(c) While enrolled in School, students shall serve on active duty as Reserve commissioned officers (Medical Officer Candidates), pay grade O-1, in one of the Uniformed Services, the Uniformed Service of assignment to be determined under procedures established by the Secretaries of the Military Departments and the Assistant Secretary of Defense Health Affairs in coordination with the President of the University. Applicants’ preferences shall be honored to the extent possible in making Service assignments. However, to insure that the makeup of each entering class is equitably constituted, students shall be assigned proportionally to the three Military Departments, based on projected end strengths of the individual Medical Corps at time of graduation. Students shall not be counted against any prescribed Service strengths while in School. Individuals admitted to the School of Medicine holding Regular commissions must resign their Regular appointments to enter the School.

(d) Upon satisfactory completion of the medical school program, graduates shall, if qualified, be tendered Regular Medical Corps appointments, unless otherwise covered under 10 U.S.C. 2115.

(e) Graduates of the School shall incur a Federal active-duty obligation of 21 months for each year or portion thereof spent in medical training, except that in no case will the minimum obligation be less than 27 months. Except as law or Department of Defense policy otherwise prescribes, this obligation shall be served consecutively with any other active-duty obligation.

(f) If dropped from the School for deficiencies in conduct or studies, or for other reasons, the student shall immediately be referred for disposition to the appropriate Military Department, which shall have the prerogative of either:

1. Requiring the individual to fulfill his incurred service obligation, as stated in the Uniformed Services Health Professions Revitalization Act of 1972 (10 U.S.C., 2101 et seq.), by performing duty in some appropriate capacity, as determined by the Secretary of the Military Department concerned. (In no case shall any such member be required to serve on active duty for any period in excess of a period equal to the period he participated in the program, except that in no case may any such member be required to serve on active duty less than one year.); or

2. Waiving the individual’s incurred service obligation, if that action would be in the best interests of that Service. (Such relief, though, shall not relieve the individual from any other active-duty obligation imposed by established law.) Individuals whose service obligation is waived may, at the discretion of the Secretary of the Military Department concerned, be required to reimburse the Government for all or a part of the tuition and other educational costs incurred. However, a member of the program may not be relieved of his Service obligation solely because he is willing and able to reimburse the Government for all educational expenses.

(g) Periods of time spent in sponsored graduate medical education shall not count toward satisfying the medical school Federal-duty obligation.

§ 242.8 Academic, intellectual, and personal requirements for admission to the first-year class.

Admission to the School of Medicine of the Uniformed Services University of the Health Sciences is on a competitive basis, with selection predicated on:

(a) Evidence of sound character and high motivation for a career in the Medical Corps of the Uniformed Services, and

(b) Evidence of sufficient intellectual ability and preparation to undertake successfully the study of medicine.

(1) Academic requirements. Recognizing that Service medicine needs individuals with a wide variety of interests and talents, the School of Medicine welcomes applications from individuals with a diversity of educational backgrounds. However, there are certain specific academic requirements that are requisite for admission. These are as follows:

(i) College preparation. All applicants must have attained a baccalaureate degree from an accredited academic institution prior to matriculation.

(ii) Prerequisite course work. Area of specialization in college is not a limiting factor in gaining admission to the School, but a strong foundation in the sciences basic to the study of medicine is a requirement for all entering students. The minimum undergraduate science prerequisites for entrance are:

(a) Chemistry (inorganic or general). 1 academic year including appropriate laboratory.

(b) Organic chemistry. 1 academic year including laboratory.

(c) Mathematics. 1 academic year.

(d) Physics. 1 academic year including laboratory.

(e) Biology. 1 academic year including laboratory.

An academic year of course work equates to that course work which extends over a two-semester or three-quarter period and carries a total credit of between 6 to 8 semester hours or 9 to 12 quarter hours. No application will be considered unless the applicant has completed the science prerequisites or is in the process of completing the last 8 semester hours (or 12 quarter hours) of these courses at time of making application.
In addition to the science requirements, all applicants must complete 6 semester hours (or the equivalent) of college English before matriculating. While the foregoing represent the minimum academic prerequisites for admission, preference generally will be shown to applicants who also have had some college course work in the humanities and/or the social and behavioral sciences, for these disciplines complement the study of medicine, contributing to an understanding of human behavior both in sickness and health.

(2) Testing requirements. Applicants for admission are required to have taken the Medical College Admission Test.

(3) Evidence of character and motivation. Judgments about character and motivation will be based on letters of reference, personal statements, evaluation reports, personality inventories, interviews, and such other credentials/techniques necessary, as determined by the School of Medicine, to assess thoroughly the noncognitive nature and potential of the aspirant. The School of Medicine will take the initiative in gathering data upon which to make noncognitive assessments of applicants.

§ 242.9 Academic, intellectual, and personal requirements for admission to advanced standing.

(a) Selection of students to advanced standing will be competitive, based on both cognitive and noncognitive factors. Demonstrated aptitude and motivation for a career in medicine in the Uniformed Services will be prime considerations in making admissions decisions. Only the most promising of candidates will be accepted, as judged by scholastic records, letters of recommendation, interviews, and such other credentials and/or appraisal techniques as may be deemed appropriate to use by the School of Medicine.

(b) To be eligible academically for admission to advanced-standing, applicants must have successfully completed the year of medical studies preceding the year in which they desire advanced placement. Only students from fully accredited medical schools will be eligible for transfer.

(c) Individuals who have received the D.D.S., D.M.D., Ph.D., D.O., or D.V.M. degrees, or candidates for these degrees will not be eligible for advanced placement in the School of Medicine at this time. They will only be considered for admission to the Freshman class. Advanced standing applicants are required to have taken the Medical College Admission Test.

§ 242.10 Effective date and implementation.

This part will become effective immediately. Three copies of proposed implementing regulations shall be forwarded to the Assistant Secretary of Defense Health Affairs within 30 days.

§ 242a.4 Grounds on which meetings may be closed, or information may be withheld.

Except in a case where the Board or a committee finds that the public interest requires otherwise, the open meeting requirement set forth in the second sentence of §242a.3(a) shall not apply to any portion of a Board or committee meeting, and the informational disclosure requirements of §§242a.5 and

Procedure for announcing meetings.

§ 242a.6 Procedure for closing meetings.

(c) A single vote of the Board or committee may be taken with respect to a series of meetings, a portion or portions of which are proposed to be closed to the public, or with respect to any information concerning such series of meetings, so long as each meeting in such series involves the same particular matters and is scheduled to be held no more than 30 days after the initial meeting in such series.

(d) The vote of each member shall be recorded, and may be by notation voting, telephone polling or similar consideration.

(e) Whenever any person whose interests may be directly affected by a portion of a meeting requests that the Board or a committee close such portion to the public under any of the exemptions relating to personal privacy, criminal accusation, or law enforcement information referred to in §242a.4 (e), (f), and (g), the Board or committee, as applicable, upon request of any one of its members, shall vote by recorded vote whether to close such meeting. Where the Board receives such a request prior to a meeting, the Board’s representative may ascertain by notation voting, or similar consideration, the vote of each member of the Board, or committee, as applicable, as to the following: (1) Whether the business of the Board or committee permits consideration of the request at the next meeting, and delay of the matter in issue until the meeting following; or (2) Whether the members wish to close such meeting.

§ 245.3 The SCATANA Plan.

(a) Purpose. The purpose of this part is to establish responsibilities, procedures and instructions for the security control of civil and military air traffic and NAVAIDS which will provide for the most effective use of airspace under various emergency conditions.

(b) Authority. (1) The Joint Chiefs of Staff directives which outline NORAD responsibilities for the development of plans and policies in concert with the FAA and FCC for the establishment of a system for identification and security control of air traffic and air NAVAIDS.

(2) Federal Aviation Act of 1958, as amended.

(3) Communications Act of 1934, as amended.

(4) Executive Order 11490.

(c) Scope. This part applies to all United States territory over which the FAA has air traffic control jurisdiction. For the purpose of this part, the appropriate military authorities within this territory are as follows:

(i) For the NORAD area of responsibility, NORAD region commanders have been designated as appropriate military authority by CINCNORAD.

(ii) Outside the NORAD area, the commander, or his designated representative, of the unified-specified command exercising operational control over the area.

(d) General description of the plan. This part is intended to meet two types of situations. These are outlined below, together with a general summary of the actions required.

(1) In the first situation, an emergency may develop which does not meet the criteria for the declaration of a Defense Emergency or Air Defense Emergency, but in the interests of hemispheric and national security requires identification and control of all aircraft operating in the defense area, its coastal approaches or any parts of these areas. Under such conditions, the following actions, which are described in more detail in §245.3, will be taken:

(i) The appropriate military authority will direct the FAA Air Route Traffic Control Center (ARTCC) concerned to apply Emergency Security Control of Air Traffic (ESCAT) in the affected area.

(ii) The ARTCC will advise all aircraft operating under its control and relay ESCAT implementation instructions to appropriate aeronautical facilities within its area that ESCAT rules have been applied and will then issue any special security instructions which are required to identify, locate and ensure immediate control of all air traffic.

(iii) When ESCAT is applied, all aircraft must file IFR or DVFR flight plans and comply with the special security instructions issued. These instructions may require diverting or rerouting airborne flights and, using a system of security control authorizations, restrictions to proposed flights not already airborne.

(2) In the second situation, an emergency will have arisen which has resulted in the declaration of Defense Emergency outside the NORAD area, Air Defense Emergency within the NORAD area, or both of these. Under such conditions the following actions, described in detail in §245.5, will be taken:

(i) The appropriate military authority will direct the FAA ARTCC concerned to implement Security Control of Air Traffic and Air Navigation Aids (SCATANA).
(ii) The ARTCC will relay SCATANA implementation to appropriate aeronautical facilities, will direct all VFR traffic under its control to land and file an IFR/DVFR flight plan, and will implement other directions specified by the appropriate military authority. These may include grounding, diversion and other restrictions to flight, plus the control of navigation aids.

(iii) Aircraft movements will be controlled by the use of the WATPL except for specific exceptions which will be controlled by using a Security Control Authorization.

(iv) The NORAD Region in its transmission of SCATANA air traffic control instructions to the ARTCC will clearly state which WATPL Numbers are authorized to operate. This information will also include any special authorizations for operations under Security Control Authorizations procedures (see §245.8).

(e) Amplifying Instructions—(1) Interference with normal air traffic. This will be minimized, consistent with the requirement for operation of the air defense system.

(2) Supplements for essential civil air operations. Appropriate Unified-Specified commands, in collaboration with the FAA region directors will prepare annexes and agreements supplementing this plan for their area of responsibility. These supplements are to consider the special requirements of organized civil defense and disaster relief flights, agricultural and forest fire flights, border patrol flights and other essential civil air operations to the end that maximum use of these flights, consistent with air defense requirements will be made when SCATANA and ESCAT are in effect.

(3) Vital military flights to have priority. Military air operations vital to national defense are to be given priority over all other military and civil aircraft through procedural handling by the Air Traffic Control (ATC) systems as specified in coordinated agreements or authorizations for particular operations (see §245.8).

(4) One Military authority to direct ARTCCs. In consonance with this plan, appropriate military authorities will direct the extent of security control of air traffic and air navigation aids as required by the military situation. Such directions will be issued to appropriate FAA ARTCCs for implementation. The area of responsibility of the appropriate military authority may not be congruent with ARTCC boundaries, especially in the NORAD area where one ARTCC's boundaries may lie within two or more NORAD regions. To prevent confusion, agreements will be developed between appropriate military authorities and the ARTCCs concerned to ensure that each ARTCC receives direction from one military authority only. Unless operational requirements dictate otherwise, directed SCATANA actions will be consistent throughout an individual ARTCC area.

(5) Tactical air movements plans. To assist appropriate military authorities in making a preliminary assessment of wartime air traffic patterns and to simplify the transition to SCATANA operations, major commands are to coordinate the air traffic movement section of their Emergency War Plans (including dispersal and evacuation) and preposition flight plan information with appropriate military authorities. This authority is the NORAD region commander within the NORAD area of responsibility. Detailed requirements are explained in §245.6.

(6) Testing procedures. To insure that implementing actions can be taken expeditiously, SCATANA tests will be conducted periodically in accordance with §245.10.

(7) Dispersal actions. Prior to or subsequent to the declaration of a Defense Emergency or an Air Defense Emergency, there may be a requirement to disperse civil and military aircraft for their protection. If such dispersal plans are implemented when any part of this plan has been placed in effect, operations will be in accordance with the requirements of that portion of the SCATANA plan which is in effect. If any part of the SCATANA plan is ordered while dispersal is in progress, dispersal operations will be revised as required to comply with SCATANA.

(8) Communications. Direct communications are authorized between appropriate agencies and units for the purpose of coordinating and implementing the procedures in this plan.
§ 245.3

(9) Review and revision. All concerned agencies are encouraged to continuously monitor this plan for adequacy and currency. Hq NORAD, acting as executive agent for DoD, will process and distribute administrative and organizational changes as they occur. However, this plan will be reviewed at least once every two years by FAA, FCC, and NORAD and reissued or changed as required. Recommended changes should be forwarded to:

Headquarters, North American Air Defense Command,
Ent Air Force Base, Colorado 80912.

(f) Responsibilities. (1) The Commander in Chief, NORAD will:

(i) Establish the military requirements for the Security Control of Air Traffic and Air Navigation Aids.

(ii) Coordinate with the Administrator, FAA, and the Defense Commissioner, FCC, as appropriate, regarding the establishment of procedures for implementation.

(2) The Administrator, FAA will:

(i) Promulgate the necessary FAA directives/plans, including special ATC procedures to implement this plan.

(ii) Coordinate with appropriate military authorities prior to the establishment of procedures for this plan.

(iii) Maintain liaison with appropriate NORAD region commanders through appropriate FAA offices.

(iv) Administer this plan in accordance with requirements established by the Commander in Chief, North American Air Defense Command.

(v) Collaborate with the FCC in establishing procedures for control of non-Federal NAVAIDS as defined in this plan.

(3) Federal Communications Commission will:

(i) Engage in rule making or other actions as appropriate in support of this plan.

(ii) Collaborate with the FAA in establishing procedures for control on non-Federal NAVAIDS as defined in this plan.

(4) Appropriate Military Authorities will:

(i) Direct the control of NAVAIDS (VOR, VORTAC, TACAN and LORAN) in their areas, as required.

(ii) Issue security control instructions to appropriate FAA region/ARTCC as necessary to insure performance of their air defense mission.

(iii) Maintain liaison with appropriate FAA regional directors and FCC Regional Liaison Officers.

(iv) Conduct tests of this plan in coordination with the FAA and FCC.

(v) Collaborate with the FAA regional director and FCC Regional Liaison Officer in making supplemental agreements to this plan.

(5) The FAA Regional Directors will:

(i) Assure FAA participation with the NORAD region commanders in the testing of this plan in the NORAD region areas.

(ii) Ensure dissemination of information and instructions concerning the plan within their areas of responsibility to civil and military aeronautical facilities and civil pilots.

(iii) Place in effect procedures outlined in this plan in accordance with requirements established by appropriate military authorities.

(iv) Assist appropriate military authorities in making supplemental agreements to this plan as may be required.

(6) The FCC Regional Liaison Officers will:

(i) Maintain liaison with the NORAD region commanders and FAA regional directors with regard to participation of FCC licensed aeronautical navigational aids in this plan.

(ii) Disseminate information and instructions concerning this plan to FCC licensed navigational aids affected by this plan.

(iii) Assist the NORAD region commanders in making such supplemental agreements to this plan as may be required.

(7) Commanders of Responsible Major Commands will:

(i) Ensure that the air traffic movement sections of the Emergency War Plans are coordinated with appropriate military authorities.

(ii) Ensure that flight plans in support of their coordinated Emergency War Plans are prepositioned with appropriate military authorities and the FAA. (See §245.6).

(iii) Identify specific NAVAIDS (VOR, VORTAC, TACAN and LORAN) which are essential to support contingency operations of assigned forces.
§ 245.3 during implementation of SCATANA. The appropriate military authority will, except under actual emergency air defense situations, ensure that such air NAVAIDS within their area of responsibility remain in operation. Control of LORAN C will be in accordance with the JCS Master Navigation Plan (SM 525-XX). If actual emergency air defense situations require shutdown of these air NAVAIDS, the appropriate military authority will immediately notify the respective commander of the affected major command of the shutdown.

§ 245.4 Application of Emergency Security Control of Air Traffic (ESCAT).

(a) Situation. Emergency conditions exist which threaten national security but do not warrant the declaration of Defense Emergency, Air Defense Emergency or the control of air NAVAIDS.

(b) Intention. To provide for the most effective use of airspace in the affected area by:

(1) Ensuring that the position of all friendly air traffic is known and can be contacted by radio, if necessary.

(2) Controlling the density of air traffic operating in airspace critical to the conduct of air defense operations.

(c) Application. (1) The appropriate military authority will take the following actions:

(i) Direct the affected ARTCCs to apply ESCAT.

(ii) Specifically define the affected area.

(iii) Define the types of restrictions to be placed in effect. These may require the diverting and rerouting of traffic, the restricting of traffic to certain areas or corridors, and the initiating of a requirement to obtain a Security Control Authorization prior to take-off.

(iv) Within NORAD, the region commander will advise CINCNORAD who will then advise the Administrator, FAA and the Defense Commissioner, FCC, that ESCAT has been applied. Outside NORAD the appropriate military authority will advise the Administrator, FAA and the Defense Commissioner, FCC directly. When time is vital notification may occur after ESCAT has been implemented.

(v) Direct the appropriate ARTCCs to relax or terminate restrictions as the tactical situation allows.

(2) ARTCCs will take the following actions when directed to apply ESCAT:

(i) Disseminate ESCAT instructions and restrictions received to air traffic, civil and military air traffic control facilities, flight service stations and other appropriate aeronautical facilities.

(ii) Impose the restrictions on air traffic as directed by the appropriate military authority. The restrictions will automatically include instructions for all VFR traffic to land at the nearest suitable airport and file an IFR/DVFR flight plan.

(iii) Civil and military air traffic control facilities, and other aeronautical facilities will disseminate to air traffic and aircraft operators, and will implement, those instructions and restrictions received from the ARTCCs. When an IFR or DVFR flight plan has been filed, it will be examined by the appropriate aeronautical facility to ensure that it conforms with the ESCAT restrictions placed in effect by the appropriate military authority. When a flight plan does conform with the ESCAT restrictions, the appropriate aeronautical facility will grant a Security Control Authorization and the flight can then be given take-off clearance. When a flight plan does not conform with the ESCAT restrictions, a Security Control Authorization will not be given and take-off clearance will be denied.

(iv) The pilot in command will take the following actions when ESCAT is applied:

(a) If airborne, comply with the instructions issued by the appropriate aeronautical facility.

(b) If not airborne, file an IFR or DVFR flight plan prior to take-off and comply with the instructions issued by the appropriate aeronautical facility.

(c) Aircraft which are not radio equipped may not file an IFR or DVFR flight plan and will not be permitted to operate in areas affected by ESCAT.
§ 245.5 Implementation of Security Control of Air Traffic and Air Navigation Aids.

(a) Situation. Three types of situations may require the implementation of SCATANA.

(1) In the first of these, an emergency has arisen which has resulted in the declaration of an Air Defense Emergency within the NORAD area. Under this condition SCATANA will be automatically implemented.

(2) In the second situation, which applies only to NORAD, a NORAD region commander may direct implementation of SCATANA for his region when his region or an adjacent region is under attack and Air Defense Emergency has not yet been declared.

(3) In the third situation, an emergency has arisen which has resulted in the declaration of a Defense Emergency outside the NORAD area. Under this condition, SCATANA may be considered for implementation.

(b) Intention. To provide for the most effective use of airspace by aircraft of civil and military agencies by:

(1) Exercising security control of civil and military aircraft entering, departing or moving within the U.S. areas and their coastal approaches.

(2) Selectively limiting air traffic, consistent with air defense requirements.

(3) Exercising control over the following air navigation systems: VOR, VORTAC, TACAN and LORAN.

(c) Implementation. (1) The appropriate military authority will take the following actions:

(i) Direct the appropriate ARTCC to implement SCATANA.

(ii) Specify what restrictions are to be implemented, such as:

(a) Routing restrictions on flights entering or operating within appropriate portions of the defense area.

(b) Restrictions for the volume of air traffic within the defense area, using the WATPL (See §245.8) and Security Control Authorizations.

(c) Altitude limitations on flight operations in selected areas.

(d) Special instructions concerning the control of accurate navigation aids which permit their use for friendly aircraft operations. This includes continued operation, as long as the actual air defense situation permits, of those air NAVAIDS essential to support other major command contingency operations.

(e) Confirmation or modification of previous instructions which may have been implemented with the application of ESCAT.

(iii) Revise or remove restrictions to the movement of air traffic and control of air navigation aids as the tactical situation permits.

(2) ARTCCs will take the following actions when directed to implement SCATANA:

(i) Disseminate SCATANA implementation instructions to civil and military air traffic control facilities and other appropriate aeronautical facilities.

(ii) Impose the restrictions on air traffic as directed by the appropriate military authority. The restrictions will automatically include instructions for all VFR traffic to land at the nearest suitable airport and file an IFR or DVFR flight plan. Landing, diversion or dispersal of traffic, when ordered, will be to airports outside of metropolitan areas or likely target complexes whenever possible. Instructions will be passed over normal air/ground/air radio channels.

(iii) As directed by the appropriate military authority, implement the control of VOR, VORTAC, TACAN, and LORAN as follows:

(a) Shut down the above navigation aids in accordance with the military command/FAA region supplemental agreements. These shall permit time to land/disperse airborne aircraft, and shall provide for the extension of such times when the air traffic situation dictates.

(b) Aids which require more than five minutes control time shall be shut down as soon as possible, except when directed otherwise by the appropriate military authority, or unless such aids are essential for the regulation and control of existing air traffic.

(c) Direct the control of air navigational aids to ensure that required aids, as indicated in flight plans, will be available for authorized aircraft flights.

(iv) When directed to reduce or remove SCATANA restrictions, authorize
resumption of air traffic and operation of air navigation aids as specified by the appropriate military authority.

(3) Civil and military air traffic control facilities, and other appropriate aeronautical facilities will:

(i) Maintain the current SCATANA ACTION Form for that facility at appropriate operating positions.

(ii) When SCATANA is implemented or terminated, take the actions indicated on the facility’s SCATANA ACTION Form.

(iii) Maintain current information on the status of restrictions imposed on air traffic.

(iv) Approve or disapprove filed flight plans in accordance with current instructions received from the ARTCCs. Approval will indicate that the flight is permitted under the WATPL priority currently in effect or that the flight has been granted a Security Control Authorization.

(v) Forward flight plans and approval requests to the ARTCC as required.

(vi) Disseminate instructions and restrictions to air traffic as directed by the ARTCCs.

(4) The pilot in command will conform to security control instructions as follows:

(i) IFR flights—comply with instructions received from the appropriate aeronautical facility.

(ii) VFR flights—land at the nearest suitable airport when so directed.

(iii) Aircraft on the ground—file an IFR or DVFR flight plan with the proper FAA facility and receive approval prior to departure.

§ 245.6 Tactical Air Movement Plans.

(a) Situation. In a situation when Emergency War plans and other contingency plans are being implemented, the large volume of tactical air traffic generated is likely to result in conflicting requirements for the available airspace. It is obvious that such conflicts should be minimized in order to prevent saturation of the air defense system, yet at the same time permit the orderly execution of the various contingency plans. To this end, it is essential that responsible military commanders coordinate fully with the appropriate military authorities responsible for air defense to ensure that conflicting situations can be resolved while emergency plans are still under development. The provisions of this section do not apply to Strategic Air Command (SAC) Emergency War Orders (EWOs) for which special coordination has been effected between SAC, NORAD and FAA agencies.

(b) Intention. To establish coordination procedures necessary to fulfill air defense and air traffic control requirements for the movement of tactical air traffic and identify specific air NAVAIDS which are essential to support contingency operations of major command forces during implementation of SCATANA.

(c) Execution. (1) Commanders of Major Commands (or “Responsible Military Commanders”) are to ensure that:

(i) The air traffic movement sections of their Emergency War Plans (including dispersal, evacuation and other related contingency plans) and the specific air NAVAIDS essential to support contingency operations are fully coordinated during development with the appropriate military authority responsible for air defense. In the NORAD area of responsibility the authority is the NORAD region commander. When flights will transit more than one region, coordination must be effected with all of the region commanders involved. The NORAD region commander will effect necessary coordination on those tactical operations with the FAA through the Region Air Defense Liaison Officer (RADLO).

(ii) Subsequent to the coordination required in the paragraph (c)(1)(i) of this section, extracts of the air traffic movement section of their plans are to be passed to the appropriate military authorities. The extracts are to be prepared according to the format shown in §245.7. In the NORAD area of responsibility the extracts are to be sent to the Commander of the NORAD region in which the flights originate.

(2) Responsible military authorities will:

(i) During the coordination phase, ensure that proposed aircraft movements do not conflict in time, altitude, route or any other respect with other
planned movements. Potential conflicts are to be resolved through negotiations with the commands involved.

(ii) On receipt of the tactical air movement plan extracts, review again their impact on the overall air situation, incorporate the extracts into the unit SCATANA plan, as supplements, and distribute the extracts to appropriate military agencies, FAA regions and ARTCCs.

   (iv) FAA flight inspection aircraft.
   (v) Foreign civil air carrier aircraft in the U.S. in accordance with specific international agreements.
   (vi) Public aircraft assigned to FAA and other Federal agencies.

(5) **Priority Five.**
   (i) The air transport of military commanders, their representatives, and DoD sponsored key civilian personnel which is of the utmost importance to national security, or which will have an immediate effect upon combat operations of the Armed Forces.
   (ii) Dispersal of nontactical military aircraft for their protection.

   (ii) Public aircraft assigned to FAA and other Federal agencies.
   (iii) Other essential CARDA missions not included in paragraph (c)(3)(i) of this section.
   (iv) Flight inspection activity in connection with airway and airport facilities.

(7) **Priority Seven.** Other military flight operations.

(8) **Priority Eight.** All other flight operations not specifically listed above.

(d) **Policy for Application of WATPL.**
   (1) The restrictions embodied in the WATPL will apply to all aircraft except those in receipt of a Security Control Authorization.
   (2) Priority will be solely dependent on the nature of the aircraft’s mission. Operational test flights will take the priority of the mission aircraft tested.
   (3) The originator of a request for aircraft movement will be responsible for determining and verifying the appropriate priority in accordance with the list described above.
   (4) The individual filing the flight plan will be responsible for including the priority number as determined by the originator of the request.
   (5) During general war conditions, situations may occur which cannot be related to the WATPL. Aircraft emergencies and inbound international flights which have reached the point of no return, including foreign air carrier flights enroute to safe haven airports in accordance with specific international agreements are examples of such situations. These incidents must be treated individually through coordination between ATC and appropriate military agencies in consideration of the urgency of the inflight situation and existing tactical military conditions.
   (6) During periods other than general war, aircraft movements are handled as follows:
      (i) Involvement in limited war or execution of contingency plans, to include JCS directed actions, immediately makes successful completion of such action a primary national objective. Therefore, aircraft movements in support of these actions will be afforded expeditious handling by the ATC system commensurate with the degree or urgency stated by the JCS to the FAA. When directing the execution of a contingency/limited war plan, or other JCS directed operation which is in pursuit of primary national objectives, the JCS will so advise the FAA (or appropriate Canadian authority if Canadian airspace is involved), requesting that aircraft operating in accordance with such plans be given preferential handling over all air traffic except active air defense missions and launch of the strategic alert force and supporting aircraft. Should contingency, limited warfare, or other JCS directed operation which is in pursuit of primary national objectives, the JCS will so advise the FAA (or appropriate Canadian authority if Canadian airspace is involved), requesting that aircraft operating in accordance with such plans be given preferential handling over all air traffic except active air defense missions and launch of the strategic alert force and supporting aircraft. Should contingency, limited warfare, or other JCS directed plans be executed concurrently by more than one operational commander, the JCS will state to the FAA (or appropriate Canadian authority when Canadian airspace is involved), and the military commanders concerned, the relative urgency of each operation and will resolve conflicts that may arise therefrom.
(ii) Assignment of reserved airspace to accommodate military air operations which, because of their objectives, cannot be conducted in accordance with routine ATC procedures will be based upon an order of precedence for the purpose of resolving mission conflicts in planning altitude reservations. This order of precedence is published in appropriate Joint Service Regulations and FAA documents.

(7) Priorities for air traffic clearances required under the SCATANA plan are not to be confused with civil priorities assigned to civil air carrier aircraft under the WASP priorities system, or to general aviation civil aircraft under the SARDA plan. WASP and SARDA priorities are designed to provide for controlled use of civil aircraft capability and capacity, and they have secondary significance when the WATPL for the movement of aircraft is in effect.

§ 245.9 Procedures for movement of air traffic.

(a) Situation. The primary instrument used by NORAD region commanders to control the volume of air traffic operating within their areas of responsibility is the WATPL for Movement of Air Traffic (§245.8).

(b) Intention. To establish procedures necessary for the expeditious movement of tactical air traffic during periods when SCATANA is in effect.

(c) Execution. (1) Tactical air traffic assigned a WATPL number of 1 or 2 will not be delayed, diverted, rerouted, or landed by NORAD region commanders. However, NORAD region commanders may recommend that this traffic be rerouted to avoid battle or battle threatened areas.

(2) Air traffic assigned a WATPL number other than 1 or 2 may be delayed, diverted, rerouted, or landed by the NORAD region commander to prevent degradation of the air defense system.

(3) Aircraft being “recovered” will be expedited to home or alternate base, and “search and rescue” aircraft expedited on their missions; but such aircraft may be diverted to avoid battle areas or take off may be delayed to prevent saturation of airspace.

(4) Tactical air traffic will file IFR flight plans and comply with IFR procedures regardless of weather. The appropriate WATPL number will be entered in the Remarks section in the Aircraft Clearance Form DD 175. The WATPL number will be posted on ARTCC flight strips passed from one ARTCC to the next, and to the appropriate air defense control facilities.

(5) For mass military operations a single clearance form will be filed and ALTRAV procedures will be applied.

(6) Compliance with approved flight plan and position report requirements is of utmost importance for identification. Aircraft aborting or deviating from an approved flight plan will air-file a revised flight plan as soon as the necessity for such deviation is evident. Unauthorized deviations may preclude identification and result in engagement by defensive weapons.

(d) Special operations. (1) The volume of air traffic in areas critical to air defense can be controlled by means of the WATPL. In areas that are not critical to air defense or in areas of poor or no radar coverage, the appropriate military authority may wish to authorize additional specific flights which may not qualify for a high enough priority under the WATPL. When ESCAT or SCATANA have been implemented the appropriate military authority may authorize flights by granting a Security Control Authorization to the ARTCC or agency requesting the clearance.

(2) The following flights may require the granting of a Security Control Authorization prior to take off:
   (i) Organized civil defense missions.
   (ii) Disaster relief flights.
   (iii) Agricultural and forest fire flights.
   (iv) Border patrol flights.
   (v) SARDA flights prior to WATPL Six.

§ 245.10 SCATANA testing.

(a) Situation. To insure that SCATANA actions can be taken expeditiously, SCATANA tests will be conducted periodically.

(b) Intention. (1) SCATANA tests will be conducted in connection with Headquarters NORAD or NORAD region
large-scale simulated exercises. Additional tests may be conducted by individual NORAD regions when test objectives are local in nature.

(2) All Federal facilities responsible for SCATANA actions will participate in SCATANA tests, except where such participation will involve the safety of aircraft. Non-federal civil aeronautical facilities may be requested to participate.

(c) Execution. (1) During SCATANA tests, all actions will be simulated.

(i) Aircraft will not be grounded or diverted.

(ii) Air navigation aids will not be shut down.

(iii) Test messages will not be transmitted over air/ground/air radio frequencies.

(iv) Radio communications will not be interrupted.

(2) For NORAD Exercises.

(i) If ESCAT is applied by CINC NORAD, this fact will be passed to the Region SCATANA Officer in plain language. Region SCATANA officers may call or simulate calling the appropriate ARTCC using the following statement:

This is a NORAD exercise. Apply ESCAT. ARTCC acknowledge and take no further action.

(ii) If ESCAT is applied or SCATANA is implemented by the Region Commander, the Region SCATANA Officer may simulate the call or may make an actual call using the format shown in paragraph (c)(2)(i) of this section, and inserting ESCAT or SCATANA as appropriate.

(3) SCATANA Test. This is a test conducted by ARTCC’s in which SCATANA participants conduct simulated notification actions required by the plan. Timing of the test will be at the discretion of the ARTCC. A narrative summary of each test is to be prepared by the ARTCC MLO and copies sent to appropriate NORAD Region SCATANA Officer, FAA Region MLO, FAA NORAD RDLO and FAA NORAD Hq LO. FAA NORAD Hq LO will be responsible for reviewing the SCATANA tests reports and recommending changes to the testing procedures to Hq NORAD as deemed appropriate. The SCATANA tests will be conducted at least quarterly.

(4) SCATANA Diversion Simulation. This is a test designed to exercise ARTCC personnel in making decisions on aircraft diversion which would be required under actual implementation of the plan. The timing of the simulation will be pre-coordinated between the ARTCCs and the NORAD Region SCATANA Officer. The guideline timeframe for the area recovery of all non-essential air traffic in actual operations has been fixed at an optimum of twenty minutes; diversion simulation exercises should operate on a similar timeframe. Tests will be conducted at least semi-annually.

(i) The NORAD region will provide charts to the ARTCC for the recording of simulated aircraft diversions. The completed charts will be passed to the NORAD Region SCATANA Officer for analysis. The NORAD Region SCATANA Officer will brief region staffs on the results of the exercise and FAA representation will be invited.

(ii) The charts will record the position of all live aircraft on IFR clearances in the ARTCC’s area at the time ESCAT was simulated, the position of all aircraft when SCATANA was simulated, and will show the airports to which simulated diversions were made.

§ 245.11 Authentication.

Authentication is not required between NORAD Region Control Centers and ARTCCs for the implementation of SCATANA.

APPENDIX E TO PART 246—STARS AND STRIPES (S&S) BOARD OF DIRECTORS
§ 246.1 Purpose.

This part:

(a) Establishes policy, assigns responsibilities, and prescribes procedures for the S&S organizations owned by designated Unified Commands consistent with 32 CFR part 372.

(b) Supersedes policies and procedures in 32 CFR part 247 about the S&S newspapers.

(c) Authorizes the establishment, management, operation, and oversight of the Stars and Stripes, including the resale of commercial publications necessary to support the overall S&S mission, production, distribution authority, and business operations as mission-essential activities of the Department of Defense and the designated Unified Commands.

(d) Designates the Secretary of the Army as the DoD Executive Agent for providing administrative and logistical support to the American Forces Information Service (AFIS), designated Unified Commands, and the S&S.

(e) Authorizes the Commander in Chief, U.S. European Command, and the Commander in Chief (CINC), U.S. Pacific Command, to establish and maintain a S&S board of directors to address S&S business operations in their Unified Commands.

§ 246.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments (including their National Guard and Reserve components), the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Unified and Specified Commands, the Inspector General of the Department of Defense, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “the DoD Components”). The term “the Military Services,” as used herein, refers to the Army, the Navy, the Air Force, and the Marine Corps.

§ 246.3 Definitions.

(a) Adverse Conditions. Conditions that may adversely affect the survival of the newspapers such as troop drawdown, increase in troop population, currency fluctuations, inflation, armed conflict, national contingency deployment, and others.

(b) S&S Commander/Publisher. The senior position in each S&S responsible for simultaneously performing dual functions. This military officer commands the S&S to which assigned, while also serving as the publisher of the Stars and Stripes produced by that organization.

(c) S&S Management Action Group (MAG) and S&S Steering Committee. These are ad hoc joint committees between the Office of the Assistant Secretary of Defense (Public Affairs) [OASD (PA)] and the Office of the Assistant Secretary of Defense (Force Management and Personnel) [OASD (FM&P)] that address S&S personnel and business policies. The S&S MAG is chaired by the senior OASD (PA) AFIS member and includes members from the OASD (PA) and other DoD offices with the authority and expertise to address various S&S problems. The Director of the AFIS, and the Deputy Assistant Secretary, OASD (FM&P), serves as co-chairman of the S&S Steering Committee that addresses DoD-level S&S issues. Neither the DoD S&S Steering Committee, nor the S&S MAG, involve themselves in Stars and Stripes editorial policies.

(d) S&S Ombudsman. A highly qualified journalist hired from outside the Department of Defense for a term of 3 years who independently advises the Unified Command CINCs, the S&S commander/publisher, the Stars and Stripes editor, the Director of the AFIS, and the Congress on matters of readership interest in the Stars and Stripes.

(e) Stars and Stripes. The title of one, or both, depending on the context of usage, of the newspapers produced by the S&S.

(f) Stars and Stripes Editor. The senior civilian position on the newspaper editorial staff of the S&S to which he or she is assigned. All mention of “the editor” in this part refers exclusively to this position, unless otherwise specified.

(g) Stars and Stripes (S&S). The organizations that perform the administrative, editorial, and business operations,
Office of the Secretary of Defense § 246.4

which include newspapers, bookstores, job-printing plants, etc. necessary to do their mission.

§ 246.4 Policy.

It is DoD policy that:

(a) The U.S. European Command and the U.S. Pacific Command are authorized to publish the Stars and Stripes and provide support to the S&S. The Unified Command component commanders and their public affairs staffs shall provide the Stars and Stripes editorial staffs the same help provided to commercial newspapers, in compliance with the principles governing the release of information to media in 32 CFR part 375.

(b) Editorial policies and practices of the Stars and Stripes shall be in accordance with journalistic standards governing U.S. daily commercial newspapers of the highest quality, with emphasis on matters of interest to the Stars and Stripes readership. Except as provided in paragraph (e) of this section, the DoD policy for the Stars and Stripes is that there shall be a free flow of news and information to its readership without news management or censorship. The calculated withholding of unfavorable news is prohibited.

(c) The S&S are basically self-sustaining operations. Each S&S shall be administered in accordance with DoD Directive 1015.1 as a joint-Service non-appropriated fund (NAF) instrumentality (NAFI) in its Unified Command, except where different procedures are specified in this part. Funding shall be provided through newspaper sales, resale of commercial publications, authorized advertising, job printing, and appropriated fund (APF) support as authorized by this part, DoD Directive 1015.6 and DoD Instruction 1330.18. The S&S shall conduct bookstore operations similar to business operations of commercial bookstores in the United States. The Stars and Stripes and the S&S bookstores provide important news and information to U.S. personnel and their families stationed overseas while generating NAF revenues.

(d) The Stars and Stripes personnel procedures shall differ from commercial newspapers only because the S&S are U.S. Government organizations that are required to operate in accordance with the following:

(2) National security constraints prescribed by E.O. 12356 (47 FR 14874 and 15557, 3 CFR, 1982 Comp., p. 166).

(3) Overseas status of forces agreements (SOFAs), where applicable.

(e)(1) The only circumstances under which news or information that is not in the public domain may be directed to be withheld from publication in the Stars and Stripes by a Unified Command CINC are when such publication:

(i) Involves disclosure of classified national security information.

(ii) Would adversely affect national security.

(iii) Clearly endangers the lives of U.S. personnel.

(2) Those circumstances in paragraphs (e)(1)(i) through (e)(1)(iii) may not be construed to permit the calculated withholding of news unfavorable to the Department of Defense, the Military Services, or the U.S. Government. Only the Unified Command CINC may authorize withholding of news or information from the Stars and Stripes. When the CINC directs withholding of publication, the Unified Command shall immediately inform the ASD(PA) by telephone and then forward an immediate precedence, appropriately classified, message to the following: SECDEF Washington DC/OATSD, with information copies to the Director, AFIS, and the Special Assistant for Public Affairs to the Chairman of the Joint Chiefs of Staff. The CINC may include the appropriate “AMEMBASSY” as an information addressee.

(f) Sensitivities of host-nations shall not be a reason to withhold any story from publication in the Stars and Stripes. The Unified Command theater

§ 246.5 Responsibilities.

(a) The Assistant to the Secretary of Defense (Public Affairs), under 32 CFR part 375, as the principal staff assistant to the Secretary of Defense for internal information policy and programs, including S&$ matters, shall:

(1) Provide policy and broad operational guidance to the Director of the AFIS.

(2) Monitor and evaluate the overall effectiveness of the policies in §246.4, and procedures in §246.6.

(5) Chair, as required, at the Deputy Assistant to the Secretary of Defense level, or above, the steering committee providing guidance to the S&$ MAG.

(6) Select and employ the S&$ Ombudsman.

(c) The Secretaries of the Military Departments shall:

and support the S&S throughout the Unified Command area of responsibility, consistent with each organization’s status as a category B NAFI.

(2) Provide Unified Command regulations and guidance, as needed, to carry out this part.

(3) Establish procedures to resolve situations wherein a U.S. Ambassador (or, if so designated, the chief of mission) believes a specific issue in his or her nation of responsibility, not already in the public domain through other news sources, would violate national security or endanger the safety of American citizens, or other persons under their jurisdiction, if it were to be published in the Stars and Stripes.

(4) Select the S&S commander/publisher and other military officers in S&S positions.

(5) Aid the S&S commander/publisher to educate the Stars and Stripes editorial staff about the missions of their Unified Command and Military Service component commands.

(6) Approve the selection of the Stars and Stripes editor.

(7) Establish and maintain a S&S board of directors to address S&S business operations. (See appendix E to this part)

(8) Establish and maintain Stars and Stripes readership forums, which may take many forms, to address Stars and Stripes matters of interest and S&S bookstore operations. Those forums are to provide community feedback to the S&S. This will enable the S&S commander/publisher and the Stars and Stripes editor to better understand and, thereby, better serve the interests and needs of the readers and bookstore customers.

(9) At the discretion of the Unified Command CINC, provide for meetings between the S&S commander/publisher and the Stars and Stripes editor, the Unified Command public affairs office, and the Unified Command component commands, represented by their directors of public affairs, to discuss the performance of the Stars and Stripes and the performance of related public affairs operations. The Unified Commands, their component commands, and the S&S may invite any attendees they choose. Representatives from the AFIS may attend. Those meetings may not serve as editorial advisory boards.

(10) Ensure that the S&S Commander/Publisher:

(i) Assumes the duties and responsibilities of command, leadership, management, and training for the S&S.

(ii) Executes DoD and Unified Command policy.

(iii) Is responsible to the Unified Command CINC for S&S operations to include the newspaper publication and timely circulation, the operation of the S&S resale and job printing activities, and associated distribution systems in the relevant Unified Command area of responsibility.

(iv) Provides planning and execution of initiatives to ensure support of U.S. Armed Forces during contingency operations and armed conflict. The S&S commander/publisher shall identify wartime and contingency S&S personnel asset requirements to the Unified Command CINC to fulfill the Unified Command force responsibilities during armed conflict.

(v) Selects the Stars and Stripes editor.

(vi) Approves, in coordination with the Stars and Stripes editor, military personnel selectees for the Stars and Stripes editorial staff. (See appendix C to this part)

(vii) Provides a current status briefing and 2-year financial forecast to the Director of the AFIS at the annual AFIS S&S meeting. Provides support to the S&S board of directors as required in appendix E to this part.

(viii) Conducts frequent independent readership surveys, in accordance with DoD Instruction 1100.13, and readership focus groups to gather information.

*See footnote 1 to §246.4(c).*
(f) The Other Unified Commanders in Chief shall ensure that their deployment exercise, contingency, and wartime planning documents reflect the S&S transportation, funding or reimbursement, and in-theater distribution requirements, as applicable. Information copies of such planning documents or annexes shall be furnished to the following:

(1) U.S. European Command (ATTN: Director, Public Affairs).
(2) U.S. Pacific Command (ATTN: Director, Public Affairs).
(3) The AFIS (ATTN: Assistant Director for Plans and Policy).

§ 246.6 Procedures.

(a) General. (1) Authority to establish or disestablish S&S operations is from the Secretary of Defense through the ATSD(PA) and the Director of the AFIS. The Unified Commands shall forward such requests to the Director of the AFIS, as required.

(2) Classified information shall be protected in accordance with 32 CFR parts 159 and 159a.

(3) The Stars and Stripes and the S&S business operations shall conform to applicable regulations and laws involving libel, copyright, U.S. Government printing and postal regulations, and DoD personnel policies and procedures.

(4) With the concurrence of the Unified Command, the S&S is authorized direct communication with the Military Services on S&S personnel matters and with the Department of the Army on S&S financial matters. The S&S shall keep the Unified Command and the AFIS informed of all actions.

(b) Management Review and Evaluation. (1) The Director of the AFIS provides business counsel, assistance, and policy oversight for the S&S. The Director of the AFIS shall meet annually with the Unified Command representatives, to include the S&S commander/publisher, and senior DoD officials who have S&S responsibilities, such as the S&S MAG.

(2) The Director of the AFIS shall be assisted by a S&S MAG composed of senior representatives from the AFIS, the OASD(FM&P), and the other DoD offices with the authority and expertise to aid in solving S&S problems. As needed, the Director of the AFIS may organize a DoD steering committee to oversee and aid the S&S MAG to address specific concerns identified by the Director of the AFIS and the Unified Command CINCs.

(3) In accordance with DoD Instruction 7600.6, and Army implementation thereof, the S&S shall be audited on an annual basis, either by the Army Audit Agency (AAA) or by an AAA-approved audit contractor. NAF funds of the S&S shall be used for such contracts. The audits will be performance audits and may be financial in nature as prescribed by the Comptroller General of the United States Government Auditing Standards. Each annual audit will determine whether prior audit recommendations have been implemented and the reasons any have not been implemented. When the Inspector General, DoD, elects to perform an audit of the S&S organization, such audit may substitute for the required annual audit. The S&S organizations shall coordinate their audit requirements with each other and the Army Community and Family Support Center to the maximum extent practicable to avoid duplication of costs and to increase the efficiency and effectiveness of these audits. Information copies of the audit contractor reports shall be forwarded by the S&S to the Unified Commands, AFIS and AAA. The S&S shall provide a response to the audit to the Unified Command CINC within 60 days of receiving the completed report. The S&S response to the audit must indicate a concurrence or nonconcurrence for each finding and recommendation. For each concurrence the corrective actions taken or planned should be described and completion dates for actions already taken, as well as the estimated dates for completion of planned actions, should be provided. For each nonconcurrence, specific reasons must be stated. If appropriate, alternative methods for accomplishing desired improvements may be proposed. If nonconcurrences in the findings and recommendations cannot be resolved between the S&S management and the auditors or AAA endorses the contractors’ findings and recommendations,

7 See footnote 1 to §246.4(c).
then the resolution procedures established by DoD Directive 7630.3, and Army Regulations should be followed. The Unified Command shall forward the response to the Director of the APIS and the AAA.

§ 246.7 Information requirements.

The reporting requirements in §246.6, and appendix B to this part shall be submitted in accordance with DoD Instruction 7000.12, and 7000.6, unless specifically excepted by this part.

APPENDIX A TO PART 246—MISSION

A. General. The Stars and Stripes (S&S) organizations shall contribute to the overall U.S. joint-defense mission overseas by providing news and information for the Armed Forces internal audiences serving in a Unified Command area of responsibility, or deployed in support of designated joint-Service exercises, contingency operations, or situations of armed conflict. That shall be done through the operation of a daily newspaper and resale activities of commercial publications (primarily through the S&S bookstores).

B. Newspapers. The Stars and Stripes coverage of news and information makes possible the continued exercise of the responsibilities of citizenship by DoD personnel and their families overseas. The Stars and Stripes are to be published overseas during peacetime, contingency operations, and armed conflicts. They shall provide the same range of international, national, and regional news and opinion from commercial sources, as is provided by newspapers in the United States. Additionally, to better serve their readers, the Stars and Stripes shall pay special attention to news of local, host-country conditions relevant to their audiences. They shall provide, through their reporters and bureaus, news of local military communities within the theater and news of the U.S. Government, the Department of Defense, the Military Services, and theater operations not usually available to readers from outside commercial sources. The Stars and Stripes are to be served the interests of their overseas DoD readership as do prominent commercial daily newspapers throughout the United States.

C. S&S Bookstores and Retail Operations.

The S&S shall serve readers’ needs for contemporary news and information by providing a broad selection of resale commercial publications of interest to their customers at the most reasonable prices, either directly in the S&S bookstores or through other authorized sales outlets at their discretion throughout the Unified Command designated geographic area. The S&S shall have the same authorities and rights for resale commercial publications that the military exchange services have for other nonsubsistence goods and services.

D. S&S Job Shop Printing. The S&S are authorized to operate job shop printing, to include book publishing and/or printing, within the Unified Commands for U.S. military community newspapers, military organizations, nonappropriated fund (NAF) instrumentalities (NAFIs), Morale, Welfare, and Recreation (MWR) activities, private organizations of interest and concern to the Department of Defense, as designated by 32 CFR part 212, DoD employees and their immediate families, and others designated by the Unified Command.

E. War-Time Mission and Contingency Operations. The S&S shall provide the Stars and Stripes on a daily basis for transportation to, and distribution in, the designated area of operations, as requested and funded by the responsible Unified Command Commander-in-Chief (CINC), and supported by the respective Unified Command owning the S&S organization. The Unified Commands shall plan for required airlift on a timely basis and intratheater distribution of daily Stars and Stripes newspapers as part of their operational planning documents. Intratheater distribution and required airlift of the Stars and Stripes shall be the responsibility of the supported Unified Command CINC and respective component commands, who shall reimburse the S&S for nonrepeal issues on a per-issue basis. When deployed to an area of operations, the Stars and Stripes reporters shall operate in the same manner as commercial media representatives. The deployed Stars and Stripes reporters shall be eligible for participation in DoD and command-sponsored regional and local media pools.

APPENDIX B TO PART 246—BUSINESS AND FINANCIAL OPERATIONS

A. General Financial Operations. 1. For financial management purposes, the Unified Commands shall administer the Stars and Stripes (S&S), with policy oversight exercised by the Director of the American Forces Information Service (AFIS), as nonappropriated fund instrumentalities (NAFIs) in accordance with §246.4(c), except where procedures differ as defined in this part. The S&S shall report as prescribed in DoD Instruction 7000.12, providing information copies to the Unified Commands and the Director of the AFIS.

2. The S&S shall be authorized nonappropriated fund (NAF) and appropriated

fund (APF) support as category B NAFIs as provided under DoD Instruction 1015.6.2
b. The S&S shall be funded to the maximum extent possible through the sale and distribution of the newspaper, news magazines, books, periodicals, and similar products; job printing; authorized advertising revenues; and other authorized sources of revenue, as approved by the Department of Defense and the Congress.

c. APF support shall be kept to a minimum, consistent with the S&S mission.

2. The Secretary of the Army shall be the DoD Executive Agent for APF and NAF support to the S&S. If adverse conditions occur, the other Military Services shall provide proportionate funding support through a memorandum of agreement (MOA) containing funding procedures coordinated with the affected Unified Commands and the AFIS. Copies of the agreement shall be provided to all concerned parties.

3. The Stars and Stripes and other S&S commercial resale publications may be made available within the Unified Command to other U.S. Government Agency members, and U.S. Government contractors, as approved by the Unified Command.

4. The S&S system of accounting and internal control shall conform with the requirements of DoD Instruction 7000.12. Army regulations on Morale, Welfare and Recreation (MWR) activities and NAFIs, and NAF accounting policies and procedures, except as authorized by the S&S Comptroller’s Manual to meet business and consolidation requirements. The S&S shall ensure that quarterly reports are furnished to the Unified Commands, the S&S Board of Directors, and the Director of the AFIS.

5. Appropriated Funds. In addition to DoD Directive 1015.6, the S&S shall be authorized APF support:

1. As provided by the U.S. Army for direct funding support when adverse conditions make such funding necessary to ensure the survival of the newspaper without impairment of mission capability. The Secretary of the Army shall provide such funding when requested by the affected Unified Command Commander-in-Chief (CINC), through the Director of the AFIS.

2. For regional air transportation of the newspaper, overseas “transportation of things” as authorized to joint-Service NAFIs; and electronic, optical, or satellite transmission of the newspaper when long distances require these modes to ensure timely and economical delivery.

3. As required, to transport Stars and Stripes to officially designated “remote and isolated” locations. The Unified Commands may authorize DoD official postage to remote and isolated locations, if that action is required to ensure timely delivery. Each S&S shall annually review its mailing support to minimize APF expenditures. The U.S. postal regulations apply to the S&S.

a. The S&S shall use in-house or other non-postal means of transportation to distribute the newspaper to areas that are not designated as remote and isolated.

b. The S&S are authorized to use official managerial and administrative mail related exclusively to the business of the U.S. Government in accordance with DoD 4525.8-M, Chapter 3, Subsection O.8. Such official mail is also authorized to support archive responsibilities in the United States, as designated by the AFIS. Official mail may forward the Stars and Stripes through the Department of Defense to the Congress. Official mail is not authorized to provide the Stars and Stripes to general readership or to support in-theater distribution of S&S resale commercial publications.

4. For transportation of military personnel incident to mission-essential travel, required military training, participation in contingency operations, in military field exercises, such as “REFORGER” or “TEAM SPIRIT,” or to areas of armed conflict.

5. In times of armed conflict or national contingency deployment, as directed by the Chairman of the Joint Chiefs of Staff for production and free distribution of the Stars and Stripes to forces as designated. The other Military Services shall reimburse the Department of the Army for services as authorized in the MOA. The Unified Commands shall endeavor to provide the Stars and Stripes and other S&S services for DoD personnel engaged in military operations, contingency operations, and exercises in the most expeditious manner possible as requested by the participating commands. The requesting Unified Command shall be responsible for distribution of the Stars and Stripes within its theater of operations. These services shall be provided on a reimbursable basis to the S&S.

6. In other agreements as made with the Unified Commands, the Department of Defense, and the U.S. Army as the DoD Executive Agency.

C. Nonappropriated Funds. 1. So that the Department of the Army may perform its duties as the DoD Executive Agency, the S&S NAFS shall be invested in the Army’s Banking and Investment Program and insured with the Army’s Risk Management Insurance Program in accordance with DoD Instruction 7000.12 and the implementing Army regulations.

2. Excess NAFs belonging to the S&S may be declared excess by the Unified Command CINC, upon the recommendation of the S&S board of directors, under the guidelines in

---

2 See footnote 1 to A.1. of this appendix.
section C.3. of this appendix. Disposition of excess NAFs shall be as directed by the Unified Command CINC. The S&S NAFs declared in excess in one theater may be allocated or loaned to the other Unified Command for S&S-related activities.

3. The S&S NAFs may be declared in excess only if the following conditions are met:
   a. The S&S working capital is at a level to continue prudent operations.
   b. The local national S&S employee retirement and severance accounts are fully funded. The other S&S employment agreements required by applicable NAF regulations must also be fully funded.
   c. Sufficient capital is available from an investment and/or contingency fund to complete all planned and projected capital expenditure projects, and to fulfill the other legitimate S&S business obligations.
   d. Additional sinking funds are available to sustain the S&S through foreseeable periods of financial crisis created by adverse conditions. The sinking fund level shall be determined by the S&S board of directors and recommended to the Unified Command CINC for approval.
   e. The retail price of the Stars and Stripes is at, or below, the most prevalent charge for similar U.S. newspapers. That shall be determined by the S&S board of directors and recommended to the Unified Command CINC for approval. The Director of the AFIS will be informed of any decision to raise the retail sales price of Stars and Stripes and will provide the Unified Command CINC an assessment of average commercial newspaper sales prices throughout the United States. The availability of the Stars and Stripes at reasonable cost to overseas personnel, commensurate with the retail sales price of comparable commercial newspapers throughout the United States, is a major quality-of-life consideration. A reasonable retail sales price is critical to ensure the greatest access for all overseas personnel and their family members to current print news and information so that they may remain informed U.S. citizens.
   f. The S&S books, periodicals, magazines, and similar products are to be sold at no more than cover price and should be discounted to an appropriate level that still sustains full S&S operations, as determined by the S&S board of directors and recommended to the Unified Command CINC for approval.

4. Under adverse conditions, the S&S commander/publisher may apply for NAF support through the Unified Commands to the Director of the AFIS. Following approval by the Unified Command, the Director of the AFIS shall forward the request to the Secretary of the Army for appropriate action. Such NAF requests must first be recommended by the S&S board of directors and approved by the Unified Command CINC. In these cases, the S&S NAFs in either Unified Command may be considered as the first source before forwarding a request to the Department of the Army. The Unified Commands may lend NAFs from one S&S to the other through an MOA.

D. Bookstores and Related Resale Activities.
1. The S&S shall endeavor to provide the same selection of resale commercial publications that would be available in quality bookstores in the United States through its bookstores, or, at the discretion of the S&S management, other authorized sales outlets. The S&S has the same authorities and rights for resale and distribution of commercial publications that the military exchange services have on military installations for other nonsubsistence goods and services. The assortment of commercial books, periodicals, magazines, and similar products shall approximate publications commercially available in United States bookstore chains of similar size. Decisions on which publications to include shall be made by the S&S on the basis of marketability and service, not content. As an exception to the Army NAF procurement regulations, contracting authority limitations applicable to U.S. Army and joint-Service NAFIs do not apply to the S&S procurement of resale commercial publications. Limitations will be as recommended by the S&S board of directors and approved by the Unified Command.

2. The Unified Command CINC shall adjudicate publications resale issues within the theater that cannot be resolved by the S&S at the operating level.

3. Both S&S shall consolidate their wholesale purchases of commercial publications to the maximum extent, consistent with Unified Command distribution criteria, actual economies of scale, and cost-efficiencies. Consolidation initiatives shall be worked in concert with the Unified Commands, the AFIS, and the S&S board of directors. As recommended by the S&S board of directors and approved by the Unified Command CINC, the S&S bookstores shall offer discounts similar to commercial United States bookstore franchises. The offering of discounts should not endanger the financial viability of the S&S.

4. The S&S bookstores shall be audited by the S&S management at least annually. Where bookstores are operating at a consistent financial loss, the S&S may consider servicing readers through arrangements with exchanges, other military outlets, or consider consolidation at central points.
   a. Bookstore inventory levels shall be verified internally on a semianual basis. Inventory levels shall be held to cost-effective levels that still consider the servicing needs of overseas customers.
   b. The S&S shall establish affidavit-return procedures to vendors and/or publishers,
where possible, to return damaged merchandise, overstock, or out-of-date publications to reduce APF expenditures necessary for “over-the-water” transportation.

5. The S&S shall conduct local “market-penetration” surveys. The S&S shall also operate a “customer-complaint” feedback system to monitor its service and provide the best possible service to its customers. The results of those surveys shall be provided to the Unified Command with recommendations to the S&S board of directors, as required.

E. Advertising. 1. As U.S. Government publications, the Stars and Stripes operate under the authority of the “Government Printing & Binding Regulations” issued by the Joint Committee on Printing (JCP) of the U.S. Congress. To serve the readership, the JCP has granted an exemption to Title III of the “Government Printing and Binding Regulations”, authorizing the Stars and Stripes to carry limited advertising so that they may provide information to overseas DoD personnel and their families on commercial goods and services. The Stars and Stripes are authorized to solicit, sell, publish, and circulate display advertising, paid classified ads, and supplement section advertising, to include price and brand names of products or services and related coupons that are available through authorized Government outlets, their concessionaires, NAF activities, or private organizations operating on DoD installations under 32 CFR part 212. The Stars and Stripes may have run-of-the-paper display advertising not to exceed 25 percent of the newspaper over a period of 1 month. In addition, the Stars and Stripes are authorized to sell, publish, and circulate display advertising, and supplement section advertising for consumer goods and services not available through authorized Government outlets, their concessionaires, NAF activities, or private organizations operating on DoD installations under 32 CFR part 212 when sponsored by MWR activities, NAFIs, or Type I (Federally Sanctioned) private organizations as defined by 32 CFR part 212. Implementation of the advertising authority shall be as specified by the Director of the AFIS, who shall coordinate with the JCP.

2. The Stars and Stripes may sell, through commercial advertising agencies, run-of-the-paper advertising of DoD recruiting and retention programs or activities.

3. The S&S has the right to refuse any advertising.

4. The Stars and Stripes may publish news stories on special DoD-affiliated tours or entertainment opportunities for DoD personnel and their dependents in accordance with DoD Instructions 1015.25 and 1330.138.

5. The S&S may promote the Stars and Stripes, books, periodicals, magazines and similar products; authorized advertising; and job printing services (except APF) in the Stars and Stripes. Books, periodicals, magazines, and similar product promotions may include publications by name, title, author, and price. The Stars and Stripes also may promote literacy, health, safety, and other community service issues.

6. The S&S may promote AFRTS schedules, programs, and services in their newspapers and bookstores. The S&S shall cooperate with AFRTS outlets to promote each others’ programs and services as authorized by DoD Directive 5120.20.

7. As a newspaper operated by the Department of Defense, the Stars and Stripes may not:

a. Contain any material that implies that the DoD Components or their subordinate levels endorse or favor a specific commercial and/or individually-owned product, commodity, or service.

b. Subscribe, even at no cost, to a commercial, feature wire, or other service whose primary purpose is the advertisement or promotion of commercial products, commodities, or services.

c. Carry any advertisement that implies discrimination as to race, age, origin, gender, politics, religion, or physical characteristics that include health.

F. Trademark. The S&S shall trademark the Stars and Stripes in overseas areas where it is distributed.

APPENDIX C TO PART 246—PERSONNEL POLICIES AND PROCEDURES

A. General Nonsanctioned Fund (NAF) Employment Policies. 1. The Stars and Stripes (S&S) shall have a personnel system that is business oriented in terms of personnel management concepts. The system shall provide maximum authority and accountability to the S&S managers at all levels and shall endeavor to improve productivity through a system of awards and bonuses for high-performing employees. The S&S NAF employees shall be governed in accordance with the U.S. Army NAF regulations, except where exceptions to general policy have been granted by the Unified Commands, the American Forces Information Service (AFIS), and the U.S. Army to the S&S.

2. As DoD employees, the S&S civilian personnel shall abide by 32 CFR part 40, the Department of Defense, the Unified Command, and the U.S. Army regulations, U.S. laws
governing Government employees, the applicable host-nation laws, and the applicable status of forces agreements (SOFA) requirements. The S&S commander/publisher shall ensure that the S&S employees are made aware of those provisions before being hired and that employees receive adequate personnel training.

3. The S&S shall endeavor to recruit civilian personnel with solid experience, education, and performance credentials in the required business, publishing, or editorial disciplines. The S&S, as part of its hiring practices, shall specify terms of Government employment and include responsibilities, such as those in 32 CFR part 40, so that the S&S civilian employees are fully aware of their obligations as DoD employees.

B. Appropriated Fund (APF) Personnel Assignment Authority. Appropriated-funded manpower staffing to operate, manage, or support the S&S is authorized under DoD Directive 1015.4.

C. Military Officer Personnel Procedures. 1. Candidates for the S&S military officer positions shall be nominated by the Military Services, through the Director of the AFIS, to the Unified Command Commander-in-Chief (CINC), who shall make the final selection. The S&S military officer positions considered for nomination shall be the S&S commander/publisher and deputy commander(s).
   a. The S&S commander/publisher should have military public affairs and joint-Services experience, and a journalism degree.
   b. The S&S officers supervising business operations should have experience in DoD Comptroller functions and be familiar with laws and regulations applicable to DoD and NAFI business operations. A master’s degree in business administration is desirable, but not mandatory.
   c. Instead of an advanced degree or military public affairs experience, nominees may be authorized, by the Unified Command CINC and the AFIS, to substitute a DoD-funded “training-with-industry” program with comparable newspaper operations in the United States.
   d. The Unified Commands shall forecast military vacancies in the S&S to allow time for the Military Services’ nomination processes to be completed and provide for education before the S&S assignment.
   e. The Military Services shall provide highly qualified officers for all S&S assignments at the required grade levels.
   f. Military officers selected for duty as S&S commander/publisher shall undergo a “training-with-industry” program to provide real-world training with a commercial newspaper. That program shall be administered by the Director of the AFIS, in coordination with the Military Services and the Unified Commands.

D. Enlisted Members of the Stars and Stripes Editorial Staff. 1. Enlisted military personnel shall be assigned to the Stars and Stripes editorial staff, as reflected in the designated Unified Command Joint Manpower Program (JMP) documents, on a nominative basis. The Military Services shall nominate the most mature and professional personnel for appointment to the Stars and Stripes editorial staff at the required JMP grade- and experience-level, coordinating with the Unified Commands and the Director of the AFIS. Nominations shall be considered on a competitive basis by the S&S commander/publisher and the Stars and Stripes editor. The S&S shall request nominations 18 months before projected billet vacancies. The Military Services shall forward nominations 6-18 months in advance to the S&S, (ATTN: S&S Commander/Publisher). The Military Services shall provide the S&S with reasonable overlap of military enlisted members serving on the Stars and Stripes editorial staff.
   2. The S&S commander/publisher shall coordinate with the Unified Commands to ensure that there is an appropriate mixture of Military Service billets and/or assignments represented in the S&S to preserve the traditions of the Stars and Stripes as joint-Service newspapers.

APPENDIX D TO PART 246—EDITORIAL OPERATIONS

A. General. 1. The Stars and Stripes shall serve the interests of their overseas DoD readership, as commercial daily newspapers serve their readers throughout the United States. However, as a Government organization, the Stars and Stripes staff may not take an independent editorial position. The Stars and Stripes editorial practices and policies shall be in accordance with the highest standards of American journalism.

2. The Stars and Stripes editor, with the concurrence of the S&S commander/publisher, and the Unified Command Commander-in-Chief (CINC), as the owner of the newspaper, may establish a standard code of personal and professional ethics and general editorial principles similar to those developed at major metropolitan newspapers or by professional journalists in organizations such as the Society of Professional Journalists. Those codes usually stress the following:
   a. Responsibility of the newspaper to fully inform its readership.
   b. Freedom of the press.
   c. Commitment to personal and professional ethics.
d. Emphasis on content accuracy, objectivity, and fair representation of all sides of an issue.

When developed, copies of the code and style guides shall be provided to the Unified Command CINC and the Director of the American Forces Information Service (AFIS).

3. The Stars and Stripes editor shall be responsible for developing editorial procedures and, if required, a style guide that mirrors DoD policies of non-endorsement of any specific candidate for an elected office.

4. The editorial content of the Stars and Stripes shall be governed by the general principles applicable to quality commercial press as follows:

a. Presentation of News. A major purpose of the Stars and Stripes is to provide news and information from varied sources. This aids DoD members and their families stationed overseas to exercise their democratic citizenship responsibilities.

b. Commercially-Contracted News, Features, and Opinion Columns. The Stars and Stripes shall purchase (or contract for) and carry news stories, features, syndicated columns, comic strips, and editorial cartoons from commercial services or sources. Wire-service news, information, and feature material may be edited in accordance with source contracts and for space requirements. The Stars and Stripes shall reflect the news of the day being carried in comparable U.S. commercial daily newspapers. They should reflect different sides of issues over a reasonable amount of time.

c. Staff-Generated Copy. In keeping with the standards established for major daily commercial newspapers in the United States, staff-generated news and features in the Stars and Stripes shall be accurate, factual, impartial, and objective. News stories and feature material shall distinguish between fact and opinion. Every effort should be made to attribute quotations and facts to identified sources. In the case of controversial or sensitive stories, the Stars and Stripes editor, or his or her designee, shall ascertain the identity of confidential sources, as required by normal journalistic practices that ensure that sources are credible. The Stars and Stripes may use the normal range of journalistic techniques including “people-on-the-street” interviews if that technique does not constitute a political poll.

d. Political Campaign News. (1) The Stars and Stripes shall publish coverage of the U.S. political campaigns from commercial news sources. Presentation of such political campaign news shall be made on an impartial, unbiased, and nonpartisan basis reflecting DoD policies of non-endorsement of any specific candidate for an elected office. Every effort should be made to ensure that the Stars and Stripes reflect the full spectrum of campaign news being published in the United States on national candidates and issues.

(2) The Stars and Stripes shall support the Federal Voting Assistance Program by carrying factual information about registration and voting laws.

e. The Stars and Stripes shall provide balance in commercial syndicated columns. Since the Stars and Stripes may not take an independent editorial position, a balanced selection of syndicated opinion columns shall be published over a reasonable time period. The presentation of syndicated editorial cartoons should reflect the full spectrum of topical editorial cartoons being published throughout the United States. The Stars and Stripes shall publish polls, surveys, and/or straw votes furnished to the newspaper through its contracted wire services. The Stars and Stripes may not conduct lottery games.

2. The Stars and Stripes shall have the following disclaimer placed in the masthead or at the extreme bottom of one of the prominent pages, segregated from copy in a box:

This newspaper is authorized for publication by the Department of Defense for members of the Military Services overseas. However, the contents of the Stars and Stripes are unofficial, and are not to be considered as the official views of, or endorsed by, the U.S. Government, including the Department of Defense or the (name of the appropriate Unified Command). As a DoD newspaper, the Stars and Stripes may be distributed through official channels and use appropriated funds for distribution to remote and isolated locations where overseas DoD personnel are located.

The appearance of advertising in this publication, including inserts or supplements, does not constitute endorsement by the Department of Defense or the Stars and Stripes of the products or services advertised.

Products or services advertised in this publication shall be made available for purchase, use, or patronage without regard to race, color, religion, sex, national origin, age, marital status, physical handicap, political affiliation or any other nonmerit factor of the purchaser, user, or patron.

C. Editorial. 1. The Stars and Stripes news staffs are authorized to gather and report

Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
news, good and bad, on the Department of Defense and its subordinate commands. All reporting necessarily requires some investigation and, as with journalists on commercial newspapers, the Stars and Stripes news staff members have the right and need to ask questions and expect response to fulfill the S&S mission. However, the Stars and Stripes is not an authorized investigative agency, such as military law enforcement agencies, investigative bodies, or an Inspector General, and shall not function in that capacity. As DoD employees, the Stars and Stripes news staff members must adhere to the DoD personnel policies that may not usually apply to journalists employed by commercial newspapers and must comply with 32 CFR part 40 and, as applicable, the Manual for Courts Martial, 1981.

a. Since most journalistic reporting is investigative by nature, “investigative reporting,” as such, is not banned. The Stars and Stripes reporters have the same need to ask questions of sources, and expect responses, as do commercial newspaper journalists. While the Stars and Stripes staff cannot conduct independent investigations that fall under the jurisdiction of various military law enforcement or designated investigative agencies, the Stars and Stripes may report on open or completed investigations by agencies authorized to perform investigative functions. If the Stars and Stripes employees note unlawful or criminal actions in their performance of duty, they must report such incidents immediately to the S&S commander or to their immediate supervisor, in accordance with 32 CFR part 40, who shall also comply with 32 CFR part 40 and, as applicable, DoD Directive 5000.1 and DoD Instruction 5240.4. If there is an authorized investigation, a Stars and Stripes reporter or editor cannot protect a source as confidential when the information may be required to complete the investigation. Coverage of an investigation, from a news perspective, should be based on case progress or the resolution provided by the investigative agency if considered newsworthy by the Stars and Stripes. The Stars and Stripes editorial procedures shall not prohibit publishing news of independent investigations furnished by commercial media and, therefore, in the public domain.

b. The Stars and Stripes staff may not knowingly place classified information in Stars and Stripes staff-generated material. That does not apply to public domain information attributed to commercially contracted news, features, or opinion columns.

2. The Stars and Stripes editorial staffs shall receive the same treatment as commercial media.
a. The Stars and Stripes reporters shall have the same right to ask questions, to gain help, to have access, and to attend gatherings available to reporters from the commercial media. Commanders or public affairs staffs may not use the U.S. Government status of Stars and Stripes reporters to block the release of, or access to, otherwise releasable news, information, or events. Under the same circumstances, the Stars and Stripes reporters may not use their U.S. Government status or credentials to gain special treatment, access to restricted areas or gatherings, or other advantages that are not given equally to civilian media.

b. In keeping with the “Principles of Information” in 32 CFR part 375 governing release of information to commercial media, the DoD Components are expected to make available timely and accurate information so that the Stars and Stripes news staffs and readers may assess and understand the facts about their military organizations, the national defense, and defense strategy. Consistent with statutory requirements, information shall be made fully and readily available under the principles for the release of information to the media issued by the Secretary of Defense. A Government organization may not file a request for information against another Government organization under 32 CFR part 285, which implements the Freedom of Information Act (FOIA) in the Department of Defense, but it is the responsibility of all commands to honor the DoD Principles of Information, particularly regarding the intent of open access as described in 32 CFR part 285 when responding to queries from Stars and Stripes reporters.

3. To meet organizational responsibilities, the Stars and Stripes editor, the S&S commander/publisher, and the Stars and Stripes staff members they select, should meet frequently with area commanders and public affairs officers and staffs to confer, as their counterparts in U.S. commercial daily newspapers do with local government and community interest representatives.

4. When matters of interest to the Stars and Stripes readership cut across the Unified Command component command responsibilities, the Stars and Stripes editor may use “special project reporting teams” to examine such concerns. Whether the areas of Stars and Stripes interest are military exercises, fast-breaking news affecting the entire Unified Command community, or policies that require a greater-than-individual-reporter effort, the Stars and Stripes editor, through the S&S commander/publisher, can gain help by keeping the Unified Command and its component command public affairs offices informed of the need for theater-wide
assistance. Such aid could help dispel morale-damaging rumors.

5. The Stars and Stripes shall conduct readership surveys at least once every 3 years to the Unified Command where the Stars and Stripes are distributed. Such formal surveys shall be conducted in accordance with DoD Instruction 1100.13. The S&S may make shorter market surveys through its bookstore operations to determine changing readership interests. The Stars and Stripes is also encouraged to make frequent use of readership focus groups throughout the Unified Command.

6. The Stars and Stripes may review commercial entertainment where relevant and where it supports readership interest.

7. All bureau personnel and field reporters shall have Stars and Stripes newsroom experience before being given independent assignments. The Stars and Stripes military reporters may wear military or civilian clothes at the discretion of the S&S commander/publisher. If authorized by the S&S commander/publisher, Stars and Stripes military members may be authorized a clothing allowance in accordance with individual Service directives.

8. The Stars and Stripes are both authorized to maintain a Washington, DC, bureau located with other correspondent bureaus in the OASD (PA) Correspondents’ Corridor. A desk will be provided for each Stars and Stripes. The S&S shall select the most qualified reporters possible for assignment to the bureau. A joint memorandum of understanding on personnel support shall be established between the two newspapers and approved by the Unified Command, with a copy provided to the Director of the AFIS.

APPENDIX E TO PART 246—STARS AND STRIPES (S&S) BOARD OF DIRECTORS

A. Organization and Management. 1. The S&S board of directors of each Unified Command shall provide advice to the S&S management, and recommend guidance to its Commander-in-Chief (CINC) on all business operations. Attendance is at the direction of the Unified Command CINC.

2. Each Unified Command CINC shall designate the chairman of its S&S board of directors.

3. Each S&S board of directors shall include a member from the Unified Command Offices of Public Affairs and the Controller, and at least one member from each of the Unified Command Service components. Members shall be appointed by the Unified Command CINC for 2 years to ensure continuity. They shall be the best qualified personnel available in business-related disciplines. Members should be at the grade of O-5, GS-12, or higher. Other than the Unified Command and the S&S senior representatives, the S&S board members should not be members of any other S&S forums or councils. Representatives from the American Forces Information Service (AFIS) and one S&S may attend the meetings of the other S&S board of directors and have their observations included in the minutes, but they are not voting members. Recommendations approved by the S&S board of directors may be incorporated by the Unified Command CINC into the Unified Command S&S instruction or directive, as applicable.

4. The S&S board of directors shall meet at least three times each year. The minutes of each meeting shall be approved by the Unified Command CINC. The approved S&S board recommendations shall be incorporated, as permanent policy, into the Unified Command S&S implementing instructions or directives. Where such recommendations affect DoD policy, the Unified Commands shall ask the Director of the AFIS for resolution. The S&S commander/publisher shall provide sufficient documentation to the S&S board members between meetings to inform them of on-going business operations and the execution of financial actions.

B. Functions. 1. The S&S board of directors shall monitor planning and execution of the S&S business activities.

2. The S&S board of directors shall aid the S&S commander/publisher with evaluation of external factors that impact the S&S, such as adverse conditions, as recommended by the S&S commander/publisher, the S&S board of directors, or the Unified Command CINC.

3. Annually, the S&S commander/publisher shall provide a financial plan that shall include a capital expenditure budget and a 2-year forecast for the S&S board of directors’ evaluation and recommendation to the Unified Command CINC. The S&S shall also forecast and get approval for building and/or construction projects through the S&S board of directors.

4. The S&S shall maintain a 5-year business strategic and corporate plan that shall be forwarded to the S&S board of directors. The Unified Commands shall forward the ongoing strategic and corporate plan to the Director of the AFIS for overall DoD strategic goals.

§ 247.3 Definitions.

Civilian Enterprise (CE) guides and installation maps. Authorized publications containing advertising that are prepared and published under contract with commercial publishers. The right to circulate the advertising in these publications to the DoD readership constitutes contractual consideration to pay for these DoD publications. The publications become the property of the command, installation, or intended recipient upon delivery in accordance with terms of the contract. Categories of these publications are:

(1) Guides. Publications that provide DoD personnel with information about the mission of their command; the availability of command, installation, or community services; local geography; historical background; and other information. These publications may include installation telephone directories at the discretion of the commander.

(2) Installation maps. Publications designed for orientation of new arrivals or for visitors.

CE publications. CE newspapers, CE magazines, CE guides and installation maps produced commercially under the CE concept.

DoD newspapers. Authorized, unofficial publications, serving as part of the commander’s internal information program, that support DoD command internal communication requirements. Usually, they are distributed weekly or monthly. DoD newspapers contain most, if not all, of the following elements to communicate with the intended DoD readership: command, military department, and DoD news and features; commanders’ comments; letters to the editor; editorials; commentaries; features; sports; entertainment items; morale, welfare, and recreation news and announcements; photography; line art; and installation and local community news and announcements. DoD newspapers do not necessarily reflect the official views of, or endorsement of content by, the Department of Defense.

(1) CE newspapers. Newspapers published by commercial publishers under contract with the DoD Components or their subordinate commands. The commander or public affairs office provides
oversight and final approval authority for the news and editorial content of the paper. Authorized news and information sources include the Office of the Assistant Secretary of Defense for Public Affairs (OASD(PA)), AFIS, the Military Departments, their subordinate levels of command, and other Government Agencies. CE contractor personnel may provide material for use in the newspaper if approved by the commander or public affairs officer (PAO), as the commander’s representative. These newspapers contain advertising sold by the commercial publisher on the same basis as for CE guides and installation maps and may contain supplements or inserts. They become the property of the command, installation, or intended recipient upon delivery in accordance with terms of the contract.

(2) Funded newspapers. Newspapers published by the DoD Components or their subordinate commands using appropriated funds. The editorial content of these newspapers is prepared by the internal information section of the public affairs staff or other internal sources. Usually, these newspapers are printed by the Government Printing Office (GPO) or under GPO contract in accordance with Government printing regulations. DoD Directive 5330.33 specifies DPS as the sole DoD conduit to the GPO.

(3) Overseas Combatant Command newspapers. Newspapers published for overseas audiences approved by the Assistant Secretary of Defense for Public Affairs (ASD(PA)) to provide world, U.S., and regional news from commercial sources, syndicated columns, editorial cartoons, and applicable U.S. Government, Department of Defense, Component, and subordinate command news and information.

(4) News bulletins and summaries. Publications of deployed or isolated commands and ships compiled from national and international news and opinion obtained from authorized sources. News bulletins or summaries may be authorized by the next higher level of command when no daily English language newspapers are readily available.

Inserts. A flyer, circular, or free-standing advertisement placed within the folds of the newspaper. No disclaimer or other labeling is required.

Magazines. Authorized, unofficial publications, serving as part of the commander’s internal information program. They are produced and distributed periodically, usually monthly, and contain information of interest to personnel of the publishing DoD component or organization. They usually reflect a continuing policy as to purpose, format, and content. They are normally non-directive in nature and are published to inform, motivate, and improve the performance of the personnel and organization. They may be published as funded magazines or under the CE concept.

Option. A unilateral right in a contract by which, for a specified time, the Government may elect to acquire additional supplies or services called for by the contract, or may elect to extend the term of the contract.

Organizational terms. (1) Command. A unit or units, an organization, or an area under the command of one individual. It includes organizations headed by senior civilians that require command internal information-type media.

(2) DoD Components. See §247.2 (a).

(3) Installation. A DoD facility or ship that serves as the base for one or more commands. Media covered by this part may serve the command communication needs of one or several commands located at one installation.

(4) Major command. A designated command such as the Air Mobility Command or the Army Forces Command that serves as the headquarters for subordinate commands or installations that have the same or related missions.

(5) Subordinate levels. Lower levels of command.

Publications. As used in this part, “publications” refers to DoD newspapers, magazines, guides and/or installation maps serving the commander’s internal information program published in both paper and electronic format, including digital printing.

Supplements. Features, advertising sections, or morale, welfare and recreation sections printed with or inserted into newspapers for distribution. Supplements must be labeled “Supplement to the (name of newspaper).” Editorial content in supplements is subject to

3See footnote 1 to §247.1.
§ 247.4 Policy.

It is DoD policy that:

(a) A free flow of news and information shall be provided to all DoD personnel without censorship or news management. The calculated withholding of news unfavorable to the Department of Defense is prohibited.

(b) News coverage and other editorial content in DoD publications shall be factual and objective. News and headlines shall be selected using the dictates of good taste. Morbid, sensational, or alarming details not essential to factual reporting shall be avoided.

(c) DoD publications shall distinguish between fact and opinion, both of which may be part of a news story. When an opinion is expressed, the person or source shall be identified. Accuracy and balance in coverage are paramount.

(d) DoD publications shall distinguish between editorials (command position) and commentaries (personal opinion) by clearly identifying them as such.

(e) News content in DoD publications shall be based on releases, reports, and materials provided by the DoD Components and their subordinate levels, DoD newspaper staff members, and other government agencies. DoD publications shall credit sources of all material other than local, internal sources. This includes, but is not limited to, Military Department news sources, American Forces Information Service, and command news releases.

(f) DoD publications may contain articles of local interest to installation personnel produced outside official channels (e.g., stringers, local organizations), provided that the author's permission has been obtained, the source is credited, and they do not otherwise violate this part.

(g) DoD publications normally shall not be authorized the use of commercial news and opinion sources, such as Associated Press (AP), United Press International (UPI), New York Times, etc., except as stated in this paragraph and the following paragraph. The use of such sources is beyond the scope of the mission of command or installation publications and puts them in direct competition with commercial publications. The use of such sources may be authorized for a specific DoD newspaper by the cognizant DoD Component only when other sources of national and international news and opinion are not available.

(h) Overseas Combatant Command newspapers published outside the United States may purchase or contract for and carry news stories, features, syndicated columns, and editorial cartoons from commercial services or sources. A balanced selection of commercial news or opinion shall appear in the same issue and same page, whenever possible, but in any case, over a reasonable time period. Selection of commercial news sources, syndicated columns, and editorial cartoons to be purchased or contracted for shall be approved by the Commanders. Overseas Combatant Command newspapers, news bulletins, and news summaries authorized to carry national and world news may include coverage of U.S. political campaign news from commercial news sources. Presentation of such political campaign news shall be made on a balanced, impartial, and nonpartisan basis.

(i) The masthead of all DoD publications shall contain the following disclaimer printed in type no smaller than 6-point: "This (DoD newspaper, magazine, guide or installation map) is an authorized publication for members of the Department of Defense. Contents of (name of the DoD newspaper/magazine/this guide/this installation map) are not necessarily the official views of, or endorsed by, the U.S. Government, the Department of Defense, or (the name of the publishing DoD Component)."

(j) The masthead of DoD CE publications shall contain the following statements in addition to that contained in paragraph (i) of this section:

(1) "Published by (name), a private firm in no way connected with the (Department of Defense/the U.S. Army/the U.S. Navy/the U.S. Air Force/the U.S. Marine Corps) under exclusive written contract with (DoD Component or subordinate level)."

(3) ‘‘Everything advertised in this publication shall be made available for purchase, use, or patronage without regard to race, color, religion, sex, national origin, age, marital status, physical handicap, political affiliation, or any other nonmerit factor of the purchaser, user, or patron.’’ If a violation or rejection of this equal opportunity policy by an advertiser is confirmed, the publisher shall refuse to print advertising from that source until the violation is corrected.

(k) DoD publications shall not contain campaign news, partisan discussions, cartoons, editorials, or commentaries dealing with political campaigns, candidates, issues, or which advocate lobbying elected officials on specific issues. DoD CE publications shall not carry paid political advertisements for a candidate, party, which advocate a particular position on a political issue, or which advocate lobbying elected officials on a specific issue. This includes those advertisements advocating a position on any proposed DoD policy or policy under review.

(1) DoD newspapers shall support the Federal Voting Assistance Program by carrying factual information about registration and voting laws, especially those on absentee voting requirements of the various States, the District of Columbia, Puerto Rico, and U.S. territories and possessions. DoD newspapers shall use voting materials provided by the Director, Federal Voting Assistance Program; the OSD; and the Military Departments. Such information is designed to encourage DoD personnel to register as voters and to exercise their right to vote as outlined in DoD Directive 1000.4.  

(m) DoD publications shall comply with DoD Instruction 1100.13 pertaining to polls, surveys, and straw votes.

(1) The DoD Components and subordinate levels may authorize polls on matters of local interest, such as soldier of the week, and favorite athlete.

(2) A DoD publication shall not conduct a poll, a survey, or a straw vote relating to a political campaign or issue.

(3) Opinion surveys must be in compliance with Military Service regulations.

(n) DoD newspapers will support officially authorized fund-raising campaigns (e.g., Combined Federal Campaign (CFC)) within the Department of Defense in accordance with DoD Directive 5035.1. News coverage of the campaign will not discuss monetary goals, quotas, competition or tallies of solicitation between or among agencies. To avoid any appearance of endorsement, features and news coverage will discuss the campaign in general and not promote specific agencies within the CFC. Agencies may be mentioned routinely but must not be a main focus of features and news coverage.

(o) DoD publications shall not:

(1) Contain any material that implies that the DoD Components or their subordinate levels endorse or favor a specific commercial product, commodity, or service.

(2) Subscribe, even at no cost, to a commercial or feature wire or other service whose primary purpose is the advertisement or promotion of commercial products, commodities, or services.

(3) Monitor and evaluate overall mission effectiveness within the Department of Defense for matters under this part.

(b) The Director, American Forces Information Service, shall:

(1) Develop and oversee the implementation of policies and procedures pertaining to the management, content, and publication of DoD publications encompassed by this part.

(2) Serve as DoD point of contact with the Joint Committee on Printing, Congress of the United States, for matters under this part.

(3) Serve as the DoD point of contact in the United States for Combatant Command newspapers.

(b) The Director, American Forces Information Service, shall:

(1) Develop and oversee the implementation of policies and procedures pertaining to the management, content, and publication of DoD publications encompassed by this part.

(2) Serve as DoD point of contact with the Joint Committee on Printing, Congress of the United States, for matters under this part.

publication in DoD publications may be made available to requesters if the information can be released as provided in DoD Directive 5400.7 and DoD 5400.1.

(3) Editorial policies of DoD publications shall be designed to improve the ability of DoD personnel to execute the missions of the Department of Defense.

(4) DoD editors of publications covered under this part shall conform to applicable policies, regulations, and laws involving the collection, processing, storage, use, publication and distribution of Information by DoD Components (e.g., libel, photographic image alteration, copyright, sexually explicit materials, classification of information, protection of sensitive information and U.S. Government printing and postal regulations).

(5) DoD publications shall comply with DoD Directive 5400.1 regarding the DoD privacy program.

(b) Establishment of DoD newspapers.

(1) Commanders are authorized to establish Funded newspapers (appendix A to this part) or CE newspapers (appendix B to this part) when:

(i) A valid internal information mission requirement exists.

(A) Command or installation newspapers provide the commander a primary means of communicating mission-essential information to members of the command. They provide feedback through such forums as letters to the editor columns. This alerts the commander to the emotional status and state of DoD knowledge of the command. The newspaper is used as a return conduit for command information to improve attitudes and increase knowledge.

(B) News reports and feature stories on individuals and organizational elements of the command provide a crossfeed of DoD information, which improves internal cooperation and mission performance. Recognition of excellence in individual or organizational performance motivates and sets forth expected norms for mission accomplishment.

(C) The newspaper improves morale by quelling rumors and keeping members informed on DoD information that will affect their futures. It provides information and assistance to family members, which improve their spirits and thereby the effectiveness of their military service and civilian member. The newspaper encourages participation in various positive leisure-time activities to improve morale and deter alcohol abuse and other pursuits that impair their ability to perform.

(D) The newspaper provides information to make command members aware of the hazards of the abuse of drugs and other substances, and of the negative impact that substance abuse has on readiness.

(E) CE newspapers provide advertisements that guide command members to outlets where they may fulfill their purchasing needs. A by-product of this commercial contact is increased installation-community communication, which enhances mutual support.

(F) The newspaper increases organizational cohesiveness and effectiveness by providing a visual representation of the essence of the command itself.

(G) Good journalistic practices are vital, but are not an end unto themselves. They are the primary means to enhance receptivity of command communication through the newspaper.

(H) The newspaper exists to facilitate accomplishment of the command or installation mission. That is the only basis for the expenditure of DoD resources to produce them.

(ii) A newspaper is determined by the commander and the next higher level of command to be the most cost-effective means of fulfilling the command internal communication requirement.

(2) The use of appropriated funds is authorized to establish a Funded newspaper if a CE newspaper is not feasible. The process of establishing a newspaper must include an investigation of the feasibility of publishing under the CE concept. This investigation must include careful consideration of the potential for real or apparent conflict of interest. If publishing under the CE concept is determined to be feasible, commanders must ensure that they have obtained approval to establish the
§ 247.6

newspaper before authorizing their representatives to negotiate a contract with a CE publisher. (3) DoD newspapers are mission activities. The use of nonappropriated funds for any aspect of their operations is not authorized. (4) Appropriated funds shall not be used to pay any part of the commercial publisher’s costs incurred in publishing a CE publication. (5) Only one DoD newspaper or magazine is authorized for each command or installation. (i) If a newspaper is required at an installation where more than one command or headquarters is collocated, the host commander shall be responsible for publication of one funded or CE newspaper for all. The host command shall provide balanced and sufficient coverage of the other commands, their personnel, and activities in that locality. These commands, or headquarters, shall assist the staff of the host newspaper with coverage. If required by unusual circumstance, a commander other than the host may publish the single authorized newspaper when the majority of affected organizations concur. (ii) This provision is not intended to prohibit the headquarters of a geographically dispersed command that receives its local coverage in the host installation newspaper from publishing a command-wide newspaper; nor is it intended to prohibit a command that has information needs that are significantly different from the majority of the host installation audience from publishing a separate newspaper, when authorized by the designated approving authority. (See appendix E to this part). (iii) Establishment of CE Guides and Installation Maps. When valid communication requirements exist, publications in this category may be established by the commander, if feasible. (See appendix B to this part) Only one CE guide and installation map is authorized for each command or installation. The requirements of paragraph (b)(4) of this section, apply to CE guides and installation maps. These publications shall be approved by the next higher level. Approval authorities shall exercise care not to overburden community advertisers. (iv) Use of trademark. The DoD Components and their subordinate levels shall trademark—State, Federal, or both—the names of their publications when possible. (v) Use of recycled products. The public affairs office shall, whenever possible, based on contractual agreements, use recycled paper for publications covered under this part. (vi) Mailing requirements and sales and distribution of non-DoD publications. See appendix C to this part. (vii) AFIS print media directorate. See appendix D to this part. (viii) DoD command newspaper and magazine review system. See appendix E to this part. (6) When, in the opinion of the Assistant Secretary of Defense for Public Affairs, or the Combatant Command Commander, a Combatant Command newspaper is needed, establishment shall be directed by the Secretary of Defense. Both appropriated and non-appropriated funds may be used in the publication of overseas Combatant Command newspapers. (7) Establishment of magazines. New magazines shall be approved by the Head of the publishing DoD Component. New magazines serving the Military Services shall be approved in accordance with Service procedures. Only one DoD magazine or newspaper is authorized for each command or installation. Magazines are normally financed through appropriated funds. When CE magazines are approved, provisions in this part regarding advertising and contracting for CE publications apply to CE magazines. Magazines must: (i) Serve a clearly defined purpose in support of the mission of the publishing DoD Component, and the purpose must justify the cost. (ii) Not duplicate equivalent magazines serving the same, or substantially the same purpose. (iii) Be published and distributed efficiently and economically. (iv) Be reviewed every two years by the publishing DoD Component to ensure they are in compliance with this part, are mission essential, and are economically achieving their desired objective.
§ 247.7 Information requirements.

The biennial reporting requirement contained in this part has been assigned Report Control Symbol DD-PA(BI) 1638.

APPENDIX A TO PART 247—FUNDED NEWSPAPERS AND MAGAZINES

A. Purpose. Funded newspapers and magazines support the command communication requirements of the DoD Components and their subordinate commands. Normally, printing is accomplished by a commercial printer under contract or in government printing facilities in accordance with DoD Directive 5330.3.1 The editorial content of these publications and distribution are accomplished by the contracting command. Overseas, Funded newspapers are authorized to be printed under contract with the S&N. Where printing by S&N is not feasible because of distance or other factors, Funded newspapers may be printed by other means. These are evaluated on a case-by-case basis with the cognizant DPS office.

B. Name. The name of the publication may include the name of the command or installation, or, the name of the command or installation may appear separately in the nameplate (flag). The emblem of the command or installation may be included in the nameplate, also. When possible, the DoD Components and their subordinate levels shall trademark the names of their publications, as stated in §247.6(d).

C. Masthead. The masthead shall include the names of the commanding officer and the PAO, the names and editorial titles of the primary staff of the publication, and the mailing address and telephone number of the editorial staff, in addition to that required in §247.4(f).

D. News and editorial materials. The commander and the public affairs staff shall generate and select news, information, photographs, editorial, and other materials to be used. Authorized news and information sources include the Office of the Assistant Secretary of Defense for Public Affairs (OASD(PA)), AFIS, the Military Departments, their subordinate levels of command, and other Government Agencies. Civilian community service news and announcements of benefit to personnel assigned to the command or installation and their family members may also be used. Photographic images used will be in compliance with §247.4(r).

E. Assignment of personnel. Military and DoD civilian personnel may not be assigned to duty at the premises of the contract printer to perform any job functions that are part of the business activities or contractual responsibilities of the contract printer. Members of the public affairs staff who produce editorial content may work on the premises as liaison and monitor to specify and coordinate layout and other production details provided for in the command contract with the contract printer. A member of the public affairs staff shall review proof copy to prevent mistakes.

F. Funding. The expense of publishing and distributing Funded newspapers and magazines is charged to appropriated funds of the publishing command.

G. Printing. Printing of a funded publication shall be handled in accordance with DoD Directive 5330.3 in conjunction with the DoD Component’s printing function with public affairs as the office of primary publishing interest. The use of color is authorized if the cognizant commander, the DoD Component’s printing function and the PAO determine it enhances communication.

H. Distribution. Funded publications may be distributed through official channels. Appropriated funds and manpower may be used for distribution of Funded publications, as required.

I. Advertising. Funded publications shall not carry commercial advertising. As a service, the Funded newspaper may carry nonpaid listings of personally owned items and services for sale by members of the command. Noncommercial news stories and announcements concerning nonappropriated fund activities and commissaries may be published in funded publications.

J. Employment and gratuities. DoD personnel shall not accept any gratuities from or employment with any GPO-contracted printers in violation of the DoD 5500.7-R,2 the Joint Ethics Regulation. In addition, DoD personnel whose spouse or children (or other relatives as described in the Joint Ethics Regulation) are offered employment by, or work for, a GPO-contracted printer, must take appropriate action to avoid conflicts of interest.

APPENDIX B TO PART 247—CE PUBLICATIONS

A. Purpose. CE publications consist of DoD newspapers, magazines, guides, and installation maps. They support command internal communications. The commander or public affairs office provides oversight and final approval authority for the news and editorial content of the publication. CE publishers sell advertising to cover costs and secure earnings, print the publications, and may make all or part of the distribution. Periodically, 1

1Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

2See footnote 1 to section A. of this appendix.
CE publishers compete for contracts to publish these publications. Neither appropriated nor nonappropriated funds shall be used to pay for any part of a CE publisher’s costs incurred in publishing a CE publication.

B. Name. The name of the publication may include the name of the command or installation, or the name of the command or installation may be included in the nameplate (flag). The emblem of the command or installation may also be included in the nameplate. When possible, the DoD Components and their subordinates shall trademark the names of their publications, as stated in §247.6(d).

C. Masthead. The masthead shall include the following in addition to that required in §247.4 (i) and (j). “The editorial content of this publication is the responsibility of the commander or installation Public Affairs Office.” The names of the commanding officer and PAO, the names and editorial titles of the staff assigned the duty of preparing the editorial content, and the office address and telephone number of the editorial staff shall be listed in the masthead of DoD newspapers, but is not required in CE guides and installation maps. The names of the publisher and employees of the publisher may be listed separately.

D. News and editorial materials. The commander or the public affairs office shall provide oversight and final approval authority for news, information, photographs, editorial, and other materials to be used in a CE publication in the space allotted for that purpose by written contract with the commercial publisher. Authorized news and information sources include the OASD(PA), AFIS, the Military Departments and their subordinate levels of command, and other Government Agencies. CE contractor personnel may provide material for use in the publication if approved by the commander or PAO, as the commander’s representative. Commercial news and opinion sources, such as AP, UPI, New York Times, etc., are not normally authorized for use in DoD publications except as stated in §247.4(q). Newspapers may publish community service news and announcements of the civilian community for the benefit of command or installation personnel and their families. Imagery used will be in compliance with §247.4(f).

E. Assignment of Personnel. Neither military nor DoD civilian personnel shall be assigned to duty at the premises of the CE publisher. Neither military nor DoD civilian personnel shall perform any job functions that are not part of the business activities or contractual responsibilities of the CE publisher either at the contractor’s facility or the Government facility. The PAO and staff who produce the non-advertising content of the CE publication may perform certain installation liaison functions on publisher premises including monitoring and coordinating layout and design and other publishing details set forth in the contract to ensure the effective presentation of information. One or more members of the public affairs staff shall review proof copy to prevent mistakes. Newspaper text-editing-system pagination and copy terminals owned by the CE publisher may be placed in the command or installation public affairs office under contractual agreement for use by the public affairs staff to coordinate layout and ensure that the preparation of editorial material is performed in such a way as to enhance the efficiency and effectiveness of the printing and publication function performed by the CE publisher. All costs of these terminals shall be borne by the CE newspaper publishers who shall retain title to the equipment and full responsibility for any damage to or loss of such equipment. The relationship between the public affairs staff and employees of the CE contractor is that of Government employees working with employees of a private contractor. Supervision of CE employees; that is, the responsibility to rate performance, set rate of pay, grant vacation time, exercise discipline, assign day-to-day administrative tasks, etc., remains with the CE publisher. Any modification of the contract must be made by the responsible contracting officer. Public affairs staff members must be aware that employees of the contractor are not employees of the government and should be treated accordingly.

F. Distribution of CE publications.

1. A funded newspaper shall not be distributed as an insert to a CE newspaper, unless provided for in the CE contract, nor shall a CE newspaper be distributed as an insert to a funded newspaper.

2. Supplements, clearly labeled as such, and advertising inserts, may be inserted into and distributed with a CE newspaper.

3. The commercial publisher of a CE publication shall make as much of the distribution to the intended readership as possible. CE publications may be distributed through official channels.

4. Except as authorized by the next higher headquarters for special situations or occasions (such as an installation open house), CE publications shall not be distributed outside the intended DoD audience and retirees, which includes family members. Electronic publication on the internet/world wide web is not considered distribution outside the intended DoD audience. The CE publisher may provide complete copies of each specific issue of a CE publication to an advertiser whose advertisement is carried therein.

5. The CE publisher of a CE newspaper will provide the appropriate number of news racks determined by the installation commander for publication distribution. CE publishers are responsible for maintenance of these racks.
6. CE guides, magazines, and installation maps may be delivered in bulk quantities to the appropriate installation offices to distribute these publications through official channels as necessary.

G. Responsibilities regarding advertising.

1. Only the CE publisher shall use the space agreed upon for advertising. While the editorial content of the publication is completely controlled by the installation, the advertising section, including its content, is the responsibility of the CE publisher. The public affairs staff, however, retains the responsibility to review advertisements before they are printed.

2. Any decision by a CE publisher to accept or reject an advertisement is final. The PAO may discuss with a publisher their decision not to run an advertisement, but cannot substitute his judgment for that of the publisher.

3. Before each issue of a CE publication is printed, the public affairs staff shall review advertisements to identify any that are contrary to law or DoD or Military Service regulations, including this part, or that may pose a danger or detriment to DoD personnel or their family members, or that interfere with the command or installation missions. It is in the command’s best interest to carefully apply DoD and Service regulations and request exclusion of only those advertisements that are clearly in violation of this part. If any such advertisements are identified, the public affairs office shall obtain a legal coordination of the proposed exclusion. After coordination, the public affairs office shall request, in writing if necessary, that the commercial publisher delete any such advertisements. If the publisher prints the issue containing the objectionable advertisement(s), the commander may prohibit distribution in accordance with DoD Directive 1325.6.

4. DoD Directive 1325.6 gives the commander authority to prohibit distribution on the installation of a CE publication containing advertising he or she determines likely to promote a situation leading to potential riots or other disturbances, or when the circulation of such advertising may present a danger to loyalty, discipline, or morale of personnel. Each commander shall determine whether particular advertisements to be placed by the publisher in a CE publication serving the command or installation may interfere with successful mission performance. Some considerations in this decision are the local situation, the content of the proposed advertisement, and the past performance of the advertiser. Prior to making a determination to prohibit distribution of a CE publication, the commander shall obtain a legal coordination.

5. CE publications may carry paid and nonpaid advertising of the products and services of nonappropriated fund activities and commissaries, if allowed by DoD and Military Service regulations. (See DoD Instruction 1015.22) The Military Departments will coordinate a standard set or ratios of advertising-to-editorial copy for multiples of pages for run of the publication advertising in CE publications that will be included in all DoD Component regulations supplementing this part. The recommended annual average is a ratio of 60/40. Inserts and advertising supplements will not count in the total ad-to-copy ratio; however, the commander may prohibit the distribution of supplemental advertising deemed excessive.

7. Bingo games and lotteries conducted by a commercial organization whose primary business is conducting lotteries may not be advertised in CE publications. Non-lottery activities (such as dining at a restaurant or attending a musical performance) of a commercial organization whose primary business is conducting lotteries may be advertised in CE publications. Exceptions are allowed for authorized State lotteries, lotteries conducted by a not-for-profit organization or a governmental organization, or conducted as a promotional activity by a commercial organization and clearly occasional and ancillary to the primary business of that organization. An exception also pertains to any gaming conducted by an Indian tribe under 25 U.S.C. 2720. See section D. of appendix C to this part.

H. CE guides and maps.

1. The name of the publication may include the name and emblem of the command or installation.

2. At the discretion of the commander, an installation telephone directory may be included as a section of a CE guide. The telephone section shall be part of the guide contract specifications. Separate contracts for CE telephone directories are not authorized. Over-run printing of the telephone directory: yellow pages section of the installation guide is authorized. The number of guides with integral telephone directories and the number of over-run copies of the telephone directory:yellow pages will be clearly specified in the single guide contract. Required communication security information shall be printed on the first page of the telephone section and not on the cover of the guide. The cover of the guide may notify users that the publication contains the telephone directory.
3. CE contracts for guides and maps shall establish firm delivery dates and shall contain provisions to ensure distribution is controlled by the command. Delivery dates may vary for guides and maps to make them more attractive to advertisers. The contract provisions shall specify delivery dates.

1. Employment and gratuities. DoD personnel shall not accept any gratuities from or employment with any CE publisher in violation of DoD Directive 5500.7-R. In addition, DoD personnel whose spouse or children (or other relations as described in DoD Directive 5500.7-R) are offered employment by, or work for, a CE publisher, must take appropriate action to avoid conflicts of interest.

2. Contracting for a CE publication. The DoD Components and their subordinate commands are authorized to contract in writing for CE publications. The underlying premise of the CE concept is that the DoD Components and their subordinate commands will save money by transferring certain publishing and distribution functions to a commercial publisher selected through a competitive process. The CE publication is printed and delivered to the command, installed, or its readership in accordance with the terms of a written contract. Oral contracts are not acceptable. The right to sell and circulate advertising to the complete readership in the CE publication provides the publisher revenue to cover costs and secure earnings. The command or installation guarantees first publication and distribution guarantees first publication and distribution of locally-produced editorial content in the publication. The publication becomes the property of the command, installation, or intended reader upon delivery in accordance with terms of the contract.

2. Contracting process. Whether a first time initiative to establish a CE publication or a recompetition of an existing CE contract, the process must start with advance planning of the CE contract and the market of potential advertisers and competitors for the job. The CE contract solicitation and the contract itself must contain a statement of work that describes in legally sufficient detail the Government’s requirements and the conditions and restrictions under which the contractor will perform. The cognizant contracting officer for the CE contracting action shall be the contracting officer which normally provides contracting support to the command for service contracts and other procurements of a general nature which are above the simplified small purchase threshold. The contracting officer shall combine the statement of work with appropriate contractual terms and conditions, using 48 CFR chapter 1 and II as guides, although CE contracts are not subject to the FAR or DFARS, because they do not involve the expenditure of appropriated funds. The resulting solicitation and contract shall completely identify the rights and obligations of both parties. Proposals shall be solicited from all known commercial publishers who could potentially become the CE contractor. Upon evaluation of the competing proposals by the Source Selection Advisory Committee (SSAC) and selection of a winner by the selecting official, the CE contract shall be awarded by the contracting officer. The CE contract shall not require the contractor to pay money to the command or to provide goods, services, or other consideration not directly related to the CE publication. In the event that only one offer is received, the SSAC may recommend to the selecting official that no award be made or that the contracting officer enter into negotiations with the sole offeror to obtain the best possible service and product for the Government.

3. Statement of Work (SOW). The SOW should be written to have the CE contractor perform as many of the publishing and distribution functions as practical to generate maximum savings to the Department of Defense. In so doing, care must be taken to balance Government requirements with a realistic view of the advertising revenue potential so as to achieve a contract that is commercially viable. The command’s internal information needs shall be paramount. Some of the key issues that shall be addressed in the SOW follow:

a. A general description of the scope of the proposed contract including the name and nature of the publication involved; for example, weekly newspaper, monthly magazine, annual guide and installation map. Normally, guides and installation maps are included in the same contract.

b. A description of editorial content to be carried; e.g., news, features, supplements, and factual information, along with provisions addressing the possible inclusion of contractor-furnished advertising supplements for newspapers, provided any such supplement shall have the prior approval of the commander.

c. A description of the rules for the inclusion of advertising in the publication, substantially as follows: (1) paid political advertisements for a candidate, party, or which advocate a particular position on a political issue, including advertisements advocating a position on any proposed DoD policy or policy under review, or which advocate lobbying elected officials on a specific issue; (2) advertisements for any establishment declared “off limits” by the command; (3) advertisements that are contrary to law or to DoD or Military Service regulations or that...
in the government’s opinion pose a danger or
detriment to DoD personnel or their family
members, or that interfere with the com-
mand or installation missions; (4) advertise-

to the FAR (48 CFR chapter I) or the DFARS
(48 CFR chapter II), the FAR contains many
clauses that are useful in protecting the
interests of the Government. The following
clauses may be helpful in obtaining the best
possible CE publication:
a. Status of FAR clause. To clarify the sta-
tus of FAR clauses appearing in CE con-
tracts, the following clause shall be included
in all new CE contracts:

“The (name of DoD installation/unit/orga-
nization) is an element of the United States
Government. This agreement is a United
States Government contract authorized
under the provisions of DoD Instruction
5120.4 as an exception to the Government

b. Option clause. Insert a clause substan-

the term of the CE publisher contract:

(1) “The Government may extend the term
of this contract by written notice to the con-

riod of time in which the contracting officer
has to exercise the option]; provided that the
Government shall give the contractor a pre-

contract expires. The preliminary notice
does not commit the government to exercise
the option.” In the case of base closure or re-
alignment the publisher has the right to re-
quest a renegotiation of the contract.

(2) “If the Government exercises this op-

ered to include this option provision:

(3) “The total duration of this contract, in-
cluding the exercise of any options under
this clause, shall not exceed 6 years.”

c. Default clause. Insert the following
clause in solicitations and contracts:

Office of the Secretary of Defense

(1) “The Government may, by written notice of default to the contractor, terminate this contract in whole or in part if the contractor fails to:
(a) Deliver all the CE publications in the quantities required or to perform the services within the time specified in this contract or any extension;
(b) Make progress, so as to endanger performance of this contract;
(c) Perform any of the other provisions of this contract.”
(2) “If the Government terminates this contract in whole or in part, it may acquire, under the terms and in the manner the contracting officer considers appropriate, supplies or services similar to those terminated. However, the contractor shall continue the work not terminated.”
(3) “The rights and remedies of the Government in this clause are in addition to any other rights and remedies provided by law or under this contract.”

4. Termination for convenience of the Government. Insert the following clause in solicitations and contracts: “The contracting officer, by written notice, may terminate this contract, in whole or in part if the services contracted for are no longer required by the Government, or when it is in the Government’s interest, such as with installation closures. Any such termination shall be at no cost to the Government.” The Government will use its best efforts to mitigate financial hardship on the publisher.

5. Term of contract. CE contracts may be entered into for an initial period of up to 2 years, and may contain options to extend the contract for one or more additional periods of 1 or 2 years duration. The total period of the contract, including options, shall not exceed 6 years, after which the contract must be recompeted.

6. Exercise of options. Under normal circumstances, when the contractor is performing satisfactorily, options for additional periods of performance should be exercised. However, the exercise of the option is the exclusive right of the Government.

7. Modification of the contract. Any changes to the SOW or other terms and conditions of the contract shall be made by written contract modification signed by both parties.

8. SSAC. The commander shall appoint an SSAC. The committee shall participate in the development of the Source Selection Plan (SSP) before the solicitation of proposals, evaluate proposals, and recommend a source to the selecting official. Since cost is not a factor in the evaluation, award will be based on technical proposals, the offeror’s experience and qualifications, and past performance.

a. The SSAC shall consist of a minimum of five voting members: a chairperson, who shall be a senior member of the command; senior representatives from public affairs and printing; and a minimum of two other functional specialists with skills relevant to the selection process. Each SSAC shall have non-voting legal and contracting advisors to assist in the selection process.

b. In arriving at its recommendations, the SSAC shall follow the SSP and avail itself of all relevant information, including the proposals submitted, independently derived data regarding offerors’ performance records, the results of on-site surveys of offerors’ facilities, where feasible, and in appropriate cases, personal presentations by offerors.

c. The work of the SSAC must be coordinated with the contracting officer to ensure that the process is objective and fair. All communications between the offerors and the Government shall be through the contracting officer. No member of the SSAC or the selecting official shall communicate directly with any offeror regarding the source selection.

d. In cases where a losing competitor requests a debriefing from the contracting officer, members of the SSAC may be called upon to participate so as to give the losing competitor the most thorough explanation practical as to why its proposal was not successful. No information regarding competitors’ proposals shall be discussed with the unsuccessful offerors during debriefings, discussions, or negotiations.

9. SSP. A SSP (see sample SSP at attachment 1 to this appendix) must be developed early in the planning process to serve as a guide for the personnel involved and ensure a fair and objective process and a successful outcome. The contracting officer is primarily responsible for development of the SSP, in coordination with the PAO and other members of the SSAC. Ideally, the SSP should be completed and approved prior to issuance of the solicitation; it must be completed and approved before the receipt of proposals.

10. Evaluation criteria and proposal requirements. The solicitation must specify, in relative order of importance, the factors the Government will consider in selecting the most advantageous proposal. In addition, the solicitation must specify the types of information the proposal must contain to be properly evaluated. These two aspects of the solicitation must closely parallel one another. The contracting officer is primarily responsible for development of these two solicitation provisions, in coordination with the PAO, legal counsel, and members of the SSAC.

a. Evaluation criteria for award. Drawing upon the SSP, this feature of the solicitation must advise offerors what factors the Government will consider in evaluating proposals and the relative importance of each factor. The sample SSP (attachment 1 to
this appendix) provides an example of criteria that might be used. Note that under the “Services and/or Items Offered” factor, paragraph E.2.b, of attachment 1 to this appendix, it is necessary to list and indicate the relative importance of services and/or items above the minimum requirements of the SOW that the command would consider desirable and that, if offered, will enhance the offeror’s evaluation standing. The offer of services and/or items not listed in the evaluation criteria shall not be considered in the evaluation of proposals, but may be accepted in the contract award if deemed valuable to the Government, PROVIDED the service and/or item involved is directly related to producing the publication and not in violation of any other statute or regulation. Examples of items that cannot be considered during the evaluation process are: press kits, laminated maps, economic development reports, or other separate publications not an integral part of the CE publication.

b. Proposal requirements. This provision of the solicitation must describe the specific and general types of information necessary to be submitted as part of the proposal to be evaluated. Offerors shall be notified that unnecessarily elaborate proposals are not desired.

ATTACHMENT 1 TO APPENDIX B TO PART 247—SSP

A. Introduction

1. The objectives of this plan are:
   a. To ensure an impartial, equitable, and thorough evaluation of all offerors’ proposals in accordance with the evaluation criteria presented in the request for proposals (RFP).
   b. To ensure that the contracting officer is provided technical evaluation findings of the SSAC in such a manner that selection of the offer most advantageous to the Government is ensured.
   c. To document clearly and thoroughly all aspects of the evaluation and decision process to provide effective debriefings to unsuccessful offerors, to respond to legal challenges to the selection, and to ensure adherence to evaluation criteria.

2. This plan will be used to select a CE contractor for publication of the newspaper (CE guide, magazine, or installation map) and will:
   a. Give each SSAC member a clear understanding of his or her responsibilities as well as a complete overview of the evaluation process.
   b. Establish a well-balanced evaluation structure, equitable and uniform scoring procedures, and a thorough and accurate appraisal of all considerations pertinent to the negotiated contracting process.
   c. Provide the selecting official with meaningful findings that are clearly presented and founded on the collective, independent judgment of technical and managerial experts.
   d. Ensure identification and selection of a contractor whose final proposal offers optimum satisfaction of the Government’s technical and managerial requirements as expressed in the RFP.
   e. Serve as part of the official record for the evaluation process.

B. Organization and Staffing

1. The SSAC will consist of the Chairperson and a minimum of four other voting committee members plus the non-voting advisors to the SSAC.

2. Chairperson of the Source Selection Advisory Committee (C/SSAC):
   a. Reviews the SSP.
   b. Approves membership of the SSAC.
   c. Analyzes the evaluation and findings of the SSAC and applies weights to the evaluation results.

   d. Provides legal review of all documents supporting the selection decision to ensure legal sufficiency and consistency with the evaluation criteria in the RFP and SSP.
   e. Advises the selecting official on the legality of the selection decision.

D. Administrative Instructions

1. Evaluation overview. The advisory committee will operate with maximum flexibility. Collective discussion by evaluators at committee meetings of their evaluation findings is permitted in the interchange of viewpoints regarding strengths, weaknesses, and deficiencies noted in the proposals relating to evaluation items. Evaluators will not suggest or disclose numerical scores or other information regarding the relative standing of offerors outside of committee meetings.

2. Evaluation procedure. The evaluation of offers is based on good judgment and a thorough knowledge of the guidelines and criteria applicable to each evaluation factor.
   a. Numerical scoring is merely reflective of the composite findings of the SSAC. The evaluation scoring system is used as a tool to assist the Chairperson of the SSAC in determining the proposal most advantageous to the Government.
   b. The most important documents supporting the contract award will be the findings, conclusions, and reports of the SSAC.

3. Safeguarding data. The sensitivity of the evaluation process is such that inadvertent release of information could be a source of considerable misunderstanding and embarrassment to the Government. It is imperative, therefore, for all members of the SSAC to avoid any unauthorized disclosures of information pertaining to this evaluation. Evaluation participants will observe the following rules:
   (1) All offeror and evaluation materials will be secured when not in use (i.e., during breaks, lunch, and at the end of the day).
   (2) All attempted communications by offeror’s representatives shall be directed to the contracting officer. No communications between members of the SSAC or the selecting official and offerors outside of committee meetings is permitted in the interchange of views.

E. Technical Evaluation Procedures

1. Evaluation process. Proposals will be evaluated based on the following criteria as indicated in Section M of the solicitation: The evaluation worksheet (attachment 2 to this appendix) shall be used to score the technical factors. Using the technical evaluation worksheet, each member of the SSAC will independently review each proposal and assign an appropriate number of points to each factor being considered. Point scores for each factor will range from “0” to “5” based on the committee member’s evaluation of the proposal. Upon completion of individual evaluations, the group will meet in committee with the Chairperson and arrive at a single numeric score for each factor in the proposal.

2. Criteria. An example of applicable evaluation criteria and their relative order of importance are listed below in paragraphs E.2. a. through d. of this appendix. Criteria and weights are provided as an example only.

   a. Technical and production capability. Scores will range from “0” (unacceptable), to “5” (exhibits state-of-the-art, award winning, or clearly superior technical ability to produce the required newspaper, magazine, guide, or installation map). Factors to be considered for newspaper contracts include: level of automation; compatibility of automation with existing PAO automation (unless other automation is provided); printing capability; production equipment; physical plant (capabilities); and driving distance to the plant. Similar factors may be considered for magazines, guides and installation maps.
   b. Services and/or items offered. Scores will range from “0” (unacceptable), to “5” (the offer of equipment, such as automation equipment; or services, such as editorial or photographic services as set forth in the contract solicitation that will greatly enhance the newspaper and/or its production). Factors to be considered for newspapers include: offer of automation equipment and the quality and amount of equipment offered; the quality and amount of services offered; the usefulness of the services and/or items to the

(3) Neither SSAC members or the selecting official shall disclose anything pertaining to the source selection process to any offeror except as authorized by the contracting officer.

(4) Neither SSAC members or the selecting official shall discuss the substantive issues of the evaluation with any unauthorized individual, even after award of the contract.
public affairs office in enhancing the newspaper; the impact of the services and/or items on other parts of the contract. Similar factors may be considered for magazines, guides and installation maps. The offer of equipment or services not specifically related to producing the publication will not result in the assignment of a higher score.

c. Past performance record. Scores will range from “0” (no experience in newspaper, magazine, guide, or installation map publishing and/or unsatisfactory, previous performance), to “5” (long-term, highly successful experience publishing similar newspapers, magazines, guides, or installation maps).

Factors to be considered include: demonstrated ability to successfully produce a CE or similar publication; demonstrated printing ability (types of printing, history of newspaper, magazine, guide, or installation map printing); demonstrated success in contract performance in a timely and responsive manner; demonstrated capability to sell advertising and successfully recoup publication costs.

d. Management approach. Scores will range from “0” (approach unacceptable), to “5” (proposal demonstrates a sound and innovative approach to interfacing with the PAO and managing the CE publication operation).

Factors to be considered include: The offeror’s proposed approach to:

1. Interfacing with the PAO staff.
2. Controlling the quality and timeliness of the finished product.
3. Sale of ads of the type that enhance the publication’s image in the community and with the readership at large.
4. Ensuring that contractor’s personnel are properly supervised and managed.

3. Past performance. Points will be assigned to the final score of each factor in a proposal as determined by multiplying the score assigned (e.g., “0,” “1,” “2,” “3,” “4,” or “5”) by the relative weight of the individual criterion as indicated:

CRITERION 1: Score 2 (2 x 10), Total Points = 20

4. Report of findings and recommendations. After the SSAC has completed final evaluation of proposals and all weighting has been completed, the committee will prepare a written report of its findings and recommendations, setting forth the consensus of the committee and its composite scores (Sample at attachment 3 to this appendix).

The Chairperson will sign the report to confirm its accuracy and his agreement with the recommendation. All copies of proposals and evaluation worksheets will be returned to the contracting officer.

An exception also pertains to any gaming conducted by an Indian tribe under 25 U.S.C. 2720. Lottery is defined as containing the following three elements:

§ 249.3 Definitions.
Contracted fundamental research. Includes grants and contracts that are (a) funded by budget Category 6.1 (“Research”), whether performed by universities or industry or (b) funded by budget Category 6.2 (“Exploratory Development”) and performed on-campus at a university. The research shall not be considered fundamental in those rare and exceptional circumstances where the 6.2-funded effort presents a high likelihood of disclosing performance characteristics of military systems or manufacturing technologies that are unique and critical to defense, and where agreement on restrictions have been recorded in the contract or grant.

DoD personnel. All civilian officers and employees, including special Government employees, of all DoD Components, and all active duty officers (commissioned and warrant) and enlisted members of the Army, Navy, Air Force, and Marine Corps.

§ 249.4 Policy.
It is DoD policy to:
(a) Encourage the presentation of scientific and technical information generated by or for the Department of Defense at technical meetings consistent with United States laws and the requirements of national security.
(b) Permit DoD Components to conduct scientific and technical conferences, and to permit DoD Component personnel to attend and participate in scientific and technical conferences that are of demonstrable value to the Department of Defense, and consult with professional societies and associations in organizing meetings of the societies and associations that are mutually beneficial.
(c) Allow the publication and public presentation of unclassified contracted fundamental research results. The mechanism for control of information generated by DoD-funded contracted fundamental research in science, technology, and engineering performed under contract or grant at colleges, universities, and non-government laboratories is security classification. No other type of control is authorized unless required by law.
(d) Release information at meetings in a manner consistent with statutory
§ 249.5  Procedures.

(a) General. Conferences organized by DoD Components, DoD contractors, scientific and engineering societies, and/or professional associations, among others, can enhance the value of research and development sponsored by the Federal Government, and in such cases require full cooperation of all involved parties to obtain maximum benefits. Every effort should be made to develop presentations that are appropriate for delivery to the widest appropriate audience consistent with the interests of national security. In general, national security concerns related to the disclosure of DoD scientific and technical information at meetings are influenced by two mutually dependent factors; i.e. the sensitivity of the material to be presented, and the identity of proposed recipients of the material. These considerations and their impact on proposed meetings can be evaluated only through consultation among authors, conference organizers, and officials responsible for authorizing release of DoD information. The purpose of this consultation is to ascertain which combination of factors will support the most productive exchange of information consistent with U.S. laws and the requirements of national security. Interaction among concerned parties should commence at least six months before the meeting date.

(b) Information to be presented. Possibilities range from completely unclassified/unlimited through classified information. Other considerations having an impact on meeting organization include, but are not limited to, proprietary data, export-controlled data, Privacy Act information, and foreign government-provided data.

(1) Classified information may be presented only at meetings organized in accordance with DoD Directive 5200.12.  

(2) Unclassified export-controlled DoD technical data may be presented only in sessions where recipients are eligible to receive such data as established by 32 CFR part 250.  

(3) Presentation of proprietary information, privacy data, and foreign government-provided data requires approval of the party controlling that information.

(c) Location of meetings and access controls. To a large degree location of and access to meetings are dependent on the type of material to be presented.

(1) Papers which have been cleared for public release may be presented at any location and before any audience.

2See footnote 1 to §249.1.
(2) Criteria established by 32 CFR part 250 for releasing unclassified export-controlled DoD technical data also are applicable to presentations containing such data. Unclassified export-controlled DoD technical data may be released to:

(i) United States and Canadian government officials, with the understanding that the information is to be used for official government purposes only. Technical data that falls outside the exemptions for export to Canada in United States export regulations may not be transferred under this and the following provision.

(ii) United States and Canadian citizens and resident aliens when disclosure is subject to the terms of a current DD Form 2345 "Militarily Critical Technical Data Agreement."

(iii) Foreign nationals and United States citizens acting as representatives of foreign interests where disclosure is made in accordance with a license, approval, or exemption under the International Traffic in Arms Regulations or the Export Administration Regulations.

(3) Non-government organizations who organize meetings in the United States at which unclassified export-controlled DoD technical data is to be presented will be required to ensure that physical access to the presentations is limited to those eligible to receive such data (as described in paragraph (c)(2) of this section) before being permitted to present such data.

(4) Meetings sponsored by a United States Government agency at which unclassified export-controlled DoD technical data is to be presented may be held in any location in the United States when control of physical access to the sessions is provided by a United States Government employee or a contractor specifically tasked by Department of Defense for that duty.

(5) Presentation of unclassified export-controlled DoD technical data in meetings held outside the United States may be permitted on a case-by-case basis after review of the situation by officials authorized to do so by the Director of Defense Research and Engineering, Office of the Under Secretary of Defense (Acquisition) or heads of DoD Components.

(6) When it is necessary to limit access to presentations of DoD-related scientific and technical papers, and private or professional organizations are unwilling or unable to provide required controls, DoD Components may, at their discretion, conduct meetings which correlate in place and topic with open meetings of such societies to take advantage of the fact that interested parties are already gathered.

(7) Classified information may be presented only at meetings held in a secure government or cleared contractor facility, unless a waiver has been granted in accordance with DoD Directive 5200.12. Personnel access controls for classified meetings also are specified in DoD Directive 5200.12.

(d) Foreign representative access to meetings. (1) For classified meetings sponsored by the Department of Defense and conducted at a contractor facility, guidelines for foreign participation are established in DoD Directive 5230.113 and DoD Instruction 5230.20. Guidelines for the reporting of foreign participation in classified meetings are contained in DoD Directive 5200.12.

(2) For unclassified meetings sponsored and conducted by organizations other than the Department of Defense, the sole responsibility of determining whether foreign access is appropriate rests with the sponsor. The level and type of DoD participation in the meeting shall take into account the presence of foreign representatives, if any.

(3) In order to advance the interests of an international military agreement or understanding, the Department of Defense may wish to release to certain foreign nationals unclassified export-controlled DoD technical data being presented at unclassified, restricted access meetings sponsored and conducted by non-government societies and associations. Release in such cases by Department of Defense shall be pursuant to appropriate exemptions to the International Traffic in Arms Regulations (22 CFR part 126), which relieves the society or association from responsibility to obtain export approvals for these exceptions.
§ 249.5  

Presentations. DoD sponsorship is for the sole purpose of granting access to DoD-sponsored technical information. When societies or associations agree to DoD sponsorship of foreign attendance under these circumstances, the visit request procedures established in DoD Instruction 5230.20 shall be used to obtain and process requests from foreign representatives for sponsorship, and to inform the requestor and the meeting sponsor of the decision to release the information and conditions pertaining to such release.

(e) Clearance for public release. A review is required by DoD Directive 5230.95 for all public releases by DoD personnel, including all presentations from DoD laboratories. DoD contractors are required to submit proposed presentations for review if that is a specific contractual requirement. Papers resulting from unclassified contracted fundamental research are exempt from prepublication controls and this review requirement.

(1) Proposed presentations shall be reviewed to:

(i) Determine what information, if any, in the submitted paper and/or abstract is subject to security classification, is subject to withholding from public disclosure under 32 CFR part 250 or is otherwise restricted by statute, regulation or DoD policy.

(ii) Recommend specific changes, if any, to allow the paper to be presented as requested.

(iii) Indicate on the document its releasibility in original and amended versions.

(iv) Provide information on appeal procedures to be followed if requested clearance is denied.

(2) Reviews shall be completed as speedily as possible after receipt of the document by an appropriate public clearance authority. If a review cannot be completed in a timely manner, an explanation shall be provided. Every effort shall be made to complete the review in:

(i) Ten working days for all abstracts.

(ii) Twenty working days for papers submitted for presentation at sessions that will have unlimited access.

(iii) Thirty working days for papers submitted for presentation at unclosed sessions that will have limited access.

(iv) Thirty working days for papers submitted for presentation at sessions that will be classified.

(f) Voluntary submissions. Authors or organizations not subject to mandatory reviews may submit their papers to DoD activities to obtain advice on national security concerns. Resources permitting, DoD public release activities shall arrange review of the papers and

(1) Inform the author that the Department of Defense has no objection to public presentation or

(2) Inform the author that the Department of Defense advises that presentation in a public forum would not be in the interest of national security, and provide appropriate reasons for the determination. The clearance for public presentation, paragraph (f)(1) of this section, satisfies an exemption from requirements for government review under the International Traffic in Arms Regulations. The latter determination, paragraph (f)(2) of this section, does not legally bar presentation. It is an advisory statement that, for the presentation concerned, Department of Defense is not providing the authority for public release. Such DoD action does not preclude recourse by the author through normal State Department export license procedures.

(g) Submission procedures. (1) Authors shall submit full text and/or abstract of paper for review before submitting it to conference organizers. Clearance of abstract does not satisfy any requirement for clearance of the full paper. Requests for review shall identify the conference sponsors, site, and access restrictions specified by the session organizers, and shall state whether the paper is for presentation at a session that is to be unclassified with unlimited access, unclassified with limited access, or classified. Level of classification and access restrictions shall be specified, where appropriate.

(2) Papers shall be submitted for public and/or foreign disclosure clearance in sufficient time to allow adequate review and possible revision. Authors should allow adequate time for their...
presentation to reach the appropriate review authority in addition to the review targets set in paragraph (e)(2) of this section.
(3) At time of submission of the full text of the presentation to the Conference Program Committee, authors should state that their papers have been approved for presentation at the meeting and specify the security level of degree of access control required. When submitting abstracts that have been cleared for release, authors should indicate when and what kind of approval is expected on the presentation in its final form.
(h) In accordance with DoD Directive 3200.12, copies of proceedings and/or reprints of papers sponsored by the Department of Defense for all scientific and technical meetings will be provided to the Defense Technical Information Center, Defense Logistics Agency, Cameron Station, Alexandria, VA 22304 for secondary distribution.

§ 250.2 Responsibilities.
(a) The Under Secretary of Defense for Acquisition (USD(A)) shall be responsible for implementing this part.
(b) The Deputy Under Secretary of Defense for Research and Advanced Technology shall:
(1) Administer and monitor compliance with this part.
(2) Provide, when necessary, technical assistance to DoD Components in determining sufficiency of protection of unclassified technical information that is to be presented at meetings.
(3) Provide, upon request, information and advice regarding controls on unclassified DoD information to scientific and engineering societies and professional associations.
(c) The Under Secretary of Defense for Policy (USD(P)) shall develop and promulgate, as required, policy guidance to DoD Components for implementing this instruction.
(d) The Deputy Under Secretary for Defense (Policy) (DUSD(P)) shall establish and monitor compliance with policies and procedures for disclosure of classified information at meetings.
(e) The Heads of DoD Components shall:
(1) Promulgate this part within 180 days.
(2) Designate an individual who will be responsible for reviewing and approving requests for export-controlled meetings outside the United States, and for ensuring compliance with this part.

§ 250.1 Purpose.
This part establishes policy, prescribes procedures, and assigns responsibilities for the dissemination and withholding of technical data.

§ 250.2 Applicability and scope.
(a) This part applies to:
(1) All unclassified technical data with military or space application in the possession of, or under the control of, a DoD Component which may not be exported lawfully without an approval, authorization, or license under E.O. 12470 or the Arms Export Control Act. However, the application of this part is limited only to such technical data that disclose critical technology with military or space application. The release of other technical data shall be accomplished in accordance with DoD Instruction 5200.21 and DoD 5400.7–R.
(2) The Office of the Secretary of Defense (OSD) and activities support administratively by OSD, the Military Departments, the Organization of the Joint Chiefs of Staff, the Defense Agencies, and the Unified and Specified Commands (hereafter referred to collectively as “DoD Components”).
(b) This part does not:
§ 250.3 Definitions.

(a) Qualified U.S. contractor. A private individual or enterprise (herein-after described as a “U.S. contractor”) that, in accordance with procedures established by the Under Secretary of Defense for Research and Engineering, certifies, as a condition of obtaining export-controlled technical data subject to this Directive from the Department of Defense, that:

(1) The individual who will act as recipient of the export-controlled technical data on behalf of the U.S. contractor is a U.S. citizen or a person admitted lawfully into the United States for permanent residence and is located in the United States.

(2) Such data are needed to bid or perform on a contract with the Department of Defense, or other U.S. Government agency, or for other legitimate business purposes in which the U.S. contractor is engaged, or plans to engage. The purpose for which the data are needed shall be described sufficiently in such certification to permit an evaluation of whether subsequent requests for data, pursuant to §250.5(d)(2) are related properly to such business purpose.

(3) The U.S. contractor acknowledges its responsibilities under U.S. export control laws and regulations (including the obligation, under certain circumstances, to obtain an export license prior to the release of technical data within the United States) and agrees that it will not disseminate any export-controlled technical data subject to this part in a manner that would violate applicable export control laws and regulations.

(4) The U.S. contractor also agrees that, unless dissemination is permitted by §250.5(h), it will not provide access to export-controlled technical data subject to this part to persons other than its employees or persons acting on its behalf, without the permission of...
§ 250.3

the DoD Component that provided the technical data.

(5) To the best of its knowledge and belief, the U.S. contractor knows of no person employed by it, or acting on its behalf, who will have access to such data, who is debarred, suspended, or otherwise ineligible from performing on U.S. Government contracts; or has violated U.S. export control laws or a certification previously made to the Department of Defense under the provisions of this part.

(6) The U.S. contractor itself is not debarred, suspended, or otherwise determined ineligible by any agency of the U.S. Government to perform on U.S. Government contracts, has not been convicted of export control law violations, and has not been disqualified under the provisions of this part. When the certifications required by paragraphs (a) (5) and (6) of this section, cannot be made truthfully, the U.S. contractor may request the certification be accepted based on its description of extenuating circumstances.

(b) Controlling DoD Office. The DoD activity that sponsored the work that generated the technical data or received the technical data on behalf of the Department of Defense and therefore has the responsibility for determining the distribution of a document containing such technical data. In the case of joint sponsorship, the controlling office is determined by advance agreement and may be either a party, a group, or a committee representing the interested activities or DoD Components. (The controlling DoD office is identified on each export-controlled document in accordance with DoD Directive 5230.24.

(c) Critical Technology. Technologies that consist of (1) arrays of design and manufacturing know-how (including technical data); (2) keystone manufacturing, inspection, and test equipment; (3) keystone materials; and (4) goods accompanied by sophisticated operation, application, or maintenance know-how that would make a significant contribution to the military potential of any country or combination of countries and that may prove detrimental to the security of the United States (also referred to as militarily critical technology).

(d) Other legitimate business purposes. Include:

(1) Providing or seeking to provide equipment or technology to a foreign government with the approval of the U.S. Government (for example, through a licensed direct foreign military sale).

(2) Bidding, or preparing to bid, on a sale of surplus property.

(3) Selling or producing products for the commercial domestic marketplace or for the commercial foreign marketplace, providing that any required export license is obtained.

(4) Engaging in scientific research in a professional capacity.

(5) Acting as a subcontractor to a concern described in paragraphs (d) (1) through (4) of this section; or

(6) Selling technical data subject to this part in support of DoD contractors or in supporting of the competitive process for DoD contracts, provided such sales are limited solely to DoD contractors or potential DoD contractors who also are qualified U.S. contractors and provided such technical data are related to the purpose for which the qualified U.S. contractor is certified, or selling technical data to foreign contractors or governments overseas after receiving the required export license or approval by the U.S. Government.

(e) Potential DoD contractor. An individual or organization outside the Department of Defense declared eligible for DoD information services by a sponsoring DoD activity declared eligible on the basis of participation in one of the following programs:

(1) The Department of the Army Qualitative Requirements Information Program.

(2) The Department of the Navy Industry Cooperative Research and Development Program.

(3) The Department of the Air Force Potential Contractor Program.

(4) The DoD Scientific and Technical Program; or

(5) Any similar program in use by other DoD Components.

(f) Public disclosure. Making technical data available without restricting its dissemination or use.
§ 250.4 Technical data with military or space application, or technical data. Any blueprints, drawings, plans, instructions, computer software and documentation, or other technical information that can be used or be adapted for use to design, engineer, produce, manufacture, operate, repair, overhaul, or reproduce any military or space equipment or technology concerning such equipment.

(h) United States. For the purpose of this part, the 50 States, the District of Columbia, and the territories and possessions of the United States.

§ 250.4 Policy.

(a) In accordance with 10 U.S.C. 140c, the Secretary of Defense may withhold from public disclosure, notwithstanding any other provision of law, any technical data with military or space application in the possession of, or under the control of, the Department of Defense, if such data may not be exported lawfully without an approval, authorization, or license under E.O. 12470 or the Arms Export Control Act. However, technical data may not be withheld under this section if regulations promulgated under either the Order or Act authorize the export of such data pursuant to a general, unrestricted license or exemption in such regulations. (Pertinent portions of such regulations are set forth in §§ 250.7 and 250.8).

(b) Because public disclosure of technical data subject to this part is tantamount to providing uncontrolled foreign access, withholding such data from public disclosure, unless approved, authorized, or licensed in accordance with export control laws, is necessary and in the national interest. Unclassified technical data that are not governed by this part, unless otherwise restricted, shall continue to be made available to the public as well as to state and local governments.

(c) Notwithstanding the authority provided in paragraph (a), of this section, it is DoD policy to provide technical data governed by this part to individuals and enterprises that are determined to be currently qualified U.S. contractors, when such data relate to a legitimate business purpose for which the contractor is certified. However, when such data are for a purpose other than to permit the requester to bid or perform on a contract with the Department of Defense, or other U.S. Government agency, and the significance of such data for military purposes is such that release for purposes other than direct support of DoD activities may jeopardize an important U.S. technological or operational advantage, those data shall be withheld in such cases.

(d) This part may not be used by DoD Components as authority to deny access to technical data to the Congress, or to any Federal, State, or local governmental agency that requires such data for regulatory or other official governmental purposes. Any such dissemination will include a statement that the technical data are controlled by the Department of Defense in accordance with this part.

(e) The authority provided herein may not be used to withhold from public disclosure unclassified information regarding DoD operations, policies, activities, or programs, including the costs and evaluations of performance and reliability of military and space equipment. When such information does contain technical data subject to this part, the technical data shall be excised from that which is disclosed publicly.

(f) This part may not be used as a basis for the release of “limited rights” or “restricted rights” data as defined in 32 CFR 9-201(c) and 9-601(j) of the DoD Acquisition Regulation or that are authorized to be withheld from public disclosure under the Freedom of Information Act (FOIA).

(g) This part may not be used to provide protection for technical data that should be classified in accordance with E.O. 12356 and DoD 5200.1-R.

(h) This part provides immediate authority to cite 5 U.S.C. 552(b)(3) as the basis for denial of the FOIA of technical data currently determined to be subject to the provisions of this part.

§ 250.5 Procedures.

All determinations to disseminate or withhold technical data subject to this part shall be consistent both with the policies set forth in §250.4 of this part, and with the following procedures:
(a) Requests for technical data shall be processed in accordance with DoD Directive 5230.24 and DoD Instruction 5200.21. FOIA requests for technical data subject to this part shall be handled in accordance with the procedures established in DoD 5400.7-R. Such FOIA requests for technical data currently determined to be subject to the withholding authority effected by this part shall be denied under citing the third exemption to mandatory disclosure, and the requester shall be referred to the provisions of this part permitting access by qualified U.S. contractors.

(b) Upon receipt of a request for technical data in the possession of, or under the control of, the Department of Defense, the controlling DoD office shall determine whether such data are governed by this part. The determination shall be based on the following:

(1) The office’s finding 3 that such data would require an approval, authorization, or license for export under E.O. 12470 or the Arms Export Control Act and that such data may not be exported pursuant to a general, unrestricted license (15 CFR 379.3, EAR) (see §250.7) or exemption (22 CFR 125.11, ITAR) (see §250.8).

(2) The office’s judgment that the technical data under consideration disclose critical technology with military or space application. For purposes of making this determination, the Militarily Critical Technologies List (MCTL) shall be used as general guidance. The controlling DoD office may request assistance in making such a determination from the Office of the Under Secretary of Defense for Research and Engineering (OUSDR&E) in accordance with procedures established by that office.

c) The controlling DoD office shall ensure that technical data determined to be governed by this part are marked in accordance with DoD Directive 5230.24.

(d) The controlling DoD office shall authorize release of technical data governed by this part to currently qualified U.S. contractors only, as defined in §250.3(a) of this part, unless one of the following apply:

(1) The qualification of the U.S. contractor concerned has been temporarily revoked in accordance with §250.5(e) of this part; or

(2) The requested data are judged to be unrelated to the purpose for which the qualified U.S. contractor is certified. When release of technical data is denied in accordance with this section, the controlling DoD office shall request additional information sufficient to explain the intended use of the requested data and, if appropriate, request a new certification (see §250.3(a) above) describing the intended use of the requested data; or

(3) The technical data are being requested for a purpose other than to permit the requester to bid or perform on a contract with the Department of Defense or other U.S. Government agency, in which case the controlling DoD office shall withhold such data if it has been determined by the DoD Component focal point (see §250.5(e)(5)) that the significance of such data for military purposes is such that release for purpose other than direct support of DoD-approved activities may jeopardize an important technological or operational military advantage of the United States.

(e) Upon receipt of credible and sufficient information that a qualified U.S. contractor has (1) violated U.S. export control law, (2) violated its certification, (3) made a certification in bad faith, or (4) made an omission or misstatement of material fact, the DoD Component shall revoke temporarily the U.S. contractor’s qualification. Such revocations having the potential for compromising a U.S. Government investigation may be delayed. Immediately upon such revocation, the DoD Component shall notify the contractor and the OUSDR&E. Such contractor shall be given an opportunity to respond in writing to the information upon which the temporary revocation is based before being disqualified. Any U.S. contractor whose qualification has been revoked temporarily may be reinstated upon presentation of sufficient information showing that the basis for such revocation was in error or has been remedied.

3 May require consultation with the Department of State or the Department of Commerce, as appropriate.
§ 250.6 Responsibilities.

(a) The Under Secretary of Defense for Research and Engineering (USDR&E) shall have overall responsibility for the implementation of this Directive and shall designate an office to:

(1) Administer and monitor compliance with this Directive.

(2) Receive and disseminate notifications of temporary revocation in accordance with §250.5(e) of this part.

(3) Receive recommendations for disqualification made in accordance with §250.5(f) of this part, and act as initial disqualification authority.

(4) Provide, when necessary, technical assistance to DoD Components in assessing the significance of the military or space application of technical data that may be withheld from public disclosure under this Directive.

(5) Establish procedures to develop, collect, and disseminate certification statements and ensure their sufficiency, accuracy, and periodic renewal, and to make final determinations of qualification.

(6) Ensure that the requirements of this Directive are incorporated into the DoD Federal Acquisition Regulation Supplement for optional application to contracts involving technical data governed by this Directive.

(f) When the basis for a contractor’s temporary revocation cannot be removed within 20 working days, the DoD Component shall recommend to the OUSD(R&E) that the contractor be disqualified.

(g) Charges for copying, certifying, and searching records rendered to requesters shall be levied in accordance with DoD Instruction 7230.7. Normally, only one copy of the same record or document will be provided to each requester. Any release to qualified U.S. contractors of technical data controlled by this part shall be accompanied by a notice to the recipient as set forth in §250.9.

(h) Qualified U.S. contractors who receive technical data governed by this part may disseminate such data for purposes consistent with their certification without prior permission of the controlling DoD office or when such dissemination is:

(1) To any foreign recipient for which the data are approved, authorized, or licensed under E.O. 12470 or the Arms Export Control Act.

(2) To another currently qualified U.S. contractor (as defined in §250.3(a) above, including existing or potential subcontractors, but only within the scope of the certified legitimate business purpose of such recipient.

(3) To the Department of State and Commerce, for purposes of applying for appropriate approvals, authorizations, or licenses for export under the Arms Export Control Act or E.O. 12470. Any such application shall include a statement that the technical data for which such approval, authorization, or license is sought are controlled by the Department of Defense in accordance with this part.

(4) To Congress or any Federal, State, or local governmental agency for regulatory purposes, or otherwise as may be required by law or court order. Any such dissemination shall include a statement that the technical data are controlled by the Department of Defense in accordance with this part.

(i) A qualified U.S. contractor desiring to disseminate technical data subject to this part in a manner not permitted expressly by the terms of this part shall seek authority to do so from the controlling DoD office.

(j) Any requester denied technical data, or any qualified U.S. contractor denied permission to redisseminate such data, pursuant to this part, shall be provided promptly a written statement of reasons for that action, and advised of the right to make a written appeal of such determination to a specifically identified appellate authority within the DoD Component. Appeals of denials made under DoD 5400.7–R (reference (e)) shall be handled in accordance with procedures established therein. Other appeals shall be processed as directed by the OUSD(R&E).

(k) Denials shall cite 10 U.S.C. 140c as implemented by this part, and, in the case of FOIA denials made in reliance on this statutory authority, 5 U.S.C. 552(b)(3). Implementing procedures shall provide for resolution of any appeal within 20 working days.
(7) Develop, in conjunction with the General Counsel, Department of Defense, guidelines for responding to appeals.

(8) Develop procedures to ensure that DoD Components apply consistent criteria in authorizing exceptions under § 250.5(i) of this part.

(9) Establish procedures and appropriate mechanisms for the certification of qualified U.S. contractors, pursuant to § 250.6(a)(5) of this part, within 60 days of the effective date of this Directive. During this 60-day period, requests for technical data governed by this Directive shall be processed in accordance with procedures in effect before the promulgation of this Directive.

(10) Take such other actions that may be required to ensure consistent and appropriate implementation of this Directive within the Department of Defense.

(b) The Under Secretary of Defense for Policy shall:

(1) Develop and promulgate, as required, policy guidance to DoD Components for implementing this Directive.

(2) Develop procedures with the Departments of State and Commerce to ensure referral of export cases involving technical data governed by this Directive to the Department of Defense.

(c) The Assistant Secretary of Defense (Public Affairs) shall:

(1) Monitor the implementation of provisions of this Directive that pertain to DoD §400.7–R.

(2) Provide such other assistance as may be necessary to ensure compliance with this Directive.

(d) The General Counsel, Department of Defense, shall:

(1) Assist in carrying out the provisions of this Directive by advising DoD Components with respect to the statutory and regulatory requirements governing the export of technical data.

(2) Advise the USD&ER regarding consistent and appropriate implementation of this Directive.

(e) The Heads of DoD Components shall:

(1) As the delegated authority, have the option to redelegate the authority to withhold technical data in accordance with this Directive.

(2) Disseminate and withhold from public disclosure technical data subject to this Directive in a manner consistent with the policies and procedures set forth herein.

(3) Designate a focal point to

(i) Ensure implementation of this Directive;

(ii) Identify classes of technical data the release of which is governed by §250.5(d)(3) of this part;

(iii) Act on appeals relating to case-by-case denials of technical data;

(iv) Suspend a contractor’s qualification pursuant to §250(e) of this part;

(v) Receive and evaluate requests for reinstatement of a contractor’s qualification; and, when appropriate,

(vi) Recommend disqualification to the OUSDR&E.

(4) Promulgate and enforce regulations to implement this Directive within 180 days.

(5) Disseminate technical data governed by this Directive in the manner prescribed herein, to the extent feasible, during the period after which certification procedures have been established under §250.6(a)(9) of this part, but before DoD Components have issued implementing regulations under paragraph (e)(4) of this section. However, if such dissemination is not feasible, the DoD Component may process requests for such data in accordance with procedures in effect before the promulgation of this Directive.

§ 250.7 Pertinent portions of Export Administration Regulations (EAR).

The following pertinent section of the EAR is provided for the guidance of DoD personnel in determining the releasability of technical data under the authority of this part.

EXPORT ADMINISTRATION REGULATIONS 15 CFR 379.3

General License GTDA: Technical Data Available to All Destinations

A General License designated GTDA is hereby established authorizing the export to all destinations of technical data described in §379.3(a), (b), or (c), below:

(a) Data Generally Available.

Data that have been made generally available to the public in any form, including:

(1) Data released orally or visually at open conferences, lectures, trade show, or other media open to the public; and

(2) Publications that may be purchased without restrictions at a nominal cost, or

This part:

(a) Applies to the Office of the Secretary of Defense (OSD), the Military Departments (including their National Guard and Reserve components), the Organization of the Joint Chiefs of Staff (OJCS), and the Defense Agencies (hereafter referred to collectively as “DoD Components”).

(b) Concerns the use of offshore areas for military purposes. It does not limit the responsibilities of the Secretary of the Navy assigned under 33 U.S.C. 1101 et seq.

§ 252.3 Definitions.

Offshore areas. The submerged land areas defined in 43 U.S.C. 1301 et seq. and 43 U.S.C. 1331 et seq. and the adjacent waters affected by the use of those submerged lands.

Offshore Military Activities Program. The program established to implement DoD policies and procedures for those activities, operations, and installations that require an offshore environment and that may impact on offshore areas.

Outer Continental Shelf. All submerged lands lying seaward and outside of the area of lands beneath navigable waters as defined in section 2 of 43 U.S.C. 1301 et seq., and of which the subsoil and seabed appertain to the United States and are subject to its jurisdiction and control.

Therefore, it is DoD policy for the use of offshore areas to be shared with non-military interests whenever they can be accommodated.

(b) The Secretaries of Defense and the Interior have agreed on procedures for resolving conflicts over joint use of offshore areas for military and mineral exploration or developmental purposes. In carrying out negotiations with elements of the Department of the Interior (DoI), the Department of Defense shall be guided by this agreement when appropriate.

(c) If a coastal state determines that the mineral potential of off-shore areas being used or proposed to be used for military purposes must be explored or
developed, DoD shall endeavor to accommodate joint military and commercial use of those areas. If compatible joint use is not economically or militarily feasible, DoD shall seek agreement with the coastal state to exclude conflict areas from its leasing program.

§252.5 Responsibilities.

(a) The Assistant Secretary of Defense (Production and Logistics) (ASD(P&L)) shall maintain a comprehensive program for the military use of the offshore environment and provide related direction and policy to DoD Components.

(b) The Secretary of the Army shall provide notices to the ASD(A&L), to affected military installations and activities, and to the Director of the Defense Mapping Agency Hydrographic/Topographic Center of potential obstructions and hazards to navigation as stated in the Rivers and Harbors Appropriation Act, of proposed permits for obstructions to be located on the Outer Continental Shelf under 43 U.S.C. 1331 et seq., as amended, and of proposed permits for artificial reefs under the National Fishing Enhancement Act of 1984 to ensure compatibility with the Offshore Military Activities Program.

(c) The Secretary of the Navy shall:
   (1) Act as DoD Executive Agent for outer continental shelf matters and carry out responsibilities assigned to the Executive Agent in the Agreement.
   (2) Conduct continuing liaison with DoI, appropriate coastal states, and the ASD(P&L) to ensure compatibility between the DoD Offshore Military Activities Program and the related plans and programs of DoI and coastal states.
   (3) Inform concerned DoD Components of new developments in the DOI’s, states’, and industry’s mineral leasing plans that may affect present or potential military interests in offshore areas.
   (4) Represent the Department of Defense on the Secretary of the Interior’s Outer Continental Shelf Advisory Board.
   (d) The Secretary of the Air Force shall, for those offshore areas under his control, conduct continuing liaison with the DoI and coastal states and enter into agreements necessary to ensure compatibility between military activities and relevant plans and programs of the DoI and coastal states.

(e) Heads of DoD Components shall:
   (1) Review proposed DoI’s and states’ mineral leasing plans and inform the Executive Agent of proposed activities that could be incompatible with military missions. When joint use is feasible, the Heads shall recommend conditions and stipulations that should be imposed in leases to ensure the integrity of military missions and otherwise protect the interests of the United States against claims arising out of damage to property or personal injury.
   (2) Establish and maintain lines of communication and coordination to ensure that the ASD(P&L) and the Executive Agent are fully aware of plans and programs involving offshore areas.
   (3) Review notices referred to in §252.5(b) and notify the Army Chief of Engineers if proposed actions are incompatible with offshore military activities.

(b) The standard and criteria for determining the security acceptability of an employee for assignment or continuation of assignment with the Military Services overseas shall be identical to those established for making security clearance determinations for personnel employed in private industry under §§155.4 and 155.5 of this title.

If such adjudication is favorable, no further action is required. The Red Cross or the USO will not be notified in such cases in order to preclude the possibility of any adverse inference being drawn.

(ii) Is serving on active duty as a member of the armed forces;

(iii) Is temporarily totally disabled for a period of time not to exceed three years as established by sworn affidavit of a qualified physician;

(iv) Is unable to secure employment for a period not to exceed 12 months by reason of the care required by a spouse who is disabled; or

(v) Is seeking and unable to find full-time employment as a teacher or teacher’s aide in an elementary or secondary school for a single period not to exceed 27 months.

(g) Participants will seek employment as elementary or secondary school teachers or teacher’s aides in eligible local educational agencies identified by the Department of Defense.

(h) The Department of Defense through its executive agent, DANTES, will offer to enter into an agreement with the first eligible local educational agency that employs the participant as a full-time elementary or secondary school teacher or teacher’s aide after the participant obtains necessary credentials. Under such agreements, DANTES will provide a grant to local educational agencies that agree to hire program participants for not fewer than five consecutive school years in a school of the local educational agency serving a concentration of children from low-income families. If employment is terminated by either the participant or the local educational agency before the end of the five years of required service, the grant will be adjusted as described in this part and any excess paid will be reimbursed to the government under guidance prescribed by DANTES.

(i) Participants may not be accepted to receive stipends nor agreements made with local educational agencies
to provide grants unless sufficient appropriations are available to support the obligations which may be incurred.

§ 256.1 Purpose.
This part:
(a) Sets forth Department of Defense policy on achieving compatible use of public and private lands in the vicinity of military airfields;
(b) Defines (1) required restrictions on the uses and heights of natural and man-made objects in the vicinity of air installations to provide for safety of flight and to assure that people and facilities are not concentrated in areas susceptible to aircraft accidents; and
(c) Describes the procedures by which Air Installations Compatible Use Zones (AICUZ) may be defined; and
(d) Provides policy on the extent of Government interest in real property within these zones which may be retained or acquired to protect the operational capability of active military airfields (subject in each case to the availability of required authorizations and appropriations).

§ 256.2 Applicability.
This part applies to air installations of the Military Departments located within the United States, its territories, trusts, and possessions.

§ 256.3 Criteria.
(a) General. The Air Installations Compatible Use Zone for each military air installation shall consist of (1) land areas upon which certain uses may obstruct the airspace or otherwise be hazardous to aircraft operations, and (2) land areas which are exposed to the health, safety or welfare hazards of aircraft operations.

(b) Height of obstructions. The land area and height standards defined in AFM 86–8,1 NavFac P–272 and P–80,1 and TM 5–803–41 will be used for purposes of height restriction criteria.

(c) Accident potential.—(1) General. (i) Areas immediately beyond the ends of runways and along primary flight paths are subject to more aircraft accidents than other areas. For this reason, these areas should remain undeveloped, or if developed should be only sparsely developed in order to limit, as much as possible, the adverse effects of a possible aircraft accident.
(ii) DoD fixed wing runways are separated into two types for the purpose of defining accident potential areas. Class A runways are those restricted to light aircraft (See §256.6) and which do not have the potential for development for heavy or high performance aircraft use or for which no foreseeable requirement for such use exists. Typically these runways have less than 10% of their operations involving Class B aircraft (§256.6) and are less than 8000 feet long. Class B runways are all other fixed wing runways.

(iii) The following descriptions of Accident Potential Zones are guidelines only. Their strict application would result in increasing the safety of the general public but would not provide complete protection against the effects of aircraft accidents. Such a degree of protection is probably impossible to achieve. Local situations may differ

1 Filed as part of original. Copies available in the Office of the Assistant Secretary of Defense (Installations and Logistics)—ID, Washington, DC 20001.
significantly from the assumptions and data upon which these guidelines are based and require individual study. Where it is desirable to restrict the density of development of an area, it is not usually possible to state that one density is safe and another is not. Safety is a relative term and the objective should be the realization of the greatest degree of safety that can be reasonably attained.

(2) Accident potential and clear zones (See §256.7). (i) The area immediately beyond the end of a runway is the "Clear Zone", an area which possesses a high potential for accidents, and has traditionally been acquired by the Government in fee and kept clear of obstructions to flight.

(ii) Accident Potential Zone I (APZ I) is the area beyond the clear zone which possesses a significant potential for accidents.

(iii) Accident Potential Zone II (APZ II) is an area beyond APZ I having a measurable potential for accidents.

(iv) Modifications to APZs I and II will be considered if:

(A) The runway is infrequently used.

(B) The prevailing wind conditions are such that a large percentage (i.e., over 80 percent) of the operations are in one direction.

(C) Most aircraft do not overfly the APZs as defined herein during normal flight operations (modifications may be made to alter these zones and adjust them to conform to the line of flight).

(D) Local accident history indicates consideration of different areas.

(E) Other unusual conditions exist.

(v) The takeoff safety zone for VFR rotary-wing facilities will be used for the clear zone; the remainder of the approach-departure zone will be used as APZ I.

(vi) Land use compatibility with clear zones and APZs is shown in §256.8.

(d) Noise—(1) General. Noise exposure is described in various ways. In 1964, the Department of Defense began using the Composite Noise Rating (CNR) system to describe aircraft noise. Several years ago the Noise Exposure Forecast (NEF) system began to replace CNR. In August 1974, the Environment Protection Agency notified all Federal agencies of intent to implement the Day-Night Average Sound Level (Ldn) noise descriptor, and this was subsequently adopted by the DoD. This Ldn system will be used for air installations. Where AICUZ studies have been published using the CNR of NEF systems or where studies have progressed to the point that a change in the noise system is impractical or uneconomical, such studies may be published and continued in use. However, in such cases, data necessary for conversion to Ldn should be collected and studies should be revised as soon as time and budgetary considerations permit. However, if State or local laws require some other noise descriptor, it may be used in lieu of Ldn.

(ii) See §256.10 for a further discussion of Ldn use and conversion to Ldn from previously used systems.

§ 256.4 Policy.

(a) General. As a first priority step, all reasonable, economical, and practical measures will be taken to reduce and/or control the generation of noise from flying and flying related activities. Typical measures normally include siting of engine test and runup facilities in remote areas if practical, provision of sound suppression equipment where necessary, and may include additional measures such as adjustment of traffic patterns to avoid significant impairment of operational effectiveness. After all reasonable noise source control measures have been taken, there will usually remain significant land areas wherein the total noise exposure is such as to be incompatible with certain uses.

(b) Compatible use land—(1) General. DoD policy is to work toward achieving compatibility between air installations and neighboring civilian communities by means of a compatible land use planning and control process conducted by the local community.

(ii) Land use compatibility guidelines will be specified for each Clear Zone, Accident Potential Zone, Noise Zone
§ 256.4

and combination of these as appropriate.

(iii) The method of control and regulation of land usage within each zone will vary according to local conditions. In all instances the primary objective will be to identify planning areas and reasonable land use guidelines which will be recommended to appropriate agencies who are in control of the planning functions for the affected areas.

(2) Property rights acquisition—(i) General. While noise generated by aircraft at military air installations should be an integral element of land use compatibility efforts, the acquisition of property rights on the basis of noise by the Department of Defense may not be in the long term best interests of the United States. Therefore, while the complete requirement for individual installations should be defined prior to any programming actions, acquisition of interests should be programmed in accordance with the following priorities.

(ii) Priorities. (A) The first priority is the acquisition in fee and/or appropriate restrictive easements of lands within the clear zones whenever practicable.

(B) Outside the clear zone, program for the acquisition of interests, first in Accident Potential Zones and secondly in high noise areas only when all possibilities of achieving compatible use zoning, or similar protection, have been exhausted and the operational integrity of the air installation is manifestly threatened. If programming actions are considered necessary, complete records of all discussions, negotiations, testimony, etc., with or before all local officials, boards, etc., must be maintained. This will ensure that documentation is available to indicate that all reasonable and prudent efforts were made to preclude incompatible land use through cooperation with local governmental officials and that all recourse to such action has been exhausted. Such records shall accompany programming actions and/or apportionment requests for items programmed prior to the date of this part. In addition, a complete economic analysis and assessment of the future of the installation must be included.

(1) Costs of establishing and maintaining compatible use zones must be weighed against other available options, such as changing the installation’s mission and relocating the flying activities, closing the installation, or such other courses of action as may be available. In performing analyses of this type, exceptional care must be exercised to assure that a decision to change or relocate a mission is fully justified and that all aspects of the situation have been thoroughly considered.

(2) When, as a result of such analysis, it is determined that relocation or abandonment of a mission will be required, then no new construction shall be undertaken in support of such activities except as is absolutely necessary to maintain safety and operational readiness pending accomplishment of the changes required.

(iii) Guidelines. This part shall not be used as sole justification for either the acquisition or the retention of owned interests beyond the minimum required to protect the Government.

(A) Necessary rights to land within the defined compatible use area may be obtained by purchase, exchange, or donation, in accordance with all applicable laws and regulations.

(B) If fee title is currently held or subsequently acquired in an area where compatible uses could be developed and no requirement for a fee interest in the land exists except to prevent incompatible use, disposal actions shall normally be instituted. Only those rights and interests necessary to establish and maintain compatible uses shall be retained. Where proceeds from disposal would be inconsequential, consideration may be given to retaining title.

(C) If the cost of acquiring a required interest approaches closely the cost of fee title, consideration shall be given to whether acquisition of fee title would be to the advantage of the Government.

(c) Rights and interests which may be obtained. When it is determined to be necessary for the Federal Government to acquire interests in land, a careful assessment of the type of interest to be acquired is mandatory. §256.9 contains a listing of possible interests which should be examined for applicability.

606
(d) Environmental impact statements. Any actions taken with respect to safety of flight, accident hazard, or noise which involve acquisition of interests in land must be examined to determine the necessity of preparing an environmental impact statement in accordance with DoD Directive 6050.1, "Environmental Considerations in DoD Actions," March 19, 1974 (32 CFR part 214).

(2) All such environmental impact statements must be forwarded to appropriate Federal and local agencies for review in accordance with DoD Directive 6050.1 (32 CFR part 214).

(3) Coordination with local agencies will be in accordance with OMB Circular A–95.

§ 256.5 The air installation compatible use program.

(a) The Secretaries of the Military Departments will develop, implement and maintain a program to investigate and study all air installations in necessary order of priority to develop an Air Installation Compatible Use Zone (AICUZ) program for each air installation consistent with §256.4. AICUZ studies which contain an analysis of land use compatibility problems and potential solutions shall be developed and updated as necessary. As a minimum, each Study shall include the following:

(1) Determination by detailed study of flight operations, actual noise and safety surveys if necessary, and best available projections of future flying activities, desirable restrictions on land use due to noise characteristics and safety of flight;

(2) Identification of present incompatible land uses;

(3) Identification of land that if inappropriately developed would be incompatible;

(4) Indication of types of desirable development for various land tracts;

(5) Land value estimates for the zones in question;

(6) Review of the airfield master plans to ensure that existing and future facilities siting is consistent with the policies in this part.

(7) Full consideration of joint use of air installations by activities of separate Military Departments whenever such use will result in maintaining operational capabilities while reducing noise, real estate and construction requirements.

(8) Recommendations for work with local zoning boards, necessary minimum programs of acquisition, relocations, or such other actions as are indicated by the results of the Study.

(b) Procedures. In developing AICUZ Studies the Secretaries of Military Departments shall:

(1) Follow the review and comment procedures established under OMB Circular A–95;

(2) Ensure that appropriate environmental factors are considered; and

(3) Ensure that other local, State or Federal agencies engaged in land use planning or land regulation for a particular area have an opportunity to review and comment upon any proposed plan or significant modification thereof.

(c) Coordination with State and local governments. Secretaries of the Military Departments shall develop procedures for coordinating AICUZ Studies with the land use planning and regulatory agencies in the area. Developing compatible land use plans may require working with local governments, local planning commissions, special purpose districts, regional planning agencies, state agencies, state legislatures, as well as the other Federal agencies. Technical assistance to local, regional, and state agencies to assist them in developing their land use planning and regulatory processes, to explain an AICUZ Study and its implications, and generally to work toward compatible planning and development in the vicinity of military airfields, should be provided.

(d) Property rights acquisition. The AICUZ Study shall serve as the basis for new land acquisitions, property disposal, and other proposed changes in Military Departments real property holdings in the vicinity of military airfields where applicable.

(e) Required approvals. Based on the results of the AICUZ Studies, each Military Department will prepare recommendations for individual AICUZ programs for approval as follows:
(1) The Secretaries of the Military Departments or their designated representatives will review and approve the AICUZ Studies establishing the individual air installation AICUZ program.

(2) When relocation or abandonment of a mission or an installation is apparently required, the Secretaries of the Military Departments will submit the proposed plan for the installation, with appropriate recommendations, to the Secretary of Defense for approval.

(3) A time-phased fiscal year plan for implementation of the AICUZ program in priority order, consistent with budgetary considerations, will be developed for approval by the Secretaries of the Military Departments, or their designated representatives. These plans will serve as the basis for all AICUZ actions at the individual installations.

(f) Coincident actions. The Secretaries of the Military Departments will also take action to assure in accordance with §256.4 (a) and (b) that:

(1) As the first priority action in developing an AICUZ program, full attention is given to safety and noise problems.

(2) In all planning, acquisition and siting of noise generating items, such as engine test stands, full advantage is taken of available alleviating measures, such as remote sites or sound suppression equipment.

(3) The noise exposure of on-installation facilities and personnel are considered together with that off the installation.

(4) There is development or continuation with renewed emphasis, of programs to inform local governments, citizens groups, and the general public of the requirements of flying activities, the reasons therefore, the efforts which may have been made or may be taken to reduce noise exposure, and similar matters which will promote and develop a public awareness of the complexities of air installation operations, the problems associated therewith, and the willingness of the Department of Defense to take all measures possible to alleviate undesirable external effects.

(g) Responsibilities for the acquisition, management and disposal of real property are defined in DoD Directive 4165.6, ‘‘Real Property; Acquisition, Management and Disposal,’’ September 15, 1955 (20 FR 7113).

(h) The Deputy Assistant Secretary of Defense (Installations and Housing) will examine the program developed pursuant to this part, and from time to time review the progress thereunder to assure conformance with policy.

15 Controlled hunting and fishing may be permitted for the purpose of wildlife control.

§ 256.9 Real estate interests to be considered for clear zones and accident potential zone.

(a) The right to make low and frequent flights over said land and to generate noises associated with:

(1) Aircraft in flight, whether or not while directly over said land,

(2) Aircraft and aircraft engines operating on the ground at said base, and,

(3) Aircraft engine test/stand cell operations at said base.

(b) The right to regulate or prohibit the release into the air of any substance which would impair the visibility or otherwise interfere with the operations of aircraft, such as, but not limited to, steam, dust and smoke.

(c) The right to regulate or prohibit light emissions, either direct or indirect (reflective), which might interfere with pilot vision.

(d) The right to prohibit electrical emissions which would interfere with aircraft and aircraft communications systems or aircraft navigational equipment.

(e) The right to prohibit any use of the land which would unnecessarily attract birds or waterfowl, such as, but not limited to, operation of sanitary landfills, maintenance of feeding stations or the growing of certain types of

vegetation attractive to birds or waterfowl.

(f) The right to prohibit and remove any buildings or other non-frangible structures.

(g) The right to top, cut to ground level, and to remove trees, shrubs, brush or other forms of obstruction which the installation commander determines might interfere with the operation of aircraft, including emergency landings.

(h) The right of ingress and egress upon, over and across said land for the purpose of exercising the rights set forth herein.

(i) The right to post signs on said land indicating the nature and extent of the Government’s control over said land.

(j) The right to prohibit land uses other than the following:

(1) Agriculture.

(2) Livestock grazing.

(3) Permanent open space.

(4) Existing water areas.

(5) Rights of way for fenced two lane highways, without sidewalks or bicycle trails and single track railroads.

(6) Communications and utilities rights of way, provided all facilities are at or below grade.

(k) The right to prohibit entry of persons onto the land except in connection with activities authorized under paragraphs (a), (b), (c), and (f) of this section.

(l) The right to disapprove land uses not in accordance with § 256.8.

(m) The right to control the height of structures to insure that they do not become a hazard to flight.

(n) The right to install airfield lighting and navigational aids.

§ 256.10 Air installations compatible use zone noise descriptors.

(a) Composite Noise Rating (CNR) and Noise Exposure Forecast (NEF) values as previously required by Sections III., IV., and V. of DoD Instruction 4155.57, “Air Installations Compatible Use Zones,” July 30, 1973 will no longer be used.

(b) Where CNR 100 (or the quietest boundary of CNR Zone 2 if otherwise computed) or NEF 30 would previously have been used, data shall be collected sufficient to permit computation of Ldn 65 noise contours and these noise contours shall be plotted on maps accompanying AICUZ studies.

(c) Where CNR 115 (or the boundary of CNR Zone 3 if otherwise computed) or NEF 40 would previously have been used, data shall be collected sufficient to permit computation of Ldn 75 noise contours and these noise contours shall be plotted on maps accompanying AICUZ studies.

(d) Where previous studies have used CNR or NEF, for meters of policy, noise planning and decisionmaking, areas quieter than Ldn 65 shall be considered approximately equivalent to the previously used CNR Zone 1 and to areas quieter than NEF 30. The area between Ldn 65 and Ldn 75 shall be considered approximately equivalent to the previously used CNR Zone 2 and to the area between NEF 30 and NEF 40. The area of higher noise than Ldn 75 shall be considered approximately equivalent to the previously used CNR Zone 3 and to noise higher the NEF 40. The procedures shall remain in effect only until sufficient data to compute land values can be obtained.

(e) When computing helicopter noise levels using data collected from meters, a correction of +7db shall be added to meter readings obtained under conditions where blade slap was present until and unless matters are developed which more accurately reflect true conditions.

(f) Noise contours less than Ldn 65 or more than Ldn 80 need not be plotted for AICUZ studies.

(g) Since CNR noise levels are not normally directly convertible to Ldn values without introducing significant error, care should be exercised to assure that personnel do not revise previous studies by erroneously relabeling CNR contours to the approximately equivalent Ldn values.

(h) Where intermittent impulse noises are such as are associated with bombing and gunnery ranges are of importance such noises will be measured using standard “C” weighing of the

§ 256.11 Effective date and implementation.

This part is effective immediately. Two copies of implementing regulations shall be forwarded to the Assistant Secretary of Defense (Installations and Logistics) within 90 days after publication of final rules.

PART 258—COOPERATION WITH ALLIES IN RESEARCH AND DEVELOPMENT OF DEFENSE EQUIPMENT

Sec. 258.1 Purpose.
258.2 Background.
258.3 Policy.
258.4 Criteria.
258.5 Procedures.
258.6 Responsibilities and authorities.

AUTHORITY: 5 U.S.C. 301.
SOURCE: 33 FR 13024, Sept. 14, 1968, unless otherwise noted.

§ 258.1 Purpose.

It is the purpose of this part to specify Defense Department policy for strengthening cooperation with Allies in research and development and to assign responsibilities for implementing it. This policy calls for maximum coordination of technical objectives and programs with those of our allies. It complements DoD Directive 3100.4.
Harmonization of Qualitative Requirements for Defense Equipment of United States and Allies.¹

§ 258.2 Background.

Cooperation in defense research and development between the United States and its Allies since World War II has been aimed primarily at assisting them, financially as well as technically, in developing indigenous capabilities. The economic status of certain of these Allies has now evolved beyond the point of warranting further financial assistance. However, the evolution of modern weapons of increasing cost and complexity makes the effective utilization of the aggregate of available technical resources a matter of concern to each nation.

§ 258.3 Policy.

(a) The United States will cooperate with its Allies to the greatest degree possible in the development of defense equipment, where such cooperation is in the overall best interests of the United States. The objectives of such cooperation will be:

(1) To make the best equipment available to the United States and its Allies in the most timely manner.

(2) To increase the effectiveness of the scientific and technical resources of the United States and its Allies, especially by eliminating unnecessary and wasteful duplication of effort.

(3) To achieve the maximum practicable degree of standardization of equipment.

(4) To create closer military ties among the Alliance.

(b) The United States will seek to enter in bilateral and multilateral agreements with its allies that will minimize waste resulting from purely duplicative R&D programs and, within the criteria stated in § 258.4, encourage the establishment of a mutually acceptable free, fully competitive market for defense R&D. To this effect, the DoD will:

(1) Continue to encourage the mutual development of technical capabilities,

(2) Coordinate exploratory, advanced and engineering development plans to minimize wasteful duplication.

(3) Participate in joint development programs for major systems meeting harmonized requirements, whenever such programs meet the objectives and criteria listed in this part.

(4) Consistent with OSD guidance, consider promising foreign as well as U.S. R&D resources prior to placing research and development contracts.

(5) Facilitate availability of U.S. R&D resources to foreign procurement agencies, on terms similar to those governing availability of these resources to U.S. agencies.

(c) Necessary release of classified information will be in accordance with the provisions of the National Disclosure Policies.

§ 258.4 Criteria.

(a) The general criteria for such cooperation will be:

(1) Except for MAP "grant-aid countries," no appropriations available to the DoD will be used to finance the foreign research and development effort unless the program is aimed at satisfying a United States military need.

(2) Except for MAP "grant-aid countries," cooperative R&D programs will be funded by Service RDT&E funds.

(3) U.S. participation in jointly funded development programs will not be approved unless the United States receives design and production rights equivalent to those secured from domestic sources.

(b) International balance-of-payments considerations have resulted in the establishment of certain specific restrictions pertinent to DoD overseas activities, including those relating to foreign R&D. The screening and selection of proposed R&D projects must be consistent with these restrictions. In this connection, preference should be given to the following types of joint R&D undertakings:

(1) Projects that provide for the investment of foreign funds in U.S. R&D activities under mutually acceptable terms and conditions.

(2) Projects that offer the U.S. good prospects for the ultimate sale of the

¹Copies available from Naval Supply Depot, 5801 Tabor Avenue, Philadelphia, Pa. 19120; Attn.: Code 300.
end item or associated components to second and third foreign parties.

(3) Projects that capitalize on the unique technical state-of-the-art capabilities existing in a foreign country and offer prospects of saving the U.S. time and money in the R&D and production field.

(4) Projects that enable the United States to assist and/or accommodate a foreign second party to accomplish joint R&D objectives without jeopardizing U.S. aspirations to promote future U.S. sales to third countries.

§ 258.5 Procedures.
Procedures for accomplishing and administering the cooperative programs and projects will be integrated into DoD management systems so that decisions concerning national and international programs will be made by the same individuals.

§ 258.6 Responsibilities and authorities.
(a) The Military Departments are charged with the primary responsibility for implementing this part.
(b) The Director of Defense Research and Engineering will be responsible for monitoring the implementation of this part. He will:
   (1) Negotiate basic policy agreements with foreign Ministries of Defense as appropriate.
   (2) Consult with the Joint Chiefs of Staff on the interaction of research and development and strategic doctrines.
   (3) Seek formal statements of military operational requirements from the Military Departments or the JCS, as appropriate, for research and development projects and equipment areas which require such statements.
   (4) Recommend to the Secretary of Defense policy guidance and appropriate instructions for the Military Departments to assure consistency of their actions and conformity with National Policy.
   (5) Continually review progress made towards the objectives of this part.
   (6) Request policy guidance and support from Assistance Secretaries of Defense (ISA) (I&L) (Comp), and the General Counsel on matters within their respective fields of responsibility.
(c) The Defense Advisor U.S. Mission to the North Atlantic Treaty Organization will assist the Director of Defense Research and Engineering, as directed, in supervising the implementation of this part.
(d) Military Assistance Advisory Groups and Missions will provide advice and assistance to the Military Departments as requested and within the limits of availability of assigned resources. Those MAAGs and Missions within the North Atlantic Treaty Organization areas will provide advice and assistance to the Defense Advisor U.S. NATO when requested.

PART 259—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY-ASSISTED PROGRAMS

§ 259.1 Uniform relocation assistance and real property acquisition.

[52 FR 48020, Dec. 17, 1987]

PART 260—VENDING FACILITY PROGRAM FOR THE BLIND ON FEDERAL PROPERTY

Sec.
260.1 Reissuance and purpose.
260.2 Applicability.
260.3 Policy.
260.4 Responsibilities.
260.5 Arbitration.
260.6 Definitions.
§ 260.3

Policy.

In implementation of the Randolph-Sheppard Act, priority on DoD-controlled property will be extended to the blind as set out below:

(a) The blind will be given a priority in establishment and operation of vending facilities.

(b) The blind will be given a priority in award of contracts to operate cafeterias.

(c) In conjunction with acquisition or substantial alteration or renovation of property, satisfactory sites will be provided for operation of blind vending facilities.

(d) Certain income from vending machines operated by a DoD Component either directly or by contract will be given to State licensing agencies.

(e) DoD components will take necessary action to ensure that, within their areas of responsibility, the requirements set forth below are implemented.

(f) The blind have a priority right to operate vending facilities on DoD-controlled property when the opportunity to operate them becomes available. The priority extended allows blind licensees to be gainfully employed. While primary responsibility for carrying out this intent falls upon the State licensing agency, it is nevertheless a responsibility of the on-site official to ensure that the operator is in fact a State licensed blind person and that sighted employees or assistants are utilized only to the extent reasonably necessary.

(1) This priority will not be accorded when the on-site official determines, after conferring with the Head of the DoD component, that the interest of the United States would be adversely affected if the priority were accorded.

(2) Any determination that according the priority would be adverse to interests of the United States must be fully justified in writing through the head of the DoD component concerned, through the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics) (ASD(MRA&L)). The justification then shall be sent to the Secretary, Department of Health, Education, and Welfare (HEW), who has authority to determine whether the failure to accord the priority is justified by the circumstances. This determination by the Secretary, HEW must be published in the Federal Register and is binding upon the DoD component.

(3) Applications for permits by the State licensing agency to operate vending facilities (except cafeterias) on DoD controlled property must be submitted in writing to the head of the DoD component concerned, through the on-site official. When an application is not approved, the head of the DoD component will advise the State licensing agency in writing and will indicate the reasons for the disapproval. When issued, permits will describe the location of the vending facility and will be subject to the following requirements:

(i) The permit will be issued in the name of the State licensing agency.

(ii) The permit will be issued for an indefinite period of time subject to suspension or termination upon failure to
§ 260.3  

comply with agreed upon terms; and subject to termination by either party upon 60 days written notice to the other party, in cases of

(A) Inactivation of the installation or activity,
(B) Loss of use of a building or other facility housing the vending facility,
(C) Change in the DoD component’s requirements for service, or
(D) Inability of the State licensing agency to continue to operate the vending facility.

(iii) The permit will provide that:

(A) No charge will be made by the DoD component to the State licensing agency for normal repair and maintenance of the building, or for cleaning areas adjacent to the designated vending facility boundaries, or for trash removal from a designated collection point.

(B) The State licensing agency will be responsible for cleaning and maintaining the appearance of and for the security of the vending facility within the designated boundaries of such facility and for all costs of every kind in conjunction with vending facility equipment, merchandise and other products to be sold, except as provided in paragraph (f)(3)(iii)(E) of this section. Neither party will be responsible for loss or damage to the other’s property, unless proximately caused by its acts or omissions. The State licensing agency will also be responsible for the acts or omissions of the blind vendor, his employees or agents.

(C) Articles sold at such vending facilities may consist of newspapers, periodicals, publications, confections, tobacco products, foods, beverages, chances for any lottery authorized by State law and conducted by an agency of a State within such State, and other articles or services traditionally found in blind operated vending facilities operated under the Randolph-Sheppard Act as determined by the State licensing agency in consultation with the on-site official, to be suitable for a particular location (articles and services may be dispensed automatically or manually);

(D) Vending facilities will be operated in compliance with applicable health, sanitation and building codes, ordinances, and regulations;

(E) Installation, modification, relocation, removal, and renovation of vending facilities will be subject to the prior approval of the on-site official and the State licensing agency. Costs of installation, modification, relocation or renovation will be paid by the initiating party. In any case of suspension or termination of a permit to operate a vending facility on the basis of noncompliance by either party, the costs of removal from the building will be borne by the noncomplying party.

(iv) The permit will also contain appropriate requirements for reimbursement or direct payment for support services such as utilities and telephone service.

(v) In the event the blind licensee fails to provide satisfactory service or otherwise fails to comply with the requirements of the permit issued to the State licensing agency, the on-site official will, after coordinating with the Head of the DoD Component, notify the State licensing agency of this deficiency in writing and request corrective action within a specified reasonable time. The notice will indicate that failure to correct the deficiency will result in temporary suspension or termination of the permit, as appropriate. Suspension or termination action will be taken by the Head of the DoD Component concerned after consultation with the ASD (MRA&L).

(g) The blind have a priority right to operate cafeterias on DoD-controlled property, as set out in paragraph (g)(1) or (2) of this section, when the cafeteria operation involved is contracted.

(1) Procuring activity solicitations, when issued, will establish basic requirements and the criteria for judging proposals. One copy of each solicitation will be provided to the State licensing agency for the blind. The criteria upon which proposals will be evaluated may include factors such as sanitation practices, personnel, staffing, menu pricing and portion sizes, variety, budget and accounting practices, fees, and other relevant considerations.

(i) If the State licensing agency submits a proposal and it is not within the competitive range established by the contracting officer, award may be made to another offeror following normal procurement procedures, but only
after the on-site official confers with the Head of the DoD Component. 

(ii) If the State licensing agency submits a proposal and it is within the competitive range established by the contracting officer, the contract will be awarded to the State licensing agency except as provided in paragraph (g)(1)(iii) of this section.

(iii) The contracting officer may award to other than the State licensing agency when the on-site official determines that award to the State licensing agency would adversely affect the interests of the United States and the Secretary, HEW, approves the determination (processing will be in accordance with paragraph (f)(2) of this section), or when the on-site official determines, after conferring with the Head of the DoD Component, and the Secretary, HEW, agrees, that the blind vendor does not have the capacity to operate a cafeteria in such a manner as to provide food service at a comparable cost and of comparable high quality as that available from other providers of cafeteria services.

(2) Direct negotiations may be undertaken with State licensing agencies whenever the on-site official, with concurrence of the Head of the DoD Component, has determined that State licensing agency, through its blind licensee, can provide the cafeteria services required at a reasonable cost, with food of a high quality comparable to that available from other providers of cafeteria services. In the event direct negotiations fall to result in a contract with the State licensing agency, the procedures prescribed in paragraph (g)(1) of this section, will be followed.

(3) The operation of a cafeteria by a blind vendor will be governed by contractual agreement, not by a permit. Normal contract administration procedures will apply, except that termination actions will not be taken without prior coordination with the Head of the DoD Component concerned.

(4) All contracts for the operation of cafeterias on DoD-controlled property with other than State licensing agencies will, upon expiration, be processed under the above paragraphs unless the State licensing agency informs the on-site official that it is not prepared to exercise its priority at that time.

(h) Any DoD Component acquired (purchased, rented, leased, constructed), or substantially altered or renovated building is required to have one or more satisfactory sites (as defined in §260.6) for a blind-operated vending facility, except as provided in paragraph (h)(1) of this section.

(1) A determination that a building contains a satisfactory site or sites is presumed made if the State licensing agency and the on-site official consult and agree that the site or sites provided are satisfactory.

(i) DoD Components will notify by certified or registered mail, return receipt requested, the appropriate State licensing agency of buildings to be acquired or substantially altered or renovated. This notification will be provided at least 60 days in advance of the intended acquisition date or the initiation of actual construction, alteration or renovation. As a practical matter, the State licensing agency should be contacted early in the planning or design stage of a project. (This notice requirement does not apply in cases as described in paragraph (h)(1)(i)(C) of this section.) This notification will:

(A) Indicate that a satisfactory site or sites for the location and operation of a blind vending facility is included in the plans for the building,

(B) Forward a copy of a single line drawing indicating the proposed location of such site or sites,

(C) Assure the State licensing agency that, subject to the approval of the DoD Component involved, it will be offered the opportunity to select the location and type of vending facility to be operated by a blind vendor prior to completion of the final space layout of the building, and

(D) Also indicate that an unexplained response indicating that the State licensing agency does not desire to establish and operate a vending facility, or the absence of a response within 30 days will be construed by the DoD Component concerned as a determination by the State licensing agency that the number of persons using the property is or will be insufficient to support a vending facility.

(ii) The State licensing agency must respond within 30 days acknowledging receipt of the correspondence from the
§260.3

DoD Component and indicating whether it is interested in establishing a vending facility, and if interested, indicating its agreement or alternate selection of a location and its selection of type of vending facility. A copy of the written notice to the State licensing agency and the State licensing agency’s response, if any, will be provided to the Secretary, HEW.

(iii) If the State licensing agency responds indicating that it does not desire to establish and operate a vending facility, then a satisfactory site which meets anticipated needs of the DoD Component will be incorporated. Each such satisfactory site will meet or exceed the requirements defined in §260.6.

(iv) If an unexplained response indicating that the State licensing agency does not desire to establish and operate a vending facility is received, or if no response is received within the 30 day period, the on-site official will, through the Head of the DoD Component, notify the Secretary, HEW, that the State licensing agency’s response or failure to respond has been construed as a determination by the State licensing agency that the number of persons using the property is or will be insufficient to support a vending facility and that a satisfactory site to be operated under the auspices of the State licensing agency will not be incorporated, unless directed by the Secretary, HEW.

(iv) Effective January 2, 1975, vending machine income generated by DoD will be shared with State licensing agencies for the blind and/or blind vendors as set forth below. The on-site official is responsible for the collection of, and accounting for, such vending machine income (as defined in §260.6) and for otherwise ensuring compliance with the requirements of this paragraph.

(1) The vending machine income-sharing requirements are as follows:

(i) One hundred percent (100%) of the vending machine income from vending machines in direct competition with blind-operated vending facilities will be provided the State licensing agency.

(ii) Fifty percent (50%) of the vending machine income from vending machines not in direct competition with blind-operated vending facilities will be provided the State licensing agency.

(iii) Thirty percent (30%) of the vending machine income from vending machines not in direct competition with blind-operated vending facilities and located where at least 50 percent of the total hours worked on the premises occurs during other than normal working hours (as defined in §260.6) will be provided the State licensing agency.

(2) The determination of whether a vending machine in in direct competition with the blind-operated vending facility is the responsibility of the on-site official.
§ 260.6 Definitions.

(a) Blind licensee. A blind person licensed by the State licensing agency to operate a vending facility on Federal or other property.

(b) Cafeteria. A food dispensing facility which provides a broad variety of prepared foods and beverages (including hot meals) primarily through the use of a serving line where the customer serves or selects for himself from displayed selections. A cafeteria
§ 260.6 32 CFR Ch. I (7–1–02 Edition)

may be fully automatic, self-service, or have limited waiter or waitress service. Table or booth seating facilities are always provided. DoD Component food dispensing facilities which conduct cafeteria-type operations during part of their normal operating day and full table-service operations during the remainder of their normal operating day are not “cafeterias” if they engage primarily in full table-service operations.

(c) Direct competition. The presence and operation of a DoD Component vending machine or a vending facility on the same premises as a vending facility operated by a blind vendor. Vending machines or vending facilities operated in areas serving employees, the majority of whom normally do not have access (in terms of uninterrupted ease of approach and the amount of time required to patronize the vending facility) to the vending facility operated by a blind vendor, will not be considered to be indirect competition with that vending facility.

(d) Federal property. Any building, land, or other real property owned, leased, or occupied by any department, agency, or instrumentality of the United States.

(e) Head of the DoD Component. Deputy Secretary of Defense, Secretaries of the Military Departments and the Directors of Defense Agencies or their designees. For the Pentagon Building only, the Deputy Assistant Secretary of Defense (Administration) is designated as the “Head of the DoD Component.”

(f) Individual location, installation, or facility. A single building or a self-contained group of buildings. A self-contained group of buildings means two or more buildings which are in close proximity to each other, and between which a majority of the Federal employees working in such buildings regularly move from one building to another in the normal course of their official business during a normal working day.

(g) Federal employees. Civilian appropriated fund and nonappropriated fund employees of the United States.

(h) License. A written instrument issued by a State licensing agency to a blind person, authorizing that person to operate a vending facility on Federal or other property.

(i) Normal working hours. An 8-hour work period between the hours of 0800 and 1800 hours, Monday through Friday.

(j) On-site official. The individual in command of an installation or separate facility or location. For the Pentagon Building only, the chairman of the Department of Defense Concession Committee is designated as the on-site official.

(k) Permit. The official written approval to establish and operate a vending facility requested by and issued to a State licensing agency by a DoD Component.

(l) Satisfactory site. An area fully accessible to vending facility patrons and having sufficient electrical, plumbing, heating, and ventilation outlets for the location of a vending facility in accordance with applicable health and building requirements. Effective March 23, 1977, a “satisfactory site” will have a minimum of 250 square feet available for sale of items and for storage of articles necessary for the operation of a vending facility, unless the Head of the DoD Component and the State licensing agency agree that a smaller or larger facility is appropriate.

(m) State. The 50 States, District of Columbia, Puerto Rico, American Samoa, Guam, and the Virgin Islands.

(n) State licensing agency. The State agency designated by the Department of Health, Education, and Welfare, Commissioner of the Rehabilitation Services Administration to issue licenses to blind persons for the operation of vending facilities on Federal and other property.

(o) Substantial alteration or renovation. A permanent material change in the floor area of a building which would render it appropriate for the location and operation of a vending facility by a blind vendor.

(p) Vending facility. Automatic vending machines, cafeterias, snack bars, cart services, shielded, and counters, which sell such items as newspapers, periodicals, confections, tobacco products, foods, beverages, and other articles and services to be dispensed automatically or manually and which are prepared on or off the premises in accordance with applicable health laws and further including the vending or
§ 261.1 Purpose.

This part incorporates DoD Directive 1330.15, "Alcoholic Beverage Control," May 4, 1964, (which is hereby cancelled), provides policy and assigns responsibilities for the operation of military clubs and package stores of the Army, Navy, Air Force, and the Marine Corps; and authorizes the development, publication, and maintenance of DoD 1015.3-R, "Armed Services and Military Club and Package Store Regulations."

§ 261.2 Applicability.

The provisions of this part apply to the Office of the Secretary of Defense and the Military Departments, including DoD activities with clubs and package stores designated as a service (executive agent) responsibility, and Defense Agencies (hereinafter referred to as "DoD Components"). The term "Military Services," as used herein, refers to the Army, Navy, Air Force, and Marine Corps.

§ 261.3 Policy.

It is the policy of the Department of Defense that Armed Services military clubs and package stores be established as an essential part of the DoD Morale, Welfare and Recreation (MWR) program. In addition, the Department of Defense shall establish controls and procedures governing the sale of alcoholic beverages in these clubs and package stores. Affirmative measures shall be taken to provide character guidance, emphasizing the harmful effects of the immoderate use of alcohol. Chaplains and local community and national organizations shall assist in this effort. Military clubs shall provide dining, essential feeding (where required), and social programs, services, and facilities to eligible patrons. Package stores shall provide the sale of alcoholic beverages purchased for off-premise consumption by authorized patrons, and also provide a resale source of alcoholic beverages for all other authorized activities under 50 U.S.C., Appendix, Section 473. § 261.4 Procedures.
Procedures and guidance are prescribed in DoD 1015.3–R, “Armed Services Military Club and Package Store Regulations.” Chapter 4, section C., of this guidance reads as follows:

“C. COOPERATION. The Department of Defense shall cooperate with local, state, and federal officials to the degree that their duties relate to the provisions of this chapter. However, the purchase of all alcoholic beverages for resale at any camp, post, station, base, or other DoD installation within the United States shall be in such a manner and under such conditions as shall obtain for the government the most advantageous contract, price and other considered factors. These other factors shall not be construed as meaning any submission to state control, nor shall cooperation be construed or represented as an admission of any legal obligation to submit to state control, pay state or local taxes, or purchase alcoholic beverages within geographical boundaries or at prices or from suppliers prescribed by any state.”

§ 261.5 Responsibilities.
(a) The Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) (ASD(MRA&AL)) shall:
(1) Provide guidance and direction in carrying out the provisions of this part; and shall establish, maintain, and disestablish clubs and package stores in accordance with DoD Directive 1015.1.
(3) Develop, publish, and maintain DoD 1015.3–R, consistent with DoD 5025.1–M.
(b) The Secretaries of the Military Departments shall:

(c) The Director of Defense Agencies shall coordinate with the Military Service concerned in the preparation of a memorandum of understanding detailing Defense Agency responsibilities for the operation of clubs and package stores under the direction, regulation, and administration of the Military Service concerned.

§ 261.6 Information requirements.
(a) This part establishes a reporting requirement that is prescribed in Chapter 4 of DoD 1015.3–R for a triennial review of each package store.
(b) Report Control Symbol DD–M(TRI)1593 has been assigned to this information requirement.

264.3 Background.
264.4 Policy.
264.5 Claims for compensation.

SOURCE: 25 FR 14456, Dec. 31, 1960, unless otherwise noted.

§264.1 Purpose and cancellation.

The purpose of this part is to restate Department of Defense policy concerning the international interchange for defense purposes of patent rights and technical information. DoD Directive 2000.3, "Technical Property Interchange Agreements", dated April 15, 1954, is hereby superseded and cancelled. Delegation published at 19 FR 2523 is cancelled.

§264.2 Scope.

This part applies to the activities of all Department of Defense personnel involved in the international interchange for defense purposes of patent rights and technical information. The policy prescribed herein applies to unclassified as well as classified information, owned by the United States Government or privately owned, but does not apply to patents, patent applications, and technical information in the field of atomic energy.

§264.3 Background.

(a) Pursuant to the provisions of the Mutual Security Act of 1954, as amended, and of predecessor legislation superseded by that Act, the United States has entered into agreements for the Interchange of Patent Rights and Technical Information for Defense Purposes with Australia, Belgium, Denmark, France, the Federal Republic of Germany, Greece, Italy, Japan, The Netherlands, Norway, Portugal, Spain, Turkey, and the United Kingdom. The agreements, which are published in the Treaties and Other International Act
Series, are basically similar in substance but are not identical. Under the agreements:

1. Each government undertakes to facilitate the interchange of privately owned patent rights and of technical information through the medium of commercial relationships, to the extent permitted by the laws and security requirements of the contracting governments.

2. When technical information is supplied by one government to the other for information only, the recipient government undertakes to treat the information as disclosed in confidence and to use its best endeavors to ensure that the information is not dealt with in any manner likely to prejudice the rights of the owner to obtain patent or similar statutory protection.

3. When technical information supplied by one government to the other discloses an invention which is the subject of a patent or patent application held in secrecy in the country of origin, the recipient government undertakes to accord similar treatment to a corresponding patent application filed in that country.

4. When privately owned technical information is released by one government to the other and the recipient government uses or discloses the information, the owner shall, subject to the extent that the owner may be entitled thereto under the applicable law and subject to arrangements between the contracting governments regarding the assumption as between them of liability for compensation, receive prompt, just and effective compensation for such use and for any damages resulting from such use or disclosure.

5. Each government is entitled to use for defense purposes without cost any invention which the other government (including government corporations) owns or to which it has the right to grant a license to use, except to the extent that there may be liability to any private owner of an interest in the invention.

(b) Each of these agreements establishes a Technical Property Committee consisting of a representative of each contracting government, whose function it is to consider and make recommendations to the contracting governments on all matters relating to the subject of the agreement and to assist where appropriate in the negotiation of commercial or other agreements for the use of patent rights and technical information in the military assistance program.

1. The Patent Advisor assigned to the Defense Staff of the U.S. Mission to the North Atlantic Treaty Organization and European Regional Organizations (USRO), Paris, France, is the United States representative to the Technical Property Committees in Europe. The J-4, Hq. United States Forces Japan, Tokyo, Japan is the United States representative to the United States-Japanese Technical Property Committee. A member of the Office of Assistant General Counsel, International Affairs, Office of the Secretary of Defense, is the United States representative to the United States-Australian Technical Property Committee. The appropriate representative should be consulted on all problems dealing with patent rights, technical information and related matters under the agreements.

2. These representatives receive policy guidance from the Department of Defense. The Assistant Secretary of Defense for International Security Affairs is responsible within the Department of Defense for transmitting such policy guidance through appropriate channels. Guidance transmitted for the United States representative in Europe shall be forwarded to the Defense Advisor, USRO; guidance transmitted for the United States representative in Japan shall be transmitted to the Commanding General, United States Forces Japan.

(c) Department of Defense problems arising in the United States in connection with the interchange of patent rights and privately owned technical information should be referred to the patent activity of the appropriate Military Department.

§ 264.4 Policy.

It is the policy of the Department of Defense to encourage and facilitate international interchanges of patent
§ 264.4

rights and technical information to further the common defense of the United States and friendly nations. In achieving this purpose, the following principles shall be observed.

(a) Classified military information shall be released only through Government channels and only when consistent with the National Disclosure Policy, or when approved as an exception to that policy.

(b) In accordance with the Congressional policy prescribed by section 413(a) of the Mutual Security Act of 1954, as amended (22 U.S.C. 1933(a)), and pursuant to the bilateral agreements referred to in §264.3, commercial relationships shall be utilized whenever appropriate and to the maximum extent feasible in order to encourage the participation of private enterprise in the Mutual Security Program, to relieve the Department of Defense of administrative burdens, and to reduce the costs to the United States of such interchanges.

(c) In accordance with section 414 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1934), the utilization of commercial channels for the exportation of unclassified privately owned technical information relating to articles designated as arms, ammunition, and implements of war in the United States Munitions List shall be subject to the regulations issued by the Secretary of State pursuant to section 414 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1934) (Title 22 CFR, chapter I, subchapter M). (The term “technical data” is used in those regulations to describe technical information relating to such articles).

(d) Technical information which might be privately owned may be released under paragraph (e) (1) or (2) of this section by Department of Defense Agencies to foreign governments if any one of the following conditions are met:

(1) The owner expressly consents to the proposed release;

(2) The United States, by contract or otherwise, has acquired or is entitled to acquire, the information under circumstances which permit the proposed release; or

(3) The Secretary of the Military Department concerned, or his designee, determines, under the authority of the Mutual Security Act of 1954, as amended, that:

(i) The exigencies of the requirement for release to further the common defense do not allow sufficient time to obtain the consent of the owner; or

(ii) The owner refuses consent and the best interests of the United States would be served by the release.

(e) In accordance with the provisions of the agreements referred to in §264.3, the release to foreign governments by Department of Defense agencies of technical information which might be privately owned shall normally be in accord with the following two step procedure:

(1) Release for information only.

(2) Permission for manufacture, or use, for defense purposes.

(f)(1) All technical information, whether privately owned or government owned, released to a foreign government by Department of Defense Agencies shall be marked with the following restrictions:

1. This information is accepted for defense purposes only.

2. This information shall be accorded substantially the same degree of security protection as such information has in the United States.

3. This information shall not be disclosed to another country without the consent of the United States.

(2) When technical information which might be privately owned is released for information only, the restrictive marking shall also contain these additional notations:

4. This information is accepted upon the understanding that it might be privately owned.

5. This information is accepted solely for the purpose of information and shall accordingly be treated as disclosed in confidence. The recipient Government shall use its best endeavors to ensure that the information is not dealt with in any manner likely to prejudice the rights of the private owner thereof to obtain patent or other like statutory protection therefore.

6. The recipient Government shall obtain the consent of the United States if it desires that this information be made available for manufacture, or use, for defense purposes.

(g) When technical information which might be privately owned is released under the procedures set forth
PART 266—AUDITS OF STATE AND LOCAL GOVERNMENTS, INSTITUTIONS OF HIGHER EDUCATION, AND OTHER NONPROFIT INSTITUTIONS

§ 266.1 Purpose.

This part:
(a) Updates policy, responsibilities, and procedures.
(b) Implements Public Law 98–502 (31 U.S.C. 7501–7507 and 3512) and Office of Management and Budget (OMB) Circulars A–128\(^1\) and A–133\(^2\) to establish audit requirements for State and local governments, institutions of higher education, and other nonprofit institutions that receive Federal financial assistance.
(c) Assigns responsibilities within the Department of Defense for monitoring compliance with those requirements.

§ 266.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Unified and Specified Commands, the Inspector General of the Department of Defense (IG, DoD), the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “the DoD Components”) that provide Federal financial assistance to State and local governments, institutions of higher education, and other nonprofit institutions.

\(^1\)Forward written requests to: Office of Management and Budget Publications, 725 17th Street, NW. New Executive Office Building, Washington, DC 20503.

\(^2\)See footnote 1 to §266.1(b).
§ 266.3 Definitions.

Terms used in this part are defined in OMB Circulars A–128 and A–133 with the following deviation. Funds paid by the National Guard Bureau to States under facilities’ operation and maintenance agreements do not constitute “Federal financial assistance” for purposes of Public Law 98–502 and OMB Circular A–128.

§ 266.4 Policy.

The DoD Components shall rely on and use financial and performance audits performed by non-Federal auditors under OMB Circular A–128 and independent auditors under OMB Circular A–133 in the oversight of Federal financial assistance provided to State and local governments, institutions of higher education, and other nonprofit institutions. Public Law 98–502 provides that a non-Federal audit of the operations of a State or local government performed under OMB Circular A–128 may exclude public colleges and universities, in which case an audit of the public college or university shall be made in accordance with OMB Circular A–133. The DoD Components, however, may request additional audits of such assistance when required by regulation or to ensure effective use of such assistance as deemed necessary. Any additional audit effort shall be planned and carried out in such a way as to avoid duplication and shall be separately funded.

§ 266.5 Responsibilities.

(a) The Inspector General of the Department of Defense shall:

(1) Serve as the DoD senior official under OMB Circulars A–128 and A–133 for policy guidance, direction, and coordination with DoD Components and other Federal Agencies on audit matters related to State and local governments, institutions of higher education and other nonprofit institutions.

(2) For State and local governments, institutions of higher education, and other nonprofit institutions for which the OMB has assigned the DoD cognizance, do the following:

(i) Ensure that audits are made and reports are received in a timely manner and in accordance with the requirements of OMB Circulars A–128 and A–133.

(ii) Provide technical advice and liaison through the DoD Components to State and local governments, institutions of higher education, other nonprofit institutions, and independent auditors.

(iii) Make desk reviews of all reports received, and also make quality control reviews of selected audits made by non-Federal audit organizations and provide the results, when appropriate, to other interested organizations.

(iv) Promptly inform other affected Federal Agencies and appropriate law enforcement officials of any reported illegal acts or irregularities in accordance with requirements of OMB Circulars A–128 and A–133.

(v) Advise the recipient of audits that have been found not to have met the requirements in OMB Circulars A–128 and A–133. In such instances, the recipient will work with the auditor to take corrective action. If corrective action is not taken, the cognizant agency shall notify the recipient and Federal awarding agencies of the facts and make recommendations for followup action. Major inadequacies or repetitive sub-standard performance of independent auditors shall be referred to appropriate professional bodies for disciplinary action.

(vi) Coordinate, to the extent practicable, audits requested by other Federal Agencies, in addition to those required by OMB Circulars A–128 and A–133.

(vii) Ensure the resolution of audit findings and recommendations that affect DoD programs and those findings affecting programs of more than one Federal Agency. Ensure that a management decision affecting audit resolution shall be made within 6 months after receipt of the audit report.

(3) For local governments, institutions of higher education, and other nonprofit institutions for which the Department of Defense has assumed oversight responsibility, do the following:

(i) Provide technical advice and counsel through DoD Components to institutions and independent auditors when requested.
(ii) Assume all or some of the cognizant agency responsibilities (see paragraph (a)(2) of this section), as deemed necessary.

(4) For other State and local governments, institutions of higher education, and other nonprofit institutions, receive and distribute copies of single audit reports to appropriate DoD Components for appropriate action and followup by designated program officials.

(5) For audit reports that contain conditions affecting DoD programs, institute followup efforts to ensure that corrective actions have been taken by DoD organizations responsible for managing associated programs or funds.

(b) The Heads of the DoD Components shall:

(1) Designate an official to coordinate with the IG, DoD, on matters dealing with audits of financial assistance provided by the DoD Component to State and local governments, institutions of higher education, and other nonprofit institutions.

(2) Ensure input of accurate award data for Federal financial assistance to the appropriate DoD management information system.

(3) Ensure that the State or local government, institution of higher education, or other nonprofit institution takes appropriate actions to correct audit deficiencies involving financial assistance provided by the DoD Component.

(4) For State and local governments, institutions of higher education, and other nonprofit institutions for which the OMB has assigned DoD cognizance, do the following:

(i) Coordinate with the IG, DoD, on requests from other Federal Agencies for audits of State and local governments, institutions of higher education, and other nonprofit institutions, in addition to those required by OMB Circulars A–128 and A–133.

(ii) Seek the views of other interested agencies when a coordinated audit approach is to be used and before completing a coordinated program.

(iii) Help coordinate the audit work and reporting responsibilities among independent public accountants, State auditors, and both resident and non-resident Federal auditors to achieve the most cost-effective audit.

§ 266.6 Procedures.

The costs of audits made by non-Federal auditors under OMB Circulars A–128 and A–133 are allowable charges to Federal financial assistance programs. The charges may be considered as a direct cost or an allocated indirect cost in accordance with OMB Circulars A–87, A–122 and A–21; FAR, part 31 (48 CFR part 31); or the DFARS, part 231 (48 CFR part 231). Generally, the percentage of costs charged to Federal assistance programs for an audit shall not exceed the percentage of Federal funds expended to the total funds expended by the recipient during the fiscal year. No cost, however, may be charged to Federal programs for audits not made in accordance with OMB Circulars A–128 and A–133 and other applicable cost principles and regulations.

268.3 Policy.

268.4 Responsibilities.

268.5 Collection and followup procedures.

268.6 Reporting of accounts receivable and sales under 120 days delayed payment terms (short-term credit).

268.7 Collecting and reporting of foreign debts under long-term loans and debts.

268.8 Flash report of major foreign debt arrearages.

268.9 Discussion of terms.

SOURCE: 43 FR 11196, Mar. 17, 1978, unless otherwise noted.
§ 268.2 Applicability.

The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments, and the Defense Agencies (hereafter referred to as “DoD Components”).

§ 268.3 Policy.

It is the policy of the Department of Defense that timely and aggressive collection efforts will be conducted to assure that foreign arrearages to DoD Components are held to the absolute minimum. Foreign indebtedness will be uniformly and accurately reported to the Department of the Treasury on forms prescribed by the Treasury Fiscal Requirements Manual. The information system on the status of collection actions will support the information requirements of the National Advisory Council on International Monetary and Financial Policies (NAC).

§ 268.4 Responsibilities.

(a) The assistant Secretary of Defense (Comptroller) is the DoD point of contact for matters concerning foreign indebtedness requirements imposed on DoD from outside the Department, such as by the Congress, Treasury Department, and NAC.

(b) The Defense Security Assistance Agency (DSAA) is responsible for consolidation of feeder arrearage reports and submission of a single consolidated DoD arrearage report to the Treasury Department. The DSAA shall (1) monitor collection actions; (2) follow up when initial collection actions have been unsuccessful; and (3) serve as the focal point within DoD for responding to NAC information requests.

(c) Unless otherwise directed, the DoD Component which makes the sale, or is otherwise assigned responsibility, is responsible for taking initial collection action, accounting for indebtedness, preparation of feeder arrearage reports, and providing copies of arrearage reports to the DSAA.

§ 268.5 Collection and followup procedures.

Each DoD Component is responsible for taking timely and aggressive billing and followup collection actions for each category of indebtedness incurred by official and private obligors pursuant to authorized programs.

§ 268.6 Reporting of accounts receivable and sales under 120 days delayed payment terms (short-term credit).

(a) General. (1) Amounts payable to DoD Components for sales of Defense articles and services on terms which require payment of cash in advance of delivery/performance or within 60 days thereof will be classified as accounts receivable. Military Departments shall submit reports to the DSAA of foreign indebtedness related to those sales.

(2) Sales made by DoD Components under existing cases which provide for 120-day payment terms shall be classified as short-term credit sales. Similarly, those sales made after September 30, 1976, under special emergency appropriations which provide for payments 120 days after delivery of articles or services will also be classified as short-term credit sales. DoD Components shall submit reports to the DSAA of these short-term credit sales.

(3) Foreign indebtedness to DoD Components for logistical support, mission support costs, and other programs is payable upon presentation of the appropriate billing documents. Reports of foreign indebtedness related to these programs will be submitted to the DSAA.

(b) Basis for reporting. Amounts to be reported will be determined by analyzing unpaid bills using the criteria and definitions contained in §268.9.

§ 268.7 Collecting and reporting of foreign debts under long-term loans and debts.

The DSAA is responsible for administering FMS long-term loans and credit programs authorized by Section 23 of the Arms Export Control Act, and likewise is responsible for determining foreign indebtedness against these programs. Debts remaining uncalled 90 days after the due date will be referred to the State Department for diplomatic assistance to effect settlement.
§ 268.8 Flash report of major foreign debt arrearages.

Major foreign debt arrearages are monitored by the NAC. Therefore, periodically DSAA will request flash reports from the DoD Components to satisfy NAC requirements for information on major foreign debt arrearages. For this purpose, a “major” foreign debt arrearage is any country program arrearage which involves the sum of $250,000 or more. Flash reports will be submitted directly to DSAA by the local command in message form with information copies to the next higher command. The report will reflect any significant changes in major foreign debt arrearages from the quarterly foreign indebtedness reports submitted in accordance with §268.6. Collections, information on increased indebtedness, problems encountered in unsuccessful collection attempts, or country circumstances which may adversely affect collections are examples of the information which should be included in the flash reports.

§ 268.9 Discussion of terms.

(a) Accounts receivable. “Accounts receivable” consist of those amounts due in which the original payment time required full payment within 90 days of delivery or performance. It excludes principal payments or interest on short-term and long-term loans and credits.

(b) Arrearage delinquency determination. Obligations generated by formal agreements, as in the case of Foreign Military Sales contracts, are due on the dates specified in the contract or on the date specified in billings rendered in accordance with these contracts. Obligations incurred under Military Mission Support (Program 142) Logistical Support (Program 143) and any other authorized programs are due on the date billings are made to the customer country unless otherwise stated in the bill. Followup and reporting actions, if any, will be taken based on these dates. (See §268.5.)

(c) Country designations. For reporting purposes, grants and contingent liabilities will be identified with the country which receives the benefit. Loans and credits will be identified generally with the country of the obligor, or, in the instance of official multinational organizations, with the institution name. When the project is located in, or goods are destined for another country or area, the latter country or area should be stated in the description of purpose. If a government credit intermediary is the obligor, the transaction should be identified with the country where the project is located or the goods are destined.

(1) United States. “United States” shall mean the states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Canal Zone, Guam, Midway Island, U.S. Virgin Islands, and Wake Island.

(2) Foreign country designations. Country designations other than the “United States” shall be consistent with the standardized names and codes contained in the Military Assistance and Sales Manual (MASM).

(3) Official Multinational Organization. For reporting purposes, “Official Multinational Organization” shall mean any international or regional organization or affiliated agency thereof created by treaty or convention between sovereign states.

(d) Dollar equivalents of foreign currency. Represents dollar equivalent of all foreign currency amounts disbursed and still outstanding, undisbursed balances, and arrearages of principal and interest. They shall be computed at the reporting rate prescribed by Treasury Department Circular No. 930 for balances as of the end of the reporting period. The dollar equivalents of all other reportable amounts shall be the summation of individual transactions computed at the reporting rate prescribed for the period in which the transactions occurred.

(e) Foreign indebtedness. “Foreign indebtedness” means financial obligations owed to the U.S. Government by the following entities in connection with DoD activities.

(1) Any individual, including a citizen of the United States (excluding U.S. military members and U.S. Government employees) domiciled outside the United States.

(2) Any partnership, association, corporation, or other organization created
or organized under the laws of a foreign country, excepting branches or agencies thereof located in the United States.

(3) Any branch, subsidiary, or allied organization within a foreign country of a partnership, association, corporation, or other organization created or organized under the laws of a foreign country or the United States.

(4) Any government of a foreign country and any subdivision, agency, or instrumentality thereof, including all foreign “Official” institutions, even though located in the United States.

(5) Any private relief, philanthropic, or other organization of a multinational or regional character with headquarters abroad.

(6) Any official multinational organization, defined as any international or regional organization (or affiliated agency thereof) created by treaty or convention between sovereign states.

(f) Indebtedness. “Indebtedness” within the context of this part refers to financial obligations to make payment(s) to the U.S. Government in accordance with contractual or other arrangements. Such obligations generally arise from:

(1) The disbursements of cash to be repaid at a future time (with or without interest).

(2) The extension of credit (by formal agreement or an open book account) in connection with the sale of products, property, or services.

(3) The formal deferral of interest collection.

(4) The purchase or repurchase of obligations that have been insured or guaranteed by the U.S. Government, and

(5) Payments by the U.S. Government in cases of default on insured or guaranteed loans and other investments when the U.S. Government acquires a debt instrument from the insured.

(g) Long-term loans and credits. “Long-term loans and credits” include any indebtedness under which the original payment terms provided for payment within a period of time exceeding one year after delivery or performance.

(h) Official obligor. “Official obligors” are debtors or guarantors who are:

(1) Central governments or their departments (ministries) or components, whether administrative or commercial.

(2) Political subdivisions such as states, provinces, departments, and municipalities.

(3) Foreign central banks.

(4) Other institutions (such as corporations, development banks, railways, and utilities) when (i) the budget of the institution is subject to the approval of the government, or (ii) the government owns more than 50 percent of the voting stock or more than half of the members of the board of directors are government representatives, or (iii) in the case of default the government or central bank would become liable for the debt of the institution.

(5) Any official multinational organization.

(i) Private obligor. “Private obligors” are all debtors or guarantors who are not defined as “official obligors.”

(j) Program. “Program” is the law, international treaty, appropriation, or other authority under which the loans or credits are extended, or the accounts receivable arise. When a narrative program designation is required, commonly used terms should be used, e.g., Arms Export Control Act, Logistical Support, and Military Assistance Advisory Groups.

(k) Short-term loans and credits. “Short-term loans and credits” include any indebtedness under which the original payment terms provided for payment within a period from 90 days to and including one year after delivery or performance.

(l) Time conventions. The terms 30, 60 and 90 days should be interpreted to mean 1, 2, and 3 calendar months, respectively. That is, the period February 6 through May 5 would be considered to be 90 days. For example, in calculating amounts “due and unpaid” 90 days or more as of December 31 the amounts due before October 1 and remaining unpaid as of December 31 would be reportable. However, amounts due as of October 1 but remaining unpaid at December 31 would not be reportable.
PART 269—CIVIL MONETARY PENALTY INFLATION ADJUSTMENT

§ 269.1 Scope and purpose.

The purpose of this part is to establish a mechanism for the regular adjustment for inflation of civil monetary penalties and to adjust such penalties in conformity with the Federal Civil Penalties Inflation Adjustment Act of 1990, 46 U.S.C. 2461, as amended by the Debt Collection Improvement Act of 1996, Public Law 104–134, April 26, 1996, in order to maintain the deterrent effect of civil monetary penalties and to promote compliance with the law.

§ 269.4 Cost of living adjustments of civil monetary penalties.

(a) The inflation adjustment under §269.3 shall be determined by increasing the maximum civil monetary penalty for each civil monetary penalty by the cost-of-living adjustment. Any increase determined under this paragraph shall be rounded to the nearest:

(2) Multiple of $100 in the case of penalties greater than $100 but less than or equal to $1,000;

§ 269.5 Application of increase to violations.

Any increase in a civil monetary penalty under this part shall apply only to violations which occur after the date the increase takes effect.

(a) All persons applying for payment under this part shall first submit a properly completed, signed and notarized Application for Compensation of Vietnamese Commandos as set out in appendix A to this part, along with all corroborating documents and information required, to the Commission on Compensation, Office of the Secretary of Defense, 4000 Defense Pentagon, Washington, D.C. 20301–4000. Submission of an Application for Compensation of Vietnamese Commandos without properly signed and notarized declarations will automatically render the application ineligible for consideration by the Commission for payment. All applicants must sign and have notarized the declarations in Part C of the Application for Compensation of Vietnamese Commandos. In addition, all applicants must sign and have notarized the declaration in either Part A or Part B of the Application for Compensation of Vietnamese Commandos. If portions of the Application for Compensation of Vietnamese Commandos are not completed, the Commission may draw adverse inferences from the portions left incomplete.

(b) Staff Functions in the Verification of Eligibility Process. The Staff Director shall:

1. Establish a database for logging and tracking Applications for Compensation of Vietnamese Commandos throughout the claims process, including appellate actions and final payment or denial of claims.

2. Maintain a liaison with on-site personnel at the National Archives Center, College Park, Maryland, to organize and translate finance records for review.

3. Upon receipt of each Application for Compensation of Vietnamese Commandos, research cases to verify eligibility of claimant to include reviewing and analyzing existing records.

4. Forward applications (including support documentation) to other U.S. Government agencies as required (e.g.,
Office of the Secretary of Defense

§ 270.9

CIA, INS) for review of their records, as needed to acquire documentation that may aid in determining the eligibility of claimants to receive payments.

(5) Present any information or comments resulting from the research and review of cases, plus any reasonably available and probative information, to the Commission with a recommendation on the eligibility of applicants.

(6) If eligibility is favorably approved by the Commission, forward written requests to DFAS to effectuate payments.

(7) Prepare notification letters, on behalf of the Commission, for forwarding to claimants notifying them of the final determination concerning approval or disapproval of their applications.

(8) In coordination with the Army Budget Office and OSD, determine appropriate fund cite that will be used for payments.

(9) Assist in the preparation of required Reports to Congress.

(10) Determine administrative budgetary support requirements and submit funding request to OSD.

(11) Provide clerical and administrative support to the Commission.

(12) Create and maintain a system of records to manage all information generated by the processing of Applications for Compensation of Vietnamese Commandos under this part and to create an administrative record of actions by the Commission. All information received or originated from other Departments and agencies of the U.S. government will be retained, stored, and further disseminated only in accordance with pertinent law (e.g., 5 U.S.C. section 552(FOIA) and 5 U.S.C. section 552a (Privacy Act)) and conditions set by those originating Departments and agencies.

(c) Claims will be processed expeditiously. Within 18 months of actual receipt by the Commission of an Application for Compensation of Vietnamese Commandos, the Commission will determine the eligibility of the applicant. The standard for finding eligibility is whether the information reasonably available to the Commission indicates that the applicant is more likely than not to be eligible for a payment under this part. The burden of making a showing of eligibility shall be on the applicant. Upon determination of eligibility, the payment should be promptly accomplished.

(d) Applicants may request to appear in person before the Commission, which will retain discretion whether to grant such requests. The Commission may request the personal appearance or interview of any applicant as a condition of further consideration of his or her application if such appearance would significantly aid the Commission in its determination. All appearances shall be at the expense of the applicant.

Subpart D—Payment

§ 270.8 Authorization of payment.

Subject to the availability of appropriated funds, upon determination by the Commission of the eligibility of a person for payment, the Commission will authorize the Defense Finance and Accounting Service (DFAS) to make payments out of the funds appropriated for this purpose. Any payment authorized to a person under a legal disability, may, in the discretion of the Commission, be paid for the use of the person, to the natural or legal guardian, committee, conservator, or curator, or, if there is no such natural or legal guardian, committee, conservator, or curator, to any other person, including the spouse, children, parents, or siblings of such person, who the Commission determines is charged with the care of the person. The Commission will notify eligible persons of the process for disbursements.

§ 270.9 Amount of payment.

The amount payable to, or with respect to, an eligible person under this part is $40,000. If an eligible person can demonstrate to the satisfaction of the Commission that confinement or incarceration exceeded 20 years, the Commission may authorize payment of an additional $2,000 for each full year in excess of 20 (and a proportionate amount for a partial year), but the total amount paid to, or with respect
§ 270.10 to, an eligible person under this part may not exceed $50,000.

§ 270.10 Time limitations.
To be eligible for payments under this part, applicants must file Applications for Compensation of Vietnamese Commandos within 18 months of the effective date of these regulations, May 15, 1997.

§ 270.11 Limitation on disbursements.
Notwithstanding any agreement (including a power of attorney) to the contrary, the Commission must disburse a payment under this part only to the person who is eligible for the payment, i.e., the commando, his surviving spouse, children, parents, or siblings. The Commission may, in its discretion, require the person who is eligible for the payment to appear at any designated Defense Finance Accounting Service disbursement office in the United States to receive payment. The Commission may, in its discretion, coordinate with other U.S. governmental agencies to facilitate disbursement of payments to persons eligible for payments who reside outside the United States. If an eligible person makes a written request that payment be made at an alternate location or in an alternate manner, the Commission may, in its discretion, grant such request, provided that the actual disbursement of the payment (i.e., the physical delivery of the payment) is made only to the eligible person. The Commission will not disburse payment to any person other than an eligible person, notwithstanding any written request, assignment of rights, power of attorney, or other agreement. In the case of an application authorized for payment but not disbursed as a result of the foregoing, the Secretary will hold the funds in trust for the person authorized to receive payment in an interest bearing account until such time as the person complies with the conditions for disbursement set out in this part.

§ 270.12 Payment in full satisfaction of all claims against the United States.
The acceptance of payment by, or with respect to, an eligible person under this part shall constitute full satisfaction of all claims by or on behalf of that person against the United States arising from the person's participation in operations under OPLAN 34A or OP35.

§ 270.13 No right to judicial review or legal cause of action.
Subject to subpart E of this part, all determinations by the Commission pursuant to this part are final and conclusive, notwithstanding any other regulation. Applicants under this part have no right to judicial review, and such review is specifically precluded. This part does not create or acknowledge any legal right or obligation whatsoever.

§ 270.14 Limitation on attorneys fees.
Notwithstanding any contract or agreement, the representative of a person authorized to receive payment under this part may not receive, for services rendered in connection with the claim of, or with respect to, a person under this part, more than 10 percent of a payment made under this part on such claim.

§ 270.15 Waiver of notary requirement.

(1) Review the Commission’s administrative record of the original determination.

(2) Review additional information or documentation submitted by the applicant to support his or her petition for reconsideration.

(3) Determine whether the decision of the Commission should be affirmed, modified, or reversed.

(b) When there is a decision affirming the Commission’s determinations, the Staff Director will notify the applicant in writing and include a statement of the reason for the affirmance.

(c) A decision of affirmance shall constitute the final action of the Department of Defense. The Secretary (or his designee) may decline to consider any subsequent petitions for reconsideration.

(d) When there is a decision modifying or reversing the Commission’s determination, the notification should be immediately made to the Staff Director so as to implement the final action.

(b) The NSA/CSS shall seek the consent of an individual when obtaining that individual’s financial records from a financial institution. Refusal of an individual to provide such consent may be grounds for denying access to all Sensitive Compartmented Information (SCI) and to other classified information in NSA/CSS custody if the circumstances of such refusal or the nature of the records sought prevent the NSA/CSS from determining that such access is or would be clearly consistent with the national security.
(c) Any actions relative to obtaining financial records without an individual’s consent shall be conducted in accordance with the provisions of DoD Directive 5400.12, found in 32 CFR part 275, as appropriate.

(d) Unless alternate procedures are involved as referenced in paragraph (b) of this section, when financial records have been transferred to another agency, a security representative shall, within 14 days, personally serve or mail to the individual whose records have been transferred, at his or her last known address, a copy of the certificate required by paragraph (c) of this section, and the following notice: “Copies of or information contained in your financial records lawfully in possession of the NSA/CSS have been furnished to (name of agency) pursuant to the Right to Financial Privacy Act of 1978 for the following purpose(s): (state reason). PART 272—ADMINISTRATION AND SUPPORT OF BASIC RESEARCH BY THE DoD

Sec.
272.1 Purpose.
272.2 Definition of basic research.
272.3 Background.
272.4 Principles.
272.5 Policy.
272.6 Implementation.

SOURCE: 26 FR 11831, Dec. 9, 1961, unless otherwise noted.

§ 272.1 Purpose.

This part states the policy of the Department of Defense on the administration and support of basic research.

§ 272.2 Definition of basic research.

Basic research is that type of research which is directed toward increase of knowledge in science. It is research where the primary aim of the investigator is a fuller understanding of the subject under study.

§ 272.3 Background.

(a) E.O. 10521, as amended, “Administration of Scientific Research by Agencies of the Federal Government,” (19 FR 1499) provides broad guidelines for administration of basic scientific research by Federal agencies. These guidelines state that while the National Science Foundation shall be increasingly responsible for providing Federal support for general purpose basic research, the conduct and support by other Federal agencies of basic research in areas which are closely related to their missions is recognized as important and desirable and shall continue.

(b) The Director of Defense Research and Engineering is responsible to the Secretary of Defense for the review and direction of the basic research program of the military departments and other agencies of the Department of Defense authorized to conduct or support basic research, and shall ensure that this program is executed according to the provisions of E.O. 10521. This review
will be of maximum effectiveness if all elements of the Department adhere to the same fundamental principles in their conduct and support of basic research.

§ 272.4 Principles.
(a) Basic research is essential to the development of military power.
(b) Continuity is essential to successful basic research. Therefore, long-term planning and funding of basic research will be employed to the maximum possible extent.
(c) Basic research may be conducted by competent scientists in universities and non-profit institutions, industry, military laboratories, or elsewhere.
(d) Sustained support of basic research will result in increased effectiveness and economies in military programs.
(e) Free and effective communication among scientists is important to basic research.

§ 272.5 Policy.
(a) It is the policy of the Department of Defense:
(1) To conduct and support a broad and continuing basic research program to provide fundamental knowledge, with emphasis on that related to the needs of the Department of Defense; and
(2) To assure full utilization of our scientific resources and to extend those resources in those areas of science relevant to the mission of the Department of Defense; and
(3) To maintain, through such a program, effective communication among the scientists of the Department of Defense and the scientists of the universities and industry; and
(4) To coordinate this program of basic research with the National Science Foundation; and
(5) To encourage the support of basic research by other government and private agencies.

§ 272.6 Implementation.
(a) It is the responsibility of the Director of Defense Research and Engineering to produce, on a continuing basis, a sound basic research program through the coordination and integration of the elements of the program among the military departments and other agencies of the Department of Defense authorized to conduct or support basic research.
(b) The Department of Defense provides support of basic research by:
(1) Support of in-house laboratories. Basic research in laboratories of the Department of Defense or in laboratories of other government agencies, best qualified for such work in particular areas, should be encouraged.
(2) Grants to and contracts with educational and nonprofit institutions. In situations appropriate for grants under the provisions of part 273, of this chapter the grant instrument is the preferred method of supporting basic research by educational and other nonprofit institutions.
(3) Contract with industry. Contracts specifically for basic research may be made with industrial contractors (including small businesses) which have a recognized special competence in a given area. In the administration of the provisions of part 15 of this chapter, which relate to the allowability of a contractor's independent research costs under certain Department of Defense contracts, favorable consideration should be given to independent basic research.
(c) The military departments and other agencies of the Department of Defense authorized to conduct or support basic research will provide the Director of Defense Research and Engineering with such information as he may require in order to carry out his responsibilities under this part, including annual reports through established administrative and fiscal channels of the following, by contract or grant and dollar value:
(1) Basic research performed in government laboratories.
(2) Basic research grants to educational and nonprofit institutions.
(3) Basic research contracts to educational and nonprofit institutions.
(4) Basic research contracts to industrial contractors, including small business.
(5) Independent basic research recognized as an allowable cost in an advance agreement under the provisions of part 15 of this chapter. Such costs
shall be reported via the Assistant Secretary of Defense (Installations and Logistics).

Federal law protects the privacy of your financial records. Before banks, savings and loan associations, credit unions, credit card issuers, or other financial institutions may give financial information about you to a federal agency, certain procedures must be followed.

Consent to Financial Records

You may be asked to consent to the financial institution making your financial records available to the Government. You may withhold your consent, and your consent is not required as a condition of doing business with any financial institution. If you give your consent, it can be revoked in writing at any time before your records are disclosed. Furthermore, any consent you give is effective for only three months, and your financial institution must keep a record of the instances in which it discloses your financial information.

Without Your Consent

Without your consent, a federal agency that wants to see your financial records may do so ordinarily only by means of a lawful subpoena, summons, formal written request, or search warrant for that purpose. Generally, the federal agency must give you advance notice of its request for your records explaining why the information is being sought and telling you how to object in court. The federal agency must also send you copies of court documents to be prepared by you with instructions for filling them out. While these procedures will be kept as simple as possible, you may want to consult an attorney before making a challenge to a federal agency’s request.

Exceptions

In some circumstances, a federal agency may obtain financial information about you without advance notice or your consent. In most of these cases, the federal agency will be required to go to court for permission to obtain your records without giving you notice beforehand. In these instances, the court will make the Government show that its investigation and request for your records are proper.

When the reason for the delay of notice no longer exists, you will usually be notified that your records were obtained.

Transfer of Information

Generally, a federal agency that obtains your financial records is prohibited from transferring them to another federal agency unless it certifies in writing that the transfer is proper and sends a notice to you that your records have been sent to another agency.

Penalties

If the federal agency or financial institution violates the Right to Financial Privacy Act, you may sue for damages or seek compliance with the law. If you win, you may be repaid your attorney’s fee and costs.

Additional Information

If you have any questions about your rights under this law, or about how to consent to release your financial records, please call the official whose name and telephone number appears below:

5. If, before such an initial decision becomes final, the defendant files a motion with the presiding officer seeking to reopen on the grounds that good cause excusing the failure to file a timely answer, the initial decision shall be stayed pending the presiding officer’s decision on the motion.

6. H. Service of Complaint

3. Upon referral of the complaint pursuant to this section, the presiding officer shall assume the facts alleged in the complaint to be true and, if such facts establish liability under section C., above, the presiding officer shall issue an initial decision imposing penalties and assessments under the statute.

4. Except as otherwise provided in this section, by failing to file a timely answer, the defendant waives any right to further review of the penalties and assessments imposed under subsection 3. of this section, and the initial decision shall become final and binding upon the parties 30 days after it is issued.

7. A decision of the presiding officer denying a defendant’s motion under subsections 5. and 6. of this section is not subject to reconsideration under section LL., below.

8. 12. If the authority head decides that the defendant’s failure to file a timely answer is not excused, the authority head shall approve the initial decision of the presiding officer, which shall become final and binding upon the parties 30 days after the authority head issues such decision.

1. Upon receipt of an answer, the reviewing official shall file the complaint and answer with the presiding officer.

2. Except as provided herein, the presiding officer shall not be bound by the Federal Rules of Evidence. However, the presiding officer may apply the Federal Rules of Evidence where appropriate; e.g., to exclude unreliable evidence.

3. The presiding officer shall exclude irrelevant and immaterial evidence.

4. Although relevant, evidence may be excluded if its probative value is substantially outweighed by the danger of unfair prejudice, confusion of the issues, or by considerations of undue delay or needless presentation of cumulative evidence.

5. Evidence shall be excluded if it is privileged under Federal law and the holder of the privilege asserts it.

6. Evidence concerning offers of compromise or settlement shall be inadmissible to the extent provided in Rule 408 of the Federal Rules of Evidence.

7. The presiding officer shall permit the parties to introduce rebuttal witnesses and evidence.

8. All documents and other evidence offered or taken for the record shall be open to examination by all parties, unless otherwise ordered by the presiding officer pursuant to section X., above.

II. The Record and Finding

1. The hearing will be recorded and transcribed. Transcripts may be obtained following the hearing from the presiding officer at a cost not to exceed the actual cost of duplication.

2. The transcript of testimony, exhibits, and other evidence admitted at the hearing, and all papers and requests filed in the proceeding constitute the record for the decision by the presiding officer and the authority head.

3. The record may be inspected and copied (upon payment of a reasonable fee) by anyone, unless otherwise ordered by the presiding officer.

4. Funding for the hearing and record, except for the cost of the presiding officer, shall be the responsibility of the authority in which the case arose.

JJ. Post-hearing Briefs

The presiding officer may require or permit the parties to file post-hearing briefs. The presiding officer shall fix the time for filing any such briefs, not to exceed 60 days from the date the parties receive the transcript of the hearing or, if applicable, the stipulated record. Such briefs may be accompanied by proposed findings of fact and conclusions of law. The presiding officer may permit the parties to file reply briefs.
KK. Initial Decision

1. The presiding officer shall issue an initial decision based only on the record that shall contain findings of fact, conclusions of law, and the amount of any penalties and assessments imposed.

2. The findings of fact shall include a finding on each of the following issues:
   a. Whether the claims or statements identified in the complaint, or any portions thereof, violate section C., above; and
   b. If the person is liable for penalties or assessments, the appropriate amount of any such penalties or assessments.

3. The presiding officer shall promptly serve the initial decision on all parties within 90 days after the time for submission of post-hearing briefs and reply briefs (if permitted) has expired. The presiding officer shall at the same time serve all parties with a statement describing the right of any defendant determined to be liable for a civil penalty or assessment to file a motion for reconsideration with the presiding officer or a notice of appeal with the authority head. If the presiding officer fails to meet the deadline contained in this subsection, he or she shall notify the parties of the reason for the delay and shall set a new deadline.

4. Unless the initial decision of the presiding officer is timely appealed to the authority head, or a motion for reconsideration of the initial decision is timely filed, the initial decision of the presiding officer shall be final and binding on the parties 30 days after it is issued by the presiding officer.

LL. Reconsideration of Initial Decision

1. Except as provided in subsection 4. of this section, any party may file a motion for reconsideration of the initial decision within 20 days of service of the initial decision in the manner set forth in section H., above, for service of the complaint. Service shall be proved in the manner provided in subsection H.2., above.

2. Every such motion must set forth the matters claimed to have been erroneously decided and the nature of the alleged errors. Such motion shall be accompanied by a supporting brief.

3. Responses to such motions shall be allowed only upon request of the presiding officer, however, the presiding officer shall not issue a revised initial determination without affording both parties an opportunity to be heard on the motion for reconsideration.

4. No party may file a motion for reconsideration of an initial decision that has been revised in response to a previous motion for reconsideration.

5. The presiding officer may dispose of a motion for reconsideration by denying it or by issuing a revised initial decision.

6. If the presiding officer denies a motion for reconsideration, the initial decision shall constitute the final decision of the authority head and shall be final and binding on the parties 30 days after the presiding officer denies the motion, unless the initial decision is timely appealed to the authority head in accordance with section MM., below.

7. If the presiding officer issues a revised initial decision, that decision shall constitute the final decision of the authority head and shall be final and binding on the parties 30 days after it is issued, unless it is timely appealed to the authority head in accordance with section MM., below.

MM. Appeal to Authority Head

1. Any defendant who has filed a timely answer and who is determined in an initial decision to be liable for a civil penalty or assessment may appeal such decision to the authority head by filing a notice of appeal with the authority head in accordance with this section.

2. A notice of appeal:
   a. May be filed at any time within 30 days after the presiding officer issues an initial or a revised initial decision. If another party files a motion for reconsideration under section LL., above, consideration of the appeal shall be stayed automatically pending resolution of the motion for reconsideration, until the time period for filing a motion for reconsideration under section LL., above, has expired or the motion is resolved;
   b. If a motion for reconsideration is timely filed, a notice of appeal may be filed within 30 days after the presiding officer denies the motion or issues a revised initial decision, whichever applies;
   c. The authority head may extend the initial 30-day period for an additional 30 days if the defendant files with the authority head a request for an extension within the initial 30-day period and shows good cause.

3. If the defendant files a timely notice of appeal with the authority head, the presiding officer shall forward the record of the proceeding to the authority head when:
   a. The time for filing a motion for reconsideration expires without the filing of such a motion, or
   b. The motion for reconsideration is denied. Issuance of a revised initial decision upon motion for reconsideration shall require filing of a new notice of appeal.

4. A notice of appeal shall be accompanied by a written brief specifying exceptions to the initial decision and reasons supporting the exceptions.

5. The representative for the Government may file a brief in opposition to the exceptions within 30 days of receiving the notice of appeal and accompanying brief.

6. There is no right to appear personally before the authority head, although the authority head may at his or her discretion require the parties to appear for an oral hearing on appeal.
7. There is no right to appeal any interlocutory ruling by the presiding officer.

8. In reviewing the initial decision, the authority head shall not consider any objection that was not raised before the presiding officer, unless a demonstration is made of extraordinary circumstances causing the failure to raise the objection.

9. If any party demonstrates to the satisfaction of the authority head that additional evidence not presented at such hearing is material and that there were reasonable grounds for the failure to present such evidence at such hearing, the authority head shall remand the matter to the presiding officer for consideration of such additional evidence.

10. The authority head may affirm, reduce, reverse, compromise, remand, or settle any penalty or assessment determined by the presiding officer in any initial decision.

11. The authority head shall promptly serve each party to the appeal with a copy of the decision of the authority head and a statement describing the right of any person determined to be liable for a penalty or assessment to seek judicial review.

12. Unless a petition for review is filed as provided in 32 U.S.C. 3805 after a defendant has exhausted all administrative remedies under this part and within 60 days after the date on which the authority head serves the defendant with a copy of the authority head's decision, a determination that a defendant is liable under section C., above, is final and is not subject to judicial review.

13. The authority heads (or their designees) may designate an officer or employee of the authority, who is serving in the grade of GS-17 or above under the General Schedule, or in the Senior Executive Service, to carry out these appellate responsibilities; however, the authority to compromise, settle, or otherwise discretionarily dispose of the case on appeal provided pursuant to subsection MM.10, hereof, may not be so redelegated pursuant to this subsection.

NN. Stays Ordered by the Department of Justice

If at any time, the Attorney General or an Assistant Attorney General designated by the Attorney General transmits to the authority head a written finding that continuation of the administrative process described in this Directive with respect to a claim or statement may adversely affect any pending or potential criminal or civil action related to such claim or statement, the authority head shall stay the process immediately. The authority head may order the process resumed only upon receipt of the written authorization of the Attorney General.

OO. Stay Pending Appeal

1. An initial decision is stayed automatically pending disposition of a motion for reconsideration or of an appeal to the authority head.

2. No administrative stay is available following a final decision of the authority head.

PP. Judicial Review

31 U.S.C. 3805 authorizes judicial review by an appropriate United States District Court of a final decision of the authority head imposing penalties or assessment under this part and specifies the procedures for such review.

QQ. Collection of Civil Penalties and Assessments

31 U.S.C. 3806 and 3808(b) authorize actions for collection of civil penalties and assessments imposed under this part and specify the procedures for such actions.

RR. Right to Administrative Offset

The amount of any penalty or assessment that has become final, or for which a judgment has been entered under section QQ., above, or any amount agreed upon in a compromise or settlement under section TT., below, may be collected by administrative offset under 31 U.S.C. 3716, except that an administrative offset may not be made under this section against a refund of an overpayment of Federal taxes then or later owing by the United States to the defendant.

SS. Deposit in Treasury of United States

All amounts collected pursuant to this part shall be deposited as miscellaneous receipts in the Treasury of the United States, except as provided in 31 U.S.C. 3808(g).

TT. Compromise or Settlement

1. Parties may make offers of compromise or settlement at any time.

2. The reviewing official has the exclusive authority to compromise or settle a case under this Directive at any time after the date on which the presiding officer issues an initial decision.

3. The authority head has exclusive authority to compromise or settle a case under this Directive at any time after the date on which the presiding officer issues an initial decision, except during the pendency of any review under section PP., above, or during the pendency of any action to collect penalties as assessments under section QQ., above.

4. The Attorney General has exclusive authority to compromise or settle a case under this part during the pendency of any review.
under section PP., above, of any action to recover penalties and assessments under 31 U.S.C. 3806.

5. The investigating official may recommend settlement terms to the reviewing official or the Attorney General, as appropriate. The reviewing official may recommend settlement terms to the Attorney General, as appropriate.

6. Any compromise or settlement must be in writing.

UU. Limitations

1. The notice of hearing with respect to a claim or settlement must be served in the manner specified in section H., above, within 6 years after the date on which such claim or statement is made.

2. If the defendant fails to file a timely answer, service of a notice under subsection J.2., above, shall be deemed a notice of hearing for purposes of this section.

3. If at any time during the course of proceedings brought pursuant to this section, the authority head receives or discovers any specific information concerning bribery, gratuities, conflict of interest, or other corruption or similar activity in relation to a false claim or statement, the authority head shall immediately report such information to the Attorney General and to the Inspector General, Department of Defense.

VV. Delegations

The General Counsel for the Department of Defense is designated to carry out the responsibilities of the authority head of the Department of Defense for the issuance of additional implementing regulations that are necessary to implement PFCHRA and this part to decide cases upon appeal, and to hire or designate employees of the Department of Defense to decide cases on appeal. The General Counsel, Department of Defense, is also designated to appoint presiding officers for the Department of Defense, and may assist in the appointment of presiding officers on detail from other Agencies for all authorities within the Department of Defense.

Sec.
285.1 Purpose.
285.2 Applicability and scope.
285.3 Policy.
285.4 Responsibilities.
285.5 Information requirements.

AUTHORITY: 5 U.S.C. 552.

SOURCE: 62 FR 61013, Nov. 14, 1997, unless otherwise noted.

§ 285.1 Purpose.
This part:
(a) Updates policies and responsibilities for the implementation of the DoD FOIA Program under 5 U.S.C. 552.
(b) Continues to delegate authorities and responsibilities for the effective administration of the FOIA program.

§ 285.2 Applicability and scope.
(a) This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Inspector General of the Department of Defense, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “the DoD Components”).
(b) National Security Agency/Central Security Service records are subject to this part unless those records are exempt from mandatory disclosure as outlined in 5 U.S.C. 552. Make discretionary disclosures of exempt records or information whenever disclosure would not foreseeably harm an interest protected by a FOIA exemption.

§ 285.3 Policy.
It is DoD policy to:
(a) Promote public trust by making the maximum amount of information available to the public, in both hard copy and electronic formats, on the operation and activities of the Department of Defense, consistent with DoD responsibility to ensure national security.
(b) Allow a requester to obtain agency records from the Department of Defense that are available through other public information services without invoking the FOIA.
(c) Make available, under the procedures established by 32 CFR part 286, those agency records that are requested by a member of the general public who explicitly or implicitly cites the FOIA.
(d) Answer promptly all other requests for information, agency records, objects, and articles under established procedures and practices.
(e) Release agency records to the public unless those records are exempt from mandatory disclosure as outlined in 5 U.S.C. 552. Make discretionary disclosures of exempt records or information whenever disclosure would not foreseeably harm an interest protected by a FOIA exemption.

§ 285.4 Responsibilities.
(a) The Assistant Secretary of Defense for Public Affairs shall:
(1) Direct and administer the DoD FOIA Program to ensure compliance with policies and procedures that govern the administration of the program.

Joint Chiefs of Staff and, as an exception to DoD Directive 5100.3, the Combatant Commands.

(4) As the designee of the Secretary of Defense, serve as the sole appellate authority for appeals to decisions of respective Initial Denial Authorities within OSD, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, and the DoD Field Activities.

(b) The General Counsel of the Department of Defense shall provide uniformity in the legal interpretation of this part.

(c) The Heads of the DoD Components shall:

(1) Publish in the Federal Register any instructions necessary for the internal administration of this part within a DoD Component that are not prescribed by this Directive or by other issuances of the Assistant Secretary of Defense (Public Affairs). For the guidance of the public, the information specified in 5 U.S.C. 552(a)(1) shall be published in accordance with DoD Directive 5400.9.

(2) Conduct training on the provisions of this part, 5 U.S.C. 552, and 32 CFR part 286 for officials and employees who implement the FOIA.

(3) Submit the report prescribed in subpart G of 32 CFR part 286.

(4) Make available for public inspection and copying in an appropriate facility or facilities, in accordance with rules published in the Federal Register, the records specified in 10 U.S.C. 552(a)(2), unless such records are published and copies are offered for sale. These records shall be made available to the public in hard copy, by computer telecommunications, or other electronic means.

(5) Maintain and make available for public inspection and copying current indices of all (a)(2) records as required by 10 U.S.C. 552(a)(2).

§ 285.5 Information requirements.

The reporting requirements in subpart G of 32 CFR part 286 have been assigned Report Control Symbol DD-PA(A) 1963.
§ 286.2 DoD public information.

(a) Public information. (1) The public has a right to information concerning the activities of its Government. DoD policy is to conduct its activities in an open manner and provide the public with a maximum amount of accurate and timely information concerning its activities, consistent always with the legitimate public and private interests of the American people. A record requested by a member of the public who follows rules established by proper authority in the Department of Defense shall not be withheld in whole or in part unless the record is exempt from mandatory partial or total disclosure under the FOIA. As a matter of policy, DoD Components shall make discretionary disclosures of exempt records or information whenever disclosure would not foreseeably harm an interest protected by a FOIA exemption, but this policy does not create any right enforceable in court. In order that the public may have timely information concerning DoD activities, records requested through public information channels by news media representatives that would not be withheld if requested under the FOIA should be released upon request. Prompt responses to requests for information from news media representatives should be encouraged to eliminate the need for these requesters to invoke the provisions of the FOIA and thereby assist in providing timely information to the public. Similarly, requests from other members of the public for information that would not be withheld under the FOIA should continue to be honored through appropriate means without requiring the requester to invoke the FOIA.

(2) Within the OSD, the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence, as Chief Information Officer, in conjunction with the Assistant Secretary of Defense for Public Affairs, is responsible for ensuring preparation of reference material or a guide for requesting records or information from the Department of Defense, subject to the nine exemptions of the FOIA. This publication shall also include an index of all major information systems, and a description of major information and record locator systems, as defined by the Office of the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence. DoD FOIA Components shall coordinate with the appropriate office(s) to ensure that this is also accomplished within their department or organization.

(3) DoD Components shall also prepare, in addition to normal FOIA regulations, a handbook for the use of the public in obtaining information from their organization. This handbook should be a short, simple explanation to the public of what the FOIA is designed to do, and how a member of the public can use it to access government records. Each DoD Component should explain the types of records that can be obtained through FOIA requests, why some records cannot, by law, be made available, and how the DoD Component
§ 286.3 Definitions.

As used in this part, the following terms and meanings shall be applicable:

Administrative appeal. A request by a member of the general public, made under the FOIA, asking the appellate authority of a DOD Component to reverse a decision: to withhold all or part of a requested record; to deny a fee category claim by a requester, to deny a request for waiver or reduction of fees; to deny a request to review an initial fee estimate; to deny a request for expedited processing due to demonstrated compelling need under §286.4(d)(3) of this part; to confirm that no records were located during the initial search. Requesters also may appeal the failure to receive a response determination within the statutory time limits, and any determination that the requester believes is adverse in nature.

Agency record. (1) The products of data compilation, such as all books, papers, maps, and photographs, machine readable materials, inclusive of those in electronic form or format, or other documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal law in connection with the transaction of public business and in Department of Defense possession and control at the time the FOIA request is made. Care should be taken not to exclude records from being considered agency records, unless they fall within one of the categories in paragraph (2) of this definition.

(2) The following age not included within the definition of the word “record”.

(i) Objects or articles, such as structures, furniture, vehicles and equipment, whatever their historical value, or value as evidence.

(ii) Anything that is not a tangible or documentary record, such as an individual’s memory or oral communication.

(iii) Personal records of an individual not subject to agency creation or retention requirements, created and maintained primarily for the convenience of an agency employee, and not distributed to other agency employees for their official use. Personal papers fall into three categories: those created before entering Government service; private materials brought into, created, or received in the office that were not created or received in the course of transacting Government business; and work-related personal papers that are not used in the transaction of Government business (see “Personal Papers of Executive Branch Officials: A Management Guide” 2).

(3) A record must exist and be in the possession and control of the Department of Defense at the time of the request to be considered subject to this

part and the FOIA. There is no obligation to create, compile, or obtain a record to satisfy a FOIA request. See §286.4(g)(2) on creating a record in the electronic environment.

(4) Hard copy or electronic records, that are subject to FOIA requests under 5 U.S.C. 552(a)(3), and that are available to the public through an established distribution system, or through the Federal Register, the National Technical Information Service, or the Internet, normally need not be processed under the provisions of the FOIA. If a request is received for such information, DoD Components shall provide that requester with guidance inclusive of any written notice to the public, on how to obtain the information. However, if the requester insists that the request be processed under the FOIA, then the request shall be processed under the FOIA. If there is any doubt as to whether the request must be processed, contact the Directorate for Freedom of Information and Security Review.

Appellate authority. The Head of the DoD Component or the Component head’s designee having jurisdiction for this purpose over the record, or any of the other adverse determinations outlined in definitions “Initial denial authority (IDA)” and “Administrative appeal”.

DoD Component. An element of the Department of Defense, as defined in §286.1(b), authorized to receive and act independently on FOIA requests. (See appendix F of this part.) A DoD Component has its own initial denial authority (IDA), appellate authority, and legal counsel.

Electronic record. Records (including e-mail) that are created, stored, and retrievable by electronic means.

Federal agency. As defined by 5 U.S.C. 552(f)(1), a Federal agency is any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency.

FOIA request. A written request for DoD records that reasonably describes the records sought, made by any person, including a member of the public (U.S. or foreign citizen/entity), an organization, or a business, but not including a Federal Agency or a fugitive from the law, that either explicitly or implicitly invokes the FOIA, DoD Directive 5400.7, this part, or DoD Component supplementing regulations or instructions. Requesters should also indicate a willingness to pay fees associated with the processing of their request or, in the alternative, why a waiver of fees may be appropriate. Written requests may be received by postal service or other commercial delivery means, by facsimile, or electronically. Requests received by facsimile or electronically must have a postal mailing address included since it may be practical to provide a substantive response electronically. The request is considered properly received, or perfected, when the above conditions have been met and the request arrives at the FOIA office of the Component in possession of the records.

Initial denial authority (IDA). An official who has been granted authority by the head of DoD component to withhold records requested under the FOIA for one or more of the nine categories of records exempt from mandatory disclosure. IDA’s may also deny a fee category claim by a requester; deny a request for expedited processing due to demonstrated compelling need under §286.4(d)(3) of this part; deny a request for a waiver or reduction of fees; review a fee estimate; and confirm that no records were located in response to a request.

Public interest. The interest in obtaining official information that sheds light on an agency’s performance of its statutory duties because the information falls within the statutory purpose of the FOIA to inform citizens about what their Government is doing. That statutory purpose, however, is not fostered by disclosure of information about private citizens accumulated in various governmental files that reveal nothing about an agency’s or officials own conduct.

§286.4 Policy.

(a) Compliance with the FOIA. DoD personnel are expected to comply with the FOIA, this part, and DoD FOIA policy in both better and spirit. This
§ 286.4 Uniformity of implementation of DoD FOIA Program

(a) Strict adherence is necessary to provide uniformity in the implementation of the DoD FOIA Program and to create conditions that will promote public trust.

(b) Openness with the public. The Department of Defense shall conduct its activities in an open manner consistent with the need for security and adherence to other requirements of law and regulation. Records not exempt from disclosure under the Act shall, upon request, be made readily accessible to the public in accordance with rules promulgated by competent authority, whether or not the Act is invoked.

(c) Avoidance of procedural obstacles. DoD Components shall ensure that procedural matters do not unnecessarily impede a requester from obtaining DoD records promptly. Components shall provide assistance to requesters to help them understand and comply with procedures established by this part and any supplemental regulations published by the DoD Components.

(d) Prompt action on requests.

1. Generally, when a member of the public complies with the procedures established in this part and DoD Component regulations or instructions for obtaining DoD records, and after the request is received by the official designated to respond, DoD Components shall endeavor to provide a final response determination within the statutory 20 working days. If a significant number of requests, or the complexity of the requests prevents a final response determination within the statutory time period, DoD Components shall advise the requester of this fact, and explain how the request will be responded to within its multitrack processing system, based on the date of receipt, the amount of work and time involved in processing the requests, and whether the request qualifies for expedited processing as described in paragraph (d)(3) of this section. DoD Components may establish as many processing queues as they wish; however, as a minimum, three processing tracks shall be established, all based on a first-in, first-out concept, and ranked ordered by the date of receipt of the request. One track shall be a processing queue for simple requests, one track for complex requests, and one track shall be a processing queue for expedited processing as described in paragraph (d)(3) of this section. Determinations as to whether a request is simple or complex shall be made by each DoD Component. DoD Components shall provide a requester whose request does not qualify for the fastest queue (except for expedited processing as described in paragraph (d)(3) of this section), an opportunity to limit in writing hard copy, facsimile, or electronically, the scope of the request in order to qualify for the fastest queue. This multitrack processing system does not obviate components’ responsibility to exercise due diligence in processing requests in the most expeditious manner possible.

2. Expedited processing. A separate queue shall be established for requests meeting the test for expedited processing. Expedited processing shall be granted to a requester after the requester requests such and demonstrates a compelling need for the information. Notice of the determination
as to whether to grant expedited processing in response to a requester’s compelling need shall be provided to the requester within 10 calendar days after receipt of the request in the DoD Component’s office that will determine whether to grant expedited processing. Once the DoD Component has determined to grant expedited processing, the request shall be processed as soon as practicable. Actions by DoD Components to initially deny or affirm the initial denial on appeal of a request for expedited processing, and failure to respond in a timely manner shall be subject to judicial review.

(i) Compelling need means that the failure to obtain the records on an expedited basis could reasonably be expected to pose an imminent threat to the life or physical safety of an individual.

(ii) Compelling need also means that the information is urgently needed by an individual primarily engaged in disseminating information in order to inform the public concerning actual or alleged Federal Government activity. An individual primarily engaged in disseminating information means a person whose primary activity involves publishing or otherwise disseminating information to the public. Representatives of the news media (see §286.28(e)) would normally qualify as individuals primarily engaged in disseminating information.

(A) Urgently needed means that the information has a particular value that will be lost if not disseminated quickly. Ordinarily this means a breaking news story of general public interest. However, information of historical interest only, or information sought for litigation or commercial activities would not qualify, nor would a news media publication or broadcast deadline unrelated to the news breaking nature of the information.

(B) [Reserved]

(iii) A demonstration of compelling need by a requester shall be made by a statement certified by the requester to be true and correct to the best of their knowledge. This statement must accompany the request in order to be considered and responded to within the 10 calendar days required for decisions on expedited access.

(iv) Other reasons for expedited processing. Other reasons that merit expedited processing by DoD Components are an imminent loss of substantial due process rights and humanitarian need. A demonstration of imminent loss of substantial due process rights shall be made by a statement certified by the requester to be true and correct to the best of his or her knowledge. Humanitarian need means that disclosing the information will promote the welfare and interest of mankind. A demonstration of humanitarian need shall be also made by a statement certified by the requester to be true and correct to the best of his or her knowledge. Both statements mentioned above must accompany the request in order to be considered and responded to within the 10 calendar days required for decisions on expedited access. Once the decision has been made to expedite the request for either of these reasons, the request may be processed in the expedited processing queue behind those requests qualifying for compelling need.

(v) These same procedures also apply to requests for expedited processing of administrative appeals.

(e) Use of exemptions. It is DoD policy to make records publicly available, unless the record qualifies for exemption under one or more of the nine exemptions. It is DoD policy that DoD Components shall make discretionary releases whenever possible; however, a discretionary release is normally not appropriate for records clearly exempt under exemptions 1, 3, 4, 6, 7(C) and 7(F) (see subpart C of this part). Exemptions 2, 5, and 7(A)(B)(D) and (E) (see subpart C of this part) are discretionary in nature, and DoD Components are encouraged to exercise discretionary releases whenever possible. Exemptions 4, 6 and 7(C) cannot be claimed when the requester is the submitter of the information.

(f) Public domain. Nonexempt records released under the authority of this part are considered to be in the public domain. Such records may also be made available in Components’ reading rooms in paper form, as well as electronically, to facilitate public access.
§ 286.4 Discretionary releases to FOIA requesters constitute a waiver of the FOIA exemption that may otherwise apply. Disclosure to a properly constituted advisory committee, to Congress, or to other Federal Agencies does not waive the exemption. (See §286.22(d).) Exempt records disclosed without authorization by the appropriate DoD official do not lose their exempt status. Also, while authority may exist to disclose records to individuals in their official capacity, the provisions of this Part apply if the same individual seeks the records in a private or personal capacity.

(g) Creating a record. (1) A record must exist and be in the possession and control of the Department of Defense at the time of the search to be considered subject to this part and the FOIA. There is no obligation to create, compile, or obtain a record to satisfy a FOIA request. A DoD Component, however, may compile a new record when so doing would result in a more useful response to the requester, or be less burdensome to the agency than providing existing records, and the requester does not object. Cost of creating or compiling such a record may not be charged to the requester unless the fee for creating the record is equal to or less than the fee which would be charged for providing the existing record. Fee assessments shall be in accordance with subpart F of this part.

(2) About electronic data, the issue of whether records are actually created or merely extracted from an existing database is not always readily apparent. Consequently, when responding to FOIA requests for electronic data where creation of a record, programming, or particular format are questionable, Components should apply a standard of reasonableness. In other words, if the capability exists to respond to the request, and the effort would be a business as usual approach, then the request should be processed. However, the request need not be processed where the capability to respond does not exist without a significant expenditure of resources, thus not being a normal business as usual approach. As used in this sense, a significant expenditure of resources in both time and manpower, that would cause a significant interference with the operation of the Component’s automated information system would not be a business as usual approach.

(h) Description of requested record. (1) Identification of the record desired is the responsibility of the requester. The requester must provide a description of the desired record, that enables the Government to locate the record with a reasonable amount of effort. In order to assist DoD Components in conducting more timely searches, requesters should endeavor to provide as much identifying information as possible. When a DoD Component receives a request that does not reasonably describe the requested record, it shall notify the requester of the defect in writing. The requester should be asked to provide the type of information outlined in paragraph (h)(2) of this section. DoD Components are not obligated to act on the request until the requester responds to the specificity letter. When practicable, DoD Components shall offer assistance to the requester in identifying the records sought and in reformulating the request to reduce the burden on the agency in complying with the Act.

(2) The following guidelines are provided to deal with generalized requests and are based on the principle of reasonable effort (Descriptive information about a record may be divided into two broad categories):

(i) Category I is file-related and includes information such as type of record (for example, memorandum), title, index citation, subject area, date the record was created, and originator.

(ii) Category II is event-related and includes the circumstances that resulted in the record being created or the date and circumstances surrounding the event the record covers.

(3) Generally, a record is not reasonably described unless the description contains sufficient Category I information to permit the conduct of an organized, non-random search based on the DoD Component’s filing arrangements and existing retrieval systems, or unless the record contains sufficient Category II information to permit inference of the Category I elements needed to conduct such a search.

682
(4) The following guidelines deal with requests for personal records: Ordinarily, when personal identifiers are provided only in connection with a request for records concerning the requester, only records in a Privacy Act System of records that can be retrieved by personal identifiers need be searched. However, if a DoD Component has reason to believe that records on the requester may exist in a record system other than a Privacy Act system, the DoD Component shall search that system under the provisions of the FOIA. In either case, DoD Components may request a reasonable description of the records desired before searching for such records under the provisions of the FOIA and the Privacy Act. If the record is required to be released under the FOIA, the Privacy Act does not bar its disclosure. See paragraph (m) of this section for the relationship between the FOIA and the Privacy Act.

(5) The previous guidelines notwithstanding, the decision of the DoD Component concerning reasonableness of description must be based on knowledge of its files. If the description enables DoD Component personnel to locate the record with reasonable effort, the description is adequate. The fact that a FOIA request is broad or burdensome in its magnitude does not, in and of itself, entitle a DoD Component to deny the request on the ground that it does not reasonably describe the records sought. The key factor is the ability of the DoD Component’s staff to reasonably ascertain and locate which records are being requested.

(i) Referrals. (1) The DoD FOIA referral policy is based upon the concept of the originator of a record making a release determination of its information. If a DoD Component receives a request for records originated by another DoD Component, it should contact the DoD Component to determine if it also received the request, and if not, obtain concurrence from the other DoD Component to refer the request. In either situation, the requester shall be advised of the action taken, unless exempt information would be revealed. While referrals to originators of information result in obtaining the best possible decision on release of the information, the policy does not relieve DoD Components from the responsibility of making a release decision on a record should the requester object to referral of the request and the record. Should this situation occur, DoD Components should coordinate with the originator of the information prior to making a release determination. A request received by a DoD Component having no records responsive to a request shall be referred routinely to another DoD Component, if the other DoD Component has reason to believe it has the requested record. Prior to notifying a requester of a referral to another DoD Component, the DoD Component receiving the initial request shall consult with the other DoD Component to determine if that DoD Component’s association with the material is exempt. If the association is exempt, the DoD Component receiving the initial request will protect the association and any exempt information without revealing the identity of the protected DoD Component. The protected DoD Component shall be responsible for submitting the justifications required in any litigation. Any DoD Component receiving a request that has been misaddressed shall refer the request to the proper address and advise the requester. DoD Components making referrals of requests or records shall include with the referral, a point of contact by name, a telephone number, and an e-mail address.

(2) A DoD Component shall refer for response directly to the requester, a FOIA request for a record that it holds to another DoD Component or agency outside the DoD, if the record originated in the other DoD Component or outside agency. Whenever a record or a portion of a record is referred to another DoD Component or to a Government Agency outside of the DoD for a release determination and direct response, the requester shall be informed of the referral, unless it has been determined that notification would reveal exempt information. Referred records shall only be identified to the extent consistent with security requirements.

(3) A DoD Component may refer a request for a record that it originated to another DoD Component or agency when the other DoD Component or agency has a valid interest in the
§286.4 32 CFR Ch. I (7–1–02 Edition)

record, or the record was created for the use of the other DoD Component or agency. In such situations, provide the record and a release recommendation on the record with the referral action. Ensure you include a point of contact with the telephone number. An example of such a situation is a request for audit reports prepared by the Defense Contract Audit Agency. These advisory reports are prepared for the use of contracting officers and their release to the audited contractor shall be at the discretion of the contracting officer. A FOIA request shall be referred to the appropriate DoD Component and the requester shall be notified of the referral, unless exempt information would be revealed. Another example is a record originated by a DoD Component or agency that involves foreign relations, and could affect a DoD Component or organization in a host foreign country. Such a request and any responsive records may be referred to the affected DoD Component or organization for consultation prior to a final release determination within the Department of Defense. See also §286.22(e) of this part.

(4) Within the Department of Defense, a DoD Component shall ordinarily refer a FOIA request and a copy of the records it holds, but that was originated by other DoD Component or that contains substantial information obtained from another DoD Component, to that Component for direct response, after direct coordination and obtaining concurrence from the Component. The requester then shall be notified by such referral. DoD Components shall not, in any case, release or deny such records without prior consultation with the other DoD Component, except as provided in §286.22(e) of this part.

(5) DoD Components that receive referred requests shall answer them in accordance with the time limits established by the FOIA, this part, and their multitrack processing queues, based upon the date of initial receipt of the request at the referring component or agency.

(6) Agencies outside the Department of Defense that are subject to the FOIA.

(i) A DoD Component may refer a FOIA request for any record that originated in an agency outside the Department of Defense or that is based on information obtained from an outside agency to the agency for direct response to the requester after coordination with the outside agency, if that agency is subject to FOIA. Otherwise, the DoD Component must respond to the request.

(ii) A DoD Component shall refer to the agency that provided the record any FOIA request for investigative intelligence, or any other type of records that are on loan to the Department of Defense for a specific purpose, if the records are restricted from further release and so marked. However, if for investigative or intelligence purposes, the outside agency desires anonymity, a DoD Component may only respond directly to the requester after coordination with the outside agency.

(7) DoD Components that receive requests for records of the National Security Council (NSC), the White House, or the White House Military Office (WHMO) shall process the requests. DoD records in which the NSC or White House has a concurrent reviewing interest, and NSC, White House, or WHMO records discovered in DoD Components’ files shall be forwarded to the Directorate for Freedom of Information and Security Review (DFOISR). The DFOISR shall coordinate with the NSC, White House, or WHMO and return the records to the originating agency after coordination.

(8) To the extent referrals are consistent with the policies expressed by this section, referrals between offices of the same DoD Component are authorized.

(9) On occasion, the Department of Defense receives FOIA requests for General Accounting Office (GAO) records containing DoD information. Even though the GAO is outside the executive branch, and not subject to the FOIA, all FOIA requests for GAO documents containing DoD information received either from the public, or on referral from the GAO, shall be processed under the provisions of the FOIA.

(j) Authentication. Records provided under this part shall be authenticated with an appropriate seal, whenever...
necessary, to fulfill an official government or other legal function. This service, however, is in addition to that required under the FOIA and is not included in the FOIA fee schedule. DoD Components may charge for the service at a rate of $5.20 for each authentication.

(k) Combatant Commands. (1) The Combatant Commands are placed under the jurisdiction of the OSD, instead of the administering Military Department or the Chairman of the Joint Chiefs of Staff, only for the purpose of administering the DoD FOIA Program. This policy represents an exception to the policies directed in DoD Directive 5100.3; it authorizes and requires the Combatant Commands to process FOIA requests in accordance with DoD Directive 5400.7 and this part. The Combatant Commands shall forward directly to the Director, Freedom of Information and Security Review all correspondence associated with the appeal of an initial denial for records under the provisions of the FOIA. Procedures to effect this administrative requirement are outlined in appendix A of this part.

(2) Combatant Commands shall maintain an electronic reading room for FOIA-processed 5 U.S.C. 552(a)(2)(D) records in accordance with subpart B of this part. Records qualifying for this means of public access also shall be maintained in hard copy for public access at Combatant Commands’ respective locations.

(1) Records management. FOIA records shall be maintained and disposed of in accordance with the National Archives and Records Administration General Records Schedule, and DoD Component records schedules.

(m) Relationship between the FOIA and the Privacy Act (PA). Not all requesters are knowledgeable of the appropriate statutory authority to cite when requesting records, nor are all of them aware of appeal procedures. In some instances, they may cite neither Act, but will imply one or both Acts. For these reasons, the following guidelines are provided to ensure that requesters receive the greatest amount of access rights under both Acts. See also §286.24 regarding appeal rights.

(1) If the record is required to be released under the FOIA, the Privacy Act does not bar its disclosure. Unlike the FOIA, the Privacy Act applies only to U.S. citizens and aliens admitted for permanent residence.

(2) Requesters who seek records about themselves contained in a Privacy Act system of records and who cite or imply the Privacy Act, will have their requests processed under the provisions of both the Privacy Act and the FOIA. If the Privacy Act system of records is exempt from the provisions of 5 U.S.C. 552a(d)(1) and if the records, or any portion thereof, are exempt under the FOIA, the requester shall be so advised with the appropriate Privacy Act and FOIA exemption. Appeals shall be processed under both Acts.

(3) Requesters who seek records about themselves that are not contained in a Privacy Act system of records and who cite or imply the Privacy Act will have their requests processed under the provisions of the FOIA, since the Privacy Act does not apply to these records. Appeals shall be processed under the FOIA.

(4) Requesters who seek records about themselves that are contained in a Privacy Act system of records and who cite or imply the FOIA or both Acts will have their requests processed under the provisions of both the Privacy Act and the FOIA. If the Privacy Act system of records is exempt from the provisions of 5 U.S.C. 552a(d)(1) and if the records or any portion thereof, are exempt under the FOIA, the requester shall be so advised with the appropriate Privacy Act and FOIA exemption. Appeals shall be processed under both Acts.

(5) Requesters who seek access to agency records that are not part of a Privacy Act system of records, and who cite or imply the Privacy Act and FOIA, will have their requests processed under the FOIA since the Privacy Act does not apply to these records. Appeals shall be processed under the FOIA.

(6) Requesters who seek access to agency records and who cite or imply the FOIA will have their requests for appeals processed under the FOIA.
(7) Requesters shall be advised in the final response letter which Act(s) was (were) used, inclusive of appeal rights as outlined in paragraphs (m)(1) through (m)(6) of this section.

(n) Non-responsive information in responsive records. DoD Components shall interpret FOIA requests liberally when determining which records are responsive to the requests, and may release non-responsive information. However, should DoD Components desire to withhold non-responsive information, the following steps shall be accomplished:

(1) Consult with the requester, and ask if the requester views the information as responsive, and if not, seek the requester’s concurrence to deletion of non-responsive information without a FOIA exemption. Reflect this concurrence in the response letter.

(2) If the responsive record is unclassified, and the requester does not agree to deletion of non-responsive information without a FOIA exemption, release all non-responsive and responsive information which is not exempt. For non-responsive information that is exempt, notify the requester that even if the information were determined responsive, it would likely be exempt under (state appropriate exemption(s)). Advise the requester of the right to request this information under a separate FOIA request. The separate request shall be placed in the same location within the processing queue as the original request.

(3) If the responsive record is classified, and the requester does not agree to deletion of non-responsive information without a FOIA exemption, release all unclassified responsive and non-responsive information which is not exempt. If the non-responsive information is exempt, follow the procedures in paragraph (n)(2) of this section. The classified, non-responsive information need not be reviewed for declassification at this point. Advise the requester that even if the classified information were determined responsive, it would likely be exempt under 5 U.S.C. 552(b)(1), and other exemptions if appropriate. Advise the requester of the right to request this information under a separate FOIA request. The separate request shall be placed in the same location within the processing queue as the original request.

Subpart B—FOIA Reading Rooms

§ 286.7 Requirements.

(a) Reading room. Each DoD Component shall provide an appropriate facility or facilities where the public may inspect and copy or have copied the records described in paragraph (b) of this section and §286.8(a). In addition to the records described in paragraph (b) of this section and §286.8(a), DoD Components may elect to place other records in their reading room, and also make them electronically available to the public. DoD Components may share reading room facilities if the public is not unduly inconvenienced, and also may establish decentralized reading rooms. When appropriate, the cost of copying may be imposed on the person requesting the material in accordance with the provisions of subpart F of this part.

(b) Record availability. The FOIA requires that records described in 5 U.S.C. 552(a)(2) (A), (B), (C), and (D) created on or after November 1, 1996, shall be made available electronically by November 1, 1997, as well as in hard copy in the FOIA reading room for inspection and copying, unless such records are published and copies are offered for sale. Personal privacy information, that if disclosed to a third
§ 286.8 Indexes.

(a) "(a)(2)" materials. (1) Each DoD Component shall maintain in each facility prescribed in §286.7(a), an index of materials described in §286.7(b) that...
are issued, adopted, or promulgated, after July 4, 1967. No (a) materials issued, promulgated, or adopted after July 4, 1967, that are not indexed and either made available or published may be relied upon, used or cited as precedent against any individual unless such individual has actual and timely notice of the contents of such materials. Such materials issued, promulgated, or adopted before July 4, 1967, need not be indexed, but must be made available upon request if not exempted under this part.

(2) Each DoD Component shall promptly publish quarterly or more frequently, and distribute, by sale or otherwise, copies of each index of (a) materials or supplements thereto unless it publishes in the Federal Register an order containing a determination that publication is unnecessary and impracticable. A copy of each index or supplement not published shall be provided to a requester at a cost not to exceed the direct cost of duplication as set forth in subpart F of this part.

(3) Each index of (a) materials or supplement thereto shall be arranged topical or by descriptive words rather than by case name or numbering system so that members of the public can readily locate material. Case name and numbering arrangements, however, may also be included for DoD Component convenience.

(4) A general index of FOIA-processed (a) records referred to in §286.7(b)(4), shall be made available to the public, both in hard copy and electronically by December 31, 1999.

(b) Other materials. (1) Any available index of DoD Component material published in the Federal Register, such as material required to be published by Section 552(a)(1) of the FOIA, shall be made available in DoD Component FOIA reading rooms, and electronically to the public.

(2) Although not required to be made available in response to FOIA requests or made available in FOIA Reading Rooms, “(a)(1)” materials shall, when feasible, be made available to the public in FOIA reading rooms for inspection and copying, and by electronic means. Examples of “(a)(1)” materials are: descriptions of any agency’s central and field organization, and to the extent they affect the public, rules of procedures, descriptions of forms available, instruction as to the scope and contents of papers, reports, or examinations, and any amendment, revision, or report of the aforementioned.

Subpart C—Exemptions

§ 286.11 General provisions.

Records that meet the exemption criteria of the FOIA may be withheld from public disclosure and need not be published in the Federal Register, made available in a library reading room, or provided in response to a FOIA request.

§ 286.12 Exemptions.

The following types of records may be withheld in whole or in part from public disclosure under the FOIA, unless otherwise prescribed by law: A discretionary release of a record (see also §286.4(e)) to one requester shall prevent the withholding of the same record under a FOIA exemption if the record is subsequently requested by someone else. However, a FOIA exemption may be invoked to withhold information that is similar or related that has been the subject of a discretionary release. In applying exemptions, the identity of the requester and the purpose for which the record is sought are irrelevant with the exception that an exemption may not be invoked where the particular interest to be protected is the requester’s interest. However, if the subject of the record is the requester for the record and the record is contained in a Privacy Act system of records, it may only be denied to the requester if withholding is both authorized by DoD 5400.11-R and by a FOIA exemption.

(a) Number 1 (5 U.S.C. 552(b)(1)). Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by Executive Order and implemented by regulations, such as DoD 5200.1-R. Although material is not classified at the time of the FOIA request, a classification review

2 See footnote 1 to §286.1(a).
may be undertaken to determine whether the information should be classified. The procedures in DoD 5200.1–R apply. If the information qualifies as exemption 1 information, there is no discretion regarding its release. In addition, this exemption shall be invoked when the following situations are apparent:

(1) The fact of the existence or non-existence of a record would itself reveal classified information. In this situation, Components shall neither confirm nor deny the existence or non-existence of the record being requested. A “refusal to confirm or deny” response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a “no record” response when a record does not exist, and a “refusal to confirm or deny” when a record does exist will itself disclose national security information.

(2) Compilations of items of information that are individually unclassified may be classified if the compiled information reveals additional association or relationship that meets the standard for classification under an existing executive order for classification and DoD 5200.R-1, and is not otherwise revealed in the individual items of information.

(b) Number 2 (5 U.S.C. 552(b)(2)). Those related solely to the internal personnel rules and practices of the Department of Defense or any of its Components. This exemption is entirely discretionary. This exemption has two profiles, high (b)(2) and low (b)(2). Paragraph (b)(2) of this section contains a brief discussion on the low (b)(2) profile; however, that discussion is for information purposes only. When only a minimum Government interest would be affected (administrative burden), there is a great potential for discretionary disclosure of the information. Consequently, DoD Components shall not invoke the low (b)(2) profile.

(1) Records qualifying under high (b)(2) are those containing or constituting statutes, rules, regulations, orders, manuals, directives, instructions, and security classification guides, the release of which would allow circumvention of these records thereby substantially hindering the effective performance of a significant function of the Department of Defense. Examples include:

(i) Those operating rules, guidelines, and manuals for DoD investigators, inspectors, auditors, and examiners that must remain privileged in order for the DoD Component to fulfill a legal requirement.

(ii) Personnel and other administrative matters, such as examination questions and answers used in training courses or in the determination of the qualifications of candidates for employment, entrance on duty, advancement, or promotion.

(iii) Computer software, the release of which would allow circumvention of a statute or DoD rules, regulations, orders, manuals, directives, or instructions. In this situation, the use of the software must be closely examined to ensure a circumvention possibility exists.

(2) Records qualifying under the low (b)(2) profile are those that are trivial and housekeeping in nature for which there is no legitimate public interest or benefit to be gained by release, and it would constitute an administrative burden to process the request in order to disclose the records. Examples include rules of personnel’s use of parking facilities or regulation of lunch hours, statements of policy as to sick leave, and administrative data such as file numbers, mail routing stamps, initials, data processing notations, brief references to previous communications, and other like administrative markings. DoD Components shall not invoke the low (b)(2) profile.

(c) Number 3 (5 U.S.C. 552(b)(3)). Those concerning matters that a statute specifically exempts from disclosure by terms that permit no discretion on the issue, or in accordance with criteria established by that statute for withholding or referring to particular types of matters to be withheld. The Director for Freedom of Information and Security Review maintains a list of (b)(3) statutes used within the Department of Defense, and provides updated lists of these statutes to DoD Components on a periodic basis. A few examples of such statutes are:
§ 286.12  

(1) Patent Secrecy, 35 U.S.C. 181–188. Any records containing information relating to inventions that are the subject of patent applications on which Patent Secrecy Orders have been issued.

(2) Restricted Data and Formerly Restricted Data, 42 U.S.C. 2162.

(3) Communication Intelligence, 18 U.S.C. 798.

(4) Authority to Withhold from Public Disclosure Certain Technical Data, 10 U.S.C. 130 and DoD Directive 5230.25.6

(6) Physical Protection of Special Nuclear Material: Limitation on Dissemination of Unclassified Information, 10 U.S.C. 128.

(7) Protection of Intelligence Sources and Methods, 50 U.S.C. 403–3(c)(6).

(8) Protection of Contractor Submitted Proposals, 10 U.S.C. 2305(g).

(9) Procurement Integrity, 41 U.S.C. 423.

(d) Number 4 (5 U.S.C. 552(b)(4)). Those containing trade secrets or commercial or financial information that a DoD Component receives from a person or organization outside the Government with the understanding that the information or record will be retained on a privileged or confidential basis in accordance with the customary handling of such records. Records within the exemption must contain trade secrets, or commercial or financial records, the disclosure of which is likely to cause substantial harm to the competitive position of the source providing the information; impair the Government’s ability to obtain necessary information in the future; or impair some other legitimate Government interest. Commercial or financial information submitted on a voluntary basis, absent any exercised authority prescribing criteria for submission is protected without any requirement to show competitive harm (see paragraph (d)(8) of this section). If the information qualifies as exemption 4 information, there is no discretion in its release. Examples include:

(1) Commercial or financial information received in confidence in connection with loans, bids, contracts, or proposals set forth in or incorporated by reference in a contract entered into between the DoD Component and the offeror that submitted the proposal, as well as other information received in confidence or privileged, such as trade secrets, inventions, discoveries, or other proprietary data. See also §286.23(h)(2) of this part. Additionally, when the provisions of 10 U.S.C. 2305(g), and 41 U.S.C. 423 are met, certain proprietary and source selection information may be withheld under exemption 3.

(2) Statistical data and commercial or financial information concerning contract performance, income, profits, losses, and expenditures, if offered and received in confidence from a contractor or potential contractor.

(3) Personal statements given in the course of inspections, investigations, or audits, when such statements are received in confidence from the individual and retained in confidence because they reveal trade secrets or commercial or financial information normally considered confidential or privileged.

(4) Financial data provided in confidence by private employers in connection with locality wage surveys that are used to fix and adjust pay schedules applicable to the prevailing wage rate of employees within the Department of Defense.

(5) Scientific and manufacturing processes or developments concerning technical or scientific data or other information submitted with an application for a research grant, or with a report while research is in progress.

(6) Technical or scientific data developed by a contractor or subcontractor exclusively at private expense, and technical or scientific data developed in part with Federal funds and in part at private expense, wherein the contractor or subcontractor has retained legitimate proprietary interests in such data in accordance with 10 U.S.C. 2320–2321 and DoD Federal Acquisition Regulation Supplement (DFARS), Chapter 2 of 48 CFR, Subpart 227.71–227.72. Technical data developed exclusively with Federal funds may be withheld under Exemption Number 3 if it meets the criteria of 10 U.S.C. 130 and

6See footnote 1 to §286.1(a).
(7) Computer software which is copyrighted under the Copyright Act of 1976 (17 U.S.C. 106), the disclosure of which would have an adverse impact on the potential market value of a copyrighted work.

(8) Proprietary information submitted strictly on a voluntary basis, absent any exercised authority prescribing criteria for submission. Examples of exercised authorities prescribing criteria for submission are statutes, Executive Orders, regulations, invitations for bids, requests for proposals, and contracts. Submission of information under these authorities is not voluntary. (See also §286.23(h)(3).)

(e) Number 5 (5 U.S.C. 552(b)(5)). Those containing information considered privileged in litigation, primarily under the deliberative process privilege. Except as provided in paragraphs (e)(2) through (e)(5) of this section, internal advice, recommendations, and subjective evaluations, as contrasted with factual matters, that are reflected in deliberative records pertaining to the decision-making process of an agency, whether within or among agencies (as defined in 5 U.S.C. 552(e)), or within or among DoD Components. In order to meet the test of this exemption, the record must be both deliberative in nature, as well as part of a decision-making process. Merely being an internal record is insufficient basis for withholding under this exemption. Also potentially exempted are records pertaining to the attorney-client privilege and the attorney work-product privilege. This exemption is entirely discretionary.

(1) Examples of the deliberative process include:

(i) The non factual portions of staff papers, to include after-action reports, lessons learned, and situation reports containing staff evaluations, advice, opinions, or suggestions.

(ii) Advice, suggestions, or evaluations prepared on behalf of the Department of Defense by individual consultants or by boards, committees, councils, groups, panels, conferences, commissions, task forces, or other similar groups that are formed for the purpose of obtaining advice and recommendations.

(iii) Those non factual portions of evaluations by DoD Component personnel of contractors and their products.

(iv) Information of a speculative, tentative, or evaluative nature or such matters as proposed plans to procure, lease or otherwise acquire and dispose of materials, real estate, facilities or functions, when such information would provide undue or unfair competitive advantage to private personal interests or would impede legitimate government functions.

(v) Trade secret or other confidential research development, or commercial information owned by the Government, where premature release is likely to affect the Government's negotiating position or other commercial interest.

(vi) Those portions of official reports of inspection, reports of the Inspector General, audits, investigations, or surveys pertaining to safety, security, or the internal management, administration, or operation of one or more DoD Components, when these records have traditionally been treated by the courts as privileged against disclosure in litigation.

(vii) Planning, programming, and budgetary information that is involved in the defense planning and resource allocation process.

(2) If any such intra- or inter-agency record or reasonably segregable portion of such record hypothetically would be made available routinely through the discovery process in the course of litigation with the Agency, then it should not be withheld under the FOIA. If, however, the information hypothetically would not be released at all, or would only be released in a particular case during civil discovery where a party's particularized showing of need might override a privilege, then the record may be withheld. Discovery is the formal process by which litigants obtain information from each other for use in the litigation. Consult with legal counsel to determine whether exemption 5 material would be routinely made available through the discovery process.

(3) Intra- or inter-agency memoranda or letters that are factual, or those
reasonably segregable portions that are factual, are routinely made available through discovery, and shall be made available to a requester, unless the factual material is otherwise exempt from release, inextricably intertwined with the exempt information, so fragmented as to be uninformative, or so redundant of information already available to the requester as to provide no new substantive information.

(4) A direction or order from a superior to a subordinate, though contained in an internal communication, generally cannot be withheld from a requester if it constitutes policy guidance or a decision, as distinguished from a discussion of preliminary matters or a request for information or advice that would compromise the decision-making process.

(5) An internal communication concerning a decision that subsequently has been made a matter of public record must be made available to a requester when the rationale for the decision is expressly adopted or incorporately by reference in the record containing the decision.

(f) Number 6 (5 U.S.C. 552(b)(6)). Information in personnel and medical files, as well as similar personal information in other files, that, if disclosed to a requester, other than the person about whom the information is about, would result in a clearly unwarranted invasion of personal privacy. Release of information about an individual contained in a Privacy Act System of records that would constitute a clearly unwarranted invasion of privacy is prohibited, and could subject the releaser to civil and criminal penalties. If the information qualifies as exemption 6 information, there is no discretion in its release.

(1) Examples of other files containing personal information similar to that contained in personnel and medical files include:

(i) Those compiled to evaluate or adjudicate the suitability of candidates for civilian employment or membership in the Armed Forces, and the eligibility of individuals (civilian, military, or contractor employees) for security clearances, or for access to particularly sensitive classified information.

(ii) Files containing reports, records, and other material pertaining to personnel matters in which administrative action, including disciplinary action, may be taken.

(2) Home addresses, including private e-mail addresses, are normally not releasable without the consent of the individuals concerned. This includes lists of home addresses and military quarters’ addresses without the occupant’s name. Additionally, the names and duty addresses (postal and/or e-mail) of DoD military and civilian personnel who are assigned to units that are sensitive, routinely deployable, or stationed in foreign territories can constitute a clearly unwarranted invasion of personal privacy.

(i) Privacy interest. A privacy interest may exist in personal information even though the information has been disclosed at some place and time. If personal information is not freely available from sources other than the Federal Government, a privacy interest exists in its nondisclosure. The fact that the Federal Government expended funds to prepare, index and maintain records on personal information, and the fact that a requester invokes FOIA to obtain these records indicates the information is not freely available.

(ii) Names and duty addresses (postal and/or e-mail) published in telephone directories, organizational charts, rosters and similar materials for personnel assigned to units that are sensitive, routinely deployable, or stationed in foreign territories are withholdable under this exemption.

(3) This exemption shall not be used in an attempt to protect the privacy of a deceased person, but it may be used to protect the privacy of the deceased person’s family if disclosure would rekindle grief, anguish, pain, embarrassment, or even disruption of peace of mind of surviving family members. In such situations, balance the surviving family members’ privacy against the public’s right to know to determine if disclosure is in the public interest. Additionally, the deceased’s social security number should be withheld since it is used by the next of kin to receive benefits. Disclosures may be made to
§ 286.12

(4) A clearly unwarranted invasion of the privacy of third parties identified in a personnel, medical or similar record constitutes a basis for deleting those reasonably segregable portions of that record. When withholding third party personal information from the subject of the record and the record is contained in a Privacy Act system of records, consult with legal counsel.

(5) This exemption also applies when the fact of the existence or nonexistence of a responsive record would itself reveal personally private information, and the public interest in disclosure is not sufficient to outweigh the privacy interest. In this situation, DoD Components shall neither confirm nor deny the existence or nonexistence of the record being requested. This is a Glomar response, and exemption 6 must be cited in the response. Additionally, in order to insure personal privacy is not violated during referrals, DoD Components shall coordinate with other DoD Components or Federal Agencies before referring a record that is exempt under the Glomar concept.

(i) A “refusal to confirm or deny” response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a “no records” response when a record does not exist and a “refusal to confirm or deny” when a record does exist will itself disclose personally private information.

(ii) Refusal to confirm or deny should not be used when:

(A) The person whose personal privacy is in jeopardy has provided the requester a waiver of his or her privacy rights.

(B) The person initiated or directly participated in an investigation that lead to the creation of any agency record seeks access to that record.

(C) The person whose personal privacy is in jeopardy is deceased, the Agency is aware of that fact, and disclosure would not invade the privacy of the deceased’s family. See paragraph (f)(3) of this section.

(g) Number 7 (5 U.S.C. 552(b)(7)). Records or information compiled for law enforcement purposes; i.e., civil, criminal, or military law, including the implementation of Executive orders or regulations issued pursuant to law. This exemption may be invoked to prevent disclosure of documents not originally created for, but later gathered for law enforcement purposes. With the exception of parts (C) and (F) (see paragraph (g)(1)(iii) of this section) of this exemption, this exemption is discretionary. If information qualifies as exemption (7)(C) or (7)(F) (see paragraph (g)(1)(iii) of this section) information, there is no discretion in its release.

(1) This exemption applies, however, only to the extent that production of such law enforcement records or information could result in the following:

(i) Could reasonably be expected to interfere with enforcement proceedings (5 U.S.C. 552(b)(7)(A)).

(ii) Would deprive a person of the right to a fair trial or to an impartial adjudication (5 U.S.C. 552(b)(7)(B)).

(iii) Could reasonably be expected to constitute an unwarranted invasion of personal privacy of a living person, including surviving family members of an individual identified in such a record (5 U.S.C. 552(b)(7)(C)).

(A) this exemption also applies when the fact of the existence or nonexistence of a responsive record would itself reveal personally private information, and the public interest in disclosure is not sufficient to outweigh the privacy interest. In this situation, Components shall neither confirm nor deny the existence or nonexistence of the record being requested. This a Glomar response, and exemption (7)(C) must be cited in the response. Additionally, in order to insure personal privacy is not violated during referrals, DoD Components shall coordinate with other DoD Components or Federal Agencies before referring a record that is exempt under the Glomar concept.

(B) A “refusal to confirm or deny” response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a “no records” response when a record does not exist and a “refusal to confirm or
§286.12 32 CFR Ch. I (7–1–02 Edition)

deny’’ when a record does exist will itself disclose personally private information.

(C) Refusal to confirm or deny should not be used when:

(1) The person whose personal privacy is in jeopardy has provided the requester with a waiver of his or her privacy rights.

(2) The person whose personal privacy is in jeopardy is deceased, and the Agency is aware of that fact.

(D) Could reasonably be expected to disclose the identity of a confidential source, including a source within the Department of Defense; a State, local, or foreign agency or authority; or any private institution that furnishes the information on a confidential basis; and could disclose information furnished from a confidential source and obtained by a criminal law enforcement authority in a criminal investigation or by an agency conducting a lawful national security intelligence investigation (5 U.S.C. 552(b)(7)(D)).

(E) Would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law (5 U.S.C. 552(b)(7)(E)).

(F) Could reasonably be expected to endanger the life or physical safety of any individual (5 U.S.C. 552(b)(7)(F)).

(2) Some examples of exemption 7 are:

(i) Statements of witnesses and other material developed during the course of the investigation and all materials prepared in connection with related Government litigation or adjudicative proceedings.

(ii) The identify of firms or individuals being investigated for alleged irregularities involving contracting with the Department of Defense when no indictment has been obtained nor any civil action filed against them by the United States.

(iii) Information obtained in confidence, expressed or implied, in the course of a criminal investigation by a criminal law enforcement agency or office within a DoD Component, or a lawful national security intelligence investigation conducted by an authorized agency or office with a DoD Component. National security intelligence investigations include background security investigations and those investigations conducted for the purpose of obtaining affirmative or counterintelligence information.

(3) The right of individual litigants to investigative records currently available by law (such as, the Jencks Act, 18 U.S.C. 3500)) is not diminished.

(4) Exclusions. Excluded from exemption 7 are the following two situations applicable to the Department of Defense: (Components considering invoking an exclusion should first consult with the Department of Justice, Office of Information and Privacy):

(i) Whenever a request is made that involves access to records or information compiled for law enforcement purposes, and the investigation or proceeding involves a possible violation of criminal law where there is reason to believe that the subject of the investigation or proceeding is unaware of its pendency, and the disclosure of the existence of the records could reasonably be expected to interfere with enforcement proceedings, Components may, during only such times as that circumstance continues, treat the records of information as not subject to the FOIA. In such situation, the response to the requester will state that no records were found.

(ii) Whenever informant records maintained by a criminal law enforcement organization within a DoD Component under the informant’s name or personal identifier are requested by a third party using the informant’s name or personal identifier, the Component may treat the records as not subject to the FOIA, unless the informant’s status as an informant has been officially confirmed. If it is determined that the records are not subject to 5 U.S.C. 552(b)(7), the response to the request will state that no records were found.

(h) Number 8 (U.S.C. 552(b)(8)). Those contained in or related to examination, operation or condition reports prepared by, on behalf of, or for the use of any agency responsible for the regulation or supervision of financial institutions.

(i) Number 9 (5 U.S.C. 552(b)(9)). Those containing geological and geophysical
Subpart D—For Official Use Only

§ 286.15 General provisions.

(a) General. Information that has not been given a security classification pursuant to the criteria of an Executive Order, but which may be withheld from the public because disclosure would cause a foreseeable harm to an interest protected by one or more FOIA exemptions 2 through 9 (see subpart C of this part) shall be considered as being for official use only (FOUO). No other material shall be considered FOUO, and FOUO is not authorized as an anemic form of classification to protect national security interests. Additional information on FOUO and other controlled, unclassified information may be found in DoD 5200.1–R or by contacting the Directorate for Security, Office of the Assistant Secretary of Defense (Command, Control, Communications, and Intelligence).

(b) Prior FOUO application. The prior application of FOUO markings is not a conclusive basis for withholding a record that is requested under the FOIA. When such a record is requested, the information in it shall be evaluated to determine whether disclosure would result in a foreseeable harm to an interest protected by one or more FOIA exemptions 2 through 9. Even if any exemptions apply, the record shall be released as a discretionary matter when it is determined that there is no foreseeable harm to an interest protected by the exemptions.

(c) Historical papers. Records such as notes, working papers, and drafts retained as historical evidence of DoD Component actions enjoy no special apart from the exemptions under the FOIA.

(d) Time to mark records. The marking of records at the time of their creation provides notice of FOUO content and facilitates review when a record is requested under the FOIA. Records requested under the FOIA that do not bear such markings shall not be assumed to be releasable without examination for the presence of information that requires continued protection and qualifies as exempt from public release.

(e) Distribution statement. Information in a technical document that requires a distribution statement pursuant to DoD Directive 5230.248 shall bear that statement and may be marked FOUO, as appropriate.

§ 286.16 Markings.

(a) Location of markings. (1) An unclassified document containing FOUO information shall be marked “For Official Use Only” at the bottom on the outside of the front cover (if any), on each page containing FOUO information, and on the outside of the back cover (if any). Each paragraph containing FOUO information shall be marked as such.

(2) Within a classified document, an individual page that contains both FOUO and classified information shall be marked at the top and bottom with the highest security classification of information appearing on the page. Individual paragraphs shall be marked at the appropriate classification level, as well as unclassified or FOUO, as appropriate.

(3) Within a classified document, an individual page that contains FOUO information but no classified information shall be marked “For Official Use Only” at the top and bottom of the page, as well as each paragraph that contains FOUO information.

(4) Other records, such as photographs, films, tapes, or slides, shall be marked “For Official Use Only” or “FOUO” in a manner that ensures that a recipient or viewer is aware of the status of the information therein.

(5) FOUO material transmitted outside the Department of Defense requires application of an expanded marking to explain the significance of the FOUO marking. This may be accomplished by typing or stamping the following statement on the record prior to transfer:

This document contains information EXEMPT FROM MANDATORY DISCLOSURE under the FOIA. Exemption(s) _____ applies/apply.

(b) [Reserved]
§ 286.17 Dissemination and transmission.

(a) Release and transmission procedures. Until FOUO status is terminated, the release and transmission instructions that follow apply:

(1) FOUO information may be disseminated within DoD Components and between officials of DoD Components and DoD contractors, consultants, and grantees to conduct official business for the Department of Defense. Recipients shall be made aware of the status of such information, and transmission shall be by means that preclude unauthorized public disclosure. Transmittal documents shall call attention to the presence of FOUO attachments.

(2) DoD holders of FOUO information are authorized to convey such information to officials in other Departments and Agencies of the Executive and Judicial Branches to fulfill a government function, except to the extent prohibited by the Privacy Act. Records thus transmitted shall be marked “For Official Use Only,” and the recipient shall be advised that the information may qualify for exemption from public disclosure, pursuant to the FOIA, and that special handling instructions do or do not apply.

(3) Release of FOUO information to Members of Congress is governed by DoD Directive 5400.4. Release to the GAO is governed by DoD Directive 7650.1. Records released to the Congress or GAO should be reviewed to determine whether the information warrants FOUO status. If not, prior FOUO markings shall be removed or effaced. If withholding criteria are met, the records shall be marked FOUO and the recipient provided an explanation for such exemption and marking. Alternatively, the recipient may be requested, without marking the record, to protect against its public disclosure for reasons that are explained.

(b) Transporting FOUO information. Records containing FOUO information shall be transported in a manner that prevents disclosure of the contents. When not commingled with classified information, FOUO information may be sent via first-class mail or parcel post. Bulky shipments, such as distributions of FOUO Directives or testing materials, that otherwise qualify under postal regulations, may be sent by fourth-class mail.

(c) Electronically and facsimile transmitted messages. Each part of electronically and facsimile transmitted messages containing FOUO information shall be marked appropriately. Unclassified messages containing FOUO information shall contain the abbreviation “FOUO” before the beginning of the text. Such messages and facsimiles shall be transmitted in accordance with communications security procedures whenever practicable.

§ 286.18 Safeguarding FOUO information.

(a) During duty hours. During normal working hours, records determined to be FOUO shall be placed in an out-of-sight location if the work area is accessible to nongovernment personnel.

(b) During nonduty hours. At the close of business, FOUO records shall be stored so as to prevent unauthorized access. Filing such material with other unclassified records in unlocked files or desks, etc., is adequate when normal U.S. Government or Government-contractor internal building security is provided during nonduty hours. When such internal security control is not exercised, locked buildings or rooms normally provide adequate after-hours protection. If such protection is not considered adequate, FOUO material shall be stored in locked receptacles such as file cabinets, desks, or bookcases. FOUO records that are subject to the provisions of the National Security Act of 1959 shall meet the safeguards outlined for that group of records.

§ 286.19 Termination, disposal and unauthorized disclosure.

(a) Termination. The originator or other competent authority; e.g., initial denial and appellate authorities, shall terminate “For Official Use Only” markings or status when circumstances indicate that the information no longer requires protection from public disclosure. When FOUO status is terminated, all known holders shall be notified, to the extent practical. Upon
notification, holders shall efface or remove the “For Official Use Only” markings, but records in file or storage need not be retrieved solely for that purpose.

(b) Disposal. (1) Nonrecord copies of FOUO materials may be destroyed by tearing each copy into pieces to prevent reconstructing, and placing them in regular trash containers. When local circumstances or experience indicates that this destruction method is not sufficiently protective of FOUO information, local authorities may direct other methods but must give due consideration to the additional expense balanced against the degree of sensitivity of the type of FOUO information contained in the records.

(2) Record copies of FOUO documents shall be disposed of in accordance with the disposal standards established under 44 U.S.C. 3301–3314, as implemented by DoD Component instructions concerning records disposal.

(c) Unauthorized disclosure. The unauthorized disclosure of FOUO records does not constitute an unauthorized disclosure of DoD information classified for security purposes. Appropriate administrative action shall be taken, however, to fix responsibility for unauthorized disclosure whenever feasible, and appropriate disciplinary action shall be taken against those responsible. Unauthorized disclosure of FOUO information that is protected by the Privacy Act may also result in civil and criminal sanctions against responsible persons. The DoD Component that originated the FOUO information shall be informed of its unauthorized disclosure.

Subpart E—Release and Processing Procedures

§ 286.22 General provisions.

(a) Public information. (1) Since the policy of the Department of Defense is to make the maximum amount of information available to the public consistent with its other responsibilities, written requests for a DoD record made under the provisions of 5 U.S.C. 552(a)(3) of the FOIA may be denied only when:

(i) Disclosure would result in a foreseeable harm to an interest protected by a FOIA exemption, and the record is subject to one or more of the exemptions of FOIA.

(ii) The record has not been described well enough to enable the DoD Component to locate it with a reasonable amount of effort by an employee familiar with the files.

(iii) The requester has failed to comply with the procedural requirements, including the written agreement to pay or payment of any required fee imposed by the instructions of the DoD Component concerned. When personally identifiable information in a record is requested by the subject of the record or the subject’s attorney, notarization of the request, or a statement certifying under the penalty of perjury that their identity is true and correct may be required. Additionally, written consent of the subject of the record is required for disclosure from a Privacy Act System of records, even to the subject’s attorney.

(b) Requests from private parties. The provisions of the FOIA are reserved for persons with private interest as opposed to U.S. Federal Agencies seeking official information. Requests from private persons will be made in writing, and should clearly show all other addressees within the Federal Government to which the request was also sent. This procedure will reduce processing time requirements, and ensure better inter- and intra-agency coordination. However, if the requester does not show all other addressees to which the request was also sent, DoD Components shall still process the request. DoD Components should encourage requesters to send requests by mail, facsimile, or by electronic means. Disclosure of records to individuals under the FOIA is considered public release of information, except as provided for in §286.4(f) and §286.12.

(c) Requests from government officials. Requests from officials of State or local Governments for DoD Component records shall be considered the same as any other requester. Requests from members of Congress not seeking records on behalf of a Congressional
§ 286.23 Initial determinations.

(a) Initial denial authority. (1) Components shall limit the number of IDAs appointed. In designating its IDAs, a DoD Component shall balance the goals of centralization of authority to promote uniform decisions and decentralization to facilitate responding to each request within the time limitations of the FOIA.

(2) The initial determination whether to make a record available upon request may be made by any suitable official designated by the DoD Component in published regulations. The presence of the marking “For Official Use Only” does not relieve the designated official of the responsibility to review the requested record for the purpose of determining whether an exemption under the FOIA is applicable.

(3) The officials designated by DoD Components to make initial determinations should consult with public affairs officers (PAOs) to become familiar with subject matter that is considered to be newsworthy, and advise PAOs of all requests from news media representatives. In addition, the officials should inform PAOs in advance when they intend to withhold or partially withhold a record, if it appears that the withholding action may be challenged in the media.

(b) Reasons for not releasing a record. The following are reasons for not complying with a request for a record under 5 U.S.C. 552(a)(3):

(i) In response to a request of a Committee or Subcommittee of Congress, or to either House sitting as a whole in accordance with DoD Directive 5400.4.

(ii) To other Federal Agencies, both executive and administrative, as determined by the head of a DoD Component or designee.

(iii) In response to an order of a Federal court, DoD Components shall release information along with a description of the restrictions on its release to the public.

(2) DoD Components shall inform officials receiving records under the provisions of this paragraph that those records are exempt from public release under the FOIA. DoD Components also shall advise officials of any special handling instructions. Classified information is subject to the provisions of DoD 5200.1-R, and information contained in Privacy Act systems of records is subject to DoD 5400.11-R.

(e) Consultation with affected DoD component. (1) When a DoD Component receives a FOIA request for a record in which an affected DoD organization (including a Combatant Command) has a clear and substantial interest in the subject matter, consultation with that affected DoD organization is required. As an example, where a DoD Component receives a request for records related to DoD operations in a foreign country, the cognizant Combatant Command for the area involved in the request shall be consulted before a release is made. Consultations may be telephonic, electronic, or in hard copy.

(2) The affected DoD Component shall review the circumstances of the request for host-nation relations, and provide, where appropriate, FOIA processing assistance to the responding DoD Component regarding release of information. Responding DoD Components shall provide copies of responsive records to the affected DoD Component when requested by the affected DoD Component. The affected DoD Component shall receive a courtesy copy of all releases in such circumstances.

(3) Nothing in paragraphs (e)(1) and (e)(2) of this section shall impede the processing of the FOIA request initially received by a DoD Component.

§ 286.23 Initial determinations.
(1) **No records.** A reasonable search of files failed to identify responsive records.

(2) **Referrals.** The request is transferred to another DoD Component, or to another Federal Agency.

(3) **Request withdrawn.** The request is withdrawn by the requester.

(4) **Fee-related reason.** The requester is unwilling to pay fees associated with a request; the requester is past due in the payment of fees from a previous FOIA request; or the requester disagrees with the fee estimate.

(5) **Records not reasonably described.** A record has not been described with sufficient particularity to enable the DoD Component to locate it by conducting a reasonable search.

(6) **Not a proper FOIA request for some other reason.** The requester has failed unreasonably to comply with procedural requirements, other than fee-related, imposed by this part or DoD Component supplementing regulations.

(7) **Not an agency record.** The information requested is not a record within the meaning of the FOIA and this part.

(8) **Duplicate request.** The request is a duplicate request (e.g., a requester asks for the same information more than once). This includes identical requests received via different means (e.g., electronic mail, facsimile, mail, courier) at the same or different times.

(9) **Other (specify).** Any other reason a requester does not comply with published rules other than those outlined paragraphs (b)(1) through (b)(8) of this section.

(10) **Partial or total denial.** The record is denied in whole or in part in accordance with procedures set forth in the FOIA.

**Denial tests.** To deny a requested record that is in the possession and control of a DoD Component, it must be determined that disclosure of the record would result in a foreseeable harm to an interest protected by a FOIA exemption, and the record is exempt under one or more of the exemptions of the FOIA. An outline of the FOIA's exemptions is contained in subpart C of this part.

(d) **Reasonably segregable portions.** Although portions of some records may be denied, the remaining reasonably segregable portions must be released to the requester when it reasonably can be assumed that a skillful and knowledgeable person could not reconstruct the excised information. Unless indicating the extent of the deletion would harm an interest protected by an exemption, the amount of deleted information shall be indicated on the released portion of paper records by use of brackets or darkened areas indicating removal of information. In no case shall the deleted areas be left “white” without the use of brackets to show the bounds of deleted information. In the case of electronic deletion, or deletion in audiovisual or microfiche records, if technically feasible, the amount of redacted information shall be indicated at the place in the record such deletion was made, unless including the indication would harm an interest protected by the exemption under which the deletion is made. This may be done by use of brackets, shaded areas, or some other identifiable technique that will clearly show the limits of the deleted information. When a record is denied in whole, the responsive advising the requester of that determination will specifically state that it is not reasonable to segregate portions of the record for release.

(e) **Response to requester.** (1) Whenever possible, initial determinations to release or deny a record normally shall be made and the decision reported to the requester within 20 working days after receipt of the request by the official designated to respond. When a DoD Component has a significant number of pending requests which prevent a response determination within the 20 working day period, the requester shall be so notified in an interim response, and advised whether their request qualifies for the fast track or slow track within the DoD Components' multitrack processing system. Requesters who do not meet the criteria for fast track processing shall be given the opportunity to limit the scope of their request in order to qualify for fast track processing. See also §286.4(d)(2), for greater detail on multitrack processing and compelling need meriting expedited processing.

(2) When a decision is made to release a record, a copy should be made available promptly to the requester once he
§286.23

has complied with preliminary procedural requirements.

(3) When a request for a record is denied in whole or in part, the official designated to respond shall inform the requester in writing of the name and title or position of the official who made the determination, and shall explain to the requester the basis for the determination in sufficient detail to permit the requester to make a decision concerning appeal. The requester specifically shall be informed of the exemptions on which the denial is based, inclusive of a brief statement describing what the exemption(s) cover. When the initial denial is based in whole or in part on a security classification, the explanation should include a summary of the applicable Executive Order criteria for classification, as well as an explanation, to the extent reasonably feasible, of how those criteria apply to the particular record in question. The requester shall also be advised of the opportunity and procedures for appealing an unfavorable determination to a higher final authority within the DoD Component.

(4) The final response to the requester should contain information concerning the fee status of the request, consistent with the provisions of subpart F of this part. When a requester is assessed fees for processing a request, the requester’s fee category shall be specified in the response letter. Components also shall provide the requester with a complete cost breakdown (e.g., 15 pages of office reproduction at $0.15 per page; 5 minutes of computer search time at $43.50 per minute, 2 hours of professional level search at $25 per hour, etc.) in the response letter.

(5) The explanation of the substantive basis for a denial shall include specific citation of the statutory exemption applied under provisions of this part; e.g., 5 U.S.C. 552(b)(1). Merely referring to a classification; to a “For Official Use Only” marking on the requested record; or to this part or a DoD Component’s regulation does not constitute a proper citation or explanation of the basis for invoking an exemption.

(6) When the time for response becomes an issue, the official responsible for replying shall acknowledge to the requester the date of the receipt of the request.

(7) When denying a request for records, in whole or in part, a DoD Component shall make a reasonable effort to estimate the volume of the records denied and provide this estimate to the requester, unless providing such an estimate would harm an interest protected by an exemption of the FOIA. This estimate should be in number of pages or in some other reasonable form of estimation, unless the volume is otherwise indicated through deletions on records disclosed in part.

(8) When denying a request for records in accordance with a statute qualifying as a FOIA exemption 3 statute, DoD Components shall, in addition to sitting the particular statute relied upon to deny the information, also state whether a court has upheld the decision to withhold the information under the particular statute, and a concise description of the scope of the information being withheld.

(f) Extension of time. (1) In unusual circumstances, when additional time is needed to respond to the initial request, the DoD Component shall acknowledge the request in writing the 20 day period, describe the circumstances requiring the delay, and indicate the anticipated date for a substantive response that may not exceed 10 additional working days, except as follows:

(2) With respect to a request for which a written notice has extended the time limits by 10 additional working days, and the Component determines that it cannot make a response determination within that additional 10 working day period, the requester shall be notified and provided an opportunity to limit the scope of the request so that it may be processed within the extended time limit, or an opportunity to arrange an alternative time frame for processing the request or a modified request. Refusal by the requester to reasonably modify the request or arrange for an alternative time frame shall be considered a factor in determining whether exceptional circumstances exist with respect to DoD Components’ request backlogs. Exceptional circumstances do not include a delay that results from predictable component backlogs, unless the DoD
Component demonstrates reasonable progress in reducing its backlog.

(3) Unusual circumstances that may justify delay are:

(i) The need to search for and collect the requested records from other facilities that are separate from the office determined responsible for a release or denial decision on the requested information.

(ii) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are requested in a single request.

(iii) The need for consultation, which shall be conducted with all practicable speed, with other agencies having a substantial interest in the determination of the request, or among two or more DoD Components having a substantial subject-matter interest in the request.

(4) DoD Components may aggregate certain requests by the same requester, or by a group of requesters acting in concert, if the DoD Component reasonably believes that such requests actually constitute a single request, which would otherwise satisfy the unusual circumstances set forth in paragraph (f)(3) of this section, and the requests involve clearly related matters. Multiple requests involving unrelated matters shall not be aggregated. If the requests are aggregated under these conditions, the requester or requesters shall be so notified.

(5) In cases where the statutory time limits cannot be met and no informal extension of time has been agreed to, the inability to process any part of the request within the specified time should be explained to the requester with a request that he or she agree to await a substantive response by an anticipated date. If it is made clear that any such agreement does not prejudice the right of the requester to appeal the initial decision after it is made, DoD Components are reminded that the requester still retains the right to treat this delay as a de facto denial with full administrative remedies.

(6) As an alternative to the taking of formal extensions of time as described in §286.23(f), the negotiation by the cognizant FOIA coordinating office of informal extensions in time with requesters is encouraged where appropriate.

(g) Misdirected requests. Misdirected requests shall be forwarded promptly to the DoD Component or other Federal Agency with the responsibility for the records requested. The period allowed for responding to the request misdirected by the requester shall not begin until the request is received by the DoD Component that manages the records requested.

(h) Records of non-U.S. government source. (1) When a request is received for a record that falls under exemption 4 (see §286.12(d)), that was obtained from a non-U.S. Government source, or for a record containing information clearly identified as having been provided by a non-U.S. Government source, the source of the record or information (also known as “the submitter” for matters pertaining to proprietary data under 5 U.S.C. 552, Exemption (b)(4)) (§286.12(d), this part and E.O. 12600 (3 CFR, 1987 Comp., p. 235)) shall be notified promptly of that request and afforded reasonable time (e.g., 30 calendar days) to present any objections concerning the release, unless it is clear that there can be no valid basis for objection. This practice is required for those FOIA requests for data not deemed clearly exempt from disclosure under exemption (b)(4) of 5 U.S.C. 552. If, for example, the record or information was provided with actual or presumptive knowledge of the non-U.S. Government source and established that it would be made available to the public upon request, there is no obligation to notify the source. Any objections shall be evaluated. The final decision to disclose information claimed to be exempt under exemption (b)(4) shall be made by an official equivalent in rank to the official who would make the decision to withhold that information under the FOIA. When a substantial issue has been raised, the DoD Component may seek additional information from the source of the information and afford the source and requester reasonable opportunities to present their arguments on the legal and substantive issues involved prior to making an agency determination. When the source advises it will seek a restraining order or take
§286.23  

court action to prevent release of the record or information, the requester shall be notified, and action on the request normally shall not be taken until after the outcome of that court action is known. When the requester brings court action to compel disclosure, the submitter shall be promptly notified of this action.

(2) If the submitted information is a proposal in response to a solicitation for a competitive proposal, and the proposal is in the possession and control of DoD, and meets the requirements of 10 U.S.C. 2305(g), the proposal shall not be disclosed, and no submitter notification and subsequent analysis is required. The proposal shall be withheld from public disclosure pursuant to 10 U.S.C. 2305(g) and exemption (b)(3) of 5 U.S.C. 552. This statute does not apply to bids, unsolicited proposals, or any proposal that is set forth or incorporated by reference in a contract between a DoD Component and the offeror that submitted the proposal. In such situations, normal submitter notice shall be conducted in accordance with paragraph (h)(1) of this section, except for sealed bids that are opened and read to the public. The term proposal means information contained in or originating from any proposal, including a technical, management, or cost proposal submitted by an offeror in response to solicitation for a competitive proposal, but does not include an offeror’s name or total price or unit prices when set forth in a record other than the proposal itself. Submitter notice, and analysis as appropriate, are required for exemption (b)(4) matters that are not specifically incorporated in 10 U.S.C. 2305(g).

(3) If the record or information was submitted on a strictly voluntary basis, absent any exercised authority that prescribes criteria for submission, and after consultation with the submitter, it is absolutely clear that the record or information would customarily not be released to the public, the submitter need not be notified. Examples of exercised authorities prescribing criteria for submission are statutes, Executive Orders, regulations, invitations for bids, requests for proposals, and contracts. Records or information submitted under these authorities are not voluntary in nature. When it is not clear whether the information was submitted on a voluntary basis, absent any exercised authority, and whether it would customarily be released to the public by the submitter, notify the submitter and ask that it describe its treatment of the information, and render an objective evaluation. If the decision is made to release the information over the objection of the submitter, notify the submitter and afford the necessary time to allow the submitter to seek a restraining order, or take court action to prevent release of the record or information.

(4) The coordination provisions of this paragraph also apply to any non-U.S. Government record in the possession and control of the DoD from multi-national organizations, such as the North Atlantic Treaty Organization (NATO), United Nations Commands, the North American Aerospace Defense Command (NORAD), the Inter-American Defense Board, or foreign governments. Coordination with foreign governments under the provisions of this paragraph may be made through Department of State, or the specific foreign embassy.

(i) File of initial denials. Copies of all initial denials shall be maintained by each DoD Component in a form suitable for rapid retrieval, periodic statistical compilation, and management evaluation. Records denied for any of the reasons contained in paragraph (b) of this section shall be maintained for a period of six years to meet the statute of limitations requirement.

(j) Special mail services. Components are authorized to use registered mail, certified mail, certificates of mailing and return receipts. However, their use should be limited to instances where it appears advisable to establish proof of dispatch or receipt of FOIA correspondence. The requester shall be notified that they are responsible for the full costs of special services.

(k) Receipt accounts. The Treasurer of the United States has established two accounts for FOIA receipts, and all money orders or checks remitting FOIA fees should be made payable to the U.S. Treasurer. These accounts, which are described in paragraphs (k)(1) and (k)(2) of this section shall be
used for depositing all FOIA receipts, except receipts for Working Capital and non appropriated funded activities. Components are reminded that the below account numbers must be preceded by the appropriate disbursing office two digit prefix. Working Capital and non appropriated funded activity FOIA receipts shall be deposited to the applicable fund.

§ 286.24 Appeals.

(a) General. If the official designated DoD Component to make initial determinations on requests for records declines to provide a record because the official considers it exempt under one or more of the exemptions of the FOIA, that decision may be appealed by the requester, in writing, to a designated appellate authority. The appeal should be accompanied by a copy of the letter denying the initial request. Such appeals should contain the basis for disagreement with the initial refusal. Appeal procedures also apply to the disapproval of a fee category claim by a requester, disapproval of a request for waiver or reduction of fees, disputes regarding fee estimates, review on an expedited basis a determination not to grant expedited access to agency records, for no record determinations when the requester considers such response adverse in nature, not providing a response determination to a FOIA request within the statutory time limits, or any determination found to be adverse in nature by the requester. When denials have been made under the provisions of the Privacy Act and the FOIA, and the denied information is contained in a Privacy Act system of records, appeals shall be processed under both the Privacy Act and the FOIA. If the denied information is not maintained in a Privacy Act system of records, the appeal shall be processed under the FOIA. Appeals of Office of the Secretary of Defense and Chairman of the Joint Chiefs of Staff determinations may be sent to the address in appendix B of this part. If a request is merely misaddressed, and the receiving DoD Component simply advises the requester of such and refers the request to the appropriate DoD Component, this shall not be considered a no record determination.

(b) Time of receipt. A FOIA appeal has been received by a DoD Component when it reaches the office of an appellate authority having jurisdiction. Misdirected appeals should be referred expeditiously to the proper appellate authority.

(c) Time limits. (1) The requester shall be advised to file an appeal so that it is postmarked no later than 60 calendar days after the date of the initial denial letter. If no appeal is received, or if the appeal is postmarked after the conclusion of this 60-day period, the appeal may be considered closed. However, exceptions to the above may be considered on a case by case basis. In cases where the requester is provided several incremental determinations for a single request, the time for the appeal shall not begin until the date of the final response. Records that are denied shall be retained for a period of six years to meet the statute of limitations requirement.

(2) Final determinations on appeals normally shall be made within 20 working days after receipt. When a DoD Component has a significant number of appeals preventing a response determination within 20 working days, the appeals shall be processed in a multi-track processing system, based at a minimum, on the three processing tracks established for initial requests. See §286.4(d) of this part. All of the provisions of §286.4(d) apply also to appeals of initial determinations, to include establishing additional processing queues as needed.

(d) Delay in responding to an appeal. (1) If additional time is needed due to the unusual circumstances described in
§ 286.23(f), the final decision may be delayed for the number of working days (not to exceed 10), that were not used as additional time for responding to the initial request.

(2) If a determination cannot be made and the requester notified within 20 working days, the appellate authority shall acknowledge to the requester, in writing, the date of receipt of the appeal, the circumstances surrounding the delay, and the anticipated date for substantive response. Requesters shall be advised that, if the delay exceeds the statutory extension provision or is for reasons other than the unusual circumstances identified in § 286.23(f), they may consider their administrative remedies exhausted. They may, however, without prejudicing their right of judicial remedy, await a substantive response. The DoD component shall continue to process the case expeditiously.

(e) Response to the requester. (1) When an appellate authority makes a final determination to release all or a portion of records withheld by an IDA, a written response and a copy of the records so released should be forwarded promptly to the requester after compliance with any preliminary procedural requirements, such as payment of fees.

(2) Final refusal of an appeal must be made in writing by the appellate authority or by a designated representative. The response, at a minimum, shall include the following:

(i) The basis for the refusal shall be explained to the requester in writing, both with regard to the applicable statutory exemption or exemptions invoked under provisions of the FOIA, and with respect to other appeal matters as set forth in paragraph (a) of this section.

(ii) When the final refusal is based in whole or in part on a security classification, the explanation shall include a determination that the record meets the cited criteria and rationale of the governing Executive Order, and that this determination is based on a declassification review, with the explanation of how that review confirmed the continuing validity of the security classification.

(iii) The final denial shall include the name and title or position of the official responsible for the denial.

(iv) In the case of appeals for total denial of records, the response shall advise the requester that the information being denied does not contain meaningful portions that are reasonably segregable.

(v) When the denial is based upon an exemption 3 statute (subpart C of this part), the response, in addition to citing the statute relied upon to deny the information, shall state whether a court has upheld the decision to withhold the information under the statute, and shall contain a concise description of the scope of the information withheld.

(vi) The response shall advise the requester of the right to judicial review.

(f) Consultation. (1) Final refusal involving issues not previously resolved or that the DoD Component knows to be inconsistent with rulings of other DoD Components ordinarily should not be made before consultation with the DoD Office of the General Counsel.

(2) Tentative decisions to deny records that raise new or significant legal issues of potential significance to other Agencies of the Government shall be provided to the DoD Office of the General Counsel.

[63 FR 65420, Nov. 25, 1998; 63 FR 67724, Dec. 8, 1998]

§ 286.25 Judicial actions.

(a) General. (1) This section states current legal and procedural rules for the convenience of the reader. The statements of rules do not create rights or remedies not otherwise available, nor do they bind the Department of Defense to particular judicial interpretations or procedures.

(2) A requester may seek an order from a U.S. District Court to compel release of a record after administrative remedies have been exhausted; i.e., when refused a record by the head of a Component or an appellate designee or when the DoD Component has failed to respond with the time limits prescribed by the FOIA and in this part.

(b) Jurisdiction. The requester may bring suit in the U.S. District Court in
the district in which the requester resides or is the requester’s place of business, in the district in which the record is located, or in the District of Columbia.

(c) Burden of proof. The burden of proof is on the DoD Component to justify its refusal to provide a record. The court shall evaluate the case de novo (anew) and may elect to examine any requester record in camera (in private) to determine whether the denial was justified.

(d) Actions by the court. (1) When a DoD Component has failed to make a determination within the statutory time limits but can demonstrate due diligence in exceptional circumstances, to include negotiating with the requester to modify the scope of their request, the court may retain jurisdiction and allow the Component additional time to complete its review of the records.

(2) If the court determines that the requester’s complaint is substantially correct, it may require the United States to pay reasonable attorney fees and other litigation costs.

(3) When the court orders the release of denied records, it may also issue a written finding that the circumstances surrounding the withholding raise questions whether DoD Component personnel acted arbitrarily and capriciously. In these cases, the special counsel of the Merit System Protection Board shall conduct an investigation to determine whether or not disciplinary action is warranted. The DoD Component is obligated to take the action recommended by the special counsel.

(4) The court may punish the responsible official for contempt when a DoD Component fails to comply with the court order to produce records that it determines have been withheld improperly.

(e) Non-United States government source information. A requester may bring suit in a U.S. District Court to compel the release of records obtained from a non-government source or records based on information obtained from a non-government source. Such source shall be notified promptly of the court action. When the source advises that it is seeking court action to prevent release, the DoD Component shall defer answering or otherwise pleading to the complainant as long as permitted by the Court or until a decision is rendered in the court action of the source, whichever is sooner.

(f) FOIA litigation. Personnel responsible for processing FOIA requests at the DoD Component level shall be aware of litigation under the FOIA. Such information will provide management insights into the use of the nine exemptions by Component personnel. Whenever a complaint under the FOIA is filed in a U.S. District Court, the DoD Component named in the complaint shall forward a copy of the complaint by any means to the Director, Freedom of Information and Security Review with an information copy to the DoD Office of the General counsel, ATTN: Office of Legal Counsel.

Subpart F—Fee Schedule

§ 286.28 General provisions.

(a) Authorities. The Freedom of Information Act, as amended; the Paperwork Reduction Act (44 U.S.C. Chapter 35), as amended; the Privacy Act of 1974, as amended; the Budget and Accounting Act of 1921 and the Budget and Accounting Procedures Act, as amended (see 31 U.S.C.); and 10 U.S.C. 2328.

(b) Application. (1) The fees described in this subpart apply to FOIA requests, and conform to the Office of Management and Budget Uniform Freedom of Information Act Fee Schedule and Guidelines. They reflect direct costs for search, review (in the case of commercial requesters); and duplication of documents, collection of which is permitted by the FOIA. They are neither intended to imply that fees must be charged in connection with providing information to the public in the routine course of business, nor are they meant as a substitute for any other schedule of fees, such as DoD 7000.14-R,11 which does not supersede the collection of fees under the FOIA. Nothing in this subpart shall supersede fees chargeable under a statute specifically providing for setting the level of fees for particular types of records.

11 See footnote 1 to §286.1(a).
“statute specifically providing for setting the level of fees for particular types of records” (5 U.S.C. 552(a)(4)(a)(vi)) means any statute that enables a Government Agency such as the Government Printing Office (GPO) or the National Technical Information Service (NTIS), to set and collect fees. Components should ensure that when documents that would be responsive to a request are maintained for distribution by agencies operating statutory-based fee schedule programs such as the GPO or NTIS, they inform requesters of the steps necessary to obtain records from those sources.

(2) The term “direct costs” means those expenditures a Component actually makes in searching for, reviewing (in the case of commercial requesters), and duplicating documents to respond to a FOIA request. Direct costs include, for example, the salary of the employee performing the work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits), and the costs of operating duplicating machinery. These factors have been included in the fee rates prescribed at §286.29 of this subpart. Not included in direct costs are overhead expenses such as costs of space, heating or lighting the facility in which the records are stored.

(3) The term “search” includes all time spent looking, both manually and electronically, for material that is responsive to a request. Search also includes a page-by-page or line-by-line identification (if necessary) of material in the record to determine if it, or portions thereof are responsive to the request. Components should ensure that searches are done in the most efficient and least expensive manner so as to minimize costs for both the Component and the requester. For example, Components should not engage in line-by-line searches when duplicating an entire document known to contain responsive information would prove to be the less expensive and quicker method of complying with the request. Time spent reviewing documents in order to determine whether to apply one or more of the statutory exemptions is not search time, but review time. See paragraph (b)(5) of this section, for the definition of review, and paragraph (c)(5) of this section and §286.29(b)(2), for information pertaining to computer searches.

(4) The term “duplication” refers to the process of making a copy of a document in response to a FOIA request. Such copies can take the form of paper copy, microfiche, audiovisual, or machine readable documentation (e.g., magnetic tape or disc), among others. Every effort will be made to ensure that the copy provided is in a form that is reasonably usable, the requester shall be notified that the copy provided is the best available and that the Agency’s master copy shall be made available for review upon appointment. For duplication of computer tapes and audiovisual, the actual cost, including the operator’s time, shall be charged. In practice, if a Component estimates that assessable duplication charges are likely to exceed $25.00, it shall notify the requester of the estimate, unless the requester has indicated in advance his or her willingness to pay fees as high as those anticipated. Such a notice shall offer a requester the opportunity to confer with Component personnel with the object of reformulating the request to meet his or her needs at a lower cost.

(5) The term “review” refers to the process of examining documents located in response to a FOIA request to determine whether one or more of the statutory exemptions permit withholding. It also includes processing the documents for disclosure, such as excising them for release. Review does not include the time spent resolving general legal or policy issues regarding the application of exemptions. It should be noted that charges for commercial requesters may be assessed only for the initial review. Components may not charge for reviews required at the administrative appeal level of an exemption already applied. However, records or portions of records withheld in full under an exemption that is subsequently determined not to apply may be reviewed again to determine the applicability of other exemptions not previously considered. The costs for such a subsequent review would be properly assessable.

(c) Fee restrictions. (1) No fees may be charged by any DoD Component if the
costs of routine collection and processing of the fee are likely to equal or exceed the amount of the fee. With the exception of requesters seeking documents for a commercial use, Components shall provide the first two hours of search time, and the first one hundred pages of duplication without charge. For example, for a request (other than one from a commercial requester) that involved two hours and ten minutes of search time, and resulted in one hundred and five pages of documents, a Component would determine the cost of only ten minutes of search time, and only five pages of reproduction. If this processing cost was equal to, or less than, the cost to the Component for billing the requester and processing the fee collected, no charges would result.

(2) Requesters receiving the first two hours of search and the first one hundred pages of duplication without charge are entitled to such only once per request. Consequently, if a Component, after completing its portion of a request, finds it necessary to refer the request to a subordinate office, another DoD Component, or another Federal Agency to action their portion of the request, the referring Component shall inform the recipient of the referral of the expended amount of search time and duplication cost to date.

(3) The elements to be considered in determining the “cost of collecting a fee” are the administrative costs to the Component of receiving and recording a remittance, and processing the fee for deposit in the Department of Treasury’s special account. The cost to the Department of Treasury to handle such remittance is negligible and shall not be considered in Components’ determinations.

(4) For the purposes of these restrictions, the word “pages” refers to paper copies of a standard size, which will normally be 8½” x 11” or 11” x 14”. Thus, requesters would not be entitled to 100 microfiche or 100 computer disks, for example. A microfiche containing the equivalent of 100 pages or 100 pages of computer printout however, might meet the terms of the restriction.

(5) In the case of computer searches, the first two free hours will be determined against the salary scale of the individual operating the computer for the purposes of the search. As an example, when the direct costs of the computer central processing unit, input/output devices, and memory capacity equal $24.00 (two hours of equivalent search at the clerical level), amounts of computer costs in excess of that amount are chargeable as computer search time. In the event the direct operating cost of the hardware configuration cannot be determined, computer search shall be based on the salary scale of the operator executing the computer search. See §286.29, this subpart, for further details regarding fees for computer searches.

(d) Fee waivers. (1) Documents shall be furnished without charge, or at a charge reduced below fees assessed to the categories of requesters in paragraph (e) of this section when the Component determines that waiver or reduction of the fees is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations or activities of the Department of Defense and is not primarily in the commercial interest of the requester.

(2) When assessable costs for a FOIA request total $15.00 or less, fees shall be waived automatically for all requesters, regardless of category.

(3) Decisions to waive or reduce fees that exceed the automatic waiver threshold shall be made on a case-by-case basis, consistent with the following factors:

(i) Disclosure of the information “is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Government.”

(A) The subject of the request. Components should analyze whether the subject matter of the request involves issues that will significantly contribute to the public understanding of the operations or activities of the Department of Defense. Requests for records in the possession of the Department of Defense which were originated by non-government organizations and are sought for their intrinsic content, rather than informative value, will likely not contribute to public understanding of the operations or activities of the Department of Defense.
§ 286.28
32 CFR Ch. I (7–1–02 Edition)

An example of such records might be press clippings, magazine articles, or records forwarding a particular opinion or concern from a member of the public regarding a DoD activity. Similarly, disclosures of records of considerable age may or may not bear directly on the current activities of the Department of Defense; however, the age of a particular record shall not be the sole criteria for denying relative significance under this factor. It is possible to envisage an informative issue concerning the current activities of the Department of Defense, based upon historical documentation. Requests of this nature must be closely reviewed consistent with the requester’s stated purpose for desiring the records and the potential for public understanding of the operations and activities of the Department of Defense.

(B) The informative value of the information to be disclosed. This factor requires a close analysis of the substantive contents of a record, or portion of the record, to determinate whether disclosure is meaningful, and shall inform the public on the operations or activities of the Department of Defense. While the subject of a request may contain information that concerns operations or activities of the Department of Defense, it may not always hold great potential for contributing to a meaningful understanding of these operations or activities. An example of such would be a previously released record that has been heavily redacted, the balance of which may contain only random words, fragmented sentences, or paragraph headings. A determination as to whether a record in this situation will contribute to the public understanding of the operations or activities of the Department of Defense must be approached with caution, and carefully weighed against the arguments offered by the requester. Another example is information already known to be in the public domain. Disclosure of duplicative, or nearly identical information already existing in the public domain may add no meaningful new information concerning the operations and activities of the Department of Defense.

(C) The contribution to an understanding of the subject by the general public likely to result from disclosure. The key element in determining the applicability of this factor is whether disclosure will inform, or have the potential to inform the public, rather than simply the individual requester or small segment of interested persons. The identity of the requester is essential in this situation in order to determinate whether such requester has the capability and intention to disseminate the information to the public. Mere assertions of plans to author a book, researching a particular subject, doing doctoral dissertation work, or indigence are insufficient without demonstrating the capacity to further disclose the information in a manner that will be informative to the general public. Requesters should be asked to describe their qualifications, the nature of their research, the purpose of the requested information, and their intended means of dissemination to the public.

(D) The significance of the contribution to public understanding. In applying this factor, Components must differentiate the relative significance or impact of the disclosure against the current level of public knowledge, or understanding which exists before the disclosure. In other words, will disclosure on a current subject of wide public interest be unique in contributing unknown facts, thereby enhancing public knowledge, or understanding which exists before the disclosure. In other words, will disclosure on a current subject of wide public interest be unique in contributing unknown facts, thereby enhancing public knowledge, or understanding which exists before the disclosure? A decision regarding significance requires objective judgment, rather than subjective determination, and must be applied carefully to determine whether disclosure will likely lead to a significant understanding of the issue. Components shall not make value judgments as to whether the information is important enough to be made public.

(ii) Disclosure of the information “is not primarily in the commercial interest of the requester.”

(A) The existence and magnitude of a commercial interest. If the request is determined to be of a commercial interest, Components should address the magnitude of that interest to determinate if the requester’s commercial interest is primary, as opposed to any
secondary personal or non-commercial interest. In addition to profitmaking organizations, individual persons or other organizations may have a commercial interest in obtaining certain records. Where it is difficult to determine whether the requester is of a commercial nature, Components may draw inference from the requester's identity and circumstances of the request. In such situations, the provisions of paragraph (e) of this section apply. Components are reminded that in order to apply the commercial standards of the FOIA, the requester's commercial benefit must clearly override any personal or non-profit interest.

(B) The primary interest in disclosure. Once a requester's commercial interest has been determined, Components should then determine if the disclosure would be primarily in that interest. This requires a balancing test between the commercial interest of the request against any public benefit to be derived as a result of that disclosure. Where the public interest is served above and beyond that of the requester's commercial interest, a waiver or reduction of fees would be appropriate. Conversely, even if a significant public interest exists, and the relative commercial interest of the requester is determined to be greater than the public interest, then a waiver or reduction of fees would be inappropriate. As examples, news media organizations have a commercial interest as business organizations; however, their inherent role of disseminating news to the general public can ordinarily be presumed to be of a primary interest. Therefore, any commercial interest becomes secondary to the primary interest in serving the public. Similarly, scholars writing books or engaged in other forms of academic research, may recognize a commercial benefit, either directly, or indirectly (through the institution they represent); however, normally such pursuits are primarily undertaken for educational purposes, and the application of a fee charge would be inappropriate. Conversely, data brokers or others who merely compile government information for marketing can normally be presumed to have an interest primarily of a commercial nature.

(4) Components are reminded that the factors and examples used in this subsection are not all inclusive. Each fee decision must be considered on a case-by-case basis and upon the merits of the information provided in each request. When the element of doubt as to whether to charge or waive the fee cannot be clearly resolved, Components should rule in favor of the requester.

(5) In addition, the following circumstances describe situations where waiver or reduction of fees are most likely to be warranted:

(i) A record is voluntarily created to prevent an otherwise burdensome effort to provide voluminous amounts of available records, including additional information not requested.

(ii) A previous denial of records is reversed in total, or in part, and the assessable costs are not substantial (e.g. $15.00–$30.00).

(e) Fee assessment. (1) Fees may not be used to discourage requesters, and to this end, FOIA fees are limited to standard charges for direct document search, review (in the case of commercial requesters) and duplication.

(2) In order to be as responsive as possible to FOIA requests while minimizing unwarranted costs to the taxpayer, Components shall adhere to the following procedures:

(i) Analyze each request to determine the category of the requester. If the Component determination regarding the category of the requester is different than that claimed by the requester, the Component shall:

(A) Notify the requester to provide additional justification to warrant the category claimed, and that a search for responsive records will not be initiated until agreement has been attained relative to the category of the requester. Absent further category justification from the requester, and within a reasonable period of time (i.e., 30 calendar days), the Component shall render a final category determination, and notify the requester of such determination, to include normal administrative appeal rights of the determination.

(B) Advise the requester that, notwithstanding any appeal, a search for responsive records will not be initiated.
§286.28

until the requester indicates a willingness to pay assessable costs appropriate for the category determined by the Component.

(ii) Requesters should submit a fee declaration appropriate for the following categories.

(A) Commercial. Requesters should indicate a willingness to pay all search, review and duplication costs.

(B) Educational or noncommercial scientific institution or news media. Requesters should indicate a willingness to pay duplication charges in excess of 100 pages if more than 100 pages of records are desired.

(C) All others. Requesters should indicate a willingness to pay assessable search and duplication costs if more than two hours of search effort or 100 pages of records are desired.

(iii) If the above conditions are not met, then the request need not be processed and the requester shall be so informed.

(iv) In the situations described by paragraphs (e)(2)(i) and (e)(2)(ii) of this section, Components must be prepared to provide an estimate of assessable fees if desired by the requester. While it is recognized that search situations will vary among Components, and that an estimate is often difficult to obtain prior to an actual search, requesters who desire estimates are entitled to such before committing to a willingness to pay. Should Components’ actual costs exceed the amount of the estimate or the amount agreed to by the requester, the amount in excess of the estimate or the requester’s agreed amount shall not be charged without the requester’s agreement.

(v) No DoD Component may require advance payment of any fee; i.e., payment before work is commenced or continued on a request, unless the requester has previously failed to pay a fee in a timely fashion (i.e., within 30 calendar days from the date of the billing), the Component may require the requester to pay the full amount owed, plus any applicable interest, or demonstrate that he or she has paid the fee, and to make an advance payment of the full amount of the estimated fee before the Component begins to process a new or pending request from the requester. Interest will be at the rate prescribed in 31 U.S.C. 3717, and confirmed with respective Finance and Accounting Offices.

(viii) After all work is completed on a request, and the documents are ready for release, Components may require payment before forwarding the documents, particularly for those requesters who have no payment history, or for those requesters who have failed previously to pay a fee in a timely fashion (i.e., within 30 calendar days from the date of the billing). In the case of the latter, the provisions of paragraph (e)(2)(vii) of this section, apply.

(ix) When Components act under paragraphs (e)(2)(i) through (e)(2)(vii) of this section, the administrative time limits of the FOIA will begin only after the Component has received a willingness to pay fees and satisfaction as to category determination, or fee payments (if appropriate).

(x) Components may charge for time spent searching for records, even if that search fails to locate records responsive to the request. Components may also charge search and review (in the case of commercial requesters) time in records located are determined to be exempt from disclosure. In practice, if the Components estimates that search charges are likely to exceed $25.00, it shall notify the requester of the estimated amount of fees, unless the requester has indicated in advance his or her willingness to pay fees as
Office of the Secretary of Defense

§ 286.28

high as those anticipated. Such a notice shall offer the requester the opportunity to confer with Component personnel with the object of reformulating the request to meet his or her needs at a lower cost.

(3) Commercial requesters. Fees shall be limited to reasonable standard charges for document search, review and duplication when records are requested for commercial use. Requesters must reasonably describe the records sought. (See §286.4(h)).

(i) The term “commercial use” request refers to a request from, or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interest of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, Components must determine the use to which a requester will put the documents requested. Moreover, where a Component has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, Components should seek additional clarification before assigning the request to a specific category.

(ii) When Components receive a request for documents for commercial use, they should assess charges which recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Commercial requesters (unlike other requesters) are not entitled to two hours of free search time, nor 100 free pages of reproduction of documents. Moreover, commercial requesters are not normally entitled to a waiver or reduction of fees based upon an assertion that disclosure would be in the public interest. However, because use is the exclusive determining criteria, it is possible to envision a commercial enterprise making a request that is not for commercial use. It is also possible that a non-profit organization could make a request that is for commercial use. Such situations must be addressed on a case-by-case basis.

(4) Educational institution requesters. Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request is made by an educational institution whose purpose is scholarly research. Requesters must reasonably describe the records sought (see §286.4(h)). The term “educational institution” refers to a pre-school, a public or private elementary or secondary school, an institution of graduate high education, an institution of undergraduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research. Fees shall be waived or reduced in the public interest if the criteria of paragraph (d) of this section, have been met.

(5) Non-commercial scientific institution requesters. Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request is made by a non-commercial scientific institution whose purpose is scientific research. Requesters must reasonably describe the records sought (see §286.4(h)). The term “non-commercial scientific institution” refers to an institution that is not operated on a “commercial” basis as defined in paragraph (e)(3) of this section, and that is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry. Fees shall be waived or reduced in the public interest if the criteria of paragraph (d) of this section, have been met.

(6) Components shall provide documents to requesters in paragraphs (e)(4) and (e)(5) of this section for the cost of duplication alone, excluding charges for the first 100 pages. To be eligible for inclusion in these categories, requesters must show that the request is being made under the auspices of a qualifying institution and that the records are not sought for commercial use, but in furtherance of scholarly (from an educational institution) or scientific (from a non-commercial scientific institution) research.

(7) Representatives of the news media. Fees shall be limited to only reasonable standard charges for document duplication (excluding charges for the first 100 pages) when the request is
made by a representative of the news media. Requesters must reasonably describe the records sought (see §286.4(h)). Fees shall be waived or reduced if the criteria of paragraph (d) of this section, have been met.

(i) The term “representative of the news media” refers to any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term “news” means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of “news”) who make their products available for purchase or subscription by the general public. These examples are not meant to be all-inclusive. Moreover, as traditional methods of news delivery evolve (e.g., electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of “freelance” journalists they may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it. A publication contract would be the clearest proof, but Components may also look to the past publication record of a requester in making this determination.

(ii) To be eligible for inclusion in this category, a requester must meet the criteria in paragraph (e)(7)(i) of this section, and his or her request must not be made for commercial use. A request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for a commercial use. For example, a document request by a newspaper for records relating to the investigation of a defendant in a current criminal trial of public interest could be presumed to be a request from an entity eligible for inclusion in this category, and entitled to records at the cost of reproduction alone (excluding charges for the first 100 pages).

(iii) “Representative of the news media” does not include private libraries, private repositories of Government records, information vendors, data brokers or similar marketers of information whether to industries and businesses, or other entities.

(8) All other requesters. Components shall charge requesters who do not fit into any of the categories described in paragraphs (e)(3), (e)(4), (e)(5), or (e)(7) of this section, fees which recover the full direct cost of searching for and duplicating records, except that the first two hours of search time and the first 100 pages of duplication shall be furnished without charge. Requesters must reasonably describe the records sought (see §286.4(h)). Requests from subjects about themselves will continue to be treated under the fee provisions of the Privacy Act of 1974, which permit fees only for duplication. Components are reminded that this category of requester may also be eligible for a waiver or reduction of fees if disclosure of the information is in the public interest as defined under paragraph (d)(1) of this section. (See also paragraph (e)(3)(i) of this section.)

(f) Aggregating requests. Except for requests that are for a commercial use, a Component may not charge for the first two hours of search time or for the first 100 pages of reproduction. However, a requester may not file multiple requests at the same time, each seeking portions of a document or documents, solely in order to avoid payment of fees. When a Component reasonably believes that a requester or, on rare occasions, a group of requesters acting on concert, is attempting to break a request down into a series of requests for the purpose of avoiding the assessment of fees, the Agency may aggregate any such requests and charge accordingly. One element to be considered in determining whether a belief would be reasonable is the time period in which the requests have occurred. For example, it would be reasonable to presume that multiple requests of this type made within a 30 day period had been made to avoid fees. For requests made over a longer period however, such a presumption becomes harder to sustain and Components should have a
solid basis for determining that aggregation is warranted in such cases. Components are cautioned that before aggregating requests from more than one requester, they must have a concrete basis on which to conclude that the requesters are acting in concert and are acting specifically to avoid payment of fees. In no case may Components aggregate multiple requests on unrelated subjects from one requester.

(g) Effect of the Debt Collection Act of 1982 (5 U.S.C. 5515 note). The Debt Collection Act of 1982 (5 U.S.C. 5515 note) provides for a minimum annual rate of interest to be charged on overdue debts owed the Federal Government. Components may levy this interest penalty for any fees that remain outstanding 30 calendar days from the date of billing (the first demand notice) to the requester of the amount owed. The interest rate shall be as prescribed in 31 U.S.C. 3717. Components should verify the current interest rate with respective Finance and Accounting Offices. After one demand letter has been sent, and 30 calendar days have lapsed with no payment, Components may submit the debt to respective Finance and Accounting Offices for collection pursuant to 5 U.S.C. 5515 note.

(b) Search time—(1) Manual search.

(2) Computer search. Fee assessments for computer search consists of two parts; individual time (hereafter referred to as human time), and machine time.

(i) Human time. Human time is all the time spent by humans performing the necessary tasks to prepare the job for a machine to execute the run command. If execution of a run requires monitoring by a human, that human time may be also assessed as computer search. The terms ‘programmer/operator’ shall not be limited to the traditional programmers or operators. Rather, the terms shall be interpreted in their broadest sense to incorporate any human involved in performing the computer job (e.g., technician, administrative support, operator, programmer, database administrator, or action officer).

(ii) Machine time. Machine time involves only direct costs of the Central Processing Unit (CPU), input/output devices, and memory capacity used in the actual computer configuration. Only this CPU rate shall be charged. No other machine related costs shall be charged. In situations where the capability does not exist to calculate CPU time, no machine costs can be passed on to the requester. When CPU calculations are not available, only human time costs shall be assessed to requesters. Should DoD Components lease computers, the services charged by the lessor shall not be passed to the requester under the FOIA.

(c) Duplication.
§ 286.30 Collection of fees and fee rates for technical data.

(a) Fees for technical data. Technical data, other than technical data that discloses critical technology with military or space application, if required to be released under the FOIA, shall be released after the person requesting such technical data pays all reasonable costs attributed to search, duplication and review of the records to be released. Technical data, as used in this section, means recorded information, regardless of the form or method of the recording of a scientific or technical nature (including computer software documentation). This term does not include computer software, or data incidental to contract administration, such as financial and/or management information. DoD Components shall retain the amounts received by such a release, and it shall be merged with and available for the same purpose and the same time period as the appropriation from which the costs were incurred in complying with request. All reasonable costs as used in this sense are the full costs to the Federal Government of rendering the service, or fair market value of the service, whichever is higher. Fair market value shall be determined in accordance with commercial rates in the local geographical area. In the absence of a known market value, charges shall be based on recovery of full costs to the Federal Government. The full costs shall include all direct and indirect costs to conduct the search and to duplicate the records responsive to the request. This cost is to be differentiated from the direct costs allowable under §286.29 of this subpart for other types of information released under the FOIA.

(b) Waiver. Components shall waive the payment of costs required in paragraph (a) of this section, which are greater than the costs that would be required for release of this same information under §286.29 of this subpart if:

(1) The request is made by a citizen of the United States or a United States corporation, and such citizen or corporation certifies that the technical data requested is required to enable it to submit an offer, or determine whether it is capable of submitting an offer to provide the product to which the technical data relates to the United States or a contractor with the United States. However, Components may require the citizen or corporation to pay a deposit in an amount equal to not more than the cost of complying with the request, which will be refunded upon submission of an offer by the citizen or corporation;

(2) The release of technical data is requested in order to comply with the...

§ 286.33

Reports control.

(a) General. (1) The Annual Freedom of Information Act Report is mandated by the statute and reported on a fiscal year basis. Due to the magnitude of the requested statistics and the need to ensure accuracy of reporting, DoD Components shall track this data as requests are processed. This will also facilitate a quick and accurate compilation of statistics. DoD Components shall forward their report to the Directorate for Freedom of Information and Security Review no later than November 30 following the fiscal year’s close. It may be submitted electronically and via hard copy accompanied by a computer diskette. In turn, DoD will produce a consolidated report for submission to the Attorney General, and ensure that a copy of the DoD consolidated report is placed on the Internet for public access.

(2) Existing DoD standards and registered data elements are to be utilized to the greatest extent possible in accordance with the provisions of DoD Manual 8320.1-M,‘’Data Administration Procedures.’’

(3) The reporting requirement outlined in this subpart is assigned Report Control Symbol DD-DA&M(A)1365, ‘‘Freedom of Information Act Report to Congress.’’

(b) Annual Report. The current edition of DD Form 2564 shall be used to submit component input. DD Form 2564 is available on the Internet at http://www.defenselink.mil/pubs/ under Regulations and Forms. Instructions for completion follow:

12 See footnote 1 to §286.1(a).
§ 286.33  32 CFR Ch. I (7–1–02 Edition)

(1) Item 1: Initial request determinations. Please note that initial Privacy Act requests which are also processed as initial FOIA requests are reported here. They will also be reported as “Privacy Act requests” on the Annual Privacy Act Report. See §286.4(m). Relationship between the FOIA and the Privacy Act (PA).

(i) Total requests processed. Enter the total number of initial FOIA requests responded to (completed) during the fiscal year. Since more than one action frequently is taken on a completed case, total actions (see (b)(1)(vi) of this section) the sum of Items (b)(1)(ii) through (b)(1)(v) of this section, may exceed total requests processed (See appendix E of this part for form layout.)

(ii) Granted in full. Enter the total number of initial FOIA requests responded to that were granted in full during the fiscal year. (This may include requests granted by your office, yet still requiring action by another office.)

(iii) Denied in part. Enter the total number of initial FOIA requests responded to and denied in part based on one or more of the FOIA exemptions. (Do not report “other reason responses” as a partial denial here, unless a FOIA exemption is used also.)

(iv) Denied in full. Enter the total number of initial FOIA requests responded to and denied in full based on one or more of the FOIA exemptions. (Do not report “other reason responses” as denials here, unless a FOIA exemption is used also.)

(v) “Other reason” responses. Enter the total number of initial FOIA requests in which you were unable to provide all or part of the requested information based on an “other reason” response. Paragraph (b)(2)(ii) of this section explains the nine possible “other reasons.”

(vi) Total actions. Enter the total number of FOIA actions taken during the fiscal year. This number will be the sum of (b)(1)(ii) through (b)(1)(v) of this section. Total actions must be equal to or greater than the number of total requests processed (paragraph (b)(1)(i) of this section).

(2) Item 2: Initial request exemptions and other reasons—(i) Exemptions invoked on initial request determinations. Enter the number of times an exemption was claimed for each request that was denied in full or in part. Since more than one exemption may be claimed when responding to a single request, this number will be equal to or greater than the sum of (b)(1)(i)(iv) and (b)(1)(iv) of this section. The (b)(7) exemption is reported by subcategories identified in paragraphs (b)(2)(i)(A) through (b)(2)(i)(F) of this section:

(A) Interfere with enforcement;

(B) Fair trial right;

(C) Invasion of privacy;

(D) Protect confidential source;

(E) Disclose techniques; and

(F) Endanger life or safety.

(ii) “Other reasons” cited on initial determinations. Identify the “other reason” response cited when responding to a FOIA request and enter the number of times each was claimed.

(A) No records. Enter the number of times a reasonable search of files failed to identify records responsive to subject request.

(B) Referrals. Enter the number of times a request was referred to another DoD Component or Federal Agency for action.

(C) Request withdrawn. Enter the number of times a request and/or appeal was withdrawn by a requester. (For appeals, report number in Item 4b on the report form. (See appendix E of this part.)

(D) Fee-related reason. Requester is unwilling to pay the fees associated with a request; the requester is past due in the payment of fees from a previous FOIA request; or the requester disagrees with a fee estimate.

(E) Records not reasonably described. Enter the number of times a FOIA request could not be acted upon since the record had not been described with sufficient particularity to enable the DoD Component to locate it by conducting a reasonable search.

(F) Not a proper FOIA request for some other reason. Enter the number of times the requester has failed unreasonably to comply with procedural requirements, other than fee-related (described in paragraph (b)(2)(ii)(D) of this section), imposed by this part or a DoD Component’s supplementing regulation.
(G) Not an agency record. Enter the number of times a requester was provided a response indicating the requested information was not a record within the meaning of the FOIA and this part.

(H) Duplicate request. Record number of duplicate requests closed for that reason (e.g., request for the same information by the same requester). This includes identical requests received via different means (e.g., electronic mail, facsimile, mail, courier) at the same or different times.

(I) Other (specify). Any other reason a requester does not comply with published rules, other than those reasons outlined in paragraphs (b)(2)(ii)(A) through (b)(2)(ii)(H) of this section.

(2) Appeal determinations.

(a) Total. Enter the sum of paragraphs (b)(2)(ii)(A) through (b)(2)(ii)(I) of this section in the block provided on the form. This number will be equal to or greater than the number in paragraph (b)(1)(v) of this section since more than one reason may be claimed for each “other reason” response.

(b) (3) statutes invoked on initial determinations. Identify the number of times you have used a specific statute to support each (b)(3) exemption. List the statutes used to support each (b)(3) exemption; the number of instances in which the statute was cited; note whether or not the statute has been upheld in a court hearing; and provide a concise description of the material withheld in each individual case by the statute’s use. Ensure you cite the specific sections of the acts invoked. The total number of instances reported will be equal to or greater than the total number of (b)(3) exemptions listed in Item 2a on the report form.

(c) Item 3: Appeal determinations.

Please note that Privacy Act appeals which are also processed as FOIA appeals are reported here. They will also be reported as “Privacy Act appeals” on the Annual Privacy Act Report. See § 286.33m, Relationship Between the FOIA and the Privacy Act (PA).

(i) Total appeal responses. Enter the total number of FOIA appeals responded to (completed) during the fiscal year.

(ii) Granted in full. Enter the total number of FOIA appeals responded to and granted in full during the year.

(iii) Denied in part. Enter the total number of FOIA appeals responded to and denied in part based on one or more of the FOIA exemptions. (Do not report “other reason responses” as a partial denial here, unless a FOIA exemption is used also.)

(iv) Denied in Full. Enter the total number of FOIA appeals responded to and denied in full based on one or more of the FOIA exemptions. (Do not report “other reason responses” as denials here, unless a FOIA exemption is used also.)

(v) “Other reason” responses. Enter the total number of FOIA appeals in which you were unable to provide the requested information based on an “other reason” response (as outlined in “other reasons” in paragraph (b)(2)(ii) of this section).

(vi) Total actions. Enter the total number of FOIA appeal actions taken during the fiscal year. This number will be equal to or greater than the number in paragraph (b)(3)(v) of this section, and should be equal to or greater than the number of total appeal responses, paragraph (b)(3)(i) of this section.

(d) Item 4: Appeal exemptions and other reasons.

(i) Exemptions invoked on appeal determinations. Enter the number of times an exemption was claimed for each appeal that was denied in full or in part. Since more than one exemption may be claimed when responding to a single request, this number will be equal to or greater than the sum of paragraphs (b)(3)(ii) and (b)(3)(v) of this section. Note that the (b)(7) exemption is reported by subcategories identified in paragraphs (b)(4)(i)(A) through (b)(4)(i)(F) of this section:

(A) Interfere with enforcement;

(B) Fair trial right;

(C) Invasion of privacy;

(D) Protect confidential source;

(E) Disclose techniques; and

(F) Endanger life or safety.

(ii) “Other reasons” cited on appeal determinations. Identify the “other reason” response cited when responding to a FOIA appeal and enter the number of times each was claimed. See paragraph (b)(2)(ii) of this section for description of “other reasons.” This number may be equal to or possibly greater than the number in paragraph (b)(3)(v) of this section since more than one reason
¶ 286.33

may be claimed for each “other reason” response.

(iii) (b)(3) statutes invoked on appeal determinations. Identify the number of times a specific statute has been used to support each (b)(3) exemption identified in Item 4a on the report form (Appendix E of this part). List the statutes used to support each (b)(3) exemption; the number of instances in which the statute was cited; note whether or not the statute has been upheld in a court hearing; and provide a concise description of the material withheld in each individual case by the statute’s use. Ensure citation to the specific sections of the statute invoked. The total number of instances reported will be equal to or greater than the total number of (b)(3) exemptions listed in Item 4a on the report form.

(5) Item 5: Number and median age of initial cases pending: (i) Total initial cases pending:

(ii) Beginning and ending report period: Midnight, 2400 hours, September 30 of the Preceding Year—OR—0001 hours, October 1 is the beginning of the report period. Midnight, 2400 hours, is the close of the reporting period.

(iii) Median age of initial requests pending: Report the median age in days (including holidays and weekends) of initial requests pending.

(iv) Examples of median calculation. (A) If given five cases aged 10, 25, 35, 65, and 100 days from date of receipt as of the previous September 30th, the total requests pending is five (5). The median age (days) of open requests is the middle, not average value, in this set of numbers (10, 25, 35, 65, and 100), 35 (the middle value in the set).

(B) If given six pending cases, aged 10, 25, 35, 65, 79, and 100 days from date of receipt, as of the previous September 30th, the total requests pending is six (6). The median age (days) of open requests 40 days (the mean [average] of the two middle numbers in the set, in this case the average of middle values 30 and 50).

(v) Accuracy of calculations. Components must ensure the accuracy of calculations. As backup, the raw data used to perform calculations should be recorded and preserved. This will enable recalculation of median (and mean values) as necessary. Components may require subordinate elements to forward raw data, as deemed necessary and appropriate.

(vi) Average. If a Component believes that “average” (mean) processing time is a better measure of performance, then report “averages” (means) as well as median values (e.g., with data reflected and plainly labeled on plain bond as an attachment to the report). However, “average” (mean) values will not be included in the consolidated DoD report unless all Components report it.

(6) Item 6: Number of initial requests received during the fiscal year. Enter the total number of initial FOIA requests received during the reporting period (fiscal year being reported).

(7) Item 7: Types of requests processed and median age. Information is reported for three types of initial requests completed during the reporting period: Simple; Complex; and Expedited Processing. The following items of information are reported for these requests:

(i) Total number of initial requests. Enter the total number of initial requests processed [completed] during the reporting period (fiscal year) by type (Simple, Complex and Expedited Processing) in the appropriate row on the form.

(ii) Median age (days). Enter the median number of days [calendar days including holidays and weekends] required to process each type of case (Simple, Complex and Expedited Processing) during the period in the appropriate row on the form.

(iii) Example. Given seven initial requests, multitrack—simple completed during the fiscal year, aged 10, 25, 35, 65, 79, 90 and 400 days when completed. The total number of requests completed was seven (7). The median age (days) of completed requests is 65, the middle value in the set.

(8) Item 8: Fees collected from the public. Enter the total amount of fees collected from the public during the fiscal year. This includes search, review and reproduction costs only.

(9) Item 9: FOIA program costs—(i) Number of full time staff. Enter the number of personnel your agency had dedicated to working FOIA full time during the fiscal year. This will be expressed
in work-years (manyears). For example: “5.1, 3.2, 1.0, 6.5, et al.” A sample
calculation follows:

(ii) **Number of part time staff:** Enter the number of personnel your agency had dedicated to working FOIA part time during the fiscal year. This will be expressed in work-years (manyears). For example: “5.1, 3.2, 1.0, 6.5, et al.” A sample calculation follows:

1 Hours (hours worked in a year) equals 0.8 work-years.

(iii) **Estimated litigation cost:** Report your best estimate of litigation costs for the FY. Include all direct and indirect expenses associated with FOIA litigation in U.S. District Courts, U.S. Circuit Courts of Appeals, and the U.S. Supreme Court.

(iv) **Total program cost:** Report the total cost of FOIA program operation within your agency. Include your litigation costs in this total. While you do not have to report detailed cost information as in the past, you should be able to explain the technique by which you derived your agency’s total cost figures if the need arises.

(A) Before the close of each fiscal year, the Directorate for Freedom of Information and Security Review (DFOISR) will dispatch the latest OSD Composite Rate Chart for military personnel to DoD Components. This information may be used in computing military personnel costs.

(B) DoD Components should compute their civilian personnel costs using rates from local Office of Personnel Management (OPM) Salary Tables and shall add 16% for benefits.

(C) Data captured on DD Form 2086, Record of Freedom of Information (FOI) Processing Cost and DD Form 2086–1, Record of Freedom of Information (FOI) Processing Cost for Technical Data, shall be summarized and used in computing total costs.

(D) An overhead rate of 25% shall be added to all calculated costs for supervision, space, and administrative support.

(10) **Item 10: Authentication.** The official that approves the agency’s report submission to DoD will sign and date; enter typed name and duty title; and
provide both the agency's name and phone number for questions about the report.

(c) Electronic publication. The consolidated DoD Annual FOIA Program Report will be made available to the public in either paper or electronic format.

Subpart H—Education and Training

§286.36 Responsibility and purpose.

(a) Responsibility. The Head of each DoD Component is responsible for the establishment of educational and training programs on the provisions and requirements of this part. The educational programs should be targeted toward all members of the DoD Component, developing a general understanding and appreciation of the DoD FOIA Program; whereas, the training programs should be focused toward those personnel who are involved in the day-to-day processing of FOIA requests, and should provide a thorough understanding of the procedures outlined in this part.

(b) Purpose. The purpose of the educational and training programs is to promote a positive attitude among DoD personnel and raise the level of understanding and appreciation of the DoD FOIA Program, thereby improving the interaction with members of the public and improving the public trust in the DoD.

(c) Scope and principles. Each Component shall design its FOIA educational and training programs to fit the particular requirements of personnel dependent upon their degree of involvement in the implementation of this part. The program should be designed to accomplish the following objectives:

(1) Familiarize personnel with the requirements of personnel dependent upon their degree of involvement in the implementation of this part. The program should be designed to accomplish the following objectives:

(2) Instruct personnel, who act in FOIA matters, concerning the provisions of this part, advising them of the legal hazards involved and the strict prohibition against arbitrary and capricious withholding of information.

(3) Provide for the procedural and legal guidance and instruction, as may be required, in the discharge of the responsibilities of initial denial and appellate authorities.

(4) Advise personnel of the penalties for noncompliance with the FOIA.

(d) Implementation. To ensure uniformity of interpretation, all major educational and training programs concerning the implementation of this part should be coordinated with the Director, Freedom of Information and Security Review.

(e) Uniformity of legal interpretation. In accordance with DoD Directive 5400.7, the DoD Office of the General Counsel shall ensure uniformity in the legal position and interpretation of the DoD FOIA Program.

APPENDIX A TO PART 286—COMBATANT COMMANDS—PROCESSING PROCEDURES FOR FOIA APPEALS

AP1.1. General

AP1.1.1. In accordance with DoD Directive 5400.71 and this part, the Combatant Commands are placed under the jurisdiction of the Office of the Secretary of Defense, instead of the administering Military Department, only for the purpose of administering the Freedom of Information Act (FOIA) Program. This policy represents an exception to the policies in DoD Directive 5100.3.

AP1.1.2. The policy change in AP1.1.1. of this appendix authorizes and requires the Combatant Commands to process FOIA requests in accordance with DoD Directive 5400.7 and DoD Instruction 5400.103 and to forward directly to the Director, Freedom of Information and Security Review, all correspondence associated with the appeal of an initial denial for information under the provisions of the FOIA.

AP1.2. Responsibilities of Commands

Combatant Commanders in Chief shall:

AP1.2.1. Designate the officials authorized to deny initial FOIA requests for records.

AP1.2.2. Designate an office as the point-of-contact for FOIA matters.

AP1.2.3. Refer FOIA cases to the Director, Freedom of Information and Security Review, for review and evaluation when the issues raised are of unusual significance, precedent setting, or otherwise require special attention or guidance.

AP1.2.4. Consult with other OSD and DoD Components that may have a significant interest in the requested record prior to a final determination. Coordination with Agencies

720
outside of the Department of Defense, if required, is authorized.

AP1.2.3. Coordinate proposed denials of records with the appropriate Combatant Command’s Office of the Staff Judge Advocate.

AP1.2.4. Answer any request for a record within 20 working days of receipt. The requesters shall be notified that his request has been granted or denied. In unusual circumstances, such notification may state that additional time, not to exceed 10 working days, is required to make a determination.

AP1.2.5. Provide to the Director, Freedom of Information and Security Review when the request for a record is denied in whole or in part, a copy of the response to the requester or the requester’s representative, and any internal memoranda that provide background information or rationale for the denial.

AP1.2.6. State in the response that the decision to deny the release of the requested information, in whole or in part, may be appealed to the Director, Administration and Management and Washington Headquarters Services, Directorate for Freedom of Information and Security Review, Room 2C757, 1155 Defense Pentagon, Washington, DC 20301–1155.

AP1.2.7. Upon request, submit to Director, Administration and Management and Washington Headquarters Services a copy of the records that were denied. The Director, Administration and Management and Washington Headquarters Services shall make such requests when adjudicating appeals.

AP1.3. Fees for FOIA Requests

The fees charged for requested records shall be in accordance with subpart F of this part.

Sec.
286h.1 Purpose.
286h.2 Applicability and scope.
286h.3 Policy.
286h.4 Responsibilities.

SOURCE: 55 FR 28614, July 12, 1990, unless otherwise noted.

§ 286h.1 Purpose.

This part sets forth Department of Defense (DoD) policy for the release of acquisition-related information.

§ 286h.2 Applicability and scope.

(a) This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Chairman, Joint Chiefs of Staff and Joint Staff (CJCS), the Unified and Specified Commands, and the Defense Agencies (hereafter referred to collectively as “DoD Components”).

(b) This part is issued pursuant to section 622 of Public Law 101–189, which requires the Department of Defense to prescribe a single uniform regulation for dissemination of, and access to, acquisition information.

§ 286h.3 Policy.

(a) General. It is the Department of Defense’s policy to make the maximum amount of acquisition-related information available to the public, and to respond promptly to specific requests from the public for such information, except for the information identified in paragraph (b) of this section, for which release is restricted.

(b) Information for which release is restricted. The information identified below may be released only as set forth herein.

(1) Release subject to statutory restrictions. This information may be released only in accordance with the applicable statutory requirements. Once the statutory requirements have been satisfied, the information may be released unless it falls within one of the categories described in the following paragraphs, in which case the policies governing release of information within those categories shall be followed.

(2) Classified information. (i) Any information or material, regardless of its physical form or characteristics, that is owned by, produced by or for, or under the control of the United States Government, and which, for national security purposes, must be protected against unauthorized disclosure and is so designated or marked with the appropriate classification.

(ii) Release, access, and dissemination of classified information shall be made through existing security channels in accordance with DoD 5220.22–R, DoD 5220.22–M, and DoD 5200.1–R, which are implementing publications for safeguarding classified information release, access, and dissemination to United States and foreign concerns.

(3) Contractor bid or proposal information. (i) This is information prepared by or on behalf of an offeror and submitted to the Government as a part of or in support of the offeror’s bid or proposal to enter into a contract with the Government, the disclosure of which would place the offeror at a competitive disadvantage or jeopardize the integrity or the successful completion of the procurement. Contractor bid or proposal information includes cost or pricing data, profit data, overhead and direct labor rates, and manufacturing processes and techniques. Contractor bid or proposal information does not include information that is available to the public.

(ii)(A) Sealed bids. (1) Prior to bid opening, no release or disclosure of contractor bid information shall be made to anyone other than those who are involved in the evaluation of the

bids or to other individuals authorized by the Head of the DoD Component, or his or her designee.

(2) After contract award, contractor bid information may be released or disclosed by those authorized by the Head of the DoD Component, or his or her designee, to make such release or disclosure, if the information to be released or disclosed is not subject to a restrictive legend authorized by Federal Acquisition Regulation (FAR) 52.215-12 or release is not otherwise restricted by law.

(3) Negotiated procurements. Prior to contract award, no release or disclosure of contractor proposal information shall be made to anyone other than those who are involved in the evaluation of the proposals or the source selection or to other individuals authorized by the Head of the DoD Component, or his or her designee. DoD Components shall adopt procedures in accordance with FAR 15.413 to protect against release or disclosure of contractor proposal information. After contract award, contractor proposal information may be released or disclosed by those authorized by the Head of the DoD Component, or his or her designee, to make such release or disclosure, if the information to be released or disclosed is not subject to a restrictive legend authorized by FAR 15.509 or FAR 52.215-12 or release is not otherwise restricted by law.

(4) Source selection information. (i) This is information prepared or developed for use by the Government in connection with the selection of a bid or proposal for the award of a contract. Only the following information, including copies or extracts thereof, is source selection information:

(A) Bid prices submitted in response to a Government solicitation for sealed bids or lists of such bid prices (applicable prior to bid opening only);

(B) Proposed costs or prices submitted in response to a Government solicitation prior to award of the contract, a list of proposed costs or prices;

(C) Source selection plans;

(D) Technical evaluation plans;

(E) Technical evaluations of competing proposals;

(F) Cost or price evaluations of competing proposals;

(G) Competitive range determinations;

(H) Rankings of competitors;

(I) The reports and evaluations or source selection boards, advisory councils, or the source selection authority (SSA); and

(J) Any other information which:

(1) If disclosed, would give an offeror a competitive advantage or jeopardize the integrity or successful completion of the procurement; and

(2) Is marked with the legend "Source Selection Information."

(ii) Release of or access to source selection information (SSI) — (A) Access to SSI. The SSA (including the contracting officer when the contracting officer is the SSA) shall restrict access to source selection information to only those Government employees directly involved in the source selection process or to those individuals who have been authorized by the Head of the DoD Component, or his or her designee, to have access to such information. If the contracting officer or the SSA have not been appointed, the Head of the DoD Component, or his or her designee, shall assure access to such information is properly restricted. Employees supervising or managing employees directly involved in the source selection process are not themselves by virtue of their positions directly involved in the source selection process.

(B) Release of SSI — (1) Prior to contract award. Source selection information shall not be released prior to contract award unless the Head of the DoD Component, or his or her designee, determines that release is in the public interest and would not jeopardize the integrity or successful completion of the procurement. The information to be released shall only be released by the contracting officer. The contracting officer shall make release in a manner that does not provide any potential offeror with a competitive advantage.

(2) After contract award. The need to protect source selection information generally ends with contract award. The contracting officer may release, or authorize the release of, any source selection information related to that contract award except: Source selection information specifically developed or prepared for use with more than one

solicitation when there is a continuing need to protect that information; unless otherwise permitted by law, source selection information containing contractor data or extracts thereof which are protected by law; information which would reveal the relative merits or technical standing of the competitors or the evaluation scoring; and any pre-decisional or other information not subject to release under the Freedom of Information Act. Debriefings to unsuccessful offerors shall be conducted in accordance with FAR 15.1003 and Defense Federal Acquisition Regulation Supplement (DFARS) 215.1063(a).

(5) Planning, programming, and budgetary information. (i) Planning, Programming, and Budgeting System (PPBS) documents and supporting data bases are not to be disclosed outside the Department of Defense (DoD) and other governmental agencies directly involved in the defense planning and resource allocation process (e.g., the Office of Management and Budget). PPBS papers and associated data set forth the details of proposed programs and plans. Access to this material by those not directly involved in the PPBS process undermines the confidentiality necessary for the Secretary and Deputy Secretary to obtain candid advice on the content of the defense program. Also, access to PPBS information by private firms seeking contracts with the Department may pose ethical, even criminal, problems for those involved and reduce effective competition in the contract awards process.

(ii)(A) Requests for exceptions to this limitation may be granted on a case-by-case basis to meet compelling needs, after coordination with the Office of General Counsel, by the Head of the OSD office responsible for the PPBS phase to which the document or data base pertains; the Under Secretary of Defense (Policy) for the planning phase; the Assistant Secretary of Defense (Program Analysis and Evaluation) for programming; and the Controller, DoD for budgeting. A list of the current major documents and data bases for each PPBS phase is in paragraph (B)(5)(11)(C) of this section; all other PPBS materials are also controlled under this policy.

(B) Disclosure of PPBS information to Congress and the General Accounting Office (GAO) is covered by statute and other procedures.

(C) Major PPBS Documents and Data Bases by Phase.

(1) Defense Planning Guidance.

(2) Fiscal Planning Guidance (when separate from Defense Planning Guidance);

(16) Contract Award Reports;

(17) Congressional Data Sheets.

(iii) Contractor requests for information contained in the National Military Strategy Document (including annexes) and the Chairman’s Program Assessment Document (including annexes and comments) shall be forwarded to the CJCS who shall determine on a case-by-case basis what information, if any, is releasable to the contractor.
(6) Documents that disclose the Government's negotiating position. Documents that would disclose the government's negotiating position (such as pre-negotiation business clearances and positions and government cost estimates) or would adversely impact the government negotiating strategy shall not be released.

(7) Drafts and working papers. Drafts and working papers that would otherwise be releasable under paragraph 286h.3(a) shall not be released where their release would inhibit the development of agency positions, jeopardize the free exchange of information that is part of the deliberative process, or compromise the decision-making process.

(c) Freedom of Information Act. Where a request for information, the release of which is restricted under paragraph 286h.3(b) is made under the Freedom of Information Act, the request shall be forwarded to the appropriate official for disposition in accordance with DoD 5400.7-R.\(^4\) Requests for contractor bid or proposal information pursuant to the Freedom of Information Act shall be subject to subparagraph 5-207 a. of DoD 5400.7-R, which requires notice to a non-United States Government source of a record.

§287.4 Responsibilities.

(a) The Under Secretary of Defense (Acquisition) shall be responsible for establishing uniform policies and procedures for the release of acquisition-related information.

(b) The Under Secretary of Defense (Policy), Assistant Secretary of Defense (Program Analysis and Evaluation) and Comptroller, DoD are responsible for adjudicating requests for access to Planning, Programming and Budgeting information pertaining to their respective phases of the PPB system.

(c) The Head of each DoD Component shall assure that procedures for the release of acquisition-related information are consistent with the policy contained in this Directive and shall not impose any additional restrictions on release of such information. These procedures shall specifically identify the individuals authorized to release and transmit acquisition-related information.

APPENDIX D TO PART 290—AUDIT WORKING PAPERS

AUTHORITY: 5 U.S.C. 552.

SOURCE: 56 FR 49685, Oct. 1, 1991, unless otherwise noted.

§ 290.1 Purpose.

This part assigns responsibilities and establishes policies and procedures for a uniform DCAA Freedom of Information Act (FOIA) program pursuant to the provisions of the Freedom of Information Act, 5 U.S.C. 552, as implemented by DoD Directive 5400.7.1 and DoD 5400.7–R.2

§ 290.2 Cancellation.

DCAA Regulation 5410.8, DCAA Freedom of Information Act (FOIA) Program, dated 17 May 1989; DCAAR 5200.1, Control and Protection of “For Official Use Only” Information, dated 12 November 1983; and DCAA HQ Instruction 5200.9, Physical Security of “For Official Use Only” Information within Headquarters, DCAA, dated 20 November 1974, are superseded.

§ 290.3 Applicability and scope.

This rule applies to all DCAA organizational elements, and is to govern written responses by DCAA officials for requests from members of the public for permission to examine, or to be provided with copies of DCAA records.

1 Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

2 See footnote 1 to §290.1.
This rule also addresses Agency policies and procedures for handling “For Official Use Only” information, including Field Detachment sensitive information.

§ 290.4 Policy.

Agency policy and procedures are those cited in DoD 5400.7–R. In addition, DCAA will:

(a) Promote public trust by making the maximum amount of information available to the public, upon request, pertaining to the operation and activities of the Agency.

(b) Allow a requester to obtain records from the Agency that are available through other public information services without invoking the FOIA.

(c) Make available, under the procedures established by DCAAP 5410.14, those records that are requested by a member of the general public who cites the FOIA.

(d) Answer promptly all other requests for information and records under established procedures and practices.

§ 290.5 Definitions.

The terms used in this rule with the exception of the following are defined in DCAAP 5410.14.

(a) Initial denial authorities (IDAs). The regional directors, and the Chief, Administrative Management Division, have been delegated the authority by the Director, DCAA, to make initial determinations as to the releasability of DCAA records to the public, including Defense contractors. This authority may not be redelegated.

(b) Appellate authority. The Assistant Director, Resources, or his designee.

(c) Electronic data. Electronic data are those records and information which are created, stored, and retrievable by electronic means. This does not include computer software, which is the tool by which to create, store, or retrieve electronic data.

3Copies may be obtained from the Defense Contract Audit Agency, Attn: CMO, 8725 John J. Kingman Road, Suite 2135, Fort Belvoir, VA 22060–6219.

(d) FOIA request. A written request for DCAA records, made by any person, including a member of the public (U.S. or foreign citizen), an organization, or a business, but not including a Federal agency or a fugitive from the law that either explicitly or implicitly invokes the FOIA, DoD 5400.7–R, DCAAR 5410.8, or regional instruction on the FOIA.

(e) Administrative appeal. A request by a member of the general public, made under the FOIA, asking the appellate authority to reverse an IDA decision to withhold all or part of a requested record or to deny a request for waiver or reduction of fees.

§ 290.6 Responsibilities.

(a) Headquarters. (1) The Assistant Director, Resources is responsible for:

(i) The overall Agency-wide administration of the DCAA FOIA Program through the Chief, Administrative Management Division, Information and Privacy Advisor, to ensure compliance with the policies and procedures that govern the program.

(ii) Acting as the designee for the Director, DCAA, serving as the sole appellate authority for appeals to decisions of respective IDAs.

(iii) Advising the Assistant Secretary of Defense (Public Affairs) (ASD(PA)) of cases of public interest, particularly those on appeal, when the issues raised are unusual or precedent setting, matters of disagreement among DoD components, are of concern to agencies outside the Department of Defense, or may otherwise require special attention or guidance.

(iv) Advising the ASD(PA) and the Executive Officer, DCAA, concurrent with the denial of a request or an appeal, when circumstances suggest a news media interest.

(v) Conferring with the General Counsel; the Assistant Director, Operations; and the Assistant Director, Policy and Plans, on the desirability of reconsidering a final decision to deny a record, if that decision becomes a matter of special concern because it involves either an issue of public concern or DoD-wide consequences.

4See footnote 3 to §290.4(d).
Office of the Secretary of Defense

§ 290.6

(vi) Accomplishing program overview, in cooperation with the General Counsel, to ensure coordinated guidance to components, and to provide the means of assessing the overall conduct of the Agency's FOIA Program.

(vii) Responding to corrective action recommended by the Special Counsel of the Merit Systems Protection Board for arbitrary or capricious withholding of records by designated employees of the Agency.

(2) The Chief, Administrative Management Division (CM) is responsible for:

(i) Establishing, issuing, and updating policies for the DCAA FOIA Program; monitoring compliance with this rule; and providing policy guidance for the FOIA program.

(ii) Resolving conflicts that may arise regarding implementation of DCAA FOIA policy.

(iii) Designating an Agency FOIA Advisor, as a single point of contact, to coordinate on matters concerning Freedom of Information Act policy.

(3) The DCAA Information and Privacy Advisor, under the supervision and guidance of the Chief, Administrative Management Division is responsible for:

(i) Managing the DCAA FOIA Program in accordance with this rule, DCAAP 5410.14, applicable DCAA policies as well as DoD and Federal regulations.

(ii) Providing guidelines for managing, administering, and implementing the DCAA FOIA program. This would include issuing the DCAA FOIA rule, developing and conducting training for those individuals who implement the FOIA, and publishing in the FEDERAL REGISTER any instructions necessary for the administration of the FOIA program. This also includes serving as the informational point of contact for regional FOIA coordinators.

(iv) Preparing the Annual Freedom of Information Report to Congress as required by DoD 5400.7-R.

(v) Establishing and maintaining a control system for assigning FOIA case numbers to FOIA requests received by Headquarters and regional offices.

(vi) Maintaining a record of FOIA requests received by Headquarters. This record is to contain the requester's identification, the date of the request, type of information requested, and type of information furnished. This record will be maintained and disposed of in accordance with DCAA records maintenance and disposition regulations and schedules.

(vii) Making available for public inspection and copying in an appropriate facility or facilities, in accordance with rules published in the FEDERAL REGISTER the records specified in paragraph (a)(2) of 5 U.S.C. 552, unless such records are published and copies are offered for sale. Maintain and make available for public inspection and copying current indices of these records.

(4) Heads of Principal Staff Elements are responsible for:

(i) Reviewing all regulations or other policy and guidance issuances for which they are the proponent to ensure consistency with the provisions of this rule.

(ii) Ensuring that the provisions of DCAAP 5410.14 and this rule are followed in processing requests for records.

(iii) Forwarding to the DCAA Information and Privacy Advisor, any FOIA requests received directly from a member of the public so that the request may be administratively controlled and processed.

(iv) Ensuring the prompt review of all FOIA requests, and when required, coordinating those requests with other organizational elements.

(v) Providing recommendations regarding the releasability of DCAA records to members of the public, along with the responsive documents.

(vi) Providing the appropriate documents, along with a written justification for any denial, in whole or in part, of a request for records. Those portions to be excised should be bracketed in red pencil, and the specific exemption or exemptions cited which provide the basis for denying the requested records.
§ 290.7 Procedures.

(a) Procedures for processing material in accordance with the FOIA are outlined in DCAAP 5410.14. General provisions are outlined in the following paragraphs.

(b) Requests for audit reports. Audit reports prepared by DCAA are the property of and are prepared for the use of

[32 CFR Ch. I (7-1-02 Edition)]

(vii) Ensuring that documents are marked FOUO at the time of their creation if information contained within is considered exempt from disclosure.

(iv) Ensuring that documents are marked FOUO at the time of their creation if information contained within is considered exempt from disclosure.

(2) FOIA Coordinators are responsible for:

(i) Issuing regional instructions that are consistent with the policies and procedures defined in DCAAP 5410.14 and this rule.

(ii) Conducting training on the FOIA program to the FAOs.

(iii) Submitting a DCAA Form 5410-4, “Freedom of Information Case Summary”, to the DCAA Information and Privacy Advisor at the completion of each FOIA case to facilitate the preparation of the annual FOIA report to Congress. All case summaries must be submitted no later than October 10th for cases completed during the previous fiscal year.

(iv) Establishing and maintaining a control system to ensure proper accountability and processing of FOIA requests.

(v) Contacting the DCAA Information and Privacy Act Advisor for a FOIA case number upon receipt of a FOIA request.

(c) Managers, Field Audit Offices (FAOs) are responsible for:

(1) Overall management and administration of the FOIA program within organizations under their cognizance.

(2) Ensuring that the regional FOIA Coordinator promptly receives all incoming FOIA requests. Use of facsimile transmission is appropriate for all requests received directly by the FAO.

(3) Ensuring that documents are marked FOUO at the time of their creation if information contained within is considered exempt from disclosure.

DoD contracting officers. As a result, their release should be at the sole discretion of the DoD contracting activity. Requesters seeking audit reports should send their requests directly to the DoD contracting activity to avoid administrative delay. Typically, requests for copies of DCAA audit reports may be identified by requesting those that relate to a specific contract number (e.g. DLA600-89-P0222). DoD contract numbers may be easily matched to the cognizant DoD contracting activity by referring to 48 CFR, ’’DoD FAR Supplement’’ Appendix G.

Note: Although DCAA can make a release determination on audit reports produced for non-DoD agencies, administrative procedure routinely dictates coordination with that agency prior to responding to the request. Requesters seeking expeditious processing should forward their requests directly to the cognizant contracting officer for processing.

(c) Requests for audit working papers. Audit working papers, as described in appendix D, may be sought occasionally in conjunction with an audit report or as an independent demand. Normally, the release of such records is entirely dependent on the releasability of the related audit report. (Note: The procedures for determining the releasability of audit reports is provided in general in the aforementioned paragraph and in more detail in DCAAP 5410.14). Since the content of audit working paper files can be quite diverse and often voluminous, FOIA Coordinators should work closely with the requester to ensure that the records produced are narrowly defined and entirely responsive to the requester’s needs.

(d) Public inspection and copying. Section (a)(2) of the Freedom of Information Act requires agencies to make available for public inspection and copying, final opinions made in the adjudication of cases, statements of policy not yet published in the Federal Register, and administrative manuals and instructions. This requirement is satisfied by the publication of DCAAI 5025.2,5 “DCAA Index of Publications” and DCAAI 5025.13,6 “Index of DCAA Memorandums for Regional Directors”.

(e) Requests for the examination or copies of records. (1) Members of the public may make written requests for copies of DCAA records or for permission to examine such records during normal business hours. Such requests must be in writing and either explicitly or implicitly invoke the Freedom of Information Act, or this rule. These requests should be submitted directly to the appropriate DCAA organizational element listed in appendix B of this rule. If the appropriate DCAA organizational element is either unknown or cannot be ascertained, and the record is likely to be in the possession of DCAA, the request may be submitted to Defense Contract Audit Agency, Attn: CM, 8725 John J. Kingman Road, Suite 2135, Fort Belvoir, VA 22060–6219.

(2) When submitting requests, requesters should:

(i) Identify each record sought with sufficient detail to facilitate the location and easy access to the record requested. Information as to where the record originated, subject, date, number, or any other identifying particulars should be provided whenever possible. DCAA organizational elements receiving requests which do not reasonably describe the record requested will advise the requester accordingly. Generally, a record is not reasonably described unless the requester provides information permitting an organized, nonrandom search of DCAA files and/or information systems. In providing descriptions based on events, the requester must provide information which permits DCAA organizational elements to, at least, infer the specific record sought.

(ii) Identify all other Federal agencies subject to the provisions of the FOIA to which the request has been sent. This will reduce both processing and coordination time between agencies and redundant referrals.

(iii) Provide a statement of their willingness to pay assessable charges. The statement must include a specific monetary amount if the assessable fees are likely to exceed the fee waiver threshold of $15.00 or a specific justification for any waiver or reduction of fees sought based on public interest.

---

5 See footnote 3 to §290.4(c).
6 See footnote 3 to §290.4(c).
§ 290.7 in release or disclosure. DCAA organizational elements will notify requesters of deficiencies in fee declarations, and provide them the opportunity to amend initial declarations. Determinations on the adequacy of requester fee declarations are not subject to appeal unless: The DCAA organizational element has denied a specific request for the assessment of fees under one of the established requester categories; or has denied a request for the waiver or reduction of fees in the public interest.

(3) When a DCAA organizational element has no records responsive to a request, the requester will be notified promptly that should he or she determine such request to be adverse in nature, he or she may exercise their appeal rights. In cases where the request has been misdirected and the DCAA organizational element is aware of the appropriate FOIA respondent, they shall refer the request to the appropriate DCAA organizational element or other Federal agency through FOIA channels, and notify the requester of the referral. The 20 working day period allowed for responding to requests will not begin until the DCAA organizational element having the responsive records receives a request complying with procedural requirements of this rule, including statements on the payment of fees.

(4) The provisions of the FOIA are intended for parties with private interests. Officials seeking documents or information on behalf of foreign governments, other Federal agencies, and state or local agencies should be encouraged to employ official channels. The release of records to individuals under the FOIA is a public release of information. DCAA organizational elements will consider FOIA requests from such officials as made in a private, rather than official capacity, and will make disclosure and fee determinations accordingly.

(5) Time limits. DCAA organizational elements are to respond promptly to requesters complying with the procedural requirements outlined in this rule. When a significant number of requests are being processed, e.g. 10 or more, the requests shall be completed in order of receipt. However, this does not preclude completing action on a request which can be easily answered, regardless of its ranking within the order of receipt. Action may be expedited on a request regardless of its ranking within the order of receipt upon a showing of exceptional need or urgency. Exceptional need or urgency is

(2) Referral of audit reports. Audit reports prepared by DCAA are the property of and are prepared for the use of the DoD contracting officers. Their release is at the discretion of the DoD contracting activity. Therefore any FOIA request for audit reports prepared for DoD components should be referred to the cognizant DoD contracting activity and the requester notified of the referral. To avoid the delay associated with the referral process, requesters should be advised to send requests for audit reports directly to the cognizant DoD contracting activity. Requests for audit reports prepared for non-DoD agencies should be treated as requests for DCAA records.

(3) Referral of work papers. When a requester seeks workpapers, the cognizant contracting officer must furnish a notice of disposition to the appropriate activity pertaining to the releasability of the audit report. The notice of disposition will then be used to determine releasability of the workpapers. Details concerning the appropriate processing procedures may be found in DCAAP 5410.14.

(4) Referrals. (1) Records originating in or based on information obtained from other Federal agencies subject to the FOIA may be referred to that agency, to that agency for direct response. The requester is to be notified of the referral. However, if for investigatory or intelligence purposes, the outside agency desires anonymity, FOIA Coordinators may only respond directly to the requester after coordination with the agency.

290.7 in release or disclosure. DCAA organizational elements will notify requesters of deficiencies in fee declarations, and provide them the opportunity to amend initial declarations. Determinations on the adequacy of requester fee declarations are not subject to appeal unless: The DCAA organizational element has denied a specific request for the assessment of fees under one of the established requester categories; or has denied a request for the waiver or reduction of fees in the public interest.

(3) When a DCAA organizational element has no records responsive to a request, the requester will be notified promptly that should he or she determine such request to be adverse in nature, he or she may exercise their appeal rights. In cases where the request has been misdirected and the DCAA organizational element is aware of the appropriate FOIA respondent, they shall refer the request to the appropriate DCAA organizational element or other Federal agency through FOIA channels, and notify the requester of the referral. The 20 working day period allowed for responding to requests will not begin until the DCAA organizational element having the responsive records receives a request complying with procedural requirements of this rule, including statements on the payment of fees.

(4) The provisions of the FOIA are intended for parties with private interests. Officials seeking documents or information on behalf of foreign governments, other Federal agencies, and state or local agencies should be encouraged to employ official channels. The release of records to individuals under the FOIA is a public release of information. DCAA organizational elements will consider FOIA requests from such officials as made in a private, rather than official capacity, and will make disclosure and fee determinations accordingly.

(5) Time limits. DCAA organizational elements are to respond promptly to requesters complying with the procedural requirements outlined in this rule. When a significant number of requests are being processed, e.g. 10 or more, the requests shall be completed in order of receipt. However, this does not preclude completing action on a request which can be easily answered, regardless of its ranking within the order of receipt. Action may be expedited on a request regardless of its ranking within the order of receipt upon a showing of exceptional need or urgency. Exceptional need or urgency is
determined at the discretion of the FOIA Coordinator.

(i) Upon receipt of a properly submitted FOIA request, DCAA organizational elements should contact the DCAA Information and Privacy Advisor for a FOIA case number. IDAs should:

(A) Locate and assemble responsive records.

(B) Determine releasability under the provisions of this rule.

(C) Determine the appropriate fees to be charged and

(D) Advise the requester accordingly. Initial determinations on either the release or denial of records, and notice to requesters, must be provided within 20 working days following receipt of the request by the cognizant DCAA organizational element.

(ii) In certain cases, IDAs may need to exercise an extension to the normal 20 working day period cited above. IDAs are to notify the requester, within the initial 20 working day period, of the extension, the circumstances necessitating it, and the anticipated date of a determination. Approved extensions are not to exceed 10 working days, and all extensions should be indicated on DCAA Form 5410–4, section 6. Circumstances where such extensions may be approved include:

(A) The record(s) sought are geographically located at places other than the DC+AA organizational element processing the request.

(B) The request requires the collection and review of a substantial number of records.

(C) The disclosure determination requires consultation with another DCAA organizational element or other Federal agency with a substantial interest.

(iii) As an alternative to the previously mentioned, DCAA organizational elements may seek informal agreements with requesters for extensions in unusual circumstances when time limits become an issue in the response to the request.

(iv) Misdirected requests should be referred within 20 working days to the proper Federal agency or DCAA organizational element through FOIA channels, and the requester notified of the referral. The 20 working day period allowed for responding to requests will not begin until the DCAA organizational element having the responsive records receives the request.

(6) Initial disclosure determinations.

(i) Initial determinations to make records available may only be made by those IDAs designated in this rule.

NOTE: Requests for audit reports should be directed to the cognizant contracting officer for release determination. (See §290.7(b)).

When a decision is made to release records in response to a FOIA request, DCAA organizational elements will promptly make the records available to the requester. When the request is for the examination of releasable records, DCAA organizational elements will advise the requester when and where he/she may appear. Examinations will be held during normal business hours. If a record is not provided in response to a FOIA request, the IDA will advise the requester, in writing, of the rationale for not providing the record.

(ii) IDAs should consult the Executive Officer, prior to releasing records on matters considered newsworthy or when releasing records to media representatives. Copies of all media requests should be submitted to the Executive Officer.

(iii) The following reasons, other than the statutory exemptions cited in the FOIA, are provided for not releasing a record in response to a FOIA request.

(A) The request is transferred to another DoD component, or to another Federal agency.

(B) The Agency determines through knowledge of its files and reasonable search efforts that it neither controls nor otherwise possesses the requested record.

(C) A record has not been described with sufficient particularity to enable the Agency to locate it by conducting a reasonable search.

(D) The requester has failed unreasonably to comply with procedural requirements, including payment of fees, imposed by this rule.

(E) The request is withdrawn by the requester.

(F) The information requested is not a record within the meaning of the FOIA and this rule.
§ 290.7 32 CFR Ch. 1 (7–1–02 Edition)

(7) Denials. (i) A record in the possession and control of DCAA may be withheld only when the record falls within one or more of the nine categories of records exempt from mandatory disclosure under the FOIA, and the use of discretionary authority to release the record is determined to be unwarranted. (Note: Since audit reports are prepared for the use of DoD contracting officers, their release is at the discretion of the DoD contracting activity. To facilitate an expeditious response, requesters should send their requests directly to the DoD contracting activity. (See § 290.7(b)). The specific exemptions are detailed in DCAAP 5410.14.

(ii) Although exempt portions of records may be denied, nonexempt portions must be released to the requester when it can reasonably be assumed that the excised information could not be reconstructed. When a record is denied in whole, based on distortion or reconstruction potential, the IDA will prepare a response advising the requester of the determination, and the response will specifically state that it is not possible to reasonably segregate meaningful portions for release.

(iii) When a request for a record is denied in whole or in part, the IDA will inform the requester in writing of the specific exemption(s) on which the denial is based and explain the determination in sufficient detail to permit the requester to make a decision concerning appeal. The determination will also inform the requester of his/her appeal rights. All appeals should be made within 60 calendar days from the date of the initial denial, contain the reasons for the requester’s disagreement with the determination, and be addressed to the Assistant Director, Resources, Defense Contract Audit Agency, 8725 John J. Kingman Road, Suite 2135, Fort Belvoir, VA 22060–6219.

(iv) Records or portions of records which have been previously released become part of the public domain, and cannot be denied thereafter.

(8) Administrative Appeals of Denials. (i) If the IDA declines to provide a record because he/she considers it exempt, that decision may be appealed by the requester, in writing, to the Assistant Director, Resources, DCAA.

Note: Normally, IDAs would not issue denials for requests for audit reports. The denial authority for such records generally rests with the cognizant DoD contracting activity. (See § 290.7(b)). The appeal should be accompanied by a copy of the letter denying the initial request. Such appeals should contain the basis for disagreement with the initial refusal. Appeal procedures also apply to the disapproval of a request for waiver or reduction of fees. A “no record” finding may be appealed which allows the requester to challenge the adequacy of the Agency’s search. Records which are denied should be retained during the time permitted for appeal.

(ii) IDAs shall advise the requester that an appeal should be filed so that it reaches the designated appellate authority no later than 60 calendar days after the date of the initial denial letter. At the conclusion of this period, except for good cause shown as to why the appeal was not timely, the case may be considered closed; however, such closure does not preclude the requester from filing litigation for denial of his appeal. If the requester has been provided a series of determinations for a single request, the time for appeal will begin on the date of the last determination of the series. Records which are denied shall be retained for a period of six years to meet the statute of limitations of claims requirement.

(iii) Final determinations normally shall be made within 20 working days of receipt of an appropriately submitted appeal.

(9) Delay in responding to an appeal. (i) When additional time is required to respond to the appeal, the final determination may be delayed for the number of working days (not to exceed 10 days) that were not utilized as additional time for responding to the initial request. Requesters shall be advised that, if the delay exceeds the statutory extension provision or is for reasons other than the unusual circumstances previously described, they may consider their administrative remedies exhausted. They may, however, without prejudicing their right of judicial remedy, await a substantive response. DCAA shall continue to process the case expeditiously, whether or not the requester seeks a court order for release of the records, but a copy of any response provided subsequent to filing a complaint shall be forwarded to
§ 290.8 Fees.

(a) Fees shall be determined in accordance with the DoD fee schedule, which is detailed in DCAAP 5410.14. Fees reflect direct costs for search, review (in the case of commercial requesters), and duplication of documents, collection of which is permitted by the FOIA. Fees are subject to limitations on the nature of assessable fees based on the category of the requester; statutory and automatic waivers based on the category determination and cost of routine collection; and either the waiver or reduction of fees when disclosure serves the public interest.

(b) Fees will not be charged when direct costs for a FOIA request are $15.00 or less, the automatic fee waiver threshold, regardless of category.

(c) Fee assessment. In order to be as responsive as possible to FOIA requests, DCAA organizational elements should adhere to the following when assessing fees:

1. Evaluate each request to determine the requester category and adequacy of the fee declaration. An adequate fee declaration requires a willingness by the requester to pay fees in an amount equal to, or greater than, the assessable charges for the request.

2. Provide requesters an opportunity to amend inadequate fee declarations and provide estimates of prospective charges when required. When a requester fails to provide an adequate fee declaration within 30 days after notification of a deficiency, the request for information will be considered withdrawn.

3. A requester’s claims for assessment of fees under a specific category will be carefully considered. The IDA may require a requester to substantiate a claim for assessment under a claimed category. In the absence of requester claims, the IDA will determine the category into which a requester falls, basing its determination on all available information.

4. When a DCAA organizational element disagrees with a requester claim for fee assessment under a specific category, the IDA will provide the requester with written determination indicating the following:

   (i) The requester should furnish additional justification to warrant the category claimed.

   (ii) A search for responsive records will not be initiated until agreement has been attained relative to the category of the requester.

   (iii) If further category information has not been received within a reasonable period of time, the component will render a final category determination; and

   (iv) The determination may be appealed to the Assistant Director, Resources, within 60 calendar days of the date of the determination.

(d) When a DCAA organizational element estimates or determines that allowable charges that a requester may be required to pay are likely to exceed $250.00, they shall notify the requester.
of the likely cost and obtain satisfactory assurance of full payment. This fee declaration generally applies when the requester has a history of prompt payments, however, an advance payment may be required of an amount up to the full estimated charges in the case of requesters with no history of payment.

(e) Where a requester has previously failed to pay a fee charged within 30 calendar days from the date of billing, DCAA organizational elements may require the requester to pay the full amount due, plus any applicable interest or demonstrate satisfaction of the debt, and to make an advance payment of the full amount of estimated fees, before processing begins on a new or pending request.

(f) After all work is completed on a request, and the documents are ready for release, DCAA organizational elements may request payment before forwarding the documents if there is no payment history on the requester, or if the requester has previously failed to pay a fee in a timely fashion (i.e., within 30 calendar days from the date of billing). Documents may not be held for release pending payment from requesters with a history of prompt payment.

(g) The administrative time limits for responding to a request will begin only after the DCAA organizational element has received an adequate declaration from the requester stating a willingness to pay fees, and satisfaction that all outstanding debts have been paid.

(h) DCAA organizational elements can bill requesters for services provided in responding to a request. Payment of fees may be made by personal check, bank draft drawn on a U.S. bank, or by U.S. Postal money order. All payments of this type are to be made payable to the U.S. Treasurer.

(i) Aggregating requests. Occasionally, a requester may file multiple requests at the same time, each seeking portions of a document or documents, solely to avoid payments of fees. When a DCAA organizational element reasonably believes that a requester is attempting to do so, the DCAA organizational element may aggregate such requests and charge accordingly. One element to be considered would be the time period in which the requests have occurred. In no case may DCAA organizational elements aggregate multiple requests on unrelated subjects from one requester.

(j) Fee waivers. (1) The determination to waive fees is at the discretion of IDAs designated in this rule. When direct costs for a FOIA request total the automatic fee waiver threshold, or is less, fees shall be waived automatically for all requesters, regardless of category.

(2) Documents will be furnished without charge, or at a charge reduced below fees assessed to the categories of requesters, when the IDA determines that a waiver or reduction of fees is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations of DCAA, and is not primarily in the commercial interest of the requester. DCAA organizational elements should refer to DCAAP 5410.14 for factors to consider in applying fee waivers due to public interest. Each fee decision must be considered on a case-by-case basis and upon the merits of the information provided in each request. When the question of whether to charge or waive the fee cannot be clearly resolved, DCAA organizational elements should rule in favor of the requester.

APPENDIX A TO PART 290—DCAA’S ORGANIZATION AND MISSION

(a) Purpose. This section implements 5 U.S.C. 552 by describing the central and field organizations of DCAA.

(b) Origin and Authority. DCAA was established by the Secretary of Defense under Department of Defense (DoD) Directive 5105.361 (32 CFR part 357) and began operating on July 1, 1965. Its Director reports to the Comptroller of the Department of Defense.

(c) Objective. Assist in achieving the objective of prudent contracting by providing DoD officials responsible for procurement and contract administration with financial information and advice on proposed or existing contracts and contractors, as appropriate.

(d) Mission. (1) DCAA performs all necessary contract audits for the Department of
Defense, and provides accounting and financial advisory service regarding contracts to all DoD components responsible for procurement and contract administration. These services are provided in connection with negotiation, administration, and settlement of contracts and subcontracts. It also furnishes advisory contract audit service to a number of other government agencies under agreements between the Department of Defense and such agencies.

(2) DCAA audits contractors’ and subcontractors’ accounts, records, documents, and other evidence; systems of internal control, accounting, costing, estimating, and general business practices and procedures to give advice and recommendations to procurement and contract administration personnel on: acceptability of costs incurred under cost, redetermination, incentive, and similar type contracts; acceptability of estimates of costs to be incurred as represented by contractors incident to the award, negotiation, and modification of contracts; and adequacy of contractors’ accounting and financial management systems and estimating procedures. DCAA also performs post-award audits of contracts for compliance with the provisions of Public Law 87–683 (Truth in Negotiations), and reviews contractor compliance with the Cost Accounting Standards.

(3) DCAA assists responsible procurement or contract administration activities in their surveys of the purchasing-procurement systems of major contractors; and cooperates with other DoD components on reviews, audits, analyses, or inquiries involving contractors’ financial positions or financial and accounting policies, procedures, or practices. DCAA also maintains liaison auditors at major procuring and contract administration offices and provides assistance in the development of procurement policies and regulations.

(e) Composition. (1) DCAA consists of five major organizational elements: A Headquarters and five regions. The five regional offices manage over 400 field audit offices (FAOs) and suboffices located throughout the United States and overseas. An FAO is identified as either a branch office or a resident office. Suboffices are established by regional directors as extensions of FAOs when required to furnish contract audit service more economically. A suboffice is dependent on its parent FAO for release of audit reports and other administrative support.

(2) The Headquarters located at Fort Belvoir, Virginia consists of:

(i) The Director who exercises worldwide direction and control of DCAA.

(ii) The Deputy Director who serves as principal assistant to the Director and acts for the Director in his absence.

(iii) The Assistant Director, Operations, authorized to act for the Director and Deputy Director in their absence, is responsible

for staff functions related to audit management, and technical audit programs, supervises the Defense Contract Audit Institute and the Technical Services Center in Memphis, Tennessee and the procurement/contract administration liaison offices.

(iv) The Assistant Director, Policy and Plans, is responsible for audit policy and procedures and related liaison functions.

(v) The Assistant Director, Resources, is responsible for the programs and procedures related to the management and administration of resources required to support the audit mission.

(vi) The General Counsel provides legal and legislative advice to the Director and all members of the Agency staff.

(vii) The Executive Officer performs a variety of special projects and assignments for the Director and Deputy Director.

(viii) The Special Assistant for Quality reviews the Agency’s compliance with established audit quality control standards, policies, and procedures and other internal control requirements.

(3) Regional offices are located in Smyrna, GA; Lowell, MA; Irving, TX; La Mirada, CA; and Philadelphia, PA. Regional directors direct and administer the DCAA audit mission, and manage personnel and other resources assigned to the regions; manage the contract audit program; and direct the operation of FAOs within their region. Principal elements of regional offices are the Regional Director, Deputy Regional Director, Regional Audit Managers, Regional Special Programs Manager, and Regional Resources Manager.

(4) A resident office is established at a contractor’s location when the amount of audit workload justifies the assignment of a permanent staff of auditors and support staff. A resident office may also perform procurement or contract administration liaison functions.

(5) A branch office is established at a strategically situated location within the region, responsible for performing all contract audit service within the assigned geographical area, exclusive of contract audit service performed by a resident or liaison office within the area. A branch office may also perform procurement or contract administration liaison functions.

(6) If requested, a DCAA liaison office is established at a DoD procurement or contract administration office when required on a full-time basis to provide effective communication and coordination among procurement, contract administration, and contract audit elements. Liaison offices assist in effective utilization of contract audit services.

(b) [Reserved]

APPENDIX C TO PART 290—FOR OFFICIAL USE ONLY

(a) General. Information that has not been given a security classification pursuant to the criteria of an Executive Order, but which may be withheld from the public for one or more of the reasons cited in FOIA Exemptions 2 through 9 shall be considered as being for official use only. No other material shall be considered or marked “For Official Use Only” (FOUO). FOUO is not authorized as an anemic form of classification to protect national security interests.

(b) Prior FOUO Application. The prior application of FOUO markings is not a conclusive basis for withholding a record that is requested under the FOIA. When such a record is requested, the information in it shall be evaluated to determine whether, under current circumstances, FOIA exemptions apply in withholding the record or portions of it. If any exemption or exemptions apply or apply, it may nonetheless be released when it is determined that no governmental interest will be jeopardized by its release. (1) Historical Papers. Records such as notes, working papers, and drafts retained as historical evidence of Agency actions enjoy no special status apart from the exemptions under the FOIA.

(2) Time to Mark Records. The marking of records at the time of their creation provides notice of FOUO content and facilitates review when a record is requested under the FOIA. Records requested under the FOIA that do not bear such markings, shall not be assumed to be releasable without examination for the presence of information that requires continued protection and qualifies as exempt from public release.

(d) Dissemination and Transmission. (1) Release and Transmission Procedures. Until FOUO status is terminated, the release and transmission instructions that follow apply:

(i) FOUO information may be disseminated within the Agency and between officials of DoD Components and DoD contractors, consultants, and grantees to conduct official business for the Department of Defense. Recipients shall be made aware of the status of such information, and transmission shall be by means that preclude unauthorized public disclosure. Transmittal documents shall call attention to the presence of FOUO attachments.

(ii) Agency and DoD holders of FOUO information are authorized to convey such information to officials in other departments and agencies of the executive and judicial branches to fulfill a government function, except to the extent prohibited by the Privacy Act. Records thus transmitted shall be marked “For Official Use Only”, and the recipient shall be advised that the information has been exempted from public disclosure, pursuant to the FOIA, and that special handling instructions do or do not apply.

This document contains information EXEMPT FROM MANDATORY DISCLOSURE

Under the FOIA, Exemptions . . . . . apply.

(2) Instructions for marking DCAA audit reports are contained in Chapter 10 of the Contract Audit Manual (CAM).

(3) DCAA Label 4, FOUO Cover Sheet. This form may be used to further identify FOUO information.

(c) Markings. (1) Location of Markings. (i) An unclassified document containing FOUO information shall be marked “For Official Use Only” at the bottom on the outside of the front cover (if any), on each page containing FOUO information, and on the outside of the back cover (if any).

(ii) Within a classified document, an individual page that contains both FOUO and classified information shall be marked at the top and bottom with the highest security classification of information appearing on the page.

(iii) Within a classified document, an individual page that contains FOUO information but no classified information shall be marked “For Official Use Only” at the bottom of the page.

(iv) Other records, such as, photographs, films, tapes, or slides, shall be marked “For Official Use only” or “FOUO” in a manner that ensures that a recipient or viewer is aware of the status of the information therein.

(v) FOUO material transmitted outside the Department of Defense requires application of an expanded marking to explain the significance of the FOUO marking. This may be accomplished by typing or stamping the following statement on the record prior to transfer:

1Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

2Copies may be obtained from the Defense Contract Audit Agency, Attn: CMO, 8725 John J. Kingman Road, Suite 2135, Fort Belvoir, VA 22060-6219.
(iii) Release of FOUO information to Members of Congress is governed by DoD Directive 5400.4. Release to the GAO is governed by DoD Directive 7650.1. Records released to the Congress or GAO should be reviewed to determine whether the information warrants FOUO status. If not, prior FOUO markings shall be removed or effaced. If withholding criteria are met, the records shall be marked FOUO and the recipient provided an explanation for such exemption and marking. Alternatively, the recipient may be requested, without marking the record, to protect against its public disclosure for reasons that are explained.

(iv) Records or documents containing FOUO information will be transported between offices in such a manner as to preclude disclosure of the contents. First-class mail and ordinary parcel post may be used for transmission of FOUO information. The double envelope system required for classified material may be used when it is considered desirable to exclude examination by mail handling personnel. In such cases, the inner envelope should be addressed to the intended recipient by title or name and contain a statement that the envelope is to be opened by the addressee only.

(v) FOUO material prepared on personal computers or other data processing equipment should be password protected at origination.

(vi) Requests for Field Detachment sensitive information must be coordinated with the Director, Field Detachment, through Headquarters, DCAA.

(2) Transporting FOUO Information. Records containing FOUO information shall be transported in a manner that precludes disclosure of the contents. When not mingled with classified information, FOUO information may be sent via first-class mail or parcel post. Bulky shipments, such as distributions of FOUO Directives or testing materials, that otherwise qualify under postal regulations may be sent by fourth-class mail.

(3) Unauthorized Disclosure. The unauthorized disclosure or status when circumstances indicate that the information no longer requires protection from public disclosure. When FOUO status is terminated, all known holders shall be notified, to the extent practical. Upon notification, holders shall efface or remove the “For Official Use Only” markings, but records in file or storage need not be retrieved solely for that purpose.

(1) Termination, Disposal and Unauthorized Disclosures. (1) Termination. The originator or other competent authority, e.g., initial denial and appellate authorities, shall terminate “For Official Use Only” markings or status when circumstances indicate that the information no longer requires protection from public disclosure. When FOUO status is terminated, all known holders shall be notified, to the extent practical. Upon notification, holders shall efface or remove the “For Official Use Only” markings, but records in file or storage need not be retrieved solely for that purpose.

(2) Disposal. (i) Nonrecord copies of FOUO materials may be destroyed by tearing each copy into pieces to preclude reconstructing, and placing them in regular trash containers. When local circumstances or experience indicates that this destruction method is not sufficiently protective of FOUO information, local authorities may direct other methods but must give due consideration to the additional expense balanced against the degree of sensitivity of the type of FOUO information contained in the records.

(ii) Record copies of FOUO documents shall be disposed of in accordance with the disposal standards established under 44 U.S.C. chapter 33, as implemented by DCAAM 5015.1, “Files Maintenance and Disposition Manual.”

(3) Unauthorized Disclosure. The unauthorized disclosure of FOUO records does not constitute an unauthorized disclosure of DoD information classified for security purposes. Appropriate administrative action shall be taken, however, to fix responsibility for unauthorized disclosure whenever feasible, and appropriate disciplinary action shall be
taken against those responsible. Unauthorized disclosure of FOUO information that is protected by the Privacy Act may also result in civil and criminal sanctions against responsible persons. The DCAA organizational element or DoD component that originated the FOUO information shall be informed of its unauthorized disclosure.

(2) Markings. (i) Communications, which qualify for withholding under Exemptions (2) through (9), initiated by a Field Detachment office, will bear the following marking:

FOR OFFICIAL USE ONLY

Access limited to addressee and his/her designated representative(s) with a need-to-know.

This document may not be reproduced or further disseminated without the approval of the Director, Field Detachment, DCAA.

(ii) All correspondence specifically exempt under Exemptions (2) through (9), including assist audit requests, generated by a regular (non-FD) DCAA office, which is addressed to the Field Detachment, either Headquarters or a field audit office, will be marked FOR OFFICIAL USE ONLY and will be limited within the FAO to one protected office copy.

(3) Storage. (i) All Field Detachment sensitive information in the possession of a regular DCAA office will be stored in a classified container, if available. If a classified container is not available, the sensitive information shall be stored in a locked container controlled by the FAO manager.

(ii) Permanent files currently maintained by regular DCAA offices, which are available to all FAO personnel, should not contain any detailed information on Field Detachment audit interest. That information shall be protected as sensitive information and stored in accordance with paragraph (g)(3)(i) of this appendix.

(4) Dissemination. (i) Access to Field Detachment sensitive information by other DCAA audit and administrative personnel within the office shall be on a strict need-to-know basis as determined by the FAO manager.

(ii) Requests by non-DCAA personnel for access to Field Detachment sensitive information must be coordinated with the Director, Field Detachment, through Headquarters, DCAA.

APPENDIX D TO PART 290—AUDIT WORKING PAPERS

(a) Definition

(1) Audit working papers contain information from accounting and statistical records, personal observations, the results of interviews and inquiries, and other available sources. Audit working papers may also include contract briefs, copies of correspondence, excerpts from corporate minutes, organization charts, copies of written policies and procedures, and other substantiating documentation. The extent and arrangement of working paper files will depend to a large measure on the nature of the audit assignment.

(2) Working papers are generally classified in two categories: the permanent file and the current file.

(i) Permanent file.

(A) The permanent file on each contractor is a central repository of information gathered during the course of an audit which has continuing value and use to subsequent audits expected to be performed at the same contractor. Permanent files are useful in preparing the audit program and in determining the appropriate scope of subsequent audits. They also provide ready means for auditors to become familiar with the contractor’s operations and any existing audit problems or contractor system weaknesses. While summary information on the contractor’s organization, financial structure and policies may sometimes be included in permanent files for smaller contractors, such information on large contractors with continuing audit activity is generally maintained in the field audit office at the central reference library.

(B) Items which would logically be included in the permanent file as having continuing value and use in future audit assignments include:

(1) Internal control questionnaire.
(2) Internal control review update control log.
(3) Vulnerability assessment.
(4) MAARs control log.
(5) Disclosure statement and revisions in accordance with CAS rules and regulations, and
(6) CAS compliance control schedules and a noncompliance summary schedule.

(ii) Current File. The current file usually consists of working papers which have limited use on future assignments. DCAA Forms 7690–19 a, b, and c are the Agencywide Working Paper Indexes and provide a concise summary of items generally found in audit working papers.

(b) Explanation.

(1) The preparation of working papers assists the auditor in accomplishing the objectives of an audit assignment. Working papers serve as the basis for the conclusions in the
(2) Audit working papers are generally prepared at the time audit work is performed and are maintained on a current basis. Working papers normally reflect the progress of the audit and are designed to ensure continuity of the audit effort.

(3) Working papers should be relevant to the audit assignment and not include extraneous pages. Superseded working papers should be clearly marked as such and retained as part of the working paper package.

(4) The nature of audit working papers requires that proper control and adequate safeguards be maintained at all times. Working papers frequently reflect information considered confidential by the contractor and are marked ‘For Official Use Only’ or are classified for government security purposes.

PART 291—DEFENSE NUCLEAR AGENCY (DNA) FREEDOM OF INFORMATION ACT PROGRAM

§291.1 Purpose.
This part establishes policies and procedures for the DNA FOIA program.

§291.2 Applicability.
This part applies to Headquarters, Defense Nuclear Agency (HQ, DNA), Field Command, Defense Nuclear Agency (FCDNA), and the Armed Forces Radiobiology Research Institute (AFRRI).

§291.3 Definitions.
(a) FOIA Request. A written request for DNA records made by any person, including a member of the public (U.S. or foreign citizen), an organization, or a business, but not including a Federal agency or a fugitive from the law that either explicitly or implicitly invokes the FOIA (5 U.S.C. 552), 32 CFR part 285, 286, or this part.

(b) Agency record. (1) The products of data compilation, such as all books, papers, maps, and photographs, machine readable materials or other documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal law in connection with the transaction of public business and in DNA’s possession and control at the time the FOIA request is made.

(2) The following are not included within the definition of the word record:

(i) Objects or articles, such as structures, furniture, vehicles and equipment, whatever their historical value, or value as evidence.

(ii) Administrative tools by which records are created, stored, and retrieved, if not created or used as sources of information about organizations, policies, functions, decisions, or procedures of a DNA organization. Normally, computer software, including source code, object code, and listings of source and object codes, regardless of medium are not agency records. (This does not include the underlying data which is processed and produced by such software and which may in some instances be stored with the software.) Exceptions to this position are outlined in paragraph (b)(3) of this section.

(iii) Anything that is not a tangible or documentary record, such as an individual’s memory or oral communication.

(iv) Personal records of an individual not subject to agency creation or retention requirements, created and maintained primarily for the convenience of an agency employee, and not distributed to other agency employees for their official use.

(v) Information stored within a computer for which there is no existing computer program for retrieval of the requested information.

(3) In some instances, computer software may have to be treated as an

750
agency record and processed under the FOIA. These situations are rare, and shall be treated on a case-by-case basis. Examples of when computer software may have to be treated as an agency record are:

(i) When the data is embedded within the software and cannot be extracted without the software. In this situation, both the data and the software must be reviewed for release or denial under the FOIA.

(ii) Where the software itself reveals information about organizations, policies, functions, decisions, or procedures of a DNA office, such as computer models used to forecast budget outlays, calculate retirement system costs, or optimization models on travel costs.

(iii) Refer to § 291.8(b) exemptions 2, 4 and 5 for guidance on release determinations of computer software.

(4) If unaltered publications and processed documents, such as regulations, manuals, maps, charts, and related geophysical materials are available to the public through an established distribution system with or without charge, the provisions of 5 U.S.C. 552(a)(3) normally do not apply and they need not be processed under the FOIA. Normally, documents disclosed to the public by publication in the Federal Register also require no processing under the FOIA. In such cases, PAO will direct the requester to the appropriate source, to obtain the record.

(d) **Initial denial authority (IDA).** The Deputy Director (DDIR), DNA, has the authority to withhold records requested under the FOIA for one or more of the nine categories (set forth § 291.8) of records exempt from mandatory disclosure.

(e) **Appellate authority.** The Director, DNA.

(f) **Administrative appeal.** A request by a member of the general public, made under the FOIA, asking the appellate authority of a DoD Component (Director, DNA) to reverse an IDA decision to withhold all or part of a requested record or to deny a request for a waiver or reduction of fees.

(g) **Public interest.** Public interest is official information that sheds light on an agency’s performance of its statutory duties because it falls within the statutory purpose of the FOIA in informing citizens about what their government is doing. That statutory purpose, however, is not fostered by disclosure of information about private citizens that is accumulated in various governmental files that reveals little or nothing about an agency’s or official’s own conduct.

(h) **Electronic data.** Electronic data are those records and information which are created, stored, and retrievable by electronic means. This does not include computer software, which is the tool by which to create, store, or retrieve electronic data. Refer to paragraphs (b)(2) and (3) of this section for a discussion of computer software.

§ 291.4 Policy.

(a) **Compliance with the FOIA.** DNA personnel are expected to comply with the FOIA and this part in both letter and spirit. This strict adherence is necessary to provide uniformity in the implementation of the DNA FOIA Program and to create conditions that will promote public trust. It is DNA policy to fully and completely respond to public requests for information concerning its operations and activities, consistent with national security objectives.

(b) **Openness with the public.** 32 CFR part 286 states that all DoD employees shall conduct DoD activities in an open manner consistent with the need for security and adherence to other requirements of law and regulation. Records that are not specifically exempt from disclosure under the Act shall, upon request, be made readily accessible to the public in accordance with rules promulgated by competent authority, whether or not the Act is invoked.

(c) **Avoidance of procedural obstacles.** DNA offices shall ensure that procedural matters do not unnecessarily impede a requester from obtaining DNA records promptly. PAO shall provide assistance to requesters to help them understand and comply with procedures established by this Instruction, the 32 CFR part 286 and any supplemental regulations published by DoD.

(d) **Prompt action on requests.** When a member of the public complies with
§ 291.4 Use of exemptions. It is DoD/DNA policy to make records publicly available, unless they qualify for exemption under one or more of the nine exemptions. Components may elect to make a discretionary release; however, a discretionary release is generally not appropriate for records exempt under exemptions 1, 3, 4, 6, and 7(C). Exemptions 4, 6, and 7(C) cannot be claimed when the requester is the submitter of the information.

(f) Public domain. Nonexempt records released under the authority of this part are considered to be in the public domain. Such records may also be made available through the reading room channel to facilitate public access. Exempt records released pursuant to this part or other statutory or regulatory authority, however, may be considered to be in the public domain when their release constitutes a waiver of the FOIA exemption. When the release does not constitute such a waiver, such as when disclosure is made to a properly constituted advisory committee or to a Congressional committee, the released records do not lose their exempt status. Also, while authority may exist to disclose records to individuals in their official capacity, the provisions of this part apply if the same individual seeks the records in a private or personal capacity.

(g) Creating a record. (1) A record must exist and be in the possession of and in control of the DNA at the time of the search to be considered subject to this part and the FOIA. Mere possession of a record does not presume agency control, and such records, or identifiable portions thereof, would be referred to the originating agency for direct response to the requester. There is no obligation to create or compile a record to satisfy a FOIA request. However, a DNA employee may compile a new record when so doing would result in a more useful response to the requester, or be less burdensome to the agency than providing existing records, and the requester does not object. The cost of creating or compiling such a record may not be charged to the requester unless the fee for creating the record is equal to or less than the fee which would be charged for providing the existing record.

(2) With respect to electronic data, the issue of whether records are actually created or merely extracted from an existing database is not always readily apparent. Consequently, when responding to FOIA requests for electronic data where creation of a record, programming, or particular format are questionable, offices should apply a standard of reasonableness. In other words, if the capability exists to respond to the request, and the effort would be a business as usual approach, then the request should be processed. However, the request need not be processed where the capability to respond does not exist without a significant expenditure of resources, thus not being a normal business as usual approach.

(h) Description of requested record. (1) Identification of the record desired is the responsibility of the member of the public who requests a record. The requester must provide a description of the desired record that will enable the Government to locate the record with a reasonable amount of effort. The Act does not authorize “fishing expeditions.” When DNA receives a request that does not “reasonably describe” the requested record, PAO shall notify the requester of the defect. The defect should be highlighted in a specificity letter, asking the requester to provide the type of information outlined in paragraph (h)(2) of this section. DNA is not obligated to act on the request until the requester responds to the specificity letter. When practical, PAO shall offer assistance to the requester.
in identifying the records sought and in reformulating the request to reduce the burden on the Agency in complying with the Act.

(2) The following guidelines are provided to deal with “fishing expedition” requests and are based on the principle of reasonable effort. Descriptive information about a record may be divided into two broad categories.

(i) Category I is file-related and includes information such as type of record (for example, memorandum), title, index citation, subject area, date the record was created, and originator.

(ii) Category II is event-related and includes the circumstances that resulted in the record being created or the date and circumstances surrounding the event the record covers.

(3) Generally, a record is not reasonably described unless the description contains sufficient Category I information to permit the conduct of an organized, nonrandom search based on DNA’s filing arrangements and existing retrieval systems, or unless the record contains sufficient Category II information to permit inference of the Category I elements needed to conduct such a search.

(4) The following guidelines deal with requests for personal records. Ordinarily, when personal identifiers are provided only in connection with a request for records concerning the requestor, only records retrievable by personal identifiers need be searched. Search for such records may be conducted under Privacy Act procedures. No record may be denied that is releaseable under the FOIA.

(5) The above guidelines notwithstanding, the decision of an office concerning reasonableness of description must be based on knowledge of its files. If the description enables office personnel to locate the record with reasonable effort, the description is adequate.

(1) Reasons for not releasing a record.

(1) The request is transferred to another DoD component, or to another Federal agency.

(2) The request is withdrawn by the requestor.

(3) The information requested is not a record within the meaning of the FOIA and 32 CFR part 286.

(4) A record has not been described with sufficient particularity to enable DNA to locate it by conducting a reasonable search.

(5) The requester has failed reasonably to comply with procedural requirements, including payment of fees, imposed by 32 CFR part 286 or this part.

(6) The DNA determines, through knowledge of its files and reasonable search efforts, that it neither controls nor otherwise possesses the requested record.

(7) The record is subject to one or more of the nine exemptions set forth in §291.8, and a significant and legitimate government purpose is served by withholding.

§291.5 Responsibilities.

(a) The Director, DNA, as appellate authority, is responsible for reviewing and making the final decision on FOIA appeals.

(b) The DDIR, as IDA, is responsible for reviewing all initial denials to FOIA requests and has sole responsibility for withholding that information.

(c) The DNA FOIA Officer, who is also the Public Affairs Officer, manages and implements the DNA FOIA program. In this regard, the Public Affairs Officer serves as the FOIA point-of-contact and liaison between DNA and the Office of the Assistant Secretary of Defense (Public Affairs) (OASD(PA)), Directorate for Freedom of Information and Security Review (DFOI/SR). The Public Affairs Officer is responsible for:

(1) Advising OASD(PA), DFOI/SR, of any DNA denial of a request for records or appeals that may affect another DoD component.

(2) Ensuring publication of this part in the FEDERAL REGISTER.

(3) Ensuring that the Command Services Directorate publishes in the Federal Register a notice of where, how and by what authority DNA performs its functions.

(4) Ensuring that the Command Services Directorate furnishes an index of DNA instructions in the FEDERAL REGISTER.

(5) Coordinating all FOIA actions, except routine, interim replies indicating
§291.5 32 CFR Ch. 1 (7–1–02 Edition)

initial receipt of a FOIA request through the appropriate DNA offices and the DNA General Counsel (GC).

(6) Forwarding all fees collected under the FOIA to the HQ, DNA, Finance and Accounting Officer for further processing.

(7) Coordinating action on FOIA requests that involve other government organizations (e.g., when DNA is not the original classifier for a classified document) with those organizations.

(8) Ensuring FOIA briefings are presented annually for DNA personnel.

(9) Submitting an annual report to OASD(PA), DFOI/SR, in accordance with the requirements of DoD Directive 5400.11.1

(d) The Commander, FCDNA, is responsible for determining, based on current directives and instruction, what information in FCDNA custody may be released to FOIA requesters. (This responsibility may be delegated.) The Commander, FCDNA, is responsible for designating a representative to process FOIA requests. The Commander has the authority to release documents in response to the FOIA. When FCDNA releases information under the FOIA, it will forward a copy of the request, the response and the appropriate cost sheet to HQ, DNA, ATTN: PAO (FOIA). FCDNA will not deny requests for information under the FOIA; instead, it will forward to HQ, DNA, PAO a recommendation and justification for denying the FOIA request.

(e) The Director, AFRRI, is responsible for designating a representative to process FOIA requests and to forward them to HQ, DNA, PAO for coordination and preparation of a final response.

(f) The DNA GC shall coordinate on all DNA FOIA response except routine interim letters which acknowledge receipt of the FOIA request. That office shall also ensure uniformity in the legal position and interpretation by DNA of the FOIA, and coordinate with the DoD GC, as necessary.

(g) The HQ, DNA, Finance and Accounting Officer will ensure that fees collected under the FOIA are forwarded to the Finance and Accounting Office, U.S. Army, to be submitted to the Treasury of the United States.

(h) HQ, DNA, Assistant Director for Intelligence and Security, Classification Management Division (ISCM), will conduct security reviews of classified documents requested under the FOIA. ISCM will determine whether the document:

(1) Contains information that meets requirements for withholding under Exemption 1 Executive Order 12356.

(2) Has information that meets requirements for withholding under Exemption 3, to include Restricted Data and Formerly Restricted Data, 42 U.S.C. 2162.

(i) HQ, DNA, CSLE will, upon request, ensure that photocopies are made of 50-page or larger documents being processed under the FOIA. (Copies are required only when documents are not available from other sources.)

(j) CSTI, Technical Library Division (TITL), will, upon notification from PAO that a document has been cleared for public release under the FOIA, retain the marked up document in its files, annotate the FOIA case number in the computerized data base and ensure that the document is made available to the public through the National Technical Information Service (NTIS).

(k) Commander, FCDNA; Director, AFRRI; and directors and chiefs of staff elements at HQ, DNA, will ensure that personnel are familiar with the procedures and contents of this part prior to acting on FOIA requests. They will also make sure that FOIA actions forwarded to their offices for processing are closely monitored to ensure accountability and that their input to PAO is provided in a timely manner and in accordance with this part. (Refer to §291.7(b)(2)). If the office(s)
cannot meet the FOIA suspense, they must request an extension. In addition, they will ensure that, upon request by PAO, appropriate technical personnel sanitize information such as unclassified technical data, that is determined to be exempt from disclosure under the FOIA. (Refer to §291.7(b)(5)).

§ 291.6 Procedures.

(a) If HQ, DNA personnel receive a FOIA request that has not been logged and processed through PAO, they will immediately handcarry the request to PAO. TDNM and AFRRI personnel will forward all FOIA requests to HQ, DNA, Attn: PAO. FCDNA will adhere to paragraph 6d and FCDNA Supplement to DNA Instruction 5400.7C.  

(b) When a FOIA request is received by PAO, HQ, DNA, the following procedures apply:

(1) The request will be date stamped, reviewed to determine if it meets the requirements of 5 U.S.C. 552, logged in, assigned an action number, suspended, and attached to a FOIA cover sheet with instructions for forwarding to the appropriate office. A copy of DD Form 2086 or DD Form 2086–1 will also be attached to the FOIA request.

(2) A copy of the request will be handcarried by PAO to the designated HQ, DNA, action office(s) or forwarded to AFRRI or FCDNA, as appropriate. The office or component providing input for the FOIA request must keep track of the request and meet the PAO suspense. The HQ, DNA input, or negative response, if there are no records available, will be handcarried to PAO. AFRRI will send the recommended response in daily distribution. FCDNA will telefax the proposed response in addition to mailing the original. All FOIA actions must include a completed DD Form 2086 or 2086–1. Each office acting on FOIA requests will indicate on the form the search, review/excise and coordination time spent processing the FOIA action, and provide the number of pages copied.

(3) The DNA PAO will prepare the response to the requester and coordinate it with the offices that provided input, the GC, and if appropriate, ISCM, the IDA, the Director, DNA, OASD(PA), and outside agencies, if involved. The PAO will maintain files of all FOIA actions per DNA Instruction 5015.4B.

(4) If a request is received by a DNA office which does not have records responsive but office personnel believe another office would have the records requested, they must contact the other office to confirm the existence of the documents, forward the FOIA action to that office and notify PAO.

(5) FOIAs involving classified information. When ISCM or contractor security reviewers receive a classified document from PAO for processing under the FOIA, they will conduct a security review to determine if the document may be sanitized or declassified. Most DNA documents requested under the FOIA are queued on a first-come, first-served basis and shall be reviewed in that order. When security reviewers determine that part or all of the information in a classified document may be sanitized or declassified, they will ensure that the appropriate copies are ordered from the Defense Technical Information Center (DTIC). The DTIC copy will be marked up during review. Cases not placed in queue will be suspended by PAO. They may include documents with less than 10 pages or documents under suspense from other organizations which require a DNA review. All DNA documents reviewed will be marked with a special pen that does not permit photocopying of the classified portions. Security review must include a detailed response providing the appropriate exemption(s) and justification for withholding.

When the Field Command Security Division (FCSS) receives a classified document for processing under the FOIA, they will conduct a security review to determine if the document may be sanitized or declassified. When FCSS determines that part or all of the information in a classified document may be sanitized or declassified, FCSS will make a copy which will be marked up during review. Upon completion of its review, FCSS will provide the marked up document and a sanitized version of the document to PAO. FCSS review
must include a detailed response providing the appropriate exemption(s) and justification for withholding. When ISCM/FCSS completes its review, ISCM/FCSS will forward the master copy to the appropriate technical office(s) for review. That office will determine whether the remaining unclassified information is releasable and provide its response to ISCM/FCSS. If the office recommends that part or all of the information be withheld, then it must forward a detailed response providing the appropriate exemption(s) and justification for withholding. The technical office will return documents with results of their review to ISCM. ISCM will forward the results of both reviews to PAO for further processing. If either ISCM/FCSS or the DNA office reviewing the action recommends additional review by another agency, they will provide the full name and address of that agency with a technical point-of-contact, if known. PAO will forward the action to that organization for further review. When PAO receives that organization’s review determination, it will forward the results to ISCM/FCSS. After all reviews are completed, ISCM/FCSS will sanitize the document and handcarry (FCSS will forward) the sanitized as well as the marked up copy to PAO for final processing.

(6) FOIAs involving unclassified information. The appropriate technical office(s) will review unclassified documents for release under the FOIA. If the office(s) determines that part or all of the document should be withheld, it must provide PAO a written recommendation with the appropriate exemption(s) (§291.8) and detailed reasons for withholding the information. Upon PAO request, the technical office(s) will sanitize the unclassified information that is being withheld. Sanitization will be done on a photocopy of the document or on a document that has been obtained from DTIC.

§291.7 Administrative instruction.

(a) FOIA requesters shall clearly mark their requests as such, both on the envelope and in the body of the letter. Identification of the record desired is the responsibility of the FOIA requester. The requester must provide a description of the desired record that enables DNA to locate it with a reasonable amount of effort. The Act does not authorize “fishing expeditions.” FOIA requests should be sent to the following address: Public Affairs Officer, Defense Nuclear Agency, Attention: FOIA, 6801 Telegraph Road, Alexandria, VA 22310–3398. Requester failure to comply with this section shall not be sole grounds of denial for requested information.

(b) FOIA appeals must be clearly marked as such, both on the envelope and in the body of the letter. Persons appealing DNA denial letters should include a copy of the denial letter, the case number, a statement of the relief sought and the grounds upon which it is brought. Appeals should be sent to the following address: Director, Defense Nuclear Agency, 6801 Telegraph Road, Alexandria, VA 22310–3398.

(c) The time limitations for responding to legitimate FOIA requests are:

1. Determinations to release, deny or transfer a record shall be made and the decision reported to the requester within 10 working days after the request is received in PAO.

2. If additional time is needed to respond to a request, the requester will be notified within the 10-day period. When PAO has a significant number of requests, e.g., 10 or more, the requests shall be processed in order of receipt. However, this does not preclude PAO from completing action on a request which can be easily answered, regardless of its ranking within the order of receipt. PAO may expedite action on a request regardless of its ranking within the order of receipt upon a showing of exceptional need or urgency. Exceptional need or urgency is determined at the discretion of the Public Affairs Officer.

3. If a request for a record is denied and the requester appeals the decision of the IDA, the requester should file the appeal so that it reaches DNA no later than 60 calendar days after the date of the initial denial letter. At the conclusion of this period, the case may be considered closed; however, such closure does not preclude the requester from filing litigation. In cases where the requester is provided several incremental determinations for a single request, the time for the appeal shall not
begin until the requester receives the last such notification. A final determination on the appeal normally shall be made within 20 working days after receipt. If additional time is needed due to unusual circumstances, the final decision may be delayed for the number of working days (not to exceed 10), that were not utilized as additional time for responding to the initial request. If an appeal is denied, the Director, DNA, will notify the requester of the right to judicial review of the decision. Appeal procedures also apply to the disapproval of a request for waiver or reduction of fees.

(d) If DNA denies the requested document in whole or in part, the response must include detailed rationale for withholding information and the specific exemption that applies so the requester can make a decision concerning appeal. When the initial denial is based in whole or in part on a security classification, the explanation should include a summary of the applicable criteria for classification, as well as an explanation, to the extent reasonably feasible, of how those criteria apply to the particular record in question. Denial letters must also include the name and title of the IDA, and cite the name and address of the Director, DNA, as the appellate authority.

(e) All final responses will address the status of fees collectible under the FOIA. Fees of $15 or less will be waived, regardless of category of requester.

§ 291.8 Exemptions.

(a) General. Records that meet the exemption criteria listed in paragraph (b) below may be withheld from public disclosure and will not be published in the Federal Register, made available in a library, reading room, or provided in response to a FOIA request.

(b) FOIA exemptions. The following types of records may be withheld in whole or in part from public disclosure under the FOIA, unless otherwise prescribed by law. A discretionary release (see also §291.4(e)) to one requester may preclude the withholding of the same record under a FOIA exemption if the record is subsequently requested by someone else. In applying exemptions, the identity of the requester and the purpose for which the record is sought are irrelevant with the exception that an exemption may not be invoked where the particular interest to be protected is the requester’s interest.

(1) Number 1. Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by executive order and implemented by regulations, such as DoD 5200.1-R. Although material is not classified at the time of the FOIA request, a classification review may be undertaken to determine whether the information should be classified. The procedures in DoD 5200.1-R, section 2-204f., apply. In addition, this exemption shall be invoked when the following situations are apparent:

(i) The fact of the existence or nonexistence of a record would itself reveal classified information. In this situation, DNA shall neither confirm nor deny the existence or nonexistence of the record being requested. A “refusal to confirm or deny” response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a “no record” response when a record does not exist, and a “refusal to confirm or deny” when a record does exist will itself disclose national security information.

(ii) Information that concerns one or more of the classification categories established by executive order and DoD 5200.1-R shall be classified if its unauthorized disclosure, either by itself or in the context of other information, reasonably could be expected to cause damage to the national security.

See footnote 1 to §291.5(c)(9).
§ 291.8

(2) Number 2. Those related solely to the internal personnel rules and practices of DNA. This exemption has two profiles, high b2 and low b2.

(i) Records qualifying under high b2 are those containing or constituting statutes, rules, regulations, orders, manuals, directives, and instructions, the release of which would allow circumvention of these records, thereby substantially hindering the effective performance of a significant function of the DNA. Examples include:

(A) Those operating rules, guidelines and manuals for DNA investigators, inspectors, auditors, or examiners that must remain privileged in order for the DNA office to fulfill a legal requirement.

(B) Personnel and other administration matters, such as examination questions and answers used in training courses or in the determination of the qualifications of candidates for employment, entrance on duty, advancement, or promotion.

(C) Computer software meeting the standards of paragraph 291.3(b)(2)(iii), the release of which would allow circumvention of a statute or DoD rules, regulations, orders, manuals, directives, or instructions. In this situation, the use of the software must be clearly examined to ensure a circumvention possibility exists.

(ii) Records qualifying under the low b2 profile are those that are trivial and housekeeping in nature for which there is no legitimate public interest or benefit to be gained by release, and it would constitute an administrative burden to process the request in order to disclose the records. Examples include: rules of personnel’s use of parking facilities or regulation of lunch hours, statements of policy as to sick leave, and trivial administrative data such as file numbers, mail routing stamps, initials, data processing notations, brief references to previous communications, and other like administrative markings.

(3) Number 3. Those containing matters that a statute specifically exempts from disclosure by terms that permit no discretion on the issue, or in accordance with criteria established by that statute for withholding or referring to particular types of matters to be withheld. Examples of statutes are:

(ii) Patent Secrecy, 35 U.S.C. 181–188. Any records containing information relating to inventions that are the subject of patent applications on which Patent Secrecy Orders have been issued.

(iii) Restricted Data and Formerly Restricted Data, 42 U.S.C. 2162.

(iv) Communication Intelligence, 18 U.S.C. 798.

(v) Authority to Withhold from Public Disclosure Certain Technical Data, 10 U.S.C. 130 and DoD Directive 5230.25.4

(vi) Confidentiality of Medical Quality Records: Qualified Immunity Participants, 10 U.S.C. 1102.

(vii) Physical Protection of Special Nuclear Material: Limitation on Dissemination of Unclassified Information, 10 U.S.C. 128.

(viii) Protection of Intelligence Sources and Methods, 50 U.S.C. 403(d)(3).

(4) Number 4. Those containing trade secrets or commercial or financial information that DNA receives from a person or organization outside the government with the understanding that the information or record will be retained on a privileged or confidential basis in accordance with the customary handling of such records. Records within the exemption must contain trade secrets, or commercial or financial records, the disclosure of which is likely to cause substantial harm to the competitive position of the source providing the information; impair the Government’s ability to obtain necessary information in the future; or impair some other legitimate government interest. Examples include:

(i) Commercial or financial information received in confidence in connection with loans, bids, contracts, or proposals, as well as other information received in confidence or privileged, such as trade secrets, inventions, discoveries, or other proprietary data. See 32 CFR part 236h, “Release of Acquisition-Related Information.”

4See footnote 1 to §291.5(c)(9).
(i) Statistical data and commercial or financial information concerning contract performance, income, profits, losses and expenditures, if offered and received in confidence from a contractor or potential contractor.

(ii) Personal statements given in the course of inspections, investigations, or audits, when such statements are received in confidence from the individual and retained in confidence because they reveal trade secrets or commercial or financial information normally considered confidential or privileged.

(iv) Financial data provided in confidence by private employers in connection with locality wage surveys that are used to fix and adjust pay schedules applicable to the prevailing wage rate of employees within the Department of Defense.

(v) Scientific and manufacturing processes or developments concerning technical or scientific data or other information, submitted with an application for a research grant, or with a report, while research is in progress.

(vi) Technical or scientific data developed by a contractor or subcontractor exclusively at private expense, and technical or scientific data developed in part with Federal funds and in part at private expense, wherein the contractor or subcontractor has retained legitimate proprietary interests in such data in accordance with title 10, U.S.C. 2320–2321 and DoD Federal Acquisition Regulation Supplement (DFARS), subpart 27.4. Technical data developed exclusively with Federal funds may be withheld under Exemption Number 3 if it meets the criteria of 10 U.S.C. 130 and DoD Directive 5230.25 (refer to paragraph (b)(3)(v))

(vii) Computer software meeting the conditions of section 4(b)(3), which is copyrighted under the Copyright Act of 1976 (17 U.S.C. 106), the disclosure of which would have an adverse impact on the potential market value of a copyrighted work.

(5) Number 5. Except as provided in paragraphs (b)(5)(i) through (v) of this section, internal advice, recommendations, and subjective evaluations, as contrasted with factual matters, that are reflected in records pertaining to the decisionmaking process of any agency, whether within or among agencies (as defined in 5 U.S.C. 552(e)) or within or among DoD/DNA offices. Also exempted are records pertaining to the attorney-client privilege and the attorney work-product privilege.

(i) Examples include:

(A) The nonfactual portions of staff papers, to include after-action reports and situation reports containing staff evaluations, advice, opinions or suggestions.

(B) Advice, suggestions, or evaluations prepared on behalf of the DNA by individual consultants or by boards, committees, councils, groups, panels, conferences, commissions, task forces, or other similar groups that are formed for the purpose of obtaining advice and recommendations.

(C) Those nonfactual portions of evaluations by DNA personnel of contractors and their products.

(D) Information of a speculative, tentative, or evaluative nature or such matters as proposed plans to procure, lease or otherwise acquire and dispose of materials, real estate, facilities or functions, when such information would provide undue or unfair competitive advantage to private personal interests or would impede legitimate government functions.

(E) Trade secret or other confidential research, development, or commercial information owned by the Government, where premature release is likely to affect the Government’s negotiating position or other commercial interests.

(F) Records that are exchanged among agency personnel as part of the preparation for anticipated administrative proceedings by DNA, or litigation before any federal, state, or military court, as well as records that qualify for the attorney-client privilege.

(G) Those portions of official reports of inspection, reports of the Inspector General, audits, investigations, or surveys pertaining to safety, security, or the internal management, administration, or operation of DNA when these records have traditionally been treated by the courts as privileged against disclosure in litigation.

(H) Computer software meeting the standards of paragraph 291.3(b)(2)(iii), which is deliberative in nature, the disclosure of which would inhibit or chill
the decision-making process. In this situation, the use of software must be closely examined to ensure its deliberative nature.

(I) Planning, programming, and budgetary information which is involved in the defense planning and resource allocation process.

(ii) If any such intra- or inter-agency record or reasonably segregable portion of such record hypothetically would be made available routinely through the “discovery process” in the course of litigation with DNA, i.e., the process by which litigants obtain information from each other that is relevant to the issues in trial or hearing, then it should not be withheld from the general public even though “discovery” has not been sought in actual litigation. If, however, the information hypothetically would only be made available through the discovery process by special order of the court based on the particular needs of a litigant, balanced against the interests of the agency in maintaining its confidentiality, then the record or document need not be made available under this part. Consult with legal counsel to determine whether exemption 5 material would be routinely made available through the “discovery process”:

(iii) Intra- or inter-agency memoranda or letters that are factual, or those reasonably segregable portions that are factual, are routinely made available through “discovery,” and shall be made available to a requester, unless the factual material is otherwise exempt from release, inextricably intertwined with the exempt information, so fragmented as to be uninformative, or so redundant of information already available to the requester as to provide no new substantive information.

(iv) A direction or order from a superior to a subordinate, though contained in an internal communication, generally cannot be withheld from a requester if it constitutes policy guidance or a decision, as distinguished from a discussion of preliminary matters or a request for information or advice that would compromise the decision-making process.

(v) An internal communication concerning a decision that subsequently has been made a matter of public record must be made available to a requester when the rationale for the decision is expressly adopted or incorporated by reference in the record containing the decision.

(6) Number 6. Information in personnel and medical files, as well as similar personal information in other files, that, if disclosed to the requester would result in a clearly unwarranted invasion of personal privacy. Release of information about an individual contained in a Privacy Act System of Records that would constitute a clearly unwarranted invasion of privacy is prohibited, and could subject the releaser to civil and criminal penalties.

(i) Examples of other files containing personal information similar to that contained in personnel and medical files include:

(A) Those compiled to evaluate or adjudicate the suitability of candidates for civilian employment or membership in the Armed Forces, and the eligibility of individuals (civilian, military, or contractor employees) for security clearances, or for access to particularly sensitive classified information.

(B) Files containing reports, records, and other material pertaining to personnel matters in which administrative action, including disciplinary action, may be taken.

(ii) Home addresses are normally not releasable without the consent of the individuals concerned. In addition, lists of DoD military and civilian personnel’s names and duty addresses who are assigned to units that are sensitive, routinely deployable, or stationed in foreign territories can constitute a clearly unwarranted invasion of personal privacy.

(A) Privacy interest. A privacy interest may exist in personal information even though the information has been disclosed at some place and time. If personal information is not freely available from sources other than the Federal Government, a privacy interest exists in its nondisclosure. The fact that the Federal Government expended funds to prepare, index and maintain records on personal information, and the fact that a requester invokes FOIA
Office of the Secretary of Defense

§ 291.8

to obtain these records indicates the information is not freely available.

(B) Published telephone directories, organizational charts, rosters and similar materials for personnel assigned to units that are sensitive, routinely deployable, or stationed in foreign territories are withholdable under this exemption.

(iii) This exemption shall not be used in an attempt to protect the privacy of a deceased person, but it may be used to protect the privacy of the deceased person's family.

(iv) Individuals' personnel, medical, or similar file may be withheld from them or their designated legal representative only to the extent consistent with DoD Directive 5400.11.

(v) A clearly unwarranted invasion of the privacy of the persons identified in a personnel, medical or similar record may constitute a basis for deleting those reasonably segregable portions of that record, even when providing it to the subject of the record. When withholding personal information from the subject of the record, legal counsel should first be consulted.

(7) Number 7. Records or information compiled for law enforcement purposes; i.e., civil, criminal, or military law, including the implementation of executive orders or regulations issued pursuant to law. This exemption may be invoked to prevent disclosure of documents not originally created for, but later gathered for law enforcement purposes.

(i) This exemption applies, however, only to the extent that production of such law enforcement records or information could result in the following:

(A) Could reasonably be expected to interfere with enforcement proceedings.

(B) Would deprive a person of the right to a fair trial or to an impartial adjudication.

(C) Could reasonably be expected to constitute an unwarranted invasion of personal privacy of a living person, including surviving family members of an individual identified in such a record.

(D) Could reasonably be expected to disclose the identity of a confidential source including a source within DNA, a state, local or foreign agency or authority, or any private institution which furnishes the information on a confidential basis.

(E) Could disclose confidential information furnished from a confidential source and obtained by a criminal law enforcement authority in a criminal investigation or by an agency conducting a lawful national security intelligence investigation.

(F) Would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law.

(G) Could reasonably be expected to endanger the life, or the physical safety of any individual.

(ii) Examples include:

(A) Statements of witnesses and other material developed during the course of the investigation and all materials prepared in connection with related government litigation or adjudicative proceedings.

(B) The identity of firms or individuals being investigated for alleged irregularities involving contracting
with DNA when no indictment has been obtained nor any civil action filed against them by the United States.

(C) Information obtained in confidence, expressed or implied, in the course of a criminal investigation by a criminal law enforcement agency or office within DNA, or a lawful national security intelligence investigation conducted by an authorized agency or office within DNA. National security intelligence investigations include background security investigations and those investigations conducted for the purpose of obtaining affirmative or counterintelligence information.

(iii) The right of individual litigants to investigative records currently available by law (such as, the Jencks Act, 18 U.S.C. 3500) is not diminished.

(iv) When the subject of an investigative record is the requester of the record, it may be withheld only as authorized by DoD Directive 5400.11.

(v) Exclusions. Excluded from the previous exemptions are the following two situations applicable to the Department of Defense.

(A) Whenever a request is made which involves access to records or information compiled for law enforcement purposes and the investigation or proceedings involves a possible violation or criminal law where there is reason to believe that the subject of the investigation or proceedings is unaware of its pendency, and the disclosure of the existence of the records could reasonably be expected to interfere with enforcement proceedings. Components may, during only such times as that circumstance continues, treat the records or information as not subject to the FOIA. In such situation, the response to the requester will state that no records were found.

(B) Whenever informant records maintained by a criminal law enforcement organization within a DoD component under the informant’s name or personal identifier are requested by a third party using the informant’s name or personal identifier, the Component may treat the records as not subject to the FOIA, unless the informant’s status as an informant has been officially confirmed. If it is determined that the records are not subject to exemption 7, the response to the requester will state that no records were found.

(8) Number 8. Those contained in or related to examination, operation or condition reports prepared by, on behalf of, or for the use of any agency responsible for the regulation or supervision of financial institutions.

(9) Number 9. Those containing geological and geophysical information and data (including maps) concerning wells.

§ 291.9 For official use only (FOUO).

Information that has not been given a security classification pursuant to the criteria of an Executive Order, but which may be withheld from the public for one or more of the reasons cited in FOIA exemptions 2 through 9 shall be considered as being for official use only. No other material shall be considered or marked “For Official Use Only” (FOUO) and FOUO is not authorized as an anemic form of classification to protect national security interests. See DNA Instruction 5230.2A for additional information regarding FOUO policy.

(a) Prior FOUO application. The prior application of FOUO markings is not a conclusive basis for withholding a record that is requested under the FOIA. When such a record is requested, the information in it shall be evaluated to determine whether, under current circumstances, FOIA exemptions apply in withholding the record or portions of it. If any exemption or exemptions apply or applies, it may nonetheless be released when it is determined that no governmental interest will be jeopardized by its release.

(b) Historical papers. Records, such as notes, working papers, and drafts retained as historical evidence of DNA actions enjoy no special status apart from the exemptions under the FOIA.

(c) Time to mark records. The marking of records at the time of their creation provides notice of FOUO content and facilitates review when a record is requested under the FOIA. Records requested under the FOIA that do not bear such markings, shall not be assumed to be releasable without examination for the presence of information

\(^{5}\)See footnote 2, to §291.6(a)
that requires continued protection and qualifies as exempt from public release.

d) Distribution statement. Information in a technical document that requires a distribution statement pursuant to DNA Instruction 5230.24A shall bear that statement and may be marked FOUO, as appropriate.

e) Termination. The originator or other competent authority, e.g., initial denial and appellate authorities, shall terminate “For Official Use Only” markings or status when circumstances indicate that the information no longer requires protection from public disclosure. When FOUO status is terminated, all known holders shall be notified, to the extent practical. Upon notification, holders shall efface or remove the “For Official Use Only” markings, but records in file or storage need not be retrieved solely for that purpose.

f) Disposal. (1) Nonrecord copies of FOUO materials may be destroyed by tearing each copy into pieces to preclude reconstructing, and placing them in regular trash containers. When local circumstances or experience indicates that this destruction method is not sufficiently protective of FOUO information, local authorities may direct other methods but must give due consideration to the additional expense balanced against the degree of sensitivity of the type of FOUO information contained in the records.

(2) Record copies of FOUO documents shall be disposed of in accordance with the disposal standards established under 44 U.S.C. chapter 33, as implemented by DNA instructions concerning records disposal.

g) Unauthorized disclosure. The unauthorized disclosure of FOUO records does not constitute an unauthorized disclosure of DNA information classified for security purposes. Appropriate administrative action shall be taken, however, to fix responsibility for unauthorized disclosure whenever feasible, and appropriate disciplinary action shall be taken against those responsible. Unauthorized disclosure of FOUO information that is protected by the Privacy Act, may also result in civil and criminal sanctions against responsible persons. The DNA office that originated the FOUO information shall be informed of its unauthorized disclosure.

EXPLANATION OF EXEMPTIONS

FREEDOM OF INFORMATION ACT (5 USC 552)

(b)(1) Applies to information which is currently and properly classified pursuant to an Executive Order in the interest of national defense or foreign policy. (See Executive Order 12356, DoD Regulation 5200.1-R and DNA Instruction 5400-7C.)

(b)(2) Applies to information which pertains solely to the internal rules and practices of the Agency; this exemption has two profiles, “high” and “low.” The “high” profile permits withholding of a document which, if released, would allow circumvention of an agency rule, policy, or statute, thereby impeding the agency in the conduct of its mission. The “low” profile permits
withholding if there is no public interest in the document, and it would be an administrative burden to process the request.

(b)(3) Applies to information specifically exempted by a statute establishing particular criteria for withholding. The language of the statute must clearly state that the information will not be disclosed.

(b)(4) Applies to information such as trade secrets and commercial or financial information obtained from a company on a privileged or confidential basis which, if released, would result in competitive harm to the company.

(b)(5) Applies to inter- and intra-agency memoranda which are deliberative in nature; this exemption is appropriate for internal documents which are part of the decision making process, and contain subjective evaluations, opinions and recommendations.

(b)(6) Applies to information release of which could reasonably be expected to constitute a clearly unwarranted invasion of the personal privacy of individuals; and

(b)(7) Applies to records or information compiled for law enforcement purposes that (A) could reasonably be expected to interfere with law enforcement proceedings, (B) would deprive a person of a right to a fair trial or impartial adjudication, (C) could reasonably be expected to constitute an unwarranted invasion of the personal privacy of others, (D) disclose the identity of a confidential source, (E) disclose investigative techniques and procedures, or (F) could reasonably be expected to endanger the life or physical safety or any individual.

(b)(9) Permits the withholding of matters contained in, or related to, examination, operating or conditions reports prepared by, on behalf of, or for the use of, an agency responsible for the regulation and supervision of financial institutions.

(b)(10) Permits the withholding of geological information and data including maps, concerning wells.

APPENDIX A TO PART 292—UNIFORM AGENCY FEES FOR SEARCH AND DUPLICATION UNDER THE FREEDOM OF INFORMATION ACT (AS AMENDED)

AUTHORITY: 5 U.S.C. 552.

SOURCE: 57 FR 38775, Aug. 27, 1992, unless otherwise noted.

§ 292.1 Purpose.

This document implements the „Freedom of Information Act (FOIA),” 5 U.S.C., as amended, with the Defense Intelligence Agency (DIA) and outlines policy governing release of records to the public.

§ 292.2 Applicability.

This part applies to all DIA elements, and governs the public release of records of these elements.

§ 292.3 Basic policy.

(a) Upon receipt of a written request, the DIA will release to the public, records concerning its operations and activities which are rightfully public information. Generally, information, other than that exempt in §292.6, will be provided to the public. The following policy will be followed in the conduct of this program.

1 The provisions of the FOIA, as implemented by 32 CFR part 286 and this part, will be supported in both letter and spirit.

2 Requested records will be withheld only when a significant and legitimate governmental purpose is served by withholding them. Records which require protection against unauthorized release in the interest of the national defense or foreign relations of the United States will not be provided.

3 Official requests from Members of Congress, acting in their official capacity, will be governed by DoD Directive 5400.4, (see DoD 5400.7–R, paragraph 5–103); from the General Accounting Office by DoD Directive 7650.1; and from private parties, and officials of state or local governments by DoD 5400.7–R, paragraphs 5–101 and 102.

4 Records will not be withheld solely because their release might result in
Office of the Secretary of Defense

§ 292.4 Specific policy.

(a) Definition of a Record. The products of data compilation, such as all books, papers, maps, and photographs, machine readable materials or other documentary materials, regardless of physical form or characteristics, made or received by the DIA in connection with the transaction of public business and in the DIA’s possession and control at the time the FOIA request is made.

(b) The following are not included within the definition of the word “record”:

(1) Objects or articles, such as structures, furniture, paintings, sculptures, three-dimensional models, vehicles and equipment, whatever their historical value or value as evidence.

(2) Administrative tools by which records are created, stored, and retrieved, if not created or used as sources of information about organizations, policies, functions, decisions, or procedures of a DoD Component. Normally, computer software, including source code, object code, and listings of source and object codes, regardless of medium are not agency records. (This does not include the underlying data which is processed and produced by such software and which may in some instances be stored with the software.) Exceptions to this position are outlined in paragraph (b)(2)(i) of this section.

(i) In some instances, computer software may have to be treated as an agency record and processed under the FOIA. These situations are rare, and shall be treated on a case-by-case basis. Examples of when computer software may have to be treated as an agency record are:

(A) When the data are embedded within the software and cannot be extracted without the software. In this situation, both the data and the software must be reviewed for release or denial under the FOIA.

(B) When the software itself reveals information about organizations, policies, functions, decisions, or procedures of the Agency, such as computer models used to forecast budget outlays, calculate system costs, or optimization models on travel costs.

(3) Anything that is not a tangible or documentary record, such as an individual’s memory or oral communication.

(4) Personal notes of an individual not subject to agency creation or retention requirements, created and maintained primarily for the convenience of an agency employee, and not distributed to other agency employees for their official use.

(5) Information stored within a computer for which there is no existing computer program or printout for retrieval of the requested information.

(c) The prior application of FOR OFFICIAL USE ONLY (FOUO) markings is not a conclusive basis for withholding a record that is requested under the FOIA. When such a record is requested, the information in it will be evaluated to determine whether, under current circumstances, FOIA exemptions apply and whether a significant and legitimate Governmental purpose is served by withholding the record or portions of it.

(d) A record must exist and be in the possession or control of the DIA at the time of the request to be considered subject to this regulation. There is no obligation to create, compile, or obtain a record to satisfy an FOIA request.

765
(e) Identification of the Record. (1) Identification of the record desired is the responsibility of the member of the public who requests a record. The requester must provide a description of the desired record that enables the DIA to locate the record with a reasonable amount of effort. The Act does not authorize “fishing expeditions.” When the DIA receives a request that does not “reasonably describe” the requested record, it will notify the requester of the deficiency. The deficiency should be highlighted in a distinctive letter, asking the requester to provide the type of information outlined below. This Agency is not obligated to act on the request until the requester responds to the distinctive letter in identifying the records sought and in reformulating the request to reduce the burden on the Agency in complying with the Act.

(2) The following guidelines are provided to deal with “fishing expedition” requests and are based on the principle of reasonable effort. Descriptive information about a record may be divided into two broad categories:

(i) Category I is file-related and includes information such as type of record (for example, memorandum), title, index citation, subject area, date the record was created, and originator.

(ii) Category II is event-related and includes the circumstances that resulted in the record being created or the date and circumstances surrounding the event the record covers.

(3) Generally, a record is not reasonably described unless the description contains sufficient Category I information to permit the conduct of an organized, non-random search based on the DIA’s filing arrangements and existing retrieval systems, or unless the record contains enough Category II information to permit inference of the Category I elements needed to conduct such a search.

(f) Requests for records may be denied only when the official designated in §292.8 determines that such denial is authorized by the FOIA.

(g) When an initial request is denied, the requester will be apprised of the following:

(1) The basis for the refusal shall be explained to the requester, in writing, identifying the applicable statutory exemption or exemptions invoked under provisions of this part.

(2) When the final refusal is based in whole or in part on a security classification, the explanation shall include a determination that the record meets the criteria and rationale of the governing Executive Order, and that this determination is based on a declassification review.

(3) The final denial shall include the name and title or position of the official responsible for the denial.

(4) The response shall advise the requester with regard to denied information whether or not any reasonably segregable portions were found.

(5) The response shall advise the requester of the right to appeal within 60 days of the date of the initial denial letter.

(h)(1) Initial availability, releasability, and cost determinations will normally be made within 10 working days of the date on which a written request for an identifiable record is received by the DIA. If, due to unusual circumstances, additional time is needed, a written notification of the delay will be forwarded to the requester within the 10 working day period. This notification will briefly explain the circumstances for the delay and indicate the anticipated date for a substantive response. The period of delay, by law, may not exceed 10 additional working days.

(2) Requests shall be processed in order of receipt. However, this does not preclude DIA from completing action on a request which can easily be answered, regardless of its ranking within the order of receipt. DIA may expedite action on a request regardless of its ranking within the order of receipt upon a showing of exceptional need or urgency. Exceptional need or urgency is determined at the discretion of DIA.

§ 292.5 How the public submits requests for records.

(a) Requests to obtain copies of records must be made in writing. The requests should contain at least the following information:
Office of the Secretary of Defense

§ 292.6 FOIA exemptions.

The following type of records may be withheld in whole or in part from public disclosure unless otherwise prescribed by law:

(a) Exemption (b)(1). Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by Executive Order and implemented by regulations, such as DoD 5200.1–R. Although material may not be classified at the time of the FOIA request, a classification review may be undertaken to determine whether the information should be classified. The procedures outlined in DIAR 50–2 regarding classification apply. In addition, this exemption shall be invoked when the following situations are apparent:

(1) The fact of the existence or nonexistence of a record would itself reveal classified information. In this situation, DIA shall neither confirm or deny the existence or nonexistence of the record being requested. A “refusal to confirm or deny” response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a “no record” response when a record does not exist, and a “refusal to confirm or deny” when a record does exist will itself disclose national security information.

(2) Information that concerns one or more of the classification categories established by Executive Order and DoD 5200.1–R shall be classified if its unauthorized disclosure, either by itself or in the context of other information, reasonably could be expected to cause damage to the national security.

(b) Exemption (b)(2). Those containing or constituting rules, regulations, orders, manuals, directives, and instructions relating to the internal personnel rules or practices of the DIA if their release to the public would substantially hinder the effective performance of a significant function of the Department of Defense, and they do not impose requirements directly on the general public. This exemption has two profiles, high (b)(2) and low (b)(2).

(1) Records qualifying under high (b)(2) are those containing or constituting, rules, regulations, orders, manuals, directives, and instructions the release of which would allow circumvention of these records thereby substantially hindering the effective performance of a significant function of the Department of Defense.

(2) Records qualifying under the low (b)(2) profile are those that are trivial and housekeeping in nature for which there is no legitimate public interest or benefit to be gained by release, and it would constitute an administrative burden to process the request in order to disclose the records.

(c) Exemption (b)(3). Those concerning matters that a statute specifically exempts from disclosure by terms that permit no discretion on the issue, or in accordance with criteria established by that statute for withholding or referring to particular types of matters to be withheld.

(d) Exemption (b)(4). (1) Those containing trade secrets or commercial or financial information that the DIA receives from a person or organization outside the Government with the understanding that the information or record will be retained on a privileged or confidential basis in accordance with the customary handling of such records. Records within the exemption must contain trade secrets or commercial or financial records the disclosure of which is likely to cause substantial harm to the competitive position of the source providing the information, impair the Government’s ability to obtain

4 See footnote 1 to § 292.3(a)(3).
5 Forward requests to: Defense Intelligence Agency, ATTN: DSP–1A (FOIA), Washington, DC 20340–3299.
necessary information in the future, or impair some other legitimate Governmental interest.

(2) When a request is received for a record that was obtained or provided by a non-U.S. Government source, the source of the record or information (also known as “the submitter” for matters pertaining to proprietary data) shall be notified promptly of that request and afforded reasonable time (e.g. 30 calendar days) to present any objections concerning the release, unless it is clear that there can be no valid basis for objection. This practice is required for those FOIA requests for data not deemed clearly exempt from disclosure under Exemption (b)(4). For further guidance, see DoD 5400.7–R, paragraph 5–207.

(e) Exemption (b)(5). Those concerning internal advice, recommendations, and subjective evaluations, as contrasted with factual matters, that are reflected in records pertaining to the decision-making process of an agency, whether within or among agencies or within or among DoD components. Also exempted are records pertaining to the attorney-client privilege and the attorney work-product privilege.

(f) Exemption (b)(6). Information in personnel and medical files, as well as similar personal information in other files, that, if disclosed to the requester, would result in a clearly unwarranted invasion of personal privacy. Release of information about an individual contained in a Privacy Act system of records that would constitute a clearly unwarranted invasion of privacy is prohibited, and could subject the releaser to civil and criminal penalties.

(g) Exemption (b)(7). Records or information compiled for the purpose of enforcing civil, criminal, or military law, including the implementation of Executive Orders or regulations issued pursuant to law, but only to the extent that the production of such law enforcement records or information

(1) Could reasonably be expected to interfere with enforcement proceedings.

(2) Would deprive a person of a right to a fair trial or an impartial adjudication.

(3) Could constitute an unwarranted invasion of the personal privacy of others (also see DoD 5400.7–R, paragraph 3–200, Number 7 a. 3. (a)–(c)).

(4) Could disclose the identity of a confidential source.

(5) Would disclose investigative techniques and procedures, or

(6) Could endanger the life or physical safety of law enforcement personnel. This exemption may be invoked to prevent disclosure of documents not originally created for, but later gathered for, law enforcement purposes.

§ 292.7 Filing an appeal for refusal to make records available.

(a) A requester may appeal an initial decision to withhold a record. Further, if a requester determines a “no record” response in answer to a request to be adverse, this determination may also be appealed. Appeals should be addressed to: Defense Intelligence Agency, ATTN: DSP–1A (FOIA), Washington, DC 20340–3299.

(b) The requester shall be advised that the appellate authority must receive an appeal no later than 60 calendar days after the date of the initial denial letter.

(c) Final determination on appeals normally will be made within 20 working days of receipt of the appeal at the above address. If additional time is needed to decide the appeal because of unusual circumstances, the final determination may be delayed for the number of working days, not to exceed 10, which were not utilized as additional time for responding to the initial request. Appeals shall be processed in order of receipt. However, this does not preclude DIA from completing action on an appeal request which can easily be answered, regardless of its ranking within the order of receipt. DIA may expedite action on an appeal request regardless of its ranking within the order of receipt upon a showing of exceptional need or urgency. Exceptional need or urgency is determined at the discretion of DIA.

(d) When an appeal is denied, the requester will be apprised of the following:

(1) The basis for the refusal shall be explained to the requester, in writing, identifying the applicable statutory exemption or exemptions invoked under provisions of this part.
(2) When the final refusal is based in whole or in part on a security classification, the explanation shall include a determination that the record meets the criteria and rationale of the governing Executive Order, and that this determination is based on a declassification review.

(3) The final denial shall include the name and title or position of the official responsible for the denial.

(4) The response shall advise the requester with regard to denied information whether or not any reasonably segregable portions were found.

(5) The response shall advise the requester of the right to judicial review.

§ 292.8 Responsibilities.

When a request for information or records is received, the following will apply:

(a) DSP–1A. (1) Receives requests and assigns tasking.

(2) Maintains appropriate suspenses and authorizes all extensions of response time.

(3) Acts as the responsible operating office for all Agency actions related to the FOIA.

(4) Drafts and transmits responses on:

(i) The release of records and/or information.

(ii) Obtaining supplemental information from the requester.

(iii) Informing the requester of any fees required.

(iv) The transfer to another element or agency of the initial request.

(5) Fulfills the annual reporting requirement and maintains appropriate records.

(6) Acts as the responsible official for all initial denials of access to the public.

(b) All DIA elements:

(1) When identified by DSP–1A as the Office of Primary Responsibility (OPR) will:

(i) Search files for any relevant records, and/or

(ii) Review records for possible public release within the time constraints assigned, and

(iii) Prepare a documented response in any case of nonrelease.

(2) All employees are required to read this part to ensure familiarity with the requirements of the FOIA as implemented.

(c) The General Counsel. (1) Ensures uniformity in the FOIA legal positions within the DIA and with the Department of Defense.

(2) Secures coordination when necessary with the General Counsel, DoD, on denials of public requests.

(3) Acts as the focal point in all judicial actions.

(4) Reviews all final denials.

(d) The Director, and on his behalf, the Chief of Staff:

(1) Exercises overall staff supervision of the FOIA activities of the Agency.

(2) Acts as the responsible official for all denials of appeals.

PART 293—NATIONAL IMAGERY MAPPING AGENCY (NIMA) FREEDOM OF INFORMATION ACT PROGRAM

Sec. 293.1 Purpose.
293.2 Policy.
293.3 Applicability and scope.
293.4 Definitions.
293.5 Responsibilities.
293.6 Procedure.

SOURCE: 65 FR 38201, June 20, 2000, unless otherwise noted.

§ 293.1 Purpose.
This part implements the Freedom of Information Act (FOIA) and 32 CFR part 286 to establish a uniform process in responding to FOIA requests received by the National Imagery Mapping Agency (NIMA).

§ 293.2 Policy.
It is NIMA policy that:
(a) Agency records that, if disclosed, would cause no foreseeable harm to an interest protected by a FOIA exemption, will be made readily accessible to the public.
(b) NIMA organizations will ensure that internal procedural matters do not unnecessarily impede a FOIA requester from promptly obtaining NIMA records.

§ 293.3 Applicability and scope.
This part applies to all NIMA organizations and is intended as a brief overview of the FOIA process within NIMA. To obtain complete guidance, this instruction must be used in conjunction with 32 CFR part 286. Additional assistance is also available from the Office of General Counsel (GC).

§ 293.4 Definitions.
Agency records.
(1) A product of data compilation (such as all books, papers, maps, photographs, and machine-readable materials including those in electronic form or format) or other documentary materials (such as letters, memos, or notes) regardless of physical form or characteristics that is made or received by NIMA in connection with the transaction of public business, and is in NIMA’s possession and control at the time the FOIA request is made.
(2) The following are not considered Agency records:
(i) Objects or articles, such as structures, furniture, vehicles, and equipment.
(ii) Anything that is not a tangible or documentary record, such as an individual’s memory or oral communication.
(iii) Personal records of an individual not subject to agency creation or retention requirements, that have been created and maintained primarily for the convenience of the Agency employee, and that are not distributed to other Agency employees for their official use. Personal records fall into three categories: those created before entering Government service; private materials brought into, created, or received in the Office that were not created or received in the course of transacting Government business; and work-related personal papers that are not used in the transaction of Government business.
(3) Agency records available to the public through an established public distribution system, the Federal Register, the National Technical Information Service (NTIS), or the Internet normally need not be processed as FOIA requests, unless the requester insists that the request be processed under the FOIA.
(4) To be subject to the FOIA, the Agency record being requested must actually exist and be in the possession and control of the Agency at the time a FOIA request is made. There is no obligation to create, compile, or obtain a record to satisfy a FOIA request.

Appellate authority (AA). An agency employee who has been granted authority to review the decision of the initial denial authority (IDA) (see IDA definition) that has been appealed by a FOIA requester and make the appeal determination for the Agency on the releasability of the records in question.

FOIA exemption. Agency records, which if disclosed, would cause a foreseeable harm to an interest protected by a FOIA exemption, may be withheld from public release. There are nine exemptions that permit an agency to
withhold records requested under a FOIA request. The exemptions are for records that apply to:

1. Information that is currently and properly classified pursuant to an Executive Order in the interest of national defense or foreign policy.

2. Information that pertains solely to the internal rules and practices of the Agency. This exemption has two profiles, high and low. The high profile permits withholding of a document that, if released, would allow circumvention of an Agency rule, policy, or statute, thereby impeding the Agency in the conduct of its mission. The low profile permits withholding of the record if there is no public interest in the record, and it would be an administrative burden to process the request. Activities should not rely on the low profile exemption because the Department of Justice may not defend its use.

3. Information specifically exempted from disclosure by a statute that establishes particular criteria for withholding the record. The language of the statute must clearly state that the information will not be disclosed.

4. Information such as trade secrets and commercial or financial information obtained from a company on a privileged or confidential basis that, if released, would result in competitive harm to the company.

5. Inter- and intra-agency memoranda that are deliberative in nature. This exemption is appropriate for internal documents that are part of the decision-making process, and contain subjective evaluations, opinions, and recommendations. A document must be both deliberative and part of a decision-making process to qualify for this exemption.

6. Information from personnel and medical files that would result in a clearly unwarranted invasion of personal privacy if disclosed or released.

7. Records or information compiled for law enforcement purposes that:
   i. Could reasonably be expected to interfere with law enforcement proceedings.
   ii. Would deprive a person of a right to a fair trial or impartial adjudication.

8. The examination, operation, or condition reports prepared by, on behalf of, or for the use of any Agency responsible for the regulation or supervision of financial institutions.

9. Geological and geophysical information and data (including maps) concerning wells.

FOIA request.

1. An FOIA request is a request, in writing, for agency records. The request can either implicitly cite FOIA, but must reasonably describe the record being requested. In addition, the request must include language indicating the requester’s willingness to pay fees associated with processing the FOIA request.

2. Any person, including a member of the public (U.S. or foreign citizen or entity), an organization, or a business can make FOIA requests. Requests from officials of State or local Governments for NIMA records are considered the same as requests from any other requester. Requests from members of Congress not seeking records on behalf of constituents are considered the same as requests from any other requester. Requests from foreign governments that do not invoke the FOA are referred to appropriate foreign disclosure channels and the requester is so notified by GC.

Initial denial authority (IDA). An agency employee who has been granted authority to make an initial determination for the Agency that records requested in a FOIA request should be withheld from disclosure or release.

Mandatory declassification officer (MDO). A senior agency official has been granted authority to perform mandatory declassification reviews for NIMA.
§ 293.5 Multi-track processing. A system in which pending FOIA requests that cannot be processed within the statutory time limit of 20 working days are separated into distinct working tracks. The tracks are based on the date the FOIA request is received by GC, the amount of work and time involved in processing the request, and whether the request qualifies for expedited processing.

NIMA operational file exemption. 10 U.S.C. 457 provides that NIMA may withhold from public disclosure operational files that:

(1) As of September 22, 1996 were maintained by National Photographic Interpretations Center (NPIC) or
(2) Concern the activities of the Agency as of that date that were performed by NPIC. Questions on operational files created after 22 September 1996 should be directed to GC.

§ 293.5 Responsibilities.

(a) Director of NIMA (D/NIMA).
(1) Designates the Agency initial denial authority (IDA) and appellate authority (AA).
(2) Appoints substitutes for the current IDA or AA if necessary.
(b) The Chief of Staff (CS) (or acting CS as designated by CS) serves as AA.
(c) The Director of the Congressional Affairs Office (D/CA) (or acting D/CA as designated by D/CA) serves as IDA.
(d) Office of General Counsel (GC).
(1) Administers NIMA’s FOIA program for processing FOIA requests received by NIMA.
(2) Processes all requests for mandatory declassification review in response to requests for declassification that meet the requirements of Executive Order 12958.
(3) Submits this part to the Department of Defense to publish in the Code of Federal Regulations and the Federal Register.
(e) Office Directors in the functional Directorates and the Office Directors who are aligned with D/NIMA (for example, Office of General Counsel, Office of Inspector General, Chief of Staff, International and Policy Office, or Mission Support Office) with regard to search for records.
(1) Appoint an Office point of contact (POC) to whom FOIA requests can be directed from GC and who serves as a direct liaison with GC.
(2) Forward, through the POC, the FOIA request from GC to the organization most likely to hold or maintain the records being requested.
(3) Direct, through the POC, a search for the records be completed in a timely manner and respond directly to GC on the outcome of the search.
(f) Office Directors in the functional Directorates and the Office Directors who are aligned with D/NIMA (for example, Office of General Counsel, Office of Inspector General, Chief of Staff, International and Policy Office, or Mission Support Office) with regard to declassification review.
(1) Appoint an employee to act as the POC for the Office.
(2) Oversee and coordinate, through the POC, declassification reviews for FOIA.
(3) Make, through the POC, recommendations to the mandatory declassification officer (MDO) on the declassification of Agency records.
(g) Chief, Mission Support Office, Security Programs Division, as MDO.
(1) Conducts declassification reviews for FOIA.
(2) Advises GC whether Agency records are properly classified in accordance with Executive Order 12958 and should be withheld from public release or disclosure.

§ 293.6 Procedures.

(a) Administration of the FOIA program. GC receives all FOIA requests submitted to NIMA, logs the requests into a database, and initiates the record search. If a final response cannot be made to the FOIA requester within the statutory time requirement of 20 working days, GC advises the requester of this fact and explains how the FOIA request will be processed within a multi-track processing system. As part of the administration FOIA process, GC:
(1) Assesses and collects fees for costs associated with processing FOIA requests, and approves or denies requests for fee waivers. Fees collected are forwarded through the Financial Management Directorate (CFO) to the U.S. Treasury.
(2) Approves or denies requests for expedited processing.
(3) Sends a “no records” response to FOIA requesters after a records search reveals that no Agency records exist that are responsive to the FOIA request.
(4) Provides training with NIMA on the FOIA law and Agency processing procedures.
(5) Conducts periodic reviews of NIMA’s FOIA program.
(6) Maintains a public reading room for inspecting and copying Agency records and arranges appointments for access to reading room records.
(7) Maintains an “electronic” reading room for Agency records, an index for frequently requested records, a FOIA handbook, and other material as required by the FOIA on a public Internet website.
(8) Coordinates with other DoD Components, other members of the Intelligence Community, or the Department of Justice, as needed, on FOIA requests referred to NIMA.
(9) Coordinates with other DoD Components, other members of the Intelligence Community, or the Department of Justice, as needed, prior to releasing any records under the FOIA that may also be pertinent to litigation pending against the United States.
(11) Coordinates responses to all news media requests with the Public Affairs Office (PA) and congressional inquiries with CA.
(12) Coordinates denials of access to Agency records with NIMA’s IDA and AA and prepares a legal synopsis and recommendation for release or denial of the record.
(13) Maintains FOIA case files in accordance with the NIMA records management schedules in NI 8040.1.
(b) Searching for responsive NIMA records.
(1) GC forwards a copy of the FOIA request to the appropriate Agency POC. The POC forwards the request to the Office most likely to hold or maintain the records being requested.
(2) The Office conducts a search for records responsive to the FOIA request. all NIMA offices must promptly conduct searches to locate records responsive to a FOIA request, even if the search is likely to reveal classified, sensitive, or for official use only (FOUO) records. A reasonable search includes the search of all activities and locations most likely to have the records that have not been transferred to the National Archives and Records Administration (NARA).
(3) If a reasonable search does not identify or locate records responsive to the request, the Office must provide GC with a “no records” response and provide a recommendation of other Offices in which to conduct the search.
(4) If a reasonable search identifies or locates records responsive to the request, the Office must send two copies of the responsive record to GC and provide a recommendation regarding releasability of the record. Any objection to release of the record must be based on one or more of the FOIA exemptions. The office must also complete and forward DD Form 2086 or DD Form 2086–1, as appropriate, detailing the time and cost incurred in the search, review, and copying of the responsive records.
(5) FOUO records. When an office has identified FOUO records that are responsive to a FOIA request, the record must be evaluated to determine whether any FOIA exemptions are applicable to withhold either the entire record or portions of the record from release. Unless the requested record clearly falls into one or more of the FOIA exemptions, an FOUO marking all not prevent a record from being released to the FOIA requester.
(6) All Offices promptly forward or return any misaddressed FOIA requests to GC.
(c) Mandatory declassification review. When a request for a declassification review is received, or when an office has identified classified records that are responsive to a FOIA request and has forwarded copies to GC, GC forwards one copy of the record to the MDO for a declassification review. The MDO works with the declassification
POC to determine if the record in question is currently and properly classified under Executive Order 12958, and if any information contained in the record may be segregated for release to the FOIA requester. The MDO forwards the results of the declassification review to GC, in writing, along with any recommendations on whether information in the record can be reasonably segregated and released to the FOIA requester.

(d) Withholding Agency records from public release. If the requested record is not releasable because it is either currently and properly classified or falls within another FOIA exemption, GC prepares an analysis on the rationale for denying the record, prepares the initial denial letter to be sent to the FOIA requester, and forwards the materials to the Agency IDA. The Agency IDA reviews the FOIA request and rationale for withholding the record and, if he or she concurs, signs the letter prepared by GC. The letter signed by the Agency IDA advises the FOIA requester that the records requested are being withheld from release, states the amount of material withheld from release, states the FOIA exemptions supporting the denial, and provides information on appealing the decision to the Agency AA. A copy of all initial denial letters is forwarded to GC and maintained in the individual FOIA file.

(e) Appeal rights of FOIA requesters.

(1) If a FOIA requester appeal the initial denial decision of the agency IDA, GC processes the appeal for review by the agency AA. The AA reviews the initial FOIA request, GC’s analysis, and the denial decision made by the IDA. The AA has the authority to either uphold the decision made by the IDA, and withhold the requested records from release, or reverse the decision made by the IDA and release all or a portion of the records requested. GC prepares the written response to the FOIA requester for the AA’s signature. If the AA makes a final determination to uphold the decision made by the agency IDA, the final Agency response includes the basis for the decision and advises the FOIA requester of the right to seek judicial review.

(2) In addition to denials of information, a FOIA requester also has a right to appeal initial assessments made by GC regarding fee categories, fee waivers, fee estimates, requests for expedited processing, no record determinations, failure to meet the statutory time limits, or any determination found to be adverse by the requester. The authority to uphold or reverse initial assessments made by GC in these areas is the agency AA. The decision of the AA is final.

(f) Relationship between the FOIA and the Privacy Act. Not all requesters will be knowledgeable of the appropriate act to cite when requesting records or access to records. In some instances, either the FOIA or the Privacy Act may be cited.

(1) Both the FOIA and the Privacy Act give the right to request access to records held by Federal Agencies. Access rights under the FOIA are given to any individual, business, or organization, but the Privacy Act gives access rights only to those individuals who are the subject of the records being requested.

(2) When responding to a request for records under the Privacy Act, detailed guidance on which act to apply may be found in 32 CFR part 286 and 32 CFR part 310. Additional assistance is also available from GC.

APPENDIX B TO PART 295—EXEMPTIONS

AUTHORITY: 5 U.S.C. 552.

§ 295.1 Purpose.

This part establishes the policy and sets forth the procedures by which the public may obtain information and
Office of the Secretary of Defense

§ 295.2 Applicability.
The provisions of this part are applicable to all components of the Office of the Inspector General (OIG) and govern the procedures by which FOIA requests for information will be processed and records may be released under the FOIA.

§ 295.3 Definition of OIG records.
(a) The products of data compilation, such as books, papers, maps, and photographs, machine readable materials or other documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal law in connection with the transaction of public business and in the OIG’s possession and control at the time the FOIA request is made.
(b) The following are not included within the definition of the word “record”:
(1) Objects or articles, such as structures, furniture, vehicles and equipment, whatever their historical value, or value as evidence.
(2) Administrative tools by which records are created, stored, and retrieved, if not created or used as sources of information about organizations, policies, functions, decisions, or procedures of the OIG. Normally, computer software, including source code, object code, and listings of source and object codes, regardless of medium are not agency records. (This does not include the underlying data which is processed and produced by such software and which may in some instances be stored with the software.) Exceptions to this position are outlined in §295.4(c).
(3) Anything that is not a tangible or documentary record, such as an individual’s memory or oral communication.
(4) Personal records of an individual not subject to agency creation or retention requirements, created and maintained primarily for the convenience of an OIG employee, and not distributed to any other OIG employee for their official use, or otherwise disseminated for official use.
(5) Information stored within a computer for which there is no existing computer program for retrieval of the requested information.
(c) In some instances, computer software may have to be treated as an agency record and processed under the FOIA. These situations are rare, and shall be treated on a case-by-case basis. Examples of when computer software may have to be treated as an agency record are:
(1) When the data is embedded within the software and can not be extracted without the software. In this situation, both the data and the software must be reviewed for release or denial under the FOIA.
(2) Where the software itself reveals information about organizations, policies, functions, decisions, or procedures of the OIG, such as computer models used to forecast budget outlays, calculate retirement system costs, or optimization models on travel costs.
(3) See appendix B to this part for further information on release determinations of computer software.
(d) If unaltered publications and processed documents, such as regulations, manuals, maps, charts, and related geophysical materials are available to the public through an established distribution system with or without charge, the provisions of 5 U.S.C. 552(a)(3) normally do not apply and they need not be processed under the FOIA. Normally, documents disclosed to the public by publication in the Federal Register also require no processing under the FOIA. In such cases, the OIG will direct the requester to the appropriate source to obtain the record.

§ 295.4 Other definitions.
(a) FOIA Request. A written request for OIG records, made by any person, including a member of the public (U.S. or foreign citizen), an organization, or a business, but not including a Federal agency or a fugitive from the law that either explicitly or implicitly invokes
§ 295.5 Policy.

(a) General. (1) It is the policy of the OIG to promote public trust by conducting its activities in an open manner, and by providing the public with the maximum amount of accurate and timely information concerning those activities, consistent with the need for security and adherence to other requirements of law and regulation. (2) Records not specifically exempt from disclosure under the FOIA or prohibited by statutory or other regulatory requirements will, upon request, be made readily accessible to the public.

(3) Records that are specifically exempt from disclosure under the FOIA or prohibited by statutory or other regulatory requirements will be withheld from the public only upon the determination of the initial Denial Authorities identified in §295.6 of this part, or the designated Appellate Authority.

(b) News Media Requests. (1) Requests from news media representatives for records that would not be withheld if requested under the FOIA or prohibited from release under other statutory or regulatory authority, will be released promptly by the OIG element originating the record. (2) Requests from news media representatives for records that are exempt from release under the FOIA, or prohibited from release under other statutory or regulatory authority will be provided to the Freedom of Information Act and Privacy Act (FOIA/PA) Division, Office of the Assistant Inspector General for Investigations, along with the requested records, for review and a release determination and the news media representatives will be so advised.

(3) Extracts of the nonexempt portions of such records may be prepared in response to a specific request from a news media representative but shall be coordinated for release with the FOIA/PA Division. Extracts shall be prepared in accordance with the sample at appendix to §295.5.

(c) Control System. (1) A request for OIG records that invokes the FOIA shall enter a formal control system designed to ensure compliance with the FOIA. A release determination must be made and the requester informed within the time limits specified in this part. (2) Any request for OIG records that either explicitly or implicitly cites the FOIA will be processed under the provisions set forth in this part, unless otherwise required by §295.5(m) of this part. All such requests shall be forwarded to the FOIA/PA Division.

(d) Promptness of Response. (1) A request from a member of the public for OIG records will be responded to within 10 working days of the date of its receipt in the FOIA/PA Division, unless a delay is authorized.

(2) Receipt of the request will be acknowledged and the requester will be promptly advised of any additional information needed to assure compliance with procedures established in this part. In the event there are a significant number of requests, e.g., 10 or more, the requests will be processed in order of date of receipt. This does not
§ 295.5 Preclusion of Action

preclude the OIG from completing action on a request which can be easily answered, regardless of its ranking within the order of receipt. The OIG may expedite action on a request regardless of its ranking within the order of receipt upon a showing of exceptional need or urgency. Exceptional need will be determined at the discretion of the OIG.

(3) These provisions also apply to a request received on referral from another DoD Component or government agency and time limits will begin on the date of receipt in the OIG FOIA/PA Division.

(e) Use of Exemptions. It is OIG policy to make records publicly available unless they qualify for exemption under one or more of the nine exemptions. The OIG may elect to make a discretionary release, however, a discretionary release is generally not appropriate for records exempt under exemptions (b)(1), (b)(3), (b)(4), (b)(6) and (b)(7)(C). Exemptions (b)(4), (b)(6) and (b)(7)(C) can not be claimed when the requester is the submitter of the information. The categories of records which are exempt from release are identified in appendix B of this part.

(f) For Official Use Only (FOUO). The use of FOUO markings will be accomplished in accordance with the provisions of appendix A of this part, and exemptions (b)(2) through (b)(9) as set forth in appendix B of this part. Additional guidance will be provided to OIG elements, as needed, by the FOIA/PA Division.

(g) Public Domain. Nonexempt records released under the authority of this part are considered to be in the public domain. Such records may also be made available in the OIG Reading Room located in the FOIA/PA Division. Exempt records released pursuant to this part or other statutory or regulatory authority, however, may be considered to be in the public domain only when their release constitutes a waiver of the FOIA exemption. When the release does not constitute such a waiver, such as when disclosure is made to a properly constituted advisory committee or to a Congressional Committee, or to an individual to whom the record pertains, the released records do not lose their exempt status. Also, while authority may exist to disclose records to individuals in their official capacity, the provisions of this part apply if the same individual seeks to use the records in a private or personal capacity.

(b) Creation of Records. (1) A record must exist and be in the possession or control of the OIG at the time of the request to be considered subject to release under this part and the FOIA. Mere possession of a record does not presume OIG control and such records, or identifiable portions thereof, will be referred to the originating agency for a release determination and/or direct response to the requester. There is no obligation to create nor compile a record to satisfy a FOIA request; however, the OIG may compile a new record when doing so would result in a more useful response to the requester, or be less burdensome to the OIG than providing the existing records, and the requester does not object. The cost of creating or compiling such a record will not be charged to the requester unless the fee is equal to, or less than, the fee that would be charged for providing the existing record. Any fee assessments will be made in accordance with chapter IV of DoD 5400.7–R (32 CFR part 286).

(2) With respect to electronic data, the issue of whether records are actually created or merely extracted from an existing database is not always readily apparent. Consequently, when responding to FOIA requests for electronic data where creation of a record, programming, or particular format are questionable, the OIG will apply a standard of reasonableness. In other words, if the capability exists to respond to the request, and the effort would be a business as usual approach, then the request will be processed. However, the request will not be processed where the capability to respond does not exist without a significant expenditure of resources, thus not be a normal business as usual approach.

(i) Describing Records Sought. (1) It is the responsibility of the member of the public requesting records to adequately identify the records. A member of the public must describe the records sought with sufficient information to permit the OIG to locate the records with a reasonable amount of effort.
§ 295.5  Descriptive information about a record may be divided into two broad categories:

(i) Category I is file-related and includes information such as type of record (for example, memorandum), title, index citation, subject area, date the record was created, and originator.

(ii) Category II is event-related and includes the circumstances that resulted in the record being created or the date and circumstances surrounding the event the record covers.

(2) When the OIG receives a request that does not "reasonably describe" the requested record with sufficient Category I information to permit the conduct of an organized nonrandom search, or sufficient Category II information to permit inference of the Category I elements needed to conduct such a search, the requester will be notified in writing of the defect and of the need for more specific identification of the records sought. The specificity letter will provide guidance in identifying the records sought and in reformulating the request to reduce the burden on the OIG in complying with the FOIA. The OIG is not obligated to act on requests until an adequate description is provided by the requester.

(3) When the OIG receives a request in which only personal identifiers, e.g., name and Social Security Account Number, are provided in connection with the request for records concerning the requester, only records retrievable by personal identifiers will be searched. The search for such records may be conducted under Privacy Act procedures. No record will be denied that is releasable under the FOIA.

(j) Referrals. (1) The OIG has the responsibility of protecting the identity of individuals who make protected disclosures of wrongdoing on the part of others, under the "Whistleblower Protection Acts". When a FOIA requester has identified himself/herself as the "Whistleblower" in the matter for which records are being sought, in accordance with §295.7(b)(3) of this part, or the FOIA/PA Division can reasonably determine that the FOIA requester is the "Whistleblower", the individual's identity will continue to be protected in all of the following circumstances involving referrals, except to the extent that such protection will impede the release of responsive records to the requester. In such event, the requester will be advised of the impediment and offered the option of allowing himself/herself to be identified solely for the purpose of obtaining maximum release of records responsive to the FOIA request. If the requester chooses to continue anonymity, the request will be processed only to the extent that will allow continued protection of the individual's identity.

(2) The OIG will refer a FOIA request to another DoD Component or to a Government agency outside the DoD when the OIG has no records responsive to the request, but believes the other DoD Component or outside agency may have, and the other DoD Component or outside agency has confirmed that it holds the record. When the other DoD Component or outside agency agrees to the referral, the requester will be advised of the referral and that the OIG has no responsive records, with the following exceptions:

(i) If it is determined by the other DoD Component or outside agency that the existence or nonexistence of the record itself is classified, the OIG will inform the requester only that the OIG has no responsive record and no referral will take place.

(ii) If the record falls under one or more of the "Exclusions" under the FOIA (see appendix B of this part), as determined by the other DoD Component or outside agency, the OIG will advise the requester only that the OIG has no responsive record and no referral will take place.

(3) The OIG will refer a record, or portions of a record that holds but that was originated by another DoD Component or outside agency, or for a record that contains substantial information that originated with another DoD Component or agency (unless the agency is not subject to the FOIA) for a release determination and/or direct response to the requester. In any such case, direct coordination will be effected and concurrence obtained from the other Component or agency prior to the referral. A copy of the record will be provided to...
(7) A FOIA request for a record, or portions of a record, held by the OIG, that originated with a non-U.S. government agency that is not subject to the FOIA, will be responded to by the OIG.

(8) Notwithstanding anything to the contrary in this section, all requesters seeking National Security Council (NSC) or White House documents will be advised that they should write directly to the NSC or White House for such documents. Should the requester insist upon an OIG search for these records, the OIG will conduct an appropriate search pursuant to the FOIA. OIG/DoD documents in which the NSC or White House has a concurrent reviewing interest will be forwarded by the FOIA/PA Division to the Director, Freedom of Information and Security Review (DFOISR), Office of the Assistant Secretary of Defense (Public Affairs) (OASD(PA)), which shall effect coordination with the NSC or White House, and return the documents to the originating agency after NSC review and determination. The FOIA/PA Division will forward any documents found in OIG files that are responsive to the FOIA request to DFOISR, OASD(PA) for their coordination with the NSC or White House, and return to the OIG with a release determination for final processing of the request.

(9) On occasion, the OIG receives FOIA requests for General Accounting Office (GAO) documents containing OIG information. Even though the GAO is outside of the Executive Branch, and not subject to the FOIA, all FOIA requests for GAO documents containing DoD information received directly from the public, or on referral from the GAO, will be processed under the provisions of the FOIA.

(k) Authentication of Records. Records provided under this part will be authenticated, upon written request, to fulfill an official Government or other legal function. This service is in addition to that required under the FOIA and is not included in the FOIA fee schedule; therefore, a fee of $5.20 may be charged for each such authentication.

(1) Records Management. FOIA records shall be maintained and disposed of in
§ 295.5

according with Inspector General Defense Manual (IGDM) 5015.2,1 “Records Management Program”.

(m) Relationship Between the FOIA and the Privacy Act (PA). Not all requesters are knowledgeable of the appropriate statutory authority to cite when requesting records. In some instances, they may cite neither Act, but will imply one or both Acts. For these reasons, the following guidelines are provided to ensure that requesters receive the greatest amount of access rights under both Acts:

1. Where requesters seek records about themselves which are contained in a PA system of records and cite or imply the PA, the OIG will process their requests under the provisions of the PA.

2. Where requesters seek records about themselves which are not contained in a PA system of records and cite or imply the PA, the requests will be processed under the provisions of the FOIA, since they have no access under the PA.

3. Where requesters seek records about themselves that are contained in a PA system of records and cite or imply the PA, the requests will be processed under the time limits of the FOIA and the exemptions and fees of the PA. This is appropriate since greater access will generally be received under the PA.

4. Where requesters seek agency records (as opposed to personal records) and cite or imply the PA and FOIA, or where requesters cite or imply only the FOIA, the requests will be processed under the FOIA.

5. Requesters will be advised in the final responses to their requests why a particular Act was used in processing their requests.

(n) Index and “(a)(2)” Materials. (1) No order, opinion, statement of policy, interpretation, staff manual or instruction (except as indicated below) issued after July 4, 1967, which is not indexed and either made available or published, may be relied upon, used, or cited as a precedent against any member of the public unless that individual has actual and timely notice of the contents of such materials. Such actual and timely notice may not be after-the-fact; i.e., after the individual has suffered some adverse effect. Materials identified as “(a)(2)” are:

(i) Final opinions, including concurring and dissenting opinions, and orders made in the adjudication of cases, as defined in 5 U.S.C. 551, that may be cited, used, or relied upon as precedents in future adjudications.

(ii) Statements of policy and interpretations that have been adopted by the agency and are not published in the FEDERAL REGISTER.

(iii) Administrative staff manuals and instructions, or portions thereof, that establish OIG policy or interpretations of policy that affect a member of the public. This provision does not apply to instructions for employees on tactics and techniques to be used in performing their duties, or to instructions relating only to the internal management of the OIG. Examples of manuals and instructions not normally made available are:

(A) Those issued for audit, investigation, and inspection purposes, or those that prescribe operational tactics, standards of performance, or criteria for defense, prosecution, or settlement of cases.

(B) Operations and maintenance manuals and technical information concerning munitions, equipment, systems, and foreign intelligence operations.

(2) Thus, materials considered to meet the preceding definition of the FOIA “(a)(2)” requirements will be made available for public inspection and copying upon written request to the address indicated in §295.7(b)(1) of this part, unless such materials have been published and are offered for sale or subscription. Upon receipt of the request, arrangements will be made at a time convenient to both the requester and the OIG, for the review and copying. If the publishing activity is out of stock of the published, for sale material and does not intend to reprint, then the preceding procedure will apply to the published material as well.

(3) When appropriate, the cost of copying any “(a)(2)” materials will be
imposed upon the individual requesting the copy in accordance with chapter VI of DoD 5400.7-R (32 CFR part 286).

(4) The OIG will prepare an index of ``(a)(2)'' materials, or supplement thereto, arranged topically or by descriptive words rather than by case name or numbering system so that members of the public can readily locate material. Separate case name and numbering arrangements may be added for OIG convenience.

(5) The IG has determined that it is not practical nor feasible to prepare an index of the ``(a)(2)'' materials on a quarterly basis, nor to publish the annual “IG Publications Index” in the Federal Register because of the volume. This index is available to the public at no cost upon written request to: Acquisition and Resources Administration Directorate, Publications Management Branch, room 413, 400 Army Navy Drive, Arlington, Virginia 22202-2884. It may be necessary to deny all or portions of some documents listed in the index that fall within one or more exemptions of the FOIA.

(o) Fees and Fee Waivers. (1) Fees will be assessed under the FOIA as set forth in chapter VI of DoD 5400.7-R (32 CFR part 286).

(2) Requesters must indicate their willingness to pay fees in their initial FOIA request. If a waiver of fees is requested, a statement regarding their willingness to pay fees in the event a waiver or reduction of fees is denied is still required. Any requests not containing a statement regarding a willingness to pay assessed fees will not be processed and the requester will be so advised.

(3) Fees will not be required to be paid in advance of processing the request for release of the records requested except:

(i) When the requester is known to be in default of payment of fees incurred in connection with a previous request.

(ii) When the total amount of estimated fees assessable to the requester exceeds $250.00 and waiver is not appropriate, a “good faith” deposit of half of the amount of the estimated fees may be required before completing the processing of the request, or providing the requested records, in the case of a requester with no history of payment. Where the requester has a history of prompt payment, the OIG will notify the requester of the likely cost and obtain satisfactory assurance of full payment.

(4) When the OIG has completed all work on a request and the documents are ready for release, advance payment may be requested before forwarding the documents if there is no payment history on the requester. Where there is a history of prompt payment by the requester, the OIG will not hold documents ready for release pending payment.

(5) Fee waivers will be granted on a case-by-case basis when the OIG determines that waiver or reduction of the fees is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations or activities of the OIG and the Department of Defense and is not primarily in the commercial interest of the requester. In any request for waiver of fees, the requester must provide sufficient information to enable the IDA to make a proper determination of whether or not the fees should be waived.

(6) In cases where the requester fails to provide sufficient persuasive information upon which to make a determination for waiver of the fees, the requester shall be so informed and given the opportunity to submit additional justification. Absent such justification, the requester may be required to pay fees appropriate to his/her category, if provision of the information is determined not to be in the public interest or benefit.

(7) Payments of fees must be by check or U.S. Postal money order made payable to the Treasurer of the United States. Cash payments cannot be accepted.

(p) Appeals and Judicial Action. (1) If the designated IDA declines to provide a requested record because the official considers it exempt from disclosure under one or more of the nine exemptions of the FOIA, that decision may be appealed by the requester to the designated Appellate Authority. The appeal should be submitted in writing by the requester within 60 calendar days after the date of the initial denial letter. In cases where incremental release
actions have been taken on an initial request, the time for the appeal will not begin until the date of the last denial of release letter.

(2) A “no record” finding may be considered to be adverse, and if so interpreted by the requester, may be appealed using the normal OIG appeal procedures. The OIG will conduct an additional search of files, based on the receipt of an appeal to a “no record” response, as a part of the appellate process.

(3) All final decisions rendered on appeals will be made to the requesters in writing by the Appellate Authority, after consultation with the Office of General Counsel (OGC) representative to the OIG, and other appropriate OIG elements.

(4) Final determinations on appeals normally shall be made within 20 working days after receipt. The appeal will be deemed to have been received when it reaches the FOIA/PA Division, for administrative processing on behalf of the Appellate Authority. Misdirected appeals are to be referred expeditiously to the FOIA/PA Division.

(5) A requester will be deemed to have exhausted his/her administrative remedies after he/she has been denied the requested record or waiver/reduction of fees, by the designated Appellate Authority, or when the OIG FOIA/PA Division fails to respond to the request within the time limits prescribed by the FOIA, DoD 5400.7-R (32 CFR part 286) and this part. The requester may then seek judicial action from a U.S. District Court in the district in which the requester resides, has a principal place of business, in the district in which the record is located, or in the District of Columbia.

(6) Records that are denied on appeal shall be retained for a period of six years, in accordance with IGDM 5015.2, “Records Management Manual,” to meet the statute of limitations of claims requirements.

§295.6 Responsibilities.

(a) The Assistant Inspector General (AIG) for Investigations is responsible for the overall implementation and administration of the FOIA program in the OIG, and for the designation of the IDAs.

(b) The Director, Investigative Support is designated as an IDA and is responsible for the overall operation of the FOIA program in the OIG.

(c) The Assistant Director, FOIA/PA Division, Investigative Support Directorate is designated as an IDA and will:

(1) Serve as the point of contact on all FOIA matters for the OIG.

(2) Coordinate and respond to all requests received from the public for records in accordance with the policy established and procedures set forth in this part, and in all applicable DoD directives, regulations and instructions.

(3) Coordinate requests received from the public for records to the extent considered necessary, with the DFOISR, OASD(PA), other DoD Components, other Federal agencies, and other OIG elements.

(4) Arrange for the collection of fees are prescribed by the policy as established in this part.

(5) Maintain the FOIA case files in accordance with IGDM Manual (IGDM) 5015.2, “Records Management Program”.

(6) Recommend action to be taken on all appeals of fees, appeals of fee waiver denials, and appeals of denials to access of records requested, to the Appellate Authority.

(7) Review OIG publications to assure that those which meet the FOIA ’(a)(1)” and ’(a)(2)” requirements for publication in the Federal Register are prepared in proper form and transmitted promptly for publication in the Federal Register.

(8) Maintain copies of material required to be made available under the ’(a)(2)” provisions of the FOIA for examination and copying by the public.

2See footnote 1 to §295.5(d).
§ 295.7 Procedures.

(a) General. The provisions of the FOIA are reserved for persons with private interests as opposed to Federal governmental agencies seeking official information. The procedures for making requests, whether as a private party or governmental representative, are set forth below.

(b) Requests From Private Parties. (1) Members of the public may make requests in writing for copies of records, or permission to examine or copy records, directly to the FOIA/PA Division addressed to: Assistant Director, FOIA/PA Division, OAIG for Investigations, 400 Army Navy Drive, Arlington, VA 22202-2884.

(2) Requests must identify each record sought with sufficient specificity to enable the custodian to locate the record with a reasonable amount of effort. Requesters should provide such information as where the record originated and by whom, its subject matter, its approximate date or timeframe, which element of the OIG is likely to have custodianship, or any other similar information that would assist in locating the record. Requests must also contain a statement regarding willingness to pay fees.

(3) A request from an individual who made an allegation of wrongdoing to the IG, or any protected disclosure under the "Whistleblower Protection Acts," and who is seeking the results of any investigation or inquiry conducted into the allegation, should identify him/herself as the “Whistleblower” in the request. The request should indicate whether he/she wishes to continue anonymity, should be notarized to avoid the risk of losing the anonymity, and should contain a statement regarding willingness to pay fees.

(4) A request for a personal record or investigative record pertaining to the individual making the request, that is in a system of records whether non-exempt or exempted from mandatory release under the Privacy Act, must be notarized to avoid the risk of invasion of personal privacy. In any such request, the individual may designate another individual to act as his/her representative in making the request and in receiving the records on his/her behalf; however, the authorization must
be in writing, specifically name the representative and kinds of records authorized to be provided, and be notarized to avoid the risk of invasion of personal privacy.

(5) A request for a record that was obtained from a non-U.S. Government source, and that is subject to exemption (b)(4) under the FOIA, will be released to the individual or firm making the request without further exception, if:

(i) The individual or firm is clearly the submitter of the information and/or is clearly acting on behalf of the submitter in making the request.

(ii) The request contains a statement from a company official or other representative of the submitter clearly capable of certifying that the requester is acting on behalf of the submitter of the information in making the request; i.e., a Vice-President certifies on his/her company letterhead that XYZ Law Firm is acting on behalf of the company in requesting copies of documents submitted to the government by the company. A mere assertion by the requester that the requester is acting on behalf of the submitter in making the request will not be honored, if it cannot be readily verified through records available to the OIG.

(c) Requests From Government Officials. 

(1) Requests from officials of State, or local Governments for OIG records will be considered the same as any other requester, except where the request is for a personal record in a system of records subject to the Privacy Act, in which case the provisions of DoD 5400.11–R (32 CFR part 286a) apply.

(2) Requests from members of Congress, or their staffs, not seeking records on behalf of a Congressional Committee, Subcommittee, or either House sitting as a whole, will be considered the same as any other requester. Requests from members of Congress, or their staffs, made on behalf of their constituents will also be considered the same as any other requester.

(3) Requests from officials of foreign governments shall be considered the same as any other requester. Requests from officials of foreign governments that do not invoke the FOIA shall be referred to appropriate foreign disclosure channels and the requester so notified.

(d) Misdirected Requests. Requests misdirected to other OIG elements will be forwarded promptly to the FOIA/PA Division. The statutory period allowed for response to a request misdirected by the requester shall not begin until the request is received in the FOIA/PA Division. The OIG components and field elements receiving misdirected requests should advise the requester that the request is being forwarded to the office having the authority to act on and respond to the request.

(e) Privileged Release to Officials. 

(1) Subject to DoD 5200.1–R, 4 "Information Security Program Regulation", applicable to classified information, DoD Directive 5400.11 (32 CFR part 286a), applicable to personal privacy or other applicable law, records exempt from release under appendix B of this part may be authenticated and released, without requiring release to other FOIA requesters, in accordance with OIG rules to U.S. Government officials requesting them on behalf of Federal governmental bodies, whether legislative, executive, administrative, or judicial, as follows:

(i) To a Committee or Subcommittee of Congress, or to either House sitting as a whole in accordance with DoD Directive 5400.4, 5 "Provision of Information to Congress," and this part.

(ii) To the Federal courts whenever ordered by officers of the court as necessary for the proper administration of justice.

(iii) To other Federal agencies both executive and administrative as determined by the IG or the IG’s designee.

(2) On all such releases, the officials receiving records under the above provisions will be informed in writing that the records are exempt from public release under the FOIA and are privileged. The OIG components will also advise the receiving officials of any special handling instructions.

(f) Processing Requests. 

(1) Upon receipt in the FOIA/PA Division, a request for records will be assigned a control number, logged, and reviewed.

Footnotes:

5 See footnote 4 to §295.7(e).
for adequacy and compliance with the procedures for submitting requests outlined in §295.7(b).

(2) If the request does not meet the adequacy of description test, contain a statement regarding fees, or contain a notarized signature/authorization or a certification of submitter representation, if applicable; the request will be acknowledged as having been received and the requester will be notified of the defect and advised of the means necessary to correct the defect and comply with the procedures. If the requester does not correct the defect within the time allowed (generally 30 calendar days) in the defect notice, the following actions will be taken:

(i) Where the request does not meet the adequacy of description test, the request will be administratively closed and the requester so advised.

(ii) Where the request meets the adequacy of description test but fails to comply with the remaining procedural requirements, and the time allowed in the defect notice for compliance by the requester has elapsed, the request will be processed to the extent possible consistent with DoD 5400.7–R (32 CFR part 286) and this part.

(3) When it is determined that a request complies with all applicable procedures, the necessary search and collection of responsive records will be initiated through the Component(s) of the OIG likely to have custodianship of the sought records.

(4) Where the appropriate OIG Component has determined that no record responsive to the request exists, the POC for the OIG Component will so advise the FOIA/PA Division within the due date assigned to the POC. The requester will be notified in writing by the IDA, within 10 working days from the date of receipt of the request, that no responsive records exist; and, of the right and means by which to appeal the no record response as an adverse determination.

(5) When it is determined that the records sought are part of an ongoing audit, inspection, or investigation, the requester will be advised of such (subject to the “Exclusions” under the FOIA identified in appendix B, of this part). The requester will be informed of the estimated timeframe for completion of the ongoing audit, inspection, or investigation and asked if he/she wishes to withdraw the request and resubmit it upon completion of the ongoing process. If the requester chooses not to withdraw the request, the processing will be continued and an appropriate release determination will be made, consistent with the statutory provisions of the FOIA.

(6) When responsive records have been located, the POC for the OIG element having the records will forward the records to the FOIA/PA Division with a recommendation for release on SD Form 472, “Request Information Sheet,” along with a completed DD Form 2086, “Record of Freedom of Information (FOI) Processing Cost.” The records will be reviewed and an initial determination to release or deny will be made.

(g) Initial Determinations. (1) The initial determination of whether to make a record available upon request may be made only by the IDAs designated by the IG in this part. Further, the number of IDAs designated by the IG will be limited and based on a balance of the goals of centralization of authority to promote uniform decisions and decentralization to facilitate responding to each request within the time limitations of the FOIA.

(2) Other than statutory denials, there are six other reasons for not complying with a request for a record:

(i) The request is transferred to another DoD Component or Federal agency.

(ii) The request is withdrawn by the requester.

(iii) The information requested is not a record within the meaning of the FOIA and §295.3(a) of this part.

(iv) A record has not been described with sufficient particularity to enable the OIG to locate it by conducting a reasonable search.

(v) The requester has failed unreasonably to comply with the procedural requirements, including the payment of fees, imposed by 32 CFR part 286 and this part.

(vi) The OIG has determined through knowledge of its files and reasonable search efforts that it neither controls nor possesses the requested record.
§ 295.7

(3) Initial determinations to release or deny a record normally will be made and the decision reported to the requester within 10 working days, provided that the requester has complied with the preliminary procedural requirements.

(4) When requests are denied in whole in part, the requester will be informed in writing of the reasons for the denial, the identity of the official making the denial, the right of appeal of the decision, and the identity and address of the official to whom an appeal may be made.

(5) The explanation of the substantive basis for a denial will include specific citation of the statutory exemption applied under provisions of the FOIA. Mere reference to a classification or to a “For Official Use Only” marking will not constitute a basis for invoking an exemption. When the initial denial is based in whole or in part on a security classification, the explanation will include a summary of the applicable criteria for the classification.

(h) Denial Tests. (1) To deny a requested record that is in the possession and control of the OIG, it must be determined that the record is included in one or more of the nine categories of records exempt from mandatory disclosure as provided by the FOIA and outlined in chapter III of DoD 5400.7–R (32 CFR part 286), and this part. No OIG record may be otherwise withheld from the public, whether in whole or in part, except as determined by the designated IDAs in accordance with FOIA exemptions.

(2) Although portions of some records may be denied, the remaining reasonably segregable portions will be released to the requester when it can be assumed that a skillful and knowledgeable person could not reconstruct the excised information. When a record is denied in whole, the IDA will advise the requester of that determination.

(i) Extension of Time. (1) In unusual circumstances, responsive records may be located by the office having custodianship over the record, but the records can not be made immediately available to the requester. The unusual circumstances justifying the delay will be the result of the following:

(i) The requested record is located in whole or in part at another geographic location than that of the FOIA/PA Division.

(ii) The request requires the collection and/or evaluation of a substantial number of records.

(iii) Consultation is required with other DoD Components or agencies having substantial interest in the subject matter to determine whether the records requested are exempt from disclosure in whole or in part under provisions of the FOIA and this part or should be released as a matter of discretion.

(2) In any such event, efforts will be made to negotiate an informal extension in time with the requester by the FOIA/PA Division. If the requester chooses not to agree informally to an extension in time, a written explanation of the reasons for delay will be provided to the requester and the requester will be asked to await a substantive response by an anticipated date.

(j) Fee Assessments. (1) When it is determined that the fees assessable to a request undergoing final processing may exceed the limit established by the requester, or may be in excess of $250, the processing will be discontinued and the requester notified so that he/she may advise of his/her desire to continue.

(2) If a “good faith” deposit is required, the requester will be allowed a reasonable time (generally 30 calendar days) in which to provide payment. If the requester fails to provide the “good faith” deposit within the time allowed, the request will be closed and the requester so notified.

(3) In all other cases, the requester will be notified of any fees due at the time the requested records are provided to the requester, and allowed a reasonable time (generally 30 calendar days) in which to pay the fees.

(4) If the requester fails to pay the fees in the time allowed, a notice of nonpayment will be placed in the formal control system and no further FOIA requests from the requester will
be honored until the fees have been paid.

(k) Records on Non-U.S. Government Sources. (1) When it is determined that the records or data contained within the records responsive to a request were obtained from a non-U.S. Government source by the OIG, and the requester is not the submitter of the non-U.S. Government record nor acting as the submitter’s representative; and it is further determined the source or submitter may have a valid objection to release of the material, the submitter will be promptly notified of the request and afforded a reasonable time (generally 30 calendar days) to present any objections to the release.

(2) This procedure is required for those FOIA requests for data not deemed clearly exempt from disclosure under exemption (b)(4). If, for example, the record or data was submitted by the non-U.S. Government source with the actual or presumptive knowledge of the source, and established that it would be made available to the public upon request, there is no requirement to notify the source.

(3) All objections will be evaluated. When a substantial issue has been raised, the OIG may seek additional information and afford the source and requester reasonable opportunities to present their arguments on the legal and substantive issues involved prior to making a determination.

(4) The OIG will not ordinarily exercise its discretionary authority to release information clearly meeting the exemption (b)(4) criteria. Further, the final decision to disclose information not deemed to clearly meet exemption (b)(4) criteria will be made by an official equivalent in rank or greater to the official who would make the decision to withhold that data under a FOIA appeal.

(5) When the source or submitter advises of the intent to seek a restraining order or to take court action to prevent release of the data, the requester will be notified and action will not be taken on the request until after the outcome of the court action is known. When the requester brings court action to compel disclosure, the source shall be promptly notified of this action.

(6) These procedures also apply to any non-U.S. Government record in the possession and control of the OIG from multi-national organizations, such as the North Atlantic Treaty Organization (NATO) and the North American Aerospace Defense Command (NORAD), or foreign governments. Coordination of such FOIA requests with foreign governments will be made through the Department of State by the FOIA/PA Division.

(l) Coordination With Department of Justice. (1) Where the custodian of an OIG element determines that records responsive to a FOIA request are pertinent to pending or potential litigation involving the United States, the FOIA/PA POC for the element shall promptly notify the FOIA/PA Division so that the necessary coordination can be effected with the Office of General Counsel (OGC) representative to the IG.

(2) The OGC representative shall effect all necessary coordination with the United States Attorney and/or Department of Justice prior to any release of such records.

(m) Procedures for Appeals. (1) A requester may appeal the initial decision to deny access to requested records, in writing, to the designated OIG Appellate Authority. The requester may also appeal a no record determination, any fees assessed and the denial of a request for waiver/reduction of fees. All such appeals should be made no later than 60 calendar days after the date of the initial denial letter or letter of advisement regarding fees.

(2) All appeals should provide sufficient information and justification upon which a determination may be made by the Appellate Authority as to whether to grant or deny the appeal; or, in the event of a “no record determination” sufficient information and/or justification upon which additional record searches may be based. A copy of the initial request and initial denial, and “no record” or fee advisement letter should be included.

(3) The FOIA/PA Division administers the appeals for the Appellate Authority. All appeals should be addressed to the Assistant Director, FOIA/PA Division, OAIG for investigations, 400 Army Navy Drive, Arlington, VA 22202-2884.
§ 295.8 Annual report.

The FOIA Annual Report, assigned Report Control System DD–PA (A) 1365, will be prepared by the FOIA/PA Division for the preceding calendar year and submitted to the Assistant Secretary of Defense (PA) on or before February 1 of each year. The report will be compiled and formatted in accordance with chapter VII, DoD 5400.7–R (32 CFR part 286).

§ 295.9 Organization and mission.

(a) The organization of the OIG includes the Headquarters located in Arlington, Virginia, consisting of the Inspector General, Deputy Inspector General, the Offices of the Assistant Inspector General (AIG) for Analysis and Followup, the AIG for Audit Policy and Oversight, the AIG for Auditing with its subordinate field elements located throughout the Continental United States (CONUS), the AIG for Investigations with its field elements located throughout the CONUS and Europe, the AIG for Administration and Information Management, the AIG for Departmental Inquiries, the AIG for Inspections, and the Director, IG Regional Office–Europe (IGROE) located in Wiesbaden, Germany. The IGROE has representatives assigned from the Offices of the AIG for Investigations, the AIG for Inspections, the AIG for Auditing and the AIG for Departmental Inquiries, who fulfill the missions of their respective components.

(b) The “Organization and Staff Listing” (Inspector General, Defense List (IGDL) 1400.7), provides organization...
charts for the OIG elements and mailing addresses of all OIG operating locations and will be made available to the public upon written request.

(c) As an independent and objective office in the Department of Defense (DoD) the mission of the OIG is to:

(1) Conduct, supervise, monitor, and initiate audits, inspections and investigations relating to programs and operations of the DoD.

(2) Provide leadership and coordination and recommend policies for activities designed to promote economy, efficiency, and effectiveness in the administration of, and to prevent and detect fraud and abuse in, such programs and operations.

(3) Provide a means for keeping the Secretary of Defense and the Congress fully and currently informed about problems and deficiencies relating to the administration of such programs and operations and the necessity for and progress of corrective action.

(4) Further information regarding the responsibilities and functions of the IG is encompassed in Public Law 95–452, the ‘‘Inspector General Act of 1978,’’ as amended and 32 CFR part 373.

APPENDIX A TO PART 295—FOR OFFICIAL USE ONLY (FOUO)

I. General Provisions

A. General

Information that has not been given a security classification pursuant to the criteria of an Executive Order, but which may be withheld from the public for one or more of the reasons cited in FOIA exemptions (b)(2) through (b)(9) shall be considered as being for official use only. No other material shall be considered or marked ‘‘For Official Use Only’’ (FOUO), and FOUO is not authorized as an anemic form of classification to protect national security interests.

B. Prior FOUO Application

The prior application of FOUO markings is not a conclusive basis for withholding a record that is requested under the FOIA. When such a record is requested, the information in it shall be evaluated to determine whether, under current circumstances, FOIA exemptions apply in withholding the record or portions of it. If any exemption or exemptions apply or applies, it may nonetheless be released when it is determined that no governmental interest will be jeopardized by its release.

C. Historical Papers

Records such as notes, working papers, and drafts retained as historical evidence of actions enjoy no special status apart from the exemptions under the FOIA.

D. Time to Mark Records

The marking of records at the time of their creation provides notice of FOUO content and facilitates review when a record is requested under the FOIA. Records requested under the FOIA that do not bear such markings, shall not be assumed to be releasable without examination for the presence of information that requires continued protection and qualifies as exempt from public release.

E. Distribution Statement

Information in a technical document that requires a distribution statement pursuant to DoD Directive 5230.24,1 ‘‘Distribution Statements on Technical Documents,’’ shall bear that statement and may be marked FOUO, as appropriate.

II. Markings

A. Location of Markings

(1) An unclassified document containing FOUO information shall be marked ‘‘For Official Use Only’’ at the bottom on the outside of the front cover (if any), on each page continuing FOUO information, and on the outside of the back cover (if any).

(2) Within a classified document, an individual page that contains both FOUO and classified information shall be marked at the top and bottom with the highest security classification of information appearing on the page.

(3) Within a classified document, an individual page that contains FOUO information but no classified information shall be marked ‘‘For Official Use Only’’ at the bottom of the page.

(4) Other records, such as, photographs, films, tapes, or slides, shall be marked ‘‘For Official Use Only’’ or ‘‘FOUO’’ in a manner that ensures that a recipient or viewer is aware of the status of the information therein.

(5) The FOUO material transmitted outside the Department of Defense requires application of an expanded marking to explain the significance of the FOUO marking. This may be accomplished by typing or stamping the following statement on the record prior to transfer:

This document contains information EXEMPT FROM MANDATORY DISCLOSURE

1 Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
under the FOIA. Exemptions . . . . . . apply

III. Dissemination and Transmission

A. Release and Transmission Procedures

Until FOUO status is terminated, the release and transmission instructions that follow apply:

1. The FOUO information may be disseminated within DoD Components and between officials of DoD Components and DoD contractors, consultants, and grantees to conduct official business for the Department of Defense. Recipients shall be made aware of the status of such information, and transmission shall be by means that preclude unauthorized public disclosure. Transmittal documents shall call attention to the presence of FOUO attachments.

2. The DoD holders of FOUO information are authorized to convey such information to officials in other departments and agencies of the executive and judicial branches to fulfill a Government function, except to the extent prohibited by the Privacy Act. Records thus transmitted shall be marked “For Official Use Only”, and the recipient shall be advised that the information has been exempted from public disclosure, pursuant to the FOIA, and that special handling instructions do or do not apply.

3. Release of FOUO information to Members of Congress is governed by DoD Directive 5400.4, “Provision of Information to Congress”. Release to the GAO is governed by DoD Directive 7650.1, “General Accounting Office Access to Records”. Records released to the Congress or GAO should be reviewed to determine whether the information warrants FOUO status. If not, prior FOUO markings shall be removed or effaced. If withholding criteria are met, the records shall be marked FOUO and the recipient provided an explanation for such exemption and marking. Alternatively, the recipient may be requested, without marking the record, to protect against its public disclosure for reasons that are explained.

B. Transporting FOUO Information

Records containing FOUO information shall be transported in a manner that precludes disclosure of the contents. When not commingled with classified information, FOUO information may be sent via first-class mail or parcel post. Bulky shipments, such as distributions of FOUO Directives or testing materials, that otherwise qualify under postal regulations may be sent by fourth-class mail.

C. Electrically Transmitted Messages

Each part of electrically transmitted messages containing FOUO information shall be marked appropriately. Unclassified messages containing FOUO information shall contain the abbreviated “FOUO” before the beginning of the text. Such messages shall be transmitted in accordance with communications security procedures in ACP-121 (United States Supplement 1) for FOUO information.

IV. Safeguarding FOUO Information

A. During Duty Hours

During normal working hours, records determined to be FOUO shall be placed in an out-of-sight location if the work area is accessible to non-governmental personnel.

B. During Non-Duty Hours

At the close of business, FOUO records shall be stored so as to preclude unauthorized access. Filing such material with other unclassified records in unlocked files or desks, etc., is adequate when normal U.S. Government or government-contractor internal building security is provided during nonduty hours. When such internal security control is not exercised, locked buildings or rooms normally provide adequate after-hours protection. If such protection is not considered adequate, FOUO material shall be stored in locked receptacles such as file cabinets, desks, or bookcases. FOUO records that are subject to the provisions of Public Law 86-36, National Security Agency Act shall meet the safeguards outlined for that group of records.

V. Termination, Disposal and Unauthorized Disclosures

A. Termination

The originator or other component authority, e.g., initial denial and appellate authorities, shall terminate “For Official Use Only” markings or status when circumstances indicate that the information no longer requires protection from public disclosure. When FOUO status is terminated, all known holders shall be notified, to the extent practical. Upon notification, holders shall efface or remove the “For Official Use Only” markings, but records in file or storage need not be retrieved solely for that purpose.

B. Disposal

1. Nonrecord copies of FOUO materials may be destroyed by tearing each copy into pieces to preclude reconstructing, and placing them in regular trash containers. When local circumstances or experience indicates that this destruction method is not sufficiently protective of FOUO information, local authorities may direct other methods but give due consideration to the additional
expenses balanced against the degree of sensitivity of the type of FOUO information contained in the records.

II. FOIA Exemptions

A. Exemption (b)(1)

Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by executive order and implemented by regulations, such as DoD 5200.1-R, “Information Security Program Regulation”. Although material is not classified at the time of the FOIA request, a classification review may be undertaken to determine whether the information should be classified. The procedures in DoD 5200.1-R, section 2-204f, apply. In addition, this exemption shall be invoked when the following situations are apparent:

(1) The fact of the existence or nonexistence of a record would itself reveal classified information. In this situation, the OIG shall neither confirm nor deny the existence or nonexistence of the record being requested.

(2) Information that concerns one or more of the classification categories established by executive order and DoD 5200.1-R (32 CFR part 159a) shall be classified if its unauthorized disclosure, either by itself or in the context of other information, reasonably could be expected to cause damage to the national security.

B. Exemption (b)(2)

Those related solely to the internal personnel rules and practices of DoD or the OIG. This exemption has two profiles, high (b)(2) and low (b)(2).

(1) Records qualifying under high (b)(2) are those containing or constituting statutes, rules, regulations, orders, manuals, directives, and instructions the release of which would allow circumvention of these records, thereby substantially hindering the effective performance of a significant function of the DoD or OIG. Examples include:

(a) Those operating rules, guidelines, and manuals, for DoD and OIG investigators, inspectors, auditors, or examiners that must remain privileged in order for the OIG to fulfill a legal requirement.

(b) Personnel and other administrative matters, such as examination questions and answers used in training courses or in the determination of the qualification of candidates for employment, entrance on duty, advancement, or promotion.

(c) Computer software meeting the standards of §295.3(c) of this part, the release of which would allow circumvention of a statute or DoD rules, regulations, orders, manuals, directives, or instructions. In this situation, the use of the software must be closely examined to ensure a circumvention possibility exists.

(2) Records qualifying under the low (b)(2) profile are those that are trivial and housekeeping in nature for which there is no legitimate public interest or benefit to be gained by release, and it would constitute an administrative burden to process the request.

APPENDIX B TO PART 295—EXEMPTIONS

A. Exemption (b)(1)

Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by executive order and implemented by regulations, such as DoD 5200.1-R, “Information Security Program Regulation”. Although material is not classified at the time of the FOIA request, a classification review may be undertaken to determine whether the information should be classified. The procedures in DoD 5200.1-R, section 2-204f, apply. In addition, this exemption shall be invoked when the following situations are apparent:

(1) The fact of the existence or nonexistence of a record would itself reveal classified information. In this situation, the OIG shall neither confirm nor deny the existence or nonexistence of the record being requested.

(2) Information that concerns one or more of the classification categories established by executive order and DoD 5200.1-R (32 CFR part 159a) shall be classified if its unauthorized disclosure, either by itself or in the context of other information, reasonably could be expected to cause damage to the national security.

B. Exemption (b)(2)

Those related solely to the internal personnel rules and practices of DoD or the OIG. This exemption has two profiles, high (b)(2) and low (b)(2).

(1) Records qualifying under high (b)(2) are those containing or constituting statutes, rules, regulations, orders, manuals, directives, and instructions the release of which would allow circumvention of these records, thereby substantially hindering the effective performance of a significant function of the DoD or OIG. Examples include:

(a) Those operating rules, guidelines, and manuals, for DoD and OIG investigators, inspectors, auditors, or examiners that must remain privileged in order for the OIG to fulfill a legal requirement.

(b) Personnel and other administrative matters, such as examination questions and answers used in training courses or in the determination of the qualification of candidates for employment, entrance on duty, advancement, or promotion.

(c) Computer software meeting the standards of §295.3(c) of this part, the release of which would allow circumvention of a statute or DoD rules, regulations, orders, manuals, directives, or instructions. In this situation, the use of the software must be closely examined to ensure a circumvention possibility exists.

(2) Records qualifying under the low (b)(2) profile are those that are trivial and housekeeping in nature for which there is no legitimate public interest or benefit to be gained by release, and it would constitute an administrative burden to process the request.

APPENDIX B TO PART 295—EXEMPTIONS

A. Exemption (b)(1)

Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by executive order and implemented by regulations, such as DoD 5200.1-R, “Information Security Program Regulation”. Although material is not classified at the time of the FOIA request, a classification review may be undertaken to determine whether the information should be classified. The procedures in DoD 5200.1-R, section 2-204f, apply. In addition, this exemption shall be invoked when the following situations are apparent:

(1) The fact of the existence or nonexistence of a record would itself reveal classified information. In this situation, the OIG shall neither confirm nor deny the existence or nonexistence of the record being requested.

(2) Information that concerns one or more of the classification categories established by executive order and DoD 5200.1-R (32 CFR part 159a) shall be classified if its unauthorized disclosure, either by itself or in the context of other information, reasonably could be expected to cause damage to the national security.

B. Exemption (b)(2)

Those related solely to the internal personnel rules and practices of DoD or the OIG. This exemption has two profiles, high (b)(2) and low (b)(2).

(1) Records qualifying under high (b)(2) are those containing or constituting statutes, rules, regulations, orders, manuals, directives, and instructions the release of which would allow circumvention of these records, thereby substantially hindering the effective performance of a significant function of the DoD or OIG. Examples include:

(a) Those operating rules, guidelines, and manuals, for DoD and OIG investigators, inspectors, auditors, or examiners that must remain privileged in order for the OIG to fulfill a legal requirement.

(b) Personnel and other administrative matters, such as examination questions and answers used in training courses or in the determination of the qualification of candidates for employment, entrance on duty, advancement, or promotion.

(c) Computer software meeting the standards of §295.3(c) of this part, the release of which would allow circumvention of a statute or DoD rules, regulations, orders, manuals, directives, or instructions. In this situation, the use of the software must be closely examined to ensure a circumvention possibility exists.

(2) Records qualifying under the low (b)(2) profile are those that are trivial and housekeeping in nature for which there is no legitimate public interest or benefit to be gained by release, and it would constitute an administrative burden to process the request.
in order to disclose the records. Examples include: rules of personnel’s use of parking facilities or regulation of lunch hours, statements of policy as to sick leave, and trivial administrative data such as file numbers, mail routing stamps, initials, data processing notations, brief references to previous communications, and other like administrative markings.

C. Exemption (b)(3)
Those concerning matters that a statute specifically exempts from disclosure by terms that permit no discretion on the issue, or in accordance with criteria established by that statute for withholding or referring to particular types of matters to be withheld. Examples of statutes are:

2. Patent Secrecy, 35 U.S.C. 181–188. Any records containing information relating to inventions that are the subject of patent applications on which Patent Secrecy Orders have been issued.
8. Protection of Intelligence Sources and Methods, 50 U.S.C. 403(d)(3).

D. Exemption (b)(4)
Those containing trade secrets or commercial or financial information that the OIG receives from a person or organization outside the Government with the understanding that the information or record will be retained on a privileged or confidential basis in accordance with the customary handling of such records. Records within the exemption must contain trade secrets, or commercial or financial records, the disclosure of which is likely to cause substantial harm to the competitive position of the source providing the information; impair the Government’s ability to obtain necessary information in the future; or impair some other legitimate Government interest. Examples include:

1. Commercial or financial information received in confidence in connection with loans, bids, contracts, or proposals, as well as other information received in confidence or privileged, such as trade secrets, inventions, discoveries, or other proprietary data. See also 32 CFR part 295h, “Release of Acquisition-Related Information”.
2. Statistical data and commercial or financial information concerning contract performance, income, profits, losses, and expenditures, if offered and received in confidence from a contractor or potential contractor.
3. Personal statements given in the course of inspections, investigations, or audits, when such statements are received in confidence from the individual and retained in confidence because they reveal trade secrets or commercial or financial information normally considered confidential or privileged.
4. Financial data provided in confidence by private employers in connection with locality wage surveys that are used to fix and adjust pay schedules applicable to the prevailing wage rate of employees within the Department of Defense.
5. Technical or scientific data developed by a contractor or subcontractor exclusively at private expense, and technical or scientific data developed in part with Federal funds and in part at private expense, wherein the contractor or subcontractor has retained legitimate proprietary interest in such data in accordance with title 10, U.S.C. 2320–2321 and DoD Federal Acquisition Regulation Supplement (DFARS), subpart 27.4 (see section C.(5) of this appendix).
6. Computer software meeting the conditions of §295.3(c), which is copyrighted under the Copyright Act of 1976 (17 U.S.C. 106), the disclosure of which would have an adverse impact on the potential market value of a copyrighted work.

E. Exemption (b)(5)
Except as provided in subsections (2) through (5), below, internal advice, recommendations, and subjective evaluations, as contrasted with factual matters, that are reflected in records pertaining to the decision-making process of an agency, whether within or among agencies (as defined in 5 U.S.C. 552(e)), DoD Components or OIG components. Also exempted are records pertaining to attorney-client privilege and the attorney work-product privilege.

1. Examples include:
   a. The nonfactual portions of staff papers, to include after-action reports and situation reports containing staff evaluations, advice, opinions, or suggestions.
   b. Advice, suggestions, or evaluations prepared on behalf of the Department of Defense by individual consultants or by boards, committees, councils, groups, panels, conferences, task forces, or other similar groups that are formed for the purpose of obtaining advice and recommendations.
Office of the Secretary of Defense

(c) Those non-factual portions or evaluations by DoD or OIG Components personnel of contractors and their products.

(d) Information of a speculative, tentative, or evaluative nature of such matters as proposed plans to procure, lease or otherwise acquire and dispose of materials, real estate, facilities or functions, when such information would provide undue or unfair competitive advantage to private personal interests or would impede legitimate Government functions.

(e) Trade secret or other confidential research development, or commercial information owned by the Government, where premature release is likely to affect the Government's negotiating position or other commercial interests.

(f) Records that are exchanged among agency personnel and within and among DoD Components or agencies as part of the preparation for anticipated administrative proceeding by an agency or litigation before any Federal, state, or military court, as well as records that qualify for the attorney-client privilege.

(g) Those portions of official reports of inspection, reports of the Inspector General, audits, investigations, or surveys pertaining to safety, security, or the internal management, administration, or operation of one or more DoD Components, when these records have traditionally been treated by the courts as privileged against disclosure in litigation.

(h) Computer software meeting the standards of §295.3(c), which is deliberative in nature, the disclosure of which would inhibit or chill the decision-making process. In this situation, the use of software must be closely examined to ensure its deliberative nature.

(i) Planning, programming, and budgetary information which is involved in the defense planning and resource allocation process.

(2) If any such intra or interagency record or reasonably segregable portion of such record hypothetically would be made available routinely through the "discovery" process, in the course of litigation with the agency, i.e., the process by which litigants obtain information from each other that is relevant to the issues in a trial or hearing, then it should not be withheld from the general public even though discovery has not been sought in actual litigation. If, however, the information hypothetically would only be made available through the discovery process by special order of the court based on the particular needs of a litigant, balanced against the interests of the agency in maintaining its confidentiality, then the record or document need not be made available under this part. Consult with legal counsel to determine whether exemption 5 material would be routinely made available through the discovery process.

(3) Intra or interagency memoranda or letters that are factual, or those reasonably segregable portions that are factual, are routinely made available through "discovery," and shall be made available to a requester, unless the factual material is otherwise exempt from release, inextricably intertwined with the exempt information, so fragmented as to be uninformative, or so redundant of information already available to the requester as to provide no new substantive information.

(4) A direction or order from a superior to a subordinate, though contained in an internal communication, generally cannot be withheld from a requester if it constitutes policy guidance or a decision, as distinguished from a discussion of preliminary matters or a request for information or advice that would compromise the decision-making process.

(5) An internal communication concerning a decision that subsequently has been made a matter of public record must be made available to a requester when the rationale for the decision is expressly adopted or incorporated by reference in the record containing the decision.

F. Exemption (b)(6)

Information in personnel and medical files, as well as similar personal information in other files, that, if disclosed to the requester would result in a clearly unwarranted invasion of personal privacy. Release of information about an individual contained in a Privacy Act System of records would constitute a clearly unwarranted invasion of privacy is prohibited, and could subject the releaser to civil and criminal penalties.

(1) Examples of other files containing personal information similar to that contained in personnel and medical files include:

(a) Those compiled to evaluate or adjudicate the suitability of candidates for civilian employment or membership in the Armed Forces, and the eligibility of individuals (civilian, military, or contractor employees) for security clearances, or for access to particularly sensitive classified information.

(b) Files containing reports, records, and other material pertaining to personnel matters in which administrative action, including disciplinary action, may be taken.

(2) Home addresses are normally not releasable without the consent of the individuals concerned. In addition, the release of lists of DoD military and civilian personnel's names and duty addresses who are assigned to units that are sensitive, routinely deployable, or stationed in foreign territories can constitute a clearly unwarranted invasion of personal privacy.

(a) Privacy interest. A privacy interest may exist in personal information even though the information has been disclosed at
some place and time. If personal information is not freely available from sources other than the Federal Government, a privacy interest exists in its nondisclosure. The fact that the Federal Government expended funds to prepare, index and maintain records on personal information, and the fact that a requester invokes FOIA to obtain these records indicates the information is not freely available.

(b) Published telephone directories, organizational charts, rosters and similar materials for personnel assigned to units that are sensitive, routinely deployable, or stationed in foreign territories are withholdable under this exemption.

(1) This exemption shall not be used in an attempt to protect the privacy of a deceased person, but it may be used to protect the privacy of the deceased person’s family.

(2) Individuals’ personnel, medical, or similar files may be withheld from them or their designated legal representative only to the extent consistent with DoD Directive 5400.11 (32 CFR part 286a).

(5) A clearly unwarranted invasion of the privacy of the persons identified in a personnel, medical or similar record may constitute a basis for deleting those reasonably segregable portions of that record, even when providing it to the subject of the record. When withholding personal information from the subject of the record, legal counsel should first be consulted.

G. Exemption (b)(7)

Records or information compiled for law enforcement purposes; i.e., civil, criminal, or military law, including the implementation of executive orders or regulations issued pursuant to law. This exemption may be invoked to prevent disclosure of documents not originally created for, but later gathered for law enforcement purposes.

(1) This exemption applies, however, only to the extent that production of such law enforcement records or information could result in the following:

(a) Could reasonably be expected to interfere with enforcement proceedings.

(b) Would deprive a person of the right to a fair trial or to an impartial adjudication.

(c) Could reasonably be expected to constitute an unwarranted invasion of personal privacy of a living person, including surviving family members of an individual identified in such a record.

(1) This exemption also applies when the fact of the existence or nonexistence of a responsive record would itself reveal personally private information and the public interest in disclosure is not sufficient to outweigh the privacy interest. In this situation, the OIG shall neither confirm nor deny the existence or nonexistence of the record being requested.

(ii) A “refusal to confirm or deny” response must be used consistently, not only when a record exists, but also when a record does not exist. Otherwise, the pattern of using a “no records” response when a record does not exist and a “refusal to confirm or deny” when a record does exist will itself disclose personally private information.

(iii) Refusal to confirm or deny should not be used when (1) the person whose personal privacy is in jeopardy has provided the requester with a waiver of his or her privacy rights; or (2) the person whose personal privacy is in jeopardy is deceased, and the OIG is aware of that fact.

(d) Could reasonably be expected to disclose the identity of a confidential source, including a source within the Department of Defense, a State, local, or foreign agency or authority, or any private institution which furnishes the information on a confidential basis.

(e) Could disclose information furnished from a confidential source and obtained by a criminal law enforcement authority in a criminal investigation or by an agency conducting a lawful national security intelligence investigation.

(f) Would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law.

(g) Could reasonably be expected to endanger the life or physical safety of any individual.

(2) Examples include:

(a) Statements of witnesses and other material developed during the course of the investigation and all materials prepared in connection with related government litigation or adjudicative proceedings.

(b) The identity of firms or individuals being investigated for alleged irregularities involving contracting with Department of Defense when no indictment has been obtained nor any civil action filed against them by the United States.

(c) Information obtained in confidence, expressed or implied, in the course of a criminal investigation by a criminal law enforcement agency or office within a DoD Component, or a lawful national security intelligence investigation conducted by an authorized agency or office within a DoD Component. National security intelligence investigations include background security investigations and those investigations conducted for the purpose of obtaining affirmative or counterintelligence information.

(3) The right of individual litigants to investigative records currently available by law (such as, the Jencks Act, 18 U.S.C. 3500) is not diminished.

(4) When the subject of an investigative record is the requester of the record, it may
§ 296.4 Procedures for request of records.

(a) Requests. Requests for access to records of the National Reconnaissance Office may be filed by mail or FAX addressed to the Chief, Information Access and Release Center, National Reconnaissance Office, 14675 Lee Road, Chantilly, VA 20151–1715, FAX Number (703) 808–5082. Requests need not be made on any special form but must be by letter or FAX or other written statement identifying the request as a Freedom of Information Act request and setting forth sufficient information reasonably describing the requested record. All requests should contain a willingness to pay assessable FOIA fees.
(b) **Date of acceptance.** The requestor shall be promptly informed by letter of the date of acceptance of the request. The search conducted pursuant to that request shall be for records in existence as of and through the acceptance date.

(c) **Determination and notification.** When the requested record has been located and identified, the Initial Denial Authority shall determine whether the record is one which, consistent with statutory requirements, executive orders and appropriate directives, may be released or may contain information that is exempt under the provisions of 5 U.S.C. 552. Normally, the Initial Denial Authority shall notify the requestor of the determination within 20 working days of the receipt of the request.

(d) **Multi-track processing.** The NRO has 3 queues in which requests may be processed when a significant number of pending requests prevents a response within 20 working days, all based on the date of receipt, first-in first-out, and the amount of work, time, and volume involved in processing the requests.

(See subparagraph C1.5.4.2. of DoD 5400.7–R1, Sept 1998). The queues are:

(1) **Simple.** Those requests which are easily handled and processed.

(2) **Complex.** Those requests which are complicated by multiple searches, coordinations, consultations, volume etc.

(3) **Expedited.** Expedited processing shall be granted to a requestor after the requestor asks for and demonstrates a compelling need for the information (paragraph C1.5.4.3. of DoD 5400.7–R)

(e) **Extension of response time.** In unusual circumstances when additional time is needed to respond, the Initial Denial Authority shall notify the requestor in writing of the reasons therefore, and an anticipated date, not to exceed 10 additional working days, on which a determination is expected to be dispatched. The Initial Denial Authority will normally send this notification within 20 working days from receipt of the request. Should it be determined that this 10 additional working days cannot be met, the requestor shall be notified and offered the opportunity to limit or narrow the scope of the request in order to facilitate faster processing, or to arrange an alternative time for processing the request (paragraph C1.5.2.6. of DoD 5400.7–R)

(f) **Fees.**

(1) **General.** As a component of the Department of Defense, the applicable published Department rules and schedules with respect to the schedule of fees chargeable and waiver of fees will also be the policy of NRO. See 32 CFR 286.33.

(2) **Advance payments.** (i) Where a total fee to be assessed is estimated to exceed $250, advance payment of the estimated fee will be required before processing of the request, except where assurances of full payment are received from a requestor with a history of prompt payment. Where a requestor has previously failed to pay a fee within 30 calendar days of the date of the billing, the requestor will be required to pay the full amount owed, plus any applicable interest, or demonstrate that he or she has paid the fee, as well as make an advance payment of the full amount of any estimated fee before processing of a new or pending request continues.

(ii) For all other requests, advance payment, i.e., a payment made before work is commenced, will not be required. Payment for work already completed is not an advance payment. Responses will not be held pending receipt of fees from requestors with a history of prompt payment. Fees should be paid by certified check or postal money order forwarded to the Chief, Information Access and Release Center (IARC) and made payable to the Treasurer of the United States.

§ 296.5 **Appeals.**

Any person denied access to records, denied a fee waiver, involved in a dispute regarding fee estimates, or who considers a no record determination, or any determination to be adverse in nature, may, within 60 days after notification of such denial, file an appeal to the Freedom of Information Act Appellate Authority, National Reconnaissance Office. Such an appeal shall be in

writing addressed to the Chief, Information Access and Release Center, National Reconnaissance Office, 14675 Lee Road, Chantilly, VA 20151–1715, should reference the initial denial, and shall contain the basis for disagreement with the initial denial. The Freedom of Information Act Appellate Authority shall normally make a final determination on an appeal within 20 working days after receipt of the appeal.

§ 298.6 Reading room.

(a) The NRO shall provide a reading room equipped with hard copy and electronic records as required in the “Electronic Freedom of Information Act Amendments of 1996”. PART 298—DEFENSE INVESTIGATIVE SERVICE (DIS) FREEDOM OF INFORMATION ACT PROGRAM

Sec.
298.1 Purpose.
298.2 Organization.
298.3 Records maintained by DIS.
298.4 Procedures for release of DIS records.
298.5 Information requirements.

S O U R C E : 60 FR 20032, Apr. 24, 1995, unless otherwise noted.

§ 298.1 Purpose.

This part states the intent of the agency regarding policy and procedures for the public to obtain information from the Defense Investigative Service (DIS) under the Freedom of Information Act (FOIA).

§ 298.2 Organization.

(a) The DIS organization includes a Headquarters located in Alexandria, Virginia; four Regions and one operational area with subordinate operating locations throughout the Continental United States (CONUS), Alaska, Hawaii, and Puerto Rico; the Defense Industrial Security Clearance Office (DISCO), Columbus, Ohio; the Personnel Investigations Center (PIC) and National Computer Center (NCC) in Baltimore, Maryland; Office of Industrial Security International Europe (OISI–E), located in Brussels, Belgium with a subordinate office in Mannheim, Germany; Office of Industrial Security International Far East (OISI–FE) located at Camp Zama, Japan; and the Department of Defense Security Institute, located in Richmond, Virginia.

(b) A copy of the DIS Directory showing the addresses of all offices, is available to the public upon request and may be obtained by following the procedures outlined in §298.4. The names and duty addresses of DIS personnel serving overseas are not released.

§ 298.3 Records maintained by DIS.

It is the policy of DIS to make publicly available all information which may be released under the Freedom of Information Act (FOIA), consistent with its other responsibilities. In implementing this policy, DIS follows the procedures set forth in 32 CFR part 286. DIS maintains the following records which may be of interest to the public:

(a) The Defense Clearance and Investigations Index (DCII), which contains references to investigative records created and held by DoD Components. The records indexed are primarily those prepared by the investigative agencies of the DoD, covering criminal, fraud, counterintelligence, and personnel security information. This index also includes security clearance determinations made by the various components of the Department of Defense. Information in the DCII is not usually available to the general public, since general release would violate the privacy of individuals whose names are indexed therein.

(b) Records created as required by DoD Directive 5105.42, “Defense Investigative Service (DA&M),” (32 CFR
§ 298.4 Procedures for release of DIS records.

(a) (1) All requests will be submitted in writing to: Defense Investigative Service, Office of Information and Public Affairs (V0020), 1340 Braddock Place, Alexandria, Virginia 22314–1651.

(2) Requests directed to any agency activity (headquarters or field elements) will be forwarded to the Office of Information and Public Affairs.

(b) All requests shall contain the following information:

(1) As complete an identification as possible of the desired material including to the extent known, the title description, and date. 32 CFR part 286 does not authorize ‘‘fishing expeditions.’’ In the event a request is not reasonably described as defined in 32 CFR part 286, the requester will be notified by DIS of the defect.

(2) The request must contain the first name, middle name or initial, surname, date and place of birth, social security number, and, if applicable, military service number of the individual concerned, with respect to material concerning investigations of an individual.

(3) A statement as to whether the requester wishes to inspect the record or obtain a copy of it.

(4) A statement that all costs for search (in the case of ‘‘other’’ and ‘‘commercial’’ requesters), duplication (in case of all categories of requesters), and review (in the case of ‘‘commercial requesters’’) will be borne by the requester even if no records, or no releasable records, are found, if appropriate. See 32 CFR part 286 for information on fees and fee waivers.

(5) The full address (including ZIP code) of the requester.

(c) A notarized request by an individual requesting investigative or other personnel records may be required to avoid the risk of invasion of privacy. Requesters will be notified and furnished appropriate forms if this requirement is deemed necessary. In lieu of a notarized statement, an unsworn declaration in accordance with 28 U.S.C. 1746 may be required.

(d) When a request is incomplete or fails to include all of the information required, the requester will be contacted for additional information prior to beginning release procedures.

(e) DIS shall normally respond to request within 10 working days after receipt by the Office of Information and Public Affairs, unless an extension is required and the requester is notified in writing. If a significant number of requests prevents responding in 10 working days, requests will be processed on a first-come, first-served basis to ensure equitable treatment to all requesters.

(f) When the release of information has been approved, a statement of costs computed in accordance with the DoD Fee Schedule (32 CFR part 286), or a statement waiving the fee, will be included in the notification of approval. Records approved for release will generally be mailed immediately following the receipt of fees. Fees may be waived or reduced in accordance with 32 CFR part 286. Remittances must be in the form of a personal check, bank draft, or postal money order. Remittances are to be made payable to the Treasurer of the United States. Certified documents may be requested for an official government or legal function, and will be provided at a rate established by 32 CFR part 286 for each authentication.

(g) When requests are denied in whole or in part in accordance with 32 CFR part 286, the requester will be advised of the identity of the official making the denial, the reason for the denial, the right of appeal of the decision, and the identity of the person to whom an appeal may be addressed.

(h) Facilities for the review or reproduction of records following approval of the request or appeal are available...
§ 299.1 Purpose.
(a) This part implements 5 U.S.C. 552, as amended, and DoD 5400.7–R, assigns responsibility for responding to written requests made pursuant to 5 U.S.C. 552; and provides for the review required to determine the appropriateness of classification pursuant to DoD 5200.1–R.
(b) This part applies to all NSA/CSS elements, field activities and personnel, and governs the release or denial of any information under the terms of the Freedom of Information Act (FOIA).

§ 299.2 Definitions.

Terms used in this part, with the exception of the terms in § 299.4, are defined in DoD 5400.7–R. For ease of reference, however, some terms are defined in this section.

(a) FOIA request. (1) A written request for NSA/CSS records, that reasonably describes the records sought, made by any person, including a member of the public (U.S. or foreign citizen/entity), an organization or a business, but not including a Federal Agency or a fugitive from the law that either explicitly or implicitly invokes 5 U.S.C. 552, as amended, DoD 5400.7–R, or NSA/CSS Freedom of Information Act Program, within the National Security Agency/Central Security Service. Requesters should also indicate a willingness to pay fees associated with the processing of their request or, in the alternative, why a waiver of fee may be appropriate.

(3) All appeals will be reviewed by the Director, DIS, or the Special Assistant to the Director, DIS. Responses to appeals normally shall be made within 20 working days after receipt, unless an extension is required and the appellant is notified. When a request is approved on appeal, the procedures set forth in paragraph (f) of this section will be followed.

§ 298.5 Information requirements.

The DIS Office of Information and Public Affairs is responsible for preparation of the annual “Freedom of Information Act Report.” This report has been assigned control symbol PA (TRA&AN) 1365. No forms or publications are required by this part.
§299.3 Policy.

(a) Pursuant to written requests submitted in accordance with the FOIA, the NSA/CSS will make records available to the public consistent with the Act and the need to protect government interests pursuant to subsection (b) of the Act. Oral requests for information will not be accepted. Before the Agency responds to a request, the request must comply with the provisions of this part.

(b) Requests for electronic records shall be processed, and the records retrieved whenever retrieval can be achieved through reasonable efforts (in terms of both time and manpower) and these efforts would not significantly interfere with the operation of an automated information system. Reasonable efforts shall be undertaken to maintain records in forms of formats that render electronic records readily reproducible.

(c) The NSA/CSS does not originate final orders, opinions, statements of policy, interpretations, staff manuals, or instructions that affect members of the public of the type generally covered by the indexing requirement of 5 U.S.C. 552. Therefore, it has been determined, pursuant to the pertinent statutory and executive order requirements, that it is unnecessary and impracticable to publish an index of the type required by 5 U.S.C. 552. However, should such material be identified, it will be indexed and placed in the library at the Cryptologic History Museum, which serves as the NSA/CSS FOIA reading room, and made available through the Internet. Copies of records which have been released under providing existing records and the requester does not object.

3 Copies may be obtained through a FOIA request to the National Security Agency, Ft. George G. Meade, MD 20755-6000.
the FOIA and which NSA/CSS has determined are likely to become the subject of subsequent requests will be placed in the library of the Cryptologic History Museum. In addition, these records will be made available to the public through the Internet. An index of this material will be available in hard copy in the museum library and on the Internet.

§ 299.4 Responsibilities.

(a) The Deputy Director for Corporate Management (DDCM) is responsible for responding to FOIA requests and for collecting fees from FOIA requesters.

(b) The Director of Policy (N5) is the NSA/CSS focal point for responding to FOIA requests. The Deputy Director of Policy (N5P) is the initial denial authority (IDA) and is responsible for:

(1) Receiving and staffing all initial, written requests for the release of information;

(2) Conducting the necessary reviews to determine the releasability of information pursuant to DoD 5200.1-R;

(3) Providing the requester with releasable material;

(4) Notifying the requester of any adverse determination, including informing the requester of his/her right to appeal an adverse determination to the appeal authority (see §299.5(m));

(5) Assuring the timeliness of responses;

(6) Negotiating with the requester regarding satisfying his request (e.g., time extensions, modifications to the request);

(7) Authorizing extensions of time within Agency components (e.g., time needed to locate and/or review material);

(8) Assisting the Office of General Counsel (OGC) in judicial actions filed under 5 U.S.C. 552;

(9) Maintaining the FOIA reading room and the Internet home page; and

(10) Compiling the annual FOIA report.

(c) The Chief, Finance and Accounting Office (N12) is responsible for:

(1) Sending initial and follow-up bills to FOIA requesters as instructed by the FOIA office, with a copy of all bills going to the FOIA office. In cases where an estimate of fees is provided to the requester prior to the processing of his/her request, no bill will be sent. Although the FOIA office asks FOIA requesters to send payment to the FOIA office, for subsequent forwarding to the Finance and Accounting Office, payment may be received directly in the Finance and Accounting Office. Such payment may be identified by the payee as payment for a Freedom of Information Act request, by the letters “FOIA,” or as payment for J9XXX/J10XXXX. (FOIA requests are serialized by a one-up number beginning on October 1 of each year, e.g., J9001, J9002);

(2) Receiving and handling all checks or money orders remitted in payment for FOIA requests, crediting them to the proper account and notifying the FOIA office promptly of all payments received;

(3) Notifying the FOIA office promptly of any payments received directly from requesters even if no bill was initiated by the Finance and Accounting Office; and

(4) Issuing a prompt reimbursement of overpaid fees to the requester upon being notified of such overpayment by the FOIA office.

(d) The Deputy Director, NSA/CSS, is the FOIA Appeal Authority required by 5 U.S.C. 552 for considering appeals of adverse determinations made by the Deputy Director of Policy. In the absence of the Deputy Director, the Executive Director, NSA/CSS, serves as the Appeal Authority.

(e) The General Counsel (GC) or his designee is responsible for:

(1) Reviewing responses to FOIA requests to determine the legal sufficiency of actions taken by the Deputy Director of Policy, as required on a case-by-case basis;

(2) Reviewing the appeals of adverse determinations made by the Deputy Director of Policy. The GC will prepare an appropriate reply to such appeals and submit that reply to the NSA/CSS FOIA Appeal Authority for final decision; and

(3) Representing the Agency in all judicial actions relating to 5 U.S.C. 552 and providing support to the Department of Justice.
§ 299.5 Procedures.

(a) Requests for copies of records of the NSA/CSS shall be delivered to the Deputy Director of Policy immediately upon receipt once the request is identified as a Freedom of Information Act or Privacy Act request or appears to be intended as such a request.

(b) The Deputy Director of Policy will endeavor to respond to a direct request to NSA/CSS within 20 working days of receipt. If the request fails to meet the minimum requirements of a perfected FOIA request, the FOIA office will advise the requester of how to perfect the request. The 20 working day time limit applies upon receipt of the perfected request. In the event the Deputy Director of Policy cannot respond within 20 working days due to unusual circumstances, the chief of the FOIA office will advise the requester of the reason for the delay and negotiate a completion date with the requester.

(c) Direct requests to NSA/CSS will be processed in the order in which they are received. Requests referred to NSA/CSS by other government agencies will be placed in the processing queue according to the date the request was received by the referring agency if that date is known. If it is not known when the referring agency received the request, it will be placed in the queue according to the date of the requester’s letter.

(d) The FOIA office will maintain three queues (“simple,” “complex” and “expedite”) for the processing of records in chronological order. Cases placed in the “simple” queue require little time to process. “Complex” cases require a substantial amount of review and research prior to making a final release determination. This procedure is followed so that a requester will not be required to wait a long period of time to learn that the Agency has no records responsive to his request or to obtain records that do not require a lengthy review.

(e) Expedited processing shall be granted to a requester if he/she requests such treatment and demonstrates a compelling need for the information. A demonstration of compelling need by a requester shall be made by a statement certified by the requester to be true and correct to the best of his/her knowledge. A compelling need is defined as follows:

(1) The failure to obtain the records on an expedited basis could reasonably be expected to pose an imminent threat to the life or physical safety of an individual.

(2) The information is urgently needed by an individual primarily engaged in disseminating information to inform the public about actual or alleged Federal Government activity. Urgently needed means that the information has a particular value that will be lost if not disseminated quickly.
(3) A request may also be expedited, upon receipt of a statement certified by the requester to be true and correct to the best of his/her knowledge, for the following reasons:
   (i) There would be an imminent loss of substantial due process rights.
   (ii) There is a humanitarian need for the material. Humanitarian need means that disclosing the information will promote the welfare and interests of mankind.

(4) Requests which meet the criteria for expedited treatment as defined in paragraph (e)(3) of this section will be placed in the expedite queue behind requests which are expedited because of a compelling need (see §299.5(e)).

(5) A decision on whether to grant expedited treatment will be made within 10 calendar days of receipt. The requester will be notified whether his/her request meets the criteria for expedited processing within that time frame. If a request for expedited processing has been granted, a substantive response will be provided within 20 working days of the date of the decision to expedite. If a substantive response cannot be provided within 20 working days, a response will be provided as soon as practicable and the chief of the FOIA office will negotiate a completion date with the requester, taking into account the number of cases preceding it in the expedite queue and the complexity of the responsive material.

(f) If the Deputy Director of Policy, in consultation with the GC, determines that the fact of the existence or non-existence of requested material is a matter that is exempt from disclosure, the requester will be so advised.

(g) If the FOIA office determines that NSA/CSS may have information of the type requested, the office shall contact each Key Component reasonably expected to hold responsive records.

(h) The FOIA office will assign the requester to the appropriate fee category under 5 U.S.C. 552, as amended, DoD 5400.7–R, and NSA/CSS Freedom of Information Act Program, and, if a requester seeks a waiver of fees, the FOIA office will, after determining the applicable fee category, determine whether to waive fees pursuant to DoD 5400.7–R. (See also §299.6.) If fees are to be assessed in accordance with the provisions of 5 U.S.C. 552 and DoD 5400.7–R, the Key Component will prepare an estimate of the cost required to locate, retrieve and, in the case of commercial requesters, review the records. Cost estimates will include only direct search, duplication costs and review time (for commercial requesters) as defined in DoD 5400.7–R.

(1) If the cost estimate does not exceed $25.00, the component shall search for and forward to the FOIA office the documents responsive to the request. Fees $15.00 and under will be waived.

(2) If the costs are estimated to exceed $25.00, the component shall provide an estimate to the FOIA office without conducting the search. The chief of the FOIA office will advise the requester of the costs to determine a willingness to pay the fees. A requester’s willingness to pay fees will be satisfactory when the estimated fee does not exceed $250.00 and the requester has a history of prompt payment. A history of prompt payment means payment within 30 calendar days of the date of billing. If fees are expected to exceed $250.00, the requester will be required to submit payment before processing is continued if the requester does not have a history of prompt payment. All payments will be made by certified check or money order made payable to the Treasurer of the United States.

(3) When a requester has previously failed to pay a fee charged within a timely fashion (i.e., within 30 calendar days from the date of billing) payment is required before a search is initiated or before review is begun. When a requester has no payment history, an advance payment may be required of the requester after the case has been completed, but prior to providing the final response.

(4) If a requester has failed to pay fees after three bills have been sent, additional requests from that requester and/or the organization or company he/she represents will not be honored until all costs and interest are paid.

(i) Upon receipt of a statement of willingness to pay assessable fees or the payment from the requester, the FOIA office shall notify the NSA/CSS component to search for the appropriate documents.
§299.5  32 CFR Ch. I (7–1–02 Edition)

(1) The component conducting the search will advise the FOIA office of the types of files searched (e.g., electronic records/e-mail, video/audio tapes, paper), the means by which the search was conducted (e.g., subject or chronological files, files retrievable by name or personal identifier) and any key words used in an electronic search.

(2) If the search does not locate the requested records, the Deputy Director of Policy shall so advise the requester and offer appeal rights.

(3) If the search locates the requested records, the holding organization will furnish copies of these records immediately to the FOIA office. The Deputy Director of Policy will make a determination as to the releasability of the records in consultation with the GC, the Legislative Affairs Office (if any information relates to members of Congress or their staffs) and other Agency components, as appropriate. This determination shall also state, with particularity, that a search reasonably calculated to locate responsive records was conducted and that all reasonably segregable, non-exempt information was released. The located records will be handled as follows:

(i) All exempt records or portions thereof will be withheld and the requester so advised along with the statutory basis for the denial; the volume of material being denied, unless advising of the volume would harm an interest protected by exemption (see 5 U.S.C. 552); and the procedure for filing an appeal of the denial.

(ii) All segregable, non-exempt records or portions thereof will be forwarded promptly to the requester.

(j) Records or portions thereof originated by other agencies or information of primary interest to other agencies found in NSA/CSS records will be handled as follows:

(1) The originating agency’s FOIA Authority will be provided with a copy of the request and the stated records.

(2) The requester will be advised of the referral, except when notification would reveal exempt information.

(k) Records of portions thereof originated by a commercial or business submitter and containing information that is arguably confidential commercial or financial information as defined in Executive Order 12600 (52 FR 23781, 3 CFR, 1988 Comp., p. 235) will be handled as follows:

(1) The commercial or business submitter will be provided with a copy of the records as NSA/CSS proposes to release them, and the submitter will be given an opportunity to inform the FOIA office about its objections to disclosure in writing.

(2) The Deputy Director of Policy or his/her designee shall review the submitter’s objections to disclosure and, if N5P decides to release records or portions thereof to the requester, provide the submitter with an opportunity to enjoin the release of such information.

(l) Records may be located responsive to an FOIA request which contain portions not responsive to the subject of the request. The non-responsive portions will be processed as follows:

(1) If the information is easily identified as releasable, the non-responsive portions will be provided to the requester.

(2) If additional review or coordination with other NSA/CSS elements or other government agencies or entities is required to determine the releasability of the information, and the processing of the material would be facilitated by excluding those portions from review, the requester should be consulted regarding the need to process those portions. If the requester states that he is interested in the document in its entirety, including those portions not responsive to the subject of his request, the entire document will be considered responsive and reviewed accordingly.

(3) If the conditions as stated in paragraph (l)(2) of this section pertain, but it is not a simple matter to contact and/or reach an agreement with the requester, the non-responsive portions will be whitewashed or otherwise marked to differentiate the removal of non-responsive material from the removal of exempt portions. The requester shall be advised that portions were removed as non-responsive. In addition, he/she shall be given an indication of the manner in which those portions would be treated if responsive (e.g., the information would be protected by exemptions, would require extensive review/consultation). Such a response is not
Office of the Secretary of Defense

§ 299.5

considered an adverse determination. If the requester informs the FOIA office of his interest in receiving the "whited-out" portions, the request will be placed in the same location within the processing queue as the original request and those portions of the documents will be processed.

(4) If the requester states in his initial request that he/she wants all non-responsive portions contained within documents containing responsive information, then the documents will be processed in their entirety.

(m) Any person advised of an adverse determination will be notified of the right to submit an appeal which must be postmarked within 60 days of the date of the response letter and that the appeal must be addressed to the NSA/CSS Appeal Authority, National Security Agency, Ft. George G. Meade, MD 20755-6000. The following actions are considered adverse determinations:

(1) Denial of records or portions of records;
(2) Inability of NSA/CSS to locate records;
(3) Denial of a request for the waiver or reduction of fees;
(4) Placement of requester in a specific fee category;
(5) Amount of estimates of processing costs;
(6) Denial of a requester for expeditious treatment; and
(7) Non-agreement regarding completion date of request.

(n) The GC or his designee will process appeals and make a recommendation to the Appeal Authority.

(1) Upon receipt of an appeal regarding the denial of information or the inability of the Agency to locate records, the GC or his designee shall review the record and determine whether the denial was proper and/or whether an adequate search was conducted for responsive material, and make other determinations and recommendations as appropriate.

(2) If the GC or his designee determines that additional information may be released, the information shall be made available to the requester within 20 working days from receipt of the appeal. The conditions for responding to an appeal for which expedited treatment is sought by the requester are the same as those for expedited treatment on the initial processing of a request. (See paragraph (e) of this section.)

(3) If the GC or his/her designee determines that the denial was proper, the requester must be advised within 20 days after receipt of the appeal that the appeal is denied. The requester likewise shall be advised of the basis for the denial and the provisions for judicial review of the Agency’s appellate determination.

(4) If a new search for records is conducted and produces additional material, the additional records will be forwarded to the Deputy Director of Policy, as the IDA, for review. Following his/her review, the Deputy Director of Policy will return the material to the GC with his/her recommendation for release or withholding. The GC will review the material on behalf of the Appeal Authority, and the Appeal Authority will make the release determination. Upon denial or release of additional information, the Appeal Authority will advise the requester that more material was located and that the IDA and the Appeal Authority each conducted an independent review of the documents. In the case of denial, the requester will be advised of the basis of the denial and the right to seek judicial review of the Agency’s action.

(5) When a requester appeals the absence of a response within the statutory time limits, the GC shall process the absence of a response as it would denial of access to records. The Appeal Authority will advise the requester of the right to seek judicial review.

(6) Appeals will be processed using the same multi-track system as initial requests. If an appeal cannot be responded to within 20 working days, the requirement to obtain an extension from the requester is the same as with initial requests. The time to respond to an appeal, however, may be extended by the number of working days (not to exceed 10) that were not used as additional time for responding to the initial request. That is, if the initial request is processed within 20 working days so that the extra 10 days of processing which an agency can negotiate
with the requester are not used, the response to the appeal may be delayed for that 10 days (or any unused portion of the 10 days).

§ 299.6 Fees.

(a) Upon receipt of a request, N5P shall evaluate the request to determine the fee category or status of the requester, as well as the appropriateness of a waiver or reduction of fees if requested. There are no fees associated with a Privacy Act request, except as stated in NSA/CSS Regulation 10–35, Implementation of the Privacy Act of 1974. If fees are assessable, a search cost estimate will be sent to the Key Component(s) expected to maintain responsive records. If N5P assigns a fee category to a requester which differs from that claimed by the requester or determines that a waiver or reduction of fees is not appropriate, N5P shall notify the requester of this discrepancy and of the estimated cost of processing the request. The requester will be given 30 days to provide additional substantiation for the fee status claimed or for a fee waiver or reduction. The requester will be advised that his/her request will not be processed until the discrepancy over the fee category, fee waiver or reduction, or both are resolved. He/she will also be advised of his/her right to appeal N5P’s determination. A fee waiver or reduction will be granted or denied in accordance with DoD 5400.7–R and based on information provided by the requester. If N5P assigns a fee category to a requester which differs from that claimed by the requester or determines that a waiver or reduction of fees is not appropriate, N5P shall notify the requester of this discrepancy and of the estimated cost of processing the request. The requester will be given 30 days to provide additional substantiation for the fee status claimed or for a fee waiver or reduction. The requester will be advised that his/her request will not be processed until the discrepancy over the fee category, fee waiver or reduction, or both are resolved. He/she will also be advised of his/her right to appeal N5P’s determination. A fee waiver or reduction will be granted or denied in accordance with DoD 5400.7–R and based on information provided by the requester. If the requester does not respond to N5P’s initial notification of the discrepancy in fee assessment within the 30 days, N5P’s determination about that requester’s fee status shall be final.

(b) Fees will reflect only direct search, review (in the case of commercial requesters) and duplication costs, recovery of which are permitted by 5 U.S.C. 552. Fees shall not be used to discourage requesters.

(c) No minimum fee may be charged.

(d) Fees will be based on estimates provided by appropriate organizational focal points. Upon completion of the processing of the request and computation of all assessable fees, the request will be handled as follows:

1. If the actual costs exceed the estimated costs, the requester will be notified of the remaining fees due. Upon the requester’s agreement to pay the amount in excess, non-exempt information will be provided to the requester and additional fees will be collected. If the requester refuses to pay the amount in excess, processing of the request will be terminated with notice to the requester.

2. If the actual costs are less than estimated fees which have been collected from the requester, the non-exempt information will be released and the FOIA office will advise Finance and Accounting Office of the need to refund funds to the requester.

(e) Fees for manual searches, review time and personnel costs associated with computer searches will be computed according to the following schedule:

(f) Fees for machine time involved in computer searches shall be based on the direct cost of retrieving information from the computer, including associated input/output costs.

(g) Search costs for audiovisual documentary material will be computed as for any other record. Duplication costs will be the actual, direct cost of reproducing the material, including the wage of the person doing the work. Audiovisual materials provided to a requester need not be in reproducible format or quality.

(a) Records meeting the exemption criteria of 5 U.S.C. 552 need not be published in the Federal Register, made available in a reading room, or provided in response to requests made under 5 U.S.C. 552.
(b) The following nine FOIA exemptions may be used by the NSA/CSS to withhold information in whole or in part from public disclosure when disclosure would cause foreseeable harm to an interest protected by the exemption. Discretionary releases will be made whenever possible.

(2) Records relating solely to the internal personnel rules and practices of an agency.

Examples of such statutes are:

(5) Interagency or intra-agency memoranda or letters that would not be available by law to a party other than an agency in litigation with the agency.

(6) Personnel and medical files and similar files, the disclosure of which, would constitute a clearly unwarranted invasion of personal privacy.

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records:
   (i) Could reasonably be expected to interfere with enforcement proceedings;
   (ii) Would deprive a person of the right to a fair trial or to an impartial adjudication;
   (iii) Could reasonably be expected to constitute an unwarranted invasion of personal privacy of a living person, including surviving family members of an individual identified in such a record;
   (iv) Could reasonably be expected to disclose the identity of a confidential source, including a source within NSA/CSS, state, local, or foreign agency or authority, or any private institution which furnishes the information on a confidential basis, or could disclose information furnished from a confidential source and obtained by a criminal law enforcement authority in a criminal investigation or by an agency conducting a lawful national security intelligence investigation;
   (v) Would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law; and
(vi) Could reasonably be expected to endanger the life or physical safety of any individual.

(8) Records contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions.

(9) Geological and geophysical information and data, including maps, concerning wells.

(c) Information which has not been given a security classification pursuant to the criteria of an Executive Order, but which may be withheld from the public for one or more of reasons cited in this section, shall be considered as being “For Official Use Only (FOUO).” No other material shall be considered or marked FOUO.

(vii) Develop, coordinate, and maintain all DoD computer matching agreements, to include submission of required match notices for publication in the FEDERAL REGISTER and advance notification to the OMB and the Congress of the proposed matches, consistent with 5 U.S.C. 552a, OMB Circular A–130, and DoD 5400.11–R.

(A) All information requirements developed to collect or maintain personal data conform to DoD Privacy Program standards.

(B) Appropriate procedures and safeguards shall be developed, implemented, and maintained to protect personal information when it is stored in
§ 310.10 General.

(a) System of records. To be subject to the provisions of this part a ‘‘system of records’’ must:

1. Consist of ‘‘records’’ (as defined in §310.3(n)) that are retrieved by the name of an individual or some other personal identifier, and

2. Be under the control of a DoD Component.

(b) Retrieval practices. (1) Records in a group of records that may be retrieved by a name or personal identifier are not covered by this part even if the records contain personal data and are under control of a DoD Component. The records must be, in fact, retrieved by name or other personal identifier to become a system of records for the purpose of this part.

(2) If files that are not retrieved by name or personal identifier are rearranged in such a manner that they are retrieved by name or personal identifier, a new systems notice must be submitted in accordance with §310.63(c) of subpart G.

(3) If records in a system of records are rearranged so that retrieval is no longer by name or other personal identifier, the records are no longer subject to this part and the system notice for the records shall be deleted in accordance with §310.64(c) of subpart G.

(c) Relevance and necessity. Retain in a system of records only that personal information which is relevant and necessary to accomplish a purpose required by a federal statute or an Executive Order.

(d) Authority to establish systems of records. Identify the specific statute or the Executive Order that authorize maintaining personal information in each system of records. The existence of a statute or Executive order mandating the maintenance of a system of records does not abrogate the responsibility to ensure that the information in the system of records is relevant and necessary.

(e) Exercise of First Amendment rights. (1) Do not maintain any records describing how an individual exercises his or her rights guaranteed by the First Amendment of the U.S. Constitution except when:

(i) Expressly authorized by federal statute;

(ii) Expressly authorized by the individual; or

(iii) Maintenance of the information is pertinent to and within the scope of an authorized law enforcement activity.

(2) First Amendment rights include, but are not limited to, freedom of religion, freedom of political beliefs, freedom of speech, freedom of the press, the right to assemble, and the right to petition.

(f) System manager’s evaluation. (1) Evaluate the information to be included in each new system before establishing the system and evaluate periodically the information contained in each existing system of records for relevancy and necessity. Such a review shall also occur when a system notice amendment or alteration is prepared (see §§310.63 and 310.64 of subpart G).

(2) Consider the following:

(i) The relationship of each item of information retained and collected to the purpose for which the system is maintained;

(ii) The specific impact on the purpose or mission of not collecting each category of information contained in the system;

(iii) The possibility of meeting the information requirements through use of information not individually identifiable or through other techniques, such as sampling;
§ 310.12  Government contractors.

(a) Applicability to government contractors.  (1) When a DoD Component contracts for the operation or maintenance of a system of records or a portion of a system of records by a contractor, the record system or the portion of the record system affected are considered to be maintained by the DoD Component and are subject to this part. The Component is responsible for applying the requirements of this part to the contractor. The contractor and its employees are to be considered employees of the DoD Component for purposes of the sanction provisions of the Privacy Act during the performance of the contract. Consistent with the Defense Acquisition Regulation (DAR), § 1.327, “Protection of Individual Privacy” contracts requiring the maintenance of a system of records or the portion of a system of records shall identify specifically the record system and the work to be performed and shall include in the solicitation and resulting contract such terms as are prescribed by the DAR.

(2) If the contractor must use or have access to individually identifiable information subject to this part to perform any part of a contract, and the information would have been collected and maintained by the DoD Component but for the award of the contract, these contractor activities are subject to this Regulation.

(3) The restriction in paragraphs (a) (1) and (2) of § 310.12 do not apply to records:

(i) Established and maintained to assist in making internal contractor management decisions, such as records maintained by the contractor for use in managing the contract;

(ii) Maintained as internal contractor employee records even when used in conjunction with providing goods and services to the Department of Defense;

(iii) Maintained as training records by an educational organization contracted by a DoD Component to provide training when the records of the contract students are similar to and comingled with training records of other students (for example, admission forms, transcripts, academic counseling and similar records);

(iv) Maintained by a consumer reporting agency to which records have been disclosed under contract in accordance with the Federal Claims Collection Act of 1966, 31 U.S.C. 952(d).

(4) DoD Components must publish instruction that:

§ 310.13 Safeguarding personal information.

(a) General responsibilities. Establish appropriate administrative, technical and physical safeguards to ensure that the records in every system of records are protected from unauthorized alteration or disclosure and that their confidentiality is protected. Protect the records against reasonably anticipated threats or hazards that could result in substantial harm, embarrassment, inconvenience, or unfairness to any individual about whom information is kept.

(b) Minimum standards. (1) Tailor system safeguards to conform to the type of records in the system, the sensitivity of the personal information stored, the storage medium used and, to a degree, the number of records maintained.

(2) Treat all unclassified records that contain personal information that normally would be withheld from the public under Exemption Numbers 6 and 7, of §286.31, subpart D of 32 CFR part 286 (DoD Freedom of Information Act Program) as if they were designated “For Official Use Only” and safeguard them in accordance with the standards established by subpart E of 32 CFR part 286 (DoD FOIA Program) even if they are not actually marked “For Official Use Only.”

(3) Afford personal information that does not meet the criteria discussed in paragraph (c)(3) of this section that degree of security which provides protection commensurate with the nature and type of information involved.

(4) Special administrative, physical, and technical procedures are required to protect data that is stored or being processed temporarily in an automated data processing (ADP) system or in a word processing activity to protect it against threats unique to those environments (see Appendices A and B).

(5) Tailor safeguards specifically to the vulnerabilities of the system.

(c) Records disposal. (1) Dispose of records containing personal data so as to prevent inadvertent compromise. Disposal methods such as tearing, burning, melting, chemical decomposition, pulping, pulverizing, shredding, or mutilation are considered adequate if the personal data is rendered unrecognizable or beyond reconstruction.

(2) The transfer of large quantities of records containing personal data (for example, computer cards and printouts) in bulk to a disposal activity, such as the Defense Property Disposal Office, is not a release of personal information under this part. The sheer volume of such transfers make it difficult or impossible to identify readily specific individual records.

(3) When disposing of or destroying large quantities of records containing personal information, care must be exercised to ensure that the bulk of the records is maintained so as to prevent specific records from being readily identified. If bulk is maintained, no special procedures are required. If bulk...
cannot be maintained or if the form of the records make individually identifiable information easily available, dispose of the record in accordance with paragraph (c)(1) of this section.

Subpart C—Collecting Personal Information

§ 310.20 General considerations.

(a) Collect directly from the individual. Collect to the greatest extent practicable personal information directly from the individual to whom it pertains if the information may be used in making any determination about the rights, privileges, or benefits of the individual under any federal program (see also paragraph (c) of this section).

(b) Collecting Social Security Numbers (SSNs). (1) It is unlawful for any federal, state, or local governmental agency to deny an individual any right, benefit, or privilege provided by law because the individual refuses to provide his or her SSN. However, if a federal statute requires that the SSN be furnished or if the SSN is required to verify the identity of the individual in a system of records that was established and in use before January 1, 1975, and the SSN was required as an identifier by a statute or regulation adopted before that date, this restriction does not apply.

(2) When an individual is requested to provide his or her SSN, he or she must be advised:

(i) The uses that will be made of the SSN;

(ii) The statute, regulation, or rule authorizing the solicitation of the SSN; and

(iii) Whether providing the SSN is voluntary or mandatory.

(3) Include in any systems notice for any system of records that contains SSNs a statement indicating the authority for maintaining the SSN and the sources of the SSNs in the system. If the SSN is obtained directly from the individual indicate whether this is voluntary or mandatory.

(4) Executive Order 9397, “Numbering System For Federal Accounts Relating to Individual Persons,” November 30, 1943, authorizes solicitation and use of SSNs as numerical identifier for individuals in most Federal records systems. However, it does not provide mandatory authority for soliciting SSNs.

(5) Upon entrance into military service or civilian employment with the Department of Defense, individuals are asked to provide their SSNs. The SSN becomes the service or employment number for the individual and is used to establish personnel, financial, medical, and other official records. Provide the notification in paragraph (b)(2) of this section to the individual when originally soliciting his or her SSN. After an individual has provided his or her SSN for the purpose of establishing a record, the notification in paragraph (b)(2) is not required if the individual is only requested to furnish or verify the SSNs for identification purposes in connection with the normal use of his or her records. However, if the SSN is to be written down and retained for any purpose by the requesting official, the individual must be provided the notification required by paragraph (b)(2) of this section.

(c) Collecting personal information from third parties. It may not be practical to collect personal information directly from the individual in all cases. Some examples of this are:

(1) Verification of information through third party sources for security or employment suitability determinations;

(2) Seeking third party opinions such as supervisory comments as to job knowledge, duty performance, or other opinion-type evaluations;

(3) When obtaining the needed information directly from the individual is exceptionally difficult or may result in unreasonable costs; or

(4) Contacting a third party at the request of the individual to furnish certain information such as exact periods of employment, termination dates, copies of records, or similar information.

(d) Privacy Act Statements. (1) When an individual is requested to furnish personal information about himself or herself for inclusion in a system of
records, a Privacy Act Statement is required regardless of the medium used to collect the information (forms, personal interviews, stylized formats, telephonic interviews, or other methods). The Privacy Act Statement consists of the elements set forth in paragraph (d)(2) of this section. The statement enables the individual to make an informed decision whether to provide the information requested. If the personal information solicited is not to be incorporated into a system of records, the statement need not be given. However, personal information obtained without a Privacy Act Statement shall not be incorporated into any system of records. When soliciting SSNs for any purpose, see paragraph (b)(2) of this section.

(2) The Privacy Act Statement shall include:

(i) The specific federal statute or Executive Order that authorizes collection of the requested information (see paragraph (d) of §310.10);

(ii) The principal purpose or purposes for which the information is to be used;

(iii) The routine uses that will be made of the information (see §310.41(e), subpart E);

(iv) Whether providing the information is voluntary or mandatory (see paragraph (e) of this section); and

(v) The effects on the individual if he or she chooses not to provide the requested information.

(3) The Privacy Act Statement shall be concise, current, and easily understood.

(4) The Privacy Act statement may appear as a public notice (sign or poster), conspicuously displayed in the area where the information is collected, such as at check-cashing facilities or identification photograph facilities.

(5) The individual normally is not required to sign the Privacy Act Statement.

(6) Provide the individual a written copy of the Privacy Act Statement upon request. This must be done regardless of the method chosen to furnish the initial advisement.

(e) Mandatory as opposed to voluntary disclosures. Include in the Privacy Act Statement specifically whether furnishing the requested personal data is mandatory or voluntary. A requirement to furnish personal data is mandatory only when a federal statute, Executive Order, regulation, or other lawful order specifically imposes a duty on the individual to provide the information sought, and the individual is subject to a penalty if he or she fails to provide the requested information. If providing the information is only a condition of or prerequisite to granting a benefit or privilege and the individual has the option of requesting the benefit or privilege, providing the information is always voluntary. However, the loss or denial of the privilege, benefit, or entitlement sought may be listed as a consequence of not furnishing the requested information.

§310.21 Forms.

(a) DoD forms. (1) DoD Directive 5000.21, “Forms Management Program” provides guidance for preparing Privacy Act Statements for use with forms (see also paragraph (b)(1) of this section).

(2) When forms are used to collect personal information, the Privacy Act Statement shall appear as follows (listed in the order of preference):

(i) In the body of the form, preferably just below the title so that the reader will be advised of the contents of the statement before he or she begins to complete the form;

(ii) On the reverse side of the form with an appropriate annotation under the title giving its location;

(iii) On a tear-off sheet attached to the form; or

(iv) As a separate supplement to the form.

(b) Forms issued by non-DoD activities. (1) Forms subject to the Privacy Act issued by other federal agencies have a Privacy Act Statement attached or included. Always ensure that the statement prepared by the originating agency is adequate for the purpose for which the form will be used by the DoD activity. If the Privacy Act Statement provided is inadequate, the DoD Component concerned shall prepare a new statement or a supplement to the existing statement before using the form.
§ 310.30 Individual access to personal information.

(a) Individual access. (1) The access provisions of this part are intended for use by individuals about whom records are maintained in systems of records. Release of personal information to individuals under this part is not considered public release of information.

(2) Make available to the individual to whom the record pertains all of the personal information that can be released consistent with DoD responsibilities.

(b) Individual requests for access. Individuals shall address requests for access to personal information in a system of records to the system manager or to the office designated in the DoD Component rules or the system notice.

(c) Verification of identity. (1) Before granting access to personal data, an individual may be required to provide reasonable verification of his or her identity.

(2) Identity verification procedures shall not:

(i) Be so complicated as to discourage unnecessarily individuals from seeking access to information about themselves; or

(ii) Be required of an individual seeking access to records which normally would be available under the “DoD Freedom of Information Act Program” (32 CFR part 286).

(3) Normally, when individuals seek personal access to records pertaining to themselves, identification is made from documents that normally are readily available, such as employee and military identification cards, driver’s license, other licenses, permits or passes used for routine identification purposes.

(4) When access is requested by mail, identity verification may consist of the individual providing certain minimum identifying data, such as full name, date and place of birth, or such other personal information necessary to locate the record sought. If the information sought is of a sensitive nature, additional identifying data may be required. If notarization of requests is required, procedures shall be established for an alternate method of verification for individuals who do not have access to notary services, such as military members overseas.

(5) If an individual wishes to be accompanied by a third party when seeking access to his or her records or to have the records released directly to a third party, the individual may be required to furnish a signed access authorization granting the third party access.

(6) An individual shall not be refused access to his or her record solely because he or she refuses to divulge his or her SSN unless the SSN is the only method by which retrieval can be made. (See §310.20(b)).

(7) The individual is not required to explain or justify his or her need for access to any record under this part.

(8) Only a denial authority may deny access and the denial must be in writing and contain the information required by paragraph (b) of §310.31.

(d) Granting individual access to records. (1) Grant the individual access to the original record or an exact copy of the original record without any changes or deletions, except when changes or deletions have been made in accordance with paragraph (e) of this section. For the purpose of granting access, a record that has been amended under §310.31(b) is considered to be the original. See paragraph (e) of this section for the policy regarding the use of summaries and extracts.

(2) Provide exact copies of the record when furnishing the individual copies of records under this part.

(3) Explain in terms understood by the requestor any record or portion of a record that is not clear.

(e) Illegible, incomplete, or partially exempt records. (1) Do not deny an individual access to a record or a copy of a record solely because the physical condition or format of the record does not make it readily available (for example, deteriorated state or on magnetic
§ 310.30

Access to medical records.

(1) Disclose medical records to the individual to whom they pertain, even if a minor, unless a judgment is made that access to such records could have an adverse effect on the mental or physical health of the individual. Normally, this determination shall be made in consultation with a medical doctor.

(2) If it is determined that the release of the medical information may be harmful to the mental or physical health of the individual:
   (i) Send the record to a physician named by the individual; and
   (ii) In the transmittal letter to the physician explain why access by the individual without proper professional supervision could be harmful (unless it is obvious from the record).

(3) Do not require the physician to request the records for the individual.

(4) If the individual refuses or fails to designate a physician, the record shall not be provided. Such refusal of access is not considered a denial for Privacy Act reporting purposes. (See paragraph (a) of §310.31).

(5) Access to a minor’s medical records may be granted to his or her parents or legal guardians. However, observe the following procedures:
   (i) In the United States, the laws of the particular state in which the records are located may afford special protection to certain types of medical records (for example, records dealing with treatment for drug or alcohol abuse and certain psychiatric records). Even if the records are maintained by a military medical facilities these statutes may apply:
   (ii) For the purposes of parental access to the medical records and medical determinations regarding minors at overseas installation the age of majority is 18 years except when:
      (A) A minor at the time he or she sought or consented to the treatment was between 15 and 17 years of age;
      (B) The treatment was sought in a program which was authorized by regulation or statute to offer confidentiality of treatment records as a part of the program;
      (C) The minor specifically requested or indicated that he or she wished the treatment record to be handled with confidence and not released to a parent or guardian; and
      (D) The parent or guardian seeking access does not have the written authorization of the minor or a valid court order granting access.
   (iii) If all four of the above conditions are met, the parent or guardian shall be denied access to the medical records of the minor. Do not use these procedures to deny the minor access to his or her own records under this part or any other statutes.

(6) All members of the Military Services and all married persons are not considered minors regardless of age, and the parents of these individuals do not have access to their medical records without written consent of the individual.

(g) Access to information compiled in anticipation of civil action.

(1) An individual is not entitled under this part to gain access to information compiled in reasonable anticipation of a civil action or proceeding.

(2) The term “civil proceeding” is intended to include quasi-judicial and pretrial judicial proceedings that are the necessary preliminary steps to formal litigation.

(3) Attorney work products prepared in conjunction with quasi-judicial pretrial, and trial proceedings, to include those prepared to advise DoD Component officials of the possible legal consequences of a given course of action, are protected.

(h) Access to investigatory records.

(1) Requests by individuals for access to investigatory records pertaining to themselves and compiled for law enforcement purposes are processed under
§ 310.30

this part of the DoD Freedom of Information Program (32 CFR part 286) depending on which part gives them the greatest degree of access.

(2) Process requests by individuals for access to investigatory record pertaining to themselves compiled for law enforcement purposes and in the custody of law enforcement activities that have been incorporated into systems of records exempted from the access provisions of this part in accordance with section B of chapter 5 under reference (f). Do not deny an individual access to the record solely because it is in the exempt system, but give him or her automatically the same access he or she would receive under the Freedom of Information Act (5 U.S.C. 552). (See also paragraph (h) of this section.)

(3) Process requests by individuals for access to investigatory records pertaining to themselves that are in records systems exempted from access provisions under paragraph (a) of §310.52, subpart F, under this part, or the DoD Freedom of Information Act Program (32 CFR part 286) depending upon which regulation gives the greatest degree of access (see also paragraph (j) of this section).

(4) Refer individual requests for access to investigatory records exempted from access under a general exemption temporarily in the hands of a noninvestigatory element for adjudicative or personnel actions to the originating investigating agency. Inform the requester in writing of these referrals.

(i) Nonagency records. (1) Certain documents under the physical control of DoD personnel and used to assist them in performing official functions, are not considered “agency records” within the meaning of this Regulation. Uncirculated personal notes and records that are not disseminated or circulated to any person or organization (for example, personal telephone lists or memory aids) that are retained or discarded at the author’s discretion and over which the Component exercises no direct control, are not considered agency records. However, if personnel are officially directed or encouraged, either in writing or orally, to maintain such records, they may become “agency records,” and may be subject to this part.

(2) The personal uncirculated handwritten notes of unit leaders, office supervisors, or military supervisory personnel concerning subordinates are not systems of records within the meaning of this part. Such notes are an extension of the individual’s memory. These notes, however, must be maintained and discarded at the discretion of the individual supervisor and not circulated to others. Any established requirement to maintain such notes (such as, written or oral directives, regulations, or command policy) make these notes “agency records” and they then must be made a part of a system of records. If the notes are circulated, they must be made a part of a system of records. Any action that gives personal notes the appearance of official agency records is prohibited, unless the notes have been incorporated into a system of records.

(j) Relationship between the Privacy Act and the Freedom of Information Act.

(1) Process requests for individual access as follows:

(i) Requests by individuals for access to records pertaining to themselves made under the Freedom of Information Act (5 U.S.C. 552) or the DoD Freedom of Information Act Program (32 CFR part 286) are processed under the provisions of that reference.

(ii) Requests by individuals for access to records pertaining to themselves made under the Privacy Act of 1971 (5 U.S.C. 552a), this part, or the DoD Component instructions implementing this part are processed under this part.

(iii) Requests by individuals for access to records about themselves that cite both Acts or the implementing regulations and instructions for both Acts are processed under the provisions of this reference except:

(A) When the access provisions of the DoD Freedom of Information Act Program (32 CFR part 286) provide a greater degree of access; or

(B) When access to the information sought is controlled by another federal statute.

(C) If the former applies, follow the provisions of 32 CFR part 286; and if the
§ 310.31  Denial of individual access.

(a) Denying individual access. (1) An individual may be denied formally access to a record pertaining to him or her only if the record:
   (i) Was compiled in reasonable anticipation of civil action (see paragraph (g) of § 310.30)
   (ii) Is in a system of records that has been exempted from the access provisions of this regulation under one of the permitted exemptions (see subpart F).
   (iii) Contains classified information that has been exempted from the access provision of this part under blanket exemption for such material claimed for all DoD records system (see §310.50(c) of subpart F).

   (iv) Is contained in a system of records for which access may be denied under some other federal statute.

   (2) Only deny the individual access to those portions of the records from which the denial of access serves some legitimate governmental purpose.

(b) Other reasons to refuse access. (1) An individual may be refused access if:
   (i) The record is not described well enough to enable it to be located with a reasonable amount of effort on the part of an employee familiar with the file; or
   (ii) Access is sought by an individual who fails or refuses to comply with the established procedural requirements, including refusing to name a physician to receive medical records when required (see paragraph (f) of §310.30) or to pay fees (see §310.33 of this subpart).

   (2) Always explain to the individual the specific reason access has been refused and how he or she may obtain access.

(c) Notifying the individual. Formal denials of access must be in writing and include as a minimum:

   (1) The name, title or position, and signature of a designated Component denial authority;

   (2) The date of the denial;

   (3) The specific reason for the denial, including specific citation to the appropriate sections of the Privacy Act (5 U.S.C. 552a) or other statutes, this part, DoD Component instructions or Code of Federal Regulations (CFR) authorizing the denial;

   (4) Notice to the individual of his or her right to appeal the denial through the Component appeal procedure within 60 calendar days; and

   (5) The title or position and address of the Privacy Act appeals official for the Component.

(d) DoD Component appeal procedures. Establish internal appeal procedures that, as a minimum, provide for:

   (1) Review by the head of the Component or his or her designee of any appeal by an individual from a denial of access to Component records.

   (2) Formal written notification to the individual by the appeal authority that shall:

      (1) If the denial is sustained totally or in part, include as a minimum:
§ 310.32 Amendment of records.

(a) Individual review and correction. Individuals are encouraged to review the personnel information being maintained about them by DoD Components periodically and to avail themselves of the procedures established by this part and any other Component regulations to update their records.

(b) Amending records. (1) An individual may request the amendment of any record contained in a system of records pertaining to him or her unless the system of record has been exempted specifically from the amendment procedures of this part under paragraph (b) of §310.50, subpart F. Normally, amendments under this part are limited to correcting factual matters and not matters of official judgment, such as performance ratings, promotion potential, and job performance appraisals.

(2) While a Component may require that the request for amendment be in writing, this requirement shall not be used to discourage individuals from requesting valid amendments or to burden needlessly the amendment process.

(3) A request for amendment must include:

(i) A description of the item or items to be amended;
(ii) The specific reason for the amendment;
(iii) The type of amendment action sought (deletion, correction, or addition); and
(iv) Copies of available documentary evidence supporting the request.

(c) Burden of proof. The applicant must support adequately his or her claim.

(d) Identification of requesters. (1) Individuals may be required to provide

825

Office of the Secretary of Defense

(A) The exact reason for denying the appeal to include specific citation to the provisions of the Act or other statute, this part, Component instructions or the CFR upon which the determination is based;

(B) The date of the appeal determination;

(C) The name, title, and signature of the appeal authority;

(D) A statement informing the applicant of his or her right to seek judicial relief.

(ii) If the appeal is granted, notify the individual and provide access to the material to which access has been granted.

(3) The written appeal notification granting or denying access is the final Component action as regards access.

(4) The individual shall file any appeals from denial of access within no less than 60 calendar days of receipt of the denial notification.

(5) Process all appeals within 30 days of receipt unless the appeal authority determines that a fair and equitable review cannot be made within that period. Notify the applicant in writing if additional time is required for the appellate review. The notification must include the reasons for the delay and state when the individual may expect an answer to the appeal.

(e) Denial of appeals by failure to act. A requester may consider his or her appeal formally denied if the authority fails:

(1) To act on the appeal within 30 days;

(2) To provide the requester with a notice of extension within 30 days; or

(3) To act within the time limits established in the Component’s notice of extension (see paragraph (d)(5) of this section).

(f) Denying access to OPM records held by DoD Components. (1) The records in all systems of records maintained in accordance with the OPM government-wide system notices are technically only in the temporary custody of the Department of Defense.

(2) All requests for access to these records must be processed in accordance with the Federal Personnel Manual (5 CFR parts 293, 294, 297 and 735) as well as the applicable Component procedures.
§ 310.32 Identification

Identification to ensure that they are indeed seeking to amend a record pertaining to themselves and not, inadvertently or intentionally, the record of others.

(2) The identification procedures shall not be used to discourage legitimate requests or to burden needlessly or delay the amendment process. (See paragraph (c) of §310.30).

(e) Limits on attacking evidence previously submitted. (1) The amendment process is not intended to permit the alteration of evidence presented in the course of judicial or quasi-judicial proceedings. Any amendments or changes to these records normally are made through the specific procedures established for the amendment of such records.

(2) Nothing in the amendment process is intended or designed to permit a collateral attack upon what has already been the subject of a judicial or quasi-judicial determination. However, while the individual may not attack the accuracy of the judicial or quasi-judicial determination under this part, he or she may challenge the accuracy of the recording of that action.

(f) Sufficiency of a request to amend. Consider the following factors when evaluating the sufficiency of a request to amend:

(1) The accuracy of the information itself; and

(2) The relevancy, timeliness, completeness, and necessity of the recorded information for accomplishing an assigned mission or purpose.

(g) Time limits. (1) Provide written acknowledgement of a request to amend within 10 working days of its receipt by the appropriate systems manager. There is no need to acknowledge a request if the action is completed within 10 working days and the individual is so informed.

(2) The letter of acknowledgement shall clearly identify the request and advise the individual when he or she may expect to be notified of the completed action.

(3) Only under the most exceptional circumstances shall more than 30 days be required to reach a decision on a request to amend. Document fully and explain in the Privacy Act case file (see paragraph (p) of this section) any such decision that takes more than 30 days to resolve.

(h) Agreement to amend. If the decision is made to grant all or part of the request for amendment, amend the record accordingly and notify the requester.

(i) Notification of previous recipients. (1) Notify all previous recipients of the information, as reflected in the disclosure accounting records, that an amendment has been made and the substance of the amendment. Recipients who are known to be no longer retaining the information need not be advised of the amendment. All DoD Components and federal agencies known to be retaining the record or information, even if not reflected in a disclosure record, shall be notified of the amendment. Advise the requester of these notifications.

(2) Honor all requests by the requester to notify specific federal agencies of the amendment action.

(j) Denying amendment. If the request for amendment is denied in whole or in part, promptly advise the individual in writing of the decision to include:

(1) The specific reason and authority for not amending;

(2) Notification that he or she may seek further independent review of the decision by the head of the Component or his or her designee;

(3) The procedures for appealing the decision citing the position and address of the official to whom the appeal shall be addressed; and

(4) Where he or she can receive assistance in filing the appeal.

(k) DoD Component appeal procedures. Establish procedures to ensure the prompt, complete, and independent review of each amendment denial upon appeal by the individual. These procedures must ensure that:

(1) The appeal with all supporting materials both that furnished the individual and that contained in Component records is provided to the reviewing official, and

(2) If the appeal is denied completely or in part, the individual is notified in writing by the reviewing official that:

(i) The appeal has been denied and the specific reason and authority for the denial;
(ii) The individual may file a statement of disagreement with the appropriate authority and the procedures for filing this statement;

(iii) If filed properly, the statement of disagreement shall be included in the records, furnished to all future recipients of the records, and provided to all prior recipients of the disputed records who are known to hold the record; and

(iv) The individual may seek a judicial review of the decision not to amend.

(3) If the record is amended, ensure that:

(i) The requester is notified promptly of the decision;

(ii) All prior known recipients of the records who are known to be retaining the record are notified of the decision and the specific nature of the amendment (see paragraph (i) of this section); and

(iii) The requester is notified as to which DoD Components and federal agencies have been told of the amendment.

(4) Process all appeals within 30 days unless the appeal authority determines that a fair review cannot be made within this time limit. If additional time is required for the appeal, notify the requester, in writing, of the delay, the reason for the delay, and when he or she may expect a final decision on the appeal. Document fully all requirements for additional time in the Privacy Case File. (See paragraph (p) of this section)

1 Denying amendment of OPM records held by DoD Components. (1) The records in all systems of records controlled by the Office of Personnel Management (OPM) government-wide system notices are technically only temporarily in the custody of the Department of Defense.

(2) All requests for amendment of these records must be processed in accordance with the OPM Federal Personnel Manual (5 CFR parts 293, 294, 297 and 735). The Component denial authority may deny a request. However, the appeal process for all such denials must include a review by the Assistant Director for Agency Compliance and Evaluation, Office of Personnel Management, 1900 E Street NW, Washington, DC 20415.

(3) When an appeal is received from a Component’s denial of amendment of the OPM controlled record, process the appeal in accordance with the OPM Federal Personnel Manual (5 CFR parts 293, 294, 297 and 735) and notify the OPM appeal authority listed above.

(4) The individual may appeal any Component decision not to amend the OPM records directly to OPM.

(5) OPM is the final review authority for any appeals from a denial to amend the OPM records.

m Statements of disagreement submitted by individuals. (1) If the reviewing authority refuses to amend the record as requested, the individual may submit a concise statement of disagreement setting forth his or her reasons for disagreeing with the decision not to amend.

(2) If an individual chooses to file a statement of disagreement, annotate the record to indicate that the statement has been filed (see paragraph (n) of this section).

(3) When an appeal is received from a Component’s denial of amendment of the OPM controlled record, process the appeal in accordance with the OPM Federal Personnel Manual (5 CFR parts 293, 294, 297 and 735) and notify the OPM appeal authority listed above.

(4) The individual may appeal any Component decision not to amend the OPM records directly to OPM.

(5) OPM is the final review authority for any appeals from a denial to amend the OPM records.

n Maintaining statements of disagreement. (1) If the reviewing authority refuses to amend the record as requested, the individual may submit a concise statement of disagreement setting forth his or her reasons for disagreeing with the decision not to amend.

(2) If an individual chooses to file a statement of disagreement, annotate the record to indicate that the statement has been filed (see paragraph (n) of this section).

(3) Furnish copies of the statement of disagreement to all DoD Components and federal agencies that have been provided copies of the disputed information and who may be maintaining the information.

(4) Provide a copy of the statement of disagreement whenever the disputed information is disclosed for any purpose.
§ 310.33 Reproduction fees.

(a) Assessing fees. (1) Charge the individual only the direct cost of reproduction.

(2) Do not charge reproduction fees if copying is:

(i) The only means to make the record available to the individual (for example, a copy of the record must be made to delete classified information); or

(ii) For the convenience of the DoD Component (for example, the Component has no reading room where an individual may review the record, or reproduction is done to keep the original in the Component’s file).

(3) No fees shall be charged when the record may be obtained without charge under any other regulation, directive, or statute.

(4) Do not use fees to discourage requests.

(b) No minimum fees authorized. Use fees only to recoup direct reproduction costs associated with granting access. Minimum fees for duplication are not authorized and there is no automatic charge for processing a request.

(c) Prohibited fees. Do not charge or collect fees for:

(1) Search and retrieval of records;

(2) Review of records to determine releasability;

(3) Copies of the Component’s action granting total access.

Note.—A separate Privacy case file need not be created in such cases.

(4) Copies of the Component’s action denying access;

(5) Copies of any appeals filed;

(6) Copies of the reply to the appeal.

(7) Privacy case files shall not be furnished or disclosed to anyone for use in making any determination about the individual other than determinations made under this part.

§ 310.33 Privacy Case Files.

(1) Establish a separate Privacy Case File to retain the documentation received and generated during the amendment or access process.

(2) The Privacy Case File shall contain as a minimum:

(i) The request for amendment or access;

(ii) Copies of the DoD Component’s reply granting or denying the request;

(iii) Any appeals from the individual;

(iv) Copies of the action regarding the appeal with supporting documentation which is not in the basic file; and

(v) Any other correspondence generated in processing the appeal, to include coordination documentation.

(3) Only the items listed in paragraphs (p)(4) and (s) of this section may be included in the system of records challenged for amendment or for which access is sought. Do not retain copies of unamended records in the basic record system if the request for amendment is granted.

(4) The following items relating to an amendment request may be included in the disputed record system:

(i) Copies of the amended record.

(ii) Copies of the individual’s statement of disagreement (see paragraph (m) of this section).

(iii) Copies of Component summaries (see paragraph (o) of this section).

(iv) Supporting documentation submitted by the individual.

(5) The following items relating to an access request may be included in the basic records system:

(i) Copies of the request;
(3) Copying records for DoD Component convenience or when the individual has not specifically requested a copy;
(4) Transportation of records and personnel; or
(5) Normal postage.

(d) Waiver of fees. (1) Normally, fees are waived automatically if the direct costs of a given request is less than $30. This fee waiver provision does not apply when a waiver has been granted to the individual before, and later requests appear to be an extension or duplication of that original request. A DoD Component may, however, set aside this automatic fee waiver provision when on the basis of good evidence it determines that the waiver of fees is not in the public interest.
(2) Decisions to waive or reduce fees that exceed the automatic waiver threshold shall be made on a case-by-case basis.

(e) Fees for members of Congress. Do not charge members of Congress for copying records furnished even when the records are requested under the Privacy Act on behalf of a constituent (see §310.41(k) of subpart E). When replying to a constituent inquiry and the fees involved are substantial, consider suggesting to the Congressman that the constituent can obtain the information directly by writing to the appropriate offices and paying the costs. When practical, suggest to the Congressman that the record can be examined at no cost if the constituent wishes to visit the custodian of the record.

(f) Reproduction fees computation. Compute fees using the appropriate portions of the fee schedule in subpart G of the DoD Freedom of Information Program (32 CFR part 286).

Subpart E—Disclosure of Personal Information to Other Agencies and Third Parties

§ 310.40 Conditions of disclosure.
(a) Disclosures to third parties. (1) The Privacy Act only compels disclosure of records from a system of records to the individuals to whom they pertain.
(2) All requests by individual for personal information about other individuals (third parties) shall be processed under the DoD Freedom of Information Program (32 CFR part 286), except for requests by the parents of a minor, or legal guardians of an individual, for access to the records pertaining to the minor or individual.

(b) Disclosures among DoD Components. For the purposes of disclosure and disclosure accounting, the Department of Defense is considered a single agency (see §310.41(a)).

(c) Disclosures outside the Department of Defense. Do not disclose personal information from a system of records outside the Department of Defense unless:
(1) The record has been requested by the individual to whom it pertains.
(2) The written consent of the individual to whom the record pertains has been obtained for release of the record to the requesting agency, activity, or individual, or
(3) The release is for one of the specific nonconsensual purposes set forth in §310.41 of this part.

(d) Validation before disclosure. Except for releases made in accordance with the Freedom of Information Act (5 U.S.C. 552), before disclosing any personal information to any recipient outside the Department of Defense other than a federal agency or the individual to whom it pertains:
(1) Ensure that the records are accurate, timely, complete, and relevant for agency purposes;
(2) Contact the individual, if reasonably available, to verify the accuracy, timeliness, completeness, and relevancy of the information, if the cannot be determined from the record; or
(3) If the information is not current and the individual is not reasonably available, advise the recipient that the information is believed accurate as of a specific date and any other known factors bearing on its accuracy and relevancy.

§ 310.41 Nonconsensual disclosures.
(a) Disclosures within the Department of Defense. (1) Records pertaining to an
individual may be disclosed without the consent of the individual to any DoD official who has need for the record in the performance of his or her assigned duties.

(2) Rank, position, or title alone do not authorize access to personal information about others. An official need for the information must exist before disclosure.

(b) Disclosures under the Freedom of Information Act. (1) All records must be disclosed if their release is required by the Freedom of Information Act (5 U.S.C. 552) see also the DoD Freedom of Information Program (32 CFR part 286). The Freedom of Information Act requires that records be made available to the public unless exempted from disclosure by one of the nine exemptions found in the Act. It follows, therefore, that if a record is not exempt from disclosure it must be disclosed.

(2) The standard for exempting most personal records, such as personnel records, medical records, and similar records, is found in Exemption Number 6 of 32 CFR 286.31. Under that exemption, release of personal information can only be denied when its release would be a ‘‘clearly unwarranted invasion of personal privacy.’’

(3) Release of personal information in investigatory records including personnel security investigation records is controlled by the broader standard of an ‘‘unwarranted invasion of personal privacy’’ found in Exemption Number 7 of 32 CFR 286.31. This broader standard applies only to investigatory records.

(4) See 32 CFR part 286 for the standards to use in applying these exemptions.

(c) Personal information that is normally releasable—(1) DoD civilian employees. (i) Some examples of personal information regarding DoD civilian employees that normally may be released without a clearly unwarranted invasion of personal privacy include:

(A) Name.
(B) Present and past postion titles.
(C) Present and past grades.
(D) Present and past salaries.
(E) Present and past duty stations.
(F) Office or duty telephone numbers.

(ii) All disclosures of personal information regarding federal civilian employees shall be made in accordance with the Federal Personnel Manual (FPM) 5 CFR parts 293, 294, 297 and 735.

(2) Military members. (i) While it is not possible to identify categorically information that must be released or withheld from military personnel records in every instance, the following items of personal information regarding military members normally may be disclosed without a clearly unwarranted invasion of their personal privacy:

(A) Full name.
(B) Rank.
(C) Date of rank.
(D) Gross salary.
(E) Past duty assignments.
(F) Present duty assignment.
(G) Future assignments that are officially established.
(H) Office of duty telephone numbers.
(I) Source of commission.
(J) Promotion sequence number.
(K) Awards and decorations.
(L) Attendance at professional military schools.
(M) Duty status at any given time.

(ii) All releases of personal information regarding military members shall be made in accordance with the standards established by 32 CFR part 286.

(3) Civilian employees not under the FPM. (i) While it is not possible to identify categorically those items of personal information that must be released regarding civilian employees not subject to the Federal Personnel Manual (5 CFR parts 293, 294, 297 and 735), such as nonappropriated fund employees, normally the following items may be released without a clearly unwarranted invasion of personal privacy:

(A) Full name.
(B) Grade or position.
(C) Date of grade.
(D) Gross salary.
(E) Present and past assignments.
(F) Future assignments, if officially established.
(G) Office or duty telephone numbers.

(ii) All releases of personal information regarding civilian personnel in this category shall be made in accordance with the standards established by 32 CFR part 286, the DoD Freedom of Information Program.

(d) Release of home addresses and home telephone numbers. (1) The release of home addresses and home telephone numbers normally is considered a
clearly unwarranted invasion of personal privacy and is prohibited. However, these may be released without prior specific consent of the individual if:

(i) The individual has indicated previously that he or she interposes no objection to their release (see paragraphs (d)(3) and (4) of this section);

(ii) The source of the information to be released is a public document such as commercial telephone directory or other public listing;

(iii) The release is required by federal statute (for example, pursuant to federally-funded state programs to locate parents who have defaulted on child support payments (42 U.S.C. 653); or

(iv) The releasing official releases the information under the provisions of the DoD Freedom of Information Act Program (32 CFR part 286).

(2) A request for a home address or telephone number may be referred to the last known address of the individual for a direct reply by him or her to the requester. In such cases the requester shall be notified of the referral.

(3) When collecting lists of home addresses and telephone numbers, the individual may be offered the option of authorizing the information pertaining to him or her to be disseminated without further permission for specific purposes, such as locator services. In these cases, the information may be disseminated for the stated purpose without further consent. However, if the information is to be disseminated for any other purpose, a new consent is required. Normally such consent for release is in writing and signed by the individual.

(4) Before listing home addresses and home telephone numbers in DoD telephone directories, give the individuals the opportunity to refuse such a listing. Excuse the individual from paying any additional cost that may be associated with maintaining an unlisted number for government-owned telephone services if the individual requests his or her number not be listed in the directory under this part.

(5) Do not sell or rent lists of individual names and addresses unless such action is specifically authorized.

(e) Disclosures for established routine uses. (1) Records may be disclosed outside the Department of Defense without consent of the individual to whom they pertain for an established routine use.

(2) A routine use shall:

(i) Be compatible with and related to the purpose for which the record was compiled;

(ii) Identify the persons or organizations to whom the record may be released;

(iii) Identify specifically the uses to which the information may be put by the receiving agency; and

(iv) Have been published previously in the Federal Register (see §310.62(i), subpart G).

(3) Establish a routine use for each user of the information outside the Department of Defense who need official access to the records.

(4) Routine uses may be established, discontinued, or amended without the consent of the individuals involved. However, new or changed routine uses must be published in the Federal Register at least 30 days before actually disclosing any records under their provisions (see subpart G).

(5) In addition to the routine uses established by the individual system notices, common blanket routine uses for all DoD-maintained systems of records have been established (see appendix C). These blanket routine uses are published only at the beginning of the listing of system notices for each Component in the Federal Register (see paragraph §310.62(a)(1), subpart G). Unless a system notice specifically excludes a system from a given blanket routine use, all blanket routine uses apply.

(6) If the recipient has not been identified in the Federal Register or a use to which the recipient intends to put the record has not been published in the system notice as a routine use, the written permission of the individual is required before release or use of the record for that purpose.

(f) Disclosures to the Bureau of the Census. Records in DoD systems of records may be disclosed without the consent of the individuals to whom
§310.41  Disclosures for statistical research and reporting. (g) Disclosures for statistical research and reporting. (1) Records may be disclosed for statistical research and reporting without the consent of the individuals to whom they pertain. Before such disclosures the recipient must provide advance written assurance that:

(i) The records will be used as statistical research or reporting records;

(ii) The records will only be transferred in a form that is not individually identifiable; and

(iii) The records will not be used, in whole or in part, to make any determination about the rights, benefits, or entitlements of specific individuals.

(2) A disclosure accounting (see paragraph (a) of §310.44) is not required when information that is not identifiable individually is released for statistical research or reporting.

(h) Disclosures to the National Archives and Records Administration (NARA). (1) Records may be disclosed without the consent of the individual to whom they pertain to the NARA if they:

(i) Have historical or other value to warrant continued preservation; or

(ii) For evaluation by the NARA to determine if a record has such historical or other value.

(2) Records transferred to a Federal Records Center (FRC) for safekeeping and storage do not fall within this category. These remain under the control of the transferring Component, and the FRC personnel are considered agents of the Component which retains control over the records. No disclosure accounting is required for the transfer of records to the FRCs.

(i) Disclosures for law enforcement purposes. (1) Records may be disclosed without the consent of the individual to whom they pertain to another agency or an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity, provided:

(ii) The head of the law enforcement activity or a designee has made a written request specifying the particular records desired and the law enforcement purpose (such as criminal investigations, enforcement of a civil law, or a similar purpose) for which the record is sought; and

(iii) There is no federal statute that prohibits the disclosure of the records.

(2) Normally, blanket requests for access to any and all records pertaining to an individual are not honored.

(3) When a record is released to a law enforcement activity under paragraph (i)(1) of this section, maintain a disclosure accounting. This disclosure accounting shall not be made available to the individual to whom the record pertains if the law enforcement activity requests that the disclosure not be released.

(4) The blanket routine use for Law Enforcement (appendix C, section A.) applies to all DoD Component systems notices (see paragraph (e)(5) of this section). Only by including this routine use can a Component, on its own initiative, report indications of violations of law found in a system of records to a law enforcement activity without the consent of the individual to whom the record pertains (see paragraph (i)(1) of this section when responding to requests from law enforcement activities).

(j) Emergency disclosures. (1) Records may be disclosed without the consent of the individual to whom they pertain if disclosure is made under compelling circumstances affecting the health or safety of any individual. The affected individual need not be the subject of the record disclosed.

(2) When such a disclosure is made, notify the individual who is the subject of the record. Notification sent to the last known address of the individual as reflected in the records is sufficient.

(3) The specific data to be disclosed is at the discretion of releasing authority.

(4) Emergency medical information may be released by telephone.

(k) Disclosures to Congress and the General Accounting Office. (1) Records may be disclosed without the consent of the individual to whom they pertain to either House of the Congress or to
any committee, joint committee or subcommittee of Congress if the release pertains to a matter within the jurisdiction of the committee. Records may also be disclosed to the General Accounting Office (GAO) in the course of the activities of GAO.

(2) The blanket routine use for “Congressional Inquiries” (see appendix C, section D.) applies to all systems; therefore, there is no need to verify that the individual has authorized the release of his or her record to a congressional member when responding to a congressional constituent inquiry.

(3) If necessary, accept constituent letters requesting a member of Congress to investigate a matter pertaining to the individual as written authorization to provide access to the records to the congressional member or his or her staff.

(4) The verbal statement by a congressional staff member is acceptable to establish that a request has been received from the person to whom the records pertain.

(5) If the constituent inquiry is being made on behalf of someone other than the individual to whom the record pertains, provide the congressional member only that information releasable under the Freedom of Information Act (5 U.S.C. 552). Advise the congressional member that the written consent of the individual to whom the record pertains is required before any additional information may be released. Do not contact individuals to obtain their consents for release to congressional members unless a congressional office specifically requests that this be done.

(6) Nothing in paragraph (k)(2) of this section prohibits a Component, when appropriate, from providing the record directly to the individual and notifying the congressional office that this has been done without providing the record to the congressional member.

(7) See paragraph (e) of §310.33 for the policy on assessing fees for Members of Congress.

(8) Make a disclosure accounting each time a record is disclosed to either House of Congress, to any committee, joint committee, or subcommittee of Congress, to any congressional member, or GAO.

(1) Disclosures under court orders. (1) Records may be disclosed without the consent of the person to whom they pertain under a court order signed by a judge of a court of competent jurisdiction. Releases may also be made under the compulsory legal process of federal or state bodies having authority to issue such process.

(2) When a record is disclosed under this provision, make reasonable efforts to notify the individual to whom the record pertains, if the legal process is a matter of public record.

(3) If the process is not a matter of public record at the time it is issued, seek to be advised when the process is made public and make reasonable efforts to notify the individual at that time.

(4) Notification sent to the last known address of the individual as reflected in the records is considered reasonable effort to notify.

(5) Make a disclosure accounting each time a record is disclosed under a court order or compulsory legal process.

(m) Disclosures to consumer reporting agencies. (1) Certain personal information may be disclosed to consumer reporting agencies as defined by the Federal Claims Collection Act of 1966, as amended (31 U.S.C. 952(d)).

(2) Under the provisions of paragraph (m)(1) of this section, the following information may be disclosed to a consumer reporting agency:

(i) Name, address, taxpayer identification number (SSN), and other information necessary to establish the identity of the individual.

(ii) The amount, status, and history of the claim.

(iii) The agency or program under which the claim arose.

(3) The Federal Claims Collection Act of 1966, as amended (31 U.S.C. 952(d)) specifically requires that the system notice for the system of records from which the information will be disclosed indicates that the information may be disclosed to a “consumer reporting agency.”

§ 310.42 Disclosures to commercial enterprises.

(a) General policy. (1) Make releases of personal information to commercial enterprises under the criteria established by the DoD Freedom of Information Program (32 CFR part 286).

(2) The relationship of commercial enterprises to their clients or customers and to the Department of Defense are not changed by this part.

(b) Release of personal information. (1) Any information that must be released under the Freedom of Information (5 U.S.C. 552) may be released to a commercial enterprise without the individual’s consent (see paragraph (b) of §310.41 of this subpart).

(2) Commercial enterprises may present a signed consent statement setting forth specific conditions for release of personal information. Statements such as the following, if signed by the individual, are considered valid:

I hereby authorize the Department of Defense to verify my Social Security Number or other identifying information and to disclose my home address and telephone number to authorized representatives of (name of commercial enterprise) so that they may use this information in connection with my commercial dealings with that enterprise. All information furnished will be used in connection with my financial relationship with (name of commercial enterprise).

(3) When a statement of consent as outlined in paragraph (b)(2) of this section is presented, provide the requested information if its release is not prohibited by some other regulation or statute.

(4) Blanket statements of consent that do not identify specifically the Department of Defense or any of its Components, or that do not specify exactly the type of information to be released, may be honored if it is clear that the individual in signing the consent statement intended to obtain a personal benefit (for example, a loan to buy a house) and was aware of the type of information that would be sought. Care should be exercised in these situations to release only the minimum amount of personal information essential to obtain the benefit sought.

(5) Do not honor request from commercial enterprises for official evaluation of personal characteristics, such as evaluation of personal financial habits.

§ 310.43 Disclosures to the public from health care records.

(a) Section applicability. This section applies to the release of information to the news media or the public concerning persons treated or hospitalized in DoD medical facilities and patients of nonfederal medical facilities for whom the cost of the care is paid by the Department of Defense.

(b) General disclosure. Normally, the following may be released without the patient’s consent.

(1) Personal information concerning the patient. See 32 CFR part 286, The DoD Freedom of Information Act Program and paragraph (c) of §310.41.

(2) Medical condition: (i) Date of admission or disposition; (ii) The present medical assessment of the individual’s condition in the following terms if the medical doctor has volunteered the information: (A) The individual’s condition is presently (stable) (good) (fair) (serious) or (critical), and (B) Whether the patient is conscious, semiconscious, or unconscious.

(c) Individual consent. (1) Detailed medical and other personal information may be released in response to inquiries from the news media and public if the patient has given his or her informed consent to such a release.

(2) If the patient is not conscious or competent, no personal information except that required by the Freedom of Information Act (5 U.S.C. 552) shall be released until there has been enough improvement in the patient to ensure he or she can give informed consent or a guardian has been appointed legally for the patient and the guardian has given consent on behalf of the patient.

(3) The consent described in paragraph (c)(1) of this section regarding patients who are minors must be given by the parent of legal guardian.

(d) Information that may be released with individual consent. (1) Any item of
personal information may be released, if the patient has given his or her informed consent to its release.

(2) Releasing medical information about patients shall be done with discretion, so as not to embarrass the patient, his or her family, or the Department of Defense, needlessly.

(e) Disclosures to other government agencies. This subpart does not limit the disclosures of personal medical information to other government agencies for use in determining eligibility for special assistance or other benefits.

§ 310.44 Disclosure accounting.

(a) Disclosure accounting. (1) Keep an accurate record of all disclosures made from any system of records except disclosures:

(i) To DoD personnel for use in the performance of their official duties; or

(2) In all other cases a disclosure accounting is required even if the individual has consented to the disclosure of the information pertaining to him or her.

(3) Disclosure accounting:

(i) Permit individuals to determine to whom information has been disclosed;

(ii) Enable the activity to notify past recipients of disputed or corrected information (§ 310.32(i)(1), subpart D); and

(iii) Provide a method of determining compliance with paragraph (c) of § 310.40.

(b) Contents of disclosure accountings. As a minimum, disclosure accounting shall contain:

(1) The date of the disclosure.

(2) A description of the information released.

(3) The purpose of the disclosure.

(4) The name and address of the person or agency to whom the disclosure was made.

(c) Methods of disclosure accounting. Use any system of disclosure accounting that will provide readily the necessary disclosure information (see paragraph (a)(3) of this section).

(d) Accounting for mass disclosures. When numerous similar records are released (such as transmittal of payroll checks to a bank), identify the category of records disclosed and include the data required by paragraph (b) of this section in some form that can be used to construct an accounting disclosure record for individual records if required (see paragraph (a)(3) of this section).

(e) Disposition of disclosure accounting records. Retain disclosure accounting records for 5 years after the disclosure or the life of the record, whichever is longer.

(f) Furnishing disclosure accountings to the individual. (1) Make available to the individual to whom the record pertains all disclosure accountings except when:

(i) The disclosure has been made to a law enforcement activity under paragraph (i) of § 310.41 and the law enforcement activity has requested that disclosure not be made; or

(ii) The system of records has been exempted from the requirement to furnish the disclosure accounting under the provisions of § 310.50(b), subpart F.

(2) If disclosure accountings are not maintained with the record and the individual requests access to the accounting, prepare a listing of all disclosures (see paragraph (b) of this section) and provide this to the individual upon request.

§ 310.50 Use and establishment of exemptions.

(a) Types of exemptions. (1) There are two types of exemptions permitted by the Privacy Act.

(i) General exemptions that authorize the exemption of a system of records from all but certain specifically identified provisions of the Act.

(ii) Specific exemptions that allow a system of records to be exempted only from certain designated provisions of the Act.

(2) Nothing in the Act permits exemption of any system of records from all provisions of the Act (see appendix D).
(b) Establishing exemptions. (1) Neither general nor specific exemptions are established automatically for any system of records. The head of the DoD Component maintaining the system of records must make a determination whether the system is one for which an exemption properly may be claimed and then propose and establish an exemption rule for the system. No system of records within the Department of Defense shall be considered exempted until the head of the Component has approved the exemption and an exemption rule has been published as a final rule in the Federal Register (see §310.60(e), subpart G).

(2) Only the head of the DoD Component or an authorized designee may claim an exemption for a system of records.

(3) A system of records is considered exempt only from those provisions of the Privacy Act (5 U.S.C. 552a) which are identified specifically in the Component exemption rule for the system and which are authorized by the Privacy Act.

(4) To establish an exemption rule, see §310.61 of subpart G.

(c) Blanket exemption for classified material. (1) Include in the Component rules a blanket exemption under 5 U.S.C. 552a(k)(1) of the Privacy Act from the access provisions (5 U.S.C. 552a(d)) and the notification of access procedures (5 U.S.C. 552a(e)(4)(H)) of the Act for all classified material in any system of records maintained.

(2) Do not claim specifically an exemption under section 552a(k)(1) of the Privacy Act for any system of records. The blanket exemption affords protection to all classified material in all systems of records maintained.

(d) Provisions from which exemptions may be claimed. (1) The head of a DoD Component may claim an exemption from any provision of the Act from which an exemption is allowed (see appendix D).

(2) Notify the Defense Privacy Office ODASD(A) before claiming an exemption for any system of records from the following:

(i) The exemption rule publication requirement (5 U.S.C. 552a(j)) of the Privacy Act.
(ii) The requirement to report new systems of records (5 U.S.C. 552a(o)); or
(iii) The annual report requirement (5 U.S.C. 552a(p)).

(e) Use of exemptions. (1) Use exemptions only for the specific purposes set forth in the exemption rules (see paragraph (b) of §310.61, subpart G).

(2) Use exemptions only when they are in the best interest of the government and limit them to the specific portions of the records requiring protection.

(3) Do not use an exemption to deny an individual access to any record to which he or she would have access under the Freedom of Information Act (5 U.S.C. 552).

(f) Exempt records in nonexempt systems. (1) Exempt records temporarily in the hands of another Component are considered the property of the originating Component and access to these records is controlled by the system notices and rules of the originating Component.

(2) Records that are actually incorporated into a system of records may be exempted only to the extent the system of records into which they are incorporated has been granted an exemption, regardless of their original status or the system of records for which they were created.

(3) If a record is accidentally misfiled into a system of records, the system notice and rules for the system in which it should actually be filed will govern.

§310.51 General exemptions.

(a) Use of the general exemptions. (1) No DoD Component is authorized to claim the exemption for records maintained by the Central Intelligence Agency established by 5 U.S.C. 552a(j)(1) of the Privacy Act.

(2) The general exemption established by 5 U.S.C. 552a(j)(2) of the Privacy Act may be claimed to protect investigative records created and maintained by law-enforcement activities of a DoD Component.

(3) To qualify for the (j)(2) exemption, the system of records must be
maintained by an element that performs as its principal function enforcement of the criminal law, such as U.S. Army Criminal Investigation Command (CIDC), Naval Investigative Service (NIS), the Air Force Office of Special Investigations (AFOSI), and military police activities. Law enforcement includes police efforts to detect, prevent, control, or reduce crime, to apprehend or identify criminals; and the activities of correction, probation, pardon, or parole authorities.

(4) Information that may be protected under the (j)(2) exemption include:

(i) Records compiled for the purpose of identifying criminal offenders and alleged offenders consisting only of identifying data and notations of arrests, the nature and disposition of criminal charges, sentencing, confinement, release, parole, and probation status (so-called criminal history records);

(ii) Reports and other records compiled during criminal investigations, to include supporting documentation.

(iii) Other records compiled at any stage of the criminal law enforcement process from arrest or indictment through the final release from parole supervision, such as presentence and parole reports.

(5) The (j)(2) exemption does not apply to:

(i) Investigative records prepared or maintained by activities without primary law-enforcement missions. It may not be claimed by any activity that does not have law enforcement as its principal function.

(ii) Investigative records compiled by any activity concerning employee suitability, eligibility, qualification, or for individual access to classified material regardless of the principal mission of the compiling DoD Component.

(6) The (j)(2) exemption claimed by the law-enforcement activity will not protect investigative records that are incorporated into the record system of a nonlaw enforcement activity or into nonexempt systems of records (see paragraph (f)(2) of §310.50). Therefore, all system managers are cautioned to comply with the various regulations prohibiting or limiting the incorporation of investigatory records into systems of records other than those maintained by law-enforcement activities.

(b) Access to records for which a (j)(2) exemption is claimed. Access to investigatory records in the hands of a law-enforcement activity or temporarily in the hands of a military commander or other criminal adjudicative activity shall be processed under 32 CFR part 286, The DoD Freedom of Information Act Program, provided that the system of records from which the file originated is a law enforcement record system that has been exempted from the access provisions of this part (see paragraph (h) of §310.30, subpart D).

§310.52 Specific exemptions.

(a) Use of the specific exemptions. The specific exemptions permit certain categories of records to be exempted from certain specific provisions of the Privacy Act (see appendix D). To establish a specific exemption, the records must meet the following criteria (parenthetical references are to the appropriate subsection of the Privacy Act (5 U.S.C. 552a(k)):

(1) The (k)(1). Information specifically authorized to be classified under the DoD Information Security Program Regulation, 32 CFR part 159. (see also paragraph (c) of this section).

(2) The (k)(2). Investigatory information compiled for law-enforcement purposes by nonlaw enforcement activities and which is not within the scope of §310.51(a). If an individual is denied any right, privilege or benefit that he or she is otherwise entitled by federal law or for which he or she would otherwise be eligible as a result of the maintenance of the information, the individual will be provided access to the information except to the extent that disclosure would reveal the identity of a confidential source. This subsection when claimed allows limited protection of investigatory reports maintained in a system of records used in personnel or administrative actions.

(3) The (k)(3). Records maintained in connection with providing protective services to the President and other individuals under 18 U.S.C. 3506.
§ 310.60 Federal Register publication.

(a) What must be published in the Federal Register. (1) Three types of documents relating to the Privacy Program must be published in the Federal Register:

(i) DoD Component Privacy Program rules;

(ii) Component exemption rules; and

(iii) System notices.

(c) DoD Component rules. (1) Component Privacy Program procedures and Component exemption rules are subject to the rulemaking procedures prescribed in 32 CFR part 296.

(2) System notices are not subject to formal rulemaking and are published in the Federal Register as “Notices,” not rules.

(3) Privacy procedural and exemption rules are incorporated automatically into the Code of Federal Regulations (CFR). System notices are not published in the CFR.

(d) Submission of rules for publication. (1) Submit to the Defense Privacy Office, ODASD(A), all proposed rules implementing this part in proper format (see Appendices E, F and G) for publication in the Federal Register.

(2) This part has been published as a final rule in the Federal Register (32 CFR part 310). Therefore, incorporate it into your Component rules by reference rather than by republication.
Office of the Secretary of Defense

§ 310.62

(3) DoD Component rules that simply implement this part need only be published as final rules in the FEDERAL REGISTER (see DoD 5025.1–M, “Directives System Procedures,” and DoD Directive 5400.9, “Publication of Proposed and Adopted Regulations Affecting the Public,” 32 CFR part 296).

(4) Amendments to Component rules are submitted like the basic rules.

(5) The Defense Privacy Office ODASD(A) submits the rules and amendments thereto to the FEDERAL REGISTER for publication.

(e) Submission of exemption rules for publication. (1) No system of records within the Department of Defense shall be considered exempt from any provision of this part until the exemption and the exemption rule for the system has been published as a final rule in the FEDERAL REGISTER (see paragraph (c) of this section).

(2) Submit exemption rules in proper format to the Defense Privacy Office ODASD(A). After review, the Defense Privacy Office will submit the rules to the FEDERAL REGISTER for publication.

(3) Exemption rules require publication both as proposed rules and final rules (see DoD Directive 5400.9, 32 CFR part 296).

(4) Section 310.61 of this subpart discusses the content of an exemption rule.

(5) Submit amendments to exemption rules in the same manner used for establishing these rules.

(f) Submission of system notices for publication. (1) While system notices are not subject to formal rulemaking procedures, advance public notice must be given before a Component may begin to collect personal information or use a new system of records. The notice procedures require that:

(i) The system notice describes the contents of the record system and the routine uses for which the information in the system may be released.

(ii) The public be given 30 days to comment on any proposed routine uses before implementation; and

(iii) The notice contain the data on which the system will become effective.

(2) Submit system notices to the Defense Privacy Office in the Federal Register format (see appendix E). The Defense Privacy Office transmits the notices to the FEDERAL REGISTER for publication.

(3) Section 310.62 of this subpart discusses the specific elements required in a system notice.

§ 310.61 Exemption rules.

(a) General procedures. Paragraph (b)(1) of § 310.50, subpart F, provides the general guidance for establishing exemptions for systems of records.

(b) Contents of exemption rules. (1) Each exemption rule submitted for publication must contain the following:

(i) The record system identification and title of the system for which the exemption is claimed (see § 310.62 of this subpart);

(ii) The specific subsection of the Privacy Act under which exemptions for the system are claimed (for example, 5 U.S.C. 552a(j)(2), 5 U.S.C. 552a(k)(3); or 5 U.S.C. 552a(k)(7));

(iii) The specific provisions and subsections of the Privacy Act from which the system is to be exempted (for example, 5 U.S.C. 552a(c)(3), or 5 U.S.C. 552a(d)(1)–(5)) (see appendix D); and

(iv) The specific reasons why an exemption is being claimed from each subsection of the Act identified.

(2) Do not claim an exemption for classified material for individual systems of records, since the blanket exemption applies (see paragraph (c) of § 310.50 of subpart F).

§ 310.62 System notices.

(a) Contents of the system notices. (1) The following data captions are included in each system notice:

(i) System identification (see paragraph (b) of this section);

(ii) System name (see paragraph (c) of this section);

(iii) System location (see paragraph (d) of this section);

(iv) Categories of individuals covered by the system (see paragraph (e) of this section).
(v) Categories of records in the system (see paragraph (f) of this section).
(vi) Authority for maintenance of the system (see paragraph (g) of this section).
(vii) Purpose(s) (see paragraph (h) of this section).
(viii) Routine uses of records maintained in the system, including categories of users, uses, and purposes of such uses (see paragraph (i) of this section).
(ix) Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system (see paragraph (j) of this section).
(x) Systems manager(s) and address (see paragraph (k) of this section).
(xi) Notification procedure (see paragraph (l) of this section).
(xii) Record access procedures (see paragraph (m) of this section).
(xiii) Contesting records procedures (see paragraph (n) of this section.
(xiv) Record source categories (see paragraph (o) of this section).
(xv) Systems exempted from certain provision of the Act (see paragraph (p) of this section).
(2) The captions listed in paragraph (a)(1) of this section have been mandated by the Office of Federal Register and must be used exactly as presented.
(3) A sample system notice is shown in appendix E.
(b) System identification. The system identifier must appear on all system notices and is limited to 21 positions, including Component code, file number and symbols, punctuation, and spacing.
(c) System name. (1) The name of the system should reasonably identify the general purpose of the system and, if possible, the general categories of individuals involved.
(2) Use acronyms only parenthetically following the title or any portion thereof, such as, “Joint Uniform Military Pay System (JUMPS).” Do not use acronyms that are not commonly known unless they are preceded by an explanation.
(3) The system name may not exceed 55 character positions including punctuation and spacing.
(d) System location. (1) For systems maintained in a single location provide the exact office name, organizational identity, and address or routing symbol.
(2) For geographically or organizationally decentralized systems, specify each level of organization or element that maintains a segment of the system.
(3) For automated data systems with a central computer facility and input/output terminals at several geographically separated locations, list each location by category.
(4) When multiple locations are identified by type of organization, the system location may indicate that official mailing addresses are contained in an address directory published as an appendix to the Component system notices in the Federal Register. Information concerning format requirements for preparation of an address directory may be obtained from the project officer, Air Force 1st Information Systems Group (AF/1ISG/GNR), Washington, DC 20330–6345.
(5) If no address directory is used or the addresses in the directory are incomplete, the address of each location where a segment of the record system is maintained must appear under the “System Location” caption.
(6) Classified addresses are not listed, but the fact that they are classified is indicated.
(7) Use the standard U.S. Postal Service two letter state abbreviation symbols and zip codes for all domestic addresses.
(e) Categories of individuals covered by the system. (1) Set forth the specific categories of individuals to whom records in the system pertain in clear, easily understood, nontechnical terms.
(2) Avoid the use of broad over-general descriptions, such as “all Army personnel” or “all military personnel” unless this actually reflects the category of individuals involved.
(f) Categories of records in the system.
(1) Describe in clear, nontechnical terms the types of records maintained in the system.
(2) Only documents actually retained in the system of records shall be described, not source documents that are used only to collect data and then destroyed.
(g) Authority for maintenance of the system. (1) Cite the specific provision of
Office of the Secretary of Defense § 310.62

(1) List the title and address of the official responsible for overseeing the system, including the title and address of the system manager(s) and address.

(2) Include with citations for statutes the popular names, when appropriate (for example, Title 51, U.S. Code, section 2103, "Tun-Tasters Licensing Act"), and for Executive Orders, the official title (for example, Executive Order No. 9397, "Numbering System for Federal Accounts Relating to Individual Persons").

(3) Cite the statute or Executive Order establishing the Component for administrative housekeeping records.

(4) If the Component is chartered by a DoD Directive, cite that Directive as well as the Secretary of Defense authority to issue the Directive. For example, “Pursuant to the authority contained in the National Security Act of 1947, as amended (10 U.S.C. 133d), the Secretary of Defense has issued DoD Directive 5105.21, the charter of the Defense Intelligence Agency (DIA) as a separate Agency of the Department of Defense under his control. Therein, the Director, DIA, is charged with the responsibility of maintaining all necessary and appropriate records.”

(h) Purpose or purposes. (1) List the specific purposes for maintaining the system of records by the Component.

(2) Include the uses made of the information within the Component and the Department of Defense (so-called “internal routine uses”).

(i) Routine uses. (1) The blanket routine uses (appendix C) that appear at the beginning of each Component compilation apply to all systems notices unless the individual system notice specifically states that one or more of them do not apply to the system. List the blanket routine uses at the beginning of the Component listing of system notices (see paragraph (e)(5) of §310.41 of subpart E).

(2) For all other routine uses, when practical, list the specific activity to which the record may be released, to include any routine automated system interface (for example, “to the Department of Justice, Civil Rights Compliance Division,” “to the Veterans Administration, Office of Disability Benefits,” or “to state and local health agencies”).

(3) For each routine user identified, include a statement as to the purpose or purposes for which the record is to be released to that activity (see §310.41(e) of subpart E). The routine uses should be compatible with the purpose for which the record was collected or obtained (see §310.3(p), subpart A).

(4) Do not use general statements, such as, “to other federal agencies as required” or “to any other appropriate federal agency.”

(j) Policies and practices for storing, retrieving, accessing, retaining, and disposing of records. This caption is subdivided into four parts:

(1) Storage. Indicate the medium in which the records are maintained. (For example, a system may be “automated”, maintained on magnetic tapes or disks, “manual”, maintained in paper files, or “hybrid”, maintained in a combination of paper and automated form.) Storage does not refer to the container or facility in which the records are kept.

(2) Retrieval. Specify how the records are retrieved (for example, name and SSN, name, SSN) and indicate whether a manual or computerized index is required to retrieve individual records.

(3) Safeguards. List the categories of Component personnel having immediate access and those responsible for safeguarding the records from unauthorized access. Generally identify the system safeguards (such as storage in safes, vaults, locked cabinets or rooms, use of guards, visitor registers, personnel screening, or computer “fail-safe” systems software). Do not describe safeguards in such detail so as to compromise system security.

(4) Retention and disposal. Indicate how long the record is retained. When appropriate, also state the length of time the records are maintained by the Component, when they are transferred to a Federal Records Center, length of retention at the Record Center and when they are transferred to the National Archivist or are destroyed. A reference to a Component regulation without further detailed information is insufficient.

(k) System manager(s) and address. (1) List the title and address of the official
§ 310.62  

32 CFR Ch. I (7-1-02 Edition)  

responsible for the management of the system.  

(2) If the title of the specific official is unknown, such as for a local system, specify the local commander or office head as the systems manager.  

(3) For geographically separated or organizationally decentralized activities for which individuals may deal directly with officials at each location in exercising their rights, list the position or duty title of each category of officials responsible for the system or a segment thereof.  

(4) Do not include business or duty addresses if they are listed in the Component address directory.  

(l) Notification procedures. (1) If the record system has been exempted from subsection (e)(4)(G) of the Privacy Act (5 U.S.C. 552a) (see §310.50)(d), so indicate.  

(2) For all nonexempt systems, describe how an individual may determine if there are records pertaining to him or her in the system. The procedural rules may be cited, but include a brief procedural description of the needed data. Provide sufficient information in the notice to allow an individual to exercise his or her rights without referral to the formal rules.  

(3) As a minimum, the caption shall include:  

(i) The official title (normally the system manager) and official address to which the request is to be directed;  

(ii) The specific information required to determine if there is a record of the individual in the system.  

(iii) Identification of the offices through which the individual may obtain access; and  

(iv) A description of any proof of identity required (see §310.30(c)(1)).  

(4) When appropriate, the individual may be referred to the system manager or Component official to obtain access procedures.  

(4) Do not repeat the addresses listed in the Component address directory but refer the individual to that directory.  

(n) Contesting record procedures. (1) If the record system has been exempted from subsection (e)(4)(H) of the Privacy Act (5 U.S.C. 552a) (see §310.50(d)), so indicate.  

(2) For all nonexempt systems of records, state briefly how an individual may contest the content of a record pertaining to him or her in the system.  

(3) The detailed procedures for contesting record accuracy, refusal of access or amendment, or initial review and appeal need not be included if they are readily available elsewhere and can be referred to by the public. (For example, “The Defense Mapping Agency rules for contesting contents and for appealing initial determinations are contained in DMA Instruction 5400.11 (32 CFR part 265c).”)  

(4) The individual may also be referred to the system manager to determine these procedures.  

(o) Record source categories. (1) If the record system has been exempted from subsection (e)(4)(I) of the Privacy Act (5 U.S.C. 552a) (see §310.50(d), subpart F), so indicate.  

(2) For all nonexempt systems of records, list the sources of the information in the system.  

(3) Specific individuals or institutions need not be identified by name, particularly if these sources have been granted confidentiality (see §310.52(b), subpart F).  

(p) System exempted from certain provisions of the Act. (1) If no exemption has been claimed for the system, indicate “None.”  

(2) If there is an exemption claimed indicate specifically under which subsection of the Privacy Act (5 U.S.C. 552a) it is claimed.  

(3) Cite the regulation and CFR section containing the exemption rule for the system. (For example, “Parts of this record system may be exempt under Title 5 U.S. Code, 552a(k)(2) and (5), as applicable. See exemption rules
§ 310.63 New and altered record systems.

(a) Criteria for a new record system. (1) A new system of records is one for which there has been no system notice published in the FEDERAL REGISTER.

(2) If a notice for a system of records has been canceled or deleted before reinstating or reusing the system, a new system notice must be published in the FEDERAL REGISTER.

(b) Criteria for an altered record system. A system is considered altered whenever one of the following actions occurs or is proposed:

(1) A significant increase or change in the number or type of individuals about whom records are maintained.

(2) Increases in numbers of individuals due to normal growth are not considered alterations unless they truly alter the character and purpose of the system;

(3) Increases that change significantly the scope of population covered (for example, expansion of a system of records covering a single command’s enlisted personnel to include all of the Component’s enlisted personnel would be considered an alteration);

(4) Changes that alter the computer environment (such as changes to equipment configuration, software, or procedures) so as to create the potential for greater or easier access.

(5) Changes that alter the computer environment (such as changes to equipment configuration, software, or procedures) so as to create the potential for greater or easier access.

(i) The addition of any new category of records not described under the “Categories of Records in System” caption is considered an alteration.

(ii) Adding a new data element which is clearly within the scope of the categories of records described in the existing notice is an amendment (see §310.64 of this subpart).

(iii) All changes under this criterion require a change to the “Categories of Records in System” caption of the notice (see §310.62(f) of this subpart).

(3) An alteration in the manner in which the records are organized or the manner in which the records are indexed and retrieved.

(i) The change must alter the nature of use or scope of the records involved (for example, combining records systems in a reorganization).

(ii) Any change under this criteria requires a change in the “Categories of Records in System” caption of the system notice (see §310.62(j)(2) of this subpart).

(iii) If the records are no longer retrieved by name or personal identifier cancel the system notice (see §310.10(a) of subpart B).

(4) A change in the purpose for which the information in the system is used.

(i) The new purpose must not be compatible with the existing purposes for which the system is maintained or a use that would not reasonably be expected to be an alteration.

(ii) If the use is compatible and reasonably expected, there is no change in purpose and no alteration occurs.

(5) Changes that alter the computer environment (such as changes to equipment configuration, software, or procedures) so as to create the potential for greater or easier access.

(i) Increasing the number of offices with direct access is an alteration.

(ii) Software releases, such as operating systems and system utilities that
provide for easier access are considered alterations.

(iii) The addition of an on-line capability to a previously batch-oriented system is an alteration.

(iv) The addition of peripheral devices such as tape devices, disk devices, card readers, printers, and similar devices to an existing ADP system constitute an amendment if system security is preserved (see paragraph (a) of §310.64 of this subpart).

(v) Changes to existing equipment configuration with on-line capability need not be considered alterations to the system if:

(A) The change does not alter the present security posture; or

(B) The addition of terminals does not extend the capacity of the current operating system and existing security is preserved;

(vi) The connecting of two or more formerly independent automated systems or networks together creating a potential for greater access is an alteration.

(vii) Any change under this caption requires a change to the “Storage” caption element of the systems notice (see §310.62(j)(1) of this subpart).

(c) Reports of new and altered systems.

(1) Submit a report of a new or altered system to the Defense Privacy Office before collecting information for or using a new system or altering an existing system (see appendix F and paragraph (d) of this section).

(2) The Defense Privacy Office, ODASD(A) coordinates all reports of new and altered systems with the Office of the Assistant Secretary of Defense (Legislative Affairs) and the Office of the General Counsel, Department of Defense.

(3) The Defense Privacy Office prepares for the DASD(A)’s approval and signature the transmittal letters sent to OMB and Congress (see paragraph (e) of this section).

(d) Time restrictions on the operation of a new or altered system. (1) All time periods begin from the date the DASD(A) signs the transmittal letters (see paragraph (c)(3) of this section). The specific time limits are:

(i) 60 days must elapse before data collection forms or formal instructions pertaining to the system may be issued.

(ii) 60 days must elapse before the system may become operational; (that is, collecting, maintaining, using, or disseminating records from the system) (see also §310.60(f) of this subpart).

(iii) 60 days must elapse before any public issuance of a Request for Proposal or Invitation to Bid for a new ADP or telecommunication system.

Note: Requests for delegation of procurement authority may be submitted to the General Services Administration during the 60 days’ waiting period, but these shall include language that the Privacy Act reporting criteria have been reviewed and that a system report is required for such procurement.

(iv) Normally 30 days must elapse before publication in the Federal Register of the notice of a new or altered system (see §310.60(f) of this subpart) and the preamble to the Federal Register notice must reflect the date the transmittal letters to OMB and Congress were signed by DASD(A).

(2) Do not operate a system of records until the waiting periods have expired (see §310.103 of subpart K).

(e) Outside review of new and altered systems reports. If no objections are received within 30 days of a submission to the President of the Senate, Speaker of the House of Representatives, and the Director, OMB, of a new or altered system report it is presumed that the new or altered systems have been approved as submitted.

(f) Exemptions for new systems. See §310.60(e) of this subpart for the procedures to follow in submitting exemption rules for a new system of records.

(g) Waiver of time restrictions. (1) The OMB may authorize a federal agency to begin operation of a system of records before the expiration of time limits set forth in §310.63(d) of this subpart.

(2) When seeking such a waiver, include in the letter of transmittal to the Defense Privacy Office, ODASD(A) an explanation why a delay of 60 days in establishing the system of records would not be in the public interest. The transmittal must include:

(i) How the public interest will be affected adversely if the established time limits are followed; and

(ii) Why earlier notice was not provided.
§ 310.72  DoD training programs.

(a) To meet these training requirements, establish three general levels of training for those persons who are involved in any way with the design, development, operation, or maintenance of any system of records. These are:

(1) The notice of deletion shall include:
   (i) The system identification and name.
   (ii) The reason for the deletion.

(2) When the system is eliminated through combination or merger, identify the successor system or systems in the deletion notice.

(3) Multiple deletions and amendments may be combined into a single submission.

§ 310.73 Training methodology and procedures.

(a) Each DoD Component is responsible for the development of training procedures and methodology.

(b) The Defense Privacy Office, ODASD(A) will assist the Components in developing these training programs and may develop Privacy training programs for use by all DoD Components.

(c) All training programs shall be coordinated with the Defense Privacy Office, ODASD(A) to avoid duplication and to ensure maximum effectiveness.

32 CFR Ch. 1 (7–1–02 Edition)

§ 310.74 Funding for training.

Each DoD Component shall fund its own Privacy training program.

Subpart J—Inspections

§ 310.90 Privacy Act inspections.

During internal inspections, Component inspectors shall be alert for compliance with this part and for managerial, administrative, and operational problems associated with the implementation of the Defense Privacy Program.

§ 310.91 Inspection reporting.

(a) Document the findings of the inspectors in official reports that are furnished the responsible Component officials. These reports, when appropriate, shall reflect overall assets of the Component Privacy Program inspected, or portion thereof, identify deficiencies, irregularities, and significant problems. Also document remedial actions taken to correct problems identified.

(b) Retain inspections reports and later follow-up reports in accordance with established records disposition standards. These reports shall be made
available to the Privacy Program officials concerned upon request.

Subpart K—Privacy Act Enforcement Actions

§310.100 Administrative remedies.

Any individual who feels he or she has a legitimate complaint or grievance against the Department of Defense or any DoD employee concerning any right granted by this part shall be permitted to seek relief through appropriate administrative channels.

§310.101 Civil actions.

An individual may file a civil suit against a DoD Component or its employees if the individual feels certain provisions of the Act have been violated (see 5 U.S.C. 552a(g), of the Privacy Act.

§310.102 Civil remedies.

In addition to specific remedial actions, subsection (g) of the Privacy Act (5 U.S.C. 552a) provides for the payment of damages, court cost, and attorney fees in some cases.

§310.103 Criminal penalties.

(a) The Act also provides for criminal penalties (see 5 U.S.C. 552a(i). Any official or employee may be found guilty of a misdemeanor and fined not more than $5,000 if he or she willfully:

(1) Discloses personal information to anyone not entitled to receive the information (see subpart E); or

(2) Maintains a system of records without publishing the required public notice in the Federal Register (see subpart G).

(b) A person who requests or obtains access to any record concerning another individual under false pretenses may be found guilty of misdemeanor and fined up to $5,000.

§310.104 Litigation status sheet.

Whenever a complaint citing the Privacy Act is filed in a U.S. District Court against the Department of Defense, a DoD Component, or any DoD employee, the responsible system manager shall notify promptly the Defense Privacy Office, ODASD(A). The litigation status sheet at appendix H provides a standard format for this notification. The initial litigation status sheet forwarded shall, as a minimum, provide the information required by items 1 through 6. A revised litigation status sheet shall be provided at each stage of the litigation. When a court renders a formal opinion or judgment, copies of the judgment and opinion shall be provided to the Defense Privacy Office with the litigation status sheet reporting that judgment or opinion.

Subpart L—Matching Program Procedures

§310.110 OMB matching guidelines.

The OMB has issued special guidelines to be followed in programs that match the personal records in the computerized data bases of two or more federal agencies by computer (see appendix I). These guidelines are intended to strike a balance between the interest of the government in maintaining the integrity of federal programs and the need to protect individual privacy expectations. They do not authorize matching programs as such and each matching program must be justified individually in accordance with the OMB guidelines.

§310.111 Requesting matching programs.

(a) Forward all requests for matching programs to include necessary routine use amendments (see §310.62(i) of subpart G) and analysis and proposed matching program reports (see subsection E.6. of appendix I) to the Defense Privacy Office, ODASD(A).

(b) The Defense Privacy Office shall review each request and supporting material and forward the report and system notice amendments to the Federal Register, OMB, and Congress, as appropriate.

(c) Changes to existing matching programs shall be processed in the same manner as a new matching program report.

§310.112 Time limits for submitting matching reports.

(a) No time limits are set by the OMB guidelines. However, in order to establish a new routine use for a matching
§ 310.113

program, the amended system notice must have been published in the Federal Register at least 30 days before implementation (see §310.60(f) of subpart G).

(b) Submit the documentation required by §310.111(a) of this subpart to the Defense Privacy Office at least 45 days before the proposed initiation date of the matching program.

(c) The Defense Privacy Office may grant waivers to the 45 days’ deadline for good cause shown. Requests for waivers shall be in writing and fully justified.

§ 310.113 Matching programs among DoD components.

(a) For the purpose of the OMB guidelines, the Department of Defense and all DoD Components are considered a single agency.

(b) Before initiating a matching program using only the records of two or more DoD Components, notify the Defense Privacy Office that the match is to occur. The Defense Privacy Office may request further information from the Component proposing the match.

(c) There is no need to notify the Defense Privacy Office of computer matches using only the records of a single Component.

§ 310.114 Annual review of systems of records.

The system manager shall review annually each system of records to determine if records from the system are being used in matching programs and whether the OMB Guidelines have been complied with.

APPENDIX A TO PART 310—SPECIAL CONSIDERATIONS FOR SAFEGUARDING PERSONAL INFORMATION IN ADP SYSTEMS

(See paragraph (b) of §310.13, subpart B)

A. General

1. The Automated Data Processing (ADP) environment subjects personal information to special hazards as to unauthorized compromise alteration, dissemination, and use. Therefore, special considerations must be given to safeguarding personal information in ADP systems.

2. Personal information must also be protected while it is being processed or accessed in computer environments outside the data processing installation (such as, remote job entry stations, terminal stations, minicomputers, microprocessors, and similar activities).

3. ADP facilities authorized to process classified material have adequate procedures and security for the purposes of this Regulation. However, all unclassified information subject to this Regulation must be processed following the procedures used to process and access information designated “For Official Use Only” (see “DoD Freedom of Information Act Program” (32 CFR part 286)).

B. Risk Management and Safeguarding Standards

1. Establish administrative, technical, and physical safeguards that are adequate to protect the information against unauthorized disclosure, access, or misuse (see Transmittal Memorandum No. 1 to OMB Circular A–71—Security of Federal Automated Information Systems).

2. Technical and physical safeguards alone will not protect against unintentional compromise due to errors, omissions, or poor procedures. Proper administrative controls generally provide cheaper and surer safeguards.

3. Tailor safeguards to the type of system, the nature of the information involved, and the specific threat to be countered.

C. Minimum Administrative Safeguard

The minimum safeguarding standards as set forth in paragraph (b) of §310.13, subpart B apply to all personal data within any ADP system. In addition:

1. Consider the following when establishing ADP safeguards:
   a. The sensitivity of the data being processed, stored and accessed;
   b. The installation environment;
   c. The risk of exposure;
   d. The cost of the safeguard under consideration.

2. Label or designate output and storage media products (intermediate and final) containing personal information that do not contain classified material in such a manner as to alert those using or handling the information of the need for special protection. Designating products “For Official Use Only” in accordance with subpart E of 32 CFR part 286, “DoD Freedom of Information Act Program,” satisfies this requirement.

3. Mark and protect all computer products containing classified data in accordance with the DoD Information Security Program Regulation (32 CFR part 159) and the ADP Security Manual (DoD 5200.28-M).
4. Mark and protect all computer products containing “For Official Use Only” material in accordance with subpart B of 32 CFR part 286.

5. Ensure that safeguards for protected information stored at secondary sites are appropriate.

6. If there is a computer failure, restore all protected information being processed at the time of the failure using proper recovery procedures to ensure data integrity.

7. Train all ADP personnel involved in processing information subject to this part in proper safeguarding procedures.

D. Physical Safeguards

1. For all unclassified facilities, areas, and devices that process information subject to this part, establish physical safeguards that protect the information against reasonably identifiable threats that could result in unauthorized access or alteration.

2. Develop access procedures for unclassified computer rooms, tape libraries, micrographic facilities, decollating shops, product distribution areas, or other direct support areas that process or contain personal information subject to this part that control adequately access to these areas.

3. Safeguard on-line devices directly coupled to ADP systems that contain or process information from systems of records to prevent unauthorized disclosure use or alteration.

4. Dispose of paper records following appropriate record destruction procedures.

E. Technical Safeguards

1. The use of encryption devices solely for the purpose of protecting unclassified personal information transmitted over communication circuits or during processing in computer systems is normally discouraged. However, when a comprehensive risk assessment indicates that encryption is cost-effective it may be used.

2. Remove personal data stored on magnetic storage media by methods that preclude reconstruction of the data.

3. Ensure that personal information is not inadvertently disclosed as residue when transferring magnetic media between activities.

4. When it is necessary to provide dial-up remote access for the processing of personal information, control access by computer-verified passwords. Change passwords periodically or whenever compromise is known or suspected.

5. Normally the passwords shall give access only to those data elements (fields) required and not grant access to the entire data base.

6. Do not rely totally on proprietary software products to protect personnel data during processing or storage.

F. Special Procedures

1. System Managers shall:

   a. Notify the ADP manager whenever personal information subject to this Regulation is to be processed by an ADP facility.

   b. Prepare and submit for publication all system notices and amendments and alterations thereto (see paragraph (f) of §310.60 of subpart G).

   c. Identify to the ADP manager those activities and individuals authorized access to the information and notify the manager of any changes to the access authorizations.

2. ADP personnel shall:

   a. Permit only authorized individuals access to the information.

   b. Adhere to the established information protection procedures and rules of conduct.

   c. Notify the ADP manager whenever unauthorized personnel seek access to the information.

3. ADP installation managers shall:

   a. Maintain an inventory of all computer program applications used to process information subject to this part to include the identity of the systems of records involved.

   b. Verify that requests for new programs or changes to existing programs have been published as required (see paragraphs (a) and (b) of §310.63, subpart G).

   c. Notify the system manager whenever changes to computer installations, communications networks, or any other changes in the ADP environment occur that require an altered system report be submitted (see paragraph (b) of §310.63, subpart G).

G. Record Disposal

1. Dispose of records subject to this part so as to prevent compromise (see paragraph (c) of §310.13 of subpart B). Magnetic tapes or other magnetic medium, may be cleared by degaussing, overwriting, or erasing. Unclassified carbon ribbons are considered destroyed when placed in a trash receptacle.

2. Do not use respliced waste computer products containing personal data.

H. Risk Assessment for ADP Installations That Process Personal Data

1. A separate risk assessment is not required for ADP installations that process classified material. A simple certification by the appropriate ADP official that the facility is cleared to process a given level of classified material (such as, Top Secret, Secret, or Confidential) and that the procedures followed in processing “For Official Use Only” material are to be followed in processing personal data subject to this Regulation is sufficient to meet the risk assessment requirement.

APPENDIX B TO PART 310—SPECIAL CONSIDERATIONS FOR SAFEGUARDING PERSONAL INFORMATION DURING WORD PROCESSING

(See paragraph (b) of §310.13, subpart B)

A. Introduction

1. Normally, word processing support is provided under two general concepts. They are:
   a. Word processing centers (WPCs), and
   b. Work groups or clusters.

2. A WPC generally provides support to one or more functional areas. Characteristically, the customer delivers (by written draft or dictation) the information to be processed to the WPC. The WPC process the information and returns it to the customer. There are generally two types of WPCs:
   a. A WPC may operate independent of the customer’s function, providing service in much the same manner as a data processing installation provides ADP support, or a message center provides electronic message service, or
   b. A WPC may work within a customer’s function providing support to that function.

3. A work group or cluster generally consists of one or more pieces of word processing equipment that are integrated into the functional office support system. The overall word processing and functional management may be one and the same. Depending on the size of the support job, there may be a work group or cluster manager. Normally, however, they will be located within or in close proximity to the functional area supported. Information flows in and out of the work group or cluster by normal office routine and the personnel are an integral part of the office staff.

B. Minimum Standards of Protection

1. Regardless of configuration (WPC or work group), all personal data processed using word processing equipment shall be afforded the standards of protection required by paragraph (b) of §310.13, subpart B.

2. The remaining special considerations discussed in this appendix are primarily for WPCs operating independent of the customer’s function. However, managers of other WPCs, work groups, and work clusters are encouraged to consider and adopt, when appropriate, the special considerations discussed herein.

3. WPCs that are not independent of a customer’s function, work groups, and work clusters are not required to prepare formal written risk assessments (see section H., below).
Office of the Secretary of Defense

Pt. 310, App. B

C. WPC Information Flow

1. In analyzing procedures required to safeguard adequately personal information in a WPC, the basic elements of WPC information flow and control must be considered. These are:
   a. Information receipt.
   b. Information processing.
   c. Information return.
   d. Information storage or filing.

2. WPCs do not control information acquisition or its ultimate use by the customers and, therefore, these are not addressed.

D. Safeguarding Information During Receipt

1. The word processing manager shall establish procedures.
   a. That require each customer who requests that information subject to this part be processed to identify specifically that information to the WPC personnel. This may be done by:
      (1) Providing a check-off type entry on the WPC work requests;
      (2) Requiring that the WPC work requests be stamped with a special legend, or that a special notation be made on the work requests;
      (3) Predesignating specifically a class of documents as coming within the provisions of this part (such as, all officer effectiveness reports, all recall rosters, and all medical protocols).
      (4) Using a special cover sheet both to alert the WPC personnel as to the type information, and to protect the document during transmittal;
      (5) Requiring an oral warning on all dictation; or
      (6) Any other procedures that ensure the WPC personnel are alerted to the fact that personal data subject to this part is to be processed.
   b. To ensure that the operators or other WPC personnel receiving data for processing that has not been identified to be under the provisions of this part but that appear to be personal promptly call the information to the attention of the WPC supervisor or the customer;
   c. To ensure that any request for the processing of personal data that the customer has not identified as being in a system of records and that appears to meet the criteria set forth in paragraph (a) of §310.10, subpart B is called to the attention of the appropriate supervisory personnel and system manager;

2. The WPC supervisor shall ensure that personal information is not inadvertently compromised within the WPC.

E. Safeguarding Information During Processing

1. Each WPC supervisor shall establish internal safeguards that shall protect personal data from compromise while it is being processed.
   a. Controls on individual access to the center;
   b. Machine configurations that reduce external access to the information being processed, or arrangements that alert the operator to the presence of others;
   c. Using certain specific machines to process personal data;
   d. Any other physical safeguards, to include special technical arrangements that will protect the data during processing.

2. Other safeguards may include:
   a. Using only certain selected operators to process personal data;
   b. Processing personal data only at certain times during the day without the WPC manager’s specific authorization;
   c. Using only certain tapes or diskettes to process and store personal data;
   d. Using continuous tapes for dictation of personal data;
   e. Requiring all WPC copies of documents to be marked specifically so as to prevent inadvertent compromise;
   f. Returning extra copies and mistakes to the customer with the product;
   g. Disposing of waste containing personal data in a special manner;
   h. Any other local procedures that provide adequate protection to the data being processed.

F. Safeguarding Information During Return

1. The WPC shall protect the data until it is returned to the customer or placed into a formal distribution channel.
2. In conjunction with the appropriate administrative support personnel and the WPC customers, the WPC manager shall establish procedures that protect the information from the time word processing is completed until it is returned to the customer.

G. Safeguards During Storage

1. The WPC manager shall ensure that all personal data retained in the center for any purpose (including samples) are protected properly.
Pt. 310, App. C

2. Safeguarding procedures may include:
   a. Marking all hard copies retained with special legends or designators;
   b. Storing media containing personal data in separate files or areas;
   c. Marking the storage containers for media containing personal data with special legends or notations;
   d. Restricting the reuse of media used to process personal data or erasing automatically the media before reuse;
   e. Establishing special criteria for the WPC retention of media used to store and process personal data;
   f. Returning the media to the customer for retention with the file copies of the finished products;
   g. Discouraging, when practical, the long-term storage of personal data in any form within the WPC;
   h. Any other filing or storage procedures that safeguard adequately any personal information retained or filed within the WPC.

H. Risk Assessment for WPCs

1. Each WPC manager shall ensure that a formal, written risk assessment is prepared for each WPC that processes personal information subject to this part.

2. The assessment shall address the areas discussed in sections D., E., F., and G. of this appendix, as well as any special risks that the WPC location, configuration, or organization may present to the compromise or alteration of personal data being processed or stored.

3. A risk assessment shall be conducted at least every 5 years or whenever there is a change of equipment, equipment configuration, WPC location, WPC configuration or modification of the WPC facilities that either increases or decreases the likelihood of compromise of personal data.

4. Copies of the assessment shall be retained by the WPC manager and made available to appropriate inspectors, as well as to personnel studying equipment for facility upgrading or modification.

5. Every new WPC shall have a formal risk assessment completed before beginning the processing of personal data.

I. Special Considerations in WPC Design and Modification

Procedures shall be established to ensure that all personnel involved in the design of WPCs or the acquisition of word processing equipment are aware of the special considerations required when processing personal data subject to this part.

APPENDIX I TO PART 310—OFFICE OF MANAGEMENT AND BUDGET (OMB) MATCHING GUIDELINES

(See §310.110, subpart L)

A. Purpose. These guidelines supplement and shall be used in conjunction with OMB

---

Notes:
1. Number used by the Component for reference purposes
2. Indicate the nature of the case, such as, “Denial of access,” “Refusal to amend,” “Incorrect records,” or other violations of the Act (specify).
Guidelines on the Administration of the Privacy Act of 1974, issued on July 1, 1975, and supplemented on November 21, 1975. They replace earlier guidance on conducting computerized matching programs issued on March 30, 1979. They are intended to help agencies relate the procedural requirements of the Privacy Act to the operational requirements of computerized matching. They are designed to address the concerns expressed by the Congress in the Privacy Act of 1974 that “the increasing use of computers and sophisticated information technology, while essential to the efficient operation of the Government, has greatly magnified the harm to individual privacy that can occur from any collection, maintenance, use, or dissemination of personal information.” These guidelines do not authorize activities that are not permitted by law, nor do they prohibit activities expressly required to be performed by law. Complying with these guidelines, however, does not relieve a federal agency of the obligation to comply with the provisions of the Privacy Act, including any provisions not cited in these guidelines.

B. Scope. These guidelines apply to all agencies subject to the Privacy Act of 1974 (5 U.S.C. 552a) and to all matching programs:

1. Performed by a federal agency, whether federal or nonfederal.

2. For which a federal agency discloses any personal records for use in a matching program performed by any other federal agency or any nonfederal organization.

C. Effective Date. These guidelines are effective on May 11, 1982.

D. Definitions. For the purposes of the Guidelines, all the terms defined in the Privacy Act of 1974 apply.

1. Personal Record. Any information pertaining to an individual that is stored in an automated system of records; for example, a data base which contains information about individuals that is retrieved by name or some other personal identifier.

2. Matching Program. A procedure in which a computer is used to compare two or more automated systems of records or a system of records with a set of nonfederal records to find individuals who are common to more than one system or set. The procedure includes all of the steps associated with the match, including obtaining the records to be matched, actual use of the computer, administrative and investigative action on the hits, and disposition of the personal records maintained in connection with the match. It should be noted that a single matching program may involve several matches among a number of participants. Matching programs do not include the following:

a. Matches that do not compare a substantial number of records, such as, comparison of the Department of Education’s defaulted student loan data base with the Office of Personnel Management’s federal employee data base would be covered; comparison of six individual student loan defaultees with the OPM file would not be covered.

b. Checks on specific individuals to verify data in an application for benefits done reasonably soon after the application is received.

c. Checks on specific individuals based on information which raises questions about an individual’s eligibility for benefits or payments done reasonably soon after the information is received.

d. Matches done to produce aggregate statistical data without any personal identifiers.

e. Matches done to support any research or statistical project when the specific data are not to be used to make decisions about the rights, benefits, or privileges of specific individuals.

f. Matches done by an agency using its own records.

3. Matching Agency. The federal agency which actually performs the match.

4. Source Agency. The federal agency which discloses records from a system of records to be used in the match. Note that in some circumstances a source agency may be the investigator and ultimate beneficiary of the matching program, as when an agency lacking computer resources uses another agency to perform the match. The disclosure of records to the matching agency and any later disclosure of “hits” (by either the matching or the source agencies) must be done in accordance with the provisions of paragraph (b) of the Privacy Act.

5. Hit. The identification, through a matching program, of a specific individual.

E. Guidelines for Agencies Participating in Matching Programs. Agencies should acquire and disclose matching records and conduct matching programs in accordance with the provisions of this section and the Privacy Act.

1. Disclosing Personal Records for Matching Programs.

a. To another federal agency. Source agencies are responsible for determining whether or not to disclose personal records from their systems and for making sure they meet the necessary Privacy Act disclosure provisions when they do. Among the factors source agencies should consider are:

(1) Legal authority for the match;

(2) Purpose and description of the match;

(3) Description of the records to be matched;

(4) Whether the record subjects have consented to the match; or whether disclosure of records for the match would be compatible with the purpose for which the records were
originally collected; that is, whether disclosure under a “routine use” would be appropriate; whether the soliciting agency is seeking the records for a legitimate law enforcement activity—which is appropriate; or any other provision of the Privacy Act under which disclosure may be made;

(5) Description of additional information which may be subsequently disclosed in relation to “hits”;

(6) Subsequent actions expected of the source (for example, verification of the identity of the “hits” or follow-up with individuals who are “hits”);

(7) Safeguards to be afforded the records involved, including disposition.

b. If the agency is satisfied that disclosure of the records would not violate its responsibilities under the Privacy Act, it may proceed to make the disclosure to the matching agency. It should ensure that only the minimum information necessary to conduct the match is provided. If disclosure is to be made pursuant to a “routine use” (Section 6(3) of the Privacy Act), it should ensure that the system of records contains such a use, or it should publish a routine use notice in the Federal Register. The agency should also be sure to maintain an accounting of the disclosures pursuant to Section (c) of the Privacy Act.

c. To a nonfederal entity. Before disclosing records to a nonfederal entity for a matching program to be carried out by that entity, a source agency should, in addition to all of the considerations in paragraph E.1.a., above, also make reasonable efforts, pursuant to Section (e)(6) of the Privacy Act, to “assure that such records are accurate, complete, timely, and relevant for agency purposes.”

2. Written Agreements. Before disclosing to either a federal or nonfederal entity, the source agency should require the matching entity to agree in writing to certain conditions governing the use of the matching file; for example, that the matching file remain the property of the source agency and be returned at the end of the matching program (or destroyed as appropriate); that the file will be used and accessed only to match the file or files previously agreed to; that it will not be used to extract information concerning “non-hit” individuals for any purpose, and that it will not be duplicated or disseminated within or outside the matching agency unless authorized in writing by the source agency.

3. Performing Matching Programs. (a) Matching agencies should maintain reasonable administrative, technical, and physical security safeguards on all files involved in the matching program.

(b) Matching agencies should insure that they have appropriate systems of records including those containing “hits,” and that such systems and any routine uses have been appropriately noticed in the Federal Register and reported to OMB and the Congress, as appropriate.

4. Disposition of Records. a. Matching agencies will return or destroy source matching files (by mutual agreement) immediately after the match.

b. Records relating to hits will be kept only so long as an investigation, either criminal or administrative, is active, and will be disposed of in accordance with the requirements of the Privacy Act and the Federal Records Schedule.

5. Publication Requirements. a. Agencies, before disclosing records outside the agency, will publish appropriate “routine use” notices in the Federal Register, if necessary.

b. If the matching program will result in the creation of a new or the substantial alteration of an existing system of records, the agency involved should publish the appropriate Federal Register notice and submit the requisite report to OMB and the Congress pursuant to OMB Circular No. A-108.

6. Reporting Requirements. a. As close to the initiation of the matching program as possible, matching agencies shall publish in the Federal Register a brief public notice describing the matching program. The notice should include:

(1) The legal authority under which the match is being conducted;

(2) A description of the matching program including whether the program is one time or continuing, the organizations involved, the purpose or purposes for which the program is being conducted, and the procedures to be used in matching and following up on the “hits”;

(3) A complete description of the personal records to be matched, including the sources or systems, system of records identifying data, date or dates and page number of the most recent Federal Register full text publication when appropriate;

(4) The projected start and ending dates of the program;

(5) The security safeguards to be used to protect against unauthorized access or disclosure of the personal records;

(6) Plans for disposition of the source records and “hits.”

7. Agencies should send a copy of this notice to the Congress and to OMB at the same time it is sent to the Federal Register.

a. Agencies should report new or altered systems of records as described in paragraph E.5.b., above, as necessary.

b. Agencies should also be prepared to report on matching programs pursuant to the reporting requirements of either the Privacy Act or the Paperwork Reduction Act. Reports will be solicited by the Office of Information and Regulatory Affairs and will focus on both the protection of individual privacy and the government’s effective use of information technology. Reporting instructions will be disseminated to the agencies as part

(2) Regarding new or revised record systems, each OSD Component shall provide the Chief, Directives and Records Division with 90 days advance notice of any anticipated new or revised system of records. This material shall be submitted to the OMB and to Congress at least 60 days before use and to the Federal Register at least 30 days before being put into use, to provide an opportunity for interested persons to submit written data, views, or arguments to the OSD Components. Instructions on content and preparation are outlined in DoD 5400.11–R.

(b) Access to information on records systems. (1) Upon request, and as provided by the Privacy Act, records shall be disclosed only to the individual they pertain to and under whose individual name or identifier they are filed, unless exempted by provisions stated in DoD 5400.11–R.

(2) There is not requirement under 5 U.S.C. 552a that a record be created or that an individual be given access to records that are not in a group of records that meet this definition of a system of records in 5 U.S.C. 552a.

(3) Granting access to a record containing personal information shall not be conditioned upon any requirement that the individual state a reason or otherwise justify the need to gain access.

(4) No verification of identity shall be required of an individual seeking access to records that are otherwise available to the public.

(5) Individuals shall not be denied access to a record in a system of records about themselves because those records are exempted from disclosure under DoD 5400.7–R. Individuals may only be denied access to a record in a system of records about themselves when those records are exempted from the access provisions of the Privacy Act under DoD 5400.11–R, Chapter 5.

(6) Individuals shall not be denied access to their records for refusing to disclose their Social Security Numbers (SSNs), unless disclosure of the SSN is required by statute, by regulation adopted before January 1, 1975, or if the record’s filing identifier and only means of retrieval is by SSN.

(7) Individuals may request access to their records, in person or by mail, in accordance with the procedures outlined in paragraph (b)(8) of this section.

(9) If an individual wishes to be accompanied by a third party when seeking access to records or wishes to have the record released directly to a third party, the individual may be required to furnish a signed access authorization granting the third party access.

(10) Any individual submitting a request by mail for access to information shall address such request to the Directorate for Freedom of Information and Security Review, Pentagon, Room 2C757, Washington, DC 20301–1155. To verify the identity of the individual, the request shall include either a signed notarized statement or an unsworn declaration in the format specified by 28 U.S.C. 1746.

(11) The following procedures shall apply to requests for access to records or information compiled for law enforcement purposes:

(i) Individuals requesting access to records or information about themselves and compiled for law enforcement purposes are processed under DoD 5400.11–R and DoD 5400.7–R to give them the greater degree of access.

(ii) Individual requests for access to records or information about themselves and compiled for law enforcement purposes (and in the custody of law enforcement activities) that have been incorporated into the records system, exempted from the access provisions of 5 U.S.C. 552a, will be processed in accordance with subsection C1.5.13 and Chapter 5, DoD 5400.7–R. Individuals shall not be denied access to records solely because they are in the exempt system, but they will have the same access that they would receive under DoD 5400.7–R. (Also see subsection A.10., Chapter 3, DoD 5400.11–R.)

(iii) Requests by the individuals for access to records or information about themselves and compiled for law enforcement purposes that are in records systems exempted from access provisions will be processed under subsection C.1., Chapter 5 of DoD 5400.11–R or DoD 5400.7–R, depending upon which regulation gives the greater degree of access. (See also subsection A.10., Chapter 3, DoD 5400.1–R)

(iv) Individual requests for access to records or information about themselves and compiled for law enforcement purposes exempted from access under Section B, Chapter 5 of DoD 54.11–R, that are temporarily in the hands of a non-law enforcement element for adjudicative or personal actions, shall be referred to the originating agency. The requester will be informed in writing of these referrals.

(12) The following procedures shall apply to requests for illegible, incomplete, or partially exempt records:

(i) An individual shall not be denied access to a record or a copy of a record solely because the physical condition or format of the record does not make it readily available (e.g., deteriorated state or on magnetic tape). The document will be prepared as an extract, or it will be exactly recopied.

(ii) If a portion of the record contains information that is exempt from access, an extract or summary containing all of the information in the record that is releasable shall be prepared.

(iii) When the physical condition to the record makes it necessary to prepare an extract for release, the extract shall be prepared so that the requester will understand it.

(iv) The requester shall be informed of all deletions or changes to records.

(13) Medical records shall be disclosed to the individual they pertain to, unless a determination is made in consultation with a medical doctor, that the disclosure could have adverse effects on the individual’s physical or mental health. Such information may be transmitted to a medical doctor named by the individual concerned. If the named medical doctor declines to provide the record to the individual, the OSD Components shall take positive action to ensure that the requested records are provided the individual.

(14) The individual may be charged reproduction fees for copies or records as outlined in DoD 5400.11–R.

(c) Requested to amend personal information in records systems and disputes.

(1) The Head of an OSD Component, or the designated official, shall allow individuals to request amendment to their records to the extent that such
records are not accurate, relevant, timely, or complete. Requests should be as brief and as simple as possible and should contain, as a minimum, identifying information to locate the record, as description of the items to be amended, and the reason for a change. A request shall not be rejected nor required to be resubmitted unless additional information is essential to process the request. Requesters shall be required to provide verification of their identity as stated in paragraph (b)(8) of this section, to ensure that they are seeking to amend records about themselves, and not, inadvertently or intentionally, the records of others.

(2) The appropriate system manager shall mail a written acknowledgement to an individual’s request to amend a record within 10 days after receipt, excluding Saturdays, Sundays, and legal public holidays. Such acknowledgement shall identify the request and may, if necessary, request any additional information needed to make a determination. No acknowledgment is necessary if the request can be reviewed, processed, and if the individual can be notified of compliance or denial within the 10-day period. Whenever practical, the decision shall be made within 30 working days. For requests presented in person, written acknowledgment may be provided at the time the request is presented.

(3) The Head of an OSD Component, or designated official, shall promptly take one of the following actions on requests to amend the records:

(i) If the OSD Component official agrees with any portion or all of an individual’s request, he or she will proceed to amend the records in accordance with existing statutes, regulations, or administrative procedures, and inform the requester of the action taken. The OSD Component official shall also notify all previous holders of the record that the amendment has been made, and shall explain the substance of the correction.

(ii) If the OSD Component official disagrees with all or any portion of a request, the individual shall be informed promptly of the refusal to amend a record, the reason for the refusal, and the procedure established by OSD for an appeal as outlined in paragraph (c)(6) of this section.

(iii) If the request for an amendment pertains to a record controlled and maintained by another Federal Agency, the request shall be referred to the appropriate Agency, and the requester advised of this:

(4) The following procedures shall be used when reviewing records under dispute:

(i) In response to a request for an amendment to records, officials shall determine whether the requester has adequately supported their claim that the record is inaccurate, irrelevant, untimely, or incomplete.

(ii) The Head of an OSD Component, or designated official, shall limit the review of a record of those items of information that clearly bear on any determination to amend the records and shall ensure that all those elements are present before determination is made.

(5) If the Head of an OSD Component, or designated official, after an initial review of a request to amend a record, disagrees with all or any portion of a record, he or she shall:

(i) Advise the individual of the denial and the reason for it.

(ii) Inform the individual that he or she may appeal the denial.

(iii) Describe the procedures for appealing the denial including the name and address of the official to whom the appeal should be directed. The procedures should be as brief and simple as possible.

(iv) Furnish a copy of the justification of any denial to amend a record to the DA&M, OSD.

(6) If an individual disagrees with the initial OSD determination, he or she may file an appeal. The request should be sent to the Director of Administration and Management, Office of the Secretary of Defense (DA&M, OSD), 1950 Defense Pentagon, Washington, D.C. 20301-1950, if the record is created and maintained by an OSD Component.

(7) If, after review, the DA&M, OSD further refuses to amend the record as requested, he shall advise the individual:

(i) Of the refusal and the reason and authority for the denial.
(ii) Of his or her right to file a statement of the reason for disagreeing with the DA&M’s decision.

(iii) Of the procedures for filing a statement of disagreements.

(iv) That the statement filed shall be made available to anyone the record is disclosed to, together with a brief statement, at the discretion of the OSD Component, summarizing its reasons for refusing to amend the records.

(v) That prior recipients of copies of disputed records by provided by a copy of any statement of dispute to the extent that an accounting of disclosure is maintained.

(vi) Of his or her right to seek judicial review of the DA&M’s refusal to amend a record.

(8) If, after the review, the DA&M, OSD, determines that the record should be amended in accordance with the individual’s request, the OSD Component shall amend the record, advise the individual, and inform previous recipients where an accounting of disclosure has been maintained.

(9) All appeals should be processed within 30 days (excluding Saturdays, Sundays, and legal public holidays) after receipt by the proper office. If the DA&M determines that a fair and equitable review cannot be made within that time, the individual shall be informed in writing of the reasons for the delay and of the approximate date the review is expected to be completed.

(d) Disclosure of disputed information. (1) If the DA&M, OSD, has refused to amend a record and the individual has filed a statement under paragraph (c)(7) of this section, the OSD Component shall clearly annotate the disputed record so that it is apparent to any person to whom the record is disclosed that a statement has been filed. Where feasible, the notation itself shall be integral to the record. Where an accounting of disclosure has been made, the OSD Component shall advise previous recipients that the record has been disputed and shall provide a copy of the individual’s statement.

(2) The OSD Component shall include a brief summary of its reasons for not making a correction when disclosing disputed information. Such statement shall normally be limited to the reasons given to the individual for not amending the record.

(3) Copies of the OSD Component’s summary will be treated as part of the individual’s record; however, it will not be subject to the amendment procedure outlined in paragraph (c)(3)(iii) of this section.

(e) Penalties—(1) Civil action. (i) An individual may file a civil suit against the United States and may recover damages, for:

(A) Refusal to amend a record.

(B) Improper denial of the access to a record.

(C) Failure to maintain an accurate, relevant, timely, and complete record that is used to make determinations adverse to the individual.

(ii) An individual may also file a suit against the United States for failure to implement a provision of the Privacy Act when such failure leads to an adverse determination.

(iii) If the individual’s suit is upheld, the court may direct the United States to pay the court costs and attorney’s fees.

(2) Criminal action. (i) Criminal penalties may be imposed against an OSD officer or employee for certain offenses listed in section (i) of the Privacy Act, as follows: willful unauthorized disclosure of protected information in the records; failure to publish a notice of the existence of a record system in the Federal Register; requesting or gaining access to the individual’s record under false pretenses.

(ii) An OSD officer or employee may be fined up to $5,000 for a violation as outlined in paragraph (e)(2)(i) of this section.

(3) Litigation status sheet. Whenever a complaint citing 5 U.S.C. 552a is filed in a U.S. District Court against the Department of Defense, a DoD component, or any DoD employee, the responsible system manager shall promptly
§ 311.7 Information requirements.

The Defense Privacy Office shall establish requirements and deadlines for DoD privacy reports. These reports shall be licensed in accordance with DoD Directive 8910.1.

§ 311.8 Procedures for exemptions.

(a) General information. The Secretary of Defense designates those Office of the Secretary of Defense (OSD) systems of records which will be exempt from certain provisions of the Privacy Act. There are two types of exemptions, general and specific. The general exemption authorizes the exemption of a system of records from all but a few requirements of the Act. The specific exemption authorizes exemption of a system of records or portion thereof, from only a few specific requirements. If an OSD Component originates a new system of records for which it proposes an exemption, or if it proposes an additional or new exemption for an existing system of records, it shall submit the recommended exemption with the records system notice as outlined in §311.6. No exemption of a system of records shall be considered automatic for all records in the system. The systems manager shall review each requested record and apply the exemptions only when this will serve significant and legitimate Government purpose.

(b) General exemptions. The general exemption provided by 5 U.S.C. 552a(j)(2) may be invoked for protection of systems of records maintained by law enforcement activities. Certain functional records of such activities are not subject to access provisions of the Privacy Act of 1974. Records identifying criminal offenders and alleged offenders consisting of identifying data and notations of arrests, the type and disposition of criminal charges, sentencing, confinement, release, parole, and probation status of individuals are protected from disclosure. Other records and reports compiled during criminal investigations, as well as any other records developed at any stage of the criminal law enforcement process from arrest to indictment through the final release from parole supervision are excluded from release.

(1) System identifier and name: DWHS P42.0, DPS Incident Reporting and Investigations Case Files.

(i) Exemption. Portions of this system that fall within 5 U.S.C. 552a(j)(2) are exempt from the following provisions of 5 U.S.C. 552a, Sections (c) (3) and (4); (d)(1) through (d)(5); (e)(1) through (e)(3); (e)(5); (f)(1) through (f)(5); (g)(1) through (g)(5); and (h) of the Act.

(iii) Reason: The Defense Protective Service is the law enforcement body for the jurisdiction of the Pentagon and immediate environs. The nature of certain records created and maintained by the DPS requires exemption from access provisions of the Privacy Act of 1974. The general exemption, 5 U.S.C. 552a(j)(2), is invoked to protect ongoing investigations and to protect from access criminal investigation information contained in this record system, so as not to jeopardize any subsequent judicial or administrative process taken as a result of information contained in the file.

(2) System identifier and name: JS006.CND, Department of Defense Counternarcotics C4I System.

5See footnote 2 to §311.1.
§ 311.8

(i) Exemption: Portions of this system that fall within 5 U.S.C. 552a(j)(2) are exempt from the following provisions of 5 U.S.C. 552a, section (c)(3) and (4); (d)(1) through (d)(5); (e)(1) through (e)(3); (e)(4)(G) and (e)(4)(H); (e)(5); (f)(1) through (f)(5); (g)(1) through (g)(5) of the Act.

(iii) Reason: From subsection (c)(3) because the release of accounting of disclosure would inform a subject that he or she is under investigation. This information would provide considerable advantage to the subject in providing him or her with knowledge concerning the nature of the investigation and the coordinated investigative efforts and techniques employed by the cooperating agencies. This would greatly impede USSOUTHCOM’s criminal law enforcement.

(iv) For subsections (c)(4) and (d) because notification would alert a subject to the fact that an investigation of that individual is taking place, and might weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy.

(v) From subsections (e)(4)(G) and (H) because this system of records is exempt from the access provisions of subsection (d) pursuant to subsection (j).

(vi) From subsection (f) because the agency’s rules are inapplicable to those portions of the system that are exempt and would place the burden on the agency of either confirming or denying the existence of a record pertaining to a requesting individual might in itself provide an answer to that individual relating to an on-going criminal investigation. The conduct of a successful investigation leading to the indictment of a criminal offender precludes the applicability of established agency rules relating to verification of record, disclosure of the record to that individual, and record amendment procedures for this record system.

(vii) For compatibility with the exemption claimed from subsection (f), the civil remedies provisions of subsection (g) must be suspended for this record system. Because of the nature of criminal investigations, standards of accuracy, relevance, timeliness and completeness cannot apply to this record system. Information gathered in criminal investigations is often fragmentary and leads relating to an individual in the context of one investigation may instead pertain to a second investigation.

(viii) From subsection (e)(1) because the nature of the criminal investigative function creates unique problems in prescribing a specific parameter in a particular case with respect to what information is relevant or necessary. Also, due to USSOUTHCOM’s close liaison and working relationships with the other Federal, as well as state, local and foreign country law enforcement agencies, information may be received which may relate to a case under the investigative jurisdiction of another agency. The maintenance of this information may be necessary to provide leads for appropriate law enforcement purposes and to establish patterns of activity which may relate to the jurisdiction of other cooperating agencies.

(ix) From subsection (e)(2) because collecting information to the greatest extent possible directly from the subject individual may or may not be practicable in a criminal investigation. The individual may choose not to provide information and the law enforcement process will rely upon significant information about the subject from witnesses and informants.

(x) From subsection (e)(3) because supplying an individual with a form containing a Privacy Act Statement would tend to inhibit cooperation by many individuals involved in a criminal investigation. The effect would be somewhat inimical to established investigative methods and techniques.

(xi) From subsection (e)(5) because the requirement that records be maintained with attention to accuracy, relevance, timeliness, and completeness would unfairly hamper the criminal investigative process. It is the nature of criminal law enforcement for investigations to uncover the commission of illegal acts at diverse stages. It is frequently impossible to determine initially what information is accurate, relevant, timely, and least of all complete. With the passage of time, seemingly irrelevant or untimely information may acquire new significant as
§311.8 32 CFR Ch. 1 (7–1–02 Edition)

further investigation brings new details to light.

(xii) From subsection (e)(8) because the notice requirements of this provision could present a serious impediment to criminal law enforcement by revealing investigative techniques, procedures, and existence of confidential investigations.

(c) Specific exemptions. All systems of records maintained by any OSD Component shall be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to subsection (k)(1) of that section to the extent that the system contains any information properly classified under Executive Order 11295, ‘National Security Information,’ dated June 28, 1979, as amended, and required by the Executive Order to be kept classified in the interest of national defense or foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary because certain record systems not otherwise specifically designated for exemptions may contain isolated information which has been properly classified. The Secretary of Defense has designated the following OSD system of records described below specifically exempted from the appropriate provisions of the Privacy Act pursuant to the designated authority contained therein:

(1) System identifier and name: DGC 16, Political Appointment Vetting Files.

(i) Exemption. Portions of this system of records that fall within the provisions of 5 U.S.C. 552a(k)(5) may be exempt from the following subsections (d)(1) through (d)(5).

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. From (d)(1) through (d)(5) because the agency is required to protect the confidentiality of sources who furnished information to the Government under an expressed promise of confidentiality or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. This confidentiality is needed to maintain the Government’s continued access to information from persons who otherwise might refuse to give it. This exemption is limited to disclosures that would reveal the identity of a confidential source.

(2) System identifier and name: DWHS P28, The Office of the Secretary of Defense Clearance File.

(i) Exemption. This system of records is exempt from subsections (c)(3) and (d) of 5 U.S.C. 552a, which would require the disclosure of investigatory material compiled solely for the purpose of determining access to classified information but only to the extent that disclosure of such material would reveal the identity of a source who furnished information to the Government under an expressed promise that the identity of the source would be held in confidence or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. A determination will be made at the time of the request for a record concerning the specific information which would reveal the identity of the source.

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. This exemption is required to protect the confidentiality of the sources of information compiled for the purpose of determining access to classified information. This confidentiality helps maintain the Government’s continued access to information from persons who would otherwise refuse to give it.

(3) System identifier and name: DGC 04, Industrial Personnel Security Clearance Case Files.

(i) Exemption. All portions of this system which fall under 5 U.S.C. 552a(k)(5) are exempt from the following provisions of Title 5 U.S.C. 552a: (c)(3); (d).

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. This system of records is exempt from subsections (c)(3) and (d) of section 552a of 5 U.S.C. which would require the disclosure of investigatory material compiled solely for the purpose of determining access to classified information, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an expressed promise that the identity of the source would be held in confidence or, prior to September 27, 1975, under an implied

promise that the identity of the source would be held in confidence. A determination will be made at the time of the request for a record concerning whether specific information would reveal the identity of a source. This exemption is required in order to protect the confidentiality of the sources of information compiled for the purpose of determining access to classified information. This confidentiality helps maintain the Government’s continued access to information from persons who would otherwise refuse to give it.

(4) System identifier and name: DWHS P32, Standards of Conduct Inquiry File.

(i) Exemption. This system of records is exempted from subsections (c)(3) and (d) of 5 U.S.C. 552a, which would require the disclosure of: Investigatory material compiled for law enforcement purposes; or investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, military service, or Federal contracts, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. If any individual is denied any right, privilege, or benefit that he would otherwise be entitled by Federal law, or otherwise be eligible, as a result of the maintenance of investigatory material compiled for law enforcement purposes, the material shall be provided to that individual, except to the extent that its disclosure would reveal the identity of a source who furnished information to the Government under an express promise or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. A determination will be made at the time of the request for a record concerning whether specific information would reveal the identity of a source. This exemption is required in order to protect the confidentiality of the sources of information compiled for the purpose of determining access to classified information. This confidentiality helps maintain the Government’s continued access to information from persons who would otherwise refuse to give it.

(5) System identifier and name: DUSDP 02, Special Personnel Security Cases.

(i) Exemption: All portions of this system which fall under 5 U.S.C. 552a(k)(5) are exempt from the following provisions of 5 U.S.C. 552a: (c)(3); (d).

(ii) Authority: 5 U.S.C. 552a(k)(5).

(iii) Reasons: This system of records is exempt from subsections (c)(3) and (d) of 5 U.S.C. 552a which would require the disclosure of investigatory material compiled solely for the purpose of determining access to classified information, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. A determination will be made at the time of the request for a record concerning whether specific information would reveal the identity of a source. This exemption is required in order to protect the confidentiality of the sources of information compiled for the purpose of determining access to classified information. This confidentiality helps maintain the Government’s continued access to information from persons who would otherwise refuse to give it.

(6) System identifier and name: DODDS 02.0, Educator Application Files.

(i) Exemption. All portions of this system which fall within 5 U.S.C. 552a(k)(5) may be exempt from the following provisions of 5 U.S.C. 552a: (c)(3); (d).

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. It is imperative that the confidential nature of evaluation and investigatory material on teacher application files furnished the Department of Defense Dependent Schools

(7) System identifier and name: DGC 20, DoD Presidential Appointee Vetting File.
   (i) Exemption: Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source. Portions of this system of records that may be exempt pursuant to 5 U.S.C. 552a(k)(5) are subsections (d)(1) through (d)(5).
   (ii) Authority: 5 U.S.C. 552a(k)(5).
   (iii) Reason: From (d)(1) through (d)(5) because the agency is required to protect the confidentiality of sources who furnished information to the government under an expressed promise of confidentiality or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. This confidentiality is needed to maintain the Government’s continued access to information from persons who otherwise might refuse to give it. This exemption is limited to disclosures that would reveal the identity of a confidential source. At the time of the request for a record, a determination will be made concerning whether a right, privilege, or benefit is denied or specific information would reveal the identity of a source.

(8) System identifier and name: DWHS P29, Personnel Security Adjudications File.
   (i) Exemption: Portions of this system of records that fall within the provisions of 5 U.S.C. 552a(k)(5) may be exempt from the following subsections (d)(1) through (d)(5) because the agency is required to protect the confidentiality of sources who furnished information to the government under an expressed promise of confidentiality or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. This confidentiality is needed to maintain the Government’s continued access to information from persons who otherwise might refuse to give it.

This confidentiality is needed to maintain the Government’s continued access to information from persons who otherwise might refuse to give it.    (ii) Authority: 5 U.S.C. 552a(k)(5).
   (iii) Reasons: From subsections (d)(1) through (d)(5) because the agency is required to protect the confidentiality of sources who furnished information to the government under an expressed promise of confidentiality or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. SOURCE: 56 FR 51976, Oct. 17, 1991, unless otherwise noted.

§ 312.1 Purpose.

Pursuant to the requirements of the Privacy Act of 1974 (5 U.S.C. 552a) and 32 CFR part 286a–DoD Privacy Program, the following rules of procedures are established with respect to access and amendment of records maintained by the Office of the Inspector General (OIG) on individual subjects of these records.

§ 312.2 Definitions.

(a) All terms used in this part which are defined in 5 U.S.C. 552a shall have the same meaning herein.

(b) As used in this part, the term “agency” means the Office of the Inspector General (OIG), Department of Defense.

§ 312.3 Procedure for requesting information.

Individuals should submit inquiries regarding all OIG files by mail to the Assistant Inspector General for Investigations, ATTN: FOIA/PA Division, 400 Army Navy Drive, Arlington, VA 22202–2884. All personal visits will require some form of common identification.

§ 312.4 Requirements for identification.

Only upon proper identification will any individual be granted access to records which pertain to him/her. Identification is required both for accurate record identification and to avoid disclosing records to unauthorized individuals. Requesters must provide their full name and as much information as possible about the record being sought in order that a proper search for records can be accomplished. Inclusion of a telephone number for the requester is recommended to expedite certain matters. Requesters applying in person must provide an identification with photograph, such as a driver’s license, military identification card, building pass, etc.

[59 FR 2746, Jan. 19, 1994]

§ 312.5 Access by subject individuals.

(a) No individual will be allowed access to any information compiled or maintained in reasonable anticipation of civil or criminal actions or proceedings or otherwise exempt under § 312.12. Requests for pending investigations will be denied and the requester instructed to forward another request giving adequate time for the investigation to be completed. Requesters shall be provided the telephone number so they can call and check on the status in order to know when to resubmit the request.

(b) Any individual may authorize the OIG to provide a copy of his/her records to a third part. This authorization must be in writing, must designate the recipient by name, must specify the records or portion to be provided to the recipient, and should accompany the initial request to the OIG.

§ 312.6 Fees.

Requesters will be charged only for the reproduction of requested documents and special postal methods, such
§ 312.7 Request for correction or amendment.

(a) Requests to correct or amend a file shall be addressed to the system manager in which the file is located. The request must reasonably describe the record to be amended, the items to be changed as specifically as possible, the type of amendment (e.g., deletion, correction, amendment), and the reason for amendment. Reasons should address at least one of the following categories: Accuracy, relevance, timeliness, completeness, fairness. The request should also include appropriate evidence which provide a basis for evaluating the request. Normally all documents submitted, to include court orders, should be certified. Amendments under this part are limited to correcting factual matters and not matters of official judgment or opinions, such as performance ratings, promotion potential, and job performance appraisals.

(b) Requirements of identification as outlined in §312.4 apply to requests to correct or amend a file.

(c) Incomplete requests shall not be honored, but the requester shall be contacted for the additional information needed to process the request.

(d) The amendment process is not intended to permit the alteration of evidence presented in the course of judicial or quasi-judicial proceedings. Any amendments or changes to these records normally are made through the specific procedures established for the amendment of such records.

(e) Nothing in the amendment process is intended or designed to permit a collateral attack upon what has already been the subject of a judicial or quasi-judicial determination. However, while the individual may not attack the accuracy of the judicial or quasi-judicial determination, he or she may challenge the accuracy of the recording of that action.

§ 312.8 OIG review of request for amendment.

(a) A written acknowledgement of the receipt of a request for amendment of a record will be provided to the requester within 10 working days, unless final action regarding approval or denial will constitute acknowledgement.

(b) Where there is a determination to grant all or a portion of a request to amend a record, the record shall be promptly amended and the requesting individual notified. Individuals, agencies or DoD components shown by disclosure accounting records to have received copies of the record, or to whom disclosure has been made, will be notified of the amendment by the responsible OIG official.

(c) Where there is a determination to deny all or a portion of a request to amend a record, OIG will promptly advise the requesting individual of the specifics of the refusal and the reasons; and inform the individual that he/she may request a review of the denial(s) from the OIG designated official.

§ 312.9 Appeal of initial amendment decision.

(a) All appeals of an initial amendment decision should be addressed to the Assistant Inspector General for Investigations, ATTN: FOIA/PA Division, 400 Army Navy Drive, Arlington, VA 22202–2884. The appeal should be concise and should specify the reasons the requester believes that the initial amendment action by the OIG was not satisfactory. Upon receipt of the appeal, the designated official will review the request and make a determination to approve or deny the appeal.

(b) If the OIG designated official decides to amend the record, the requester and all previous recipients of the disputed information will be notified of the amendment. If the appeal is denied, the designated official will notify the requester of the reason of the denial, of the requester’s right to file a statement of dispute disagreeing with the denial, that such statement of dispute will be retained in the file, that the statement will be provided to all future users of the file, and that the requester may file suit in a federal district court to contest the OIG decision not to amend the record.
§ 312.10 Disclosure of OIG records to other than subject.

No record containing personally identifiable information within a OIG system of records shall be disclosed by any means to any person or agency outside the Department of Defense, except with the written consent of the individual subject of the record or as provided for in the Act and DoD 5400.11-R (32 CFR part 286a).

§ 312.11 Penalties.

(a) An individual may bring a civil action against the OIG to correct or amend the record, or where there is a refusal to comply with an individual request or failure to maintain any records with accuracy, relevance, timeliness and completeness, so as to guarantee fairness, or failure to comply with any other provision of the Privacy Act. The court may order correction or amendment of records. The court may enjoin the OIG from withholding the records and order the production of the record.

(b) Where it is determined that the action was willful or intentional with respect to 5 U.S.C. 552a(g)(1) (c) or (D), the United States shall be liable for the actual damages sustained, but in no case less than the sum of $1,000 and the costs of the action with attorney fees.

(c) Criminal penalties may be imposed against an officer or employee of the OIG who discloses material, which he/she knows is prohibited from disclosure, or who willfully maintains a system of records without compliance with the notice requirements.

(d) Criminal penalties may be imposed against any person who knowingly and willfully requests or obtains any record concerning another individual from an agency under false pretenses.

(e) All of these offenses are misdemeanors with a fine not to exceed $5,000.

§ 312.12 Exemptions.

(a) Exemption for classified records. Any record in a system of records maintained by the Office of the Inspector General which falls within the provisions of 5 U.S.C. 552a(k)(1) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G) through (I) and (f) to the extent that a record system contains any record properly classified under Executive Order 12958 and that the record is required to be kept classified in the interest of national defense or foreign policy. This specific exemption rule, claimed by the Inspector General under authority of 5 U.S.C. 552a(k)(1), is applicable to all systems of records maintained, including those individually designated for an exemption herein as well as those not otherwise specifically designated for an exemption, which may contain isolated items of properly classified information.

(b) The Inspector General of the Department of Defense claims an exemption for the following record systems under the provisions of 5 U.S.C. 552a(j) and (k)(1)–(7) from certain indicated subsections of the Privacy Act of 1974. The exemptions may be invoked and exercised on a case by case basis by the Deputy Assistant Inspector General for Investigations or the Director, Investigative Support Directorate and Freedom of Information Act/Privacy Act Division Chief which serves as the Systems Program Managers. Exemptions will be exercised only when necessary for a specific, significant and legitimate reason connected with the purpose of the records system.

(c) No personal records releasable under the provisions of The Freedom of Information Act (5 U.S.C. 552) will be withheld from the subject individual based on these exemptions.

(d) System Identifier: CIG–04

(1) System name: Case Control System.

(2) Exemption: Any portion of this system which falls within the provisions of 5 U.S.C. 552a(j)(2) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3), (c)(4), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (H), (I), (l), (e)(5), (e)(6), (f), (i), and (g).

(3) Authority: 5 U.S.C. 552a(j)(2).
§ 312.12 Reasons: From subsection (c)(3) because the release of accounting of disclosure would inform a subject that he or she is under investigation. This information would provide considerable advantage to the subject in providing him or her with knowledge concerning the nature of the investigation and the coordinated investigative efforts and techniques employed by the cooperating agencies. This would greatly impede OIG’s criminal law enforcement.

(5) From subsection (c)(4) and (d), because notification would alert a subject to the fact that an open investigation on that individual is taking place, and might weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy.

(6) From subsection (e)(1) because the nature of the criminal and/or civil investigative function creates unique problems in prescribing a specific parameter in a particular case with respect to what information is relevant or necessary. Also, due to OIG’s close liaison and working relationships with other Federal, state, local and foreign country law enforcement agencies, information may be received which may relate to a case under the investigative jurisdiction of another agency. The maintenance of this information may be necessary to provide leads for appropriate law enforcement purposes and to establish patterns of activity which may relate to the jurisdiction of other cooperating agencies.

(7) From subsection (e)(2) because collecting information to the fullest extent possible directly from the subject individual may or may not be practical in a criminal and/or civil investigation.

(8) From subsection (e)(3) because supplying an individual with a form containing a Privacy Act Statement would tend to inhibit cooperation by many individuals involved in a criminal and/or civil investigation. The effect would be somewhat adverse to established investigative methods and techniques.

(9) From subsection (e)(4) (G) through (I) because this system of records is exempt from the access provisions of subsection (d).

(10) From subsection (e)(5) because the requirement that records be maintained with attention to accuracy, relevance, timeliness, and completeness would unfairly hamper the investigative process. It is the nature of law enforcement for investigations to uncover the commission of illegal acts at diverse stages. It is frequently impossible to determine initially what information is accurate, relevant, timely, and least of all complete. With the passage of time, seemingly irrelevant or untimely information may acquire new significance as further investigation brings new details to light.

(11) From subsection (e)(6) because the notice requirements of this provision could present a serious impediment to law enforcement by revealing investigative techniques, procedures, and existence of confidential investigations.

(12) From subsection (f) because the agency’s rules are inapplicable to those portions of the system that are exempt and would place the burden on the agency of either confirming or denying the existence of a record pertaining to a requesting individual might in itself provide an answer to that individual relating to an on-going investigation. The conduct of a successful investigation leading to the indictment of a criminal offender precludes the applicability of established agency rules relating to verification of record, disclosure of the record to that individual, and record amendment procedures for this record system.

(13) For comparability with the exemption claimed from subsection (f), the civil remedies provisions of subsection (g) must be suspended for this record system. Because of the nature of criminal investigations, standards of accuracy, relevance, timeliness, and completeness cannot apply to this record system. Information gathered in an investigation is often fragmentary and leads relating to an individual in the context of one investigation may instead pertain to a second investigation.

(e) System Identification: CIG–06.

(1) System name: Investigative Files.
(2) **Exemption:** Any portion of this system which falls within the provisions of 5 U.S.C. 552a(j)(2) may be exempt from the following subsections of 5 U.S.C. 552a (c)(3), (c)(4), (d), (e)(1), (e)(2), (e)(3), (e)(4) (G), (H), (I), (e)(5), (e)(6), (f), and (g).

(3) **Authority:** 5 U.S.C. 552a(j)(2).

(4) **Reasons:** From subsection (c)(3) because the release of accounting of disclosure would inform a subject that he or she is under investigation. This information would provide considerable advantage to the subject in providing him or her with knowledge concerning the nature of the investigation and the coordinated investigative efforts and techniques employed by the cooperating agencies. This would greatly impede OIG’s criminal law enforcement.

(5) From subsection (c)(4) and (d), because notification would alert a subject to the fact that an open investigation on that individual is taking place, and might weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy.

(6) From subsection (e)(1) because the nature of the criminal and/or civil investigative function creates unique problems in prescribing a specific parameter in a particular case with respect to what information is relevant or necessary. Also, due to OIG’s close liaison and working relationships with other Federal, state, local and foreign country law enforcement agencies, information may be received which may relate to a case under the investigative jurisdiction of another agency. The maintenance of this information may be necessary to provide leads for appropriate law enforcement purposes and to establish patterns of activity which may relate to the jurisdiction of other cooperating agencies.

(7) From subsection (e)(2) because collecting information to the fullest extent possible directly from the subject individual may or may not be practical in a criminal and/or civil investigation.

(8) From subsection (e)(3) because supplying an individual with a form containing a Privacy Act Statement would tend to inhibit cooperation by many individuals involved in a criminal and/or civil investigation. The effect would be somewhat adverse to established investigative methods and techniques.

(9) From subsection (e)(4) (G) through (I) because this system of records is exempt from the access provisions of subsection (d).

(10) From subsection (e)(5) because the requirement that records be maintained with attention to accuracy, relevance, timeliness, and completeness would unfairly hamper the investigative process. It is the nature of law enforcement for investigations to uncover the commission of illegal acts at diverse stages. It is frequently impossible to determine initially what information is accurate, relevant, timely, and least of all complete. With the passage of time, seemingly irrelevant or untimely information may acquire new significance as further investigation brings new details to light.

(11) From subsection (e)(6) because the notice requirements of this provision could present a serious impediment to law enforcement by revealing investigative techniques, procedures, and existence of confidential investigations.

(12) From subsection (f) because the agency’s rules are inapplicable to those portions of the system that are exempt and would place the burden on the agency of either confirming or denying the existence of a record pertaining to a requesting individual might in itself provide an answer to that individual relating to an on-going investigation. The conduct of a successful investigation leading to the indictment of a criminal offender precludes the applicability of established agency rules relating to verification of record, disclosure of the record to that individual, and record amendment procedures for this record system.

(13) For comparability with the exemption claimed from subsection (f), the civil remedies provisions of subsection (g) must be suspended for this record system. Because of the nature of criminal investigations, standards of accuracy, relevance, timeliness, and completeness cannot apply to this record system. Information gathered in an investigation is often fragmentary and leads relating to an individual in
§ 312.12

the context of one investigation may instead pertain to a second investigation.

(f) System identifier: CIG–15.

(1) System name: Departmental Inquiries Case System.

(2) Exemption: Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source. Any portions of this system which fall under the provisions of 5 U.S.C. 552a(k)(2) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G), (H), and (l).

(3) Authority: 5 U.S.C. 552a(k)(2).

(4) Reasons: From subsection (c)(3) because disclosures from this system could interfere with the just, thorough and timely resolution of the compliant or inquiry, and possibly enable individuals to conceal their wrongdoing or mislead the course of the investigation by concealing, destroying or fabricating evidence or documents.

(5) From subsection (d) because disclosures from this system could interfere with the just thorough and timely resolution of the compliant or inquiry, and possibly enable individuals to conceal their wrongdoing or mislead the course of the investigation by concealing, destroying or fabricating evidence or documents. Disclosures could also subject sources and witnesses to harassment or intimidation which jeopardize the safety and well-being of themselves and their families.

(6) From subsection (e)(1) because the nature of the investigation function creates unique problems in prescribing specific parameters in a particular case as to what information is relevant or necessary. Due to close liaison and working relationships with other Federal, state, local and foreign country law enforcement agencies, information may be received which may relate to a case under the investigative jurisdiction of another government agency. It is necessary to maintain this information in order to provide leads for appropriate law enforcement purposes and to establish patterns of activity which may relate to the jurisdiction of other cooperating agencies.

(7) From subsection (e)(4)(G) through (H) because this system of records is exempt from the access provisions of subsection (d).

(8) From subsection (f) because the agency’s rules are inapplicable to those portions of the system that are exempt and would place the burden on the agency of either confirming or denying the existence of a record pertaining to a requesting individual might in itself provide an answer to that individual relating to an on-going investigation. The conduct of a successful investigation leading to the indictment of a criminal offender precludes the applicability of established agency rules relating to verification of record, disclosure of the record to that individual, and record amendment procedures for this record system.

(g) System identifier: CIG–16.

(1) System name: DOD Hotline Program Case Files.

(2) Exemption: Any portions of this system of records which fall under the provisions of 5 U.S.C. 552a(k)(2) and (k)(5) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G), (H), and (l).

(3) Authority: 5 U.S.C. 552a(k)(2) and (k)(5).

(4) Reasons: From subsection (c)(3) because disclosures from this system could interfere with the just, thorough and timely resolution of the compliant or inquiry, and possibly enable individuals to conceal their wrongdoing or mislead the course of the investigation by concealing, destroying or fabricating evidence or documents.

(5) From subsection (d) because disclosures from this system could interfere with the just, thorough and timely resolution of the compliant or inquiry, and possibly enable individuals to conceal their wrongdoing or mislead the course of the investigation by concealing, destroying or fabricating evidence or documents. Disclosures could also subject sources and witnesses to harassment or intimidation which
jeopardize the safety and well-being of themselves and their families.

(6) From subsection (e)(1) because the nature of the investigation functions creates unique problems in prescribing specific parameters in a particular case as to what information is relevant or necessary. Due to close liaison and working relationships with other Federal, state, local, and foreign country law enforcement agencies, information may be received which may relate to a case under the investigative jurisdiction of another government agency. It is necessary to maintain this information in order to provide leads for appropriate law enforcement purposes and to establish patterns of activity which may relate to the jurisdiction of other cooperating agencies.

(7) From subsection (e)(4)(G) through (H) because this system of records is exempt from the access provisions of subsection (d).

(8) From subsection (f) because the agency’s rules are inapplicable to those portions of the system that are exempt and would place the burden on the agency of either confirming or denying the existence of a record pertaining to a requesting individual might in itself provide an answer to that individual relating to an on-going investigation. The conduct of a successful investigation leading to the indictment of a criminal offender precludes the applicability of established agency rules relating to verification of record, disclosure of the record to that individual, and record amendment procedures for this record system.

§ 316.2 Applicability.
This part applies to Headquarters, Defense Information Systems Agency (DISA) and DISA field activities.

§ 316.3 Authority.
This part is published in accordance with the authority contained in 32 CFR part 310, August 1975.

§ 316.4 Definitions.
Add to the definitions contained in 32 CFR 310.6 the following:

System Manager: The DISA official who is responsible for policies and procedures governing a DISA System of Record. His title and duty address will be found in the paragraph entitled Sysmanager in DISA’s Record System Notices which are published in the FEDERAL REGISTER in compliance with provisions of the Privacy Act of 1974.

§ 316.5 Policy.
It is the policy of DISA:
(a) To preserve the personal privacy of individuals, to permit an individual to know what records exist pertaining to him in the DISA, and to have access to and have a copy made of all or any portion of such records and to correct or amend such records.
(b) To collect, maintain, use, or disseminate any record of identifiable personal information in a manner that assures that such action is for a necessary and lawful purpose; that the information is timely and accurate for its intended use; and that adequate safeguards are provided to prevent misuse of such information.

§ 316.6 Procedures and responsibilities.
(a) The Counsel, DISA, is hereby designated the Privacy Act Officer for DISA and is responsible for insuring that an internal DISA Privacy Program is established and maintained. He will also insure that all echelons of DISA effectively comply with and implement 32 CFR part 310.
(b) The Civilian Assistant to the Chief of Staff will be responsible for the annual reporting requirements contained in 32 CFR 310.5.
(c) DISA System Managers and other appropriate DISA officials will:
(1) Insure compliance with the provisions of 32 CFR 310.9.
(2) Comply with the provisions of 32 CFR 286a.11. In this area the Assistant
(3) Adhere to the following:

(i) Within DISA, the System Manager of any record system will assure that records pertaining to an individual will be disclosed, upon request, to the individual to whom the record pertains. The individual need not state a reason or otherwise justify the need to gain access. A person of the individual’s choosing may accompany the individual when the record is disclosed. The System Manager may require the individual to furnish a written statement authorizing discussion of the individual’s records in the presence of the accompanying person. If requested, the System Manager will have a copy made of all or any portion of the record pertaining to the individual in a form comprehensible to the requester.

(ii) The System Manager may release records to the individual’s representative who has the written consent of the individual. The System Manager will require reasonable identification of individuals to assure that records are disclosed to the proper person. No verification of identity will be required of an individual seeking access to records which are otherwise available to any member of the public under the Freedom of Information Act. Identification requirements should be consistent with the nature of the records being disclosed. For disclosure of records to an individual in person, the System Manager will require that the individual show some form of identification. For records disclosed to an individual in person or by mail, the System Manager may require whatever identifying information is needed to locate the record; i.e., name, social security number, date of birth. If the sensitivity of the data warrants, the System Manager may require a signed notarized statement of identity. The System Manager may compare the signatures of the requester with those in the records to verify identity. An individual will not be denied access to his record for refusing to disclose his social security number unless disclosure is required by statute or by regulation adopted before 1 January 1975. An individual will not be denied access to records pertaining to him because the records are exempted from disclosure under the provisions of the Freedom of Information Act.

(iii) The System Manager will not deny access to a record or a copy thereof to an individual solely because its physical presence is not readily available (i.e., on magnetic tape) or because the context of the record may disclose sensitive information about another individual. To protect the personal privacy of other individuals who may be identified in a record, the System Manager shall prepare an extract to delete only that information which would not be releasable to the requesting individual under the Freedom of Information Act.

(iv) When the System Manager is of the opinion that the disclosure of medical information could have an adverse effect upon the individual to whom it pertains, the System Manager will promptly request the individual to submit the name and address of a doctor who will determine whether the medical record may be disclosed directly to the individual. The System Manager will then request the opinion of the doctor named by the individual on whether a medical record may be disclosed to the individual. The System Manager shall disclose the medical record to the individual to whom it pertains unless, in the judgment of the doctor, access to the record could have an adverse effect upon the individual’s physical or mental health. In this event the System Manager will transmit the record to the doctor and immediately inform the individual.

(v) The fees to be charged, if any, to an individual for making copies of his record, excluding the cost of any search for and review of the record, will be in accordance with the “Schedule of Fees” as set forth in 32 CFR 286.5 and 286.10.

(vi) The System Manager of the record will permit an individual to request amendment of a record pertaining to the individual. Requests to amend records shall be in person or in writing and shall be submitted to the System Manager who maintains the records. Such requests should contain as a minimum, identifying information...
§ 316.6 32 CFR Ch. I (7–1–02 Edition)

needed to locate the record, a brief description of the item or items of information to be amended, and the reason for the requested change.

(vii) The System Manager will provide a written acknowledgment of the receipt of a request to amend a record to the individual who requested the amendment within 10 days (excluding Saturdays, Sundays, and legal public holidays) after the date of receipt of such request. Such an acknowledgment may, if necessary, request any additional information needed to make a determination. No acknowledgment is required if the request can be reviewed and processed and the individual notified of compliance or denial within the 10 day period.

(viii) The System Manager will promptly take one of the following actions on requests to amend records:

(A) Refer the request to the agency or office that has control of and maintains the record in those instances where the record requested remains the property of the controlling office or agency.

(B) In accordance with existing statute, regulation, or administrative procedure, make any correction of any portion thereof which the individual believes is not accurate, relevant, timely or complete, or

(C) Inform the individual of the System Manager’s refusal to amend the record in accordance with the individual’s request, the reason for the refusal, and the individual’s right to request a review of the refusal by the Director, DISA, through the DISA Privacy Act Board.

(ix) The DISA Privacy Act Board will be comprised of the DISA Counsel, as Chairman, the Assistant to the Director for Administration, and the Assistant to the Director for Personnel; or in their absence, their authorized representatives. The individual who disagrees with the refusal of the System Manager to amend his record may request a review of this refusal by the DISA Privacy Act Board. The request for the review may be made orally or in writing and shall be made to the System Manager. The System Manager will promptly forward the request for review to the Chairman of the Board to make a proper review. The Board will promptly review the matter. If, after review, the Board is unanimous in its decision that the record be amended in accordance with the request of the individual then the Chairman of the Board shall so notify the System Manager. The System Manager will immediately make the necessary corrections to the record and will promptly notify the individual. The System Manager will, if an accounting of disclosure of the record has been made, advise all previous recipients of the record, which was corrected, of the correction and its substance. This will be done in all instances when a record is amended. If, after review, the Board decides that the request for amendment should be denied, it will promptly forward its recommendation to the Director, DCA. A majority vote of the members of the Board will constitute a recommendation to the Director.

(x) The Director, DISA, upon receipt of the Board’s recommendation, will complete the review and make a final determination.

(xi) If the Director, DISA, after his review, agrees with the individual’s request to amend the record, he will, through the DISA Counsel, so advise the individual in writing. The System Manager will receive a copy of the Director’s decision and will assure that the record is corrected accordingly and that if an accounting of disclosure of the record has been made, advise all previous recipients of the record which was corrected of the correction and its substance.

(xii) If, after his review, the Director refuses to amend the records as the individual requested, he will, through the DISA Counsel, advise the individual of his refusal and the reasons for it; of the individual’s right to file a concise statement setting forth the reasons for the individual’s disagreement with the decision of the Director, DISA; that the statement which is filed will be made available to anyone to whom the record is subsequently disclosed together with, at the discretion of the Agency, a brief statement by the Agency summarizing its reasons for refusing to amend the record; that prior recipients of the disputed record will be provided a copy of any statement of dispute to the extent that an accounting
§ 316.6

of disclosures was maintained; and of the individual’s right to seek judicial review of the Agency’s refusal to amend a record.

(xiii) The Director’s final determination on the individual’s request for a review of the System Manager’s initial refusal to amend the record must be concluded within 30 days (excluding Saturdays, Sundays, and legal public holidays) from the date on which the individual requested such review unless the Director determines that a fair and equitable review cannot be made within that time. If additional time is required, the individual will be informed in writing of reasons for the delay and of the approximate date on which the review is expected to be completed.

(xiv) After the Director, DISA has refused to amend a record and the individual has filed a statement setting forth the reasons for the individual’s disagreement with the decision of the Director, the System Manager will clearly note any portion of the record which is disputed. The System Manager’s notation should make clear that the record is disputed and this should be apparent to anyone who may subsequently have access to, use, or disclose the record. When the System Manager has previously disclosed or will subsequently disclose that portion of the record which is disputed he will note that that portion of the record is disputed and will provide the recipients of the record with a copy of the individual’s statement setting forth the reasons for the individual’s disagreement with the decision of the Director not to amend the record. The System Manager will also provide recipients of the disputed record with a brief summary of the Director’s reasons for not making the requested amendments to the record.

(xv) Nothing herein shall allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding.

(xvi) Any requests by an individual for access to or copies of his records shall be processed in accordance with this part and 32 CFR part 310.

(d) DISA System Managers will be:

(1) Responsible for complying with the provisions contained in 32 CFR 310.8 relating to the disclosure to others of personal records, obtaining the written consent of individuals to whom the record pertains, and for keeping an accurate accounting of each disclosure of a record.

(2) Responsible for providing to the Civilian Assistant to the Chief of Staff the information requested in 32 CFR 310.5. However, the information will be reported on a quarterly basis with the first report due to the Civilian Assistant to the Chief of Staff by 31 December 1975.

(e) The Assistant to the Director for Administration, Headquarters, DCA will:

(1) Be responsible for furnishing written guidelines to assist System Managers and other DISA officials in evaluating and implementing paperwork management procedures required under the Privacy Act of 1974. In this regard it should be noted that the Act establishes a number of requirements. Among these are the requirements:

(i) To disclose records contained in a system of records only under conditions specified in the law,

(ii) To maintain an accounting of such disclosures,

(iii) To establish procedures for the disclosure to an individual of his record or information pertaining to him,

(iv) For reviewing a request concerning the amendment of such record, and

(v) For permitting individuals to file a statement of disagreement which will be forwarded with subsequent disclosures.

The guidelines will cover those portions of the Privacy Act which requires paperwork systems for implementation. In preparing those guidelines the Assistant to the Director for Administration will make use of the “Records Management System for Implementing the Privacy Act” as provided by the GSA and National Archives and Records Service, Office of Records Management. The GSA and NARA procedures and guidelines will be adapted and modified as required to meet DISA needs.

(2) Be responsible for providing the “Forms” which are required to comply with 32 CFR 310.9(b).

(f) The Assistant to the Director for Personnel, Headquarters, DISA will:
§ 316.7

(1) Be responsible for development, within DISA, of an appropriate training program for all DISA personnel whose duties involve responsibilities for systems of records affected by the Privacy Act.

(2) Assure that DISA personnel involved in the design, development, operation, or maintenance of any system of records, as defined in 32 CFR 310.6 are informed of all requirements to protect the privacy of the individuals who are subjects of the records. The criminal penalties and civil suit aspects of the Privacy Act will be emphasized.

(3) Assure that within DISA administrative and physical safeguards are established to protect information from unauthorized or unintentional access, disclosure, modification or destruction and to insure that all persons whose official duties require access to or processing and maintenance of personal information are trained in the proper safeguarding and use of such information.

§ 316.8 Questions.

Questions on both the substance and procedure of the Privacy Act and the DISA implementation thereof should be addressed to the DISA Counsel by the most expeditious means possible, including telephone calls.

(a) This part updates the policies, responsibilities, and procedures of the DTRA Privacy Program under the Privacy Act of 1974, as amended (5 U.S.C. 552a), OMB Circular A–130,1 and the DoD Privacy Program (32 CFR part 310).

(b) This rule establishes procedures whereby individuals can:

(a) Blanket routine uses. Certain ‘blanket routine uses’ of the records have been established that are applicable to every record system maintained within the Department of Defense unless specifically stated otherwise within a particular record system. § 318.15 Rules of conduct

(a) DTRA personnel shall:

(1) Take such actions, as considered appropriate, to ensure that personal information contained in a system of records, to which they have access or are using incident to the conduct of official business, shall be protected so that the security and confidentiality of the information shall be preserved.

(2) Not disclose any personal information contained in any system of records except as authorized by 32 CFR part 310 or other applicable law or regulation. Personnel willfully making such a disclosure when knowing the disclosure is prohibited are subject to
§ 318.16 Exemption rules.

(a) Exemption for classified material. All systems of records maintained by the Defense Threat Reduction Agency shall be exempt under section (k)(1) of 5 U.S.C. 552a, to the extent that the systems contain any information properly classified under E.O. 12598 and that is required by that E.O. to be kept secret in the interest of national defense or foreign policy. This exemption is applicable to parts of all systems of records including those not otherwise specifically designated for exemptions herein which contain isolated items of properly classified information.

(b) System identifier and name: HDTRA 007, Security Operations.

(1) Exemption: Portions of this system of records may be exempt from the provisions of 5 U.S.C. 552a(c)(3), (d)(4), (e)(1), (e)(4)(G), (H), (I), and (f).

(2) Authority: 5 U.S.C. 552a(k)(5).

(3) Reasons: (i) From subsection (c)(3) because it will enable DTRA to safeguard certain investigations and relay law enforcement information without compromise of the information, and protect the identities of confidential sources who might not otherwise come forward and who have furnished information under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise.)

(ii) From subsection (d)(1) through (d)(4) and (f) because providing access to records of a civil investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of security investigations. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; and result in the secretion of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1), (e)(4)(G), (H), (I) because it will provide protection against notification of investigatory material including certain reciprocal investigations and counterintelligence information, which might alert a subject to the fact that an investigation of that individual is taking place, and the disclosure of which would weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy who furnished information; under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise.)

(c) System identifier and name: HDTRA 011, Inspector General Investigation Files.
§ 319.2

(1) Exemption: Portions of this system of records may be exempt from the provisions of 5 U.S.C. 552a(c)(3); (d)(1) through (4); (e)(1); (e)(4)(G), (H), and (I); and (f).

(2) Authority: 5 U.S.C. 552a(k)(2).

(3) Reasons: (i) From subsection (c)(3) because it will enable DTRA to conduct certain investigations and relay law enforcement information without compromise of the information, protection of investigative techniques and efforts employed, and identities of confidential sources who might not otherwise come forward and who furnished information under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise.)

(ii) From subsection (d)(1) through (d)(4) and (f) because providing access to records of a civil investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1), (e)(4)(G), (H), and (I) because it will provide protection against notification of investigatory material including certain reciprocal investigations and counterintelligence information, which might alert a subject to the fact that an investigation of that individual is taking place, and the disclosure of which would weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy who furnished information under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise).

§ 319.12 General exemptions. [Reserved]

§ 319.13 Specific exemptions.

(a) All systems of records maintained by the Director Intelligence Agency shall be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a(k)(1) to the extent that the system contains any information properly classified under Executive order to be kept secret in the interest of national defense or foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary
§319.13

because certain record systems not specifically designated for exemption may contain isolated information which has been properly classified.

(b) The Director, Defense Intelligence Agency, designated the systems of records listed below for exemptions under the specified provisions of the Privacy Act of 1974, as amended (Pub. L. 93–579):

(c) System identification and name: LDIA 0271, Investigations and Complaints.

(1) Exemption: Any portion of this record system which falls within the provisions of 5 U.S.C. 552a(k) (2) and (5) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (e)(4)(I).

(2) Authority: 5 U.S.C. 552a(k) (2) and (5).

(3) Reason: The reasons for asserting these exemptions are to ensure the integrity of the Inspector General process within the Agency. The execution requires that information be provided in a free and open manner without fear of retribution or harassment in order to facilitate a just, thorough and timely resolution of the complaint or inquiry. Disclosures from this system can enable individuals to conceal their wrongdoing or mislead the course of the investigation by concealing, destroying or fabricating evidence or documents. Also, disclosures can subject sources and witnesses to harassment or intimidation which may cause individuals not to seek redress for wrongs through Inspector General channels for fear of retribution or harassment.

(d) System identification and name: LDIA 0275, DoD Hotline Referrals.

(1) Exemption: Any portion of this record system which falls within the provisions of 5 U.S.C. 552a(k) (2) and (5) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (e)(4)(I).

(2) Authority: 5 U.S.C. 552a(k) (2) and (5).

(3) Reason: The reasons for asserting these exemptions are to ensure that informants can report instances of fraud and mismanagement without fear of reprisal or unauthorized disclosure of their identity. The execution of this function requires that information be provided in a free and open manner without fear of retribution of harassment in order to facilitate a just, thorough and timely resolution of the case. These records are privileged Director, DIA, documents and information contained therein is not routinely released or disclosed to anyone.

(e) System identification and name: LDIA 0660, Security Files.

(1) Exemption: Any portion of this record system which falls within the provisions of 5 U.S.C. 552a(k) (2) and (5) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (e)(4)(I).

(2) Authority: 5 U.S.C. 552a(k) (2) and (5).

(3) Reason: The reasons for asserting these exemptions are to ensure the integrity of the adjudication process used by the Agency to determine the suitability, eligibility or qualification for Federal service with the Agency and to make determinations concerning the questions of access to classified materials and activities. The proper execution of this function requires that the Agency have the ability to obtain candid and necessary information in order to fully develop or resolve pertinent information developed in the process. Potential sources, out of fear or retaliation, exposure or other action, may be unwilling to provide needed information or may not be sufficiently frank to be a value in personnel screening, thereby seriously interfering with the proper conduct and adjudication of such matters.

(f) System identification and name: LDIA 0800, Operation Record System.

(1) Exemption: Any portion of this record system which falls within the provisions of 5 U.S.C. 552a(k) (2) and (5) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (e)(4)(I).

(2) Authority: 5 U.S.C. 552a(k) (2) and (5).

(3) Reason: The reasons for asserting these exemptions are to ensure the integrity of ongoing foreign intelligence collection and/or training activities conducted by the Defense Intelligence Agency and the Department of Defense. The execution of these functions requires that information in response to national level intelligence requirements be provided in a free and open
manner without fear of retribution or unauthorized disclosure. Disclosures from this system can jeopardize sensitive sources and methodology.

(ii) A direct quotation of all or portion of the passage may be made if it isn’t otherwise easily identifiable. If the passage is long, a quotation of its beginning and end will suffice.

(iii) In appropriate cases, a simple substantive request may be appropriate, e.g., ‘delete all references to my alleged arrest in July 1970.’

(iv) If the requester has received a copy of the record, he may submit an annotated copy of documents he wishes amended.

(3) Type of amendment. The requester must clearly state the type of amendment he is requesting.

(i) Deletion or expungement, i.e., a complete removal from the record of data, sentences, passages, paragraphs or documents.

(ii) Correction of the information in the record to make it more accurate, e.g., rectify mistaken identities, dates, data pertaining to the individual, etc.

(iii) Additions to make the record more relevant, accurate or timely may be requested.

(iv) Other changes may be requested; they must be specifically and clearly described.

(4) Reason for amendment. Requests for amendment must be based on specific reasons, included in writing. Categories of reasons are as follows:

(i) Accuracy. Amendment may be requested where matters of fact are believed incorrectly recorded, e.g., dates, names, addresses, identification numbers, or any other information concerning the individual. The request, whenever possible, should contain the accurate information, copies of verifying documents, or indication of how the information can be verified.

(ii) Relevance. Amendment may be requested when information in a record is believed not to be relevant or necessary to the purposes of the record system.

(iii) Timeliness. Amendment may be requested when information is thought
to be so old as to no longer be pertinent to the stated purposes of the records system. It may also be requested when there is recent information of a pertinent type that is not included in the record.

(iv) Completeness. Amendment may be requested where information in a record is incomplete with respect to its purpose. The data thought to have been omitted should be included or identified with the request.

(v) Fairness. Amendment may be requested when a record is thought to be unfair concerning the subject, in terms of the stated purposes of the record. In such cases, a source of additional information to increase the fairness of the record should be identified where possible.

(vi) Other reasons. Reasons for requesting amendment are not limited to those cited above. The content of the records is authorized in terms of their stated purposes which should be the basis for evaluating them. However, any matter believed appropriate may be submitted as a basis of an amendment request.

(vii) Court orders and statutes may require amendment of a file. While they do not require a Privacy Act request for execution, such may be brought to the attention of DSS by these procedures.

(c) Assistance. Individuals seeking to request amendment of records pertaining to themselves that are maintained by DSS will be assisted as necessary by DSS officials. Where a request is incomplete, it will not be denied, but the requester will be contacted for the additional information necessary to his request.

(d) This section does not permit the alteration of evidence presented to courts, boards and other official proceedings.

§ 321.8 DSS review of request for amendment.

(a) General. Upon receipt from any individual of a request to amend a record pertaining to himself and maintained by the Defense Security Service, Office of FOI and Privacy will handle the request as follows:

(1) A written acknowledgment of the receipt of a request for amendment of a record will be provided to the individual within 10 working days, unless final action regarding approval or denial can be accomplished within that time. In that case, the notification of approval or denial will constitute adequate acknowledgment.

(2) Where there is a determination to grant all or a portion of a request to amend a record, the record shall be promptly amended and the requesting individual notified. Individuals, agencies or components shown by accounting records to have received copies of the record, or to whom disclosure has been made, will be notified, if necessary, of the amendment by the responsible official. Where a DoD recipient of an investigative record cannot be located, the notification, if necessary, will be sent to the personnel security element of the parent Component.

(3) Where there is a determination to deny all or a portion of a request to amend a record, the office will promptly:

(i) Advise the requesting individual of the specifics of the refusal and the reasons;

(ii) Inform the individual that he may request a review of the denial(s) from ‘Director, Defense Security Service, 1340 Braddock Place, Alexandria, VA 22314-1651.’ The request should be brief, in writing, and enclose a copy of the denial correspondence.

(b) DSS determination to approve or deny. Determination to approve or deny and request to amend a record or portion thereof may necessitate additional investigation or inquiry be made to verify assertions of individuals requesting amendment. Coordination will be made with the Director for Investigations and the Director of the Personnel Investigations Center in such instances.

§ 321.9 Appeal of initial amendment decision.

(a) General. Upon receipt from any individual of an appeal to review a DSS refusal to amend a record, the Defense Security Service, Office of FOI and Privacy will assure that such appeal is handled in compliance with the Privacy Act of 1974 and DoD Directive 5400.11 and accomplish the following:
§ 321.10 Disclosure to other than subject.

(a) General. No record contained in a system of records maintained by DSS shall be disclosed by any means to any person or agency outside the Department of Defense, except with the written consent or request of the individual subject of the record, except as provided in this section. Disclosures that may be made without the request or consent of the subject of the record are as follows:

(1) Review the record, request for amendment, DSS action on the request and the denial, and direct such additional inquiry or investigation as is deemed necessary to make a fair and equitable determination.

(2) Recommend to the Director whether to approve or deny the appeal.

(3) If the determination is made to amend a record, advise the individual and previous recipients (or an appropriate office) where an accounting of disclosures has been made.

(4) Where the decision has been made to deny the individual’s appeal to amend a record, notify the individual:

(i) Of the denial and the reason;

(ii) Of his right to file a concise statement of reasons for disagreeing with the decision not to amend the record;

(iii) That such statement may be sent to the Defense Security Service, Office of FOI and Privacy, (GCF), 1340 Braddock Place, Alexandria, VA 22314-1651, and that it will be disclosed to users of the disputed record;

(iv) That prior recipients of the disputed record will be provided a copy of the statement of disagreement, or if they cannot be reached (e.g., through deactivation) the personnel security element of their DoD component;

(v) And, that he may file a suit in a Federal District Court to contest DSS’s decision not to amend the disputed record.

(b) Accounting of disclosures. Except for disclosures made to members of the DoD in connection with their routine duties, and disclosures required by the Freedom of Information Act, an accounting will be kept of all disclosures of records maintained in DSS systems.

(1) Accounting entries will normally be kept on a DSS form, which will be maintained in the record file jacket, or in a document that is part of the record.

(2) Accounting entries will record the date, nature and purpose of each disclosure, and the name and address of the person or agency to whom the disclosure is made.

(3) An accounting of disclosures made to agencies outside the DoD in connection with the Defense Clearance and Investigations Index (V5-02) will be kept as prescribed by the Director of Systems, DSS.

(4) Accounting records will be maintained for at least 5 years after the last disclosure, or for the life of the record, whichever is longer.

(5) Subjects of DSS records will be given access to associated accounting records upon request, except as exempted under §321.13.
§ 321.11 Fees.

Individuals may request copies for retention of any documents to which they are granted access in DSS records pertaining to them. Requestors will not be charged for the first copy of any records provided; however, duplicate copies will require a charge to cover costs of reproduction. Such charges will be computed in accordance with DoD Directive 5400.11.

§ 321.12 Penalties.

(a) An individual may bring a civil action against the DSS to correct or amend the record, or where there is a refusal to comply with an individual request or failure to maintain any record with accuracy, relevance, timeliness and completeness, so as to guarantee fairness, or failure to comply with any other provision of 5 U.S.C. 552a. The court may order correction or amendment. It may assess against the United States reasonable attorney fees and other costs, or may enjoin the DSS from withholding the records and order the production to the complainant.

(b) Where it is determined that the action was willful or intentional with respect to 5 U.S.C. 552a(g)(1) (C) or (D), the United States shall be liable for the actual damages sustained, but in no case less than the sum of $1,000 and the costs of the action with attorney fees.

(c) Criminal penalties may be imposed against an officer or employee of the DSS who fully discloses material, which he knows is prohibited from disclosure, or who willfully maintains a system of records without the notice requirements; or against any person who knowingly and willfully requests or obtains any record concerning an individual from an agency under false pretenses. These offenses shall be misdemeanors with a fine not to exceed $5,000.

§ 321.13 Exemptions.

(a) General. The Director of the Defense Security Service establishes the following exemptions of records systems (or portions thereof) from the provisions of these rules, and other indicated portions of Pub. L. 93-579, in this section. They may be exercised only by the Director, Defense Security Service and the Chief of the Office of FOI and Privacy. Exemptions will be exercised only when necessary for a specific, significant and legitimate reason connected with the purpose of a records system, and not simply because they are authorized by statute. Personal records releasable under the provisions of 5 U.S.C. 552 will not be withheld from subject individuals based on these exemptions.

(b) All systems of records maintained by DSS shall be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a(k)(1) to the extent that the system contains any information properly classified under Executive Order 12958 and which is required by the Executive Order to be withheld in the interest of national defense or foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary because certain record systems not otherwise specifically designated for exemptions herein may contain items of information that have been properly classified.

(c) System Identifier: V1-01.

(1) System name: Privacy and Freedom of Information Request Records.

(2) Exemptions: (i) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Records maintained in connection with providing protective services to the President and other individuals under 18 U.S.C. 3506, may be exempt pursuant to 5 U.S.C. 552a(k)(3).

(iii) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.
§ 321.13  
32 CFR Ch. I (7–1–02 Edition)  

(iv) Any portion of this system that falls under the provisions of 5 U.S.C. 552a(k)(2), (k)(3), (k)(5) may be exempt from the following subsections of 5 U.S.C. 552a(c)(3); (d); (e)(1); (e)(4)(G), (H) and (I); and (f).  

(3) Authority: 5 U.S.C. 552a(k)(2), (k)(3), (k)(5).  

(4) Reasons: (i) From subsection (c)(3) because it will enable DSS to conduct certain investigations and relay law enforcement information without compromise of the information, protection of investigative techniques and efforts employed, and identities of confidential sources who might not otherwise come forward and who furnished information under an express promise that the sources' identity would be held in confidence (or prior to the effective date of the Act, under an implied promise);  

(ii) From subsections (e)(1), (e)(4)(G), (H), and (I) because it will provide protection against notification of investigatory material including certain reciprocal investigations and counter-intelligence information, which might alert a subject to the fact that an investigation of that individual is taking place, and the disclosure of which would weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy who furnished information under an express promise that the sources' identity would be held in confidence (or prior to the effective date of the Act, under an implied promise);  

(iii) From subsections (d) and (f) because requiring DSS to grant access to records and agency rules for access and amendment of records would unfairly impede the agency's investigation of allegations of unlawful activities. To require DSS to confirm or deny the existence of a record pertaining to a requesting individual may in itself provide an answer to that individual relating to an on-going investigation. The investigation of possible unlawful activities would be jeopardized by agency rules requiring verification of record, disclosure of the record to the subject, and record amendment procedures.  

(d) System identifier: V5-01.  

(1) System name: Investigative Files System  

(2) Exemption: (i) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.  

(ii) Records maintained in connection with providing protective services to the President and other individuals under 18 U.S.C. 3506, may be exempt pursuant to 5 U.S.C. 552a(k)(3).  

(iii) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.  

(iv) Any portion of this system that falls under the provisions of 5 U.S.C. 552a(k)(2), (k)(3), or (k)(5) may be exempt from the following subsections of 5 U.S.C. 552a(c)(3); (d); (e)(1); (e)(4)(G), (H), and (I); and (f).  

(3) Authority: 5 U.S.C. 552a(k)(2), (k)(3), or (k)(5).  

(4) Reasons: (i) From subsection (c)(3) because it will enable DSS to conduct certain investigations and relay law enforcement information without compromise of the information, protection of investigative techniques and efforts employed, and identities of confidential sources who might not otherwise come forward and who furnished information under an express promise that the sources' identity would be held in confidence (or prior to the effective date of the Act, under an implied promise);  

(ii) From subsections (e)(1), (e)(4)(G), (H), and (I) because it will provide protection against notification of investigatory material including certain reciprocal investigations and counter-intelligence information, which might alert a subject to the fact that an investigation of that individual is taking place, and the disclosure of which
§ 321.13

would weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy who furnished information under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise).

(iii) From subsections (d) and (f) because requiring DSS to grant access to records and agency rules for access and amendment of records would unfairly impede the agency’s investigation of allegations of unlawful activities. To require DSS to confirm or deny the existence of a record pertaining to a requesting individual may in itself provide an answer to that individual relating to an on-going investigation. The investigation of possible unlawful activities would be jeopardized by agency rules requiring verification of record, disclosure of the record to the subject, and record amendment procedures.

(2) Exemption: Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source. Any portion of this system that falls under the provisions of 5 U.S.C. 552a(k)(2) may be exempt from the following subsections of 5 U.S.C. 552a(c)(3); (d); (e)(1); (e)(4)(G), (H), and (I), and (f).

(3) Authority: 5 U.S.C. 552a(k)(2).

(4) Reasons: (i) From subsection (c)(3) because it will enable DSS to conduct certain investigations and relay law enforcement information without compromise of the information, protection of investigative techniques and efforts employed, and identities of confidential sources who might not otherwise come forward and who furnished information under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise).

(ii) From subsections (e)(1), (e)(4)(G), (H), and (I) because it will provide protection against notification of investigatory material including certain reciprocal investigations and counterintelligence information, which might alert a subject to the fact that an investigation of that individual is taking place, and the disclosure of which would weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy who furnished information under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise).

(iii) From subsections (d) and (f) because requiring DSS to grant access to records and agency rules for access and amendment of records would unfairly impede the agency’s investigation of allegations of unlawful activities. To require DSS to confirm or deny the existence of a record pertaining to a requesting individual may in itself provide an answer to that individual relating to an on-going investigation. (2) Exemption: (i) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5),
but only to the extent that such material would reveal the identity of a confidential source. Any portion of this system that falls under the provisions of 5 U.S.C. 552a(k)(2) or (k)(5) may be exempt from the following subsections of 5 U.S.C. 552a: (c)(3); (d); (e)(1); (e)(4)(G), (H), and (I); and (f).

(3) Authority. 5 U.S.C. 552a(k)(2) and (k)(5).

(4) Reasons. (i) From subsection (c)(3) because it will enable DSS to conduct certain investigations and relay law enforcement information without compromise of the information, protection of investigative techniques and efforts employed, and identities of confidential sources who might not otherwise come forward and who furnished information under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise).

(ii) From subsections (e)(1), (e)(4)(G), (H), and (I) because it will provide protection against notification of investigatory material including certain reciprocal investigations and counterintelligence information, which might alert a subject to the fact that an investigation of that individual is taking place, and the disclosure of which would weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy who furnished information under an express promise that the sources’ identity would be held in confidence (or prior to the effective date of the Act, under an implied promise).

To require DSS to confirm or deny the existence of a record pertaining to a requesting individual may in itself provide an answer to that individual relating to an on-going investigation. (g) System identifier: V5-04.

(1) System name: Counterintelligence Issues Database (CII-DB).

(2) Exemption: (i) Information specifically authorized to be classified under E.O. 12958, as implemented by DoD 5200.1-R, may be exempt pursuant to 5 U.S.C. 552a(k)(1).

(ii) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

(iii) Records maintained in connection with providing protective services to the President and other individuals under 18 U.S.C. 3506, may be exempt pursuant to 5 U.S.C. 552a(k)(3).

(iv) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

(v) Any portion of this system that falls within the provisions of 5 U.S.C. 552a(k)(1), (k)(2), (k)(3) and (k)(5) may be exempt from the following subsections (c)(3); (d)(1) through (d)(5); (e)(1); (e)(4)(G), (H), and (I); and (f).

(3) Authority. 5 U.S.C. 552a(k)(1), (k)(2), (k)(3) and (k)(5).

(4) Reasons. (i) From subsection (c)(3) because giving the individual access to the disclosure accounting could alert the subject of an investigation to the existence and nature of the investigation and reveal investigative or prosecutive interest by other agencies, particularly in a joint-investigation situation. This would seriously impede or compromise the investigation and case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses or make witnesses reluctant to cooperate with the investigators; lead to suppression, alteration, fabrication, or destruction
of evidence; and endanger the physical safety of confidential sources, witnesses, law enforcement personnel and their families.

(ii) From subsection (d) because the application of these provisions could impede or compromise an investigation or prosecution if the subject of an investigation had access to the records or were able to use such rules to learn of the existence of an investigation before it would be completed. In addition, the mere notice of the fact of an investigation could inform the subject and others that their activities are under or may become the subject of an investigation and could enable the subjects to avoid detection or apprehension, to influence witnesses improperly, to destroy evidence, or to fabricate testimony.

(iii) From subsection (e)(1) because during an investigation it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear. In other cases, what may appear to be a relevant and necessary piece of information may become irrelevant in light of further investigation. In addition, during the course of an investigation, the investigator may obtain information that related primarily to matters under the investigative jurisdiction of another agency, and that information may not be reasonably segregated. In the interest of effective law enforcement, DSS investigators should retain this information, since it can aid in establishing patterns of criminal activity and can provide valuable leads for Federal and other law enforcement agencies.

(iv) From subsections (e)(4)(G), (e)(4)(H), (e)(4)(I) and (f) because this system is exempt from subsection (d) of the Act, concerning access to records. These requirements are inapplicable to the extent that these records will be exempt from these subsections. However, DSS has published information concerning its notification and access procedures, and the records source categories because under certain circumstances, DSS could decide it is appropriate for an individual to have access to all or a portion of his/her records in this system of records.

§ 321.14 DSS implementation policies.

(a) General. The implementation of the Privacy Act of 1974 within DSS is as prescribed by DoD Directive 5400.11. This section provides special rules and information that extend or amplify DoD policies with respect to matters of particular concern to the Defense Security Service.

(b) Privacy Act rules application. Any request which cites neither Act, concerning personal record information in a system or records, by the individual to whom such information pertains, for access, amendment, correction, accounting of disclosures, etc., will be governed by the Privacy Act of 1974, DoD Directive 5400.11 and these rules exclusively. Requests for like information which cite only the Freedom of Information Act will be governed by the Freedom of Information Act, DoD Regulation 5400.7R2. Any denial or exemption of all or part of a record from notification, access, disclosure, amendment or other provision, will also be processed under these rules, unless court order or other competent authority directs otherwise.

(c) First amendment rights. No DSS official or element may maintain any information pertaining to the exercise by an individual of his rights under the First Amendment without the permission of that individual unless such collection is specifically authorized by statute or necessary to and within the scope of an authorized law enforcement activity.

(d) Standards of accuracy and validation of records. (1) All individuals or elements within DSS which create or maintain records pertaining to individuals will insure that they are reasonably accurate, relevant, timely and complete to serve the purpose for which they are maintained and to assure fairness to the individual to whom they pertain. Information that is not pertinent to a stated purpose of a system of records will not be maintained within those records. Officials compiling investigatory records will make every reasonable effort to assure that

2See footnote 1 to 321.1.
only reports that are impartial, clear, accurate, complete, fair and relevant with respect to the authorized purpose of such records are included, and that reports not meeting these standards or serving such purposes are not included in such records.

(2) Prior to dissemination to an individual or agency outside DoD of any record about an individual (except for a Freedom of Information Act action or access by a subject individual under these rules) the disclosing DSS official will by review, make a reasonable effort to assure that such record is accurate, complete, timely, fair and relevant to the purpose for which they are maintained.

(e) The Defense Clearance and Investigations Index (DCII). It is the policy of DSS, as custodian, that each DoD component or element that has direct access to or contributes records to the DCII (V5-02), is individually responsible for compliance with the Privacy Act of 1974 and DoD Directive 5400.11 with respect to requests for notification, requests for access by subject individuals, granting of such access, request for amendment and corrections by subjects, making amendments or corrections, other disclosures, accounting for disclosures and the exercise of exemptions, insofar as they pertain to any record placed in the DCII by that component or element. Any component or element of the DoD that makes a disclosure of any record whatsoever to an individual or agency outside the DoD, from the DCII, is individually responsible to maintain an accounting of that disclosure as prescribed in DSS Handbook for Personnel Security Investigations, and to notify the element placing the record into the DCII of the disclosure. Use of and compliance with the procedures of the DCII Disclosure Accounting System will meet these requirements. Any component or element of DoD with access to the DCII that, in response to a request concerning an individual or agency outside the DoD, from the DCII, is individually responsible to maintain an accounting of that disclosure as prescribed by the Privacy Act of 1974 and DoD Directive 5400.11 and to notify the element placing the record in the DCII of the disclosure. No other information concerning individuals except that described in the records systems notice and this paragraph is to be used for other than these purposes, that information must become part of a reported, authorized record system. No other information concerning individuals except that described in the records systems notice and this paragraph may be maintained within DSS.

(1) Identification information at doorways, building directories, desks, lockers, name tags, etc.

(2) Identification in telephone directories, locator cards and rosters.

(3) Geographical or agency contact cards.
§ 322.1  Purpose and scope.

(a) The purpose of this rule is to comply with and implement title 5 U.S.C. 552a, sections (f) and (k), hereinafter identified as the Privacy Act. It establishes the procedures by which an individual may be notified whether a system of records contains information pertaining to the individual; defines times, places and requirements for identification of the individual requesting records, for disclosure of requested records where appropriate; special handling for medical and psychological records; for amendment of records; appeal of denials of requests for amendment; and provides a schedule of fees to be charged for making copies of requested records. In addition, this rule contains the exemptions promulgated by the Director, NSA, pursuant to 5 U.S.C. 552a(k), to exempt Agency systems of records from sub-sections (c)(3); (d); (e)(1); (e)(4)(G), (H), (I); and (f) of section 552a.

(b) The procedures established and exemptions claimed apply to systems of records for which notice has been published in the Federal Register.
§ 322.2 Definitions.
   (a) Access to the NSA headquarters: means current and continuing daily access to those facilities making up the NSA headquarters.
   (b) Individual: means a natural person who is a citizen of the United States or an alien lawfully admitted for permanent residence.
   (c) Request: means a request in writing for records pertaining to the requester contained in a system of records and made pursuant to the Privacy Act or if no statute is identified considered by the Agency to be made pursuant to that Act.
   (d) System of Records: means a grouping of records maintained by the Agency for which notice has been published in the Federal Register pursuant to section 552a(e)(4) of Title 5 U.S.C.

§ 322.3 Procedures for requests concerning individual records in a system of records.
   (a)(1) Notification. Any individual may be notified in response to a request for any system of records contains a record pertaining to the requester by sending a request addressed to: Information Officer, National Security Agency, Fort George G. Meade, Maryland 20755. Such request shall be in writing, shall be identified on the envelope and the request as a “Privacy Act Request,” shall designate the system or systems of records using the names of the systems as published in the system notices, shall contain the full name, present address, date of birth, social security number and dates of affiliation or contact with NSA/CSS of the requester and shall be signed in full by the requester.
   (2) A request pertaining to records concerning the requester which does not specify the Act pursuant to which the request is made shall be processed as a Privacy Act request. A request which does not designate the system or systems of records to be searched shall be processed by checking the following systems of records: Applicants; Personnel; Health, Medical and Safety.
   (b)(1) Identification. Any individual currently not authorized access to the National Security Agency headquarters who requests disclosure of records shall provide the following information with the written request for disclosure: full name, present address, date of birth, social security number, and date of first affiliation or contact with NSA/CSS and date of last affiliation or contact with NSA/CSS.
   (2) Any individual currently authorized access to the National Security Agency headquarters shall provide the following information with the request for notification: full name, present organizational assignment, date of birth, social security number.
   (3) Such request shall be treated as a certification of the requester that the requester is the individual named. Individuals should be aware that the Privacy Act provides criminal penalties for any person who knowingly and willfully requests or obtains any records concerning an individual under false pretenses.

If the request cannot be processed within ten working days from the time of receipt of the request, an acknowledgment of receipt of the request will be sent to the requester.

(2) Appointment of other individual. If a requester wishes another individual to obtain the requested records on his behalf, the requester shall provide a written, signed, notarized statement appointing that individual as his representative, certifying that the individual appointed may have access to the records of the requester and that such access shall not constitute an invasion of the privacy of the requester nor a violation of his rights under the Privacy Act of 1974.

In the case of any denial of notification by officials delegated responsibility for a system the request shall be referred to the NSA Information Officer for review.

(2) Appointment of other individual. If the requester makes a request pursuant to this paragraph and wishes to designate another individual to accompany him, the same procedures as provided in paragraph (a)(2) of this section apply. If the individual appointed is currently authorized access to the National Security Agency headquarters, he may accompany the requester. If the individual appointed is not currently authorized access, a copy of the records located may be mailed to the appointed individual subject to appropriate specific exemptions, applicable Public Laws, special procedures pertaining to medical records including psychological records, and the exclusion for information compiled in reasonable anticipation of a civil action or proceeding.

§ 322.5 Medical or psychological records.

If the request includes records of a medical or psychological nature, and if an Agency doctor makes the determination that the records requested contain information which would have an adverse effect upon the requester, the requester will be advised to appoint a medical doctor in the appropriate discipline to receive the information. The appointment of the doctor shall be in the same form as that indicated in §322.4(a)(2) and shall include a certification that the doctor appointed is authorized to practice the appropriate specialty by virtue of a license to practice same in the state which granted the license.

§ 322.8 Appeal determination.

The Executive for Staff Services shall acknowledge receipt of the appeal within ten working days. A determination concerning the appeal shall be provided to the requester within 30 working days, unless the Director, National Security Agency, extends the period for good cause. The Executive for Staff Services shall advise the requester of the action taken to make the requested amendment or inform the requester of the rejection of the appeal, the right to submit for incorporation in the file containing the disputed record(s) a concise statement of disagreement, and notify the requester of the right of judicial review of the denial pursuant to subsection (g)(1)(A) of 5 U.S.C. 552a.

This system of records is also exempted from all subsections cited pursuant to exemption (k)(5) to protect the identity of confidential sources of information constituting investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, federal contracts, or access to
classified information. The exemption does not limit access to that portion of the records in the system which are not exempted or otherwise protected from unauthorized disclosure.

(18) System identification and name—

Exemption—Portions of this record system may be exempted from subsections of 5 U.S.C. 552a (c)(3), (d)(1)—(5), (e)(4)(G)—(1), and (f)(1)—(5).

Authority—5 U.S.C. 552a(k) (1), (2) and (5).

Reasons—Subsection (c)(3) because there may be occasions when making an accounting available to the individual named in the record at his or her request, would reveal classified information. The release of accounting of disclosure would inform a subject that he or she is under investigation. This information would provide considerable advantage to the subject in providing him or her with knowledge concerning the nature of the investigation and the coordinated investigative efforts and techniques employed by the cooperating agencies.

Subsection (d) because granting access and/or subsequent amendment to the record would reveal classified information. It may also alert a subject to the fact that an investigation of that individual is taking place, and might weaken the on-going investigation, reveal investigatory techniques, and place confidential informants in jeopardy. NSA/CSS may refuse to confirm or deny the existence of a particular record because to do so would reveal classified information.

Subsection (e)(4)(G), (e)(4)(H), and (e)(4)(I). Although NSA/CSS has published procedures whereby an individual can be notified if a particular record system contains information about themselves; how to gain access to that information; and the source of the information, there may be occasions when confirming that a record exists, granting access, or giving out the source of the information would reveal classified information.

Subsection (f) because the agency's rules are inapplicable to those portions of the system that are exempt and would place the burden on the agency of either confirming or denying the existence of a record pertaining to a requesting individual. The confirming or denying might, in itself, provide an answer to that individual relating to an on-going criminal investigation. The conduct of a successful investigation leading to the indictment of a criminal offender precludes the applicability of established agency rules relating to verification of record, disclosure of the record to that individual, and record amendment procedures for this record system. Also, because this record system is exempt from the individual access provisions of subsection (d).

(v) Establish training programs for all individuals with public affairs duties, and all other personnel whose duties require access to or contact with systems of records affected by the Privacy Act. Initial training will be given...
§ 323.5 to new employees and military members upon assignment. Refresher training will be provided annually or more frequently if conditions warrant.

(2) The General Counsel, DLA (DLA–GC) will:

(i) Serve as the appellate authority for denials of individual access and amendment of records.

(ii) Provide representation to the Defense Privacy Board Legal Committee.

(iii) Advise the Defense Privacy Office on the status of DLA privacy litigation.

(3) The DLA Chief Information Office (J–6) will formulate and implement protective standards for personal information maintained in automated data processing systems and facilities.

(b) The Heads of DLA Primary Level Field Activities (PLFAs) will:

(1) Ensure that the collection, maintenance, use, or dissemination of records of identifiable personal information is in a manner that assures that such action is for a necessary and lawful purpose; that the information is timely and accurate for its intended use; and that adequate safeguards are provided to prevent misuse of such information.

(2) Designate a Privacy Act Officer to serve as the principal point of contact on privacy matters.

(3) Ensure the internal operating procedures provide for effective compliance with the Privacy Act.

(4) Establish training programs for all individuals with public affairs duties, and all other personnel whose duties require access to or contact with systems of records affected by the Privacy Act. Initial training will be given to new employees and military members upon assignment. Refresher training will be provided annually or more frequently if conditions warrant.

§ 323.5 Procedures.

(a) Individual access. (1) The access provisions of this part are intended for use by individuals whose records are maintained in systems of records. Release of personal information to individuals under this part is not considered public release of information.

(2) Individuals will address requests for access to personal information about themselves in a system of records to the system manager or to the office designated in the system notice. Before being granted access to personal data, an individual may be required to provide reasonable verification of his or her identity. Identity verification procedures will be simple so as not to discourage individuals from seeking access to information about themselves; or be required of an individual seeking access to records which normally would be available under 32 CFR part 1285 (DLAR 5400.14).

(i) Normally, when individuals seek personal access to records pertaining to themselves, identification will be made from documents that normally are readily available, such as employee and military identification cards, driver’s license, other licenses, permits, or passes used for routine identification purposes.

(ii) When access is requested by mail, identity verification may consist of the individual providing certain minimum identifying data, such as full name, date and place of birth, or such other personal information necessary to locate the record sought. If the information sought is sensitive, additional identifying data may be required. If notarization of requests is required, procedures will be established for an alternate method of verification for individuals who do not have access to notary services, such as military members overseas.

(iii) If an individual wishes to be accompanied by a third party when seeking access to his or her records or to have the records released directly to a third party, the individual may be required to furnish a signed access authorization granting the third party access. An individual will not be refused access to his or her record solely for failure to divulge his or her social security number (SSN) unless it is the only method by which retrieval can be made. The individual is not required to explain or justify his or her need for access to any record under this part.
(4) Disclose medical records to the individual to whom they pertain, even if a minor, unless a judgment is made that access to such records could have an adverse effect on the mental or physical health of the individual. Normally, this determination will be made in consultation with a medical doctor. If it is determined that the release of the medical information may be harmful to the mental or physical health of the individual, send the record to a physician named by the individual and in the transmittal letter to the physician, explain why access by the individual without proper professional supervision could be harmful (unless it is obvious from the record). Do not require the physician to request the records for the individual. If the individual refuses or fails to designate a physician, the record will not be provided. Such refusal of access is not considered a denial for reporting purposes.

(5) Requests by individuals for access to investigatory records pertaining to themselves and compiled for law enforcement purposes are processed under this part or 32 CFR part 1285 depending on which part gives them the greatest degree of access.

(6) Certain documents under the physical control of DoD personnel and used to assist them in performing official functions, are not considered “agency records” within the meaning of this part. Uncirculated personal notes and records that are not disseminated or circulated to any person or organization (for example, personal telephone lists or memory aids) that are retained or discarded at the author’s discretion and over which DLA exercises no direct control, are not considered agency records. However, if personnel are officially directed or encouraged, either in writing or orally, to maintain such records, they may become “agency records,” and may be subject to the Privacy Act of 1974 (5 U.S.C. 552a) and this part.

(7) Acknowledge requests for access within 10 working days after receipt and provide access within 30 working days.

(b) Denial of individual access. (1) Individuals may be formally denied access to a record pertaining to them only if the record was compiled in reasonable anticipation of civil action; is in a system of records that has been exempted from the access provisions of this part under one of the permitted exemptions; contains classified information that has been exempted from the access provision of this part under the blanket exemption for such material claimed for all DoD records systems; or is contained in a system of records for which access may be denied under some other Federal statute. Only deny the individual access to those portions of the records from which the denial of access serves some legitimate Governmental purpose.

(2) An individual may be refused access if the record is not described well enough to enable it to be located with a reasonable amount of effort on the part of an employee familiar with the file; or access is sought by an individual who fails or refuses to comply with the established procedural requirements, including refusing to name a physician to receive medical records when required or to pay fees. Always explain to the individual the specific reason access has been refused and how he or she may obtain access.

(3) Formal denials of access must be in writing and include as a minimum:

(i) The name, title or position, and signature of the appropriate Head of the HQ DLA principal staff element or primary level field activity.

(ii) The date of the denial.

(iii) The specific reason for the denial, including specific citation to the appropriate sections of the Privacy Act of 1974 (5 U.S.C. 552a) or other statutes, this part, or DLAR 5400.21 authorizing the denial.

(iv) Notice to the individual of his or her right to appeal the denial within 60 calendar days of the date of the denial letter and to file any such appeal with the HQ DLA Privacy Act Officer, Defense Logistics Agency (DSS-CA), 8725 John J. Kingman Road, Suite 2533, Fort Belvoir, VA 22060–6221.

(4) DLA will process all appeals within 30 days of receipt unless a fair and equitable review cannot be made within that period. The written appeal notification granting or denying access is the final DLA action on access.

(5) The records in all systems of records maintained in accordance with
§ 323.5  
the Office of Personnel Management (OPM) Government-wide system notices are technically only in the temporary custody of DLA. All requests for access to these records must be processed in accordance with the Federal Personnel Manual (5 CFR parts 293, 294, 297 and 735) as well as this part. DLA–GC is responsible for the appellate review of denial of access to such records.

(c) Amendment of records.

(1) Individuals are encouraged to review the personal information being maintained about them by DLA and to avail themselves of the procedures established by this part to update their records. An individual may request the amendment of any record contained in a system of records pertaining to him or her unless the system of record has been exempted specifically from the amendment procedures of this part. Normally, amendments under this part are limited to correcting factual matters and not matters of official judgment, such as performance ratings promotion potential, and job performance appraisals.

(2) The applicant must adequately support his or her claim and may be required to provide identification to ensure that they are indeed seeking to amend a record pertaining to themselves and not, inadvertently or intentionally, the record of others. Consider the following factors when evaluating the sufficiency of a request to amend:

(i) The accuracy of the information itself.

(ii) The relevancy, timeliness, completeness, and necessity of the recorded information for accomplishing an assigned mission or purpose.

(3) Provide written acknowledgement of a request to amend within 10 working days of its receipt by the appropriate systems manager. There is no need to acknowledge a request if the action is completed within 10 working days and the individual is so informed. The letter of acknowledgement shall clearly identify the request and advise the individual when he or she may expect to be notified of the completed action. Only under the most exceptional circumstances will more than 30 days be required to reach a decision on a request to amend.

(4) If the decision is made to grant all or part of the request for amendment, amend the record accordingly and notify the requester. Notify all previous recipients of the information, as reflected in the disclosure accounting records, that an amendment has been made and the substance of the amendment. Recipients who are known to be no longer retaining the information need not be advised of the amendment. All DoD Components and Federal agencies known to be retaining the record or information, even if not reflected in disclosure records, will be notified of the amendment. Advise the requester of these notifications, and honor all requests by the requester to notify specific Federal agencies of the amendment action.

(5) If the request for amendment is denied in whole or in part, promptly advise the individual in writing of the decision to include:

(i) The specific reason and authority for not amending.

(ii) Notification that he or she may seek further independent review of the decision by filing an appeal with the HQ DLA Privacy Act Officer, Defense Logistics Agency (DSS–CA), 8725 John J. Kingman Road, Suite 2536, Fort Belvoir, VA 22060–6221, and including all supporting materials.

(6) DLA will process all appeals within 30 days unless a fair review cannot be made within this time limit.

(i) If the appeal is granted, DLA will promptly notify the requester and system manager of the decision. The system manager will amend the record(s) as directed and ensure that all prior known recipients of the records who are known to be retaining the record are notified of the decision and the specific nature of the amendment and that the requester is notified as to which DoD Components and Federal agencies have been told of the amendment.

(ii) If the appeal is denied completely or in part, the individual is notified in writing by the reviewing official that:

(A) The appeal has been denied and the specific reason and authority for the denial.

(B) The individual may file a statement of disagreement with the appropriate authority and the procedures for filing this statement.
Office of the Secretary of Defense

§ 323.5

(C) If filed properly, the statement of disagreement shall be included in the records, furnished to all future recipients of the records, and provided to all prior recipients of the disputed records who are known to hold the record.

(D) The individual may seek a judicial review of the decision not to amend.

(7) The records in all systems of records controlled by the Office of Personnel Management (OPM) Government-wide system notices are technically only temporarily in the custody of DLA. All requests for amendment of these records must be processed in accordance with the Federal Personnel Manual (FPM). A DLA denial authority may deny a request. However, the appeal process for all such denials must include a review by the Assistant Director for Agency Compliance and Evaluation, Office of Personnel Management, 1900 E Street, NW., Washington, DC 20415. When an appeal is received from a DLA denial of amendment of the OPM controlled record, process the appeal in accordance with the FPM and notify the OPM appeal authority listed above. The individual may appeal any DLA decision not to amend the OPM records directly to OPM. OPM is the final review authority for any appeal from a denial to amend the OPM records.

(8) If the reviewing authority refuses to amend the record as requested, the individual may submit a concise statement of disagreement setting forth his or her reasons for disagreeing with the decision not to amend.

(i) If an individual chooses to file a statement of disagreement, annotate the record to indicate that the statement has been filed. Furnish copies of the statement of disagreement to all DoD Components and Federal agencies that have been provided copies of the disputed information and who may be maintaining the information.

(ii) When possible, incorporate the statement of disagreement into the record. If the statement cannot be made a part of the record, establish procedures to ensure that it is apparent from the records that a statement of disagreement has been filed and maintain the statement so that it can be obtained readily when the disputed information is used or disclosed. Automated record systems that are not programmed to accept statements of disagreement shall be annotated or coded so that they clearly indicate that a statement of disagreement is on file, and clearly identify the statement with the disputed information in the system. Provide a copy of the statement of disagreement whenever the disputed information is disclosed for any purpose.

(9) A summary of reasons for refusing to amend may be included with any record for which a statement of disagreement is filed. Include in this summary only the reasons furnished to the individual for not amending the record. Do not include comments on the statement of disagreement. Normally, the summary and statement of disagreement are filed together. When disclosing information for which a summary has been filed, a copy of the summary may be included in the release, if desired.

(d) Documentation. Establish a separate Privacy Case File to retain the documentation received and generated during the amendment or access process. There is no need to establish a Privacy Case File if the individual has not cited the Privacy Act or this part. Privacy Case Files shall not be furnished or disclosed to anyone for use in making any determination about the individual other than determinations made under this part. Only the items listed below may be included in the system of records challenged for amendment or for which access is sought. Do not retain copies of unamended records in the basis record system if the request for amendment is granted.

(1) The following items relating to an amendment request may be included in the disputed record system:

(i) Copies of the amended record.

(ii) Copies of the individual’s statement of disagreement.

(iii) Copies of activity summaries.

(iv) Supporting documentation submitted by the individual.

(2) The following items relating to an access request may be included in the basic records system:

(i) Copies of the request.
§ 323.5 32 CFR Ch. I (7-1-02 Edition)

(ii) Copies of the activity action granting total access. (Note: A separate Privacy Case File need not be created in such cases.)

(iii) Copies of the activity action denying access.

(iv) Copies of any appeals filed.

(v) Copies of the reply to the appeal.

(e) Fees. An individual may be charged only for the direct cost of copying and reproduction, computed using the appropriate portions of the fee schedule in DLAR 5400.14 (32 CFR part 1285) under the provisions of this part. Normally, fees are waived automatically if the direct costs of a given request is less than $30. This fee waiver provision does not apply when a waiver has been granted to the individual before, and later requests appear to be an extension or duplication of that original request. DLA activities may, however, set aside this automatic fee waiver provision when on the basis of good evidence it determines that the waiver of fees is not in the public interest. Decisions to waive or reduce fees that exceed the automatic waiver threshold will be made on a case-by-case basis. Fees may not be charged when:

1. Copying is performed for the convenience of the Government or is the only means to make the record available to the individual.

2. The record may be obtained without charge under any other part, directive, or statute.

3. Providing documents to members of Congress for copying records furnished even when the records are requested under the Privacy Act on behalf of a constituent.

(f) Disclosures of personal information.

1. For the purposes of disclosure and disclosure accounting, the Department of Defense is considered a single agency. Records pertaining to an individual may be disclosed without the consent of the individual to any DoD official who has need for the record in the performance of his or her assigned duties. Do not disclose personnel information from a system of records outside the Department of Defense unless the record has been requested by the individual to whom it pertains; the written consent of the individual to whom the record pertains has been obtained for release of the record to the requesting agency, activity, or individual; or the release is for one of the specific non-consensual purposes set forth in this part or DLAR 5400.14, (32 CFR part 1285).

2. Except for releases made in accordance with DLAR 5400.14, (32 CFR part 1285) before disclosing any personal information to any recipient outside DoD other than a Federal agency or the individual to whom it pertains;

   i. Ensure that the records are accurate, timely, complete, and relevant for agency purposes.

   ii. Contact the individual, if reasonably available, to verify the accuracy, timeliness, completeness, and relevancy of the information, if this cannot be determined from the record.

   iii. If the information is not current and the individual is not reasonably available, advise the recipient that the information is believed accurate as of a specific date and any other known factors bearing on its accuracy and relevancy.

3. All records must be disclosed if their release is required by the Freedom of Information Act. DLAR 5400.14, (32 CFR part 1285) requires that records be made available to the public unless exempted from disclosure by one of the nine exemptions found in the Freedom of Information Act. The standard for exempting most personal records, such as personnel records, medical records, and similar records, is found in DLAR 5400.14 (32 CFR part 1285). Under the exemption, release of personal information can only be denied when its release would be a ‘clearly unwarranted invasion of personal privacy.’

   i. All disclosures of personal information regarding Federal civilian employees will be made in accordance with the Federal Personnel Manual. Some examples of personal information regarding DoD civilian employees that normally may be released without a clearly unwarranted invasion of personal privacy include:

      A. Name.
      B. Present and past position titles.
      C. Present and past grades.
      D. Present and past salaries.
      E. Present and past duty stations.
      F. Office and duty telephone numbers.
Office of the Secretary of Defense § 323.5

(i) All release of personal information regarding military members shall be made in accordance with the standards established by DLAR 5400.14, (32 CFR part 1285). While it is not possible to identify categorically information that must be released or withheld from military personnel records in every instance, the following items of personal information regarding military members normally may be disclosed without a clearly unwarranted invasion of their personal privacy:

(A) Full name.
(B) Rank.
(C) Date of rank.
(D) Gross salary.
(E) Past duty assignments.
(F) Present duty assignment.
(G) Future assignments that are officially established.
(H) Office or duty telephone numbers.
(I) Source of commission.
(J) Promotion sequence number.
(K) Awards and decorations.
(L) Attendance at professional military schools.
(M) Duty status at any given time.

(iii) All releases of personal information regarding civilian personnel not subject to the FPM shall be made in accordance with the standards established by DLAR 5400.14 (32 CFR part 1285). While it is not possible to identify categorically those items of personal information that must be released regarding civilian employees not subject to the FPM, such as non-appropriated fund employees, normally the following items may be released without a clearly unwarranted invasion of personal privacy:

(A) Full name.
(B) Grade or position.
(C) Date of grade.
(D) Gross salary.
(E) Present and past assignments.
(F) Future assignments, if officially established.
(G) Office or duty telephone numbers.

(iv) The releasing official releases the information under the provisions of DLAR 5400.14, (32 CFR part 1285).

(5) Records may be disclosed outside DoD without consent of the individual to whom they pertain for an established routine use. Routine uses may be established, discontinued, or amended without the consent of the individuals involved. However, new or changed routine uses must be published in the FEDERAL REGISTER at least 30 days before actually disclosing any records under their provisions. In addition to the routine uses established by the individual system notices, common blanket routine uses for all DLA-maintained systems of records have been established. These blanket routine uses are published in DLAH 5400.1, DLA Systems of Records Handbook. Unless a system notice specifically excludes a system from a given blanket routine use, all blanket routine uses apply.

(6) Records in DLA systems of records may be disclosed without the consent of the individuals to whom they pertain to the Bureau of the Census for purposes of planning or carrying out a census survey or related activities.

(7) Records may be disclosed for statistical research and reporting without the consent of the individuals to whom they pertain. Before such disclosures, the recipient must provide advance written assurance that the records will

§ 323.5  

be used as statistical research or reporting records; the records will only be transferred in a form that is not individually identifiable; and the records will not be used, in whole or in part, to make any determination about the rights, benefits, or entitlements of specific individuals. A disclosure accounting is not required.

(8) Records may be disclosed without the consent of the individual to whom they pertain to the National Archives and Records Administration (NARA) if they have historical or other value to warrant continued preservation; or for evaluation by NARA to determine if a record has such historical or other value. Records transferred to a Federal Record Center (FRC) for safekeeping and storage do not fall within this category. These remain under the control of the transferring activity, and the FRC personnel are considered agents of the activity which retain control over the records. No disclosure accounting is required for the transfer of records to FRCs.

(9) Records may be disclosed without the consent of the individual to whom they pertain to another agency or an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity, provided the civil or criminal law enforcement activity is authorized by law; the head of the law enforcement activity or a designee has made a written request specifying the particular records desired and the law enforcement purpose (such as criminal investigations, enforcement of civil law, or a similar purpose) for which the record is sought; and there is no Federal statute that prohibits the disclosure of the records. Normally, blanket requests for access to any and all records pertaining to an individual are not honored. When a record is released to a law enforcement activity, maintain a disclosure accounting. This disclosure accounting will not be made available to the individual to whom the record pertains if the law enforcement activity requests that the disclosure not be released.

(10) Records may be disclosed without the consent of the individual to whom they pertain if disclosure is made under compelling circumstances affecting the health or safety of any individual. The affected individual need not be the subject of the record disclosed. When such a disclosure is made, notify the individual who is the subject of the record. Notification sent to the last known address of the individual as reflected in the records is sufficient.

(11) Records may be disclosed without the consent of the individual to whom they pertain to either House of the Congress or to any committee, joint committee or subcommittee of Congress if the release pertains to a matter within the jurisdiction of the committee. Records may also be disclosed to the General Accounting Office (GAO) in the course of the activities of GAO.

(12) Records may be disclosed without the consent of the person to whom they pertain under a court order signed by a judge of a court of competent jurisdiction. Releases may also be made under the compulsory legal process of Federal or state bodies having authority to issue such process.

(i) When a record is disclosed under this provision, make reasonable efforts to notify the individual to whom the record pertains, if the legal process is a matter of public record.

(ii) If the process is not a matter of public record at the time it is issued, seek to be advised when the process is made public and make reasonable efforts to notify the individual at that time.

(iii) Notification sent to the last known address of the individual as reflected in the records is considered reasonable effort to notify. Make a disclosure accounting each time a record is disclosed under a court order or compulsory legal process.

(13) Certain personal information may be disclosed to consumer reporting agencies as defined by the Federal Claims Collection Act. Information which may be disclosed to a consumer reporting agency includes:

(i) Name, address, taxpayer identification number (SSN), and other information necessary to establish the identity of the individual.

(ii) The amount, status, and history of the claim.
(iii) The agency or program under which the claim arose.

(g) Disclosure accounting. (1) Keep an accurate record of all disclosures made from any system of records except disclosures to DoD personnel for use in the performance of their official duties or under DLAR 5400.14 (32 CFR part 1285). In all other cases a disclosure accounting is required even if the individual has consented to the disclosure of the information pertaining to him or her.

(2) Use any system of disclosure accounting that will provide the necessary disclosure information. As a minimum, disclosure accounting will contain the date of the disclosure, a description of the information released, the purpose of the disclosure, the name and address of the person or agency to whom the disclosure was made. When numerous similar records are released (such as transmittal of payroll checks to a bank), identify the category of records disclosed and include the data required in some form that can be used to construct an accounting disclosure record for individual records if required. Retain disclosure accounting records for 5 years after the disclosure or the life of the record, whichever is longer.

(3) Make available to the individual to whom the record pertains all disclosure accountings except when the disclosure has been made to a law enforcement activity and the law enforcement activity has requested that disclosure not be made, or the system of records has been exempted from the requirement to furnish the disclosure accounting. If disclosure accountings are not maintained with the record and the individual requests access to the accounting, prepare a listing of all accountings and provide this to the individual upon request.

(h) Collecting personal information. (1) Collect to the greatest extent practicable personal information directly from the individual to whom it pertains if the information may be used in making any determination about the rights, privileges, or benefits of the individual under any Federal program.

(2) When an individual is requested to furnish personal information about himself or herself for inclusion in a system of records, a Privacy Act Statement is required regardless of the medium used to collect the information (forms, personal interviews, stylized formats, telephonic interviews, or other methods). The statement enables the individual to make an informed decision whether to provide the information requested. If the personal information solicited is not to be incorporated into a system of records, the statement need not be given. The Privacy Act Statement shall be concise, current, and easily understood. It must include:

(i) The specific Federal statute or Executive Order that authorizes collection of the requested information.

(ii) The principal purpose or purposes for which the information is to be used.

(iii) The routine uses that will be made of the information.

(iv) Whether providing the information is voluntary or mandatory.

(v) The effects on the individual if he or she chooses not to provide the requested information.

(3) The Privacy Act Statement may appear as a public notice (sign or poster), conspicuously displayed in the area where the information is collected, such as at check-cashing facilities or identification photograph facilities. The individual normally is not required to sign the Privacy Act Statement. Provide the individual a written copy of the Privacy Act Statement upon request. This must be done regardless of the method chosen to furnish the initial advisement.

(4) Include in the Privacy Act Statement specifically whether furnishing the requested personal data is mandatory or voluntary. A requirement to furnish personal data is mandatory only when a Federal statute, Executive order, regulation, or other lawful order specifically imposes a duty on the individual to provide the information sought, and the individual is subject to a penalty if he or she fails to provide the requested information. If providing the information is only a condition of a prerequisite to granting a benefit or privilege, providing the information is always voluntary. However, the loss or
denial of the privilege, benefit, or entitlement sought may be listed as a consequence of not furnishing the requested information.

(5) It is unlawful for any Federal, state, or local government agency to deny an individual any right, benefit, or privilege provided by law because the individual refuses to provide his or her social security number (SSN). However, if a Federal statute requires that the SSN be furnished or if the SSN is required to verify the identity of the individual in a system of records that was established and in use before January 1, 1975, and the SSN was required as an identifier by a statute or regulation adopted before that date, this restriction does not apply.

(i) When an individual is requested to provide his or her SSN, he or she must be told:

(A) The uses that will be made of the SSN.

(B) The statute, regulation, or rule authorizing the solicitation of the SSN.

(C) Whether providing the SSN is voluntary or mandatory.

(ii) Include in any systems notice for any system of records that contains SSNs a statement indicating the authority for maintaining the SSN and the source of the SSNs in the system. If the SSN is obtained directly from the individual indicate whether this is voluntary or mandatory.

(iii) Upon entrance into Military Service of civilian employment with DoD, individuals are asked to provide their SSNs. The SSN becomes the service or employment number for the individual and is used to establish personnel, financial, medical, and other official records. After an individual has provided his or her SSN for the purpose of establishing a record, a Privacy Act Statement is not required if the individual is only requested to furnish or verify the SSNs for identification purposes in connection with the normal use of his or her records. However, if the SSN is to be written down and retained for any purpose by the requesting official, the individual must be provided a Privacy Act Statement.

(6) DLAI 5530.1, Publications, Forms, Printing, Duplicating, Micro出版, Office Copying, and Automated Information Management Programs, provides guidance on administrative requirements for Privacy Act Statements used with DLA forms. Forms subject to the Privacy Act issued by other Federal agencies have a Privacy Act Statement attached or included. Always ensure that the statement prepared by the originating agency is adequate for the purpose for which the form will be used by the DoD activity.

If the Privacy Act Statement provided is inadequate, the activity concerned will prepare a new statement of a supplement to the existing statement before using the form. Forms issued by agencies not subject to the Privacy Act (state, municipal, and other local agencies) do not contain Privacy Act Statements. Before using a form prepared by such agencies to collect personal data subject to this part, an appropriate Privacy Act Statement must be added.

(i) Systems of records. (1) To be subject to this part, a “system of records” must consist of records retrieved by the name of an individual or some other personal identifier and be under the control of a DLA activity. Records in a group of records that may be retrieved by a name or personal identifier are not covered by this part. The records must be, in fact, retrieved by name or other personal identifier to become a system of records for the purpose of this part.

(2) Retain in a system of records only that personal information which is relevant and necessary to accomplish a purpose required by a Federal statute or an Executive Order. The existence of a statute or Executive order mandating that maintenance of a system of records does not abrogate the responsibility to ensure that the information in the system of records is relevant and necessary.

(3) Do not maintain any records describing how an individual exercises his or her rights guaranteed by the First Amendment of the U.S. Constitution unless expressly authorized by Federal...
(4) Maintain all personal information used to make any determination about an individual with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to ensure fairness to the individual in making any such determination. Before disseminating any personal information from a system of records to any person outside DoD, other than a Federal agency, make reasonable efforts to ensure that the information to be disclosed is accurate, relevant, timely, and complete for the purpose it is being maintained.

(5) Establish appropriate administrative, technical and physical safeguards to ensure that the records in every system of records are protected from unauthorized alteration or disclosure and that their confidentiality is protected. Protect the records against reasonably anticipated threats or hazards. Tailor safeguards specifically to the vulnerabilities of the system and the type of records in the system, the sensitivity of the personal information stored, the storage medium used and, to a degree, the number of records maintained.

(i) Treat all unclassified records that contain personal information that normally would be withheld from the public as if they were designated “For Official Use Only” and safeguard them in accordance with the standards established by DLAR 5400.14 (32 CFR part 1285) even if they are not marked “For Official Use Only.”

(ii) Special administrative, physical, and technical procedures are required to protect data that are stored or being processed temporarily in an automated data processing (ADP) system or in a word processing activity to protect it against threats unique to those environments (see DLAR 5200.17, Security Requirements for Automated Information and Telecommunications Systems, and appendix D to this part).

(6) Dispose of records containing personal data so as to prevent inadvertent compromise. Disposal methods such as tearing, burning, melting, chemical decomposition, pulping, pulverizing, shredding, or mutilation are considered adequate if the personal data is rendered unrecognizable or beyond reconstruction.

(i) The transfer of large quantities of records containing personal data (for example, computer cards and printouts) in bulk to a disposal activity, such as the Defense Property Disposal Office, is not a release of personal information under this part. The sheer volume of such transfers makes it difficult or impossible to identify readily specific individual records.

(ii) When disposing of or destroying large quantities of records containing personal information, care must be exercised to ensure that the bulk of the records is maintained so as prevent specific records from being readily identified. If bulk is maintained, no special procedures are required.

(7) When DLA contracts for the operation or maintenance of a system of records or a portion of a system of records by a contractor, the record system or the portion of the record system affected are considered to be maintained by DLA and are subject to this part. The activity concerned is responsible for applying the requirements of this part to the contractor. The contractor and its employees are to be considered employees of DLA for purposes of the sanction provisions of the Privacy Act during the performance of the contract. See the Federal Acquisition Regulation (FAR), section 24.000 (48 CFR chapter 1).

(j) System Notices. (1) A notice of the existence of each system of records must be published in the Federal Register. While system notices are not subject to formal rulemaking procedures, advance public notice must be given before an activity may begin to collect personal information or use a new system of records. The notice procedures require that:

(i) The system notice describes the contents of the record system and the
§ 323.5

routine uses for which the information in the system may be released.

(ii) The public be given 30 days to comment on any proposed routine uses before implementation.

(iii) The notice contains the date on which the system will become effective.

(2) Appendix A of this part discusses the specific elements required in a system notice. DLAH 5400.14 contains systems notices published by DLA.

(3) In addition to system notices, reports are required for new and altered systems of records. The criteria of these reports are outlined in appendices B and C of this part. No report is required for amendments to existing systems which do not meet the criteria for altered record systems.

(4) System managers shall evaluate the information to be included in each new system before establishing the system and evaluate periodically the information contained in each existing system of records for relevancy and necessity. Such a review will also occur when a system notice amendment or alteration is prepared. Consider the following:

(i) The relationship of each item of information retained and collected to the purpose for which the system is maintained.

(ii) The specific impact on the purpose or mission of not collecting each category of information contained in the system.

(iii) The possibility of meeting the informational requirements through use of information not individually identifiable or through other techniques, such as sampling.

(iv) The length of time each item of personal information must be retained.

(v) The cost of maintaining the information.

(vi) The necessity and relevancy of the information to the purpose for which it was collected.

(5) Systems notices and reports of new and altered systems will be submitted to DLA Support Services (DSS–CA) as required.

(k) Exemptions. The Director, DLA will designate the DLA records which are to be exempted from certain provisions of the Privacy Act. DLA Support Services (DSS–CA) will publish in the FEDERAL REGISTER information specifying the name of each designated system, the specific provisions of the Privacy Act from which each system is to be exempted, the reasons for each exemption, and the reason for each exemption of the record system.

(1) General Exemptions. To qualify for a general exemption, as defined in the Privacy Act, the system of records must be maintained by a system manager who performs as his/her principal function any activity pertaining to the enforcement of criminal laws, including police efforts to prevent, control, or reduce crime or to apprehend criminals, and the activities or prosecutors, courts, correctional, probation, pardon, or parole authorities. Such system of records must consist of:

(i) Information compiled for the purpose of identifying individual criminal offenders and alleged offenders and containing only identifying data and notations or arrests, the nature and disposition of criminal charges, sentencing, confinement, release, and parole, and probation status.

(ii) Information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual.

(iii) Reports identifiable to an individual compiled at any stage of the process of enforcement of the criminal laws from arrest or indictment through release from supervision.

(2) Specific exemption. To qualify for a specific exemption, as defined by the Privacy Act, the systems of records must be:

(i) Specifically authorized under criteria established by an Executive Order to be kept classified in the interest of national defense or foreign policy and are in fact properly classified pursuant to such Executive Order.

(ii) Investigatory material compiled for law enforcement purposes other than material covered under a general exemption. However, an individual will not be denied access to information which has been used to deny him/her a
right or privilege unless disclosure would reveal a source who furnished information to the Government under a promise that the identity of the source would be held in confidence. For investigations made after September 27, 1975, the identity of the source may be treated as confidential only if based on the expressed guarantee that the identity would not be revealed.

(iii) Maintained in connection with providing protective services to the President of the United States or other individuals protected pursuant to 18 U.S.C. 3056.

(iv) Used only to generate aggregate statistical data or for other similarly evaluative or analytic purposes, and which are not used to make decisions on the rights, benefits, or entitlements of individuals except for the disclosure of a census record permitted by 13 U.S.C. 8.

(v) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, Military Service, Federal contracts, or access to classified information, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the source would be held in confidence, or prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence.

(vi) Testing or examination material used solely to determine individual qualifications for appointment or promotion in the Federal service, the disclosure of which would compromise the objectivity or fairness of the testing or elimination process.

(vii) Evaluation material used to determine potential for promotion in the Military Services, but only the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence or prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence. System managers will specify those categories of individuals for whom pledges of confidentiality may be made when obtaining information on an individual’s suitability for promotion.

(viii) Exemption rules for DLA systems of records are published in appendix H of this part.

(1) Matching Program Procedures. The OMB has issued special guidelines to be followed in programs that match the personal records in the computerized data bases of two or more Federal agencies by computer (see appendix E). These guidelines are intended to strike a balance between the interest of the Government in maintaining the integrity of Federal programs and the need to protect individual privacy expectations. They do not authorize matching programs as such and each matching program must be justified individually in accordance with the OMB guidelines.

(1) Forward all requests for matching programs to include necessary routine use amendments and analysis and proposed matching program reports to DLA Support Services. Changes to existing matching programs shall be processed in the same manner as a new matching program report.

(2) No time limits are set by the OMB guidelines. However, in order to establish a new routine use for a matching program, the amended system notice must have been published in the Federal Register at least 30 days before implementation. Submit the documentation required above to DLA Support Services (DSS-CA) at least 60 days before the proposed initiation date of the matching program. Waivers to the 60 days’ deadline may be granted for good cause shown. Requests for waivers will be in writing fully justified.

(3) For the purpose of the OMB guidelines, DoD and all DoD Components are considered a single agency. Before initiating a matching program using only the records of two or more DoD activities, notify DLA Support Services (DSS-CA) that the match is to occur. Further information may be requested from the activity proposing the match.

(4) System managers shall review annually each system of records to determine if records from the system are being used in matching programs and
§ 323.6 Form and reports.

DLA activities may be required to provide data under reporting requirements established by the Defense Privacy Office and DLA Support Services (DSS–CA). Any report established shall be assigned Report Control Symbol DD–DAEM(A)1379.

APPENDIX A TO PART 323—INSTRUCTIONS FOR PREPARATION OF SYSTEM NOTICES

A. System identification. See DLAH 5400.1.1

B. System name. The name of the system reasonably identifies the general purpose of the system and, if possible, the general categories of individuals involved. Use acronyms only parenthetically following the title or any portion thereof, such as, “Joint Uniform Military Pay System (JUMPS).” Do not use acronyms that are not commonly known unless they are preceded by an explanation. The system name may not exceed 55 character positions including punctuation and spacing.

C. System location. 1. For systems maintained in a single location provided the exact office name, organizational identity, and address or routing symbol. For geographically or organizationally decentralized systems, specify each level of organization or element that maintains a segment of the system. For automated data systems with a central computer facility and input/output terminals at several geographically separated location, list each location by category.

2. When multiple locations are identified by type of organization, the system location may indicate that official mailing addresses are contained in an address directory published as an appendix to DLAH 5400.1.

3. If no address directory is used or the addresses in the directory are incomplete, the address of each location where a segment of the record system is maintained must appear under the “System Location” caption. Classified addresses are not listed, but the fact that they are classified is indicated. Use the standard U.S. Postal Service two letter state abbreviation symbols and zip codes for all domestic addresses.

D. Categories of individuals covered by the system. Set forth the specific categories of individuals to whom records in the system pertain in clear, easily understood, nontechnical terms. Avoid the use of broad over-general descriptions, such as “all DLA personnel” or “all civilian personnel” unless this actually reflects the category of individuals involved.

E. Categories of records in the system. Describe in clear, nontechnical terms the types of records maintained in the system. Only documents actually retained in the system of records will be described, not source documents that are used only to collect data and the destroyed.

F. Authority for maintenance of the system. 1. Cite the specific provisions of the Federal statute or Executive Order that authorizes the maintenance of the system. Include with citations for statutes the popular names, when appropriate (for example, title 51, United States Code, section 2103, “Tea-Tasters Licensing Act”), and for Executive Orders, the official title (for example, Executive Order 9397, “Numbering System for Federal Accounts Relative to Individual Persons”).

2. For administrative housekeeping records, cite the directive establishing DLA as well as the Secretary of Defense authority to issue the directive. For example, “Pursuant to the authority contained in the National Security Act of 1947, as amended (30 U.S.C. 133d), the Secretary of Defense has issued DoD Directive 5105.22 (32 CFR part 398), Defense Logistics Agency (DLA), the charter of the Defense Logistics Agency (DLA) as a separate agency of the Department of Defense under this control. Therein, the Director, DLA, is charged with the responsibility of maintaining all necessary and appropriate records.”

G. Purpose or purposes. List the specific purposes for maintaining the system of records by the activity. Include the use made of the information within DLA and the Department of Defense (so-called “internal routine uses”).

H. Routine uses. 1. The blanket routine uses that appear in DLAH 5400.1 apply to all systems notices unless the individual system notice specifically states that one or more of them do not apply to the system. For all other routine uses, when practical, list the specific activity to which the record may be released, to include any routine automated

system interface (for example, “to the Department of Justice, Civil Rights Compliance Division,” “to the Veterans Administration, Office of Disability Benefits,” or “to state and local health agencies”).

2. For each routine use identified, include a statement as to the purpose or purposes for which the record is to be released to the activity. Do not use general statements, such as, “to other Federal agencies as required” and “to any other appropriate Federal agency.”

1. Policies and practices for storing, retrieving, accessing, retaining, and disposing of records. This caption is subdivided into four parts:
   1. Storage. Indicate the medium in which the records are maintained. (For example, a system may be “automated, maintained on magnetic tapes or disks,” “manual, maintained in paper files,” or “hybrid, maintained in a combination of paper and automated form.”) Storage does not refer to the container or facility in which the records are kept.
   2. Retrieval. Specify how the records are retrieved (for example, name and SSN, magnetic tapes or disks, ‘‘hybrid’’ system may be kept.
   3. Safeguards. List the categories of DLA personnel having immediate access and these responsible for safeguards (such as storage in safes, vaults, locked cabinets or rooms, use of guards, visitors registers, personnel screening, or computer ‘‘fail-safe’’ systems software). Do not describe safeguards in such detail as to compromise system security.
   4. Retention and disposal. Indicate how long the record is retained. When appropriate, state the length of time the records are maintained by the activity, when they are transferred to a Federal Records Center, length of retention at the Records Center and when they are transferred to the National Archives or are destroyed. A reference to DLAI 5015.1,4 DLA Records Management Procedures and Records Schedules, or other issuances without further detailed information is insufficient.

J. System manager or managers and address.
   1. List the title and address of the official responsible for the management of the system. If the title of the specific official is unknown, such as for a local system, specify the local commander or office head as the systems manager.
   2. For geographically separated or organizationally decentralized activities for which individuals may deal directly with officials at each location in exercising their rights, list the position or duty title of each category of officials responsible for the system or a segment thereof.

K. Notification procedures. 1. If the record system has been exempted from subsection (e)(4)(G) the Privacy Act, so indicate.

2. For all nonexempt systems, describe how an individual may determine if there are records pertaining to him or her in the system. The procedural rules may be cited, but include a brief procedural description of the needed data. Provide sufficient information in the notice to allow an individual to exercise his or her rights without referrals to this part.

As a minimum, the caption will include:
   a. The official title (normally the system manager) and official address to which request is to be directed.
   b. The specific information required to determine if there is a record of the individual in the system.
   c. Identification of the offices through which the individual may obtain access.
   d. A description of any proof of identity required.

4. When appropriate, the individual may be referred to an activity official who shall provide this data to him or her.

L. Record access procedures. 1. If the record system has been exempted from subsection (e)(4)(H) of the Privacy Act, so indicate.

2. For all nonexempt systems, describe the procedures under which individuals may obtain access to the record pertaining to them in the system. When appropriate, the individual may be referred to the system manager or activity official to obtain access procedures. Do not repeat the addresses listed in DLAI 5400.1, but refer the individual to that directory.

M. Contesting record procedures. 1. If the record system has been exempted from subsection (e)(4)(H) of the Privacy Act, so indicate.

2. For all nonexempt systems of records, state briefly how an individual may contest the content of a record pertaining to him or her in the system. The detailed procedures for contesting record accuracy, refusal of access or amendment, or initial review and appeal need not be included if they are readily available elsewhere and can be referred to by the public. (For example, ‘‘The Defense Logistics Agency rules for contesting contents and for appealing initial determinations are contained in 32 CFR part. ‘’) (DLAI 5400.21).

3. The individual may also be referred to the system manager to determine these procedures.

N. Record source categories. 1. If the record system has been exempted from subsection (e)(4)(I) of the Privacy Act, so indicate.

2. For all nonexempt systems of records, list the sources of the information in the system. Specific individuals or institutions

need not be identified by name, particularly if these sources have been granted confidentiality.

O. System exempted from certain provisions of the Privacy Act. 1. If no exemption has been claimed for the system, indicate “None.”

2. If there is an exemption claimed, indicate specifically under which subsection of the Privacy Act is claimed. Cite the regulation and CFR section containing the exemption rule for the system. (For example, “Parts of this record system may be exempt under title 5, United States Code, sections 552a(k)(2) and (5), as applicable. See exemption rules contained in 32 CFR part 323.”) (DLAR 5400.21).

32 CFR Ch. 1 (7–1–02 Edition)

APPENDIX B TO PART 323—CRITERIA FOR NEW AND ALTERED RECORD SYSTEMS

A. Criteria for a new record system. A new system of records is one for which there has been no system notice published in the Federal Register. If a notice for a system, of records has been canceled or deleted, before reinstating or reusing the system, a new system notice must be published in the Federal Register.

B. Criteria for an altered record system. A system is considered altered whenever one of the following actions occurs or is proposed:

1. A significant increase or change in the number or type of individuals about whom records are maintained.
   a. Only changes that alter significantly the character and purpose of the records system are considered alterations.
   b. Increases in numbers of individuals due to normal growth are not considered alterations unless they truly alter the character and purpose of the system.
   c. Increases that change significantly the scope of population covered (for example, expansion of a system of records covering a single DLA’s enlisted personnel to include all of DLA enlisted personnel would be considered an alteration).
   d. A reduction in the number of individual covered is not an alteration, but only an amendment.
   e. All changes that add new categories of individuals to system coverage require a change to the “Categories of individuals covered by the system” caption of the notice and may require changes to the “Purpose(s)” caption.
   f. An expansion in the types or categories of information maintained.
      a. The addition of any new category of records not described under the “Categories of Records in System” caption is considered an alteration.
      b. Adding a new data element which is clearly within the scope of the categories of records described in the existing notice is an amendment.
      c. All changes under this criterion require a change to the “Categories of Records in System” caption of the notice.

3. An alteration in the manner in which the records are organized or the manner in which the records are indexed and retrieved.
   a. The change must alter the nature of use or scope of the records involved (for example, combining records systems in a reorganization).
   b. Any change under this criteria requires a change in the “Retrievability” caption of the system notice.

4. A change in the purpose for which the information in the system is used.
   a. The new purpose must not be compatible with the existing purposes for which the system is maintained or a use that would not reasonably be expected to be an alteration.
   b. If the use is compatible and reasonably expected, there is no change in purpose and no alteration occurs.
   c. Any change under this criterion requires a change in the “Authority for maintenance of the system” caption.

5. Changes that alter the computer environment (such as changes to equipment configuration, software, or procedures) so as to create the potential for greater or easier access.
   a. Increasing the number of offices with direct access is an alteration.
   b. Software releases, such as operating systems and system utilities that provide for easier access are considered alterations.
   c. The addition of an on-line capability to a previously batch-oriented system is an alteration.
   d. The addition of peripheral devices such as tape devices, disk devices, card readers, printers, and similar devices to an existing ADP system constitute an amendment if system security is preserved.
   e. Changes to existing equipment configuration with on-line capability need not be considered alterations to the system if:
      1) The change does not alter the present security posture.
      2) The addition of terminals does not extend the capacity of the current operating system and existing security is preserved.
      3) The connecting of two or more independently automated systems or networks together creating a potential for greater access is an alteration.
   f. Any change under this caption requires a change to the “Storage” caption element of the systems notice.
Appendix C to Part 323—Instructions for Preparation of Reports to New or Altered Systems

The report on a new or altered system will consist of a transmittal letter, a narrative statement, and include supporting documentation.

A. Transmittal Letter. The transmittal letter shall include any request for waivers. The narrative statement will be attached.

B. Narrative Statement. The narrative statement is typed in double space on standard bond paper. The statement includes:

1. System identification and name. This caption sets forth the identification and name of the system.

2. Responsible official. The name, title, address, and telephone number of the official responsible for the report and to whom inquiries and comments about the report may be directed by Congress, the Office of Management and Budget, or Defense Privacy Office.

3. Purpose of the system or nature of the change proposed. Describe the purpose of the new system. For an altered system, describe the nature of the change being proposed.

4. Authority for the system. See enclosure 1 of this part.

5. Number of individuals. The approximate number of individuals about whom records are to be maintained.

6. Information on First Amendment activities. Describe any information to be kept on the exercise of the individual’s First Amendment rights and the basis for maintaining it.

7. Measures to ensure information accuracy. If the system is to be used to make determinations about the rights, benefits, or entitlements of individuals, describe the measures being established to ensure the accuracy, currency, relevance, and completeness of the information used for these purposes.

8. Other measures to ensure system security. Describe the steps taken to minimize the risk of unauthorized access to the system. A more detailed assessment of security risks and specific administrative, technical, and physical safeguards will be available for review upon request.

9. Relationship to state and local government activities. Describe the relationship of the system to state or local government activities that are the sources, recipients, or users of the information in the system.

C. Supporting Documentation. Item 10 of the narrative is captioned Supporting Documents. A positive statement for this caption is essential for those enclosures that are not required to be enclosed. For example, “No changes to the existing DLA procedural or exemption rules (32 CFR part 325) are required for this proposed system.” List in numerical sequence only those enclosures that are actually furnished. The following are typical enclosures that may be required:

C. Reports of new and altered systems. Submit a report of a new or altered system to DLA Support Services (DSS–CA) before collecting information and for using a new system or altering an existing system.

D. Time restrictions on the operation of a new or altered system. 1. All time periods begin from the date OSD signs the transmittal letters on the reports to OMB and Congress. The specific time limits are:

a. Sixty days must elapse before collection forms or formal instructions pertaining to the system may be issued.

b. Sixty days must elapse before the system may become operational.

c. Sixty days must elapse before any public issuance of a Request for Proposal or Invitation to Bid for a new ADP or telecommunication system.

NOTE: Requests for delegation of procurement authority may be submitted to the General Services Administration during the 60 days’ waiting period, but these will include language that the Privacy Act reporting criteria have been reviewed and that a system report is required for such procurement.

d. Normally 30 days must elapse before publication in the Federal Register of the notice of a new or altered system and the preamble to the Federal Register notice must reflect the date the transmittal letters to OMB and Congress were signed by OSD.

2. Do not operate a system of records until the waiting periods have expired.

E. Outside review of new and altered systems reports. If no objections are received within 30 days of a submission to the President of the Senate, Speaker of the House of Representatives, and the Director, OMB, of a new or altered system report, it is presumed that the new or altered systems have been approved as submitted.

F. Waiver of time restrictions. 1. The OMB may authorize a Federal agency to begin operation of a system of records before the expiration of time limits described above. When seeking such a waiver, include in the letter of transmittal to DLA Support Services (CA) an explanation why a delay of 60 days in establishing the system of records would not be in the public interest. The transmittal must include:

a. How the public interest will be affected adversely if the established time limits are followed.

b. Why earlier notice was not provided.

2. Under no circumstances will the routine use for a new or altered system be implemented before 30 days have elapsed after publication of the system notice containing the routine uses in the Federal Register. This period cannot be waived.

Pt. 323, App. D

1. For a new system, an advance copy of the system notice which is proposed for publication; for an altered system an advance copy of the notice reflecting the specific changes proposed.

2. An advance copy of any proposed exemption rule if the new or altered system is to be exempted. If there is no exemption, so state in the narrative.

3. Any other supporting documentation that may be pertinent or helpful in understanding the need for the system or clarifying its intended use. While not required, such documentation, when available, is helpful in evaluating the new or altered system.

APPENDIX D TO PART 323—WORD PROCESSING CENTER (WPC) SAFEGUARDS

A. Minimum Standards of Protection. All personal data processed using word processing equipment will be afforded the standards of protection required by this regulation. The special considerations discussed in this section are primarily for Word Processing Centers (WPCs) operating independent of the customer’s function. However, managers of word processing systems are encouraged to consider and adopt, when appropriate, the special considerations described. WPCs that are not independent of a customer’s function are not required to prepare formal written risk assessments.

B. WPC Information Flow. In analyzing procedures required to safeguard adequately personal information in a WPC, the basic elements of WPC information flow and control must be considered. These are: Information receipt, information processing, information return, information storage and filing. WPCs do not control information acquisition or its ultimate use by the customers and, therefore, these are not addressed.

C. Safeguarding Information During Receipt. 1. The word processing manager will establish procedures:
   a. That require each customer who requests information subject to this DLAR to be processed to identify specifically that information to the WPC personnel. This may be done by:
      (1) Providing a check-off type entry on the WPC work requests.
      (2) Requiring that the WPC work requests be stamped with a special legend, or that a special notation be made on the work requests.
      (3) Predesignating specifically a class of documents as coming within the provisions of this DLAR (such as, all officer effectiveness reports, all recall rosters, and all medical protocols).
   b. Any other supporting documentation, when available, is helpful.
   c. To ensure that the operators or other WPC personnel who receive data for processing not identified as being under the provisions of this DLAR, but that appear to be personal, promptly call the information to the attention of the WPC supervisor or the customer.
   d. To ensure that any request for processing of personal data which the customer has not identified as being in a system of record, and that appears to meet the criteria set forth in this regulation, is called to the attention of the appropriate supervisory personnel and system manager.

2. The WPC supervisor will ensure that personal information is not inadvertently compromised within the WPC.

D. Safeguarding Information During Processing. 1. Each WPC supervisor will establish internal safeguards that will protect personal data subject to this DLAR is to be processed.
   a. To ensure the information process personal data subject to this DLAR is to be processed.
   b. Processes are not required to prepare formal written risk assessments.

2. The WPC supervisor will ensure that personal information is not inadvertently compromised within the WPC.

3. Other safeguards may include:
   a. Controls on individual access to the center.
   b. Machine configurations that reduce external access to the information being processed, or arrangements that alert the operator to the presence of others.
   c. Using specific machines to process personal data.
   d. Any other physical safeguards, to include special technical arrangements that will protect the data during processing.

E. Safeguarding Information During Return. The WPC shall protect the data until it is returned to the customer or is placed into a...
Office of the Secretary of Defense

formal distribution channel. In conjunction with the appropriate administrative support personnel and the WPC customers, the WPC manager will establish procedures that protect personal information from the time word processing is completed until it is returned to the customer. Safeguarding procedures may include:

1. Releasing products only to specifically identified individuals.
2. Using sealed envelopes to transmit products to the customer.
3. Using special cover sheets to protect products similar to the one discussed in above.
4. Hand-carrying products to the customers.
5. Using special messengers to return the products.
6. Any other procedures that adequately protect products from compromise while they are awaiting return or being returned to the customer.

F. Safeguards During Storage. The WPC manager shall ensure that all personal data retained in the center for any purpose (including samples) are protected properly. Safeguarding procedures may include:

1. Marking will hard copies retained with special legends or designators.
2. Storing media containing personal data in separate files or areas.
3. Marking the storage containers for media containing personal data with special legends or notations.
4. Restricting the reuse of media used to process personal data or erasing the media before reuse.
5. Establishing special criteria for the WPC retention of media used to store and process personal data.
6. Returning the media to the customer for retention with the file copies of the finished products.
7. Discouraging, when practical, the long-term storage of personal data in any form within the WPC.
8. Any other filing or storage procedures that safeguard adequately any personal information retained or filed within the WPC.

G. Risk Assessment for WPCs. Each WPC manager will ensure that a formal, written risk assessment is prepared for each WPC program performed by any other Federal or nonfederal individual. The assessment will address the areas discussed in this enclosure, as well as any special risks that the WPC location, configuration, or organization may present to the compromise or alteration of personal data being processed or stored.

A risk assessment will be conducted at least every 5 years or whenever there is a change of equipment, equipment configuration, WPC location, WPC configuration or modification of the WPC facilities that either increases or decreases the likelihood or compromise of personal data.

3. Copies of the risk assessment will be retained by the WPC manager and made available to appropriate inspectors, as well as to personnel studying equipment for facility upgrading of personal data.

H. Special Considerations in WPC Design and Modification. Procedures will be established to ensure that all personnel involved in the design of WPCs or the acquisition of word processing equipment are aware of the special considerations required when processing personal data subject to this DLAR.

APPENDIX E TO PART 323—OMB GUIDELINES FOR MATCHING PROGRAMS

A. Purpose. These guidelines supplement and will be used in conjunction with OMB Guidelines on the Administration of the Privacy Act of 1974, issued on July 1, 1975, and supplemented on November 21, 1975. They replace earlier guidance on conducting computerized matching programs issued on March 30, 1979. They are intended to help agencies relate the procedural requirements of the Privacy Act to the operational requirements of computerized matching. They are designed to address the concern expressed by the Congress in the Privacy Act of 1974 that "the increasing use of computers and sophisticated information technology, while essential to the efficient operation of the Government, has greatly magnified the harm to individual privacy that can occur from any collection, maintenance, use, or dissemination of personal information." These guidelines do not authorize activities that are not permitted by law, nor do they prohibit activities expressly required to be performed by law. Complying with these guidelines, however, does not relieve a Federal agency of the obligation to comply with the provisions of the Privacy Act, including any provisions not cited in these guidelines.

B. Scope. These guidelines apply to all agencies subject to the Privacy Act of 1974 (5 U.S.C. 552a) and to all matching programs:
1. Performed by a Federal agency, whether the personal records used in the match are Federal or nonfederal.
2. For which a Federal agency discloses any personal records for use in a matching program performed by any other Federal agency or any nonfederal organization.

C. Effective Date. These guidelines were effective on May 11, 1982.

D. Definitions. For the purpose of the Guidelines, all the terms defined in the Privacy Act of 1974 apply:
1. Personal Record. Any information pertaining to an individual that is stored in an automated system of records; for example, a data base which contains information about individuals that is retrieved by name or some other personal identifier.
2. Matching Program. A procedure in which a computer is used to compare two or more
automated systems of records or a system of records with a set of nonfederal records to find individuals who are common to more than one system or set. The procedure includes all of the steps associated with the match, including obtaining the records to be matched, actual use of the computer, administrative and investigative action on the hits, and disposition of the personal records maintained in connection with the match. It should be noted that a single matching program may involve several matches among a number of participants. Watching programs do not include the following:

a. Matches which compare a substantial number of records, such as, comparison of the Department of Education’s defaulted student loan data base with the Office of Personnel Management’s Federal employee data base would be covered; comparison of six individual student loan defaultees with the OPM file would not be covered.

b. Checks on specific individuals to verify data in an application for benefits done reasonably soon after the application is received.

c. Checks on specific individuals based on information which raises questions about an individual’s eligibility for benefits or payments done reasonably soon after the information is received.

d. Matches done to produce aggregate statistical data without any personal identifiers.

e. Matches done to support any research or statistical project when the specific data are not to be used to make decisions about the rights, benefits, or privileges of specific individuals.

f. Matches done by an agency using its own records.

4. Source Agency. The Federal agency which discloses records from a system of records to be used in the match. Note that in some circumstances a source agency may be the instigator and ultimate beneficiary of the matching program, as when an agency lacking computer resources uses another agency to perform the match. The disclosure of records to the matching agency and any later disclosure of “hits” (by either the matching or the source agencies) must be done in accordance with the provisions of paragraph (b) of the Privacy Act.

5. Hit. The identification, through a matching program, of a specific individual.

E. Guidelines for Agencies Participating in Matching Programs. Agencies should acquire and disclose matching records and conduct matching programs in accordance with the provisions of this section and the Privacy Act.

1. Disclosing Personal Records for Matching Programs—

a. To another Federal agency. Source agencies are responsible for determining whether or not to disclose personal records from their systems and for making sure they meet the necessary Privacy Act disclosure provisions when they do. Among the factors source agencies should consider are:

1. Legal authority for the match.

2. Purpose and description of the match.

3. Description of the records to be matched.

4. Whether the record subjects have consented to the match; or whether disclosure of records for the match would be compatible with the purpose for which the records were originally collected; that is, whether disclosure under a “routine use” would be appropriate; whether the soliciting agency is seeking the records for a legitimate law enforcement activity—whichever is appropriate; or any other provision of the Privacy Act under which disclosure may be made.

5. Description of additional information which may be subsequently disclosed in relation to “hits.”

6. Subsequent actions expected of the source (for example, verification of the identity of the “hits” or followup with individuals who are “hits”).

7. Safeguards to be afforded the records involved, including disposition.

b. If the agency is satisfied that disclosure of the records would not violate its responsibilities under the Privacy Act, it may proceed to make the disclosure to the matching agency. It should ensure that only the minimum information necessary to conduct the match is provided. If disclosure is to be made pursuant to a “routine use” (Section b.3. of the Privacy Act), it should ensure that the system of records contains such a use, or it should publish a routine use notice in the FEDERAL REGISTER. The agency should also be sure to maintain an accounting of the disclosure pursuant to Section (c) of the Privacy Act.

c. To a nonfederal entity. Before disclosing records to a nonfederal entity for a matching program to be carried out by that entity, a source agency should, in addition to all of the consideration in subparagraph a, above, also make reasonable efforts, pursuant to Section (e)(8) of the Privacy Act, to “assure that such records are accurate, complete, timely, and relevant for agency purposes.”

2. Written Agreements. Before disclosing to either a Federal or non-Federal entity, the source agency should require the matching entity to agree in writing to certain conditions governing the use of the matching file; for example, that the matching file will remain the property of the source agency and be returned at the end of the matching program (or destroyed as appropriate); that the file will be used and accessed only to match the file or files previously agreed to; that it
Office of the Secretary of Defense

will not be used to extract information concerning “non-hit” individuals for any purpose, and that it will not be duplicated or disseminated within or outside the matching agency unless authorized in writing by the source agency.

3. Performing Matching Programs—
a. Matching agencies should maintain reasonable administrative, technical, and physical security safeguards on all files involved in the matching program.
b. Matching agencies should ensure that they have appropriate systems of records including those containing “hits,” and that such systems and any routine uses have been appropriately notices in the FEDERAL REGISTER and reported to OMB and the Congress.

4. Disposition of Records—
a. Matching agencies will return or destroy source matching files (by mutual agreement) immediately after the match.
b. Records relating to this will be kept only so long as an investigation, either criminal or administrative, is active, and will be disposed of in accordance with the requirements of the Privacy Act and the Federal Records Act.

5. Publication Requirements—
a. Agencies, before disclosing records outside the agency, will publish appropriate “routine use” notices in the FEDERAL REGISTER if necessary.
b. If the matching program will result in the creation of a new or the substantial alteration of an existing system of records, the agency involved should publish the appropriate FEDERAL REGISTER notice and submit the requisite report to OMB and the Congress pursuant to OMB Circular No. A-108.

6. Reporting Requirements—
a. As close to the initiation of the matching program as possible, matching agencies will publish in the FEDERAL REGISTER a brief public notice describing the matching program. The notice should include:
   1. The legal authority under which the match is being conducted.
   2. A description of the matching program including whether the program is one time or continuing, the organizations involved, the purpose or purposes for which the program is being conducted, and the procedures to be used in matching and following up on the “hits.”
   3. A complete description of the personal records to be matched, including the source or sources, system of records identifying data, date or dates and page number of the most recent FEDERAL REGISTER full text publication when appropriate.
   4. The projected start and ending dates of the program.
   5. The security safeguards to be used to protect against unauthorized access or disclosure of the personal records.
   6. Plans for disposition of the source records and “hits.”

7. Agencies should send a copy of this notice to the Congress and to OMB at the same time it is sent to the FEDERAL REGISTER.
   a. Agencies should report new or altered systems of records as described in subparagraph 5b, above, as necessary.
b. Agencies should also be prepared to report on matching programs pursuant to the reporting requirements of either the Privacy Act or the Paperwork Reduction Act. Reports will be solicited by the Office of Information and Regulatory Affairs and will focus on both the protection of individual privacy and Government’s effective use of information technology. Reporting instructions will be disseminated to the agencies as part of either the reports required by paragraph (p) of the Privacy Act, or section 3514 of Pub. L. 96–511.

8. Use of Contractors. Matching programs should, as far as practicable, be conducted “in-house” by Federal agencies using agency personnel, rather than by contract. When contractors are used:
   a. The matching agency should, consistent with paragraph (m) of the Privacy Act, cause the requirements of that Privacy Act to be applied to the contractor’s performance of the matching program. The contract should include the Privacy Act clause required by Federal Personnel Regulation Amendment 156 (41 CFR 1–337–8).
b. The terms of the contract should include appropriate privacy and security provisions consistent with policies, regulations, standards, and guidelines issued by OMB, GSA, and the Department of Commerce.
   c. The terms of the contract should preclude the contractor from using, disclosing, copying, or retaining records associated with the matching program for the contractor’s own use.
d. Contractor personnel involved in the matching program shall be made explicitly aware of their obligations under the Privacy Act and of these guidelines, agency rules, and any special safeguards in relation to each specific match performed.
   e. Any disclosures of records by the agency to the contractor should be made pursuant to a “routine use” (5 U.S.C. 552a(b)(3)).

F. Implementation and Oversight. OMB will oversee the implementation of these guidelines and will interpret and advise upon agency proposals and actions within their scope, consistent with section 6 of the Privacy Act.

Any official or employee may be found guilty of a misdemeanor and fined not more than $5,000 if he or she willfully discloses personal information to anyone not entitled to receive the information, or maintains a system of records without publishing the required public notice in the FEDERAL REGISTER.
   2. A person who requests or obtains access to any record concerning another individual under false pretenses may be found guilty of a misdemeanor and fined up to $5,000.

APPENDIX H TO PART 323—DLA
EXEMPTION RULES

Exempted Records Systems. All systems of records maintained by the Defense Logistics Agency will be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a(k)(1) to the extent that the system contains any information properly classified under Executive Order 12958 and which is required by the Executive Order to be kept secret in the interest of national defense or foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary because certain record systems not otherwise specifically designated for exemptions herein may contain isolated items of information which have been properly classified.

a. ID: S500.10 DLA-I (Specific exemption).
   2. Exemption: This system of records is exempted from the following provisions of title 5, United States Code, section 552a: (c)(3); (d); and (e)(1).
   4. Reasons: The investigatory reports are used by appropriate Security Officers and Commanders or other designated officials as a basis for determining a person’s eligibility for access to information classified in the interests of national defense.

b. ID: S500.20 DLA-I (Specific exemption).
   2. Exemption: This system of records is exempted from the following provisions of the Privacy Act (specify).
   4. Reasons: Granting individuals access to information collected and maintained by this component relating to the enforcement of criminal laws could interfere with orderly investigations, with the orderly administration of justice, and possibly enable suspects to avoid detection or apprehension. Disclosure of this information could result in the concealment, destruction or fabrication of evidence and jeopardize the safety and well being of informants, witnesses and their families, and law enforcement personnel and their families. Disclosure of this information could also reveal and render ineffectual investigative techniques, sources and methods used by this component and could result in the invasion of privacy of individuals only incidentally related to an investigation. Investigatory material is exempt to the extent that the disclosure of such material would reveal the identity of a source who furnished the information to the Government under an express promise that the identity of the source would be held in confidence, or prior to September 27, 1975 under an implied promise that the identity of the source would be held in confidence. This exemption will protect the identities of certain sources who would be otherwise unwilling to provide information to the Government. The exemption of the individual’s right of access to his records and the reasons therefore necessitate the exemptions of this system of records.

²Indicate the nature of the case, such as “Denial of access,” “Refusal to amend,” “Incorrect records,” or other violations of the Act (specify).
Office of the Secretary of Defense
Pt. 323, App. H

from the requirements of the other cited provisions.

c. ID: S100.50 DLA–GC (Specific exemption).
1. System name: Fraud and Irregularities.
2. Exemption: This system of records is exempt from the provisions of 5 U.S.C. 552a(c)(3), (d)(1) through (4), (e)(1), (e)(4)(G), (H), and (I), and (f).
3. Authorities: 5 U.S.C. 552a(k)(2) and (k)(5).
4. Reasons: From subsection (c)(3) because granting access to the accounting for each disclosure as required by the Privacy Act, including the date, nature, and purpose of each disclosure and the identity of the recipient, could alert the subject to the existence of the investigation or prosecutive interest by DLA or other agencies. This could seriously compromise case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses or make witnesses reluctant to cooperate; and lead to suppression, alteration, or destruction of evidence.

From subsections (d)(1) through (d)(4) and (f) because providing access to records of a civil investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

From subsections (e)(4)(G) and (H) because there is no necessity for such publication since the system of records will be exempt from the underlying duties to provide notification about and access to information in the system and to make amendments to and corrections of the information in the system. From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. DLA will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

d. ID: S100.10 GC (Specific exemption).
1. System name: Whistleblower Complaint and Investigation Files.
2. Exemption: Portions of this system of records may be exempt under the provisions of 5 U.S.C. 552a(c)(3), (d)(1) through (d)(4), (e)(1), (e)(4)(G), (e)(4)(H), and (e)(4)(I), and (f).
4. Reasons: From subsection (c)(3) because granting access to the accounting for each disclosure as required by the Privacy Act, including the date, nature, and purpose of each disclosure and the identity of the recipient, could alert the subject to the existence of the investigation or prosecutive interest by DLA or other agencies. This could seriously compromise case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses or make witnesses reluctant to cooperate; and lead to suppression, alteration, or destruction of evidence.

From subsections (d)(1) through (d)(4), and (f) because providing access to records of a civil investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

From subsection (e)(1), because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

From subsections (e)(4)(G) and (e)(4)(H) because there is no necessity for such publication since the system of records will be exempt from the underlying duties to provide notification about and access to information in the system and to make amendments to and corrections of the information in the system. However, DLA will continue to publish such a notice in broad generic terms as is its current practice.
broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and the physical safety of witnesses and informants. DLA will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

e. ID: S500.60 CA (Specific exemption).

1. System name: DLA Complaint Program Records.

2. Exemption: (i) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of the information, the individual will be provided access to the information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

3. Authority: 5 U.S.C. 552a(k)(2) and (k)(5), subsections (c)(3), (d)(1) through (d)(4), (e)(1), (e)(4)(G), (H), and (I), and (f).

4. Reasons: (i) From subsection (c)(3) because to grant access to an accounting of disclosures as required by the Privacy Act, including the date, nature, and purpose of each disclosure and the identity of the recipient, could alert the subject to the existence of the investigation or prosecutive interest by DLA or other agencies. This could seriously compromise case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses or make witnesses reluctant to cooperate; and lead to suppression, alteration, or destruction of evidence.

(ii) From subsections (d)(1) through (d)(4), and (f) because providing access to records of a civil or administrative investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; enable individuals to conceal their wrongdoing or mislead the course of the investigation; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or processing.

(iii) From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

(iv) From subsections (e)(4)(G) and (H) because this system of records is compiled for law enforcement purposes and is exempt from the access provisions of subsections (d) and (f).

(v) From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. DLA will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

f. ID: S500.39 CAAS (Specific exemption).

1. System name: Incident Investigation/Police Inquiry Files.

2. Exemption: (i) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of the information, the individual will be provided access to the information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

3. Authority: 5 U.S.C. 552a(k)(2) and (k)(5), subsections (c)(3), (d)(1) through (d)(4), (e)(1), (e)(4)(G), (H), and (I), and (f).

4. Reasons: (i) From subsection (c)(3) because to grant access to the accounting for each disclosure as required by the Privacy Act, including the date, nature, and purpose of each disclosure and the identity of the recipient, could alert the subject to the existence of the investigation or prosecutive interest by DLA or other agencies. This could seriously compromise case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses
or make witnesses reluctant to cooperate; and lead to suppression, alteration, or destruction of evidence.

(ii) From subsections (d)(1) through (d)(4), and (f) because providing access to records of a civil or administrative investigation and the right to contest the contents of those records and force changes to be made to the course of the investigation and impair case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; enable individuals to conceal their wrongdoing or mislead the course of the investigation; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

(iv) From subsections (e)(4)(G) and (H) because this system of records is compiled for law enforcement purposes and is exempt from the access provisions of subsections (d) and (f).

(v) From subsection (e)(4)(J) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. DLA will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

(4) Prepares denials and partial denials for signature by the Director, FSO and obtains required coordination with the assistant General Counsel. Responses will include written justification citing a specific exemption or exemptions.

(5) Prepares input for the annual Privacy Act Report (RCS: DD DA&M(A)379) as required using the
§ 324.4

(6) Conducts training on the DFAS Privacy Act Program for FSO personnel.

(j) DFAS employees. (1) Will not disclose any personal information contained in any system of records, except as authorized by this regulation.

(2) Will not maintain any official files which are retrieved by name or other personal identifier without first ensuring that a system notice has been published in the FEDERAL REGISTER.

(k) DFAS system managers (SM). (1) Ensures adequate safeguards have been established and are enforced to prevent the misuse, unauthorized disclosure, alteration, or destruction of personal information contained in system records.

(2) Ensures that all personnel who have access to the system of records or are engaged in developing or supervising procedures for handling records are totally aware of their responsibilities to protect personal information in system records.

(l) DFAS program manager(s). Reviews system alterations or amendments to evaluate for relevancy and necessity. Reviews will be conducted annually and reports prepared outlining the results and corrective actions taken to resolve problems. Reports will be forwarded to the appropriate Privacy Act Officer.

(m) Federal government contractors. When a DFAS organizational element contracts to accomplish an agency function and performance of the contract requires the operation of a system of records or a portion thereof, DoD 5400.11-R, ‘Department of Defense Privacy Program’ (see 32 CFR part 310) and this part apply. For purposes of criminal penalties, the contractor and its employees shall be considered employees of DFAS during the performance of the contract.

(1) Contracting involving operation of systems of records. Consistent with Federal Acquisition Regulation (FAR) and the DoD Supplement to the Federal Acquisition Regulation (DFAR), Part 224.1, contracts involving the operation of a system of records or portion thereof shall specifically identify the record system, the work to be performed and shall include in the solicitations and resulting contract such terms specifically prescribed by the FAR and DFAR.

(2) Contracting. For contracting subject to this part, the Agency shall:

(i) Informs prospective contractors of their responsibilities under the DFAS Privacy Act Program.

(ii) Establishes an internal system for reviewing contractor performance to ensure compliance with the DFAS Privacy Act Program.

(3) Exceptions. This rule does not apply to contractor records that are:

(i) Established and maintained solely to assist the contractor in making internal contractor management decisions, such as records maintained by

the contractor for use in managing the contract.

(ii) Maintained as internal contractor employee records, even when used in conjunction with providing goods or services to the agency.

(4) Contracting procedures. The Defense Acquisition Regulatory Council is responsible for developing the specific policies and procedures for soliciting, awarding, and administering contracts.

(5) Disclosing records to contractors. Disclosing records to a contractor for use in performing a DFAS contract is considered a disclosure within DFAS. The contractor is considered the agent of DFAS when receiving and maintaining the records for the agency.

Subpart B—Systems of Records

§ 324.5 General information.

(a) The provisions of DoD 5400.11-R, ‘Department of Defense Privacy Program’ (see 32 CFR part 310) apply to all DFAS systems of records. DFAS Privacy Act Program Procedural Rules, DFAS Exemption Rules and System of Record Notices are the three types of documents relating to the Privacy Act Program that must be published in the Federal Register.

(b) A system of records used to retrieve records by a name or some other personal identifier of an individual must be under DFAS control for consideration under this regulation. DFAS will maintain only those Systems of Records that have been described through notices published in the Federal Register.

(1) First amendment guarantee. No records will be maintained that describe how individuals exercise their rights guaranteed by the First Amendment unless maintenance of the record is expressly authorized by Statute, the individual or for an authorized law enforcement purpose.

(2) Conflicts. In case of conflict, the provisions of DoD 5400.11-R take precedence over this supplement or any DFAS directive or procedure concerning the collection, maintenance, use or disclosure of information from individual records.

(3) Record system notices. Record system notices are published in the Federal Register as notices and are not subject to the rule making procedures. The public must be given 30 days to comment on any proposed routine uses prior to implementing the system of record.

(4) Amendments. Amendments to system notices are submitted in the same manner as the original notices.

§ 324.6 Procedural rules.

DFAS procedural rules (regulations having a substantial and direct impact on the public) must be published in the Federal Register first as a proposed rule to allow for public comment and then as a final rule. Procedural rules will be submitted through the appropriate DFAS Privacy Act Officer to the Department of Defense Privacy Office. Appendix B to this part provides the correct format. Guidance may be obtained from the DFAS-HQ and DFAS Center Records Managers on the preparation of procedural rules for publication.

§ 324.7 Exemption rules.

(a) Submitting proposed exemption rules. Each proposed exemption rule submitted for publication in the Federal Register must contain: The agency identification and name of the record system for which an exemption will be established; The subsection(s) of the Privacy Act which grants the agency authority to claim an exemption for the system; The particular subsection(s) of the Privacy Act from which the system will be exempt; and the reasons why an exemption from the particular subsection identified in the preceding subparagraph is being claimed. No exemption to all provisions of the Privacy Act for any System of records will be granted. Only the Director, DFAS may make a determination that an exemption should be established for a system of record.

(b) Submitting exemption rules for publication. Exemption rules must be published in the Federal Register first as proposed rules to allow for public comment, then as final rules. No system of records shall be exempt from any provision of the Privacy Act until the exemption rule has been published in the Federal Register as a final rule. The DFAS Privacy Act Officer will submit
§ 324.8 Right of access.

The provisions of DoD 5400.11-R, ‘Department of Defense Privacy Program’ (see 32 CFR part 310) apply to all DFAS personnel about whom records are maintained in systems of records. All information that can be released consistent with applicable laws and regulations should be made available to the subject of record.

§ 324.9 Notification of record’s existence.

All DFAS Privacy Act Officers shall establish procedures for notifying an individual, in response to a request, if the system of records contains a record pertaining to him/her.

§ 324.10 Individual requests for access.

Individuals shall address requests for access to records to the appropriate Privacy Act Officer by mail or in person. Requests for access should be acknowledged within 10 working days after receipt and provided access within 30 working days. Every effort will be made to provide access rapidly; however, records cannot usually be made available for review on the day of request. Requests must provide information needed to locate and identify the record, such as individual identifiers required by a particular system, to include the requester’s full name and social security number.

§ 324.11 Denials.

Only a designated denial authority may deny access. The denial must be in writing.

§ 324.12 Granting individual access to records.

(a) The individual should be granted access to the original record (or exact copy) without any changes or deletions. A record that has been amended is considered the original.

(b) The DFAS component that maintains control of the records will provide an area where the records can be reviewed. The hours for review will be set by each DFAS location.

(c) The custodian will require presentation of identification prior to providing access to records. Acceptable identification forms include military or government civilian identification cards, driver’s license, or other similar photo identification documents.

(d) Individuals may be accompanied by a person of their own choosing when reviewing the record; however, the custodian will not discuss the record in the presence of the third person without written authorization.

(e) On request, copies of the record will be provided at a cost of $.15 per page. Fees will not be assessed if the cost is less than $30.00. Individuals requesting copies of their official personnel records are entitled to one free copy and then a charge will be assessed for additional copies.

§ 324.13 Access to medical and psychological records.

Individual access to medical and psychological records should be provided, even if the individual is a minor, unless
Office of the Secretary of Defense

It is determined that access could have an adverse effect on the mental or physical health of the individual. In this instance, the individual will be asked to provide the name of a personal physician, and the record will be provided to that physician in accordance with guidance in Department of Defense 5400.11-R, ‘Department of Defense Privacy Program’ (see 32 CFR part 310).

§324.14 Relationship between the Privacy Act and the Freedom of Information Act.

Access requests that specifically state or reasonably imply that they are made under FOIA, are processed pursuant to the DFAS Freedom of Information Act Regulation. Access requests that specifically state or reasonably imply that they are made under the PA are processed pursuant to this regulation. Access requests that cite both the FOIA and the PA are processed under the Act that provides the greater degree of access. Individual access should not be denied to records otherwise releasable under the PA or the FOIA solely because the request does not cite the appropriate statute. The requester should be informed which Act was used in granting or denying access.

APPENDIX A TO PART 324—DFAS REPORTING REQUIREMENTS

By February 1, of each calendar year, DFAS Centers and Financial Systems Organizations will provide the DFAS Headquarters Privacy Act Officer with the following information:

   a. Number granted in whole:
   b. Number granted in part:
   c. Number wholly denied:

2. Total Number of Requests to Amend Records in the System:
   a. Number granted in whole:
   b. Number granted in part:
   c. Number wholly denied:

3. The results of reviews undertaken in response to paragraph 3a of Appendix I to OMB Circular A-130.\(^4\)

APPENDIX B TO PART 324—SYSTEM OF RECORDS NOTICE

The following data captions are required for each system of records notice published in the Federal Register. An explanation for each caption is provided:

1. **System identifier.** The system identifier must appear in all system notices. It is limited to 21 positions, including agency code, file number, symbols, punctuation, and spaces.

   - **Security classification.** Self explanatory. (DoD does not publish this caption. However, each agency is responsible for maintaining the information.)

2. **System name.** The system name must indicate the general nature of the system of records and, if possible, the general category of individuals to whom it pertains. Acronyms should be established parenthetically following the first use of the name (e.g., ‘Field Audit Office Management Information System (FMIS)'). Acronyms shall not be used unless preceded by such an explanation. The system name may not exceed 55 character positions, including punctuation and spaces.

3. **System location.** a. For a system maintained in a single location, provide the exact office name, organizational identity, routing symbol, and full mailing address. Do not use acronyms in the location address.

   b. For a geographically or organizationally decentralized system, describe each level of organization or element that maintains a portion of the system of records.

   - For an automated data system with a central computer facility and input or output terminals at geographically separate locations, list each location by category.

   d. If multiple locations are identified by type of organization, the system location may indicate that official mailing addresses are published as an appendix to the agency’s compilation of systems of records notices in the Federal Register. If no address directory is used, or if the addresses in the directory are incomplete, the address of each location where a portion of the record system is maintained must appear under the ‘system location’ caption.

   e. Classified addresses shall not be listed but the fact that they are classified shall be indicated.

   f. The U.S. Postal Service two-letter state abbreviation and the nine-digit zip code shall be used for all domestic addresses.

4. **Categories of individuals covered by the system.** Use clear, non technical terms which show the specific categories of individuals to whom records in the system pertain. Broad descriptions such as ‘all DFAS personnel’ or ‘all employees’ should be avoided unless the...
term actually reflects the category of individuals involved.

7. Categories of records in the system. Use clear, non technical terms to describe the types of records maintained in the system. The description of documents should be limited to those actually retained in the system of records. Source documents used only to collect data and then destroyed should not be described.

8. Authority for maintenance of the system. The system of records must be authorized by a Federal law or Executive Order of the President, and the specific provision must be cited. When citing federal laws, include the popular names (e.g., ‘5 U.S.C. 552a. The Privacy Act of 1974’) and for Executive Orders, the official titles (e.g., ‘Executive Order 9397. Numbering System for Federal Accounts Relating to Individual Persons’).

9. Purpose(s). The specific purpose(s) for which the system of records was created and maintained; that is, the uses of the records within DFAS and the rest of the Department of Defense should be listed.

10. Routine uses of records maintained in the system, including categories of users and purposes of the uses. All disclosures of the records outside DoD, including the recipient of the disclosed information and the uses the recipient will make of it should be listed. If possible, the specific activity or element to which the record may be disclosed (e.g., ‘to the Department of Veterans Affairs, Office of Disability Benefits’) should be listed. General statements such as ‘to other Federal Agencies as required’ or ‘to any other appropriate Federal Agency’ should not be used. The blanket routine uses, published at the beginning of the agency’s compilation, apply to all system notices, unless the individual system notice states otherwise.

11. Disclosure to consumer reporting agencies. This entry is optional for certain debt collection systems of records.

12. Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system. This section is divided into four parts.

13. Storage. The method(s) used to store the information in the system (e.g., ‘automated, maintained in computers and computer output products’ or ‘manual, maintained in paper files’ or ‘hybrid, maintained in paper files and in computers’) should be stated. Storage does not refer to the container or facility in which the records are kept.

14. Retrievalability. How records are retrieved from the system (e.g., ‘by name,’ ‘by SSN,’ or ‘by name and SSN’) should be indicated.

15. Safeguards. The categories of agency personnel who use the records and those responsible for protecting the records from unauthorized access should be stated. Generally the methods used to protect the records, such as safes, vaults, locked cabinets or rooms, guards, visitor registers, personnel screening, or computer ‘fail-safe’ systems software should be identified. Safeguards should not be described in such detail as to compromise system security.

16. Retention and disposition. Describe how long records are maintained. When appropriate, the length of time records are maintained by the agency in an active status, when they are transferred to a Federal Records Center, how long they are kept at the Federal Records Center, and when they are transferred to the National Archives or destroyed should be stated. If records eventually are destroyed, the method of destruction (e.g., shredding, burning, pulping, etc.) should be stated. If the agency rule is cited, the applicable disposition schedule shall also be identified.

17. System manager(s) and address. The title (not the name) and address of the official or officials responsible for managing the system of records should be listed. If the title of the specific official is unknown, such as with a local system, the local director or office head as the system manager should be indicated. For geographically separated or organizationally decentralized activities with which individuals may correspond directly when exercising their rights, the position or title of each category of officials responsible for the system or portion thereof should be listed. Addresses that already are listed in the agency address directory or simply refer to the directory should not be included.

18. Notification procedures. Notification procedures describe how an individual can determine if a record in the system pertains to him/her. If the record system has been exempted from the notification requirements of subsection (f)(1) or subsection (e)(4)(G) of the Privacy Act, it should be so stated. If the system has not been exempted, the notice must provide sufficient information to enable an individual to request notification of whether a record in the system pertains to him/her. Merely referring to a DFAS regulation is not sufficient. This section should also include the title (not the name) and address of the official (usually the Program Manager) to whom the request must be directed; any specific information the individual must provide in order for DFAS to respond to the request (e.g., name, SSN, date of birth, etc.); and any description of proof of identity for verification purposes required for personal visits by the requester.

19. Record access procedures. This section describes how an individual can review the record and obtain a copy of it. If the system has been exempted from access and publishing access procedures under subsections (d)(1) and (e)(4)(B), respectively, of the Privacy Act, it should be so indicated. If the system has not been exempted, describe the procedures an individual must follow in order to review the record and obtain a copy of it, including any requirements for identity verification.
Office of the Secretary of Defense

§ 326.3 Verification. If appropriate, the individual may be referred to the system manager or another DFAS official who shall provide a detailed description of the access procedures. Any addresses already listed in the address directory should not be repeated.

20. Contesting records procedures. This section describes how an individual may challenge the denial of access or the contents of a record that pertains to him or her. If the system of record has been exempted from allowing amendments to records or publishing amendment procedures under subsections (d)(1) and (e)(4)(H), respectively, of the Privacy Act, it should be so stated. If the system has not been exempted, this caption describes the procedures an individual must follow in order to challenge the content of a record pertaining to him/her, or explain how he/she can obtain a copy of the procedures (e.g., by contacting the Program Manager or the appropriate DFAS Privacy Act Officer).

21. Record source categories. If the system has been exempted from publishing record source categories under subsection (e)(4)(I) of the Privacy Act, it should be so stated. If the system has not been exempted, this caption must describe where DFAS obtained the information maintained in the system. Describing the record sources in general terms is sufficient; specific individuals, organizations, or institutions need not be identified.

22. Exemptions claimed for the system. If no exemption has been established for the system, indicate ‘None.’ If an exemption has been established, state under which provision of the Privacy Act it is established (e.g., ‘Portions of this system of records may be exempt under the provisions of 5 U.S.C. 552a(k)(2).’)

§ 326.1 Purpose.

This part implements the basic policies and procedures outlined in the Privacy Act of 1974, as amended (5 U.S.C. 552a), and 32 CFR part 310; and establishes the National Reconnaissance Office Privacy Program (NRO) by setting policies and procedures for the collection and disclosure of information maintained in records on individuals, the handling of requests for amendment or correction of such records, appeal and review of NRO decisions on these matters, and the application of exemptions.

§ 326.2 Application.

Obligations under this part apply to all employees detailed, attached, or assigned to or authorized to act as agents of the National Reconnaissance Office. The provisions of this part shall be made applicable by contract or other legally binding action to government contractors whenever a contract is let for the operation of a system of records or a portion of a system of records.

§ 326.3 Definitions.

Access. The review or copying of a record or its parts contained in a system of records by a requester.

Agency. Any executive or military department, other establishment, or entity included in the definition of agency in 5 U.S.C. 522(f).

Control. Ownership or authority of the NRO pursuant to federal statute or privilege to regulate official or public access to records.

Disclosure. The authorized transfer of any personal information from a system of records by any means of communication (such as oral, written, electronic, mechanical, or actual review) to any person, private entity, or government agency other than the subject of the record, the subject’s designated agent, or the subject’s legal guardian.
§ 326.4 Policy.

(a) Records about individuals—

(1) Collection. The NRO will safeguard the privacy of individuals identified in its records. Information about an individual will, to the greatest extent practicable, be collected directly from the individual, and personal information will be protected from unintentional or unauthorized disclosure by treating it as marked ‘For Official Use Only.’ Access to personal information will be restricted to those employees whose official duties require it during the regular course of business.

(i) Privacy Act Statement. When an individual is requested to furnish personal information about himself for inclusion in a system of records, a Privacy Act Statement is required to enable him to make an informed decision.

He, him, and himself. Generically used in this part to refer to both males and females.

Individual or requester. A living citizen of the U.S. or an alien lawfully admitted to the U.S. for permanent residence and to whom a record might pertain. The legal guardian or legally authorized agent of an individual has the same rights as the individual and may act on his behalf. No rights are vested in the representative of a dead person or in persons acting in an entrepreneurial (for example, sole proprietorship or partnership) capacity under this part.

Interested party. Any official in the executive (including military), legislative, or judicial branches of government, U.S. or foreign, or U.S. Government contractor who, in the sole discretion of the NRO, has a subject matter or physical interest in the documents or information at issue.

Maintain. To collect, use, store, disclose, retain, or disseminate when used in connection with records.

Originator. The NRO employee or contractor who created the document at issue or his successor in office or any official who has been delegated release or declassification authority pursuant to law.

Personal information. Information about any individual that is intimate or private to the individual, as distinguished from ‘corporate information’ which is in the public domain and related solely to the individual’s official functions or public life (i.e., employee’s name, job title, work phone, grade/rank, job location).

Privacy Act Coordinator. The NRO Information and Access Release Center Chief who serves as the NRO manager of the information review and release program instituted under the Privacy Act.

Record. Any item, collection, or grouping of information about an individual that is maintained by the NRO, including, but not limited to, the individual’s education, financial transactions, medical history, and criminal or employment history, and that contains the individual’s name or identifying number (such as Social Security or employee number), symbol, or other identifying particular assigned to the individual, such as fingerprint, voice print, or photograph. Records include data about individuals which is stored in computers.

Responsive record. Documents or records that the NRO has determined to be within the scope of a Privacy Act request.

Routine use. The disclosure of a record outside the Department of Defense (DoD) for a use that is compatible with the purpose for which the information was collected and maintained by NRO. Routine use encompasses not only common or ordinary use, but also all the proper and necessary uses of the record even if such uses occur infrequently. All routine uses must be published in the Federal Register.

System managers. Officials who have overall responsibility for a Privacy Act system of records.

System notice. The official public notice published in the Federal Register of the existence and general content of the system of records.

System of records. A group of any records under the control of the NRO from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to that individual.

Working days. Days when the NRO is operating and specifically excludes Saturdays, Sundays, and legal public holidays.
Office of the Secretary of Defense

§ 326.4

whether to provide the information requested. A Privacy Act Statement may appear, in order of preference, at the top or bottom of a form, on the reverse side of a form, or attached to the form as a tear-off sheet.

(ii) Social Security Numbers (SSNs). It is unlawful for any governmental agency to deny an individual any right, benefit, or privilege provided by law because the individual refuses to provide his SSN. However, if a federal statute requires that the SSN be furnished or if the SSN is required to verify the identity of an individual in a system of records that was established and in use before January 1, 1975, this restriction does not apply. When collecting the SSN, a ‘qualified’ Privacy Act Statement must be provided even if the SSN will not be maintained in a system of records. The ‘qualified’ Privacy Act Statement shall inform the individual whether the disclosure is mandatory or voluntary, by what statutory or other authority such number is solicited, and what uses will be made of it.

(2) Maintenance. The NRO will maintain in its records only such information about an individual which is accurate, relevant, timely, and necessary to accomplish a purpose which is required by statute or Executive Order. All records used by the NRO to make determinations about individuals will be maintained with such accuracy and completeness as is reasonably necessary to assure fairness to the individual.

(3) Existence. The applicability of the Privacy Act depends on the existence of an identifiable record. The procedures described in NRO regulations do not require that a record be created or that an individual be given access to records that are not retrieved by name or other individual identifier. Nor do these procedures entitle an individual to have access to any information compiled in reasonable anticipation of a civil action or proceeding. NRO will maintain only those systems of records that have been described through notices published in the Federal Register. A system of records from which records may be retrieved by a name or some other personal identifier must be under NRO control for consideration under this part.

(4) Disposal. The NRO will archive, dispose of, or destroy records containing personal data in a manner to prevent specific records from being readily identified or inadvertently compromised.

(b) Evaluation of records. Statutory authority to establish and maintain a system of records does not grant unlimited authority to collect and maintain all information which may be useful or convenient. Directorates and offices maintaining records will evaluate each category of information in records systems for necessity and relevance prior to republication of all system notices in the Federal Register and during the design phase or change of a system of records. The following will be considered in the evaluation:

(1) Relationship of each item of information to the statutory purpose for which the system is maintained;

(2) Specific adverse consequences of not collecting each category of information; and

(3) Techniques for purging parts of the records.

(c) Disclosure of records. The NRO will provide the fullest access practicable by individuals to NRO records concerning them. Release of personal information to such individuals is not considered public release of information. Upon receipt of a written request, the NRO will release to individuals those records that are releasable and applicable to the individual making the request. Generally, information, other than that exempted by law and this part, will be provided to the individual. NRO personnel will comply with the Privacy Act of 1974, as amended, the DoD Privacy Act Program (32 CFR part 310), and the NRO Privacy Act Program. No NRO records shall be disclosed by any means of communication to any person or to any agency except pursuant to a written request by or the prior written consent of the individual to whom it pertains, unless disclosure of the record will be:

(1) To those employees of the NRO who have an official need for the record in the performance of their duties.
§ 326.4 32 CFR Ch. I (7–1–02 Edition)

(2) Required to be disclosed to a member of the public under the Freedom of Information Act, as amended.

(3) For a routine use as defined in the Privacy Act.

(4) To the Census Bureau for the purpose of conducting a census or survey or related activity authorized by law.

(5) To a recipient who has provided the NRO with advance, adequate written assurance that the record will be used solely as statistical research and that the record is to be transferred in a form in which the individual is not identifiable.

(6) To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the U.S. Government.

(7) To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the U.S. for a civil or criminal law enforcement activity if such activity is authorized by law and if the head of the agency or governmental entity has made a written request to the NRO specifying the particular portion of the record and the law enforcement activity for which the record is sought (blanket requests will not be accepted); a record may also be disclosed to a law enforcement agency at the initiative of the NRO pursuant to the blanket routine use for law enforcement when criminal conduct is indicated in the record.

(8) To a person showing compelling circumstances affecting the health or safety of an individual if, upon such disclosure, notification is sent to the last known address of the individual to whom the record pertains (emergency medical information may be released by telephone).

(9) To Congress or any committee, joint committee, or subcommittee of Congress with respect to a matter under its jurisdiction. This provision does not authorize the disclosure of a record to members of Congress acting in their individual capacities or on behalf of their constituents making third party requests. However, such releases may be made pursuant to the blanket routine use for Congressional inquiries when a constituent has sought the assistance of his Congressman for the constituent’s individual record(s).

(10) To the Comptroller General or any of his authorized representatives in the course of the performance of the duties of the General Accounting Office.

(11) Pursuant to an order of a court of competent jurisdiction. When the record is disclosed under compulsory legal process and when the issuance of that order or subpoena is made public by the court which issued it, the NRO will make reasonable efforts to notify the individual to whom the record pertains by mail at the most recent address contained in NRO records.

(12) To a consumer reporting agency in accordance with 31 U.S.C. 3711(f).

(d) Allocation of resources. NRO components shall exercise due diligence in their responsibilities under the Privacy Act and must devote a reasonable level of personnel to respond to requests on a ‘first-in, first-out’ basis. In allocating Privacy Act resources, the component shall consider its imposed business demands, the totality of resources available to it, the information review and release demands imposed by Congress and other governmental authorities, and the rights of the public under various disclosure laws. The PA Coordinator will establish priorities for cases consistent with established law to ensure that smaller as well as larger ‘project’ cases receive equitable attention.

(e) Written permission for disclosure. Disclosures made under circumstances not delineated in this part shall be made only if the written permission of the individual involved has been obtained. Written permission shall be recorded on or appended to the document transmitting the personal information to the other agency, in which case no separate accounting of the disclosure need be made. Written permission is required in each case; that is, once obtained, written permission for one case does not constitute blanket permission for other disclosures.

(f) Coordination with other government agencies. Records systems of the NRO may contain records originated by other agencies that may have claimed exemptions for them under the Privacy Act. Where appropriate, coordination
§ 326.4

will be effected with the originating agency. The NRO will comply with the instructions issued by another agency responsible for a system of records (e.g., Office of Personnel Management) in granting access to such records. Records containing information or interests of another government agency will not be released until coordination with the other agency involved. A request for information pertaining to the individual in an NRO record system received from another federal agency will be coordinated with the originating agency.

(g) Accounting for disclosure. Except for disclosures made under paragraphs (c)(1) and (c)(2) of this section, an accurate account of the disclosures shall be kept by the record holder in consultation with the Privacy Act Coordinator (PA Coordinator). There need not be a notation on a single document of every disclosure of a particular record. The record holder should be able to construct from its system of records the accounting information:

(1) When required by the individual to whom the record pertains, or

(2) When necessary to inform previous recipients of any amended records. The accounting shall be retained for at least five years or for the life of the record, whichever is longer, to be available for review by the subject of the record at his request except for disclosures made under paragraph (c)(7) of this section.

(h) Application of rules. Any request for access, amendment, correction, etc., of personal record information in a system of records by an individual to whom such information pertains will be governed by the Privacy Act of 1974, as amended, DoD regulatory authority, and this part, exclusively. Any denial or exemption of all or part of a record from access, disclosure, amendment, correction, etc., will be processed under DoD regulatory authority and this part, unless court order or other competent authority directs otherwise.

(i) First Amendment rights. No NRO official or component may maintain any information pertaining to the exercise by an individual of his rights under the First Amendment without the permission of that individual unless such collection is specifically authorized by statute or pertains to an authorized law enforcement activity.

(j) Non-system information on individuals. The following information is not considered part of personal records systems reportable under this part and may be maintained by NRO for ready identification, contact, and property control purposes only, provided it is not maintained in a system of records. If at any time the information described in this paragraph is being maintained in a system of records, the information is subject to the Privacy Act.

(1) Identification information at doorways, building directories, desks, lockers, name tags, etc.

(2) Geographical or agency contact cards.

(3) Property receipts and control logs for building passes, credentials, vehicles, etc.

(4) Personal working notes of employees that are merely an extension of the author’s memory, if maintained properly, do not come under the Privacy Act. Personal notes are not considered official NRO records if they meet the following requirements:

(i) Keeping or discarding notes must be at the sole discretion of the author. Any requirement by supervising authority, whether by oral or written directive, regulation, policy, or memo to maintain such notes, likely would cause the notes to become official agency records.

(ii) Such notes must be restricted to the author’s personal use as memory aids, and only the author may have access to them. Passing them to a successor or showing them to other personnel (including supporting staff such as secretaries) would likely cause them to become agency records.

(5) Rosters. The NRO has no restriction against rosters that contain only corporate information such as name, work telephone number, and position. Good recordkeeping practices dictate that only rosters that are relevant and necessary to the NRO’s operations may be maintained, and therefore convenience rosters, which by definition do not satisfy the test, may not be maintained.

(2) Coordinates with the PA Coordinator before developing or modifying CIO-sponsored ADP supported files subject to the provisions of this part.

(g) Directorate and Office Managers, NRO:

(1) Ensure that records contained in their directorate or office systems of records are disclosed only to those NRO officials or employees who require the records for official purposes.

(2) Review their own directorate and office systems of records to ensure and certify that no systems of records other than those listed in the FEDERAL REGISTER System Notices are maintained; notify the CIO and the PA Coordinator promptly whenever there are changes to processing equipment, hardware, software, or database that may require an amended system notice.

(3) Evaluate each system of records during the planning stage and at regular intervals. The following factors should be considered:

   (i) Relationship of data to be collected and retained to the purposes for which the system is maintained (all information must be relevant and necessary to the purpose for which it is collected).

   (iii) Whether informational needs can be met without using personal identifiers.

(2) Determine, with General Counsel’s concurrence, which forms require Privacy Act Statements and will prepare such statements.

(j) Employees, NRO:

If disclosure of the SSN is not required, NRO directorates and offices are not precluded from requesting it from individuals; however, the Privacy Act Statement must make clear that the disclosure of the SSN is voluntary and, if the individual refuses to disclose it, must be prepared to identify him by alternate means.

(7) Will collect personal information directly from the subject whenever possible; employees may collect information from third parties when that information must be verified, opinions or evaluations are required, the subject cannot be contacted, or the subject requests it.

(8) Will keep paper and electronic records which contain personal information and are retrieved by name or personal identifier only in approved systems published in the Federal Register.

(9) Will amend and correct records when directed by the PA Coordinator.

(10) Will report to the PA Coordinator any disclosures of personal information from a system of records, or the maintenance of any system of records, not authorized by this part.

(11) Will participate in specialized Privacy Act training should their duties require dealing with special investigators, the news media, or the public.

[65 FR 20372, Apr. 17, 2000, as amended at 66 FR 41783, Aug. 9, 2001]

§ 326.6 Policies for processing requests for records.

(a) An individual’s written request for access to records about himself which does not specify the Act under which the request is made will be processed under both the Freedom of Information Act (FOIA) and the Privacy Act and the applicable regulations. Such requests will be processed under both Acts regardless of whether the requester cites one Act, both, or neither in the request in order to ensure the maximum possible disclosure to the requester. Individuals may not be denied access to a record pertaining to themselves merely because those records are exempt from disclosure under the FOIA.

(b) A Privacy Act request that neither specifies the system(s) of records
Office of the Secretary of Defense

§ 326.7

(a) To the maximum extent practical, personal information about an individual will be obtained directly from that individual.

(b) Whenever an individual is asked to provide personal information, including Social Security Number (SSN) or a personal identifier, about himself, a Privacy Act Statement will be furnished that will advise him of the authority (whether by statute or by Executive Order) under which the information is requested, whether disclosure of the information is voluntary or mandatory, the purposes for which it is requested, the uses to which it will be put, and the consequences of not providing the information.

(c) When asking third parties to provide information about other individuals, NRO employees will advise them:

1. Of the purpose of the request, and
2. That their identities and the information they are furnishing may be released to the individual unless they expressly request confidentiality. All persons interviewed must be informed of their rights and offered confidentiality.
§ 326.8 Procedures for requesting access.

(a) Request in writing. An individual seeking notification of whether a system of records contains a record pertaining to him, or an individual seeking access to records pertaining to him which are available under the Privacy Act, shall address the request in writing to the Privacy Act Coordinator, National Reconnaissance Office, 14675 Lee Road, Chantilly, VA 20151–1715. The request should contain at least the following information:

(1) Identification. Reasonable identification, including first name, middle name or initial, surname, any aliases or nicknames, Social Security Number, and return address of the individual concerned, accompanied by a signed notarized statement that such information is true under penalty of perjury and swearing to or affirming his identity. An unsworn declaration, under 28 U.S.C. 1746, also is acceptable. In the case of a request for records of a sensitive nature if the PA Coordinator determines that this information does not sufficiently identify the individual, the PA Coordinator may request additional identification or clarification of information submitted by the individual.

(ii) In addition, an alien lawfully admitted for permanent residence shall provide his Alien Registration Number and the date that status was acquired.

(ii) The parent or guardian of a minor or of a person judicially determined to be incompetent, or an attorney retained to represent an individual, in addition to establishing the identity of the minor or person represented as required in this part, shall provide evidence of his own identity as required in this part and evidence of such parentage, guardianship, or representation by submitting a certified copy of the minor’s birth certificate, the court order establishing such guardianship, or the representation agreement which establishes the relationship.

(2) Cost. A statement of willingness to pay reproduction costs. Processing of requests and administrative appeals from individuals who owe outstanding fees will be held in abeyance until such fees are paid.

(b) Access on behalf of the individual. If the requester wishes another person to obtain the records on his behalf, the requester will furnish a notarized statement or unsworn declaration appointing that person as his representative, authorizing him access to the record, and affirming that access will not constitute an invasion of the requester’s privacy or a violation of his rights under the Privacy Act. The NRO requires a written statement to authorize discussion of the individual’s record in the presence of a third person.

§ 326.9 Procedures for disclosure of requested information.

(a) The PA Coordinator shall acknowledge receipt of the request in writing within ten working days.

(b) Upon receipt of a request, the PA Coordinator shall refer the request to those components most likely to possess responsive records. The components shall search all relevant record systems within their cognizance and shall:

(1) Determine whether a responsive record exists in a system of records.

(2) Determine whether access must be denied and on what legal basis. An individual may be denied access to his records under the Privacy Act only if an exemption has been properly claimed for all or part of the records or information requested; or if the information was compiled in reasonable anticipation of a civil action or proceeding.

(3) Approve the disclosure of records for which they are the originator.

(4) Forward to the PA Coordinator all records approved for release or necessary for coordination with or referral to another originator or interested party as well as notification of the specific determination for any denial.

(c) When all records have been collected, the PA Coordinator shall notify
the individual of the determination and shall provide an exact copy of records deemed to be accessible if a copy has been requested.

(d) When an original record is illegible, incomplete, or partially exempt from release, the PA Coordinator shall explain in terms understood by the requester the portions of a record that are unclear.

(e) If access to requested records, or any portion thereof, is denied, the PA Coordinator shall inform the requester in writing of the specific reason(s) for denial, including the specific citation to appropriate sections of the Privacy Act or other statutes, this and other NRO regulations, or the Code of Federal Regulations authorizing denial, and the right to appeal this determination through the NRO appeal procedure within 60 calendar days. The denial shall include the date of denial, the name and title/position of the denial authority, and the address of the NRO Appeal Authority. Access may be refused when the records are exempt by the Privacy Act. Usually an individual will not be denied access to the entire record, but only to those portions to which the denial of access furthers the purpose for which an exemption was claimed.

§ 326.10 Procedures to appeal denial of access to requested record.

(a) Any individual whose request for access is denied may request a review of the initial decision within 60 calendar days of the date of the notification of denial of access by appealing within the NRO internal appeals process. If a requester elects to request NRO review, the request shall be sent in writing to the Privacy Act Coordinator, National Reconnaissance Office, 14675 Lee Road, Chantilly, VA 20151–1715, briefly identifying the particular record which is the subject of the request and setting forth the reasons for the appeal. The request should enclose a copy of the denial correspondence. The following procedures apply to appeals within the NRO:

(1) The PA Coordinator, after acknowledging receipt of the appeal, shall promptly refer the appeal to the record-holding components, informing them of the date of receipt of the appeal and requesting that the component head or his designee review the appeal.

(2) The record-holding components shall review the initial denial of access to the requested records and shall inform the PA Coordinator of their review determination.

(3) The PA Coordinator shall consolidate the component responses, review the record, direct such additional inquiry or investigation as is deemed necessary to make a fair and equitable determination, and make a recommendation to the NRO Appeals Panel, which makes a recommendation to the Appeal Authority.

(4) The Appeal Authority shall notify the PA Coordinator of the result of the determination on the appeal, who shall notify the individual of the determination in writing.

(5) If the determination reverses the initial denial, the PA Coordinator shall provide a copy of the records requested. If the determination upholds the initial denial, the PA Coordinator shall inform the requester of his right to judicial review in U.S. District Court and shall include the exact reasons for denial with specific citations to the provisions of the Privacy Act, other statutes, NRO regulations, or the Code of Federal Regulations upon which the determination is based.

(b) The Appeal Authority shall act on the appeal or provide a notice of extension within 30 working days.

§ 326.11 Special procedures for disclosure of medical and psychological records.

When requested medical and psychological records are not exempt from disclosure, the PA Coordinator may determine which non-exempt medical or psychological records should not be sent directly to the requester because of possible harm or adverse impact to the requester or another person. In that event, the information may be disclosed to a physician named by the requester. The appointment of the physician will be in the same notarized form or declaration as described in §326.8 and will certify that the physician is licensed to practice in the appropriate specialty (medicine, psychology, or psychiatry). Upon designation,
verification of the physician’s identity, and agreement by the physician to review the documents with the requester to explain the meaning of the documents and to offer counseling designed to mitigate any adverse reaction, the NRO will forward such records to the designated physician. If the requester refuses or fails to designate a physician, the record shall not be provided. Under such circumstances refusal of access is not considered a denial for Privacy Act reporting purposes. However, if the designated physician declines to furnish the records to the individual, the PA Coordinator will take action to ensure that the records are provided to the individual.

§ 326.12 Procedures to request amendment or correction of record.

(a) An individual may request amendment or correction of a record pertaining to him/her by addressing such request in writing, to the Privacy Act Coordinator, National Reconnaissance Office, 14675 Lee Road, Chantilly, VA 20151–1715. Incomplete or inaccurate requests will not be rejected categorically; instead, the requester will be asked to clarify the request as needed. A request will not be rejected or require resubmission unless additional information is essential to process the request. Usually, amendments under this part are limited to correcting factual errors and not matters of official judgment, such as promotion ratings and job performance appraisals. The requester must adequately support his claim and must identify:

(1) The particular record he wishes to amend or correct, specifying the number of pages and documents, the titles of the documents, form numbers if any, dates on documents, and individuals who signed them. Any reasonable description of the documents is acceptable. A clear and specific description of passages, pages, or documents to be amended will expedite processing the request.

(2) The desired amending language. The requester should specify the type of amendment, including complete removal of data, passages, or documents from record or correction of information to make it accurate, more timely, complete, or relevant.

(3) A justification for such amendment or correction to include any documentary evidence supporting the request.

(b) Individuals will be required to provide verification of identity as in §326.8, to ensure that the requester is seeking to amend records pertaining to himself and not, inadvertently or intentionally, the records of another individual.

(c) Minor factual errors in an individual’s personal record may be corrected routinely upon request without resort to the Privacy Act or the provisions of this part, if the requester and the record holder agree to that procedure and the requester receives a copy of the corrected record whenever possible. A written request is not required when individuals indicate amendments during routine annual review and updating of records programs conducted by the NRO for civilian personnel and the Services for military personnel. Requests for deletion, removal of records, and amendment of substantive factual information will be processed according to the Privacy Act and the provisions of this part.

(d) The PA Coordinator shall acknowledge receipt of the request in writing within ten working days. No separate acknowledgement of receipt is necessary if the request can be either approved or denied and the requester advised within the ten-day period. For written requests presented in person, written acknowledgement may be provided at the time the request is presented.

(e) The PA Coordinator shall refer such request to the record-holder components, shall advise those components of the date of receipt, and shall request that those components make a prompt determination on such request.

(f) The record-holder components shall promptly:

(1) Make any amendment or correction to any portion of the record which the individual believes is not accurate, relevant, timely, or complete and notify the PA Coordinator and all holders and recipients of such records and their amendments that the correction was made; or
(2) Set forth the reasons for the refusal, if they determine that the requested amendment or correction will not be made or if they decline to make the requested amendment but instead augment the official record, and so inform the PA Coordinator.

(g) The Privacy Act Coordinator shall:

(1) Inform the requester of the agency's determination to make the amendment or correction as requested and notify all prior recipients of the change to the disputed records for which an accounting had been required; or

(2) Inform the requester of the specific reasons and legal authorities for the agency's refusal and the procedures established for him to request a review of that refusal.

(h) The amendment procedure is not intended to replace other existing procedures such as those for registering grievances or appealing performance appraisal reports. In such cases the requester will be apprised of the appropriate procedures for such actions.

(i) This part does not permit the alteration of evidence presented to courts, boards, or other official proceedings.

§ 326.13 Procedures to appeal denial of amendment.

(a) Any individual whose request for amendment or correction is denied may request a review of the initial decision within 60 calendar days of the date of the notification of denial by appealing within the NRO internal appeals process. If a requester elects to request NRO review, the request shall be sent in writing to the Privacy Act Coordinator, National Reconnaissance Office, 14675 Lee Road, Chantilly, VA 20151–1715, briefly identifying the particular record which is the subject of the request and setting forth the reasons for the appeal. The request should enclose a copy of the denial correspondence. The following procedures apply to appeals within the NRO:

(1) The PA Coordinator, after acknowledging receipt of the appeal, shall promptly refer the appeal to the record-holding component, informing them of the date of receipt of the appeal and requesting that the component head or his designee review the appeal.

(2) The record-holding components shall review the initial denial of access to the requested records and shall inform the PA Coordinator of their review determination.

(3) The PA Coordinator shall act as secretary of the Appeals Panel. He shall:

(i) Consolidate the component responses and reasons for the initial denial.

(ii) Provide all supporting materials both furnished to and by the requester and the record-holding component.

(iii) Review the record.

(iv) Direct such additional inquiry or investigation as is deemed necessary to make a fair and equitable determination.

(v) Prepare the record and schedule the appeal for the next meeting of the Appeals Panel. The Appeals Panel shall recommend a finding to the Appeal Authority by a majority vote of those present at the meeting based on the written record and the Panel's deliberations. No personal appearances shall be permitted without the express permission of the Panel.

(4) The Appeal Authority shall notify the PA Coordinator of the result of the determination on the appeal who shall notify the individual of the determination in writing.

(5) The Appeal Authority will notify the PA Coordinator if the determination is that the record should be amended. The PA Coordinator will promptly advise the requester and the office holding the record to amend the record and to notify all prior recipients of the records for which an accounting was required of the change.

(6) If the determination upholds the initial denial, in whole or in part, the PA Coordinator shall inform the requester:

(i) Of the denial and the reason.

(ii) Of his right to file in NRO records within 60 calendar days a concise statement of the reasons for disputing the information contained in the record. If the requester elects to file a statement of disagreement, the PA Coordinator will be responsible for clearly noting any portion of the record that is disputed and for appending into the file
the requester’s statement as well as a copy of the NRO’s letter to the requester denying the disputed information, if appropriate. The requester’s statement and the NRO denial letter will be made available to anyone to whom the record is subsequently disclosed, and prior recipients of the disputed record will be provided a copy of both to the extent that an accounting of disclosures is maintained.

(iii) Of his right to judicial review in U.S. District Court.

(7) The Appeal Authority shall act on the appeal or provide a notice of extension within 30 working days.

§ 326.14 Disclosure of records to person other than subject.

(a) Personal records contained in a Privacy Act system of records maintained by NRO shall not be disclosed by any means to any person or agency outside the NRO except with the written consent of the individual subject of the record, unless as provided in this part.

(b) Except for disclosure made to members of the NRO in connection with their official duties and disclosures required by the Freedom of Information Act, an accounting will be kept of all disclosures of records maintained in NRO systems of records and of all disclosures of investigative information. Accounting entries will record the date, kind of information, purpose of each disclosure, and the name and address of the person or agency to whom the disclosure is made. Accounting records will be maintained for at least five years after the last disclosure or for the life of the record, whichever is longer. Subjects of NRO records will be given access to associated accounting records upon request except for disclosures made pursuant to §326.4, or where an exemption has been properly claimed for the system of records.

§ 326.15 Fees.

Individuals requesting copies of their official personnel records are entitled to one free copy; a charge will be assessed for additional copies. There is a cost of $.15 per page. Fees will not be assessed if the cost is less than $30.00. Fees should be paid by check or postal money order payable to the Treasurer of the United States and forwarded to the Privacy Act Coordinator, NRO, at the time the copy of the record is delivered. In some instances, fees will be due in advance.

§ 326.16 Penalties.

Each request shall be treated as a certification by the requester that he is the individual named in the request. The Privacy Act provides criminal penalties for any person who knowingly and willfully requests or obtains any information concerning an individual under false pretenses.

§ 326.17 Exemptions.

(a) All systems of records maintained by the NRO shall be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a(k)(1) to the extent that the system contains any information properly classified under Executive Order 12958 and which is required by the Executive Order to be withheld in the interest of national defense or foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary because certain record systems not otherwise specifically designated for exemptions herein may contain items of information that have been properly classified.

(b) No system of records within the NRO shall be considered exempt under subsection (j) or (k) of the Privacy Act until the exemption and the exemption rule for the system of records has been published as a final rule in the Federal Register.

(c) An individual is not entitled to have access to any information compiled in reasonable anticipation of a civil action or proceeding (5 U.S.C. 552a(d)(5)).

(d) Proposals to exempt a system of records will be forwarded to the Defense Privacy Office, consistent with the requirements of 32 CFR part 310, for review and action.

(e) QNRO–23.

(1) System name: Counterintelligence Issue Files.

(2) Exemptions: (i) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be
entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

(iii) Therefore, portions of this system of records may be exempt pursuant to 5 U.S.C. 552a(k)(2) and/or (k)(5) from the following subsections of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f).

(3) Authority: 5 U.S.C. 552a(k)(2) and (k)(5).

(4) Reasons: (i) From subsection (c)(3) because to grant access to the accounting for each disclosure as required by the Privacy Act, including the date, nature, and purpose of each disclosure and the identity of the recipient, could alert the subject to the identity of the recipient, could alert the subject to the existence of the investigation or prosecutable interest by NRO or other agencies. This could seriously compromise case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses or make witnesses reluctant to cooperate; and lead to suppression, alteration, or destruction of evidence.

(ii) From subsections (d)(1) through (d)(4), and (f) because providing access to records of a civil or administrative investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; enable individuals to conceal their wrongdoing or mislead the course of the investigation; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

(iv) From subsections (e)(4)(G) and (H) because this system of records is compiled for law enforcement purposes and is exempt from the access provisions of subsections (d) and (f).

(v) From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. NRO will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

(vi) Consistent with the legislative purpose of the Privacy Act of 1974, the NRO will grant access to nonexempt material in the records being maintained. Disclosure will be governed by NRO’s Privacy Regulation, but will be limited to the extent that the identity of confidential sources will not be compromised; subjects of an investigation of an actual or potential criminal violation will not be alerted to the investigation; the physical safety of witnesses, informants and law enforcement personnel will not be endangered, the privacy of third parties will not be violated; and that the disclosure would not otherwise impede effective law enforcement. Whenever possible, information of the above nature will be deleted from the requested documents and the balance made available. The controlling principle behind this limited access is to allow disclosures except those indicated above. The decisions to
release information from these systems will be made on a case-by-case basis.

(f) QNRO-J10, Inspector General Investigative Files—(1) Exemption: This system may be exempt pursuant to 5 U.S.C. 552a(j)(2) if the information is compiled and maintained by a component of the agency which performs as its principle function any activity pertaining to the enforcement of criminal laws. Any portion of this system which falls within the provisions of 5 U.S.C. 552a(j)(2) may be exempt from the following subsections of 5 U.S.C. 552a (o)(3), (o)(4), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (H), and (1), (e)(5), (e)(8), (f), and (g).

(2) Authority: 5 U.S.C. 552a(j)(2).

(3) Reasons. (i) From subsection (c)(3) because the release of accounting of disclosure would inform a subject that he or she is under investigation. This information would provide considerable advantage to the subject in providing him or her with knowledge concerning the nature of the investigation and the coordinated investigative efforts and techniques employed by the cooperating agencies. This would greatly impede the NRO IG’s criminal law enforcement.

(ii) From subsection (c)(4) and (d), because notification would alert a subject to the fact that an open investigation on that individual is taking place, and might weaken the on-going investigation, reveal investigative techniques, and place confidential informants in jeopardy.

(iii) From subsection (e)(1) because the nature of the criminal and/or civil investigative function creates unique problems in prescribing a specific parameter in a particular case with respect to what information is relevant or necessary. Also, due to NRO IG’s close liaison and working relationships with other Federal, state, local and foreign country law enforcement agencies, information may be received which may relate to a case under the investigative jurisdiction of another agency. The maintenance of this information may be necessary to provide leads for appropriate law enforcement purposes and to establish patterns of activity, which may relate to the jurisdiction of other cooperating agencies.

(iv) From subsection (e)(2) because collecting information to the fullest extent possible directly from the subject individual may or may not be practical in a criminal and/or civil investigation.

(v) From subsection (e)(3) because supplying an individual with a form containing a Privacy Act Statement would tend to inhibit cooperation by many individuals involved in a criminal and/or civil investigation. The effect would be somewhat adverse to established investigative methods and techniques.

(vi) From subsection (e)(4) (G) through (I) because this system of records is exempt from the access provisions of subsection (d).

(vii) From subsection (e)(5) because the requirement that records be maintained with attention to accuracy, relevance, timeliness, and completeness would unfairly hamper the investigative process. It is the nature of law enforcement for investigations to uncover the commission of illegal acts at diverse stages. It is frequently impossible to determine initially what information is accurate, relevant, timely, and least of all complete. With the passage of time, seemingly irrelevant or untimely information may acquire new significance as further investigation brings new details to light.

(viii) From subsection (e)(8) because the notice requirements of this provision could present a serious impediment to law enforcement by revealing investigative techniques, procedures, and existence of confidential investigations.

(ix) From subsection (f) because the agency’s rules are inapplicable to those portions of the system that are exempt and would place the burden on the agency of either confirming or denying the existence of a record pertaining to a requesting individual might in itself provide an answer to that individual relating to an on-going investigation. The conduct of a successful investigation leading to the indictment of a criminal offender precludes the applicability of established agency rules relating to verification of record, disclosure of the record to that individual, and record amendment procedures for this record system.
(x) From subsection (g) because this system of records should be exempt to the extent that the civil remedies relate to provisions of 5 U.S.C. 552a from which this rule exempts the system.

(4) Exemptions. (i) Investigative material compiled for law enforcement purposes, other than material within the scope of subsection (j)(2), may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Investigative material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

(iii) Therefore, portions of this system of records may be exempt pursuant to 5 U.S.C. 552a(k)(2) and/or (k)(5) from the following subsections of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f).

(5) Authority. 5 U.S.C. 552a(k)(2) and (k)(5).

(6) Reasons. (i) From subsection (c)(3) because to grant access to the accounting for each disclosure as required by the Privacy Act, including the date, nature, and purpose of each disclosure and the identity of the recipient, could alert the subject to the existence of the investigation or prosecutable interest by the NRO or other agencies. This could seriously compromise case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses or make witnesses reluctant to cooperate; and lead to suppression, alteration, or destruction of evidence.

(ii) From subsections (d) and (f) because providing access to investigative records and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; enable individuals to conceal their wrongdoing or mislead the course of the investigation; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

(iv) From subsections (e)(4)(G) and (H) because this system of records is compiled for investigative purposes and is exempt from the access provisions of subsections (d) and (f).

(v) From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. NRO will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

(vi) Consistent with the legislative purpose of the Privacy Act of 1974, the NRO will grant access to nonexempt material in the records being maintained. Disclosure will be governed by NRO’s Privacy Regulation, but will be limited to the extent that the identity of confidential sources will not be compromised; subjects of an investigation of an actual or potential criminal or civil violation will not be alerted to the investigation; the physical safety
of witnesses, informants and law enforcement personnel will not be endangered, the privacy of third parties will not be violated; and the disclosure would not otherwise impede effective law enforcement. Whenever possible, information of the above nature will be deleted from the requested documents and the balance made available. The controlling principle behind this limited access is to allow disclosures except those indicated above. The decisions to release information from these systems will be made on a case-by-case basis.

(g) QNRO-15, Facility Security Files.
(1) Exemptions. (i) Investigative material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Investigative material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

(iii) Therefore, portions of this system of records may be exempt pursuant to 5 U.S.C. 552a(k)(2) and/or (k)(5) from the following subsections of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f).

(ii) From subsections (d)(1) through (d)(4), and (f) because providing access to investigative records and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; enable individuals to conceal their wrongdoing or mislead the course of the investigation; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

(iv) From subsections (e)(4)(G) and (H) because this system of records is compiled for investigative purposes and is exempt from the access provisions of subsections (d) and (f).

(v) From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. NRO will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

(vi) Consistent with the legislative purpose of the Privacy Act of 1974, the NRO will grant access to nonexempt
material in the records being maintained. Disclosure will be governed by NRO’s Privacy Regulation, but will be limited to the extent that the identity of confidential sources will not be compromised; subjects of an investigation of an actual or potential criminal or civil violation will not be alerted to the investigation; the physical safety of witnesses, informants and law enforcement personnel will not be endangered; the privacy of third parties will not be violated; and the disclosure would not otherwise impede effective law enforcement. Whenever possible, information of the above nature will be deleted from the requested documents and the balance made available. The controlling principle behind this limited access is to allow disclosures except those indicated above. The decisions to release information from these systems will be made on a case-by-case basis.

(h) QNRO-19.

(1) System name: Customer Security Services Personnel Security Files.

(2) Exemptions:

(i) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

(iii) There are portions of this system of records that may be exempt pursuant to 5 U.S.C. 552a(k)(2) and/or (k)(5) from the following subsections of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f).

(3) Authority: 5 U.S.C. 552a(k)(2) and (k)(5).

(4) Reasons:

(i) From subsection (c)(3) because to grant access to the accounting for each disclosure as required by the Privacy Act, including the date, nature, and purpose of each disclosure and the identity of the recipient, could alert the subject to the existence of the investigation or prosecutable interest by the NRO or other agencies. This could seriously compromise case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses or make witnesses reluctant to cooperate; and lead to suppression, alteration, or destruction of evidence.

(ii) From subsections (d)(1) through (d)(4), and (f) because providing access to investigatory records and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; enable individuals to conceal their wrongdoing or mislead the course of the investigation; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

(iv) From subsections (e)(4)(G) and (H) because this system of records is compiled for investigatory purposes and is exempt from the access provisions of subsections (d) and (f).

(v) From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system.
§ 326.17

notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. NRO will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

(vi) Consistent with the legislative purpose of the Privacy Act of 1974, the NRO will grant access to nonexempt material in the records being maintained. Disclosure will be governed by NRO’s Privacy Regulation, but will be limited to the extent that the identity of confidential sources will not be compromised; subjects of an investigation of an actual or potential criminal or civil violation will not be alerted to the investigation; the physical safety of witnesses, informants and law enforcement personnel will not be endangered; the privacy of third parties will not be violated; and that the disclosure would not otherwise impede effective law enforcement. Whenever possible, information of the above nature will be deleted from the requested documents and the balance made available. The controlling principle behind this limited access is to allow disclosures except those indicated in this paragraph. The decisions to release information from these systems will be made on a case-by-case basis.

(i) NRO–21.

(1) System name: Personnel Security Files.

(2) Exemptions: (i) Investigatory material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

(ii) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal civilian employment, military service, federal contracts, or access to classified information may be exempt pursuant to 5 U.S.C. 552a(k)(5), but only to the extent that such material would reveal the identity of a confidential source.

(iii) Therefore, portions of this system of records may be exempt pursuant to 5 U.S.C. 552a(k)(2) and/or (k)(5) from the following subsections of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f).

(3) Authority: 5 U.S.C. 552a(k)(2) and (k)(5).

(4) Reasons: (i) From subsection (c)(3) because to grant access to the accounting for each disclosure as required by the Privacy Act, including the date, nature, and purpose of each disclosure and the identity of the recipient, could alert the subject to the existence of the investigation or prosecutable interest by the NRO or other agencies. This could seriously compromise case preparation by prematurely revealing its existence and nature; compromise or interfere with witnesses or make witnesses reluctant to cooperate; and lead to suppression, alteration, or destruction of evidence.

(ii) From subsections (d)(1) through (d)(4), and (f) because providing access to records of a civil or administrative investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; enable individuals to conceal their wrongdoing or mislead the course of the investigation; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.
(iv) From subsections (e)(4)(G) and (H) because this system of records is compiled for law enforcement purposes and is exempt from the access provisions of subsections (d) and (f).

(v) From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. NRO will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

(vi) Consistent with the legislative purpose of the Privacy Act of 1974, the NRO will grant access to nonexempt material in the records being maintained. Disclosure will be governed by NRO’s Privacy Regulation, but will be limited to the extent that the identity of confidential sources will not be compromised; subjects of an investigation of an actual or potential criminal violation will not be alerted to the investigation; the physical safety of witnesses, informants and law enforcement personnel will not be endangered; and that the disclosure would not otherwise impede effective law enforcement. Whenever possible, information of the above nature will be deleted from the requested documents and the balance made available. The controlling principle behind this limited access is to allow disclosures except those indicated above. The decisions to release information from these systems will be made on a case-by-case basis.

(j) QNRO—4.

(1) System name: Freedom of Information Act and Privacy Act Files.

(2) Exemption: During the processing of a Freedom of Information Act/Privacy Act request, exempt materials from other systems of records may in turn become part of the case record in this system. To the extent that copies of exempt records from those “other” systems of records are entered into this system, the NRO hereby claims the same exemptions for the records from those “other” systems that are entered into this system, as claimed for the original primary system of which they are a part.

(3) Authority: 5 U.S.C. 552a(j)(2), (k)(1), (k)(2), (k)(3), (k)(4), (k)(5), (k)(6), and (k)(7).

(4) Records are only exempt from pertinent provisions of 5 U.S.C. 552a to the extent such provisions have been identified and an exemption claimed for the original record and the purposes underlying the exemption for the original record still pertain to the record which is now contained in this system of records. In general, the exemptions were claimed in order to protect properly classified information relating to national defense and foreign policy, to avoid interference during the conduct of criminal, civil, or administrative actions or investigations, to ensure protective services provided the President and others are not compromised, to protect the identity of confidential sources incident to Federal employment, military service, contract, and security clearance determinations, and to preserve the confidentiality and integrity of Federal evaluation materials. The exemption rule for the original records will identify the specific reasons why the records are exempt from specific provisions of 5 U.S.C. 552a.

System of records. A group of records under the control of a DoD Component from which personal information is retrieved by the individual’s name or by some identifying number, symbol, or other identifying particular assigned to an individual.

Word processing system. A combination of equipment employing automated technology, systematic procedures, and trained personnel for the primary purpose of manipulating human thoughts and verbal or written or graphic presentations intended to communicate verbally or visually with another individual.

Word processing equipment. Any combination of electronic hardware and computer software integrated in a variety of forms (firmware, programmable software, hard wiring, or similar equipment) that permits the processing of textual data. Generally, the equipment contains a device to receive information, a computer-like processor with various capabilities to manipulate the information, a storage medium, and an output device.

§ 327.5 Systems of records.

(a) System of records. To be subject to the provisions of this part, a “system of records” must:

(1) Consist of “records” that are retrieved by the name of an individual or some other personal identifier, and

(2) Be under the control of DeCA.

(b) Retrieval practices. Records in a group of records that may be retrieved by a name or personal identifier are not covered by this part even if the records contain personal data and are under the control of DeCA. The records MUST BE, in fact, retrieved by name or other personal identifier to become a system of records for DeCA.

(c) Relevance and necessity. Only those records that contain personal information which is relevant and necessary to accomplish a purpose required by Federal statute or an Executive Order will be maintained by DeCA.

(d) Authority to establish systems of records. Director, DeCA has the authority to establish systems of records; however, each time a system of records is established, the Executive Order or Federal statute that authorizes maintaining the personal information must be identified.

(1) DeCA will not maintain any records describing how an individual exercises his or her rights guaranteed by the First Amendment of the U.S. Constitution.

(2) These rights include, but are not limited to, freedom of religion, freedom of political beliefs, freedom of speech, freedom of the press, the right to assemble, and the right to petition.

(e) System manager’s evaluation. Systems managers, along with the DeCA Privacy Officer, shall evaluate the information to be included in each new system before establishing the system.
and evaluate periodically the information contained in each existing system of records for relevancy and necessity. Such a review will also occur when a system notice amendment or alteration is prepared. Consider the following:

(1) The relationship of each item of information retained and collected to the purpose for which the system is maintained.

(2) The specific impact on the purpose or mission of not collecting each category of information contained in the system.

(3) The possibility of meeting the informational requirements through use of information not individually identifiable or through other techniques, such as sampling.

(4) The length of time each item of personal information must be retained.

(5) The cost of maintaining the information.

(6) The necessity and relevancy of the information to the purpose for which it was collected.

(f) Discontinued information requirements. (1) When notification is received to stop collecting any category or item of personal information, the DeCA PA Officer will issue instructions to stop immediately and also excise this information from existing records, when feasible, and amend existing notice.

(2) Disposition of these records will be provided by the DeCA PA Officer in accordance with the DeCA Filing System.³

(g) Government contractors. (1) When DeCA contracts for the operation or maintenance of a system of records or a portion of a system of records by a contractor, the record system or the portion affected are considered to be maintained by DeCA and are subject to this part. DeCA is responsible for applying the requirements of this part to the contractor. The contractor and its employees are to be considered employees of DeCA for the purposes of the approved provisions of the Privacy Act during the performance of the contract. Consistent with the Defense Acquisition Regulation, contracts requiring the maintenance of a system of records or the portion of a system of records shall identify specifically the record system and the work to be performed and shall include in the solicitation and resulting contract such terms as are prescribed in the Defense Acquisition Regulation (DAR).⁴

(2) If the contractor must use or have access to individually identifiable information subject to this part to perform any part of a contract, and the information would have been collected and maintained by DeCA but for the award of the contract, these contractor activities are subject to this part.

(3) The restrictions in paragraphs (g)(1) and (g)(2) of this section do not apply to records:

(i) Established and maintained to assist in making internal contractor management decisions such as those maintained for use in managing the contract.

(ii) Those maintained as internal contractor employee records even when used in conjunction with providing goods and services to DeCA.

(4) Disclosure of records to contractors. Disclosure of personal records to a contractor for the use in the performance of any DeCA contract is considered a disclosure within the Department of Defense (DoD). The contractor is considered the agent of DeCA and is to be maintaining and receiving the records for DeCA.

(h) Safeguarding personal information. DeCA personnel will protect records in every system of records for confidentiality against alteration, unauthorized disclosure, embarrassment, or unfairness to any individual about when information is kept.

(1) Supervisor/Manager paper records maintained by DeCA personnel will be treated as ‘For Official Use Only’ (FOUO) documents and secured in locked file cabinets, desks or bookcases during non-duty hours. During normal working hours, these records will be out-of-sight if the working area is accessible to non-government personnel.

(2) Personnel records maintained by DeCA computer room or stand alone systems, will be safeguarded at all

§ 327.6 Collecting personal information

(a) Collect directly from the individual.

To the greatest extent practicable, collect personal information directly from the individual to whom it pertains if the information may be used in making any determination about the rights, privileges, or benefits of the individual under any Federal program.

(b) Collecting personal information from third parties. It may not be practical to collect personal information directly from an individual in all cases. Some examples of this are:

(1) Verification of information through third party sources for security or employment suitability determinations;

(2) Seeking third party opinions such as supervisory comments as to job knowledge, duty performance, or other opinion-type evaluations;

(3) When obtaining the needed information directly from the individual is exceptionally difficult or may result in unreasonable costs; or

(4) Contacting a third party at the request of the individual to furnish certain information such as exact periods of employment, termination dates, copies of records, or similar information.

(c) Collecting social security numbers (SSNs). (1) It is unlawful for DeCA to deny an individual any right, benefit, or privilege provided by law because an individual refuses to provide his or her SSN. Executive Order 9397 authorizes solicitation and use of SSNs as numerical identifiers for individuals in most Federal record systems, however, it does not provide mandatory authority for soliciting.

(2) When an individual is requested to provide their SSN, they must be told:

(i) the uses that will be made of the SSN;

(ii) The statute, regulation or rule authorizing the solicitation of the SSN; and

(iii) Whether providing the SSN is voluntary or mandatory.

(3) Once the SSN has been furnished for the purpose of establishing a record, the notification in paragraph (c)(2) of this section is not required if the individual is only requested to furnish or verify the SSNs for identification purposes in connection with the normal use of his or her records.

(d) Privacy act statements. When a DeCA individual is requested to furnish personal information about himself or herself for inclusion in a system of records, a Privacy Act Statement is required regardless of the medium used to collect the information, e.g., forms, personal interviews, telephonic interviews. The statement allows the individual to make a decision whether to provide the information requested. The statement will be concise, current, and easily understood and must state whether providing the information is voluntary or mandatory. If furnishing the data is mandatory, a Federal statute, Executive Order, regulation or other lawful order must be cited. If the personal information solicited is not to be incorporated into a DeCA system of records, a PA statement is not required. This information obtained without the PA statement will not be incorporated into any DeCA systems of records.

(1) The DeCA Privacy Act Statement will include:
§ 327.7 Access by individuals

(a) Individual access to personal information. Release of personal information to individuals whose records are maintained in a systems of records under this part is not considered public release of information. DeCA will release to the individuals all of the personal information, except to the extent the information is contained in an exempt system of records.

(1) Requests for access. (i) Individuals in DeCA Headquarters and FOAs will address requests for access to their personal information to the DeCA Privacy Act Officers. Individuals in Regions, CDCs, and commissaries, will address requests to their respective Region Privacy Act Coordinator. The individual is not required to explain or justify why access is being sought.

(ii) If an individual wishes to be accompanied by a third party when seeking access to his or her records or to have the records released directly to the third party, a signed access authorization granting the third party access is required.

(iii) A DeCA individual will not be denied access to his or her records because he or she refuses to provide his or her SSN unless the SSN is the only way retrieval can be made.

(2) Granting access. (i) If the record is not part of an exempt system, DeCA personnel will be granted access to the original record or an exact copy of the original record without any changes or deletions. Medical records will be disclosed to the individual to whom they pertain unless an individual fails to comply with the established requirements. This includes refusing to name a physician to receive medical records when required, refusing to pay fees, or when a judgment is made that access to such records may have an adverse effect on the mental or physical health of the individual. Where an adverse effect may result, a release will be made in consultation with a physician.

(ii) DeCA personnel may be denied access to information compiled in reasonable anticipation of a civil action or proceeding. The term “civil proceeding” is intended to include quasi-judicial and pretrial judicial proceedings. Information prepared in conjunction with the quasi-judicial, pretrial and trial proceedings to include those prepared by DeCA legal and non-legal officials of the possible consequences of a given course of action are protected from access.

(iii) Requests by DeCA personnel for access to investigatory records pertaining to themselves, compiled for law enforcement purposes, are processed under this part and that of 32 CFR part 310. Those requests by DeCA personnel for investigatory records pertaining to themselves that are in records systems exempt from access provisions shall be processed under this part or 32 CFR part 285, depending upon which provides the greatest degree of access.
(3) Non agency records. (i) Uncirculated personal notes and records that are not given or circulated to any person or organization (example, personal telephone list) that are kept or discarded at the author’s discretion and over which DeCA exercises no direct control, are not considered DeCA records. However, if personnel are officially directed or encouraged, either in writing or orally, to maintain such records, they may become “agency records” and may be subject to this part.

(ii) Personal uncirculate handwritten notes of team leaders, office supervisors, or military supervisory personnel concerning subordinates are not a system of records within the meaning of this part. Such notes are an extension of the individual’s memory. These notes, however, must be maintained and discarded at the discretion of the individual supervisor and not circulated to others. Any established requirement to maintain such notes (written or oral directives, regulation or command policy) make these notes “AGENCY RECORDS.” If the notes are circulated, they must be made a part of the system of records. Any action that gives personal notes the appearance of official agency records is prohibited unless they have been incorporated into a DeCA system of records.

(b) Relationship between the Privacy Act and the Freedom of Information Act (FOIA). (1) Requests from DeCA individuals for access to a record pertaining to themselves made under the FOIA are processed under the provisions of this part, 32 CFR part 310 and DeCA Directive 30-12, Freedom of Information Act (FOIA) Program.5

(2) Request from DeCA individuals or access to a record pertaining to themselves are processed under this part and 32 CFR part 310.

(3) Requests from DeCA individuals for access to records about themselves that cite both Acts or the DeCA implementing directive for both Acts are processed under this part except:

(i) When the access provisions of the FOIA provide a greater degree of access process under the FOIA, or

(ii) When access to the information sought is controlled by another Federal statute process access procedures under the controlling statute.

(4) Requests from DeCA individuals for access to information about themselves in a system of records that do not cite either Act or DeCA implementing directive are processed under the procedures established by this part.

(5) DeCA requesters will not be denied access to personal information concerning themselves that would be releasable to them under either Act because they fail to cite either Act or the wrong Act. The Act or procedures used in granting or denying access will be explained to requesters.

(6) DeCA requesters should receive access to their records within 30 days.

(7) Records in all DeCA systems maintained in accordance with the Government-wide systems notices are in temporary custody of DeCA, and all requests or amend these records will be processed in accordance with this part.

(c) Denial of individual access. (1) A DeCA individual may be denied formal access to a record pertaining to him/her only if the record:

(i) Was compiled in reasonable anticipation of civil action.

(ii) Is in a system of records that has been exempt from access provisions of this part.

(iii) All systems of records maintained by the Defense Commissary Agency shall be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a(k)(1) to the extent that the system contains any information properly classified under Executive Order 12958 and which is required by the Executive Order to be withheld in the interest of national defense or foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary because certain record systems not otherwise specifically designated for exemptions herein may contain items of information that have been properly classified.

(iv) Is contained in a system of records for which access may be denied under some other Federal statute.

(v) All systems of records maintained by the DeCA shall be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a(k)(1) to the extent

5See footnote 3 to §327.5.
that the system contains any information properly classified under Executive Order 12958 and which is required by the Executive Order to be withheld in the interest of national defense of foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary because certain record systems not otherwise specifically designated for exemptions herein may contain items of information that have been properly classified.

(2) DeCA individuals will only be denied access to those portions of the records from which the denial of access serves some legitimate governmental purpose.

(3) Other reasons to refuse DeCA individuals are:
   (i) The request is not described well enough to locate it within a reasonable amount of effort by the PA Officer or PA Coordinator; or
   (ii) An individual fails to comply with the established requirements including refusing to name a physician to receive medical records when required or to pay fees.

(4) Only the DeCA IDA can deny access. This denial must be in writing and contain:
   (i) The date of the denial, name, title of position, and signature of the DeCA Initial Denial Authority.
   (ii) The specific reasons for the denial, including specific reference to the appropriate sections of the PA, other statutes, this part or the Code of Federal Regulations (CFR);
   (iii) Information providing the right to appeal the denial through the DeCa appeal procedure within 60 days, and the title, position and address of the DeCA PA Appellate Authority.

(d) Amendment of records. (1) DeCA employees are encouraged to review the personal information being maintained about them periodically. An individual may request amendment of any record contained in a system of records unless the system of records has been exempt specifically from the amendment procedures by the Director, DeCa. A request for amendment must include:
   (i) A description of the item or items to be amended.
   (ii) The specific reason for the amendment.
   (iii) The type of amendment action such as deletion, correction or addition.
   (iv) Copies of evidence supporting the request.

(2) The amendment process is not intended to permit the alteration of evidence presented in the course of judicial or quasi-judicial proceedings. Amendments to these records are made through specific procedures established for the amendment of these records.

(i) Written notification will be provided to the requester within 10 working days of its receipt by the DeCA PA Officer. No notification will be provided to the requester if the action completed within the 10 days. Only under exceptional circumstances will more than 30 days be required to reach the decision to amend a request. If the decision is to grant all or in part of the request for amendment, the record will be amended and the requester informed and all other offices/personnel known to be keeping the information.
§ 327.8 Disclosure of personal information to other agencies and third parties

(a) Disclosures and nonconsensual disclosures. (1) All requests made by DeCA individuals for personal information about other individuals (third parties) will be processed under DeCA Directive 30–12 except when the third party personal information is contained in the Privacy record of the individual making the request.

(2) For the purposes of disclosure and disclosure accounting, the Department of Defense is considered a single agency.

(3) Personal information from DeCA systems of records will not be disclosed outside the DoD unless:

(i) The record has been requested by the individual to whom it pertains,

(ii) Written consent has been given by the individual to whom the record pertains for release to the requesting agency, activity, or individual, or

(iii) The release is pursuant to one of the specific nonconsensual purposes set forth in the Act.

(4) Records may be disclosed without the consent of a DeCA individual to any DoD official who has need for the record in the performance of their assigned duties. Rank, position, or title alone does not authorize this access. An official need for this information must exist.

(5) DeCA records must be disclosed if their release is required by 32 CFR part 285, which is implemented by DeCA Directive 30–12. 32 CFR part 285 requires that records be made available to the public unless exempt from disclosure under the FOIA.

(b) Normally releasable information. Personal information that is normally releasable without the consent of a DeCA individual that does not imply a clearly unwarranted invasion of personal privacy:

(1) Civilian employees:

(ii) Present and past position titles,

(iii) Present and past grades,

(iv) Present and past salaries,

(v) Present and past duty stations,

(4) The release of DeCA employees’ home addresses and home telephone numbers is considered a clearly unwarranted invasion of personal privacy and is prohibited; however, these may be released without prior consent of the employee if:  
(i) The employee has indicated previously that he or she consents to their release,  
(ii) The releasing official was requested to release the information under the provisions of 32 CFR part 285.  
(5) Before listing home addresses and home telephone numbers in any DeCA telephone directory, give the individuals the opportunity to refuse such a listing.  
(c) Disclosures for established routine uses. (1) Records may be disclosed outside of DeCA without consent of the individual to whom they pertain for an established routine use.  
(2) A routine use shall:  
(i) Be compatible with the purpose for which the record was collected;  
(ii) Indicate to whom the record may be released;  
(iii) Indicate the uses to which the information may be put by the receiving agency; and  
(iv) Have been published previously in the Federal Register.  
(3) A routine use will be established for each user of the information outside DeCA who need official access to the records. This use may be discontinued or amended without the consent of the individual(s) involved. Any routine use that is new or changed is published in the Federal Register 30 days before actually disclosing the record. In addition to routine uses established by DeCA individual system notices, blanket routine uses have been established. See Appendix C to this part.  
(d) Disclosure without consent. DeCA records may be disclosed without the consent of the individual to whom they pertain to another agency within or under the control of the U.S. for a civil or criminal law enforcement activity if:  
(1) The civil or criminal law enforcement activity is authorized by law (Federal, State, or local); and  
(2) The head of the agency or instrumentality (or designee) has made a written request to the Component specifying the particular record or portion desired and the law enforcement activity for which it is sought.  
(3) Blanket requests for any and all records pertaining to an individual shall not be honored. The requesting agency or instrumentality must specify each record or portion desired and how each relates to the authorized law enforcement activity.  
(4) This disclosure provision applies when the law enforcement agency or instrumentality request the record, If the DoD Component discloses a record outside the DoD for law enforcement purposes without the individual’s consent and without an adequate written request, the disclosure must be pursuant to an established routine use, such as the blanket routine use for law enforcement.  
(e) Disclosures to the public from health care records. (1) The following general information may be released to the news media or public concerning a DeCA employee treated or hospitalized in DoD medical facilities and non-Federal facilities for whom the cost of the care is paid by DoD:

(3) Any item of personal information may be released on a DeCA patient if the patient has given consent to its release.

(4) This part does not limit the disclosure of personal medical information for other government agencies’ use in determining eligibility for special assistance or other benefits provided disclosure in pursuant to a routine use.

APPENDIX C TO PART 327–DeCA

BLANKET ROUTINE USES

(a) Routine Use—Law Enforcement. If a sys-
tem of records maintained by a DoD Compo-
nent, to carry out its functions, indicates a
violation or potential violation of law, whether civil, criminal, or regulatory in na-
ture, and whether arising by general statute or by regulation, rule, or order issued pursu-
ant thereto, the relevant records in the sys-
tem of records may be referred, as a routine use, to the agency concerned, whether Federal, State, local, or foreign, charged with the re-
ponsibility of investigating or prosecuting such violation or charged with enforcing or im-
plementing the statute, rule, regulation, or order issued pursuant thereto.

(b) Routine Use—Disclosure when Requesting Information. A record from a system of records maintained by a Component may be disclosed as a routine use to a Federal, State, or local agency maintaining civil, criminal, or other relevant enforcement in-
formation or other pertinent information, such as current licenses, if necessary to ob-
tain information relevant to a Component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit.

(c) Routine Use—Disclosure of Requested In-
formation. A record from a system of records maintained by a Component may be dis-

PART 336—PUBLICATIONS OF PROPOSED AND ADOPTED REGULATIONS AFFECTING THE PUBLIC

Sec.
336.1 Purpose.
336.2 Applicability and scope.
336.3 Policy.
336.4 Proposed regulations.
336.5 Publication in the FEDERAL REGISTER of adopted regulations and other matters.
336.6 Petitions.
336.7 Effective date and implementation.

AUTHORITY: 10 U.S.C. 125.

§ 336.1 Purpose.

This part:
(a) Establishes a policy and procedure by which the Department of Defense will invite the comments of the public on those of its proposed regulations and other types of rulemaking as described hereafter which originate within the Department of Defense as a requirement of general applicability and future effect designed to implement, interpret, or prescribe law or policy, or practice or procedure requirements of a component. This requirement applies to those regulations which constitute the authority for actions having a substantial and direct impact on the public when consistent with other responsibilities of the Department for the efficient and responsible conduct of public business.
(b) Implements the provisions of 5 U.S.C. 552 relating to the kinds of regulations that must be published in the FEDERAL REGISTER after they are adopted.

§ 336.2 Applicability and scope.

(a) The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, and the Defense Agencies (hereinafter referred to singularly as a “DoD component” or collectively as “DoD components”).
(b) These provisions are applicable to those directives, instructions, regulations, policy memoranda, manuals, and other forms of rulemaking (hereinafter referred to as “regulations”) that have a substantial and direct impact on the public. Only a regulation which must be published in the FEDERAL REGISTER after its adoption in accordance with 5 U.S.C. 552 (as implemented in §336.5) comes within the requirement that it be evaluated to determine whether it will have the substantial and direct impact on the public that warrants an invitation for public comment prior to its adoption. An implementation by a subordinate component of a regulation adopted by a component at a higher level within the Department of Defense is not deemed to “originate” a requirement of general applicability and future effect, and therefore, does not fall within the scope of the obligation to invite public comment on its provisions.
(c) The determination by the component originating a regulation shall be final and conclusive in determining whether a regulation or a proposed regulation comes within the purview of this part. Consideration shall be given, however, to the definition of “rulemaking” found in 5 U.S.C. 551 as it relates to the requirements of 5 U.S.C. 553 in making this determination.
(d) The requirement for inviting public comment on a proposed regulation shall not be deemed applicable to any proposed regulation coming within one or more of the following exemptions or exceptions to the rulemaking procedures set forth in 5 U.S.C. 553.
(1) Any matter pertaining to a military or foreign affairs function of the United States which has been determined under the criteria of an Executive Order or statute to require a security classification in the interests of national defense or foreign policy.
(2) Any matter relating to (i) agency management, (ii) agency personnel, or (iii) public contracts (e.g., the Armed Services Procurement Regulation), including nonappropriated fund contracts.
(3) Any matter involving (i) interpretative rules, (ii) general statements of
policy, or (ii) rules of agency organization, procedure, or practice.

(4) Any situation in which the DoD Component for good cause finds that inviting public comment on a proposed regulation is (i) impracticable, (ii) unnecessary, or (iii) contrary to the public interest, and incorporates in the adopted regulation that determination and its basis.

(e) Exceptions to the requirement in 5 U.S.C. 552 for publication in the Federal Register of adopted regulations for the guidance of the public shall be made in accordance with guidance provided in 32 CFR 286.8.

§ 336.3 Policy.

(a) It is the policy of the Department of Defense to encourage the maximum practicable participation of the public in the formulation of regulations having a substantial and direct impact on the public, and to inform the public fully through publication in the Federal Register of all adopted regulations intended for public guidance.

(b) A proposed regulation which would originate a Department of Defense policy having a substantial and direct impact on the public should be published, along with a notice of purpose and authority, in the Federal Register in order to invite public comment within a designated time at least 30 days prior to its intended adoption. This policy should be followed even though the proposed regulation may come within one or more of the exceptions or exemptions described in § 336.2(d) (2) (i) and (ii), (3) and (4), unless it is determined by the DoD Component as a matter within its sole and exclusive prerogative that the employment of the exception or exemption is appropriate to satisfy a significant and legitimate interest of the DoD Component or the public.

(c) After their adoption, all regulations for the guidance of the public shall be published in the Federal Register in accordance with 5 U.S.C. 552, even though they may come within one or more of the exemptions described in 32 CFR 286.6. If no significant and legitimate interest of the DoD Component or public precludes such publication. This policy extends to some adopted regulations for the guidance of the public which were not the subject of notice and public comment.

§ 336.4 Proposed regulations.

(a) The general notice of a proposed regulation shall be published in the Federal Register in accordance with the guidance contained in the “Federal Register Handbook on Document Drafting” (GSA), whenever that regulation would have a substantial and direct impact on the public or any significant portion of the public, unless it comes within one or more of the exceptions or exemptions previously set forth in § 336.2(d).

(b) The notice shall include:

(1) A statement of the purpose and objective of the proposed regulation;

(2) Reference to the legal authority under which the regulation is proposed; and

(3) The terms or substance of the proposed regulation.

(c) Whenever the originating DoD Component finds that notice and pre-publication of a proposed regulation for public comment are impracticable, unnecessary, or contrary to the public interest, it shall incorporate that finding and a brief statement of its reasons in the adopted regulation, or it may adopt and publish in the Federal Register a separate regulation excepting or exempting categories of regulations for any of these reasons, with an explanation of the basis for excepting or exempting each particular category. Separate regulations for this purpose shall be promulgated by the procedures for proposed rules whenever this falls within the requirements of paragraph (a) of this section.

(d) Following the publication of notice and the proposed regulation in the Federal Register, the DoD Component shall give all interested persons an opportunity to participate in the rulemaking through the submission of written data, views, or arguments. An
§ 336.5 Opportunity for oral presentation will normally not be provided, but may as a matter within the sole and exclusive prerogative of the component be extended where it is found to be in the interest of the DoD Component or the public. After careful consideration of all relevant matter presented, the component shall incorporate in the adopted regulation a concise general statement of its basis and purpose. A preamble to the adopted regulation may be published in the FEDERAL REGISTER to explain the relationship of the adopted rule to the proposed rule, including the nature and effect of public comments.

§ 336.5 Publication in the Federal Register of adopted regulations and other matters.

Subject to the exemptions set forth in 32 CFR 286.6:

(a) Each DoD Component shall publish in the FEDERAL REGISTER an informative, current description for the guidance of the public, of where, how, and by what authority it performs any of its functions. In deciding which information to publish in the FEDERAL REGISTER a DoD Component shall consider the fundamental objective of informing all interested persons of how to deal effectively with the component.

(b) Information to be published in the FEDERAL REGISTER shall include:

(1) Descriptions of the central and field organization of the component concerned, and the established places at which, the employees or members of the armed forces from whom, and the methods whereby the public may secure information, make submittals or requests, or obtain decisions.

(2) The procedures by which a DoD Component conducts its business with the public, both formally and informally.

(3) The rules of procedure which must be followed, the description of forms which must be completed, or the source from which forms may be obtained, and instructions on the scope and content of papers, reports, examinations required to be submitted pursuant to such rules of procedures, as adopted by the component.

(4) Directives, instructions, regulations, manuals, policy memorandums, statements of general policy, or interpretation of general applicability adopted by the agency, and other substantive rules of general applicability affecting the public.

(c) With the approval of the Director of the Federal Register, the requirement for publication in the FEDERAL REGISTER (1 CFR part 51, 37 FR 23614, Nov. 4, 1972) may be satisfied by reference in the FEDERAL REGISTER to other publications reasonably available to the class of persons affected and containing the information which must otherwise be published in the FEDERAL REGISTER.

(1) In order to be eligible for incorporation by reference, the matter must be in the nature of published data, criteria, standards, specifications, techniques, illustrations, or other published information reasonably available to members of class affected thereby.

(2) Incorporation by reference is not acceptable as a complete substitute for promulgating in full text material required to be published by 5 U.S.C. 552.

(3) Incorporation by reference is acceptable as a means of avoiding unnecessary repetition within the promulgated document of published information already reasonably available to the class affected. Examples include:

(i) Construction standards promulgated by a professional association or architects, engineers, or builders.

(ii) Code of ethics promulgated by professional organizations.

(iii) Forms and formats publicly or privately published and readily available to the persons required to use them.

(d) It is incumbent upon each component to review all information of the type described in paragraph (b) of this section, to insure that it is published on an up-to-date basis in the FEDERAL REGISTER, including every amendment revision, or repeal. No member of the general public can be required to resort to, or be adversely affected by, any material not published as required by the foregoing provisions of §336.5 unless he
has actual and timely notice of the content of that material.

§ 336.6 Petitions.

Each component shall accord any interested person the right to petition for the issuance, amendment, or repeal of a regulation that originates or would originate, for the Department of Defense or that component, a policy, requirement, or procedure coming within the scope of § 336.4. Any such petition shall be given full and prompt consideration by the component charged with the responsibility for issuing such a regulation. The petitioner shall be advised in writing of the disposition, and the reason for the disposition, of any written petition for the issuance, amendment, or repeal of a regulation. The official responsibility for disposition of the petition may at his absolute discretion, grant the petitioner a right to appear for the purpose of supporting his petition if this is compatible with the orderly conduct of public business.

§ 336.7 Effective date and implementation.

This part becomes effective on February 1, 1975, but is applicable only to the regulations promulgated under the authority of a component after April 1, 1975. Two copies of implementing regulations shall be forwarded to the General Counsel of the Department of Defense on or before April 1, 1975.

§ 362.1 Purpose.

This part changes the name of the Defense Communications Agency (DCA) to the Defense Information Systems Agency (DISA) and revises the responsibilities, functions, relationships, and authorities of the DISA. For the purposes of 10 U.S.C. 193, any other law or regulation, or for any other purpose, DISA will perform the functions of the Defense Communications Agency.

§ 362.2 Definitions.

(a) Defense Communications System (DCS). (1) The DCS is a composite of DoD-owned and -leased telecommunications subsystems and networks comprised of facilities, personnel, and material under the management control and operational direction of the DISA. It provides the longhaul, point-to-point, and switched network telecommunications needed to satisfy the requirements of the Department of Defense and certain other Government Agencies, including those required to interconnect the NCA, the Chairman of the Joint Chiefs of Staff, and the Unfied and Specified Commanders with the general purpose networks.

(2) The DCS includes fixed, transportable, and mobile facilities. It consists of:

(i) Switching and/or relay facilities to include associated software of the general purpose (common user) networks, such as Defense Switched Network (DSN), Automatic Digital Network (AUTODIN), Defense Data Network (DDN), and Secure Voice System.

(ii) Transmission media and/or circuits that provide user and/or subscriber connection into the DCS networks, or which interconnect the switching and/or relay facilities and/or the user and/or subscriber terminals in use by the DCS. This includes the assets of the Defense Satellite Communications System, except those portions that are specifically excluded from the DCS.

(3) Although the DISA specifies the interconnection and interface standards when operated with DCS networks, the DCS does not include:

(i) Mobile and/or transportable communications facilities and assets organic to Army, Navy, Air Force, and Fleet Marine forces, unless specifically designated as components of the DCS.

(ii) Ship and/or ship, ship and/or shore, air and/or air, air and/or ground, and other tactical telecommunications.

(iii) Post, camp, base, and station user and/or subscriber facilities and terminals.

(iv) On-site telecommunications facilities associated with or integral to weapons systems and to missile launch complexes, including those required for countdown, command, control, weapons destruct, and range safety.

(v) Consoles and display devices integral to the Unified and Specified Command Centers, their DoD Component Headquarters, and the Military Services' operations centers.

(b) Fielding Plan. A fielding plan details the coordination and execution involved in the deployment of a system or equipment, and addresses interoperability opportunities and constraints. The plan includes sufficient information for a common understanding between the program sponsor and the
§ 362.2 Gaining command for equipment quantities, implementation schedules, skill qualifications and training, and any additional manpower, facilities, or support requirements.

(c) Long-haul Telecommunications. All general purpose and special purpose long-distance facilities and services (including terminal equipment and local circuitry supporting the long-haul service) used to support the electromagnetic and/or optical dissemination, transmission, or reception of information via voice, data, video, integrated telecommunications, wire, or radio to or from the post, camp, base, or station switch and/or main frame (except for trunk lines to the first-serving commercial central office for local communications services). That includes the FTS2000, DSN, DDN, the AUTODIN, dedicated point-to-point service, and the Primary Interexchange Carrier service associated with business or tie line to the local exchange carrier (e.g., Direct Distance Dialing, Foreign Exchange, WATS, 800 service, etc.) and contractor-provided telecommunications, including the interconnection of various functional Automated Data Processing Systems.

(e) Military Satellite Communications (MILSATCOM) Systems. The totality of existing and planned DoD satellite communications capability consisting of the space, ground, and control segments. MILSATCOM systems include the interfaces between satellite systems and ground segments, and the interfaces with other communications systems.

(f) National Communications System (NCS). (1) The NCS was established by E.O. 12472 (3 CFR, 1984 Comp., p. 193). It consists of the telecommunications assets of the entities represented on the NCS Committee of Principals and an administrative structure consisting of the Executive Agent, the NCS Committee of Principals, and the Manager.

(2) The mission of the NCS is to assist the President, the National Security Council, the Director of the Office of Science and Technology Policy, and the Director of the Office of Management and Budget in:

(i) The exercise of the telecommunications functions and responsibilities assigned in E.O. 12472.

(ii) The coordination of the planning for, and provision of, national security emergency preparedness communications for the Federal Government under all circumstances, including crisis or emergency, attack, recovery, and reconstitution.

(g) National Military Command System (NMCS). The NMCS is the priority DoD Component of the WWMCS designed to support the NCA in the exercise of its responsibilities. It also supports the Chairman of the Joint Chiefs of Staff in the exercise of his responsibilities.

(h) Operational Test Agency (OTA). Separate and independent from the material developing and/or procuring Agency and from the using Agency, the major field OTA shall be responsible for planning and conducting operational tests, reporting test results, and providing an evaluation of the tested system’s operational effectiveness and suitability directly to the Agency’s Director.

(i) Procedural Interface Standards. Specifications for accomplishing the exchange of information across an interface. They define:

(1) The form or format in which information is to be exchanged.

(2) The prescribed information exchange language, syntax, and vocabulary to be used in the information exchange.

(3) Interface operating procedures that govern the information exchange.

(j) Technical Interface Standards. Specifications of the functional, electrical, and physical characteristics necessary to allow the exchange of information across an interface between different C3 and information systems or equipment.
