

under appropriate conditions determined by the Chief, Forest Service.

(b) Grazing of domestic livestock, development of water storage projects which do not involve road construction, and improvements necessary for the protection of the National Forests may be permitted, subject to such restrictions as the Chief, Forest Service, deems desirable. Within Primitive Areas, when the use is for other than administrative needs of the Forest Service, use by other Federal agencies when authorized by the Chief, and in emergencies, the landing of aircraft and the use of motorboats are prohibited on National Forest land or water unless such use by aircraft or motorboats has already become well established, the use of motor vehicles is prohibited, and the use of other motorized equipment is prohibited except as authorized by the Chief. These restrictions are not intended as limitations on statutory rights of ingress and egress or of prospecting, locating, and developing mineral resources.

(c) All prohibitions for those areas of National Forest classified as *Primitive* on the effective date of the Wilderness Act, September 3, 1964, are in part 261.

(78 Stat. 890, 16 U.S.C. 1131-1136; 74 Stat. 215, 16 U.S.C. 528-531)

PART 294—SPECIAL AREAS

Sec.

Subpart A—Miscellaneous Provisions

294.1 Recreation areas.

294.2 Navigation of aircraft within airspace reservation over the Boundary Waters Canoe Area Wilderness, Superior National Forest, Minnesota.

294.3-294.9 [Reserved]

Subpart B—Protection of Inventoried Roadless Areas

294.10 Purpose.

294.11 Definitions.

294.12 Prohibition on road construction and road reconstruction in inventoried roadless areas.

294.13 Prohibition on timber cutting, sale, or removal in inventoried roadless areas.

294.14 Scope and applicability.

Subpart A—Miscellaneous Provisions

AUTHORITY: 16 U.S.C. 472, 551, and 1131.

§ 294.1 Recreation areas.

Suitable areas of national forest land, other than wilderness or wild areas, which should be managed principally for recreation use may be given special classification as follows:

(a) Areas which should be managed principally for recreation use substantially in their natural condition and on which, in the discretion of the officer making the classification, certain other uses may or may not be permitted may be approved and classified by the Chief of the Forest Service or by such officers as he may designate if the particular area is less than 100,000 acres. Areas of 100,000 acres or more will be approved and classified by the Secretary of Agriculture.

(b) Areas which should be managed for public recreation requiring development and substantial improvements may be given special classification as public recreation areas. Areas in single tracts of not more than 160 acres may be approved and classified by the Chief of the Forest Service or by such officers as he may designate. Areas in excess of 160 acres will be classified by the Secretary of Agriculture. Classification hereunder may include areas used or selected to be used for the development and maintenance as camp grounds, picnic grounds, organization camps, resorts, public service sites (such as for restaurants, filling stations, stores, horse and boat liveries, garages, and similar types of public service accommodations), bathing beaches, winter sports areas, lodges, and similar facilities and appurtenant structures needed by the public to enjoy the recreation resources of the national forests. The boundaries of all areas so classified shall be clearly marked on the ground and notices of such classification shall be posted at conspicuous places thereon. Areas classified under this section shall thereby be set apart and reserved for public recreation use and such classification shall constitute a formal closing of the

Forest Service, USDA

§ 294.11

area to any use or occupancy inconsistent with the classification.

[38 FR 5859, Mar. 5, 1973, as amended at 66 FR 3272, Jan. 12, 2001]

§ 294.2 Navigation of aircraft within airspace reservation over the Boundary Waters Canoe Area Wilderness, Superior National Forest, Minnesota.

(a) *Description of areas.* Sections 294.2(b) to 294.2(f), inclusive, apply to those areas of land and water in the Counties of Cook, Lake, and St. Louis, State of Minnesota, within the exterior boundaries of the Superior National Forest, which have heretofore been designated by the Secretary of Agriculture as the Superior Roadless Area, the Little Indian Sioux Roadless Area, and the Caribou Roadless Area, respectively, and to the airspace over said areas and below the altitude of 4,000 feet above sea level. Said areas are more particularly described in the Executive order setting apart said airspace as an airspace reservation (E.O. 10092, Dec. 17, 1949; 3 CFR 1949 Supp.). Copies of said Executive order may be obtained on request from the Forest Supervisor, Superior National Forest, Duluth, Minnesota (hereinafter called *Forest Supervisor*).

(b) *Emergency landing and rescue operations.* The pilot of any aircraft landing within any of said areas for reasons of emergency or for conducting rescue operations, shall inform the Forest Supervisor within seven days after the termination of the emergency or the completion of the rescue operation as to the date, place, and duration of landing, and the type and registration number of the aircraft.

(c) *Low flights.* Any person making a flight within said airspace reservation for reasons of safety or for conducting rescue operations shall inform the Forest Supervisor within seven days after the completion of the flight or the rescue operation as to the date, place, and duration of flight, and the type and registration number of the aircraft.

(d) *Official flights.* The provisions of §§ 294.2(b) and 294.2(c) do not apply to flights made for conducting or assisting in the conduct of official business of the United States, of the State of

Minnesota or of Cook, St. Louis, or Lake Counties, Minnesota.

(e) *Conformity with law.* Nothing in these regulations shall be construed as permitting the operation of aircraft contrary to the provisions of the Civil Aeronautics Act of 1938 (52 Stat. 973), as amended, or any rule, regulation or order issued thereunder.

[38 FR 5859, Mar. 5, 1973, as amended at 50 FR 16232, Apr. 25, 1985; 66 FR 3272, Jan. 12, 2001]

§§ 294.3–294.9 [Reserved]

Subpart B—Protection of Inventoried Roadless Areas

AUTHORITY: 16 U.S.C. 472, 529, 551, 1608, 1613; 23 U.S.C. 201, 205.

SOURCE: 66 FR 3272, Jan. 12, 2001, unless otherwise noted.

§ 294.10 Purpose.

The purpose of this subpart is to provide, within the context of multiple-use management, lasting protection for inventoried roadless areas within the National Forest System.

§ 294.11 Definitions.

The following terms and definitions apply to this subpart:

Inventoried roadless areas. Areas identified in a set of inventoried roadless area maps, contained in Forest Service Roadless Area Conservation, Final Environmental Impact Statement, Volume 2, dated November 2000, which are held at the National headquarters office of the Forest Service, or any subsequent update or revision of those maps.

Responsible official. The Forest Service line officer with the authority and responsibility to make decisions regarding protection and management of inventoried roadless areas pursuant to this subpart.

Road. A motor vehicle travelway over 50 inches wide, unless designated and managed as a trail. A road may be classified, unclassified, or temporary.

(1) *Classified road.* A road wholly or partially within or adjacent to National Forest System lands that is determined to be needed for long-term motor vehicle access, including State roads, county roads, privately owned roads, National Forest System roads,

§ 294.12

36 CFR Ch. II (7-1-02 Edition)

and other roads authorized by the Forest Service.

(2) *Unclassified road.* A road on National Forest System lands that is not managed as part of the forest transportation system, such as unplanned roads, abandoned travelways, and off-road vehicle tracks that have not been designated and managed as a trail; and those roads that were once under permit or other authorization and were not decommissioned upon the termination of the authorization.

(3) *Temporary road.* A road authorized by contract, permit, lease, other written authorization, or emergency operation, not intended to be part of the forest transportation system and not necessary for long-term resource management.

Road construction. Activity that results in the addition of forest classified or temporary road miles.

Road maintenance. The ongoing upkeep of a road necessary to retain or restore the road to the approved road management objective.

Road reconstruction. Activity that results in improvement or realignment of an existing classified road defined as follows:

(1) *Road improvement.* Activity that results in an increase of an existing road's traffic service level, expansion of its capacity, or a change in its original design function.

(2) *Road realignment.* Activity that results in a new location of an existing road or portions of an existing road, and treatment of the old roadway.

Roadless area characteristics. Resources or features that are often present in and characterize inventoried roadless areas, including:

(1) High quality or undisturbed soil, water, and air;

(2) Sources of public drinking water;

(3) Diversity of plant and animal communities;

(4) Habitat for threatened, endangered, proposed, candidate, and sensitive species and for those species dependent on large, undisturbed areas of land;

(5) Primitive, semi-primitive non-motorized and semi-primitive motorized classes of dispersed recreation;

(6) Reference landscapes;

(7) Natural appearing landscapes with high scenic quality;

(8) Traditional cultural properties and sacred sites; and

(9) Other locally identified unique characteristics.

§ 294.12 Prohibition on road construction and road reconstruction in inventoried roadless areas.

(a) A road may not be constructed or reconstructed in inventoried roadless areas of the National Forest System, except as provided in paragraph (b) of this section.

(b) Notwithstanding the prohibition in paragraph (a) of this section, a road may be constructed or reconstructed in an inventoried roadless area if the Responsible Official determines that one of the following circumstances exists:

(1) A road is needed to protect public health and safety in cases of an imminent threat of flood, fire, or other catastrophic event that, without intervention, would cause the loss of life or property;

(2) A road is needed to conduct a response action under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) or to conduct a natural resource restoration action under CERCLA, Section 311 of the Clean Water Act, or the Oil Pollution Act;

(3) A road is needed pursuant to reserved or outstanding rights, or as provided for by statute or treaty;

(4) Road realignment is needed to prevent irreparable resource damage that arises from the design, location, use, or deterioration of a classified road and that cannot be mitigated by road maintenance. Road realignment may occur under this paragraph only if the road is deemed essential for public or private access, natural resource management, or public health and safety;

(5) Road reconstruction is needed to implement a road safety improvement project on a classified road determined to be hazardous on the basis of accident experience or accident potential on that road;

(6) The Secretary of Agriculture determines that a Federal Aid Highway project, authorized pursuant to Title 23 of the United States Code, is in the

public interest or is consistent with the purposes for which the land was reserved or acquired and no other reasonable and prudent alternative exists; or

(7) A road is needed in conjunction with the continuation, extension, or renewal of a mineral lease on lands that are under lease by the Secretary of the Interior as of January 12, 2001 or for a new lease issued immediately upon expiration of an existing lease. Such road construction or reconstruction must be conducted in a manner that minimizes effects on surface resources, prevents unnecessary or unreasonable surface disturbance, and complies with all applicable lease requirements, land and resource management plan direction, regulations, and laws. Roads constructed or reconstructed pursuant to this paragraph must be obliterated when no longer needed for the purposes of the lease or upon termination or expiration of the lease, whichever is sooner.

(c) Maintenance of classified roads is permissible in inventoried roadless areas.

§ 294.13 Prohibition on timber cutting, sale, or removal in inventoried roadless areas.

(a) Timber may not be cut, sold, or removed in inventoried roadless areas of the National Forest System, except as provided in paragraph (b) of this section.

(b) Notwithstanding the prohibition in paragraph (a) of this section, timber may be cut, sold, or removed in inventoried roadless areas if the Responsible Official determines that one of the following circumstances exists. The cutting, sale, or removal of timber in these areas is expected to be infrequent.

(1) The cutting, sale, or removal of generally small diameter timber is needed for one of the following purposes and will maintain or improve one or more of the roadless area characteristics as defined in § 294.11.

(i) To improve threatened, endangered, proposed, or sensitive species habitat; or

(ii) To maintain or restore the characteristics of ecosystem composition and structure, such as to reduce the risk of uncharacteristic wildfire ef-

fects, within the range of variability that would be expected to occur under natural disturbance regimes of the current climatic period;

(2) The cutting, sale, or removal of timber is incidental to the implementation of a management activity not otherwise prohibited by this subpart;

(3) The cutting, sale, or removal of timber is needed and appropriate for personal or administrative use, as provided for in 36 CFR part 223; or

(4) Roadless characteristics have been substantially altered in a portion of an inventoried roadless area due to the construction of a classified road and subsequent timber harvest. Both the road construction and subsequent timber harvest must have occurred after the area was designated an inventoried roadless area and prior to January 12, 2001. Timber may be cut, sold, or removed only in the substantially altered portion of the inventoried roadless area.

§ 294.14 Scope and applicability.

(a) This subpart does not revoke, suspend, or modify any permit, contract, or other legal instrument authorizing the occupancy and use of National Forest System land issued prior to January 12, 2001.

(b) This subpart does not compel the amendment or revision of any land and resource management plan.

(c) This subpart does not revoke, suspend, or modify any project or activity decision made prior to January 12, 2001.

(d) This subpart does not apply to road construction, reconstruction, or the cutting, sale, or removal of timber in inventoried roadless areas on the Tongass National Forest if a notice of availability of a draft environmental impact statement for such activities has been published in the FEDERAL REGISTER prior to January 12, 2001.

(e) The prohibitions and restrictions established in this subpart are not subject to reconsideration, revision, or rescission in subsequent project decisions or land and resource management plan amendments or revisions undertaken pursuant to 36 CFR part 219.

(f) If any provision of the rules in this subpart or its application to any person or to certain circumstances is

held invalid, the remainder of the regulations in this subpart and their application remain in force.

PART 295—USE OF MOTOR VEHICLES OFF FOREST SERVICE ROADS

Sec.

295.1 Applicability.

295.2 Planning and designation for use of vehicles off National Forest System roads.

295.3 Public participation.

295.4 Public information.

295.5 Monitoring effects of vehicle use off National Forest System roads.

295.6 Revision of off-road vehicle management plans.

AUTHORITY: 30 Stat. 35, as amended (16 U.S.C. 551); 50 Stat. 525, as amended (7 U.S.C. 1011); E.O. 11644, 11989 (42 FR 26959).

SOURCE: 43 FR 20006, May 10, 1978, unless otherwise noted.

§ 295.1 Applicability.

The regulations in the following parts pertain to administrative designation and location of specific areas and trails of National Forest System lands on which the use of vehicles traveling off National Forest System roads is allowed, restricted or prohibited. Prohibitions regarding use of vehicles off roads is provided in 36 CFR part 261.

[43 FR 20006, May 10, 1978, as amended at 66 FR 3218, Jan. 12, 2001]

§ 295.2 Planning and designation for use of vehicles off National Forest System roads.

(a) On National Forest System lands, the continuing land management planning process will be used to allow, restrict, or prohibit use by specific vehicle types off roads. This process will include coordination with appropriate Federal, State and local agencies. The planning process will analyze and evaluate current and potential impacts arising from operation of specific vehicle types on soil, water, vegetation, fish and wildlife, forest visitors and cultural and historic resources. If the analysis indicates that the use of one or more vehicle types off roads will cause considerable adverse effects on the resources or other forest visitors, use of the affected areas and trails by the vehicle type or types likely to

cause such adverse effects will be restricted or prohibited until such time as the adverse effects can be eliminated as provided in 36 CFR part 261.

(b) Off-road vehicle management plans shall provide vehicle management direction aimed at resource protection, public safety of all users, minimizing conflicts among users, and provide for diverse use and benefits of the National Forests. Designation of areas and trails shall be in accordance with the following:

(1) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, or other resources of the public lands.

(2) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats.

(3) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

(4) Areas and trails shall not be located in officially designated Wilderness Areas or Primitive Areas.

However, this does not preclude the use of any fire, military, emergency, or law enforcement vehicle for emergency purposes, or the use of any combat or combat support vehicle for national defense purposes, or registered motorboats, or vehicle use expressly authorized by the Chief, Forest Service, under a permit, lease, license, or contract.

§ 295.3 Public participation.

The public shall be provided an opportunity to participate in the process of allowing, restricting, or prohibiting use of areas and trails to one or more specific vehicle types off forest development roads. Sixty days advance notice will be given to allow for public review of proposed or revised designations. In emergency situations, temporary designations up to one year in length may be made or revised without public participation if needed to protect the resources and/or to provide for public safety.
