§ 778.1 Scope and purpose.

This part establishes the minimum requirements for the permit applications for surface coal mining and reclamation operations under a State or Federal program. This part covers minimum legal, financial, and compliance requirements and general information that must be contained in permit applications. This part applies to any person who submits an application to a regulatory authority for a permit to conduct surface coal mining and reclamation operations.

§ 778.8 Information collection.

(a) Under the Paperwork Reduction Act, the Office of Management and Budget (OMB) has approved the information collection requirements of this part. Section 507(b) of the Act provides that persons applying for a permit to conduct surface coal mining operations

§ 778.9

30 CFR Ch. VII (7-1-02 Edition)

must submit to the regulatory authority certain information regarding the applicant and affiliated entities, their compliance status and history, property ownership and other property rights, violation information, right of entry, liability insurance, the status of unsuitability claims, and proof of publication of a newspaper notice. The regulatory authority uses this information to ensure that all legal, financial and compliance requirements are satisfied before issuance of a permit. Persons seeking to conduct surface coal mining operations must respond to obtain a benefit. A Federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB clearance number for this part is 1029-0117.

(b) We estimate that the public reporting and record keeping burden for this part averages 27 hours per response, including time spent reviewing instructions, searching existing data

sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of these information collection and record keeping requirements, including suggestions for reducing the burden, to the Office of Surface Mining Reclamation and Enforcement, Information Collection Clearance Officer, 1951 Constitution Avenue, NW, Washington, DC 20240. Please refer to OMB Control Number 1029-0117 in any correspondence.
