Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 32 CFR 191.1 refers to title 32, part 191, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 ..............................................................as of January 1
- Title 17 through Title 27 .................................................................as of April 1
- Title 28 through Title 41 .................................................................as of July 1
- Title 42 through Title 50 ............................................................. as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, July 1, 2002), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949-1963, 1964-1972, or 1973-1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-523-5227 or write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408 or e-mail info@fedreg.nara.gov.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2250, 24 hours a day. For payment by check, write to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954. For GPO Customer Service call 202-512-1803.

ELECTRONIC SERVICES

The Office of the Federal Register also offers a free service on the National Archives and Records Administration's (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA’s web site at www.nara.gov/fedreg. The NARA site also contains links to GPO Access.

RAYMOND A. MOSLEY,
Director,
Office of the Federal Register.

July 1, 2002.
THIS TITLE

Title 32—NATIONAL DEFENSE is composed of six volumes. The parts in these volumes are arranged in the following order: parts 1–190, parts 191–399, parts 400–629, parts 630–699, parts 700–799, and part 800 to End. The contents of these volumes represent all current regulations codified under this title of the CFR as of July 1, 2002.

The current regulations issued by the Department of Defense appear in the volumes containing parts 1–189 and parts 190–399; those issued by the Department of the Army appear in the volumes containing parts 400–629 and parts 630–699; those issued by the Department of the Navy appear in the volume containing parts 700–799, and those issued by the Department of the Air Force, Defense Logistics Agency, Selective Service System, National Counterintelligence Center, Central Intelligence Agency, Information Security Oversight Office, National Security Council, Office of Science and Technology Policy, Office for Micronesian Status Negotiations, and Office of the Vice President of the United States appear in the volume containing parts 800 to end.
Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the Federal Register Index, or both.

LSA
The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $31 per year.

Federal Register Index
The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $28 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Superintendent of Documents Subscription Order Form

Order Processing Code  □ YES, send me the following indicated subscriptions for one year:
                   □ LSA (List of CFR Sections Affected), (LCS) for $31 per year.
                   □ Federal Register Index (FRSU) $28 per year.

The total cost of my order is $ _______.

Price is subject to change. International customers please add 25%.

SUBCHAPTER M—MISCELLANEOUS

PART 191—THE DOD CIVILIAN EQUAL EMPLOYMENT OPPORTUNITY (EEO) PROGRAM

Sec. 191.1 Purpose.
191.2 Applicability and scope.
191.3 Definitions.
191.4 Policy.
191.5 Responsibilities.
191.6 Procedures.
191.7 Civilian EEO program staff.
191.8 Defense equal opportunity council and EEO boards.
191.9 Information requirements.
191.10 Effective date.

SOURCE: 53 FR 30990, Aug. 17, 1988, unless otherwise noted.

§ 191.1 Purpose.
This part:

(c) Authorizes, as an integral part of the Civilian EEO Program, the establishment of Special Emphasis Programs (SEPs) entitled the Federal Women’s Program (FWP), the Hispanic Employment Program (HEP), and the Program for People with Disabilities (PPD), the Asian/Pacific Islander Employment Program (AEP), the American Indian/Alaskan Native Employment Program (AIEP), and the Black Employment Program (BEP).
(d) Establishes the Defense Equal Opportunity Council (DEOC), the Civilian EEO Review Board, the SEP Boards.
(e) Authorizes the issuance of DoD Instructions and Manuals to implement this part and guidance from standard-setting agencies such as EEOC and OPM, consistent with DoD 5025.1–M.

§ 191.2 Applicability and scope.
This part:
(a) Applies to the Office of the Secretary of Defense (OSD) and activities supported administratively by OSD, the Military Departments, the Organization of the Joint Chiefs of Staff (as an element of the OSD for the purposes of this program), the Unified and Specified Commands, the Defense Agencies, the Army and Air Force Exchange Service, the National Guard Bureau, the Uniformed Services University of the Health Sciences, the Office of Civilian Health and Medical Programs of the Uniformed Services, and the DoD Dependents Schools (hereafter referred to collectively as “DoD Components”).
(b) Applies worldwide to all civilian employees and applicants for civilian employment within the Department of Defense in appropriated and non-appropriated fund positions.
(c) Does not apply to military personnel, for whom equal opportunity is covered by DoD Directive 1350.21.

1Copies may be obtained from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
§ 191.3 Definitions.

Affirmative action. A tool to achieve equal employment opportunity. A program of self-analysis, problem identification, data collection, policy statements, reporting systems, and elimination of discriminatory policies and practices, past and present.

Age. A prohibited basis discrimination. For purposes of this Directive, persons protected under age discrimination provisions are those 40 years of age or older, except when a maximum age requirement has been established by statute or the OPM. Aliens employed outside the limits of the United States are not covered by this definition.

Discrimination. Illegal treatment of a person or group based on race, color, national origin, religion, sex, age, or disability.

Equal Employment Opportunity (EEO). The right of all persons to work and advance on the basis of merit, ability, and potential, free from social, personal, or institutional barriers of prejudice and discrimination.

Minorities. All persons classified as black (not of Hispanic origin), Hispanic, Asian or Pacific Islander, and American Indian or Alaskan Native.

National origin. A prohibited basis for discrimination. An individual’s place of origin or his or her ancestor’s place of origin or the possession of physical, cultural, or linguistic characteristics of a national origin group.

People with disabilities. People who have physical or mental impairments that substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such an impairment. For purposes of this part, such term does not include any individual who is an alcoholic or drug abuser and whose current use of alcohol or drugs prevents such individual from performing the duties of the job in question, or whose employment, by reason of such current alcohol or drug abuse, would constitute a direct threat to property or to the safety of others. As used in this paragraph:

(a) Physical or mental impairment. Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal and special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

(b) Major life activities. Functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(c) Has a record of such impairment. Has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(d) Is regarded as having an impairment. Has:

1. A physical or mental impairment that does not substantially limit major life activities but is treated by an employer as constituting such a limitation;

2. A physical or mental impairment that substantially limits major life activities only as a result of the attitude of others toward such impairment; or

3. None of the impairments defined above but is treated by an employer as having an impairment.

Race. A prohibited basis for discrimination. For purposes of this part, all persons are classified as black (not of Hispanic origin), Hispanic, Asian or Pacific Islander, American Indian or Alaskan Native, and White, as follows:

2 See footnote 1 to §191.2(c).
§ 191.4 Policy.

It is DoD Policy to:

(a) Recognize equal opportunity programs, including affirmative action programs, as essential elements of readiness that are vital to the accomplishment of the DoD national security mission. Equal employment opportunity is the objective of affirmative action programs.

(b) Develop and implement affirmative action programs to achieve the objective of a civilian work force in which the representation of minorities, women, and people with disabilities at all grade levels, in every occupational series, and in every major organization element is commensurate with the representation specified in EEOC and OPM guidance. Such programs, which shall be designed to identify, recruit, and select qualified personnel, shall be coordinated with the cognizant legal offices.

(c) Ensure that Civilian EEO Program activities for minorities, women, and people with disabilities are integrated fully into the civilian personnel management system.

(d) Assess progress in DoD Component programs in accordance with the affirmative action goals of the Department of Defense.
§ 191.5 Responsibilities.

(a) The Assistant Secretary of Defense (Force Management and Personnel (ASD(FM&P)), or designee, shall:

(1) Represent the Secretary of Defense in all matters related to the DoD Civilian EEO Program, consistent with DoD Directive 5124.23.

(2) Establish and chair the DEOC.

(3) Establish a Civilian EEO Review Board.

(4) Develop policy and provide program oversight for the Civilian EEO Program.

(5) Ensure full implementation of this part, monitor progress of affirmative action program elements, and advise the Secretary of Defense on matters relating to the Civilian EEO Program.

(e) Prohibit discrimination based on race, color, religion, sex, national origin, mental or physical disability, or age.

(f) Eliminate barriers and practices that impede equal employment opportunity for all employees and applicants for employment, including sexual harassment in the work force and at work sites and architectural, transportation, and other barriers affecting people with disabilities.

(10) Establish DoD Special Emphasis Program Boards to assist with implementation of SEPs under this part.

(11) Establish DoD Civilian EEO Award Programs to provide for the annual issuance of Secretary of Defense Certificates of Merit to DoD Components and individuals for outstanding achievement in the major areas covered by this part, and to review all awards and management training programs within the Department of Defense to ensure that minorities, women, and people with disabilities receive full and fair consideration consistent with their qualifications and the applicable program criteria.

(12) Issue implementing instructions and other documents, as required, to achieve the goals of the DoD Civilian EEO Program and to provide policy direction and overall guidance to the DoD Components.

(13) Represent the Department of Defense on programmatic EEO matters with EEOC, OPM, the Department of Justice, other Federal Agencies, and Congress.

(14) Represent the Department of Defense on the Interagency Committee on Handicapped Employees under E.O. 11830, as amended, and the Council on Accessible Technology under General Services Administration Order ADM 5420.7A.

(15) Represent the Department of Defense at meetings and conferences of non-Federal organizations concerned with EEO programs, and coordinate DoD support of such organizations’ activities with the Assistant Secretary of Defense (Public Affairs) and with DoD General Counsel in accordance with DoD Directive 5410.184, DoD Instruction 5410.195, DoD Directive 5500.26, and DoD Directive 5500.77.

(16) Serve as the DoD liaison with the Office of Federal Contract Compliance Programs (OFCCP), Department of Labor (DoL), for the purpose of providing contract information, forwarding complaints of discrimination filed against DoD contractors, and implementing administrative sanctions imposed against DoD contractors for

3See footnote 1 to §191.2(c).

4See footnote 1 to §191.2(c).

5See footnote 1 to §191.2(c).

6See footnote 1 to §191.2(c).

7See footnote 1 to §191.2(c).
violations of E.O. 11141; E.O. 11246; as amended by E.O. 11375, E.O. 12088; and DoL implementing regulations.

(17) Ensure that the DoD FAR Supplement contains appropriate contract provisions for EEO for Government contractors and subcontractors under Executive Orders 11141, 11246 Part II, 11375, and 12086; Section 402 of the Vietnam Era Veterans’ Readjustment Assistance Act of 1974, as amended; Section 503 of the Rehabilitation Act of 1973, as amended; and DoL implementing regulations.

(b) The Heads of DoD Components, or their designees, shall:

(1) Ensure that all EEO policies are disseminated widely and that they are understood and implemented at all levels within their Components.

(2) Ensure that their Components comply with EEOC and OPM guidance and this part and that minorities, women, and people with disabilities receive full and fair consideration for civilian employment in all grade levels, occupations, and major organizations, with special emphasis on mid-level and higher grades and executive-level jobs, including the Senior Executive Service (SES) and SES candidate pools.

(3) Treat equal opportunity and affirmative action programs as essential elements of readiness that are vital to accomplishment of the national security mission.

(4) Designate a Director of Civilian Equal Opportunity and allocate sufficient staff and other resources to ensure a viable EEO program under this Directive. This includes assignment of staff to be responsible for EEO and affirmative action programs generally and SEP Managers for the SEPs established under this part at the Component level.

(5) Establish DoD SEPs, for the FWP, HEP, PPD, AEP, AIEP, and BEP at Headquarters level and at all field activities levels unless exemptions are granted to field activities. Authority to grant exceptions to field activities of DoD Components is delegated to the Component Heads who, in turn, may delegate this authority.

(6) Require that EEO be included in critical elements in the performance appraisals of all supervisors, managers, and other Component personnel, military and civilian, with EEO responsibilities.

(7) Ensure fair, impartial, and timely investigation and resolution of complaints of discrimination in employment, including complaints of sexual harassment.

(8) Set realistic Component goals and motivate subordinate managers and supervisors to set and meet their own goals until overall DoD and Component goals are met and sustained.

(9) Evaluate employment policies, practices, and patterns within their respective Components and identify and correct and institutional barriers that restrict opportunities for recruitment, employment, advancement, awards, or training for minorities, women, and people with disabilities and ensure that EEO officers and civilian personnel officers provide leadership in eliminating these barriers.

(10) Ensure that installations and activities establish focused external recruitment programs to produce employment applications from minorities, women, and people with disabilities who are qualified to compete effectively with internal DoD candidates for employment at all levels and in all occupations.

(11) Establish a continuing EEO educational program (including training in the prevention of sexual harassment) for civilian and military personnel who supervise civilian employees.

(12) Establish EEO Awards Programs to recognize individuals and organizational units for outstanding achievement in one or all of the major EEO areas covered by this part.

(13) Review all award and management training programs to ensure that minorities, women, and people with disabilities are considered, consistent with their qualifications and program criteria.

(14) At military installations having a civilian work force and military units, ensure that the Civilian EEO Program is managed by and conducted for civilian personnel only and that the Military Equal Opportunity Program is managed by and conducted for military personnel only. Any exceptions to this
§ 191.6 Procedures.

(a) Officials designated in this Directive shall allocate resources necessary to develop methods and procedures to ensure that all elements of this part are fully implemented and are in compliance with the spirit and intent of the DoD Human Goals Charter, laws, executive orders, regulatory requirements, and other Directive and Instructions governing the Civilian EEO Program within the Department of Defense.

(b) Heads of DoD Components, in accordance with EEOC and OPM guidance and subject to oversight by and supplemental guidance from the ASD(FM&P), or designee shall:

1. Develop procedures for and implement an affirmative action program for minorities and women, consistent with section 717 of the Civil Rights Act of 1964, as amended; E.O. 11478; guidance from EEOC; and guidance from OPM.

2. Develop procedures for and implement an affirmative action program for people with disabilities consistent with section 501 of Rehabilitation Act of 1973, as amended, and guidance from EEOC.

3. Develop procedures for and implement an affirmative action program for disabled veterans, consistent with DoD Directive 1341.6. This program shall be consistent with the program established in paragraph (b)(2) of this section and coordinated with the Component’s PPD manager.

5. Develop procedures for and implement a Federal Equal Opportunity Recruitment Program for minorities and women and a comparable special recruitment program for people with disabilities in accordance with the Civil Service Reform Act of 1978; EEOC Instruction concerning affirmative action programs for people with disabilities; guidance from OPM; external recruitment programs to obtain employment applications from minorities, women, and people with disabilities who are competitive with internal DoD candidates for employment at all levels.

6. Develop procedures for and implement all SEPs established under this part at the Component level. These SEPs shall be integral parts of the Civilian EEO Program and shall be conducted in accordance with the provisions of this part and applicable EEOC and OPM guidance.

7. Develop procedures for and implement a program to eliminate sexual harassment in Component workplaces, consistent with DoD Policy on Sexual Harassment memorandums, and to ensure compliance with the Equal Pay Act.

8. Develop procedures for and implement a program of employment preference for spouses of military personnel, in accordance with DoD Instruction 1404.12.

9. Develop procedures for and implement a selective placement program for people with disabilities in accordance with guidance from OPM. This program shall be consistent with the program established in paragraph (b)(2) of this section, and coordinated with the Component’s PPD manager.

10. Develop procedures for and implement staffing initiatives, training and development programs, and upward mobility programs designed to increase the representation of qualified minorities, women, and people with disabilities on certificates of eligibility and accompanying lists of individuals eligible for special appointments that are provided to selecting officials at all levels within the Component. These
§ 191.8 Defense equal opportunity council and EEO boards.

(a) The DEOC shall be chaired by the ASD (FM&P) and shall coordinate policy for and review civilian and military equal opportunity programs, monitor progress of program elements, and advise the secretary of Defense on pertinent matters. One of the mandates of the DEOC shall be to pursue an aggressive course of action to increase the numbers of minorities, women, and people with disabilities in management and executive positions at grades 13 and above, including the SES and, at the request of the Secretary of Defense, Schedule C, and other noncareer executive positions in the SES and on the Executive Schedule. Members of the DEOC shall include the assistant Secretary of Defense (Reserve Affairs), Director of Administration and Management, and the Assistant Secretaries with responsibility for personnel policy and reserve affairs in the Military Departments.

(b) The Civilian EEO Review Board shall be chaired by the ASD(FM&P), or
designee. The Board shall support the DEOC and shall be made up of designated EEO and personnel representatives from the DoD Components and such other individuals as may be necessary to carry out the work of the DEOC and implement this part. The Board shall work with career management officials, other key management officials, and union representatives in developing policies, programs, and objectives.

(c) The DoD SEP Boards shall be chaired by the DoD SEP Managers. These Boards shall be comprised of designated SEP Managers from the DoD Components and such other individuals as may be necessary to advise and assist in EEO activities and policy development in the Department of Defense. The Boards shall work with career management officials, other key management officials, and union representatives in developing policies, programs, and objectives.

(d) The DEOC, Civilian EEO Review Board, and each SEP Board established at the DoD level shall have a Charter that describes its organization, management, functions, and operating procedures, consistent with DoD Directive 5105.18.10

(e) Civilian EEO Review Boards and SEP Boards may be established at Component, command, and installation levels as well as the DoD level to assist in program activities.

(f) Members of covered groups should be represented on Civilian EEO Review Boards, SEP Boards, and subcommittees at all levels; and consideration should be given to participation by military personnel and by Federal employees who are union representatives.

§ 191.9 Information requirements.

(a) The ASD(FM&P) shall:

(1) Submit an annual report to the Secretary of Defense on the status of the DoD EEO program. This report shall be developed from existing documents, such as affirmative action plan accomplishment reports, civil rights budget reports, semiannual discrimination complaint reports, and Federal Equal Opportunity Recruitment Program reports, plus statistical data obtained from the Defense Manpower Data Center and reports of visits to DoD installations.

(2) Submit consolidated DoD annual reports on discrimination complaints to the EEOC in accordance with EEOC guidance. This reporting requirement is assigned Interagency Report Control Number 0288-EEO-NA.

(b) Heads of DoD Components shall:

(1) Submit annual reports on discrimination complaints to the ASD(FM&P), or designee, in accordance with guidance from the EEOC. This reporting requirement is assigned Interagency Report Control Number 0288-EEO-NA.

(2) Submit copies of affirmative action program plan, affirmative action program plan updates, and affirmative action plan accomplishment reports for minorities, women, and people with disabilities to the ASD(FM&P), or designee, in addition to copies of annual reports for the Federal Equal Opportunity Recruitment Program.

(3) Ensure that designated officials submit information for an annual report on computer support of employees with disabilities and for reports on individual computer accommodations for employees with disabilities. These reporting requirements are assigned RCS DD–FM&P (A) 1731 and RCS DD–FM&P (AR) 1732.

§ 191.10 Effective date.

This part is effective May 21, 1987.

PART 192—EQUAL OPPORTUNITY IN OFF-BASE HOUSING
§ 192.1 Purpose.
This part:
(a) Revises 32 CFR part 192.
(b) Revises the references, policies, and procedures covering off-base housing and fair housing enforcement.
(c) Outlines discrimination complaint inquiries or investigative procedures and hearing requirements.
(d) Deletes the requirement for each Military Department to submit a semiannual housing discrimination report to the Assistant Secretary of Defense (Force Management and Personnel) (ASD(FM&P)).
(e) Requires each Military Service to report to the ASD(FM&P) any housing discrimination cases and their results in their Annual Military Equal Opportunity Assessment Report to the ASD(FM&P).
(f) Requires each Military Department to maintain all completed or resolved housing discrimination cases.
(g) Emphasizes liaison with other Government (local, State, or Federal) agencies.

§ 192.2 Applicability.
This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Joint Chiefs of Staff (JCS), the Joint Staff, the Unified and Specified Commands, the Inspector General of the Department of Defense (IG, DoD), the Uniformed Services University of the Health Sciences (USUHS), the Defense Agencies, and DoD Field Activities (hereafter referred to collectively as “DoD Components”). The term “Military Services,” as used herein, refers to the Army, Navy, Air Force, and Marine Corps. DoD civilian employees (as defined in §192.3) will be offered the same services that members of the Armed Forces receive.

§ 192.3 Definitions.
Agent. Real estate agency, manager, landlord, or owner of a housing facility doing business with DoD personnel or a housing referral service (HRS).
Area Outside the United States. Foreign countries where DoD personnel reside.
Commander. The military or civilian head of any installation, organization, or agency of the Department of Defense who is assigned responsibility for the off-base housing program.
Commuting Area. That area which is within a 1 hour commute by a privately-owned vehicle during rush hour and no farther than 30 miles from the installation, or within other limits to satisfy mission requirements.
Complainant. A member of the Armed Forces (or authorized dependent designated by the member) or a civilian employee of the Department of Defense (or authorized dependent designated by the civilian employee) who submits a complaint of discrimination under this part.
Discrimination. An act, policy, or procedure that arbitrarily denies equal treatment in housing because of race, color, religion, sex, national origin, age, handicap, or familial status to an individual or group of individuals.
DoD Personnel. (1) Members of the Armed Forces (and their dependents) authorized to live off-base.
(2) DoD civilian employees (and their dependents) who are transferred from one place of residence to another because of job requirements or recruited for job opportunities away from their current place of residence in the United States, and all DoD U.S. citizen appropriated fund and nonappropriated fund civilian employees and their dependents outside the United States.
Familial Status. One or more individuals (who have not attained the age of 18 years) being domiciled with a parent or another person having legal custody of such an individual or individuals; or the designee of such parent or other person having such custody, with the written permission of such parent or other person.
Listed Facility. A suitable housing facility (not on restrictive sanction) listed with the HRS as available for occupancy by DoD personnel.
§ 192.4 Policy.

It is DoD policy that under DoD Directive 1350.2, the Department of Defense is fully committed to the goal of obtaining equal treatment for all DoD personnel. Specific guidance on off-base housing and fair housing enforcement is as follows:

(a) National Housing Policy. Federal law prohibits discrimination in housing in the United States against any person because of race, color, religion, sex, age, national origin, handicap, or familial status.

(i) Title VIII of P.L. 90–284 contains the following:

(1) The fair housing provisions.

(ii) Outlines the responsibilities of the Secretary of Housing and Urban Development (HUD) with regard to Public Law 90–284.

(iii) Requires all Executive Departments and Agencies to administer housing and urban development programs and activities under their jurisdiction in a manner that shall reflect “affirmatively” the furthering of title VIII.

(2) Title IX of Public Law 90–284 makes it a crime to intimidate willfully or interfere with any person by force or threat because of that person’s activities in support of fair housing.

(3) Title 42 U.S.C. 1982 prohibits discrimination in housing in the United States. This statute protects DoD personnel.

(4) Public Law 100–430 amends title VIII of Public Law 90–284 by revising the procedures for the enforcement of fair housing requirements and adding protected classes of individuals.

(5) Title VIII of Public Law 90–284, as amended by Public Law 100–430, does not limit the applicability of any reasonable local, State, or Federal restrictions regarding the maximum number of occupants permitted to occupy a dwelling. Additionally, provisions of such title VIII regarding familial status do not apply with respect to housing intended for, and solely occupied by, persons 62 years of age or older or intended and operated for occupancy, but at least one person 55 years of age or older. For guidance regarding housing occupied by those 55 years of age or older, use the statutory provision at section 805 b(2)(c), 102 Stat. 1623, of Public Law 100–430.

(b) DoD Fair Housing Policy. The Department of Defense intends that Federal fair housing law shall be supported and that DoD personnel shall have equal opportunity for available housing regardless of race, color, religion, sex, age, national origin, handicap, or familial status.

(i) That policy includes the objective of eliminating discrimination against DoD personnel in off-base housing. That objective is not achieved simply by finding a place to live in a particular part of town or in a particular facility for a specific person.

(ii) The intent is achieved when a person meeting the ordinary standards of character and financial responsibility is able to obtain off-base housing equally as any other person anywhere in the area surrounding a military installation, without suffering discrimination based on race, color, religion,
sex, age, national origin, handicap or familial status.

(i) The accomplishment of this objective shall not be hampered by requiring the submission of a formal complaint of discrimination. A suspected discriminatory act, with or without the filing of a formal complaint, is a valid basis for investigation and, if discrimination is substantiated, imposition of restrictive sanctions.

(ii) On substantiation that an agent practiced discrimination, restrictive sanctions shall be imposed for a minimum of 180 days.

(iii) The fact that Public Law 90-284, 42 U.S.C. 1982, and Public Law 100-430 may or may not provide a remedy in a given case of discrimination affecting DoD personnel does not relieve a commander of the responsibility to ensure equal treatment and equal opportunity for such personnel or to impose restrictive sanctions against the agent and/or facility, when appropriate.

(iv) Military installations shall develop information programs to apprise Service members of the DoD policy and program for equal opportunity in off-base housing. Commanders should use local community resources, such as civil rights organizations, religious and service groups, and local information media, in support of their programs.

§ 192.5 Responsibilities.

The Secretaries of the Military Departments shall:

(a) Ensure nondiscrimination in referring DoD personnel to off-base housing facilities.

(b) Continue efforts (as described in DoD 4165.63-M) to identify and solicit nondiscriminatory assurances for housing facilities within the commuting area, which are considered to be suitable for occupancy by Service members.

(c) Ensure that an office and staff required by DoD 4165.63-M are available in conjunction with the cognizant staff judge advocate or other legal authority to advise Service members on the following:

(i) The procedures in this part.

(ii) On substantiation that an agent practiced discrimination, restrictive sanctions shall be imposed for a minimum of 180 days.

(iii) The fact that Public Law 90-284, 42 U.S.C. 1982, and Public Law 100-430 may or may not provide a remedy in a given case of discrimination affecting DoD personnel does not relieve a commander of the responsibility to ensure equal treatment and equal opportunity for such personnel or to impose restrictive sanctions against the agent and/or facility, when appropriate.

(iv) Military installations shall develop information programs to apprise Service members of the DoD policy and program for equal opportunity in off-base housing. Commanders should use local community resources, such as civil rights organizations, religious and service groups, and local information media, in support of their programs.

§ 192.6 Procedures.

(a) Appendix B to this part contains the detailed procedures for assisting Service members, investigating housing complaints, and reporting requirements for housing discrimination complaints.

(b) The complaint and investigative report required in section B, appendix B to this part is exempt from formal approval and licensing under DoD 7750.5-M.

APPENDIX A TO PART 192—CHECKLIST FOR COMMANDERS

A. Are all assigned personnel informed of the Equal Opportunity in Off-Base Housing Program requirements before obtaining housing off base?

B. Is there an effective information program ensuring equal opportunity in off-base housing information program?

C. Are community resources being used to
C. Are community resources being used to support the equal opportunity in off-base housing information program?

D. Are housing discrimination complaints being processed within the required time?

E. Are complainants being informed in writing of the results of housing discrimination inquiry and/or investigating actions?

F. Are housing surveys being conducted periodically to obtain new listings?

G. Are restrictive sanctions being imposed immediately for a minimum of 180 days on agents found to be practicing discrimination?

H. Are the services of command representatives provided to assist applicants in their search for housing?

I. Are HHS personnel and equal opportunity personnel aware of and sensitive to housing problems encountered by DoD personnel?

J. Are equal opportunity in off-base housing reports being submitted accurately and on time?

APPENDIX B TO PART 192—PROCEDURES AND REPORTS

A. Off-Base Housing Procedures

DoD personnel seeking off-base housing shall be processed as follows:

1. Seen by an HRS when available (optional for DoD civilian personnel).

2. Provided assistance in seeking temporary and permanent off-base housing, as follows:

a. Counseling on the equal opportunity in off-base housing program with particular emphasis placed on reporting any indication of discrimination against DoD personnel in their search for housing.

b. Counseling and personal assistance shall include the following services:

   (1) Offering to check by telephone the availability of selected listings. A record shall be made and retained for future reference of the date, time, and nature of any conversation confirming the availability of a facility. The race, color, religion, sex, national origin, handicap, or familial status of the applicant shall not be divulged. Caution must be exercised to ensure that a pattern of "confirmation only for minorities" does not develop.

   (2) Offering the services of a command representative (such as a unit sponsor or other designated person, when available) to accompany and assist the applicant in the search for housing.

   (3) Explaining various discriminatory methods that may be employed by agents.

   For instance, an agent may arbitrarily refuse to accept or consider the applicant as a tenant, falsely indicate the unit sought has been rented to another applicant, or refuse to make the unit available under the same terms and conditions as are ordinarily applied to applicants for the facilities. In such instances the following shall apply:

   (a) The agent shall be queried on the reasons why the unit is not available. After all reasonable steps have been taken to ascertain whether any valid nondiscriminatory reason can be shown for the agent's rejection of the applicant, and if there appears to be no such reason, a reasonable effort shall be made to persuade the agent to make the unit available to the applicant.

   (b) The incident shall be reported immediately by the command representative and the applicant to the HRS for appropriate command action.

B. Complaint Procedures—United States

Commanders shall ensure that all DoD personnel are informed of the scope and provisions of the DoD Equal Opportunity in Off-Base Housing Program and advised to report immediately to the HRS (when available) any form of discrimination encountered when seeking housing within a Civilian Community. Incidents should be reported to the respective agencies or command representatives when an HRS is not available (i.e., equal opportunity officer, unit commander, supervisor). A verbal or written statement of discriminatory policy by an agent is considered to be an act or incident of discrimination, and the investigative procedures outlined in this appendix shall be followed.

1. Inquiry into Complaint. Complaints of off-base housing discrimination must receive prompt attention. An inquiry into the complaint shall begin within 3 working days after receipt of the complaint. The inquiry may be informal, but must be detailed sufficiently to determine if discrimination occurred. Upon receipt of a discrimination complaint, the HRS (if there is no HRS, a command designated representative) shall take the following action:

   a. Immediately notify the commander.

   b. Promptly interview the complainant to determine the details and circumstances of the alleged discriminatory act.

   c. Immediately telephone or visit the facility and/or agent concerned, if the complaint is received shortly after the time of the alleged act and it concerns the change in availability of a vacancy (i.e., "just rented," etc.). Attempt to determine if a vacancy exists without making reference to the complaint received. Request the commander to authorize the use of verifiers, as necessary. (See this appendix, subsection B.2.)

   d. Advise the complainant of the provisions and procedures in this Instruction and of the right to pursue further actions through HUD, DoJ, and local or State agencies. Coordinate efforts with the Office of Judge Advocate or other cognizant legal counsel to determine
Office of the Secretary of Defense

Pt. 192, App. B
to what extent legal assistance can be provided to the complainant. Assist the complainant in completing seven signed, dated, and notarized copies of HUD Form 903, "Housing Discrimination Complaint." The fact that a complainant might report an act of alleged discriminatory treatment, but declines completing a HUD Form 903, does not relieve the command of responsibility for making further inquiry and taking such subsequent actions, as may be appropriate.

e. Document the complainant’s action for future reference and inform the commander of the results of the HRS preliminary inquiry and actions taken. The commander shall take action to assist the complainant in obtaining suitable housing. If, due to previous discriminatory practices in the community, suitable housing cannot be obtained by the complainant in a reasonable amount of time, the complainant and the commander may use this fact to justify a request for priority in obtaining military housing or for humanitarian reassignment. Reassignment action is a last resort and must be justified fully through command personnel channels.

2. Use of Verifiers. Verifiers are authorized to determine if a vacancy exists and whether or not rental or such practices are discriminatory. Verifiers shall not be used only for determining sincerity or normal practices of an agent about whom the HRS has not received a housing discrimination complaint.

a. When selecting and using verifiers, the following applies:
(1) Verification of the vacancy shall be made expeditiously after alleged act of discrimination.
(2) Verifiers may be volunteers. (The equal opportunity office is a possible source for identifying individuals to be used as verifiers.)

b. Instructions provided to the verifiers by the commander shall include the following:
(1) Explanation of the equal opportunity in off-base housing and off-base housing referral programs.
(2) Verifiers are to obtain information only on agent and/or facility operating policies, practices, and procedures for subsequent determination of complaint validity.
(3) Verifiers are not to make a verbal or written contract for the housing unit, pay any money, or say they want the housing unit.
(4) Verifiers shall be knowledgeable concerning family composition, pets, and housing requirements of the complainant; they shall ask for identical housing requirements.
(5) The following information shall be obtained by the verifier, if possible:
(a) Concerning the Facility. What is available? Does it meet the requirements of the complainant? Amount of rent or cost of facility? Deposit required? Is an application required? What is the time between filing an application and permission to move in? Are there minority families and/or singles in the facility? Make a note of the presence or absence of a vacancy sign, and any other information deemed appropriate.
(b) Concerning the Prospective Tenants/Purchasers. If possible, ascertain criteria and qualifications that must be met (credit rating, salary, marital status, deposit, written application, etc.) and obtain a complete description of all procedures for becoming a tenant/purchaser including all steps from initial inquiry to moving in. Does the agent’s subjective impression of the applicant appear to play any part in the decision to rent the unit?
(6) The verifier’s statement shall be completed immediately after the verification visit, if possible. It shall be accurate, objective, and factual. Include the following in the statement:
(a) Date, time of visit, persons contacted, positions of persons contacted. Include any other pertinent information obtained during visit; i.e., length of time employed at facility, in addition to the information in this appendix, subparagraph B.2.b.(5), above.
(b) When reconstructing a conversation, write in the first person and try to use direct quotes. Do not use pronouns such as “he,” “she,” or “they.” Clearly identify who said what to whom.
(c) Sign and date statement. Give full name, address, telephone number (duty or home), race, color, religion, sex, national origin, age, handicap, or familial status, as relevant to the complaint.

3. Complaint Process. If the basic facts of the HRS preliminary inquiry appear to substantiate the complaint, the commander shall ensure that the following actions begin within 3 working days of receipt of the inquiry report:
(a) Informal Hearing. Give written notice to the agent explaining the nature of the complaint and the agent’s right to request an informal hearing with the commander. The notification shall state specifically the nature of the discrimination complaint and the right of the agent to appear personally at the hearing, to be represented by an attorney, to present evidence, and to call witnesses. The notification also shall state that the agent has 5 days after receipt of the written notice to request a hearing. If no request
is received within 5 days, the lack of response shall be considered as a waiver of the right to such hearing. The written notification either shall be delivered to the agent personally by a representative of the commander, or shall be sent to the agent by certified mail with return receipt requested.

1. Composition of an Informal Hearing. The informal hearing shall be conducted by the commander or designee at a convenient location. The agent, agent’s attorney, the complainant, the complainant’s attorney, the equal opportunity officer, the HRS, the Staff Judge Advocate or other cognizant legal counsel, or other designated persons may attend.

2. Record of Hearing. A summary of the hearing shall be made a part of the complaint file.

b. Legal Review. A legal review shall be accomplished following the inquiry and informal hearing (if applicable) and before the commander’s final decision that the inquiry supports or fails to support the complaint. The summary and other pertinent documents shall be reviewed for content and completeness. A statement that such a review was conducted and signed by the Staff Judge Advocate or other cognizant legal counsel performing the review shall be a part of the case file. That statement shall include:

1. Any necessary explanatory remarks, including comments on the facts and evidence presented.
2. Information known about pending complaints brought by other parties on the same facility and/or agent.
3. Comments on the civil rights laws relevant to the particular case.

4. Commander’s Decision. The responsibility for imposition of restrictive sanctions rests with the commander and cannot be delegated. The commander’s decision shall be based on a full and impartial review of all facts and the policies and requirements as stated in this part. The commander’s options include the following:

a. If the commander determines that more information is required, or for any other reason further inquiry is deemed necessary, an officer shall be appointed from sources other than the HRS to conduct a formal inquiry or investigation, as the situation warrants. The officer, if not an attorney, shall be afforded the advice and assistance of a Staff Judge Advocate or other cognizant legal counsel.

b. If, in the commander’s judgment, the inquiry or investigation fails to support the complaint the case shall be considered closed and the commander shall:

1. Inform the complainant in writing of all actions taken and advise the complainant of rights to pursue further actions to include the following:
   a. The right to submit a complaint to the HUD and the DoJ.
   b. The right to bring a private civil action in a State or Federal court of competent jurisdiction.
   c. The availability of legal assistance from their local Staff Judge Advocate or other cognizant legal counsel in pursuing civil redress.
2. Summarize in the report file the practices giving rise to the complaint, the actions and results of the inquiry or investigation, and if discriminatory practices were found, written assurances from the agent on future facility and/or agent practices. The following statement, completed by the complainant, shall be included, as part of the case file: “I am (am not) satisfied with the efforts taken by the commander on my behalf to achieve satisfactory resolution of my off-base housing discrimination complaint.” If the complaint indicates a lack of satisfaction, the reasons must be included in the case file.
3. Inform the agent of the results of the inquiry by command correspondence if an informal hearing was held. Such correspondence should reiterate DoD policy and requirements for equal opportunity in off-base housing.
4. Forward unsubstantiated complaint reports and HUD Form 903 to the HUD and the DoJ if requested by the complainant.
5. Retain a copy of the report file for 2 years for future reference.

c. If the inquiry or investigation supports the complainant’s charge of discrimination and the discriminatory act is determined by the commander to conflict with DoD policy, the commander shall:

1. Impose restrictive sanctions against the agent and/or facility for a minimum of 180 days. Sanctions shall remain in effect until the requirements in this appendix, subparagraphs B.6.a.(1) or B.6.a.(2), below, are met. Restrictive sanctions shall be imposed when a suspected discriminatory act, despite the absence of a formal complaint, is investigated and found valid. The fact that a validated discrimination complaint and/or incident has been or is scheduled to be forwarded to another Agency (the HUD, the DoJ, etc.) is not cause for withholding sanction action pending the outcome of that Agency’s further review or investigation. When imposing a restrictive sanction, the commander shall:
   a. Remove the facility listing(s) from HRO files.
   b. Impose restrictive sanctions against all facilities owned or operated by the agent concerned.
   c. Place the facility on the restrictive sanction list maintained by the HRS. The restrictive sanction list shall be prepared on official letterhead stationery, signed by the commander, and include the authority for and conditions of the restrictive sanctions.
   d. Inform the agent concerned by command correspondence that:
Office of the Secretary of Defense

(1) Restrictive sanctions have been imposed.

(2) The reasons, nature, and minimum duration of the restrictions.

(3) The action required for the removal of sanctions at the conclusion of the minimum period.

The notification of restrictive sanctions shall be sent by certified mail, return receipt requested or delivered to the agent personally by a command representative.

(c) Any other considerations deemed relevant.

(4) Include a statement completed by the complainant for the case file. (See this appendix, subparagraph B.4.b.(3), above.)

(5) Periodically publish a current listing of the restrictive sanction list from the HRS using a DD Form 1746, “Application for Assignment to Housing.”

(6) When more than one complaint alleging discrimination in the same facility or by the same agent has been received, consolidate the complaints for the inquiry, legal review, and commander’s memorandum.

(d. When a commander receives a complaint alleging further discrimination in a facility or by an agent after a completed case file has been closed, the commander shall forward the summary of the facts on the subsequent complaint, outlined in this enclosure, subparagraph B.4.c.(6), above. Include brief comments indicating the extent to which the new complaint affects the previous action.

5. Followup Actions. After forwarding the report and all required attachments to the HUD and the DoJ, the commander shall take the following actions:

a. Cooperate with the HUD, the DoJ, and the local and State agency representatives during their investigation and processing of the case, should those entities seek assistance.

b. Periodically determine the status of the case by maintaining liaison with the HUD office concerned. Contact shall be maintained until such time as the case is resolved by the HUD.

c. Ensure that the complainant is kept informed directly by the HUD and/or the DoJ.

d. Ensure that DoD personnel comply with the restrictive sanctions imposed on the facility and/or the agent. Housing personnel will comply with the following:

(1) Military personnel moving into or changing their place of residence in the commuting area of a facility that is under restrictive sanction. Relocation of a military tenant within a restricted facility is prohibited without the written approval of the commander.

(2) Implement procedures for ensuring that DoD personnel seeking housing are made aware of, and are counselled on, current restrictive sanctions.

(3) Sanctions are not applicable to the DoD personnel who may be residing in a facility when the sanction is imposed or to the extension or renewal of a rental or lease agreement entered into before the imposition of the sanction. Relocation of a military tenant within a restricted facility is prohibited without the written approval of the commander.

(4) If it is determined that a member of the Armed Forces has intentionally taken residency in a restricted facility contrary to instructions received by Housing Referral personnel, the commander shall take appropriate disciplinary action against that number.

(5) Periodically publish a current listing of restricted facilities in the base bulletin (or other appropriate means of internal distribution). Minimally, such publication shall include brief comments indicating the extent to which the new complaint affects the previous action.

6. Removal of Restrictive Sanction

a. A facility and/or agent may be removed from restrictive sanction only if one of the following actions is taken:
(1) The restrictive sanction may be removed before completion of the 180 day restrictive period if an approved waiver request is obtained from the senior installation commander concerned, or designee. Consideration shall be given to lifting an imposed sanction only in exceptional circumstances and in conjunction with a written assurance of nondiscrimination from the agent concerned.

(2) After completion of 180 days on restrictive sanction, if the agent provides written assurance of future nondiscrimination to the HRS.

b. The commander shall inform the HRS, the equal opportunity office, and the agent in writing of the removal from restrictive sanction.

7. “Privacy Act” and “Freedom of Information Act” Inquiries. Requests for information from reports of housing discrimination shall be processed in accordance with 32 CFR parts 285 and 286a.

C. Compliant Procedures—Outside the United States

Commanders of installations or activities outside the United States shall ensure that all DoD personnel, on reporting to the HRS, are clearly informed of the scope and provisions of the DoD Equal Opportunity in Off-Base Housing Program and advised to report immediately to the HRS any form of discrimination encountered as a tenant, prospective tenant, or purchaser. Incidents reported to base agencies or representatives other than the HRS (i.e., equal opportunity officer, unit commander, supervisor) shall be brought to the immediate attention of the HRS for appropriate action. On receiving a complaint of discrimination, the commander and HRS shall:

1. Consult with the Staff Judge Advocate or other cognizant legal counsel to determine if the laws of the country concerned (or any subdivision thereof) prohibit any of the actions outlined in this appendix, section B., above.

2. Take actions outlined in this appendix, section B, above, except that a HUD Form 903 shall not be completed because reports of cases arising outside the United States are not forwarded to the HUD or the DoJ. Complainants should understand that the fair housing provisions of the P.L. 90-284, “Civil Rights Act,” Title 42, United States, 1962, and Public Law 100-430, “Fair Housing Amendments Act of 1988,” September 13, 1988, are not applicable in areas outside the United States.

3. Determine, with legal advice, whether redress for the discriminatory act should be sought from authorities in the host country. Redress shall be based on the laws of the country (or subdivision thereof) concerned.

D. Reporting Requirements

1. A copy of each complaint and investigative report that substantiates a housing discrimination shall be submitted to the appropriate Military Department (manpower and reserve affairs and/or the equal opportunity office) not later than 45 days from the date the case is completed. Under normal circumstances, the commander of the installation concerned shall complete the required investigation and processing complaints within 45 days from the date that a housing complaint is filed by a complainant.

2. A copy of complaint and investigative reports that do not substantiate allegations of housing discrimination shall be kept on file at the installation level for a 24-month period beginning from the date the case was completed.

PART 193—HIGHWAYS FOR NATIONAL DEFENSE

§193.1 Purpose and scope.

This part sets forth policy, responsibilities, and authority in matters pertaining to Department of Defense highway needs and, when appropriate, to the highway needs of other Federal agencies, during peacetime and emergencies in the United States and its territories and possessions.

§193.2 Applicability.

The provisions of this part apply to all components of the Department of Defense.

§193.3 Policy.

In order to insure that the national defense is served by adequate, safe and efficient highway transportation, it shall be the policy of the DoD to (a) integrate the highway needs of the national defense into the civil highway programs of the various State and Federal agencies, and (b) cooperate with those agencies in matters pertaining to the use of public highways and in planning their development and construction.
§ 193.4 Authorities and responsibilities.

(a) The Secretary of the Army, as the Single Manager for Military Traffic, Land Transportation, and Common-User Ocean Terminals (see DoD Directive 5160.53, Single Manager Assignment for Military Traffic, Land Transportation, and Common-User Ocean Terminals, March 24, 1967 (32 FR 5295)), is hereby designated as the Executive Agent for the Department of Defense (hereinafter referred to as the Executive Agent), in matters pertaining to public highways to serve the national defense in meeting both peacetime and mobilization highway transportation needs in the United States, its territories and possessions; and highway needs of other Federal agencies, when appropriate. The Executive Agent, or his designee, under the policy guidance of the Assistant Secretary of Defense (Installations and Logistics), will:

1. Coordinate the defense transportation interest in public highways, including the implementation of subsection (h), section 210 of Title 23 U.S. Code, and integrate foreseen DoD highway needs and operational requirements into the highway programs of the United States, its territories and possessions.

2. Review and analyze DoD access road needs, and, when appropriate, those of other Federal agencies from the standpoint of approved transportation engineering practices, statutory provisions, and policies and procedures of the Bureau of Public Roads, Department of Transportation.

3. Represent the DoD in matters pertaining to highways to serve the national defense in liaison with the Bureau of Public Roads, the American Association of State Highway Officials, and other appropriate Government and non-Government agencies.

4. Certify on behalf of the Secretary of Defense to the appropriate Government agency, the public highway needs of the DoD and, when appropriate, the needs of other Federal agencies, as being important to the national defense. (See section 210, Title 23, U.S. Code.)

5. Advise and assist the Assistant Secretary of Defense (Comptroller) in matters pertaining to the (i) preparation and justification of budget requirements for defense access road needs, and (ii) transfer of funds appropriated for this purpose to the Bureau of Public Roads.

6. Develop and maintain an efficient relationship between the design of military vehicles and State and Federal standards for the design of public highways to ensure the effective and efficient utilization of such highways by military vehicles.

7. Provide highway traffic engineering services to DoD components, when requested.

8. Insure effective cooperation between the Department of Defense and state highway authorities in matters pertaining to special defense utilization of public highways.

(b) The other DoD Components will:

1. Maintain official liaison with the Executive Agent in matters pertaining to the provision of public highways to serve the national defense and the access road needs of new or expanded DoD installations and activities.

2. Furnish the Executive Agent with information and data on current and potential access-road and highway-system needs on request.

(c) The Secretaries of the Military Departments, or their designees, are authorized to act for the Secretary of Defense under the provisions of subsection (h) of section 210, Title 23, U.S. Code, in determining, in connection with the funding of contracts for the construction of classified military installations and facilities for ballistic missiles, that construction estimates and the bids of contractors did not include allowances for repairing road damages.

(d) The Secretaries of the Military Departments and the Directors of DoD Agencies will program, budget, and finance for the responsibilities assigned by this part and their access road requirements (see Pub. L. 90–180, Military Construction Appropriation Act, fiscal year 1968, and successor statutes) in accordance with applicable program and financial guidelines and procedures.

PART 194 [RESERVED]
PART 195—NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE DEPARTMENT OF DEFENSE—EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

APPENDIX A TO PART 195—PROGRAMS TO WHICH THIS PART APPLIES

AUTHORITY: Sec. 602, 78 Stat. 252; 42 U.S.C. 2000d–1, and the laws referred to in appendix A.

§ 195.1 Purpose.

The purpose of this part is to effectuate the provisions of Title VI of the Civil Rights Act of 1964 (referred to in this part as the “Act”) to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving Federal financial assistance from any component of the Department of Defense.

§ 195.2 Definitions.

(a) Component means the Office of the Secretary of Defense, a military department or a Defense agency.

(b) Responsible Department official means the Secretary of Defense or other official of the Department of Defense or component thereof who by law or by delegation has the principal responsibility within the Department or component for the administration of the law extending such assistance.

(c) The term United States means the States of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, Guam, Wake Island, the Canal Zone, and the territories and possessions of the United States, and the term “State” means any one of the foregoing.

(d) The term Federal financial assistance includes:

(1) Grants and loans of Federal funds,

(2) The grant or donation of Federal property and interests in property,

(3) The detail of Federal personnel,

(4) The sale and lease of, and the permission to use (on other than a casual or transient basis), Federal property or any interest in such property without consideration or at a nominal consideration, or at a consideration which is reduced for the purpose of assisting the recipient, or in recognition of the public interest to be served by such sale or lease to the recipient, and

(5) Any Federal agreement, arrangement, or other contract which has as one of its purposes the provision of assistance.

(e) The term program includes any program, project, or activity for the provision of services, financial aid, or other benefits to individuals, or for the provision of facilities for furnishing services, financial aid or other benefits to individuals. The services, financial aid, or other benefits provided under a program receiving Federal financial assistance shall be deemed to include any services, financial aid, or other benefits provided with the aid of Federal financial assistance or with the aid of any non-Federal funds, property, or other resources required to be expended or made available for the program to meet matching requirements or other conditions which must be met in order to receive the Federal financial assistance, and to include any services, financial aid, or other benefits provided in or through a facility provided with the aid of Federal financial assistance or such non-Federal resources.

(f) The term facility includes all or any portion of structures, equipment, or other real or personal property or interests therein, and the provision of facilities includes the construction, expansion, renovation, remodeling, alteration or acquisition of facilities.
Office of the Secretary of Defense

§195.4 Policy.

(a) General. No person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program to which this part applies.

(b) Specific discriminatory actions prohibited.

(1) A recipient under any program to which this part applies may not, directly or through contractual or other arrangements, on the ground of race, color, or national origin:

(i) Deny an individual any service, financial aid, or other benefit provided under the program;

(ii) Provide any service, financial aid, or other benefit to an individual which is different, or is provided in a different manner, from that provided to others under the program;

(iii) In determining the site or location of facilities, a recipient may not make selections with the purpose of excluding individuals from, denying them the benefits of, or subjecting them to discrimination under any program to which this part applies, on the ground of race, color, or national origin; or with the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the Act or this part.

(iv) Subject an individual to segregation or separate treatment in any matter related to his receipt of any service, financial aid, or other benefit provided under the program;

(v) Restrict an individual in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under the program;

(vi) Treat an individual differently from others in determining whether he satisfies any admission, enrollment, quota, eligibility, membership or other requirement or condition which individuals must meet in order to be provided any service, financial aid, or
§ 195.5 Responsibilities.

(a) The Assistant Secretary of Defense (Manpower) shall be responsible for insuring that the policies of this part are effectuated throughout the Department of Defense. He may review from time to time as he deems necessary the implementation of these policies by the components of the Department of Defense.

(b) The Secretary of each Military Department is responsible for implementing this part with respect to programs and activities receiving financial assistance from his Military Department; and the Assistant Secretary of Defense (Manpower) is responsible for similarly implementing this part.
with respect to all other components of the Department of Defense. Each may designate official(s) to fulfill this responsibility in accordance with §195.2(b).

(c) The Assistant Secretary of Defense (Manpower) or, after consultation with the Assistant Secretary of Defense (Manpower), the Secretary of each Military Department or other responsible Department official designated by the Assistant Secretary of Defense (Manpower) may assign to officials of other departments or agencies of the Government, with the consent of such departments or agencies, responsibilities in connection with the effectuation of the purposes of Title VI of the Act and this part (other than responsibility for final decision as provided in §195.11), including the achievement of effective coordination and maximum uniformity within the Department and within the Executive Branch of the Government in the application of Title VI and this part to similar programs and in similar situations.

§ 195.6 Assurances required.

(a) General. (1)(i) Every application for Federal financial assistance to carry out a program to which this part applies, except a program to which paragraph (b) of this section applies, and every application for Federal financial assistance to provide a facility shall, as a condition to its approval and the extension of any Federal financial assistance pursuant to the application, contain or be accompanied by an assurance that the program will be conducted or the facility operated in compliance with all requirements imposed by or pursuant to this part.

(ii) In the case where the Federal financial assistance is to provide or in the form of personal property, or real property or interest therein or structures thereon, the assurance shall obligate the recipient, or, in the case of a subsequent transfer, the transferee, for the period during which the property or structures are used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services and benefits, or for as long as the recipient retains ownership or possession of the property, whichever is longer. In all other cases the assurance shall obligate the recipient for the period during which Federal financial assistance is extended pursuant to the application. In any case in which Federal financial assistance is extended without an application having been made, such extension shall be subject to the same assurances as if an application had been made. The responsible Department official shall specify the form of the foregoing assurances for each program, and the extent to which like assurances will be required of subguarantees, contractors and subcontractors, transferees, successors in interest, and other participants in the program. Any such assurance shall include provisions which give the United States a right to seek its judicial enforcement.

(2) In the case of real property, structures or improvements thereon, or interest therein, which was acquired through a program of Federal financial assistance, or in the case where Federal financial assistance is provided in the form of a transfer of real property or interest therein from the Federal Government, the instrument effecting or recording the transfer, shall contain a covenant running with the land assuring nondiscrimination for the period during which the real property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits, or for as long as the recipient retains ownership or possession of the property, whichever is longer. Where no transfer of property is involved, but property is improved under a program of Federal financial assistance, the recipient shall agree to include such a covenant in any subsequent transfer of such property. Where the property is obtained from the Federal Government, such covenant may also include a condition coupled with a right to be reserved by the Department to revert title to the property in the event of a breach of the covenant where, in the discretion of the responsible Department official, such a condition and right of reverter is appropriate to the program under which the real property...
§ 195.6

is obtained and to the nature of the grant and the grantee. In the event a transferee of real property proposes to mortgage or otherwise encumber the real property as security for financing construction of new, or improvement of existing facilities on such property for the purposes for which the property was transferred, the responsible Department official may agree, upon request of the transferee and if necessary to accomplish such financing, and upon such conditions as he deems appropriate, to forbear the exercise of such right to revert title for so long as the lien of such mortgage or other encumbrance remains effective. In programs receiving Federal financial assistance in the form, or for the acquisition of real property or an interest in real property, to the extent that rights to space on, over, or under any such property are included as part of the program receiving such assistance, the nondiscrimination requirements of this part shall extend to any facility located wholly or in part in such space.

(3) The assurance required in the case of a transfer of surplus personal property shall be inserted in a written agreement by and between the Department of Defense component concerned and the recipient.

(b) Continuing State programs. Every application by a State agency to carry out a program involving continuing Federal financial assistance to which this part applies shall as a condition to its approval and the extension of any Federal financial assistance pursuant to the application (1) contain or be accompanied by a statement that the program is (or, in the case of a new program, will be) conducted in compliance with all requirements imposed by or pursuant to this part, and (2) provide or be accompanied by provision for such methods of administration for the program as are found by the responsible Department official to give reasonable assurance that the applicant and all recipients of Federal financial assistance under such program will comply with all requirements imposed by or pursuant to this part. In cases of continuing State programs in which applications are not made, the extension of Federal financial assistance shall be subject to the same conditions under this subsection as if applications had been made.

(c) Assurances from institutions. (1) In the case of Federal financial assistance to an institution of higher education, the assurance required by this section shall extend to admission practices and to all other practices relating to the treatment of students.

(2) The assurance required with respect to an institution of higher education, or any other institution, insofar as the assurance relates to the institution’s practices with respect to admission or other treatment of individuals as students of the institution or to the opportunity to participate in the provision of services or other benefits to such individuals, shall be applicable to the entire institution unless the applicant establishes, to the satisfaction of the responsible Department official, that the institution’s practices in designated parts or programs of the institution will in no way affect its practices in the program of the institution for which Federal financial assistance is sought, or the beneficiaries of or participants in such program. If in any such case the assistance sought is for the construction of a facility or part of a facility, the assurance shall in any event extend to the entire facility and to facilities operated in connection therewith.

(d) Elementary and secondary schools. The requirement of paragraph (a), (b), or (c) of this section, with respect to any elementary or secondary school or school system shall be deemed to be satisfied if such school or school system (1) is subject to a final order of a court of the United States for the desegregation of such school or school system, and provides an assurance that it will comply with such order, including any future modification of such order, or (2) submits a plan for the desegregation of such school or school system which the responsible official of the Department of Health, Education, and Welfare determines is adequate to accomplish the purposes of the Act and this part, and provides reasonable assurance that it will carry out such plan; in any case of continuing Federal financial assistance the said Department officer may reserve the right to redetermine, after such period as may
be specified by him, the adequacy of the plan to accomplish the purpose of the Act or this part within the earliest practicable time. In any case in which a final order of a court of the United States for the desegregation of such school or school system is entered after submission of such a plan, such plan shall be revised to conform to such final order, including any future modification of said order.

§ 195.8 Conduct of investigations.

(a) Periodic compliance reviews. The responsible Department official or his designee(s) shall from time to time review the practices of recipients to determine whether they are complying with this part.

(b) Complaints. Any person who believes himself or any specific class of individuals to be subjected to discrimination prohibited by this part may by himself or by a representative file with the responsible Department official a written complaint. A complaint must be filed not later than 180 days from the date of the alleged discrimination, unless the time for filing is extended by the responsible Department official.

(c) Investigations. The responsible Department official will make a prompt investigation whenever a compliance review, report, complaint, or any other information indicates a possible failure to comply with this part. The investigation should include, where appropriate, a review of the pertinent practices and policies of the recipient, the circumstances under which the possible noncompliance with this part occurred, and other factors relevant to a determination of whether the recipient has failed to comply with this part.

(d) Resolution of matters. (1) If an investigation pursuant to paragraph (c) of this section indicates a failure to comply with this part, the responsible Department official will so inform the

to furnish this information, the recipient shall so certify in its report and shall set forth what efforts it has made to obtain the information.

(d) Information to beneficiaries and participants. Each recipient shall make available to participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the program under which the recipient receives Federal financial assistance, and make such information available to them in such manner, as the responsible Department official finds necessary to apprise such persons of the protections against discrimination assured them by the Act and this part.

§ 195.7 Compliance information.

(a) Cooperation and assistance. Each responsible Department official shall to the fullest extent practicable seek the cooperation of recipients in obtaining compliance with this part and shall provide assistance and guidance to recipients to help them comply voluntarily with this part.

(b) Compliance reports. Each recipient shall keep such records and submit to the responsible Department official timely, complete and accurate compliance reports at such times, and in such form and containing such information, as the responsible Department official may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this part. In general, recipients should have available for the Department racial and ethnic data showing the extent to which members of minority groups are beneficiaries of federally assisted programs. In the case of any program under which a primary recipient extends Federal financial assistance to any other recipient, such other recipient shall also submit such compliance reports to the primary recipient as may be necessary to enable him to ascertain whether the recipient has complied or is complying with this part.

(c) Access to sources of information. Each recipient shall permit access by the responsible Department official during normal business hours to such of its books, records, accounts, and other sources of information, and its facilities as may be pertinent to ascertain compliance with this part. Where any information required of a recipient is in the exclusive possession of any other institution or person and this institution or person shall fail or refuse to furnish such information, the recipient shall so certify in its report and shall set forth what efforts it has made to obtain the information.

§ 195.8 Conduct of investigations.

(a) Periodic compliance reviews. The responsible Department official or his designee(s) shall from time to time review the practices of recipients to determine whether they are complying with this part.

(b) Complaints. Any person who believes himself or any specific class of individuals to be subjected to discrimination prohibited by this part may by himself or by a representative file with the responsible Department official a written complaint. A complaint must be filed not later than 180 days from the date of the alleged discrimination, unless the time for filing is extended by the responsible Department official.

(c) Investigations. The responsible Department official will make a prompt investigation whenever a compliance review, report, complaint, or any other information indicates a possible failure to comply with this part. The investigation should include, where appropriate, a review of the pertinent practices and policies of the recipient, the circumstances under which the possible noncompliance with this part occurred, and other factors relevant to a determination of whether the recipient has failed to comply with this part.

(d) Resolution of matters. (1) If an investigation pursuant to paragraph (c) of this section indicates a failure to comply with this part, the responsible Department official will so inform the
recipient and the matter will be resolved by informal means whenever possible. If it has been determined that the matter cannot be resolved by informal means, action will be taken as provided in §195.9.

(2) If an investigation does not warrant action pursuant to paragraph (d)(1) of this section, the responsible Department official will so inform the recipient and the complainant, if any, in writing.

(e) Intimidatory or retaliatory acts prohibited. No recipient or other person shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by section 601 of the Act or this part, or because he has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. The identity of complainants shall not be disclosed except when necessary to carry out the purposes of this part including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

§195.9 Procedure for effecting compliance.

(a) General. If there appears to be a failure or threatened failure to comply with this part, and if the noncompliance or threatened noncompliance cannot be corrected by informal means, compliance with this part may be effected by the suspension or termination of or refusal to grant or to continue Federal financial assistance or by other means authorized by law as determined by the responsible Department official. Such other means may include, but are not limited to (1) a reference to the Department of Justice with a recommendation that appropriate proceedings be brought to enforce any rights of the United States under any law of the United States (including other titles of the Act), or any assurance or other contractual undertaking, and (2) any applicable proceedings under State or local law.

(b) Noncompliance with §195.6. If an applicant fails or refuses to furnish an assurance required under §195.6 or otherwise fails or refuses to comply with a requirement imposed by or pursuant to that section Federal financial assistance may be refused in accordance with the procedures of paragraph (c) of this section. The component of the Department of Defense concerned shall not be required to provide assistance in such a case during the pendency of the administrative proceedings under such paragraph except that the component shall continue assistance during the pendency of such proceedings where such assistance is due and payable pursuant to an application therefor approved prior to the effective date of this part.

(c) Termination of or refusal to grant or to continue Federal financial assistance. Except as provided in paragraph (b) of this section no order suspending, terminating or refusing to grant or to continue Federal financial assistance shall become effective until (1) the responsible Department official has advised the applicant or recipient of his failure to comply and has determined that compliance cannot be secured by voluntary means, (2) there has been an express finding, after opportunity for a hearing (as provided in §195.10), of a failure by the applicant or recipient to comply with a requirement imposed by or pursuant to this part, (3) the action has been approved by the Secretary of Defense pursuant to §195.11, and (4) the expiration of 30 days after the Secretary of Defense has filed with the committee of the House and the committee of the Senate having legislative jurisdiction over the program involved, a full written report of the circumstances and the grounds for such action. Any action to suspend or terminate or to refuse to grant or to continue Federal financial assistance shall be limited to the particular political entity, or part thereof, or other applicant or recipient as to whom such a finding has been made and shall be limited in its effect to the particular program, or part thereof, in which such noncompliance has been so found.

(d) Other means authorized by law. No action to affect compliance by any other means authorized by law shall be taken until (1) the responsible Department official has determined that compliance cannot be secured by voluntary means, (2) the action has been approved
§ 195.10 Hearings.

(a) Opportunity for hearing. Whenever an opportunity for a hearing is required by §195.9, reasonable notice shall be given by registered or certified mail, return receipt requested, to the affected applicant or recipient. This notice shall advise the applicant or recipient of the action proposed to be taken, the specific provision under which the proposed action against it is to be taken, and the matters of fact or law asserted as the basis for this action, and either (1) fix a date not less than 20 days after the date of such notice within which the applicant or recipient may request of the responsible Department official that the matter be scheduled for hearing or (2) advise the applicant or recipient that the matter in question has been set down for hearing at a stated place and time. The time and place so fixed shall be reasonable and shall be subject to change for cause. The complainant, if any, shall be advised of the time and place of hearing. An applicant or recipient may waive a hearing and submit written information and argument. The failure of an applicant or recipient to request a hearing under this paragraph or to appear at a hearing for which a date has been set shall be deemed to be a waiver of the right to a hearing under section 602 of the Act and §195.11(c) and consent to the making of a decision on the basis of such information as is available.

(b) Time and place of hearing. Hearings shall be held at the offices of the responsible component of the Department of Defense in Washington, D.C. at a time fixed by the responsible Department official unless he determines that the convenience of the applicant or recipient or of the component requires that another place be selected. Hearings shall be held before the responsible Department official or, at his discretion, before a hearing examiner designated by him.

(c) Hearing examiner. The examiner shall be a field grade officer or civilian employee above the grade of GS–12 (or the equivalent) who shall be a person admitted to practice law before a Federal court or the highest court of a State.

(d) Right to counsel. In all proceedings under this section, the applicant or recipient and the responsible component of the Department shall have the right to be represented by counsel.

(e) Procedures. (1) The recipient shall receive an open hearing at which he or his counsel may examine any witnesses present. Both the responsible Department official and the applicant or recipient shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the officer conducting the hearing at the outset of or during the hearing.

(2) Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary by the officer conducting the hearing. The hearing officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the oral evidence except to the extent the substance thereof is stipulated for the record. All decisions shall be based upon the hearing record and written findings shall be made.

(f) Consolidated or joint hearings. In cases in which the same or related facts are asserted to constitute noncompliance with this part with respect to two or more programs to which this part applies, or noncompliance with
§ 195.11 Decisions and notices.

(a) Decision by person other than the responsible department official. If the hearing is held by a hearing examiner such hearing examiner shall either make an initial decision, if so authorized, or certify the entire record including his recommended findings and proposed decision to the responsible Department official for a final decision, and a copy of such initial decision or certification shall be mailed to the applicant or recipient. Where the initial decision is made by the hearing examiner the applicant or recipient may within 30 days of the mailing of such notice of initial decision file with the responsible Department official his exceptions to the initial decision, with his reasons therefor. In the absence of exceptions, the responsible Department official may on his own motion within 45 days after the initial decision serve on the applicant or recipient a notice that he will review the decision. Upon the filing of such exceptions or of such notice of review the responsible Department official shall review the initial decision and issue his own decision thereon including the reasons therefor. In the absence of either exceptions or a notice of review the initial decision shall constitute the final decision of the responsible Department official.

(b) Decisions on record or review by the responsible department official. Whenever a record is certified to the responsible Department official for decision or he reviews the decision of a hearing examiner pursuant to paragraph (a) of this section or whenever the responsible Department official conducts the hearing, the applicant or recipient shall be given reasonable opportunity to file with him briefs or other written statements of its contentions, and a copy of the final decision of the responsible Department official shall be given in writing to the applicant or recipient and to the complainant, if any.

(c) Decisions on record where a hearing is waived. Whenever a hearing is waived pursuant to §195.10(a), a decision shall be made by the responsible Department official on the record and a copy of such decision shall be given in writing to the applicant or recipient, and to the complainant, if any.

(d) Rulings required. Each decision of a hearing officer or responsible Department official shall set forth his ruling on each finding, conclusion, or exception presented, and shall identify the requirement or requirements imposed by or pursuant to this part with which it is found that the applicant or recipient has failed to comply.

(e) Approval by the Secretary of Defense. Any final decision of a responsible Department official which provides for the suspension or termination of, or the refusal to grant or continue Federal financial assistance, or the imposition of any other sanction available under this part or the Act, shall promptly be transmitted to the Secretary of Defense, who may approve such decision, may vacate it, or remit or mitigate any sanction imposed.

(f) Contents of orders. The final decision may provide for suspension or termination of, or refusal to grant or continue Federal financial assistance, in whole or in part, under the program involved, and may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purposes of the Act and this part, including provisions designed to assure that no Federal financial assistance will thereafter be extended under such program to the applicant or recipient determined by such decision to be in
default in its performance of an assurance given by it pursuant to this part, or to have otherwise failed to comply with this part, unless and until it corrects its noncompliance and satisfies the responsible Department official that it will fully comply with this part.

(g) Post-termination proceedings. (1) An applicant or recipient adversely affected by an order issued under paragraph (f) of this section shall be restored to full eligibility to receive Federal financial assistance if it satisfies the terms and conditions of that order for such eligibility or if it brings itself into compliance with this part and provides reasonable assurance that it will fully comply with this part.

(2) Any applicant or recipient adversely affected by an order entered pursuant to paragraph (f) of this section may at any time request the responsible Department official to restore fully its eligibility to receive Federal financial assistance. Any such request shall be supported by information showing that the applicant or recipient has met the requirements of paragraph (g)(1) of this section. If the responsible Department official determines that those requirements have been satisfied, he shall restore such eligibility.

(3) If the responsible Department official denies any such request, the applicant or recipient may submit a request for a hearing in writing, specifying why it believes such official to have been in error. It shall thereupon be given an expeditious hearing, with a decision on the record, in accordance with rules of procedure issued by the responsible Department official. The applicant or recipient will be restored to such eligibility if it proves at such a hearing that it satisfied the requirements of paragraph (g)(1) of this section. While proceedings under this subsection are pending, the sanctions imposed by the order issued under paragraph (f) of this section shall remain in effect.

§ 195.12 Judicial review.
Action taken pursuant to section 602 of the Act is subject to judicial review as provided in section 603 of the Act.

§ 195.13 Effect on other issuances.
All issuances heretofore issued by any officer of the Department of Defense or its components which impose requirements designed to prohibit any discrimination against individuals on the ground of race, color, or national origin under any program to which this part applies, and which authorize the suspension or termination of or refusal to grant or to continue Federal financial assistance to any applicant for or recipient of such assistance under such program for failure to comply with such requirements, are hereby superseded to the extent that such discrimination is prohibited by this part, except that nothing in this part shall be deemed to relieve any person of any obligation assumed or imposed under any such superseded regulation, order, instruction, or like direction prior to the effective date of this part. Nothing in this part, however, shall be deemed to supersede any of the following (including future amendments thereof):

(a) Executive Orders 10925 and 11114 and issuances thereunder;
(b) The “Standards for a Merit System of Personnel Administration,” issued jointly by the Secretaries of Defense, of Health, Education, and Welfare, and of Labor, 28 FR 734, or
(c) Executive Order 11063 and issuances thereunder, or any other issuances, insofar as such Order or issuances prohibit discrimination on the ground of race, color, or national origin in any program or situation to which this part is inapplicable, or prohibit discrimination on any other ground.

§ 195.14 Implementation.
The Secretary of each Military Department shall submit regulations implementing this part to the Assistant Secretary of Defense (Manpower).

APPENDIX A TO PART 195—PROGRAMS TO WHICH THIS PART APPLIES

1. The Army and Air National Guard (Title 32, United States Code).

5. Office of Civil Defense assistance to programs of adult education in civil defense subjects (50 United States Code App. 2281 (e), (f)).

6. Office of Civil Defense radiological instruments grants (50 United States Code App. 2281(b)).

7. Office of Civil Defense program (with Public Health Service) for development of instructional materials on medical self-help (50 United States Code App. 2281(e), (f)).

8. Office of Civil Defense university extension programs for civil defense instructor training (50 United States Code App. 2281(e)).

9. Office of Civil Defense programs for survival supplies and equipment, survival training, emergency operating center construction, and personnel and administrative expenses (50 United States Code App. 2281(d), 2285).

10. Office of Civil Defense Shelter Provisioning Program (50 United States Code App. 2281(b)).

11. Office of Civil Defense assistance to students attending Office of Civil Defense schools (50 United States Code App. 2281(e)).

12. Office of Civil Defense loans of equipment or materials from OCD stockpiles for civil defense, including local disaster purposes (50 United States Code App. 2281).

13. Navy Science Cruiser Program (SecNav Instruction 5720.19A).

16. Contracts with nonprofit institutions of higher education or with nonprofit organizations whose primary purpose is the conduct of scientific research, wherein title to equipment purchased with funds under such contracts may be vested in such institutions or organizations under the authority of Pub. L. 85–894 (42 United States Code 1891).

17. Army Corps of Engineers participation in cooperative investigations and studies concerning erosion of shores of coastal and lake waters (33 United States Code 426–h).

18. Army Corps of Engineers assistance in the construction of works for the restoration and protection of shores and beaches (33 United States Code 426–h).

20. Payment to States of proceeds of lands acquired by the United States for flood control, navigation, and allied purposes (33 United States Code 701–c–3).

21. Grants of easements without consideration, or at a nominal or reduced consideration, on lands under the control of the Department of the Army at water resource development projects (33 United States Code 559c and 7024–1; 10 United States Code 2698 and 2669); 43 United States Code 961; 40 United States Code 319).

23. Emergency bank protection works constructed by the Army Corps of Engineers for protection of highways, bridge approaches, and public works (33 United States Code 701r).

30. Payment to States of proceeds of lands acquired by the United States for flood control, navigation, and allied purposes (33 United States Code 701–c–3).

31. Grants of easements without consideration, or at a nominal or reduced consideration, on lands under the control of the Department of the Army at water resource development projects (33 United States Code 559c and 7024–1; 10 United States Code 2698 and 2669); 43 United States Code 961; 40 United States Code 319).

33. Emergency bank protection works constructed by the Army Corps of Engineers for protection of highways, bridge approaches, and public works (33 United States Code 701r).

34. Assistance to States and local interests in the development of water supplies for municipal and industrial purposes in connection with Army Corps of Engineers reservoir projects (Water Supply Act of 1958, 43 United States Code 390a).

§ 196.105 Definitions.

As used in these Title IX regulations, the term:

Administratively separate unit means a school, department, or college of an educational institution (other than a local educational agency) admission to which is independent of admission to any other component of such institution.

Admission means selection for part-time, full-time, special, associate, transfer, exchange, or any other enrollment, membership, or matriculation in or at an education program or activity operated by a recipient.

Applicant means one who submits an application, request, or plan required to be approved by an official of the Federal agency that awards Federal financial assistance, or by a recipient, as a condition to becoming a recipient.

Designated agency official means Assistant Secretary of Defense (Force Management Policy).

Educational institution means a local educational agency (LEA) as defined by 20 U.S.C. 8801(18), a preschool, a private elementary or secondary school, or an applicant or recipient that is an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, or an institution of vocational education, as defined in this section.

Federal financial assistance means any of the following, when authorized or extended under a law administered by
§ 196.105 32 CFR Ch. I (7–1–02 Edition)

the Federal agency that awards such assistance:

(1) A grant or loan of Federal financial assistance, including funds made available for:

(i) The acquisition, construction, renovation, restoration, or repair of a building or facility or any portion thereof; and

(ii) Scholarships, loans, grants, wages, or other funds extended to any entity for payment to or on behalf of students admitted to that entity, or extended directly to such students for payment to that entity.

(2) A grant of Federal real or personal property or any interest therein, including surplus property, and the proceeds of the sale or transfer of such property, if the Federal share of the fair market value of the property is not, upon such sale or transfer, properly accounted for to the Federal Government.

(3) Provision of the services of Federal personnel.

(4) Sale or lease of Federal property or any interest therein at nominal consideration, or at consideration reduced for the purpose of assisting the recipient or in recognition of public interest to be served thereby, or permission to use Federal property or any interest therein without consideration.

(5) Any other contract, agreement, or arrangement that has as one of its purposes the provision of assistance to any education program or activity, except a contract of insurance or guaranty.

Institution of graduate higher education means an institution that:

(1) Offers academic study beyond the bachelor of arts or bachelor of science degree, whether or not leading to a certificate of any higher degree in the liberal arts and sciences;

(2) Awards any degree in a professional field beyond the first professional degree (regardless of whether the first professional degree in such field is awarded by an institution of undergraduate higher education or professional education); or

(3) Awards no degree and offers no further academic study, but operates ordinarily for the purpose of facilitating research by persons who have received the highest graduate degree in any field of study.

Institution of professional education means an institution (except any institution of undergraduate higher education) that offers a program of academic study that leads to a first professional degree in a field for which there is a national specialized accrediting agency recognized by the Secretary of Education.

Institution of undergraduate higher education means:

(1) An institution offering at least two but less than four years of college-level study beyond the high school level, leading to a diploma or an associate degree, or wholly or principally creditable toward a baccalaureate degree; or

(2) An institution offering academic study leading to a baccalaureate degree; or

(3) An agency or body that certifies credentials or offers degrees, but that may or may not offer academic study.

Institution of vocational education means a school or institution (except an institution of professional or graduate or undergraduate higher education) that has as its primary purpose preparation of students to pursue a technical, skilled, or semiskilled occupation or trade, or to pursue study in a technical field, whether or not the school or institution offers certificates, diplomas, or degrees and whether or not it offers full-time study.

Recipient means any State or political subdivision thereof, or any public or private agency, institution, or organization, or other entity, or any person, to whom Federal financial assistance is extended directly or through another recipient and that operates an education program or activity that receives such assistance, including any subunit, successor, assignee, or transferee thereof.

Student means a person who has gained admission.

§ 196.110 Remedial and affirmative action and self-evaluation.

(a) Remedial action. If the designated agency official finds that a recipient has discriminated against persons on the basis of sex in an education program or activity, such recipient shall take such remedial action as the designated agency official deems necessary to overcome the effects of such discrimination.

(b) Affirmative action. In the absence of a finding of discrimination on the basis of sex in an education program or activity, a recipient may take affirmative action consistent with law to overcome the effects of conditions that resulted in limited participation therein by persons of a particular sex. Nothing in these Title IX regulations shall be interpreted to alter any affirmative action obligations that a recipient may have under Executive Order 11246, 3 CFR, 1964-1965 Comp., p. 339; as amended by Executive Order 11375, 3 CFR, 1966-1970 Comp., p. 684; as amended by Executive Order 11478, 3 CFR, 1966-1970 Comp., p. 803; as amended by Executive Order 12086, 3 CFR, 1978 Comp., p. 230; as amended by Executive Order 12107, 3 CFR, 1978 Comp., p. 264.

(c) Self-evaluation. Each recipient education institution shall, within one year of September 29, 2000:

(1) Evaluate, in terms of the requirements of these Title IX regulations, its current policies and practices and the effects thereof concerning admission of students, treatment of students, and employment of both academic and non-academic personnel working in connection with the recipient’s education program or activity;

(2) Modify any of these policies and practices that do not or may not meet the requirements of these Title IX regulations; and

(3) Take appropriate remedial steps to eliminate the effects of any discrimination that resulted or may have resulted from adherence to these policies and practices.

(d) Availability of self-evaluation and related materials. Recipients shall maintain on file for at least three years following completion of the evaluation required under paragraph (c) of this section, and shall provide to the designated agency official upon request, a description of any modifications made pursuant to paragraph (c)(2) of this section and of any remedial steps taken pursuant to paragraph (c)(3) of this section.

§ 196.115 Assurance required.

(a) General. Either at the application stage or the award stage, Federal agencies must ensure that applications for Federal financial assistance or awards of Federal financial assistance contain, be accompanied by, or be covered by a specifically identified assurance from the applicant or recipient, satisfactory to the designated agency official, that each education program or activity operated by the applicant or recipient, satisfactory to the designated agency official, that each education program or activity operated by the applicant or recipient and to which these Title IX regulations apply will be operated in compliance with these Title IX regulations. An assurance of compliance with these Title IX regulations shall not be satisfactory to the designated agency official if the applicant or recipient to whom such assurance applies fails to commit itself to take whatever remedial action is necessary in accordance with §196.110(a) to eliminate existing discrimination on the basis of sex or to eliminate the effects of past discrimination whether occurring prior to or subsequent to the submission to the designated agency official of such assurance.

(b) Duration of obligation. (1) In the case of Federal financial assistance extended to provide real property or structures thereon, such assurance shall obligate the recipient or, in the case of a subsequent transfer, the
transferee, for the period during which the real property or structures are used to provide an education program or activity.

(2) In the case of Federal financial assistance extended to provide personal property, such assurance shall obligate the recipient for the period during which it retains ownership or possession of the property.

(3) In all other cases such assurance shall obligate the recipient for the period during which Federal financial assistance is extended.

(c) Form. (1) The assurances required by paragraph (a) of this section, which may be included as part of a document that addresses other assurances or obligations, shall include that the applicant or recipient will comply with all applicable Federal statutes relating to nondiscrimination. These include but are not limited to: Title IX of the Education Amendments of 1972, as amended (20 U.S.C. 1681–1683, 1685–1688).

(2) The designated agency official will specify the extent to which such assurances will be required of the applicant’s or recipient’s subgrantees, contractors, subcontractors, transferees, or successors in interest.

§ 196.120 Transfers of property.

If a recipient sells or otherwise transfers property financed in whole or in part with Federal financial assistance to a transferee that operates any education program or activity, and the Federal share of the fair market value of the property is not upon such sale or transfer properly accounted for to the Federal Government, both the transferor and the transferee shall be deemed to be recipients, subject to the provisions of §§196.205 through 196.235(a).

§ 196.125 Effect of other requirements.

(b) Effect of State or local law or other requirements. The obligation to comply with these Title IX regulations is not obviated or alleviated by any State or local law or other requirement that would render any applicant or student ineligible, or limit the eligibility of any applicant or student, on the basis of sex, to practice any occupation or profession.

(c) Effect of rules or regulations of private organizations. The obligation to comply with these Title IX regulations is not obviated or alleviated by any rule or regulation of any organization, club, athletic or other league, or association that would render any applicant or student ineligible to participate or limit the eligibility or participation of any applicant or student, on the basis of sex, in any education program or activity operated by a recipient and that receives Federal financial assistance.

§ 196.130 Effect of employment opportunities.

The obligation to comply with these Title IX regulations is not obviated or alleviated because employment opportunities in any occupation or profession are or may be more limited for members of one sex than for members of the other sex.

§ 196.135 Designation of responsible employee and adoption of grievance procedures.

(a) Designation of responsible employee. Each recipient shall designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under these Title IX regulations, including any investigation of any complaint communicated to such recipient alleging its noncompliance with these Title IX regulations or alleging any actions that would be prohibited by these Title IX regulations.
Office of the Secretary of Defense

§ 196.205

The recipient shall notify all its students and employees of the name, office address, and telephone number of the employee or employees appointed pursuant to this paragraph.

(b) Complaint procedure of recipient. A recipient shall adopt and publish grievance procedures providing for prompt and equitable resolution of student and employee complaints alleging any action that would be prohibited by these Title IX regulations.

§ 196.140 Dissemination of policy.

(a) Notification of policy. (1) Each recipient shall implement specific and continuing steps to notify applicants for admission and employment, students and parents of elementary and secondary school students, employees, sources of referral of applicants for admission and employment, and all unions or professional organizations holding collective bargaining or professional agreements with the recipient, that it does not discriminate on the basis of sex in the educational programs or activities that it operates, and that it is required by Title IX and these Title IX regulations not to discriminate in such a manner. Such notification shall contain such information, and be made in such manner, as the designated agency official finds necessary to apprise such persons of the protections against discrimination assured them by Title IX and these Title IX regulations, but shall state at least that the requirement not to discriminate in education programs or activities extends to employment therein, and to admission thereto unless §§196.300 through 196.310 do not apply to the recipient, and that inquiries concerning the application of Title IX and these Title IX regulations to such recipient may be referred to the employee designated pursuant to §196.135, or to the designated agency official.

(2) Each recipient shall make the initial notification required by paragraph (a)(1) of this section within 90 days of September 29, 2000 or of the date these Title IX regulations first apply to such recipient, whichever comes later, which notification shall include publication in:

(i) Newspapers and magazines operated by such recipient or by student, alumnae, or alumni groups for or in connection with such recipient; and

(ii) Memoranda or other written communications distributed to every student and employee of such recipient.

(b) Publications. (1) Each recipient shall prominently include a statement of the policy described in paragraph (a) of this section in each announcement, bulletin, catalog, or application form that it makes available to any person of a type, described in paragraph (a) of this section, or which is otherwise used in connection with the recruitment of students or employees.

(2) A recipient shall not use or distribute a publication of the type described in paragraph (b)(1) of this section that suggests, by text or illustration, that such recipient treats applicants, students, or employees differently on the basis of sex except as such treatment is permitted by these Title IX regulations.

(c) Distribution. Each recipient shall distribute without discrimination on the basis of sex each publication described in paragraph (b)(1) of this section, and shall apprise each of its admission and employment recruitment representatives of the policy of non-discrimination described in paragraph (a) of this section, and shall require such representatives to adhere to such policy.

Subpart B—Coverage

§ 196.200 Application.

Except as provided in §§196.205 through 196.235(a), these Title IX regulations apply to every recipient and to each education program or activity operated by such recipient that receives Federal financial assistance.

§ 196.205 Educational institutions and other entities controlled by religious organizations.

(a) Exemption. These Title IX regulations do not apply to any operation of an educational institution or other entity that is controlled by a religious organization to the extent that application of these Title IX regulations would not be consistent with the religious tenets of such organization.

(b) Exemption claims. An educational institution or other entity that wishes
§ 196.210 Military and merchant marine educational institutions.

These Title IX regulations do not apply to an educational institution whose primary purpose is the training of individuals for a military service of the United States or for the merchant marine.

§ 196.215 Membership practices of certain organizations.

(a) Social fraternities and sororities. These Title IX regulations do not apply to the membership practices of social fraternities and sororities that are exempt from taxation under section 501(a) of the Internal Revenue Code of 1954, 26 U.S.C. 501(a), the active membership of which consists primarily of students in attendance at institutions of higher education.

(b) YMCA, YWCA, Girl Scouts, Boy Scouts, and Camp Fire Girls. These Title IX regulations do not apply to the membership practices of the Young Men's Christian Association (YMCA), the Young Women's Christian Association (YWCA), the Girl Scouts, the Boy Scouts, and Camp Fire Girls.

(c) Voluntary youth service organizations. These Title IX regulations do not apply to the membership practices of a voluntary youth service organization that is exempt from taxation under section 501(a) of the Internal Revenue Code of 1954, 26 U.S.C. 501(a), and the membership of which has been traditionally limited to members of one sex and principally to persons of less than nineteen years of age.

§ 196.220 Admissions.

(a) Admissions to educational institutions prior to June 24, 1973, are not covered by these Title IX regulations.

(b) Administratively separate units. For the purposes only of this section, §§196.225 and 196.230, and §§196.300 through 196.310, each administratively separate unit shall be deemed to be an educational institution.

(c) Application of §§196.300 through 196.310. Except as provided in paragraphs (d) and (e) of this section, §§196.300 through 196.310 apply to each recipient. A recipient to which §§196.300 through 196.310 apply shall not discriminate on the basis of sex in admission or recruitment in violation of §§196.300 through 196.310.

(d) Educational institutions. Except as provided in paragraph (e) of this section as to recipients that are educational institutions, §§196.300 through 196.310 apply only to institutions of vocational education, professional education, graduate higher education, and public institutions of undergraduate higher education.

(e) Public institutions of undergraduate higher education. §§196.300 through 196.310 do not apply to any public institution of undergraduate higher education that traditionally and continually from its establishment has had a policy of admitting students of only one sex.

§ 196.225 Educational institutions eligible to submit transition plans.

(a) Application. This section applies to each educational institution to which §§196.300 through 196.310 apply that:

(1) Admitted students of only one sex as regular students as of June 23, 1972; or

(2) Admitted students of only one sex as regular students as of June 23, 1965, but thereafter admitted, as regular students, students of the sex not admitted prior to June 23, 1965.

(b) Provision for transition plans. An educational institution to which this section applies shall not discriminate on the basis of sex in admission or recruitment in violation of §§196.300 through 196.310.

§ 196.230 Transition plans.

(a) Submission of plans. An institution to which §196.225 applies and that is composed of more than one administratively separate unit may submit either a single transition plan applicable to all such units, or a separate transition plan applicable to each such unit.
§ 196.235 Statutory amendments.

(a) This section, which applies to all provisions of these Title IX regulations, addresses statutory amendments to Title IX.

(b) These Title IX regulations shall not apply to or preclude:

(1) Any program or activity of the American Legion undertaken in connection with the organization or operation of any Boys State conference, Boys Nation conference, Girls State conference, or Girls Nation conference;

(2) Any program or activity of a secondary school or educational institution specifically for:

(i) The promotion of any Boys State conference, Boys Nation conference, Girls State conference, or Girls Nation conference; or

(ii) The selection of students to attend any such conference;

(3) Father-son or mother-daughter activities at an educational institution or in an education program or activity, but if such activities are provided for students of one sex, opportunities for reasonably comparable activities shall be provided to students of the other sex;

(4) Any scholarship or other financial assistance awarded by an institution of higher education to an individual because such individual has received such award in a single-sex pageant based upon a combination of factors related to the individual’s personal appearance, poise, and talent. The pageant, however, must comply with other nondiscrimination provisions of Federal law.

(c) Program or activity or program means:

(1) All of the operations of any entity described in paragraphs (c)(1)(i) through (iv) of this section, any part of which is extended Federal financial assistance:

(i) A department, agency, special purpose district, or other instrumentality of a State or of a local government; or

ment programs that emphasize the institution’s commitment to enrolling students of the sex previously excluded.
§ 196.300 Admission.

(a) General. No person shall, on the basis of sex, be denied admission, or be subjected to discrimination in admission, by any recipient to which §§ 196.300 through §§ 196.310 apply, except as provided in §§ 196.225 and §§ 196.230.

(b) Specific prohibitions. (1) In determining whether a person satisfies any policy or criterion for admission, or in making any offer of admission, a recipient to which §§ 196.300 through 196.310 apply shall not:

(i) Give preference to one person over another on the basis of sex, by ranking applicants separately on such basis, or otherwise;

(ii) Apply numerical limitations upon the number or proportion of persons of either sex who may be admitted; or

(iii) Otherwise treat one individual differently from another on the basis of sex.

(2) A recipient shall not administer or operate any test or other criterion for admission that has a disproportionately adverse effect on persons on the basis of sex.

Subpart C—Discrimination on the Basis of Sex in Admission and Recruitment Prohibited

§ 196.300 Admission.

(B) The entity of such State or local government that distributes such assistance and each such department or agency (and each other State or local government entity) to which the assistance is extended, in the case of assistance to a State or local government;

(ii)(A) A college, university, or other postsecondary institution, or a public system of higher education; or

(B) A local educational agency (as defined in section 8801 of title 20), system of vocational education, or other school system;

(iii)(A) An entire corporation, partnership, or other private organization, or an entire sole proprietorship—

(1) If assistance is extended to such corporation, partnership, private organization, or sole proprietorship as a whole; or

(2) Which is principally engaged in the business of providing education, health care, housing, social services, or parks and recreation; or

(B) The entire plant or other comparable, geographically separate facility to which Federal financial assistance is extended, in the case of any other corporation, partnership, private organization, or sole proprietorship; or

(iv) Any other entity that is established by two or more of the entities described in paragraphs (c)(1)(i), (ii), or (iii) of this section.

2(i) Program or activity does not include any operation of an entity that is controlled by a religious organization if the application of 20 U.S.C. 1681 to such operation would not be consistent with the religious tenets of such organization.

(ii) For example, all of the operations of a college, university, or other postsecondary institution, including but not limited to traditional educational operations, faculty and student housing, campus shuttle bus service, campus restaurants, the bookstore, and other commercial activities are part of a “program or activity” subject to these Title IX regulations if the college, university, or other institution receives Federal financial assistance.

(d)(1) Nothing in these Title IX regulations shall be construed to require or prohibit any person, or public or private entity, to provide or pay for any benefit or service, including the use of facilities, related to an abortion. Medical procedures, benefits, services, and the use of facilities, necessary to save the life of a pregnant woman or to address complications related to an abortion are not subject to this section.

(2) Nothing in this section shall be construed to permit a penalty to be imposed on any person or individual because such person or individual is seeking or has received any benefit or service related to a legal abortion. Accordingly, subject to paragraph (d)(1) of this section, no person shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any academic, extracurricular, research, occupational training, employment, or other educational program or activity operated by a recipient that receives Federal financial assistance because such individual has sought or received, or is seeking, a legal abortion, or any benefit or service related to a legal abortion.
basis of sex unless the use of such test or criterion is shown to predict validly success in the education program or activity in question and alternative tests or criteria that do not have such a disproportionately adverse effect are shown to be unavailable.

(c) Prohibitions relating to marital or parental status. In determining whether a person satisfies any policy or criterion for admission, or in making any offer of admission, a recipient to which §§196.300 through 196.310 apply:

(1) Shall not apply any rule concerning the actual or potential parental, family, or marital status of a student or applicant that treats persons differently on the basis of sex;

(2) Shall not discriminate against or exclude any person on the basis of pregnancy, childbirth, termination of pregnancy, or recovery therefrom, or establish or follow any rule or practice that so discriminates or excludes;

(3) Subject to §196.235(d), shall treat disabilities related to pregnancy, childbirth, termination of pregnancy, or recovery therefrom in the same manner and under the same policies as any other temporary disability or physical condition; and

(4) Shall not make pre-admission inquiry as to the marital status of an applicant for admission, but only if such inquiry is made equally of such applicants of both sexes and if the results of such inquiry are not used in connection with discrimination prohibited by these Title IX regulations.

§ 196.305 Preference in admission.

A recipient to which §§196.300 through 196.310 apply shall not give preference to applicants for admission, on the basis of attendance at any educational institution or other school or entity that admits as students only or predominantly members of one sex, if the giving of such preference has the effect of discriminating on the basis of sex in violation of §§196.300 through 196.310.

§ 196.310 Recruitment.

(a) Nondiscriminatory recruitment. A recipient to which §§196.300 through 196.310 apply shall not discriminate on the basis of sex in the recruitment and admission of students. A recipient may be required to undertake additional recruitment efforts for one sex as remedial action pursuant to §196.110(a), and may choose to undertake such efforts as affirmative action pursuant to §196.110(b).

(b) Recruitment at certain institutions. A recipient to which §§196.300 through 196.310 apply shall not recruit primarily or exclusively at educational institutions, schools, or entities that admit as students only or predominantly members of one sex, if such actions have the effect of discriminating on the basis of sex in violation of §§196.300 through 196.310.

Subpart D—Discrimination on the Basis of Sex in Education Programs or Activities Prohibited

§ 196.400 Education programs or activities.

(a) General. Except as provided elsewhere in these Title IX regulations, no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any academic, extracurricular, research, occupational training, or other education program or activity operated by a recipient that receives Federal financial assistance. Sections 196.400 through 196.455 do not apply to actions of a recipient in connection with admission of its students to an education program or activity of a recipient to which §§196.300 through 196.310 do not apply, or an entity, not a recipient, to which §§196.300 through 196.310 would not apply if the entity were a recipient.

(b) Specific prohibitions. Except as provided in §§196.400 through 196.455, in providing any aid, benefit, or service to a student, a recipient shall not, on the basis of sex:

(1) Treat one person differently from another in determining whether such person satisfies any requirement or condition for the provision of such aid, benefit, or service;
§ 196.405 Housing.

(a) Generally. A recipient shall not, on the basis of sex, apply different rules or regulations, impose different fees or requirements, or offer different services or benefits related to housing, except as provided in this section (including housing provided only to married students).

(b) Housing provided by recipient. (1) A recipient may provide separate housing on the basis of sex.

(2) Housing provided by a recipient to students of one sex, when compared to that provided to students of the other sex, shall be as a whole:

(i) Proportionate in quantity to the number of students of that sex applying for such housing; and

(ii) Comparable in quality and cost to the student.

(c) Other housing. (1) A recipient shall not, on the basis of sex, administer different policies or practices concerning occupancy by its students of housing other than that provided by such recipient.

(2)(i) A recipient which, through solicitation, listing, approval of housing, or otherwise, assists any agency, organization, or person in making housing available to any of its students, shall take such reasonable action as may be necessary to assure itself that such housing as is provided to students of one sex, when compared to that provided to students of the other sex, is as a whole:

(A) Proportionate in quantity; and

(B) Comparable in quality and cost to the student.

(ii) A recipient may render such assistance to any agency, organization,
§ 196.420 Access to schools operated by LEAs.

A recipient that is a local educational agency shall not, on the basis of sex, exclude any person from admission to:

(a) Any institution of vocational education operated by such recipient; or

(b) Any other school or educational unit operated by such recipient, unless such recipient otherwise makes available to such person, pursuant to the same policies and criteria of admission, courses, services, and facilities comparable to each course, service, and facility offered in or through such schools.

§ 196.425 Counseling and use of appraisal and counseling materials.

(a) Counseling. A recipient shall not discriminate against any person on the basis of sex in the counseling or guidance of students or applicants for admission.

(b) Use of appraisal and counseling materials. A recipient that uses testing or other materials for appraising or counseling students shall not use different materials for students on the basis of their sex or use materials that permit or require different treatment of students on such basis unless such different materials cover the same occupations and interest areas and the use of such different materials is shown to be essential to eliminate sex bias. Recipients shall develop and use internal procedures for ensuring that such materials do not discriminate on the basis of sex. Where the use of a counseling test or other instrument results in a substantially disproportionate number of members of one sex in any particular course of study or classification, the recipient shall take such action as is necessary to assure itself that such disproportion is not the result of discrimination in the instrument or its application.
§ 196.430 Disproportion in classes. Where a recipient finds that a particular class contains a substantially disproportionate number of individuals of one sex, the recipient shall take such action as is necessary to assure itself that such disproportion is not the result of discrimination on the basis of sex in counseling or appraisal materials or by counselors.

§ 196.430 Financial assistance.

(a) General. Except as provided in paragraphs (b) and (c) of this section, in providing financial assistance to any of its students, a recipient shall not:

(1) On the basis of sex, provide different amounts or types of such assistance, limit eligibility for such assistance that is of any particular type or source, apply different criteria, or otherwise discriminate;

(2) Through solicitation, listing, approval, provision of facilities, or other services, assist any foundation, trust, agency, organization, or person that provides assistance to any of such recipient’s students in a manner that discriminates on the basis of sex; or

(3) Apply any rule or assist in application of any rule concerning eligibility for such assistance that treats persons of one sex differently from persons of the other sex with regard to marital or parental status.

(b) Financial aid established by certain legal instruments. (1) A recipient may administer or assist in the administration of scholarships, fellowships, or other forms of financial assistance established pursuant to domestic or foreign wills, trusts, bequests, or similar legal instruments or by acts of a foreign government that require that awards be made to members of a particular sex specified therein; Provided, that the overall effect of the award of such sex-restricted scholarships, fellowships, and other forms of financial assistance does not discriminate on the basis of sex.

(2) To ensure nondiscriminatory awards of assistance as required in paragraph (b)(1) of this section, recipients shall develop and use procedures under which:

(i) Students are selected for award of financial assistance on the basis of nondiscriminatory criteria and not on the basis of availability of funds restricted to members of a particular sex;

(ii) An appropriate sex-restricted scholarship, fellowship, or other form of financial assistance is allocated to each student selected under paragraph (b)(2)(i) of this section; and

(iii) No student is denied the award for which he or she was selected under paragraph (b)(2)(i) of this section because of the absence of a scholarship, fellowship, or other form of financial assistance designated for a member of that student’s sex.

(c) Athletic scholarships. (1) To the extent that a recipient awards athletic scholarships or grants-in-aid, it must provide reasonable opportunities for such awards for members of each sex in proportion to the number of students of each sex participating in interscholastic or intercollegiate athletics.

(2) A recipient may provide separate athletic scholarships or grants-in-aid for members of each sex as part of separate athletic teams for members of each sex to the extent consistent with this paragraph (c) and § 196.450.

§ 196.435 Employment assistance to students.

(a) Assistance by recipient in making available outside employment. A recipient that assists any agency, organization, or person in making employment available to any of its students:

(1) Shall assure itself that such employment is made available without discrimination on the basis of sex; and

(2) Shall not render such services to any agency, organization, or person that discriminates on the basis of sex in its employment practices.

(b) Employment of students by recipients. A recipient that employs any of its students shall not do so in a manner that violates §§ 196.500 through 196.550.

§ 196.440 Health and insurance benefits and services.

Subject to § 196.235(d), in providing a medical, hospital, accident, or life insurance benefit, service, policy, or plan to any of its students, a recipient shall not discriminate on the basis of sex, or provide such benefit, service, policy, or plan in a manner that would violate §§ 196.500 through 196.550 if it were provided to employees of the recipient.
§ 196.450 Athletics.

(a) General. No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, be treated differently from another person, or otherwise be discriminated against in any interscholastic, intercollegiate, club, or intramural athletics offered by a recipient, and no recipient shall provide any such athletics separately on such basis.

(b) Separate teams. Notwithstanding the requirements of paragraph (a) of this section, a recipient may operate or sponsor separate teams for members of each sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport. However, where a recipient operates or sponsors a team in a particular sport for members of one sex but operates or sponsors no such team for members of the other sex, and athletic opportunities for members of that sex have previously been limited, members of the excluded sex must be allowed to try out for the team offered unless the sport involved is a contact sport. For the purposes of these Title IX regulations, contact sports include boxing, wrestling, rugby, ice hockey, football, basketball, and other sports the purpose or major activity of which involves bodily contact.

(c) Equal opportunity. (1) A recipient that operates or sponsors interscholastic, intercollegiate, club, or intramural athletics shall provide equal athletic opportunity for members of both sexes. In determining whether equal opportunities are available, the designated agency official will consider, among other factors:

(1) Whether the selection of sports and levels of competition effectively accommodate the interests and abilities of members of both sexes;
§ 196.455 Textbooks and curricular material.

Nothing in these Title IX regulations shall be interpreted as requiring or prohibiting or abridging in any way the use of particular textbooks or curricular materials.
demotion, transfer, layoff, termination, application of nepotism policies, right of return from layoff, and rehiring;

(3) Rates of pay or any other form of compensation, and changes in compensation;

(4) Job assignments, classifications, and structure, including position descriptions, lines of progression, and seniority lists;

(5) The terms of any collective bargaining agreement;

(6) Granting and return from leaves of absence, leave for pregnancy, childbirth, false pregnancy, termination of pregnancy, leave for persons of either sex to care for children or dependents, or any other leave;

(7) Fringe benefits available by virtue of employment, whether or not administered by the recipient;

(8) Selection and financial support for training, including apprenticeship, professional meetings, conferences, and other related activities, selection for tuition assistance, selection for sabbaticals and leaves of absence to pursue training;

(9) Employer-sponsored activities, including social or recreational programs; and

(10) Any other term, condition, or privilege of employment.

§ 196.505 Employment criteria.

A recipient shall not administer or operate any test or other criterion for any employment opportunity that has a disproportionately adverse effect on persons on the basis of sex unless:

(a) Use of such test or other criterion is shown to predict validly successful performance in the position in question; and

(b) Alternative tests or criteria for such purpose, which do not have such disproportionately adverse effect, are shown to be unavailable.

§ 196.510 Recruitment.

(a) Nondiscriminatory recruitment and hiring. A recipient shall not discriminate on the basis of sex in the recruitment and hiring of employees. Where a recipient has been found to be presently discriminating on the basis of sex in the recruitment or hiring of employees, or has been found to have so discriminated in the past, the recipient shall recruit members of the sex so discriminated against so as to overcome the effects of such past or present discrimination.

(b) Recruitment patterns. A recipient shall not recruit primarily or exclusively at entities that furnish as applicants only or predominantly members of one sex if such actions have the effect of discriminating on the basis of sex in violation of §§196.500 through 196.550.

§ 196.515 Compensation.

A recipient shall not make or enforce any policy or practice that, on the basis of sex:

(a) Makes distinctions in rates of pay or other compensation;

(b) Results in the payment of wages to employees of one sex at a rate less than that paid to employees of the opposite sex for equal work on jobs the performance of which requires equal skill, effort, and responsibility, and that are performed under similar working conditions.

§ 196.520 Job classification and structure.

A recipient shall not:

(a) Classify a job as being for males or for females;

(b) Maintain or establish separate lines of progression, seniority lists, career ladders, or tenure systems based on sex; or

(c) Maintain or establish separate lines of progression, seniority systems, career ladders, or tenure systems for similar jobs, position descriptions, or job requirements that classify persons on the basis of sex, unless sex is a bona fide occupational qualification for the positions in question as set forth in §196.550.

§ 196.525 Fringe benefits.

(a) “Fringe benefits” defined. For purposes of these Title IX regulations, fringe benefits means: Any medical, hospital, accident, life insurance, or retirement benefit, service, policy or plan, any profit-sharing or bonus plan, leave, and any other benefit or service of employment not subject to the provision of §196.515.

(b) Prohibitions. A recipient shall not:
§ 196.530 Discriminate on the basis of sex with regard to making fringe benefits available to employees or make fringe benefits available to spouses, families, or dependents of employees differently upon the basis of the employee’s sex;

(2) Administer, operate, offer, or participate in a fringe benefit plan that does not provide for equal periodic benefits for members of each sex and for equal contributions to the plan by such recipient for members of each sex; or

(3) Administer, operate, offer, or participate in a pension or retirement plan that establishes different optional or compulsory retirement ages based on sex or that otherwise discriminates in benefits on the basis of sex.

§ 196.530 Marital or parental status.

(a) General. A recipient shall not apply any policy or take any employment action:

(1) Concerning the potential marital, parental, or family status of an employee or applicant for employment that treats persons differently on the basis of sex; or

(2) Which is based upon whether an employee or applicant for employment is the head of household or principal wage earner in such employee’s or applicant’s family unit.

(b) Pregnancy. A recipient shall not discriminate against or exclude from employment any employee or applicant for employment on the basis of pregnancy, childbirth, false pregnancy, termination of pregnancy, and recovery therefrom.

(c) Pregnancy as a temporary disability. Subject to §196.235(d), a recipient shall treat pregnancy, childbirth, false pregnancy, termination of pregnancy, or recovery therefrom, and any temporary disability resulting therefrom as any other temporary disability for all job-related purposes, including commencement, duration, and extensions of leave, payment of disability income, accrual of seniority and any other benefit or service, and reinstatement, and under any fringe benefit offered to employees by virtue of employment.

(d) Pregnancy leave. In the case of a recipient that does not maintain a leave policy for its employees, or in the case of an employee with insufficient leave or accrued employment time to qualify for leave under such a policy, a recipient shall treat pregnancy, childbirth, false pregnancy, termination of pregnancy, and recovery therefrom as a justification for a leave of absence without pay for a reasonable period of time, at the conclusion of which the employee shall be reinstated to the status that she held when the leave began or to a comparable position, without decrease in rate of compensation or loss of promotional opportunities, or any other right or privilege of employment.

§ 196.535 Effect of state or local law or other requirements.

(a) Prohibitory requirements. The obligation to comply with §§196.500 through 196.550 is not obviated or alleviated by the existence of any State or local law or other requirement that imposes prohibitions or limits upon employment of members of one sex that are not imposed upon members of the other sex.

(b) Benefits. A recipient that provides any compensation, service, or benefit to members of one sex pursuant to a State or local law or other requirement shall provide the same compensation, service, or benefit to members of the other sex.

§ 196.540 Advertising.

A recipient shall not in any advertising related to employment indicate preference, limitation, specification, or discrimination based on sex unless sex is a bona fide occupational qualification for the particular job in question.

§ 196.545 Pre-employment inquiries.

(a) Marital status. A recipient shall not make pre-employment inquiry as to the marital status of an applicant for employment, including whether such applicant is “Miss” or “Mrs.”

(b) Sex. A recipient may make pre-employment inquiry as to the sex of an applicant for employment, but only if such inquiry is made equally of such applicants of both sexes and if the results of such inquiry are not used in connection with discrimination prohibited by these Title IX regulations.
§ 196.550 Sex as a bona fide occupational qualification.

A recipient may take action otherwise prohibited by §§196.500 through 196.550 provided it is shown that sex is a bona fide occupational qualification for that action, such that consideration of sex with regard to such action is essential to successful operation of the employment function concerned. A recipient shall not take action pursuant to this section that is based upon alleged comparative employment characteristics or stereotyped characterizations of one or the other sex, or upon preference based on sex of the recipient, employees, students, or other persons, but nothing contained in this section shall prevent a recipient from considering an employee’s sex in relation to employment in a locker room or toilet facility used only by members of one sex.

Subpart F—Procedures

§ 196.600 Notice of covered programs.

Within 60 days of September 29, 2000, each Federal agency that awards Federal financial assistance shall publish in the FEDERAL REGISTER a notice of the programs covered by these Title IX regulations. Each such Federal agency shall periodically republish the notice of covered programs to reflect changes in covered programs. Copies of this notice also shall be made available upon request to the Federal agency’s office that enforces Title IX.

§ 196.605 Enforcement procedures.

The investigative, compliance, and enforcement procedural provisions of Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) (“Title VI”) are hereby adopted and applied to these Title IX regulations. These procedures may be found at 32 CFR 195.7 through 195.12.

[65 FR 52885, Aug. 30, 2000]

PART 199—CIVILIAN HEALTH AND MEDICAL PROGRAM OF THE UNIFORMED SERVICES (CHAMPUS)

§ 199.1 General provisions.

(a) Purpose. This part prescribes guidelines and policies for the administration of the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) for the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the Commissioned Corps of the U.S. Public Health Service (USPHS) and the Commissioned Corps of the National Oceanic and Atmospheric Administration (NOAA).

(b) Applicability—(1) Geographic. This part is applicable geographically within the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and the United States possessions and territories, and in all foreign countries, unless specific exemptions are granted in writing by the Director, OCHAMPUS, or a designee.

(2) Agency. The provisions of this part apply throughout the Department of Defense (DoD), the Coast Guard, the Commissioned Corps of the USPHS, and the Commissioned Corps of the NOAA.

(c) Authority and responsibility—(1) Legislative authority—(i) Joint regulations. 10 U.S.C. chapter 55 authorizes
the Secretary of Defense, the Secretary of Health and Human Services, and the Secretary of Transportation jointly to prescribe regulations for the administration of CHAMPUS.

(ii) Administration. 10 U.S.C. chapter 55 also authorizes the Secretary of Defense to administer CHAMPUS for the Army, Navy, Air Force, and Marine Corps under DoD jurisdiction, the Secretary of Transportation to administer CHAMPUS for the Coast Guard, when the Coast Guard is not operating as a service in the Navy, and the Secretary of Health and Human Services to administer CHAMPUS for the Commissioned Corps of the NOAA and the USPHS.

(2) Organizational delegations and assignments—(i) Assistant Secretary of Defense (Health Affairs) (ASD(HA)). The Secretary of Defense, by 32 CFR part 367, delegated authority to the ASD(HA) to provide policy guidance, management control and coordination as required for CHAMPUS, and to develop, issue, and maintain regulations with the coordination of the Military Departments and consistent with DoD 5025.1-M. Additional implementing authority is contained in DoD Directive 5105.46.

(ii) Department of Health and Human Services. The Secretary of Health and Human Services has delegated authority to the Assistant Secretary for Health, DHHS, to consult with the Secretary of Defense or a designee and to approve an issue joint regulations implementing 10 U.S.C. chapter 55. This delegation was effective April 19, 1976 (41 FR 18698, May 6, 1976).

(iii) Department of Transportation. The Secretary of Transportation has delegated authority to the Commandant, United States Coast Guard, to consult with the Secretary of Defense or a designee and to approve an issue joint regulations implementing 10 U.S.C., chapter 55.

(iv) Office of CHAMPUS (OCHAMPUS). By DoD Directive 5105.46, OCHAMPUS was established as an OSD field activity under the policy guidance and direction of the ASD(HA). The Director, OCHAMPUS, is directed to execute the following responsibilities and functions:

(A) Supervise and administer the programs and missions to:

(1) Provide technical direction and guidance on organizational, administrative, and operational matters.

(2) Conduct studies and research activities in the health care area to assist in formulating policy required to guide OCHAMPUS in carrying out its programs.

(3) Enter into agreements through the Department of Defense with respect to the Military Departments or other U.S. Government entities, as required, for the effective performance of CHAMPUS.

(4) Supervise and administer OCHAMPUS financial management activities to include:

(i) Formulating budget estimates and justifications to be submitted to the Deputy Assistant Secretary of Defense (Administration) (DASD(A)) for inclusion in the overall budget for the Office of the Secretary of Defense.

(ii) Ensuring the establishment and maintenance of necessary accounting records and submission of required financial reports to the DASD(A).

(iii) Ensuring the effective execution of approved budgets.

(5) Contract for claims processing services, studies and research, supplies, equipment, and other services necessary to carry out the CHAMPUS programs.

(6) Monitor claims adjudication and processing contracts to ensure that CHAMPUS fiscal intermediaries are fulfilling their obligations.

(7) Convey appropriate CHAMPUS information to providers of care, practitioners, professional societies, health industry organizations, fiscal agents, hospital contractors, and others who have need of such information.

(8) Collect, maintain, and analyze program cost and utilization data appropriate for preparation of budgets, fiscal planning, and as otherwise needed to carry out CHAMPUS programs and missions.

1Copies may be obtained, if needed, from the National Technical Information Service (NTIS), U.S. Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161.

2Copies may be obtained; if needed from the Naval Publications and Forms Center, 5801 Tabor Avenue, Code 301, Philadelphia, PA 19120.
(9) Arrange for the facilities logistical and administrative support to be provided by the Military Departments.

(10) Execute such other functions as appropriate to administer the programs and missions assigned.

(B) Direct and control of the office, activities, and functions of OCHAMPUS Europe (OCHAMPUSEUR).

Note: The Director, OCHAMPUS, may also establish similar offices for OCHAMPUS Southern Hemisphere (OCHAMPUSSO) and OCHAMPUS Pacific (OCHAMPUSPAC).

(C) Develop for issuance, subject to approval by the ASD(HA), such policies or regulations as required to administer and manage CHAMPUS effectively.

(v) Evidence of eligibility. The Department of Defense, through the Defense Enrollment Eligibility Reporting System (DEERS), is responsible for establishing and maintaining a listing of persons eligible to receive benefits under CHAMPUS. Identification cards or devices bearing information necessary for preliminary evidence of eligibility, subject to verification through the DEERS, shall be issued to eligible persons by the appropriate Uniformed Services (DoD 1341.1–M, "Defense Enrollment Eligibility Reporting System (DEERS) Program Manual").

(d) Medical benefits program. The CHAMPUS is a program of medical benefits provided by the U.S. Government under public law to specified categories of individuals who are qualified for these benefits by virtue of their relationship to one of the seven Uniformed Services. Although similar in structure in many of its aspects, CHAMPUS is not an insurance program in that it does not involve a contract guaranteeing the indemnification of an insured party against a specified loss in return for a premium paid. Further, CHAMPUS is not subject to those state regulatory bodies or agencies that control the insurance business generally.

(e) Program funds. The funds used by CHAMPUS are appropriated funds furnished by the Congress through the annual appropriation acts for the Department of Defense and the DHHS. These funds are further disbursed by agents of the government under contracts negotiated by the Director, OCHAMPUS, or a designee, under the provisions of the Federal Acquisition Regulation (FAR). These agents (referred to in this part as CHAMPUS fiscal intermediaries) receive claims against CHAMPUS and adjudicate the claims under this part and in accordance with administrative procedures and instructions prescribed in their contracts. The funds expended for CHAMPUS benefits are federal funds provided CHAMPUS fiscal intermediaries solely to pay CHAMPUS claims, and are not a part of or obtained from the CHAMPUS fiscal intermediary’s funds related to other programs or insurance coverage. CHAMPUS fiscal intermediaries are reimbursed for the adjudication and payment of CHAMPUS claims at a rate (generally fixed-price) prescribed in their contracts.

(f) Claims adjudication and processing. The Director, OCHAMPUS, is responsible for making such arrangements as are necessary to adjudicate and process CHAMPUS claims worldwide.

(1) The United States—(i) Contracting out. The primary method of processing CHAMPUS claims in the United States is through competitively procured, fixed-price contracts. The Director, OCHAMPUS, or a designee, is responsible for negotiating, under the provisions of the FAR, contracts for the purpose of adjudicating and processing CHAMPUS claims (and related supporting activities).

(ii) In-house. The Director, OCHAMPUS, or a designee, is authorized to adjudicate and process certain CHAMPUS claims in-house at OCHAMPUS, when it is determined to be in the best interests of CHAMPUS subject to applicable considerations set forth in OMB Circular A–76. Such in-house claims processing may involve special or unique claims, or all claims for a specific geographic area.

(2) Outside the United States—(i) Special subsidiary office or contracting out. For adjudicating and processing CHAMPUS claims for services or supplies provided outside the United States, the Director, OCHAMPUS, or a designee, has the option of either setting up a special subsidiary claims paying operation (such as OCHAMPUSEUR) or contracting out as described in paragraph (f)(1)(i) of this
§ 199.1 32 CFR Ch. I (7–1–02 Edition)

section. Such claims paying operations are reviewed periodically to determine whether current arrangements continue to be appropriate and the most effective.

(i) Support agreements. In those situations outside the United States that demand special arrangements, the Director, OCHAMPUS, may enter into support agreements through the Department of Defense with any of the Military Departments or other government agency to process CHAMPUS claims in specific geographic locations. Such agreements may be negotiated for such period of time as the Director, OCHAMPUS, or designee, may determine to be necessary to meet identified special demands.

(g) Recommendations for change to part. The Director, OCHAMPUS, or a designee, shall establish procedures for receiving and processing recommendations for changes to this part from interested parties.

(h) CHAMPUS, claims forms. The Director, OCHAMPUS, or a designee, is responsible for the development and updating of all CHAMPUS claim forms and any other forms necessary in the administration of CHAMPUS.

(i) The CHAMPUS handbook. The Director, OCHAMPUS, or a designee, shall develop the CHAMPUS Handbook. The CHAMPUS Handbook is a general program guide for the use of CHAMPUS beneficiaries and providers and shall be updated, as required.

(j) Program integrity. The Director, OCHAMPUS, or a designee, shall oversee all CHAMPUS personnel, fiscal intermediaries, providers, and beneficiaries to ensure compliance with this part. The Director, OCHAMPUS, or a designee, shall accomplish this by means of proper delegation of authority, separation of responsibilities, establishment of reports, performance evaluations, internal and external management and fiscal audits, personal or delegated reviews of CHAMPUS responsibilities, taking affidavits, exchange of information among state and Federal governmental agencies, insurers, providers and associations of providers, and such other means as may be appropriate. Compliance with law and this part shall include compliance with specific contracts and agreements, regardless of form, and general instructions, such as CHAMPUS policies, instructions, procedures, and criteria relating to CHAMPUS operation.

(k) Role of CHAMPUS Health Benefits Advisor (HBA). The CHAMPUS HBA is appointed (generally by the commander of a Uniformed Services medical treatment facility) to serve as an advisor to patients and staff in matters involving CHAMPUS. The CHAMPUS HBA may assist beneficiaries or sponsors in applying for CHAMPUS benefits, in the preparation of claims, and in their relations with OCHAMPUS and CHAMPUS fiscal intermediaries. However, the CHAMPUS HBA is not responsible for CHAMPUS policies and procedures and has no authority to make benefit determinations or obligate Government funds. Advice given to beneficiaries as to determination of benefits or level of payment is not binding on OCHAMPUS or CHAMPUS fiscal intermediaries.

(l) Cooperation and exchange of information with other Federal programs. The Director, OCHAMPUS, or a designee, shall disclose to appropriate officers or employees of the DHHS:

(1) Investigation for fraud. The name and address of any physician or other individual actively being investigated for possible fraud in connection with CHAMPUS, and the nature of such suspected fraud. An active investigation exists when there is significant evidence supporting an initial complaint but there is need for further investigation.

(2) Unnecessary services. The name and address of any provider of medical services, organization, or other person found, after consultation with an appropriate professional association or appropriate peer review body, to have provided unnecessary services. Such information will be released only for the purpose of conducting an investigation or prosecution, or for the administration of titles XVIII and XIX of the Social Security Act, provided that the information will be released only to the agency’s enforcement branch and that the agency will preserve the confidentiality of the information received and will not disclose such information for other than program purposes.
(m) Disclosure of information to the public. Records and information acquired in the administration of CHAMPUS are records of the Department of Defense and may be disclosed in accordance with DoD Directive 5400.7-R, DoD 5400.7–R4, and DoD 5400.11–R2 (codified in 32 CFR parts 286 and 286a), constituting the applicable DoD Directives and DoD Regulations implementing the Freedom of Information and the Privacy Acts.

(n) Discretionary authority. When it is determined to be in the best interest of CHAMPUS, the Director, OCHAMPUS, or a designee, is granted discretionary authority to waive any requirements of this part, except that any requirement specifically set forth in 10 U.S.C. chapter 55, or otherwise imposed by law, may not be waived. It is the intent that such discretionary authority be used only under very unusual and limited circumstances and not to deny any individual any right, benefit, or privilege provided to him or her by statute or this part. Any such exception granted by the Director, OCHAMPUS, or a designee, shall apply only to the individual circumstance or case involved and will in no way be construed to be precedent-setting.

(o) Demonstration projects. (1) Authority. The Director, OCHAMPUS may waive or alter any requirements of this regulation in connection with the conduct of a demonstration project required or authorized by law except for any requirement that may not be waived or altered pursuant to 10 U.S.C. chapter 55, or other applicable law.

(2) Procedures. At least 30 days prior to taking effect, OCHAMPUS shall publish a notice describing the demonstration project, the requirements of this regulation being waived or altered under paragraph (o)(1) of this section and the duration of the waiver or alteration. Consistent with the purpose and nature of demonstration projects, these notices are not covered by public comment practices under DoD Directive 5400.9 (32 CFR part 296) or DoD Instruction 6010.8.

(3) Definition. For purposes of this section, a “demonstration project” is a project of limited duration designed to test a different method for the finance, delivery or administration of health care activities for the uniformed services. Demonstration projects may be required or authorized by 10 U.S.C. 1092, any other statutory provision requiring or authorizing a demonstration project or any other provision of law that authorizes the activity involved in the demonstration project.”.

(p) Military-Civilian Health Services Partnership Program. The Secretary of Defense, or designee, may enter into an agreement (external or internal) providing for the sharing of resources between facilities of the uniformed services and facilities of a civilian health care provider or providers if the Secretary determines that such an agreement would result in the delivery of health care in a more effective, efficient or economical manner. This partnership allows CHAMPUS beneficiaries to receive inpatient and outpatient services through CHAMPUS from civilian personnel providing health care services in military treatment facilities and from uniformed service professional providers in civilian facilities. The policies and procedures by which partnership agreements may be executed are set forth in Department of Defense Instruction (DoDI) 6010.12, “Military-Civilian Health Services Partnership Program.” The Director, OCHAMPUS, or a designee, shall issue policies, instructions, procedures, guidelines, standards, or criteria as may be necessary to provide support for implementation of DoDI 6010.12, to promulgate and manage benefit and financial policy issues, and to develop a program evaluation process to ensure the Partnership Program accomplishes the purpose for which it was developed.

(1) Partnership agreements. Military treatment facility commanders, based upon the authority provided by their representative Surgeons General of the military departments, are responsible for entering into individual partnership agreements only when they have determined specifically that use of the Partnership Program is more economical overall to the Government than referring the need for health care services
§ 199.2 Definitions.

(a) General. In an effort to be as specific as possible as to the word and intent of CHAMPUS, the following definitions have been developed. While many of the definitions are general and some assign meaning to relatively common terms within the health insurance environment, others are applicable only to CHAMPUS; however, they all appear in this part solely for the purpose of the Program. Except when otherwise specified, the definitions in this section apply generally throughout this part.

(b) Specific definitions.
Abortion. Abortion means the intentional termination of a pregnancy by artificial means done for a purpose other than that of producing a live birth. A spontaneous, missed or threatened abortion or termination of an ectopic (tubal) pregnancy are not included within the term “abortion” as used herein.

Absent treatment. Services performed by Christian Science practitioners for a person when the person is physically present.

Note: Technically, “Absent Treatment” is an obsolete term. The current Christian Science terminology is “treatment through prayer and spiritual means,” which is employed by an authorized Christian Science practitioner either with the beneficiary being present or absent. However, to be considered for coverage under CHAMPUS, the beneficiary must be present physically when a Christian Science service is rendered, regardless of the terminology used.

Abuse. For the purposes of this part, abuse is defined as any practice that is inconsistent with accepted sound fiscal, business, or professional practice which results in a CHAMPUS claim, unnecessary cost, or CHAMPUS payment for services or supplies that are: (1) Not within the concepts of medically necessary and appropriate care, as defined in this part; or (2) that fail to meet professionally recognized standards for health care providers. The term “abuse” includes deception or misrepresentation by a provider, or any person or entity acting on behalf of a provider in relation to a CHAMPUS claim.

Note: Unless a specific action is deemed gross and flagrant, a pattern of inappropriate practice will normally be required to find that abuse has occurred. Also, any practice or action that constitutes fraud, as defined by this part, would also be abuse.

Abused dependent. An eligible spouse or child, who meets the criteria in §199.3 of this part, of a former member who received a dishonorable or bad-conduct discharge or was dismissed from a Uniformed Service as a result of a court-martial conviction for an offense involving physical or emotional abuse or was administratively discharged as a result of such an offense, or of a member or former member who has had their entitlement to receive retired pay terminated because of misconduct involving physical or emotional abuse.

Accidental injury. Physical bodily injury resulting from an external force, blow or fall, or the ingestion of a foreign body or harmful substance, requiring immediate medical treatment. Accidental injury also includes animal and insect bites and sunstrokes. For the purpose of CHAMPUS, the breaking of a tooth or teeth does not constitute a physical bodily injury.

Active duty. Full-time duty in the Uniformed Services of the United States. It includes duty on the active list, full-time training duty, annual training duty, and attendance while in the active Military Service, at a school designated as a Service school by law or by the Secretary of the Military Department concerned.

Active duty member. A person on active duty in a Uniformed Service under a call or order that does not specify a period of 30 days or less.

Acupuncture. The practice of inserting needles into various body parts to pierce specific peripheral nerves for the production of counter-irritation to relieve the discomfort of pain, induce surgical anesthesia, or for other treatment purposes.

Note: Acupuncture is not covered by CHAMPUS.

Adequate Medical Documentation, Medical Treatment Records. Adequate medical documentation contains sufficient information to justify the diagnosis, the treatment plan, and the services and supplies furnished. Under CHAMPUS, it is required that adequate and sufficient clinical records be kept by the health care provider(s) to substantiate that specific care was actually and appropriately furnished, was medically necessary and appropriate (as defined by this part), and to identify the individual(s) who provided the care. All procedures billed must be documented in the records. In determining whether medical records are adequate, the records will be reviewed under the generally acceptable standards such as the applicable Joint Commission on Accreditation of Healthcare Organizations (JCAHO) standards, the Peer Review Organization (PRO) standards.
§ 199.2 (and the provider’s state or local licensing requirements) and other requirements specified by this part. In general, the documentation requirements for a professional provider are not less in the outpatient setting than the inpatient setting.

Adequate Medical Documentation, Mental Health Records. Adequate medical documentation provides the means for measuring the type, frequency, and duration of active treatment mechanisms employed and progress under the treatment plan. Under CHAMPUS, it is required that adequate and sufficient clinical records be kept by the provider to substantiate that specific care was actually and appropriately furnished, was medically or psychologically necessary (as defined by this part), and to identify the individual(s) who provided the care. Each service provided or billed must be documented in the records. In determining whether medical records are adequate, the records will be reviewed under the generally acceptable standards (e.g., the applicable JCAHO standards and the provider’s state or local licensing requirements) and other requirements specified by this part. It must be noted that the psychiatric and psychological evaluations, physician orders, the treatment plan, integrated progress notes (and physician progress notes if separate from the integrated progress notes), and the discharge summary are the more critical elements of the mental health record. However, nursing and staff notes, no matter how complete, are not a substitute for the documentation of services by the individual professional provider who furnished treatment to the beneficiary. In general, the documentation requirements of a professional provider are not less in the outpatient setting than the inpatient setting. Furthermore, even though a hospital that provides psychiatric care may be accredited under the JCAHO manual for hospitals rather than the consolidated standards manual, the critical elements of the mental health record listed above are required for CHAMPUS claims.

Adjunctive dental care. Dental care which is medically necessary in the treatment of an otherwise covered medical (not dental) condition, is an integral part of the treatment of such medical condition and is essential to the control of the primary medical condition; or, is required in preparation for or as the result of dental trauma which may be or is caused by medically necessary treatment of an injury or disease (iatrogenic).

Admission. The formal acceptance by a CHAMPUS authorized institutional provider of a CHAMPUS beneficiary for the purpose of diagnosis and treatment of illness, injury, pregnancy, or mental disorder.

Adopted Child. A child taken into one’s own family by legal process and treated as one’s own child. In case of adoption, CHAMPUS eligibility begins as of 12:01 a.m. of the day of the final adoption decree.

NOTE: There is no CHAMPUS benefit entitlement during any interim waiting period.

All-Inclusive Per Diem Rate. The OCHAMPUS determined rate that encompasses the daily charge for inpatient care and, unless specifically excepted, all other treatment determined necessary and rendered as part of the treatment plan established for a patient, and accepted by OCHAMPUS.

Allowable charge. The CHAMPUS-determined level of payment to physicians, other individual professional providers and other providers, based on one of the approved reimbursement methods set forth in §199.14 of this part. Allowable charge also may be referred to as the CHAMPUS-determined reasonable charge.

Allowable cost. The CHAMPUS-determined level of payment to hospitals or other institutions, based on one of the approved reimbursement methods set forth in §199.14 of this part. Allowable cost may also be referred to as the CHAMPUS-determined reasonable charge.

Ambulance. A specially designed vehicle for transporting the sick or injured that contains a stretcher, linens, first aid supplies, oxygen equipment, and such lifesaving equipment required by state and local law, and that is staffed by personnel trained to provide first aid treatment.

Amount in dispute. The amount of money, determined under this part, that CHAMPUS would pay for medical services and supplies involved in an adverse determination being appealed if
the appeal were resolved in favor of the appealing party. See §199.10 for additional information concerning the determination of “amount in dispute” under this part.

Anesthesia services. The administration of an anesthetic agent by injection or inhalation, the purpose and effect of which is to produce surgical anesthesia characterized by muscular relaxation, loss of sensation, or loss of consciousness when administered by or under the direction of a physician or dentist in connection with otherwise covered surgery or obstetrical care, or shock therapy. Anesthesia services do not include hypnosis or acupuncture.

Appealable issue. Disputed questions of fact which, if resolved in favor of the appealing party, would result in the authorization of CHAMPUS benefits, or approval as an authorized provider in accordance with this part. An appealable issue does not exist if no facts are in dispute, if no CHAMPUS benefits would be payable, or if there is no authorized provider, regardless of the resolution of any disputed facts. See §199.10 for additional information concerning the determination of “appealable issue” under this part.

Appealing party. Any party to the initial determination who files an appeal of an adverse determination or requests a hearing under the provisions of this part.

Appropriate medical care. (i) Services performed in connection with the diagnosis or treatment of disease or injury, pregnancy, mental disorder, or well-baby care which are in keeping with the generally accepted norms for medical practice in the United States;

(ii) The authorized individual professional provider rendering the medical care is qualified to perform such medical services by reason of his or her training and education and is licensed or certified by the state where the service is rendered or appropriate national organization or otherwise meets CHAMPUS standards; and

(iii) The services are furnished economically. For purposes of this part, “economically” means that the services are furnished in the least expensive level of care or medical environment adequate to provide the required medical care regardless of whether or not that level of care is covered by CHAMPUS.

Approved teaching programs. For purposes of CHAMPUS, an approved teaching program is a program of graduate medical education which has been duly approved in its respective specialty or subspecialty by the Accreditation Council for Graduate Medical Education of the American Medical Association, by the Committee on Hospitals of the Bureau of Professional Education of the American Osteopathic Association, by the Council on Dental Education of the American Dental Association, or by the Council on Podiatric Education of the American Podiatric Association.

Assistant Secretary of Defense (Health Affairs). An authority of the Assistant Secretary of Defense (Health Affairs) includes any person designated by the Assistant Secretary to exercise the authority involved.

Attending physician. The physician who has the primary responsibility for the medical diagnosis and treatment of the patient. A consultant or an assistant surgeon, for example, would not be an attending physician. Under very extraordinary circumstances, because of the presence of complex, serious, and multiple, but unrelated, medical conditions, a patient may have more than one attending physician concurrently rendering medical treatment during a single period of time. An attending physician also may be a teaching physician.

Authorized provider. A hospital or institutional provider, physician, or other individual professional provider, or other provider of services or supplies specifically authorized to provide benefits under CHAMPUS in §199.6 of this part.

Backup hospital. A hospital which is otherwise eligible as a CHAMPUS institutional provider and which is fully capable of providing emergency care to a patient who develops complications beyond the scope of services of a given category of CHAMPUS-authorized freestanding institutional provider and which is accessible from the site of the CHAMPUS-authorized freestanding institutional provider within an average transport time acceptable for the types
§ 199.2 of medical emergencies usually associated with the type of care provided by the freestanding facility.

Balance billing. A provider seeking any payment, other than any payment relating to applicable deductible and cost sharing amounts, from a beneficiary for CHAMPUS covered services for any amount in excess of the applicable CHAMPUS allowable cost or charge.

Basic program. The primary medical benefits authorized under chapter 55 of title 10 U.S. Code, and set forth in §199.4 of this part.

Beneficiary. An individual who has been determined to be eligible for CHAMPUS benefits, as set forth in §199.3 of this part.

Beneficiary liability. The legal obligation of a beneficiary, his or her estate, or responsible family member to pay for the costs of medical care or treatment received. Specifically, for the purposes of services and supplies covered by CHAMPUS, beneficiary liability includes any annual deductible amount, cost-sharing amounts, or, when a provider does not submit a claim on a participating basis on behalf of the beneficiary, amounts above the CHAMPUS-determined allowable cost or charge. Beneficiary liability also includes any expenses for medical or related services and supplies not covered by CHAMPUS.

Birthing center. A health care provider which meets the applicable requirements established by §199.6(b) of this part.

Birthing room. A room and environment designed and equipped to provide care, to accommodate support persons, and within which a woman with a low-risk, normal, full-term pregnancy can labor, deliver and recover with her infant.

Brace. An orthopedic appliance or apparatus (an orthosis) used to support, align, or hold parts of the body in correct position. For the purposes of CHAMPUS, it does not include orthodontic or other dental appliances.

Capped Rate. The maximum per diem or all-inclusive rate that CHAMPUS will allow for care.

Case management. Case management is a collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates the options and services required to meet an individual’s health needs, using communication and available resources to promote quality, cost effective outcomes.

Case managers. A licensed registered nurse, licensed clinical social worker, licensed psychologist or licensed physician who has a minimum of two (2) years case management experience.

Certified nurse-midwife. An individual who meets the applicable requirements established by §199.6(c) of this part.

Certified psychiatric nurse specialist. A licensed, registered nurse who meets the criteria in §199.6(c)(3)(iii)(G).

CHAMPUS DRG-Based Payment System. A reimbursement system for hospitals which assigns prospectively-determined payment levels to each DRG based on the average cost of treating all CHAMPUS patients in a given DRG.

CHAMPUS Fiscal intermediary. An organization with which the Director, OCHAMPUS, has entered into a contract for the adjudication and processing of CHAMPUS claims and the performance of related support activities.

CHAMPUS Health Benefits Advisors (HBAs). Those individuals located at Uniformed Services medical facilities (on occasion at other locations) and assigned the responsibility for providing CHAMPUS information, information concerning availability of care from the Uniformed Services direct medical care system, and generally assisting beneficiaries (or sponsors). The term also includes “Health Benefits Counselor” and “CHAMPUS Advisor.”

Chemotherapy. The administration of approved antineoplastic drugs for the treatment of malignancies (cancer) via perfusion, infusion, or parenteral methods of administration.

Child. An unmarried child of a member or former member, who meets the criteria (including age requirements) in §199.3 of this part.

Chiropractor. A practitioner of chiropractic (also called chiropraxis); essentially a system of therapeutics based upon the claim that disease is caused by abnormal function of the nerve system. It attempts to restore normal
function of the nerve system by manipulation and treatment of the structures of the human body, especially those of the spinal column.

NOTE: Services of chiropractors are not covered by CHAMPUS.

Christian science nurse. An individual who has been accredited as a Christian Science Nurse by the Department of Care of the First Church of Christ, Scientist, Boston, Massachusetts, and listed (or eligible to be listed) in the Christian Science Journal at the time the service is provided. The duties of Christian Science nurses are spiritual and are nonmedical and nontechnical nursing care performed under the direction of an accredited Christian Science practitioner. There exist two levels of Christian Science nurse accreditation:  

(i) Graduate Christian Science nurse. This accreditation is granted by the Department of Care of the First Church of Christ, Scientist, Boston, Massachusetts, after completion of a 3-year course of instruction and study.

(ii) Practical Christian Science nurse. This accreditation is granted by the Department of Care of the First Church of Christ, Scientist, Boston, Massachusetts, after completion of a 1-year course of instruction and study.

Christian Science practitioner. An individual who has been accredited as a Christian Science Practitioner for the First Church, Scientist, Boston, Massachusetts, and listed (or eligible to be listed) in the Christian Science Journal at the time the service is provided. An individual who attains this accreditation has demonstrated results of his or her healing through faith and prayer rather than by medical treatment. Instruction is executed by an accredited Christian Science teacher and is continuous.

Christian Science sanatorium. A sanatorium either operated by the First Church of Christ, Scientist, or listed and certified by the First Church of Christ, Scientist, Boston, Massachusetts.

Chronic medical condition. A medical condition that is not curable, but which is under control through active medical treatment. Such chronic conditions may have periodic acute episodes and may require intermittent inpatient hospital care. However, a chronic medical condition can be controlled sufficiently to permit generally continuation of some activities of persons who are not ill (such as work and school).

Chronic renal disease (CRD). The end stage of renal disease which requires a continuing course of dialysis or a kidney transplantation to ameliorate uremic symptoms and maintain life.

Clinical psychologist. A psychologist, certified or licensed at the independent practice level in his or her state, who meets the criteria in §199.6(c)(3)(ii)(A).

Clinical social worker. An individual who is licensed or certified as a clinical social worker and meets the criteria listed in §199.6.

Clinically Meaningful Endpoints. As used the definition of reliable evidence in this paragraph (b) and §199.4(g)(15), the term clinically meaningful endpoints means objectively measurable outcomes of clinical interventions or other medical procedures, expressed in terms of survival, severity of illness or condition, extent of adverse side effects, diagnostic capability, or other effect on bodily functions directly associated with such results.

Collateral visits. Sessions with the patient’s family or significant others for purposes of information gathering or implementing treatment goals.

Combined daily charge. A billing procedure by an inpatient facility that uses an inclusive flat rate covering all professional and ancillary charges without any itemization.

Complications of pregnancy. One of the following, when commencing or exacerbating during the term of the pregnancy:

(i) Caesarean delivery; hysterotomy.

(ii) Pregnancy terminating before expiration of 26 weeks, except a voluntary abortion.

(iii) False labor or threatened miscarriage.

(iv) Nephritis or pyelitis of pregnancy.

(v) Hyperemesis gravidarum.

(vi) Toxemia.

(vii) Aggravation of a heart condition or diabetes.

(viii) Premature rupture of membrane.

(ix) Ectopic pregnancy.

(x) Hemorrhage.
§ 199.2

(x) Other conditions as may be determined by the Director, OCHAMPUS, or a designee.

Confinement. That period of time from the day of admission to a hospital or other institutional provider, to the day of discharge, transfer, or separation from the facility, or death. Successive admissions also may qualify as one confinement provided not more than 60 days have elapsed between the successive admissions, except that successive admissions related to a single maternity episode shall be considered one confinement, regardless of the number of days between admissions.

Conflict of Interest. Includes any situation where an active duty member (including a reserve member while on active duty) or civilian employee of the United States Government, through an official federal position, has the apparent or actual opportunity to exert, directly or indirectly, any influence on the referral of CHAMPUS beneficiaries to himself or herself or others with some potential for personal gain or appearance of impropriety. For purposes of this part, individuals under contract to a Uniformed Service may be involved in a conflict of interest situation through the contract position.

Congenital anomaly. A condition existing at or from birth that is a significant deviation from the common form or norm and is other than a common racial or ethnic feature. For purposes of CHAMPUS, congenital anomalies do not include anomalies relating to teeth (including malocclusion or missing tooth buds) or structures supporting the teeth, or to any form of hermaphroditism or sex gender confusion. Examples of congenital anomalies are harelip, birthmarks, webbed fingers or toes, or such other conditions that the Director, OCHAMPUS, or a designee, may determine to be congenital anomalies.

NOTE: Also refer to §199.4(e)(7) of this part.

Consultation. A deliberation with a specialist physician or dentist requested by the attending physician primarily responsible for the medical care of the patient, with respect to the diagnosis or treatment in any particular case. A consulting physician or dentist may perform a limited examination of a given system or one requiring a complete diagnostic history and examination. To qualify as a consultation, a written report to the attending physician of the findings of the consultant is required.

NOTE: Staff consultations required by rules and regulations of the medical staff of a hospital or other institutional provider do not qualify as consultation.

Consulting physician or dentist. A physician or dentist, other than the attending physician, who performs a consultation.

Conviction. For purposes of this part, “conviction” or “convicted” means that (1) a judgment of conviction has been entered, or (2) there has been a finding of guilt by the trier of fact, or (3) a plea of guilty or a plea of nolo contendere has been accepted by a court of competent jurisdiction, regardless of whether an appeal is pending.

Coordination of benefits. The coordination, on a primary or secondary payer basis, of the payment of benefits between two or more health care coverages to avoid duplication of benefit payments.

Corporate services provider. A health care provider that meets the applicable requirements established by §199.6(f).

Cosmetic, reconstructive, or plastic surgery. Surgery that can be expected primarily to improve the physical appearance of a beneficiary, or that is performed primarily for psychological purposes, or that restores form, but does not correct or improve materially a bodily function.

Cost-share. The amount of money for which the beneficiary (or sponsor) is responsible in connection with otherwise covered inpatient and outpatient services (other than the annual fiscal year deductible or disallowed amount) as set forth in §§199.4(f) and 199.5(b) of this part. Cost-sharing may also be referred to as “co-payment.”

Custodial care. Care rendered to a patient:

(i) who is disabled mentally or physically and such disability is expected to continue and be prolonged, and

(ii) who requires a protected, monitored, or controlled environment whether in an institution or in the home, and

(iii) who requires assistance to support the essentials of daily living, and
§ 199.2

(iv) who is not under active and specific medical, surgical, or psychiatric treatment that will reduce the disability to the extent necessary to enable the patient to function outside the protected, monitored, or controlled environment.

A custodial care determination is not precluded by the fact that a patient is under the care of a supervising or attending physician and that services are being ordered and prescribed to support and generally maintain the patient’s condition, or provide for the patient’s comfort, or ensure the manageability of the patient. Further, a custodial care determination is not precluded because the ordered and prescribed services and supplies are being provided by an R.N., L.P.N., or L.V.N.

Note: The determination of custodial care in no way implies that the care being rendered is not required by the patient; it only means that it is the kind of care that is not covered under CHAMPUS. A program of physical and mental rehabilitation which is designed to reduce a disability is not custodial care as long as the objective of the program is a reduced level of care.

Days. Calendar days.

Deceased member. A person who, at the time of his or her death, was an active duty member of a Uniformed Service under a call or order that did not specify a period of 30 days or less.

Deceased reservist. A reservist in a Uniformed Service who incurs or aggravates an injury, illness, or disease, during, or on the way to or from, active duty training for a period of 30 days or less or inactive duty training and dies as a result of that specific injury, illness or disease.

Deceased retiree. A person who, at the time of his or her death, was entitled to retired or retainer pay or equivalent pay based on duty in a Uniformed Service. For purposes of this part, it also includes a person who died before attaining age 60 and at the time of his or her death would have been eligible for retired pay as a reservist but for the fact that he or she was not 60 years of age, and had elected to participate in the Survivor Benefit Plan established under 10 U.S.C. chapter 73.

Deductible. Payment by a beneficiary of the first $50 of the CHAMPUS-determined allowable costs or charges for otherwise covered outpatient services or supplies provided in any one fiscal year; or for a family, the aggregate payment by two or more beneficiaries who submit claims of the first $100.

Deductible certificate. A statement issued to the beneficiary (or sponsor) by a CHAMPUS fiscal intermediary certifying to deductible amounts satisfied by a CHAMPUS beneficiary for any applicable fiscal year.

Defense Enrollment Eligibility Reporting System (DEERS). An automated system maintained by the Department of Defense for the purpose of:

1. Enrolling members, former members and their dependents, and

2. Verifying members’ former members’ and their dependents’ eligibility for health care benefits in the direct care facilities and for CHAMPUS.

Dental care. Services relating to the teeth and their supporting structures.

Dentist. Doctor of Dental Medicine (D.M.D.) or Doctor of Dental Surgery (D.D.S.) who is licensed to practice dentistry by an appropriate authority.

Dependent. Individuals whose relationship to the sponsor (including NATO members who are stationed in or passing through the United States on official business when authorized) leads to entitlement to benefits under this part. (See §199.3 of this part for specific categories of dependents).

Deserter or desertion status. A service member is a deserter, or in a desertion status, when the Uniformed Service concerned has made an administrative determination to that effect, or the member’s period of unauthorized absence has resulted in a court-martial conviction of desertion. Administrative declarations of desertion normally are made when a member has been an unauthorized absentee for over 30 days, but particular circumstances may result in an earlier declaration. Entitlement to CHAMPUS benefits ceases as of 12:01 a.m. on the day following the day the desertion status is declared. Benefits are not to be authorized for treatment received during a period of unauthorized absence that results in a court-martial conviction for desertion. Dependent eligibility for benefits is re-established when a deserter is returned to military control and continues, even though the member may be in confinement, until any discharge is executed.
§ 199.2

When a deserter status is later found to have been determined erroneously, the status of deserter is considered never to have existed, and the member’s dependents will have been eligible continuously for benefits under CHAMPUS.

Diagnosis-Related Groups (DRGs). Diagnosis-related groups (DRGs) are a method of dividing hospital patients into clinically coherent groups based on the consumption of resources. Patients are assigned to the groups based on their principal diagnosis (the reason for admission, determined after study), secondary diagnoses, procedures performed, and the patient’s age, sex, and discharge status.

Diagnostic admission. An admission to a hospital or other authorized institutional provider, or an extension of a stay in such a facility, primarily for the purpose of performing diagnostic tests, examinations, and procedures.

Director. The Director of the TRICARE Management Activity or Director, Office of CHAMPUS. Any references to the Director, Office of CHAMPUS, or OCHAMPUS, shall mean the Director, TRICARE Management Activity. Any reference to Director shall also include any person designated by the Director to carry out a particular authority. In addition, any authority of the Director may be exercised by the Assistant Secretary of Defense (Health Affairs).

Director, OCHAMPUS. An authority of the Director, OCHAMPUS includes any person designated by the Director, OCHAMPUS to exercise the authority involved.

Director, TRICARE Management Activity. This term includes the Director, TRICARE Management Activity, the official sometimes referred to in this part as the Director, Office of CHAMPUS (or OCHAMPUS), or any designee of the Director, TRICARE Management Activity or the Assistant Secretary of Defense for Health Affairs who is designated for purposes of an action under this part.

Doctor of Dental Medicine (D.M.D.). A person who has received a degree in dentistry, that is, that department of the healing arts which is concerned with the teeth, oral cavity, and associated structures.

Doctor of Medicine (M.D.). A person who has graduated from a college of allopathic medicine and who is entitled legally to use the designation M.D.

Doctor of Osteopathy (D.O.). A practitioner of osteopathy, that is, a system of therapy based on the theory that the body is capable of making its own remedies against disease and other toxic conditions when it is in normal structural relationship and has favorable environmental conditions and adequate nutrition. It utilizes generally accepted physical, medicinal, and surgical methods of diagnosis and therapy, while placing chief emphasis on the importance of normal body mechanics and manipulative methods of detecting and correcting faulty structure.

Domiciliary care. Inpatient institutional care provided the beneficiary not because it is medically necessary, but because the care in the home setting is not available, is unsuitable, or members of the patient’s family are unwilling to provide the care. Institutionalization because of abandonment constitutes domiciliary care.

NOTE: The terms “domiciliary” and “custodial care” represent separate concepts and are not interchangeable. Domiciliary care is not covered under either the CHAMPUS Basic Program or the Program for Persons with Disabilities (PFPWD).

Donor. An individual who supplies living tissue or material to be used in another body, such as a person who furnishes a kidney for renal transplant.

Double coverage. When a CHAMPUS beneficiary also is enrolled in another insurance, medical service, or health plan that duplicates all or part of a beneficiary’s CHAMPUS benefits.

Double coverage plan. The specific insurance, medical service, or health plan under which a CHAMPUS beneficiary has entitlement to medical benefits that duplicate CHAMPUS benefits in whole or in part. Double coverage plans do not include:

(i) Medicaid.

(ii) Coverage specifically designed to supplement CHAMPUS benefits.

(iii) Entitlement to receive care from the Uniformed Services medical facilities;

(iv) Entitlement to receive care from Veterans Administration medical care facilities; or
(v) Part C of the Individuals with Disabilities Education Act for services and items provided in accordance with Part C of the IDEA that are medically or psychologically necessary in accordance with the Individualized Family Service Plan and that are otherwise allowable under the CHAMPUS Basic Program or the Program for Persons with Disabilities.

Dual Compensation. Federal Law (5 U.S.C. 5536) prohibits active duty members or civilian employees of the United States Government from receiving additional compensation from the government above their normal pay and allowances. This prohibition applies to CHAMPUS cost-sharing of medical care provided by active duty members or civilian government employees to CHAMPUS beneficiaries.

Durable equipment. A device or apparatus which does not qualify as Durable Medical Equipment (as defined in this section), and which is essential to the efficient arrest or reduction of functional loss resulting from a qualifying condition as provided by §199.5.

Durable medical equipment. Equipment for which the allowable charge is over $100 and which:

(1) Is medically necessary for the treatment of a covered illness or injury;
(2) Improves the function of a malformed, diseased, or injured body part, or retards further deterioration of a patient’s physical condition;
(3) Is primarily and customarily designed and intended to serve a medical purpose rather than primarily for transportation, comfort, or convenience;
(4) Can withstand repeated use;
(5) Provides the medically appropriate level of performance and quality for the medical condition present (that is, nonluxury and nondeluxe);
(6) Is other than spectacles, eyeglasses, contact lenses, or other optical devices; hearing aids; or other communication devices; and
(7) Is other than exercise equipment, spas, whirlpools, hot tubs, swimming pools or other such items.

Economic interest. (1) Any right, title, or share in the income, remuneration, payment, or profit of a CHAMPUS-authorized provider, resulting, directly or indirectly, from a referral relationship; or any direct or indirect ownership, right, title, or share, including a mortgage, deed of trust, note, or other obligation secured (in whole or in part) by one entity for another entity in a referral or accreditation relationship, which is equal to or exceeds 5 percent of the total property and assets of the other entity.

(2) A referral relationship exists when a CHAMPUS beneficiary is sent, directed, assigned or influenced to use a specific CHAMPUS-authorized provider, or a specific individual or entity eligible to be a CHAMPUS-authorized provider.

(3) An accreditation relationship exists when a CHAMPUS-authorized accreditation organization evaluates for accreditation an entity that is an applicant for, or recipient of CHAMPUS-authorized provider status.

Emergency inpatient admission. An unscheduled, unexpected, medically necessary admission to a hospital or other authorized institutional provider for treatment of a medical condition meeting the definition of medical emergency and which is determined to require immediate inpatient treatment by the attending physician.

Entity. For purposes of §199.9(f)(1), "entity" includes a corporation, trust, partnership, sole proprietorship or other kind of business enterprise that is or may be eligible to receive reimbursement either directly or indirectly from CHAMPUS.

Essentials of daily living. Care that consists of providing food (including special diets), clothing, and shelter; personal hygiene services; observation and general monitoring; bowel training or management; safety precautions; general preventive procedures (such as turning to prevent bedsores); passive exercise; companionship; recreation; transportation; and such other elements of personal care that reasonably can be performed by an untrained adult with minimal instruction or supervision.

External Partnership Agreement. The External Partnership Agreement is an agreement between a military treatment facility commander and a
§ 199.2 CHAMPUS authorized institutional provider, enabling Uniformed Services health care personnel to provide otherwise covered medical care to CHAMPUS beneficiaries in a civilian facility under the Military-Civilian Health Services Partnership Program. Authorized costs associated with the use of the facility will be financed through CHAMPUS under normal cost-sharing and reimbursement procedures currently applicable under the basic CHAMPUS.

External Resource Sharing Agreement. An External Partnership Agreement, established in the context of the TRICARE program by agreement of a military medical treatment facility commander and an authorized TRICARE contractor. External Resource Sharing Agreements may incorporate TRICARE features in lieu of standard CHAMPUS features that would apply to standard External Partnership Agreements.

Extramedical individual providers of care. Individuals who do counseling or nonmedical therapy and whose training and therapeutic concepts are outside the medical field, as specified in §199.6 of this part.

Extraordinary condition. A complex clinical condition, which resulted, or is expected to result, in extraordinary TRICARE/CHAMPUS costs or utilization, based on thresholds established by the Director, OCHAMPUS, or designee.

Former member. A retiree, deceased member, deceased retiree, or deceased reservist in certain circumstances (see section 199.3 for additional information related to certain deceased reservists’ dependents’ eligibility). Under conditions specified under §199.3 of this part, former member may also include a member of the Uniformed Services who has been discharged from active duty (or, in some cases, full-time National Guard duty), whether voluntarily or involuntarily, under other than adverse conditions and qualifies for CHAMPUS benefits under the Transitional Assistance Management Program or the Continued Health Care Benefit Program.

Former spouse. A former husband or wife of a Uniformed Service member or former member who meets the criteria as set forth in §199.3(b)(2)(ii) of this part.

Fraud. For purposes of this part, fraud is defined as (1) a deception or misrepresentation by a provider, beneficiary, sponsor, or any person acting on behalf of a provider, sponsor, or beneficiary with the knowledge (or who had reason to know or should have known) that the deception or misrepresentation could result in some unauthorized CHAMPUS benefit to self or some other person, or some unauthorized CHAMPUS payment, or (2) a claim that is false or fictitious, or includes or is supported by any written statement which asserts a material fact which is false or fictitious, or includes or is supported by any written statement that (a) omits a material fact and (b) is false or fictitious as a result of such omission and (c) is a statement in which the person making, presenting, or submitting such statement has a duty to include such material fact. It is presumed that, if a deception or misrepresentation is established and a CHAMPUS claim is filed, the person responsible for the claim had the requisite knowledge. This presumption is rebuttable only by substantial evidence. It is further presumed that the provider of the services is responsible for the actions of all individuals who file a claim on behalf of the provider (for example, billing clerks); this presumption may only be rebutted by clear and convincing evidence.

Freestanding. Not “institution-affiliated” or “institution-based.”

Full-time course of higher education. A complete, progressive series of studies to develop attributes such as knowledge, skill, mind, and character, by formal schooling at a college or university, and which meets the criteria set out in §199.3 of this part. To qualify as full-time, the student must be carrying a course load of a minimum of 12 credit hours or equivalent each semester.

General staff nursing service. All nursing care (other than that provided by private duty nurses) including, but not limited to, general duty nursing, emergency room nursing, intensive nursing care, and group nursing arrangements performed by nursing personnel on the payroll of
Office of the Secretary of Defense

§ 199.2

the hospital or other authorized institution.

Good faith payments. Those payments made to civilian sources of medical care who provided medical care to persons purporting to be eligible beneficiaries but who are determined later to be ineligible for CHAMPUS benefits. (The ineligible person usually possesses an erroneous or illegal identification card.) To be considered for good faith payments, the civilian source of care must have exercised reasonable precautions in identifying a person claiming to be an eligible beneficiary.

Habilitation. The provision of functional capacity, absent from birth due to congenital anomaly or developmental disorder, which facilitates performance of an activity in the manner, or within the range considered normal, for a human being.

Handicap. For the purposes of this part, the term “handicap” is synonymous with the term “disability.”

High-risk pregnancy. A pregnancy is high-risk when the presence of a currently active or previously treated medical, anatomical, physiological illness or condition may create or increase the likelihood of a detrimental effect on the mother, fetus, or newborn and presents a reasonable possibility of the development of complications during labor or delivery.

Hospice care. Hospice care is a program which provides an integrated set of services and supplies designed to care for the terminally ill. This type of care emphasizes palliative care and supportive services, such as pain control and home care, rather than cure-oriented services provided in institutions that are otherwise the primary focus under CHAMPUS. The benefit provides coverage for a humane and sensible approach to care during the last days of life for some terminally ill patients.

Hospital, acute care (general and special). An institution that meets the criteria as set forth in §199.6(b)(4)(i) of this part.

Hospital, long-term (tuberculosis, chronic care, or rehabilitation). An institution that meets the criteria as set forth in §199.6(b)(4)(iii) of this part.

Hospital, psychiatric. An institution that meets the criteria as set forth in §199.6(b)(4)(ii) of this part.

Illegitimate child. A child not recognized as a lawful offspring; that is, a child born of parents not married to each other.

Immediate family. The spouse, natural parent, child and sibling, a adopted child and adoptive parent, stepparent, stepchild, grandparent, grandchild, stepbrother and stepsister, father-in-law, mother-in-law of the beneficiary, or provider, as appropriate. For purposes of this definition only, to determine who may render services to a beneficiary, the step-relationship continues to exist even if the marriage upon which the relationship is based terminates through divorce or death of one of the parents.

Independent laboratory. A freestanding laboratory approved for participation under Medicare and certified by the Health Care Financing Administration.

Infirmaries. Facilities operated by student health departments of colleges and universities to provide inpatient or outpatient care to enrolled students. When specifically approved by the Director, OCHAMPUS, or a designee, a boarding school infirmary also is included.

Initial determination. A formal written decision on a CHAMPUS claim, a request for benefit authorization, a request by a provider for approval as an authorized CHAMPUS provider, or a decision disqualifying or excluding a provider as an authorized provider under CHAMPUS. Rejection of a claim or a request for benefit or provider authorization for failure to comply with administrative requirements, including failure to submit reasonably requested information, is not an initial determination. Responses to general or specific inquiries regarding CHAMPUS benefits are not initial determinations.

In-out surgery. Surgery performed in the outpatient department of a hospital or other institutional provider, in a physician’s office or the office of another individual professional provider, in a clinic, or in a “freestanding” ambulatory surgical center which does not involve a formal inpatient admission for a period of 24 hours or more.
§ 199.2

Inpatient. A patient who has been admitted to a hospital or other authorized institution for bed occupancy for purposes of receiving necessary medical care, with the reasonable expectation that the patient will remain in the institution at least 24 hours, and with the registration and assignment of an inpatient number or designation. Institutional care in connection with in and out (ambulatory) surgery is not included within the meaning of inpatient whether or not an inpatient number or designation is made by the hospital or other institution. If the patient has been received at the hospital, but death occurs before the actual admission occurs, an inpatient admission exists as if the patient had lived and had been formally admitted.

Institution-affiliated. Related to a CHAMPUS-authorized institutional provider through a shared governing body but operating under a separate and distinct license or accreditation.

Institution-based. Related to a CHAMPUS-authorized institutional provider through a shared governing body and operating under a common license and shared accreditation.

Institutional provider. A health care provider which meets the applicable requirements established by §199.6(b) of this part.

Intensive care unit (ICU). A special segregated unit of a hospital in which patients are concentrated by reason of serious illness, usually without regard to diagnosis. Special lifesaving techniques and equipment regularly and immediately are available within the unit, and patients are under continuous observation by a nursing staff specially trained and selected for the care of this type patient. The unit is maintained on a continuing rather than an intermittent or temporary basis. It is not a postoperative recovery room nor a postanesthesia room. In some large or highly specialized hospitals, the ICUs may be further refined for special purposes, such as for respiratory conditions, cardiac surgery, coronary care, burn care, or neurosurgery. For the purposes of CHAMPUS, these specialized units would be considered ICUs if they otherwise conformed to the definition of an ICU.

Intern. A graduate of a medical or dental school serving in a hospital in preparation to being licensed to practice medicine or dentistry.

Internal Partnership Agreement. The Internal Partnership Agreement is an agreement between a military treatment facility commander and a CHAMPUS-authorized civilian health care provider which enables the use of civilian health care personnel or other resources to provide medical care to CHAMPUS beneficiaries on the premises of a military treatment facility under the Military-Civilian Health Services Partnership Program. These internal agreements may be established when a military treatment facility is unable to provide sufficient health care services for CHAMPUS beneficiaries due to shortages of personnel and other required resources.

Internal Resource Sharing Agreement. A type of Internal Partnership Agreement, established in the context of the TRICARE program by agreement of a military medical treatment facility commander and authorized TRICARE contractor. Internal Resource Sharing Agreements may incorporate TRICARE features in lieu of standard CHAMPUS features that would apply to standard Internal Partnership Agreements.

Item, Service, or Supply. Includes (1) any item, device, medical supply, or service claimed to have been provided to a beneficiary (patient) and listed in an itemized claim for CHAMPUS payment or a request for payment, or (2) in the case of a claim based on costs, any entry or omission in a cost report, books of account, or other documents supporting the claim.

Laboratory and pathological services. Laboratory and pathological examinations (including machine diagnostic tests that produce hard-copy results) when necessary to, and rendered in connection with medical, obstetrical, or surgical diagnosis or treatment of an illness or injury, or in connection with well-baby care.

Legitimized child. A formerly illegitimate child who is considered legitimate by reason of qualifying actions recognized in law.

Licensed practical nurse (L.P.N.). A person who is prepared specially in the scientific basis of nursing; who is a
graduate of a school of practical nursing; whose qualifications have been examined by a state board of nursing; and who has been authorized legally to practice as an L.P.N. under the supervision of a physician.

Licensed vocational nurse (L.V.N.) A person who specifically is prepared in the scientific basis or nursing; who is a graduate of a school of vocational nursing; whose qualifications have been examined by a state board of nursing; and who has been authorized legally to practice as a L.V.N. under the supervision of a physician.

Long-term hospital care. Any inpatient hospital stay that exceeds 30 days.

Low-risk pregnancy. A pregnancy is low-risk when the basis for the ongoing clinical expectation of a normal uncomplicated birth, as defined by reasonable and generally accepted criteria of maternal and fetal health, is documented throughout a generally accepted course of prenatal care.

Major life activity. Breathing, cognition, hearing, seeing, and age appropriate ability essential to bathing, dressing, eating, grooming, speaking, stair use, toilet use, transferring, and walking.

Marriage and family therapist, certified. An extramedical individual provider who meets the requirements outlined in §199.6.

Maternity care. Care and treatment related to conception, delivery, and abortion, including prenatal and postnatal care (generally through the 6th post-delivery week), and also including treatment of the complications of pregnancy.

Medicaid. Those medical benefits authorized under Title XIX of the Social Security Act provided to welfare recipients and the medically indigent through programs administered by the various states.

Medical. The generally used term which pertains to the diagnosis and treatment of illness, injury, pregnancy, and mental disorders by trained and licensed or certified health professionals. For purposes of CHAMPUS, the term “medical” should be understood to include “medical, psychological, surgical, and obstetrical,” unless it is specifically stated that a more restrictive meaning is intended. 

Medical emergency. The sudden and unexpected onset of a medical condition or the acute exacerbation of a chronic condition that is threatening to life, limb, or sight, and requires immediate medical treatment or which manifests painful symptomatology requiring immediate palliative efforts to alleviate suffering. Medical emergencies include heart attacks, cardiovascular accidents, poisoning, convulsions, kidney stones, and such other acute medical conditions as may be determined to be medical emergencies by the Director, OCHAMPUS, or a designee. In the case of a pregnancy, a medical emergency must involve a sudden and unexpected medical complication that puts the mother, the baby, or both, at risk. Pain would not, however, qualify a pregnancy case as an emergency, nor would incipient birth after the 34th week of gestation, unless an otherwise qualifying medical condition is present. Examples of medical emergencies related to pregnancy or delivery are hemorrhage, ruptured membrane with prolapsed cord, placenta previa, abruptio placenta, presence of shock or unconsciousness, suspected heart attack or stroke, or trauma (such as injuries received in an automobile accident).

Medical supplies and dressings (consumables). Necessary medical or surgical supplies (exclusive of durable medical equipment) that do not withstand prolonged, repeated use and that are needed for the proper medical management of a condition for which benefits are otherwise authorized under CHAMPUS, on either an inpatient or outpatient basis. Examples include disposable syringes for a diabetic, colostomy sets, irrigation sets, and ace bandages.

Medically or psychologically necessary. The frequency, extent, and types of medical services or supplies which represent appropriate medical care and that are generally accepted by qualified professionals to be reasonable and adequate for the diagnosis and treatment of illness, injury, pregnancy, and mental disorders or that are reasonable and adequate for well-baby care.

Medicare. These medical benefits authorized under Title XVIII of the Social Security Act provided to persons

§ 199.2  

65 or older, certain disabled persons, or persons with chronic renal disease, through a national program administered by the DHHS, Health Care Financing Administration, Medicare Bureau.

Member. A person on active duty in a Uniformed Service under a call or order that does not specify a period of 30 days or less. (For CHAMPUS cost-sharing purposes only, a former member who received a dishonorable or bad-conduct discharge or was dismissed from a Uniformed Service as a result of a court-martial conviction for an offense involving physical or emotional abuse or was administratively discharged as a result of such an offense is considered a member).

Mental disorder. For purposes of the payment of CHAMPUS benefits, a mental disorder is a nervous or mental condition that involves a clinically significant behavioral or psychological syndrome or pattern that is associated with a painful symptom, such as distress, and that impairs a patient’s ability to function in one or more major life activities. Additionally, the mental disorder must be one of those conditions listed in the DSM-III.

Mental health counselor. An extramedical individual provider who meets the requirements outlined in §199.6.

Mental health therapeutic absence. A therapeutically planned absence from the inpatient setting. The patient is not discharged from the facility and may be away for periods of several hours to several days. The purpose of the therapeutic absence is to give the patient an opportunity to test his or her ability to function outside the inpatient setting before the actual discharge.

Missing in action (MIA). A battle casualty whose whereabouts and status are unknown, provided the absence appears to be involuntary and the service member is not known to be in a status of unauthorized absence.

Note: Claims for eligible CHAMPUS beneficiaries whose sponsor is classified as MIA are processed as dependents of an active duty service member.

Morbid obesity. The body weight is 100 pounds over ideal weight for height and bone structure, according to the most current Metropolitan Life Table, and such weight is in association with severe medical conditions known to have higher mortality rates in association with morbid obesity; or, the body weight is 200 percent or more of the ideal weight for height and bone structure according to the most current Metropolitan Life Table. The associated medical conditions are diabetes mellitus, hypertension, cholecystitis, narcolepsy, pickwickian syndrome (and other severe respiratory diseases), hypothalamic disorders, and severe arthritis of the weight-bearing joints.

Most-favored rate. The lowest usual charge to any individual or third-party payer in effect on the date of the admission of a CHAMPUS beneficiary.

Natural childbirth. Childbirth without the use of chemical induction or augmentation of labor or surgical procedures other than episiotomy or perineal repair.

Naturopath. A person who practices naturopathy, that is, a drugless system of therapy making use of physical forces such as air, light, water, heat, and massage.

Note: Services of a naturopath are not covered by CHAMPUS.

NAVCARE clinics. Contractor owned, staffed, and operated primary clinics exclusively serving uniformed services beneficiaries pursuant to contracts awarded by a Military Department.

Nonavailability statement. A certification by a commander (or a designee) of a Uniformed Services medical treatment facility, recorded on DEERS, generally for the reason that the needed medical care being requested by a non-TRICARE Prime enrolled beneficiary cannot be provided at the facility concerned because the necessary resources are not available in the time frame needed.

Nonparticipating provider. A hospital or other authorized institutional provider, a physician or other authorized individual professional provider, or other authorized provider that furnished medical services or supplies to a CHAMPUS beneficiary, but who did not agree on the CHAMPUS claim form to participate or to accept the CHAMPUS-determined allowable cost or charge as the total charge for the services. A nonparticipating provider looks to the beneficiary or sponsor for
payment of his or her charge, not CHAMPUS. In such cases, CHAMPUS pays the beneficiary or sponsor, not the provider.

North Atlantic Treaty Organization (NATO) member. A military member of an armed force of a foreign NATO nation who is on active duty and who, in connection with official duties, is stationed in or passing through the United States. The foreign NATO nations are Belgium, Canada, Denmark, France, Federal Republic of Germany, Greece, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Turkey, and the United Kingdom.

Not-for-profit entity. An organization or institution owned and operated by one or more nonprofit corporations or associations formed pursuant to applicable state laws, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

Occupational therapist. A person who is trained specially in the skills and techniques of occupational therapy (that is, the use of purposeful activity with individuals who are limited by physical injury of illness, psychosocial dysfunction, developmental or learning disabilities, poverty and cultural differences, or the aging process in order to maximize independence, prevent disability, and maintain health) and who is licensed to administer occupational therapy treatments prescribed by a physician.

Official formularies. A book of official standards for certain pharmaceuticals and preparations that are not included in the U.S. Pharmacopeia.

Optometrist (Doctor of Optometry). A person trained and licensed to examine and test the eyes and to treat visual defects by prescribing and adapting corrective lenses and other optical aids, and by establishing programs of exercises.

Oral surgeon (D.D.S. or D.M.D.). A person who has received a degree in dentistry and who limits his or her practice to oral surgery, that is, that branch of the healing arts that deals with the diagnosis and the surgical correction and adjunctive treatment of diseases, injuries, and defects of the mouth, the jaws, and associated structures.

Orthopedic shoes. Shoes prescribed by an orthopedic surgeon to effect changes in foot or feet position and alignment and which are not an integral part of a brace.

Other allied health professionals. Individual professional providers other than physicians, dentists, or extramural individual providers, as specified in §199.6 of this part.

Other special institutional providers. Certain specialized medical treatment facilities, either inpatient or outpatient, other than those specifically defined, that provide courses of treatment prescribed by a doctor of medicine or osteopathy; when the patient is under the supervision of a doctor of medicine or osteopathy during the entire course of the inpatient admission or the outpatient treatment; when the type and level of care and services rendered by the institution are otherwise authorized in this Regulation; when the facility meets all licensing or other certification requirements that are extant in the jurisdiction in which the facility is located geographically; which is accredited by the Joint Commission on Accreditation if an appropriate accreditation program for the given type of facility is available; and which is not a nursing home, intermediate facility, halfway house, home for the aged, or other institution of similar purpose.

Outpatient. A patient who has not been admitted to a hospital or other authorized institution as an inpatient.

Ownership or control interest. For purposes of §199.9(f)(1), a “person with an ownership or control interest” is anyone who

(1) Has directly or indirectly a 5 percent or more ownership interest in the entity; or

(2) Is the owner of a whole or part interest in any mortgage, deed of trust, note, or other obligation secured (in whole or in part) by the entity or any of the property or assets thereof, which whole or part interest is equal to or exceeds 5 percent of the total property and assets of the entity; or

(3) Is an officer or director of the entity if the entity is organized as a corporation; or

(4) Is a partner in the entity if the entity is organized as a partnership.
§ 199.2  Partial hospitalization. A treatment setting capable of providing an interdisciplinary program of medical therapeutic services at least 3 hours per day, 5 days per week, which may embrace day, evening, night and weekend treatment programs which employ an integrated, comprehensive and complementary schedule of recognized treatment approaches. Partial hospitalization is a time-limited, ambulatory, active treatment program that offers therapeutically intensive, coordinated, and structured clinical services within a stable therapeutic environment. Partial hospitalization is an appropriate setting for crisis stabilization, treatment of partially stabilized mental health disorders, and a transition from an inpatient program when medically necessary. Such programs must enter into a participation agreement with CHAMPUS and be accredited and in substantial compliance with the standards of the Mental Health Manual of the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) (formerly known as the Consolidated Standards).

Participating provider. A CHAMPUS-authorized provider that is required, or has agreed by entering into a CHAMPUS participation agreement or by act of indicating “accept assignment” on the claim form, to accept the CHAMPUS-allowable amount as the maximum total charge for a service or item rendered to a CHAMPUS beneficiary, whether the amount is paid for fully by CHAMPUS or requires cost-sharing by the CHAMPUS beneficiary.

Party to a hearing. An appealing party or parties and CHAMPUS.

Party to the initial determination. Includes CHAMPUS and also refers to a CHAMPUS beneficiary and a participating provider of services whose interests have been adjudicated by the initial determination. In addition, a provider who has been denied approval as an authorized CHAMPUS provider is a party to that initial determination, as is a provider who is disqualified or excluded as an authorized provider under CHAMPUS, unless the provider is excluded based on a determination of abuse or fraudulent practices or procedures under another federal or federally funded program. See §199.10 for additional information concerning parties not entitled to administrative review under the CHAMPUS appeals and hearing procedures.

Pastoral counselor. An extramedical individual provider who meets the requirements outlined in §199.6.

Pharmacist. A person who is trained specially in the scientific basis of pharmacology and who is licensed to prepare and sell or dispense drugs and compounds and to make up prescriptions ordered by a physician.

Physical medicine services or physiatry services. The treatment of disease or injury by physical means such as massage, hydrotherapy, or heat.

Physical therapist. A person who is trained specially in the skills and techniques of physical therapy (that is, the treatment of disease by physical agents and methods such as heat, massage, manipulation, therapeutic exercise, hydrotherapy, and various forms of energy such as electrotherapy and ultrasound), who has been authorized legally (that is, registered) to administer treatments prescribed by a physician and who is entitled legally to use the designation “Registered Physical Therapist.” A physical therapist also may be called a physiotherapist.

Physician. A person with a degree of Doctor of Medicine (M.D.) or Doctor of Osteopathy (D.O.) who is licensed to practice medicine by an appropriate authority.

Physician in training. Interns, residents, and fellows participating in approved postgraduate training programs and physicians who are not in approved programs but who are authorized to practice only in a hospital or other institutional provider setting, e.g., individuals with temporary or restricted licenses, or unlicensed graduates of foreign medical schools.

Podiatrist (Doctor of Podiatry or Surgical Chiropody). A person who has received a degree in podiatry (formerly called chiropody), that is, that specialized field of the healing arts that deals with the study and care of the foot, including its anatomy, pathology, and medical and surgical treatment.

Preauthorization. A decision issued in writing by the Director, OCHAMPUS, or a designee, that CHAMPUS benefits
are payable for certain services that a beneficiary has not yet received.

**Prescription drugs and medicines.**

Drugs and medicines which at the time of use were approved for commercial marketing by the U.S. Food and Drug Administration, and which, by law of the United States, require a physician’s or dentist’s prescription, except that it includes insulin for known diabetics whether or not a prescription is required. Drugs grandfathered by the Federal Food, Drug and Cosmetic Act of 1938 may be covered under CHAMPUS as if FDA approved.

**NOTE:** The fact that the U.S. Food and Drug Administration has approved a drug for testing on humans would not qualify it within this definition.

**Preventive care.**

Diagnostic and other medical procedures not related directly to a specific illness, injury, or definitive set of symptoms, or obstetrical care, but rather performed as periodic health screening, health assessment, or health maintenance.

**Primary caregiver.**

An individual who renders to a beneficiary services to support the essentials of daily living (as defined in §199.2) and specific services essential to the safe management of the beneficiary’s condition.

**Primary payer.**

The plan or program whose medical benefits are payable first in a double coverage situation.

**PRIMUS clinics.**

Contractor owned, staffed, and operated primary care clinics exclusively serving uniformed services beneficiaries pursuant to contracts awarded by a Military Department.

**Private duty (special) nursing services.**

Skilled nursing services rendered to an individual patient requiring intensive medical care. Such private duty (special) nursing must be by an actively practicing registered nurse (R.N.) or licensed practical or vocational nurse (L.P.N. or L.V.N.) only when the medical condition of the patient requires intensive skilled nursing services (rather than primarily providing the essentials of daily living) and when such skilled nursing care is ordered by the attending physician.

**Private room.**

A room with one bed that is designated as a private room by the hospital or other authorized institutional provider.

**Program for Persons with Disabilities (PPWD).**

The CHAMPUS benefits described in §199.5.

**Progress notes.**

Progress notes are an essential component of the medical record wherein health care personnel provide written evidence of ordered and supervised diagnostic tests, treatments, medical procedures, therapeutic behavior and outcomes. In the case of mental health care, progress notes must include: the date of the therapy session; length of the therapy session; a notation of the patient’s signs and symptoms; the issues, pathology and specific behaviors addressed in the therapy session; a statement summarizing the therapeutic interventions attempted during the therapy session; descriptions of the response to treatment, the outcome of the treatment, and the response to significant others; and a statement summarizing the patient’s degree of progress toward the treatment goals. Progress notes do not need to repeat all that was said during a therapy session but must document a patient contact and be sufficiently detailed to allow for both peer review and audits to substantiate the quality and quantity of care rendered.

**Prosthetic device (prosthesis).**

An artificial substitute for a missing body part.

**Provider.**

A hospital or other institutional provider, a physician, or other individual professional provider, or other provider of services or supplies as specified in §199.6 of this part.

**Provider exclusion and suspension.**

The terms “exclusion” and “suspension”, when referring to a provider under CHAMPUS, both mean the denial of status as an authorized provider, resulting in items, services, or supplies furnished by the provider not being reimbursed, directly or indirectly, under CHAMPUS. The terms may be used interchangeably to refer to a provider who has been denied status as an authorized CHAMPUS provider based on (1) a criminal conviction or civil judgment involving fraud, (2) an administrative finding of fraud or abuse under CHAMPUS, (3) an administrative finding that the provider has been excluded or suspended by another agency of the Federal Government, a state, or a local licensing authority, (4) an administrative finding that the provider has
knowingly participated in a conflict of interest situation, or (5) an administrative finding that it is in the best interests of the CHAMPUS or CHAMPUS beneficiaries to exclude or suspend the provider.

Provider termination. When a provider’s status as an authorized CHAMPUS provider is ended, other than through exclusion or suspension, based on a finding that the provider does not meet the qualifications, as set forth in §199.6 of this part, to be an authorized CHAMPUS provider.

Psychiatric emergency. A psychiatric inpatient admission is an emergency when, based on a psychiatric evaluation performed by a physician (or other qualified mental health care professional with hospital admission authority), the patient is at immediate risk of serious harm to self or others as a result of a mental disorder and requires immediate continuous skilled observation at the acute level of care.

Public facility. A public authority or entity legally constituted within a State (as defined in this section) to administer, control or perform a service function for public health, education or human services programs in a city, county, or township, special district, or other political subdivision, or such combination of political subdivisions or special districts or counties as are recognized as an administrative agency for a State’s public health, education or human services programs, or any other public institution or agency having administrative control and direction of a publicly funded health, education or human services program.

Public facility adequacy. An available public facility shall be considered adequate when the Director, OCHAMPUS, or designee, determines that the quality, quantity, and frequency of an available service or item otherwise allowable as a CHAMPUS benefit is sufficient to meet the beneficiary’s specific disability related need in a timely manner.

Public facility availability. A public facility shall be considered available when the public facility usually and customarily provides the requested service or item to individuals with the same or similar disability related need as the otherwise equally qualified CHAMPUS beneficiary.

Qualified accreditation organization. A not-for-profit corporation or a foundation that:

(1) Develops process standards and outcome standards for health care delivery programs, or knowledge standards and skill standards for health care professional certification testing, using experts both from within and outside of the health care program area or individual specialty to which the standards are to be applied;

(2) Creates measurable criteria that demonstrate compliance with each standard;

(3) Publishes the organization’s standards, criteria and evaluation processes so that they are available to the general public;

(4) Performs on-site evaluations of health care delivery programs, or provides testing of individuals, to measure the extent of compliance with each standard;

(5) Provides on-site evaluation or individual testing on a national or international basis;

(6) Provides to evaluated programs and tested individuals time-limited written certification of compliance with the organization’s standards;

(7) Excludes certification of any program operated by an organization which has an economic interest, as defined in this section, in the accreditation organization or in which the accreditation organization has an economic interest;

(8) Publishes promptly the certification outcomes of each program evaluation or individual test so that it is available to the general public; and

(9) Has been found by the Director, OCHAMPUS, or designee, to apply standards, criteria, and certification processes which reinforce CHAMPUS provider authorization requirements and promote efficient delivery of CHAMPUS benefits.

Radiation therapy services. The treatment of diseases by x-ray, radium, or radioactive isotopes when ordered by the attending physician.

Rare Diseases. CHAMPUS defines a rare disease as one which affects fewer than one in 200,000 Americans.
§ 199.2

Referral. The act or an instance of referring a CHAMPUS beneficiary to another authorized provider to obtain necessary medical treatment. Under CHAMPUS, only a physician may make referrals.

Registered nurse. A person who is prepared specially in the scientific basis of nursing, who is a graduate of a school of nursing, and who is registered for practice after examination by a state board of nurse examiners or similar regulatory authority, who holds a current, valid license, and who is entitled legally to use the designation R.N.

Rehabilitation. The reduction of an acquired loss of ability to perform an activity in the manner, or within the range considered normal, for a human being.

Reliable evidence. (1) As used in §199.4(g)(15), the term reliable evidence means only:

(i) Well controlled studies of clinically meaningful endpoints, published in refereed medical literature.

(ii) Published formal technology assessments.

(iii) The published reports of national professional medical associations.

(iv) Published national medical policy organization positions; and

(v) The published reports of national expert opinion organizations.

(2) The hierarchy of reliable evidence of proven medical effectiveness, established by (1) through (5) of this paragraph, is the order of the relative weight to be given to any particular source. With respect to clinical studies, only those reports and articles containing scientifically valid data and published in the refereed medical and scientific literature shall be considered as meeting the requirements of reliable evidence. Specifically not included in the meaning of reliable evidence are reports, articles, or statements by providers or groups of providers containing only abstracts, anecdotal evidence, or personal professional opinions. Also not included in the meaning of reliable evidence is the fact that a provider or a number of providers have elected to adopt a drug, device, or medical treatment or procedure as their personal treatment or procedure of choice or standard of practice.

Representative. Any person who has been appointed by a party to the initial determination as counsel or advisor and who is otherwise eligible to serve as the counsel or advisor of the party to the initial determination, particularly in connection with a hearing.

Reservist. A person who is under an active duty call or order to one of the Uniformed Services for a period of 30 days or less or is on inactive training.

Resident (medical). A graduate physician or dentist who has an M.D. or D.O. degree, or D.D.S. or D.M.D. degree, respectively, is licensed to practice, and who choose to remain on the house staff of a hospital to get further training that will qualify him or her for a medical or dental specialty.

Residential treatment center (RTC). A facility (or distinct part of a facility) which meets the criteria in §199.6(b)(4)(v).

Respite care. Respite care is short-term care for a patient in order to provide rest and change for those who have been caring for the patient at home, usually the patient’s family.

Retiree. A member or former member of a Uniformed Service who is entitled to retired, retainer, or equivalent pay based on duty in a Uniformed Service.

Routine eye examinations. The services rendered in order to determine the refractive state of the eyes.

Sanction. For purpose of §199.9, “sanction” means a provider exclusion, suspension, or termination.

Secondary payer. The plan or program whose medical benefits are payable in double coverage situations only after the primary payer has adjudicated the claim.

Semiprivate room. A room containing at least two beds. If a room is designated publicly as a semiprivate accommodation by the hospital or other authorized institutional provider and contains multiple beds, it qualifies as a semiprivate room for the purposes of CHAMPUS.

Serious physical disability. Any physiological disorder or condition or anatomical loss affecting one or more body systems which has lasted, or with reasonable certainty is expected to last, for a minimum period of 12 contiguous
§ 199.2

months, and which precludes the person with the disorder, condition or anatomical loss from unaided performance of at least one Major Life Activity as defined in this section.

Skilled nursing facility. An institution (or a distinct part of an institution) that meets the criteria as set forth in §199.6(b)(4)(iv) of this part.

Skilled nursing service. A service that can only be furnished by an R.N., or L.P.N. or L.V.N., and is required to be performed under the supervision of a physician to ensure the safety of the patient and achieve the medically desired result. Examples of skilled nursing services are intravenous for intramuscular injections, Levin tube or gastrostomy feedings, or tracheotomy aspiration and insertion. Skilled nursing services are other than those services that provide primarily support for the essentials of daily living or that could be performed by an untrained adult with minimum instruction or supervision.

Specialized Treatment Service Facility. A military or civilian medical treatment facility specifically designated pursuant to §199.4(a)(10) to be a referral facility for certain highly specialized care. For this purpose, a civilian medical treatment facility may be another federal facility (such as a Department of Veterans Affairs hospital).

Spectacles, eyeglasses, and lenses. Lenses, including contact lenses, that help to correct faulty vision.

Sponsor. A member or former member of a Uniformed Service upon whose status his or her dependents’ eligibility for CHAMPUS is based. A sponsor also includes a person who, while a member of the Uniformed Services and after becoming eligible to be retired on the basis of years of service, has his or her eligibility to receive retired pay terminated as a result of misconduct involving abuse of a spouse or dependent child. It also includes NATO members who are stationed in or passing through the United States on official business when authorized. It also includes individuals eligible for CHAMPUS under the Transitional Assistance Management Program.

Spouse. A lawful husband or wife, who meets the criteria in §199.3 of this part, regardless of whether or not dependent upon the member or former member for his or her own support.

State. For purposes of this part, any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and each territory and possession of the United States.

Student status. A dependent of a member or former member of a Uniformed Service who has not passed his or her 23rd birthday, and is enrolled in a full-time course of study in an institution of higher learning.

Supplemental insurance plan. A health insurance policy or other health benefit plan offered by a private entity to a CHAMPUS beneficiary, that primarily is designed, advertised, marketed, or otherwise held out as providing payment for expenses incurred for services and items that are not reimbursed under CHAMPUS due to program limitations, or beneficiary liabilities imposed by law. CHAMPUS recognizes two types of supplemental plans, general indemnity plans, and those offered through a direct service health maintenance organization (HMO).

(1) An indemnity supplemental insurance plan must meet all of the following criteria:

(i) It provides insurance coverage, regulated by state insurance agencies, which is available only to beneficiaries of CHAMPUS.

(ii) It is premium based and all premiums relate only to the CHAMPUS supplemental coverage.

(iii) Its benefits for all covered CHAMPUS beneficiaries are predominantly limited to non-covered services, to the deductible and cost-shared portions of the pre-determined allowable charges, and/or to amounts exceeding the allowable charges for covered services.

(iv) It provides insurance reimbursement by making payment directly to the CHAMPUS beneficiary or to the participating provider.

(v) It does not operate in a manner which results in lower deductibles or cost-shares than those imposed by law,
or that waives the legally imposed deductibles or cost-shares.

(2) A supplemental insurance plan offered by a Health Maintenance Organization (HMO) must meet all of the following criteria:

(i) The HMO must be authorized and must operate under relevant provisions of state law.

(ii) The HMO supplemental plan must be premium based and all premiums must relate only to CHAMPUS supplemental coverage.

(iii) The HMO’s benefits, above those which are directly reimbursed by CHAMPUS, must be limited predominantly to services not covered by CHAMPUS and CHAMPUS deductible and cost-share amounts.

(iv) The HMO must provide services directly to CHAMPUS beneficiaries through its affiliated providers who, in turn, are reimbursed by CHAMPUS.

(v) The HMO’s premium structure must be designed so that no overall reduction in the amount of the beneficiary deductibles or cost-shares will result.

Suppliers of portable X-ray services. A supplier that meets the conditions of coverage of the Medicare program, set forth in the Medicare regulations (42 CFR 405.1411 through 405.1416 (as amended)) or the Medicaid program in the state in which the covered service is provided.

Surgery. Medically appropriate operative procedures, including related preoperative and postoperative care; resection of fractures and dislocations; injections and needling procedures of the joints; laser surgery of the eye; and those certain procedures listed in §199.4(c)(2)(i) of this part.

Surgical assistant. A physician (or dentist or podiatrist) who assists the operating surgeon in the performance of a covered surgical service when such assistance is certified as necessary by the attending surgeon, when the type of surgical procedure being performed is of such complexity and seriousness as to require a surgical assistant, and when interns, residents, or other house staff are not available to provide the surgical assistance services in the specialty area required.

Suspension of claims processing. The temporary suspension of processing (to protect the government’s interests) of claims for care furnished by a specific provider (whether the claims are submitted by the provider or beneficiary) or claims submitted by or on behalf of a specific CHAMPUS beneficiary pending action by the Director, OCHAMPUS, or a designee, in a case of suspected fraud or abuse. The action may include the administrative remedies provided for in §199.9 or any other Department of Defense issuance (e.g. DoD issuances implementing the Program Fraud Civil Remedies Act), case development or investigation by OCHAMPUS, or referral to the Department of Defense-Inspector General or the Department of Justice for action within their cognizant jurisdictions.

Teaching physician. A teaching physician is any physician whose duties include providing medical training to physicians in training within a hospital or other institutional provider setting.

Timely filing. The filing of CHAMPUS claims within the prescribed time limits as set forth in §199.7 of this part.

Treatment plan. A detailed description of the medical care being rendered or expected to be rendered a CHAMPUS beneficiary seeking approval for inpatient benefits for which preauthorization is required as set forth in §199.4(b) of this part. A treatment plan must include, at a minimum, a diagnosis (either ICD–9–CM or DSM–III); detailed reports of prior treatment, medical history, family history, social history, and physical examination; diagnostic test results; consultant’s reports (if any); proposed treatment by type (such as surgical, medical, and psychiatric); a description of who is or will be providing treatment (by discipline or specialty); anticipated frequency, medications, and specific goals of treatment; type of inpatient facility required and why (including length of time the related inpatient stay will be required); and prognosis. If the treatment plan involves the transfer of a CHAMPUS patient from a hospital or another inpatient facility, medical records related to that inpatient stay also are required as a part of the treatment plan documentation.
§ 199.2

TRICARE extra plan. The health care option, provided as part of the TRICARE program under §199.17, under which beneficiaries may choose to receive care in facilities of the uniformed services, or from special civilian network providers (with reduced cost sharing), or from any other CHAMPUS-authorized provider (with standard cost sharing).

TRICARE prime plan. The health care option, provided as part of the TRICARE program under §199.17, under which beneficiaries enroll to receive all health care from facilities of the uniformed services and civilian network providers (with civilian care subject to substantially reduced cost sharing).

TRICARE program. The program establish under §199.17.

TRICARE standard plan. The health care option, provided as part of the TRICARE program under §199.17, under which beneficiaries are eligible for care in facilities of the uniformed services and CHAMPUS under standard rules and procedures.

Uniform HMO benefit. The health care benefit established by §199.18.

Uniformed Services. The Army, Navy, Air Force, Marine Corps, Coast Guard, Commissioned Corps of the USPHS, and the Commissioned Corps of the NOAA.

Unlabeled or Off-Label Drugs. Food and Drug Administration (FDA) approved drugs that are used for indications or treatments not included in the approved labeling. The drug must be medically necessary for the treatment of the condition for which it is administered, according to accepted standards of medical practice.

Veteran. A person who served in the active military, naval, or air service, and who was discharged or released therefrom under conditions other than dishonorable.

Note: Unless the veteran is eligible for “retired pay,” “retirement pay,” or “retainer pay,” which refers to payments of a continuing nature and are payable at fixed intervals from the government for military service neither the veteran nor his or her dependents are eligible for benefits under CHAMPUS.

Waiver of benefit limits. Extension of current benefit limitations under the Case Management Program, of medical care, services, and/or equipment, not otherwise a benefit under the TRICARE/CHAMPUS program.

Well-child care. A specific program of periodic health screening, developmental assessment, and routine immunization for dependents under six years of age.

Widow or Widower. A person who was a spouse at the time of death of a member or former member and who has not remarried.

Worker’s compensation benefits. Medical benefits available under any worker’s compensation law (including the Federal Employees Compensation Act), occupational disease law, employers liability law, or any other legislation of similar purpose, or under the maritime doctrine of maintenance, wages, and cure.

X-ray services. An x-ray examination from which an x-ray film or other image is produced, ordered by the attending physician when necessary and rendered in connection with a medical or surgical diagnosis or treatment of an illness or injury, or in connection with maternity or well-baby care.

[51 FR 24008, July 1, 1986, as amended at 64 FR 46134, Aug. 24, 1999]

EDITORIAL NOTE: For Federal Register citations affecting §199.2, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

EDITORIAL NOTE: At 66 FR 43172, Aug. 27, 2001, §199.2, was amended in part by revising the definition of “Director, OCHAMPUS”. However, because of inaccurate amendatory language, this amendment could not be incorporated.

Effective Date Note: At 67 FR 40692, June 13, 2002, in §199.2 paragraph (b) was amended by revising the definitions of “custodial care”, “domiciliary care”, “skilled nursing facility” and “skilled nursing services”, by adding definitions of “activities of daily living”, “case-mix index”, “homebound”, “home health discipline”, “home health market basket index”, “intermittent home health aide and skilled nursing services”, and “part-time home health aide and skilled nursing services” in alphabetical order, and by removing the definitions of “essentials of daily living” and “private duty (special) nursing services”, effective Aug. 12, 2002. For the convenience of the user, the revised text is set forth as follows: 82
§199.2 Definitions.

Activities of daily living. Care that consists of providing food (including special diets), clothing, and shelter; personal hygiene services; observation and general monitoring; bowel training or management (unless abnormalities in bowel function are of a severity to result in a need for medical or surgical intervention in the absence of skilled services); safety precautions; general preventive procedures (such as turning to prevent bedsores); passive exercise; companionship; recreation; transportation; and such other elements of personal care that reasonably can be performed by an untrained adult with minimal instruction or supervision. Activities of daily living may also be referred to as “essentials of daily living”.

Case-mix index. Case-mix index is a scale that measures the relative difference in resources intensity among different groups receiving home health services.

Custodial care. The term “custodial care” means treatment or services, regardless of who recommends such treatment or services or where such treatment or services are provided, that:

1. Can be rendered safely and reasonably by a person who is not medically skilled; or
2. Is or are designed mainly to help the patient with the activities of daily living.

Domiciliary care. The term “domiciliary care” means care provided to a patient in an institution or homelike environment because:

1. Providing support for the activities of daily living in the home is not available or is unsuitable; or
2. Members of the patient’s family are unwilling to provide the care.

Homebound. A beneficiary’s condition is such that there exists a normal inability to leave home and, consequently, leaving home would require considerable and taxing effort. Any absence of an individual from the home attributable to the need to receive health care treatment—including regular absences for the purpose of participating in therapeutic, psychosocial, or medical treatment in an adult day-care program that is licensed or certified by a state, or accredited to furnish adult day-care services in the state shall not disqualify an individual from being considered to be confined to his home. Any other absence of an individual from the home shall not disqualify an individual if the absence is infrequent or of relatively short duration. For purposes of the preceding sentence, any absence for the purpose of attending a religious service shall be deemed to be an absence of infrequent or short duration. Also, absences from the home for non-medical purposes, such as an occasional trip to the barber, a walk around the block or a drive, would not necessarily negate the beneficiary’s homebound status if the absences are undertaken on an infrequent basis and are of relatively short duration.

Home health discipline. One of six home health disciplines covered under the home health benefit (skilled nursing services, physical therapy services, occupational therapy services, speech-language pathology services, and medical social services).

Home health market basket index. An index that reflects changes over time in the prices of an appropriate mix of goods and services included in home health services.

Intermittent home health aide and skilled nursing services. Intermittent means:

1. Up to and including 28 hours per week of skilled nursing and home health aide services combined, provided on a less-than-daily basis;
2. Up to 35 hours per week of skilled nursing and home health aide services combined that are provided on a less-than-daily basis, subject to review by managed care support contractors on a case-by-case basis, based upon documentation justifying the need for and reasonableness of such additional care; or
3. Up to and including full-time (i.e., eight hours per day) skilled nursing and home health aide services combined which are provided and needed seven days per week for temporary, but not indefinite, periods of time of up to 21 days with allowances for extensions in exceptional circumstances where the need for care in excess of 21 days is finite and predictable.

Part-time home health aide and skilled nursing services. Part-time means:

1. Up to and including 28 hours per week of skilled nursing and home health aide services combined for less than eight hours per day; or
2. Up to 35 hours per week of skilled nursing and home health aide services combined for less than eight hours per day subject to review by managed care support contractors
on a case-by-case basis, based upon documentation justifying the need for and reasonableness of such additional care.

**Skilled nursing facility.** An institution (or a distinct part of an institution) that meets the criteria as set forth in §199.6(b)(4)(vi).

**Skilled nursing services.** Skilled nursing services includes application of professional nursing services and skills by an RN, LPN, or LVN, that are required to be performed under the general supervision/direction of a TRICARE-authorized physician to ensure the safety of the patient and achieve the medically desired result in accordance with accepted standards of practice.

§ 199.3 Eligibility.

(a) General.—This section sets forth those persons who, by the provisions of 10 U.S.C. chapter 55, and the NATO Status of Forces Agreement, are eligible for CHAMPUS benefits. A determination that a person is eligible does not automatically entitle such a person to CHAMPUS payments. Before any CHAMPUS benefits may be extended, additional requirements, as set forth in other sections of this part, must be met. Additionally, the use of CHAMPUS may be denied if a Uniformed Service medical treatment facility capable of providing the needed care is available. CHAMPUS relies primarily on the Defense Enrollment Eligibility Reporting System (DEERS) for eligibility verification.

(b) CHAMPUS eligibles—(1) Retiree. A member or former member of a Uniformed Service who is entitled to retired, retainer, or equivalent pay based on duty in a Uniformed Service.

(2) Dependent. Individuals whose relationship to the sponsor leads to entitlement to benefits. CHAMPUS eligible dependents include the following:

(i) Spouse. A lawful husband or wife of a member or former member. The spouse of a deceased member or retiree must not be remarried. A former spouse also may qualify for benefits as a dependent spouse. A former spouse is a spouse who was married to a military member, or former member, but whose marriage has been terminated by a final decree of divorce, dissolution or annulment. To be eligible for CHAMPUS benefits, a former spouse must meet the criteria described in paragraphs (b)(2)(i)(A) through (b)(2)(i)(E) of this section and must qualify under the group defined in paragraph (b)(2)(i)(F)(1) or (b)(2)(i)(F)(2) of this section.

(A) Must be unmarried; and

(B) Must not be covered by an employer-sponsored health plan; and

(C) Must have been married to a member or former member who performed at least 20 years of service which can be credited in determining the member’s or former member’s eligibility for retired or retainer pay; and

(D) Must not be eligible for Part A of Title XVIII of the Social Security Act (Medicare) except as provided in paragraphs (b)(3), (f)(3)(vii), (f)(3)(viii) and (f)(3)(ix) of this section; and

(E) Must not be the dependent of a NATO member; and

(F) Must meet the requirements of paragraph (b)(2)(i)(F)(1) or (b)(2)(i)(F)(2) of this section:

(i) The former spouse must have been married to the same member or former member for at least 20 years, at least 15, but less than 20 of those married years were creditable in determining the member’s or former member’s eligibility for retired or retainer pay. Eligibility continues indefinitely unless affected by any of the conditions of paragraphs (b)(2)(i)(A) through (b)(2)(i)(E) of this section.

(ii) If the date of the final decree of divorce, dissolution, or annulment was before February 1, 1983, the former spouse is eligible for CHAMPUS coverage of health care received on or after January 1, 1985.

(iii) If the date of the final decree of the divorce, dissolution, or annulment was on or after February 1, 1983, the former spouse is eligible for CHAMPUS coverage of health care which is received on or after the date of the divorce, dissolution, or annulment.

(2) The former spouse must have been married to the same member or former member for at least 20 years, and at least 15, but less than 20 of those married years were creditable in determining the member’s or former member’s eligibility for retired or retainer pay.
Office of the Secretary of Defense

§ 199.3

(i) If the date of the final decree of divorce, dissolution, or annulment is before April 1, 1985, the former spouse is eligible only for care received on or after January 1, 1985, or the date of the divorce, dissolution, or annulment, whichever is later. Eligibility continues indefinitely unless affected by any of the conditions of paragraphs (b)(2)(i)(A) through (b)(2)(i)(E) of this section.

(ii) If the date of the final decree of divorce, dissolution or annulment is on or after April 1, 1985, but before September 29, 1988, the former spouse is eligible only for care received from the date of the decree of divorce, dissolution, or annulment until December 31, 1988, or for two years from the date of the divorce, dissolution, or annulment, whichever is later.

(iii) If the date of the final decree of divorce, dissolution, or annulment is on or after September 29, 1988, the former spouse is eligible only for care received within the 365 days (366 days in the case of a leap year) immediately following the date of the divorce, dissolution, or annulment.

(ii) Child. A dependent child is an unmarried child of a member or former member who has not reached his or her twenty-first (21st) birthday, except an incapacitated adopted child meeting the requirements of paragraph (b)(2)(ii)(H)(2) of this section, and who bears one of the following relationships to a member or former member of one of the Uniformed Services:

(A) A legitimate child; or

(B) An adopted child whose adoption has been legally completed on or before the child's twenty-first (21st) birthday; or

(C) A legitimate stepchild; or

(D) An illegitimate child of a member or former member whose paternity/maternity has been determined judicially, and the member or former member directed to support the child; or

(E) An illegitimate child of a member or former member whose paternity/maternity has not been determined judicially, who resides with or in the home provided by the member or former member, and is or continues to be dependent upon the member or former member for over one-half of his or her support, or who was so dependent on the former member at the time of the former member's death; or

(F) An illegitimate child of a spouse of a member who resides with or in a home provided by the member and is, and continues to be dependent upon the member for over one-half of his or her support; or

(G) An illegitimate child of a spouse of a former member who resides with or in a home provided by a former member or the former member's spouse at the time of death of the former member, and is, or continues to be, or was, dependent upon the former member for more than one-half of his or her support at the time of death; or

(H) An individual who falls into one of the following classes:

(1) A student. A child determined to be a member of one of the classes in paragraphs (b)(2)(i)(A) through (b)(2)(i)(G) of this section, who is not married, has passed his or her 21st birthday but has not passed his or her 23rd birthday, is dependent upon the member or former member for over 50 percent of his or her support or was dependent upon the member or former member for over 50 percent of his or her support on the date of the member's or former member's death, and is pursuing a full-time course of education in an institution of higher learning approved by the Secretary of Defense or the Department of Education (as appropriate) or by a state agency under 38 U.S.C. chapters 34 and 35.

Note: Courses of education offered by institutions listed in the “Education Directory,” “Higher Education” or “Accredited Higher Institutions” issued periodically by the Department of Education meet the criteria approved by the Administering Secretary or the Secretary of Education. For determination of approval of courses offered by a foreign institution, by an institution not listed in either of the above directories, or by an institution not approved by a state agency pursuant to 38 U.S.C. chapters 34 and 35, a statement may be obtained from the Department of Education, Washington, D.C. 20202.

(2) An incapacitated child. A child determined to be a member of one of the classes in paragraphs (b)(2)(i)(A) through (b)(2)(i)(G) of this section, who is not married and is incapable of
§ 199.3

32 CFR Ch. I (7–1–02 Edition)

self-support because of a mental or physical disability that:

(i) Existed before the child’s twenty-first (21st) birthday; or

(ii) Occurred between the ages of 21 and 23 while the child was enrolled in a full-time course of study in an institution of higher learning approved by the Administering Secretary or the Department of Education (see NOTE to paragraph (b)(2)(ii)(H)(2)(ii) of this section), and is or was at the time of the member’s or former member’s death dependent on the member or former member for over one-half of his or her support; and

(iii) The incapacity is continuous. (If the incapacity significantly improves or ceases at any time, CHAMPUS eligibility cannot be reinstated on the basis of the incapacity, unless the incapacity recurs and the beneficiary is under age 21, or is under age 23 and is enrolled as a full-time student under paragraph (b)(2)(ii)(H)(2)(iii) of this section. If the child was not incapacitated after that date, no CHAMPUS eligibility exists on the basis of the incapacity. However, incapacitated children who marry and who subsequently become unmarried through divorce, annulment, or death of spouse, may be reinstated as long as they still meet all other requirements).

Note: An institution of higher learning is a college, university, or similar institution, including a technical or business school, offering post-secondary level academic instruction that leads to an associate or higher degree, if the school is empowered by the appropriate State education authority under State law to grant an associate, or higher, degree. When there is no State law to authorize the granting of a degree, the school may be recognized as an institution of higher learning if it is accredited for degree programs by a recognized accrediting agency. The term also shall include a hospital offering educational programs at the post-secondary level regardless of whether the hospital grants a post-secondary degree. The term also shall include an educational institution that is not located in a State, that offers a course leading to a standard college degree, or the equivalent, and that is recognized as such by the Secretary of Education (or comparable official) of the country, or other jurisdiction, in which the institution is located (38 U.S.C. chapter 34, section 1901, and chapter 35, section 1701).

Courses of education offered by institutions listed in the “Education Directory,” “Higher Education” or “Accredited Higher Institutions” issued periodically by the Department of Education meet the criteria approved by the Administering Secretary or the Secretary of Education. For determination of approval of courses offered by a foreign institution, by an institution not listed in either of the above directories, or by an institution not approved by a state agency pursuant to chapters 34 and 35 of 38 U.S.C., a statement may be obtained from the Department of Education, Washington, D.C. 20202.

(3) A child of a deceased reservist. A child, who is determined to be a member of one of the classes in paragraphs (b)(2)(ii)(A) through (b)(2)(ii)(G) of this section, of a reservist in a Uniformed Service who incurs or aggravates an injury, illness, or disease, during, or on the way to or from, active duty training for a period of 30 days or less or in active duty training, and the reservist dies as a result of that specific injury, illness or disease.

(4) A child placed in legal custody of a member or former member. A child who is placed in legal custody of a member or former member by a court or who is placed in the home of a member or former member by a recognized placement agency in anticipation of the legal adoption of the child.

(iii) Abused dependents.—(A) Categories of abused dependents. An abused dependent may be either a spouse or a child. Eligibility for either class of abused dependent results from being either:

(1) The spouse (including a former spouse) or child of a member who has received a dishonorable or bad-conduct discharge, or dismissal from a Uniformed Service as a result of a court-martial conviction for an offense involving physical or emotional abuse of the spouse or child, or was administratively discharged as a result of such an offense. Until October 17, 1996, medical benefits are limited to care related to the physical or emotional abuse and for a period of 12 months following the member’s separation from the Uniformed Service. On or after October 17, 1996, medical benefits can include all under the Basic Program and under the Program for Persons with Disabilities for the period that the spouse or child is in receipt of transitional compensation under section 1059 of title 10 U.S.C.

(2) The spouse (including a former spouse) or child of a member or former
member who while a member and as a result of misconduct involving abuse of the spouse or child has eligibility to receive retired pay on the basis of years of service terminated.

(B) Requirements for categories of abused dependents—(1) Abused spouse. As long as the spouse is receiving payments from the DoD Military Retirement Fund under court order, the spouse is eligible for health care under the same conditions as any spouse of a retired member. The abused spouse must:

(i) Under paragraph (b)(2)(iii)(A)(1) of this section, be a lawful husband or wife or a former spouse of the member; or

(ii) Under paragraph (b)(2)(iii)(A)(2) of this section, be a lawful husband or wife or a former spouse of the member or former member, and the spouse is receiving payments from the Department of Defense Military Retirement Fund under 10 U.S.C. 1408(h) pursuant to a court order; and

(A) Be a victim of the abuse; and

(B) Have been married to the member or former member at the time of the abuse; or

(C) Be the natural or adoptive parent of a dependent child of the member or former member who was the victim of the abuse.

(2) Abused child. The abused child must:

(i) Under paragraph (b)(2)(iii)(A)(1) of this section, be a dependent child of the member or former member, and the spouse is receiving payments from the Department of Defense Military Retirement Fund under 10 U.S.C. 1408(h) pursuant to a court order; and

(A) Be a victim of the abuse; and

(B) Have been married to the member or former member at the time of the abuse; or

(C) Be the natural or adoptive parent of a dependent child of the member or former member who was the victim of the abuse.

(3) TAMP eligibles. A former member, including his or her dependents, who is eligible under the provisions of the Transitional Assistance Management Program as described in paragraph (e) of this §199.3.

(3) Eligibility under TRICARE Senior Pharmacy Program. Section 711 of the National Defense Authorization Act for Fiscal Year 2001 (Public Law 106–398, 114 Stat. 1654) established the TRICARE Senior Pharmacy Program effective April 1, 2001. To be eligible for this program, a person is required to be:

(i) Medicare eligible, who is:

(A) 65 years of age or older; and

(B) Entitled to Medicare Part A; and

(C) Enrolled in Medicare Part B, except for a person who attained age 65 prior to April 1, 2001, is not required to enroll in Part B; and

(ii) Otherwise qualified under one of the following categories:

(A) A retired uniformed service member who is entitled to retired or retainer pay, or equivalent pay including survivors who are annuitants; or

(B) A dependent of a member of the uniformed services described in one of the following:

(1) A member who is on active duty for a period of more than 30 days or died while on such duty; or

(2) A member who died from an injury, illness, or disease incurred or aggravated while the member was:

(i) On active duty under a call or order to active duty of 30 days or less, on active duty for training, or on inactive duty training; or

(ii) Traveling to or from the place at which the member was to perform or had performed such active duty, active duty for training, or inactive duty training.

NOTE TO PARAGRAPH (b)(3)(ii)(B): Dependent under Section 711 of the National Defense Authorization Act for Fiscal Year 2001 includes spouse, unmarried widow/widower, child, parent/parent-in-law, unmarried former spouse, and unmarried person in the

87
§ 199.3 

legal custody of a member or former member, as those terms of dependency are defined and periods of eligibility are set forth in 10 U.S.C. 1072(2).

(4) Medal of Honor recipients. (i) A former member of the armed forces who is a Medal of Honor recipient and who is not otherwise entitled to medical and dental benefits has the same CHAMPUS eligibility as does a retiree.

(ii) Immediate dependents. CHAMPUS eligible dependents of a Medal of Honor Recipient are those identified in paragraphs (b)(2)(i) of this section (except for former spouses) and (b)(2)(ii) of this section (except for a child placed in legal custody of a Medal of Honor recipient under (b)(2)(ii)(H)(4) of this section).

(iii) Effective date. The CHAMPUS eligibility established by paragraphs (b)(4)(i) and (ii) of this section is applicable to health care services provided on or after October 30, 2000.

(c) Beginning dates of eligibility. (1) Beginning dates of eligibility depend on the class to which the individual belongs and the date the individual became a member of the class. Those who join after the class became eligible attain individual eligibility on the date they join.

(2) Beginning dates of eligibility for each class of spouse (excluding spouses who are victims of abuse and eligible spouses of certain deceased reservists) are as follows:

(i) A spouse of a member for:

(A) Medical benefits authorized by the Dependents’ Medical Care Act of December 7, 1956;

(B) Outpatient medical benefits under the Basic Program, December 7, 1966;

(C) Inpatient medical benefits under the Basic Program, November 1, 1967;

(ii) A spouse of a former member:

(A) For medical benefits under the Basic Program, January 1, 1967.

(B) Ineligible for benefits under the Program for Persons with Disabilities, January 1, 1967.

(C) Inpatient medical benefits under the Basic Program and benefits under the Program for Persons with Disabilities, January 1, 1967:

(i) A spouse of a former member:

(A) For medical benefits under the Basic Program, January 1, 1967.

(B) Ineligible for benefits under the Program for Persons with Disabilities.

(iii) A former spouse:

(A) For medical benefits under the Basic Program, dates of beginning eligibility are as indicated for each category of eligible former spouse identified within paragraph (b)(2)(i) of this section.

(B) Ineligible for benefits under the Program for Persons with Disabilities.

(3) Beginning dates of eligibility for spouses who are victims of abuse (excluding spouses who are victims of abuse of certain deceased reservists) are as follows:

(i) An abused spouse meeting the requirements of paragraph (b)(2)(iii)(A)(1) of this section, including an eligible former spouse:

(A) For medical and dental care for problems associated with the physical or emotional abuse under the Basic Program for a period of up to one year (12 months) following the person’s separation from the Uniformed Service, November 14, 1986.

(B) For all medical and dental benefits under the Basic Program for the period that the spouse is in receipt of transitional compensation under section 1059 of title 10 U.S.C., October 17, 1998.

(C) For medical and dental care for problems associated with the physical or emotional abuse under the Program for Persons with Disabilities for a period up to one year (12 months) following the person’s separation from the Uniformed Service, November 14, 1986.

(D) For all medical and dental benefits described in section 199.5 for the period that the spouse is in receipt of transitional compensation under section 1059 of title 10 U.S.C., October 17, 1998.

(ii) An abused spouse meeting the requirements of paragraphs (b)(2)(iii)(A)(2) of this section, including an eligible former spouse:

(A) For all benefits under the CHAMPUS Basic Program, October 23, 1992.

(B) Ineligible for benefits under the Program for Persons with Disabilities.

(4) Beginning dates of eligibility for spouses of certain deceased reservists, including spouses who are victims of abuse of certain deceased reservists, are as follows:

(i) A spouse meeting the requirements of paragraph (b)(2)(i) of this section, including an eligible former spouse:

(A) For benefits under the Basic Program, November 14, 1986.
§199.3

(B) Ineligible for benefits under the Program for Persons with Disabilities.

(ii) An abused spouse of certain deceased reservists, meeting the requirements of paragraphs (b)(2)(iii) of this section, including an eligible former spouse, for the limited benefits and period of eligibility described in paragraphs (b)(2)(iii) of this section:

(A) For benefits under the Basic Program, November 14, 1986.

(B) For benefits under the Program for Persons with Disabilities, November 14, 1986.

(iii) An abused spouse of certain deceased reservists, including an eligible former spouse, meeting the requirements of paragraphs (b)(2)(iii) of this section:

(A) For benefits under the Basic Program, October 23, 1992.

(B) Ineligible for benefits under the Program for Persons with Disabilities.

(5) Beginning dates of eligibility for each class of dependent children, excluding dependent children of certain deceased reservists, abused children and incapacitated children whose incapacity occurred between the ages of 21 and 23 while enrolled in a full-time course of study in an institution of higher learning, are as follows:

(i) Legitimate child, adopted child, or legitimate stepchild of a member, for:

(A) Medical benefits authorized by the Dependents’ Medical Care Act of 1956, December 7, 1956;

(B) Outpatient medical benefits under the Basic Program, October 1, 1966;

(C) Inpatient medical benefits under the Basic Program and benefits under the Program for Persons with Disabilities, January 1, 1967.

(ii) Legitimate child, adopted child, or legitimate stepchild of former members:

(A) For medical benefits under the Basic Program, January 1, 1967.

(B) Ineligible for benefits under the Program for Persons with Disabilities.

(iii) Illegitimate child of a male or female member or former member whose paternity or maternity has not been determined judicially:

(A) A male member or former member who resides with, or in a home provided by the member or former member, or who was residing in a home provided by the member or former member at the time of the member’s or former member’s death, and who is or continues to be dependent on the member for over one-half of his or her support, or was so dependent on the member or former member at the time of death;

(C) A spouse of a member or former member who resides with or in a home provided by the member or former member, or the parent who is the spouse of the member or former member or was the spouse of a member or former member at the time of death, and who is and continues to be dependent upon the member or former member for over one-half of his or her support, or was so dependent on the member or former member at the time of death;

(i) Benefits under the Basic program, November 14, 1986.

(ii) Not eligible for benefits under the Program for Persons with Disabilities.

(6) Beginning dates of eligibility for children of certain deceased reservists who meet the requirements of paragraph (b)(2)(ii)(H)(3) of this section, excluding incapacitated children who meet the requirements of paragraph (b)(2)(ii)(H)(2) of this section, for:

(i) An abused child meeting the requirements of paragraph (b)(2)(ii)(A)(1) of this section:

(A) All benefits for which otherwise entitled, August 31, 1972.

(B) Program for Persons with Disabilities benefits limited to dependent children of members only, August 31, 1972.

(iv) Illegitimate child of:

(A) A male member or former member whose paternity has not been determined judicially;

(B) A female member or former member who resides with, or in a home provided by the member or former member, or who was residing in a home provided by the member or former member at the time of the member’s or former member’s death, and who is or continues to be dependent on the member or former member at the time of death;

(C) A spouse of a member or former member who resides with or in a home provided by the member or former member, or the parent who is the spouse of the member or former member or was the spouse of a member or former member at the time of death, and who is and continues to be dependent upon the member or former member for over one-half of his or her support, or was so dependent on the member or former member at the time of death;

(i) Benefits under the Basic program, November 14, 1986.

(ii) Not eligible for benefits under the Program for Persons with Disabilities.

(7) Beginning dates of eligibility for children who are victims of abuse, including incapacitated children who meet the requirements of paragraph (b)(2)(ii)(H)(2) of this section are as follows:

(i) An abused child meeting the requirements of paragraph (b)(2)(ii)(A)(1) of this section:
§ 199.3  
(A) Medical and dental care for problems associated with the physical or emotional abuse under the Basic Program for a period of up to one year (12 months) following the person’s separation from the Uniformed Service, November 14, 1986.  
(B) For all medical and dental benefits under the Basic Program for the period that the child is in receipt of transitional compensation under section 1059 of title 10 U.S.C., October 17, 1998.  
(C) Medical and dental care for problems associated with the physical or emotional abuse under the Program for Persons with Disabilities for a period up to one year (12 months) following the person’s separation from the Uniformed Service, November 14, 1986.  
(D) For all medical and dental benefits described in section 199.5 for the period that the child is in receipt of transitional compensation under section 1059 of title 10 U.S.C., October 17, 1998.  
(ii) An abused child meeting the requirements of paragraphs (b)(2)(iii)(A)(2) of this section:  
(A) For all benefits under the CHAMPUS Basic Program, October 23, 1992.  
(B) Ineligible for benefits under the Program for Persons with Disabilities.  
(8) Beginning dates of eligibility for incapacitated children who meet the requirements of paragraph (b)(2)(i)(H)(2) of this section, whose incapacity occurred between the ages of 21 and 23 while enrolled in a full-time course of study in an institution of higher learning approved by the Administering Secretary or the Department of Education, and, are or were at the time of the member’s or former member’s death, dependent on the member or former member for over one-half of their support, for:  
(i) All benefits for which entitled, October 23, 1992.  
(ii) Program for Persons with Disabilities benefits limited to children of members only, October 23, 1992.  
(9) Beginning dates of eligibility for a child who meets the requirements of paragraph (b)(2)(ii)(H)(4) and:  
(i) Has been placed in custody by a court:  
(A) All benefits for which entitled, July 1, 1994.  
(B) Program for Persons with Disabilities benefits limited to children of members only, July 1, 1994.  
(ii) Has been placed in custody by a recognized adoption agency:  
(A) All benefits for which entitled, October 5, 1994.  
(B) Program for Persons with Disabilities benefits limited to children of members only, October 5, 1994.  
(10) Beginning dates of eligibility for a retiree for:  
(i) Medical benefits under the Basic Program January 1, 1967.  
(ii) Retirees and their dependents are not eligible for benefits under the Program for Persons with Disabilities.  
(d) Dual eligibility. Dual eligibility occurs when a person is entitled to benefits from two sources. For example, when an active duty member is also the dependent of another active duty member, a retiree, or a deceased active duty member or retiree, dual eligibility, that is, entitlement to direct care from the Uniformed Services medical care system and CHAMPUS is the result. Since the active duty status is primary, and it is the intent that all medical care be provided an active duty member through the Uniformed Services medical care system, CHAMPUS eligibility is terminated as of 12:01 a.m. on the day following the day the dual eligibility begins. However, any dependent children in a marriage of two active duty persons or of an active duty member and a retiree, are CHAMPUS eligible in the same manner as dependent children of a marriage involving only one CHAMPUS sponsor. Should a spouse or dependent who has dual eligibility leave active duty status, that person’s CHAMPUS eligibility is reinstated as of 12:01 a.m. of the day active duty ends, if he or she otherwise is eligible as a dependent of a CHAMPUS sponsor.  
NOTE: No CHAMPUS eligibility arises as the result of the marriage of two active duty members.  
(e) Eligibility Under the Transitional Assistance Management Program (TAMP). Transitional health care benefits under CHAMPUS are authorized for the applicable time period described, for:
Office of the Secretary of Defense

§ 199.3

(1) Up to thirty (30) days or until again covered by an employer-sponsored health plan, whichever occurs earlier, following release from active duty for:
   (i) Activated Guard/Reserve and their dependents,
   (ii) Involuntary stop-loss and their dependents,
   (iii) Voluntary stop-loss and their dependents,
   (iv) Members who accepted Voluntary Separation Incentives (VSI).

(2) Sixty (60) days for regular DoD military and their dependents when the sponsor is involuntarily separated with less than six years of active service. Involuntary separation must occur during the five-year period beginning October 1, 1990.

(3) One hundred twenty (120) days for regular military and their dependents when the sponsor is involuntarily separated with six or more years of active service. Involuntary separation must occur during the five-year period beginning October 1, 1990. Each branch of service will determine eligibility, including dates, for its members and their dependents and provide data to DEERS.

(f) Changes in status which result in termination of CHAMPUS eligibility.

Changes in status which result in a loss of CHAMPUS eligibility as of 12:01 a.m. of the day following the day the event occurred, unless otherwise indicated, are as follows:

(1) Changes in the status of a member.
   (i) When an active duty member’s period of active duty ends, excluding retirement or death.
   (ii) When an active duty member is placed on desertion status (eligibility is reinstated when the active duty member is removed from desertion status and returned to military control).

   NOTE: A member serving a sentence of confinement in conjunction with a sentence of punitive discharge is still considered on active duty until such time as the discharge is executed.

(2) Changes in the status of a retiree.
   (i) When a retiree ceases to be entitled to retired, retainer, or equivalent pay for any reason, the retiree’s dependents lose their eligibility unless the dependent is otherwise eligible (e.g., some former spouses, some dependents who are victims of abuse and some incapacitated children as outlined in paragraph (b)(2)(ii)(H)(2) of this section).
   (ii) A retiree also loses eligibility when no longer entitled to retired, retainer, or equivalent pay.

   NOTE: A retiree who waives his or her retired, retainer or equivalent pay is still considered a retiree for the purposes of CHAMPUS eligibility.

(3) Changes in the status of a dependent.
   (i) Divorce, except for certain classes of former spouses as provided in paragraph (b)(2)(i) of this section and the member or former member’s own children (i.e., legitimate, adopted, and judicially determined illegitimate children).

   NOTE: An unadopted stepchild loses eligibility as of 12:01 a.m. of the day following the day the divorce becomes final.

   (ii) Annulment, except for certain classes of former spouse as provided in paragraph (b)(2)(i) of this section and the member or former member’s own children (i.e., legitimate, adopted, and judicially determined illegitimate children).

   NOTE: An unadopted stepchild loses eligibility as of 12:01 a.m. of the day following the day the annulment becomes final.

   (iii) Adoption, except for adoptions occurring after the death of a member or former member.

   (iv) Marriage of a child, except when the marriage is terminated by death, divorce, or annulment before the child is 21 or 23 if an incapacitated child as provided in paragraph (b)(2)(ii)(H)(2) of this section.

   (v) Marriage of a widow or widower, except for the child of the widow or widower who was the stepchild of the deceased member or former member at the time of death. The stepchild continues CHAMPUS eligibility as other classes of dependent children.

   (vi) Attainment of entitlement to hospital insurance benefits (Part A) under Medicare except as provided in paragraphs (b)(3), (f)(3)(vii), (f)(3)(viii) and (f)(3)(ix) of this section. (This also applies to individuals living outside the United States where Medicare benefits are not available.)

   (vii) Attainment of age 65, except for dependents of active duty members, beneficiaries not eligible for Part A of
§ 199.3 Medicare, beneficiaries entitled to Part A of Medicare who have enrolled in Part B of Medicare; and as provided in paragraph (b)(3) of this section. For those who do not retain CHAMPUS, CHAMPUS eligibility is lost at 12:01 a.m. on the first day of the month in which the beneficiary becomes entitled to Medicare.

NOTE: If the person is not eligible for Part A of Medicare, he or she must file a Social Security Administration “Notice of Disallowance” certifying to that fact with the Uniformed Service responsible for the issuance of his or her identification card so a new card showing CHAMPUS eligibility can be issued. Individuals entitled only to supplementary medical insurance (Part B) of Medicare, but not Part A, or Part A through the Premium HI provisions (provided for under the 1972 Amendments to the Social Security Act) retain eligibility under CHAMPUS (refer to §199.8 for additional information when a double coverage situation is involved).

(viii) End stage renal disease. All beneficiaries, except dependents of active duty members, lose their CHAMPUS eligibility when Medicare coverage becomes available to a person because of chronic renal disease unless the following conditions have been met. CHAMPUS eligibility will continue if:

(A) The individual is under 65 years old;
(B) The individual became eligible for Medicare under the provisions of 42 U.S.C. 426(b)(2);
(C) The individual is enrolled in Part B of Medicare; and
(D) The individual has applied and qualified for continued CHAMPUS eligibility through the Defense Enrollment Eligibility Reporting System (DEERS).

(x) Disabled students, that is children age 21 or 22, who are pursuing a full-time course of higher education and who, either during the school year or between semesters, suffer a disabling illness or injury with resultant inability to resume attendance at the institution remain eligible for CHAMPUS medical benefits for 6 months after the disability is removed or until the student passes his or her 23rd birthday, whichever occurs first. However, if recovery occurs before the 23rd birthday and there is resumption of a full-time course of higher education, CHAMPUS benefits can be continued until the 23rd birthday. The normal vacation periods during an established school year do not change the eligibility status of a dependent child 21 or 22 years old in a full time student status. Unless an incapacitating condition existed before, and at the time of, a dependent child’s 21st birthday, a dependent child 21 or 22 years old in student status does not have eligibility and may not qualify for eligibility under the requirements related to mental or physical incapacity as described in paragraph (b)(2)(ii)(H)(2) of this section.

(g) Reinstatement of CHAMPUS eligibility. Circumstances which result in reinstatement of CHAMPUS eligibility are as follows:

(1) End Stage renal disease. Unless CHAMPUS eligibility has been continued under paragraph (f)(3)(viii) of the section, when Medicare eligibility ceases for end-stage renal disease patients, CHAMPUS eligibility resumes if the person is otherwise still eligible. He or she is required to take action to be reinstated as a CHAMPUS beneficiary and to obtain a new identification card.

(2) Disability. Some disabilities are permanent, others temporary. Each case must be reviewed individually. Unless CHAMPUS eligibility has been
continued under paragraph (f)(3)(ix) of this section, when disability ends and Medicare eligibility ceases, CHAMPUS eligibility resumes if the person is otherwise still eligible. Again, he or she is required to take action to obtain a new CHAMPUS identification card.

(h) Determination of eligibility status. Determination of an individual’s eligibility as a CHAMPUS beneficiary is the primary responsibility of the Uniformed Service in which the member or former member is, or was, a member, or in the case of dependents of a NATO military member, the Service that sponsors the NATO member. For the purpose of program integrity, the appropriate Uniformed Service shall, upon request of the Director, OCHAMPUS, review the eligibility of a specific person when there is reason to question the eligibility status. In such cases, a report on the results of the review and any action taken will be submitted to the Director, OCHAMPUS, or a designee.

(i) Procedures for determination of eligibility. Procedures for the determination of eligibility are prescribed within the Department of Defense Instruction 1000.13 available at local military facilities personnel offices.

(1) CHAMPUS procedures for verification of eligibility. (1) Eligibility for CHAMPUS benefits will be verified through the Defense Enrollment Eligibility Reporting System (DEERS) maintained by the Uniformed Services, except for abused dependents as set forth in paragraph (b)(2)(iii) of this section. It is the responsibility of the CHAMPUS beneficiary, or parent, or legal representative, when appropriate, to provide the necessary evidence required for entry into the DEERS file to establish CHAMPUS eligibility and to ensure that all changes in status that may affect eligibility be reported immediately to the appropriate Uniformed Service for action.

(2) Ineligibility for CHAMPUS benefits may be presumed in the absence of prescribed eligibility evidence in the DEERS file.

(3) The Director, OCHAMPUS, shall issue guidelines as necessary to implement the provisions of this section.

§ 199.4 Basic program benefits.

(a) General. The CHAMPUS Basic Program is essentially a supplemental program to the Uniformed Services direct medical care system. The Basic Program is similar to private insurance programs, and is designed to provide financial assistance to CHAMPUS beneficiaries for certain prescribed medical care obtained from civilian sources.

(1)(i) Scope of benefits. Subject to all applicable definitions, conditions, limitations, or exclusions specified in this part, the CHAMPUS Basic Program will pay for medically necessary services and supplies required in the diagnosis and treatment of illness or injury, including maternity care and well-baby care. Benefits include specified medical services and supplies provided to eligible beneficiaries from authorized civilian sources such as hospitals, other authorized institutional providers, physicians, other authorized individual professional providers, and professional ambulance service, prescription drugs, authorized medical supplies, and rental or purchase of durable medical equipment.

(ii) Impact of TRICARE program. The basic program benefits set forth in this section are applicable to the basic CHAMPUS program. In areas in which the TRICARE program is implemented, certain provisions of §199.17 will apply instead of the provisions of this section. In those areas, the provisions of §199.17 will take precedence over any provisions of this section with which they conflict.

(2) Persons eligible for Basic Program benefits. Persons eligible to receive the Basic Program benefits are set forth in §199.3 of this part. Any person determined to be an eligible CHAMPUS beneficiary is eligible for Basic Program benefits.
(3) Authority to act for CHAMPUS. The authority to make benefit determinations and authorize the disbursement of funds under CHAMPUS is restricted to the Director, OCHAMPUS; designated OCHAMPUS staff; Director, OCHAMPUSEUR; or CHAMPUS fiscal intermediaries. No other persons or agents (such as physicians, staff members of hospitals, or CHAMPUS health benefits advisors) have such authority.

(4) Status of patient controlling for purposes of cost-sharing. Benefits for covered services and supplies described in this section will be extended either on an inpatient or outpatient cost-sharing basis in accordance with the status of the patient at the time the covered services and supplies were provided, unless otherwise specifically designated (such as for ambulance service or maternity care). For cost-sharing provisions, refer to paragraph (f) of this section.

(5) Right to information. As a condition precedent to the provision of benefits hereunder, OCHAMPUS or its CHAMPUS fiscal intermediaries shall be entitled to receive information from a physician or hospital or other person, institution, or organization (including a local, state, or U.S. Government agency) providing services or supplies to the beneficiary for which claims or requests for approval for benefits are submitted. Such information and records may relate to the attendance, testing, monitoring, or examination or diagnosis of, or treatment rendered, or services and supplies furnished to a beneficiary, and shall be necessary for the accurate and efficient administration of CHAMPUS benefits. Before a determination will be made on a request for preauthorization or claim of benefits, a beneficiary or sponsor must provide particular additional information relevant to the requested determination, when necessary. The recipient of such information shall in every case hold such records confidential except when:

(i) Disclosure of such information is authorized specifically by the beneficiary;

(ii) Disclosure is necessary to permit authorized governmental officials to investigate and prosecute criminal actions, or (iii) Disclosure is authorized or required specifically under the terms of the Privacy Act or Freedom of Information Act (refer to §199.1(m) of this part).

For the purposes of determining the applicability of and implementing the provisions of §§199.8, 199.11, and 199.12, or any provision of similar purpose of any other medical benefits coverage or entitlement, OCHAMPUS or CHAMPUS fiscal intermediaries may release, without consent or notice to any beneficiary or sponsor, to any person, organization, government agency, provider, or other entity any information with respect to any beneficiary when such release constitutes a routine use published in the FEDERAL REGISTER in accordance with DoD 5400.11–R (Privacy Act (5 U.S.C. 552a)). Before a person’s claim of benefits will be adjudicated, the person must furnish to CHAMPUS information that reasonably may be expected to be in his or her possession and that is necessary to make the benefit determination. Failure to provide the requested information may result in denial of the claim.

(6) Physical examinations. The Director, OCHAMPUS, or a designee, may require a beneficiary to submit to one or more medical (including psychiatric) examinations to determine the beneficiary’s entitlement to benefits for which application has been made or for otherwise authorized medically necessary services and supplies required in the diagnosis or treatment of an illness or injury (including maternity and well-baby care). When a medical examination has been requested, CHAMPUS will withhold payment of any pending claims or preauthorization requests on that particular beneficiary. If the beneficiary refuses to agree to the requested medical examination, or unless prevented by a medical reason acceptable to OCHAMPUS, the examination is not performed within 90 days of initial request, all pending claims for services and supplies will be denied. A denial of payments for services or supplies provided before (and related to) the request for a physical examination is not subject to reconsideration. The medical examination and required beneficiary travel related to performing the
requested medical examination will be at the expense of CHAMPUS. The medical examination may be performed by a physician in a Uniformed Services medical facility or by an appropriate civilian physician, as determined and selected by the Director, OCHAMPUS, or a designee who is responsible for making such arrangements as are necessary, including necessary travel arrangements.

(7) Claims filing deadline. For all services provided on or after January 1, 1993, to be considered for benefits, all claims submitted for benefits must, except as provided in §199.7, be filed with the appropriate CHAMPUS contractor no later than one year after the services are provided. Unless the requirement is waived, failure to file a claim within this deadline waives all rights to benefits for such services or supplies.

(8) Double coverage and third party recoveries. CHAMPUS claims involving double coverage or the possibility that the United States can recover all or a part of its expenses from a third party, are specifically subject to the provisions of §199.8 or §199.12 of this part as appropriate.

(9) Nonavailability Statements within a 40-mile catchment area. In some geographic locations, it is necessary for CHAMPUS beneficiaries not enrolled in TRICARE Prime to determine whether the required medical care can be provided through an Uniformed Services facility. If the required care cannot be provided, the hospital commander, or designee, will issue a Nonavailability Statement (DD Form 1251). Except for emergencies, a Nonavailability Statement should be issued before medical care is obtained from a civilian source. Failure to secure such a statement may waive the beneficiary’s rights to benefits under CHAMPUS.

(i) Rules applicable to issuance of Nonavailability Statement (NAS) (DD Form 1251).

(A) The ASD(HA) is responsible for issuing rules and regulations regarding Nonavailability Statements.

(B) For CHAMPUS beneficiaries who are not enrolled in TRICARE Prime, an NAS is required for services in connection with non-emergency inpatient hospital care and outpatient and inpatient maternity care if such services are available at a facility of the Uniformed Services located within a 40-mile radius of the residence of the beneficiary, except that an NAS is not required for services otherwise available at a facility of the Uniformed Services located within a 40-mile radius of the beneficiary’s residence when another insurance plan or program provides the beneficiary primary coverage for the services. For maternity care, an NAS is required for services related to outpatient prenatal, outpatient or inpatient delivery, and outpatient postpartum care subsequent to the visit that confirms the pregnancy. The requirement for an NAS does not apply to beneficiaries enrolled in TRICARE Prime, even when those beneficiaries use the point-of-service option under §199.17(n)(3).

(C) In addition to NAS requirements set forth in paragraph (a)(9) of this section, additional NAS requirements are established pursuant to paragraph (a)(10) of this section in connection with highly specialized care in national or 200-mile catchment areas of military or civilian STS facilities.

(ii) Beneficiary responsibility. A CHAMPUS beneficiary who is not enrolled in TRICARE Prime is responsible for securing information whether or not he or she resides in a geographic area that requires obtaining a Nonavailability Statement. Information concerning current rules and regulations may be obtained from the Offices of the Army, Navy, and Air Force Surgeons General; or a representative of the TRICARE managed care support contractor’s staff, or the Director, OCHAMPUS.

(iii) Rules in effect at time civilian medical care is provided apply. The applicable rules and regulations regarding Nonavailability Statements in effect at the time the civilian care is rendered apply in determining whether a Nonavailability Statement is required.

(iv) Nonavailability Statement (DD Form 1251) must be filed with applicable claim. When a claim is submitted for CHAMPUS benefits that includes services for which a Nonavailability Statement was issued, a valid Nonavailability Statement authorization must be on DEERS.
(v) Nonavailability Statement (NAS) and Claims Adjudication. A NAS is valid for the adjudication of CHAMPUS claims for all related care otherwise authorized by this part which is received from a civilian source while the beneficiary resided within the Uniformed Service facility catchment area which issued the NAS.

(vi) In the case of any service subject to an NAS requirement under paragraph (a)(9) of this section and also subject to a preadmission (or other pre-service) authorization requirement under §199.4 or §199.15, the administrative processes for the NAS and pre-service authorization may be combined.

(10) Nonavailability Statements in national or 200-mile catchment areas for highly specialized care available in selected military or civilian Specialized Treatment Service Facilities—

(i) Specialized Treatment Service Facilities. STS Facilities may be designated for certain high cost, high technology procedures. The purpose of such designations is to concentrate patient referrals for certain highly specialized procedures which are of relatively low incidence and/or relatively high per-case cost and which require patient concentration to permit resource investment and enhance the effectiveness of quality assurance efforts.

(ii) Designation. Selected military treatment facilities and civilian facilities will be designated by the Assistant Secretary of Defense for Health Affairs as STS Facilities for certain procedures. These designations will be based on the highly specialized capabilities of those selected facilities. For each STS designation for which NASs in national or 200-mile catchment areas will be required, there shall be a determination that total government costs associated with providing the service under the Specialized Treatment Services program will in the aggregate be less than the total government cost of that service under the normal operation of CHAMPUS. There shall also be a determination that the Specialized Treatment Services Facility meets a standard of excellence in quality comparable to that prevailing in other highly specialized medical centers in the nation or region that provide the services involved.

(iii) Organ transplants and similar procedures. For organ transplants and procedures of similar extraordinary specialization, military or civilian STS Facilities may be designated for a nationwide catchment area, covering all 50 states, the District of Columbia and Puerto Rico (or, alternatively, for any portion of such a nationwide area).

(iv) Other highly specialized procedures. For other highly specialized procedures, military or civilian STS Facilities will be designated for catchment areas of up to approximately 200 miles radius. The exact geographical area covered for each STS Facility will be identified by reference to State and local governmental jurisdictions, zip code groups or other method to describe an area within an approximate radius of 200 miles from the facility. In paragraph (a)(10) of this section, this catchment area is referred to as a “200-mile catchment area”.

(v) NAS requirement. For procedures subject to a nationwide catchment area NAS requirement under paragraph (a)(10)(iii) of this section or a 200-mile catchment area NAS requirement under paragraph (a)(10)(iv) of this section, CHAMPUS cost sharing is not allowed unless the services are obtained from a designated civilian Specialized Treatment Services program (as authorized) or an NAS has been issued. This rule is subject to the exceptions set forth in paragraph (a)(10)(vi) of this section. This NAS requirement is a general requirement of the CHAMPUS program.

(vi) Exceptions. Nationwide catchment areas NASs and 200-mile catchment area NASs are not required in any of the following circumstances:

(A) An emergency.

(B) When another insurance plan or program provides the beneficiary primary coverage for the services.

(C) A case-by-case waiver is granted based on a medical judgment made by the commander of the STS Facility (or other person designated for this purpose) that, although the care is available at the facility, it would be medically inappropriate because of a delay
in the treatment or other special reason to require that the STS Facility be used; or

(D) A case-by-case waiver is granted by the commander of the STS Facility (or other person designated for this purpose) that, although the care is available at the facility, use of the facility would impose exceptional hardship on the beneficiary or the beneficiary’s family.

(E) The beneficiary is enrolled in TRICARE Prime.

(vii) Waiver process. A process shall be established for beneficiaries to request a case-by-case waiver under paragraphs (a)(10)(vi) (C) and (D) of this section. This process shall include:

(A) An opportunity for the beneficiary (and/or the beneficiary’s physician) to submit information the beneficiary believes justifies a waiver.

(B) A written decision from a person designated for the purpose on the request for a waiver, including a statement of the reasons for the decision.

(C) An opportunity for the beneficiary to appeal an unfavorable decision to a designated appeal authority not involved in the initial decision; and

(D) A written decision on the appeal, including a statement of the reasons for the decision.

(viii) Notice. The Assistant Secretary of Defense for Health Affairs will annually publish in the FEDERAL REGISTER a notice of all military and civilian STS Facilities, including a listing of the several procedures subject to nationwide catchment area NASs and the highly specialized procedures subject to 200-mile catchment area NASs.

(ix) Specialized procedures. Highly specialized procedures that may be established as subject to 200-mile catchment area NASs are limited to:

(A) Medical and surgical diagnoses requiring inpatient hospital treatment of an unusually intensive nature, documented by a DRG-based payment system weight (pursuant to §199.14(a)(1)) for a single DRG or an aggregated DRG weight for a category of DRGs of at least 2.0 (i.e., treatment is at least two times as intensive as the average CHAMPUS inpatient case).

(B) Diagnostic or therapeutic services, including outpatient services, related to such inpatient categories of treatment.

(C) Other procedures which require highly specialized equipment the cost of which exceeds $1,000,000 (e.g., lithotriptor, positron emission tomography equipment) and such equipment is underutilized in the area; and

(D) Other comparable highly specialized procedures as determined by the Assistant Secretary of Defense for Health Affairs.

(x) Quality standards. Any facility designated as a military or civilian STS Facility under paragraph (a)(10) of this section shall be required to meet quality standards established by the Assistant Secretary of Defense for Health Affairs. In the development of such standards, the Assistant Secretary shall consult with relevant medical specialty societies and other appropriate parties. To the extent feasible, quality standards shall be based on nationally recognized standards.

(xi) NAS procedures. The provisions of paragraphs (a)(9)(ii) through (a)(9)(v) of this section regarding procedures applicable to NASs shall apply to expanded catchment area NASs required by paragraph (a)(10) of this section.

(xii) Travel and lodging expenses. In accordance with guidelines issued by the Assistant Secretary of Defense for Health Affairs, certain travel and lodging expenses associated with services under the Specialized Treatment Services program may be fully or partially reimbursed.

(xiii) Preference for military facility use. In any case in which services subject to an NAS requirement under paragraph (a)(10) of this section are available in both a military STS Facility and from a civilian STS Facility, the military Facility must be used unless use of the civilian Facility is specifically authorized.

(11) Quality and Utilization Review Peer Review Organization program. All benefits under the CHAMPUS program are subject to review under the CHAMPUS Quality and Utilization Review Peer Review Organization program pursuant to §199.15. (Utilization and quality review of mental health
services are also part of the Peer Review Organization program, and are addressed in paragraph (a)(12) of this section.)

(12) Utilization review, quality assurance and reauthorization for inpatient mental health services and partial hospitalization. (i) In general. The Director, OCHAMPUS shall provide, either directly or through contract, a program of utilization and quality review for all mental health care services. Among other things, this program shall include mandatory preadmission authorization before nonemergency inpatient mental health services may be provided and mandatory approval of continuation of inpatient services within 72 hours of emergency admissions. This program shall also include requirements for other pretreatment authorization procedures, concurrent review of continuing inpatient and partial hospitalization, retrospective review, and other such procedures as determined appropriate by the Director, OCHAMPUS. The provisions of paragraph (h) of this section and §199.15(f) shall apply to this program. The Director, OCHAMPUS, shall establish, pursuant to that §199.15(f), procedures substantially comparable to requirements of paragraph (b) of this section and §199.15. If the utilization and quality review program for mental health care services is provided by contract, the contractor(s) need not be the same contractor(s) as are engaged under §199.15 in connection with the review of other services.

(ii) Preadmission authorization. (A) This section generally requires preadmission authorization for all nonemergency inpatient mental health services and prompt continued stay authorization after emergency admissions. It also requires preadmission authorization for all admissions to a partial hospitalization program, without exception, as the concept of an emergency admission does not pertain to a partial hospitalization level of care. This section generally requires preadmission authorization for all nonemergency inpatient mental health services and prompt continued stay authorization after emergency admissions. Institutional services for which payment would otherwise be authorized, but which were provided without compliance with preadmission authorization requirements, do not qualify for the same payment that would be provided if the preadmission requirements had been met.

(B) In cases of noncompliance with preauthorization requirements, a payment reduction shall be made in accordance with §199.15(b)(4)(iii).

(C) For purposes of paragraph (a)(12)(ii)(B) of this section, a day of services without the appropriate preauthorization is any day of services provided prior to:

(1) The receipt of an authorization; or

(2) The effective date of an authorization subsequently received.

(D) Services for which payment is disallowed under paragraph (a)(12)(ii)(B) of this section may not be billed to the patient (or the patient’s family).

(13) Implementing instructions. The Director, OCHAMPUS shall issue policies, procedures, instructions, guidelines, standards and/or criteria to implement this section.

(b) Institutional benefits. (1) General. Services and supplies provided by an institutional provider authorized as set forth in §199.6 may be cost-shared only when such services or supplies: are otherwise authorized by this part; are medically necessary; are ordered, directed, prescribed, or delivered by an OCHAMPUS-authorized individual professional provider as set forth in §199.6 or by an employee of the authorized institutional provider who is otherwise eligible to be a CHAMPUS authorized individual professional provider as set forth in §199.6 or by an employee of the authorized institutional provider who is otherwise eligible to be a CHAMPUS authorized individual professional provider; are delivered in accordance with generally accepted norms for clinical practice in the United States; meet established quality standards; and comply with applicable definitions, conditions, limitations, exceptions, or exclusions as otherwise set forth in this part.

(i) Billing practices. To be considered for benefits under §199.4(b), covered services and supplies must be provided and billed for by a hospital or other authorized institutional provider. Such billings must be fully itemized and sufficiently descriptive to permit...
Office of the Secretary of Defense

§ 199.4

CHAMPUS to determine whether benefits are authorized by this part. Depending on the individual circumstances, teaching physician services may be considered an institutional benefit in accordance with § 199.4(b) or a professional benefit under § 199.4(c). See paragraph (c)(3)(ii) of this section for the CHAMPUS requirements regarding teaching physicians. In the case of continuous care, claims shall be submitted to the appropriate CHAMPUS fiscal intermediary at least every 30 days either by the beneficiary or sponsor or, on a participating basis, directly by the facility on behalf of the beneficiary (refer to § 199.7).

(ii) Successive inpatient admissions. Successive inpatient admissions shall be deemed one inpatient confinement for the purpose of computing the active duty dependent’s share of the inpatient institutional charges, provided not more than 60 days have elapsed between the successive admissions, except that successive inpatient admissions related to a single maternity episode shall be considered one confinement, regardless of the number of days between admissions. For the purpose of applying benefits, successive admissions will be determined separately for maternity admissions and admissions related to an accidental injury (refer to § 199.4(f)).

(iii) Related services and supplies. Covered services and supplies must be rendered in connection with and related directly to a covered diagnosis or definitive set of symptoms requiring otherwise authorized medically necessary treatment.

(iv) Inpatient, appropriate level required. For purposes of inpatient care, the level of institutional care for which Basic Program benefits may be extended must be at the appropriate level required to provide the medically necessary treatment except for patients requiring skilled nursing facility care. For patients for whom skilled nursing facility care is adequate, but is not available in the general locality, benefits may be continued in the higher level care facility. General locality means an area that includes all the skilled nursing facilities within 50 miles of the higher level facility, unless the higher level facility can demonstrate that the skilled nursing facilities are inaccessible to its patients. The decision as to whether a skilled nursing facility is within the higher level facility’s general locality, or the skilled nursing facility is inaccessible to the higher level facility’s patients shall be a CHAMPUS contractor initial determination for the purposes of appeal under § 199.10 of this part. CHAMPUS institutional benefit payments shall be limited to the allowable cost that would have been incurred in the skilled nursing facility, as determined by the Director, OCHAMPUS, or a designee. If it is determined that the institutional care can be provided reasonably in the home setting, no CHAMPUS institutional benefits are payable.

(v) General or special education not covered. Services and supplies related to the provision of either regular or special education generally are not covered. Such exclusion applies whether a separate charge is made for education or whether it is included as a part of an overall combined daily charge of an institution. In the latter instance, that portion of the overall combined daily charge related to education must be determined, based on the allowable costs of the educational component, and deleted from the institution’s charges before CHAMPUS benefits can be extended. The only exception is when appropriate education is not available from or not payable by the cognizant public entity. Each case must be referred to the Director, OCHAMPUS, or a designee, for review and a determination of the applicability of CHAMPUS benefits.

(2) Covered hospital services and supplies—(i) Room and board. Includes special diets, laundry services, and other general housekeeping support services (inpatient only).

(ii) General staff nursing services.

(iii) ICU. Includes specialized units, such as for respiratory conditions, cardiac surgery, coronary care, burn care, or neurosurgery (inpatient only).

(iv) Operating room, recovery room. Operating room and recovery room, including other special treatment rooms and equipment, and hyperbaric chamber.
§ 199.4  

Drugs and medicines. Includes sera, biologicals, and pharmaceutical preparations (including insulin) that are listed in the official formularies of the institution or facility at the time of use. (To be considered as an inpatient supply, drugs and medicines must be consumed during the specific period the beneficiary is a registered inpatient. Drugs and medicines prescribed for use outside the hospital, even though prescribed and obtained while still a registered inpatient, will be considered outpatient supplies and the provisions of paragraph (d) of this section will apply.)

Durable medical equipment, medical supplies, and dressings. Includes durable medical equipment, medical supplies essential to a surgical procedure (such as artificial heart valve and artificial ball and socket joint), sterile trays, casts, and orthopedic hardware. Use of durable medical equipment is restricted to an inpatient basis.

NOTE: If durable medical equipment is to be used on an outpatient basis or continued in outpatient status after use as an inpatient, benefits will be provided as set forth in paragraph (d) of this section and cost-sharing will be on an outpatient basis (refer to paragraph (a)(4) of this section).

Diagnostic services. Includes clinical laboratory examinations, x-ray examinations, pathological examinations, and machine tests that produce hard-copy results. Also includes CT scanning under certain limited conditions.

Anesthesia. Includes both the anesthetic agent and its administration.

Blood. Includes blood, plasma and its derivatives, including equipment and supplies, and its administration.

Radiation therapy. Includes radioisotopes.

Physical therapy.

Oxygen. Includes equipment for its administration.

Intravenous injections. Includes solution.

Shock therapy.

Chemotherapy.

Renal and peritoneal dialysis.

Psychological evaluation tests. When required by the diagnosis.

Other medical services. Includes such other medical services as may be authorized by the Director, OCHAMPUS, or a designee, provided they are related directly to the diagnosis or definitive set of symptoms and rendered by a member of the institution’s medical or professional staff (either salaried or contractual) and billed for by the hospital.

Covered services and supplies provided by special medical treatment institutions or facilities, other than hospitals or RTCs—(i) Room and board. Includes special diets, laundry services, and other general housekeeping support services.

(ii) General staff nursing services.

(iii) Drugs and medicines. Includes sera, biologicals, and pharmaceutical preparations (including insulin) that are listed in the official formularies of the institution or facility at the time of use. (To be considered as an inpatient supply, drugs and medicines must be consumed during the specific period the beneficiary is a registered inpatient. Drugs and medicines prescribed for use outside the authorized institutional provider, even though prescribed and obtained while still a registered inpatient, will be considered outpatient supplies and the provisions of paragraph (d) of this section will apply.).

(iv) Durable medical equipment, medical supplies, and dressings. Includes durable medical equipment, sterile trays, casts, orthopedic hardware and dressings. Use of durable medical equipment is restricted to an inpatient basis.

Note: If the durable medical equipment is to be used on an outpatient basis or continued in outpatient status after use as an inpatient, benefits will be provided as set forth in paragraph (d) of this section, and cost-sharing will be on an outpatient basis (refer to paragraph (a)(4) of this section).

(v) Diagnostic services. Includes clinical laboratory examinations, x-ray examinations, pathological examinations, and machine tests that produce hard-copy results.

Blood. Includes blood, plasma and its derivatives, including equipment and supplies, and its administration.

Physical therapy.

Oxygen. Includes equipment for its administration.

Intravenous injections. Includes solution.

Shock therapy.

Chemotherapy.
(xii) Psychological evaluation tests. When required by the diagnosis.

(xiii) Renal and peritoneal dialysis.

(xiv) Other medical services. Other medical services may be authorized by the Director, OCHAMPUS, or a designee, provided they are related directly to the diagnosis or definitive set of symptoms and rendered by a member of the institution’s medical or professional staff (either salaried or contractual) and billed for by the authorized institutional provider of care.

(4) Services and supplies provided by RTCs—(i) Room and board. Includes use of residential facilities such as food service (including special diets), laundry services, supervised reasonable recreational and social activity services, and other general services as considered appropriate by the Director, OCHAMPUS, or a designee.

(ii) Patient assessment. Includes the assessment of each child or adolescent accepted by the RTC, including clinical consideration of each of his or her fundamental needs, that is, physical, psychological, chronological age, developmental level, family, educational, social, environmental, and recreational.

(iii) Diagnostic services. Includes clinical laboratory examinations, x-ray examinations, pathological examinations, and machine tests that produce hard-copy results.

(iv) Psychological evaluation tests.

(v) Treatment of mental disorders. Services and supplies that are medically or psychologically necessary to diagnose and treat the mental disorder for which the patient was admitted to the RTC. Covered services and requirements for qualifications of providers are as listed in paragraph (c)(3)(ix) of this section.

(vi) Other necessary medical care. Emergency medical services or other authorized medical care may be rendered by the RTC provided it is professionally capable of rendering such services and meets standards required by the Director, OCHAMPUS. It is intended, however, that CHAMPUS payments to an RTC should primarily cover those services and supplies directly related to the treatment of mental disorders that require residential care.

(vii) Criteria for determining medical or psychological necessity. In determining the medical or psychological necessity of services and supplies provided by RTCs, the evaluation conducted by the Director, OCHAMPUS (or designee) shall consider the appropriate level of care for the patient, the intensity of services required by the patient, and the availability of that care. In addition to the criteria set forth in this paragraph (b)(4) of this section, additional evaluation standards, consistent with such criteria, may be adopted by the Director, OCHAMPUS (or designee). RTC services and supplies shall not be considered medically or psychologically necessary unless, at a minimum, all the following criteria are clinically determined in the evaluation to be fully met:

(A) Patient has a diagnosable psychiatric disorder.

(B) Patient exhibits patterns of disruptive behavior with evidence of disturbances in family functioning or social relationships and persistent psychological and/or emotional disturbances.

(C) RTC services involve active clinical treatment under an individualized treatment plan that provides for:

(1) Specific level of care, and measurable goals/objectives relevant to each of the problems identified;

(2) Skilled interventions by qualified mental health professionals to assist the patient and/or family;

(3) Time frames for achieving proposed outcomes; and

(4) Evaluation of treatment progress to include timely reviews and updates as appropriate of the patient’s treatment plan that reflects alterations in the treatment regimen, the measurable goals/objectives, and the level of care required for each of the patient’s problems, and explanations of any failure to achieve the treatment goals/objectives.

(D) Unless therapeutically contraindicated, the family and/or guardian must actively participate in the continuing care of the patient either through direct involvement at the facility or geographically distant family therapy. (In the latter case, the treatment center must document that there has been collaboration with the family and/or guardian in all reviews.)
§ 199.4 (viii) Preauthorization requirement. (A) All admissions to RTC care are elective and must be certified as medically/psychologically necessary prior to admission. The criteria for preauthorization shall be those set forth in paragraph (b)(4)(vii) of this section. In applying those criteria in the context of preauthorization, special emphasis is placed on the development of a specific diagnosis/treatment plan, consistent with those criteria and reasonably expected to be effective, for that individual patient. (B) The timetable for development of the individualized treatment plan shall be as follows:
(1) The plan must be under development at the time of the admission.
(2) A preliminary treatment plan must be established within 24 hours of the admission.
(3) A master treatment plan must be established within ten calendar days of the admission.
(C) The elements of the individualized treatment plan must include:
(1) The diagnostic evaluation that establishes the necessity for the admission;
(2) An assessment regarding the appropriateness of services at a less intensive level of care;
(3) A comprehensive, biopsychosocial assessment and diagnostic formulation;
(4) A specific individualized treatment plan that integrates measurable goals/objectives and their required level of care for each of the patient’s problems that are a focus of treatment;
(5) A specific plan for involvement of family members, unless therapeutically contraindicated; and
(6) A discharge plan, including an objective of referring the patient to further services, if needed, at less intensive levels of care within the benefit limited period.
(D) Preauthorization requests should be made not fewer than two business days prior to the planned admission. In general, the decision regarding preauthorization shall be made within one business day of receipt of a request for preauthorization, and shall be followed with written confirmation. Preauthorizations are valid for the period of time, appropriate to the type of care involved, stated when the preauthorization is issued. In general, preauthorizations are valid for 30 days. (ix) Concurrent review. Concurrent review of the necessity for continued stay will be conducted no less frequently than every 30 days. The criteria for concurrent review shall be those set forth in paragraph (b)(4)(vii) of this section. In applying those criteria in the context of concurrent review, special emphasis is placed on evaluating the progress being made in the active individualized clinical treatment being provided and on developing appropriate discharge plans.
(5) Extent of institutional benefits—(i) Inpatient room accommodations—(A) Semiprivate. The allowable costs for room and board furnished an individual patient are payable for semiprivate accommodations in a hospital or other authorized institution, subject to appropriate cost-sharing provisions (refer to paragraph (f) of this section). A semiprivate accommodation is a room containing at least two beds. Therefore, if a room publicly is designated by the institution as a semiprivate accommodation and contains multiple beds, it qualifies as semiprivate for the purpose of CHAMPUS.
(B) Private. A room with one bed that is designated as a private room by the hospital or other authorized institutional provider. The allowable cost of a private room accommodation is covered only under the following conditions:
(1) When its use is required medically and when the attending physician certifies that a private room is necessary medically for the proper care and treatment of a patient; or
(2) When a patient’s medical condition requires isolation; or
(3) When a patient (in need of immediate inpatient care but not requiring a private room) is admitted to a hospital or other authorized institution that has semiprivate accommodations, but at the time of admission, such accommodations are occupied; or
(4) When a patient is admitted to an acute care hospital (general or special) without semiprivate rooms.
(C) Duration of private room stay. The allowable cost of private accommodations is covered under the circumstances described in paragraph
(b)(5)(i)(B) of this section until the patient's condition no longer requires the private room for medical reasons or medical isolation; or, in the case of the patient not requiring a private room, when a semiprivate accommodation becomes available; or, in the case of an acute care hospital (general or special) which does not have semiprivate rooms, for the duration of an otherwise covered inpatient stay.

(D) Hospital (except an acute care hospital, general or special) or other authorized institutional provider without semiprivate accommodations. When a beneficiary is admitted to a hospital (except an acute care hospital, general or special) or other institution that has no semiprivate accommodations, for any inpatient day when the patient qualifies for use of a private room (as set forth in paragraphs (b)(5)(i)(B)(1) and (2) of this section) the allowable cost of private accommodations is covered. For any inpatient day in such a hospital or other authorized institution when the patient does not require medically the private room, the allowable cost of semiprivate accommodations is covered, such allowable costs to be determined by the Director, OCHAMPUS, or a designee.

(ii) General staff nursing services. General staff nursing services cover all nursing care (other than that provided by private duty nurses) including, but not limited to, general duty nursing, emergency room nursing, recovery room nursing, intensive nursing care, and group nursing arrangements. Only nursing services provided by nursing personnel on the payroll of the hospital or other authorized institution are eligible under paragraph (b) of this section. If a nurse who is not on the payroll of the hospital or other authorized institution is called in specifically to care for a single patient (individual nursing) or more than one patient (group nursing), whether the patient is billed for the nursing services directly or through the hospital or other institution, such services constitute private duty (special) nursing services and are not eligible for benefits under this paragraph (the provisions of paragraph (c)(2)(xv) of this section would apply).

(iv) Treatment rooms. Standard treatment rooms include emergency rooms, operating rooms, recovery rooms, special treatment rooms, and hyperbaric chambers and all related necessary medical staff and equipment. To be recognized for purposes of CHAMPUS, treatment rooms must be so designated and maintained by the hospital or other authorized institutions on a continuing basis. A treatment room set up on an intermittent or temporary basis would not be so recognized.

(v) Drugs and medicines. Drugs and medicines are included as a supply of a hospital or other authorized institution only under the following conditions:

(A) They represent a cost to the facility rendering treatment;

(B) They are furnished to a patient receiving treatment, and are related directly to that treatment; and

(C) They are ordinarily furnished by the facility for the care and treatment of inpatients.

(vi) Durable medical equipment, medical supplies, and dressings. Durable medical equipment, medical supplies, and dressings are included as a supply of a hospital or other authorized institution only under the following conditions:

(A) If ordinarily furnished by the facility for the care and treatment of patients; and
§ 199.4

(B) If specifically related to, and in connection with, the condition for which the patient is being treated; and

(C) If ordinarily furnished to a patient for use in the hospital or other authorized institution (except in the case of a temporary or disposable item); and

(D) Use of durable medical equipment is limited to those items provided while the patient is an inpatient. If such equipment is provided for use on an outpatient basis, the provisions of paragraph (d) of this section apply.

(vii) Transitional use items. Under certain circumstances, a temporary or disposable item may be provided for use beyond an inpatient stay, when such item is necessary medically to permit or facilitate the patient’s departure from the hospital or other authorized institution, or which may be required until such time as the patient can obtain a continuing supply; or it would be unreasonable or impossible from a medical standpoint to discontinue the patient’s use of the item at the time of termination of his or her stay as an inpatient.

(viii) Anesthetics and oxygen. Anesthetics and oxygen and their administration are considered a service or supply if furnished by the hospital or other authorized institution, or by others under arrangements made by the facility under which the billing for such services is made through the facility.

(6) Inpatient mental health services. Inpatient mental health services are those services furnished by institutional and professional providers for treatment of a nervous or mental disorder (as defined in §199.2) to a patient admitted to a CHAMPUS-authorized acute care general hospital; a psychiatric hospital; or, unless otherwise exempted, a special institutional provider.

(i) Criteria for determining medical or psychological necessity. In determining the medical or psychological necessity of acute inpatient mental health services, the evaluation conducted by the Director, OCHAMPUS (or designee) shall consider the appropriate level of care for the patient, the intensity of services required by the patient, and the availability of that care. The purpose of such acute inpatient care is to stabilize a life-threatening or severely disabling condition within the context of a brief, intensive model of inpatient care in order to permit management of the patient’s condition at a less intensive level of care. Such care is appropriate only if the patient requires services of an intensity and nature that are generally recognized as being effectively and safely provided only in an acute inpatient hospital setting. In addition to the criteria set forth in this paragraph (b)(6) of this section, additional evaluation standards, consistent with such criteria, may be adopted by the Director, OCHAMPUS (or designee). Acute inpatient care shall not be considered necessary unless the patient needs to be observed and assessed on a 24-hour basis by skilled nursing staff, and/or requires continued intervention by a multidisciplinary treatment team; and in addition, at least one of the following criteria is determined to be met:

(A) Patient poses a serious risk of harm to self and/or others.

(B) Patient is in need of high dosage, intensive medication or somatic and/or psychological treatment, with potentially serious side effects.

(C) Patient has acute disturbances of mood, behavior, or thinking.

(ii) Emergency admissions. Admission to an acute inpatient hospital setting may be on an emergency or on a non-emergency basis. In order for an admission to qualify as an emergency, the following criteria, in addition to those in paragraph (b)(6)(i) of this section, must be met:

(A) The patient must be at immediate risk of serious harm to self and or others based on a psychiatric evaluation performed by a physician (or other qualified mental health professional with hospital admission authority); and

(B) The patient requires immediate continuous skilled observation and treatment at the acute psychiatric level of care.

(iii) Preauthorization requirements. (A) All non-emergency admissions to an acute inpatient hospital level of care must be authorized prior to the admission. The criteria for preauthorization shall be those set forth in paragraph
Office of the Secretary of Defense

§ 199.4

(b)(6)(i) of this section. In applying those criteria in the context of preauthorization review, special emphasis is placed on the development of a specific individualized treatment plan, consistent with those criteria and reasonably expected to be effective, for that individual patient.

(B) The timetable for development of the individualized treatment plan shall be as follows:

(1) The development of the plan must begin immediately upon admission.

(2) A preliminary treatment plan must be established within 24 hours of the admission.

(3) A master treatment plan must be established within five calendar days of the admission.

(C) The elements of the individualized treatment plan must include:

(1) The diagnostic evaluation that establishes the necessity for admission;

(2) An assessment regarding the appropriateness of services at a less intensive level of care;

(3) A comprehensive biopsychosocial assessment and diagnostic formulation;

(4) A specific individualized treatment plan that integrates measurable goals/objectives and their required level of care for each of the patient’s problems that are a focus of treatment;

(5) A specific plan for involvement of family members, unless therapeutically contraindicated; and

(6) A discharge plan, including an objective of referring the patient to further services, if needed, at less intensive levels of care within the benefit limit period.

(D) The request for preauthorization must be received by the reviewer designated by the Director, OCHAMPUS prior to the planned admission. In general, the decision regarding preauthorization shall be made within one business day of receipt of a request for preauthorization, and shall be followed with written confirmation. In the case of an authorization issued after an admission resulting from approval of a request made prior to the admission, the effective date of the certification shall be the date of the receipt of the request. However, if the request on which the approved authorization is based was made after the admission (and the case was not an emergency admission), the effective date of the authorization shall be the date of approval.

(E) Authorization prior to admission is not required in the case of a psychiatric emergency requiring an inpatient acute level of care, but authorization for a continuation of services must be obtained promptly. Admissions resulting from a bona fide psychiatric emergency should be reported within 24 hours of the admission or the next business day after the admission, but must be reported to the Director, OCHAMPUS or a designee, within 72 hours of the admission. In the case of an emergency admission authorization resulting from approval of a request made within 72 hours of the admission, the effective date of the authorization shall be the date of the admission. However, if it is determined that the case was not a bona fide psychiatric emergency admission (but the admission can be authorized as medically or psychologically necessary), the effective date of the authorization shall be the date of the receipt of the request.

(iv) Concurrent review. Concurrent review of the necessity for continued stay will be conducted. The criteria for concurrent review shall be those set forth in paragraph (b)(6)(i) of this section. In applying those criteria in the context of concurrent review, special emphasis is placed on evaluating the progress being made in the active clinical treatment being provided and on developing/refining appropriate discharge plans. In general, the decision regarding concurrent review shall be made within one business day of the review, and shall be followed with written confirmation.

(7) Emergency inpatient hospital services. In the case of a medical emergency, benefits can be extended for medically necessary inpatient services and supplies provided to a beneficiary by a hospital, including hospitals that do not meet CHAMPUS standards or comply with the provisions of title VI of the Civil Rights Act, or satisfy other conditions herein set forth. In a medical emergency, medically necessary inpatient services and supplies are those that are necessary to prevent the death or serious impairment of the
§ 199.4  32 CFR Ch. I (7–1–02 Edition)

health of the patient, and that, because of the threat to the life or health of the patient, necessitate, the use of the most accessible hospital available and equipped to furnish such services. The availability of benefits depends upon the following three separate findings and continues only as long as the emergency exists, as determined by medical review. If the case qualified as an emergency at the time of admission to an unauthorized institutional provider and the emergency subsequently is determined no longer to exist, benefits will be extended up through the date of notice to the beneficiary and provider that CHAMPUS benefits no longer are payable in that hospital.

(i) Existence of medical emergency. A determination that a medical emergency existed with regard to the patient's condition;

(ii) Immediate admission required. A determination that the condition causing the medical emergency required immediate admission to a hospital to provide the emergency care; and

(iii) Closest hospital utilized. A determination that diagnosis or treatment was received at the most accessible (closest) hospital available and equipped to furnish the medically necessary care.

(8) RTC day limit. (i) With respect to mental health services provided on or after October 1, 1991, benefits for residential treatment are generally limited to 150 days in a fiscal year or 150 days in an admission (not including days of care prior to October 1, 1991). The RTC benefit limit is separate from the benefit limit for acute inpatient mental health care.

(ii) Waiver of the RTC day limit. (A) There is a statutory presumption against the appropriateness of residential treatment services in excess of the 150 day limit. However, the Director, OCHAMPUS, (or designee) may in special cases, after considering the opinion of the peer review designated by the Director (including a health professional who is not a federal employee) confirming that applicable criteria have been met, waive the RTC benefit limit in paragraph (b)(8)(i) of this section and authorize payment for care beyond that limit.

(B) The criteria for waiver shall be those set forth in paragraph (b)(4)(vii) of this section. In applying those criteria to the context of waiver request reviews, special emphasis is placed on assuring that the record documents that:

(1) Active treatment has taken place for the past 150 days and substantial progress has been made according to the plan of treatment.

(2) The progress made is insufficient, due to the complexity of the illness, for the patient to be discharged to a less intensive level of care.

(3) Specific evidence is presented to explain the factors which interfered with treatment progress during the 150 days of RTC care.

(4) The waiver request includes specific timeframes and a specific plan of treatment which will lead to discharge.

(C) Where family or social issues complicate transfer to a lower level of intensity, the RTC is responsible for determining and arranging the supportive and adjunctive resources required to permit appropriate transfer. If the RTC fails adequately to meet this responsibility, the existence of such family or social issues shall be an inadequate basis for a waiver of the benefit limit.

(D) It is the responsibility of the patient's primary care provider to establish, through actual documentation from the medical record and other sources, that the conditions for waiver exist.

(iii) RTC day limits do not apply to services provided under the Program for Persons with Disabilities (§199.5) or services provided as partial hospitalization care.

(9) Acute care day limits. (i) With respect to mental health care services provided on or after October 1, 1991, payment for inpatient acute hospital care is, in general, statutorily limited as follows:

(A) Adults, aged 19 and over—30 days in a fiscal year or 30 days in an admission (excluding days provided prior to October 1, 1991).

(B) Children and adolescents, aged 18 and under—45 days in a fiscal year or 45 days in an admission (excluding days provided prior to October 1, 1991).
(ii) It is the patient’s age at the time of admission that determines the number of days available.

(iii) **Waiver of the acute care day limits.**

(A) There is a statutory presumption against the appropriateness of inpatient acute services in excess of the day limits set forth in paragraph (b)(9)(i) of this section. However, the Director, OCHAMPUS (or designee) may in special cases, after considering the opinion of the peer review designated by the Director (involving a health professional who is not a federal employee) confirming that applicable criteria have been met, waive the acute inpatient limits described in paragraph (b)(9)(i) of this section and authorize payment for care beyond those limits.

(B) The criteria for waiver of the acute inpatient limit shall be those set forth in paragraph (b)(6)(i) of this section. In applying those criteria in the context of waiver request review, special emphasis is placed on determining whether additional days of acute inpatient mental health care are medically/psychologically necessary to complete necessary elements of the treatment plan prior to implementing appropriate discharge planning. A waiver may also be granted in cases in which a patient exhibits well-documented new symptoms, maladaptive behavior, or medical complications which have appeared in the inpatient setting requiring a significant revision to the treatment plan.

(C) The clinician responsible for the patient’s care is responsible for documenting that a waiver criterion has been met and must establish an estimated length of stay beyond the date of the inpatient limit. There must be evidence of a coherent and specific plan for assessment, intervention and reassessment that reasonably can be accomplished within the time frame of the additional days of coverage requested under the waiver provision.

(D) For patients in care at the time the inpatient limit is reached, a waiver must be requested prior to the limit. For patients being readmitted after having received 30 or 45 days in the fiscal year, the waiver review will be conducted at the time of the preadmission authorization.

(iv) **Acute care day limits do not apply to services provided under the Program for Persons with Disabilities (§199.5) or services provided as partial hospitalization care.**

(10) **Psychiatric partial hospitalization services.**

(i) **In general.** Partial hospitalization services are those services furnished by a CHAMPUS-authorized partial hospitalization program and authorized mental health providers for the active treatment of a mental disorder. All services must follow a medical model and vest patient care under the general direction of a licensed psychiatrist employed by the partial hospitalization center to ensure medication and physical needs of all the patients are considered. The primary or attending provider must be a CHAMPUS authorized mental health provider, operating within the scope of his/her license. These categories include physicians, clinical psychologists, certified psychiatric nurse specialists, clinical social workers, marriage and family counselors, pastoral counselors and mental health counselors. Partial hospitalization services are covered as a basic program benefit only if they are provided in accordance with paragraph (b)(10) of this section.

(ii) **Criteria for determining medical or psychological necessity of psychiatric partial hospitalization services.** Psychiatric partial hospitalization services will be considered necessary only if all of the following conditions are present:

(A) The patient is suffering significant impairment from a mental disorder (as defined in §199.2) which interferes with age appropriate functioning.

(B) The patient is unable to maintain himself or herself in the community, with appropriate support, at a sufficient level of functioning to permit an adequate course of therapy exclusively on an outpatient basis (but is able, with appropriate support, to maintain a basic level of functioning to permit partial hospitalization services and presents no substantial imminent risk of harm to self or others).

(C) The patient is in need of crisis stabilization, treatment of partially stabilized mental health disorders, or services as a transition from an inpatient program.
(D) The admission into the partial hospitalization program is based on the development of an individualized diagnosis and treatment plan expected to be effective for that patient and permit treatment at a less intensive level.

(iii) Preauthorization and concurrent review requirements. All preadmission authorization and concurrent review requirements and procedures applicable to acute mental health inpatient hospital care in paragraphs (a)(12) and (b) of this section are applicable to the partial hospitalization program, except that the criteria for considering medical or psychological necessity shall be those set forth in paragraph (b)(10)(ii) of this section, and no emergency admissions will be recognized.

(iv) Institutional benefits limited to 60 days. Benefits for institutional services for partial hospitalization are limited to 60 treatment days (whether a full day or partial day program) in a fiscal year or in an admission. This limit may be extended by waiver.

(v) Waiver of the 60-day partial hospitalization program limit. The Director, OCHAMPUS (or designee) may, in special cases, waive the 60-day partial hospitalization benefit and authorize payment for care beyond the 60-day limit.

(A) the criteria for waiver are set forth in paragraph (b)(10)(ii) of this section. In applying these criteria in the context of waiver request review, special emphasis is placed on determining whether additional days of partial hospitalization are medically/psychologically necessary to complete essential elements of the treatment plan prior to discharge. Consideration is also given in cases in which a patient exhibits well-documented new symptoms or maladaptive behaviors which have appeared in the partial hospitalization setting requiring significant revisions to the treatment plan.

(B) The clinician responsible for the patient’s care is responsible for documenting the need for additional days and must establish an estimated length of stay beyond the date of the 60-day limit. There must be evidence of a coherent and specific plan for assessment, intervention and reassessment that reasonably can be accomplished within the time frame of the additional days of coverage requested under the waiver provisions.

(C) For patients in care at the time the partial hospitalization program limit is reached, a waiver must be requested prior to the limit. For patients being preadmitted after having received 60 days in the fiscal year, the waiver review will be conducted at the time of the preadmission authorization.

(vi) Services and supplies. The following services and supplies are included in the per diem rate approved for an authorized partial hospitalization program:

(A) Board. Includes use of the partial hospital facilities such as food service, supervised therapeutically constructed recreational and social activities, and other general services as considered appropriate by the Director, OCHAMPUS, or a designee.

(B) Patient assessment. Includes the assessment of each individual accepted by the facility, and must, at a minimum, consist of a physical examination; psychiatric examination; psychological assessment; assessment of physiological, biological and cognitive processes; developmental assessment; family history and assessment; social history and assessment; educational or vocational history and assessment; environmental assessment; and recreational/activities assessment. Assessments conducted within 30 days prior to admission to a partial program may be used if approved and deemed adequate to permit treatment planning by the partial hospital program.

(C) Psychological testing.

(D) Treatment services. All services, supplies, equipment and space necessary to fulfill the requirements of each patient’s individualized diagnosis and treatment plan (with the exception of the five psychotherapy sessions per week which may be allowed separately for individual or family psychotherapy based upon the provisions of paragraph (b)(10)(vii) of this section). All mental health services must be provided by a CHAMPUS authorized individual professional provider of mental health services. (Exception: PHPs that employ individuals with master’s or doctoral level degrees in a mental health discipline who do not meet the licensure,
Office of the Secretary of Defense

§ 199.4

Certification and experience requirements for a qualified mental health provider but are actively working toward licensure or certification, may provide services within the all-inclusive per diem rate but the individual must work under the clinical supervision of a fully qualified mental health provider employed by the PHP.

(vii) Social services required. The facility must provide an active social services component which assures the patient appropriate living arrangements after treatment hours, transportation to and from the facility, arrangement of community based support services, referral of suspected child abuse to the appropriate state agencies, and effective after care arrangements, at a minimum.

(viii) Educational services required. Programs treating children and adolescents must ensure the provision of a state certified educational component which assures that patients do not fall behind in educational placement while receiving partial hospital treatment. CHAMPUS will not fund the cost of educational services separately from the per diem rate. The hours devoted to education do not count toward the therapeutic half or full day program.

(ix) Family therapy required. The facility must ensure the provision of an active family therapy treatment component which assures that each patient and family participate at least weekly in family therapy provided by the institution and rendered by a CHAMPUS authorized individual professional provider of mental health services. There is no acceptable substitute for family therapy. An exception to this requirement may be granted on a case-by-case basis by the Director, OCHAMPUS, or designee, only if family therapy is clinically contraindicated.

(x) Professional mental health benefits limited. Professional mental health benefits are limited to a maximum of one session (60 minutes individual, 90 minutes family) per authorized treatment day not to exceed five sessions in any calendar week. These may be billed separately from the partial hospitalization per diem rate only when rendered by an attending, CHAMPUS-authorized mental health professional who is not an employee of, or under contract with, the partial hospitalization program for purposes of providing clinical patient care.

(xi) Non-mental health related medical services. Separate billing will be allowed for otherwise covered, non-mental health related medical services.

(c) Professional services benefit—(1) General. Benefits may be extended for those covered services described in paragraph (c) of this section that are provided in accordance with good medical practice and established standards of quality by physicians or other authorized individual professional providers, as set forth in §199.6 of this part. Such benefits are subject to all applicable definitions, conditions, exceptions, limitations, or exclusions as maybe otherwise set forth in this or other Sections of this part. Except as otherwise specifically authorized, to be considered for benefits under paragraph (c) of this section, the described services must be rendered by a physician, or prescribed, ordered, and referred medically by a physician to other authorized individual professional providers. Further, except under specifically defined circumstances, there should be an attending physician in any episode of care. (For example, certain services of a clinical psychologist are exempt from this requirement. For these exceptions, refer to §199.6.)

(i) Billing practices. To be considered for benefits under paragraph (c) of this section, covered professional services must be performed personally by the physician or other authorized individual professional provider, who is other than a salaried or contractual staff member of a hospital or other authorized institution, and who ordinarily and customarily bills on a fee-for-service basis for professional services rendered. Such billings must be itemized fully and be sufficiently descriptive to permit CHAMPUS to determine whether benefits are authorized by this part. See paragraph (c)(3)(xiii) of this section for the requirements regarding the special circumstances for teaching physicians. For continuing professional care, claims should be submitted to the appropriate CHAMPUS fiscal intermediary at least every 30 days either by the beneficiary or sponsor, or directly by the physician.
other authorized individual professional provider on behalf of a beneficiary (refer to §199.7).

(ii) Services must be related. Covered professional services must be rendered in connection with and directly related to a covered diagnosis or definitive set of symptoms requiring medically necessary treatment.

(2) Covered services of physicians and other authorized profession providers.

(i) Surgery. Surgery means operative procedures, including related preoperative and postoperative care; reduction of fractures and dislocations; injection and needleling procedures of the joints; laser surgery of the eye; and the following procedures:

- Bronchoscopy
- Laryngoscopy
- Thoracoscopy
- Catheterization of the heart
- Arteriograph thoracic lumbar
- Esophagoscopy
- Gastroscopy
- Proctoscopy
- Sigmoidoscopy
- Peritoneoscopy
- Cystoscopy
- Colonoscopy
- Upper G.I. panendoscopy
- Encephalograph
- Myelography
- Discography
- Visualization of intracranial aneurysm by intracarotid injection of dye, with exposure of carotid artery, unilateral
- Ventriculography
- Insufflation of uterus and fallopian tubes for determination of tubal patency (Rubin’s test of injection of radiopaque medium or for dilation)
- Introduction of opaque media into the cranial arterial system, preliminary to cerebral arteriography, or into vertebral and subclavian systems
- Intraaarial introduction of air preliminary to pneumoencephalography
- Intraaarial introduction of opaque media preliminary to myelography
- Intraventricular introduction of air preliminary to ventriculography

NOTE: The Director, OCHAMPUS, or a designee, shall determine such additional procedures that may fall within the intent of this definition of “surgery.”

(ii) Surgical assistance.

(iii) Inpatient medical services.

(iv) Outpatient medical services.

(v) Psychiatric services.

(vi) Consultation services.

(vii) Anesthesia services.

(viii) Radiation therapy services.

(ix) X-ray services.

(x) Laboratory and pathological services.

(xi) Physical medicine services or physiatry services.

(xii) Maternity care.

(xiii) Well-child care.

(xiv) Other medical care. Other medical care includes, but is not limited to, hemodialysis, inhalation therapy, shock therapy, and chemotherapy. The Director, OCHAMPUS, or a designee, shall determine those additional medical services for which benefits may be extended under this paragraph.

NOTE: A separate professional charge for the oral administration of approved antineoplastic drugs is not covered.

(xv) Private duty (special) nursing services.

(xvi) Routine eye examinations. Coverage for routine eye examinations is limited to dependents of active duty members, to one examination per calendar year per person, and to services rendered on or after October 1, 1984, except as provided under paragraph (c)(3)(xi) of this section.

(3) Extent of professional benefits—

(i) Multiple Surgery. In cases of multiple surgical procedures performed during the same operative session, benefits shall be extended as follows:

(A) One hundred (100) percent of the CHAMPUS-determined allowable charge for the major surgical procedure (the procedure for which the greatest amount is payable under the applicable reimbursement method); and

(B) Fifty (50) percent of the CHAMPUS-determined allowable charge for each of the other surgical procedures;

(C) Except that:

(I) If the multiple surgical procedures involve the fingers or toes, benefits for the first surgical procedure shall be at one hundred (100) percent of the CHAMPUS-determined allowable charge; the second procedure at fifty (50) percent; and the third and subsequent procedures at twenty-five (25) percent.

(2) If the multiple surgical procedures include an incidental procedure, no benefits shall be allowed for the incidental procedure.
If the multiple surgical procedures involve specific procedures identified by the Director, OCHAMPUS, benefits shall be limited as set forth in CHAMPUS instructions.

(ii) Different types of inpatient care, concurrent. If a beneficiary receives inpatient medical care during the same admission in which he or she also receives surgical care or maternity care, the beneficiary shall be entitled to the greater of the CHAMPUS-determined allowable charge for either the inpatient medical care or surgical or maternity care received, as the case may be, but not both; except that the provisions of this paragraph (c)(3)(ii) shall not apply if such inpatient medical care is for a diagnosed condition requiring inpatient medical care not related to the condition for which surgical care or maternity care is received, and is received from a physician other than the one rendering the surgical care or maternity care.

Note: This provision is not meant to imply that when extra time and special effort are required due to postsurgical or postdelivery complications, the attending physician may not request special consideration for a higher than usual charge.

(iii) Need for surgical assistance. Surgical assistance is payable only when the complexity of the procedure warrants a surgical assistant (other than the surgical nurse or other such operating room personnel), subject to utilization review. In order for benefits to be extended for surgical assistance service, the primary surgeon may be required to certify in writing to the nonavailability of a qualified intern, resident, or other house physician. When a claim is received for a surgical assistant involving the following circumstances, special review is required to ascertain whether the surgical assistance service meets the medical necessity and other requirements of paragraph (c) of this section.

(A) If the surgical assistance occurred in a hospital that has a residency program in a specialty appropriate to the surgery;
(B) If the surgery was performed by a team of surgeons;
(C) If there were multiple surgical assistants; or
(D) If the surgical assistant was a partner of or from the same group of practicing physicians as the attending surgeon.

(iv) Aftercare following surgery. Except for those diagnostic procedures classified as surgery in paragraph (c) of this section, and injection and needleling procedures involving the joints, the benefit payments made for surgery (regardless of the setting in which it is rendered) include normal aftercare, whether the aftercare is billed for by the physician or other authorized individual professional provider on a global, all-inclusive basis, or billed for separately.

(v) Cast and sutures, removal. The benefit payments made for the application of a cast or of sutures normally covers the postoperative care including the removal of the cast or sutures. When the application is made in one geographical location and the removal of the cast or sutures must be done in another geographical location, a separate benefit payment may be provided for the removal. The intent of this provision is to provide a separate benefit only when it is impracticable for the beneficiary to use the services of the provider that applied the cast originally. Benefits are not available for the services of a second provider if those services reasonably could have been rendered by the individual professional provider who applied the cast or sutures initially.

(vi) Inpatient care, concurrent. Concurrent inpatient care by more than one individual professional provider is covered if required because of the severity and complexity of the beneficiary’s condition or because the beneficiary has multiple conditions that require treatment by providers of different specialties. Any claim for concurrent care must be reviewed before extending benefits in order to ascertain the condition of the beneficiary at the time the concurrent care was rendered. In the absence of such determination, benefits are payable only for inpatient care rendered by one attending physician or other authorized individual professional provider.

(vii) Consultants who become the attending surgeon. A consultation performed within 3 days of surgery by the attending physician is considered a
§ 199.4 32 CFR Ch. I (7–1–02 Edition)

preoperative examination. Preoperative examinations are an integral part of the surgery and a separate benefit is not payable for the consultation. If more than 3 days elapse between the consultation and surgery (performed by the same physician), benefits may be extended for the consultation, subject to review.

(viii) Anesthesia administered by the attending physician. A separate benefit is not payable for anesthesia administered by the attending physician (surgeon or obstetrician) or dentist, or by the surgical, obstetrical, or dental assistant.

(ix) Treatment of mental disorders. CHAMPUS benefits for the treatment of mental disorders are payable for beneficiaries who are outpatients or inpatients of CHAMPUS-authorized general or psychiatric hospitals, RTCs, or specialized treatment facilities, as authorized by the Director, OCHAMPUS, or a designee. All such services are subject to review for medical or psychological necessity and for quality of care. The Director, OCHAMPUS, reserves the right to require preauthorization of mental health services. Preauthorization may be conducted by the Director, OCHAMPUS, or a designee. In order to qualify for CHAMPUS mental health benefits, the patient must be diagnosed by a CHAMPUS-authorized licensed, qualified mental health professional to be suffering from a mental disorder, according to the criteria listed in the most current edition of the Diagnostic and Statistical Manual of Mental Disorders which may be purchased from the American Psychiatric Press, Inc., 1400 K Street, NW., suite 1101, Washington, DC 20005. Benefits are limited for certain mental disorders, such as specific developmental disorders. No benefits are payable for “Conditions Not Attributable to a Mental Disorder,” or V codes. In order for treatment of a mental disorder to be medically or psychologically necessary, the patient must, as a result of a diagnosed mental disorder, be experiencing both physical or psychological distress and an impairment in his or her ability to function in appropriate occupational, educational or social roles. It is generally the degree to which the patient’s ability to function is impaired that determines the level of care (if any) required to treat the patient’s condition.

(A) Covered diagnostic and therapeutic services. Subject to the requirements and limitations stated, CHAMPUS benefits are payable for the following services when rendered in the diagnosis or treatment of a covered mental disorder by a CHAMPUS-authorized, qualified mental health provider practicing within the scope of his or her license. Qualified mental health providers are: psychiatrists or other physicians; clinical psychologists, certified psychiatric nurse specialists, clinical social workers, and certified marriage and family therapists; and pastoral and mental health counselors under a physician’s supervision. No payment will be made for any service listed in paragraph (c)(3)(ix)(A) of this section rendered by an individual who does not meet the criteria of §199.6 for his or her respective profession, regardless of whether the provider is an independent professional provider or an employee of an authorized professional or institutional provider.

(1) Individual psychotherapy, adult or child. A covered individual psychotherapy session is no more than 60 minutes in length. An individual psychotherapy session of up to 120 minutes in length is payable for crisis intervention.

(2) Group psychotherapy. A covered group psychotherapy session is no more than 90 minutes in length.

(3) Family or conjoint psychotherapy. A covered family or conjoint psychotherapy session is no more than 90 minutes in length. A family or conjoint psychotherapy session of up to 180 minutes in length is payable for crisis intervention.

(4) Psychoanalysis. Psychoanalysis is covered when provided by a graduate or candidate of a psychoanalytic training institution recognized by the American Psychoanalytic Association and when preauthorized by the Director, OCHAMPUS, or a designee.

(5) Psychological testing and assessment. Psychological testing and assessment is generally limited to six hours of testing in a fiscal year when medically or psychologically necessary and in conjunction with otherwise covered...
psychotherapy. Testing or assessment in excess of these limits requires review for medical necessity. Benefits will not be provided for the Reitan-Indiana battery when administered to a patient under age five, for self-administered tests administered to patients under age 13, or for psychological testing and assessment as part of an assessment for academic placement.

(6) Administration of psychotropic drugs. When prescribed by an authorized provider qualified by licensure to prescribe drugs.

(7) Electroconvulsive treatment. When provided in accordance with guidelines issued by the Director, OCHAMPUS.

(8) Collateral visits. Covered collateral visits are those that are medically or psychologically necessary for the treatment of the patient and, as such, are considered as a psychotherapy session for purposes of paragraph (c)(3)(ix)(B) of this section.

(B) Limitations and review requirements—

(1) Outpatient psychotherapy. Outpatient psychotherapy generally is limited to a maximum of two psychotherapy sessions per week, in any combination of individual, family, conjoint, collateral, or group sessions. Before benefits can be extended for more than two outpatient psychotherapy sessions per week, professional review of the medical or psychological necessity for and appropriateness of the more intensive therapy is required.

(2) Inpatient psychotherapy. Coverage of inpatient psychotherapy is based on medical or psychological necessity for the services identified in the patient's treatment plan. As a general rule, up to five psychotherapy sessions per week are considered appropriate when specified in the treatment as necessary to meet certain measurable/observable goals and objectives. Additional sessions per week or more than one type of psychotherapy sessions performed on the same day (for example, an individual psychotherapy session and a family psychotherapy session on the same day) could be considered for coverage, depending on the medical or psychological necessity for the services. Benefits for inpatient psychotherapy will end automatically when authorization has been granted for the maximum number of inpatient mental health days in accordance with the limits as described in this section, unless additional coverage is granted by the Director, OCHAMPUS or a designee.

(C) Covered ancillary therapies. Includes art, music, dance, occupational, and other ancillary therapies, when included by the attending provider in an approved inpatient, residential treatment plan and under the clinical supervision of a licensed doctoral level mental health professional. These ancillary therapies are not separately reimbursed professional services but are included within the institutional reimbursement.

(D) Review of claims for treatment of mental disorder. The Director, OCHAMPUS, shall establish and maintain procedures for review, including professional review, of the services provided for the treatment of mental disorders.

(x) Physical and occupational therapy. Assessment and treatment services of a CHAMPUS-authorized physical or occupational therapist may be cost-shared when:

(A) The services are prescribed and monitored by a physician;

(B) The purpose of the prescription is to reduce the disabling effects of an illness, injury, or neuromuscular disorder; and

(C) The prescribed treatment increases, stabilizes, or slows the deterioration of the beneficiary's ability to perform specified purposeful activity in the manner, or within the range considered normal, for a human being.

(xi) Well-child care. Benefits routinely are covered for well-child care from birth to under six years of age. These periodic health examinations are designed for prevention, early detection and treatment of disease and consist of screening procedures, immunizations and risk counseling.

(A) The following services are covered when required as a part of the specific well-child care program and when rendered by the attending pediatrician, family physician, certified nurse practitioner, or certified physician assistant.

(1) Newborn examination, heredity and metabolic screening, and newborn circumcision.
§ 199.4

(2) Periodic health supervision visits, in accordance with American Academy of Pediatrics (AAP) guidelines, intended to promote the optimal health for infants and children to include the following services:

(i) History and physical examination and mental health assessment.

(ii) Vision, hearing, and dental screening.

(iii) Developmental appraisal to include body measurement.

(iv) Immunizations as recommended by the Centers for Disease Control (CDC).

(v) Pediatric risk assessment for lead exposure and blood lead level test.

(vi) Tuberculosis screening.

(vii) Blood pressure screening.

(viii) Measurement of hemoglobin and hematocrit for anemia.

(ix) Urinalysis.

(x) Health guidance and counseling, including breastfeeding and nutrition counseling.

(B) Additional services or visits required because of specific findings or because the particular circumstances of the individual case are covered if medically necessary and otherwise authorized for benefits under CHAMPUS.

(C) The Deputy Assistant Secretary of Defense, Health Services Financing, will determine when such services are separately reimbursable apart from the health supervision visit.

(xii) Private duty (special) nursing. Benefits are available for the skilled nursing services rendered by a private duty (special) nurse to a beneficiary requiring intensive skilled nursing care that can only be provided with the technical proficiency and scientific skills of an R.N. The specific skilled nursing services being rendered are controlling, not the condition of the patient or the professional status of the private duty (special) nurse rendering the services.

(A) Inpatient private duty (special) nursing services are limited to those rendered to an inpatient in a hospital that does not have an ICU. In addition, under specified circumstances, private duty (special) nursing in the home setting also is covered.

(B) The private duty (special) nursing care must be ordered and certified to be medically necessary by the attending physician.

(C) The skilled nursing care must be rendered by a private duty (special) nurse who is neither a member of the immediate family nor is a member of the beneficiary’s household.

(D) Private duty (special) nursing care does not, except incidentally, include providing services that provide or support primarily the essentials of daily living or acting as a companion or sitter.

(E) If the private duty (special) nursing care services being performed are primarily those that could be rendered by the average adult with minimal instruction or supervision, the services would not qualify as covered private duty (special) nursing services, regardless of whether performed by an R.N., regardless of whether or not ordered and certified to by the attending physician, and regardless of the condition of the patient.

(F) In order for such services to be considered for benefits, a private duty (special) nurse is required to maintain detailed daily nursing notes, whether the case involves inpatient nursing service or nursing services rendered in the home setting.

(G) Claims for continuing private duty (special) nursing care shall be submitted at least every 30 days. Each claim will be reviewed and the nursing care evaluated whether it continues to be appropriate and eligible for benefits.

(H) In most situations involving private duty (special) nursing care rendered in the home setting, benefits will be available only for a portion of the care, that is, providing benefits only for that time actually required to perform medically necessary skilled nursing services. If full-time private duty (special) nursing services are engaged, usually for convenience or to provide personal services to the patient, CHAMPUS benefits are payable only for that portion of the day during which skilled nursing services are rendered, but in no event is less than 1 hour of nursing care payable in any 24-hour period during which skilled nursing services are determined to have been rendered. Such situations often are better accommodated through the use of visiting nurses. This allows the
§ 199.4

Office of the Secretary of Defense

Personal services that are not coverable by CHAMPUS to be obtained at lesser cost from other than an R.N. Skilled nursing services provided by visiting nurses are covered under CHAMPUS.

Note: When the services of an R.N. are not available, benefits may be extended for the otherwise covered services of a L.P.N. or L.V.N.

(xiii) Physicians in a teaching setting.

(A) Teaching physicians.

(1) General. The services of teaching physicians may be reimbursed on an allowable charge basis only when the teaching physician has established an attending physician relationship between the teaching physician and the patient or when the teaching physician provides distinct, identifiable, personal services (e.g., services rendered as a consultant, assistant surgeon, etc.). Attending physician services may include both direct patient care services or direct supervision of care provided by a physician in training. In order to be considered an attending physician, the teaching physician must:

(i) Review the patient’s history and the record of examinations and tests in the institution, and make frequent reviews of the patient’s progress; and

(ii) Personally examine the patient; and

(iii) Confirm or revise the diagnosis and determine the course of treatment to be followed; and

(iv) Either perform the physician’s services required by the patient or supervise the treatment so as to assure that appropriate services are provided by physicians in training and that the care meets a proper quality level; and

(v) Be present and ready to perform any service performed by an attending physician in a nonteaching setting when a major surgical procedure or a complex or dangerous medical procedure is performed; and

(vi) Be personally responsible for the patient’s care, at least throughout the period of hospitalization.

(2) Direct supervision by an attending physician of care provided by physicians in training. Payment on the basis of allowable charges may be made for the professional services rendered to a beneficiary by his/her attending physician when the attending physician provides personal and identifiable direction to physicians in training who are participating in the care of the patient. It is not necessary that the attending physician be personally present for all services, but the attending physician must be on the provider’s premises and available to provide immediate personal assistance and direction if needed.

(3) Individual, personal services. A teaching physician may be reimbursed on an allowable charge basis for any individual, identifiable service rendered to a CHAMPUS beneficiary, so long as the service is a covered service and is normally reimbursed separately, and so long as the patient records substantiate the service.

(4) Who may bill. The services of a teaching physician must be billed by the institutional provider when the physician is employed by the provider or a related entity or under a contract which provides for payment to the physician by the provider or a related entity. Where the teaching physician has no relationship with the provider (except for standard physician privileges to admit patients) and generally treats patients on a fee-for-service basis in the private sector, the teaching physician may submit claims under his/her own provider number.

(B) Physicians in training. Physicians in training in an approved teaching program are considered to be “students” and may not be reimbursed directly by CHAMPUS for services rendered to a beneficiary when their services are provided as part of their employment (either salaried or contractual) by a hospital or other institutional provider. Services of physicians in training may be reimbursed on an allowable charge basis only if:

(1) The physician in training is fully licensed to practice medicine by the state in which the services are performed, and

(2) The services are rendered outside the scope and requirements of the approved training program to which the physician in training is assigned.

(d) Other benefits—(1) General. Benefits may be extended for the allowable charge of those other covered services and supplies described in paragraph (d) of this section, which are provided in accordance with good medical practice.
§ 199.4 Durable Medical Equipment

and established standards of quality by those other authorized providers described in §199.6 of this Regulation. Such benefits are subject to all applicable definitions, conditions, limitations, or exclusions as otherwise may be set forth in this or other chapters of this Regulation. To be considered for benefits under paragraph (d) of this section, the described services or supplies must be prescribed and ordered by a physician. Other authorized individual professional providers acting within their scope of licensure may also prescribe and order these services and supplies unless otherwise specified in paragraph (d) of this section. For example, durable medical equipment and cardiorespiratory monitors can only be prescribed and ordered by a physician. Other authorized individual professional providers acting within their scope of licensure may also prescribe and order these services and supplies unless otherwise specified in paragraph (d) of this section. For example, durable medical equipment and cardiorespiratory monitors can only be ordered by a physician.

(2) Billing practices. To be considered for benefits under paragraph (d) of this section, covered services and supplies must be provided and billed for by an authorized provider as set forth in §199.6 of this part. Such billing must be itemized fully and described sufficiently, even when CHAMPUS payment is determined under the CHAMPUS DRG-based payment system, so that CHAMPUS can determine whether benefits are authorized by this part. Except for claims subject to the CHAMPUS DRG-based payment system, whenever continuing charges are involved, claims should be submitted to the appropriate CHAMPUS fiscal intermediary at least every 30 days (monthly) either by the beneficiary or sponsor or directly by the provider. For claims subject to the CHAMPUS DRG-based payment system, claims may be submitted only after the beneficiary has been discharged or transferred from the hospital.

(3) Other covered services and supplies—(i) Blood. If whole blood or plasma (or its derivatives) are provided and billed for by an authorized institution in connection with covered treatment, benefits are extended as set forth in paragraph (b) of this section. If blood is billed for directly to a beneficiary, benefits may be extended under paragraph (d) in the same manner as a medical supply.

(ii) Durable medical equipment—(A) Scope of benefit. Subject to the exceptions in paragraphs (B) and (C) below, only durable medical equipment (DME) which is ordered by a physician for the specific use of the beneficiary, and which complies with the definition of “Durable Medical Equipment” in §199.2 of this part, and which is not otherwise excluded by this Regulation qualifies as a Basic Program benefit.

(B) Cardiorespiratory monitor exception. (i) When prescribed by a physician who is otherwise eligible as a CHAMPUS individual professional provider, or who is on active duty with a United States Uniformed Service, an electronic cardiorespiratory monitor, including technical support necessary for the proper use of the monitor, may be cost-shared as durable medical equipment when supervised by the prescribing physician for in-home use by:

(i) An infant beneficiary who has had an apparent life-threatening event, as defined in guidelines issued by the Director, OCHAMPUS, or a designee, or

(ii) An infant beneficiary who is a subsequent or multiple birth biological sibling of a victim of sudden infant death syndrome (SIDS), or

(iii) An infant beneficiary whose birth weight was 1,500 grams or less, or

(iv) An infant beneficiary who is a pre-term infant with pathologic apnea,

as defined in guidelines issued by the Director, OCHAMPUS, or a designee, or

(v) Any beneficiary who has a condition or suspected condition designated in guidelines issued by the Director, OCHAMPUS, or a designee, for which the in-home use of the cardiorespiratory monitor otherwise meets Basic Program requirements.

(2) The following types of services and items may be cost-shared when provided in conjunction with an otherwise authorized cardiorespiratory monitor:

(i) Trend-event recorder, including technical support necessary for the proper use of the recorder.

(ii) Analysis of recorded physiological data associated with monitor alarms.

(iii) Professional visits for services otherwise authorized by this part, and for family training on how to respond to an apparent life threatening event.

(iv) Diagnostic testing otherwise authorized by this part.

(C) Basic mobility equipment exception. A wheelchair, or a CHAMPUS-approved
alternative, which is medically necessary to provide basic mobility, including reasonable additional cost for medically necessary modifications to accommodate a particular disability, may be cost-shared as durable medical equipment.

(D) Exclusions. DME which is otherwise qualified as a benefit is excluded as a benefit under the following circumstances:

1) DME for a beneficiary who is a patient in a type of facility that ordinarily provides the same type of DME item to its patients at no additional charge in the usual course of providing its services.

2) DME which is available to the beneficiary from a Uniformed Services Medical Treatment Facility.

3) DME with deluxe, luxury, or immaterial features which increase the cost of the item to the government relative to a similar item without those features.

(E) Basis for reimbursement. The cost of DME may be shared by the CHAMPUS based upon the price which is most advantageous to the government taking into consideration the anticipated duration of the medically necessary need for the equipment and current price information for the type of item. The cost analysis must include comparison of the total price of the item as a monthly rental charge, a lease-purchase price, and a lump-sum purchase price and a provision for the time value of money at the rate determined by the U.S. Department of the Treasury.

(iii) Medical supplies and dressings (consumables). Medical supplies and dressings (consumables) are those that do not withstand prolonged, repeated use. Such items must be related directly to an appropriate and verified covered medical condition of the specific beneficiary for whom the item was purchased and obtained from a medical supply company, a pharmacy, or authorized institutional provider. Examples of covered medical supplies and dressings are disposable syringes for a known diabetic, colostomy sets, irrigation sets, and elastic bandages. An external surgical garment specifically designed for use following a mastectomy is considered a medical supply item.

NOTE: Generally, the allowable charge of a medical supply item will be under $100. Any item over this amount must be reviewed to determine whether it would not qualify as a DME item. If it is, in fact, a medical supply item and does not represent an excessive charge, it can be considered for benefits under paragraph (d)(3)(iii) of this section.

(iv) Oxygen. Oxygen and equipment for its administration are covered. Benefits are limited to providing a tank unit at one location with oxygen limited to a 30-day supply at any one time. Repair and adjustment of CHAMPUS-purchased oxygen equipment also is covered.

(v) Ambulance. Civilian ambulance service is covered when medically necessary in connection with otherwise covered services and supplies and a covered medical condition. Ambulance service is also covered for transfers to a Uniformed Service Medical Treatment Facility (USMTF). For the purpose of CHAMPUS payment, ambulance service is an outpatient service (including in connection with maternity care) with the exception of otherwise covered transfers between hospitals which are cost-shared on an inpatient basis. Ambulance transfers from a hospital based emergency room to another hospital more capable of providing the required care will also be cost-shared on an inpatient basis.

NOTE: The inpatient cost-sharing provisions for ambulance transfers only apply to otherwise covered transfers between hospitals, i.e., acute care, general, and special hospitals; psychiatric hospitals; and long-term hospitals.

(A) Ambulance service is covered for emergency transfers from a beneficiary's place of residence, accident scene, or other location to a USMTF, and for transfer to a USMTF after treatment at, or admission to, a civilian hospital, if ordered by other than a representative of the USMTF.

(B) Ambulance service cannot be used instead of taxi service and is not payable when the patient's condition would have permitted use of regular private transportation; nor is it payable when transport or transfer of a patient is primarily for the purpose of having the patient nearer to home, family, friends, or personal physician. Except as described in paragraph
§ 199.4

32 CFR Ch. I (7–1–02 Edition)

(d)(3)(v)(A) of this section, transport must be to closest appropriate facility by the least costly means.

(C) Vehicles such as medicabs or ambicabs function primarily as public passenger conveyances transporting patients to and from their medical appointments. No actual medical care is provided to the patients in transit. These types of vehicles do not qualify for benefits for the purpose of CHAMPUS payment.

(D) Ambulance services by other than land vehicles (such as a boat or airplane) may be considered only when the pickup point is inaccessible by a land vehicle, or when great distance or other obstacles are involved in transporting the patient to the nearest hospital with appropriate facilities and the patient’s medical condition warrants speedy admission or is such that transfer by other means is contraindicated.

(vi) Prescription drugs and medicines. Prescription drugs and medicines that by United States law require a physician’s or other authorized individual professional provider’s prescription (acting within the scope of their license) and that are ordered or prescribed by a physician or other authorized individual professional provider (except that insulin is covered for a known diabetic, even though a prescription may not be required for its purchase) in connection with an otherwise covered condition or treatment, including Rh immune globulin.

(A) Drugs administered by a physician or other authorized individual professional provider as an integral part of a procedure covered under paragraph (b) or (c) of this section (such as chemotherapy) are not covered under this subparagraph inasmuch as the benefit for the institutional services or the professional services in connection with the procedure itself also includes the drug used.

(B) CHAMPUS benefits may not be extended for drugs not approved by the U.S. Food and Drug Administration for commercial marketing. Drugs grandfathered by the Federal Food, Drug and Cosmetic Act of 1938 may be covered under CHAMPUS as if FDA approved.

(vii) Prosthetic devices. The purchase of prosthetic devices is limited to those determined by the Director, OCHAMPUS to be necessary because of significant conditions resulting from trauma, congenital anomalies, or disease.

(viii) Orthopedic braces and appliances. The purchase of leg braces (including attached shoes), arm braces, back braces, and neck braces is covered, orthopedic shoes, arch supports, shoe inserts, and other supportive devices for the feet, including special-ordered, custom-made built-up shoes or regular shoes subsequently built up, are not covered.

(e) Special benefit information—(1) General. There are certain circumstances, conditions, or limitations that impact the extension of benefits and that require special emphasis and explanation. This paragraph (e) sets forth those benefits and limitations recognized to be in this category. The benefits and limitations herein described also are subject to all applicable definitions, conditions, limitations, exceptions, and exclusions as set forth in this or other sections of this part, except as otherwise may be provided specifically in this paragraph (e).

(2) Abortion. The statute under which CHAMPUS operates prohibits payment for abortions with one single exception—where the life of the mother would be endangered if the fetus were carried to term. Covered abortion services are limited to medical services and supplies only. Physician certification is required attesting that the abortion was performed because the mother’s life would be endangered if the fetus were carried to term. Abortions performed for suspected or confirmed fetal abnormality (e.g., anencephalic) or for mental health reasons (e.g., threatened suicide) do not fall within the exceptions permitted within the language of the statute and are not authorized for payment under CHAMPUS.

NOTE: Covered abortion services are limited to medical services or supplies only for the single circumstance outlined above and do not include abortion counseling or referral fees. Payment is not allowed for any services involving preparation for, or normal followup to, a noncovered abortion. The Director, OCHAMPUS, or a designee, shall issue guidelines describing the policy on abortion.
§ 199.4

(3) Family planning. The scope of the CHAMPUS family planning benefit is as follows:

(i) Birth control (such as contraception)—

(A) Benefits provided. Benefits are available for services and supplies related to preventing conception, including the following:

(1) Surgical inserting, removal, or replacement of intrauterine devices.

(2) Measurement for, and purchase of, contraceptive diaphragms (and later remeasurement and replacement).

(B) Exclusions. The family planning benefit does not include the following:

(1) Prophylactics (condoms).

(2) Spermicidal foams, jellies, and sprays not requiring a prescription.

(3) Services and supplies related to noncoital reproductive technologies, including but not limited to artificial insemination (including any costs related to donors or semen banks), in-vitro fertilization and gamete intrafallopian transfer.

(4) Reversal of a surgical sterilization (either male or female).

(ii) Genetic testing.

(A) Benefits provided. Benefits may be extended for genetic testing performed on a pregnant beneficiary under the following prescribed circumstances. The tests must be appropriate to the specific risk situation and must meet one of the following criteria:

(1) The mother-to-be is 35 years old or older; or

(2) The mother- or father-to-be has had a previous child born with a congenital abnormality; or

(3) Either the mother- or father-to-be has a family history of congenital abnormalities; or

(4) The mother-to-be contracted rubella during the first trimester of the pregnancy; or

(B) Exclusions. It is emphasized that routine or demand genetic testing is not covered. Further, genetic testing does not include the following:

(1) Tests performed to establish paternity of a child.

(2) Tests to determine the sex of an unborn child.

(4) Treatment of substance use disorders. Emergency and inpatient hospital care for complications of alcohol and drug abuse or dependency and detoxification are covered as for any other medical condition. Specific coverage for the treatment of substance use disorders includes detoxification, rehabilitation, and outpatient care provided in authorized substance use disorder rehabilitation facilities.

(i) Emergency and inpatient hospital services. Emergency and inpatient hospital services are covered when medically necessary for the active medical treatment of the acute phases of substance abuse withdrawal (detoxification), for stabilization, and for treatment of medical complications of substance use disorders. Emergency and inpatient hospital services are considered medically necessary only when the patient’s condition is such that the personnel and facilities of a hospital are required. Stays provided for substance use disorder rehabilitation in a hospital-based rehabilitation facility are covered, subject to the provisions of paragraph (e)(4)(ii) of this section. Inpatient hospital services also are subject to the provisions regarding the limit on inpatient mental health services.

(ii) Authorized substance use disorder treatment. Only those services provided by CHAMPUS-authorized institutional providers are covered. Such a provider must be either an authorized hospital, or an organized substance use disorder treatment program in an authorized free-standing or hospital-based substance use disorder rehabilitation facility. Covered services consist of any or all of the services listed below. A qualified mental health provider (physicians, clinical psychologists, clinical
§ 199.4 Social workers, psychiatric nurse specialists) (see paragraph (c)(3)(ix) of this section) shall prescribe the particular level of treatment. Each CHAMPUS beneficiary is entitled to three substance use disorder treatment benefit periods in his or her lifetime, unless this limit is waived pursuant to paragraph (e)(4)(v) of this section. (A benefit period begins with the first date of covered treatment and ends 365 days later, regardless of the total services actually used within the benefit period. Unused benefits cannot be carried over to subsequent benefit periods. Emergency and inpatient hospital services (as described in paragraph (e)(4)(i) of this section) do not constitute substance abuse treatment for purposes of establishing the beginning of a benefit period.)

(A) Rehabilitative care. Rehabilitative care in an authorized hospital or substance use disorder rehabilitative facility, whether free-standing or hospital-based, is covered on either a residential or partial care (day or night program) basis. Coverage during a single benefit period is limited to no more than inpatient stay (exclusive of stays classified in DRG 433) in hospitals subject to CHAMPUS DRG-based payment system or 21 days in a DRG-exempt facility for rehabilitation care, unless the limit is waived pursuant to paragraph (e)(4)(v) of this section. If the patient is medically in need of chemical detoxification, but does not require the personnel or facilities of a general hospital setting, detoxification services are covered in addition to the rehabilitative care, but in a DRG-exempt facility detoxification services are limited to 7 days unless the limit is waived pursuant to paragraph (e)(4)(v) of this section. The medical necessity for the detoxification must be documented. Any detoxification services provided by the substance use disorder rehabilitation facility must be under general medical supervision.

(B) Outpatient care. Outpatient treatment provided by an approved substance use disorder rehabilitation facility, whether free-standing or hospital-based, is covered for up to 60 visits in a benefit period, unless the limit is waived pursuant to paragraph (e)(4)(v) of this section.

(C) Family therapy. Family therapy provided by an approved substance use disorder rehabilitation facility, whether free-standing or hospital-based, is covered for up to 15 visits in a benefit period, unless the limit is waived pursuant to paragraph (e)(4)(v) of this section.

(iii) Exclusions—(A) Aversion therapy. The programmed use of physical measures, such as electric shock, alcohol, or other drugs as negative reinforcement (aversion therapy) is not covered, even if recommended by a physician.

(B) Domiciliary settings. Domiciliary facilities, generally referred to as halfway or quarterway houses, are not authorized providers and charges for services provided by these facilities are not covered.

(iv) Confidentiality. Release of any patient identifying information, including that required to adjudicate a claim, must comply with the provisions of section 544 of the Public Health Service Act, as amended, (42 U.S.C. 290dd-3), which governs the release of medical and other information from the records of patients undergoing treatment of substance abuse. If the patient refuses to authorize the release of medical records which are, in the opinion of the Director, OCHAMPUS, or a designee, necessary to determine benefits on a claim for treatment of substance abuse, the claim will be denied.

(v) Waiver of benefit limits. The specific benefit limits set forth in paragraphs (e)(4)(ii) of this section may be waived by the Director, OCHAMPUS in special cases based on a determination that all of the following criteria are met:

(A) Active treatment has taken place during the period of the benefit limit and substantial progress has been made according to the plan of treatment.

(B) Further progress has been delayed due to the complexity of the illness.

(C) Specific evidence has been presented to explain the factors that interfered with further treatment progress during the period of the benefit limit.

(D) The waiver request includes specific time frames and a specific plan of treatment which will complete the course of treatment.
(5) **Organ transplants.** Basic Program benefits are available for otherwise covered services or supplies in connection with an organ transplant procedure, provided such transplant procedure generally is in accordance with accepted professional medical standards and is not considered to be experimental or investigational.

(i) **Recipient costs.** CHAMPUS benefits are payable for recipient costs when the recipient of the transplant is a beneficiary, whether or not the donor is a beneficiary.

(ii) **Donor costs.**

(A) Donor costs are payable when both the donor and recipient are CHAMPUS beneficiaries.

(B) Donor costs are payable when the donor is a CHAMPUS beneficiary but the recipient is not.

(C) Donor costs are payable when the donor is the sponsor and the recipient is a beneficiary. (In such an event, donor costs are paid as a part of the beneficiary and recipient costs.)

(D) Donor costs also are payable when the donor is neither a CHAMPUS beneficiary nor a sponsor, if the recipient is a CHAMPUS beneficiary. (Again, in such an event, donor costs are paid as a part of the beneficiary and recipient costs.)

(iii) **General limitations.**

(A) If the donor is not a beneficiary, CHAMPUS benefits for donor costs are limited to those directly related to the transplant procedure itself and do not include any medical care costs related to other treatment of the donor, including complications.

(B) In most instances, for costs related to kidney transplants, Medicare (not CHAMPUS) benefits will be applicable. If a CHAMPUS beneficiary participates as a kidney donor for a Medicare beneficiary, Medicare will pay for expenses in connection with the kidney transplant to include all reasonable preparatory, operation and postoperation recovery expenses associated with the donation (postoperative recovery expenses are limited to the actual period of recovery). (See section 199.3 of this part for additional information on end stage renal disease.)

(C) Donor transportation costs are excluded whether or not the donor is a beneficiary.

(D) When the organ transplant is performed under a study, grant, or research program, no CHAMPUS benefits are payable for either recipient or donor cost.

(iv) **Kidney acquisition.** With specific reference to acquisition costs for kidneys, each hospital that performs kidney transplants is required for Medicare purposes to develop for each year separate standard acquisition costs for kidneys obtained from live donors and kidneys obtained from cadavers. The standard acquisition cost for cadaver kidneys is compiled by dividing the total cost of cadaver kidneys acquired by the number of transplants using cadaver kidneys. The standard acquisition cost for kidneys from live donors is compiled similarly using the total acquisition cost of kidneys from live donors and the number of transplants using kidneys from live donors. All recipients of cadaver kidneys are charged the same standard cadaver kidney acquisition cost and all recipients of kidneys from live donors are charged the same standard live donor acquisition cost. The appropriate hospital standard kidney acquisition costs (live donor or cadaver) required for Medicare in every instance must be used as the acquisition cost for purposes of providing CHAMPUS benefits.

(v) **Liver transplants.** Effective July 1, 1983, CHAMPUS benefits are payable for services and supplies related to liver transplantation under the following circumstances only:

(A) **Medical indications for liver transplantation.** CHAMPUS shall provide benefits for services and supplies related to liver transplantation performed for beneficiaries suffering from irreversible liver injury who have exhausted alternative medical and surgical treatments, who are approaching the terminal phase of their illness, and who are considered appropriate for liver transplantation according to guidelines adopted by the Director, OCHAMPUS.

(B) **Contraindications.** CHAMPUS shall not provide coverage if any of the following contraindications exist:

(1) Active alcohol or other substance abuse;
§ 199.4

(2) Malignancies metastasized to or extending beyond the margins of the liver; or
(3) Viral-induced liver disease when viremia is still present.

(C) Specific covered services. CHAMPUS shall provide coverage for the following services related to liver transplantation:

(1) Medically necessary services to evaluate a potential candidate's suitability for liver transplantation, whether or not the patient is ultimately accepted as a candidate for transplantation;
(2) Medically necessary pre- and post-transplant inpatient hospital and outpatient services;
(3) Surgical services and related pre- and post-operative services of the transplant team;
(4) Services provided by a donor organ acquisition team, including the costs of transportation to the location of the donor organ and transportation of the team and the donated organ to the location of the transportation center;
(5) Medically necessary services required to maintain the viability of the donor organ following a formal declaration of brain death and after all existing legal requirements for excision of the donor organ have been met;
(6) Blood and blood products;
(7) Services and drugs required for immunosuppression, provided the drugs are approved by the United States Food and Drug Administration;
(8) Services and supplies, including inpatient care, which are medically necessary to treat complications of the transplant procedure, including management of infection and rejection episodes; and
(9) Services and supplies which are medically necessary for the periodic evaluation and assessment of the successfully transplanted patient.

(D) Specific noncovered services. CHAMPUS benefits will not be paid for the following:

(1) Services and supplies for which the beneficiary has no legal obligation to pay. For example, CHAMPUS shall not reimburse expenses that are waived by the transplant center, or for which research funds are available; and
(2) Out-of-hospital living expenses and any other non-medical expenses, including transportation, of the liver transplant candidate or family members, whether pre- or post-transplant.

(E) Implementation guidelines. The Director, OCHAMPUS, shall issue such guidelines as are necessary to implement the provision of this paragraph.

(vi) Heart transplantations. CHAMPUS benefits are payable for services and supplies related to heart transplantation under the following circumstances:

(A) Medical indications for heart transplantation. CHAMPUS shall provide benefits for services and supplies related to heart transplantation performed for beneficiaries with end-stage cardiac disease who have exhausted alternative medical and surgical treatments, who have a very poor prognosis as a result of poor cardiac functional status, for whom plans for long-term adherence to a disciplined medical regimen are feasible, and who are considered appropriate for heart transplantation according to guidelines adopted by the Director, OCHAMPUS. However, benefits for heart transplantation are available only if the procedure is performed in a CHAMPUS-approved heart transplantation center or meets other certification or accreditation standards recognized by the Director, OCHAMPUS. See §199.6(b)(4)(iii).

(B) Specific covered services. CHAMPUS shall provide coverage for the following services related to heart transplantation:

(1) Medically necessary services to evaluate a potential candidate's suitability for heart transplantation, whether or not the patient is ultimately accepted as a candidate for transplantation;
(2) Medically necessary pre- and post-transplant inpatient hospital and outpatient services;
(3) Surgical services and related pre- and post-operative services of the transplant team;
(4) Services provided by the donor acquisition team, including the costs of transportation to the location of the donor organ and transportation of the team and the donated organ to the location of the transplantation center;
Office of the Secretary of Defense § 199.4

(5) Medically necessary services required to maintain the viability of the donor organ following a formal declaration of brain death and after all existing legal requirements for excision of the donor organ have been met;
(6) Blood and blood products;
(7) Services and drugs required for immunosuppression, provided the drugs are approved by the United States Food and Drug Administration;
(8) Services and supplies, including inpatient and outpatient evaluation and assessment of the transplant candidate or family members, whether pre- or post-transplant.
(D) Implementation guidelines. The Director, OCHAMPUS, shall issue such guidelines as are necessary to implement the provisions of this paragraph.
(6) Eyeglasses, spectacles, contact lenses, or other optical devices. Eyeglasses, spectacles, contact lenses, or other optical devices are excluded under the Basic Program except under very limited and specific circumstances.
(i) Exception to general exclusion. Benefits for glasses and lenses may be extended only in connection with the following specified eye conditions and circumstances:
(A) Eyeglasses or lenses that perform the function of the human lens, lost as a result of intraocular surgery or ocular injury or congenital absence.
NOTE: Notwithstanding the general requirement for U.S. Food and Drug Administration approval of any surgical implant set forth in paragraph (d)(3)(vii) of this section, intraocular lenses are authorized under CHAMPUS if they are either either approved for marketing by FDA or are subject to an investigational device exemption.
(B) "Pinhole" glasses prescribed for use after surgery for detached retina.
(C) Lenses prescribed as "treatment" instead of surgery for the following conditions:
(1) Contract lenses used for treatment of infantile glaucoma.
(2) Corneal or scleral lenses prescribed in connection with treatment of keratoconus.
(3) Scleral lenses prescribed to retain moisture when normal tearing is not present or is inadequate.
(4) Corneal or scleral lenses prescribed to reduce a corneal irregularity other than astigmatism.
(ii) Limitations. The specified benefits are limited further to one set of lenses related to one of the qualifying eye conditions set forth in paragraph (e)(6)(i) of this section. If there is a prescription change requiring a new set of lenses (but still related to the qualifying eye condition), benefits may be extended for a second set of lenses, subject to specific medical review.
(7) Transsexualism or such other conditions as gender dysphoria. All services and supplies directly or indirectly related to transsexualism or such other conditions as gender dysphoria are excluded under CHAMPUS. This exclusion includes, but is not limited to, psychotherapy, prescription drugs, and intersex surgery that may be provided in connection with transsexualism or such other conditions as gender dysphoria. There is only one very limited exception to this general exclusion, that is, notwithstanding the definition of congenital anomaly, CHAMPUS benefits may be extended for surgery and related medically necessary services performed to correct sex gender confusion (that is, ambiguous genitalia) which has been documented to be present at birth.
(B) Cosmetic, reconstructive, or plastic surgery. For the purposes of CHAMPUS, cosmetic, reconstructive, or plastic surgery is surgery that can be expected primarily to improve physical appearance or that is performed primarily for psychological purposes or that restores form, but does not correct or improve materially a bodily function.
NOTE: If a surgical procedure primarily restores function, whether or not there is also a concomitant improvement in physical appearance, the surgical procedure does not
§ 199.4

(1) Limited benefits under CHAMPUS. Benefits under the Basic Program generally are not available for cosmetic, reconstructive, or plastic surgery. However, under certain limited circumstances, benefits for otherwise covered services and supplies may be provided in connection with cosmetic, reconstructive, or plastic surgery as follows:

(A) Correction of a congenital anomaly; or

(B) Restoration of body form following an accidental injury; or

(C) Revision of disfiguring and extensive scars resulting from neoplastic surgery.

(D) Reconstructive breast surgery following a medically necessary mastectomy performed for the treatment of carcinoma, severe fibrocystic disease, other nonmalignant tumors or traumatic injuries.

(E) Penile implants and testicular prostheses for conditions resulting from organic origins (i.e., trauma, radical surgery, disease process, for correction of congenital anomaly, etc.). Also, penile implants for organic impotence.

NOTE: Organic impotence is defined as that which can be reasonably expected to occur following certain diseases, surgical procedures, trauma, injury, or congenital malformation. Impotence does not become organic because of psychological or psychiatric reasons.

(F) Generally, benefits are limited to those cosmetic, reconstructive, or plastic surgery procedures performed no later than December 31 of the year following the year in which the related accidental injury or surgical trauma occurred, except for authorized postmastectomy breast reconstruction for which there is no time limitation between mastectomy and reconstruction. Also, special consideration for exception will be given to cases involving children who may require a growth period.

(ii) General exclusions. (A) For the purposes of CHAMPUS, dental congenital anomalies such as absent tooth buds or malocclusion specifically are excluded. Also excluded are any procedures related to transsexualism or such other conditions as gender dysphoria, except as provided in paragraph (e)(7) of this section.

(B) Cosmetic, reconstructive, or plastic surgery procedures performed primarily for psychological reasons or as a result of the aging process also are excluded.

(C) Procedures performed for elective correction of minor dermatological blemishes and marks or minor anatomical anomalies also are excluded.

(iii) Noncovered surgery, all related services and supplies excluded. When it is determined that a cosmetic, reconstructive, or plastic surgery procedure does not qualify for CHAMPUS benefits, all related services and supplies are excluded, including any institutional costs.

(iv) Example of noncovered cosmetic, reconstructive, or plastic surgery procedures. The following is a partial list of cosmetic, reconstructive, or plastic surgery procedures that do not qualify for benefits under CHAMPUS. This list is for example purposes only and is not to be construed as being all-inclusive.

(A) Any procedure performed for personal reasons to improve the appearance of an obvious feature or part of the body that would be considered by an average observer to be normal and acceptable for the patient’s age or ethnic or racial background.

(B) Cosmetic, reconstructive, or plastic surgical procedures that are justified primarily on the basis of a psychological or psychiatric need.

(C) Augmentation mammoplasties. Augmentation mammoplasties, except for breast reconstruction following a covered mastectomy and those specifically authorized in paragraph (e)(8)(i) of this section.

(D) Face lifts and other procedures related to the aging process.

(E) Reduction mammoplasties. Reduction mammoplasties (unless there is medical documentation of intractable pain, not amenable to other forms of treatment, resulting from large, pendulous breasts or unless performed as an integral part of an authorized breast reconstruction procedure under paragraph (e)(8)(i) of this section, including reduction of the collateral breast for purposes of ensuring breast symmetry)

(F) Panniculectomy; body sculpture procedures.
(G) Repair of sagging eyelids (without demonstrated and medically documented significant impairment of vision).

(H) Rhinoplasties (without evidence of accidental injury occurring within the previous 6 months that resulted in significant obstruction of breathing).

(I) Chemical peeling for facial wrinkles.

(J) Dermabrasion of the face.

(K) Elective correction of minor dermatological blemishes and marks or minor anatomical anomalies.

(L) Revision of scars resulting from surgery or a disease process, except disfiguring and extensive scars resulting from neoplastic surgery.

(M) Removal of tattoos.

(N) Hair transplants.

(O) Electrolysis.

(P) Any procedures related to transsexualism or such other conditions as gender dysphoria except as provided in paragraph (e)(7) of this section.

(Q) Penile implant procedure for psychological impotency, transsexualism, or such other conditions as gender dysphoria.

(R) Insertion of prosthetic testicles for transsexualism, or such other conditions as gender dysphoria.

(9) Complications (unfortunate sequelae) resulting from noncovered initial surgery or treatment. Benefits are available for otherwise covered services and supplies required in the treatment of complications resulting from a noncovered incident of treatment (such as nonadjunctive dental care, transsexual surgery, and cosmetic surgery) but only if the later complication represents a separate medical condition such as a systemic infection, cardiac arrest, and acute drug reaction. Benefits may not be extended for any later care or procedures related to the complication that essentially is similar to the initial noncovered care. Examples of complications similar to the initial episode of care (and thus not covered) would be repair of facial scarring resulting from dermabrasion for acne or repair of a prolapsed vagina in a biological male who had undergone transsexual surgery.

(10) Dental. CHAMPUS does not include a dental benefit. Under very limited circumstances, benefits are available for dental services and supplies when the dental services are adjunctive to otherwise covered medical treatment.

(i) Adjunctive dental care: Limited. Adjunctive dental care is limited to those services and supplies provided under the following conditions:

(A) Dental care which is medically necessary in the treatment of an otherwise covered medical (not dental) condition, is an integral part of the treatment of such medical condition and is essential to the control of the primary medical condition. The following is a list of conditions for which CHAMPUS benefits are payable under this provision:

(1) Intraoral abscesses which extend beyond the dental alveolus.

(2) Extraoral abscesses.

(3) Cellulitis and osteitis which is clearly exacerbating and directly affecting a medical condition currently under treatment.

(4) Removal of teeth and tooth fragments in order to treat and repair facial trauma resulting from an accidental injury.

(5) Myofacial Pain Dysfunction Syndrome.

(6) Total or complete ankyloglossia.

(7) Adjunctive dental and orthodontic support for cleft palate.

(8) The prosthetic replacement of either the maxilla or the mandible due to the reduction of body tissues associated with traumatic injury (e.g., impact, gun shot wound), in addition to services related to treating neoplasms or iatrogenic dental trauma.

Note: The test of whether dental trauma is covered is whether the trauma is solely dental trauma. Dental trauma, in order to be covered, must be related to, and an integral part of medical trauma; or a result of medically necessary treatment of an injury or disease.

(B) Dental care required in preparation for medical treatment of a disease or disorder or required as the result of dental trauma caused by the medically necessary treatment of an injury or disease (iatrogenic).

(1) Necessary dental care including prophylaxis and extractions when performed in preparation for or as a result of in-line radiation therapy for oral or facial cancer.
§ 199.4 32 CFR Ch. I (7–1–02 Edition)

(2) Treatment of gingival hyperplasia, with or without periodontal disease, as a direct result of prolonged therapy with Dilantin (diphenylhydantoin) or related compounds.

(C) Dental care is limited to the above and similar conditions specifically prescribed by the Director, OCHAMPUS, as meeting the requirements for coverage under the provisions of this section.

(ii) General exclusions. (A) Dental care which is routine, preventative, restorative, prosthetic, periodontic or emergency does not qualify as adjunctive dental care for the purposes of CHAMPUS except when performed in preparation for or as a result of dental trauma caused by medically necessary treatment of an injury or disease.

(B) The adding or modifying of bridgework and dentures.

(C) Orthodontia, except when directly related to and an integral part of the medical or surgical correction of a cleft palate or when required in preparation for, or as a result of, trauma to the teeth and supporting structures caused by medically necessary treatment of an injury or disease.

(iii) Preauthorization required. In order to be covered, adjunctive dental care requires preauthorization from the Director, OCHAMPUS, or a designee, in accordance with paragraph (a)(11) of this section. When adjunctive dental care involves a medical (not dental) emergency (such as facial injuries resulting from an accident), the requirement for preauthorization is waived. Such waiver, however, is limited to the essential adjunctive dental care related to the medical condition requiring the immediate emergency treatment. A complete explanation, with supporting medical documentation, must be submitted with claims for emergency adjunctive dental care.

(iv) Covered oral surgery. Notwithstanding the above limitations on dental care, there are certain oral surgical procedures that are performed by both physicians and dentists, and that are essentially medical rather than dental care. For the purposes of CHAMPUS, the following procedures, whether performed by a physician or dentist, are considered to be in this category and benefits may be extended for otherwise covered services and supplies without preauthorization:

(A) Excision of tumors and cysts of the jaws, cheeks, lips, tongue, and roof and floor of the mouth, when such conditions require a pathological (histological) examination.

(B) Surgical procedures required to correct accidental injuries of the jaws, cheeks, lips, tongue, and roof and floor of the mouth.

(C) Treatment of oral or facial cancer.

(D) Treatment of fractures of facial bones.

(E) External (extra-oral) incision and drainage of cellulitis.

(F) Surgery of accessory sinuses, salivary glands, or ducts.

(G) Reduction of dislocations and the excision of the temporomandibular joints, when surgery is a necessary part of the reduction.

(H) Any oral surgical procedure that falls within the cosmetic, reconstructive, or plastic surgery definition is subject to the limitations and requirements set forth in paragraph (e)(8) of this section.

NOTE: Extraction of unerupted or partially erupted, malposed or impacted teeth, with or without the attached follicular or development tissues, is not a covered oral surgery procedure except when the care is indicated in preparation for medical treatment of a disease or disorder or required as a result of dental trauma caused by the necessary medical treatment of an injury or illness. Surgical preparation of the mouth for dentures is not covered by CHAMPUS.

(v) Inpatient hospital stay in connection with non-adjunctive, noncovered dental care. Institutional benefits specified in paragraph (b) of this section may be extended for inpatient hospital stays related to noncovered, non-adjunctive dental care when such inpatient stay is medically necessary to safeguard the life of the patient from the effects of dentistry because of the existence of a specific and serious non-dental organic impairment currently under active treatment. (Hemophilia is an example of a condition that could be considered a serious nondental impairment.) Preauthorization by the Director, OCHAMPUS, or a designee, is required for such inpatient stays to be
covered in the same manner as required for adjunctive dental care described in paragraph (e)(10)(iii) of this section. Regardless of whether or not the preauthorization request for the hospital admission is approved and thus qualifies for institutional benefits, the professional service related to the nonadjunctive dental care is not covered.

(11) Drug abuse. Under the Basic Program, benefits may be extended for medically necessary prescription drugs required in the treatment of an illness or injury or in connection with maternity care (refer to paragraph (d) of this section). However, CHAMPUS benefits cannot be authorized to support the maintenance of an existing or potential drug abuse situation, whether or not the drugs (under other circumstances) are eligible for benefit consideration and whether or not obtained by legal means.

(i) Limitations on who can prescribe drugs. CHAMPUS benefits are not available for any drugs prescribed by a member of the beneficiary’s family or by a nonfamily member residing in the same household with the beneficiary or sponsor.

(ii) Drug maintenance programs excluded. Drug maintenance programs when one addictive drug is substituted for another on a maintenance basis (such as methadone substituted for heroin) are not covered. This exclusion applies even in areas outside the United States where addictive drugs are dispensed legally by physicians on a maintenance dosage level.

(iii) Kinds of prescription drugs that are monitored carefully by CHAMPUS for possible abuse situations—(A) Narcotics. Examples are Morphine and Demerol.

(B) Nonnarcotic analgesics. Examples are Talwin and Darvon.

(C) Tranquilizers. Examples are Valium, Librium, and Meprobamate.

(D) Barbiturates. Examples are Secobarbital and Nembuttal.

(E) Nonbarbiturate hypnotics. Examples are Doriden and Chloral Hydrate.

(F) Stimulants. Examples are amphetamines.

(iv) CHAMPUS fiscal intermediary responsibilities. CHAMPUS fiscal intermediaries are responsible for implementing utilization control and quality assurance procedures designed to identify possible drug abuse situations. The CHAMPUS fiscal intermediary is directed to screen all drug claims for potential overutilization and irrational prescribing of drugs, and to subject any such cases to extensive review to establish the necessity for the drugs and their appropriateness on the basis of diagnosis or definitive symptoms.

(A) When a possible drug abuse situation is identified, all claims for drugs for that specific beneficiary or provider will be suspended pending the results of a review.

(B) If the review determines that a drug abuse situation does in fact exist, all drug claims held in suspense will be denied.

(C) If the record indicates previously paid drug benefits, the prior claims for that beneficiary or provider will be reopened and the circumstances involved reviewed to determine whether or not drug abuse also existed at the time the earlier claims were adjudicated. If drug abuse is later ascertained, benefit payments made previously will be considered to have been extended in error and the amounts so paid recouped.

(D) Inpatient stays primarily for the purpose of obtaining drugs and any other services and supplies related to drug abuse also are excluded.

(v) Unethical or illegal provider practices related to drugs. Any such investigation into a possible drug abuse that uncovers unethical or illegal drug dispensing practices on the part of an institution, a pharmacy, or physician will be referred to the professional or investigative agency having jurisdiction. CHAMPUS fiscal intermediaries are directed to withhold payment of all CHAMPUS claims for services and supplies rendered by a provider under active investigation for possible unethical or illegal drug dispensing activities.

(vi) Detoxification. The above monitoring and control of drug abuse situations shall in no way be construed to deny otherwise covered medical services and supplies related to drug detoxification (including newborn, addicted infants) when medical supervision is required.

(12) Custodial care. The statute under which CHAMPUS operates specifically
§ 199.4

excludes custodial care. Many beneficiaries and sponsors misunderstand what is meant by custodial care, assuming that because custodial care is not covered, it implies the custodial care is not necessary. This is not the case; it only means the care being provided is not a type of care for which CHAMPUS benefits can be extended.

(i) Kinds of conditions that can result in custodial care. There is no absolute rule that can be applied. With most conditions, there is a period of active treatment before custodial care, some much more prolonged than others. Examples of potential custodial care cases may be a spinal cord injury resulting in extensive paralysis, a severe cerebral vascular accident, multiple sclerosis in its latter stages, or presenile and senile dementia. These conditions do not result necessarily in custodial care but are indicative of the types of conditions that sometimes do. It is not the condition itself that is controlling, but whether the care being rendered falls within the definition of custodial care (refer to §199.2 of this part for the definition of “custodial care”).

(ii) Benefits available in connection with a custodial care case. CHAMPUS benefits are not available for services related to a custodial care case, with the following specific exceptions:

(A) Prescription drugs and medicines, medical supplies and durable medical equipment. Benefits are payable for otherwise covered prescription drugs and medicines, medical supplies and durable medical equipment.

(B) Nursing services, limited. Recognizing that even though the care being received is determined primarily to be custodial, an occasional specific skilled nursing service may be required. When it is determined such skilled nursing services are needed, benefits may be extended for one hour of nursing care per day.

(C) Physician services, limited. Recognizing that even though the care being received is determined primarily to be custodial, occasional physician monitoring may be required to maintain the patient’s condition. When it is determined that a patient is receiving custodial care, benefits may be extended for up to twelve physician visits per calendar year for the custodial condition (not to exceed one per month).

Note: CHAMPUS benefits may be extended for additional physician visits related to the treatment of a condition other than the condition for which the patient is receiving custodial care (an example is a broken leg as a result of a fall).

(D) Payment for prescription drugs, medical supplies, durable medical equipment and limited skilled nursing and physician services does not affect custodial care determination. The fact that CHAMPUS extends benefits for prescription drugs, medical supplies, durable medical equipment, and limited skilled nursing and physician services in no way affects the custodial care determination if the case otherwise falls within the definition of custodial care.

(iii) Exception to custodial care exclusion, admission to a hospital. CHAMPUS benefits may be extended for otherwise covered services or supplies directly related to a medically necessary admission to an acute care general or special hospital (as defined in paragraph (b)(4)(i), section 199.6 of this part), if the care is at the appropriate level and meets other requirements of this Regulation.

(iv) Reasonable care for which benefits were authorized or reimbursed before June 1, 1977. It is recognized that care for which benefits were authorized or reimbursed before the implementation date of DoD 6010.8-R may be excluded under the custodial care limitations set forth in the Regulation. Therefore, an exception to the custodial care limitations set forth in this part exists whereby reasonable care for which benefits authorized or reimbursed under the Basic Program before June 1, 1977, shall continue to be authorized even though the care would be excluded as a benefit under the custodial care limitations of the DoD 6010.8-R. Continuation of CHAMPUS benefits in such cases is limited as follows:

(A) Initial authorization or reimbursement before June 1, 1977. The initial CHAMPUS authorization or reimbursement for the care occurred before June 1, 1977; and,

(B) Continued care. The care has been continuous since the initial CHAMPUS authorization or reimbursement; and,

(C) Reasonable care. The care is reasonable. CHAMPUS benefits shall be
continued for reasonable care up to the same level of benefits and for the same period of eligibility authorized or reimbursed before June 1, 1977. Care that is excessive or otherwise unreasonable will be reduced or eliminated from the continued care authorized under this exception.

(13) Domiciliary care. The statute under which CHAMPUS operates also specifically excludes domiciliary care (refer to §199.2 of this part for the definition of “Domiciliary Care”).

(i) Examples of domiciliary care situations. The following are examples of domiciliary care for which CHAMPUS benefits are not payable.

(A) Home care is not available. Institutionalization primarily because parents work, or extension of a hospital stay beyond what is medically necessary because the patient lives alone, are examples of domiciliary care provided because there is no other family member or other person available in the home.

(B) Home care is not suitable. Institutionalization of a child because a parent (or parents) is an alcoholic who is not responsible enough to care for the child, or because someone in the home has a contagious disease, are examples of domiciliary care being provided because the home setting is unsuitable.

(C) Family unwilling to care for a person in the home. A child who is difficult to manage may be placed in an institution, not because institutional care is medically necessary, but because the family does not want to handle him or her in the home. Such institutionalization would represent domiciliary care, that is, the family being unwilling to assume responsibility for the child.

(ii) Benefits available in connection with a domiciliary care case. Should the beneficiary receive otherwise covered medical services or supplies while also being in a domiciliary care situation, CHAMPUS benefits are payable for those medical services or supplies, or both, in the same manner as though the beneficiary resided in his or her own home. Such benefits would be cost-shared as though rendered to an outpatient.

(iii) General exclusion. Domiciliary care is institutionalization essentially to provide a substitute home—not because it is medically necessary for the beneficiary to be in the institution (although there may be conditions present that have contributed to the fact that domiciliary care is being rendered). CHAMPUS benefits are not payable for any costs or charges related to the provision of domiciliary care. While a substitute home or assistance may be necessary for the beneficiary, domiciliary care does not represent the kind of care for which CHAMPUS benefits can be provided.

(14) CT scanning—(i) Approved CT scan services. Benefits may be extended for medically necessary CT scans of the head or other anatomical regions of the body when all of the following conditions are met:

(A) The patient is referred for the diagnostic procedure by a physician.

(B) The CT scan procedure is consistent with the preliminary diagnosis or symptoms.

(C) Other noninvasive and less costly means of diagnosis have been attempted or are not appropriate.

(D) The CT scan equipment is licensed or registered by the appropriate state agency responsible for licensing or registering medical equipment that emits ionizing radiation.

(E) The CT scan equipment is operated under the general supervision and direction of a physician.

(F) The results of the CT scan diagnostic procedure are interpreted by a physician.

(ii) Review guidelines and criteria. The Director, OCHAMPUS, or a designee, will issue specific guidelines and criteria for CHAMPUS coverage of medically necessary head and body part CT scans.

(15) Morbid obesity. The CHAMPUS morbid obesity benefit is limited to the gastric bypass, gastric stapling, or gastroplasty method.

(i) Conditions for coverage. Payment may be extended for the gastric bypass, gastric stapling, or gastroplasty method only when one of the following conditions is met:

(A) The patient is 100 pounds over the ideal weight for height and bone structure and has an associated severe medical condition. These associated medical conditions are diabetes mellitus,
hypertension, cholecystitis, narcolepsy, pickwickian syndrome (and other severe respiratory disease), hypothalamic disorders, and severe arthritis of the weight-bearing joints.

(B) The patient is 200 percent or more of the ideal weight for height and bone structure. An associated medical condition is not required for this category.

(C) The patient has had an intestinal bypass or other surgery for obesity and, because of complications, requires a second surgery (a takedown). The surgeon in many cases, will do a gastric bypass, gastric stapling, or gastroplasty to help the patient avoid regaining the weight that was lost. In this situation, payment is authorized even though the patient’s condition technically may not meet the definition of morbid obesity because of the weight that was already lost following the initial surgery.

(ii) Exclusions. (A) CHAMPUS payment may not be made for nonsurgical treatment of obesity or morbid obesity, for dietary control, or weight reduction.

(B) CHAMPUS payment may not be made for surgical procedures other than the gastric bypass, gastric stapling, or gastroplasty, even if morbid obesity is present.

(16) Maternity care. (i) Benefit. The CHAMPUS Basic Program may share the cost of medically necessary services and supplies associated with maternity care which are not otherwise excluded by this part. However, failure by a beneficiary to secure a required Nonavailability Statement (NAS) (DD Form 1251) as set forth in paragraph (a)(9) of this section will waive that beneficiary’s right to CHAMPUS cost-share of certain maternity care services and supplies.

(ii) Cost-share. Subject to applicable Nonavailability Statement (NAS) requirements, maternity care cost-share shall be determined as follows:

(A) Inpatient cost-share formula applies to maternity care ending in childbirth in, or on the way to, a birthing center to which the beneficiary is admitted and from which the beneficiary has received prenatal care, or a hospital-based outpatient birthing room.

(C) Outpatient cost-share formula applies to maternity care which terminates in a planned childbirth at home.

(D) Otherwise covered medical services and supplies directly related to “Complications of pregnancy,” as defined in §199.2 of this part, will be cost-shared on the same basis as the related maternity care for a period not to exceed 42 days following termination of the pregnancy and thereafter cost-shared on the basis of the inpatient or outpatient status of the beneficiary when medically necessary services and supplies are received.

(17) Biofeedback Therapy. Biofeedback therapy is a technique by which a person is taught to exercise control over a physiologic process occurring within the body. By using modern biomedical instruments the patient learns how a specific physiologic system within his body operates and how to modify the performance of this particular system.

(i) Benefits Provided. CHAMPUS benefits are payable for services and supplies in connection with electrothermal, electromyograph and electrodermal biofeedback therapy when there is documentation that the patient has undergone an appropriate medical evaluation, that their present condition is not responding to or no longer responds to other forms of conventional treatment, and only when provided as treatment for the following conditions:

(A) Adjunctive treatment for Raynaud’s Syndrome.

(B) Adjunctive treatment for muscle re-education of specific muscle groups or for treating pathological muscle abnormalities of spasticity, or incapacitating muscle spasm or weakness.

(ii) Limitations. Payable benefits include initial intake evaluation. Treatment following the initial intake evaluation is limited to a maximum of 20 inpatient and outpatient biofeedback treatments per calendar year.

(iii) Exclusions. Benefits are excluded for biofeedback therapy for the treatment of ordinary muscle tension states
or for psychosomatic conditions. Benefits are also excluded for the rental or purchase of biofeedback equipment.

(iv) Provider Requirements. A provider of biofeedback therapy must be a CHAMPUS-authorized provider. (Refer to §199.6, “Authorized Providers.”) If biofeedback treatment is provided by other than a physician, the patient must be referred by a physician.

(v) Implementation Guidelines. The Director of OCHAMPUS shall issue guidelines as are necessary to implement the provision of this paragraph.

(18) Cardiac rehabilitation. Cardiac rehabilitation is the process by which individuals are restored to their optimal physical, medical, and psychological status, after a cardiac event. Cardiac rehabilitation is often divided into three phases. Phase I begins during inpatient hospitalization and is managed by the patient’s personal physician. Phase II is a medically supervised outpatient program which begins following discharge. Phase III is a lifetime maintenance program emphasizing continuation of physical fitness with periodic followup. Each phase includes an exercise component, patient education, and risk factor modification. There may be considerable variation in program components, intensity, and duration.

(i) Benefits Provided. CHAMPUS benefits are available on an inpatient or outpatient basis for services and supplies provided in connection with a cardiac rehabilitation program when ordered by a physician and provided as treatment for patients who have experienced the following cardiac events within the preceding twelve (12) months:

(A) Myocardial Infarction.
(B) Coronary Artery Bypass Graft.
(C) Coronary Angioplasty.
(D) Percutaneous Transluminal Coronary Angioplasty.
(E) Chronic Stable Angina (see limitations below).
(F) Heart valve surgery.
(G) Heart or Heart-lung Transplantation.

(ii) Limitations. Payable benefits include separate allowance for the initial evaluation and testing. Outpatient treatment following the initial intake evaluation and testing is limited to a maximum of thirty-six (36) sessions per cardiac event, usually provided 3 sessions per week for twelve (12) weeks. Patients diagnosed with chronic stable angina are limited to one treatment episode (36 sessions) in a calendar year.

(iii) Exclusions. Phase III cardiac rehabilitation lifetime maintenance programs performed at home or in medically unsupervised settings are not covered.

(iv) Providers. A provider of cardiac rehabilitation services must be a CHAMPUS authorized hospital. (Refer to Section 199.6, “Authorized Providers.”) All cardiac rehabilitation services must be ordered by a physician.

(v) Payment. Payment for outpatient treatment will be based on an all inclusive allowable charge per session. Inpatient treatment will be paid based upon the reimbursement system in place for the hospital where the services are rendered.

(vi) Implementation Guidelines. The Director of OCHAMPUS shall issue guidelines as are necessary to implement the provisions of this paragraph.

(19) Hospice care. Hospice care is a program which provides an integrated set of services and supplies designed to care for the terminally ill. This type of care emphasizes palliative care and supportive services, such as pain control and home care, rather than cure-oriented services provided in institutions that are otherwise the primary focus under CHAMPUS. The benefit provides coverage for a humane and sensible approach to care during the last days of life for some terminally ill patients.

(i) Benefit coverage. CHAMPUS beneficiaries who are terminally ill (that is, a life expectancy of six months or less if the disease runs its normal course) will be eligible for the following services and supplies in lieu of most other CHAMPUS benefits:

(A) Physician services.
(B) Nursing care provided by or under the supervision of a registered professional nurse.
(C) Medical social services provided by a social worker who has at least a bachelor’s degree from a school accredited or approved by the Council on Social Work Education, and who is working under the direction of a physician. Medical social services include, but are not limited to the following:
(1) Assessment of social and emotional factors related to the beneficiary’s illness, need for care, response to treatment, and adjustment to care.

(2) Assessment of the relationship of the beneficiary’s medical and nursing requirements to the individual’s home situation, financial resources, and availability of community resources.

(3) Appropriate action to obtain available community resources to assist in resolving the beneficiary’s problem.

(4) Counseling services that are required by the beneficiary.

(D) Counseling services provided to the terminally ill individual and the family member or other persons caring for the individual at home. Counseling, including dietary counseling, may be provided both for the purpose of training the individual’s family or other care-giver to provide care, and for the purpose of helping the individual and those caring for him or her to adjust to the individual’s approaching death. Bereavement counseling, which consists of counseling services provided to the individual’s family after the individual’s death, is a required hospice service but it is not reimbursable.

(E) Home health aide services furnished by qualified aides and homemaker services. Home health aides may provide personal care services. Aides also may perform household services to maintain a safe and sanitary environment in areas of the home used by the patient. Examples of such services are changing the bed or light cleaning and laundering essential to the comfort and cleanliness of the patient. Aide services must be provided under the general supervision of a registered nurse. Homemaker services may include assistance in personal care, maintenance of a safe and healthy environment, and services to enable the individual to carry out the plan of care. Qualifications for home health aides can be found in 42 CFR 484.36.

(F) Medical appliances and supplies, including drugs and biologicals. Only drugs that are used primarily for the relief of pain and symptom control related to the individual’s terminal illness are covered. Appliances may include covered durable medical equipment, as well as other self-help and personal comfort items related to the palliation or management of the patient’s condition while he or she is under hospice care. Equipment is provided by the hospice for use in the beneficiary’s home while he or she is under hospice care. Medical supplies include those that are part of the written plan of care. Medical appliances and supplies are included within the hospice all-inclusive rates.

(G) Physical therapy, occupational therapy and speech-language pathology services provided for purposes of symptom control or to enable the individual to maintain activities of daily living and basic functional skills.

(H) Short-term inpatient care provided in a Medicare participating hospice inpatient unit, or in a Medicare participating hospital, skilled nursing facility (SNF) or, in the case of respite care, a Medicaid-certified nursing facility that additionally meets the special hospice standards regarding staffing and patient areas. Services provided in an inpatient setting must conform to the written plan of care. Inpatient care may be required for procedures necessary for pain control or acute or chronic symptom management. Inpatient care may also be furnished to provide respite for the individual’s family or other persons caring for the individual at home. Respite care is the only type of inpatient care that may be provided in a Medicaid-certified nursing facility. The limitations on custodial care and personal comfort items applicable to other CHAMPUS services are not applicable to hospice care.

(ii) Core services. The hospice must ensure that substantially all core services are routinely provided directly by hospice employees; i.e., physician services, nursing care, medical social services, and counseling for individuals and care givers. Refer to paragraphs (e)(19)(i)(A), (e)(19)(i)(B), (e)(19)(i)(C), and (e)(19)(i)(D) of this section.

(iii) Non-core services. While non-core services (i.e., home health aide services, medical appliances and supplies,
drugs and biologicals, physical therapy, occupational therapy, speech-language pathology and short-term inpatient care) may be provided under arrangements with other agencies or organizations, the hospice must maintain professional management of the patient at all times and in all settings. Refer to paragraphs (e)(19)(i)(E), (e)(19)(i)(F), (e)(19)(i)(G), and (e)(19)(i)(H) of this section.

(iv) Availability of services. The hospice must make nursing services, physician services, and drugs and biologicals routinely available on a 24-hour basis. All other covered services must be made available on a 24-hour basis to the extent necessary to meet the needs of individuals for care that is reasonable and necessary for the palliation and management of the terminal illness and related condition. These services must be provided in a manner consistent with accepted standards of practice.

(v) Periods of care. Hospice care is divided into distinct periods/episodes of care. The terminally ill beneficiary may elect to receive hospice benefits for an initial period of 90 days, a subsequent period of 90 days, a second subsequent period of 30 days, and a final period of unlimited duration.

(vi) Conditions for coverage. The CHAMPUS beneficiary must meet the following conditions/criteria in order to be eligible for the hospice benefits and services referenced in paragraph (e)(19)(i) of this section.

(A) There must be written certification in the medical record that the CHAMPUS beneficiary is terminally ill with a life expectancy of six months or less if the terminal illness runs its normal course.

(i) Timing of certification. The hospice must obtain written certification of terminal illness for each of the election periods described in paragraph (e)(19)(i)(B) of this section, even if a single election continues in effect for two, three or four periods.

(ii) Exception. For the initial 90-day period, if the hospice cannot obtain the written certifications within two calendar days, it must obtain oral certifications within two calendar days, and written certifications no later than eight calendar days after the period begins.

(2) Sources of certification. Physician certification is required for both initial and subsequent election periods.

(i) For the initial 90-day period, the hospice must obtain written certification statements if required under paragraph (e)(19)(v)(A)(i)(ii) of this section from:

(A) The individual’s attending physician if the individual has an attending physician; and

(B) The medical director of the hospice or the physician member of the hospice interdisciplinary group.

(ii) For subsequent periods, the only requirement is certification by one of the physicians listed in paragraph (e)(19)(v)(A)(2)(i) of this section.

(B) The terminally ill beneficiary must elect to receive hospice care for each specified period of time; i.e., the two 90-day periods, a subsequent 30-day period, and a final period of unlimited duration. If the individual is found to be mentally incompetent, his or her representative may file the election statement. Representative means an individual who has been authorized under State law to terminate medical care or to elect or revoke the election of hospice care on behalf of a terminally ill individual who is found to be mentally incompetent.

(1) The episodes of care must be used consecutively; i.e., the two 90-day periods first, then the 30-day period, followed by the final period. The periods of care may be elected separately at different times.

(2) The initial election will continue through subsequent election periods without a break in care as long as the individual remains in the care of the hospice and does not revoke the election.

(3) The effective date of the election may begin on the first day of hospice care or any subsequent day of care, but the effective date cannot be made prior to the date that the election was made.
§ 199.4 32 CFR Ch. 1 (7–1–02 Edition)

(4) The beneficiary or representative may revoke a hospice election at any time, but in doing so, the remaining days of that particular election period are forfeited and standard CHAMPUS coverage resumes. To revoke the hospice benefit, the beneficiary or representative must file a signed statement of revocation with the hospice. The statement must provide the date that the revocation is to be effective. An individual or representative may not designate an effective date earlier than the date that the revocation is made.

(5) If an election of hospice benefits has been revoked, the individual, or his or her representative may at any time file a hospice election for any period of time still available to the individual, in accordance with §199.4(e)(19)(vi)(B).

(6) A CHAMPUS beneficiary may change, once in each election period, the designation of the particular hospice from which he or she elects to receive hospice care. To change the designation of hospice programs the individual or representative must file, with the hospice from which care has been received and with the newly designated hospice, a statement that includes the following information:

(i) The name of the hospice from which the individual has received care and the name of the hospice from which he or she plans to receive care.

(ii) The date the change is to be effective.

(7) Each hospice will design and print its own election statement to include the following information:

(i) Identification of the particular hospice that will provide care to the individual.

(ii) The individual’s or representative’s acknowledgment that he or she has been given a full understanding of the palliative rather than curative nature of hospice care, as it relates to the individual’s terminal illness.

(iii) The individual’s or representative’s acknowledgment that he or she understands that certain other CHAMPUS services are waived by the election.

(iv) The effective date of the election.

(v) The signature of the individual or representative, and the date signed.

(8) The hospice must notify the CHAMPUS contractor of the initiation, change or revocation of any election.

(C) The beneficiary must waive all rights to other CHAMPUS payments for the duration of the election period for:

(1) Care provided by any hospice program other than the elected hospice unless provided under arrangements made by the elected hospice; and

(2) Other CHAMPUS basic program services/benefits related to the treatment of the terminal illness for which hospice care was elected, or to a related condition, or that are equivalent to hospice care, except for services provided by:

(i) The designated hospice;

(ii) Another hospice under arrangement made by the designated hospice; or

(iii) An attending physician who is not employed by or under contract with the hospice program.

(3) Basic CHAMPUS coverage will be reinstated upon revocation of the hospice election.

(D) A written plan of care must be established by a member of the basic interdisciplinary group assessing the patient’s needs. This group must have at least one physician, one registered professional nurse, one social worker, and one pastoral or other counselor.

(1) In establishing the initial plan of care the member of the basic interdisciplinary group who assesses the patient’s needs must meet or call at least one other group member before writing the initial plan of care.

(2) At least one of the persons involved in developing the initial plan must be a nurse or physician.

(3) The plan must be established on the same day as the assessment if the day of assessment is to be a covered day of hospice care.

(4) The other two members of the basic interdisciplinary group—the attending physician and the medical director or physician designee—must review the initial plan of care and provide their input to the process of establishing the plan of care within two calendar days following the day of assessment. A meeting of group members is not required within this 2-day period. Input may be provided by telephone.
(5) Hospice services must be consistent with the plan of care for coverage to be extended.

(6) The plan must be reviewed and updated, at intervals specified in the plan, by the attending physician, medical director or physician designee and interdisciplinary group. These reviews must be documented in the medical records.

(7) The hospice must designate a registered nurse to coordinate the implementation of the plan of care for each patient.

(8) The plan must include an assessment of the individual's needs and identification of the services, including the management of discomfort and symptom relief. It must state in detail the scope and frequency of services needed to meet the patient’s and family’s needs.

(E) Complete medical records and all supporting documentation must be submitted to the CHAMPUS contractor within 30 days of the date of its request. If records are not received within the designated time frame, authorization of the hospice benefit will be denied and any prior payments made will be recouped. A denial issued for this reason is not an initial determination under §199.10, and is not appealable.

(vii) Appeal rights under hospice benefit. A beneficiary or provider is entitled to appeal rights for cases involving a denial of benefits in accordance with the provisions of this part and §199.10.

(20) Case management services. As part of case management for beneficiaries with complex medical or psychological conditions, payment for services or supplies not otherwise covered by the basic CHAMPUS/TRICARE program may be authorized when they are provided in accordance with §199.4(i). Waiver of benefit limits/exclusions to the basic CHAMPUS/TRICARE program may be cost shared where it is demonstrated that the absence of such services would result in the exacerbation of an existing extraordinary condition, as defined in §199.2, to the extent that frequent or extensive services are required; and such services are a cost effective alternative to the Basic CHAMPUS program.

(f) Beneficiary or sponsor liability—(1) General. As stated in the introductory paragraph to this section, the Basic Program is essentially a supplemental program to the Uniformed Services direct medical care system. To encourage use of the Uniformed Services direct medical care system wherever its facilities are available and appropriate, the Basic Program benefits are designed so that it is to the financial advantage of a CHAMPUS beneficiary or sponsor to use the direct medical care system. When medical care is received from civilian sources, a CHAMPUS beneficiary is responsible for payment of certain deductible and cost-sharing amounts in connection with otherwise covered services and supplies. By statute, this joint financial responsibility between the beneficiary or sponsor and CHAMPUS is more favorable for dependents of members than for other classes of beneficiaries.

(2) Dependents of members of the Uniformed Services. CHAMPUS beneficiary or sponsor liability set forth for dependents of members is as follows:

(i) Annual fiscal year deductible for outpatient services and supplies.

(A) For care rendered all eligible beneficiaries prior to April 1, 1991, or when the active duty sponsor's pay grade is E-4 or below.

(1) Individual Deductible: Each beneficiary is liable for the first fifty dollars ($50.00) of the CHAMPUS-determined allowable amount on claims for care provided in the same fiscal year.

(2) Family Deductible: The total deductible amount for all members of a family with the same sponsor during one fiscal year shall not exceed one hundred dollars ($100.00), regardless of the date of care.

(B) For care rendered on or after April 1, 1991, for all CHAMPUS beneficiaries except dependents of active duty sponsors in pay grades E-4 or below.

(1) Individual Deductible: Each beneficiary is liable for the first one hundred and fifty dollars ($150.00) of the CHAMPUS-determined allowable amount on claims for care provided in the same fiscal year.

(2) Family Deductible: The total deductible amount for all members of a family with the same sponsor during one fiscal year shall not exceed one hundred dollars ($100.00).
§ 199.4 32 CFR Ch. I (7–1–02 Edition)

one fiscal year shall not exceed three hundred dollars ($300.00).

(C) CHAMPUS-approved Ambulatory Surgical Centers or Birthing Centers. No deductible shall be applied to allowable amounts for services or items rendered to active duty for authorized NATO dependents.

(D) Allowable Amount does not exceed Deductible Amount. If fiscal year allowable amounts for two or more beneficiary members of a family total less than $100.00 ($300.00 if paragraph (f)(2)(i)(B)(2) of this section applies), but more of the beneficiary members submit a claim for over $50.00 ($150.00 if paragraph (f)(2)(i)(B)(1) of this section applies), neither the family nor the individual deductible will have been met and no CHAMPUS benefits are payable.

(E) For any family the outpatient deductible amounts will be applied sequentially as the CHAMPUS claims are processed.

(F) If the fiscal year outpatient deductible under either paragraphs (f)(2)(i)(A) or (f)(2)(i)(B) of this section has been met by a beneficiary or a family through the submission of a claim or claims to a CHAMPUS fiscal intermediary in another geographic location from the location where a current claim is being submitted, the beneficiary or sponsor must obtain a deductible certificate from the CHAMPUS fiscal intermediary where the applicable deductible was met. Such deductible certificate must be attached to the current claim being submitted for benefits. Failure to obtain a deductible certificate under such circumstances will result in a second deductible being applied. However, this second deductible may be reimbursed once appropriate documentation, as described in paragraph (f)(2)(i)(F) of this section, is supplied to the CHAMPUS fiscal intermediary applying the second deductible.

(G) Notwithstanding the dates specified in paragraphs (f)(2)(i)(A) and (f)(B)(2)(i) of this section in the case of dependents of active duty members of rank E-5 or above with Persian Gulf Conflict service, dependents of service members who were killed in the Gulf, or who died subsequent to Gulf service, and of members who retired prior to October 1, 1991, after having served in the Gulf War, the deductible shall be the amount specified in paragraph (f)(2)(i)(A) of this section for care rendered prior to October 1, 1991, and the amount specified in paragraph (f)(2)(i)(B) of this section for care rendered on or after October 1, 1991.

(ii) Inpatient cost-sharing. Dependents of members of the Uniformed Services are responsible for the payment of the first $25 of the allowable institutional costs incurred with each covered inpatient admission to a hospital or other authorized institutional provider (refer to §199.6 of the part), or the amount the beneficiary or sponsor would have been charged had the inpatient care been provided in a Uniformed Service hospital, whichever is greater.

NOTE: The Secretary of Defense (after consulting with the Secretary of Health and Human Services and the Secretary of Transportation) prescribes the fair charges for inpatient hospital care provided through Uniformed Services medical facilities. This determination is made each fiscal year.

(A) Inpatient cost-sharing payable with each separate inpatient admission. A separate cost-sharing amount (as described in paragraph (f)(2) of this section) is payable for each inpatient admission to a hospital or other authorized institution, regardless of the purpose of the admission (such as medical or surgical), regardless of the number of times the beneficiary is admitted, and regardless of whether or not the inpatient admissions are for the same or related conditions; except that successive inpatient admissions shall be deemed one inpatient confinement for the purpose of computing the inpatient cost-share payable, provided not more than 60 days have elapsed between the successive admissions. However, notwithstanding this provision, all admissions related to a single maternity episode shall be considered one confinement, regardless of the number of days between admissions (refer to paragraph (b) of this section).

(B) Multiple family inpatient admissions. A separate cost-sharing amount is payable for each inpatient admission, regardless of whether or not two or more beneficiary members of a family are admitted at the same time or
§ 199.4

from the same cause (such as an accident). A separate beneficiary inpatient cost-sharing amount must be applied for each separate admission on each beneficiary member of the family.

(C) **Newborn patient in his or her own right.** When a newborn infant remains as an inpatient in his or her own right (usually after the mother is discharged), the newborn child becomes the beneficiary and patient and the extended inpatient stay becomes a separate inpatient admission. In such a situation, a new, separate inpatient cost-sharing amount is applied to the inpatient stay for each newborn child who has remained as an inpatient in his or her own right.

(D) **Inpatient cost-sharing for mental health services.** For care provided on or after October 1, 1995, the inpatient cost-sharing for mental health services is $20 per day for each day of the inpatient admission. This $20 per day cost sharing amount applies to admissions to any hospital for mental health services, any residential treatment facility, any substance abuse rehabilitation facility, and any partial hospitalization program providing mental health or substance use disorder rehabilitation services.

(iii) **Outpatient cost-sharing.** Dependents of members of the Uniformed Services are responsible for payment of 20 percent of the CHAMPUS-determined allowable cost or charge beyond the annual fiscal year deductible amount (as described in paragraph (f)(2)(i) of this section) for otherwise covered services or supplies provided on an outpatient basis by authorized providers.

(iv) **Ambulatory surgery.** Notwithstanding the above provisions pertaining to outpatient cost-sharing, dependents of members of the Uniformed Services are responsible for payment of $25 for surgical care that is authorized and received while in an outpatient status and that has been designated in guidelines issued by the Director, OCHAMPUS, or a designee.

(v) Psychiatric partial hospitalization services. Institutional and professional services provided under the psychiatric partial hospitalization program authorized by paragraph (b)(10) of this section shall be cost shared as inpatient services.

(3) **Former members and dependents of former members.** CHAMPUS beneficiary liability set forth for former members and dependents of former members is as follows:

(i) **Annual fiscal year deductible for outpatient services or supplies.** The annual fiscal year deductible for otherwise covered outpatient services or supplies provided former members and dependents of former members is the same as the annual fiscal year outpatient deductible applicable to dependents of active duty members of rank E-5 or above (refer to paragraph (f)(2)(i)(A) or (B) of this section).

(ii) **Inpatient cost-sharing.** Cost-sharing amounts for inpatient services shall be as follows:

(A) Services subject to the CHAMPUS DRG-based payment system. The cost-share shall be the lesser of: an amount calculated by multiplying a per diem amount by the total number of days in the hospital stay except the day of discharge; or 25 percent of the hospital's billed charges. The per diem amount shall be calculated so that, in the aggregate, the total cost-sharing amounts for these beneficiaries is equivalent to 25 percent of the CHAMPUS-determined allowable costs for covered services or supplies provided on an inpatient basis by authorized providers. The per diem amount shall be published annually by OCHAMPUS.

(B) Services subject to the CHAMPUS mental health per diem payment system. The cost-share is dependent upon whether the hospital is paid a hospital-specific per diem or a regional per diem under the provisions of §199.14(a)(2). With respect to care paid for on the basis of a hospital specific per diem, the cost-share shall be 25% of the hospital-specific per diem amount. For care paid for on the basis of a regional per diem, the cost share shall be the lower of a fixed daily amount or 25% of the hospital’s billed charges. The fixed daily amount shall be 25 percent of the
§ 199.4 32 CFR Ch. I (7–1–02 Edition)

per diem adjusted so that total beneficiary cost shares will equal 25 percent of total payments under the mental health per diem payment system. These fixed daily amount shall be updated annually and published in the FEDERAL REGISTER along with the per diems published pursuant to §199.14(a)(2)(iv)(B).

(C) Other services. For services exempt from the CHAMPUS DRG-based payment system and the CHAMPUS mental health per diem payment system and services provided by institutions other than hospitals, the cost-share shall be 25% of the CHAMPUS-determined allowable charges.

(iii) Outpatient cost-sharing. Former members and dependents of former members are responsible for payment of 25 percent of the CHAMPUS-determined allowable costs or charges beyond the annual fiscal year deductible amount for otherwise covered services or supplies provided on an outpatient basis by authorized providers.

(iv) Psychiatric partial hospitalization services. Institutional and professional services provided under the psychiatric partial hospitalization program authorized by paragraph (b)(10) of this section shall be cost shared as inpatient services.

(4) Former spouses. CHAMPUS beneficiary liability for former spouses eligible under the provisions set forth in §199.3 of this part is as follows:

(i) Annual fiscal year deductible for outpatient services or supplies. An eligible former spouse is responsible for the payment of the first $150.00 of the CHAMPUS-determined reasonable costs or charges for otherwise covered outpatient services or supplies provided in any one fiscal year. (Except for services received prior to April 1, 1991, the deductible amount is $50.00). The former spouse cannot contribute to, nor benefit from, any family deductible of the member or former member to whom the former spouse was married or of any CHAMPUS-eligible children.

(ii) Inpatient cost-sharing. Eligible former spouses are responsible for payment of cost-sharing amounts the same as those required for former members and dependents of former members.

(iii) Outpatient cost-sharing. Eligible former spouses are responsible for payment of 25 percent of the CHAMPUS-determined reasonable costs or charges beyond the annual fiscal year deductible amount for otherwise covered services or supplies provided on an outpatient basis by authorized providers.

(5) Cost-Sharing under the Military-Civilian Health Services Partnership Program. Cost-sharing is dependent upon the type of partnership program entered into, whether external or internal. (See paragraph (p) of §199.1, for general requirements of the Military-Civilian Health Services Partnership Program.)

(i) External Partnership Agreement. Authorized costs associated with the use of the civilian facility will be financed through CHAMPUS under the normal cost-sharing and reimbursement procedures applicable under CHAMPUS.

(ii) Internal Partnership Agreement. Beneficiary cost-sharing under internal agreements will be the same as charges prescribed for care in military treatment facilities.

(6)–(7) [Reserved]

(8) Cost-sharing for services provided under special discount arrangements

(i) General rule. With respect to services determined by the Director, OCHAMPUS (or designee) to be covered by §199.14(i), the Director, OCHAMPUS (or designee) has authority to establish, as an exception to the cost-sharing amount normally required pursuant to this section, a different cost-share amount that appropriately reflects the application of the statutory cost-share to the discount arrangement.

(ii) Specific applications. The following are examples of applications of the general rule; they are not all inclusive.

(A) In the case of services provided by individual health care professionals and other noninstitutional providers, the cost-share shall be the usual percentage of the CHAMPUS allowable charge determined under §199.14(i).

(B) In the case of services provided by institutional providers normally paid on the basis of a pre-set amount (such as DRG-based amount under
Office of the Secretary of Defense

§ 199.4

§ 199.14(a)(1) or per-diem amount under § 199.14(a)(2), if the discount rate is lower than the pre-set rate, the cost-share amount that would apply for a beneficiary other than an active duty dependent pursuant to the normal pre-set rate would be reduced by the same percentage by which the pre-set rate was reduced in setting the discount rate.

(9) Waiver of deductible amounts or cost-sharing not allowed—(i) General rule. Because deductible amounts and cost sharing are statutorily mandated, except when specifically authorized by law (as determined by the Director, OCHAMPUS), a provider may not waive or forgive beneficiary liability for annual deductible amounts or inpatient or outpatient cost sharing, as set forth in this section.

(ii) Exception for bad debts. This general rule is not violated in cases in which a provider has made all reasonable attempts to effect collection, without success, and determines in accordance with generally accepted fiscal management standards that the beneficiary liability in a particular case is an uncollectible bad debt.

(iii) Remedies for noncompliance. Potential remedies for noncompliance with this requirement include:

(A) A claim for services regarding which the provider has waived the beneficiary's liability may be disallowed in full, or, alternatively, the amount payable for such a claim may be reduced by the amount of the beneficiary liability waived.

(B) Repeated noncompliance with this requirement is a basis for exclusion of a provider.

(10) Catastrophic loss protection for basic program benefits. Fiscal year limits, or catastrophic caps, on the amounts beneficiaries are required to pay are established as follows:

(i) Dependents of active duty members. The maximum family liability is $1,000 for deductibles and cost-shares based on allowable charges for Basic Program services and supplies received in a fiscal year.

(ii) All other beneficiaries. For all other categories of beneficiary families (including those eligible under CHAMPVA) the fiscal year cap is $3,000.

(iii) Payment after cap is met. After a family has paid the maximum cost-share and deductible amounts (dependents of active duty members $1,000 and all others $3,000), for a fiscal year, CHAMPUS will pay allowable amounts for remaining covered services through the end of that fiscal year.

Note to paragraph (f)(10): Under the Defense Authorization Act for Fiscal Year 2001, the cap for beneficiaries other than dependents of active duty members was reduced from $7,500 to $3,000 effective October 30, 2000. Prior to this, the Defense Authorization Act for Fiscal Year 1993 reduced this cap from $10,000 to $7,500 on October 1, 1992. The cap remains at $1,000 for dependents of active duty members.

(11) Beneficiary or sponsor liability under the Pharmacy Benefits Program. Beneficiary or sponsor liability under the Pharmacy Benefits Program is addressed in § 199.21.

(g) Exclusions and limitations. In addition to any definitions, requirements, conditions, or limitations enumerated and described in other sections of this part, the following specifically are excluded from the Basic Program:

(1) Not medically or psychologically necessary. Services and supplies that are not medically or psychologically necessary for the diagnosis or treatment of a covered illness (including mental disorder) or injury, for the diagnosis and treatment of pregnancy or well-baby care except as provided in the following paragraph.

(2) Unnecessary diagnostic tests. X-ray, laboratory, and pathological services and machine diagnostic tests not related to a specific illness or injury or a definitive set of symptoms except for cancer screening mammography and cancer screening papanicolaou (PAP) tests provided under the terms and conditions contained in the guidelines adopted by the Director, OCHAMPUS.

(3) Institutional level of care. Services and supplies related to inpatient stays in hospitals or other authorized institutions above the appropriate level required to provide necessary medical care.

(4) Diagnostic admission. Services and supplies related to an inpatient admission primarily to perform diagnostic tests, examinations, and procedures that could have been and are performed routinely on an outpatient basis.
§ 199.4

(12) Furnished without charge. Services or supplies furnished without charge.

(13) Furnished by local, state, or Federal Government. Services and supplies paid for, or eligible for payment, directly or indirectly by a local, state, or Federal Government, except as provided under CHAMPUS, or by government hospitals serving the general public, or medical care provided by a Uniformed Service medical care facility, or benefits provided under title XIX of the Social Security Act (Medicaid) (refer to § 199.8 of this part).

(14) Study, grant, or research programs. Services and supplies provided as a part of or under a scientific or medical study, grant, or research program.

(15) Unproven drugs, devices, and medical treatments or procedures. Services and supplies provided as a part of or under a scientific or medical study, grant, or research program.

(1) A drug, device, or medical treatment or procedure is unproven:

(A) If the drug or device cannot be lawfully marketed without the approval or clearance of the United States Food and Drug Administration (FDA) and approval or clearance for marketing has not been given at the time the drug or device is furnished to the patient.

(11) No legal obligation to pay, no charge would be made. Services or supplies for which the beneficiary or sponsor has no legal obligation to pay; or for which no charge would be made if the beneficiary or sponsor was not eligible under CHAMPUS; or whenever CHAMPUS is a secondary payer for claims subject to the CHAMPUS DRG-based payment system, amounts, when combined with the primary payment, which would be in excess of charges (or the amount the provider is obligated to accept as payment in full, if it is less than the charges).

(13) Certain cancer drugs, designated as Group C drugs (approved and distributed by the National Cancer Institute) and Treatment Investigational New Drugs (INDs), are not covered under CHAMPUS because they are not approved for commercial marketing by the FDA. However, medical care related to the use of Group C drugs and Treatment INDs can be cost-shared under CHAMPUS when the patient’s medical condition warrants their administration and the care is provided in accordance with generally accepted standards of medical practice.
CHAMPUS can also consider coverage of unlabeled or off-label uses of drugs that are Food and Drug Administration (FDA) approved drugs that are used for indications or treatments not included in the approved labeling. Approval for reimbursement of unlabeled or off-label uses requires review for medical necessity, and also requires demonstrations from medical literature, national organizations, or technology assessment bodies that the unlabeled or off-label use of the drug is safe, effective and in accordance with nationally accepted standards of practice in the medical community.

(B) If a medical device (as defined by 21 U.S.C. §321(h)) with an Investigational Device Exemption (IDE) approved by the Food and Drug Administration is categorized by the FDA as experimental/investigational (FDA Category A).

Note: CHAMPUS will consider for coverage a device with an FDA-approved IDE categorized by the FDA as non-experimental/investigational (FDA Category B) for CHAMPUS beneficiaries participating in FDA approved clinical trials. Coverage of any such Category B device is dependent on its meeting all other requirements of the laws and rules governing CHAMPUS and upon the beneficiary involved meeting the FDA-approved IDE study protocols.

(C) Unless reliable evidence shows that any medical treatment or procedure has been the subject of well-controlled studies of clinically meaningful endpoints, which have determined its maximum tolerated dose, its toxicity, its safety, and its efficacy as compared with standard means of treatment or diagnosis. (See the definition of reliable evidence in §199.2 of this Part for the procedures used in determining if a medical treatment or procedure is unproven.)

(D) If reliable evidence shows that the consensus among experts regarding the medical treatment or procedure is that further studies or clinical trials are necessary to determine its maximum tolerated doses, its toxicity, its safety, or its effectiveness as compared with the standard means of treatment or diagnosis (see the definition of reliable evidence in §199.2 of this Part for the procedures used in determining if a medical treatment or procedure is unproven).

(E) Care excluded. This exclusion from benefits includes all services directly related to the unproven drug, device, or medical treatment or procedure. However, CHAMPUS may cover services or supplies when there is no logical or causal relationship between the unproven drug, device or medical treatment or procedure and the treatment at issue or where such a logical or causal relationship cannot be established with a sufficient degree of certainty. This CHAMPUS coverage is authorized in the following circumstances:

(A) Treatment that is not related to the unproven drug, device or medical treatment or procedure; e.g., medically necessary in the absence of the unproven treatment.

(B) Treatment which is necessary follow-up to the unproven drug, device or medical treatment or procedure but which might have been necessary in the absence of the unproven treatment.

(iv) Examples of unproven drugs, devices or medical treatments or procedures. This paragraph (g)(15)(iv) consists of a partial list of unproven drugs, devices or medical treatments or procedures. These are excluded from CHAMPUS program benefits. This list is not all inclusive. Other unproven drugs, devices or medical treatments or procedures, are similarly excluded, although they do not appear on this partial list. This partial list will be reviewed and updated periodically as new information becomes available. With respect to any procedure included on this partial list, if and when the Director, OCHAMPUS determines that based on reliable evidence (as defined in section 199.2) such procedure has proven medical effectiveness, the Director will initiate action.
§ 199.4

32 CFR Ch. I (7-1-02 Edition)

to remove the procedure from this partial list of unproven drugs, devices or medical treatment or procedures. From the date established by the Director as the date the procedure has established proven medical effectiveness until the date the regulatory change is made to remove the procedures from the partial list of unproven drugs, devices or medical treatment or procedures the Director, OCHAMPUS will suspend treatment of the procedure as unproven drugs, devices, or medical treatments or procedures. Following is the non-inclusive, partial list of unproven drugs, devices or medical treatment or procedures, all of which are excluded from CHAMPUS benefits:

(A) Radial keratotomy (refractive keratoplasty).
(B) Cellular therapy.
(C) Histamine therapy.
(D) Stem cell assay, a laboratory procedure which allows a determination to be made of the type and dose of cancer chemotherapy drugs to be used, based on in vitro analysis of their effects on cancer cells taken from an individual.
(E) Topical application of oxygen.
(F) Immunotherapy for malignant disease, except when using drugs approved by the FDA for this purpose.
(G) Prolotherapy, joint sclerotherapy, and ligamentous injections with sclerosing agents.
(H) Transcervical block silicone plug.
(I) Whole body hyperthermia in the treatment of cancer.
(J) Portable nocturnal hypoglycemia detectors.
(K) Testosterone pellet implants in the treatment of females.
(L) Estradiol pellet implants.
(M) Epikeratophakia for treatment of aphakia and myopia.
(N) Bladder stimulators.
(O) Ligament replacement with absorbable copolymer carbon fiber scaffold.
(P) Intraoperative radiation therapy.
(Q) Gastric bubble or balloon.
(R) Dorsal root entry zone (DREZ) thermocoagulation or microcoagulation neurosurgical procedure.
(S) Brain electrical activity mapping (BEAM).
(T) Topographic brain mapping (TBM) procedure.
(U) Ambulatory blood pressure monitoring.
(V) Bilateral carotid body resection to relieve pulmonary system.
(W) Intracavitary administration of cisplatin for malignant disease.
(X) Cervicography.
(Y) In-home uterine activity monitoring for the purpose of preventing preterm labor and/or delivery.
(Z) Sperm evaluation, hamster penetration test.
(AA) Transfer factor (TF).
(BB) Continuous ambulatory esophageal pH monitoring (CAEpHM) is considered unproven for patients under age 12 for all indications, and for patients over age 12 for sleep apnea.
(CC) Adrenal-to-brain transplantation for Parkinson’s disease.
-DD) Videofluoroscopy evaluation in speech pathology.
(EE) Applied kinesiology.
(FF) Hair analysis to identify mineral deficiencies from the chemical composition of the hair. Hair analysis testing may be reimbursed when necessary to determine lead poisoning.
(GG) Iridology (links flaws in eye coloration with disease elsewhere in the body).
(HH) Small intestinal bypass (jejunoileal bypass) for treatment of morbid obesity.
(I) Biliopancreatic bypass.
(JJ) Gastric wrapping/gastric banding.
(KK) Calcium EAP/calcium orotate and selenium (also known as Nieper therapy)—Involves inpatient care and use of calcium compounds and other non-FDA approved drugs and special diets. Used for cancer, heart disease, diabetes, and multiple sclerosis.
(LL) Percutaneous balloon valvuloplasty for mitral and tricuspid valve stenosis.
(MM) Amniocentesis performed for ISO immunization to the ABO blood antigens.
(NN) Balloon dilatation of the prostate.
(OO) Helium in radiosurgery.
(PP) Electrostimulation of salivary production in the treatment of xerostomia secondary to Sjogren’s syndrome.
(QQ) Intraoperative monitoring of sensory evoked potentials (SEP). To include visually evoked potentials, brainstem auditory evoked response, somatosensory evoked potentials during spinal and orthopedic surgery, and sensory evoked potentials monitoring of the sciatic nerve during total hip replacement. Recording SEPs in unconscious head injured patients to assess the status of the somatosensory system. The use of SEPs to define conceptional or gestational age in preterm infants.

(RR) Autolymphocyte therapy (ALT) (immunotherapy used for treating metastatic kidney cancer patients).

(SS) Radioimmunoguided surgery in the detection of cancer.

(TT) Gait analysis (also known as a walk study or electrodynogram)

(UU) Use of cerebellar stimulators/pacemakers for the treatment of neurologic disorders.

(VV) Signal-averaged ECG.

(WW) Peri-urethal Teflon injections to manage urinary incontinence.

(XX) Extraoperative electrocorticography for stimulation and recording

(YY) Quantitative computed tomography (QCT) for the detection and monitoring of osteoporosis.

(ZZ) [Reserved]

(AAA) Percutaneous transluminal angioplasty in the treatment of obstructive lesions of the carotid, vertebral and cerebral arteries.

(BBB) Endoscopic third ventriculostomy.

(CCC) Holding therapy—Involves holding the patient in an attempt to achieve interpersonal contact, and to improve the patient’s ability to concentrate on learning tasks.

(DDD) In utero fetal surgery.

(EEE) Light therapy for seasonal depression (also known as seasonal affective disorder (SAD)).

(FFF) Dorsal column and deep brain electrical stimulation of treatment of motor function disorder.

(GGG) Chelation therapy, except with products and for indications approved by the FDA.

(HHH) All organ transplants except heart, heart-lung, lung, kidney, some bone marrow, liver, liver-pancreas, corneal, heart-valve, and kidney-pancreas transplants for Type I diabetics with chronic renal failure who require kidney transplants.

(III) Implantable infusion pumps, except for treatment of spasticity, chronic intractable pain, and hepatic artery perfusion chemotherapy for the treatment of primary liver cancer or metastatic colorectal liver cancer.

(JJJ) Services related to the candidiasis hypersensitivity syndrome, yeast syndrome, or gastrointestinal candidiasis (i.e., allergenic extracts of Candida albicans for immunotherapy and/or provocation/neutralization).

(KKK) Treatment of chronic fatigue syndrome.

(LLL) Extracorporeal immunoadsorption using protein A columns for conditions other than acute idiopathic thrombocytopenia purpura.

(MMM) Dynamic posturography (both static and computerized).

(NNN) Laparoscopic myomectomy.

(OOO) Growth factor, including platelet-derived growth factors, for treating non-healing wounds. This includes Procurene®, a platelet-derived wound-healing formula.

(PPP) High dose chemotherapy with stem cell rescue (HDC/SCR) for any of the following malignancies:

1. Breast cancer, except for metastatic breast cancer that has relapsed after responding to a first line treatment.

2. Ovarian cancer.

3. Testicular cancer.

(16) Immediate family, household. Services or supplies provided or prescribed by a member of the beneficiary’s immediate family, or a person living in the beneficiary’s or sponsor’s household.

(17) Double coverage. Services and supplies that are (or are eligible to be) payable under another medical insurance or program, either private or governmental, such as coverage through employment or Medicare (refer to §199.8 of this part).

(18) Nonavailability Statement required. Services and supplies provided under circumstances or in geographic locations requiring a Nonavailability Statement (DD Form 1251), when such a statement was not obtained.

(19) Preauthorization required. Services or supplies which require preauthorization if preauthorization
was not obtained. Services and supplies which were not provided according to the terms of the preauthorization. The Director, OCHAMPUS, or a designee, may grant an exception to the requirement for preauthorization if the services otherwise would be payable except for the failure to obtain preauthorization.

(20) Psychoanalysis or psychotherapy, part of education. Psychoanalysis or psychotherapy provided to a beneficiary or any member of the immediate family that is credited towards earning a degree or furtherance of the education or training of a beneficiary or sponsor, regardless of diagnosis or symptoms that may be present.

(21) Runaways. Inpatient stays primarily to control or detain a runaway child, whether or not admission is to an authorized institution.

(22) Services or supplies ordered by a court or other government agency. Services or supplies, including inpatient stays, directed or agreed to by a court or other governmental agency. However, those services and supplies (including inpatient stays) that otherwise are medically or psychologically necessary for the diagnosis or treatment of a covered condition and that otherwise meet all CHAMPUS requirements for coverage are not excluded.

(23) Work-related (occupational) disease or injury. Services and supplies required as a result of occupational disease or injury for which any benefits are payable under a worker’s compensation or similar law, whether or not such benefits have been applied for or paid; except if benefits provided under such laws are exhausted.

(24) Cosmetic, reconstructive, or plastic surgery. Services and supplies in connection with cosmetic, reconstructive, or plastic surgery except as specifically provided in paragraph (e)(8) of this section.

(25) Surgery, psychological reasons. Surgery performed primarily for psychological reasons (such as psychogenic).

(26) Electrolysis.

(27) Dental care. Dental care or oral surgery, except as specifically provided in paragraph (e)(10) of this section.

(28) Obesity, weight reduction. Services and supplies related to obesity or weight reduction whether surgical or nonsurgical; wiring of the jaw or any procedure of similar purpose, regardless of the circumstances under which performed; except that benefits may be provided for the gastric bypass, gastric stapling, or gastroplasty procedures in connection with morbid obesity as provided in paragraph (e)(15) of this section.

(29) Transsexualism or such other conditions as gender dysphoria. Services and supplies related to transsexualism or such other conditions as gender dysphoria (including, but not limited, to intersex surgery, psychotherapy, and prescription drugs), except as specifically provided in paragraph (e)(7) of this section.

(30) Therapy or counseling for sexual dysfunctions or sexual inadequacies. Sex therapy, sexual advice, sexual counseling, sex behavior modification, psychotherapy for mental disorders involving sexual deviations (i.e., transvestic fetishism), or other similar services, and any supplies provided in connection with therapy for sexual dysfunctions or inadequacies.

(31) Corns, calluses, and toenails. Removal of corns or calluses or trimming of toenails and other routine podiatry services, except those required as a result of a diagnosed systemic medical disease affecting the lower limbs, such as severe diabetes.

(32) Dyslexia.

(33) Surgical sterilization, reversal. Surgery to reverse surgical sterilization procedures.

(34) Noncoital reproductive procedures including artificial insemination, in-vitro fertilization, gamete intrafallopian transfer and all other such reproductive technologies. Services and supplies related to artificial insemination (including semen donors and semen banks), in-vitro fertilization, gamete intrafallopian transfer and all other noncoital reproductive technologies.

(35) Nonprescription contraceptives.

(36) Tests to determine paternity or sex of a child. Diagnostic tests to establish paternity of a child; or tests to determine sex of an unborn child.

(37) Preventive care. Preventive care, such as routine, annual, or employment-requested physical examinations;
§ 199.4

routine screening procedures; except that the following are not excluded:

(i) Well-child care.

(ii) Immunizations for individuals age six and older, as recommended by the CDC.

(iii) Rabies shots.

(iv) Tetanus shot following an accidental injury.

(v) Rh immune globulin.

(vi) Genetic tests as specified in paragraph (e)(3)(ii) of this section.

(vii) Immunizations and physical examinations provided when required in the case of dependents of active duty military personnel who are traveling outside the United States as a result of an active duty member's assignment and such travel is being performed under orders issued by a Uniformed Service.

(viii) Screening mammography for asymptomatic women 40 years of age and older, and for high risk women 35 years of age and older, when provided under the terms and conditions contained in the guidelines adopted by the Deputy Assistant Secretary of Defense, Health Services Financing.

(ix) Screening mammography for women who are at risk for sexually transmissible diseases, women who have or have had multiple sexual partners (or if their partner has or has had multiple sexual partners), women who smoke cigarettes, and women 18 years of age and older when provided under the terms and conditions contained in the guidelines adopted by the Deputy Assistant Secretary of Defense, Health Services Financing.

(x) Other cancer screenings authorized by 10 U.S.C. 1079.

(xi) Health promotion and disease prevention visits (which may include all of the services provided pursuant to §199.18(b)(2)) may be provided in connection with immunizations and cancer screening examinations authorized by paragraphs (g)(37)(ii) of this section or (g)(37)(viii) through (x) of this section.

(xii) Physical examinations for beneficiaries ages 5 through 11 that are required in connection with school enrollment, and that are provided on or after October 30, 2006.

(38) Chiropractors and naturopaths. Services of chiropractors and naturopaths whether or not such services would be eligible for benefits if rendered by an authorized provider.

(39) Counseling. Counseling services that are not medically necessary in the treatment of a diagnosed medical condition: For example, educational counseling, vocational counseling, nutritional counseling, and counseling for socioeconomic purposes, diabetic self-education programs, stress management, lifestyle modification, etc. Services provided by a certified marriage and family therapist, pastoral or mental health counselor in the treatment of a mental disorder are covered only as specifically provided in §199.6. Services provided by alcoholism rehabilitation counselors are covered only when rendered in a CHAMPUS-authorized treatment setting and only when the cost of those services is included in the facility's CHAMPUS-determined allowable cost rate.

(40) Acupuncture. Acupuncture, whether used as a therapeutic agent or as an anesthetic.

(41) Hair transplants, wigs, or hairpieces.

Note: In accordance with section 744 of the DoD Appropriation Act for 1981 (Pub. L. 96–527), CHAMPUS coverage for wigs or hairpieces is permitted effective December 15, 1980, under the conditions listed below. Continued availability of benefits will depend on the language of the annual DoD Appropriation Acts.

(i) Benefits provided. Benefits may be extended, in accordance with the CHAMPUS-determined allowable charge, for one wig or hairpiece per beneficiary (lifetime maximum) when the attending physician certifies that alopecia has resulted from treatment of a malignant disease and the beneficiary certifies that a wig or hairpiece has not been obtained previously through the U.S. Government (including the Veterans Administration).

(ii) Exclusions. The wig or hairpiece benefit does not include coverage for the following:

(A) Alopecia resulting from conditions other than treatment of malignant disease.

(B) Maintenance, wig or hairpiece supplies, or replacement of the wig or hairpiece.
§ 199.4 32 CFR Ch. I (7–1–02 Edition)

(C) Hair transplants or any other surgical procedure involving the attachment of hair or a wig or hairpiece to the scalp.

(D) Any diagnostic or therapeutic method or supply intended to encourage hair regrowth.

(42) Education or training. Self-help, academic education or vocational training services and supplies, unless the provisions of §199.4, paragraph (b)(1)(v) relating to general or special education, apply.

(43) Exercise/relaxation/comfort devices. Exercise equipment, spas, whirlpools, hot tubs, swimming pools, health club membership or other such charges or items.

(44) Exercise. General exercise programs, even if recommended by a physician and regardless of whether or not rendered by an authorized provider. In addition, passive exercises and range of motion exercises also are excluded, except when prescribed by a physician and rendered by a physical therapist concurrent to, and as an integral part of, a comprehensive program of physical therapy.

(45) Audiologist, speech therapist. Services of an audiologist or speech therapist, except when prescribed by a physician and rendered as a part of treatment addressed to the physical defect itself and not to any educational or occupational deficit.

(46) Vision care. Eye exercises or visual training (orthoptics).

(47) Eye and hearing examinations. Eye and hearing examinations except as specifically provided in paragraphs (c)(2)(xvi) and (c)(3)(xi) of this section, or except when rendered in connection with medical or surgical treatment of a covered illness or injury.

(48) Prosthetic devices. Prostheses other than those determined by the Director, OCHAMPUS to be necessary because of significant conditions resulting from trauma, congenital anomalies, or disease. All dental prostheses are excluded, except for those specifically required in connection with otherwise covered orthodontia directly related to the surgical correction of a cleft palate anomaly.

(49) Orthopedic shoes. Orthopedic shoes, arch supports, shoe inserts, and other supportive devices for the feet, including special-ordered, custom-made built-up shoes, or regular shoes later built up.

(50) Eyeglasses. Eyeglasses, spectacles, contact lenses, or other optical devices, except as specifically provided under paragraph (e)(6) of this section.

(51) Hearing aids. Hearing aids or other auditory sensory enhancing devices.

(52) Telephone services. Services or advice rendered by telephone are excluded, except that a diagnostic or monitoring procedure which incorporates electronic transmission of data or remote detection and measurement of a condition, activity, or function (biotelemetry) is not excluded when:

(i) The procedure without electronic transmission of data or biotelemetry is otherwise an explicit or derived benefit of this section; and

(ii) The addition of electronic transmission of data or biotelemetry to the procedure is found by the Director, CHAMPUS, or designee, to be medically necessary and appropriate medical care which usually improves the efficiency of the management of a clinical condition in defined circumstances; and

(iii) That each data transmission or biotelemetry device incorporated into a procedure that is otherwise an explicit or derived benefit of this section, has been classified by the U.S. Food and Drug Administration, either separately or as a part of a system, for use consistent with the defined circumstances in paragraph (g)(52)(ii) of this section.

(53) Air conditioners, humidifiers, dehumidifiers, and purifiers.

(54) Elevators or chair lifts.

(55) Alterations. Alterations to living spaces or permanent features attached thereto, even when necessary to accommodate installation of covered durable medical equipment or to facilitate entrance or exit.

(56) Clothing. Items of clothing or shoes, even if required by virtue of an allergy (such as cotton fabric as against synthetic fabric and vegetable-dyed shoes).

(57) Food, food substitutes. Food, food substitutes, vitamins, or other nutritional supplements, including those related to prenatal care.
§ 199.4

(58) Enuretic. Enuretic conditioning programs, but enuretic alarms may be cost-shared when determined to be medically necessary in the treatment of enuresis.

(59) [Reserved]

(60) Autopsy and postmortem.

(61) Camping. All camping even though organized for a specific therapeutic purpose (such as diabetic camp or a camp for emotionally disturbed children), and even though offered as a part of an otherwise covered treatment plan or offered through a CHAMPUS-approved facility.

(62) Housekeeper, companion. Housekeeping, homemaker, or attendant services; sitter or companion.

(63) Noncovered condition, unauthorized provider. All services and supplies (including inpatient institutional costs) related to a noncovered condition or treatment, or provided by an unauthorized provider.

(64) Comfort or convenience. Personal, comfort, or convenience items such as beauty and barber services, radio, television, and telephone.

(65) ‘Stop smoking’ programs. Services and supplies related to ‘stop smoking’ regimens.

(66) Megavitamin psychiatric therapy, orthomolecular psychiatric therapy.

(67) Transportation. All transportation except by ambulance, as specifically provided under paragraph (d), and except as authorized in paragraph (e)(8) of this section.

(68) Travel. All travel even though prescribed by a physician and even if its purpose is to obtain medical care, except as specified in paragraph (a)(8) of this section in connection with a CHAMPUS-required physical examination and as specified in §199.17(n)(2)(v).

(69) Institutions. Services and supplies provided by other than a hospital, unless the institution has been approved specifically by OCHAMPUS. Nursing homes, intermediate care facilities, halfway houses, homes for the aged, or institutions of similar purpose are excluded from consideration as approved facilities under the Basic Program.

Note: In order to be approved under CHAMPUS, an institution must, in addition to meeting CHAMPUS standards, provide a level of care for which CHAMPUS benefits are payable.

(70)(71) [Reserved]

(72) Inpatient mental health services. Effective for care received on or after October 1, 1991, services in excess of 30 days in any fiscal year (or in an admission), in the case of a patient nineteen years of age or older, 45 days in any fiscal year (or in an admission) in the case of a patient under 19 years of age, or 150 days in any fiscal year (or in an admission) in the case of inpatient mental health services provided as residential treatment care, unless coverage for such services is granted by a waiver by the Director, OCHAMPUS, or a designee. In cases involving the day limitation, waivers shall be handled in accordance with paragraphs (b)(8) or (b)(9) of this section. For services prior to October 1, 1991, services in excess of 60 days in any calendar year unless additional coverage is granted by the Director, OCHAMPUS, or a designee.

(73) Economic interest in connection with mental health admissions. Inpatient mental health services (including both acute care and RTC services) are excluded for care received when a patient is referred to a provider of such services by a physician (or other health care professional with authority to admit) who has an economic interest in the facility to which the patient is referred, unless a waiver is granted. Requests for waiver shall be considered under the same procedure and based on the same criteria as used for obtaining preadmission authorization (or continued stay authorization for emergency admissions), with the only additional requirement being that the economic interest be disclosed as part of the request. The same reconsideration and appeals procedures that apply to day limit waivers shall also apply to decisions regarding requested waivers of the economic interest exclusion. However, a provider may appeal a reconsidered determination that an economic relationship constitutes an economic interest within the scope of the exclusion to the same extent that a provider may appeal determinations under §199.15(i)(3). This exclusion does not apply to services under the Program for Persons with Disabilities (§199.5) or provided as partial hospital care. If a situation arises where a decision is made to exclude CHAMPUS payment solely on the basis of the provider’s
§ 199.4 Economic interest, the normal CHAMPUS appeals process will be available.

(74) Not specifically listed. Services and supplies not specifically listed as a benefit in this part. This exclusion is not intended to preclude extending benefits for those services or supplies specifically determined to be covered within the intent of this part by the Director, OCHAMPUS, or a designee, even though not otherwise listed.

NOTE: The fact that a physician may prescribe, order, recommend, or approve a service or supply does not, of itself, make it medically necessary or make the charge an allowable expense, even though it is not listed specifically as an exclusion.

(h) Payment and liability for certain potentially excludable services under the Peer Review Organization program—(1) Applicability. This subsection provides special rules that apply only to services retrospectively determined under the Peer Review organization (PRO) program (operated pursuant to §199.15) to be potentially excludable (in whole or in part) from the basic program under paragraph (g) of this section. Services may be excluded by reason of being not medically necessary (paragraph (g)(1) of this section), at an inappropriate level (paragraph (g)(3) of this section), custodial care (paragraph (g)(7) of this section) or other reason relative to reasonableness, necessity or appropriateness (which services shall throughout the remainder of this subsection, be referred to as “not medically necessary”). (Also throughout the remainder of this subsection, “services” includes items and “provider” includes supplier). This paragraph does not apply to coverage determinations made by OCHAMPUS or the fiscal intermediaries which are not based on medical necessity determinations made under the PRO program.

(2) Payment for certain potentially excludable expenses. Services determined under the PRO program to be potentially excludable by reason of the exclusions in paragraph (g) of this section for not medically necessary services will not be determined to be excludable if neither the beneficiary to whom the services were provided nor the provider (institutional or individual) who furnished the services know, or could reasonably have been expected to know, that the services were subject to those exclusions. Payment may be made for such services as if the exclusions did not apply.

(3) Liability for certain excludable services. In any case in which items or services are determined excludable by the PRO program by reason of being not medically necessary and payment may not be made under paragraph (h)(2) of this section because the requirements of paragraph (h)(2) of this section are not met, the beneficiary may not be held liable (and shall be entitled to a full refund from the provider of the amount excluded and any cost share amount already paid) if:

(i) The beneficiary did not know and could not reasonably have been expected to know that the services were excludable by reason of being not medically necessary; and

(ii) The provider knew or could reasonably have been expected to know that the items or services were excludable by reason of being not medically necessary.

(4) Criteria for determining that beneficiary knew or could reasonably have been expected to have known that services were excludable. A beneficiary who receives services excludable by reason of being not medically necessary will be found to have known that the services were excludable if the beneficiary has been given written notice that the services were excludable or that similar or comparable services provided on a previous occasion were excludable and that notice was given by the OCHAMPUS, CHAMPUS PRO or fiscal intermediary, a group or committee responsible for utilization review for the provider, or the provider who provided the services.

(5) Criteria for determining that provider knew or could reasonably have been expected to have known that services were excludable. An institutional or individual provider will be found to have known or been reasonably expected to have known that services were excludable under this subsection under any one of the following circumstances:

(i) The PRO or fiscal intermediary had informed the provider that the services provided were excludable or that similar or reasonably comparable services were excludable.
(ii) The utilization review group or committee for an institutional provider or the beneficiary’s attending physician had informed the provider that the services provided were excludable.

(iii) The provider had informed the beneficiary that the services were excludable.

(iv) The provider had received written materials, including notices, manual issuances, bulletins, guides, directives or other materials, providing notification of PRO screening criteria specific to the condition of the beneficiary. Attending physicians who are members of the medical staff of an institutional provider will be found to have also received written materials provided to the institutional provider.

(v) The services that are at issue are the subject of what are generally considered acceptable standards of practice by the local medical community.

(vi) Preadmission authorization was available but not requested, or concurrent review requirements were not followed.

(i) Case management program. (1) In general. Case management, as it applies to this program, provides a collaborative process among the case manager, beneficiary, primary caregiver, professional health care providers and funding sources to meet the medical needs of an individual with an extraordinary condition. It is designed to promote quality and cost-effective outcomes through assessment, planning, implementing, monitoring and evaluating the options and services required. Payment for services or supplies limited or not otherwise covered by the basic TRICARE/CHAMPUS program may be authorized when they are provided in accordance with paragraph (i) of this section. Waiver of benefit limits/exclusions may be cost-shared where it is demonstrated that the absence of such services would result in the exacerbation of an existing extraordinary condition, as defined in §199.2, to the extent that such services are a cost-effective alternative to the basic TRICARE/CHAMPUS program.

(2) Applicability of case management program. A CHAMPUS eligible beneficiary may participate in the case management program if he/she has an extraordinary condition, which is disabling and requires extensive utilization of TRICARE resources. The medical or psychological condition must also:

(i) Be contained in the latest revision of the International Classification of Diseases Clinical Modification, or the Diagnostic and Statistical Manual of Mental Disorders;

(ii) Meet at least one of the following:

(A) Demonstrate a prior history of high CHAMPUS costs in the year immediately preceding eligibility for the case management program; or

(B) Require clinically appropriate services or supplies from multiple providers to address an extraordinary condition; and

(iii) Can be treated more appropriately and cost effectively at a less intensive level of care.

(3) Prior authorization required. Services or supplies allowable as a benefit exception under this Section shall be cost-shared only when a beneficiary’s entire treatment has received prior authorization through an individual case management program.

(4) Cost effective requirement. Treatment must be determined to be cost effective by comparison to alternative treatment that would otherwise be required or when compared to existing reimbursement methodology. Treatment must meet the requirements of appropriate medical care as defined in §199.2.

(5) Limited waiver of exclusions and limitations. Limited waivers of exclusions and limitations normally applicable to the basic program may be granted for specific services or supplies only when a beneficiary’s entire treatment has received prior authorization through the individual case management program described in paragraph (i) of this section. The Director, OCHAMPUS may grant a patient-specific waiver of benefit limits for services or supplies in the following categories, subject to the waiver requirements of this section.

(i) Durable equipment. The cost of a device or apparatus which does not qualify as Durable Medical Equipment (as defined in §199.2) or back-up durable medical equipment may be shared
§ 199.4  Case management acknowledgment.

The beneficiary, or representative, and the primary caregiver shall sign a case management acknowledgment as a prerequisite to prior authorization of case management services. The acknowledgment shall include, in part, all of the following provisions:

(i) The right to participate fully in the development and ongoing assessment of the treatment;

(ii) That all health care services for which TRICARE/CHAMPUS cost sharing is sought shall be authorized by the case manager prior to their delivery;

(iii) That there are limitations in scope and duration of the planned case management treatment, including provisions to transition to other arrangements; and

(iv) The conditions under which case management services are provided, including the requirement that the services must be cost effective and clinically appropriate;

(v) The beneficiary’s participation in the case management program shall be discontinued for any of the following reasons:

(A) The loss of TRICARE/CHAMPUS eligibility;

(B) A determination that the services or supplies provided are not cost effective or clinically appropriate;

(C) The beneficiary, or representative, and/or primary caregiver, terminates participation in writing;

(D) The beneficiary and/or primary caregiver’s failure to comply with requirements in this paragraph (i); or

(E) A determination that the beneficiary’s condition no longer meets the requirements of participation as described in paragraph (i) of this section.

(7) Other administrative requirements.

(i) Qualified providers of services or items not covered under the basic program, or who are not otherwise eligible for TRICARE/CHAMPUS authorized status, may be authorized for a time-limited period when such authorization is essential to implement the planned treatment under case management. Such providers must not be excluded or suspended as a CHAMPUS provider,
§ 199.4 Basic program benefits.

(b) * * *

(i) Retrospective requests for authorization of waiver of benefit limits/exclusions will not be considered. Authorization of waiver of benefit limits/exclusions is allowed only after all other options for services or supplies have been considered and either appropriately utilized or determined to be clinically inappropriate and/or not cost-effective.

(ii) Experimental or investigational treatment or procedures shall not be cost-shared as an exception to standard benefits under this part.

(iv) TRICARE/CHAMPUS case management services may be provided by contractors designated by the Director, OCHAMPUS.

[51 FR 24008, July 1, 1986]

EDITORIAL NOTES: For Federal Register citations affecting §199.4, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

EFFECTIVE DATE NOTE: At 67 FR 40602, June 13, 2002, §199.4 was amended by redesignating paragraph (b)(3)(xiv) as (b)(3)(xv), adding new paragraphs (b)(3)(xv) and (e)(21), and removing and reserving paragraphs (c)(2)(xv) and (c)(3)(xiii), effective Aug. 12, 2002. For the convenience of the user, the added text is set forth as follows:

§ 199.4 Basic program benefits.

(b) * * *

(i) Skilled nursing facility (SNF) services.

Covered services in SNFs are the same as provided under Medicare under section 1861(h) and (i) of the Social Security Act (42 U.S.C. 1395x(h) and (i)) and 42 CFR part 409, subparts C and D, except that the Medicare limitation on the number of days of coverage under section 1861(h)(a) and (b) of the Social Security Act (42 U.S.C. 1395x(a) and (b)) and 42 CFR 409.61(b) shall not be applicable under TRICARE. Skilled nursing facility care for each spell of illness shall continue to be provided for as long as necessary and appropriate. For a SNF admission to be covered under TRICARE, the beneficiary must have a qualifying hospital stay of three consecutive days or more, not including the hospital leave day. The beneficiary must enter the SNF within 30 days of leaving the hospital, or within such time as it would be medically appropriate to begin an active course of treatment, where the individual’s condition is such that SNF care would not be medically appropriate within 30 days after discharge from a hospital. The skilled services must be for a medical condition that was either treated during the qualifying three-day hospital stay, or started while the beneficiary was already receiving covered SNF care. Additionally, an individual shall be deemed not to have been discharged from a SNF, if within 30 days after discharge from a SNF, the individual is again admitted to a SNF. Adoption by TRICARE of most Medicare coverage standards does not include Medicare coinsurance amounts. Extended care services furnished to an inpatient of a SNF by such SNF (except as provided in paragraphs (b)(3)(xiv)(C), (b)(3)(xv)(F), and (b)(3)(xv)(G) of this section) include:

(A) Nursing care provided by or under the supervision of a registered professional nurse;

(B) Bed and board in connection with the furnishing of such nursing care;

(C) Physical or occupational therapy or speech-language pathology services furnished by the SNF or by others under arrangements with them by the facility;

(D) Medical social services;

(E) Such drugs, biological, supplies, appliances, and equipment, furnished for use in the SNF, as are ordinarily furnished for the care and treatment of inpatients;

(F) Medical services provided by an intern or resident-in-training of a hospital with which the facility has such an agreement in effect; and

(G) Such other services necessary to the health of the patients as are generally provided by SNFs, or by others under arrangements with them made by the facility.

* * * * *

(e) * * *

(21) Home health services. Home health services are covered when furnished by, or under arrangement with, a home health agency (HHA) that participates in the TRICARE program, and provides care on a visiting basis in the beneficiary’s home. Covered HHA services are the same as those provided under Medicare under section 1861(m) of the Social Security Act (42 U.S.C. 1395x(m)) and 42 CFR part 409, subpart E.

(i) Benefit coverage. Coverage will be extended for the following home health services subject to the conditions of coverage prescribed in paragraph (e)(21)(i) of this section:

(A) Part-time or intermittent skilled nursing care furnished by a registered nurse or a licensed practical (vocational) nurse under the supervision of a registered nurse;

(B) Physical therapy, speech-language pathology, and occupational therapy;
§ 199.4

(C) Medical social services under the direction of a physician;

(D) Part-time or intermittent services of a home health aide who has successfully completed a training program approved by the Director TMA;

(E) Medical supplies, a covered osteoporosis drug (as defined in the Social Security Act 1861(kk), but excluding other drugs and biologicals) and durable medical equipment;

(F) Medical services provided by an inter- or resident-in-training of a hospital, under an approved teaching program of the hospital in the case of an HHA that is affiliated or under common control of a hospital; and

(G) Services at hospitals, SNFs or rehabilitation centers when they involve equipment too cumbersome to bring to the home but not including transportation of the individual in connection with any such item or service.

(ii) Conditions for Coverage. The following conditions/criteria must be met in order to be eligible for the HHA benefits and services referenced in paragraph (e)(21)(i) of this section:

(A) The person for whom the services are provided is an eligible TRICARE beneficiary.

(B) The HHA that is providing the services is homebound.

(C) Medical social services under the direction of a physician.

(D) The services are provided under a plan of care established and approved by a physician.

(2) The plan of care must contain all pertinent diagnoses, including the patient's mental status, the types of services, supplies, and equipment required, the frequency of visits to be made, prognosis, rehabilitation potential, functional limitations, activities permitted, nutritional requirements, all medications and treatments, safety measures to protect against injury, instructions for timely discharge or referral, and any additional items the HHA or physician chooses to include.

(3) The orders on the plan of care must specify the type of services to be provided to the beneficiary, both with respect to the professional who will provide them and the nature of the individual services, as well as the frequency of the services.

(E) The beneficiary must need skilled nursing care on an intermittent basis or physical therapy or speech-language pathology services, or have continued need for occupational therapy after the need for skilled nursing care, physical therapy, or speech-language pathology services has ceased.

(F) The beneficiary must receive, and an HHA must provide, a patient-specific, comprehensive assessment that:

(I) Accurately reflects the patient's current health status and includes information that may be used to demonstrate the patient's progress toward achievement of desired outcomes;

(2) Identifies the beneficiary's continuing need for home care and meets the beneficiary's medical, nursing, rehabilitative, social, and discharge planning needs.

(3) Incorporates the use of the current version of the Outcome and Assessment Information Set (OASIS) items, using the language and groupings of the OASIS items, as specified by the Director, TRICARE Management Activity.

(G) TRICARE is the appropriate payer.

(H) The services for which payment is claimed are not otherwise excluded from payment.

(1) Any other conditions of coverage/participation that may be required under Medicare's HHA benefit, i.e., coverage guidelines as prescribed under Sections 1861(o) and 1891 of the Social Security Act (42 U.S.C. 1395x(o) and 1395bbb) and 42 CFR Part 484.

* * * * *

Effective Date Note: At 67 FR 42720, June 25, 2002, §199.4 was amended, effective July 25, 2002. The amendments are as follows:

a. Revise paragraph (d)(3)(v) introductory text preceding the Note;

b. Remove paragraph (d)(3)(v)(A);

d. Revise newly designated paragraphs (d)(3)(v)(A) and (d)(3)(v)(C);

e. Revise paragraph (e)(5); and

f. Add paragraphs (e)(21).

The additions and revisions read as follows:

§ 199.4 Basic program benefits.

* * * * *

(d) * * *

(3) * * *

(v) Ambulance. Civilian ambulance service is covered when medically necessary in connection with otherwise covered services and supplies and a covered medical condition. For the purpose of TRICARE payment, ambulance service is an outpatient service (including in connection with maternity care) without the exception of otherwise covered transfers between hospitals which are cost-shared on an inpatient basis. Ambulance transfers from a hospital based emergency room to another hospital more capable of
(A) Ambulance service cannot be used instead of taxi service and is not payable when the patient’s condition would have permitted use of regular private transportation; nor is it payable when transport or transfer of a patient is primarily for the purpose of having the patient nearer to home, family, friends, or personal physician. Except as described in paragraph (d)(3)(v)(C)(1)(D) of this section transport must be to the closest appropriate facility by the least costly means.

(C) Except as described in paragraph (d)(3)(v)(C)(1)(D) of this section, ambulance service by other than land vehicles (such as a boat or airplane) may be considered only when the pickup point is inaccessible by a land vehicle, or when great distance or other obstacles are involved in transporting the patient to the nearest hospital with appropriate facilities and the patient’s medical condition warrants speedy admission or is such that transfer by other means is contraindicated. (i) Advanced life support air ambulance and certified advanced life support attendant are covered services for solid organ and stem cell transplant candidates.

(e) * * * *

(5) Transplants. (i) Organ transplants. Basic Program benefits are available for otherwise covered services or supplies in connection with an organ transplant procedure, provided such transplant procedure is in accordance with accepted professional medical standards and is not considered unproven. (A) General. (1) Benefits may be allowed for medically necessary services and supplies related to an organ transplant for:

(i) Evaluation of potential candidate’s suitability for an organ transplant, whether or not the patient is ultimately accepted as a candidate for transplant.

(ii) Pre- and post-transplant inpatient hospital and outpatient services.

(iii) Pre- and post-operative services of the transplant team.

(iv) Blood and blood products.

(c) FDA approved immunosuppression drugs to include off-label use when determined to be medically necessary for the treatment of the condition for which it is administered, according to accepted standards of medical practice.

(ii) Complications of the transplant procedure, including inpatient care, management of infection and rejection episodes.

(iii) Periodic evaluation and assessment of the successfully transplanted patient.

(viii) The donor acquisition team, including the costs of transportation to the location of the donor organ and transportation of the team and the donated organ to the location of the transplant center.

(i) The maintenance of the viability of the donor organ after all existing legal requirements for excision of the donor organ have been met.

(2) TRICARE benefits are payable for recipient costs when the recipient of the transplant is a CHAMPUS beneficiary, whether or not the donor is a CHAMPUS beneficiary.

(3) Donor costs are payable when:

(i) Both the donor and recipient are CHAMPUS beneficiaries.

(ii) The donor is a CHAMPUS beneficiary but the recipient is not.

(iii) The donor is the sponsor and the recipient is a CHAMPUS beneficiary. (In such an event, donor costs are paid as a part of the beneficiary and recipient costs.)

(iv) The donor is neither a CHAMPUS beneficiary nor a sponsor, if the recipient is a CHAMPUS beneficiary. (Again, in such an event, donor costs are paid as a part of the beneficiary and recipient costs.)

(4) If the donor is not a CHAMPUS beneficiary, TRICARE benefits for donor costs are limited to those directly related to the transplant procedure itself and do not include any medical care costs related to other treatment of the donor, including complications.

(5) TRICARE benefits will not be allowed for transportation of an organ donor.

(B) [Reserved]

(11) Stem cell transplants. TRICARE benefits are payable for beneficiaries whose conditions are considered appropriate for stem cell transplant according to guidelines adopted by the Executive Director, TMA, or a designee.

(21) Pulmonary rehabilitation. TRICARE benefits are payable for beneficiaries whose conditions are considered appropriate for pulmonary rehabilitation according to guidelines adopted by the Executive Director, TMA, or a designee.
§199.5  Program for Persons with Disabilities (PFPWD).

(a) General. This PFPWD provides financial assistance for certain CHAMPUS beneficiaries who are moderately or severely mentally retarded, or seriously physically disabled. The PFPWD is not intended to be a stand alone benefit.

(1) Purpose. The primary purpose of the PFPWD is to assist in reducing the disabling effects of a PFPWD qualifying condition.

(2) Benefit source election. A PFPWD beneficiary (or sponsor or guardian acting on behalf of the beneficiary) may elect to use the provisions of either this section, or the provisions of §199.4, for a specific service or item which is allowable by both sections.

(i) Election limitation. No amount for authorized, or otherwise allowed, PFPWD services or items remaining after the maximum PFPWD benefit dollar amount has been reached in a given month may be cost-shared through the provisions of §199.4.

(ii) Election change. A beneficiary (or sponsor or guardian acting on behalf of the beneficiary) shall have the right to request the Director, OCHAMPUS, or designee, to allow PFPWD cost-shared services or items otherwise allowable as a benefit of §199.4, and which were rendered after the catastrophic loss protection provision applicable to §199.4 was in effect for a given PFPWD beneficiary’s sponsor, to be readjudicated according to the provisions of §199.4. The Director, OCHAMPUS, or designee, shall allow readjudication when the sponsor's family’s CHAMPUS benefit year cost-share liability would be reduced by such readjudication. Such requests are subject to the claims filing deadline provisions of §199.7.

(b) Application required. A beneficiary shall establish PFPWD eligibility as a prerequisite to authorization or payment of any PFPWD benefits. Subsequent review of the PFPWD qualifying condition to confirm continued eligibility shall be made in accordance with the prognosis for a change in severity such that the condition would not like-ly continue to be a PFPWD qualifying condition.

(4) Benefit authorization. To establish whether a requested service or item is a PFPWD benefit, the beneficiary (or sponsor or guardian acting on the behalf of the beneficiary) shall provide such information about how the requested benefit will contribute to confirming, arresting, or reducing the disabling effects of the qualifying condition as the Director, OCHAMPUS, or designee, determines necessary for benefit adjudication.

(i) Written authorization. The Director, OCHAMPUS, or designee, may require written authorization for any PFPWD category or type of service or item as a prerequisite for adjudication of related claims.

(ii) Format. An authorization issued by the Director, OCHAMPUS, or designee, shall specify, such description, dates, amounts, requirements, limitations or information as necessary for exact identification of approved benefits and efficient adjudication of resulting claims.

(iii) Valid period. An authorization for a PFPWD service or item shall not exceed twelve consecutive months.

(iv) Authorization waiver. The Director, OCHAMPUS, or designee, shall waive the requirement for a written CHAMPUS authorization for rendered PFPWD services or items that, except for the absence of the written CHAMPUS authorization, would be allowable as a PFPWD benefit.

(v) Public facility use. A PFPWD beneficiary residing within a State, as defined in §199.2, must demonstrate that a public facility, as defined in §199.2, funds, except funds administered under a State plan for medical assistance under Title XIX of the Social Security Act (Medicaid) is not available or adequate, as defined in §199.2, to meet the qualifying condition related need.

(A) Equipment repair or maintenance for beneficiary owned equipment shall be considered not available when the equipment is a type allowable as a benefit.

(B) A beneficiary shall not be required to change the provider of public facility funded therapy when public facility funding is depleted during that beneficiary’s course of therapy and
Office of the Secretary of Defense

§ 199.5

when such a change is determined by the Director, OCHAMPUS, or designee, to be clinically contraindicated. When contraindicated, other public facilities for the therapy shall not be considered adequate for the beneficiary.

(5) Public facility use certification. Written certification, in accord with information requirements, formats, and procedures established by the Director, OCHAMPUS, or designee that requested PFPWD services or items cannot be obtained from public facilities because the services or items are not available, or if available, are not adequate, is a prerequisite for PFPWD benefit payment.

(i) A Military Treatment Facility (MTF) Commander, or designee, may make such certification for a beneficiary residing within a defined geographic area.

(ii) An administrator of a public facility, or designee, may make such certification for a beneficiary residing within the service area of that public facility.

(iii) The domicile of the beneficiary shall be the basis for the determination of public facility availability when the sponsor and beneficiary are separately domiciled due to the sponsor’s move to a new permanent duty station or due to legal custody requirements.

(iv) The Director, OCHAMPUS, or designee, may determine, on a case-by-case basis, that apparent public facility availability for a requested type of service or item can not be substantiated for a specific beneficiary’s request for PFPWD benefits and is not available.

(A) A case-specific determination shall be based upon a written statement by the beneficiary (or sponsor or guardian acting on behalf of the beneficiary) which details the circumstances wherein a specific individual representing a specific public facility refused to provide a public facility use certification, and such other information as the Director, OCHAMPUS, or designee determines to be material to the determination.

(B) A case-specific determination of public facility availability by the Director, OCHAMPUS, or designee, is conclusive, and is not appealable.

(v) The requirements of this paragraph (a)(5) notwithstanding, no Public Facility Use Certification is required for medical services and items that are provided under Part C of the Individuals with Disabilities Education Act in accordance with the Individualized Family Service Plan and that are otherwise allowable under the CHAMPUS Basic Program or the PFPWD.

(6) Equipment. (i) An item of equipment shall not be authorized when such authorization would allow concurrent PFPWD cost-sharing of more than one item of the same type of equipment for the same beneficiary.

(ii) Reasonable repairs and maintenance shall be allowable for any beneficiary owned equipment otherwise allowable by this section.

(7) Implementing instructions. The Director, OCHAMPUS, or designee shall issue policies, instructions, procedures, guidelines, standards, and criteria necessary to assure the quality and efficiency of services and items furnished as a PFPWD benefit and to otherwise accomplish the purpose of the PFPWD.

(i) Other requirements. All provisions of this part, except the provisions of §199.4, apply to the PFPWD unless otherwise provided by this section.

(ii) Continuity of eligibility. A CHAMPUS beneficiary who has an outstanding Program for the Handicapped (PFTH) benefit authorization during the 30 calendar day period immediately prior to the effective date of the Program for Persons with Disabilities (PFPWD) shall be deemed to have a PFPWD qualifying condition for the duration of the period during which the beneficiary is otherwise eligible for PFPWD and the beneficiary continues to meet the applicable PFTH qualifying condition criteria.

(b) Eligibility—(1) Spouse or child. PFPWD benefits are limited to a CHAMPUS eligible child or spouse, but not a former spouse, except as provided in paragraph (b)(1)(ii) of this section, of:

(i) Active duty sponsor. An active duty member of one of the Uniformed Services as determined in accordance with the provisions of §199.3; or

(ii) Former member sponsor. After November 13, 1986, a former member of a
§ 199.5 Uniformed Service, when the qualifying condition is the result of, or has been exacerbated by, an injury or illness resulting from physical or emotional abuse; or

(iii) Deceased sponsor. A CHAMPUS beneficiary remains eligible for benefits under the PFPWD:

(A) For a period of three calendar years from the date an active duty sponsor dies; or

(B) Through midnight of the beneficiary’s twenty-first birthday when the beneficiary is receiving PFPWD benefits at the time the active duty sponsor dies and the sponsor was eligible, at the time of death, for receipt of hostile-fire pay or died as a result of a disease or injury incurred while eligible for such pay.

(2) Loss of PFPWD eligibility. Eligibility for PFPWD benefits ceases as of 12:01 a.m. of the day following the day that:

(i) The sponsor ceases to be an active duty member for any reason other than death; or

(ii) Eligibility based upon the abused dependent provisions of paragraph (b)(1) of this section expires; or

(iii) Eligibility based upon the deceased sponsor provisions of paragraph (b)(1) of this section expires; or

(iv) The Director, OCHAMPUS, or designee, determines that the beneficiary no longer has a qualifying condition.

(3) Qualifying condition—

(i) Mental retardation. A diagnosis of moderate or severe mental retardation made in accordance with the criteria of the current edition of the “Diagnostic and Statistical Manual of Mental Disorders” published by the American Psychiatric Association is a PFPWD qualifying condition.

(ii) Serious physical disability. A serious physical disability as defined in §199.2, is a PFPWD qualifying condition.

(iii) Infant/toddler. For CHAMPUS beneficiaries under the age of three years with a diagnosed neuromuscular developmental condition or Down syndrome, or other condition that can to a reasonable medical probability be expected to precede a diagnosis of moderate or severe mental retardation or be characterized as a serious physical disability before the age of seven, the Director, OCHAMPUS, or designee, shall establish criteria for PFPWD eligibility in lieu of the requirements of paragraph (b)(3)(i) or paragraph (b)(3)(ii) of this section.

(iv) Multiple disabilities. The cumulative disabling effect shall be used in the adjudication of a qualifying condition determination when an applicant has two or more disabilities involving separate body systems.

(c) Benefit. Items or services which the Director, OCHAMPUS, or designee, has determined to be intrinsic to the following benefit categories and has determined to be capable of confirming, arresting, or reducing the severity of the disabling effects of a qualifying condition, generally or in a specific case, and which are not otherwise excluded by this PFPWD, may be allowed.

(1) Diagnostic procedures to establish a qualifying condition diagnosis or to measure the extent of functional loss.

(2) Treatment through the use of such medical, habilitative, or rehabilitative methods, techniques, therapies and equipment which otherwise meet the requirements of this PFPWD. Treatment includes, but is not limited to, prosthetic devices, orthopedic braces, and orthopedic appliances. Otherwise allowable treatment may be rendered in-home, or as inpatient or outpatient care as appropriate.

(3) Training when required to allow the use of an assistive technology device or to acquire skills which are expected to assist the beneficiary to reduce the disabling effects of a qualifying condition and for parents (or guardian) and siblings of a PFPWD beneficiary when required as an integral part of the management of the qualifying condition.

(4) Special education instruction, other than training specifically designed to accommodate the disabling effects of a qualifying condition.

(5) Institutional care within a State, as defined in §199.2, when the severity of the qualifying condition requires protective custody or training in a residential environment.

(6) Transportation when required to convey the PFPWD beneficiary to or from a facility or institution to receive
otherwise allowable services or items. Transportation for a medical attendant may be approved when medically necessary for the safe transport of the PFPWD eligible beneficiary.

(7) Adjunct services—(i) Assistive services. Services of a qualified interpreter or translator for PFPWD beneficiaries who are deaf, readers for PFPWD beneficiaries who are blind, and personal assistants for PFPWD beneficiaries with other types of qualifying conditions, when such services are not directly related to the rendering or delivery of service or item otherwise an allowable PFPWD benefit.

(ii) Equipment adaptation. The allowable equipment purchase shall encompass such services and structural modification to the equipment as necessary to make the equipment serviceable for a particular disability.

(iii) Equipment maintenance. Reasonable repairs and maintenance for that portion of the useful life of beneficiary owned equipment that is concurrent with the beneficiary’s PFPWD eligibility.

(d) Exclusions—(1) Inpatient acute care for medical or surgical treatment of an acute illness, or of an acute exacerbation of the qualifying condition, is excluded.

(2) Structural alterations to living space and permanent fixtures attached thereto, including alterations necessary to accommodate installation of equipment, or to facilitate entrance or exit, are excluded.

(3) Homemaker, sitter, or companion services, except as institutional care of adjunct services, which predominantly provide assistance with daily living activities or accomplish household chores or provide companionship or provide supervision or observation, or any combination of these functions, are excluded.

(4) Dental care or orthodontic treatment is excluded.

(5) Nondomestic travel which originates or terminates outside of a State, as defined in §199.2, is excluded.

(6) Deluxe travel accommodation price differential between the price for a type of accommodation which provides services or features which exceed the requirements of the beneficiary’s condition for safe transport and the price for a type of accommodation without those deluxe features, is excluded.

(7) Equipment. Exclusions for durable medical equipment at §199.4(d)(3)(i)(D) apply to all PFPWD allowable equipment.

(8) Medical devices. Prosthetic devices and medical equipment which do not meet the benefit requirements of §199.4 are excluded.

(9) No obligation to pay. Services or items for which the beneficiary or sponsor has no legal obligation to pay, or for which no charge would be made if the beneficiary was not eligible for the CHAMPUS, are excluded.

(10) Public facility or Federal government. Services or items paid for, or eligible for payment, directly or indirectly by a Public Facility, as defined in §199.2, or by the Federal government, other than the Department of Defense, are excluded, except when such services or items are eligible for payment under a State plan for medical assistance under Title XIX of the Social Security Act (Medicaid).

(11) Study, grant, or research programs. Services and items provided as a part of a scientific clinical study, grant, or research program are excluded.

(12) Unproven drugs, devices, and medical treatments or procedures. Services and items whose safety and efficacy have not been established as described in §199.4 are unproven and cannot be cost-shared by CHAMPUS.

(13) Immediate family or household. Services or items provided or prescribed by a member of the beneficiary’s immediate family, or a person living in the beneficiary’s or sponsor’s household, are excluded.

(14) Court or agency ordered care. Services or items ordered by a court or other government agency that are not otherwise a legitimate PFPWD benefit are excluded.

(15) Excursions. Additional or special charges for excursions, other than otherwise allowable transportation, are excluded even though part of a program offered by an approved provider.

(16) Drugs and medicines. Drugs and medicines which do not meet the benefit requirements of §199.4 are excluded.
§ 199.5 32 CFR Ch. I (7–1–02 Edition)

(17) Therapeutic absences. Therapeutic absences from an inpatient facility are excluded.

(e) Cost-share liability—(1) No deductible. PFPWD benefits are not subject to a deductible amount.

(2)(i) Sponsor cost-share liability. Regardless of the number of PFPWD eligible family members, the sponsor’s cost share for allowed PFPWD benefits in a given month is according to the following table:

<table>
<thead>
<tr>
<th>Member’s pay grade</th>
<th>Monthly share</th>
</tr>
</thead>
<tbody>
<tr>
<td>E–1 through E–5</td>

</table>

(ii) The sponsor’s cost-share will be applied, up to the amount given in the table in paragraph (e)(2)(i), to the first allowed charges in any given month. The government’s share will be paid, up to the maximum amount(s) specified in paragraphs (e)(3) and (e)(4) of this section for allowed charges after the sponsor’s cost-share has been applied.

(3) Government cost-share liability: member who sponsors one PFPWD beneficiary. The total government share of the cost of all PFPWD benefits provided in a given month to a beneficiary who is the sponsor’s only PFPWD eligible family member may not exceed $1,000 after application of the allowable payment methodology. Any amount remaining after the Government’s maximum share has been reached is the responsibility of the active duty sponsor.

(4) Government cost-share liability: member who sponsors more than one PFPWD beneficiary. The total government share of the cost of all PFPWD allowable benefits provided in a given month to a beneficiary who is one of two or more PFPWD eligible family members of the same sponsor shall be determined as follows:

(i) Maximum benefit limit determination for the first PFPWD eligible beneficiary. The $1,000 maximum monthly government PFPWD benefit amount shall apply only to the beneficiary incurring the least amount of allowable PFPWD expense in a given month, after application of the allowable payment methodology. If two or more PFPWD eligible beneficiaries have the same amount of allowable PFPWD expenses in a given month, the $1,000 maximum benefit in that month shall apply to only one PFPWD eligible beneficiary.

(ii) Maximum benefit limit determination for the remaining PFPWD eligible beneficiaries. After application of the Government’s cost-share specified in paragraph (e)(4)(i) of this section, the government shall cost-share the entire remaining amount for all allowable services and items received in that month by the remaining PFPWD eligible beneficiaries.

(f) Benefit payment—(1) Equipment. The allowable amount for equipment shall be calculated in the same manner as durable medical equipment allowable through §199.4.

(2) Transportation. The allowable amount for transportation is limited to the actual cost of the standard published fare plus any standard surcharge made to accommodate any person with a similar disability or to the actual cost of specialized medical transportation when nonspecialized transport cannot accommodate the beneficiary’s disability related needs, or when specialized transport is more economical than nonspecialized transport. When transport is by private vehicle, the allowable amount is limited to the Federal government employee mileage reimbursement rate in effect on the trip date.

(3) Proration of equipment expense. The PFPWD beneficiary (or sponsor or guardian acting on the beneficiary’s behalf) may, only at the time of the request for authorization of equipment, specify that the allowable cost of the equipment be prorated. Equipment expense proration permits the allowable cost of an item of PFPWD authorized equipment to be apportioned so that no portion of the allowable cost exceeds the monthly benefit limit and allows each apportioned amount to be separately authorized as a benefit during subsequent contiguous months.
§ 199.6 Authorized providers.

(a) General. This section sets forth general policies and procedures that are the basis for the CHAMPUS cost-sharing of medical services and supplies provided by institutions, individuals, or other types of providers. Providers seeking payment from the Federal Government through programs such as CHAMPUS have a duty to familiarize themselves with, and comply with, the program requirements.

(1) Listing of provider does not guarantee payment of benefits. The fact that a type of provider is listed in this section is not to be construed to mean that CHAMPUS will automatically pay a claim for services or supplies provided by such a provider. The provider who actually furnishes the service(s) must, in fact, meet all licensing and other requirements established by this part to be an authorized provider; the provider must not be the subject of sanction under §199.9; and, cost-sharing of the services must not otherwise be prohibited by this part. In addition, the patient must in fact be an eligible beneficiary and the services or supplies billed must be authorized and medically necessary, regardless of the standing of the provider.

(2) Outside the United States or emergency situations within the United States. Outside the United States or within the United States and Puerto Rico in emergency situations, the Director, OCHAMPUS, or a designee, after review of the facts, may provide payment to or on behalf of a beneficiary who receives otherwise covered services or supplies from a provider of service that does not meet the standards described in this part.

NOTE: Only the Secretary of Defense, the Secretary of Health and Human Services, or the Secretary of Transportation, or their designees, may authorize (in emergency situations) payment to civilian facilities in the United States that are not in compliance with title VI of the Civil Rights Act of 1964. For the purpose of the Civil Rights Act only, the United States includes the 50 states, the District of Columbia, Puerto Rico, Virgin Islands, American Samoa, Guam, Wake Island, Canal Zone, and the territories and possessions of the United States.

(3) Dual Compensation/Conflict of Interest. Title 5, United States Code, section 5536 prohibits medical personnel who...
are active duty Uniformed Service members or civilian employees of the Government from receiving additional Government compensation above their normal pay and allowances for medical care furnished. In addition, Uniformed Service members and civilian employees of the Government are generally prohibited by law and agency regulations and policies from participating in apparent or actual conflict of interest situations in which a potential for personal gain exists or in which there is an appearance of impropriety or incompatibility with the performance of their official duties or responsibilities. The Departments of Defense, Health and Human Services, and Transportation have a responsibility, when disbursing appropriated funds in the payment of CHAMPUS benefits, to ensure that the laws and regulations are not violated. Therefore, active duty Uniformed Service members (including a reserve member while on active duty and civilian employees of the United States Government shall not be authorized to be CHAMPUS providers. While individual employees of the Government may be able to demonstrate that the furnishing of care to CHAMPUS beneficiaries may not be incompatible with their official duties and responsibilities, the processing of millions of CHAMPUS claims each year does not enable Program administrators to efficiently review the status of the provider on each claim to ensure that no conflict of interest or dual compensation situation exists. The problem is further complicated given the numerous interagency agreements (for example, resource sharing arrangements between the Department of Defense and the Veterans Administration in the provision of health care) and other unique arrangements which exist at individual treatment facilities around the country. While an individual provider may be prevented from being an authorized CHAMPUS provider even though no conflict of interest or dual compensation situation exists, it is essential for CHAMPUS to have an easily administered, uniform rule which will ensure compliance with the existing laws and regulations. Therefore, a provider who is an active duty Uniformed Service member or civilian employee of the Government shall not be an authorized CHAMPUS provider. In addition, a provider shall certify on each CHAMPUS claim that he/she is not an active duty Uniformed Service member or civilian employee of the Government.

(4) [Reserved]

(5) Utilization review and quality assurance. Providers approved as authorized CHAMPUS providers have certain obligations to provide services and supplies under CHAMPUS which are (i) furnished at the appropriate level and only when and to the extent medically necessary under the criteria of this part; (ii) of a quality that meets professionally recognized standards of health care; and, (iii) supported by adequate medical documentation as may be reasonably required under this part by the Director, OCHAMPUS, or designee, to evidence the medical necessity and quality of services furnished, as well as the appropriateness of the level of care. Therefore, the authorization of CHAMPUS benefits is contingent upon the services and supplies furnished by any provider being subject to pre-payment or post-payment utilization and quality assurance review under professionally recognized standards, norms, and criteria, as well as any standards or criteria issued by the Director, OCHAMPUS, or a designee, pursuant to this part. (Refer to §§199.4, 199.5, and 199.7 of this part.)

(6) Exclusion of beneficiary liability. In connection with certain utilization review, quality assurance and preauthorization requirements of section 199.4 of this part, providers may not hold patients liable for payment for certain services for which CHAMPUS payment is disallowed. With respect to such services, providers may not seek payment from the patient or the patient’s family. Any such effort to seek payment is a basis for termination of the provider’s authorized status.

(7) Provider required. In order to be considered for benefits, all services and supplies shall be rendered by, prescribed by, or furnished at the direction of, or on the order of a CHAMPUS-authorized provider practicing within the scope of his or her license.
§ 199.6

(8) Participating providers. A CHAMPUS-authorized provider is a participating provider, as defined in §199.2 under the following circumstances:

(i) Mandatory participation. (A) All Medicare-participating hospitals must be CHAMPUS participating providers for all inpatient CHAMPUS claims.

(B) Hospitals that are not Medicare-participating but are subject to the CHAMPUS-DRG-based payment methodology or the CHAMPUS mental health payment methodology as established by §199.14(a), must enter into a participation agreement with CHAMPUS for all inpatient claims in order to be a CHAMPUS-authorized provider.

(C) Corporate services providers authorized as CHAMPUS providers under the provisions of paragraph (f) of this section must enter into a participation agreement with the Director, OCHAMPUS, or designee.

(ii) Voluntary participation—(A) Total claims participation: The participating provider program. A CHAMPUS-authorized provider that is not required to participate by this part may become a participating provider by entering into an agreement or memorandum of understanding (MOU) with the Director, OCHAMPUS, or designee, which includes, but is not limited to, the provisions of paragraph (a)(13) of this section. The Director, OCHAMPUS, or designee, may include in a participating provider agreement/MOU provisions that establish between CHAMPUS and a class, category, type, or specific provider, uniform procedures and conditions which encourage provider participation while improving beneficiary access to benefits and contributing to CHAMPUS efficiency. Such provisions shall be otherwise allowed by this part or by DoD Directive or DoD Instruction specifically pertaining to CHAMPUS claims participation. Participating provider program provisions may be incorporated into an agreement/MOU to establish a specific CHAMPUS-provider relationship, such as a preferred provider arrangement.

(B) Claim-specific participation. A CHAMPUS-authorized provider that is not required to participate and that has not entered into a participation agreement pursuant to paragraph (a)(8)(i)(A) of this section may elect to be a participating provider on a claim-by-claim basis by indicating “accept assignment” on each claim form for which participation is elected.

(9) Limitation to authorized institutional provider designation. Authorized institutional provider status granted to a specific institutional provider applicant does not extend to any institution-affiliated provider, as defined in §199.2, of that specific applicant.

(10) Authorized provider. A hospital or institutional provider, physician, or other individual professional provider, or other provider of services or supplies specifically authorized in this chapter to provide benefits under CHAMPUS. In addition, to be an authorized CHAMPUS provider, any hospital which is a CHAMPUS participating provider under paragraph (a)(7) of this section, shall be a participating provider for all care, services, or supplies furnished to an active duty member of the uniformed services for which the active duty member is entitled under 10 U.S.C. 1074(c). As a participating provider for active duty members, the CHAMPUS authorized hospital shall provide such care, services, and supplies in accordance with the payment rules of §199.16 of this part. The failure of any CHAMPUS participating hospital to be a participating provider for any active duty member subjects the hospital to termination of the hospital’s status as a CHAMPUS authorized provider for failure to meet the qualifications established by this part.

(11) Balance billing limits.

(i) In general. Individual providers who are not Participating Providers may not balance bill a beneficiary an amount which exceeds the applicable balance billing limit. The balance billing limit shall be the same percentage as the Medicare limiting charge percentage for nonparticipating physicians.

(ii) Waiver. The balance billing limit may be waived by the Director, OCHAMPUS on a case-by-case basis if requested by a CHAMPUS beneficiary. A decision by the Director, OCHAMPUS to waive or not waive the
limit in any particular case is not subject to the appeal and hearing procedures of §199.10. (iii) Compliance. Failure to comply with the balance billing limit shall be considered abuse and/or fraud and grounds of exclusion or suspension of the provider under §199.9.

(12) Medical records. CHAMPUS-authorized provider organizations and individuals providing clinical services shall maintain adequate clinical records to substantiate that specific care was actually furnished, was medically necessary, and appropriate, and identify(ies) the individual(s) who provided the care. This applies whether the care is inpatient or outpatient. The minimum requirements for medical record documentation are set forth by all of the following:

(i) The cognizant state licensing authority;
(ii) The Joint Commission on Accreditation of Healthcare Organizations, or the appropriate Qualified Accreditation Organization as defined in §199.2;
(iii) Standards of practice established by national medical organizations; and
(iv) This part.

(13) Participation agreements. A participation agreement otherwise required by this part shall include, in part, all of the following provisions requiring that the provider shall:

(i) Not charge a beneficiary for the following:
   (A) Services for which the provider is entitled to payment from CHAMPUS;
   (B) Services for which the beneficiary would be entitled to have CHAMPUS payment made had the provider complied with certain procedural requirements.
   (C) Services not medically necessary and appropriate for the clinical management of the presenting illness, injury, disorder or maternity;
   (D) Services for which a beneficiary would be entitled to payment but for a reduction or denial in payment as a result of quality review; and
   (E) Services rendered during a period in which the provider was not in compliance with one or more conditions of authorization;

(ii) Comply with the applicable provisions of this part and related CHAMPUS administrative policy;

(iii) Accept the CHAMPUS determined allowable payment combined with the cost-share, deductible, and other health insurance amounts payable by, or on behalf of, the beneficiary, as full payment for CHAMPUS allowed services;

(iv) Collect from the CHAMPUS beneficiary those amounts that the beneficiary has a liability to pay for the CHAMPUS deductible and cost-share;

(v) Permit access by the Director, OCHAMPUS, or designee, to the clinical record of any CHAMPUS beneficiary, to the financial and organizational records of the provider, and to reports of evaluations and inspections conducted by state, private agencies or organizations;

(vi) Provide the Director, OCHAMPUS, or designee, prompt written notification of the provider’s employment of an individual who, at any time during the twelve months preceding such employment, was employed in a managerial, accounting, auditing, or similar capacity by an agency or organization which is responsible, directly or indirectly for decisions regarding Department of Defense payments to the provider;

(vii) Cooperate fully with a designated utilization and clinical quality management organization which has a contract with the Department of Defense for the geographic area in which the provider renders services;

(viii) Obtain written authorization before rendering designated services or items for which CHAMPUS cost-share may be expected;

(ix) Maintain clinical and other records related to individuals for whom CHAMPUS payment was made for services rendered by the provider, or otherwise under arrangement, for a period of 60 months from the date of service;

(x) Maintain contemporaneous clinical records that substantiate the clinical rationale for each course of treatment, periodic evaluation of the efficacy of treatment, and the outcome at completion or discontinuation of treatment;

(xi) Refer CHAMPUS beneficiaries only to providers with which the referring provider does not have an economic interest, as defined in §199.2; and
(xii) Limit services furnished under arrangement to those for which receipt of payment by the CHAMPUS authorized provider discharges the payment liability of the beneficiary.

(14) Implementing instructions. The Director, OCHAMPUS, or a designee, shall issue CHAMPUS policies, instructions, procedures, and guidelines, as may be necessary to implement the intent of this section.

(15) Exclusion. Regardless of any provision in this section, a provider who is suspended, excluded, or terminated under §199.9 of this part is specifically excluded as an authorized CHAMPUS provider.

(b) Institutional providers—(1) General. Institutional providers are those providers who bill for services in the name of an organizational entity (such as hospital and skilled nursing facility), rather than in the name of a person. The term “institutional provider” does not include professional corporations or associations qualifying as a domestic corporation under §301.7701–5 of the Internal Revenue Service Regulations nor does it include other corporations that provide principally professional services. Institutional providers may provide medical services and supplies on either an inpatient or outpatient basis.

(i) Preauthorization. Preauthorization may be required by the Director, OCHAMPUS for any health care service for which payment is sought under CHAMPUS. (See §§199.4 and 199.15 for further information on preauthorization requirements.)

(ii) Billing practices.

(A) Each institutional billing, including those institutions subject to the CHAMPUS DRG-based reimbursement method or a CHAMPUS-determined all-inclusive rate reimbursement method, must be itemized fully and sufficiently descriptive for the CHAMPUS to make a determination of benefits.

(B) Institutional claims subject to the CHAMPUS DRG-based reimbursement method or a CHAMPUS-determined all-inclusive rate reimbursement method, may be submitted only after the beneficiary has been discharged or transferred from the institutional provider’s facility or program.

(C) Institutional claims for Residential Treatment Centers and all other institutional providers, except those listed in (B) above, should be submitted to the appropriate CHAMPUS fiscal intermediary at least every 30 days.

(2) Nondiscrimination policy. Except as provided below, payment may not be made for inpatient or outpatient care provided and billed by an institutional provider found by the Federal Government to practice discrimination in the admission of patients to its services on the basis of race, color, or national origin. Reimbursement may not be made to a beneficiary who pays for care provided by such a facility and submits a claim for reimbursement. In the following circumstances, the Secretary of Defense, or a designee, may authorize payment for care obtained in an ineligible facility:

(i) Emergency care. Emergency inpatient or outpatient care.

(ii) Care rendered before finding of a violation. Care initiated before a finding of a violation and which continues after such violation when it is determined that a change in the treatment facility would be detrimental to the health of the patient, and the attending physician so certifies.

(iii) Other facility not available. Care provided in an ineligible facility because an eligible facility is not available within a reasonable distance.

(3) Procedures for qualifying as a CHAMPUS-approved institutional provider. General and special hospitals otherwise meeting the qualifications outlined in paragraphs (b)(4)(i), (ii), and (iii), of this section are not required to request CHAMPUS approval formally.

(i) JCAH accreditation status. Each CHAMPUS fiscal intermediary shall keep informed as to the current JCAH accreditation status of all hospitals and skilled nursing facilities in its area; and the provider’s status under Medicare, particularly with regard to compliance with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d(1)). The Director, OCHAMPUS, or a designee, shall specifically approve all other authorized institutional providers providing services to CHAMPUS beneficiaries. At the discretion of the Director, OCHAMPUS, any facility
that is certified and participating as a provider of services under title XVIII of the Social Security Act (Medicare), may be deemed to meet CHAMPUS requirements. The facility must be providing a type and level of service that is authorized by this part.

(ii) Required to comply with criteria. Facilities seeking CHAMPUS approval will be expected to comply with appropriate criteria set forth in paragraph (b)(4) of this section. They also are required to complete and submit CHAMPUS Form 200, “Required Information, Facility Determination Instructions,” and provide such additional information as may be requested by OCHAMPUS. An onsite evaluation, either scheduled or unscheduled, may be conducted at the discretion of the Director, OCHAMPUS, or a designee. The final determination regarding approval, reapproval, or disapproval of a facility will be provided in writing to the facility and the appropriate CHAMPUS fiscal intermediary.

(iii) Notice of peer review rights. All health care facilities subject to the DRG-based payment system shall provide CHAMPUS beneficiaries, upon admission, with information about peer review including their appeal rights. The notices shall be in a form specified by the Director, OCHAMPUS.

(iv) Surveying of facilities. The surveying of newly established institutional providers and the periodic resurveying of all authorized institutional providers is a continuing process conducted by OCHAMPUS.

(v) Institutions not in compliance with CHAMPUS standards. If a determination is made that an institution is not in compliance with one or more of the standards applicable to its specific category of institution, CHAMPUS shall take immediate steps to bring about compliance or terminate the approval as an authorized institution in accordance with §199.9(f)(2).

(vi) Participation agreements required for some hospitals which are not Medicare-participating. Notwithstanding the provisions of this paragraph (B)(3), a hospital which is subject to the CHAMPUS DRG-based payment system but which is not a Medicare-participating hospital must request and sign an agreement with OCHAMPUS. By signing the agreement, the hospital agrees to participate on all CHAMPUS inpatient claims and accept the requirements for a participating provider as contained in paragraph (a)(8) of §199.6. Failure to sign such an agreement shall disqualify such hospital as a CHAMPUS-approved institutional provider.

(4) Categories of institutional providers. The following categories of institutional providers may be reimbursed by CHAMPUS for services provided CHAMPUS beneficiaries subject to any and all definitions, conditions, limitations, and exclusions specified or enumerated in this part.

(i) Hospitals, acute care, general and special. An institution that provides inpatient services, that also may provide outpatient services (including clinical and ambulatory surgical services), and that:

(A) Is engaged primarily in providing to inpatients, by or under the supervision of physicians, diagnostic and therapeutic services for the medical or surgical diagnosis and treatment of illness, injury, or bodily malfunction (including maternity).

(B) Maintains clinical records on all inpatients (and outpatients if the facility operates an outpatient department or emergency room).

(C) Has bylaws in effect with respect to its operations and medical staff.

(D) Has a requirement that every patient be under the care of a physician.

(E) Provides 24-hour nursing service rendered or supervised by a registered professional nurse, and has a licensed practical nurse or registered professional nurse on duty at all times.

(F) Has in effect a hospital utilization review plan that is operational and functioning.

(G) In the case of an institution in a state in which state or applicable local law provides for the licensing of hospitals, the hospital:

(1) Is licensed pursuant to such law, or

(2) Is approved by the agency of such state or locality responsible for licensing hospitals as meeting the standards established for such licensing.

(H) Has in effect an operating plan and budget.
(I) Is accredited by the JCAH or meets such other requirements as the Secretary of Health and Human Services, the Secretary of Transportation, or the Secretary of Defense finds necessary in the interest of the health and safety of patients who are admitted to and furnished services in the institution.

(ii) Liver transplantation centers. (A) CHAMPUS shall provide coverage for liver transplantation procedures performed only by experienced transplant surgeons at centers complying with the provisions outlined in paragraph (b)(4)(i) of this section and meeting the following criteria:

1. The center is a tertiary care facility affiliated with an academic health center. The center must have accredited programs in graduate medical education related to the function of liver transplantation such as internal medicine, pediatrics, surgery, and anesthesiology;

2. The center has an active solid organ transplantation program (involving liver transplants as well as other organs);

3. The transplantation center must have at least a 50 percent one-year survival rate for ten cases. At the time CHAMPUS approval is requested, the transplant center must provide evidence that at least ten liver transplants have been performed at the center and that at least 50 percent of those transplanted patients have survived one year following surgery. A 50 percent one-year survival rate for all subsequent liver transplantations must be maintained for continued CHAMPUS approval;

4. The center has allocated sufficient operating room, recovery room, laboratory, and blood bank support and a sufficient number of intensive care and general surgical beds and specialized staff for these areas;

5. The center participates in a donor procurement program and network;

6. The center systematically collects and shares data on its transplant program;

7. The center has an interdisciplinary body to determine the suitability of candidates for transplantation on an equitable basis;

8. The transplantation surgeon is specifically trained for liver grafting and must assemble and train a team to function whenever a donor liver is available;

9. The transplantation center must have on staff board eligible or board certified physicians and other experts in the field of hepatology, pediatrics, infectious disease, nephrology with dialysis capability, pulmonary medicine with respiratory therapy support, pathology, immunology, and anesthesiology to complement a qualified transplantation team;

10. The transplantation center has the assistance of appropriate microbiology, clinical chemistry, and radiology support;

11. The transplantation center has blood bank support to accommodate normal demands and the transplant procedure; and

12. The transplantation center includes the availability of psychiatric and social services support for patients and family.

(B) In order to receive approval as a CHAMPUS authorized liver transplant center, a center must submit a request to the Director, CHAMPUS, or a designee. The CHAMPUS authorized liver transplant center shall agree to the following:

1. Bill for all services and supplies related to the liver transplantation performed by its staff and bill also for services rendered by the donor hospital following declaration of brain death and after all existing legal requirements for excision of the donor organ have been met; and

2. The center shall agree to submit all charges on the basis of fully itemized bills. This means that each service and supply and the charge for each is individually identified.

(iii) Heart transplantation centers. (A) CHAMPUS shall provide coverage for heart transplantation procedures performed only by experienced transplant surgeons at centers complying with provisions outlined in paragraph (b)(4)(i) of this section and meeting the following criteria:
§ 199.6

The center has experts in the fields of cardiology, cardiovascular surgery, anesthesiology, immunology, infectious disease, nursing, social services and organ procurement to complement the transplant team;

The center has an active cardiovascular medical and surgical program as evidenced by a minimum of 500 cardiac catheterizations and coronary arteriograms and 250 open heart procedures per year;

The center has an anesthesia team that is available at all times;

The center has infectious disease services with both the professional skills and the laboratory resources that are needed to discover, identify, and manage a whole range of organisms;

The center has a nursing service team trained in the hemodynamic support of the patient and in managing immunosuppressed patients;

The center has pathology resources that are available for studying and reporting the pathological responses of transplantation;

The center has legal counsel familiar with transplantation laws and regulations;

The commitment of the transplant center must be at all levels and broadly evident throughout the facility;

Responsible team members must be board certified or board eligible in their respective disciplines;

Component teams must be integrated into a comprehensive transplant team with clearly defined leadership and responsibility;

The center has adequate social service resources;

The transplant center must comply with applicable State transplant laws and regulations;

The transplant center must safeguard the rights and privacy of patients;

The transplant center must have adequate patient management plans and protocols;

The center participates in a donor procurement program and network;

The center systematically collects and shares data on its transplant program;

The center has an interdisciplinary body to determine the suitability of candidates for transplantation on an equitable basis;

The center has extensive blood bank support;

The center must have an established heart transplantation program with documented evidence of 12 or more heart transplants in each of the two consecutive preceding 12-month periods prior to application and 12 heart transplants prior to that; and

The center must demonstrate actuarial survival rates of 73 percent for one year and 65 percent for two years for patients who have had heart transplants since January 1, 1982, at that facility.

CHAMPUS approval will lapse if either the number of heart transplants falls below 8 in 12 months or if the one-year survival rate falls below 60 percent for a consecutive 24-month period.

CHAMPUS-approval may also be extended for a heart transplant center that meets other certification or accreditation standards provided the standards are equivalent to or exceed the criteria listed above and have been approved by the Director, OCHAMPUS.

In order to receive approval as a CHAMPUS heart transplant center, a facility must submit a request to the Director, OCHAMPUS, or a designee. The CHAMPUS-authorized heart transplant center shall agree to the following:

Bill for all services and supplies related to the heart transplantation performed by its staff and bill also for services rendered by the donor hospital following declaration of brain death;

Submit all charges on the basis of fully itemized bills. Each service and supply must be individually identified and the first claim submitted for the heart transplantation must include a copy of the admission history and physical examination; and

Report any significant decrease in the experience level or survival rates and loss of key members of the transplant team to the Director, OCHAMPUS.

Hospitals, psychiatric. A psychiatric hospital is an institution...
which is engaged primarily in providing services to inpatients for the diagnosis and treatment of mental disorders.  

(A) There are two major categories of psychiatric hospitals:  

(i) The private psychiatric hospital category includes both proprietary and the not-for-profit nongovernmental institutions.  

(ii) The second category is those psychiatric hospitals that are controlled, financed, and operated by departments or agencies of the local, state, or Federal Government and always are operated on a not-for-profit basis.  

(B) In order for the services of a psychiatric hospital to be covered, the hospital shall comply with the provisions outlined in paragraph (b)(4)(i) of this section. All psychiatric hospitals shall be accredited under the JCAHO Accreditation Manual for Hospitals (AMH) standards in order for their services to be cost-shared under CHAMPUS. In the case of those psychiatric hospitals that are not JCAHO-accredited because they have not been in operation a sufficient period of time to be eligible to request an accreditation survey by the JCAHO, the Director, OCHAMPUS, or a designee, may grant temporary approval if the hospital is certified and participating under Title XVIII of the Social Security Act (Medicare, Part A). This temporary approval expires 12 months from the date on which the psychiatric hospital first becomes eligible to request an accreditation survey by the JCAHO.  

(C) Factors to be considered in determining whether CHAMPUS will cost-share care provided in a psychiatric hospital include, but are not limited to, the following considerations:  

(i) Is the prognosis of the patient such that care provided will lead to resolution or remission of the mental illness to the degree that the patient is of no danger to others, can perform routine daily activities, and can be expected to function reasonably outside the inpatient setting?  

(ii) Can the services being provided be provided more economically in another facility or on an outpatient basis?  

(iii) Are the charges reasonable?  

(iv) Is the care primarily custodial or domiciliary? (Custodial or domiciliary care of the permanently mentally ill or retarded is not a benefit under the Basic Program.)  

(D) Although psychiatric hospitals are accredited under the JCAHO AMH standards, their medical records must be maintained in accordance with the JCAHO Consolidated Standard Manual for Child, Adolescent, and Adult Psychiatric, Alcoholism, and Drug Abuse Facilities and Facilities Serving the Mentally Retarded, along with the requirements set forth in §199.7(b)(3). The hospital is responsible for assuring that patient services and all treatment are accurately documented and completed in a timely manner.  

(v) Hospitals, long-term (tuberculosis, chronic care, or rehabilitation). To be considered a long-term hospital, an institution for patients that have tuberculosis or chronic diseases must be an institution (or distinct part of an institution) primarily engaged in providing by or under the supervision of a physician appropriate medical or surgical services for the diagnosis and active treatment of the illness or condition in which the institution specializes.  

(A) In order for the service of long-term hospitals to be covered, the hospital must comply with the provisions outlined in paragraph (b)(4)(i) of this section. In addition, in order for services provided by such hospitals to be covered by CHAMPUS, they must be primarily for the treatment of the presenting illness.  

(B) Custodial or domiciliary care is not coverable under CHAMPUS, even if rendered in an otherwise authorized long-term hospital.  

(C) The controlling factor in determining whether a beneficiary’s stay in a long-term hospital is coverable by CHAMPUS is the level of professional care, supervision, and skilled nursing care that the beneficiary requires, in addition to the diagnosis, type of condition, or degree of functional limitations. The type and level of medical services required or rendered is controlling for purposes of extending CHAMPUS benefits; not the type of provider or condition of the beneficiary.  

(vi) Skilled nursing facility. A skilled nursing facility is an institution (or a distinct part of an institution) that is
§ 199.6  32 CFR Ch. I (7–1–02 Edition)

engaged primarily in providing to inpatients medically necessary skilled nursing care, which is other than a nursing home or intermediate facility, and which:

(A) Has policies that are developed with the advice of (and with provisions for review on a periodic basis by) a group of professionals, including one or more physicians and one or more registered nurses, to govern the skilled nursing care and related medical services it provides.

(B) Has a physician, a registered nurse, or a medical staff responsible for the execution of such policies.

(C) Has a requirement that the medical care of each patient must be under the supervision of a physician, and provides for having a physician available to furnish necessary medical care in case of an emergency.

(D) Maintains clinical records on all patients.

(E) Provides 24-hour skilled nursing service that is sufficient to meet nursing needs in accordance with the policies developed as provided in paragraph (b)(4)(iv)(A) of this section, and has at least one registered professional nurse employed full-time.

(F) Provides appropriate methods and procedures for the dispensing and administering of drugs and biologicals.

(G) Has in effect a utilization review plan that is operational and functioning.

(H) In the case of an institution in a state in which state or applicable local law provides for the licensing of this type facility, the institution:

(1) Is licensed pursuant to such law, or

(2) Is approved by the agency of such state or locality responsible for licensing such institutions as meeting the standards established for such licensing.

(I) Meets such provisions of the most current edition of the Life Safety Code as are applicable to nursing facilities; except that if the Secretary of Health and Human Services has waived, for such periods, as deemed appropriate, specific provisions of such code which, if rigidly applied, would result in unreasonable hardship upon a nursing facility.

(vii) Residential treatment centers. This paragraph (b)(4)(vii) establishes standards and requirements for residential treatment centers (RTC's).

(A) Organization and administration.

(1) Definition. A Residential Treatment Center (RTC) is a facility or a distinct part of a facility that provides to beneficiaries under 21 years of age a medically supervised, interdisciplinary program of mental health treatment. An RTC is appropriate for patients whose predominant symptom presentation is essentially stabilized, although not resolved, and who have persistent dysfunction in major life areas. The extent and pervasiveness of the patient's problems require a protected and highly structured therapeutic environment. Residential treatment is differentiated from:

(i) Acute psychiatric care, which requires medical treatment and 24-hour availability of a full range of diagnostic and therapeutic services to establish and implement an effective plan of care which will reverse life-threatening and/or severely incapacitating symptoms;

(ii) Partial hospitalization, which provides a less than 24-hour-per-day, seven-day-per-week treatment program for patients who continue to exhibit psychiatric problems but can function with support in some of the major life areas;

(iii) A group home, which is a professionally directed living arrangement with the availability of psychiatric consultation and treatment for patients with significant family dysfunction and/or chronic but stable psychiatric disturbances;

(iv) Therapeutic school, which is an educational program supplemented by psychological and psychiatric services;

(v) Facilities that treat patients with a primary diagnosis of chemical abuse or dependence; and

(vi) Facilities providing care for patients with a primary diagnosis of mental retardation or developmental disability.

(2) Eligibility.
Office of the Secretary of Defense

§ 199.6

Every RTC must be certified pursuant to CHAMPUS certification standards. Such standards shall incorporate the basic standards set forth in paragraphs (b)(4)(vii) (A) through (D) of this section, and shall include such additional elaborative criteria and standards as the Director, OCHAMPUS determines are necessary to implement the basic standards.

To be eligible for CHAMPUS certification, the facility is required to be licensed and fully operational for six months (with a minimum average daily census of 30 percent of total bed capacity) and operate in substantial compliance with state and federal regulations.

The facility is currently accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) under the current edition of the Manual for Mental Health, Chemical Dependency, and Mental Retardation/Developmental Disabilities Services which is available from JCAHO, P.O. Box 75751, Chicago, IL 60675.

The facility has a written participation agreement with OCHAMPUS. The RTC is not a CHAMPUS-authorized provider and CHAMPUS benefits are not paid for services provided until the date upon which a participation agreement is signed by the Director, OCHAMPUS.

The RTC shall have a governing body which is responsible for the policies, bylaws, and activities of the facility. If the RTC is owned by a partnership or single owner, the partners or single owner are regarded as the governing body. The facility will provide an up-to-date list of names, addresses, telephone numbers and titles of the members of the governing body.

The governing body ensures appropriate and adequate services for all patients and oversees continuing development and improvement of care. Where business relationships exist between the governing body and facility, appropriate conflict-of-interest policies are in place.

Board members are fully informed about facility services and the governing body conducts annual review of its performance in meeting purposes, responsibilities, goals and objectives.

The chief executive officer, appointed by and subject to the direction of the governing body, shall assume overall administrative responsibility for the operation of the facility according to governing body policies. The chief executive officer shall have five years' administrative experience in the field of mental health. On October 1, 1997, the CEO shall possess a degree in business administration, public health, hospital administration, nursing, social work, or psychology, or meeting similar educational requirements as prescribed by the Director, OCHAMPUS.

The clinical director, appointed by the governor body, shall be a psychiatrist or doctoral level psychologist who meets applicable CHAMPUS requirements for individual professional providers and is licensed to practice in the state where the residential treatment center is located. The clinical director shall possess requisite education and experience, credentials applicable under state practice and licensing laws appropriate to the professional discipline, and a minimum of five years' clinical experience in the treatment of children and adolescents. The clinical director shall be responsible for the planning, development, implementation, and monitoring of all clinical activities.

The medical director, appointed by the governing body, shall be licensed to practice medicine in the state where the residential treatment center is located and shall possess requisite education and experience, including graduation from an accredited school of medicine or osteopathy, an approved residency in psychiatry and a minimum of five years clinical experience in the treatment of children and adolescents. The Medical Director shall be responsible for the planning, development, implementation, and monitoring of all activities relating to medical treatment of patients. If qualified, the Medical Director may also serve as Clinical Director.
§ 199.6 32 CFR Ch. I (7–1–02 Edition)

(7) Medical or professional staff organization. The governing body shall establish a medical or professional staff organization to assure effective implementation of clinical privileging, professional conduct rules, and other activities directly affecting patient care.

(8) Personnel policies and records. The RTC shall maintain written personnel policies, updated job descriptions and personnel records to assure the selection of qualified personnel and successful job performance of those personnel.

(9) Staff development. The facility shall provide appropriate training and development programs for administrative, professional support, and direct care staff.

(10) Fiscal accountability. The RTC shall assure fiscal accountability to applicable government authorities and patients.

(11) Designated teaching facilities. Students, residents, interns or fellows providing direct clinical care are under the supervision of a qualified staff member approved by an accredited university. The teaching program is approved by the Director, OCHAMPUS.

(12) Emergency reports and records. The facility notifies OCHAMPUS of any serious occurrence involving CHAMPUS beneficiaries.

(B) Treatment services.

(1) Staff composition.

(i) The RTC shall follow written plans which assure that medical and clinical patient needs will be appropriately addressed 24 hours a day, seven days a week by a sufficient number of fully qualified (including license, registration or certification requirements, educational attainment, and professional experience) health care professionals and support staff in the respective disciplines. Clinicians providing individual, group, and family therapy meet CHAMPUS requirements as qualified mental health providers and operate within the scope of their licenses. The ultimate authority for planning, development, implementation, and monitoring of all clinical activities is vested in a psychiatrist or doctoral level psychologist. The management of medical care is vested in a physician.

(ii) The RTC shall ensure adequate coverage by fully qualified staff during all hours of operation, including physician availability, other professional staff coverage, and support staff in the respective disciplines.

(2) Staff qualifications. The RTC will have a sufficient number of qualified mental health providers, administrative, and support staff to address patients' clinical needs and to coordinate the services provided. RTCs which employ individuals with master's or doctoral level degrees in a mental health discipline who do not meet the licensure, certification and experience requirements for a qualified mental health provider but are actively working toward licensure or certification, may provide services within the all-inclusive per diem rate, provided the individual works under the clinical supervision of a fully qualified mental health provider employed by the RTC. All other program services shall be provided by trained, licensed staff.

(3) Patient rights.

(i) The RTC shall provide adequate protection for all patient rights, including rights provided by law, privacy, personnel rights, safety, confidentiality, informed consent, grievances, and personal dignity.

(ii) The facility has a written policy regarding patient abuse and neglect.

(iii) Facility marketing and advertising meets professional standards.

(4) Behavioral management. The RTC shall adhere to a comprehensive, written plan of behavioral management, developed by the clinical director and the medical or professional staff and approved by the governing body, including strictly limited procedures to assure that the restraint or seclusion are used only in extraordinary circumstances, are carefully monitored, and are fully documented. Only trained and clinically privileged RNs or qualified mental health professionals may be responsible for the implementation of seclusion and restraint procedures in an emergency situation.

(5) Admission process. The RTC shall maintain written policies and procedures to ensure that, prior to an admission, a determination is made, and approved pursuant to CHAMPUS preauthorization requirements, that
the admission is medically and/or psychologically necessary and the program is appropriate to meet the patient’s needs. Medical and/or psychological necessity determinations shall be rendered by qualified mental health professionals who meet CHAMPUS requirements for individual professional providers and who are permitted by law and by the facility to refer patients for admission.

(6) Assessments. The professional staff of the RTC shall complete a current multidisciplinary assessment which includes, but is not limited to physical, psychological, developmental, family, educational, social, spiritual and skills assessment of each patient admitted. Unless otherwise specified, all required clinical assessments are completed prior to development of the multidisciplinary treatment plan.

(7) Clinical formulation. A qualified mental health professional of the RTC will complete a clinical formulation on all patients. The clinical formulation will be reviewed and approved by the responsible individual professional provider and will incorporate significant findings from each of the multidisciplinary assessments. It will provide the basis for development of an interdisciplinary treatment plan.

(8) Treatment planning. A qualified mental health professional shall be responsible for the development, supervision, implementation, and assessment of a written, individualized, interdisciplinary plan of treatment, which shall be completed within 10 days of admission and shall include individual, measurable, and observable goals for incremental progress and discharge. A preliminary treatment plan is completed within 24 hours of admission and includes at least an admission note and orders written by the admitting mental health professional. The master treatment plan is reviewed and revised at least every 30 days, or when major changes occur in treatment.

(9) Discharge and transition planning. The RTC shall maintain a transition planning process to address adequately the anticipated needs of the patient prior to the time of discharge. The planning involves determining necessary modifications in the treatment plan, facilitating the termination of treatment, and identifying resources to maintain therapeutic stability following discharge.

(10) Clinical documentation. Clinical records shall be maintained on each patient to plan care and treatment and provide ongoing evaluation of the patient’s progress. All care is documented and each clinical record contains at least the following: demographic data, consent forms, pertinent legal documents, all treatment plans and patient assessments, consultation and laboratory reports, physician orders, progress notes, and a discharge summary. All documentation will adhere to applicable provisions of the JCAHO and requirements set forth in §199.7(b)(3). An appropriately qualified records administrator or technician will supervise and maintain the quality of the records. These requirements are in addition to other records requirements of this part, and documentation requirements of the Joint Commission on Accreditation of Healthcare Organizations.

(11) Progress notes. RTC’s shall document the course of treatment for patients and families using progress notes which provide information to review, analyze, and modify the treatment plans. Progress notes are legible, contemporaneous, sequential, signed and dated and adhere to applicable provisions of the Manual of Mental Health, Chemical Dependency, and Mental Retardation/Development Disabilities Services and requirements set forth in §199.7(b)(3).

(12) Therapeutic services.

(i) Individual, group, and family psychotherapy are provided to all patients, consistent with each patient’s treatment plan, by qualified mental health providers.

(ii) A range of therapeutic activities, directed and staffed by qualified personnel, are offered to help patients meet the goals of the treatment plan.

(iii) Therapeutic educational services are provided or arranged that are appropriate to the patients educational and therapeutic needs.

(13) Ancillary services. A full range of ancillary services is provided. Emergency services include policies and procedures for handling emergencies with
qualified personnel and written agreements with each facility providing the service. Other ancillary services include physical health, pharmacy and dietary services.

(C) Standards for physical plant and environment.

(1) Physical environment. The buildings and grounds of the RTC shall be maintained so as to avoid health and safety hazards, be supportive of the services provided to patients, and promote patient comfort, dignity, privacy, personal hygiene, and personal safety.

(2) Physical plant safety. The RTC shall be of permanent construction and maintained in a manner that protects the lives and ensures the physical safety of patients, staff, and visitors, including conformity with all applicable building, fire, health, and safety codes.

(3) Disaster planning. The RTC shall maintain and rehearse written plan for taking care of casualties and handling other consequences arising from internal and external disasters.

(D) Standards for evaluation system.

(1) Quality assessment and improvement. The RTC shall develop and implement a comprehensive quality assurance and quality improvement program that monitors the quality, efficiency, appropriateness, and effectiveness of the care, treatments, and services it provides for patients and their families, primarily utilizing explicit clinical indicators to evaluate all functions of the RTC and contribute to an ongoing process of program improvement. The clinical director is responsible for developing and implementing quality assessment and improvement activities throughout the facility.

(2) Utilization review. The RTC shall implement a utilization review process, pursuant to a written plan approved by the professional staff, the administration, and the governing body, that assesses the appropriateness of admission, continued stay, and timeliness of discharge as part of an effort to provide quality patient care in a cost-effective manner. Findings of the utilization review process are used as a basis for revising the plan of operation, including a review of staff qualifications and staff composition.

(3) Patient records review. The RTC shall implement a process, including monthly reviews of a representative sample of patient records, to determine the completeness and accuracy of the patient records and the timeliness and pertinence of record entries, particularly with regard to regular recording of progress/non-progress in treatment.

(4) Drug utilization review. The RTC shall implement a comprehensive process for the monitoring and evaluating of the prophylactic, therapeutic, and empiric use of drugs to assure that medications are provided appropriately, safely, and effectively.

(5) Risk management. The RTC shall implement a comprehensive risk management program, fully coordinated with other aspects of the quality assurance and quality improvement program, to prevent and control risks to patients and staff and costs associated with clinical aspects of patient care and safety.

(6) Infection control. The RTC shall implement a comprehensive system for the surveillance, prevention, control, and reporting of infections acquired or brought into the facility.

(7) Safety. The RTC shall implement an effective program to assure a safe environment for patients, staff, and visitors, including an incident report system, a continuous safety surveillance system, and an active multidisciplinary safety committee.

(8) Facility evaluation. The RTC annually evaluates accomplishment of the goals and objectives of each clinical program and service of the RTC and reports findings and recommendations to the governing body.

(E) Participation agreement requirements. In addition to other requirements set forth in paragraph (b)(4)(vii), of this section in order for the services of an RTC to be authorized, the RTC shall have entered into a Participation Agreement with OCHAMPUS. The period of a participation agreement shall be specified in the agreement, and will generally be for not more than five years. Participation agreements entered into prior April 6, 1995 must be renewed not later than October 1, 1995. In addition to review of a facility's application and supporting documentation, an on-site inspection by OCHAMPUS authorized personnel may
be required prior to signing a Participation Agreement. Retroactive approval is not given. In addition, the Participation Agreement shall include provisions that the RTC shall, at a minimum:

(1) Render residential treatment center inpatient services to eligible CHAMPUS beneficiaries in need of such services, in accordance with the participation agreement and CHAMPUS regulation;

(2) Accept payment for its services based upon the methodology provided in §199.14(f) or such other method as determined by the Director, OCHAMPUS;

(3) Accept the CHAMPUS all-inclusive per diem rate as payment in full and collect from the CHAMPUS beneficiary or the family of the CHAMPUS beneficiary only those amounts that represent the beneficiary’s liability, as defined in §199.4, and charges for services and supplies that are not a benefit of CHAMPUS;

(4) Make all reasonable efforts acceptable to the Director, OCHAMPUS, to collect those amounts, which represents the beneficiary’s liability, as defined in §199.4;

(5) Comply with the provisions of §199.8, and submit claims first to all health insurance coverage to which the beneficiary is entitled that is primary to CHAMPUS;

(6) Submit claims for services provided to CHAMPUS beneficiaries at least 30 days (except to the extent a delay is necessitated by efforts to first collect from other health insurance). If claims are not submitted at least every 30 days, the RTC agrees not to bill the beneficiary or the beneficiary’s family for any amounts disallowed by CHAMPUS;

(7) Certify that:

(i) It is and will remain in compliance with the provisions of paragraph (b)(4)(vii) of this section establishing standards for Residential Treatment Centers:

(ii) It has conducted a self assessment of the facility’s compliance with the CHAMPUS Standards for Residential Treatment Centers Serving Children and Adolescents with Mental Disorders, as issued by the Director, OCHAMPUS and notified the Director, OCHAMPUS of any matter regarding which the facility is not in compliance with such standards; and

(iii) It will maintain compliance with the CHAMPUS Standards for Residential Treatment Centers Serving Children and Adolescents with Mental Disorders, as issued by the Director, OCHAMPUS, except for any such standards regarding which the facility notifies the Director, OCHAMPUS that it is not in compliance.

(8) Designate an individual who will act as liaison for CHAMPUS inquiries. The RTC shall inform OCHAMPUS in writing of the designated individual;

(9) Furnish OCHAMPUS, as requested by OCHAMPUS, with cost data certified by an independent accounting firm or other agency as authorized by the Director, OCHAMPUS;

(10) Comply with all requirements of this section applicable to institutional providers generally concerning preauthorization, concurrent care review, claims processing, beneficiary liability, double coverage, utilization and quality review and other matters;

(ii) Grant the Director, OCHAMPUS, or designee, the right to conduct quality assurance audits or accounting audits with full access to patients and records (including records relating to patients who are not CHAMPUS beneficiaries) to determine the quality and cost-effectiveness of care rendered. The audits may be conducted on a scheduled or unscheduled (unannounced) basis. This right to audit/review includes, but is not limited to:

(i) Examination of fiscal and all other records of the RTC which would confirm compliance with the participation agreement and designation as an authorized CHAMPUS RTC provider;

(ii) Conducting such audits of RTC records including clinical, financial, and census records, as may be necessary to determine the nature of the services being provided, and the basis for charges and claims against the United States for services provided CHAMPUS beneficiaries;

(iii) Examining reports of evaluations and inspections conducted by federal, state and local government, and private agencies and organizations;
§ 199.6

(iv) Conducting on-site inspections of the facilities of the RTC and interviewing employees, members of the staff, contractors, board members, volunteers, and patients, as required;

(v) Audits conducted by the United States General Accounting Office.

(F) Other requirements applicable to RTCs. (1) Even though an RTC may qualify as a CHAMPUS-authorized provider and may have entered into a participation agreement with CHAMPUS, payment by CHAMPUS for particular services provided is contingent upon the RTC also meeting all conditions set forth in § 199.4 especially all requirements of paragraph (b)(4) of that section.

(2) The RTC shall provide inpatient services to CHAMPUS beneficiaries in the same manner it provides inpatient services to all other patients. The RTC may not discriminate against CHAMPUS beneficiaries in any manner, including admission practices, placement in special or separate wings or rooms, or provisions of special or limited treatment.

(3) The RTC shall assure that all certifications and information provided to the Director, OCHAMPUS incident to the process of obtaining and retaining authorized provider status is accurate and that it has no material errors or omissions. In the case of any misrepresentations, whether by inaccurate information being provided or material facts withheld, authorized status will be denied or terminated, and the RTC will be ineligible for consideration for authorized provider status for a two year period.

(viii) Christian Science sanatoriums. The services obtained in Christian Science sanatoriums are covered by CHAMPUS as inpatient care. To qualify for coverage, the sanatorium either must be operated by, or be listed and certified by the First Church of Christ, Scientist.

(ix) Infirmaries. Infirmaries are facilities operated by student health departments of colleges and universities to provide inpatient or outpatient care to enrolled students. Charges for care provided by such facilities will not be cost-shared by CHAMPUS if the student would not be charged in the absence of CHAMPUS, or if student is covered by a mandatory student health insurance plan, in which enrollment is required as a part of the student’s school registration and the charges by the college or university include a premium for the student health insurance coverage. CHAMPUS will cost-share only if enrollment in the student health program or health insurance plan is voluntary.

Note: An infirmary in a boarding school also may qualify under this provision, subject to review and approval by the Director, OCHAMPUS or a designee.

(x) Other special institution providers. (A) General. (1) Care provided by certain special institutional providers (on either an inpatient or outpatient basis), may be cost-shared by CHAMPUS under specified circumstances and only if the provider is specifically identified in paragraph (b)(4)(x) of this section.

(i) The course of treatment is prescribed by a doctor of medicine or osteopathy.

(ii) The patient is under the supervision of a physician during the entire course of the inpatient admission or the outpatient treatment.

(iii) The type and level of care and service rendered by the institution are otherwise authorized by this part.

(iv) The facility meets all licensing or other certification requirements that are extant in the jurisdiction in which the facility is located geographically.

(v) Is other than a nursing home, intermediate care facility, home for the aged, halfway house, or other similar institution.

(ii) Is accredited by the JCAH or other CHAMPUS-approved accreditation organization, if an appropriate accreditation program for the given type of facility is available. As future accreditation programs are developed to cover emerging specialized treatment programs, such accreditation will be a prerequisite to coverage by CHAMPUS for services provided by such facilities.

(2) To ensure that CHAMPUS beneficiaries are provided quality care at a reasonable cost when treated by a special institutional provider, the Director, OCHAMPUS may:
§ 199.6

(i) Require prior approval of all admissions to special institutional providers.

(ii) Set appropriate standards for special institutional providers in addition to or in the absence of JCAHO accreditation.

(iii) Monitor facility operations and treatment programs on a continuing basis and conduct onsite inspections on a scheduled and unscheduled basis.

(iv) Negotiate agreements of participation.

(v) Terminate approval of a case when it is ascertained that a departure from the facts upon which the admission was based originally has occurred.

(vi) Declare a special institutional provider not eligible for CHAMPUS payment if that facility has been found to have engaged in fraudulent or deceptive practices.

(3) In general, the following disclaimers apply to treatment by special institutional providers:

(i) Just because one period or episode of treatment by a facility has been covered by CHAMPUS may not be construed to mean that later episodes of care by the same or similar facility will be covered automatically.

(ii) The fact that one case has been authorized for treatment by a specific facility or similar type of facility may not be construed to mean that similar cases or later periods of treatment will be extended CHAMPUS benefits automatically.

(B) Types of providers. The following is a list of facilities that have been designated specifically as special institutional providers.

(1) Free-standing ambulatory surgical centers. Care provided by freestanding ambulatory surgical centers may be cost-shared by CHAMPUS under the following circumstances:

(i) The treatment is prescribed and supervised by a physician.

(ii) The type and level of care and services rendered by the center are otherwise authorized by this part.

(iii) The center meets all licensing or other certification requirements of the jurisdiction in which the facility is located.

(iv) The center is accredited by the JCAH, the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC), or such other standards as authorized by the Director, OCHAMPUS.

(v) A childbirth procedure provided by a CHAMPUS-approved free-standing ambulatory surgical center shall not be cost-shared by the CHAMPUS unless the surgical center is also a CHAMPUS-approved birthing center institutional provider as established by the birthing center provider certification requirement of this Regulation.

(2) [Reserved]

(xi) Birthing centers. A birthing center is a freestanding or institution-affiliated outpatient maternity care program which principally provides a planned course of outpatient prenatal care and outpatient childbirth service limited to low-risk pregnancies; excludes care for high-risk pregnancies; limits childbirth to the use of natural childbirth procedures; and provides immediate newborn care.

(A) Certification requirements. A birthing center which meets the following criteria may be designated as an authorized CHAMPUS institutional provider:

(i) The predominant type of service and level of care rendered by the center is otherwise authorized by this part.

(ii) The center is licensed to operate as a birthing center where such license is available, or is specifically licensed as a type of ambulatory health care facility where birthing center specific license is not available, and meets all applicable licensing or certification requirements that are extant in the state, county, municipality, or other political jurisdiction in which the center is located.

(iii) The center is accredited by a nationally recognized accreditation organization whose standards and procedures have been determined to be acceptable by the Director, OCHAMPUS, or a designee.

(iv) The center complies with the CHAMPUS birthing center standards set forth in this part.

(5) The center has entered into a participation agreement with OCHAMPUS in which the center agrees, in part, to:

(i) Participate in CHAMPUS and accept payment for maternity services based upon the reimbursement methodology for birthing centers;
§ 199.6

(ii) Collect from the CHAMPUS beneficiary only those amounts that represent the beneficiary’s liability under the participation agreement and the reimbursement methodology for birthing centers, and the amounts for services and supplies that are not a benefit of the CHAMPUS;

(iii) Permit access by the Director, OCHAMPUS, or a designee, to the clinical record of any CHAMPUS beneficiary, to the financial and organizational records of the center, and to reports of evaluations and inspections conducted by state or private agencies or organizations;

(iv) Submit claims first to all health benefit and insurance plans primary to the CHAMPUS to which the beneficiary is entitled and to comply with the double coverage provisions of this part;

(v) Notify CHAMPUS in writing within 7 days of the emergency transport of any CHAMPUS beneficiary from the center to an acute care hospital or of the death of any CHAMPUS beneficiary in the center.

(6) A birthing center shall not be a CHAMPUS-authorized institutional provider and CHAMPUS benefits shall not be paid for any service provided by a birthing center before the date the participation agreement is signed by the Director, OCHAMPUS, or a designee.

(B) CHAMPUS birthing center standards.

(1) Environment: The center has a safe and sanitary environment, properly constructed, equipped, and maintained to protect health and safety and meets the applicable provisions of the “Life Safety Code” of the National Fire Protection Association.

(2) Policies and procedures: The center has written administrative, fiscal, personnel and clinical policies and procedures which collectively promote the provision of high-quality maternity care and childbirth services in an orderly, effective, and safe physical and organizational environment.

(3) Informed consent: Each CHAMPUS beneficiary admitted to the center will be informed in writing at the time of admission of the nature and scope of the center’s program and of the possible risks associated with maternity care and childbirth in the center.

(4) Beneficiary care: Each woman admitted will be cared for by or under the direct supervision of a specific physician or a specific certified nurse-midwife who is otherwise eligible as a CHAMPUS individual professional provider.

(5) Medical direction: The center has written memoranda of understanding (MOU) for routine consultation and emergency care with an obstetrician-gynecologist who is certified or is eligible for certification by the American Board of Obstetrics and Gynecology or the American Osteopathic Board of Obstetrics and Gynecology and with a pediatrician who is certified or eligible for certification by the American Board of Pediatrics or by the American Osteopathic Board of Pediatrics, each of whom have admitting privileges to at least one backup hospital. In lieu of a required MOU, the center may employ a physician with the required qualifications. Each MOU must be renewed annually.

(6) Admission and emergency care criteria and procedures. The center has written clinical criteria and administrative procedures, which are reviewed and approved annually by a physician related to the center as required by paragraph (b)(4)(xiii)(B)(3) above, for the exclusion of a woman with a high-risk pregnancy from center care and for management of maternal and neonatal emergencies.

(7) Emergency treatment. The center has a written memorandum of understanding (MOU) with at least one backup hospital which documents that the hospital will accept and treat any woman or newborn transferred from the center who is in need of emergency obstetrical or neonatal medical care. In lieu of this MOU with a hospital, a birthing center may have an MOU with a physician, who otherwise meets the requirements as a CHAMPUS individual professional provider, and who has admitting privileges to a backup hospital capable of providing care for critical maternal and neonatal patients as demonstrated by a letter from that hospital certifying the scope and expected duration of the admitting privileges granted by the hospital to the physician. The MOU must be reviewed annually.
Emergency medical transportation. The center has a written memorandum of understanding (MOU) with at least one ambulance service which documents that the ambulance service is routinely staffed by qualified personnel who are capable of the management of critical maternal and neonatal patients during transport and which specifies the estimated transport time to each backup hospital with which the center has arranged for emergency treatment as required in paragraph (b)(4)(xi)(B)(7) above. Each MOU must be renewed annually.

Professional staff. The center’s professional staff is legally and professionally qualified for the performance of their professional responsibilities.

Medical records. The center maintains full and complete written documentation of the services rendered to each newborn delivered. A copy of the informed consent document required by paragraph (b)(4)(xi)(B)(3), above, which contains the original signature of the CHAMPUS beneficiary, signed and dated at the time of admission, must be maintained in the medical record of each CHAMPUS beneficiary admitted.

Quality assurance. The center has an organized program for quality assurance which includes, but is not limited to, written procedures for regularly scheduled evaluation of each type of service provided, of each mother or newborn transferred to a hospital, and of each death within the facility.

Governance and administration. The center has a governing body legally responsible for overall operation and maintenance of the center and a full-time employee who has authority and responsibility for the day-to-day operation of the center.

Psychiatric partial hospitalization programs. Paragraph (b)(4)(xii) of this section establishes standards and requirements for psychiatric partial hospitalization programs.

Definition. Partial hospitalization is defined as a time-limited, ambulatory, active treatment program that offers therapeutically intensive, coordinated, and structured clinical services within a stable therapeutic milieu. Partial hospitalization programs serve patients who exhibit psychiatric symptoms, disturbances of conduct, and decompensating conditions affecting mental health.

Eligibility.

(i) Every psychiatric partial hospitalization program must be certified pursuant to CHAMPUS certification standards. Such standards shall incorporate the basic standards set forth in paragraphs (b)(4)(xii) (A) through (D) of this section, and shall include such additional elaborative criteria and standards as the Director, OCHAMPUS determines are necessary to implement the basic standards. Each psychiatric partial hospitalization program must be either a distinct part of an otherwise authorized institutional provider or a freestanding program.

(ii) To be eligible for CHAMPUS certification, the facility is required to be licensed and fully operational for a period of at least six months (with a minimum patient census of at least 30 percent of bed capacity) and operate in substantial compliance with state and federal regulations.

(iii) The facility is currently accredited by the Joint Commission on Accreditation of Healthcare Organizations under the current edition of the Accreditation Manual for Mental Health, Chemical Dependency, and Mental Retardation/Developmental Disabilities Services.

(iv) The facility has a written participation agreement with OCHAMPUS. On October 1, 1995, the PHP is not a CHAMPUS-authorized provider and CHAMPUS benefits are not paid for services provided until the date upon which a participation agreement is signed by the Director, OCHAMPUS.

Partial hospitalization is capable of providing an interdisciplinary program of medical and therapeutic services a minimum of three hours per day, five days per week, and may include full- or half-day, evening, and weekend treatment programs.

Governing body.

(i) The PHP shall have a governing body which is responsible for the policies, bylaws, and activities of the facilities. If the PHP is owned by a partnership or single owner, the partners or single owner are regarded as the governing body. The facility will provide
§ 199.6
32 CFR Ch. I (7–1–02 Edition)

an up-to-date list of names, addresses, telephone numbers, and titles of the members of the governing body.

(i) The governing body ensures appropriate and adequate services for all patients and oversees continuing development and improvement of care. Where business relationships exist between the governing body and facility, appropriate conflict-of-interest policies are in place.

(ii) The governing body ensures appropriate and adequate services for all patients and oversees continuing development and improvement of care. Where business relationships exist between the governing body and facility, appropriate conflict-of-interest policies are in place.

(iii) Board members are fully informed about facility services and the governing body conducts annual review of its performance in meeting purposes, responsibilities, goals and objectives.

(4) Chief executive officer. The Chief Executive Officer, appointed by and subject to the direction of the governing body, shall assume overall administrative responsibility for the operation of the facility according to governing body policies. The chief executive officer shall have five years' administrative experience in the field of mental health. On October 1, 1997, the CEO shall possess a degree in business administration, public health, hospital administration, nursing, social work, or psychology, or meet similar educational requirements as prescribed by the Director, OCHAMPUS.

(5) Clinical Director. The clinical director, appointed by the governing body, shall be a psychiatrist or doctoral level psychologist who meets applicable CHAMPUS requirements for individual professional providers and is licensed to practice in the state where the PHP is located. The clinical director shall possess requisite education and experience, credentials applicable under state practice and licensing laws appropriate to the professional discipline, and a minimum of five years' clinical experience in the treatment of mental disorders specific to the ages and disabilities of the patients served. The clinical director shall be responsible for planning, development, implementation, and monitoring of all clinical activities.

(6) Medical director. The medical director, appointed by the governing body, shall be licensed to practice medicine in the state where the residential treatment center is located and shall possess requisite education and experience, including graduation from an accredited school of medicine or osteopathy, an approved residency in psychiatry and a minimum of five years clinical experience in the treatment of mental disorders specific to the ages and disabilities of the patients served. The Medical Director shall be responsible for the planning, development, implementation, and monitoring of all activities relating to medical treatment of patients. If qualified, the Medical Director may also serve as Clinical Director.

(7) Medical or professional staff organization. The governing body shall establish a medical or professional staff organization to assure effective implementation of clinical privileging, professional conduct rules, and other activities directly affecting patient care.

(8) Personnel policies and records. The PHP shall maintain written personnel policies, updated job descriptions, personnel records to assure the selection of qualified personnel and successful job performance of those personnel.

(9) Staff development. The facility shall provide appropriate training and development programs for administrative, professional support, and direct care staff.

(10) Fiscal accountability. The PHP shall assure fiscal accountability to applicable government authorities and patients.

(11) Designated teaching facilities. Students, residents, interns, or fellows providing direct clinical care are under the supervision of a qualified staff member approved by an accredited university. The teaching program is approved by the Director, OCHAMPUS.

(12) Emergency reports and records. The facility notifies OCHAMPUS of any serious occurrence involving CHAMPUS beneficiaries.

(B) Treatment services.

(1) Staff composition.

(i) The PHP shall ensure that patient care needs will be appropriately addressed during all hours of operation by a sufficient number of fully qualified (including license, registration or certification requirements, educational attainment, and professional experience) health care professionals. Clinicians providing individual, group, and family therapy meet CHAMPUS requirements as qualified mental health
providers, and operate within the scope of their licenses. The ultimate authority for managing care is vested in a psychiatrist or licensed doctor level psychologist. The management of medical care is vested in a physician.

(ii) The PHP shall establish and follow written plans to assure adequate staff coverage during all hours of operation, including physician availability, other professional staff coverage, and support staff in the respective disciplines.

(2) Staff qualifications. The PHP will have a sufficient number of qualified mental health providers, administrative, and support staff to address patients’ clinical needs and to coordinate the services provided. PHPs which employ individuals with master’s or doctoral level degrees in a mental health discipline who do not meet the licensure, certification and experience requirements for a qualified mental health provider but are actively working toward licensure or certification, may provide services within the all-inclusive per diem rate, provided the individual works under the clinical supervision of a fully qualified mental health provider employed by the PHP. All other program services shall be provided by trained, licensed staff.

(3) Patient rights.

(i) The PHP shall provide adequate protection for all patient rights, including rights provided by law, privacy, personal rights, safety, confidentiality, informed consent, grievances, and personal dignity.

(ii) The facility has a written policy regarding patient abuse and neglect.

(iii) Facility marketing and advertising meets professional standards.

(4) Behavioral management. The PHP shall adhere to a comprehensive, written plan of behavior management, developed by the clinical director and the medical or professional staff and approved by the governing body, including strictly limited procedures to assure that restraint or seclusion are used only in extraordinary circumstances, are carefully monitored, and are fully documented. Only trained and clinically privileged RNs or qualified mental health professionals may be responsible for implementation of seclusion and restraint procedures in an emergency situation.

(5) Admission process. The PHP shall maintain written policies and procedures to ensure that prior to an admission, a determination is made, and approved pursuant to CHAMPUS preauthorization requirements, that the admission is medically and/or psychologically necessary and the program is appropriate to meet the patient’s needs. Medical and/or psychological necessity determinations shall be rendered by qualified mental health professionals who meet CHAMPUS requirements for individual professional providers and who are permitted by law and by the facility to refer patients for admission.

(6) Assessments. The professional staff of the PHP shall complete a multidisciplinary assessment which includes, but is not limited to physical health, psychological health, physiological, developmental, family, educational, spiritual, and skills assessment of each patient admitted. Unless otherwise specified, all required clinical assessment are completed prior to development of the interdisciplinary treatment plan.

(7) Clinical formulation. A qualified mental health provider of the PHP will complete a clinical formulation on all patients. The clinical formulation will be reviewed and approved by the responsible individual professional provider and will incorporate significant findings from each of the multidisciplinary assessments. It will provide the basis for development of an interdisciplinary treatment plan.

(8) Treatment planning. A qualified mental health professional with admitting privileges shall be responsible for the development, supervision, implementation, and assessment of a written, individualized, interdisciplinary plan of treatment, which shall be completed by the fifth day following admission to a full-day PHP, or by the seventh day following admission to a half-day PHP, and shall include measurable and observable goals for incremental progress and discharge. The treatment plan shall undergo review at least every two weeks, or when major changes occur in treatment.
§ 199.6 - 32 CFR Ch. I (7–1–02 Edition)

(9) Discharge and transition planning. The PHP shall develop an individualized transition plan which addresses anticipated needs of the patient at discharge. The transition plan involves determining necessary modifications in the treatment plan, facilitating the termination of treatment, and identifying resources for maintaining therapeutic stability following discharge.

(10) Clinical documentation. Clinical records shall be maintained on each patient to plan care and treatment and provide ongoing evaluation of the patient’s progress. All care is documented and each clinical record contains at least the following: demographic data, consent forms, pertinent legal documents, all treatment plans and patient assessments, consultation and laboratory reports, physician orders, progress notes, and a discharge summary. All documentation will adhere to applicable provisions of the JCAHO and requirements set forth in §199.7(b)(3). An appropriately qualified records administrator or technician will supervise and maintain the quality of the records. These requirements are in addition to other records requirements of this part, and documentation requirements of the Joint Commission on Accreditation of Health Care Organizations.

(11) Progress notes. PHPs shall document the course of treatment for patients and families using progress notes which provide information to review, analyze, and modify the treatment plans. Progress notes are legible, contemporaneous, sequential, signed and dated and adhere to applicable provisions of the Manual for Mental Health, Chemical Dependency, and Mental Retardation/Developmental Disabilities Services and requirements set forth in section 199.7(b)(3).

(12) Therapeutic services.

(i) Individual, group, and family therapy are provided to all patients, consistent with each patient’s treatment plan by qualified mental health providers.

(ii) A range of therapeutic activities, directed and staffed by qualified personnel, are offered to help patients meet the goals of the treatment plan.

(iii) Educational services are provided or arranged that are appropriate to the patient’s needs.

(13) Ancillary services. A full range of ancillary services are provided. Emergency services include policies and procedures for handling emergencies with qualified personnel and written agreements with each facility providing these services. Other ancillary services include physical health, pharmacy and dietary services.

(C) Standards for physical plant and environment.

(1) Physical environment. The buildings and grounds of the PHP shall be maintained so as to avoid health and safety hazards, be supportive of the services provided to patients, and promote patient comfort, dignity, privacy, personal hygiene, and personal safety.

(2) Physical plant safety. The PHP shall be of permanent construction and maintained in a manner that protects the lives and ensures the physical safety of patients, staff, and visitors, including conformity with all applicable building, fire, health, and safety codes.

(3) Disaster planning. The PHP shall maintain and rehearse written plans for taking care of casualties and handling other consequences arising from internal and external disasters.

(D) Standards for evaluation system.

(1) Quality assessment and improvement. The PHP shall develop and implement a comprehensive quality assurance and quality improvement program that monitors the quality, efficiency, appropriateness, and effectiveness of care, treatments, and services the PHP provides for patients and their families. Explicit clinical indicators shall be used to evaluate all functions of the PHP and contribute to an ongoing process of program improvement. The clinical director is responsible for developing and implementing quality assessment and improvement activities throughout the facility.

(2) Utilization review. The PHP shall implement a utilization review process, pursuant to a written plan approved by the professional staff, the administration and the governing body, that assesses distribution of services, clinical necessity of treatment, appropriateness of admission, continued stay, and timeliness of discharge, as part of an
overall effort to provide quality patient care in a cost-effective manner. Findings of the utilization review process are used as a basis for revising the plan of operation, including a review of staff qualifications and staff composition.

(3) **Patient records.** The PHP shall implement a process, including regular monthly reviews of a representative sample of patient records, to determine completeness, accuracy, timeliness of entries, appropriate signatures, and pertinence of clinical entries. Conclusions, recommendations, actions taken, and the results of actions are monitored and reported.

(4) **Drug utilization review.** The PHP shall implement a comprehensive process for the monitoring and evaluating of the prophylactic, therapeutic, and empiric use of drugs to assure that medications are provided appropriately, safely, and effectively.

(5) **Risk management.** The PHP shall implement a comprehensive risk management program, fully coordinated with other aspects of the quality assurance and quality improvement program, to prevent and control risks to patients and staff, and to minimize costs associated with clinical aspects of patient care and safety.

(6) **Infection control.** The PHP shall implement a comprehensive system for the surveillance, prevention, control, and reporting of infections acquired or brought into the facility.

(7) **Safety.** The PHP shall implement an effective program to assure a safe environment for patients, staff, and visitors, including an incident reporting system, disaster training and safety education, a continuous safety surveillance system, and an active multidisciplinary safety committee.

(8) **Facility evaluation.** The PHP annually evaluates accomplishment of the goals and objectives of each clinical program component or facility service of the PHP and reports findings and recommendations to the governing body.

(E) **Participation agreement requirements.** In addition to other requirements set forth in paragraph (b)(4)(xii) of this section, in order for the services of a PHP to be authorized, the PHP shall have entered into a Participation Agreement with OCHAMPUS. The period of a Participation Agreement shall be specified in the agreement, and will generally be for not more than five years. On October 1, 1995, the PHP shall not be considered to be a CHAMPUS authorized provider and CHAMPUS payments shall not be made for services provided by the PHP until the date the participation agreement is signed by the Director, OCHAMPUS. In addition to review of a facility’s application and supporting documentation, an on-site inspection by OCHAMPUS authorized personnel may be required prior to signing a participation agreement. The Participation Agreement shall include at least the following requirements:

1. Render partial hospitalization program services to eligible CHAMPUS beneficiaries in need of such services, in accordance with the participation agreement and CHAMPUS regulation.

2. Accept payment for its services based upon the methodology provided in §199.14, or such other method as determined by the Director, OCHAMPUS;

3. Accept the CHAMPUS all-inclusive per diem rate as payment in full and collect from the CHAMPUS beneficiary or the family of the CHAMPUS beneficiary only those amounts that represent the beneficiary’s liability, as defined in §199.4, and charges for services and supplies that are not a benefit of CHAMPUS;

4. Make all reasonable efforts acceptable to the Director, OCHAMPUS, to collect those amounts, which represent the beneficiary’s liability, as defined in §199.4;

5. Comply with the provisions of §199.8, and submit claims first to all health insurance coverage to which the beneficiary is entitled that is primary to CHAMPUS;

6. Submit claims for services provided to CHAMPUS beneficiaries at least every 30 days (except to the extent a delay is necessitated by efforts to first collect from other health insurance). If claims are not submitted at least every 30 days, the PHP agrees not to bill the beneficiary or the beneficiary’s family for any amounts disallowed by CHAMPUS;

7. Certify that:
§ 199.6 32 CFR Ch. I (7–1–02 Edition)

(i) It is and will remain in compliance with the provisions of paragraph (b)(4)(xii) of this section establishing standards for psychiatric partial hospitalization programs;

(ii) It has conducted a self assessment of the facility's compliance with the CHAMPUS Standards for Psychiatric Partial Hospitalization Programs, as issued by the Director, OCHAMPUS, and notified the Director, OCHAMPUS, of any matter regarding which the facility is not in compliance with such standards; and

(iii) It will maintain compliance with the CHAMPUS Standards for Psychiatric Partial Hospitalization Programs, as issued by the Director, OCHAMPUS, except for any such standards regarding which the facility notifies the Director, OCHAMPUS that it is not in compliance.

(8) Designate an individual who will act as liaison for CHAMPUS inquiries. The PHP shall inform OCHAMPUS in writing of the designated individual;

(9) Furnish OCHAMPUS with cost data, as requested by OCHAMPUS, certified by an independent accounting firm or other agency as authorized by the Director, OCHAMPUS;

(10) Comply with all requirements of this section applicable to institutional providers generally concerning preauthorization, concurrent care review, claims processing, beneficiary liability, double coverage, utilization and quality review and other matters;

(11) Grant the Director, OCHAMPUS, or designee, the right to conduct quality assurance audits or accounting audits with full access to patients and records (including records relating to patients who are not CHAMPUS beneficiaries) to determine the quality and cost-effectiveness of care rendered. The audits may be conducted on a scheduled or unscheduled (unannounced) basis. This right to audit/review includes, but is not limited to:

(i) Examination of fiscal and all other records of the PHP which would confirm compliance with the participation agreement and designation as an authorized CHAMPUS PHP provider;

(ii) Conducting such audits of PHP records including clinical, financial, and census records, as may be necessary to determine the nature of the services being provided, and the basis for charges and claims against the United States for services provided CHAMPUS beneficiaries;

(iii) Examining reports of evaluations and inspections conducted by federal, state and local government, and private agencies and organizations;

(iv) Conducting on-site inspections of the facilities of the PHP and interviewing employees, members of the staff, contractors, board members, volunteers, and patients, as required;

(v) Audits conducted by the United States General Account Office.

(F) Other requirements applicable to PHPs.

(1) Even though a PHP may qualify as a CHAMPUS-authorized provider and may have entered into a participation agreement with CHAMPUS, payment by CHAMPUS for particular services provided is contingent upon the PHP also meeting all conditions set forth in section 199.4 of this part.

(2) The PHP shall provide patient services to CHAMPUS beneficiaries in the same manner it provides inpatient services to all other patients. The PHP may not discriminate against CHAMPUS beneficiaries in any manner, including admission practices, placement in special or separate wings or rooms, or provisions of special or limited treatment.

(3) The PHP shall assure that all certifications and information provided to the Director, OCHAMPUS incident to the process of obtaining and retaining authorized provider status is accurate and that is has no material errors or omissions. In the case of any misrepresentations, whether by inaccurate information being provided or material facts withheld, authorized provider status will be denied or terminated, and the PHP will be ineligible for consideration for authorized provider status for a two year period.

(xiii) Hospice programs. Hospice programs must be Medicare approved and meet all Medicare conditions of participation (42 CFR part 418) in relation to CHAMPUS patients in order to receive payment under the CHAMPUS program. A hospice program may be found to be out of compliance with a particular Medicare condition of participation and still participate in the
CHAMPUS as long as the hospice is allowed continued participation in Medicare while the condition of noncompliance is being corrected. The hospice program can be either a public agency or private organization (or a subdivision thereof) which:

(A) Is primarily engaged in providing the care and services described under §199.4(e)(19) and makes such services available on a 24-hour basis.

(B) Provides bereavement counseling for the immediate family or terminally ill individuals.

(C) Provides for such care and services in individuals’ homes, on an outpatient basis, and on a short-term inpatient basis, directly or under arrangements made by the hospice program, except that the agency or organization must:

(1) Ensure that substantially all the core services are routinely provided directly by hospice employees.

(2) Maintain professional management responsibility for all services which are not directly furnished to the patient, regardless of the location or facility in which the services are rendered.

(3) Provide assurances that the aggregate number of days of inpatient care provided in any 12-month period does not exceed 20 percent of the aggregate number of days of hospice care during the same period.

(4) Have an interdisciplinary group composed of the following personnel who provide the care and services described under §199.4(e)(19) and who establish the policies governing the provision of such care/services:

(i) A physician;

(ii) A registered professional nurse;

(iii) A social worker; and

(iv) A pastoral or other counselor.

(5) Maintain central clinical records on all patients.

(6) Utilize volunteers.

(7) The hospice and all hospice employees must be licensed in accordance with applicable Federal, State and local laws and regulations.

(8) The hospice must enter into an agreement with CHAMPUS in order to be qualified to participate and to be eligible for payment under the program. In this agreement the hospice and CHAMPUS agree that the hospice will:

(i) Not charge the beneficiary or any other person for items or services for which the beneficiary is entitled to have payment made under the CHAMPUS hospice benefit.

(ii) Be allowed to charge the beneficiary for items or services requested by the beneficiary in addition to those that are covered under the CHAMPUS hospice benefit.

(9) Meet such other requirements as the Secretary of Defense may find necessary in the interest of the health and safety of the individuals who are provided care and services by such agency or organization.

(xiv) Substance use disorder rehabilitation facilities. Paragraph (b)(4)(xiv) of this section establishes standards and requirements for substance use disorder rehabilitation facilities (SUDRF). This includes both inpatient rehabilitation centers for the treatment of substance use disorders and partial hospitalization centers for the treatment of substance use disorders.

(A) Organization and administration.

(1) Definition of inpatient rehabilitation center. An inpatient rehabilitation center is a facility, or distinct part of a facility, that provides medically monitored, interdisciplinary addiction-focused treatment to beneficiaries who have psychoactive substance use disorders. Qualified health care professionals provide 24-hour, seven-day-per-week, medically monitored assessment, treatment, and evaluation. An inpatient rehabilitation center is appropriate for patients whose addiction-related symptoms, or concomitant physical and emotional/behavioral problems reflect persistent dysfunction in several major life areas. Inpatient rehabilitation is differentiated from:

(i) Acute psychoactive substance use treatment and from treatment of acute biomedical/emotional/behavioral problems; which problems are either life-threatening and/or severely incapacitating and often occur within the context of a discrete episode of addiction-related biomedical or psychiatric dysfunction;

(ii) A partial hospitalization center, which serves patients who exhibit emotional/behavioral dysfunction but who
can function in the community for defined periods of time with support in one or more of the major life areas;

(iii) A group home, sober-living environment, halfway house, or three-quarter way house;

(iv) Therapeutic schools, which are educational programs supplemented by addiction-focused services;

(v) Facilities that treat patients with primary psychiatric diagnoses other than psychoactive substance use or dependence; and

(vi) Facilities that care for patients with the primary diagnosis of mental retardation or developmental disability.

(2) Definition of partial hospitalization center for the treatment of substance use disorders. A partial hospitalization center for the treatment of substance use disorders is an addiction-focused service that provides active treatment to adolescents between the ages of 13 and 18 or adults aged 18 and over. Partial hospitalization is a generic term for day, evening, or weekend programs that treat patients with psychoactive substance use disorders according to a comprehensive, individualized, integrated schedule of care. A partial hospitalization center is organized, interdisciplinary, and medically monitored. Partial hospitalization is appropriate for those whose addiction-related symptoms or concomitant physical and emotional/behavioral problems can be managed outside the hospital environment for defined periods of time with support in one or more of the major life areas.

(3) Eligibility.

(i) Every inpatient rehabilitation center and partial hospitalization center for the treatment of substance use disorders must be certified pursuant to CHAMPUS certification standards. Such standards shall incorporate the basic standards set forth in paragraphs (b)(4)(xiv) (A) through (D) of this section, and shall include such additional elaborative criteria and standards as the Director, OCHAMPUS determines are necessary to implement the basic standards.

(ii) To be eligible for CHAMPUS certification, the SUDRF is required to be licensed and fully operational (with a minimum patient census of the lesser of: six patients or 30 percent of bed capacity) for a period of at least six months and operate in substantial compliance with state and federal regulations.

(iii) The SUDRF is currently accredited by the Joint Commission on Accreditation of Healthcare Organizations under the Accreditation Manual for Mental Health, Chemical Dependency, and Mental Retardation/Developmental Disabilities Services, or by the Commission on Accreditation of Rehabilitation Facilities as an alcoholism and other drug dependency rehabilitation program under the Standards Manual for Organizations Serving People with Disabilities, or other designated standards approved by the Director, OCHAMPUS.

(iv) The SUDRF has a written participation agreement with OCHAMPUS. On October 1, 1995, the SUDRF is not considered a CHAMPUS-authorized provider, and CHAMPUS benefits are not paid for services provided until the date upon which a participation agreement is signed by the Director, OCHAMPUS.

(4) Governing body.

(i) The SUDRF shall have a governing body which is responsible for the policies, bylaws, and activities of the facility. If the SUDRF is owned by a partnership or single owner, the partners or single owner are regarded as the governing body. The facility will provide an up-to-date list of names, addresses, telephone numbers and titles of the members of the governing body.

(ii) The governing body ensures appropriate and adequate services for all patients and oversees continuing development and improvement of care. Where business relationships exist between the governing body and facility, appropriate conflict-of-interest policies are in place.

(iii) Board members are fully informed about facility services and the governing body conducts annual reviews of its performance in meeting purposes, responsibilities, goals and objectives.

(5) Chief executive officer. The chief executive officer, appointed by and
subject to the direction of the governing body, shall assume overall administrative responsibility for the operation of the facility according to governing body policies. The chief executive officer shall have five years’ administrative experience in the field of mental health or addictions. On October 1, 1997 the CEO shall possess a degree in business administration, public health, hospital administration, nursing, social work, or psychology, or meet similar educational requirements as prescribed by the Director, OCHAMPUS.

(6) **Clinical Director.** The clinical director, appointed by the governing body, shall be a qualified psychiatrist or doctoral level psychologist who meets applicable CHAMPUS requirements for individual professional providers and is licensed to practice in the state where the SUDRF is located. The clinical director shall possess requisite education and experience, including credentials applicable under state practice and licensing laws appropriate to the professional discipline. The clinical director shall satisfy at least one of the following requirements: certification by the American Society of Addiction Medicine; one year or 1,000 hours of experience in the treatment of psychoactive substance use disorders; or is a psychiatrist or doctoral level psychologist with experience in the treatment of substance use disorders. The clinical director shall be responsible for planning, development, implementation, and monitoring of all clinical activities.

(7) **Medical director.** The medical director, appointed by the governing body, shall be licensed to practice medicine in the state where the center is located and shall possess requisite education including graduation from an accredited school of medicine or osteopathy. The medical director shall satisfy at least one of the following requirements: certification by the American Society of Addiction Medicine; one year or 1,000 hours of experience in the treatment of psychoactive substance use disorders; or is a psychiatrist with experience in the treatment of substance use disorders. The medical director shall be responsible for planning, development, implementation, and monitoring of all clinical activities, and monitoring of all activities relating to medical treatment of patients. If qualified, the Medical Director may also serve as Clinical Director.

(8) **Medical or professional staff organization.** The governing body shall establish a medical or professional staff organization to assure effective implementation of clinical privileging, professional conduct rules, and other activities directly affecting patient care.

(9) **Personnel policies and records.** The SUDRF shall maintain written personnel policies, updated job descriptions, personnel records to assure the selection of qualified personnel and successful job performance of those personnel.

(10) **Staff development.** The SUDRF shall provide appropriate training and development programs for administrative, support, and direct care staff.

(11) **Fiscal accountability.** The SUDRF shall assure fiscal accountability to applicable government authorities and patients.

(12) **Designated teaching facilities.** Students, residents, interns, or fellows providing direct clinical care are under the supervision of a qualified staff member approved by an accredited university or approved training program. The teaching program is approved by the Director, OCHAMPUS.

(13) **Emergency reports and records.** The facility notifies OCHAMPUS of any serious occurrence involving CHAMPUS beneficiaries.

(14) **Treatment services.**

(1) **Staff composition.**

(i) The SUDRF shall follow written plans which assure that medical and clinical patient needs will be appropriately addressed during all hours of operation by a sufficient number of fully qualified (including license, registration or certification requirements, educational attainment, and professional experience) health care professionals and support staff in the respective disciplines. Clinicians providing individual, group and family therapy meet CHAMPUS requirements as qualified mental health providers and operate within the scope of their licenses. The ultimate authority for planning, development, implementation, and monitoring of all clinical activities is vested in a psychiatrist or doctoral
§ 199.6 32 CFR Ch. I (7–1–02 Edition)

level clinical psychologist. The management of medical care is vested in a physician.

(ii) The SUDRF shall establish and follow written plans to assure adequate staff coverage during all hours of operation of the center, including physician availability and other professional staff coverage 24 hours per day, seven days per week for an inpatient rehabilitation center and during all hours of operation for a partial hospitalization center.

(2) Staff qualifications. Within the scope of its programs and services, the SUDRF has a sufficient number of professional, administrative, and support staff to address the medical and clinical needs of patients and to coordinate the services provided. SUDRFs that employ individuals with master’s or doctoral level degrees in a mental health discipline who do not meet the licensure, certification and experience requirements for a qualified mental health provider but are actively working toward licensure or certification, may provide services within the DRG, provided the individual works under the clinical supervision of a fully qualified mental health provider employed by the SUDRF.

(3) Patient rights.

(i) The SUDRF shall provide adequate protection for all patient rights, safety, confidentiality, informed consent, grievances, and personal dignity.

(ii) The SUDRF has a written policy regarding patient abuse and neglect.

(iii) SUDRF marketing and advertising meets professional standards.

(4) Behavioral management. When a SUDRF uses a behavioral management program, the center shall adhere to a comprehensive, written plan of behavioral management, developed by the clinical director and the medical or professional staff and approved by the governing body. It shall be based on positive reinforcement methods and, except for infrequent use of temporary physical holds or time outs, does not include the use of restraint or seclusion. Only trained and clinically privileged RNs or qualified mental health professionals may be responsible for the implementation of seclusion and restraint in an emergency situation.

(5) Admission process. The SUDRF shall maintain written policies and procedures to ensure that, prior to an admission, a determination is made, and approved pursuant to CHAMPUS preauthorization requirements, that the admission is medically and/or psychologically necessary and the program is appropriate to meet the patient’s needs. Medical and/or psychological necessity determinations shall be rendered by qualified mental health professionals who meet CHAMPUS requirements for individual professional providers and who are permitted by law and by the facility to refer patients for admission.

(6) Assessment. The professional staff of the SUDRF shall provide a complete, multidisciplinary assessment of each patient which includes, but is not limited to, medical history, physical health, nursing needs, alcohol and drug history, emotional and behavioral factors, age-appropriate social circumstances, psychological condition, education status, and skills. Unless otherwise specified, all required clinical assessments are completed prior to development of the multidisciplinary treatment plan.

(7) Clinical formulation. A qualified mental health care professional of the SUDRF will complete a clinical formulation on all patients. The clinical formulation will be reviewed and approved by the responsible individual professional provider and will incorporate significant findings from each of the multidisciplinary assessments. It will provide the basis for development of an interdisciplinary treatment plan.

(8) Treatment planning. A qualified health care professional with admitting privileges shall be responsible for the development, supervision, implementation, and assessment of a written, individualized, and interdisciplinary plan of treatment, which shall be completed within 10 days of admission to an inpatient rehabilitation center or by the fifth day following admission to full day partial hospitalization center, and by the seventh day of treatment for half day partial hospitalization. The treatment plan shall include individual, measurable, and observable goals for incremental progress towards the treatment plan objectives and
goals and discharge. A preliminary treatment plan is completed within 24 hours of admission and includes at least a physician’s admission note and orders. The master treatment plan is regularly reviewed for effectiveness and revised when major changes occur in treatment.

(9) Discharge and transition planning. The SUDRF shall maintain a transition planning process to address adequately the anticipated needs of the patient prior to the time of discharge.

(10) Clinical documentation. Clinical records shall be maintained on each patient to plan care and treatment and provide ongoing evaluation of the patient’s progress. All care is documented and each clinical record contains at least the following: demographic data, consent forms, pertinent legal documents, all treatment plans and patient assessments, consultation and laboratory reports, physician orders, progress notes, and a discharge summary. All documentation will adhere to applicable provisions of the JCAHO and requirements set forth in §199.7(b)(3). An appropriately qualified records administrator or technician will supervise and maintain the quality of the records. These requirements are in addition to other records requirements of this part, and provisions of the JCAHO Manual for Mental Health, Chemical Dependency, and Mental Retardation/Developmental Disabilities Services.

(11) Progress notes. Timely and complete progress notes shall be maintained to document the course of treatment for the patient and family.

(12) Therapeutic services.

(i) Individual, group, and family psychotherapy and addiction counseling services are provided to all patients, consistent with each patient’s treatment plan by qualified mental health providers.

(ii) A range of therapeutic activities, directed and staffed by qualified personnel, are offered to help patients meet the goals of the treatment plan.

(iii) Therapeutic educational services are provided or arranged that are appropriate to the patient’s educational and therapeutic needs.

(13) Ancillary services. A full range of ancillary services is provided. Emergency services include policies and procedures for handling emergencies with qualified personnel and written agreements with each facility providing the service. Other ancillary services include physical health, pharmacy and dietary services.

(C) Standards for physical plant and environment.

(1) Physical environment. The buildings and grounds of the SUDRF shall be maintained so as to avoid health and safety hazards, be supportive of the services provided to patients, and promote patient comfort, dignity, privacy, personal hygiene, and personal safety.

(2) Physical plant safety. The SUDRF shall be maintained in a manner that protects the lives and ensures the physical safety of patients, staff, and visitors, including conformity with all applicable building, fire, health, and safety codes.

(3) Disaster planning. The SUDRF shall maintain and rehearse written plans for taking care of casualties and handling other consequences arising from internal or external disasters.

(D) Standards for evaluation system.

(1) Quality assessment and improvement. The SUDRF develop and implement a comprehensive quality assurance and quality improvement program that monitors the quality, efficiency, appropriateness, and effectiveness of the care, treatments, and services it provides for patients and their families, utilizing clinical indicators of effectiveness to contribute to an ongoing process of program improvement. The clinical director is responsible for developing and implementing quality assessment and improvement activities throughout the facility.

(2) Utilization review. The SUDRF shall implement a utilization review process, pursuant to a written plan approved by the professional staff, the administration, and the governing body, that assesses the appropriateness of admissions, continued stay, and timeliness of discharge as part of an effort to provide quality patient care in a cost-effective manner. Findings of the utilization review process are used as a basis for revising the plan of operation, including a review of staff qualifications and staff composition.

(3) Patient records review. The center shall implement a process, including
§ 199.6

monthly reviews of a representative sample of patient records, to determine the completeness and accuracy of the patient records and the timeliness and pertinence of record entries, particularly with regard to regular recording of progress/non-progress in treatment plan.

(4) **Drug utilization review.** An inpatient rehabilitation center and, when applicable, a partial hospitalization center, shall implement a comprehensive process for the monitoring and evaluating of the prophylactic, therapeutic, and empiric use of drugs to assure that medications are provided appropriately, safely, and effectively.

(5) **Risk management.** The SUDRF shall implement a comprehensive risk management program, fully coordinated with other aspects of the quality assurance and quality improvement program, to prevent and control risks to patients and staff and costs associated with clinical aspects of patient care and safety.

(6) **Infection control.** The SUDRF shall implement a comprehensive system for the surveillance, prevention, control, and reporting of infections acquired or brought into the facility.

(7) **Safety.** The SUDRF shall implement an effective program to assure a safe environment for patients, staff, and visitors.

(8) **Facility evaluation.** The SUDRF annually evaluates accomplishment of the goals and objectives of each clinical program and service of the SUDRF and reports findings and recommendations to the governing body.

(E) **Participation agreement requirements.** In addition to other requirements set forth in paragraph (b)(4)(xiv) of this section, in order for the services of an inpatient rehabilitation center or partial hospitalization center for the treatment of substance abuse disorders to be authorized, the center shall have entered into a Participation Agreement with OCHAMPUS. The period of a Participation Agreement shall be specified in the agreement, and will generally be for not more than five years. On October 1, 1995, the SUDRF shall not be considered to be a CHAMPUS authorized provider and CHAMPUS payments shall not be made for services provided by the SUDRF until the date the participation agreement is signed by the Director, OCHAMPUS. In addition to review of the SUDRF’s application and supporting documentation, an on-site visit by OCHAMPUS representatives may be part of the authorization process. In addition, such a Participation Agreement may not be signed until an SUDRF has been licensed and operational for at least six months. The Participation Agreement shall include at least the following requirements:

(1) Render applicable services to eligible CHAMPUS beneficiaries in need of such services, in accordance with the participation agreement and CHAMPUS regulation;

(2) Accept payment for its services based upon the methodology provided in §199.14, or such other method as determined by the Director, OCHAMPUS;

(3) Accept the CHAMPUS-determined rate as payment in full and collect from the CHAMPUS beneficiary or the family of the CHAMPUS beneficiary only those amounts that represent the beneficiary’s liability, as defined in §199.4, and charges for services and supplies that are not a benefit of CHAMPUS;

(4) Make all reasonable efforts acceptable to the Director, OCHAMPUS, to collect those amounts which represent the beneficiary’s liability, as defined in §199.4;

(5) Comply with the provisions of §199.8, and submit claims first to all health insurance coverage to which the beneficiary is entitled that is primary to CHAMPUS;

(6) Furnish OCHAMPUS with cost data, as requested by OCHAMPUS, certified to by an independent accounting firm or other agency as authorized by the Director, OCHAMPUS;

(7) Certify that:

(i) It is and will remain in compliance with the provisions of paragraph (b)(4)(xiv) of the section establishing standards for substance use disorder rehabilitation facilities;

(ii) It has conducted a self assessment of the SUDRF’s compliance with the CHAMPUS Standards for Substance Use Disorder Rehabilitation Facilities, as issued by the Director, OCHAMPUS, and notified the Director, OCHAMPUS;
§ 199.6

of any matter regarding which the facility is not in compliance with such standards; and

(iii) It will maintain compliance with the CHAMPUS Standards for Substance Use Disorder Rehabilitation Facilities, as issued by the Director, OCHAMPUS, except for any such standards regarding which the facility notifies the Director, OCHAMPUS that it is not in compliance.

(8) Grant the Director, OCHAMPUS, or designee, the right to conduct quality assurance audits or accounting audits with full access to patients and records (including records relating to patients who are not CHAMPUS beneficiaries) to determine the quality and cost effectiveness of care rendered. The audits may be conducted on a scheduled or unscheduled (unannounced) basis. This right to audit/review included, but is not limited to:

(i) Examination of fiscal and all other records of the center which would confirm compliance with the participation agreement and designation as an authorized CHAMPUS provider;

(ii) Conducting such audits of center records including clinical, financial, and census records, as may be necessary to determine the nature of the services being provided, and the basis for charges and claims against the United States for services provided CHAMPUS beneficiaries;

(iii) Examining reports of evaluations and inspection conducted by federal, state and local government, and private agencies and organizations;

(iv) Conducting on-site inspections of the facilities of the SUDRF and interviewing employees, members of the staff, contractors, board members, volunteers, and patients, as required.

(v) Audits conducted by the United States General Accounting Office.

(F) Other requirements applicable to substance use disorder rehabilitation facilities.

(1) Even though a SUDRF may qualify as a CHAMPUS-authorized provider and may have entered into a participation agreement with CHAMPUS, payment by CHAMPUS for particular services provided is contingent upon the SUDRF also meeting all conditions set forth in §199.4.

(2) The center shall provide inpatient services to CHAMPUS beneficiaries in the same manner it provides services to all other patients. The center may not discriminate against CHAMPUS beneficiaries in any manner, including admission practices, placement in special or separate wings or rooms, or provisions of special or limited treatment.

(3) The substance use disorder facility shall assure that all certifications and information provided to the Director, OCHAMPUS incident to the process of obtaining and retaining authorized provider status is accurate and that it has no material errors or omissions. In the case of any misrepresentations, whether by inaccurate information being provided or material facts withheld, authorized provider status will be denied or terminated, and the facility will be ineligible for consideration for authorized provider status for a two year period.

(c) Individual professional providers of care—(1) General—(i) Purpose. This individual professional provider class is established to accommodate individuals who are recognized by 10 U.S.C. 1079(a) as authorized to assess or diagnose illness, injury, or bodily malfunction as a prerequisite for CHAMPUS cost-share of otherwise allowable related preventive or treatment services or supplies, and to accommodate such other qualified individuals who the Director, OCHAMPUS, or designee, may authorize to render otherwise allowable services essential to the efficient implementation of a plan-of-care established and managed by a 10 U.S.C. 1079(a) authorized professional.

(ii) Professional corporation affiliation or association membership permitted. Paragraph (c) of this section applies to those individual health care professionals who have formed a professional corporation or association pursuant to applicable state laws. Such a professional corporation or association may file claims on behalf of a CHAMPUS-authorized individual professional provider and be the payee for any payment resulting from such claims when the CHAMPUS-authorized individual certifies to the Director, OCHAMPUS, or designee, in writing that the professional corporation or association is
§ 199.6  Acting on the authorized individual’s behalf.

(iii) Scope of practice limitation. For CHAMPUS cost-sharing to be authorized, otherwise allowable services provided by a CHAMPUS-authorized individual professional provider shall be within the scope of the individual’s license as regulated by the applicable state practice act of the state where the individual rendered the service to the CHAMPUS beneficiary or shall be within the scope of the test which was the basis for the individual’s qualifying certification.

(iv) Employee status exclusion. An individual employed directly, or indirectly by contract, by an individual or entity to render professional services otherwise allowable by this part is excluded from provider status as established by this paragraph (c) for the duration of each employment.

(v) Training status exclusion. Individual health care professionals who are allowed to render health care services only under direct and ongoing supervision as training to be credited towards earning a clinical academic degree or other clinical credential required for the individual to practice independently are excluded from provider status as established by this paragraph (c) for the duration of such training.

(2) Conditions of authorization—

(i) Professional license requirement. The individual must be currently licensed to render professional health care services in each state in which the individual renders services to CHAMPUS beneficiaries. Such license is required when a specific state provides, but does not require, license for a specific category of individual professional provider. The license must be at full clinical practice level to meet this requirement. Temporary license at the full clinical practice level is acceptable.

(ii) Professional certification requirement. When a state does not license a specific category of individual professional, certification by a Qualified Accreditation Organization, as defined in §199.2, is required. Certification must be at full clinical practice level. A temporary certification at the full clinical practice level is acceptable.

(iii) Education, training and experience requirement. The Director, OCHAMPUS, or designee, may establish for each category or type of provider allowed by this paragraph (c) specific education, training, and experience requirements as necessary to promote the delivery of services by fully qualified individuals.

(iv) Physician referral and supervision. When physician referral and supervision is a prerequisite for CHAMPUS cost-sharing of the services of a provider authorized under this paragraph (c), such referral and supervision means that the physicians must actually see the patient to evaluate and diagnose the condition to be treated prior to referring the beneficiary to another provider and that the referring physician provides ongoing oversight of the course of referral related treatment throughout the period during which the beneficiary is being treated in response to the referral. Written contemporaneous documentation of the referring physician’s basis for referral and ongoing communication between the referring and treating provider regarding the oversight of the treatment rendered as a result of the referral must meet all requirements for medical records established by this part. Referring physician supervision does not require physical location on the premises of the treating provider or at the site of treatment.

(3) Types of providers. Subject to the standards of participation provisions of this part, the following individual professional providers of medical care are authorized to provide services to CHAMPUS beneficiaries:

(i) Physicians. (A) Doctors of Medicine (M.D.).

(B) Doctors of Osteopathy (D.O.).

(ii) Dentists. Except for covered oral surgery as specified in §199.4(e) of this part, all otherwise covered services rendered by dentists require preauthorization.

(A) Doctors of Dental Medicine (D.M.D.).

(B) Doctors of Dental Surgery (D.D.S.).

(iii) Other allied health professionals. The services of the following individual professional providers of care are
Office of the Secretary of Defense § 199.6

coverable on a fee-for-service basis provided such services are otherwise authorized in this or other sections of this part.

(A) Clinical psychologist. For purposes of CHAMPUS, a clinical psychologist is an individual who is licensed or certified by the state for the independent practice of psychology and:

(1) Possesses a doctoral degree in psychology from a regionally accredited university; and

(2) Has had at least 2 years of supervised clinical experience in psychological health services of which at least 1 year is post-doctoral and 1 year (may be the post-doctoral year) is in an organized psychological health service training program; or

(3) As an alternative to paragraphs (c)(3)(i)(A)(1) and (2) of this section is listed in the National Register of Health Service Providers in Psychology.

(B) Doctors of Optometry.

(C) Doctors of Podiatry or Surgical Chiropody.

(D) Certified nurse midwives.

(1) A certified nurse midwife may provide covered care independent of physician referral and supervision, provided the nurse midwife is:

(i) Licensed, when required, by the local licensing agency for the jurisdiction in which the care is provided; and

(ii) Certified by the American College of Nurse Midwives. To receive certification, a candidate must be a registered nurse who has completed successfully an educational program approved by the American College of Nurse Midwives, and passed the American College of Nurse Midwives National Certification Examination.

(2) The services of a registered nurse who is not a certified nurse midwife may be authorized only when the patient has been referred for care by a licensed physician and a licensed physician provides continuing supervision of the course of care. A lay midwife who is neither a certified nurse midwife nor a registered nurse is not a CHAMPUS-authorized provider, regardless of whether the services rendered may otherwise be covered.

(E) Certified nurse practitioner. Within the scope of applicable licensure or certification requirements, a certified nurse practitioner may provide covered care independent of physician referral and supervision, provided the nurse practitioner is:

(1) A licensed, registered nurse; and

(2) Specifically licensed or certified as a nurse practitioner by the state in which the care was provided, if the state offers such specific licensure or certification; or

(3) Certified as a nurse practitioner (certified nurse) by a professional organization offering certification in the specialty of practice, if the state does not offer specific licensure or certification for nurse practitioners.

(F) Certified Clinical Social Worker. A clinical social worker may provide covered services independent of physician referral and supervision, provided the clinical social worker:

(1) Is licensed or certified as a clinical social worker by the jurisdiction where practicing; or, if the jurisdiction does not provide for licensure or certification of clinical social workers, is certified by a national professional organization offering certification of clinical social workers; and

(2) Has at least a master’s degree in social work from a graduate school of social work accredited by the Council on Social Work Education; and

(3) Has had a minimum of 2 years or 3,000 hours of post-master’s degree supervised clinical social work practice under the supervision of a master’s level social worker in an appropriate clinical setting, as determined by the Director, OCHAMPUS, or a designee.

NOTE: Patients' organic medical problems must receive appropriate concurrent management by a physician.

(G) Certified psychiatric nurse specialist. A certified psychiatric nurse specialist may provide covered care independent of physician referral and supervision. For purposes of CHAMPUS, a certified psychiatric nurse specialist is an individual who:

(1) Is a licensed, registered nurse; and

(2) Has at least a master’s degree in nursing from a regionally accredited institution with a specialization in psychiatric and mental health nursing; and

(3) Has at least 2 years of post-master’s degree practice in the field of psychiatric and mental health nursing.
§ 199.6

including an average of 8 hours of direct patient contact per week; or

(4) Is listed in a CHAMPUS-recognized, professionally sanctioned listing of clinical specialists in psychiatric and mental health nursing.

(H) **Certified physician assistant.** A physician assistant may provide care under general supervision of a physician (see §199.14(g)(1)(iii) of this part for limitations on reimbursement). For purposes of CHAMPUS, a physician assistant must meet the applicable state requirements governing the qualifications of physician assistants and at least one of the following conditions:

(1) Is currently certified by the National Commission on Certification of Physician Assistants to assist primary care physicians, or

(2) Has satisfactorily completed a program for preparing physician assistants that:

(1) Was at least 1 academic year in length;

(ii) Consisted of supervised clinical practice and at least 4 months (in the aggregate) of classroom instruction directed toward preparing students to deliver health care; and

(iii) Was accredited by the American Medical Association’s Committee on Allied Health Education and Accreditation; or

(3) Has satisfactorily completed a formal educational program for preparing program physician assistants that does not meet the requirement of paragraph (c)(3)(iii)(H)(2) of this section and had been assisting primary care physicians for a minimum of 12 months during the 18-month period immediately preceding January 1, 1987.

(I) **Other individual paramedical providers.** The services of the following individual professional providers of care to be considered for benefits on a fee-for-service basis may be provided only if the beneficiary is referred by a physician for the treatment of a medically-diagnosed condition and a physician must also provide continuing and ongoing oversight and supervision of the program or episode of treatment provided by these individual para-medical providers.

(1) Licensed registered nurses.

(2) Licensed registered physical therapists and occupational therapists.

(3) Licensed registered physical therapists.

(4) Audiologists.

(5) Speech therapists (speech pathologists).

(iv) **Extramedical individual providers.** Extramedical individual providers are those who do counseling or nonmedical therapy and whose training and therapeutic concepts are outside the medical field. The services of extramedical individual professionals are coverable following the CHAMPUS determined allowable charge methodology provided such services are otherwise authorized in this or other sections of the regulation.

(A) **Certified marriage and family therapists.** For the purposes of CHAMPUS, a certified marriage and family therapist is an individual who meets the following requirements:

(1) Recognized graduate professional education with the minimum of an earned master’s degree from a regionally accredited educational institution in an appropriate behavioral science field, mental health discipline; and

(2) The following experience:

(i) Either 200 hours of approved supervision in the practice of marriage and family counseling, ordinarily to be completed in a 2- to 3-year period, of which at least 100 hours must be in individual supervision. This supervision will occur preferably with more than one supervisor and should include a continuous process of supervision with at least three cases; and

(ii) 1,000 hours of clinical experience in the practice of marriage and family counseling under approved supervision, involving at least 50 different cases; or

(iii) 150 hours of approved supervision in the practice of psychotherapy, ordinarily to be completed in a 2- to 3-year period, of which at least 50 hours must be individual supervision; plus at least 50 hours of approved individual supervision in the practice of marriage and family counseling, ordinarily to be completed within a period of not less than 1 nor more than 2 years; and

(iv) 750 hours of clinical experience in the practice of psychotherapy under approved supervision involving at least 30 cases; plus at least 250 hours of clinical practice in marriage and family
Office of the Secretary of Defense

§ 199.6

(1) Recognized graduate professional education with the minimum of an earned master’s degree from a regionally accredited educational institution in an appropriate behavioral science field, mental health discipline; and

(2) The following experience:

(i) Either 200 hours of approved supervision in the practice of pastoral counseling, ordinarily to be completed in a 2- to 3-year period, of which at least 100 hours must be in individual supervision. This supervision will occur preferably with more than one supervisor and should include a continuous process of supervision with at least three cases; and

(ii) 1,000 hours of clinical experience in the practice of pastoral counseling under approved supervision, involving at least 50 different cases; or

(iii) 150 hours of approved supervision in the practice of psychotherapy, ordinarily to be completed in a 2- to 3-year period, of which at least 50 hours must be individual supervision; plus at least 50 hours of approved individual supervision in the practice of pastoral counseling, ordinarily to be completed within a period of not less than 1 nor more than 2 years; and

(iv) 750 hours of clinical experience in the practice of psychotherapy under approved supervision involving at least 30 cases; plus at least 250 hours of clinical practice in pastoral counseling under approved supervision, involving at least 20 cases; and

(3) Is licensed or certified to practice as a marriage and family therapist by the jurisdiction where practicing (see paragraph (c)(3)(iv)(D) of this section for more specific information regarding licensure); and

(4) Agrees that a patient’s organic medical problems must receive appropriate concurrent management by a physician.

(5) Agrees to accept the CHAMPUS determined allowable charge as payment in full, except for applicable deductibles and cost-shares, and hold CHAMPUS beneficiaries harmless for noncovered care (i.e., may not bill a beneficiary for noncovered care, and may not balance bill a beneficiary for amounts above the allowable charge). The certified marriage and family therapist must enter into a participation agreement with the Office of CHAMPUS within which the certified marriage and family therapist agrees to all provisions specified above.

(6) As of the effective date of termination, the certified marriage and family therapist will no longer be recognized as an authorized provider under CHAMPUS. Subsequent to termination, the certified marriage and family therapist may only be reinstated as an authorized CHAMPUS extramedical provider by entering into a new participation agreement as a certified marriage and family therapist.

(B) Pastoral counselors. For the purposes of CHAMPUS, a pastoral counselor is an individual who meets the following requirements:

(1) Recognized graduate professional education with the minimum of a regionally accredited educational institution in an appropriate behavioral science field, mental health discipline; and

(2) The following experience:

(i) Either 200 hours of approved supervision in the practice of pastoral counseling, ordinarily to be completed in a 2- to 3-year period, of which at least 100 hours must be in individual supervision. This supervision will occur preferably with more than one supervisor and should include a continuous process of supervision with at least three cases; and

(ii) 1,000 hours of clinical experience in the practice of pastoral counseling under approved supervision, involving at least 50 different cases; or

(iii) 150 hours of approved supervision in the practice of psychotherapy, ordinarily to be completed in a 2- to 3-year period, of which at least 50 hours must be individual supervision; plus at least 50 hours of approved individual supervision in the practice of pastoral counseling, ordinarily to be completed within a period of not less than 1 nor more than 2 years; and

(iv) 750 hours of clinical experience in the practice of psychotherapy under approved supervision involving at least 30 cases; plus at least 250 hours of clinical practice in pastoral counseling under approved supervision, involving at least 20 cases; and

(3) Is licensed or certified to practice as a pastoral counselor by the jurisdiction where practicing (see paragraph (c)(3)(iv)(D) of this section for more specific information regarding licensure); and

(4) The services of a pastoral counselor meeting the above requirements are coverable following the CHAMPUS determined allowable charge methodology, under the following specified conditions:

(i) The CHAMPUS beneficiary must be referred for therapy by a physician; and

(ii) A physician is providing ongoing oversight and supervision of the therapy being provided; and

(iii) The pastoral counselor must certify on each claim for reimbursement that a written communication has been made or will be made to the referring physician of the results of the treatment. Such communication will be made at the end of the treatment, or more frequently, as required by the referring physician (refer to §199.7).

(5) Because of the similarity of the requirements for licensure, certification, experience, and education, a pastoral counselor may elect to be authorized under CHAMPUS as a certified marriage and family therapist, and as such, be subject to all previously defined criteria for the certified marriage and family therapist category, to include acceptance of the CHAMPUS determined allowable charge as payment.
in full, except for applicable deductibles and cost-shares (i.e., balance billing of a beneficiary above the allowable charge is prohibited; may not bill beneficiary for noncovered care). The pastoral counselor must also agree to enter into the same participation agreement as a certified marriage and family therapist with the Office of CHAMPUS within which the pastoral counselor agrees to all provisions including licensure, national association membership and conditions upon termination, outlined above for certified marriage and family therapist.

NOTE: No dual status will be recognized by the Office of CHAMPUS. Pastoral counselors must elect to become one of the categories of extramedical CHAMPUS provides specified above. Once authorized as either a pastoral counselor, or a certified marriage and family therapist, claims review and reimbursement will be in accordance with the criteria established for the elected provider category.

(C) Mental health counselor. For the purposes of CHAMPUS, a mental health counselor is an individual who meets the following requirements:

1. Minimum of a master’s degree in mental health counseling or allied mental health field from a regionally accredited institution; and
2. Two years of post-masters experience which includes 3000 hours of clinical work and 100 hours of face-to-face supervision; and
3. Is licensed or certified to practice as a mental health counselor by the jurisdiction where practicing (see paragraph (c)(3)(iv)(D) of this section for more specific information); and
4. May only be reimbursed when:
   (i) The CHAMPUS beneficiary is referred for therapy by a physician; and
   (ii) A physician is providing ongoing oversight and supervision of the therapy being provided; and
   (iii) The mental health counselor certifies on each claim for reimbursement that a written communication has been made or will be made to the referring physician of the results of the treatment. Such communication will be made at the end of the treatment, or more frequently, as required by the referring physician (refer to §199.7).

(D) The following additional information applies to each of the above categories of extramedical individual providers:

1. These providers must also be licensed or certified to practice as a certified marriage and family therapist, pastoral counselor or mental health counselor by the jurisdiction where practicing. In jurisdictions that do not provide for licensure or certification, the provider must be certified by or eligible for full clinical membership in the appropriate national professional association that sets standards for the specific profession.

2. Grace period for therapists or counselors in states where licensure/certification is optional. CHAMPUS is providing a grace period for those therapists or counselors who did not obtain optional licensure/certification in their jurisdiction, not realizing it was a CHAMPUS requirement for authorization. The exemption by state law for pastoral counselors may have misled this group into thinking licensure was not required. The same situation may have occurred with the other therapist or counselor categories where licensure was either not mandated by the state or was provided under a more general category such as “professional counselors.” This grace period pertains only to the licensure/certification requirement, applies only to therapists or counselors who are already approved as of October 29, 1990, and only in those areas where the licensure/certification is optional. Any therapist or counselor who is not licensed/certified in the state in which he/she is practicing by August 1, 1991, will be terminated under the provisions of §199.9. This grace period does not change any of the other existing requirements which remain in effect. During this grace period, membership or proof of eligibility for full clinical membership in a recognized professional association is required for those therapists or counselors who are not licensed or certified by the state. The following organizations are recognized for therapists or counselors at the level indicated: Full clinical member of the American Association of Marriage and Family Therapy; membership at the fellow or diplomate level of the American Association of Pastoral Counselors; and membership in the National Academy of Certified Clinical Mental Health Counselors. Acceptable proof of eligibility
for membership is a letter from the appropriate certifying organization. This opportunity for delayed certification/licensure is limited to the counselor or therapist category only as the language in all of the other provider categories has been consistent and unmodified from the time each of the other provider categories were added. The grace period does not apply in those states where licensure is mandatory.

(E) Christian Science practitioners and Christian Science nurses. CHAMPUS cost-shares the services of Christian Science practitioners and nurses. In order to bill as such, practitioners or nurses must be listed or be eligible for listing in the Christian Science Journal\(^1\) at the time the service is provided.

(d) Other providers. Certain medical supplies and services of an ancillary or supplemental nature are coverable by CHAMPUS, subject to certain controls. This category of provider includes the following:

(1) Independent laboratory. Laboratory services of independent laboratories may be cost-shared if the laboratory is approved for participation under Medicare and certified by the Medicare Bureau, Health Care Financing Administration.

(2) Suppliers of portable x-ray services. Such suppliers must meet the conditions of coverage of the Medicare program, set forth in the Medicare regulations, or the Medicaid program in that state in which the covered service is provided.

(3) Pharmacies. Pharmacies must meet the applicable requirements of state law in the state in which the pharmacy is located.

(4) Ambulance companies. Such companies must meet the requirements of state and local laws in the jurisdiction in which the ambulance firm is licensed.

(5) Medical equipment firms, medical supply firms. As determined by the Director, OCHAMPUS, or a designee.

\(^1\)Copies of this journal can be obtained through the Christian Science Publishing Company, 1 Norway Street, Boston, MA 02115-3122 or the Christian Science Publishing Society, P.O. Box 11369, Des Moines, IA 50340.

(6) Mammography suppliers. Mammography services may be cost-shared only if the supplier is certified by Medicare for participation as a mammography supplier, or is certified by the American College of Radiology as having met its mammography supplier standards.

(e) Program for Persons with Disabilities Providers.—(1) General. (i) Services and items cost-shared through §199.5 must be rendered by a CHAMPUS-authorized provider.

(ii) A Program for the Handicapped (PFTH) provider with CHAMPUS-authorized status on the effective date for the Program for Persons with Disabilities (PFPWD) shall be deemed to be a CHAMPUS-authorized PFPWD provider until all outstanding PFTH benefit authorizations for services or items being rendered by the provider expire.

(2) PFPWD provider categories.—(i) PFPWD inpatient care provider. A provider of residential institutional care which is otherwise a PFPWD benefit shall be:

(A) A not-for-profit entity or a public facility, as defined in §199.2; and
(B) Located within a State, as defined in §199.2; and

(C) Be certified as eligible for Medicaid payment in accordance with a State plan for medical assistance under Title XIX of the Social Security Act (Medicaid) as a Medicaid Nursing Facility, or Intermediate Care Facility for the Mentally Retarded, or be a CHAMPUS-authorized Institutional Provider as defined in paragraph (b) of this section, or be approved by a State educational agency as a training institution.

(ii) PFPWD outpatient care provider. A provider of PFPWD outpatient, ambulatory, or in-home services shall be:

(A) A CHAMPUS-authorized provider of services as defined in this section; or
(B) An individual, corporation, foundation, or public entity that predominantly renders services of a type uniquely allowable as a PFPWD benefit and not otherwise allowable as a benefit of §199.4, that meets all applicable licensing or other regulatory requirements that are extant in the state, county, municipality, or other political
jurisdiction in which the PFPWD service is rendered.

(iii) PFPWD vendor. A provider of an allowable PFPWD item, supply, equipment, orthotic, or device shall be deemed to be a CHAMPUS-authorized vendor for the provision of the specific item, supply, equipment, orthotic, or device when the vendor supplies such information as the Director, OCHAMPUS, or designee, determines necessary to adjudicate a specific claim.

(3) PFPWD provider exclusion or suspension. A provider of PFPWD services or items may be excluded or suspended for a pattern of discrimination on the basis of disability. Such exclusion or suspension shall be accomplished according to the provisions of §199.9.

(f) Corporate services providers—(1) General. (i) This corporate services provider class is established to accommodate individuals who would meet the criteria for status as a CHAMPUS authorized individual professional provider as established by paragraph (c) of this section but for the fact that they are employed directly or contractually by a corporation or foundation that provides principally professional services which are within the scope of the CHAMPUS benefit.

(ii) Payment for otherwise allowable services may be made to a CHAMPUS-authorized corporate services provider subject to the applicable requirements, exclusions and limitations of this part.

(iii) The Director, OCHAMPUS, or designee, may create discrete types within any allowable category of provider established by this paragraph (f) to improve the efficiency of CHAMPUS management.

(iv) The Director, OCHAMPUS, or designee, may require, as a condition of authorization, that a specific category or type of provider established by this paragraph (f):

(A) Maintain certain accreditation in addition to or in lieu of the requirement of paragraph (f)(2)(v) of this section;

(B) Cooperate fully with a designated utilization and clinical quality management organization which has a contract with the Department of Defense for the geographic area in which the provider does business;

(C) Render services for which direct or indirect payment is expected to be made by CHAMPUS only after obtaining CHAMPUS written authorization; and

(D) Maintain Medicare approval for payment when the Director, OCHAMPUS, or designee, determines that a category, or type, of provider established by this paragraph (f) is substantially comparable to a provider or supplier for which Medicare has regulatory conditions of participation or conditions of coverage.

(v) Otherwise allowable services may be rendered at the authorized corporate services provider’s place of business, or in the beneficiary’s home under such circumstances as the Director, OCHAMPUS, or designee, determines to be necessary for the efficient delivery of such in-home services.

(vi) The Director, OCHAMPUS, or designee, may limit the term of a participation agreement for any category or type of provider established by this paragraph (f).

(vii) Corporate services providers shall be assigned to only one of the following allowable categories based upon the predominate type of procedure rendered by the organization:

(A) Medical treatment procedures;

(B) Surgical treatment procedures;

(C) Maternity management procedures;

(D) Rehabilitation and/or habilitation procedures; or

(E) Diagnostic technical procedures.

(viii) The Director, OCHAMPUS, or designee, shall determine the appropriate procedural category of a qualified organization and may change the category based upon the provider’s CHAMPUS claim characteristics. The category determination of the Director, OCHAMPUS, designee, is conclusive and may not be appealed.

(2) Conditions of authorization. An applicant must meet the following conditions to be eligible for authorization as a CHAMPUS corporate services provider:

(i) Be a corporation or a foundation, but not a professional corporation or professional association; and

(ii) Be institution-affiliated or free-standing as defined in §199.2; and

(iii) Provide:
(A) Services and related supplies of a type rendered by CHAMPUS individual professional providers or diagnostic technical services and related supplies of a type which requires direct patient contact and a technologist who is licensed by the state in which the procedure is rendered or who is certified by a Qualified Accreditation Organization as defined in §199.2; and

(B) A level of care which does not necessitate that the beneficiary be provided with on-site sleeping accommodations and food in conjunction with the delivery of services; and

(iv) Complies with all applicable organizational and individual licensing or certification requirements that are extant in the state, county, municipality, or other political jurisdiction in which the provider renders services; and

(v) Be approved for Medicare payment when determined to be substantially comparable under the provisions of paragraph (f)(1)(iv)(D) of this section or, when Medicare approved status is not required, be accredited by a qualified accreditation organization, as defined in §199.2; and

(vi) Has entered into a participation agreement approved by the Director, OCHAMPUS, or designee, which at least complies with the minimum participation agreement requirements of this section.

(3) Transfer of participation agreement. In order to provide continuity of care for beneficiaries when there is a change of provider ownership, the provider agreement is automatically assigned to the new owner, subject to all the terms and conditions under which the original agreement was made.

(i) The merger of the provider corporation or foundation into another corporation or foundation, or the consolidation of two or more corporations or foundations resulting in the creation of a new corporation or foundation, constitutes a change of ownership.

(ii) Transfer of corporate stock or the merger of another corporation or foundation into the provider corporation or foundation does not constitute change of ownership.

(iii) The surviving corporation or foundation shall notify the Director, OCHAMPUS, or designee, in writing of the change of ownership promptly after the effective date of the transfer or change in ownership.

(4) Pricing and payment methodology: The pricing and payment of procedures rendered by a provider authorized under this paragraph (f) shall be limited to those methods for pricing and payment allowed by this part which the Director, OCHAMPUS, or designee, determines contribute to the efficient management of CHAMPUS.

(5) Termination of participation agreement. A provider may terminate a participation agreement upon 45 days written notice to the Director, OCHAMPUS, or designee, and to the public.

[51 FR 24008, July 1, 1986]

EDITORIAL NOTE: For Federal Register citations affecting §199.6, see the List of Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

EFFECTIVE DATE NOTE: At 67 FR 40603, June 13, 2002, §199.6 was amended by revising paragraphs (a)(8)(i)(A), (a)(8)(i)(B), (a)(11)(i), and (d)(5), and adding paragraphs (a)(8)(iii), (b)(4)(vi)(K), and (b)(4)(xv), effective Aug. 12, 2002. For the convenience of the user, the revised and added text is set forth as follows:

§199.6 Authorized providers.

(a) * * *

(b) * * *

(i) * * *

(A) An institutional provider in §199.6(b), in order to be an authorized provider under TRICARE, must be a participating provider for all claims.

(B) A SNR or a HHA, in order to be an authorized provider under TRICARE, must enter into a participation agreement with TRICARE for all claims.

* * * * *

(iii) Claim-by-claim participation. Individual providers that are not participating providers pursuant to paragraph (a)(8)(ii) of this section may elect to participate on a claim-by-claim basis. They may do so by signing the appropriate space on the claims form and submitting it to the appropriate TRICARE contractor on behalf of the beneficiary.

* * * * *

(11) * * *

(1) In general. Individual providers including providers salaried or under contract by an institutional provider and other providers
who are not participating providers may not balance bill a beneficiary an amount that exceeds the applicable balance billing limit. The balance billing limit shall be the same percentage as the Medicare limiting charge percentage for nonparticipating practitioners and suppliers.

* * * * * * * * * *

(b) * * *

(d) * * *

(vi) * * *

(K) Is an authorized provider under the Medicare program, and meets the requirements of Title 18 of the social Security Act, sections 1819(a), (b), (c), and (d) (42 U.S.C. 1395i-3(a)-(d)).

* * * * * * * * * *

(xv) Home health agencies (HHAs). HHAs must be Medicare approved and meet all Medicare conditions of participation under sections 1861(o) and 1891 of the Social Security Act (42 U.S.C. 1395x(o) and 1395bbb) and 42 CFR part 484 in relation to TRICARE beneficiaries in order to receive payment under the TRICARE program. An HHA may be found to be out of compliance with a particular Medicare condition of participation and still participate in the TRICARE program as long as the HHA is allowed continued participation in Medicare while the condition of noncompliance is being corrected. An HHA is a public or private organization, or a subdivision of such an agency or organization, that meets the following requirements:

(A) Engaged in providing skilled nursing services and other therapeutic services, such as physical therapy, speech-language pathology services, or occupational therapy, medical services, and home health aide services.

(f) Makes available part-time or intermittent skilled nursing services and at least one other therapeutic service on a visiting basis in place of residence used as a patient’s home.

(2) Furnishes at least one of the qualifying services directly through agency employees, but may furnish the second qualifying service and additional services under arrangement with another HHA or organization.

(B) Policies established by a professional group associated with the agency or organization (including at least one physician and one registered nurse) to govern the services and provides for supervision of such services by a physician or a registered nurse.

(C) Maintains clinical records for all patients.

(D) Licensed in accordance with State and local law or is approved by the State or local licensing agency as meeting the licensing standards, where applicable.

(E) Enters into an agreement with TRICARE in order to participate and to be eligible for payment under the program. In this agreement the HHA and TRICARE agree that the HHA will:

(i) Not charge the beneficiary or any other person for items or services for which the beneficiary is entitled to have payment under the TRICARE HHA prospective payment system.

(2) Be allowed to charge the beneficiary for items or services requested by the beneficiary in addition to those that are covered under the TRICARE HHA prospective payment system.

(F) Abide by the following consolidated billing requirements:

(i) The HHA must submit all TRICARE claims for all services, excluding durable medical equipment (DME), while the beneficiary is under the home health plan without regard to whether or not the item or service was furnished by the HHA, by others under arrangement with the HHA, or under any other contracting or consulting arrangement.

(2) Separate payment will be made for DME items and services provided under the home health benefit which are under the DME fee schedule. DME is excluded from the consolidated billing requirements.

(3) Home health services included in consolidated billing are:

(i) Part-time or intermittent skilled nursing;

(ii) Part-time or intermittent home health aide services;

(iii) Physical therapy, occupational therapy, and speech-language pathology;

(iv) Medical social services;

(v) Routine and non-routine medical supplies;

(vi) A covered osteoporosis drug (not paid under PPS rate) but excluding other drugs and biologicals;

(viii) Medical services provided by an intern or resident-in-training of a hospital, under an approved teaching program of the hospital in the case of an HHA that is affiliated or under common control of a hospital;

(xiii) Services at hospitals, SNFs or rehabilitation centers when they involve equipment too cumbersome to bring home.

(G) Meet such other requirements as the Secretary of Health and Human Services and/or Secretary of Defense may find necessary in the interest of the health and safety of the individuals who are provided care and services by such agency or organization.

* * * * * * * * * *

(d) * * *

(5) Medical equipment firms, medical supply firms, and Durable Medical Equipment, Prosthetic, Orthotic, Supplies providers/suppliers.
§ 199.6 Authorized providers.

(b) * * *
(i) Organ transplant centers. To obtain TRICARE approval as an organ transplant center, the center must be a Medicare approved transplant center or meet the criteria as established by the Executive Director, TMA, or a designee.

(ii) Organ transplant consortia. TRICARE shall approve individual pediatric organ transplant centers that meet the criteria established by the Executive Director, TMA, or a designee.

§ 199.7 Claims submission, review, and payment.

(a) General. The Director, OCHAMPUS, or a designee, is responsible for ensuring that benefits under CHAMPUS are paid only to the extent described in this part. Before benefits can be paid, an appropriate claim must be submitted that includes sufficient information as to beneficiary identification, the medical services and supplies provided, and double coverage information, to permit proper, accurate, and timely adjudication of the claim by the CHAMPUS contractor or OCHAMPUS. Providers must be able to document that the care or service shown on the claim was rendered. This section sets forth minimum medical record requirements for verification of services. Subject to such definitions, conditions, limitations, exclusions, and requirements as may be set forth in this part, the following are the CHAMPUS claim filing requirements:

(1) CHAMPUS identification card required. A patient shall present his or her applicable CHAMPUS identification card (that is, Uniformed Services identification card) to the authorized provider of care that identifies the patient as an eligible CHAMPUS beneficiary (refer to § 199.3 of this part).

(2) Claim required. No benefit may be extended under the Basic Program or Program for Persons with Disabilities (PPPWD) without the submission of a complete and properly executed appropriate claim form.

(3) Responsibility for perfecting claim. It is the responsibility of the CHAMPUS beneficiary or sponsor or the authorized provider acting on behalf of the CHAMPUS beneficiary to perfect a claim for submission to the appropriate CHAMPUS fiscal intermediary. Neither a CHAMPUS fiscal intermediary nor OCHAMPUS is authorized to prepare a claim on behalf of a CHAMPUS beneficiary.

(4) Obtaining appropriate claim form. CHAMPUS provides specific CHAMPUS forms appropriate for making a claim for benefits for various types of medical services and supplies (such as hospital, physician, or prescription drugs). Claim forms may be obtained from the appropriate CHAMPUS fiscal intermediary who processes claims for the beneficiary’s state of residence, from the Director, OCHAMPUS, or a designee, or from CHAMPUS health benefits advisors (HBAs) located at all Uniformed Services medical facilities.

(5) Prepayment not required. A CHAMPUS beneficiary or sponsor is not required to pay for the medical services or supplies before submitting a claim for benefits.

(6) Deductible certificate. If the fiscal year outpatient deductible, as defined in § 199.4(f)(2) has been met by a beneficiary or a family through the submission of a claim or claims to a CHAMPUS fiscal intermediary in a geographic location different from the location where a current claim is being submitted, the beneficiary or sponsor must obtain a deductible certificate from the CHAMPUS fiscal intermediary where the applicable individual or family fiscal year deductible was met. Such deductible certificate must be attached to the current claim being submitted for benefits. Failure to obtain a deductible certificate under
such circumstances will result in a second individual or family fiscal year deductible being applied. However, this second deductible may be reimbursed once appropriate documentation, as described in this paragraph is supplied to the CHAMPUS fiscal intermediary applying the second deductible (refer to §199.4(f)(2)(ix)(F)).

(7) Nonavailability Statement (DD Form 125). In some geographic locations or under certain circumstances, it is necessary for a CHAMPUS beneficiary to determine whether the required medical care can be provided through a Uniformed Services facility. If the required medical care cannot be provided by the Uniformed Services facility, a Nonavailability Statement will be issued. When required (except for emergencies), this Nonavailability Statement must be issued before medical care is obtained from civilian sources. Failure to secure such a statement will waive the beneficiary’s rights to benefits under CHAMPUS, subject to appeal by the Uniformed Services facility. If the required medical care cannot be provided by the Uniformed Services facility, a Nonavailability Statement will be issued. When required (except for emergencies), this Nonavailability Statement must be issued before medical care is obtained from civilian sources. Failure to secure such a statement will waive the beneficiary’s rights to benefits under CHAMPUS, subject to appeal by the appropriate hospital commander (or higher medical authority).

(ii) Beneficiary responsibility. The beneficiary shall ascertain whether or not he or she resides in a geographic area that requires obtaining a Nonavailability Statement. Information concerning current rules may be obtained from the CHAMPUS fiscal intermediary concerned, a CHAMPUS HBA or the Director, OCHAMPUS, or a designee.

(iii) Rules in effect at time civilian care is provided apply. The applicable rules regarding Nonavailability Statements in effect at the time the civilian care is rendered apply in determining whether a Nonavailability Statement is required.

(iv) Nonavailability Statement must be filed with applicable claim. When a claim is submitted for CHAMPUS benefits that includes services for which a Nonavailability Statement is required, such statement must be submitted along with the claim form.

(b) Information required to adjudicate a CHAMPUS claim. Claims received that are not completed fully and that do not provide the following minimum information may be returned. If enough space is not available on the applicable claim form, the required information must be attached separately and include the patient’s name and address, be dated, and signed.

(i) Patient’s identification information. The following patient identification information must be completed on every CHAMPUS claim form submitted for benefits before a claim will be adjudicated and processed:

(ii) Patient’s residence address.

(iii) Patient’s date of birth.

(iv) Patient’s relationship to sponsor.

NOTE: If name of patient is different from sponsor, explain (for example, stepchild or illegitimate child).

(v) Patient’s identification number (from DD Form 1173).

(vi) Patient’s identification card effective date and expiration date (from DD Form 1173).

(vii) Sponsor’s full name.

(viii) Sponsor’s service or social security number.

(ix) Sponsor’s grade.

(x) Sponsor’s organization and duty station. Home port for ships; home address for retiree.

(xi) Sponsor’s branch of service or deceased or retiree’s former branch of service.

(xii) Sponsor’s current status. Active duty, retired, or deceased.

(2) Patient treatment information. The following patient treatment information routinely is required relative to the medical services and supplies for which a claim for benefits is being made before a claim will be adjudicated and processed:

(i) Diagnosis. All applicable diagnoses are required; standard nomenclature is acceptable. In the absence of a diagnosis, a narrative description of the definitive set of symptoms for which the medical care was rendered must be provided.

(ii) Source of care. Full name of source of care (such as hospital or physician) providing the specific medical services being claimed.
(iii) Full address of source of care. This address must be where the care actually was provided, not a billing address.

(iv) Attending physician. Name of attending physician (or other authorized individual professional provider).

(v) Referring physician. Name and address of ordering, prescribing, or referring physician.

(vi) Status of patient. Status of patient at the time the medical services and supplies were rendered (that is, inpatient or outpatient).

(vii) Dates of service. Specific and inclusive dates of service.

(viii) Inpatient stay. Source and dates of related inpatient stay (if applicable).

(ix) Physicians or other authorized individual professional providers. The claims must give the name of the individual actually rendering the care, along with the individual’s professional status (e.g., M.D., Ph.D., R.N., etc.) and provider number, if the individual signing the claim is not the provider who actually rendered the service. The following information must also be included:

(A) Date each service was rendered.

(B) Procedure code or narrative description of each procedure or service for each date of service.

(C) Individual charge for each item of service or each supply for each date.

(D) Detailed description of any unusual complicating circumstances related to the medical care provided that the physician or other individual professional provider may choose to submit separately.

(x) Hospitals or other authorized institutional providers. For care provided by hospitals (or other authorized institutional providers), the following information also must be provided before a claim will be adjudicated and processed:

(A) An itemized billing showing each item of service or supply provided for each day covered by the claim.

(B) Any absences from a hospital or other authorized institution during a period for which inpatient benefits are being claimed must be identified specifically as to date or dates and provide details on the purpose of the absence. Failure to provide such information will result in denial of benefits and, in an ongoing case, termination of benefits for the inpatient stay at least back to the date of the absence.

(C) For hospitals subject to the CHAMPUS DRG-based payment system (see paragraph (a)(1)(ii)(D) of §199.14), the following information is also required:

(1) The principal diagnosis (the diagnosis established, after study, to be chiefly responsible for causing the patient’s admission to the hospital).

(2) All secondary diagnoses.

(3) All significant procedures performed.

(4) The discharge status of the beneficiary.

(5) The hospital’s Medicare provider number.

(6) The source of the admission.

(D) Claims submitted by hospitals (or other authorized institutional providers) must include the name of the individual actually rendering the care, along with the individual’s professional status (e.g., M.D., Ph.D., R.N., etc.).

(xi) Prescription drugs and medicines (and insulin). For prescription drugs and medicines (and insulin, whether or not a prescription is required) receipted bills must be attached and the following additional information provided:

(A) Name of drug.

(B) Strength of drug.

(C) Name and address of pharmacy where drug was purchased.

(D) Prescription number of drug being claimed.

Note: When the physician or pharmacist so requests, the name of the drugs may be submitted to the CHAMPUS fiscal intermediary directly by the physician or pharmacist.

(B) Strength of drug.

(C) Name and address of pharmacy where drug was purchased.

(D) Prescription number of drug being claimed.

(xii) Other authorized providers. For items from other authorized providers (such as medical supplies), an explanation as to the medical need must be attached to the appropriate claim form. For purchases of durable equipment under the PFPWD, it is necessary also to attach a copy of the preauthorization.

(xiii) Nonparticipating providers. When the beneficiary or sponsor submits the
claim to the CHAMPUS fiscal intermediary (that is, the provider elects not to participate), an itemized bill from the provider to the beneficiary or sponsor must be attached to the CHAMPUS claim form.

(3) Medical records/medical documentation. Medical records are of vital importance in the care and treatment of the patient. Medical records serve as a basis for planning of patient care and for the ongoing evaluation of the patient’s treatment and progress. Accurate and timely completion of orders, notes, etc., enable different members of a health care team and subsequent health care providers to have access to relevant data concerning the patient. Appropriate medical records must be maintained in order to accommodate utilization review and to substantiate that billed services were actually rendered.

(i) All care rendered and billed must be appropriately documented in writing. Failure to document the care billed will result in the claim or specific services on the claim being denied CHAMPUS cost-sharing.

(ii) A pattern of failure to adequately document medical care will result in episodes of care being denied CHAMPUS cost-sharing.

(iii) Cursory notes of a generalized nature that do not identify the specific treatment and the patient’s response to the treatment are not acceptable.

(iv) The documentation of medical records must be legible and prepared as soon as possible after the care is rendered. Entries should be made when the treatment described is given or the observations to be documented are made. The following are documentation requirements and specific time frames for entry into the medical records:

(A) General requirements for acute medical/surgical services:

(1) Admission evaluation report within 24 hours of admission.

(2) Completed history and physical examination report within 72 hours of admission.

(3) Registered nursing notes at the end of each shift.

(4) Daily physician notes.

(B) Requirements specific to mental health services:

(1) Psychiatric admission evaluation report within 24 hours of admission.

(2) History and physical examination within 24 hours of admission; complete report documented within 72 hours for acute and residential programs and within 3 working days for partial programs.

(3) Individual and family therapy notes within 24 hours of procedure for acute, detoxification and Residential Treatment Center (RTC) programs and within 48 hours for partial programs.

(4) Preliminary treatment plan within 24 hours of admission.

(5) Master treatment plan within 5 calendar days of admission for acute care, 10 days for RTC care, 5 days for full-day partial programs and within 7 days for half-day partial programs.

(6) Family assessment report within 72 hours of admission for acute care and 7 days for RTC and partial programs.

(7) Nursing assessment report within 24 hours of admission.

(8) Nursing notes at the end of each shift for acute and detoxification programs; every ten visits for partial hospitalization; and at least once a week for RTCs.

(9) Daily physician notes for intensive treatment, detoxification, and rapid stabilization programs; twice per week for acute programs; and once per week for RTC and partial programs.

(C) Requirements specific to mental health services:

(10) Group therapy notes once per week.

(11) Ancillary service notes once per week.

NOTE: A pattern of failure to meet the above criteria may result in provider sanctions prescribed under §199.9.

(4) Double coverage information. When the CHAMPUS beneficiary is eligible for medical benefits coverage through another plan, insurance, or program, either private or Government, the following information must be provided:

(i) Name of other coverage. Full name and address of double coverage plan, insurance, or program (such as Blue Cross, Medicare, commercial insurance, and state program).

(ii) Source of double coverage. Source of double coverage (such as employment, including retirement, private purchase, membership in a group, and law).
(iii) Employer information. If source of double coverage is employment, give name and address of employer.

(iv) Identification number. Identification number or group number of other coverage.

(5) Right to additional information. (i) As a condition precedent to the cost-sharing of benefits under this part or pursuant to a review or audit, whether the review or audit is prospective, concurrent, or retroactive, OCHAMPUS or CHAMPUS contractors may request, and shall be entitled to receive, information from a physician or hospital or other person, institution, or organization (including a local, state, or Federal Government agency) providing services or supplies to the beneficiary for whom claims or requests for approval for benefits are submitted. Such information and records may relate to the attendance, testing, monitoring, examination, diagnosis, treatment, or services and supplies furnished to a beneficiary and, as such, shall be necessary for the accurate and efficient administration of CHAMPUS benefits. This may include requests for copies of all medical records or documentation related to the episode of care. In addition, before a determination on a request for preauthorization or claim of benefits is made, a beneficiary, or sponsor, shall provide additional information relevant to the requested determination, when necessary. The recipient of such information shall hold such records confidential except when:

(A) Disclosure of such information is authorized specifically by the beneficiary;

(B) Disclosure is necessary to permit authorized governmental officials to investigate and prosecute criminal actions; or

(C) Disclosure is authorized or required specifically under the terms of DoD Directive 5400.7 and 5400.11, the Freedom of Information Act, and the Privacy Act (refer to paragraph (m) of §199.1 of this part).

(ii) For the purposes of determining the applicability of and implementing the provisions of §§199.8 and 199.9, or any provision of similar purpose of any other medical benefits coverage or entitlement, OCHAMPUS or CHAMPUS fiscal intermediaries, without consent or notice to any beneficiary or sponsor, may release to or obtain from any insurance company or other organization, governmental agency, provider, or person, any information with respect to any beneficiary when such release constitutes a routine use duly published in the Federal Register in accordance with the Privacy Act.

(iii) Before a beneficiary’s claim of benefits is adjudicated, the beneficiary or the provider(s) must furnish to CHAMPUS that information which is necessary to make the benefit determination. Failure to provide the requested information will result in denial of the claim. A beneficiary, by submitting a CHAMPUS claim(s) (either a participating or nonparticipating claim), is deemed to have given consent to the release of any and all medical records or documentation pertaining to the claims and the episode of care.

(c) Signature on CHAMPUS Claim Form—(1) Beneficiary signature. CHAMPUS claim forms must be signed by the beneficiary except under the conditions identified in paragraph (c)(1)(v) of this section. The parent or guardian may sign for any beneficiary under 18 years.

(i) Certification of identity. This signature certifies that the patient identification information provided is correct.

(ii) Certification of medical care provided. This signature certifies that the specific medical care for which benefits are being claimed actually were rendered to the beneficiary on the dates indicated.

(iii) Authorization to obtain or release information. Before requesting additional information necessary to process a claim or releasing medical information, the signature of the beneficiary who is 18 years old or older must be recorded on or obtained on the CHAMPUS claim form or on a separate release form. The signature of the beneficiary, parent, or guardian will be requested when the beneficiary is under 18 years.

Note: If the care was rendered to a minor and a custodial parent or legal guardian requests information prior to the minor turning 18 years of age, medical records may still be released pursuant to the signature of the parent or guardian, and claims information...
§ 199.7 32 CFR Ch. I (7–1–02 Edition)

may still be released to the parent or guardian in response to the request, even though the beneficiary has turned 18 between the time of the request and the response. However, any follow-up request or subsequent request from the parent or guardian, after the beneficiary turns 18 years of age, will necessitate the authorization of the beneficiary (or the beneficiary’s legal guardian as appointed by a cognizant court), before records and information can be released to the parent or guardian.

(iv) Certification of accuracy and authorization to release double coverage information. This signature certifies to the accuracy of the double coverage information and authorizes the release of any information related to double coverage. (Refer to §199.8 of this part).

(v) Exceptions to beneficiary signature requirement. (A) Except as required by paragraph (c)(1)(ii) of this section, the signature of a spouse, parent, or guardian will be accepted on a claim submitted for a beneficiary who is 18 years old or older.

(B) When the institutional provider obtains the signature of the beneficiary (or the signature of the parent or guardian when the beneficiary is under 18 years) on a CHAMPUS claim form at admission, the following participating claims may be submitted without the beneficiary’s signature.

(1) Claims for laboratory and diagnostic tests and test interpretations from radiologists, pathologists, neurologists, and cardiologists.

(2) Claims from anesthesiologists.

(C) Claims filed by providers using CHAMPUS-approved signature on file and claims submission procedures.

2. Provider’s signature. A participating provider (see paragraph (a)(8) of §199.6) is required to sign the CHAMPUS claim form.

(i) Certification. A participating provider’s signature on a CHAMPUS claim form:

(A) Certifies that the specific medical care listed on the claim form was, in fact, rendered to the specific beneficiary for which benefits are being claimed, on the specific date or dates indicated, at the level indicated and by the provider signing the claim unless the claim otherwise indicates another individual provided the care. For example, if the claim is signed by a psychiatrist and the care billed was rendered by a psychologist or licensed social worker, the claim must indicate both the name and profession of the individual who rendered the care.

(B) Certifies that the provider has agreed to participate (providing this agreement has been indicated on the claim form) and that the CHAMPUS-determined allowable charge or cost will constitute the full charge or cost for the medical care listed on the specific claim form; and further agrees to accept the amount paid by CHAMPUS or the CHAMPUS payment combined with the cost-shared amount paid by, or on behalf of the beneficiary, as full payment for the covered medical services or supplies.

(1) Thus, neither CHAMPUS nor the sponsor is responsible for any additional charges, whether or not the CHAMPUS-determined charge or cost is less than the billed amount.

(2) Any provider who signs and submits a CHAMPUS claim form and then violates this agreement by billing the beneficiary or sponsor for any difference between the CHAMPUS-determined charge or cost and the amount billed is acting in bad faith and is subject to penalties including withdrawal of CHAMPUS approval as a CHAMPUS provider by administrative action of the Director, OCHAMPUS, or a designee, and possible legal action on the part of CHAMPUS, either directly or as a part of a beneficiary action, to recover monies improperly obtained from CHAMPUS beneficiaries or sponsors (refer to §199.6 of this part.)

(ii) Physician or other authorized individual professional provider. A physician or other authorized individual professional provider is liable for any signature submitted on his or her behalf. Further, a facsimile signature is not acceptable unless such facsimile signature is on file with, and has been authorized specifically by, the CHAMPUS fiscal intermediary serving the state where the physician or other authorized individual professional provider practices.

(iii) Hospital or other authorized institutional provider. The provider signature on a claim form for institutional services must be that of an authorized representative of the hospital or other authorized institutional provider.
whose signature is on file with and approved by the appropriate CHAMPUS fiscal intermediary.

(d) Claims filing deadline. For all services provided on or after January 1, 1993, to be considered for benefits, all claims submitted for benefits must, except as provided in paragraph (d)(2) of this section, be filed with the appropriate CHAMPUS contractor no later than one year after the services are provided. Unless the requirement is waived, failure to file a claim within this deadline waives all rights to benefits for such services or supplies.

(1) Claims returned for additional information. When a claim is submitted initially within the claim filing time limit, but is returned in whole or in part for additional information to be considered for benefits, the returned claim, along with the requested information, must be resubmitted and received by the appropriate CHAMPUS contractor no later than the later of:
   (i) One year after the services are provided; or
   (ii) 90 days from the date the claim was returned to the provider or beneficiary.

(2) Exception to claims filing deadline. The Director, OCHAMPUS, or a designate, may grant exceptions to the claims filing deadline requirements.

   (A) Types of exception. (A) Retroactive eligibility. Retroactive CHAMPUS eligibility determinations.

   (B) Administrative error. Administrative error (that is, misrepresentation, mistake, or other accountable action) of an officer or employee of OCHAMPUS (including OCHAMPUSEUR) or a CHAMPUS fiscal intermediary, performing functions under CHAMPUS and acting within the scope of that official’s authority.

   (C) Mental incompetency. Mental incompetency of the beneficiary or guardian or sponsor, in the case of a minor child (which includes inability to communicate, even if it is the result of a physical disability).

   (D) Delays by other health insurance. When not attributable to the beneficiary, delays in adjudication by other health insurance companies when double coverage coordination is required before the CHAMPUS benefit determination.

   (E) Other waiver authority. The Director, OCHAMPUS may waive the claims filing deadline in other circumstances in which the Director determines that the waiver is necessary in order to ensure adequate access for CHAMPUS beneficiaries to health care services.

   (ii) Request for exception to claims filing deadline. Beneficiaries who wish to request an exception to the claims filing deadline may submit such a request to the CHAMPUS fiscal intermediary having jurisdiction over the location in which the service was rendered, or as otherwise designated by the Director, OCHAMPUS.

   (A) Such requests for an exception must include a complete explanation of the circumstances of the late filing, together with all available documentation supporting the request, and the specific claim denied for late filing.

   (B) Each request for an exception to the claims filing deadline is reviewed individually and considered on its own merits.

(e) Other claims filing requirements. Notwithstanding the claims filing deadline described in paragraph (d) of this section, to lessen any potential adverse impact on a CHAMPUS beneficiary or sponsor that could result from a retroactive denial, the following additional claims filing procedures are recommended or required.

(1) Continuing care. Except for claims subject to the CHAMPUS DRG-based payment system, whenever medical services and supplies are being rendered on a continuing basis, an appropriate claim or claims should be submitted every 30 days (monthly) whether submitted directly by the beneficiary or sponsor or by the provider on behalf of the beneficiary. Such claims may be submitted more frequently if the beneficiary or provider so elects.

   The Director, OCHAMPUS, or a designate, also may require more frequent claims submission based on dollars. Examples of care that may be rendered on a continuing basis are outpatient physical therapy, private duty (special) nursing, or inpatient stays. For claims subject to the CHAMPUS DRG-based payment system, claims may be submitted only after the beneficiary has been discharged or transferred from the hospital.
(2) Inpatient mental health services. Under most circumstances, the 60-day inpatient mental health limit applies to the first 60 days of care paid in a calendar year. The patient will be notified when the first 30 days of inpatient mental health benefits have been paid. The beneficiary is responsible for assuring that all claims for care are submitted sequentially and on a regular basis. Once payment has been made for care determined to be medically appropriate and a program benefit, the decision will not be reopened solely on the basis that previous inpatient mental health care had been rendered but not yet billed during the same calendar year by a different provider.

(3) Claims involving the services of marriage and family counselors, pastoral counselors, and mental health counselors. CHAMPUS requires that marriage and family counselors, pastoral counselors, and mental health counselors make a written report to the referring physician concerning the CHAMPUS beneficiary’s progress. Therefore, each claim for reimbursement for services of marriage and family counselors, pastoral counselors, and mental health counselors must include certification to the effect that a written communication has been made or will be made to the referring physician at the end of treatment, or more frequently, as required by the referring physician.

(f) Preauthorization. When specifically required in other sections of this part, preauthorization requires the following:

(1) Preauthorization must be granted before benefits can be extended. In those situations requiring preauthorization, the request for such preauthorization shall be submitted and approved before benefits may be extended, except as provided in §199.4(a)(11). If a claim for services or supplies is submitted without the required preauthorization, no benefits shall be paid, unless the Director, OCHAMPUS, or a designee, has granted an exception to the requirement for preauthorization.

(i) Specifically preauthorized services. An approved preauthorization specifies the exact services or supplies for which authorization is being given. In a preauthorization situation, benefits cannot be extended for services or supplies provided beyond the specific authorization.

(ii) Time limit on preauthorization. Approved preauthorizations are valid for specific periods of time, appropriate for the circumstances presented and specified at the time of the preauthorization is approved. In general, preauthorizations are valid for 30 days. If the preauthorized service or supplies are not obtained or commenced within the specified time limit, a new preauthorization is required before benefits may be extended.

(2) Treatment plan. Each preauthorization request shall be accompanied by a proposed medical treatment plan (for inpatient stays under the Basic Program) which shall include generally a diagnosis; a detailed summary of complete history and physical; a detailed statement of the problem; the proposed treatment modality, including anticipated length of time the proposed modality will be required; any available test results; consultant’s reports; and the prognosis. When the preauthorization request involves transfer from a hospital to another inpatient facility, medical records related to the inpatient stay also must be provided.

(3) Claims for services and supplies that have been preauthorized. Whenever a claim is submitted for benefits under CHAMPUS involving preauthorized services and supplies, the date of the approved preauthorization must be indicated on the claim form and a copy of the written preauthorization must be attached to the appropriate CHAMPUS claim.

(4) Advance payment prohibited. No CHAMPUS payment shall be made for otherwise authorized services or items not yet rendered or delivered to the beneficiary.

(g) Claims review. It is the responsibility of the CHAMPUS fiscal intermediary (or OCHAMPUS, including OCHAMPUSEUR) to review each CHAMPUS claim submitted for benefit consideration to ensure compliance with all applicable definitions, conditions, limitations, or exclusions specified or enumerated in this part. It is also required that before any CHAMPUS benefits may be extended.
claims for medical services and supplies will be subject to utilization review and quality assurance standards, norms, and criteria issued by the Director, OCHAMPUS, or a designee (see paragraph (a)(1)(v) of §199.14 for review standards for claims subject to the CHAMPUS DRG-based payment system).

(h) Benefit payments. CHAMPUS benefit payments are made either directly to the beneficiary or sponsor or to the provider, depending on the manner in which the CHAMPUS claim is submitted.

(1) Benefit payments made to beneficiary or sponsor. When the CHAMPUS beneficiary or sponsor signs and submits a specific claim form directly to the appropriate CHAMPUS fiscal intermediary (or OCHAMPUS, including OCHAMPUSEUR), any CHAMPUS benefit payments due as a result of that specific claim submission will be made in the name of, and mailed to, the beneficiary or sponsor. In such circumstances, the beneficiary or sponsor is responsible to the provider for any amounts billed.

(2) Benefit payments made to participating provider. When the authorized provider elects to participate by signing a CHAMPUS claim form, indicating participation in the appropriate space on the claim form, and submitting a specific claim on behalf of the beneficiary to the appropriate CHAMPUS fiscal intermediary, any CHAMPUS benefit payments due as a result of that claim submission will be made in the name of and mailed to the participating provider. Thus, by signing the claim form, the authorized provider agrees to abide by the CHAMPUS-determined allowable charge or cost, whether or not lower than the amount billed. Therefore, the beneficiary or sponsor is responsible only for any required deductible amount and any cost-sharing portion of the CHAMPUS-determined allowable charge or cost as may be required under the terms and conditions set forth in §§199.4 and 199.5 of this part.

(3) CEOB. When a CHAMPUS claim is adjudicated, a CEOB is sent to the beneficiary or sponsor. A copy of the CEOB also is sent to the provider if the claim was submitted on a participating basis. The CEOB form provides, at a minimum, the following information:

(i) Name and address of beneficiary.
(ii) Name and address of provider.
(iii) Services or supplies covered by claim for which CEOB applies.
(iv) Dates services or supplies provided.
(v) Amount billed; CHAMPUS-determined allowable charge or cost; and amount of CHAMPUS payment.
(vi) To whom payment, if any, was made.
(vii) Reasons for any denial.
(viii) Recourse available to beneficiary for review of claim decision (refer to §199.10 of this part).

Note: The Director, OCHAMPUS, or a designee, may authorize a CHAMPUS fiscal intermediary to waive a CEOB to protect the privacy of a CHAMPUS beneficiary.

(4) Benefit under $1. If the CHAMPUS benefit is determined to be under $1, payment is waived.

(i) Extension of the Active Duty Dependents Dental Plan to areas outside the United States. The Assistant Secretary of Defense (Health Affairs) (ASD(HA)) may, under the authority of 10 U.S.C. 1076a(h), extend the Active Duty Dependents Dental Plan to areas other than those areas specified in paragraph (a)(2)(i) of this section for the eligible beneficiaries of members of the Uniformed Services. In extending the program outside the Continental United States, the ASD(HA), or designee, is authorized to establish program elements, methods of administration and payment rates and procedures to providers that are different from those in effect under this section in the Continental United States to the extent the ASD(HA), or designee, determines necessary for the effective and efficient operation of the plan outside the Continental United States. This includes provisions for preauthorization of care if the needed services are not available in a Uniformed Service overseas dental treatment facility and payment by the Department of certain cost-shares and other portions of a provider’s billed charges. Other differences may occur based on limitations in the availability and capabilities of the Uniformed Services overseas dental treatment facility
§ 199.8 Double coverage.

(a) Introduction. (1) In enacting CHAMPUS legislation, Congress clearly has intended that CHAMPUS be the secondary payer to all health benefit and insurance plans. 10 U.S.C. 1079(j)(1) specifically provides:

“A benefit may not be paid under a plan (CHAMPUS) covered by this section in the case of a person enrolled in or covered by any other insurance, medical service, or health plan to the extent that the benefit also is a benefit under the other plan, except in the case of a plan (Medicaid) administered under title 19 of the Social Security Act (42 U.S.C. 1396, et seq.).”

(2) The above provision is made applicable specifically to retired members, dependents, and survivors by 10 U.S.C. 1086(d). The underlying intent, in addition to preventing waste of Federal resources, is to ensure that CHAMPUS beneficiaries receive maximum benefits while ensuring that the combined payments of CHAMPUS and other health benefit and insurance plans do not exceed the total charges.

(b) Double coverage plan. A double coverage plan is one of the following:

(1) Insurance plan. An insurance plan is any plan or program that is designed to provide compensation or coverage for expenses incurred by a beneficiary for medical services and supplies. It includes plans or programs for which the beneficiary pays a premium to an issuing agent as well as those plans or programs to which the beneficiary is entitled as a result of employment or membership in, or association with, an organization or group.

(2) Medical service or health plan. A medical service or health plan is any plan or program of an organized health care group, corporation, or other entity for the provision of health care to an individual from plan providers, both professional and institutional. It includes plans or programs for which the beneficiary pays a premium to an issuing agent as well as those plans or programs to which the beneficiary is entitled as a result of employment or membership in, or association with, an organization or group.

(3) Exceptions. Double coverage plans do not include:

(i) Plans administered under title XIX of the Social Security Act (Medicaid);

(ii) Coverage specifically designed to supplement CHAMPUS benefits (a health insurance policy or other health benefit and a particular nation’s civilian sector providers in certain areas. Otherwise, rules pertaining to services covered under the plan and quality of care standards for providers shall be comparable to those in effect under this section in the Continental United States and available military guidelines. In addition, all provisions of 10 U.S.C. 1076a shall remain in effect.

(j) General assignment of benefits not recognized. CHAMPUS does not recognize any general assignment of CHAMPUS benefits to another person. All CHAMPUS benefits are payable as described in this and other Sections of this part.
benefit plan that meets the definition and criteria under supplemental insurance plan as set forth in §199.2(b));

(iii) Entitlement to receive care from Uniformed Services medical care facilities;

(iv) Certain Federal Government programs, as prescribed by the Director, OCHAMPUS, that are designed to provide benefits to a distinct beneficiary population and for which entitlement does not derive from either premium payment of monetary contribution (for example, the Indian Health Service); or

(v) State Victims of Crime Compensation Programs.

(c) Application of double coverage provisions. CHAMPUS claims submitted for otherwise covered services or supplies and which involve double coverage shall be adjudicated as follows:

(1) CHAMPUS always last pay. For any claim that involves a double coverage plan as defined above, CHAMPUS shall be last pay. That is, CHAMPUS benefits may not be extended until all other double coverage plans have adjudicated the claim.

(2) Waiver of benefits. A CHAMPUS beneficiary may not elect to waive benefits under a double coverage plan and use CHAMPUS. Whenever double coverage exists, the provisions of this Section shall be applied.

(3) Last pay limitations. CHAMPUS may not pay more as a secondary payer than it would have in the absence of other coverages. Application of double coverage provisions does not extend or add to the CHAMPUS benefits as otherwise set forth in this and other Sections of this part.

(A) For items or services or portions or segments of items or services for which payment may be made under Medicare, the CHAMPUS payment will be the amount of the beneficiary’s actual out of pocket liability, minus the amount payable by Medicare, also minus amount payable by other third party payers, subject to the limit under paragraph (d)(1)(ii) of this section.

(B) For items or services or segments of items or services for which no payment may be made under Medicare, the CHAMPUS payment will be the same as it would be for a CHAMPUS eligible retiree, dependent, or survivor beneficiary who is not Medicare eligible.

(iv) Examples of applications of general rule. The following examples are illustrative. They are not all-inclusive.

(A) In the case of a Medicare-eligible beneficiary receiving typical physician office visit services, Medicare payment
generally will be made. CHAMPUS payment will be determined consistent with paragraph (d)(1)(iii)(A) of this section.

(B) In the case of a Medicare-eligible beneficiary residing and receiving medical care overseas, Medicare payment generally may not be made. CHAMPUS payment will be determined consistent with paragraph (d)(1)(iii)(B) of this section.

(C) In the case of a Medicare-eligible beneficiary receiving skilled nursing facility services a portion of which is payable by Medicare (such as during the first 100 days) and a portion of which is not payable by Medicare (such as after 100 days), CHAMPUS payment for the first portion will be determined consistent with paragraph (d)(1)(iii)(A) of this section and for the second portion consistent with paragraph (d)(1)(iii)(B) of this section.

(v) Application of catastrophic cap. Only in cases in which CHAMPUS payment is determined consistent with paragraph (d)(1)(iii)(B) of this section, actual beneficiary out of pocket liability remaining after CHAMPUS payments will be counted for purposes of the annual catastrophic loss protection, set forth under §199.4(f)(10). When a family has met the cap, CHAMPUS will pay allowable amounts for remaining covered services through the end of that fiscal year.

(vi) Effect of enrollment in Medicare+Choice plan. In the case of a beneficiary enrolled in a Medicare+Choice plan who receives items or services for which payment may be made under both the Medicare+Choice plan and CHAMPUS, a claim for the beneficiary’s normal out-of-pocket costs under the Medicare+Choice plan may be submitted for CHAMPUS payment. However, consistent with paragraph (c)(4) of this section, out-of-pocket costs do not include costs associated with unauthorized out-of-system care or care otherwise obtained under circumstances that result in a denial or limitation of coverage for care that would have been covered or fully covered had the beneficiary met applicable requirements and procedures. In such cases, the CHAMPUS amount payable is limited to the amount that would have been paid if the beneficiary had received care covered by the Medicare+Choice plan.

(vii) Effect of other double coverage plans, including medigap plans. CHAMPUS is second payer to other third-party payers of health insurance, including Medicare supplemental plans.

(viii) Effect of employer-provided insurance. In the case of individuals with health insurance due to their current employment status, the employer insurance plan shall be first payer, Medicare shall be the second payer, and CHAMPUS shall be the tertiary payer.

(2) CHAMPUS and Medicaid. Medicaid is not a double coverage plan. In any double coverage situation involving Medicaid, CHAMPUS is always the primary payer.

(3) CHAMPUS and Worker’s Compensation. CHAMPUS benefits are not payable for a work-related illness or injury that is covered under a worker’s compensation program.

(4) Program for persons with disabilities (PFPWD). A PFPWD eligible beneficiary (or sponsor or guardian acting on behalf of the beneficiary) does not have the option of waiving the full use of public facilities which are determined by the Director, OCHAMPUS, or designee, to be available and adequate to meet a disability related need for which a PFPWD benefit was requested. Benefits eligible for payment under a State plan for medical assistance under Title XIX of the Social Security Act (Medicaid) are never considered to be available in the adjudication of PFPWD benefits.

(5) The requirements of paragraph (d)(4) of this section notwithstanding, CHAMPUS is primary payer for services and items that are provided under Part C of the IDEA that are medically or psychologically necessary in accordance with the Individualized Family Service Plan and that are otherwise allowable under the CHAMPUS Basic Program or the Program for Persons with Disabilities.

(e) Implementing instructions. The Director, OCHAMPUS, or a designee,
shall issue such instructions, procedures, or guidelines, as necessary, to implement the intent of this section.

§ 199.9 Administrative remedies for fraud, abuse, and conflict of interest.

(a) General. (1) This section sets forth provisions for invoking administrative remedies under CHAMPUS in situations involving fraud, abuse, or conflict of interest. The remedies impact institutional providers, professional providers, and beneficiaries (including parents, guardians, or other representatives of beneficiaries), and cover situations involving criminal fraud, civil fraud, administrative determinations of conflicts of interest or dual compensation, and administrative determinations of fraud or abuse. The administrative actions, remedies, and procedures may differ based upon whether the initial findings were made by a court of law, another agency, or the Director, OCHAMPUS (or designee).

(2) This section also sets forth provisions for invoking administrative remedies in situations requiring administrative action to enforce provisions of law, regulation, and policy in the administration of CHAMPUS and to ensure quality of care for CHAMPUS beneficiaries. Examples of such situations may include a case in which it is discovered that a provider fails to meet requirements under this part to be an authorized CHAMPUS provider; a case in which the provider ceases to be qualified as a CHAMPUS provider because of suspension or revocation of the provider’s license by a local licensing authority; or a case in which a provider meets the minimum requirements under this part but, nonetheless, it is determined that it is in the best interest of the CHAMPUS or CHAMPUS beneficiaries that the provider should not be an authorized CHAMPUS provider.

(3) The administrative remedies set forth in this section are in addition to, and not in lieu of, any other remedies or sanctions authorized by law or regulation. For example, administrative action under this section may be taken in a particular case even if the same case will be or has been processed under the administrative procedures established by the Department of Defense to implement the Program Fraud Civil Remedies Act.

(4) Providers seeking payment from the Federal Government through programs such as CHAMPUS have a duty to familiarize themselves with, and comply with, the program requirements.

(5) CHAMPUS contractors and peer review organizations have a responsibility to apply provisions of this regulation in the discharge of their duties, and to report all known situations involving fraud, abuse, or conflict of interest. Failure to report known situations involving fraud, abuse, or conflict of interest will result in the withholding of administrative payments or other contractual remedies as determined by the Director, OCHAMPUS, or a designee.

(b) Abuse. The term “abuse” generally describes incidents and practices which may directly or indirectly cause financial loss to the Government under CHAMPUS or to CHAMPUS beneficiaries. For the definition of abuse, see §199.2 of this part. The type of abuse to which CHAMPUS is most vulnerable is the CHAMPUS claim involving the overutilization of medical and health care services. To avoid abuse situations, providers have certain obligations to provide services and supplies under CHAMPUS which are: Furnished at the appropriate level and only when and to the extent medically necessary as determined under the provisions of this part; of a quality that meets professionally recognized standards of health care; and, supported by adequate medical documentation as may reasonably be required under this part by the Director, OCHAMPUS, or a designee, to evidence the medical necessity and quality of services furnished, as well as the appropriateness of the level of care. A provider’s failure to comply with these obligations can result in sanctions being imposed by the Director, OCHAMPUS, or a designee,
under this section. Even when administrative remedies are not initiated under this section, abuse situations under CHAMPUS are a sufficient basis for denying all or any part of CHAMPUS cost-sharing of individual claims. The types of abuse or possible abuse situations under CHAMPUS include, but are not limited, to the following:

(1) A pattern of waiver of beneficiary (patient) cost-share or deductible.

Note: In a case of a legitimate bad debt write-off of patient cost-share or deductible, the provider’s record should include documentation as to what efforts were made to collect the debt, when the debt was written off, why the debt was written off, and the amount of the debt written off.

(2) Improper billing practices. Examples include, charging CHAMPUS beneficiaries rates for services and supplies that are in excess of those charges routinely charged by the provider to the general public, commercial health insurance carriers, or other federal health benefit entitlement programs for the same or similar services. (This includes dual fee schedules—one for CHAMPUS beneficiaries and one for other patients or third-party payers. This also includes billing other third-party payers the same as CHAMPUS is billed but accepting less than the billed amount as reimbursement. However, a formal discount arrangement such as through a preferred provider organization, may not necessarily constitute an improper billing practice.)

(3) A pattern of claims for services which are not medically necessary or, if medically necessary, not to the extent rendered. For example, a battery of diagnostic tests are given when, based on the diagnosis, fewer tests were needed.

(4) Care of inferior quality. For example, consistently furnishing medical or mental health services that do not meet accepted standards of care.

(5) Failure to maintain adequate medical or financial records.

(6) Refusal to furnish or allow the Government (for example, OCHAMPUS) or Government contractors access to records related to CHAMPUS claims.

(7) Billing substantially in excess of customary or reasonable charges unless it is determined by OCHAMPUS that the excess charges are justified by unusual circumstances or medical complications requiring additional time, effort, or expense in localities when it is accepted medical practice to make an extra charge in such cases.

(8) Unauthorized use of the term “Civilian Health and Medical Program of the Uniformed Services (CHAMPUS)” in private business. While the use of the term “CHAMPUS” is not prohibited by federal statute, misrepresentation or deception by use of the term “CHAMPUS” to imply an official connection with the Government or to defraud CHAMPUS beneficiaries may be a violation of federal statute. Regardless of whether the actual use of the term “CHAMPUS” may be actionable under federal statute, the unauthorized or deceptive use of the term “CHAMPUS” in private business will be considered abuse for purposes of this Section.

(c) Fraud. For the definition of fraud, see §199.2 of this part. Examples of situations which, for the purpose of this part, are presumed to be fraud include, but are not limited to:

(1) Submitting CHAMPUS claims (including billings by providers when the claim is submitted by the beneficiary) for services, supplies, or equipment not furnished to, or used by, CHAMPUS beneficiaries. For example, billing or claiming services when the provider was on call (other than an authorized standby charge) and did not provide any specific medical care to the beneficiary; providing services to an ineligible person and billing or submitting a claim for the services in the name of an eligible CHAMPUS beneficiary; billing or submitting a CHAMPUS claim for an office visit for a missed appointment; or billing or submitting a CHAMPUS claim for individual psychotherapy when a medical visit was the only service provided.

(2) Billing or submitting a CHAMPUS claim for costs for noncovered or nonchargeable services, supplies, or equipment disguised as covered items. Some examples are: (i) Billings or CHAMPUS claims for services which would be covered except for the frequency or duration of the services, such as billing or submitting a claim for two one-hour psychotherapy sessions furnished on
separate days when the actual service furnished was a two-hour therapy session on a single day, (ii) spreading the billing or claims for services over a time period that reduces the apparent frequency to a level that may be cost-shared by CHAMPUS, (iii) charging to CHAMPUS, directly or indirectly, costs not incurred or not reasonably allowable to the services billed or claimed under CHAMPUS, for example, costs attributable to nonprogram activities, other enterprises, or the personal expenses of principals, or (iv) billing or submitting claim on a fee-for-service basis when in fact a personal service to a specific patient was not performed and the service rendered is part of the overall management of, for example, the laboratory or x-ray department.

(3) Breach of a provider participation agreement which results in the beneficiary (including parent, guardian, or other representative) being billed for amounts which exceed the CHAMPUS-determined allowable charge or cost.

(4) Billings or CHAMPUS claims for supplies or equipment which are clearly unsuitable for the patient’s needs or are so lacking in quality or sufficiency for the purpose as to be virtually worthless.

(5) Billings or CHAMPUS claims which involve flagrant and persistent overutilization of services without proper regard for results, the patient’s ailments, condition, medical needs, or the physician’s orders.

(6) Misrepresentations of dates, frequency, duration, or description of services rendered, or of the identity of the recipient of the services or the individual who rendered the services.

(7) Submitting falsified or altered CHAMPUS claims or medical or mental health patient records which misrepresent the type, frequency, or duration of services or supplies or misrepresent the name(s) of the individual(s) who provided the services or supplies.

(8) Duplicate billings or CHAMPUS claims. This includes billing or submitting CHAMPUS claims more than once for the same services, billing or submitting claims both to CHAMPUS and the beneficiary for the same services, or billing or submitting claims both to CHAMPUS and other third-parties (such as other health insurance or government agencies) for the same services, without making full disclosure of material facts or immediate, voluntary repayment or notification to CHAMPUS upon receipt of payments which combined exceed the CHAMPUS-determined allowable charge of the services involved.

(9) Misrepresentation by a provider of his or her credentials or concealing information or business practices which bear on the provider’s qualifications for authorized CHAMPUS provider status. For example, a provider representing that he or she has a qualifying doctorate in clinical psychology when the degree is not from a regionally accredited university.

(10) Reciprocal billing. Billing or claiming services which were furnished by another provider or furnished by the billing provider in a capacity other than as billed or claimed. For example, practices such as the following: (i) One provider performing services for another provider and the latter bills as though he had actually performed the services (e.g., a weekend fill-in); (ii) providing service as an institutional employee and billing as a professional provider for the services; (iii) billing for professional services when the services were provided by another individual who was an institutional employee; (iv) billing for professional services at a higher provider profile than would be paid for the person actually furnishing the services, for example, bills reflecting that an M.D. or Ph.D. performed the services when services were actually furnished by a licensed social worker, psychiatric nurse, or marriage and family counselor; or (v) an authorized provider billing for services which were actually furnished by an unauthorized or sanctioned provider.

(11) Submitting CHAMPUS claims at a rate higher than a rate established between CHAMPUS and the provider, if such a rate has been established. For example, billing or claiming a rate in excess of the provider’s most favored rate limitation specified in a residential treatment center agreement.

(12) Arrangements by providers with employees, independent contractors, suppliers, or others which appear to be designed primarily to overcharge the
CHAMPUS through various means (such as commissions, fee-splitting, and kickbacks) used to divert or conceal improper or unnecessary costs or profits.

(13) Agreements or arrangements between the supplier and recipient (recipient could be either a provider or beneficiary, including the parent, guardian, or other representative of the beneficiary) that result in billings or claims which include unnecessary costs or charges to CHAMPUS.

(d) Conflict of Interest. (1) Conflict of interest includes any situation where an active duty member of the Uniformed Services (including a reserve member while on active duty, active duty for training, or inactive duty training) or civilian employee of the United States Government, through an official federal position has the apparent or actual opportunity to exert, directly or indirectly, any influence on the referral of CHAMPUS beneficiaries to himself/herself or others with some potential for personal gain or the appearance of impropriety. Although individuals under contract to the Uniformed Services are not considered “employees,” such individuals are subject to conflict of interest provisions by express terms of their contracts and, for purposes of this part, may be considered to be involved in conflict of interest situations as a result of their contract positions. In any situation involving potential conflict of interest of a Uniformed Service employee, the Director, OCHAMPUS, or a designee, may refer the case to the Uniformed Service concerned for appropriate review and action. If such a referral is made, a report of the results of findings and action taken shall be made to the Director, OCHAMPUS, by the Uniformed Service having jurisdiction within 90 days of receiving the referral.

(2) CHAMPUS cost-sharing shall be denied on any claim where a conflict of interest situation is found to exist. This denial of cost-sharing applies whether the claim is submitted by the individual who provided the care, the institutional provider in which the care was furnished, or the beneficiary.

(e) Dual Compensation. (1) Federal law (5 U.S.C. 5536) prohibits active duty members of the Uniformed Services or employees (including part-time or intermittent) appointed in the civil service of the United States Government from receiving additional compensation from the Government above their normal pay and allowances. This prohibition applies to CHAMPUS payments for care furnished to CHAMPUS beneficiaries by active duty members of the Uniformed Services or civilian employees of the Government.

(2) CHAMPUS cost-sharing of a claim shall be denied where the services or supplies were provided by an active duty member of the Uniformed Services or a civilian employee of the Government. This denial of CHAMPUS payment applies whether the claim for reimbursement is filed by the individual who provided the care, the institutional provider in which the care was furnished, or by the beneficiary.

Note: Physicians of the National Health Service Corps (NHSC) may be assigned to areas where there is a shortage of medical providers. Although these physicians would be prohibited from accepting CHAMPUS payments as individuals if they are employees of the United States Government, the private organizations to which they may be assigned may be eligible for payment, as determined by the Director, OCHAMPUS, or a designee.

(3) The prohibition against dual compensation does not apply to individuals under contract to the Uniformed Services or the Government.

(f) Administrative Remedies. Administrative remedies available under CHAMPUS in this section are set forth below.

(1) Provider exclusion or suspension. The Director, OCHAMPUS, or a designee, shall have the authority to exclude or suspend an otherwise authorized CHAMPUS provider from the program based on any criminal conviction or civil judgment involving fraud by the provider; fraud or abuse under CHAMPUS by the provider; exclusion or suspension of the provider by another agency of the Federal Government, a state, or local licensing authority; participation in a conflict of interest situation by the provider; or, when it is in the best interests of the program or CHAMPUS beneficiaries to exclude or suspend a provider under CHAMPUS. In all cases, the exclusion or suspension of a provider shall be effective 15 calendar days from the date
on the written initial determination issued under paragraph (h)(2) of this section.

(i) Criminal conviction or civil judgment involving fraud by a provider—(A) Criminal conviction involving CHAMPUS fraud. A provider convicted by a Federal, state, foreign, or other court of competent jurisdiction of a crime involving CHAMPUS fraud, whether the crime is a felony or misdemeanor, shall be excluded or suspended from CHAMPUS for a period of time as determined by the Director, OCHAMPUS, or a designee. The CHAMPUS exclusion or suspension applies whether or not the provider, as a result of the conviction, receives probation or the sentence is suspended or deferred, and whether or not the conviction or sentence is under appeal.

NOTE: Under the above paragraph (f)(1)(i)(A) of this section, an entity may be excluded or suspended from CHAMPUS whenever the entity is found to have a person, convicted of a crime involving CHAMPUS fraud, who has a direct or indirect ownership or control interest (see §199.2) of 5 percent or more in the entity, or is an officer, director, agent or managing employee of the entity. The entity will have an opportunity to provide evidence to show that the ownership or control relationship has ceased. While an entity will not be excluded or suspended from CHAMPUS for employing a provider who has been sanctioned under this Section, the entity will be denied CHAMPUS payment for any services furnished by the sanctioned employee. As an authorized CHAMPUS provider, the entity is responsible for ensuring that all CHAMPUS claims involve services furnished to CHAMPUS beneficiaries by employees who meet all requirements under CHAMPUS for provider status.

(B) Criminal conviction involving fraud of other Federal programs. Any provider convicted by a Federal, state, or other court of competent jurisdiction of a crime involving another Federal health care or benefit program (such as plans administered under titles XVIII and XIX of the Social Security Act, Federal Workmen’s Compensation, and the Federal Employees Program (FEP) for employee health insurance), whether the crime is a felony or misdemeanor, shall be excluded from CHAMPUS for a period of time as determined by the Director, OCHAMPUS, or a designee. The CHAMPUS exclusion or suspension applies whether or not the provider, as a result of the conviction, receives probation or the sentence is suspended or deferred, and whether or not the conviction or sentence is under appeal.

(C) Criminal conviction involving fraud of non-Federal programs. Any provider convicted by a Federal, state, foreign, or other court of competent jurisdiction of a crime involving any non-Federal health benefit program or private insurance involving health benefits may be excluded or suspended from CHAMPUS for a period of time as determined by the Director, OCHAMPUS, or a designee.

(D) Civil fraud involving CHAMPUS. If a judgment involving civil fraud has been entered (whether or not it is appealed) against a provider in a civil action involving CHAMPUS benefits (whether or not other Federal programs are involved), the provider shall be excluded or suspended from CHAMPUS for a period determined by the Director, OCHAMPUS, or a designee.

(E) Civil fraud involving other programs. If a judgment involving civil fraud has been entered against a provider (whether or not it has been appealed) in a civil action involving other public or private health care programs or health insurance, the provider may be excluded or suspended for a period of time determined by the Director, OCHAMPUS, or a designee.

(ii) Administrative determination of fraud or abuse under CHAMPUS. If the Director, OCHAMPUS, or a designee, determines that a provider has committed fraud or abuse as defined in this part, the provider shall be excluded or suspended from CHAMPUS for a period of time determined by the Director, OCHAMPUS, or designee.

(iii) Administrative determination that the provider has been excluded or suspended by another agency of the Federal Government, a state, or local licensing authority. Any provider who is excluded or suspended by any other Federal health care program (for example, Medicare), shall be excluded or suspended under CHAMPUS. A provider who has his/her credentials revoked through a Veterans Administration or
§ 199.9 Military Department credentials review process and who is excluded, suspended, terminated, retired, or separated, shall also be excluded or suspended under CHAMPUS. The period of time of exclusion or suspension shall be determined by the Director, OCHAMPUS, or a designee, pursuant to paragraph (g) of this section.

(iv) Administrative determination that the provider has participated in a conflict of interest situation. The Director, OCHAMPUS, or a designee, may exclude or suspend any provider who has knowingly been involved in a conflict of interest situation under CHAMPUS. The period of time of exclusion or suspension shall be determined by the Director, OCHAMPUS, or a designee, pursuant to paragraph (g) of this section.

For purposes of this administrative determination, it will be presumed that a CHAMPUS provider knowingly participated in a conflict of interest situation if the provider employs, in the treatment of a CHAMPUS beneficiary (resulting in a CHAMPUS claim), any medical personnel who are active duty members of the Uniformed Services or civilian employees of the Government. The burden of proof to rebut this presumption rests with the CHAMPUS provider. Two exceptions will be recognized to the presumption that a conflict of interest exists. First, indirect CHAMPUS payments may be made to private organizations to which physicians of the National Health Service Corps (NHSC) are assigned. Second, any off-duty Government medical personnel employed in an emergency room of an acute care hospital will be presumed not to have had the opportunity to exert, directly or indirectly, any influence on the referral of CHAMPUS beneficiaries; therefore, CHAMPUS payments may be made to the employing hospital provided the medical care was not furnished directly by the off-duty Government medical personnel in violation of dual compensation provisions.

(v) Administrative determination that it is in the best interests of the CHAMPUS or CHAMPUS beneficiaries to exclude or suspend a provider—(A) Unethical or improper practices or unprofessional conduct. (1) In most instances, unethical or improper practices or unprofessional conduct by a provider will be program abuse and subject the provider to exclusion or suspension for abuse. However, in some cases such practices and conduct may provide an independent basis for exclusion or suspension of the provider by the Director, OCHAMPUS, or a designee.

(2) Such exclusions or suspensions may be based on findings or recommendations of state licensure boards, boards of quality assurance, other regulatory agencies, state medical societies, peer review organizations, or other professional associations.

(B) In any other case in which the Director, OCHAMPUS (or designee), determines that exclusion or suspension of a provider is in the best interests of CHAMPUS or CHAMPUS beneficiaries. The Director, OCHAMPUS, or a designee, may exclude or suspend any provider if it is determined that the authorization of that particular provider under CHAMPUS poses an unreasonable potential for fraud, abuse, or professional misconduct. Any documented misconduct by the provider reflecting on the business or professional competence or integrity of the provider may be considered. Situations in which the Director, OCHAMPUS, or a designee, may take administrative action under this Section to protect CHAMPUS or CHAMPUS beneficiaries include, but are not limited to, a case in which it is determined that a provider poses an unreasonable potential cost to the Government to monitor the provider for fraud or abuse and to avoid the issuance of erroneous payments; or that the provider poses an unreasonable potential harm to the financial or health status of CHAMPUS beneficiaries; or that the provider poses any other unreasonable threat to the interests of CHAMPUS or CHAMPUS beneficiaries.

One example of such circumstances involves a provider who, for his/her entire practice or for most of his/her practice, provides or bills for treatment that is not a CHAMPUS benefit, resulting in CHAMPUS frequently and repeatedly denying claims as non-covered services. This may occur when a professional provider furnishes sex
therapy (a therapy which may be recognized by the provider’s licensing authority but which is excluded from CHAMPUS coverage) and repeatedly submits CHAMPUS claims for the services.

(2) Provider termination. The Director, OCHAMPUS, or a designee, shall terminate the provider status of any provider determined not to meet the qualifications established by this part to be an authorized CHAMPUS provider.

(i) Effective date of termination. Except as provided in paragraph (g)(2)(ii) of this section, the termination shall be retroactive to the date on which the provider did not meet the requirements of this part.

(A) The retroactive effective date of termination shall not be limited due to the passage of time, erroneous payment of claims, or any other events which may be cited as a basis for CHAMPUS recognition of the provider notwithstanding the fact that the provider does not meet program qualifications. Unless specific provision is made in this part to “grandfather” or authorize a provider who does not otherwise meet the qualifications established by this part, all unqualified providers shall be terminated.

(B) Any claims cost-shared or paid under CHAMPUS for services or supplies furnished by the provider on or after the effective date of termination, even when the effective date is retroactive, shall be deemed an erroneous payment unless specific exception is provided in this part. All erroneous payments are subject to collection under §199.11 of this part.

(C) If an institution is terminated as an authorized CHAMPUS provider, the institution shall immediately give written notice of the termination to any CHAMPUS beneficiary (or their parent, guardian, or other representative) admitted to, or receiving care at, the institution on or after the effective date of the termination. When an institution is terminated with an effective date of termination after the date of the initial determination terminating the provider, any beneficiary admitted to the institution prior to the effective date of termination (or their parent, guardian, or other representative) shall be notified by the Director, OCHAMPUS, or a designee, by certified mail of the termination, and that CHAMPUS cost-sharing of the beneficiary’s care in the institution will cease as of the effective date of the termination. However, any beneficiary admitted to the institution prior to any grace period extended to the institution under paragraph (f)(2)(ii)(A) of this section shall be advised that, if the beneficiary’s care otherwise qualifies for CHAMPUS coverage, CHAMPUS cost-sharing of the care in the institution will continue in order to provide a reasonable period of transition of care; however the transitional period of CHAMPUS cost-sharing shall not exceed the last day of the month following the month in which the institution’s status as a CHAMPUS provider is terminated. (This authorized CHAMPUS cost-sharing of the inpatient care received during the transition period is an exception to the general rule that CHAMPUS payment for care furnished after the effective date of termination of the provider’s status shall be deemed to be an erroneous payment.) If a major violation under paragraph (f)(2)(ii)(B) of this section is involved, in order to ensure immediate action is taken to transfer beneficiaries to an approved provider, CHAMPUS cost-sharing shall not be authorized after the effective date of termination of the provider’s status.

(ii) Institutions not in compliance with CHAMPUS standards. If it is determined that an institution is not in compliance with one or more of the standards applicable to its specific category of institution under this part, the Director, OCHAMPUS, or a designee, shall take immediate steps to bring about compliance or terminate the status of the provider as an authorized CHAMPUS provider.

(A) Minor violations. An institution determined to be in violation of one or more of the standards shall be advised by certified mail of the nature of the discrepancy or discrepancies and will be given a grace period of 30 days to effect appropriate corrections. The grace period may be extended at the discretion of the Director, OCHAMPUS, or a designee, but in no event shall the extension exceed 90 days.
§ 199.9  CHAMPUS will not cost-share a claim for any beneficiary admitted during the grace period.

(2) Any beneficiary admitted to the institution prior to the grace period (or the beneficiary’s parent, guardian, or other representative) will be notified by the Director, OCHAMPUS, or a designee, in writing, of the minor violations and the grace period granted the institution to correct the violations. The beneficiary will also be advised that, if the beneficiary’s care otherwise meets all requirements for CHAMPUS coverage, CHAMPUS cost-sharing will continue during the grace period.

(3) If the institution submits written notice before the end of the grace period that corrective action has been taken and if the Director, OCHAMPUS, or a designee, determines that the corrective action has eliminated the minor violations, the provider will be advised that the institution is restored to full status as an authorized CHAMPUS provider as of 12:01 a.m. on the day written notice of correction was received by the Director, OCHAMPUS, or a designee, or the day on which acceptable corrective action was completed in the judgment of the Director, OCHAMPUS, or a designee. Any beneficiary admitted to the institution prior to the grace period will be notified by the Director, OCHAMPUS, or a designee, or the day on which acceptable corrective action was completed in the judgment of the Director, OCHAMPUS, or a designee.

(4) If the institution has failed to give notification in writing before the end of the grace period that corrective action has been completed or, in the judgment of the Director, OCHAMPUS, or a designee, the institution has not completed acceptable corrective action during the grace period, the Director, OCHAMPUS, or a designee, may initiate action to terminate the provider as an authorized CHAMPUS provider.

(B) Major violations. If the Director, OCHAMPUS, or a designee, determines that an institution is in violation of standards detrimental to life, safety, or health, or substantially in violation of approved treatment programs, immediate action shall be taken to terminate the institution as an authorized CHAMPUS provider. The institution shall be notified by telegram, certified mail, or express mail of the termination under this subparagraph, effective on receipt of the notice. The notice shall include a brief statement of the nature of violations resulting in the termination and advise the institution that an initial determination formalizing the administrative action of termination will be issued pursuant to paragraph (h)(3)(ii) of this section within 15 days.

(3) Beneficiary sanctions. (i) With entitlement to CHAMPUS benefits based on public law, an eligible beneficiary will not be suspended or excluded from CHAMPUS. However, the Director, OCHAMPUS, or a designee, may take action deemed appropriate and reasonable to protect the Government from those beneficiaries (including sponsors, parents, guardians, or representatives of beneficiaries) who have submitted false claims.

(ii) Pursuant to § 199.11 of this part, the Director, OCHAMPUS, or a designee, may recover erroneous payments on claims involving fraud or false or misleading statements. Remedies for recovery of the erroneous payments include the use of offset against future CHAMPUS payments.

(iii) Under policies adopted by the Director, OCHAMPUS, or a designee, individuals who, based on reliable information, have previously submitted fraudulent or false CHAMPUS claims, may be required to comply with any procedures (e.g., partial or total pre-payment audit or review, restriction to a designated primary care provider, etc.) which the Director, OCHAMPUS, or a designee, deems appropriate to ensure that their future medical care and CHAMPUS claims (including the medical care and CHAMPUS claims submitted by or for members of their family) are valid.
(g) Period of exclusion, suspension, or termination—(1) Exclusions or suspensions. Except as otherwise required by paragraph (g)(1)(i) of this section, the Director, OCHAMPUS, or a designee, shall determine the period of exclusion or suspension for a provider using the factors set forth in paragraph (g)(1)(ii) of this section.

(i) Exclusion or suspension of a provider based on the provider’s exclusion or suspension by another agency of the Federal Government, a state, or a local licensing authority. If the administrative action under CHAMPUS is based solely on the provider’s exclusion or suspension by another agency, state, or local licensing authority, the period of exclusion or suspension under CHAMPUS shall be for the same length of time of exclusion or suspension imposed by the other agency, state, or local licensing authority. The provider may request reinstatement as an authorized CHAMPUS provider if reinstatement is achieved under the other program prior to the end of the period of exclusion or suspension. If the administrative action under CHAMPUS is not based solely on the provider’s exclusion or suspension by another agency, state, or local licensing authority, the period of exclusion or suspension under CHAMPUS shall be for the same period of exclusion or suspension imposed by the other agency, state, or local licensing authority.

(ii) Factors to be considered in determining the period of exclusion or suspension of providers under CHAMPUS. In determining the period of exclusion or suspension of a provider, the Director, OCHAMPUS, or a designee, may consider any or all of the following:

(A) When the case concerns all or any part of the same issues which have been the subject of criminal conviction or civil judgment involving fraud by a provider:

(1) The period(s) of sentence, probation, and other sanction imposed by court order against the provider may be presumed reasonable and adopted as the administrative period of exclusion or suspension under CHAMPUS, unless aggravating or mitigating factors exist.

(2) If any aggravating factors exist, then cause exists for the Director, OCHAMPUS, or a designee, to consider the factors set forth in paragraph (g)(1)(ii)(B) of this section, in imposing a period of administrative exclusion or suspension in excess of the period(s) of sentence, probation, and/or other sanctions imposed by court order. Examples of aggravating factors include, but are not limited to:

(i) An administrative determination by the Director, OCHAMPUS, or a designee, that the basis for administrative exclusion or suspension includes an act(s) of fraud or abuse under CHAMPUS in addition to, or unrelated to, an act(s) of fraud included in the criminal conviction or civil judgment.

(ii) The fraudulent act(s) involved in the criminal conviction or civil judgment, or similar acts, were committed over a significant period of time; that is, one year or more.

(iii) The act(s) of fraud or abuse had an adverse physical, mental, or financial impact on one or more CHAMPUS beneficiaries.

(iv) The loss or potential loss to CHAMPUS is over $5,000. The entire amount of loss or potential loss to CHAMPUS due to acts of fraud and abuse will be considered, in addition to the amount of loss involved in the court conviction or civil judgment, regardless of whether full or partial restitution has been made to CHAMPUS.

(v) The provider has a prior court record, criminal or civil, or administrative record or finding of fraud or abuse.

(3) If any mitigating factors exist, then cause may exist for the Director, OCHAMPUS, or a designee, to reduce a period of administrative exclusion or suspension from any period(s) imposed by court conviction or civil judgment. Only the existence of either of the following two factors may be considered in mitigation:

(i) The criminal conviction or civil judgment only involved three or fewer misdemeanor offenses, and the total of the estimated losses incurred (including any loss from act(s) not involved in the conviction or judgment) is less than $1,000, regardless of whether full or partial restitution has been made.

(ii) The criminal or civil court proceedings establish that the provider had a mental, emotional or physical
§ 199.9 32 CFR Ch. 1 (7–1–02 Edition)

condition, prior to or contemporaneous with the commission of the act(s), that reduced the provider’s criminal or civil culpability.

(B) The Director, OCHAMPUS, or a designee, may consider the following factors in determining a reasonable period of exclusion or suspension of a provider under CHAMPUS:

(1) The nature of the claims and the circumstances under which they were presented;

(2) The degree of culpability;

(3) History of prior offenses (including whether claims were submitted while the provider was either excluded or suspended pursuant to prior administrative action);

(4) Number of claims involved;

(5) Dollar amount of claims involved;

(6) Whether, if a crime was involved, it was a felony or misdemeanor;

(7) If patients were injured financially, mentally, or physically; the number of patients; and the seriousness of the injury(ies);

(8) The previous record of the provider under CHAMPUS;

(9) Whether restitution has been made or arrangements for repayment accepted by the Government;

(10) Whether the provider has resolved the conflict of interest situations or implemented procedures acceptable to the Director, OCHAMPUS, or a designee, which will prevent conflict of interest in the future; and,

(11) Such other factors as may be deemed appropriate.

(2) Terminations. When a provider’s status as an authorized CHAMPUS provider is ended, other than through exclusion or suspension, the termination is based on a finding that the provider does not meet the qualifications to be an authorized provider, as set forth in this part. Therefore, the period of termination in all cases will be indefinite and will end only after the provider has successfully met the established qualifications for authorized provider status under CHAMPUS and has been reinstated under CHAMPUS. Except as otherwise provided in this subparagraph, the following guidelines control the termination of authorized CHAMPUS provider status for a provider whose license to practice (or, in the case of an institutional provider, to operate) has been temporarily or permanently suspended or revoked by the jurisdiction issuing the license.

(i) Termination of the provider under CHAMPUS shall continue even if the provider obtains a license to practice in a second jurisdiction during the period of suspension or revocation of the provider’s license by the original licensing jurisdiction. A provider who has licenses to practice in two or more jurisdictions and has one or more license(s) suspended or revoked will also be terminated as a CHAMPUS provider.

(A) Professional providers shall remain terminated from the CHAMPUS until the jurisdiction(s) suspending or revoking the provider’s license(s) to practice restores it or removes the impediment to restoration.

(B) Institutional providers shall remain terminated under CHAMPUS until their license is restored. In the event the facility is sold, transferred, or reorganized as a new legal entity, and a license issued under a new name or to a different legal entity, the new entity must submit an application to be an authorized CHAMPUS provider.

(ii) If the CHAMPUS provider status is terminated due to the loss of the provider’s license, the effective date shall be retroactive to the date the provider lost the license; however, in the case of a professional provider who has licenses in two or more jurisdictions and submitted claims from a jurisdiction from which he/she had a valid license, the effective date of the termination will be 15 calendar days from the date of the written initial determination of termination for purposes of claims from the jurisdiction in which the provider still has a valid license.

(h) Procedures for initiating and implementing the administrative remedies—(1) Temporary suspension of claims processing. (i) In general, temporary suspension of claims processing may be invoked to protect the interests of the Government for a period reasonably necessary to complete investigation or appropriate criminal, civil, and administrative proceedings. The temporary suspension only delays the ultimate payment of otherwise appropriate
claims. When claims processing involving a participating provider is temporarily suspended, the participation agreement remains in full force and the provider cannot repudiate the agreement because of the delay in the final disposition of the claim(s). Once it has been determined appropriate to end the temporary suspension of claims processing, CHAMPUS claims which were the subject of the suspension and which are otherwise determined to be in compliance with the requirements of law and regulation, will be processed to completion and payment unless such action is deemed inappropriate as a result of criminal, civil, or administrative remedies ultimately invoked in the case.

(ii) When adequate evidence exists to determine that a provider or beneficiary is submitting fraudulent or false claims or claims involving practices that may be fraud or abuse as defined by this part, the Director, OCHAMPUS, or a designee, may suspend CHAMPUS claims processing (in whole or in part) for claims submitted by the beneficiary or any CHAMPUS claims involving care furnished by the provider. The temporary suspension of claims processing for care furnished by a provider may be invoked against all such claims, whether or not the claims are submitted by the beneficiary or by the provider as a participating CHAMPUS provider. In cases involving a provider, notice of the suspension of claims processing may also be given to the beneficiary community either directly or indirectly through notice to appropriate military facilities, health benefit advisors, and the information or news media.

(A) Adequate evidence is any information sufficient to support the reasonable belief that a particular act or omission has occurred.

(B) Indictment or any other initiation of criminal charges, filing of a complaint for civil fraud, issuance of an administrative complaint under the Program Fraud Civil Remedies Act, or issuance of an initial determination under this part for submitting fraudulent or false claims or claims involving practices that may be fraud or abuse as defined by this part, shall constitute adequate evidence for invoking temporary suspension of claims processing.

(iii) The Director, OCHAMPUS, or a designee, may suspend CHAMPUS claims processing without first notifying the provider or beneficiary of the intent to suspend payments. Following a decision to invoke a temporary suspension, however, the Director, OCHAMPUS, or a designee, shall issue written notice advising the provider or beneficiary that:

(A) A temporary suspension of claims processing has been ordered and a statement of the basis of the decision to suspend payment. Unless the suspension is based on any of the actions set forth in paragraph (h)(1)(ii)(B) of this section, the notice shall describe the suspected acts or omissions in terms sufficient to place the provider or beneficiary on notice without disclosing the Government’s evidence.

(B) Within 30 days (or, upon written request received by OCHAMPUS during the 30 days and for good cause shown, within 60 days) from the date of the notice, the provider or beneficiary may:

(1) Submit to the Director, OCHAMPUS, or a designee, in writing, information (including documentary evidence) and argument in opposition to the suspension, provided the additional specific information raises a genuine dispute over the material facts, or

(2) Submit a written request to present in person evidence or argument to the Director, OCHAMPUS, or a designee. All such presentations shall be made at the Office of Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) in Aurora, Colorado, at the provider's or beneficiary's own expense.

(C) Additional proceedings to determine disputed material facts may be conducted unless:

(1) The suspension is based on any of the actions set forth in paragraph (h)(1)(ii)(B) of this section, or

(2) A determination is made, on the basis of the advice of the responsible Government official (e.g., an official of the Department of Justice, the designated Reviewing Official under the Program Fraud Civil Remedies Act, etc.), that the substantial interests of
the Government in pending or contemplated legal or administrative proceedings based on the same facts as the suspension would be prejudiced.

(iv) If the beneficiary or provider submits, either in writing or in person, additional information or argument in opposition to the suspension, the Director, OCHAMPUS, or a designee, shall issue a suspending official’s decision which modifies, terminates, or leaves in force the suspension of claims processing. However, a decision to terminate or modify the suspension shall be without prejudice to the subsequent imposition of suspension of claims processing, imposition of sanctions under this §199.9, the recovery of erroneous payments under §199.11 of this part, or any other administrative or legal action authorized by law or regulation. The suspending official’s decision shall be in writing as follows:

(A) A written decision based on all the information in the administrative record, including any submission by the beneficiary or provider, shall be final in a case:

(1) Based on any of the actions set forth in paragraph (h)(1)(ii)(B) of this section,

(2) In which the beneficiary’s or provider’s submission does not raise a genuine dispute over material facts, or

(3) In which additional proceedings to determine disputed material facts have been denied on the basis of advice of a responsible Government official that the substantial interests of the Government in pending or contemplated legal or administrative proceedings would be prejudiced.

(B) In a case in which additional proceedings are necessary as to disputed material facts, the suspending official’s decision shall advise the beneficiary or provider that the case has been referred for handling as a hearing under §199.10 of this part.

(v) A suspension of claims processing may be modified or terminated for reasons such as:

(A) Newly discovered evidence;

(B) Elimination of any of the causes for which the suspension was invoked; or

(C) Other reasons the Director, OCHAMPUS, or a designee, deems appropriate.

(vi) A suspension of claims processing shall be for a temporary period pending the completion of investigation and any ensuing legal or administrative proceedings, unless sooner terminated by the Director, OCHAMPUS, or a designee, or as provided in this subparagraph.

(A) If legal or administrative proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated unless the Government official responsible for initiation of the legal or administrative action requests its extension, in which case it may be extended for an additional 6 months. In no event may a suspension extend beyond 18 months, unless legal or administrative proceedings have been initiated during that period.

(B) The Director, OCHAMPUS, or a designee, shall notify the Government official responsible for initiation of the legal or administrative action of the proposed termination of the suspension, at least 30 days before the 12-month period expires, to give the official an opportunity to request an extension.

(2) Notice of proposed administrative sanction. (i) A provider shall be notified in writing of the proposed action to exclude, suspend, or terminate the provider’s status as an authorized CHAMPUS provider.

(A) The notice shall state which sanction will be taken and the effective date of that sanction as determined in accordance with the provisions of this part.

(B) The notice shall inform the provider of the situation(s), circumstance(s), or action(s) which form the basis for the proposed sanction and reference the paragraph of this part under which the administrative action is being taken.

(C) The notice will be sent to the provider’s last known business or office address (or home address if there is no known business address.)

(D) The notice shall offer the provider an opportunity to respond within 30 days (or, upon written request received by OCHAMPUS during the 30 days and for good cause shown, within 60 days) from the date on the notice with either:
(1) Documentary evidence and written argument contesting the proposed action; or,

(2) A written request to present in person evidence or argument to the Director, OCHAMPUS, or a designee. All such presentations shall be made at the Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) in Aurora, Colorado, at the provider’s own expense.

(3) Initial determination. (1) If, after the provider has exhausted, or failed to comply with, the procedures specified in paragraph (h)(2) of this section, the Director, OCHAMPUS, or a designee, decides to invoke an administrative remedy of exclusion, suspension, or termination of a provider under CHAMPUS, written notice of the decision will be sent to the provider by certified mail. Except in those cases where the sanction has a retroactive effective date, the written notice shall be dated no later than 15 days before the decision becomes effective. For terminations under paragraph (f)(2)(ii)(B) of this section, the initial determination may be issued without first implementing or exhausting the procedures specified in paragraph (h)(2) of this section.

(2) The initial determination shall include:

(A) A statement of the sanction being invoked;

(B) A statement of the effective date of the sanction;

(C) A statement of the facts, circumstances, or actions which form the basis for the sanction and a discussion of any information submitted by the provider relevant to the sanction;

(D) A statement of the factors considered in determining the period of sanction;

(E) The earliest date on which a request for reinstatement under CHAMPUS will be accepted;

(F) The requirements and procedures for reinstatement; and,

(G) Notice of the available hearing upon request of the sanctioned provider.

(4) Reinstatement procedures—(i) Reinstatement. (A) There is no entitlement under CHAMPUS for payment (cost-sharing) of any claim that involves either criminal or civil fraud as defined by law, or fraud or abuse or conflict of interest as defined by this part. In addition, except as specifically provided in this part, there is no entitlement under CHAMPUS for payment (cost-sharing) of any claim for services or supplies furnished by a provider who does not meet the requirements to be an authorized CHAMPUS provider. In any of the situations described above, CHAMPUS payment shall be denied whether the claim is submitted by the provider as a participating claim or by the beneficiary for reimbursement. If an erroneous payment has been issued in any such case, collection of the payment will be processed under §199.11 of this part.

(B) If the Government has made erroneous payments to a provider because of claims involving fraud, abuse, or conflicts of interest, restitution of the erroneous payments shall be made before a request for reinstatement as a CHAMPUS authorized provider will be considered. Without restitution or resolution of the debt under §199.11 of this part, a provider shall not be reinstated as an authorized CHAMPUS provider. This is not an appealable issue under §198.10 of this part.

(C) For purposes of authorization as a CHAMPUS provider, a provider who is excluded or suspended under this §199.9 and who submits participating claims for services furnished on or after the effective date of the exclusion or suspension is considered to have forfeited or waived any right or entitlement to bill the beneficiary for the care involved in the claims. Similarly, because a provider is expected to know the CHAMPUS requirements for qualification as an authorized provider, any participating provider who fails to meet the qualification requirements for CHAMPUS is considered to have forfeited or waived any right or entitlement to bill the beneficiary for the care involved in the CHAMPUS claims. If, in either situation, the provider bills the beneficiary, restitution to the beneficiary may be required by the Director, OCHAMPUS, or a designee, as a condition for consideration of reinstatement as a CHAMPUS authorized provider.

(ii) Terminated providers. A terminated provider who subsequently
achieves the minimum qualifications to be an authorized CHAMPUS provider or who has had his/her license reinstated or the impediment to reinstatement removed by the appropriate licensing jurisdiction may submit a written request for reinstatement under CHAMPUS to the Director, OCHAMPUS, or a designee. If restitution or proper reinstatement of license is not at issue, the Director, OCHAMPUS, or a designee, will process the request for reinstatement under the procedures established for initial requests for authorized CHAMPUS provider status.

(iii) Providers (other than entities) excluded or suspended under CHAMPUS.

(A) A provider excluded or suspended from CHAMPUS (other than an entity excluded under §199.9(f)(1)(i)) may seek reinstatement by submitting a written request to the Director, OCHAMPUS, or a designee, any time after the date specified in the notice of exclusion or suspension or an earlier date specified in the appeal decision issued in the provider’s appeal under §199.10 of this part. The request for reinstatement shall include:

1. Documentation sufficient to establish the provider’s qualifications under this part to be a CHAMPUS authorized provider;
2. A statement from the provider setting forth the reasons why the provider should be reinstated, accompanied by written statements from professional associates, peer review bodies, and/or probation officers (if appropriate), attesting to their belief that the violations that led to exclusion or suspension will not be repeated.

(B) A provider entity excluded from CHAMPUS under §199.9(f)(1)(i) may seek reinstatement by submitting a written request to the Director, OCHAMPUS, or a designee, with documentation sufficient to establish the provider’s qualifications under this part to be a CHAMPUS authorized provider and either:

1. Documentation showing the CHAMPUS reinstatement of the excluded individual provider whose conviction led to the CHAMPUS exclusion or suspension of the provider entity; or
2. Documentation acceptable to the Director, OCHAMPUS, or a designee, that shows that the individual whose conviction led to the entity’s exclusion:
   (i) Has reduced his or her ownership or control interest in the entity below 5 percent; or
   (ii) Is no longer an officer, director, agent or managing employee of the entity; or
   (iii) Continues to maintain a 5 percent or more ownership or control interest in such entity, and that the entity due to circumstances beyond its control, is unable to obtain a divestiture.

Note: Under paragraph (h)(4)(i)(ii)(B)(2) of this section, the request for reinstatement may be submitted any time prior to the date specified in the notice of exclusion or suspension or an earlier date specified in the appeal decision issued under §199.10 of this part.

(iv) Action on request for reinstatement.
In order to reinstate a provider as a CHAMPUS authorized provider, the Director, OCHAMPUS, or a designee, must determine that:

(A) The provider meets all requirements under this part to be an authorized CHAMPUS provider;

(B) No additional criminal, civil, or administrative action has been taken or is being considered which could subject the provider to exclusion, suspension, or termination under this section;

(C) In the case of a provider entity, verification has been made of the divestiture or termination of the owner, controlling party, officer, director, agent or managing employee whose conviction led to the entity’s exclusion, or that the provider entity should be reinstated because the entity, due to circumstances beyond its control, cannot obtain a divestiture of the 5 percent or more ownership or controlling interest by the convicted party.

(v) Notice of action on request for reinstatement—(A) Notice of approval of request. If the Director, OCHAMPUS, or a designee, approves the request for reinstatement, he or she will:

1. Give written notice to the sanctioned party specifying the date when the authorized provider status under CHAMPUS may resume; and

2. Give notice to those agencies and groups that were originally notified, in accordance with §199.9(k), of the imposition of the sanction. General notice
may also be given to beneficiaries and other parties as deemed appropriate by the Director, OCHAMPUS, or a designee.

(B) Notice of denial of request. If the Director, OCHAMPUS, or a designee, does not approve the request for reinstatement, written notice will be given to the provider. If established procedures for processing initial requests for authorized provider status are used to review the request for reinstatement, the established procedures may be used to provide the notice that the provider does not meet requirements of this part for such status. If the provider continues to be excluded, suspended, or terminated under the provisions of this section, the procedures set forth in this paragraph (b) may be followed in denying the provider's request for reinstatement.

(5) Reversed or vacated convictions or civil judgments involving CHAMPUS fraud. (i) If a CHAMPUS provider is excluded or suspended solely on the basis of a criminal conviction or civil judgment involving a CHAMPUS fraud and the conviction or judgment is reversed or vacated on appeal, CHAMPUS will void the exclusion of a provider. Such action will not preclude the initiation of additional independent administrative action under this section or any other administrative remedy based on the same facts or events which were the subject of the criminal conviction or civil judgment.

(ii) If an exclusion is voided under paragraph (h)(5)(i) of this section, CHAMPUS will make payment, either to the provider or the beneficiary (if the claim was not a participating claim) for otherwise authorized services furnished or performed during the period of exclusion.

(iii) CHAMPUS will also void the exclusion of any entity that was excluded under §199.9(f)(1)(i) based solely on an individual's conviction that has been reversed or vacated on appeal.

(iv) When CHAMPUS voids the exclusion of a provider or an entity, notice will be given to the agencies and others that were originally notified, in accordance with §199.9(k).

(j) Suspending Administrative Action. (1) All or any administrative action may be suspended by the Director, OCHAMPUS, or a designee, pending action in the case by the Department of Defense—Inspector General, Defense Criminal Investigative Service, or the Department of Justice (including the responsible United States Attorney).
§ 199.9

However, action by the Department of Defense—Inspector General or the Department of Justice, including investigation, criminal prosecution, or civil litigation, does not preclude administrative action by OCHAMPUS.

(2) The normal OCHAMPUS procedure is to suspend action on the administrative process pending an investigation by the Department of Defense—Inspector General or final disposition by the Department of Justice.

(3) Though OCHAMPUS administrative action is taken independently of any action by the Department of Defense—Inspector General or by the Department of Justice, once a case is forwarded to the Department of Defense—Inspector General or the Department of Justice for legal action (criminal or civil), administrative action may be held in abeyance.

(4) In some instances there may be dual jurisdiction between agencies; as in, for example, the joint regulations issued by the Department of Justice and the Government Accounting Office regarding debt collection.

(k) Notice to Other Agencies. (1) When CHAMPUS excludes, suspends, or terminates a provider, the Director, OCHAMPUS, or a designee, will notify other appropriate agencies (for example, the Department of Health and Human Services and the state licensing agency that issued the provider’s license to practice) that the individual has been excluded, suspended, or terminated as an authorized provider under CHAMPUS. An exclusion, suspension, or termination action is considered a public record. Such notice can include the notices and determinations sent to the suspended provider and other public documents such as testimony given at a hearing or exhibits or depositions given in a lawsuit or hearing. Notice may also be given to Uniformed Services Military Treatment Facilities, Health Benefit Advisors, beneficiaries and sponsors, the news media, and institutional providers if inpatient care was involved.

(2) If CHAMPUS has temporarily suspended claims processing, notice of such action normally will be given to the affected provider and Uniformed Services Military Treatment Facilities, Health Benefits Advisors, beneficiaries, and sponsors. Notice may also be given to any information or news media and any other individual, professional provider, or institutional provider, as deemed appropriate. However, since a “temporary suspension of claims processing” is by definition not a final or formal agency action, the basis for the action generally will not be disclosed. It is noted that the basis for the action can be a result of questions arising from routine audits to investigation of possible criminal violations.

(l) Compromise, Settlement, and Resolution Authority. (1) In lieu of invoking any remedy provided by this Section, the Director, OCHAMPUS, or a designee, may elect to enter into an agreement with the provider intended to correct the situation within an established time period and subject to any remedies deemed appropriate by the Director, OCHAMPUS, or a designee.

(2) When it is in the best interest of CHAMPUS, the Director, OCHAMPUS, has the discretionary authority to waive an action or enter into compromise or settlement of administrative actions taken under this §199.9.

(m) Government-wide effect of exclusion or suspension from CHAMPUS. As provided by section 2455 of the Federal Acquisition Streamlining Act of 1994, Pub. L. 103–355, October 13 1994, and Executive Order 12549, “Debarment and Suspension from Federal Financial and Nonfinancial Assistance Programs,” February 18, 1986, any health care provider excluded or suspended from CHAMPUS under this section shall, as a general rule, also be debarred, suspended, or otherwise excluded from all other programs and activities involving Federal financial assistance. Among the other programs for which this debarment, suspension, or exclusion shall operate are the Medicare and Medicaid programs. This debarment, suspension, or termination requirement is subject to limited exceptions in the regulations governing the respective Federal programs affected. (Note: Other regulations related to this government-wide exclusion or suspension authority are 32 CFR Part 25 and 45 CFR Part 76.)

[54 FR 23246, June 14, 1989, as amended at 63 FR 48445, Sept. 10, 1998]
§ 199.10 Appeal and hearing procedures.

(a) General. This Section sets forth the policies and procedures for appealing decisions made by OCHAMPUS, OCHAMPUSEUR, and CHAMPUS contractors adversely affecting the rights and liabilities of CHAMPUS beneficiaries, CHAMPUS participating providers, and providers denied the status of authorized provider under CHAMPUS. An appeal under CHAMPUS is an administrative review of program determinations made under the provisions of law and regulation. An appeal cannot challenge the propriety, equity, or legality of any provision of law or regulation.

(1) Initial determination. (i) Notice of initial determination and right to appeal.

(A) OCHAMPUS, OCHAMPUSEUR, and CHAMPUS contractors shall mail notices of initial determinations to the affected provider or CHAMPUS beneficiary (or representative) at the last known address. For beneficiaries who are under 18 years of age or who are incompetent, a notice issued to the parent, guardian, or other representative, under established CHAMPUS procedures, constitutes notice to the beneficiary.

(B) CHAMPUS contractors and OCHAMPUSEUR shall notify a provider of an initial determination on a claim only if the provider participated in the claim. (See § 199.7 of this part.)

(C) CHAMPUS peer review organizations shall notify providers and fiscal intermediaries of a denial determination on a claim.

(D) Notice of an initial determination on a claim processed by a CHAMPUS contractor or OCHAMPUSEUR normally will be made on a CHAMPUS Explanation of Benefits (CEOB) form.

(E) Each notice of an initial determination on a request for benefit authorization, a request by a provider for approval as an authorized CHAMPUS provider, or a decision to disqualify or exclude a provider as an authorized provider under CHAMPUS shall state the reason for the determination and the underlying facts supporting the determination.

(F) In any case when the initial determination is adverse to the beneficiary or participating provider, or to the provider seeking approval as an authorized CHAMPUS provider, the notice shall include a statement of the beneficiary’s or provider’s right to appeal the determination. The procedure for filing the appeal also shall be explained.

(ii) Effect of initial determination.

(A) The initial determination is final unless appealed in accordance with this chapter, or unless the initial determination is reopened by the TRICARE Management Activity, the CHAMPUS contractor, or the CHAMPUS peer review organization.

(B) An initial determination involving a CHAMPUS beneficiary entitled to Medicare Part A, who is enrolled in Medicare Part B, may be appealed by the beneficiary or their provider under this section of this Part only when the claimed services or supplies are payable by CHAMPUS and are not payable under Medicare. Both Medicare and CHAMPUS offer an appeal process when a claim for healthcare services or supplies is denied and most healthcare services and supplies are a benefit payable under both Medicare and CHAMPUS. In order to avoid confusion on the part of beneficiaries and providers and to expedite the appeal process, services and supplies denied payment by Medicare will not be considered for coverage by CHAMPUS if the Medicare denial of payment is appealable under Medicare. Because such claims are not considered for payment by CHAMPUS, there can be no CHAMPUS appeal. If, however, a Medicare claim or appeal results in some payment by Medicare, the services and supplies paid by Medicare will be considered for payment by CHAMPUS. In that situation, any decision to deny CHAMPUS payment will be appealable under this section. The following examples of CHAMPUS appealable issues involving Medicare-eligible CHAMPUS beneficiaries are illustrative; they are not all-inclusive:

(I) If Medicare processes a claim for a healthcare service or supply that is a Medicare benefit and the claim is denied by Medicare for a patient-specific reason, the claim is appealable through the Medicare appeal process. The Medicare decision will be final if the claim
23 CFR Ch. I (7–1–02 Edition)

§ 199.10

is denied by Medicare. The claimed services or supplies will not be considered for CHAMPUS payment and there is no CHAMPUS appeal of the CHAMPUS decision denying the claim.

(2) If Medicare processes a claim for a healthcare service or supply that is a Medicare benefit and the claim is paid, either on initial submission or as a result of a Medicare appeal decision, the claim will be submitted to CHAMPUS for processing as a second payer to Medicare. If CHAMPUS denies payment of the claim, the Medicare-eligible beneficiary or their provider have the same appeal rights as other CHAMPUS beneficiaries and their providers under this section.

(3) If Medicare processes a claim and the claim is denied by Medicare because it is not a healthcare service or supply that is a benefit under Medicare, the claim is submitted to CHAMPUS. CHAMPUS will process the claim under Part 199 as primary payer (or as secondary payer if another double coverage plan exists). If any part of the claim is denied, the Medicare-eligible beneficiary and their provider will have the same appeal rights as other CHAMPUS beneficiaries and their providers under this section.

(2) Participation in an appeal. Participation in an appeal is limited to any party to the initial determination, including CHAMPUS, and authorized representatives of the parties. Any party to the initial determination, except CHAMPUS, may appeal an adverse determination. The appealing party is the party who actually files the appeal.

(i) Parties to the initial determination. For purposes of the CHAMPUS appeals and hearing procedures, the following are not parties to an initial determination and are not entitled to administrative review under this section.

(A) A provider disqualified or excluded as an authorized provider under CHAMPUS based on a determination of abuse or fraudulent practices or procedures under another Federal or federally funded program is not a party to the CHAMPUS action and may not appeal under this section.

(B) A beneficiary who has an interest in receiving care or has received care from a particular provider cannot be an appealing party regarding the exclusion, suspension, or termination of the provider under §199.9 of this part.

(C) A sponsor or parent of a beneficiary under 18 years of age or guardian or an incompetent beneficiary is not a party to the initial determination and may not serve as the appealing party, although such persons may represent the appealing party in an appeal.

(D) A third party, such as an insurance company, is not a party to the initial determination and is not entitled to appeal even though it may have an indirect interest in the initial determination.

(E) A nonparticipating provider is not a party to the initial determination and may not appeal.

(ii) Representative. Any party to the initial determination may appoint a representative to act on behalf of the party in connection with an appeal. Generally, the parent of a minor beneficiary and the legally appointed guardian of an incompetent beneficiary shall be presumed to have been appointed representative without specific designation by the beneficiary. The custodial parent or legal guardian (appointed by a cognizant court) of a minor beneficiary may initiate an appeal based on the above presumption. However, should a minor beneficiary turn 18 years of age during the course of an appeal, then any further requests to appeal on behalf of the beneficiary must be from the beneficiary or pursuant to the written authorization of the beneficiary appointing a representative. For example, if the beneficiary is 17 years of age and the sponsor (who is a custodial parent) requests a formal review, absent written objection by the minor beneficiary, the sponsor is presumed to be acting on behalf of the minor beneficiary. Following the issuance of the formal review, the sponsor requests a hearing; however if, at the time of the request for a hearing, the beneficiary is 18 years of age or older, the request must either be by the beneficiary or the beneficiary must appoint a representative. The sponsor, in this example, could not pursue the request for hearing without being appointed by the beneficiary as the beneficiary’s representative.
(A) The representative shall have the same authority as the party to the appeal and notice given to the representative shall constitute notice required to be given to the party under this part.

(B) To avoid possible conflicts of interest, an officer or employee of the United States, such as an employee or member of a Uniformed Service, including an employee or staff member of a Uniformed Service legal office, or a CHAMPUS advisor, subject to the exceptions in 18 U.S.C. 205, is not eligible to serve as a representative. An exception usually is made for an employee or member of a Uniformed Service who represents an immediate family member. In addition, the Director, OCHAMPUS, or designee, may appoint an officer or employee of the United States as the CHAMPUS representative at a hearing.

(3) Burden of proof. The burden of proof is on the appealing party to establish affirmatively by substantial evidence the appealing party’s entitlement under law and this part to the authorization of CHAMPUS benefits, approval of authorized CHAMPUS provider status, or removal of sanctions imposed under §199.9 of this part. If a presumption exists under the provisions of this part or information constitutes prima facie evidence under the provisions of this part, the appealing party must produce evidence reasonably sufficient to rebut the presumption or prima facie evidence as part of the appealing party’s burden of proof. CHAMPUS shall not pay any part of the cost or fee, including attorney fees, associated with producing or submitting evidence in support of an appeal.

(4) Evidence in appeal and hearing cases. Any relevant evidence may be used in the administrative appeal and hearing process if it is the type of evidence on which reasonable persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule that might make improper the admission of such evidence over objection in civil or criminal courts.

(5) Late filing. If a request for reconsideration, formal review, or hearings is filed after the time permitted in this section, written notice shall be issued denying the request. Late filing may be permitted only if the appealing party reasonably can demonstrate to the satisfaction of the Director, OCHAMPUS, or a designee, that the timely filing of the request was not feasible due to extraordinary circumstances over which the appealing party had no practical control. Each request for an exception to the filing requirement will be considered on its own merits. The decision of the Director, OCHAMPUS, or a designee, on the request for an exception to the filing requirement shall be final.

(6) Appealable issue. An appealable issue is required in order for an adverse determination to be appealed under the provisions of this section. Examples of issues that are not appealable under this section include:

(i) A dispute regarding a requirement of the law or regulation.

(ii) The amount of the CHAMPUS-determined allowable cost or charge, since the methodology for determining allowable costs or charges is established by this part.

(iii) The establishment of diagnosis-related groups (DRGs), or the methodology for the classification of inpatient discharges within the DRGs, or the weighting factors that reflect the relative hospital resources used with respect to discharges within each DRG, since each of these is established by this part.

(iv) Certain other issues on the basis that the authority for the initial determination is not vested in CHAMPUS. Such issues include but are not limited to the following examples:

(A) Determination of a person’s eligibility as a CHAMPUS beneficiary is the responsibility of the appropriate Uniformed Service. Although OCHAMPUS, OCHAMPUSEUR, and CHAMPUS contractors must make determinations concerning a beneficiary’s eligibility in order to ensure proper disbursement of appropriated funds on each CHAMPUS claim processed, ultimate responsibility for resolving a beneficiary’s eligibility rests with the Uniformed Services. Accordingly, disputed question of fact concerning a beneficiary’s eligibility will not be considered an appealable issue under the provisions of this section, but shall be resolved in accordance with §199.3 of this part.
(B) Similarly, decisions relating to the issuance of a Nonavailability Statement (DD Form 1251) in each case are made by the Uniformed Services. Disputes over the need for a Nonavailability Statement or a refusal to issue a Nonavailability Statement are not appealable under this section. The one exception is when a dispute arises over whether the facts of the case demonstrate a medical emergency for which a Nonavailability Statement is not required. Denial of payment in this one situation is an appealable issue.

(C) Any sanction, including the period of the sanction, imposed under §199.9 of this part which is based solely on a provider’s exclusion or suspension by another agency of the Federal Government, a state, or a local licensing authority is not appealable under this section. The provider must exhaust administrative appeal rights offered by the other agency that made the initial determination to exclude or suspend the provider. Similarly, any sanction imposed under §199.9 which is based solely on a criminal conviction or civil judgment against the provider is not appealable under this section. If the sanction imposed under §199.9 is not based solely on the provider’s criminal conviction or civil judgment or on the provider’s exclusion or suspension by another agency of the Federal Government, a state, or a local licensing authority, that portion of the CHAMPUS administrative determination which is in addition to the criminal conviction/civil judgment or exclusion/suspension by the other agency may be appealed under this section.

(v) A decision by the Director, OCHAMPUS, or a designee, as a suspending official when the decision is final under the provisions of §199.9(h)(1)(iv)(A).

(7) Amount in dispute. An amount in dispute is required for an adverse determination to be appealed under the provisions of this section, except as set forth below.

(i) The amount in dispute is calculated as the amount of money CHAMPUS would pay if the services and supplies involved in dispute were determined to be authorized CHAMPUS benefits. Examples of amounts of money that are excluded by the Regulation from CHAMPUS payments for authorized benefits include, but are not limited to:

(A) Amounts in excess of the CHAMPUS-determined allowable charge or cost.

(B) The beneficiary’s CHAMPUS deductible and cost-share amounts.

(C) Amounts that the CHAMPUS beneficiary, or parent, guardian, or other responsible person has no legal obligation to pay.

(D) Amounts excluded under the provisions of §199.8 of this part.

(ii) The amount of dispute for appeals involving a denial of a request for authorization in advance of obtaining care shall be the estimated allowable charge or cost for the services requested.

(iii) There is no requirement for an amount in dispute when the appealable issue involves a denial of a provider’s request for approval as an authorized CHAMPUS provider or the determination to exclude, suspend, or terminate a provider’s authorized CHAMPUS provider status.

(iv) Individual claims may be combined to meet the required amount in dispute if all of the following exist:

(A) The claims involve the same beneficiary.

(B) The claims involve the same issue.

(C) At least one of the claims so combined has had a reconsideration decision issued by OCHAMPUSEUR, a CHAMPUS contractor, or a CHAMPUS peer review organization.

NOTE: A request for administrative review under this appeal process which involves a dispute regarding a requirement of law or regulation (paragraph (a)(6)(i) of this section) or does not involve a sufficient amount in dispute (paragraph (a)(7) of this section) may not be rejected at the reconsideration level of appeal. However, an appeal shall involve an appealable issue and sufficient amount in dispute under these paragraphs to be granted a formal review or hearing.

(8) Levels of appeal. The sequence and procedures of a CHAMPUS appeal vary, depending on whether the initial determination was made by OCHAMPUS, OCHAMPUSEUR, a CHAMPUS contractor, or a CHAMPUS peer review organization.

(i) Appeal levels for initial determination made by OCHAMPUSEUR,
CHAMPUS contractor, or CHAMPUS peer review organization. (A) Reconsideration by OCHAMPUSEUR, CHAMPUS contractor, or CHAMPUS peer review organization.

(B) Formal review by OCHAMPUS (except for CHAMPUS peer review organization reconsiderations).

(C) Hearing.

(ii) Appeal levels for initial determination made by OCHAMPUS. (A) Reconsideration by OCHAMPUSEUR or CHAMPUS contractor.

(A) Formal review by OCHAMPUS except (1) initial determinations involving the suspension of claims processing where the Director, OCHAMPUS, or a designee, determines that additional proceedings are necessary as to disputed material facts and the suspending official’s decision is not final under the provisions of §199.9(h)(1)(iv)(A) or (2) initial determinations involving the sanctioning (exclusion, suspension, or termination) of CHAMPUS providers. Initial determinations involving these matters shall be appealed directly to the hearing level.

(B) Hearing.

(9) Appeal decision. An appeal decision at any level may address all pertinent issues which arise under the appeal or are otherwise presented by the information in the case record (for example, the entire episode of care in the appeal), and shall not be limited to addressing the specific issue appealed by a party. In the case of sanctions imposed under §199.9, the final decision may affirm, increase or reduce the sanction period imposed by CHAMPUS, or otherwise modify or reverse the imposition of the sanction.

(b) Reconsideration. Any part to the initial determination made by OCHAMPUSEUR, the CHAMPUS contractor, or a CHAMPUS peer review organization may request a reconsideration.

(1) Requesting a reconsideration—(i) Written request required. The request must be in writing, shall state the specific matter in dispute, and shall include a copy of the notice of initial determination (such as the CEOB form) made by OCHAMPUSEUR, the CHAMPUS contractor, or the CHAMPUS peer review organization.

(ii) Where to file. The request shall be submitted to the office that made the initial determination (i.e., OCHAMPUSEUR, the CHAMPUS contractor, or the CHAMPUS peer review organization) or any other CHAMPUS contractor designated in the notice of initial determination.

(iii) Allowed time to file. The request must be mailed within 90 days after the date of the notice of initial determination.

(iv) Official filing date. A request for a reconsideration shall be deemed filed on the date it is mailed and postmarked. If the request does not have a postmark, it shall be deemed filed on the date received by OCHAMPUSEUR, the CHAMPUS contractor or the CHAMPUS peer review organization.

(2) The reconsideration process. The purpose of the reconsideration is to determine whether the initial determination was made in accordance with law, regulation, policies, and guidelines in effect at the time the care was provided or requested, or at the time of the initial determination and/or reconsideration decision involving a provider request for approval as an authorized provider under CHAMPUS. The reconsideration is performed by a member of the OCHAMPUSEUR, CHAMPUS contractor, or CHAMPUS peer review organization staff who was not involved in making the initial determination and is a thorough and independent review of the case. The reconsideration is based on the information submitted that led to the initial determination, plus any additional information that the appealing party may submit or OCHAMPUSEUR, the CHAMPUS contractor, or CHAMPUS peer review organization may obtain.

(3) Timeliness of reconsideration determination. OCHAMPUSEUR, the CHAMPUS contractor, or CHAMPUS peer review organization normally shall issue its reconsideration determination no later than 60 days from the date of receipt of the request for reconsideration by OCHAMPUSEUR, the CHAMPUS contractor, or the CHAMPUS peer review organization.
§ 199.10

notice of the reconsideration determination to the appealing party at his or her last known address. The notice of the reconsideration must contain the following elements:

(i) A statement of the issues or issue under appeal.

(ii) The provisions of law, regulation, policies, and guidelines that apply to the issue or issues under appeal.

(iii) A discussion of the original and additional information that is relevant to the issue or issues under appeal.

(iv) Whether the reconsideration upholds the initial determination or reverses it, in whole or in part, and the rationale for the action.

(v) A statement of the right to appeal further in any case when the reconsideration determination is less than fully favorable to the appealing party and the amount in dispute is $50 or more.

(5) Effect of reconsideration determination. The reconsideration determination is final if either of the following exist:

(i) The amount in dispute is less than $50.

(ii) Appeal rights have been offered, but a request for formal review is not received by OCHAMPUS within 60 days of the date of the notice of the reconsideration determination.

(c) Formal review. Except as explained in this paragraph, any party to an initial determination made by OCHAMPUS, or a reconsideration determination made by the CHAMPUS contractor may request a formal review by OCHAMPUS if the party is dissatisfied with the initial or reconsideration determination unless the initial or reconsideration determination

(1) Is final under paragraph (b)(5) of this section;

(2) Involves the sanctioning of a provider by the exclusion, suspension or termination of authorized provider status;

(3) Involves a written decision issued pursuant to §199.9, paragraph (h)(1)(iv)(A) regarding the temporary suspension of claims processing; or

(4) Involves a reconsideration determination by a CHAMPUS peer review organization. A hearing, but not a formal review level of appeal, may be available to a party to an initial determination involving the sanctioning of a provider or to a party to a written decision involving a temporary suspension of claims processing. A beneficiary (or an authorized representative of a beneficiary), but not a provider, may request a hearing, but not a formal review, of a reconsideration determination made by a CHAMPUS peer review organization.

(d) Hearing. Any party to the initial determination may request a hearing if the party is dissatisfied with the formal review determination and the formal review determination is not final under the provisions of paragraph (c)(5), of this section, or the initial determination involves the sanctioning of a provider under §199.9 of this part and involves an appealable issue.

(1) Requesting a hearing—(i) Written request required. The request shall be in writing, state the specific matter in dispute, include a copy of the appropriate initial determination or formal review determination being appealed, and include any additional information or documents not submitted previously.

(ii) Where to file. The request shall be submitted to the Chief, Appeals and Hearings, OCHAMPUS, Aurora, Colorado 80045-6900.

(iii) Allowed time to file. The request shall be mailed within 60 days after the date of the notice of the initial determination or formal review determination being appealed.

(iv) Official filing date. A request for hearing shall be deemed filed on the date it is mailed and postmarked. If a request for hearing does not have a postmark, it shall be deemed filed on the day received by OCHAMPUS.

(2) Hearing process. A hearing is an administrative proceeding in which facts relevant to the appealable issue(s) in the case are presented and evaluated in relation to applicable law, regulation, policies, and guidelines in effect at the time the care in dispute was provided or requested; at the time of the initial determination, formal review determination, or hearing decision involving a provider request for approval under CHAMPUS as an authorized provider; or at the time of the act or event which is the basis for the imposition of sanctions under this part. A hearing, except for an appeal
involving a provider sanction, generally shall be conducted as a non-adversary, administrative proceeding. However, an authorized party to any hearing, including CHAMPUS, may submit additional evidence or testimony relevant to the appealable issue(s) and may appoint a representative, including legal counsel, to participate in the hearing process.

(3) Timeliness of hearing. (i) Except as otherwise provided in this section, within 60 days following receipt of a request for hearing, the Director, OCHAMPUS, or a designee, normally will appoint a hearing officer to hear the appeal. Copies of all records in the possession of OCHAMPUS that are pertinent to the matter to be heard or that formed the basis of the formal review determination shall be provided to the hearing officer and, upon request, to the appealing party.

(ii) The hearing officer, except as otherwise provided in this Section, normally shall have 60 days from the date of written notice of assignment to review the file, schedule and hold the hearing, and issue a recommended decision to the Director, OCHAMPUS, or designee.

(iii) The Director, OCHAMPUS, or designee, may delay the case assignment to the hearing officer if additional information is needed that cannot be obtained and included in the record within the time period specified above. The appealing party will be notified in writing of the delay resulting from the request for additional information. The Director, OCHAMPUS, or a designee, in such circumstances, will assign the case to a hearing officer within 30 days of receipt of all such additional information, or within 60 days of receipt of the request for hearing, whichever shall occur last.

(iv) The hearing officer may delay submitting the recommended decision if, at the close of the hearing, any party to the hearing requests that the record remain open for submission of additional information. In such circumstances, the hearing officer will have 30 days following receipt of all such additional information including comments from the other parties to the hearing concerning the additional information to submit the recommended decision to the Director, OCHAMPUS, or a designee.

(4) Representation at a hearing. Any party to the hearing may appoint a representative to act on behalf of the party at the hearing, unless such person currently is disqualified or suspended from acting in another Federal administrative proceeding, or unless otherwise prohibited by law, this part, or any other DoD regulation (see paragraph (a)(2)(ii) of this section). A hearing officer may refuse to allow any person to represent a party at the hearing when such person engages in unethical, disruptive, or contemptuous conduct, or intentionally fails to comply with proper instructions or requests of the hearing officer, or the provisions of this part. The representative shall have the same authority as the appealing party and notice given to the representative shall constitute notice required to be given to the appealing party.

(5) Consolidation of proceedings. The Director, OCHAMPUS, or a designee, may consolidate any number of proceedings for hearing when the facts and circumstances are similar and no substantial right of an appealing party will be prejudiced.

(6) Authority of the hearing officer. The hearing officer in exercising the authority to conduct a hearing under this part will be bound by 10 U.S.C. chapter 55 and this part. The hearing officer in addressing substantive, appealable issues shall be bound by policy manuals, instructions, procedures, and other guidelines issued by the ASD(HA), or a designee, or by the Director, OCHAMPUS, or a designee, in effect for the period in which the matter in dispute arose. A hearing officer may not establish or amend policy, procedures, instructions, or guidelines. However, the hearing officer may recommend reconsideration of the policy, procedures, instructions or guidelines by the ASD(HA), or a designee, when the final decision is issued in the case.

(7) Disqualification of hearing officer. A hearing officer voluntarily shall disqualify himself or herself and withdraw from any proceeding in which the hearing officer cannot give fair or impartial hearing, or in which there is a conflict of interest. A party to the hearing may
§ 199.10

request the disqualification of a hearing officer by filing a statement detailing the reasons the party believes that a fair and impartial hearing cannot be given or that a conflict of interest exists. Such request immediately shall be sent by the appealing party or the hearing officer to the Director, OCHAMPUS, or a designee, who shall investigate the allegations and advise the complaining party of the decision in writing. A copy of such decision also shall be mailed to all other parties to the hearing. If the Director, OCHAMPUS, or a designee, reassigns the case to another hearing officer, no investigation shall be required.

(8) Notice and scheduling of hearing.

The hearing officer shall issue by certified mail, when practicable, a written notice to the parties to the hearing of the time and place for the hearing. Such notice shall be mailed at least 15 days before the scheduled date of the hearing. The notice shall contain sufficient information about the hearing procedure, including the party’s right to representation, to allow for effective preparation. The notice also shall advise the appealing party of the right to request a copy of the record before the hearing. Additionally, the notice shall advise the appealing party of his or her responsibility to furnish the hearing officer, no later than 7 days before the scheduled date of the hearing, a list of all witnesses who will testify and a copy of all additional information to be presented at the hearing. The time and place of the hearing shall be determined by the hearing officer, who shall select a reasonable time and location mutually convenient to the appealing party and OCHAMPUS.

(9) Dismissal of request for hearing.

(i) By application of the parties to the hearing. A request for a hearing may be dismissed by the Director, OCHAMPUS, or a designee, at any time before the mailing of notice of the final decision under a stipulation agreement between the appealing party and OCHAMPUS. When dismissal is entered under a stipulation, the formal review decision shall be deemed final, unless the dismissal is vacated in accordance with paragraph (d)(9)(v) of this section.

(ii) By stipulation of the parties to the hearing. A request for a hearing may be dismissed by the Director, OCHAMPUS, or a designee, at any time before the mailing of notice of the final decision under a stipulation agreement between the appealing party and OCHAMPUS. When dismissal is entered under a stipulation, the formal review decision shall be deemed final, unless the dismissal is vacated in accordance with paragraph (d)(9)(v) of this section.

(iii) By abandonment. The Director, OCHAMPUS, or a designee, may dismiss a request for hearing upon abandonment by the appealing party.

(A) An appealing party shall be deemed to have abandoned a request for hearing, other than when personal appearance is waived in accordance with §199.10(d)(11)(xii), if neither the appealing party nor an appointed representative appears at the time and place fixed for the hearing and if, within 10 days after the mailing of a notice by certified mail to the appealing party by the hearing officer to show cause, such party does not show good and sufficient cause for such failure to appear and failure to notify the hearing officer before the time fixed for hearing that an appearance could not be made.

(B) An appealing party shall be deemed to have abandoned a request for hearing if, before assignment of the case to the hearing officer, OCHAMPUS is unable to locate either the appealing party or an appointed representative.

(C) An appealing party shall be deemed to have abandoned a request for hearing if the appealing party fails to prosecute the appeal. Failure to prosecute the appeal includes, but is not limited to, an appealing party’s failure to provide information reasonably requested by OCHAMPUS or the hearing officer for consideration in the appeal.

(D) If the Director, OCHAMPUS, or a designee, dismisses the request for hearing because of abandonment, the formal review determination in the case shall be deemed to be final, unless the dismissal is vacated in accordance with paragraph (d)(9)(v) of this section.
§ 199.10

(iv) For cause. The Director, OCHAMPUS, or a designee, may dismiss for cause a request for hearing either entirely or as to any stated issue. If the Director, OCHAMPUS, or a designee, dismisses a hearing request for cause, the formal review determination in the case shall be deemed to be final, unless the dismissal is vacated in accordance with paragraph (d)(9)(v) of this section. A dismissal for cause may be issued under any of the following circumstances:

(A) When the appealing party requesting the hearing is not a proper party under paragraph (a)(2)(i) of this section, or does not otherwise have a right to participate in a hearing.

(B) When the appealing party who filed the hearing request dies, and there is no information before the Director, OCHAMPUS, or a designee, showing that a party to the initial determination who is not an appealing party may be prejudiced by the formal review determination.

(C) When the issue is not appealable (see § 199.10(a)(6)).

(D) When the amount in dispute is less than $300 (see § 199.10(a)(7)).

(E) When all appealable issues have been resolved in favor of the appealing party.

(v) Vacation of dismissal. Dismissal of a request for hearing may be vacated by the Director, OCHAMPUS, or a designee, upon written request of the appealing party, if the request is received within 6 months of the date of the notice of dismissal mailed to the last known address of the party requesting the hearing.

(10) Preparation for hearing. (i) Prehearing statement of contentions. The hearing officer may on reasonable notice require a party to the hearing to submit a written statement of contentions and reasons. The written statement shall be provided to all parties to the hearing before the hearing takes place.

(ii) Discovery. Upon the written request of a party to the initial determination (including OCHAMPUS) and for good cause shown, the hearing officer will allow that party to inspect and copy all documents, unless privileged, relevant to issues in the proceeding that are in the possession or control of the other party participating in the appeal. The written request shall state clearly what information and documents are required for inspection and the relevance of the documents to the issues in the proceeding. Depositions, interrogatories, requests for admissions, and other forms of prehearing discovery are generally not authorized and the Department of Defense does not have subpoena authority for purposes of administrative hearings under this Section. If the hearing officer finds that good cause exists for taking a deposition or interrogatory, the expense shall be assessed to the requesting party, with copies furnished to the hearing officer and the other party or parties to the hearing.

(iii) Witnesses and evidence. All parties to a hearing are responsible for producing, at each party’s expense, meaning without reimbursement of payment by CHAMPUS, witnesses and other evidence in their own behalf, and for furnishing copies of any such documentary evidence to the hearing officer and other party or parties to the hearing. The Department of Defense is not authorized to subpoena witnesses or records. The hearing officer may issue invitations and requests to individuals to appear and testify without cost to the Government, so that the full facts in the case may be presented.

(11) Conduct of hearing. (i) Right to open hearing. Because of the personal nature of the matters to be considered, hearings normally shall be closed to the public. However, the appealing party may request an open hearing. If this occurs, the hearing shall be open except when protection of other legitimate Government purposes dictates closing certain portions of the hearing.

(ii) Right to examine parties to the hearing and their witnesses. Each party to the hearing shall have the right to produce and examine witnesses, to introduce exhibits, to question opposing witnesses on any matter relevant to the issue even though the matter was not covered in the direct examination, to impeach any witness regardless of which party to the hearing first called the witness to testify, and to rebut any evidence presented. Except for those witnesses employed by OCHAMPUS at the time of the hearing, or records in
§ 199.10

the possession of OCHAMPUS, a party to a hearing shall be responsible, that is to say no payment or reimbursement shall be made by CHAMPUS for the cost or fee associated with producing witnesses or other evidence in the party's own behalf, or for furnishing copies of documentary evidence to the hearing officer and other party or parties to the hearing.

(iii) Taking of evidence. The hearing officer shall control the taking of evidence in a manner best suited to ascertain the facts and safeguard the rights of the parties to the hearing. Before taking evidence, the hearing officer shall identify and state the issues in dispute on the record and the order in which evidence will be received.

(iv) Questioning and admission of evidence. A hearing officer may question any witness and shall admit any relevant evidence. Evidence that is irrelevant or unduly repetitious shall be excluded.

(v) Relevant evidence. Any relevant evidence shall be admitted, unless unduly repetitious, if it is the type of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule that might make improper the admission of such evidence over objection in civil or criminal actions.

(vi) CHAMPUS determinations first. The hearing officer shall control the taking of evidence in a manner best suited to ascertain the facts and safeguard the rights of the parties to the hearing. Before taking evidence, the hearing officer shall identify and state the issues in dispute on the record and the order in which evidence will be received.

(ix) Continuance of hearing. A hearing officer may continue a hearing to another time or place on his or her own motion or, upon showing of good cause, at the request of any party. Written notice of the time and place of the continued hearing, except as otherwise provided here, shall be in accordance with this part. When a continuance is ordered during a hearing, oral notice of the time and place of the continued hearing may be given to each party to the hearing who is present at the hearing.

(X) Continuance for additional evidence. If the hearing officer determines, after a hearing has begun, that additional evidence is necessary for the proper determination of the case, the following procedures may be invoked:

(A) Continue hearing. The hearing may be continued to a later date in accordance with §199.10(d)(11)(ix), above.

(B) Closed hearing. The hearing may be closed, but the record held open in order to permit the introduction of additional evidence. Any evidence submitted after the close of the hearing shall be made available to all parties to the hearing, and all parties to the hearing shall have the opportunity for comment. The hearing officer may reopen the hearing if any portion of the additional evidence makes further hearing desirable. Notice thereof shall be given in accordance with paragraph (d)(8) of this section.

(xi) Transcript of hearing. A verbatim taped record of the hearing shall be made and shall become a permanent part of the record. Upon request, the appealing party shall be furnished a duplicate copy of the tape. A typed transcript of the testimony will be made only when determined to be necessary by OCHAMPUS. If a typed transcript is made, the appealing party shall be furnished a copy without charge. Corrections shall be allowed in the typed transcript by the hearing officer solely for the purpose of conforming the transcript to the actual testimony.

(xii) Waiver of right to appear and present evidence. If all parties waive their right to appear before the hearing officer for presenting evidence and contentions personally or by representation, it will not be necessary for the hearing officer to give notice of, or to
conduct a formal hearing. A waiver of the right to appear must be in writing and filed with the hearing officer or the Chief, Appeals and Hearings, OCHAMPUS. Such waiver may be withdrawn by the party by written notice received by the hearing officer or Chief, Appeals and Hearings, no later than 7 days before the scheduled hearing or the mailing of notice of the final decision, whichever occurs first. For purposes of this Section, failure of a party to appear personally or by representation after filing written notice of waiver, will not be cause for finding of abandonment and the hearing officer shall make the recommended decision on the basis of all evidence of record.

(12) Recommended decision. At the conclusion of the hearing and after the record has been closed, the matter shall be taken under consideration by the hearing officer. Within the time frames previously set forth in this Section, the hearing officer shall submit to the Director, OCHAMPUS, or a designee, a written recommended decision containing a statement of findings and a statement of reasons based on the evidence adduced at the hearing and otherwise included in the hearing record.

(i) Statement of findings. A statement of findings is a clear and concise statement of fact evidenced in the record or conclusions that readily can be deduced from the evidence of record. Each finding must be supported by substantial evidence that is defined as such evidence as a reasonable mind can accept as adequate to support a conclusion.

(ii) Statement of reasons. A reason is a clear and concise statement of law, regulation, policy, or guidelines relating to the statement of findings that provides the basis for the recommended decision.

(e) Final decision. (1) Director, OCHAMPUS. The recommended decision shall be reviewed by the Director, OCHAMPUS, or a designee, who shall adopt or reject the recommended decision or refer the recommended decision for review by the Assistant Secretary of Defense (Health Affairs). The Director, OCHAMPUS, or designee, normally will take action with regard to the recommended decision within 90 days of receipt of the recommended decision or receipt of the revised recommended decision following a remand order to the Hearing Officer.

(i) Final action. If the Director, OCHAMPUS, or a designee, concurs in the recommended decision, no further agency action is required and the recommended decision, as adopted by the Director, OCHAMPUS, is the final agency decision in the appeal. In the case of rejection, the Director, OCHAMPUS, or a designee, shall state the reason for disagreement with the recommended decision and the underlying facts supporting such disagreement. In these circumstances, the Director, OCHAMPUS, or a designee, may have a final decision prepared based on the record, or may remand the matter to the Hearing Officer for appropriate action. In the latter instance, the Hearing Officer shall take appropriate action and submit a new recommended decision within 60 days of receipt of the remand order. The decision by the Director, OCHAMPUS, or a designee, concerning a case arising under the procedures of this section, shall be the final agency decision and the final decision shall be sent by certified mail to the appealing party or parties. A final agency decision under paragraph (e)(1) of this section will not be relied on, used, or cited as precedent by the Department of Defense in the administration of CHAMPUS.

(ii) Referral for review by ASD(HA). The Director, OCHAMPUS, or a designee, may refer a hearing case to the Assistant Secretary of Defense (Health Affairs) when the hearing involves the resolution of CHAMPUS policy and issuance of a final decision which may be relied on, used, or cited as precedent in the administration of CHAMPUS. In such a circumstance, the Director, OCHAMPUS, or a designee, shall forward the recommended decision, together with the recommendation of the Director, OCHAMPUS, or a designee, regarding disposition of the hearing case.

(2) ASD(HA). The ASD(HA), or a designee, after reviewing a case arising under the procedures of this section may issue a final decision based on the record in the hearing case or remand the case to the Director, OCHAMPUS.
or a designee, for appropriate action. A decision issued by the ASD(HA), or a designee, shall be the final agency decision in the appeal and a copy of the final decision shall be sent by certified mail to the appealing party or parties. A final decision of the ASD(HA), or a designee, issued under this paragraph (e)(2) may be relied on, used, or cited as precedent in the administration of CHAMPUS.

§ 199.11 Overpayments recovery.

(a) General. Actions to recover overpayments arise when the government has a right to recover money or property from an individual, partnership, association, corporation, governmental body or other legal entity, foreign or domestic, except an instrumentality of the United States because of an erroneous payment of benefits under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS). A claim against several joint debtors arising from a single incident or transaction is considered to be one claim. It is the purpose of this Section to prescribe procedures for investigation, determination, assertion, collection, compromise, waiver and termination of claims in favor of the United States for erroneous benefits payments arising out of administration of CHAMPUS.

(b) Authority. (1) Federal statutory authority. The Federal Claims Collection Act provides the basic authority under which claims may be asserted pursuant to this section. It is implemented by joint regulations issued by the Department of Justice and the General Accounting Office, 4 CFR parts 101–105. Thereunder, the heads of federal agencies or their designees are required to attempt collection of all claims of the United States for money or property arising out of the activities of their respective agencies. These officials may, with respect to claims that do not exceed $20,000, exclusive of interest, and in conformity with the standards promulgated in the joint regulations, compromise, suspend, or terminate collection action on such claims. Section 743 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106) authorizes the waiver (see paragraph (g)(3) of this section) of collection of overpayments otherwise due from a person after the termination of the person’s CHAMPUS eligibility, because the person became eligible for Medicare Part A by reason of disability or end-stage renal disease.

(2) Other authority. Occasionally, federal claims may arise which are grounded, at least in part, in authority other than the federal statute referenced above. These include, but are not limited to, claims arising under:

(i) State worker’s compensation laws.

(ii) State hospital lien laws.

(iii) State no-fault automobile statutes.

(iv) Contract rights under terms of insurance policies.

(c) Policy. The governmental policy of avoiding unnecessary litigation in the collection of claims by the United States for money or property necessitates aggressive agency collection action. The Director, OCHAMPUS, or a designee, will insure that CHAMPUS claims asserting personnel are adequately supported to take timely and effective action. Claims arising out of any incident which has or probably will generate a claim in favor of the government will not be compromised nor will collection action be terminated by any person not authorized to take final action on the government’s claim. By the Act of July 18, 1966 (28 U.S.C. 2415–2418), Congress established a statute of limitation applicable to the government in areas where previously neither limitations nor laches were available as a defense. Claims falling within the provisions of this statute will be processed expeditiously to the Department of Justice or the General Accounting Office, as appropriate, without attempting administrative collection action if such action cannot be accomplished in sufficient time to preclude the running of the statute of limitations.

(d) Appealability. This section describes the procedures to be followed in the recovery and collection of federal claims in favor of the United States arising from the operation of the CHAMPUS. Actions taken under this section are not initial determinations
for the purpose of the appeal procedures of §199.10 of this part. However, the proper exercise of the right to appeal benefit or provider status determinations under the procedures set forth in §199.10 may affect the processing of federal claims arising under this section. Those appeal procedures afford a CHAMPUS beneficiary or participating provider an opportunity for administrative appellate review in cases in which benefits have been denied and in which there is a significant factual dispute. For example, a fiscal intermediary may erroneously make payment for services which are excluded as CHAMPUS benefits because they are determined to be not medically necessary. In that event recoupment action will be initiated by the fiscal intermediary at the same time the fiscal intermediary will offer an administrative appeal as provided in §199.10 of this part on the medical necessity issue raised by the adverse benefit determination. The recoupment action and the administrative appeal are separate actions. However, in an appropriate case, the pendency of the appeal may provide a basis for the suspension of collection in the recoupment. Obviously, if the appeal is resolved entirely in favor of the appealing party, that would provide a basis for the termination of collection action in the recoupment case.

(e) Delegation. Subject to the limitations imposed by law or contained in this section, the authority to assert, settle, compromise or to suspend or terminate collection action on claims arising under the Federal Claims Collection Act has been delegated to the Director, OCHAMPUS, or a designee.

(f) Recoupment of erroneous payments.

(1) Erroneous payments. Erroneous payments are expenditures of government funds which are not authorized by law or this part. Examples which are sometimes encountered in the administration of the CHAMPUS include mathematical errors, payment for care provided to an ineligible person, payment for care which is not an authorized benefit, payment for duplicate claims, inaccurate application of the deductible or co-payment, or payment for services which were not medically necessary. Claims in favor of the govern-
§ 199.11 into a repayment agreement, the debtor or fails to satisfy any obligations under that agreement.

(3) Other health insurance claims. Claims arising from erroneous CHAMPUS payments in situations where the beneficiary has entitlement to insurance, medical service, health and medical plan, or other government program, except in the case of a plan administered under Title XIX of the Social Security Act (42 U.S.C. 1396 et seq.), through employment, by law, through membership in an organization, or as a student, or through the purchase of a private insurance or health plan, shall be recouped under one of the following procedures:

(i) Where the other health insurance plan has not already made benefit payments to the beneficiary or provider, a claim for direct reimbursement will be asserted against the plan, pursuant to the fiscal intermediary's coordination of benefit procedures.

(ii) If the other health insurance plan has made its benefit payment prior to receiving the CHAMPUS request for reimbursement, the recoupment procedures set forth in paragraph (f) of this section will be followed.

(4) Claims denials due to clarification or change. In those instances where claim review results in the denial of benefits previously provided but now denied due to a change, clarification or interpretation of the public law or this part, no recoupment action need be taken to recover funds expended prior to the effective date of such change, clarification, or interpretation.

(5) Good faith payment. (i) The Department of Defense, through the Defense Enrollment Eligibility Reporting System (DEERS), is responsible for establishing and maintaining a file listing persons eligible to receive benefits under CHAMPUS. However, it is the responsibility of the Uniformed Services to provide eligible CHAMPUS beneficiaries with accurate and appropriate means of identification. When sources of civilian medical care exercise reasonable care and precaution in identifying persons claiming to be eligible CHAMPUS beneficiaries and furnish otherwise covered services and supplies to such persons in good faith, CHAMPUS benefits may be paid subject to prior approval by the Director, OCHAMPUS, or a designee, notwithstanding the fact that the person receiving the services and supplies is subsequently determined to be ineligible for benefits. Good faith payments will not be authorized for services and supplies provided by a civilian source of medical care as the result of its own careless identification procedures.

(ii) When it is determined that a person was not a CHAMPUS beneficiary, the CHAMPUS fiscal intermediary and the civilian source of medical care are expected to make all reasonable efforts to obtain payment or recoup the amount of the good faith payment from the person who erroneously claimed to be a CHAMPUS beneficiary. Recoupments of good faith payments initiated by the CHAMPUS fiscal intermediary will be processed pursuant to the provisions of paragraph (f) of this section.

(6) Recoupment procedures. (i) Initial action. When an erroneous payment is discovered, the CHAMPUS fiscal intermediary normally will be required to take the initial action to effect recoupment. Such action will be in accordance with the provisions of this part and the fiscal intermediary's CHAMPUS contract and will include demands for refund or an offset against any other CHAMPUS payment becoming due the debtor. When the efforts of the CHAMPUS fiscal intermediary to effect recoupment are not successful within a reasonable time, recoupment cases will be referred to the General Counsel, OCHAMPUS, for further action in accordance with the provisions of paragraph (f) of this section. All requests to debtors for refund or notices of intent to offset shall be in writing.

(ii) Demand for payment. The CHAMPUS fiscal intermediary and OCHAMPUS normally shall make a total of at least three progressively stronger written demands upon the debtor in terms which inform the debtor of the consequences of his or her failure to cooperate. The initial written demand shall inform the debtor of the basis for and the amount of the indebtedness. The initial written demand shall also inform the debtor of the following: The debtor's right to inspect and copy all records pertaining to the
Office of the Secretary of Defense § 199.11

debt; his or her right to request an administrative review by the fiscal intermediary; that interest on the debt at the current rate as determined by the Director, OCHAMPUS, or a designee, will begin to accrue on the date of the initial demand notification; that such interest shall be waived on the debt, or any portion thereof, which is paid within 30 days of the date of the initial demand notification; that payment of the indebtedness is due within 30 days of the date of the initial demand notification; and that administrative costs and penalties will be charged pursuant to 4 CFR 102.13. The debtor also shall be informed that collection by offset against current or subsequent claims may be taken. All debtors will be offered an opportunity to enter into a written agreement to repay the indebtedness. The fiscal intermediary demand letters must be dated the same day as they are mailed. Two written demands, at 30-day intervals, normally will be made by the CHAMPUS fiscal intermediary unless a response to the first demand indicates that further demand would be futile or unless prompt suit or attachment is required in anticipation of the departure of the debtor, or of his removal or transfer of assets, or the running of the statute of limitations. There should be no undue time lag in responding to any communication received from the debtor. Responses should be made within 30 days whenever feasible. If these initial efforts at collection are not productive or if immediate legal action on the claim appears necessary, the claim either will be referred promptly by the CHAMPUS fiscal intermediary to the General Counsel, OCHAMPUS, or the CHAMPUS fiscal intermediary will prepare a final notice informing the debtor that the debt is to be offset in whole or in part. When a case is referred to OCHAMPUS, the Office of General Counsel will normally prepare a third written demand unless from the record such demand appears futile or otherwise inappropriate.

(iii) Collection by administrative offset. Collections by offset will be undertaken administratively on claims which are liquidated or certain in amount in every instance in which this is feasible. No collection by offset may be undertaken unless a demand for payment containing all of the procedural safeguards described in paragraph (f)(6)(ii) of this section, has been sent to the debtor. The determinations of indebtedness made for recoupment of erroneous CHAMPUS payments rarely involve issues of credibility of veracity. Erroneous CHAMPUS payments most frequently arise from claims submitted by individuals ineligible for CHAMPUS benefits; from claims submitted for services or supplies not covered by CHAMPUS; from claims in which there have been other insurance payments which reduce the CHAMPUS liability and from claims from participating providers in which payment is initially erroneously made to the beneficiary. While these recoupment claims normally involve the resolution of factual questions, these resolution nearly always require only reference to the documentary evidence compiled in the investigation and processing of the claim. The appeals system described in §199.10 of this part affords a CHAMPUS beneficiary or participating provider an opportunity for an administrative appellate review, including, under certain circumstances, the right to oral hearing before a hearing officer. Further, there is no statutory provision for the waiver of indebtedness arising from erroneous CHAMPUS payments, other than the provisions of the Federal Claims Collection Act which allow for the compromise of claims or the termination of collection action under certain circumstances specified in paragraph (g) of this section. Consequently, the pre-offset oral hearing requirements of the Federal Claims Collection Standards (4 CFR 102.3) do not apply to the recoupment of erroneous CHAMPUS payments. CHAMPUS fiscal intermediaries may take administrative action to offset erroneous payments against other current CHAMPUS payments owing a debtor. Payments on the claims of a debtor pending at or filed subsequent to the time collection action is initiated should be suspended pending the outcome of the collection action so that these funds will be available for offset. All or any part of a debt may be offset depending upon the amount available for offset. Only the case in which no
possibility of offset arises within 60 days of the initiation of collection action and on which other collection efforts have been unsuccessful or in which the debtor seeks relief from the indebtedness will be referred to the General Counsel, OCHAMPUS, by the CHAMPUS fiscal intermediary. Offset, under the provisions of 31 U.S.C. 3716, is not to be used with respect to debts owed by any state or local government. Any requests for offset that are received from other agencies shall be forwarded to the General Counsel, OCHAMPUS, for processing, as will orders for garnishment issued by courts of competent jurisdiction.

(iv) Collection of installments. CHAMPUS recoupment claims should be collected in one lump sum whenever possible. However, if the debtor is financially unable to pay the debt in one lump sum, payment may be accepted in regular installments by the CHAMPUS fiscal intermediary or the General Counsel, OCHAMPUS. Installment payments normally will be required on at least a monthly basis and their size will bear a reasonable relation to the size of the debt and the debtor’s ability to pay. A CHAMPUS fiscal intermediary should not enter into installment agreements which extend beyond 24 months. OCHAMPUS installment agreements normally should liquidate the government’s claim within 3 years. Installment payments of less than $50 per month normally will be accepted only if justifiable on grounds of financial hardship or some other reasonable cause. Any installment agreement with a debtor in which the total amount of the deferred installments will exceed $750 should normally include an executed promissory note.

(v) Interest, penalties, and administrative costs. Interest shall be charged on CHAMPUS recoupment debts and debts collected in installments in accordance with 4 CFR 102.13 and instructions issued by the Director, OCHAMPUS, or a designee. Interest shall accrue from the date on which the initial demand is mailed to the debtor. The rate of interest, as initially assessed shall remain fixed for the duration of the indebtedness, except that where the debtor has defaulted on a repayment agreement and seeks to enter into a new agreement, a new interest rate may be set which reflects the current value of funds to the Treasury at the time the new agreement is executed. The collection of interest on the debt or any portion of the debt, which is paid within 30 days after the date on which interest began to accrue, shall be waived. The agency may extend this 30-day period, on a case-by-case basis, if it reasonably determines that such action is appropriate. Also, the collection of interest, penalties, and administrative costs may be waived in whole or in part as a part of the compromise of a debt as provided in paragraph (g) of this section. In addition, the Director, OCHAMPUS, or a designee, may waive in whole or in part, the collection of interest, penalties, or administrative costs assessed herein, if he or she determines that collection of these charges would be against equity and good conscience or not in the best interests of the United States. Some situations in which such a waiver may be appropriate include:

(A) Waiver of interest consistent with 4 CFR 104.2(c)(2) in connection with a suspension of collection action pending a CHAMPUS appeal under §199.10 of this part where there is a substantial issue of fact in dispute.

(B) Waiver of interest where the original debt arose through no fault or lack of good faith on the part of the debtor and the collection of interest would impose a financial hardship or burden on the debtor. Some examples in which such a waiver may be appropriate include: a debt arising when a CHAMPUS beneficiary, who is unaware of the loss of eligibility for CHAMPUS because he or she has become eligible for Medicare, continues to file and be paid for CHAMPUS claims, resulting in erroneous CHAMPUS payments; a debt arising when a CHAMPUS beneficiary in good faith files and is paid a CHAMPUS claim for medical services or supplies which are later determined not to be benefits of CHAMPUS; and a debt arising when a CHAMPUS beneficiary is overpaid as the result of a
calculation error on the part of a fiscal intermediary or OCHAMPUS.

(C) Waiver of interest where there has been an agreement to repay a debt in installments, there is no indication of fault or lack of good faith on the part of the debtor, and the amount of interest is so large in relation to the size of the installments that the debtor can reasonably afford to pay, that it is likely the debt will never be repaid in full.

When a debt is paid in installments, the installment payments first will be applied to the payment of outstanding penalty and administrative cost charges, second to accrued interest and then to principal. Administrative costs incurred as the result of a debt becoming delinquent (as defined in paragraph (f)(2)(iii) of this section) shall be assessed against a debtor. These administrative costs represent the additional costs incurred in processing and handling the debt because it became delinquent. The calculation of administrative costs should be based upon cost analysis establishing an average of actual additional costs incurred in processing and handling claims against other debtors in similar stages of delinquency. A penalty charge, not exceeding six percent a year shall be assessed on any portion of a debt that is delinquent for more than 90 days. This charge, which need not be calculated until the 91st day of delinquency, shall accrue from the date that the debt became delinquent.

(vi) Referral to other federal agencies for administrative offset. As appropriate and in accordance with 4 CFR part 1023, agencies will be requested to initiate administrative offset to collect CHAMPUS debts. When a debtor is employed by the U.S. Government, or is a member or retired member of the Uniformed Service, and collection by offset against other CHAMPUS payments due the debtor cannot be accomplished, and there have been no positive responses to a demand for payment within 60 days, the Director, OCHAMPUS, or a designee, may contact the agency holding funds payable to the debtor for payment by allotment or otherwise by salary offset from current disposable pay in accordance with 37 U.S.C. 1007 or 5 U.S.C. 5514 as implemented by 32 CFR part 90 and 5 CFR part 550. Where applicable, the request for recovery of erroneous CHAMPUS payments shall be submitted to the debtor’s paying agency in accordance with 5 CFR 550.1106. Before contacting the paying agency, the Director, OCHAMPUS, or a designee, will provide the debtor written notification of the agency’s intent to collect the debt by means of salary offset, authorized by 5 U.S.C. 5514. The notification will include, as a minimum:

(A) The agency’s determination that a debt is owed, including the origin, nature, and the amount of the debt;

(B) The date by which payment is to be made, which will normally be 30 days from the date the demand letter is mailed;

(C) The amount, frequency, proposed beginning date and duration of the intended deductions, which will be determined in accordance with the provisions of 5 CFR 550.1104 or 32 CFR part 90, as appropriate. Ordinarily, the size of installment deductions must bear a reasonable relationship to the size of the debt and the employee’s ability to pay (4 CFR 102.11). However, the amount deducted for any period must not exceed 15 percent of the disposable pay from which the deduction is made unless the debtor has agreed in writing to the deduction of a greater amount. Debts must be collected in one lump-sum whenever possible. However, if the employee is financially unable to pay in one lump-sum, or the amount of the debt exceeds 15 percent of current disposable pay for an officially established pay interval, collection must be made in installments. Such installment deductions must be made to effect collection within the period of anticipated active duty or employment. If the debtor retires or resigns or if his or her employment or period of active duty ends before collection of the debt is completed, offset from subsequent payments of any kind due the employee from the paying agency as of the date of separation shall be made to the extent necessary to liquidate the debt pursuant to 31 U.S.C. 3716 as implemented by 5 CFR part 550 and 32 CFR part 90. If possible, the installment payments should be sufficient in size and frequency to liquidate the government’s claim in not more than 3
§ 199.11

years. Installment payments of less than $50 per month should be accepted only with reasonable justification. An employee’s involuntary payment of all or any portion of a debt being collected under 5 U.S.C. 5514 will not be construed as a waiver of any rights the debtor may have under that statute or any other provisions of contract or law, unless there are statutory or contractual provisions to the contrary.

(D) An explanation of interest, penalties, and administrative costs, including a statement that such assessments must be made unless excused in accordance with the Federal Claims Collection Standards;

(E) Advice that the debtor may inspect and copy government records relating to the debt or, if debtor or his or her representative cannot personally inspect the records, to request and receive a copy of such records. Requests for copies of the records relating to the debt shall be made no later than 10 days from the receipt by the debtor of the notice of indebtedness.

(F) An opportunity for a review by the agency of its determination regarding the existence or the amount of the debt, or when a repayment schedule is established other than by written agreement, concerning the terms of the repayment schedule. The debtor shall be advised that a challenge to either the existence of the debt, the amount of the debt, or the repayment schedule, must be made within 30 days of the receipt by the debtor of the notice of indebtedness or within 45 days after receipt of the records relating to the debt, if such records are requested by the debtor. A request for waiver or reconsideration should be accompanied by supporting documents indicating why the debtor believes he is not so indebted, or by a financial affidavit supporting his request for an alternative repayment schedule;

(G) Notice that the timely filing of a petition for review will stay the commencement of collection proceedings;

(H) Notice that a final decision on the review (if one is requested) will be issued at the earliest practical date, but not later than 60 days after the filing of the petition requesting the review unless the employee requests, and the agency grants, a delay in the proceedings;

(I) The opportunity, if it has not been previously provided, to enter into a written agreement to establish a schedule for repayment of the debt in lieu of offset. The agreement will be signed by both the debtor and the agency’s representative and will be kept in the agency’s files;

(J) Notice that any knowingly false or frivolous statements, representations, or evidence may subject the debtor to:

(1) Disciplinary procedures appropriate under chapter 75 of Title 5 U.S. Code, 5 CFR part 752, or any other applicable statutes or regulations;

(2) Penalties under the False Claims Act, 31 U.S.C. 3729-3731, or any other applicable authority, or

(3) Criminal penalties under 18 U.S.C. 286, 287, 1001 and 1002, or any other applicable authority;

(K) Where applicable, notice of the debtor’s right to appeal, under §199.10 of this part;

(L) That amounts paid on or deducted for the debt which are later waived or found not owed to the United States will promptly be refunded to the debtor. Refunds do not bear interest unless required or permitted by law or contract;

(M) The specific address to which all correspondence regarding the debt shall be directed. Unless otherwise prohibited by law, moneys which are due and payable to a debtor from the Civil Service Retirement and Disability Fund may be administratively offset in reasonable amounts in order to collect in one full payment or a minimal number of payments debts owed to the United States by the debtor. The General Counsel, OCHAMPUS, may forward requests for offset of debts arising from the operation of CHAMPUS to the appropriate officials of the Office of Personnel Management. These requests shall comply with the provisions of 4 CFR 102.4 and 5 CFR part 550.

(vii) Referral to debt collection agencies. Pursuant to the provisions of the Federal Claims Collection Standards (4 CFR 102.6), the Director, OCHAMPUS, or a designee, is authorized to enter into contracts for collection services,
including contracts with private collection agencies for the purpose of supplementing and strengthening the collection efforts of the Department of Defense in recouping erroneous CHAMPUS payments. Such contracts will supplement but not replace the basic collection program described herein. The authority to resolve disputes, compromise claims, terminate collection action and initiate legal action may not be delegated in such contracts but will be retained by the Director, OCHAMPUS, or a designee. Individuals or firms that enter into contracts for collection services pursuant to this paragraph are subject to the Privacy Act of 1974, as amended, 5 U.S.C. 552a, federal and state laws and regulations pertaining to debt collection practices, including the Fair Debt Collection Practices Act, 15 U.S.C. 1692. Debt collection contractors shall be required to account strictly for all amounts collected and must agree to provide any data contained in their files relating to 4 CFR 105.2(a) (1), (2) and (3). Contracts for commercial collection services must comply with 32 CFR part 90.

(viii) Referrals to consumer reporting agencies. The Director, OCHAMPUS, or a designee, is authorized to provide for the reporting of delinquent debts to consumer reporting agencies. Delinquent debts are those which are not paid or for which satisfactory payment arrangements are not made by the due date specified in the initial notification of indebtedness, or those for which the debtor has entered into a written payment agreement and installment payments are past due 30 days or longer. These referrals may be made only after publication of a “routine use” for the disclosures involved as required by the Privacy Act of 1974, as amended, 5 U.S.C. 552a. Procedures developed for such referrals must also insure that an accounting of the disclosures is kept which is available to the debtor; that the consumer reporting agencies are provided with corrections and annotations of disagreements by the debtor; and that reasonable efforts are made to assure that the information to be reported is accurate, complete, timely and relevant. When requested by a consumer reporting agency, verification of information disclosed will promptly be provided. Once a claim has been reviewed and determined to be valid, a complete explanation of the claim will be given the debtor. When the claim is overdue, the individual will be notified in writing that payment is overdue; that within 60 days, disclosure of the claim shall be made to a consumer reporting agency unless satisfactory payment arrangements are made or unless the debtor requests an administrative review and demonstrates some basis on which the debt is legitimately disputed; and of the specific information to be disclosed to the consumer reporting agency. The information to be disclosed to the consumer reporting agency will be limited to information necessary to establish the identity of the debtor, including name, address and taxpayer identification number; the amount, status and history of the claim; and the agency or program under which the claim arose. Reasonable action will be taken to locate an individual for whom a current address is not available.

(ix) Use and disclosure of mailing addresses. In attempting to locate a debtor or in the collection of a debt under this section, the Director, OCHAMPUS, or a designee, may send a written request to the Secretary of the Treasury, or a designee, for current address information from records of the Internal Revenue Service. These requests will comply with the provisions of 26 U.S.C. 6103(p)(4) and applicable regulations of the Internal Revenue Service. Disclosure of a mailing address so obtained may be made pursuant to 4 CFR 102.18(b) and 31 U.S.C. 3711.

(g) Compromise, waiver, suspension or termination of collection actions arising under the Federal Claims Collection Act. (1) Basic considerations. Federal claims against the debtor and in favor of the United States arising out of the administration of the CHAMPUS may be compromised or collection action taken thereon may be suspended or terminated in compliance with the Federal Claims Collection Act, 31 U.S.C. 3711(a)(2) as implemented by the Federal Claims Collection Standards, 4 CFR parts 101 through 105.
§ 199.11

(2) Authority. CHAMPUS fiscal intermediaries are not authorized to compromise or to suspend or terminate collection action on federal CHAMPUS claims. Only the Director, OCHAMPUS, or a designee, and Uniformed Service claims officers acting under the provisions of their own regulations, are so authorized.

(3) Waiver of collection of erroneous payments due from certain persons unaware of loss of CHAMPUS eligibility.

(i) The Director, OCHAMPUS may waive collection of payments otherwise due from certain persons as a result of health benefits received under this part after the termination of the person’s eligibility for such benefits. Waiver may be granted if collection of such payments would be against equity and good conscience and not in the best interest of the United States. These criteria are met by a finding that there is no indication of fraud, misrepresentation, fault, or lack of good faith on the part of the person who received the erroneous payment or any other person having an interest in obtaining such waiver.

(ii) Persons eligible for waiver. The following persons are eligible for waiver:

(A) A person who:

(1) Is entitled to Medicare Part A by reason of disability or end stage renal disease;

(2) In the absence of such entitlement, would have been eligible for CHAMPUS under 10 U.S.C. 1086; and

(3) At the time of the receipt of such benefits, was under age 65.

(B) Any participating provider of care who received direct payment for care provided to a person described in paragraph (g)(ii)(A) of this section pursuant to an assignment of benefits from such person.

(iii) The authority to waive collection of payments under this section shall apply with regard to health benefits provided during the period beginning January 1, 1967, and ending on the later of: the termination date of any special enrollment period for Medicare Part B provided specifically for such persons; or July 1, 1996.

(4) Basis for compromise. A claim may be compromised hereunder if the government cannot collect the full amount if:

(i) The debtor or the estate of a debtor does not have the present or prospective ability to pay the full amount within a reasonable time;

(ii) The debtor refuses to pay the claim in full and the government is unable to enforce collection of the full amount within a reasonable time by enforced collection proceedings;

(iii) There is real doubt concerning the government’s ability to prove its case in court for the full amount claimed either because of the legal issues involved or a bona fide dispute as to the facts; or

(iv) The cost of collecting the claim does not justify enforced collection of the full amount.

(5) Basis for suspension. Collection action may be suspended for either of the following reasons if future collection action may be sufficiently productive to justify periodic review and action on the claim giving consideration to its size and the amount which may be realized thereon:

(i) The debtor cannot be located; or

(ii) The debtor is unable to make payments on the government’s claim or effect a compromise at the time, but the debtor’s future prospects justify retention of the claim for periodic review and action and:

(A) The applicable statute of limitations has been tolled or started running anew; or

(B) Future collection action can be effected by offset, notwithstanding the statute of limitations with due regard to the 10-year limitation prescribed by 31 U.S.C. 3716(c)(1); or

(C) The debtor agrees to pay interest on the amount of the debt on which collection action will be temporarily suspended, and such temporary suspension is likely to enhance the debtor’s ability to fully pay the principal amount of the debt with interest at a later date.

(iii) Consideration may be given by the Director, OCHAMPUS, or a designee, to suspend collection action pending action on a request for a review of the government’s claim against the debtor or pending an administrative review under §199.10 of this part of any CHAMPUS claim or claims directly involved in the government’s claim against the debtor. Suspension
under this paragraph will be based upon appropriate consideration, on a case-by-case basis as to whether:

(A) There is a reasonable possibility that the debt (in whole or in part) will be found not owing from the debtor;

(B) The Government’s interest would be protected if suspension were granted by reasonable assurance that the debt would be recovered if the debtor does not prevail; and

(C) Collection of the debt will cause undue hardship.

(6) Basis for termination. Collection action may be terminated for one or more of the following reasons:

(i) The United States cannot collect or enforce collection of any significant sum from the debtor having due regard to the judicial remedies available to the government, the debtor’s future financial prospects and the exemptions available to the debtor under state and federal law;

(ii) The debtor cannot be located, and either:

(A) There is no security remaining to be liquidated, or

(B) The applicable statute of limitations has run and the prospects of collecting by offset, notwithstanding the bar of the statute of limitations, are too remote to justify retention of the claim;

(iii) The cost of further collection action is likely to exceed any recovery;

(iv) It is determined that the claim is legally without merit; or

(v) Evidence necessary to prove the claim cannot be produced or the necessary witnesses are unavailable and efforts to induce voluntary payment are unavailing.

(7) Factors considered. In determining whether a claim will be compromised, or collection action terminated or suspended, the responsible CHAMPUS collection authority will consider the following factors:

(i) Age and health of the debtor, present and potential income, inheritance prospects, possible concealment or improper transfer of assets and the availability of assets or income which may be realized upon by enforced collection proceedings;

(ii) Applicability of exemptions available to a debtor under state or federal law;

(iii) Uncertainty as to the price which collateral or other property may bring at forced sale; or

(iv) The probability of proving the claim in court, the probability of full or partial recovery, the availability of necessary evidence and related pragmatic considerations.

(8) Amount of compromise. The amount acceptable in compromise will be reasonable in relation to the amount that can be recovered by enforced collection proceedings. Consideration shall be given to the following:

(i) The exemptions available to the debtor under state and federal law;

(ii) The time necessary to collect the debt;

(iii) The administrative and litigative costs of collection where the cost of collecting the claim is a basis for compromise.

(9) Payment of compromised claims. (i) Time and manner. Compromised claims are to be paid in one lump sum if possible. However, if payment of a compromise is necessary, a legally enforceable compromise agreement must be obtained. Payment of the amount that CHAMPUS has agreed to accept as a compromise in full settlement of a CHAMPUS claim must be made within the time and in the manner prescribed in the compromise agreement. Any such compromised claim is not settled until the full payment of the compromised amount has been made within the time and the manner prescribed. Compromise agreements must provide for the reinstatement of the prior indebtedness, less sums paid thereon, and acceleration of the balance due upon default in the payment of any installment.

(ii) Failure to pay the compromised amount. Failure of any debtor to make payment as provided in the compromise agreement will have the effect of reinstating the full amount of the original claim, less any amounts paid prior to the default.

(10) Effect of compromise, waiver, suspension or termination of collection action. Pursuant to the Internal Revenue Code, 26 U.S.C. 6041, compromises and terminations of undisputed debts not discharged in a Title 11 bankruptcy
§ 199.11 Case and totaling $600 or more for the year will be reported to the Internal Revenue Service in the manner prescribed for inclusion in the debtor’s gross income for that year. Any action taken under paragraph (g) of this section regarding the compromise of a federal claim, or waiver or suspension or termination of collection action on a federal claim is not an initial determination for purposes of the appeal procedures §199.10.

(h) Referrals for collection. (1) Prompt referral. Federal claims of $600 or more on which collection action has been taken in accordance with the provisions of this section and which cannot be collected or compromised or on which collection action cannot be suspended or terminated, as provided hereinafter, will be promptly referred by the Director, OCHAMPUS, or a designee, to the Department of Justice for litigation in accordance with 4 CFR part 105. Such referrals will be made as early as possible consistent with aggressive collection action by CHAMPUS fiscal intermediaries and OCHAMPUS and well within the period for bringing a timely suit against the debtor. Ordinarily referrals will be made within one year of the OCHAMPUS final determination of the fact and the amount of the debt.

(2) Report of prior collection actions. The Director, OCHAMPUS, or a designee, will prepare a Claims Collection Litigation Report (CCLR) for each case referred for collection under the provisions of this section. The CCLR shall also be used when a claim is referred to the Department of Justice in order to obtain approval of that Department with respect to compromise, suspension, or termination when such approval is required by 4 CFR 103.1(b) and 104.1(b). The CCLR will include, as a minimum, the following:

(i) A checklist or brief summary of the actions previously taken to collect or compromise the claim. If any of the required administrative collection actions have been omitted, the reason for its omission must be provided.

(ii) The current address or the debtor, or the same and address of the agent for a corporation upon whom service may be made. Reasonable and appropriate steps will be taken to locate missing parties in all cases. Referrals to the Department of Justice for the institution of foreclosure or other proceedings, in which the current address of any party is unknown, will be accompanied by a listing of the prior known addresses of such party and a statement of the steps taken to locate that party.

(iii) Reasonably current credit data indicating that there is a reasonable prospect of effecting enforced collection from the debtor, having due regard for the exemptions available to the debtor under state and federal law and the judicial remedies available to the government. Such credit data may take the form of a commercial credit report; an agency investigative report showing the debtor’s assets, liabilities, income, and expenses; the individual debtor’s own financial statement executed under penalty of perjury reflecting the debtor’s assets, liabilities, income, and expenses; or an audited balance sheet of a corporate debtor. Such credit data may be omitted if a surety bond is available in an amount sufficient to satisfy the claim in full; the forced sale value of any security available for application to the government’s claim is sufficient to satisfy the claim in full; the debtor is in bankruptcy or receivership; the debtor’s liability to the government is fully covered by insurance, in which case such information as can be developed concerning the identity and address of the insurer and the type and amount of insurance coverage will be furnished; or the nature of the debtor is such that credit data is not normally available or cannot reasonably be obtained, for example, a unit of state or local government.

(3) Preservation of evidence. The Director, OCHAMPUS, or a designee, will take such action as is necessary to ensure that all files, records and exhibits on claims referred hereunder are properly preserved.

(i) Claims Involving Indications of Fraud, Filing of False Claims or Misrepresentation. Any case in which there is an indication of fraud, filing of false claims or misrepresentation will be promptly referred to the Director, OCHAMPUS, or
Office of the Secretary of Defense
§ 199.12

Third party recoveries.

(a) General. This section deals with the right of the United States to recover the costs of medical care furnished or paid for on behalf of CHAMPUS beneficiaries from third parties. These third parties may be individuals, or entities who are liable for tort damages to the injured CHAMPUS beneficiary or a liability insurance carrier covering the individual or entity. These third parties may also include other entities who are primarily responsible to pay for the medical care provided to the injured beneficiary by reason of an insurance policy, workers’ compensation law or other source of primary payment.

(b) Authority. (1) Federal statutory authority. The Federal Medical Care Recovery Act (42 U.S.C. 2651–2653) provides the basis under which claims may be asserted or other actions taken under this Section. The Federal Medical Care Recovery Act is a statute enacted to authorize the recovery of the reasonable value of medical care furnished or paid for by the United States to a person who is injured or suffers a disease under circumstances creating tort liability in a third party. This Act is implemented by Executive Order 11060 and an Attorney General regulation, 28 CFR part 43.

(2) Other authority. Third party recoveries may arise in whole or in part under authorities other than the Medical Care Recovery Act. These include, but are not limited to:

(i) State Workers’ Compensation Laws

(ii) State hospital lien laws

(iii) State no-fault or uninsured motorist statutes

(iv) Contract rights under terms of insurance policies.

(c) Policy. CHAMPUS third party recovery claims can be complex and difficult to administer because they often involve recovery potential from multiple sources. It is essential that all persons responsible for taking action under this section have adequate training and support in this area. The Director, OCHAMPUS, or a designee, will insure that CHAMPUS personnel (including fiscal intermediary personnel) responsible for taking any action under this section are adequately trained and supported to take timely and effective action. Responsibility for taking third party recovery action at various times can rest with either fiscal intermediary personnel, OCHAMPUS employees, or uniformed service claims asserting authorities. For this reason close coordination between those responsible for any action under this section is essential. Care must also be taken to insure that appropriate action to assert any third party recovery right is taken in sufficient time to preclude the running of any applicable statute of limitations or other bar to the government’s right to recover.

(d) Appealability. This section describes the procedures to be followed in the assertion and collection of third party recovery claims in favor of the United States arising from the operation of CHAMPUS. Actions taken under this section are not initial determinations for the purpose of the appeal procedures of §199.10 of this part. However, the proper exercise of the right to appeal benefit or provider status determinations under the procedures set forth in §199.10 may affect the processing of federal claims arising under this section. Those appeal procedures
§ 199.12 afford a CHAMPUS beneficiary or participating provider an opportunity for administrative appellate review in cases in which benefits have been denied and in which there is a significant factual dispute. For example, a fiscal intermediary may deny payment for services which are determined to be excluded as CHAMPUS benefits because they are found to be not medically necessary. In that event the fiscal intermediary will offer an administrative appeal as provided in §199.10 of this part on the medical necessity issue raised by the adverse benefit determination. If the care in question results from an accidental injury and if the appeal results in a reversal of the initial determination to deny the benefit, a third party recovery claim may arise as a result of the appeal decision to pay the benefit. However, in no case is the decision to initiate such a claim itself appealable under §199.10 of this part.

(e) Federal Medical Care Recovery Act Claims. (1) General. The Federal Medical Care Recovery Act (FMCRA) (42 U.S.C. 2651–2653) provides that in any case in which the United States is authorized or required by law to furnish or pay for hospital, medical, surgical or dental care and treatment to a person who is injured or suffers a disease under circumstances creating tort liability in some third person to pay damages for that care, the United States has a right to recover from the third person the reasonable value of the care and treatment furnished, or to be furnished.

(ii) To furnish such additional information as may be requested concerning the circumstances giving rise to the injury or disease for which care and treatment are being given and concerning any action instituted or to be instituted by or against a third person;

(iv) To notify the responsible recovery judge advocate, the CHAMPUS fiscal intermediary or General Counsel, OCHAMPUS, or other officer who is representing the interests of the government at the time, of a settlement with, or an offer of settlement from a third person; and,

(v) To cooperate in the prosecution of all claims and actions by the United States against such third person.

(3) Responsibility for recovery. The Director, OCHAMPUS, or a designee, is responsible for insuring that CHAMPUS claims arising under the Federal Medical Care Recovery Act are properly referred to and coordinated with the Uniformed Services. Generally, federal claims arising under this statute will be processed as follows:

(1) Identification and referral of Federal Medical Care Recovery Act claims. (A) CHAMPUS fiscal intermediaries. In most cases where medical care is provided by civilian providers and payment for such care has been made by a CHAMPUS fiscal intermediary, initial identification of potential third-party liability will be by the CHAMPUS fiscal intermediary. In such cases, the CHAMPUS fiscal intermediary is responsible for conducting a preliminary investigation and referring the case to designated appropriate legal officers of the Uniformed Services.

(B) Initial identification by other agencies. Occasionally, cases involving potential third-party liability may be initially identified by offices, agencies or individuals other than a CHAMPUS fiscal intermediary. When this occurs, these cases should be initially referred to the General Counsel, OCHAMPUS, Aurora, CO 80045–6900, for evaluation. If appropriate, the General Counsel, OCHAMPUS, may refer the case to the fiscal intermediary or the designated Uniformed Service legal office for action.
(ii) Processing CHAMPUS claims. When the CHAMPUS fiscal intermediary initially identifies a claim as involving potential third-party liability, it shall request additional information concerning circumstances of the injury or disease from the beneficiary or other responsible party unless adequate information is submitted with the claim. The information normally is obtained by requesting the beneficiary to complete a personal injury questionnaire. The CHAMPUS claim will be suspended and no payment issued pending receipt of the third-party liability information. If the requested third-party liability information is not received, the claim will be denied. A CHAMPUS beneficiary may expedite the processing of his or her CHAMPUS claim by submitting a completed third-party liability questionnaire with the first claim for treatment of an accidental injury. Third-party liability information normally is required only once concerning any single accidental injury. Once the third-party liability information pertaining to a single incident or episode of care is received, subsequent claims associated with the same incident or episode of care may be processed to payment in the usual manner. If, however, the requested third-party liability information is not received, subsequent claims involving the same incident or episode of care will be suspended or denied as stated above.

(iii) Ascertaining total potential liability. It is essential that the legal office responsible for asserting the claim against the third party receive from the CHAMPUS fiscal intermediary a report of all amounts expended by the United States for care resulting from the incident upon which potential liability in the third party is based (including amounts paid by CHAMPUS for both inpatient and outpatient care). Prior to assertion and final settlement of a claim, it will be necessary for the responsible legal office to secure from the CHAMPUS fiscal intermediary updated information to insure that all amounts expended under CHAMPUS are included in the government’s claim. It is equally important that information on future medical payments be obtained through the investigative process and included as a part of the government’s claim. No CHAMPUS-related claim will be settled, compromised or waived without full consideration being given to the possible future medical payment aspects of the individual case.

(4) Representing the government’s interest. The government’s right to recover the amounts expended for the patient’s medical care is independent of the right the patient has to assert a claim against the third person for damages. The existence of the government’s right, however, is dependent upon establishing the liability of the third person under ordinary principles of law.

(i) Department of Justice. Frequently, collection actions under the Federal Medical Care Recovery Act must be referred to the Department of Justice for litigation. This is usually necessary because either the administrative collection action has been unsuccessful or the injured party has initiated suit and the government must be joined to protect its interests. When such referrals involve significant cases in which the dollar amount of the potential recovery on CHAMPUS claims exceeds $40,000 or involve a unique or significant legal issue, notice of the referral will be provided to the General Counsel, OCHAMPUS. Upon request by the Uniformed Service involved, the General Counsel, OCHAMPUS, will assist in the coordination of any use with the Department of Justice.

(ii) Private attorneys. The attorney for the injured beneficiary may be requested to represent the interests of the government and join both claims in a single action against the third person. Such representation of the government’s interest normally must be made at no expense to the government. However, when such representation of the government’s interest is undertaken by the injured party’s attorney for the government, offices and agencies involved will extend full cooperation to the injured party’s attorney to insure that the government’s interests are fully protected. The coordination of such cases is normally the responsibility of the designated Uniformed Service claims office. However, the General Counsel, OCHAMPUS, may be requested to provide assistance in coordinating CHAMPUS matters relating
§ 199.12

(5) Settlement and waiver of Federal Medical Care Recovery Act claims. (i) Authority of the Uniformed Services legal offices. Uniformed Services legal offices may, under the authority and provisions of regulations prescribed by their respective departments, (A) accept the full amount of a claim and execute a release therefore, (B) compromise or settle and execute a release of any claim, not in excess of $40,000, which has been referred to it under the provisions of this section, or (C) waive, and in this connection, release any claim not in excess of $40,000 in whole or in part, either for the convenience of the government, or if it is determined that collection would result in undue hardship upon the person who suffered the disease or injury resulting in the care and treatment provided under the CHAMPUS.

(ii) Department of Justice approval required. A claim in excess of $40,000 may be compromised, settled, waived and released only with the prior approval of the Department of Justice. The Department of Justice is also to be consulted in all cases involving:

(A) Unusual circumstances,

(B) A new point of law which may serve as a precedent, or

(C) A policy question where there is or may be a difference of views between federal departments and agencies.

(iii) Limitation on the authority of the Uniformed Services legal offices. The authority of compromise, settlement, waiver and release described by §199.12(e)(5) can not be exercised in any cases in which (A) the claim of the United States for such care and treatment has been referred to the Department of Justice, or (B) a suit by the third party has been instituted against the United States or the individual who received or is receiving the care and treatment described herein and the suit arises out of the occurrence which gave rise to the third-party claim of the United States.

(6) Reporting requirements. The Department of Defense is required to submit an annual report to the Attorney General stating the number and dollar amount of claims asserted against, and the number and dollar amount of recoveries from third persons for third-party federal claims arising from the operation of the CHAMPUS. To facilitate the preparation of this report and to maintain program integrity, the following reporting requirements are established:

(i) CHAMPUS fiscal intermediaries. Each CHAMPUS fiscal intermediary shall submit on or before January 31 of each year an annual report to the Director, OCHAMPUS, or a designee, covering the 12 months of the previous calendar year. This report shall contain, as a minimum, the number and total dollar amount of cases investigated for potential third-party liability and the number and dollar amount of cases referred to Uniformed Services claims offices for further investigation and collection. These latter figures are to be itemized by the states and Uniformed Services to which the cases are referred.

(ii) Uniformed Services. Each Uniformed Service will submit an annual report covering the 12 calendar months of the previous year, setting forth, as a minimum, the number and total dollar amount of cases involving CHAMPUS payments received from CHAMPUS fiscal intermediaries, the number and dollar amount of cases involving CHAMPUS payments received from other sources, and the number and dollar amount of claims actually asserted against, and the dollar amount of recoveries from, third persons. The report, itemized by state and foreign claims jurisdictions, shall be provided no later than February 28 of each year, by each Uniformed Service to the Director, OCHAMPUS, or a designee.

(iii) Implementation of the reporting requirements. The reporting requirements prescribed by paragraph (e)(6)(i) of his section, are to be implemented by the Director, OCHAMPUS, or a designee, by an appropriate action. The reporting requirements prescribed by paragraph (e)(6)(ii), of this section are to be
implemented as soon as practicable by agreement between the Director, OCHAMPUS, or a designee, and the affected reporting agency. In no event will the reporting requirements prescribed in paragraph (e)(6)(ii) of this section be implemented later than December 23, 1988.

(f) Automobile or other medical payment insurance, no-fault insurance, or uninsured motorist insurance. Payment may not be made under CHAMPUS for any medical service or supply to the extent that payment has been made or can reasonably be expected to be made for the service or supply under medical insurance or other plan, automobile medical payment insurance policy or plan, uninsured motorist insurance, no-fault insurance or other forms of medical payments protection. Unless all or a portion of a payment under a no-fault or uninsured motorist insurance policy is designated as reimbursement for medical expenses or for some other policy benefit, the full amount of all such undesignated payments shall be deemed to be for medical expenses incurred by the policy beneficiary. Where a CHAMPUS beneficiary is covered by no-fault or uninsured motorist insurance, CHAMPUS benefits will not become available until the CHAMPUS beneficiary furnishes written documentation that he or she has incurred medical expenses equal to the full amount of the payment received under the policy, or to that portion of the total payment received which was designated for medical expenses. Based upon the results of the investigation described in paragraph (e)(3)(ii) of this section, the fiscal intermediary will segregate all claims involving treatment of personal injuries for which it is likely that such other insurance is available. These claims will be processed initially as double coverage claims under §199.8 of this part. Any CHAMPUS payments made after the double coverage provisions have been fully complied with will be considered for possible third-party liability recovery under the provisions of this section. Unless all or a portion of a payment made pursuant to a worker’s compensation claim is designated as reimbursement for medical expenses or for some other policy benefit, the full amount of all such undesignated payments shall be deemed to be for medical expenses incurred by the policy beneficiary.

(g) Mixed claims. Occasionally, a claim arising under the Medical Care Recovery Act will be referred to a claims collection authority which also has some other potential for recovery. A typical example of such a claim is one arising as the result of an automobile accident in which there is a likely tortfeasor and the injured party is also covered by some combination of other health insurance which is primary to CHAMPUS, such as, worker’s compensation, or a medical payments provision of an automobile policy. These claims will also initially be processed as double coverage claims. In addition, agency claims collection authorities should take full cognizance of all avenues of potential recovery as long as there is any potential for recovery from the tortfeasor. Once final action has been taken, any remaining possible recovery under the Federal Claims Collection Act may be referred to the General Counsel, OCHAMPUS, for further action in accordance with §199.11 of this part. Such referrals should contain a complete report of all actions taken on the case and full and complete documentation of the claims involved.

§ 199.13 TRICARE Dental Program.

(a) General provisions—(1) Purpose. This section prescribes guidelines and policies for the delivery and administration of the TRICARE Dental Program (TDP) of the Uniformed Services of the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the
§ 199.13

Commissioned Corps of the U.S. Public Health Service (USPHS) and the National Oceanic and Atmospheric Administration (NOAA) Corps. The TDP is a premium based indemnity dental insurance coverage plan that is available to specified categories of individuals who are qualified for these benefits by virtue of their relationship to one of the seven (7) Uniformed Services and their voluntary decision to accept enrollment in the plan and cost share (when applicable) with the Government in the premium cost of the benefits. The TDP is authorized by 10 U.S.C. 1076a, TRICARE dental program, and this section was previously titled the “Active Duty Dependents Dental Plan”. The TDP incorporates the former 10 U.S.C. 1076b, Selected Reserve dental insurance, and the section previously titled the “TRICARE Selected Reserve Dental Program”, §199.21.

(2) Applicability.—(i) Geographic scope.

(A) The TDP is applicable geographically within the fifty (50) States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, and the U.S. Virgin Islands. These areas are collectively referred to as the “CONUS (or Continental United States) service area”.

(B) Extension of the TDP to areas outside the CONUS service area. In accordance with the authority cited in 10 U.S.C. 1076a(h), the Assistant Secretary of Defense (Health Affairs) (ASD(HA)) may extend the TDP to areas other than those areas specified in paragraph (a)(2)(i)(A) of this section for the eligible members and eligible dependents of members of the Uniformed Services. These areas are collectively referred to as the “OCONUS (or outside the Continental United States) service area”. In extending the TDP outside the CONUS service area, the ASD(HA), or designee, is authorized to establish program elements, methods of administration and payment rates and procedures to providers that are different from those in effect for the CONUS service area to the extent the ASD(HA), or designee, determines necessary for the effective and efficient operation of the TDP. This includes provisions for preauthorization of care if the needed services are not available in a Uniformed Service overseas dental treatment facility and payment by the Department of certain cost-shares (or co-payments) and other portions of a provider’s billed charges for certain beneficiary categories. Other differences may occur based on limitations in the availability and capabilities of the Uniformed Service overseas dental treatment facility and a particular nation’s civilian sector providers in certain areas. These differences include varying licensure and certification requirements of OCONUS providers, Uniformed Service provider selection criteria and local results of provider selection, referral, beneficiary pre-authorization and marketing procedures, and care for beneficiaries residing in distant areas. The Director, Office of Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) shall issue guidance, as necessary, to implement the provisions of paragraph (a)(2)(i)(B). Beneficiaries will be eligible for the same TDP benefits in the OCONUS service area although services may not be available or accessible in all OCONUS countries.

(ii) Agency. The provisions of this section apply throughout the Department of Defense (DoD), the United States Coast Guard, the USPHS and NOAA.

(iii) Exclusion of benefit services performed in military dental care facilities. Except for emergency treatment, dental care provided outside the United States, and services incidental to non-covered services, dependents of active duty, Selected Reserve and Individual Ready Reserve members enrolled in the TDP may not obtain those services that are benefits of the TDP in military dental care facilities, as long as those covered benefits are available for cost-sharing under the TDP. Enrolled dependents of active duty, Selected Reserve and Individual Ready Reserve members may continue to obtain non-covered services from military dental care facilities subject to the provisions for space available care.

(3) Authority and responsibility.—(i) Legislative authority.—(A) Joint regulations. 10 U.S.C. 1076a authorized the Secretary of Defense, in consultation with the Secretary of Health and Human Services, and the Secretary of
Transportation, to prescribe regulations for the administration of the TDP.

(B) Administration. 10 U.S.C. 1073 authorizes the Secretary of Defense to administer the TDP for the Army, Navy, Air Force, and Marine Corps under DoD jurisdiction, the Secretary of Transportation to administer the TDP for the Coast Guard, when the Coast Guard is not operating as a service in the Navy, and the Secretary of Health and Human Services to administer the TDP for the Commissioned Corps of the USPHS and the NOAA Corps.

(ii) Organizational delegations and assignments—(A) Assistant Secretary of Defense (Health Affairs) (ASD(HA)). The Secretary of Defense, by 32 CFR part 367, delegated authority to the ASD(HA) to provide policy guidance, management control, and coordination as required for all DoD health and medical resources and functional areas including health benefit programs. Implementing authority is contained in 32 CFR part 367. For additional implementing authority see §199.1. Any guidelines or policy necessary for implementation of this §199.13 shall be issued by the Director, OCHAMPUS.

(B) Evidence of eligibility. DoD, through the Defense Enrollment Eligibility Reporting System (DEERS), is responsible for establishing and maintaining a listing of persons eligible to receive benefits under the TDP.

(4) Preemption of State and local laws. (i) Pursuant to 10 U.S.C. 1103 and section 8025 (fourth proviso) of the Department of Defense Appropriations Act, 1994, DoD has determined that, in the administration of 10 U.S.C. chapter 55, preemption of State and local laws relating to health insurance, prepaid health plans, or other health care delivery or financing methods is necessary to achieve important Federal interests, including, but not limited to, the assurance of uniform national health programs for Uniformed Service beneficiaries and the operation of such programs at the lowest possible cost to DoD, that have a direct and substantial effect on the conduct of military affairs and national security policy of the United States. This determination is applicable to the dental services contracts that implement this section.

(ii) Based on the determination set forth in paragraph (a)(4)(i) of this section, any State or local law relating to health or dental insurance, prepaid health or dental plans, or other health or dental care delivery or financing methods is preempted and does not apply in connection with the TDP contract. Any such law, or regulation pursuant to such law, is without any force or effect, and State or local governments have no legal authority to enforce them in relation to the TDP contract. (However, DoD may, by contract, establish legal obligations on the part of the dental plan contractor to conform with requirements similar or identical to requirements of State or local laws or regulations.)

(iii) The preemption of State and local laws set forth in paragraph (a)(4)(ii) of this section includes State and local laws imposing premium taxes on health or dental insurance carriers or underwriters or other plan managers, or similar taxes on such entities. Such laws are laws relating to health insurance, prepaid health plans, or other health care delivery or financing methods, within the meaning of the statutes identified in paragraph (a)(4)(i) of this section. Preemption, however, does not apply to taxes, fees, or other payments on net income or profit realized by such entities in the conduct of business relating to DoD health services contracts, if those taxes, fees, or other payments are applicable to a broad range of business activity. For purposes of assessing the effect of Federal preemption of State and local taxes and fees in connection with DoD health and dental services contracts, interpretations shall be consistent with those applicable to the Federal Employees Health Benefits Program under 5 U.S.C. 8909(f).

(5) Plan funds—(1) Funding sources. The funds used by the TDP are appropriated funds furnished by the Congress through the annual appropriation acts for DoD, the Department of Health and Human Services and the Department of Transportation and funds collected by the Uniformed Services or contractor through payroll deductions or through direct billing as premium shares from beneficiaries.
§ 199.13  32 CFR Ch. I (7–1–02 Edition)

(ii) **Disposition of funds.** TDP funds are paid by the Government (or in the case of direct billing, by the beneficiary) as premiums to an insurer, service, or prepaid dental care organization under a contract negotiated by the Director, OCHAMPUS, or a designee, under the provisions of the Federal Acquisition Regulation (FAR) (48 CFR chapter 1).

(iii) **Plan.** The Director, OCHAMPUS, or designee provides an insurance policy, service plan, or prepaid contract of benefits in accordance with those prescribed by law and regulation; as interpreted and adjudicated in accord with the policy, service plan, or contract and a dental benefits brochure; and as prescribed by requirements of the dental plan contractor’s contract with the Government.

(iv) **Contracting out.** The method of delivery of the TDP is through a competitively procured contract. The Director, OCHAMPUS, or a designee, is responsible for negotiating, under provisions of the FAR, a contract for dental benefits insurance or prepayment that includes responsibility for:

(A) Development, publication, and enforcement of benefit policy, exclusions, and limitations in compliance with the law, regulation, and the contract provisions;

(B) Adjudicating and processing claims; and conducting related supporting activities, such as enrollment, disenrollment, collection of premiums, eligibility verification, provider relations, and beneficiary communications.

(6) **Role of Health Benefits Advisor (HBA).** The HBA is appointed (generally by the commander of an Uniformed Services medical treatment facility) to serve as an advisor to patients and staff in matters involving the TDP. The HBA may assist beneficiaries in applying for benefits, in the preparation of claims, and in their relations with OCHAMPUS and the dental plan contractor. However, the HBA is not responsible for the TDP’s policies and procedures and has no authority to make benefit determinations or obligate the TDP’s funds. Advice given to beneficiaries by HBAs as to determination of benefits or level of payment is not binding on OCHAMPUS or the dental plan contractor.

(7) **Right to information.** As a condition precedent to the provision of benefits hereunder, the Director, OCHAMPUS, or designee, shall be entitled to receive information from an authorized provider or other person, institution, or organization (including a local, State, or United States Government agency) providing services or supplies to the beneficiary for which claims for benefits are submitted. While establishing enrollment and eligibility, benefits, and benefit utilization and performance reporting information standards, the Government has established and does maintain a system of records for dental information under the TDP. By contract, the Government audits the adequacy and accuracy of the dental plan contractor’s system of records and requires access to information and records to meet plan accountabilities, to assist in contractor surveillance and program integrity investigations and to audit OCONUS financial transactions where the Department has a financial stake. Such information and records may relate to attendance, testing, monitoring, examination, or diagnosis of dental disease or conditions; or treatment rendered; or services and supplies furnished to a beneficiary; and shall be necessary for the accurate and efficient administration and payment of benefits under this plan. To assist in claims adjudication, grievance and fraud investigations, and the appeals process, and before an interim or final determination can be made on a claim of benefits, a beneficiary or active duty, Selected Reserve or individual Ready Reserve member must provide particular additional information relevant to the requested determination, when necessary. Failure to provide the requested information may result in denial of the claim and inability to effectively investigate the grievance or fraud or process the appeal. The recipient of such information shall in every case hold such records confidential except when:

(i) Disclosure of such information is necessary to the determination by a provider or the dental plan contractor of beneficiary enrollment or eligibility for coverage of specific services;
(ii) Disclosure of such information is authorized specifically by the beneficiary;
(iii) Disclosure is necessary to permit authorized Government officials to investigate and prosecute criminal actions;
(iv) Disclosure constitutes a routine use of a routine use of a record which is compatible with the purpose for which it was collected. This includes a standard and acceptable business practice commonly used among dental insurers which is consistent with the principle of preserving confidentiality of personal information and detailed clinical data. For example, the release of utilization information for the purpose of determining eligibility for certain services, such as the number of dental prophylaxis procedures performed for a beneficiary, is authorized;
(v) Disclosure is pursuant to an order from a court of competent jurisdiction; or
(vi) Disclosure by the Director, OCHAMPUS, or designee, is for the purpose of determining the applicability of, and implementing the provisions of, other dental benefits coverage or entitlement.

(b) Utilization review and quality assurance. Claims submitted for benefits under the TDP are subject to review by the Director, OCHAMPUS, or designee, for quality of care and appropriate utilization. The Director, OCHAMPUS, or designee, is responsible for appropriate utilization review and quality assurance standards, norms, and criteria consistent with the level of benefits.

(b) Definitions. For most definitions applicable to the provisions of this section, refer to Sec. 199.2. The following definitions apply only to this section:
(1) Assignment of benefits. Acceptance by a nonparticipating provider of payment directly from the insurer while reserving the right to charge the beneficiary or active duty, Selected Reserve or Individual Ready Reserve member for any remaining amount of the fees for services which exceeds the prevailing fee allowance of the insurer.
(2) Authorized provider. A dentist, dental hygienist, or certified and licensed anesthetist specifically authorized to provide benefits under the TDP in paragraph (f) of this section.
(3) Beneficiary. A dependent of an active duty, Selected Reserve or Individual Ready Reserve member, or a member of the Selected Reserve or Individual Ready Reserve, who has been enrolled in the TDP, and has been determined to be eligible for benefits, as set forth in paragraph (c) of this section.
(4) Beneficiary liability. The legal obligation of a beneficiary, his or her estate, or responsible family member to pay for the costs of dental care or treatment received. Specifically, for the purposes of services and supplies covered by the TDP, beneficiary liability includes cost-sharing amounts or any amount above the prevailing fee determination by the insurer where the provider selected by the beneficiary is not a participating provider or a provider within an approved alternative delivery system. In cases where a nonparticipating provider does not accept assignment of benefits, beneficiaries may have to pay the nonparticipating provider in full at the time of treatment and seek reimbursement directly from the insurer for all or a portion of the nonparticipating provider’s fee. Beneficiary liability also includes any expenses for services and supplies not covered by the TDP, less any available discount provided as a part of the insurer’s agreement with an approved alternative delivery system.
(5) By report. Dental procedures which are authorized as benefits only in unusual circumstances requiring justification of exceptional conditions related to otherwise authorized procedures. These services are further defined in paragraph (e) of this section.
(6) Contingency operation. Defined in 10 U.S.C. 101(a)(13) as a military operation designated as a contingency operation by the Secretary of Defense or a military operation that results in the exercise of authorities for ordering Reserve Component members to active duty without their consent and is therefore automatically a contingency operation.
(7) Cost-share. The amount of money for which the beneficiary (or active duty, Selected Reserve or Individual Ready Reserve member) is responsible in connection with otherwise covered dental services (other than disallowed
amounts) as set forth in paragraph (e) of this section. A cost-share may also be referred to as a "co-payment."
(8) Defense Enrollment Eligibility Reporting System (DEERS). The automated system that is composed of two (2) phases:
(i) Enrolling all active duty, Reserve and retired service members, their dependents, and the dependents of deceased service members; and
(ii) Verifying their eligibility for health care benefits in the direct care facilities and through the TDP.
(9) Dental hygienist. Practitioner in rendering complete oral prophylaxis services, applying medication, performing dental radiography, and providing dental education services with a certificate, associate degree, or bachelor's degree in the field, and licensed by an appropriate authority.
(10) Dentist. Doctor of Dental Medicine (D.M.D.) or Doctor of Dental Surgery (D.D.S.) who is licensed to practice dentistry by an appropriate authority.
(11) Diagnostic services. Category of dental services including:
(i) Clinical oral examinations;
(ii) Radiographic examinations; and
(iii) Diagnostic laboratory tests and examinations provided in connection with other dental procedures authorized as benefits of the TDP and further defined in paragraph (e) of the section.
(12) Endodontics. The etiology, prevention, diagnosis, and treatment of diseases and injuries affecting the dental pulp, tooth root, and periapical tissue as further defined in paragraph (e) of this section.
(13) Initial determination. A formal written decision on a TDP claim, a request for TDP benefit pre-determination, a request by a provider for approval as an authorized provider, or a decision suspending, excluding or terminating a provider as an authorized provider under the TDP. Rejection of a claim or pre-determination, or of a request for benefit or provider authorization for failure to comply with administrative requirements, including failure to submit reasonably requested information, is not an initial determination. Responses to general or specific inquiries regarding TDP benefits are not initial determinations.
(14) Nonparticipating provider. A dentist or dental hygienist that furnished dental services to a TDP beneficiary, but who has not agreed to participate or to accept the insurer's fee allowances and applicable cost-share as the total charge for the services. A nonparticipating provider looks to the beneficiary or active duty, Selected Reserve or Individual Ready Reserve member for final responsibility for payment of his or her charge, but may accept payment (assignment of benefits) directly from the insurer or assist the beneficiary in filing the claim for reimbursement by the dental plan contractor. Where the nonparticipating provider does not accept payment directly from the insurer, the insurer pays the beneficiary or active duty, Selected Reserve or Individual Ready Reserve member, not the provider.
(15) Oral and maxillofacial surgery. Surgical procedures performed in the oral cavity as further defined in paragraph (e) of this section.
(16) Orthodontics. The supervision, guidance, and correction of the growing or mature dentofacial structures, including those conditions that require movement of teeth or correction of malrelationships and malformations of their related structures and adjustment of relationships between and among teeth and facial bones by the application of forces and/or the stimulation and redirection of functional forces within the craniofacial complex as further defined in paragraph (e) of this section.
(17) Participating provider. A dentist or dental hygienist who has agreed to accept the insurer's reasonable fee allowances or other fee arrangements as the total charge (even though less than the actual billed amount), including provision for payment to the provider by the beneficiary (or active duty, Selected Reserve or Individual Ready Reserve member) or any cost-share for covered services.
(18) Party to the initial determination. Includes the TDP, a beneficiary of the TDP and a participating provider of services whose interests have been adjudicated by the initial determination. In addition, provider who has been denied approval as an authorized TDP
Office of the Secretary of Defense

§ 199.13

provider is a party to the initial determination, as is a provider who is suspended, excluded or terminated as an authorized provider, unless the provider is excluded or suspended by another agency of the Federal Government, a state, or a local licensing authority.

(19) Periodontics. The examination, diagnosis, and treatment of diseases affecting the supporting structures of the teeth as further defined in paragraph (e) of this section.

(20) Preventive services. Traditional prophylaxis including scaling deposits from teeth, polishing teeth, and topical application of fluoride to teeth as further defined in paragraph (e) of this section.

(21) Prosthodontics. The diagnosis, planning, making, insertion, adjustment, refinement, and repair of artificial devices intended for the replacement of missing teeth and associated tissues as further defined in paragraph (e) of this section.

(22) Provider. A dentist, dental hygienist, or certified and licensed anesthetist as specified in paragraph (t) of this section. This term, when used in relation to OCONUS service area providers, may include other recognized professions authorized to furnish care under laws of that particular country.

(23) Restorative services. Restoration of teeth including those procedures commonly described as amalgam restorations, resin restorations, pin retention, and stainless steel crowns for primary teeth as further defined in paragraph (e) of this section.

(24) Sealants. A material designed for application on specified teeth to seal the surface irregularities to prevent ingress of oral fluids, food, and debris in order to prevent tooth decay.

(c) Eligibility and enrollment—(1) General. 10 U.S.C. 1076a, 1072(2)(A), (D), or (I), 1072(6), 10143 and 10144 set forth those persons who are eligible for voluntary enrollment in the TDP. A determination that a person is eligible for voluntary enrollment does not automatically entitle that person to benefit payments. The person must be enrolled in accordance with the provisions set forth in this section and meet any additional eligibility requirements in this part in order for dental benefits to be extended.

(2) Eligibility—(i) Persons eligible. Eligibility for the TDP is continuous in situations where the sponsor or member changes status between any of these eligible categories and there is no break in service or transfer to a non-eligible status.

(A) A person who bears one of the following relationships to an active duty member (under a call or order that does not specify a period of thirty (30) days or less) or a member of the Selected Reserve (as specified in 10 U.S.C. 10143) or Individual Ready Reserve (as specified in 10 U.S.C. 10144):

(I) Spouse. A lawful husband or wife, regardless of whether or not dependent upon the active duty, Selected Reserve or Individual Ready Reserve member.

(2) Child. To be eligible, the child must be unmarried and meet the requirements set forth in §§199.3(b)(2)(iv)(A) and 199.3(b)(2)(iv)(C).

(B) A member of the Selected Reserve of the Ready Reserve (as specified in 10 U.S.C. 10143).

(C) A member of the Individual Ready Reserve of the Ready Reserve (as specified in 10 U.S.C. 10144(b)) who is subject to being ordered to active duty involuntarily in accordance with 10 U.S.C. 12304.

(D) All other members of the Individual Ready Reserve of the Ready Reserve (as specified in 10 U.S.C. 10144(a)).

(ii) Determination of eligibility status and evidence of eligibility—(A) Eligibility determination responsibility of the Uniformed Services. Determination of a person’s eligibility for the TDP is the responsibility of the member’s Uniformed Service. For the purpose of program integrity, the appropriate Uniformed Service shall, upon request of the Director, OCHAMPUS, or designee, review the eligibility of a specified person when there is reason to question the eligibility status. In such cases, a report on the result of the review and any action taken will be submitted to the Director, OCHAMPUS, or designee.

(B) Procedures for determination of eligibility. Uniformed Service identification cards do not distinguish eligibility for the TDP. Procedures for the determination of eligibility are identified in §199.3(f)(2), except that Uniformed
Service identification cards do not provide evidence of eligibility for the TDP. Although OCHAMPUS and the dental plan contractor must make determinations concerning a member or dependent’s eligibility in order to ensure proper enrollment and proper disbursal of appropriated funds, ultimate responsibility for resolving a member or dependent’s eligibility rests with the Uniformed Services.

(C) Evidence of eligibility required. Eligibility and enrollment in the TDP will be verified through the DEERS. Eligibility and enrollment information established and maintained in the DEERS file is the only acceptable evidence of TDP eligibility and enrollment. It is the responsibility of the active duty, Selected Reserve or Individual Ready Reserve member or TDP beneficiary, parent, or legal representative, when appropriate, to provide adequate evidence for entry into the DEERS file to establish eligibility for the TDP, and to ensure that all changes in status that may affect eligibility are reported immediately to the appropriate Uniformed Service for action. Ineligibility for benefits is presumed in the absence of prescribed eligibility evidence in the DEERS file.

(3) Enrollment—(i) Previous plans—(A) Basic Active Duty Dependents Dental Benefit Plan. The Basic Active Duty Dependents Dental Plan was effective from August 1, 1987, up to the date of implementation of the Expanded Active Duty Dependents Dental Benefit Plan. The Basic Active Duty Dependents Dental Benefit Plan terminated upon implementation of the expanded plan.

(B) Expanded Active Duty Dependents Dental Benefit Plan. The Expanded Active Duty Dependents Dental Benefit Plan (also known as the TRICARE Family Member Dental Plan) was effective from August 1, 1993, up to the date of implementation of the TDP. The Expanded Active Duty Dependents Dental Benefit Plan terminates upon implementation of the TDP.

(ii) TRICARE Dental Program (TDP)—(A) Election of coverage. (1) Except as provided in paragraph (c)(3)(ii)(A)(2) of this section, active duty, Selected Reserve, and Individual Ready Reserve service members may voluntarily elect to enroll their eligible dependents and members of the Selected Reserve and Individual Ready Reserve may voluntarily elect to enroll themselves following implementation of the TDP. In order to obtain TDP coverage, written or telephonic election by the active duty, Selected Reserve or Individual Ready Reserve member must be made and will be accomplished by submission or telephonic completion of an application to the dental plan contractor. This election can also be accomplished via electronic means.

(2) Eligible dependents of active duty members enrolled in the Expanded Active Duty Dependents Dental Benefit Plan at the time of implementation of the TDP will automatically be enrolled in the TDP. Eligible members of the Selected Reserve enrolled in the TRICARE Selected Reserve Dental Program at the time of implementation of the TDP will automatically be enrolled in the TDP. No election to enroll in the TDP will be required by the active duty or Selected Reserve member.

(B) Premiums—(1) Enrollment will be by either single or family premium as defined as follows:

(i) Single premium. One (1) covered eligible dependent or one (1) covered eligible Selected Reserve or Individual Ready Reserve member.

(ii) Family premium. Two (2) or more covered eligible dependents. Under the family premium, all eligible dependents of the active duty, Selected Reserve or Individual Ready Reserve member are enrolled.

(2) Exceptions. (i) An active duty, Selected Reserve or Individual Ready Reserve member may elect to enroll only those eligible dependents residing in one (1) location when the active duty, Selected Reserve or Individual Ready Reserve member has eligible dependents residing in two or more geographically separate locations (e.g., children living with a divorced spouse; a child attending college).

(ii) Instances where a dependent of an active duty member requires a hospital or special treatment environment (due to a medical, physical handicap, or
mental condition) for dental care otherwise covered by the TDP, the depend-ent may be excluded from TDP enroll-ment and may continue to receive care from a military treatment facility.

(iii) A member of the Selected Re
derve or Individual Ready Reserve may enroll separately from his or her eligi-
ble dependents. A member of the Se-
lected Reserve or Individual Ready Re-
derve does not have to be enrolled in order for his or her eligible dependents
to enroll under the TDP.

(C) Enrollment period—(1) General. En-
rollments of eligible dependents or
members is for a period of one (1) year
followed by month-to-month enroll-
ment as long as the active duty, Se-
lected Reserve or Individual Ready Re-
service member chooses to continue en-
rollment. Active duty members may
enroll their eligible dependents and eli-
gible members of the Selected Reserve or Individual Ready Reserve may en-
roll themselves or their eligible de-
pendents in the TDP provided there is
an intent to remain on active duty or
as a member of the Selected Reserve or
Individual Ready Reserve (or any com-
bination thereof without a break in
service or transfer to a non-eligible status) for a period of not less than one
(1) year by the service member and
their parent Uniformed Service. Bene-
ficiaries enrolled in the TDP must re-
main enrolled for a minimum period of
one (1) year unless one of the condi-
tions for disenrollment specified in para-
graph (c)(3)(i)(E) of this section is met.

(2) Special enrollment period for Reserve component members ordered to active duty in support of contingency operations. The mandatory twelve (12) month enrollment period does not apply to Reserve component members ordered to active duty (other than for training) in sup-
port of a contingency operation as des-
ignated by the Secretary of Defense. Af-
ected Reserve component members may enroll in the TDP only if their or-
ders specify that they are ordered to
active duty in support of a contingency operation, as defined by 10 U.S.C., for a
period of thirty-one (31) days or more. An affected Reserve component mem-
ber must elect to enroll in the TDP and complete the enrollment application within thirty (30) days following entry on active duty or within sixty (60) days following implementation of the TDP. Following enrollment, beneficiaries must remain enrolled, with the mem-
ber paying premiums, until the end of the member’s active duty period in
support of the contingency operation or twelve (12) months, whichever oc-
curs first unless one of the conditions for disenrollment specified in para-
graph (c)(3)(i)(E) of this section is met.

(3) Continuation of enrollment from Ex-
panded Active Duty Dependents Dental Benefit Plan. Beneficiaries enrolled in the Expanded Active Duty Dependents Dental Benefit Plan at the time when
TDP coverage begins must complete their two (2) year enrollment period es-
tablished under this former plan except if one of the conditions for
disenrollment specified in paragraph (c)(3)(i)(E) of this section is met. Once this original two (2) year enrollment period is met, the active duty member may continue TDP enrollment on a
month-to-month basis. A new one (1)
year enrollment period will only be in-
curred if the active duty member
disenrolls and attempts to reenroll in
the TDP at a later date.

(4) Continuation of enrollment from TRICARE Selected Reserve Dental Pro-
gram. Beneficiaries enrolled in the TRICARE Selected Reserve Dental Program at the time when TDP cov-
erage begins must complete their one
(1) year enrollment period established
under this former program except if one of the conditions for disenrollment specified in paragraph (c)(3)(i)(E) of this section is met. Once this original one (1) year enrollment period is met, the Selected Reserve member may con-
tinue TDP enrollment on a month-to-
month basis. A new one (1) year enroll-
ment period will only be incurred if the
Selected Reserve member disenrolls and attempts to reenroll in the TDP at
a later date.

(D) Beginning dates of eligibility. The
beginning date of eligibility for TDP
benefits is the first day of the month
following the month in which the elec-
tion of enrollment is completed,
signed, and the enrollment and pre-
mium is received by the dental plan
contractor, subject to a predetermined
and publicized dental plan contractor
monthly cut-off date, except that the
§ 199.13  

The date of eligibility shall not be earlier than the first day of the month in which the TDP is implemented. This includes any changes between single and family member premium coverage and coverage of newly eligible or enrolled dependents or members.

(E) Changes in and termination of enrollment. (1) Changes in status of active duty, Selected Reserve or Individual Ready Reserve member. When the active duty, Selected Reserve or Individual Ready Reserve member is separated, discharged, retired, transferred to the Standby or Retired Reserve, his or her enrolled dependents and/or the enrolled Selected Reserve or Individual Ready Reserve member lose eligibility and enrollment as of 11:59 p.m. on the last day of the month in which the change in status takes place. When the Selected Reserve or Individual Ready Reserve member is ordered to active duty for a period of thirty-one (31) days or more without a break in service, the member loses their eligibility and is disenrolled, if they were previously enrolled; however, their enrolled dependents maintain their eligibility and previous enrollment subject to eligibility, enrollment and disenrollment provisions described in this section and in the TDP contract. When the previously enrolled active duty member is transferred back to the Selected Reserve or Individual Ready Reserve without a break in service, the member regains eligibility and is reenrolled; however, their enrolled dependents maintain their eligibility and previous enrollment subject to eligibility, enrollment and disenrollment provisions described in this section and in the TDP contract. Eligible dependents of an active duty, Selected Reserve or Individual Ready Reserve member serving a sentence of confinement in conjunction with a sentence of punitive discharge are still eligible for the TDP until such time as the active duty, Selected Reserve or Individual Ready Reserve member’s discharge is executed.

(2) Continuation of eligibility for dependents of service members who die while on active duty or while a member of the Selected Reserve or Individual Ready Reserve. Eligible dependents of active duty members while on active duty for a period of thirty-one (31) days or more and eligible dependents of Selected Reserve or Individual Ready Reserve members, as specified in 10 U.S.C. 10143 and 10144(b) respectively, who die on or after the implementation date of the TDP, and whose dependents are enrolled in the TDP on the date of the death of the active duty, Selected Reserve or Individual Ready Reserve member shall be eligible for continued enrollment in the TDP for up to three (3) years from the date of the member’s death. This three-year period of continued enrollment also applies to dependents of active duty members who died within the year prior to the beginning of the TDP while the dependents were enrolled in the TFMDP. During the three-year period of continuous enrollment, the government will pay both the Government and the beneficiary’s portion of the premium share. This continued enrollment is not contingent on the Selected Reserve or Individual Ready Reserve member’s own enrollment in the TDP.

(3) Changes in status of dependent.—(i) Divorce. A spouse separated from an active duty, Selected Reserve or Individual Ready Reserve member by a final divorce decree loses all eligibility based on his or her former marital relationship as of 11:59 p.m. of the last day of the month in which the divorce becomes final. The eligibility of the active duty, Selected Reserve or Individual Ready Reserve member’s own children (including adopted and eligible illegitimate children) is unaffected by the divorce. An unadopted stepchild, however, loses eligibility with the termination of the marriage, also as of 11:59 p.m. of the last day of the month in which the divorce becomes final.

(ii) Annulment. A spouse whose marriage to an active duty, Selected Reserve or Individual Ready Reserve member is dissolved by annulment loses eligibility as of 11:59 p.m. of the last day of the month in which the court grants the annulment order. The fact that the annulment legally declares the entire marriage void from its inception does not affect the termination date of eligibility. When there are children, the eligibility of the active duty, Selected Reserve or Individual Ready Reserve member’s own
children (including adopted and eligible illegitimate children) is unaffected by the annulment. An unadopted stepchild, however, loses eligibility with the annulment of the marriage, also as of 11:59 p.m. of the last day of the month in which the court grants the annulment order.

(iii) Adoption. A child of an active duty, Selected Reserve or Individual Ready Reserve member who is adopted by a person, other than a person whose dependents are eligible for TDP benefits while the active duty, Selected Reserve or Individual Ready Reserve member is living, thereby severing the legal relationship between the child and the active duty, Selected Reserve or Individual Ready Reserve member, loses eligibility as of 11:59 p.m. of the last day of the month in which the adoption becomes final.

(iv) Marriage of child. A child of an active duty, Selected Reserve or Individual Ready Reserve member who marries a person whose dependents are not eligible for the TDP, loses eligibility as of 11:59 p.m. on the last day of the month in which the marriage takes place. However, should the marriage be terminated by death, divorce, or annulment before the child is twenty-one (21) years old, the child again becomes eligible for enrollment as a dependent as of 12:00 a.m. of the first day of the month following the month in which the marriage takes place. However, the active duty member may elect, within ninety (90) calendar days of the transfer, to disenroll their dependents from the TDP. If the active duty member is later transferred to a duty station where space-available dental care for the enrolled dependents is readily available at the local Uniformed Services dental treatment facility, the active duty member may elect, within ninety (90) calendar days of the transfer, to disenroll their dependents from the TDP. If the active duty member is later transferred to a duty station where space-available dental care for the dependents is not available in the local Uniformed Services dental treatment facility, the active duty member may reenroll their eligible dependents in the TDP provided the member, as of the date of reenrollment, otherwise meets the requirements for enrollment, including the intent to remain on active duty for a period of not less than one (1) year.

Disenrollment because of no eligible beneficiaries. When an active duty, Selected Reserve or Individual Ready Reserve member ceases to have any eligible beneficiaries, enrollment is terminated for those enrolled dependents.

(ii) Option to disenroll as a result of a change in active duty station. When an active duty member transfers with enrolled dependents to a duty station where space-available dental care for the enrolled dependents is readily available at the local Uniformed Services dental treatment facility, the active duty member may reenroll their eligible dependents in the TDP provided the member, as of the date of reenrollment, otherwise meets the requirements for enrollment, including the intent to remain on active duty for a period of not less than one (1) year.

Disenrollment because of disabling illness or injury of child. A child twenty-one (21) or twenty-two (22) years old who is pursuing a full-time course of higher education and who, during the school year or between semesters, suffers a disabling illness or injury with resultant inability to resume attendance at the institution remains eligible for the TDP for six (6) months after the disability is removed or until the student passes his or her 23rd birthday, whichever occurs first. However, if recovery occurs before the 23rd birthday and there is resumption of a full-time course of higher education, the TDP can be continued until the 23rd birthday. The normal vacation periods during an established school year do not change the eligibility status of a dependent child twenty-one (21) or twenty-two (22) years old in full-time student status. Unless an incapacitating condition existed before, and at the time of, a dependent child’s 21st birthday, a dependent child twenty-one (21) or twenty-two (22) years old in student status does not have eligibility related to mental or physical incapacity as described in §199.3(b)(2)(vi)(C)(2).

(4) Other.—(i) Disenrollment because of no eligible beneficiaries. When an active duty, Selected Reserve or Individual Ready Reserve member ceases to have any eligible beneficiaries, enrollment is terminated for those enrolled dependents.

(ii) Option to disenroll as a result of a change in active duty station. When an active duty member transfers with enrolled dependents to a duty station where space-available dental care for the enrolled dependents is readily available at the local Uniformed Services dental treatment facility, the active duty member may reenroll their eligible dependents in the TDP provided the member, as of the date of reenrollment, otherwise meets the requirements for enrollment, including the intent to remain on active duty for a period of not less than one (1) year.

Disenrollment because of disabling illness or injury of child. A child twenty-one (21) or twenty-two (22) years old who has eligibility based on his or her student status. A child twenty-one (21) or twenty-two (22) years old who is pursuing a full-time course of higher education and who, during the school year or between semesters, suffers a disabling illness or injury with resultant inability to resume attendance at the institution remains eligible for the TDP for six (6) months after the disability is removed or until the student passes his or her 23rd birthday, whichever occurs first. However, if recovery occurs before the 23rd birthday and there is resumption of a full-time course of higher education, the TDP can be continued until the 23rd birthday. The normal vacation periods during an established school year do not change the eligibility status of a dependent child twenty-one (21) or twenty-two (22) years old in full-time student status. Unless an incapacitating condition existed before, and at the time of, a dependent child’s 21st birthday, a dependent child twenty-one (21) or twenty-two (22) years old in student status does not have eligibility related to mental or physical incapacity as described in §199.3(b)(2)(vi)(C)(2).
§ 199.13

 duty, Selected Reserve or Individual Ready Reserve member may elect, within ninety (90) calendar days of the relocation, to disenroll their dependents from the TDP, or in the case of enrolled members of the Selected Reserve or Individual Ready Reserve, to disenroll themselves from the TDP. The active duty, Selected Reserve or Individual Ready Reserve member may reenroll their eligible dependents, or in the case of members of the Selected Reserve or Individual Ready Reserve, may reenroll themselves in the TDP provided the member, as of the date of reenrollment, otherwise meets the requirements for enrollment, including the intent to remain on active duty or as a member of the Selected Reserve or Individual Ready Reserve (or any combination thereof without a break in service or transfer to a non-eligible status) for a period of not less than one (1) year.

(iv) Option to disenroll after an initial one (1) year enrollment. When a dependent’s enrollment under an active duty, Selected Reserve or Individual Ready Reserve member’s or a Selected Reserve or Individual Ready Reserve member’s own enrollment has been in effect for a continuous period of one (1) year, the active duty, Selected Reserve or Individual Ready Reserve member may disenroll their dependents, or in the case of enrolled members of the Selected Reserve or Individual Ready Reserve may disenroll themselves at any time following procedures as set up by the dental plan contractor. Subsequent to the disenrollment, the active duty, Selected Reserve or Individual Ready Reserve member may reenroll their eligible dependents, or in the case of members of the Selected Reserve or Individual Ready Reserve may reenroll themselves, for another minimum period of one (1) year. If, during any one (1) year enrollment period, the active duty, Selected Reserve or Individual Ready Reserve member disenrolls their dependents, or in the case of members of the Selected Reserve or Individual Ready Reserve disenrolls themselves, for reasons other than those listed in this paragraph (c)(3)(i)(E) or fails to make premium payments, dependents enrolled under the active duty, Selected Reserve or Individual Ready Reserve member, or enrolled members of the Selected Reserve and Individual Ready Reserve, will be subject to a lock-out period of twelve (12) months. Following this period of time, active duty, Selected Reserve or Individual Ready Reserve members will be able to reenroll their eligible dependents, or members of the Selected Reserve or Individual Ready Reserve will be able to reenroll themselves, if they so choose. The twelve (12) month lock-out period applies to enrolled dependents of a Reserve component member who disenrolls for reasons other than those listed in this paragraph (c)(3)(i)(E) or fails to make premium payments after the member has enrolled pursuant to paragraph (c)(3)(i)(C) of this section.

(d) Premium sharing. (1) General. Active duty, Selected Reserve or Individual Ready Reserve members enrolling their eligible dependents, or members of the Selected Reserve or Individual Ready Reserve enrolling themselves, in the TDP shall be required to pay all or a portion of the premium cost depending on their status.

(i) Members required to pay a portion of the premium cost. This premium category includes active duty members (under a call or order to active duty that does not specify a period of thirty (30) days or less) on behalf of their enrolled dependents. It also includes members of the Selected Reserve (as specified in 10 U.S.C. 10143) and the Individual Ready Reserve (as specified in 10 U.S.C. 10144(b)) enrolled on their own behalf.

(ii) Members required to pay the full premium cost. This premium category includes members of the Selected Reserve (as specified in 10 U.S.C. 10143), and the Individual Ready Reserve (as specified in 10 U.S.C. 10144), on behalf of their enrolled dependents. It also includes members of the Individual Ready Reserve (as specified in 10 U.S.C. 10144(a)) enrolled on their own behalf.

(2) Proportion of premium share. The proportion of premium share to be paid by the active duty, Selected Reserve and Individual Reserve member pursuant to paragraph (d)(1)(i) of this section is established by the ASD(HA), or designee, at not more than forty (40) percent of the total premium. The proportion of premium share to be paid by the
Selected Reserve and Individual Reserve member pursuant to paragraph (d)(1)(ii) of this section is established by the ASD(HA), or designee, at one hundred (100) percent of the total premium.

(3) **Provision for increases in active duty.** Selected Reserve and Individual Ready Reserve member’s premium share.

(i) Although previously capped at $20 per month, the law has been amended to authorize the cap on active duty, Selected Reserve and Individual Ready Reserve member’s premiums pursuant to paragraph (d)(1)(i) of this section to rise, effective as of January 1 of each year, by the percent equal to the lesser of:

(A) The percent by which the rates of basic pay of members of the Uniformed Services are increased on such date; or

(B) The sum of one-half percent and the percent computed under 5 U.S.C. 5303(a) for the increase in rates of basic pay for statutory pay systems for pay periods beginning on or after such date.

(ii) Under the legislation authorizing an increase in the monthly premium cap, the methodology for determining the active duty, Selected Reserve and Individual Ready Reserve member’s TDP premium pursuant to paragraph (d)(1)(i) of this section will be applied as if the methodology had been in continuous use since December 31, 1993.

(4) **Reduction of premium share for enlisted members.** For enlisted members in pay grades E-1 through E-4, the ASD(HA) or designee, may reduce the monthly premium these active duty, Selected Reserve and Individual Ready Reserve members pay pursuant to paragraph (d)(1)(i) of this section.

(5) **Reduction of cost-shares for enlisted members.** For enlisted members in pay grades E-1 through E-4, the ASD(HA) or designee, may reduce the cost-shares that active duty, Selected Reserve and Individual Ready Reserve members pay on behalf of their enrolled dependents and that members of the Selected Reserve and Individual Ready Reserve pay on their own behalf for selected benefits as specified in paragraph (e)(3)(i) of this section.

(6) **Premium payment method.** The active duty, Selected Reserve and Individual Ready Reserve member’s premium share may be deducted from the active duty, Selected Reserve or Individual Ready Reserve member’s basic pay or compensation paid under 37 U.S.C. 206, if sufficient pay is available. For members who are otherwise eligible for TDP benefits and who do not receive such pay and dependents who are otherwise eligible for TDP benefits and whose sponsors do not receive such pay, or if insufficient pay is available, the premium payment may be collected pursuant to procedures established by the Director, OCHAMPUS, or designee.

(7) **Annual notification of premium rates.** TDP premium rates will be determined as part of the competitive contracting process. Information on the premium rates will be widely distributed by the dental plan contractor and the Government.

(e) **Plan benefits.**—

(1) **General.**—

(i) **Scope of benefits.** The TDP provides coverage for diagnostic and preventive services, sealants, restorative services, endodontics, periodontics, prosthodontics, orthodontics and oral and maxillofacial surgery.

(ii) **Authority to act for the plan.** The authority to make benefit determinations and authorize plan payments under the TDP rests primarily with the insurance, service plan, or prepayment dental plan contractor, subject to compliance with Federal law and regulation and Government contract provisions. The Director, OCHAMPUS, or designee, provides required benefit policy decisions resulting from changes in Federal law and regulation and appeal decisions. No other persons or agents (such as dentists or Uniformed Services HBAs) have such authority.

(iii) **Dental benefits brochure.**—

(A) **Content.** The Director, OCHAMPUS, or designee, shall establish a comprehensive dental benefits brochure explaining the benefits of the plan in common lay terminology. The brochure shall include the limitations and exclusions and other benefit determination rules for administering the benefits in accordance with the law and this part. The brochure shall include the rules for adjudication and payment of claims, appealable issues, and appeal procedures in sufficient detail to serve as a common basis for interpretation and
understanding of the rules by providers, beneficiaries, claims examiners, correspondence specialists, employees and representatives of other Government bodies, HBAs, and other interested parties. Any conflict, which may occur between the dental benefits brochure and law or regulation, shall be resolved in favor of law and regulation.

(B) Distribution. The dental benefits brochure will be available through the dental plan contractor and will be distributed with the assistance of the Uniformed Services HBAs and major personnel centers at Uniformed Service installations and headquarters to all members enrolling themselves or their eligible dependents.

(iv) Alternative course of treatment policy. The Director, OCHAMPUS, or designee, may establish, in accordance with generally accepted dental benefit practices, an alternative course of treatment policy which provides reimbursement in instances where the dentist and beneficiary select a more expensive service, procedure, or course of treatment than is customarily provided. The alternative course of treatment policy must meet following conditions:

(A) The service, procedure, or course of treatment must be consistent with sound professional standards of dental practice for the dental condition concerned.

(B) The service, procedure, or course of treatment must be a generally accepted alternative for a service or procedure covered by the TDP for the dental condition.

(C) Payment for the alternative service or procedure may not exceed the lower of the prevailing limits for the alternative procedure, the prevailing limits of the dental plan contractor’s scheduled allowance for the otherwise authorized benefit procedure for which the alternative is substituted, or the actual charge for the alternative procedure.

(2) Benefits. The following benefits are defined (subject to the TDP’s exclusions, limitations, and benefit determination rules approved by OCHAMPUS) using the American Dental Association’s Council on Dental Care Program’s Code on Dental Procedures and Nomenclature. The Director, OCHAMPUS, or designee, may modify these services, to the extent determined appropriate based on developments in common dental care practices and standard dental insurance programs.

(i) Diagnostic and preventive services. Benefits may be extended for those dental services described as oral examination, diagnostic, and preventive services defined as traditional prophylaxis (i.e., scaling deposits from teeth, polishing teeth, and topical application of fluoride to teeth) when performed directly by dentists and dental hygienists as authorized under paragraph (f) of this section. These include the following categories of service:

(A) Diagnostic services. (i) Clinical oral examinations.

(B) Preventive services. (i) Dental prophylaxis.

(2) Topical fluoride treatment (office procedure).

(3) Other preventive services.

(4) Space maintenance (passive appliances).

(ii) General services and services “by report”. The following categories of services are authorized when performed directly by dentists or dental hygienists, as authorized under paragraph (f) of this section, only in unusual circumstances requiring justification of exceptional conditions directly related to otherwise authorized procedures. Use of the procedures may not result in the fragmentation of services normally included in a single procedure. The dental plan contractor may recognize a “by report” condition by providing additional allowance to the primary covered procedure instead of recognizing or permitting a distinct billing for the “by report” service. These include the following categories of general services:

(A) Unclassified treatment.

(B) Anesthesia.

(C) Professional consultation.

(D) Professional visits.

(E) Drugs.

(F) Miscellaneous services.

(iii) Restorative services. Benefits may be extended for restorative services
when performed directly by dentists or dental hygienists, or under orders and supervision by dentists, as authorized under paragraph (f) of this section. These include the following categories of restorative services:

(A) Amalgam restorations.
(B) Resin restorations.
(C) Inlay and onlay restorations.
(D) Crowns.
(E) Other restorative services.

(iv) Endodontic services. Benefits may be extended for those dental services involved in treatment of diseases and injuries affecting the dental pulp, tooth root, and periapical tissue when performed directly by dentists as authorized under paragraph (f) of this section. These include the following categories of endodontic services:

(A) Pulp capping.
(B) Pulpotomy and pulpectomy.
(C) Endodontic therapy.
(D) Apexification and recalcification procedures.

(E) Apicoectomy and periradicular services.

(F) Other endodontic procedures.

(v) Periodontic services. Benefits may be extended for those dental services involved in prevention and treatment of diseases affecting the supporting structures of the teeth to include periodontal prophylaxis, gingivectomy or gingivoplasty, gingival curettage, etc., when performed directly by dentists as authorized under paragraph (f) of this section. These include the following categories of periodontic services:

(A) Surgical services.
(B) Periodontal services.
(C) Other periodontal services.

(vi) Prosthodontic services. Benefits may be extended for those dental services involved in fabrication, insertion, adjustment, refinement, and repair of artificial teeth and associated tissues to include removable complete and partial dentures, fixed crowns and bridges when performed directly by dentists as authorized under paragraph (f) of this section. These include the following categories of prosthodontic services:

(A) Prosthodontics (removable).
(i) Complete and partial dentures.
(ii) Adjustments to dentures.
(iii) Repairs to complete and partial dentures.

(B) Prosthodontics (fixed).
(i) Fixed partial denture pontics.
(ii) Fixed partial denture retainers.
(iii) Other partial denture services.

(vii) Orthodontic services. Benefits may be extended for the supervision, guidance, and correction of growing or mature dentofacial structures, including those conditions that require movement of teeth or correction of malrelationships and malformations through the use of orthodontic procedures and devices when performed directly by dentists as authorized under paragraph (f) of this section to include in-process orthodontics. These include the following categories of orthodontic services:

(A) Limited orthodontic treatment.
(B) Minor treatment to control harmful habits.
(C) Interceptive orthodontic treatment.
(D) Comprehensive orthodontic treatment.
(E) Other orthodontic services.

(viii) Oral and maxillofacial surgery services. Benefits may be extended for basic surgical procedure of the extraction, reimplantation, stabilization and repositioning of teeth, alveoloplasties, incision and drainage of abscesses, suturing of wounds, biopsies, etc., when performed directly by dentists as authorized under paragraph (f) of this section. These include the following categories of oral and maxillofacial surgery services:

(A) Extractions.
(B) Surgical extractions.
(C) Other surgical procedures.
(D) Alveoloplasty—surgical preparation of ridge for denture.

(E) Surgical incision.
(F) Repair of traumatic wounds.
(G) Complicated suturing.
(H) Other repair procedures.

(ix) Exclusion of adjunctive dental care. Adjunctive dental care benefits are excluded under the TDP. For further information on adjunctive dental care benefits under TRICARE/CHAMPUS, see §199.4(e)(10).

(x) Benefit limitations and exclusions. The Director, OCHAMPUS, or designee,
may establish such exclusions and limitations as are consistent with those established by dental insurance and prepayment plans to control utilization and quality of care for the services and items covered by the TDP.

(xii) Limitation on reduction of benefits. If a reduction in benefits is planned, the Secretary of Defense, or designee, may not reduce TDP benefits without notifying the appropriate Congressional committees. If a reduction is approved, the Secretary of Defense, or designee, must wait one (1) year from the date of notice before a benefit reduction can be implemented.

(3) Cost-shares, liability and maximum coverage.—(1) Cost-shares. The following table lists maximum active duty, Selected Reserve and Individual Ready Reserve member and dependent cost-shares for covered services for participating and nonparticipating providers of care (see paragraph (f)(6) of this section for additional active duty, Selected Reserve and Individual Ready Reserve costs). These are percentages of the dental plan contractor’s determined allowable amount that the active duty, Selected Reserve and Individual Ready Reserve member or beneficiary must pay to these providers. For care received in the OCONUS service area, the ASD(HA), or designee, may pay certain cost-shares and other portions of a provider’s billed charge for enrolled dependents of active duty members (under a call or order that does not specify a period of thirty (30) days or less), and for members of the Selected Reserve (as specified in 10 U.S.C. 10143) and Individual Ready Reserve (as specified in 10 U.S.C. 10144(b)) enrolled on their own behalf.

(ii) Dental plan contractor liability. When more than twenty-five (25) percent or more than two hundred (200) enrollees in a specific five (5) digit zip code area are unable to obtain a periodic or initial (non-emergency) dentistry appointment with a network provider within twenty-one (21) calendar days and within thirty-five (35) miles of the enrollee’s place of residence, then the TRICARE Management Activity (TMA) will designate that area as “non-compliant with the access standard.” Once so designated, the dental program contractor will reimburse the beneficiary, or active duty, Selected Reserve or Individual Ready Reserve member, or the nonparticipating provider selected by enrollees in that area (or a subset of the area or nearby zip codes in other five (5) digit zip code areas as determined by TMA) at the level of the provider’s usual fees less the applicable enrollee cost-share, if any. TMA shall determine when such area becomes compliant with the access standards. This access standard and associated liability does not apply to care received in the OCONUS service area.

(iii) Maximum coverage amounts. Beneficiaries are subject to an annual maximum coverage amount for non-orthodontic dental benefits and a lifetime maximum coverage amount for orthodontics as established by the ASD(HA) or designee.

(f) Authorized providers—(1) General. Beneficiaries may seek covered services from any provider who is fully licensed and approved to provide dental care or covered anesthesia benefits in the state where the provider is located. This includes licensed dental hygienists, practicing within the scope of
their licensure, subject to any restrictions a state licensure or legislative body imposes regarding their status as independent providers of care.

(2) Authorized provider status does not guarantee payment of benefits. The fact that a provider is “authorized” is not to be construed to mean that the TDP will automatically pay a claim for services or supplies provided by such a provider. The Director, OCHAMPUS, or designee, also must determine if the patient is an eligible beneficiary, whether the services or supplies billed are authorized and medically necessary, and whether any of the authorized exclusions of otherwise qualified providers presented in this section apply.

(3) Utilization review and quality assurance. Services and supplies furnished by providers of care shall be subject to utilization review and quality assurance standards, norms, and criteria established under the TDP. Utilization review and quality assurance assessments shall be performed under the TDP consistent with the nature and level of benefits of the plan, and shall include analysis of the data and findings by the dental plan contractor from other dental accounts.

(4) Provider required. In order to be considered benefits, all services and supplies shall be rendered by, prescribed by, or furnished at the direction of, or on the order of a TDP authorized provider practicing within the scope of his or her license.

(5) Participating provider. An authorized provider may elect to participate for all TDP beneficiaries and accept the fee or charge determinations as established and made known to the provider by the dental plan contractor. The fee or charge determinations are binding upon the provider in accordance with the dental plan contractor’s procedures for participation. The authorized provider may not participate on a claim-by-claim basis. The participating provider must agree to accept, within one (1) day of a request for appointment, beneficiaries in need of emergency palliative treatment. Payment to the participating provider is based on the lower of the actual charge or the dental plan contractor’s determination of the allowable charge; however, payments to participating providers shall be in accordance with the methodology specified in paragraph (g)(2)(ii) of this section. Payment is made directly to the participating provider, and the participating provider may only charge the beneficiary the percent cost-share of the dental plan contractor’s allowable charge for those benefit categories as specified in paragraph (e) of this section, in addition to the full charges for any services not authorized as benefits.

(6) Nonparticipating provider. An authorized provider may elect to not participate for all TDP beneficiaries and request the beneficiary or active duty, Selected Reserve or Individual Ready Reserve member to pay any amount of the provider’s billed charge in excess of the dental plan contractor’s determination of allowable charges (to include the appropriate cost-share). Neither the Government nor the dental plan contractor shall have any responsibility for any amounts over the allowable charges as determined by the dental plan contractor, except where the dental plan contractor is unable to identify a participating provider of care within thirty-five (35) miles of the beneficiary’s place of residence with appointment availability within twenty-one (21) calendar days. In such instances of the nonavailability of a participating provider and in accordance with the provisions of the dental contract, the nonparticipating provider located within thirty-five (35) miles of the beneficiary’s place of residence shall be paid his or her usual fees (either by the beneficiary or the dental plan contractor if the beneficiary elected assignment of benefits), less the percent cost-share as specified in paragraph (e)(3)(i) of this section.

(i) Assignment of benefits. A nonparticipating provider may accept assignment of benefits for claims (for beneficiaries certifying their willingness to make such assignment of benefits) by filing the claims completed with the assistance of the beneficiary or active duty, Selected Reserve or Individual Ready Reserve member for direct payment by the dental plan contractor to the provider.
(ii) No assignment of benefits. A non-participating provider for all beneficiaries may request that the beneficiary or active duty, Selected Reserve or Individual Ready Reserve member file the claim directly with the dental plan contractor, making arrangements with the beneficiary or active duty, Selected Reserve or Individual Ready Reserve member for direct payment by the beneficiary or active duty. Selected Reserve or Individual Ready Reserve member.

(7) Alternative delivery system—(i) General. Alternative delivery systems may be established by the Director, OCHAMPUS, or designee, as authorized providers. Only dentists, dental hygienists and licensed anesthetists shall be authorized to provide or direct the provision of authorized services and supplies in an approved alternative delivery system.

(ii) Defined. An alternative delivery system may be any approved arrangement for a preferred provider organization, capitation plan, dental health maintenance or clinic organization, or other contracted arrangement which is approved by OCHAMPUS in accordance with requirements and guidelines.

(iii) Elective or exclusive arrangement. Alternative delivery systems may be established by contract or other arrangement on either an elective or exclusive basis for beneficiary selection of participating and authorized providers in accordance with contractual requirements and guidelines.

(iv) Provider election of participation. Otherwise authorized providers must be provided with the opportunity of applying for participation in an alternative delivery system and of achieving participation status based on reasonable criteria for timeliness of application, quality of care, cost containment, geographic location, patient availability, and acceptance of reimbursement allowance.

(v) Limitation on authorized providers. Where exclusive alternative delivery systems are established, only providers participating in the alternative delivery system are authorized providers of care. In such instances, the TDP shall continue to pay beneficiary claims for services rendered by otherwise authorized providers in accordance with established rules for reimbursement of nonparticipating providers where the beneficiary has established a patient relationship with the nonparticipating provider prior to the TDP’s proposal to subcontract with the alternative delivery system.

(vi) Charge agreements. Where the alternative delivery system employs a discounted fee-for-service reimbursement methodology or schedule of charges or rates which includes all or most dental services and procedures recognized by the American Dental Association’s Council on Dental Care Program’s Code on Dental Procedures and Nomenclature, the discounts or schedule of charges or rates for all dental services and procedures shall be extended by its participating providers to beneficiaries of the TDP as an incentive for beneficiary participation in the alternative delivery system.

(g) Benefit payment—(1) General. TDP benefits payments are made either directly to the provider or to the beneficiary or active duty. Selected Reserve or Individual Ready Reserve member, depending on the manner in which the claim is submitted or the terms of the subcontract of an alternative delivery system with the dental plan contractor.

(2) Benefit payment. Beneficiaries are not required to utilize participating providers. For beneficiaries who do use these participating providers, however, these providers shall not balance bill any amount in excess of the maximum payment allowed by the dental plan contractor for covered services. Beneficiaries using nonparticipating providers may be balance-billed amounts in excess of the dental plan contractor’s determination of allowable charges. The following general requirements for the TDP benefit payment methodology shall be met, subject to modifications and exceptions approved by the Director, OCHAMPUS, or designee:

(i) Nonparticipating providers (or the Beneficiaries or active duty. Selected Reserve or Individual Ready Reserve members for unassigned claims) shall be reimbursed at the equivalent of not less than the 50th percentile of prevailing charges made for similar services in the same locality (region) or
state, or the provider’s actual charge, whichever is lower, subject to the exception listed in paragraph (e)(3)(ii) of this section, less any cost-share amount due for authorized services.

(ii) Participating providers shall be reimbursed at the equivalent of a percentile of prevailing charges sufficiently above the 50th percentile of prevailing charges made for similar services in the same locality (region) or state as to constitute a significant financial incentive for participation, or the provider’s actual charge, whichever is lower, less any cost-share amount due for authorized services.

(3) Fraud, abuse, and conflict of interest. The provisions of §199.9 shall apply except for §199.9(e). All references to “CHAMPUS contractors”, “CHAMPUS beneficiaries” and “CHAMPUS providers” in §199.9 shall be construed to mean the “dental plan contractor”, “TDP beneficiaries” and “TPD providers” respectively for the purposes of this section. Examples of fraud include situations in which ineligible persons not enrolled in the TDP obtain care and file claims for benefits under the name and identification of a beneficiary; or when providers submit claims for services and supplies not rendered to beneficiaries; or when a participating provider bills the beneficiary for amounts over the dental plan contractor’s determination of allowable charges; or when a provider fails to collect the specified patient cost-share amount.

(h) Appeal and hearing procedures. The provisions of §199.10 shall apply except where noted in this section. All references to “CHAMPUS contractors”, “CHAMPUS beneficiaries”, “CHAMPUS participating providers” and “CHAMPUS Explanation of Benefits” in §199.10 shall be construed to mean the “dental plan contractor”, “TDP beneficiaries”, “TDP participating providers” and “Dental Explanation of Benefits or DEOB” respectively for the purposes of this section. References to “OCHAMPUSEUR” in §199.10 are not applicable to the TDP or this section.

(1) General. See §199.10(a).

(i) Initial determination—(A) Notice of initial determination and right to appeal. See §199.10(a)(1)(i).

(B) Effect of initial determination. See §199.10(a)(1)(ii).

(ii) Participation in an appeal. Participation in an appeal is limited to any party to the initial determination, including OCHAMPUS, the dental plan contractor, and authorized representatives of the parties. Any party to the initial determination, except OCHAMPUS and the dental plan contractor, may appeal an adverse determination. The appealing party is the party who actually files the appeal.

(A) Parties to the initial determination. See §§199.10(a)(2)(i) and 199.10(a)(2)(i) (A), (B), (C) and (E). In addition, a third party other than the dental plan contractor, such as an insurance company, is not a party to the initial determination and is not entitled to appeal, even though it may have an indirect interest in the initial determination.

(B) Representative. See §199.10(a)(2)(ii).

(iii) Burden of proof. See §199.10(a)(3).

(iv) Evidence in appeal and hearing cases. See §199.10(a)(4).

(v) Late filing. If a request for reconsideration, formal review, or hearing is filed after the time permitted in this section, written notice shall be issued denying the request. Late filing may be permitted only if the appealing party reasonably can demonstrate to the satisfaction of the dental plan contractor, or the Director, OCHAMPUS, or designee, that timely filing of the request was not feasible due to extraordinary circumstances over which the appealing party had no practical control. Each request for an exception to the filing requirement will be considered on its own merits. The decision of the Director, OCHAMPUS, or designee, on the request for an exception to the filing requirement shall be final.

(vi) Appealable issue. See §§199.10(a)(6), 199.10(a)(6)(i), 199.10(a)(6)(iv), including §§199.10(a)(6)(iv) (A) and (C), and 199.10(a)(6)(v) for an explanation and examples of non-appealable issues. Other examples of issues that are not appealable under this section include:

(A) The amount of the dental plan contractor-determined allowable charge since the methodology constitutes a limitation on benefits under the provisions of this section.
(B) Certain other issues on the basis that the authority for the initial determination is not vested in OCHAMPUS. Such issues include but are not limited to the following examples:

(1) A determination of a person’s enrollment in the TDP is the responsibility of the dental plan contractor and ultimate responsibility for resolving a beneficiary’s enrollment rests with the dental plan contractor. Accordingly, a disputed question of fact concerning a beneficiary’s enrollment will not be considered an appealable issue under the provisions of this section, but shall be resolved in accordance with paragraph (c) of this section and the dental plan contractor’s enrollment policies and procedures.

(2) Decisions relating to the issuance of a nonavailability statement (NAS) in each case are made by the Uniformed Services. Disputes over the need for an NAS or a refusal to issue an NAS are not appealable under this section. The one exception is when a dispute arises over whether the facts of the case demonstrate a dental emergency for which an NAS is not required. Denial of payment in this one situation is an appealable issue.

(3) Any decision or action on the part of the dental plan contractor to include a provider in their network or to designate a provider as participating is not appealable under this section. Similarly, any decision or action on the part of the dental plan contractor to exclude a provider from their network or to deny participating provider status is not appealable under this section.

(vii) Amount in dispute—(A) General. An amount in dispute is required for an adverse determination to be appealed under the provisions of this section, except as set forth or further explained in §199.10(a)(7)(i), (iii) and (iv).

(B) Calculated amount. The amount in dispute is calculated as the amount of money the dental plan contractor would pay if the services involved in the dispute were determined to be authorized benefits of the TDP. Examples of amounts of money that are excluded by this section from payments for authorized benefits include, but are not limited to:

(1) Amounts in excess of the dental plan contractor’s—determined allowable charge.

(2) The beneficiary’s cost-share amounts.

(3) Amounts that the beneficiary, or parent, guardian, or other responsible person has no legal obligation to pay.

(4) Amounts excluded under the provisions of §199.8 of this part.

(viii) Levels of appeal. See §199.10(a)(8)(i). Initial determinations involving the sanctioning (exclusion, suspension, or termination) of TDP providers shall be appealed directly to the hearing level.

(ix) Appeal decision. See §199.10(a)(9).

(2) Reconsideration. See §199.10(b).

(3) Formal review. See §199.10(c).

(4) Hearing—(1) General. See §§199.10(d) and 199.10(d)(1) through (d)(5) and (d)(7) through (d)(12) for information on the hearing process.

(ii) Authority of the hearing officer. The hearing officer, in exercising the authority to conduct a hearing under this part, will be bound by 10 U.S.C., chapter 55, and this part. The hearing officer in addressing substantive, appealable issues shall be bound by the dental benefits brochure applicable for the date(s) of service, policies, procedures, instructions and other guidelines issued by the ASD(HA), or a designee, or by the Director, OCHAMPUS, or a designee, in effect for the period in which the matter in dispute arose. A hearing officer may not establish or amend the dental benefits brochure, policy, procedures, instructions, or guidelines. However, the hearing officer may recommend reconsideration of the policy, procedures, instructions or guidelines by the ASD (HA), or a designee, when the final decision is issued in the case.

(5) Final decision. See §§199.10(e)(1) and 199.10(e)(1)(i) for information on final decisions in the appeal and hearing process, with the exception that no recommended decision shall be referred for review by ASD(HA).
§ 199.14 Provider reimbursement methods.

(a) Hospitals. The CHAMPUS-determined allowable cost for reimbursement of a hospital shall be determined on the basis of one of the following methodologies.

1. **CHAMPUS Diagnosis Related Group (DRG)-based payment system.** Under the CHAMPUS DRG-based payment system, payment for the operating costs of inpatient hospital services furnished by hospitals subject to the system is made on the basis of prospectively-determined rates and applied on a per discharge basis using DRGs. Payments under this system will include a differentiation for urban (using large urban and other urban areas) and rural hospitals and an adjustment for area wage differences and indirect medical education costs. Additional payments will be made for capital costs, direct medical education costs, and outlier cases.

   (i) **General—(A) DRGs used.** The CHAMPUS DRG-based payment system will use the same DRGs used in the most recently available grouper for the Medicare Prospective Payment System, except as necessary to recognize distinct characteristics of CHAMPUS beneficiaries and as described in instructions issued by the Director, OCHAMPUS.

   (B) **Assignment of discharges to DRGs.**

      (1) The classification of a particular discharge shall be based on the patient’s age, sex, principal diagnosis (that is, the diagnosis established, after study, to be chiefly responsible for causing the patient’s admission to the hospital), secondary diagnoses, procedures performed and discharge status. In addition, for neonatal cases (other than normal newborns) the classification shall also account for birthweight, surgery and the presence of multiple, major and other neonatal problems, and shall incorporate annual updates to these classification features.

      (2) Each discharge shall be assigned to only one DRG regardless of the number of conditions treated or services furnished during the patient’s stay.

   (C) **Basis of payment—(1) Hospital billing.** Under the CHAMPUS DRG-based payment system, hospitals are required to submit claims (including itemized charges) in accordance with §199.7(b). The CHAMPUS fiscal intermediary will assign the appropriate DRG to the claim based on the information contained in the claim. Any request from a hospital for reclassification of a claim to a higher weighted DRG must be submitted, within 60 days from the date of the initial payment, in a manner prescribed by the Director, OCHAMPUS.

   (2) **Payment on a per discharge basis.** Under the CHAMPUS DRG-based payment system, hospitals are paid a predetermined amount per discharge for inpatient hospital services furnished to CHAMPUS beneficiaries.

   (3) **Claims priced as of date of admission.** Except for interim claims submitted for qualifying outlier cases, all claims reimbursed under the CHAMPUS DRG-based payment system are to be priced as of the date of admission, regardless of when the claim is submitted.

   (4) **Payment in full.** The DRG-based amount paid for inpatient hospital services is the total CHAMPUS payment for the inpatient operating costs (as described in paragraph (a)(1)(i)(C)(5) of this section) incurred in furnishing services covered by the CHAMPUS. The full prospective payment amount is payable for each stay during which there is at least one covered day of care, except as provided in paragraph (a)(1)(iii)(E)(i)(A) of this section.

   (5) **Inpatient operating costs.** The CHAMPUS DRG-based payment system provides a payment amount for inpatient operating costs, including:

      (i) Operating costs for routine services, such as the costs of room, board, and routine nursing services;

      (ii) Operating costs for ancillary services, such as hospital radiology and laboratory services (other than physicians’ services) furnished to hospital inpatients;

      (iii) Special care unit operating costs; and

      (iv) Malpractice insurance costs related to services furnished to inpatients.

   (6) **Discharges and transfers.**

      (i) **Discharges.** A hospital inpatient is discharged when:
§ 199.14

(A) The patient is formally released from the hospital (release of the patient to another hospital as described in paragraph (a)(1)(i)(C)(6)(ii) of this section, or a leave of absence from the hospital, will not be recognized as a discharge for the purpose of determining payment under the CHAMPUS DRG-based payment system);

(B) The patient dies in the hospital; or

(C) The patient is transferred from the care of a hospital included under the CHAMPUS DRG-based payment system to a hospital or unit that is excluded from the prospective payment system.

(ii) Transfers. Except as provided under paragraph (a)(1)(i)(C)(6)(i) of this section, a discharge of a hospital inpatient is not counted for purposes of the CHAMPUS DRG-based payment system when the patient is transferred:

(A) From one inpatient area or unit of the hospital to another area or unit of the same hospital;

(B) From the care of a hospital included under the CHAMPUS DRG-based payment system to the care of another hospital paid under this system;

(C) From the care of a hospital included under the CHAMPUS DRG-based payment system to the care of another hospital that is excluded from the CHAMPUS DRG-based payment system because of participation in a statewide cost control program which is exempt from the CHAMPUS DRG-based payment system under paragraph (a)(1)(ii)(A) of this section; or

(D) From the care of a hospital included under the CHAMPUS DRG-based payment system to the care of a uniformed services treatment facility.

(iii) Payment in full to the discharging hospital. The hospital discharging an inpatient shall be paid in full under the CHAMPUS DRG-based payment system.

(iv) Payment to a hospital transferring an inpatient to another hospital. If a hospital subject to the CHAMPUS DRG-based payment system transfers an inpatient to another such hospital, the transferring hospital shall be paid a per diem rate (except that in neonatal cases other than normal newborns, the hospital will be paid at 125 percent of that per diem rate), as determined under instructions issued by TSO, for each day of the patient’s stay in that hospital, not to exceed the DRG-based payment that would have been paid if the patient had been discharged to another setting. For admissions occurring on or after October 1, 1995, the transferring hospital shall be paid twice the per diem rate for the first day of any transfer stay, and the per diem amount for each subsequent day, up to the limit described in this paragraph.

(v) Additional payments to transferring hospitals. A transferring hospital may qualify for an additional payment for extraordinary cases that meet the criteria for long-stay or cost outliers.

(D) DRG system updates. The CHAMPUS DRG-based payment system is modeled on the Medicare Prospective Payment System (PPS) and uses annually updated items and numbers from the Medicare PPS as provided for in this part and in instructions issued by the Director, OCHAMPUS. The effective date of these items and numbers shall correspond to that under the Medicare PPS except where distinctions are made in this part.

(ii) Applicability of the DRG system.

(A) Areas affected. The CHAMPUS DRG-based payment system shall apply to hospitals’ services in the fifty states, the District of Columbia, and Puerto Rico, except that any state which has implemented a separate DRG-based payment system or similar payment system in order to control costs and is exempt from the Medicare Prospective Payment System may be exempt from the CHAMPUS DRG-based payment system if it requests exemption in writing, and provided payment under such system does not exceed payment which would otherwise be made under the CHAMPUS DRG-based payment system.

(B) Services subject to the DRG-based payment system. All normally covered inpatient hospital services furnished to CHAMPUS beneficiaries by hospitals are subject to the CHAMPUS DRG-based payment system.

(C) Services exempt from the DRG-based payment system. The following hospital services, even when provided in a hospital subject to the CHAMPUS DRG-
based payment system, are exempt from the CHAMPUS DRG-based payment system. The services in paragraphs (a)(1)(ii)(C)(1) through (a)(1)(ii)(C)(4) and (a)(1)(ii)(C)(7) through (a)(1)(ii)(C)(9) of this section shall be reimbursed under the procedures in paragraph (a)(3) of this section, and the services in paragraphs (a)(1)(ii)(C)(5) and (a)(1)(ii)(C)(6) of this section shall be reimbursed under the procedures in paragraph (g) of this section.

(D) Hospitals subject to the CHAMPUS DRG-based payment system. All hospitals within the fifty states, the District of Columbia, and Puerto Rico which are certified to provide services to CHAMPUS beneficiaries are subject to the DRG-based payment system except for the following hospitals or hospital units which are exempt.

(1) Psychiatric hospitals. A psychiatric hospital which is exempt from the Medicare Prospective Payment System is also exempt from the CHAMPUS DRG-based payment system. In order for a psychiatric hospital which does not participate in Medicare to be exempt from the CHAMPUS DRG-based payment system, it must meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.

(2) Rehabilitation hospitals. A rehabilitation hospital which is exempt from the Medicare Prospective Payment System is also exempt from the CHAMPUS DRG-based payment system. In order for a rehabilitation hospital which does not participate in Medicare to be exempt from the CHAMPUS DRG-based payment system, it must meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.

(3) Psychiatric and rehabilitation units (distinct parts). A psychiatric or rehabilitation unit which is exempt from the Medicare prospective payment system is also exempt from the CHAMPUS DRG-based payment system. In order for a distinct unit which does not participate in Medicare to be exempt from the CHAMPUS DRG-based payment system, it must meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.

(4) Long-term hospitals. A long-term hospital which is exempt from the Medicare prospective payment system is also exempt from the CHAMPUS DRG-based payment system. In order for a long-term hospital which does not participate in Medicare to be exempt from the CHAMPUS DRG-based payment system, it must meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.

(1) Services provided by hospitals exempt from the DRG-based payment system.

(2) All services related to solid organ acquisition for CHAMPUS covered transplants by CHAMPUS-authorized transplantation centers.

(3) All services related to heart and liver transplantation for admissions prior to October 1, 1998, which would otherwise be paid under DRG 103 and 480, respectively.

(4) All services related to CHAMPUS covered solid organ transplantations for which there is no DRG assignment.

(5) All professional services provided by hospital-based physicians.

(6) All services provided by nurse anesthetists.

(7) All services related to discharges involving pediatric bone marrow transplants (patient under 18 at admission).

(8) All services related to discharges involving children who have been determined to be HIV seropositive (patient under 18 at admission).

(9) All services related to discharges involving pediatric cystic fibrosis (patient under 18 at admission).

(10) For admissions occurring on or after October 1, 1990, and before October 1, 1994, and for discharges occurring on or after October 1, 1997, the costs of blood clotting factor for hemophilia inpatients. An additional payment shall be made to a hospital for each unit of blood clotting factor furnished to a CHAMPUS inpatient who is hemophiliac in accordance with the amounts established under the Medicare Prospective Payment System (42 CFR 412.115).

(D) Hospitals subject to the CHAMPUS DRG-based payment system. All hospitals within the fifty states, the District of Columbia, and Puerto Rico which are certified to provide services to CHAMPUS beneficiaries are subject to the DRG-based payment system except for the following hospitals or hospital units which are exempt.

(1) Psychiatric hospitals. A psychiatric hospital which is exempt from the Medicare Prospective Payment System is also exempt from the CHAMPUS DRG-based payment system. In order for a psychiatric hospital which does not participate in Medicare to be exempt from the CHAMPUS DRG-based payment system, it must meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.

(2) Rehabilitation hospitals. A rehabilitation hospital which is exempt from the Medicare Prospective Payment System is also exempt from the CHAMPUS DRG-based payment system. In order for a rehabilitation hospital which does not participate in Medicare to be exempt from the CHAMPUS DRG-based payment system, it must meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.

(3) Psychiatric and rehabilitation units (distinct parts). A psychiatric or rehabilitation unit which is exempt from the Medicare prospective payment system is also exempt from the CHAMPUS DRG-based payment system. In order for a distinct unit which does not participate in Medicare to be exempt from the CHAMPUS DRG-based payment system, it must meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.

(4) Long-term hospitals. A long-term hospital which is exempt from the Medicare prospective payment system is also exempt from the CHAMPUS DRG-based payment system. In order for a long-term hospital which does not participate in Medicare to be exempt from the CHAMPUS DRG-based payment system, it must meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.
§ 199.14

TSO, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in §412.23 of Title 42 CFR.

(5) **Hospitals within hospitals.** A hospital within a hospital which is exempt from the CHAMPUS DRG-based payment system as a sole community hospital and has not given up that classification is exempt from the CHAMPUS DRG-based payment system. (See subpart G of 42 CFR part 412.)

(6) **Christian Science sanitoriums.** All Christian Science sanitoriums (as defined in paragraph (b)(4)(viii) of §199.6) are exempt from the CHAMPUS DRG-based payment system.

(7) **Cancer hospitals.** Any hospital which qualifies as a cancer hospital under the Medicare standards and has elected to be exempt from the Medicare prospective payment system is exempt from the CHAMPUS DRG-based payment system. (See 42 CFR 412.94.)

(8) **Hospitals outside the 50 states, the District of Columbia, and Puerto Rico.** A hospital is excluded from the CHAMPUS DRG-based payment system if it is not located in one of the fifty States, the District of Columbia, or Puerto Rico.

(9) **Hospitals which do not participate in Medicare.** It is not required that a hospital be a Medicare-participating provider in order to be an authorized CHAMPUS provider. However, any hospital which is subject to the CHAMPUS DRG-based payment system and which otherwise meets CHAMPUS requirements but which is not a Medicare-participating provider (having completed a form HCFA-1514, Hospital Request for Certification in the Medicare/Medicaid Program and a form HCFA-1561, Health Insurance Benefit Agreement) must complete a participation agreement with OCHAMPUS. By completing the participation agreement, the hospital agrees to participate on all CHAMPUS inpatient claims and to accept the CHAMPUS-determined allowable amount as payment in full for these claims. Any hospital which does not participate in Medicare and does not complete a participation agreement with OCHAMPUS will not be authorized to provide services to CHAMPUS beneficiaries.

(E) **Hospitals which do not participate in Medicare.** It is not required that a hospital be a Medicare-participating provider in order to be an authorized CHAMPUS provider. However, any hospital which is subject to the CHAMPUS DRG-based payment system and which otherwise meets CHAMPUS requirements but which is not a Medicare-participating provider (having completed a form HCFA-1514, Hospital Request for Certification in the Medicare/Medicaid Program and a form HCFA-1561, Health Insurance Benefit Agreement) must complete a participation agreement with OCHAMPUS. By completing the participation agreement, the hospital agrees to participate on all CHAMPUS inpatient claims and to accept the CHAMPUS-determined allowable amount as payment in full for these claims. Any hospital which does not participate in Medicare and does not complete a participation agreement with OCHAMPUS will not be authorized to provide services to CHAMPUS beneficiaries.

(F) **Substance Use Disorder Rehabilitation facilities.** With admissions on or after July 1, 1995, substance use disorder rehabilitation facilities, authorized under §199.6(b)(4)(xiv), are subject to the DRG-based payment system.

(iii) **Determination of payment amounts.** The actual payment for an individual claim under the CHAMPUS DRG-based payment system is calculated by multiplying the appropriate adjusted standardized amount (adjusted to account for area wage differences using the wage indexes used in the Medicare program) by a weighting factor specific to each DRG.

(A) **Calculation of DRG weights.**

(1) **Grouping of charges.** All discharge records in the database shall be grouped by DRG.

(2) **Remove DRGs 469 and 470.** Records from DRGs 469 and 470 shall be removed from the database.

(3) **Indirect medical education standardization.** To standardize the charges for the cost effects of indirect medical education factors, each teaching hospital’s charges will be divided by 1.0 plus the following ratio on a hospital-specific basis:

\[
1.43 \times \left(1 + \frac{\text{number of interns + residents}}{\text{number of beds}} \right) ^{0.5795} \times 1.0
\]
Office of the Secretary of Defense

§ 199.14

(4) Wage level standardization. To standardize the charge records for area wage differences, each charge record will be divided into labor-related and nonlabor-related portions, and the labor-related portion shall be divided by the most recently available Medicare wage index for the area. The labor-related and nonlabor-related portions will then be added together.

(5) Elimination of statistical outliers. All unusually high or low charges shall be removed from the database.

(6) Calculation of DRG average charge. After the standardization for indirect medical education, and area wage differences, an average charge for each DRG shall be computed by summing charges in a DRG and dividing that sum by the number of records in the DRG.

(7) Calculation of national average charge per discharge. A national average charge per discharge shall be calculated by summing all charges and dividing that sum by the total number of records from all DRG categories.

(8) DRG relative weights. DRG relative weights shall be calculated for each DRG category by dividing each DRG average charge by the national average charge.

(B) Empty and low-volume DRGs. For any DRG with less than ten (10) occurrences in the CHAMPUS database, the Director, TSO, or designee, has the authority to consider alternative methods for estimating CHAMPUS weights in these low-volume DRG categories.

(C) Updating DRG weights. The CHAMPUS DRG weights shall be updated or adjusted as follows:

(1) DRG weights shall be recalculated annually using CHAMPUS charge data and the methodology described in paragraph (a)(1)(iii)(A) of this section.

(2) When a new DRG is created, CHAMPUS will, if practical, calculate a weight for it using an appropriate charge sample (if available) and the methodology described in paragraph (a)(1)(iii)(A) of this section.

(3) In the case of any other charge under Medicare to an existing DRG weight (such as in connection with technology changes), CHAMPUS shall adjust its weight for that DRG in a manner comparable to the change made by Medicare.

(D) Calculation of the adjusted standardized amounts. The following procedures shall be followed in calculating the CHAMPUS adjusted standardized amounts.

(1) Differentiate large urban and other area charges. All charges in the database shall be sorted into large urban and other area groups (using the same definitions for these categories used in the Medicare program. The following procedures will be applied to each group.

(2) Indirect medical education standardization. To standardize the charges for the cost effects of indirect medical education factors, each teaching hospital’s charges will be divided by 1.0 plus the following ratio on a hospital-specific basis:

\[
1.43 \times \left[ 1.0 + \frac{\text{number of interns + residents}}{\text{number of beds}} \right]^{0.5795 - 1.0}
\]

(3) Wage level standardization. To standardize the charge records for area wage differences, each charge record will be divided into labor-related and nonlabor-related portions, and the labor-related portion shall be divided by the most recently available Medicare wage index for the area. The labor-related and nonlabor-related portions will then be added together.

(4) Apply the cost to charge ratio. Each charge is to be reduced to a representative cost by using the Medicare cost to charge ratio. This amount shall be increased by 1 percentage point in order to reimburse hospitals for bad debt expenses attributable to CHAMPUS beneficiaries.

(5) Preliminary base year standardized amount. A preliminary base year
§ 199.14

The per diem rate shall equal the DRG amount divided by the arithmetic mean length-of-stay for the DRG.

(B) Long-stay outliers. Any discharge (except for neonatal services and services in children’s hospitals) which has a length-of-stay (LOS) exceeding a threshold established in accordance with the criteria used for the Medicare Prospective Payment System as contained in 42 CFR 412.82 shall be classified as a long-stay outlier. Any discharge for neonatal services or for services in a children’s hospital which has a LOS exceeding the lesser of 1.94 standard deviations or 17 days from the DRG’s arithmetic mean LOS also shall be classified as a long-stay outlier. Long-stay outliers shall be reimbursed the DRG-based amount plus a percentage (as established for the Medicare Prospective Payment System) of the per diem rate for the DRG for each covered day beyond the long-stay outlier threshold. The per diem rate shall equal the DRG amount divided by the arithmetic mean LOS for the DRG. For admissions on or after October 1, 1997, the long stay outlier has been eliminated for all cases except children’s hospitals and neonates. For admissions on or after October 1, 1998, the long stay outlier has been eliminated for children’s hospitals and neonates.

(ii) Cost outliers. Additional payment for cost outliers shall be made only upon request by the hospital.

(A) Cost outliers except those in children’s hospitals or for neonatal services. Any discharge which has standardized costs that exceed a threshold established in accordance with the criteria used for the Medicare Prospective Payment System as contained in 42 CFR 412.84 shall qualify as a cost outlier. The standardized costs shall be calculated by multiplying the total charges by the factor described in paragraph (a)(1)(iii)(D)(4) of this section and adjusting this amount for indirect medical education costs. Cost outliers shall be reimbursed the DRG-based amount plus a percentage (as established for the Medicare Prospective Payment System) of all costs exceeding the threshold. Effective with admissions occurring on or after October 1, 1997, the standardized costs are no
longer adjusted for indirect medical education costs.

(B) Cost outliers in children’s hospitals for neonatal services. Any discharge for services in a children’s hospital or for neonatal services which has standardized costs that exceed a threshold of the greater of two times the DRG-based amount or $13,500 shall qualify as a cost outlier. The standardized costs shall be calculated by multiplying the total charges by the factor described in paragraph (a)(1)(iii)(D)(4) of this section (adjusted to include average capital and direct medical education costs) and adjusting this amount for indirect medical education costs. Cost outliers for services in children’s hospitals and for neonatal services shall be reimbursed the DRG-based amount plus a percentage (as established for the Medicare Prospective Payment System) of all costs exceeding the threshold. Effective with admissions occurring on or after October 1, 1998, standardized costs are no longer adjusted for indirect medical education costs. In addition, CHAMPUS will calculate the outlier payments that would have occurred at each of the 59 Children’s hospitals under the FY99 outlier policy for all cases that have been outliers under the FY94 policies using the most accurate data available in September 1998. A ratio will be calculated which equals the level of outlier payments that would have been made under the FY94 outlier policies and the outlier payments that would be made if the FY99 outlier policies had applied to each of these potential outlier cases for these hospitals. The ratio will be calculated across all outlier claims for the 59 hospitals and will not be hospital specific. The ratio will be used to increase cost outlier payments in FY 1999 and FY 2000, unless the hospital has a negotiated agreement with a managed care support contractor which would affect this payment. For hospitals with managed care support agreements which affect these payments, CHAMPUS will apply these payments if the increased payments would be consistent with the agreements. In FY 2000 the ratio of outlier payments (long stay and cost) that would have occurred under the FY 94 policy and actual cost outlier payments made under the FY 99 policy will be recalculated. If the ratio has changed significantly, the ratio will be revised for use in FY 2001 and thereafter. In FY 2002, the actual cost outlier cases in FY 2000 and 2001 will be reexamined. The ratio of outlier payments that would have occurred under the FY94 policy and the actual cost outlier payments made under the FY 2000 and FY 2001 policies. If the ratio has changed significantly, the ratio will be revised for use in FY 2003.

(C) Cost outliers for burn cases. All cost outliers for DRGs related to burn cases shall be reimbursed the DRG-based amount plus a percentage (as established for the Medicare Prospective Payment System) of all costs exceeding the threshold. The standardized costs and thresholds for these cases shall be calculated in accordance with §199.14(a)(1)(iii)(E)(i)(A) and §199.14(a)(1)(iii)(E)(i)(B).

(2) Wage adjustment. CHAMPUS will adjust the labor portion of the standardized amounts according to the hospital’s area wage index.

(3) Indirect medical education adjustment. The wage adjusted DRG payment will also be multiplied by 1.0 plus the hospital’s indirect medical education ratio.

(4) Children’s hospital differential. With respect to claims from children’s hospitals, the appropriate adjusted standardized amount shall also be adjusted by a children’s hospital differential.

(i) Qualifying children’s hospitals. Hospitals qualifying for the children’s hospital differential are hospitals that are exempt from the Medicare Prospective Payment System, or, in the case of hospitals that do not participate in Medicare, that meet the same criteria (as determined by the Director, OCHAMPUS, or a designee) as required for exemption from the Medicare Prospective Payment System as contained in 42 CFR 412.23.

(ii) Calculation of differential. The differential shall be equal to the difference between a specially calculated children’s hospital adjusted standardized amount and the adjusted standardized amount for fiscal year 1988. The specially calculated children’s hospital adjusted standardized amount shall be
§ 199.14  Updating the adjusted standardized amounts. Beginning in FY 1989, the adjusted standardized amounts will be updated by the Medicare annual update factor, unless the adjusted standardized amounts are recalculated.

(G) Annual cost pass-throughs.

(1) Capital costs. When requested in writing by a hospital, CHAMPUS shall reimburse the hospital its share of actual capital costs as reported annually to the CHAMPUS fiscal intermediary. Payment for capital costs shall be made annually based on the ratio of CHAMPUS inpatient days to the hospital’s total allowable capital costs. Reductions in payments for capital costs which are required under Medicare shall also be applied to payments for capital costs under CHAMPUS.

(ii) Services, facilities, or supplies provided by supplying organizations. If services, facilities, or supplies are provided to the hospital by a supplying organization related to the hospital within the meaning of Medicare Regulation §413.17, then the hospital must include in its capital-related costs, the capital-related costs of the supplying organization. However, if the supplying organization is not related to the provider within the meaning of §413.17, no part of the change to the provider may be considered a capital-related cost unless the services, facilities, or supplies are capital-related in nature and:

(A) The capital-related equipment is leased or rented by the provider;

(B) The capital-related equipment is located on the provider’s premises; and

(C) The capital-related portion of the charge is separately specified in the charge to the provider.

(2) Direct medical education costs. When requested in writing by a hospital, CHAMPUS shall reimburse the hospital its actual direct medical education costs as reported annually to the CHAMPUS fiscal intermediary. Such teaching costs must be for a teaching program approved under Medicare Regulation §413.85. Payment...
for direct medical education costs shall be made annually based on the ratio of CHAMPUS inpatient days for those beneficiaries subject to the CHAMPUS DRG-based payment system to total inpatient days applied to the hospital's total allowable direct medical education costs. Allowable direct medical education costs are those specified in Medicare Regulation § 413.85.

(3) Information necessary for payment of capital and direct medical education costs. All hospitals subject to the CHAMPUS DRG-based payment system, except for children's hospitals, may be reimbursed for allowed capital and direct medical education costs by submitting a request to the CHAMPUS contractor. Beginning October 1, 1998, such request shall be filed with CHAMPUS on or before the last day of the twelfth month following the close of the hospitals' cost reporting period, and shall cover the one-year period corresponding to the hospital's Medicare cost-reporting period. The first such request may cover a period of less than a full year—from the effective date of the CHAMPUS DRG-based payment system to the end of the hospital's Medicare cost-reporting period. All costs reported to the CHAMPUS contractor must correspond to the costs reported on the hospital's Medicare cost report. An extension of the due date for filing the request may only be granted if an extension has been granted by HCFA due to a provider's operations being significantly adversely affected due to extraordinary circumstances over which the provider has no control, such as flood or fire. If these costs change as a result of a subsequent audit by Medicare, the revised costs are to be reported to the hospital's CHAMPUS contractor within 30 days of the date the hospital is notified of the change. The request must be signed by the hospital official responsible for verifying the amounts and shall contain the following information.

(i) The hospital's name.
(ii) The hospital's address.
(iii) The hospital's CHAMPUS provider number.
(iv) The hospital's Medicare provider number.
(v) The period covered—this must correspond to the hospital's Medicare cost-reporting period.
(vi) Total inpatient days provided to all patients in units subject to DRG-based payment.
(vii) Total allowed CHAMPUS inpatient days provided in units subject to DRG-based payment.
(viii) Total allowed capital costs.
(ix) Total allowable direct medical education costs.
(x) Total full-time equivalents for:
   (A) Residents,
   (B) Interns.
(xi) Total inpatient beds as of the end of the cost-reporting period. If this has changed during the reporting period, an explanation of the change must be provided.
(xii) Title of official signing the report.
(xiii) Reporting date.
(xiv) The report shall contain a certification statement that any changes to the items in paragraphs (a)(1)(iii)(G)(iv), (vii), (viii), (ix), or (x), which are a result of an audit of the hospital's Medicare cost-report, shall be reported to CHAMPUS within thirty (30) days of the date the hospital is notified of the change.

(2) CHAMPUS mental health per diem payment system. The CHAMPUS mental health per diem payment system shall be used to reimburse for inpatient mental health hospital care in specialty psychiatric hospitals and units. Payment is made on the basis of prospectively determined rates and paid on a per diem basis. The system uses two sets of per diems. One set of per diems applies to hospitals and units that have a relatively higher number of CHAMPUS discharges. For these hospitals and units, the system uses hospital-specific per diem rates. The other set of per diems applies to hospitals and units with a relatively lower number of CHAMPUS discharges. For these hospitals and units, the system uses regional per diems, and further provides for adjustments for area wage differences and indirect medical education costs and additional pass-through payments for direct medical education costs.

(i) Applicability of the mental health per diem payment system.
§ 199.14 Hospit[258-264] and units covered. The CHAMPUS mental health per diem payment system applies to services covered (see paragraph (a)(2)(i)(B) of this section) that are provided in Medicare prospective payment system (PPS) exempt psychiatric specialty hospitals and all Medicare PPS exempt psychiatric specialty units of other hospitals. In addition, any psychiatric hospital that does not participate in Medicare, or any other hospital that has a psychiatric specialty unit that has not been so designated for exemption from the Medicare prospective payment system because the hospital does not participate in Medicare, may be designated as a psychiatric hospital or psychiatric specialty unit for purposes of the CHAMPUS mental health per diem payment system upon demonstrating that it meets the same criteria (as determined by the Director, OCHAMPUS) as required for the Medicare exemption. The CHAMPUS mental health per diem payment system does not apply to mental health services provided in other hospitals.

(B) Services covered. Unless specifically exempted, all covered hospitals' and units' inpatient claims which are classified into a mental health DRG (DRG categories 425–432, but not DRG 424) or an alcohol/drug abuse DRG (DRG categories 433–437) shall be subject to the mental health per diem payment system.

(i) Hospital-specific per diems for higher volume hospitals and units. This paragraph describes the per diem payment amounts for hospitals and units with a higher volume of CHAMPUS discharges.

(A) Per diem amount. A hospital-specific per diem amount shall be calculated for each hospital and unit with a higher volume of CHAMPUS discharges. The base period per diem amount shall be equal to the hospital's average daily charge in the base period. The base period amount, however, may not exceed the cap described in paragraph (a)(2)(ii)(A) of this section. The base period amount shall be updated in accordance with paragraph (a)(2)(iv) of this section.

(ii) Regional per diems for lower volume hospitals and units. This paragraph describes the per diem amounts for hospitals and units with a lower volume of CHAMPUS discharges.

(A) Per diem amount. A hospital-specific per diem amount shall be calculated for hospitals and units with a lower volume of CHAMPUS discharges. The base period per diem amount shall be equal to the hospital's average daily charge in the base period. The base period amount, however, may not exceed the cap described in paragraph (a)(2)(ii)(A) of this section. The base period amount shall be updated in accordance with paragraph (a)(2)(iv) of this section.

(B) Cap—(1) As it affects payment for care provided to patients prior to April 6, 1995, the base period per diem amount may not exceed the 80th percentile of the average daily charge weighted for all discharges throughout the United States from all higher volume hospitals.

(2) Applicable to payments for care provided to patients on or after April 6, 1996, the base period per diem amount may not exceed the 70th percentile of the average daily charge weighted for all discharges throughout the United States from all higher volume hospitals. For this purpose, base year charges shall be deemed to be charges during the period of July 1, 1991 to June 30, 1992, adjusted to correspond to base year (FY 1988) charges by the percentage change in average daily charges for all higher volume hospitals and units between the period of July 1, 1991 to June 30, 1992 and the base year.

(C) Review of per diem. Any hospital or unit which believes OCHAMPUS calculated a hospital-specific per diem which differs by more than $5.00 from that calculated by the hospital or unit may apply to the Director, OCHAMPUS, or a designee, for a recalculation. The burden of proof shall be on the hospital.

(ii) Regional per diems for lower volume hospitals and units. This paragraph describes the per diem amounts for hospitals and units with a lower volume of CHAMPUS discharges.

(A) Per diem amount. Hospitals and units with a lower volume of CHAMPUS patients shall be paid on the basis of a regional per diem amount, adjusted for area wages and indirect medical education. Base period regional per diems shall be calculated based upon all CHAMPUS lower volume hospitals' claims paid during the base period. Each regional per diem
Office of the Secretary of Defense § 199.14

amount shall be the quotient of all covered charges divided by all covered days of care, reported on all CHAMPUS claims from lower volume hospitals in the region paid during the base period, after having standardized for indirect medical education costs and area wage indexes and subtracted direct medical education costs. Regional per diem amounts are adjusted in accordance with paragraph (a)(2)(iii)(C) of this section. Additional pass-through payments to lower volume hospitals are made in accordance with paragraph (a)(2)(iii)(D) of this section. The regions shall be the same as the Federal census regions.

(B) Review of per diem amount. Any hospital that believes the regional per diem amount applicable to that hospital has been erroneously calculated by OCHAMPUS by more than $5.00 may submit to the Director, OCHAMPUS, or a designee, evidence supporting a different regional per diem. The burden of proof shall be on the hospital.

(C) Adjustments to regional per diems. Two adjustments shall be made to the regional per diem rates.

1. Area wage index. The same area wage indexes used for the CHAMPUS DRG-based payment system (see paragraph (a)(1)(iii)(E)(2) of this section) shall be applied to the wage portion of the applicable regional per diem rate for each day of the admission. The wage portion shall be the same as that used for the CHAMPUS DRG-based payment system.

2. Indirect medical education. The indirect medical education adjustment factors shall be calculated for teaching hospitals in the same manner as is used in the CHAMPUS DRG-based payment system (see paragraph (a)(1)(iii)(E)(3) of this section) and applied to the applicable regional per diem rate for each day of the admission.

(D) Annual cost pass-through for direct medical education. In addition to payments made to lower volume hospitals under paragraph (a)(2)(ii) of this section, CHAMPUS shall annually reimburse hospitals for actual direct medical education costs associated with services to CHAMPUS beneficiaries. This reimbursement shall be done pursuant to the same procedures as are applicable to the CHAMPUS DRG-based payment system (see paragraph (a)(1)(iii)(G) of this section).

(iv) Base period and update factors.

(A) Base period. The base period for calculating the hospital-specific and regional per diems, as described in paragraphs (a)(2)(ii) and (a)(2)(iii) of this section, is Federal fiscal year 1988. Base period calculations shall be based on actual claims paid during the period July 1, 1987 through May 31, 1988, trended forward to represent the 12-month period ending September 30, 1988 on the basis of the Medicare inpatient hospital market basket rate.

(B) Alternative hospital-specific data base. Upon application of a higher volume hospital or unit to the Director, OCHAMPUS, or a designee, the hospital or unit may have its hospital-specific base period calculations based on claims with a date of discharge (rather than date of payment) between July 1, 1987 through May 31, 1988 if it has generally experienced unusual delays in claims payments and if the use of such an alternative data base would result in a difference in the per diem amount of at least $5.00. For this purpose, the unusual delays means that the hospital’s or unit’s average time period between date of discharge and date of payment is more than two standard deviations longer than the national average.

(C) Update factors—(1) The hospital-specific per diems and the regional per diems calculated for the base period pursuant to paragraphs (a)(2)(ii) of this section shall remain in effect for federal fiscal year 1989; there will be no additional update for fiscal year 1989.

(2) Except as provided in paragraph (a)(2)(iv)(C)(3) of this section, for subsequent federal fiscal years, each per diem shall be updated by the Medicare update factor for hospitals and units exempt from the Medicare prospective payment system.

(3) As an exception to the update required by paragraph (a)(2)(iv)(C)(2) of this section, all per diems in effect at the end of fiscal year 1995 shall remain in effect, with no additional update, throughout fiscal years 1996 and 1997. For fiscal year 1998 and thereafter, the per diems in effect at the end of fiscal year 1997 will be updated in accordance with paragraph (a)(2)(iv)(C)(2).
§ 199.14

(d) Hospitals and units with hospital-specific rates will be notified of their respective rates prior to the beginning of each Federal fiscal year. New hospitals shall be notified at such time as the hospital rate is determined. The actual amounts of each regional per diem that will apply in any Federal fiscal year shall be published in the FEDERAL REGISTER at approximately the start of that fiscal year.

(v) Higher volume hospitals. This paragraph describes the classification of and other provisions pertinent to hospitals with a higher volume of CHAMPUS patients. (A) In general. Any hospital or unit that had an annual rate of 25 or more CHAMPUS discharges of CHAMPUS patients during the period July 1, 1987 through May 31, 1988 shall be considered a higher volume hospital has 25 or more CHAMPUS discharges, that hospital shall be considered to be a higher volume hospital during Federal fiscal year 1989 and all subsequent fiscal years. All other hospitals and units covered by the CHAMPUS mental health per diem payment system shall be considered lower volume hospitals.

(B) Hospitals that subsequently become higher volume hospitals. In any Federal fiscal year in which a hospital, including a new hospital (see paragraph (a)(2)(v)(C) of this section), not previously classified as a higher volume hospital has 25 or more CHAMPUS discharges, that hospital shall be considered to be a higher volume hospital during Federal fiscal year 1989 and all subsequent fiscal years. All other hospitals and units covered by the CHAMPUS mental health per diem payment system shall be considered lower volume hospitals.

(C) Special retrospective payment provision for new hospitals. For purposes of this paragraph, a new hospital is a hospital that qualifies for the Medicare exemption from the rate of increase ceiling applicable to new hospitals which are PPS-exempt psychiatric hospitals. Any new hospital that becomes a higher volume hospital, in addition to qualifying prospectively as a higher volume hospital for purposes of paragraph (a)(2)(v)(B) of this section, may additionally, upon application to the Director, OCHAMPUS, receive a retrospective adjustment. The retrospective adjustment shall be calculated so that the hospital receives the same government share payments it would have received had it been designated a higher volume hospital for the federal fiscal year in which it first had 25 or more CHAMPUS discharges and the preceding fiscal year (if it had any CHAMPUS patients during the preceding fiscal year). Such new hospitals must agree not to bill CHAMPUS beneficiaries for any additional costs beyond that determined initially.

(D) Review of classification. Any hospital or unit which OCHAMPUS erroneously fails to classify as a higher volume hospital may apply to the Director, OCHAMPUS, or a designee, for such a classification. The hospital shall have the burden of proof.

(vi) Payment for hospital based professional services. Lower volume hospitals and units may not bill separately for hospital based professional mental health services; payment for those services is included in the per diems. Higher volume hospitals and units, whether they billed CHAMPUS separately for hospital based professional mental health services or included those services in the hospital’s billing to CHAMPUS, shall continue the practice in effect during the period July 1, 1987 to May 31, 1988 (or other data base period used for calculating the hospital’s or unit’s per diem), except that any such hospital or unit may change its prior practice (and obtain an appropriate revision in its per diem) by providing to OCHAMPUS notice in accordance with procedures established by the Director, OCHAMPUS, or a designee.
(vii) **Leave days.** CHAMPUS shall not pay for days where the patient is absent on leave from the specialty psychiatric hospital or unit. The hospital must identify these days when claiming reimbursement. CHAMPUS shall not count a patient’s leave of absence as a discharge in determining whether a facility should be classified as a higher volume hospital pursuant to paragraph (a)(2)(v) of this section.

(viii) **Exemptions from the CHAMPUS mental health per diem payment system.** The following providers and procedures are exempt from the CHAMPUS mental health per diem payment system.

(A) **Non-specialty providers.** Providers of inpatient care which are not either psychiatric hospitals or psychiatric specialty units as described in paragraph (a)(2)(i)(A) of this section are exempt from the CHAMPUS mental health per diem payment system. Such providers should refer to paragraph (a)(1) of this section for provisions pertinent to the CHAMPUS DRG-based payment system.

(B) **DRG 424.** Admissions for operating room procedures involving a principal diagnosis of mental illness (services which group into DRG 424) are exempt from the per diem payment system. They will be reimbursed pursuant to the provisions of paragraph (a)(3) of this section.

(C) **Non-mental health services.** Admissions for non-mental health procedures in specialty psychiatric hospitals and units are exempt from the per diem payment system. They will be reimbursed pursuant to the provisions of paragraph (a)(3) of this section.

(D) **Sole community hospitals.** Any hospital which has qualified for special treatment under the Medicare prospective payment system as a sole community hospital and has not given up that classification is exempt.

(E) **Hospitals outside the U.S.** A hospital is exempt if it is not located in one of the 50 states, the District of Columbia or Puerto Rico.

(ix) **Per diem payment for psychiatric and substance use disorder rehabilitation partial hospitalization services—(A) In general.** Psychiatric and substance use disorder rehabilitation partial hospitalization services authorized by §199.4(b)(10) and (e)(4) and provided by institutional providers authorized under §199.6(b)(4)(xii) and (b)(4)(xiv), are reimbursed on the basis of prospectively determined, all-inclusive per diem rates. The per diem payment amount must be accepted as payment in full for all institutional services provided, including board, routine nursing services, ancillary services (includes art, music, dance, occupational and other such therapies), psychological testing and assessments, overhead and any other services for which the customary practice among similar providers is included as part of the institutional charges.

(B) **Services which may be billed separately.** The following services are not considered as included within the per diem payment amount and may be separately billed when provided by an authorized independent professional provider:

(1) **Psychotherapy sessions not included.** Professional services provided by an authorized professional provider (who is not employed by or under contract with the partial hospitalization program) for purposes of providing clinical patient care to a patient in the partial hospitalization program are not included in the per diem rate. They may be separately billed. Professional mental health benefits are limited to a maximum of one session (60 minutes individual, 90 minutes family, etc.) per authorized treatment day not to exceed five sessions in any calendar week.

(2) **Non-mental health related medical services.** Those services not normally included in the evaluation and assessment of a partial hospitalization program, non-mental health related medical services, may be separately billed when provided by an authorized independent professional provider. This includes ambulance services when medically necessary for emergency transport.

(C) **Per diem rate.** For any full day partial hospitalization program (minimum of 6 hours), the maximum per diem payment amount is 40 percent of the average inpatient per diem amount per case established under the CHAMPUS mental health per diem reimbursement system for both high and low volume psychiatric hospitals and units (as defined in §199.14(a)(2)) for the
§ 199.14 32 CFR Ch. I (7–1–02 Edition)

fiscal year. A partial hospitalization program of less than 6 hours (with a minimum of three hours) will be paid a per diem rate of 75 percent of the rate for a full-day program.

(D) Other requirements. No payment is due for leave days, for days in which treatment is not provided, or for days in which the duration of the program services was less than three hours.

(3) Billed charges and set rates. The allowable costs for authorized care in all hospitals not subject to the CHAMPUS DRG-based payment system or the CHAMPUS mental health per diem payment system shall be determined on the basis of billed charges or set rates. Under this procedure the allowable costs may not exceed the lower of:

(i) The actual charge for such service made to the general public; or

(ii) The allowed charge applicable to the policyholders or subscribers of the CHAMPUS fiscal intermediary for comparable services under comparable circumstances, when extended to CHAMPUS beneficiaries by consent or agreement; or

(iii) The allowed charge applicable to the citizens of the community or state as established by local or state regulatory authority, excluding title XIX of the Social Security Act or other welfare program, when extended to CHAMPUS beneficiaries by consent or agreement.

(i) CHAMPUS discount rates. The CHAMPUS-determined allowable cost for authorized care in any hospital may be based on discount rates established under paragraph (i) of this section.

(b) Skilled Nursing Facilities (SNFs). The CHAMPUS-determined allowable cost for reimbursement of a SNF shall be determined on the same basis as for hospitals which are not subject to the CHAMPUS DRG-based payment system.

(c) Reimbursement for Other Than Hospitals and SNFs. The Director, OCHAMPUS, or a designee, shall establish such other methods of determining allowable cost or charge reimbursement for those institutions, other than hospitals and SNFs, as may be required.

(d) Payment of institutional facility costs for ambulatory surgery. (1) In general. CHAMPUS pays institutional facility costs for ambulatory surgery on the basis of prospectively determined amounts, as provided in this paragraph. This payment method is similar to that used by the Medicare program for ambulatory surgery. This paragraph applies to payment for institutional charges for ambulatory surgery provided in hospitals and freestanding ambulatory surgical centers. It does not apply to professional services. A list of ambulatory surgery procedures subject to the payment method set forth in this paragraph shall be published periodically by the Director, OCHAMPUS. Payment to freestanding ambulatory surgery centers is limited to these procedures.

(2) Payment in full. The payment provided for under this paragraph is the payment in full for services covered by this paragraph. Facilities may not charge beneficiaries for amounts, if any, in excess of the payment amounts determined pursuant to this paragraph.

(3) Calculation of standard payment rates. Standard payment rates are calculated for groups of procedures under the following steps:

(i) Step 1: Calculate a median standardized cost for each procedure. For each ambulatory surgery procedure, a median standardized cost will be calculated on the basis of all ambulatory surgery charges nationally under CHAMPUS during a recent one-year base period. The steps in this calculation include standardizing for local labor costs by reference to the same wage index and labor/non-labor-related cost ratio as applies to the facility under Medicare, applying a cost-to-charge ratio, calculating a median cost for each procedure, and updating the year for which the payment rates will be in effect by the Consumer Price Index-Urban. In applying a cost-to-charge ratio, the Medicare cost-to-charge ratio for freestanding ambulatory surgery centers (FASCs) will be used for all charges from FASCs, and the Medicare cost-to-charge ratio for hospital outpatient settings will be used for all charges from hospitals.

(ii) Step 2: Grouping procedures. Procedures will then be placed into one of ten groups by their median per procedure cost, starting with $0 to $299 for group 1 and ending with $1000 to $1299.
for group 9 and $1300 and above for group 10, with groups 2 through 8 set on the basis of $100 fixed intervals.

(iii) Step 3: Adjustments to groups. The Director, OCHAMPUS may make adjustments to the groupings resulting from step 2 to account for any ambulatory surgery procedures for which there were insufficient data to allow a grouping or to correct for any anomalies resulting from data or statistical factors or other special factors that fairness requires be specially recognized. In making any such adjustments, the Director may take into consideration the placing of particular procedures in the ambulatory surgery groups under Medicare.

(iv) Step 4: standard payment amount per group. The standard payment amount per group will be the volume weighted median per procedure cost for the procedures in that group. For cases in which the standard payment amount per group exceeds the CHAMPUS-determined inpatient allowable amount, the Director, TSO or his designee, may make adjustments.

(v) Step 5: Actual payments. Actual payment for a procedure will be the standard payment amount for the group which covers that procedure, adjusted for local labor costs by reference to the same labor/non-labor-related cost ratio and hospital wage index as used for ambulatory surgery centers by Medicare.

(4) Multiple procedures. In cases in which authorized multiple procedures are performed during the same operative session, payment shall be based on 100 percent of the payment amount for the procedure with the highest ambulatory surgery payment amount, plus, for each other procedure performed during the session, 50 percent of its payment amount.

(5) Annual updates. The standard payment amounts will be updated annually by the same update factor as is used in the Medicare annual updates for ambulatory surgery center payments.

(6) Recalculation of rates. The Director, OCHAMPUS may periodically recalculate standard payment rates for ambulatory surgery using the steps set forth in paragraph (d)(3) of this section.

(e) Reimbursement of Birthing Centers.

(1) Reimbursement for maternity care and childbirth services furnished by an authorized birthing center shall be limited to the lower of the CHAMPUS established all-inclusive rate or the center’s most-favored all-inclusive rate.

(2) The all-inclusive rate shall include the following to the extent that they are usually associated with a normal pregnancy and childbirth: Laboratory studies, prenatal management, labor management, delivery, postpartum management, newborn care, birth assistant, certified nurse-midwife professional services, physician professional services, and the use of the facility.

(3) The CHAMPUS established all-inclusive rate is equal to the sum of the CHAMPUS area prevailing professional charge for total obstetrical care for a normal pregnancy and delivery and the sum of the average CHAMPUS allowable institutional charges for supplies, laboratory, and delivery room for a hospital inpatient normal delivery. The CHAMPUS established all-inclusive rate areas will coincide with those established for prevailing professional charges and will be updated concurrently with the CHAMPUS area prevailing professional charge database.

(4) Extraordinary maternity care services, when otherwise authorized, may be reimbursed at the lesser of the billed charge or the CHAMPUS allowable charge.

(5) Reimbursement for an incomplete course of care will be limited to claims for professional services and tests where the beneficiary has been screened but rejected for admission into the birthing center program, or where the woman has been admitted but is discharged from the birthing center program prior to delivery, adjudicated as individual professional services and items.

(6) The beneficiary’s share of the total reimbursement to a birthing center is limited to the cost-share amount plus the amount billed for non-covered services and supplies.

(f) Reimbursement of Residential Treatment Centers. The CHAMPUS rate is the per diem rate that CHAMPUS will authorize for all mental health services rendered to a patient and the patient’s...
family as part of the total treatment plan submitted by a CHAMPUS-approved RTC, and approved by the Director, OCHAMPUS, or designee.

(1) The all-inclusive per diem rate for RTCs operating or participating in CHAMPUS during the base period of July 1, 1987, through June 30, 1988, will be the lowest of the following conditions:

(i) The CHAMPUS rate paid to the RTC for all-inclusive services as of June 30, 1988, adjusted by the Consumer Price Index—Urban (CPI–U) for medical care as determined applicable by the Director, OCHAMPUS, or designee; or

(ii) The per diem rate accepted by the RTC from any other agency or organization (public or private) that is high enough to cover one-third of the total patient days during the 12-month period ending June 30, 1988, adjusted by the CPI–U; or

(iii) An OCHAMPUS determined capped per diem amount not to exceed the 80th percentile of all established CHAMPUS RTC rates nationally, weighted by total CHAMPUS days provided at each rate during the base period discussed in paragraph (f)(1) of this section.

(2) The all-inclusive per diem rates for RTCs which began operation after June 30, 1988, or began operation before July 1, 1988, but had less than 6 months of operation by June 30, 1988, will be calculated based on the lower of the per diem rate accepted by the RTC that is high enough to cover one-third of the total patient days during its first 6 to 12 consecutive months of operation, or the CHAMPUS determined capped amount. Rates for RTCs beginning operation prior to July 1, 1988, will be adjusted by an appropriate CPI–U inflation factor for the period ending June 30, 1988. A period of less than 12 months will be used only when the RTC has been in operation for less than 12 months. Once a full 12 months is available, the rate will be recalculated.

(3) For care on or after April 6, 1995, the per diem amount may not exceed a cap of the 70th percentile of all established Federal fiscal year 1994 RTC rates nationally, weighted by total CHAMPUS days provided at each rate during the first half of Federal fiscal year 1994, and updated to FY95. For Federal fiscal years 1996 and 1997, the cap shall remain unchanged. For Federal fiscal years after fiscal year 1997, the cap shall be adjusted by the Medicare update factor for hospitals and units exempt from the Medicare prospective payment system.

(4) All educational costs, whether they include routine education or special education costs, are excluded from reimbursement except when appropriate education is not available, or not payable by, a cognizant public entity.

(i) The RTC shall exclude educational costs from its daily costs.

(ii) The RTC’s accounting system must be adequate to assure CHAMPUS is not billed for educational costs.

(iii) The RTC may request payment of educational costs on an individual case basis from the Director, OCHAMPUS, or designee, when appropriate education is not available from, or not payable by, a cognizant public entity. To qualify for reimbursement of educational costs in individual cases, the RTC shall comply with the application procedures established by the Director, OCHAMPUS, or designee, including, but not limited to, the following:

(A) As part of its admission procedures, the RTC must counsel and assist the beneficiary and the beneficiary’s family in the necessary procedures for assuring their rights to a free and appropriate public education.

(B) The RTC must document any reasons why an individual beneficiary cannot attend public educational facilities and, in such a case, why alternative educational arrangements have not been provided by the cognizant public entity.

(C) If reimbursement of educational costs is approved for an individual beneficiary by the Director, OCHAMPUS, or designee, such educational costs shall be shown separately from the RTC’s daily costs on the CHAMPUS claim. The amount paid shall not exceed the RTC’s most-favorable rate to
any other patient, agency, or organization for special or general educational services whichever is appropriate.

(D) If the RTC fails to request CHAMPUS approval of the educational costs on an individual case, the RTC agrees not to bill the beneficiary or the beneficiary’s family for any amounts disallowed by CHAMPUS. Requests for payment of educational costs must be referred to the Director, OCHAMPUS, or designee for review and a determination of the applicability of CHAMPUS benefits.

(5) Subject to the applicable RTC cap, adjustments to the RTC rates may be made annually.

(i) For Federal fiscal years through 1995, the adjustment shall be based on the Consumer Price Index-Urban (CPI-U) for medical care as determined applicable by the Director, OCHAMPUS.

(ii) For purposes of rates for Federal fiscal years 1996 and 1997:

(A) For any RTC whose 1995 rate was at or above the thirtieth percentile of all established Federal fiscal year 1995 RTC rates normally, weighted by total CHAMPUS days provided at each rate during the first half of Federal fiscal year 1994, that rate shall remain in effect, with no additional update, throughout fiscal years 1996 and 1997; and

(B) For any RTC whose 1995 rate was below the 30th percentile level determined under paragraph (f)(5)(i)(A) of this section, the rate shall be adjusted by the lesser of: the CPI-U for medical care, or the amount that brings the rate up to that 30th percentile level.

(iii) For subsequent Federal fiscal years after fiscal year 1997, RTC rates shall be updated by the Medicare update factor for hospitals and units exempt from the Medicare prospective payment system.

(6) For care provided on or after July 1, 1995, CHAMPUS will not pay for days in which the patient is absent on leave from the RTC. The RTC must identify these days when claiming reimbursement.

(g) Reimbursement of hospice programs. Hospice care will be reimbursed at one of four predetermined national CHAMPUS rates based on the type and intensity of services furnished to the beneficiary. A single rate is applicable for each day of care except for continuous home care where payment is based on the number of hours of care furnished during a 24-hour period. These rates will be adjusted for regional differences in wages using wage indices for hospice care.

1. National hospice rates. CHAMPUS will use the national hospice rates for reimbursement of each of the following levels of care provided by or under arrangement with a CHAMPUS approved hospice program:

(i) Routine home care. The hospice will be paid the routine home care rate for each day the patient is at home, under the care of the hospice, and not receiving continuous home care. This rate is paid without regard to the volume or intensity of routine home care services provided on any given day.

(ii) Continuous home care. The hospice will be paid the continuous home care rate when continuous home care is provided. The continuous home care rate is divided by 24 hours in order to arrive at an hourly rate.

(A) A minimum of 8 hours of care must be provided within a 24-hour day starting and ending at midnight.

(B) More than half of the total actual hours being billed for each 24-hour period must be provided by either a registered or licensed practical nurse.

(C) Homemaker and home health aide services may be provided to supplement the nursing care to enable the beneficiary to remain at home.

(D) For every hour or part of an hour of continuous care furnished, the hourly rate will be reimbursed to the hospice up to 24 hours a day.

(iii) Inpatient respite care. The hospice will be paid at the inpatient respite care rate for each day on which the beneficiary is in an approved inpatient facility and is receiving respite care.

(A) Payment for respite care may be made for a maximum of 5 days at a time, including the date of admission but not counting the date of discharge.

(B) For every hour or part of an hour of continuous care furnished, the hourly rate will be reimbursed to the hospice up to 24 hours a day.

2. Payment for the sixth and any subsequent days is to be made at the routine home care rate.
§ 199.14  32 CFR Ch. I (7–1–02 Edition)

(iv) General inpatient care. Payment at the inpatient rate will be made when general inpatient care is provided for pain control or acute or chronic symptom management which cannot be managed in other settings. None of the other fixed payment rates (i.e., routine home care) will be applicable for a day on which the patient receives general inpatient care except on the date of discharge.

(v) Date of discharge. For the day of discharge from an inpatient unit, the appropriate home care rate is to be paid unless the patient dies as an inpatient. When the patient is discharged deceased, the inpatient rate (general or respite) is to be paid for the discharge date.

(2) Use of Medicare rates. CHAMPUS will use the most current Medicare rates to reimburse hospice programs for services provided to CHAMPUS beneficiaries. It is CHAMPUS’ intent to adopt changes in the Medicare reimbursement methodology as they occur; e.g., Medicare’s adoption of an updated, more accurate wage index.

(3) Physician reimbursement. Payment is dependent on the physician’s relationship with both the beneficiary and the hospice program.

(i) Physicians employed by, or contracted with, the hospice. (A) Administrative and supervisory activities (i.e., establishment, review and updating of plans of care, supervising care and services, and establishing governing policies) are included in the adjusted national payment rate.

(B) Direct patient care services are paid in addition to the adjusted national payment rate.

(ii) Independent attending physician. Patient care services rendered by an independent attending physician (a physician who is not considered employed by or under contract with the hospice) are not part of the hospice benefit.

(A) Attending physician may bill in his/her own right.

(B) Services will be subject to the appropriate allowable charge methodology.

(C) Reimbursement is not counted toward the hospice cap limitation.

(D) Services provided by an independent attending physician must be coordinated with any direct care services provided by hospice physicians.

(E) The hospice must notify the CHAMPUS contractor of the name of the physician whenever the attending physician is not a hospice employee.

(iii) Voluntary physician services. No payment will be allowed for physician services furnished voluntarily (both physicians employed by, and under contract with, the hospice and independent attending physicians). Physicians may not discriminate against CHAMPUS beneficiaries; e.g., designate all services rendered to non-CHAMPUS patients as volunteer and at the same time bill for CHAMPUS patients.

(4) Unrelated medical treatment. Any covered CHAMPUS services not related to the treatment of the terminal condition for which hospice care was elected will be paid in accordance with standard reimbursement methodologies; i.e., payment for these services will be subject to standard deductible and cost-sharing provisions under the CHAMPUS. A determination must be made whether or not services provided are related to the individual’s terminal illness. Many illnesses may occur when an individual is terminally ill which are brought on by the underlying condition of the ill patient. For example, it is not unusual for a terminally ill patient to develop pneumonia or some other illness as a result of his or her weakened condition. Similarly, the setting of bones after fractures occur in a bone cancer patient would be treatment of a related condition. Thus, if the treatment or control of an upper respiratory tract infection is due to the weakened state of the terminal patient, it will be considered a related condition, and as such, will be included in the hospice daily rates.

(5) Cap amount. Each CHAMPUS-approved hospice program will be subject
Office of the Secretary of Defense

§ 199.14

to a cap on aggregate CHAMPUS payments from November 1 through October 31 of each year, hereafter known as "the cap period."

(i) The cap amount will be adjusted annually by the percent of increase or decrease in the medical expenditure category of the Consumer Price Index for all urban consumers (CPI-U).

(ii) The aggregate cap amount (i.e., the statutory cap amount times the number of CHAMPUS beneficiaries electing hospice care during the cap period) will be compared with total actual CHAMPUS payments made during the same cap period.

(iii) Payments in excess of the cap amount must be refunded by the hospice program. The adjusted cap amount will be obtained from the Health Care Financing Administration (HCFA) prior to the end of each cap period.

(iv) Calculation of the cap amount for a hospice which has not participated in the program for an entire cap period (November 1 through October 31) will be based on a period of at least 12 months but no more than 23 months. For example, the first cap period for a hospice entering the program on October 1, 1994, would run from October 1, 1994 through October 31, 1995. Similarly, the first cap period for hospice providers entering the program after November 1, 1993 but before November 1, 1994 would end October 31, 1995.

(6) Inpatient limitation. During the 12-month period beginning November 1 of each year and ending October 31, the aggregate number of inpatient days, both for general inpatient care and respite care, may not exceed 20 percent of the aggregate total number of days of hospice care provided to all CHAMPUS beneficiaries during the same period.

(i) If the number of days of inpatient care furnished to CHAMPUS beneficiaries exceeds 20 percent of the total days of hospice care to CHAMPUS beneficiaries, the total payment for inpatient care is determined as follows:

(A) Calculate the ratio of the maximum number of allowable inpatient days of the actual number of inpatient care days furnished by the hospice to Medicare patients.

(B) Multiply this ratio by the total reimbursement for inpatient care made by the CHAMPUS contractor.

(C) Multiply the number of actual inpatient days in excess of the limitation by the routine home care rate.

(D) Add the amounts calculated in paragraphs (g)(6)(i) (B) and (C) of this section.

(ii) Compare the total payment for inpatient care calculated in paragraph (g)(6)(i)(D) of this section to actual payments made to the hospice for inpatient care during the cap period.

(iii) Payments in excess of the inpatient limitation must be refunded by the hospice program.

(7) Hospice reporting responsibilities. The hospice is responsible for reporting the following data within 30 days after the end of the cap period:

(i) Total reimbursement received and receivable for services furnished CHAMPUS beneficiaries during the cap period, including physician’s services not of an administrative or general supervisory nature.

(ii) Total reimbursement received and receivable for general inpatient care and inpatient respite care furnished to CHAMPUS beneficiaries during the cap period.

(iii) Total number of inpatient days furnished to CHAMPUS hospice patients (both general inpatient and inpatient respite days) during the cap period.

(iv) Total number of CHAMPUS hospice days (both inpatient and home care) during the cap period.

(v) Total number of beneficiaries electing hospice care. The following rules must be adhered to by the hospice in determining the number of CHAMPUS beneficiaries who have elected hospice care during the period:

(A) The beneficiary must not have been counted previously in either another hospice’s cap or another reporting year.

(B) The beneficiary must file an initial election statement during the period beginning September 28 of the previous cap year through September 27 of the current cap year in order to be counted as an electing CHAMPUS beneficiary during the current cap year.

(C) Once a beneficiary has been included in the calculation of a hospice cap amount, he or she may not be included in the cap for that hospice again, even if the number of covered
days in a subsequent reporting period exceeds that of the period where the beneficiary was included.

(D) There will be proportional application of the cap amount when a beneficiary elects to receive hospice benefits from two or more different CHAMPUS-certified hospices. A calculation must be made to determine the percentage of the patient’s length of stay in each hospice relative to the total length of hospice stay.

(8) Reconsideration of cap amount and inpatient limit. A hospice dissatisfied with the contractor’s calculation and application of its cap amount and/or inpatient limitation may request and obtain a contractor review if the amount of program reimbursement in controversy—with respect to matters which the hospice has a right to review—is at least $1000. The administrative review by the contractor of the calculation and application of the cap amount and inpatient limitation is the only administrative review available. These calculations are not subject to the appeal procedures set forth in §199.10. The methods and standards for calculation of the hospice payment rates established by CHAMPUS, as well as questions as to the validity of the applicable law, regulations or CHAMPUS decisions, are not subject to administrative review, including the appeal procedures of §199.10.

(9) Beneficiary cost-sharing. There are no deductibles under the CHAMPUS hospice benefit. CHAMPUS pays the full cost of all covered services for the terminal illness, except for small cost-share amounts which may be collected by the individual hospice for outpatient drugs and biologicals and inpatient respite care.

(i) The patient is responsible for 5 percent of the cost of outpatient drugs or $5 toward each prescription, whichever is less. Additionally, the cost of prescription drugs (drugs or biologicals) may not exceed that which a prudent buyer would pay in similar circumstances; that is, a buyer who refuses to pay more than the going price for an item or service and also seeks to economize by minimizing costs.

(ii) For inpatient respite care, the cost-share for each respite care day is equal to 5 percent of the amount CHAMPUS has estimated to be the cost of respite care, after adjusting the national rate for local wage differences.

(iii) The amount of the individual cost-share liability for respite care during a hospice cost-share period may not exceed the Medicare inpatient hospital deductible applicable for the year in which the hospice cost-share period began. The individual hospice cost-share period begins on the first day an election is in effect for the beneficiary and ends with the close of the first period of 14 consecutive days on each of which an election is not in effect for the beneficiary.

(b) Reimbursement of individual health care professionals and other non-institutional, non-professional providers. The CHAMPUS-determined reasonable charge (the amount allowed by CHAMPUS) for the service of an individual health care professional or other non-institutional, non-professional provider (even if employed by or under contract to an institutional provider) shall be determined by one of the following methodologies, that is, whichever is in effect in the specific geographic location at the time covered services and supplies are provided to a CHAMPUS beneficiary.

(1) Allowable charge method—(i) Introduction—(A) In general. The allowable charge method is the preferred and primary method for reimbursement of individual health care professionals and other non-institutional health care providers (covered by 10 U.S.C. 1079(h)(1)). The allowable charge for authorized care shall be the lower of the billed charge or the local CHAMPUS Maximum Allowable Charge (CMAC).

(B) CHAMPUS Maximum Allowable Charge. Beginning in calendar year 1992, prevailing charge levels and appropriate charge levels will be calculated on a national level. There will then be calculated a national CHAMPUS Maximum Allowable Charge (CMAC) level for each procedure, which shall be the lesser of the national prevailing charge level or the national appropriate charge level. The national CMAC will then be adjusted for localities in accordance with paragraph (g)(1)(iv) of this section.
Office of the Secretary of Defense

§ 199.14

(C) Limits on balance billing by non-participating providers. Nonparticipating providers may not balance bill a beneficiary an amount which exceeds the applicable balance billing limit. The balance billing limit shall be the same percentage as the Medicare limiting charge percentage for nonparticipating physicians. The balance billing limit may be waived by the Director, OCHAMPUS on a case-by-case basis if requested by the CHAMPUS beneficiary (or sponsor) involved. A decision by the Director to waive or not waive the limit in any particular case is not subject to the appeal and hearing procedures of §199.10.

(D) Special rule for TRICARE Prime Enrollees. In the case of a TRICARE Prime enrollee (see section 199.17) who receives authorized care from a nonparticipating provider, the CHAMPUS determined reasonable charge will be the CMAC level as established in paragraph (h)(1)(i)(B) of this section plus any balance billing amount up to the balance billing limit as referred to in paragraph (h)(1)(i)(C) of this section. The authorization for such care shall be pursuant to the procedures established by the Director, OCHAMPUS (also referred to as the TRICARE Support Office).

(ii) Prevailing charge level. (A) Beginning in calendar year 1992, the prevailing charge level shall be calculated on a national basis.

(B) The national prevailing charge level referred to in paragraph (g)(1)(i)(A) of this section is the level that does not exceed the amount equivalent to the 80th percentile of billed charges made for similar services during the base period. The 80th percentile of charges shall be determined on the basis of statistical data and methodology acceptable to the Director, OCHAMPUS (or a designee).

(C) For purposes of paragraph (g)(1)(i)(B) of this section, the base period shall be a period of 12 calendar months and shall be adjusted once a year, unless the Director, OCHAMPUS, determines that a different period for adjustment is appropriate and publishes a notice to that effect in the FEDERAL REGISTER.

(iii) Appropriate charge level. Beginning in calendar year 1992, the appropriate charge level shall be calculated on a national basis. The appropriate charge level for each procedure is the product of the two-step process set forth in paragraphs (g)(1)(ii)(A) and (B) of this section. This process involves comparing the prior year's CMAC with the fully phased in Medicare fee. For years after the Medicare fee has been fully phased in, the comparison shall be to the current year Medicare fee. For any particular procedure for which comparable Medicare fee and CHAMPUS data are unavailable, but for which alternative data are available that the Director, OCHAMPUS (or designee) determines provide a reasonable approximation of relative value or price, the comparison may be based on such alternative data.

(A) Step 1: Procedures classified. All procedures are classified into one of three categories, as follows:

(1) Overpriced procedures. These are the procedures for which the prior year's national CMAC exceeds the Medicare fee.

(2) Other procedures. These are procedures subject to the allowable charge method that are not included in either the overpriced procedures group or the underpriced procedures group.

(3) Underpriced procedures. These are the procedures for which the prior year's national CMAC is less than the Medicare fee.

(B) Step 2: Calculating appropriate charge levels. For each year, appropriate charge levels will be calculated by adjusting the prior year's CMAC as follows:

(1) For overpriced procedures, the appropriate charge level for each procedure shall be the prior year's CMAC, reduced by the lesser of: the percentage by which it exceeds the Medicare fee or fifteen percent.

(2) For other procedures, the appropriate charge level for each procedure shall be the same as the prior year's CMAC.

(3) For underpriced procedures, the appropriate charge level for each procedure shall be the prior year's CMAC, increased by the lesser of: the percentage by which it is exceeded by the Medicare fee or the Medicare Economic Index.
§ 199.14 32 CFR Ch. I (7–1–02 Edition)

(C) Special rule for cases in which the CHAMPUS appropriate charge was prematurely reduced. In any case in which a recalculation of the Medicare fee results in a Medicare rate higher than the CHAMPUS appropriate charge for a procedure that had been considered an overpriced procedure, the reduction in the CHAMPUS appropriate charge shall be restored up to the level of the recalculated Medicare rate.

(D) Special rule for cases in which the national CMAC is less than the Medicare rate.

NOTE: This paragraph will be implemented when CMAC rates are published.

In any case in which the national CMAC calculated in accordance with paragraphs (h)(1)(i) through (iii) of this section is less than the Medicare rate, the Director, TSO, may determine that the use of the Medicare Economic Index under paragraph (h)(1)(iii)(B) of this section will result in a CMAC rate below the level necessary to assure that beneficiaries will retain adequate access to health care services. Upon making such a determination, the Director, TSO, may increase the national CMAC to a level not greater than the Medicare rate.

(iv) Calculating CHAMPUS Maximum Allowable Charge levels for localities.

(A) In general. The national CHAMPUS Maximum Allowable Charge level for each procedure will be adjusted for localities using the same (or similar) geographical areas and the same geographic adjustment factors as are used for determining allowable charges under Medicare.

(B) Special locality-based phase-in provision.

(1) In general. Beginning with the recalculation of CMACs for calendar year 1993, the CMAC in a locality will not be less than 72.25 percent of the maximum charge level in effect for that locality on December 31, 1991. For recalculation of CMACs for calendar years after 1993, the CMAC in a locality will not be less than 85 percent of the CMAC in effect for that locality at the end of the prior calendar year.

(2) Exception. As an exception to the paragraph (g)(1)(iv)(C)(1) of this section, the waiver required by that paragraph shall not be applicable in the case of any procedure code for which there were not CHAMPUS claims in the locality accounting for at least 50 services.

(C) Special locality-based waivers of reductions to assure adequate access to care. Beginning with the recalculation of CMACs for calendar year 1993, in the case of any procedure classified as an overpriced procedure pursuant to paragraph (g)(1)(iii)(A)(1) of this section, a reduction in the CMAC in a locality below the level in effect at the end of the previous calendar year that would otherwise occur pursuant to paragraphs (g)(1)(ii) and (g)(1)(iv) of this section may be waived pursuant to paragraph (g)(1)(iii)(C) of this section.

(1) Waiver based on balanced billing rates. Except as provided in paragraph (g)(1)(iv)(C)(2) of this section such a reduction will be waived if there has been excessive balance billing in the locality for the procedure involved. For this purpose, the extent of balance billing will be determined based on a review of all services under the procedure code involved in the prior year (or most recent period for which data are available). If the number of services for which balance billing was not required was less than 60 percent of all services provided, the Director will determine that there was excessive balance billing with respect to that procedure in that locality and will waive the reduction in the CMAC that would otherwise occur. A decision by the Director to waive or not waive the reduction is not subject to the appeal and hearing procedures of §199.10.

(2) Exception. As an exception to the paragraph (g)(1)(iv)(C)(1) of this section, the waiver required by that paragraph shall not be applicable in the case of any procedure code for which there were not CHAMPUS claims in the locality accounting for at least 50 services. A waiver may, however, be granted in such cases pursuant to paragraph (g)(1)(iv)(C)(3) of this section.

(3) Waiver based on other evidence that adequate access to care would be impaired. The Director, OCHAMPUS may waive a reduction that would otherwise occur (or restore a reduction that was already taken) if the Director determines that available evidence shows
that the reduction would impair adequate access. For this purpose, such evidence may include consideration of the number of providers in the locality who provide the affected services, the number of such providers who are CHAMPUS Participating Providers, the number of CHAMPUS beneficiaries in the area, and other relevant factors. Providers or beneficiaries in a locality may submit to the Director, OCHAMPUS a petition, together with appropriate documentation regarding relevant factors, for a determination that adequate access would be impaired. The Director, OCHAMPUS will consider and respond to all such petitions. Petitions may be filed at any time. Any petition received by the date which is 120 days prior to the implementation of a recalculation of CMACs will be assured of consideration prior to that implementation. The Director, OCHAMPUS may establish procedures for handling petitions. A decision by the Director to waive or not waive a reduction is not subject to the appeal and hearing procedures of §199.10.

(D) Special locality-based exception to applicable CMACs to assure adequate beneficiary access to care. In addition to the authority to waive reductions under paragraph (h)(1)(iv)(C) of this section, the Director may authorize establishment of higher payment rates for specific services than would otherwise be allowable, under paragraph (h)(1) of this section, if the Director determines that available evidence shows that access to health care services is severely impaired. For this purpose, such evidence may include consideration of the number of providers in the locality who provide the affected services, the number of providers who are CHAMPUS participating providers, the number of CHAMPUS beneficiaries in the locality, the availability of military providers in the location or nearby, and any other factors the Director determines relevant.

(1) Procedure. Providers or beneficiaries in a locality may submit to the Director, a petition, together with appropriate documentation regarding relevant factors, for a determination that adequate access to health care services is severely impaired. The Director, will consider and respond to all petitions. A decision to authorize a higher payment amount is subject to review and determination or modification by the Director at any time if circumstances change so that adequate access to health care services would no longer be severely impaired. A decision by the Director, to authorize, terminate, or modify authorization of higher payment amounts is not subject to the appeal and hearing procedures of §199.10 of the part.

(2) Establishing the higher payment rate(s). When the Director, determines that beneficiary access to health care services in a locality is severely impaired, the Director may establish the higher payment rate(s) as he or she deems appropriate and cost-effective through one of the following methodologies to assure adequate access:

(i) A percent factor may be added to the otherwise applicable payment amount allowable under paragraph (h)(1) of this section;

(ii) A prevailing charge may be calculated, by applying the prevailing charge methodology of paragraph (h)(1)(ii) of this section to a specific locality (which need not be the same as the localities used for purposes of paragraph (h)(1)(iv)(A) of this section; or another government payment rate may be adopted, for example, an applicable state Medicaid rate).

(3) Application of higher payment rates. Higher payment rates defined under paragraph (h)(1)(iv)(D) of this section may be applied to all similar services performed in a locality, or, if circumstances warrant, a new locality may be defined for application of the higher payments. Establishment of a new locality may be undertaken where access impairment is localized and not pervasive across the existing locality. Generally, establishment of a new, more specific locality will occur when the area is remote so that geographical characteristics and other factors significantly impair transportation through normal means to health care services routinely available within the existing locality.

(E) Special locality-based exception to applicable CMACs to ensure an adequate TRICARE Prime preferred network. The
§ 199.14

Director, may authorize reimbursements to health care providers participating in a TRICARE preferred provider network under §199.17(p) of this part at rates higher than would otherwise be allowable under paragraph (h)(1) of this section, if the Director, determines that application of the higher rates is necessary to ensure the availability of an adequate number and mix of qualified health care providers in a network in a specific locality. This authority may only be used to ensure adequate networks in those localities designated by the Director, as requiring TRICAR preferred provider networks, not in localities in which preferred provider networks have been suggested or established but are not determined by the Director to be necessary. Appropriate evidence for determining that higher rates are necessary may include consideration of the number of available primary care and specialist providers in the network locality, availability (including reassignment) of military providers in the location or nearby, the appropriate mix of primary care and specialists needed to satisfy demand and meet appropriate patient access standards (appointment/waiting time, travel distance, etc.), the efforts that have been made to create an adequate network, other cost-effective alternatives, and other relevant factors. The Director, may establish procedures by which exceptions to applicable CMACs are requested and approved or denied under paragraph (h)(1)(iv)(E) of this section. A decision by the Director, to authorize or deny an exception is not subject to the appeal and hearing procedures of §199.10. When the Director, determines that it is necessary and cost-effective to approve a higher rate or rates in order to ensure the availability of an adequate number of qualified health care providers in a network in a specific locality, the higher rate may not exceed the lesser of the following:

(1) The amount equal to the local fee for service charge for the service in the service area in which the service is provided as determined by the Director, based on one or more of the following payment rates:
   (i) Usual, customary, and reasonable;
   (ii) The Health Care Financing Administration’s Resource Based Relative Value Scale;
   (iii) Negotiated fee schedules;
   (iv) Global fees; or
   (v) Sliding scale individual fee allowances.

(2) The amount equal to 115 percent of the otherwise allowable charge under paragraph (h)(1) of the section for the service.

(A) Appropriate charge levels for care provided on or after January 1, 1991, and before the 1992 appropriate levels take effect shall be the same as those in effect on December 31, 1990, except that appropriate charge levels for care provided on or after October 7, 1991, shall be those established pursuant to this paragraph (g)(1)(v) of this section.

(B) Appropriate charge levels will be established for each locality for which an appropriate charge level was in effect immediately prior to October 7, 1991. For each procedure, the appropriate charge level shall be the prevailing charge level in effect immediately prior to October 7, 1991, adjusted as provided in (g)(1)(v)(B) (1) through (3) of this section.

(1) For each overpriced procedure, the level shall be reduced by fifteen percent. For this purpose, overpriced procedures are the procedures determined by the Physician Payment Review Commission to be overvalued pursuant to the process established under the Medicare program, other procedures considered overvalued in the Medicare program (for which Congress directed reductions in Medicare allowable levels for 1991), radiology procedures and pathology procedures.

(2) For each other procedure, the level shall remain unchanged. For this purpose, other procedures are procedures which are not overpriced procedures or primary care procedures.

(3) For each primary care procedure, the level shall be adjusted by the MEI, as the MEI is applied to Medicare prevailing charge levels. For this purpose, primary care procedures include maternity care and delivery services and well baby care services.

(C) For purposes of this paragraph (g)(1)(v), “appropriate charge levels” in
§ 199.14  

Effect at any time prior to October 7, 1991 shall mean the lesser of:

1. The prevailing charge levels then in effect, or
2. The fiscal year 1988 prevailing charge levels adjusted by the Medicare Economic Index (MEI), as the MEI was applied beginning in the fiscal year 1989.

(A) For purposes of calculating the national appropriate charge levels for 1992, the prior year’s appropriate charge level for each service will be considered to be the level that does not exceed the amount equivalent to the 80th percentile of billed charges made for similar services during the base period of July 1, 1986 to June 30, 1987 (determined as under paragraph (g)(1)(ii)(B) of this section), adjusted to calendar year 1991 based on the adjustments made for maximum CHAMPUS allowable charge levels through 1990 and the application of paragraph (g)(1)(v) of this section for 1991.

(B) The adjustment to calendar year 1991 of the product of paragraph (g)(1)(vi)(A) of this section shall be as follows:

1. For procedures other than those described in paragraph (g)(1)(vi)(B)(2) of this section, the adjustment to 1991 shall be on the same basis as that provided under paragraph (g)(1)(v) of this section.

2. For any procedure that was considered an overpriced procedure for purposes of the 1991 appropriate charge levels under paragraph (g)(1)(v) of this section for which the resulting 1991 appropriate charge level was less than 150 percent of the Medicare converted relative value unit, the adjustment to 1991 for purposes of the special transition rule for 1992 shall be as if the procedure had been treated under paragraph (g)(1)(v)(B)(2) of this section for purposes of the 1991 appropriate charge level.

(vii) Adjustments and procedural rules.

(A) The Director, OCHAMPUS may make adjustments to the appropriate charge levels calculated pursuant to paragraphs (g)(1)(iii) and (g)(1)(v) of this section to correct any anomalies resulting from data or statistical factors, significant differences between Medicare-relevant information and CHAMPUS-relevant considerations or other special factors that fairness requires be specially recognized. However, no such adjustment may result in reducing an appropriate charge level.

(B) The Director, OCHAMPUS will issue procedural instructions for administration of the allowable charge method.

(viii) Clinical laboratory services. The allowable charge for clinical diagnostic laboratory test services shall be calculated in the same manner as allowable charges for other individual health care providers are calculated pursuant to paragraphs (g)(1)(i) through (g)(1)(iv) of this section, with the following exceptions and clarifications.

(A) The calculation of national prevailing charge levels, national appropriate charge levels and national CMACs for laboratory service shall begin in calendar year 1993. For purposes of the 1993 calculation, the prior year’s national appropriate charge level or national prevailing charge level shall be the level that does not exceed the amount equivalent to the 80th percentile of billed charges made for similar services during the period July 1, 1991, through June 30, 1992 (referred to in this paragraph (g)(1)(viii) of this section as the “base period”).

(B) For purposes of comparison to Medicare allowable payment amounts pursuant to paragraph (g)(1)(iii) of this section, the Medicare national laboratory payment limitation amounts shall be used.

(C) For purposes of establishing laboratory service local CMACs pursuant to paragraph (g)(1)(iv) of this section, the adjustment factor shall equal the ratio of the local average charge (standardized for the distribution of clinical laboratory services) to the national average charge for all clinical laboratory services during the base period.

(D) For purposes of a special locality-based phase-in provision similar to that established by paragraph (g)(1)(iv)(B) of this section, the CMAC in a locality will not be less than 85 percent of the maximum charge level in effect for that locality during the base period.
(ix) The allowable charge for physician assistant services other than assistant-at-surgery may not exceed 85 percent of the allowable charge for a comparable service rendered by a physician performing the service in a similar location. For cases in which the physician assistant and the physician perform component services of a procedure other than assistant-at-surgery (e.g., home, office or hospital visit), the combined allowable charge for the procedure may not exceed the allowable charge for the procedure rendered by a physician alone. The allowable charge for physician assistant services performed as an assistant-at-surgery may not exceed 65 percent of the allowable charge for a physician serving as an assistant surgeon when authorized as CHAMPUS benefits in accordance with the provisions of §199.4(c)(3)(iii). Physician assistant services must be billed through the employing physician who must be an authorized CHAMPUS provider.

(x) A charge that exceeds the CHAMPUS Maximum Allowable Charge can be determined to be allowable only when unusual circumstances or medical complications justify the higher charge. The allowable charge may not exceed the billed charge under any circumstances.

(3) All-inclusive rate. Claims from individual health-care professional providers for services rendered to CHAMPUS beneficiaries residing in an RTC that is either being reimbursed on an all-inclusive per diem rate, or is billing an all-inclusive per diem rate, shall be denied; with the exception of independent health-care professionals providing geographically distant family therapy to a family member residing a minimum of 250 miles from the RTC or covered medical services related to a nonmental health condition rendered outside the RTC. Reimbursement for individual professional services is included in the rate paid the institutional provider.

(4) Alternative method. The Director, OCHAMPUS, or a designee, may, subject to the approval of the ASD(HA), establish an alternative method of reimbursement designed to produce reasonable control over health care costs and to ensure a high level of acceptance of the CHAMPUS-determined charge by the individual health-care professionals or other noninstitutional health-care providers furnishing services and supplies to CHAMPUS beneficiaries. Alternative methods may not result in reimbursement greater than the allowable charge method above.

(i) Reimbursement Under the Military-Civilian Health Services Partnership Program. The Military-Civilian Health Services Partnership Program, as authorized by section 1096, chapter 55, title 10, provides for the sharing of staff, equipment, and resources between the civilian and military health care system in order to achieve more effective, efficient, or economical health care for authorized beneficiaries. Military treatment facility commanders, based upon the authority provided by their respective Surgeons General of the military departments, are responsible for entering into individual partnership agreements only when they have determined specifically that use of the Partnership Program is more economical overall to the Government than referring the need for health care services to the civilian community under the normal operation of the CHAMPUS Program. (See
paragraph (p) of §199.1 for general requirements of the Partnership Program.)

(1) Reimbursement of institutional health care providers. Reimbursement of institutional health care providers under the Partnership Program shall be on the same basis as non-Partnership providers.

(2) Reimbursement of individual health-care professionals and other non-institutional health care providers. Reimbursement of individual health care professionals and other non-institutional health care providers shall be on the same basis as non-Partnership providers as detailed in paragraph (g) of this section.

(j) Accommodation of Discounts Under Provider Reimbursement Methods.

(1) General rule. The Director, OCHAMPUS (or designee) has authority to reimburse a provider at an amount below the amount usually paid pursuant to this section when, under a program approved by the Director, the provider has agreed to the lower amount.

(2) Special applications. The following are examples of applications of the general rule; they are not all inclusive.

(i) In the case and individual health care professionals and other non-institutional providers, if the discounted fee is below the provider’s normal billed charge and the prevailing charge level (see paragraph (g) of this section), the discounted fee shall be the provider’s actual billed charge and the CHAMPUS allowable charge.

(ii) In the case of institutional providers normally paid on the basis of a pre-set amount (such as DRG-based amount under paragraph (a)(1) of this section or per-diem amount under paragraph (a)(2) of this section), if the discount rate is lower than the pre-set rate, the discounted rate shall be the CHAMPUS-determined allowable cost. This is an exception to the usual rule that the pre-set rate is paid regardless of the institutional provider’s billed charges or other factors.

(3) Procedures.

(i) This paragraph applies only when both the provider and the Director have agreed to the discounted payment rate. The Director’s agreement may be in the context of approval of a program that allows for such discounts.

(ii) The Director of OCHAMPUS may establish uniform terms, conditions and limitations for this payment method in order to avoid administrative complexity.

(k) Outside the United States. The Director, OCHAMPUS, or a designee, shall determine the appropriate reimbursement method or methods to be used in the extension of CHAMPUS benefits for otherwise covered medical services or supplies provided by hospitals or other institutional providers, physicians or other individual professional providers, or other providers outside the United States.

(l) Implementing Instructions. The Director, OCHAMPUS, or a designee, shall issue CHAMPUS policies, instructions, procedures, and guidelines, as may be necessary to implement the intent of this section.

EDITORIAL NOTE: The following text, appearing at 63 FR 48445, Sept. 10, 1998, could not be incorporated into §199.14 because it was not mentioned in the amendatory instruction. For the convenience of the user, the text is set forth as follows:

§ 199.14 Provider reimbursement methods.

(a) * * *

(1) * * *

* * * * * *

(3) * * *

(B) Empty and low-volume DRGs. For any DRG with less than ten (10) occurrences in the CHAMPUS database, the Director, TSO, or designee, has the authority to consider alternative methods for estimating CHAMPUS weights in these low-volume DRG categories.

* * * * * *

(D) * * *

(i) Differentiate large urban and other area charges. All charges in the database shall be sorted into large urban and other area
§ 199.14

groups (using the same definitions for these categories used in the Medicare program.

(5) Preliminary base year standardized amount. A preliminary base year standardize
dized amount shall be calculated by summing all costs in the database applicable to the
large urban or other area group and dividing by the total number of discharges in the re
spective group.

(6) Cost outliers in children’s hospitals and for neonatal services. Any discharge (ex
cept for neonatal services and services in children’s hospitals) which has a length-of
stay (LOS) exceeding a threshold established in accordance with the criteria used for the
Medicare Prospective Payment System shall be classified as a short-stay outlier. Short-stay outliers shall be reimbursed at 200 percent of the per diem rate for the DRG for each covered day of the hospital stay, not to exceed the DRG amount. The per diem rate shall equal the DRG amount divided by the arithmetic mean length-of-stay for the DRG.

(A) Long-stay outliers. Any discharge (except for neonatal services and services in children’s hospitals) which has a length-of-stay (LOS) exceeding a threshold established in accordance with the criteria used for the Medicare Prospective Payment System as contained in 42 CFR 412.82 shall be classified as a long-stay outlier. Any discharge for neonatal services or for services in a children’s hospital which has a LOS exceeding the lesser of 1.94 standard deviations from the DRG’s arithmetic mean LOS shall be classified as a long-stay outlier. Long-stay outliers shall be reimbursed the DRG-based amount plus a percentage (as established for the Medicare Prospective Payment System) of all costs exceeding the threshold. Effective with admissions occurring on or after October 1, 1998, standardized costs are no longer adjusted for indirect medical education costs.

(B) Cost outliers except those in children’s hospitals or for neonatal services. Any discharge which has standardized costs that exceed a threshold established in accordance with the criteria used for the Medicare Prospective Payment System as contained in 42 CFR 412.84 shall qualify as a cost outlier. The standardized costs shall be calculated by multiplying the total charges by the factor described in §199.14(a)(1)(iii)(D)(4) and adjusting this amount for indirect medical education costs. Cost outliers shall be reimbursed the DRG-based amount plus a per
centage (as established for the Medicare Prospective Payment System) of all costs exceeding the threshold. Effective with admissions occurring on or after October 1, 1997, the standardized costs are no longer adjusted for indirect medical education costs.

(6) Short-stay outliers. Any discharge with a length-of-stay (LOS) less than 1.94 standard deviations from the DRG’s arithmetic mean LOS shall be classified as a short-stay outlier. Short-stay outliers shall be reimbursed at 200 percent of the per diem rate for the DRG for each covered day of the hospital stay, not to exceed the DRG amount. The per diem rate shall equal the DRG amount divided by the arithmetic mean length-of-stay for the DRG.

* * *
made under the FY 2000 and FY 2001 policies. If the ratio has changed significantly, the ratio will be revised for use in FY 2003.

* * * * *

(G) * * *

(i) Information necessary for payment of capital and direct medical education costs. All hospitals subject to the CHAMPUS DRG-based payment system, except for children's hospitals, may be reimbursed for allowed capital and direct medical education costs by submitting a request to the CHAMPUS contractor. Beginning October 1, 1998, such request shall be filed with CHAMPUS on or before the last day of the twelfth month following the close of the hospitals' cost reporting period, and shall cover the one-year period corresponding to the hospital's Medicare cost-reporting period. The first such request may cover a period of less than a full year—from the effective date of the CHAMPUS DRG-based payment system to the end of the hospital's Medicare cost-reporting period. All costs reported to the CHAMPUS contractor must correspond to the costs reported on the hospital's Medicare cost report. An extension of the due date for filing the request may only be granted if an extension has been granted by HCFA due to a provider's operations being significantly adversely affected due to extraordinary circumstances over which the provider has no control, such as flood or fire. (If these costs change as a result of a subsequent audit by Medicare, the revised costs are to be reported to the hospital's CHAMPUS contractor within 30 days of the date the hospital is notified of the change.) The request must be signed by the hospital official responsible for verifying the amounts and shall contain the following information.

* * * * *

(d) * * *

(iii) Step 4: standard payment amount per group. The standard payment amount per group will be the volume weighted median per procedure cost for the procedures in that group. For cases in which the standard payment amount per group exceeds the CHAMPUS-determined inpatient allowable amount, the Director, TSO or his designee, may make adjustments.

* * * * *

(h) Reimbursement of individual health care professionals and other non-institutional, non-professional providers. The CHAMPUS-determined reasonable charge (the amount allowed by CHAMPUS) for the service of an individual health care professional or other non-institutional, non-professional provider (even if employed by or under contract to an institutional provider) shall be determined by one of the following methodologies, that is, whichever is in effect in the specific geographic location at the time covered services and supplies are provided to a CHAMPUS beneficiary.

* * * * *

EFFECTIVE DATE NOTE: At 67 FR 40604, June 13, 2002, paragraphs (h), (i), (j), (k), and (l) were redesignated as (j), (k), (l), (m), and (n), new paragraphs (a)(5), (h), and (i) were added and paragraph (b) was revised, effective Aug. 12, 2002. For the convenience of the user, the revised and added text is set forth as follows:

§ 199.14 Provider reimbursement methods.

(a) * * *

(5) Hospital outpatient services. This paragraph (a)(5) establishes payment methods for certain outpatient services, including emergency services, provided by hospitals.

(i) Clinical laboratory services. Services provided on an outpatient basis by hospital-based clinical laboratories are paid on the same basis as services covered by the allowable charge method under paragraph (h)(1)(viii) of this section.

(ii) Rehabilitation therapy services. Rehabilitation therapy services provided on an outpatient basis by hospitals are paid on the same basis as rehabilitation therapy services covered by the allowable charge method under paragraph (h)(1) of this section.

(iii) Venipuncture. Routine venipuncture services provided on an outpatient basis by hospitals are paid on the same basis as such services covered by the allowable charge method under paragraph (h)(1) of this section. Routine venipuncture services provided on an outpatient basis by institutional providers other than hospitals are also paid on this basis.

(iv) Radiology services. TRICARE payments for hospital outpatient radiology services are based on the allowable charge method under paragraph (h)(1) of the section in the case of radiology services for which the CMAC rates establish under that paragraph provide a payment rate for the technical component of the radiology services provided. Hospital charges for an outpatient radiology service are reimbursed using the CMAC technical component rate.

(b) Skilled nursing facilities (SNFs). (1) Use of Medicare prospective payment system and rates. TRICARE payments to SNFs are determined using the same methods and rates used under the Medicare prospective payment system for SNFs under 42 CFR part 413, subpart J, except for children under age ten. SNFs receive a per diem payment of a predetermined Federal payment rate appropriate for the case based on patient classification (using
the RUG classification system), urban or rural location of the facility, and area wage index.

(2) Payment in full. The SNF payment rates are calculated on a per diem basis (subject to any applicable beneficiary cost shares) for all costs (routine, ancillary, and capital-related) associated with furnishing inpatient SNF services to TRICARE beneficiaries other than costs associated with operating approved educational activities.

(3) Education costs. Costs for approved educational activities shall be subject to separate rate under procedures established by the Director, TRICARE Management Activity. Such procedures shall be similar to procedures for payments for direct medical education costs of hospitals under paragraph (a)(1)(i)(G)(2) of this section.

(4) Resident assessment data. SNFs are required to submit the same resident assessment data as is required under the Medicare program. (The resident assessment is addressed in the Medicare regulations at 42 CFR 483.20.) SNFs must submit assessments according to an assessment schedule. This schedule must include performance of patient assessments on the 5th, 14th, and 30th day of SNF admissions that are longer than 30 days. It must also include such other assessments that are necessary to account for changes in patient care needs. TRICARE pays a default rate for the days of a patient’s care for which the SNF has failed to comply with the assessment schedule.

* * * * *

(h) Reimbursement of Home Health Agencies (HHAs). HHAs will be reimbursed using the same methods and rates as used under the Medicare HHA prospective payment system under section 1861 of the Social Security Act (42 U.S.C. 1395fff) and 42 CFR part 484, subpart E, except for children under age ten and except as otherwise necessary to recognize distinct characteristics of TRICARE beneficiaries and as described in instructions issued by the Director, TRICARE. Under this method, HHAs will receive a fixed case-mix and wage-adjusted national 60-day episode payment amount as payment in full for all costs associated with furnishing home health services to TRICARE-eligible beneficiaries with the exception of osteoporosis drugs and DME. The full case-mix and wage-adjusted 60-day episode payment amount will be paid in full subject to the following adjustments and additional payments:

(1) Split percentage payments. The initial percentage payment for initial episodes is paid to an HHA at 60 percent of the case-mix and wage-adjusted 60-day episode rate. The residual final payment for subsequent episodes is paid at 50 percent of the case-mix and wage-adjusted 60-day episode rate. The initial percentage payment for subsequent episodes is paid at 50 percent of the case-mix and wage-adjusted 60-day episode rate. The residual final payment for subsequent episodes is paid at 50 percent of the case-mix and wage-adjusted 60-day episode rate.

(2) Low-utilization payment. A low utilization payment is applied when a HHA furnishes four or fewer visits to a beneficiary during the 60-day episode. The visits are paid at the national per-visit amount by discipline updated annually by the applicable market basket for each visit type.

(3) Partial episode payment (PEP). A PEP adjustment is used for payment of an episode of less than 60 days resulting from a beneficiary’s elected transfer prior to the end of the 60-day episode or discharge and readmission of a beneficiary to the same HHA before the end of the 60-day episode. The PEP payment is calculated by multiplying the proportion of the 60-day episode during which the beneficiary remained under the care of the original HHA by the beneficiary’s assigned 60-day episode payment.

(4) Significant change in condition (SCIC). The full-episode payment amount is adjusted if a beneficiary experiences a significant change in condition during the 60-day episode that was not envisioned in the initial treatment plan. The total significant change in condition payment adjustment is a proportional payment adjustment reflecting the time both prior to and after the patient experienced a significant change in condition during the 60-day episode. The initial percentage payment provided at the start of the 60-day episode will be adjusted at the end of the episode to reflect the first and second parts of the total SCIC adjustment determined at the end of the 60-day episode. The SCIC payment adjustment is calculated in two parts:

(i) The first part of the SCIC payment adjustment reflects the adjustment to the level of payment prior to the significant change in the patient’s condition during the 60-day episode.

(ii) The second part of the SCIC payment adjustment reflects the adjustment to the level of payment after the significant change in the patient’s condition occurs during the 60-day episode.

(5) Outlier payment. Outlier payments are allowed in addition to regular 60-day episode payments for beneficiaries generating excessively high treatment costs. The outlier payment is a proportion of the imputed costs beyond the outlier threshold for each case-mix (HHRG) group.

(6) Services paid outside the HHA prospective payment system. The following are services that receive a separate payment amount in addition to the prospective payment amount for home health services:

(i) Durable medical equipment (DME). Reimbursement of DME is based on the same
§ 199.15 Quality and utilization review peer review organization program.

(a) General. (1) Purpose. The purpose of this section is to establish rules and procedures for the CHAMPUS Quality and Utilization Review Peer Review Organization program. (2) Applicability of program. All claims submitted for health services under CHAMPUS are subject to review for quality of care and appropriate utilization. The Director, OCHAMPUS shall establish generally accepted standards, norms and criteria as are necessary for this program of utilization and quality review. These standards, norms and criteria shall include, but not be limited to, need for inpatient admission or outpatient service, length of inpatient stay, intensity of care, appropriateness of treatment, and level of institutional care required. The Director, OCHAMPUS may issue implementing instructions, procedures and guidelines for retrospective, concurrent and prospective review. (3) Contractor implementation. The CHAMPUS Quality and Utilization Review Peer Review Organization program may be implemented through contracts administered by the Director, OCHAMPUS. These contractors may include contractors that have exclusive functions in the area of utilization and quality review, fiscal intermediary contractors (which perform these functions along with a broad range of administrative services), and managed care contractors (which perform a range of functions concerning management of the delivery and financing of health care services under CHAMPUS). Regardless of the contractors involved, utilization and quality review activities follow the same standards, rules and procedures set forth in this section, unless otherwise specifically provided in this section or elsewhere in this part. (4) Medical issues affected. The CHAMPUS Quality and Utilization Review Peer Review Organization program is distinguishable in purpose and impact from other activities relating to the administration and management of CHAMPUS in that the Peer Review Organization program is concerned primarily with medical judgments regarding the quality and appropriateness of

...
health care services. Issues regarding such matters as benefit limitations are similar, but, if not determined on the basis of medical judgments, are governed by CHAMPUS rules and procedures other than those provided in this section. (See, for example, §199.7 regarding claims submission, review and payment.) Based on this purpose, a major attribute of the Peer Review Organization program is that medical judgments are made by (directly or pursuant to guidelines and subject to direct review) reviewers who are peers of the health care providers providing the services under review.

(5) Provider responsibilities. Because of the dominance of medical judgments in the quality and utilization review program, principal responsibility for complying with program rules and procedures rests with health care providers. For this reason, there are limitations, set forth in this section and in §199.4(h), on the extent to which beneficiaries may be held financially liable for health care services not provided in conformity with rules and procedures of the quality and utilization review program concerning medical necessity of care.

(6) Medicare rules used as model. The CHAMPUS Quality and Utilization Review Peer Review Organization program, based on specific statutory authority, follows many of the quality and utilization review requirements and procedures in effect for the Medicare Peer Review Organization program, subject to adaptations appropriate for the CHAMPUS program. In recognition of the similarity of purpose and design between the Medicare and CHAMPUS PRO programs, and to avoid unnecessary duplication of effort, the CHAMPUS Quality and Utilization Review Peer Review Organization program will have special procedures applicable to supplies and services furnished to Medicare-eligible CHAMPUS beneficiaries. These procedures will enable CHAMPUS normally to rely upon Medicare determinations of medical necessity and appropriateness in the processing of CHAMPUS claims as a second payer to Medicare. As a general rule, only in cases involving Medicare-eligible CHAMPUS beneficiaries where Medicare payment for services and supplies is denied for reasons other than medical necessity and appropriateness will the CHAMPUS claim be subject to review for quality of care and appropriate utilization under the CHAMPUS PRO program. TRICARE will continue to perform a medical necessity and appropriateness review for quality of care and appropriate utilization under the CHAMPUS PRO program where required by statute, such as inpatient mental health services in excess of 30 days in any year.

(b) Objectives and general requirements of review system—(1) In general. Broadly, the program of quality and utilization review has as its objective to review the quality, completeness and adequacy of care provided, as well as its necessity, appropriateness and reasonableness.

(ii) In any case in which payment is excluded pursuant to paragraph (b)(2)(i) of this section, the patient (or the patient’s family) may not be billed for the excluded services.

(iii) Limited exceptions and other special provisions pertaining to the requirements established in paragraphs (b)(2) (i) and (ii) of this section, are set forth in §199.4(h).

(3) Review of services covered by DRG-based payment system. Application of these objectives in the context of hospital services covered by the DRG-based payment system also includes a validation of diagnosis and procedural information that determines CHAMPUS reimbursement, and a review of the necessity and appropriateness of care for which payment is sought on an outlier basis.

(4) Preauthorization and other utilization review procedures—(i) In general. All health care services for which payment is sought under CHAMPUS are subject to review for appropriateness of utilization. The procedures for this review may be prospective (before the care is provided), concurrent (while the care is
in process), or retrospective (after the care has been provided). Regardless of the procedures of this utilization review, the same generally accepted standards, norms and criteria for evaluating the necessity, appropriateness and reasonableness of the care involved shall apply. The Director, OCHAMPUS shall establish procedures for conducting reviews, including identification of types of health care services for which preauthorization or concurrent review shall be required. Preauthorization or concurrent review may be required for any categories of health care services. Except where required by law, the categories of health care services for which preauthorization or concurrent review is required may vary in different geographical locations or for different types of providers.

(ii) **Preauthorization procedures.** With respect to categories of health care (inpatient or outpatient) for which preauthorization is required, the following procedures shall apply:

(A) The requirement for preauthorization shall be widely publicized to beneficiaries and providers.

(B) All requests for preauthorization shall be responded to in writing. Notification of approval or denial shall be sent to the beneficiary. Approvals shall specify the health care services and supplies approved and identify any special limits or further requirements applicable to the particular case.

(C) An approved preauthorization shall state the number of days, appropriate for the type of care involved, for which it is valid. In general, preauthorizations will be valid for 30 days. If the services or supplies are not obtained within the number of days specified, a new preauthorization request is required.

(iii) **Payment reduction for noncompliance with required utilization review procedures.** (A) Paragraph (b)(4)(iii) of this section applies to any case in which:

(1) A provider was required to obtain preauthorization or continued stay (in connection with required concurrent review procedures) approval.

(2) The provider failed to obtain the necessary approval; and

(3) The health care services have not been disallowed on the basis of necessity, appropriateness or reasonableness.

In such a case, reimbursement will be reduced, unless such reduction is waived based on special circumstances. (B) In a case described in paragraph (b)(4)(iii)(A) of this section, reimbursement will be reduced, unless such reduction is waived based on special circumstances. The amount of this reduction shall be at least ten percent of the amount otherwise allowable for services for which preauthorization (including preauthorization for continued stays in connection with concurrent review requirements) approval should have been obtained, but was not obtained.

(C) The payment reduction set forth in paragraph (b)(4)(iii)(B) of this section may be waived by the Director, OCHAMPUS when the provider could not reasonably have been expected to know of the preauthorization requirement or some other special circumstance justifies the waiver.

(D) Services for which payment is disallowed under paragraph (b)(4)(iii) of this section may not be billed to the patient (or the patient’s family).

(c) **Hospital cooperation.** All hospitals which participate in CHAMPUS and submit CHAMPUS claims are required to provide all information necessary for CHAMPUS to properly process the claims. In order for CHAMPUS to be assured that services for which claims are submitted meet quality of care standards, hospitals are required to provide the Peer Review Organization (PRO) responsible for quality review with all the information, within timeframes to be established by OCHAMPUS, necessary to perform the review functions required by this paragraph. Additionally, all participating hospitals shall provide CHAMPUS beneficiaries, upon admission, with information about the admission and quality review system including their appeal rights. A hospital which does not cooperate in this activity shall be subject to termination as a CHAMPUS-authorized provider.

(1) Documentation that the beneficiary has received the required information about the CHAMPUS PRO program must be maintained in the same manner as is the notice required for
the Medicare program by 42 CFR 466.78(b).

(2) The physician acknowledgment required for Medicare under 42 CFR 412.46 is also required for CHAMPUS as a condition for payment and may be satisfied by the same statement as required for Medicare, with substitution or addition of “CHAMPUS” when the word “Medicare” is used.

(3) Participating hospitals must execute a memorandum of understanding with the PRO providing appropriate procedures for implementation of the PRO program.

(4) Participating hospitals may not charge a CHAMPUS beneficiary for inpatient hospital services excluded on the basis of §199.4(g)(1) (not medically necessary), §199.4(g)(3) (inappropriate level), or §199.4(g)(7) (custodial care) unless all of the conditions established by 42 CFR 412.42(c) with respect to Medicare beneficiaries have been met with respect to the CHAMPUS beneficiary. In such cases in which the patient requests a PRO review while the patient is still an inpatient in the hospital, the hospital shall provide to the PRO the records required for the review by the close of business of the day the patient requests review, if such request was made before noon. If the hospital fails to provide the records by the close of business, that day and any subsequent working day during which the hospital continues to fail to provide the records shall not be counted for purposes of the two-day period of 42 CFR 412.42(c)(ii).

(d) Areas of review—(1) Admissions. The following areas shall be subject to review to determine whether inpatient care was medically appropriate and necessary, was delivered in the most appropriate setting and met acceptable standards of quality. This review may include preadmission or prepayment review when appropriate.

(i) Transfers of CHAMPUS beneficiaries from a hospital or hospital unit subject to the CHAMPUS DRG-based payment system to another hospital or hospital unit.

(ii) CHAMPUS admissions to a hospital or hospital unit subject to the CHAMPUS DRG-based payment system which occur within a certain period (specified by OCHAMPUS) of discharge from a hospital or hospital unit subject to the CHAMPUS DRG-based payment system.

(iii) A random sample of other CHAMPUS admissions for each hospital subject to the CHAMPUS DRG-based payment system.

(iv) CHAMPUS admissions in any DRGs which have been specifically identified by OCHAMPUS for review or which are under review for any other reason.

(2) DRG validation. The review organization responsible for quality of care reviews shall be responsible for ensuring that the diagnostic and procedural information reported by hospitals on CHAMPUS claims which is used by the fiscal intermediary to assign claims to DRGs is correct and matches the information contained in the medical records. In order to accomplish this, the following review activities shall be done.

(i) Perform DRG validation reviews of each case under review.

(ii) Review of claim adjustments submitted by hospitals which result in the assignment of a higher weighted DRG.

(iii) Review for physician’s acknowledgment of annual receipt of the penalty statement as contained in the Medicare regulation at 42 CFR 412.46.

(iv) Review of a sample of claims for each hospital reimbursed under the CHAMPUS DRG-based payment system. Sample size shall be determined based upon the volume of claims submitted.

(3) Outlier review. Claims which qualify for additional payment as a long-stay outlier or as a cost-outlier shall be subject to review to ensure that the additional days or costs were medically necessary and appropriate and met all other requirements for CHAMPUS coverage. In addition, claims which qualify as short-stay outliers shall be reviewed to ensure that the admission was medically necessary and appropriate and that the discharge was not premature.

(4) Procedure review. Claims for procedures identified by OCHAMPUS as subject to a pattern of abuse shall be the subject of intensified quality assurance review.

(5) Other review. Any other cases or types of cases identified by
Office of the Secretary of Defense

§ 199.15

OCHAMPUS shall be subject to focused review.

(e) Actions as a result of review—(1) Findings related to individual claims. If it is determined, based upon information obtained during reviews, that a hospital has misrepresented admission, discharge, or billing information, or is found to have quality of care defects, or has taken an action that results in the unnecessary admissions of an individual entitled to benefits, unnecessary multiple admission of an individual, or other inappropriate medical or other practices with respect to beneficiaries or billing for services furnished to beneficiaries, the PRO, in conjunction with the fiscal intermediary, shall, as appropriate:

(i) Deny payment for or recoup (in whole or in part) any amount claimed or paid for the inpatient hospital and professional services related to such determination.

(ii) Require the hospital to take other corrective action necessary to prevent or correct the inappropriate practice.

(iii) Advise the provider and beneficiary of appeal rights, as required by §199.10 of this part.

(iv) Notify OCHAMPUS of all such actions.

(2) Findings related to a pattern of inappropriate practices. In all cases where a pattern of inappropriate admissions and billing practices that have the effect of circumventing the CHAMPUS DRG-based payment system is identified, OCHAMPUS shall be notified of the hospital and practice involved.

(3) Revision of coding relating to DRG validation. The following provisions apply in connection with the DRG validation process set forth in paragraph (d)(2) of this section.

(i) If the diagnostic and procedural information in the patient’s medical record is found to be inconsistent with the hospital’s coding or DRG assignment, the hospital’s coding on the CHAMPUS claim will be appropriately changed and payments recalculated on the basis of the appropriate DRG assignment.

(ii) If the information stipulated under paragraph (d)(2) of this section is found not to be correct, the PRO will change the coding and assign the appropriate DRG on the basis of the changed coding.

(f) Special procedures in connection with certain types of health care services or certain types of review activities—(1) In general. Many provisions of this section are directed to the context of services covered by the CHAMPUS DRG-based payment system. This section, however, is also applicable to other services. In addition, many provisions of this section relate to the context of peer review activities performed by Peer Review Organizations whose sole functions for CHAMPUS relate to the Quality and Utilization Review Peer Review Organization program. However, it also applies to review activities conducted by contractors who have responsibilities broader than those related to the quality and utilization review program. Paragraph (f) of this section authorizes certain special procedures that will apply in connection with such services and such review activities.

(2) Services not covered by the DRG-based payment system. In implementing the quality and utilization review program in the context of services not covered by the DRG-based payment system, the Director, OCHAMPUS may establish procedures, appropriate to the types of services being reviewed, substantively comparable to services covered by the DRG-based payment system regarding obligations of providers to cooperate in the quality and utilization review program, authority to require appropriate corrective actions and other procedures. The Director, OCHAMPUS may also establish such special, substantively comparable procedures in connection with review of health care services which, although covered by the DRG-based payment method, are also affected by some other special circumstances concerning payment method, nature of care, or other potential utilization or quality issue.

(3) Peer review activities by contractors also performing other administration or management functions—(1) Sole-function PRO versus multi-function PRO. In all cases, peer review activities under the Quality and Utilization Review Peer
Review Organization program are carried out by physicians and other qualified health care professionals, usually under contract with OCHAMPUS. In some cases, the Peer Review Organization contractor’s only functions are pursuant to the quality and utilization review program. In paragraph (f)(3) of this section, this type of contractor is referred to as a “sole function PRO.” In other cases, the Peer Review Organization contractor is also performing other functions in connection with the administration and management of CHAMPUS. In paragraph (f)(3) of this section, this type of contractor is referred to as a “multi-function PRO.” As an example of the latter type, managed care contractors may perform a wide range of functions regarding management of the delivery and financing of health care services under CHAMPUS, including but not limited to functions under the Quality and Utilization Review Peer Review Organization program.

(ii) Special rules and procedures. With respect to multi-function PROs, the Director, OCHAMPUS may establish special procedures to assure the independence of the Quality and Utilization Review Peer Review Organization program and otherwise advance the objectives of the program. These special rules and procedures include, but are not limited to, the following:

(A) A reconsidered determination that would be final in cases involving sole-function PROs under paragraph (i)(2) of this section will not be final in connection with multi-function PROs. Rather, in such cases (other than any case which is appealable under paragraph (i)(3) of this section), an opportunity for a second reconsideration shall be provided. The second reconsideration will be provided by OCHAMPUS or another contractor independent of the multi-function PRO that performed the review. The second reconsideration may not be further appealed by the provider.

(B) Procedures established by paragraphs (g) through (m) of this section shall not apply to any action of a multi-function PRO (or employee or other person or entity affiliated with the PRO) carried out in performance of functions other than functions under this section.

(g) Procedures regarding initial determinations. The CHAMPUS PROs shall establish and follow procedures for initial determinations that are substantively the same or comparable to the procedures applicable to Medicare under 42 CFR 466.83 to 466.104. In addition, these procedures shall provide that a PRO’s determination that an admission is medically necessary is not a guarantee of payment by CHAMPUS; normal CHAMPUS benefit and procedural coverage requirements must also be applied.

(h) Procedures regarding reconsiderations. The CHAMPUS PROs shall establish and follow procedures for reconsiderations that are substantively the same or comparable to the procedures applicable to reconsiderations under Medicare pursuant to 42 CFR 473.15 to 473.34, except that the time limit for requesting reconsideration (see 42 CFR 473.20(a)(1)) shall be 90 days. A PRO reconsidered determination is final and binding upon all parties to the reconsideration except to the extent of any further appeal pursuant to paragraph (i) of this section.

(i) Appeals and hearings. (1) Beneficiaries may appeal a PRO reconsideration determination of OCHAMPUS and obtain a hearing on such appeal to the extent allowed and under the procedures set forth in §199.10(d).

(2) Except as provided in paragraph (i)(3), a PRO reconsidered determination may not be further appealed by a provider.

(3) A provider may appeal a PRO reconsideration determination to OCHAMPUS and obtain a hearing on such appeal to the extent allowed under the procedures set forth in §199.10(d) if it is a determination pursuant to §199.4(h) that the provider knew or could reasonably have been expected to know that the services were excludable.

(4) For purposes of the hearing process, a PRO reconsidered determination shall be considered as the procedural equivalent of a formal review determination under §199.10, unless revised at the initiative of the Director, OCHAMPUS prior to a hearing on the
appeal, in which case the revised determination shall be considered as the procedural equivalent of a formal review determination under §199.10.

(5) The provisions of §199.10(e) concerning final action shall apply to hearings cases.

(j) **Acquisition, protection and disclosure of peer review information.** The provisions of 42 CFR part 476, except §476.108, shall be applicable to the CHAMPUS PRO program as they are to the Medicare PRO program.

(k) **Limited immunity from liability for participants in PRO program.** The provisions of 42 CFR part 476, except §476.108, shall be applicable to the CHAMPUS PRO program as they are to the Medicare PRO program.

(l) **Limited immunity from liability for participants in PRO program.** The provisions of 42 CFR part 476, except §476.108, shall be applicable to the CHAMPUS PRO program as they are to the Medicare PRO program.

(m) **Obligations, sanctions and procedures.** (1) The provisions of 42 CFR 1004.1–1004.80 shall apply to the CHAMPUS PRO program as they do the Medicare PRO program, except that the functions specified in those sections for the Office of Inspector General of the Department of Health and Human Services shall be the responsibility of OCHAMPUS.

(2) The provisions of 42 U.S.C. section 1395ww(f)(2) concerning circumvention by any hospital of the applicable payment methods for inpatient services shall apply to CHAMPUS payment methods as they do to Medicare payment methods.

(3) The Director, or a designee, of CHAMPUS shall determine whether to impose a sanction pursuant to paragraphs (m)(1) and (m)(2) of this section. Providers may appeal adverse sanctions decisions under the procedures set forth in §199.10(d).

(n) **Authority to integrate CHAMPUS PRO and military medical treatment facility utilization review activities.** (1) In the case of a military medical treatment facility (MTF) that has established utilization review requirements similar to those under the CHAMPUS PRO program, the contractor carrying out this function may, at the request of the MTF, utilize procedures comparable to the CHAMPUS PRO program procedures to render determinations or recommendations with respect to utilization review requirements.

(2) In any case in which such a contractor has comparable responsibility and authority regarding utilization review in both an MTF (or MTFs) and CHAMPUS, determinations as to medical necessity in connection with services from an MTF or CHAMPUS-authorized provider may be consolidated.

(3) In any case in which an MTF reserves authority to separate an MTF determination on medical necessity from a CHAMPUS PRO program determination on medical necessity, the MTF determination is not binding on CHAMPUS.

**EFFECTIVE DATE NOTE:** At 67 FR 42721, June 25, 2002, §199.15 was amended by revising paragraph (b)(4)(ii)(C), effective July 25, 2002. For the convenience of the user the revised text follows:
§ 199.16 Supplemental Health Care Program for active duty members.

(a) Purpose and applicability. (1) The purpose of this section is to implement, with respect to health care services provided under the supplemental health care program for active duty members of the uniformed services, the provision of 10 U.S.C. 1074(c). This section of law authorizes DoD to establish for the supplemental care program the same payment rules, subject to appropriate modifications, as apply under CHAMPUS.

(2) This section applies to the program, known as the supplemental care program, which provides for the payment by the uniformed services to private sector health care providers for health care services provided to active duty members of the uniformed services. Although not part of CHAMPUS, the supplemental care program is similar to CHAMPUS in that it is a program for the uniformed services to purchase civilian health care services for active duty members. For this reason, the Director, OCHAMPUS assists the uniformed services in the administration of the supplemental care program.

(3) This section applies to all health care services covered by the CHAMPUS. For purposes of this section, health care services ordered by a military treatment facility (MTF) provider for an MTF patient (who is not an active duty member) for whom the MTF provider maintains responsibility are also covered by the supplemental care program and subject to the requirements of this section.

(b) Obligation of providers concerning payment for supplemental health care for active duty members—(1) Hospitals covered by DRG-based payment system. For a hospital covered by the CHAMPUS DRG-based payment system to maintain its status as an authorized provider for CHAMPUS pursuant to §199.6, that hospital must also be a participating provider for purposes of the supplemental care program. As a participating provider, each hospital must accept the DRG-based payment system amount determined pursuant to §199.14 as payment in full for the hospital services covered by the system. The failure of any hospital to comply with this obligation subjects that hospital to exclusion as a CHAMPUS-authorized provider.

(2) Other participating providers. For any institutional or individual provider, other than those described in paragraph (b)(1) of this section that is a participating provider, the provider must also be a participating provider for purposes of the supplemental care program. The provider must accept the CHAMPUS allowable amount determined pursuant to §199.14 as payment in full for the hospital services covered by the system. The failure of any provider to comply with this obligation subjects the provider to exclusion as a participating provider.

(c) General rule for payment and administration. Subject to the special rules and procedures in paragraph (d) of this section and the waiver authority in paragraph (e) of this section, as a general rule the provisions of §199.14 shall govern payment and administration of claims under the supplemental care program as they do claims under CHAMPUS. To the extent necessary to interpret or implement the provisions of §199.14, related provisions of this part shall also be applicable.

(d) Special rules and procedures. As exceptions to the general rule in paragraph (c) of this section, the special rules and procedures in this section shall govern payment and administration of claims under the supplemental care program. These special rules and procedures are subject to the TRICARE Prime Remote program for active duty service members set forth in paragraph (e) of this section and the waiver authority of paragraph (f) of this section.

(1) There is no patient cost sharing under the supplemental care program.
All amounts due to be paid to the provider shall be paid by the program.

(2) Preauthorization by the Uniformed Services of each service is required for the supplemental care program except for services in cases of medical emergency (for which the definition in §199.2 shall apply) or in cases governed by the TRICARE Prime Remote program for active duty service members set forth in paragraph (e) of this section. It is the responsibility of the active duty members to obtain preauthorization for each service. With respect to each emergency inpatient admission, after such time as the emergency condition is addressed, authorization for any proposed continued stay must be obtained within two working days of admission.

(3) With respect to the filing of claims and similar administrative matters for which this part refers to activities of the CHAMPUS fiscal intermediaries, for purposes of the supplemental care program, responsibilities for claims processing, payment and some other administrative matters may be assigned by the Director, OCHAMPUS to the same fiscal intermediaries, other contractor, or to the nearest military medical treatment facility or medical claims office.

(4) The annual cost pass-throughs for capital and direct medical education costs that are available under the CHAMPUS DRG-based payment system are also available, upon request, under the supplemental care program. To obtain payment include the number of active duty bed days as a separate line item on the annual request to the CHAMPUS fiscal intermediaries.

(5) For providers other than participating providers, the Director, OCHAMPUS may authorize payment in excess of CHAMPUS allowable amounts. No provider may bill an active duty member any amount in excess of the CHAMPUS allowable amount.

(e) TRICARE Prime Remote for Active Duty Members. (1) General. The TRICARE Prime Remote (TPR) program is available for certain active duty members of the Uniformed Services assigned to remote locations in the United States and the District of Columbia who are entitled to coverage of medical care, and the standards for timely access to such care, outside a military treatment facility that are comparable to coverage for medical care and standards for timely access to such care as exist under TRICARE Prime under §199.17. Those active duty members who are eligible under the provisions of 10 U.S.C. 1074(c)(3) and who enroll in the TRICARE Prime Remote program, may not be required to receive routine primary medical care at a military medical treatment facility.

(2) Eligibility. To receive health care services under the TRICARE Prime Remote program, an individual must be an active duty member of the Uniformed Services on orders for more than thirty consecutive days who meet the following requirements:

(i) Has a permanent duty assignment that is greater than fifty miles or approximately one hour drive from a military treatment facility or military clinic designated as adequate to provide the needed primary care services to the active duty service member; and

(ii) Pursuant to the assignment of such duty, resides at a location that is greater than fifty miles or approximately one hour from a military medical treatment facility or military clinic designated as adequate to provide the needed primary care services to the active duty service member.

(3) Enrollment. An active duty service member eligible for the TRICARE Prime Remote program must enroll in the program. If an eligible active duty member does not enroll in the TRICARE Prime Remote program, the member shall receive health care services provide under the supplemental health program subject to all requirements of this section without application of the provisions of paragraph (e) of this section.

(4) Preauthorization. If a TRICARE Prime network under §199.17 exists in the remote location, the TRICARE Prime Remote enrolled active duty member will select or be assigned a primary care manager. In the absence of a TRICARE primary care manager in the remote location and if the active duty member is not assigned to a military primary care manager based on fitness for duty requirements, the TRICARE
§ 199.17 TRICARE program.

(a) Establishment. The TRICARE program is established for the purpose of implementing a comprehensive managed health care program for the delivery and financing of health care services in the Military Health System.

(1) Purpose. The TRICARE program implements management improvements primarily through managed care support contracts that include special arrangements with civilian sector health care providers and better coordination between military medical treatment facilities (MTFs) and these civilian providers. Implementation of these management improvements includes adoption of special rules and procedures not ordinarily followed under CHAMPUS or MTF requirements. This section establishes those special rules and procedures.

(2) Statutory authority. Many of the provisions of this section are authorized by statutory authorities other than those which authorize the usual operation of the CHAMPUS program, especially 10 U.S.C. 1079 and 1086. The TRICARE program also relies upon other available statutory authorities, including 10 U.S.C. 1099 (health care enrollment system), 10 U.S.C. 1097 (contracts for medical care for retirees, dependents and survivors: alternative delivery of health care), and 10 U.S.C. 1096 (resource sharing agreements).

(3) Scope of the program. The TRICARE program is applicable to all of the uniformed services. Its geographical applicability is all 50 states and the District of Columbia. In addition, if authorized by the Assistant Secretary of Defense (Health Affairs), the TRICARE program may be implemented in areas outside the 50 states and the District of Columbia. In such cases, the Assistant Secretary of Defense (Health Affairs) may also authorize modifications to TRICARE program rules and procedures as may be appropriate to the area involved.

(4) MTF rules and procedures affected. Much of this section relates to rules and procedures applicable to the delivery and financing of health care services provided by civilian providers outside military treatment facilities. This section provides that certain rules, procedures, rights and obligations set forth elsewhere in this part (and usually applicable to CHAMPUS) are different under the TRICARE program. In addition, some rules, procedures, rights and obligations relating to health care services in military treatment facilities are also different under the TRICARE program. In such cases, provisions of this section take precedence and are binding.

(5) Implementation based on local action. The TRICARE program is not automatically implemented in all areas where it is potentially applicable. Therefore, provisions of this section are not automatically implemented. Rather, implementation of the
Office of the Secretary of Defense § 199.17

TRICARE program and this section requires an official action by an authorized individual, such as a military medical treatment facility commander, a Surgeon General, the Assistant Secretary of Defense (Health Affairs), or other person authorized by the Assistant Secretary. Public notice of the initiation of the TRICARE program will be achieved through appropriate communication and media methods and by way of an official announcement by the Director, OCHAMPUS, identifying the military medical treatment facility catchment area or other geographical area covered.

(6) Major features of the TRICARE program. The major features of the TRICARE program, described in this section, include the following:

(i) Comprehensive enrollment system. Under the TRICARE program, all health care beneficiaries become classified into one of four enrollment categories:

(A) Active duty members, all of whom are automatically enrolled in TRICARE Prime;

(B) TRICARE Prime enrollees;

(C) TRICARE Standard enrollees, who are all CHAMPUS eligible beneficiaries who are not enrolled in TRICARE Prime;

(D) Non-CHAMPUS beneficiaries, who are beneficiaries eligible for health care services in military treatment facilities, but not eligible for CHAMPUS;

(ii) Establishment of a triple option benefit. A second major feature of TRICARE is the establishment of three options for receiving health care:

(A) “TRICARE Prime,” which is a health maintenance organization (HMO)-like program. It generally features use of military treatment facilities and substantially reduced out-of-pocket costs for CHAMPUS care. Beneficiaries generally agree to use military treatment facilities and designated civilian provider networks and to follow certain managed care rules and procedures.

(B) “TRICARE Extra,” which is a preferred provider organization (PPO) program. It allows TRICARE Standard-enrolled beneficiaries to use the TRICARE provider network, including both military facilities and the civilian network, with reduced out-of-pocket costs. These beneficiaries also continue to be eligible for military medical treatment facility care on a space-available basis.

(C) “TRICARE Standard” which is the basic CHAMPUS program. It preserves broad freedom of choice of civilian providers, but does not offer reduced out-of-pocket costs. These beneficiaries continue to be eligible to receive care in military medical treatment facilities on a space-available basis.

(iii) Coordination between military and civilian health care delivery systems. A third major feature of the TRICARE program is a series of activities affecting all beneficiary enrollment categories, designed to coordinate care between military and civilian health care systems. These activities include:

(A) Resource sharing agreements, under which a TRICARE contractor provides to a military medical treatment facility, personnel and other resources to increase the availability of services in the facility. All beneficiary enrollment categories may benefit from this increase.

(B) Health care finder, an administrative activity that facilitates referrals to appropriate health care services in the military facility and civilian provider network. All beneficiary enrollment categories may use the health care finder.

(C) Integrated quality and utilization management services, potentially standardizing reviews for military and civilian sector providers. All beneficiary categories may benefit from these services.

(iv) Consolidated schedule of charges. A fourth major feature of TRICARE is a consolidated schedule of charges, incorporating revisions that reduce differences in charges between military and civilian services. In general, the TRICARE program reduces out-of-pocket costs for civilian sector care.

(7) Preemption of State laws. (i) Pursuant to 10 U.S.C. 1103 and section 8025 (fourth proviso) of the Department of Defense Appropriations Act, 1994, the Department of Defense has determined that in the administration of 10 U.S.C. chapter 55, preemption of State and local laws relating to health insurance,
§ 199.17 prepaid health plans, or other health care delivery or financing methods is necessary to achieve important Federal interests, including but not limited to the assurance of uniform national health programs for military families and the operation of such programs at the lowest possible cost to the Department of Defense, that have a direct and substantial effect on the conduct of military affairs and national security policy of the United States.

(ii) Based on the determination set forth in paragraph (a)(7)(i) of this section, any State or local law relating to health insurance, prepaid health plans, or other health care delivery or financing methods is preempted and does not apply in connection with TRICARE regional contracts. Any such law, or regulation pursuant to such law, is without any force or effect, and State or local governments have no legal authority to enforce them in relation to the TRICARE regional contracts. (However, the Department of Defense may by contract establish legal obligations of the part of TRICARE contractors to conform with requirements similar or identical to requirements of State or local laws or regulations).

(iii) The preemption of State and local laws set forth in paragraph (a)(7)(i) of this section includes State and local laws imposing premium taxes on health or dental insurance carriers or underwriters or other plan managers, or similar taxes on such entities. Such laws are laws relating to health insurance, prepaid health plans, or other health care delivery or financing methods, within the meaning of the statutes identified in paragraph (a)(7)(i) of this section. Preemption, however, does not apply to taxes, fees, or other payments on net income or profit realized by such entities in the conduct of business relating to DoD health services contracts, if those taxes, fees or other payments are applicable to a broad range of business activity. For purposes of assessing the effect of Federal preemption of State and local taxes and fees in connection with DoD health and dental services contracts, interpretations shall be consistent with those applicable to the Federal Employees Health Benefits Program under 5 U.S.C. 8909(f).

(b) Triple option benefit in general. Where the TRICARE program is fully implemented, eligible beneficiaries are given the options of enrolling in TRICARE Prime (also referred to as “Prime”) or TRICARE Standard (also referred to as “Standard”). In the absence of an enrollment choice, enrollment in Standard is assumed.

(1) Choice voluntary. With the exception of active duty members, the choice of whether to enroll in Prime or Standard is voluntary for all eligible beneficiaries. For dependents who are minors, the choice will be exercised by a parent or guardian.

(2) Active duty members. For active duty members located in areas where the TRICARE program is implemented, enrollment in Prime is mandatory.

(3) Automatic enrollment of certain dependents: Under 10 U.S.C. 1097a, in the case of dependents of active duty members in the grade of E-1 to E-4, such dependents who reside in a catchment area of a military treatment facility shall be enrolled in TRICARE Prime consistent with procedures established under paragraph (o)(7) of this section. The enrollment of a dependent of the member may be terminated by the member, dependent or other responsible individual at any time.

(c) Eligibility for enrollment. Where the TRICARE program is fully implemented, all CHAMPUS-eligible beneficiaries who are not Medicare eligible on basis of age are eligible to enroll in Prime or Standard. CHAMPUS beneficiaries who are eligible for Medicare on basis of age (and are enrolled in Medicare Part B) are automatically enrolled in TRICARE Standard. Further, some rules and procedures are different for dependents of active duty members and retirees, dependents, and survivors. In addition, where the TRICARE program is implemented, a military medical treatment facility commander or other authorized individual may establish priorities, consistent with paragraph (c) of this section, based on availability or other operational requirements, for when and whether to offer the enrollment opportunity.

(1) Active duty members. Active duty members are required to enroll in
Prime when it is offered. Active duty members shall have first priority for enrollment in Prime. Because active duty members are not CHAMPUS eligible, when active duty members obtain care from civilian providers outside the military medical treatment facility, the supplemental care program and its requirements (including §199.16) will apply.

(2) Dependents of active duty members. (i) Dependents of active duty members are eligible to enroll in Prime. After all active duty members are enrolled, those dependents of active duty members in the grade of E-1 to E-4 will have second priority and all other dependents of active duty members will have third priority.

(ii) If all dependents of active duty members within the area concerned cannot be accepted for enrollment in Prime at the same time, the MTF Commander (or other authorized individual) may establish priorities within this beneficiary group category. The priorities may be based on first-come, first-served, or alternatively, be based on rank of sponsor, beginning with the lowest pay grade.

(3) Retired members, dependents of retired members, and survivors. (i) Where TRICARE is fully implemented, all CHAMPUS-eligible retired members, dependents of retired members, and survivors who are not eligible for Medicare on the basis of age are eligible to enroll in Prime. After all active duty members are enrolled and availability of enrollment is assured for all active duty dependents wishing to enroll, this category of beneficiaries will have third priority for enrollment.

(ii) If all eligible retired members, dependents of retired members, and survivors within the area concerned cannot be accepted for enrollment in Prime at the same time, the MTF Commander (or other authorized individual) may allow enrollment within this beneficiary group category on a first come, first served basis.

(4) Enrollment in Standard. All CHAMPUS-eligible beneficiaries who do not enroll in Prime will remain in Standard.

(d) Health benefits under Prime. Health benefits under Prime, set forth in paragraph (d) of this section, differ from those under Extra and Standard, set forth in paragraphs (e) and (f) of this section.

(1) Military treatment facility (MTF) care—(i) In general. All participants in Prime are eligible to receive care in military treatment facilities. Participants in Prime will be given priority for such care over other beneficiaries. Among the following beneficiary groups, access priority for care in military treatment facilities where TRICARE is implemented as follows:

(A) Active duty service members;

(B) Active duty service members’ dependents and survivors of service members who died on active duty, who are enrolled in TRICARE Prime;

(C) Retirees, their dependents and survivors, who are enrolled in TRICARE Prime;

(D) Active duty service members’ dependents and survivors of service members who died on active duty, who are not enrolled in TRICARE Prime; and

(E) Retirees, their dependents and survivors who are not enrolled in TRICARE Prime. For purposes of this paragraph (d)(1), survivors of members who died while on active duty are considered as among dependents of active duty service members.

(ii) Special provisions. Enrollment in Prime does not affect access priority for care in military treatment facilities for several miscellaneous beneficiary groups and special circumstances. Those include Secretarial designees, NATO and other foreign military personnel and dependents authorized care through international agreements, civilian employees under workers’ compensation programs or under safety programs, members on the Temporary Disability Retired List (for statutorily required periodic medical examinations), members of the reserve components not on active duty (for covered medical services), military prisoners, active duty dependents unable to enroll in Prime and temporarily away from place of residence, and others as designated by the Assistant Secretary of Defense (Health Affairs). Additional exceptions to the normal Prime enrollment access priority rules may be granted for other categories of individuals, eligible for treatment in...
§ 199.17

the MTF, whose access to care is necessary to provide an adequate clinical case mix to support graduate medical education programs or readiness-related medical skills sustainment activities, to the extent approved by the ASD(HA).

(2) Non-MTF care for active duty members. Under Prime, non-MTF care needed by active duty members continues to be arranged under the supplemental care program and subject to the rules and procedures of that program, including those set forth in §199.16.

(3) Benefits covered for CHAMPUS eligible beneficiaries for civilian sector care. The provisions of $199.18 regarding the Uniform HMO Benefit apply to TRICARE Prime enrollees.

(e) Health benefits under the TRICARE extra plan. Beneficiaries not enrolled in Prime, although not in general required to use the Prime civilian preferred provider network, are eligible to use the network on a case-by-case basis under Extra. The health benefits under Extra are identical to those under Standard, set forth in paragraph (f) of this section, except that the CHAMPUS cost sharing percentages are lower than usual CHAMPUS cost sharing. The lower requirements are set forth in the consolidated schedule of charges in paragraph (m) of this section.

(f) Health benefits under the TRICARE standard plan. Where the TRICARE program is implemented, health benefits under Prime, set forth under paragraph (d) of this section, and Extra, set forth under paragraph (e) of this section, are different than health benefits under Standard, set forth in this paragraph (f).

(1) Military treatment facility (MTF) care. All nonenrollees (including beneficiaries not eligible to enroll) continue to be eligible to receive care in military treatment facilities on a space available basis.

(2) Freedom of choice of civilian provider. Except as stated in §199.4(a) in connection with nonavailability statement requirements, CHAMPUS-eligible participants in Standard maintain their freedom of choice of civilian provider under CHAMPUS. All nonavailability statement requirements of §199.4(a) apply to Standard participants.

(3) CHAMPUS benefits apply. The benefits, rules and procedures of the CHAMPUS basis program as set forth in this part, shall apply to CHAMPUS-eligible participants in Standard.

(4) Preferred provider network option for standard participants. Standard participants, although not generally required to use the TRICARE program preferred provider network are eligible to use the network on a case-by-case basis, under Extra.

(g) TRICARE Prime Remote for Active Duty Family Members. (1) In general. In geographic areas in which TRICARE Prime is not offered and in which eligible family members reside, there is offered under 10 U.S.C. 1079(p) TRICARE Prime Remote for Active Duty Family Members as an enrollment option. TRICARE Prime Remote for Active Duty Family Members (TPRADFM) will generally follow the rules and procedures of TRICARE Prime, except as provided in this paragraph (g) and otherwise except to the extent the Director, TRICARE Management Activity determines them to be infeasible because of the remote area.

(2) Active duty family member. For purposes of this paragraph (g), the term "active duty family member" means one of the following dependents of an active duty member of the Uniformed Services: spouse, child, or unmarried child placed in the legal custody of the active duty member as a result of an order of a court of competent jurisdiction for a period of at least 12 consecutive months.

(3) Eligibility. An active duty family member is eligible for TRICARE Prime Remote for Active Duty Family Members if he or she is eligible for CHAMPUS and meets all of the following additional criteria:

(i) The family member's active duty sponsor has been assigned permanent duty as a recruiter; as an instructor at an educational institution, an administrator of a program, or to provide administrative services in support of a program of instruction for the Reserve Officers' Training Corps; as a full-time adviser to a unit of a reserve component; or any other permanent duty more than 50 miles, or approximately
§ 199.17

one hour driving time, from the nearest military treatment facility that the Executive Director, TRICARE Management Activity determines is adequate to provide care.

(ii) The family member’s active duty sponsor, pursuant to the assignment of duty described in paragraph (g)(3)(i) of this section, resides at a location that is more than 50 miles, or approximately one hour of driving time, from the nearest military medical treatment facility that the Director, TRICARE Management Activity determines is adequate to provide care.

(iii) The family member resides with the active duty sponsor.

(4) Enrollment. TRICARE Prime Remote for Active Duty Family Members requires enrollment under procedures set forth in paragraph (o) of this section or as otherwise established by the Executive Director, TRICARE Management Activity.

(5) Health care management requirements under TRICARE Prime Remote for Active Duty Family Members. The additional health care management requirements applicable to Prime enrollees under paragraph (n) of this section are applicable under TRICARE Prime Remote for Active Duty Family Members unless the Executive Director, TRICARE Management Activity determines they are infeasible because of the particular remote location. Enrollees will be given notice of the applicable management requirements in their remote location.

(6) Cost sharing. Beneficiary cost sharing requirements under TRICARE Prime Remote for Active Duty Family Members are the same as those under TRICARE Prime under paragraph (m) of this section, except that the higher point-of-service option cost sharing and deductible shall not apply to routine primary health care services in cases in which, because of the remote location, the beneficiary is not assigned a primary care manager or the Executive Director, TRICARE Management Activity determines that care from a TRICARE network provider is not available within the TRICARE access standards under paragraph (p)(3) of this section. The higher point-of-service option cost sharing and deductible shall apply to specialty health care services received by any TRICARE Prime Remote for Active Duty Family Members enrollee unless an appropriate referral/preauthorization is obtained as required by section (n) under TRICARE Prime. In the case of pharmacy services under §199.21, where the Director, TRICARE Management Activity determines that no TRICARE network retail pharmacy has been established within a reasonable distance of the residence of the TRICARE Prime Remote for Active Duty Family Members enrollee, cost sharing applicable to TRICARE network retail pharmacies will be applicable to all CHAMPUS eligible pharmacies in the remote area.

(h) Resource sharing agreements. Under the TRICARE program, any military medical treatment facility (MTF) commander may establish resource sharing agreements with the applicable managed care support contractor for the purpose of providing for the sharing of resources between the two parties. Internal resource sharing and external resource sharing agreements are authorized. The provisions of this paragraph (h) shall apply to resource sharing agreements under the TRICARE program.

(1) In connection with internal resource sharing agreements, beneficiary cost sharing requirements shall be the same as those applicable to health care services provided in facilities of the uniformed services.

(2) Under internal resource sharing agreements, the double coverage requirements of §199.8 shall be replaced by the Third Party Collection procedures of 32 CFR part 220, to the extent permissible under such part. In such a case, payments made to a resource sharing agreement provider through the TRICARE managed care support contractor shall be deemed to be payments by the MTF concerned.

(3) Under internal or external resource sharing agreements, the commander of the MTF concerned may authorize the provision of services, pursuant to the agreement, to Medicare-eligible beneficiaries, if such services are not reimbursable by Medicare, and if the commander determines that this will promote the most cost-effective
provision of services under the TRICARE program.

(i) Health care finder. The Health Care Finder is an administrative activity that assists beneficiaries in being referred to appropriate health care providers, especially the MTF and preferred providers. Health Care Finder services are available to all beneficiaries. In the case of TRICARE Prime enrollees, the Health Care Finder will facilitate referrals in accordance with Prime rules and procedures. For Standard participants, the Finder will provide assistance for use of Extra. For Medicare-eligible beneficiaries, the Finder will facilitate referrals to TRICARE network providers, generally required to be Medicare participating providers. For participants in other managed care programs, the Finder will assist in referrals pursuant to the arrangements made with the other managed care program. For all beneficiary enrollment categories, the Finder will assist in obtaining access to available services in the medical treatment facility.

(j) General quality assurance, utilization review, and preauthorization requirements under TRICARE program. All quality assurance, utilization review, and preauthorization requirements for the basic CHAMPUS program, as set forth in this part 199 (see especially applicable provisions of §§199.4 and 199.15), are applicable to Prime, Extra and Standard under the TRICARE program. Under all three options, some methods and procedures for implementing and enforcing these requirements may differ from the methods and procedures followed under the basic CHAMPUS program in areas in which the TRICARE program has not been implemented. Pursuant to an agreement between a military medical treatment facility and TRICARE managed care support contractor, quality assurance, utilization review, and preauthorization requirements and procedures applicable to health care services outside the military medical treatment facility may be made applicable, in whole or in part, to health care services inside the military medical treatment facility.

(k) Pharmacy services. Pharmacy services under Prime are as provided in the Pharmacy benefits Program (see §199.21).

(l) PRIMUS and NAVCARE clinics

(1) Description and authority. PRIMUS and NAVCARE clinics are contractor owned, staffed, and operated clinics that exclusively serve uniformed services beneficiaries. They are authorized as transitional entities during the phase-in of TRICARE. This authority to operate a PRIMUS or NAVCARE clinic will cease upon implementation of TRICARE in the clinic’s location, or on October 1, 1997, whichever is later.

(2) Eligible beneficiaries. All TRICARE beneficiary categories are eligible for care in PRIMUS and NAVCARE Clinics. This includes active duty members, Medicare-eligible beneficiaries and other MHS-eligible persons not eligible for CHAMPUS.

(3) Services and charges. For care provided PRIMUS and NAVCARE Clinics, CHAMPUS rules regarding program benefits, deductibles and cost sharing requirements do not apply. Services offered and charges will be based on those applicable to care provided in military medical treatment facilities.

(4) Priority access. Access to care in PRIMUS and NAVCARE Clinics shall be based on the same order of priority as is established for military treatment facilities care under paragraph (d)(1) of this section.

(m) Consolidated schedule of beneficiary charges. The following consolidated schedule of beneficiary charges is applicable to health care services provided under TRICARE for Prime enrollees, Standard enrollees and Medicare-eligible beneficiaries. (There are no charges to active duty members. Charges for participants in other managed health care programs affiliated with TRICARE will be specified in the applicable affiliation agreements.)

(1) Cost sharing for services from TRICARE network providers. (i) For Prime enrollees, cost sharing is as specified in the Uniform HMO Benefit in §199.18, except that for care not authorized by the primary care manager or Health Care Finder, rules applicable to the TRICARE point of service option (see paragraph (n)(3) of this section) are applicable. For such unauthorized care, the deductible is $300 per person and $600 per family. The beneficiary
cost share is 50 percent of the allowable charges for inpatient and outpatient care, after the deductible.

(ii) For Standard enrollees, TRICARE Extra cost sharing applies. The deductible is the same as standard CHAMPUS. Cost shares are as follows:

(A) For outpatient professional services, cost sharing will be reduced from 20 percent to 15 percent for dependents of active duty members.

(B) For most services for retired members, dependents of retired members, and survivors, cost sharing is reduced from 25 percent to 20 percent.

(C) In fiscal year 1996, the per diem inpatient hospital copayment for retirees, dependents of retirees, and survivors when they use a preferred provider network hospital is $250 per day, or 25 percent of total charges, whichever is less. There is a nominal copayment for active duty dependents, which is the same as under the CHAMPUS program (see §199.4). The per diem amount may be updated for subsequent years based on changes in the standard CHAMPUS per diem.

(iii) For Medicare-eligible beneficiaries, cost sharing will generally be as applicable to Medicare participating providers.

(2) Cost sharing for non-network providers. (i) For TRICARE Prime enrollees, rules applicable to the TRICARE point of service option (see paragraph (n)(3) of this section) are applicable. The deductible is $300 per person and $600 per family. The beneficiary cost share is 50 percent of the allowable charges, after the deductible.

(ii) For Standard enrollees, cost sharing is as specified for the basic CHAMPUS program.

(3) Cost sharing under internal resource sharing agreements. (i) For Prime enrollees, cost sharing is as provided in military treatment facilities.

(ii) For Standard enrollees, cost sharing is as provided in military treatment facilities.

(iii) For Medicare eligible beneficiaries, where made applicable by the commander of the military medical treatment facility concerned, cost sharing will be as provided in military treatment facilities.

(4) Cost sharing under external resource sharing. (i) For Prime enrollees, cost sharing applicable to services provided by military facility personnel shall be as applicable to services in military treatment facilities; that applicable to institutional and related ancillary charges shall be as applicable to services provided under TRICARE Prime.

(ii) For TRICARE Standard participants, cost sharing applicable to services provided by military facility personnel shall be as applicable to services in military treatment facilities; that applicable to non-military providers, including institutional and related ancillary charges, shall be as applicable to services provided under TRICARE Extra.

(5) Prescription drugs. Cost sharing for prescription drugs is as provided under the Pharmacy Benefits Program in §199.21.

(6) Cost share for outpatient services in military treatment facilities. (i) For dependents of active duty members in all enrollment categories, there is no charge for outpatient visits provided in military medical treatment facilities.

(ii) For retirees, their dependents, and survivors in all enrollment categories, there is no charge for outpatient visits provided in military medical treatment facilities.

(7) Cost sharing for additional beneficiaries under the TRICARE Prime Remote Program. (i) Active duty family members, defined as the lawful husband or wife of a member, and children, as defined in §199.3(b)(2)(ii)(A) through (b)(2)(ii)(F) and (b)(2)(ii)(H)(1), (b)(2)(ii)(H)(2), and (b)(2)(ii)(H)(4), residing with their Active Duty Service Member Sponsor who is TRICARE Prime Remote eligible will have cost-shares, co-payments, and deductibles waived for services provided on or after October 30, 2000. Pharmacy Benefits Program cost-shares established under §199.21 apply to services provided on or after April 1, 2001. Active Duty Service Member Sponsors who are TRICARE Prime Remote eligible are those who receive a remote permanent duty assignment, and pursuant to the assignment, reside at a location that is more than 50 miles, or approximately one hour of driving time from the nearest military medical treatment facility adequate to provide the needed care. Remote permanent duty assignments
include permanent duty as a recruiter; permanent duty at an educational institution to instruct, administer a program of instruction, or provide administrative services in support of a program of instruction for the Reserves Officers’ Training Corps; permanent duty as a full-time adviser to a unit of a reserve component; or any other permanent duty designated by the Secretary. This waiver applies to TRICARE Prime members only.

Claims processed with a date of service beginning on or after October 30, 2000 will waive the cost-share, copayment, and deductible. Active Duty Family Members residing with TRICARE Prime eligible Active Duty Service Member (ADSM) have copayments, cost-shares, and deductibles for CHAMPUS covered benefits except pharmacy benefits waived until the implementation of TRICARE Prime Remote for Family Members or October 30, 2001, whichever is later. The claims processor will pay the waived portion of the claim to the eligible family member or to the provider, as appropriate.

(ii) Eligible family members will be able to access their provider without preauthorization. To obtain the waiver of charges, eligible family members are required to use network providers, where available and within the TRICARE access standards. Failure to do so will result in claims being processed under TRICARE Standard rules. For beneficiaries who are enrolled in TRICARE Prime, existing specialty care preauthorization requirements and Point of Service rules remain in effect.

(iii) To the greatest extent possible, contractors will assist eligible members in finding a TRICARE network, participating, or authorized provider. If a network provider cannot be identified within the access standards established under TRICARE, the eligible family member shall use an authorized provider to be eligible for the waiver.

(n) Additional health care management requirements under TRICARE prime. Prime has additional, special health care management requirements not applicable under Extra, Standard or the CHAMPUS basic program. Such requirements must be approved by the Assistant Secretary of Defense (Health Affairs). In TRICARE, all care may be subject to review for medical necessity and appropriateness of level of care, regardless of whether the care is provided in a military medical treatment facility or in a civilian setting. Adverse determinations regarding care in military facilities will be appealable in accordance with established military medical department procedures, and adverse determinations regarding civilian care will be appealable in accordance with §199.15.

1. Primary care manager. (i) All active duty members and Prime enrollees will be assigned or allowed to select a primary care manager pursuant to a system established by the MTF Commander or other authorized official, and consistent with the access standards in paragraph (p)(5)(i) of this section. The primary care manager may be an individual, physician, a group practice, a clinic, a treatment site, or other designation. The primary care manager may be part of the MTF or the Prime civilian provider network. The enrollee will be given the opportunity to register a preference for primary care manager from a list of choices provided by the MTF Commander. This preference will be entered on a TRICARE Prime enrollment form or similar document. Preference requests will be honored subject to availability, under the MTF beneficiary category priority system and other operational requirements established by the commander and other authorized person. MTF PCM nonavailability may be a condition of assignment to a civilian provider network PCM.

(ii) Prime enrollees who are dependents of active duty members in pay grades E-1 through E-4 shall have priority over other active duty dependents for enrollment with MTF PCMs, subject to MTF capacity.

2. Restrictions on the use of providers. The requirements of this paragraph (n)(2) shall be applicable to health care utilization under TRICARE Prime, except in cases of emergency care and under the point-of-service option (see paragraph (n)(3) of this section).

(i) Prime enrollees must obtain all primary health care from the primary care manager or from another provider to which the enrollee is referred by the primary care manager or an authorized Health Care Finder.

(ii) For any necessary specialty care and all inpatient care, the primary care manager or the Health Care Finder will assist in making an appropriate
referral. All such nonemergency specialty care and inpatient care must be preauthorized by the primary care manager or the Health Care Finder.

(iii) The following procedures will apply to health care referrals and preauthorizations in catchment areas under TRICARE Prime:

(A) The first priority for referral for specialty care or inpatient care will be to the local MTF (or to any other MTF in which catchment area the enrollee resides).

(B) If the local MTF(s) are unavailable for the services needed, but there is another MTF at which the needed services can be provided, the enrollee may be required to obtain the services at that MTF. However, this requirement will only apply to the extent that the enrollee was informed at the time of (or prior to) enrollment that mandatory referrals might be made to the MTF involved for the service involved.

(C) If the needed services are available within civilian preferred provider network serving the area, the enrollee may be required to obtain the services from a provider within the network. Subject to availability, the enrollee will have the freedom to choose a provider from among those in the network.

(D) If the needed services are not available within the civilian preferred provider network serving the area, the enrollee may be required to obtain the services from a designated civilian provider outside the area. However, this requirement will only apply to the extent that the enrollee was informed at the time of (or prior to) enrollment that mandatory referrals might be made to the provider involved for the service involved (with the provider and service either identified specifically or in connection with some appropriate classification).

(E) In cases in which the needed health care services cannot be provided pursuant to the procedures identified in paragraphs (n)(2)(iii) (A) through (D) of this section, the enrollee will receive authorization to obtain services from a CHAMPUS-authorized civilian provider(s) of the enrollee’s choice not affiliated with the civilian preferred provider network.

(iv) When Prime is operating in noncatchment areas, the requirements in paragraphs (n)(2)(iii) (B) through (E) of this section shall apply.

(v) Any health care services obtained by a Prime enrollee, but not obtained in accordance with the utilization management rules and procedures of Prime will not be paid for under Prime rules, but may be covered by the point-of-service option (see paragraph (n)(3) of this section). However, Prime rules may cover such services if the enrollee did not know and could not reasonably have been expected to know that the services were not obtained in accordance with the utilization management rules and procedures of Prime.

(vi) In accordance with guidelines issued by the Assistant Secretary of Defense for Health Affairs, certain travel expenses may be reimbursed when a TRICARE Prime enrollee is referred by the primary care manager for medically necessary specialty care more than 100 miles away from the primary care manager’s office received on or after October 30, 2000. Such guidelines shall be consistent with appropriate provisions of generally applicable Department of Defense rules and procedures governing travel expenses.

(3) Point-of-service option. TRICARE Prime enrollees retain the freedom to obtain services from civilian providers on a point-of-service basis. In such cases, all requirements applicable to standard CHAMPUS shall apply, except that there shall be higher deductible and cost sharing requirements (as set forth in paragraphs (m)(1)(i) and (m)(2)(i) of this section).

(o) TRICARE program enrollment procedures. There are certain requirements pertaining to procedures for enrollment in Prime. (These procedures do not apply to active duty members, whose enrollment is mandatory.)

(1) Open enrollment. Beneficiaries will be offered the opportunity to enroll in Prime on a continuing basis.

(2) Enrollment period. Beneficiaries who select the TRICARE Prime option remain enrolled for 12 month increments until: they take action to disenroll; they are no longer eligible for enrollment in TRICARE Prime; or they are disenrolled for failure to pay required enrollment fees. For those
§ 199.17  32 CFR Ch. I (7–1–02 Edition)

who remain eligible for TRICARE Prime enrollment, no later than 15 days before the expiration date of an enrollment, the sponsor will be sent a written notification of the pending expiration and renewal of the TRICARE Prime enrollment. TRICARE Prime enrollments shall be automatically renewed upon the expiration of the enrollment unless the renewal is declined by the sponsor. Termination of enrollment for failure to pay enrollment fees is addressed in paragraph (o)(3) of this section.

(3) Installment payments of enrollment fee. The enrollment fee required by §199.18(c) may be paid in monthly or quarterly installments. Monthly fees may be payable by an allotment from retired or retainer pay, or paid from a financial institution through an electronic transfer of funds. For beneficiaries paying enrollment fees on an installment basis, failure to make a required installment payment on a timely basis (including a grace period, as determined by the Assistant Secretary of Defense (Health Affairs)) will result in termination of the beneficiary’s enrollment in Prime and disqualification from future enrollment in Prime for a period of one year.

(4) Voluntary disenrollment. Any non-active duty beneficiary may disenroll at any time. Disenrollment will take effect in accordance with administrative procedures established by the Assistant Secretary of Defense (Health Affairs). Beneficiaries who disenroll prior to their annual enrollment renewal date will not be eligible to reenroll in Prime for a one-year period from the effective date of the disenrollment. This one-year exclusion may be waived by the Assistant Secretary of Defense (Health Affairs) based on extraordinary circumstances. This one-year period does not apply to any dependent whose sponsor is in the grade of E–1 to E–4.

(5) Period revision. Periodically, certain features, rules or procedures of Prime, Extra and/or Standard may be revised. If such revisions will have a significant effect on participants’ costs or access to care, beneficiaries will be given the opportunity to change their enrollment status coincident with the revisions.

(6) Effects of failure to enroll. Beneficiaries offered the opportunity to enroll in Prime, who do not enroll, will remain in Standard and will be eligible to participate in Extra on a case-by-case basis.

(7) Special procedures for certain dependents of active duty members in pay grades E–1 to E–4. As an exception to other procedures in paragraph (o) of this section, dependents of active duty members in pay grades E–1 to E–4, if such dependents reside in a catchment area of a military hospital, are automatically enrolled in TRICARE Prime. The applicable military hospital shall provide written notice of the automatic enrollment to the member and the affected dependents. The effective date of such automatic enrollment shall be the date of the written notice, unless an earlier effective date is requested by the member or affected dependents, so long as the affected dependents were as of the effective date dependents of an active duty member in pay grades E–1 to E–4 and residents in a catchment area of a military hospital. Dependents who are automatically enrolled under this paragraph may disenroll at any time. Such disenrollment shall remain in effect until such dependents take specific action to reenroll which such dependents may do at any time.

(p) Civilian preferred provider networks. A major feature of the TRICARE program is the civilian preferred provider network.

(1) Status of network providers. Providers in the preferred provider network are not employees or agents of the Department of Defense or the United States Government. Rather, they are independent contractors of the government (or other independent entities having business arrangements with the government). Although network providers must follow numerous rules and procedures of the TRICARE program, on matters of professional judgment and professional practice, the network provider is independent and not operating under the direction and control of the Department of Defense. Each preferred provider must have adequate professional liability insurance, as required by the Federal Acquisition Regulation, and must agree
to indemnify the United States Government for any liability that may be assessed against the United States Government that is attributable to any action or omission of the provider.

(2) Utilization management policies. Preferred providers are required to follow the utilization management policies and procedures of the TRICARE program. These policies and procedures are part of discretionary judgments by the Department of Defense regarding the methods of delivering and financing health care services that will best achieve health and economic policy objectives.

(3) Quality assurance requirements. A number of quality assurance requirements and procedures are applicable to preferred network providers. These are for the purpose of assuring that the health care services paid for with government funds meet the standards called for in the contract or provider agreement.

(4) Provider qualifications. All preferred providers must meet the following qualifications:

(i) They must be CHAMPUS authorized providers and CHAMPUS participating providers.

(ii) All physicians in the preferred provider network must have staff privileges in a hospital accredited by the Joint Commission on Accreditation of Health Care Organizations (JCAHO). This requirement may be waived in any case in which a physician’s practice does not include the need for admitting privileges in such a hospital, or in locations where no JCAHO accredited facility exists. However, in any case in which the requirement is waived, the physician must comply with alternative qualification standards as are established by the MTF Commander (or other authorized official).

(iii) All preferred providers must agree to follow all quality assurance, utilization management, and patient referral procedures established pursuant to this section, to make available to designated DoD utilization management or quality monitoring contractors medical records and other pertinent records, and to authorize the release of information to MTF Commanders regarding such quality assurance and utilization management activities.

(iv) All preferred network providers must be Medicare participating providers, unless this requirement is waived based on extraordinary circumstances. This requirement that a provider be a Medicare participating provider does not apply to providers not eligible to be participating providers under Medicare.

(v) The provider must be available to Extra participants.

(vi) The provider must agree to accept the same payment rates negotiated for Prime enrollees for any person whose care is reimbursable by the Department of Defense, including, for example, Extra participants, supplemental care cases, and beneficiaries from outside the area.

(vii) All preferred providers must meet all other qualification requirements, and agree to comply with all other rules and procedures established for the preferred provider network.

(5) Access standards. Preferred provider networks will have attributes of size, composition, mix of providers and geographical distribution so that the networks, coupled with the MTF capabilities, can adequately address the health care needs of the enrollees. Before offering enrollment in Prime to a beneficiary group, the MTF Commander (or other authorized person) will assure that the capabilities of the MTF plus preferred provider network will meet the following access standards with respect to the needs of the expected number of enrollees from the beneficiary group being offered enrollment:

(i) Under normal circumstances, enrollee travel time may not exceed 30 minutes from home to primary care delivery site unless a longer time is necessary because of the absence of providers (including providers not part of the network) in the area.

(ii) The wait time for an appointment for a well-patient visit or a specialty care referral shall not exceed four weeks; for a routine visit, the wait time for an appointment shall not exceed one week; and for an urgent care visit the wait time for an appointment shall generally not exceed 24 hours.
§ 199.17

(iii) Emergency services shall be available and accessible to handle emergencies (and urgent care visits if not available from other primary care providers pursuant to paragraph (p)(5)(ii) of this section), within the service area 24 hours a day, seven days a week.

(iv) The network shall include a sufficient number and mix of board certified specialists to meet reasonably the anticipated needs of enrollees. Travel time for specialty care shall not exceed one hour under normal circumstances, unless a longer time is necessary because of the absence of providers (including providers not part of the network) in the area. This requirement does not apply under the Specialized Treatment Services Program.

(v) Office waiting times in non-emergency circumstances shall not exceed 30 minutes, except when emergency care is being provided to patients, and the normal schedule is disrupted.

(6) Special reimbursement methods for network providers. The Director, OCHAMPUS, may establish, for preferred provider networks, reimbursement rates and methods different from those established pursuant to §199.14. Such provisions may be expressed in terms of percentage discounts off CHAMPUS allowable amounts, or in other terms. In circumstances in which payments are based on hospital-specific rates (or other rates specific to particular institutional providers), special reimbursement methods may permit payments based on discounts off national or regional prevailing payment levels, even if higher than particular institution-specific payment rates.

(7) Methods for establishing preferred provider networks. There are several methods under which the MTF Commander (or other authorized official) may establish a preferred provider network. These include the following:

(i) There may be an acquisition under the Federal Acquisition Regulation, either conducted locally for that catchment area, in a larger area in concert with other MTF Commanders, regionally as part of a CHAMPUS acquisition, or on some other basis.

(ii) To the extent allowed by law, there may be a modification by the Director, OCHAMPUS, of an existing CHAMPUS fiscal intermediary contract to add TRICARE program functions to the existing responsibilities of the fiscal intermediary contractor.

(iii) The MTF Commander (or other authorized official) may follow the “any qualified provider” method set forth in paragraph (q) of this section.

(iv) Any other method authorized by law may be used.

(q) Preferred provider network establishment under any qualified provider method. The any qualified provider method may be used to establish a civilian preferred provider network. Under this method, any CHAMPUS-authorized provider within the geographical area involved that meets the qualification standards established by the MTF Commander (or other authorized official) may become a part of the preferred provider network. Such standards must be publicly announced and uniformly applied. Also under this method, any provider who meets all applicable qualification standards may not be excluded from the preferred provider network. Qualifications include:

(1) The provider must meet all applicable requirements in paragraph (p)(4) of this section.

(2) The provider must agree to follow all quality assurance and utilization management procedures established pursuant to this section.

(3) The provider must be a Participating Provider under CHAMPUS for all claims.

(4) The provider must meet all other qualification requirements, and agree to all other rules and procedures, that are established, publicly announced, and uniformly applied by the commander (or other authorized official).

(5) The provider must sign a preferred provider network agreement covering all applicable requirements. Such agreements will be for a duration of one year, are renewable, and may be canceled by the provider or the MTF Commander (or other authorized official) upon appropriate notice to the other party. The Director, OCHAMPUS shall establish an agreement model or other guidelines to promote uniformity in the agreements.
General fraud, abuse, and conflict of interest requirements under TRICARE program. All fraud, abuse, and conflict of interest requirements for the basic CHAMPUS program, as set forth in this part 199 (see especially applicable provisions of §199.9) are applicable to the TRICARE program. Some methods and procedures for implementing and enforcing these requirements may differ from the methods and procedures followed under the basic CHAMPUS program in areas in which the TRICARE program has not been implemented.

Partial implementation. The Assistant Secretary of Defense (Health Affairs) may authorize the partial implementation of the TRICARE program. The following are examples of partial implementation:

1. The TRICARE Extra Plan and the TRICARE Standard Plan may be offered without the TRICARE Prime Plan.
2. In remote sites, where complete implementation of TRICARE is impracticable, TRICARE Prime may be offered to a limited group of beneficiaries. In such cases, normal requirements of TRICARE Prime which the Assistant Secretary of Defense (Health Affairs) determines are impracticable may be waived.
3. The TRICARE program may be limited to particular services, such as mental health services.

Inclusion of Department of Veterans Affairs Medical Centers in TRICARE networks. TRICARE preferred provider networks may include Department of Veterans Affairs health facilities pursuant to arrangements, made with the approval of the Assistant Secretary of Defense (Health Affairs), between those centers and the Director, OCHAMPUS, or designated TRICARE contractor.

Care provided outside the United States to dependents of active duty members. The Assistant Secretary of Defense (Health Affairs) may, in conjunction with implementation of the TRICARE program, authorize a special CHAMPUS program for dependents of active duty members who accompany the members in their assignments in foreign countries. Under this special program, a preferred provider network will be established through contracts or agreements with selected health care providers. Under the network, CHAMPUS covered services will be provided to the covered dependents with all CHAMPUS requirements for deductibles and copayments waived. The use of this authority by the Assistant Secretary of Defense (Health Affairs) for any particular geographical area will be announced in the FEDERAL REGISTER. The announcement will include a description of the preferred provider network program and other pertinent information.

Administrative procedures. The Assistant Secretary of Defense (Health Affairs), the Director, TRICARE Management Activity, and MTF Commanders (or other authorized officials) are authorized to establish administrative requirements and procedures, consistent with this section, this part, and other applicable DoD Directives or Instructions, for the implementation and operation of the TRICARE program.

§199.18 Uniform HMO Benefit.

(a) In general. There is established a Uniform HMO Benefit. The purpose of the Uniform HMO benefit is to establish a health benefit option modeled on health maintenance organization plans. This benefit is intended to be uniform wherever offered throughout the United States and to be included in all managed care programs under the MHSS. Most care purchased from civilian health care providers (outside an MTF) will be under the rules of the Uniform HMO Benefit or the Basic CHAMPUS Program (see §199.4). The Uniform HMO Benefit shall apply only as specified in this section or other sections of this part, and shall be subject to any special applications indicated in such other sections.

(b) Services covered under the uniform HMO benefit option. (1) Except as specifically provided or authorized by this section, all CHAMPUS benefits provided, and benefit limitations established, pursuant to this part, shall apply to the Uniform HMO Benefit.
§ 199.18

(2) Certain preventive care services not normally provided as part of basic program benefits under CHAMPUS are covered benefits when provided to Prime enrollees by providers in the civilian provider network. Standards for preventive care services shall be developed based on guidelines from the U.S. Department of Health and Human Services. Such standards shall establish a specific schedule, including frequency or age specifications for:

(i) Laboratory and x-ray tests, including blood lead, rubella, cholesterol, fecal occult blood testing, and mammography;

(ii) Pap smears;

(iii) Eye exams;

(iv) Immunizations;

(v) Periodic health promotion and disease prevention exams;

(vi) Blood pressure screening;

(vii) Hearing exams;

(viii) Sigmoidoscopy or colonoscopy;

(ix) Serologic screening; and

(x) Appropriate education and counseling services. The exact services offered shall be established under uniform standards established by the Assistant Secretary of Defense (Health Affairs).

(3) In addition to preventive care services provided pursuant to paragraph (b)(2) of this section, other benefit enhancements may be added and other benefit restrictions may be waived or relaxed in connection with health care services provided to include the Uniform HMO Benefit. Any such other enhancements or changes must be approved by the Assistant Secretary of Defense (Health Affairs) based on uniform standards.

(c) Enrollment fee under the uniform HMO benefit—

(1) The CHAMPUS annual deductible amount (see §199.4(f)) is waived under the Uniform HMO Benefit during the period of enrollment. In lieu of a deductible amount, an annual enrollment fee is applicable. The specific enrollment fee requirements shall be published annually by the Assistant Secretary of Defense (Health Affairs), and shall be uniform within the following groups: dependents of active duty members in pay grades E-5 and below; active duty dependents of sponsors in pay grades E-5 and above; and retirees and their dependents.

(2) Amount of enrollment fees. In fiscal year 2001, the annual enrollment fee for retirees and their dependents is $230 individual, $460 family.

(3) Waiver of enrollment fee for certain beneficiaries. The Assistant Secretary of Defense (Health Affairs) may waive the enrollment fee requirements of this section for Medicare-eligible beneficiaries.

(d) Outpatient cost sharing requirements under the uniform HMO benefit—

(1) In general. In lieu of usual CHAMPUS cost sharing requirements (see §199.4(f)), special reduced cost sharing percentages or per service specific dollar amounts are required. The specific requirements shall be uniform and shall be published periodically by the Assistant Secretary of Defense (Health Affairs). For care provided on or after April 1, 2001, no copayment shall be charged for care provided under TRICARE Prime to a dependent of an active duty member, except for the copayments charged under the Pharmacy Benefits Program (see §199.21) and under the point of service option of TRICARE Prime (see §199.17(n)(4)).

(2) Structure of outpatient cost sharing. The special cost sharing requirements for outpatient services include the following specific structural provisions:

(i) For most physician office visits and other routine services, there is a per visit fee for retirees and their dependents. This fee applies to primary care and specialty care visits, except as provided elsewhere in this paragraph (d)(2) of this section. It also applies to family health services, home health care visits, eye examinations, and immunizations. It does not apply to ancillary health services or to preventive health services described in paragraph (b)(2) of this section, or to maternity services under §199.4(e)(16).

(ii) There is a copayment for outpatient mental health visits. It is a per visit fee for retirees and their dependents for individual visits, except as provided elsewhere in this paragraph (d)(2) of this section. It also applies to group visits, where there is a lower per visit fee for retirees and their dependents.

(iii) There is a cost share of durable medical equipment, prosthetic devices, and other authorized supplies for retirees and their dependents.
(iv) For emergency room services, there is a per visit fee for retirees and their dependents.
(v) For ambulatory surgery services, there is a per service fee for retirees and their dependents.
(vi) There is a copayment for prescription drugs per prescription, including medical supplies necessary for administration, for dependents of active duty members and for retirees and their dependents under the Pharmacy Benefits Program (see §199.17(m)(5)).
(vii) There is a copayment for ambulance services for retirees and their dependents.

(3) Amount of outpatient cost sharing requirements. In fiscal year 2001, the outpatient cost sharing requirements are as follows:

(i) For most physician office visits and other routine services, as described in paragraph (d)(2)(i) of this section, the per visit fee for retirees and their dependents is $12.
(ii) For outpatient mental health visits, the per visit fee for retirees and their dependents is $25. For group outpatient mental health visits, there is a lower per visit fee for retirees and their dependents of $17.
(iii) The cost share for durable medical equipment, prosthetic devices, and other authorized supplies for retirees and their dependents is 20 percent of the negotiated fee.
(iv) For emergency room services, the per visit fee for retirees and their dependents is $30.
(v) For primary surgeon services in ambulatory surgery, the per service fee for retirees and their dependents is $25.
(vi) The copayment for prescription drugs are established under the Pharmacy Benefits Program (see §199.21).
(vii) The copayment for ambulance services for retirees and their dependents is $20.

(e) Inpatient cost sharing requirements under the uniform HMO benefit—(1) In general. In lieu of usual CHAMPUS cost sharing requirements (see §199.4(f)), special cost sharing amounts are required. The specific requirements shall be uniform and shall be published periodically by the Assistant Secretary of Defense (Health Affairs). For services provided on or after April 1, 2001, no copayment shall be charged for inpatient care provided under TRICARE Prime to a dependent of an active duty member except under the point of service option of TRICARE Prime (see §199.17(n)(4)). In addition, for services provided on or after April 1, 2001, no copayment shall be charged for inpatient care provided under TRICARE Prime to a dependent of an active duty member in military medical treatment facilities.

(2) Structure of cost sharing. For services other than mental illness or substance use treatment, there is a nominal copayment for retired members, dependents of retired members, and survivors. For inpatient mental health and substance use treatment, a separate per day charge is established. For services provided on or after April 1, 2001, no inpatient copayment shall be charged an active duty dependent enrolled in TRICARE Prime. This elimination of inpatient copayments applies to active duty dependents enrolled in TRICARE Prime who are admitted to a civilian or military inpatient facility.

(3) Amount of inpatient cost sharing requirements. In fiscal year 2001, the inpatient cost sharing requirements for retirees and their dependents for acute care admissions and other non-mental health/substance use treatment admissions is a per diem charge of $11, with a minimum charge of $25 per admission. For mental health/substance use treatment admissions, and for partial hospitalization services, the per diem charge for retirees and their dependents is $40.

(f) Limit on out-of-pocket costs under the uniform HMO benefit. (1) Total out-of-pocket costs per family of dependents of active duty members under the Uniform HMO Benefit may not exceed $1,000 during the one-year enrollment period. Total out-of-pocket costs per family of retired members, dependents of retired members and survivors under the Uniform HMO Benefit may not exceed $3,000 during the one-year enrollment period. For this purpose, out-of-pocket costs means all payments required of beneficiaries under paragraphs (c), (d), and (e) of this section. In any case in which a family reaches this limit, all remaining payments that would have been required of the beneficiary under paragraphs (c), (d), and
§ 199.20 Continued Health Care Benefit Program (CHCBP).

(a) Purpose. The CHCBP is a premium based temporary health care coverage program that will be available to qualified beneficiaries (set forth in paragraph (d)(1) of this section). Medical coverage under this program will mirror the benefits offered via the basic CHAMPUS program. Premium costs for this coverage are payable by enrollees to a Third Party Administrator. The CHCBP is not part of the CHAMPUS program. However, as set forth in this section, it functions under most of the rules and procedures of CHAMPUS. Because the purpose of the CHCBP is to provide a continuation health care benefit for the Department of Defense and the other Uniformed Services (e.g., NOAA, PHS, and the Coast Guard) health care beneficiaries losing eligibility, it will be administered so that it appears, to the maximum extent possible, to be part of CHAMPUS.

(b) General provisions. Except for any provisions the Director, OCHAMPUS may exclude, the general provisions of §199.1 shall apply to the CHCBP as they do to CHAMPUS.

(c) Definitions. Except as may be specifically provided in this section, to the extent terms defined in §199.2 are relevant to the administration of the CHCBP, the definitions contained in that section shall apply to the CHCBP as they do to CHAMPUS.

§ 199.20 Continued Health Care Benefit Program (CHCBP).

(2) The limits established by paragraph (f)(1) of this section do not apply to out-of-pocket costs incurred pursuant to paragraph (m)(1)(i) or (m)(2)(i) of §199.17 under the point-of-service option of TRICARE Prime.

(g) Updates. The enrollment fees for fiscal year 2001 set under paragraph (c) of this section and the per service specific dollar amounts for fiscal year 2001 set under paragraphs (d) and (e) of this section may be updated for subsequent years to the extent necessary to maintain compliance with statutory requirements pertaining to government costs. This updating does not apply to cost sharing that is expressed as a percentage of allowable charges; these percentages will remain unchanged.

(A) Is placed in the legal custody of a member or former member by a court or who is placed in the home of a member or former member by a recognized placement agency in anticipation of the legal adoption of the child; and

(B) Either:

(1) Has not attained the age of 21 if not in school or age 23 if enrolled in a full time course of study at an institution of higher learning; or

(2) Is incapable of self-support because of a mental or physical incapacity which occurred while the person was considered a dependent of the member or former member; and

(C) Is dependent on the member or former member for over one-half of the person's support; and

(D) Resides with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of disability or incapacitation; and

(E) Is not a dependent of a member or former member as described in §199.3(b)(2).

(2) Effective date. Except for the special transitional provisions in paragraph (r) of this section, eligibility in the CHCBP is limited to individuals who lost their entitlement to regular military health services system benefits on or after October 1, 1994.

(3) Notification of eligibility. (i) The Department of Defense and the other Uniformed Services (National Oceanic and Atmospheric Administration (NOAA), Public Health Service (PHS), Coast Guard) will notify persons eligible to receive health benefits under the CHCBP.

(ii) In the case of a member who becomes (or will become) eligible for continued coverage, the Department of Defense shall notify the member of their rights for coverage as part of pre-separation counseling conducted under 10 U.S.C. 1142.

(iii) In the case of a child of a member or former member who becomes eligible for continued coverage:

(A) The member or former member may submit to the Third Party Administrator a notice of the child’s change in status (including the child’s name, address, and such other information needed); and

(B) The Third Party Administrator, within 14 days after receiving such information, will inform the child of the child's rights under 10 U.S.C. 1142.

(iv) In the case of a former spouse of a member or former member who becomes eligible for continued coverage, the Third Party Administrator will notify the individual of eligibility for CHCBP when he or she declares the change in marital status to a military personnel office.

(4) Election of coverage. (i) In order to obtain continued coverage, written election by eligible beneficiary must be made, within a prescribed time period. In the case of a member discharged or released from active duty (or full time National Guard duty), whether voluntarily or involuntarily; an unremarried spouse of a member or former member; or a child emancipated from a member or former member, the written election shall be submitted to the Third Party Administrator before the end of the 60-day period beginning on the later of:

(A) The date of the discharge or release of the member from active duty or full-time National Guard duty;

(B) The date on which the period of transitional health care applicable to the member under 10 U.S.C. 1145(a) ends;

(C) In the case of an unremarried former spouse of a member or former member, the date the one-year extension of dependency under 10 U.S.C. 1072(2)(H) expires; or

(D) The date the member receives the notification of eligibility.

(ii) A member of the armed forces who is eligible for enrollment under paragraph (d)(1)(i) of this section may elect self-only or family coverage. Family members who may be included in such family coverage are the spouse and children of the member.

(5) Enrollment. Enrollment in the Continued Health Care Benefit Program will be accomplished by submission of an application to a Third Party Administrator (TPA). Upon submittal of an application to the Third Party Administrator, the enrollee must submit proof of eligibility. One of the following types of evidence will validate eligibility for care:

(i) A Defense Enrollment Eligibility Reporting System (DEERS) printout
which indicates the appropriate sponsor status and the sponsor’s and dependent’s eligibility dates;

(ii) A copy of a verified and approved DD Form 1172, “Application for Uniformed Services Identification and Privilege Card”;

(iii) A front and back copy of a DD Form 1173, “Uniformed Services Identification and Privilege Card” over-stamped “TA” for Transition Assistance Management Program; or

(iv) A copy of a DD Form 214—“Certificate of Release or Discharge from Active Duty”.

(6) Period of coverage. CHCBP coverage may not extend beyond:

(i) For a member discharged or released from active duty (or full time National Guard duty), whether voluntarily or involuntarily, the date which is 18 months after the date the member ceases to be entitled to care under 10 U.S.C. 1074(a) and any transitional care under 10 U.S.C. 1145.

(ii) In the case of an unmarried dependent child of a member or former member, the date which is 36 months after the date on which the person first ceases to meet the requirements for being considered an unmarried dependent child under 10 U.S.C. 1072(2)(D).

(iii) In the case of an unremarried former spouse of a member or former member, the date which is 36 months after the later of:

(A) The date on which the final decree of divorce, dissolution, or annulment occurs; or

(B) If applicable, the date the one-year extension of dependency under 10 U.S.C. 1072(2)(H) expires.

(iv) In the case of an unremarried former spouse of a member or former member, the period of coverage under the CHCBP is unlimited, if:

(A) Has not remarried before the age of 55; and

(B) Was enrolled in the CHCBP as the dependent of an involuntarily separated member during the 18-month period before the date of the divorce, dissolution, or annulment; and

(C) Is receiving a portion of the retired or retainer pay of a member or former member or an annuity based on the retired pay of the member; or

(D) Has a court order for payment of any portion of the retired or retainer pay; or

(E) Has a written agreement (whether voluntary or pursuant to a court order) which provides for an election by the member or former member to provide an annuity to the former spouse.

(v) For the beneficiary who becomes eligible for the Continued Health Care Benefit Program by ceasing to meet the requirements for being considered an unmarried dependent child of a member or former member, health care coverage may not extend beyond the date which is 36 months after the date the member becomes ineligible for medical and dental care under 10 U.S.C. 1074(a) and any transitional health care under 10 U.S.C. 1145(a).

(vi) Though beneficiaries have sixty-days (60) to elect coverage under the CHCBP, upon enrolling, the period of coverage must begin the day after entitlement to a military health care plan (including transitional health care under 10 U.S.C. 1145(a)) ends.

(e) CHCBP benefits—(1) In general. Except as provided in paragraph (e)(2) of this section, the provisions of §199.4 shall apply to the CHCBP as they do to CHAMPUS.

(2) Exceptions. The following provisions of §199.4 are not applicable to the CHCBP:

(i) Paragraph (a)(2) of this section concerning eligibility:

(ii) All provisions regarding non-availability statements or requirements to use facilities of the Uniformed Services.

(3) Beneficiary liability. For purposes of CHAMPUS deductible and cost sharing requirements and catastrophic cap limits, amounts applicable to the categories of beneficiaries to which the CHCBP enrollee last belonged shall continue to apply, except that for separating active duty members, amounts applicable to dependents of active duty members shall apply.

(f) Authorized providers. The provisions of §199.6 shall apply to the CHCBP as they do to CHAMPUS.

(g) Claims submission, review, and payment. The provisions of §199.7 shall apply to the CHCBP as they do to CHAMPUS, except that no provisions
regarding nonavailability statements shall apply.

(h) **Double coverage.** The provisions of §199.8 shall apply to the CHCBP as they do to CHAMPUS.

(i) **Fraud, abuse, and conflict of interest.** Administrative remedies for fraud, abuse and conflict of interest. The provisions of §199.9 shall apply to the CHCBP as they do to CHAMPUS.

(j) **Appeal and hearing procedures.** The provisions of §199.10 shall apply to the CHCBP as they do to CHAMPUS.

(k) **Provider reimbursement techniques.** The provisions of §199.14 shall apply to the CHCBP as they do to CHAMPUS.

(l) **Peer Review Organization Program.** The provisions of §199.15 shall apply to the CHCBP as they do to CHAMPUS.

(m) **Preferred provider organization programs available.** Any preferred provider organization program under this part that provides for reduced cost sharing for using designated providers, such as the "TRICARE Extra" option under §199.17, shall be available to participants in the CHCBP as it is to CHAMPUS beneficiaries.

(p) **Special programs not applicable—(1) In general.** Special programs established under this part that are not part of the basic CHAMPUS program established pursuant to 10 U.S.C. 1079 and 1086 are not, unless specifically provided in this section, available to participants in the CHCBP.

(q) **Premiums—(1) Rates.** Premium rates will be established by the Assistant Secretary of Defense (Health Affairs) for two rate groups—individual and family. Eligible beneficiaries will select the level of coverage they require at the time of initial enrollment (either individual or family) and pay the appropriate premium payment. The rates are based on Federal Employee Health Benefit Program employee and agency contributions required for a comparable health benefits plan, plus an administrative fee. The administrative fee, not to exceed ten percent of the basic premium amount, shall be determined based on actual expected administrative costs for administration of the program. Premiums may be revised annually and shall be published annually for each fiscal year. Premiums will be paid by enrollees quarterly.

(2) **Effects of failure to make premium payments.** Failure by enrollees to submit timely and proper premium payments will result in denial of continued enrollment and denial of payment of medical claims. Premium payments which are late 30 days or more past the start of the quarter for which payment is due will result in the ending of beneficiary enrollment. Beneficiaries denied continued enrollment due to lack of premium payments will not be allowed to reenroll. In such a case, benefit coverage will cease at the end of the ninety day (90) period for which a premium payment was received. Enrollees will be held liable for medical costs incurred after losing eligibility.

(r) **Transitional provisions.** (1) There will be a sixty-day period of enrollment for all eligible beneficiaries (outlined in paragraph (d)(1) of this section) whose entitlement to regular military health services system coverage ended on or after August 2, 1994, but prior to the CHCBP implementation on October 1, 1994.

(2) **Enrollment in the U.S. VIP program may continue up to October 1,
§ 199.21 Pharmacy Benefits Program.

(a) **In general.**—(1) **Statutory authority.** 10 U.S.C. 1074g requires that the Department of Defense establish an effective, efficient, integrated Pharmacy Benefits Program for the Military Health System. This law is independent of a number of other laws that affect the benefits, rules, and procedures of CHAMPUS/TRICARE, resulting in changes to the rules otherwise applicable to TRICARE Prime, Standard, and Extra. Among these changes is an independent set of beneficiary co-payments for prescription drugs.

(2) **Partial implementation during interim period.** Beginning April 1, 2001, 10 U.S.C. 1074g is partially implemented to coincide with the start of the TRICARE Senior Pharmacy Program and substantial cost sharing changes for active duty dependents enrolled in Prime. Some authorities and requirements of Section 1074g, such as the classification of drugs as formulary or non-formulary under a “uniform formulary of pharmaceutical agents,” are not yet implemented. In this section, references to “interim implementation period” mean the period beginning April 1, 2001.

(b) **Program benefits.** During the interim implementation period, prescription drugs and medicines are available under the otherwise applicable rules and procedures for military treatment facility pharmacies, TRICARE Prime, Standard, and Extra, and the Mail Order Pharmacy Program. There is not during this interim implementation period a “uniform formulary” of drugs and medicines available in all of these parts of the system. All cost sharing requirements for prescription drugs and medicines are established in this section for pharmacy services provided throughout the Military Health System.

(c) **Providers of pharmacy services.** There are four categories of providers of pharmacy services: military treatment facilities (MTFs), network retail providers, non-network retail providers, and the mail service pharmacy program. Network retail providers are those non-MTF pharmacies that are a part of the network established for TRICARE Prime under §199.17. Non-network pharmacies are those non-MTF pharmacies that are not part of such a network.

(d) **Classifications of drugs and medicines.** During the interim implementation period, a distinction is made for purposes of cost sharing between generic drugs and non-generic (or brand name) drugs.

(e) **TRICARE Senior Pharmacy Program.** Section 711 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (Public Law 106–398, 114 Stat. 1654) established the TRICARE Senior Pharmacy Program for Medicare eligible beneficiaries effective April 1, 2001. These beneficiaries are required to meet the eligibility criteria as prescribed in §199.3. The benefit under the TRICARE Senior Pharmacy Program includes the Basic Program pharmacy benefits as found under §199.4(d) and the pharmacy benefit and cost sharing as found under this part. The TRICARE Senior Pharmacy Program applies to prescription drugs and medicines provided on or after April 1, 2001.

(f) **Cost sharing.** Beneficiary cost sharing requirements for prescription drugs and medicines are based upon the generic/non-generic status and the
Office of the Secretary of Defense

§ 199.22

point of sale (i.e., MTF, network pharmacy, non-network pharmacy, mail service pharmacy) from which they are acquired. For this purpose, a generic drug is a non-brand name drug. A non-generic drug is a brand name drug. In the case of a brand name drug for which there is no generic equivalent, the non-generic cost share applies.

(1) Military treatment facilities. There are no cost sharing requirements for drugs and medicines provided by MTF pharmacies.

(2) Retail pharmacy network program. There is a $9.00 co-pay per prescription required under the retail pharmacy network program for up to a 30-day supply of a non-generic drug or medicine, and a $3.00 co-pay for up to a 30-day supply of a generic drug or medicine. There is no annual deductible for drugs and medicines provided under the retail pharmacy network program.

(3) Mail service pharmacy program. There is a $9.00 co-pay per prescription required under the mail service pharmacy program for up to a 90-day supply of a non-generic drug or medicine, and a $3.00 co-pay for up to a 90-day supply of a generic drug or medicine. There is no annual deductible for drugs and medicines provided under the mail service pharmacy program.

(4) Non-network retail pharmacies. There is a 20 percent or $9.00 (whichever is greater) co-pay per prescription required for up to a 30-day supply of a drug obtained from a non-network pharmacy. A point of service cost-share of 50 percent applies in lieu of the 20 percent copay for TRICARE Prime enrollees who obtain their prescriptions from non-network retail pharmacies without proper authorization. In addition, these TRICARE Prime enrollees are subject to higher deductibles as provided in §199.17(m)(1)(i) and (m)(2)(i). For prescription drugs acquired from non-network retail pharmacies, beneficiaries other than Prime enrollees (including TRICARE Senior Pharmacy Program beneficiaries) are subject to the $150.00 per individual or $300.00 maximum per family (or for dependents of sponsors in pay grades below E-5, $50 per individual or $100 per family) annual fiscal year deductible.

(5) Effect of other health insurance. The double coverage rules of §199.8 are applicable to services provided under the Pharmacy Benefits Program. For this purpose, to the extent they provide a prescription drug benefit, Medicare supplemental insurance plans or Medicare HMO plans are double coverage plans and will be the primary payor.

(h) Procedures. The Director, TRICARE Management Activity shall establish procedures for the effective operation of the Pharmacy Benefit Program. Such procedures may include restrictions of the quantity of pharmaceuticals to be included under the benefit, encouragement or requirement of the use of generic drugs, implementation of quality assurance and utilization management activities, and other appropriate matters.

[67 FR 12472, Mar. 19, 2002]

§ 199.22 TRICARE Retiree Dental Program (TRDP).

(a) Purpose. The TRDP is a premium based indemnity dental insurance coverage program that will be available to retired members of the Uniformed Services, their dependents, and certain other beneficiaries, as specified in paragraph (d) of this section. The TRDP is authorized by 10 U.S.C. 1076c.

(b) General provisions. (1) At a minimum, benefits are the diagnostic services, preventive services, basic restorative services (including endodontics), oral surgery services, and emergency services specified in paragraph (f)(1) of this section. Additional services comparable to those contained in paragraph (e)(2) of §199.13 may be covered pursuant to benefit policy decisions made by the Director, OCHAMPUS, or designee.

(2) Premium costs for this coverage will be paid by the enrollee.

(3) The program is applicable to authorized providers in the 50 United States and the District of Columbia, Canada, Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands.

(4) Except as otherwise provided in this section or by the Assistant Secretary of Defense (Human Affairs) or designee, the TRDP is administered in a manner similar to the Active Duty
§ 199.22 Dependents Dental Plan under § 199.13 of this part.

(5) The TRDP shall be administered through a contract.

(c) Definitions. Except as may be specifically provided in this section, to the extent terms defined in §§ 199.2 and 199.13(b) of this part are relevant to the administration of the TRICARE Retiree Dental Program, the definitions contained in §§ 199.2 and 199.13(b) of this part shall apply to the TRDP as they do to CHAMPUS and the TRICARE Active Duty Dependents Dental Plan.

(d) Eligibility and enrollment.—(1) Eligibility. Enrollment in the TRICARE Retiree Dental Program is open to:

(i) Members of the Uniformed Services who are entitled to retired pay, or former members of the armed forces who are Medal of Honor recipients and who are not otherwise entitled to dental benefits;

(ii) Members of the Retired Reserve under the age of 60;

(iii) Eligible dependents of a member described in paragraph (d)(1)(i) or paragraph (d)(1)(ii) of this section who are covered by the enrollment of the member;

(iv) Eligible dependents of a member described in paragraph (d)(1)(i) or paragraph (d)(1)(ii) of this section when the member is not enrolled in the program and the member meets at least one of the conditions in paragraphs (d)(1)(iv)(A) through (C) of this section. Already enrolled members must satisfy any remaining enrollment commitment prior to enrollment of dependents becoming effective under this paragraph, at which time the dependent-only enrollment will continue on a voluntary, month-to-month basis as specified in paragraph (d)(4) of this section. Members must provide documentation to the TRDP contractor giving evidence of compliance with paragraphs (d)(1)(iv)(A), (B), or (C) of this section at the time of application for enrollment of their dependents under this paragraph.

(A) The member is enrolled under Section 1705 of Title 38, United States Code, to receive ongoing, comprehensive dental care from the Department of Veterans Affairs. Authorization of such dental care must be confirmed in writing by the Department of Veterans Affairs.

(B) The member is enrolled in a dental plan that is available to the member as a result of employment of the member that is separate from the Uniformed Service of the member, and the dental plan is not available to dependents of the member as a result of such separate employment by the member. Enrollment in this dental plan and the exclusion of dependents from enrollment in the plan must be confirmed by documentation from the member’s employer or the dental plan’s administrator.

(C) The member is prevented by a current and enduring medical or dental condition from being able to obtain benefits under the TRDP. The specific medical or dental condition and reason for the inability to use the program’s benefits over time, if not apparent based on the condition, must be documented by the member’s physician or dentist.

(v) The unremarried surviving spouse and eligible child dependents of a deceased member who died while in status described in paragraph (d)(1)(i) or paragraph (d)(1)(ii) of this section; the unremarried surviving spouse and eligible child dependents who receive a surviving spouse annuity; or the unremarried surviving spouse and eligible child dependents of a deceased member who died while on active duty for a period of more than 30 days and whose eligible dependents are not eligible or no longer eligible for the Active Duty Dependents Dental Plan.

Note to paragraphs (d)(1)(iii), (d)(1)(iv), and (d)(1)(v): Eligible dependents of Medal of Honor recipients are described in § 199.3(b)(2)(i) (except for former spouses) and § 199.3(b)(2)(ii) (except for a child placed in legal custody of a Medal of Honor recipient under § 199.3(b)(2)(ii)(H)(4)).

(2) Notification of eligibility. The contractor will notify persons eligible to receive dental benefits under the TRICARE Retiree Dental Program.

(3) Election of coverage. In order to initiate dental coverage, election to enroll must be made by the member or eligible dependent. Enrollment in the TRICARE Retiree Dental Program is voluntary and will be accomplished by
Office of the Secretary of Defense § 199.22

submission of an application to the TRDP contractor.

(4) Enrollment periods—(i) Enrollment period for basic benefits. The initial enrollment for the basic dental benefits described in paragraph (f)(1) of this section shall be for a period of 24 months followed by month-to-month enrollment as long as the enrollee remains eligible and chooses to continue enrollment. An enrollee’s disenrollment from the TRDP at any time for any reason, including termination for failure to pay premiums, is subject to a lockout period of 12 months. After any lockout period, eligible individuals may elect to reenroll and are subject to a new initial enrollment period. The enrollment periods and conditions stipulated in this paragraph apply only to the basic benefit coverage described in paragraph (f)(1) of this section. Effective with the implementation of an enhanced benefit program, new enrollments for basic coverage will cease. Enrollees in the basic program at that time may continue their enrollment for basic coverage, subject to the applicable provisions of this section, as long as the contract administering that coverage is in effect.

(ii) Enrollment period for enhanced benefits. The initial enrollment period for enhanced benefit coverage described in paragraph (f)(2) of this section shall be established by the Director, OCHAMPUS, or designee, when such coverage is offered, to be a period of not less than 12 months and not more than 24 months. The initial enrollment period shall be followed by renewal periods of up to 12 months as long as the enrollee chooses to continue enrollment and remains eligible. An enrollee’s disenrollment from the TRDP during an enrollment period for any reason, including termination for failure to pay premiums, is subject to a lockout period of 12 months. This lockout provision does not apply to disenrollment during an enrollment grace period as defined in paragraph (d)(5)(ii) of this section or following completion of an initial or renewal enrollment period. Eligible individuals who elect to reenroll following a lockout period or a disenrollment after completion of an enrollment period are subject to a new initial enrollment period.

(5) Termination of coverage—(i) Involuntary termination. TRDP coverage is terminated when the member’s entitlement to retired pay is terminated, the member’s status as a member of the Retired Reserve is terminated, a dependent child loses eligible child dependent status, or a surviving spouse remarries.

(ii) Voluntary termination. Regardless of the reason, TRDP coverage shall be canceled, or otherwise terminated, upon written request from an enrollee if the request is received by the TRDP contractor within thirty (30) calendar days following the enrollment effective date and there has been no use of TRDP benefits by the enrolled member, enrolled spouse, or enrolled dependents during that period. If such is the case, the enrollment is voided and all premium payments are refunded. However, use of benefits during this 30-day enrollment grace period constitutes acceptance by the enrollee of the enrollment and the enrollment period commitment. In this case, a request for voluntary disenrollment before the end of the initial enrollment period will not be honored, and premiums will not be refunded.

(6) Continuation of dependents’ enrollment upon death of enrollee. Coverage of a dependent in the TRDP under an enrollment of a member or surviving spouse who dies during the period of enrollment shall continue until the end of that period and may be renewed by (or for) the dependent, so long as the premium paid is sufficient to cover continuation of the dependent’s enrollment. Coverage may be terminated when the premiums paid are no longer sufficient to cover continuation of the enrollment.

(e) Premium payments. Persons enrolled in the dental plan will be responsible for paying the full cost of the premiums in order to obtain the dental insurance.

(1) Premium payment method. The premium payment may be collected pursuant to procedures established by the Assistant Secretary of Defense (Health Affairs) or designee.
§ 199.22 Effects of failure to make premium payments. Failure to make monthly renewal premium payments will result in the enrollee's disenrollment from the TRDP and subject to a lock-out period of 12 months. Following this period of time, persons eligible will be able to re-enroll if they so choose.

(3) Member's payment of premiums. The cost of the TRDP monthly premium will be paid by the enrollee. Interested beneficiaries may contact the dental contractor-insurer to obtain the enrollee premium cost.

(f) Plan benefits. The Director, OCHAMPUS, or designee, may modify the services covered by the TRDP to the extent determined appropriate based on developments in common dental care practices and standard dental programs. In addition, the Director, OCHAMPUS, or designee, may establish such exclusions and limitations as are consistent with those established by dental insurance and prepayment plans to control utilization and quality of care for the services and items covered by the TRDP.

(1) Basic benefits. The minimum TRDP benefit is basic dental care to include diagnostic services, preventive services, basic restorative services (including endodontics), oral surgery services, and emergency services. The following is the minimum TRDP covered dental benefit (using the American Dental Association’s The Council on Dental Care Program’s Code on Dental Procedures and Nomenclature):

(i) Diagnostic Periodic oral evaluation (00120); Comprehensive oral evaluation (limited to one exam per year in the same dental office) (00150); Intraoral-complete series (including endodontics), oral surgery services, and emergency services. The following is the minimum TRDP covered dental benefit (using the American Dental Association’s The Council on Dental Care Program’s Code on Dental Procedures and Nomenclature):

(ii) Preventive: Prophylaxis-adult (limit-once per year) (01120); Prophylaxis-child (01120); Topical application of fluoride (excluding prophylaxis)-child (02320); Topical application of fluoride (excluding prophylaxis)-adult, by report, once per year (01204); Sealant-per tooth (01351); Space maintainer-fixed-unilateral (01510); Space maintainer-fixed-bilateral (01515); Space maintainer-removable-unilateral (01520); Space maintainer-removable-bilateral (01525); Recementation of space maintainer (01550).

(ii) Endodontic: Pulp cap-indirect (excluding final restoration) (03110); Therapeutic pulpotomy (excluding final restoration) (03220); Pulpal therapy (resorbable filling)-anterior, primary tooth (03310); Bicuspid root canal (excluding final restoration) (03320); Molar root canal (excluding final restoration) (03330); Panoramic film (00530); Caries susceptibility tests, by report (00423); Pulp vitality tests (00460).

(iii) Preventive: Prophylaxis-adult (limit-once per year) (01110); Prophylaxis-child (01120); Topical application of fluoride (excluding prophylaxis)-child (02320); Topical application of fluoride (excluding prophylaxis)-adult, by report, once per year (01204); Sealant-per tooth (01351); Space maintainer-fixed-unilateral (01510); Space maintainer-fixed-bilateral (01515); Space maintainer-removable-unilateral (01520); Space maintainer-removable-bilateral (01525); Recementation of space maintainer (01550).
root canal therapy-apical closure/calcific repair of perforations, root resorption, etc. (03353); Apicoectomy/Periradicular surgery-anterior (03410); Apicoectomy/Periradicular surgery-bicuspid (first root) (03421); Apicoectomy/Periradicular surgery (each additional root) (03426); Retrograde filling-per root (03430); Root amputation-per root (03450); Hemisection (including any root removal), not including root canal therapy (03920).

(v) Periodontic: Gingivectomy or gingivoplasty-per quadrant (04210); Gingivectomy or gingivoplasty-per tooth (04211); Gingival curettage, surgical, per quadrant, by report (04220); Gingival flap procedure, including root planing-per quadrant (04240); Mucogingival surgery-per quadrant (04250); Osseous surgery (including flap entry and closure)-per quadrant (04260); Bone replacement graft-single site (including flap entry and closure) (04263); Bone replacement graft-multiple sites (including flap entry and closure) (04264); Guided tissue regeneration—resorbable barrier (04266); Guided tissue regeneration—nonresorbable barrier (04267); Pedicle soft tissue graft procedure (04270); Free soft tissue graft procedure (including donor site) (04271); Periodontal scaling and root planing-per quadrant (04341); Periodontal maintenance procedures (following active therapy) (04910); Unscheduled dressing change (by someone other than treating dentist) (04920).

(vi) Oral Surgery: Single tooth (07110); Each additional tooth (07120); Root removal-exposed roots (07130); Surgical removal or erupted tooth requiring elevation of mucoperiosteal flap and removal of bone and/or section of tooth (07210); Removal of impacted tooth-soft tissue (07220); Removal of impacted tooth-partially bony (07230); Removal of impacted tooth-completely bony (07240); Surgical removal of residual tooth roots (cutting procedure) (07250); Oral antral fistula closure (07260); Tooth reimplantation and/or stabilization of accidentally avulsed or displaced tooth and/or alveolus (07270); Surgical exposure of impacted or unerupted tooth to aid eruption (07281); Biopsy of oral tissue-hard (07285); Biopsy of oral tissue-soft (07286); Surgical repositioning of teeth (074290); Alveoplasty in conjunction with extractions-per quadrant (07310); Suture of recent small wounds up to 5 cm (07910); Complicated suture-up to 5 cm (07911); Complicated suture-greater than 5 cm (07912); Excision of pericoronal gingiva (07971).

(vii) Emergency: Limited oral evaluation—problem focused (00140); Palliative (emergency) treatment of dental pain-minor procedures (09110).

(viii) Drugs: Therapeutic drug injection, by report (09610); Other drugs and/or medications, by report (09630).

(2) Enhanced benefits. In addition to the minimum TRDP services in paragraph (f)(1) of this section, other services that are comparable to those contained in paragraph (e)(2) of §199.13 may be covered pursuant to TRDP benefit policy decisions made by the Director, OCHAMPUS, or designee. In general, these include additional diagnostic and preventive services, major restorative services, prosthodontics (removable and fixed), additional oral surgery services, orthodontics, and additional adjunctive general services (including general anesthesia and intravenous sedation). Enrollees in the basis plan will be given an enrollment option at the time the enhanced plan is implemented.

(3) Alternative course of treatment policy. The Director, OCHAMPUS, or designee, may establish, in accordance with generally accepted dental benefit practices, an alternative course of treatment policy which provides reimbursement in instances where the dentist and TRDP enrollee select a more expensive service, procedure, or course of treatment than is customarily provided. The alternative course of treatment policy must meet the following conditions:

(i) The service, procedure, or course of treatment must be consistent with sound professional standards of generally accepted dental practice for the dental condition concerned.
§ 199.22  [32 CFR Ch. 1 (7–1–02 Edition)]

(i) The service, procedure, or course of treatment must be a generally accepted alternative for a service or procedure covered by the TRDP for the dental condition.

(ii) Payment for the alternative service or procedure may not exceed the lower of the prevailing limits for the alternative procedure, the prevailing limits or dental plan contractor’s scheduled allowance for which the alternative is substituted, or the actual charge for the alternative procedure.

(g) Maximum coverage amounts. Each enrollee is subject to an annual maximum coverage amount for non-orthodontic dental benefits and, if an orthodontic benefit is offered, a lifetime maximum coverage amount for orthodontics as established by the Director, OCHAMPUS, or designee.

(h) Annual notification of rates. TRDP premiums will be determined as part of the competitive contracting process. Information on the premium rates will be widely distributed.

(i) Authorized providers. The TRDP enrollee may seek covered services from any provider who is fully licensed and approved to provide dental care in the state where the provider is located.

(j) Benefit payment. Enrollees are not required to utilize the special network of dental providers established by the TRDP contractor. For enrollees who do use these network providers, however, providers shall not balance bill any amount in excess of the maximum payment allowable by the TRDP. Enrollees using non-network providers may balance billed amounts in excess of allowable charges. The maximum payment allowable by the TRDP (minus the appropriate cost-share) will be the lesser of:

(1) Billed charges; or
(2) Usual, Customary and Reasonable rates, in which the customary rate is calculated at the 50th percentile of billed charges in that geographic area, as measured in an undiscounted charge profile in 1995 or later for that geographic area (as defined by three-digit zip code).

(k) Appeal and hearing procedures. All levels of appeals and grievances established by the Contractor for internal review shall be exhausted prior to forwarding to OCHAMPUS for a final review. Procedures comparable to those established under §199.13(h) of this part shall apply.

(l) Preemption of State laws. (1) Pursuant to 10 U.S.C. 1103, the Department of Defense has determined that in the administration of chapter 55 of title 10, U.S. Code, preemption of State and local laws relating to health insurance, prepaid health plans, or other health care delivery or financing methods is necessary to achieve important Federal interests, including but not limited to the assurance of uniform national health programs for military families and the operation of such programs at the lowest possible cost to the Department of Defense, that have a direct and substantial effect on the conduct of military affairs and national security policy of the United States. This determination is applicable to the dental services contracts that implement this section.

(2) Based on the determination set forth in paragraph (l)(1) of this section, any State or local law or regulation pertaining to health or dental insurance, prepaid health or dental plans, or other health or dental care delivery, administration, and financing methods is preempted and does not apply in connection with the TRICARE Retiree Dental Program contract. Any such law, or regulation pursuant to such law, is without any force or effect, and State or local governments have no legal authority to enforce them in relation to the TRICARE Retiree Dental Program contract. (However, the Department of Defense may, by contract, establish legal obligations on the part of the TRICARE Retiree Dental Program contractor to conform with requirements similar to or identical to requirements of State or local laws or regulations).

(3) The preemption of State and local laws set forth in paragraph (l)(2) of this section includes State and local laws imposing premium taxes on health or dental insurance carriers or underwriters or other plan managers, or similar taxes on such entities. Such laws are laws relating to health insurance, prepaid health plans, or other
Office of the Secretary of Defense

health care delivery or financing methods, within the meaning of section 1103. Preemption, however, does not apply to taxes, fees, or other payments on net income or profit realized by such entities in the conduct of business relating to DoD health services contracts, if those taxes, fees or other payments are applicable to a broad range of business activity. For the purposes of assessing the effect of Federal preemption of State and local taxes and fees in connection with DoD health and dental services contracts, interpretations shall be consistent with those applicable to the Federal Employees Health Benefits Program under 5 U.S.C. 8909(f).

(m) Administration. The Assistant Secretary of Defense (Health Affairs) or designee may establish other rules and procedures for the administration of the TRICARE Retiree Dental Program.

APPENDIX A TO PART 203—TECHNICAL ASSISTANCE FOR PUBLIC PARTICIPATION APPLICATION REQUEST FORM

AUTHORITY: 10 U.S.C. 2705.
SOURCE: 63 FR 5261, Feb. 2, 1998, unless otherwise noted.

§ 203.1 Authority.
Part 203 is issued under the authority of section 2705 of Title 10, United States Code. In 1994, Congress authorized the Department of Defense (DoD) to develop a program to facilitate public participation by providing technical assistance to local community members of Restoration Advisory Boards (RABs) and Technical Review Committees (TRCs) (section 326 of the National Defense Authorization Act for Fiscal Year 1995, Pub.L. 103–337). In 1996, Congress revised this authority (section 324 of the National Defense Authorization Act for Fiscal Year 1996, Pub.L. 104–112). It is pursuant to this revised authority, which is codified as new sub-section (3) of section 2705, that the Department of Defense issues this part.

§ 203.2 Purpose and availability of referenced material.
(a) This part establishes the Technical Assistance for Public Participation (TAPP) program for the Department of Defense. It sets forth policies and procedures for providing technical assistance to local community members of TRCs and RABs established at DoD installations in the United States and its territories. This part sets forth the procedures for the Department of Defense to accept and evaluate TAPP applications, to procure the assistance desired by community members of RABs and TRCs, and to manage the TAPP program. These provisions are applicable to all applicants/recipients of technical assistance as discussed in § 203.4 of this part.

(b) Any reference to documents made in this part necessary to apply for TAPP (e.g., the Office of Management and Budget (OMB) Circulars or DoD forms) are available through the DoD installations, the military department headquarters, or from the Department of Defense, Office of the Deputy Under Secretary of Defense for Environmental Security (DUSD(ES)), 3400 Defense Pentagon, Washington, DC 20301–3400.

§ 203.3 Definitions.
As used in this part, the following terms shall have the meaning set forth:

Affected. Subject to an actual or potential health or environmental threat arising from a release or a threatened release at an installation where the Secretary of Defense is planning or implementing environmental restoration activities including a response action under the Comprehensive Environmental Response Compensation and Liability Act as amended (CERCLA), corrective action under the Resource Conservation and Recovery Act (RCRA), or other such actions under applicable Federal or State environmental restoration laws. This would include actions at active, closing, realigning, and formerly used defense installations. Examples of affected parties include individuals living in areas adjacent to installations whose health is or may be endangered by the release of hazardous substances at the facility.

Applicant. Any group of individuals that files an application for TAPP, limited by this part to community members of the RAB or TRC.

Application. A completed formal written request for TAPP that is submitted to the installation commander or to the identified decision authority designated for the installation. A completed application will include a TAPP project description.

Assistance provider. An individual, group of individuals, or company contracted by the Department of Defense to provide technical assistance under the Technical Assistance for Public Participation program announced in this part.

Assistance provider’s project manager. The person legally authorized to obligate the organization executing a
TAPP purchase order to the terms and conditions of the DoD’s regulations and the contract, and designated by the provider to serve as the principal contact with the Department of Defense.

Community Co-chair. The individual selected by the community members of the RAB/TRC to represent them.

Community member. A member of the RAB or TRC who is also a member of the affected community. For the purpose of this part, community members do not include local, State, or Federal government officials acting in any official capacity.

Community point of contact. The community member of the RAB or TRC designated in the TAPP application as the focal point for communications with the Department of Defense regarding the TAPP procurement process. The community point of contact is responsible for completing the reporting requirements specified in §203.14 of this part.

Contact. A written agreement between the installation or other instrumentality of the Department of Defense and another party for services or supplies necessary to complete the TAPP project. Contracts include written agreements and subagreements for professional services or supplies necessary to complete the TAPP projects, agreements with consultants, and purchase orders.

Contracting officer. The Federal official designated to manage the contract used to fulfill the TAPP request by the RAB or TRC.

Contractor. Any party (e.g., Technical Assistance Provider) to whom the installation or other instrumentality of the Department of Defense awards a contract. In the context of this part, it is synonymous with assistance provider.

Cost estimate. An estimate of the total funding required for the assistance provider to complete the TAPP project.

DoD Component. The military services including the Army, Navy, Marine Corps, and Air Force and those defense agencies with an environmental restoration program.

DoD Component Deputy Assistant Secretary. The individual in the office of the Secretary of the Army, Navy, Air Force responsible for making environmental decisions for their component or the director of the Defense Agencies.

DoD Installation. A facility that is controlled or operated or otherwise possessed by a department, or agency of the United States Department of Defense within the United States and its territories. In the context of this part, formerly used defense sites (FUDS) are included within the definition of a DoD Installation.

DoD RAB Co-chair. The individual selected by the installation commander, or equivalent, to serve as the installation co-chair of the RAB, represent DoD’s interests, serve as liaison with community RAB members, and advocate RAB concerns within the installation staff.

EPA. The United States Environmental Protection Agency.

Firm fixed price contract. A contract wherein funding is fixed, prior to the initiation of a contract, for an agreed upon service or product.

Formerly Used Defense Site (FUDS). A site that has been owned by, leased to, possessed by, or otherwise under the jurisdiction of the Department of Defense. The FUDS program does not apply to those sites outside U.S. jurisdiction.

Purchase order. An offer by the Government to buy supplies or services from a commercial source, upon specified terms and conditions, the total cost of which cannot exceed the small purchase limit of $100,000. Purchase orders are governed by Federal Acquisition Regulations (FAR) (48 CFR part 13), and the Simplified Acquisition Procedures (SAP).

Restoration Advisory Board (RAB). The RAB is a forum for representatives of the Department of Defense, local community, and EPA and/or State, local, and tribal officials to discuss and exchange information about the installation’s environmental restoration program. The RAB provides stakeholders an opportunity to make their views known, review progress and participate in dialogue with the decision makers.

Statement of Work. That portion of a contract which describes the actual work to be done by means of specifications or minimum requirements, quantities, performance dates, time and
place of performance, and quality requirements. It is key to any procurement because it is the basis for the contractor’s response and development of proposed costs.

TAPP approval. Signifies that the Department of Defense has approved the eligibility of the proposed TAPP project and will, subject to the availability of funds, undertake an acquisition to obtain the services specified in the TAPP application submitted by the RAB or TRC. The government will conduct the acquisition in accordance with all of the applicable rules and requirements of the FAR and the SAP. Approval does not constitute an agreement to direct an award to a specific source if such an action would be contrary to the FAR.

TAPP project description. A discussion of the assistance requested that includes the elements listed in Section 203.10 of this part. The project description should contain sufficient detail to enable the Department of Defense to determine the nature and eligibility of the project, identify potential providers and estimate costs, and prepare a statement of work to begin the procurement process.

Technical assistance. Those activities specified in §203.10 of this part that will contribute to the public’s ability to provide input to the decision-making process by improving the public’s understanding of overall conditions and activities. Technical assistance may include interpreting technical documents; assessing technologies; participating in relative risk evaluations, understanding health implications; and, training.

Technical assistance does not include those activities prohibited under Section 203.11 of this part, such as litigation or underwriting legal actions; political activity; generation of new primary data such as well drilling and testing, including split sampling; reopening final DoD decisions or conducting disputes with the Department of Defense; or epidemiological or health studies, such as blood or urine testing.

Technical Review Committee (TRC). A group comprised of the Department of Defense, EPA, State, and local authorities and a public representative of the community formed to meet the requirements of 10 U.S.C. 2705(c), the Department of Defense Environmental Restoration Program. Primarily functioning to review installation restoration documents, these committees are being expanded and modified at installations where interest or need necessitates the creation of a RAB.

§ 203.4 Major components of the TAPP process.

(a) The Department of Defense will issue purchase orders to technical assistance, facilitation, training, and other public participation assistance providers subject to the purchase limit per order as resources continue to be available. If multiple purchase orders are needed to assist community members of a particular RAB or TRC, the combined sum of these purchase orders cannot exceed $100,000 or, during any one year, the lesser of $25,000 or 1 percent of the installation’s total projected environmental restoration cost-to-complete. Note that these limitations refer to the maximum allowable technical assistance funding per RAB/TRC. Resources available within a given year may vary. These limitations apply unless a waiver is granted by the DoD Component Secretary or equivalent for the installation in question. The $100,000 total and $25,000 annual limitations may be waived, as appropriate, to reflect the complexity of response action, the nature and extent of contamination at the installation, the level of activity at the installation, projected total needs as identified by the TAPP recipient, the size and diversity of the affected population, and the ability of the TAPP recipient to identify and raise funds from other sources.

(b) Community members of the RAB/TRC will provide a description of the services requested (TAPP Project Description) and, if desired, the names of one or more proposed technical assistance providers to the DoD RAB Co-Chair, who will ensure the application is submitted to the installation commander or other designated authority and to the appropriate DoD contracting office. Technical assistance providers proposed by the community members of a RAB or TRC at each DoD installation that meets the minimum
set of organizational qualifications guidelines provided by the Department of Defense in §203.12 of this part will be added to the governments list of bidders for the proposed procurement.

§ 203.5 TAPP process.

This section provides an overview of the TAPP process. Specific details referred to in this section can be found in subsequent sections of this part.

(a) TAPP funding. Funding for this TAPP program will come from the Environmental Restoration Accounts established for Army, Navy, and Air Force for operational installations. The funding for Defense Agencies’ operating installations will be from the component’s base closure account for transferring or closing installations. Funding for Formerly Used Defense Sites will come from the Environmental Restoration Account established for Formerly Used Defense Sites. After justification of the TAPP proposal, each DoD Component will make funds available from their individual installation’s environmental restoration or BRAC accounts, considering a number of factors related to the restoration program at the installation and its impact upon the community. These factors include, but are not limited to:

(1) Closure status.
(2) Budget.
(3) Installation restoration program status.
(4) Presence (or absence) of alternate funding.
(5) Relative risk posed by sites at the installation.
(6) Type of task to be funded.
(7) Community concern.
(8) Available funding.

(b) Identification of proposed TAPP project. Eligible applicants of RABs and TRCs, established in §203.7 of this part, should determine whether a TAPP project is required to assist the community members of the RAB or TRC to interpret information regarding the nature and extent of contamination or the proposed remedial actions. Eligibility requirements for TAPP projects are described in §§203.10 and 203.11 of this part. In keeping with the requirements of 10 U.S.C. 2705(e), the RAB or TRC must be able to demonstrate that the technical expertise necessary for the proposed TAPP project is not available through the Federal, State, or local agencies responsible for overseeing environmental restoration at the installation, or that the selection of an independent provider will contribute to environmental restoration activities and the community acceptance of such activities. In addition, the Department of Defense encourages the RAB or TRC to seek other available sources of assistance prior to submitting a request for TAPP in order to preserve limited resources. These sources include DoD’s installation restoration contractor, or other DoD contractors or personnel, EPA or state regulatory personnel, volunteer services from local universities or other experts, or assistance from state and local health and environmental organizations.

(c) TAPP project request. The RAB or TRC should notify the installation of its intent to pursue TAPP upon the determination that other sources of assistance are unavailable or unlikely to contribute to the community acceptance of environmental restoration activities at the installation and should prepare a formal request specifying the type of assistance required and, if desired, one or more sources for this assistance. Details concerning this request are stated in §203.9 of this part. The RAB or TRC must certify to the Department of Defense that the TAPP request represents a request by a majority of the community members of the RAB or TRC. The RAB or TRC must certify to the Department of Defense that the TAPP request represents a request by a majority of the community members of the RAB or TRC. The RAB or TRC should ensure that the request meets the eligibility requirements specified in §§203.10 and 203.11 of this part. Furthermore, the RAB or TRC may outline additional criteria for the Department of Defense to consider in the selection of a provider (such as knowledge of local environmental conditions or specific technical issues, a prior work history within the study area which has relevant specific circumstances or unique challenges, or other relevant expertise or capabilities), keeping in mind that providers must meet the minimum technical qualifications outlined in §203.12 of this part. The formal
§ 203.6 Cost principles.

(a) Non-profit contractors must comply with the cost principles in OMB Circular A-122. Copies of the circular may be obtained from EOP Publications, 725 17th NW, NEOB, Washington, DC 20503.

(b) For-profit contractors and subcontractors must comply with the cost principles in the FAR (48 CFR part 31).

§ 203.7 Eligible applicants.

Eligible applicants are community members of RABs or TRCs. Furthermore, the RABs or TRCs must be comprised of at least three community members to ensure community interests are broadly represented. The applicant must certify that the request represents the wishes of a simple majority of the community members of the RAB or TRC. Certification includes, but is not limited to, the results of a roll call vote of community members of the RAB or TRC documented in the meeting minutes. Other requirements of the application are detailed in § 203.9 of this part.

§ 203.8 Evaluation criteria.

The Department of Defense will begin the TAPP procurement process only after it has determined that all eligibility and responsibility requirements listed in §§ 203.6, 203.7, and 203.9 of this part are met, and after review of the specific provider qualifications as submitted in the narrative section of the application. In addition, the proposed TAPP project must meet the eligibility criteria as specified in §§ 203.10 and 203.11 of this part. Projects that fail to meet those requirements relating to the relevance of the proposed project to
the restoration activities at the installation will not be approved.

§ 203.9 Submission of application.

The applicant must submit a TAPP application to begin the TAPP procurement process. The application form is included as appendix A of this part and can be obtained from the DoD installation, the DoD Component headquarters, or directly from the Department of Defense, Office of the Deputy Under Secretary of Defense for Environmental Security, 3400 Defense Pentagon, Washington, D.C. 20301–3400. The applications will not be considered complete until the following data elements have been entered into the form:

(a) Installation.
(b) Source of TAPP request (names of RAB or TRC).
(c) Certification of majority request.
(d) RAB/TRC contact point for TAPP project.
(e) Project title.
(f) Project type (e.g. data interpretation, training, etc.).
(g) Project purpose and description (descriptions, time and locations of products or services desired).
(h) Statement of eligibility of project.
(i) Proposed provider, if known.
(j) Specific qualifications or criteria for provider.

§ 203.10 Eligible activities.

(a) TAPP procurements should be pursued by the RAB or TRC only to the extent that Federal, State, or local agencies responsible for overseeing environmental restoration at the facility do not have the necessary technical expertise for the proposed project, or the proposed technical assistance will contribute to the efficiency, effectiveness, or timeliness of environmental restoration activities at the installation and is likely to contribute to community acceptance of those activities.

(b) TAPP procurements may be used to fund activities that will contribute to the public’s ability to provide advice to decision-makers by improving the public’s understanding of overall conditions and activities. Categories of eligible activities include the following:

(1) Interpret technical documents. The installation restoration program documents each stage of investigation and decision-making with technical reports that summarize data and support cleanup decisions. Technical assistance may be provided to review plans and interpret technical reports for community members of RABs and TRCs. These reports include, but are not limited to:
   (i) Installation restoration program site studies, engineering documents, such as site inspections, remedial investigations, feasibility studies, engineering evaluation and cost analyses, and decision documents (including records of decision);
   (ii) Risk assessments, including baseline and ecological risk assessments conducted by the installation; and
   (iii) Health assessments, such as those conducted by the Agency for Toxic Substances and Disease Registry (ATSDR).

(2) Assess technologies. Technical assistance may be provided to help RAB/TRC community members understand the function and implications of those technologies selected to investigate or clean up sites at the installation.

(3) Participate in relative risk site evaluations. Technical assistance may be provided to help RAB/TRC community members contribute to the relative risk evaluation process for specific sites.

(4) Understand health implications. Technical assistance may be provided to help RAB/TRC community members interpret the potential health implications of cleanup levels or remedial technologies, or to explain the health implications of site contaminants and exposure scenarios.

(5) Training, where appropriate. Technical trainers on specific restoration issues may be appropriate in circumstances where RAB/TRC members need supplemental information on installation restoration projects.

§ 203.11 Ineligible activities.

The following activities are ineligible for assistance under the TAPP program:

(a) Litigation or underwriting legal actions, such as paying for attorney fees or paying for a technical assistance provider to assist an attorney in preparing legal action or preparing for
§ 203.12 Technical assistance for public participation provider qualifications.

(a) A technical assistance provider must possess the following credentials:

(1) Demonstrated knowledge of hazardous or toxic waste issues and/or laws.

(2) Academic training in a relevant discipline (e.g., biochemistry, toxicology, environmental sciences, engineering).

(3) Ability to translate technical information into terms understandable to lay persons.

(b) A technical assistance provider should possess the following credentials:

(1) Experience working on hazardous or toxic waste problems.

(2) Experience in making technical presentations.

(3) Demonstrated writing skills.

(4) Previous experience working with affected individuals or community groups or other groups of individuals.

(c) The technical assistance provider’s qualifications will vary according to the type of assistance to be provided. Community members of the RAB/TRC may suggest additional provider qualifications as part of the application for technical assistance. These additional qualifications may be used by the Department of Defense to target the most appropriate providers during the procurement process. Examples of such criteria could include prior work in the area, knowledge of local environmental conditions or laws, specific technical capabilities, or other relevant expertise.

§ 203.13 Procurement.

Procurements will be conducted as purchase orders in accordance with the FAR (48 CFR part 13). Under these procedures, procurements not exceeding $100,000 are reserved exclusively for small businesses, and will be conducted as competitive procurements. Procurements below a value of $2,500 are considered "micro-purchases." These procurements do not require the solicitation of bids and may be conducted at the discretion of the contracting officer.

§ 203.14 RAB/TRC reporting requirements.

The community point of contact of the RAB or TRC must submit a report, to be provided to the installation and to DUSD(ES), to enable the Department of Defense to meet DoD reporting requirements to Congress. This report should include a description of the TAPP project, a summary of services and products obtained, and a statement regarding the overall satisfaction of the community member of the RAB or TRC with the quality of service and/or products received.

§ 203.15 Method of payment.

The SAP set forth in FAR (48 CFR part 13) require purchase orders to be conducted on a firm-fixed-price basis, unless otherwise authorized by agency procedures. The Department of Defense anticipates all TAPP awards to be firm-fixed-price procurements.

§ 203.16 Record retention and audits.

The recipient technical assistance providers shall keep and preserve detailed records in connection with the contract reflecting acquisitions, work progress, reports, expenditures and
§ 203.17 Technical assistance provider reporting requirements.

Each technical assistance provider shall submit progress reports, financial status reports, materials prepared for the RAB/TRC, and a final report to the DoD installation for the TAPP project as specified by the specific purchase order agreement. The final report shall document TAPP project activities over the entire period of support and shall describe the achievements with respect to stated TAPP project purposes and objectives.

§ 203.18 Conflict of interest and disclosure requirements.

The Department of Defense shall require each prospective assistance provider on any contract to provide, with its bid or proposal:

(a) Information on its financial and business relationship with the installation, RAB/TRC members, or any/all potentially responsible parties (PRPs) at the site, and with their parent companies, subsidiaries, affiliates, subcontractors, contractors, and current clients or attorneys and agents. This disclosure requirement encompasses past and anticipated financial and business relationships, including services related to any proposed or pending litigation, with such parties.

(b) Certification that, to the best of its knowledge and belief, it has disclosed such information or no such information exists.

(c) A statement that it shall disclose immediately any such information discovered after submission of its bid or after award. The contracting officer shall evaluate such information and shall exclude any prospective contractor if the contracting officer determines that a potential conflict of interest exists that is both significant and cannot be avoided or otherwise resolved. If, after award, the contracting officer determines that a conflict of interest exists that is both significant and cannot be avoided or resolved, the contract will be terminated for cause.

(d) Contractors and subcontractors may not be technical assistance providers to community members of RABs/TRCs at an installation where they are performing cleanup activities for the Federal or State government or any other entity.

§ 203.19 Appeals process.

DoD Components will establish an appeals process to settle potential disputes between the Department of Defense and the public regarding certain decisions arising out of the TAPP process. The Department of Defense recognizes that the RAB/TRC may disagree with the findings of the installation commander that a proposed TAPP project is ineligible, either because of the availability of alternate sources of assistance or because the project does not meet the eligibility criteria established in this part. It is in the best interests of the Department of Defense and the community members of RABs and TRCs to anticipate and avoid disputes and to work cooperatively to resolve potential differences of opinion. However, in certain circumstances, the RAB/TRC community members may feel that their needs were not adequately served by the decisions of the Department of Defense. In this instance, the hierarchical structure and chain-of-command within each DoD Component will serve as the avenue for appeal. Appeals will be considered within the chain-of-command, and, in general, will be resolved at the lowest level possible. The highest level of appeal will be at the DoD Component Deputy Assistant Secretary level with authority over the DERP and BRAC environmental programs. Inherently governmental functions, such as the procurement process governed by the FAR, are not subject to appeal.

**SECTION I - TAPP REQUEST SOURCE INFORMATION DATA**

1. **INSTALLATION**

2. **SOURCE OF TAPP REQUEST**
   - Name of Restoration Advisory Board (RAB) or Technical Review Committee (TRC)

3. **CERTIFICATION OF MAJORITY REQUEST**

4. **DATE OF REQUEST**
   - (YYYYMMDD)

**SECTION II - TAPP PROJECT DESCRIPTION**

5. **RAB POINT OF CONTACT**
   - a. NAME (Last, First, Middle Initial)
   - b. ADDRESS (Street, Apt. or Suite Number, City, State, Zip Code)
   - c. TELEPHONE NUMBER (Include Area Code)

6. **PROJECT TITLE**

7. **PROJECT TYPE**
   - (Data Interpretation, Training, etc.)

8. **PROJECT PURPOSE AND DESCRIPTION**
   - (State anticipated goals of project and relate to increased understanding/participation in restoration process at the installation. Include descriptions, locations, and timetables of products or services requested.)

9. **STATEMENT OF ELIGIBILITY**
   - (Refer to eligibility criteria in 5203.10 and 5203.11 of TAPP rule. Note other sources that were considered for this support and state reasons why these sources are inadequate.)

10. **ADDITIONAL QUALIFICATIONS OR CRITERIA TO BE CONSIDERED**
    - (Additional qualifications beyond those specified in 5203.12 a provider should demonstrate to perform the project to the satisfaction of the RAB/TRC. Attach separate statement, if necessary.)

**SECTION III - INSTALLATION COMMANDER/DESIGNATED DECISION AUTHORITY APPROVAL**

DD FORM 2748, DEC 1997 (EG)
PART 204—USER CHARGES

Sec. 204.1 Reissuance and purpose.

204.2 Applicability.
204.3 Definitions.
204.4 Policy.
204.5 Responsibilities.
§ 204.1 Reissuance and purpose.

This part reissues 32 CFR part 204 and implements the DoD program under 31 U.S.C. 9701, and OMB Circular A–25 for establishing appropriate charges for authorized services provided by DoD organizations.

§ 204.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies (hereafter referred to collectively as "DoD Components"). None of the provisions in this part should be construed as providing authority for the sale or lease of property, or the rendering of special services. Actions to convey such special benefits must be authorized by separate authority. The user charge policy is applicable except when other statutes or directives specifically direct other practices or procedures.

§ 204.3 Definitions.

Recipient. One who requests or receives the benefits of the service(s) provided.

§ 204.4 Policy.

(a) General. It is DoD policy not to compete with available commercial facilities (see 32 CFR part 169a) in providing special services or in the sale or lease of property to private parties and agencies outside the Federal Government. However, when a service or sale is made that conveys special benefits to recipients, above and beyond those accruing to the public at large, a reasonable charge shall be made to each identifiable recipient, except as otherwise authorized by the Secretary of Defense. A special benefit will be considered to accrue, and a charge shall be imposed when the service rendered:

(1) Enables the recipient to obtain more immediate or substantial gain or values (which may or may not be measurable in monetary terms) than those which accrue to the general public; or

(2) Is performed at the request of the recipient and is above and beyond the services regularly received by or available without charge to the general public.

(b) Costing. (1) A charge shall be imposed to recover the full cost to the Federal Government of rendering a service or the fair market value of such service, whichever is higher. Fair market value shall be determined in accordance with commercial rates in the local geographical area. In the absence of a known market value, charges shall be made based on recovery of full costs to the Federal Government.

(2) When federally owned resources or property are leased or sold, a fair market value shall be obtained. Fair market value shall be determined by the application of sound business management principles and, so far as practicable and feasible, in accordance with comparable commercial practices. Charges based on fair market value need not be limited to the recovery of costs; they may produce net revenues to the Government.

(c) Exclusions and exceptions. (1) The provisions of this part do not apply when other statutes or directives require different practices or procedures such as for:

(i) Morale, welfare, and recreation services to military personnel and civilian employees of the Department of Defense and other services provided in accordance with §204.9.

(ii) Sale or disposal of surplus property under approved programs (See DoD Instruction 7310.11).

(iii) Services furnished the general public relating to, or in furtherance of, the U.S. Armed Forces recruiting program.

Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
§ 204.6 Charges and fees.

(a) General. (1) All charges and fees shall be based on total cost to the U.S. Government or fair market value, whichever is higher. Total cost shall be based on actual cost or replacement cost when property is to be replaced and expense data accumulated in accordance with DoD 7220.9-M. Estimates from the best available records may be used if actual cost or expense data is not available.

(2) Cost accounting systems shall not be established solely for the purpose of determining charges, but the results of existing cost accounting systems shall be used. Total cost shall include all direct and indirect costs (see Chapter 71, DoD 7220.9-M).

(3) Charges and fees established in advance must be projected to the midpoint of the future period. Projected amounts shall be reviewed annually or whenever significant changes in cost or value occur.

(4) Internal management controls (see DoDDirective 5010.38 must be established to ensure that charges and fees are developed and adjusted, using current, accurate, and complete data, to provide reimbursement conforming to statutory requirements. Such controls also must ensure compliance with cash management and debt collection policies (see DoD Directive 7045.13).

(b) Services—(1) Basic requirements. The maximum charge for a special service shall be governed by its total cost or fair market value, whichever is higher, and not by the value of the service, to the recipient. The cost computation shall include the direct and indirect costs to the Government of

2, 3, 4 See footnote 1 to § 204.4(c)(1)(ii).
carrying out the activity. Typically, a service may involve the following:

(i) Civilian salaries or wages, including the full cost of benefits, such as leave, retirement, and medical and life insurance.

(ii) The full cost of military personnel services, including retirement, other personnel support, leave, and permanent change of station factors.

(iii) The cost of materials, supplies, travel expenses, communications, utilities, equipment and property rental, and maintenance of property and equipment.

(iv) Depreciation expense and interest of investment (currently at a 10 percent annual rate) (OMB Circular No. A–94) in DoD-owned, fixed assets.

(v) Other operational, administrative, and accessorial (DoD Instruction 7510.4 costs incurred by the activity while establishing standards and regulations and research in support of the service performed, for example.

(2) Fees and rates. Fees and rates shall be based on actual costs. The charges for services provided by data processing activities shall be determined by using the costs accumulated pursuant to OMB Circular No. A–121 and Federal Government accounting Pamphlet No. 4 requirements. Fees and rates for recurring services shall be established in advance, when feasible. Recurring services include, but are not limited to, copying, certifying, and researching records, except when those services are excluded or exempted from charges under §204.4(c) or §204.9.

(3) DoD-wide fees and rates. Section 204.10 provides a schedule of fees and rates for certain services for use throughout the Department of Defense. Recommendations for additions and revisions to the schedule will be made to the Comptroller of the Department of Defense.

(c) Lease or sale of property. Charges for lease or sale of property shall be based on a determination of fair market value.

(1) In cases involving the lease or rental of military equipment, when there is no commercial counterpart, fair market value will be based on the computation of an annual rent which will be the sum of the annual depreciation plus interest on investment. The amount of interest on investment is determined by applying the interest rate to the net book value; that is, acquisition cost plus additions less depreciation. The current interest rate in OMB Circular No. A–94 shall be used. Support, if furnished, and applicable general administrative expenses will be extra. In determining the value, consideration may be given to the responsibility of the lessee to assume the risk of loss or damage to the property and to hold the Government harmless against claims or liabilities by the lessee or third parties.

(2) In cases involving the sale of property when there is no known fair market value, costs shall be based on the total of the standard price of the item carried in inventory, or the reduced price when so authorized for sale within the Department of Defense and the accessorial and administrative costs computed under DoD Instruction 7510.4.

§ 204.7 Collections.

(a) Collections of charges and fees shall be made in advance of rendering the service, except when preservation of life or property is involved, performance is authorized by law without advance payment, or advance payment is impractical because multiple requests for services are received on a continuing basis from a reliable requester (i.e., consistently prompt payments for services received). When an advance collection exception is approved, an accounts receivable will be established to control collections. The policies in DoD 7220.9-M, DoD Directive 5010.38, and DoD Directive 7045.13 shall be used in accounting, controlling, and managing cash and debt collections.

(1) Collections of fees and charges normally will be deposited to Miscellaneous Receipts of the Treasury unless otherwise authorized by law or regulation.

(2) Collections for utilities and services in connection with the lease of property will be deposited to the appropriation or fund responsible for financing the operations of the equipment or facility.
§ 204.8 Legislative proposals.

In cases where collections of fees and charges for services or property are limited or restricted by provisions of existing law, the DoD Component(s) concerned will submit appropriate remedial legislative proposals under applicable legislative procedures. (See DoD Instruction 5500.4.9.9

§ 204.9 Examples of benefits not to be charged under provisions of § 204.4(c)(4) of this part.

(a) Services requested by members of the U.S. Armed Forces in their capacity as Service members.

(b) Services requested by members of the U.S. Armed Forces who are in a casualty status, or requested by their next of kin or legal representative, or requested by any source, when it relates to a casualty.

(c) The address of record of a member or former member of the U.S. Armed Forces when the address is available readily through a directory (locator) service, and when the address is requested by a member of the U.S. Armed Forces or by a relative or a legal representative of a member of the U.S. Armed Forces or when the address of record is requested by any source for the purpose of paying monies or forwarding property to a member or former member of the U.S. Armed Forces.

(d) Services requested by or on behalf of a member or former member of the U.S. Armed Forces or, if deceased, his or her next of kin or legal representative that pertain to the following:

(1) Information required to obtain financial benefits regardless of the terms of separation from the Service.

(2) Document showing membership and military record in the Armed Forces if discharge or release was under honorable conditions, except as provided in paragraphs (1) and (2) of this section.

(3) Information relating to a decoration or award or required for memorialization purposes.

(4) Review or change in type of discharge or correction of records.

(5) Personal documents, such as birth certificates, when such documents are required to be furnished by the member.

(e) Services that are furnished free in accordance with statutes or executive orders.

(f) Information from or copies of medical and dental records or X-ray films of patients or former patients of military medical or dental facilities, when such information is required and requests for such data are (1) submitted by an accredited medical facility, physician, or dentist; or (2) requested by the patient, his or her next of kin, or legal representative.

(g) Services involving confirmation of employment, disciplinary or other records, and salaries of active or separated civilian or military personnel, when requested by prospective employers or recognized sources of inquiry for credit or financial purposes.

(h) Services requested by and furnished to a Member of Congress for official use.

(i) Services requested by state, territorial, county, or municipal government, or an agency thereof, that is performing a function related to or furthering a DoD objective.

(j) Services requested by a court, when the service will serve as a substitute for personal court appearance of a military or civilian employee of the Department of Defense.

(k) Services requested by a nonprofit organization that is performing a function related to or furthering an objective of the Federal Government or that is in the interest of public health and welfare, including education.

(l) Services requested by an individual or corporation that is performing a function related to or furthering an objective of the Federal Government, when the cost of such services would be chargeable to a Federal Government contract or grant held by the individual or corporation.

(m) Services requested by donors with respect to their gifts.

(n) Requests for occasional and incidental services (including requests from residents of foreign countries), that are not requested often, when it is
§ 204.10

Schedule of fees and rates.

This schedule applies to authorized services related to copying, certifying, and searching records rendered to the public by DoD Components, except when those services are excluded or excepted from charges under subsection D.3. of the basic Instruction, or § 204.9. Except as provided in special cases prescribed below, a minimum fee of $3.50 will be levied for processing any chargeable case. Normally only one copy of any record or document will be provided.

Requests Involving

(a) Training and education (copies of documents required for other than official purposes):

(3) Miscellaneous:

Magnetic tape—dub from 16mm film + raw stock........................................$65.00
Searching (per hour or fraction thereof) ................................................. 18.00
Minimum charge per film order (including search)............................... 35.00
16mm film to videotape (broadcast quality tape format per hour) + raw stock........................................ 275.00
Minimum charge for film to videotape transfer + raw stock .......................... 140.00

Aerial photographic print processing prices will be determined by the local DoD-operated lab due to limited availability.

35mm film processing for motion picture is not done in-house by the DoD. Charges for this type of processing will be at prevailing contract rates on a case-by-case basis.

(e) Construction and engineering information. Copies of aerial photograph maps, specifications, permits, charts, blueprints, and other technical engineering documents.

(1) Searching, per hour or fraction thereof (including overhead costs) ................................................. $13.25
(2) First print ................................................. 2.50
(3) Each additional print of same document ................................................. .85

(f) Copies of medical articles and illustrations. Standards contained in the basic Instruction will be utilized in computing costs.

(g) Claims, litigation. Copies of documents required for other than official purposes. (Includes court-martial records furnishing information from Report of Claims Investigations; e.g., automobile collision investigations and safety reports.) Requests pertaining to private litigation and to cases in which the United States is a party and where court rules provide for reproduction of records without cost to the Government (if not covered in 2. or 3., above).
(1) Searching and processing (per hour)..............................................$13.25
  Minimum charge.............................................8.30
  NOTE: Charges for professional search or research will be made in accordance with 10.b., below.
(2) Office copy reproduction (minimum for six pages or less)..........................$3.50
(3) Each additional image .................................0.10
(4) Certification and validation with seal, each.............................................5.20

(h) Publications and forms. A search and/or processing fees, as described in 10.a., below, will be made for requests requiring extensive time (one hour or more).
  (1) Shelf stock. (Requesters may be furnished more than one copy of publication or form if it does not deplete stock levels below projected planned usage.)
    (i) Minimum fee per request (six pages or less).....................................$3.50
    Plus:
    (A) Form, per copy..........................$0.10
    (B) Publications, per printed page.............0.02
    (C) Microfiche, per fiche ..........................0.10
    (i) (Examples: Cost of 20 forms, $5.50; cost of a publication with 100 pages, $5.50; cost of microfiche publication consisting of 10 fiches, $4.50)
  (2) Office copy reproduction (when shelf stock is not available):
    (i) Minimum fee per request (six pages or less)..........................$3.50
    (ii) Each additional page ..............................0.10
    (iii) Minimum charge first fiche ..................8.70
    (iv) Each additional fiche .............................2.00
  (i) Engineering data (microfilm) — (1) Aperture cards.
    (i) Silver duplicate negative, per card..........................................................0.75
        When keypunched and verified, per card..................................................0.85
    (ii) Diazo duplicate negative, per card.........................................................0.65
        When keypunched and verified, per card..................................................0.75
    (2) 35mm roll film, per frame..........................0.50
    (3) 16mm roll film, per frame..........................0.45
    (4) Paper prints (engineering drawings), each..............................1.50
    (5) Paper reprints of microfilm indices, each.............................0.10
  (j) General. Charges for any additional services not specifically provided above, consistent with the provisions of the basic Instruction, will be
  made by the respective DoD Components at the following rates:

  (1) Clerical search and processing, per hour..............................................$13.25
  Minimum charge.............................................8.30
  (2) Professional search or researching
      (To be established at actual hourly rate prior to search. A minimum charge will be established at ½-hourly rates.)
      (3) Minimum charge for office copy reproduction (up to six images)............3.50
  (4) Each additional image.............................................0.10
  (5) Each typewritten page...............................................0.10
  (6) Certification and validation with seal, each.............................................5.20
  (7) Hand-drawn plots and sketches,
      each hour or fraction thereof........12.00

PART 205—END USE CERTIFICATES (EUCs)

Sec.
205.1 Purpose.
205.2 Applicability.
205.3 Definitions.
205.4 Background and policy.
205.5 Responsibilities.
205.6 Procedures.

AUTHORITY: 10 U.S.C. 131.

SOURCE: 56 FR 64194, Dec. 9, 1991, unless otherwise noted.

§ 205.1 Purpose.

This part:
(a) Supersedes the Deputy Secretary of Defense Memorandum, “End Use Certificates,” April 9, 1991.
(b) Establishes policies, assigns responsibilities, and prescribes procedures for signing EUCs on foreign defense items.

§ 205.2 Applicability.

This part applies to the Office of the Secretary of Defense; the Military Departments; the Chairman of the Joint Chiefs of Staff and the Joint Staff; the Unified and Specified Commands; the Office of the Inspector General, Department of Defense; the Defense Agencies; and the DoD Field Activities (hereafter referred to collectively as “DoD Components”).
§ 205.3 Definitions.

(a) End Use Certificate (EUC). For the purposes of this part, a written agreement in connection with the transfer of military equipment or technical data to the United States that restricts the use or transfer of that item by the United States.

(b) Use for defense purposes. Includes direct use by or for the U.S. Government in any part of the world and transfer by means of grant aid, International Military Education and Training (IMET) programs, Foreign Military Sales (FMS), and other security assistance and armaments cooperation authorities.

§ 205.4 Background and policy.

This part is intended to authorize the execution of EUCs when such a certificate is necessary to facilitate purchases of foreign products when the purchase of such products is in the best interest of the United States.

(a) The Military Departments and other DoD Components purchase products produced by allies and friendly countries and participate in cooperative development programs to promote interoperability, standardization, and an expanded procurement base, and to obtain products that best meet U.S. needs at the lowest cost.

(b) U.S. worldwide security responsibilities are extensive and recognition of these special circumstances has resulted in long-time acceptance in international agreements, by allies and friends, of the need for flexibility in the authorized uses or transfer of purchased or co-developed articles and data. In various circumstances, international agreements have recognized that permissible use of an item or data for U.S. “defense purposes” as defined in §205.3(b).

(c) Consistent with paragraphs (a) and (b) of this section, DoD Components may sign EUCs, in accordance with the policy and procedures outlined below. While most EUCs requested by foreign governments use general language, their effects may be divided into three categories, as described in the following paragraphs. Authority to approve their execution is limited as follows:

1. Category I. Secretaries of the Military Departments and Directors of Defense Agencies may authorize EUCs:
   (i) For acquisition of items classified for security purposes by a foreign government.
   (ii) For the acquisition of items covered by the nonproliferation agreements to which the United States is a party, such as missile technology, or
   (iii) That permit the item to be “used for defense purposes” as defined in §205.3(b), by the United States.

2. Category II. EUCs that are not Category I or III are Category II. Secretaries of the Military Departments and Directors of Defense Agencies may authorize Category II EUCs only after a determination is made through the coordination procedures set forth in §205.6(a)(1) that, notwithstanding the use or transfer limitations, the purchase is in the U.S. national interest. The least restrictive provisions possible should be negotiated.

3. Category III. Secretaries of Military Departments and Directors of Defense Agencies may not authorize the signature of EUCs which limit the right:
   (i) For use by or for the U.S. Government in any part of the world, or
   (ii) To provide the item to allies engaged together with the United States in armed conflict with a common enemy. Waivers to this prohibition may be granted by the Under Secretary of Defense (Acquisition) (USD(A)). Procedures for requesting such waivers are at §205.6(a)(1).

§ 205.5 Responsibilities.

(a) The Under Secretary of Defense (Acquisition) shall:

1. Monitor compliance with this part.

2. Develop procedures to ensure timely review of Category II and III items with the Under Secretary of Defense for Policy (USD(P)).

3. Upon obtaining the concurrence of the USD(P), waive the restrictions in §205.4(c)(3) when purchase of the item is in the national interest.

4. When requested, and in coordination with the USD(P), assist the Military Departments and Defense Agencies in negotiating the elimination or
amélioration of an EUC’s restrictive language.
(b) The Under Secretary of Defense for Policy shall:
   (1) Consult with the USD(A) on waivers authorized by this part and, if appropriate, coordinate with the Department of State.
   (2) When requested, and in coordination with the USD(A), assist the Military Departments and Defense Agencies in negotiating the elimination or amélioration of the EUC’s restrictive language.
   (3) Develop procedures for coordination and review of EUC’s internally and with the Department of State.
   (4) Establish, with the concurrence of the USD(A), specific acceptable end use restrictions in addition to those set forth in Category I, which shall be added immediately to Category I and a corresponding administrative change made to §205.4(c)(1).
(c) The Secretaries of the Military Departments and the Directors of the Defense Agencies shall:
   (1) Authorize the execution of Category I and II EUCs in accordance with the procedures outlined in §205.6. This responsibility may not be delegated by the Directors of Defense Agencies; it may be delegated by Secretaries of the Military Departments to civilian officers of their respective departments appointed by the President with the advice and consent of the Senate. Once EUC execution is authorized, the Director of a Defense Agency, or Military Department civilian official who has been delegated authorization authority may delegate the authority to sign individual EUCs.
   (2) Establish procedures to ensure compliance with this part. These procedures should ensure compliance, for the life of the purchased item, with the transfer or use restrictions agreed to in signing an EUC. They should also ensure 21-calendar day notification to USD(A) before authorizing the execution of a Category II EUC.

§ 205.6 Procedures.
(a) Procedures for the three categories of EUCs established in §205.4(c) are:
   (1) Category I. Secretaries of the Military Departments and Directors of Defense Agencies may authorize Category I EUCs.
   (2) Category II. Not less than 21 calendar days before authorizing the execution of a Category II EUC, Military Departments and Defense Agencies shall provide notification to the USD(A). The notification will contain a description of the item and the limitations to be imposed by the exporting government. The USD(A) shall coordinate with the USD(P), providing at least 14 days for review. If appropriate, the USD(P) shall coordinate with the Department of State. The USD(A) shall notify the submitting DoD Component of any further action required before final authorization of the EUC; otherwise, concurrence may be assumed after expiration of the 21-day period.
   (3) Category III. To acquire an item requiring a Category III EUC, the Secretary of a Military Department or Director of a Defense Agency must request a waiver from the USD(A). Requests for waivers should specify:
      (i) Why it is in the interest of the U.S. Government to procure the item.
      (ii) The limitations to be imposed by the exporting government and a justification for acceptance of those limitations by the U.S. Government.
      (iii) A statement that no satisfactory alternative to the item, considering cost, schedule, or operational requirements, is available from domestic or foreign sources without equivalent limitations.

The USD(A) shall coordinate the waiver with the USD(P), who, if appropriate, shall then coordinate with the Department of State. USD(A) shall notify the submitting DoD Component of the results.
(b) Copies of signed EUCs of all three categories shall be provided promptly to USD(A).
(c) A record of any waivers or modifications of this policy shall be maintained by the USD(A).

PART 206—NATIONAL SECURITY EDUCATION PROGRAM (NSEP) GRANTS TO INSTITUTIONS OF HIGHER EDUCATION

Sec. 206.1 Major characteristics of the NSEP institutional grants program.
§ 206.1 Major characteristics of the NSEP institutional grants program.

(a) The Institutional Grants Program provides support in the form of grants to U.S. institutions of higher education. During the 1994–95 and 1995–96 academic years, a program of pilot grants is being initiated with an annual competition for grants held during the spring of each year. Grants to institutions will complement NSEP scholarship and fellowship programs. NSEP encourages the development of programs and curricula which:

(1) Improves the quality and infrastructure of international education;
(2) Addresses issues of national capacity; and
(3) Defines innovative approaches to issues not addressed by NSEP scholarship and fellowship programs.

(b) The NSEP Grants Program is designed to address a number of important objectives critical to the United States:

(1) To equip Americans with an understanding of less commonly taught languages and cultures and enable them to become integrally involved in global issues.
(2) To build a critical base of future leaders in the marketplace and in government service who have cultivated international relationships and worked and studied alongside foreign experts.
(3) To develop a cadre of professionals with more than the traditional knowledge of language and culture who can use this ability to help the U.S. make sound decisions and deal effectively with global issues; and
(4) To enhance institutional capacity and increase the number of faculty who can educate U.S. citizens toward achieving these goals.

(c) Grants will be awarded for initial 1- or 2-year periods. Potential follow-on commitments will be based on a rigorous evaluation and assessment process. Between 15 and 25 awards are expected to be made in the first year ranging from approximately $25,000 to $250,000. These are only estimates and do not bind the NSEP to a specific number of grants or to the amount of the grant.

(d) The following key characteristics will be emphasized in the NSEP Institutional Grants Program:

(1) Programmatic in emphasis. The purpose of the grants is to address weaknesses and gaps in programs and curricula. The grants should be used to strengthen the national capacity in international education. While "operational" support for already existing centers and projects may be a component of a grant, NSEP emphasizes commitment of its limited resources to projects that establish and improve educational programs available to students and teachers.

(2) Demand and requirements oriented. Grants are designed to address national needs. These needs must be clearly articulated and defended in a grant proposal. It must be clear that the following questions are addressed:

(i) Who will benefit from the program funded by the grant?
(ii) What need does the program address?
(iii) How will this program augment the capacity of the Federal Government or of the field of education in areas consistent with the objectives of the NSEP? How does it fit the national requirement?

(3) Cooperation and collaboration among institutions is mandated in order to ensure that a wider cross-section of colleges and universities benefit from a program funded under NSEP. NSEP is committed to providing opportunities to the widest cross-section of the higher education population as is feasible. Cooperation can be in the form of formal consortia arrangements or less formal but equally effective agreements among institutions. Both vertical (among different types of institutions) and horizontal (among similar institutions across functional areas) integration are encouraged. Outreach to institutions that do not normally benefit from such programs is also strongly favored.

(4) Complementary to other Federal programs such as Title VI of the Higher Education Act. NSEP is designed to
address gaps and shortfalls in Higher Education and to build and expand national capacity. NSEP recognizes that base capacity currently exists in some foreign languages and area studies. It also recognizes that funding shortfalls and other factors have contributed to tremendous gaps and weaknesses. Funding for expansion of the international education infrastructure remains limited. Duplication of effort is not affordable. NSEP encourages new initiatives as well as expansion of existing programs to increase supply in cases where the demand cannot be met and encourages efforts that increase demand.

(5) NSEP encourages proposals that address two categories of issues relating to the mission of NSEP:

(i) Programs in specific foreign languages, countries or areas; and/or

(ii) Programs addressing professional, disciplinary and/or interdisciplinary opportunities involving international education.

(6) NSEP views student funding as portable and hopes that universities will develop ways to move students to programs and to provide credit with these programs. NSEP believes that programs need to be developed that are available to a wider cross-section of students. Thus, they need to be “open” to students from other institutions. Programs might also be “transportable” from one institution to another.

(7) NSEP emphasizes leveraging of funds and cost-sharing in order to maximize the impact of NSEP funding. It encourages institutions to seek other sources of funding to leverage against NSEP funding and to commit institutional resources in support of the program as well. NSEP also emphasizes burden sharing between the institution and the Program. NSEP encourages institutions to demonstrate a commitment to international education and to present a plan for how funding for the proposed program will be achieved over a 3-5 year period so that NSEP can reduce its financial commitment to programs. The funds requested from NSEP should minimize costs allocated to unassigned institutional “overhead.” NSEP institutional grants are assumed to be for training programs. Consequently, university/college indirect costs associated with training programs should be used as a general benchmark for determining appropriate overhead rates.

(8) NSEP encourages creativity and is responsive to the needs of higher education to expand the capacity to provide more opportunities for quality international education. We do not suggest that the guidelines presented in the grant solicitation will cover all problems and issues. Quite to the contrary, we encourage careful consideration of issues confronting international education in the U.S. and thoughtful proposals that address these issues, consistent with the overall mission of the NSEP.

§ 206.2 Eligibility.

Any accredited U.S. institution of higher education, as defined by section 1201(a) of the Higher Education Act of 1965 (20 U.S.C. 1141(a)), may apply for and receive a grant. This includes 2- and 4-year colleges and universities, both public and private. Other organizations, associations, and agencies may be included in proposals but may not be direct recipients of a grant. Foreign institutions may also be included in a proposal but may not be direct recipients of a grant. Only U.S. citizens and U.S. institutions may receive funds through a grant awarded by the NSEP.

§ 206.3 Overall program emphasis.

(a) The NSEP grants to institutions program focuses on two broad program areas that reflect the challenges to building the infrastructure for international education in U.S. higher education:

(i) Development and expansion to quality programs in overseas locations. NSEP also emphasizes burden sharing between the institution and the Program. NSEP encourages institutions to demonstrate a commitment to international education and to present a plan for how funding for the proposed program will be achieved over a 3-5 year period so that NSEP can reduce its financial commitment to programs. The funds requested from NSEP should minimize costs allocated to unassigned institutional “overhead.” NSEP institutional grants are assumed to be for training programs. Consequently, university/college indirect costs associated with training programs should be used as a general benchmark for determining appropriate overhead rates.

(ii) Development of meaningful competencies in foreign languages and cultures.

(b) NSEP encourages creativity and is responsive to the needs of higher education to expand the capacity to provide more opportunities for quality international education. We do not suggest that the guidelines presented in the grant solicitation will cover all problems and issues. Quite to the contrary, we encourage careful consideration of issues confronting international education in the U.S. and thoughtful proposals that address these issues, consistent with the overall mission of the NSEP.
(b) Addressing the need for improving study abroad infrastructure. The NSEP encourages the study of foreign cultures and languages typically neglected or under-represented in higher education. In the foreign language field these are generally referred to as less commonly taught languages. In area studies, these are generally defined as non-Western European in focus. An integral part of any student’s international education is a quality study abroad experience that includes a significant portion devoted to gaining functional competence in an indigenous language and culture. Unfortunately, there are only limited opportunities to study abroad in many foreign areas. In addition, many programs lack a quality foreign language component as well as significantly experiential components. Historically, more attention has been paid to the development of programs in Western Europe where the student demand has been greater. NSEP hopes to encourage, through institutional grants, the development and/or expansion of infrastructure for study abroad in critical areas of the world where capacity does not currently exist. Programs are encouraged that:

(1) Expand program opportunities in critical countries where limited opportunities currently exist.

(2) Establish program opportunities in critical countries where no opportunities exist.

(3) Enhance meaningful opportunities for foreign language and foreign culture acquisition in conjunction with study abroad.

(4) Create and expand study abroad opportunities for students from diverse disciplines. In all cases, grants to develop study abroad infrastructure must address issues of demand (how to increase demand for study in the proposed countries or regions) and diversity (how to attract a diverse student population to study in the proposed countries or regions). Grants may support start-up of programs or the expansion of a program’s capacity to benefit more and/or different student or to improve the quality of study abroad instruction. Proposals can address issues concerning either or both issues of undergraduate and graduate education.

(c) Addressing the infrastructure for international education in U.S. higher education. While studying abroad is an integral part of becoming more proficient in one’s understanding of another culture and in becoming more functionally competent in another language, the NSEP also emphasizes the development and expansion of programs that address serious shortfalls that provide a stronger domestic program base in areas consistent with the NSEP mission. The NSEP encourages grant proposals that address infrastructure issues. While not limited to these areas, programs might address the following issues:

(1) Enhancing foreign language skill acquisition through innovative curriculum development efforts. Such efforts may involve intensive language study designed for different types of students. Less traditional approaches should be considered as well as ways to provide foreign language instruction for the student who may not otherwise have an opportunity to pursue such instruction. Functional competency should be stressed but defined as meaningful for the particular discipline or field.

(2) Expanding opportunities for international education in diverse disciplines and fields and in issues that are cross-area or cross-national in character. Efforts are encouraged that offer opportunities for meaningful international education for those in fields where opportunities are not generally available. There are many fields and disciplines that are rapidly becoming international in scope, yet the educational process does not include a meaningful international component. In many cases this is due to a rigid structure in the field itself that cannot accommodate additional requirements, such as language and culture study. There are also issues that involve cross-area or cross-national education or are studied in comparative terms. Students in these areas also need quality opportunities in international education.

(3) Provide opportunities for programmatic studies throughout an undergraduate or graduate career. Students frequently study a foreign language or pursue study abroad opportunities as adjuncts to their overall program of study. Innovations in curriculum are
needed to more thoroughly integrate aspects of international education into curriculum throughout a student’s undergraduate or graduate career. The NSEP encourages institutions to address these overall international education curriculum issues in their proposals.

(4) **Provide opportunities to increase demand for study of foreign areas and languages.** Efforts to develop educational programs that offer innovative approaches to increasing demand to include a meaningful international component are encouraged. Proposals are encouraged to address issues of diversity: how to attract students who have historically not pursued opportunities involving international education. Diversity includes geographical, racial, ethnic, and gender factors.

(5) **Improve faculty credentials in international education.** Efforts to create more opportunities for teachers to become competent in foreign cultures and languages are encouraged. While NSEP is a higher education program, it is interested in the potential dynamics of collaborative efforts that recognize the shared responsibility of all educational levels for promoting international education.

(6) **Uses of new technologies.** During the last decade tremendous advances have been made in the application of new educational technologies. Such technologies have enhanced our capacity to improve instruction, broaden access, and assess student learning. NSEP’s objective is not to support large technology oriented projects. However, NSEP encourages efforts that integrate innovative uses of technology emphasizing how proposed programs will have significance beyond a local setting. Proposals that include proposed uses of technology will be required to demonstrate detailed knowledge of the technology, how it is to be developed and applied and how student learning will be impacted.

§ 206.4 **Proposal development and review.**

The purpose of this section is to explain the NSEP review process. [NOTE: A number of important approaches to proposal development and review have been adapted from guidelines developed by the Department of Education’s Office of Postsecondary Education for its “Fund for the Improvement of Postsecondary Education (FIPSE)”.] This information if intended to aid institutions in the development of proposals and to provide guidance concerning the criteria that may be used in reviewing and evaluating proposals.

(a) The grants to institutions program will be administered by the National Security Education Program Office (NSEPO). However, the NSEPO will function as an administrative office much in the same manner as the Institute of International Education and the Academy for Educational Development function in administering NSEP scholarship and fellowship programs, respectively. The NSEPO will not review or evaluate proposals. The proposals will be reviewed and evaluated by national screening panels.

(b) The NSEP will use a two-stage review process in order to evaluate a broad range of proposal ideas. In the first stage, applicants will submit a five-page summary (double-spaced) of their proposal. An institution may submit more than one proposal, but each proposal should be submitted and will be evaluated separately and independently.

(c) NSEP expects competition for grants to be intense. By implementing a two-stage process, potential grantees are given an opportunity to present their ideas without creating a paperwork burden on both the proposal authors and the reviewers.

(d) **The preliminary review process.** The review of preliminary proposals will be undertaken by panels of external reviewers, not members of the NSEPO. Panels of not less than three will be assembled to review preliminary proposals. Panel members will be drawn primarily from faculty and administration in higher education but might also include representatives from the research, business, and government communities. Every effort will be made to ensure balance (geographical, ethnic, gender, institutional type, subject matter) across the entire competition.

(e) Panel members will reflect the nature of the grants program. Each panel will include a recognized expert in a field of international education.
Office of the Secretary of Defense

§ 206.5 Final proposal process.

NSEPO will provide detailed comments on proposals to all applicants who are invited to prepare a final proposal.

(a) Final proposals should be limited to no more than 25 double-spaced pages. Proposals will be reviewed by national panels constructed similarly to those designed to review preliminary proposals. In addition to a field review process, panels will be assembled in Washington D.C. to discuss and review the independent and competing merits of proposals.

(b) Proposals will be evaluated in two basic categories:

(1) Proposals that address study abroad infrastructure and

(2) Proposals that address domestic infrastructure. Should proposals deal with both of these issues, they will be evaluated in a third category. This grouping of proposals will ensure that all categories of proposals receive funding consideration.

(c) In general, final proposals will be considered on the following selection criteria:

(1) Importance of the problem. Each proposal will be evaluated according to the merit of how it addresses issue(s) of national capacity. The proposal must articulate the importance of the problem it addresses, how the proposal addresses issues of national capacity in international education, and how it is consistent with the objectives of the NSEP.

(2) Importance of proposed foreign language(s), foreign area(s), field(s) or discipline(s). The proposal will be evaluated according to how well it articulates the need for programs in the proposed areas, languages, fields, or disciplines.

(3) Identification of need and gaps/shortfalls. The proposal will be evaluated according to its persuasiveness in identifying where the needs exist and where serious shortfalls exist in the capacity to fill the need. The proposal should clearly identify why these gaps exist and provide a strong indication of familiarity with the state of the field in the proposal area.

(4) Cost effectiveness. Proposals will be evaluated on the basis of “educational value for the dollar.” NSEP is interested in funding proposals in areas where other funding is limited or in areas where NSEP funding can significantly augment or complement other sources. NSEP is not interested in replacing funds available from other sources or in duplicating other efforts. Also, NSEP is interested in projects whose dollar levels and long-range
Budget plans provide for realistic continuation by the grantee institution and adaptation by other institutions. NSEP is interested in proposed approaches to leveraging other funds against the proposed project.

(5) Evaluation plans. Proposals will be evaluated on their approach to measuring impact. What impact will the proposed program have on national capacity? How will the proposed program deal with assessing language and foreign cultural competency? In the case of study abroad programs, how will the success and impact of study abroad experiences be assessed. Proposals should not defer the consideration of these issues to a latter stage of the effort. Evaluation and assessment should be an integral part of the entire proposal effort.

(6) Prospects for wider impact. Proposals must address national needs and will be evaluated according to how well they are likely to address these needs. What component of the higher education community does the proposal address? How diverse a student population will the proposed program address? What applications to other institutions will be made available, either directly or indirectly, because of the proposed program?

(7) Capacity and commitment of the applicant. The proposal will be evaluated according to the evidence provided on the commitment of the institution, and other institutions, to the proposed project. What other institutions are involved and what is their commitment. If there are commitments from foreign institutions, what is the evidence of this commitment? Are their plans for the institution to integrate the efforts of the proposed program into the educational process? What plans are there for eventual self-support? As with many other similar programs, NSEP is particularly interested in the degree to which the institution is willing to bear a reasonable share of the direct and indirect costs of the proposed project.

(d) Applicants should also indicate if they currently receive or are seeking support from other sources. Applicants should indicate why support from NSEP is appropriate, if other sources are also being sought.

PARTS 207–209 [RESERVED]

PART 210—ENFORCEMENT OF STATE TRAFFIC LAWS ON DoD INSTALLATIONS

Sec.
210.1 Purpose.
210.2 Applicability and scope.
210.3 Policy.
210.4 Responsibilities.

SOURCE: 46 FR 58306, Dec. 1, 1981, unless otherwise noted.

§ 210.1 Purpose.

This part establishes policies pursuant to the requirements of DoD Directive 6055.4, 1 "Department of Defense Traffic Safety Program," November 7, 1978, and to authority delegated to the Secretary of Defense under Enclosure 1 for the enforcement, on DoD military installations, of those state vehicular and pedestrian traffic laws that cannot be assimilated under U.S.C., Title 18, section 13.

§ 210.2 Applicability and scope.

(a) The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies.

(b) The provisions encompass all persons who operate or control a motor vehicle or otherwise use the streets of a military installation over which the United States exercises exclusive or concurrent legislative jurisdiction.

(c) The provisions govern only vehicular and traffic offenses or infractions that cannot be assimilated under 18 U.S.C. 13, thereby precluding application of state laws to traffic offenses committed on military installations.

1Copies may be obtained, at cost, from the National Technical Information Service, 5283 Port Royal Road, Springfield, VA 22161.
Office of the Secretary of Defense

§ 210.3 Policy.

(a) It is the policy of the Department of Defense that an effective, comprehensive traffic safety program be established and maintained at all military installations as prescribed in DoD Directive 6055.4.1

(b) State vehicular and pedestrian traffic laws that are now or may hereafter be in effect shall be expressly adopted and made applicable on military installations to the extent provided by this part. All persons on a military installation shall comply with the vehicular and pedestrian traffic laws of the state in which the installation is located.

(c) Pursuant to the authority established in the Enclosure 1 to DoD Directive 5525.42, installation commanders of all DoD installations in the United States and over which the United States has exclusive or concurrent legislative jurisdiction are delegated the authority to establish additional vehicular and pedestrian traffic rules and regulations for their installations. All persons on a military installation shall comply with locally established vehicular and pedestrian traffic rules and regulations.

(d) A person found guilty of violating, on a military installation, any state vehicular or pedestrian traffic law or local installation vehicular or pedestrian traffic rule or regulation made applicable to the installation under the provisions of this part is subject to a fine of not more than $50 or imprisonment for not more than 30 days, or both, for each violation (40 U.S.C. 318c).

(e) A copy of this part shall be posted in an appropriate place on the DoD installation concerned.

§ 210.4 Responsibilities.

(a) The Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) shall modify this part as appropriate.

(b) Secretaries of the Military Departments shall comply with this part.

PART 211—DoD FOREIGN TAX RELIEF PROGRAM

§ 211.1 Reissuance and purpose.

This part (a) is reissued without substantive change, to correct superseded references; and (b) defines the tax relief policy of the Department of Defense, designates the organizational element which has continuing responsibility for the overall direction of the DoD Foreign Tax Relief Program, delineates the responsibilities of other organizational elements to implement and monitor the program, and requires the preparation and maintenance of specified foreign country tax law studies in order to facilitate the institution of statistical reporting procedures.

§ 211.2 Applicability and scope.

(a) The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified Command, and the Defense Agencies (hereafter referred to as “DoD Components”).

(b) The policy set forth in this part applies to:

(1) Military functions expenditures by the Department of Defense, and

(2) Expenditures by nonappropriated fund activities of the Department of Defense that are subject to taxes imposed by:

(i) Foreign countries in which U.S. military forces are regularly stationed (other than attaché and other military personnel assigned to a U.S. diplomatic mission); and

(ii) Any other foreign country in which all or most U.S. defense activities, in a collective sense, are conducted in the interest of the common
defense or otherwise significantly improve the military security of that country.

(c) The policy set forth in this part also applies to Military Assistance Program (MAP) expenditures in all countries.

§ 211.3 Definitions.

(a) Regardless of how a charge is denominated in foreign law or regulation, the words “tax” and “taxes” include all direct or indirect foreign customs duties, import and export taxes, excises, fees and other charges imposed at the national, local or intermediate level of a foreign country other than charges for services rendered or for other consideration received.

(b) For example, taxes include but are not limited to purchase tax, sales tax, use tax, gross receipts tax, stamp tax, transfer tax, transaction tax, turnover tax, value added tax, service tax, trade tax, business tax, license tax, transportation tax, circulation tax, luxury tax, possession tax, production tax, registration tax, consumption tax, gasoline tax, real property tax, personal property tax, and gross income tax.

(c) The word “relief” includes any method, technique, or procedure by which the ultimate economic burden of a tax on DoD funds may be avoided or otherwise remedied, such as exemption, refund, or drawback.

§ 211.4 Policy.

It is the policy of the Department of Defense to secure, to the maximum extent practicable, effective relief from all foreign taxes wherever the ultimate economic burden of those taxes would, in the absence of such relief, be borne by funds appropriated or allocated to the Department of Defense (including MAP appropriations) or under the control of its nonappropriated fund activities. In those cases in which the total economic burden of a tax not readily identifiable in the normal course of business is so small that it may be considered a de minimis matter, or in which the administrative burden of securing effective relief from a tax in a particular instance would be out of proportion to the amount of the relief obtained, tax relief shall be considered impracticable.

§ 211.5 Responsibilities.

(a) The General Counsel of the Department of Defense shall:

(1) Provide overall supervision and direction of the DoD Foreign Tax Relief Program.

(2) Resolve any significant issues relating to the program.

(3) Designate those countries that come within §211.2(b)(2)(ii) of this part.

(4) Direct the preparation of country tax law studies for countries not within the scope of §211.2(b) of this part.

(5) Designate the DoD member of the Inter-Agency Committee on Foreign Tax Relief, established by the Department of State.

(b) The Assistant Secretary of Defense (International Security Affairs) shall monitor the negotiation and conclusion of international agreements subject to the Secretary’s approval authority under DoD Instruction 2050.1, Delegated Approval Authority to Negotiate and Conclude International Agreements, July 6, 1977, to ensure that such agreements are compatible with the policy set forth in this part and any implementing guidance concerning that policy issued by the General Counsel of the Department of Defense.

(c) The Chairman, Defense Acquisition Regulatory Council, shall coordinate with the General Counsel of the Department of Defense before the issuance, amendment, or revision of any portion of the Defense Acquisition Regulatory System (or regulation, directive, circular, or other publication within the scope of 32 CFR part 160 that pertains to the implementation of the DoD Foreign Tax Relief Program.

(d) The Assistant Secretary of Defense (Comptroller) shall perform such fiscal functions as may be required to implement the DoD Foreign Tax Relief Program, including advice and assistance in the institution of procedures for collecting data, compiling reports, and performing internal audits.

(e) The Secretary of each of the Military Departments and the Director of each of the Defense Agencies shall issue

1 See footnote 1 to §209.5(d).
instructions or regulations that charge a single office within the respective Military Department of Defense Agency (referred to as the “Cognizant Office”) with continuing responsibility for supervising and monitoring the implementation of the DoD Foreign Tax Relief Program within such Department or Agency. Such instructions or regulations shall delegate to the Cognizant Office authority commensurate with its responsibility.

(f) Commanders of Unified Commands, as appropriate, shall promulgate management procedures to guide and coordinates the administration of the DoD Foreign Tax Relief Program throughout their respective area commands.

(g) For each foreign country that comes within the scope of subsection B.2. of this directive, a single Military Commander shall be designated by the Commander of the Unified Command. The designated Military Commander shall be the same designated under the procedures in 32 CFR 151.3(c). The designated Military Commander shall:

1. Make and maintain a current country tax law study in accordance with §211.6 of this part.
2. Be the single point of contact for U.S. contracting officers and activities for the investigation and resolution of specific matters that relate to the foreign tax relief program within the country for which the Military Commander is designated and for the forwarding of major problems affecting that program through proper channels to the General Counsel of the Department of Defense.
3. Provide liaison with the responsible U.S. diplomatic mission on current tax relief problems and, where appropriate, with local foreign tax authorities.

§211.6 Country tax law studies.

(a) The taxes covered by each country tax law study shall be limited to those which in the absence of tax relief, would affect, or would appear to affect, U.S. Government expenditures, even as a de minimis matter. (All such taxes are hereafter referred to as “applicable taxes.”) The formats of the studies for all countries shall be similar within each Unified Command insofar as practicable, and designed to facilitate statistical reporting procedures. The studies shall be prepared and maintained with a view to the practical utilization of the studies by U.S. contracting officers and activities for purposes of making reliable estimates of the total amount of taxes applicable to any particular contract and the amount thereof for which tax relief is available.

(b) Each country tax law study shall consist of the following:

1. A general survey of all applicable taxes, together with translations, as appropriate, of the salient features of the law or regulations imposing those taxes.
2. For each applicable tax, a summary statement containing: Its name; its rate (or rates); the taxing authority (national, provincial, or municipal); the legal incidence of the tax (the nature of the taxpayer or other entity liable for the payment of the tax to the taxing authority under the law of the country); its description (including the base or bases on which the tax is imposed); the applicability of the tax to various types of contracts (supplies, services, or construction) in the event the tax is applicable to only one or several of such types of contracts; the applicability of the tax to the prime contract, as well as to any subcontracts or purchase orders issued by the prime contractor or subcontractor; the applicability of the tax to contractor and subcontractor personnel; the variation, if any, of the applicability of the tax depending upon the domicile of the contractor or contractor personnel, such as United States, host country, or third country; any applicable exemptions or deductions of significance; and the method of collection of the tax.
3. The basis upon which it is concluded that each applicable tax, in absence of tax relief, would affect, or would appear to affect, U.S. Government expenditures; and any evidence of the degree to which its ultimate economic burden would, in absence of tax relief, be borne by the U.S. Government rather than be absorbed by others.

4. The substantive tax relief, if any, from each applicable tax that is available to the U.S. Government either by international agreements in force or
§ 211.7 Information requirements.

(a) The reporting requirement contained in §211.6 relating to the submission of country tax law studies and revisions thereof is assigned Report Control Symbol DDSD (AR) 1036.

(b) Each January a summary of significant activities during the preceding year in implementation of the DoD Foreign Tax Relief Program shall be furnished by the Heads of Cognizant Offices to the General Counsel of the Department of Defense. The summary, in narrative form, shall include actions taken by the Cognizant Office to discharge its responsibility for supervising and monitoring the implementation of the foreign tax relief program within its Military Department or Defense Agency, and for disseminating the information contained in country tax law studies to U.S. contracting officers and activities. The reporting requirement contained in this subsection is assigned Report Control Symbol DDGC (A) 1198.

(c) Each January a summary of significant activities during the preceding year of the administration of the foreign tax relief program shall be furnished by Commanders of the Unified Commands to the General Counsel of the Department of Defense. The summary, in narrative form, shall include actions taken by the Unified Command to discharge its responsibility to supervise and coordinate the preparation and maintenance of country tax law studies. The reporting requirement contained in this subsection is assigned Report Control Symbol DDGC (A) 1199.

PART 212—PRIVATE ORGANIZATIONS ON DoD INSTALLATIONS

Sec. 212.1 Reissuance and purpose.
212.2 Applicability.
212.3 Definitions.
212.4 Policy.
212.5 Responsibilities.
212.6 Procedures.

AUTHORITY: 5 U.S.C. 301.

SOURCE: 63 FR 32616, June 15, 1998, unless otherwise noted.

§ 212.1 Reissuance and purpose.

This part:
Office of the Secretary of Defense

§ 212.6

(a) Revises 32 CFR part 212.
(b) Implements policy in DoD Directive 5124.5.¹
(c) Updates responsibilities and procedures to define and reestablish parameters for private organizations located on DoD installations for their authorization and support.

§ 212.2 Applicability.

This part applies to:
(a) The Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Defense Agencies, and DoD Field Activities (hereafter referred to collectively as the “DoD Components”).
(b) Private organizations authorized to operate on DoD installations.

§ 212.3 Definitions.

(a) DoD Installation. A location, facility, or activity owned, leased, assigned to, controlled, or occupied by a DoD Component.
(b) Private Organizations. Self-sustaining and non-Federal entities, incorporated or unincorporated, which are operated on DoD installations with the written consent of the installation commander or higher authority, by individuals acting exclusively outside the scope of any official capacity as officers, employees, or agents of the Federal Government.

§ 212.4 Policy.

It is DoD policy under DoD Directive 5124.5 that procedures be established for the operation of private organizations on DoD installations to prevent the official sanction, endorsement, or support by DoD Components except as in 32 CFR part 84. Private organizations are not entitled to sovereign immunity and privileges accorded to Federal entities and instrumentalities. Private organizations are not Federal entities and are not to be treated as such, in order to avoid conflicts of interest and unauthorized expenditures of appropriated, commissary surcharge, or nonappropriated funds.

§ 212.5 Responsibilities.

(a) The Assistant Secretary of Defense for Force Management Policy, under the Under Secretary of Defense for Personnel and Readiness, shall be responsible for all policy matters and OSD oversight for the monitoring of private organizations on DoD installations.
(b) The Heads of the DoD Components shall implement this part, shall be kept aware of all private organizations located on installations under their jurisdictions, and ensure that periodic reviews of private organizations are conducted to:
(1) Ensure for each such private organization that the membership provisions and purposes on the basis of which the organization was permitted on the installation continue to apply, thereby justifying continuance on the installation. Substantial changes to those conditions shall necessitate further review, documentation, and approval for continued permission to remain on the installation.
(2) Furnish reports to the Assistant Secretary of Defense for Force Management Policy on private organizations covered by this part as required.

§ 212.6 Procedures.

(a) To prevent the appearance of an official sanction or support by the Department of Defense, a private organization covered by this part shall not utilize the following in its title or letterhead:
(1) The name or seal of the Department of Defense or the acronym “DoD.”
(2) The name, abbreviation, or seal of any DoD Component or instrumentality.
(3) The seal, insignia, or other identifying device of the local installation.
(4) Any other name, abbreviation, seal, logo, insignia, or the like, used by any DOD Component to identify any of its programs, locations, or activities.
(b) Activities of private organizations covered by this part shall not in any way prejudice or discredit the DoD Components or the other Agencies of the Federal Government.
(c) The nature, function, and objectives of a private organization covered by this part shall be delineated in a written constitution, by-laws, charter,
§ 212.6

32 CFR Ch. 1 (7–1–02 Edition)

articles of agreement, or other authorization documents acceptable to the head of the DoD installation. That document shall also include:

(1) Description of membership eligibility in the private organization.

(2) Designation of management responsibilities, to include the accountability for assets, satisfaction of liabilities, disposition of any residual assets on dissolution, and other matters that show responsible financial management.

(3) Documentation indicating an understanding by all members as to whether they are personally liable if the assets are insufficient to discharge all liabilities.

(d) A private organization covered by this part that offers programs or services similar to either appropriated or nonappropriated fund activities on a DoD installation shall not compete with, but may, when specifically authorized in the approval document, supplement those activities.

(e) Private organizations covered by this part shall be self-sustaining, primarily through dues, contributions, service charges, fees, or special assessment of members. There shall be no financial assistance to a private organization from a nonappropriated fund instrumentality in the form of contributions, repairs, services, dividends, or other donations of money or other assets. Fundraising and membership drives are governed by 32 CFR part 84.

(f) The DoD Components may provide logistical support to private organizations with appropriated Federal Government resources in accordance with 32 CFR part 84. In conformance with DoD Directive 1015.1-2, nonappropriated fund instrumentalties funds or assets shall not be directly or indirectly transferred to private organizations.

(g) Personal and professional participation in private organizations by DoD employees is governed by 32 CFR part 84.

(h) Neither appropriated fund activities nor nonappropriated fund instrumentalities may assert any claim to the assets, or incur or assume any obligation of any private organization covered by this part except as may arise out of contractual relationships. Property abandoned by a private organization on its disestablishment or departure from the installation, or donated by it to the installation, may be acquired by the DoD installation under the terms of applicable agreements, statutes, and DoD policy.

(i) Adequate insurance, as defined by the Service concerned, shall be secured by the organization to protect against public liability and property damage claims or other legal actions that may arise as a result of activities of the organization or one or more of its members acting in its behalf, or the operation of any equipment, apparatus or device under the control and responsibility of the private organization.

(j) Private organizations shall be responsible for ensuring applicable fire and safety regulations, environmental laws, local, state, and Federal tax codes, and any other applicable statutes and regulations are complied within the operation of the private organization.

(k) Income shall not accrue to individual members except through wages and salaries as employees of the private organization or as award recognition for service rendered to the private organization or military community. The head of a DoD installation concerned may approve the operation of private organizations, such as investment clubs, in which the investment of members’ personal funds result in a return on investment directly and solely to the individual members.

(l) No person because of race, color, creed, sex, age, disability or national origin shall be unlawfully denied membership, unlawfully excluded from participation, or otherwise subjected to unlawful discrimination by any private organization on a DoD installation covered by this part. DoD installations will publicly disseminate information on procedures for individuals to follow at the local installation when unlawful discrimination by private organizations is suspected.

(m) Applicable laws on labor standards for employment shall be observed.

(n) This part does not apply to the following organizations, which are governed by DoD Directives and Instructions as referenced:

2See footnote to §212.1(b).
(1) Scouting organizations operating at U.S. military installations located overseas (DoD Instruction 1015.9).3
(2) American National Red Cross (DoD Directive 1330.5).4
(3) United Service Organizations, Inc. (DoD Directive 1330.12).5
(4) United Seamen’s Service (DoD Directive 1330.16).6
(o) Certain unofficial activities may be conducted on DoD installations, but need not be formally authorized because of the limited scope of their activities, membership or funds. Examples are office coffee funds, flower funds, and similar small, informal activities and funds. DoD Components shall establish the basis upon which such informal activities and funds shall operate.

PART 215—EMPLOYMENT OF MILITARY RESOURCES IN THE EVENT OF CIVIL DISTURBANCES

Sec. 215.1 Purpose and scope.
215.2 Applicability.
215.3 Definitions.
215.4 Legal considerations.
215.5 Policies.
215.6 Responsibilities.
215.7 Command relationships.
215.8 Organization and administration.
215.9 Providing military resources to civil authorities.
215.10 Funding.

SOURCE: 37 FR 3637, Feb. 18, 1972, unless otherwise noted.

§ 215.1 Purpose and scope.
This part establishes uniform Department of Defense policies, assigns responsibilities, and furnishes general guidance for utilizing DoD military and civilian personnel, facilities, equipment or supplies:
(a) In support of civil authorities during civil disturbances within the 50 States, District of Columbia, Commonwealth of Puerto Rico, U.S. possessions and territories, or any political subdivision thereof.
(b) In other related instances where military resources may be used to protect life or Federal property or to prevent disruption of Federal functions.

§ 215.2 Applicability.
This part is applicable to all components of the Department of Defense (the Military Departments, Organization of the Joint Chiefs of Staff, Defense Agencies, and the unified and specified commands) having cognizance over military resources which may be utilized in accordance with the policies set forth herein.

§ 215.3 Definitions.
(a) Civil disturbances are group acts of violence and disorders prejudicial to public law and order within the 50 States, District of Columbia, Commonwealth of Puerto Rico, U.S. possessions and territories, or any political subdivision thereof. The term civil disturbance includes all domestic conditions requiring the use of Federal armed forces pursuant to the provisions of chapter 15 of Title 10, United States Code.
(b) Federal property is that property which is owned, leased, possessed, or occupied by the Federal Government.
(c) Military resources include military and civilian personnel, facilities, equipment, and supplies under the control of a DoD component.
(d) A Federal function is any function, operation, or action carried out under the laws of the United States by any department, agency, or instrumentality of the United States or by an officer or employee thereof.

§ 215.4 Legal considerations.
(a) Under the Constitution and laws of the United States, the protection of life and property and the maintenance of public order are primarily the responsibilities of State and local governments, which have the necessary authority to enforce the laws. The Federal Government may assume this responsibility and this authority only in certain limited instances.
(b) Aside from the constitutional limitations of the power of the Federal Government at the local level, there

3 See footnote to § 212.1(b).
4 See footnote to § 212.1(b).
5 See footnote to § 212.1(b).
6 See footnote to § 212.1(b).
are additional legal limits upon the use of military forces within the United States. The most important of these from a civil disturbance standpoint is the Posse Comitatus Act (18 U.S.C. 1385), which prohibits the use of any part of the Army or the Air Force to execute or enforce the laws, except as authorized by the Constitution or Act of Congress.

(c) The Constitution and Acts of Congress establish six exceptions, generally applicable within the entire territory of the United States, to which the Posse Comitatus Act prohibition does not apply.

1. The constitutional exceptions are two in number and are based upon the inherent legal right of the U.S. Government—a sovereign national entity under the Federal Constitution—to insure the preservation of public order and the carrying out of governmental operations within its territorial limits, by force if necessary.
   (i) The emergency authority. Authorities prompt and vigorous Federal action, including use of military forces, to prevent loss of life or wanton destruction of property and to restore governmental functioning and public order when sudden and unexpected civil disturbances, disasters, or calamities seriously endanger life and property and disrupt normal governmental functions to such an extent that duly constituted local authorities are unable to control the situations.
   (ii) Protection of Federal property and functions. Authorizes Federal action, including the use of military forces, to protect Federal property and Federal governmental functions when the need for protection exists and duly constituted local authorities are unable or decline to provide adequate protection.

2. There are four exceptions to the Posse Comitatus Act based on Acts of Congress.

(i) In the cases of each of the first three of those described, paragraphs (c)(2)(i) (a), (b), and (c) of this section, personal Presidential action, including the issuance of a proclamation calling upon insurgents to disperse and retire peaceably within a limited time, is a prerequisite.
    (a) 10 U.S.C. 331. Authorizes use of the militia and Armed Forces when a State is unable to control domestic violence, and a request for Federal assistance has been made by the State legislature or governor to the President. Implements Article IV, section 4, of the Constitution.
    (b) 10 U.S.C. 332. Authorizes use of the militia and Armed Forces to enforce Federal law when unlawful obstructions or rebellion against the authority of the United States renders ordinary enforcement means unworkable. Implements Article II, section 3, of the Constitution.
    (c) 10 U.S.C. 333. Authorizes use of the militia and Armed Forces when domestic violence or conspiracy hinders execution of State or Federal law, and a State cannot or will not protect the constitutional rights of the citizens. Implements Article II, section 3, and the 14th Amendment of the Constitution.

(ii) It should be noted that none of the above authorities, in and of itself, provides sufficient legal basis to order members of the Reserve components to active Federal service.

§ 215.5 Policies.

(a) The employment of DoD military resources for assistance to civil authorities in controlling civil disturbances will normally be predicated upon the issuance of a Presidential Executive order or Presidential directive authorizing and directing the Secretary...
of Defense to provide for the restoration of law and order in a specific State or locality. Exceptions to this condition will be limited to:

1. Cases of sudden and unexpected emergencies as described in §215.4(c)(1)(i), which require that immediate military action be taken.
2. Providing military resources to civil authorities as prescribed in §215.9 of this part.

(b) The Attorney General of the United States has been designated to receive and coordinate preliminary requests from States for Federal military assistance authorized by 10 U.S.C. 331 (§215.4(c)(2)(i)(a)). Formal requests from States for such aid will be made to the President, who will determine what Federal action will be taken.

(c) The Secretary of the Army is delegated any and all of the authority of the President under chapter 15 of title 10, U.S.C. (§215.4(c)(2)(i)(a), (b), and (c)) which has been or may be hereafter delegated by the President to the Secretary of Defense.

(d) The Secretary of the Navy and the Secretary of the Air Force are delegated all that authority which has been or may be hereafter delegated by the President to the Secretary of Defense to order to active duty, units and members of the Reserve Components under their respective jurisdictions, except National Guard units and members, for use pursuant to chapter 15 of title 10, U.S.C. (§215.4(c)(2)(i)(a), (b), and (c)).

(e) DoD components and their subordinate activities will coordinate with local civil authorities or local military commanders as appropriate, to assure mutual understanding of the policies and procedures to be adhered to in an actual or anticipated civil disturbance situation.

(f) DoD civilian employees generally should not be used to assist civil authorities in connection with civil disturbances, except as provided for in §215.9(b)(3).

(g) The prepositioning of more than a battalion-sized unit, as authorized in §215.6(a)(6), will be undertaken only with the approval of the President. Requests for the prepositioning of forces will be addressed to the Attorney General.

§215.6 Responsibilities.

(a) The Secretary of the Army is designated as the Executive Agent for the Department of Defense in all matters pertaining to the planning for, and the deployment and employment of military resources in the event of civil disturbances. As DoD Executive Agent, the Secretary of the Army (or the Under Secretary of the Army, as his designee) is responsible for:

1. Providing policy and direction concerning plans, procedures, and requirements to all DoD components having cognizance over military resources which may be employed under the provisions of this part.
2. Improving and evaluating the capabilities of the National Guard to deal with civil disturbances.
3. Establishing DoD policies and procedures for:

1. Calling the National Guard to active Federal service and ordering the National Guard and other Reserve components to active duty; and
2. The employment of such forces that may be required to carry out the purposes of this part.
4. Calling to active Federal service:

1. The Army National Guard units or members required to carry out the provisions of the Presidential Executive order or other appropriate authority.
2. The Air National Guard units or members required to carry out the provisions of the Presidential Executive order or other appropriate authority, subject to the provisions of paragraph (c)(1)(i) of this section.
5. Providing military resources of the U.S. Army, consistent with defense priorities to include:

1. The military resources of the Army National Guard called to active Federal service under the provisions of paragraph (a)(4)(i) of this section.
2. The military resources of the Army Reserve (other than Army National Guard) ordered to active duty to carry out the purposes of this part.
6. Exercising through designated military commanders the direction of military resources committed or assigned for employment in the event of actual or potential civil disturbances. When circumstances warrant, such direction will include:
(i) Alerting, and, if necessary, prepositioning predesignated ground forces; and
(ii) Directing the Secretary of the Air Force to alert and provide the necessary airlift resources (see §215.5(g)).

(7) Devising command, control, and communications arrangements to insure effective coordination and responsiveness among Defense agencies, military departments, the Joint Chiefs of Staff, and Commanders-in-Chief (CINCs) of unified and specified commands, under conditions of prepositioning, deployment, or employment of military resources. Maximum utilization will be made of existing reports of the Joint Reporting Structure (JRS), as prescribed in JCS Pub 6. Arrangements and reports affecting commanders of unified and specified commands will be coordinated with the JCS.

(8) Promulgating in implementation of DoD Directive 5200.27, “Acquisition of Information Concerning Persons and Organizations not Affiliated with the Department of Defense,” March 1, 1971,1 strict policy guidelines designed to restrict to the maximum extent consistent with the effective conduct of actual civil disturbance operations the collection and maintenance of intelligence data in support of military civil disturbance planning and operations within the Department of Defense.

(9) Keeping the Secretary of Defense informed of unusual military resource requirements (actual or potential) and other significant developments in connection with civil disturbance planning and operations.

(10) Establishing procedures for the review and coordination of all DoD components’ directives, instructions, and plans affecting civil disturbance planning and operations to assure conformity with DoD policies stated herein and DoD Executive Agent policies.

(11) Providing for the establishment of a DoD Civil Disturbance Steering Committee and a Directorate of Military Support (see §215.8).

(12) Providing the necessary facilities, equipment, and personnel as required by the Assistant Secretary of Defense (Public Affairs) in the accomplishment of his public affairs responsibilities set forth in paragraph (f) of this section.

(13) Within the restrictions established by DoD Directive 5200.27, “Acquisition of Information Concerning Persons and Organizations not Affiliated with the Department of Defense,” March 1, 1971, and the implementing guidelines referred to in paragraph (a)(8) of this section, providing essential planning, operational, and intelligence data to the National Military Command Center (NMCC) and the military service command centers on a timely basis to insure that the National Command Authorities and appropriate military service command authorities are adequately informed.

(b) The Joint Chiefs of Staff are responsible for:

(1) Establishing procedures that will promptly transfer military resources that are assigned to unified and specified commands (i) to the military departments for civil disturbance operations in the Continental United States (CONUS) or (ii) to unified commands for such operations outside the CONUS, as directed by the DoD Executive Agent and consistent with defense priorities.

(2) Maintaining an appropriate strategic reserve for worldwide employment and contingency operations.

(3) Insuring that directives concerning civil disturbances are issued to the commanders of unified commands, for the employment of military resources outside the CONUS, in accordance with direction and guidance provided by the DoD Executive Agent.

(c) The Secretary of the Air Force is responsible for:

(1) Providing military resources of the U.S. Air Force, as required by the DoD Executive Agent, and consistent with defense priorities, to include:

(i) Designating and providing the specific units or members of the Air National Guard to be called to active Federal service under the provisions of paragraph (a)(4)(ii) of this section.

3 Not available to the public. Copies have been distributed to appropriate military commanders.

1 See footnote 1 to §215.4(c)(2)(i)(d).
Office of the Secretary of Defense

§ 215.7 Command relationships.

(a) In the event of civil disturbances within the CONUS:

(1) Military resources of the unified or specified commands will be transferred by the JCS to their respective military departments, when directed by the DoD Executive Agent. (Such resources will revert to the unified or specified commands when directed by the DoD Executive Agent.)

(2) The DoD Executive Agent is delegated the authority to exercise, through the Chief of Staff, U.S. Army, the direction of those forces assigned or committed to him by the military departments.

(b) In the event of civil disturbances outside of CONUS, the DoD Executive Agent is delegated the authority to exercise the direction of those forces assigned or committed to the commanders of unified or specified commands through the Chief of Staff, U.S. Army, and Task Force Commanders designated by JCS.

(c) At objective areas, designated task force commanders will exercise operational control over all military forces assigned for employment in the event of civil disturbances.
§ 215.8 Organization and administration.

(a) A DoD Civil Disturbance Steering Committee will be established to provide advice and assistance to the DoD Executive Agent concerning civil disturbance matters. The Committee Chairman will be the Under Secretary of the Army. Members will include:

Deputy Attorney General of the United States.
Assistant Secretaries of Defense (Comptroller) and (Public Affairs).
General Counsel of the DoD.
Under Secretaries of the Navy and Air Force.
Vice Chiefs of Staff of the Army and Air Force.
Vice Chief of Naval Operations and Assistant Commandant of the Marine Corps.
Representative of the JCS.

(b) A Directorate of Military Support (DOM’s) will be established by the DoD Executive Agent with a joint service staff under the Chief of Staff, U.S. Army. The Department of the Army will provide the Director and the Department of the Air Force will provide the Deputy Director. The DOMs will plan, coordinate, and direct civil disturbance operations.

§ 215.9 Providing military resources to civil authorities.

This section provides general guidance for the handling of requests for DoD facilities, personnel, equipment, or supplies, received from officials of the 50 States, District of Columbia, Commonwealth of Puerto Rico, U.S. possessions and territories, or any political subdivision thereof, for use in connection with civil disturbances.

(a) Loan policy. Civil authorities, National Guard, and Federal agencies will be encouraged to provide sufficient resources of their own, so as to minimize the need to rely on DoD assistance.

(1) Classification of resources. Military resources will be classified into three groups, as follows:

(i) Group One. Personnel, arms, ammunition, tank-automotive equipment, and aircraft.

(ii) Group Two. Riot control agents, concertina wire, and other like military equipment to be employed in control of civil disturbances which is not included in Group One.

(iii) Group Three. Firefighting resources (to include operating personnel); equipment of a protective nature (such as masks, helmets, body armor vests) and other equipment not included in Group One or Two (such as clothing, communications equipment, searchlights); and the use of DoD facilities.

(2) Requests for personnel to be used in a direct law enforcement role are not within the purview of this part and must be made by the legislature or governor of a State in accordance with 10 U.S.C. 331. Pursuant to the Posse Comitatus Act, DoD operating personnel employed in connection with loaned equipment may not be used in a direct law enforcement role.

(3) Repair parts and POL items are classified according to the group of the equipment for which the parts or POL are intended.

(b) Approval of requests. (1) Requests for Group One military resources may be granted only with the personal approval of the DoD Executive Agent or, when designated by him for that purpose, the Under Secretary of the Army.

(2) Requests for Group Two military resources may be granted only with the personal approval of the DoD Executive Agent or, when designated by him for that purpose:

(i) The Under Secretary of the Army;
(ii) The Director and Deputy Director of Military Support; or
(iii) A Task Force Commander employed at an objective area during a civil disturbance.

(3) Requests for Group Three resources may be granted by Secretaries of the military departments, CINCs of unified and specified commands outside CONUS; or commanders of military installations or organizations who have been delegated such authority by the appropriate Service Secretary or CINC.

(i) Installation commanders are authorized to provide emergency explosive ordnance disposal service in accordance with applicable regulations of respective military departments.

(ii) The Director, Defense Supply Agency, is authorized to approve requests from subordinate agencies for firefighting assistance in connection

376
Office of the Secretary of Defense

§ 215.10

with civil disturbances. Where installation fire departments have mutual aid agreements with nearby civil communities, the installation commander is authorized to provide emergency civilian or mixed civilian/military firefighting assistance. In the absence of a mutual aid agreement and when it is in the best interest of the United States, a commander with Group Three approval authority is authorized to provide emergency civilian or mixed civilian/military assistance in extinguishing fires and in preserving life or property from fire, within the vicinity of an installation. In either case, civilian firefighters may be used provided:

(a) In civil disturbance situations where there is significant danger of physical harm to firefighters, the civilian employees volunteer for the assignment. (DoD civilian employees acting in this volunteer capacity are acting as Federal employees.)

(b) Firefighting equipment will not be used for riot control.

(c) Civil authorities recognize that prior to the commitment of Federal forces to assist in restoring law and order, the protection of firefighting crews and equipment is the responsibility, in ascending order, of municipal, county, and State officials. Failure on the part of such authorities to recognize this responsibility and/or to provide adequate protection will be grounds for refusal to commit installation resources or for withdrawal of resources already committed.

(4) Requests for Groups One, Two, or Three resources, and for renewal of outstanding loans, may be denied at any level in the chain of command down to and including commanders delegated Group Three approval authority.

(c) Processing of requests. (1) All requests will be promptly submitted through channels to the appropriate approving authorities using the format established by the DoD Executive Agent.

(2) Requests will be forwarded and processed in keeping with the degree of urgency dictated by the situation.

(3) Requests received by personnel of Defense agencies will be referred to local military commanders for processing, except that DSA subordinate agencies will forward requests for firefighting assistance to DSA.

(4) Request from civil law enforcement agencies for training assistance related to the control of civil disturbances will not be approved at the local level. Such requests should be referred to the nearest U.S. attorney, Department of Justice.

(d) Reporting of requests. (1) Reports of all requests for military resources (approved, denied, or pending) will be prepared by all appropriate approving authorities, using the format established by the DoD Executive Agent, and forwarded through channels as follows:

(i) To the military department headquarters, in the case of requests received in the CONUS by the four Services.

(ii) To the DoD Executive Agent, in the case of requests for firefighting assistance received by the Defense Supply Agency.

(iii) To the JCS, in the case of requests received by organizations or installations over which the commanders of the unified and specified commands exercise command authority.

(2) Reports received by the military department headquarters and JCS will be transmitted to the DoD Executive Agent, who, in turn, will transmit information copies of all approved requests for Groups One and Two military resources to the General Counsel of the DoD and the Deputy Attorney General of the United States.

(3) In addition, a weekly summary report of all requests will be compiled by the DoD Executive Agent, showing action taken (approved, denied, or pending) and submitted to the General Counsel of the DoD, the Assistant Secretary of Defense (Installations and Logistics), and the Deputy Attorney General of the United States. Negative summary reports are required.

(4) The reporting requirements prescribed herein are assigned Report Control Symbol DD–A(AR)1112.

§ 215.10 Funding.

(a) Reporting requirements to provide for financing costs associated with civil disturbance operations, to include reimbursement of military department expenditures, will be in accordance
with DoD Instruction 7200.9, ‘Financing and Reporting Costs of Military Resources Used in Civil Disturbances,’ January 26, 1970, and DoD Executive Agent implementing instructions.

(b) Military assistance (Groups One, Two, and Three military resources) provided to civil authorities, under the provisions of §215.9, will be on a reimbursable or reclaimable basis as appropriate.

PART 216—MILITARY RECRUITING AND RESERVE OFFICER TRAINING CORPS PROGRAM ACCESS TO INSTITUTIONS OF HIGHER EDUCATION

Sec. 216.1 Purpose.
Sec. 216.2 Applicability.
Sec. 216.3 Definitions.
Sec. 216.4 Policy.
Sec. 216.5 Responsibilities.
Sec. 216.6 Information requirements.

APPENDIX A OF PART 216—MILITARY RECRUITING SAMPLE LETTER OF INQUIRY
APPENDIX B OF PART 216—ROTC SAMPLE LETTER OF INQUIRY.

AUTHORITY: 10 U.S.C. 983.

SOURCE: 63 FR 56821, Oct. 23, 1998, unless otherwise noted.

§ 216.1 Purpose.

This part:
(b) Implements 10 U.S.C. 983, and
(c) Implements the Omnibus Consolidated Appropriations Act, 1997 (110 Stat. 3009).
(d) Updates policy and responsibilities relating to the management of covered schools that have a policy of either denying, or effectively preventing military recruiting personnel entry to their campuses, access to their students, or access to student recruiting information.
(e) Updates policy and responsibilities relating to the management of covered schools that have an anti-ROTC policy.

§ 216.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “the DoD components”). The policies herein also affect the Departments of Transportation, Labor, Health and Human Services, Education, and Related Agencies. The term “Military Services,” as used herein, refers to the Army, the Navy, the Marine Corps, the Air Force, and the Coast Guard, including their Reserve or National Guard components. The term “Related Agencies,” as used herein, refers to the Armed Forces Retirement Home, the Corporation for National and Community Service, the Corporation for Public Broadcasting, the Federal Mediation and Conciliation Service, the Federal Mine Safety and Health Review Commission, the National Commission on Libraries and Information Science, the National Council on Disability, the National Education Goals Panel, the National Labor Relations Board, the National Mediation Board, the Occupational Safety and Health Review Commission, the Prospective payment Assessment Commission, the Social Security Administration, the Railroad Retirement Board and the United States Institute of Peace.

§ 216.3 Definitions.

(a) Anti-ROTC policy. A policy or practice whereby a covered school prohibits or in effect prevents the Secretary of Defense from maintaining, establishing, or efficiently operating a unit of the Senior ROTC at the covered school, or prohibits or in effect prevents a student at the covered school from enrolling in a Senior ROTC unit at another institution of higher education.
(b) Covered school. An institution of higher education, or a subelement of an institution of higher education, subject to the following clarifications:
(1) In the event of a determination (§216.5) affecting only a subelement of a parent institution (see §216.3(d)), the limitations on the use of funds
(§216.4(a) and (b)) shall apply only to the subelement and not to the parent institution as a whole.

(2) The limitations on the use of funds (§216.4(a) and (b)) shall not apply to any individual institution of higher education that is part of a single university system if that individual institution does not prevent entry to campus, access to students, or access to student recruiting information by military recruiters, or have an anti-ROTC policy, even though another campus of the same system is affected by a determination under §216.5(a).

(c) **Student recruiting information.** For those currently enrolled, the student’s name, address, telephone listing, age (or year of birth), level of education (e.g., freshman, sophomore, or degree awarded for a recent graduate), and major.

(d) **Institution of higher education.** A domestic college, university, or other institution (or subelement thereof) providing postsecondary school courses of study, including foreign campuses of such domestic institutions. The term includes junior colleges, community colleges, and institutions providing courses leading to undergraduate and post-graduate degrees. The term does not include entities that operate exclusively outside the United States, its territories, and possessions. A **subelement** of an institution of higher education is a discrete (although not necessarily autonomous) organizational entity that may establish policies or practices affecting military recruiting and related actions (e.g., an undergraduate school, a law school, a medical school, or other graduate schools). For example, the School of Law of XYZ University is a subelement of its parent institution (XYZ University).

(e) **Student.** An individual who is 17 years of age or older and is enrolled at a covered school.

(f) **Enrolled.** Registered for at least one credit hour of academic credit at the covered school during the most-recent, current, or next term.

(g) **Military recruiters.** Personnel of DoD whose current assignment or detail is to a recruiting activity of the DoD.

(h) **Pacifism.** Opposition to war or violence, demonstrated by refusal to participate in military service.

§ 216.4 **Policy.**

It is policy that:

(a) Under 108 Stat. 2663 and 110 Stat. 3009, no funds available under appropriations acts for any fiscal year for the Departments of Defense, Transportation (with respect to military recruiting), Labor, Health and Human Services, Education, and Related Agencies may be provided by contract or by grant (including a grant of funds to be available for student aid) to a covered school if the Secretary of Defense determines that the covered school has a policy or practice (regardless of when implemented) that either prohibits or in effect prevents the Secretary of Defense from obtaining, for military recruiting purposes, entry to campuses, access to students on campuses, or access to directory information on students (student recruiting information).

(b) Under 110 Stat. 3009, no funds available under appropriations acts for any fiscal year for the Departments of Labor, Health and Human Services, Education, and Related Agencies may be provided by contract or grant (including a grant of funds to be available for student aid) to a covered school that has an anti-ROTC policy or practice (regardless of when implemented). Additionally, under 10 U.S.C. 983, no funds appropriated or otherwise available to the Department of Defense may be made obligated by contract or by grant to a covered school that has such a policy or practice.

(c) The limitations established in paragraph (a) of this section, shall not apply to a covered school if the Secretary of Defense determines that the covered school:

(1) Has ceased the policies or practices defined in paragraph (a) of this section;

(2) Has a long-standing policy of pacifism based on historical religious affiliation;

(3) When not providing requested access to campuses or to students on campus, certifies that all employers are similarly excluded from recruiting on the premises of the covered school,
or presents evidence that the degree of access by military recruiters is at least equal in quality and scope to that afforded to other employers;

(4) When not providing any student recruiting information, certifies that such information already has been provided to the Military Service concerned for that current semester, trimester, quarter, or other academic term, or within the past four months (for institutions without academic terms);

(5) When not providing student recruiting information for specific students, certifies that each student concerned has formally requested the covered school to withhold this information from third parties;

(6) Permits employers to recruit on the premises of the covered school only in response to an expression of student interest, and the covered school;

(i) Provides the Military Services with the same opportunities to inform the students of military recruiting activities as are available to other employers; or

(ii) Certifies that too few students have expressed an interest to warrant accommodating military recruiters, applying the same criteria that are applicable to other employers; or

(7) Is prohibited by the law of any State, or by the order of any State court, from allowing Federal military recruiting on campus. Such exemption does not apply to funds available to the Department of Defense, in accordance with 10 U.S.C. 983.

NOTE: This exemption terminated effective March 29, 1998, in accordance with 110 Stat. 3009.

(d) The limitations established in paragraph (b) of this section, shall not apply to a covered school if the Secretary of Defense determines that the covered school:

(1) Has ceased the policies or practices defined in paragraph (b) of this section;

(2) Has a long-standing policy of pacifism based on historical religious affiliation;

(3) Is prohibited by the law of any State, or by the order of any State court, from allowing Senior Reserve Officer Training Corps activities on campus. Such exemption does not apply to funds available to the Department of Defense, in accordance with 10 U.S.C. 983.

NOTE: This exemption terminated effective March 29, 1998, in accordance with 110 Stat. 3009.

(e) A covered school may charge for actual costs incurred in providing military recruiters access to student recruiting information, provided such charges are reasonable and customary; in this case, the school must explain to the military recruiter, within 15 days of a request by the recruiter, its method for determining costs, and its basis for concluding that such charges are reasonable and customary.

(f) An evaluation to determine whether a covered school maintains a policy or practice covered by paragraph (a) of this section shall be undertaken when:

(1) Military recruiting personnel cannot gain entry to campus, cannot obtain access to students on campus, or are denied access to student recruiting information (however, military recruiting personnel shall accommodate a covered school’s reasonable preferences as to times and places for scheduling on-campus recruiting, to the same extent such preferences are applicable to employers, generally);

(2) The costs being charged by the school for providing student recruiting information are believed by the military recruiter to be excessive, and the school does not provide information sufficient to support a conclusion that such charges are reasonable and customary; or

(3) The covered school is unwilling to declare in writing, in response to an inquiry from a DoD component, that the covered school does not have a policy or practice of denying, and that it does not effectively prevent, the Secretary of Defense from obtaining for military recruiting purposes entry to campuses, access to students on campuses, or access to student recruiting information.

(g) An evaluation to determine whether a covered school has an anti-ROTC policy covered by paragraph (b) of this section shall be undertaken when:
Office of the Secretary of Defense

§ 216.5 Responsibilities.

(a) The Assistant Secretary of Defense for Force Management Policy, under the Under Secretary of Defense for Personnel and Readiness, shall:

(1) Not later than 45 days after receipt of the information described in paragraph (b)(3) of this section:

(i) Make a final determination under 108 Stat. 2663, 10 U.S.C., section 983; and 110 Stat. 3009 and/or this part, and notify any affected school of that determination along with the basis, and that it is therefore ineligible to receive prescribed funds as a result of that determination.

(ii) Disseminate to Federal agencies affected by 110 Stat. 3009, to the DoD components, and to the General Services Administration (GSA) the names of covered schools identified under paragraph (a)(1)(i) of this section, and the basis of the determination.

(iii) Disseminate the names of covered schools identified under paragraph (a)(1)(i) of this section, to the Secretary of Education and to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives.

(iv) Inform the applicable school identified under paragraph (a)(1)(i) of this section, to the Secretary of Education and to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives.

(b) The Secretaries of the Military Departments shall:

(1) Identify covered schools that, by policy or practice, deny military recruiting personnel entry to the campus(es) of those schools, access to their students, or access to student recruiting information.

(i) When requests by military recruiters to schedule recruiting visits or to obtain student recruiting information are unsuccessful, the Military Service concerned shall seek written confirmation of the school’s present policy from the head of the school through a letter of inquiry. A letter similar to that shown in appendix A of this part shall be used, but it should be tailored to the situation presented. If written confirmation cannot be obtained, oral policy statements or attempts to obtain such statements from an appropriate official of the school shall be documented. A copy of the documentation shall be provided to the covered school, which shall be informed of its opportunity to forward clarifying comments to accompany the submission to the ASD(FMP), and shall be provided 30 days to offer such clarifying comments.

(ii) When a request for student recruiting information is not fulfilled within a reasonable period, normally 30 days, a letter similar to that shown in appendix A of this part shall be used to communicate the problem to the school, and the inquiry shall be managed as described in §216.5.(b)(1)(i).
§ 216.6 Information requirements.

The information requirements identified at §§216.5 (b) and (c)(1) have been assigned Report Control Symbol P&R-(AR)-2038 in accordance with DoD 8910.1–M.1

APPENDIX A TO PART 216—MILITARY RECRUITING SAMPLE LETTER OF INQUIRY

(Tailor letter to situation presented)

Dr. John Doe
President
ABC College
Anywhere, USA 12345

Dear Dr. Doe: I understand that military recruiting personnel (are unable to recruit on the campus of ABC College) (have been refused student recruiting information1 on ABC College students for the purpose of military recruiting) by a policy or practice of the College. Current law2 prohibits funds by grant or contract (including a grant of funds to be available for student aid) from appropriations of the Departments of Defense, Transportation (with respect to military recruiting), Labor, Health and Human Services, Education, and Related Agencies to schools that have a policy or practice of denying military recruiting personnel entry to campuses, access to students on campuses, or access to student recruiting information. Implementing regulations are codified at 32 Code of Federal Regulations, part 216.

This letter provides you an opportunity to clarify your institution’s policy regarding military recruiting on the campus of ABC College. In that regard, I request, within the next 30 days, a written policy statement of the institution with respect to access to campus and students, and to student recruiting information by military recruiting personnel.

Your response should highlight any difference between access for military recruiters and access for recruiting by other potential employers.

Based on this information, Department of Defense officials will make a determination as to your institution’s eligibility to receive funds by grant or contract. That decision may affect eligibility for funding from appropriations of the Departments of Defense, Transportation, Labor, Health and Human Services, Education, and Related Agencies.

1 Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

2 Student recruiting information refers to a student’s name, address, telephone listing, age (or year or birth), level of education (e.g., freshman, sophomore, or degree awarded for a recent graduate), and major.

§ 216.6 Information requirements.

Schools may stipulate that requests for student recruiting information shall be in writing.

(2) Identify covered schools that, by policy or practice, deny establishment, maintenance, or efficient operation of a unit of the Senior ROTC, or deny students permission to participate, or effectively prevent students from participating in a unit of the Senior ROTC at another institution of higher education. The Military Service concerned shall seek written confirmation of the school’s policy from the head of the school through a letter of inquiry. A letter similar to that shown in appendix B of this part shall be used, but it should be tailored to the situation presented. If written confirmation cannot be obtained, oral policy statements or attempts to obtain such statements from an appropriate official of the school shall be documented. A copy of the documentation shall be provided to the covered school, which shall be informed of its opportunity to forward clarifying comments to accompany the submission to the ASD(FMP), and shall be provided 30 days to offer such clarifying comments.

(3) Evaluate responses to the letter of inquiry, and other such evidence obtained in accordance with this part, and submit to the ASD(FMP) the names and addresses of covered schools that are believed to be in violation of policies established in §216.4. Full documentation shall be furnished to the ASD(FMP) for each such covered school, including the school’s formal response to the letter of inquiry, documentation of any oral response, or evidence showing that attempts were made to obtain either written confirmation or an oral statement of the school’s policies.

(c) The Heads of the DoD components shall:

(1) Provide the ASD(FMP) with the names and addresses of covered schools identified as a result of evaluation(s) required under §§216.4(f) and (g).

(2) Take immediate action to deny obligations of DoD Funds to covered schools identified under paragraph (a)(1)(i) of this section, and to restore eligibility of covered schools identified under paragraph (a)(2) of this section.
Office of the Secretary of Defense

Should it be determined that ABC College is in violation of the aforementioned statutes, such funding would be stopped, and the school would be ineligible to receive such funds in the future.

I regret that this action may have to be taken. Successful recruiting requires that Department of Defense recruiters have reasonable access to students on the campuses of colleges and universities, and at the same time have effective relationships with the officials and student bodies of those institutions. I hope it will be possible to define the correction to the aforementioned problem area(s). I am available to answer any questions.

Sincerely,

APPENDIX B TO PART 216—ROTC
SAMPLE LETTER OF INQUIRY
(Tailor Letter to Situation Presented)

Dr. Jane Smith
President
ABC College
Anywhere, USA 12345

Dear Dr. Smith: I understand that ABC College has (refused a request from a Military Department to establish a Senior ROTC unit at your institution) (refused to continue existing ROTC programs at your institution) (prevented students from participation at a Senior ROTC program at another institution) by a policy or practice of the College. Current law1 prohibits funds by grant or contract (including a grant of funds to be available for student aid) from appropriations of the Departments of Defense, Labor, Health and Human Services, Education, and Related Agencies to schools that have a policy or practice prohibiting or preventing the Secretary of Defense from maintaining, establishing, or efficiently operating a Senior ROTC unit. Those statutes also bar agency funds for schools that prohibit or prevent a student from enrolling in an ROTC unit at another institution of higher education. Implementing regulations are codified at 32 Code of Federal Regulations, part 216.

This letter provides you an opportunity to clarify your institution’s policy regarding ROTC access on the campus of ABC College. In that regard, I request, within the next 30 days, a written statement of the institution with respect to (define the problem area(s)). Based on this information, Department of Defense officials will make a determination as to your institution’s eligibility to receive funds by grant or contract. The decision may affect eligibility for funding from appropriations of the Departments of Defense, Labor, Health and Human Services, Education, and Related Agencies. Should it be determined that ABC College is in violation of the aforementioned statutes, such funding would be stopped, and the school would be ineligible to receive such funds in the future.

I regret that this action may have to be taken. Successful officer procurement requires that the Department of Defense maintain a strong ROTC program. I hope it will be possible to define the correction to the aforementioned problem area(s). I am available to answer any questions.

PART 218—GUIDANCE FOR THE DETERMINATION AND REPORTING OF NUCLEAR RADIATION DOSE FOR DoD PARTICIPANTS IN THE ATMOSPHERIC NUCLEAR TEST PROGRAM (1945–1962)

Sec. 218.1 Policies.

218.2 General procedures.

218.3 Dose reconstruction methodology.

218.4 Dose estimate reporting standards.

SOURCE: 50 FR 42521, Oct. 21, 1985, unless otherwise noted.

§ 218.1 Policies.

(a) Upon request by the Veterans Administration in connection with a claim for compensation, or by a veteran or his or her representative, available information shall be provided by the applicable Military Service which shall include all material aspects of the radiation environment to which the veteran was exposed and shall include inhaled, ingested and neutron doses. In determining the veteran’s dose, initial neutron, initial gamma, residual gamma, and internal (inhaled and ingested) alpha, beta, and gamma doses shall be considered. However, doses will be reported as gamma dose, neutron dose, and internal dose. The minimum standards for reporting dose estimates are set forth in § 218.4.

(b) The basic means by which to measure dose from exposure to ionizing radiation is the film badge. Of the estimated 220,000 Department of Defense participants in atmospheric nuclear weapons tests, about 145,000 have film badge dose data available. The information contained in the records has been reproduced in a standard format and is being provided to each military service, which can use the film badge

383
§ 218.1 32 CFR Ch. I (7–1–02 Edition)

dose data to obtain a radiation dose for a particular individual from that service. This is done upon request from the individual, the individual’s representative, the Veterans Administration, or others as authorized by the Privacy Act. Upon request, the participant or his or her authorized representative will be informed of the specific methodologies and assumptions employed in estimating his or her dose. The participant can use this information to obtain independent options regarding exposure.

(c) From 1945 through 1954, the DoD and Atomic Energy Commission (AEC) policy was to issue badges only to a portion of the personnel in a homogeneous unit such as a platoon of a battalion combat team, Naval ship or aircraft crew. Either one person was badged in a group performing the same function, or only personnel expected to be exposed to radiation were badged. After 1954, the policy was to badge all personnel. But, some badges were unreadable and some records were lost or destroyed, as in the fire at the Federal Records Center in St. Louis. For these reasons the Nuclear Test Personnel Review (NTPR) Program has focused on determining the radiation dose for those personnel (about 75,000) who were not issued film badges or for whom film badge records are not available.

(d) In order to determine the radiation dose to individuals for whom film badge data are not available, alternative approaches are used as circumstances warrant. All approaches require investigation of individual or group activities and their relationship to the radiological environment. First, if it is apparent that personnel were not present in the radiological environment and had no other potential for exposure, then their dose is zero. Second, if some members of a group had film badge readings and others did not—and if all members had a common relationship with the radiological environment—then doses for unbadged personnel can be calculated. Third, where sufficient badge readings or a common relationship to the radiological environment does not exist, dose reconstruction is performed. This involves correlating a unit’s or individual’s detailed activities with the quantitatively determined radiological environment. The three approaches are described as follows:

(1) Activities of an individual or his unit are researched for the period of participation in an atmospheric nuclear test. Unit locations and movements are related to areas of radiation. If personnel were far distant from the nuclear detonation(s), did not experience fallout or enter a fallout area, and did not come in contact with radioactive samples or contaminated objects, they were judged to have received no dose.

(2) Film badge data from badged personnel may be used to estimate individual doses for unbadged personnel. First, a group of participants must be identified that have certain common characteristics and a similar potential for exposure to radiation. Such characteristics are: Individuals must be doing the same kind of work, referred to as activity, and all members of the group must have a common relationship to the radiological environment in terms of time, location or other factors. Identification of these groups is based upon research of historical records, technical reports or correspondence. A military unit may consist of several groups or several units may comprise a single group. Using proven statistical methods, the badge data for each group is examined to determine if it adequately reflects the entire group, is valid for use in statistical calculations, or if the badge data indicate the group should be sub-divided into smaller groups. For a group that meets the tests described above, the mean dose, variance and confidence limits are determined. An estimated dose equal to 95% probability that the actual exposure did not exceed the estimate is assigned to unbadged personnel. This procedure is statistically sound and will insure that unbadged personnel are assigned doses much higher than the average/mean for the group.

(3) Dose reconstruction is performed if film badge data are unavailable for all or part of the period or radiation
exposure, if film badge data are partially available but cannot be used statistically for calculations, special activities are indicated for specific individuals, or if other types of radiation exposures are indicated. In dose reconstruction, the conditions of exposure are reconstructed analytically to arrive at a radiation dose. Such reconstruction is not a new concept; it is standard scientific practice used by health physicists when the circumstances of a radiation exposure require investigation. The underlying method is in each case the same. The radiation environment is characterized in time and space, as are the activities and geometrical position of the individual. Thus, the rate at which radiation is accrued is determined throughout the time of exposure, from which the total dose is integrated. An uncertainty analysis of the reconstruction provides a calculated mean dose with confidence limits. The specific method used in a dose reconstruction depends on what type of data are available to provide the required characterizations as well as the nature of the radiation environment. The radiation environment is not limited to the gamma radiation that would have been measured by a film badge, but also includes neutron radiation for personnel sufficiently close to a nuclear detonation, as well as beta and alpha radiation (internally) for personnel whose activities indicate the possibility of inhalation or ingestion of radioactive particles.

§ 218.3 Dose reconstruction methodology.

(a) Concept. The specific methodology consists of the characterization of the radiation environments to which participants through all relevant activities, were exposed. The environments, both initial and residual radiation are corrected with the activities of participants to determine accrued doses due to initial radiation, residual radiation and/or inhaled/ingested radioactive material, as warranted by the radiation environment and the specific personnel activities. Due to the range of activities, times, geometries, shielding, and weapon characteristics, as well as the normal spread in the available data pertaining to the radiation environment, an uncertainty analysis is performed. This analysis quantifies the uncertainties due to time/space variations, group size, and available data.
Due to the large amounts of data, an automated (computer-assisted) procedure is often used to facilitate the data-handling and the dose integration, and to investigate the sensitivity to variations in the parameters used. The results of the gamma data calculations are then compared with film badge data as they apply to the specific period of the film badges and to the comparable activities of the exposed personnel, in order to validate the procedure and to identify personnel activities that could have led to atypical doses. Radiation dose from neutrons and dose commitments due to inhaled or ingested radioactive material are not detected by film badges. Where required, these values are calculated and recorded separately.

(b) **Characterization of the radiological environment.** (1) This step describes and defines the radiological conditions as a function of time for all locations of concern, that is, where personnel were positioned or where personnel activities took place. The radiation environment is divided into two standard categories—initial radiation and residual radiation.

(2) The initial radiation environment results from several types of gamma and neutron emissions. Prompt neutron and gamma radiation are emitted at the time of detonation, while delayed neutrons and fission-product gamma, from the decay of radioactive products in the fireball, continue to be emitted as the fireball rises. In contrast to these essentially point sources of radiation, there is gamma radiation from neutron interactions with air and soil, generated within a fraction of a second. Because of the complexity of these radiation sources and their varied interaction properties with air and soil, it is necessary to obtain solutions of the Boltzmann radiation transport equation. The radiation environment thus derived includes the effects of shot-specific parameters such as weapon type and yield, neutron and gamma output, source and target geometry, and atmospheric conditions. The calculated neutron and gamma radiation environments are checked for consistency with existing measured data as available. In those few cases displaying significant discrepancies that cannot be resolved, an environment based on extrapolation of the data is used if it leads to a larger calculated dose.

(3) In determining the residual radiation environment, all possible sources are considered including radioactive clouds, radiation that may have been encountered from other tests, and radioactive debris that may have been deposited in water during oceanic tests. The residual radiation environment is divided into two general components—neutron-activated material that subsequently emits, over a period of time, beta and gamma radiation; and radioactive debris from the fission reaction or from unprocessed materials that emit alpha, beta, and gamma radiation. Because residual radiation decays, the characterization of the residual environment is defined by the radiation intensity as a function of type and time. Radiological survey data are used to determine specific intensities at times of personnel exposure. Interpolation and extrapolation are based on known decay characteristics of the individual materials that comprise the residual contamination. In those rare cases where insufficient radiation data exist to adequately define the residual environment, source data are obtained from the appropriate weapon design laboratory and applied in standard radiation transport codes to determine the initial radiation at specific distances from the burst. This radiation, together with material composition and characteristics, leads to description of the neutron-activated field for each location and time of interest. In all cases observed data, as obtained at the time of the operation, are used to calibrate the calculations.

(c) **Activities of participants.** This step uses all official records, augmented by personnel interviews where gaps exist, to depict a scenario of activities for each individual or definable group. When a dose reconstruction is performed for a specific individual, information available from the individual is accepted unless demonstrably inaccurate. For military units, whose operations were closely controlled and further constrained by radiological safety monitors, the scenario is usually well defined. The same is true for observers,
Office of the Secretary of Defense § 218.3

who were restricted to specific locations both during and after the nuclear burst. Ships’ locations and activities are usually known with a high degree of precision from deck logs. Aircraft tracks and altitudes are also usually well defined. Personnel engaged in scientific experiments often kept logs of their activities; moreover, the locations of their experiments are usually a matter of record. Where the records are insufficiently complete for the degree of precision required to determine radiation exposure, participants’ comments are used and reasonable judgements are made to further the analysis. Possible variations in the activities, as well as possible individual deviations from group activities, with respect to both time and location, are considered in the uncertainty analysis of the radiation dose calculations.

(d) Calculation of dose. (1) The initial radiation doses to close-in personnel (who were normally positioned in trenches at the time of detonation) are calculated from the above-ground environment by simulating the radiation transport into the trenches. Various calculational approaches, standard in health physics, are employed to relate in-trench to above-trench doses for each source of radiation. Detailed modeling of the human body, in appropriate postures in the trench, is performed to calculate the gamma dose that would have been recorded on a film badge and the maximum neutron dose. The neutron, neutron-generated gamma, and prompt gamma doses are accrued during such a short time interval that the posture in a trench could not be altered significantly during this exposure. The fission-product gamma dose, however, is delivered over a period of many seconds. Therefore, the possibility of individual reorientation (e.g., standing up) in the trench is considered.

(2) The calculation of the dose from residual radiation follows from the characterized radiation environment and personnel activities. Because radiation intensities are calculated for a field (i.e., in two spatial dimensions) and in time, the radiation intensity is determinable for each increment of personnel activity regardless of direction or at what time. The dose from exposure to a radiation field is obtained by summing the contribution (product of intensity and time) to dose at each step. The dose calculated from the radiation field does not reflect the shielding of the film badge afforded by the human body. This shielding has been determined for pertinent body positions by the solution of radiation transport equations as applied to a radiation field. Conversion factors are used to arrive at a calculated film badge dose, which not only facilitates comparison with film badge data, but serves as a substitute for an unavai-

(e) Uncertainty analysis. Because of the uncertainties associated with the radiological data or calculations used in the absence of data, as well as the uncertainties with respect to personnel activities, confidence limits are determined where possible for group dose calculations. The uncertainty analysis quantifies the errors in available data or in the model used in the absence of data. Confidence limits are based on the uncertainty of all relevant input parameters, and thus vary with the quality of the input data. They also consider the possible range of doses due to the size of the exposure group being
§218.4 Dose estimate reporting standards.

The following minimum standards for reporting dose estimates shall be uniformly applied by the Military Services when preparing information in response to an inquiry by the Veterans Administration, in connection with a claim for compensation, or by a veteran or his or her representative. The information shall include all material aspects of the radiation environment to which the veteran was exposed and shall include inhaled, ingested, and neutron doses, when applicable. In determining the veteran’s dose, initial neutron, initial gamma, residual gamma, and internal (inhaled and ingested) alpha, beta, and gamma shall be considered. However, doses will be reported as gamma dose, neutron dose, and internal dose. To the extent to which the information is available, the responses will address the following questions:

(a) Can it be documented that the veteran was a test participant? If so, what tests did he attend and what were the specifics of these tests (date, time, yield (unless classified) type, location and other relevant details)?

(b) What unit was the man in? What were the mission and activities of the units at the test?

(c) To the extent to which the available records indicate, what were his duties at the test?

(d) Can you corroborate the specific information relevant to the potential exposure provided by the claimant to the Veterans Administration and forwarded to the Department of Defense? What is the impact of these specific activities on the claimant’s reconstructed dose?

(e) Is there any recorded radiation exposure for the individual? Does this recorded exposure cover the full period of test participation? What are the uncertainties associated with the recorded film badge dose?

(f) If recorded dosimetry data is unavailable or incomplete, what is the dose reconstruction for the most probable dose, with error limits, if available?

(g) Is there evidence of a neutron or internal exposure? What is the reconstruction?

Upon request, the participant or his or her authorized representative will be informed of the specific methodologies and assumptions employed in estimating his or her dose.

PART 219—PROTECTION OF HUMAN SUBJECTS

Sec. 219.101 To what does this policy apply?
219.102 Definitions.
219.103 Assuring compliance with this policy—research conducted or supported by any Federal Department or Agency.
219.104–219.106 [Reserved]
219.107 IRB membership.
219.108 IRB functions and operations.
219.109 IRB review of research.
Office of the Secretary of Defense

§ 219.101 To what does this policy apply?

(a) Except as provided in paragraph (b) of this section, this policy applies to all research involving human subjects conducted, supported or otherwise subject to regulation by any federal department or agency which takes appropriate administrative action to make the policy applicable to such research. This includes research conducted by federal civilian employees or military personnel, except that each department or agency head may adopt such procedural modifications as may be appropriate from an administrative standpoint. It also includes research conducted, supported, or otherwise subject to regulation by the federal government outside the United States.

1. Research that is conducted or supported by a federal department or agency, whether or not it is regulated as defined in § 219.102(e), must comply with all sections of this policy.

2. Research that is neither conducted nor supported by a federal department or agency but is subject to regulation as defined in § 219.102(e) must be reviewed and approved, in compliance with § 219.101, § 219.102, and § 219.107 through § 219.117 of this policy, by an institutional review board (IRB) that operates in accordance with the pertinent requirements of this policy.

(b) Unless otherwise required by department or agency heads, research activities in which the only involvement of human subjects will be in one or more of the following categories are exempt from this policy:

1. Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (i) research on regular and special education instructional strategies, or (ii) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

2. Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless:

(i) Information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and

(ii) Any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation.

3. Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures, or observation of public behavior that is not exempt under paragraph (b)(2) of this section, if:

(i) The human subjects are elected or appointed public officials or candidates for public office; or

(ii) Federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

4. Research, involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in such...
§219.101

(a) Institutions with HHS-approved assurances on file will abide by provisions of title 45 CFR part 46 subparts A–D. Some of the other Departments and Agencies have incorporated all provisions of title 45 CFR part 46 into their policies and procedures as well. However, the exemptions at 45 CFR 46.101(b) do not apply to research involving prisoners, fetuses, pregnant women, or human in vitro a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine:

(i) Public benefit or service programs;

(ii) Procedures for obtaining benefits or services under those programs;

(iii) Possible changes in or alternatives to those programs or procedures; or

(iv) Possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies.

(i) If wholesome foods without additives are consumed or

(ii) If a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

(c) Department or agency heads retain final judgment as to whether a particular activity is covered by this policy.

(d) Department or agency heads may require that specific research activities or classes of research activities conducted, supported, or otherwise subject to regulation by the department or agency but not otherwise covered by this policy, comply with some or all of the requirements of this policy.

(e) Compliance with this policy requires compliance with pertinent federal laws or regulations which provide additional protections for human subjects.

(f) This policy does not affect any state or local laws or regulations which may otherwise be applicable and which provide additional protections for human subjects.

(g) This policy does not affect any foreign laws or regulations which may otherwise be applicable and which provide additional protections to human subjects of research.

(h) When research covered by this policy takes place in foreign countries, procedures normally followed in the foreign countries to protect human subjects may differ from those set forth in this policy. (An example is a foreign institution which complies with guidelines consistent with the World Medical Assembly Declaration (Declaration of Helsinki amended 1989) issued either by sovereign states or by an organization whose function for the protection of human research subjects is internationally recognized.) In these circumstances, if a department or agency head determines that the procedures prescribed by the institution afford protections that are at least equivalent to those provided in this policy, the department or agency head may approve the substitution of the foreign procedures in lieu of the procedural requirements provided in this policy. Except when otherwise required by statute, Executive Order, or the department or agency head, notices of these actions as they occur will be published in the Federal Register or will be otherwise published as provided in department or agency procedures.

(i) Unless otherwise required by law, department or agency heads may waive the applicability of some or all of the provisions of this policy to specific research activities or classes of research activities otherwise covered by this policy. Except when otherwise required by statute or Executive Order, the department or agency head shall forward advance notices of these actions to the Office for Protection from Research Risks, Department of Health and Human Services (HHS), and shall also publish them in the Federal Register or in such other manner as provided in department or agency procedures.1

[56 FR 28012, 28021, June 18, 1991, as amended at 56 FR 29756, June 28, 1991]

1Institutions with HHS-approved assurances on file will abide by provisions of title 45 CFR part 46 subparts A–D. Some of the other Departments and Agencies have incorporated all provisions of title 45 CFR part 46 into their policies and procedures as well. However, the exemptions at 45 CFR 46.101(b) do not apply to research involving prisoners, fetuses, pregnant women, or human in vitro...
§ 219.102 Definitions.

(a) Department or agency head means the head of any federal department or agency and any other officer or employee of any department or agency to whom authority has been delegated.

(b) Institution means any public or private entity or agency (including federal, state, and other agencies).

(c) Legally authorized representative means an individual or judicial or other body authorized under applicable law to consent on behalf of a prospective subject to the subject’s participation in the procedure(s) involved in the research.

(d) Research means a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge. Activities which meet this definition constitute research for purposes of this policy, whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

(e) Research subject to regulation, and similar terms are intended to encompass those research activities for which a federal department or agency has specific responsibility for regulating as a research activity, (for example, Investigational New Drug requirements administered by the Food and Drug Administration). It does not include research activities which are incidentally regulated by a federal department or agency solely as part of the department’s or agency’s broader responsibility to regulate certain types of activities whether research or non-research in nature (for example, Wage and Hour requirements administered by the Department of Labor).

(f) Human subject means a living individual about whom an investigator (whether professional or student) conducting research obtains

(1) Data through intervention or interaction with the individual, or

(2) Identifiable private information. Intervention includes both physical procedures by which data are gathered (for example, venipuncture) and manipulations of the subject or the subject’s environment that are performed for research purposes. Interaction includes communication or interpersonal contact between investigator and subject. “Private information” includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a medical record). Private information must be individually identifiable (i.e., the identity of the subject is or may readily be ascertained by the investigator or associated with the information) in order for obtaining the information to constitute research involving human subjects.

(g) IRB means an institutional review board established in accord with and for the purposes expressed in this policy.

(h) IRB approval means the determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and federal requirements.

(i) Minimal risk means that the probability and magnitude of harm or discomfort anticipated in the research are not greater in and of themselves than those ordinarily encountered in daily life or during the performance of routine physical or psychological examinations or tests.

(j) Certification means the official notification by the institution to the supporting department or agency, in accordance with the requirements of this policy, that a research project or activity involving human subjects has been reviewed and approved by an IRB in accordance with an approved assurance.
§ 219.103 Assuring compliance with this policy—research conducted or supported by any Federal Department or Agency.

(a) Each institution engaged in research which is covered by this policy and which is conducted or supported by a federal department or agency shall provide written assurance satisfactory to the department or agency head that it will comply with the requirements set forth in this policy. In lieu of requiring submission of an assurance, individual department or agency heads shall accept the existence of a current assurance, appropriate for the research in question, on file with the Office for Protection from Research Risks, HHS, and approved for federalwide use by that office. When the existence of an HHS-approved assurance is accepted in lieu of requiring submission of an assurance, reports (except certification) required by this policy to be made to department and agency heads shall also be made to the Office for Protection from Research Risks, HHS.

(b) Departments and agencies will conduct or support research covered by this policy only if the institution has an assurance approved as provided in this section, and only if the institution has certified to the department or agency head that the research has been reviewed and approved by an IRB provided for in the assurance, and will be subject to continuing review by the IRB. Assurances applicable to federally supported or conducted research shall at a minimum include:

(1) A statement of principles governing the institution in the discharge of its responsibilities for protecting the rights and welfare of human subjects of research conducted at or sponsored by the institution, regardless of whether the research is subject to federal regulation. This may include an appropriate existing code, declaration, or statement of ethical principles, or a statement formulated by the institution itself. This requirement does not preempt provisions of this policy applicable to department- or agency-supported or regulated research and need not be applicable to any research exempted or waived under §219.101 (b) or (i).

(2) Designation of one or more IRBs established in accordance with the requirements of this policy, and for which provisions are made for meeting space and sufficient staff to support the IRB’s review and recordkeeping duties.

(3) A list of IRB members identified by name; earned degrees; representative capacity; indications of experience such as board certifications, licenses, etc., sufficient to describe each member’s chief anticipated contributions to IRB deliberations; and any employment or other relationship between each member and the institution; for example: full-time employee, part-time employee, member of governing panel or board, stockholder, paid or unpaid consultant. Changes in IRB membership shall be reported to the department or agency head, unless in accord with §219.103(a) of this policy, the existence of an HHS-approved assurance is accepted. In this case, change in IRB membership shall be reported to the Office for Protection from Research Risks, HHS.

(4) Written procedures which the IRB will follow (i) for conducting its initial and continuing review of research and for reporting its findings and actions to the investigator and the institution; (ii) for determining which projects require review more often than annually and which projects need verification from sources other than the investigators that no material changes have occurred since previous IRB review; and (iii) for ensuring prompt reporting to the IRB of proposed changes in a research activity, and for ensuring that such changes in approved research, during the period for which IRB approval has already been given, may not be initiated without IRB review and approval except when necessary to eliminate apparent immediate hazards to the subject.

(5) Written procedures for ensuring prompt reporting to the IRB, appropriate institutional officials, and the department or agency head of (i) any unanticipated problems involving risks to subjects or others or any serious or continuing noncompliance with this
§ 219.107 IRB membership.

(a) Each IRB shall have at least five members, with varying backgrounds to promote complete and adequate review of research activities commonly conducted by the institution. The IRB shall be sufficiently qualified through the experience and expertise of its members, and the diversity of the members, including consideration of race, gender, and cultural backgrounds and sensitivity to such issues as community attitudes, to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review specific research activities, the IRB shall be able to ascertain the acceptability of proposed research in terms of institutional commitments and regulations, applicable law, and standards of professional conduct and practice. The IRB shall therefore include persons knowledgeable in these areas. If an IRB regularly reviews research that involves a vulnerable category of subjects, such as children, prisoners, pregnant women, or handicapped or mentally disabled persons, consideration shall be given to the inclusion of one or more individuals who are knowledgeable about and experienced in working with these subjects.

(b) Every nondiscriminatory effort will be made to ensure that no IRB consists entirely of men or entirely of women, including the institution’s consideration of qualified persons of both sexes, so long as no selection is made to the IRB on the basis of gender. No IRB may consist entirely of members of one profession.
§ 219.108 IRB functions and operations.

In order to fulfill the requirements of this policy each IRB shall:

(a) Follow written procedures in the same detail as described in §219.103(b)(4) and, to the extent required by, §219.103(b)(5).

(b) Except when an expedited review procedure is used (see §219.110), review proposed research at convened meetings at which a majority of the members of the IRB are present, including at least one member whose primary concerns are in nonscientific areas. In order for the research to be approved, it shall receive the approval of a majority of those members present at the meeting.

§ 219.109 IRB review of research.

(a) An IRB shall review and have authority to approve, require modifications in (to secure approval), or disapprove all research activities covered by this policy.

(b) An IRB shall require that information given to subjects as part of informed consent is in accordance with §219.116. The IRB may require that information, in addition to that specifically mentioned in §219.116, be given to the subjects when in the IRB’s judgment the information would meaningfully add to the protection of the rights and welfare of subjects.

(c) An IRB shall require documentation of informed consent or may waive documentation in accordance with §219.117.

(d) An IRB shall notify investigators and the institution in writing of its decision to approve or disapprove the proposed research activity, or of modifications required to secure IRB approval of the research activity. If the IRB decides to disapprove a research activity, it shall include in its written notification a statement of the reasons for its decision and give the investigator an opportunity to respond in person or in writing.

(e) An IRB shall conduct continuing review of research covered by this policy at intervals appropriate to the degree of risk, but not less than once per year, and shall have authority to observe or have a third party observe the consent process and the research.

(Approved by the Office of Management and Budget under control number 9999–0020)

§ 219.110 Expedited review procedures for certain kinds of research involving no more than minimal risk, and for minor changes in approved research.

(a) The Secretary, HHS, has established, and published as a Notice in the FEDERAL REGISTER, a list of categories of research that may be reviewed by the IRB through an expedited review procedure. The list will be amended, as appropriate after consultation with other departments and agencies, through periodic republication by the Secretary, HHS, in the FEDERAL REGISTER. A copy of the list is available from the Office for Protection from Research Risks, National Institutes of Health, HHS, Bethesda, Maryland 20892.

(b) An IRB may use the expedited review procedure to review either or both of the following:

1. Some or all of the research appearing on the list and found by the reviewer(s) to involve no more than minimal risk,

2. Minor changes in previously approved research during the period (of one year or less) for which approval is authorized.
§219.113 Suspension or termination of IRB approval of research.

An IRB shall have authority to suspend or terminate approval of research that is not being conducted in accordance with the IRB’s requirements or that has been associated with unexpected serious harm to subjects. Any suspension or termination of approval shall include a statement of the reasons for the IRB’s action and shall be reported promptly to the investigator.
§ 219.114 Cooperative research.

Cooperative research projects are those projects covered by this policy which involve more than one institution. In the conduct of cooperative research projects, each institution is responsible for safeguarding the rights and welfare of human subjects and for complying with this policy. With the approval of the department or agency head, an institution participating in a cooperative project may enter into a joint review arrangement, rely upon the review of another qualified IRB, or make similar arrangements for avoiding duplication of effort.

§ 219.115 IRB records.

(a) An institution, or when appropriate an IRB, shall prepare and maintain adequate documentation of IRB activities, including the following:

(1) Copies of all research proposals reviewed, scientific evaluations, if any, that accompany the proposals, approved sample consent documents, progress reports submitted by investigators, and reports of injuries to subjects.

(2) Minutes of IRB meetings which shall be in sufficient detail to show attendance at the meetings; actions taken by the IRB; the vote on these actions including the number of members voting for, against, and abstaining; the basis for requiring changes in or disapproving research; and a written summary of the discussion of controverted issues and their resolution.

(3) Records of continuing review activities.

(4) Copies of all correspondence between the IRB and the investigators.

(5) A list of IRB members in the same detail as described in §219.103(b)(3).

(6) Written procedures for the IRB in the same detail as described in §219.103(b)(4) and §219.103(b)(5).

(7) Statements of significant new findings provided to subjects, as required by §219.116(b)(5).

(b) The records required by this policy shall be retained for at least 3 years, and records relating to research which is conducted shall be retained for at least 3 years after completion of the research. All records shall be accessible for inspection and copying by authorized representatives of the department or agency at reasonable times and in a reasonable manner.

§ 219.116 General requirements for informed consent.

Except as provided elsewhere in this policy, no investigator may involve a human being as a subject in research covered by this policy unless the investigator has obtained the legally effective informed consent of the subject or the subject’s legally authorized representative. An investigator shall seek such consent only under circumstances that provide the prospective subject or the representative sufficient opportunity to consider whether or not to participate and that minimize the possibility of coercion or undue influence. The information that is given to the subject or the representative shall be in language understandable to the subject or the representative. No informed consent, whether oral or written, may include any exculpatory language through which the subject or the representative is made to waive or appear to waive any of the subject’s legal rights, or releases or appears to release the investigator, the sponsor, the institution or its agents from liability for negligence.

(a) Basic elements of informed consent. Except as provided in paragraph (c) or (d) of this section, in seeking informed consent the following information shall be provided to each subject:

(1) A statement that the study involves research, an explanation of the purposes of the research and the expected duration of the subject’s participation, a description of the procedures to be followed, and identification of any procedures which are experimental;

(2) A description of any reasonably foreseeable risks or discomforts to the subject;

(3) A description of any benefits to the subject or to others which may reasonably be expected from the research;
§ 219.116 Informed consent

(4) A disclosure of appropriate alternative procedures or courses of treatment, if any, that might be advantageous to the subject;

(5) A statement describing the extent, if any, to which confidentiality of records identifying the subject will be maintained;

(6) For research involving more than minimal risk, an explanation as to whether any compensation and an explanation as to whether any medical treatments are available if injury occurs and, if so, what they consist of, or where further information may be obtained;

(7) An explanation of whom to contact for answers to pertinent questions about the research and research subjects’ rights, and whom to contact in the event of a research-related injury to the subject; and

(8) A statement that participation is voluntary, refusal to participate will involve no penalty or loss of benefits to which the subject is otherwise entitled, and the subject may discontinue participation at any time without penalty or loss of benefits to which the subject is otherwise entitled.

(b) Additional elements of informed consent. When appropriate, one or more of the following elements of information shall also be provided to each subject:

(1) A statement that the particular treatment or procedure may involve risks to the subject (or to the embryo or fetus, if the subject is or may become pregnant) which are currently unforeseeable;

(2) Anticipated circumstances under which the subject’s participation may be terminated by the investigator without regard to the subject’s consent;

(3) Any additional costs to the subject that may result from participation in the research;

(4) The consequences of a subject’s decision to withdraw from the research and procedures for orderly termination of participation by the subject;

(5) A statement that significant new findings developed during the course of the research which may relate to the subject’s willingness to continue participation will be provided to the subject; and

(6) The approximate number of subjects involved in the study.

(c) An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth above, or waive the requirement to obtain informed consent provided the IRB finds and documents that:

(1) The research or demonstration project is to be conducted by or subject to the approval of state or local government officials and is designed to study, evaluate, or otherwise examine:

(i) Public benefit of service programs;

(ii) Procedures for obtaining benefits or services under those programs;

(iii) Possible changes in or alternatives to those programs or procedures; or

(iv) Possible changes in methods or levels of payment for benefits or services under those programs; and

(2) The research could not practically be carried out without the waiver or alteration.

(d) An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth in this section, or waive the requirements to obtain informed consent provided the IRB finds and documents that:

(1) The research involves no more than minimal risk to the subjects;

(2) The waiver or alteration will not adversely affect the rights and welfare of the subjects;

(3) The research could not practically be carried out without the waiver or alteration; and

(4) Whenever appropriate, the subjects will be provided with additional pertinent information after participation.

(e) The informed consent requirements in this policy are not intended to preempt any applicable federal, state, or local laws which require additional information to be disclosed in order for informed consent to be legally effective.

(f) Nothing in this policy is intended to limit the authority of a physician to provide emergency medical care, to the extent the physician is permitted to do
§ 219.117 Documentation of informed consent.

(a) Except as provided in paragraph (c) of this section, informed consent shall be documented by the use of a written consent form approved by the IRB and signed by the subject or the subject’s legally authorized representative. A copy shall be given to the person signing the form.

(b) Except as provided in paragraph (c) of this section, the consent form may be either of the following:

(1) A written consent document that embodies the elements of informed consent required by §219.116. This form may be read to the subject or the subject’s legally authorized representative, but in any event, the investigator shall give either the subject or the representative adequate opportunity to read it before it is signed; or

(2) A short form written consent document stating that the elements of informed consent required by §219.116 have been presented orally to the subject or the subject’s legally authorized representative. When this method is used, there shall be a witness to the oral presentation. Also, the IRB shall approve a written summary of what is to be said to the subject or the representative. Only the short form itself is to be signed by the subject or the representative. However, the witness shall sign both the short form and a copy of the summary, and the person actually obtaining consent shall sign a copy of the summary. A copy of the summary shall be given to the subject or the representative, in addition to a copy of the short form.

(c) An IRB may waive the requirement for the investigator to obtain a signed consent form for some or all subjects if it finds either:

(1) That the only record linking the subject and the research would be the consent document and the principal risk would be potential harm resulting from a breach of confidentiality. Each subject will be asked whether the subject wants documentation linking the subject with the research, and the subject’s wishes will govern; or

(2) That the research presents no more than minimal risk of harm to subjects and involves no procedures for which written consent is normally required outside of the research context. In cases in which the documentation requirement is waived, the IRB may require the investigator to provide subjects with a written statement regarding the research.

§ 219.118 Applications and proposals lacking definite plans for involvement of human subjects.

Certain types of applications for grants, cooperative agreements, or contracts are submitted to departments or agencies with the knowledge that subjects may be involved within the period of support, but definite plans would not normally be set forth in the application or proposal. These include activities such as institutional type grants when selection of specific projects is the institution’s responsibility; research training grants in which the activities involving subjects remain to be selected; and projects in which human subjects’ involvement will depend upon completion of instruments, prior animal studies, or purification of compounds. These applications need not be reviewed by an IRB before an award may be made. However, except for research exempted or waived under §219.101 (b) or (i), no human subjects may be involved in any project supported by these awards until the project has been reviewed and approved by the IRB, as provided in this policy, and certification submitted, by the institution, to the department or agency.

§ 219.119 Research undertaken without the intention of involving human subjects.

In the event research is undertaken without the intention of involving human subjects, but it is later proposed to involve human subjects in the research, the research shall first be reviewed and approved by an IRB, as provided in this policy, a certification submitted, by the institution, to the department or agency, and final approval
given to the proposed change by the department or agency.

§ 219.120 Evaluation and disposition of applications and proposals for research to be conducted or supported by a Federal Department or Agency.

(a) The department or agency head will evaluate all applications and proposals involving human subjects submitted to the department or agency through such officers and employees of the department or agency and such experts and consultants as the department or agency head determines to be appropriate. This evaluation will take into consideration the risks to the subjects, the adequacy of protection against these risks, the potential benefits of the research to the subjects and others, and the importance of the knowledge gained or to be gained.

(b) On the basis of this evaluation, the department or agency head may approve or disapprove the application or proposal, or enter into negotiations to develop an approvable one.

§ 219.121 [Reserved]

§ 219.122 Use of Federal funds.

Federal funds administered by a department or agency may not be expended for research involving human subjects unless the requirements of this policy have been satisfied.

§ 219.123 Early termination of research support: Evaluation of applications and proposals.

(a) The department or agency head may require that department or agency support for any project be terminated or suspended in the manner prescribed in applicable program requirements, when the department or agency head finds an institution has materially failed to comply with the terms of this policy.

(b) In making decisions about supporting or approving applications or proposals covered by this policy the department or agency head may take into account, in addition to all other eligibility requirements and program criteria, factors such as whether the applicant has been subject to a termination or suspension under paragraph (a) of this section and whether the applicant or the person or persons who would direct or have directed the scientific and technical aspects of an activity have, in the judgment of the department or agency head, materially failed to discharge responsibility for the protection of the rights and welfare of human subjects (whether or not the research was subject to federal regulation).

§ 219.124 Conditions.

With respect to any research project or any class of research projects the department or agency head may impose additional conditions prior to or at the time of approval when in the judgment of the department or agency head additional conditions are necessary for the protection of human subjects.

PART 220—COLLECTION FROM THIRD PARTY PAYERS OF REASONABLE COSTS OF HEALTHCARE SERVICES

Sec.
220.1 Purpose and applicability.
220.2 Statutory obligation of third party payer to pay.
220.3 Exclusions impermissible.
220.4 Reasonable terms and conditions of health plan permissible.
220.5 Records available.
220.6 Certain payers excluded.
220.7 Remedies and procedures.
220.8 Reasonable costs.
220.9 Rights and obligations of beneficiaries.
220.10 Special rules for Medicare supplemental plans.
220.11 Special rules for automobile liability insurance and no-fault automobile insurance.
220.12 Special rules for preferred provider organizations.
220.13 Special rules for workers’ compensation programs.
220.14 Definitions.

SOURCE: 55 FR 21748, May 29, 1990, unless otherwise noted.

§ 220.1 Purpose and applicability.

This part implements the provisions of 10 U.S.C. 1095. In general, 10 U.S.C. 1095 establishes the statutory obligation of third party payers to reimburse the United States the reasonable costs
§ 220.2 Statutory obligation of third party payer to pay.

(a) Basic rule. Pursuant to 10 U.S.C. 1095(a)(1), a third party payer has an obligation to pay the United States the reasonable costs of health care services provided in or through any facility of the Uniformed Services to a Uniformed Services beneficiary who is also a beneficiary under the third party payer's plan. The obligation to pay is to the extent that the beneficiary would be eligible to receive reimbursement of indemnification from the third party payer if the beneficiary were to incur the costs on the beneficiary's own behalf.

(b) Application of cost shares. If the third party payer's plan includes a requirement for a deductible or copayment by the beneficiary of the plan, then the amount the United States may collect from the third party payer is the reasonable cost of the care provided less the appropriate deductible or copayment amount.

(c) Claim from United States exclusive. The only way for a third party payer to satisfy its obligation under 10 U.S.C. 1095 is to pay the facility of the uniformed service or other authorized representative of the United States. Payment by a third party payer to the beneficiary does not satisfy 10 U.S.C. 1095.

(d) Assignment of benefits or other submission by beneficiary not necessary. The obligation of the third party payer to pay is not dependent upon the beneficiary executing an assignment of benefits to the United States. Nor is the obligation to pay dependent upon any other submission by the beneficiary to the third party payer, including any claim or appeal. In any case in which a facility of the Uniformed Services makes a claim, appeal, representation, or other filing must be deemed to be satisfied. A copy of the completed and signed DoD insurance declaration form will be provided to payers upon request, in lieu of a claimant's statement or coordination of benefits form.

(e) Preemption of conflicting State laws. Any provision of a law or regulation of a State or political subdivision thereof that purports to establish any requirement on a third party payer that would have the effect of excluding from coverage or limiting payment, for any health care services for which payment by the third party payer under 10 U.S.C. 1095 or this part is required, is preempted by 10 U.S.C. 1095 and shall have no force or effect in connection with the third party payer's obligations under 10 U.S.C. 1095 or this part.

§ 220.3 Exclusions impermissible.

(a) Statutory requirement. Under 10 U.S.C. 1095(b), no provision of any third party payer's plan having the effect of excluding from coverage or limiting payment for certain care if that care is provided in a facility of the uniformed services shall operate to prevent collection by the United States.

(b) General rules. Based on the statutory requirement, the following are general rules for the administration of 10 U.S.C. 1095 and this part.

(1) Express exclusions or limitations in third party payer plans that are inconsistent with 10 U.S.C. 1095(b) are inoperative.

(2) No objection, precondition or limitation may be asserted that defeats the statutory purpose of collecting from third party payers.

(3) Third party payers may not treat claims arising from services provided in facilities of the uniformed services less favorably than they treat claims arising from services provided in other hospitals.

(4) No objection, precondition or limitation may be asserted that is contrary to the basic nature of facilities of the uniformed services.
§ 220.4 Reasonable terms and conditions of health plan permissible.

(a) Statutory requirement. The statutory obligation of the third party to pay is not unqualified. Under 10 U.S.C. 1065(a)(1) (as noted in §220.2 of this part), the obligation to pay is to the extent the third party payer would be obliged to pay if the beneficiary incurred the costs personally.

(b) General rules. (1) Based on the statutory requirement, after any impermissible exclusions have been made inoperative (see §220.3 of this part), reasonable terms and conditions of the third party payer’s plan that apply generally and uniformly to services provided in facilities other than facilities of the uniformed services may also be applied to services provided in facilities of the uniformed services.

(2) Except as provided by 10 U.S.C. 1065, this part, or other applicable law, third party payers are not required to treat claims arising from services provided in or through facilities of the Uniformed Services more favorably than they treat claims arising from services provided in other facilities or by other health care providers.

(c) Specific examples of permissible terms and conditions. The following are several specific examples of permissible terms and conditions of third party payer plans. These examples are not all inclusive.

(1) Generally applicable coverage provisions. Generally applicable provisions regarding particular types of medical care or medical conditions covered by the third party payer’s plan are permissible grounds to refuse or limit third party payment.

(2) Generally applicable utilization review provisions. (i) Reasonable and generally applicable provisions of a third party payer’s plan requiring pre-admission screening, second surgical opinions, retrospective review or other similar utilization management activities may be permissible grounds to refuse or reduce third party payment if

(ii) Is otherwise in accordance with applicable law.

§ 220.4 Reasonable terms and conditions of health plan permissible.

(a) Statutory requirement. The statutory obligation of the third party to pay is not unqualified. Under 10 U.S.C. 1065(a)(1) (as noted in §220.2 of this part), the obligation to pay is to the extent the third party payer would be obliged to pay if the beneficiary incurred the costs personally.

(b) General rules. (1) Based on the statutory requirement, after any impermissible exclusions have been made inoperative (see §220.3 of this part), reasonable terms and conditions of the third party payer’s plan that apply generally and uniformly to services provided in facilities other than facilities of the uniformed services may also be applied to services provided in facilities of the uniformed services.

(2) Except as provided by 10 U.S.C. 1065, this part, or other applicable law, third party payers are not required to treat claims arising from services provided in or through facilities of the Uniformed Services more favorably than they treat claims arising from services provided in other facilities or by other health care providers.

(c) Specific examples of permissible terms and conditions. The following are several specific examples of permissible terms and conditions of third party payer plans. These examples are not all inclusive.

(1) Generally applicable coverage provisions. Generally applicable provisions regarding particular types of medical care or medical conditions covered by the third party payer’s plan are permissible grounds to refuse or limit third party payment.

(2) Generally applicable utilization review provisions. (i) Reasonable and generally applicable provisions of a third party payer’s plan requiring pre-admission screening, second surgical opinions, retrospective review or other similar utilization management activities may be permissible grounds to refuse or reduce third party payment if
such refusal or reduction is required by the third party payer’s plan.

(ii) Such provisions are not permissible if they are applied in a manner that would result in claims arising from services provided by or through facilities of the Uniformed Services being treated less favorably than claims arising from services provided by other hospitals or providers.

(iii) Such provisions are not permissible if they would not affect a third party payer’s obligation under this part. For example, concurrent review of an inpatient hospitalization would generally not affect the third party payer’s obligation because of the DRG-based, per-admission basis for calculating reasonable costs under §220.8(a) (except in long stay outlier cases, noted in §220.8(a)(4)).

(3) Restrictions in HMO plans. Generally applicable exclusions in Health Maintenance Organization (HMO) plans of non-emergency or non-urgent services provided outside the HMO (or similar exclusions) are permissible. However, HMOs may not exclude claims or refuse to certify emergent and urgent services provided within the HMO’s service area or otherwise covered non-emergency services provided out of the HMO’s service area. In addition, opt-out or point-of-service options available under an HMO plan may not exclude services otherwise payable under 10 U.S.C. 1095 or this part.

(d) Procedures for establishing reasonable terms and conditions. In order to establish that a term or condition of a third party payer’s plan is permissible, the third party payer must provide appropriate documentation to the facility of the Uniformed Services. This includes, when applicable, copies of explanation of benefits (EOBs), remittance advice, or payment to provider forms. It also includes copies of policies, employee certificates, booklets, or handbooks, or other documentation detailing the plan’s health care benefits, exclusions, limitations, deductibles, co-insurance, and other pertinent policy or plan coverage and benefit information.

Office of the Secretary of Defense

Plans entered into, amended or renewed on or after November 5, 1990, are subject to this section, as are prior plans that do not clearly exclude payment for services covered by this section.

§ 220.7 Remedies and procedures.

(a) Pursuant to 10 U.S.C. 1095(e)(1), the United States may institute and prosecute legal proceedings against a third party payer to enforce a right of the United States under 10 U.S.C. 1095 and this part.

(b) Pursuant to 10 U.S.C. 1095(e)(2), an authorized representative of the United States may compromise, settle or waive a claim of the United States under 10 U.S.C. 1095 and this part.

(c) The authorities provided by 31 U.S.C. 3701, et seq., 28 CFR part 11, and 4 CFR parts 101–104 regarding collection of indebtedness due the United States shall be available to effect collections pursuant to 10 U.S.C. 1095 and this part.

(d) A third party payer may not, without the consent of a U.S. Government official authorized to take action under 10 U.S.C. 1095 and this part, offset or reduce any payment due under 10 U.S.C. 1095 or this part on the grounds that the payer considers itself due a refund from a facility of the Uniformed Services. A request for refund must be submitted and adjudicated separately from any other claims submitted to the third party payer under 10 U.S.C. 1095 or this part.

§ 220.8 Reasonable costs.

(a) Diagnosis related group (DRG)-based method for calculating reasonable costs for inpatient services—(1) In general. As authorized by 10 U.S.C. 1095(f)(3), the calculation of reasonable costs for purposes of collections for inpatient hospital care under 10 U.S.C. 1095 and this part shall be based on diagnosis related groups (DRGs). Costs shall be based on the inpatient full reimbursement rate per hospital discharge, weighted to reflect the intensity of the principal diagnosis involved.

The average cost per case shall be published annually as an inpatient standardized amount. A relative weight for each DRG shall be the same as the DRG weights published annually for hospital reimbursement rates under the Civilian Health and Medicare Program of the Uniformed Services (CHAMPUS) pursuant to 32 CFR 199.14(a)(1).

(2) Standardized amount. The standardized amount shall be determined by dividing the total costs of all inpatient care in all military treatment facilities by the total number of discharges. This will produce a single national standardized amount. The Department of Defense is authorized, but not required by this part, to calculate three standardized amounts, one for large urban, other urban/rural, and overseas areas, utilizing the same distinctions in identifying the first two areas as is used for CHAMPUS under 32 CFR 199.14(a)(1). Using this applicable standardized amount, the Department of Defense may make adjustments for area wage rates and indirect medical education costs (as identified in paragraph (a)(4) of this section), producing for each inpatient facility of the Uniformed Services a facility-specific “adjusted standardized amount” (ASA).

(3) DRG relative weights. Costs for each DRG will be determined by multiplying the standardized amount per discharge by the DRG relative weight. For this purpose, the DRG relative weights used for CHAMPUS pursuant to 32 CFR 199.14(a)(1) shall be used.

(4) Adjustments for outliers, area wages, and indirect medical education. The Department of Defense may, but is not required by this part, to adjust cost determinations in particular cases for length-of-stay outliers (long stay and short stay), cost outliers, area wage rates, and indirect medical education. If any such adjustments are used, the method shall be comparable to that used for CHAMPUS hospital reimbursements pursuant to 32 CFR 199.14(a)(1)(iii)(E), and the calculation of the standardized amount under paragraph (a)(2) of this section will reflect that such adjustments will be used.

(5) Identification of professional and hospital costs. For purposes of billing
third party payers other than automobile liability and no-fault insurance carriers, inpatient billings will be subdivided into two categories:

(i) Hospital charges (which refers to routine service charges associated with the hospital stay and ancillary charges).

(ii) Professional charges (which refers to professional services provided by physicians and certain other providers).

(6) Outpatient billings. Outpatient billings (including those for ambulatory procedure visits) may, but are not required by this part, to be subdivided into two categories:

(i) Professional charges (which refers to professional services provided by physicians and certain other providers); and

(ii) Outpatient services (which refers to overhead and ancillary, diagnostic and treatment services, other than professional services provided in connection with the outpatient visit).

(b) Unified per diem rates for care provided prior to October 1, 1992. For inpatient hospital care provided prior to October 1, 1992, the computation of reasonable costs shall be based on the unified per diem full reimbursement rate for all clinical categories of hospital care. For purposes of this paragraph (and paragraph (c) of this section), charges for patients hospitalized before and after the October 1 start date shall be based on the determination method in effect for the respective periods of hospitalization.

(c) Clinical groups per diem rates for care provided on or after October 1, 1992, and prior to October 1, 1994. For inpatient hospital care provided on or after October 1, 1992, and prior to October 1, 1994, the computation of reasonable costs shall be based on the per diem full reimbursement rate applicable to the clinical category of services involved. Patients treated in an intensive care unit any time during the 24 hour nursing period shall be charged the intensive care per diem charge in lieu of a charge to the clinical service to which the patient is currently assigned. For this purpose, 12 clinical groups are established, as follows:

(1) Medical Care Services. This includes internal medicine, cardiology, dermatology, endocrinology, gastroenterology, hematology, nephrology, neurology, oncology, pulmonary and upper respiratory disease, rheumatology, physical medicine, clinical immunology, HIV III—Acquired Immune Deficiency Syndrome (AIDS), infectious disease, allergy, and medical care not elsewhere classified.

(2) Surgical Care Services. This includes general surgery, cardiovascular and thoracic surgery, neurosurgery, ophthalmology, oral surgery, otolaryngology, pediatric surgery, plastic surgery, proctology, urology, peripheral vascular, trauma service, head and neck service and surgical care not elsewhere classified.

(3) Obstetrical and Gynecological Care.

(4) Pediatric Care. This includes pediatrics, nursery, adolescent pediatrics and pediatric care not elsewhere classified.

(5) Orthopaedic Care. This includes orthopaedics, podiatry and hand surgery.

(6) Psychiatric Care and Substance Abuse Rehabilitation.

(7) Family Practice Care.

(8) Burn Unit Care.

(9) Medical Intensive Care/Coronary Care.

(10) Surgical Intensive Care.

(12) Organ and Bone Marrow Transplants.

(d) Medical services and subsistence charges included. Medical services charges pursuant to 10 U.S.C. 1078 or subsistence charges pursuant to 10 U.S.C. 1075 are included in the claim filed with the third party payer pursuant to 10 U.S.C. 1095. For any patient of a facility of the Uniformed Services who indicates that he or she is a beneficiary of a third party payer plan, the usual medical services or subsistence charge will not be collected from the patient to the extent that payment received from the payer exceeds the medical services or subsistence charge. Thus, except in cases covered by §220.8(k), payment of the claim made pursuant to 10 U.S.C. 1095 which exceeds the medical services or subsistence charge, will satisfy all of the third party payer’s obligation arising from the inpatient hospital care provided by
the facility of the Uniformed Services on that occasion.

(e) Per visit rates. (1) As authorized by 10 U.S.C. 1095(f)(2), the computation of reasonable costs for purposes of collections for most outpatient services shall be based on a per visit rate for a clinical specialty or subspecialty. The per visit charge shall be equal to the outpatient full reimbursement rate for that clinical specialty or subspecialty and includes all routine ancillary services. A separate charge will be calculated for cases that are considered ambulatory procedure visits. These rates shall be updated and published annually. As with inpatient billing categories, clinical groups representing selected board certified specialties/subspecialties widely accepted by graduate medical accrediting organizations such as the Accreditation Council for Graduate Medical Education (ACGME) or the American Board of Medical Specialties will be used for ambulatory billing categories. Related clinical groups may be combined for purposes of billing categories.

(2) The following clinical reimbursement categories are representative, but not all-inclusive of the billing category clinical groups referred to in paragraph (e)(1) of this section: Internal Medicine, Allergy, Cardiology, Diabetic Endocrinology, Gastroenterology, Hematology, Hypertension, Nephrology, Neurology, Nutrition, Oncology, Pulmonary Disease, Rheumatology, Dermatology, Infectious Disease, Physical Medicine, General Surgery, Cardiovascular and Thoracic Surgery, Neurosurgery, Ophthalmology, Organ Transplant, Otolaryngology, Plastic Surgery, Proctology, Urology, Pediatric Surgery, Family Planning, Obstetrics, Gynecology, Pediatrics, Adolescent Pediatrics, Well Baby, Orthopaedics, Cast, Orthotic Laboratory, Hand Surgery, Podiatry, Psychiatry, Psychology, Child Guidance, Mental Health, Social Work, Substance Abuse Rehabilitation, Family Practice, and Occupational and Physical Therapy.

(f) Ambulatory procedure visit rates. A separate charge will be calculated for ambulatory procedure visits (APVs). APVs are same day surgery visits and other outpatient visits provided by designated, special treatment units in facilities of the Uniformed Services. APV rates shall be based on the total cost of immediate (day of procedure) pre-procedure; procedure; and immediate post-procedure care performed in the ambulatory procedure unit setting for care requiring less than 24 hours in the facility. An APV is not inpatient care. The Department of Defense is authorized, but not required by this part, to establish multiple ambulatory procedure visit reimbursement categories based on the clinic or subspecialty performing the ambulatory procedure. The average cost of APVs will be published annually.

(g) Special rule for services ordered and paid for by a facility of the Uniformed Services but provided by another provider. In cases where a facility of the Uniformed Services purchases ancillary services or procedures, from a source other than a Uniformed Services facility, the cost of the purchased services will be added to the standard rate. Examples of ancillary services and other procedures covered by this special rule include (but are not limited to): laboratory, radiology, pharmacy, pulmonary function, cardiac catheterization, hemodialysis, hyperbaric medicine, electrocardiography, electroencephalography, electromyography, pulmonary function, inhalation and respiratory therapy and physical therapy services.

(h) Special rule for ancillary services ordered by outside providers and provided by a facility of the Uniformed Services. If a Uniformed Services facility provides certain ancillary services, prescription drugs or other procedures requested by a source other than a Uniformed Services facility and are not incident to any outpatient visit or inpatient services, the reasonable cost will not be based on the usual Diagnostic Related Group (DRG) or per visit rate. Rather, a separate standard rate shall be established based on the cost of the particular services, drugs, or procedures provided. Effective April 1, 2000, this special rule applies to all services, drugs or procedures ordered by an outside provider and provided by a facility of the Uniformed Services. For such ancillary services provided prior to April 1, 2000, this special rule applies only to services, drugs or procedures.
having a cost of at least $25. The reasonable cost for the services, drugs or procedures to which this special rule applies shall be calculated and made available to the public annually.

(i) Miscellaneous health care services. Some outpatient services are provided which may not traditionally be provided in hospitals or which are not traditional clinical specialties or subspecialties. This includes, but is not limited to, land ambulance service, air ambulance service, hyperbaric treatments, dental care services and immunizations.

(1) The charge for ambulance services shall be based on the full costs of operating the ambulance service.

(2) For hyperbaric treatments (such as high pressure oxygenation treatments, burn treatments and decompression treatments in response to diving incidents), charges will be based on the full operating costs of the hyperbaric treatment services.

(3) Charges for dental services (including oral diagnosis and prevention, periodontics, prosthodontics (fixed and removable), implantology, oral surgery, orthodontics, pediatric dentistry and endodontics) will be based on a full cost of the dental services.

(4) The charge for immunizations, allergen extracts, allergic condition tests, and the administration of certain medications when these services are provided in a separate immunizations or shot clinic, will be based on the average full cost of these services, exclusive of any costs considered for purposes of any outpatient visit. A separate charge shall be made for each immunization, injection or medication administered.

(j)(1) Special rule for former Public Health Service facilities. In connection with the former Public Health Service facilities described in §220.12(c), the computation of reasonable costs for purposes of collections under 10 U.S.C. 1095 and this part may differ from such computations under §220.8. Reasonable costs for such facilities shall be determined by the Department of Defense based on approximate government costs for similar services under CHAMPUS.

(2) The special rule set forth in paragraph (j)(1) of this section expires September 30, 1997. Effective October 1, 1997, collections for health care services provided by these facilities are no longer covered by this part, but are covered by 32 CFR 199.8 (CHAMPUS Double Coverage).

(k) Special rules for TRICARE Resource Sharing Agreements and Partnership Program providers—(1) In general. Paragraph (k) establishes special Third Party Collection program rules for TRICARE Resource Sharing Agreements and Partnership Program providers.

(i) TRICARE Resource Sharing Agreements are agreements under the authority of 10 U.S.C. 1096 and 1097 between uniformed services treatment facilities and TRICARE managed care support contractors under which the TRICARE managed care support contractor provides personnel and other resources to the uniformed services treatment facility concerned in order to help the facility increase the availability of health care services for beneficiaries. TRICARE is the managed care program authorized by 10 U.S.C. 1097 (and several other statutory provisions) and established by regulation at 32 CFR 199.17.

(ii) Partnership Program providers provide services in facilities of the uniformed services under the authority of 10 U.S.C. 1096 and the CHAMPUS program. They are similar to providers providing services under TRICARE Resource Sharing Agreements, except that payment arrangements are different. Those functioning under TRICARE Resource Sharing Agreements are under special payment arrangements with the TRICARE managed care contractor; those under the Partnership Program file claims under the standard CHAMPUS program on a fee-for-service basis.

(2) Special rule for TRICARE Resource Sharing Agreements. Services provided in facilities of the uniformed services in whole or in part through personnel or other resources supplied under a TRICARE Resource Sharing Agreement are considered for purposes of this part as services provided by the facility of the uniformed services. Thus, third party payers will receive a claim for such services in the same manner and for the same costs as any similar
services provided by a facility of the uniformed services. This paragraph (k)(2) becomes effective April 1, 1997.

(3) Special rule for Partnership Program providers. For inpatient services for which the professional provider services were provided by a Partnership Program participant, the professional charges component of the bill will be deleted from the claim from the facility of the uniformed services. In these cases, the uniformed service facility’s claim shall not be considered solely a “facility charge.” As an all-inclusive bill, room and board, nursing services and all ancillary services (radiology, pharmaceuticals, respiratory therapy, etc.) are factored into the bill. The third party payer will receive a separate claim for professional services directly from the individual health care provider. The same is true for the professional services provided on an outpatient basis under the Partnership Program. Claims from Partnership Program providers are not covered by 10 U.S.C. 1095 or this part, but are governed by statutory and regulatory requirements of the CHAMPUS program.

(1) Alternative determination of reasonable costs. Any third party payer that can satisfactorily demonstrate a prevailing rate of payment in the same geographic area for the same or similar aggregate groups of services that is less than the standard rate (or other amount as determined under paragraphs (f) through (k) of this section) of the facility of the Uniformed Services may, with the agreement of the facility of the Uniformed Services or other authorized representatives of the United States, limit payments under 10 U.S.C. 1095 to that prevailing rate for that aggregate category of services. The determination of the third party payer’s prevailing rate shall be based on a review of valid contractual arrangements with other facilities or providers constituting a majority of the services for which payment is made under the third party payer’s plan. This paragraph does not apply to cases covered by §220.11.

§220.9 Rights and obligations of beneficiaries.

(a) No additional cost share. Pursuant to 10 U.S.C. 1095(a)(2), uniformed services beneficiaries will not be required to pay to the facility of the uniformed services any amount greater than the normal medical services or subsistence charges (under 10 U.S.C. 1075 or 1078). In every case in which payment from a third party payer is received, it will be considered as satisfying the normal medical services or subsistence charges, and no further payment from the beneficiary will be required.

(b) Availability of healthcare services unaffected. The availability of healthcare services in any facility of the Uniformed Services will not be affected by the participation or non-participation of a Uniformed Services beneficiary in a health care plan of a third party payer. Whether or not a Uniformed Services beneficiary is covered by a third party payer’s plan will not be considered in determining the availability of healthcare services in a facility of the Uniformed Services.

(c) Obligation to disclose information and cooperate with collection efforts. (1) Uniformed Services beneficiaries are required to provide correct information to the facility of the Uniformed Services regarding whether the beneficiary is covered by a third party payer’s plan. Such beneficiaries are also required to provide correct information regarding whether particular health care services might be covered by a third party payer’s plan, including services arising from an accident or workplace injury or illness. In the event a third party payer’s plan might be applicable, a beneficiary has an obligation to provide such information as may be necessary to carry out 10 U.S.C. 1095 and this part, including identification of policy numbers, claim numbers, involved parties and their representatives, and other relevant information.

(2) Uniformed Services beneficiaries are required to take other reasonable steps to cooperate with the efforts of the facility of the Uniformed Services to make collections under 10 U.S.C. 1095 and this part, such as submitting to the third party payer (or other entity involved in adjudicating a claim) any requests or documentation that
might be required by the third party payer (or other entity), if consistent with this part, to facilitate payment under this part.

(3) Intentionally providing false information or willfully failing to satisfy a beneficiary's obligations are grounds for disqualification for health care services from facilities of the Uniformed Services.

(d) Mandatory disclosure of Social Security account numbers. Pursuant to 10 U.S.C. 1095(k)(2), every covered beneficiary eligible for care in facilities of the Uniformed Services is, as a condition of eligibility, required to disclose to authorized personnel his or her Social Security account number.

§ 220.10 Special rules for Medicare supplemental plans.

(a) Statutory obligation of Medicare supplemental plans to pay. The obligation of a Medicare supplemental plan to pay shall be determined as if the facility of the Uniformed Services were a medicare-eligible provider and the services provided as if they were Medicare-covered services. A Medicare supplemental plan is required to pay only to the extent that the plan would have incurred a payment obligation if the services had been furnished by a Medicare eligible provider.

(b) Inpatient hospital care charges. (1) Notwithstanding the provisions of §220.8, charges to Medicare supplemental plans for inpatient hospital care services provided to beneficiaries of such plans shall not, for any admission, exceed the Medicare inpatient hospital deductible amount.

(2) Only one deductible charge shall be made per hospital admission (or Medicare benefit period), regardless of whether the admission is to a facility of the Uniformed Services or a Medicare certified civilian hospital. To ensure that a Medicare supplemental insurer is not charged the inpatient hospital deductible twice when an individual who is entitled to benefits under both DoD retiree benefits and Medicare, the following payment rules apply:

(i) If a dual beneficiary is first admitted to a Medicare-certified hospital and is later admitted to a facility of the Uniformed Services within the same benefit period initiated by the admission to the Medicare-certified hospital, the facility of the Uniformed Services shall not charge the Medicare supplemental insurance plan an inpatient hospital deductible.

(ii) If a dual beneficiary is admitted first to a facility of the Uniformed Services and secondly to a Medicare-certified hospital within 60 days of discharge from the facility of the Uniformed Services, the facility of the Uniformed Services shall refund to the Medicare supplemental insurer any inpatient hospital deductible that the insurer paid to the facility of the Uniformed Services so that it may pay the deductible to the Medicare-certified hospital.

(c) Charges for health care services other than the inpatient hospital deductible amount. (1) The Assistant Secretary of Defense (Health Affairs) may establish special charge amounts for Medicare supplemental plans to collect reasonable costs for inpatient and outpatient copayments and other services covered by the Medicare supplemental plan. Any such schedule of charge amounts shall:

(i) Be based on percentage amounts of the per diem, per visit and other rates established by §220.8 comparable to the percentage amounts of beneficiary financial responsibility under Medicare for the service involved;

(ii) Include adjustments, as appropriate, to identify major components of the all inclusive per diem or per visit rates for which Medicare has special rules.

(iii) Provide for offsets and/or refunds to ensure that Medicare supplemental insurers are not required to pay a limited benefit more than one time in cases in which beneficiaries receive similar services from both a facility of the uniformed services and a Medicare certified provider; and

(iv) Otherwise conform with the requirements of this section and this part.

(2) If collections are sought under paragraph (c) of this section, the effective date of such collections will be
Office of the Secretary of Defense

§ 220.12 Special rules for preferred provider organizations.

(a) Statutory requirement. (1) Pursuant to the general duty of third party payers to pay under 10 U.S.C. 1095(a)(1) and the definitions of 10 U.S.C. 1095(h), a
§ 220.12 32 CFR Ch. I (7–1–02 Edition)

plan with a preferred provider organization (PPO) provision or option generally has an obligation to pay the United States the reasonable costs of health care services provided through any facility of the Uniformed Services to a Uniformed Services beneficiary who is also a beneficiary under the plan.

(2) This section provides specific rules for applying 10 U.S.C. 1095 and this part in the context of plans with a PPO provision or option.

(b) PPO plan exclusions and limitations impermissible. Under 10 U.S.C. 1095(b), no provision of any plan with a PPO provision or option having the effect of excluding from coverage or limiting payment for certain care if that care is provided through a facility of the Uniformed Services shall operate to prevent collection under this part.

(c) PPO agreement not required. The lack of a PPO agreement or the absence of privity of contract between a plan with a preferred provider organization provision or option and a facility of the Uniformed Services is not a permissible ground for refusing or reducing payment by the plan. The lack of a contractual relationship between the plan and the facility of the Uniformed Services may not be a basis for the plan to treat a facility of the Uniformed Services as a non-PPO provider for purposes of the plan’s PPO payment amount, if the facility of the Uniformed Services accommodates the plan’s fundamental price and utilization management standards for its PPO provision or option, as provided in this section.

(d) Accommodation of PPO’s fundamental price and utilization review standards. A plan’s duty to pay under this section is premised on the accommodation by the facility of the Uniformed Services of the plan’s fundamental price and utilization review standards for its PPO provision or option, as provided in this paragraph.

(1) A facility of the Uniformed Services accommodates a plan’s fundamental PPO price standards by accepting, in lieu of the rates established under §220.8, the plan’s demonstrated PPO prevailing rates of payment paid to preferred providers in the same geographic area for the same or similar aggregate groups of services, if such rates are, in the aggregate, less than the rates established under §220.8. The determination of the plan’s PPO prevailing rates shall be based on a review of all rates, including the professional and technical components, contained in all valid contractual arrangements with facilities and providers in the PPO network for the year in which the services were rendered. The rates for any specific ancillary procedure must include both professional and technical components.

(e) Examples of impermissible PPO requirements. PPO requirements unnecessary for the achievement of the PPO’s fundamental price and utilization review standards and would have the effect of excluding or limiting payment to a facility of the Uniformed Services are impermissible. Examples of such impermissible PPO requirements follow:

(1) A requirement that a PPO provider accept all beneficiaries of the PPO’s plan. A facility of the Uniformed Services may provide health care services only to persons with eligibility established pursuant to 10 U.S.C. Chapter 55.

(2) A requirement that a PPO provider meet particular credentialing, licensing, certification, or other provider selection requirements intended to promote good quality of care. Facilities of the Uniformed Services comply with federal quality standards and a comprehensive system of provider credentialing and quality assurance.

(3) A requirement that PPO providers restrict patient referrals to particular providers in the PPO network or order ancillary services only from particular providers. Facilities of the Uniformed Services carry out patient referrals and
the ordering of ancillary services in accordance with applicable Department of Defense rules and procedures.

(4) Any other PPO requirement that would purport to require a facility of the Uniformed Services, in order to effectuate the legislative purpose of 10 U.S.C. 1095, to act in a manner inconsistent with the basic nature of facilities of the Uniformed Services.

(f) Sunset of section. The special rules established by this §220.12 shall no longer be in effect as of October 1, 2004.

§220.13 Special rules for workers’ compensation programs.

(a) Basic rule. Pursuant to the general duty of third party payers under 10 U.S.C. 1095(a)(1) and the definitions of 10 U.S.C. 1095(h), a workers’ compensation program or plan generally has an obligation to pay the United States the reasonable costs of health care services provided in or through any facility of the Uniformed Services to a Uniformed Services beneficiary who is also a beneficiary under a workers’ compensation program due to an employment related injury, illness, or disease. Except to the extent modified or supplemented by this section, all provisions of this part are applicable to any workers’ compensation program or plan in the same manner as they are applicable to any other third party payer.

(b) Special rules for lump-sum settlements. In cases in which a lump-sum workers’ compensation settlement is made, the special rules established in this paragraph (b) shall apply for purposes of compliance with this section.

(1) Lump-sum commutation of future benefits. If a lump-sum worker’s compensation award stipulates that the amount paid is intended to compensate the individual for all future medical expenses required because of the work-related injury, illness, or disease, the Uniformed Service health care facility is entitled to reimbursement for injury, illness, or disease related, future health care services or items provided to the individual up to the amount of the lump-sum payment.

(2) Lump-sum compromise settlement. (i) A lump sum compromise settlement, unless otherwise stipulated by an official authorized to take action under 10 U.S.C. 1095 and this part, is deemed to be a workers’ compensation payment for the purpose of reimbursement to the facility of the Uniformed Services for services and items provided, even if the settlement agreement stipulates that there is no liability under the workers’ compensation law, program, or plan.

(ii) If a settlement appears to represent an attempt to shift to the facility of the Uniformed Services the responsibility of providing uncompensated services or items for the treatment of the work-related condition, the settlement will not be recognized and reimbursement to the uniformed health care facility will be required. For example, if the parties to a settlement attempt to maximize the amount of disability benefits paid under workers’ compensation by releasing the employer or workers’ compensation carrier from liability for medical expenses for a particular condition even though the facts show that the condition is work-related, the facility of the Uniformed Services must be reimbursed.

(iii) Except as specified in paragraph (b)(2)(iv) of this section, if a lump-sum compromise settlement forecloses the possibility of future payment or workers’ compensation benefits, medical expenses incurred by a facility of the Uniformed Services after the date of the settlement are not reimbursable under this section.

(iv) As an exception to the rule of paragraph (b)(2)(iii) of this section, if the settlement agreement allocates certain amounts for specific future medical services, the facility of the Uniformed Services is entitled to reimbursement for those specific services and items provided resulting from the work-related injury, illness, or disease up to the amount of the lump-sum settlement allocated to future expenses.

(3) Apportionment of a lump-sum compromise settlement of a workers’ compensation claim. If a compromise settlement allocates a portion of the payment for medical expenses and also
§ 220.14  gives reasonable recognition to the income replacement element, that apportionment may be accepted as a basis for determining the payment obligation of a workers' compensation program or plan under this section to a facility of the Uniformed Services. If the settlement does not give reasonable recognition to both elements of a workers' compensation award or does not apportion the sum granted, the portion to be considered as payment for medical expenses is computed as follows: determine the ratio of the amount awarded (less the reasonable and necessary costs incurred in procuring the settlement) to the total amount that would have been payable under workers' compensation if the claim had not been compromised; multiply that ratio by the total medical expenses incurred as a result of the injury or disease up to the date of settlement. The product is the amount of workers' compensation settlement to be considered as payment or reimbursement for medical expenses.

[65 FR 7730, Feb. 16, 2000]

§ 220.14 Definitions.

Ambulatory procedure visit. An ambulatory procedure visit is a type of outpatient visit in which immediate (day of procedure) pre-procedure and immediate post-procedure care require an unusual degree of intensity and are provided in an ambulatory procedure unit (APU) of the facility of the Uniformed Services. Care is required in the facility for less than 24 hours. An APU is specially designated and is accounted for separately from any outpatient clinic.

Assistant Secretary of Defense (Health Affairs). This term includes any authorized designee of the Assistant Secretary of Defense (Health Affairs).

Automobile liability insurance. Automobile liability insurance means insurance against legal liability for health and medical expenses resulting from personal injuries arising from operation of a motor vehicle. Automobile liability insurance includes:

(1) Circumstances in which liability benefits are paid to an injured party only when the insured party's tortious acts are the cause of the injuries; and

(2) Uninsured and underinsured coverage, in which there is a third party tortfeasor who caused the injuries (i.e., benefits are not paid on a no-fault basis), but the insured party is not the tortfeasor.

CHAMPUS supplemental plan. A CHAMPUS supplemental plan is an insurance, medical service or health plan exclusively for the purpose of supplementing an eligible person's benefit under CHAMPUS. (For information concerning CHAMPUS, see 32 CFR part 199.) The term has the same meaning as set forth in the CHAMPUS regulation (32 CFR 199.2).

Covered beneficiaries. Covered beneficiaries are all health care beneficiaries under chapter 55 of title 10, United States Code, except members of the Uniformed Services on active duty.

Facility of the Uniformed Services. A facility of the Uniformed Services means any medical or dental treatment facility of the Uniformed Services (as that term is defined in 10 U.S.C. 101(43)). Contract facilities such as Navy NAVCARE clinics and Army and Air Force PRIMUS clinics that are funded by a facility of the Uniformed Services are considered to operate as an extension of the local military treatment facility and are included within the scope of this program. Facilities of the Uniformed Services also include several former Public Health Services facilities that are deemed to be facilities of the Uniformed Services pursuant to section 911 of Pub. L. 97–99 (often referred to as "Uniformed Services Treatment Facilities" or "USTFs").

Healthcare services. Healthcare services include inpatient, outpatient, and designated high-cost ancillary services.

Inpatient hospital care. Treatment provided to an individual other than a transient patient, who is admitted (i.e., placed under treatment or observation) to a bed in a facility of the uniformed services that has authorized beds for inpatient medical or dental care.

Insurance, medical service or health plan. Any plan (including any plan, policy, program, contract, or liability arrangement) that provides compensation, coverage, or indemnification for expenses incurred by a beneficiary for
Office of the Secretary of Defense

§ 220.14

health or medical services, items, products, and supplies. It includes but is not limited to:

(1) Any plan offered by an insurer, reinsurer, employer, corporation, organization, trust, organized health care group or other entity.

(2) Any plan for which the beneficiary pays a premium to an issuing agent as well as any plan to which the beneficiary is entitled as a result of employment or membership in or association with an organization or group.

(3) Any Employee Retirement Income and Security Act (ERISA) plan.

(4) Any Multiple Employer Trust (MET).

(5) Any Multiple Employer Welfare Arrangement (MEWA).

(6) Any Health Maintenance Organization (HMO) plan, including any such plan with a point-of-service provision or option.

(7) Any individual practice association (IPA) plan.

(8) Any exclusive provider organization (EPO) plan.

(9) Any physician hospital organization (PHO) plan.

(10) Any integrated delivery system (IDS) plan.

(11) Any management service organization (MSO) plan.

(12) Any group or individual medical services account.

(13) Any preferred provider organization (PPO) plan or any PPO provision or option of any third party payer plan.

(14) Any Medicare supplemental insurance plan.

(15) Any automobile liability insurance plan.

(16) Any no fault insurance plan, including any personal injury protection plan or medical payments benefit plan for personal injuries arising from the operation of a motor vehicle.

Medicare eligible provider. Medicare participating (institutional) providers and physicians, suppliers and other individual providers eligible to participate in the Medicare program.

Medicare supplemental insurance plan. A Medicare supplemental insurance plan is an insurance, medical service or health plan primarily for the purpose of supplementing an eligible person’s benefit under Medicare. The term has the same meaning as “Medicare supplemental policy” in section 1882(g)(1) of the Social Security Act (42 U.S.C. 1395ss) and 42 CFR part 403, subpart B.

No-fault insurance. No-fault insurance means an insurance contract providing compensation for health and medical expenses relating to personal injury arising from the operation of a motor vehicle in which the compensation is not premised on who may have been responsible for causing such injury. No-fault insurance includes personal injury protection and medical payments benefits in cases involving personal injuries resulting from operation of a motor vehicle.

Preferred provider organization. A preferred provider organization (PPO) is any arrangement in a third party payer plan under which coverage is limited to services provided by a select group of providers who are members of the PPO or incentives (for example, reduced co-payments) are provided for beneficiaries under the plan to receive health care services from the members of the PPO rather than from other providers who, although authorized to be paid, are not included in the PPO. However, a PPO does not include any organization that is recognized as a health maintenance organization.

Third party payer. A third party payer is an entity that provides an insurance, medical service, or health plan by contract or agreement. It includes but is not limited to:

(1) State and local governments that provide such plans other than Medicaid.

(2) Insurance underwriters or carriers.

(3) Private employers or employer groups offering self-insured or partially self-insured medical service or health plans.

(4) Automobile liability insurance underwriter or carrier.

(5) No fault insurance underwriter or carrier.

(6) Workers’ compensation program or plan sponsor, underwriter, carrier, or self-insurer.

Third party payer plan. A third party payer plan is any plan or program provided by a third party payer, but not including an income or wage supplemental plan.
Uniformed Services beneficiary. For purposes of this part, a Uniformed Services beneficiary is any person who is covered by 10 U.S.C. 1074(b), 1076(a), or 1076(b). For purposes of §220.11 (but not for other sections), a Uniformed Services beneficiary also includes active duty members of the Uniformed Services.

Workers’ compensation program or plan. A workers’ compensation program or plan is any program or plan that provides compensation for loss, to employees or their dependents, resulting from the injury, disablement, or death of an employee due to an employment related accident, casualty or disease. The common characteristic of such a plan or program is the provision of compensation regardless of fault, in accordance with a delineated schedule based upon loss or impairment of the worker’s wage earning capacity, as well as indemnification or compensation for medical expenses relating to the employment related injury or disease. A workers’ compensation program or plan includes any such program or plan:

1. Operated by or under the authority of any law of any State (or the District of Columbia, American Samoa, Guam, Puerto Rico, and the Virgin Islands).
2. Operated through an insurance arrangement or on a self-insured basis by an employer.
3. Operated under the authority of the Federal Employees Compensation Act or the Longshoremen’s and Harbor Workers’ Compensation Act.

§ 221.1 Purpose.
This part:
(a) Establishes DoD policy, assigns responsibilities, and prescribes procedure for implementing Public Law 99-660, title IV and the objectives of the Memorandum of Understanding (MOU) between the Department of Health and Human Services (DHHS) and the Department of Defense, September 21, 1987, which outlines the DoD’s participation in the National Practitioner Data Bank (NPDB).
(b) Specifies the content of confidential reports to the NPDB established under part B of Public Law 99-660, and reporting responsibilities.

§ 221.2 Applicability and scope.
This part applies to:
(a) The Office of the Secretary of Defense (OSD) and the Military Departments (including their National Guard and Reserve components). The term, “Military Departments,” as used herein, refers to the Army, the Navy, and the Air Force.
(b) Healthcare personnel who are in professions required to possess a license under DoD Directive 6025.6 and/or who are granted individual clinical privileges.

§ 221.3 Definitions.
(a) Healthcare entity. A hospital, ambulatory health clinic, or dental clinic with an independent healthcare practitioner staff that carries out professional staff review and provides healthcare to medical or dental patients; and applicable professional staff components of each Service, as designated by the respective Surgeon General, which also perform peer review as part of the quality assurance program.
(b) Licensed healthcare practitioner. Any healthcare practitioner of one of the professions required to possess a professional license, as prescribed in DoD Directive 6025.6.

PART 221—DEPARTMENT OF DEFENSE PARTICIPATION IN THE NATIONAL PRACTITIONER DATA BANK (NPDB)

SOURCE: 55 FR 50321, Dec. 6, 1990, unless otherwise noted.

§ 221.1 Purpose.
This part:
(a) Establishes DoD policy, assigns responsibilities, and prescribes procedure for implementing Public Law 99-660, title IV and the objectives of the Memorandum of Understanding (MOU) between the Department of Health and Human Services (DHHS) and the Department of Defense, September 21, 1987, which outlines the DoD’s participation in the National Practitioner Data Bank (NPDB).
(b) Specifies the content of confidential reports to the NPDB established under part B of Public Law 99-660, and reporting responsibilities.

§ 221.2 Applicability and scope.
This part applies to:
(a) The Office of the Secretary of Defense (OSD) and the Military Departments (including their National Guard and Reserve components). The term, “Military Departments,” as used herein, refers to the Army, the Navy, and the Air Force.
(b) Healthcare personnel who are in professions required to possess a license under DoD Directive 6025.6 and/or who are granted individual clinical privileges.

§ 221.3 Definitions.
(a) Healthcare entity. A hospital, ambulatory health clinic, or dental clinic with an independent healthcare practitioner staff that carries out professional staff review and provides healthcare to medical or dental patients; and applicable professional staff components of each Service, as designated by the respective Surgeon General, which also perform peer review as part of the quality assurance program.
(b) Licensed healthcare practitioner. Any healthcare practitioner of one of the professions required to possess a professional license, as prescribed in DoD Directive 6025.6.

(c) The National Practitioner Data Bank (NPDB). The organization developed according to Public Law 99–660 to receive and provide data on professional competence and conduct of physicians, dentists, and other licensed healthcare providers. In Public Law 99–660, it is referred to as the “National Data Bank.” That name was changed after the MOU was signed.

§ 221.4 Policy.

It is DoD policy that:
(a) Professional review shall occur in every case of alleged malpractice.
(b) When a malpractice claim results in a monetary payment for the benefit of a physician, dentist, or other healthcare practitioner required to be licensed by DoD Directive 6025.6, it shall be reported to the NPDB.
(c) Practitioners shall have benefit of due process procedures for professional review activities under requirements of Public Law 99–660, Military Department regulations, and healthcare entity professional staff by-laws.
(d) Information on adverse privileging actions and other professional review actions shall be reported to the appropriate State agencies and the NPDB.

(1) The Department of Defense shall continue to provide State(s) of known licensure the information required by DoD Directive 6025.11.²
(2) Physicians and dentists shall be reported for both malpractice payment and privileging actions. All other personnel required to be licensed by DoD Directive 6025.6 shall also be reported for malpractice payments.
(3) Other healthcare personnel shall be reported for privileging actions only after the Assistant Secretary of Defense (Health Affairs) (ASD(HA)) notifies the Military Departments to begin submitting reports on a specified category of personnel.
(e) The NPDB shall be queried during the accessioning process of a healthcare practitioner, and at least every 24 months, thereafter, as a part of the Military medical departments’ recredentialing and reprivileging procedures. Inquiries on healthcare practitioners, on board at the time this part is implemented, should be performed at the time of their next recredentialing and reprivileging. If the granting of initial clinical privileges occurs more than 1 year after the query for accessioning, querying the data bank shall be required as a part of the initial privileging.

§ 221.5 Responsibilities.

(a) The Assistant Secretary of Defense (Health Affairs) (ASD(HA)) shall:
(1) Monitor implementation of this part and issue such DoD Instructions as may be necessary.
(2) Authorize exceptions to requirements of this part, if deemed necessary.
(b) The General Counsel of the Department of Defense (GC, DoD) shall provide legal advice on the interpretation and implementation of this part and any subsequent DoD Instructions.
(c) The Secretaries of the Military Departments shall implement the requirements of this part and the DoD Instructions issued under paragraph (a) of this section.

§ 221.6 Procedures.

(a) The ASD(HA) shall issue Instructions, in accordance with §221.5(a).
(b) The Military Departments shall:
(1) Develop policy and procedures that comply with requirements of this Directive and any subsequent DoD Instructions.
(2) Ensure that their Office of the Surgeon General (OTSG) sends the appropriate information, in accordance with §221.7, to the NPDB and the Office of the Deputy Assistant Secretary of Defense (Professional Affairs and Quality Assurance) (ODASD(PA&QA)).
(3) Ensure that the NPDB is queried appropriately, in accordance with §221.7.

§ 221.7 Information requirements.

(a) The method of reporting information to, and querying information from, the NPDB shall be by use of the Health Resources and Services Administration (HRSA) forms or, when possible, electronically.
(b) Reports to the ODASD(PA&QA) shall be submitted through electronic means, when available. Until then, DD
Form 2499, “Health Care Provider Clinical Privileges Action Report,” and DD Form 2526, “Case Abstract For Malpractice Claims,” shall be used, as appropriate.

(c) The reporting requirements in this section have been assigned Report Control Symbols DD–HA(AR)1611 and DD–HA(AR)1782.

PART 223—DEPARTMENT OF DEFENSE UNCLASSIFIED CONTROLLED NUCLEAR INFORMATION (DoD UCNI)

Sec.
223.1 Purpose.
223.2 Applicability and scope.
223.3 Definitions.
223.4 Policy.
223.5 Responsibilities.
223.6 Procedures.
223.7 Information requirements.
APPENDIX A TO PART 223—PROCEDURES FOR IDENTIFYING AND CONTROLLING DoD UCNI
APPENDIX B TO PART 223—GUIDELINES FOR THE DETERMINATION OF DoD UCNI

SOURCE: 56 FR 64554, Dec. 11, 1991, unless otherwise noted.

§ 223.1 Purpose.
This part implements 10 U.S.C. 128 by establishing policy, assigning responsibilities, and prescribing procedures for identifying, controlling, and limiting the dissemination of unclassified information on the physical protection of DoD special nuclear material (SNM), equipment, and facilities. That information shall be referred to as “the Department of Defense Unclassified Controlled Nuclear Information (DoD UCNI)” to distinguish it from a similar Department of Energy (DoE) program.

§ 223.2 Applicability and scope.
This part:
(a) Applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Unified and Specified Commands, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “the DoD Components”).

32 CFR Ch. 1 (7–1–02 Edition)

(b) Implements 10 U.S.C. 128, which is the statutory basis for controlling the DoD UCNI in the Department of Defense. 10 U.S.C. 128 also constitutes the authority for invoking 32 CFR part 286 to prohibit mandatory disclosure of DoD UCNI under the “Freedom of Information Act (FOIA)” in 5 U.S.C. 552.

(c) Supplements the security classification guidance contained in CG–W–51 and CG–SS–13 and DoD Instruction 5210.673 by establishing procedures for identifying, controlling, and limiting the dissemination of unclassified information on the physical protection of DoD SNM.

(d) Applies to all SNM, regardless of form, in reactor cores or to other items under the direct control of the DoD Components.

(e) Applies equally to DoE UCNI under DoD control, except the statute applicable to DoE UCNI (42 U.S.C. 2011 et seq.) must be used with the concurrence of the DoE as the basis for invoking FOIA (section 552 of 10 U.S.C.).

§ 223.3 Definitions.
(a) Atomic Energy Defense Programs. Activities, equipment, and facilities of the Department of Defense used or engaged in support of the following:
(1) Development, production, testing, sampling, maintenance, repair, modification, assembly, utilization, transportation, or retirement of nuclear weapons or nuclear weapon components.
(2) Production, utilization, or transportation of DoD SNM for military applications.
(3) Safeguarding of activities, equipment, or facilities that support the functions in paragraphs (a) (1) and (2) of this section, including the protection of nuclear weapons, nuclear weapon components, or DoD SNM for military applications at a fixed facility or in transit.

1Controlled document. Not releasable to the public.
2Requests may be forwarded to U.S. Department of Energy (Forrestal Building), 100 Independence Avenue, SW., Attention: Distribution Office of DOE Publications, Washington, DC 20585.
3Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
(b) **Authorized Individual.** A person who has been granted routine access to specific DoD UCNI under 10 U.S.C. 128.

(c) **Denying Official.** An individual who denies a request made under 5 U.S.C. 552 for all, or any portion, of a document or material containing DoD UCNI.

(d) **Document or Material.** The physical medium on, or in, which information is recorded, or a product or substance which contains or reveals information, regardless of its physical form or characteristics.

(e) **Information.** Any fact or concept regardless of the physical form or characteristics of the medium on, or in, which it is recorded, contained or revealed.

(f) **Reviewing Official.** An individual who may make a determination that a document or material contains, does not contain, or no longer contains DoD UCNI.

(g) **Safeguards.** An integrated system of physical protection, material accounting, and material control measures designed to deter, prevent, detect, and respond to unauthorized possession, use, or sabotage of DoD SNM, equipment, or facilities.

(h) **Special Nuclear Material Facility.** A DoD facility that performs a sensitive function (see paragraph (i) of this section).

(i) **Sensitive Function.** A function in support of atomic energy defense programs whose disruption could reasonably be expected to have a significant adverse effect on the health and safety of the public or the common defense and security (see paragraph (a) of this section).

(j) **Special Nuclear Material (SNM).** Plutonium, uranium enriched in the isotope-233 or in the isotope-235, except source material or any material artificially enriched by any of the foregoing.

(k) **Special Nuclear Material Equipment.** Equipment, systems, or components whose failure or destruction would cause an impact on safeguarding DoD SNM resulting in an unacceptable interruption to a national security program or an unacceptable impact on the health and safety of the public.

(l) **Unauthorized Dissemination.** The intentional or negligent transfer in any manner and by any person, of information contained in a document or material determined by a reviewing official to contain DoD UCNI, and so marked in accordance with the procedures in appendix A to this part, to any person or entity other than an authorized individual or a person granted special access to specific DoD UCNI under 10 U.S.C. 128.

§ 223.4 Policy.

It is DoD policy:

(a) To prohibit the unauthorized dissemination of unclassified information on security measures, including security plans, procedures, and equipment for the physical protection of DoD SNM, equipment, or facilities.

(b) That the decision to protect unclassified information as DoD UCNI shall be based on a determination that the unauthorized dissemination of such information could reasonably be expected to have a significant adverse effect on the health and safety of the public or the common defense and security by increasing significantly the likelihood of the illegal production of nuclear weapons or the theft, diversion, or sabotage of DoD SNM, equipment, or facilities.

(c) That government information shall be made publicly available to the fullest extent possible by applying the minimum restrictions consistent with the requirements of 10 U.S.C. 128 necessary to protect the health and safety of the public or the common defense and security.

(d) That nothing in this part prevents a determination that information previously determined to be DoD UCNI is classified information under applicable standards of classification.

§ 223.5 Responsibilities.

(a) The Assistant Secretary of Defense for Command, Control, Communications, and Intelligence shall:

(1) Administer the DoD program for controlling DoD UCNI.

(2) Coordinate DoD compliance with the DoE program for controlling DoE UCNI.

(3) Prepare and maintain the reports required by 10 U.S.C. 128.

(b) The Assistant Secretary of Defense (Public Affairs) shall provide guidance to the Assistant Secretary of
$223.6$ Procedures.

Appendix A to this part outlines the procedures for controlling DoD UCNIs. Appendix B to this part provides general and topical guidelines for identifying information that may qualify for protection as DoD UCNIs. The procedures and guidelines in appendixes A and B to this part complement the DoD Component Programs to protect other DoD sensitive unclassified information and may be used with them.

$223.7$ Information requirements.

(a) Section 128 of 10 U.S.C. requires that the Secretary of Defense prepare on a quarterly basis a report to be made available on the request of any interested person. Appendix A to this part outlines the procedures for preparing the quarterly report.

(b) The report is exempt from licensing in accordance with paragraph E.4.e of DoD 7750.5–M.5

APPENDIX A TO PART 223—PROCEDURES FOR IDENTIFYING AND CONTROLLING DoD UCNIs

A. General

1. The Secretary of Defense’s authority for prohibiting the unauthorized disclosure and dissemination of DoD UCNIs may be exercised by the Heads of the DoD Components and by the officials to whom such authority is specifically delegated by the Heads of the DoD Components. These procedures for identifying and controlling DoD UCNIs are provided as guidance for the Heads of the DoD Components to implement the Secretary of Defense’s authority to prohibit the unauthorized dissemination of unclassified information on security measures, including security plans, procedures, and equipment, for the physical protection of DoD SNM, equipment, or facilities.

2. The decision to protect unclassified information as DoD UCNIs shall be based on a determination that the unauthorized dissemination of such information could reasonably be expected to have an adverse effect on the health and safety of the public or the common defense and security by increasing significantly the likelihood of the illegal production of nuclear weapons or the theft, diversion, or sabotage of DoD SNM, equipment, or facilities.

3. Government information shall be made publicly available to the fullest extent possible by applying the minimum restrictions consistent with the requirements of 10 U.S.C. 128, necessary to protect the health and safety of the public or the common defense and security.

4. DoD personnel, in making a determination to protect unclassified information as DoD UCNIs, shall consider the probability of an illegal production, theft, diversion, or sabotage if the information proposed for protection were made available for public disclosure and dissemination. The determination to protect specific documents or information is not related to the ability of DoD UCNIs to be obtained by other sources. For determining the control of DoD UCNIs, the cognizant official should consider how the unauthorized disclosure or dissemination of such information could assist a potential adversary in the following:

a. Selecting a target for an act of theft, diversion, or sabotage of DoD SNM, equipment, or facilities (e.g., relative importance of a facility or the location, form, and quantity of DoD SNM). Information that can be obtained by observation from public areas outside controlled locations should not be considered as DoD UCNIs.

b. Planning or committing an act of theft, diversion, or sabotage of DoD SNM, equipment, or facilities (e.g., design of security systems; building plans; methods and procedures for transfer, accountability, and handling of DoD SNM; or security plans, procedures, and capabilities).

c. Measuring the success of an act of theft, diversion, or sabotage of DoD SNM, equipment, or facilities (e.g., actual or hypothetical consequences of the sabotage of specific vital equipment or facilities).
d. Illegally producing a nuclear explosive device (e.g., unclassified nuclear weapon design information useful in designing a primitive nuclear device; location of unique DoD SNM needed to fabricate such a device; or location of a nuclear weapon);

e. Dispersing DoD SNM in the environment (e.g., location, form, and quantity of DoD SNM).

5. DoD UCNI shall be identified, controlled, marked, transmitted, and safeguarded in the DoD Components, the North Atlantic Treaty Organization (NATO), and among DoD contractors, consultants, and grantees authorized to conduct official business for the Department of Defense. Contracts requiring the preparation of unclassified information that could be DoD UCNI shall have the requirements for identifying and controlling the DoD UCNI.

6. DoE GG–21 and DoE Orders 5635.4 and 5635.3 provide background on implementation of the UCNI Program in the DoE. The DoD Components maintaining custody of DoE UCNI should refer to those documents for its identification and control.

B. Identifying DoD UCNI

1. To be considered for protection as DoD UCNI, the information must:

   a. Be unclassified.

   b. Pertain to security measures, including plans, procedures, and equipment, for the physical protection of DoD SNM, equipment, or facilities.

   c. Meet the adverse effects test; i.e., that the unauthorized dissemination of such information could reasonably be expected to have an adverse effect on the health and safety of the public or the common defense and security by increasing significantly the likelihood of the illegal production of nuclear weapons or the theft, diversion, or sabotage of DoD SNM, equipment, or facilities.

2. Information, in the categories in section C. of appendix B to this part, about DoD SNM should be considered for protection as DoD UCNI.

3. Material originated before the effective date of those procedures, which is found in the normal course of business to have DoD UCNI, shall be protected as DoD UCNI. There is no requirement to conduct detailed file searches to retroactively identify and control DoD UCNI. As existing documents or materials are withdrawn from file, they should be reviewed to determine if they meet the criteria for protection as DoD UCNI and marked and controlled, accordingly.

4. The unauthorized dissemination of information that would be identified as DoD UCNI may be stopped by an individual acting within the scope of his or her responsibilities.

C. Access to DoD UCNI

1. A Reviewing Official is an Authorized Individual for documents or materials that the Reviewing Official determines to contain DoD UCNI. An Authorized Individual, for DoD UCNI, may determine that another person is an Authorized Individual who may be granted routine access to the DoD UCNI, and who may further disseminate the DoD UCNI under the procedures specified in paragraph E., below. This recipient of DoD UCNI from an Authorized Individual is also an Authorized Individual for the specific DoD UCNI to which routine access has been granted. An Authorized Individual designates another person to be an Authorized Individual by the act of giving that person a document or material that contains DoD UCNI. No explicit designation or security clearance is required. This second Authorized Individual may further disseminate the UCNI under the procedures specified in section E. of the appendix.

2. A person granted routine access to DoD UCNI must have a need to know the specific DoD UCNI in the performance of official duties or of DoD-authorized activities. The recipient of the document or material shall be informed of the physical protection and access requirements for DoD UCNI. In addition to a need to know, the person must meet at least one of the following requirements:

   a. The person is a U.S. citizen who is one of the following:

      (1) A Federal Government employee or member of the U.S. Armed Forces.

      (2) An employee of a Federal Government contractor, subcontractor, or of a prospective Federal Government contractor or subcontractor who will use the DoD UCNI for the purpose of bidding on a Federal Government contract or subcontract.

      (3) A Federal Government consultant or DoD advisory committee member.

      (4) A member of Congress.

      (5) A staff member of a congressional committee or of an individual Member of Congress.

      (6) The Governor of a State or designated State government official or representative.

      (7) A local government official or an Indian tribal government official; or

      (8) A member of a State, local, or Indian tribal law enforcement or emergency response organization.

   b. The person is other than a U.S. citizen, and is one of the following:

      (1) A Federal Government employee or a member of the U.S. Armed Forces.

      (2) An employee of a Federal Government contractor or subcontractor;

      (3) A Federal Government consultant or DoD advisory committee member.

   c. The person may be other than a U.S. citizen who is not otherwise eligible for routine access to DoD UCNI under paragraph C. 2.b of this appendix, but who requires routine
access to specific DoD UCNI in conjunction with one of the following:

(1) An international nuclear cooperative activity approved by the Federal Government.

(2) U.S. diplomatic dealings with foreign government officials; or

(3) Provisions of treaties, mutual defense acts, or Government contracts or subcontracts.

3. A person not authorized routine access to DoD UCNI under paragraph C.2. of this appendix, may submit a request for special access to DoD UCNI to Heads of DoD Components, or their designated representative, as appropriate. A special access request must include the following information:

a. The name, current residence or business address, birthplace, birth date, and country of citizenship of the person submitting the request.

b. A description of the DoD UCNI for which special access is being requested.

c. A description of the purpose for which the DoD UCNI is needed; and

d. Certification by the requester of his or her understanding of, and willingness to abide by, the requirements for the protection of DoD UCNI contained in this part.

4. Heads of DoD Components, or their designated representative, shall base his or her decision to grant special access to DoD UCNI on an evaluation of the following criteria:

a. The sensitivity of the DoD UCNI for which special access is being requested (i.e., the worst-case, adverse effect on the health and safety of the public or the common defense and security which would result from unauthorized use of the DoD UCNI).

b. The purpose for which the DoD UCNI is needed (e.g., the DoD UCNI will be used for commercial or other private purposes, or will be used for public benefit to fulfill statutory or regulatory responsibilities).

c. The likelihood of an unauthorized dissemination by the requester of the DoD UCNI.

5. Heads of DoD Components, or their designated representative, shall attempt to notify a person who requests special access to DoD UCNI within 30 days of receipt of the request as to whether or not special access to the requested DoD UCNI is granted. If a final determination on the request cannot be made within 30 days of receipt of the request, Heads of DoD Components, or their designated representative, shall notify the requester, within 30 days of the request, as to when the final determination on the request may be made.

6. A person granted special access to specific UCNI is not an Authorized Individual and shall not further disseminate the DoD UCNI to which special access has been granted.

7. An Authorized Individual granting routine access to specific DoD UCNI to another person shall notify each person granted access (other than when the person being granted such access is a Federal Government employee, a member of the U.S. Armed Forces, or an employee of a Federal Government contractor or subcontractor) of applicable regulations concerning the protection of DoD UCNI and of any special dissemination limitations that the Authorized Individual determines to apply for the specific DoD UCNI to which routine access is being granted.

8. Heads of DoD Components, or their designated representative, shall notify each person granted special access to DoD UCNI of applicable regulations concerning the protection of DoD UCNI prior to dissemination of the DoD UCNI to the person.

9. The requirement to notify persons granted routine access or special access to specific DoD UCNI may be met by attachment of an appropriate cover sheet to the front of each document or material containing DoD UCNI prior to its transmittal to the person granted access.

D. Markings

1. An unclassified document with DoD UCNI shall be marked “DoD Unclassified Controlled Nuclear Information” at the bottom on the outside of the front cover, if any, and on the outside of the back cover, if any.

2. In an unclassified document, an individual page that has DoD UCNI shall be marked to show which of its portions contain DoD UCNI information. In marking sections, parts, paragraphs, or similar portions, the parenthetical term “(DoD UCNI)” shall be used and placed at the beginning of those portions with DoD UCNI.

3. In a classified document, an individual page that has both DoD UCNI and classified information shall be marked at the top and bottom of the page with the highest security classification of information appearing on that page. In marking sections, parts, paragraphs, or similar portions, the parenthetical term “(DoD UCNI)” shall be used and placed at the beginning of those portions with DoD UCNI. In a classified document, an individual page that has DoD UCNI, but no classified information, shall be marked “DoD Unclassified Controlled Information” at the bottom of the page. The DoD UCNI marking may be combined with other markings, if all relevant statutory and regulatory citations are included.

4. Other material (e.g., photographs, films, tapes, or slides) shall be marked “DoD Unclassified Controlled Nuclear Information” to ensure that a recipient or viewer is aware of the status of the information.
E. Dissemination and Transmission

1. DoD UCNI may be disseminated in the DoD Components, the NATO, and among the DoD contractors, consultants, and grantees on a need-to-know basis to conduct official business for the Department of Defense. Recipients shall be made aware of the status of such information, and transmission shall be by means to preclude unauthorized disclosure or dissemination. Contracts that shall require access to DoD UCNI shall require compliance with this part and the DoD Component regulations and have the requirements for the marking, handling, and safeguarding of DoD UCNI.

2. DoD holders of DoD UCNI are authorized to convey such information to officials in other Departments or Agencies on a need-to-know basis to fulfill a Government function. Transmittal documents shall call attention to the presence of DoD UCNI attachments using an appropriate statement in the text, or marking at the bottom of the transmittal document, that “The attached document contains DoD Unclassified Controlled Nuclear Information (DoD UCNI).” Similarly, documents transmitted shall be marked, as prescribed in section D. of this appendix.

3. DoD UCNI transmitted outside the Department of Defense requires application of an expanded marking to explain the significance of the DoD UCNI marking. That may be accomplished by typing or stamping the following statement on the document before transfer:

DEPARTMENT OF DEFENSE

UNCLASSIFIED CONTROLLED NUCLEAR INFORMATION

EXEMPT FROM MANDATORY DISCLOSURE

4. When not commingled with classified information, DoD UCNI may be sent by first-class mail in a single, opaque envelope or wrapping.

5. DoD UCNI may only be discussed or transmitted over an unprotected telephone or telecommunications circuit (to include facsimile transmissions) in an emergency.

6. Each part of electronically transmitted messages with DoD UCNI shall be marked appropriately. Unclassified messages with DoD UCNI shall have the abbreviation “DoD UCNI” before the beginning of the text.

7. DoD UCNI may be processed, stored, or produced on stand-alone personal computers, or shared-logic work processing systems, if protection from unauthorized disclosure or dissemination, in accordance with the procedures in section F. of this appendix, can be ensured.

8. A document marked as having DoD UCNI may be reproduced minimally without permission of the originator and consistent with the need to carry out official business.

F. Safeguarding DoD UCNI

1. During normal working hours, documents determined to have DoD UCNI shall be placed in an out-of-sight location, or otherwise controlled, if the work area is accessible to unescorted personnel.

2. At the close of business, DoD UCNI material shall be stored so to preclude disclosure. Storage of such material with other unclassified documents in unlocked receptacles; i.e., file cabinets, desks, or bookcases, is adequate, when normal Government or Government-contractor internal building security is provided during nonduty hours. When such internal building security is not provided, locked rooms or buildings normally provide adequate after-hours protection. If such protection is not considered adequate, DoD UCNI material shall be stored in locked receptacles; i.e., file cabinets, desks, or bookcases.

3. Nonrecord copies of DoD UCNI materials must be destroyed by tearing each copy into pieces to reasonably preclude reconstruction and placing the pieces in regular trash containers. If the sensitivity or volume of the information justifies it, DoD UCNI material may be destroyed in the same manner as classified material rather than by tearing. Record copies of DoD UCNI documents shall be disposed of, in accordance with the DoD Components’ record management regulations. DoD UCNI on magnetic storage media shall be disposed of by overwriting to preclude its reconstruction.

4. The unauthorized disclosure of DoD UCNI material does not constitute disclosure of DoD information that is classified for security purposes. Such disclosure of DoD UCNI justifies investigative and administrative actions to determine cause, assess impact, and fix responsibility. The DoD Component that originated the DoD UCNI information shall be informed of its unauthorized disclosure and the outcome of the investigative and administrative actions.

G. Retirement of Document of Material

1. Any unclassified document or material which is not marked as containing DoD UCNI but which may contain DoD UCNI shall be marked upon retirement in accordance with the DoD Components’ record management regulations.

2. A document or material marked as containing DoD UCNI is not required to be reviewed by a Reviewing Official upon or subsequent to retirement. A Reviewing Official shall review any retired document or material upon a request for its release made under 5 U.S.C. 552.
H. Requests for Public Release of DoD UCNI

I. Reports

The Assistant Secretary of Defense for Command, Control, Communications, and Intelligence shall prepare and maintain the quarterly reports required by 10 U.S.C. 128. The Heads of the DoD Components shall advise the ASD(C3I) when information not in the guidelines in appendix B to this part is determined to be DoD UCNI. Those reports shall have the following information:

1. Identification of the information to be controlled as DoD UCNI. It is not necessary to report each document or numbers of documents.
2. Justification for identifying the type of information to be controlled as DoD UCNI.
3. Certification that only the minimal information necessary to protect the health and safety of the public or the common defense and security is being controlled as DoD UCNI.

APPENDIX B TO PART 223.—GUIDELINES FOR THE DETERMINATION OF DOOD UCNI

A. Use of Determination of DoD UCNI Guidelines

1. These guidelines for determining DoD UCNI are the bases for determining what unclassified information about the physical protection of DoD SNM, equipment or facilities in a given technical or programmatic subject area is DoD UCNI.

2. The decision to protect unclassified information as DoD UCNI shall be based on a determination that unauthorized dissemination of such information could reasonably be expected to have an adverse effect on the health and safety of the public or the common defense and security by increasing significantly the likelihood of the illegal production of nuclear weapons or the theft, diversion, or sabotage of SNM, equipment, or facilities.

B. General

1. The policy for protecting unclassified information about the physical protection of DoD SNM, equipment, or facilities is to protect the public’s interest by controlling certain unclassified Government information so to prevent the adverse effects described in section D. of this appendix and in appendix A to this part, without restricting public availability of information that would not result in those adverse effects.

2. In controlling DoD SNM information, only the minimum restrictions needed to protect the health and safety of the public or the common defense and security shall be applied to prohibit the disclosure and dissemination of DoD UCNI.

3. Any material that has been, or is, widely and irretrievably disseminated into the public domain and whose dissemination was not, or is not, under Government control is exempt from control under these guidelines. However, the fact that information is in the public domain is not a sufficient basis for determining that similar or updated Government-owned and -controlled information in another document or material is not, or is no longer, DoD UCNI; case-by-case determinations are required.

C. Topical Guidance

The following elements of information shall be considered by the DoD Components during the preparation of unclassified information about the physical protection of DoD SNM to determine if it qualifies for control as DoD UCNI:

1. Vulnerability Assessments
   a. General vulnerabilities that could be associated with specific DoD SNM, equipment, or facility locations.
   b. The fact that DoD SNM facility security-related projects or upgrades are planned or in progress.
   c. Identification and description of security system components intended to mitigate the consequences of an accident or act of sabotage at a DoD SNM facility.

2. Material Control and Accountability
   a. Total quantity or categories of DoD SNM at a facility.
   b. Control and accountability plans or procedures.
   c. Receipts that, cumulatively, would reveal quantities and categories of DoD SNM potential interest to an adversary.
   d. Measured discards, decay losses, or losses due to fission and transmutation for a reporting period.
   e. Frequency and schedule of DoD SNM inventories.

3. Facility Description
   a. Maps, conceptual design, and construction drawings of a DoD SNM facility showing construction characteristics of building and associated electrical systems, barriers, and back-up power systems not observable from a public area.
   b. Maps, plans, photographs, or drawings of man-made or natural features in a DoD SNM facility not observable from a public area; i.e., tunnels, storm or waste sewers, water
intake and discharge conduits, or other features having the potential for concealing surreptitious movement.

4. INTRUSION DETECTION AND SECURITY ALARM SYSTEMS
   a. Information on the layout or design of security and alarm systems at a specific DoD SNM facility, if the information is not observable from a public area.
   b. The fact that a particular system make or model has been installed at a specific DoD SNM facility, if the information is not observable from a public area.
   c. Performance characteristics of installed systems.

5. KEYS, LOCKS, COMBINATIONS, AND TAMPER-INDICATING DEVICES
   a. Types and models of keys, locks, and combinations of locks used in DoD SNM facilities and during shipment.
   b. Method of application of tamper-indicating devices.
   c. Vulnerability information available from unclassified vendor specifications.

6. THREAT RESPONSE CAPABILITY AND PROCEDURES
   a. Information about arrangements with local, State, and Federal law enforcement Agencies of potential interest to an adversary.
   b. Information in “nonhostile” contingency plans of potential value to an adversary to defeat a security measure; i.e., fire, safety, nuclear accident, radiological release, or other administrative plans.
   c. Required response time of security forces.

7. PHYSICAL SECURITY EVALUATIONS
   a. Method of evaluating physical security measures not observable from public areas.
   b. Procedures for inspecting and testing communications and security systems.

8. IN-TRANSIT SECURITY
   a. Fact that a shipment is going to take place.
   b. Specific means of protecting shipments.
   c. Number and size of packages.
   d. Mobile operating and communications procedures that could be exploited by an adversary.
   e. Information on mode, routing, protection, communications, and operations that must be shared with law enforcement or other civil agencies, but not visible to the public.
   f. Description and specifications of transport vehicle compartments or security systems not visible to the public.

9. INFORMATION ON NUCLEAR WEAPON STOCKPILE AND STORAGE REQUIREMENT, NUCLEAR WEAPON DESTRUCTION AND DISABLEMENT SYSTEMS, AND NUCLEAR WEAPONS PHYSICAL CHARACTERISTICS
   Refer to CG–W–5 for guidance about the physical protection of information on nuclear weapon stockpile and storage requirements, nuclear weapon destruction and disablement systems, and nuclear weapon physical characteristics that may, under certain circumstances, be unclassified. Such information meets the adverse effects test shall be protected as DoD UCNI.

PART 224—DoD COMMITTEE MANAGEMENT PROGRAM

§ 224.3

Sec. 224.1 Purpose.
224.2 Applicability.
224.3 Definitions.
224.4 Policy.
224.5 Responsibilities.

AUTHORITY: 10 U.S.C. 137.

SOURCE: 55 FR 5002, Feb. 13, 1990, unless otherwise noted.

§ 224.1 Purpose.

This part:
(a) Revises 32 CFR part 224 and updates the policy, procedures, and responsibilities for the Department of Defense (DoD) Committee Management Program.
(b) Excludes Federal advisory committees from coverage under this part. They shall be established and administered in accordance with the provisions of DoD Directive 5105.4.1

§ 224.2 Applicability.

This Directive applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Joint Chiefs of Staff (JCS) and Joint Staff, the Unified and Specified Commands, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “DoD Components”).

§ 224.3 Definitions.

(a) Heads of OSD Organizations. The Under Secretaries of Defense; Assistant

1Copies may be obtained, at cost, from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.
§ 224.4 Policy.

It is DoD policy that:
(a) Committees shall be established only when their functions cannot be accomplished within the existing organizational structure.
(b) Committees shall be established to perform such tasks as fact-finding, research, evaluation, studies, and reviews.
(c) Committees may be established to perform operational, administrative, or management functions.
(d) When establishing committees, consideration shall be given to ensuring necessity, economy and efficiency of operation, and execution within resource constraints.
(e) Committees shall be disestablished when the purpose for which they were established has been served.
(f) Nothing contained in this part shall be construed to limit or restrict the free exchange of information, advice, and ideas between representatives of DoD Components or other Federal Agencies through ad hoc occasional meetings or other means.

§ 224.5 Responsibilities.

(a) The Director of Administration and Management, Office of the Secretary of Defense (DA&M, OSD), or his designee, shall:
(1) Provide policy guidance on the DoD Committee Management Program to DoD Components.
(2) Represent the Department of Defense and maintain liaison with the Congress, General Accounting Office (GAO), Office of Management and Budget (OMB), and other Government agencies, as required, on matters involving the DoD Committee Management Program.
(3) Obtain such information, analyses, reports, and assistance from DoD Components as is required to respond to inquiries from the Congress, GAO, OMB, and other Government agencies, consistent with the provisions of DoD Directive 7750.5.
(4) Serve as DoD Committee Management Officer with responsibility to monitor compliance with the provisions of this part.

(b) The Heads of DoD Components, or their designees, shall:
(1) Ensure that the committees under their cognizance are established and administered consistent with the provisions of this part.
(2) Develop operating procedures and provide supplemental guidance as required for the efficient operation of the committees under their cognizance.

See § 224.1(b).
(3) Administer their committee management programs, including: the approval or disapproval of proposals for the establishment, revision, continuation, or termination of operational, interagency, international, intra-Component, and joint DoD committees under their cognizance; the development of pertinent operating documents such as charters, membership lists, terms of reference, memoranda of understanding, and international agreements; and, the maintenance and disposition of reports, records, and minutes of meetings.

(4) Approve or disapprove proposals for participation by their Components on committees chaired by another DoD Component, Government agency, or foreign government.

(5) Maintain information about the program, objectives, and activities of each committee established within their Component and provide such information, when requested, to the DA&M.

(6) Conduct periodic reviews of existing committees, and evaluate recommendations for their revision, consolidation, or termination.

(7) Designate a Committee Management Officer to assist in the performance of the above responsibilities.

PART 226—SHELTER FOR THE HOMELESS

§ 226.3 Policy.

(a) By Memorandum for the Secretaries of the Military Departments from the Secretary of Defense dated October 29, 1984, and entitled: “Shelter for the Homeless”, the Secretary of Defense stated it is Department of Defense policy that shelters for the homeless may be established on military installations.

(b) The Secretary of a Military Department, or designee, may make military installations under his or her jurisdiction available for the furnishing of shelter to persons without adequate shelter in accordance with 10 U.S.C. 2546 and this part if he or she, or designee, determines that such shelter will not interfere with military preparedness or ongoing military functions.

(c) The Secretary of a Military Department, after determining that a shelter for the homeless may be established on a military installation, shall ensure that the plans for the shelter be developed in cooperation with appropriate State or local governmental entities and charitable organizations. The State or local government entity, either separately or in conjunction with the charitable organization, shall be responsible for operating and staffing any shelter established under the Shelter for the Homeless Program.

(d) Services that may be provided by a Military Department incident to the furnishing of shelter under 10 U.S.C. 2546 are the following:

(1) Utilities.
(2) Bedding.
(3) Security.
(4) Transportation.
(5) Renovation of facilities.
(6) Minor repairs undertaken specifically to make suitable space available for shelter to be provided in accordance with 10 U.S.C. 2546 and this part.
(7) Property liability insurance.

(e) The Military Departments should be especially sensitive to establishing shelters in the following areas:

(1) Family housing areas,
(2) Troop billeting areas,
§ 226.4 Responsibilities.

(a) The Deputy Assistant Secretary of Defense (Installations) shall:

(1) Administer the Homeless Assistance Program and issue such supplemental guidance as is necessary.

(2) Appoint an individual as Director, The Homeless Assistance Program, who shall be the Department of Defense program manager responsible for monitoring the Shelter for the Homeless program and answering all inquiries.

(b) The Assistance Secretary of Defense (Comptroller) shall provide guidance on the use of Department of Defense funds to finance the items issued in support of the Shelter for the Homeless program.

(c) The Secretaries of the Military Departments shall:

(1) Implement the Shelter for the Homeless program.

(2) Appoint a senior manager to monitor the Shelter for the Homeless program within that Department and to provide any assistance that may be required to the Deputy Assistant Secretary of Defense (Installations). Such official, after consultation with the Director, The Homeless Assistance Program ODASD(I), shall approve or disapprove all requests to establish a Shelter for the Homeless in accordance with 10 U.S.C. 2546 and this part.

(3) Ensure that upon receipt of a formal request for assistance, as defined in §226.3(h) of this part, the Military Department concerned provides an appropriate response to the requester within 30 days.

(4) Ensure that each Installation Commander is informed about the Shelter for the Homeless Program and the types of assistance that they may provide as authorized by 10 U.S.C. 2546 and this part.

(d) Department of Defense Installation Commanders shall:

(1) Acknowledge all requests for assistance.

(2) Upon receipt of a request, initiate such action as is necessary to determine the availability of facilities at that installation for use as a shelter for the homeless.

(3) Forward each request, through the chain of command, to the Service Senior Manager with a copy to the DASD(I). The Installation Commander’s recommendation shall accompany each request.

§ 226.5 Effective date and implementation.

This part is effective October 30, 1987. Forward one copy of implementing documents to the Deputy Assistant Secretary of Defense (Installations) within 60 days.
PART 228—SECURITY PROTECTIVE FORCE

§ 228.1 Applicability.

This part applies to all property under the charge and control of the Director, NSA, and to all persons entering in or on such property (hereinafter referred to as “protected property”). Employees of the NSA and any other persons entering upon protected property shall be subject to these regulations.

§ 228.2 Control of activities on protected property.

Persons in and on protected property shall at all times comply with official signs of a prohibitory, regulatory, or directory nature and with the direction of Security Protective Officers and any other duly authorized personnel.

§ 228.3 Restrictions on admission to protected property.

Access to protected property shall be restricted to ensure the orderly and secure conduct of Agency business. Admission to protected property will be restricted to employees and other persons with proper authorization who shall, when requested, display government or other identifying credentials to the Security Protective Officers or other duly authorized personnel when entering, leaving, or while on the property.

§ 228.4 Control of vehicles on protected property.

Drivers of all vehicles entering or while on protected property shall comply with the signals and directions of Security Protective Officers or other duly authorized personnel and any posted traffic instructions. All vehicles shall be driven in a safe and careful manner at all times, in compliance with applicable motor vehicle laws.

§ 228.5 Enforcement of parking regulations.

For reasons of security, parking regulations shall be strictly enforced. Except with proper authorization, parking on protected property is not allowed without a permit. Parking without a permit or other authorization, parking in unauthorized locations or in locations reserved for other persons, or parking contrary to the direction of posted signs or applicable state or federal laws and regulations is prohibited. Vehicles parked in violation, where warning signs are posted, shall be subject to removal at the owner’s risk, which shall be in addition to any penalties assessed pursuant to §228.18. The Agency assumes no responsibility for the payment of any fees or costs related to such removal which may be charged to the owner of the vehicle by the towing organization. This paragraph may be supplemented from time to time with the approval of the NSA Director of Security or his designee by the issuance and posting of such specific traffic directives as may be required, and when so issued and posted such directives shall have the same force and effect as if made a part hereof. Proof that a vehicle was parked in violation of these regulations or directives may be taken as prima facie evidence that the registered owner was responsible for the violation.
§ 228.6  Security inspection.

Any personal property, including but not limited to any packages, briefcases, containers or vehicles brought into, while on, or being removed from protected property are subject to inspection. A search of a person may accompany an investigative stop or an arrest.

§ 228.7  Prohibition on weapons and explosives.

No persons entering or while on protected property shall carry or possess, either openly or concealed, firearms, any illegal or legally controlled weapon (e.g., throwing stars, switchblades), explosives, or items intended to be used to fabricate an explosive or incendiary device, except as authorized by the NSA Director of Security or his designee at each Agency facility. The use of chemical agents (Mace, tear gas, etc.) on protected property in circumstances that do not include an immediate and unlawful threat of physical harm to any person or persons is prohibited; however, this prohibition does not apply to use by law enforcement personnel in the performance of their duties.

§ 228.8  Prohibition on photographic or electronic recording or transmitting equipment.

No person entering or while on protected property shall bring or possess any kind of photographic, recording or transmitting equipment (including but not limited to cameras, cellular telephones, or recorders), except as specially authorized by the NSA Director of Security or his designee at each Agency facility.

§ 228.9  Prohibition on narcotics and illegal substances.

Entering or being on protected property under the influence of, or while using or possessing, any narcotic drug, hallucinogen, marijuana, barbiturate or amphetamine is prohibited. Operation of a motor vehicle entering or while on protected property by a person under the influence of narcotic drugs, hallucinogens, marijuana, barbiturates or amphetamines is also prohibited. These prohibitions shall not apply in cases where the drug is being used as prescribed for a patient by a licensed physician.

§ 228.10  Prohibition on alcohol.

Entering or being on protected property under the influence of alcoholic beverages is prohibited. Operation of a motor vehicle entering or while on protected property by a person under the influence of alcoholic beverages is prohibited. The use of alcoholic beverages on protected property is also prohibited, except on occasions and on protected property for which the NSA Deputy Director for Support Services or his designee has granted approval for such use.

§ 228.11  Restrictions on the taking of photographs.

In order to protect the security of the Agency’s facilities, photographs may be taken on protected property only with the consent of the NSA Director of Security or his designee. The taking of photographs includes the use of television cameras, video taping equipment, and still or motion picture cameras.

§ 228.12  Physical protection of facilities.

The willful destruction of, or damage to any protected property, or any buildings or personal property thereon, is prohibited. The theft of any personal property, the creation of any hazard on protected property to persons or things, and the throwing of articles of any kind at buildings or persons on protected property is prohibited. The improper disposal of trash or rubbish, or any unauthorized or hazardous materials on protected property is also prohibited.

§ 228.13  Disturbances on protected property.

Any conduct which impedes or threatens the security of protected property, or any buildings or persons thereon, or which disrupts the performance of official duties by Agency employees, or which interferes with ingress to or egress from protected property is prohibited. Also prohibited is any disorderly conduct, any failure to obey an order to depart the premises,
any unwarranted loitering, any behavior which creates loud or unusual noise or nuisance, or any conduct which obstructs the usual use of entrances, foyers, lobbies, corridors, offices, elevators, stairways or parking lots.

§ 228.14 Prohibition on gambling.
Participating in games for money or other personal property, or the operating of gambling devices, the conduct of a lottery, or the selling or purchasing of numbers tickets, in or on protected property is prohibited. This prohibition shall not apply to the vending or exchange of chances by licensed blind operators of vending facilities for any lottery set forth in a State law and conducted by an agency of a State as authorized by section 2(a)(5) of the Randolph-Sheppard Act, as amended (20 U.S.C. 107(a)(5)).

§ 228.15 Restriction regarding animals.
No animals except guide dogs for the blind or hearing impaired, or guard or search dogs used by authorized state or federal officials, shall be brought upon protected property, except as authorized by the NSA Director of Security or his designee at each Agency facility.

§ 228.16 Soliciting, vending, and debt collection.
Commercial or political soliciting, vending of all kinds, displaying or distributing commercial advertising, collecting private debts or soliciting aims on protected property is prohibited. This does not apply to:
(a) National or local drives for welfare, health, or other purposes as authorized by the “Manual on Fund Raising Within the Federal Service,” issued by the U.S. Office of Personnel Management under Executive Order 12353, 47 FR 12785, 3 CFR, 1982 Comp., p. 139, or by other federal laws or regulations; and
(b) Authorized employee notices posted on Agency bulletin boards.

§ 228.17 Distribution of unauthorized materials.
Distributing, posting or affixing materials, such as pamphlets, handbills, or flyers, on protected property is prohibited, except as provided by § 228.16, as authorized by the NSA Director of Security or his designee at each Agency facility, or when conducted as part of authorized Government activities.

§ 228.18 Penalties and the effect on other laws.
Whoever shall be found guilty of violating any provision of these regulations is subject to a fine of not more than $50 or imprisonment of not more than 30 days, or both. In the case of traffic and parking violations, fines assessed shall be in accordance with the schedule(s) of fines adopted by the United States District Court for the District where the offense occurred. Nothing in these regulations shall be construed to abrogate or supersede any other Federal laws or any State or local laws or regulations applicable to any area in which the protected property is situated.

PART 229—PROTECTION OF ARCHAEOLOGICAL RESOURCES: UNIFORM REGULATIONS

Sec. 229.1 Purpose.
229.2 Authority.
229.3 Definitions.
229.4 Prohibited acts and criminal penalties.
229.5 Permit requirements and exceptions.
229.6 Application for permits and information collection.
229.7 Notification to Indian tribes of possible harm to, or destruction of, sites on public lands having religious or cultural importance.
229.8 Issuance of permits.
229.9 Terms and conditions of permits.
229.10 Suspension and revocation of permits.
229.11 Appeals relating to permits.
229.12 Relationship to section 106 of the National Historic Preservation Act.
229.13 Custody of archaeological resources.
229.14 Determination of archaeological or commercial value and cost of restoration and repair.
229.15 Assessment of civil penalties.
229.16 Civil penalty amounts.
229.17 Other penalties and rewards.
229.18 Confidentiality of archaeological resource information.
229.19 Report.
229.20 Public awareness programs.
229.21 Surveys and schedules.

NOTE: The information collection and reporting requirements in this part were approved by the Office of Management and Budget under control number 1524-0097.

429
§ 229.1 Purpose.

(a) The regulations in this part implement provisions of the Archaeological Resources Protection Act of 1979, as amended (16 U.S.C. 470aa–mm) by establishing the uniform definitions, standards, and procedures to be followed by all Federal land managers in providing protection for archaeological resources, located on public lands and Indian lands of the United States. These regulations enable Federal land managers to protect archaeological resources, taking into consideration provisions of the American Indian Religious Freedom Act (92 Stat. 469; 42 U.S.C. 1996), through permits authorizing excavation and/or removal of archaeological resources, through civil penalties for unauthorized excavation and/or removal, through provisions for the preservation of archaeological resource collections and data, and through provisions for ensuring confidentiality of information about archaeological resources when disclosure would threaten the archaeological resources.

(b) The regulations in this part do not impose any new restrictions on activities permitted under other laws, authorities, and regulations relating to mining, mineral leasing, reclamation, and other multiple uses of the public lands.

[49 FR 1027, Jan. 6, 1984, as amended at 60 FR 5260, Jan. 26, 1995]

§ 229.2 Authority.

(a) The regulations in this part are promulgated pursuant to section 10(a) of the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470ii), which requires that the Secretaries of the Interior, Agriculture and Defense and the Chairman of the Board of the Tennessee Valley Authority jointly develop uniform rules and regulations for carrying out the purposes of the Act.

(b) In addition to the regulations in this part, section 10(b) of the Act (16 U.S.C. 470ii) provides that each Federal land manager shall promulgate such rules and regulations, consistent with the uniform rules and regulations in this part, as may be necessary for carrying out the purposes of the Act.

§ 229.3 Definitions.

As used for purposes of this part:

(a) Archaeological resource means any material remains of human life or activities which are at least 100 years of age, and which are of archaeological interest.

(1) Of archaeological interest means capable of providing scientific or humanistic understandings of past human behavior, cultural adaptation, and related topics through the application of scientific or scholarly techniques such as controlled observation, contextual measurement, controlled collection, analysis, interpretation and explanation.

(2) Material remains means physical evidence of human habitation, occupation, use, or activity, including the site, location, or context in which such evidence is situated.

(3) The following classes of material remains (and illustrative examples), if they are at least 100 years of age, are of archaeological interest and shall be considered archaeological resources unless determined otherwise pursuant to paragraph (a)(4) or (a)(5) of this section:

(i) Surface or subsurface structures, shelters, facilities, or features (including, but not limited to, domestic structures, storage structures, cooking structures, ceremonial structures, artificial mounds, earthworks, fortifications, canals, reservoirs, horticultural/agricultural gardens or fields, bedrock mortars or grinding surfaces, rock alignments, cairns, trails, borrow pits, cooking pits, refuse pits, burial pits or graves, hearths, kilns, post molds, wall trenches, middens);

(ii) Surface or subsurface artifact concentrations or scatters;

(iii) Whole or fragmentary tools, implements, containers, weapons and
weapon projectiles, clothing, and ornaments (including, but not limited to, pottery and other ceramics, cordage, basketry and other weaving, bottles and other glassware, bone, ivory, shell, metal, wood, hide, feathers, pigments, and flaked, ground, or pecked stone); (iv) By-products, waste products, or debris resulting from manufacture or use of human-made or natural materials; (v) Organic waste (including, but not limited to, vegetal and animal remains, coprolites); (vi) Human remains (including, but not limited to, bone, teeth, mummified flesh, burials, cremations); (vii) Rock carvings, rock paintings, intaglios and other works of artistic or symbolic representation; (viii) Rockshelters and caves or portions thereof containing any of the above material remains; (ix) All portions of shipwrecks (including, but not limited to, armaments, apparel, tackle, cargo); (x) Any portion or piece of any of the foregoing.

(4) The following material remains shall not be considered of archaeological interest, and shall not be considered to be archaeological resources for purposes of the Act and this part, unless found in a direct physical relationship with archaeological resources as defined in this section:

(i) Paleontological remains; (ii) Coins, bullets, and unworked minerals and rocks.

(5) The Federal land manager may determine that certain material remains, in specified areas under the Federal land manager’s jurisdiction, and under specified circumstances, are not or are no longer of archaeological interest and are not to be considered archaeological resources under this part. Any determination made pursuant to this subparagraph shall be documented. Such determination shall in no way affect the Federal land manager’s obligations under other applicable laws or regulations.

(6) For the disposition following lawful removal or excavations of Native American human remains and “cultural items”, as defined by the Native American Graves Protection and Repatriation Act (NAGPRA; Pub. L. 101-601; 104 Stat. 3050; 25 U.S.C. 3001–13), the Federal land manager is referred to NAGPRA and its implementing regulations.

(b) Arrowhead means any projectile point which appears to have been designed for use with an arrow.

(c) Federal land manager means:

(1) With respect to any public lands, the secretary of the department, or the head of any other agency or instrumentality of the United States, having primary management authority over such lands, including persons to whom such management authority has been officially delegated;

(2) In the case of Indian lands, or any public lands with respect to which no department, agency or instrumentality has primary management authority, such term means the Secretary of the Interior;

(3) The Secretary of the Interior, when the head of any other agency or instrumentality has, pursuant to section 3(2) of the Act and with the consent of the Secretary of the Interior, delegated to the Secretary of the Interior the responsibilities (in whole or in part) in this part.

(d) Public lands means:

(1) Lands which are owned and administered by the United States as part of the national park system, the national wildlife refuge system, or the national forest system; and

(2) All other lands the fee title to which is held by the United States, except lands on the Outer Continental Shelf, lands under the jurisdiction of the Smithsonian Institution, and Indian lands.

(e) Indian lands means lands of Indian tribes, or Indian individuals, which are either held in trust by the United States or subject to a restriction against alienation imposed by the United States, except for subsurface interests not owned or controlled by an Indian tribe or Indian individual.

(f) Indian tribe as defined in the Act means any Indian tribe, band, nation, or other organized group or community, including any Alaska village or regional or village corporation as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (85 Stat. 688). In order to clarify this
statutory definition for purposes of this part, “Indian tribe” means:

(1) Any tribal entity which is included in the annual list of recognized tribes published in the Federal Register by the Secretary of the Interior pursuant to 25 CFR part 54;

(2) Any other tribal entity acknowledged by the Secretary of the Interior pursuant to 25 CFR part 54 since the most recent publication of the annual list; and

(3) Any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688), and any Alaska Native village or tribe which is recognized by the Secretary of the Interior as eligible for services provided by the Bureau of Indian Affairs.

(g) Person means an individual, corporation, partnership, trust, institution, association, or any other private entity, or any officer, employee, agent, department, or instrumentality of the United States, or of any Indian tribe, or of any State or political subdivision thereof.

(h) State means any of the fifty states, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

§ 229.4 Prohibited acts and criminal penalties.

(a) Under section 6(a) of the Act, no person may excavate, remove, damage, or otherwise alter or deface, or attempt to excavate, remove, damage, or otherwise alter or deface any archaeological resource located on public lands or Indian lands unless such activity is pursuant to a permit issued under §229.8 or exempted by §229.5(b) of this part.

(b) No person may sell, purchase, exchange, transport, or receive any archaeological resource, if such resource was excavated or removed in violation of:

(1) The prohibitions contained in paragraph (a) of this section; or

(2) Any provision, rule, regulation, ordinance, or permit in effect under any other provision of Federal law.

(c) Under section (d) of the Act, any person who knowingly violates or counsels, procures, solicits, or employs any other person to violate any prohibition contained in section 6 (a), (b), or (c) of the Act will, upon conviction, be fined not more than $10,000.00 or imprisoned not more than one year, or both: provided, however, that if the commercial or archaeological value of the archaeological resources involved and the cost of restoration and repair of such resources exceeds the sum of $500.00, such person will be fined not more than $25,000.00 or imprisoned not more than two years, or both. In the case of a second or subsequent such violation upon conviction such person will be fined not more than $100,000.00, or imprisoned not more than five years, or both.

§ 229.5 Permit requirements and exceptions.

(a) Any person proposing to excavate and/or remove archaeological resources from public lands or Indian lands, and to carry out activities associated with such excavation and/or removal, shall apply to the Federal land manager for a permit for the proposed work, and shall not begin the proposed work until a permit has been issued. The Federal land manager may issue a permit to any qualified person, subject to appropriate terms and conditions, provided that the person applying for a permit meets conditions in §229.8(a) of this part.

(b) Exceptions:

(1) No permit shall be required under this part for any person conducting activities on the public lands under other permits, leases, licenses, or entitlements for use, when those activities are exclusively for purposes other than the excavation and/or removal of archaeological resources, even though those activities might incidentally result in the disturbance of archaeological resources. General earth-moving excavation conducted under a permit or other authorization shall not be construed to mean excavation and/or removal as used in this part. This exception does not, however, affect the Federal land manager’s responsibility...
to comply with other authorities which protect archaeological resources prior to approving permits, leases, licenses, or entitlements for use; any excavation and/or removal of archaeological resources required for compliance with those authorities shall be conducted in accordance with the permit requirements of this part.

(2) No permit shall be required under this part for any person collecting for private purposes any rock, coin, bullet, or mineral which is not an archaeological resource as defined in this part, provided that such collecting does not result in disturbance of any archaeological resource.

(3) No permit shall be required under this part or under section 3 of the Act of June 8, 1906 (16 U.S.C. 432), for the excavation or removal by any Indian tribe or member thereof of any archaeological resource located on Indian lands of such Indian tribe, except that in the absence of tribal law regulating the excavation or removal or archaeological resources on Indian lands, an individual tribal member shall be required to obtain a permit under this part:

(4) No permit shall be required under this part for any person to carry out any archaeological activity authorized by a permit issued under section 3 of the Act of June 8, 1906 (16 U.S.C. 432), before the enactment of the Archaeological Resources Protection Act of 1979. Such permit shall remain in effect according to its terms and conditions until expiration.

(5) No permit shall be required under section 3 of the Act of June 8, 1906 (16 U.S.C. 432) for any archaeological work for which a permit is issued under this part.

(c) Persons carrying out official agency duties under the Federal land manager’s direction, associated with the management of archaeological resources, need not follow the permit application procedures of § 229.6. However, the Federal land manager shall ensure that provisions of § 229.8 and § 229.9 have been met by other documented means, and that any official duties which might result in harm to or destruction of any Indian tribal religious or cultural site, as determined by the Federal land manager, have been the subject of consideration under § 229.7.

(d) Upon the written request of the Governor of any State, on behalf of the State or its educational institutions, the Federal land manager shall issue a permit, subject to the provisions of §§ 229.5(b)(5), 229.7, 229.8(a)(3), (4), (5), (6), and (7), 229.9, 229.10, 229.12, and 229.13(a) to such Governor or to such designee as the Governor deems qualified to carry out the intent of the Act, for purposes of conducting archaeological research, excavating and/or removing archaeological resources, and safeguarding and preserving any materials and data collected in a university, museum, or other scientific or educational institution approved by the Federal land manager.

(e) Under other statutory, regulatory, or administrative authorities governing the use of public lands and Indian lands, authorizations may be required for activities which do not require a permit under this part. Any person wishing to conduct on public lands or Indian lands any activities related to but believed to fall outside the scope of this part should consult with the Federal land manager, for the purpose of determining whether any authorization is required, prior to beginning such activities.

§ 229.6 Application for permits and information collection.

(a) Any person may apply to the appropriate Federal land manager for a permit to excavate and/or remove archaeological resources from public lands or Indian lands and to carry out activities associated with such excavation and/or removal.

(b) Each application for a permit shall include:

(1) The nature and extent of the work proposed, including how and why it is proposed to be conducted, proposed time of performance, locational maps, and proposed outlet for public written dissemination of the results.

(2) The name and address of the individual(s) proposed to be responsible for conducting the work, institutional affiliation, if any, and evidence of education, training, and experience in accordance with the minimal qualifications listed in § 229.8(a).
§229.7

(3) The name and address of the individual(s), if different from the individual(s) named in paragraph (b)(2) of this section, proposed to be responsible for carrying out the terms and conditions of the permit.

(4) Evidence of the applicant’s ability to initiate, conduct, and complete the proposed work, including evidence of logistical support and laboratory facilities.

(5) Where the application is for the excavation and/or removal of archaeological resources on public lands, the names of the university, museum, or other scientific or educational institution in which the applicant proposes to store all collections, and copies of records, data, photographs, and other documents derived from the proposed work. Applicants shall submit written certification, signed by an authorized official of the institution, of willingness to assume curatorial responsibility for the collections, records, data, photographs and other documents and to safeguard and preserve these materials as property of the United States.

(6) Where the application is for the excavation and/or removal of archaeological resources on Indian lands, the name of the university, museum, or other scientific or educational institution in which the applicant proposes to store copies of records, data, photographs, and other documents derived from the proposed work. Applicants shall submit written certification, signed by an authorized official of the institution, of willingness to assume curatorial responsibility for the collections, if applicable, and/or the records, data, photographs, and other documents derived from the proposed work.

(c) The Federal land manager may require additional information, pertinent to land management responsibilities, to be included in the application for permit and shall so inform the applicant.

(d) Paperwork Reduction Act. The information collection requirement contained in this section of these regulations has been approved by the Office of Management and Budget under 44 U.S.C. 3501 et seq. and assigned clearance number 1024–0037. The purpose of the information collection is to meet statutory and administrative requirements in the public interest. The information will be used to assist Federal land managers in determining that applicants for permits are qualified, that the work proposed would further archaeological knowledge, that archaeological resources and associated records and data will be properly preserved, and that the permitted activity would not conflict with the management of the public lands involved. Response to the information requirement is necessary in order for an applicant to obtain a benefit.

§229.7 Notification to Indian tribes of possible harm to, or destruction of, sites on public lands having religious or cultural importance.

(a) If the issuance of a permit under this part may result in harm to, or destruction of, any Indian tribal religious or cultural site on public lands, as determined by the Federal land manager, at least 30 days before issuing such a permit the Federal land manager shall notify any Indian tribe which may consider the site as having religious or cultural importance. Such notice shall not be deemed a disclosure to the public for purposes of section 9 of the Act.

(1) Notice by the Federal land manager to any Indian tribe shall be sent to the chief executive officer or other designated official of the tribe. Indian tribes are encouraged to designate a tribal official to be the focal point for any notification and discussion between the tribe and the Federal land manager.

(2) The Federal land manager may provide notice to any other Native American group that is known by the Federal land manager to consider sites potentially affected as being of religious or cultural importance.

(3) Upon request during the 30-day period, the Federal land manager may meet with official representatives of any Indian tribe or group to discuss their interests, including ways to avoid or mitigate potential harm or destruction such as excluding sites from the permit area. Any mitigation measures
which are adopted shall be incorporated into the terms and conditions of the permit under §229.9.

(4) When the Federal land manager determines that a permit applied for under this part must be issued immediately because of an imminent threat of loss or destruction of an archaeological resource, the Federal land manager shall so notify the appropriate tribe.

(b)(1) In order to identify sites of religious or cultural importance, the Federal land manager shall seek to identify all Indian tribes having aboriginal or historic ties to the lands under the Federal land manager’s jurisdiction and seek to determine, from the chief executive officer or other designated official of any such tribe, the location and nature of specific sites of religious or cultural importance so that such information may be on file for land management purposes. Information on sites eligible for or included in the National Register of Historic Places may be withheld from public disclosure pursuant to section 304 of the Act of October 15, 1966, as amended (16 U.S.C. 470w–3).

(2) If the Federal land manager becomes aware of a Native American group that is not an Indian tribe as defined in this part but has aboriginal or historic ties to public lands under the Federal land manager’s jurisdiction, the Federal land manager may seek to communicate with official representatives of that group to obtain information on sites they may consider to be of religious or cultural importance.

(3) The Federal land manager may enter into agreement with any Indian tribe or other Native American group for determining locations for which such tribe or group wishes to receive notice under this section.

(4) The Federal land manager should also seek to determine, in consultation with official representatives of Indian tribes or other Native American groups, what circumstances should be the subject of special notification to the tribe or group after a permit has been issued. Circumstances calling for notification might include the discovery of human remains. When circumstances for special notification have been determined by the Federal land manager, the Federal land manager will include a requirement in the terms and conditions of permits, under §229.9(c), for permittees to notify the Federal land manager immediately upon the occurrence of such circumstances. Following the permittee’s notification, the Federal land manager will notify and consult with the tribe or group as appropriate. In cases involving Native American human remains and other “cultural items”, as defined by NAGPRA, the Federal land manager is referred to NAGPRA and its implementing regulations.

[49 FR 1027, Jan. 6, 1984, as amended at 60 FR 5260, 5261, Jan. 26, 1995]

§ 229.8 Issuance of permits.

(a) The Federal land manager may issue a permit, for a specified period of time appropriate to the work to be conducted, upon determining that:

(1) The applicant is appropriately qualified, as evidenced by training, education, and/or experience, and possesses demonstrable competence in archaeological theory and methods, and in collecting, handling, analyzing, evaluating, and reporting archaeological data, relative to the type and scope of the work proposed, and also meets the following minimum qualifications:

(i) A graduate degree in anthropology or archaeology, or equivalent training and experience;

(ii) The demonstrated ability to plan, equip, staff, organize, and supervise activity of the type and scope proposed;

(iii) The demonstrated ability to carry research to completion, as evidenced by timely completion of theses, research reports, or similar documents;

(iv) Completion of at least 16 months of professional experience and/or specialized training in archaeological field, laboratory, or library research, administration, or management, including at least 4 months experience and/or specialized training in the kind of activity the individual proposes to conduct under authority of a permit; and

(v) Applicants proposing to engage in historical archaeology should have had
§ 229.9 Terms and conditions of permits.

(a) In all permits issued, the Federal land manager shall specify:

(1) The nature and extent of work allowed and required under the permit, including the time, duration, scope, location, and purpose of the work;

(2) The name of the individual(s) responsible for conducting the work and, if different, the name of the individual(s) responsible for carrying out the terms and conditions of the permit;

(3) The name of any university, museum, or other scientific or educational institutions in which any collected materials and data shall be deposited; and

(4) Reporting requirements.

(b) The Federal land manager may specify such terms and conditions as deemed necessary, consistent with this part, to protect public safety and other values and/or resources, to secure work areas, to safeguard other legitimate land uses, and to limit activities incidental to work authorized under a permit.

(c) The Federal land manager shall include in permits issued for archaeological work on Indian lands such terms and conditions as may be requested by the Indian landowner and the Indian tribe having jurisdiction over such lands.

[49 FR 1027, Jan. 6, 1984, as amended at 49 FR 5923, Feb. 16, 1984]

436
Office of the Secretary of Defense

§ 229.13 Custody of archaeological resources.

(a) Archaeological resources excavated or removed from the public lands remain the property of the United States.

(b) Archaeological resources excavated or removed from Indian lands remain the property of the Indian or Indian tribe having rights of ownership over such resources.

(c) The Secretary of the Interior may promulgate regulations providing for the exchange of archaeological resources among suitable universities, museums, or other scientific or educational institutions, for the ultimate disposition of archaeological resources, and for standards by which archaeological resources shall be preserved and maintained, when such resources have been excavated or removed from public lands and Indian lands.

(d) In the absence of regulations referenced in paragraph (c) of this section, the Federal land manager may provide for the exchange of archaeological resources among suitable universities,
§ 229.14 Determination of archaeological or commercial value and cost of restoration and repair.

(a) Archaeological value. For purposes of this part, the archaeological value of any archaeological resource involved in a violation of the prohibitions in §229.4 of this part or conditions of a permit issued pursuant to this part shall be the value of the information associated with the archaeological resource. This value shall be appraised in terms of the costs of the retrieval of the scientific information which would have been obtainable prior to the violation. These costs may include, but need not be limited to, the cost of preparing a research design, conducting field work, carrying out laboratory analysis, and preparing reports as would be necessary to realize the information potential.

(b) Commercial value. For purposes of this part, the commercial value of any archaeological resource involved in a violation of the prohibitions in §229.4 of this part or conditions of a permit issued pursuant to this part shall be its fair market value. Where the violation has resulted in damage to the archaeological resource, the fair market value should be determined using the condition of the archaeological resource prior to the violation, to the extent that its prior condition can be ascertained.

(c) Cost of restoration and repair. For purposes of this part, the cost of restoration and repair of archaeological resources damaged as a result of a violation of prohibitions or conditions pursuant to this part, shall be the sum of the costs already incurred for emergency restoration or repair work, plus those costs projected to be necessary to complete restoration and repair, which may include, but need not be limited to, the costs of the following:

(1) Reconstruction of the archaeological resource;
(2) Stabilization of the archaeological resource;
(3) Ground contour reconstruction and surface stabilization;
(4) Research necessary to carry out reconstruction or stabilization;
(5) Physical barriers or other protective devices, necessitated by the disturbance of the archaeological resource, to protect it from further disturbance;
(6) Examination and analysis of the archaeological resource including recording remaining archaeological information, where necessitated by disturbance, in order to salvage remaining values which cannot be otherwise conserved;
(7) Reinterment of human remains in accordance with religious custom and State, local, or tribal law, where appropriate, as determined by the Federal land manager.
(8) Preparation of reports relating to any of the above activities.

§ 229.15 Assessment of civil penalties.

(a) The Federal land manager may assess a civil penalty against any person who has violated any prohibition contained in §229.4 or who has violated any term or condition included in a permit issued in accordance with the Act and this part.

(b) Notice of violation. The Federal land manager shall serve a notice of violation upon any person believed to be subject to a civil penalty, either in person or by registered or certified mail (return receipt requested). The Federal land manager shall include in the notice:

(1) A concise statement of the facts believed to show a violation;
(2) A specific reference to the provision(s) of this part or to a permit issued pursuant to this part allegedly violated;
§ 229.15

(3) The amount of penalty proposed to be assessed, including any initial proposal to mitigate or remit where appropriate, or a statement that notice of a proposed penalty amount will be served after the damages associated with the alleged violation have been ascertained;

(4) Notification of the right to file a petition for relief pursuant to paragraph (d) of this section, or to await the Federal land manager’s notice of assessment, and to request a hearing in accordance with paragraph (g) of this section. The notice shall also inform the person of the right to seek judicial review of any final administrative decision assessing a civil penalty.

(c) The person served with a notice of violation shall have 45 calendar days from the date of its service (or the date of service of a proposed penalty amount, if later) in which to respond. During this time the person may:

(1) Seek informal discussions with the Federal land manager;

(2) File a petition for relief in accordance with paragraph (d) of this section;

(3) Take no action and await the Federal land manager’s notice of assessment;

(4) Accept in writing or by payment the proposed penalty, or any mitigation or remission offered in the notice. Acceptance of the proposed penalty or mitigation or remission shall be deemed a waiver of the notice of assessment and of the right to request a hearing under paragraph (g) of this section.

(d) Petition for relief. The person served with a notice of violation may request that no penalty be assessed or that the amount be reduced, by filing a petition for relief with the Federal land manager within 45 calendar days of the date of service of the notice of violation (or of a proposed penalty amount, if later). The petition shall be in writing and signed by the person served with the notice of violation. If the person is a corporation, the petition must be signed by an officer authorized to sign such documents. The petition shall set forth in full the legal or factual basis for the requested relief.

(e) Assessment of penalty. (1) The Federal land manager shall assess a civil penalty upon expiration of the period for filing a petition for relief, upon completion of review of any petition filed, or upon completion of informal discussions, whichever is later.

(2) The Federal land manager shall take into consideration all available information, including information provided pursuant to paragraphs (c) and (d) of this section or furnished upon further request by the Federal land manager.

(3) If the facts warrant a conclusion that no violation has occurred, the Federal land manager shall so notify the person served with a notice of violation, and no penalty shall be assessed.

(4) Where the facts warrant a conclusion that a violation has occurred, the Federal land manager shall determine a penalty amount in accordance with § 229.16.

(f) Notice of assessment. The Federal land manager shall notify the person served with a notice of violation of the penalty amount assessed by serving a written notice of assessment, either in person or by registered or certified mail (return receipt requested). The Federal land manager shall include in the notice of assessment:

(1) The facts and conclusions from which it was determined that a violation did occur;

(2) The basis in § 229.16 for determining the penalty amount assessed and/or any offer to mitigate or remit the penalty; and

(3) Notification of the right to request a hearing, including the procedures to be followed, and to seek judicial review of any final administrative decision assessing a civil penalty.

(g) Hearings. (1) Except where the right to request a hearing is deemed to have been waived as provided in paragraph (c)(4) of this section, the person served with a notice of assessment may file a written request for a hearing with the adjudicatory body specified in the notice. The person shall enclose with the request for hearing a copy of the notice of assessment, and shall deliver the request as specified in the notice of assessment, personally or by registered or certified mail (return receipt requested).

(2) Failure to deliver a written request for a hearing within 45 days of
the date of service of the notice of assessment shall be deemed a waiver of the right to a hearing.

(3) Any hearing conducted pursuant to this section shall be held in accordance with 5 U.S.C. 554. In any such hearing, the amount of civil penalty assessed shall be determined in accordance with this part, and shall not be limited by the amount assessed by the Federal land manager under paragraph (f) of this section or any offer of mitigation or remission made by the Federal land manager.

(h) Final administrative decision. (1) Where the person served with a notice of violation has accepted the penalty pursuant to paragraph (c)(4) of this section, the notice of violation shall constitute the final administrative decision;

(2) Where the person served with a notice of assessment has not filed a timely request for a hearing pursuant to paragraph (g)(1) of this section, the notice of assessment shall constitute the final administrative decision;

(3) Where the person served with a notice of assessment has filed a timely request for a hearing pursuant to paragraph (g)(1) of this section, the decision resulting from the hearing or any applicable administrative appeal therefrom shall constitute the final administrative decision.

(i) Payment of penalty. (1) The person assessed a civil penalty shall have 45 calendar days from the date of issuance of the final administrative decision in which to make full payment of the penalty assessed, unless a timely request for appeal has been filed with a U.S. District Court as provided in section 7(b)(1) of the Act.

(2) Upon failure to pay the penalty, the Federal land manager may request the Attorney General to institute a civil action to collect the penalty in a U.S. District Court for any district in which the person assessed a civil penalty is found, resides, or transacts business. Where the Federal land manager is not represented by the Attorney General, a civil action may be initiated directly by the Federal land manager.

(j) Other remedies not waived. Assessment of a penalty under this section shall not be deemed a waiver of the right to pursue other available legal or administrative remedies.

§ 229.16 Civil penalty amounts.

(a) Maximum amount of penalty. (1) Where the person being assessed a civil penalty has not committed any previous violation of any prohibition in §229.4 or of any term or condition included in a permit issued pursuant to this part, the maximum amount of the penalty shall be the full cost of restoration and repair of archaeological resources damaged plus the archaeological or commercial value of archaeological resources destroyed or not recovered.

(2) Where the person being assessed a civil penalty has committed any previous violation of any prohibition in §229.4 or of any term or condition included in a permit issued pursuant to this part, the maximum amount of the penalty shall be double the cost of restoration and repair plus double the archaeological or commercial value of archaeological resources destroyed or not recovered.

(3) Violations limited to the removal of arrowheads located on the surface of the ground shall not be subject to the penalties prescribed in this section.

(b) Determination of penalty amount, mitigation, and remission. The Federal land manager may assess a penalty amount less than the maximum amount of penalty and may offer to mitigate or remit the penalty.

(1) Determination of the penalty amount and/or a proposal to mitigate or remit the penalty may be based upon any of the following factors:

(i) Agreement by the person being assessed a civil penalty to return to the Federal land manager archaeological resources removed from public lands or Indian lands;

(ii) Agreement by the person being assessed a civil penalty to assist the Federal land manager in activity to preserve, restore, or otherwise contribute to the protection and study of archaeological resources on public lands or Indian lands;

(iii) Agreement by the person being assessed a civil penalty to provide information which will assist in the detection, prevention, or prosecution of violations of the Act or this part;
(iv) Demonstration of hardship or inability to pay, provided that this factor shall only be considered when the person being assessed a civil penalty has not been found to have previously violated the regulations in this part;
(v) Determination that the person being assessed a civil penalty did not willfully commit the violation;
(vi) Determination that the proposed penalty would constitute excessive punishment under the circumstances;
(vii) Determination of other mitigating circumstances appropriate to consideration in reaching a fair and expeditious assessment.

(2) When the penalty is for a violation on Indian lands, the Federal land manager shall consult with and consider the interests of the Indian landowner and the Indian tribe having jurisdiction over the Indian lands prior to proposing to mitigate or remit the penalty.

(3) When the penalty is for a violation which may have had an effect on a known Indian tribal religious or cultural site on public lands, the Federal land manager should consult with and consider the interests of the affected tribe(s) prior to proposing to mitigate or remit the penalty.

§ 229.18 Confidentiality of archaeological resource information.

(a) The Federal land manager shall not make available to the public, under subchapter II of chapter 5 of title 5 of the U.S. Code or any other provision of law, information concerning the nature and location of any archaeological resource, with the following exceptions:

(1) The Federal land manager may make information available, provided that the disclosure will further the purposes of the Act and this part, or the Act of June 27, 1960, as amended (16 U.S.C. 469–469c), without risking harm to the archaeological resource or to the site in which it is located.

(2) The Federal land manager shall make information available, when the Governor of any State has submitted to the Federal land manager a written request for information, concerning the archaeological resources within the requesting Governor’s State, provided that the request includes:

(i) The specific archaeological resource or area about which information is sought;
(ii) The purpose for which the information is sought; and
(iii) The Governor’s written commitment to adequately protect the confidentiality of the information.

[49 FR 1027, Jan. 6, 1984, as amended at 49 FR 5923, Feb. 16, 1984]

§ 229.19 Report.

(a) Each Federal land manager, when requested by the Secretary of the Interior, will submit such information as is necessary to enable the Secretary to comply with section 13 of the Act and comprehensively report on activities carried out under provisions of the Act.

(b) The Secretary of the Interior will include in the annual comprehensive report, submitted to the Committee on Interior and Insular Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States
§ 229.20 Public awareness programs.

(a) Each Federal land manager will establish a program to increase public awareness of the need to protect important archaeological resources located on public and Indian lands. Educational activities required by section 10(c) of the Act should be incorporated into other current agency public education and interpretation programs where appropriate.

(b) Each Federal land manager annually will submit to the Secretary of the Interior the relevant information on public awareness activities required by section 10(c) of the Act for inclusion in the comprehensive report on activities required by section 13 of the Act.

[60 FR 5260, 5261, Jan. 26, 1995]

§ 229.21 Surveys and schedules.

(a) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Board of the Tennessee Valley Authority will develop plans for surveying lands under each agency’s control to determine the nature and extent of archaeological resources pursuant to section 14(a) of the Act. Such activities should be consistent with Federal agency planning policies and other historic preservation program responsibilities required by 16 U.S.C. 470 et seq. Survey plans prepared under this section will be designed to comply with the purpose of the Act regarding the protection of archaeological resources.

(b) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Tennessee Valley Authority will prepare schedules for surveying lands under each agency’s control that are likely to contain the most scientifically valuable archaeological resources pursuant to section 14(b) of the Act. Such schedules will be developed based on objectives and information identified in survey plans described in paragraph (a) of this section and implemented systematically to cover areas where the most scientifically valuable archaeological resources are likely to exist.

(c) Guidance for the activities undertaken as part of paragraphs (a) through (b) of this section is provided by the Secretary of the Interior’s Standards and Guidelines for Archeology and Historic Preservation.

(d) Other Federal land managing agencies are encouraged to develop plans for surveying lands under their jurisdictions and prepare schedules for surveying to improve protection and management of archaeological resources.

(e) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Tennessee Valley Authority will develop a system for documenting and reporting suspected violations of the various provisions of the Act. This system will reference a set of procedures for use by officers, employees, or agents of Federal agencies to assist them in recognizing violations, documenting relevant evidence, and reporting assembled information to the appropriate authorities. Methods employed to document and report such violations should be compatible with existing agency reporting systems for documenting violations of other appropriate Federal statutes and regulations. Summary information to be included in the Secretary’s comprehensive report will be based upon the system developed by each Federal land manager for documenting suspected violations.

[60 FR 5260, 5261, Jan. 26, 1995]
PART 230—FINANCIAL INSTITUTIONS ON DOD INSTALLATIONS

Sec. 230.1 Purpose.
230.2 Applicability.
230.3 Definitions.
230.4 Policy.
230.5 Responsibilities.

SOURCE: 66 FR 46373, Sept. 5, 2001, unless otherwise noted.

§ 230.1 Purpose.

This part:
(a) Updates policies and responsibilities for financial institutions that serve Department of Defense (DoD) personnel on DoD installations worldwide. Associated procedures are contained in 32 CFR part 231.
(b) Prescribes consistent arrangements for the provision of services by financial institutions among the DoD Components, and requires that financial institutions operating on DoD installations provide, and are provided, support consistent with the policies stated in this part.

§ 230.2 Applicability.

This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chiefs of Staff (JCS), the Combatant Commands, the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the Department of Defense (hereafter collectively referred to as “the DoD Components”) and all non appropriated fund instrumentalities including the Military Exchange Services and morale, welfare and recreation (MWR) activities.

§ 230.3 Definitions.

Terms used in this part are set forth in 32 CFR part 231.

§ 230.4 Policy.

(a) The following pertains to financial institutions on DoD installations:
(1) Except where they already may exist as of May 1, 2000, no more than one banking institution and one credit union shall be permitted to operate on a DoD installation.

(2) Upon the request of an installation commander and with the approval of the Secretary of the Military Department concerned (or designee), duly chartered financial institutions may be authorized to provide financial services on DoD installations to enhance the morale and welfare of DoD personnel and facilitate the administration of public and quasi-public monies. Arrangement for the provision of such services shall be in accordance with this part and the applicable provisions of 32 CFR part 231.

(3) Financial institutions or branches thereof, shall be established on DoD installations only after approval by the Secretary of the Military Department concerned (or designee) and the appropriate regulatory agency.

(i) Except in limited situations overseas (see paragraph (b)(2)(iii) of this section), only banking institutions insured by the Federal Deposit Insurance Corporation and credit unions insured by the National Credit Union Share Insurance Fund or by another insurance organization specifically qualified by the Secretary of the Treasury, shall operate on DoD installations. These financial institutions may either be State or federally chartered; however, U.S. credit unions operated overseas shall be federally insured.

(ii) Military banking facilities (MBFs) shall be established on DoD installations only when a demonstrated and justified need cannot be met through other means. An MBF is a financial institution that is established by the Department of the Treasury under statutory authority that is separate from State or Federal laws that govern commercial banking. Section 265 of title 12, United States Code contains the provisions for the Department of the Treasury to establish MBFs. Normally, MBFs shall be authorized only at overseas locations. This form of financial institution may be considered for use at domestic DoD installations only when the cognizant DoD Component has been unable to obtain, through normal means, financial services from a State or federally chartered financial institution authorized to operate in the State in which the installation is located. In times of mobilization, it may become necessary to...
§ 230.4

designate additional MBFs as an emergency measure. The Director, Defense Finance and Accounting Service (DFAS) may recommend the designation of MBFs to the Department of the Treasury.

(iii) Retail banking operations shall not be performed by any DoD Component. Solicitations for such services shall be issued, or proposals accepted, only in accordance with the policies identified in this part. The DoD Components shall rely on commercially available sources in accordance with DoD Directive 4100.15.1

(4) Installation commanders shall not seek the provision of financial services from any entity other than the on-base banking office or credit union. The Director, DFAS, with the concurrence of the Under Secretary of Defense (Comptroller) (USD(C)), may approve exceptions to this policy.

(5) Financial institutions authorized to locate on DoD installations shall be provided logistic support as set forth in 32 CFR part 231.

(6) Military disbursing offices, non-appropriated fund instrumentalities (including MWR activities and the Military Exchange Services) and other DoD Component activities requiring financial services shall use on-base financial institutions to the maximum extent feasible.

(7) The Department encourages the delivery of retail financial services on DoD installations via nationally networked automated teller machines (ATMs).

(i) ATMs are considered electronic banking services and, as such, shall be provided only by financial institutions that are chartered and insured in accordance with the provisions of paragraph (a)(3) of this section.

(ii) Proposals by the installation commander to install ATMs from other than on-base financial institutions shall comply with the provisions of paragraph (a)(4) of this section.

(8) Expansion of financial services (to include in-store banking) requiring the outgrant of additional space or logistical support shall be approved by the installation commander. Any DoD activity or financial institution seeking to expand financial services shall coordinate such requests with the installation bank/credit union liaison officer prior to the commander’s consideration.

(9) The installation commander shall ensure, to the maximum extent feasible, that all financial institutions operating on that installation are given the opportunity to participate in pilot programs to demonstrate new financial-related technology or establish new business lines (e.g., in-store banking) where a determination has been made by the respective DoD Component that the offering of such services is warranted.

(10) The installation commander shall approve requests for termination of financial services that are substantiated by sufficient evidence and forwarded to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall coordinate such requests with the USD(C), through the Director, DFAS, before notification to the appropriate regulatory agency.

(11) Additional guidance pertaining to financial services is set forth in 32 CFR part 231.

(b) The following additional provisions pertain only to financial institutions on overseas DoD installations:

(1) The extension of services by MBFs and credit unions overseas shall be consistent with the policies stated in this part and with the applicable status of forces agreements, other intergovernmental agreements, or host-country law.

(2) Financial services at overseas DoD installations may be provided by:

(i) Domestic on-base credit unions operating overseas under a geographic franchise and, where applicable, as authorized by the pertinent status of forces agreements, other intergovernmental agreements, or host-country law.

(ii) MBFs operated under and authorized by the pertinent status of forces agreement, other intergovernmental agreement, or host-country law.

(iii) Domestic and foreign banks located on overseas DoD installations that are:

1See footnote 1 to §231.1(a).
Office of the Secretary of Defense

(A) Chartered to provide financial services in that country, and
(B) A party to a formal operating agreement with the installation commander to provide such services, and
(C) Identified, where applicable, in the status of forces agreements, other intergovernmental agreements, or host-country law.

(3) In countries served by MBFs operated under contract, nonappropriated fund instrumentalities and on-base credit unions that desire, and are authorized, to provide accommodation exchange services shall acquire foreign currency from the MBF at the MBF accommodation rate; and shall sell such foreign currency at a rate of exchange that is no more favorable to the customer than the customer rate available at the MBF.

§ 230.5 Responsibilities.

(a) The Under Secretary of Defense (Comptroller) (USD(C)) shall develop policies governing establishment, operation, and termination of financial institutions on DoD installations and take final action on requests for exceptions to this part.

(b) The Under Secretary of Defense (Acquisition, Technology and Logistics) (USD(AT&L)) shall monitor policies and procedures governing logistical support furnished to financial institutions on DoD installations, including the use of DoD real property and equipment.

(c) The Under Secretary of Defense (Personnel and Readiness) (USD(P&R)) shall advise the USD(C) on all aspects of on-base financial institution services that affect the morale and welfare of DoD personnel.

(d) DoD Component responsibilities pertaining to this part are set forth in 32 CFR part 231.

Subpart A—Guidelines

§ 231.1 Overview.

(a) Purpose. This part implements DoD Directive 1000.11 (32 CFR part 230) and prescribes guidance and procedures governing the establishment, support, operation, and termination of banks and credit unions operating on DoD installations worldwide, to include military banking facilities (MBFs). In addition, this part provides guidance intended to ensure that arrangements for the provision of services by financial institutions are consistent among DoD Components, and that financial institutions operating on DoD installations provide, and are provided, support consistent with the guidance and procedures stated herein.

(b) Applicability. This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Joint Chiefs of Staff (JCS), the Joint Staff and the supporting Joint Agencies, the Combatant Commands, the Inspector General of the Department of Defense (IG, DoD), the Defense Agencies, the DoD Field Activities, the Uniformed Services University of the
§ 231.2

Health Sciences (USUHS), all DoD non-appropriated fund instrumentalities including the Military Exchange Services and morale, welfare and recreation (MWR) activities, and all other organizational entities within the Department of Defense.

§ 231.2 Policy.

The policy pertaining to financial institutions operating on DoD installations is contained in DoD Directive 1000.11 (32 CFR part 230) and in §231.4.

§ 231.3 Responsibilities.

(a) The Under Secretary of Defense (Comptroller) (USD(C)) shall develop and monitor policies governing establishment, operation, and termination of financial institutions on DoD installations and take final action on requests for exceptions to this part.

(b) The Under Secretary of Defense (Acquisition, Technology and Logistics) (USD(AT&L)) shall monitor policies and procedures governing logistical support furnished to financial institutions on DoD installations, including the use of DoD real property and equipment.

(c) The Under Secretary of Defense (Personnel and Readiness) (USD(P&R)) shall advise the USD(C) on all aspects of on-base financial institution services that affect the morale and welfare of DoD personnel.

(d) The Director, Defense Finance and Accounting Service (DFAS) shall:

(1) Develop procedures governing banks and credit unions on DoD installations for promulgation in this part.

(2) For domestic DoD installations, coordinate with the Secretaries of the Military Departments (or designees) on requests from subordinate installation commanders to establish or terminate banking offices or on-base credit unions. For overseas DoD installations, coordinate with the Secretary of the Military Department concerned (or designee) on requests from subordinate installation commanders to establish or discontinue the provision of financial services from the on-base financial institution under contract with the Department of Defense or to establish or terminate banking offices or credit unions located on DoD installations.

(3) In coordination with affected DoD Components, authorize the specific types of banking services that will be provided by overseas military banking facilities (MBFs) and specify the charges or fees, or the basis for these, to be levied on users of these services.

(4) Coordinate with the Fiscal Assistant Secretary of the Treasury on the designation of domestic and overseas MBFs as depositaries and financial agents of the U.S. Government.

(5) Designate a technical representative to provide policy direction for the procuring and administrative contracting officer(s) responsible under the Federal Acquisition Regulation (FAR) for acquiring banking services required at overseas DoD installations.

(6) Serve as principal liaison with banking institutions having offices on overseas DoD installations. In this capacity, monitor MBF managerial and operational policies, procedures, and operating results and take action as appropriate.

(7) As necessary, assist in the formation of government-to-government agreements for the provision of banking services on overseas DoD installations, in accordance with DoD Directive 5530.32.

(8) Provide procedural guidance to DoD Components, as required.

(9) Maintain liaison with financial institution trade associations, leagues, and councils in order to interpret DoD policies toward respective memberships and aid in resolving mutual concerns affecting the provision of financial services.

(10) Coordinate with the USD(P&R), through the USD(C), on all aspects of morale and welfare and with the USD(AT&L), through the USD(C), on all aspects of logistic support for on-base financial institutions.

(11) Monitor industry trends, conduct studies and surveys, and facilitate appropriate dialogues on banking and credit union arrangements and cost-benefit relationships, coordinate as necessary with DoD Components, financial institutions, and trade associations as appropriate.

2See footnote 1 to §231.1(a).
(12) Maintain liaison, as appropriate, with financial institution regulatory agencies at federal and state levels.

(13) Ensure that recommendations of the Combatant Commands are considered before processing requests for overseas banking and credit union service or related actions.

(14) Maintain a listing of all geographic franchises assigned to credit unions serving DoD overseas installations.

(e) Secretaries of the Military Departments (or designees) shall:

(1) For domestic DoD installations, take action on requests from subordinate installation commanders to establish or terminate financial institution operations. For overseas DoD installations, take action in accordance with guidance contained herein on requests from subordinate installation commanders to establish or discontinue the provision of financial services from the DoD contracted banking institution, or to establish or terminate other financial institutions located on DoD installations.

(2) Provide for liaison to those financial institutions that operate banking offices on respective domestic DoD installations.

(3) Oversee the use of banking offices and credit unions on respective DoD installations within the guidance contained herein and in DoD Directive 1000.11 (32 CFR part 230).

(4) Evaluate the services provided and related charges and fees by respective on-base banking offices and credit unions to ensure that they fulfill the requirements upon which the establishment and retention of those services were justified.

(5) Monitor practices and procedures of respective banking offices and credit unions to ensure that the welfare and interests of DoD personnel as consumers are protected.

(6) Assist on-base banking offices and credit unions to develop and expand necessary services for DoD personnel consistent with this part.

(7) Encourage the conversion of existing domestic MBFs on respective installations to independent or branch bank status where feasible.

(8) Provide logistical support to overseas MBFs under terms and conditions identified in this part as well as with the applicable terms of DoD contracts with financial institutions responsible for the operations of overseas MBFs.

(9) Refer matters requiring policy decisions or proposed changes to this part or DoD Directive 1000.11 (32 CFR part 230) to the USD(C) through the Director, DFAS.

(10) Monitor and encourage the use of financial institutions on DoD installations to accomplish the following ends.

(i) Facilitate convenient, effective management of the appropriated, non-appropriated, and private funds of on-base activities.

(ii) Assist DoD personnel in managing their personal finances through participation in programs such as direct deposit and regular savings plans, including U.S. savings bonds. The use of on-base financial institutions shall be on a voluntary basis and should not be urged in preference to, or to the exclusion of, other financial institutions.

(11) Encourage and assist duly chartered financial institutions on domestic DoD installations to provide complete financial services to include, without charge, basic financial education and counseling services. Financial education and counseling services refer to basic personal and family finances such as budgeting, checkbook balancing and account reconciliation, benefits of savings, prudent use of credit, how to start a savings program, how to shop and apply for credit, and the consequences of excessive credit.

(12) Establish liaison, as appropriate, with federal and state regulatory agencies and financial institution trade associations, leagues, and councils.

(13) Make military locator services available to on-base financial institutions in accordance with the Privacy Act guidelines in subpart B of this part.

(14) Permit DoD personnel to serve on volunteer boards or committees of on-base financial institutions, without compensation, when neither a conflict of duty nor a conflict of interest is involved, in accordance with DoD Directive 5500.7.3

(15) Allow DoD personnel to attend conferences and meetings that bring

\[\text{See footnote 1 to §231.1(a).}\]
§ 231.4 General provisions.

(a) Security. The installation commander (or designee) and officials of the on-base financial institutions shall work with the installation security authorities to establish an understanding as to each entity’s responsibilities. The on-base financial institutions are encouraged to establish an ongoing relationship with installation security authorities on all matters of asset protection.

(1) A written agreement shall be established outlining the security procedures that the financial institution will follow and the role that installation security authorities will play with regard to alarms, movement of cash, and procedures to be followed in response to criminal activity (e.g., armed robbery).

(2) Cash and other assets in on-base banking offices and credit unions are the property of those financial institutions. Maintenance of alarms and use of armored cars is the sole responsibility of the on-base financial institution. The on-base financial institution

§ 231.4. Together representatives of on-base financial institutions, when neither a conflict of duty nor a conflict of interest is involved, in accordance with DoD Directive 1327.5, subchapter 630 of the DoD Civilian Personnel Manual (DoD 1400.25-M), and Comptroller General Decision B–212457.

(f) The Commanders of the Combatant Commands (or designees) shall:

(1) Ensure the appropriate coordination of the following types of requests affecting financial institutions overseas:

(i) Establish financial institutions in countries not presently served. Such requests will include a statement that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy and that the host country will permit the operation.

(ii) Eliminate any or all financial institutions on DoD installations within a foreign country. Such requests will include a statement that the U.S. Chief of Diplomatic Mission has been informed and that appropriate arrangements to coordinate local termination announcements and procedures have been made with the U.S. Embassy.

(2) Monitor and coordinate military banking operations within the command area. Personnel assigned to security assistance positions will not perform this function without the prior approval of the Director, Defense Security Cooperation Agency (DSCA).

(g) The Commanders of Major Commands and subordinate installation commanders shall:

(1) Monitor the banking and credit union program within their commands.

(2) Coordinate requests to establish or construct bank and credit union offices or terminate logistical support as specified in this part to banks and credit unions within their commands. Personnel assigned to overseas security assistance positions will not monitor, coordinate, or assist in military banking operations without the prior approval of the DSCA.

(3) Assign, as appropriate, responsibility for paragraphs (g)(1) and (g)(2) of this section, to comptroller or resource management personnel.

(4) Cooperate with financial institution associations, leagues, and councils.

(5) Recognize the right of all DoD personnel to organize and join credit unions and promote the credit union movement in DoD worldwide.

(6) Permit DoD personnel to serve on volunteer boards or committees of on-base financial institutions, without compensation, when neither a conflict of duty nor a conflict of interest is involved, in accordance with DoD Directive 5500.7.

(7) Allow DoD personnel to attend conferences and meetings that bring together representatives of on-base financial institutions, when neither a conflict of duty nor a conflict of interest is involved, in accordance with DoD Directive 1327.5, Subchapter 630 of the DoD Civilian Personnel Manual (DoD 1400.25–M), and Comptroller General Decision B–212457.

(8) Seek the provision of financial services only from existing on-base financial institutions, proposing alternatives only where on-base financial institutions fail to respond favorably to a valid requirement.
§ 231.4

Office of the Secretary of Defense

is also solely responsible for the guarding or escorting of cash unless the installation commander determines that providing such services is desirable or necessary.

(b) Central locator services. Military locator services shall be provided per the guidelines in subpart B of this part.

(1) When appropriate, installations will process financial institution requests for central locator service to obtain military addresses of active duty personnel. This service will be used to locate persons for settling accounts, and recovering funds on checks that did not clear or loans that are delinquent or in default (see DoD Directive 1344.96). If delinquent loans or dishonored checks are not recouped within 48 hours, financial institutions operating on DoD installations may bring this information to the attention of the local commander, bank liaison officer, or other designee for assistance in effecting restitution of the amount due, if not otherwise prohibited by law. The financial institution will pay the appropriate fee for each request to the respective Military Department.

(2) The DoD Components shall assist financial institutions to locate DoD personnel whose whereabouts cannot be locally determined. The request should be on the financial institution’s letterhead, include the Service member’s name and social security number, and cite the cognizant Military Service regulation that authorizes the use of locator services. If a financial institution needs immediate service, the cognizant institution official should contact the bank or credit union liaison officer.

(i) For addresses of Department of the Army active, retired, separated and civilian personnel, financial institutions may telephone (703) 325-3732 or write to: Department of the Army Worldwide Locator, U.S. Army Enlisted Record and Evaluation Center, 8809 E. 56th Street, Indianapolis, IN 46249-5301.

(ii) For addresses of Navy active, retired, separated and civilian personnel, financial institutions may telephone (901) 874-3386 or write to: Navy Personnel Command, PERS-312P, 5720 Integrity Drive, Millington, TN 38055-3120.

(iii) For addresses of Department of the Air Force active, retired, separated and civilian personnel, financial institutions may telephone (210) 565-2860 or write to: Air Force Personnel Center, MSIMDL Suite 50, 550 C Street West, Randolph AFB, TX 78150-4752.

(iv) For addresses of United States Marine Corps active, retired, separated and civilian personnel, financial institutions may telephone (703) 784-3942 or write to:

Active
U.S. Marine Corps—CMC, HQ MC MMS B 10, 2008 Elliot Road, Room 201, Quantico, VA 22134-5030.

Retired-Separated
Q U.S. MMRS-6, 280 Russell Road, Quantico, VA 22134-5105.

Civilian
Commanding General, 15303 Andrew Road, Kansas City, MO 64147–1207.

(c) Advertising.

(1) An on-base financial institution may use the unofficial section of that installation’s daily bulletin, provided space is available, to inform DoD personnel of financial services and announce seminars, consumer information programs, and other matters of broad general interest. Announcements of free financial counseling services are encouraged. Such media may not be used for competitive or comparative advertising of, for example, specific interest rates on savings or loans.

(2) An on-base financial institution may use installation bulletin boards, newsletters or web pages to post general information that complements the installation’s financial counseling programs and promotes financial responsibility and thrift. Message center services may distribute a reasonable number of announcements to units for use on bulletin boards so long as this does not impose an unreasonable workload.

(3) An on-base financial institution may include an insert in the installation’s newcomers package (or equivalent). This insert should benefit newcomers by identifying the financial

6See footnote 1 to §231.1(a).
services that are available on the installation.

(4) DoD Directive 5120.207 prevents use of the Armed Forces Radio and Television Service to promote a specific financial institution.

(5) Off-base financial institutions are not permitted to distribute competitive literature or forms on the installation. These institutions, however, may use commercial advertising, mailings or telecommunications to reach their customers.

(6) Advertising in government-funded (official) installation papers is not permitted with the exception of insert advertising in the Stars and Stripes overseas. Installation newspapers funded by advertisers are not official publications and, thus, may include advertising paid for by any financial institution.

(7) Installation activities, including Military Exchange Services and concessionaire outlets, shall not permit the distribution of literature from off-base financial institutions if there is an on-base financial institution. This does not prevent the Military Exchange Services from distributing literature on affinity credit card services that those Military Exchange Services may acquire centrally through competitive solicitation.

(d) Automated teller machine (ATM) service. On-base financial institutions are encouraged to install ATMs at those installation(s) on which they are located.

(1) Financial institutions that propose to install ATMs on DoD installations shall bear the cost of ATM installation, maintenance and operation. The installation commander may enter into an agreement with the on-base financial institution wherein the installation may acquire and provide ATMs to on-base financial institutions under certain circumstances, such as when it is advantageous to the government to have one or more ATMs available for use but the acquisition cost to the financial institution is prohibitive. No ATM shall be purchased by an installation unless approved by the Secretary of the Military Department concerned (or designee). In all such cases, installation costs and all logistic support shall be borne by the financial institution.

(2) ATM approval authority is as shown:

(i) The installation commander has approval authority when an on-base financial institution wishes to place an ATM on the installation. This approval should be reflected as an amendment to the operating agreement.

(ii) Where there is no on-base financial institution, follow the solicitation procedures to obtain financial services set forth in §§231.5(c) and 231.7(b).

(3) The availability of ATM service shall not preclude the later establishment of a banking office should conditions change on an installation.

(4) Proposals by an installation commander to install ATMs on domestic installations from other than on-base financial institutions, including the Military Exchange Services, morale, welfare and recreational activities and/or other nonappropriated fund instrumentalities, shall be considered only when:

(i) ATM service is unavailable or existing service is inadequate, and

(ii) The on-base financial institution(s) either declines to provide the service, fails to improve existing service so that it is adequate, or does not formally respond to the request for such service within 30 days of the date of the request. Any ATM service from other than on-base financial institutions is considered an exception to policy. The procedures to establish an on-base financial institution set forth in §§231.5(c) and 231.7(b) shall be followed when soliciting for such ATM services. Proposals offering shared-access ATMs (e.g., ATMs operated by two or more financial institutions where their accountholders are not assessed any or all fees applicable to nonaccountholders) shall receive preference.

(5) ATM service from foreign banking institutions may be authorized on overseas installations with or without MBFs operated under contract where the installation or community commander determines that a bonafide need exists to support local national hires. On installations with MBFs operated under contract, the MBFs shall be the primary source of the ATM service.

\[\text{See footnote 1 to §231.1(a).}\]
Office of the Secretary of Defense

§ 231.4

except when a determination has been made by the cognizant contract program office that providing the service is either not cost effective or precluded by pertinent status of forces agreements, other intergovernmental agreements or host-country law. In those instances where ATM service from foreign banking institutions is authorized and provided by other than the on-base financial institution, ATM connectivity shall be limited to host country networks and the ATMs shall dispense only local currency (no U.S. dollars). The operating agreement covering ATM service shall be negotiated by the installation or community commander and submitted for approval by the appropriate Combatant Commander (or designee) prior to its execution. A copy of the operating agreement will be forwarded through DoD Component channels to the DFAS.

(e) Domestic and international treasury general accounts. In cases where authorization will be required for the on-base banking office or credit union to act as a Treasury General Account (TGA) domestic depository (or, on overseas installations, an International Treasury General Account (ITGA) depository), the financial institution shall satisfy the risk management standard established by the Secretary of the Treasury. Local operating funds may be used if the on-base financial institution requests reimbursement for costs incurred. On-base financial institutions shall accept deposits for credit to the TGA (or ITGA) when so authorized.

(f) Staffing. (1) On-base financial institutions shall be staffed adequately (i.e., commensurate with industry standards for similar numbers of accountholders and financial services rendered). Staffing at overseas MBFs operated under DoD contract shall be maintained within negotiated ceilings.

(2) All staffing shall comply fully with applicable equal employment opportunity laws and with the spirit of DoD equal employment opportunity policies as set forth in DoD Directive 1440.1.8

(3) DoD personnel, excluding military retirees and their dependents, may not serve as directors of domestic or foreign banking institutions operating banking offices on those DoD installations where they currently are assigned. This does not preclude a member of a Reserve Component, who has been serving as a director of a domestic or foreign banking institution operating a banking office on a DoD installation, from retaining his or her directorship if called to active duty.

(4) DoD personnel may not be detailed to duty with an on-base financial institution located on a DoD installation. Off-duty personnel, however, may be employed by an on-base financial institution subject to approval by the installation commander (or designee). Such employment must not interfere with the performance of the individual’s official duties and responsibilities.

(g) Departure clearance. The installation commander establishes the clearance policy for all DoD personnel leaving the installation. The on-base financial institutions shall be included as places requiring clearance. The purpose of a clearance is to report change of address, reaffirm allotments or outstanding debts, and receive financial counseling, if desired or appropriate. Clearance may not be denied in order to collect debts or resolve disputes with financial institution management.

(h) Financial education. (1) Officials of on-base financial institutions shall be invited to take part in seminars to educate personnel on personal financial management and financial services. Financial institutions shall be encouraged to provide financial education and counseling services as an integral part of their financial service offerings. Officials of on-base financial institutions shall submit advance briefing texts for approval by the installation commander to ensure that the program is not used to promote services of a specific financial institution.

(2) DoD personnel who tender uncollectable checks, overdraw their accounts or fail to meet their financial obligations in a proper and timely manner damage their credit reputation and adversely affect the public image of all government personnel. For uniformed personnel, military financial

8See footnote 1 to §231.1(a).
§231.4 32 CFR Ch. 1 (7–1–02 Edition)

Counselors and legal advisors shall recommend workable repayment plans that avoid further endangering credit ratings and counsel affected personnel to protect their credit standing and career. Counselors shall ensure that such personnel are aware of the stigma associated with bankruptcy and difficulties in obtaining future credit at reasonable rates and terms and shall recommend its use only when no other alternative will alleviate the situation.

(i) Operating agreements. (1) Before operations of an on-base banking office or credit union begin, a written operating agreement (Appendix C of this part) and the appropriate real estate outgrant (i.e., a lease, permit or license issued as identified in §§231.5(e), 231.5(f), 231.7(d), 231.7(e) and 231.7(f) shall be negotiated directly between the installation commander and officials of the designated financial institution. Thereafter, the operating agreement shall be jointly reviewed by the installation commander and the financial institution at least once every 5 years. The operating agreement shall define the basic relationship between the on-base financial institution and the installation commander and identify mutual support activities such as hours of operation, service fees and security provided. One copy of the agreement shall be sent through command channels to the Secretary of the Military Department concerned (or designee). A copy of the agreement shall be maintained by the installation commander and on-base credit union. At a minimum, the agreement shall include the following provisions:

(i) Identification of services to be rendered and the conditions for service. Full financial services shall be provided where feasible. Agreements, however, may not restrict either entity’s right to renegotiate services and fees.

(ii) Agreement by both parties that they will comply with this part and DoD Directive 1000.11 (32 CFR part 220).

(iii) Agreement by the on-base financial institution that it will furnish copies of its financial reports and other local publications on an “as needed” basis in response to a formal request from the installation commander (or designee).

(iv) Agreement that the on-base financial institution will indemnify and hold harmless the U.S. Government from (and against) any loss, expense, claim, or demand to which the U.S. Government may be subjected as a result of death, loss, destruction, or damage in conjunction with the use and occupancy of the premises caused in whole or in part by agents or employees of the on-base financial institution.

(v) Agreement that neither the Department of Defense nor its representatives shall be responsible or liable for the financial operation of the on-base financial institution or for any loss (including criminal losses), expense, or claim for damages arising from operations.

(vi) Agreement by the on-base financial institution (or any successor) that it will provide no less than 180 days advance written notice to the installation commander before ceasing operations.

(vii) Specification of the security services to be provided for guarding cash shipments, at times of unusual risk to the financial institution and to avoid excessive insurance costs charged to that institution.

(viii) Statement that the physical security for cash and negotiable items will be in a manner consistent with the requirements of the on-base financial institution’s insurer. A copy of those requirements will be provided to the installation commander on request.

(ix) Statement that the financial institution, whenever possible, will accommodate local command requests for lectures and printed materials for consumer credit education programs. Officials invited to participate in such programs shall not use the occasion to promote the exclusive services of a particular financial institution.

(x) Agreement that the financial institution will reimburse the installation for the provision of logistical support (such as custodial, janitorial, and other services provided by the government) at rates set forth in the lease or agreement between the installation and the financial institution.

(xi) Statement that on-base financial institution operations shall be terminated, when required, under provisions specified in this part.
(2) Approved expansion of services will be documented as an amendment to the existing operating agreement between the installation commander and the on-base financial institution. The amendment to the operating agreement and any required lease (to include a change to an existing lease) shall be in place prior to the initiation of new financial services or offices.

(j) Installation financial services. (1) Retail banking operations shall not be performed by any DoD Component or nonappropriated fund instrumentality including the Military Exchange Services and morale, welfare and recreation (MWR) activities or any other organizational entity within the Department of Defense.

(2) Financial services provided on DoD installations will be as uniform as possible for all personnel. As separately negotiated, or based on a fee schedule, custodians of non-appropriated funds shall compensate on-base financial institutions for services received. Compensation may be made with compensating balances or paying fees based on the services provided or a combination of these payment mechanisms. Fees shall not exceed the charge customary for the financial institution less an offsetting credit on balances maintained. Banking offices shall classify non-appropriated fund accounts as commercial accounts.

(3) At a minimum, banking offices shall provide the same services to individuals and nonappropriated fund instrumentalities as are available in the surrounding geographic area.

(4) On-base financial institutions may conduct operations during normal duty hours provided they do not disrupt the performance of official duties. Operating hours shall be set, in consultation with the bank or credit union liaison officer, to meet the needs of all concerned. ATMs may be used to expand financial services and operating hours.

(5) DoD personnel may use their allotment of pay privileges to establish sound credit and savings practices through on-base financial institutions. (i) The on-base financial institution shall credit customer accounts not later than the deposit date of the allotment check or electronic funds transfer.

(ii) The initiation of an allotment is voluntary (See Volume 7a, Chapter 42, Section 4202 of The DoD Financial Management Regulation (7200.14-R)). Thus, DoD personnel generally cannot be required to initiate an allotment for the repayment of a loan. Allotments voluntarily established by DoD personnel for the purpose of repaying a loan or otherwise providing funds to an on-base financial institution shall continue in effect at the option of the allottee.

(6) In accordance with sound lending practice, policies on loans to individuals are expected to be as liberal as feasible while remaining consistent with the overall interests of the on-base financial institution. On-base financial institutions shall conform to the Standards of Fairness principles before executing loan or credit agreements. See DoD Directive 1344.9.

(7) On-base financial institutions shall make basic financial education and counseling services available without charge to individuals seeking these services. Financial education and counseling services refer to basic personal and family finances such as budgeting, checkbook balancing and account reconciliation, benefits of savings, prudent use of credit, how to start a savings program, how to shop and apply for credit, and the consequences of excessive credit. DoD personnel in junior enlisted or civilian grades, or newly married couples who apply for loans, shall be given special attention and counseling.

(8) On-base financial institutions must strive to provide the best service to all customers. On-base financial institutions that evidence a policy of discrimination in their services are in violation of this part. In resolving complaints of discrimination, use the procedures specified in §231.5(h)(8).

(9) All correspondence regarding on-base financial institutions, and questions concerning their operation that cannot be resolved locally, shall be referred through command channels to the Secretary of the Military Department concerned (or designate) for consideration.
§ 231.5 Procedures—domestic banks.

(a) General policy. Given their role in promoting morale and welfare, on-base banks shall be recognized and assisted by DoD Components at all levels.

(b) Establishment. (1) The following information shall be included in the installation commander’s request to the Secretary of the Military Department concerned (or designee) for establishment of banking offices:
   (i) The approximate number of DoD personnel at the installation, and other persons who may be authorized to use the banking office.
   (ii) The distance between the installation and the financial institutions in the vicinity, and the names of these institutions.
   (iii) Available transportation between the installation and the financial institutions listed in paragraph (b)(1)(ii) of this section.
   (iv) The number of DoD personnel in duty assignments that confine them to the installation or who cannot obtain transportation (such as hospital patients).
   (v) The name and location of the depository used to make official deposits for credit to the TGA.
   (vi) A list of organizational and non-appropriated fund accounts, the name and location of the financial institutions where deposited, and the average daily activity and balance of each account.
   (vii) A written description and photographs of the space proposed for banking office use.
   (viii) A statement listing the requirements of the proposed banking office for safes and a vault, alarm systems, and surveillance equipment, when necessary.
   (ix) Reasons for use of space controlled by the General Services Administration (GSA). All the GSA assigned space, whether leased space or federal office building space, is reimbursable to the GSA at the standard level user charge. As such, space occupied by a banking office to serve military needs will be assigned and charged by the GSA.
   (x) Any other information pertinent to the establishment of a banking office.

(2) The Secretary of the Military Departments (or designee) shall:
   (i) Review each request for the establishment of banking offices.
   (ii) Conduct a solicitation for the services when warranted.
   (iii) Approve proposals for banking offices.
   (iv) Notify the selected financial institution either directly or through the installation commander. The selected banking institution will, in turn, obtain operating authority from their regulating agencies.
   (v) Forward proposals to establish TGAs to the DFAS for subsequent forwarding to the Fiscal Assistant Secretary of the Treasury in accordance with Volume 5, Chapter 5, paragraph 050102 of The DoD Financial Management Regulation (7000.14–R).

(c) Solicitations. The Secretary of the Military Department concerned (or designee), or the installation commander with advice from the cognizant Secretary of the Military Department (or designee), shall conduct solicitations to include pre-proposal conferences for on-base banking. Subject to the criteria for selection outlined in paragraph (c)(4) of this section the preferred sources of on-base financial services at domestic installations are federally-insured, state-chartered or federally-insured, federally-chartered banking institutions operating in the local area. The guidance at paragraph (c)(1) of this section addresses distribution of the solicitation only and does not preclude any federally-insured, state-chartered or federally-insured, federally-chartered banking institutions operating in the local area. The guidance at paragraph (c)(1) of this section addresses distribution of the solicitation only and does not preclude any federally-insured, state-chartered or federally-insured, federally-chartered banking institution from responding at any stage (from local distribution in paragraph (c)(1)(i) of this section to publication in the Commerce Business Daily and financial institution trade journals as outlined in paragraph (c)(1)(iii) of this section of the solicitation process. No commitment may be made to any banking institution regarding its proposal until a designation is made by the appropriate regulatory agency.

(1) Solicitations for banking services shall be accomplished in the following order:
   (i) Solicitation letters will be sent to local banking institutions and a solicitation announcement will be published.
in the local newspaper(s) and forwarded to financial institution associations.

(ii) If the Secretary of the Military Department concerned (or designee) or, where delegated, the installation commander, determines that the geographic scope of the solicitation needs to be expanded, a prospectus will be forwarded to financial institutions in a larger geographic area, as well as financial institution associations and regulatory authorities in the state where the installation is located.

(iii) If the Secretary of the Military Department concerned (or designee) or, where delegated, the installation commander, determines that the geographic scope of the solicitation needs to be expanded further, the prospectus will be published in the Commerce Business Daily and financial institution trade journals.

(2) For solicitations conducted at the installation level, the installation commander shall review proposals to establish banking offices, select the banking institution making the best offer and forward a recommendation to the Secretary of the Military Department concerned (or designee) for final approval.

(3) Banking institutions shall not be coerced when banking arrangements are under consideration or after banking offices are established. If otherwise proper, this prohibition does not preclude:

(i) Discussions with banking institutions prior to submitting a proposal for a new banking office.

(ii) Helping banking offices extend their operations in support of an installation requirement.

(iii) Discussions with banking institutions to improve services or to create savings for the banking institution or DoD personnel.

(iv) Seeking proposals for banking service as directed by the Secretary of the Military Department concerned (or designee).

(v) Negotiations preparatory to signing a banking agreement.

(4) When soliciting for banking services, proposals shall be evaluated on specific factors identified in the solicitation. These factors, at a minimum, shall be predicated on the services to be provided as outlined in appendix A, paragraph 3, of this part, the financial institution’s schedule of service fees and charges, and the extent of logistical support required. Prior to issuance of the solicitation, the preparing office shall identify (for internal use during the subsequent evaluation period) the weights to be applied to the factors reflected in the solicitation. Proposals shall be evaluated and ultimate selection made based upon the factors and weights developed for the solicitation.

(5) The Secretary of the Military Department concerned (or designee), or the installation commander with advice from the cognizant Secretary of the Military Department (or designee), shall make the selection of the banking institution based on the provisions outlined in this section.

(d) Terminations. (1) Requests for termination of financial services shall be approved by the installation commander, substantiated by sufficient evidence and forwarded to the Secretary of the Military Department concerned (or designee). The termination of banking office operations shall be initiated by the installation commander only under one of the following conditions:

(i) The mission of the installation has changed, or is scheduled to be changed, thereby eliminating or substantially reducing the requirement for financial services.

(ii) Active military operations prevent continuation of on-base financial services.

(iii) Performance of the banking office in providing services is not satisfactory according to standards ordinarily associated with the financial services industry or is inconsistent with the operating agreements or the procedures prescribed herein.

(iv) When merger, acquisition, change of control or other action results in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) shall terminate the operating agreement with the existing banking institution. When the merger, acquisition, change of control or other action does not result in violation of the terms and conditions of the
existing operating agreement, the Secretary of the Military Department (or designee) shall initiate a novation action of the operating agreement identifying the change in control.

(2) The installation commander shall forward requests for termination to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall coordinate all termination actions with the USD(C), through the Director, DFAS, before notification to the appropriate regulatory agency. Subsequent to this coordination process:

(i) The Secretary of the Military Department (or designee) shall inform the regulatory agency of the action.

(ii) The installation commander shall revoke the authority of the financial institution to operate. The lease will be terminated.

(3) Any banking office that intends to terminate its operations should notify the installation commander at least 180 days before the closing date. This notification should precede any public announcement of the planned closure. When appropriate, the commander shall attempt to negotiate an agreement permitting the banking office to continue operations until the installation has made other arrangements. Immediately upon notification of a closing, the commander shall advise the DoD Component headquarters concerned. If it is determined that continuation of banking services is justified, action to establish another banking office shall be taken in accordance with the guidance prescribed herein.

(e) Use of space, logistical support, and military real property for domestic banks.—(1) Lease Terms. (i) The consideration for a lease shall be determined by appraisal of fair market rental value in accordance with 10 U.S.C. 2667. Periodic reappraisals shall be based upon the fair market rental value exclusive of the improvements made by the banks.

(ii) The term of the lease shall not exceed 5 years except where the banking institution uses its own funds to improve existing government space as outlined in paragraph (e)(5) of this section. If space occupied is assigned by the GSA, charges to financial institutions for space and services shall be at the GSA standard level user rate.

(iii) Leases shall include the following provisions:

(A) The government has the right to terminate the lease due to national emergency; installation inactivation, closing, or other disposal action; or default by the lessee.

(B) The lessee shall provide written notice 180 days prior to voluntarily terminating the lease.

(C) Upon a lease termination, the government has the option to cause the title of all structures and other improvements to be conveyed to the United States without reimbursement, or require the lessee to remove the improvements and restore the land to its original condition.

(2) Logistical support. (i) The banking office shall be housed in a building accessible to DoD personnel on the installation and in a location permitting reasonable security.

(ii) Banking institutions shall perform all maintenance, repair, improvements, alterations, and construction on the banking premises.

(iii) Banking institutions shall pay for all utilities (i.e., electricity, natural gas or fuel oil, water and sewage), heating, and air conditioning, intrastation telephone service, and custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal) at rates set forth in the lease, operating agreement or other written agreement between the installation and the banking institution.

(3) Leases executed before the issuance of this part may not be altered solely as a result of the provisions of this part unless a lessee specifically requests a renegotiation under these provisions. No lease may be negotiated or renegotiated, nor may any rights be waived or surrendered without compensation to the government.

(4) When a banking institution participates in the construction of a shopping mall complex the lease shall cover only land where the banking office physically is located.

(5) When a banking institution uses its own funds to improve existing government space, leases, for a period not to exceed 25 years subject to periodic
review every 5 years to assess changes in fair market value, may be negotiated for a period commensurate with the appraised value of the leasehold improvements divided by the annual lease fee.

(f) Land leases. (1) A lease for construction of a building to house a banking office shall be at the appraised fair market rental value. Charges shall apply for the term of the lease not to exceed 25 years, subject to periodic review every 5 years to assess changes in fair market value.

(2) If determined to be in the government’s interest, an existing lease of land may be extended prior to expiration of its term. Passage of title to facilities shall be deferred until all extensions have expired. Such extensions shall be for periods not to exceed 5 years with lease payments set at the appraised fair market rental of the land only as determined on the date of each such extension. Banking institution lessees shall continue to maintain the premises and pay for utilities and services furnished.

(3) When, under the terms of a lease, title to improvements passes to the government, arrangements normally will be made as follows:

(i) When the square footage involved exceeds that authorized in DoD 4270.1–M, the banking institution shall be given first choice to continue occupying the excess space under a lease that provides for fair market rental for the land underlying that excess space.

(ii) The charge for continued occupancy of improved space by a banking office shall be at fair market rental value only for the associated land. The lessee shall continue to maintain the premises and pay the cost of utilities and services furnished.

(g) Construction. Banks may construct buildings subject to the following provisions:

(1) The building shall be solely for the use of the banking institution and may not provide for other commercial enterprises or government instrumentalities.

(2) Construction projects must meet the criteria in DoD 4270.1–M.

(3) Construction projects approval authority. (i) Projects costing $25,000 or more shall be approved by the Major Command with an information copy sent to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall have 30 days to provide comments to the Major Command before final approval can be granted.

(ii) Projects costing less than $25,000, to include interior alterations and room or office additions to existing banking offices, shall be approved by installation commanders. Copies of approvals, including the identification of project cost, shall be furnished to the Secretary of the Military Department concerned (or designee).

(4) The Congress shall be notified of all construction projects, using other than appropriated funds and costing over $500,000, in accordance with DoD Instruction 7700.18.

(5) Proposals for construction of structures on installations at a banking institution’s expense shall be reviewed and reported in accordance with regulations of the Military Department concerned. The following information shall be listed to support each proposal:

(i) Number of DoD personnel at the installation plus others who may use the banking office.

(ii) Square footage of the proposed building.

(iii) Land area to be leased to the banking institution.

(iv) Term of the lease.

(v) Estimated cost of construction.

(vi) Estimated fair market value of the land to be leased.

(vii) Statement that the banking institution will be responsible for utility connections and other utility and maintenance costs.

(viii) Statement that the building will be used only for financial services.

(ix) A statement that financial institution officials understand the potential loss of the building in the event of installation closure or other delimiting condition.

9 See footnote 1 to §231.1(a).

10 See footnote 1 to §231.1(a).
§231.5

(x) Justification for a waiver of space criteria if the building exceeds that specified in DoD 4270.1-M.

(6) Banks shall pay for interior alterations and maintenance as well as utilities, custodial, and other furnished services.

(7) Banks shall pay all construction costs.

(h) Bank liaison officer (BLO). Each installation commander having an on-base banking office shall appoint a BLO. The BLO's name and duty telephone number shall be displayed prominently at each banking office on the installation. As appropriate, the BLO's responsibility shall be assigned to comptroller or resource management personnel. Employees, officials or directors of a financial institution may not serve as BLOs. The BLO shall:

(1) Ensure that the banking institution operating the banking office has the latest version of this part.

(2) Ensure that traveler’s checks and money orders are not being sold by other on-base organizations when banking offices are open for business. Postal units and credit unions, however, are exempt from this restriction. Also, ensure that other financial services, to include vehicle financing on domestic installations, are offered only by the banking office.

(3) Attend financial workshops, conferences, and seminars as appropriate. These gatherings offer excellent opportunities for personnel of financial institutions and the Department to improve the military banking program. Free discussion among the attendees gives an excellent forum for planning, developing, and reviewing programs that improve financial services made available to DoD personnel and organizations.

(4) Assist, when requested by the banking office manager or the installation commander, in locating and collecting from individuals tendering uncollectable checks, overdrawing accounts, or defaulting on loans (within the guidelines of subpart C) if not otherwise prohibited by law.

(5) Maintain regular contact with the banking office manager to confer and discuss quantitative and qualitative improvements in the services provided. In executing this authority, the BLO shall not become involved in the internal operations of the financial institution.

(6) Review the schedule of service charges and fees annually, and ensure that the operating agreement is updated at least every 5 years. Renegotiate the financial services offered and related service charges and fees as necessary.

(7) Assist in resolving customer complaints about banking services.

(8) Assist in resolving complaints of discrimination with financial services by the banking institution. If a complaint cannot be resolved, a written request for investigation shall be forwarded to the appropriate regulatory agency. Any such request must document the problem and command efforts taken toward its resolution. Information copies of all related correspondence shall be sent through channels to the Secretary of the Military Department concerned (or designee) for transmittal to the DFAS.

(9) Assist the installation commander to report to the appropriate regulatory agency any evidence suggesting malpractice by banking office personnel.

(i) In-store banking. Under the direction and approval of the installation commander, an on-base financial institution may provide in-store banking within the premises of a commissary operated by the Defense Commissary Agency, a Military Exchange, or any other on-base retail facility.

(1) Provision of the requested services, and any associated stipulations, shall be documented as an amendment to the existing operating agreement between the installation commander and the on-base financial institution that will provide in-store services.

(2) The amendment to the operating agreement shall be drafted through close coordination between the requesting DoD Component representative, the on-base financial institution representative, the bank liaison officer, and the installation commander (or designee). The final amendment shall be signed by the installation commander and the on-base financial institution with the acknowledgement of the DoD Component that will host the in-store banking operation.
Office of the Secretary of Defense

§ 231.6 Procedures—overseas banks.

(a) General provisions of banking services overseas. The Department acquires banking services overseas for use by authorized persons and organizations from the following sources:

(1) MBFs operated under contract and authorized by the pertinent status of forces agreement, other intergovernmental agreements, or host-country law.

(2) Domestic and foreign banking institutions located on overseas DoD installations. Each such institution shall be:

(i) Chartered to provide financial services in that country.

(ii) A party to a formal operating agreement with the installation commander to provide such services.

(iii) Identified, where applicable, in the status of forces agreements, other intergovernmental agreements, or host-country law.

(b) Establishment.—(1) Overseas MBFs Operated Under Contract. Installation or community commanders requiring banking services will send a request through command channels to the Secretary of the Military Department concerned (or designee) for concurrence and subsequent transmittal to the Director, DFAS, for approval.

(i) Requests to establish MBFs shall include, but are not limited to, the following information:

(A) The approximate number of DoD personnel at the installation and in the community and any other persons who may be authorized to use the MBF.

(B) The distance between the installation and the nearest MBF and credit institution the opportunity to submit its own proposal.

(B) Preference to operate an independent or branch bank shall be given to the banking institution that has operated the MBF, provided that the banking service previously rendered has been satisfactory and that the institution’s proposal is adequate.

(3) MBF termination. The Director, DFAS, shall coordinate the termination of a financial institution’s authority to operate an MBF with the Department of the Treasury.

union office, the names; addresses, and telephone numbers of the operators of those institutions; and the installations and communities where they are located.

(C) The availability of official and public transportation between the installation or community and the nearest MBF and credit union office.

(D) The name and location of the depository used to make official deposits for credit to the TGA.

(E) A list of organizational and non-appropriated fund accounts, the name and location of the financial institutions where deposited, and the average daily activity and balance of each account.

(F) A written description and photographs or drawings of the space proposed for MBF use. The extent and approximate cost of required alterations, including the construction of counters and teller cages.

(G) A statement that recognizes the logistical support, including equipment, to be provided by the local command as detailed in paragraph (c) of this section. The statement will include the costs of such equipment and the manner in which it will be acquired.

(H) In countries where no MBFs currently are operated under contract, a statement from the cognizant Combatant Command that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy and that the host country will permit the operation in accordance with paragraph (c)(1)(i) of this section.

(I) Any other pertinent information to justify the establishment of an MBF.

(ii) As a general rule, MBFs may be established only when the installation or community population meets the following criteria:

(A) Full-time MBF. Except in unusual circumstances, a total of at least 1,000 permanent military personnel and DoD civilian employees are necessary to qualify for a full-time MBF.

(B) Part-time MBF. Except in unusual circumstances, a total of at least 250 permanent military personnel and DoD civilian employees are necessary to qualify for a part-time MBF.

(iii) If the population at a certain remote area is not sufficient to qualify under the criteria for full-time or part-time MBFs, the installation or community commander will explore all other alternatives for acquiring limited banking services before requesting establishment of an MBF as an exception to these provisions. Alternatives to limited banking services include installation of ATMs and check cashing and accommodation exchange service by disbursing officers and their agents.

(iv) Establishment of an overseas MBF is predicated on and requires:

(A) Designation of the MBF contractor as a depository and financial agent of the U.S. Government by the Department of the Treasury.

(B) The availability of banking contractors interested in bidding for the operation of the facility and the viability of such proposals.

(C) The availability of appropriated funds to underwrite such banking services.

(D) Establishment of a U.S. dollar currency custody account to support banking operations.

(2) Other overseas banking offices. Where a need for financial services has been identified and either the banking and currency control laws of certain host countries do not permit MBFs to operate on DoD installations or MBFs, where permitted, have not been established, then the following applies:

(i) Installation or community commanders shall send requests for banking services or unsolicited proposals from foreign banking institutions to their Major Commands with supporting data as required in §231.5(b)(1).

(ii) Major Commands shall forward installation or community commander requests to the Secretary of the Military Department concerned (or designee) for approval. The Secretary of the Military Department concerned (or designee) shall coordinate with the DFAS to seek the designation of the parent foreign banking institution as a depository and financial agent of the U.S. Government by the Department of the Treasury.

(iii) Banking offices in this category cannot become operational until the foreign parent banking institution has
been designated a depository and financial agent of the U.S. Government. The institution also shall indicate a willingness and ability to provide collateral backing for any official and non-appropriated fund U.S. dollar deposits. Any collateral pledged shall be in a form acceptable to the DFAS and the Department of the Treasury.

(c) Logistical support.—(1) Overseas MBFs operated under contract. (i) Given that appropriated funds support those MBFs that are operated under contract, installation or community commanders shall provide the MBFs logistical support to the maximum possible extent. Such support normally includes:

(A) Adequate office space, including steel bars; grillwork; security doors; a vault, safes, or both; security alarm systems and camera surveillance equipment (where deemed necessary) that meet documented requirements of the MBF contractor’s insurance carrier; construction of counters, teller cages, and customer and work areas; necessary modifications and alterations to existing buildings; and construction of new MBF premises, if necessary.  

(i) The size and arrangement of space should permit efficient operations. Space assigned may not exceed that prescribed in DoD 4270.1-M.  

(ii) All maintenance, repair, rehabilitation, alterations, or construction for banking offices shall comply with guidelines established by the installation commander.  

(B) Office space in a building that is accessible to most users and permits the maximum security. In addition, office space for MBF area and district administrations and storage space for retention of records, files, and storage of supplies.  

(C) DoD housing on a rental basis to assigned MBF staff that are designated as key and essential MBF managerial personnel who are unable to find suitable, reasonably priced housing in the vicinity of the DoD installation, subject to the assignment procedures and other requirements of DoD 4165.63-M.11  

(D) Education, on a space-available, tuition-paying basis, provided by the Department of Defense Education Activity to minor dependents of assigned staff in accordance with DoD Directive 1342.13.12  

(E) Air conditioning, which is considered a normal utility for banking offices located at installations that qualify for air conditioning under applicable regulations. Banking space is classified as administrative space at military installations.  

(F) Utilities (i.e., electricity, natural gas or fuel oil, water and sewage), heating, intrastation telephone service, and custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal).  

(G) Defense Switched Network (DSN) voice and data communication to include, where feasible, Internet access.  

(H) Military guards, civilian guards (for use within the installation), military police, or other protective services to accompany shipments of money. This level of protective service also shall be provided at other times as required to include replenishment of ATM currency and receipts, alarm system failures, and to avoid undue risks or insurance costs on the part of the MBF.  

(I) U.S. Military Postal Service access in accordance with DoD Directive 4525.6.13 Use of free intra-theater delivery system (IDS) is authorized for all routine mail sent and received between Army Post Offices (APOs) and Fleet Post Offices (FPOs) within a theater.  

(J) Office equipment and furniture on memorandum receipt if available from local stock. If office equipment or furniture is unavailable, statements of nonavailability shall be issued.  

(K) Vehicle registration and fuel sales from government-owned facilities for bank-operated vehicles, if not in conflict with host government agreements. Vehicle registration shall be subject to normal fees.  

(L) Issuance by local commanders of invitational travel orders, at no expense to the U.S. Government when required for official onsite visits by U.S. based banking institution officials.  

11 See footnote 1 to §231.1(a).  
12 See footnote 1 to §231.1(a).  
13 See footnote 1 to §231.1(a).
(ii) Suggestions for changes to the logistical support provisions of the MBF contract may be forwarded for consideration through command channels to the Director, DFAS.

(2) Other overseas banking offices. (i) Logistical support provided to such offices will be negotiated with the parent foreign banking institution and incorporated into the written operating agreement.

(ii) Logistical support shall not exceed that provided to contract MBFs, as specified in paragraph (c)(1) of this section.

(d) Operations.—(1) General conditions of MBF operation. (i) Before initiating MBF operations, a written agreement shall be negotiated directly and signed by the installation or community commander and a senior official of the banking contractor or other financial institution concerned. One copy of the agreement with U.S. banking contractors and two copies of the agreement with institutions other than U.S. banking contractors shall be forwarded through command channels to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall forward one copy of the agreement with institutions other than U.S. banking contractors through command channels to the Director, DFAS. A copy of the agreement also shall be maintained at all times by the installation or community commander and the banking institution manager.

(ii) For MBFs operated by U.S. banking contractors, the agreement shall state operating details not set forth in the contract. Though the contract limits the number of operating hours per week, local commanders and MBF managers should set days and hours of operation to best meet local needs. Operating times may include Saturdays and evening hours when necessary to supplement other retail services for DoD personnel, provided the contractor can implement that service at no additional cost to the government. When added cost is involved, the commander shall send a request including reasons for expanded or modified times of operation, through command channels, to the Secretary of the Military Department concerned (or designee) for action. If approved, the request, with recommendations, shall be forwarded to the Director, DFAS (or designee).

(2) Overseas MBFs operated under contract.—(i) General. Overseas MBFs shall operate under terms and conditions established at the time of contract negotiations and confirmed in respective contracts or contracting officer determinations.

(ii) Authorized customers. DoD banking contracts specify the personnel authorized to receive service. Additionally, overseas major commanders may approve banking services for other individuals that qualify for individual logistic support under the regulations of the DoD Component concerned, provided that the use of banking services is not precluded by status of forces agreements, other intergovernmental agreements, or host-country law.

(iii) Services rendered. DoD banking contracts specify the services to be rendered and related charges. Suggestions for expansion or modification of authorized services, fees or charges may be forwarded through DoD Component channels to the Director, DFAS. Proposals for any new service must be coordinated with the appropriate Combatant Command and U.S. Chief of Diplomatic Mission or U.S. Embassy to make certain that the proposal does not conflict with the status of forces agreements, other intergovernmental agreements, or host-country law.

(iv) Regulation to be provided. The Director, DFAS (or designee) shall advise each U.S. banking contractor operating an overseas MBF of this Regulation and furnish a copy to the contractor.

(v) Conditions of operation. (A) Part-time and payday service MBFs shall provide limited services that mirror, to the extent feasible, those provided by full-time MBFs. Since part-time MBFs operate out of nearby MBFs, installation or community commanders shall provide and fund transportation and guards for their operation.

(B) Any deficiency of banking services under DoD banking contracts shall be reported to the manager of the MBF within 7 calendar days of noting the deficiency. If the problem has not been corrected within 30 calendar days after
Office of the Secretary of Defense

§ 231.6

being noted, the commander shall report the problem through DoD Component channels to the Director, DFAS (or designee).

(C) The MBF contractor and military disbursing officers shall establish cash management practices that minimize the cash required conducting business.

(D) Commanders shall assist MBF contractors to develop and update contingency plans for banking services in the event of hostilities or other emergencies.

(E) MBF provision of foreign currency shall be in accordance with Volume 5, Chapter 13 of The DoD Financial Management Regulation (DoD 7000.14-R).

(3) Other overseas banking offices—

(i) Authorized customers. The list of authorized customers shall be negotiated between the installation commander and the foreign banking institution and shall be reflected in the operating agreement. The list of authorized customers included in the operating agreement shall be consistent with the applicable status of forces agreement, other intergovernmental agreements, or host-country law.

(ii) Services rendered. Services and charges shall parallel, whenever practical, the services and charges of MBFs operated under contract. Specific services shall be negotiated and included in the agreement with the foreign banking institution. A copy of the agreement shall be sent through DoD Component channels to the Director, DFAS (or designee).

(iii) Operating agreements. Before agreements are executed, they will be coordinated with and approved by the cognizant Combatant Command (or designee).

(iv) Conditions of operation. A foreign banking institution shall provide equipment (except that furnished by the installation or community), supplies, and trained personnel.

(4) Relocation of MBF. (i) When an MBF is moved from one location to another at the same installation or community, the commander shall notify the cognizant Military Department, through command channels. The Military Department shall forward the information to the Director, DFAS (or designee).

(ii) For all other relocations, prior approval from the Director, DFAS (or designee) shall be obtained through DoD Component channels.

(5) Comments. Installation or community commanders shall send their banking comments through DoD Component channels to the Director, DFAS (or designee) for any of the following:

(i) Major changes in installation population that would affect use of the MBF.

(ii) Opinion that the space assigned is not adequate for the efficient operation of the MBF including a statement concerning corrective action.

(iii) Suggestions that might improve the MBF operation, increase efficiency, or decrease costs.

(iv) Pending developments that may have a material impact on the MBF operation.

(6) Bank liaison officer. The duties of the BLO are outlined in § 231.5(h).

(e) Termination. Requests to eliminate any or all MBFs in a foreign country shall include documentation that the U.S. Chief of Diplomatic Mission has been informed and that arrangements for local termination announcements and procedures have been made with the U.S. Embassy.

(1) Overseas MBFs operated under contract. In cases where an installation or community no longer can justify overseas MBF operations, the commander shall notify the Secretary of the Military Department concerned (or designee) through command channels.

(i) The report shall state whether a part-time MBF should be established and specify the days each week that the MBF would be needed.

(ii) The Secretary of the Military Department (or designee) shall send this report with recommendations to the Director, DFAS (or designee).

(2) Other overseas banking offices. Termination actions, when required, shall be taken in accordance with the applicable clauses in the operating agreement. Notice of intent to terminate, including the closing date, shall be sent through DoD Component channels to Director, DFAS (or designee), who shall notify the Department of the Treasury so that the foreign banking institution’s authority as a Depositary
§ 231.7 Procedures—domestic credit unions.

(a) General policy. Given their role in promoting morale and welfare, on-base credit unions shall be recognized and assisted by DoD Components at all levels. These financial institutions shall provide services to DoD personnel of all ranks and grades within their respective fields of membership.

(b) Establishment. A demonstrated need for credit union services may be addressed by establishing a new full-service credit union or by opening a branch office or facility of an existing credit union under the common bond principle.

(1) DoD personnel seeking to establish a new full-service credit union shall submit a proposal to the installation commander for review. In addition to the information identified in § 231.5(b)(1), the proposal shall include a request for the establishment of a field of membership that includes all personnel at the installation. Upon installation commander concurrence, the proposal shall be forwarded through DoD Component channels to the Secretary of the Military Department (or designee).

(2) The Secretary of the Military Department concerned (or designee) shall:

(i) Obtain a list of credit unions that could establish eligibility to serve the installation’s military members and civilian employees from the National Credit Union Administration (NCUA) Regional Office that has geographic jurisdiction and the applicable state regulatory agency.

(ii) Prepare and send formal solicitation letters to eligible credit unions informing them of an opportunity to establish a branch office at the installation.

(iii) In coordination with the installation commander, establish the criteria for selection of a specific credit union in accordance with § 231.5(c)(4). Proposals shall be evaluated, and a selection made, based upon the factors and weights developed for the solicitation.

(3) Upon approval by the Secretary of the Military Department (or designee), the NCUA or applicable state regulatory agency shall be notified and asked to establish or amend the selected credit union’s charter to include the new location.

(4) No commitment may be made to a credit union regarding its proposal until the appropriate regulatory agency has approved the requested charter change.

(c) Terminations.—(1) Voluntary credit union terminations. (i) When a credit union plans to end operations on a DoD installation, it shall be required to notify the installation commander 180 days before the closing date. Such notification shall be required to precede public announcement of the planned closure. When appropriate, the commander shall attempt to negotiate an agreement permitting the credit union to continue operations until the installation has made other arrangements.

(ii) The installation commander shall inform the Secretary of the Military Department concerned (or designee) immediately upon receiving notification of a closing. The report shall include a recommendation about continued credit union service on the installation. Paragraph (b) of this section applies if continued service is needed.

(2) Termination for cause. If, after discussion with credit union officials, an installation commander determines that the operating policies of a credit union are inconsistent with this Regulation, a recommendation for termination of logistical support and space arrangements may be made through the Secretary of the Military Department concerned (or designee). A credit union shall be removed from the installation only with approval of the Secretary of the Military Department (or designee) after coordination with the USD(C) through the Director, DFAS, and the appropriate regulatory agency.

(3) Termination in the interest of national defense. At the option of the government, leases may be terminated in the event of national emergency or as a result of installation deactivation, closing, or other disposal action.

(4) Termination resulting from merger, acquisition, or change of control. When merger, acquisition, change of control
or other action results in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) shall, subsequent to coordination with the USD(C), through the Director, DFAS, terminate the operating agreement with the existing credit union. When the merger, acquisition, change of control or other action does not result in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) shall initiate a novation action of the operating agreement identifying the change in control.

(5) Termination of lease. The lessee shall provide written notice 180 days prior to a voluntary termination of the lease. Upon lease termination, the government has the option to cause the title of all structures and other improvements to be conveyed to the United States without reimbursement, or require the lessee to remove the improvements and restore the land to its original condition.

(d) Use of space, logistical support, and military real property for domestic credit unions.—(1) Criteria for use of space in Government-owned real property. (i) Criteria governing the assignment of space and construction of new space for credit unions are in DoD 4270.1-M.

(ii) A credit union may be furnished space on a DoD installation at one or more locations for periods not exceeding 5 years except where the credit union uses its own funds to improve existing government space as outlined in paragraphs (d)(1)(ii)(C) and (d)(1)(ii)(D) of this section. The cumulative total of space furnished shall be subject to the limitations of DoD 4270.1-M.

(A) The furnishing of office space (including ATM placement) to on-base credit unions is governed by section 170 of the Federal Credit Union Act (12 U.S.C. 1770). The provision of no-cost office space for a period not to exceed 5 years is limited to credit unions if at least 95 percent of the membership to be served by the allotment of space is composed of individuals who are, or who were at the time of admission into the credit union, military personnel or federal employees, or members of their families. A written statement to the effect that the credit union meets the 95 percent criterion shall be required to justify and document the allotment of free government space. This statement shall be prepared on the credit union’s letterhead and signed either by the chairman of the board of directors or the president. A certification also shall be required whenever there is a merger, takeover, or significant change in a field of membership. This certification shall serve as justification and documentation for the continued allocation of free government space including space renovated with credit union funds. The statement shall be updated every 5 years and on renewal of each no-cost permit or license. (See appendix C of this part for a sample format of the statement.)

(B) Credit unions that fail to meet the 95 percent criterion shall be charged fair market rental for space provided. Except where more than one credit union exists on an installation prior to June 9, 2000, credit unions giving less than full service or not serving all assigned DoD personnel are not authorized no-cost office space.

(C) When a credit union that meets the 95 percent criterion uses its own funds to expand, modify, or renovate government-owned space, it may be provided a no-cost permit or license for a period commensurate with the extent of the improvements not to exceed 25 years as determined by the DoD Component concerned. The permit or license shall be effective until the agreed date of expiration or until the credit union ceases to satisfy the 95 percent criterion. In this latter case, the no-cost permit shall be cancelled in favor of a lease immediately negotiated at fair market value under the provisions of paragraph (d)(1)(ii)(B) of this section. If the credit union desires, this permit or license may extend through the period identified in the original permit or license not to exceed 25 years.

(D) Similarly, a credit union not meeting the 95 percent criterion that uses its own funds to expand, modify, or renovate government-owned space, may be provided a lease at fair market value for a period not to exceed 25 years subject to periodic review every 5 years to assess changes in fair market value.
§231.7 32 CFR Ch. 1 (7–1–02 Edition)

The text is a continuation of the content from §231.6, discussing lease agreements and logistical support for credit unions on military bases.

(e) Land leases. Credit unions entering into a land lease to construct a building on a DoD installation shall do so in accordance with §231.5(f).

(f) Construction. Credit unions constructing a building on a DoD installation shall do so in accordance with §231.5(g).

(g) Credit unions offering ATM service shall do so in accordance with §231.4(d).

(h) Staffing. (1) On-base credit unions shall provide full service. To do so, credit union offices shall be staffed by:

(i) An official authorized to act on loan applications.

(ii) An individual authorized to sign checks; and

(iii) A qualified financial counselor available to serve members during operating hours.

(2) Exceptions to paragraph (h)(1)(i) of this section may be approved by the installation commander with advice from the Secretary of the Military Department concerned (or designee) in the case of newly organized credit unions.

(3) When an on-base credit union can support only minimum staffing, one of the positions required in paragraph (h)(1)(i) of this section or paragraph (h)(1)(ii) of this section also may be subsumed under the counselor duties.

(4) Credit union remote service locations at the same installation may be staffed with one person alone, provided that a direct courier or an electronic or automated message service links each remote location to the credit union’s main office.

(i) Credit union liaison officer (CULO). When a credit union office is located on an installation, the commander shall appoint a CULO. As appropriate, the CULO responsibility should be assigned to comptroller or resource management personnel. The CULO’s name and duty telephone number shall be displayed prominently at each credit union office on the installation. Anyone who serves as a credit union board member or in any other official credit union capacity may not serve as a CULO. The duties of a CULO are the same as the duties listed for a BLO (see §231.5(h)).
(j) In-store banking. In-store banking services may be provided in accordance with §231.5(i) except that:

(1) Credit unions interested in submitting proposals to provide requested in-store banking services shall provide a statement from the NCUA or applicable state regulatory agency certifying the credit union's authority to offer the requested financial services to the commissary, Military Exchange, or other on-base facilities.

(2) Space granted to a credit union selected to provide in-store banking services should be issued through a no-cost license in accordance with section 170 of the Federal Credit Union Act (12 U.S.C. 1770).

§ 231.8 Procedures—overseas credit unions.

(a) General policy. (1) Credit union services to authorized persons and organizations may be provided by domestic on-base credit unions operating under a geographic franchise.

(2) The extension of credit union service overseas is encouraged consistent with the principles prescribed for domestic credit unions and with applicable status of forces agreements or other intergovernmental agreements, or host-country law.

(3) Where permitted by the status of forces agreements or other intergovernmental agreements, or host-country law, only federal credit unions or federally insured state chartered credit unions may operate on overseas DoD installations. The ultimate decision to provide services overseas rests with the credit union itself.

(b) Establishment. (1) Commanders shall notify the Secretary of the Military Department concerned (or designee), through command channels, when overseas credit union services are needed. Such requests shall include:

(i) Full information about available space and logistical support.

(ii) The name and location of the nearest credit union facility or branch.

(iii) The distance between the installation and the nearest credit union facility or branch.

(iv) The availability of any official or public transportation.

(v) The number of DoD personnel in duty assignments that confine them to the installation or who cannot obtain transportation (such as hospital patients).

(vi) In countries not presently served, a statement concurred in by the cognizant Combatant Command that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy. The statement shall include that the host country will permit credit union operations and will indicate any conditions imposed by the host country with respect to those operations.

(2) Subsequent to approval of the request from the installation or community commander to establish an overseas credit union facility, the Secretary of the Military Department concerned (or designee) shall solicit proposals for the provision of full credit union services under the following provisions.

(i) Where there is a DoD designated geographic franchise with a specific field of membership, the Secretary of the Military Department (or designee) shall direct the installation or community commander to contact the supporting credit union and request that a branch or facility be established. The basic decision concerning such extensions of service rests with the servicing credit union. The Director, DFAS (or designee) shall maintain a listing of all geographic franchises assigned to credit unions serving DoD overseas installations.

(ii) Where there is no DoD designated geographic franchise, the Secretary of the Military Department (or designee) shall:

(A) Coordinate requests, through the Director, DFAS (or designee), to obtain a geographic franchise. A geographic franchise is the authorization granted to a credit union by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) to provide financial services in a specific geographic region located outside the United States, its territories and possessions.

(B) Solicit proposals from credit unions currently operating on DoD installations.

(C) Review proposals of interested credit unions.

(D) Coordinate with field commands, as needed.
§231.8  32 CFR Ch. I (7-1-02 Edition)

(E) Recommend selection to the NCUA or applicable state regulatory agency with a copy to the DFAS and the OUSD(C), requesting that the appropriate field of membership adjustment be made. Such a recommendation shall identify the primary installations on which the credit union would operate and, if applicable, the contiguous geographic boundaries for future facilities and branches.

(3) Where there is an existing field of membership, the Secretary of the Military Department concerned (or designee) shall take the following actions:

(i) If a credit union on an installation terminates operation, afford any other credit union having a geographic franchise within that country an opportunity to assume the franchise being vacated. If all such institutions decline, the geographic franchise shall be offered to the federally insured credit union community. If, as a result of a credit union decision to decline service to an installation or a termination action, another credit union:

(A) Offers to provide service.

(B) Meets host country requirements (if any) and

(C) Is assigned the former geographic franchise or portion thereof, the NCUA or the applicable state regulatory agency shall be notified and requested to make appropriate field of membership adjustments.

(ii) When other credit union(s) having a geographic franchise within a country decline the opportunity, or there is no other credit union having a franchise within that country, the provisions of paragraph (b)(2)(ii) of this section apply.

(4) No commitment may be made to a credit union regarding its proposal until the appropriate regulatory agency has announced a selection.

(c) Logistical support. Installation or community commanders shall provide logistical credit union support. Such support normally shall include:

(1) Adequate office space, including steel bars; grillwork; security doors; a vault, safes or both; security alarm systems and camera surveillance equipment (where deemed necessary) that meet documented requirements of the credit union’s insurance carrier; construction of counters, teller cages, and customer and work areas; necessary modifications and alterations to existing buildings. The size and arrangement of space should permit efficient operations. The credit union shall pay for all improvements to the space given. Space assigned may not exceed that prescribed in DoD 4270.1-M.

(2) DoD housing on a rental basis to key credit union personnel unable to find suitable, reasonably priced housing in the vicinity of the DoD installation, if available.

(3) Education, on a space-available, tuition-paying basis, provided by the Department of Defense Education Activity to minor dependents of assigned staff in accordance with DoD Directive 1342.13.

(4) Utilities (i.e., electricity, natural gas or fuel oil, water and sewage), heating, intrastation telephone service, and custodial and janitorial services.

(5) DSN voice and data communication to include, where feasible, Internet access.

(6) U.S. Military Postal Service support under DoD Directive 4525.6. The use of free intra-theater delivery system (IDS) is authorized for all routine mail sent and received between Army Post Offices (APOs) and Fleet Post Offices (FPOs) within a theater.

(7) Military guards, civilian guards (for use within the installation), military police, or other protective services to accompany shipments of money from the MBF to the credit union and return where it is impractical or not authorized to have a local armored car service or civilian police authorities entering a military installation to provide cash escort service or when the cost of obtaining such service is prohibitive. This level of protective service also shall be provided at other times as required to include replenishment of ATM currency and receipts, alarm system failures, and to avoid undue risks or insurance costs.

(d) Travel. Travel by credit union officials must be at no expense to the U.S. Government. Overseas commanders may issue invitational travel orders for official on-base visits by credit union officials at no cost to the U.S. Government.
(e) Operations. (1) An overseas credit union shall confine its field of membership to individuals or organizations eligible by law or regulation to receive services and benefits from the installation. Services shall not be provided to those personnel precluded such services by the applicable status of forces agreement, other intergovernmental agreements, or host-country law.<br>
(2) The Department assigns overseas credit unions a prescribed geographic franchise. Any credit union, however, may continue to serve its members stationed overseas by mail or telecommunications, to include access to the Internet.<br>
(3) A credit union proposing a new service to be offered by a branch office that is not authorized by the operating agreement shall coordinate the establishment of the new service through the cognizant Component command to the Combatant Command. The new service shall be offered only after the appropriate command’s approval and coordination with the U.S. Chief of Diplomatic Mission or U.S. Embassy to ensure that the service does not conflict with the applicable status of forces agreement, other intergovernmental agreements, or host-country law.<br>
(4) Credit unions that operate full service branches shall have U.S. currency and coin available for member transactions. In areas served by currency custody accounts, transactional U.S. currency and coins shall be made available from the servicing MBF with no direct or analysis charge to the credit union, provided settlement is made via the local MBF account or equivalent arrangements are made with the MBF.<br>
(5) In countries served by MBF’s operated under contract, credit unions shall purchase foreign currency only from the servicing MBF.<br>
(i) The bulk rate purchase price shall apply to currency used by the credit union to make payments to vendors or to make payroll payments.<br>
(ii) Credit unions that desire and are authorized to provide accommodation exchange services to its members shall acquire foreign currency from the servicing MBF at the MBF wholesale rate and sell it at a rate of exchange no more favorable than that available to customers of the MBF.<br>
(6) Credit unions operating under a geographic franchise on an overseas DoD installation shall not publicize, display or sell vehicles on the installation.<br>
(7) The NCUA or applicable state regulatory agency may review operations of overseas credit union offices either when it examines the main credit union or at other times of its choosing. For federally insured, state chartered credit unions, the applicable state regulatory agency also may examine credit unions operations.<br>
§ 231.9 Definitions.<br>
(a) Automated Teller Machine (ATM). An electronic machine that dispenses cash, and may perform such other functions as funds transfers among a customer’s various accounts and acceptance of deposits. Equipment generally is activated by a plastic card in combination with a personal identification number (PIN). Typically, when the cardholder’s account is with a financial institution other than that operating the ATM, its use results in the assessment of a fee from the ATM network (e.g., Armed Forces Financial Network (AFFN), Cirrus, or PLUS) that processes the transaction.<br>
(b) Banking institution. An entity chartered by a state or the federal government to provide financial services.<br>
(c) Banking office. A branch bank, or independent bank operated by a banking institution on a domestic DoD installation or by a foreign banking institution on an overseas DoD installation.<br>
(d) Branch bank. A separate unit chartered to operate at an on-base location geographically remote from its parent banking institution.<br>
(e) Credit union. A cooperative nonprofit association, incorporated under the Federal Credit Union Act (12 U.S.C. 1751 et seq.), or similar state statute, for the purposes of encouraging thrift among its members and creating a source of credit at a fair and reasonable rate of interest.<br>
(f) Credit union facility. A facility employing a communications system with the parent credit union to conduct business at remote locations where a
full-service credit union or credit union branch is impractical. Credit union facilities need not provide cash transaction services but must disburse loans and shares by check or draft and provide competent financial counseling during normal working hours.

(g) *Discrimination.* Any differential treatment in provision of services, including loan services, by a financial institution to DoD personnel and their dependents on the basis of race, color, religion, national origin, sex, marital status, age, rank, or grade.

(h) *DoD Component.* For the purposes of this part, DoD Components include the Office of the Secretary of Defense, the Military Departments, the Joint Chiefs of Staff, the Joint Staff and the supporting Joint Agencies, the Combatant Commands, the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, the Uniformed Services University of the Health Sciences, all non-appropriated fund instrumentalities including the Military Exchange Services, and morale, welfare and recreation activities, and all other organizational entities within the Department of Defense.

(i) *DoD Personnel.* All military personnel; DoD civil service employees; other civilian employees, including special government employees of all offices, Agencies, and Departments performing functions on a DoD installation (including nonappropriated fund instrumentalities); and their dependents. On domestic DoD installations, retired U.S. military personnel and their dependents are included.

(j) *Domestic DoD installation.* For the purposes of this Regulation, a military installation located within a state of the United States, the District of Columbia, Guam or the Commonwealth of Puerto Rico.

(k) *Fair market rental.* A reasonable charge for on-base land, buildings, or building space. Rental is determined by a government appraisal based on comparable properties in the local civilian economy. The appraiser, however, shall consider that on-base property may not always be comparable to similar property in the local commercial geographic area. Examples of circumstances that may affect fair market rental include limitations of usage and access to the financial institution by persons other than those on the installation, proximity to the community center or installation business district, and the government’s right to terminate the lease or take title to improvements constructed at the financial institution’s expense.

(l) *Field of membership.* A group of people entitled to credit union membership because of a common bond of occupation, association, employment, or residence within a well-defined neighborhood, community, rural district, and other persons sharing a common bond as described by credit union board of directors policy or by Interpretation Ruling and Policy Statement (IRPS) 99–1. A field of membership is defined in the credit union’s charter by the appropriate regulatory agency.

(m) *Financial institution.* This term encompasses any banking institution, credit union, thrift institution and subordinate office branch or facility, each as separately defined herein.

(n) *Financial services.* Those services commonly associated with financial institutions in the United States, such as electronic banking (e.g., ATMs and personal computing banking), in-store banking, checking, share and savings accounts, funds transfers, sales of official checks, money orders, and travelers checks, loan services, safe deposit boxes, trust services, sale and redemption of U.S. Savings Bonds, and acceptance of utility payments and any other services provided by financial institutions.

(o) *Foreign banking institution.* A bank located outside the United States chartered by the country in which it is domiciled.

(p) *Full service credit union.* A credit union that provides full-time counter transaction services, to include cash operations, and is staffed during normal working hours by a loan officer, a person authorized to sign checks, and a qualified financial counselor. In overseas areas, “full service” includes cash operations where not prevented by:

(1) Status of forces agreements, other intergovernmental agreements, or host-country law.
Office of the Secretary of Defense

§ 231.10

231.10 Financial institutions on DoD installations.

(a) Purpose. This subpart:

(1) Updates policies and responsibilities for financial institutions that serve Department of Defense (DoD) personnel on DoD installations worldwide. Associated procedures are contained in subpart A of this part.

(2) Prescribes consistent arrangements for the provision of services by financial institutions among the DoD Components, and requires that financial institutions operating on DoD installations provide, and are provided, support consistent with the policies stated herein.

(2) Physical security requirements that cannot be resolved by the credit union or local command.

(q) Geographic franchise. Authorization granted to a credit union by the Office of the Under Secretary of Defense (Comptroller) to provide financial services in a specific geographic region located outside the United States, its territories and possessions.

(r) Independent bank. A bank specifically chartered to operate on one or more DoD installations whose directors and officers usually come from the local business and professional community. Such operations are thus differentiated from county-wide or state-wide branch systems consisting of a head office and one or more geographically separate branch offices.

(s) In-store banking. An expansion of financial services provided by an on-base financial institution within the premises of a commissary store operated by the Defense Commissary Agency, a Military Exchange outlet, and other on-base retail facilities.

(t) Malpractice. Any unreasonable lack of skill or fidelity in fiduciary duties or the intentional violation of an applicable law or regulation or both that governs the operations of the financial institution. A violation shall be considered intentional if the responsible officials know that the applicable action or inaction violated a law or regulation.

(u) Military banking facility (MBF). A banking office located on a DoD installation and operated by a financial institution that the Department of the Treasury specifically has authorized, under its designation as a “Depository and Financial Agent of the U.S. Government,” to provide certain banking services at the installation.

(v) National bank. An association approved and chartered by the Comptroller of the Currency to operate a banking business.

(w) On-base. Refers to physical presence on a domestic or overseas DoD installation.

(x) Operating agreement. A mutual agreement between the installation commander and the on-base financial institution to document their relationships.

(y) Overseas DoD installation. A military installation (or community) located outside the states of the United States, the District of Columbia, Guam or the Commonwealth of Puerto Rico.

Part-time MBF. A MBF that operates fewer than 5 days a week exclusive of additional payday service. When only payday service is provided, the MBF may be termed a “payday service facility.”

(aa) Regulatory Agency. Includes the Office of the Comptroller of the Currency, Department of the Treasury; the Federal Deposit Insurance Corporation; the Board of Governors of the Federal Reserve System; the respective Federal Reserve Banks; the National Credit Union Administration; Office of Thrift Supervision; the various state agencies and commissions that oversee financial institutions; and, for military banking facilities (MBFs), the Fiscal Assistant Secretary of the Treasury (or designee).

(bb) State bank. An institution organized and chartered under the laws of one of the states of the United States to operate a banking business within that state.

(cc) Thrift institution. An institution organized and chartered under federal or state law as a Savings Bank, Savings Association, or Savings and Loan Association.

§ 231.10  Applicability. This subpart applies to the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activity, and all other organizational entities within the Department of Defense (hereafter collectively referred to as “the DoD Components”) and all nonappropriated fund instrumentalities including the Military Exchange Services and morale, welfare and recreation (MWR) activities.

(c) Definitions. Terms used in this subpart are set forth in subpart A of this part.

(d) Policy. (1) The following pertains to financial institutions on DoD installations:

(i) Except where they already may exist as of May 1, 2000, no more than one banking institution and one credit union shall be permitted to operate on a DoD installation.

(ii) Upon the request of an installation commander and with the approval of the Secretary of the Military Department concerned (or designee), duly chartered financial institutions may be authorized to provide financial services on DoD installations to enhance the morale and welfare of DoD personnel and facilitate the administration of public and quasi-public monies. Arrangement for the provision of such services shall be in accordance with this subpart and the applicable provisions of subpart A of this part.

(iii) Financial institutions or branches thereof, shall be established on DoD installations only after approval by the Secretary of the Military Department concerned (or designee) and the appropriate regulatory agency.

(A) Except in limited situations overseas (see paragraph (d)(2)(i)(C) of this section), only banking institutions insured by the Federal Deposit Insurance Corporation and credit unions insured by the National Credit Union Share Insurance Fund or by another insurance organization specifically qualified by the Secretary of the Treasury, shall operate on DoD installations. These financial institutions may either be State or federally chartered; however, U.S. credit unions operated overseas shall be federally insured.

(B) Military banking facilities (MBFs) shall be established on DoD installations only when a demonstrated and justified need cannot be met through other means. An MBF is a financial institution that is established by the Department of the Treasury under statutory authority that is separate from State or Federal laws that govern commercial banking. Section 265 of title 12, United States Code contains the provisions for the Department of the Treasury to establish MBFs. Normally, MBFs shall be authorized only at overseas locations. This form of financial institution may be considered for use at domestic DoD installations only when the cognizant DoD Component has been unable to obtain, through normal means, financial services from a State or federally chartered financial institution authorized to operate in the State in which the installation is located. In times of mobilization, it may become necessary to designate additional MBFs as an emergency measure. The Director, Defense Finance and Accounting Service (DFAS) may recommend the designation of MBFs to the Department of the Treasury.

(C) Retail banking operations shall not be performed by any DoD Component. Solicitations for such services shall be issued, or proposals accepted, only in accordance with the policies identified in this subpart. The DoD Components shall rely on commercially available sources in accordance with DoD Directive 4100.15.

(iv) Installation commanders shall not seek the provision of financial services from any entity other than the on-base banking office or credit union. The Director, DFAS, with the concurrence of the Under Secretary of Defense (Comptroller) (USD(C)), may approve exceptions to this policy.

(v) Financial institutions authorized to locate on DoD installations shall be provided logistic support as set forth in subpart A of this part.

(vi) Military disbursing offices, non-appropriated fund instrumentalities (including MWR activities and the...
Military Exchange Services) and other DoD Component activities requiring financial services shall use on-base financial institutions to the maximum extent feasible.

(vii) The Department encourages the delivery of retail financial services on DoD installations via nationally networked automated teller machines (ATMs).

(A) ATMs are considered electronic banking services and, as such, shall be provided only by financial institutions that are chartered and insured in accordance with the provisions of paragraph (d)(1)(iii) of this section.

(B) Proposals by the installation commander to install ATMs from other than on-base financial institutions shall comply with the provisions of paragraph (d)(1)(iv) of this section.

(viii) Expansion of financial services (to include in-store banking) requiring the outgrant of additional space or logistical support shall be approved by the installation commander. Any DoD activity or financial institution seeking to expand financial services shall coordinate such requests with the installation bank/credit union liaison officer prior to the commander’s consideration.

(ix) The installation commander shall ensure, to the maximum extent feasible, that all financial institutions operating on that installation are given the opportunity to participate in pilot programs to demonstrate new financial-related technology or establish new business lines (e.g., in-store banking) where a determination has been made by the respective DoD Component that the offering of such services is warranted.

(x) The installation commander shall approve requests for termination of financial services that are substantiated by sufficient evidence and forwarded to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall coordinate such requests with the USD(C), through the Director, DFAS, before notification to the appropriate regulatory agency.

(xi) Additional guidance pertaining to financial services is set forth in subpart A of this part.

(2) The following additional provisions pertain to only to financial institutions on overseas DoD installations:

(i) The extension of services by MBFs and credit unions overseas shall be consistent with the policies stated herein and with the applicable status of forces agreements, other intergovernmental agreements, or host-country law.

(ii) Financial services at overseas DoD installations may be provided by:

(A) Domestic on-base credit unions operating overseas under a geographic franchise and, where applicable, as authorized by the pertinent status of forces agreements, other intergovernmental agreements, or host-country law.

(B) MBFs operated under and authorized by the pertinent status of forces agreement, other intergovernmental agreement, or host-country law.

(C) Domestic and foreign banks located on overseas DoD installations that are:

(1) Chartered to provide financial services in that country, and

(2) A party to a formal operating agreement with the installation commander to provide such services, and

(3) Identified, where applicable, in the status of forces agreements, other intergovernmental agreements, or host-country law.

(iii) In countries served by MBFs operated under contract, nonappropriated fund instrumentalities and on-base credit unions that desire, and are authorized, to provide accommodation exchange services shall acquire foreign currency from the MBF at the MBF accommodation rate; and shall sell such foreign currency at a rate of exchange that is no more favorable to the customer than the customer rate available at the MBF.

(e) Responsibilities. (1) The Under Secretary of Defense (Comptroller) (USD(C)) shall develop policies governing establishment, operation, and termination of financial institutions on DoD installations and take final action on requests for exceptions to this subpart.

(2) The Under Secretary of Defense (Acquisition, Technology and Logistics) (USD(AT&L)) shall monitor policies and procedures governing
logistical support furnished to financial institutions on DoD installations, including the use of DoD real property and equipment.

(3) The Under Secretary of Defense (Personnel and Readiness) (USD(P&R)) shall advise the USD(C) on all aspects of on-base financial institution services that affect the morale and welfare of DoD personnel.

(4) DoD Component responsibilities pertaining to this subpart are set forth in subpart A of this part.

Subpart C—Guidelines for Application of the Privacy Act to Financial Institution Operations

§ 231.11 Guidelines.

(a) The following guidelines govern the application of DoD Directive 5400.11 to those financial institutions that operate under this part:

(1) Financial institutions and their branches and facilities operating on DoD military installations do not fall within the purview of 5 U.S.C. 552 et seq.

(i) These financial institutions do not fit the definition of “agency” to which the Privacy Act applies, that is, any executive department, Military Department, government corporation, government-controlled corporation, or other establishment in the executive branch of the government (including the Executive Office of the President), or an independent regulatory agency (5 U.S.C. 552(e) and 552a(a)(1)).

(ii) These financial institutions do not operate a system of records on behalf of an agency to accomplish an agency function. According to the Office of Management and Budget Privacy Act Guidelines, the provision relating to government contractors applies only to systems of records actually taking the place of a federal system which, but for the contract, would have been performed by an agency and covered by the Privacy Act. Clearly, the subject institutions do not meet these criteria.

(3) Since the Act does not apply to them, these financial institutions are not required to comply with 5 U.S.C. 552a(e)(3) in obtaining and making use of personal information in their relationships with personnel authorized to use such institutions. Thus, these institutions are not required to inform individuals from whom information is requested of the authority for its solicitation, the principal purpose for which it is intended to be used, the routine uses that may be made of it, or the effects of not providing the information. There also is no requirement to post information of this nature within on-base banking and credit union offices.

(2) The financial institutions concerned hold the same position and relationship to their account holders, members, and to the government as they did before enactment of OMB Circular A–130. Within their usual business relationships, they still are responsible for safeguarding the information provided by their account holders or members and for obtaining only such information as is reasonable and necessary to conduct business. This includes credit information and proper identification, which may include social security number, as a precondition for the cashiering of checks.

(3) Financial institutions may incorporate the following conditions of disclosure of personal identification in all contracts, including loan agreements, account signature cards, certificates of deposit agreements, and any other agreements signed by their account holders or members:

I hereby authorize the Department of Defense and its various Components to verify my social security number or other identifier and disclose my home address to authorized (name of financial institution) officials so that they may contact me in connection with my business with (name of financial institution). All information furnished will be used solely in connection with my financial relationship with (name of financial institution).

(ii) When the financial institution presents such signed authorizations, the receiving military command or installation shall provide the appropriate information.

15 See footnote 1 to §231.1(a).
(4) Even though an agreement described in paragraph (a)(3) of this section has not been obtained, the Department of Defense may provide these financial institutions with salary information and, when pertinent, the length or type of civilian or military appointment, consistent with DoD Directives 5400.11 and 5400.7. Some examples of personal information pertaining to DoD personnel that normally can be released without creating an unwanted invasion of personal privacy are name, rank, date of rank, salary, present and past duty assignments, future assignments that have been finalized, office phone number, source of commission, and promotion sequence number.

(5) When DoD personnel with financial obligations are reassigned and fail to inform the financial institution of their whereabouts, they should be located by contacting the individual’s last known commander or supervisor at the official position or duty station within that particular DoD Component. That commander or supervisor either shall furnish the individual’s new official duty location address to the financial institution, or shall forward, through official channels, any correspondence received pertaining thereto to the individual’s new commander or supervisor for appropriate assistance and response. Correspondence addressed to the individual concerned at his or her last official place of business or duty station shall be forwarded as provided by postal regulations to the new location. Once an individual’s affiliation with the Department of Defense is terminated through separation or retirement, however, the Department’s ability to render locator assistance (i.e., disclose a home address) is severely curtailed unless the public interest dictates disclosure of the last known home address. The Department may, at its discretion, forward correspondence to the individual’s last known home address. The Department may not act as an intermediary for private matters concerning former DoD personnel who are no longer affiliated with the Department.

(b) Questions concerning this guidance should be forwarded through channels to the Deputy Chief Financial Officer, Office of the Under Secretary of Defense (Comptroller), The Pentagon, Washington, DC 20301–1100.

APPENDIX A TO PART 231—SAMPLE OPERATING AGREEMENT

SAMPLE OPERATING AGREEMENT BETWEEN MILITARY INSTALLATIONS AND FINANCIAL INSTITUTIONS

NOTE: The following operating agreement template identifies general arrangement and content. Content of the actual operating agreement may vary according to the circumstances of each installation.

Operating Agreement Between (Name of Installation), (State or Country Installation Located) and (Name of Financial Institution).

This Agreement is made and entered into this day by and between the installation commander of (name of installation) in his or her official capacity as installation commander, hereinafter referred to as the “commander” and the (name of financial institution), having its principal office at (location of home office) hereinafter referred to as the “financial institution,” together hereinafter referred to as “the parties.” Whereas the commander and the financial institution enter into this Operating Agreement upon the mutual consideration of the promises, covenants, and agreements hereinafter contained.

1. The parties understand and agree that this Agreement shall in no way modify, change, or alter the terms and conditions of Lease Number (number of lease) covering the use of real property described therein, and this Agreement shall continue, subject to the termination provisions herein-after set forth, during the terms of said lease and any extensions thereof. In the case of a banking facility operating a military banking facility (MBF) overseas, this agreement will not change the conditions of the contract between the banking institution and the Department of Defense.

2. The financial institution agrees to operate a (federally or state) chartered office on-base in accordance with the policies and procedures set forth in DoD Directive 1000.11, and Volume 5, Chapter 31, of the DoD 7000.14-R (as codified in the Code of Federal Regulations (CFR) at 32 CFR parts 230 and 231, respectively); and, in addition for the Overseas Military Banking Program (OMBP), the policies and procedures set forth in the applicable DoD contract. The hours of operations shall be between (hour office open) and (hour office close), and on the following:

---

16 See footnote 1 to 231.1(a).
days (weekdays office open), except on government holidays when the financial institution may be closed. The Program Office for the OMBP shall notify the commander of any changes to a DoD contract.

3. The financial institution shall provide the following services:
   a. Services for Individuals.
   (1) Demand (checking) account services.
   (2) Cashing personal checks and government checks for account holders.
   (3) Maintaining savings accounts and (any other interestbearing accounts).
   (4) Selling official checks, money orders, and traveler’s checks.
   (5) Selling and redeeming United States savings bonds.
   (6) Providing direct deposit service.
   (7) Loan services.
   (8) Electronic banking (i.e., automated teller machines, internet banking).
   b. Services for disbursing officers.
   (1) Furnishing cash (if the financial institution’s terms for doing so is consistent with sound management practices).
   (2) Accepting deposits for credit to the Treasury General Account (where the financial institution has entered into an agreement with the Department of the Treasury).
   c. Services for nonappropriated fund instrumentalities and private organizations.
      (1) Demand (checking) account services, including wire transfers.
      (2) Savings accounts and nonnegotiable certificates of deposit or other interestbearing accounts offered by the banking institution.
      (3) Currency and coin for change.
      4. Service charges shall be as follows:
         a. Service for individuals.
            (1) No fees shall be charged to individuals for the services listed in subparagraphs 3.a.(2), and 3.a.(5), above, except for subparagraph 3.a.(2), wherein checks drawn on other financial institutions may be treated in accordance with the financial institution’s established policy. Any charge to cash a government check shall not exceed that typically charged by financial institutions in the vicinity of the installation. Fees assessed to account holders and nonaccount holders for use of automated teller machines shall be the customary service charges of the financial institution or those negotiated for base personnel per the attached schedule.
            (2) Checking and savings accounts. Fees for individual checking and savings accounts shall be the customary service charges of the financial institution or those negotiated for base personnel per the attached schedule.
            (3) Sale of official checks, money orders, traveler’s checks and other types of financial paper. Charges for these services shall be the customary charges of the financial institution operating the on-base office.
         b. Service for Disbursing Officers. No charge shall be made for the services listed in sub-
paragraph 3.b.(2), above. Compensation to the financial institution shall be per its separate agreement with the Department of the Treasury. Charges, if any, for the services stated in subparagraph 3.b.(1) shall be as locally negotiated with the financial institution.
   c. Nonappropriated Fund Instrumentalities and Private Organizations. State the charges or refer to a schedule of charges for funds and organizations that do not participate in a central banking program. For those activities participating in a central banking program, determine the compensation to the financial institution by account analysis.

5. It is agreed that the financial institution shall:
   a. Notify the commander or designated representative of any proposed changes to the attached schedule of fees and services at least 30 days prior to implementation.
   b. Follow the requirements in Volume 5, Chapter 34, of DoD 7000.14-R, as codified in the Code of Federal Regulations (CFR), and any changes thereto.
   c. Comply with Department of the Treasury requirements for establishment and operation of a Treasury General Account where the financial institution agrees to act as a depository for government funds.
   d. Absolve the (Military Service) and its representatives of responsibility or liability for the financial operation of the financial institution; and for any loss (including losses due to criminal activity), expenses, or claims for damages arising from financial institution operations.
   e. Indemnify, and hold harmless the United States from (and against) any loss, expense, claim, or demand, including attorney fees, court costs, and costs of litigation, to which the government may be subjected as a result of death, loss, destruction, or damage in connection with the use and occupancy of (Military Service) premises occasioned in whole or in part by officers, agents or employees of the financial institution operating an office of the financial institution.
   f. Favorably respond, whenever feasible, to reasonable local command requests for lectures and printed materials to support consumer credit education programs, financial management program and newcomer’s briefings.
   g. Prominently post in the lobby of the financial institution the name, duty telephone number of the (Bank or Credit Union) Liaison Officer.
   h. Accept the government travel card in all on-base ATMs operated by the financial institution.
   i. Abide by the installation fire protection program, including immediate correction of fire hazards noted by the installation fire inspector during periodic fire prevention inspections.
6. The commander shall provide the following space and support:
   a. Space requirements for financial institution operations shall be administered in accordance with the existing outgrant (i.e., lease, permit or license). (Show Number of Outgrant.
   b. Utilities (i.e., electricity, natural gas or fuel oil, water and sewage), heating and air conditioning, intrastation telephone service, and custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal) on a reimbursable basis.
   c. DoD housing and minor dependent education in overseas locations for military banking facility (MBF) and credit union personnel in accordance with §§ 231.6(c)(1)(ii)(C), 231.6(c)(1)(ii)(D), 231.8(c)(2) and 231.6(c)(3).
   7. Termination of this Agreement shall be consistent with the termination provision of the real property lease and subpart A. The Secretary of the (Military Department) shall have the right to terminate this Agreement at any time. Any termination of the right of the financial institution to operate on the installation shall render this Agreement terminated without any applicable action by the commander.
   8. Any provision of this Agreement that is contrary to or violates any laws, rules, or regulations of the United States, its agencies, or the state of (state in which the financial institution is located) that apply on federal installations shall be void and have no force or effect; however, both parties to this Agreement agree to notify the other party promptly of any known or suspected continuing violation of such laws, rules, or regulations.
   9. So long as this Agreement remains in effect, it shall be reviewed jointly by the commander and the financial institution at least once every 5 years to ensure compatibility with current DoD issuances and to determine if any changes are required to the Agreement.

In witness whereof, the commander, and the financial institution, by their duly authorized office, have hereunto set their hands this day of (month, day, year).

Financial Institution Official

Installation Commander

APPENDIX B TO PART 231—IN-STORE BANKING

A. Selection Process. The purpose of this guidance is to assure an impartial and thorough process to select the best on-base financial institution to provide in-store banking services when such services are desired and approved by the installation commander.

1. Consistent with DoD Component delegation, the final decision to solicit for an in-store banking office rests with the installation commander.
2. The DoD Component seeking in-store banking (e.g., in buildings operated by the Defense Commissary Agency, Military Exchange Services and MWR activities) shall draft the solicitation letter.
3. Close coordination among all cognizant DoD organizations is essential throughout the selection process.

B. Specific Procedures

1. The need for in-store banking service may be identified from either:
   a. An unsolicited proposal from an on-base financial institution,
   b. A DoD Component’s request, or
   c. An installation commander’s request.

2. The cognizant installation commander (or designee) is responsible for assessing the environment and authorizing the Bank/Credit Union Liaison Officer(s) to pursue the acquisition of in-store banking services. If no authorization is given, no further action is required.
3. The cognizant installation commander shall determine whether a solicitation is required. (A solicitation shall be required whenever there are two or more financial institutions on a DoD installation.) If no solicitation is required, then the Bank/Credit Union Liaison Officer shall work directly with the on-base financial institution to obtain the requested services. Where there is neither a banking office nor an on-base credit union, use the solicitation process outlined in §231.5(c) of this chapter, as supplemented by the provisions outlined in paragraph A above.
4. The solicitation letter shall identify the financial services being requested and classify these services as either mandatory or optional. In addition, the solicitation letter shall highlight any services that will be weighted as more important than others during the evaluation of the proposals. Any space consideration and terms of the proposed agreement also shall be identified in the letter.
5. The installation commander (or designee) formally shall notify the selected financial institution and request that institution to coordinate with the proper activity to begin any construction, modifications or renovations necessary to open the in-store banking office. The cognizant facility management personnel shall begin the process of obtaining the necessary outgrant instruments. Concurrently, the requesting DoD Component representative and the financial institution representative shall draft the appropriate amendment to the operating agreement. The amendment should contain provisions regarding:
   a. The roles and responsibilities of all parties involved.
   b. The financial services to be provided, and
c. The logistical support arrangements to include custodial services and security provisions. The amendment should be coordinated with the Bank/Credit Union Liaison Officer(s) prior to forwarding that document to the installation commander for signature. The amendment shall be signed by the installation commander (or designee) and the appropriate financial institution official with a copy furnished to the Secretary of the Military Department concerned (or designee) and the Director, DFAS (or designee).

APPENDIX C TO PART 231—SAMPLE CERTIFICATE OF COMPLIANCE FOR CREDIT UNIONS

CERTIFICATE OF COMPLIANCE

I, (name), Chairman of the Board of Directors or President of the (credit union), located at (place), certify that this credit union complies with the requirements of section 170 of the Federal Credit Union Act (12 U.S.C 1770), for the allotment of space in federal buildings without charge for rent or services. The provision of no-cost office space is limited to credit unions if at least 95 percent of the membership to be served by the allotment of space is composed of individuals who are, or who were at the time of admission into the credit union, military personnel or federal employees, or members of their families.

(Date)

(Name)

(Chairman of the Board of Directors or the President)

NOTE: The Certificate of Compliance shall be written on credit union letterhead.

234.17 Vehicles and traffic safety.
234.18 Enforcement of parking regulations.

234.19 Penalties and effect on other laws.

AUTHORITY: 10 U.S.C. 131 and 2674(c).

SOURCE: 63 FR 32619, June 15, 1998, unless otherwise noted.

§ 234.1 Definitions.

As used in this part.

Authorized person. An employee or agent of the Defense Protective Service, or any other Department of Defense employee or agent who has delegated authority to enforce the provisions of this part.

Operator. A person who operates, drives, controls, otherwise has charge of, or is in actual physical control of a mechanical mode of transportation or any other mechanical equipment.

Pentagon Reservation. Area of land and improvements thereon, located in Arlington, Virginia, on which the Pentagon Office Building, Federal Building Number 2, the Pentagon heating and sewage treatment plants, and other related facilities are located, including all roadways, walkways, waterways, and all areas designated for the parking of vehicles.

Permit. A written authorization to engage in uses or activities that are otherwise prohibited, restricted, or regulated.

Possession. Exercising direct physical control or dominion, with or without ownership, over property.

State law. The applicable and nonconflicting laws, statutes, regulations, ordinances, and codes of the state(s) and other political subdivision(s) within whose exterior boundaries the Pentagon Reservation or a portion thereof is located.

Traffic. Pedestrians, ridden or herded animals, vehicles, and other conveyances, either singly or together, while using any road, path, street, or other thoroughfare for the purposes of travel.

Vehicle. Any vehicle that is self-propelled or designed for self-propulsion, any motorized vehicle, and any vehicle drawn by or designed to be drawn by a motor vehicle, including any device in, upon, or by which any person or property is or can be transported or drawn upon a highway, hallway, or pathway; to include any device moved by human or animal power, whether required to be licensed in any state or otherwise.
§ 234.6 Interfering with agency functions.

(a) Threatening, resisting, intimidating, or intentionally interfering with a government employee or agent engaged in an official function and/or requested, display identification to authorized persons.

(c) All packages, briefcases, and other containers brought into, on, or being removed from facilities or restricted areas on the Pentagon Reservation are subject to inspection and search by authorized persons. Persons entering on facilities or restricted areas who refuse to permit an inspection and search will be denied entry.

(d) Any person or organization desiring to conduct activities anywhere on the Pentagon Reservation shall file an application for permit with the applicable Building Management Office. Such application shall be made on a form provided by the Department of Defense and shall be submitted in the manner specified by the Department of Defense. Violation of the conditions of a permit issued in accordance with this section is prohibited and may result in the loss of access to the Pentagon Reservation.

§ 234.4 Trespassing.

(a) Trespassing, entering, or remaining in or upon property not open to the public, except with the express invitation or consent of the person or persons having lawful control of the property, is prohibited. Failure to obey an order to leave under paragraph (b) of this section, or reentry upon property after being ordered to leave or not reenter under paragraph (b) of this section, is also prohibited.

(b) Any person who violates a Department of Defense rule or regulation may be ordered to leave the Pentagon Reservation by an authorized person. A violator’s reentry may also be prohibited.

§ 234.5 Compliance with official signs.

Persons on the Pentagon Reservation shall at all times comply with official signs of a prohibitory, regulatory, or directory nature.

§ 234.6 Interfering with agency functions.

The following are prohibited:

(a) Interference. Threatening, resisting, intimidating, or intentionally interfering with a government employee or agent engaged in an official function and/or requested, display identification to authorized persons.

(c) All packages, briefcases, and other containers brought into, on, or being removed from facilities or restricted areas on the Pentagon Reservation are subject to inspection and search by authorized persons. Persons entering on facilities or restricted areas who refuse to permit an inspection and search will be denied entry.

(d) Any person or organization desiring to conduct activities anywhere on the Pentagon Reservation shall file an application for permit with the applicable Building Management Office. Such application shall be made on a form provided by the Department of Defense and shall be submitted in the manner specified by the Department of Defense. Violation of the conditions of a permit issued in accordance with this section is prohibited and may result in the loss of access to the Pentagon Reservation.

§ 234.4 Trespassing.

(a) Trespassing, entering, or remaining in or upon property not open to the public, except with the express invitation or consent of the person or persons having lawful control of the property, is prohibited. Failure to obey an order to leave under paragraph (b) of this section, or reentry upon property after being ordered to leave or not reenter under paragraph (b) of this section, is also prohibited.

(b) Any person who violates a Department of Defense rule or regulation may be ordered to leave the Pentagon Reservation by an authorized person. A violator’s reentry may also be prohibited.

§ 234.5 Compliance with official signs.

Persons on the Pentagon Reservation shall at all times comply with official signs of a prohibitory, regulatory, or directory nature.

§ 234.6 Interfering with agency functions.

The following are prohibited:

(a) Interference. Threatening, resisting, intimidating, or intentionally interfering with a government employee or agent engaged in an official function and/or requested, display identification to authorized persons.

(c) All packages, briefcases, and other containers brought into, on, or being removed from facilities or restricted areas on the Pentagon Reservation are subject to inspection and search by authorized persons. Persons entering on facilities or restricted areas who refuse to permit an inspection and search will be denied entry.

(d) Any person or organization desiring to conduct activities anywhere on the Pentagon Reservation shall file an application for permit with the applicable Building Management Office. Such application shall be made on a form provided by the Department of Defense and shall be submitted in the manner specified by the Department of Defense. Violation of the conditions of a permit issued in accordance with this section is prohibited and may result in the loss of access to the Pentagon Reservation.

§ 234.4 Trespassing.

(a) Trespassing, entering, or remaining in or upon property not open to the public, except with the express invitation or consent of the person or persons having lawful control of the property, is prohibited. Failure to obey an order to leave under paragraph (b) of this section, or reentry upon property after being ordered to leave or not reenter under paragraph (b) of this section, is also prohibited.

(b) Any person who violates a Department of Defense rule or regulation may be ordered to leave the Pentagon Reservation by an authorized person. A violator’s reentry may also be prohibited.

§ 234.5 Compliance with official signs.

Persons on the Pentagon Reservation shall at all times comply with official signs of a prohibitory, regulatory, or directory nature.

§ 234.6 Interfering with agency functions.

The following are prohibited:

(a) Interference. Threatening, resisting, intimidating, or intentionally interfering with a government employee or agent engaged in an official function and/or requested, display identification to authorized persons.

(c) All packages, briefcases, and other containers brought into, on, or being removed from facilities or restricted areas on the Pentagon Reservation are subject to inspection and search by authorized persons. Persons entering on facilities or restricted areas who refuse to permit an inspection and search will be denied entry.

(d) Any person or organization desiring to conduct activities anywhere on the Pentagon Reservation shall file an application for permit with the applicable Building Management Office. Such application shall be made on a form provided by the Department of Defense and shall be submitted in the manner specified by the Department of Defense. Violation of the conditions of a permit issued in accordance with this section is prohibited and may result in the loss of access to the Pentagon Reservation.

§ 234.4 Trespassing.

(a) Trespassing, entering, or remaining in or upon property not open to the public, except with the express invitation or consent of the person or persons having lawful control of the property, is prohibited. Failure to obey an order to leave under paragraph (b) of this section, or reentry upon property after being ordered to leave or not reenter under paragraph (b) of this section, is also prohibited.

(b) Any person who violates a Department of Defense rule or regulation may be ordered to leave the Pentagon Reservation by an authorized person. A violator’s reentry may also be prohibited.

§ 234.5 Compliance with official signs.

Persons on the Pentagon Reservation shall at all times comply with official signs of a prohibitory, regulatory, or directory nature.

§ 234.6 Interfering with agency functions.

The following are prohibited:

(a) Interference. Threatening, resisting, intimidating, or intentionally interfering with a government employee or agent engaged in an official function and/or requested, display identification to authorized persons.

(c) All packages, briefcases, and other containers brought into, on, or being removed from facilities or restricted areas on the Pentagon Reservation are subject to inspection and search by authorized persons. Persons entering on facilities or restricted areas who refuse to permit an inspection and search will be denied entry.

(d) Any person or organization desiring to conduct activities anywhere on the Pentagon Reservation shall file an application for permit with the applicable Building Management Office. Such application shall be made on a form provided by the Department of Defense and shall be submitted in the manner specified by the Department of Defense. Violation of the conditions of a permit issued in accordance with this section is prohibited and may result in the loss of access to the Pentagon Reservation.

§ 234.4 Trespassing.

(a) Trespassing, entering, or remaining in or upon property not open to the public, except with the express invitation or consent of the person or persons having lawful control of the property, is prohibited. Failure to obey an order to leave under paragraph (b) of this section, or reentry upon property after being ordered to leave or not reenter under paragraph (b) of this section, is also prohibited.

(b) Any person who violates a Department of Defense rule or regulation may be ordered to leave the Pentagon Reservation by an authorized person. A violator’s reentry may also be prohibited.

§ 234.5 Compliance with official signs.

Persons on the Pentagon Reservation shall at all times comply with official signs of a prohibitory, regulatory, or directory nature.

§ 234.6 Interfering with agency functions.

The following are prohibited:

(a) Interference. Threatening, resisting, intimidating, or intentionally interfering with a government employee or agent engaged in an official function and/or requested, display identification to authorized persons.

(c) All packages, briefcases, and other containers brought into, on, or being removed from facilities or restricted areas on the Pentagon Reservation are subject to inspection and search by authorized persons. Persons entering on facilities or restricted areas who refuse to permit an inspection and search will be denied entry.

(d) Any person or organization desiring to conduct activities anywhere on the Pentagon Reservation shall file an application for permit with the applicable Building Management Office. Such application shall be made on a form provided by the Department of Defense and shall be submitted in the manner specified by the Department of Defense. Violation of the conditions of a permit issued in accordance with this section is prohibited and may result in the loss of access to the Pentagon Reservation.
§ 234.7 Disorderly conduct.

A person commits disorderly conduct when, with intent to cause public alarm, nuisance, jeopardy, or violence, or knowingly or recklessly creating a risk thereof, such person commits any of the following prohibited acts:

(a) Engages in fighting or threatening, or in violent behavior.
(b) Uses language, an utterance, or gesture, or engages in a display or act that is obscene, physically threatening or menacing, or done in a manner that is likely to inflict injury or incite an immediate breach of the peace.
(c) Makes noise that is unreasonable, considering the nature and purpose of the actor’s conduct, location, time of day or night, and other factors that would govern the conduct of a reasonably prudent person under the circumstances.
(d) Creates or maintains a hazardous or physically offensive condition.
(e) Impedes or threatens the security of persons or property, or disrupts the performance of official duties by Department of Defense employees, or obstructs the use of areas such as entrances, foyers, lobbies, corridors, concourses, offices, elevators, stairways, roadways, driveways, walkways, or parking lots.

§ 234.8 Preservation of property.

Willfully destroying or damaging private property is prohibited. The throwing of articles of any kind from or at buildings or persons, improper disposal of rubbish, and open fires are also prohibited.

§ 234.9 Explosives.

(a) Using, possessing, storing, or transporting explosives, blasting agents or explosive materials is prohibited, except pursuant to the terms and conditions of a permit issued by the applicable Building Management Office. When permitted, the use, possession, storage and transportation shall be in accordance with applicable Federal and State law.

(b) Using or possessing fireworks or firecrackers is prohibited, except in designated areas under such conditions as may be established by the applicable Building Management Office or pursuant to the terms and conditions of a permit issued in accordance with applicable State law.

(c) Violation of the conditions established by the applicable Building Management Office or of the terms and conditions of a permit issued in accordance with this section is prohibited and may result in the loss of access to the Pentagon Reservation.

§ 234.10 Weapons.

(a) Except as otherwise authorized under this section, the following are prohibited:

(b) Using a weapon.
(c) This section does not apply to any agency or Department of Defense component that has received prior written approval from the Defense Protective Service to carry, transport, or use a weapon in support of a security, law enforcement, or other lawful purpose while on the Pentagon Reservation.
§ 234.11 Alcoholic beverages and controlled substances.

(a) Alcoholic beverages. The consumption of alcoholic beverages or the possession of an open container of an alcoholic beverage within the Pentagon Reservation is prohibited unless authorized by the Director, Washington Headquarters Services, or his designee, or the Heads of the Military Departments, or their designees. Written notice of such authorizations shall be provided to the Defense Protective Service.

(b) Controlled substances. The following are prohibited:

(1) The delivery of a controlled substance, except when distribution is made by a licensed physician or pharmacist in accordance with applicable law. For the purposes of this paragraph, delivery means the actual, attempted, or constructive transfer of a controlled substance.

(2) The possession of a controlled substance, unless such substance was obtained by the possessor directly from, or pursuant to a valid prescription or order by, a licensed physician or pharmacist, or as otherwise allowed by Federal or State law.

(c) Presence on the Pentagon Reservation when under the influence of alcohol, a drug, a controlled substance, or any combination thereof, to a degree that may endanger oneself or another person, or damage property, is prohibited.

§ 234.12 Restriction on animals.

Animals, except guide dogs for persons with disabilities, shall not be brought upon the Pentagon Reservation for other than official purposes.

§ 234.13 Soliciting, vending, and debt collection.

Commercial or political soliciting, vending of all kinds, displaying or distributing commercial advertising, collecting private debts or soliciting alms upon the Pentagon Reservation is prohibited. This does not apply to:

(a) National or local drives for funds for welfare, health, or other purposes as authorized by 5 CFR parts 110 and 950, Solicitation of Federal Civilian and Uniformed Services Personnel for Contributions to Private Voluntary Organizations, issued by the U.S. Office of Personnel Management under Executive Order 12353, 3 CFR, 1982 Comp., p. 139, as amended.

(b) Personal notices posted on authorized bulletin boards, and in compliance with building rules governing the use of such authorized bulletin boards, advertising to sell or rent property of Pentagon Reservation employees or their immediate families.

(c) Solicitation of labor organization membership or dues authorized by the Department of Defense under the Civil Service Reform Act of 1978.

(d) Licensees, or their agents and employees, with respect to space licensed for their use.

(e) Solicitations conducted by organizations composed of civilian employees of the Department of Defense or members of the uniformed services among their own members for organizational support or for the benefit of welfare funds for their members, after compliance with the requirements of § 234.3(d).

§ 234.14 Posting of materials.

Posting or affixing materials, such as pamphlets, handbills, or fliers on the Pentagon Reservation is prohibited except as provided by § 234.13(b) or when conducted as part of activities approved by the applicable Building Management Office under § 234.3(d).

§ 234.15 Use of visual recording devices.

The use of cameras or other visual recording devices in restricted areas or in internal offices must be approved by the Department of Defense component occupying the space. Photographs for advertising or commercial purposes may only be taken with the permission of the Office of the Assistant to the Secretary of Defense for Public Affairs.

§ 234.16 Gambling.

Gambling in any form, or the operation of gambling devices, is prohibited. This prohibition shall not apply to the vending or exchange of chances
by licensed blind operators of vending facilities for any lottery set forth in a State law and authorized by the provisions of the Randolph-Sheppard Act (20 U.S.C. 107, et seq.).

§ 234.17 Vehicles and traffic safety.

(a) In general. Unless specifically addressed by regulations in this part, traffic and the use of vehicles within the Pentagon Reservation are governed by State law. Violating a provision of State law is prohibited.

(b) Open container of an alcoholic beverage. (1) Each person within a vehicle is responsible for complying with the provisions of this section that pertain to carrying an open container. The operator of a vehicle is the person responsible for complying with the provisions of this section that pertain to the storage of an open container.

(2) Carrying or storing a bottle, can, or other receptacle containing an alcoholic beverage that is open or has been opened, or whose seal is broken, or the contents of which have been partially removed, within a vehicle on the Pentagon Reservation is prohibited.

(c) Operating under the influence of alcohol, drugs, or controlled substances. (1) Operating or being in actual physical control of a vehicle is prohibited while:

(i) Under the influence of alcohol, a drug or drugs, a controlled substance or controlled substances, or any combination thereof, to a degree that renders the operator incapable of safe operation;

(ii) The alcohol concentration in the operator’s blood or breath is 0.08 grams or more of alcohol per 100 milliliters of blood or 0.08 grams or more of alcohol per 210 liters of breath. Provided, however, that if State law that applies to operating a vehicle while under the influence of alcohol establishes more restrictive limits of alcohol concentration in the operator’s blood or breath, those limits supersede the limits specified in this paragraph.

(2) The provisions of paragraph (c)(1) of this section shall also apply to an operator who is or has been legally entitled to use alcohol or another drug.

(3) Tests. (i) At the request or direction of an authorized person who has probable cause to believe that an operator of a vehicle within the Pentagon Reservation has violated a provision of paragraph (c)(1) of this section, the operator shall submit to one or more tests of the blood, breath, saliva, or urine for the purpose of determining blood alcohol, drug, and controlled substance content.

(ii) Refusal by an operator to submit to a test is prohibited and may result in detention and citation by an authorized person. Proof of refusal may be admissible in any related judicial proceeding.

(iii) Any test or tests for the presence of alcohol, drugs, and controlled substances shall be determined by and administered at the direction of an authorized person.

(iv) Any test shall be conducted by using accepted scientific methods and equipment of proven accuracy and reliability operated by personnel certified in its use.

(4) Presumptive levels. (i) The results of chemical or other quantitative tests are intended to supplement the elements of probable cause used as the basis for the arrest of an operator charged with a violation of this section. If the alcohol concentration in the operator’s blood or breath at the time of the testing is less than the alcohol concentration specified in paragraph (c)(1)(ii) of this section, this fact does not give rise to any presumption that the operator is or is not under the influence of alcohol.

(ii) The provisions of paragraphs (c)(3) and (c)(4)(i) of this section are not intended to limit the introduction of any other competent evidence bearing upon the question of whether the
operator, at the time of the alleged violation, was under the influence of alcohol, a drug or drugs, or a controlled substance or controlled substances, or any combination thereof.

§ 234.18 Enforcement of parking regulations.

Parking regulations for the Pentagon Reservation shall be enforced in accordance with Department of Defense Administrative Instruction Number 882 and State law; violating such provisions is prohibited. A vehicle parked in any location without authorization, or parked contrary to the directions of posted signs or markings, shall be subject to removal at the owner’s risk and expense, in addition to any penalties imposed. The Department of Defense assumes no responsibility for the payment of any fees or costs related to such removal which may be charged to the owner of the vehicle by the towing organization. This section may be supplemented from time to time with the approval of the Director, Washington Headquarters Services, or his designee, by the issuance and posting of such parking directives as may be required, and when so issued and posted such directive shall have the same force and effect as if made a part hereof.

§ 234.19 Penalties and effect on other laws.

(a) Whoever shall be found guilty of willfully violating any rule or regulation enumerated in this part is subject to the penalties imposed by Federal law for the commission of a Class B misdemeanor offense.

(b) Whoever violates any rule or regulation enumerated in this part is liable to the United States for a civil penalty of not more than $1,000.

(c) Nothing in this part shall be construed to abrogate any other Federal laws.

---

2 See footnote 1 to §234.3(a).

PART 235—SALE OR RENTAL OF SEXUALLY EXPLICIT MATERIAL ON DoD PROPERTY

Sec.

235.1 Purpose.

235.2 Applicability and scope.

235.3 Definitions.

235.4 Policy.

235.5 Responsibilities.

235.6 Procedures.

235.7 Information requirements.

AUTHORITY: 10 U.S.C. 2489a.

SOURCE: 64 FR 6218, Feb. 9, 1999, unless otherwise noted.

§ 235.1 Purpose.

This part implements 10 U.S.C. 2489a, consistent with DoD Directive 1330.91 by providing guidance about restrictions on the sale or rental of sexually explicit materials on property under the jurisdiction of the Department of Defense or by members of the Armed Forces or DoD civilian officers or employees, acting in their official capacities.

§ 235.2 Applicability and scope.

This part: (a) Applies to the Office of the Secretary of Defense, the Military Departments (including the Coast Guard when it is operating as a Service in the Navy), the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Inspector General of the Department of Defense, the Defense Agencies, and the DoD Field Activities.

(b) Shall not confer rights on any person.

§ 235.3 Definitions.

Dominant theme. A theme of any material that is superior in power, influence, and importance to all other themes in the material combined.

Lascivious. Lewd and intended or designed to elicit a sexual response.

Material. An audio recording, a film or video recording, or a periodical with visual depictions, produced in any medium.

§ 235.4 Policy.

In implementing 10 U.S.C. 2489a, it is DoD policy that: (a) No sexually explicit material may be offered for sale or rental on property under the jurisdiction of the Department of Defense, and no member of the Armed Forces, or DoD civilian officer or employee, acting in his or her official capacity, shall offer for sale or rental any sexually explicit material.

(b) Material shall not be deemed sexually explicit because of any message or point of view expressed therein.

§ 235.5 Responsibilities.

(a) The Assistant Secretary of Defense for Force Management Policy, under the Under Secretary of Defense for Personnel and Readiness, shall:

(1) Monitor and, as to DoD resale activities under the Assistant Secretary’s authority, direction and control, ensure compliance with this part;

(2) Establish, and appoint a chair of, the Resale Activities Board of Review (the “Board”) and approve senior representatives from the Army and Air Force Exchange Service, the Navy Exchange Service, and the Marine Corps Exchange Service; and approve a senior representative from each of the Military Departments, if designated by the Military Department concerned, to serve as board members on the Resale Activities Board.

(3) Monitor the activities of the Resale Activities Board of Review and ensure that the Board discharges its responsibilities as set forth in § 235.6.

(b) The Secretaries of the Military Departments shall ensure that their respective component DoD resale activities comply with this part and may designate a senior representative to serve on the Board.

(c) The Secretary of the Army and the Secretary of the Air Force shall each appoint one senior representative from the Army and Air Force Exchange Service to serve on the Board.

(d) The Secretary of the Navy shall appoint a senior representative from the Navy Exchange Service Command and a senior representative from the Marine Corps Exchange Service to serve on the Board.

§ 235.6 Procedures.

(a) The Board shall have the authority and responsibility periodically to review material offered or to be offered for sale or rental on property under DoD jurisdiction, and to determine whether any such material is sexually explicit in accordance with this part. Within 60 days of the issuance of this part, the Board shall undertake and complete an initial review of material that is offered for sale or rental on the date that this part becomes effective.

(b) If the Board determines that any material offered for sale or rental on property under DoD jurisdiction is sexually explicit, such material shall be withdrawn from all retail outlets where it is sold or rented and returned to distributors or suppliers, and shall not be purchased absent further action by the Board.

(c) Following its initial review under paragraph (a) of this section, the Board shall convene as necessary to determine whether any material offered or to be offered for sale or rental on property under DoD jurisdiction is sexually explicit. The Board members shall, to the extent practicable, maintain and update relevant information about material offered or to be offered for sale or rental on property under DoD jurisdiction.

(d) If any purchasing agent or manager of a retail outlet has reason to believe that material offered or to be offered for sale or rental on property under DoD jurisdiction may be sexually explicit as defined herein, and such material is not addressed by the...
Board’s instructions issued under paragraph (e) of this section, he or she shall request a determination from the Board about such material.

(e) At the conclusion of its initial review under paragraph (a) of this section, and, thereafter, from time to time as necessary, the Board shall provide instructions to purchasing agents and managers of retail outlets about the withdrawal and return of sexually explicit material. The Board may also provide instructions to purchasing agents and managers of retail outlets about material that it has determined is not sexually explicit. Purchasing agents and managers of retail outlets shall continue to follow their usual purchasing and stocking practices unless instructed otherwise by the Board.

§ 235.7 Information requirements.

The Chair, Resale Activities Board of Review, shall submit to the Assistant Secretary of Defense for Force Management Policy an annual report documenting the activities, decisions, and membership of the Board. The annual report shall be due on October 1. The annual report required by this part is exempt from licensing in accordance with paragraph 5.4.3. of DoD 8910.1–M.2

PART 237a—PUBLIC AFFAIRS
LIAISON WITH INDUSTRY

Sec. 237a.1 Purpose.
237a.2 Applicability.
237a.3 Objective and policy.
237a.4 Procedures.

AUTHORITY: 5 U.S.C. 301.

SOURCE: 35 FR 10889, July 7, 1970, unless otherwise noted.

§ 237a.1 Purpose.

This part establishes (a) guidance for preparation of the Defense Industry Bulletin, and (b) includes guidance and procedures governing Department of Defense cooperation with industry on (1) public affairs matters in general, (2) industry-sponsored events, and (3) advertising defense themes and products.

2 See footnote 1 to § 235.1.

§ 237a.2 Applicability.

The provisions of this part apply to all components of the DoD.

§ 237a.3 Objective and policy.

(a) It is important that American industry—particularly defense contractors—understand the plans, programs, and activities of the DoD. Such understanding can be achieved by (1) wide dissemination of information to the business community, consistent with national security, and (2) cooperation with industry in public relations activities which are not contrary to the national or DoD interests.

(b) As outlined in part 237 of this subchapter, DoD components shall cooperate with industry at local and regional levels. However, they will notify the Assistant Secretary of Defense (Public Affairs) (ASD(PA)) promptly of any local or regional activity which has the potential of being escalated, or which has been escalated by unforeseen circumstances, to national or international interest.

§ 237a.4 Procedures.

(a) Defense Industry Bulletin. The bulletin, authorized by part 237 of this subchapter to apprise defense contractors, trade associations and other business organizations of DoD policies, plans, programs, and procedures which have an impact on business or industry, achieve widespread awareness and understanding of DoD policies, plans, programs, and procedures governing research, development and production, and the procurement of goods and services, and serve as a guide to and stimulate ideas throughout the industrial community concerning solutions of problems arising in fulfillment of DoD requirements, will be published and distributed by the Directorate for Community Relations, OASD(PA).

(1) DoD components may submit any of the items listed below to the Editor, Defense Industry Bulletin, OASD(PA), by the 20th day of each month. If no significant information exists, a negative report will be submitted.

(i) Articles, preferably by-lined, with supporting photographs or illustrations. (Suggested length is 2,000-2,500 words, but may be shorter or longer as coverage of subject requires.)
§ 237a.4 32 CFR Ch. 1 (7–1–02 Edition)

(ii) Material covering subjects that are timely and of particular interest to those organizations oriented toward defense contracting, including, but not necessarily limited to:

(a) Research and development;
(b) Procurement;
(c) Contract management;
(d) Small business opportunity;
(e) DoD policies affecting industry;
(f) Management improvement programs, such as Zero Defects;
(g) Programs successfully conducted by industry and the DoD working together;

(h) Explanations of new DoD issuances affecting industry; and

(i) Major organizational changes.

(ii) Key personnel appointment and reassignment announcements, for the “About People” section.

(iv) New or revised official directives, instructions, regulations, and other publications, for the “Bibliography” section.

(v) Scheduled technical meetings and symposia sponsored by DoD organizations, projected at least forty-five (45) days, for the “Meeting and Symposia” section.

(vi) Announcements of meetings, conferences, briefings, demonstrations, exercises, etc., projected at least forty-five (45) days, for the “Calendar of Events.”

(2) Each DoD component will designate one action officer and one alternate to assist the Directorate for Community Relations, OASD(PA), in carrying out responsibilities defined in paragraph (a)(1) of this section.

(b) Participation in special events—(1) Industry-sponsored events. (i) DoD components are encouraged to cooperate with and assist industry in activities and events beneficial to the Government, provided such cooperation and assistance is not in conflict with the provisions of part 40 of this chapter which authorizes participation in:

(a) Luncheons, dinners, and similar gatherings when the host is an industrial, technical, or professional association, not an individual defense contractor or other commercial firm;
(b) Public ceremonies of mutual interest to industry, local committees, and the DoD (examples—ship launchings, rollouts, and first flights);

(c) Industrial programs which are in support of Government policy (example—international exhibits which offer the opportunity to promote U.S. scientific and technical leadership); and

(d) Civic and community projects in which industry relationship is remote from the purpose and tenor of the event (example—Armed Forces Day event sponsored by an individual firm).

(ii) Participation in events which benefit a particular firm (examples—open houses and ceremonies dedicating new facilities) will be limited, normally, to speaker participation (see part 238 of this subchapter).

(2) DoD-sponsored events. Generally, DoD public affairs programs will be performed within authorized resources. Contractor participation in DoD-sponsored events involving a firm’s product or service may be authorized, provided such participation is in the Government’s interest.

(3) Jointly sponsored events. Joint DoD-industry sponsorship may be desirable in certain instances (examples—seminars, conferences, and symposia). Industry assistance is normally provided by a trade, technical, or professional association. Requirements for clearance of DoD official information prepared for disclosure (see part 159 of this chapter and DoD Directive 5230.9, “Clearance of Department of Defense Public Information” 1) will be adhered to when applicable.

(4) General. Participation in industrial events of national and international interest must be approved by the ASD(PA) in advance. Detailed proposals, including cost estimates, will be submitted to the ASD(PA) through the headquarters of the DoD component concerned. Requests for approval involving industry participation in either DoD or DoD-industry sponsored events will specify the nature and extent of industry-furnished assistance, if any.

(c) Use of DoD insignia, themes, and products in advertising—(1) Insignia. Use of insignia is governed by part 237 of this subchapter.

1 Filed as part of the original. Copies available from U.S. Naval Publications and Forms Center, 5801 Tabor Ave., Philadelphia, Pa. 19120, Attn: Code 300.
(2) **Themes and products.** Requests for use of DoD themes and products in commercial advertising and other promotions will be evaluated in terms of their benefit to the DoD. A determination as to whether cooperation should be extended will be made by the ASD (PA) (except in the case of DoD component-controlled insignia), in accordance with the provisions of part 237 of this subchapter. The DoD will bear only those advertising costs authorized by section XV of the Armed Services procurement regulation in part 15 of this chapter.

(3) **Filmed material.** Participation in the production of motion pictures and TV programs, including filmed commercials, will be governed by provisions of DoD Instruction 5410.15,1 “Delegation of DoD Audio-Visual Public Affairs Responsibilities and Policies,” and DoD Instruction 5410.16,1 “Procedures for DoD Assistance on Production of Non-Government Motion Pictures and Television Programs.”

(d) **Use of contractor product identification.** DoD components may identify contractors in their information activities whenever the major responsibility for a product (example—an aircraft) can be clearly and fairly credited to an identifiable contractor. In these instances, DoD information releases will include both the manufacturer’s name and the DoD component’s designation of the product.

(e) **Solicitation.** (1) DoD representatives will not solicit, or authorize others to solicit, from contractors for advertising, contributions, donations, subscriptions, or other emoluments. Where there is a legitimate need for industry promotion items, such as scale models—for example in recruiting programs—the headquarters of the DoD Component concerned may authorize procurement of such items as required.

(2) Defense contractors wanting to distribute items through official DoD channels should be advised to contact the headquarters of the DoD component concerned for guidance.

(f) **Briefings.** (1) Advanced planning briefings for industry are governed by DoD Instruction 5230.14,1 “Advanced Planning Briefings for Industry.”

(2) Classified meetings are governed by DoD Directive 5200.12,1 “Security Measures, Approval and Sponsorship for Scientific and Technical Meetings Involving Disclosure of Classified Information.”

(g) **Visits to contractor facilities.** (1) Visits to contractor facilities will be governed by the provisions of DoD Manual 5220.22–M. 2 “Industrial Security Manual for Safeguarding Classified Information (Attachment to DD Form 441).”

(2) When DoD Components desire to sponsor such visits by nationally known press representatives, approval will be obtained from both the contractor and the ASD (PA).

ENCLOSURE 3—FACT SHEET
ENCLOSURE 4—SPEAKER REQUEST FORMAT
ENCLOSURE 5—PRESIDENT’S APPROVED WREATH LIST

1 See footnote 1 on previous page.
§ 238.1 Reissuance and purpose.

This part is reissued to supplement part 237 of this title and to provide procedural guidance for the planning and conduct of community relations activities of the Armed Forces.

§ 238.2 Applicability and scope.

(a) The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments (including their National Guard and Reserve Components), the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies (hereafter referred to as “DoD Components”). (As used in this Instruction, the term ‘Military Services’ refers to the Army, Navy, Air Force, and Marine Corps.)

(b) Its provisions encompass all DoD community relations programs regardless of name, program, or sponsorship.

§ 238.3 Definitions.

(a) As used herein the following definitions apply:

(1) Military installation. Any installation owned or operated by the Department of Defense or by a DoD Component such as a base, station, post, reservation, camp, depot, fort, terminal, facility, ship, school, and college.

(2) Elsewhere. Any location, other than a military installation, at or on which a community relations program may be conducted.

(3) Official Federal Government functions. Those activities in which officials of the Federal Government are involved in the performance of their official duties.

(4) Official DoD functions. Those activities (including Defense Committees, Joint Civilian Orientation Conference (JCOC), and activities held on military installations, or elsewhere when the appropriate commander certifies that suitable facilities are not available on a military installation) which are sponsored by a Military Service, have as their principal purpose the promotion of esprit de corps, and are conducted primarily for active duty personnel, dependents, and guests.

(5) Official civic functions. Those activities in which officials of State, county, or municipal governments are involved in the performance of their official duties (for example, inaugerals, dedications of public buildings and projects, the convening of legislative bodies, and ceremonies for officially invited Government visitors).

(b) Other terms used in this part are defined in §237.8 of this title, and §§238.10 and 238.12 of this part.

§ 238.4 Policy.

(a) The policy of the Secretary of Defense governing Armed Forces Community Relations programs is based on public law and executive orders and is set forth in part 237 of this title. Amplification of basic policy and supplemental guidelines for the planning and conduct of specific categories and types of community relations programs are contained in this part.

(b) The Assistant Secretary of Defense (Public Affairs) (ASD(PA)) been designated as the principal staff assistant to act for and in behalf of the Secretary of Defense in granting any exceptions to basic public affairs policy.

(1) Requests for exceptions to this policy shall be submitted to the ASD(PA) via command channels.

(2) Such requests shall contain, as a minimum:

(i) A description of the community relations program contemplated,

(ii) A justification for approval of the exception, and

(iii) Appropriate recommendations.

(3) Exceptions shall be granted on a case-by-case basis.

(c) Policy guidance concerning public affairs relations with business and non-Government organizations representing business is contained in part 237a of this title.

(d) Policy governing the use of military carriers for public affairs purposes is contained in DoD Instruction 5435.2, “Delegation of Authority to Approve Travel In and Use of Military Carriers for Public Affairs Purposes,” April 25, 1975.

Copies may be obtained, if needed, from U.S. Naval Publications and Forms Center, 5801 Tabor Ave., Philadelphia, Pa., 19129, Attn: Code 391.
§ 238.5 Procedures.

(a) Within basic legal and policy limitations, commanders at all levels who plan or conduct a community relations program shall consider initially:

(1) The interests of the Department of Defense and the community as a whole.

(2) Pertinent operational requirements.

(3) The availability of adequate and appropriate resources.

(b) When a proposed community relations program exceeds local support capability or the scope of local public affairs responsibility, it shall be referred, via command channels, to the appropriate higher echelon. The proposal shall contain, as a minimum:

(1) A description of the program;

(2) A list of support requirements;

(3) A description of the anticipated scope of the program;

(4) Comments concerning expected community reactions; and

(5) Appropriate recommendations.

(c) All DoD Components shall use approved DoD request formats, appended as various enclosures to this part, in processing requests by civilian sponsors for Armed Forces support of community relations programs. These formats, which may be reproduced locally, provide sufficient information to permit the approving authority to:

(1) Evaluate the appropriate degree of Armed Forces support, and

(2) Determine compliance with the requirements of this part.

(d) To ensure that a proposed community relations program conforms to the limitations imposed by public law and by policy contained in part 237 of this title, the following aspects of the program shall be evaluated (using the criteria set forth in §238.6):

(1) The objectives and purposes of the program ("program criteria").

(2) The interests and objectives of the sponsor or sponsoring group ("sponsor criteria").

(3) The nature or character of the location of the program ("site criteria").

(4) The full particulars of DoD support ("support criteria").

§ 238.6 Guidelines.

(a) The Department of Defense authorizes and encourages support of community relations programs when at least one of the conditions listed in each of the following criteria categories (program, sponsor, site, and support) is met:

(1) Program criteria. When the program is:

(i) Specifically authorized or directed by public law, executive order, or the Secretary of Defense.

(ii) An official Federal Government, military, or civil ceremony or function.

(iii) An event or occasion of general interest or benefit to a local, State, regional, or national community, and is available to the community.

(iv) In support of authorized recruiting or personnel procurement programs.

(v) In support of:

(A) United, federated or joint fund-raising campaigns authorized by DoD Directive 5035.1,1 "Fund-Raising Within the Department of Defense, April 7, 1978;

(B) Such fund-raising appeals as the President or the Director of the Office of Personnel Management may authorize; or

(C) The Military Service Aid societies.

Note: DoD support for local fund-raising programs, other than those described above, is authorized only when the fund-raising program is local in nature, is of community-wide interest and benefit, and has the support of endorsement of the local united, federated, or joint campaign officials; or when, in the judgment of the local commander, support of a purely local charitable drive is part of the responsible role of the military installation in the local community. Volunteer fire department, rescue unit, or youth activity fund drives are examples of such local programs.

(vi) In support of fund-raising campaigns solely for the benefit of the U.S. teams competing in the Pan American Games or the Olympic Games (see DoD Directive 1330.4,1 "Participation in Interservice National and International Sports Activities," November 14, 1968).

1See footnote 1 to §238.4(d).
(vii) Of a patriotic nature; or with the addition of military support, designed to include a patriotic acknowledgement; or the celebration of a Government-recognized local, State, regional, or national holiday.

(2) Sponsor criteria. The sponsor or sponsoring organization does not specifically exclude any person from its membership for reasons of race, creed, color, or national origin. DoD support is authorized for programs sponsored by organizations whose qualification for membership is based on sex or national origin only when the primary benefit and interest are to the community rather than to the organization. DoD support is authorized when the sponsor is:

(i) A local, State, or Federal Government.

(ii) A veteran's, Military Service-related, patriotic, or historical organization or auxiliary.

(iii) An organization (civic, service, youth, professional, educational, business, trade, or labor) whose interests are in support of the community.

(iv) A commercial enterprise only when:

(A) DoD support is patriotic in nature, is incidental to the program, and does not benefit selectively nor appear to benefit selectively the commercial activity of the sponsor;

(B) The sponsor's role is clearly civic in nature; and

(C) The commercial interest is subordinate to the community interest, and benefit in the program.

(v) A public school, public college, or public university.

NOTE: Support is authorized for programs sponsored by nonpublic schools, colleges, or universities only when the program is (A) of a community-wide nature of common interest and benefit, is open to all, and is broadly publicized; or (B) when the program is clearly patriotic or educational in nature or is in support or recruiting programs.

(3) Site criteria. Admission, seating, and all other accommodations and site facilities connected with any public programs are available to all without regard to race, creed, color, national origin, or sex, and the location of the program is:

(i) A military installation.

(ii) A local, State, or Federal Government property, facility or building.

(iii) A bona fide community center.

(iv) A private or commercial building only when DoD support is patriotic in nature, is incidental to the program, and does not benefit selectively nor appear to benefit selectively the owner of the building or the agent.

(v) A religious building or facility only when the program is of a community-wide, nonsectarian nature of common interest and benefit and is broadly publicized.

(vi) A shopping mall or center only when the program is a recruiting program, and:

(A) The support is directly related to the recruiting activities taking place, and the type and amount of support are commensurate with the scope and nature of the recruiting activity.

(B) Community relations support is not advertised, promoted, or presented as an attraction for the center or mall (or for special business activities such as promotional sales).

(C) The support activities are in no way related, nor do they appear to be related, to a particular business or particular group of business establishments within the mall or center.

NOTE: Because of the commercial nature of shopping malls and centers, special care must be exercised to avoid the selective benefit of specific business interests. Where two or more such centers or malls are part of a community, support of recruiting activities must be administered in an even-handed manner, with fairness and extreme care.

(4) Support criteria. The Department of Defense authorizes support which:

(i) Can be reasonably expected to bring credit to the individuals involved and to the Armed Forces and is at no additional cost to the Government;

(ii) Is specifically authorized to be at Government expense by this part (§238.7), by public law, by executive order, or by the Secretary of Defense.

(b) The Department of Defense does not authorize support of community relations programs when any one of the conditions listed in one of the following criteria categories exists.

(1) Program criteria. When the program is:
§ 238.7 Funding.

(a) The cost of DoD support of community relations programs authorized in §238.7(b) shall be the responsibility of the DoD Component(s) involved. Funding requirements for these purposes shall be kept to the minimum necessary to accomplish DoD objectives.

(b) DoD Components shall absorb the costs of supporting those community relations programs that are specifically authorized by public law, executive order, or the Secretary of Defense, and the following types of programs when they are in the primary interest of the Department of Defense:

(1) Official Federal Government functions.

(2) DoD or civic-sponsored observances of United States or host country national holidays.

(3) Official civil ceremonies and functions.

(4) Speaking engagements.

(5) Events considered to be in the national interest or in the professional, scientific, or technical interests of a DoD Component or element, when approved by the Assistant Secretary of
Defense (Public Affairs) or the Commander of an overseas Unified or Specified Command, as appropriate.

(6) Direct support of recruiting and personnel procurement activity, when the cost of such support is charged to recruiting or personnel procurement programs funds.

(c) DoD support of community relations programs that are not authorized in paragraph (b) of this section shall be at no additional cost to the Government.

(d) To adhere to congressional funding limitations, due care must be exercised in the identification of costs of community relations programs. Programming, budgeting, and financing policies are set forth in part 237 of this title. In general, for purposes of the limitations, the incremental cost of any resource incurred solely for community relations purposes must be identified as a public affairs cost; and costs incurred by a DoD Component in connection with its support of a community relations program, which would not be incurred but for their public affairs aspects, must be identified as public affairs costs. Effective management of a community relations program may require full costing (total direct and indirect costs) of the use of resources when their use benefits or is caused by the program. This information shall be provided to management officials and the OASD(PA) on an “as required” basis.

(e) When routine training flights are used as opportune airlift to transport military personnel, no reimbursement to the providing Component is required. When Military Airlift Command industrially funded transportation facilities are used, the industrial fund must be reimbursed, in accordance with DoD Directive 7410.4,1 “Regulations Governing Industrial Fund Operations,” September 25, 1972.

§ 238.8 Responsibilities and authorities.

(a) Requests for DoD support of community relations programs shall, except as otherwise specified in this Instruction, be evaluated and approved or disapproved at the lowest practicable echelon or command (see §238.5(a)(2)).

(b) The Assistant Secretary of Defense (Public Affairs) is the sole authority for granting any exception to the policy contained in part 237 of this title and in this part.

(1) The ASD(PA) is the sole authority for approving all DoD support of community relations programs in the National Capital area (see §238.11 and §238.13), except speaking engagements (see §238.12), and for DoD support of the following programs outside that area:

(2) National and international programs, including national conventions and meetings (except those programs taking place in overseas areas which are solely of internal concern to a Unified or Specified Commander); see §§238.11, 13, 14, 15, 16, and 18.

(3) Programs outside the 50 United States which are not within a Unified or Specified Command’s area of responsibility.

(4) Programs where the officially designated flight and parachute demonstration teams (Golden Knights, Blue Angels, Thunderbirds) perform, in accordance with §238.10.

(5) Programs held on a military installation involving an aerial review of more than one Military Service, and programs involving any aerial review, flyover, or aircraft demonstration held elsewhere within the United States or as outlined in paragraph (b)(2) of this section (except for flyovers for civic-sponsored observances of and official ceremonies for Armed Forces Day, Memorial Day, Independence Day and Veterans Day, authorized by the Secretaries of the Military Departments), in accordance with §238.10.

(6) Programs that require acting as the sole point of official contact within the Department of Defense for liaison between the Department of Defense and the headquarters and Washington offices of national organizations and other national non-Government groups, except for those organizations representing a specific interest of a single Military Service, e.g., Association of the U.S. Army, Air Force Association, Navy League, Marine Corps League, etc. (see paragraph (d) of this section).

1See footnote 1 to §238.4(d).
Office of the Secretary of Defense

§ 238.10 Armed Forces aerial demonstrations.

(a) Purpose. (1) This part relates to Armed Forces aerial demonstrations in support of community relations programs, including flight team demonstrations, parachute team demonstrations, flyovers, aerial reviews, static displays and other aerial activities.

(b) Definitions. As used herein, the following definitions apply:

(1) Aerial event. Any occasion such as an air show, festival, official Federal Government function, or official military and civic functions held on a military installation or elsewhere where an Armed Forces aerial demonstration is either a primary or incidental attraction.

(2) Aerial demonstration. The use or display of DoD military aircraft or personnel in any aerial event, including the following:

(i) Flight team demonstration. An exhibition of precision aerial maneuvers and techniques flown by an officially designated Service flight demonstration team, such as the U.S. Air Force...
§ 238.10

Thunderbirds and the U.S. Navy Blue Angels.

(ii) Parachute team demonstration. A demonstration of free-fall and precision-landing techniques by the officially designated unit, the U.S. Army Golden Knights. Other military parachute teams, including individuals or groups, may be specifically authorized for such demonstrations when representing the Department of Defense.

(iii) Flyover. A straight and level flight by no more than four military aircraft from a Military Service over a predetermined point on the ground at a specific time and not involving aerobatics or demonstrations.

(iv) Aerial review. A flyover of multiple types of aircraft or aircraft representing more than one Military Service with elements in trail formation and not involving precision maneuvers or demonstrations.

(v) Static display. A ground display of aircraft and its related equipment not involving taxiing or starting of engines while spectators are in the display area.

(vi) Aerial activities. All other aerial demonstrations, not listed in paragraphs (b)(2) (i) through (vi) of this section, designed to portray performance techniques by a single aircraft or group of aircraft or personnel. Such demonstrations include but are not limited to air-to-air refueling, helicopter flight techniques, maximum performance takeoff, performance record demonstrations, mass parachute jumps, air delivery of equipment, assault aircraft demonstrations, tactical helicopter troop landings under simulated tactical conditions, air-rescue demonstrations, and rappelling demonstrations.

Policy. (1) Armed Forces aerial demonstrations may be authorized at appropriate public programs, on a military installation, or elsewhere which meet basic criteria set forth in this Instruction. Support may include officially designated military flight or parachute demonstration teams, flyovers, aerial reviews, the static displays of aircraft, and other aerial activities.

(2) Any aerial demonstration will be entirely dependent upon the Military Services' capability to provide such resources at the time of an event.

(3) All pertinent safety regulations of the Department of Defense and the Department of Transportation (Federal Aviation Agency) will be rigidly observed, and will take precedence over any or all conditions or circumstances.

(4) Maximum advantage of Armed Forces recruiting will be taken at public events where Armed Forces aerial demonstrations have also been authorized.

(5) During the hours aircraft are actually on display or providing demonstrations before the public, qualified Armed Forces personnel will be available to explain the missions performed and answer spectators' questions.

(6) Armed Forces teams may not compete for prize monies. (See part 237 of this title.)

(7) Armed Forces aerial demonstrations are usually limited to 2 days in any one aerial event. However, parachute demonstrations may extend over a 3-day period. This provision may be waived when:

(i) Other requests for the time frame have not been authorized.

(ii) Extended participation does not compromise another event because of travel time.

(iii) It is determined that the audience will change each day.

(iv) The event is of national or international nature and participation would be in the best interests of the Department of Defense.

(8) No two aerial demonstration teams of the same type will be approved for a single event. Flyovers may be authorized at an event where a flight or parachute demonstration team will perform, provided they are scheduled on days other than those authorized for the demonstration teams' performance. Static displays and other aerial activities may be authorized in conjunction with any other aerial participation.

(9) Aircraft performance record demonstrations are restricted to aircraft which have been assigned to an operational unit of a Military Service for at least 6 months in demonstrations which imply no competition among the Military Services. They may be conducted periodically in the interest of keeping the public apprised of U.S. engineering-technical capabilities in the
development of aircraft altitude, speed, endurance, and individual performance or record demonstrations.

(d) Procedures. (1) All nonmilitary sponsors desiring Armed Forces aerial demonstrations should be requested to complete the approved DoD request format (Enclosure 1). This format may be reproduced and distributed by the Military Services.

(2) The Department of Defense (OASD(PA)) will host a scheduling conference in mid-December each year to prepare the official flight and parachute demonstration team’s performance schedules for the following year.

(i) Nonmilitary sponsors desiring flight and/or parachute demonstration teams must submit an approved DoD request format (Enclosure 1) to ASD(PA) no later than September 30 to be considered for inclusion in the approved schedule for the following calendar year.

(ii) Military Departments desiring flight or parachute demonstration team performances will consolidate their requests and forward them to ASD(PA) no later than November 15 to be considered for inclusion in the approved schedule for the following calendar year.

(iii) Following the scheduling conference, a tentative schedule will be prepared by OASD(PA) and submitted to the Military Departments for review and concurrence prior to final approval by the ASD(PA). Precautions will be taken to ensure that sponsors are not provided any information concerning the status of their request until final approval and release of the schedule by ASD(PA). Exceptions to this policy may be made only with advance approval of the ASD(PA).

(3) Nonmilitary sponsors desiring aerial demonstrations other than flight and parachute team demonstrations should be requested to submit an approved DoD request form (Enclosure 1) to OASD(PA) no later than 30 days, and preferably 60 days, prior to the scheduled event.

(4) DoD Components desiring to conduct aerial reviews involving more than one Military Service on a military installation, or aerial reviews, flyovers, and other aerial activities elsewhere (except as provided in §238.8(b)(4) of this part), will forward requests to ASD(PA) as soon as practicable and will include, as a minimum, those criteria contained in §238.5(a)(2), this part.

(5) The Military Departments will forward requests for attempts to establish aircraft performance records and to release information relative thereto to the ASD(PA) at least 45 days prior to the date of the proposed attempt. Submissions will include a description of the specific aircraft to be used and full justification for the proposed record attempt, including supporting flight and information plans. ASD(PA) will coordinate the request within the Department of Defense and with other appropriate Government departments or agencies and the National Aeronautic Association of the United States of America.

(e) Evaluation. Approvals or disapprovals of requests for aerial demonstrations will be based on the following:

(1) Program criteria. (i) Public events which are appropriate for Armed Forces aerial demonstrations include such activities as dedications of airports and facilities, aviation shows, expositions and fairs, and civic events which contribute to the public knowledge of Armed Forces aviation equipment and capabilities.

(ii) Aerial demonstrations may be authorized for military installations, including those leased by Reserve Components, in accordance with the guidance and direction provided by the ASD(PA) and the Secretaries of the Military Departments. Appearances by the flight and parachute demonstration teams on a military installation will only be approved in support of an official “Open House” program.

(iii) To minimize interference with operations and training of Armed Forces aviation units, flyovers will be approved only for the following occasions.

(A) Those events outlined in paragraphs (e)(1) (i) and (ii), above.

(B) Civic-sponsored public observances of and official ceremonies for Armed Forces Day, Memorial Day, Independence Day, and Veterans Day.

(C) Memorial or funeral services for dignitaries of the Armed Forces and
§ 238.10

the Federal Government, and for rated/designated aviation personnel of the Armed Forces as determined by appropriate Military Department regulations.

(D) Ceremonies honoring foreign dignitaries, when directed by executive order or the Secretary of Defense.

(E) Occasions primarily designed to encourage the advancement of aviation.

(2) Sponsor criteria. See § 238.6 (a)(2) and (b)(2).

(3) Site criteria. (i) Sponsors are required to obtain a Federal Aviation Agency waiver for any public demonstration by military aircraft or parachutists. The final authorization for such aerial demonstrations hinges upon the sponsor securing this waiver far enough in advance to permit adequate planning (normally no later than 60 days prior to the event).

(ii) Flight or parachute team demonstrations are restricted to appropriate events at airports, over open bodies of water, or over suitable open areas of land where crowd control can be ensured.

(iii) Flight demonstration team aircraft must operate from suitable airfields or the site of the event must be within a reasonable distance of a staging base. In the latter case, performances are seldom authorized since the recruiting potential is significantly reduced.

(iv) For any military aircraft to operate from an airport show site, all operational requirements concerning minimum usable runway lengths and load-bearing capacity must be met.

(v) Mass parachute jumps, aerial delivery of equipment, assault aircraft demonstrations, or tactical helicopter troop landings under simulated tactical conditions will be limited to military installations. These activities, except those scheduled as part of regular training programs, are not authorized for public events.

(4) Support criteria. (i) While the Department of Defense does not require the sponsor to provide the Department with a public liability and property damage insurance policy, this should not deter the sponsor from obtaining the insurance he/she feels is necessary for protection.

(ii) Civilian sponsors will be responsible for providing the following:

(A) The standard Military Services allowance for quarters and meals for Armed Forces participants, except for flyovers and other aerial activities not involving landing.

(B) If necessary, transportation, meals, and hotel accommodations for representatives of the requested unit to visit the site prior to the event.

(C) Transportation for Armed Forces participants between the site of the event and hotel and return. Additionally, if required, transportation from home station to the event and return.

(D) Telephone facilities for necessary official communications regarding the event.

(E) A recent aerial photograph, taken vertically from an altitude of 5,000 feet or higher, to the team giving the demonstration.

(F) Availability of suitable aircraft fuel at military contract prices. If fuel is not available at military contract prices, the sponsor must pay any costs over military contract prices, including transportation and handling.

(G) An ambulance and a doctor on the site during flight and parachute team demonstrations and certain other aerial activities, as determined in advance by the Military Services or the OASD(PA).

(H) Mobile firefighting, crash, and ground-to-air communications equipment at the demonstration site.

(I) Security for aircraft that land and are parked at the site during their entire stay.

(J) If necessary, aircraft for use as a jump platform by a parachute team at the location of the event.

(f) Funding. (1) Aerial demonstrations at public events, except for flyovers, aerial reviews, and other aerial activities not involving landing, will be provided at no additional cost to the Government.

(i) The sponsor is required to pay the standard per diem for quarters and meals, as prescribed in the Joint Travel Regulations, Volumes 1 and 2, and to provide adequate ground transportation between hotels and the site of the event and other necessary services, as determined by the participating
Component and agreed to by the sponsor.

(ii) The sponsor should make the check for the required amount payable to the DoD organization which incurred reimbursable expenses. Usually, this will be the DoD organization to which the demonstration team is assigned. The Defense representative who makes the arrangements for the demonstration will provide the sponsor with the name or other identity of the organization to be cited as payee on the check. The sponsor will present the check to the appropriate demonstration team or aircraft commander upon arrival at the scheduled event. The commander, in turn, will transmit the check, expeditiously, to the accounting and finance office that supports the payee’s operations.

(2) All costs are binding after a team or crew personnel have arrived at a show site, even though weather conditions or other unforeseen circumstances force the event to be canceled.

(g) Responsibility and authority.

(1) The Assistant Secretary of Defense (Public Affairs) shall approve Armed Forces aerial demonstrations in support of community relations programs, as follows:

(i) All official flight team and parachute team demonstrations held on a military installation or elsewhere.

(ii) Flyovers held off a military installation (except as provided in paragraph (g)(2)(ii) of this section).

(iii) Aerial reviews involving more than one Military Service held on a military installation and all aerial reviews held elsewhere.

(iv) Aerial demonstrations held outside the United States which are not within a Unified or Specified Command area of responsibility.

(v) Other activities held off a military installation (except as provided in paragraph (g)(2)(v) of this section).

(2) The Secretaries of the Military Departments are authorized to approve aerial demonstrations in support of community relations programs by aircraft of their respective Services, as follows:

(i) Flyovers for events on military installations.

(ii) Flyovers at events off military installations for civic-sponsored observances of Armed Forces Day, Memorial Day, Independence Day and Veterans Day (except in the National Capital area).

(iii) Flyovers provided for military funerals for rated/designated aviation personnel of the Armed Forces.

(iv) Static display of aircraft held on military installations or elsewhere.

(v) Other aerial activities, as follows:

(A) Those held on military installations.

(B) Air-rescue demonstrations, team, or single parachute demonstrations (other than the U.S. Army Golden Knights), Navy Seal Team demonstrations, rappelling demonstrations, and air-to-air refueling demonstrations.

§ 238.11 Armed Forces bands, troops, and units in support of public programs.

(a) Purpose and scope. This enclosure is intended for use when determining the appropriateness or extent of Armed Forces participation in official Federal Government, military, or civic functions and all other community relations programs conducted in public. It governs all uniformed Armed Forces commands, organizations, units, and personnel appearing in public, including bands, musical groups, individuals, color guards, drill teams, marching units, exhibits or displays, and the loan or use of Armed Forces facilities and material in support of community relations programs.

(b) Policy. Armed Forces support of public programs has been developed by the Department of Defense to ensure compliance with public law, to ensure equitable distribution of resources to as many appropriate events as possible, and to avoid excessive disruption of training and operational missions of the Military Services. DoD support of public programs is authorized and encouraged when such support is in the best interest of the Department of Defense and the Armed Services. The Defense Establishment and the Armed Forces belong to the American people and thus the Department should not do for one segment of the society what it cannot do for all.
§238.11

(c) Procedures—(1) General. Requests for Armed Forces support of public programs shall be addressed to the nearest military installation, giving full details on the approved DoD request format (enclosure 2), so that a decision, based on program criteria, sponsor criteria, site criteria and support criteria can be made.

(2) National/International programs. Requests for Armed Forces support for programs which, by their nature or because of news media coverage, could be of national or international interest will be forwarded through established command channels to the ASD(PA) for approval. Approval will be based upon program, sponsor, site, and support criteria listed above, or any recommendation or request for exception to policy by the appropriate commander.

(3) Events in the National Capital area. All requests for Armed Forces support of public programs within the National Capital area will be sent to the ASD(PA) for approval. Requests for Military Service bands, musical units, drill teams, color guards, etc., stationed in the Washington, D.C. area, may be made by submitting the attached approved DoD request format through appropriate command channels.

(4) Local events. Local military commanders may authorize support of purely local programs without further authorization from the Department of Defense. The program must be consistent with at least one condition of each of the established criteria groups in §238.6(a) and be consistent with resource capability, operational commitments and applicable regulations.

(d) Evaluation. (1) When evaluating requests for Armed Forces support of public programs, the interests of the Department of Defense, the public at large, operational requirements of the Military Services, and availability of appropriate resources are prime considerations. (See §238.6(a) and (b).) Commitment of resources to specific programs must be balanced with the governing factors and guidelines of the basic Instruction and with requests for similar participation received from other sources. DoD support, directly or indirectly, must not:

(i) Endorse or benefit selectively or favor any private individual, group, corporation (whether for profit or nonprofit), sect, quasi-religious or ideological movement, political organization, or commercial venture; or

(ii) Be associated with the solicitation of votes in a political election. (See §238.6(a) and (b).)

Such sites as commercial theaters, department stores, churches, or fraternal halls are, generally, inappropriate sites for Armed Forces support. Testimonials to individuals or sectarian religious services are inappropriate programs for Armed Forces support.

(2) Support by the Armed Forces of any program may be authorized only if admission, seating, and all other accommodations and facilities are available to all without regard to race, creed, color, national origin, or sex.

(i) Support of programs sponsored by certain organizations may be authorized when the program is oriented towards the community interests as opposed to the sectarian, fraternal, or national origin aspects or objectives of the organization.

(ii) Participation in nonpublic school events is authorized when the program is clearly patriotic or educational in nature or is in support of recruiting programs.

(iii) No admission charge may be levied on the public solely to see an Armed Forces demonstration, unit, or exhibit. When admission is charged, the Armed Forces activity must not be the sole or primary attraction. (Excludes Navy and Marine Corps Band Tours.)

(3) The term “fund-raising” identifies the avowed or announced purpose of a program which, by any means, seeks to acquire money or material in excess of actual costs for charitable, civic, or other purpose. Support by the Armed Forces in an official capacity in fund-raising programs is restricted to fund-raising activities in support of recognized united, federated, joint, or other authorized campaigns (see §238.6(a)(1)(v)). A required condition of such support will be that the sponsor of an event certifies that all profits accrued will be donated to a united, federated, or joint campaign. In view of
the national interest, the Armed Forces may support sports or other public programs held for the sole purpose of raising funds for the U.S. teams competing in the Pan-American and Olympic Games. DoD policies concerning Armed Forces support of fundraising programs are detailed in part 237 of this title. Additional information may be found in DoD Directive 5035.1.

(4) When Armed Forces support of a public program is in the mutual interest of the Department of Defense and the sponsor, participation will be authorized at no additional cost to the Government. Additional costs to the Government—travel and transportation of military personnel, meals and quarters or the standard per diem allowance—must be borne by the sponsor.

(5) The duration of support by military units in any single program is limited in the interests of proper utilization and equitable distribution of Armed Forces manpower and resources. While an exhibit may be scheduled for the duration of a program, participation of a unit such as a military band is limited to 3 days.

(6) Armed Forces support of professional sports programs and all postseason bowl games will be authorized at no additional cost to the Government, will emphasize joint Service activity where practicable, and must support recruiting programs. Support of commercially oriented events, such as beauty pageants, Christmas parades, and motion picture premieres is not authorized.

(7) Armed Forces musical units may be authorized to provide certain specified musical presentations for public programs. The performance must not place military musicians in competition with the customary or regular employment of local nonmilitary musicians. Backdrop, dinner, dance, or other social music is not authorized for public programs held away from a military installation. Programs which may be authorized usually include a short (15–20 minute) patriotic presentation. Musical selections consist of a medley of military or patriotic songs, appropriate honors, and music to accompany the presentation of the colors by a color guard.

(e) Exhibits. (1) Exhibits are both indoor and outdoor types. The Military Services maintain Armed Forces exhibits which are used in their individual public affairs programs. These exhibits are maintained by the Military Departments and are provided to sponsors of events at no additional cost to the Government.

(2) Most exhibits are displayed during programmed tours which are scheduled 6 to 8 months in advance. Requests for these exhibits should be initiated well in advance of the event.

(3) Requests for Armed Forces exhibits in support of public programs should be forwarded to one of the following addressees, using an approved DoD request format:

U.S. Army
Chief of Public Affairs, Department of the Army, Washington, D.C. 20310.

U.S. Navy
Chief of Information, Department of the Navy, Washington, D.C. 20350.

U.S. Air Force
Commander, USAF Orientation Group, Wright-Patterson AFB, Ohio 45433.

(4) The exhibits used in support of personnel procurement and recruiting are governed by policy established by the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics).

(f) Armed Forces personnel, facilities, and materiel—(1) General. (i) Armed Forces (including Guard/Reserve and ROTC) resources, such as bands, troops, drill teams, color guards, installations facilities, and materiel may be effectively used to support community relations programs.

(ii) The use of military personnel as ushers, guards, parking lot attendants, runners, messengers, baggage handlers, crowd control, or other inappropriate capacities in support of public programs conducted off military installations is not authorized.

(2) Flags. (i) The loan of official flags of DoD Components will not be authorized without the approval of the Secretaries of the Military Departments or Heads of the other Components concerned.
(ii) In public programs for which DoD support has been authorized and at which the display of colors is appropriate, a Joint Armed Forces Color Guard will be employed, when available, using the following composition: Two Army bearers with National and Army colors; one each Marine Corps, Navy, Air Force, and Coast Guard2 bearer with individual Service colors; and one Army and one Marine Corps rifleman as escorts.

(iii) When a Joint Armed Forces Color Guard, as specified above, cannot be formed, the senior member of the senior Service in the Color Guard will carry the national colors. DoD Components will be guided by the table of precedence prescribed in DoD Directive 1005.8,3 **Order of Precedence of Members of Armed Forces of the United States When in Formations**, October 31, 1977.

(iv) United States military personnel may carry flags of foreign nations in official civil ceremonies when an official of the nation concerned is present in an official capacity and the official is one for whom honors normally would be rendered. In all other public programs or ceremonies, United States military personnel in uniform and in an official capacity are not authorized to carry flags of foreign nations, veterans groups, or other nonmilitary organizations.

(3) **Loan of materiel and facilities**—(i) **Materiel.** Equipment which formerly was available only from the military is now readily available from commercial sources. In considering requests for loan of military materiel, commanders must determine that similar materiel or facilities are not reasonably available from commercial sources before providing the support requested. This is particularly applicable to such items as communications, office, food-handling, and lighting equipment. Also included are construction, earth-moving, or other transportation and field equipment support. Other criteria to be considered are:

(A) The equipment must be locally available in the command, and its use for public affairs purposes must not be permitted to interfere with the military mission of the command.

(B) The public affairs program for which loan support is requested must be one in which the command is actively participating and one within the scope of its community responsibilities.

(ii) **Facilities.** Requests which do not fall within the discussion in this section shall be referred, with the DoD Component’s recommendations, to the ASD(PA) for consideration. Further guidance is provided in §238.19.

(g) **State governors’ inaugural ceremonies and parades**—(1) **General.** Support by DoD Components is appropriate in public parades and in inaugural ceremonies subject to the availability of resources. To the greatest extent practicable, Armed Forces support should be joint in nature. In those cases where a Military Service desires to support an inaugural program but has no troops or resources stationed within that State, the circumstances should be reported to the ASD(PA). Bands, troop units, and equipment from outside the local area may be provided only if no additional cost to the Federal Government will be incurred.

(2) **Support considerations.** (i) Support should be limited in size and scope, bearing in mind the potential demands that may be generated from State to State. Marching units with a combined strength of no more than one platoon from each Military Service and no more than one military band are recommended guidelines. The display of equipment and vehicles in parades is encouraged.

(ii) It is recognized that the State National Guard may be ordered to State duty by appropriate State authority, although Federal funds are not made available. Such service and expenses involved are paid for by other than Federal funds. The governor of a State has the authority to utilize, at no expense to the Federal Government, national guard troop units as required in support of the inaugural parade and ceremonies.

(iii) The duties to be performed by national guardsmen in uniform shall conform to the policies of the Secretary of Defense as set forth in part...
§ 238.12 Speaking engagements.

(a) Purpose. This part which includes a reiteration of pertinent policy statements from part 237 of this title, contains definitions, policy, procedural, and funding guidance concerning public speaking engagements by DoD personnel.

(b) Definitions—(1) Speaking engagement. A prearranged official Federal, State, or Municipal government; organizational; or public event at which a military or civilian member of a DoD Component speaks about a DoD subject within his or her official cognizance. Impromptu remarks by an individual delivered incidentally and simply as a part of his/her attendance at an event does not constitute a speaking engagement within the meaning of this Instruction.

(2) DoD Speaker. Any civilian or military member of the Department of Defense at any level and of any rank who speaks in public about a DoD subject within his or her official cognizance.

(c) Policy. The Department of Defense encourages qualified civilian and military officials at all levels to accept speaking invitations as an effective means of informing the public about Defense matters. DoD Instruction 5230.13,1 “Principles of Public Information,” October 23, 1973.

(d) Procedures—(1) General considerations. The following points should be considered by members of the Department of Defense prior to acceptance of a speaking invitation:

(i) Participation must not interfere with assigned duties.

(ii) Speakers must address their remarks to subjects within their official cognizance.

(iii) Views expressed must not conflict with national policy.

(iv) Speakers may not be provided for partisan political gatherings (see DoD Directive 1344.10,1 “Political Activities by Members of the Armed Forces,” September 23, 1969, or fund-raising events which do not meet basic DoD criteria (see part 237 of this title and DoD Directive 5035.1, respectively).

(v) A speaker’s participation must not lend an air of sponsorship to the statements of others which may be partisan in nature or contrary to national policy.

(vi) Subject matter and text may require review and clearance (see DoD Directive 5230.9,1 “Clearance of DoD Public Information,” December 24, 1966).

(vii) Situations where the real or apparent purpose is to stage controversy will be avoided. The ASD(PA) will be consulted before speakers are provided for events in which public confrontation or debate of national policy matters is planned or likely.

(viii) Department of Defense support is not authorized if the sponsor or sponsoring organization specifically excludes any person from its membership for reasons of race, creed, color, or national origin. However, DoD support is authorized for programs sponsored by organizations whose qualifications for membership is based on national origin or sex, but only when the program so supported is oriented to the community rather than to the national origin or objective of the organization itself, and admission, seating, and all other accommodations and facilities connected with the program are available to all without regard to race, creed, color, national origin, or sex.

(ix) Acceptance of press, radio, and television interviews in conjunction with speaking engagements is encouraged, subject to the provisions of this Instruction and other pertinent public affairs Directives.

(x) Advance distribution of copies of speech texts (embargoed when necessary) may be used to gain wider dissemination of DoD information beyond an intended local audience when media coverage is anticipated. Distribution of speech texts should be made in cooperation with the host organization.

(2) Level of acceptance. Organizations or groups wishing to extend a speaking invitation should be encouraged to correspond directly with the Public Affairs Officer of the nearest installation likely to have someone assigned who is cognizant of the subject matter to be

1 See footnote 1 to § 238.4(d).
discussed. The Fact Sheet (enclosure 3) and Speaker Request Formats (enclosure 4) may be utilized when replying to queries concerning speakers. DoD Components shall channel speaking invitations to appropriate officials nearest the site of the event.

(3) Presidential representatives. The Department of Defense is sometimes required to furnish a military officer to represent the President of the United States at occasions where “remarks” or “an address” are required. The minimum appropriate grade, in this circumstance, is a general or flag officer unless there are overriding practical considerations precluding general or flag officer availability.

(e) Funding. (1) Speaking engagements normally will be at Government expense.

(2) Acceptance of a gratuity as defined in part 40 of this title, a fee, or an honorarium is prohibited. Reimbursement for necessary travel and living costs may be accepted from the sponsoring organization in lieu of reimbursement by the Government, in accordance with Joint Travel Regulations (Volumes 1 and 2). Consult the local finance or disbursing officer for specifics.

(f) Reports. (1) The Office of the Assistant Secretary of Defense (Public Affairs) requires a monthly speakers’ report covering a projected 60-day period for all accepted speaking engagements of senior civilian and military representatives of the DoD Components down through Deputy Assistant Secretary and three-star rank. This report is due no later than the 24th day of each month, attention Directorate for Community Relations. The report will include the following information:

(i) Name, rank, and title of speakers
(ii) Date of speaking engagement
(iii) Place of speaking engagement
(iv) Host organization

(2) This reporting requirement has been assigned Report Control Symbol DD-PA(M)979.

(3) From the above information, the Directorate for Community Relations, Office of the Assistant Secretary of Defense (Public Affairs), will publish a monthly speakers’ schedule.

§ 238.13 National organizations.
(a) Policy. OASD(PA) serves as the primary point of contact within the Department of Defense for all types of national organizations. In addition, on matters relating to the provision of information of DoD policies, programs, budgets, plans, and activities, OASD(PA) is the principal point of contact with business and industry. Establishment of this focal point is designed to avoid duplication and ensure that a coordinated DoD view is expressed when responding to the nontechnical needs of these organizations and the business/industrial community.

(b) Procedures. (1) OASD(PA) serves as the principal Department of Defense point of contact for all national organizations (to include their local and regional chapters in the National Capital area) on all matters except:

(i) Requests for information emanating from an organization and bearing directly on an individual DoD Component.
(ii) Those matters involving contractual or consulting relationships.
(iii) Matters pertaining to scientific and technical information. Scientific and technical information services are administered by the Defense Logistics Agency.

(2) Except in the National Capital area, local and regional chapters of national organizations may deal directly with local commanders as delegated by appropriate authority. In the National Capital area, local and regional chapters shall be referred to OASD(PA) when they request support from the Department of Defense or any of its elements. When appropriate, OASD(PA) will refer the matter to whatever DoD Component can best fulfill the organization’s request.

(3) Authority for direct communication and liaison with organizations directly associated with specific interests of a single DoD Component is delegated (see § 238.6(d)(2) of this part) to that Component. Individual Components which maintain liaison with such organizations are required to carry on their activities in accordance with the letter and the spirit of policies set forth in parts 237, 91, and 40 of this title, respectively).
Office of the Secretary of Defense

§ 238.15 Veterans Day observances and national conventions of national veterans organizations.

(a) Policy. It is DoD policy to provide military support for:

(1) Veterans Day observances at communities designated as regional sites by the Veterans Day National Committee of the U.S. Veterans Administration;

(2) Smaller local observances held in communities not so designated; and

(3) National conventions of national veterans organizations.

(b) Procedures—(1) Veterans Day observances. (i) The Administrator of Veterans Affairs is normally designated by Presidential proclamation as the

(4) OASD(PA) periodically provides to national organizations information concerning policies, programs, budgets, and other activities of the Department of Defense. DoD Components are encouraged to provide informative material to OASD(PA) for inclusion in these periodic mailings. Examples of Component-related material which would be proper for distribution to organizations through OASD(PA) include posture statements, significant congressional testimony, internal publications outlining important programs which will have a wide-ranging impact, and other major policy pronouncements such as speeches.

(5) Policies regarding liaison and communication with the support for organizations representing business or commercial interests are outlined in part 237a of this title which also covers relationships with businesses, industries, and other commercial enterprises.

§ 238.14 Armed Forces Day.

(a) Purposes. This enclosure contains guidelines concerning the annual observance of Armed Forces Day. (See part 237 of this title.)

(b) Policy. (1) By Presidential proclamation, Armed Forces Day is observed on the third Saturday of each May. It provides a special occasion to satisfy public interest in the Defense establishment and to demonstrate the unity and common purpose of the Armed Forces in the fulfillment of our national security requirements.

(2) In keeping with the spirit of unification as set forth in the National Security Act of 1947, as amended, participation by military units in the observance of the birthdays of individual DoD Components or any other day or days of significance to a single Component, its subordinate elements, or auxiliaries will not be undertaken away from military installations without the specific authorization of the Assistant Secretary of Defense (Public Affairs).

(3) The United States Coast Guard is included, where feasible, in observances of Armed Forces Day, pursuant to agreement with the Secretary of Transportation.

(c) Procedures. (1) The Assistant Secretary of Defense (Public Affairs) is responsible for coordinating Armed Forces Day programs at the national level and for issuing annual guidance for the conduct of each year’s observance.

(2) Cooperation with communities and organizations planning observances of Armed Forces Day is encouraged.

(3) DoD Components shall extend hospitality to the general public by hosting “Open House” or similar activities on military installations and ships.

(4) In localities and situations where two or more Military Services are represented, joint participation in community sponsored programs is encouraged.

(5) Armed Forces Day will be treated as a national holiday for purposes of determining support authorized by part 237 of this title and this part.

(6) Armed Forces Day will be observed in overseas areas in the manner determined most suitable by the Commander-in-Chief of the Unified or Specified Command concerned. The observance may be held on military installations for U.S. personnel and dependents and may be open to the general public or conducted elsewhere in the host nation. These observances will not be combined with other U.S. or foreign holidays or observances.

(d) Funding. DoD Components shall, within their available funds, defray the expenses necessary for the observance of Armed Forces Day within their respective areas of responsibility.

§ 238.15 Veterans Day observances and national conventions of national veterans organizations.

(a) Policy. It is DoD policy to provide military support for:

(1) Veterans Day observances at communities designated as regional sites by the Veterans Day National Committee of the U.S. Veterans Administration;

(2) Smaller local observances held in communities not so designated; and

(3) National conventions of national veterans organizations.

(b) Procedures—(1) Veterans Day observances. (i) The Administrator of Veterans Affairs is normally designated by Presidential proclamation as the
§ 238.16 Presidential wreath-laying ceremonies.

(a) General. Over the course of years the Office of The Military Assistant to the President has coordinated the annual placement of Presidential Wreaths at the tombs, burial sites, and/or monuments of all former Presidents. The repeated placement of these wreaths through the years led to the development of the ‘President’s Approved Wreath List’ (Enclosure 5).

(b) Procedures. (1) Enclosure 5 contains the President’s Approved Wreath List, including name, place, and date for wreath-laying ceremonies for each former President.

(2) Enclosure 5 also contains a list of Military Departments responsible for providing a representative of the President to place each wreath.

(3) The minimum appropriate military grade for this program is general or flag rank, unless overriding considerations preclude the availability of a general or flag officer.

(c) Responsibilities. (1) The ASD(PA) is responsible for overall coordination of DoD support for this program.

(2) Secretaries of the Military Departments will designate appropriate Presidential representatives, in accordance with the listing contained in enclosure 5, to place wreaths in honor of former Presidents. The name, rank, title, address, and telephone number of each designated representative will be forwarded to the ASD(PA) at least 60 days in advance of the month of wreath placement.

(3) The Military Assistant to the President will make necessary arrangements to provide each wreath.

(4) Names of designated Presidential representatives will be forwarded, via the Special Assistant to the Secretary of Defense, to the Military Assistant to the President, who will coordinate final details of each ceremony.

(d) Reports. The report required in §238.16(c)(2) is assigned Report Control Symbol DD-PA(AR)1348.

§ 238.17 Sports activities.

(a) Policy. (1) DoD Directive 1330.4 establishes the Interservice Sports Committee (ISC) which acts for the ASD(PA) in all matters pertaining to interservice competition and joint Military Service participation in national and international sports. Each Military Service is represented on the committee.

(2) Athletic activities of the Military Service academies that are conducted away from military installations shall be governed by the general policy contained in part 237 of this title and this part.

(b) Responsibilities. Among other functions, the ISC as Executive Agent, for the DoD shall:

(1) Act for the Department of Defense on matters pertaining to sports involving more than one Military Service.

(2) Plan and conduct all interservice sports championships, and establish and monitor all joint Military Service efforts in support of national and international sports activities.

(3) Coordinate with Department of State, as required by part 347 of this title, and other Government agencies and national sports organizations on sports tours and clinics in foreign countries which propose to utilize U.S. military personnel.
§ 238.18 DoD coordinators.

(a) Purpose. Some community relations programs involve support by more than one Military Service. Events of this nature include major national veterans conventions, regional Veterans Day observances, major air shows, large civic festivals, inaugurals, etc. The purpose of this enclosure is to provide guidelines for the coordination of such programs.

(b) Procedures. (1) When military support of a program sponsored by a civilian organization is furnished by more than one Military Service, and the magnitude of the support warrants DoD coordination, one Military Department will be requested by OASD(PA) to nominate an officer located in the area of the program to serve as the coordinator of DoD support.

(2) After being nominated, the officer will be designated as the DoD Coordinator by OASD(PA). The DoD Coordinator will be responsible for coordinating all military support, including support by National Guard/Reserve components, within the limitations set forth in part 237 of this title, this part, and other specific guidelines prepared by OASD(PA) and provided to him/her upon designation as DoD Coordinator. The DoD Coordinator is authorized direct liaison with OASD(PA).

(3) Also, OASD(PA) will request appointment of project officers, normally located within the area of the event, from the Military Departments providing support for the program. These Service project officers will assist the DoD Coordinator.

(c) Reports. The DoD Coordinator will prepare an after-action report and forward it to OASD(PA) within 30 days following the program. Report Control Symbol DD–PA(AR)1348 applies.

§ 238.19 Miscellaneous public affairs-related activities.

This part contains a list of Public Affairs-related activities conducted by certain DoD Components under authority other than that delegated to the ASD(PA).

(2) The Secretary of the Army is designated as the DoD Executive Agent for military support in disasters.

(3) The ASD(PA) is responsible for associated public affairs activities.

(2) The ASD(ISA) is responsible for overall coordination of DoD support.

(3) The ASD(PA) is responsible for public affairs plans and activities. He is the single point of contact with the Department of State/AID or the International Communications Agency (ICA) on associated public affairs matters.

(c) Use of DoD facilities or resources for other than public affairs purposes. (1) The use of any DoD facility or resource to accomplish a community relations objective (see part 237 of this title) is considered use for a public affairs purpose. Any other use of a DoD facility or resource is not a public affairs matter.

(2) Policies and procedures governing the use of DoD facilities or resources for other than public affairs purposes are the responsibility of the ASD(MRA&L), the Secretaries of the Military Departments, or the Directors/Commanders of other DoD Components.

(d) Transportation. (1) Policy governing the use of military carriers for

1 See footnote 1 to § 238.4(d).
public affairs purposes is contained in DoD Instruction 5435.2.

(2) Travel or transportation for public affairs purposes is defined as any travel or transportation of individuals, groups, or materiel undertaken as a result of a request to or an invitation from and authorized by competent authority in the Department of Defense in the interest of adding to the public understanding of DoD activities. It includes travel or transportation involving individuals or things, military or civilian, Government or non-Government, U.S. or foreign requests. It may be reimbursable.

(3) All other uses of military carriers are governed by policies promulgated by the ASD(MRA&L).

(e) Organizational relationships. Direct liaison channels exist between certain organizations and OSD agencies other than OASD(PA) in cases specifically provided for under public law or DoD Directive. Examples are:

(3) Boy Scouts of America and Girl Scouts of America. (i) Nonappropriated fund activities—ASD(MRA&L).

(iii) Use of military transportation and facilities to include support for International and National Jamborees—ASD(MRA&L).

(5) Veterans Organizations (i) Service Discharge matters—ASD(MRA&L); Military Departments.

---

### ENCLOSURE 1—FORMAT REQUEST FOR AERIAL DEMONSTRATION

This format is used to request Armed Forces aerial demonstrations at public events. The information is required to evaluate the event for appropriateness and compliance with DoD policies and for coordination with units involved. Please complete all sections.

Each year, in December, the Department of Defense hosts a flight and parachute demonstration team scheduling conference to prepare the annual schedule for the following calendar year for the U.S. Navy Blue Angels, the U.S. Air Force Thunderbirds, and the U.S. Army Golden Knights. All requests for these demonstration teams must arrive at the Office of the Assistant Secretary of Defense, Public Affairs (OASD/PA), no later than September 30, to be considered at the scheduling conference. Requests for other aerial demonstrations (flyovers, static displays, etc.) must arrive at OASD/PA a minimum of 30 days in advance of the event and preferably 60 days.

DoD policies require that aerial demonstrations at public events will be provided at no additional cost to the Government. The sponsor is required to pay the standard Military Services allowance for quarters and meals for Armed Forces participants and for certain other services determined in advance by the Military Services and agreed to by the sponsor. All costs are binding after a demonstration team scheduling conference. Requests for other aerial demonstrations (flyovers, static displays, etc.) must arrive at OASD/PA a minimum of 30 days in advance of the event and preferably 60 days.

DoD policies require that aerial demonstrations at public events will be provided at no additional cost to the Government. The sponsor is required to pay the standard Military Services allowance for quarters and meals for Armed Forces participants and for certain other services determined in advance by the Military Services and agreed to by the sponsor. All costs are binding after a demonstration team scheduling conference. Requests for other aerial demonstrations (flyovers, static displays, etc.) must arrive at OASD/PA a minimum of 30 days in advance of the event and preferably 60 days.

Section A: General

1. Title of event:

2. Town or city: State:

3. Place (airport, fairgrounds, etc.):

4. Inclusive dates of event:

5. Sponsoring organization:

6. This request is for: (please circle the appropriate event):

a. U.S. Navy Blue Angels

   Performance Dates

   OR

   U.S. Air Force Thunderbirds

   (or)

   (The standard Military Services allowance for quarters and meals for either team will cost $2,100.00 for each day a team is scheduled at your event.)

b. U.S. Army Golden Knights

   Performance Dates

   OR

   (The cost will vary dependent upon travel time to and from the demonstration site, and

---

1 See footnote 1 to §238.4(d).
the number of participants. See note at bottom of this page for detailed explanation of how costs are computed.)

(b) Alternate Dates

Performance Dates

(No cost to sponsor)

d. Static Display

Performance Dates

(The standard Military Services allowance for quarters and meals is $35.00 per day per crew member.)

e. Other:

Performance Dates

NOTE: U.S. Army Golden Knights: Under normal conditions, the team is composed of nine jumpers, three aircraft crewmen, a ground controller, a narrator and information specialist. They are reimbursed by the Government at an average cost of $30.00 per individual per 24-hour day, for each performance day required to support your event (average team cost per performance day: 15 personnel x $30 = $450.00). Travel day reimbursement required to support your event is normally an average of $15.00 per individual per day, for each day of travel to and from Fort Bragg, North Carolina (average team cost per travel day: 15 personnel x $15 = $225.00). The sponsor will be advised by the Golden Knights, in advance, of the exact cost which the Government must be reimbursed.

Section B: Program

1. Purpose of this event:

2. Expected attendance:

Previous year’s attendance: __________

3. Admission charge: __________

Charge for parking: __________

Charge for seating (if not included in admission charge): __________

a. Will prize monies be given for any purpose at this event? __________

b. Source of prize monies: __________

c. Is this event used to promote funds for any purpose? __________

d. Disposition of profits which may accrue: __________

4. Will admission, seating and all other accommodations and facilities connected with this event be available to all persons without regard to race, creed, color, sex, or national origin? __________

5. Will sponsor consult with local Military Service recruiters and support, at no charge, military recruiting activities at the site of the event? __________

6. This event (is) (is not) a civic occasion and (does) (does not) have the official backing of the Mayor. __________

7. Has a demonstration team ever performed at your event before? __________

a. Which team? __________

b. Year of last performance: __________

Section C: Site

1. Flight or parachute team demonstrations are restricted to appropriate events at airports, over open bodies of water, or over suitable open areas of land.

a. Specific location of event: 

b. Length of active runway:

2. Flight and parachute team demonstrations must adhere to FAA regulations which specify that spectators are not to be permitted within 1,500 feet of an area over which flight demonstrations take place, or within 250 feet of a jump area over which parachutists are performing.

a. What type of crowd control is planned?

3. Flyovers and flight and parachute team demonstrations require that sponsors secure FAA clearance or waiver.

a. Does the FAA representative in your area agree that your aviation event is feasible for the type of Armed Forces aerial demonstrations requested? __________

b. Will sponsor secure FAA clearance or waiver at least 60 days prior to event? __________

4. Sponsor agrees to provide to the demonstration flight or parachute team commander, upon request, a recent aerial photograph, taken vertically from an altitude of at least 5,000 feet.

Section D: Support

Indicate that the sponsor understands and will provide the following:

1. Team costs as outlined in section A:

2. The standard Military Services allowance for quarters and meals for Armed Forces participants (if not included in team costs):

3. If required, transportation, meals, and hotel accommodation cost for representatives of the requested unit to visit the site prior to the event:

4. If required, transportation costs from home station to the event and return for all participants:

5. Transportation costs for all participants between site of the event and hotel:

6. Telephone facilities for necessary official communications at the site of the event:

7. Security for aircraft that land and are parked at the site during their entire stay:
Pt. 238, Encl. 2

8. Mobile firefighting, crash, and ground-to-air communications equipment at the demonstration site for flight and parachute demonstrations and static display aircraft:

9. Suitable aircraft fuel at military contract prices. (Sponsor must pay all costs, including transportation and handling, if necessary, over military contract prices if fuel is not available at such prices):

10. An ambulance and doctor on the site during flight and parachute demonstrations and during certain other types of aerial activities as determined in advance by the Military Services or OASD(PA):

Section E: Sponsor

1. Sponsor (is) (is not) a civic organization.
2. The sponsoring organization (does) (does not) specifically exclude any person from its membership based on race, creed, color, or national origin.
3. Sponsor’s Representative: (Authorized to complete arrangements for Armed Forces aerial demonstrations and responsible for reimbursing the U.S. Government for accrued expenses when required)

Name:
Address:
City: State: Zip:

Position with sponsoring organization:

Phone: Office: ( )
Home: ( )

4. Name and address of any Armed Forces representative or Government official with whom you have discussed possible participation:

Certification

I certify that the information provided in sections A. through E. is complete and correct to the best of my knowledge and belief. I understand that representatives of the Military Services will contact me to discuss arrangements and costs involved prior to final commitments.

Signature:
(Sponsor’s representative)

Date of Request:

Mail to: Directorate for Community Relations, OASD(PA), Room 1E 776, The Pentagon, Washington, DC 20301.

ENCLOSURE 2—REQUEST FORMAT—
ARMED FORCES PARTICIPATION IN
PUBLIC EVENTS

This format is used to request all Armed Forces Band, Troop, and Exhibit participation in public events. The information is required to evaluate the event for appropriateness and compliance with DoD policies and for coordination with the units involved. Complete section A and only those other sections that apply to your event.

Section A: General

1. Title of event:

2. Sponsor:

3. The sponsor (is) (is not) a civic organization and the event (has) (does not have) the official backing of the mayor.

4. The sponsoring organization (does) (does not) exclude any person from its membership or practice any form of discrimination in its functions based on race, creed, color, or national origin.

5. Sponsor’s representative authorized to complete arrangements for Armed Forces participation:

Name:
Address:
City, State: Zip:
Telephone: (Office) ( ) (Home) ( )

6. Purpose of this event (explain fully):

7. Expected attendance:

8. Is this event being used to raise funds for any purpose?

9. Admission charge:

10. Disposition of profits which may accrue:

11. Will admission, seating, and all other accommodations and facilities connected with the event be available to all persons without regard to race, creed, color, sex, or national origin?

12. Will the standard Military Services allowance for quarters and meals be provided by the sponsor for Armed Forces participants?

13. Will transportation at sponsor’s expense be provided for Armed Forces participants between the site of the event and hotel?

If required, will transportation be provided from home station to the event and return?

14. Will telephone facilities, at sponsor’s expense, be made available for necessary official communications regarding the event?

15. It may be necessary for representatives of the requested unit to visit the site prior to the event. Will transportation, meals, and
Office of the Secretary of Defense

hotel accommodations be provided by the sponsor?

Section B: Bands and Troops

1. This request is for (check appropriate line(s));
   Music:
   Troops:
   Other:

2. If you desire a certain musical unit, troop unit, or type of equipment, please specify:

   NOTE: Standard Military Service allowances for quarters and meals—$35.00 per day per person. Bands will have approximately 50 members as a minimum.

3. If a musical unit is requested and an outdoor concert is planned, will there be a bandshell or bandstand?

4. Type of electric current available:
   110V __ 220V __ Amps __

Section C: Exhibits

1. Specify type of exhibit(s) desired:

   2. If the event is indoors:
      Area available for exhibit is ____ feet long and ____ feet wide; Ceiling height: ____; Type of floor (wood, concrete) ____; Floor loading capacity: ____; Electric current 110V ____ 220V ____ Amps ___; Size of doorway through which exhibit can be brought into building: ____ feet high; ____ feet wide. Size and load limits of freight elevators if event is on other than ground floor: ____ feet wide; ____ feet high; ____ feet deep; load limit: ____.

   3. If the event is outdoors:
      Area available for exhibit is ____ feet long and ____ feet wide; Type of surface (soil, paved, gravel) ____; Type of electric current available: 110V __ 220V __ Amps ___; Obstructions to hinder unloading (high curbs, wires, trees): ____.

4. Can forklift, C-2 wrecker or crane be made available for handling exhibits at no additional cost to the Government?

5. Will electric power, necessary services for connections, and other required utilities be provided by the sponsor?

6. Will police escorts through congested areas be required?

7. Will guards be provided for equipment and displays?

8. Is parking space available for tractors and trailers?

9. Name and address of any Armed Forces representative or Government official with whom you have discussed possible participation:

Certification

I certify that the information I have provided here is complete and correct to the best of my knowledge and belief. I understand that representatives of the Military Services will contact me to discuss arrangements and costs involved prior to final commitments.

Signature: (Sponsor's Representative)

Date of Request: __________

Return this request to:

ENCLOSURE 3—FACT SHEET

(Speaking Engagements by DoD Personnel.)

1. The Department of Defense encourages qualified civilian and military officials at all levels to accept speaking invitations as an effective means of informing the public about Defense matters by developing understanding and stimulating patriotic spirit.

2. DoD personnel may accept speaking invitations provided they adhere to the following guidelines:
   a. Participation must not interfere with assigned duties.
   b. Speakers must address their remarks to subjects within their official cognizance.
   c. Views expressed reflect national policy.
   d. Speakers may not participate in partisan political gatherings.
   e. DoD speaker participation in fund-raising efforts will be limited to the programs of the Combined Federal Campaign, to such appeals as the President may authorize, and to the Military Service aid societies. Note: Support for local fund-raising programs other than those described above is authorized only when the fund-raising program is, in fact, local in nature and is of community-wide interest and benefit.
   f. Their participation must not lend an air of sponsorship to the statements of others which may be partisan in nature and/or contrary to national policy.
   g. Situations where the real or apparent purpose is to stage controversy will be avoided.
   h. Speakers may not accept invitations when the sponsor or sponsoring organization specifically excludes any person from its membership for reasons of race, creed, color, or national origin. However, DoD support is...
authorized for programs sponsored by organizations whose qualifications for membership is based on national origin or sex when the program so supported is oriented to the community rather than to the national origin or sex-oriented aspects or objectives of the organization itself, and when admission, seating, and all other accommodations and facilities connected with the program are available to all without regard to race, creed, color, national origin, or sex.

1. Speakers may not accept gratuities, fees, or honoraria. Reimbursement for necessary travel and living costs may be accepted in lieu of reimbursement by the Government.

3. Speaking invitations should be directed to the Public Affairs Officer of the nearest military installation. The Public Affairs Officer would appreciate information of the type outlined on the enclosed speaker request form.

4. Inquiries may also be addressed to Director for Community Relations, Office of the Assistant Secretary of Defense (Public Affairs), The Pentagon, Washington, D.C. 20301.

ENCLOSURE 4—SPEAKER REQUEST FORMAT

I. Sponsoring Organization(s)

Name(s)

Person to contact relative to this request (Name, address & telephone number) ____________________________

II. Meeting

Time:

Date ____________

Meeting will begin at __________________________

Meeting will end at __________________________

III. Speech

Subject of speech __________________________

Time to be allowed __________________________

Will there be a question & answer period following speech? __________________________

Time to be allowed for speech __________________________

IV. Details of the Program

Other Speakers (Please list in order of appearance) __________________________

Speaker __________________________

Subject __________________________

Length of Speech __________________________

V. Audience

Anticipated Size __________________________

Composition of audience (teachers, businessmen, etc., or general public) __________________________

VI. Publicity

Will the meeting be open to the press? __________________________

Will the speech be broadcast? Will it be taped, filmed, or otherwise recorded? __________________________

VII. Miscellaneous

Would acceptance of this invitation place the DoD speaker in violation of any of the guidelines contained in paragraphs 2.a. through i. of the accompanying Fact Sheet? __________________________

Give any other significant information which may be helpful in the selection of an appropriate speaker. If more space is needed use continuation sheets.

§ 239.1 Purpose.

This part establishes policy and procedures for (a) providing information on eligibility requirements and on benefits available under the Homeowners Assistance Program authorized by Pub. L. 89–754, Demonstration Cities and Metropolitan Development Act of 1966 (80 Stat. 1255, 1290) and (b) initial processing of applications for assistance under the Program.

§ 239.2 Applicability and scope.

The provisions of this part apply to all Department of Defense components. The programs encompasses DoD military and civilian personnel as well as affected personnel of other Federal agencies.

§ 239.3 Objective and policy.

(a) It is the objective of the DoD to assure that all applications for assistance under the program are given full consideration and that benefits under the program are extended to all homeowners who are determined to be entitled to assistance in accordance with applicable policies and procedures.

(b) Information on the program will be disseminated on the broadest possible basis by making full use of military and public news media and by distributing a fact sheet, with an application form (DD Form 1607) through military installations and offices and through other Government agencies where practicable.

(c) All possible assistance will be given to prospective applicants by explaining the program as described in the fact sheet, verifying employment or military service records, and advising in the preparation of the application form.

§ 239.4 Procedures.

(a) Pursuant to the provisions of DoD Directive 5100.54, “Homeowners Assistance Program,” December 29, 1967, the Department of the Army will establish a central office to administer, manage, and execute the program under policies and procedures prescribed by the Assistant Secretaries of Defense (Installations and Logistics) or (Comptroller). In implementing the program that office or field components thereof will take all appropriate actions, including but not limited to:

(1) Determination that a specific installation meets the requirements of Pub. L. 89–754, Demonstration Cities and Metropolitan Development Act of 1966 (80 Stat. 1255, 1290); and

(2) Determination as to the eligibility of each applicant;
§ 239.4

(3) Determine and advise as to the most appropriate type of assistance for each applicant;

(4) Determine amounts to be paid and make such payments or, when appropriate, authorize and arrange for Federal acquisition of the applicant’s property; and

(5) Maintain such records and prepare such reports as may be necessary and/or required by ASD (I&L) and ASD (Comp). Field offices will be established at convenient locations throughout the United States to execute various functions of the central office as may be designated.

(b) Pursuant to the provisions of DoD Directive 5100.54, “Homeowners Assistance Program,” December 29, 1967, the Department of the Army will establish an appeals procedure and will adjudicate appeals from applicants previously determined to be ineligible for assistance as well as from those who are dissatisfied with action on their claims.

(c) Each Military Department and Defense Agency will appoint at least one representative at headquarters level to work with the central office and the Offices of ASD (I&L) and ASD (Comp) in order to insure that the operation of the program is effective insofar as that Department or Agency is concerned. Each military installation will establish liaison with the nearest field office to obtain any further guidance or assistance desired.

(d) Each Department of Defense component will be furnished an initial supply of the application form and related fact sheet for distribution on a worldwide basis. An appropriate supply thereof will be distributed to each installation having a military or civilian personnel officer and also to such other activities and establishments as recruiting offices, reserve training centers, procurement offices, radar and missile sites, quality control offices, communications stations, etc., so that each may serve as a source of information on the program. Subsequent supplies of the application form and fact sheet will be procured by each DoD component as required.

(e) Each installation or establishment not having a military or civilian personnel officer will be prepared to discuss the information contained in the fact sheet with each prospective applicant and to direct him to the nearest installation having a personnel or industrial relations officer for a more detailed explanation of the eligibility requirements and for initial processing of his application.

(f) Each installation or establishment having a military or civilian personnel officer will insure that such officers, or other appropriate officers or officials, are designated to:

(1) Provide information on the program in response to all inquiries, whether from prospective applicants or other interested parties. This will include explaining the purpose of the program, discussing eligibility requirements and benefits, providing copies of the fact sheet and application forms, and referring applicants to legal assistance officers for answers to questions of a legal nature.

(2) Advise applicants in filling out Parts I and II of DD Form 1607, (emphasizing the need for accuracy and answering all pertinent questions) and in determining what documents and other material would be acceptable as proof of homeownership and occupancy.

(i) Evidence of homeownership may include contract of sale or deed to the applicant, receipts for mortgage and tax payments, etc. as well as contract of sale or deed of conveyance from the applicant, record of foreclosure, etc. if the home has been disposed of.

(ii) Evidence of occupancy of the home by the applicant may include receipted utility bills, appointment affidavit (Standard Form 61), official correspondence or other Government forms showing the officially recognized residence address.

(iii) Documents submitted in evidence of homeownership and occupancy should be notarized or certified true copies which are complete, accurate, and legible. Certification by the applicant will be acceptable. Note that generally original copies should not be submitted because DoD cannot be responsible for the safekeeping or return of original documents.

(3) Upon receipt of a DD Form 1607, with Parts I and II completed, execute

1Filed as part of original document.
Part III of the form indicating the results of review of the applicant’s service or employment. Official personnel records will be the only source of proof of service or employment; when such records are not available locally, they will be reviewed by reference to the National Personnel Records Center in St. Louis, to the personnel office at the applicant’s current place of military service or Federal employment, or to any other office where the records are held.

(i) If the review verifies that the applicant was serving or employed after November 1, 1964, or meets prescribed exceptions to that date, the personnel officer or other appropriate official will forward to the appropriate field office the completed DD Form 16071 with all supporting documents, in triplicate, together with a return envelope addressed to the applicant, for use by the field office in acknowledging receipt of the application. The application will be forwarded to the field office having jurisdiction for the purpose of this program over the base or installation where the applicant was serving or employed at the time of the closure announcement. The list of States (§ 239.5), or parts thereof, covered by each field office will be used for this purpose. The map may also be used as an aid in this determination.

(ii) If the review does not verify the applicant’s statement of service or employment as prescribed in paragraph (f)(3)(i) of this section, the personnel officer will enter a statement to that effect in Part III of the DD Form 16071 giving details of any discrepancies. The form will then be returned to the applicant, who will be advised that he may forward his application, with a return envelope addressed to himself, to the appropriate field office for further review.

(iii) At the time of action under paragraph (f)(3)(i) or (ii) of this section the applicant will be informed that all future inquiries regarding his application must be directed to the field office.

(4) Each installation or establishment which is designated to perform the actions required under this paragraph (f) will maintain a chronological record of each inquiry regarding the program with appropriate notation as to disposition for submission of periodic reports as required to the nearest field office.

§ 239.5 List of homeowners assistance field offices.

APPENDIX A TO PART 239—AGREEMENT, HOMEOWNERS ASSISTANCE PROGRAM AGREEMENT BETWEEN THE DEPARTMENT OF DEFENSE AND THE DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ARTICLE I—INTRODUCTION

SECTION 1. Section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966 (Pub. L. 89–754, enacted Nov. 3, 1966) authorizes the Secretary of Defense to provide assistance to owners of one- or two-family dwellings located at or near military installations, ordered to be closed in whole or in part subsequent to November 1, 1964, when certain determinations have been made with respect to eligibility. In certain instances this assistance may be rendered by acquiring title to the properties of such owners under terms and conditions prescribed by the statute.

Sect. 2. Section 1013(d) of the Act provides a fund for the purpose of this program, which has been established as the Homeowners Assistance Fund, Defense. Section 1013(g) authorizes the Secretary of Defense to enter into agreement with the Secretary of Housing and Urban Development with respect to administration of the program. This agreement is executed on behalf of the Secretary of Defense by the Assistant Secretary of Defense (Installations and Logistics) pursuant to delegation of authority contained in DoD Directive 5100.54, dated December 29, 1967 (33 FR 2570) and by the Secretary of Housing and Urban Development.

Sect. 3. For the purposes of this agreement, the following definitions shall apply:

(b) Secretary of Defense means the Secretary of Defense or an officer or employee of the Department of Defense empowered to exercise any of the functions of the Secretary of Defense under the Act.
(c) DoD means the Department of Defense.
(d) Secretary, HUD or HUD means the Secretary of Housing and Urban Development or an officer or employee of the Department of Housing and Urban Development empowered to exercise any of the functions of the Secretary of Housing and Urban Development under the Act.
(e) Corps means the Office of the Chief of Engineers, Department of the Army.
(f) Division/District Engineer means either the Division Engineer of the Corps or the District Engineer of the Corps, as applicable under the circumstances, having military jurisdiction in the area in which the property is located.
(g) FHA means the Federal Housing Administration.
(h) Assistant Commissioner-Comptroller means the Assistant Commissioner-Comptroller of the Federal Housing Administration.
(i) FHA Insuring Office means the local insuring office of FHA having jurisdiction over the area where the property is located.
(j) Fund means the Homeowners Assistance Fund, Defense, established pursuant to the authority contained in section 1013(d) of the Act.
(k) Acquired property means property acquired pursuant to the Act.

Office of the Secretary of Defense

**ARTICLE II—POLICY AND OBJECTIVE**

**SECTION 1.** As more fully set forth below, Secretary, HUD will accept custody, subject to funds made available by DoD, of property acquired pursuant to the Act and maintain, manage, and dispose of such properties on behalf of the Secretary of Defense. In the event the Fund no longer has any monies available, the Secretary, HUD may terminate this Agreement and DoD shall in that event assume custody and responsibility for all properties accepted, and mortgage payment liabilities assumed, by HUD pursuant to this Agreement. It is the agreed objective that acquired properties will be held, managed and disposed of in such a way as to:

(a) Avoid further depression of local real estate market conditions in areas where the housing market is depressed, and

(b) Consistent with item (a) above and with the desirability of disposing of the properties as rapidly as feasible, seek to obtain the best possible financial return to the Fund. During the period properties are held by FHA, and when it is feasible and in the best interest of the Government, consistent with HUD/FHA policy as to Secretary, HUD-owned property in the areas acquired in the course of FHA mortgage insurance operations, properties will be rented to third parties at rates generally obtainable for comparable properties in the area.

**SEC. 2.** The Secretary of Defense and the Secretary, HUD will expedite action in all offices and at all levels of their organizations relative to matters that are the subject of this agreement, and each will use all available means to assure that the purposes of the Act are accomplished in accordance with the spirit and intent of the Act.

**ARTICLE III—ACQUISITION AND ASSUMPTION OF CUSTODY**

**SECTION 1.** As to properties acquired by the Corps under this Act, acquisition will be accomplished by the Division/District Engineer, who will negotiate with the owner as to terms, will effect the closing, and will pay to the property owner such sums as may be due to him. The Division/District Engineer will obtain a merchantable title to the property which meets the title requirements of the Attorney General of the United States, for the purpose of holding, managing, renovating, renting, and disposing of said properties. The Division/District Engineer will file the deed for record promptly upon title vesting in the United States, and on the same date will notify the FHA insuring office of the acquisition, using FHA Form 1174, Notice of Military Acquisition.

**SEC. 2.** HUD/FHA, on behalf of the Fund, will assume custody of properties acquired as of the date that title in the property vests in the United States, for the purpose of holding, managing, renovating, renting, and disposing of said properties. The Division/District Engineer will file the deed for record promptly upon title vesting in the United States, and on the same date will notify the FHA insuring office of the acquisition, using FHA Form 1174, Notice of Military Acquisition.

1 Filed as part of original document.
ARTICLE IV—MAINTENANCE, MANAGEMENT AND DISPOSAL

SECTION 1. To the extent not inconsistent with the provisions of this Agreement, HUD/FHA will maintain, manage, renovate, rent, sell, and dispose of the acquired properties in the same manner and under the same procedures as are used by HUD/FHA for properties acquired pursuant to FHA insurance contracts. HUD/FHA will give neither advantage nor disadvantage insofar as sale or other activity is concerned to properties acquired pursuant to this Agreement. HUD/FHA will treat such properties in the same manner as properties acquired pursuant to FHA insurance contracts. HUD/FHA is hereby authorized to repair, renovate, restore, or take any protective maintenance deemed necessary by HUD/FHA insofar as any property covered by this Agreement is concerned. The terms of rental, sale for cash or credit or by assumption of the existing mortgage, or by other means of disposal of any property covered by this Agreement which is contracted for or otherwise entered into by FHA shall be final.

SECTION 2. While any acquired property is under HUD/FHA’s custody, payments in lieu of taxes will be made by the FHA Assistant Commissioner-Comptroller to local taxing authorities in amounts equivalent to the taxes which would be payable were the properties in private hands, except when the Government is making expenditures for streets, utilities or other public services. In such cases, the Division/District Engineer will advise the FHA Assistant Commissioner-Comp- troller of such expenditures and specify what allowances are to be deducted. It shall be the responsibility of the Division/District Engi- neer to advise the FHA Assistant Commissi- oner-Comptroller in such cases sufficiently prior to the time that the Assistant Commis- sioner-Comptroller makes payment of any tax bill received by FHA on acquired prop- erties. In the event that such notice is not received from the Division/District Engineer by such time, the Assistant Commissioner- Comptroller may pay the amount of the net tax bill without penalties.

SECTION 3. This agreement contemplates that disposal of the properties will be accomplished by the financing arrangements available to HUD/FHA and beneficial to DoD. The following financial arrangements will gener- ally be used and FHA will be guided by the same considerations that govern FHA sales of its properties:

1. Sale of the property for cash or through the use of a conventional uninsured mort- gage.

2. Sale of the property providing for as- sumption of the existing mortgage indebted- ness by the buyer or sale of the property sub- ject to the existing mortgage indebtedness.
Office of the Secretary of Defense

Pt. 239, App. A

3. Sale of the property by use of FHA’s insured private financing program or FHA’s instant FNMA closing program if available.

4. Sale of the property by use of a purchase money mortgage taken by the Secretary, Department of Housing and Urban Development. In those cases where an existing mortgage is assumed and the assumption subsequently defaults, the Fund will be responsible for all costs, expenses or losses sustained by HUD/FHA in satisfying the Government’s liability on the mortgage. In the event it is advantageous to the Government to sell by assumption and the sales price is less than the outstanding mortgage balance, the Fund shall be responsible for the money which is required to reduce the outstanding principal balance of the mortgage. When, in order to facilitate the sale of acquired properties, FHA insures the mortgage, the Fund will be responsible for all expenses incurred by FHA on the first sale, including losses in connection therewith, as computed by the FHA Assistant Commissioner-Comptroller.

ARTICLE V—FINANCING, ACCOUNTING, AND REPORTING

SECTION 1. The Corps will furnish to HUD/FHA by June 1 of each year an estimate of the number of housing units expected to be acquired and transferred to HUD/FHA during the succeeding fiscal year and those during the following budget year. The estimates will show the number of housing units, FHA insuring office jurisdiction, estimated average monthly principal and interest payments and expected quarterly phasing of transfer to FHA.

On August 1 of each year HUD/FHA will submit a budget estimate to the Corps setting forth the estimated financial requirements for the activities that FHA is to perform for the Secretary of Defense pursuant to the terms of this agreement covering the then current fiscal year and the following budget year. The estimate, in terms of obligations/expenditures, should be by FHA insuring office jurisdiction and in the same cost categories as maintained in the automatic tape record as set forth in Article V, section 2, for each acquired property and as included in the monthly reimbursement request set forth in Article V, section 3, for all other expenses. On May 1 of each year FHA will furnish to the Corps in the same format as the August 1 statement an updated estimate of obligations/expenditures then estimated to be incurred in the succeeding fiscal year.

Based on the estimated financial requirements, in consonance with budgetary and appropriation actions, the Corps will issue to FHA on July 1 of each year a reimbursable order including an obligation/expenditure limitation as to the amount which the FHA may, on a net basis, obligate/expend in anticipation of reimbursement from the Fund for that fiscal year. FHA will promptly advise the Corps whenever it determines that the performance of its responsibility under this Agreement requires any adjustment, together with an estimate and explanation of the changes needed so as to permit the continued effective operation of the program as contemplated under this agreement. The Corps of Engineers will arrange to provide the necessary adjustment within its authority. Where this is unfeasible the Corps of Engineers will submit the requirement promptly to the Secretary of Defense. The Secretary of Defense will either provide the additional resources required or will directly advise FHA as to the course of action necessary to be taken pending the availability of additional resources.

SEC. 2. The FHA will maintain in its automated tape records an account for each acquired property. The account will separately identify each of the following:

(a) The FHA identification number, which will be assigned by the FHA insuring office.

(b) Property address, entered by the Corps on the FHA Form 1174 returned to the Corps per Article III, section 2.

(c) Outstanding mortgage balance at acquisition.

(d) Property acquired. Contra to (c) above, this will be established in the same amount and will offset the outstanding mortgage balance. In the event a property is sold with the purchaser assuming the mortgage or with FHA taking a purchase money mortgage the outstanding balance assumed by the purchaser or the amount of the purchase money mortgage accepted will be recorded as a reduction of the amount originally established.

(e) Principal payments including prepayments of the entire balance when necessary by FHA on the mortgage.

(f) Interest payments by FHA on the mortgage.

(g) Payments in lieu of taxes and insurance payments by FHA. The Corps will notify FHA on the FHA Form 1174 of Escrow Accounts retained by the mortgagee.

(h) Maintenance and operating expenses paid by FHA including any special payments for evictions and removal of title impediments. Direct expense transactions of $100 or more will be a direct charge to the affected property account. All other expenses, generally derived from net settlements with brokers, made pursuant to FHA 2570 Accounting Manual for Acquired Properties, as may be amended from time to time, will be prorated monthly to all home properties in FHA’s inventory, including those acquired pursuant to this agreement. Net settlement means expenses paid by brokers less rental collections.
(i) Sales expenses paid by FHA which will be for sales, closing costs, and discount on notes.

(ii) Net FHA incurred expense, which will be the net total of amounts recorded in items (e) through (j) of this section.

(k) Gross Sales Price agreed to by FHA. This is not the same as cash proceeds which will be reported separately by FHA.

(l) Net Expense or Collection on Sold Properties, which will be the gross sales price less adjustments to item (d) of this section less item (j) of this section.

(m) A Corps’ furnished base identification and homeowner classification code consisting of 7 digits (2 digits for State code and 4 digits for installation number plus the number “2” for civilian or the number “1” for military homeowner).

Sec. 3. FHA will furnish to the Corps the following reports:

(a) Monthly, no later than 30 working days after the end of each calendar month the FHA Form 1174, “Acquired Home Property, Maintenance Phase Trial Balance,” showing separate totals to date for items (c) through (l) of Article V, section 2, for each FHA identification number.

(b) Monthly, no later than 30 working days after the end of each calendar month a statement supporting an SF 1080 billing setting forth the following:

(i) Net change in FHA expenses for acquired properties as reported on the current and prior month. Article V, section 3, item (a) reports, separately for “on hand” and for “sold” properties.

(ii) Sales proceeds, which will be detailed by the gross sales price agreed to by FHA less amount of mortgages assumed by buyers less purchase money mortgages accepted by FHA.

(iii) Principal and interest collections separately on purchase money mortgages.

(iv) FHA insuring office expenses directly related to this program as reported in accordance with FHA Manual, Field Expense and Performance Handbook, as may be amended from time to time. This item will be supported by a schedule showing total expenses incurred by each FHA insuring office.

(v) FHA Headquarters expenses directly related to this agreement developed on basis of reports received in accordance with FHA Manual, Departmental Expenses and Performance Handbook, as may be amended from time to time.

(vi) HUD departmental level expenses directly related to this program which will include Automatic Data Processing (ADP) services, printing and some other minor expenses, which in the judgment of FHA are appropriately chargeable under this Agreement. ADP services will include the cost of magnetic tapes furnished the Corps under Article V, section 3, item (c) and Article V, section 4, and personal service costs.

Personal service costs included in items (4), (5), and (6) will be limited to those directly related to this program on the basis of time worked and will consist of salary cost plus FICA and the Government contribution for health benefits, life insurance, and retirement funds. An additional 15.9 percent of this total will be added to cover the cost of earned annual leave, sick leave taken, and holiday leave.

(7) Amount due FHA from the Fund or amount due the Fund from FHA.

(c) Quarterly, not later than 30 working days after the end of each calendar quarter a duplicate of the FHA automated tape record for all acquired properties.

Sec. 4. Whenever FHA determines that they do not plan to offer properties for sale within 12 months after acquisition, the FHA will so advise the Secretary of Defense, with the expected prospects for such disposition. The Secretary of Defense will consult with the FHA on alternative means of disposal in such cases where such alternatives are considered feasible.

Sec. 5. FHA will not drop closed cases for properties acquired pursuant to the Act from the automated tape records except by special agreement with the Corps, at which time a duplicate of FHA’s automated tape record of such cases will be furnished to the Corps.

Sec. 6. It is agreed and understood that, in performing the accounting and reporting operations set out herein, FHA will accomplish the objectives using its existing automated data processing routines and programs, and that no special programming or detailed printouts will be required from FHA.

Sec. 7. The Corps, within 6 working days after receipt of a monthly statement indicating an amount due FHA, will reimburse FHA by check for the amount shown on the statement. The check will be made payable to the Federal Housing Administration and will be forwarded to the FHA Assistant Commissioner-Comptroller.

Sec. 8. In those instances where the statement indicates an amount due the Fund, a check payable to the Homeowners Assistance Fund, Defense, for such amount will accompany the monthly statement submitted to the Corps by FHA.

Sec. 9. The following FHA issuances and changes thereto will be furnished to the Corps:

(a) FHA 2750, Accounting Manual for Acquired Properties;

(b) FHA Manual, Field Expense and Performance Handbook;

(c) FHA Manual, Departmental Expense and Performance Handbook.

Sec. 10. FHA will maintain a separate document file for each acquired property. The file will contain at least the FHA Form 1174.
ARTICLE VI—FINALITY OF ACTION

SECTION 1. This agreement embodies the full understanding of the Department of Defense and the Department of Housing and Urban Development concerning their responsibilities and it is understood that all decisions made and all actions taken by HUD/FHA within the terms of this agreement with respect to all aspects of clearing impediments of title, prepayment of mortgages, eviction of occupants, prepayment of hazard insurance coverage premiums, and all other matters relating to the maintenance, management, renovation, rental, sale, or other disposal of properties and the selection and use of brokers shall be final and conclusive as fully as if made or taken by the Secretary of Defense.

ARTICLE VII—DELEGATION OF AUTHORITY

SECTION 1. The Secretary of Housing and Urban Development is hereby authorized, with respect to acquired properties, to acquire title to, hold, manage, sell for cash or credit by taking a purchase money mortgage in the name of the Secretary of Housing and Urban Development, and, in connection therewith, to execute deeds of conveyance and all other instruments necessary to fulfill the purposes of section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966 (Pub. L. 89–754, enacted Nov. 3, 1966), to issue rules and regulations and to make any or all determinations and to take any or all further actions in connection with acquired properties which the Secretary of Defense is authorized to undertake pursuant to the provisions of the Act. The Secretary of Housing and Urban Development is further authorized to redelegate any of the functions, powers and duties delegated herein to officers and employees of HUD and to authorize successive redelegations.

PART 240—CRITERIA AND PROCEDURES FOR PROVIDING ASSISTANCE TO LOCAL EDUCATIONAL AGENCIES

§ 240.3 Definitions.

(a) Applicant. Any LEA whose ADA military section 3(a) and section 3(b) students equals at least 35 percent of its total ADA and that submits a letter of application to the Department of Defense; files an application for financial assistance; has received, or shall receive funds under section 3 of the Impact Aid Program; and submits documents and forms required by §240.4(c)(5) (i) through (iii) of this part.

(b) Current expenditures. Expenditures for free public education, including expenditures for administration, instruction, attendance and health services, public transportation services, operation and maintenance of plant, fixed charges, and net expenditures to cover deficits for food services and student body activities, but not including expenditures for community services, capital outlay, debt service, or any expenditures made from funds under Public Law No. 89–10, title I. See the amended definition of “current expenditures” in Public Law No. 100–297 (1988).

(c) DoD Contribution. The amount of financial assistance an applicant shall receive under Public Law No. 101–511, title II.
§ 240.4 Policy.

It is DoD policy that:

(a) During fiscal year (FY) 1991, the Department of Defense shall obligate 10 million dollars to assist the LEAs that meet criteria in paragraph (c) of this section. Of this 10 million dollars:

(1) Eight hundred and eighty-six thousand dollars shall be provided to the Killen, Texas, Independent School District.

(2) One hundred and sixty-seven thousand dollars shall be provided to the Copperas Cove, Texas, Independent School District.

(3) The remaining 8,947,000 dollars shall be used only to assist the eligible LEAs operating schools that provide free public education to dependent children of Armed Forces members of DoD civilian personnel who:

(i) While attending those schools, reside on Federal property.

(ii) Without such additional assistance, are unable to provide a level of education for such dependents equal to the comparable level of education provided in the State where such dependents reside.

(b) The OSD shall consult with the Office of the Secretary of Education before providing financial assistance to the LEAs.

(c) To be eligible for financial assistance:

(1) The LEA must be unable, without such additional assistance, to provide a level of education for such students equal to the comparable level of education provided in the State where such students reside (as determined by comparable student data).

(2) The LEA has in school year (SY) 1990–1991 an average daily attendance (ADA) of military section 3(a) or 3(b) students (see §240.3 (g) and (h)) or a combination of military section 3(a) and 3(b) students that is not less than 35 percent of the LEA’s total ADA. At least two students attending the LEA must be the dependents of Armed Forces members or of DoD civilian personnel. (For the purposes of this section, the Department of Defense shall rely on ADA data from the U.S. Department of Education (DoED)).

(3) For the prior and current FYs, the LEA has applied for and received, or shall receive, financial assistance from all regular Federal and State educational aid programs available to it, including the Impact Aid Program (Pub. L. No. 81–874, Section 3).

(4) The eligibility of the LEA under State law for State aid for free public education, and the amount of that aid, is no different than the eligibility and amounts received by the LEAs without military dependent students.

(5) The LEA files the following with the Assistant Secretary of Defense (Force Management and Personnel (ASD (FM&P)):

(i) A letter of application (see appendix A to this part).

(ii) One original and two copies of table 8–3 and table 9, which are published by the DoED, from the following forms:
§ 240.5 Responsibilities.

(a) The Assistant Secretary of Defense (Force Management and Personnel) shall:

(1) Ensure the implementation of those policies and procedures.

(2) Provide assistance, as required, to the potentially eligible LEAs to meet the requirements in §240.4(c)(5)(i) through (iii) of this part.

(b) The Assistant Secretary of Defense (Force Management and Personnel) shall:

(1) Ensure the implementation of those policies and procedures.

(2) Provide assistance, as required, to the potentially eligible LEAs to meet the requirements in §240.4(c)(5)(i) through (iii) of this part.
§ 240.6  Procedures.

(a) An applicant requesting assistance under those criteria for FY 1991 in §240.4(c) (1) through (4) of this part, shall submit the following:

(1) A letter of application (see sample in appendix A to this part).

(2) One original and two copies of table 8–3 and table 9, which are published by the DoED, from the following forms:

(i) ED Form 4019 (Revised 8/90 Page 8), ‘‘Fiscal Report For Sections 2, 3(d)(2)(B), and 3(d)(3)(B)(ii) Payment Purposes.’’

(ii) ED Form 4019 (Revised 8/90 Page 9), ‘‘Financial Burden and Effort Data.’’

(3) A copy of an independently audited financial report of the applicant LEA for the second preceding FY, requesting a contribution and ensuring the ADS(FM&P) that the LEA has applied for, has received, or shall receive all financial assistance from other sources for which it is qualified.

(4) The letter of application to the following address:

Assistant Secretary of Defense (Force Management and Personnel), Washington, DC 20301–4000.

(b) The applicant shall file a copy of the letter of application for financial assistance and required supportive information with the State educational agency (SEA). The SEA may submit comments on the LEA’s application to the Department of Defense (at the address in §240.6(a) of this part), by July 15, 1991. Such comments shall be considered, when applications are reviewed by the OSD.

(c) The application and all required supporting information must reach the ADS(FM&P) no later than June 30, 1991.

APPENDIX A TO PART 240—SAMPLE LETTER OF APPLICATION FOR FINANCIAL ASSISTANCE

Assistant Secretary of Defense (Force Management Personnel), Washington, DC 20301–4000

Dear Mr. Assistant Secretary:

We certify that the LEA has applied for financial assistance from all sources, including the State of (name). We understand that funds available for that purpose shall be paid on a per-pupil basis for military section 3(a) students only. Enclosed find an original, and two copies, of tables 8–3 and 9 from the ‘‘Application For School Assistance in Federally Affected Areas,’’ published by the U.S. Department of Education, and a copy of our independent audit ‘‘(title)’’ prepared by (name of firm or agency). We have submitted a complete and timely application for section 3 impact aid assistance to the Secretary of Education. A copy of this letter, with the above supporting information, is being submitted to the State educational agency.

Sincerely,

(Authorized LEA Official)

PART 242—ADMISSION POLICIES AND PROCEDURES FOR THE SCHOOL OF MEDICINE, UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES

Sec. 242.1 Purpose.

242.2 Applicability.

242.3 Definitions.

242.4 Policies.

242.5 Admission procedures.

242.6 Central point of contact.

242.7 Responsibilities.

242.8 Academic, intellectual, and personal requirements for admission to the first-year class.

242.9 Academic, intellectual, and personal requirements for admission to advanced standing.

242.10 Effective date and implementation.

SOURCE: 41 FR 5389, Feb. 6, 1976, unless otherwise noted.

§ 242.1 Purpose.

This part establishes policies and procedures and assigns responsibilities for the selection of entrants to the School of Medicine of the Uniformed Services University of the Health
Sciences (DoD Directive 5105.45, “Uniformed Services University of the Health Sciences,” April 16, 1974).1

§ 242.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments, the Uniformed Services University of the Health Sciences (USUHS), and the Department of Defense Medical Examination Review Board (DoD MERB).

§ 242.3 Definitions.

As used herein, the following definitions apply:

(a) Uniformed Services. As used herein, means the Army, Navy, Air Force, Marine Corps, and the Commissioned Corps of the Public Health Service.

(b) Military Personnel: For purposes of this Directive, “Military Personnel” shall include the following:

(1) Individuals currently on (or on orders for) active duty for a period of 90 days or more in any of the three Military Departments.

(2) Reserve component personnel enrolled in the Armed Forces Health Professions Scholarship Program.

(3) Persons enrolled in scholarship ROTC or advanced (junior-senior level) nonscholarship ROTC.

(4) Individuals in attendance at any of the three Military Department Service Academies.

(c) Federal-duty obligation. The obligation to serve on active duty in the Army, Navy, Air Force, or the Commissioned Corps of the Public Health Service.

(d) The program. Means the Medical School program of the Uniformed Services University of the Health Sciences.

(e) Member of the program. An individual who is enrolled in the School of Medicine of USUHS.

(f) Accredited institution. A college, university, or institution located in the United States or Puerto Rico or Canada, and accredited by an accrediting agency or association that is recognized for such purpose by the U.S. Commissioner of Education. Included within this definition are those institutions which are in the process of seeking accreditation and currently have provisional or conditional accreditation, or candidacy status for accreditation, based solely on the newness of the institution.

(g) Medical college admission test. A nationally standardized examination, administered by the American Medical College Testing Program, which is designed to measure general and specific aptitude for medical studies.

§ 242.4 Policies.

(a) The School of Medicine, USUHS, shall consider applications for admission from persons who:

(1) Are citizens of the United States;

(2) Are at least 18 years old at the time of matriculation, but have not become 28 years old as of June 30 in the year of admission. However, any student who has served on active duty in the Armed Forces may exceed the age limitation by a period equal to the time served on active duty provided that student has not become 34 years old by June 30 in the year of admission.

(3) Are not under 18 years of age at time of entry to the first-year class;

(4) Are of good moral character;

(5) Meet the physical qualifications and security requirements for a Regular commission in the Uniformed Services.

(i) Standards of medical fitness for commissioning in the Uniformed Services shall be chapter 5, AR 40–501 except for eyes and vision which shall be as prescribed in paragraphs 2–12 and 2–13, chapter 2.

(ii) Security requirements for commissioning in the Military Departments are prescribed in DoD Directive 5200.2.

(6) Meet the physical qualifications and security requirements for a Regular commission in the Uniformed Services.

(7) Are motivated to pursue a medical career in the Uniformed Services;

1Filed as part of original. Copies available from Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, Pa. 19120, Attn: Code 300.

2Army standards of medical fitness will be used as agreed to by the Secretaries of the Military Departments. AR 40–501 filed as part of original. Copies available at the Army Publications Counter, Rm 18928, The Pentagon, Washington, D.C. 20310.

3See footnote 1 to § 242.1.
§ 242.4

(a) Are not otherwise obligated or committed for service in the Army, Navy, Air Force or Marine Corps as a result of current or prior participation in programs of study or training sponsored by these Military Services. (Unless specifically prohibited by law or Department of Defense policy, individuals may be permitted to interrupt sponsored training programs and/or associated service commitments for the purpose of entering the School of Medicine, at the discretion of the appropriate Military Department sponsor. See also paragraph (e) of this section on obligated service requirements.)

(b) In making admissions decisions, the School will adhere to the principle of equal educational opportunity for all. Sex, race, religion, national origin, marital status, and State of residence shall not be factors influencing the selection process. Aspirants seeking entrance shall be judged strictly on merit, in terms of demonstrated aptitude, motivation, and potential for succeeding in medicine, both academically and professionally. Only the most promising and best qualified of the applicants shall be accepted for admission.
