of this part 1260) as part of the award document.
§ 1260.76 Termination and enforcement.

(a) Suspension or termination of a grant prior to the planned expiration date must be reserved for exceptional situations that cannot be handled any other way (see §1260.160).

(b) The Director, Program Operations Division (Code HS), shall provide to the General Services Administration information concerning all NASA debarments, suspensions, determinations of ineligibility, and voluntary exclusions of persons in accordance with 14 CFR 1265.505.

(c) Remedies for Noncompliance are delineated in §1260.162.

(d) Failure of the recipient to provide a required report can result in the Agency and the public being denied information about grant activities, NASA officials having less information for making decisions, grant closeout being delayed, and confidence being undermined as to whether the recipient will meet the requirements under other grants. Because NASA grants provide for advance payments, a recipient could be fully paid before final reports are due. At this point, it is too late to withhold payment on the existing grant.

(e) Consistent with §§1260.122(h) and 1260.162(a), NASA may suspend or terminate advance payments from recipients that fail to comply with reporting requirements. To remedy failure to furnish timely reports, special condition at §1260.56, Withholding, should be used when awarding a new grant or modifying an existing grant with non-responsive organizations.

(1) Special condition at §1260.56 allows the grant officer to instruct the Financial Management Office to suspend or terminate advance payments from recipients that fail to comply with reporting requirements. To remedy failure to furnish timely reports, special condition at §1260.56, Withholding, should be used when awarding a new grant or modifying an existing grant with non-responsive organizations.

(2) The grant officer may waive the withholding requirement when the recipient has taken corrective action that makes withholding unnecessary. To release for payment the amount withheld, grant officers shall send a memorandum to their Financial Management Office.

§ 1260.77 Closeout procedures.

Closeout is the process by which NASA determines that all applicable administrative actions and all required work under the instrument have been completed by both the recipient and NASA and no further activity is expected (see §1260.171).

(a) Closeout will begin within 90 days after the expiration date of the grant. NASA’s goal for closeout to be completed is within 180 days after the expiration of the grant.

(b) Those who are designated to receive NASA reports (except for CASI, which only acknowledges receipt) must provide certification to the NASA grant officer, and to ONR when delegated, that the reports have been received and satisfactorily completed. Electronic certifications are acceptable. See §§1260.75 and 1260.171(a). The property certification should indicate that disposal of any remaining Government property has been made as directed and that NASA has been compensated for any residual inventory.

(c) When ONR has been delegated closeout and has completed its actions, the NASA grant officer is to receive from ONR all of the following:

(1) Certification that all required reports have been received and approved. However, when a NASA technical officer does not respond to a third request from ONR to provide a certification for a Summary of Research, ONR may provide a “qualified acceptance statement” in lieu of the required certification, after providing written notification to the NASA grant officer.

(2) A DD Form 1593 Contract Administration Completion Record (or equivalent electronic notification), without supporting or backup documents, indicating property administration is complete.

(3) An original, signed DD Form 1594 Contract Completion Statement.

(d) A grant is administratively complete and ready for closeout when:

(1) Property disposition has been completed.

(2) Certifications for all reports have been received.

(3) A DD Form 1594 has been received, when delegated.

(4) Payments have been made for allowable reimbursable costs, and refunds have been received for any balance of unobligated cash advanced that is not authorized to be retained for use on other grants (see §§1260.171 through 1260.173).

(e) Grants will not be closed out if litigation or an appeal is pending, or when termination action has not been completed.

(f) Records will be retained in accordance with §1260.153 and NPG 1441.1, Record Retention Schedules. As set forth in the NPG, grant files are generally retired to the Federal Records Center 2 years after completion of the grant or agreement, and destroyed when 6 years, 3 months old.

APPENDIX TO SUBPART A TO PART 1260—LISTING OF EXHIBITS

Exhibit A—Budget Summary
Exhibit B—Standard Grant and Cooperative Agreement Cover Page
Exhibit C—Provisions
Exhibit D—Federal Demonstration Partnership Terms and Conditions
Exhibit E—Special Conditions for Cooperative Agreements between NASA and the Commercial Space Centers
Exhibit F—NASA 1674 Letter of Delegation for the Administration of Grants and Cooperative Agreements
Exhibit G—Required Publications and Reports

Subpart B—Uniform Administrative Requirements for Grants and Cooperative Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations

GENERAL

§1260.101 Purpose.

This subpart implements OMB Circular No. A-110 and establishes uniform administrative requirements for NASA grants and agreements awarded to institutions of higher education, hospitals, and other non-profit organizations. NASA shall not impose additional or inconsistent requirements, except as provided in §§1260.104 and 1260.114 or unless specifically required by Federal statute or executive order. Non-profit organizations that implement Federal programs for the States are also subject to State requirements.

§1260.102 Definitions.

Accrued expenditures means the charges incurred by the recipient during a given period requiring the provision of funds for:

1. Goods and other tangible property received;
2. Services performed by employees, contractors, subcontractors, and other payees; and
3. Other amounts becoming owed under programs for which no current services or performance is required.

Accrued income means the sum of:

1. Earnings during a given period from services performed by the recipient, and goods and other tangible property delivered to purchasers; and
2. Amounts becoming owed to the recipient for which no current services or performance is required by the recipient.

Acquisition cost of equipment means the net invoice price of the equipment, including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges, such as the cost of installation, transportation, taxes, duty or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the recipient’s regular accounting practices.

Advance means a payment made by Treasury check or other appropriate payment mechanism to a recipient upon its request either before outlays are made by the recipient or through the use of predetermined payment schedules.

Award means a grant or cooperative agreement that provides support or stimulation to accomplish a public purpose. Awards include research grants, training grants, facilities grants, educational grants, and cooperative agreements in the form of money or property in lieu of money, by NASA to an eligible recipient. The term does not include: Technical assistance, which provides services instead of money; other assistance in the form of
loans, loan guarantees, interest subsidies, or insurance; direct payments of any kind to individuals; and, contracts which are required to be entered into and administered under procurement laws and regulations.

Cash contributions means the recipient’s cash outlay, including the outlay of money contributed to the recipient by third parties.

Closeout means the process by which NASA determines that all applicable administrative actions and all required work of the award have been completed by the recipient and NASA.

Contract means a procurement contract under an award, and a procurement subcontract under a recipient’s contract.

Cost sharing or matching means that portion of project or program costs not borne by NASA.

Date of completion means the date on which all work under an award is completed or the date on the award document, or any supplement or amendment thereto, on which NASA sponsorship ends.

Disallowed costs means those charges to an award that NASA determines to be unallowable, in accordance with the applicable Federal cost principles or other terms and conditions contained in the award.

Equipment means tangible nonexpendable personal property including exempt property charged directly to the award having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. However, consistent with recipient policy, lower limits may be established.

Excess property means property under the control of any Federal awarding agency that, as determined by the head thereof, is no longer required for its needs or the discharge of its responsibilities.

Exempt property means tangible personal property acquired in whole or in part with Federal funds, where a Federal awarding agency has statutory authority to vest title in the recipient without further obligation to the Federal Government. An example of exempt property authority is contained in the Federal Grant and Cooperative Agreement Act (31 U.S.C. 6306) for property acquired under an award to conduct basic or applied research by a non-profit institution of higher education or non-profit organization whose principal purpose is conducting scientific research.

Federal funds authorized means the total amount of Federal funds obligated by the Federal Government for use by the recipient. This amount may include any authorized carryover of un obligated funds from prior funding periods when permitted by agency regulations or agency implementing instructions.

Federal share of real property, equipment, or supplies means that percentage of the property’s acquisition costs and any improvement expenditures paid with Federal funds.

Funding period means the period of time when NASA funding is available for obligation by the recipient.

Intangible property and debt instruments means, but is not limited to, trademarks, copyrights, patents and patent applications and such property as loans, notes and other debt instruments, lease agreements, stock and other instruments of property ownership, whether considered tangible or intangible.

NASA means the National Aeronautics and Space Administration (NASA), including its authorized representatives.

Obligations mean the amounts of orders placed, contracts and grants awarded, services received and similar transactions during a given period that require payment by the recipient during the same or a future period.

Outlays or expenditures means charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense charged, the value of third party in-kind contributions applied and the amount of cash advances and payments made to subcontractors. For reports prepared on an accrual basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase (or decrease) in the amounts owed by the
§ 1260.102 recipient for goods and other property received for services performed by employees, contractors, subcontractors and other payees and other amounts becoming owed under programs for which no current services or performance are required.

Personal property means property of any kind except real property. It may be tangible, having physical existence, or intangible, having no physical existence, such as copyrights, patents, or securities.

Prior approval means written approval by an authorized official evidencing prior consent.

Program income means gross income earned by the recipient that is directly generated by a supported activity or earned as a result of the award (see exclusions in §1260.124(c) and (f)). Program income includes, but is not limited to, income from fees for services performed, the use or rental of real or personal property acquired under federally-funded projects, the sale of commodities or items fabricated under an award, license fees and royalties on patents and copyrights, and interest on loans made with award funds. Interest earned on advances of NASA funds is not program income. Except as otherwise provided in the regulations in this subpart or the terms and conditions of the award, program income does not include the receipt of principal on loans, rebates, credits, discounts, etc., or interest earned on any of them.

Project costs means all allowable costs, as set forth in the applicable Federal cost principles, incurred by a recipient and the value of the contributions made by third parties in accomplishing the objectives of the award during the project period.

Project period means the period established in the award document during which NASA sponsorship begins and ends.

Property means, unless otherwise stated, real property, equipment, intellectual property and debt instruments.

Real property means land, including land improvements, structures and appurtenances thereto, but excludes movable machinery and equipment.

Recipient means an organization receiving an award directly from NASA to carry out a project or program. The term includes public and private institutions of higher education, public and private hospitals, and other quasi-public and private non-profit organizations such as, but not limited to, community action agencies, research institutes, educational associations, and health centers. The term may include commercial organizations, foreign or international organizations (such as agencies of the United Nations) which are recipients, subcontractors, or contractors or subcontractors of recipients. The term does not include government-owned contractor-operated facilities or research centers providing continued support for mission-oriented, large-scale programs that are government-owned or controlled, or are designated as federally-funded research and development centers.

Research and development means all research activities, both basic and applied, and all development activities that are supported at universities, colleges, and other nonprofit institutions. “Research” is defined as a systematic study directed toward fuller scientific knowledge or understanding of the subject studied. “Development” is the systematic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes. The term “research” also included activities involving the training of individuals in research techniques where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.

Small awards means a grant or cooperative agreement not exceeding the small purchase threshold.

Subaward means an award of financial assistance in the form of money, or property in lieu of money, made under an award by a recipient to an eligible subrecipient or by a subrecipient to a lower tier subrecipient. The term includes financial assistance when provided by any legal agreement, even if the agreement is called a contract, but does not include procurement of goods and services nor does it include any form of assistance which is excluded.
§ 1260.103 Effect on other issuances.

For awards subject to this subpart, the requirements of this subpart apply, except to the extent that any administrative requirements of codified program regulations, program manuals, handbooks and other nonregulatory materials are required by statute, or are authorized in accordance with the deviations provision in § 1260.104.

§ 1260.104 Deviations.

The Office of Management and Budget (OMB) may grant exceptions for classes of grants or recipients subject to the requirements of this subpart when exceptions are not prohibited by statute. However, in the interest of maximum uniformity, exceptions from the requirements of this subpart shall be permitted only in unusual circumstances. NASA may apply more restrictive requirements to a class of recipients when approved by OMB. NASA may apply less restrictive requirements when awarding small awards, except for those requirements which are statutory. Exceptions on a case-by-case basis may also be made by NASA. See § 1260.6(c).

§ 1260.105 Subawards.

Unless sections of this subpart specifically exclude subrecipients from coverage, the provisions of this subpart shall be applied to subrecipients performing work under awards if such subrecipients are institutions of higher education, hospitals or other non-profit organizations. State and local government subrecipients are subject to the provisions of 14 CFR part 1273, “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.”
§ 1260.110 Purpose.

Sections 1260.111 through 1260.117 prescribe forms and instructions and other pre-award matters to be used in applying for NASA awards.

§ 1260.111 Pre-award policies.

(a) Use of grants and cooperative agreements, and contracts. In each instance, NASA shall decide on the appropriate award instrument (i.e., grant, cooperative agreement, or contract). The Federal Grant and Cooperative Agreement Act (31 U.S.C. 6301–08) governs the use of grants, cooperative agreements and contracts. A grant or cooperative agreement shall be used only when the principal purpose of a transaction is to accomplish a public purpose of support or stimulation authorized by Federal statute. The statutory criterion for choosing between grants and cooperative agreements is that for the latter, “substantial involvement is expected between the executive agency and the State, local government, or other recipient when carrying out the activity contemplated in the agreement.” Contracts shall be used when the principal purpose is acquisition of property or services for the direct benefit or use of the Federal Government.

(b) Public notice and priority setting. NASA notifies the public of its intended funding priorities for discretionary grant programs through Broad Agency Announcements, Cooperative Agreement Notices, Agency-Wide program announcements, and other approved forms of announcements.

§ 1260.112 Forms for applying for Federal assistance.

(a) NASA shall comply with the applicable report clearance requirements of 5 CFR part 1320, “Controlling Paperwork Burdens on the Public,” with regard to all forms used by the NASA in place of or as a supplement to the Standard Form 424 (SF 424) series.

(b) Applicants shall use those forms and instructions prescribed by NASA in §1260.10.

§ 1260.113 Debarment and suspension.

NASA and recipients shall comply with the nonprocurement debarment and suspension rule, 14 CFR part 1255, “Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants),” implementing Executive Orders 12549 and 12689, “Debarment and Suspension.” This rule restricts contracts with certain parties that are debarred, suspended or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

§ 1260.114 Special award conditions.

If an applicant or recipient has a history of poor performance, is not financially stable, has a management system that does not meet the standards prescribed in this subpart, has not conformed to the terms and conditions of a previous award, or is not otherwise responsible, NASA may impose additional requirements as needed. Such applicant or recipient will be notified in writing as to the nature of the additional requirements, the reason why the additional requirements are being imposed, the nature of the corrective action needed, the time allowed for completing the corrective actions, and the method for requesting reconsideration of the additional requirements imposed. Any special conditions shall be promptly removed once the conditions that prompted them have been corrected.

§ 1260.115 Metric system of measurement.

The Metric Conversion Act, as amended by the Omnibus Trade and Competitiveness Act (15 U.S.C. 205) declares that the metric system is the preferred measurement system for U.S. trade and commerce. The Act requires each Federal agency to establish a date or dates in consultation with the Secretary of Commerce, when the metric system of measurement will be used in the agency’s procurements, grants, and other business-related activities. Metric implementation may take longer where the use of the system is initially impractical or likely to cause significant inefficiencies in the accomplishment of federally-funded activities. NASA follows the provisions of Executive Order 12770, “Metric Usage in Federal Government Programs.” NASA’s
policy with respect to the metric measurement system is stated in NASA Policy Directive (NPD) 8010.2, Use of the Metric System of Measurement in NASA Programs.

§ 1260.116 Resources Conservation and Recovery Act (RCRA).

Under the RCRA (Pub. L. 94–580 codified at 42 U.S.C. 6962), any State agency or agency of a political subdivision of a State which is using appropriated Federal funds must comply with section 6002 of the RCRA (42 U.S.C. 6962). Section 6002 requires that preference be given in procurement programs to the purchase of specific products containing recycled materials identified in guidelines developed by the Environmental Protection Agency (EPA) (40 CFR parts 247 through 254). Accordingly, State and local institutions of higher education, hospitals, and non-profit organizations that receive direct Federal awards or other Federal funds shall give preference in their procurement programs funded with Federal funds to the purchase of recycled products pursuant to the EPA guidelines.

§ 1260.117 Certifications and representations.

Unless prohibited by statute or codified regulation, NASA will allow recipients to submit certain certifications and representations required by statute, executive order, or regulation on an annual basis, if the recipients have ongoing and continuing relationships with the agency. Annual certifications and representations shall be signed by responsible officials with the authority to ensure recipients’ compliance with the pertinent requirements.

POST-AWARD REQUIREMENTS

FINANCIAL AND PROGRAM MANAGEMENT

§ 1260.120 Purpose of financial and program management.

Sections 1260.121 through 1260.128 prescribe standards for financial management systems, methods for making payments and rules for: satisfying cost sharing and matching requirements, accounting for program income, budget revision approvals, making audits, determining allowability of cost, and establishing fund availability.

§ 1260.121 Standards for financial management systems.

(a) Recipients shall relate financial data to performance data and develop unit cost information whenever practical. For awards that support research, it should be noted that it is generally not appropriate to develop unit cost information.

(b) Recipients’ financial management systems shall provide for the following.

(1) Accurate, current and complete disclosure of the financial results of each federally-sponsored project or program in accordance with the reporting requirements set forth in §1260.152. If NASA requires reporting on an accrual basis from a recipient that maintains its records on other than an accrual basis, the recipient shall not be required to establish an accrual accounting system. These recipients may develop such accrual data for its reports on the basis of an analysis of the documentation on hand.

(2) Records that identify adequately the source and application of funds for federally-sponsored activities. These records shall contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, outlays, income and interest.

(3) Effective control over and accountability for all funds, property and other assets. Recipients shall adequately safeguard all such assets and assure they are used solely for authorized purposes.

(4) Comparison of outlays with budget amounts for each award. Whenever appropriate, financial information should be related to performance and unit cost data.

(5) Written procedures to minimize the time elapsing between the transfer of funds to the recipient from the U.S. Treasury and the issuance or redemption of checks, warrants or payments by other means for program purposes by the recipient. To the extent that the provisions of the Cash Management Improvement Act (CMIA) (Pub. L. 101–453) govern, payment methods of State agencies, instrumentalities, and fiscal agents shall be consistent with CMIA Treasury-State Agreements or the CMIA default procedures codified at 31 CFR part 205, “Withdrawal of Cash
§ 1260.122 Payment.

(a) Payment methods shall minimize the time elapsing between the transfer of funds from the United States Treasury and the issuance or redemption of checks, warrants, or payment by other means by the recipients. Payment methods of State agencies or instrumentalities shall be consistent with Treasury-State CMIA agreements or default procedures codified at 31 CFR part 205.

(b)(1) Recipients are to be paid in advance, provided they maintain or demonstrate the willingness to maintain:

(i) Written procedures that minimize the time elapsing between the transfer of funds and disbursement by the recipient; and

(ii) Financial management systems that meet the standards for fund control and accountability as established in §1260.121.

(2) Cash advances to a recipient organization shall be limited to the minimum amounts needed and be timed to be in accordance with the actual, immediate cash requirements of the recipient organization in carrying out the purpose of the approved program or project. The timing and amount of cash advances shall be as close as is administratively feasible to the actual disbursements by the recipient organization for direct program or project costs and the proportionate share of any allowable indirect costs.

(c) Where the Federal Government guarantees or insures the repayment of money borrowed by the recipient, NASA, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

(d) NASA may require adequate fidelity bond coverage where the recipient lacks sufficient coverage to protect the Federal Government’s interest.

(e) Where bonds are required in the situations described in this section, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties, as prescribed in 31 CFR part 223, “Surety Companies Doing Business with the United States.”

§ 1260.122 Payment.

(6) Written procedures for determining the reasonableness, allocability and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms and conditions of the award.

(7) Accounting records including cost accounting records that are supported by source documentation.

(6) Written procedures for determining the reasonableness, allocability and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms and conditions of the award.

(7) Accounting records including cost accounting records that are supported by source documentation.

(c) Where the Federal Government guarantees or insures the repayment of money borrowed by the recipient, NASA, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

(d) NASA may require adequate fidelity bond coverage where the recipient lacks sufficient coverage to protect the Federal Government’s interest.

(e) Where bonds are required in the situations described in this section, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties, as prescribed in 31 CFR part 223, “Surety Companies Doing Business with the United States.”
audit recoveries and interest earned on such funds before requesting additional cash payments.

(h) Unless otherwise required by statute, NASA will not withhold payments for proper charges made by recipients at any time during the project period unless the conditions in paragraphs (h)(1) or (2) of this section apply.

(1) A recipient has failed to comply with the project objectives, the terms and conditions of the award, or NASA reporting requirements.

(2) The recipient is delinquent in a debt to the United States as defined in OMB Circular A–129, “Managing Federal Credit Programs.” Under such conditions, NASA may, upon reasonable notice, inform the recipient that payments shall not be made for obligations incurred after a specified date until the conditions are corrected or the indebtedness to the Federal Government is liquidated.

(i) Standards governing the use of banks and other institutions as depositories of funds advanced under awards are as follows.

(1) Except for situations described in paragraph (1)(2) of this section, NASA shall not require separate depository accounts for funds provided to a recipient or establish any eligibility requirements for depositories for funds provided to a recipient. However, recipients must be able to account for the receipt, obligation and expenditure of funds.

(2) Advances of Federal funds shall be deposited and maintained in insured accounts whenever possible.

(j) Consistent with the national goal of expanding the opportunities for women-owned and minority-owned business enterprises, recipients shall be encouraged to use women-owned and minority-owned banks (a bank which is owned at least 50 percent by women or minority group members).

(k) Recipients shall maintain advances of Federal funds in interest bearing accounts, unless the conditions in paragraphs (k)(1), (2), or (3) of this section apply.

(1) The recipient receives less than $120,000 in Federal awards per year.

(2) The best reasonably available interest bearing account would not be expected to earn interest in excess of $250 per year on Federal cash balances.

(3) The depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources.

(l) Interest earned on Federal advances deposited in interest-bearing accounts in excess of $250 per year shall be remitted annually to Department of Health and Human Services (DHHS), Payment Management System, Rockville, MD 20852. Interest amounts up to $250 per year may be retained by the recipient for administrative expense. In accordance with 31 CFR part 206, interest should be remitted electronically through the Automated Clearing House (ACT) to DHHS. Recipients without this capability may make the remittance by check. In either case, the remittance should be payable to DHHS and should indicate the recipient’s Entity Identification Number (EIN) and reason, i.e., “Interest earned.”

(m) Except as noted elsewhere in this subpart, only the following forms shall be authorized for the recipients in requesting advances and reimbursements. Federal agencies shall not require more than an original and two copies of these forms.

(1) SF-270, Request for Advance or Reimbursement. [Reserved. Not used by NASA.]

(2) SF-271, Outlay Report and Request for Reimbursement for Construction Programs. The SF-271 may be used for requesting reimbursement for NASA construction programs.

§1260.123 Cost sharing or matching.

(a) All contributions, including cash and third party in-kind, shall be accepted as part of the recipient’s cost sharing or matching when such contributions meet all of the following criteria.

(1) Are verifiable from the recipient’s records.

(2) Are not included as contributions for any other federally-assisted project or program.

(3) Are necessary and reasonable for proper and efficient accomplishment of project or program objectives.
(4) Are allowable under the applicable cost principles.

(5) Are not paid by the Federal Government under another award, except where authorized by Federal statute to be used for cost sharing or matching.

(6) Are provided for in the approved budget when required by NASA.

(7) Conform to other provisions of this subpart, as applicable.

(b) Unrecovered indirect costs may be included as part of cost sharing or matching only with the prior approval of the cognizant NASA grant officer.

(c) Values for recipient contributions of services and property shall be established in accordance with the applicable cost principles. If NASA authorizes recipients to donate buildings or land for construction/facilities acquisition projects or long-term use, the value of the donated property for cost sharing or matching shall be the lesser of paragraph (c)(1) or (2) of this section.

(1) The certified value of the remaining life of the property recorded in the recipient’s accounting records at the time of donation.

(2) The current fair market value. However, when there is sufficient justification, NASA may approve the use of the current fair market value of the donated property, even if it exceeds the certified value at the time of donation to the project.

(d) Volunteer services furnished by professional and technical personnel, consultants, and other skilled and unskilled labor may be counted as cost sharing or matching if the service is an integral and necessary part of an approved project or program. Rates for volunteer services shall be consistent with those paid for similar work in the recipient's organization. In those instances in which the required skills are not found in the recipient organization, rates shall be consistent with those paid for similar work in the labor market in which the recipient competes for the kind of services involved. In either case, paid fringe benefits that are reasonable, allowable, and allocable may be included in the valuation.

(e) When an employer other than the recipient furnishes the services of an employee, these services shall be valued at the employee's regular rate of pay (plus an amount of fringe benefits that are reasonable, allowable, and allocable, but exclusive of overhead costs), provided these services are in the same skill for which the employee is normally paid.

(f) Donated supplies may include such items as expendable equipment, office supplies, laboratory supplies or workshop and classroom supplies. Value assessed to donated supplies included in the cost sharing or matching share shall be reasonable and shall not exceed the fair market value of the property at the time of the donation.

(g) The method used for determining cost sharing or matching for donated equipment, buildings and land for which title passes to the recipient may differ according to the purpose of the award, if the conditions in paragraph (g)(1) or (2) of this section apply.

(1) If the purpose of the award is to assist the recipient in the acquisition of equipment, buildings or land, the total value of the donated property may be claimed as cost sharing or matching.

(2) If the purpose of the award is to support activities that require the use of equipment, buildings or land, normally only depreciation or use charges for equipment and buildings may be made. However, the full value of equipment or other capital assets and fair rental charges for land may be allowed, provided that NASA has approved the charges.

(h) The value of donated property shall be determined in accordance with the usual accounting policies of the recipient, with the following qualifications:

(1) The value of donated land and buildings shall not exceed its fair market value at the time of donation to the recipient as established by an independent appraiser (e.g., certified real property appraiser or General Services Administration representative) and certified by a responsible official of the recipient.

(2) The value of donated equipment shall not exceed the fair market value of equipment of the same age and condition at the time of donation.

(3) The value of donated space shall not exceed the fair rental value of comparable space as established by an independent appraisal of comparable space.
§ 1260.125 Revision of budget and program plans.

(a) The budget plan is the financial expression of the project or program as approved during the award process. It may include either the Federal and non-Federal share, or only the Federal share, depending upon requirements in the regulations in this subpart. It shall be related to performance for program evaluation purposes whenever appropriate.

(b) Recipients are required to report deviations from budget and program plans, and request prior approvals for budget and program plan revisions, in accordance with this section.

(c) For nonconstruction awards, recipients shall request prior approvals from NASA for the following program or budget related reasons, except the item in paragraph (c)(5) of this section, which is waived by NASA.

(1) Change in the scope or the objective of the project or program (even if there is no associated budget revision requiring prior written approval).

(2) Change in a key person specified in the application or award document.

(3) The absence for more than three months, or a 25 percent reduction in time devoted to the project, by the approved project director or principal investigator.

(4) The need for additional Federal funding.

(5) The transfer of amounts budgeted for indirect costs to absorb increases in direct costs, or vice versa.

NOTICE: NASA waives prior approval of such revisions.

(6) The inclusion of costs that require prior approval in accordance with OMB Circular A–21, “Cost Principles for Institutions of Higher Education”; OMB Circular A–122, “Cost Principles for Non-Profit Organizations”; 45 CFR part 74 appendix E, “Principles for Determining Costs Applicable to Research and Development under Grants and...

(7) The transfer of funds allotted for training allowances (direct payment to trainees) to other categories of expense.

(8) Unless described in the application and funded in the approved awards, the subaward, transfer or contracting out of any work under an award. This provision does not apply to the purchase of supplies, material, equipment or general support services.

(d) No other prior approval requirements for specific items will be imposed unless a deviation has been approved by OMB.

(e) NASA has determined to waive the following cost-related and administrative prior written approvals otherwise required by OMB Circulars A–21, A–110 and A–122 to allow recipients to do the following:

(1) Incur pre-award costs 90 calendar days prior to award or more than 90 calendar days with the prior approval of NASA. All pre-award costs are incurred at the recipient’s risk (i.e., NASA is under no obligation to reimburse such costs if for any reason the recipient does not receive an award or if the award is less than anticipated and inadequate to cover such costs).

(2) Initiate a one-time extension of the expiration date of the award of up to 12 months unless one or more of the following conditions apply. For one-time extensions, the recipient must notify NASA in writing with the supporting reasons and revised expiration date at least 10 days before the expiration date specified in the award. This one-time extension may not be exercised merely for the purpose of using unobligated balances.

(i) The terms and conditions of award prohibit the extension.

(ii) The extension requires additional Federal funds.

(iii) The extension involves any change in the approved objectives or scope of the project.

(3) Unless directed otherwise by the grant officer, carry forward unobligated balances to subsequent funding periods.

(f) Program regulations may restrict the transfer of funds among direct cost categories or programs, functions and activities for awards in which NASA’s share of the project exceeds $100,000 and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total budget as last approved by NASA. NASA will ensure that any such program regulation requirements are announced in program guidelines or are incorporated as special conditions in award documents. No program regulation shall permit a transfer that would cause any Federal appropriation or part thereof to be used for purposes other than those consistent with the original intent of the appropriation.

(g) All other changes to nonconstruction budgets, except for the changes described in paragraph (j) of this section, do not require prior approval.

(h) For construction awards, recipients shall request prior written approval promptly from NASA for budget revisions whenever the conditions in paragraphs (h) (1), (2) or (3) of this section apply.

(1) The revision results from changes in the scope or the objective of the project or program.

(2) The need arises for additional Federal funds to complete the project.

(3) A revision is desired which involves specific costs for which prior written approval requirements may be imposed consistent with applicable OMB cost principles listed in §1260.127.

(i) No other prior approval requirements for specific items will be imposed unless a deviation has been approved by OMB.

(j) When NASA makes an award that provides support for both construction and nonconstruction work, NASA requires the recipient to request prior approval from NASA before making any fund or budget transfers between the two types of work supported.

(k) For both construction and nonconstruction awards, NASA requires recipients to notify NASA in writing promptly whenever the amount of Federal authorized funds is expected to exceed the needs of the recipient for the project period by more than $5,000 or five percent of the Federal award, whichever is greater. This notification shall not be required if an application
§ 1260.131 Insurance coverage.

Recipients shall, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired with Federal funds as provided for property owned by the recipient. Federally-owned property need not be

§ 1260.128 Period of availability of funds.

Where a funding period is specified, a recipient may charge to the grant only allowable costs resulting from obligations incurred during the funding period and any pre-award costs authorized by NASA.

PROPERTY STANDARDS

§ 1260.130 Purpose of property standards.

Sections 1260.131 through 1260.137 set forth uniform standards governing management and disposition of property furnished by the Federal Government whose cost was charged to a project supported by a Federal award. Recipients shall observe these standards under awards and NASA will not impose additional requirements, unless specifically required by Federal statute. The recipient may use its own property management standards and procedures provided it observes the provisions of §§1260.131 through 1260.137.
§ 1260.132 Real property.

Unless otherwise provided by statute, the requirements concerning the use and disposition of real property acquired in whole or in part under awards are as follows:

(a) Title to real property shall vest in the recipient subject to the condition that the recipient shall use the real property for the authorized purpose of the project as long as it is needed and shall not encumber the property without approval of NASA.

(b) The recipient shall obtain written approval by NASA for the use of real property in other federally-sponsored projects when the recipient determines that the property is no longer needed for the purpose of the original project. Use in other projects shall be limited to those under federally-sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by NASA.

(c) When the real property is no longer needed as provided in paragraphs (a) and (b) of this section, the recipient shall request disposition instructions from NASA or its successor Federal awarding agency. NASA shall observe one or more of the following disposition instructions.

(1) The recipient may be permitted to retain title without further obligation to the Federal Government after it compensates the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project.

(2) The recipient may be directed to sell the property under guidelines provided by NASA and pay the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project.

(3) The recipient may be directed to transfer title to the property to the Federal Government or to an eligible third party provided that, in such cases, the recipient shall be entitled to compensation for its attributable percentage of the current fair market value of the property.

§ 1260.133 Federally-owned and exempt property.

(a) Federally-owned property. (1) Title to federally-owned property remains vested in the Federal Government. Recipients shall submit annually an inventory listing of federally-owned property in their custody to NASA. Upon completion of the award or when the property is no longer needed, the recipient shall report the property to NASA for further Federal agency utilization.

(2) If NASA has no further need for the property, it shall be declared excess and reported to the General Services Administration, unless NASA has statutory authority to dispose of the property by alternative methods (e.g., the authority provided by the Federal Technology Transfer Act (15 U.S.C. 3710 (I)) to donate research equipment to educational and non-profit organizations in accordance with Executive Order 12821, “Improving Mathematics and Science Education in Support of the National Education Goals.”) Appropriate instructions shall be issued to the recipient by NASA.

(b) Exempt property. Under the authority of the Childs Act, 31 U.S.C. 6301 to 6308, NASA has determined to vest title to property acquired with Federal funds in the recipient without further obligation to NASA, including reporting requirements.

§ 1260.134 Equipment.

(a) For grants and cooperative agreements for the purpose of research, NASA’s policy is to vest title to property acquired with Federal funds in the recipient without further obligation to NASA, including reporting requirements, as set forth at §1260.133(b). For grants and cooperative agreements for non-research purposes, and in the exceptional circumstance where a deviation is requested for a grant or cooperative agreement for research to not
vest title in the recipient as exempt, equipment shall vest in the recipient subject to conditions of this section. These policies are not applicable to grants and cooperative agreements with commercial firms (see §1260.74(b)(2) and §1274.401.)

(b) The recipient shall not use equipment acquired with Federal funds to provide services to non-Federal outside organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized by Federal statute, for as long as the Federal Government retains an interest in the equipment.

(c) The recipient shall use the equipment in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds and shall not encumber the property without approval of NASA. When no longer needed for the original project or program, the recipient shall use the equipment in connection with its other federally-sponsored activities, in the following order of priority:

(1) Activities sponsored by NASA, then
(2) Activities sponsored by other Federal agencies.

(d) During the time that equipment is used on the project or program for which it was acquired, the recipient shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the equipment was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by NASA; second preference shall be given to projects or programs sponsored by other Federal agencies. If the equipment is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by NASA. User charges shall be treated as program income.

(e) When acquiring replacement equipment, the recipient may use the equipment to be replaced as trade-in or sell the equipment and use the proceeds to offset the costs of the replacement equipment subject to the approval of NASA.

(f) The recipient’s property management standards for equipment acquired with Federal funds and federally-owned equipment shall include all of the following:

(1) Equipment records shall be maintained accurately and shall include the following information:
   (i) A description of the equipment.
   (ii) Manufacturer’s serial number, model number, Federal stock number, national stock number, or other identification number.
   (iii) Source of the equipment, including the award number.
   (iv) Whether title vests in the recipient or the Federal Government.
   (v) Acquisition date (or date received, if the equipment was furnished by the Federal Government) and cost.
   (vi) Information from which one can calculate the percentage of Federal participation in the cost of the equipment (not applicable to equipment furnished by the Federal Government).
   (vii) Location and condition of the equipment and the date the information was reported.
   (viii) Unit acquisition cost.
   (ix) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a recipient compensates NASA for its share.

(2) Equipment owned by the Federal Government shall be identified to indicate Federal ownership.

(3) A physical inventory of equipment shall be taken and the results reconciled with the equipment records at least once every two years. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The recipient shall, in connection with the inventory, verify the existence, current utilization, and continued need for the equipment.

(4) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented; if the equipment was owned by the Federal Government, the recipient shall promptly notify NASA.
§ 1260.135 Supplies and other expendable property.

(a) Title to supplies and other expendable property shall vest in the recipient upon acquisition. If there is a residual inventory of unused supplies exceeding $5,000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other federally-sponsored project or program, the recipient shall retain the supplies for use on non-Federal sponsored activities or sell them, but shall, in either case, compensate the Federal Government for its share. The amount of compensation shall be computed in the same manner as for equipment.

(b) The recipient shall not use supplies acquired with Federal funds to provide services to non-Federal outside...
§ 1260.136 Intangible property.

(a) The recipient may assert copyright in any work that is copyrightable and was created, or for which copyright ownership was purchased, under an award. NASA is granted a royalty-free, nonexclusive and irrevocable right to reproduce, publish, prepare derivative works or otherwise use the work for Federal purposes, and to authorize others to do so.

(b) Recipients are subject to applicable regulations governing patents and inventions, including government-wide regulations issued by the Department of Commerce at 37 CFR part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements.”

(c) NASA has the right to:
(1) Obtain, reproduce, publish, or otherwise use the data first produced under an award; and
(2) Authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes.

(d)(1) In addition, in response to a Freedom of Information Act (FOIA) request for research data relating to published research findings produced under an award that were used by the Federal Government in developing an agency action that has the force and effect of law, NASA shall request, and the recipient shall provide, within a reasonable time, the research data so that they can be made available to the public through the procedures established under the FOIA. If NASA obtains the research data solely in response to a FOIA request, NASA may charge the requester a reasonable fee equaling the full incremental cost of obtaining the research data. This fee should reflect costs incurred by NASA, the recipient, and applicable subrecipients. This fee is in addition to any fees the agency may assess under the FOIA (5 U.S.C. 552(a)(4)(A)).

(2) The following definitions apply for purposes of this paragraph (d):
(i) Research data is defined as the recorded factual material commonly accepted in the scientific community as necessary to validate research findings, but not any of the following: Preliminary analyses, drafts of scientific papers, plans for future research, peer reviews, or communications with colleagues. This “recorded” material excludes physical objects (e.g., laboratory samples). Research data does not include:
(A) Trade secrets, commercial information, materials necessary to be held confidential by a researcher until they are published, or similar information which is protected under law; and
(B) Personnel and medical information and similar information the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, such as information that could be used to identify a particular person in a research study.
(ii) Published is defined as either when:
(A) Research findings are published in a peer-reviewed scientific or technical journal; or
(B) A Federal agency publicly and officially cites the research findings in support of an agency action that has the force and effect of law.
(iii) Used by the Federal Government in developing an agency action that has the force and effect of law is defined as when an agency publicly and officially cites the research findings in support of an agency action that has the force and effect of law.

(e) Title to intangible property and debt instruments acquired under an award or subcontract vests upon acquisition in the recipient. The recipient shall use that property for the originally-authorized purpose, and the recipient shall not encumber the property without approval of NASA. When no longer needed for the originally authorized purpose, disposition of the intangible property shall occur in accordance with the provisions of §1260.134(g).

(f) Due to the substantial involvement on the part of NASA under a cooperative agreement, intellectual property may be produced by Federal employees and NASA contractors tasked
§ 1260.137 Property trust relationship.

Real property, equipment, intangible property and debt instruments that are acquired or improved with Federal funds shall be held in trust by the recipient as trustee for the beneficiaries of the project or program under which the property was acquired or improved. NASA may require recipients to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with Federal funds and that use and disposition conditions apply to the property.

§ 1260.140 Purpose of procurement standards.

Sections 1260.141 through 1260.148 set forth standards for use by recipients in establishing procedures for the procurement of supplies and other expendable property, equipment, real property and other services with Federal funds. These standards are furnished to ensure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal statutes and executive orders. No additional procurement standards or requirements shall be imposed by NASA upon recipients, unless specifically required by Federal statute or executive order or approved in accordance with the deviation procedures of §1260.6.

§ 1260.141 Recipient responsibilities.

The standards contained in this section do not relieve the recipient of the contractual responsibilities arising under contract(s). The recipient is the responsible authority, without recourse to NASA, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of an award or other agreement. This includes disputes, claims, protests of award, source evaluation or other matters of a contractual nature. Matters concerning violation of statute are to be referred to such Federal, State or local authority as may have proper jurisdiction.

§ 1260.142 Codes of conduct.

The recipient shall maintain written standards of conduct governing the performance of its employees engaged in the award and administration of contracts. No employee, officer, or agent shall participate in the selection, award, or administration of a contract supported by Federal funds if a real or apparent conflict of interest would be involved. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in the firm selected for an award. The officers, employees, and agents of the recipient shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors, or parties to subagreements. However, recipients may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct shall provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the recipient.

§ 1260.143 Competition.

All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition. The recipient shall be alert to organizational conflicts of interest as well as noncompetitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, invitations for bids and/or requests for proposals shall be excluded from competing for such procurements. Awards shall be made to the bidder or offeror whose bid or offer
is responsive to the solicitation and is most advantageous to the recipient, price, quality and other factors considered. Solicitations shall clearly set forth all requirements that the bidder or offeror shall fulfill in order for the bid or offer to be evaluated by the recipient. Any and all bids or offers may be rejected when it is in the recipient’s interest to do so.

§ 1260.144 Procurement procedures.

(a) All recipients shall establish written procurement procedures. These procedures shall provide for, at a minimum, that the conditions in paragraphs (a)(1), (2) and (3) of this section apply.

(1) Recipients avoid purchasing unnecessary items.

(2) Where appropriate, an analysis is made of lease and purchase alternatives to determine which would be the most economical and practical procurement for the Federal Government.

(3) Solicitations for goods and services provide for all of the following:

(i) A clear and accurate description of the technical requirements for the material, product or service to be procured. In competitive procurements, such a description shall not contain features which unduly restrict competition.

(ii) Requirements which the bidder/offeror must fulfill and all other factors to be used in evaluating bids or proposals.

(iii) A description, whenever practicable, of technical requirements in terms of functions to be performed or performance required, including the range of acceptable characteristics or minimum acceptable standards.

(iv) The specific features of “brand name or equal” descriptions that bidders are required to meet when such items are included in the solicitation.

(v) The acceptance, to the extent practicable and economically feasible, of products and services dimensioned in the metric system of measurement.

(vi) Preference, to the extent practicable and economically feasible, for products and services that conserve natural resources and protect the environment and are energy efficient.

(b) Positive efforts shall be made by recipients to utilize small businesses, minority-owned firms, and women’s business enterprises, whenever possible. Recipients of NASA awards shall take all of the following steps to further this goal.

(1) Ensure that small businesses, minority-owned firms, and women’s business enterprises are used to the fullest extent practicable.

(2) Make information on forthcoming opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women’s business enterprises.

(3) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women’s business enterprises.

(4) Encourage contracting with consortiums of small businesses, minority-owned firms and women’s business enterprises when a contract is too large for one of these firms to handle individually.

(5) Use the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Department of Commerce’s Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms and women’s business enterprises.

(c) The type of procuring instruments used (e.g., fixed price contracts, cost reimbursable contracts, purchase orders, and incentive contracts) shall be determined by the recipient but shall be appropriate for the particular procurement and for promoting the best interest of the program or project involved. The “cost-plus-a-percentage-of-cost” or “percentage of construction cost” methods of contracting shall not be used.

(d) Contracts shall be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of the proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources or accessibility to other necessary resources. In certain circumstances, contracts with certain
§ 1260.145 Cost and price analysis.

Some form of cost or price analysis shall be made and documented in the procurement files in connection with every procurement action. Price analysis may be accomplished in various ways, including the comparison of price quotations submitted, market prices and similar indicia, together with discounts. Cost analysis is the review and evaluation of each element of cost to determine reasonableness, allocability and allowability.

§ 1260.146 Procurement records.

Procurement records and files for purchases in excess of the small purchase threshold shall include the following at a minimum:

(a) Basis for contractor selection,
(b) Justification for lack of competition when competitive bids or offers are not obtained, and
(c) Basis for award cost or price.

§ 1260.147 Contract administration.

A system for contract administration shall be maintained to ensure contractor conformance with the terms, conditions and specifications of the contract and to ensure adequate and timely follow up of all purchases. Recipients shall evaluate contractor performance and document, as appropriate, whether contractors have met the terms, conditions and specifications of the contract.

§ 1260.148 Contract provisions.

(a) Contracts in excess of the small purchase threshold shall contain contractual provisions or conditions that allow for administrative, contractual, or legal remedies in instances in which a contractor violates or breaches the contract terms, and provide for such remedial actions as may be appropriate.

(b) All contracts in excess of the small purchase threshold shall contain suitable provisions for termination by the recipient, including the manner by which termination shall be effected and the basis for settlement. In addition, such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(c) Except as otherwise required by statute, an award that requires the contracting (or subcontracting) for construction or facility improvements shall provide for the recipient to follow its own requirements relating to bid guarantees, performance bonds, and payment bonds unless the construction contract or subcontract exceeds $100,000. For those contracts or subcontracts exceeding $100,000, NASA may accept the bonding policy and requirements of the recipient, provided the NASA has made a determination that the Federal Government’s interest is adequately protected. If such a determination has not been made, the
minimum requirements shall be as follows.

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The "bid guarantee" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder shall, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A "payment bond" is one executed in connection with a contract to assure payment as required by statute of all persons supplying labor and material in the execution of the work provided for in the contract.

(4) Where bonds are required in the situations described in this section, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties pursuant to 31 CFR part 223, "Surety Companies Doing Business with the United States."

(d) All negotiated contracts (except those for less than the small purchase threshold) awarded by recipients shall include a provision to the effect that the recipient, NASA, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers and records of the contractor which are directly pertinent to a specific program for the purpose of making audits, examinations, excerpts and transcriptions.

(e) All contracts, including small purchases, awarded by recipients and their contractors shall contain the procurement provisions of appendix A to this subpart, as applicable.
§1260.152 (3) Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(e) Recipients shall not be required to submit more than the original and two copies of performance reports.

(f) Recipients shall immediately notify NASA of developments that have a significant impact on the award-supported activities. Also, notification shall be given in the case of problems, delays, or adverse conditions which materially impair the ability to meet the objectives of the award. This notification shall include a statement of the action taken or contemplated, and any assistance needed to resolve the situation.

(g) NASA may make site visits, as needed.

(h) NASA shall comply with clearance requirements of 5 CFR part 1320 when requesting performance data from recipients.

§1260.152 Financial reporting.

(a) When funds are advanced to recipients, each recipient is required to submit the SF 272, Report of Federal Cash Transactions, and, when necessary, its continuation sheet, SF 272a. NASA uses this report to monitor cash advanced to the recipient and obtain disbursement information for each agreement with the recipient.

(b) Recipients are required to submit the original of the report to the Financial Management Office of the NASA Center which issued the agreement 15 working days following the end of each Federal fiscal quarter. Copies will be furnished to the appropriate grant officer.

§1260.153 Retention and access requirements for records.

(a) This section sets forth requirements for record retention and access to records for awards to recipients. NASA shall not impose any other record retention or access requirements upon recipients.

(b) Financial records, supporting documents, statistical records, and all other records pertinent to an award shall be retained for a period of three years from the date of submission of the final expenditure report or, for awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, as authorized by NASA. The only exceptions are the following.

(1) If any litigation, claim, or audit is started before the expiration of the three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.

(2) Records for real property and equipment acquired with Federal funds shall be retained for 3 years after final disposition.

(3) When records are transferred to or maintained by NASA, the 3-year retention requirement is not applicable to the recipient.

(4) Indirect cost rate proposals, cost allocations plans, etc. as specified in §1260.153(g).

(c) NASA authorizes that copies of original records may be substituted for the original records.

(d) NASA shall request transfer of certain records to its custody from recipients when it determines that the records possess long term retention value. However, in order to avoid duplicate record keeping, NASA may make arrangements for recipients to retain any records that are continuously needed for joint use.

(e) NASA, the Inspector General, Comptroller General of the United States, or any of their duly authorized representatives, have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to the awards, in order to make audits, examinations, excerpts, transcripts and copies of such documents. This right also includes timely and reasonable access to a recipient’s personnel for the purpose of interview and discussion related to such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

(f) Unless required by statute, NASA shall place no restrictions on recipients that limit public access to the records of recipients that are pertinent to an
award, except when NASA can demonstrate that such records shall be kept confidential and would have been exempted from disclosure pursuant to the Freedom of Information Act (5 U.S.C. 552) if the records had belonged to NASA.

(g) Indirect cost rate proposals, cost allocations plans, etc. Paragraphs (g)(1) and (g)(2) of this section apply to the following types of documents, and their supporting records: Indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).

(1) If submitted for negotiation. If the recipient submits to NASA or the subrecipient submits to the recipient the proposal, plan, or other computation to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts on the date of such submission.

(2) If not submitted for negotiation. If the recipient is not required to submit to NASA or the subrecipient is not required to submit to the recipient the proposal, plan, or other computation for negotiation purposes, then the 3-year retention period for the proposal, plan, or other computation and its supporting records starts at the end of the fiscal year (or other accounting period) covered by the proposal, plan, or other computation.

TERMINATION AND ENFORCEMENT

§1260.160 Purpose of termination and enforcement.

Sections 1260.61 and 1260.62 set forth uniform suspension, termination and enforcement procedures.

§1260.161 Termination.

(a) Awards may be terminated in whole or in part only if the conditions in paragraph (a)(1), (2) or (3) of this section apply.

(1) By NASA, if a recipient materially fails to comply with the terms and conditions of an award.

(2) By NASA with the consent of the recipient, in which case the two parties shall agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated.

(3) By the recipient upon sending to NASA written notification setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated. However, if NASA determines in the case of partial termination that the reduced or modified portion of the grant will not accomplish the purposes for which the grant was made, it may terminate the grant in its entirety under either paragraphs (a)(1) or (2) of this section.

(b) If costs are allowed under an award, the responsibilities of the recipient referred to in §1260.171(a), including those for property management as applicable, shall be considered in the termination of the award, and provision shall be made for continuing responsibilities of the recipient after termination, as appropriate.

§1260.162 Enforcement.

(a) Remedies for noncompliance. If a recipient materially fails to comply with the terms and conditions of an award, whether stated in a Federal statute, regulation, assurance, application, or notice of award, NASA may, in addition to imposing any of the special conditions outlined in §1260.114, take one or more of the following actions, as appropriate in the circumstances.

(1) Temporarily withhold cash payments pending correction of the deficiency by the recipient or more severe enforcement action by NASA.

(2) Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance.

(3) Wholly or partly suspend or terminate the current award.

(4) Withhold further awards.

(5) Take other remedies that may be legally available.

(b) Hearings and appeals. In taking an enforcement action, NASA shall provide the recipient an opportunity for hearing, appeal, or other administrative proceeding to which the recipient is entitled under any statute or regulation applicable to the action involved.
§ 1260.170  Effects of suspension and termination. Costs of a recipient resulting from obligations incurred by the recipient during a suspension or after termination of an award are not allowable unless NASA expressly authorizes them in the notice of suspension or termination or subsequently. Other recipient costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if the conditions in paragraph (c)(1) and (2) of this section apply.

(1) The costs result from obligations which were properly incurred by the recipient before the effective date of suspension or termination, are not in anticipation of it, and in the case of a termination, are noncancellable.

(2) The costs would be allowable if the award were not suspended or expired normally at the end of the funding period in which the termination takes effect.

(d) Relationship to debarment and suspension. The enforcement remedies identified in this section, including suspension and termination, do not preclude a recipient from being subject to debarment and suspension under Executive Orders 12549 and 12689 and 14 CFR part 1265 (see §1260.113).

AFTER—THE—AWARD REQUIREMENTS

§ 1260.171  Closeout procedures.

(a) Recipients shall submit, within 90 calendar days after the date of completion of the award, all financial, performance, and other reports as required by the terms and conditions of the award. NASA may approve extensions when requested by the recipient.

(b) Unless NASA authorizes an extension, a recipient shall liquidate all obligations incurred under the award not later than 90 calendar days after the funding period or the date of completion as specified in the terms and conditions of the award or in agency implementing instructions.

(c) NASA shall make prompt payments to a recipient for allowable reimbursable costs under the award being closed out.

(d) The recipient shall promptly refund any balances of unobligated cash that NASA has advanced or paid and that is not authorized to be retained by the recipient for use in other projects. OMB Circular A–129 governs unreturned amounts that become delinquent debts.

(e) When authorized by the terms and conditions of the award, NASA shall make a settlement for any upward or downward adjustments to the Federal share of costs after closeout reports are received.

(f) The recipient shall account for any real and personal property acquired with Federal funds or received from the Federal Government in accordance with §§1260.131 through 1260.137.

(g) In the event a final audit has not been performed prior to the closeout of an award, NASA shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

§ 1260.172  Subsequent adjustments and continuing responsibilities.

(a) The closeout of an award does not affect any of the following.

(1) The right of NASA to disallow costs and recover funds on the basis of a later audit or other review.

(2) The obligation of the recipient to return any funds due as a result of later refunds, corrections, or other transactions.

(3) Audit requirements in §1260.126.

(4) Property management requirements in §§1260.131 through 1260.137.

(5) Records retention as required in §1260.153.

(b) After closeout of an award, a relationship created under an award may be modified or ended in whole or in part with the consent of the NASA and the recipient, provided the responsibilities of the recipient referred to in §1260.173(a), including those for property management as applicable, are considered and provisions made for continuing responsibilities of the recipient, as appropriate.
§ 1260.173 Collection of amounts due.

(a) Any funds paid to a recipient in excess of the amount to which the recipient is finally determined to be entitled under the terms and conditions of the award constitute a debt to the Federal Government. If not paid within a reasonable period after the demand for payment, NASA may reduce the debt by the provisions of paragraph (a)(1), (2) or (3) of this section:

1. Making an administrative offset against other requests for reimbursements.
2. Withholding advance payments otherwise due to the recipient.
3. Taking other action permitted by statute.

(b) Except as otherwise provided by law, NASA shall charge interest on an overdue debt in accordance with 4 CFR part 60, “Federal Claims Collection Standards.”

APPENDIX A TO SUBPART B OF PART 1260—CONTRACT PROVISIONS

All contracts awarded by a recipient, including small purchases, shall contain the following provisions as applicable:

2. Copeland “Anti-Kickback” Act (18 U.S.C. 874 and 40 U.S.C. 276c). All contracts in excess of $2,000 for construction or repair awarded by recipients shall include a provision for compliance with the Copeland “Anti-Kickback” Act (18 U.S.C. 874), as supplemented by Department of Labor regulations (29 CFR part 5, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor shall be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled. The recipient shall report all suspected or reported violations to NASA.

3. Davis-Bacon Act, as amended (40 U.S.C. 276a to a–7). When required by Federal program legislation, all construction contracts awarded by the recipients of more than $2,000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a–7) and as supplemented by Department of Labor regulations (29 CFR part 5, “Labor Standards Provisions Applicable to Contracts Governing Federally Financed and Assisted Construction”). Under this Act, contractors shall be required to pay wages to laborers and mechanics at a rate not less than the prevailing wage determined by the Secretary of Labor. In addition, contractors shall be required to pay wages not less than once a week. The recipient shall place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation and the award of a contract shall be conditioned upon the acceptance of the wage determination. The recipient shall report all suspected or reported violations to the NASA.

4. Contract Work Hours and Safety Standards Act (40 U.S.C. 327–333). Where applicable, all contracts awarded by recipients in excess of $2,000 for construction contracts and in excess of $2,500 for other contracts that involve the employment of mechanics or laborers shall include a provision for compliance with sections 102 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–333), as supplemented by Department of Labor regulations (29 CFR part 5). Under subsection 102 of the Act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than 1 1/2 times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Section 107 of the Act is applicable to construction work and provides that no labor or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

5. Rights to Inventions Made Under a Contract or Agreement. Contracts or agreements for the performance of experimental, developmental, or research work shall provide for the rights of the Federal Government and the recipient in any resulting invention in accordance with 37 CFR part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

6. Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), as amended. Contracts of amounts in excess of $100,000 shall contain a provision that requires the recipient to agree.
to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et seq.). Violations shall be reported to NASA and the Regional Office of the Environmental Protection Agency (EPA).

8. Debarment and Suspension (Executive Orders 12549 and 12689). No contract shall be made to parties listed on the General Services Administration’s List of Parties Excluded from Federal Procurement or Nonprocurement Programs in accordance with Executive Orders 12549 and 12689, “Debarment and Suspension.” This list contains the names of parties debarred, suspended, or otherwise excluded by agencies, and contractors declared ineligible under statutory or regulatory authority other than Executive Order 12549. Contractors with awards that exceed the small purchase threshold shall provide the required certification regarding its exclusion status and that of its principal employees.

Subpart 1261.1—Employees’ Personal Property Claims

§ 1261.100 Scope of subpart.

This subpart prescribes regulations governing the settlement of claims against the National Aeronautics and Space Administration (NASA) for damage to, or loss of, personal property incident to service with NASA.

§ 1261.101 Claimants.

(a) A claim for damage to, or loss of, personal property incident to service with NASA may be made only by:

(1) An officer or employee of the National Aeronautics and Space Administration;

(2) A member of the uniformed services (Army, Navy, Air Force, Marine Corps, Coast Guard, Coast and Geodetic Survey and Public Health Service) assigned to duty with or under the jurisdiction of NASA;

(3) The authorized agent or legal representative of a person named in paragraph (a)(1) or (2) of this section; or

(4) The survivors of a person named in paragraph (a)(1) or (2) of this section in the following order of precedence: Spouse; children, father or mother, or both; or brothers or sisters, or both. Claims by survivors may be allowed whether arising before, concurrently with, or after the decedent’s death, if otherwise covered by this subpart.

(b) Employees of contractors with the United States and employees of nonappropriated fund activities are not included within the meaning of paragraph (a)(1) or (2) of this section.

(c) Claims may not be made by or for the benefit of a subrogee, assignee, conditional vendor, or other third party.

§ 1261.102 Maximum amount.

From October 1, 1982, to October 30, 1988, the maximum amount that may be paid under the Military Personnel and Civilian Employees’ Claim Act of 1964, as amended (31 U.S.C. 3721) is $25,000, and on or after October 31, 1988, the maximum amount is $40,000 (Pub. L. 100–565, 102 Stat. 2833, October 31, 1988).

[54 FR 35456, Aug. 28, 1989]

§ 1261.103 Time limitations.

(a) A claim may be allowed only if the claim is presented in writing within 2 years after it accrues. For the purposes of this subpart, a claim accrues at the time of the accident or incident causing the loss or damage, or at such time as the loss or damage is or should have been discovered by the claimant through the exercise of due diligence.

(b) If a claim accrues in time of war or if an armed conflict intervenes within 2 years after it accrues, and if good cause is shown, the claim may be presented not later than 2 years after that cause ceases to exist, or 2 years after the war or armed conflict is terminated, whichever is earlier. The dates of beginning and ending of such an armed conflict are the dates established by concurrent resolution of the Congress or by a determination of the President.
§ 1261.104 Allowable claims.

(a) A claim may be allowed only if:
(1) The damage or loss was not caused wholly or partly by the negligent or wrongful act of the claimant, the claimant’s agent, private employee, or family member (the standard to be applied is that of reasonable care under the circumstances);
(2) The possession of the property lost or damaged and the quantity is determined to have been reasonable, useful, or proper under the circumstances; and
(3) The claim is substantiated by proper and convincing evidence.

(b) Claims which are otherwise allowable under this subpart shall not be disallowed solely because the property was not in the possession of the claimant at the time of the damage or loss, or solely because the claimant was not the legal owner of the property for which the claim is made. For example, borrowed property may be the subject of a claim.

(c) Subject to the conditions in paragraph (a) of this section and the other provisions of this subpart, any claim for damage to, or loss of, personal property incident to service with NASA may be considered and allowed. The following are examples of the principal types of claims which may be allowed, but these examples are not exclusive and other types of claims may be allowed, unless excluded by §1261.105.

(1) Property loss or damage in quarters or other authorized places. Claims may be allowed for damage to, or loss of, property arising from fire, flood, hurricane, other natural disaster, theft, or other unusual occurrence, while such property is located at:
(i) Quarters within the 50 States or the District of Columbia that were assigned to the claimant or provided by the United States;
(ii) Quarters outside the 50 States and the District of Columbia that were occupied by the claimant, whether or not they were assigned or provided by the United States, except when the claimant is a civilian employee who is a local inhabitant; or
(iii) Any warehouse, office working area, hospital, or other place authorized or apparently authorized for the reception or storage of property.

(2) Transportation or travel losses. Claims may be allowed for damage to, or loss of, property incident to transportation or storage pursuant to orders, or in connection with travel under orders, including property in the custody of a carrier, an agent or agency of the Government, or the claimant.

(3) House trailers. Claims may be allowed for damage to, or loss of, house trailers and their contents under the provisions of paragraph (c)(2) of this section.

(4) Negligence of the Government. Claims may be allowed for damage to, or loss of, property caused by the negligence or wrongful act or omission of any employee of the Government while acting within the scope of office or employment.

(5) Enemy action or public service. Claims may be allowed for damage to, or loss of, property as a direct consequence of:
(i) Enemy action or threat of action or combat, guerrilla, brigandage, or other belligerent activity, or unjust confiscation by a foreign power or its nationals;
(ii) Action by the claimant to quiet a civil disturbance or to alleviate a public disaster; or
(iii) Efforts by the claimant to save human life or Government property.

(6) Property used for benefit of the Government. Claims may be allowed for damage to, or loss of, property when used for the benefit of the Government at the request of, or with the knowledge and consent of, an authorized official.

(7) Clothing and accessories. Claims may be allowed for damage to, or loss of, clothing or accessories customarily worn on the person, such as eyeglasses, hearing aids or dentures.

§ 1261.105 Unallowable claims.

Claims are not allowable for the following:

(a) Unassigned quarters in United States. Claims may not be allowed for property loss or damage in quarters occupied by the claimant within the 50 States or the District of Columbia that were not assigned to claimant or provided in kind by the United States.
(b) **Money or currency.** Claims may not be allowed for loss of money or currency, except when lost incident to fire, flood, hurricane, other natural disaster, or by theft from quarters (as limited by paragraph (a)). Reimbursement for loss of money or currency is limited to an amount which is determined reasonable to have been in the claimant’s possession at the time of the loss.

(c) **Government property.** Claims may not be allowed for property owned by the United States, except that for which the claimant is financially responsible to any agency of the Government other than NASA.

(d) **Business property.** Claims may not be allowed for property used in a private business enterprise.

(e) **Articles of extraordinary value.** Claims may not be allowed for valuable articles, such as cameras, watches, jewelry, furs; or other articles of extraordinary value, when shipped with household goods or as unaccompanied baggage (shipment includes storage). This prohibition does not apply to articles in the personal custody of the claimant or articles properly checked: Provided, That reasonable protection or security measures have been taken by claimant.

(f) **Unserviceable property.** Claims may not be allowed for worn-out unserviceable property.

(g) **Illegal possession.** Claims may not be allowed for property acquired, possessed, or transported in violation of law or in violation of applicable regulations or directives.

(h) **Estimate fees.** Claims may not include fees paid to obtain estimates or repair, except when it is clear that an estimate could not have been obtained without paying a fee.

(i) **Automobiles and other vehicles.** Claims may not be allowed for damage to, or loss of, automobiles and other vehicles unless:

1. The vehicles were required to be used for official Government business (official Government business, as used here, does not include travel between quarters and place of duty, parking of vehicles incident to such travel, or use of vehicles for the convenience of the owner); or
2. Shipment of motor vehicles to, from, or between overseas areas was being furnished or provided by the Government; or
3. The damage or loss was caused by the negligent or wrongful act or omission of any employee of the Government acting within the scope of office or employment.

§ 1261.106 Submission of claims.

All claims shall be submitted in duplicate to the Administrator or designee on NASA Form 1204, “Employee’s Claim for Damage to, or Loss of, Personal Property Incident to Service.”

§ 1261.107 Evidence in support of claim.

(a) **General.** In addition to the information required on NASA Form 1204, and any other evidence required by the Administrator or designee, the claimant will furnish the following evidence when relevant:

1. A corroborating statement from the claimant’s supervisor or other person or persons having personal knowledge of the facts concerning the claim.
2. A statement of any property recovered or replaced in kind.
3. An itemized bill of repair for property which has been repaired, or one or more written estimates of the cost of repairs from competent persons if the property is repairable but has not been repaired.

(b) **Specific classes of claims.** Claims of the following types shall also be accompanied with specific and detailed evidence as indicated:

1. **Theft, burglary, etc.** A statement describing in detail the location where the loss occurred and the facts and circumstances surrounding the loss, including supporting documentation, e.g., a police report.
2. **Transportation losses.** A copy of orders authorizing the travel, transportation or shipment, or a certificate explaining the absence of such orders and stating their substance; all bills of lading and inventories of property shipped; and a statement indicating the condition of the property when turned over to the carrier and when received from the carrier.
§ 1261.108 Recovery from carriers, insurers, and other third parties.

(a) General. NASA is not an insurer and does not underwrite all personal property losses that an employee may sustain. Employees are encouraged to carry private insurance to the maximum extent practicable to avoid large losses or losses which may not be recoverable from NASA. The procedures set forth in this section are designed to enable the claimant to obtain the maximum amount of compensation for personal property loss or damage. Failure of the claimant to comply with these procedures may reduce or preclude payment of the claim.

(b) Demand on carrier, contractor, warehouse owner/operator, or insurer. When it appears that property has been damaged or lost under circumstances in which a carrier, warehouse owner/operator, contractor or insurer may be responsible, the claimant shall make a written demand on such party, either before or after submitting a claim against NASA. The Administrator or designee, if requested, will assist in making demand on the third party. No such demand need be made if, in the opinion of the Administrator or designee, it would be impracticable or any recovery would be insignificant, or if circumstances preclude the claimant from making timely demand.

(c) Action subsequent to demand. A copy of the demand and of any related correspondence shall be submitted to the Administrator or designee. If the carrier, insurer, or other third party offers a settlement which is less than the amount of the demand, the claimant shall consult with the Administrator or designee, if requested, will assist in making demand on the third party. No such demand need be made if, in the opinion of the Administrator or designee, it would be impracticable or any recovery would be insignificant, or if circumstances preclude the claimant from making timely demand.

(d) Application of recovery. When the amount recovered from a carrier, insurer, or other third party is greater than or equal to the claimant’s total loss as determined under this subpart, no compensation is allowable under this subpart. When the amount recovered is less than such total loss, the allowable amount is determined by deducting the recovery from the amount of total loss subject to the maximum set forth in §1261.102.

(e) Transfer of rights. The claimant shall assign to the United States, to the extent of any payment accepted on a claim, all rights, title, and interest in any claim he/she may have against any carrier, insurer, or other party arising out of the accident or incident on which the claim against the United States is based. The claimant shall also, upon request, furnish such evidence and other cooperation as may be required to enable the United States to enforce the claim. After payment on the claim by the United States, the claimant shall, upon receipt of any payment from a carrier, insurer, or other party, notify the Administrator or designee and pay the proceeds to the United States to the extent required under the provisions of paragraph (d).

§ 1261.109 Computation of allowance.

(a) The amount allowed for damage to or loss of any item of property may not exceed the cost of the item (either the price paid in cash or property, or the value at the time of acquisition if not acquired by purchase or exchange). There will be no allowance for replacement cost or for appreciation in the value of the property. Subject to these limitations, the amount allowable is either:

1. The depreciated value, immediately prior to the loss or damage of property lost or damaged beyond economical repair, less any salvage value; or

2. The reasonable cost of repairs, when property is economically repairable: Provided, That the cost of repairs does not exceed the amount allowable under paragraph (a)(1) of this section.

(b) Depreciation in value is determined by considering the type of article involved, its cost, its condition when damaged or lost, and the time elapsed between the date of acquisition and the date of damage or loss, with appropriate recognition of current replacement value.

(c) Limitation on agent or attorney fees. No more than 10 per centum of the amount paid in settlement of each individual claim submitted and settled shall be paid or delivered to or received
by an agent or attorney on account of services rendered in connection with that claim, any contract to the contrary notwithstanding (31 U.S.C. 243).

§ 1261.110 Settlement of claims.

(a) Settlement officials. (1) Claims in the amount of $5,000 or more will be acted upon by the General Counsel. Claims less than $5,000 will be acted upon by the Chief Counsel of the NASA Field Installation where the employee was assigned at the time of the loss or damage or the Assistant General Counsel for Litigation for NASA Headquarters claims.

(2) Claims arising for $5,000 or more shall be investigated by the Chief Counsel or Assistant General Counsel for Litigation, as appropriate, and a report and recommendation thereon shall be forwarded to the General Counsel.

(b) Action by settlement official. (1) For each claim, the settlement official shall complete a report in duplicate on NASA Form 1204 and retain a claim file consisting of the original claim, the report, and any other relevant evidence or documents.

(2) When a claim is allowed in an amount acceptable to the claimant, the settlement official shall prepare a "Voucher for Payment of Employees' Personal Property Claims" (NASA Form 1220), have it properly executed by the claimant, and forward it with a copy of the approved claim (NASA Form 1204) to the appropriate NASA fiscal or financial management office for payment.

(3) When a claim is disallowed or is partially allowed in an amount unacceptable to the claimant, the settlement official shall notify the claimant in writing of the action taken and the reasons therefor. If not satisfied with the action taken, the claimant may, within 60 days after receipt of such notice, request reconsideration of the claim and may submit any new evidence that he/she feels to be pertinent to the claim. If such a claim has been disallowed at the field installation level, the claimant may request reconsideration by the field installation, or by the General Counsel, or both.

(c) Final and conclusive. The settlement of a claim under this subpart, whether by full or partial allowance or disallowance, is final and conclusive.

Subpart 1261.2 [Reserved]

Subpart 1261.3—Claims Against NASA or Its Employees for Damage to or Loss of Property or Personal Injury or Death—Accruing On or After January 18, 1967

§ 1261.300 Scope of subpart.

This subpart sets forth the procedures for:

(a) The submission of, and action by NASA upon, claims against the United States arising out of the activities of NASA for damage to or loss of property or personal injury or death, and designates the NASA officials authorized to act upon such claims.

(b) The handling of lawsuits against NASA employee(s) for damage to or loss of property or personal injury or death resulting from a NASA employee’s activities within the scope of his/her office or employment.

§ 1261.301 Authority.

(a) Under the provisions of the Federal Tort Claims Act, as amended (see 28 U.S.C. 2671-2680), and subject to its limitations, the Administrator or designee is authorized to consider, ascertain, adjust, determine, compromise, and settle any claim for money damages against the United States for injury or loss of property or personal injury or death caused by the negligent or wrongful act or omission of any NASA employee while acting within the scope of his/her office or employment, under circumstances where the United States, if a private person, would be liable to the claimant in accordance with the law of the place where the act or omission occurred. In exercising such authority, the Administrator or designee is required to act in accordance with regulations prescribed by the Attorney General (28 CFR part 14). An award, compromise, or settlement in excess of $25,000 may be effected only with the prior written
approval of the Attorney General or designee.

(b) Under sec. 203(c)(13)(A) of the National Aeronautics and Space Act of 1958, as amended, 42 U.S.C. 2473(c)(13)(A), NASA is authorized to consider, ascertain, adjust, determine, settle, and pay, on behalf of the United States, in full satisfaction thereof, any claim for $25,000 or less against the United States for bodily injury, death or damage to or loss of real or personal property resulting from the conduct of NASA’s functions as specified in 42 U.S.C. 2473(a). At the discretion of NASA, a claim may be settled and paid under this authority even though the United States could not be held legally liable to the claimant.

(d) Under 28 U.S.C. 2679, the Attorney General of the United States shall defend any civil action or proceeding brought in any court against a Government employee for injury or loss of property or personal injury or death, resulting from the operation of a motor vehicle by the Government employee while acting within the scope of office or employment. In effect, this legislation is designed to protect an employee driving a motor vehicle on Government business by converting such a civil court action or proceeding against the employee into a claim against the United States: Provided, That the employee was acting within the scope of employment at the time of the accident. The remedy against the United States provided by 28 U.S.C. 2672 (administrative adjustment of claims) and 28 U.S.C. 1346(b) (civil action against the United States) then becomes the plaintiff’s exclusive remedy.

§ 1261.302 Claim.

Unless the context otherwise requires, claim means a claim for money damages against the United States arising out of the activities of NASA, for injury or loss of property, or personal injury or death. A claim “arises” at the place where the injury, loss, or death occurs.

§ 1261.303 Claimant.

(a) A claim for damage to or loss of property may be presented by the owner of the property, duly authorized agent or legal representative.

(b) A claim for personal injury may be presented by the injured person, duly authorized agent, or legal representative.

(c) A claim based on death may be presented by the executor(rix) or administrator(rix) of the decedent’s estate, or by any other person legally entitled to assert such a claim in accordance with applicable State law.

(d) A claim for loss wholly compensated by an insurer with the rights of a subrogee may be presented by the insurer. A claim for loss partially compensated by an insurer with the rights of a subrogee may be presented by the parties individually as their respective interests appear, or jointly.

(e) A claim presented by an agent or legal representative shall be presented in the name of the claimant, be signed by the agent or legal representative, show the title or legal capacity of the person signing and be accompanied by evidence of the agent’s or legal representative’s authority to present a claim on behalf of the claimant as agent, executor(rix), administrator (rix), parent, guardian, or other representative.

§ 1261.304 Place of filing claim.

A claim arising in the United States should be submitted to the Chief Counsel of the NASA Installation whose activities are believed to have given rise to the claimed injury, loss, or death. If the identity of such installation is not known, or if the claim arose in a foreign country, the claim should be submitted to the General Counsel, National Aeronautics and Space Administration, Washington, DC 20546.
§ 1261.305 Form of claim.
(a) The official designated in § 1261.308 shall, prior to acting on a claim, require the claimant to submit a completed Standard Form 95—“Claim for Damage, Injury or Death.”
(b) NASA installations will furnish copies of Standard Form 95 upon request.

§ 1261.306 Evidence and information required.
(a) The circumstances alleged to have given rise to the claim, and the amount claimed, should, so far as possible, be substantiated by competent evidence. Supporting statements, estimates, and the like should, if possible, be obtained from disinterested parties. For specific guidance as to Federal Tort Claims Act claims, see Department of Justice regulations on “Administrative Claims under Federal Tort Claims Act” at 28 CFR part 14.
(b) In addition to the evidence and information required under paragraph (a), any claimant shall be required to submit information as to the amount of money or other property received as damages or compensation, or which the claimant may be entitled to receive, by reason of the claimed injury, loss, or death from persons other than NASA or NASA employees. (Such persons include, but are not limited to, insurers, employers, and persons whose conduct was a cause of the accident or incident.)
(c) Any document in other than the English language should be accompanied by an English translation.

§ 1261.307 Time limitations.
(a) A claim may not be acted upon pursuant to the Federal Tort Claims Act unless it is presented to NASA within 2 years after it accrued.
(b) A claim may not be acted upon pursuant to 42 U.S.C. 2473(c)(13)(A) or (B) unless it is presented to NASA within 2 years after the occurrence of the accident or incident out of which the claim arose.
(c) A claim shall be deemed to have been presented to NASA when NASA receives from a claimant or duly authorized agent or legal representative an executed Standard Form 95 or other written notification of an incident or accident, accompanied by a claim in a sum certain.

§ 1261.308 NASA officials authorized to act upon claims.
(a) Claims in the amount of $10,000 or more will be acted upon as directed by the General Counsel;
(b) Claims less than $10,000 will be acted upon by the Chief Counsel of the NASA Field Installation where the employee was assigned at the time of the loss or damage or the Assistant General Counsel for Litigation for NASA Headquarters claims.
(c) Claims of $10,000 or more, pursuant either to the Federal Tort Claims Act, or 42 U.S.C. 2473(c)(13), shall be acted upon only with the prior approval of the General Counsel. Such claims shall be forwarded to the General Counsel for approval, if the Chief Counsel or the Assistant General Counsel for Litigation is of the opinion that the claim may be meritorious and otherwise suitable for settlement under any authority. A claim so forwarded should be accompanied by a report of the facts of the claim, based upon such investigation as may be appropriate, and a recommendation as to the action to be taken.
(d) Claims acted upon by NASA officials pursuant to this section shall be acted upon pursuant to the Federal Tort Claims Act, or 42 U.S.C. 2473(c)(13)(A) or (B), as the NASA official deems appropriate.

§ 1261.309 Action under the Federal Tort Claims Act.
Where a claim is to be acted upon pursuant to the Federal Tort Claims Act, action shall be taken in accordance with 28 U.S.C. 2672, other provisions of the Federal Tort Claims Act as may be applicable (e.g., 28 U.S.C. 2680), and regulations prescribed by the Attorney General which appear at 28 CFR part 14.

§ 1261.310 Investigation of claims.
The officials designated in § 1261.308 shall conduct such investigation of a claim as deemed appropriate. The officials may request any NASA office or other Federal agency to assist in the investigation.
§ 1261.311 Claims requiring Department of Justice approval or consultation.

(a) When in the opinion of the NASA official designated in §1261.308, Department of Justice approval or consultation may be required, pursuant to 28 CFR part 14, in connection with a claim being acted upon under the Federal Tort Claims Act, the following papers shall be forwarded to the General Counsel:

(1) A short and concise statement of the facts of the claim.

(2) Copies of all relevant portions of the claim file.

(3) A statement of the recommendations or views of the forwarding official.

(b) A claim forwarded to the General Counsel in accordance with paragraph (a) of this section, or upon which the General Counsel is acting pursuant to §1261.308(c), shall be referred to the Department of Justice when, in the opinion of the General Counsel, Department of Justice approval or consultation is required or may be appropriate.

§ 1261.312 Action on approved claims.

(a) Upon settlement of a claim, the official designated in §1261.308 will prepare and have executed by the claimant a Voucher for Payment of Tort Claims (NASA Form 616) if the claim has been acted upon pursuant to 42 U.S.C. 2473(c)(13), or a Voucher for Payment under Federal Tort Claims Act (Standard Form 1145) if the claim has been acted upon pursuant to the Federal Tort Claims Act. The form will then be referred to the cognizant NASA installation fiscal or financial management office for appropriate action.

(b) When a claimant is represented by an attorney, both the claimant and attorney will be designated as “payees” on the voucher, and the check will be delivered to the attorney whose address shall appear on the voucher.

(c) Acceptance by the claimant, agent, or legal representative, of any award, compromise, or settlement made pursuant to this subpart shall be final and conclusive on the claimant, agent or legal representative and any other person on whose behalf or for whose benefit the claim has been presented, and shall constitute a complete release of any claim against the United States and against any employee of the Government whose act or omission gave rise to the claim, by reason of the same subject matter.

§ 1261.313 Required notification in the event of denial.

Final denial of a claim shall be in writing and shall be sent to the claimant, the attorney, or legal representative by certified or registered mail. The notification of final denial may include a statement of the reasons for the denial and shall include a statement that if the claimant is dissatisfied with NASA’s action, the claimant may file suit in an appropriate U.S. District Court not later than 6 months after the date of mailing the notification.

§ 1261.314 [Reserved]

§ 1261.315 Procedures for the handling of lawsuits against NASA employees arising within the scope of their office or employment.

The following procedures shall be followed in the event that a civil action or proceeding is brought, in any court, against any employee of NASA (or against the estate) for injury or loss of property or personal injury or death, resulting from the NASA employee’s activities while acting within the scope of office or employment:

(a) After being served with process or pleadings in such an action or proceeding, the employee (or the executor(r) or administrator(r) of the estate) shall immediately deliver all such process and pleadings or an attested true copy thereof, together with a fully detailed report of the circumstances of the accident giving rise to the court action or proceeding, to the following officials:

(1) The Assistant General Counsel for Litigation insofar as actions or proceedings against employees of NASA Headquarters are concerned; or

(2) The Chief Counsel of the NASA Installation at which the employee is employed, insofar as actions against other than NASA Headquarters employees are concerned.

(b) Upon receipt of such process and pleadings, the Assistant General Counsel for Litigation or the Chief Counsel...
of the NASA Installation receiving the same shall furnish to the U.S. Attorney for the district embracing the place where the action or proceeding is brought and, if appropriate, the Director, Torts Branch, Civil Division, Department of Justice, the following:

(1) Copies of all such process and pleadings in the action or proceeding promptly upon receipt thereof; and

(2) A report containing a statement of the circumstances of the incident giving rise to the action or proceeding, and all data bearing upon the question of whether the employee was acting within the scope of office or employment with NASA at the time of the incident, at the earliest possible date, or within such time as shall be fixed by the U.S. Attorney upon request.

(c) The Assistant General Counsel for Litigation or a Chief Counsel acting pursuant to paragraph (b) of this section shall submit the following documents to the General Counsel, who is hereby designated to receive such documents on behalf of the Administrator:

(1) Copies of all process and pleadings submitted to a U.S. Attorney in accordance with paragraph (b).

(2) In addition, where the action or proceeding is for damages in excess of $25,000, or where (in the opinion of the Chief Counsel) such action or proceeding involves a new precedent, a new point of law, or a question of policy, copies of reports and all other papers submitted to the U.S. Attorney.

§ 1261.316 Policy.

(a) The National Aeronautics and Space Administration may indemnify a present or former NASA employee, who is personally named as a defendant in any civil suit in state or Federal court, or in an arbitration proceeding or other proceeding seeking damages against that employee personally, for any verdict, judgment, appeal bond, or other monetary award which is rendered against such employee, provided that the conduct giving rise to the verdict, judgment, appeal bond, or award was taken within the scope of his or her employment and that such indemnification is in the interest of the National Aeronautics and Space Administration, as determined by the Administrator or designee.

(b) The National Aeronautics and Space Administration may settle or compromise a personal damage claim against a present or former NASA employee by the payment of available funds, at any time, provided the alleged conduct giving rise to the personal damage claim was taken within the employee’s scope of employment and that such settlement or compromise is in the interest of the National Aeronautics and Space Administration, as determined by the Administrator or designee.

(c) Absent exceptional circumstances as determined by the Administrator or designee, the agency will not entertain a request either to agree to indemnify or to settle a personal damage claim before entry of an adverse verdict, judgment, or award.

(d) A present or past NASA employee may request indemnification to satisfy a verdict, judgment, or award entered against that employee. The employee shall submit a written request, with appropriate documentation including copies of the verdict, judgment, appeal bond, award, or settlement proposal to the General Counsel, who shall make a recommended disposition of the request. Where appropriate, the agency shall seek the views of the Department of Justice. The General Counsel shall forward the request, the accompanying documentation, and the General Counsel's recommendation to the Administrator for decision.

(e) Any payment under this section either to indemnify a National Aeronautics and Space Administration employee or to settle a personal damage claim shall be contingent upon the availability of appropriated funds of the National Aeronautics and Space Administration.

§ 1261.317 Attorney-client privilege.

(a) Attorneys employed by the National Aeronautics and Space Administration participate in the process utilized for the purpose of determining whether the agency should request the Department of Justice to provide representation to a present or former agency employee sued, subpoenaed, or charged in his/her individual capacity.
§ 1261.400 Scope of subpart.

(a) These regulations do the following:

(1) Prescribe standards for the administrative collection, compromise, suspension or termination of collection, and referral to the General Accounting Office (GAO), and/or to the Department of Justice (DJ) for litigation, of civil claims as defined by 31 U.S.C. 3701(b), arising out of the activities of NASA;

(2) Designate the responsible NASA officials authorized to effect actions hereunder; and

(3) Require compliance with the GAO/DJ joint regulations at 4 CFR parts 101 through 105 and the Office of Personnel Management (OPM) regulations at 5 CFR part 550, subpart K.

(b) Failure to comply with any provision of the GAO/DJ or OPM regulations shall not be available as a defense to any debtor (4 CFR 101.8).

(c) These regulations do not include any claim based in whole or in part on violation of the anti-trust laws; any claim as to which there is an indication of fraud, the presentation of a false claim, or misrepresentation on the part of the debtor or any party having an interest in the claim; tax claims; or Federal interagency claims (4 CFR 101.3).

§ 1261.401 Definitions.

(a) Claim and debt. The terms denote a civil claim arising from the activities of NASA for an amount of money, or return or value of property (see 4 CFR 101.5), owing to the United States from any person, organization, or entity, except another Federal agency. The words claim and debt have been used interchangeably and are considered synonymous.

(b) Delinquent debt. The debt is delinquent if it has not been paid by the date specified in the initial written notification (e.g., § 1261.407) or applicable contractual agreement, unless other acceptable (to NASA) payment arrangements have been made by that date, or if, at any time thereafter, the debtor fails to satisfy an obligation under the payment agreement.

(c) Referral for litigation. Referral through the NASA installation’s legal counsel to the Department of Justice (Main Justice or the United States Attorney, as appropriate) for legal proceedings.

§ 1261.402 Delegation of authority.

The following NASA officials are delegated authority, as qualified by §1261.403, to take such action as is authorized by these regulations to collect, compromise, suspend/terminate collection, and upon consultation with and through legal counsel, to refer the claim (as applicable) to the GAO or Department of Justice:
(a) For field installations, with regard to subpart 1261.4 and subpart 1261.5: The Director of the Installation or a designee who reports directly to the Installation Director. A copy of such designation, if any, shall be sent to the Director, Financial Management Division, NASA Headquarters.

(b) For Headquarters, with regard to subpart 1261.4 and subpart 1261.5: The Associate Administrator for Management or a designee who reports directly to the Associate Administrator for Management. A copy of such designation, if any, shall be sent to the Director, Financial Management Division, NASA Headquarters.

(c) With respect to the analysis required by §1261.413: The NASA Comptroller or designee.

(d) NASA wide, with regard to subpart 1261.6: The NASA Comptroller or designee.

(e) NASA wide, for complying with pertinent provisions under these regulations for agency hearing or review (see §§1261.408(b), 1261.503, and 1261.603(c)): The NASA General Counsel or designee.

§ 1261.403 Consultation with appropriate officials; negotiation.

(a) The authority pursuant to §1261.402 to determine to forego collection of interest, to accept payment of a claim in installments, or, as to claims which do not exceed $20,000, exclusive of interest and related charges, to compromise a claim or to refrain from doing so, or to refrain from, suspend or terminate collection action, shall be exercised only after consultation with legal counsel for the particular installation and the following NASA officials or designees, who may also be requested to negotiate the appropriate agreements or arrangements with the debtor:

1. With respect to claims against contractors or grantees arising in connection with contracts or grants—the contracting officer and the financial management officer of the installation concerned.

2. With respect to claims against commercial carriers for loss of or damage to NASA freight shipment—the cognizant transportation officers or the official who determined the amount of the claim, as appropriate, and the financial management officers of the installation concerned.

3. With respect to claims against employees of NASA incident to their employment—the personnel officer and the financial management officer of the installation concerned.

(b) The appropriate counsel’s office shall review and concur in the following:

1. All communications to and agreements with debtors relating to claims collection.

2. All determinations to compromise a claim, or to suspend or terminate collection action.

3. All referrals of claims, other than referrals to the Department of Justice pursuant to §1261.404(b)(1).

4. All documents releasing debtors from liability to the United States.

5. All other actions relating to the collection of a claim which in the opinion of the official designated in or pursuant to §1261.402 may affect the rights of the United States.

§ 1261.404 Services of the Inspector General.

(a) At the request of an official designated in or pursuant to §1261.402, the Office of the Inspector General will, where practicable, conduct such investigations as may assist in the collection, compromise, or referral of claims of the United States, including investigations to determine the location and financial resources of the debtors.

(b) Any claim which, in the opinion of an official designated in or pursuant to §1261.402 or §1261.403, may indicate fraud, presentation of a false claim, or misrepresentation, on the part of the debtor or any other party having an interest in the claim, shall be referred by the designated official to the Inspector General (IG), NASA Headquarters, or to the nearest office of the NASA IG. After an investigation as may be appropriate, the IG shall:

1. Notice the official, from whom the claim was received, of the findings and refer the claim to the Department of Justice in accordance with the provisions of 4 CFR 101.3; or
§ 1261.405 Subdivision of claims not authorized; other administrative proceedings.

(a) Subdivision of claims. Claims may not be subdivided to avoid the $20,000 ceiling, exclusive of interest, penalties, and administrative costs, for purposes of compromise (§ 1261.414) or suspension or termination of collection (§ 1261.416). The debtor’s liability arising from a particular transaction or contract shall be considered a single claim (4 CFR 101.6).

(b) Required administrative proceedings. Nothing contained in these regulations is intended to require NASA to omit, foreclose, or duplicate administrative proceedings required by contract or other applicable laws and implementing regulations (4 CFR 101.7).

§ 1261.406 Aggressive collection action; documentation.

(a) NASA shall take aggressive action, on a timely basis with effective followup, to collect all claims of the United States for money or property arising out of NASA activities, and to cooperate with the other Federal agencies in debt collection activities.

(b) All administrative collection action shall be documented and the bases for compromise, or for termination or suspension of collection action, should be set out in detail. Such documentation, including the Claims Collection Litigation Report under § 1261.417(e), should be retained in the appropriate claims file.

§ 1261.407 Demand for payment; limitation periods.

(a) Appropriate written demands shall be made promptly upon a debtor of the United States in terms which inform the debtor of the consequences of failure to cooperate. A total of three progressively stronger written demands at not more than 30-day intervals will normally be made unless a response to the first or second demand indicates that a further demand would be futile and the debtor’s response does not require rebuttal. In determining the timing of demand letters, NASA will give due regard to the need to act promptly so that, as a general rule, if necessary to refer the debt to the Department of Justice for litigation, such referral can be made within one year of the agency’s final determination of the fact and the amount of the debt. When necessary to protect the Government’s interests (for example, to prevent the statute of limitations, 28 U.S.C. 2415, from expiring), written demand may be preceded by other appropriate actions, including immediate referral for litigation.

(b) The initial demand letter should inform the debtor of:

(1) The basis for the indebtedness and whatever rights the debtor may have to seek review within the agency;

(2) The applicable standards for assessing interest, penalties, and administrative costs (§ 1261.412); and

(3) The date by which payment is to be made, which normally should be not more than 30 days from the date that the initial demand letter was mailed or hand delivered. The responsible official should exercise care to ensure that demand letters are mailed or hand delivered on the same day that they are actually dated. Apart from these requirements, there is no prescribed format for demand letters. However, as appropriate to the circumstances, the responsible official may consider including, either in the initial demand letter or in subsequent letters, such items the NASA’s willingness to discuss alternative methods of payment, or intentions with respect to referral of the debt to the Department of Justice for litigation.

(c) NASA should respond promptly to communications from the debtor, within 30 days whenever feasible, and should advise debtors who dispute the debt to furnish available evidence to support their contentions.

(d) If either prior to the initiation of, any time during, or after completion of the demand cycle, a determination to pursue offset is made, then the procedures specified in subparts 1261.5 and
1261.6, as applicable, should be followed. The availability of funds for offset and NASA’s determination to pursue it release the agency from the necessity of further compliance with paragraphs (a), (b), and (c) of this section. If the agency has not already sent the first demand letter, the agency’s written notification of its intent to offset must give the debtor the opportunity to make voluntary payment, a requirement which will be satisfied by compliance with the notice requirements of §1261.502 or §1261.603(a), as applicable.

(e) NASA should undertake personal interviews with its debtors whenever this is feasible, having regard for the amounts involved and the proximity of agency representatives to such debtors; and may attempt to effect compromise of the claim in accordance with §1261.414.

(f) When a debtor is employed by the Federal government or is a member of the military establishment or the Coast Guard, and collection by offset cannot be accomplished in accordance with subpart 1261.6, the employing agency will be contacted for the purpose of arranging with the debtor for payment of the indebtedness by allotment or otherwise in accordance with section 206 of Executive Order 11222, May 8, 1965, 30 FR 6469, which provides that: ‘‘An employee is expected to meet all just financial obligations, especially such as Federal, State, or local taxes—which are imposed by law’’ (4 CFR 102.81).

§1261.408 Use of consumer reporting agency.

(a) The term consumer reporting agency has the meaning provided in the Federal Claims Collection Act of 1966, as amended (31 U.S.C. 3701(a)(3)):

(1) A consumer reporting agency as that term is defined in section 603(f) of the Fair Credit Reporting Act (15 U.S.C. 1681a(f); or
(2) A person that, for money or on a cooperative basis, regularly—

(i) Gets information on consumers to give the information to a consumer reporting agency; or
(ii) Serves as a marketing agent under an arrangement allowing a third party to get the information from a consumer reporting agency.

(b) NASA Headquarters Financial Management Division, shall be the focal contact between NASA and consumer reporting agencies. The following procedures shall apply when such agencies are employed by NASA:

(1) After the appropriate notice pursuant to 5 U.S.C. 552a(e)(4) has been published, NASA may disclose, in accordance with 5 U.S.C. 552a(b)(12), information about a debtor to a consumer reporting agency. Such information may include:

(i) That a claim has been determined to be valid and is overdue (including violation by debtor of a repayment plan or other claim settlement agreement);

(ii) The name, address, taxpayer identification number, and any other information necessary to establish the identity of the individual responsible for the claim;

(iii) Amount, status, and history of the claim;

(iv) Program or pertinent activity under which the claim arose.

(2) Before disclosing the information specified in paragraph (b)(1) of this section, NASA shall comply with 31 U.S.C. 3711(f) by:

(i) Taking reasonable action to locate the individual if a current address is not available;

(ii) If a current address is available, noticing the individual by certified mail, return receipt requested, that: The designated NASA official has reviewed the claim and determined that it is valid and overdue; within not less than 60 days after sending this notice, NASA intends to disclose to a consumer reporting agency the specific information to be disclosed under paragraph (b)(1) of this section; the individual may request a complete explanation of the claim, dispute the information in the records of NASA about the claim, and file for an administrative review or repeal of the claim or for reconsideration of the initial decision on the claim.

(3) If an administrative review or reconsideration is requested, the responsible official or designee shall refer the request to the appropriate NASA legal
§ 1261.409 Contracting for collection services.

(a) When NASA determines that there is a need to contract for collection services, the following conditions must attach:

(1) The authority to resolve disputes, compromise claims, suspend or terminate collection action, and refer the matter for litigation must be retained by NASA.

(2) The contractor shall be subject to the Privacy Act of 1974, as amended, to the extent specified in 5 U.S.C. 552a(m), and to applicable Federal and State laws and regulations pertaining to debt collection practices—for example, the Fair Debt Collection Practices Act (15 U.S.C. 1692), and 26 U.S.C. 6103(p)(4) and applicable regulations of the Internal Revenue Service;

(3) The contractor must be required to account strictly for all amounts collected; and

(4) The contractor must agree to provide any data contained in its files relating to collection actions and related reports, current address of debtor, and reasonably current credit information upon returning an account to NASA for subsequent referral to the Department of Justice for litigation.

(b) Funding of collection service contracts:

(1) NASA may fund a collection service contract on a fixed-fee basis—that is, payment of a fixed fee determined without regard to the amount actually collected under the contract. However, such contract may be entered into only if and to the extent provided in the appropriation act or other legislation, except that this requirement does not apply to the use of a revolving fund authorized by statute. Accordingly, payment of the fixed-fee must be charged to available agency appropriations. See 4 CFR 102.6(b)(1) and (3).

(2) NASA may also fund a collection service contract on a contingent-fee basis—that is, by including a provision in the contract permitting the contractor to deduct its fee from amounts collected under the contract. The fee should be based on a percentage of the amount collected, consistent with prevailing commercial practice. See 4 CFR 102.6(b)(2).

(3) Except as authorized under paragraph (b)(2) of this section, or unless otherwise specifically provided by law. NASA must deposit all amounts recovered under collection service contracts (or by NASA employees on behalf of the agency) in the Treasury Department as miscellaneous receipts pursuant to 31 U.S.C. 3302. See 4 CFR 102.6(b)(4).

§ 1261.410 Suspension or revocation of license or eligibility; liquidation of collateral.

(a) In seeking the collection of statutory penalties, forfeitures, or debts provided for as an enforcement aid or for compelling compliance, NASA will give serious consideration to the suspension or revocation of licenses or other privileges for any inexcusable, prolonged, or repeated failure of a debtor to pay such a claim. In the case of a contractor under 48 CFR chapter 18, NASA will comply with the debarment, suspension, and ineligibility requirements of the NASA Federal Acquisition Regulation Supplement (NASA/FAR Supplement) at 48 CFR 1809.4. Likewise, in making, guaranteeing, insuring, acquiring, or participating in loans, NASA will give serious
consideration to suspending or disqualifying any lender, contractor, broker, borrower, or other debtor from doing further business with it or engaging in programs sponsored by it if such a debtor fails to pay its debts to the Government within a reasonable time. The failure of any surety to honor its obligations in accordance with 31 U.S.C. 9305 must be reported to the Treasury Department at once. Notification that a surety’s certificate of authority to do business with the Federal Government has been revoked or forfeited by the Treasury Department will be forwarded by that Department to all interested agencies.

(b) If NASA is holding security or collateral which may be liquidated and the proceeds applied on debts due it through the exercise of a power of sale in the security instrument or a non-judicial foreclosure, it should do so by such procedures if the debtor fails to pay the debt within a reasonable time after demand, unless the cost of disposing of the collateral will be disproportionate to its value or special circumstances require judicial foreclosure. NASA will provide the debtor with reasonable notice of the sale, an accounting of any surplus proceeds, and any other procedures required by applicable contract or law. Collection from other sources, including liquidation of security or collateral, is not a prerequisite to requiring payment by a surety or insurance concern unless such action is expressly required by statute or contract.

§ 1261.411 Collection in installments.

(a) Whenever feasible, and except as otherwise provided by law, debts owed to the United States, together with interest penalties, and administrative costs as required by § 1261.412, should be collected in full in one lump sum. This is true whether the debt is being collected by administrative offset or by another method, including voluntary payment. However, if the debtor is financially unable to pay the indebtedness in one lump sum, payment may be accepted in regular installments. Debtors who represent that they are unable to pay the debt in one lump sum must submit financial statements. If NASA agrees to accept payment in regular installments, it will obtain a legally enforceable written agreement from the debtor which specifies all of the terms of the arrangement and which contains a provision accelerating the debt in the event the debtor defaults. The size and frequency of installment payments should bear a reasonable relation to the size of the debt and the debtor’s ability to pay. If possible, the installment payments should be sufficient in size and frequency to liquidate the Government’s claim in not more than 3 years. Installment payments of less than $50 per month should be accepted only if justifiable on the grounds of financial hardship or for some other reasonable cause. If the claim is unsecured, an executed confess-judgment note, comparable to the Department of Justice Form USA-70a, should be obtained from a debtor when the total amount of the deferred installments will exceed $750. Such notes may be sought when an unsecured obligation of a lesser amount is involved. When attempting to obtain confess-judgment notes, the debtor should be provided with written explanation of the consequences of signing the note, and documentation should be maintained sufficient to demonstrate that the debtor has signed the note knowingly and voluntarily. Security for deferred payments other than a confess-judgment note may be accepted in appropriate cases. NASA, at its option, may accept installment payments notwithstanding the refusal of a debtor to execute a confess-judgment note or to give other security.

(b) If the debtor owes more than one debt and designates how a voluntary installment payment is to be applied as among those debts, that designation must be followed. If the debtor does not designate the application of the payment, agencies should apply payments to the various debts in accordance with the best interests of the United States, as determined by the facts and circumstances of the particular case, paying special attention to applicable statutes of limitations.
§ 1261.412 Interest, penalties, and administrative costs.

(a) Pursuant to 31 U.S.C. 3717, NASA shall assess interest, penalties, and administrative costs on debts owed to the United States. Before assessing these charges, NASA must mail or hand deliver a written notice to the debtor explaining the requirements concerning the charges (see §1261.407(b)).

(b) Interest shall accrue from the date on which notice of the debt and the interest requirements is first mailed or hand delivered to the debtor (on or after October 25, 1982), using the most current address that is available to the agency. If an “advance billing” procedure is used—that is, a bill is mailed before the debt is actually owed—it can include the required interest notification in the advance billing, but interest may not start to accrue before the debt is actually owed. Designated officials should exercise care to ensure that the notices required by this section are dated and mailed or hand delivered on the same day.

(c) The rate of interest assessed shall be the rate of the current value of funds to the United States Treasury (i.e., the Treasury tax and loan account rate), as prescribed and published by the Secretary of the Treasury in the Federal Register and the Treasury Fiscal Requirements Manual Bulletins annually or quarterly, in accordance with 31 U.S.C. 3717. NASA may assess a higher rate of interest if it reasonably determines that a higher rate is necessary to protect the interests of the United States. The rate of interest, as initially assessed, shall remain fixed for the duration of the indebtedness, except that where a debtor has defaulted on a repayment agreement and seeks to enter into a new agreement, NASA may set a new interest rate which reflects the current value of funds to the Treasury Department at the time the new agreement is executed. Interest should not be assessed on interest, penalties, or administrative costs required by this section. However, if the debtor defaults on a previous repayment agreement, charges which accrued but were not collected under the defaulted agreement shall be added to the principal to be paid under a new repayment agreement.

(d) NASA shall assess against a debtor or charges to cover administrative costs incurred as a result of a delinquent debt—that is, the additional costs incurred in processing and handling the debt because it became delinquent as defined in §1261.401(b). Calculations of administrative costs should be based upon actual costs incurred or upon cost analyses establishing an average of actual additional costs incurred by the agency in processing and handling claims against other debtors in similar stages of delinquency. Administrative costs may include costs incurred in obtaining a credit report or in using a private debt collector, to the extent they are attributable to delinquency.

(e) NASA shall assess a penalty charge, not to exceed 6 percent a year, on any portion of a debt that is delinquent as defined in §1261.401(b) for more than 90 days. This charge need not be calculated until the 91st day of delinquency, but shall accrue from the date that the debt became delinquent.

(f) When a debt is paid in partial or installment payments, amounts received by the agency shall be applied first to outstanding penalty and administrative cost charges, second to accrued interest, and third to outstanding principal.

(g) NASA must waive the collection of interest on the debt or any portion of the debt which is paid within 30 days after the date on which interest began to accrue. NASA may extend this 30-day period, on a case-by-case basis, if it reasonably determines that such action is appropriate. Also, NASA may waive, in whole or in part, the collection of interest, penalties, and/or administrative costs (assessed under this section) under the criteria specified in §1261.414 relating to the compromise of claims (without regard to the amount of the debt), or if NASA determines that collection of these charges would be against equity and good conscience or not in the best interests of the United States. See 4 CFR 101.13(g). Such optional waivers should be handled on a case-by-case basis, in consultation with officials designated under §1261.403. Examples of situations in which NASA
may consider waiving interest and other related charges are:

(1) Pending consideration of a request for reconsideration or administrative review;

(2) Acceptance of an installment plan or other compromise agreement, where there is no indication of lack of good faith on the part of the debtor in not repaying the debt, and the debtor has provided substantiating information of inability to pay or other unavoidable hardship which reasonably prevented the debt from being repaid.

(h) Where a mandatory waiver or review statute applies, interest and related charges may not be assessed for those periods during which collection action must be suspended under §1261.416(c)(3).

(i) Exemptions. (1) The provisions of 31 U.S.C. 3717 do not apply:

(i) To debts owed by any State or local government;

(ii) To debts arising under contracts which were executed prior to, and were in effect on (i.e., were not completed as of) October 25, 1982;

(iii) To debts where an applicable statute, regulation required by statute, loan agreement, or contract either prohibits such charges or explicitly fixes the charges that apply to the debts involved; or

(iv) Debts arising under the Social Security Act, the Internal Revenue Code of 1954, or the tariff laws of the United States.

(2) NASA may, however, assess interest and related charges on debts which are not subject to 31 U.S.C. 3717 to the extent authorized under the common law or other applicable statutory authority.

§1261.413 Analysis of costs; automation; prevention of overpayments, delinquencies, or defaults.

The Office of the NASA Comptroller will:

(a) Issue internal procedures to provide for periodic comparison of costs incurred and amounts collected. Data on costs and corresponding recovery rates for debts of different types and in various dollar ranges should be used to compare the cost effectiveness of alternative collection techniques, establish guidelines with respect to points at which costs of further collection efforts are likely to exceed recoveries, and assist in evaluating offers in compromise.

(b) Consider the need, feasibility, and cost effectiveness of automated debt collection operation.

(c) Establish internal controls to identify causes, if any, of overpayments, delinquencies, and defaults, and establish procedures for corrective actions as needs dictate.

§1261.414 Compromise of claims.

(a) Designated NASA officials (see §§1261.402 and 1261.403) may compromise claims for money or property arising out of the activities of the agency where the claim, exclusive of interest, penalties, and administrative costs, does not exceed $20,000, prior to the referral of such claims to the General Accounting Office, or to the Department of Justice for litigation. The Comptroller General may exercise such compromise authority with respect to claims referred to the General Accounting Office (GAO) prior to their further referral for litigation. Only the Comptroller General may effect the compromise of a claim that arises out of an exception made by the GAO in the account of an accountable officer, including a claim against the payee, prior to its referral by the GAO for litigation.

(b) When the claim, exclusive of interest, penalties, and administrative costs, exceeds $20,000, the authority to accept the compromise rests solely with the Department of Justice. NASA should evaluate the offer, using the factors set forth in paragraphs (c) through (f) of this section, and may recommend compromise for reasons under one, or more than one, of those paragraphs. If NASA then wishes to accept the compromise, it must refer the matter to the Department of Justice, using the Claims Collection Litigation Report. See §1261.417(e) or 4 CFR 105.2(b). Claims for which the gross amount is over $200,000 shall be referred to the Commercial Litigation Branch, Civil Division, Department of Justice, Washington, DC 20530. Claims for which the gross original amount is $200,000 or less shall be referred to the
§ 1261.414

United States Attorney in whose judicial district the debtor can be found. The referral should specify the reasons for the agency’s recommendation. If NASA has a debtor’s firm written offer of compromise which is substantial in amount and the agency is uncertain as to whether the offer should be accepted, it may refer the offer, the supporting data, and particulars concerning the claim to the General Accounting Office or to the Department of Justice. The General Accounting Office or the Department of Justice may act upon such an offer or return it to the agency with instructions or advice. If NASA wishes to reject the compromise, GAO or Department of Justice approval is not required.

(c) A claim may be compromised pursuant to this section if NASA cannot collect the full amount because of the debtor’s inability to pay the full amount within a reasonable time, or the refusal of the debtor to pay the claim in full and the Government’s inability to enforce collection in full within a reasonable time by enforced collection proceedings. In determining the debtor’s inability or refusal to pay, the following factors, among others, may be considered:

1. Age and health of the debtor;
2. Present and potential income;
3. Inheritance prospects;
4. The possibility that assets have been concealed or improperly transferred by the debtor;
5. The availability of assets or income which may be realized by enforced collection proceedings; and
6. The applicable exemptions available to the debtor under State and Federal law in determining the Government’s ability to enforce collection. Uncertainty as to the price which collateral or other property will bring at forced sale may properly be considered in determining the Government’s ability to enforce collection. The compromise should be for an amount which bears a reasonable relation to the amount which can be recovered by enforced collection procedures, having regard for the exemptions available to the debtor and the time which collection will take.

(d) A claim may be compromised if there is a real doubt concerning the Government’s ability to prove its case in court for the full amount claimed, either because of the legal issues involved or a bona fide dispute as to the facts. The amount accepted in compromise in such cases should fairly reflect the probability of prevailing on the legal question involved, the probabilities with respect to full or partial recovery of a judgment, paying due regard to the availability of witnesses and other evidentiary support for the Government claim, and related pragmatic considerations. In determining the litigative risks involved, proportionate weight should be given to the probable amount of court costs and attorney fees pursuant to the Equal Access to Justice Act which may be assessed against the Government if it is unsuccessful in litigation. See 28 U.S.C. 2412.

(e) A claim may be compromised if the cost of collecting the claim does not justify the enforced collection of the full amount. The amount accepted in compromise in such cases may reflect an appropriate discount for the administrative and litigative costs of collection, paying heed to the time which it will take to effect collection. Costs of collecting may be a substantial factor in the settlement of small claims, but normally will not carry great weight in the settlement of large claims. In determining whether the cost of collecting justifies enforced collection of the full amount, it is legitimate to consider the positive effect that enforced collection of some claims may have on the collection of other claims. Since debtors are more likely to pay when first requested to do so if an agency has a policy of vigorous collection of all claims, the fact that the cost of collection of any one claim may exceed the amount of the claim does not necessarily mean that the claim should be compromised. The practical benefits of vigorous collection of a small claim may include a demonstration to other debtors that resistance to payment is not likely to succeed.

(f) Enforcement policy. Statutory penalties, forfeitures, or debts established as an aid to enforcement and to compel
compliance may be compromised pursuant to this part if the agency’s enforcement policy in terms of deterrence and securing compliance, both present and future, will be adequately served by acceptance of the sum to be agreed upon. Mere accidental or technical violations may be dealt with less severely than willful and substantial violations.

(g) Compromises payable in installments are to be discouraged. However, if payment of a compromise by installments is necessary, a legally enforceable agreement for the reinstatement of the prior indebtedness less sums paid thereon and acceleration of the balance due upon default in the payment of any installment should be obtained, together with security in the manner set forth in §1261.411, in every case in which this is possible.

(h) If the agency’s files do not contain reasonably up-to-date credit information as a basis for assessing a compromise proposal, such information may be obtained from the individual debtor by obtaining a statement executed under penalty of perjury showing the debtor’s assets and liabilities, income, and expenses. Forms such as Department of Justice Form OBD–500 or OBD–500B may be used for this purpose. Similar data may be obtained from corporate debtors using a form such as Department of Justice Form OBD–500C or by resort to balance sheets and such additional data as seems required. Samples of the Department of Justice forms are available from the Office of the NASA General Counsel. Neither a percentage of a debtor’s profits nor stock in a debtor corporation will be accepted in compromise of a claim. In negotiating a compromise with a business concern, consideration should be given to requiring a waiver of the tax-loss-carry-back rights of the debtor.

(i) Joint and several liability. When two or more debtors are jointly and severally liable, collection action will not be withheld against one such debtor until the other or others pay their proportionate shares. NASA will not attempt to allocate the burden of paying such claims as between the debtors but will proceed to liquidate the indebtedness as quickly as possible. Care should be taken that a compromise agreement with one such debtor does not release the agency’s claim against the remaining debtors. The amount of a compromise with one such debtor shall not be considered a precedent or as morally binding in determining the amount which will be required from other debtors jointly and severally liable on the claim.

§1261.415 Execution of releases.

Upon receipt of full payment of a claim, or the amount in compromise of a claim as determined pursuant to §1261.414, the official designated in §1261.402 will prepare and execute, on behalf of the United States, an appropriate release, which shall include the provision that it shall be void if procured by fraud, misrepresentation, the presentation of a false claim, or mutual mistake of fact.

§1261.416 Suspending or terminating collection action.

(a) The standards set forth in this section apply to the suspension or termination of collection action pursuant to 31 U.S.C. 3711(a)(3) on claims which do not exceed $20,000, exclusive of interest, penalties, and administrative costs, after deducting the amount of partial payments or collections, if any. NASA may suspend or terminate collection action under this part with respect to claims for money or property arising out of activities of the agency, prior to the referral of such claims to the General Accounting Office or to the Department of Justice for litigation. The Comptroller General (or designee) may exercise such authority with respect to claims referred to the General Accounting Office prior to their further referral for litigation.

(b) If, after deducting the amount of partial payments or collections, if any, a claim exceeds $20,000, exclusive of interest, penalties, and administrative costs, the authority to suspend or terminate rests solely with the Department of Justice. If the designated official believes suspension or termination may be appropriate, the matter should be evaluated using the factors set forth in paragraphs (c) and (d) of this section. If the agency concludes that suspension or termination is appropriate,
§ 1261.416 14 CFR Ch. V (1–1–02 Edition)

It must refer the matter, with its reasons for the recommendation, to the Department of Justice, using the Claims Collection Litigation Report. See §1261.417(e) or 4 CFR 105.2(b). If NASA decides not to suspend or terminate collection action on the claim, or if it determines that its claim is plainly erroneous or clearly without legal merit, it may terminate collection action regardless of the amount involved, without the need for Department of Justice concurrence. If NASA decides not to suspend or terminate collection action on the claim, with due consideration for the size and amount which may be realized thereon. The following sources may be of assistance in locating missing debtors: Telephone directories; city directories; postmasters; drivers’ license records; automobile title and registration records; state and local government agencies; the Internal Revenue Service (see 4 CFR 102.18); other Federal agencies; employers, relatives, friends; credit agency skip locate reports, and credit bureaus. Suspension as to a particular debtor should not defer the early liquidation of security for the debt. Every reasonable effort should be made to locate missing debtors sufficiently in advance of the bar of the applicable statute of limitations, such as 28 U.S.C. 2415, to permit the timely filing of suit if such action is warranted. If the missing debtor has signed a confess-judgment note and is in default, referral of the note for the entry of judgment should not be delayed because of the debtor’s missing status.

(2) Financial condition of debtor. Collection action may also be suspended temporarily on a claim when the debtor (in whole or in part) will be found not owing from the debtor; the debt (in whole or in part) will be found not owing from the debtor; or

(i) The applicable statute of limitations has been tolled or started running anew; or

(ii) Future collection can be effected by offset, notwithstanding the statute of limitations, with due regard to the 10-year limitation prescribed by 31 U.S.C. 3716(c)(1); or

(iii) The debtor agrees to pay interest on the amount of the debt on which collection action will be temporarily suspended, and such temporary suspension is likely to enhance the debtor’s ability to fully pay the principle amount of the debt with interest at a later date.

(3) Request for waiver or administrative review. If the statute under which waiver or administrative review is sought is “mandatory,” that is, if it prohibits the agency from collecting the debt prior to the agency’s consideration of the request for waiver or review (see Califano v. Yamasaki, 422 U.S. 682 (1979)), then collection action must be suspended until either: The agency has considered the request for waiver; or the applicable time limit for making the waiver/review request, as prescribed in a written notice, has expired and the debtor, upon notice, has not made such a request. If the applicable waiver/review statute is “permissive,” that is, if it does not require all requests for waiver/review to be considered, and if it does not prohibit collection action pending consideration of a waiver/request (for example, 5 U.S.C. 5584), collection action may be suspended pending agency action on a waiver/request based upon appropriate consideration, on a case-by-case basis, as to whether:

(i) There is a reasonable possibility that waiver will be granted or that the debt (in whole or in part) will be found not owing from the debtor; or

(ii) The Government’s interests would be protected, if suspension were granted, by reasonable assurance that the debt could be recovered if the debtor does not prevail; and

(iii) Collection of the debt will cause undue hardship.

(4) If the applicable statutes and regulations would not authorize refund by the agency to the debtor of amounts collected prior to agency consideration of the debtor’s waiver/review request
(in the event the agency acts favorably on it), collection action should ordinarily be suspended, without regard to the factors specified for permissive waivers, unless it appears clear, based on the request and the surrounding circumstances, that the request is frivolous and was made primarily to delay collection. See 4 CFR 104.2.

(d) Termination of collection activity. Collection activity may be terminated and NASA may close its file on the claim based on the following:

(1) Inability to collect any substantial amount. Collection action may be terminated on a claim when it becomes clear that the Government cannot collect or enforce collection of any significant sum from the debtor, having due regard for the judicial remedies available to the Government, the debtor’s future financial prospects, and the exemptions available to the debtor under State and Federal law. In determining the debtor’s inability to pay, the following factors, among others, may be considered: Age and health of the debtor; present and potential income; inheritance prospects; the possibility that assets have been concealed or improperly transferred by the debtor; the availability of assets or income which may be realized by enforced collection proceedings.

(2) Inability to locate debtor. Collection action may be terminated on a claim when the debtor cannot be located, and either:

(i) There is no security remaining to be liquidated; or

(ii) The applicable statute of limitations has run and the prospects of collecting by offset, notwithstanding the bar of the statute of limitations, are too remote to justify retention of the claim.

(3) Cost will exceed recovery. Collection action may be terminated on a claim when it is likely that the cost of further collection action will exceed the amount recoverable thereby.

(4) Claim legally without merit. Collection action should be terminated immediately on a claim whenever it is determined that the claim is legally without merit.

(5) Claim cannot be substantiated by evidence. Collection action should be terminated when it is determined that the evidence necessary to prove the claim cannot be produced or the necessary witnesses are unavailable and efforts to reduce voluntary payment are unavailing.

(e) Transfer of claim. When NASA has doubt as to whether collection action should be suspended or terminated on a claim, it may refer the claim to the General Accounting Office for advice. When a significant enforcement policy is involved in reducing a statutory penalty or forfeiture to judgment, or recovery of a judgment is a prerequisite to the imposition of administrative sanctions, such as the suspension or revocation of a license or the privilege of participating in a Government sponsored program, NASA may refer such a claim for litigation even though termination of collection activity might otherwise be given consideration under paragraphs (d)(1) and (2) of this section. Claims on which NASA holds a judgment by assignment or otherwise will be referred to the Department of Justice for further action if renewal of the judgment lien or enforced collection proceedings are justified under the criteria discussed in this section.

§ 1261.417 Referral to Department of Justice (DJ) or General Accounting Office (GAO).

(a) Prompt referral. Except as provided in paragraphs (b) and (c) of this section, claims on which aggressive collection action has been taken in accordance with § 1261.406 and which cannot be compromised, or on which collection action cannot be suspended or terminated, in accordance with §§1261.414 and 1261.416, shall be promptly referred to the Department of Justice for litigation.

(1) Claims for which the gross original amount is over $200,000 shall be referred to the Commercial Litigation Branch, Civil Division, Department of Justice, Washington, DC 20530.

(2) Claims for which the gross original amount is $200,000 or less shall be referred to the United States Attorney in whose judicial district the debtor can be found. Referrals should be made as early as possible, consistent with aggressive agency collection action and the observance of the regulations contained in this subpart, and in any

353
§ 1261.417

14 CFR Ch. V (1–1–02 Edition)

Event, well within the period for bring-
ing a timely suit against the debtor. Ordinarily, referrals should be made within 1 year of the agency’s final determination of the fact and the amount of the debt.

(3) Minimum amount. NASA is not to refer claims of less than $600, exclusive of interest, penalties, and administrative costs, for litigation unless:

(i) Referral is important to a significant enforcement policy; or

(ii) The debtor not only has the clear ability to pay the claim but the Government can effectively enforce payment, having due regard for the exemptions available to the debtor under State and Federal law and the judicial remedies available to the Government.

(b) Claims arising from audit exceptions taken by the GAO to payments made by agencies must be referred to the GAO for review and approval prior to referral to the Department of Justice for litigation, unless NASA has been granted an exception by the GAO. Referrals shall comply with instructions, including monetary limitations, contained in the GAO Policy and Procedures Manual for Guidance to Federal Agencies and paragraphs (e) and (f) of this section.

(c) When the merits of the claim, the amount owed on the claim, or the propriety of acceptance of a proposed compromise, suspension, or termination are in doubt, the designated official should refer the matter to the General Accounting Office for resolution and instructions prior to proceeding with collection action and/or referral to the Department of Justice for litigation.

(d) Once a claim has been referred to GAO or to the Department of Justice pursuant to this section, NASA shall refrain from having any contact with the debtor about the pending claim and shall direct the debtor to GAO or to the DJ, as appropriate, when questions concerning the claim are raised by the debtor. GAO or the DJ, as appropriate, shall be immediately notified by NASA of any payments which are received from the debtor subsequent to referral of a claim under this section.

(e) Claims Collection Litigation Report (CCLR). Unless an exception has been granted by the Department of Justice in consultation with the General Ac-
counting Office, the Claims Collection Litigation Report (CCLR), which was officially implemented by NASA, effective March 1, 1983, shall be used with all referrals of administratively uncollectible claims. As required by the CCLR, the following information must be included:

(1) Report of prior collection actions. A checklist or brief summary of the actions previously taken to collect or compromise the claim. If any of the administrative collection actions have been omitted, the reason for their omission must be provided. GAO, the United States Attorney, or the Civil Division of the Department of Justice may return claims at their option when there is insufficient justification for the omission of one or more of the administrative collection actions enumerated in this subpart (see 4 CFR part 102).

(2) Current address of debtor. The current address of the debtor, or the name and address of the agent for a corporation upon whom service may be made. Reasonable and appropriate steps will be taken to locate missing parties in all cases. Referrals to the Department of Justice for the commencement of foreclosure of other proceedings, in which the current address of any party is unknown, will be accompanied by a listing of the prior known addresses of such party and a statement of the steps taken to locate that party.

(3) Credit data. Reasonably current credit data which indicates that there is a reasonable prospect of effecting enforced collection from the debtor, having due regard for the exemptions available to the debtor under State and Federal law and the judicial remedies available to the Government. Such credit data may take the form of:

(i) A commercial credit report;

(ii) An agency investigative report showing the debtor’s assets, liabilities, income, and expenses;

(iii) The individual debtor’s own financial statement executed under penalty of perjury reflecting the debtor’s assets, liabilities, income, and expenses; or

(iv) An audited balance sheet of a corporate debtor.

(4) Reasons for credit data omissions. The credit data may be omitted if:
§1261.502 Notification procedures.  

(a) Before collecting any claims through administrative offset, a 30-day written notice must be sent to the debtor by certified mail, return receipt requested. The notice must include:

(1) The nature and amount of the debt;

(b) Whether collection by administrative offset is feasible is a determination to be made by NASA on a case-by-case basis, in the exercise of sound discretion. NASA will consider not only whether administrative offset can be accomplished, both practically and legally, but also whether offset is best suited to further and protect all of the Government’s interests. In appropriate circumstances, NASA may give due consideration to the debtor’s financial condition; or whether offset would tend to substantially interfere with or defeat the purposes of the program authorizing the payments against which offset is contemplated. For example, under a grant program in which payments are made in advance of the grantee’s performance, offset will normally be inappropriate.

(c) NASA is not authorized by 31 U.S.C. 3716 to use administrative offset with respect to:

(1) Debts owed by any State or local Government;  
(2) Debts arising under or payments made under the Social Security Act, the Internal Revenue Code of 1954, or the tariff laws of the United States; or  
(3) Any case in which collection of the type of debt involved by administrative offset is explicitly provided for or prohibited by another statute. However, unless otherwise provided by contract or law, debts or payments which are not subject to administrative offset under 31 U.S.C. 3716 may be collected by administrative offset under the common law or other applicable statutory authority.

§1261.501 Definition.  

Administrative offset— the term, as defined in 31 U.S.C. 3701(a)(1), means “withholding money payable by the United States Government to, or held by the Government for, a person to satisfy a debt the person owes the Government.”

§1261.502 Notification procedures.  

(a) Before collecting any claims through administrative offset, a 30-day written notice must be sent to the debtor by certified mail, return receipt requested. The notice must include:

(1) The nature and amount of the debt;
§ 1261.503 Agency records inspection; hearing or review.

(a) NASA shall provide the debtor with a reasonable opportunity for an “oral hearing” when:

(1) An applicable statute authorizes or requires the agency to consider waiver of the indebtedness involved, the debtor requests waiver of the indebtedness, and the waiver determination turns on an issue of credibility or veracity; or

(2) The debtor requests reconsideration of the debt and the agency determines that the question of the indebtedness cannot be resolved by review of the documentary evidence, for example, when the validity of the debt turns on an issue of credibility or veracity. Unless otherwise required by law, an oral hearing under this section is not required to be a formal evidentiary-type hearing, although significant matters discussed at the hearing should be carefully documented. See 4 CFR 102.3(c)(1). Such hearing may be an informal discussion/interview with the debtor, face-to-face meeting between debtor and cognizant NASA personnel, or written formal submission by the debtor and response by the NASA cognizant personnel with an opportunity for oral presentation. The hearing will be conducted before or in the presence of an official designated by the NASA General Counsel or designee on a case-by-case basis. The decision of the reviewing/hearing official should be communicated in writing (no particular form is required) to the affected parties, and will constitute the final administrative decision of the agency.

(b) Paragraph (a) of this section does not require an oral hearing with respect to debt collection systems in which determinations of indebtedness or waiver rarely involve issues of credibility or veracity and NASA has determined that review of the written record is ordinarily an adequate means to correct prior mistakes. In administering such a system, the agency is not required to sift through all of the requests received in order to accord oral hearings in those few cases which may involve issues of credibility or veracity. See 4 CFR 102.3(c)(2).

(c) In those cases where an oral hearing is not required or granted, NASA
will nevertheless accord the debtor a “paper hearing”—that is, the agency will make its determination on the request for waiver or reconsideration based upon a review of the available written record. See 4 CFR 102.3(c)(3). In such case, the responsible official or designee shall refer the request to the appropriate NASA legal counsel for review and determination by counsel or designee.

(d) A request to inspect and/or copy the debtor’s own debt records or related files, and/or for a hearing or review accompanied by a statement of the basis or grounds for such hearing or review, must be submitted within 30 calendar days of the receipt of the written notice under §1261.502(a). A reasonable time to inspect and copy records will be provided during official working hours, but not to exceed 5 business days, unless a verified statement showing good cause requires a longer period. Any suspension of collection or other charges during the period of the inspection, or hearing or review, shall comply with §§1261.412 and 1261.416. Requests for or consideration of compromising the debt must comply with §1261.414.

§ 1261.504 Interagency requests.

(a) Requests to NASA by other Federal agencies for administrative offset should be in writing and forwarded to the Office of the NASA Comptroller, NASA Headquarters, Washington, DC 20546.

(b) Requests by NASA to other Federal agencies holding funds payable to the debtor shall be in writing and forwarded, certified return receipt, as specified by that agency in its regulations; however, if such rule is not readily available or identifiable, the request should be submitted to that agency’s office of legal counsel with a request that it be processed in accordance with their internal procedures.

(c) Requests to and from NASA should be processed within 30 calendar days of receipt. If such processing is impractical or not feasible, notice to extend the time period for another 30 calendar days prior to the expiration of the first 30-day period.

(d) Requests from or to NASA must be accompanied by a certification that the debtor owes the debt (including the amount) and that the provisions of (or comparable to) subpart 1261.5 or subpart 1261.6, as applicable, have been fully complied with. NASA will cooperate with other agencies in effecting collection.

§ 1261.505 Multiple debts.

When collecting multiple debts by administrative offset, NASA will apply the recovered amounts to those debts in accordance with the best interests of the United States, as determined by the facts and circumstances of the particular case, paying special attention to applicable statutes of limitations.

§ 1261.506 Limitation periods.

NASA may not initiate administrative offset to collect a debt under 31 U.S.C. 3716 more than 10 years after the Government’s right to collect the debt first accrued, unless facts material to the Government’s right to collect the debt were not known and could not reasonably have been known by the official or officials of the Government who were charged with the responsibility to discover and collect such debts. Determination of when the debt first accrued is to be made in accordance with existing law regarding the accrual of debts, such as under 28 U.S.C. 2415. See 4 CFR 102.3(b)(3).

§ 1261.507 Civil Service Retirement and Disability Fund.

(a) Unless otherwise prohibited by law, NASA may request that moneys which are due and payable to a debtor from the Civil Service Retirement and Disability Fund be administratively offset in reasonable amounts in order to collect in one full payment or a minimal number of payments debts owed to the United States by the debtor. Such requests shall be made to the appropriate officials of the Office of Personnel Management (OPM) in accordance with the OPM regulations (see 5 CFR 831.1801, et seq.).

(b) When making a request for administrative offset under paragraph (a) of this section, NASA shall include a written certification that:
§ 1261.508  Offset against a judgment.

(1) The debtor owes the United States a debt, including the amount of the debt;

(2) NASA has complied with the applicable statutes, regulations, and procedures of the Office of Personnel Management; and

(3) NASA has complied with the requirements of this subpart 1261.5 which implements 4 CFR 102.3, including any required hearing or review.

(c) Once NASA has decided to request administrative offset under this section, the request should be made as soon as practical after completion of the applicable procedures in order that the Office of Personnel Management may identify and “flag” the debtor’s account in anticipation of the time when the debtor requests or becomes eligible to receive payments from the Fund. This will satisfy any requirement that offset be initiated prior to expiration of the applicable statute of limitations. At such time as the debtor makes a claim for payments from the Fund, if at least a year has elapsed since the offset request was originally made, the debtor should be permitted to offer a satisfactory repayment plan in lieu of offset upon establishing that changed financial circumstances would render the offset unjust.

(d) If NASA collects part or all of the debt by other means before deductions are made or completed pursuant to paragraph (a) of this section, the designated official should act promptly to modify or terminate the agency’s request to OPM for offset.

(e) OPM is not required or authorized by 4 CFR 102.4 to review the merits of NASA’s determination with respect to:

(1) The amount and validity of the debt;

(2) Waiver under an applicable statute; or

(3) Provide or not provide an oral hearing.

§ 1261.509  Collection by offset against a judgment obtained by a debtor against the United States shall be accomplished in accordance with 31 U.S.C. 3728.

Subpart 1261.6—Collection by Offset From Indebted Government Employees

Source: 52 FR 19487, May 26, 1987, unless otherwise noted.

§ 1261.600  Purpose of subpart.

This subpart implements 5 U.S.C. 5514 in accordance with the OPM regulation and establishes the procedural requirements for recovering pre-judgment debts from the current pay account of an employee through what is commonly called salary offset, including a situation where NASA (the current paying agency) is not the employee’s creditor agency. Salary offset to satisfy a judgment or a court determined debt is governed by section 124 of Pub. L. 97–276 (October 2, 1982), 5 U.S.C. 5514 note.

§ 1261.601  Scope of subpart.

(a) Coverage. This subpart applies to agencies and employees as defined in §1261.602.

(b) Applicability. This subpart and 5 U.S.C. 5514 apply in recovering certain pre-judgment debts by administrative offset except where the employee consents to the recovery, from the current pay account of an employee. Because it is an administrative offset, debt collection procedures for salary offset which are not specified in 5 U.S.C. 5514 and this subpart should be consistent with subpart 1261.5.

(1) Excluded debts or claims. The procedures contained in this subpart do not apply to debts or claims arising under the Internal Revenue Code of 1954 as amended (26 U.S.C. 1 et seq.), the Social Security Act (42 U.S.C. 301 et seq.), or the tariff laws of the United States; or to any case where collection of a debt by salary offset is explicitly provided for or prohibited by another statute (e.g., travel advances in 5 U.S.C. 5705, employee training expenses in 5 U.S.C. 4108, and debts determined by a court as provided in 5 U.S.C. 5514 note).

(2) Waiver requests and claims to the General Accounting Office. This subpart does not preclude an employee from requesting waiver of a salary overpayment under 5 U.S.C. 5584, 10 U.S.C. 2774,
or 32 U.S.C. 716, or in any way questioning the amount or validity of a debt by submitting a subsequent claim to the General Accounting Office in accordance with procedures prescribed by the General Accounting Office. Similarly, in the case of other types of debts, it does not preclude an employee from requesting waiver, if waiver is available under any statutory provision pertaining to the particular debt being collected.

§1261.602 Definitions.

For purposes of this subpart:
(a) **Agency** means:
   (1) An Executive agency as defined in section 105 of title 5, United States Code, including U.S. Postal Service and the U.S. Postal Rate Commission;
   (2) A military department as defined in section 102 of Title 5, United States Code;
   (3) An agency or court in the judicial branch, including a court as defined in section 610 of Title 28, United States Code, the District Court for the Northern Mariana Islands, and the Judicial Panel on Multidistrict Litigation;
   (4) An agency of the legislative branch, including the U.S. Senate and the U.S. House of Representatives; and
   (5) Other independent establishments that are entities of the Federal Government.
(b) **Creditor agency** means the agency to which the debt is owed.
(c) **Debt** means an amount owed to the United States from sources which include loans insured or guaranteed by the United States and all other amounts due the United States from fees, leases, rents, royalties, services, sales of real or personal property, overpayments, penalties, damages, interest, fines and forfeitures (except those arising under the Uniform Code of Military Justice), and all other similar sources.
(d) **Disposable pay** means that part of current basic pay, special pay, incentive pay, retired pay, retainer pay, or in the case of an employee not entitled to basic pay, other authorized pay remaining after the deduction of any amount required by law to be withheld. NASA must exclude deductions listed in OFPM's garnishment regulations at 5 CFR 581.106(a) through (f) to determine disposable pay subject to salary offset.
(e) **Employee** means a current employee of an agency, including a current member of the Armed Forces or a Reserve of the Armed Forces (Reserves).
(f) **Paying agency** means the agency employing the individual and authorizing the payment of his or her current pay.
(g) **Salary offset** means an administrative offset to collect a debt under 5 U.S.C. 5514 by deduction(s) at one or more officially established pay intervals from the current pay account of an employee without his or her consent.

§1261.603 Procedures for salary offset.

If NASA is both the paying and creditor agency, the following requirements must be met before a deduction is made from the current pay account of an employee.

(a) **Written notice.** The employee must be sent a minimum of 30 days written notice, which specifies:
   (1) The origin, nature and amount of the indebtedness, and the official to contact within the agency (ordinarily, the designated financial management official for the particular installation);
   (2) The intention of the agency to initiate collection of the debt through salary offset by deductions from the employee's current disposable pay, stating the amount, frequency, proposed beginning date, and duration of intended deductions (the amount to be deducted for any period, without the consent of the employee, may not exceed 15 percent of disposable pay);
   (3) An explanation of any interest, penalties, or administrative costs included in the amount, and that such assessment must be made unless excused in accordance with 14 CFR 1261.412;
   (4) The right for an opportunity (which does not toll the running of the 30-day period) to inspect and copy NASA records relating to the debt or to request and receive (if reasonable) a copy of such records, provided that
such opportunity must be exercised on or before the 15th day following receipt of the notice and can be conducted only during official working hours for a reasonable period of time not to exceed 5 working days;

(5) If not previously provided, the opportunity (under terms agreeable to NASA) to establish a schedule for the voluntary repayment of the debt or to enter into a written agreement to establish a schedule for repayment of the debt in lieu of offset. The agreement must be in writing, signed by both the employee and the authorized agency official (see 14 CFR 1261.402) and documented in NASA's files (see 14 CFR 1261.407(d));

(6) An opportunity for a hearing, as provided in paragraph (c) of this section, on the agency's determination concerning the existence and amount of the debt, and the terms of the repayment schedule (in the case of an employee whose repayment schedule is established other than by written agreement);

(7) The hearing request should be addressed to the Office of the NASA General Counsel or to the Office of Chief Counsel of the NASA installation involved, as appropriate; counsel's name and address will be as stated in the notice.

(b) Exception to entitlement to written notice. NASA is not required to comply with paragraph (a) of this section for any adjustment to pay arising out of an employee's election of coverage or a change in coverage under a Federal benefits program requiring periodic deductions from pay, if the amount to be recovered was accumulated over four pay periods or less.

(c) Petition filing; hearing; decision and review. The notice described in paragraph (a) of this section should include the following provisions, which may be copied and attached to the notice.

(1) The employee may petition for a hearing, but such petition must be in writing and received by NASA on or before the 15th day following receipt of the notice, and include a statement of the reasons for such hearing. No particular form is required, and a timely, legible letter request (with the stated reasons) will suffice; however, the employee must sign the petition and include with it, with reasonable specificity, all the supporting facts and evidence, including a list of the witnesses, if any.

(2) The petition should be addressed to the agency counsel designated in the notice, but the hearing will be conducted by an official not under the supervision or control of the NASA Administrator or by appointment of an administrative law judge. Notice of the name and address of the hearing official will be sent to the employee within 10 days of receipt of petition. A hearing official will be designated on a case-by-case basis under reimbursable arrangements or through direct payment as events may warrant.

(3) The timely filing of the petition will stay the commencement of collection; and the final decision on the hearing will be issued at the earliest practicable date, but not later than 60 days after the filing of the petition requesting the hearing unless the employee requests and the hearing official grants a delay in the proceedings.

(4) Any knowingly false or frivolous statements, representations, or evidence may subject the employee to:

(i) Disciplinary procedures appropriate under Chapter 75 of Title 5, United States Code, 5 CFR part 752, or any other applicable statutes or regulations;
(ii) Criminal penalties under sections 286, 287, 1001, and 1002 of Title 18, United States Code, or any other applicable statutory authority.

(5) The form and content of the hearing will be determined by the hearing official depending on the nature and complexity of the transaction giving
rise to the debt. The hearing is not an adversarial adjudication, and need not take the form of an evidentiary hearing. However, depending on the particular facts and circumstances, the hearing may be analogous to a fact-finding proceeding with oral presentations; or an informal meeting with or interview of the employee; or formal written submissions, with an opportunity for oral presentation, and decision based on the available written record. Ordinarily, hearings may consist of informal conferences before the hearing official in which the employee and agency officials will be given full opportunity to present evidence, witnesses, and argument. The employee may represent himself or herself or be represented by an individual of his or her choice. The hearing official must maintain a summary record of the hearing provided under this subpart. For additional guidance, see 14 CFR 1261.503.

(6) The decision will be in writing and state:
   (i) The facts purported to evidence the nature and origin of the alleged debt;
   (ii) The respective positions of the agency and of the employee;
   (iii) The hearing official’s analysis (which address the employee’s/agency’s grounds, the amount and validity of the alleged debt, and, where applicable, the repayment schedule); and
   (iv) The hearing official’s findings and conclusions.

(7) The hearing official will notify the employee, the NASA Comptroller or designee, and the designated agency counsel of the decision.

(8) The decision of the hearing official shall constitute the Final Administrative Decision of the agency.

(d) Petition after time expiration. No petition for a hearing is to be granted if made after the 15-day period prescribed in paragraph (c)(1) of this section, unless the employee can show to the satisfaction of the agency official indicated on the notice that the delay was caused by circumstances beyond his or her control (for example, proven incapacity, illness, or hospitalization), or that the agency did not give notice of the time limit and the employee was otherwise unaware of such limit.

(e) Limitation on amount and duration of deductions. Ordinarily, debts must be collected in one lump-sum payment. However, if the employee is financially unable to pay in one lump sum or if the amount of the debt exceeds 15 percent of disposable pay for an officially established pay interval, collection must be made in installments. The size of installment deductions must bear a reasonable relationship to the size of the debt and the employee’s ability to pay (see 14 CFR 1261.411), but the amount deducted for any period must not exceed 15 percent of the disposable pay from which the deduction is made (unless the employee has agreed in writing to the deduction of a greater amount). Deduction must commence with the next full pay interval (ordinarily, the next biweekly pay period). Such installment deductions must be made over a period not greater than the anticipated period of active duty or employment, as the case may be, except as provided in paragraph (f) of this section.

(f) Determining ability to pay. An offset may produce an extreme financial hardship for an employee if it prevents the employee from meeting costs necessarily incurred for essential subsistence expenses for food, reasonable housing, transportation, and medical care. In determining whether an offset would prevent the employee from meeting the essential subsistence expenses, the employee may be required to show income from all sources (including spouse and dependents, if applicable), list all known assets, explain exceptional expenses, and produce any other relevant factors.

(g) Liquidation from final check; other recovery. If the employee retires or resigns from Federal service, or if his or her employment or period of active duty ends before collection of the debt is completed, the balance may be deducted from the final salary payment and any remaining balance from the lump-sum leave, if applicable. If the debt is not fully paid by offset from any final payment due the former employee as of the date of separation, offset may be made from later payments of any kind due the former employee from the United States (as provided in
§ 1261.604

14 CFR part 1261 subpart 1261.5, including offset from the Civil Service Retirement and Disability Fund under 14 CFR 1261.507.

(h) Interest, penalties, and administrative costs. Assessment of interest, penalties, and administrative costs, on debts being collected under this subpart, shall be in accordance with 14 CFR 1261.412 which implements 4 CFR 102.13.

§ 1261.604 Nonwaiver of rights by involuntary setoff.

The employee’s involuntary payment of all or any portion of the debt, being collected under this subpart, must not be construed as a waiver of any rights which the employee may have under an existing written contract applicable to the specific debt or under any other pertinent statutory authority for the collection of claims of the United States or the agency.

§ 1261.605 Refunds.

(a) NASA will promptly refund to the employee amounts paid or deducted under this subpart when:

(1) A debt is waived or otherwise found not owing the United States (unless expressly prohibited by statute or regulation); or

(2) The employee’s paying agency is directed by an administrative or judicial order to refund amounts deducted from his or her current pay.

(b) Refunds are not to bear any interest unless the law applicable to that particular debt specifically requires or permits a stated interest amount on refunds.

§ 1261.606 Salary offset request by a creditor agency other than NASA (the current paying agency).

(a) Format of the request. Upon completion of the procedures established by the creditor agency under 5 U.S.C. 5514, the creditor agency must:

(1) Certify, in writing, that the employee owes the debt, the amount and basis of the debt, the date on which payment(s) is/are due, the date the Government’s right to collect the debt first accrued, and that the creditor agency’s regulations implementing 5 U.S.C. 5514 have been approved by OPM;

(2) If the collection must be made in installments, the creditor agency must also advise NASA of the number of installments to be collected, the amount of each installment, and the commencing date of the first installment, if a date other than the next officially established pay period is required; and

(3) Unless the employee has consented to the salary offset in writing or signed a statement acknowledging receipt of the required procedures and the writing or statement is attached to the debt claim request, the creditor agency must also indicate the action(s) taken under 5 U.S.C. 5514(a)(2) and give the date(s) the action(s) was/were taken.

(b) Limitation period. The creditor agency may not initiate offset to collect a debt more than 10 years after the Government’s right to collect the debt first accrued, except as provided in 14 CFR 1261.506, which implements 4 CFR 102.3(b)(3).

(c) Employees who are separating or have separated—(1) Employees who are in the process of separating. If the employee is in the process of separating, the creditor agency must submit its debt claim to the employee’s paying agency for collection as provided in 5 CFR 550.1104(1) of the OPM regulations (14 CFR 1261.603(f)) for “liquidation from final check.” NASA must then certify the total amount of its collection and notify the creditor agency and the employee as provided in paragraph (c)(3) of this section. If NASA is aware that the employee is entitled to payments from the Civil Service Retirement and Disability Fund, or other similar payments, it should notify the creditor agency and forward the copy of the debt claim and certification to the agency responsible for making such payments as notice that a debt is outstanding. However, the creditor agency, not NASA, must submit a properly certified claim to the agency responsible for making such payments before collection can be made.

(2) Employees who have already separated. If the employee is already separated and all payments due from NASA have been paid, NASA must return the claim to the creditor agency for any
National Aeronautics and Space Admin. Pt. 1262

further collection, indicating the employee’s date of separation and the current employment and mailing address(es), if known.

(3) Employee who transfers from NASA to another Federal agency.
   (i) Certification of amount collected. If, after the creditor agency has submitted the debt claim to NASA, the employee transfers to another Federal agency before the debt is collected in full, NASA must then certify the total amount of the collection made on the debt. A copy of the certification should be furnished the employee, and another copy furnished to the creditor agency along with notice of the employee’s transfer.

   (ii) Official personnel folder insertion; new paying agency. Information on the debt claim must be inserted in the employee’s official personnel folder along with a copy of the certification of the amount which has been collected. Upon receiving the official personnel folder, the new paying agency must resume the collection from the employee’s current pay account and notify the employee and the creditor agency of the resumption. It will not be necessary for the creditor agency to repeat the due process procedures described by 5 U.S.C. 5514 of this subpart in order to resume the collection. However, it will be the responsibility of the creditor agency to review the debt upon receiving NASA’s notice of the employee’s transfer to make sure the collection is resumed by the new paying agency.

   (d) Processing the debt claim upon receipt—(1) Incomplete claim. If NASA receives incomplete debt claim information, it must return the request with a notice that procedures under 5 U.S.C. 5514 and this subpart must be provided and complete debt claim information received before action will be taken to collect from the employee’s current pay account.

   (2) Complete claim. If NASA receives a properly documented debt claim, deductions should be scheduled to begin prospectively at the next officially established pay interval. A copy of the debt claim request must be given to the debtor, along with notice of the date deductions will commence if different from that stated on the debt claim request.

   (3) NASA is not required or authorized to review the merits of the creditor agency’s determination with respect to the amount or validity of the debt as stated in the debt claim request.

§ 1261.607 Obtaining the services of a hearing official.

(a) When the debtor does not work for the creditor agency and the creditor agency cannot provide a prompt and appropriate hearing before an administrative law judge or before a hearing official furnished pursuant to another lawful arrangement, the creditor agency may contact an agent of the paying agency designated in appendix A of 5 CFR part 581 to arrange for a hearing official, and the paying agency must then cooperate as provided by 4 CFR 102.1 and provide a hearing official.

(b) When the debtor works for the creditor agency, the creditor agency may contact any agent (of another agency) designated in appendix A of 5 CFR part 581 to arrange for a hearing official. Agencies must then cooperate as required by 4 CFR 102.1 and provide a hearing official.

Subpart 1262.1—General Provisions

§ 1262.102 When the Act applies.

The Act applies to any adversary adjudication pending or commenced before NASA on or after August 5, 1985. It also applies to any adversary adjudication commenced on or after October 1, 1984, and finally disposed of before August 5, 1985, provided that an application for fees and expenses, as described in subpart 1262.2, had been filed with the Agency within 30 days after August 5, 1985, and to any adversary adjudication pending on or commenced on or after October 1, 1981, in which an application for fees and other expenses was timely filed and was dismissed for lack of jurisdiction.
§ 1262.103 Proceedings covered.

(a) The Act applies to the following adversary adjudications conducted by the Agency:

(1) Adjudications under 5 U.S.C. 554 in which the position of NASA or any other agency of the United States, or any component of an agency, is presented by an attorney or other representative who enters an appearance and participates in the proceedings;

(2) Appeals of decisions made pursuant to section 6 of the Contract Disputes Act of 1978 (41 U.S.C. 605) before the Board of Contract Appeals (BCA) as provided in Section 8 of that Act (41 U.S.C. 607);

(3) Any hearing conducted under Chapter 38 of Title 31 (31 U.S.C. 3801, et seq., as amended); and

(b) The Act does not apply to:

(1) Any proceeding in which this Agency may prescribe a lawful present or future rate;

(2) Proceedings to grant or renew licenses (note, however, that proceedings to modify, suspend, or revoke licenses are covered if they are otherwise adversary adjudications); and

(3) Proceedings which are covered by a compromise or settlement agreement, unless specifically consented to in such agreement.

(c) NASA may also designate a proceeding as an adversary adjudication for purposes of the Act by so stating in an order initiating the proceeding or designating the matter for hearing. The Agency’s failure to designate a proceeding as an adversary adjudication shall not preclude the filing of an application by a party who believes the proceeding is covered by the Act; whether the proceeding is covered will then be an issue for resolution in proceedings on the application.

(d) If a proceeding includes both matters covered by the Act and matters specifically excluded from coverage, any award made will include only fees and expenses related to covered issues.

[60 FR 12668, Mar. 8, 1995]

§ 1262.104 Eligibility of applicants.

(a) To be eligible for an award of attorney fees and other expenses, the applicant must be a “party” to the adversary adjudication for which an award is sought. The applicant must show that it meets all conditions of eligibility set out in this subpart and in subpart 1262.2.

(b) The types of eligible applicants are as follows:

(1) An individual with a net worth of not more than $2 million;

(2) Any owner of an unincorporated business who has a net worth of not more than $7 million, including both personal and business interests, and not more than 500 employees;

(3) A charitable or other tax-exempt organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)) with not more than 500 employees;

(4) A cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)) with not more than 500 employees; and

(5) Any other partnership, corporation, association, unit of local government, or organization with a net worth of not more than $7 million and not more than 500 employees.

(c) For the purpose of eligibility, the net worth and number of employees of an applicant shall be determined as of the date the proceeding was initiated.

(d) An applicant who owns an unincorporated business will be considered as an “individual” rather than as a “sole owner of an unincorporated business” if the issues on which the applicant prevails are related primarily to personal interests rather than to business interests.

(e) The employees of an applicant include all persons who regularly perform services for remuneration for the applicant, under the applicant’s direction and control. Part-time employees shall be included on a proportional basis.

(f) The net worth and number of employees of the applicant and all of its affiliates shall be aggregated to determine eligibility. Any individual, corporation, or other entity that directly or indirectly controls or owns a majority of the voting shares or other interest of the applicant, or any corporation
or other entity of which the applicant directly or indirectly owns or controls a majority of the voting shares or other interest, will be considered an affiliate for purposes of this part, unless the adjudicative officer determines that such treatment would be unjust and contrary to the purposes of the Act in light of the actual relationship between the affiliated entities. In addition, the adjudicative officer may determine that financial relationships of the applicant other than those described in this paragraph constitute special circumstances that would make an award unjust.

(g) An applicant that participates in a proceeding primarily on behalf of one or more other persons or entities that would be ineligible is not itself eligible for an award.

§ 1262.105 Standards for awards.

(a) A prevailing applicant may receive an award subject to paragraph (b) of this section, for fees and expenses incurred in connection with a proceeding, or in a significant and discrete substantive portion of the proceeding, unless the position of the agency over which the applicant has prevailed was substantially justified. No presumption arises that the agency’s position was not substantially justified simply because the agency did not prevail. The burden of proof that an award should not be made to an eligible prevailing applicant is on the agency.

(b) An award, for any portion of the adversary adjudication, will be denied if the applicant has unreasonably protracted the proceedings, or denied or reduced if special circumstances make the award unjust.

§ 1262.106 Allowable fees and expenses.

(a) Awards will be based on rates customarily charged by persons engaged in the business of acting as attorneys, agents, and expert witnesses, even if the services were made available without charge or at a reduced rate to the applicant.

(b) No award for the fee of an attorney or agent under these rules may exceed $75 per hour. No award to compensate an expert witness may exceed the highest rate at which this Agency pays expert witnesses, which is $20 an hour (5 hours maximum) or maximum daily rate of $100 (3 days maximum). However, an award may also include the reasonable expenses of the attorney, agent, or witness as a separate item, if the attorney, agent, or witness ordinarily charges clients separately for such expenses.

(c) In determining the reasonableness of the fee sought for an attorney, agent, or witness, the adjudicative officer shall consider the following:

(1) If the attorney, agent, or witness is in private practice, his or her customary fee for similar service, or, if an employee of the applicant, the fully allocated cost of the services;

(2) The prevailing rate for similar services in the community in which the attorney, agent, or witness ordinarily performs services;

(3) The time actually spent in the representation of the application;

(4) The time reasonably spent in light of the difficulty or complexity of the issues in the proceeding; and

(5) Such other factors as may bear on the value of the services provided.

(d) The reasonable cost of any study, analysis, engineering report, test, project, or similar matter prepared on behalf of a party may be awarded, to the extent that the charge for the service does not exceed the prevailing rate for similar services, and the study or other matter was necessary for preparation of the applicant’s case.

§ 1262.107 Rulemaking on maximum rates for attorney fees.

(a) If warranted by an increase in the cost of living or by special circumstances (such as limited availability of attorneys qualified to handle certain types of proceedings), the Agency may adopt regulations providing that attorney fees may be awarded at a rate higher than $75 per hour in some or all of the types of proceedings covered by this part. This Agency will conduct any rulemaking proceedings for this purpose under the informal rulemaking procedures of the Administrative Procedure Act (5 U.S.C. 553).
(b) Any person may file with the Agency a petition for rulemaking to increase the maximum rate for attorney fees. The petition should be addressed to the General Counsel, NASA Headquarters, Washington, DC 20546; should identify the rate the petitioner believes the Agency should establish and the types of proceedings in which the rate should be used; and should also explain fully the reasons why the higher rate is warranted. The Agency will respond to the petition within 60 days after it is filed, by initiating a rulemaking proceeding or denying the petition, or taking other appropriate action.

§ 1262.108 Awards against other agencies.

If an applicant is entitled to an award because it prevails over another agency of the United States that participates in a proceeding before NASA, the award or an appropriate portion of the award shall be made against that agency, subject to § 1262.105(b), if it had taken a position that is not substantially justified.

§ 1262.109 Delegations of authority.

(a) The NASA Administrator hereby delegates authority to the General Counsel or designee to take final action on matters pertaining to the Act, other than the authority for final fee determination after Agency review pursuant to §1262.308.

(b) The NASA Administrator may, in particularly specified matters under the Act, delegate authority to officials other than those designated in paragraph (a) of this section.

Subpart 1262.2—Information Required From Applicants

§ 1262.201 Contents of application.

(a) An application for an award of fees and expenses under the Act shall identify the applicant and the proceeding for which an award is sought. The application shall show that the applicant has prevailed and identify the position of an agency or agencies in the proceeding that the applicant alleges was not substantially justified. Unless the applicant is an individual, the application shall also state the number of employees of the applicant and describe briefly the type and purpose of its organization or business.

(b) The application shall also include a statement that the applicant’s net worth does not exceed $2 million (if an individual) or $7 million (for all other applicants, including their affiliates). However, an applicant may omit this statement if the applicant:

1. Attaches a copy of a ruling by the Internal Revenue Service that it qualifies as an organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)), or, in the case of a tax-exempt organization not required to obtain a ruling from the Internal Revenue Service on its exempt status, a statement that describes the basis for the applicant’s belief that it qualifies under such section; or

2. States that it is a cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)).

(c) The application shall state the amount of fees and expense for which an award is sought.

(d) The application may also include any other matters that the applicant wishes this Agency to consider in determining whether and in what amount an award should be made.

(e) The application shall be signed by the applicant or an authorized officer or attorney of the applicant. It shall also contain or be accompanied by a written verification under oath or under penalty of perjury that the information provided in the application is true and correct.

§ 1262.202 Net worth exhibit.

(a) Each applicant except a qualified tax-exempt organization or cooperative association must provide with its application a detailed exhibit showing the net worth of the applicant and any affiliates (as defined in §1262.104(f)) when the proceeding was initiated. The exhibit may be in any form convenient to the applicant that provides full disclosure of the applicant’s and its affiliates’ assets and liabilities and is sufficient to determine whether the applicant qualifies under the standards in this part. The adjudicative officer may require an applicant to file additional
§ 1262.203 Documentation of fees and expenses.

The application shall be accompanied by full documentation of the fees and expenses, including the cost of any study, analysis, engineering report, test, project, or similar matter for which an award is sought. A separate itemized statement, accompanied by an oath of affirmation under penalty of perjury (28 U.S.C. 1746), shall be submitted for each professional firm or individual whose services are covered by the application, showing the hours spent in connection with the proceeding by each individual, a description of the specific services performed, the rate at which each fee has been computed, any expenses for which reimbursement is sought, the total amount paid or payable by the applicant or by any other person or entity for the services provided. The adjudicative officer may, in addition, require the applicant to provide vouchers, receipts, or other substantiation for any expenses claimed.

§ 1262.204 When an application may be filed.

(a) An application may be filed whenever the applicant has prevailed in the proceeding or in a significant and discrete substantive portion of the proceeding, but in no case later than 30 days after the Agency’s final disposition of the proceeding.

(b) If review or reconsideration is sought or taken of a decision as to which an applicant believes it has prevailed, proceedings for the award of fees shall be stayed pending final disposition of the underlying controversy.

(c) For purposes of this rule, final disposition means the latter of:

(1) The date on which the last “initial decision”, in a bifurcated proceeding, or other recommended disposition of the merits (both as to liability and amount, if applicable) of the proceeding, by an adjudicative officer or intermediate reviewer, becomes administratively final;

(2) The date on which an order is issued disposing of any petitions for reconsideration;

(3) If no petition for reconsideration is filed, the last date on which such a petition could have been filed; or

(4) The date of a final order or any other final resolution of the proceeding, such as a settlement or a voluntary dismissal, which is not subject to a petition for reconsideration.

Subpart 1262.3—Procedures for Considering Applications

§ 1262.301 Filing and service of documents.

Any application for an award or other pleading or document related to an application shall be filed and served on all parties to the proceeding in the same manner as other pleadings in the proceeding, except as provided in §1262.202(b) for confidential financial information.
§ 1262.302 Answer to application.

(a) Within 30 calendar days after service of an application, counsel representing the agency against which an award is sought may file an answer to the application. Unless agency counsel requests an extension of time for filing or files a statement of intent to negotiate under paragraph (b) of this section, failure to file an answer within the 30-day period may be treated as a consent to the award requested.

(b) If agency counsel and the applicant believe that the issues in the fee application can be settled, they may jointly file a statement of their intent to negotiate a settlement. The filing of this statement shall extend the time for filing an answer for an additional 30 calendar days, and further extensions may be granted by the adjudicative officer upon request by agency counsel and the applicant.

(c) The answer shall explain in detail any objections to the award requested and identify the facts relied on in support of agency counsel’s position. If the answer is based on any alleged facts not already in the record of the proceeding, agency counsel shall include with the answer either supporting affidavits or a request for further proceedings under § 1262.306.

§ 1262.303 Reply.

Within 15 calendar days after service of an answer, the applicant may file a reply. If the reply is based on any alleged facts not already in the record of the proceeding, the applicant shall include with the reply either supporting affidavits or a request for further proceedings under § 1262.306.

§ 1262.304 Comments by other parties.

Any party to a proceeding other than the applicant and agency counsel may file comments about an application within 30 calendar days after it is served, or about an answer within 15 calendar days after it is served. A commenting party may not participate further in proceedings on the application unless the adjudicative officer determines that the public interest requires such participation in order to permit full exploration of matters raised in the comments.

§ 1262.305 Settlement.

The applicant and agency counsel may agree on a proposed settlement of the award before final action on the application, either in connection with a settlement of the underlying proceeding, or after the underlying proceeding has been concluded. If a prevailing party and agency counsel agree on a proposed settlement of an award before an application has been filed, the application shall be filed with the proposed settlement.

§ 1262.306 Further proceedings.

(a) Ordinarily, the determination of an award will be made on the basis of the written record. However, on request of either the applicant or agency counsel, or on his or her own initiative, the adjudicative officer may order further proceedings, such as an informal conference, oral argument, additional written submissions, or, as to issues other than substantial justification (such as the applicant’s eligibility or substantiation of fees and expenses), pertinent discovery or an evidentiary hearing. Such further proceedings shall be held only when necessary for full and fair resolution of the issues arising from the application, and shall be conducted as promptly as possible.

(b) A request that the adjudicative officer order further proceedings under this section shall specifically identify the information sought or the disputed issues and shall explain why the additional proceedings are necessary to resolve the issues.

§ 1262.307 Decision.

(a) The adjudicative officer shall issue an initial decision on the application with 90 calendar days after completion of proceedings on the application. The decision shall include written findings and conclusions on such of the following as are relevant to the decision:

(1) The applicant’s eligibility and status as a prevailing party;

(2) Whether the Agency’s position was substantially justified;

(3) Whether the applicant unreasonably protracted the proceedings, or whether special circumstances make an award unjust; and
§ 1262.308 Agency review.

(a) Within 30 calendar days of the receipt of the adjudicative officer’s initial decision on the fee application, either the applicant or agency counsel may seek Agency review of the decision; or, the NASA Administrator, upon the recommendation of the General Counsel or other designee, may decide to review the decision based on the record. Whether to review a decision is solely a matter within the discretion of the NASA Administrator. A 15-day notice of such review will be given the applicant and agency counsel, and a determination made not later than 45 days from the date of notice. The Administrator may make a final determination concerning the application or remand the application to the adjudicative officer for further proceedings.

(b) If neither the applicant nor agency counsel seek review, and the NASA Administrator does not on own initiative take a review, the adjudicative officer’s initial decision on the fee application shall be the final administrative decision of the Agency 45 days after it is issued.

§ 1262.309 Judicial review.

Judicial review of final Agency decisions on awards may be sought under 5 U.S.C. 504(c)(2), which provides: If a party other than the United States is dissatisfied with a determination of fees and other expenses made under [this part], that party may, within 30 days after the [final administrative] determination is made, appeal the determination to the court of the United States having jurisdiction to review the merits of the underlying decision of the agency adversary adjudication. The court’s determination of any appeal heard under this [authority] shall be based solely on the factual record made before the agency. The court may modify the determination of fees and other expenses only if the court finds that the failure to make an award of fees and other expenses, or the calculation of the amount of the award, was unsupported by the substantial evidence.

[51 FR 15311, Apr. 23, 1986, as amended at 60 FR 12669, Mar. 8, 1995]

§ 1262.310 Payment of award.

(a) An applicant seeking payment of an award shall submit to the paying agency a copy of the Agency’s final decision granting the award, accompanied by a statement that the applicant will not seek review of the decision in the United States courts. The submission to NASA should be addressed as follows:

Director, Financial Management Division,
NASA Headquarters, Washington, DC 20546.

(b) The Agency will pay the amount awarded to the applicant within 60 days, if feasible, unless judicial review of the award or of the underlying decision of the adversary adjudication has been sought by the applicant or any other party to the proceeding.

PART 1263—DEMAND FOR INFORMATION OR TESTIMONY SERVED ON AGENCY EMPLOYEES; PROCEDURES

§ 1263.108 Procedure in the event of an adverse ruling.

§ 1263.109 Considerations in determining whether these procedures should be waived.

§ 1263.110 Intention to provide guidance.

SOURCE: 55 FR 28370, July 11, 1990, unless otherwise noted.

§ 1263.100 Purpose and scope.

(a) This part sets forth procedures to be followed with respect to the production or disclosure of official information or records and/or the testimony of present or former employees of the National Aeronautics and Space Administration relating to any official information acquired by any employee of NASA as part of the performance of that employee’s official duties or by virtue of that employee’s official status, where a demand for such production, disclosure, or testimony is issued in a federal, state, or other legal proceeding.

(b) This part does not apply to any legal proceeding in which an employee is to testify, while in leave status, as to facts or events that are in no way related to the official duties of that employee or to the functions of the NASA.

§ 1263.101 Definitions.

(a) Agency—As referred to in this regulation, Agency means the National Aeronautics and Space Administration.

(b) Demand—A subpoena, order, or authorized request for official information, or for the appearance and testimony of NASA personnel, issued as the result of a legal proceeding.

(c) Employee—Includes all present and former officers and employees of the National Aeronautics and Space Administration who are or have been appointed by, or subject to the supervision, jurisdiction, or control of the Administrator of the agency.

(d) Legal proceeding—Includes any proceeding before a court of law or equity, administrative board or commission, hearing officer, or other body conducting a legal or administrative proceeding.

(e) Legal proceeding involving the United States—Any proceeding before a court of law or equity brought on behalf of, or against the United States, NASA or NASA employees, and resulting from alleged NASA operations.

(f) Official information—All information of any kind, however stored, that is in the custody and control of NASA or was acquired by NASA personnel as part of official duties or because of official status while such personnel were employed by or on behalf of the NASA.

§ 1263.102 Procedure when a demand is issued in a legal proceeding involving the United States.

Whenever an employee or former employee of NASA receives a demand for production of materials or the disclosure of information, or for appearance and testimony as a witness in a legal proceeding in which NASA or the United States is a party, the employee shall immediately notify in writing the Installation Chief Counsel for Installation employees, the General Counsel for Headquarters employees, or the Attorney-Adviser to the Inspector General (IG) for IG employees. This notice must include copies of all pertinent legal documents and a summary of the employee’s knowledge concerning the legal proceeding in question. When necessary, this information may be reported orally, followed by a written confirmation.

§ 1263.103 Procedure when a demand is issued in a legal proceeding not involving the United States.

Whenever an employee or former employee of the Agency receives a demand for production or disclosure of official information in a legal proceeding not involving the United States, the employee shall immediately notify the General Counsel or designate. In addition, the party causing the demand to be issued shall furnish the Office of General Counsel a written, detailed statement of the information sought and its relevance to the proceeding in
§ 1263.104 Production, disclosure, or testimony prohibited unless approved.

If an employee or former employee receives a demand to produce or disclose official information, that employee may not disclose such materials or information or testify regarding same without the prior approval of the General Counsel or designate.

§ 1263.105 Considerations in determining whether production or disclosure should be made.

The General Counsel or designate shall direct employees to honor all valid demands. In deciding whether a particular demand is valid, the General Counsel or designate may consider:

(a) Whether such disclosure or appearance is appropriate under the rules of procedure governing the legal proceeding in which the demand arose.

(b) Whether disclosure is appropriate under the relevant substantive law concerning privilege.

(c) Whether disclosure might improperly reveal trade secrets, or commercial or financial information that is confidential or privileged.

(d) Whether disclosure might reveal classified information.

(e) Whether disclosure would violate a specific applicable constitutional provision, federal statute or regulation, or executive order.

(f) Whether appearance of the requested employee would seriously implicate an interest of the Agency such as conservation of employee time for conducting official business, avoidance of expending appropriated monies for non-federal purposes, or avoidance of involving the agency in controversial issues not related to its mission.

§ 1263.106 Final decision of the General Counsel as to production, disclosure, or appearance.

After consideration of the factors enumerated in §1263.105 (a) through (f), the General Counsel or designate may authorize the testimony, disclosure, or production as demanded; limit the subject matter or extent of any testimony, disclosure, or production through written instruction to the employee; or deny permission for any testimony, disclosure, or production. Where appropriate, the General Counsel or designate may seek withdrawal of the demand by the authorizing party. Any decision of the General Counsel or designate shall be final and shall be communicated to the employee and the party causing the demand to be issued.

§ 1263.107 Procedure to be followed when response to a demand is required before the General Counsel or designate has reached a final decision.

If a response to a demand is required before the General Counsel or designate can render a decision, the employee subpoenaed, or an agency attorney or other government attorney designated for that purpose, shall appear on behalf of the employee and shall furnish the authority which issued the demand a copy of these regulations, and inform the authority that the demand has been referred for the prompt consideration of the General Counsel, and shall respectfully request the authority to stay the demand until the General Counsel or designate has rendered a final decision.

§ 1263.108 Procedure in the event of an adverse ruling.

If the court or other authority which caused the demand to be issued declines to stay the effect of the demand pending a final decision by the General Counsel or designate; or if the General Counsel or designate directs that the employee may not comply with the demand, and a court or other authority rules that the demand must be complied with irrespective of that decision, the employee upon whom the demand has been made, or an agency or other
governmental attorney, shall respectfully decline to comply with the demand and shall cite, “United States ex rel. Touhy v. Ragen, et al., 340 U.S. 462 (1951).”

§ 1263.109 Considerations in determining whether these procedures should be waived.

The General Counsel or designate may grant permission to deviate from the policy or procedure established in these regulations. Permission to deviate will be granted when the deviation will not interfere with matters of operational necessity and when:

(a) It is necessary to prevent a miscarriage of justice; or

(b) The deviation is in the best interests of NASA or the United States.

§ 1263.110 Intention to provide guidance.

This part is intended to provide guidance for the internal operation of NASA and is not intended to, does not, and may not be relied upon to create any right of benefit—substantive or procedural—enforceable at law against the United States or NASA.

APPENDIX A TO PART 1264—NOTICE TO CONSENT TO THE CHAIRPERSON, NASA BOARD OF CONTRACT APPEALS (BCA), OR DESIGNEE, AS PRESIDING OFFICER

SOURCE: 52 FR 39498, Oct. 22, 1987, unless otherwise noted.

§ 1264.100 Basis and purpose.

(b) Purpose. This part does the following:

(1) Establishes administrative procedures for imposing civil penalties and assessments against persons who make, submit, or present, or cause to be made, submitted, or presented, false, fictitious, or fraudulent claims or written statements to authorities or to their agents; and

(2) Specifies the hearing and appeal rights of persons subject to allegations...
§ 1264.101 Definitions.

(a) ALJ means an Administrative Law Judge in the authority appointed pursuant to 5 U.S.C. 3105 or detailed to the authority pursuant to 5 U.S.C. 3344.

(b) Authority means the National Aeronautics and Space Administration (NASA).

(c) Authority head means the NASA Administrator or Deputy Administrator or designee.

(d) Benefit means, in the context of statement, anything of value, including but not limited to any advantage, preference, privilege, license, permit, favorable decision, ruling, status, or loan guarantee.

(e) Claim means any request, demand, or submission—

(1) Made to the authority for property, services, or money (including money representing grants, loans, insurance, or benefits);

(2) Made to a recipient of property, services, or money from the authority or to a party to a contract with the authority—

(i) For property or services if the United States

(A) Provided such property or services;

(B) Provided any portion of the funds for the purchase of such property or services;

or

(C) Will reimburse such recipient or party for the purchase of such property or services;

or

(ii) For the payment of money (including money representing grants, loans, insurance, or benefits) if the United States

(A) Provided any portion of the money requested or demanded; or

(B) Will reimburse such recipient or party for any portion of the money paid on such request or demand; or

(iii) Made to the authority which has the effect of decreasing an obligation to pay or account for property, services, or money.

(f) Complaint means the administrative complaint served by the reviewing official on the defendant under §1264.106.

(g) Consent hearing means that the authority and the defendant consent, as provided in §1264.106(c), that the presiding officer be the Chairperson of the NASA Board of Contract Appeals (BCA). The Chairperson may designate another administrative judge of the NASA BCA as presiding officer in a consent hearing.

(h) Defendant means any person alleged in a complaint under §1264.106 to be liable for a civil penalty or assessment under §1264.102.

(i) Government means the United States Government.

(j) Individual means a natural person.

(k) Initial decision means the written decision of the ALJ or presiding officer required by §1264.109 or §1264.136, and includes a revised initial decision issued following a remand or a motion for reconsideration.

(l) Investigating official means the NASA Inspector General, or designee who is serving in a position for which the rate of basic pay is not less than the minimum rate of basic pay for grade GS-16 under the General Schedule.

(m) Knows or has reason to know, means that a person with respect to a claim or statement—

(1) Has actual knowledge that the claim or statement is false, fictitious, or fraudulent;

(2) Acts in deliberate ignorance of the truth or falsity of the claim or statement; or

(3) Acts in reckless disregard of the truth or falsity of the claim or statement.

(n) Makes, wherever it appears, shall include the terms presents, submits, and causes to be made, presented, or submitted. As the context requires, making or made shall likewise include the corresponding forms of such terms.

(o) Person means any individual, partnership, corporation, association, or private organization, and includes the plural of that term.

(p) Presiding officer, except as provided for pursuant to consent trial notice, means (if the authority is not subject to the provisions of Subchapter II
§ 1264.102 Basis for civil penalties and assessments.

(a) Claims. (1) Any person who makes a claim that the person knows or has reason to know—

(i) Is false, fictitious, or fraudulent; or

(ii) Includes or is supported by any written statement which asserts a material fact which is false, fictitious, or fraudulent;

(iii) Includes or is supported by any written statement that—

(A) Omits a material fact; or

(B) Is false, fictitious, or fraudulent as a result of such omission; or

(C) Is a statement in which the person making such statement has a duty to include such material fact; or

(iv) Is for payment for the provision of property or services which the person has not provided as claimed—

Shall be subject, in addition to any other remedy that may be prescribed by law, to a civil penalty of not more than $5,000 for each such claim.

(2) Each voucher, invoice, claim form, or other individual request or demand for property, services, or money constitutes a separate claim.

(3) A claim shall be considered made to the authority, recipient, or party when such claim is actually made to an agent, fiscal intermediary, or other entity, including any State or political subdivision thereof, acting for or on behalf of the authority, recipient, or party.

(4) Each claim for property, services, or money is subject to a civil penalty regardless of whether such property, services, or money constitutes a separate claim.

(5) If the Government has made any payment (including transferred property or provided services) on a claim, a person subject to a civil penalty under paragraph (a)(1) of this section shall also be subject to an assessment of not more than twice the amount of such

§ 1264.103

(1) The subpoena so issued shall notify the person to whom it is addressed of the authority under which the subpoena is issued and shall identify the records or documents sought; and
(2) The subpoena may designate the person, to act on the investigating official’s behalf, to receive the documents sought; and
(3) The person receiving such subpoena shall be required to tender to the investigating official or the person designated to receive the documents a certification that the documents sought have been produced, or that such documents are not available and the reasons therefor, or that such documents, suitably identified, have been withheld based upon the assertion of an identified privilege.

(b) If the investigating official concludes that an action under the Program Fraud Civil Remedies Act may be warranted, the investigating official shall submit a report containing the findings and conclusions of such investigation to the reviewing official.

(c) Nothing in this section shall preclude or limit the investigating official’s discretion to refer allegations directly to the Department of Justice for suit under the False Claims Act or other civil relief, or to defer or postpone a report of referral to the reviewing official to avoid interference with a criminal investigation or prosecution.

(d) Nothing in this section modifies any responsibility of the investigating official to report violations of criminal law to the Attorney General.

§ 1264.104 Review by the reviewing official.

(a) If, based on the report of the investigating official under §1264.103(b), the reviewing official determines that there is adequate evidence to believe that a person is liable under §1264.102 of this part, the reviewing official shall transmit to the Attorney General a written notice of the reviewing official’s intention to issue a complaint under §1264.106.

(b) Such notice shall include—
§ 1264.104 Allegations of liability.

(1) A statement of the reviewing official’s reasons for issuing a complaint;

(2) A statement specifying the evidence that supports the allegations of liability;

(3) A description of the claims or statements upon which the allegations of liability are based;

(4) An estimate of the amount of money or the value of property, services, or other benefits requested or demanded in violation of § 1264.102 of this part;

(5) A statement of any exculpatory or mitigating circumstances that may relate to the claims or statements known by the reviewing official or the investigating official; and

(6) A statement that there is a reasonable prospect of collecting an appropriate amount of penalties and assessments. Such a statement may be based upon information then known or an absence of any information indicating that the person may be unable to pay such an amount.

§ 1264.105 Prerequisites for issuing a complaint.

(a) The reviewing official may issue a complaint under § 1264.106 only if—

(1) The Department of Justice approves the issuance of a complaint in a written statement described in 31 U.S.C. 3803(b)(1); and

(2) In the case of allegations of liability under § 1264.102(a) with respect to a claim, the reviewing official determines that, with respect to such claim or a group of related claims submitted at the same time such claim is submitted (as defined in paragraph (b) of this section), the amount of money or the value of property or services demanded or requested in violation of § 1264.102(a) does not exceed $150,000.

(b) For the purposes of this section, a related group of claims submitted at the same time shall include only those claims arising from the same transaction (e.g., grant, loan, application, or contract) that are submitted simultaneously as part of a single request, demand, or submission.

(c) Nothing in this section shall be construed to limit the reviewing official’s authority to join in a single complaint against a person claims that are unrelated or were not submitted simultaneously, regardless of the amount of money or the value of property or services demanded or requested.

§ 1264.106 Complaint.

(a) On or after the date the Department of Justice approves the issuance of a complaint in accordance with 31 U.S.C. 3803(b)(1), the reviewing official may serve a complaint on the defendant, as provided in § 1264.107.

(b) The complaint shall state—

(1) The allegations of liability against the defendant, including the statutory basis for liability, an identification of the claims or statements that are the basis for the alleged liability, and the reasons why liability allegedly arises from such claims or statements;

(2) The maximum amount of penalties and assessments for which the defendant may be held liable;

(3) Instructions for filing an answer to request a hearing, including a specific statement of the defendant’s right to request a hearing by filing an answer and to be represented by a representative; and

(4) That failure to file an answer within 30 days of service of the complaint will result in the imposition of the maximum amount of penalties and assessments without right to appeal as provided in § 1264.109.

(c) At the same time the defendant is served with the complaint, he or she shall also be served with a—

(1) Notice to Consent to the Chairperson of the NASA Board of Contract Appeals (BCA), or Designee, as presiding officer;

(2) Copy of this part 1264 of 14 CFR.

§ 1264.107 Service of complaint.

(a) Service of a complaint must be made by certified or registered mail or by delivery in any manner authorized by Rule 4(d) of the Federal Rules of Civil Procedure.

(b) Proof of service, stating the name and address of the person on whom the complaint was served, and the manner and date of service, may be made by—

(1) Affidavit of the individual serving the complaint by delivery;
§ 1264.108 Answer.

(a) The defendant may request a hearing by filing an answer with the reviewing official within 30 days of service of the complaint. An answer shall be deemed to be a request for hearing.

(b) In the answer, the defendant—

(1) Shall admit or deny each of the allegations of liability made in the complaint;

(2) Shall state any defense on which the defendant intends to rely;

(3) May state any reasons why the defendant contends that the penalties and assessments should be less than the statutory maximum; and

(4) Shall state the name, address, and telephone number of the person authorized by the defendant to act as defendant’s representative, if any.

(c) If the defendant is unable to file an answer meeting the requirements of paragraph (b) of this section within the time provided, the defendant may, before the expiration of 30 days from service of the complaint, file with the reviewing official a general answer denying liability and requesting a hearing, and a request for an extension of time within which to file an answer meeting the requirements of paragraph (b) of this section. The reviewing official, as provided in §1264.110, shall file promptly with the presiding officer the complaint, the general answer denying liability, and the request for an extension of time. For good cause shown, the presiding officer may grant the defendant up to 30 additional days within which to file an answer meeting the requirements of paragraph (b) of this section.

§ 1264.109 Default upon failure to file an answer.

(a) If the defendant does not file an answer within the time prescribed in §1264.108(a), the reviewing official may refer the complaint to the presiding officer.

(b) Upon the referral of the complaint, the presiding officer shall promptly serve on defendant, in the manner prescribed in §1264.107, a notice that an initial decision will be issued under this section.

(c) If the defendant fails to answer, the presiding officer shall assume the facts alleged in the complaint to be true and, if such facts establish liability under §1264.102, the presiding officer shall issue an initial decision imposing the maximum amount of penalties and assessments allowed under the statute.

(d) Except as otherwise provided in this section, by failing to file a timely answer, the defendant waives any right to further review of the penalties and assessments imposed under paragraph (c) of this section, and the initial decision shall become final and binding upon the parties 30 days after it is issued.

(e) If, before such an initial decision becomes final, the defendant files a motion with the presiding officer seeking to reopen on the grounds that extraordinary circumstances prevented the defendant from filing an answer, the initial decision shall be stayed pending the presiding officer’s decision on the motion.

(f) If, on such motion, the defendant can demonstrate extraordinary circumstances excusing the failure to file a timely answer, the presiding officer shall withdraw the initial decision under paragraph (c) of this section, if such a decision has been issued, and shall grant the defendant an opportunity to answer the complaint.

(g) A decision of the presiding officer denying a defendant’s motion under paragraph (e) of this section is not subject to reconsideration under §1264.137.

(h) The defendant may appeal to the authority head the decision denying a motion to reopen by filing a notice of appeal with the authority head within
15 days after the presiding officer denies the motion. The timely filing of a notice of appeal shall stay the initial decision until the authority head decides the issue.

(i) If the defendant files a timely notice of appeal with the authority head, the presiding officer shall forward the record of the proceeding to the authority head.

(j) The authority head shall decide expeditiously whether extraordinary circumstances excuse the defendant’s failure to file a timely answer based solely on the record before the presiding officer.

(k) If the authority head decides that extraordinary circumstances excused the defendant’s failure to file a timely answer, the authority head shall remand the case to the presiding officer with instructions to grant the defendant an opportunity to answer.

(l) If the authority head decides that the defendant’s failure to file a timely answer is not excused, the authority head shall reinstate the initial decision of the presiding officer, which shall become final and binding upon the parties 30 days after the authority head issues such decision.

§ 1264.110 Referral of complaint and answer to the presiding officer.

Upon receipt of an answer, the reviewing official shall file the complaint and answer with the presiding officer, and include the name and address of the attorney who will represent the authority before the presiding officer.

§ 1264.111 Notice of hearing.

(a) When the presiding officer receives the complaint and answer, the presiding officer shall promptly serve a notice of hearing upon the defendant in the manner prescribed by §1264.107. At the same time, the presiding officer shall send a copy of such notice to the representative of the authority.

(b) Such notice shall include—

(1) The tentative time and place, and the nature of the hearing;

(2) The legal authority and jurisdiction under which the hearing is to be held;

(3) The matters of fact and law asserted;

(4) A description of the procedures for the conduct of the hearing;

(5) The name, address, and telephone number of the representative of the authority and of the defendant;

(6) An opportunity for a settlement conference or proposals of adjustment through alternative dispute resolutions, if not already explored; and

(7) Such other matters as the presiding officer deems appropriate.

§ 1264.112 Parties to the hearing.

(a) The parties to the hearing shall be the defendant and the authority.

(b) Pursuant to 31 U.S.C. 3730(c)(5), a private plaintiff under the False Claims Act, as amended, may participate in these proceedings to the extent authorized by the provisions of that Act. (See section 3 of the False Claims Amendments Act of 1986, Pub. L. 99–562, October 27, 1986.)

§ 1264.113 Separation of functions.

(a) The investigating official, the reviewing official, and any employee or agent of the authority who takes part in investigating, preparing, or presenting a particular case may not, in such case or a factually related case—

(1) Participate in the hearing as the presiding officer;

(2) Participate or advise in the initial decision or the review of the initial decision by the authority head, except as a witness or as the authority representative in the administrative or judicial proceedings; or

(3) Make the collection of penalties and assessments under 31 U.S.C. 3806.

(b) The presiding officer shall not be responsible to, or subject to the supervision or direction of, the investigating official or the reviewing official.

(c) Except as provided in paragraph (a) of this section, the representative for the Government must be a member of the legal staff of the authority. Nothing in this paragraph is intended to prevent assistance to the Government representative by attorneys in the NASA organization or other governmental entities.

§ 1264.114 Ex parte contacts.

No party or person (except employees of the presiding officer’s office) shall
§ 1264.115 Disqualification of reviewing official or presiding officer.

(a) A reviewing official or presiding officer in a particular case may disqualify himself or herself at any time.
(b) A party may file with the presiding officer a motion for disqualification of a reviewing official or a presiding officer. Such motion shall be accompanied by an affidavit alleging personal bias or other reason for disqualification.
(c) Such motion and affidavit shall be filed promptly upon the party’s discovery of reasons for disqualification, or such objections shall be deemed waived.
(d) Such affidavit shall state specific facts that support the party’s belief that personal bias or other reason for disqualification exists and the time and circumstances of the party’s discovery of such facts. It shall be accompanied by a certificate of the representative of record that it is made in good faith.
(e) Upon the filing of such a motion and affidavit, the presiding officer shall proceed no further in the case until the matter of disqualification is resolved in accordance with paragraph (f) of this section.
(f)(1) If the presiding officer determines that a reviewing official is disqualified, the presiding officer shall dismiss the complaint without prejudice.
(2) If the presiding officer disqualifies himself or herself, the case shall be reassigned promptly to another presiding officer.
(3) If the presiding officer denies a motion to disqualify, the authority head may determine the matter only as part of his or her review of the initial decision upon appeal, if any.

§ 1264.116 Rights of parties.

Except as otherwise limited by this part, all parties may—
(a) Be accompanied, represented, and advised by a representative;
(b) Participate in any conference held by the presiding officer;
(c) Conduct discovery;
(d) Agree to stipulations of fact or law, which shall be made part of the record;
(e) Present evidence relevant to the issues at the hearing;
(f) Present and cross-examine witnesses;
(g) Present oral arguments at the hearing as permitted by the presiding officer; and
(h) Submit written briefs and proposed findings of fact and conclusions of law after the hearing.

§ 1264.117 Authority of the presiding officer.

(a) The presiding officer shall conduct a fair and impartial hearing, avoid delay, maintain order, and assure that a record of the proceeding is made.
(b) The presiding officer has the authority to—
(1) Set and change the date, time, and place of the hearing upon reasonable notice to the parties;
(2) Continue or recess the hearing in whole or in part for a reasonable period of time;
(3) Hold conferences to identify or simplify the issues, or to consider other matters, including settlement conferences or other alternative dispute resolution, that may aid in the fair and expeditious disposition of the proceeding;
(4) Administer oaths and affirmations;
(5) Issue subpoenas, requiring the attendance of witnesses and the production of documents at depositions or at hearings, which the presiding officer considers relevant and material;
(6) Rule on motions and other procedural matters;
(7) Regulate the scope and timing of discovery;
(8) Regulate the course of the hearing and the conduct of representatives and parties;
(9) Examine witnesses;
(10) Receive, rule on, exclude, or limit evidence;
(11) Upon motion of a party, take official notice of facts;
(12) Upon motion of a party, decide cases, in whole or in part, by summary judgment where there is no genuine issue as to any material fact;
(13) Conduct any conference, argument, or hearing on motions in person or by telephone; and
(14) Exercise such other authority as is necessary to carry out the responsibilities of the presiding officer under this part.

(c) The presiding officer does not have the authority to find Federal statutes or regulations invalid.

§ 1264.118 Prehearing conferences.

(a) The presiding officer may schedule prehearing conferences as appropriate.
(b) Upon the motion of any party, the presiding officer shall schedule at least one prehearing conference at a reasonable time in advance of the hearing.
(c) The presiding officer may use prehearing conferences to discuss the following:
   (1) Simplification of the issues;
   (2) The necessity or desirability of amendments to the pleadings, including the need for a more definite statement;
   (3) Stipulations and admissions of fact or as to the contents and authenticity of documents;
   (4) Whether the parties can agree to submission of the case on a stipulated record;
   (5) Whether a party chooses to waive appearance at an oral hearing and to submit only documentary evidence (subject to the objections of other parties) and written arguments;
   (6) Limitation of the number of witnesses;
   (7) Scheduling dates for the exchange of witness lists and of proposed exhibits;
   (8) Discovery;
   (9) The time and place for the hearing; and
   (10) Such other matters, including settlement, as may tend to expedite the fair and just disposition of the proceedings.
(d) The presiding officer may issue an order containing all matters agreed upon by the parties or ordered by the presiding officer at a prehearing conference.

§ 1264.119 Disclosure of documents.

(a) Upon written request to the reviewing official, the defendant may review any relevant and material documents, transcripts, records, and other materials that relate to the allegations set out in the complaint and upon which the findings and conclusions of the investigating official under § 1264.103(b) are based unless such documents are subject to a privilege under Federal law. Upon payment of a reasonable fee for duplication, the defendant may obtain copies of such documents.
(b) Upon written request to the reviewing official, the defendant also may obtain a copy of all exculpatory information in the possession of the reviewing official or investigating official relating to the allegations in the complaint, even if it is contained in a document that would otherwise be privileged. If the document would otherwise be privileged, only that portion containing exculpatory information must be disclosed.
(c) The notice sent to the Attorney General from the reviewing official as described in § 1264.104 is not discoverable under any circumstances.
(d) The defendant may file a motion to compel disclosure of the documents subject to the provisions of this section. Such a motion may only be filed with the presiding officer following the filing of an answer pursuant to § 1264.108.

§ 1264.120 Discovery.

(a) The following types of discovery are authorized:
   (1) Requests for production of documents for inspection and copying;
   (2) Requests for admissions of the authenticity of any relevant document or of the truth of any relevant fact;
   (3) Written interrogatories; and
   (4) Depositions.
§ 1264.121

(b) For the purpose of this section and §§1264.121 and 1264.122, the term documents includes information, documents, reports, answers, records, accounts, papers, and other data and documentary evidence which the presiding officer considers relevant and material to the hearing. Nothing contained herein shall be interpreted to require the creation of a document.

(c) Unless mutually agreed to by the parties, discovery is available only as ordered by the presiding officer. The presiding officer shall regulate the timing of discovery.

(d) Motions for discovery. (1) A party seeking discovery may file a motion with the presiding officer. Such a motion shall be accompanied by a copy of the discovery request or, in the case of depositions, a summary of the scope of the proposed deposition.

(2) Within 10 days of service, a party may file an opposition to the motion and/or a motion for protective order as provided in §1264.123.

(3) The presiding officer may grant a motion for discovery only if he/she finds that the discovery sought—

(i) Is necessary for the expeditious, fair, and reasonable consideration of the issues;

(ii) Is not unduly costly or burdensome;

(iii) Will not unduly delay the proceeding; and

(iv) Does not seek privileged information.

(4) The burden of showing that discovery should be allowed is on the party seeking discovery.

(5) The presiding officer may grant discovery subject to a protective order under §1264.123.

(e) Depositions. (1) If a motion for deposition is granted, the presiding officer shall issue a subpoena for the deponent, which may require the deponent to produce documents. The subpoena shall specify the time and place at which the deposition will be held.

(2) The party seeking to depose shall serve the subpoena in the manner prescribed in §1264.107.

(3) The deponent may file with the presiding officer a motion to quash the subpoena or a motion for a protective order within 10 days of service.

(f) Each party shall bear its own costs of discovery.

§ 1264.121 Exchange of witness lists, statements, and exhibits.

(a) At least 15 days before the hearing or at such other time as may be ordered by the presiding officer, the parties shall exchange witness lists, copies of prior statements of proposed witnesses, and copies of proposed hearing exhibits, including copies of any written statements that the party intends to offer in lieu of live testimony in accordance with paragraph (b) of §1264.132. At the time the above documents are exchanged, any party that intends to rely on the transcript of deposition testimony in lieu of live testimony at the hearing, if permitted by the presiding officer, shall provide each party with a copy of the specific pages of the transcript it intends to introduce into evidence.

(b) If a party objects, the presiding officer shall not admit into evidence the testimony of any witness whose name does not appear on the witness list or any exhibit not provided to the opposing party, in accordance with paragraph (a) of this section, unless the presiding officer finds good cause for the failure or that there is no prejudice to the objecting party.

(c) Unless another party objects within the time set by the presiding officer, documents exchanged in accordance with paragraph (a) of this section shall be deemed to be authentic for the purpose of admissibility at the hearing.

§ 1264.122 Subpoena for attendance at hearing.

(a) A party wishing the appearance and testimony of any individual at the hearing may request that the presiding officer issue a subpoena.

(b) A subpoena requiring the attendance and testimony of an individual may also require the individual to produce documents at the hearing.

(c) A party seeking a subpoena shall file a written request therefor not less than 15 days before the date fixed for
the hearing unless otherwise allowed by the presiding officer for good cause shown. Such request shall specify any documents to be produced and shall designate the witnesses and describe the address and location thereof with sufficient particularity to permit such witnesses to be found.

(d) The subpoena shall specify the time and place at which the witness is to appear and any documents the witness is to produce.

(e) The party seeking the subpoena shall serve it in the manner prescribed in §1264.107. A subpoena on a party or upon an individual under the control of a party may be served by first class mail.

(f) A party or the individual to whom the subpoena is directed may file with the presiding officer a motion to quash the subpoena within 10 days after service or on or before the time specified in the subpoena for compliance if it is less than 10 days after service.

§1264.123 Protective order.

(a) A party or a prospective witness or deponent may file a motion for a protective order with respect to discovery sought by an opposing party or with respect to the hearing, seeking to limit the availability or disclosure of evidence.

(b) In issuing a protective order, the presiding officer may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following:

1. That the discovery not be had;
2. That the discovery may be had only on specified terms and conditions, including a designation of the time or place;
3. That the discovery may be had only through a method of discovery other than that requested;
4. That certain matters not be inquired into, or that the scope of discovery be limited to certain matters;
5. That discovery be conducted with no one present except persons designated by the presiding officer;
6. That the contents of discovery or evidence be sealed;
7. That a deposition after being sealed be opened only by order of the presiding officer;
8. That a trade secret or other confidential research, development, commercial information, or facts pertaining to any criminal investigation, proceeding, or other administrative investigation not be disclosed or be disclosed only in a designated way; or
9. That the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the presiding officer.

§1264.124 Fees.

The party requesting a subpoena shall pay the cost of the fees and mileage of any witness subpoenaed in the amounts that would be payable to a witness in a proceeding in United States District Court. A check for witness fees and mileage shall accompany the subpoena when served, except that when a subpoena is issued on behalf of the authority, a check for witness fees and mileage need not accompany the subpoena.

§1264.125 Form, filing, and service of papers.

(a) Form. (1) Documents filed with the presiding officer shall include an original and two copies.

(2) Every pleading and paper filed in the proceeding shall contain a caption setting forth the title of the action, the case number assigned by the presiding officer, and a designation of the paper (e.g., motion to quash subpoena).

(3) Every pleading and paper shall be signed by, and shall contain the address and telephone number of the party or the person on whose behalf the paper was filed, or his or her representative.

(4) Papers are considered filed when they are mailed. Date of mailing may be established by a certificate from the party or its representative or by proof that the document was sent by certified or registered mail.

(b) Service. A party filing a document with the presiding officer shall, at the time of filing, serve a copy of such document on every other party. Service upon any party of any document other
§ 1264.126 Computation of time.

(a) In computing any period of time under this part or in an order issued thereunder, the time begins with the day following the act, event, or default, and includes the last day of the period, unless it is a Saturday, Sunday, or legal holiday observed by the Federal government, in which event it includes the next business day.

(b) When the period of time allowed is less than 7 days, intermediate Saturdays, Sundays, and legal holidays observed by the Federal government shall be excluded from the computation.

(c) Where a document has been served or issued by placing it in the mail, an additional 5 days will be added to the time permitted for any response.

§ 1264.127 Motions.

(a) Any application to the presiding officer for an order or ruling shall be by motion. Motions shall state the relief sought, the authority relied upon, and the facts alleged, and shall be filed with the presiding officer and served on all other parties.

(b) Except for motions made during a prehearing conference or at the hearing, all motions shall be in writing. The presiding officer may require that oral motions be reduced to writing.

(c) Within 15 days after a written motion is served, or such other time as may be fixed by the presiding officer, any party may file a response to such motion.

(d) The presiding officer may not grant a written motion before the time for filing responses thereto has expired, except upon consent of the parties or following a hearing on the motion, but may overrule or deny such motion without awaiting a response.

(e) The presiding officer shall make a reasonable effort to dispose of all outstanding motions prior to the beginning of the hearing.

§ 1264.128 Sanctions.

(a) The presiding officer may sanction a person, including any party or representative for—

1. Failing to comply with an order, rule, or procedure governing the proceeding;

2. Failing to prosecute or defend an action; or

3. Engaging in other misconduct that interferes with the speedy, orderly, or fair conduct of the hearing.

(b) Any such sanction, including but not limited to those listed in paragraphs (c), (d), and (e) of this section, shall reasonably relate to the severity and nature of the failure or misconduct.

(c) When a party fails to comply with an order, including an order for taking a deposition, the production of evidence within the party’s control, or a request for admission, the presiding officer may—

1. Draw an inference in favor of the requesting party with regard to the information sought;

2. In the case of requests for admission, deem each matter of which an admission is requested to be admitted;

3. Prohibit the party failing to comply with such order from introducing evidence concerning, or otherwise relying upon testimony relating to, the information sought; and

4. Strike any part of the pleadings or other submissions of the party failing to comply with such request.

(d) If a party fails to prosecute or defend an action under this part commenced by service of a notice of hearing, the presiding officer may dismiss the action or may issue an initial decision imposing penalties and assessments.
§ 1264.130 Determining the amount of penalties and assessments.

(a) In determining an appropriate amount of civil penalties and assessments, the presiding officer, and the authority head upon appeal, should evaluate any circumstances that mitigate or aggravate the violation and should articulate in their opinions the reasons that support the penalties and assessments they impose. Because of the intangible costs of fraud, the expense of investigating such conduct, and the need to deter others who might be similarly tempted, ordinarily double damages and a significant civil penalty should be imposed.

(b) Although not exhaustive, the following factors are among those that may influence the presiding officer and the authority head in determining the amount of penalties and assessments to impose with respect to the misconduct (i.e., the false, fictitious, or fraudulent claims or statements) charged in the complaint:

(1) The number of false, fictitious, or fraudulent claims or statements;
(2) The time period over which such claims or statements were made;
(3) The degree of the defendant’s culpability with respect to the misconduct;
(4) The amount of money or the value of the property, services, or benefit falsely claimed;
(5) The value of the Government’s actual loss as a result of the misconduct, including foreseeable consequential damages and the costs of investigation;
(6) The relationship of the amount imposed as civil penalties to the amount of the Government’s loss;
(7) The potential or actual impact of the misconduct upon national defense, public health or safety, or public confidence in the management of Government programs and operations, including particularly the impact on the intended beneficiaries of such programs;
(8) Whether the defendant has engaged in a pattern of the same or similar misconduct;
(9) Whether the defendant attempted to conceal the misconduct;
(10) The degree to which the defendant has involved others in the misconduct or in concealing it;
(11) Where the misconduct of employees or agents is imputed to the defendant, the extent to which the defendant’s practices fostered or attempted to preclude such misconduct;
(12) Whether the defendant cooperated in or obstructed an investigation of the misconduct;
(13) Whether the defendant assisted in identifying and prosecuting other wrongdoers;
(14) The complexity of the program or transaction, and the degree of the defendant’s sophistication with respect to it, including the extent of the defendant’s prior participation in the program or in similar transactions;
(15) Whether the defendant has been found, in any criminal, civil, or administrative proceeding to have engaged in similar misconduct or to have dealt dishonestly with the Government of the United States or of a State, directly or indirectly; and
(16) The need to deter the defendant and others from engaging in the same or similar misconduct.

(c) Nothing in this section shall be construed to limit the presiding officer or the authority head from considering any other factors that in any given
case may mitigate or aggravate the offense for which penalties and assessments are imposed.

§ 1264.131 Location of hearing.
(a) The hearing may be held—
(1) In any judicial district of the United States in which the defendant resides or transacts business;
(2) In any judicial district of the United States in which the claim or statement in issue was made; or
(3) In such other place as may be agreed upon by the defendant and the presiding officer.
(b) Each party shall have the opportunity to present argument with respect to the location of the hearing.
(c) The hearing shall be held at the place and at the time ordered by the presiding officer.

§ 1264.132 Witnesses.
(a) Except as provided in paragraph (b) of this section, testimony at the hearing shall be given orally by witnesses under oath or affirmation.
(b) At the discretion of the presiding officer, testimony may be admitted in the form of a written statement or deposition. Any such written statement must be provided to all other parties along with the last known address of such witness, in a manner which allows sufficient time for other parties to subpoena such witness for cross-examination at the hearing. Prior written statements of witnesses proposed to testify at the hearing and deposition transcripts shall be exchanged as provided in §1264.121(a).
(c) The presiding officer shall exercise reasonable control over the mode and order of interrogating witnesses and presenting evidence so as to make the interrogation and presentation effective for the ascertainment of the truth, avoid needless consumption of time, and protect witnesses from harassment or undue embarrassment.
(d) The presiding officer shall permit the parties to conduct such cross-examination as may be required for a full and true disclosure of the facts.
(e) At the discretion of the presiding officer, a witness may be cross-examined on matters relevant to the proceeding without regard to the scope of his or her direct examination. To the extent permitted by the presiding officer, cross-examination on matters outside the scope of direct examination shall be conducted in the manner of direct examination and may proceed by leading questions only if the witness is a hostile witness, an adverse party, or a witness identified with an adverse party.
(f) Upon motion of any party, the presiding officer shall order witnesses excluded so that they cannot hear the testimony of other witnesses. This rule does not authorize exclusion of—
(1) A party who is an individual;
(2) In the case of a party that is not an individual, an officer or employee of the party appearing for the entity pro se or designated by the party’s representative; or
(3) An individual whose presence is shown by a party to be essential to the presentation of its case, including an individual employed by the Government engaged in assisting the representative for the Government.

§ 1264.133 Evidence.
(a) The presiding officer shall determine the admissibility of evidence.
(b) Except as provided herein, the presiding officer shall not be bound by the Federal Rules of Evidence. However, the presiding officer may apply the Federal Rules of Evidence where appropriate, e.g., to exclude unreliable evidence.
(c) The presiding officer shall exclude irrelevant and immaterial evidence.
(d) Although relevant, evidence may be excluded if its probative value is substantially outweighed by the danger of unfair prejudice, confusion of the issues, or by considerations of undue delay or needless presentation of cumulative evidence.
(e) Although relevant, evidence may be excluded if it is privileged under Federal law.
(f) Evidence concerning offers of compromise or settlement shall be inadmissible to the extent provided in Rule 408 of the Federal Rules of Evidence.
(g) The presiding officer shall permit the parties to introduce rebuttal witnesses and evidence.
(h) All documents and other evidence offered or taken for the record shall be open to examination by all parties, unless otherwise ordered by the presiding officer pursuant to §1264.123.

§ 1264.134 The record.
(a) The hearing will be recorded and transcribed. Transcripts may be obtained following the hearing from the presiding officer at a cost not to exceed the actual cost of duplication.
(b) The transcript of testimony, exhibits, and other evidence admitted at the hearing, and all papers and requests filed in the proceeding constitute the record for the decision by the presiding officer and the authority head.
(c) The record may be inspected and copied (upon payment of a reasonable fee) by anyone, unless otherwise ordered by the presiding officer pursuant to §1264.123.

§ 1264.135 Post-hearing briefs.
The presiding officer may require the parties to file post-hearing briefs. In any event, upon approval of the presiding officer, any party may file a post-hearing brief. The presiding officer shall fix the time for filing such briefs, not to exceed 60 days from the date the parties receive the transcript of the hearing or, if applicable, the stipulated record. Such briefs may be accompanied by proposed findings of fact and conclusions of law. The presiding officer may permit the parties to file reply briefs, and may grant an extension of the 60-day time period or other time for good cause shown.

§ 1264.136 Initial decision.
(a) The presiding officer shall issue an initial decision based solely on the record, which shall contain findings of fact, conclusions of law, and the amount of any penalties and assessments imposed.
(b) The findings of fact shall include a finding on each of the following issues:
(1) Whether the claims or statements identified in the complaint, or any portions thereof, violate §1264.102;
(2) If the person is liable for penalties or assessments, the appropriate amount of any such penalties or assessments considering any mitigating or aggravating factors found in the case, such as those described in §1264.130.
(c) The presiding officer shall promptly serve the initial decision on all parties within 90 days after the time for submission of post-hearing briefs and reply briefs (if permitted) has expired or upon notification that the record is now closed. The presiding officer shall at the same time serve all parties with a statement describing the right of any defendant determined to be liable for a civil penalty or assessment to file a motion for reconsideration with the presiding officer or a notice of appeal with the authority head. If the presiding officer fails to meet the deadline contained in this paragraph, he or she shall notify the parties of the reason for the delay and shall set a new deadline.
(d) Unless the initial decision of the presiding officer is timely appealed to the authority head, or a motion for reconsideration of the initial decision is timely filed, the initial decision shall constitute the final decision of the authority head and shall be final and binding on the parties 30 days after it is issued by the presiding officer.

§ 1264.137 Reconsideration of initial decision.
(a) Except as provided in paragraph (d) of this section, any party may file a motion for reconsideration of the initial decision within 20 days of receipt of the initial decision. If service was made by mail, receipt will be presumed to be 5 days from the date of mailing in the absence of contrary proof.
(b) Every such motion must set forth the matters claimed to have been erroneously decided and the nature of the alleged errors. Such motion shall be accompanied by a supporting brief.
(c) Responses to such motions shall be allowed only upon request of the presiding officer.
(d) No party may file a motion for reconsideration of an initial decision that has been revised in response to a previous motion for reconsideration.
§ 1264.138

(e) The presiding officer may dispose of a motion for reconsideration by denying it or by issuing a revised initial decision.

(f) If the presiding officer denies a motion for reconsideration, the initial decision shall constitute the final decision of the authority head and shall be final and binding on the parties 30 days after the presiding officer denies the motion, unless the initial decision is timely appealed to the authority head in accordance with §1264.138.

(g) If the presiding officer issues a revised initial decision, the revised decision shall constitute the final decision of the authority head and shall be final and binding on the parties 30 days after it is issued, unless it is timely appealed to the authority head in accordance with §1264.138.

§ 1264.138 Appeal to authority head.

(a) Any defendant who has filed a timely answer and who is determined in an initial decision to be liable for a civil penalty or assessment may appeal such decision to the authority head by filing a notice of appeal with the authority head in accordance with this section.

(b) The time for appeal to the authority head is as follows:

(1) A notice of appeal may be filed at any time within 30 days after the presiding officer issues an initial decision. However, if any other party files a motion for a reconsideration under §1264.137, consideration of the appeal shall be stayed automatically pending resolution of the motion for reconsideration.

(2) If a motion for reconsideration is timely filed, a notice of appeal must be filed within 30 days after the presiding officer denies the motion or issues a revised initial decision, whichever applies.

(3) If no motion for reconsideration is timely filed, a notice of appeal must be filed within 30 days after the presiding officer issues the initial decision.

(4) The authority head may extend the initial 30-day period for an additional 30 days if the defendant files with the authority head a request for an extension within the initial 30-day period and shows good cause.

(c) If the defendant files a timely notice of appeal with the authority head and the time for filing motions for reconsideration under §1264.137 has expired, the presiding officer shall forward the record of the proceeding to the authority head.

(d) A notice of appeal shall be accompanied by a written brief specifying exceptions to the initial decision and reasons supporting the exceptions.

(e) The representative for the Government may file a brief in opposition to exceptions within 30 days of receiving the notice of appeal and accompanying brief.

(f) There is no right to appear personally before the authority head.

(g) There is no right to appeal any interlocutory ruling by the presiding officer.

(h) In reviewing the initial decision, the authority head shall not consider any objection that was not raised before the presiding officer unless a demonstration is made of extraordinary circumstances causing the failure to raise the objection.

(i) If any party demonstrates to the satisfaction of the authority head that additional evidence not presented at such hearing is material and that there were reasonable grounds for the failure to present such evidence at such hearing, the authority head shall remand the matter to the presiding officer for consideration of such additional evidence.

(j) The authority head may affirm, reduce, reverse, compromise, remand, or settle any penalty or assessment, determined by the presiding officer in any initial decision.

(k) The authority head shall promptly serve each party to the appeal with a copy of the decision of the authority head. At the same time the authority head shall serve the defendant with a statement describing the defendant's right to seek judicial review.

(l) Unless a petition for review is filed as provided in 31 U.S.C. 3805, after a defendant has exhausted all administrative remedies under this part and within 60 days after the date on which the authority head serves the defendant with a copy of the authority head's
decision, a determination that a defendant is liable under §1264.102 is final and is not subject to judicial review.

§ 1264.139 Stays ordered by the Department of Justice.

If at any time the Attorney General or an Assistant Attorney General designated by the Attorney General transmits to the authority head a written finding that continuation of the administrative process described in this part with respect to a claim or statement may adversely affect any pending or potential criminal or civil action related to such claim or statement, the authority head shall stay the process immediately. If the process is before the presiding officer, the authority head shall promptly transmit the finding to the presiding officer, who, in turn, must stay the proceeding and give notice to all parties and their representatives. The authority head may order the process resumed only upon receipt of the written authorization of the Attorney General.

§ 1264.140 Stay pending appeal.

(a) An initial decision is stayed automatically pending disposition of a motion for reconsideration or of an appeal to the authority head.

(b) No administrative stay is available following a final decision of the authority head.

§ 1264.141 Judicial review.

Section 3805 of Title 31, United States Code, authorizes judicial review by an appropriate United States District Court of a final decision of the authority head imposing penalties or assessments under this part and specifies the procedures for such review.

§ 1264.142 Collection of civil penalties and assessments.

Sections 3806 and 3808(b) of Title 31, United States Code, authorize actions for collection of civil penalties and assessments imposed under this part and specify the procedures for such actions.

§ 1264.143 Right to administrative offset.

The amount of any penalty or assessment which has become final, or for which a judgment has been entered under §1264.141 or §1264.142, or any amount agreed upon in a compromise or settlement under §1264.145, may be collected by administrative offset under 31 U.S.C. 3716, except that an administrative offset may not be made under this subsection against a refund of an overpayment of Federal taxes, then or later owing by the United States to the defendant.

§ 1264.144 Deposit in Treasury of United States.

All amounts collected pursuant to this part shall be deposited as miscellaneous receipts in the Treasury of the United States, except as provided in 31 U.S.C. 3806(g).

§ 1264.145 Compromise or settlement.

(a) Parties may make offers of compromise or settlement at any time, including proposals for alternative dispute resolution.

(b) The reviewing official has the exclusive authority to compromise or settle a case under this part at any time after the date on which the reviewing official is permitted to refer allegations of liability to a presiding officer and before the date on which the presiding officer issues an initial decision.

(c) The authority head has exclusive authority to compromise or settle a case under this part at any time after the date on which the presiding officer issues an initial decision, except during the pendency of any judicial review under §1264.141 or during the pendency of any civil action to collect penalties and assessments under §1264.142.

(d) The Attorney General has exclusive authority to compromise or settle a case under this part during the pendency of any judicial review under 31 U.S.C. 3805 or of any civil action to recover penalties and assessments under 31 U.S.C. 3806.

(e) The investigating official may recommend settlement terms to the reviewing official, the authority head, or the Attorney General, as appropriate. The reviewing official may recommend
§ 1264.146
settlement terms to the authority head, or the Attorney General, as appropriate.

(f) Any compromise or settlement must be in writing.

§ 1264.146 Limitations.

(a) The notice of hearing with respect to a claim or statement must be served in the manner specified in §1264.107 within 6 years after the date on which such claim or statement is made.

(b) If the defendant fails to file a timely answer, service of a notice under §1264.109(b) shall be deemed a notice of hearing for purposes of this section.

(c) The statute of limitations may be extended by agreement of the parties.

APPENDIX A TO PART 1264—NOTICE TO CONSENT TO THE CHAIRPERSON, NASA BOARD OF CONTRACT APPEALS (BCA), OR DESIGNEE, AS PRESIDING OFFICER

In accordance with the provisions of 14 CFR 1264.106, you are hereby notified that the Chairperson, NASA Board of Contract Appeals (BCA), or designee, in addition to other duties, upon your consent, may conduct any or all proceedings as the presiding officer, pursuant to 14 CFR part 1264 which implements the Program Fraud Civil Penalties Act of 1986.

You should be aware that your decision to consent, or not to consent, to the referral of this case to the NASA/BCA must be entirely voluntary. Only if you and the authority head consent to this reference will either the Chairperson or the designee to whom the case may be assigned be informed of your decision.

An appeal from a decision by the presiding officer under this consent procedure may be taken in the same manner as an appeal from a decision by any other presiding officer, as provided in 14 CFR 1264.136(d), 1264.137, 1264.138, and 1264.141.

If you consent, you must sign, date, and return this form within the 30-day period provided for your answer (see 14 CFR 1264.108, 1264.109).

1265.105 Definitions.

(a) Executive Order (E.O.) 12549 provides that, to the extent permitted by law, Executive departments and agencies shall participate in a government-wide system for nonprocurement debarment and suspension. A person who is debarred or suspended shall be excluded from Federal financial and non-financial assistance and benefits under Federal programs and activities. Debarment or suspension of a participant in a program by one agency shall have governmentwide effect.

(b) These regulations implement section 3 of E.O. 12549 and the guidelines promulgated by the Office of Management and Budget under section 6 of the E.O. by:

1. Prescribing the programs and activities that are covered by the governmentwide system;
2. Prescribing the governmentwide criteria and governmentwide minimum due process procedures that each agency shall use;
3. Providing for the listing of debarred and suspended participants, participants declared ineligible (see definition of “ineligible” in §1265.105), and participants who have voluntarily excluded themselves from participation in covered transactions;
4. Setting forth the consequences of a debarment, suspension, determination of ineligibility, or voluntary exclusion; and
5. Offering such other guidance as necessary for the effective implementation and administration of the governmentwide system.

(c) These regulations also implement Executive Order 12689 (3 CFR, 1989 Comp., p. 235) and 31 U.S.C. 6101 note (Public Law 103–355, sec. 2455, 108 Stat. 3327) by—

(1) Providing for the inclusion in the List of Parties Excluded from Federal Procurement and Nonprocurement Programs all persons proposed for debarment, debarred or suspended under the Federal Acquisition Regulation, 48 CFR part 9, subpart 9.4; persons against which governmentwide exclusions have been entered under this part; and persons determined to be ineligible; and
(2) Setting forth the consequences of a debarment, suspension, determination of ineligibility, or voluntary exclusion.

(d) Although these regulations cover the listing of ineligible participants and the effect of such listing, they do not prescribe policies and procedures governing declarations of ineligibility.

[60 FR 33000, 33044, June 26, 1995]
controls or has the power to control both. Indicia of control include, but are not limited to: interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a business entity organized following the suspension or debarment of a person which has the same or similar management, ownership, or principal employees as the suspended, debarred, ineligible, or voluntarily excluded person.

Agency. Any executive department, military department or defense agency or other agency of the executive branch, excluding the independent regulatory agencies.

Civil judgment. The disposition of a civil action by any court of competent jurisdiction, whether entered by verdict, decision, settlement, stipulation, or otherwise creating a civil liability for the wrongful acts complained of; or a final determination of liability under the Program Fraud Civil Remedies Act of 1988 (31 U.S.C. 3801–12).

Conviction. A judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, including a plea of nolo contendere.

Debarment. An action taken by a debarring official in accordance with these regulations to exclude a person from participating in covered transactions. A person so excluded is "debarred.

Debarring official. An official authorized to impose debarment. The debarring official is either:

(1) The agency head, or
(2) An official designated by the agency head.

Indictment. Indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense shall be given the same effect as an indictment.

Ineligible. Excluded from participation in Federal nonprocurement programs pursuant to a determination of ineligibility under statutory, executive order, or regulatory authority, other than Executive Order 12549 and its agency implementing regulations; for example, excluded pursuant to the Davis-Bacon Act and its implementing regulations, the equal employment opportunity acts and executive orders, or the environmental protection acts and executive orders. A person is ineligible where the determination of ineligibility affects such person's eligibility to participate in more than one covered transaction.

Legal proceedings. Any criminal proceeding or any civil judicial proceeding to which the Federal Government or a State or local government or quasi-governmental authority is a party. The term includes appeals from such proceedings.

List of Parties Excluded from Federal Procurement and Nonprocurement Programs. A list compiled, maintained and distributed by the General Services Administration (GSA) containing the names and other information about persons who have been debarred, suspended, or voluntarily excluded under Executive Orders 12549 and 12689 and these regulations or 48 CFR part 9, subpart 9.4, persons who have been proposed for debarment under 48 CFR part 9, subpart 9.4, and those persons who have been determined to be ineligible.

NASA. National Aeronautics and Space Administration.

Notice. A written communication served in person or sent by certified mail, return receipt requested, or its equivalent, to the last known address of a party, its identified counsel, its agent for service of process, or any partner, officer, director, owner, or joint venturer of the party. Notice, if undeliverable, shall be considered to have been received by the addressee five days after being properly sent to the last address known by the agency.

Participant. Any person who submits a proposal for, enters into, or reasonably may be expected to enter into a covered transaction. This term also includes any person who acts on behalf of or is authorized to commit a participant in a covered transaction as an agent or representative of another participant.

Person. Any individual, corporation, partnership, association, unit of government or legal entity, however organized, except: foreign governments or foreign governmental entities, public international organizations, foreign government owned (in whole or in part)
or controlled entities, and entities consisting wholly or partially of foreign governments or foreign governmental entities.

Preponderance of the evidence. Proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Principal. Officer, director, owner, partner, key employee, or other person within a participant with primary management or supervisory responsibilities; or a person who has a critical influence on or substantive control over a covered transaction, whether or not employed by the participant. Persons who have a critical influence on or substantive control over a covered transaction are:

(1) Principal investigators.
(2) [Reserved]

Proposal. A solicited or unsolicited bid, application, request, invitation to consider or similar communication by or on behalf of a person seeking to participate or to receive a benefit, directly or indirectly, in or under a covered transaction.

Respondent. A person against whom a debarment or suspension action has been initiated.

State. Any of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency of a State, exclusive of institutions of higher education, hospitals, and units of local government. A State instrumentality will be considered part of the State government if it has a written determination from a State government that such State considers that instrumentality to be an agency of the State government.

Suspending official. An official authorized to impose suspension. The suspending official is either:

(1) The agency head, or
(2) An official designated by the agency head.

Suspension. An action taken by a suspending official in accordance with these regulations that immediately excludes a person from participating in covered transactions for a temporary period, pending completion of an investigation and such legal, debarment, or Program Fraud Civil Remedies Act proceedings as may ensue. A person so excluded is “suspended.”

Voluntary exclusion or voluntarily excluded. A status of nonparticipation or limited participation in covered transactions assumed by a person pursuant to the terms of a settlement.

§ 1265.110 Coverage.

(a) These regulations apply to all persons who have participated, are currently participating or may reasonably be expected to participate in transactions under Federal nonprocurement programs. For purposes of these regulations such transactions will be referred to as “covered transactions.”

(1) Covered transaction. For purposes of these regulations, a covered transaction is a primary covered transaction or a lower tier covered transaction. Covered transactions at any tier need not involve the transfer of Federal funds.

(i) Primary covered transaction. Except as noted in paragraph (a)(2) of this section, a primary covered transaction is any nonprocurement transaction between an agency and a person, regardless of type, including: grants, cooperative agreements, scholarships, fellowships, contracts of assistance, loans, loan guarantees, subsidies, insurance, payments for specified use, donation agreements and any other nonprocurement transactions between a Federal agency and a person. Primary covered transactions also include those transactions specially designated by the U.S. Department of Housing and Urban Development in such agency’s regulations governing debarment and suspension.

(ii) Lower tier covered transaction. A lower tier covered transaction is:

(A) Any transaction between a participant and a person other than a procurement contract for goods or services, regardless of type, under a primary covered transaction.

(B) Any procurement contract for goods or services between a participant and a person, regardless of type, expected to equal or exceed the Federal procurement small purchase threshold fixed at 10 U.S.C. 2304(g) and 41 U.S.C.
§ 1265.115 Policy.

(a) In order to protect the public interest, it is the policy of the Federal Government to conduct business only with responsible persons. Debarment and suspension are discretionary actions that, taken in accordance with Executive Order 12549 and these regulations, are appropriate means to implement this policy.

(b) Debarment and suspension are serious actions which shall be used only in the public interest and for the Federal Government’s protection and not for purposes of punishment. Agencies may impose debarment or suspension for the causes and in accordance with the procedures set forth in these regulations.

(c) When more than one agency has an interest in the proposed debarment or suspension of a person, consideration shall be given to designating one agency as the lead agency for making the decision. Agencies are encouraged to establish methods and procedures for coordinating their debarment or suspension actions.
Subpart B—Effect of Action

§ 1265.200 Debarment or suspension.

(a) Primary covered transactions. Except to the extent prohibited by law, persons who are debarred or suspended shall be excluded from primary covered transactions as either participants or principals throughout the Executive Branch of the Federal Government for the period of their debarment, suspension, or the period they are proposed for debarment under 48 CFR part 9, subpart 9.4. Accordingly, no agency shall enter into primary covered transactions with such excluded persons during such period, except as permitted pursuant to §1265.215.

(b) Lower tier covered transactions. Except to the extent prohibited by law, persons who have been proposed for debarment under 48 CFR part 9, subpart 9.4, debarred or suspended shall be excluded from participating as either participants or principals in all lower tier covered transactions (see §1265.110(a)(1)(ii)) for the period of their exclusion.

(c) Exceptions. Debarment or suspension does not affect a person’s eligibility for—

(1) Statutory entitlements or mandatory awards (but not subtier awards thereunder which are not themselves mandatory), including deposited funds insured by the Federal Government;

(2) Direct awards to foreign governments or public international organizations, or transactions with foreign governments or foreign governmental entities, public international organizations, foreign government owned (in whole or in part) or controlled entities, and entities consisting wholly or partially of foreign governments or foreign governmental entities;

(3) Benefits to an individual as a personal entitlement without regard to the individual’s present responsibility (but benefits received in an individual’s business capacity are not excepted);

(4) Federal employment;

(5) Transactions pursuant to national or agency-recognized emergencies or disasters;

(6) Incidental benefits derived from ordinary governmental operations; and

(7) Other transactions where the application of these regulations would be prohibited by law.

§ 1265.205 Ineligible persons.

Persons who are ineligible, as defined in §1265.105(i), are excluded in accordance with the applicable statutory, executive order, or regulatory authority.

§ 1265.210 Voluntary exclusion.

Persons who accept voluntary exclusions under §1265.315 are excluded in accordance with the terms of their settlements. NASA shall, and participants may, contact the original action agency to ascertain the extent of the exclusion.

§ 1265.215 Exception provision.

NASA may grant an exception permitting a debarred, suspended, or voluntarily excluded person, or a person proposed for debarment under 48 CFR part 9, subpart 9.4, to participate in a particular covered transaction upon a written determination by the agency head or an authorized designee stating the reason(s) for deviating from the Presidential policy established by Executive Order 12549 and §1265.200. However, in accordance with the President’s stated intention in the Executive Order, exceptions shall be granted only infrequently. Exceptions shall be reported in accordance with §1265.505(a).

§ 1265.220 Continuation of covered transactions.

(a) Notwithstanding the debarment, suspension, proposed debarment under 48 CFR part 9, subpart 9.4, determination of ineligibility, or voluntary exclusion of any person by an agency, agencies and participants may continue covered transactions in existence at the time the person was debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, declared ineligible, or voluntarily excluded. A decision as to the type of termination action, if any, to be taken should be made only after thorough review to ensure the propriety of the proposed action.
§ 1265.225 Failure to adhere to restrictions. (a) Except as permitted under §1265.215 or §1265.220, a participant shall not knowingly do business under a covered transaction with a person who is—

(1) Debarred or suspended;

(2) Proposed for debarment under 48 CFR part 9, subpart 9.4; or

(3) Ineligible for or voluntarily excluded from the covered transaction.

(b) Violation of the restriction under paragraph (a) of this section may result in disallowance of costs, annulment or termination of award, issuance of a stop work order, debarment or suspension, or other remedies as appropriate.

c) A participant may rely upon the certification of a prospective participant in a lower tier covered transaction that it and its principals are not debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. An agency has the burden of proof that a participant did knowingly do business with a person that filed an erroneous certification.

(60 FR 33041, 33044, June 26, 1995)

Subpart C—Debarment

§ 1265.300 General.

The debarring official may debar a person for any of the causes in §1265.305, using procedures established in §§1265.310 through 1265.314. The existence of a cause for debarment, however, does not necessarily require that the person be debarred; the seriousness of the person’s acts or omissions and any mitigating factors shall be considered in making any debarment decision.

§ 1265.305 Causes for debarment.

Debarment may be imposed in accordance with the provisions of §§1265.300 through 1265.314 for:

(a) Conviction of or civil judgment for:

(1) Commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public or private agreement or transaction;

(2) Violation of Federal or State antitrust statutes, including those prescribing price fixing between competitors, allocation of customers between competitors, and bid rigging;

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, receiving stolen property, making false claims, or obstruction of justice; or

(4) Commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of a person.

(b) Violation of the terms of a public agreement or transaction so serious as to affect the integrity of an agency program, such as:

(1) A willful failure to perform in accordance with the terms of one or more public agreements or transactions;

(2) A history of failure to perform or of unsatisfactory performance of one or more public agreements or transactions; or

(3) A willful violation of a statutory or regulatory provision or requirement applicable to a public agreement or transaction.

(c) Any of the following causes:

(1) A nonprocurement debarment by any Federal agency taken before October 1, 1988, the effective date of these regulations, or a procurement debarment by any Federal agency taken pursuant to 48 CFR subpart 9.4;

(2) Knowingly doing business with a debarred, suspended, ineligible, or voluntarily excluded person, in connection with a covered transaction, except as permitted in §1265.215 or §1265.220;

(3) Failure to pay a single substantial debt, or a number of outstanding debts.
§ 1265.314

(e) Of the potential effect of a debarment.

§ 1265.313 Opportunity to contest proposed debarment.

(a) Submission in opposition. Within 30 days after receipt of the notice of proposed debarment, the respondent may submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment.

(b) Additional proceedings as to disputed material facts. (1) In actions not based upon a conviction or civil judgment, if the debarring official finds that the respondent’s submission in opposition raises a genuine dispute over facts material to the proposed debarment, respondent(s) shall be afforded an opportunity to appear with a representative, submit documentary evidence, present witnesses, and confront any witness the agency presents.

(2) A transcribed record of any additional proceedings shall be made available at cost to the respondent, upon request, unless the respondent and the agency, by mutual agreement, waive the requirement for a transcript.

§ 1265.314 Debarring official’s decision.

(a) No additional proceedings necessary. In actions based upon a conviction or civil judgment, or in which there is no genuine dispute over material facts, the debarring official shall make a decision on the basis of all the information in the administrative record, including any submission made by the respondent. The decision shall be made within 45 days after receipt of any information and argument submitted by the respondent, unless the debarring official extends this period for good cause.

(b) Additional proceedings necessary. (1) In actions in which additional proceedings are necessary to determine disputed material facts, written findings of fact shall be prepared. The debarring official shall base the decision on the facts as found, together with any information and argument submitted by the respondent and any other information in the administrative record.
§ 1265.315 Settlement and voluntary exclusion.

(a) When in the best interest of the Government, NASA may, at any time, settle a debarment or suspension action.

(b) If a participant and the agency agree to a voluntary exclusion of the participant, such voluntary exclusion shall be entered on the Nonprocurement List (see subpart E).

§ 1265.320 Period of debarment.

(a) Debarment shall be for a period commensurate with the seriousness of the cause(s). If a suspension precedes a debarment, the suspension period shall be considered in determining the debarment period.

(1) Debarment for causes other than those related to a violation of the requirements of subpart F of this part generally should not exceed three years. Where circumstances warrant, a longer period of debarment may be imposed.

(2) In the case of a debarment for a violation of the requirements of subpart F of this part (see §1265.305(c)(5)), the period of debarment shall not exceed five years.

(b) The debarring official may extend an existing debarment for an additional period, if that official determines that an extension is necessary to protect the public interest. However, a debarment may not be extended solely on the basis of the facts and circumstances upon which the initial debarment action was based. If debarment for an additional period is determined to be necessary, the procedures of §§1265.311 through 1265.314 shall be followed to extend the debarment.

(c) The respondent may request the debarring official to reverse the debarment decision or to reduce the period or scope of debarment. Such a request shall be in writing and supported by documentation. The debarring official may grant such a request for reasons including, but not limited to:

(1) Newly discovered material evidence;

(2) Reversal of the conviction or civil judgment upon which the debarment was based;

(3) Bona fide change in ownership or management;

(4) Elimination of other causes for which the debarment was imposed; or

(5) Other reasons the debarring official deems appropriate.

§ 1265.325 Scope of debarment.

(a) Scope in general. (1) Debarment of a person under these regulations constitutes debarment of all its divisions
§ 1265.410

Subpart D—Suspension

§ 1265.400 General.
(a) The suspending official may suspend a person for any of the causes in §1265.405 using procedures established in §§1265.410 through 1265.413.

(b) Suspension is a serious action to be imposed only when:
(1) There exists adequate evidence of one or more of the causes set out in §1265.405, and
(2) Immediate action is necessary to protect the public interest.

(c) In assessing the adequacy of the evidence, the agency should consider how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as grants, cooperative agreements, loan authorizations, and contracts.

§ 1265.405 Causes for suspension.
(a) Suspension may be imposed in accordance with the provisions of §§1265.400 through 1265.413 upon adequate evidence:
(1) To suspect the commission of an offense listed in §1265.305(a); or
(2) That a cause for debarment under §1265.305 may exist.

(b) Indictment shall constitute adequate evidence for purposes of suspension actions.

§ 1265.410 Procedures.
(a) Investigation and referral. Information concerning the existence of a cause for suspension from any source shall be promptly reported, investigated, and referred, when appropriate, to the suspending official for consideration. After consideration, the suspending official may issue a notice of suspension.

(b) Decisionmaking process. NASA shall process suspension actions as informally as practicable, consistent with principles of fundamental fairness, using the procedures in §1265.411 through §1265.413.
§ 1265.411 Notice of suspension.

When a respondent is suspended, notice shall immediately be given:

(a) That suspension has been imposed;

(b) That the suspension is based on an indictment, conviction, or other adequate evidence that the respondent has committed irregularities seriously reflecting on the propriety of further Federal Government dealings with the respondent;

(c) Describing any such irregularities in terms sufficient to put the respondent on notice without disclosing the Federal Government’s evidence;

(d) Of the cause(s) relied upon under § 1265.405 for imposing suspension;

(e) That the suspension is for a temporary period pending the completion of an investigation or ensuing legal, debarment, or Program Fraud Civil Remedies Act proceedings;

(f) Of the provisions of § 1265.411 through § 1265.413 and any other NASA procedures, if applicable, governing suspension decisionmaking; and

(g) Of the effect of the suspension.

§ 1265.412 Opportunity to contest suspension.

(a) Submission in opposition. Within 30 days after receipt of the notice of suspension, the respondent may submit, in person, in writing, or through a representative, information and argument in opposition to the suspension.

(b) Additional proceedings as to disputed material facts. (1) If the suspending official finds that the respondent’s submission in opposition raises a genuine dispute over facts material to the suspension, respondent(s) shall be afforded an opportunity to appear with a representative, submit documentary evidence, present witnesses, and confront any witness the agency presents, unless:

(i) The action is based on an indictment, conviction or civil judgment, or

(ii) A determination is made, on the basis of Department of Justice advice, that the substantial interests of the Federal Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.

(2) A transcribed record of any additional proceedings shall be prepared and made available at cost to the respondent, upon request, unless the respondent and the agency, by mutual agreement, waive the requirement for a transcript.

§ 1265.413 Suspending official’s decision.

The suspending official may modify or terminate the suspension (for example, see § 1265.320(c) for reasons for reducing the period or scope of debarment) or may leave it in force. However, a decision to modify or terminate the suspension shall be without prejudice to the subsequent imposition of suspension by any other agency or debarment by any agency. The decision shall be rendered in accordance with the following provisions:

(a) No additional proceedings necessary. In actions: based on an indictment, conviction, or civil judgment; in which there is no genuine dispute over material facts; or in which additional proceedings to determine disputed material facts have been denied on the basis of Department of Justice advice, the suspending official shall make a decision on the basis of all the information in the administrative record, including any submission made by the respondent. The decision shall be made within 45 days after receipt of any information and argument submitted by the respondent, unless the suspending official extends this period for good cause.

(b) Additional proceedings necessary. (1) In actions in which additional proceedings are necessary to determine disputed material facts, written findings of fact shall be prepared. The suspending official shall base the decision on the facts as found, together with any information and argument submitted by the respondent and any other information in the administrative record.

(2) The suspending official may refer matters involving disputed material facts to another official for findings of fact. The suspending official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary or capricious or clearly erroneous.
(c) Notice of suspending official’s decision. Prompt written notice of the suspending official’s decision shall be sent to the respondent.

§ 1265.415 Period of suspension.

(a) Suspension shall be for a temporary period pending the completion of an investigation or ensuing legal, debarment, or Program Fraud Civil Remedies Act proceedings, unless terminated sooner by the suspending official or as provided in paragraph (b) of this section.

(b) If legal or administrative proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated unless an Assistant Attorney General or United States Attorney requests its extension in writing, in which case it may be extended for an additional six months. In no event may a suspension extend beyond 18 months, unless such proceedings have been initiated within that period.

(c) The suspending official shall notify the Department of Justice of an impending termination of a suspension, at least 30 days before the 12-month period expires, to give that Department an opportunity to request an extension.

§ 1265.420 Scope of suspension.

The scope of a suspension is the same as the scope of a debarment (see §1265.320), except that the procedures of §§1265.410 through 1265.413 shall be used in imposing a suspension.

Subpart E—Responsibilities of GSA, Agency and Participants

§ 1265.500 GSA responsibilities.

(a) In accordance with the OMB guidelines, GSA shall compile, maintain, and distribute a list of all persons who have been debarred, suspended, or voluntarily excluded by agencies under Executive Order 12549 and these regulations, and those who have been determined to be ineligible.

(b) At a minimum, this list shall indicate:

1. The names and addresses of all debarred, suspended, ineligible, and voluntarily excluded persons, in alphabetical order, with cross-references when more than one name is involved in a single action;
2. The type of action;
3. The cause for the action;
4. The scope of the action;
5. Any termination date for each listing; and
6. The agency and name and telephone number of the agency point of contact for the action.

§ 1265.505 NASA responsibilities.

(a) The agency shall provide GSA with current information concerning debarments, suspension, determinations of ineligibility, and voluntary exclusions it has taken. Until February 18, 1989, the agency shall also provide GSA and OMB with information concerning all transactions in which NASA has granted exceptions under §1265.215 permitting participation by debarred, suspended, or voluntarily excluded persons.

(b) Unless an alternative schedule is agreed to by GSA, the agency shall advise GSA of the information set forth in §1265.500(b) and of the exceptions granted under §1265.215 within five working days after taking such actions.

(c) The agency shall direct inquiries concerning listed persons to the agency that took the action.

(d) Agency officials shall check the Nonprocurement List before entering covered transactions to determine whether a participant in a primary transaction is debarred, suspended, ineligible, or voluntarily excluded (Tel. #).

(e) Agency officials shall check the Nonprocurement List before approving principals or lower tier participants where agency approval of the principal or lower tier participant is required under the terms of the transaction, to determine whether such principals or participants are debarred, suspended, ineligible, or voluntarily excluded.

§ 1265.510 Participants’ responsibilities.

(a) Certification by participants in primary covered transactions. Each participant shall submit the certification in appendix A to this part for it and its principals at the time the participant submits its proposal in connection with
§ 1265.600 Purpose.
(a) The purpose of this subpart is to carry out the Drug-Free Workplace Act of 1988 by requiring that—
(1) A grantee, other than an individual, shall certify to the agency that it will provide a drug-free workplace;
(2) A grantee who is an individual shall certify to the agency that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance in conducting any activity with the grant.
(b) Requirements implementing the Drug-Free Workplace Act of 1988 for contractors with the agency are found at 48 CFR subparts 9.4, 23.5, and 52.2.

§ 1265.605 Definitions.
(a) Except as amended in this section, the definitions of § 1265.105 apply to this subpart.
(b) For purposes of this subpart—
(1) Controlled substance means a controlled substance in schedules I through V of the Controlled Substances Act (21 U.S.C. 812), and as further defined by regulation at 21 CFR 1308.11 through 1308.15;
(2) Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;
(3) Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;
(4) Drug-free workplace means a site for the performance of work done in connection with a specific grant at which employees of the grantee are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance;
(5) Employee means the employee of a grantee directly engaged in the performance of work under the grant, including:
   (i) All direct charge employees;
(ii) All indirect charge employees, unless their impact or involvement is insignificant to the performance of the grant; and,

(iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll.

This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the payroll; or employees of subrecipients or subcontractors in covered workplaces);

(6) Federal agency or agency means any United States executive department, military department, government corporation, government controlled corporation, any other establishment in the executive branch (including the Executive Office of the President), or any independent regulatory agency;

(7) Grant means an award of financial assistance, including a cooperative agreement, in the form of money, or property in lieu of money, by a Federal agency directly to a grantee. The term grant includes block grant and entitlement grant programs, whether or not exempted from coverage under the grants management government-wide common rule on uniform administrative requirements for grants and cooperative agreements. The term does not include technical assistance that provides services instead of money, or other assistance in the form of loans, loan guarantees, interest subsidies, insurance, or direct appropriations; or any veterans' benefits to individuals, i.e., any benefit to veterans, their families, or survivors by virtue of the service of a veteran in the Armed Forces of the United States;

(8) Grantee means a person who applies for or receives a grant directly from a Federal agency (except another Federal agency);

(9) Individual means a natural person;

(10) State means any of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency of a State, exclusive of institutions of higher education, hospitals, and units of local government. A State instrumentality will be considered part of the State government if it has a written determination from a State government that such State considers the instrumentality to be an agency of the State government.

§ 1265.610 Coverage.

(a) This subpart applies to any grantee of the agency.

(b) This subpart applies to any grant, except where application of this subpart would be inconsistent with the international obligations of the United States or the laws or regulations of a foreign government. A determination of such inconsistency may be made only by the agency head or his/her designee.

(c) The provisions of subparts A, B, C, D and E of this part apply to matters covered by this subpart, except where specifically modified by this subpart. In the event of any conflict between provisions of this subpart and other provisions of this part, the provisions of this subpart are deemed to control with respect to the implementation of drug-free workplace requirements concerning grants.

§ 1265.615 Grounds for suspension of payments, suspension or termination of grants, or suspension or debarment.

A grantee shall be deemed in violation of the requirements of this subpart if the agency head or his or her official designee determines, in writing, that—

(a) The grantee has made a false certification under §1265.630;

(b) With respect to a grantee other than an individual—

(1) The grantee has violated the certification by failing to carry out the requirements of paragraphs (A)(a)-(g) and/or (B) of the certification (alternate I to appendix C) or

(2) Such a number of employees of the grantee have been convicted of violations of criminal drug statutes for violations occurring in the workplace as to indicate that the grantee has failed to make a good faith effort to provide a drug-free workplace.
§ 1265.620 Effect of violation.

(a) In the event of a violation of this subpart as provided in §1265.615, and in accordance with applicable law, the grantee shall be subject to one or more of the following actions:

(1) Suspension of payments under the grant;

(2) Suspension or termination of the grant; and

(3) Suspension or debarment of the grantee under the provisions of this part.

(b) Upon issuance of any final decision under this part requiring debarment of a grantee, the debarred grantee shall be ineligible for award of any grant from any Federal agency for a period specified in the decision, not to exceed five years (see §1265.320(a)(2) of this part).

§ 1265.625 Exception provision.

The agency head may waive with respect to a particular grant, in writing, a suspension of payments under a grant, suspension or termination of a grant, or suspension or debarment of a grantee if the agency head determines that such a waiver would be in the public interest. This exception authority cannot be delegated to any other official.

§ 1265.630 Certification requirements and procedures.

(a)(1) As a prior condition of being awarded a grant, each grantee shall make the appropriate certification to the Federal agency providing the grant, as provided in appendix C to this part.

(2) Grantees are not required to make a certification in order to continue receiving funds under a grant awarded before March 18, 1989, or under a no-cost time extension of such a grant. However, the grantee shall make a one-time drug-free workplace certification for a non-automatic continuation of such a grant made on or after March 18, 1989.

(b) Except as provided in this section, all grantees shall make the required certification for each grant. For mandatory formula grants and entitlements that have no application process, grantees shall submit a one-time certification in order to continue receiving awards.

(c) A grantee that is a State may elect to make one certification in each Federal fiscal year. States that previously submitted an annual certification are not required to make a certification for Fiscal Year 1990 until June 30, 1990. Except as provided in paragraph (d) of this section, this certification shall cover all grants to all State agencies from any Federal agency. The State shall retain the original of this statewide certification in its Governor’s office and, prior to grant award, shall ensure that a copy is submitted individually with respect to each grant, unless the Federal agency has designated a central location for submission.

(d)(1) The Governor of a State may exclude certain State agencies from the statewide certification and authorize these agencies to submit their own certifications to Federal agencies. The statewide certification shall name any State agencies so excluded.

(2) A State agency to which the statewide certification does not apply, or a State agency in a State that does not have a statewide certification, may elect to make one certification in each Federal fiscal year. State agencies that previously submitted a State agency certification are not required to make a certification for Fiscal Year 1990 until June 30, 1990. The State agency shall retain the original of this State agency-wide certification in its central office and, prior to grant award, shall ensure that a copy is submitted individually with respect to each grant, unless the Federal agency designates a central location for submission.

(3) When the work of a grant is done by more than one State agency, the certification of the State agency directly receiving the grant shall be deemed to certify compliance for all
§ 1265.635 Reporting of and employee sanctions for convictions of criminal drug offenses.

(a) When a grantee other than an individual is notified that an employee has been convicted for a violation of a criminal drug statute occurring in the workplace, it shall take the following actions:

(1) Within 10 calendar days of receiving notice of the conviction, the grantee shall provide written notice, including the convicted employee’s position title, to every grant officer, or other designee on whose grant activity the convicted employee was working, unless a Federal agency has designated a central point for the receipt of such notifications. Notification shall include the identification number(s) for each of the Federal agency’s affected grants.

(2) Within 30 calendar days of receiving notice of the conviction, the grantee shall do the following with respect to the employee who was convicted:

(i) Take appropriate personnel action against the employee, up to and including termination, consistent with requirements of the Rehabilitation Act of 1973, as amended; or

(ii) Require the employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency.

(b) A grantee who is an individual who is convicted for a violation of a criminal drug statute occurring during the conduct of any grant activity shall report the conviction, in writing, within 10 calendar days, to his or her Federal agency grant officer, or other designee, unless the Federal agency has designated a central point for the receipt of such notices. Notification shall include the identification number(s) for each of the Federal agency’s affected grants.

(Approved by the Office of Management and Budget under control number 0991-0002)

APPENDIX A TO PART 1265—CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS—PRIMARY COVERED TRANSACTIONS

Instructions for Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency’s determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the
department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction,” provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Programs.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

Certification Regarding Debarment, Suspension, and Other Responsibility Matters—Primary Covered Transactions

(1) The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;

(b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

(2) Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

[60 FR 33042, 33044, June 26, 1995]

APPENDIX B TO PART 1265—CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION—LOWER TIER COVERED TRANSACTIONS

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower-
tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntary exclusion as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant agrees by submitting this proposal that it will include this clause titled “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction,” without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions

(1) The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

(2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

[60 FR 33042, 33044, June 26, 1995]

APPENDIX C TO PART 1265—CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

Instructions for Certification

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. For grantees other than individuals, Alternate I applies.

4. For grantees who are individuals, Alternate II applies.

5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee’s drug-free workplace requirements.

6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in...
each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five). 

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees’ attention is called, in particular, to the following definitions from these rules:

**Controlled substance** means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15).

**Conviction** means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

**Criminal drug statute** means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

**Employee** means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee’s payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee’s payroll; or employees of subrecipients or subcontractors in covered workplaces).

**Certification Regarding Drug-Free Workplace Requirements**

**Alternate I. (Grantees Other than Individuals)**

A. The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee’s workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug awareness program to inform employees about—

(1) The dangers of drug abuse in the workplace;

(2) The grantee’s policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will—

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted—

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

Check □ if there are workplaces on file that are not identified here.
Alternate II. (Grantees Who Are Individuals)

(a) The grantee certifies that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant;

(b) If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, he or she will report the conviction, in writing, within 10 calendar days of the conviction, to every grant officer or other designee, unless the Federal agency designates a central point for the receipt of such notices. When notice is made to such a central point, it shall include the identification number(s) of each affected grant.

[55 FR 21690, 21692, May 25, 1990]

PART 1266—CROSS-WAIVER OF LIABILITY

Sec.
1266.100 Purpose.
1266.101 Scope.
1266.102 Cross-waiver of liability for Space Station Freedom activities.
1266.103 Cross-waiver of liability during Shuttle operations.
1266.104 Cross-waiver of liability for NASA expendable launch vehicle (ELV) program launches.

AUTHORITY: 42 U.S.C. 2473 (c)(1) and (c)(5).

SOURCE: 56 FR 48430, Sept. 25, 1991, unless otherwise noted.

§ 1266.100 Purpose.

The purpose of this regulation is to ensure that consistent cross-waivers of liability are included in NASA agreements for Space Station Freedom activities, Shuttle launch services, and NASA Expendable Launch Vehicle (ELV) program launches.

§ 1266.101 Scope.

These provisions at §1266.102, contained in Article 16 of the Intergovernmental Agreement among the United States, the Governments of Member States of the European Space Agency, the Government of Japan, and the Government of Canada on Cooperation in the Detailed Design, Development, Operation and Utilization of the Permanently Manned Civil Space Station, form the regulatory basis for cross-waivers to be incorporated in NASA agreements implementing the Intergovernmental Agreement and the memoranda of understanding between the U.S. and its respective international partners on Space Station Freedom. The provisions at §1266.103 of this part provide the regulatory basis for cross-waiver clauses to be incorporated in agreements for Shuttle launch services that do not involve activities in connection with Space Station Freedom. The provisions at §1266.104 of this part provide the regulatory basis for cross-waiver clauses to be incorporated in agreements for NASA ELV program launches that do not involve activities in connection with Space Station Freedom.

§ 1266.102 Cross-waiver of liability for Space Station Freedom activities.

(a) The objective of this section is to establish a cross-waiver of liability (“cross-waiver”) by the Partner States and related entities in the interest of encouraging participation in exploration, exploitation, and use of outer space through the Space Station. This cross-waiver of liability shall be broadly construed to achieve this objective.

(b) For the purposes of this section:

(1)(i) A Partner State is each contracting Party for which the Agreement among the Government of the United States of America, Governments of Member States of the European Space Agency, the Government of Japan, and the Government of Canada on Cooperation in the Detailed Design, Development, Operation, and Utilization of the Permanently Manned Civil Space Station” (the “Intergovernmental Agreement”) has entered into force, in accordance with Article 25 of the Intergovernmental Agreement.

(ii) A Partner State includes its Cooperating Agency. The National Aeronautics and Space Administration (NASA) for the United States, the European Space Agency (ESA) for the European Governments, the Canadian Space Agency (CSA) for the Government of Canada, and the Science and Technology Agency of Japan (STA) are the Cooperating Agencies responsible for implementing Space Station cooperation. A Partner State also includes any entity specified in the Memorandum of Understanding (MOU) between NASA and the Government of...
§ 1266.102 Japan to assist the Government of Japan’s Cooperating Agency in the implementation of that MOU.

(2) The term related entity means:
   (i) A contractor or subcontractor of a Partner State at any tier;
   (ii) A user or customer of a Partner State at any tier; or
   (iii) A contractor or subcontractor of a user or customer of a Partner State at any tier. “Contractors” and “subcontractors” include suppliers of any kind.

(3) The term damage means:
   (i) Bodily injury to, or other impairment of health of, or death of, any person;
   (ii) Damage to, loss of, or loss of use of any property;
   (iii) Loss of revenue or profits; or
   (iv) Other direct, indirect, or consequential damage.

(4) The term launch vehicle means an object (or any part thereof) intended for launch, launched from Earth, or returning to Earth which carries payloads or persons, or both.

(5) The term payload means all property to be flown or used on or in a launch vehicle or the Space Station.

(6) The term Protected Space Operations means all launch vehicle activities, Space Station Freedom activities, and payload activities on Earth, in outer space, or in transit between Earth and outer space done in implementation of this Agreement, the MOU’s, and implementing arrangements. It includes, but is not limited to:
   (i) Research, design, development, test, manufacture, assembly, integration, operation, or use of launch or transfer vehicles (for example, the Orbital Maneuvering Vehicle), the Space Station, or a payload, as well as related support equipment and facilities and services;
   (ii) All activities related to ground support, test, training, simulation, or guidance and control equipment, and related facilities or services. Protected Space Operations also includes all activities related to evolution of the Space Station, as provided for in Article 14 of the Intergovernmental Agreement. Protected Space Operations excludes activities on Earth which are conducted on return from the Space Station to develop further a payload’s product or process for use other than for Space Station-related activities in implementation of this Agreement.

(c)(1) Each Partner State agrees to a cross-waiver of liability pursuant to which each Partner State waives all claims against any of the entities or persons listed in paragraphs (c)(1)(i) through (c)(1)(iii) of this section based on damage arising out of Protected Space Operations. This cross-waiver shall apply only if the person, entity, or property causing the damage is involved in Protected Space Operations and the person, entity, or property is damaged by virtue of its involvement in Protected Space Operations. The cross-waiver shall apply to any claims for damage, whatever the legal basis for such claims, including but not limited to delict and tort (including negligence of every degree and kind) and contract, against:
   (i) Another Partner State;
   (ii) A related entity of another Partner State;
   (iii) The employees of any of the entities identified in paragraphs (c)(1)(i) and (c)(1)(ii) of this section.

(2) In addition, each Partner State shall extend the cross-waiver of liability as set forth in paragraph (c)(1) of this section to its own related entities by requiring them, by contract or otherwise, to agree to waive all claims against the entities or persons identified in paragraphs (c)(1)(i) through (c)(1)(iii) of this section.

(3) For avoidance of doubt, this cross-waiver of liability includes a cross-waiver of liability arising from the Liability Convention where the person, entity, or property causing the damage is involved in Protected Space Operations, and the person, entity, or property damaged is damaged by virtue of its involvement in Protected Space Operations.

(4) Notwithstanding the other provisions of this section, this cross-waiver of liability shall not be applicable to:
   (i) Claims between a Partner State and its own related entity or between its own related entities;
   (ii) Claims made by a natural person, his/her estate, survivors, or subrogees for injury or death of such natural person;
§ 1266.103 Cross-waiver of liability during Shuttle operations.

(a) The purpose of this section is to establish a cross-waiver of liability between the parties to Shuttle launch services agreements and to other NASA agreements that involve Shuttle flights, and the parties’ related entities, in the interest of encouraging participation in space exploration, exploitation, and investment. The cross-waiver of liability shall be broadly construed to achieve this objective.

(b) As used in this cross-waiver, the term:

(1) **Party** means a person or entity that signs an agreement involving a Shuttle flight;

(2) **Related Entity** means:

(i) A contractor or subcontractor of a Party at any tier;

(ii) A user or customer of a Party at any tier; or

(iii) A contractor or subcontractor of a user or customer of a Party at any tier.

Contractors and Subcontractors include suppliers of any kind;

(3) **Damage** means:

(i) Bodily injury to, or other impairment of health of, or death of, any person;

(ii) Damage to, loss of, or loss of use of any property;

(iii) Loss of revenue or profits; or

(iv) Other direct, indirect, or consequential damage;

(4) **Payload** means any property to be flown or used on or in the Shuttle; and

(5) **Protected Space Operations** means all Space Shuttle and payload activities on Earth, in outer space, or in transit between Earth and outer space done in implementation of an agreement for Shuttle launch services. Protected Space Operations begin at the signature of the agreement and ends when all activities done in implementation of the agreement are completed. It includes, but is not limited to:

(i) Research, design, development, test, manufacture, assembly, integration, operation, or use of: the Space Shuttle, transfer vehicles, payloads, related support equipment, and facilities and services;

(ii) All activities related to ground support, test, training, simulation, or guidance and control equipment and related facilities or services. Protected Space Operations excludes activities on Earth which are conducted on return from space to develop further a payload’s product or process for use other than for Shuttle-related activities necessary to complete implementation of the agreement.

(c)(1) Each Party agrees to a cross-waiver of liability pursuant to which each Party waives all claims against any of the entities or persons listed in paragraphs (c)(1)(i) through (c)(1)(iv) of this section based on damage arising out of Protected Space Operations. This cross-waiver shall apply only if the person, entity, or property causing the damage is involved in Protected Space Operations and the person, entity, or property damaged is damaged by virtue of its involvement in Protected Space Operations. The cross-waiver shall apply to any claims for damage, whatever the legal basis for such claims, including but not limited to delict and tort (including negligence of every degree and kind) and contract, against:

(i) Another Party;

(ii) Any Party who has signed a NASA agreement that includes a Shuttle flight;

(iii) A related entity of any party in paragraph (c)(1)(i) through (c)(1)(iii) of this section.

(iv) The employees of any of the entities identified in (c)(1)(i) through (c)(1)(iii) of this section.

(2) In addition, each Party shall extend the cross-waiver of liability as set forth in paragraph (c)(1) of this section to its own related entities by requiring them, by contract or otherwise, to agree to waive all claims against the entities or persons identified in paragraphs (c)(1)(i) through (c)(1)(iv) of this section.

(3) For avoidance of doubt, this cross-waiver includes a cross-waiver of liability arising from the Convention on International Liability for Damage Caused by Space Objects, (Mar. 29, 1972, 24 United States Treaties and other
§ 1266.104 Cross-waiver of liability for NASA expendable launch vehicle (ELV) program launches.

(a) The purpose of this section is to establish a cross-waiver of liability between the parties to agreements for NASA ELV program launches, and the parties’ related entities, in the interest of encouraging space exploration and investment. The cross-waiver of liability shall be broadly construed to achieve this objective.

(b) As used in this section, the term:

1. **Party** means a person or entity that signs an agreement involving an ELV launch;

2. **Related Entity** means:
   - (i) A contractor or subcontractor of a Party at any tier;
   - (ii) A user or customer of a Party at any tier; or
   - (iii) a contractor or subcontractor of a user or customer of a Party at any tier. **Contractors** and “Subcontractors” include suppliers of any kind.

3. **Damage** means:
   - (i) Bodily injury to, or other impairment to health of, or death of, any person;
   - (ii) Damage to, loss of, or loss of use of any property;
   - (iii) Loss of revenue or profits; or
   - (iv) Other direct, indirect, or consequential damage;

4. **Payload** means any property to be flown or used on or in an ELV; and

5. **Protected Space Operations** means all expendable launch vehicle and payload activities on Earth, in outer space, or in transit between Earth and outer space in implementation of the agreement. Protected Space Operations begins at the signature of the agreement and ends when all activities done in implementation of the agreement are completed. It includes, but is not limited to:
   - (i) Research, design, development, test, manufacture, assembly, integration, operation, or use of: expendable launch vehicles (ELV), transfer vehicles, payloads, related support equipment, and facilities and services;
   - (ii) All activities related to ground support, test, training, simulation, or guidance and control equipment, and related facilities or services. **Protected Space Operations** excludes activities on Earth which are conducted on return from space to develop further a payload’s product or process for use other than for ELV-related activities necessary to complete implementation of the agreement.

(c)(1) Each Party agrees to a cross-waiver of liability pursuant to which each Party waives all claims against any of the entities or persons listed in paragraphs (c)(1)(i) through (c)(1)(iii) of this section based on damage arising out of Protected Space Operations. This cross-waiver shall apply only if the person, entity, or property causing the damage is involved in Protected Space Operations and the person, entity, or property damaged is damaged by virtue of its involvement in Protected Space Operations.

(4) Notwithstanding the other provisions of this section, this cross-waiver of liability shall not be applicable to:
   - (i) Claims between a Party and its own related entity or between its own related entities;
   - (ii) Claims made by a natural person, his/her estate, survivors, or subrogees for injury or death of such natural person;
   - (iii) Claims for damage caused by willful misconduct;
   - (iv) Intellectual property claims;
   - (v) Contract claims between the Parties based on the express contractual provisions of the agreement;
   - (vi) Claims for damage based on a failure of the Parties or their related entities to flow down the cross-waiver.

(5) Nothing in this section shall be construed to create the basis for a claim or suit where none would otherwise exist.
PART 1271—NEW RESTRICTIONS ON LOBBYING

Subpart A—General

Sec. 1271.100 Conditions on use of funds.
1271.105 Definitions.
1271.110 Certification and disclosure.

Subpart B—Activities by Own Employees

1271.200 Agency and legislative liaison.
1271.205 Professional and technical services.
1271.210 Reporting.

Subpart C—Activities by Other Than Own Employees

1271.300 Professional and technical services.

Subpart D—Penalties and Enforcement

1271.400 Penalties.
1271.405 Penalty procedures.
1271.410 Enforcement.

Subpart E—Exemptions

1271.500 Secretary of Defense.

Subpart F—Agency Reports

1271.600 Semi-annual compilation.
1271.605 Inspector General report.

APPENDIX A TO PART 1271—CERTIFICATION REGARDING LOBBYING
APPENDIX B TO PART 1271—DISCLOSURE FORM TO REPORT LOBBYING

CROSS REFERENCE: See also Office of Management and Budget notice published at 54 FR 52306, December 20, 1989.

Subpart A—General

§ 1271.100 Conditions on use of funds.

(a) No appropriated funds may be expended by the recipient of a Federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract, the making of any Federal
§ 1271.105 Definitions.

For purposes of this part:

(a) Agency, as defined in 5 U.S.C. 552(f), includes Federal executive departments and agencies as well as independent regulatory commissions and Government corporations, as defined in 31 U.S.C. 9101(1).

(b) Covered Federal action means any of the following Federal actions:

(1) The awarding of any Federal contract;

(2) The making of any Federal grant;

(3) The making of any Federal loan;

(4) The entering into of any cooperative agreement; and,

(5) The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

Covered Federal action does not include receiving from an agency a commitment providing for the United States to insure or guarantee a loan. Loan guarantees and loan insurance are addressed independently within this part.

(c) Federal contract means an acquisition contract awarded by an agency, including those subject to the Federal Acquisition Regulation (FAR), and any other acquisition contract for real or personal property or services not subject to the FAR.

(d) Federal cooperative agreement means a cooperative agreement entered into by an agency.

(e) Federal grant means a loan made by an agency. The term does not include loan guarantee or loan insurance.

(f) Indian tribe and tribal organization have the meaning provided in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450B). Alaskan Natives are included under the definitions of Indian tribes in that Act.

(g) Influencing or attempting to influence means making, with the intent to influence, any communication to or appearance before an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.
or any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.

(i) Loan guarantee and loan insurance means an agency’s guarantee or insurance of a loan made by a person.

(j) Local government means a unit of government in a State and, if chartered, established, or otherwise recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.

(k) Officer or employee of an agency includes the following individuals who are employed by an agency:

(1) An individual who is appointed to a position in the Government under title 5, U.S. Code, including a position under a temporary appointment;

(2) A member of the uniformed services as defined in section 101(3), title 37, U.S. Code;

(3) A special Government employee as defined in section 202, title 18, U.S. Code;

(4) An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, title 5, U.S. Code appendix 2.

(l) Person means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(m) Reasonable compensation means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

(n) Reasonable payment means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

(o) Recipient includes all contractors, subcontractors at any tier, and subgrantees at any tier of the recipient of funds received in connection with a Federal contract, grant, loan, or cooperative agreement. The term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(p) Regularly employed means, with respect to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or a commitment providing for the United States to insure or guarantee a loan, an officer or employee who is employed by such person for at least 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract, grant, loan, cooperative agreement, loan insurance commitment, or loan guarantee commitment. An officer or employee who is employed by such person for less than 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.

(q) State means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, and a multi-State, regional, or interstate entity having governmental duties and powers.

§ 1271.110 Certification and disclosure.

(a) Each person shall file a certification, and a disclosure form, if required, with each submission that initiates agency consideration of such person for:

(1) Award of a Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) An award of a Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.
(b) Each person shall file a certification, and a disclosure form, if required, upon receipt by such person of:

(1) A Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) A Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

Unless such person previously filed a certification, and a disclosure form, if required, under paragraph (a) of this section.

c) Each person shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under paragraphs (a) or (b) of this section. An event that materially affects the accuracy of the information reported includes:

(1) A cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

(2) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or,

(3) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.

d) Any person who requests or receives from a person referred to in paragraphs (a) or (b) of this section:

(1) A subcontract exceeding $100,000 at any tier under a Federal contract; or

(2) A subgrant, contract, or subcontract exceeding $100,000 at any tier under a Federal loan; or

(3) A contract or subcontract exceeding $100,000 at any tier under a Federal loan exceeding $150,000; or,

(4) A contract or subcontract exceeding $100,000 at any tier under a Federal cooperative agreement,

Shall file a certification, and a disclosure form, if required, to the next tier above.

e) All disclosure forms, but not certifications, shall be forwarded from tier to tier until received by the person referred to in paragraphs (a) or (b) of this section. That person shall forward all disclosure forms to the agency.

(f) Any certification or disclosure form filed under paragraph (e) of this section shall be treated as a material representation of fact upon which all receiving tiers shall rely. All liability arising from an erroneous representation shall be borne solely by the tier filing that representation and shall not be shared by any tier to which the erroneous representation is forwarded. Submitting an erroneous certification or disclosure constitutes a failure to file the required certification or disclosure, respectively. If a person fails to file a required certification or disclosure, the United States may pursue all available remedies, including those authorized by section 1352, title 31, U.S. Code.

g) For awards and commitments in process prior to December 23, 1989, but not made before that date, certifications shall be required at award or commitment, covering activities occurring between December 23, 1989, and the date of award or commitment. However, for awards and commitments in process prior to the December 23, 1989 effective date of these provisions, but not made before December 23, 1989, disclosure forms shall not be required at time of award or commitment but shall be filed within 30 days.

(h) No reporting is required for an activity paid for with appropriated funds if that activity is allowable under either subpart B or C.

Subpart B—Activities by Own Employees

§ 1271.200 Agency and legislative liaison.

(a) The prohibition on the use of appropriated funds, in §1271.100 (a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.

(b) For purposes of paragraph (a) of this section, providing any information specifically requested by an agency or Congress is allowable at any time.
(c) For purposes of paragraph (a) of this section, the following agency and legislative liaison activities are allowable at any time only where they are not related to a specific solicitation for any covered Federal action:

1. Discussing with an agency (including individual demonstrations) the qualities and characteristics of the person's products or services, conditions or terms of sale, and service capabilities; and,

2. Technical discussions and other activities regarding the application or adaptation of the person's products or services for an agency's use.

(d) For purposes of paragraph (a) of this section, the following agencies and legislative liaison activities are allowable only where they are prior to formal solicitation of any covered Federal action:

1. Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

2. Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and,

3. Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Public Law 95–507 and other subsequent amendments.

(e) Only those activities expressly authorized by this section are allowable under this section.

§ 1271.205 Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §1271.100(a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan, or cooperative agreement.

(b) For purposes of paragraph (a) of this section, “professional and technical services” shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(c) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.
§ 1271.210 Reporting.

No reporting is required with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

Subpart C—Activities by Other Than Own Employees

§ 1271.300 Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §1271.100(a), does not apply in the case of any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action, if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan, or cooperative agreement.

(b) The reporting requirements in §1271.110 (a) and (b) regarding filing a disclosure form by each person, if required, shall not apply with respect to professional or technical services rendered directly in the preparation, submission, or negotiation of any Federal contract, grant, loan, or cooperative agreement.

(c) For purposes of paragraph (a) of this section, “professional and technical services” shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting or a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(d) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.

(e) Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

(f) Only those services expressly authorized by this section are allowable under this section.

Subpart D—Penalties and Enforcement

§ 1271.400 Penalties.

(a) Any person who makes an expenditure prohibited herein shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such expenditure.

(b) Any person who fails to file or amend the disclosure form (see appendix B) to be filed or amended if required herein, shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.
(c) A filing or amended filing on or after the date on which an administrative action for the imposition of a civil penalty is commenced does not prevent the imposition of such civil penalty for a failure occurring before that date. An administrative action is commenced with respect to a failure when an investigating official determines in writing to commence an investigation of an allegation of such failure.

(d) In determining whether to impose a civil penalty, and the amount of any such penalty, by reason of a violation by any person, the agency shall consider the nature, circumstances, extent, and gravity of the violation, the effect on the ability of such person to continue in business, any prior violations by such person, the degree of culpability of such person, the ability of the person to pay the penalty, and such other matters as may be appropriate.

(e) First offenders under paragraphs (a) or (b) of this section shall be subject to a civil penalty of $10,000, absent aggravating circumstances. Second and subsequent offenses by persons shall be subject to an appropriate civil penalty between $10,000 and $100,000, as determined by the agency head or his or her designee.

(f) An imposition of a civil penalty under this section does not prevent the United States from seeking any other remedy that may apply to the same conduct that is the basis for the imposition of such civil penalty.

§ 1271.405 Penalty procedures.
Agencies shall impose and collect civil penalties pursuant to the provisions of the Program Fraud and Civil Remedies Act, 31 U.S.C. sections 3803 (except subsection (c)), 3804, 3805, 3806, 3807, 3808, and 3812, insofar as these provisions are not inconsistent with the requirements herein.

§ 1271.410 Enforcement.
The head of each agency shall take such actions as are necessary to ensure that the provisions herein are vigorously implemented and enforced in that agency.

Subpart E—Exemptions

§ 1271.500 Secretary of Defense.

(a) The Secretary of Defense may exempt, on a case-by-case basis, a covered Federal action from the prohibition whenever the Secretary determines, in writing, that such an exemption is in the national interest. The Secretary shall transmit a copy of each such written exemption to Congress immediately after making such a determination.

(b) The Department of Defense may issue supplemental regulations to implement paragraph (a) of this section.

Subpart F—Agency Reports

§ 1271.600 Semi-annual compilation.

(a) The head of each agency shall collect and compile the disclosure reports (see appendix B) and, on May 31 and November 30 of each year, submit to the Secretary of the Senate and the Clerk of the House of Representatives a report containing a compilation of the information contained in the disclosure reports received during the six-month period ending on March 31 or September 30, respectively, of that year.

(b) The report, including the compilation, shall be available for public inspection 30 days after receipt of the report by the Secretary and the Clerk.

(c) Information that involves intelligence matters shall be reported only to the Select Committee on Intelligence of the Senate, the Permanent Select Committee on Intelligence of the House of Representatives, and the Committees on Appropriations of the Senate and the House of Representatives in accordance with procedures agreed to by such committees. Such information shall not be available for public inspection.

(d) Information that is classified under Executive Order 12356 or any successor order shall be reported only to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives or the Committees on Armed Services of the Senate and the House of
§ 1271.605 Inspector General report.

(a) The Inspector General, or other official as specified in paragraph (b) of this section, of each agency shall prepare and submit to Congress each year, commencing with submission of the President’s Budget in 1991, an evaluation of the compliance of that agency with, and the effectiveness of, the requirements herein. The evaluation may include any recommended changes that may be necessary to strengthen or improve the requirements.

(b) In the case of an agency that does not have an Inspector General, the agency official comparable to an Inspector General shall prepare and submit the annual report, or, if there is no such comparable official, the head of the agency shall prepare and submit the annual report.

(c) The annual report shall be submitted at the same time the agency submits its annual budget justifications to Congress.

(d) The annual report shall include the following: All alleged violations relating to the agency’s covered Federal actions during the year covered by the report, the actions taken by the head of the agency in the year covered by the report with respect to those alleged violations and alleged violations in previous years, and the amounts of all civil penalties imposed by the agency in the year covered by the report.

APPENDIX A TO PART 1271—CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, “Disclosure Form to Report Lobbying,” in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

420
Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, “Disclosure Form to Report Lobbying,” in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.
APPENDIX B TO PART 1271—DISCLOSURE FORM TO REPORT LOBBYING

DISCLOSURE OF LOBBYING ACTIVITIES
Complete this form to disclose lobbying activities pursuant to 31 U.S.C. 1352
(See reverse for public burden disclosure.)

Standard Form - 111
INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subcontractor or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a follow-up report caused by the material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subcontractor recipient. Identify the tier of the subcontractor, e.g., the first subcontractor of the prime is the 1st tier. Subcontracts include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subcontractor", then enter the full name, address, city, state, and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.
   (b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a).
   (c) Enter Last Name, First Name, and Middle Initial (MI).
11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the office(s), employee(s), or Member(s) of Congress that were contacted.
15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.
16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.
PART 1273—UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS TO STATE AND LOCAL GOVERNMENTS

Subpart A—General

Sec. 1273.1 Purpose and scope of this part.
1273.2 Scope of subpart.
1273.3 Definitions.
1273.4 Applicability.
1273.5 Effect on other issuances.
1273.6 Additions and exceptions.

Subpart B—Pre-Award Requirements

1273.10 Forms for applying for grants.
1273.11 State plans.
1273.12 Special grant or subgrant conditions for “high-risk” grantees.

Subpart C—Post-Award Requirements

FINANCIAL ADMINISTRATION

1273.20 Standards for financial management systems.
1273.21 Payment.
1273.22 Allowable costs.
1273.23 Period of availability of funds.
1273.24 Matching or cost sharing.
1273.25 Program Income.
1273.26 Non-Federal audit.

CHANGES, PROPERTY, AND SUBAWARDS

1273.30 Changes.
1273.31 Real property.
1273.32 Equipment.
1273.33 Supplies.
1273.34 Copyrights.
1273.35 Subawards to debarred and suspended parties.
1273.36 Procurement.
1273.37 Subgrants.

REPORTS, RECORDS, RETENTION, AND ENFORCEMENT

1273.40 Monitoring and reporting program performance.
1273.41 Financial reporting.
1273.42 Retention and access requirements for records.
1273.43 Enforcement.
1273.44 Termination for convenience.

Subpart D—After-the-Grant Requirements

1273.50 Closeout.
1273.51 Later disallowances and adjustments.
1273.52 Collection of amounts due.

Subpart E—Entitlements [Reserved]
§ 1273.3

from the unit acquisition cost in accordance with the grantee’s regular accounting practices.

Administrative requirements mean those matters common to grants in general, such as financial management, kinds and frequency of reports, and retention of records. These are distinguished from “programmatic” requirements, which concern matters that can be treated only on a program-by-program or grant-by-grant basis, such as kinds of activities that can be supported by grants under a particular program.

Awarding agency means:
(1) With respect to a grant, the Federal agency, and
(2) With respect to a subgrant, the party that awarded the subgrant.

Cash contributions means the grantee’s cash outlay, including the outlay of money contributed to the grantee or subgrantee by other public agencies and institutions, and private organizations and individuals. When authorized by Federal legislation, Federal funds received from other assistance agreements may be considered as grantee or subgrantee cash contributions.

Contract means (except as used in the definitions for “grant” and “subgrant” in this section and except where qualified by “Federal”) a procurement contract under a grant or subgrant, and means a procurement subcontract under a contract.

Cost sharing or matching means the value of the third party in-kind contributions and the portion of the costs of a federally assisted project or program not borne by the Federal Government.

Cost-type contract means a contract or subcontract under a grant in which the contractor or subcontractor is paid on the basis of the costs it incurs, with or without a fee.

Equipment means tangible, non-expendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. A grantee may use its own definition of equipment provided that such definition would at least include all equipment defined above.

Expenditure report means:
(1) For nonconstruction grants, the SF–269 “Financial Status Report” (or other equivalent report);
(2) For construction grants, the SF–271 “Outlay Report and Request for Reimbursement” (or other equivalent report).

Federally recognized Indian tribal government means the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in section 3 of the Alaska Native Claims Settlement Act, 85 Stat. 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs.

Government means a State or local government or a federally recognized Indian tribal government.

Grant means an award of financial assistance, including cooperative agreements, in the form of money, or property in lieu of money, by the Federal Government to an eligible grantee. The term does not include technical assistance which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, interest subsidies, insurance, or direct appropriations. Also, the term does not include assistance, such as a fellowship or other lump sum award, which the grantee is not required to account for.

Grantee means the government to which a grant is awarded and which is accountable for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant award document.

Local government means a county, municipality, city, town, township, local public authority (including any public and Indian housing agency under the United States Housing Act of 1937) school district, special district, intrastate district, council of governments (whether or not incorporated as a nonprofit corporation under state law), any other regional or interstate government entity, or any agency or instrumentality of a local government.

Obligations means the amounts of orders placed, contracts and subcontracts awarded, goods and services received,
and similar transactions during a given period that will require payment by
the grantee during the same or a future period.

OMB means the United States Office of Management and Budget.

Outlays (expenditures) mean charges made to the project or program. They
may be reported on a cash or accrual basis. For reports prepared on a cash
basis, outlays are the sum of actual cash disbursement for direct charges
for goods and services, the amount of indirect expense incurred, the value of
in-kind contributions applied, and the amount of cash advances and payments
made to contractors and subgrantees. For reports prepared on an accrued ex-
penditure basis, outlays are the sum of actual cash disbursements, the amount
of indirect expense incurred, the value of in-kind contributions applied, and
the new increase (or decrease) in the amounts owed by the grantee for goods
and other property received, for services performed by employees, contractors,
subgrantees, subcontractors, and other payees, and other amounts be-
coming owed under programs for which no current services or performance are
required, such as annuities, insurance claims, and other benefit payments.

Percentage of completion method refers to a system under which payments are
made for construction work according to the percentage of completion of the
work, rather than to the grantee’s cost incurred.

Prior approval means documentation evidencing consent prior to incurring
specific cost.

Real property means land, including land improvements, structures and ap-
purtenances thereto, excluding mov-
able machinery and equipment.

Share, when referring to the awarding agency’s portion of real property, equip-
ment or supplies, means the same percentage as the awarding agency’s
portion of the acquiring party’s total costs under the grant to which the ac-
quision cost of the property was charged. Only costs are to be counted—
not the value of third-party in-kind contributions.

State means any of the several States of the United States, the District of
Columbia, the Commonwealth of Puerto Rico, any territory or possession of
the United States, or any agency or in-
strumentality of a State exclusive of local governments. The term does not
include any public and Indian housing agency under United States Housing
Act of 1937.

Subgrant means an award of financial assistance in the form of money, or
property in lieu of money, made under a grant by a grantee to an eligible sub-
grantee. The term includes financial assistance when provided by contrac-
tual legal agreement, but does not in-
clude procurement purchases, nor does it include any form of assistance which
is excluded from the definition of
“grant” in this subpart.

Subgrantee means the government or other legal entity to which a subgrant
is awarded and which is accountable to
the grantee for the use of the funds provided.

Supplies means all tangible personal property other than “equipment” as
defined in this part.

Suspension means depending on the
case:

(1) Temporary withdrawal of the au-
thority to obligate grant funds pending
corrective action by the grantee or
subgrantee or a decision to terminate
the grant; or

(2) An action taken by a suspending
official in accordance with agency reg-
ulations implementing O.E. 12549 to
immediately exclude a person from
participating in grant transactions for
a period, pending completion of an in-
vestigation and such legal or debar-
ment proceedings as may ensue.

Termination means permanent with-
drawal of the authority to obligate pre-
viously-awarded grant funds before
that authority would otherwise expire.
It also means the voluntary relinquish-
ment of that authority by the grantee
or subgrantee. “Termination” does not
include:

(1) Withdrawal of funds awarded on
the basis of the grantee’s underesti-
mate of the unobligated balance in a
prior period;

(2) Withdrawal of the unobligated
balance as of the expiration of a grant;

(3) Refusal to extend a grant or
award additional funds, to make a com-
peting or noncompeting continuation,
renewal, extension, or supplemental
award; or
§ 1273.4 Applicability.

(a) General. Subparts A through D of this part apply to all grants and subgrants to governments, except where inconsistent with Federal statutes or with regulations authorized in accordance with the exception provision of §1273.6 or:

1. Grants and subgrants to State and local institutions of higher education or State and local hospitals.

2. The block grants authorized by the Omnibus Budget Reconciliation Act of 1981 (Community Services; Preventive Health and Health Services; Alcohol, Drug Abuse, and Mental Health Services; Maternal and Child Health Services; Social Services; Low-Income Home Energy Assistance; States' Program of Community Development Block Grants for Small Cities; and Elementary and Secondary Education other than programs administered by the Secretary of Education under Title V, Subtitle D, Chapter 2, Section 583—the Secretary’s discretionary grant program) and titles I–III of the Job Training Partnership Act of 1982 and under the Public Health Services Act (Section 1921), Alcohol and Drug Abuse Treatment and Rehabilitation Block Grant and Part C of title V, Mental Health Service for the Homeless Block Grant).

3. Entitlement grants to carry out the following programs of the Social Security Act:

(i) Aid to Needy Families with Dependent Children (Title IV–A of the Act, not including the Work Incentive Program (WIN) authorized by section 402(a)(19)(G); HHS grants for WIN are subject to this part);

(ii) Child Support Enforcement and Establishment of Paternity (Title IV–D of the Act);

(iii) Foster Care and Adoption Assistance (Title IV–E of the Act);

(iv) Aid to the Aged, Blind, and Disabled (Titles I, X, XIV, and XVI–AABD of the Act); and

(v) Medical Assistance (Medicaid) (Title XIX of the Act) not including the State Medicaid Fraud Control program authorized by section 1903(a)(6)(B).

4. Entitlement grants under the following programs of The National School Lunch Act:

(i) School Lunch (section 4 of the Act),

(ii) Commodity Assistance (section 6 of the Act),

(iii) Special Meal Assistance (section 11 of the Act),

(iv) Summer Food Service for Children (section 13 of the Act), and

(v) Child Care Food Program (section 17 of the Act).

5. Entitlement grants under the following programs of The Child Nutrition Act of 1966:

(i) Special Milk (section 3 of the Act), and

(ii) School Breakfast (section 4 of the Act).

7. A grant for an experimental, pilot, or demonstration project that is also supported by a grant listed in paragraph (a)(3) of this section;

8. Grant funds awarded under subsection 412(e) of the Immigration and Nationality Act (8 U.S.C. 1522(e)) and...
subsection 501(a) of the Refugee Education Assistance Act of 1980 (Pub. L. 96–422, 94 Stat. 1809), for cash assistance, medical assistance, and supplemental security income benefits to refugees and entrants and the administrative costs of providing the assistance and benefits;

(9) Grants to local education agencies under 20 U.S.C. 236 through 241–1(a), and 242 through 244 (portions of the Impact Aid program), except for 20 U.S.C. 238(d)(2)(c) and 240(f) (Entitlement Increase for Handicapped Children); and

(10) Payments under the Veterans Administration’s State Home Per Diem Program (38 U.S.C. 641(a)).

(b) Entitlement programs. Entitlement programs enumerated above in §1273.4(a)(3) through (8) are subject to subpart E.

§1273.5 Effect on other issuances.

All other grants administration provisions of codified program regulations, program manuals, handbooks and other nonregulatory materials which are inconsistent with this part are superseded, except to the extent they are required by statute, or authorized in accordance with the exception provision in §1273.6.

§1273.6 Additions and exceptions.

(a) For classes of grants and grantees subject to this part, Federal agencies may not impose additional administrative requirements except in codified regulations published in the FEDERAL REGISTER.

(b) Exceptions for classes of grants or grantees may be authorized only by OMB.

(c) Exceptions on a case-by-case basis and for subgrantees may be authorized by the affected Federal agencies.

Subpart B—Pre-Award Requirements

§1273.10 Forms for applying for grants.

(a) Scope. (1) This section prescribes forms and instructions to be used by governmental organizations (except hospitals and institutions of higher education operated by a government) in applying for grants. This section is not applicable, however, to formula grant programs which do not require applicants to apply for funds on a project basis.

(2) This section applies only to applications to Federal agencies for grants, and is not required to be applied by grantees in dealing with applicants for subgrants. However, grantees are encouraged to avoid more detailed or burdensome application requirements for subgrants.

(b) Authorized forms and instructions for governmental organizations. (1) In applying for grants, applicants shall only use standard application forms or those prescribed by the granting agency with the approval of OMB under the Paperwork Reduction Act of 1980.

(2) Applicants are not required to submit more than the original and two copies of preapplications or applications.

(3) Applicants must follow all applicable instructions that bear OMB clearance numbers. Federal agencies may specify and describe the programs, functions, or activities that will be used to plan, budget, and evaluate the work under a grant. Other supplementary instructions may be issued only with the approval of OMB to the extent required under the Paperwork Reduction Act of 1980. For any standard form, except the SF–424 factsheet, Federal agencies may shade out or instruct the applicant to disregard any line item that is not needed.

(4) When a grantee applies for additional funding (such as a continuation or supplemental award) or amends a previously submitted application, only the affected pages need be submitted. Previously submitted pages with information that is still current need not be resubmitted.

§1273.11 State plans.

(a) Scope. The statutes for some programs require States to submit plans before receiving grants. Under regulations implementing Executive Order 12372, “Intergovernmental Review of Federal Programs,” States are allowed to simplify, consolidate and substitute plans. This section contains additional provisions for plans that are subject to regulations implementing the Executive Order.
§ 1273.12

(b) Requirements. A State need meet only Federal administrative or programmatic requirements for a plan that are in statutes or codified regulations.

c) Assurances. In each plan the State will include an assurance that the State shall comply with all applicable Federal statutes and regulations in effect with respect to the periods for which it receives grant funding. For this assurance and other assurances required in the plan, the State may:

(1) Cite by number the statutory or regulatory provisions requiring the assurances and affirm that it gives the assurances required by those provisions,

(2) Repeat the assurance language in the statutes or regulations, or

(3) Develop its own language to the extent permitted by law.

d) Amendments. A State will amend a plan whenever necessary to reflect:

(1) New or revised Federal statutes or regulations; or

(2) A material change in any State law, organization, policy, or State agency operation. The State will obtain approval for the amendment and its effective date but need submit for approval only the amended portions of the plan.

§ 1273.12 Special grant or subgrant conditions for “high-risk” grantees.

(a) A grantee or subgrantee may be considered “high risk” if an awarding agency determines that a grantee or subgrantee:

(1) Has a history of unsatisfactory performance, or

(2) Is not financially stable, or

(3) Has a management system which does not meet the management standards set forth in this part, or

(4) Has not conformed to terms and conditions of previous awards, or

(5) Is otherwise not responsible; and if the awarding agency determines that an award will be made, special conditions and/or restrictions shall correspond to the high risk condition and shall be included in the award.

(b) Special conditions or restrictions may include:

(1) Payment on a reimbursement basis;

(2) Withholding authority to proceed to the next phase until receipt of evidence of acceptable performance within a given funding period;

(3) Requiring additional, more detailed financial reports;

(4) Additional project monitoring;

(5) Requiring the grantee or subgrantee to obtain technical or management assistance; or

(6) Establishing additional prior approvals.

c) If an awarding agency decides to impose such conditions, the awarding official will notify the grantee or subgrantee as early as possible, in writing, of:

(1) The nature of the special conditions/restrictions;

(2) The reason(s) for imposing them;

(3) The corrective actions which must be taken before they will be removed and the time allowed for completing the corrective actions; and

(4) The method of requesting reconsideration of the conditions/restrictions imposed.

Subpart C—Post-Award Requirements

§ 1273.20 Standards for financial management systems.

(a) A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its subgrantees and cost-type contractors, must be sufficient to—

(1) Permit preparation of reports required by this part and the statutes authorizing the grant, and

(2) Permit the tracing of funds to a level of expenditures adequate to establish that such funds have not been used in violation of the restrictions and prohibitions of applicable statutes.

(b) The financial management systems of other grantees and subgrantees must meet the following standards:

(1) Financial reporting. Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance
with the financial reporting requirements of the grant or subgrant.

(2) **Accounting records.** Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially-assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.

(3) **Internal control.** Effective control and accountability must be maintained for all grant and subgrant cash, real and personal property, and other assets. Grantees and subgrantees must adequately safeguard all such property and must assure that it is used solely for authorized purposes.

(4) **Budget control.** Actual expenditures or outlays must be compared with budgeted amounts for each grant or subgrant. Financial information must be related to performance or productivity data, including the development of unit cost information whenever appropriate or specifically required in the grant or subgrant agreement. If unit cost data are required, estimates based on available documentation will be accepted whenever possible.

(5) **Allowable cost.** Applicable OMB cost principles, agency program regulations, and the terms of grant and subgrant agreements will be followed in determining the reasonableness, allowability, and allocability of costs.

(6) **Source documentation.** Accounting records must be supported by such source documentation as cancelled checks, paid bills, payrolls, time and attendance records, contract and subgrant award documents, etc.

(7) **Cash management.** Procedures for minimizing the time elapsing between the transfer of funds from the U.S. Treasury and disbursement by grantees and subgrantees must be followed whenever advance payment procedures are used. Grantees must establish reasonable procedures to ensure the receipt of reports on subgrantees’ cash balances and cash disbursements in sufficient time to enable them to prepare complete and accurate cash transactions reports to the awarding agency. When advances are made by letter-of-credit or electronic transfer of funds methods, the grantee must make drawdowns as close as possible to the time of making disbursements. Grantees must monitor cash drawdowns by their subgrantees to assure that they conform substantially to the same standards of timing and amount as apply to advances to the grantees.

(c) An awarding agency may review the adequacy of the financial management system of any applicant for financial assistance as part of a preaward review or at any time subsequent to award.

§ 1273.21 Payment.

(a) **Scope.** This section prescribes the basic standard and the methods under which a Federal agency will make payments to grantees, and grantees will make payments to subgrantees and contractors.

(b) **Basic standard.** Methods and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee.

(c) **Advances.** Grantees and subgrantees shall be paid in advance, provided they maintain or demonstrate the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of the funds and their disbursement by the grantee or subgrantee.

(d) **Reimbursement.** Reimbursement shall be the preferred method when the requirements in paragraph (c) of this section are not met. Grantees and subgrantees may also be paid by reimbursement for any construction grant. Except as otherwise specified in regulations, Federal agencies shall not use the percentage of completion method to pay construction grants. The grantee or subgrantee may use that method to pay its construction contractor, and if it does, the awarding agency’s payments to the grantee or subgrantee will be based on the grantee’s or subgrantee’s actual rate of disbursement.

(e) **Working capital advances.** If a grantee cannot meet the criteria for
§ 1273.22 Allowable costs.

(a) Limitation on use of funds. Grant funds may be used only for:

(1) The allowable costs of the grantees, subgrantees and cost-type contractors, including allowable costs in the form of payments to fixed-price contractors; and

(2) Reasonable fees or profit to cost-type contractors but not any fee or profit (or other increment above allowable costs) to the grantee or subgrantee.

(b) Applicable cost principles. For each kind of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with the cost principles applicable to the organization incurring the costs. The following chart lists the kinds of organizations and the applicable cost principles.

advance payments described in paragraph (c) of this section, and the Federal agency has determined that reimbursement is not feasible because the grantee lacks sufficient working capital, the awarding agency may provide cash on a working capital advance basis. Under this procedure the awarding agency shall advance cash to the grantee to cover its estimated disbursement needs for an initial period generally geared to the grantee’s disbursing cycle. Thereafter, the awarding agency shall reimburse the grantee for its actual cash disbursements. The working capital advance method of payment shall not be used by grantees or subgrantees if the reason for using such method is the unwillingness or inability of the grantee to provide timely advances to the subgrantee to meet the subgrantee’s actual cash disbursements.

(f) Effect of program income, refunds, and audit recoveries on payment. (1) Grantees and subgrantees shall disburse repayments to and interest earned on a revolving fund before requesting additional cash payments for the same activity.

(2) Except as provided in paragraph (f)(1) of this section, grantees and subgrantees shall disburse program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash payments.

(g) Withholding payments. (1) Unless otherwise required by Federal statute, awarding agencies shall not withhold payments for proper charges incurred by grantees or subgrantees unless—

(i) The grantee or subgrantee has failed to comply with grant award conditions or

(ii) The grantee or subgrantee is indebted to the United States.

(2) Cash withheld for failure to comply with grant award condition, but without suspension of the grant, shall be released to the grantee upon subsequent compliance. When a grant is suspended, payment adjustments will be made in accordance with §1273.43(c).

(3) A Federal agency shall not make payment to grantees or subgrantees from payment to contractors to assure satisfactory completion of work. Payments shall be made by the Federal agency when the grantees or subgrantees actually disburse the withheld funds to the contractors or to escrow accounts established to assure satisfactory completion of work.

(h) Cash depositories. (1) Consistent with the national goal of expanding the opportunities for minority business enterprises, grantees and subgrantees are encouraged to use minority banks (a bank which is owned at least 50 percent by minority group members). A list of minority owned banks can be obtained from the Minority Business Development Agency, Department of Commerce, Washington, DC 20230.

(2) A grantee or subgrantee shall maintain a separate bank account only when required by Federal-State agreement.

(i) Interest earned on advances. Except for interest earned on advances of funds exempt under the Intergovernmental Cooperation Act (31 U.S.C. 6501 et seq.) and the Indian Self-Determination Act (23 U.S.C. 450), grantees and subgrantees shall promptly, but at least quarterly, remit interest earned on advances to the Federal agency. The grantee or subgrantee may keep interest amounts up to $100 per year for administrative expenses.
§ 1273.23 Period of availability of funds.

(a) General. Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

(b) Liquidation of obligations. A grantee must liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Financial Status Report (SF-269). The Federal agency may extend this deadline at the request of the grantee.

§ 1273.24 Matching or cost sharing.

(a) Basic rule: Costs and contributions acceptable. With the qualifications and exceptions listed in paragraph (b) of this section, a matching or cost sharing requirement may be satisfied by either or both of the following:

1. Allowable costs incurred by the grantee, subgrantee or a cost-type contractor under the assistance agreement. This includes allowable costs borne by non-Federal grants or by others cash donations from non-Federal third parties.

2. The value of third party in-kind contributions applicable to the period to which the cost sharing or matching requirements applies.

(b) Qualifications and exceptions—(1) Costs borne by other Federal grant agreements. Except as provided by Federal statute, a cost sharing or matching requirement may not be met by costs borne by another Federal grant. This prohibition does not apply to income earned by a grantee or subgrantee from a contract awarded under another Federal grant.

(2) General revenue sharing. For the purpose of this section, general revenue sharing funds distributed under 31 U.S.C. 6702 are not considered Federal grant funds.

(3) Cost or contributions counted towards other Federal costs-sharing requirements. Neither costs nor the values of third party in-kind contributions may count towards satisfying a cost sharing or matching requirement of a grant agreement if they have been or will be counted towards satisfying a cost sharing or matching requirement of another Federal grant agreement, a Federal procurement contract, or any other award of Federal funds.

(4) Costs financed by program income. Costs financed by program income, as defined in §1273.25, shall not count towards satisfying a cost sharing or matching requirement unless they are expressly permitted in the terms of the assistance agreement. This use of general program income is described in §1273.25(g).

(5) Services or property financed by income earned by contractors. Contractors under a grant may earn income from the activities carried out under the contract in addition to the amounts earned from the party awarding the contract. No costs of services or property supported by this income may count toward satisfying a cost sharing or matching requirement unless other provisions of the grant agreement expressly permit this kind of income to be used to meet the requirement.

(6) Records. Costs and third party in-kind contributions counting towards satisfying a cost sharing or matching requirement must be verifiable from the records of grantees and subgrantee or cost-type contractors. These records must show how the value placed on third party in-kind contributions was
§ 1273.24 14 CFR Ch. V (1–1–02 Edition)

derived. To the extent feasible, volunteer services will be supported by the same methods that the organization uses to support the allocability of regular personnel costs.

(7) Special standards for third party in-kind contributions. (i) Third party in-kind contributions count towards satisfying a cost sharing or matching requirement only where, if the party receiving the contributions were to pay for them, the payments would be allowable costs.

(ii) Some third party in-kind contributions are goods and services that, if the grantee, subgrantee, or contractor receiving the contribution had to pay for them, the payments would have been an indirect costs. Costs sharing or matching credit for such contributions shall be given only if the grantee, subgrantee, or contractor has established, along with its regular indirect cost rate, a special rate for allocating to individual projects or programs the value of the contributions.

(iii) A third party in-kind contribution to a fixed-price contract may count towards satisfying a cost sharing or matching requirement only if it results in:

(A) An increase in the services or property provided under the contract (without additional cost to the grantee or subgrantee) or

(B) A cost savings to the grantee or subgrantee.

(iv) The values placed on third party in-kind contributions for cost sharing or matching purposes will conform to the rules in the succeeding sections of this part. If a third party in-kind contribution is a type not treated in those sections, the value placed upon it shall be fair and reasonable.

(c) Valuation of donated services—(1) Volunteer services. Unpaid services provided to a grantee or subgrantee by individuals will be valued at rates consistent with those ordinarily paid for similar work in the grantee’s or subgrantee’s organization. If the grantee or subgrantee does not have employees performing similar work, the rates will be consistent with those ordinarily paid by other employers for similar work in the same labor market. In either case, a reasonable amount for fringe benefits may be included in the valuation.

(2) Employees of other organizations. When an employer other than a grantee, subgrantee, or cost-type contractor furnishes free of charge the services of an employee in the employee’s normal line of work, the services will be valued at the employee’s regular rate of pay exclusive of the employee’s fringe benefits and overhead costs. If the services are in a different line of work, paragraph (c)(1) of this section applies.

(d) Valuation of third party donated supplies and loaned equipment or space. (1) If a third party donates supplies, the contribution will be valued at the market value of the supplies at the time of donation.

(2) If a third party donates the use of equipment or space in a building but retains title, the contribution will be valued at the fair rental rate of the equipment or space.

(e) Valuation of third party donated equipment, buildings, and land. If a third party donates equipment, buildings, or land, and title passes to a grantee or subgrantee, the treatment of the donated property will depend upon the purpose of the grant or subgrant, as follows:

(1) Awards for capital expenditures. If the purpose of the grant or subgrant is to assist the grantee or subgrantee in the acquisition of property, the market value of that property at the time of donation may be counted as cost sharing or matching.

(2) Other awards. If assisting in the acquisition of property is not the purpose of the grant or subgrant, paragraphs (e)(2)(i) and (ii) of this section apply:

(i) If approval is obtained from the awarding agency, the market value at the time of donation of the donated equipment or buildings and the fair rental rate of the donated land may be counted as cost sharing or matching.

(ii) If the grant agreement requires that the approval be obtained from the Federal agency as well as the grantee. In all cases, approval may be given only if a purchase of the equipment or rental of the land would be approved as an allowable direct cost. If any part of the donated property was acquired
with Federal funds, only the non-federal share of the property may be counted as cost-sharing or matching.

(ii) If approval is not obtained under paragraph (e)(2)(i) of this section, no amount may be counted for donated land, and only depreciation or use allowances may be counted for donated equipment and buildings. The depreciation or use allowances for this property are not treated as third party in-kind contributions. Instead, they are treated as costs incurred by the grantee or subgrantee. They are computed and allocated (usually as indirect costs) in accordance with the cost principles specified in §1273.22, in the same way as depreciation or use allowances for purchased equipment and buildings. The amount of depreciation or use allowances for donated equipment and buildings is based on the property’s market value at the time it was donated.

(f) Valuation of grantee or subgrantee donated real property for construction/acquisition. If a grantee or subgrantee donates real property for a construction or facilities acquisition project, the current market value of that property may be counted as cost sharing or matching. If any part of the donated property was acquired with Federal funds, only the non-federal share of the property may be counted as cost sharing or matching.

(g) Appraisal of real property. In some cases under paragraphs (d), (e) and (f) of this section, it will be necessary to establish the market value of land or a building or the fair rental rate of land or of space in a building. In these cases, the Federal agency may require the market value or fair rental value be set by an independent appraiser, and that the value or rate be certified by the grantee. This requirement will also be imposed by the grantee on subgrantees.

§ 1273.25 Program income.

(a) General. Grantees are encouraged to earn income to defray program costs. Program income includes income from fees for services performed, from the use or rental of real or personal property acquired with grant funds, from the sale of commodities or items fabricated under a grant agreement, and from payments of principal and interest on loans made with grant funds. Except as otherwise provided in regulations of the Federal agency, program income does not include interest on grant funds, rebates, credits, discounts, refunds, etc. and interest earned on any of them.

(b) Definition of program income. Program income means gross income received by the grantee or subgrantee directly generated by a grant supported activity, or earned only as a result of the grant agreement during the grant period. “During the grant period” is the time between the effective date of the award and the ending date of the award reflected in the final financial report.

(c) Cost of generating program income. If authorized by Federal regulations or the grant agreement, costs incident to the generation of program income may be deducted from gross income to determine program income.

(d) Governmental revenues. Taxes, special assessments, levies, fines, and other such revenues raised by a grantee or subgrantee are not program income unless the revenues are specifically identified in the grant agreement or Federal agency regulations as program income.

(e) Royalties. Income from royalties and license fees for copyrighted material, patents, and inventions developed by a grantee or subgrantee is program income only if the revenues are specifically identified in the grant agreement or Federal agency regulations as program income. (See §1273.34).

(f) Property. Proceeds from the sale of real property or equipment will be handled in accordance with the requirements of §§1273.31 and 1273.32.

(g) Use of program income. Program income shall be deducted from outlays which may be both Federal and non-Federal as described below, unless the Federal agency regulations or the grant agreement specify another alternative (or a combination of the alternatives). In specifying alternatives, the Federal agency may distinguish between income earned by the grantee and income earned by subgrantees and between the sources, kinds, or amounts of income. When Federal agencies authorize the alternatives in paragraphs (g)(2) and (3) of this section, program
§ 1273.26 Non-Federal audit.

(a) Basic rule. Grantees and subgrantees are responsible for obtaining audits in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. 7501–7507) and revised OMB Circular A-133, “Audits of States, Local Governments, and Non-Profit Organizations.” The audits shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial audits.

(b) Subgrantees. State or local governments, as those terms are defined for purposes of the Single Audit Act Amendments of 1996, that provide Federal awards to a subgrantee, which expends $300,000 or more in Federal awards in a fiscal year, shall:

(1) Determine whether State or local subgrantees have met the audit requirements of the Act and whether subgrantees covered by OMB Circular A-110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, have met the audit requirements of the Act. Commercial contractors (private for-profit and private and governmental organizations) providing goods and services to State and local governments are not required to have a single audit performed. State and local governments should use their own procedures to ensure that the contractor has complied with laws and regulations affecting the expenditure of Federal funds;

(2) Determine whether the subgrantee spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subgrantee made in accordance with the Act, Circular A-110, or through other means (e.g., program reviews) if the subgrantee has not had such an audit;

(3) Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instances of noncompliance with Federal laws and regulations;

(4) Consider whether subgrantee auditors necessitate adjustment of the grantee’s own records; and

(5) Require each subgrantee to permit independent auditors to have access to the records and financial statements.

(c) Auditor selection. In arranging for audit services, §1273.36 shall be followed.

written approval of the awarding agency.

(b) Relation to cost principles. The applicable cost principles (see §1273.22) contain requirements for prior approval of certain types of costs. Except where waived, those requirements apply to all grants and subgrants even if paragraphs (c) through (f) of this section do not.

(c) Budget changes—(1) Nonconstruction projects. Except as stated in other regulations or an award document, grantees or subgrantees shall obtain the prior approval of the awarding agency whenever any of the following changes is anticipated under a nonconstruction award:

(i) Any revision which would result in the need for additional funding.

(ii) Unless waived by the awarding agency, cumulative transfers among direct cost categories, or, if applicable, among separately budgeted programs, projects, functions, or activities which exceed or are expected to exceed ten percent of the current total approved budget, whenever the awarding agency’s share exceeds $100,000.

(iii) Transfer of funds allotted for training allowances (i.e., from direct payments to trainees to other expense categories).

(2) Construction projects. Grantees and subgrantees shall obtain prior written approval for any budget revision which would result in the need for additional funds.

(3) Combined construction and nonconstruction projects. When a grant or subgrant provides funding for both construction and nonconstruction activities, the grantee or subgrantee must obtain prior written approval from the awarding agency before making any fund or budget transfer from nonconstruction to construction or vice versa.

(d) Programmatic changes. Grantees or subgrantees must obtain the prior approval of the awarding agency whenever any of the following actions is anticipated:

(1) Any revision of the scope or objectives of the project (regardless of whether there is an associated budget revision requiring prior approval).

(2) Need to extend the period of availability of funds.

(3) Changes in key persons in cases where specified in an application or a grant award. In research projects, a change in the project director or principal investigator shall always require approval unless waived by the awarding agency.

(4) Under nonconstruction projects, contracting out, subgranting (if authorized by law) or otherwise obtaining the services of a third party to perform activities which are central to the purposes of the award. This approval requirement is in addition to the approval requirements of §1273.36 but does not apply to the procurement of equipment, supplies, and general support services.

(e) Additional prior approval requirements. The awarding agency may not require prior approval for any budget revision which is not described in paragraph (c) of this section.

(f) Requesting prior approval. (1) A request for prior approval of any budget revision will be in the same budget format the grantee used in its application and shall be accompanied by a narrative justification for the proposed revision.

(2) A request for a prior approval under the applicable Federal cost principles (see §1273.22) may be made by letter.

(3) A request by a subgrantee for prior approval will be addressed in writing to the grantee. The grantee will promptly review such request and either approve or disapprove the request in writing. A grantee will not approve any budget or project revision which is inconsistent with the purpose or terms and conditions of the Federal grant to the grantee. If the revision, requested by the subgrantee, would result in a change to the grantee’s approved project which requires Federal prior approval, the grantee will obtain the Federal agency’s approval before approving the subgrantee’s request.

§ 1273.31 Real property.

(a) Title. Subject to the obligations and conditions set forth in this section, title to real property acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.
§ 1273.32 Use. Except as otherwise provided by Federal statutes, real property will be used for the originally authorized purposes as long as needed for that purpose, and the grantee or subgrantee shall not dispose of or encumber its title or other interests.

(c) Disposition. When real property is no longer needed for the originally authorized purpose, the grantee or subgrantee will request disposition instructions from the awarding agency. The instructions will provide for one of the following alternatives:

(1) Retention of title. Retain after compensating the awarding agency. The amount paid to the awarding agency will be computed by applying the awarding agency’s percentage of participation in the cost of the original purchase to the fair market value of the property. However, in those situations where a grantee or subgrantee is disposing of real property acquired with grant funds and acquiring replacement real property under the same program, the net proceeds from the disposition may be used as an offset to the cost of the replacement property.

(2) Sale of property. Sell the property and compensate the awarding agency. The amount due to the awarding agency will be calculated by applying the awarding agency’s percentage of participation in the cost of the original purchase to the proceeds of the sale after deduction of any actual and reasonable selling and fixing-up expenses. If the grant is still active, the net proceeds from sale may be offset against the original cost of the property. When a grantee or subgrantee is directed to sell property, sales procedures shall be followed that provide for competition to the extent practicable and result in the highest possible return.

(3) Transfer of title. Transfer title to the awarding agency or to a third-party designated/approved by the awarding agency. The grantee or subgrantee shall be paid an amount calculated by applying the grantee or subgrantee’s percentage of participation in the purchase of the real property to the current fair market value of the property.

§ 1273.32 Equipment.

(a) Title. Subject to the obligations and conditions set forth in this section, title to equipment acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) States. A State will use, manage, and dispose of equipment acquired under a grant by the State in accordance with State laws and procedures. Other grantees and subgrantees will follow paragraphs (c) through (e) of this section.

(c) Use. (1) Equipment shall be used by the grantee or subgrantee in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original program or project, the equipment may be used in other activities currently or previously supported by a Federal agency.

(2) The grantee or subgrantee shall also make equipment available for use on other projects or programs currently or previously supported by the Federal Government, providing such use will not interfere with the work on the projects or program for which it was originally acquired. First preference for other use shall be given to other programs or projects supported by the awarding agency. User fees should be considered if appropriate.

(3) Notwithstanding the encouragement in §1273.25(a) to earn program income, the grantee or subgrantee must not use equipment acquired with grant funds to provide services for a fee to compete unfairly with private companies that provide equivalent services, unless specifically permitted or contemplated by Federal statute.

(4) When acquiring replacement equipment, the grantee or subgrantee may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property, subject to the approval of the awarding agency.

(d) Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place
§ 1273.33 Supplies.

(a) Title. Title to supplies acquired under a grant or subgrant will vest, upon acquisition, in the grantee or subgrantee respectively.

(b) Disposition. If there is a residual inventory of unused supplies exceeding $5,000 in total aggregate fair market value upon termination or completion of the award, and if the supplies are not needed for any other federally sponsored programs or projects, the grantee or subgrantee shall compensate the awarding agency for its share.
§ 1273.34 Copyrights.

The Federal awarding agency reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Federal Government purposes:

(a) The copyright in any work developed under a grant, subgrant, or contract under a grant or subgrant; and

(b) Any rights of copyright to which a grantee, subgrantee or a contractor purchases ownership with grant support.

§ 1273.35 Subawards to debarred and suspended parties.

Grantees and subgrantees must not make any award or permit any award (subgrant or contract) at any tier to any party which is debarred or suspended or is otherwise excluded from or ineligible for participation in Federal assistance programs under Executive Order 12549, “Debarment and Suspension.”

§ 1273.36 Procurement.

(a) States. When procuring property and services under a grant, a State will allow the same policies and procedures it uses for procurements from its non-Federal funds. The State will ensure that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations. Other grantees and subgrantees will follow paragraphs (b) through (i) in this section.

(b) Procurement standards. (1) Grantees and subgrantees will use their own procurement procedures which reflect applicable State and local laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in this section.

(2) Grantees and subgrantees will maintain a contract administration system which ensures that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

(3) Grantees and subgrantees will maintain a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts. No employee, officer or agent of the grantee or subgrantee shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

(i) The employee, officer or agent,

(ii) Any member of his immediate family,

(iii) His or her partner, or

(iv) An organization which employs, or is about to employ, any of the above, has a financial or other interest in the firm selected for award. The grantee’s or subgrantee’s officers, employees or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subagreements. Grantee and subgrantees may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item or nominal intrinsic value. To the extent permitted by State or local law or regulations, such standards or conduct will provide for penalties, sanctions, or other disciplinary actions for violations of such standards by the grantee’s and subgrantee’s officers, employees, or agents, or by contractors or their agents. The awarding agency may in regulation provide additional prohibitions relative to real, apparent, or potential conflicts of interest.

(4) Grantees and subgrantee procedures will provide for a review of proposed procurements to avoid purchase of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

(5) To foster greater economy and efficiency, grantees and subgrantees are encouraged to enter into State and local intergovernmental agreements for procurement or use of common goods and services.

(6) Grantees and subgrantees are encouraged to use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such
use is feasible and reduces project costs.

(7) Grantees and subgrantees are encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

(8) Grantees and subgrantees will make awards only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public record, record of past performance, and financial and technical resources.

(9) Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

(10) Grantees and subgrantees will use time and material type contracts only—

(i) After a determination that no other contract is suitable, and

(ii) If the contract includes a ceiling price that the contractor exceeds at its own risk.

(11) Grantees and subgrantees alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to source evaluation, protests, disputes, and claims. These standards do not relieve the grantee or subgrantee of any contractual responsibilities under its contracts. Federal agencies will not substitute their judgment for that of the grantee or subgrantee unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction.

(12) Grantees and subgrantees will have protest procedures to handle and resolve disputes relating to their procurements and shall in all instances disclose information regarding the protest to the awarding agency. A protestor must exhaust all administrative remedies with the grantee and subgrantee before pursuing a protest with the Federal agency. Reviews of protests by the Federal agency will be limited to:

(i) Violations of Federal law or regulations and the standards of this section (violations of State or local law will be under the jurisdiction of State or local authorities) and

(ii) Violations of the grantee’s or subgrantee’s protest procedures for failure to review a complaint or protest. Protests received by the Federal agency other than those specified above will be referred to the grantee or subgrantee.

(c) Competition. (1) All procurement transactions will be conducted in a manner providing full and open competition consistent with the standards of §1273.36. Some of the situations considered to be restrictive of competition include but are not limited to:

(i) Placing unreasonable requirements on firms in order for them to qualify to do business,

(ii) Requiring unnecessary experience and excessive bonding,

(iii) Noncompetitive pricing practices between firms or between affiliated companies,

(iv) Noncompetitive awards to consultants that are on retainer contracts, own

(v) Organizational conflicts of interest,

(vi) Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance of other relevant requirements of the procurement, and

(vii) Any arbitrary action in the procurement process.

(2) Grantees and subgrantees will conduct procurements in a manner that prohibits the use of statutorily or administratively imposed in-State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts State licensing laws. When contracting for architectural and engineering (A/E) services,
§ 1273.36

geographic location may be a selection criteria provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

(3) Grantees will have written selection procedures for procurement transactions. These procedures will ensure that all solicitations:

(i) Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured, and when necessary, shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equal” description may be used as a means to define the performance or other salient requirements of a procurement. The specific features of the named brand which must be met by offerors shall be clearly stated; and

(ii) Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

(4) Grantees and subgrantees will ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, grantees and subgrantees will not preclude potential bidders from qualifying during the solicitation period.

(d) Methods of procurement to be followed—(1) Procurement by small purchase procedures. Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at $100,000). If small purchase procurements are used, price or rate quotations shall be obtained from an adequate number of qualified sources.

(2) Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the conditions in §1273.36(d)(2)(i) apply.

(i) In order for sealed bidding to be feasible, the following conditions should be present:

(A) A complete, adequate, and realistic specification or purchase description is available;

(B) Two or more responsible bidders are willing and able to compete effectively for the business; and

(C) The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

(ii) If sealed bids are used, the following requirements apply:

(A) The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids;

(B) The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond;

(C) All bids will be publicly opened at the time and place prescribed in the invitation for bids;

(D) A firm fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

(E) Any or all bids may be rejected if there is a sound documented reason.

(3) Procurement by competitive proposals. The technique of competitive proposals is normally conducted with
more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

(i) Requests for proposals will be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals shall be honored to the maximum extent practical;

(ii) Proposals will be solicited from an adequate number of qualified sources;

(iii) Grantees and subgrantees will have a method for conducting technical evaluations of the proposals received and for selecting awardees;

(iv) Awards will be made to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and

(v) Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors’ qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

(4) Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source, or after solicitation of a number of sources, competition is determined inadequate.

(i) Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids or competitive proposals and one of the following circumstances applies:

(A) The item is available only from a single source;

(B) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;

(C) The awarding agency authorizes noncompetitive proposals; or

(D) After solicitation of a number of sources, competition is determined inadequate.

(ii) Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profit, is required.

(iii) Grantees and subgrantees may be required to submit the proposed procurement to the awarding agency for pre-award review in accordance with paragraph (g) of this section.

(e) Contracting with small and minority firms, women’s business enterprise and labor surplus area firms.

(1) The grantee and subgrantee will take all necessary affirmative steps to assure that minority firms, women’s business enterprises, and labor surplus area firms are used when possible.

(2) Affirmative steps shall include:

(i) Placing qualified small and minority businesses and women’s business enterprises on solicitation lists;

(ii) Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources;

(iii) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women’s business enterprises;

(iv) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women’s business enterprises;

(v) Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and

(vi) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2)(i) through (v) of this section.

(f) Contract cost and price.

(1) Grantees and subgrantees must perform a cost or price analysis in connection with every procurement action including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular
§ 1273.36  

procurement situation, but as a starting point, grantees must make independent estimates before receiving bids or proposals. A cost analysis must be performed when the offeror is required to submit the elements of his estimated cost, e.g., under professional, consulting, and architectural engineering services contracts. A cost analysis will be necessary when adequate price competition is lacking, and for sole source procurements, including contract modifications or change orders, unless price reasonableness can be established on the basis of a catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. A price analysis will be used in all other instances to determine the reasonableness of the proposed contract price.

(2) Grantees and subgrantees will negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration will be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

(3) Costs or prices based on estimated costs for contracts under grants will be allowable only to the extent that costs incurred or cost estimates included in negotiated prices are consistent with Federal cost principles (see §1273.22). Grantees may reference their own cost principles that comply with the applicable Federal cost principles.

(4) The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

(g) Awarding agency review. (1) Grantees and subgrantees must make available, upon request of the awarding agency, technical specifications on proposed procurements where the awarding agency believes such review is needed to ensure that the item and/or service specified is the one being proposed for purchase. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the grantee or subgrantee desires to have the review accomplished after a solicitation has been developed, the awarding agency may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.

(2) Grantees and subgrantees must on request make available for awarding agency pre-award review procurement documents, such as requests for proposals or invitations for bids, independent cost estimates, etc., when:

(i) A grantee's or subgrantee's procurement procedures or operation fails to comply with the procurement standards in this section; or

(ii) The procurement is expected to exceed the simplified acquisition threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation; or

(iii) The procurement, which is expected to exceed the simplified acquisition threshold, specifies a "brand name" product; or

(iv) The proposed award is more than the simplified acquisition threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

(v) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the simplified acquisition threshold.

(3) A grantee or subgrantee will be exempt from the pre-award review in paragraph (g)(2) of this section if the awarding agency determines that its procurement systems comply with the standards of this section.

(i) A grantee or subgrantee may request that its procurement system be reviewed by the awarding agency to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews shall occur where there is a continuous high-dollar funding, and third-party contracts are awarded on a regular basis;

(ii) A grantee or subgrantee may self-certify its procurement system. Such self-certification shall not limit the
§ 1273.36

awarding agency’s right to survey the system. Under a self-certification procedure, awarding agencies may wish to rely on written assurances from the grantee or subgrantee that it is complying with these standards. A grantee or subgrantee will cite specific procedures, regulations, standards, etc., as being in compliance with these requirements and have its system available for review.

(h) Bonding requirements. For construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold, the awarding agency may accept the bonding policy and requirements of the grantee or subgrantee provided the awarding agency has made a determination that the awarding agency’s interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor’s obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

(i) Contract provisions. A grantee’s and subgrantee’s contracts must contain provisions in paragraph (i) of this section. Federal agencies are permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Federal Procurement Policy.

(1) Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate. (Contracts more than the simplified acquisition threshold)

(2) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

(3) Compliance with Executive Order 11246 of September 24, 1965, entitled “Equal Employment Opportunity,” as amended by Executive Order 11375 of October 13, 1967, and as supplemented in Department of Labor regulations (41 CFR part 60). (All construction contracts awarded in excess of $10,000 by grantees and their contractors or subgrantees)

(4) Compliance with the Copeland “Anti-Kickback” Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR part 1). (All contracts and subgrants for construction or repair)

(5) Compliance with the Davis-Bacon Act (40 U.S.C. 276a to 276a–7) as supplemented by Department of Labor regulations (29 CFR part 5). (All construction contracts in excess of $2000 awarded by grantees and subgrantees when required by Federal grant program legislation)

(6) Compliance with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as supplemented by Department of Labor regulations (29 CFR part 5). (Construction contracts awarded by grantees and subgrantees in excess of $2000, and in excess of $2500 for other contracts which involve the employment of mechanics or laborers)

(7) Notice of awarding agency requirements and regulations pertaining to reporting.

(8) Notice of awarding agency requirements and regulations pertaining to patent rights with respect to any discovery or invention which arises or is developed in the course of or under such contract.

(9) Awarding agency requirements and regulations pertaining to copyrights and rights in data.
§ 1273.37 Subgrants.  
(a) States. States shall follow state law and procedures when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. States shall:

(1) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations;

(2) Ensure that subgrantees are aware of requirements imposed upon them by Federal statute and regulations;

(3) Ensure that a provision for compliance with §1273.42 is placed in every cost reimbursement subgrant; and

(4) Conform any advances of grant funds to subgrantees substantially to the same standards of timing and amount that apply to cash advances by Federal agencies.

(b) All other grantees. All other grantees shall follow the provisions of this part which are applicable to awarding agencies when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. Grantees shall:

(1) Ensure that every subgrant includes a provision for compliance with this part;

(2) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations; and

(3) Ensure that subgrantees are aware of requirements imposed upon them by Federal statutes and regulations.

(c) Exceptions. By their own terms, certain provisions of this part do not apply to the award and administration of subgrants:

(1) Section 1273.10;

(2) Section 1273.11;

(3) The letter-of-credit procedures specified in Treasury Regulations at 31 CFR part 205, cited in §1273.21; and

(4) Section 1273.50.

REPORTS, RECORDS, RETENTION, AND ENFORCEMENT

§ 1273.40 Monitoring and reporting program performance.  
(a) Monitoring by grantees. Grantees are responsible for managing the day-to-day operations of grant and subgrant supported activities. Grantees must monitor grant and subgrant activities to assure compliance with applicable Federal requirements and that performance goals are being achieved. Grantee monitoring must cover each program, function or activity.

(b) Nonconstruction performance reports. The Federal agency may, if it decides that performance information available from subsequent applications contains sufficient information to meet its programmatic needs, require the grantee to submit a performance report only upon expiration or termination of grant support. Unless waived by the Federal agency, this report will be due on the same date as the final Financial Status Report.

(1) Grantees shall submit annual performance reports unless the awarding agency requires quarterly or semi-annual reports. However, performance reports will not be required more frequently than quarterly. Annual reports
shall be due 90 days after the grant year, quarterly or semi-annual reports shall be due 30 days after the reporting period. The final performance report will be due 90 days after the expiration or termination of grant support. If a justified request is submitted by a performance report. Additionally, requirements for unnecessary performance reports may be waived by the Federal agency.

(2) Performance reports will contain, for each grant, brief information on the following:
(i) A comparison of actual accomplishments to the objectives established for the period. Where the output of the project can be quantified, a computation of the cost per unit of output may be required if that information will be useful.
(ii) The reasons for slippage if established objectives were not met.
(iii) Additional pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(3) Grantees will not be required to submit more than the original and two copies of performance reports.

(4) Grantees will adhere to the standards in this section in prescribing performance reporting requirements for subgrantees.

(c) Construction performance reports. For the most part, on-site technical inspections and certified percentage-of-completion data are relied on heavily by Federal agencies to monitor progress under construction grants and subgrants. The Federal agency will require additional formal performance reports only when considered necessary, and never more frequently than quarterly.

(d) Significant developments. Events may occur between the scheduled performance reporting dates which have significant impact upon the grant or subgrant supported activity. In such cases, the grantee must inform the Federal agency as soon as the following types of conditions become known:
(1) Problems, delays, or adverse conditions which will materially impair the ability to meet the objective of the award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.
(2) Favorable developments which enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more beneficial results than originally planned.
(e) Federal agencies may make site visits as warranted by program needs.

(f) Waivers, extensions. (1) Federal agencies may waive any performance report required by this part if not needed.
(2) The grantee may waive any performance report from a subgrantee when not needed. The grantee may extend the due date for any performance report from a subgrantee if the grantee will still be able to meet its performance reporting obligations to the Federal agency.

§ 1273.41 Financial reporting.

(a) General. (1) Except as provided in paragraphs (a)(2) and (5) of this section, grantees will use only the forms specified in paragraphs (a) through (e) of this section, and such supplementary or other forms as may from time to time be authorized by OMB, for:
(i) Submitting financial reports to Federal agencies, or
(ii) Requesting advances or reimbursements when letters or credit are not used.
(2) Grantees need not apply the forms prescribed in this section in dealing with their subgrantees. However, grantees shall not impose more burdensome requirements on subgrantees.

(3) Grantees shall follow all applicable standard and supplemental Federal agency instructions approved by OMB to the extent required under the Paperwork Reduction Act of 1980 for use in connection with forms specified in paragraphs (b) through (e) of this section. Federal agencies may issue substantive supplementary instructions only with the approval of OMB. Federal agencies may shade out or instruct the grantee to disregard any line item that the Federal agency finds unnecessary for its decisionmaking purposes.

(4) Grantees will not be required to submit more than the original and two copies of forms required under this part.
(5) Federal agencies may provide computer outputs to grantees to expedite or contribute to the accuracy of reporting. Federal agencies may accept the required information from grantees in machine usable format or computer printouts instead of prescribed forms.

(6) Federal agencies may waive any report required by this section if not needed.

(7) Federal agencies may extend the due date of any financial report upon receiving a justified request from a grantee.

(b) Financial Status Report—(1) Form. Grantees will use Standard Form 269 or 269A, Financial Status Report, to report the status of funds for all nonconstruction grants and for construction grants when required in accordance with paragraph §1273.41(e)(2)(iii) of this section.

(2) Accounting basis. Each grantee will report program outlays and program income on a cash or accrual basis as prescribed by the awarding agency. If the Federal agency requires accrual information and the grantee’s accounting records are not normally kept on the accrual basis, the grantee shall not be required to convert its accounting system but shall develop such accrual information through and analysis of the documentation on hand.

(3) Frequency. The Federal agency may prescribe the frequency of the report for each project or program. However, the report will not be required more frequently than quarterly. If the Federal agency does not specify the frequency of the report, it will be submitted annually. A final report will be required upon expiration or termination of grant support.

(4) Due date. When reports are required on a quarterly or semiannual basis, they will be due 30 days after the reporting period. When required on an annual basis, they will be due 90 days after the grant year. Final reports will be due 90 days after the expiration or termination of grant support.

(c) Federal Cash Transactions Report—(1) Form. (i) For grants paid by letter of credit, Treasury check advances or electronic transfer of funds, the grantee will submit the Standard Form 272a, unless the terms of the award exempt the grantee from this requirement.

(ii) These reports will be used by the Federal agency to monitor cash advanced to grantees and to obtain disbursement or outlay information for each grant from grantees. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment provided that the information to be submitted is not changed in substance.

(2) Forecasts of Federal cash requirements. Forecasts of Federal cash requirements may be required in the “Remarks” section of the report.

(3) Cash in hands of subgrantees. When considered necessary and feasible by the Federal agency, grantees may be required to report the amount of cash advances in excess of three days’ needs in the hands of their subgrantees or contractors and to provide short narrative explanations of actions taken by the grantee to reduce the excess balances.

(4) Frequency and due date. Grantees must submit the report no later than 15 working days following the end of each quarter. However, where an advance either by letter of credit or electronic transfer of funds is authorized at an annualized rate of one million dollars or more, the Federal agency may require the report to be submitted within 15 working days following the end of each month.

(d) Request for advance or reimbursement—(1) Advance payments. Requests for Treasury check advance payments will be submitted on Standard Form 270, Request for Advance or Reimbursement. (This form will not be used for drawdowns under a letter of credit, electronic funds transfer or when Treasury check advance payments are made to the grantee automatically on a predetermined basis.)

(2) Reimbursements. Requests for reimbursement under nonconstruction grants will also be submitted on Standard Form 270. (For reimbursement requests under construction grants, see paragraph (e)(1) of this section.)

(3) The frequency for submitting payment requests is treated in §1273.41(b)(3).
§ 1273.42 Retention and access requirements for records.

(a) Applicability. (1) This section applies to all financial and programmatic records, supporting documents, statistical records, and other records of grantees or subgrantees which are:

(i) Required to be maintained by the terms of this part, program regulations or the grant agreement, or

(ii) Otherwise reasonably considered as pertinent to program regulations or the grant agreement.

(2) This section does not apply to records maintained by contractors or subcontractors. For a requirement to place a provision concerning records in certain kinds of contracts, see §1273.36(1)(10).

(b) Length of retention period. (1) Except as otherwise provided, records must be retained for three years from the starting date specified in paragraph (c) of this section.

(2) If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

(3) To avoid duplicate recordkeeping, awarding agencies may make special arrangements with grantees and subgrantees to retain any records which are continuously needed for joint use. The awarding agency will request transfer of records to its custody when it determines that the records possess long-term retention value. When the records are transferred to or maintained by the Federal agency, the 3-year retention requirement is not applicable to the grantee or subgrantee.

(c) Starting date of retention period—

(1) General. When grant support is continued or renewed at annual or other intervals, the retention period for the records of each funding period starts on the day the grantee or subgrantee submits to the awarding agency its single or last expenditure report for that period. However, if grant support is continued or renewed quarterly, the retention period for each year’s records starts on the day the grantee submits its expenditure report for the last quarter of the Federal fiscal year. In all other cases, the retention period starts on the day the grantee submits its final expenditure report. If an expenditure report has been waived, the retention period starts on the day the report would have been due.

(2) Real property and equipment records. The retention period for real property and equipment records starts...
§ 1273.43 Enforcement.

(a) Remedies for noncompliance. If a grantee or subgrantee materially fails to comply with any term of an award, whether stated in a Federal statute or regulation, an assurance, in a State plan or application, a notice of award, or elsewhere, the award agency may take one or more of the following actions, as appropriate in the circumstances:

1. Temporarily withhold cash payments pending correction of the deficiency by the grantee or subgrantee or more severe enforcement action by the awarding agency.

2. Disallow (that is, deny both use of funds and matching credit for) all or part of the cost of the activity or action not in compliance.

3. Wholly or partly suspend or terminate the current award for the grantee's or subgrantee's program.

4. Withhold further awards for the program, or

5. Take other remedies that may be legally available.

(b) Hearings, appeals. In taking an enforcement action, the awarding agency will provide the grantee or subgrantee an opportunity for such hearing, appeal, or other administrative proceeding to which the grantee or subgrantee is entitled under any statute or regulation applicable to the action involved.

(c) Effects of suspension and termination. Costs of grantee or subgrantee resulting from obligations incurred by the grantee or subgrantee during a suspension or after termination of an award are not allowable unless the awarding agency expressly authorizes them in the notice of suspension or termination or subsequently. Other grantee or subgrantee costs during suspension or after termination which are not be limited to the required retention period but shall last as long as the records are retained.

(f) Restrictions on public access. The Federal Freedom of Information Act (5 U.S.C. 552) does not apply to records unless required by Federal, State, or local law. Grantees and subgrantees are not required to permit public access to their records.
necessary and not reasonably avoidable are allowable if:

(1) The costs result from obligations which were properly incurred by the grantee or subgrantee before the effective date of suspension or termination, are not in anticipation of it, and, in the case of a termination, are noncancellable, and;

(2) The costs would be allowable if the award were not suspended or expired normally at the end of the funding period which the termination takes effect.

(d) Relationship to debarment and suspension. The enforcement remedies identified in this section, including suspension and termination, do not preclude grantee or subgrantee from being subject to “Debarment and Suspension” under E.O. 12549 (see §1273.35).

§ 1273.44 Termination for convenience.

Except as provided in §1273.43 awards may be terminated in whole or in part only as follows:

(a) By the awarding agency with the consent of the grantee or subgrantee, including the effective date and in the case of partial termination, the portion to be terminated, or

(b) By the grantee or subgrantee upon written notification to the awarding agency, setting forth the reasons for such termination, the effective date, and in the case of partial termination, the portion to be terminated. However, if, in the case of a partial termination, the awarding agency determines that the remaining portion of the award will not accomplish the purposes for which the award was made, the awarding agency may terminate the award in its entirety under either §1273.43 or paragraph (a) of this section.

Subpart D—After-the-Grant Requirements

§ 1273.50 Closeout.

(a) General. The Federal agency will close out the award when it determines that all applicable administrative actions and all required work of the grant has been completed.

(b) Reports. Within 90 days after the expiration or termination of the grant, the grantee must submit all financial, performance, and other reports required as a condition of the grant. Upon request by the grantee, Federal agencies may extend this timeframe. These may include but are not limited to:

(1) Final performance or progress report.

(2) Financial Status Report (SF 269) or Outlay Report and Request for Reimbursement for Construction Programs (SF-271) (as applicable).

(3) Final request for payment (SF-270) (if applicable).

(4) Invention disclosure (if applicable).

(5) Federally-owned property report: In accordance with §1273.32(f), a grantee must submit an inventory of all federally owned property (as distinct from property acquired with grant funds) for which it is accountable and request disposition instructions from the Federal agency of property no longer needed.

(c) Cost adjustment. The Federal agency will, within 90 days after receipt of reports in paragraph (b) of this section, make upward or downward adjustments to the allowable costs.

(d) Cash adjustments. (1) The Federal agency will make prompt payment to the grantee for allowable reimbursable costs.

(2) The grantee must immediately refund to the Federal agency any balance of unobligated (unencumbered) cash advanced that is not authorized to be retained for use on other grants.

§ 1273.51 Later disallowances and adjustments.

The closeout of a grant does not affect:

(a) The Federal agency’s right to disallow costs and recover funds on the basis of a later audit or other review;

(b) The grantee’s obligation to return any funds due as a result of later refunds, corrections, or other transactions;

(c) Records retention as required in §1273.42;

(d) Property management requirements in §§1273.31 and 1273.32; and

(e) Audit requirements in §1273.26.
§ 1273.52 Collection of amounts due.

(a) Any funds paid to a grantee in excess of the amount to which the grantee is finally determined to be entitled under the terms of the award constitute a debt to the Federal Government. If not paid within a reasonable period after demand, the Federal agency may reduce the debt by:

(1) Making an administrative offset against other requests for reimbursement,

(2) Withholding advance payments otherwise due to the grantee, or

(3) Other action permitted by law.

(b) Except where otherwise provided by statutes or regulations, the Federal agency will charge interest on overdue debt in accordance with the Federal Claims Collection Standards (4 CFR ch. II). The date from which interest is computed is not extended by litigation or the filing of any form of appeal.

Subpart E—Entitlements

[Reserved]

PART 1274—COOPERATIVE AGREEMENTS WITH COMMERCIAL FIRMS

Subpart A—General

Sec.
1274.101 Purpose.
1274.102 Definitions.
1274.103 Effect on other issuances.
1274.104 Deviations.
1274.105 Approval of Cooperative Agreement Notices (CANs) and cooperative agreements.

Subpart B—Pre-Award Requirements

1274.201 Purpose.
1274.202 Solicitations and proposals.
1274.203 Intellectual property.
1274.204 Evaluation and selection.
1274.205 Award procedures.
1274.206 Document format and numbering.
1274.207 Distribution of cooperative agreements.

Subpart C—Administration

1274.301 Delegation of administration.
1274.302 Transfers, novations, and change of name agreements.
§ 1274.101 Purpose.
(a) This part establishes uniform administrative requirements for NASA cooperative agreements awarded to commercial firms. Cooperative agreements are ordinarily entered into with commercial firms to—
   (1) Support research and development;
   (2) Provide technology transfer from the Government to the recipient; or
   (3) Develop a capability among U.S. firms to potentially enhance U.S. competitiveness.
(b) An award may not be made to a foreign government. Award to foreign firms is not precluded. The approval of the Associate Administrator for Procurement is required to exclude foreign firms from submitting proposals.

§ 1274.102 Definitions.
Administrator. The Administrator or Deputy Administrator of NASA.
Associate Administrator for Procurement. The head of the Office of Procurement, NASA Headquarters (Code H).
Cash contributions. The recipient’s cash outlay, including the outlay of money contributed to the recipient by third parties.
Closeout. The process by which NASA determines that all applicable administrative actions and all required work of the award have been completed by the recipient and NASA.
Commercial item. The definition in FAR 2.101 is applicable.
Cooperative agreement. As defined by 31 U.S.C. 6305, cooperative agreements are financial assistance instruments used to stimulate or support activities for authorized purposes and in which the Government participates substantially in the performance of the effort. This part covers only cooperative agreements with commercial firms. Cooperative agreements with universities and non-profit organizations are covered by 14 CFR part 1260.
Cost sharing or matching. That portion of project or program costs not borne by the Federal Government except that the recipient’s contribution may be reimbursable under other Government awards as allowable IR&D costs pursuant to 48 CFR (NFS) 1831.205–18.
Date of completion. The date on which all work under an award is completed or the date on the award document, or any supplement or amendment thereto, on which NASA sponsorship ends.
Days. Calendar days, unless otherwise indicated.
Government furnished equipment. Equipment in the possession of, or acquired directly by, the Government and subsequently delivered, or otherwise made available, to a recipient and Government furnished equipment procured by the recipient with Government funds under a cooperative agreement.
Grant Officer. A Government employee who has been delegated the authority to negotiate, award, or administer grants or cooperative agreements. A Contracting Officer may serve as a Grant Officer if authorized by installation procurement regulations.
Incremental funding. A method of funding a cooperative agreement where the funds initially allotted to the cooperative agreement are less than the award amount. Additional funding is added as described in §1274.918.
Recipient. An organization receiving financial assistance under a cooperative agreement to carry out a project or program. A recipient may be an individual firm, a consortium, a partnership, etc.
Resource contribution. The total value of resources provided by either party to the cooperative agreement including both cash and non-cash contributions.
Support contractor. A NASA contractor performing part or all of the NASA responsibilities under a cooperative agreement.
§ 1274.103 Suspension. An action by NASA or the recipient that temporarily discontinues efforts under an award, pending corrective action or pending a decision to terminate the award. Suspension of an award is a separate action from suspension under Federal agency regulations implementing Executive Orders 12549 and 12689, “Debarment and Suspension.”

Technical officer. The official of the cognizant NASA office who is responsible for monitoring the technical aspects of the work under a cooperative agreement. A Contracting Officer’s Technical Representative may serve as a Technical Officer.

Termination. The cancellation of a cooperative agreement in whole or in part, by either party at any time prior to the date of completion.

§ 1274.103 Effect on other issuances.

For awards subject to this subpart, the requirements of this subpart apply, except to the extent that any administrative requirements of codified program regulations, program manuals, handbooks and other nonregulatory materials are required by statute, or are authorized in accordance with the deviations provision in 1274.104.

§ 1274.104 Deviations.

(a) The Associate Administrator for Procurement may grant exceptions for classes of or individual cooperative agreements from the requirements of this part when exceptions are not prohibited by statute.

(b) A deviation is required for any of the following:

(1) When a prescribed provision set forth in this part for use verbatim is modified or omitted.

(2) When a provision is set forth in this part, but not prescribed for use verbatim, and the installation substitutes a provision which is inconsistent with the intent, principle, and substance of the prescribed provision.

(3) When a NASA form or other form is prescribed by this part, and that form is altered or another form is used in its place.

(4) When limitations, imposed by this part upon the use of a provision, form, procedure, or any other action, are not adhered to.

(c) Requests for authority to deviate from this part will be forwarded to Headquarters, Program Operations Division (Code HS). Such requests, signed by the Procurement Officer, shall contain as a minimum:

(1) A full description of the deviation and identification of the regulatory requirement from which a deviation is sought.

(2) Detailed rationale for the request, including any pertinent background information.

(3) The name of the recipient and identification of the cooperative agreement affected, including the dollar value.

(4) A statement as to whether the deviation has been requested previously, and, if so, circumstances of the previous request(s).

(5) A copy of legal counsel’s concurrence or comments.

§ 1274.105 Approval of Cooperative Agreement Notices (CANs) and cooperative agreements.

(a) As soon as possible after the initial decision is made by a Headquarters program office or Center procurement personnel to use the CAN process, the cognizant program office or procurement office shall notify the Associate Administrator for Procurement (Code HS) of the intent to use a CAN in all cases where the total Government funds to be awarded in response to CAN proposals is expected to equal or exceed $10 million. All such notifications, as described in this section, shall be concurred in by the Procurement Officer. This requirement also applies in those cases where an unsolicited proposal is received and a decision is made to award a cooperative agreement in which the recipient (or one or more members of a “team” of recipients) is a commercial firm and the total Government funds are expected to equal or exceed $10 million.

(b) The required notification is to be accomplished by sending an electronic mail (e-mail) message to the following address at NASA Headquarters: can@hq.nasa.gov. The notification must include the following information, as a minimum:

(1) Identification of the cognizant center and program office,
(2) Description of the proposed pro-
gram for which proposals are to be so-
licted,
(3) Rationale for decision to use a
CAN rather than other types of solicit-
tations,
(4) The amount of Government fund-
ing to be available for awards,
(5) Estimate of the number of cooper-
ative agreements to be awarded as a re-
sult of the CAN,
(6) The percentage of cost-sharing to
be required,
(7) Tentative schedule for release of
CAN and award of cooperative agree-
ments,
(8) If the term of the cooperative
agreement is anticipated to exceed 3
years and/or if the Government cash
contribution is expected to exceed
$20M, address anticipated changes, if
any, to the provisions (see 1274.202(f)),
and
(9) If the cooperative agreement is
for programs/projects that provide
aerospace products or capabilities, (i.e.,
provide space and aeronautics, flight
and ground systems, technologies and
operations), a statement that the re-
quirements of NASA Policy Directive
(NPD) 7120.4 and NASA Policy Guide-
ance (NPG) 7120.5 have been met. This
affirmative statement will include a
specific reference to the signed Pro-
gram Commitment Agreement.

(c) Code HS will respond by e-mail
message to the sender, with a copy of
the message to the Procurement Offi-
cer and the Office of Small and Dis-
advantaged Business Utilization, with-
in 5 working days of receipt of this ini-
tial notification. The response will ad-
dress the following:
(1) Whether Code HS agrees or dis-
agrees with the appropriateness for
using a CAN for the effort described,
(2) Whether Code HS will require re-
view and approval of the CAN before its
issuance,
(3) Whether Code HS will require re-
view and approval of the selected
offor’s cost sharing arrangement
(e.g., cost sharing percentage; type of
contribution (cash, labor, etc.)), and
(4) Whether Code HS will require re-
view and approval of the resulting co-
operative agreement(s).

(d) If a response from Code HS is not
received within 5 working days of noti-

cification, the program office or center
may proceed with release of the CAN
and award of the cooperative agree-
ments as described.

Subpart B—Pre-Award
Requirements

§ 1274.201 Purpose.
Sections 1274.202 through 1274.207 pre-
scribe forms and instructions and ad-
dress other pre-award matters.

§ 1274.202 Solicitations and proposals.
(a) Competition. Consistent with 31
U.S.C. 6301(3), NASA uses competitive
procedures to award cooperative agree-
ments whenever possible. An award
will normally be made as a result of a
Cooperative Agreement Notice (CAN)
which envisions a cooperative agree-
ment as the award instrument. A Com-
merce Business Daily synopsis or a
synopsis on the NASA Acquisition
Internet Service will be used to pub-
licize the CAN.

(b) Unsolicited proposals. (1) An award
may be made as a result of an unsolic-
ited proposal. The unsolicited proposal
must evidence a unique and innovative
idea or approach which is not the sub-
ject of a current or anticipated solici-
tation. When a cooperative agreement
is awarded as a result of an unsolicited
proposal, a Commerce Business Daily
synopsis and a synopsis on the NASA
Acquisition Internet Service will be
used to provide an opportunity for
other firms/consortia to express an in-
terest in the agreement unless the ex-
ception in 48 CFR (FAR) 5.202(a)(8) ap-
plies. Respondents should be given a
minimum of thirty days to respond. If
interest is expressed, a decision must
be made to proceed with the award or
to issue a solicitation for competitive
proposals.

(2) Prior to an award made as the re-
result of an unsolicited proposal, the
award must be approved by the Pro-
curement Officer if NASA’s total re-
source contribution is below $5 million.
Center Director approval is required if
NASA’s total resource contribution is
$5 million or more. For Headquarters
cooperative agreements, approval by the
Associate Administrator for Procure-
ment is required if NASA’s total
§ 1274.202 Cost and payment matters

(c) Cost and payment matters. (1) The expenditure of Government funds by the recipient and the allowability of costs recognized as a resource contribution by the recipient shall be governed by the FAR cost principles, 48 CFR part 31. If the recipient is a consortium which includes non-commercial entities as members, cost allowability for those members will be determined as follows:

(i) Allowability of costs incurred by State, local or federally-recognized Indian tribal governments is determined in accordance with the provisions of OMB Circular A-87, “Cost Principles for State and Local Governments.”

(ii) The allowability of costs incurred by non-profit organizations is determined in accordance with the provisions of OMB Circular A-122, “Cost Principles for Non-Profit Organizations.”

(iii) The allowability of costs incurred by institutions of higher education is determined in accordance with the provisions of OMB Circular A-21, “Cost Principles for Educational Institutions.”

(iv) The allowability of costs incurred by hospitals is determined in accordance with the provisions of Appendix B of 45 CFR part 74, “Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals.” Recipient’s method for accounting for the expenditure of funds must be consistent with Generally Accepted Accounting Principles.

(2) A substantial resource contribution on the part of the recipient is required. The recipient is expected to contribute at least 50 percent of the total resources required to accomplish the cooperative agreement. Recipient contributions may be either cash or non-cash or both. In those cases in which a contribution of less than 50 percent is anticipated from the recipient, approval of the Associate Administrator for Procurement (Code HS) is required prior to award. The request for approval should address the evaluation factor in the solicitation and how the proposal accomplishes those objectives to such a degree that a share ratio of less than 50 percent is warranted.

(3) Cooperative agreements are funded by NASA in a fixed amount. Payments in fixed amounts will be made by NASA in accordance with “Milestone Billings” which are discussed in paragraph (c)(4) of this section. If the recipient completes the final milestone, final payment is made, and NASA will have completed its financial responsibilities under the agreement. However, if the cooperative agreement is terminated prior to achievement of all milestones, NASA’s funding will be limited to milestone payments already made plus NASA’s share of costs required by the recipient to meet commitments which had in the judgment of NASA become firm prior to the effective date of termination and are otherwise appropriate. In no event shall these additional costs or payment exceed the amount of the next payable milestone billing amount.

(4) Milestone billings is the method of payment to the recipient under cooperative agreements. Performance based milestones are used as the basis of establishing a set of verifiable milestones for payment purposes. Each milestone payment shall be established so that the Government payment is at the same share ratio as the cooperative agreement share ratio. If the recipient is a consortium, the Articles of Collaboration is required to contain an extensive list of performance based milestones that the consortium has agreed to. Generally, payments should not be made more than once monthly; ideally, payments will be made about every 60 to 90 days but in all cases should be made on the basis of verifiable, significant events as opposed to the passage of time. The last payment milestone should be large enough to ensure that the recipient completes its responsibilities under the cooperative agreement (or funds should be reserved for payment until after completion of the cooperative agreement). The Government technical officer must verify completion of each milestone to the Grant Officer as part of the payment process.

(5) Cooperative agreements may be incrementally funded subject to the following:
(i) The total value of the NASA cash contribution is $50,000 or more.

(ii) The period of performance overlaps the succeeding fiscal year.

(iii) The funds are not available to fully fund the cooperative agreement at the time of award.

(6) Cost sharing requirements on cooperative agreements with commercial firms are based on section 23 of OMB Circular A-110. Only cash or certain non-cash resources are acceptable sources for the recipient contribution to a cooperative agreement. Acceptable non-cash resources include such items as purchased equipment, equipment, labor, office space, etc. The actual or imputed value of intellectual property such as patent rights, data rights, trade secrets, etc., are not acceptable as sources for the recipient contribution. The Government’s cost share should fully reflect the total cost of the cash and non-cash contributions. With respect to the non-cash contribution, a fully burdened cost estimate of personnel, facilities, and other expenses should be utilized. It is recognized that this will be an estimate in some cases, but the cost principles in section 9091–5 of the NASA Financial Management Manual should be adhered to.

(7) Recipients shall not be paid a profit under cooperative agreements. Profit may be paid by the recipient to subcontractors if the subcontractor is not part of the offering team and the subcontract is an arms-length relationship.

(8) The recipient’s resource share of the cooperative agreement may be allocated as part of its IR&D program.

(9) The CAN must provide a description of the non-cash Government contribution (personnel, equipment, facilities, etc.) as part of the Government’s contribution to the cooperative agreement in addition to funding. The offeror may propose that additional non-cash Government resources be provided under two conditions. First, the offeror is responsible for verifying the availability of the resources and their suitability for their intended purpose and, second, those resources are part of the Government contribution (which must be matched by the recipient) and paid for directly by the awarding organization.

(d) Consortia as recipients. (1) The use of consortia as recipients for cooperative agreements is encouraged. Consortia will tend to bring to a cooperative agreement a broader range of capabilities and resources. A consortium is a group of organizations that enter into an agreement to collaborate for the purposes of the cooperative agreement with NASA. The agreement to collaborate can take the form of a legal entity such as a partnership or joint venture but it is not necessary that such an entity be created. A consortium may be made up of firms which normally compete for commercial or Government business or may be made up of firms which perform complementary functions in a given industry. The inclusion of non-profit or educational institutions, small businesses, or small disadvantaged businesses in the consortium could be particularly valuable in ensuring that the results of the consortium’s activities are disseminated.

(2) Key to the success of the cooperative agreement with a consortium is the consortium’s Articles of Collaboration, which is a definitive description of the roles and responsibilities of the consortium’s members. It should also address to the extent appropriate: Commitments of financial, personnel, facilities and other resources, a detailed milestone chart of consortium activities, accounting requirements, subcontracting procedures, disputes, term of the agreement, insurance and liability issues, internal and external reporting requirements, management structure of the consortium, obligations of organizations withdrawing from the consortia, allocation of data and patent rights among the consortia members, agreements, if any, to share existing technology and data, the firm which is responsible for the completion of the consortium’s responsibilities under the cooperative agreement and has the authority to commit the consortium and receive payments from NASA, employee policy issues, etc.

(3) An outline of the Articles of Collaboration should be required as part of the proposal and evaluated during the source selection process.
§ 1274.203

(e) Metric system of measurement. The Metric Conversion Act, as amended by the Omnibus Trade and Competitiveness Act (15 U.S.C. 205) declares that the metric system is the preferred measurement system for U.S. trade and commerce. NASA’s policy with respect to the metric measurement system is stated in NPD 8010.2, Use of the Metric System of Measurement in NASA Programs.

(f) Term of agreement. The provisions set forth in §1274.901 are generally considered appropriate for agreements not exceeding 3 years and/or a Government cash contribution not exceeding $20M. For cooperative agreements expected to be longer than 3 years and/or involve a Government cash contribution exceeding $20M, consideration should be given to provisions which place additional restrictions on the recipient in terms of validating performance and accounting for funds expended.

§ 1274.203 Intellectual property.

(a) A cooperative agreement covers the disposition of rights to intellectual property between NASA and the recipient. If the recipient is a consortium or partnership, rights flowing between multiple organizations in a consortium must be negotiated separately and formally documented, preferably in the Articles of Collaboration.

(b) Patent rights clauses are required by statute and regulation. The clauses exist for recipients of the agreement whether they are:

(1) Other than small business or nonprofit organizations (generally referred to as large businesses) or

(2) Small businesses or nonprofit organizations.

(c) There are five situations in which inventions may arise under a cooperative agreement: recipient inventions, subcontractor inventions, NASA inventions, NASA support contractor inventions, and joint inventions with recipient.

(d)(1) Recipient inventions. (i) A recipient, if a large business, is subject to Section 305 of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2457) relating to property rights in inventions. The term “invention” includes any invention, discovery, improvement, or innovation. Title to an invention made under a cooperative agreement by a large business recipient initially vests with NASA. The recipient may request a waiver under the NASA Patent Waiver Regulations to obtain title to inventions made under the agreement. Such a request may be made in advance of the agreement (or 30 days thereafter) for all inventions made under the agreement. Alternatively, requests may be made on a case by case basis any time an individual invention is made. Such waivers are liberally and expeditiously granted after review by NASA’s Invention and Contribution Board and approval by NASA’s General Counsel. When a waiver is granted, any inventions made in the performance of work under the agreement are subject to certain reporting, election and filing requirements, a royalty-free license to the Government, march-in rights, and certain other reservations.

(ii) A recipient, if a small business or nonprofit organization, may elect to retain title to its inventions. The term “nonprofit organization” is defined in 35 U.S.C. 201(i) and includes universities and other institutions of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C.). The Government obtains an irrevocable, nonexclusive, royalty-free license.

(2) Subcontractor inventions. (i) Large business. If a recipient enters a subcontract (or similar arrangement) with a large business organization for experimental, developmental, research, design or engineering work in support of the agreement to be done in the United States, its possessions, or Puerto Rico, section 305 of the Space Act applies. The clause applicable to large business organizations is to be used (suitably modified to identify the parties) in any subcontract. The subcontractor may request a waiver under the NASA Patent Waiver Regulations to obtain rights to inventions made under the subcontract just as a large business recipient can (see paragraph (d)(1)(i) of this section). It is strongly recommended that a prospective large business subcontractor contact the NASA installation Patent Counsel or Intellectual Property Counsel to assure
that the right procedures are followed. Just like the recipient, any inventions made in the performance of work under the agreement are subject to certain reporting, election and filing requirements, a royalty-free license to the Government, march-in rights, and certain other reservations.

(ii) Non-profit organization or small business. In the event the recipient enters into a subcontract (or similar arrangement) with a domestic nonprofit organization or a small business firm for experimental, developmental, or research work to be performed under the agreement, the requirements of 35 U.S.C. 200 et seq. regarding “Patent Rights in Inventions Made With Federal Assistance,” apply. The subcontractor has the first option to elect title to any inventions made in the performance of work under the agreement, subject to specific reporting, election and filing requirements, a royalty-free license to the Government, march-in rights, and certain other reservations that are specifically set forth.

(iii) Work outside the United States. If the recipient subcontracts for work to be done outside the United States, its possessions or Puerto Rico, the NASA installation Patent Counsel or Intellectual Property Counsel should be contacted for the proper patent rights clause to use and the procedures to follow.

(iv) Notwithstanding paragraphs (d)(2)(i), (ii) and (iii), and in recognition of the recipient’s substantial contribution, the recipient is authorized, subject to rights of NASA set forth elsewhere in the agreement, to:

(A) Acquire by negotiation and mutual agreement rights to a subcontractor’s subject inventions as the recipient may deem necessary, or

(B) If unable to reach agreement pursuant to paragraph (d)(2)(iv)(A) of this section, request that NASA invoke exceptional circumstances as necessary pursuant to 37 CFR 401.3(a)(2) if the prospective subcontractor is a small business firm or nonprofit organization, or for all other organizations, request that such rights for the recipient be included as an additional reservation in a waiver granted pursuant to 14 CFR 1245.1. The exercise of this exception does not change the flow down of the applicable patent rights clause to subcontractors. Applicable laws and regulations require that title to inventions made under a subcontract must initially reside in either the subcontractor or NASA, not the recipient. This exception does not change that. The exception does authorize the recipient to negotiate and reach mutual agreement with the subcontractor for the grant-back of rights. Such grant-back could be an option for an exclusive license or an assignment, depending on the circumstances.

(3) NASA inventions. NASA will use reasonable efforts to report inventions made by its employees as a consequence of, or which bear a direct relation to, the performance of specified NASA activities under an agreement. Upon timely request, NASA will use its best efforts to grant recipient first option to acquire either an exclusive or partially-exclusive, revocable, royalty-bearing license, on terms to be negotiated, for any patent applications and patents covering such inventions. This exclusive or partially-exclusive license to the recipient will be subject to the retention of rights by or on behalf of the Government for Government purposes.

(4) NASA support contractor inventions. It is preferred that NASA support contractors be excluded from performing any of NASA’s responsibilities under the agreement since the rights obtained by a NASA support contractor could work against the rights needed by the recipient. In the event NASA support contractors are tasked to work under the agreement and inventions are made by support contractor employees, the support contractor will normally retain title to its employee inventions in accordance with 35 U.S.C. 202, 14 CFR part 1245, and Executive Order 12591. In the event the recipient decides not to pursue right to title in any such invention and NASA obtains title to such inventions, upon timely request, NASA will use its best efforts to grant recipient first option to acquire either an exclusive or partially exclusive, revocable, royalty-bearing license, upon terms to be negotiated, for any patent applications and patents covering such inventions. This exclusive or partially-exclusive license to
§ 1274.203  

the recipient will be subject to the retention of rights by or on behalf of the Government for Government purposes.

(5) Joint inventions. (i) NASA and the recipient agree to use reasonable efforts to identify and report to each other any inventions made jointly between NASA employees (or employees of NASA support contractors) and employees of recipient. For large businesses, the Associate General Counsel (Intellectual Property) may agree that the United States will refrain, for a specified period, from exercising its undivided interest in a manner inconsistent with recipient’s commercial interest. For small business firms and nonprofit organizations, the Associate General Counsel (Intellectual Property) may agree to assign or transfer whatever rights NASA may acquire in a subject invention from its employee to the recipient as authorized by 35 U.S.C. 202(e). The grant officer negotiating the agreement with small business firms and nonprofit organizations can agree, up front, that NASA will assign whatever rights it may acquire in a subject invention from its employee to the small business firm or nonprofit organization. Requests under this paragraph shall be made through the Center Patent Counsel.

(ii) NASA support contractors may be joint inventors. If a NASA support contractor employee is a joint inventor with a NASA employee, the same provisions apply as those for NASA Support Contractor Inventions. The NASA support contractor will retain or obtain nonexclusive licenses to those inventions in which NASA obtains title. If a NASA support contractor employee is a joint inventor with a recipient employee, the NASA support contractor and recipient will become joint owners of those inventions in which they have elected to retain title or requested and have been granted waiver of title. Where the NASA support contractor has not elected to retain title or has not been granted waiver of title, NASA will jointly own the invention with the recipient.

(e) Licenses to Recipient(s). (1) Any exclusive or partially exclusive commercial licenses are to be royalty-bearing consistent with Government-wide policy in licensing its inventions. It also provides an opportunity for royalty-sharing with the employee-inventor, consistent with Government-wide policy under the Federal Technology Transfer Act.

(2) Upon application in compliance with 37 CFR part 404—Licensing of Government Owned Inventions, all recipients shall be granted a revocable, nonexclusive, royalty-free license in each patent application filed in any country on a subject invention and any resulting patent in which the Government obtains title. Because cooperative agreements are cost sharing cooperative arrangements with a purpose of benefiting the public by improving the competitiveness of the recipient and the Government receives an irrevocable, nonexclusive, royalty-free license in each recipient subject invention, it is only equitable that the recipient receive, at a minimum, a revocable, nonexclusive, royalty-free license in NASA inventions and NASA contractor inventions where NASA has acquired title.

(3) Once a recipient has exercised its option to apply for an exclusive or partially exclusive license, a notice, identifying the invention and the recipient, is published in the Federal Register, providing the public opportunity for filing written objections for 60 days.

(f) Preference for United States manufacture. Despite any other provision, the recipient agrees that any products embodying subject inventions or produced through the use of subject inventions shall be manufactured substantially in the United States. The intent of this provision is to support manufacturing jobs in the United States regardless of the status of the recipient as a domestic or foreign controlled company. However, in individual cases, the requirement to manufacture substantially in the United States, may be waived by the Associate Administrator for Procurement (Code HS) upon a showing by the recipient that under the circumstances domestic manufacture is not commercially feasible.

(g) Space Act Agreements. Invention and patent rights in cooperative agreements must comply with statutory and
regulatory provisions. Where circumstances permit, a Space Act agreement is available as an alternative instrument which can be more flexible in the area of invention and patent rights.

(h) Data rights. Data rights provisions can and should be tailored to best achieve the needs and objectives of the respective parties concerned.

(1) The data rights clause at §1274.905 assumes a substantially equal cost sharing relationship where collaborative research, experimental, developmental, engineering, demonstration, or design activities are to be carried out, such that it is likely that “proprietary” information will be developed and/or exchanged under the agreement. If cost sharing is unequal or no extensive research, experimental, developmental, engineering, demonstration, or design activities are likely, a different set of clauses may be appropriate.

(2) The primary question that must be answered when developing data clauses is what does each party need or intend to do with the data developed under the agreement. Accordingly, the data rights clauses may be tailored to fit the circumstances. Where conflicting goals of the parties result in incompatible data provisions, grant officers for the Government must recognize that private companies entering into cooperative agreements bring resources to that relationship and must be allowed to reap an appropriate benefit for the expenditure of those resources. However, since serving a public purpose is a major objective of a cooperative agreement, care must be exercised to ensure the recipient is not established as a long term sole source supplier of an item or service and is not in a position to take unfair advantage of the results of the cooperative agreement. Therefore, a reasonable time period (depending on the technology, two to five years after production of the data) may be established after which the data first produced by the recipient in the performance of the agreement will be made public.

(3) Data can be generated from different sources and can have various restrictions placed on its dissemination. Recipient data furnished to NASA can exist prior to, or be produced outside of, the agreement or be produced under the agreement. NASA can also produce data in carrying out its responsibilities under the agreement. Each of these areas need to be covered.

(4) For data, including software, first produced by the recipient under the agreement, the recipient may assert copyright. Data exchanged with a notice showing that the data is protected by copyright must include appropriate licenses in order for NASA to use the data as needed.

(5) Recognizing that the dissemination of the results of NASA’s activities is a primary objective of a cooperative agreement, the parties should specifically delineate what results will be published and under what conditions. This should be set forth in the clause of the cooperative agreement entitled “Publication and Reports.” Any such agreement on the publication of results should be stated to take precedence over any other clause in the cooperative agreement.

(6) In accordance with section 303(b) of the Space Act, any data first produced by NASA under the agreement which embodies trade secrets or financial information that would be privileged or confidential if it had been obtained from a private participant, will be marked with an appropriate legend and maintained in confidence for an agreed to period of up to five years (the maximum allowed by law). This does not apply to data other than that for which there has been agreement regarding publication or distribution. The period of time during which data first produced by NASA is maintained in confidence should be consistent with the period of time determined in accordance with paragraph (h)(2) of this section, before which data first produced by the recipient will be made public. Also, NASA itself may use the marked data (under suitable protective conditions) for agreed-to purposes.

§ 1274.204 Evaluation and selection.

(a) Evaluation factor. A single technical evaluation factor is typically used for CANs. That evaluation factor should be one of the following: Providing research and development or technology transfer, enhancing U.S.
§ 1274.204

14 CFR Ch. V (1–1–02 Edition)

competitiveness, or developing a capability among U.S. firms. Award to foreign firms is not precluded if the evaluation factor is satisfied. Subfactors could include such things as fostering U.S. leadership, potential to advance technologies anticipated to enhance U.S. competitiveness, timeliness of proposed accomplishments, private sector commitment to commercialization, identification of specific potential commercial markets, appropriateness of business risk, potential for broad impact on the U.S. technology and knowledge base, level of commitment (contribution of private resources to the project), appropriateness of team member participation and relationships, (this subfactor should include consideration of the participation of an appropriate mix of small business, small disadvantaged business, and women-owned small business concerns, as well as non-profits and educational institutions, including historically black colleges and universities and minority institutions) appropriateness of management planning, relevant experience, qualifications and depth of management and technical staff, quality and appropriateness of resources committed to the project, performance bench marks, technical approach, business approach/resource sharing, past performance, the articles of collaboration, etc.

(b) Technical evaluation. (1) Competitive technical proposal information shall be protected in accordance with 48 CFR (FAR) 15.207, Handling Proposals and Information. Unsolicited proposals shall be protected in accordance with 48 CFR (FAR) 15.207, Handling Proposals and Information. Unsolicited proposals shall be protected in accordance with 48 CFR (FAR) 15.608, Prohibitions, and 48 CFR (FAR) 15.609, Limited Use of Data.

(2) The technical evaluation of proposals may include peer reviews. Since the business sense of a cooperative agreement proposal is critical to its success, NASA should reserve the right to utilize appropriate outside evaluators to assist in the evaluation of such proposal elements as the business base projections, the market for proposed products, and/or the impact of anticipated product price reductions. The use of outside evaluators shall be approved in accordance with 48 CFR (NFS) 1815.207–70(b). A cover sheet with the following legend shall be affixed to data provided to outside evaluators:

**GOVERNMENT NOTICE FOR HANDLING PROPOSALS**

This proposal shall be used and disclosed for evaluation purposes only, and a copy of this Government notice shall be applied to any reproduction or abstract thereof. Any authorized restrictive notices which the submittor places on this proposal shall also be strictly complied with.

(4) Evaluation of unsolicited proposals must consider whether: the subject of the proposal is available to
§1274.204

NASA from another source without restriction; the proposal closely resembles a pending competitive acquisition; and the research proposed demonstrates an innovative and unique method, approach, or concept. Organizations submitting unaccepted proposals will be notified in writing.

(c) Documentation requirements. For proposals selected for award, the technical officer will prepare and furnish to the grant officer the following documentation:

(1) For a competitively selected proposal, a signed selection statement and technical evaluation based on the evaluation criteria stated in the solicitation.

(2) For an unsolicited proposal, a justification for acceptance of an unsolicited proposal (JAUP) prepared by the cognizant technical office. The JAUP shall be submitted for the approval of the grant officer after review and concurrence at a level above the technical officer. The evaluator shall consider the following factors, in addition to any others appropriate for the particular proposal:

(i) Unique and innovative methods, approaches or concepts demonstrated by the proposal.

(ii) Overall scientific or technical merits of the proposal.

(iii) The offeror’s capabilities, related experience, facilities, techniques, or unique combinations of these which are integral factors for achieving the proposal objectives.

(iv) The qualifications, capabilities, and experience of the proposed key personnel who are critical in achieving the proposal objectives.

(v) Current, open solicitations under which the unsolicited proposal could be evaluated.

(d) Cost evaluation. (1) The grant officer and technical team will determine whether the overall proposed cost of the project is reasonable and that the recipient’s contribution is valid, verifiable, and available. Commitments should be obtained and verified to the extent practical from the offeror or members of the consortia that the proposed contributions can and will be made as specified in the proposal or statement of work.

(i) If the recipient’s verified share on a cooperative agreement equals or exceeds 50 percent of the total cost of the agreement and the total value of the agreement is less than $5 million, the cost evaluation of the offeror’s proposal should focus on the overall reasonableness and timing of the proposer’s contribution. Cost or pricing data should not be required and information other than cost or pricing data (defined in 48 CFR (FAR) 15.403–3) should not normally be required.

(ii) If the recipient’s share is projected to be less than 50 percent or the total value of the agreement is more than $5 million, a more in-depth analysis of the proposed costs should be undertaken. Only information other than cost or pricing data should be required. An analysis consistent with 48 CFR (FAR) 15.404–1 through 15.404–2 should be performed.

(2) As part of the evaluation of the cost proposal, the source of the recipient’s contribution should be determined. Each of the cost elements contributed by the recipient and their amounts should be identified. If the contribution will consist at least in part of IR&D, the extent to which the IR&D may be recoverable from Government awards should be established. This will involve using the estimated Government participation rate of the recipient’s General and Administrative indirect cost base for the period of the cooperative agreement. An analysis consistent with 48 CFR (FAR) 15.404–1 and 15.404–2 should be performed.

(e) Consortium. If the cooperative agreement is to be awarded to a consortium, a completed, formally executed Articles of Collaboration is required prior to award.

(f) Printing, binding, and duplicating. Proposals for effort which involve printing, binding, and duplicating in excess of 25,000 pages are subject to the regulations of the Congressional Joint Committee on Printing. The technical office will refer such proposals to the Installation Central Printing Management Officer (ICPMO) to ensure compliance with NPD 1490.1. The grant officer will be advised in writing of the results of the ICPMO review.
§ 1274.205 Award procedures.

(a) General. Multiple year cooperative agreements are encouraged, but normally they should not extend beyond two years.

(b) Award above proposed amount. Awards of cooperative agreements in response to competitive solicitations will not result in providing more NASA funds or resources than was anticipated in the recipient’s proposal. If additional funds or resources are deemed necessary, they will be provided by the recipient and the Government cost share percentage will be adjusted downward.

(c) Changes to cooperative agreements. Cost growth or in-scope changes shall not increase the amount of NASA’s contribution. Additional costs which arise during the performance of the cooperative agreement are the responsibility of the recipient. Funding for work required beyond the scope of the cooperative agreement must be sought through the submission of a proposal which will be treated as an unsolicited proposal.

(d) Bilateral award. All cooperative agreements awarded under this part will be awarded on a bilateral basis.

(e) Certifications and representations. (1) Unless prohibited by statute or codified regulation, recipients will be encouraged to submit certifications and representations required by statute, executive order, or regulation on an annual basis, if the recipients have ongoing and continuing relationships with the agency. Annual certifications and representations shall be signed by responsible officials with the authority to ensure recipients’ compliance with the pertinent requirements.

(2) Civil rights requirements—non-discrimination in certain Federally-funded programs. Recipients must furnish assurances of compliance with civil rights statutes specified in 14 CFR parts 1250 through 1252. Such assurances are not required for each cooperative agreement, if they have previously been furnished and remain current and accurate. Certifications to NASA are normally made on NASA Form 1206, which may be obtained from the grant officer. Upon acceptance, the grant officer will forward assurances to the NASA Office of Equal Opportunity Programs for recording and retention purposes.

(3) NASA cooperative agreements are subject to the provisions of 14 CFR Part 1265, Government-wide Debarment and Suspension (Nonprocurement) and Government-wide requirements for Drug-Free Workplace (Grants), unless excepted by 1265.110 and 1265.610.

(4) A Lobbying Certification in accordance with 14 CFR part 1271 will be obtained prior to award.

(f) Indemnification under Public Law 85–804 is not authorized for cooperative agreements.

(g) Notice of significant action. The standard operating procedures for the Office of Public Affairs will be followed when notifying Congress and releasing information to the news media about awards. Grant/Contracting Officers must approve any exceptions to this policy.

§ 1274.206 Document format and numbering.

(a) Grant officers are authorized to use the format set forth in Exhibit B to subpart A of 14 CFR part 1260, with minimum modification, as the standard cooperative agreement cover page for the award of all cooperative agreements.

(b) Cooperative agreement numbering prior to Integrated Financial Management Project (IFMP) implementation shall conform to 48 CFR (NFS) 1804.7102–3, except that a NCC prefix will be used in lieu of the NAS prefix.

(c) There will be a phase-in term for Center implementation of the IFMP. For Centers using IFMP Performance Purchasing, the following cooperative agreement numbering system shall be used for new awards (awards made prior to conversation to IFMP will retain previously assigned numbers):

(1) Document Type for cooperative agreements. Cooperative agreements will use the prefix CO.

(2) Agency Identifier. The Agency identifier NAS shall follow the document number.

(3) Center Smart Codes. The Center identifier shall follow the document type:
(4) Fiscal Year. The fiscal year shall be represented as two digits.

(5) Procurement Code. Cooperative Agreements will be identified using “A” as the procurement code.

(6) Serial Numbers. Installations shall number cooperative agreements with commercial firms serially by fiscal year, within the same number series used for grants and cooperative agreements with non-profit organizations. The serial number shall be six digits commencing with “000001” and continuing in succession.

§ 1274.207 Distribution of cooperative agreements.

Copies of cooperative agreements and modifications will be provided to: payment office, technical officer, administrative grant officer when delegation has been made, NASA Center for Aerospace Information (CASI), Attn: Document Processing Section, 7121 Standard Drive, Hanover, MD 21076, and any other appropriate recipient. Copies of the statement of work, contained in the recipient’s proposal and accepted by NASA, will be provided to the administrative grant officer and CASI. The cooperative agreement file will contain a record of the addresses for distributing agreements and supplements.

Subpart C—Administration

§ 1274.301 Delegation of administration.

Normally, cooperative agreements will be administered by the awarding activity. NASA Form 1678, NASA Technical Officer Delegation for Cooperative Agreements with Commercial Firms, will be used to delegate responsibilities to the NASA Technical Officer.

§ 1274.302 Transfers, novations, and change of name agreements.

(a) Transfer of cooperative agreements. Novation is the only means by which a cooperative agreement may be transferred from one recipient to another.

(b) Novation and change of name. All novation agreements and change of name agreements of the recipient, prior to execution, shall be reviewed by NASA legal counsel for legal sufficiency prior to approval.

Subpart D—Government Property

§ 1274.401 Government property.

The accomplishment of a cooperative agreement may require the purchase of equipment for a wide range of purposes. If this equipment is purchased with Government funds, i.e., as part of the Government contribution to the cooperative agreement, it becomes Government property and must be disposed of in accordance with 48 CFR (FAR) part 45 at the conclusion of the cooperative agreement. In some cases, this may meet the needs of the parties. If, however, the recipient may need the equipment to continue commercial efforts following the cooperative agreement, it should be purchased by the recipient and included as a non-cash contribution of the recipient. In this way, it is not procured, not even in part, with Government funds and the Government acquires no ownership interest. Procurement by the recipient may be before or during the performance of the cooperative agreement.

Subpart E—Procurement Standards

§ 1274.501 Subcontracts.

Recipients (individual firms or consortia) are not authorized to issue grants or cooperative agreements to subrecipients. All contracts, including small purchases, awarded by recipients and their contractors shall contain the procurement provisions of appendix A to this part, as applicable and may be subject to approval requirements cited in §1274.925.
§ 1274.601 Retention and access requirements for records.

(a) This subpart sets forth requirements for record retention and access to records for awards to recipients.

(b) Financial records, supporting documents, statistical records, and all other records pertinent to an award shall be retained for a period of three years from the date of submission of the final invoice. The only exceptions are the following:

(1) If any litigation, claim, or audit is started before the expiration of the 3-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.

(2) Records for real property and equipment acquired with Federal funds shall be retained for 3 years after final disposition.

(3) When records are transferred to or maintained by NASA, the 3-year retention requirement is not applicable to the recipient.

(4) Indirect cost rate proposals, cost allocation plans, etc. as specified in paragraph (g) of this section.

(c) Copies of original records may be substituted for the original records if authorized by NASA.

(d) NASA shall request transfer of certain records to its custody from recipients when it determines that the records possess long term retention value. However, in order to avoid duplicate record keeping, NASA may make arrangements for recipients to retain any records that are continuously needed for joint use.

(e) NASA, the Inspector General, Comptroller General of the United States, or any of their duly authorized representatives, have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to the awards, in order to make audits, examinations, excerpts, transcripts and copies of such documents. This right also includes timely and reasonable access to a recipient’s personnel for the purpose of interview and discussion related to such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

(f) Unless required by statute, NASA shall not place restrictions on recipients that limit public access to the records of recipients that are pertinent to an award, except when NASA can demonstrate that such records shall be kept confidential and would have been exempted from disclosure pursuant to the Freedom of Information Act (5 U.S.C. 552) if the records had belonged to NASA.

(g) This paragraph applies to the following types of documents, and their supporting records: indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).

(1) If submitted for negotiation. If the recipient submits to NASA or the subrecipient submits to the recipient the proposal, plan, or other computation to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts on the date of such submission.

(2) If not submitted for negotiation. If the recipient is not required to submit to NASA or the subrecipient is not required to submit to the recipient the proposal, plan, or other computation for negotiation purposes, then the 3-year retention period for the proposal, plan, or other computation and its supporting records starts at the end of the fiscal year (or other accounting period) covered by the proposal, plan, or other computation.

Subpart G—Suspension and Termination

§ 1274.701 Suspension or termination.

A cooperative agreement provides both NASA and the recipient the ability to terminate the agreement if it is in their best interests to do so. For example, NASA may terminate the agreement if the recipient is not making anticipated technical progress, if the recipient materially fails to comply with
the terms of the agreement, if the recipient materially changes the objective of the agreement, or if appropriated funds are not available to support the program. Similarly, the recipient may terminate the agreement if, for example, technical progress is not being made, if the firms are shifting their technical emphasis, or if other technological advances have made the effort obsolete. NASA or the recipient may also suspend the cooperative agreement for a short period of time if an assessment needs to be made as to whether the agreement should be terminated.

Subpart H—After-the-Award Requirements

§ 1274.801 Purpose.

Sections 1274.802 and 1274.803 contain closeout procedures and other procedures for subsequent disallowances and adjustments.

§ 1274.802 Closeout procedures.

(a) Recipients shall submit, within 90 calendar days after the date of completion of the cooperative agreement, all financial, performance, and other reports as required by the terms and conditions of the award. Extensions may be approved when requested by the recipient.

(b) The recipient shall account for any real and personal property acquired with Federal funds or received from the Federal Government in accordance with subpart D of this part.

§ 1274.803 Subsequent adjustments and continuing responsibilities.

The closeout of an award does not affect any of the following:

(a) Audit requirements in § 1274.932.

(b) Property management requirements in subpart D of this part.

(c) Records retention as required in § 1274.601.

Subpart I—Provisions and Special Conditions

§ 1274.901 Other provisions and special conditions.

The provisions set forth in this subpart are to be incorporated in and made a part of all cooperative agreements. The provisions at §§ 1274.902 through 1274.909 and the provision at § 1274.933 are to be incorporated in full text substantially as stated in this subpart. The provisions at §§ 1274.910 through 1274.932 and § 1274.934 will be incorporated by reference in an enclosure to each cooperative agreement. For inclusion of provisions in subcontracts, see subpart E, Procurement Standards, of this Part.

§ 1274.902 Purpose.

PURPOSE

October 2000

The purpose of this cooperative agreement is to conduct a shared resource project that will lead to . This cooperative agreement will advance the technology developments and research which have been performed on . The specific objective is to . This work will culminate in .

[End of provision]

§ 1274.903 Responsibilities.

RESPONSIBILITIES

October 2000

(a) This cooperative agreement will include substantial NASA participation during performance of the effort. NASA and the Recipient agree to the following Responsibilities, a statement of cooperative interactions to occur during the performance of this effort. NASA and the Recipient shall exert all reasonable efforts to fulfill the responsibilities stated below.

(b) NASA Responsibilities. The following NASA responsibilities are hereby set forth with anticipated start and ending dates, as appropriate:

<table>
<thead>
<tr>
<th>Responsibility</th>
<th>Start</th>
<th>End</th>
</tr>
</thead>
</table>

(c) Recipient Responsibilities. The Recipient shall be responsible for particular aspects of project performance as set forth in the technical proposal dated , attached hereto (or Statement of Work dated , attached hereto). The following responsibilities are hereby set forth with anticipated start and ending dates, as appropriate:

<table>
<thead>
<tr>
<th>Responsibility</th>
<th>Start</th>
<th>End</th>
</tr>
</thead>
</table>

(d) Since NASA contractors may obtain certain intellectual property rights arising from work for NASA in support of this agreement, NASA will inform Recipient whenever NASA intends to use NASA contractors to perform technical engineering services in support of this agreement.
§ 1274.904 Resource sharing requirements.

RESOURCE SHARING REQUIREMENTS

October 2000

(a) NASA and the Recipient will share in providing the resources necessary to perform the agreement. NASA funding and non-cash contributions (personnel, equipment, facilities, etc.) and the dollar value of the Recipient's cash and/or non-cash contribution will be on a (NASA)-- (Recipient) basis. Criteria and procedures for the allowability and allocability of cash and non-cash contributions shall be governed by Section 23, “Cost Sharing or Matching,” of OMB Circular A–110. The “applicable federal cost principles” cited in OMB Circular A–110 shall be determined in accordance with 1274.919.

(b) The Recipient's share shall not be charged to the Government under this agreement or under any other contract, grant, or cooperative agreement, except to the extent that the Recipient's contribution may be allowable IR&D costs pursuant to 48 CFR (NFS) 1831.205.

§ 1274.905 Rights in data.

(As noted in §1274.203(h)(1), the following provision assumes a substantially equal cost sharing relationship where collaborative research, experimental, developmental, engineering, demonstration, or design activities are to be carried out, such that it is likely that "proprietary" information will be developed and/or exchanged under the agreement. If cost sharing is unequal or no extensive research, experimental, developmental, engineering, demonstration, or design activities are likely, a different set of provisions may be appropriate. The grant officer is expected to complete and/or select the appropriate bracketed language under the provision for those paragraphs dealing with data first produced under the cooperative agreement. In addition, the grant officer may, in consultation with the Center's Patent or Intellectual Property Counsel, tailor the provision to fit the particular circumstances of the program and/or the recipient's need to protect specific proprietary information.)

RIGHTS IN DATA

October 2000

(a) Definitions.

"Data," means recorded information, regardless of form, the media on which it may be recorded, or the method of recording. The term includes, but is not limited to, data of a scientific or technical nature, computer software and documentation thereof, and data comprising commercial and financial information.

(b) Data Categories.

(1) General: Data exchanged between NASA and Recipient under this cooperative agreement will be exchanged without restriction as to its disclosure, use or duplication except as otherwise provided below in this provision.

(2) Background Data: In the event it is necessary for Recipient to furnish NASA with Data which existed prior to, or produced outside of, this cooperative agreement, and such Data embodies trade secrets or comprises commercial or financial information which is privileged or confidential, and such Data is so identified with a suitable notice or legend, the Data will be maintained in confidence and disclosed and used by NASA and its contractors (under suitable protective conditions) only for the purpose of carrying out NASA’s responsibilities under this cooperative agreement. Upon completion of activities under this agreement, such Data will be disposed of as requested by Recipient.

(3) Data first produced by Recipient: In the event Data first produced by Recipient in carrying out Recipient’s responsibilities under this cooperative agreement is furnished to NASA, and Recipient considers such Data to embody trade secrets or to comprise commercial or financial information which is privileged or confidential, and such Data is so identified with a suitable notice or legend, the Data will be maintained in confidence for a period of (insert “two” to “five”) years after development of the data and be disclosed and used by (“NASA” or “the Government,” as appropriate) and its contractors (under suitable protective conditions) only for (insert appropriate purpose; for example: experimental; evaluation; research; development, etc.) by or on behalf of (“NASA” or “the Government” as appropriate) during that period. In order that (“NASA” or the “Government,” as appropriate) and its contractors may exercise the right to use such Data for the purposes designated above, NASA, upon request to the Recipient, shall have the right to review and request delivery of Data first produced by Recipient. Delivery shall be made within a time period specified by NASA.

(4) Data first produced by NASA: As to Data first produced by NASA in carrying out NASA’s responsibilities under this cooperative agreement and which Data would embody trade secrets or would comprise commercial or financial information that is privileged or confidential if it had been obtained from the Recipient, will be marked with an appropriate legend and maintained in confidence for an agreed to period of up to ( ) years (INSERT A PERIOD UP TO 5 YEARS) after development of the information, with the express understanding that during the
§ 1274.906 Designation of new technology representative and patent representative.

Designation of New Technology Representative and Patent Representative

October 2000

(a) For purposes of administration of the clause of this cooperative agreement entitled “PATENT RIGHTS—RETENTION BY THE CONTRACTOR (LARGE BUSINESS)” or “PATENT RIGHTS—RETENTION BY THE CONTRACTOR (SMALL BUSINESS)”, the following named representatives are hereby designated by the Grant Officer to administer such clause:

<table>
<thead>
<tr>
<th>Title</th>
<th>Office Code</th>
<th>Address</th>
</tr>
</thead>
<tbody>
<tr>
<td>New Technology Representative</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Patent Representative</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(b) Reports of reportable items, and disclosure of subject inventions, interim reports, final reports, utilization reports, and other reports required by the clause, as well as any correspondence with respect to such matters, should be directed to the New Technology Representative unless transmitted in response to correspondence or request from the Patent Representative. Inquiries or requests regarding disposition of rights, election of rights, or related matters should be directed to the Patent Representative. This clause shall be included in any subcontract hereunder requiring “PATENT RIGHTS—RETENTION BY THE CONTRACTOR (LARGE BUSINESS)” clause or “PATENT RIGHTS—RETENTION BY THE CONTRACTOR (SMALL BUSINESS)” clause.
§ 1274.907 Disputes.

Disputes

October 2000

(a) In the event that a disagreement arises, representatives of the parties shall enter into discussions in good faith and in a timely and cooperative manner to seek resolution. If these discussions do not result in a satisfactory solution, the aggrieved party may seek a decision from the Dispute Resolution Official under paragraph (b) of this provision. This request must be presented no more than (3) three months after the events giving rise to the disagreement have occurred.

(b) The aggrieved party may submit a written request for a decision to the [Suggest this be the Center Ombudsman], who is designated as the Dispute Resolution Official. The written request shall include a statement of the relevant facts, a discussion of the unresolved issues, and a specification of the clarification, relief, or remedy sought. A copy of this written request and all accompanying materials must be provided to the other party at the same time. The other party shall submit a written position on the matters in dispute within thirty (30) calendar days after receiving this notification that a decision has been requested. The Dispute Resolution Official shall conduct a review of the matters in dispute and render a decision in writing within thirty (30) calendar days of receipt of such written position.

§ 1274.908 Milestone payments.

Milestone Payments

October 2000

(a) By submission of the first invoice, the Recipient is certifying that it has an established accounting system which complies with generally accepted accounting principles, with the requirements of this agreement, and that appropriate arrangements have been made for receiving, distributing, and accounting for Federal funds received under this agreement.

(b) Payments will be made upon the following milestones: (The schedule for payments may be based upon the Recipient’s completion of specific tasks, submission of specified reports, or whatever is appropriate.)

<table>
<thead>
<tr>
<th>Date</th>
<th>Payment Milestone</th>
<th>Amount</th>
</tr>
</thead>
</table>

(c) Upon submission by the Recipient of invoices in accordance with the provisions of the agreement and upon certification by NASA of completion of the payable milestone, the grant officer shall authorize payment.

(d) A payment milestone may be successfully completed in advance of the date appearing in paragraph (b) of this section. However, payment shall not be made prior to that date without the written consent of the Grant Officer.

(e) The Recipient is not entitled to partial payment for partial completion of a payment milestone.

(f) Unless approved by the Grant Officer, all preceding payment milestones must be completed before payment can be made for the next payment milestone.

(g) Invoices hereunder shall be submitted in the original and five copies to the Grant Officer for certification.

§ 1274.909 Term of this agreement.

Term of this Agreement

October 2000

The agreement commences on the effective date indicated on the attached cover sheet and continues until the expiration date indicated on the attached cover sheet unless terminated by either party. If all resources are expended prior to the expiration date of the agreement, the parties have no obligation to continue performance and may elect to cease at that point. The parties may extend the expiration date if additional time is required to complete the milestones at no increase in Government resources. Provisions of this agreement, which, by their express terms or by necessary implication, apply for periods of time other than that specified as the agreement term, shall be given effect notwithstanding expiration of the term of the agreement.

§ 1274.910 Authority.

Authority

October 2000

This is a cooperative agreement as defined in 31 U.S.C. 6305 (the Chiles Act) and is entered into pursuant to the authority of 42 U.S.C. 2451, et seq. (the Space Act).

§ 1274.911 Patent rights.

Patent Rights (July 2000)

(a) Definitions.

(1) "Administrator" means the Administrator or Deputy Administrator of NASA.
§ 1274.911 Licensing of Government Owned Inventions

(2) "Invention" means any invention or discovery which is or may be patentable or otherwise protectable under Title 35 of the United States Code.

(i) "Made" when used in relation to any invention means the conception or first actual reduction to practice such invention.

(iv) "Nonprofit organization" means a domestic nonprofit educational organization qualified under the State nonprofit organization statute.

(v) "Practice application" means to manufacture, in the case of a composition or product; to practice, in the case of a process or method; or to operate, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

(3) NASA Contractor Inventions. In the event NASA contractors are tasked to perform work in support of specified NASA activities under this cooperative agreement and inventions are made by contractor employees, the Recipient will normally retain title to its employee inventions in accordance with 35 U.S.C. 202, 14 CFR part 1245, and Executive Order 12591. In the event the Recipient decides not to pursue right to title in any such invention and NASA obtains title to such inventions, NASA will use reasonable efforts to report such inventions and, upon timely request, NASA will use its best efforts to grant the Recipient or designated Consortium Member (if applicable) the first option to acquire either an exclusive or partially exclusive, revocable, royalty-bearing license, upon terms to be subsequently negotiated, for any patent applications and patents covering such inventions, and subject to the license reserved in paragraph (b)(5)(i) of this section.

(4) Joint NASA and Recipient Inventions. NASA and Recipient agree to use reasonable efforts to identify and report to each other any inventions made jointly between NASA employees (or employees of NASA Contractors) and employees of Recipient.

(i) For other than small business firms and nonprofit organizations the Administrator may agree that the United States will refrain from exercising its undivided interest in a manner inconsistent with Recipient's commercial interest and to cooperate with Recipient in obtaining patent protection on
its undivided interest on any waived inventions subject, however, to the condition that Recipient makes its best efforts to bring the invention to the point of practical application at the earliest practicable time. In the event that the Administrator determines that such efforts are not undertaken, the Administrator may void NASA’s agreement to refrain from exercising its undivided interest and grant licenses for the practice of the invention so as to further its development. In the event that the Administrator decides to void NASA’s agreement to refrain from exercising its undivided interest and grant licenses for the invention, notice shall be given to the Inventions and Contributions Board as to why such action should not be taken. Either alternative will be subject to the applicable license or licenses reserved in paragraph (b)(5) of this section.

(1) For small business firms and nonprofit organizations, NASA may assign or transfer whatever rights it may acquire in a subject invention from its employee to the Recipient as authorized by 35 U.S.C. 202(e).

(2) Minimum rights reserved by the Government. Any license or assignment granted Recipient pursuant to paragraphs (b)(2), (3), or (4) of this section will be subject to the reservation of the following licenses:

(i) As to inventions made solely by, or jointly with, employees of NASA Contractors, the rights in the Government of the United States to practice and have practiced the invention by or on behalf of the United States; and

(ii) As to inventions made solely by, or jointly with, employees of NASA Contractors, the rights in the Government of the United States as set forth in paragraph (b)(5)(i) of this section, as well as the revocable, nonexclusive, royalty-free license in the contractor as set forth in 14 CFR 1245.108.

(3) Preference for United States manufacture. The Recipient agrees that any products embodying subject inventions or produced through the use of subject inventions shall be manufactured substantially in the United States. However, in individual cases, the requirement to manufacture substantially in the United States may be waived by the Associate Administrator for Procurement (Code HS) with the concurrence of the Associate General Counsel for Intellectual Property upon a showing by the Recipient that under the circumstances domestic manufacture is not commercially feasible.

(4) Work performed by the Recipient under this cooperative agreement is considered undertaken to carry out a public purpose of support and/or stimulation rather than for acquiring property or services for the direct benefit or use of the Government. Accordingly, such work by the Recipient is not considered “by or for the United States” and the Government assumes no liability for infringement by the Recipient under 28 U.S.C. 1498.

§ 1274.912 Patent rights—retention by the Recipient (large business).

Preface for United States manufacture. The Recipient agrees that any products embodying subject inventions or produced through the use of subject inventions shall be manufactured substantially in the United States. However, in individual cases, the requirement to manufacture substantially in the United States may be waived by the Associate Administrator for Procurement (Code HS) with the concurrence of the Associate General Counsel for Intellectual Property upon a showing by the Recipient that under the circumstances domestic manufacture is not commercially feasible.

(1) Administrator, as used in this clause, means the Administrator of the National Aeronautics and Space Administration (NASA) or duly authorized representative.

(2) Invention, as used in this clause, means any invention or discovery which is or may be patentable or otherwise protectable under Title 35 of the United States Code.

(3) Made, as used in relation to any invention, means the conception or first actual reduction to practice such invention.

(4) Nonprofit organization, as used in this clause, means a domestic university or other institution of higher education or an organization of the type described in Section 501(a) of the Internal Revenue Code of 1986 (26 U.S.C. 501(a)) and exempt from taxation under Section 501(c) of the Internal Revenue Code (26 U.S.C. 501(c)), or any domestic nonprofit scientific or educational organization qualified under a State nonprofit organization statute.

(5) Practical application, as used in this clause, means to manufacture, in the case of a composition or product; to practice, in the case of a process or method; or to operate, in case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

(6) Reportable item, as used in this clause, means any invention, discovery, improvement, or innovation of the Recipient, whether or not the same is or may be patentable or otherwise protectable under Title 35 of the United States Code, conceived or first actually reduced to practice in the performance of any work under this contract or in the performance of any work that is reimbursable under any clause in this contract providing for reimbursement of costs incurred prior to the effective date of this contract.

(7) “Small business firm,” as used in this clause, means a domestic small business concern as defined at 13 U.S.C. 632 and implementing regulations (see 13 CFR 121.401 et seq.) of the Administrator of the Small Business Administration.

(8) “Subject invention,” as used in this clause, means any reportable item which is or may be patentable or otherwise protectable under Title 35 of the United States Code, or any novel variety of plant.
that is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321, et seq.).

(b) Allocation of principal rights.

(1) Any reportable item that the Administrator considers to be a subject invention shall be presumed to have been made in the manner specified in paragraph (1) or (2) of section 305(a) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2457(a)) (hereinafter called "the Act"), and the above presumption shall be conclusive unless at the time of reporting the reportable item the Recipient submits to the Grant Officer a written statement, containing supporting details, demonstrating that the reportable item was not made in the manner specified in paragraph (1) or (2) of section 305(a) of the Act.

(ii) Regardless of whether title to a given subject invention would otherwise be subject to an advance waiver or is the subject of a petition for waiver, the Recipient may nevertheless file the statement described in paragraph (b)(1)(i) of this section. The Administrator will review the information furnished by the Recipient in any such statement and any other available information relating to the circumstances surrounding the making of the subject invention and will notify the Recipient whether the Administrator has determined that the subject invention was made in the manner specified in paragraph (1) or (2) of Section 305(a) of the Act.

(ii) Property rights in subject inventions. Each subject invention for which the presumption of paragraph (b)(1)(i) of this section is conclusive or for which there has been a determination that it was made in the manner specified in paragraph (1) or (2) of section 305(a) of the Act shall be the exclusive property of the United States as represented by NASA unless the Administrator waives all or any part of the rights of the United States, as provided in paragraph (b)(3) of this section.

(iii) Waiver of rights.

(1) The Recipient is hereby granted a revocable, noneexclusive, royalty-free license for each patent application filed in any country on a Recipient subject invention and any resulting patent in which the Government acquires title, unless the Recipient fails to disclose the subject invention within the times specified in paragraph (e)(2) of this section.

The Recipient’s license extends to its domestic subsidiaries and affiliates, if any, within the corporate structure of which the Recipient is a party and includes the right to grant sublicenses of the same scope to the extent the Recipient was legally obligated to do so at the time the contract was awarded. The license is transferable only with the approval of the Administrator except when transferred to the successor of that part of the Recipient’s business to which the invention pertains.

(2) The Recipient’s domestic license may be revoked or modified by the Administrator to the extent necessary to achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with 14 CFR part 1245, subpart 2. Licensing of NASA Inventions. This license will not be revoked in that field of use or the geographical areas in which the Recipient has achieved practical application and continues to make the benefits of the invention reasonably accessible to the public. The license in any foreign country may be revoked or modified at the discretion of the Administrator to the

| National Aeronautics and Space Admin. | § 1274.912 |

473
§ 1274.912

extent the Recipient, its licensees, or its domestic subsidiaries or affiliates have failed to achieve practical application in that foreign country.

(3) Before revocation or modification of the license, the Recipient will be provided a written notice of the Administrator’s intention to revoke or modify the license, and the Recipient will be allowed 30 days (or such other time as may be authorized by the Administrator for good cause shown by the Recipient) after the notice to show cause why the license should not be revoked or modified. The Recipient has the right to appeal, in accordance with 14 CFR 1245.211, any decision concerning the revocation or modification of its license.

(e) Invention identification, disclosures, and reports.

(1) The Recipient shall establish and maintain active and effective procedures to assure that reportable items are promptly identified and disclosed to Recipient personnel responsible for the administration of this clause within six months of conception and/or first actual reduction to practice, whichever occurs first in the performance of work under this contract. These procedures shall include the maintenance of laboratory notebooks or equivalent records and other records as are reasonably necessary to document the conception and/or the first actual reduction to practice of the reportable items, and records that show that the procedures for identifying and disclosing reportable items are followed. Upon request, the Recipient shall furnish the Grant Officer a description of such procedures for evaluation and for determination as to their effectiveness.

(2) The Recipient will disclose each reportable item to the Grant Officer within two months after the inventor discloses it in writing to Recipient personnel responsible for the administration of this clause or, if earlier, within six months after the Recipient becomes aware that a reportable item has been made, but in any event for subject inventions before any on sale, public use, or publication of such invention known to the Recipient relating to the conception or first reduction to practice of inventions in the same field of technology as the work under this cooperative agreement, have the right to examine any books (including laboratory notebooks), records, and documents of the Recipient and its inventors having a direct relationship to the conception or first actual reduction to practice of inventions in the same field of technology as the work under this contract.

(iv) The Recipient and its inventors have complied with the procedures.

(5) The Recipient agrees, subject to 48 CFR (FAR) 27.302(j), that the Government may duplicate and disclose subject invention disclosures and all other reports and papers furnished or required to be furnished pursuant to this clause.

(f) Examination of records relating to inventions.

(1) The Grant Officer or any authorized representative shall, pursuant to the Retention and Examination of Records provision of this cooperative agreement, have the right to examine any books (including laboratory notebooks), records, and documents of the Recipient relating to the conception or first actual reduction to practice of inventions in the same field of technology as the work under this contract to determine whether:

(i) Any such inventions are subject inventions;

(ii) The Recipient has established and maintained the procedures required by paragraph (e)(1) of this section; and

(iii) The Recipient and its inventors have complied with the procedures.

(2) If the Grant Officer learns of an unreported Recipient invention that the Grant Officer believes may be a subject invention, the Recipient may be required to disclose the invention to the agency for a determination of ownership rights.

14 CFR Ch. V (1–1–02 Edition)
(3) Any examination of records under this paragraph will be subject to appropriate conditions to protect the confidentiality of the information involved.

(g) Subcontracts.

(1) Unless otherwise authorized or directed by the Grant Officer, the Recipient shall—

(i) Include this Clause Patent Rights—Retention by the Recipient—(Large Business) (suitably modified to identify the parties) in any subcontract hereunder (regardless of tier) with other than a small business firm or nonprofit organization for the performance of experimental, developmental, or research work; and

(ii) Include the clause Patent Rights—Retention by the Recipient—(Small Business) (suitably modified to identify the parties) in any subcontract hereunder (regardless of tier) with a small business firm or nonprofit organization for the performance of experimental, developmental, or research work.

(2) In the event of a refusal by a prospective subcontractor to accept such a clause the Recipient—

(i) Shall promptly submit a written notice to the Grant Officer setting forth the subcontractor’s reasons for such refusal and other pertinent information that may expedite disposition of the matter; and

(ii) Shall not proceed with such subcontract without the written authorization of the Grant Officer.

(3) The Recipient shall promptly notify the Grant Officer in writing upon the award of any subcontract at any tier containing a patent rights clause by identifying the subcontractor, the applicable patent rights clause, the work to be performed under the subcontract, and the dates of award and estimated completion. Upon request of the Grant Officer, the Recipient shall furnish a copy of such subcontract, and, no more frequently than annually, a listing of the subcontractors that have been awarded.

(4) The subcontractor will retain all rights provided for the Recipient in the clause of paragraph (g)(1) or (1)(i) of this section, whichever is included in the subcontract, and the Recipient will not, as part of the consideration for awarding the subcontract, obtain rights in the subcontractor’s subject inventions.

(5) Notwithstanding paragraph (g)(4) of this section, and in recognition of the Contractor’s substantial contribution of funds, facilities and/or equipment to the work performed under the cooperative agreement, the Recipient is authorized, subject to the rights of NASA set forth elsewhere in this clause, to:

(i) Acquire by negotiation and mutual agreement rights to a subcontractor’s subject inventions as the Recipient may deem necessary to obtaining and maintaining of such private support; and

(ii) Request, in the event of inability to reach agreement pursuant to paragraph (g)(5)(i) of this section, that NASA invoke exceptional circumstances as necessary pursuant to 37 CFR 401.3(a)(2) if the proposed subcontractor is a small business firm or organization, or for all other organizations, request that such rights for the Recipient be included as an additional reservation in a waiver granted pursuant to 14 CFR part 1245, subpart 1. Any such requests to NASA should be prepared in consideration of the following guidance and submitted to the Contracting Officer.

(A) Exceptional circumstances: A request that NASA make an “exceptional circumstances” determination pursuant to 37 CFR 401.3(a)(2) must state the scope of rights sought by the Recipient pursuant to such determination; identify the proposed subcontractor and the work to be performed under the subcontract; and state the need for the determination.

(B) Waiver petition: The subcontractor should be advised that unless it requests a waiver of title pursuant to the NASA Patent Waiver Regulations (14 CFR part 1245, subpart 1), NASA will acquire title to the subject invention (42 U.S.C. 2457, as amended, sec. 305). If a waiver is not requested or granted, the Recipient may request a license from NASA (see licensing of NASA inventions, 14 CFR part 1245, subpart 2). A subcontractor requesting a waiver must follow the procedures set forth in the attached clause REQUESTS FOR WAIVER OF RIGHTS—LARGE BUSINESS.

(h) Preference for United States manufacture. The Recipient agrees that any products embodying subject inventions or produced through the use of subject inventions shall be manufactured substantially in the United States. However, in individual cases, the requirement to manufacture substantially in the United States may be waived by the Associate Administrator for Procurement (Code HS) with the concurrence of the Associate General Counsel for Intellectual Property upon a showing by the Recipient that under the circumstances domestic manufacture is not commercially feasible.

(i) March-in rights. The Recipient agrees that, with respect to any subject invention in which it has acquired title, NASA has the right in accordance with the procedures in 37 CFR 401.6 and any supplemental regulations of the agency to require the Recipient, an assignee or exclusive licensee of a subject invention to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the subcontractor, assignee, or exclusive licensee refuses such a request NASA has the right to grant such a license itself if the Federal agency determines that—
§ 1274.913 Patent rights—retention by the Recipient (small business).

The Recipient may retain the right, title, and interest throughout the world to each subject invention subject to the provisions of this clause and 35 U.S.C. 203. With respect to any invention in which the Recipient retains title, the Federal Government shall have a nonexclusive, nontransferable, irrevocable, paid-up license to practice or have practiced for or on behalf of the United States the subject invention throughout the world.

(a) Definitions.

(1) “Invention,” as used in this clause, means any invention or discovery which is or may be patentable or otherwise protectable under title 35 of the U.S.C.

(2) Made, as used in this clause, when used in relation to any invention means the conception or first actual reduction to practice such invention.

(3) Nonprofit organization, as used in this clause, means a university or other institution of higher education or an organization of the type described in Section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under Section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)) or any nonprofit scientific or educational organization qualified under a state nonprofit organization statute.

(4) Practical application, as used in this clause, means to manufacture, in the case of a composition of product; to practice, in the case of a process or method, or to operate, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

(5) Small business firm, as used in this clause, means a small business concern as defined at Section 2 of Public Law 85-536 (15 U.S.C. 632) and implementing regulations (see 13 CFR 121.401 et seq.) of the Administrator of the Small Business Administration.

(b) Allocation of principal rights. The Recipient may retain the entire right, title, and interest throughout the world to each subject invention in which the Recipient retains title, the Federal Government shall have a nonexclusive, nontransferable, irrevocable, paid-up license to practice or have practiced for or on behalf of the United States the subject invention throughout the world.

(c) Invention disclosure, election of title, and filing of patent application by Recipient.

(1) The Recipient will disclose each subject invention to NASA within two months after the inventor discloses it in writing to Recipient personnel responsible for patent matters. The disclosure to the agency shall be in the form of a written report and shall identify the contract under which the invention was made and the inventor(s). It shall be sufficiently complete in technical detail to convey a clear understanding to the extent known at the time of the disclosure, of the nature, purpose, operation, and the physical, chemical, biological or electrical characteristics of the invention. The disclosure shall also identify any publication, on sale or public use of the invention and whether a manuscript describing the invention has been submitted for publication and, if so, whether it has been accepted for publication at the time of disclosure. In addition, after disclosure to the agency, the Recipient will promptly notify the agency of the acceptance of any manuscript describing the invention for publication or of any sale or public use planned by the Recipient.

(2) The Recipient will elect in writing whether or not to retain title to any such invention by notifying NASA within two years of disclosure to the Federal agency. However, the period for election of title may be shortened by the agency to a date that is no more than 60 days prior to the end of the statutory period.

(3) The Recipient will file its initial patent application on a subject invention to which it elects to retain title within one year after election of title or, if earlier, prior to the end of any statutory period wherein valid patent protection can still be obtained in the United States, except that this period may be extended by the agency to a date that is no more than 60 days prior to the end of the statutory period.
(3) Before revocation or modification of the license, NASA will furnish the Recipient a written notice of its intention to revoke or modify the license, and the Recipient will be allowed 30 days (or such other time as may be authorized by NASA for good cause shown by the Recipient) after the notice to show cause why the license should not be revoked or modified. The Recipient has the right to appeal, in accordance with applicable regulations in 37 CFR part 404, concerning the licensing of Government-owned inventions, any decision concerning the revocation or modification of the license.

(1) Recipient action to protect the Government’s interest.

(1) The Recipient agrees to execute or to have executed and promptly deliver to NASA all instruments necessary to:

(i) Establish or confirm the rights the Government has throughout the world in those subject inventions to which the Subcontractor elects to retain title, and,

(ii) Convey title to the Federal agency when requested under paragraph (d) of this section and to enable the Government to obtain patent protection throughout the world in that subject invention.

(2) The Recipient agrees to require, by written agreement, its employees, other than clerical and non-technical employees, to disclose promptly in writing to personnel identified as responsible for the administration of patent matters and in a format suggested by the Recipient each subject invention made under contract in order that the Recipient can comply with the disclosure provisions of paragraph (c) of this section, and to execute all papers necessary to file patent applications on subject inventions and to establish the Government’s rights in the subject inventions. This disclosure format should require, as a minimum, the information required by paragraph (c)(1) of this section. The Recipient shall instruct such employees, through employee agreements or other suitable educational programs, on the importance of reporting inventions in sufficient time to permit the filing of patent applications prior to U.S. or foreign statutory bars.

(3) The Recipient will notify NASA of any decisions not to continue the prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on a patent, in any country, not less than 30 days before the expiration of the response period required by the relevant patent office.
§ 1274.913  
(4) The Recipient agrees to include, within the specification of any United States patent application and any patent issuing thereon covering a subject invention the following statement, in accordance with Government support under (identify the agreement) awarded by NASA. The Government has certain rights in the invention.

(i) A listing every 12 months (or such longer period as the Grant Officer may specify) from the date of the Agreement, of all subject inventions required to be disclosed during the period.

(ii) A final report prior to closeout of the Agreement listing all subject inventions or certifying that there were none.

(iii) Upon request, the filing date, serial number, and title, a copy of the patent application, and patent number and issue date for any subject invention in any country in which the Recipient has applied for patents.

(iv) An irrevocable power to inspect and make copies of the patent application file, by the Government, when a Federal Government employee is a co-inventor.

(c) Subcontracts.

(1) Unless otherwise authorized or directed by the Grant Officer, the Recipient shall—

(i) Include this clause (Patent Rights—Retention by the Recipient (Small Business)), suitably modified to identify the parties, in all subcontracts, regardless of tier, for experimental, developmental, or research work to be performed by a small business firm or domestic nonprofit organization; and

(ii) Include in all other subcontracts, regardless of tier, for experimental, developmental, or research work the patent rights clause (Patent Rights—Retention by the Recipient (Large Business)).

(2) In the event of a refusal by a prospective subcontractor to accept such a clause the Recipient—

(i) Shall promptly submit a written notice to the Grant Officer setting forth the subcontractor’s reasons for such refusal and other pertinent information that may expedite disposition of the matter; and

(ii) Shall not proceed with such subcontract without the written authorization of the Grant Officer.

(3) The Recipient shall promptly notify the Grant Officer in writing upon the award of any subcontract at any tier containing a patent rights clause by identifying the subcontractor, the applicable patent rights clause, the work to be performed under the subcontract, and the dates of award and estimated completion. Upon request of the Grant Officer, the Recipient shall furnish a copy of such subcontract, and, no more frequently than annually, a listing of the subcontracts that have been awarded.

(4) The subcontractor will retain all rights provided for the Recipient in the clause under paragraph (g)(1)(i) or (ii) of this section, whichever is included in the subcontract, and the Recipient will not, as part of the consideration for awarding the subcontract, obtain rights in the subcontractor’s subject inventions.

(5) Notwithstanding paragraph (g)(4) of this section, and in recognition of the Contractor’s substantial contribution of funds, facilities and/or equipment to the work performed under this cooperative agreement, the Recipient is authorized, subject to the rights of NASA set forth elsewhere in this clause, to—

(i) Acquire by negotiation and mutual agreement rights to a subcontractor’s subject inventions as the Recipient may deem necessary to obtaining and maintaining of such private support; and

(ii) Request, in the event of inability to reach agreement pursuant to paragraph (g)(5)(i) of this section that NASA invoke exceptional circumstances as necessary pursuant to 37 CFR 401.3(a)(2) if the prospective subcontractor is a small business firm or organization, or for all other organizations, request that such rights for the Recipient be included as an additional reservation in a waiver granted pursuant to 14 CFR part 1245, subpart 1. Any such requests to NASA should be prepared in consideration of the following guidance and submitted to the Contracting Officer.

(A) Exceptional circumstances: A request that NASA make an “exceptional circumstances” determination pursuant to 37 CFR 401.3(a)(2) must state the scope of rights sought by the Recipient pursuant to such determination; identify the proposed subcontractor and the work to be performed under the subcontract; and state the need for the determination.

(B) Waiver petition: The subcontractor should be advised that unless it requests a waiver of title pursuant to the NASA Patent Waiver Regulations (14 CFR part 1245, subpart 1), NASA will acquire title to the subject invention (42 U.S.C. 2457, as amended, sec. 305). If a waiver is not requested or granted, the Recipient may request a license from NASA (see licensing of NASA inventions, 14 CFR part 1245, subpart 2). A subcontractor requesting a waiver must follow the procedures set forth in the REQUESTS FOR WAIVER OF RIGHTS—LARGE BUSINESS provision.

(h) Reporting on utilization of subject inventions. The Recipient agrees to submit, on request, periodic reports no more frequently than annually on the utilization of a subject invention or on efforts at obtaining such utilization that are being made by the Recipient or its licensees or assignees. Such reports shall include information regarding the status of development, date of first commercial sale or use, gross royalties received by
the Recipient, and such other data and information as the agency may reasonably specify. The Recipient also agrees to provide additional reports as may be requested by the agency in connection with any march-in proceeding under taken by the agency in accordance with paragraph (i) of this section. As required by 35 U.S.C. 202(c)(5), the agency agrees it will not disclose such information to persons outside the Government without permission of the Recipient.

1. Preference for United States manufacture. The Recipient agrees that any products embodying subject inventions or produced through the use of subject inventions shall be manufactured substantially in the United States. However, in individual cases, the requirement to manufacture substantially in the United States may be waived by the Associate Administrator for Procurement (Code HS) with the concurrence of the Associate General Counsel for Intellectual Property upon a showing by the Recipient that under the circumstances domestic manufacture is not commercially feasible.

2. March-in rights. The Recipient agrees that, with respect to any subject invention in which it has acquired title, NASA has the right in accordance with the procedures in 37 CFR 401.6 and any supplemental regulations of the agency to require the Recipient, an assignee or exclusive licensee of a subject invention to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the subcontractor, assignee, or exclusive licensee refuses such a request NASA has the right to grant such a license itself if the Federal agency determines that—

1. Such action is necessary because the Recipient or assignee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the subject invention in such field of use;

2. Such action is necessary to alleviate health or safety needs which are not reasonably satisfied by the Recipient, assignee, or their licensees;

3. Such action is necessary to meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the Recipient, assignee, or licensees; or

4. Such action is necessary because the agreement required by paragraph (i) of this section has not been obtained or waived or because a licensee of the exclusive right to use or sell any subject invention in the United States is in breach of such agreement.

3. Special provisions for Agreements with nonprofit organizations. If the Recipient is a nonprofit organization, it agrees that—

1. Rights to a subject invention in the United States may not be assigned without the approval of NASA, except where such assignment is made to an organization which has one of its primary functions the management of inventions; provided, that such assignee will be subject to the same provisions as the Recipient;

2. The Recipient will share royalties collected on a subject invention with the inventor, including Federal employee co-inventors (when NASA deems it appropriate) when the subject invention is assigned in accordance with 35 U.S.C. 202(e) and 37 CFR 401.10;

3. The balance of any royalties or income earned by the Recipient with respect to subject inventions, after payment of expenses (including payments to inventors) incidental to the administration of subject inventions will be utilized for the support of scientific research or education; and

4. It will make efforts that are reasonable under the circumstances to attract licensees of subject inventions that are small business firms, and that it will give a preference to a small business firm when licensing a subject invention if the Recipient determines that the small business firm has a plan or proposal for marketing the invention which, if executed, is equally as likely to bring the invention to practical application as any plans or proposals from applicants that are not small business firms; provided that the Recipient is also satisfied that the small business firm has the capability and resources to carry out its plan or proposal. The decision whether to give a preference in any specific case will be at the discretion of the Recipient. However, the Recipient agrees that the Secretary of Commerce may review the Contractor’s licensing program and decisions regarding small business applicants, and the Recipient will negotiate changes to its licensing policies, procedures, or practices with the Secretary of Commerce when the Secretary’s review discloses that the Recipient could take reasonable steps to more effectively implement the requirements of this paragraph.

4. It will make efforts that are reasonable under the circumstances to attract licensees of subject inventions that are small business firms, and that it will give a preference to a small business firm when licensing a subject invention if the Recipient determines that the small business firm has a plan or proposal for marketing the invention which, if executed, is equally as likely to bring the invention to practical application as any plans or proposals from applicants that are not small business firms; provided that the Recipient is also satisfied that the small business firm has the capability and resources to carry out its plan or proposal. The decision whether to give a preference in any specific case will be at the discretion of the Recipient. However, the Recipient agrees that the Secretary of Commerce may review the Contractor’s licensing program and decisions regarding small business applicants, and the Recipient will negotiate changes to its licensing policies, procedures, or practices with the Secretary of Commerce when the Secretary’s review discloses that the Recipient could take reasonable steps to more effectively implement the requirements of this paragraph.

5. A copy of all submissions or requests required by this clause, plus a copy of any reports, manuscripts, publications, or similar material bearing on patent matters, shall be sent to the installation Patent Counsel in addition to any other submission requirements in the cooperative agreement. If any reports contain information describing a “subject invention” for which the Recipient has elected or may elect title, NASA will use reasonable efforts to delay public release by NASA or publication by NASA in a NASA technical series, in order for a patent application to be filed, provided that the Recipient identify the information and the “subject invention” to which it relates at the time of submittal. If required by the Grant Officer, the Recipient shall provide the filing...
§ 1274.914 Requests for waiver of rights—large business.

October 2000

(a) In accordance with the NASA Patent Waiver Regulations, 14 CFR part 1245, subsection 1, waiver of rights to any or all inventions made or that may be made under a NASA agreement, contract or subcontract with other than a small business firm or a domestic nonprofit organization may be requested at different time periods. Advance waiver of rights to any or all inventions that may be made under a contract or subcontract may be requested prior to the execution of the agreement, contract or subcontract, or within 30 days after execution by the selected Recipient. In addition, waiver of rights to an identified invention made and reported under a agreement, contract or subcontract may be requested, even though a request for an advance waiver was not made or, if made, was not granted.

(b) Each request for waiver of rights shall be by petition to the Administrator and shall include an identification of the petitioner; place of business and address; if petitioner is represented by counsel, the name, address, and telephone number of the counsel; the signature of the petitioner or authorized representative; and the date of signature. No specific forms need be used, but the request should contain a positive statement that waiver of rights is being requested under the NASA Patent Waiver Regulations; a clear indication of whether the request is for an advance waiver or for a waiver of rights for an individual identified invention; whether foreign rights are also requested and, if so, the countries, and a citation of the specific section or sections of the regulations under which such rights are requested; and the name, address, and telephone number of the party with whom to communicate when the request is acted upon. Requests for advance waiver of rights should, preferably, be included with the proposal, but in any event in advance of negotiations.

(c) Petitions for advance waiver, prior to agreement execution, must be submitted to the Grant Officer. All other petitions will be submitted to the Patent Representative designated in the contract.

(d) Petitions submitted with proposals selected for negotiation of an agreement will be forwarded by the Grant Officer to the installation Patent Counsel for processing and then to the Inventions and Contributions Board. The Board will consider these petitions and where the Board makes the findings to support the waiver, the Board will recommend to the Administrator that waiver be granted, and will notify the petitioner and the Grant Officer of the Administrator’s determination. The Grant Officer will be informed by the Board whenever there is insufficient time or information or other reasons to permit a decision to be made without unduly delaying the execution of the agreement. In the latter event, the petitioner will be so notified by the Grant Officer. All other petitions will be processed by installation Patent Counsel and forwarded to the Board. The Board shall notify the petitioner of its action and if waiver is granted, the conditions, reservations, and obligations thereof will be included in the Instrument of Waiver. Whenever the Board notifies a petitioner of a recommendation adverse to, or different from, the waiver requested, the petitioner may request reconsideration under procedures set forth in the Regulations.

§ 1274.915 Restrictions on sale or transfer of technology to foreign firms or institutions.

October 2000

(a) The parties agree that access to technology developments under this Agreement by foreign firms or institutions must be carefully controlled. For purposes of this clause, a transfer includes a sale of the company, or sales or licensing of the technology. Transfers do not include—

1. Sales of products or components;
2. Licenses of software or documentation related to sales of products or components; or
3. Transfers to foreign subsidiaries of the Recipient for purposes related to this Agreement.

(b) The Recipient shall provide timely notice to the Grant Officer in writing of any proposed transfer of technology developed under this Agreement. If NASA determines that the transfer may have adverse consequences to the national security interests of the United States, or to the establishment of a robust United States industry. NASA and the Recipient shall jointly endeavor to find alternatives to the proposed transfer which obviate or mitigate potential adverse consequences of the transfer.

[End of provision]
§ 1274.916 Liability and risk of loss.

LIABILITY AND RISK OF LOSS

October 2000

(a) With regard to activities undertaken pursuant to this agreement, neither party shall make any claim against the other, employees of the other, the other's related entities (e.g., Contractors, subcontractors, etc.), or employees of the other's related entities for any injury to or death of its own employees or employees of its related entities, or for damage to or loss of its own property or that of its related entities, whether such injury, death, damage or loss arises through negligence or otherwise, except in the case of willful misconduct.

(b) To the extent that a risk of damage or loss is not dealt with expressly in this agreement, each party's liability to the other party arising out of this Agreement, whether or not arising as a result of an alleged breach of this Agreement, shall be limited to direct damages only, and shall not include any loss of revenue or profits or other indirect or consequential damages.

[End of provision]

§ 1274.917 Additional funds.

ADDITIONAL FUNDS

October 2000

Pursuant to this agreement, NASA is providing a fixed amount of funding for activities to be undertaken under the terms of this cooperative agreement. NASA is under no obligation to provide additional funds. Under no circumstances shall the Recipient undertake any action which could be construed to imply an increased commitment on the part of NASA under this cooperative agreement.

[End of provision]

§ 1274.918 Incremental funding.

INCREMENTAL FUNDING

October 2000

(a) Of the award amount indicated on the cover page of this agreement, only the obligated amount indicated on the cover page of this agreement is available for payment. NASA anticipates making additional allotments of funds as required.

(b) These funds will be obligated as appropriated funds become available without any action required of the Recipient. NASA is not obligated to make payments in excess of the total funds obligated.

[End of provision]

§ 1274.919 Cost principles and accounting standards.

COST PRINCIPLES AND ACCOUNTING STANDARDS

October 2000

The expenditure of Government funds by the Recipient and the allowability of costs recognized as a resource contribution by the Recipient (See clause entitled "Resource Sharing Requirements") shall be governed by the FAR cost principles, 48 CFR part 31. (If the Recipient is a consortium which includes non-commercial firm members, cost allowability for those members will be determined as follows: Allowability of costs incurred by State, local or federally-recognized Indian tribal governments is determined in accordance with the provisions of OMB Circular A-87, "Cost Principles for State and Local Governments." The allowability of costs incurred by non-profit organizations is determined in accordance with the provisions of OMB Circular A-122, "Cost Principles for Non-Profit Organizations." The allowability of costs incurred by institutions of higher education is determined in accordance with the provisions of OMB Circular A-21, "Cost Principles for Educational Institutions." The allowability of costs incurred by hospitals is determined in accordance with the provisions of appendix E of 45 CFR part 74, "Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals.") Recipient’s method for accounting for the expenditure of funds must be consistent with Generally Accepted Accounting Principles.

[End of provision]

§ 1274.920 Responsibilities of the NASA Technical Officer.

RESPONSIBILITIES OF THE NASA TECHNICAL OFFICER

October 2000

(a) The NASA Grant Administrator and Technical Officer for this cooperative agreement are identified on the cooperative agreement cover sheet.

(b) The Grant Specialist shall serve as NASA's authorized representative for the administrative elements of all work to be performed under the agreement.

(c) The Technical Officer shall have the authority to issue written Technical Advice which suggests redirecting the project work (e.g., by changing the emphasis among different tasks), or pursuing specific lines of inquiry likely to assist in accomplishing the effort. The Technical Officer shall have the authority to approve or disapprove those technical reports, plans, and other technical...
§ 1274.921 Publications and reports: Non-proprietary research results.

PUBLICATIONS AND REPORTS: NON-PROPRIETARY RESEARCH RESULTS

October 2000

(a) NASA encourages the widest practicable dissemination of research results at all times during the course of the investigation consistent with the other terms of this agreement.

(b) All information disseminated as a result of the cooperative agreement shall contain a statement which acknowledges NASA’s support and identifies the cooperative agreement by number.

(c) Prior approval by the NASA Technical Officer is required only where the Recipient requests that the results of the research be published in a NASA scientific or technical publication. Two copies of each draft publication shall accompany the approval request.

(d) Reports shall contain full bibliographic references, abstracts of publications and lists of all other media in which the research was discussed. The Recipient shall submit the following technical reports:

(1) A progress report for every year of the cooperative agreement (except the final year). Each report is due 60 days before the anniversary date of the cooperative agreement and shall describe research accomplished during the report period.

(2) A summary of research is due by 90 days after the expiration date of the cooperative agreement, regardless of whether or not support is continued under another cooperative agreement. This report is intended to summarize the entire research accomplished during the duration of the cooperative agreement.

(e) Progress reports and summaries of research shall display the following on the first page:

(1) Title of the cooperative agreement.

(2) Type of report.

(3) Period covered by the report.

(4) Name and address of the Recipient’s organization.

(5) Cooperative agreement number.

(6) An original and two copies, one of which shall be of suitable quality to permit microreproduction, shall be sent as follows:

(1) Original—Grant Officer.

(2) Copy—Technical Officer.

(3) Micro-reproducible copy—NASA Center for Aerospace Information (CASI), Parkway Center, Attn: Document Processing Section, 7121 Standard Drive, Hanover, MD 21076.

(g) The requirements set forth under this provision may be modified by the Grant Officer based on specific report needs for the particular grant or cooperative agreement.

[End of provision]

§ 1274.922 Suspension or termination.

SUSPENSION OR TERMINATION

October 2000

(a) This cooperative agreement may be suspended or terminated in whole or in part by the Recipient or by NASA after consultation with the other party. NASA may terminate the agreement, for example, if the Recipient is not making anticipated technical progress, if the Recipient materially fails to comply with the terms of the agreement, if the Recipient materially changes the objective of the agreement, or if appropriated funds are not available to support the program.

(b) Upon fifteen (15) days written notice to the other party, either party may temporarily suspend the cooperative agreement, pending corrective action or a decision to terminate the cooperative agreement. The notice should express the reasons why the agreement is being suspended.

(c) In the event of termination by either party, the Recipient shall not be entitled to additional funds or payments except as may be required by the Recipient to meet NASA’s share of commitments which had in the judgment of NASA become firm prior to the effective date of termination and are otherwise appropriate. In no event, shall these additional funds or payments exceed the amount of the next payable milestone billing amount.

[End of provision]

§ 1274.923 Equipment and other property.

EQUIPMENT AND OTHER PROPERTY

October 2000

(a) NASA cooperative agreements permit acquisition of special purpose equipment required for the conduct of research. Acquisition of special purpose equipment costing in
§ 1274.926 Clean Air-Water Pollution Control Acts.

CLEAN AIR-WATER POLLUTION CONTROL ACTS

October 2000

If this cooperative agreement or supplement thereto is in excess of $100,000, the Recipient agrees to notify the Grant Officer promptly of the receipt, whether prior or subsequent to the Recipient’s acceptance of this cooperative agreement, of any communication from the Director, Office of Federal Activities, Environmental Protection Agency (EPA), indicating that a facility to be utilized under or in the performance of this cooperative agreement or any subcontract-
§ 1274.927 Debarment and suspension and Drug-Free Workplace.

DEBARMENT AND SUSPENSION AND DRUG-FREE WORKPLACE

October 2000

NASA cooperative agreements are subject to the provisions of 14 CFR Part 1265, Government-wide Debarment and Suspension (Nonprocurement) and Government-wide requirements for Drug-Free Workplace, unless excepted by 14 CFR 1265.110 or 1265.610.

[End of provision]

§ 1274.928 Foreign national employee investigative requirements.

FOREIGN NATIONAL EMPLOYEE INVESTIGATIVE REQUIREMENTS

October 2000

(a) The Recipient shall submit a properly executed Name Check Request (NASA Form 531) and a completed applicant fingerprint card (Federal Bureau of Investigation Card FD-258) for each foreign national employee requiring access to a NASA Installation. These documents shall be submitted to the Installation’s Security Office at least 75 days prior to the estimated duty date. The NASA Installation Security Office will request a National Agency Check (NAC) for foreign national employees requiring access to NASA facilities. The NASA Form 531 and fingerprint card may be obtained from the NASA Installation Security Office.

(b) The Installation Security Office will request from NASA Headquarters, Office of External Relations (Code 1), approval for each foreign national’s access to the Installation prior to providing access to the Installation. If the access approval is obtained from NASA Headquarters prior to completion of the NAC and performance of the cooperative agreement requires a foreign national to be given access immediately, the Technical Officer may submit an escort request to the Installation’s Chief of Security.

[End of provision]

§ 1274.929 Restrictions on lobbying.

RESTRICTIONS ON LOBBYING

October 2000

This award is subject to the provisions of 14 CFR Part 1271 “New Restrictions on Lobbying.”

[End of provision]

§ 1274.930 Travel and transportation.

TRAVEL AND TRANSPORTATION

October 2000

(a) For travel funded by the government under this agreement, section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 40118) (Fly America Act) requires the Recipient to use U.S.-flag air carriers for international air transportation of personnel and property to the extent that service by those carriers is available.

(b) Department of Transportation regulations, 49 CFR part 173, govern Recipient shipment of hazardous materials and other items.

[End of provision]

§ 1274.931 Electronic funds transfer payment methods.

ELECTRONIC FUNDS TRANSFER PAYMENT METHODS

October 2000

Payments under this cooperative agreement will be made by the Government by electronic funds transfer through the Treasury Fedline Payment System (FEDLINE) or the Automated Clearing House (ACH), at the option of the Government. After award, but no later than 14 days before an invoice is submitted, the Recipient shall designate a financial institution for receipt of electronic funds transfer payments, and shall submit this designation to the Grant Officer or other Government official, as directed.
§ 1274.933 Summary of recipient reporting responsibilities.

This cooperative agreement requires the recipient to submit a number of reports. These reporting requirements are summarized below. In the event of a conflict between this provision and other provisions of the cooperative agreement requiring reporting, the other provisions take precedence.

§ 1274.934 Safety.

October 2000

(a) The Recipient shall act responsibly in matters of safety and shall take all reasonable safety measures in performing under this grant or cooperative agreement. The Recipient shall comply with all applicable federal, state, and local laws relating to safety. The Recipient shall maintain a record of, and will notify the NASA Grant Officer of any accident involving death, disabling injury or substantial loss of property in performing this grant or cooperative agreement. The Recipient will advise NASA of hazards that come to its attention as a result of the work performed.

(b) Where the work under this grant or cooperative agreement involves flight hardware, the hazardous aspects, if any, of such hardware will be identified, in writing, by the recipient. Compliance with this provision by subcontractors shall be the responsibility of the Recipient.

APPENDIX TO PART 1274—LISTING OF EXHIBITS

EXHIBIT A TO PART 1274—CONTRACT PROVISIONS

All contracts awarded by a recipient, including small purchases, shall contain the following provisions if applicable:

2. Copeland "Anti-Kickback" Act (18 U.S.C. 874 and 40 U.S.C. 276c). All contracts in excess of $50,000 for construction or repair awarded by recipients and subrecipients shall include a provision for compliance with the Copeland "Anti-Kickback" Act (18 U.S.C. 874), as supplemented by Department of Labor regulations (29 CFR part 8, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").

3. Contract Work Hours and Safety Standards Act (40 U.S.C. 327–333). Where applicable, all contracts awarded by recipients in excess of $2,000 for construction contracts and in excess of $50,000 for other contracts, other than contracts for commercial items, that involve the employment of mechanics or laborers shall include a provision for compliance with Sections 102 and 107 of the Contract Work

Hours and Safety Standards Act (40 U.S.C. 327–333), as supplemented by Department of Labor regulations (29 CFR part 5). Under subsection 102 of the Act, each recipient shall be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than 1½ times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

4. Rights to Inventions Made Under a Contract or Agreement. Contracts or agreements for the performance of experimental, developmental, or research work shall provide for the rights of the Federal Government and the recipient in any resulting invention in accordance with 37 CFR part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

5. Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), as amended. Contracts, other than contracts for commercial items, of amounts in excess of $100,000 shall contain a provision that requires the recipient to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et seq.). Violations shall be reported to NASA and the Regional Office of the Environmental Protection Agency (EPA).

7. Debarment and Suspension (Executive Orders 12549 and 12689). No contract shall be made to parties listed on the General Services Administration’s List of Parties Excluded from Federal Procurement or Nonprocurement Programs in accordance with Executive Orders 12549 and 12689, “Debarment and Suspension.” This list contains the names of parties debarred, suspended, or otherwise excluded by agencies, and contractors declared ineligible under statutory or regulatory authority other than Executive Order 12549. Contractors with awards that exceed the small purchase threshold shall provide the required certification regarding its exclusion status and that of its principal employees.

EXHIBIT B TO PART 1274—REPORTS

1. Individual procurement action report (NASA Form 507). The grant officer is responsible for submitting NASA Form 507 for all cooperative agreement actions.

2. Property reporting. As provided in paragraph (g) of §1274.923, an annual NASA Form (NF) 1018, NASA Property in the Custody of Contractors, will be submitted by October 31 of each year. Negative annual reports are required. A final report is required within 30 days after expiration of the agreement.

3. Disclosure of lobbying activities (SFLLL). (a) Grant officers shall provide one copy of each SF LLL furnished under 14 CFR 1271.110 to the procurement officer for transmittal to the Director, Analysis Division (Code HC). (b) Suspected violations of the statutory prohibitions implemented by 14 CFR part 1271 shall be reported to the Director, Contract Management Division (Code HK).

Aviation disaster relief—air carrier guarantee loan program
PART 1300—AVIATION DISASTER RELIEF—AIR CARRIER GUARANTEE LOAN PROGRAM

Subpart A—General

§ 1300.1 Purpose.
This part is issued by the Office of Management and Budget (OMB) pursuant to Title I of the Air Transportation Safety and System Stabilization Act, Public Law 107–42, 115 Stat. 230 (“Act”). Specifically, Section 102(c)(2)(B) directs OMB to issue regulations setting forth procedures for application and minimum requirements for the issuance of Federal credit instruments under section 101(a)(1) of the Act.

§ 1300.2 Definitions.
(b) Administer, administering and administration, mean the lender’s actions in making, disbursing, servicing (including, but not limited to care, preservation and maintenance of collateral), monitoring, collecting, and liquidating a loan and security.
(c) Agent means that lender authorized to take such actions, exercise such powers, and perform such duties on behalf and in representation of all lenders party to a guarantee of a single loan, as is required by, or necessarily incidental to, the terms and conditions of the guarantee.
(d) Air carrier means an air carrier as defined in 49 U.S.C. 40102.
(e) Applicant means one or more air carriers applying for a Federal credit instrument issued by the Board under the program.
(f) The Board, for purposes of any operational and decisionmaking functions in connection with individual loan guarantees, means the voting members of the Air Transportation Stabilization Board established under Section 102 of the Act. The voting members of the Board are the Chairman of the Board of Governors of the Federal Reserve System (who is the Chairman of the Board), the Secretary of the Treasury and the Secretary of Transportation, or their designees. The Comptroller General, who is a non-voting member, will not participate in the review, operations, or deliberations of the Board in connection with individual loan guarantees, or otherwise participate in the Board's exercise of any executive power, but may provide such audit, evaluation and other support to the Board as the Board may request, consistent with applicable auditing standards.
(g) Borrower means an “Obligor,” as defined in Section 102(a)(4) of the Act, and includes an air carrier that is primarily liable for payment of the principal of and interest on a Federal credit instrument, which party may be a corporation, partnership, joint venture, trust, or governmental entity, agency, or instrumentality.
(h) Federal credit instrument, as defined in Section 107(2) of the Act, means any guarantee or other pledge by the Board issued under the program to pledge the full faith and credit of the United States to pay all or part of any of the principal of and interest on a loan issued by a borrower and funded by a lender.
(i) Financial obligation, as defined in Section 102(a)(2) of the Act, means any

491
§ 1300.10 General standards for Board issuance of Federal credit instruments.

(a) In accordance with section 102(c)(1) of the Act, the Board may enter into agreements with one or more borrowers to issue Federal credit instruments only if the Board determines, in its discretion and in accordance with the minimum requirements set forth in this part, that—

1. The borrower is an air carrier for which credit is not reasonably available at the time of the transaction;

2. The intended obligation by the borrower is prudently incurred; and

3. Such agreement is a necessary part of maintaining a safe, efficient, and viable commercial aviation system in the United States.

(b) In accordance with section 102(c)(2)(A) of the Act, the Board shall enter into an agreement to issue a Federal credit instrument in such form and on such terms and conditions and subject to such covenants, representations, warranties, and requirements (including requirements for audits) as the Board determines are appropriate for satisfying the requirements of this part and any supplemental requirements issued by the Board under section 102(c)(2)(B) of the Act.

(c) In accordance with section 102(d)(1) of the Act, the Board shall, to the extent feasible and practicable and in accordance with the requirements in this part, ensure that the Federal Government is compensated for the risk assumed in making guarantees.

(d) In accordance with Section 102(d)(2) of the Act, the Board is authorized to enter into contracts under which the Federal Government, contingent on the financial success of the air carrier, would participate in the gains of the air carrier or its security holders through the use of such instruments as warrants, stock options, common or preferred stock, or other appropriate equity instruments, except that the Board shall not accept an equity interest in an air carrier that gives the Federal Government voting rights.

(e) In accordance with Section 104(a) of the Act, the Board may only issue a Federal credit instrument to an air carrier after the air carrier enters into a legally binding agreement with the Board regarding certain employee compensation.
§ 1300.11 Eligible borrower.
(a) An eligible borrower must be an air carrier that can demonstrate, to the satisfaction of the Board, that:
(1) It has incurred (or is incurring) losses as a result of the terrorist attacks on the United States that occurred on September 11, 2001, which may include losses due to the unavailability of credit or the decrease in demand for that air carrier’s services;
(2) It is not under bankruptcy protection or receivership when the application is submitted or when the Board issues the guarantee, unless the guarantee and the underlying financial obligation is to be part of a bankruptcy court-certified reorganization plan;
(3) It has agreed to permit such audits and reviews prior to the issuance of a guarantee, as the Board may deem appropriate, by an independent auditor acceptable to the Board;
(4) It has agreed to permit such audits and reviews during the period the loan is outstanding and three years after payment in full of the guaranteed loan, as the Board may deem appropriate, by an independent auditor acceptable to the Board or by the Comptroller General;
(5) In conducting audits and reviews pursuant to paragraphs (a) (3) and (4) of this section, it has agreed to provide access to the officers and employees, books, records, accounts, correspondence, and other information of the borrower, its subsidiaries, affiliates, financial advisers, consultants, and independent certified accountants that the Board or the Comptroller General consider necessary.
(b) Status as an eligible borrower under this section does not ensure that the Board will issue the guarantee sought, or otherwise preclude the Board from declining to issue a guarantee.

§ 1300.12 Eligible lender.
(a) A lender eligible to receive a Federal credit instrument approved by the Board must be a non-Federal qualified institutional buyer as defined in Section 102(a)(3) of the Act.
(b) If more than one institution participates as a lender in a single loan for which a Federal credit instrument is requested, each one of the institutions on the application must meet the requirements to be an eligible lender. An application for a guarantee of a single loan, for which there is more than one lender, must identify one of the institutions to act as agent for all. This agent is responsible for administering the loan and shall have those duties and responsibilities required of an agent, as set forth in the guarantee.
(c) Each lender, irrespective of any indemnities or other agreements between the lenders and the agent, shall be bound by all actions, and/or failures to act, of the agent. The Board shall be entitled to rely upon such actions and/or failures to act of the agent as binding the lenders.
(d) Status as an eligible lender under this section does not assure that the Board will issue the guarantee sought, or otherwise preclude the Board from declining to issue a guarantee.

§ 1300.13 Guarantee amount.
(a) Under Section 101(a)(1) of the Act, the Board is authorized to enter into agreements to issue Federal credit instruments that, in the aggregate, do not exceed $10 billion.
(b) The loan amount guaranteed to a single air carrier may not exceed that amount that, in the Board’s sole discretion, the air carrier (or its successor) needs in order for it to provide commercial air services.

§ 1300.14 Guarantee percentage.
A guarantee issued by the Board must be less than 100 percent of the amount of principal and accrued interest of the loan guaranteed.

§ 1300.15 Loan terms.
(a) A loan guaranteed under the program shall be due and payable in full no later than seven years from the date on which the first disbursement of the loan is made.
(b) Loans guaranteed under the program must bear a rate of interest determined by the Board to be reasonable. In determining the reasonableness of an interest rate, the Board shall consider the percentage of the guarantee, any collateral, other loan terms, and current average yields on outstanding obligations of the United States with maturity comparable to the term of the loan guaranteed.
§ 1300.16 Board may reject an application to guarantee a loan if it determines the interest rate on such loan to be unreasonable.

(c) An eligible lender may assess and collect from the borrower such other fees and costs associated with the application and origination of the loan as are reasonable and customary, taking into consideration the amount and complexity of the credit. The Board may take such other fees and costs into consideration when determining whether to offer a guarantee to the lender.

§ 1300.16 Application process.

(a) Applications are to be submitted by the borrower. Borrowers may submit applications to the Board any time after October 12, 2001 through June 28, 2002. All applications must be received by the Board no later than 5 p.m. EDT, June 28, 2002, in the Board’s offices. Borrowers should submit an original application and four copies. Applications will not be accepted via facsimile machine transmission or electronic mail. No application will be accepted for review if it is not received by the Board on or before June 28, 2002.

(b) Applications shall contain the following:

(1) A completed Form “Application for Air Carrier Guaranteed Loan”;

(2) All loan documents that will be signed by the lender and the borrower, if the application is approved, including all terms and conditions of, and security or additional security (if any), to assure the borrower’s performance under the loan;

(3) A certification by the borrower that the borrower meets each of the requirements of the program as set forth in the Act, the regulations in this part, and any supplemental requirements issued by the Board;

(4) A certification by the lender that the lender meets each of the requirements of the program as set forth in the Act, the regulations in this part, and any supplemental requirements issued by the Board, and that the lender will provide the loan under the terms outlined in the loan documents if the Board approves the requested guarantee;

(5) A statement that the borrower is not under bankruptcy protection or receivership when the application is submitted, unless the guarantee and the underlying financial obligation is to be part of a bankruptcy court-certified reorganization plan;

(6) Consolidated financial statements of the borrower for the previous five years that have been audited by an independent certified public accountant, including any associated notes, as well as any interim financial statements and associated notes for the current fiscal year;

(7) Copies of the financial evaluations and forecasts concerning the air carrier’s air service operations that were prepared by or for the air carrier within the three months prior to September 11, 2001;

(8) The borrower’s business plan on which the loan is based that includes the following:

(i) A description of how the loan fits within the borrower’s business plan, the purposes for which the borrower will use the loan, and an analysis showing that the loan is prudently incurred. If loan funds are to be used to purchase an existing firm (or the substantial assets of an existing firm), the business plan of the combined entity shall contain a discussion of the way in which any required regulatory or judicial approvals will be obtained, including antitrust approval for any proposed acquisition;

(ii) A discussion of a complete cost accounting and a range of revenue, operating cost, and credit assumptions;

(iii) A discussion of the financing plan on which the loan is based, showing that the operational needs of the borrower will be met during the term of the plan;

(iv) An analysis demonstrating that, at the time of the application, there is a reasonable assurance that the borrower will be able to repay the loan according to its terms, and a complete description of the operational and financial assumptions on which this demonstration is based;

(v) A discussion of the borrower’s five-year history and five-year projection for revenue, cash flow, average realized prices, and average realized operating costs and a demonstration that
§ 1300.17 Application evaluation.

(a) Eligibility screening. Applications will be reviewed to determine whether the lender and borrower are eligible, the information required under §1300.16(b) is complete, and the proposed loan complies with applicable statutes and regulations. The Board may at any time reject an application that does not meet these requirements.

(b) Evaluation criteria. Applications that are determined to be eligible pursuant to paragraph (a) of this section shall be subject to a substantive review by the Board. In addition to the general standards for Board issuance of Federal credit instruments set forth in §1300.10, the Board shall consider the following evaluation factors:

(1) Reasonable assurance that the borrower will be able to repay the loan by the date specified in the loan document, which shall be no later than seven years from the date on which the first disbursement of the loan is made;

(2) The adequacy of the proposed provisions to protect the Federal Government, including sufficiency of any security provided by the borrower and the percentage of guarantee requested;

(3) The ability of the lender to administer the loan in full compliance with the requisite standard of care. In making this determination, the Board will assess:

(i) The lender’s level of regulatory capital, in the case of banking institutions, or net worth, in the case of other institutions;

(ii) Whether the lender possesses the ability to administer the loan, including its experience with loans to air carriers; and

(iii) Any other matter the Board deems material to its assessment of the lender; and

c) The collections of information in this section and elsewhere in this part that are subject to the Paperwork Reduction Act (44 U.S.C. 3501 et seq.) have been approved by OMB and assigned control number 0348–0059. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
§ 1300.18

(4) The ability of the borrower to demonstrate, to the Board’s satisfaction, one or more of the following criteria. The Board shall give preference to applications that satisfy one or more of these criteria, giving greater preference to those applications that meet the greatest number of these criteria, as follows:

(i) A demonstration that the air carrier has presented a plan demonstrating that its business plan is financially sound;

(ii) A demonstration of greater participation in the loan by non-Federal entities;

(iii) A demonstration of greater participation in the loan by private entities, as opposed to public non-Federal entities;

(iv) A demonstration that the proposed instruments would ensure that the Federal Government will, contingent on the financial success of the air carrier, participate in the gains of the air carrier and its security holders;

(v) A demonstration of concessions by the air carrier’s security holders, other creditors, or employees that will improve the financial condition of the air carrier in a manner that will enable it to repay the loan in accordance with its terms and provide commercial air services on a financially sound basis after repayment;

(vi) A demonstration that guaranteed loan proceeds will be used for a purpose other than the payment or refinancing of existing debt;

(vii) A demonstration that the proposed instruments contain financial structures that minimize the Federal government’s risk and cost associated with making loan guarantees. Examples include, but are not limited to, requests for guarantees that contain the following:

(A) A maturity period that is less than the maximum permitted under the rules in this part;

(B) Pledges of collateral;

(C) Agreements by the borrower’s parent or other entities to reimburse the Federal government for any payments that the Federal government may make under the guarantee;

(D) A grant to the Federal government of favorable priority in the event of bankruptcy reflecting other creditors’ agreement to subordinate their debts as a condition of the loan guarantee;

(E) Limitation of the borrower’s issuance of dividends and/or the borrower’s payments to its parent or subsidiaries or related companies;

(F) Limitation of the borrower’s ability to incur additional debt, and/or the borrower’s ability to incur capital expenditures, beyond that set forth in the business and financial plans that the Borrower submitted with the application;

(G) A demonstration of reasonable liquidity;

(H) A demonstration of favorable debt ratios; and

(1) A demonstration that any proceeds raised from private sector financing subsequent to disbursement of the federally guaranteed loan be used to repay the federally guaranteed loan.

(c) No guarantee will be made if either the borrower or lender has an outstanding delinquent Federal debt, including tax liabilities, until:

(1) The delinquent debt has been paid in full;

(2) A negotiated repayment schedule is established; or

(3) Other arrangements, satisfactory to the agency responsible for collecting the debt are made.

(d) Decisions by the Board. The Board shall approve or deny applications received on or before June 28, 2002, in a timely manner as such applications are received. The Board may limit the amount of a loan guarantee made to initial applicants to ensure that sufficient funds remain available for subsequent applicants. The Board shall notify the borrower in writing of the approval or denial of an application. Approvals for loan guarantees shall be conditioned upon compliance with §1300.18.

§ 1300.18 Issuance of the guarantee.

(a) The Board’s decisions to approve any application for a guarantee under §1300.17 is conditioned upon:

(1) The lender and borrower obtaining any required regulatory or judicial approvals;

(2) Evidence showing, to the Board’s satisfaction, that the lender and borrower are legally authorized to enter
§ 1300.23 Participation in guaranteed loans.

(a) Subject to paragraph (b) of this section, a lender may distribute the risk of a portion of a loan guaranteed under the program by sale of participations therein if:

(1) Neither the loan note nor the guarantee is assigned, conveyed, sold, or transferred in whole or in part;

(2) The lender remains solely responsible for the administration of the loan; and

(3) The Board’s ability to assert any and all defenses available to it under the guarantee and the law is not adversely affected.

(b) The following categories of entities may purchase participations in loans guaranteed under the program:

(1) Eligible lenders;

(2) Private investment funds and insurance companies that do not usually invest in commercial loans;

(3) Air Carrier company suppliers or customers, who are interested in participating as a means of commencing or solidifying the supplier or customer relationship with the borrower; or

(4) Any other entity approved by the Board on a case-by-case basis.
FINDING AIDS

A list of CFR titles, subtitles, chapters, subchapters and parts and an alphabetical list of agencies publishing in the CFR are included in the CFR Index and Finding Aids volume to the Code of Federal Regulations which is published separately and revised annually.

Table of CFR Titles and Chapters
Alphabetical List of Agencies Appearing in the CFR
List of CFR Sections Affected

499
Table of CFR Titles and Chapters  
(Revised as of January 1, 2002)

Title 1—General Provisions

I  Administrative Committee of the Federal Register (Parts 1—49)
II  Office of the Federal Register (Parts 50—299)
IV  Miscellaneous Agencies (Parts 400—500)

Title 2—[Reserved]

Title 3—The President

I  Executive Office of the President (Parts 100—199)

Title 4—Accounts

I  General Accounting Office (Parts 1—99)

Title 5—Administrative Personnel

I  Office of Personnel Management (Parts 1—1199)
II  Merit Systems Protection Board (Parts 1200—1299)
III  Office of Management and Budget (Parts 1300—1399)
V  The International Organizations Employees Loyalty Board (Parts 1500—1599)
VI  Federal Retirement Thrift Investment Board (Parts 1600—1699)
VII  Advisory Commission on Intergovernmental Relations (Parts 1700—1799)
VIII  Office of Special Counsel (Parts 1800—1899)
IX  Appalachian Regional Commission (Parts 1900—1999)
XI  Armed Forces Retirement Home (Part 2100)
