To cite the regulations in this volume use title, part and section number. Thus, 7 CFR 700.1 refers to title 7, part 700, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 as of January 1
- Title 17 through Title 27 as of April 1
- Title 28 through Title 41 as of July 1
- Title 42 through Title 50 as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 2002), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, or 1973–1985, published in seven separate volumes. For the period beginning January 1, 1986, a "List of CFR Sections Affected" is published at the end of each CFR volume.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

Properly approved incorporations by reference in this volume are listed in the Finding Aids at the end of this volume.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed in the Finding Aids of this volume as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, Washington DC 20408, or call (202) 523–4534.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of "Title 3--The President" is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the "Contents" entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.
REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

SUBCHAPTER A—AGRICULTURAL CONSERVATION PROGRAM

PART 700—EXPERIMENTAL RURAL CLEAN WATER PROGRAM

Subpart A—General

§ 700.1 Purpose and scope.

(a) The purpose of this part is for the U.S. Department of Agriculture (USDA), with certain concurrences by the U.S. Environmental Protection Agency (EPA), to set forth regulations to carry out an experimental Rural Clean Water Program (RCWP) as authorized by the Agriculture, Rural Development and Related Agencies Appropriations Act, fiscal year 1980, Pub. L. 96-108 (hereinafter referred to as the “1980 Appropriations Act”) and subsequent appropriations.

(b) The RCWP will provide financial and technical assistance to private land owners and operators (participants) having control of agricultural land. The assistance is provided through long-term contracts of 3 to 10 years to install best management practices (BMPs) in approved project areas which have critical water quality problems resulting from agricultural activities. The project area must reflect the water quality priority concerns developed through the established water quality management program process. Participation RCWP is voluntary.

(c) This is a new USDA program using the experiences under various ongoing USDA programs and the established water quality management program of EPA.

§ 700.2 Objective.

The objectives of the RCWP are to:

(a) Improve impaired water use and quality in the approved project area in the most cost-effective manner possible in keeping with the provision of adequate supplies of food, fiber, and a quality environment.

(b) Assist agricultural land owners and operators to reduce agricultural nonpoint source water pollutants and to improve water quality in rural areas to meet water quality standards or water quality goals.

(c) Develop and test programs, policies and procedures for the control of agricultural nonpoint source pollution.

§ 700.3 Administration.

At the national level, the Secretary of Agriculture will administer the RCWP in consultation with the Administrator, EPA, including EPA’s concurrence in the selection of the BMPs, as provided in the 1980 Appropriations Act and subsequent appropriations. Authority to approve projects is reserved to the Secretary. The Secretary of Agriculture hereby delegates responsibility for administration of the program to the Administrator, Farm Service Agency (FSA) and the coordination of technical assistance to the Chief, Soil Conservation Service (SCS). FSA will be assisted by other USDA agencies in accordance with existing authorities.

(a) A National Rural Clean Water Coordinating Committee (NCC), chaired by the Administrator, FSA, will assist in carrying out the RCWP.

(b) A State Rural Clean Water Coordinating Committee (SCC) will assist the State ASC Committee in administering the program. The State ASC Committee Chairperson will chair the SCC. Where two or more States are involved in a project area the Deputy Administrator, State and County Operations (DASCO), FSA, shall develop a coordinating process.

(c) A Local Rural Clean Water Coordinating Committee (LCC) will be established to assure coordination at the project level. The LCC committee will be chaired by the County ASC Committee Chairperson and will assist the County ASC Committee as provided in these regulations and as otherwise developed by the SCC and the LCC. Where two or more counties are involved in a project area, the SCC shall develop a coordinating process.

§ 700.4 Definitions.

(a) Adequate Level of Participation. An adequate level of participation is reached when participants having control of 75 percent (unless a different level is approved by the Administrator, FSA, with the concurrence of the NCC), of the identified critical area(s) or source(s) of the agricultural nonpoint source pollution problem in the project area, are under contract.

(b) Administrative Services. The administration of the RCWP except for the technical phases as assigned in §700.5 of these regulations.

Loss of income from crops during the first twelve months following the conversion of productive cropland to permanent vegetative cover or trees may be considered a part of the BMP cost for a project where it is determined that harvesting or grazing restrictions are necessary in order to establish properly the practice and the reimbursement for loss of income is necessary to provide incentives to achieve an adequate level of participation as defined in 7 CFR 700.4(a). (q) **Direct Costs.** The costs that can be specifically identified with the program.

(r) **Farmer/Rancher.** An owner and/or operator who has a vested interest in the operation of the farm or ranch.

(s) **Federal Funds Authorized.** The total amount of funds authorized to approved projects.

(t) **Fiscal Year.** The fiscal year beginning October 1 and ending September 30.

(dd) **Project Area.** The geographic determination included in the project application as agreed upon by the SCC and LCC, and approved by the Secretary, utilizing the water quality planning process which identifies agricultural nonpoint source water quality problems.

(ee) **Project Life Span.** The maximum total life span of a project shall be not greater than fifteen (15) years from the date RCWP funds are first made available for the project.
§ 700.5 Responsibilities.

(1) Forfeits all right to any future cost-share payments on the transferred portion.

(2) Must refund all cost-share payments that have been made on the transferred land unit unless the new land owner or operator becomes a party to the contract, except the payment may be retained where it is determined by the County ASC Committee after consultation with the technical agency and the CD, that the established BMPs will provide water quality benefits for the designed life of the BMP.

(g) If the new land owner or operator becomes a party to the contract:

(1) Payment which has been earned, may be made to the participant who applied the BMPs and had control prior to the transfer.

(2) The new land owner or operator is to assume all obligations of the previous participant with respect to the transferred land.

(3) The contract with the new participant is to remain in effect with the original terms and conditions, except that;

If the costs at the start of installation are higher, payment may be made at the higher rate. A modification will be necessary if the higher cost results in a significant increase in the total cost-share obligation. Cost-share payment is not to be made until the modification reflecting the increase is approved.

(d) Average cost development. Average costs are to be developed by the County ASC Committee for each project using cost data from the local area. These costs shall be reviewed by the SCC for consistency with average costs in other USDA programs. These average costs shall be updated annually by the County ASC Committee in consultation with the LCC.

(e) Application for payment. Cost-share payments shall be made by the County ASC Committee after a participant has completed a BMP or an identifiable unit of a BMP and it is determined to

§ 701.9 Conservation practices.

Conservation practices as specified by the Deputy Administrator, State and County Operations, FSA, are made available nationally under the Agricultural Conservation Program and may be included in the State and county programs. Practices shall not be primarily production oriented or have little or no conservation or pollution abatement benefits. The practices are designed to be consistent with the agricultural conservation policy stated in section 7 of the Soil Conservation and Domestic Allotment Act, as amended, and national program policy, and are developed primarily to meet a definite need to accomplish one or more of the following:

(a) Establish long-lasting protective cover.

(b) Improve or sustain existing protective cover.

(c) Conserve or safely dispose of water.

(d) Benefit wildlife.
§ 701.10  
(e) Establish or improve stands of forest trees.  
(f) Give protection against soil erosion.  
(g) Prevent or abate agricultural-related pollution of water, land, and air.  
(h) Meet special State or county conservation needs.  
(i) Encourage energy conservation practices.

[45 FR 49522, July 25, 1980, as amended at 47 FR 939, Jan. 8, 1982]

§ 701.10 County programs.  
(a) A program shall be developed in each county by the county committee, in consultation with the county conservation review group, in accordance with the National and State development guidelines and policies provided. At least one public meeting per year shall be held for this purpose.  
(b) The county program shall be that approved by the State committee and the Secretary or designee.

§ 701.11 State programs.  
(a) The State committee, in consultation with the State conservation review group, shall develop recommendations for the State program. The chairperson of the State conservation review group may also invite others with conservation or water quality interests to participate in such deliberations. At least one public meeting per year shall be held for this purpose.  
(b) The State program shall consist of the guidelines and practices selected by the State committee after considering the recommendations submitted by the county committee to the State review group and approved by the Secretary or designee.

§ 701.12 Selection of practices.  
The practices to be included in the State or county program shall be only those practices for which cost-sharing is essential to permit accomplishment of the program objective.

§ 701.13 Levels and rates of cost-sharing.  
(a) The maximum level of cost-sharing for each practice shall be the percentage of the average cost of performing the practice considered necessary to obtain the needed performance of the practice, but at a level such that the participant will make a significant contribution to the cost of performing the practice.  
(b) Levels of cost-sharing under annual agreements for each practice shall not be in excess of 75 percent of the average cost of carrying out the practice as determined by the county committee. However, where the Deputy Administrator, State and County Operations, determines a higher level of cost-sharing is necessary to provide adequate incentive for producer to carry out a conservation practice, the Deputy Administrator, State and County Operations, may specifically authorize a higher level. (See § 701.19 for special provision for low-income farmers.)  
(c) Levels of cost-sharing under long term agreements shall not be in excess of 75 percent nor less than 50 percent of the average cost for each practice as determined by the county committee.  
(d) For the purpose of establishing rates of cost-sharing, the average cost of performing a practice may be the average cost for a county or a part of a county, as determined by the county committee.

[45 FR 49522, July 25, 1980, as amended at 47 FR 939, Jan. 8, 1982]

§ 701.14 Starting of practices.  
Costs will not be shared for practices or components of practices that are started before a formal approval is given by the county committee.  

[47 FR 939, Jan. 8, 1982]

§ 701.15 Method of approval.  
The county committee will determine the extent to which Federal funds will be made available to share the cost of each approved practice, taking into consideration the county allocation, the conservation and environmental problems in the county, the land involved, and the practices for
which requested cost-sharing is considered by the county committee as most needed. The method approved shall provide for the issuance of notices of approval showing for each approved practice the number of units of the practice for which the Federal Government will share in the cost and the amount of the cost-share for the performance of that number of units of the practice. To the extent practicable, notices of approved practices shall be issued before performance of the practice is started. No practice may be approved for cost-sharing except as authorized by the county program, or in accordance with procedures incorporated therein. Available funds for cost-sharing shall not be allocated on a pro-rata basis, but shall be directed to the accomplishment of the most enduring benefits attainable.

(a) Cost-sharing may be approved under annual agreements or long-term agreements.

(b) Annual agreements may be approved in all counties. Long-term agreements are limited to farms or ranches which are within Soil Conservation Districts (or comparable districts) through which the Soil Conservation Service provides planning and technical services, except:

(1) Farms and ranches located within a county designated for the Great Plains Conservation Program are only eligible for long-term agreements that cover part of a farm. Long-term agreements that cover whole farms shall not be approved in these counties.

(2) Farms and ranches not located within a Soil Conservation District (or comparable district) may be eligible for a long-term agreement, provided conservation plans of operations are developed by the farmer or rancher in cooperation with the Soil Conservation Service and approved by an appropriate State official or, in cases where an appropriate State official is not available, approved by the Soil Conservation Service.

§ 701.16 Long-term agreements.

(a) The period of a long-term agreement will be for not less than three (3) program years nor more than ten (10) program years. The county committee and the signatories to the agreement in consultation with the Soil Conservation Service representative, will mutually determine the period of the agreement.

(b) The long-term agreement will be based on a conservation plan of operations for the farm or ranch or portion thereof which has been approved by the Soil Conservation District (or comparable district) or, for farms or ranches not located in a Soil Conservation District (or comparable district), by an appropriate State official or the Soil Conservation Service, as applicable.

(c) The long-term agreement will provide that the farmer or rancher will carry out those measures in the conservation plan of operations which are determined to be essential to meeting the basic conservation needs of the farm or ranch, or portion thereof, whether or not cost-sharing is approved for such measures.

(d) The owner of the farm or ranch will be required to be a signatory to a long-term agreement, whether or not that person contributes to the cost of approved practices thereon.

(e) Any signatory to a long-term agreement who is not an owner of the farm or ranch must provide assurance of control of the land for the duration of the period of the agreement.

(f) The level of cost-sharing, as provided in §701.13, in effect for practices in all years of a long-term agreement shall be the level in effect for the beginning year of the agreement. The rate of cost-sharing for payment purposes for such practice will be based on the average cost of performing the practice at the time the practice is performed.

(g) A long-term agreement may be cancelled for failure to comply with the terms of the agreement if, after consulting with the Soil Conservation District (or comparable district) board or, if none exists, with a representative of the Soil Conservation Service, the county committee and State committee find that the seriousness of the irregularities warrant such action. If the agreement is cancelled, the signatories to the agreement are jointly and severally responsible for refunding all cost-shares paid and will forfeit all rights to further payments under the
agreement. In such a case, no other re- 

fund or forfeiture provisions of these 

regulations apply.

(h) A long-term agreement may be 

revised in accordance with instructions 

issued by the Deputy Administrator, 

State and County Operations, by mu- 

tual agreement between the signatories 

to the agreement and the county com- 

mittee based on approved changes in 

the Conservation plan of operations for 

the farm or ranch.

(i) An eligible person who acquires 

control of land under an approved 

agreement may elect to become a suc- 

cessor in interest under such agree- 

ment.

(j) An agreement will be terminated 

with respect to land for which loss of 

control has occurred and where the 

person acquiring control of such land 
elects not to become a successor in in- 

terest under the agreement. If the loss 
of control is for reasons beyond the 

control of the signatories to the agree- 

ment, the county committee will de- 

termine whether or not any cost-shares 

previously paid shall be refunded, but 
in no event shall the refund be greater 
than would be required in cases where 

loss of control is voluntary. If the loss 
of control is voluntary on the part of 

the signatories to the agreement, the 

signatories will be jointly and sever- 

ally responsible for refunding all cost- 

shares paid and will forfeit all rights to 

further payments, with respect to the 

land for which control is lost. However, 
a refund will not be required for cost- 

shares where, the county committee 

and the State committee determine, 
after consulting with a representative 
of the Soil Conservation Service, that 

failure to perform the remaining prac- 
tices in the agreement will not impair 

the effectiveness of the practices which 
have been performed and that the com- 

pleted practices have provided con- 
servation benefits consistent with the 
cost-shares which have been paid.

(k) An agreement may be terminated 

by the county committee, after consid- 
ering the recommendation of the Soil 

Conservation District (or comparable 
district) board or, if none exists, with a 

representative of the Soil Conservation 

Service, if such action is in the public 

interest. The county committee will 
determine the amount of cost-shares 

previously paid that shall be refunded.

(l) An agreement may be terminated 

by the county committee upon the 

written request of the participant(s) to 
an agreement where no cost-shares 
have been paid for any of the scheduled 
practices and where the participant(s) 
does(do) not intend to perform any of 
the scheduled practices.

§ 701.17 Replacement, enlargement, or 

restoration.

The establishment or installation of 
a practice, for the purposes of the pro-

gram shall be deemed to include the re-

placement, enlargement, or restoration 
of a practice for which cost-sharing has 
been allowed if the practice has served 
for its normal lifespan, or if all of the 

following conditions exist:

(a) Replacement, enlargement, or 

restoration of the practice is needed to 
solve the problem.

(b) The failure of the original prac-
tice was not due to the lack of proper 
maintenance by the current operator.

(c) The county committee believes 

that the replacement, enlargement or 

restoration of the practice merits con-

sideration under the program to an 

equal extent with other practices.

§ 701.18 Pooling agreements.

Farmers, ranchers, or eligible land- 
owners in any local area may agree in 
writing, with the approval of the coun-

ty committee, to perform designated 

practices which, by conserving or im-

proving resources of the community, 

will solve a mutual conservation, pol-

lution, or other environmental problem 

on the land of the participants. For 
purposes of eligibility for cost-sharing, 
practices carried out under such an ap-

proved written agreement shall be re-

garded as having been carried out on 

the land of the persons who performed 
the practices.

§ 701.19 Special provisions for low-in-

come farmers and ranchers.

(a) Except as otherwise provided in 
§701.13(c), the county committee may 
approve, in the case of low-income 

farmers and ranchers as defined in this 
section, level of cost-sharing of up to 80 
percent of the average cost of per-
forming practices.
(b) A low-income farmer or rancher is one who, as determined by the county committee, is a small producer whose livelihood is largely dependent on the farm or ranch and whose prospective income and financial resources for the current year are such that the farmer or rancher could not reasonably be expected to perform needed conservation practices at levels of cost-sharing applicable to other persons in the county.

(c) In approving requests for cost-sharing the county committee shall give special consideration to requests filed by low-income farmers and ranchers.

[45 FR 49522, July 25, 1980, as amended at 47 FR 939, Jan. 8, 1982]

§ 701.20 Encumbering land.

In order to receive cost-share assistance for a conservation practice in a Salinity Control Project area, a person participating in the program shall agree, as a condition of eligibility to receive such assistance, that a recordable encumbrance may be filed by FSA with respect to the land on which the conservation practice is installed. Such encumbrance shall reflect the amount of the cost-share assistance which is received by the program participant for the practice and shall continue until such time as the established lifespan for the practice has expired. Notwithstanding the foregoing, this requirement may be waived by the county committee if such committee determines, with the concurrence of the State committee and after consultation with appropriate Federal, State and local authorities, that the land will not likely be converted to a non-agricultural use within the next five years.

[48 FR 33847, July 26, 1983]

§§ 701.21–701.22 [Reserved]

§ 701.23 Maximum cost-share limitation.

For each program year the total amount which may be received by any person under this subpart for approved practices shall not exceed $3,500 except that (a) the total amount received for approved practices, including those carried out under pooling agreements, shall not exceed $10,000 and (b) the total amount received under an ACP long-term agreement (LTA) shall not exceed the annual payment limitation ($3,500) multiplied by the number of years of the LTA.

[52 FR 19716, May 27, 1987]

§ 701.24 Completion of practices.

Cost-sharing for the practices contained in this part is conditioned upon the performance of the practice in accordance with all applicable specifications and program provisions.

§ 701.25 Time of filing payment application.

Payment of cost-shares will be made only upon application submitted on the prescribed form to the county office by a date established by the county committee. Any application for payment may be rejected if any form or information required of the applicant is not submitted to county office within the applicable time limit.

§ 701.26 Other program provisions.

Other provisions as contained in §§701.1 and 701.2 and in the subpart, General Provisions, apply to the Agricultural Conservation Program.

Subpart—Forestry Incentives Program

§ 701.27 Program objective.

The objective of the Forestry Incentives Program (hereinafter referred to in this subpart as the “program”) is to help assure a future supply of timber. This will be accomplished by encouraging landowners to apply forestry practices for the following:

(a) Production of softwood and hardwood timber and other forest-resources associated therewith to increase afforestation of suitable open lands.

(b) Reforestation of cutover and understocked forest lands.

(c) Timber stand improvement.

(d) Intensive multipurpose management.

(e) Protection of forest resources.
§ 701.29 Designated counties.

The State committee in consultation with the State Forester, will designate the counties or parts of counties in which the program will be operated. The following will be considered in making the selections:

(a) The total acreage in the county devoted to desirable types of softwood and hardwood timber.

(b) The estimated area in the county that is under eligible ownership.

(c) The estimated acreage suitable for the production of forest products.

(d) The availability of funds.

(e) The enhancement of other forest resources.

§ 701.30 Eligible person, land, and ownerships.

(a) An eligible person is a private individual, group, Indian Tribe or other native group, association, corporation excluding corporations whose stocks are publicly traded, or other legal entity which owns eligible land. Firms principally engaged in the manufacture of wood products are not eligible. However, forest landowners who manufacture forest products on a part-time or irregular basis, are eligible.

(b) Eligible land is “nonindustrial” private forest land capable of producing at least 50 cubic feet of wood per acre per year.

(c) Eligible farms are those not exceeding a total of 1,000 acres of eligible private nonindustrial forest land in the United States or any commonwealth, territory or possession of the United States. The State Committee with the concurrence of the State Forester may approve cost-sharing with landowners owning more than 1,000 but not more than 5,000 acres of eligible forest land where it is deemed to be to the public’s significant benefit.

(d) Significant public benefits are primarily those resulting from cost-effective timber production, with related benefits to aesthetics, recreation, other resource values, watershed protection and erosion reduction.

§ 701.31 Program funds.

(a) State and counties. Each designated State and county will receive a share of the funds provided nationally for the program. Funds will be distributed on the basis of the forest production opportunities in each State, considering the acreage of private nonindustrial forest lands, the number of eligible owners, the potential productivity of such lands and the need for reforestation, timber stand improvement, other forestry management needs, and the enhancement of other forest resources. The Director, Conservation and Environmental Protection Division, FSA, will allocate funds after consultation with representatives of the U.S. Forest Service and a committee of not less than five State foresters or equivalent State officials selected by a majority of the State foresters or equivalent State officials. The State committee will consult with the State forester when determining the allocation of such funds to the designated counties.

(b) A limitation on the amount of funds which may be obligated under long-term agreements shall be established by the State committee in accordance with guidelines provided by the Deputy Administrator, State and County Operations.

§ 701.32 Eligible practices and cost-share requirements.

(a) Cost-sharing may be available for the following National practices and authority:

(1) Practice FP1. Planting Trees.

(2) Practice FP2. Improving a Stand of Forest Trees.

(3) Practice authority—SF Practice. Special Forestry Practices. The Director, Conservation and Environmental Protection Division, FSA, after consultation with the Forest Service, may approve special forestry practices needed to solve a significant and unique local condition for which the National practices are not adequate. Such practices may be approved for inclusion in a county program after consultation with the program development group, and the recommendation of the county committee, the service forester, the State committee and the State forester.

(b) A forest management plan is required as a condition of cost-sharing.
The plan will be developed in consultation with the landowner, approved by the service forester, and will contain information for accurate evaluation of practice effectiveness. The participant will be required to perform those measures in the plan which are essential to the effectiveness of the practice for which costs are shared. In the development of the plan, consideration will be given to wildlife, watershed protection, recreation, erosion control, aesthetics, and other associated forest resources values as well as cost-effective timber production.

§ 701.33 The National program.

The National program is based on recommendations developed by the Director, Conservation and Environmental Protection Division, FSA, in consultation with representatives of the U.S. Forest Service and the committee of State foresters provided for in §701.31.

§ 701.34 Development of State programs.

(a) A State program shall be developed in each State in accordance with the provisions contained in this part and in the National program and such modifications thereof as may thereafter be made. The program shall be developed by the State forestry committee as provided in §701.2.

(b) The program for the State shall be that recommended by the State committee and State forester and approved by the Director, Conservation and Environmental Protection Division, FSA, after consulting the U.S. Forest Service.

§ 701.35 Development of county programs.

(a) A county program shall be developed in each designated county in accordance with the provisions of the State program and such modifications thereof as may be made. The county program shall be developed by the county conservation review group. The county conservation review group, working with the governing body of the conservation district, the State forestry agency representatives, the county supervisor of the Farmers Home Administration, and others with conservation and environmental interest, shall develop recommendations for the county program.

(b) The program for the county shall be that recommended by the county committee and service forester and approved by the State committee and State forester.

§ 701.36 Adaptation of practices.

(a) The practices included in the State program meet the conditions and requirements of the National program. National program provisions may be modified or deleted to make practices more restrictive where such changes meet the objectives of the program.

(b) The practices included in the county program must meet the conditions and requirements of the State program. State program provisions may be modified or deleted to make practices more restrictive where such changes will still result in the practices effectively meeting the objectives of the program.

§ 701.37 Levels and rates of cost-sharing.

(a) The maximum cost-share for each practice shall be the percentage of the actual cost of performing the practice considered necessary to obtain the needed performance of the practice, but which will be such that the participant will make a significant contribution to the cost of performing the practice.

(b) Levels of cost-sharing shall be approved by the State ASC committee and shall not be in excess of 65 percent of actual costs incurred by the landowners.

(c) For the purpose of establishing rates of cost-sharing, the average cost of performing a practice may be the average cost for a State, a county or a part of a county, as determined by the State committee.

(d) The rates of cost-sharing for practices included in the county program may be lower than the rates approved for general use in the State.

§ 701.38 Prior approval for cost-sharing.

Costs will be shared only for those practices, or components of practices, for which cost-sharing is requested and approval issued before performance thereof is started.

§ 701.39 Methods of approval.

The county committee will determine the extent to which Federal funds will be made available to share the cost of each approved practice. Approvals shall be made based on consideration of the county allocation, cost-effective opportunities for increasing timber production, potential for enhancing other forest resources, the forestry needs in the county, and the practices for which requested cost-sharing is considered by the county committee as most needed. The method approved shall provide for the issuance of notices of approval showing for each approved practice the number of units of the practice for which the Federal Government will share in the cost and the amount of the cost-share for the performance of that number of units of the practice. Notices of appeared practices shall be issued before performance of the practice may be started. No practice may be approved for cost-sharing except as authorized by the National, State or county program, or in accordance with procedures incorporated therein. Available funds for cost-sharing shall not be allocated on a pro-rata basis, but shall be directed to the accomplishment of the most production attainable.

(a) Cost-sharing may be approved under annual agreements or long-term agreements.

(b) Land covered by a Great Plains Conservation Program contract is not excluded from an annual or long-term agreement if otherwise eligible and is approved by both the Forest Service and the Soil Conservation Service.

(c) The same practices, cost-share levels and general program provisions apply to both annual agreements and long-term agreements.

§ 701.40 Long-term agreements.

(a) The period of a long-term agreement will be for not less than three (3) years nor more than 10 (10) years. The county committee and the signatories to the agreement in consultation with the State forestry representative, will mutually determine the scheduling of essential practices and practice cost-sharing over the period of the agreement.

(b) The long-term agreement will be based on a forest management plan for the land which has been developed by the service forester.

(c) The long-term agreement will provide that the owner will carry out those measures in the forest management plan which are determined to be essential whether or not cost-sharing is approved for such measures.

(d) The level of cost-sharing in effect for practices in all years of a long-term agreement shall be the level in effect for the beginning year of the agreement. The rate of cost-sharing for payment purposes for such practice will be based on the average cost of performing the practice at the time the practice is performed.

(e) A long-term agreement may be canceled for failure to comply with the terms of the agreement if, after consulting with the service forester, the county committee and State committee find that the seriousness of the irregularities warrant such action. If the agreement is canceled, the signatories to the agreement are jointly and severally responsible for refunding all cost-shares paid and will forfeit all rights to further payments under the agreement. In such a case no other refund or forfeiture provisions of these regulations apply.

(f) A long-term agreement may be revised in accordance with instructions issued by the Deputy Administrator, State and County Operations, where there is a change in status of the participants or the land under agreement.

(g) An eligible person who acquires control of land under an approved agreement may elect to become a successor in interest under such agreement.

(h) An agreement will be terminated with respect to land for which loss of control has occurred and where the person acquiring control of such land elects not to become a successor in interest under the agreement. If the loss of control is for reasons beyond the
control of the signatories to the agreement, the county committee will determine whether or not any cost-shares previously paid shall be refunded, but in no event shall the refund be greater than would be required in cases where loss of control is voluntary. If the loss of control is voluntary on the part of the signatories, they will be jointly and severally responsible for refunding all cost-shares paid and will forfeit all rights to further payments, with respect to the land for which control is lost. A refund will not be required for cost-shares where, the county committee and the State committee determine, after consulting with the service forester, that failure to perform the remaining practices in the agreement will not impair the effectiveness of the practices which have been performed and that the completed practices will provide forestry benefits consistent with the cost-shares which have been paid.

(i) An agreement may be terminated if, after considering the recommendation of the service forester, the county committee recommends and the State committee concurs that such action is in the public interest.

§ 701.41 Restoration of practices.

(a) Cost-sharing may be authorized under the program only for the establishment or installation of the practices contained in this part. Cost-sharing may not be authorized for repeating any of the practices in this part with the same owner on the same acreage, except as provided in paragraph (b) or (c) of this section.

(b) Cost-sharing may be authorized for the replacement, enlargement, or restoration of practices for which cost-sharing has been allowed under the program only if all of the following conditions exist:

(1) Replacement or restoration of the practice is needed to solve the problem.

(2) The failure of the original practice was not due to the lack of proper maintenance by the current operator.

(3) The county committee believes that the replacement or restoration of the practice merits consideration under the program to an equal extent with other practices cost-shared.

(c) Cost-sharing may be authorized for timber stand improvement measures carried out in repetitive steps where, in the judgment of the service forester, the stand treatment warrants such silvicultural practice.

§ 701.42 Maximum cost-share limitations.

For each fiscal year the total of all cost-shares paid to any eligible person shall not exceed the sum of $10,000 with respect to eligible ownerships (§701.30(b)) in the United States or any commonwealth, territory or possessions of the United States for approved practices carried out under annual and/or long-term agreements.

§ 701.43 Completion of practice.

Cost-sharing for the practices contained in this subpart is conditioned upon the performance of the practices in accordance with all applicable specifications and program provisions.

§ 701.44 Time of filing payment application.

Payment of cost-shares will be made only upon application submitted on the prescribed form to the county office by the prescribed time limit or any authorized extension thereof. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the county office within the applicable time limit.

§ 701.45 Other program provisions.

Other provisions as contained in §§701.1 and 701.2 and in the subpart, General Provisions, apply to the Forestry Incentives Program.

Subpart—Emergency Conservation Program

§ 701.46 Program objective.

The objective of the Emergency Conservation Program is to cost-share with eligible persons to rehabilitate farmlands damaged by wind and water erosion, floods, hurricanes, or other natural disasters and to provide water conservation or water enhancement measures during periods of severe drought.
§ 701.47 Program availability.

(a) The county committee may implement the program subject to the availability of funds where new conservation problems have been created on farmland by a natural disaster or wind erosion which, if not treated, will:

1. Impair or endanger the land or water resource.
2. Materially affect the productive capacity of the land or water resource.
3. Represent damage which is unusual in character and, except for wind erosion, shall not be the type that would recur frequently in the same area.
4. Be so costly to rehabilitate that Federal assistance is or will be required to return the land to productive agricultural use.

(b) Subject to the availability of funds, the county committee with the concurrence of the State committee and approval of the Deputy Administrator, State and County Operations may implement the program to carry out emergency water conservation and water enhancement measures during periods of severe drought.

§ 701.48 Eligibility of person and land.

Eligibility of person and land is the same as for the Agricultural Conservation Program as provided in §§701.7 and 701.8.

§ 701.49 Emergency conservation program practices.

(a) Except for severe drought and wind erosion, cost-sharing may be offered for emergency conservation practices only to replace or restore farmland to a condition similar to that existing prior to the natural disaster. Cost-sharing may not be offered for the solution of conservation problems existing prior to the disaster.

(b) Emergency Conservation Program practices for which cost-sharing may be authorized are generally:

1. Removing debris from farmland.
2. Grading, shaping, releveling or similar measures.
3. Restoring permanent fences.
4. Restoring structures and other installations.
5. Emergency wind control measures.
6. Drought emergency measures.

7. Other emergency conservation measures.

§ 701.50 Practice approval.

Practices listed in §701.49(b)(1) through (5) may be approved by the county committees. Practices (6) and (7) of §701.49(b) must be approved by the Deputy Administrator, State and County Operations.

§ 701.51 Extent of cost-sharing.

(a) The maximum payment under this subpart per person, per disaster, is limited to $200,000, including the amount of any payment received by such person as the result of a disaster under a pooling agreement.

(b) The cost-share payments which may be made by FSA for a practice under the program shall, subject to the maximum payment amount specified in paragraph (a) of this section and any other limitation as may apply, be further limited to the level of cost-share assistance established by the county committee not to exceed the following amounts:

1. 64 percent of the first $62,500 of eligible reimbursable costs; plus
2. 40 percent of the second $62,500 of eligible reimbursable costs; plus
3. 20 percent of the remaining eligible reimbursable costs up to such amount as would produce a cost-share not in excess of the limitation in paragraph (a) of this section.

§ 701.52 Eligible costs.

Upon determination that a person is eligible for Emergency Conservation Program assistance, cost-sharing shall be granted for all reasonable costs incurred in the completion of the practice. Such costs may include personal labor, equipment, and other such costs which are determined by the county committee to be related to the costs of carrying out the practice. County committees shall limit costs for the use of personal equipment to an amount that reflects out-of-pocket expenses. Expenses for personal labor and personal equipment should be less than rates charged by contractors who expect to make a profit for their efforts.
§ 701.53 Filing requests.

The county committee shall establish a sign up period for filing cost-sharing requests immediately after the county committee’s decision has been made (by the Deputy Administrator, State and County Operations, in cases of drought) to implement the Emergency Conservation Program in the county. Such periods should be at least 30 days in length. Late filed requests may be accepted by the county committee in justifiable cases.

§ 701.54 Approving requests.

County committees will issue practice approvals only when the requested practice has been determined eligible for cost-sharing assistance and the eligible person has indicated he/she is ready to start the practice.

§ 701.55 Pooling agreements.

Pooling agreements may be used on the same basis as provided for in the Agricultural Conservation Program in § 701.18.

§ 701.56 Payment approval.

The county committee is authorized to approve payments not to exceed $10,000 per person, per disaster. Cost-share assistance in excess of $10,000 must be approved by the Deputy Administrator, State and County Operations, or designee.

§ 701.57 Other program provisions.

Other provisions of this part as provided for in §§ 701.1 and 701.2 and in the subpart, General Provisions, apply to the Emergency Conservation Program.

Subpart—General Provisions

§ 701.58 Restriction on program eligibility.

The regulations in part 796 of this chapter prohibiting the making of payments to program participants who harvest or knowingly permit to be harvested for illegal use, marijuana or other such prohibited drug-producing plants on any part of the land owned or controlled by them are applicable to these programs.

§ 701.59 Delegation of authority.

No delegation of authority contained in these programs to a State or county committee shall preclude the Deputy Administrator, State and County Operations or designee, from determining any question arising under these programs or from reversing or modifying any determination made by a State or county committee.

§ 701.60 Practice specifications.

(a) Minimum specifications that practices must meet to be eligible for cost-sharing shall be set forth in the county program, or incorporated therein by specific reference to a standard publication or other written document containing such specifications.

(b) Practice specifications shall represent those levels of performance which are needed in order for the practice to be effective in meeting the program objective and which are not in excess of levels for which cost-sharing can be justified.

§ 701.61 Responsibility for technical phases of practices.

The Soil Conservation Service and the U.S. Forest Service are responsible for technical phases of the practice as assigned and such assignment will be specified in State and county programs.

(a) The State conservationist of the Soil Conservation Service may utilize assistance from private, State or Federal agencies in carrying out the assigned responsibilities. No responsibilities will be assigned for counties when the Deputy Administrator, State and County Operations and the Administrator, SCS, determines that it would not be administratively practicable for the Soil Conservation Service to discharge such responsibilities. In such counties, these responsibilities shall be assumed by the county committees. The Soil Conservation Service may utilize to the fullest extent available resources of the State forestry agencies in carrying out assigned responsibilities for practices involving the establishment of wind-breaks or shelterbelts on farmland to prevent wind erosion.
§ 701.62 The U.S. Forest Service is responsible for the technical phases of practices or components of practices involving the planting of trees for forestry purposes and those involving the improving or protecting of a stand of forest trees, as specified in State and county programs. The U.S. Forest Service may utilize the assistance of private, State or Federal agencies in carrying out these assigned responsibilities, but services of State forestry agencies will be utilized to the extent that such services are available.

(c) The technical assistance to be furnished in servicing assigned practices will include, where appropriate, the following technical phases:

1. Determining whether the practice is needed and practicable;
2. Selecting the site (if necessary), complying with environmental and cultural regulations, determining the specific measures needed, and performing any required layout work for the practice;
3. Supervising the installation of the practice if needed to assure conformity with specifications; and
4. Certifying the extent performed and whether the specifications for the practice have been met. The technical agency shall perform all four phases for all assigned practices in State and county programs, except as may be provided in instructions issued by the Deputy Administrator, State and County Operations.

§ 701.63 Items of cost on which rates of cost-sharing may be based.

Except as otherwise provided by the specific FSA procedural handbooks, notices, and regulations, the cost of any direct and significant factor in the performance of a practice may be considered in establishing the rate of cost-sharing for the practice.

§ 701.64 Opportunity for requesting cost-shares.

Farmers, ranchers, eligible landowners, or eligible persons, regardless of race, sex, religion, color, or national origin, shall be given an opportunity to request that the Federal Government share in the cost of those practices they consider to be needed on their farm, ranch, or other eligible land. The county committee shall direct the available funds for cost-sharing to those practices where cost-sharing is considered most essential to the accomplishment of the program objective.

§ 701.65 Repair, upkeep and maintenance of practices.

Cost-sharing is not authorized for repairs or for normal upkeep or maintenance of any practice.

§ 701.66 Public benefits when installing practices.

Persons responsible for any aspect of performing practices are to be encouraged to install the practices in such a way to promote public benefits by improving or preserving environmental quality and ecological balance by preventing or abating pollution and other environmental degradation; benefiting the community by such means as preserving open space, or enhancing the appearance of the area; benefiting wildlife and other desirable life forms; preserving historic, archeological, or scenic sites, wetlands, ecologically critical areas and prime farmlands; avoiding the creation of hazards to persons or animals and avoiding actions that may adversely affect an endangered or threatened species and flood plains.

§ 701.67 Payments for uncompleted practices.

Cost-shares approved under these programs will not be considered as earned until all components of the approved practice are completed in accordance with applicable specifications and program provisions. Cost-shares...
§ 701.68 Practices involving the establishment or improvement of vegetative cover.

(a) Costs for practices involving the establishment or improvement of vegetative cover, including trees may be shared even though a good stand is not established, if the county committee determines, in accordance with standards approved by the State committee, that the practice was carried out in a manner which could normally result in the establishment of a good stand, and that failure to establish a good stand was due to weather or other conditions beyond the control of the operator. The county committee may require as a condition of cost-sharing in such cases that the area be reseeded or replanted or that other needed protective measures be carried out. Cost-sharing in such cases may be approved also for repeat applications of measures previously carried out or for additional eligible measures. Cost-sharing for such measures shall be approved to the extent such measures are needed to assure a good stand even though less than that required by the applicable practice wording for initial approvals.

(b) In the case of Forestry Incentives Program, replanting of trees is required where the landowner received cost-sharing for site preparation.

§ 701.69 Failure to meet minimum requirements or failure to comply fully with program provisions.

(a) Notwithstanding other provisions of these programs, costs may be shared for performance actually rendered even though the minimum requirements for a practice are not met, if the farmer, rancher, eligible landowner, or eligible person establishes to the satisfaction of the county committee and the county representative of any other agency having responsibility for technical phases of the practice that a reasonable effort was made to meet the minimum requirements and that the practice as performed adequately solves the problem.

(b) Notwithstanding the provisions in paragraph (a) of this section, the terms and conditions of contracts entered into pursuant to programs in this part may be modified to grant relief when the Deputy Administrator, State and County Operations, determines that a person acting in good faith failed to fully comply with the program provisions.

§ 701.70 Practices carried out with aid from ineligible persons.

(a) Except as provided in paragraph (b) of this section, financial assistance which is made available, or will be made available, to a program participant from a person ineligible for cost-share assistance under this part for the practice, including aid from a State or Federal agency other than assistance made available under this part, shall be deducted from the program participant’s total costs incurred for the practice for purposes of determining the applicant’s eligible reimbursable costs under this part.

(b) Third party contributions need not be deducted under paragraph (a) of this section where it is determined by the State ASC Committee, in accordance with instructions of the Deputy Administrator, State and County Operations (DASCO), FSA, that an exception would be in furtherance of program objectives. However, the total cost-share paid may not, in any case, exceed the net contribution (exclusive of any contribution by ineligible persons) otherwise made by the applicant to the cost of carrying out the practice.

practice. In making this determination, the county committee shall take into consideration the value of the labor, equipment, or material contributed by each person toward the carrying out of the practice, and shall assume that each contributed equally unless the county committee is satisfied that their respective contributions were not in equal proportion. Any advances made by FSA toward the cost of materials or services under §701.21, the furnishing of land, and the furnishing of the right to use water, will not be considered as a contribution to the carrying out of any practice.

(b) The allowance by an eligible person of a credit to another eligible person in the form of an adjustment in rental, an exchange of cash, or other consideration, will not be considered as a contribution to the carrying out of any practice, unless the county committee is satisfied that such credit is directly related to the cost or cost-share of the practice. A person will not be considered as having contributed to the carrying out of a practice if the county committee determines that a person has been, or is to be, fully reimbursed for contributions made to the performance of the practice, through an adjustment in rental, an exchange of cash, or other consideration.

§ 701.72 Death, incompetency, or disappearance.

In case of death, incompetency, or disappearance of any person, any cost-shares due shall be paid to the successor, determined in accordance with provisions of the regulations in part 707 of this chapter, as amended.

§ 701.73 Applying cost-share limitations.

(a) All or any part of cost-share which otherwise would be due any person for a program year may be withheld, or required to be refunded, if, with respect to that program year, the person has adopted, or participated in adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade a maximum cost-share limitation.

(b) The rules set forth in 7 CFR 795.3 through 795.22 shall apply in determining whether certain individuals or other entities are to be considered as separate persons for the purpose of applying any maximum payment limitations provided for in this part. In cases where more than one rule would appear to be applicable, the rule which is most restrictive as to number of persons shall apply.

§ 701.74 Persons eligible to file application for payment of cost-shares.

Any eligible person who bore a part of the cost of an approved practice is eligible to file an application for payment of cost-shares due.

§ 701.75 Time and manner of filing application and required information.

It shall be the responsibility of persons participating in these programs to submit to the county office forms and information needed to establish the extent of the performance of approved practices and compliance with applicable program provisions. The time limits for submission of such forms and information shall be established where necessary for efficient administration of the programs. Such time limits shall afford a full and fair opportunity to those eligible to file the forms and information within the period prescribed. At least 2 weeks notice of any general time limits prescribed shall be given to the public. The notice shall be given by mailing notice to the office of each county committee and making copies available to the press. Other means of notification; including radio announcements and individual notices to person(s) affected, shall be used to the extent practicable. Notice of such time limits which are applicable to individual persons, such as time limits for reporting performance of approved practices, shall be issued in writing to the person(s) affected. Exceptions to the time limits may be made in cases where failure to submit required forms and information within the applicable time limits is due to reasons beyond the control of the farmer or rancher.
§ 701.76 Appeals.

Any person may obtain review of determinations affecting participation in:

(a) The Forestry Incentive Program, in accordance with part 614 of this title; and

(b) All other programs within this part, in accordance with part 780 of this title.

§ 701.77 Performance based on advice or action of county or State committee.

Cases involving performance rendered in good faith in reliance upon action or advice of an authorized representative of a county or State committee shall be handled in accordance with part 790 of this chapter.

§ 701.78 Compliance with regulatory measures.

Persons who carry out practices under these programs shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The person with whom the cost of the practice is shared shall be responsible to the Federal Government for any losses it may sustain because such persons infringe on the rights of others or fail to comply with applicable laws or regulations.

§ 701.79 Maintenance and use of practice.

Each person receiving cost-share assistance under these programs is responsible for the maintenance and proper use of the practice. Each practice shall have an established lifespan or minimum period of time that it is expected to function as a conservation practice with proper maintenance. If it is determined that a practice has not been properly maintained for the established lifespan, the person receiving the cost-share assistance shall refund all or any part of such cost-share assistance as determined to be appropriate by the county committee. Further, any agreement providing for cost-share assistance will be terminated with respect to the land on which the practice is located if there is voluntary loss of control of the land by the person receiving the cost-share assistance and the person acquiring control of such land elects not to become a successor in interest to the agreement. If the agreement providing for cost-share assistance is terminated as a result of the voluntary loss of control of the land, each person receiving cost-share assistance under that agreement shall be liable for refunding to FSA any cost-share assistance which has been received with respect to the practice. In addition, such person shall forfeit any right to receive any further cost-share assistance with respect to the land on which the practice is located.

[48 FR 33848, July 26, 1983]

§ 701.80 Actions defeating purpose of program.

If the county committee finds with the concurrence of the State committee, or if the State committee finds, that a person has taken any action which tends to defeat the purposes of these programs, it may withhold or require a refund of all or part of any of these program payments otherwise due or paid that person during the program year. These actions include, but are not limited to, failure to properly maintain or deliberately destroying a practice carried out under a previous program year.

§ 701.81 Depriving others of cost-shares.

If the State committee finds that any person has employed any scheme or device to deprive any other person of cost-shares, it may impose a penalty. The State committee may withhold or require a refund of all or part of any of these program payments otherwise due or paid that person during the program year. A scheme or device includes, but is not limited to, coercion, fraud or misrepresentation.

§ 701.82 Filing of false claims.

If the State committee finds that any person has knowingly supplied false information or has knowingly filed a false claim, that person is ineligible for cost-sharing under the program year with respect to which information or
§ 701.83 Cost-shares not subject to claims.

Any cost-share or portion thereof due any person shall be allowed without regard to questions of title under State law, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor except agencies of the U.S. Government. The regulations issued by the Secretary governing set-offs and withholdings, part 13 of this title, as amended, shall be applicable to these programs.

§ 702.13 Levels and rates of cost-share payments.

(a) The level of Federal cost-share assistance for the required SRP’s for the project shall be determined by formulas as established in the USDA Salinity Control Report.

(b) Except as provided in paragraph (c) of this section, cost-share payments shall not exceed the lesser of 70 percent of the average cost or 70 percent of the actual cost of the installation of the SRP.

(c) The Deputy Administrator, in consultation with the USDA Salinity Control Coordinating Committee, may approve cost-share levels in excess of 70 percent of the average or actual cost of installation of the SRP or in excess of the level based on the ratio of on-farm and offsite benefits if such increased assistance is necessary to obtain acceptable program participation. Higher cost-share levels shall be considered only when one or more of the following apply, unless the Secretary finds at his discretion that such cost-sharing requirement would result in a failure to proceed with needed on-farm measures:

(1) On-farm benefits that are low relative to offsite benefits;

REVIEW COMMITTEE

§711.6  
Eligibility as member of a panel.

Any farmer who meets the eligibility requirements for county committee-man prescribed in the regulations in part 7 of subtitle A of this title, as amended, in a county within the area of venue for which he is to be appointed shall be eligible for appointment as a member of a review committee panel for such area of venue. If the area of venue consists of only one county or a part of a county, these eligibility requirements must be met in such county or in a nearby county. No farmer whose legal residence is in one State shall be eligible for appointment as a member of a review committee panel for an area of venue in another State.

§711.7  
Appointment of members of a panel.

The Secretary shall appoint six or more eligible farmers to serve as members of a review committee panel in each area of venue. Notice of appointment shall be sent to the State committee, which shall notify the farmers so appointed. Appointments may be made before, during, or after the period in which applications for review of quotas are required to be filed. Notwithstanding the foregoing, the Secretary shall have the continuing power to revoke or suspend any appointment made pursuant to the regulations in this part, and subject to the provisions of the act, to make such other appointment deemed proper.
§ 711.8 Oath of office.

Each farmer appointed to serve as a member of a review committee panel shall, as soon as possible after appointment, execute an oath of office on such form as may be prescribed by the Deputy Administrator, duly subscribed and sworn to or affirmed before a notary public. No farmer shall serve on a review committee unless such oath of office has been duly executed and filed with the State executive director or the clerk. A farmer appointed for consecutive terms to serve as a member of a review committee panel shall not be required to file a new oath of office after the original filing. If the form of oath of office is materially changed, a new oath of office shall be executed if required by the Deputy Administrator.

§ 711.9 Composition of review committee.

(a) Three designated members from the panel constitute a review committee. Three members from the panel shall act as a review committee to hear applications for review for the prescribed area of venue. The State executive director shall designate from the panel of members for the prescribed area of venue three members who shall act as a review committee to hear specific applications and shall designate one of these three members as chairman of the review committee and another member as vice-chairman. Where the number of applications pending require two or more review committees for prompt disposition of such applications, the State executive director shall designate the members of each review committee, the chairman and vice chairman thereof, and the specific application to be heard by each review committee. Two or more review committees may hear applications concurrently in an area of venue. In the absence of the chairman, the vice chairman shall perform the duties and exercise the powers of the chairman. The State executive director shall notify members of each review committee of the schedule of hearings. No member shall serve in any case in which a quota will be reviewed for a farm in which such member, any of his relatives or business associates, is interested, nor shall any member serve where he had acted as State, county, or community committee member on a quota to be reviewed by the review committee.

(b) Only two members present to commence hearing. Where only two members of a review committee are present to commence a hearing, although three members were scheduled to hear the application, at the request of or with the consent of the applicant in writing, a hearing conducted by two members of the review committee shall be deemed to be a regular hearing of the review committee as to such application. The determination made by such members shall constitute the determination of the review committee. In the event such members cannot agree upon a determination, such fact shall be set forth in writing and a new hearing scheduled by the State executive director. If the applicant does not consent in writing to a hearing conducted by two members of the review committee, the hearing shall be rescheduled.

(c) Only two members remain to complete a hearing. Where only two members of a review committee remain to complete a hearing commenced with three members, due to serious illness, death, or other cause which prevents one of the members from completing the hearing within a reasonable time, at the request or with the consent of the applicant in writing, the remaining two members of the review committee shall henceforth constitute an entire review committee for the purpose of such hearing. In the event such members cannot agree upon a determination, such fact shall be set forth in writing and a new hearing scheduled by the State executive director. If the applicant does not consent in writing to completion of the hearing by two members of the review committee, the hearing shall be rescheduled.

(d) Reopened or remanded hearings. In the case of a reopened or remanded hearing, if any member of the review committee is no longer in office because of death, resignation, or ineligibility, the State executive director shall designate another member of the review committee panel to serve on the review committee. If a hearing held pursuant to paragraph (b) or (c) of this section is reopened or remanded and
only one review committee member is available to hear such reopened or remanded hearing, the State executive director shall designate two additional members from the review committee panel to serve on the review committee.

§ 711.11 Compensation.
The members designated as review committee members shall receive compensation when serving at the same rate as that received by the members of the county committee which established the quotas sought to be reviewed. No member of a review committee shall be entitled to receive compensation for services as such member for more than 30 days in any one year. Payment of compensation, reimbursement for travel expenses and rates therefor, shall be made under such conditions as may be prescribed by the Deputy Administrator.

§ 711.12 Effect of change in composition of review committee.
Nothing contained in §§ 711.6 to 711.11 relating to any vacancy or revocation or suspension of appointment and nothing done pursuant thereto shall be construed as affecting the validity of any prior hearing conducted or determination made in accordance with the regulations in this part, in which the member of the review committee whose office has become vacant participated, or as affecting in any way court proceeding which may be instituted to review such determination.

§ 711.13 Areas of venue and jurisdiction.
(a) Areas of venue. The State committee shall establish one or more areas of venue in the State. An area of venue may consist of all or part of a county, or more than one county within a State. In establishing areas of venue, the State committee shall take into consideration the requirements of section 363 of the Act as to eligibility of review committee members, the prompt handling of applications for review, transportation problems and the limit of 30-day service by review committee members in any one year.

(b) Jurisdiction. A review committee shall have jurisdiction within the area of venue for which it is established to hear applications respecting quotas established or denied by written notice issued by the county committee or other authorized official for farms within its area of venue, in accordance with this part.

(c) A listing of the areas of venue within a State shall be available from the State FSA office and the Deputy Administrator.

APPLICATION FOR REVIEW OF QUOTA

§ 711.14 Application for review.
(a) Manner and time of filing. Any farmer who is dissatisfied with his quota may, within 15 days after the date of mailing to him of notice of such quota, file a written application for review thereof by the review committee. Such 15-day period is prescribed in accordance with section 363 of the Act. Unless application for review is timely filed, as determined under this section, the quota established by the notice shall not be subject to review by the review committee. Notice of quota subject to review under this part includes an official written notice as to the land constituting the farm. For example, a notice denying a request for farm reconstitution would be such a reviewable notice of quota. An application shall be in writing and addressed to, and filed with, the county executive director for the county from which the
notice of quota was received. Any application (Form MQ–53 available on request) whether made on Form MQ–53 or not, shall contain the following:

(1) Date of application and commodity (including type where applicable, e.g. Upland cotton, Flue-cured tobacco).

(2) Correct full name and address of applicant.

(3) Brief statement of each ground upon which the application is based.

(4) A statement of the amount of quota which it is claimed should have been established.

(5) Signature of applicant.

In any case where an application is timely filed for review of a quota on a farm which was reconstituted by division of a parent farm into two or more farms, such application shall be considered an application for review of the reconstitution of the parent farm. In any such case the farm operator of each farm resulting from such reconstitution shall be considered an applicant for purposes of this part with all the rights and privileges provided in this part. If an action may be taken by an applicant which affects the rights of any other applicant in the case, the other applicants shall be given the opportunity to concur in such action or to oppose such action.

(b) Procedure where application is not timely filed. The county committee shall examine each application for review. If the application is not filed within the prescribed 15-day period, the county executive director shall send a notice of untimely filing on Form MQ–54 by certified mail to the applicant at the address shown on the application. The applicant may file a request in writing with the county executive director within 15 days after the date of mailing such notice to him requesting a review committee hearing on the sole issue of whether the application was filed within the prescribed 15-day period. In the absence of timely request in writing for such review committee hearing, the application shall be deemed withdrawn by the applicant. If timely request in writing for such review committee hearing is filed, a copy of the application and request shall be forwarded by the county executive director to the State executive director with a request that a hearing on the sole issue of timely filing be scheduled before the review committee. In cases involving the sole issue of timely filing of an application, the review committee shall determine whether the date the application was filed, or the postmark date in case of mailing by the applicant, was within the 15-day period. If the review committee determines that the application was timely filed, a hearing on the merits of the application shall be held. In addition, a hearing on the merits shall be conducted and the application treated as timely filed in any case where the review committee determines that the applicant in good faith requested review of his quota by the county or State committee under the regulations in part 780 of this chapter in reliance upon action or advice of any authorized representative of a county or State committee and subsequently filed application for review under this part within a reasonable time after he learns that the quota is subject to review committee jurisdiction.

(c) Withdrawal of application. An application may be withdrawn upon the written request of the applicant. Any application so withdrawn or deemed withdrawn under paragraph (b) of this section shall be endorsed by the clerk “Dismissed by the applicant”.

(d) Procedure where application is timely filed. The county committee shall examine each application for review and where an application is found to be timely filed, the county executive director shall forward a copy of the application to the State executive director with a request that a hearing on the merits be scheduled before the review committee.

§ 711.15 Matters subject to review.

In all cases, the review committee shall consider only such factors as, under applicable provisions of law and regulations, are required or permitted to be considered by the county committee in the establishment of the quota being reviewed. The establishment of national marketing quotas and apportionment of national acreage allotments and marketing quotas among States and counties and the establishment of reserve acreages and quotas at

§711.16 County committee answer.

(a) The county committee shall prepare a written answer to each application scheduled for hearing setting forth the pertinent facts, the applicable regulations, the data used in establishing the quota and any other matters deemed pertinent:

(b) Provided, That the answer may be limited to the issue of timely filing where the hearing is limited to that issue. If the county committee determines that the increase, adjustment or other determination requested in the application is proper in whole or in part, the written answer shall set forth the proposed determination and in such cases, the applicant shall be notified by the county committee of such proposed determination prior to the scheduled review hearing if practicable to do so. In the event the applicant is satisfied with the proposed determination, the county committee shall, upon the withdrawal of the application, take the necessary action to revise the quota within the limits of the Act and applicable commodity regulations if the required amount of acreage allotment or marketing quota is available in the county. The State executive director may perform the functions of the county committee under this section and the functions of the county committee and county executive director under §711.14 (b) and (d) in any case where the application for review involves a notice of farm marketing quota issued by officials other than the county committee.

§711.17 Amendments.

Upon due request, and within the discretion of the review committee, the right to amend the application and all procedural documents in connection with any hearing, shall be granted upon such reasonable terms as the review committee may deem right and proper.

HEARING AND DETERMINATION

§711.18 Place and schedule of hearing.

The place of hearing shall be in the office of the county committee through which the quota sought to be reviewed was established, or such other appropriate place in the county as may be designated by the State executive director or by the review committee in cases arising under §711.21: Provided, however, That the place of hearing may be in some other county if agreed to in writing by the applicant. The State executive director shall schedule applications for hearings and forward such schedule to the clerk.

§711.19 Notice of hearing.

The clerk shall give written notice on Form MQ–36 to the applicant by depositing such notice in the U.S. mail, certified and addressed to the last known address of the applicant at least 10 days prior to the time appointed for the hearing and copies of such notice shall also be sent to the county committee and the State office. If the applicant requests waiver of such 10-day period, the hearing may be scheduled earlier upon consent of the other interested parties. The notice of the hearing shall specify the time and place of the hearing, contain a statement of the statutory authority for the hearing, state that the application will be heard by the review committee duly appointed for the area of venue in which the applicant’s farm is located, and that a verbatim transcript may be obtained by the applicant if he makes arrangement therefor before the hearing and pays the expense thereof.
§ 711.20 Continuances.

Hearings shall be held at the time and place set forth in the notice of hearing or in any subsequent notice amending or superseding the prior notice, but may without notice other than an announcement at the hearing by the chairman of the review committee, be continued from day to day or adjourned to a different place in the county or to a later date or to a date and place to be fixed in a subsequent notice to be issued pursuant to § 711.19.

In the event a full committee of three is not present, those members present, or in the absence of the entire committee, the clerk, shall postpone the hearing unless the hearing is held pursuant to § 711.9 (b) or (c). There shall not be a continuance for lack of a full committee in the case of a reopened or remanded hearing where the hearing was initially held pursuant to § 711.9 (b) or (c) and the two review committee members who previously held the hearing are present and eligible to serve.

§ 711.21 Conduct of hearing.

(a) Open to public. Except as otherwise provided in §§ 711.1 to 711.50, each hearing shall take place before the entire review committee and shall be presided over by the chairman of such committee. The hearing shall be open to the public and shall be conducted in a fair and impartial manner and in such a way as to afford the applicant, members of the appropriate county and community committees, and appropriate officers and agents of the Department of Agriculture, and all persons appearing on behalf of such parties, reasonable opportunity to give and produce evidence relevant to the quota being reviewed.

(b) Consolidation of hearings. Whenever practicable, two or more applications relating to the same commodity and the same farm shall be consolidated by the review committee on its own motion or at the request of the State executive director and heard at the same time on the same record. In any case involving two or more farms resulting from reconstitution by division of a parent farm, the hearing shall be consolidated.

(c) Representation. The applicant and the Secretary may be represented at the hearing. The county committee shall be present or represented at the hearing.

(d) Order of procedure. At the commencement of the hearing, the chairman of the review committee shall read or cause to be read the pertinent portions of the application for review. The written answer of the county committee shall be submitted and shall be made a part of the record of the hearing. If the applicant asserts and shows to the satisfaction of the review committee that he has not been informed of the county committee’s position in time to afford him adequate opportunity to prepare and present his case, the review committee shall continue the hearing, without notice other than announcement thereof at the hearing, for such period of time as will afford the applicant reasonable opportunity to meet the issues of fact and law involved. After answer by the county committee and following such continuance, if any, as may be granted by the review committee, evidence shall be received with respect to the matters relevant to the quota under review in such order as the chairman of the review committee shall prescribe. The review committee may take official notice of relevant publications of the Department of Agriculture and regulations of the Secretary.

(e) Submission of evidence. The burden of proof shall be upon the applicant as to all issues of fact raised by him. Each witness shall testify under oath or affirmation administered by the member of the review committee who is presiding at the hearing. The review committee shall confine the evidence to pertinent matters and shall exclude irrelevant, immaterial, or unduly repetitious evidence. Interested persons shall be permitted to present oral and documentary evidence, to submit rebuttal evidence and to conduct such cross-examination as may be required for a full and true disclosure of the facts. The hearing shall be concluded within such reasonable time as may be determined by the review committee.

(f) Transcript of testimony. The review committee shall provide for the taking of such notes including but not limited to stenographic reports or recordings at the hearing as will enable it to make
§ 711.22 Nonappearance of applicant.

(a) Original hearing. If, at the time of the hearing, the applicant is absent and no appearance is made on his behalf, the review committee shall, after a lapse of such period of time as it may consider proper and reasonable, have the name of the absent applicant called in the hearing room. If, upon such call, there is no response, and no appearance on behalf of such applicant and no continuance has been requested by the applicant, the review committee shall thereupon close the hearing, as to such applicant, and, without further proceedings in the case, make a determination dismissing the application.

(b) Reopened or remanded hearing. If, at a hearing which is reopened pursuant to §711.25 or remanded by a court, the applicant is absent and no appearance is made on his behalf, the review committee shall continue the hearing for a reasonable period of time and if the applicant does not appear at such continued hearing, the review committee shall make a determination.

§ 711.23 Determination by review committee.

As soon as practicable after hearing on an application, including a hearing on the sole issue of timely filing, the review committee shall make a determination upon the application. If it is determined by the review committee that the application should be dismissed for untimely filing or denied, the review committee shall so indicate. If it is determined that the application should be granted in whole or in part, the review committee shall establish the quota which it finds to be proper. Each determination made by the review committee shall be in writing, shall contain specific findings of fact and conclusions based upon the evidence adduced at the hearing, for the consideration of the review committee within such reasonable time after the conclusion of the hearing as may be prescribed by the review committee. Such written arguments and proposed findings shall be filed in triplicate with the clerk and an additional copy thereof shall be provided to the other party.

§ 711.24 Service of determination.

A copy of the determination, certified by the clerk as a true and correct copy of the signed original, shall be served upon the applicant by sending the same by certified mail addressed to the applicant at his last known address. The copy of the determination shall contain at the top thereof substantially the following statement: “To all persons who, as operator, landlord, tenant, or sharecropper, are or will be interested in the above-named commodity on the farm identified below in the year for which the marketing quota being reviewed is established” and such statement shall constitute notice to all such persons. The clerk shall make a notation on the original determination of the date and place of such mailing. The clerk forthwith shall forward two copies of such determination to the State office, and one copy to the county committee. The determination of the review committee does not become final until the period for reopening of hearing under §711.25 has expired without any reopening; or if reopened thereunder, such determination becomes final upon issuance of a new determination pursuant to the reopened hearing, subject to further appeal to a court by the applicant.

§ 711.25 Reopening of hearing.

(a) Upon motion of review committee. Upon its own motion within 15 days from the date of mailing to the applicant of a copy of the determination of the review committee, the review committee may reopen a hearing for the purpose of taking additional evidence or of adding any relevant matter or document.

(b) Upon written request based on new evidence. Upon written request by the applicant, the county committee, the State executive director, or other interested parties, to the review committee within 15 days from the date of mailing to the applicant of a copy of the determination of the review committee, the review committee shall reopen the hearing for the purpose of taking additional evidence or of adding any relevant matter or document if the review committee finds that such evidence or documents constitute new evidence not available to the parties at the time of the hearing.

(c) Upon written notice by the Secretary. Upon written notice by the Secretary or on his behalf by the Deputy Administrator to the review committee within 45 days from the date of mailing to the applicant of a copy of the determination of the review committee on Form MQ-58, the hearing shall be deemed reopened and the State executive director shall schedule the reopened hearing.

(d) Schedule of reopened hearing. Schedule of and notice of any reopened hearing shall follow the requirements of §§711.18 and 711.19 insofar as practicable. Notwithstanding the provisions of paragraphs (a), (b), and (c) of this section, no hearing shall be reopened after an appeal to a court pursuant to section 365 of the act has been timely filed by the applicant. No special hearing to contest a reopening of a hearing shall be scheduled; however, the applicant may present evidence and arguments to contest the reopening when the reopened hearing is held.

§ 711.26 Record of hearing.

The record of the proceedings shall be prepared by the clerk and shall consist of the following:

(a) All procedural documents in the case under review, including the application and written notices of quota and hearing and any other written notice in connection with the application.

(b) Copies of regulations presented at the hearing.

(c) The answer of the county committee or the State executive director.

The Director, Caribbean Area FSA office, shall recommend members of the review committee panel, the areas of venue, and perform the functions of the State executive director.

Any farmer who is eligible to vote in a referendum for which a quota has been proclaimed shall be eligible for appointment as a member of a review committee panel. The clerk shall be the ASC district supervisor of the district in which the review committee will hold its hearings. Where it is impractical or impossible to use the United States mail to serve the applicant with notice of hearing or determination, use shall be made of such other method of service as is available. GENERAL

§ 717.1 Definitions.

In determining the meaning of the provisions in this part, unless the context indicates otherwise, words importing the singular include and apply to several persons or things, words importing the plural include the singular, words importing the masculine gender include the feminine as well, and words used in the present tense include the future as well as the present.

(a) General terms. The definitions in part 719 of this chapter shall apply to this part. The provisions of part 720 of this chapter concerning the expiration of time limitations shall apply to this part.

(b) Act. The Agricultural Adjustment Act of 1938 and any amendments or supplements thereto.

(c) Referendum community. For referenda conducted by mail ballot, the entire county shall be the referendum community. For referenda conducted at polling places, the referendum community shall conform with the community established by the State committee for purposes of elective areas under the regulations in the subpart—Selection and Functions of Agricultural Stabilization and Conservation County and Community Committees in part 7, subtitle A, of this title (§ 7.7, 33 FR 12955), as amended from time to time: Provided, That a referendum community may be composed of an area differing from the community so established in the following cases:

(1) A referendum community may be established by the county committee, with the approval of a representative of the State committee, to conform to a
§ 717.2 Supervision of referenda and prescribed method of balloting.

(a) Supervision of referenda. The Deputy Administrator shall be in charge of and responsible for conducting each referendum required by the Act. Each State committee shall be in charge of and responsible for conducting such referendum in its State. Each county committee shall be responsible for the proper holding of such referendum in its county. It shall be the duty of the Deputy Administrator and of each committee to conduct each referendum by secret ballot in a fair, unbiased, and impartial manner in accordance with this part.

(b) Prescribed method of balloting. Each referendum held under this part shall be by mail ballot unless the Administrator, FSA, or the Deputy Administrator prescribes that a particular referendum shall be held at polling places.

§ 717.3 Voting eligibility.

(a) Statutory requirements—(1) Tobacco quotas proclaimed on an acreage basis under section 312(a) of the Act. Within 30 days after the proclamation of the marketing quotas on an acreage basis under section 312(a) of the Act of national marketing quotas on an acreage basis for any kind of tobacco for the next 3 succeeding marketing years, there shall be a referendum under section 312(c) of the Act of farmers engaged in the production of the crop of such tobacco harvested immediately prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to such quotas for the 3-year period. If more than one-third of the farmers voting oppose such quotas, the quotas so proclaimed for the 3-year period shall not be in effect: Provided, That such referendum result shall not preclude the proclamation of national marketing quotas for such kind of tobacco for the next 3 succeeding marketing years subject to a referendum as required under this paragraph. If the referendum results in approval of quotas for the 3-year period, no further referendum applicable to such quotas shall be held (i) unless a new proclamation during the 3-year period is made pursuant to subdivision (3) of section 312(a) of the Act in which case a referendum shall be held as provided in this paragraph (a)(1)(i) of this section, or (ii) unless quotas on an acreage-poundage basis are established pursuant to section 317(c) of the Act, in which case a special referendum shall be held as provided in paragraph (a)(2) of this section.

(2) Tobacco quotas proclaimed on an acreage-poundage basis under section 317(c) of the Act. During the first or second marketing year of the 3-year period for which marketing quotas for any kind of tobacco are in effect on an acreage basis, if the Secretary, under section 317(c) of the Act, determines that marketing quotas on an acreage-poundage basis would result in a more effective program, at the time of the next announcement of the amount of the marketing quota on an acreage basis, the Secretary shall also announce the national acreage allotment and national average yield goal. Within 45 days after such announcement of acreage-poundage quotas there shall be a special referendum under section 317(c) of the Act of farmers engaged in the production of the kind of tobacco of the most recent crop to determine
whether such farmers favor the establishment of marketing quotas on an acreage-poundage basis for the next 3 marketing years. If more than two-thirds of the farmers voting in the special referendum favor marketing quotas on an acreage-poundage basis, such quotas shall be in effect for the next 3 marketing years and the marketing quotas on an acreage basis shall cease to be in effect at the beginning of such 3-year period and no further special referendum applicable to such 3-year period shall be held. If marketing quotas on an acreage-poundage basis are not favored by more than two-thirds of the farmers voting in the special referendum, marketing quotas on an acreage basis as previously proclaimed shall continue in effect.

(3) Tobacco quotas proclaimed on an acreage-poundage basis under section 317(d) of the Act. If marketing quotas on an acreage-poundage basis have been made effective for a kind of tobacco, the Secretary shall proclaim a national marketing quota for such kind of tobacco for the next 3 succeeding marketing years if the marketing year is the last year of 3 consecutive years for which marketing quotas previously proclaimed will be in effect. Such proclamation may be on an acreage-poundage basis or on an acreage basis. Within 30 days after such proclamation, there shall be a referendum under section 312(c) of the Act of farmers engaged in the production of the crop of tobacco harvested immediately prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to such quotas for the next 3 succeeding marketing years. If more than one-third of the farmers voting oppose such quotas, the quotas so proclaimed for the 3-year period shall not be in effect: Provided, That such referendum result shall not preclude the proclamation of national marketing quotas for such kind of tobacco for the next 3 succeeding marketing years under section 312(a) of the Act subject to a referendum thereon as provided in paragraph (a)(1) of this section. If a referendum results in approval of quotas for 3 marketing years on an acreage basis, no further referendum applicable to such 3 marketing years shall be held except as may be required under section 317(c) of the Act. If a referendum results in approval of quotas for 3 marketing years on an acreage-poundage basis, no further referendum applicable to such 3 marketing years shall be held.

(4) Tobacco quotas proclaimed but disapproved in 3 successive years. Under section 312(a)(4) of the Act, if producers have disapproved national marketing quotas for a kind of tobacco in referenda held in 3 successive years subsequent to 1952, a national marketing quota shall not be proclaimed for any marketing year within the 3-year period for which quotas were disapproved unless prior to November 10 of the marketing year, one-fourth or more of the farmers engaged in the production of the crop of tobacco harvested in the calendar year in which such marketing year begins petition the Secretary to proclaim a national marketing quota for each of the next 3 succeeding marketing years.

(5) [Reserved]

(6) Extra long staple cotton quotas. Not later than December 15 following the proclamation of a national quota for extra long staple cotton there shall be a referendum under section 343 of the Act, of farmers engaged in the production of extra long staple cotton in the calendar year in which the referendum is held to determine whether such farmers are in favor of or opposed to the quota for the next marketing year. If more than one-third of the farmers voting in the referendum oppose the quota, such quota shall not be in effect.

(7) [Reserved]

(8) Rice quotas. Within 30 days after the proclamation of a national marketing quota for rice there shall be a referendum under section 354(b) of the Act of farmers engaged in the production of rice to determine whether such farmers are in favor of or opposed to the quota for the next marketing year. If more than one-third of the farmers voting in the referendum oppose the quota, such quota shall not be in effect.

(9) Peanut quotas. Not later than December 15 of each calendar year there shall be a referendum under section 358(b) of the Act of farmers engaged in...
§ 717.3  
the production of peanuts in the calendar year in which the referendum is held to determine whether such farmers are in favor of or opposed to marketing quotas with respect to the crops of peanuts produced in the 3 calendar years immediately following the year in which the referendum is held. If more than one-third of the farmers voting in the referendum oppose such quotas, the quotas so proclaimed shall not be in effect: Provided, That such referendum result shall not preclude the proclamation of quotas in the next calendar year for a 3-year period subject to a referendum as required under this paragraph. If quotas are favored, no further referendum with respect to the 3-year period shall be held.

(b) Farmers engaged in the production of a commodity. For purposes of referenda with respect to marketing quotas for tobacco, extra long staple cotton, rice and peanuts the phrase “farmers engaged in the production of a commodity” includes any person who is entitled to share in a crop of the commodity, or the proceeds thereof because he shares in the risks of production of the crop as an owner, landlord, tenant, or sharecropper (landlord whose return from the crop is fixed regardless of the amount of the crop produced is excluded) on a farm on which such crop is planted in a workmanlike manner for harvest: Provided, That any failure to harvest the crop because of conditions beyond the control of such person shall not affect his status as a farmer engaged in the production of the crop. In addition, the phrase “farmers engaged in the production of a commodity” also includes each person who it is determined would have had an interest as a producer in the commodity on a farm for which a farm allotment for the crop of the commodity was established and no acreage of the crop was planted but an acreage of the crop was regarded as planted for history acreage purposes under the applicable commodity regulations.

(c) Special conditions applicable to peanuts and rice—(1) Peanuts. In the case of a referendum for marketing quotas for peanuts, farmers engaged in the production of peanuts as determined under paragraph (b) of this section shall not be eligible to vote in the referendum if the farm does not have any production of peanuts subject to marketing quotas. Under section 359(b) of the Act, marketing quotas are not applicable to peanuts produced on any farm on which the acreage harvested for nuts is 1 acre or less provided the producers who share in the peanuts produced on such farm do not share in the peanuts produced on any other farm. Under section 359(b) of the Act, marketing quotas are not applicable to peanuts which it is established (i) were not picked or threshed either before or after marketing from the farm, or (ii) were marketed by the producer before drying or removal of moisture from such peanuts either by natural or artificial means for consumption exclusively as boiled peanuts.

(2) Rice. In the case of a referendum for a marketing quota for rice, farmers engaged in the production of rice as determined under paragraph (b) of this section shall not be eligible to vote in the referendum if the farm is not subject to marketing quotas. Under section 353(d) of the Act, marketing quotas are not applicable (i) to nonirrigated rice produced on any farm on which the acreage planted to nonirrigated rice does not exceed 3 acres, or (ii) to rice produced outside the continental United States.

(d) [Reserved]

(e) One vote limitation. Each person eligible to vote in a particular marketing quota referendum shall be entitled to only one vote in such referendum regardless of the number of farms in which such person is interested: Provided, That:

(1) The individual members of a partnership shall each be entitled to one vote, but the partnership as an entity shall not be entitled to vote;

(2) An individual eligible voter shall be entitled to one vote even though he is interested in an entity (including but not limited to a corporation) which entity is also eligible to vote;

(3) A person shall also be entitled to vote in each instance of his capacity as a fiduciary (including but not limited to a guardian, administrator, executor or trustee) if in such fiduciary capacity
§ 717.5 Community referendum committees.

(a) Where one referendum is to be conducted. Except where the entire county is to be considered a referendum community, the county committee shall designate a community referendum committee for each referendum community. Each referendum committee shall consist of at least three regular members and one alternate. The membership of the referendum committee shall be chosen from among the farmers who reside in the community and who are eligible to vote in the referendum or who are community committeemen elected pursuant to the regulations in the subpart—Selection and Functions of Agricultural Stabilization and Conservation County and Community committees (part 7 of this title). The county committee shall name one member of the community referendum committee as chairman and another member thereof as vice chairman. The vice chairman shall act as the chairman in the event of the absence or incapacity of the chairman and the alternate shall serve on the committee in the place of any regular member who cannot serve. The community referendum committee shall be responsible for the proper holding of the referendum in its community in a fair, unbiased and impartial manner in accordance with this part. In counties where the entire county is treated as one referendum community, the county committee shall perform, in addition to its other duties, the duties of the community referendum committee.

(b) Where two or more referenda are to be conducted. Where two or more referenda are to be held in the county on the same day, the provisions of paragraph (a) of this section shall be applicable except that (1) the total number of farms on which there are producers eligible to vote in any one or more of such referenda shall be used to determine whether there are 100 or
more farms on which there are producers who are eligible to vote in the referenda, and (2) each community referendum committee shall be chosen from among the farmers who reside in the community and who are eligible to vote in any of such referenda or who are community committee members elected pursuant to the regulations in the subpart—Selection and Functions of Agricultural Stabilization and Conservation County and Community committees (part 7 of this title).

§717.6 Place for balloting.

The county committee shall designate only one polling place for balloting in each referendum community. The polling place shall be one well known to and readily accessible to the persons in the community and shall be equipped and arranged so that each voter can mark and cast his ballot in secret and without coercion, duress, or interference of any sort whatsoever. Subject to the provisions of §717.8(c) for absentee ballots, a farmer or producer eligible to vote, shall vote only at a polling place designated for the referendum community in which he was engaged in the production of the commodity for which the referendum is held.

§717.7 Time of voting.

There shall be no voting except on the day fixed for the holding of the referendum (except as provided in §717.9(c) in the case of absentee ballots) and the day fixed for the holding of the referendum shall be the same in all neighborhoods, communities, counties, and States. The date for holding the referendum shall be determined by the Secretary in accordance with the provisions of law applicable thereto and stated in the notice of the referendum prescribed by him. The time that polls shall be opened and closed on the date fixed for holding the referendum in the States and Puerto Rico is as follows:

The times listed in this section shall be the local time in effect for the area in which the polling place is located.

§717.8 Notice of referendum.

(a) Posting a notice. The county committee shall give public notice of the referendum in each referendum community by posting a notice at one or more places open to the public within such community prior to the date of the referendum. Such notice shall be on a form prescribed by the Deputy Administrator and shall state the commodity or commodities and marketing year, or years, or crops for which the referendum is to be held, the location of the polling place in the community, the date of the referendum, and the
hours when the polls will be opened and closed. The county executive director is authorized to sign such notice on behalf of the county committee.

(b) Use of agencies of public information. The county committee and community referendum committees shall utilize, to the extent practicable (without advertising expense), all available agencies of public information, including newspapers, radio, television and other means, to give persons in the county public notice of the day and hours of voting, the location of polling places, and the rules governing eligibility to vote. Such notice should be given as soon as practicable after the arrangements for holding the referendum in the county have been made.

§ 717.9 Manner of voting.

(a) Secret ballot. The voting in the referendum shall be by secret ballot. Each voter shall, at the time he is handed the form on which to cast his ballot, be instructed to mark his ballot form so as to indicate clearly how he votes and in such manner that no one else shall see how he votes and then to fold his ballot and place it in the ballot box without allowing anyone else to see how he voted. A suitable place where each voter may mark and cast his ballot in secret and without coercion, duress, or interference of any sort whatever, shall be provided in each polling place. Every unchallenged ballot shall be placed in the ballot box by the person who voted it. The fact that a voter fails to fold a ballot placed in the ballot box shall not invalidate it. It shall be the duty of each community referendum committee to see that no device of any sort whatever is used whereby any voter’s ballot may be identified except as provided in this part in the case of a challenged ballot or an absentee ballot.

(b) Voting by proxy prohibited. There shall be no voting by proxy or agent, or in any manner except by the eligible voter (or the challenged voter under paragraph (d) of this section) personally depositing in the ballot box his ballot as marked by him (except as provided in the case of an absentee ballot), but a duly authorized officer of a corporation, association, or other legal entity, may cast its vote.

(c) Absentee ballots. Any person who will not be present on the day of the referendum in the county in which he is eligible to vote or who will be prevented from voting in person on the day of the referendum because of physical incapacity, or whose religious belief forbids him from voting on the day of the referendum, may obtain prior to the date of the referendum, one ballot from a State or county FSA office conveniently situated for him, or from the Commodity Programs Division, FSA, Department of Agriculture, Washington, D.C., and cast an absentee ballot. The office so issuing the ballot form shall endorse on the reverse side thereof a statement in substantially the following form identifying the place in which it was issued and the county to which it will be mailed or delivered, initialed and dated by the person issuing such form.

Issued in County State, or by State FSA Office, or by Division, FSA, Washington, D.C., for use in County State.

The issuing office shall keep a register showing for each ballot form so issued by it to be voted absentee, the name and address to whom issued, the date of issuance, and the county and State in which the ballot is to be voted, and the name and title of the person who issued the ballot. The person to whom the ballot is issued shall mark the ballot so as to indicate clearly how he votes and place the ballot in a plain envelope which shall be marked clearly with the words “Absentee Ballot,” sealed and inserted in another envelope which shall be marked clearly with the voter’s name and return address, sealed and delivered, or mailed, postage paid, to the county committee for the county in which he is eligible to vote. All absentee ballots must, in order to be accepted, reach the county office for the county in which the voter is eligible to vote by not later than the hour for closing the polls in the county on the day of the referendum. No such ballot shall be counted unless the voter’s name and address appear on the envelope and it is determined that he is eligible to vote.
§ 717.10

(d) Challenged ballots. The community referendum committee or any member thereof shall challenge the eligibility of any person to vote in the referendum where (1) the community referendum committee or any member thereof is unable to determine that the person is eligible to vote in the referendum in the community, or (2) the community referendum committee or any member thereof has reason to believe that such person has previously voted in the referendum in another community in the same or another county in person or by mail, or (3) the person’s name and address have not been entered on the register of eligible voters, prior to its delivery to the referendum committee, unless the referendum committee is satisfied that the person is eligible to vote. In every case where the eligibility of the voter is challenged, his ballot form, after being marked by the challenged person so as to show how he votes, but in such manner that no one else sees how he votes, shall be folded and placed by him (or by a member of the committee if he refuses) in an envelope, which shall then be sealed and placed in another envelope, identified with his name and address, the word “Challenged” and a statement of the reason for the challenge, and shall then be placed in the ballot box. The county committee shall make an investigation in each case of controversy or dispute regarding the eligibility of a voter to vote in the referendum. In each case of a challenged ballot the eligibility of the person to vote in the referendum shall be determined by the county committee as soon as may be possible after the polls are closed and before the time for forwarding to the State committee the county summary of ballots. If it is determined that the person whose vote was challenged is eligible to vote, the sealed envelope containing the ballot shall be placed with the challenged ballot of every other person found to be eligible to vote until all challenged ballots have been passed upon by the county committee. If it is determined that the person whose vote was challenged is not eligible, the sealed envelope shall be marked “Not eligible” and signed by a member of the county committee and shall not be opened. When all of the challenged ballots have been passed upon by the county committee, the challenged ballots which were cast by eligible voters shall be opened and tabulated on the county summary of ballots, but no disclosure shall be made as to how any particular person voted.

(e) Ballot box. Each polling place shall be furnished with a suitable ballot box. Any container of sufficient size so arranged that no ballot can be read or removed without breaking seals on the container will be suitable. When strip adhesive paper or corresponding seals are used on the ballot box, such seals shall be signed or initialed by the chairman or a member of the community referendum committee so that breaking or replacing the seal will so destroy or affect the identifying marks as to show that the seal has been tampered with.

§ 717.10 Local arrangements for holding the referendum.

The county committee shall make all arrangements for the proper holding of the referendum in accordance with this part prior to the date of the referendum. The county committee shall instruct each community referendum committee concerning its duties so that each member of the committee understands his duties and the duties of the committee in all respects, with particular emphasis as to (a) issuing ballot forms, (b) challenged ballots, (c) recording votes, (d) tabulating ballots, and (e) certifying results of the referendum in the referendum community. The county executive director shall furnish each community referendum committee an adequate supply of forms prior to the time the polls in the county are opened for the acceptance of ballots, by delivering the ballot forms and the forms for the community summary of ballots to each chairman of the several community referendum committees.

§ 717.11 Issuing ballots.

The community referendum committee shall open the polling place for the issuance of ballot forms and the casting of ballots at the time designated and shall thereafter until the
Farm Service Agency, USDA

§ 717.13 Reporting and record of results of referendum.

The community referendum committee shall notify the county committee by telephone, telegraph, messenger, or in person of the preliminary count of the votes on each question and of the number of spoiled and challenged ballots, as soon as may be possible. All the spoiled ballots shall be placed in an envelope and sealed and marked with the initials of the chairman (or vice chairman) of the community referendum committee and the designation “Spoiled Ballots” followed by the number of spoiled ballots and the names of the community, the county, and the State. The community referendum committee shall execute the certification as to the accuracy of the register of eligible voters and ballots cast. The community referendum committee shall then prepare and execute the community summary of ballots and post one copy thereof, as soon as it is executed, in a conspicuous place at the polling place, so that it will remain posted and accessible to the public for at least 3 calendar days after the holding of the referendum. The community referendum committee shall seal the voted ballots, including those challenged and spoiled, the register of eligible voters and ballots cast, and the community summary of ballots, in one or more envelopes appropriately identified by the names of the community, the county, and the State, and the nature of the referendum and the date on which it was held, and deliver them to the county committee not later than 9 a.m., local time, on the second calendar day after the date of the referendum, together with the unused ballot and other forms. The chairman (or vice chairman) of the community referendum committee shall be responsible for the safe delivery of such reports, ballots, and forms to the county committee.

§ 717.12 Community referendum committee's canvass of ballots.

Immediately after the polls are closed, the community referendum committee shall open the ballot box and canvass the ballots cast. The canvass of the ballots shall be kept open to the public. A ballot shall be considered as a spoiled ballot if it is mutilated or marked in such a way that it is not possible to determine with certainty how the ballot was intended to be counted on a particular question. The envelope containing the challenged ballots shall not be opened. The total number of ballots issued as shown on the register of voters shall be determined and the total number of ballots cast, including the spoiled and challenged ballots, shall be determined. The number of ballots cast in favor of and the number of ballots cast in opposition to the question on which the referendum was held shall be determined. The spoiled ballots and challenged ballots shall not be considered in favor of or against the question. If any member of the community referendum committee should see or learn how any person voted, whether or not the ballot was challenged, spoiled, or otherwise, he shall not disclose such knowledge to a fellow committeeman or any other person except in an investigation conducted under this part.
§ 717.14 County committee’s canvass of ballots.

The county committee, after the closing of the polls, shall open and canvass the absentee ballots received and determine the eligibility of each voter. If any person voting absentee is found to be ineligible to vote, or the ballot is so mutilated or marked that it is not possible to determine with certainty how the person intended to vote, such ballot shall not be counted as for or against the question in the referendum. The county committee shall meet and pass upon the challenged ballots as soon as may be reasonably possible after the challenged ballots are received from the community referendum committees, but not later than 4 calendar days after the day of the referendum. The result of the referendum in each community shall be reviewed and summarized as soon as may be reasonably possible after the records, ballots, and forms are received from the several community referendum committees. Every meeting of the county committee for the purpose of canvassing the ballots cast and reviewing and tabulating the results of the referendum shall be open to the public. No member of the county committee who learns how any person besides himself voted, whether the ballot was an absentee ballot, challenged, spoiled, or otherwise, shall disclose such knowledge to any fellow committeeman or other person except in an investigation conducted under this part.

§ 717.15 County committee’s reporting and record of results of the referendum.

The county committee shall notify the State committee by telephone, telegraph, or messenger (who may be a member of the county committee), as to the preliminary count of the votes on each question and the number of challenged ballots by the several community referendum committees as soon as possible. The county committee shall, as soon as may be reasonably possible, but in no event later than 4 calendar days after the date of the referendum, have prepared and certified the county summary of ballots. Such summary shall be prepared and certified in triplicate, one copy of which shall be sent to the State committee, one copy posted for 30 calendar days in a conspicuous place accessible to the public in or near the office of the county committee, and one copy filed in the office of the county committee and kept available for public inspection. One copy of each community summary shall likewise be posted for 30 calendar days in a conspicuous place accessible to the public in or near the office of the county committee.

§ 717.16 Investigation as to correctness of summary of the referendum.

The county committee shall make an investigation in each case of a dispute or challenge regarding the correctness of the summary of the referendum in a community. No dispute or challenge shall be investigated by the county committee unless it is brought to its attention within 3 calendar days after the date on which the referendum was held. The county committee shall promptly decide the dispute or challenge and report its findings to the State committee within 5 calendar days after the holding of the referendum and send by certified mail, or deliver in person, to the office of the State committee all voted ballots, register forms, and community summary sheets involved in the dispute or challenge.

§ 717.17 State committee’s reporting and record of result of the referendum.

The State committee for each State shall notify the Deputy Administrator by telegraph or telephone as to the preliminary count of the votes in the State as soon as the preliminary results of the referendum are made known to the State committee. The county summaries of ballots shall be summarized on the State summary of ballots as soon as possible, but in no event later than 7 calendar days after the date of the referendum, unless there is a dispute or challenge regarding the correctness of the summary for any county, in which case the State committee shall complete its investigation thereof, decide the dispute or challenge, and prepare the State summary accordingly within 14 calendar...
§ 717.20 Receiving and tabulating voted ballots.

Ballots received at the county FSA office during the referendum period shall be placed immediately in a ballot box provided by the county executive director and so arranged that ballots cannot be read or removed without breaking the seal on the container. Voted ballots received by the county committee of the county in which the voter is eligible to vote during the period established for holding a particular referendum, shall be tabulated by the county committee. A ballot shall be considered to have been received during the referendum period if (a) in the case of a ballot delivered to the county committee, it was received in the office prior to the close of the work day on the final day of the referendum period, or (b) in the case of a mailed ballot, it was postmarked not later than midnight of the final day of the referendum period and was received in the county office prior to the start of canvassing the ballots. However, no such ballot shall be counted unless the voter signs the certification or his mark is witnessed on the returned envelope, and it is determined that he is eligible to vote in the particular referendum.

§ 717.21 Canvassing voted ballots.

(a) Time of canvassing. The canvassing of voted ballots shall take place at the opening of the county office on the fifth day after the close of the referendum period. Ballots received after the start of tabulation, even though contained in envelopes that were post-marked prior to midnight of the final day of the referendum period, shall not be counted.

(b) Canvassing by county committee. The canvassing shall be in the presence of at least two members of the county committee and open to the public: Provided, That if two or more counties have been combined and served by the county office, the canvassing of ballots shall be conducted by at least one member of the county committee from each county served by the county office: Provided further, That the State committee, or the State executive director if authorized by the State committee, may (1) designate the county executive director and a county or State FSA office employee to canvass the ballots and report the results, as provided in paragraph (c) and §717.22, instead of two members of the county committee, when it is determined that the number of eligible voters for the commodity for which the referendum is being conducted is so limited that having two members of the county committee present for this function is impractical and (2) designate the county Executive Director and/or another county or State FSA office employee to canvass ballots in any emergency situation precluding at least two members of the county committee from being present to carry out the functions required in this section.

(c) Manner of canvassing. The canvassing of ballots shall follow the following procedure:

1. The ballot box shall be opened;
2. The envelopes from the ballot box shall be separated into three groups consisting of (i) unopened certification envelopes which do not have a proper signed certification, (ii) unopened certification envelopes from ineligible voters, and (iii) unopened certification envelopes from eligible voters;
3. The unopened certification envelopes from eligible voters shall be opened and plain envelopes removed and then shuffled to preserve the secrecy of the ballots contained in such plain envelopes;
4. The ballots shall be removed from such plain envelopes and tabulated. A ballot shall be considered as a spoiled ballot if it is mutilated or marked in such a way that it is not possible to determine with certainty how the ballot was intended to be counted on a particular question. The spoiled ballots shall not be considered in favor of or against the question.
5. The unopened certification envelopes which do not have a proper signed certification shall not be opened and shall not be considered in favor of or against the question.
6. The unopened certification envelopes from ineligible voters shall be considered as challenged ballots. The county committee shall determine the eligibility of the person to vote in the referendum. If determined to be eligible such envelopes shall be handled as provided under paragraphs (c)(3) and (4) of this section. If determined not to be eligible, such envelopes shall not be opened and shall not be considered in favor of or against the question.

(d) Dispute or challenge. A dispute or challenge with respect to any referendum held by mail ballot shall not be considered unless notification of such dispute or challenge is filed in writing with the county executive director of the county in which the alleged irregularity occurred within 3 days after the date of the canvassing of voted ballots. Such written notification of a dispute or challenge must identify each alleged instance in which the county committee erred when canvassing the ballots or tabulating the referendum results. The county committee shall determine the validity of the dispute or challenge and report its findings to the State committee within 3 working days after the final date for filing a dispute or challenge.

§ 717.22 Reporting and record of result of the referendum.

(a) County committee. The county committee shall notify the State committee by telephone, telegraph, or messenger (who may be a member of the county committee), as to the preliminary count of the votes on each question and the number of challenged ballots as soon as possible. The county committee shall, as soon as may be reasonably possible, but in no event later than 4 calendar days after canvassing of the ballots, have prepared and certified the county summary of ballots. Such summary shall be prepared and certified in triplicate, one copy of which shall be sent to the State committee, one copy posted for 30 calendar days in a conspicuous place accessible to the public in or near the office of the county committee, and one copy filed in the office of the county committee and kept available for public inspection.

(b) State committee. The State committee for each State shall notify the Deputy Administrator by telephone or telegraph as to the preliminary count of the votes in the State as soon as the preliminary results of the referendum are made known to the State committee. The county summaries of ballots shall be summarized on the State summary of ballots as soon as possible, but in no event later than 7 calendar days after canvassing of the ballots, unless there is a dispute or challenge regarding the correctness of the summary for any county, in which case the State committee shall complete its investigation thereof, decide the dispute or challenge, and prepare the State summary accordingly within 14 calendar days after canvassing of the ballots. The State summary shall be prepared in triplicate and certified to by the State executive director. The original and one copy of the State summary shall be forwarded to the Director of the FSA Division having the responsibility for the commodity for which the referendum was held. One copy of the State summary shall be filed for a period of 5 years in the office of State committee available for public inspection.

The Caribbean Area Agricultural Stabilization and Conservation Committee shall be in charge of and responsible for conducting in Puerto Rico each referendum required by the Act. § 717.24 Result of referendum.

(a) Proclamation of result. The final and official tabulation of the votes cast in the referendum shall be made by the Deputy Administrator and the result of the referendum will be publicly proclaimed and published in the Federal Register. The State summaries and related papers shall be filed with such tabulation for a period of 5 years available for public inspection in the Department of Agriculture.

(b) Unofficial announcements of result. Each county committee is authorized to issue unofficial reports of the total “Yes” and “No” votes in its county to the press and the public. Each State committee is authorized to issue to the press and the public the unofficial result of the referendum in its State by counties as rapidly as the votes in the various counties are reported to it.

(c) Investigations. If the Deputy Administrator or the Secretary deems it necessary, the report of any community referendum committee, county committee, or State committee shall be reexamined and checked by such
§ 717.25 Disposition of ballots and records.

If no notice to the contrary is received by the end of such time, the voted ballots, challenged ballots, spoiled ballots, and unopened certification envelopes shall be destroyed, but the registers and community and county summary sheets and the register of absentee ballots shall be filed for a period of 5 years in the office of the county committee.

(b) The acreage requested to be measured by staking and referencing shall not exceed the effective farm allotment for marketing quota crops or acreage of a crop that is limited to a specific number of acres to meet any program requirement.

(c) When a producer requests, pays for, and receives written notice that measurement services have been furnished, the measured acreage shall be guaranteed to be correct and used for all program purposes for the current year even though an error is later discovered in the measurement thereof, if the producer has taken action with an economic significance based on the measurement service, and the entire crop required for the farm was measured. If the producer has not taken action with an economic significance based on the measurement service, the producer shall be notified in writing that an error was discovered and the nature and extent of such error. In such cases, the corrected acreage will be used for determining program compliance for the current year.

(d) When a measurement service reveals acreage in excess of the permitted acreage by more than the allowable tolerance, the producer must destroy the excess acreage and pay for an authorized employee of FSA to verify destruction, in order to keep the measurement service guarantee.

§ 718.102 Acreage reports.

(a) In order to be eligible for benefits, participants in the programs specified in paragraph (b)(1) through (3) of this section and those who are subject to the regulations cited in paragraph (b)(4) and (5) of this section must submit accurate information as required by these provisions.

(3) Participants in the programs authorized by parts 704 and 1410 of this title must report the use of the land enrolled in such programs;

(4) Participants in the programs authorized by parts 723 and 1464 of this title must report the acreage planted to tobacco by kind on all farms that have an effective allotment or quota greater than zero; provided further that for burley tobacco each person who owns a farm for which a burley quota is established must report the acreage planted to burley tobacco, including instances in which the acres planted are zero acres; and

(5) Participants in the programs authorized by parts 729 and 1446 of this title must report the acreage planted to peanuts by type.

(c) The reports required under paragraph (a) of this section shall be timely filed by the farm operator, farm owner, or a duly authorized representative with the county committee by the final reporting date applicable to the crop as established by the county committee and State committee.

§ 718.105 Tolerances, variances, and adjustments for tobacco and peanuts.

(a) Tolerance or variance for tobacco and peanuts is the amount by which the determined acreage may differ from the reported acreage or allotment and still be considered in compliance with program requirements. Tolerance or variance for tobacco is the amount by which the determined acreage may differ from the reported acreage or allotment and still be considered in compliance with program requirements.

(b) Tolerance rules apply to those fields for which a staking and referencing was performed but such acreage was not planted according to those measurements or when a measurement service is not requested for acreage destroyed to meet program requirements.

§ 718.103 Late-filed reports.

(a) A farm operator's report may be accepted after the established date for reporting if evidence is still available for inspection which may be used to make a determination with respect to the existence and use made of the crop, the lack of the crop or a disaster condition affecting the crop.

(b) The farm operator shall pay the cost of a farm visit by an authorized FSA employee unless the County Committee has determined that failure to report in a timely manner was beyond the producer's control.

§ 718.104 Revised reports.

(a) The farm operator may revise a report of acreage with respect to 1996 and subsequent years to change the acreage reported if the county committee determines that the revision does not have an adverse impact on the program and the acreage has not already been determined by FSA.

(b) Revised reports shall be filed and accepted:

(1) At any time for all crops if evidence exists for inspection and determination of the existence and use made of the crop, the lack of the crop, or a disaster condition affecting the crop; and

(2) If the requirements of paragraph (a) have been met and the producer was in compliance with all other program requirements by the applicable established crop reporting date.

§ 718.106 Acreages.

(a) If an acreage has been established by a representative of FSA for an area delineated on an aerial photograph, such acreage will be recognized by the county committee as the official acreage for the area until such time as the boundaries of such area are changed. When boundaries not visible on the aerial photograph are established from data furnished by the producer, such acreage shall not be recognized as official acreage until the boundaries are verified by an authorized representative of FSA.

(b) Measurements of any row crop shall extend beyond the planted area by the larger of 15 inches or one-half the distance between the rows.

(c) The entire acreage of a field or subdivision of a field devoted to a crop shall be considered as devoted to the crop subject to any allowable deduction or adjustment credit except as otherwise provided in this part.

§ 718.107 Skip rows and strip crops.

(a) To be considered under the skip row provisions of this section the field must be planted in a uniform planting pattern and the number of rows planted between skips cannot exceed 36 rows. If more than one pattern is used within a field, the area planted to each pattern will be considered a subdivision.

(b) The entire acreage of the field or subdivision shall be considered as devoted to the crop where the crop is planted in strips of two or more rows and the strips of idle land are less than 64 inches wide, except where cotton is planted in skip row patterns:

(1) If the distance between the rows is 30 inches the strips of the idle land are less than 60 inches wide; or

(2) If the distance between the rows is 32 inches or wider and the strips of idle land are at least 60 inches but less than 64 inches, the producer has the option to consider the crop as either solid planted or skip row if the producer has a history of planting 32-inch or wider rows.

(c) The county committee shall determine if the producer has a history of 32-inch or wider rows by verifying that cotton acreage has been planted in 32-inch or wider rows in past years and reported on the acreage report, or reported to other State or Federal Agencies.

(d) If the strips of idle land are too wide to be considered as solid planted in accordance with paragraph (b) of this section the acreage of the strips planted to the crop, including one-half the distance between the rows of the crop but not less than 15 inches beyond the outside rows of the crop in each strip, shall be considered as devoted to the crop.

(e) When one crop is alternating with another crop, the entire acreage of the field or subdivision shall be considered as devoted to the crop being measured where such crop is planted in strips of one or more rows and the strips of the other crop are less than 64 inches.

(f) If strips of the alternating crop are too wide to be considered solid planted in accordance with paragraph (b) of this section and if the alternating crop:

(1) Has substantially the same growing season as the crop being measured, only the acreage planted to the crop being measured, including the smaller of one-half the distance between the strips of the crop being measured or 30 inches shall be considered as being devoted to the crop being measured; or

-Effective acreage allotment is within this range-
§ 718.111 Redetermination.

(a) If the area not devoted to the crop is located within the planted area, the part of any perimeter area that is more than 33 links in width will be considered to be an internal deduction if the standard deduction is used.

(b) A standard deduction of 3 percent of the area devoted to a row crop and zero percent of the area devoted to a close-sown crop may be used in lieu of measuring the acreage of turn areas.

§ 718.109 Adjustments.

(a) The farm operator or other interested producer having excess tobacco acreage (other than flue-cured or burley) may adjust an acreage of the crop in order to avoid a marketing quota penalty if such person:

(1) Notifies the county committee of such election within 15 calendar days after the date of mailing of notice of excess acreage by the county committee; and

(2) Pays the cost of a farm visit to determine the adjusted acreage prior to the date the farm visit is made.

(b) The farm operator may adjust an acreage of tobacco (except flue-cured and burley) by disposing of such excess tobacco prior to the marketing of any of the same kind of tobacco from the farm. The disposition shall be witnessed by a representative of FSA and may take place before, during, or after the harvesting of the same kind of tobacco grown on the farm. However, no credit will be allowed toward the disposition of excess acreage after the tobacco is harvested but prior to marketing, unless the county committee determines that such tobacco is representative of the entire crop from the farm of the kind of tobacco involved.

§ 718.110 Notice of measured acreage.

Written notice of measured acreage shall be on Form FSA–468, Notice of Determined Acreage, when mailed to the farm operator and shall constitute notice to all interested producers on the farm.

§ 718.111 Notice of measured acreage.

Written notice of measured acreage shall be on Form FSA–468, Notice of Determined Acreage, when mailed to the farm operator and shall constitute notice to all interested producers on the farm.
shall be used in lieu of any prior determination.

(b) The county committee shall refund the payment of the cost for a re-determination when, because of an error in the initial determination:

(1) The appraised yield is changed by at least the larger of:

(i) Five percent or 5 pounds for cotton;

(ii) Five percent or 1 bushel for wheat, barley, oats, and rye; or

(iii) Five percent or 2 bushels for corn and grain sorghum; or

(2) The farm stored production is changed by at least the smaller of 3 percent or 600 bushels; or

(3) The acreage of the crop is:

(i) Changed by at least the larger of 3 percent or 0.5 acre; or

(ii) Considered to be within program requirements.

Subpart C—Reconstitution of Farms, Allotments, Quotas, and Acreages

§ 718.201 Farm constitution.

(a) Land which has been properly constituted under prior regulations shall remain so constituted until a reconstitution is required under paragraph (c) of this section. The constitution and identification of land as a farm for the first time and the subsequent reconstitution of a farm made thereafter, shall include all land operated by one person as a single farming unit except that it shall not include:

(1) After August 1, 1996, land subject to a production flexibility contract with land not subject to a production flexibility contract;

(2) Land under separate ownership unless the owners agree in writing;

(3) Land under a lease agreement of less than 1 year duration;

(4) Land in different counties when the tobacco allotments or quotas established for the land involved cannot be transferred from one county to another county by lease, sale, or owner. However, this paragraph shall not apply if:

(i) All of the land is owned by one person and operated by one person and all such land is contiguous;

(ii) Two or more tracts are located in counties that are contiguous in the same State and are owned by the same person if:

(A) A burley or flue-cured tobacco quota is established for one or more of the tracts; and

(B) The county committee determines that the tracts will be operated as a single farming unit as set forth in § 718.202; or

(iii) Because of a change in operation, tracts or parts of tracts will be divided from the parent farm that currently has land in more than one county, and there is no change in operation and ownership of the remainder of the farm, or if there is a change in ownership, the new owner agrees in writing to the constitution of the farm.

(5) Federally owned land;

(6) State-owned wildlife land unless the former owner has possession of the land under a leasing agreement;

(7) Land constituting a farm which is declared ineligible to be enrolled in a program under the regulations governing the program;

(8) For land subject to production flexibility contracts, land located in counties that are not contiguous. However, this subparagraph shall not apply if:

(i) Counties are divided by a river;

(ii) Counties do not touch because of a correction line adjustment; or

(iii) The land is within 20 miles, by road, of other land that will be a part of the farming unit; and

(9) With respect to peanut poundage quotas, land across:

(i) County lines when the quotas established for the land involved cannot be transferred; or

(ii) State lines.

(b)(1) If all land on the farm is physically located in one county, the farm records shall be administratively located in such county. If there is no FSA office in the county or the county offices have been consolidated, the farm shall be administratively located in the contiguous county most convenient for the farm operator.

(2) If the land on the farm is located in more than one county, the farm shall be administratively located in either of such counties as the county committees and the farm operator agree. If no agreement can be reached,
§ 718.202 Determining the land constituting a farm.

(a) In determining the constitution of a farm, consideration shall be given to provisions such as ownership and operation. For purposes of this part, the following rules shall be applicable to determining what land is to be included in a farm:

(b) A minor shall be considered to be the same owner or operator as the parent or court-appointed guardian (or other person responsible for the minor child) unless:

(1) The minor child is a producer on a farm;

(2) Neither the minor’s parents nor guardian has any interest in the minor’s farm or production from the farm;

(3) The minor establishes and maintains a separate household from the parent or guardian;

(4) Personally carries out the farming activities in the operation; and

(5) Maintains a separate accounting for the farming operation.

(ii) The owner would qualify to use the landowner designation method of division in accordance with §718.205 or the allotments and quotas can be transferred by sale or owner in accordance with this part and parts 723 or 729 of this chapter and the owner of the parent farm and the purchaser file a signed written memorandum of understanding before Form FSA-476 or Form MQ–24 is issued, stating that the land will be devoted immediately or within 3 years to:

(1) Nonagricultural commercial uses; or

(2) Recreational, residential, industrial or non-farm commercial uses.

(d) Notwithstanding the provisions of paragraphs (c)(1) through (c)(7), a reconstitution shall not be approved if the county committee determines that the primary purpose of the reconstitution is to:

(1) Circumvent the provisions of part 12 of this title; or

(2) Circumvent any other chapter of this title.

§ 718.203 County committee action to reconstitute a farm.

Action to reconstitute a farm may be initiated by the county committee, the farm owner, or the operator with the concurrence of the owner of the farm. Any request for a farm reconstitution shall be filed with the county committee.

§ 718.204 Reconstitution of allotments, quotas, and acreages.

(a) Farms shall be reconstituted in accordance with this subpart when it is determined that the land areas are not properly constituted and, to the extent practicable, shall be based on the facts and conditions existing at the time the change requiring the reconstitution occurred.

(b) Reconstitutions of farms subject to a production flexibility contract in accordance with part 1412 of this title will be effective for the current year if initiated on or before July 1 of the fiscal year.

(c) For tobacco and peanut farms, a reconstitution will be effective for the current year for each crop for which the reconstitution is initiated before the planting of such crop begins or would have begun.

§ 718.203 (c) Notwithstanding paragraph (b) of this section, a minor shall not be considered to be the same owner or operator as the parent or court-appointed guardian if the minor’s interest in the farming operation results from being the beneficiary of an irrevocable trust and ownership of the property is vested in the trust or the minor.

(d) A life estate tenant shall be considered to be the owner of the property for their life.

§ 718.203 (e) A trust shall be considered to be an owner with the beneficiary of the trust; except a trust can be considered a separate owner or operator from the beneficiary, if the trust:

(1) Has a separate and distinct interest in the land or crop involved;

(2) Exercises separate responsibility for the separate and distinct interest; and

(3) Maintains funds and accounts separate from that of any other individual or entity for the interest.

§ 718.205 Rules for determining farms, allotments, quotas, and acreages when reconstitution is made by division.

(a) The methods for dividing farms, allotments, quotas, and acreages in order of precedence, when applicable, are estate, designation by landowner, contribution, agricultural use, crop, and history. The proper method shall be determined on a crop by crop basis.

(b)(1) The estate method is the proration of allotments, quotas, and acreages for a parent farm among the heirs in settling an estate. If the estate sells a tract of land before the farm is divided among the heirs, the allotments, quotas, and acreages for that tract shall be determined by using one of the methods provided in paragraphs (c) through (g) of this section.

(2) Allotments, quotas, and acreages shall be divided in accordance with a will, but only if the county committee determines that the terms of the will are such that a division can reasonably be made by the estate method.

(3) If there is no will or the county committee determines that the terms of a will are not clear as to the division of allotments, quotas, andacreages, such allotments, quotas, and acreages shall be apportioned in the manner agreed to in writing by all interested heirs or devisees who acquire an interest in the property for which such allotments, quotas, and acreages have been established. An agreement by the administrator or executor shall not be accepted in lieu of an agreement by the heirs or devisees.

(4) If allotments, quotas, and acreages are not apportioned in accordance with the provisions of paragraph (b)(2) or (3) of this section, the allotments, quotas, and acreages shall be divided
§718.205  pursuant to paragraphs (d) through (g) of this section, as applicable.

(c)(1) If the ownership of a tract of land is transferred from a parent farm, the transferring owner may request that the county committee divide the allotments, quotas, and acreages, including historical acreage that has been doublecropped, between the parent farm and the transferred tract, or between the various tracts if the entire farm is sold to two or more purchasers, in a manner designated by the owner of the parent farm subject to the conditions set forth in paragraph (c)(4) of this section. In the case of land subject to a Wetlands Reserve Program easement or Emergency Wetlands Reserve Program easement, the parent farm shall retain the allotments, quotas, and acreages.

(2) If the county committee determines that allotments, quotas, and acreages cannot be divided in the manner designated by the owner because of the conditions set forth in paragraph (c)(4) of this section, the owner shall be notified and permitted to revise the designation so as to meet the conditions in paragraph (c)(4) of this section. If the owner does not furnish a revised designation of allotments, quotas, and acreages within a reasonable time after such notification, or if the revised designation does not meet the conditions of paragraph (c)(4) of this section, the county committee will prorate the allotments, quotas, and acreages in accordance with paragraphs (d) through (g) of this section.

(3) If a parent farm is composed of tracts, under separate ownership, each separately owned tract being transferred in part shall be considered a separate farm and shall be constituted separately from the parent farm using the rules in paragraphs (d) through (g) of this section, as applicable, prior to application of the provisions of this paragraph.

(4) A landowner may designate, as provided in this paragraph, the manner in which allotments, quotas, and acreages are divided.

(i) The transferring owner and transferee shall file a signed written memorandum of understanding of the designation with the county committee before the farm is reconstituted and before a subsequent transfer of ownership of the land. The landowner shall designate the allotments, quotas, and acreage that shall be permanently reduced when the sum of the allotments, quotas, and acreages exceeds the crop-land for the farm.

(ii) Where the part of the farm from which the ownership is being transferred was owned for a period of less than 3 years, the designation by landowner method shall not be available with respect to the transfer unless the county committee determines that the primary purpose of the ownership transfer was other than to retain or to sell allotments or quotas. In the absence of such a determination, and if the farm contains land which has been owned for less than 3 years, that part of the farm which has been owned for less than 3 years shall be considered as a separate farm and the allotments or quotas, shall be assigned to that part in accordance with paragraphs (d) through (g) of this section. Such apportionment shall be made prior to any designation of allotments and quotas, with respect to the part which has been owned for 3 years or more.

(5) The designation by landowner method is not applicable to crop allotments or quotas which are restricted to transfer within the county by lease, sale, or by owner, when the land on which the farm is located is in two or more counties.

(6) The designation by landowner method may be applied at the owner’s request to land owned by any Indian Tribal Council which is leased to two or more producers for the production of any crop of a commodity for which an allotment, quota, or acreage has been established. If the land is leased to two or more producers, an Indian Tribal Council may request that the county committee divide the allotments, quotas, and acreages between the applicable tracts in the manner designated by the Council. The use of this method shall not be subject to the conditions of paragraph (c)(4).

(d)(1) The contribution method is the proration of a parent farm’s allotments, quotas, and acreages to each tract as the tract contributed to the allotments, quotas, or acreages at the time of combination and may be used
when the provisions of paragraphs (b) and (c) of this section do not apply. The contribution method shall be used to divide allotments and quotas for a farm that resulted from a combination which became effective during the 6-year period before the crop year for which the reconstitution is effective. This method for dividing allotments and quotas shall be used beyond the 6-year period if FSA records are available to show the amount of contribution.

(2) The county committee determines with the concurrence of the State committee or representative thereof, that the use of the contribution method would not result in an equitable distribution of allotments and quotas, considering available land, cultural operations, and changes in type of farming. The contribution method shall not be used in cases involving the division of allotment or quota for any commodity for which there was no allotment or quota established at the time of the combination.

(e) The agricultural use method is the proration of contract acreage to the tracts being separated from the parent farm in the same proportion that the agricultural and related activity land for each tract bears to the agricultural and related activity land for the parent farm. This method of division shall be used if the provisions of paragraphs (b) through (d) of this section do not apply.

(f)(1) The cropland method is the proration of allotments and quotas to the tracts being separated from the farm on the basis of the allotments and quotas determined to be representative of the operations normally carried out on each tract. The county committee may use the history method of dividing allotments and quotas when it:

(i) Determines that this method would result in the proration of allotments and quotas, more representative than the cropland method of division of the operation normally carried out on each tract; and

(ii) Obtains written consent of all owners to use the history method.

(2) Notwithstanding any other provision of this section, the county committee may waive the requirement for written consent of the owners for dividing allotments and quotas if the county committee determines that the use of the cropland method would result in an inequitable division of the parent farm’s allotments and quotas and the use of the history method would provide more favorable results for all owners.

(3) The history method shall not be used to divide contract acreage.

(b)(1) Allotments, quotas, and acreages apportioned among the divided tracts pursuant to paragraphs (d), (e), (f) and (g) of this section may be increased or decreased if the county committee determines the method used did not provide an equitable distribution considering available land, cultural operations, and changes in the type of farming conducted on the farm. Any increase in an allotment, quota, or acreage determined under such subsections for the parent farm if:

(i) The owners agree in writing; and

(ii) The county committee determines the method used did not provide an equitable distribution considering available land, cultural operations, and changes in the type of farming conducted on the farm. Any increase in an allotment, quota, or acreage with respect to a tract by as much as 10 percent of the allotment, quota, or acreage established with respect to the other tracts which constitute the farm.

(2) Farm program payment yields calculated for the resulting farms of a division performed according to paragraphs (d) through (g) may be increased or decreased if the county committee determines the method used did not
provide an equitable distribution considering available land, cultural operations, and changes in the type of farming conducted on the farm. Any increase in a farm program payment yield on a resulting farm shall be offset by a corresponding decrease on another resulting farm of the division.

(i) If a farm with burley tobacco quota is divided through reconstitution and one or more of the farms resulting from the division are apportioned less than 1,000 pounds of burley tobacco quota, the owners of such farms shall take action as provided in part 723 of this chapter to comply with the 1,000 pound minimum by July 1 of the current year or the quota shall be dropped. Exceptions to this are farms divided:

(1) Among family members;
(2) By the estate method; and
(3) When no sale or change in ownership of land occurs.

[61 FR 37552, July 18, 1996, as amended at 65 FR 65722, Nov. 2, 2000]

§ 718.206 Rules for determining allotments, quotas, and acreages when reconstitution is made by combination.

When two or more farms or tracts are combined for a year, that year’s allotments, quotas, and acreages, with respect to the combined farm or tract, as required by applicable commodity regulations, shall not be greater than the sum of the allotments, quotas, and acreages for each of the farms or tracts comprising the combination, subject to the provisions of § 718.204.

[61 FR 37552, July 18, 1996; 61 FR 49049, Sept. 18, 1996]

§ 718.207 Eminent domain acquisitions.

(a) This section provides a uniform method for reallocating allotments and quotas, with respect to land involved in eminent domain acquisitions. Such allotments and quotas, in accordance with this section, may be pooled for the benefit of the owner who is displaced from the acquired farm by eminent domain acquisition. Such pooling shall be for a 3-year period from the date of displacement or during such other period as the displaced owner may request for the transfer of allotments and quotas, from the pool to other farms owned by such person.

(b) An eminent domain acquisition is a taking of title to land, or the taking of an impoundment easement to impound water on the land, or the taking of a flowage easement to intermittently flood the land, consummated with respect to land which is, or could be, so taken under the power of eminent domain by a Federal, State, or other agency. Such acquisition may be by court proceedings to condemn the land or by negotiation between the agency and the owner. An acquisition by an agency with respect to land not subject to the agency’s power of eminent domain shall not be an eminent domain acquisition for purposes of this section. All land acquired by an agency for the intended project, including surrounding land not needed for the project but acquired as a package acquisition, shall be considered to be in the eminent domain acquisition if the agency expended funds for the package acquisition on the basis of its power of eminent domain.

(c) For purposes of this section, owner means the person, or persons in a joint ownership, having title to the land for a period of at least 12 months immediately prior to the date of transfer of title or grant of the impoundment or flowage easement under the eminent domain acquisition. If such person or persons have owned the land for less than such 12-month period, they may, nevertheless, be considered the owner if the State committee determines that such person or persons acquired the land for the purpose of carrying out farming operations and not for the purpose of obtaining status as an owner under this section. However, no person shall be considered the owner if he acquired the land subject to an eminent domain acquisition under an outstanding contract to an agency or an option by an agency or subject to pending condemnation proceedings. In any case where the current titleholders cannot be considered the owner for the purpose of this section, the State committee shall determine the person or persons who previously had title to the land and who qualify for status as the owner under the criteria in this paragraph.
§ 718.207

(d) The owner shall be considered displaced from a farm which is subject to an eminent domain acquisition on the date:

(1) The owner loses possession of the land;
(2) The owner is voluntarily displaced if a binding contract for acquisition has been executed;
(3) The owner, in the case of a flowage easement, determines it is no longer practical to conduct farming operations on the land; or
(4) The owner loses possession of the land as lessee under a lease from the agency or its designee if the lease provided uninterrupted possession to the owner from the date of acquisition to the end of the lease or extensions of the lease.

(e) The owner shall notify the county committee in writing of the eminent domain acquisition and furnish the date of displacement within 30 days so that allotments and quotas may be pooled in accordance with this section. Failure to so notify the county committee shall result in the loss of the ability of the owner to extend the 3-year period of the pool.

(f) Whenever the county committee determines, by notice from the owner or otherwise, that an owner has been displaced from the farm, the county committee shall establish a pool for the allotments and quotas eligible for pooling under this section for a 3-year period beginning on the date of displacement. Pooled allotments and quotas shall be considered fully planted and, for each year in the pool, shall be established in accordance with applicable commodity regulations.

(g) Pooling is not permitted or required:

(1) If the county committee determines that an agency has authority under its eminent domain powers to acquire a farm for the continued production of an allotment or quota and does so acquire a farm only for such purpose and files a written notice with the county committee of the county in which the farm is located at the time of acquisition designating the allotment and quota to be produced on the farm, there shall be no pooling of such allotment and quota. Such farm allotments and quotas shall be established for the farm in accordance with applicable commodity regulations. For acreages, there shall be no pooling of the acreage under any circumstances if an agency acquires land and retains the land in an agricultural or related activity;
(2) If the displaced owner files written notice with the county committee of an intention to waive the right to have all the allotments and quotas or any part thereof pooled and the county committee determines that the displaced owner has not been coerced to waive such right, the allotments and quotas shall be retained on the agency acquired land;
(3) If an agency acquires part of a farm for non-farming purposes and the cropland on the land so acquired represents less than 15 percent of the total cropland on the farm, the allotments and quotas shall be retained on the portion of the farm not acquired by the agency and shall not be pooled;
(4) If an agency acquires part of a farm for non-farming purposes and the cropland on the land so acquired represents 15 percent or more of the total cropland on a farm, the allotments and quotas attributable to the acquired land shall be retained on the portion of the farm not acquired by the agency if the owner files a written request with the county committee for such retention. The amount of an allotment and quota which may be retained on the farm cannot exceed the land devoted to an agricultural or related activity. Allotments and quotas which are not retained shall be pooled;
(5) If, prior to pooling, an owner files a request to transfer the allotments and quotas to other farms in the same county which are owned by such owner, the county committee may approve a direct transfer without the formal establishment of a pool. Such transfer shall be subject to the requirements of paragraph (j) of this section. This paragraph shall govern the release and re-apportionment of pooled allotments and quotas notwithstanding other provisions of applicable commodity regulations.

(h) Pooled allotments and quotas may be released on an annual basis by the owner to a county committee during any year for which allotments and
quotas are pooled and not otherwise transferred from the pool. The county committee may reapportion the released allotments and quotas to other farms in the same county that have allotments or quotas for the same commodity. Pooled allotments and quotas shall not be released on a permanent basis or surrendered after release to the State committee for reapportionment in other counties. Reapportionment shall be on the basis of past acreage of the commodity, land, labor, and equipment available for the production of the commodity, crop rotation practices, and other physical factors affecting the production of the commodity. Pooled allotments and quotas which are released shall be considered to have been fully planted in the pool and not on the farm to which such allotments and quotas are reapportioned.

(i) Pooled allotments and quotas that may be transferred on a permanent or temporary basis by sale, lease, or by owner designation may be transferred permanently from the pool by the owner or temporarily for the duration of the pooled allotment or quota, subject to the terms and conditions for such transfers in the applicable commodity regulations. The transfer of tobacco acreage allotment or marketing quota shall be approved acre for acre.

(j) (1) The displaced owner may request a transfer of all or part of the pooled allotments and quotas to any other farm in the United States which is owned by the displaced owner, but only if there are farms in the receiving county with allotments and quotas, for the particular commodity or, if there are no such farms, the county committee determines that farms in the receiving county are suited for the production of the commodity. For purposes of this paragraph:

(i) Receiving farm means the farm to which transfer from the pool is to be made;

(ii) Receiving State and county committee mean those committees for the State and county in which the receiving farm is located; and

(iii) Transferring State and county committees mean those committees for the State and county in which the agency acquired farm is located.

(2) The displaced owner shall file with the receiving county committee written application for transfer of an allotment and quota from the pool within 3 years after the date of displacement. The application shall contain a certification from the owner that no agreement has been made with any person for the purpose of obtaining an allotment or quota from the pool for a person other than for the displaced owner. The owner shall attach to the application all pertinent documents pertaining to the current ownership or purchase of land and any leasing arrangements, such as the deed of trust or mortgage, a warranty deed, a note, sales agreement, and lease.

(3) The receiving county committee shall consider each application and determine whether the transfer from the pool shall be approved. Before an application is acted upon by the receiving county committee, the owner shall personally appear before the receiving county committee after reasonable notice, bring any additional pertinent documents as may be requested for examination by the receiving county committee, and answer all pertinent questions bearing on the proposed transfer. Such personal appearance requirement may be waived if the receiving county committee determines from facts presented to it on behalf of the owner that such personal appearance would unduly inconvenience the owner on account of illness or other good cause and such personal appearance would serve no useful purpose. Any action by the receiving county committee shall be subject to the approval required under paragraph (j)(5) of this section.

(4) The transfer from the pool will be approved by the receiving county committee only if the county committee determines that the owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish farming operations. The elements of such an acquisition shall include, but are not limited to, the following:

(i) Appropriate legal documents must establish title to the receiving farm;

(ii) If the displaced owner was the operator of the acquired farm at the date
§ 718.207 7 CFR Ch. VII (1–1–02 Edition)

of displacement, such owner must personally operate and be the operator of the receiving farm for the first year that the allotment and quota is transferred;

(ii) If the displaced owner was not the operator of the acquired farm at the date of displacement and was not a producer on that farm because the leasing or rental agreement provided for cash, fixed rent, or standing rent payment, such owner shall not be required to operate personally and be the operator of the receiving farm, but at least 75 percent of the allotments for the receiving farm must be planted on the receiving farm during the first year of the transfer. With respect to a commodity for which a quota is applicable but for which there is no acreage allotment, an acreage which is equal to the result of dividing the quota transferred to the receiving farms by the receiving farm’s yield, multiplied by 75 percent must be planted during the first year of the transfer;

(iv) If the displaced owner was not the operator of the acquired farm at the date of displacement but was a producer on that farm at the date of displacement, such owner must personally operate and be the operator of the receiving farm for the first year that the allotment and quota is transferred;

(v) The contractural arrangements between the displaced owner and the seller of the receiving farm must not contain a requirement that the receiving farm be leased to the seller or a person designated by or subject to the control of the seller. The seller or a person designated by or subject to the control of the seller may not lease the receiving farm for the first year that an allotment or quota is transferred;

(vi) The contractural arrangements under which the receiving farm was purchased or leased must be customary in the community where the receiving farm is located with respect to purchase price and timing and amount of purchase or rental payments.

(5) The approval by the receiving county committee of a transfer from the pool under this paragraph shall be effective upon concurrence by the State committee of the State where the receiving farm is located (the receiving State committee). Notwithstanding any other provision of this section, the receiving State committee may authorize a transfer from the pool in any case where the owner presents evidence satisfactory to the receiving State committee that:

(i) The eligibility requirements of paragraph (j)(4)(ii), (iii) and (iv) of this section cannot be met without substantial hardship because of illness, old age, multiple farm ownership, or lack of a dwelling on the farm to which an allotment or quota is to be transferred; or

(ii) The owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish farming operations for the displaced owner, even if the farm is leased to the seller of the farm for the first year for which the allotment or quota is transferred.

(6) Upon completion of all necessary approvals under this paragraph, the receiving county committee shall issue an appropriate notice of allotment and quota under the applicable commodity regulations, taking into consideration the land, labor, and equipment available for the production of the commodity, crop rotation practices, and the soil and other physical factors affecting the production of the commodity. For purposes of determining the amount of the allotment and quota available for transfer, the receiving county committee shall consider the receiving tract as a separate ownership. The acreage transferred from the pool shall not exceed the allotments and quotas, most recently established for the acquired farm placed in the pool. When all or a part of the allotment and quota placed in the pool is transferred and used to establish or increase the allotment and quota for other farms owned or purchased by the owner, all of the proportionate part of the past acreage history for the acquired farm placed in the pool. When all or a part of the allotment and quota placed in the pool is transferred and used to establish or increase the allotment and quota for other farms owned or purchased by the owner, all of the proportionate part of the past acreage history for the acquired farm placed in the pool. When all or a part of the allotment and quota placed in the pool is transferred and used to establish or increase the allotment and quota for other farms owned or purchased by the owner, all of the proportionate part of the past acreage history for the acquired farm placed in the pool.
part of the available allotment and quota is transferred from the pool, the remaining part of the allotment and quota, shall remain in the pool for transfer to other farms of the owner until all such allotments and quotas have been transferred or until the period of eligibility for establishing or increasing allotments and quotas under this section has expired.

(7) If any allotment or quota is transferred under this section and it is later determined by the receiving county or State committee, or by the Deputy Administrator, that the transfer was obtained by misrepresentation by or on behalf of the owner, or that the conditions of paragraph (j)(4) of this section are not met, the allotment and quota for the receiving farm shall be reduced for each year the transfer purportedly was in effect by the amount attributable to the allotment or quota transferred from the pool. If the time period for the transfer of the allotment or quota from the pool has not expired, the amount of allotment or quota initially transferred from the pool shall be returned to the pool after the period of time has expired in which the displaced owner could exercise the right of administrative review. Any cancellation of the transfer of an allotment or quota by the receiving county committee shall be subject to approval by the receiving State committee. The receiving county committee shall issue a notice of any marketing quota and penalty as may be required in accordance with applicable commodity regulations.

(8) If the displaced owner files a request for transfer of pooled allotments or quotas, within the prescribed period for filing such request, but the request for transfer is filed during a year in which all or a part of the pooled allotments or quotas were released to the transferring county committee pursuant to paragraph (h), the application for transfer will be processed in the usual manner but the amount of the commodity released shall not be effective on the receiving farm until the succeeding year. When a request for transfer of pooled allotment or quota involves a transfer from one State to another, the receiving State committee shall obtain information from the transferring State committee as to whether any part of the allotment or quota for which the transfer is requested has been released to the transferring county committee for the current year.

(k)(1) When the displaced owner leases part but not all of the agency acquired land, such part shall be constituted as a separate farm on the date of the displacement of the owner from the land not so leased.

(2) If a parent farm consists of separate ownership tracts, each such tract being acquired in whole or in part shall be considered as a separate farm for purposes of paragraphs (g) (3) and (4) of this section.

(3) If a portion of a farm is acquired by an agency and the owner is displaced therefrom, the acquired portion shall be constituted as a separate farm on the date of displacement unless the allotments and quotas are retained on the portion not acquired as provided in paragraphs (g) (3) and (4) of this section, in which case the farm shall not be reconstituted but the farmland and cropland data shall be corrected on all appropriate records for the parent farm.

(l)(1) The displaced owner may file with the county committee a written designation of beneficiary of the rights in the allotments and quotas attributable to the acquired land in the event of the death of the displaced owner, and may revise such designation from time to time. The beneficiary of a deceased owner may exercise the right to continue a lease or negotiate a lease with the agency or its designee, the regular transfer rights with respect to farms owned by such beneficiary, and any release, sale, lease, and owner transfer rights under this section.

(2) If the displaced owner does not file a designation of beneficiary under paragraph (l)(1) and the displaced owner dies before displacement or after pooling occurs, the following persons shall be considered the beneficiary with the rights provided under paragraph (l)(1) of this section:

(i) The surviving joint owner of the farm where two persons own the farm as joint tenants with right of survivorship; and
§ 718.208  Exempting Federal prison farms and Federal wildlife refuges.

A marketing penalty shall not be assessed with respect to any commodity which is produced on a Federal prison farm or Federal wildlife refuge. This exception does not apply to penalties incurred by an individual who has a separate interest in a crop which is subject to marketing quotas and was produced on a Federal prison farm or Federal wildlife refuge.

§ 718.209  Transfer of allotments and quotas—State public lands.

(a) Transfers of allotments and quotas between farms in the same county may be permitted where both farms are lands owned by the State.

(b) An application requesting the transfer of one or more of the allotments and quotas on a farm entirely comprised of lands owned by a State shall be filed with the county committee by the State. The application shall identify the farms as being within the same county, show that each farm is entirely comprised of lands owned by the State, and list the allotments and quotas requested to be transferred. Additional information with respect to the present operations on the farms, including all leasing arrangements, shall also be set forth in the application.

(c) The State committee shall establish the closing date for filing applications under paragraph (b) of this section for each year which shall be no later than the general planting date in the county for the commodity involved in the transfer.

(d)(1) Each transfer of an allotment and quota under this section shall be adjusted for differences in farm productivity if the yield projected for the year the transfer is to take effect for the farm to which transfer is made exceeds by more than ten percent the yield projected for the year the transfer is to take effect for the farm from which transfer is made. The county committee shall determine the amount of the allotment and quota to be transferred where a productivity adjustment is required to be made by dividing:

(i) The product of the yield for the farm from which the transfer is made and the acreage to be transferred from such farm, by

(ii) The yield for the farm to which the transfer is made.

(2) Acreage for the farm receiving the allotment or quota shall be adjusted by the same percentage as the allotment or quota being transferred is adjusted. The amount of the allotment and quota and related acreage transferred from the farm from which the transfer is made shall be the full amount, but the amount of all allotment or quota and related acreage for the farm to which the transfer is made shall be the adjusted amount.

(e) The amount of allotment and quota on a farm after a transfer under this section is made shall not exceed the average amount of allotment or quota of at least three farms with acreage of cropland similar to the farm receiving the transfer in the community having the applicable allotment acreage and quota on these farms.
(f) Each transfer of any allotment and quota shall be subject to the condition that an acreage equal to the allotment and quota transferred, before any productivity adjustment, shall be devoted to and maintained in permanent vegetative cover on the farm from which the transfer is made. The acreage to be devoted to and maintained in permanent vegetative cover with respect to quota crops shall be determined by dividing the quota transferred by the yield of the farm from which the quota is transferred.

(g) Transfer of an allotment and quota under this section shall only be approved if:

(1) The county committee determines that a timely filed application has been received and that the provisions of this section have been met; and

(2) A representative of the State committee also determines that the provisions of this section have been met. If such a transfer is approved, the county committee shall issue revised notices of the allotment or quota for each farm affected by the transfer. If a county committee obtains evidence that the conditions applicable to any transfer under this section have not been met, a report of the facts shall be made to the State committee. If the State committee determines that such conditions have not been met, the transfer will be canceled, and the allotment and quota shall be retransferred to the original farm. Where cancellation and retransfer is required, the county committee shall issue revised notices of the allotment or quota showing the reasons for the cancellation of the transfer.

Subpart A—General Provisions

§ 723.101 OMB control numbers assigned pursuant to the Paperwork Reduction Act.

The information collection requirements contained in these regulations (7 CFR part 723) have been approved by the Office of Management and Budget (OMB) in accordance with the provisions of U.S.C. chapter 35 and have been assigned OMB control numbers 0560–0058 and 0560–0006.

§ 723.102 Applicability.

The regulations contained in this subpart are applicable to the 1990 and subsequent crops of burley; flue-cured; fire-cured; dark air-cured; Virginia sun-cured; cigar-filler and binder (types 42, 43, 44, 54, and 55); and Cigar filler (type 46) tobacco. These regulations govern the establishment of farm marketing quotas and acreage allotments, the issuance of marketing cards, the identification of marketings of tobacco, the collection and refund of penalties and the keeping of records and making of reports. All of the provisions of these regulations apply to each kind of tobacco for which marketing quotas are in effect unless the wording of the text indicates otherwise.

§ 723.103 Administration.

(a) The regulations in this part will be administered under the general supervision of the Administrator, Farm Service Agency ("FSA") and shall be carried out in the field by State and
§ 723.104 Definitions.

(a) Applicability. The definitions set forth in this section shall be applicable for all purposes of program administration for all kinds of tobacco except as may otherwise be indicated. The definitions in and provisions of parts 718 and 720 of this chapter are hereby incorporated by reference in these regulations unless the context or subject matter or the provisions of these regulations require otherwise.

(b) Terms. The following terms shall be defined as set forth in this paragraph.

Active burley and flue-cured tobacco producer. (1) Any person who shared in the risk of producing a crop of burley or flue-cured tobacco in at least one of the three years preceding the current year, or

(2) Any person who intends to become a burley or flue-cured tobacco producer in the current year by sharing in the risk of producing the crop and who provides a certification of such intentions on a form approved by the Deputy Administrator.

Allowable floor sweepings. The quantity of floor sweepings determined by multiplying 0.0024 times the total producer first sales of the respective kind of tobacco at auction for the season for the warehouse involved.

Auction sale. A marketing of tobacco by a sale at public auction through a warehouse in the regular course of business including sale of all lots of tobacco at public auction in sequence at a given time.

Base Period. The 5 calendar years immediately preceding the year for which farm acreage allotments or marketing quotas are currently being established. For burley tobacco marketing quotas established effective for the 1994 and subsequent crop years, the base period shall be the 3 calendar years immediately preceding the year for which farm marketing quotas are currently being established. For all other kinds of tobacco the five year base period shall remain in effect.

(a) Flue-cured tobacco. A preliminary farm acreage allotment shall be determined for the current year for each farm which has flue-cured tobacco history acreage for the base period. The preliminary farm acreage allotment shall be the same as the farm acreage allotment established for the preceding year.

(b) Burley tobacco. The preceding year’s farm marketing quota shall be the current year’s preliminary farm marketing quota for each old farm except that the preliminary farm marketing quota shall be zero if:

1. The farm or all of cropland has gone out of agricultural production and eminent domain procedure of part 718 of this chapter does not apply.

2. Quota that was pooled under the provisions of part 718 of this chapter has been canceled.

3. A new farm quota that was established in a prior year is canceled.

4. There was no acreage of burley tobacco planted or considered planted for any year of the base period.

5. All the cropland on the farm has been determined by the county FSA committee to be no longer suitable for the production of a crop and provisions of part 704 of this chapter do not apply.
§ 723.202 Determining farm acreage allotment, except for flue-cured tobacco.

With respect to each kind of tobacco, the preliminary allotments determined for all old farms shall be adjusted uniformly so that the total of such allotments for old farms plus the reserve acreage available for establishing new farm allotments, adjusting inequities in acreage allotments for old farms, and for correcting errors in old farm allotments shall not exceed the national acreage allotment established for such kind of tobacco.

§ 723.203 Determination of flue-cured tobacco preliminary farm yields.

(a) Old farms. The preliminary farm yield for a flue-cured tobacco old farm for the current year shall be determined as follows:

(1) Farm having preliminary farm acreage allotment. The preliminary farm yield established for the farm shall be the same preliminary farm yield as was in effect for the preceding year.

(2) Farm not having preliminary farm acreage allotment. The preliminary farm yield shall be determined by dividing the farm yield by the national yield factor.

(b) New Farms. The preliminary farm yield for a new farm shall be determined by dividing the farm yield determined in accordance with §723.204 of this part for such farm by the national yield factor applicable for the year in which the new farm allotment was established.

§ 723.204 Determination of farm yields and normal yields.

(a) Flue-cured tobacco. The farm yield for an old farm shall be determined by multiplying the preliminary farm yield, if the farm has such a yield, by the national yield factor for the current year. The farm yield for new farms and old farms that do not have a preliminary yield shall be that yield, which the county FSA committee determines for the farm taking into consideration:

(1) The soil and other physical factors affecting the production of tobacco on the farm, and

(2) The farm yields determined for other farms on which the soil and other physical factors affecting the production of tobacco are similar.

(b) Burley tobacco. The farm yield for a farm on which a farm yield has been established shall be the same in the current year as the farm yield previously established for the farm. For any farm not having a previously established yield, the county FSA committee shall establish a yield based on similar farms having a farm yield; however, such yield shall not exceed 3500 pounds.

(c) All kinds of tobacco except burley and flue-cured. The normal yield for a farm shall be that yield which the county FSA committee determines is normal for the farm taking into consideration the yields obtained on the farm during any of the years of the base period for which data are available, the soil and other physical factors affecting the production of tobacco on the farm, and the yields obtained on other farms in the locality which are similar with respect to such factors. The normal yield first determined for a farm for any year in accordance with the foregoing provision shall serve as the normal yield for the farm for all purposes in connection with the tobacco marketing program for the year for which such normal yield is determined.
§ 723.205 Determination of farm acreage allotments and effective farm acreage allotments for flue-cured tobacco.

(a) Farm acreage allotments. The farm acreage allotment shall be determined by multiplying the national acreage factor as determined by the Secretary for the current year by the preliminary farm acreage allotment for the current year and adjusting the result by:

(1) Upward adjustment. Adding the:

(i) Acreage approved in accordance with the provisions of §723.210 of this part in order to adjust for an inequity or to correct an error;

(ii) Acreage determined by dividing the pounds of quota which are purchased in the current year by the farm yield; and

(iii) Acreage determined by dividing the pounds of forfeited quota which are approved for adjustment from the forfeiture pool by the farm yield.

(2) Downward Adjustment. Subtracting the:

(i) Acreage determined by dividing the pounds of quota sold in the current year by the farm yield; and

(ii) Acreage of forfeited allotment.

(b) Effective farm acreage allotment. The effective farm acreage allotment for the current year shall be determined by dividing the effective farm marketing quota by the farm yield.

§ 723.206 Determining farm marketing quotas and effective farm marketing quotas.

(a) Burley tobacco. The burley farm marketing quota shall be determined by multiplying the national factor as determined by the Secretary for the current year by the preliminary farm marketing quota for the current year and adjusting the result for permanent quota adjustments.

(b) Flue-cured tobacco. The flue-cured farm marketing quota shall be determined by multiplying the farm acreage allotment by the farm yield.

(c) Burley or flue-cured tobacco. The effective farm marketing quota shall be the farm marketing quota adjusted by:

(1) Upward adjustments. Adding the:

(i) Effective under marketings from the preceding marketing year, but effective for the 2002 and subsequent marketing years, the aggregate amount for all farms of under marketings of burley tobacco for all farms that can be carried over shall be limited to 10 percent of the national basic quota of the preceding year. If needed, factoring will be undertaken to insure that the limit of the preceding sentence is not exceeded.

(ii) The pounds of quota which are temporarily transferred to the farm in the current year.

(2) Downward adjustments. Subtracting the pounds of quota that are:

(i) Overmarketed from the preceding marketing year.

(ii) Overmarketed from any year before the preceding year but have not been subtracted when determining the effective farm marketing quota in a prior year.

(iii) Temporarily transferred from the farm in the current year.

(iv) Reduced in the current year as a result of a violation in a prior year as provided for in §723.408 of this part.

(v) [Reserved]

(vi) Determined, for flue-cured tobacco only, by multiplying the farm yield by the acres reduced from the flue-cured tobacco acreage allotment during the current year in accordance with part 704 of this chapter.

(vii) For burley tobacco only, designated for reduction under a Conservation Reserve Program contract in accordance with part 704 of this chapter.

§ 723.207 Determination of acreage allotments or burley marketing quotas for new farms.

(a)(1) All kinds of tobacco. The acreage allotment or burley marketing quota established in any crop year for all new farms shall not exceed the national acreage or poundage, as applicable, reserved for new farms for the respective kind of tobacco. The acreage allotment or burley marketing quota for a new farm shall be that acreage or burley marketing quota which the county FSA committee, with the approval of the State FSA committee, determines is fair and reasonable for the farm, taking into consideration the past tobacco experience of the farm operator; the
land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. Such acreage allotments or burley marketing quota shall not exceed 50 percent (75 percent for Cigar-filler and Binder tobacco) of the average of the applicable acreage allotments or burley marketing quotas established for at least two but not more than five old farms which are similar with respect to land, labor; and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco; and with respect to flue-cured tobacco acreage allotments, shall not exceed one acre.

(2) Kinds of tobacco, except burley and flue-cured. If the acreage planted to tobacco on a new tobacco farm is less than 75 percent of the tobacco acreage allotment otherwise established for the farm pursuant to this section, such allotment shall be automatically reduced to the sum of the tobacco planted tobacco acreage and the prevented planted tobacco acreage as determined under part 718 of this chapter for the farm.

(b)(1) Written application. The farm operator must file an application for a new farm acreage allotment or marketing quota at the office of the county FSA committee where the farm is administratively located on or before February 15 of the year for which the new farm acreage allotment or marketing quota is requested.

(2) Operator requirements. The operator requesting a new farm acreage allotment or marketing quota must be the sole owner of the farm, except for Cigar-filler and Binder tobacco, the operator need not own the farm. The farm operator shall not own or have an ownership interest in or operate any other farm in the United States for which a tobacco allotment or quota for any kind of tobacco is established for the current year.

(3) Availability of equipment and facilities. The operator must own, or have readily available, adequate equipment and any other facilities of production necessary to the production of tobacco on the farm.

(4)(i) Income from farming. The operator must expect to obtain during the current year more than 50 percent of the producer’s income from the production of agricultural commodities or products. The following shall be considered in computing the operator’s income:

(A) Farm income. Income from farming shall include the estimated return from home gardens, livestock and livestock products, poultry, or other agricultural products produced for home consumption or other use on the farm(s). The estimated return from the production of the requested new farm allotment or quota shall not be included.

(B) Non-farm income. Non-farming income shall include but not limited to salaries, commissions, pensions, social security payments, and unemployment compensation.

(C) Spousal income. The spouse’s farm and non-farm income shall be included in the computation.

(ii) Operator a partnership. If the operator is a partnership, each partner must expect to obtain more than 50 percent of their current year income from farming.

(iii) Operator a corporation. If the operator is a corporation, it must have no other major corporate purpose other than ownership or operation of the farm(s). Farming must provide its officers and general manager with more than 50 percent of their expected income. Salaries and dividends from the corporation shall be considered as income from farming.

(iv) Special provisions for low-income farmers. The county FSA committee may waive the income provisions in this section provided they determine that the farm operator’s income, from both farm and non-farm sources is so low that it will not provide a reasonable standard of living for the operator and the operator’s family, and a State FSA committee representative approves such action. In making their determination, the county FSA committee shall consider such factors as size and type of farming operations, estimated net worth, estimated gross family income, estimated family off-farm income, number of dependents,
and other factors affecting the individual’s ability to provide a reasonable standard of living.

(5) Experience. The operator must have had experience in producing, harvesting, and marketing the kind of tobacco requested. Such experience must have been gained by being a sharecropper, tenant, or farm operator (bona fide tobacco production experience gained by a person as a member of a partnership shall be accepted as experience gained in meeting this requirement) during at least 2 of the 5 years immediately preceding the year for which the new farm allotment is requested. The experience must have been gained on a farm having a tobacco allotment for such years for the kind of tobacco requested in the application. However, for Cigar-filler and binder tobacco only, the operator must have experience in any prior year in the production of tobacco as a farm owner, farm operator, sharecropper, tenant, warehouse operator, or laborer on a farm which produced Cigar-filler and binder tobacco.

(6) Operator has not sold or forfeited allotment. For flue-cured tobacco only, during the current or the 4 preceding years, the operator must not have sold or forfeited any flue-cured tobacco allotment from any farm.

(c) Eligibility requirements for the farm. A new farm acreage allotment or marketing quota may be established if each of the following conditions is met:

(1) Current allotment or quota. The farm must not have on the date of approval of a new farm acreage allotment, an allotment or quota for any kind of tobacco.

(2) Availability of land, type of soil, and topography. The available land, type of soil, and topography of the land on the farm must be suitable for tobacco production. Also, continuous production of tobacco must not result in an undue erosion hazard.

(3) Eminent domain acquisition. A farm which includes land acquired by an agency having the right of eminent domain for which the entire tobacco allotment was pooled pursuant to part 718 of this chapter, which is subsequently returned to agricultural production shall not be eligible for a new farm allotment or marketing quota for a period of 5 years from the date the former owner was displaced.

(4) Farm includes land previously having a tobacco acreage allotment. A farm which includes land which has no tobacco allotment because the owner did not designate an allotment for such land when the parent farm was reconstituted pursuant to part 718 of this chapter shall not be eligible for a new farm acreage allotment for a period of 5 years beginning with the year in which the reconstitution became effective.

(5) Entire quota sold. A new farm tobacco acreage allotment may not be established for a farm if, during the current year or the 4 preceding years, the farm was constituted as any part of a farm for which an acreage allotment or marketing quota had been established and for which the current or a former owner sold or permanently transferred all of the tobacco acreage allotment or marketing quota.

(d) False information. Any new farm acreage allotment or marketing quota which was determined by the county FSA committee on the basis of incomplete or inaccurate information knowingly furnished by the applicant, shall be canceled by the county FSA committee as of the date the allotment or quota was established. When incomplete or inaccurate information was unknowingly furnished by the applicant, the allotment or quota shall be canceled effective for the current crop year.

(e) Failure to plant. A new farm acreage allotment or marketing quota shall be reduced to zero if no tobacco is planted on the farm the first year.

§723.208 Determination of acreage allotments, marketing quotas, and yields for divided farms.

(a) Flue-cured tobacco. The farm acreage allotment for the divided farm shall be divided pursuant to the provisions of part 718 of this chapter. History acreages and other basic data shall be apportioned among the divided tracts as provided in part 718 of this chapter.

(b) Burley tobacco. (1) Division of farm marketing quota. The farm marketing quota for the divided farm shall be divided according to part 718 of this
chapter. Other basic data shall be apportioned among the resulting farms in the same proportion as the farm marketing quota.

(2) Divided burley tobacco farms with less than 1,000 pounds of quota. If a farm is divided through reconstitution and the burley tobacco poundage quota which transfers with the resulting farms receive less than 1,000 pounds of quota, the owners of such farms shall take action by July 1 of the current crop year to increase the quota to a minimum of 1,000 pounds or the quota shall be reduced to zero. The quota on the divided farms may be increased by:

(i) Combining the farm having less than 1,000 pounds with other land owned by the same person so that the combined farm has a minimum of 1,000 pounds of farm marketing quota, or

(ii) Purchasing a sufficient amount of quota so that the farm has at least 1,000 pounds of quota.

(3) Sale of Quota. If the owners of the divided farms fail to increase the quota on such farms to a minimum of 1,000 pounds as provided in paragraph (b)(2), the owner must sell the quota by July 1 of the current crop year.

(4) Effective Quota. For the current crop year, the effective farm marketing quota on the divided farms shall be considered to be zero for leasing and planting purposes until the farm complies with the 1,000 pound minimum quota.

(5) Reduction of Quota. The county FSA committee shall reduce the quota to zero on the divided farms if the owners of such farms fail to take action as provided in paragraph (b)(2) and (3) of this section.

(6) Farm Exemptions. Farms exempt from the 1,000 pound minimum quota limitation are farm divisions:

(i) among immediate family members,

(ii) through probate or,

(iii) when no sale or change in ownership of land occurs or,

(iv) when the buyer and purchaser can furnish proof acceptable to the county FSA committee, in accordance with guidelines provided by the Deputy Administrator, that the transaction was finalized prior to November 15, 1990.

(v) when the individual tract or farm with less than 1,000 pounds of quota could be combined with another tract or farm with sufficient quota to reach 1,000 pounds but for the existence of a production flexibility contract on one of the farms.

(c) Burley and flue-cured tobacco. (1) Tract yield. The tract yield for the tracts divided from a parent farm shall be the same as the tract yield established for the tracts before the division of the parent farm. If a tract is divided, the tract yields for the resulting tracts shall be the same as the tract yield established for the tract before it was divided.

(2) Single tract farm. If a tract that is divided from a parent farm becomes a single tract farm, the tract yield shall become the preliminary farm yield and the farm yield for the farm shall be determined by multiplying the preliminary farm yield and the national yield factor for the current year.

(3) Carryover tobacco. Where carryover tobacco produced on a parent farm is marketed after the effective date of a reconstitution, such marketings shall be charged to the divided tracts in the same ratio as the marketing quotas are established for the divided tracts or as the county FSA committee determines that:

(i) The proceeds from such marketings are received by the owner or operator of one or more of the divided tracts, or

(ii) The owners of the divided tracts agree.

§ 723.209 Determination of acreage allotments, marketing quotas, yields for combined farms; and special tobacco combinations.

(a) Burley tobacco. The farm yield for a combined burley farm shall be the weighted average of the tract yields for the tracts being combined. The weighted average shall be the summation of the extensions of each respective tract’s contribution percentage times the tract’s yield.

(b) Flue-cured tobacco. Flue-cured farm acreage allotments, history acres, and other basic data for combined farms shall be computed for the base
§ 723.210 Corrections of errors and adjusting inequities in acreage allotments and marketing quotas for old farms.

(a)(1) General. The allotment or quota for a farm under a long-term land use program agreement shall be given the same consideration under this section only without being combined for other purposes. This allowance shall apply for tobacco of all kinds and types and with respect to all farms even if one or more of the farms to be combined is the subject of a production flexibility contract (PFC) executed in connection with the program operated under the provisions of 7 CFR part 1412. Such special, limited combinations must otherwise meet the requirements of 7 CFR part 718 for combinations, except the signature (consent) requirements of §718.201(a)(2) of that part. The Deputy Administrator may set such consent requirements for special farm combinations under this section as the Deputy Administrator believes necessary or appropriate. Further, in any case in which one of the farms is a PFC farm, none of the land on any PFC farm that would have been used for the production of tobacco can be used for the production of a “PFC commodity” as defined in this section. Such permission shall be conditioned upon the agreement of all interested parties that land on the PFC allotment or quota farm that would have been used for the production of tobacco shall not be used for the production of any PFC commodity. In the event that such production nonetheless occurs, the special tobacco combination may be made void, retroactive to the date of original approval. Such curative action will likely result in a finding of excess tobacco plantings and sanctions and remedies, which would likely include liability for penalties and other sanctions for excess marketings of tobacco. The Deputy Administrator may set such other conditions on the combinations as needed or deemed appropriate to serve the goals of the tobacco program and the goals of the PFC. The term PFC commodity for purposes of this section means wheat, corn, grain sorghum, barley, oats, upland cotton, and rice.

§ 723.211 Allotments, quotas, and yields for farms acquired under right of eminent domain.

(a) Determination of acreage allotments and marketing quotas. The determination of farm acreage allotments and marketing quotas for farms acquired by an agency having the right of eminent domain, the transfer of such allotments or quotas to a pool, and reallocation from the pool shall be administered as provided in part 718 of this chapter. Where all or a part of an allotment or quota is pooled, all or a proportionate part of the farm acreage allotment or marketing quota shall be pooled.

(b) Closing dates. The State FSA committee shall establish, in accordance with instructions issued by the Deputy Administrator, a final date for:

(1) Release. Releasing pooled farm acreage allotment or farm marketing quota to the county FSA committee for reapportionment to other farms in the county having allotments or quotas for the same kinds of tobacco.

(2) Request for reapportionment. Filing a request to receive reapportioned acreage or quota from the county FSA committee for the current year.

(c) Displaced owner release. The displaced owner of a farm may, not later than the final release date established by the State FSA committee for the current year, release in writing to the county FSA committee for the current year, all or any part of the acreage allotment or burley tobacco marketing quota for the farm in a pool under part 718 of this chapter for reapportionment for the current year by the county committee to other farms in the county on the basis of the past farm acreage or marketings and the past farm acreage allotments or quotas for the same kind of tobacco.

(d) Reapportionment. The county FSA committee may reapportion, not later than 30 days after the final date established by the State FSA committee for requesting reapportioned acreage or marketing quota for the current year, the released acreage or quota or any part thereof to other farms in the county on the basis of the past farm acreage or marketings and the past farm acreage allotments or quotas for the same kind of tobacco; land, labor, and equipment available for the production of such kind of tobacco; crop rotation practices; and soil and other physical factors affecting the production of such kind of tobacco.

(e) Effect of reapportionment. For purposes of establishing future farm allotments or quotas, any reapportioned allotment or quota shall not be considered as planted on the farm to which the allotment or quota was reapportioned.

(f) Burley or flue-cured tobacco provisions. For burley or flue-cured tobacco:
(1) Farm yield. The farm yield for a farm to which a pooled marketing quota is transferred shall be determined in accordance with instructions issued by the Deputy Administrator.

(2) Undermarketings or overmarketings. The undermarketings of a farm acquired by eminent domain shall be added to the marketing quota for the receiving farm and the overmarketings of the acquired farm shall be subtracted from the marketing quota of the receiving farm.

(3) Undermarketings while in eminent domain pool. The pooled quota is considered planted while in the pool. Therefore, for the purpose of determining undermarketings during the time the quota is pooled, the effective quota is considered to be zero.

§ 723.212 Time for making reduction of farm marketing quotas or acreage allotments for violation of the marketing quota or acreage allotment regulations for a prior marketing year.

Any reduction made in a farm acreage allotment or farm marketing quota for the current year for any of the reasons provided for in § 723.408 of this part, shall be made no later than April 1 of the current year in the States of Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia; or May 1 in all other States. If the reduction cannot be made by such dates for the current year, the reduction shall be made in the farm acreage allotment or farm marketing quota next established for the farm, but no later than by corresponding dates in a later year. No reduction shall be made in the farm acreage allotment or farm marketing quota for any farm for a violation if the farm acreage allotment or marketing quota for such farm for any prior year was reduced because of the same violation.

§ 723.213 Approval of acreage allotments and marketing quotas and notices to farm operators.

(a) Review by State FSA committee. All farm yields, acreage allotments, and marketing quotas shall be determined by the county FSA committee of the county in which the farm is located and shall be reviewed by a representative of the State FSA committee.

(b) Notice to farm operator. An official notice of the effective farm acreage allotment or farm marketing quota shall be mailed to the operator of each farm shown by the records of the county FSA committee to be entitled to an allotment or quota. The notice to the operator of the farm shall constitute notice to all persons who as operator, landlord, tenant, or sharecropper are interested in the farm for which the allotment or quota is established. Insofar as practicable, all notices shall be mailed in time to be received prior to the date of any tobacco marketing quota or acreage allotment referendum. A copy of such notice containing the date of mailing or a printout summary of such data shall be maintained for not less than 30 days in a conspicuous place in the county FSA office and shall thereafter be kept available for public inspection in the office of the county FSA committee. A copy of the notice of acreage allotment or marketing quota certified as true and correct shall be furnished to any person interested in the farm for which the allotment or quota is established.

(c) Marketing quota erroneous notice.

(1) If the official written notice of the farm acreage allotment and marketing quota issued for any farm erroneously stated an acreage allotment or marketing quota larger than the correct effective farm acreage allotment or marketing quota, the acreage allotment or marketing quota shown on the erroneous notice shall be deemed to be the tobacco acreage allotment or marketing quota for the farm for the current year only, if the county FSA committee determines (with the approval of the State Executive Director) that the:

(i) Error was not so gross as to place the operator on notice thereof, and

(ii) Operator, relying upon such notice and acting in good faith, materially changes the operator's position with respect to the production of the crop.

(2) Undermarketings and overmarketings for farms for which the erroneous notice of marketing quota is applied shall be determined based on the correct effective farm marketing quota.
§ 723.214 Application for review.

Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for the producer’s farm may, within 15 days after mailing of the official notice of the farm acreage allotment and marketing quota, file an application in writing with the county FSA office to have such allotment and marketing quota reviewed by a review committee in accordance with part 711 of this chapter.

§ 723.215 Transfer of tobacco farm acreage allotment or farm marketing quota that cannot be planted or replanted due to a natural disaster.

(a) Designation of counties affected by a natural disaster. The State FSA committee shall determine those counties affected by a natural disaster (including but not limited to hurricane, rain, flash flood, hail, drought, and any other severe weather) which prevents the timely planting or replanting of any of the tobacco acreage allotment or marketing quota for any farm in the county. The county FSA committee of each county affected by the determination shall publicize the determination.

(b) Application for transfer. The owner or operator of a farm in a county designated for any year under paragraph (a) of this section may file a written application for transfer of tobacco acreage with the farm acreage allotment or marketing quota for such year to another farm or farms in the same county or in any other nearby county in the same or another State if such acreage cannot be planted or replanted because of the natural disaster determined for such year. The application shall be filed with the county FSA committee for the county in which the farm affected by such disaster is located. If the application involves a transfer to a nearby county, the county FSA committee for the nearby county shall be consulted before action is taken by the county FSA committee receiving the application.

(c)(1) Amount of burley tobacco transfer. The burley quota to be transferred shall not exceed the smaller of:

(i) The effective farm quota established under this part less such quota planted to tobacco and not destroyed by the natural disaster, or

(ii) The quota requested to be transferred.

(2) Amount of transfer for other than burley tobacco. The allotment to be transferred shall not exceed the smaller of:

(i) The farm allotment established under this part less such acreage planted to tobacco and not destroyed by the natural disaster, or

(ii) The allotment requested to be transferred.

(d) County FSA committee approval. The county FSA committee shall approve the transfer if it finds that:

(1) All or part of the farm acreage allotment or marketing quota for the transferring farm could not be timely planted or replanted because of the natural disaster.

(2) One or more of the producers of tobacco on the transferring farm will be a bona fide producer engaged in the production of tobacco on the receiving farm and will share in the proceeds of the tobacco.

(e) Cancellation of transfer. If a transfer is approved under this section and it is later determined that the conditions in paragraph (d) of this section have not been met, the county FSA committee, or the Deputy Administrator may cancel such transfer. Action by the county FSA committee to cancel a transfer shall be subject to the approval of the State FSA committee or its representative.

(f) Acreage history credits. Any acreage transferred under this paragraph shall be considered for the purpose of determining future allotments or quotas to have been planted to tobacco on the farm from which such allotment or quota is transferred.

(g) Closing dates. The closing date for filing applications for transfers with the county FSA committee shall be July 15 of the current year. Notwithstanding such closing date requirement, the county FSA committee may...
accept applications filed after the closing date upon a determination by the county FSA committee that the failure to timely file an application was the result of conditions beyond the control of the applicant and a representative of the State FSA committee approves such determination.

§ 723.216 Transfer of tobacco acreage allotment or marketing quota by sale, lease, or owner.

(a) General. The allotment or quota established for a farm may be transferred to another farm to the extent provided for in this section. For transfers by sale, common ownership units on a farm may be considered to be separate farms. Transfers are not permitted for cigar binder (types 54 and 55) tobacco allotments.

(i) Types of transfers. With respect to:

(A) Cigar-filler (type 46) and cigar-filler (types 42, 43, and 44), tobacco transfers may be by lease only.

(B) Flue-cured tobacco, transfers may be by:

(1) Lease, or

(2) Owner, or

(3) Sale.

(v) Fire-cured, dark air-cured, and Virginia sun-cured tobacco, transfers may be by:

(A) Lease,

(B) Owner, or

(C) Sale.

(ii) Burley tobacco, transfers may be by:

(A) Lease,

(B) Owner, or

(C) Sale.

(2) Transfer agreement. In order to transfer a marketing quota or allotment between two eligible farms, including a marketing quota or allotment that is pooled in accordance with part 718 of this chapter, the transfer must be recorded on Form FSA-375 and:

(i) Where to file. Filed in the county FSA office which serves the county in which the transferring farm is located for administrative purposes.

(ii) Signature. Signed by, for burley tobacco only:

(A) Leases. The owner and operator of the transferring farm and the owner or operator of the receiving farm. For leases made under the disaster provisions of this section, the signature of the owner of the transferring farm will not be required if the FSA determines that the farm is cash leased for the current crop year and that the owner does not share in the crop.

(B) Sales. The owner of the selling farm and an active burley tobacco producer who is the buyer. If the buyer is neither owner nor operator of the farm to which the allotment and quota will be assigned, the owner or operator of the transferring farm must give written consent for the allotment and quota to be assigned to the farm.

(C) Owner transfers. The owner of the transferring farm, who also must be the owner or operator of the receiving farm.

(iii) Signature—flue-cured tobacco. Signed by, for flue-cured tobacco only:

(A) Leases. The owner and operator of the transferring farm and the owner or operator of the receiving farm. For leases made under the disaster provisions of this section, the owner of the transferring farm will not be required if the FSA determines that the farm is cash leased for the current crop year and that the owner does not share in the crop.

(B) Sales. The owner of the selling farm and an active flue-cured tobacco producer who is the buyer. If the buyer is neither owner nor operator of the farm to which the allotment and quota will be assigned, the owner or operator of the farm must be given written consent for the allotment and quota to be assigned to the farm.

(iv) Signatures—except burley and flue-cured tobacco. Signed by, for all kinds of tobacco other than burley and flue-cured tobacco, the owner and operator of the transferring farm and the owner or operator of the receiving farm.

(v) Witness. Each person whose signature is required by paragraphs (a)(2)(ii), (iii), or (iv) of this section must sign Form FSA-375 in the presence of a State or county FSA committee member or employee who shall sign Form FSA-375 as a witness, except that when both the owner and the operator of a transferring farm must sign, such witness is required for the signature of either the owner or operator, but not both. If such signatures cannot be witnessed in the county FSA office where
§ 723.216

the farm is administratively located, they may be witnessed in any State or county FSA office convenient to the owner or operator's residence. The requirement that signatures be witnessed for producers that are ill, infirm, reside in distant areas, or are in similar hardship situations or may be unduly inconvenienced may be waived provided the county FSA office mails Form FSA–375 for the required signatures;

(b) Effective date. In order for the transfer to be effective for the current year, the Form FSA–375 shall be filed:

(1) When to file—burley tobacco. For burley tobacco:
   (i) On or before July 1 of the current year, except as provided in paragraph (b)(1)(ii) of this section. An agreement to transfer quota by lease may be considered to have been filed on July 1 of the current year if such transfer agreement is filed not later than the end of the marketing year that begins during the current year and the county FSA committee, with the concurrence of the State FSA committee, determines that on or before July 1 of the current year the lessee and lessor agreed to such lease and transfer of quota and the failure to file such transfer agreement did not result from gross negligence on the part of any party to such lease and transfer.
   (ii) After July 1 of the current crop year and before February 16 of the following calendar year when the transfer is by lease and the transferring farm has suffered a loss of production of burley tobacco due to hail, drought, excessive rain, wind, tornado, or other natural disasters as determined by the Deputy Administrator.

(2) When to file—flue-cured tobacco. For flue-cured tobacco:
   (i) On or before June 15 if the transfer is by sale.
   (ii) After June 30 and on or before November 15 for a transfer by lease when the transferring farm has suffered a loss of production of flue-cured tobacco due to drought, excessive rain, hail, wind, tornado, or other natural disasters as determined by the Deputy Administrator.

(3) When to file—except burley and flue-cured tobacco. For all other kinds of tobacco, by the date established by the State FSA committee, except that a lease shall be effective if the county FSA committee, with the approval of a State FSA committee representative, finds that the producer was prevented from timely filing the transfer agreement due to reasons beyond the control of the producer.

(c) Approval or disapproval. A transfer agreement shall not be approved before the period for filing an application for review of the initial notice of allotment or quota has expired. The county FSA committee or its designee shall approve each transfer agreement that meets the eligibility requirements of this section. The county FSA committee shall disapprove any transfer agreement that does not meet the eligibility requirement of this section. Any approval or disapproval of a transfer agreement shall be to the extent possible be made within 30 days after the transfer agreement is filed with the county FSA committee unless additional time is required as the result of conditions beyond the control of the county FSA committee. However;

(1) Burley tobacco. If an agreement is filed after July 1 which provides for the sale of quota, a transfer agreement shall not be approved until the next year's quota is computed for the selling farm. In addition, if marketing quota referendum will be conducted to determine whether or not quotas will be in effect for the crop, a transfer agreement shall not be approved until the Secretary announces that quotas have been approved by referendum.

(2) Flue-cured tobacco. If an agreement is filed after June 15 which provides for the sale of an allotment and quota, a transfer agreement shall not be approved until next year's allotment and quota is computed for the selling farm. In addition, if a marketing quota referendum will be conducted to determine whether or not quotas will be in effect for the crop, a transfer agreement shall not be approved until the Secretary announces that quotas have been approved by referendum.

(d) Time of determination. An approved transfer agreement shall become effective for the then current crop year, except that if an agreement that is filed after June 15 for the sale of flue-cured tobacco quota or after July 1 for the
sale of burley tobacco quota, such approved agreement shall become effective for the next crop year.

(e) Burley tobacco. For burley tobacco only:

(1) Basis for transfer by sale. If the transfer of a quota is by sale, the transfer shall be based on part or all of the farm poundage quota.

(2) Basis for transfer by lease or owner. If the transfer of a quota is by lease or by the owner, transfer shall be based on a part of or all of the effective farm poundage quota.

(3) Accumulation of quota. A transfer by lease or by owner shall not be approved if the county FSA committee determines that the primary purpose of the transfer is to accumulate the quota on the farm (i.e., alternately transferring to and from the farm for 2 or more years to maintain the quota without satisfactory evidence of plans for producing the quota on the receiving farm).

(4) Subleasing. In order to determine whether there is any subleasing of a burley farm marketing quota, the current year is divided into two periods, the period up to and including July 1, and the period after July 1. The county FSA committee shall not approve a transfer during either period if the effect would be both a transfer to and from the farm during the same period. However, a transfer may be approved within any crop year if quota is transferred from a farm for one or more years and the farm subsequently is combined with another farm that otherwise is eligible to receive quota by lease or by the owner.

(5) Transferring farm restrictions. An agreement to transfer quota from a farm by lease or by owner shall not be approved:

(i) Limitation. If the pounds of quota being transferred exceed the difference obtained by subtracting from the effective farm marketing quota the total pounds of quota purchased and/or reallocated from forfeited quota in the current and two preceding years, as adjusted to reflect changes in national quota factors which have occurred since each respective purchase and/or reallocation of quota. However, this provision shall not be applicable to transfer agreements that are filed after July 1.

(ii) New farm. If the farm is a new farm.

(iii) Reduction pending. If consideration of a marketing quota violation is pending which may result in a quota reduction for the farm for the current year. However, if the county FSA committee determines that a decision will not be made on the pending case on or before the date specified in §723.212 of this part, a 1-year transfer will be approved if otherwise eligible.

(iv) Filed on or before July 1. Unless the receiving farm is administratively located in the same county as the transferring farm. However, burley tobacco producers in the States of Tennessee, Ohio and Indiana shall, irrespective of the preceding sentence, be permitted to lease and transfer burley tobacco quota from one farm in a State to any other farm in the State if other conditions for the transfer are met.

(v) Filed after July 1. If the transfer agreement is filed after July 1, unless the county FSA committee in the county in which the farm is located for administrative purposes determines that the:

(A) Farm’s expected production of burley tobacco is less than 80 percent of the farm’s effective marketing quota as a result of a flood, hail, wind, drought, excessive rain, tornado, or other natural disaster.

(B) Acreage planted to burley tobacco on the farm was sufficient to produce, under average conditions, an amount of tobacco which, when added to any carryover tobacco from the previous marketing year, would equal the farm’s effective farm marketing quota.

(C) Lessor made reasonable and customary efforts to produce the effective farm marketing quota;

(D) Producers on the farm qualify for price support in accordance with the provisions of part 1464 of this title; and

(E) Receiving farm is administratively located in the same State as the transferring farm.

(vi) Consent of lien holder. For a multiple year transfer, if the farm is subject to lien, unless the lien holder agrees in writing to the transfer; and

(vii) Claim for marketing quota penalty. If a claim has been filed against the
lessor for a tobacco marketing quota penalty and the claim remains unpaid; however, this provision shall not apply if the claim is paid or the entire proceeds of the lease of the quota are applied against the claim and the county FSA committee determines that the amount paid for the lease represents a reasonable price for the pounds of quota being leased.

(viii) Forfeiture pending. To the extent that forfeiture of such quota is expected to become final before July 1: (iv) Divided farms with less than 1,000 pounds of quota. If the farm has been divided by reconstitution and the divided farm has a farm marketing quota of less than 1,000 pounds subject to being reduced to zero pursuant to section 723.208(b).

(6) Receiving farm restrictions. An agreement to transfer quota to a farm by lease or by owner shall not be approved:

(i) Filed on or before July 1. If the transfer agreement is filed on or before July 1:

(A) Unless the receiving farm is administratively located in the same county as the transferring farm and the provisions of paragraph (e)(5)(iv) of this section are not applicable.

(B) If the pounds of quota being transferred to the farm exceed the smaller of 30,000 pounds or the difference between the farm marketing quota and one-half the result obtained by multiplying the acres of cropland on the farm by the farm yield.

(ii) Filed after July 1. If the transfer agreement is filed after July 1, unless:

(A) Producers on the farm qualify for price support in accordance with the provisions of part 1464 of this title; and

(B) If the pounds of quota to be transferred to the lessee farm do not exceed the difference obtained by subtracting the effective farm marketing quota (before the filing of the transfer agreement) for the lessee farm from the total pounds of tobacco marketed and/or available for marketing (based on estimated pounds of tobacco on hand and/or in the process of being produced) from the farm in the current year. However, the total quantity of tobacco that can be leased or transferred to a farm during a crop year may not exceed that quantity which equals 15 percent of the effective quota on the farm prior to any leases or transfers filed after July 1 of the crop year.

(C) Transferring farm is administratively located in the same State as the receiving farm.

(7) Selling farm restrictions. A transfer of quota from a farm by sale shall not be approved:

(i) Previously purchased and/or reallocated quota. If the farm marketing quota was bought and/or reallocated from quota previously forfeited as provided in §723.219(i)(1), and the purchase and/or reallocation became effective within the current or any of the three preceding years; if the purchased and/or reallocated quota was obtained from quota purchased and/or reallocated as provided in paragraph (b) of this section within the four preceding years. However, this provision shall not be applicable if:

(A) The quota was purchased and/or reallocated to the farm during four preceding years; and

(B) The county FSA committee, with the concurrence of a representative of the State FSA committee, determines that the failure to permit the sale of quota, to the extent otherwise permitted by this section, would cause an undue hardship on the seller and the:

(1) Sale is in connection with the settlement of an estate which includes the farm for which the quota was established;

(2) Owner of the quota is experiencing financial distress to the extent that current year financing is unlikely;

(3) Owner of the quota is disabled due to health reasons to the extent that such person can no longer continue to share in the risk of production as an investing producer and loses resources necessary to produce the crop due to reasons beyond such owner’s control such as the loss of a tenant or sharecropper and a replacement cannot be obtained.

(ii) Location of farms. Unless both the selling farm and the buying farm are administratively located in the same county.
(iii) **Pounds for sale.** The pounds transferred by sale shall be based on part of all of the farm poundage quota.

(iv) **Reduction pending.** If consideration of an indicated marketing quota violation is pending which may result in quota reduction for the farm for the current year. However, if the county FSA committee determines that a decision will not be made on the pending case on or before the date specified in §723.212 of this part, a transfer will be approved if otherwise eligible.

(v) **Forfeiture pending.** If the agreement for transfer by sale is filed subsequent to the final date which is permitted for the sale of the quota in order to prevent forfeiture.

(vi) **Claim for marketing quota penalty.** If a claim has been filed against the seller for a tobacco marketing quota penalty and the claim remains unpaid: However, this provision shall not be applicable if the claim for such penalty is paid or the entire proceeds of the sale of the quota are applied against the claim and the county FSA committee determines that the amount paid represents a reasonable selling price for the pounds of quota being sold.

(vii) **Consent of lien holder.** Requires consent of the lien holder, if the farm is subject to a lien, unless the lien holder agrees in writing to the transfer. However, consent of a lien holder is not required for a transfer of the pounds of quota from a farm for which forfeiture is required in accordance with the provisions of §723.219.

(viii) **Quota is subject to an approved Conservation Reserve Program Contract.** If the quota has been reduced because of an approved Conservation Reserve Program contract according to part 704 of this chapter unless forfeiture is otherwise required.

(8) **Restrictions on buying farm.** A transfer of quota to a farm by purchase shall not be approved:

(i) **Active producers.** Unless the buyer is an active burley tobacco producer.

(ii) **Cropland limitation.** If the sum of the pounds of quota being transferred exceeds the difference between the farm marketing quota and one-half the result obtained by multiplying the acres of cropland on the farm by the farm yield.

(iii) **Quota previously sold.** If quota was sold from the farm in the current or either of the two preceding years.

(iv) **Redetermination of quota after transfer by lease or by owner.** After a transfer by lease or by the owner, the effective farm marketing quota shall be redetermined for both the transferring farm and the receiving farm.

(9) **Period of transfer.** A transfer by lease or by owner may be for a period of one to five years: However, an agreement to transfer quota by lease shall be limited to the current crop year if the transfer is filed after July 1 in accordance with the natural disaster provisions of this section.

(10) **Apportionment of data-selling farm.** The pounds of farm marketing quota retained on the selling farm after the sale of quota shall be divided by the farm marketing quota established for the selling farm before the sale to determine a factor for apportioning farm data. The data to be retained on the selling farm shall be determined by multiplying the factor by the following data:

(i) The amount of any overmarketings which have not been subtracted when a determination is made of the effective farm marketing quota of the selling farm;

(ii) The pounds of quota which have been transferred from the selling farm by lease or by the owner in the current year;

(iii) The pounds of quota which have been reduced in the current year as the result of a marketing quota violation in a prior year;

(iv) The pounds of quota transferred to the farm by lease or by owner in the previous year;

(v) The previous year’s farm marketing quota; and

(vi) The previous year’s effective farm marketing quota.

(11) **Apportionment of data-buying farm.** The buying farm’s share of each respective item of farm data shall be
§ 723.216

(12) Determined by subtracting the pounds which are retained on the selling farm for the respective item from the pounds which were established for the selling farm for the respective item before the current sale of quota. However, the pounds of quota transferred from the selling farm by lease or by the owner and/or the pounds of quota reduction resulting from a marketing quota violation on the selling farm may be apportioned between the farms in accordance with a written agreement between the buyer and the seller if the farm marketing quota retained on the selling farm is sufficient to satisfy the pounds of quota which were transferred by lease or by the owner, the pounds of quota which have been reduced as the result of a marketing quota violation, and the overmarketings for the farm, if any. The data determined in accordance with this paragraph shall be added to any previous data for the buying farm.

(13) Redetermination quota after sale or purchase of quota. After adjusting the data in accordance with the provisions of this section, the effective farm marketing quota shall be determined for both the buying and selling farm.

(14) Farm division after transfer by lease. If a farm is divided after there has been a transfer of a marketing quota to the farm by lease, the transferred quota shall be divided in the manner which is designated in writing by the lessee. In the absence of a written designation, the leased quota shall be apportioned in the same manner as the farm marketing quota of the parent farm.

(15) Multiple year transfer by lease or by owner. The effective farm marketing quota on a receiving farm having a multiple-year transfer agreement in effect shall be adjusted for each year for which such transfer agreement is in effect to reflect any decrease in the national quota factor which causes the farm marketing quota established for the transferring farm to be less than the pounds of quota which have been transferred to the receiving farm.

(16) Considered planted credit. Considered planted credit shall be given to the transferring farm when tobacco quota is transferred from the farm by lease or by owner.

(f) Flue-cured tobacco. For flue-cured tobacco only:

(1) Location of buying and selling farms. Marketing quota for flue cured tobacco transferred by sale must be to a farm administratively located within the same county, except that if 25 percent of the active flue-cured tobacco producers within a State petition the Secretary and the Secretary determines that a majority of the active flue-cured tobacco producers voting in the referendum approve, the sale of a flue-cured tobacco allotment or quota from a farm in the State to any other farm in the State shall be permitted if all other conditions for such transfers are met. Further, the Secretary may permit flue-cured farms with the same owner that are located in contiguous counties to be combined for administrative purposes as one farm, notwithstanding provisions in part 718 of this chapter that might not otherwise permit that kind of combination.

(2) Maximum quota to be transferred by sale. If the transfer is by sale, the transfer shall be based on part or all of the farm poundage quota. The maximum quota that may be transferred by sale is the farm poundage quota.

(3) Transfer by lease—Involvement of outside parties. If the transfer is by lease, only the lessor and lessee (or any attorney, trustee, bank, or other agent who regularly represents either the lessor or lessee in business transactions unrelated to the production or marketing of tobacco) may be parties to, or involved in the arrangements for such transfer. The transfer shall be based on a portion or all of the effective farm poundage quota. The maximum quota that may be transferred by lease is the effective farm poundage quota.

(4) Lessor farm restrictions. A transfer of quota from a farm by lease shall not be approved:

(i) New farm. If the farm is a new farm.

(ii) Natural disaster. Unless the county FSA committee in the county in which the farm is located for administrative purposes determines that the:

(A) The farm has planted an acreage equal to or more than 90 percent of the effective farm acreage allotment,
(2) In accordance with guidelines issued by the Deputy Administrator, the planted acreage of flue-cured tobacco on the farm is sufficient to produce, under average conditions, an amount of tobacco which, when added to any carryover tobacco from the previous marketing year, would equal the farm’s effective farm marketing quota;

(B) Lessor made reasonable and customary efforts to produce the effective farm marketing quota;

(C) Producers on the farm qualify for price support in accordance with the provisions of part 1464 of this title; and

(D) Farm’s expected production of flue-cured tobacco is less than 80 percent of the farm’s effective marketing quota as a result of a drought, excessive rain, hail, wind, tornado, or other natural disaster as determined by the Deputy Administrator.

(iii) Claim for tobacco marketing quota penalty. If a claim has been filed against the lessor for tobacco marketing quota penalty and the claim remains unpaid unless the claim is paid or the entire proceeds of the lease of the allotment and quota are applied against the claim and the county FSA committee determines that the amount of the lease represents a reasonable price for the pounds of quota being leased.

(iv) Located in the same State. Unless the lessee farm is administratively located in the same State as the lessor farm.

(5) Lessee farm restrictions. A transfer of quota to a farm by lease shall not be approved:

(i) Price support eligibility. Unless the producers on the farm qualify for price support under the provisions of part 1464 of this title; and

(ii) Limitation. If the pounds of quota to be transferred to the lessee farm exceed the difference obtained by subtracting the effective farm marketing quota (before the filing of the transfer agreement) for the lessee farm from the total pounds of tobacco marketed and/or available for marketing (based on estimated pounds of tobacco on hand and/or in the process of being produced) from the farm in the current year.

(iii) Located in same State. Unless the lessee farm is administratively located in the same State as the lessor farm.

(6) Selling farm restrictions. A transfer of quota from a farm by sale shall not be approved:

(i) Previously purchased and/or reallocated quota. If a farm marketing quota includes quota that was purchased and/or reallocated from the quota which has been forfeited and the purchase and/or reallocation became effective in the current or any of the three preceding years. However, this provision shall not be applicable if:

(A)(1) The quota being sold was purchased in such period, if forfeiture of such quota is required by §723.220 of this part, and the amount of quota being transferred does not exceed the amount of quota for which forfeiture otherwise is required in accordance with the provisions of §723.220 of this part; or

(B) The sale is in connection with the settlement of an estate which includes the farm for which the quota was established;

(C) The owner of the quota is experiencing financial distress to the extent that current year financing is unlikely;

(D) The owner of the quota is disabled due to health reasons to the extent that such person can no longer continue to share in the risk of production of the purchased and/or reallocated quota; or

(E) The owner of the quota is sharing in the risk of production as an investing producer and loses resources necessary to produce the crop due to reasons beyond such owner’s control such as the loss of a tenant or share cropper and a replacement cannot be obtained.

(ii) Reduction pending. If consideration of an indicated violation is pending which may result in an allotment and quota reduction for the farm for the current year. However, if the county FSA committee determines that a decision will not be made on the pending case on or before April 1, a transfer may be approved.
§ 723.216  

(iii) Forfeiture pending. If the agreement for transfer by sale is filed subsequent to the final date which is permitted for the sale of the allotment and quota in order to prevent forfeiture.

(iv) Consent of lien holder. If the farm is subject to a lien unless the lien holder agrees in writing to the transfer: However, consent of a lien holder is not required for a transfer of the pounds of quota for which forfeiture is required in accordance with the provisions of § 723.220 of this part.

(v) Claim for marketing quota penalty. If a claim has been filed against the seller for a tobacco marketing quota penalty and the claim remains unpaid: However, this provision shall not be applicable if the claim for such penalty is paid or the entire proceeds of the sale of the allotment and quota are applied against the claim and the county FSA committee determines that the amount paid represents a reasonable selling price for the pounds of quota being sold.

(vi) Allotment and quota subject to an approved Conservation Reserve Program contract. If the allotment and quota is subject to an approved Conservation Reserve Program contract, unless forfeiture otherwise would be required in accordance with the provisions of § 723.220 of this part.

(7) Buying farm restrictions. A transfer of quota to a farm by purchase shall not be approved:

(i) Active producer. Unless the buyer is an active flue-cured tobacco producer.

(ii) [Reserved]

(iii) Quota previously sold. If the farm owner sold quota from a farm during the current or any of two preceding years.

(iv) Installment payment option. Unless the buyer of the flue-cured tobacco acreage allotment and marketing quota has been afforded an option to pay for such allotment and quota in two to five equal annual installments payable each fall beginning with the fall of the crop year in which the transfer becomes effective and such buyer certifies on a form prescribed by the Deputy Administrator that such option has been made available to the buyer.

(8) Allotment and quota after transfer by lease. The effective farm acreage allotment and the effective farm marketing quota shall be determined for both the lessee farm and the lessor farm in accordance with the provisions of §§ 723.205 and 723.206 of this part, respectively.

(9) Apportionment of data after transfer of quota by sale-selling farm. The pounds of farm marketing quota retained on the selling farm after the sale of quota shall be divided by the farm marketing quota established for the selling farm before the sale to determine a factor for apportioning farm data for the current year and for the base period. The data to be retained on the selling farm shall be determined by multiplying the factor by the following data:

(i) The planted and considered planted acres for the base period;

(ii) The history acres for the base period;

(iii) The farm acreage allotment for the current year and for the base period;

(iv) The amount of any overmarketings which have not been subtracted when a determination is made of the effective farm marketing quota of the selling farm;

(v) The pounds of quota which have been transferred from the selling farm by lease in the current year;

(vi) The acres of allotment which have been reduced in the current year as the result of a marketing quota violation in a prior year;

(vii) The pounds of quota transferred to the farm by lease in the previous year;

(viii) The previous year's farm marketing quota;

(ix) The previous year's effective farm marketing quota; and

(x) The previous year's marketings.

(10) Apportionment of data-buying farm. The pounds of farm marketing quota which have been purchased shall be divided by the farm yield for the buying farm in order to determine the farm acreage allotment for the buying farm. The buying farm’s share of other farm data shall be determined by subtracting the acres or pounds, as applicable, which are retained on the selling farm from the acres or pounds which were established for the selling farm.
before the current sale of quota. However, the acres computed for the acres of reduction resulting from a marketing quota violation for the buying farm shall be multiplied by a factor determined by dividing the farm yield of the selling farm by the farm yield of the buying farm in order to determine the acres of reduction from the buying farm for the current year. The pounds of quota transferred from the selling farm by lease and/or the acres of allotment reduction resulting from a marketing quota violation on the selling farm may be apportioned between the farms in accordance with a written agreement between the buyer and the seller if the farm marketing quota retained on the selling farm is sufficient to satisfy the pounds of quota which are leased, the pounds of quota which have been reduced as the result of a marketing quota violation, and the overmarketings for the farm, if any. The data determined in accordance with this paragraph shall be added to any previous data for the buying farm.

(11) Allotment and quota. After adjusting the data in accordance with the provisions of this section, the farm acreage allotment, the effective farm acreage allotment, and the effective farm marketing quota shall be determined for both the buying and the selling farm.

(12) Effect of price support eligibility. If a lease agreement is filed after the farm operator reports the acreage of tobacco on the farm in the current year, the effective farm acreage allotment which has been determined prior to the approval of the transfer will be used in determining price support eligibility for the farm.

(13) Violation of lease provisions. (i) If, after a lease agreement is approved, information is brought to the attention of the county FSA committee which indicates that either the lessor or the lessee, or both, knowingly filed a false certification with respect to a transfer of quota by lease, the county FSA committee shall schedule a hearing, notify such person of the time and place of the hearing, and present evidence at the hearing with respect to the allegation of false certification. If, as a result of the evidence presented, the county FSA committee determines that such person knowingly made a false certification, the county FSA committee shall notify the person of the determination and afford such person 15 days after the mailing of the notice to request a review of the determination by a review committee as provided for by part 711 of this chapter.

(ii) If it is determined that the lessor knowingly made a false certification, the next flue-cured tobacco acreage allotment and marketing quota established for the lessor’s farm shall be reduced by that percentage which the leased quota was of the total flue-cured tobacco farm marketing quota established for the farm in the year of the lease.

(iii) If it is determined that the lessee knowingly made a false certification, the lease agreement for purposes of the flue-cured tobacco marketing quota program with respect to the lessee’s farm shall be considered to be null and void as of the date approved by the county FSA committee.

(14) Considered planted credit. Considered planted credit shall be given to the lessor farm for the tobacco acreage allotment which is deducted as the result of the transfer of quota from the farm by lease.

(15) Sale of quota with installment payment option. Notwithstanding any other provision of this section the owner of a farm who sells any flue-cured tobacco acreage allotment and marketing quota may:

(i) Negotiate with more than one prospective buyer before selling such allotment and quota; or

(ii) Sell such allotment and quota to any eligible buyer whom such owner may select; or

(iii) Sell such allotment and quota for a single payment; or

(iv) Include provisions in the agreement of sale to protect the seller’s interest if the buyer fails to make full payment. Such provisions may not include the use of such allotment and quota as collateral for purposes of protecting the seller’s interest in the allotment and quota.

(v) Flue-cured tobacco acreage allotment and marketing quota purchased in accordance with this subparagraph shall not revert to the seller’s farm but shall remain with the farm to which
assigned at the time of purchase even though the buyer fails to make full payment to the seller for such allotment and quota.

(g) Burley and flue-cured tobacco. For burley or flue-cured tobacco:

(1) Carryover tobacco. If tobacco is marketed after the entire farm marketing quota of the producing farm has been transferred by sale, the tobacco shall be considered as having been marketed on each farm to which farm marketing quota was transferred by sale in accordance with a transfer agreement filed after June 15 for flue-cured tobacco, or July 1 for burley tobacco, of the last year in which a farm marketing quota was established for the producing farm. Such marketing shall be prorated to each farm in proportion to the pounds of farm poundage quota purchased by each farm. If there was more than one farm to which a farm marketing quota was transferred by sale, the marketing may be assigned to the farms in the manner agreed to in writing by each of the buyers of such farm marketing quota.

(2) Cancellation of transfer. A transfer of flue-cured allotment and quota, or burley quota, under this section which was approved in error or on the basis of incorrect information furnished by the parties to the agreement shall be canceled by the county FSA committee. For the purpose of determining any overmarketings and undermarketings from the farms, and for the purpose of determining eligibility for price support and marketing quota penalties, the cancellation shall be effective as of the date of approval. However, such cancellation shall not be effective for the current marketing year for price support and marketing quota penalty purposes if the:

(i) Transfer approval was made in error or on the basis of incorrect information furnished by the parties to the agreement; and

(ii) Parties to the transfer agreement were not notified of the cancellation before the marketing for the receiving farm exceeded the correct effective farm marketing quota.

(3) Canceled because of fraud. If a transfer of a flue-cured allotment and quota, or burley quota, is canceled because of fraud on the part of the owner of the transferring farm but no fraud is attributable to either the owner or operator of the receiving farm, such cancellation shall be effective as of the date of approval of the transfer except for purposes of determining eligibility for price support and marketing quota penalties for the receiving farm. In such case, the overmarketings shall be charged against the farm from which the transfer was made if the farm, after any reconstitution which may be necessary as a result of fraud, is assigned a flue-cured allotment and quota, or burley quota, against which the overmarketings could be charged. Otherwise, the overmarketings shall be charged against any other farm involved in the fraud having a flue-cured allotment and quota, or burley quota, after any reconstitution required by such fraud. Notwithstanding the foregoing, any overmarketings on the receiving farm which are in excess of the amount of quota involved in the canceled transfer shall be charged against the receiving farm.

(4) Dissolution or revision of a transfer agreement. A transfer agreement may be dissolved or minor revisions made with respect to such agreement if a written request by all parties to the agreement is made to the county FSA committee by November 15 of the current marketing year for flue-cured tobacco, or by February 15 of the current marketing year for burley tobacco. After any such dissolution or revision of a transfer agreement, an official notice of the flue-cured acreage allotment and marketing quota, or burley quota, shall be issued by the county FSA committee to each of the operators involved in the transfer agreement.

(h) Cigar tobacco. For cigar-filler (type 46) and cigar-filler (types 42, 43, and 44) tobacco only, the provisions of paragraph (j) of this section are applicable in addition to the following:

(1) Farm eligible. The owner and operator (acting together if different person) of any farm for which an old farm tobacco acreage allotment is established for the current year may lease and transfer all or any part of the farm acreage allotment established for such farm to any other owner or operator of
a farm in the same county with a current year’s allotment (old or new farm) for the same kind of tobacco for use on such farm. Transfer of allotments by lease shall not exceed 5 years.

(2) Transfer approved acre per acre. The lease and transfer shall be approved acre per acre.

(3) Considered planted credit. The amount of allotment acreage which is leased from a farm shall be considered for the purpose of determining future allotments (and tobacco history acreage) to have been planted to tobacco on such farm. The amount of allotment acreage which is leased and transferred to a farm shall not be taken into account in establishing allotments for subsequent years for such farms.

(4) Limitation on acreage transferred. The total acreage allotted to any farm after the transfer by lease of tobacco acreage allotment to the farm shall not exceed 50 percent of the acreage of cropland in the farm, except that in the case of cigar-filler (types 42, 43, 44, and 46) transfers, such transfers shall be limited to a total of 10 acres.

(5) Transfer from the pool. Allotments in a pool pursuant to part 718 of this chapter may be eligible for lease and transfer during the 3-year life of the pooled allotment. An agreement to lease and transfer shall not serve to extend the life of such pooled allotment.

(6) Basis for transfer. The transfer shall be approved acre for acre.

(7) Adjustments in farm history acreage. The farm history acreage for the immediately preceding 5 years on farms from which and to which permanent transfer of allotment is made shall be adjusted by the county FSA committee for each of the base years to correspond with the amount of allotment transferred between the farms. In the case of temporary transfers of allotment for 1 or more years by lease or by owner, the farm history acreage shall not be reduced on the farm from which the transfer is made and farm history acreage shall not be transferred to the receiving farm.

(8) Limitation on acreage transferred. The total of the Fire-cured, Dark air-cured, or Virginia sun-cured tobacco allotment which may be transferred for each kind of tobacco, by sale, lease, or by owner, to a farm shall not exceed 50 percent of the acreage of cropland on the farm. The cropland in the farm for the current year for purposes of such transfers shall be the total cropland as defined in Part 718 of this chapter.

(9) Prohibition on permanent transfer. A permanent transfer by sale or by owner shall not be approved from any farm to which an allotment was permanently transferred by sale or by owner within the 3 immediately preceding crop years.

(10) Temporary transfer to non-owned farm. A transfer requested on a temporary basis to a farm controlled but not owned by the applicant shall be approved only if the applicant will be the operator of the farm to which the transfer is to be made for each year of
§723.216

the period for which the transfer is requested. When the applicant for whom such transfer has been approved no longer is the operator of the receiving farm due to conditions beyond such operator’s control, the transfer shall remain in effect unless the transfer is terminated under the provisions of paragraph (j) of this section. Conditions beyond the operator’s control shall include, but not be limited to, death, illness, incompetence, or bankruptcy of such person.

(b) Transfer of pooled allotment. Allotments established for a farm as pooled allotment under part 718 of this chapter may be transferred on a:

(i) Permanent basis during the 3-year life of a pooled allotment, or

(ii) Temporary basis for a term of years not to exceed the remaining number of crop years of such 3-year period. A temporary agreement to transfer shall not serve to extend the life of such pooled allotment.

(10) New farm eligibility. Any farm from which the entire farm allotment is sold or permanently transferred by the owner shall not be eligible for a new farm tobacco allotment for the kind transferred during the 5 years following the year in which such transfer is made.

(11) Transfer of history acreage. Permanent transfer of allotment shall have the effect of transferring history acreage, farm base, and marketing quota attributable to such allotment. In the case of a transfer by lease, the transferred allotment shall be considered for purposes of establishing future allotments to have been planted on the farm from which such allotment was transferred.

(j) Tobacco except burley, flue-cured, and cigar (types 54 and 55). For tobacco that may be transferred in accordance with the provisions of paragraph (h) or (i) of this section, the following provisions shall also apply:

(1) New farm allotment. A new farm allotment shall not be transferred.

(2) Tobacco allotment subject to an approved Conservation Reserve Program contract. A transfer of allotment designated for reduction under a Conservation Reserve Program contract shall not be approved.

(3) Subleasing prohibited. A transfer of allotment from a farm shall not be approved during the period for which a current temporary transfer agreement is in effect that transferred quota to the same farm.

(4) Limitation on transfer to and from a farm in the same year. If a transfer agreement is in effect for the current crop year for a farm, a transfer of allotment shall not be approved during the same crop year:

(i) From such farm receiving allotment by transfer for such year, or

(ii) To such farm which had allotment transferred from it for such year.

(5) Farm in violation. If consideration of a violation is pending which may result in an allotment reduction for a farm for the current year, the county FSA committee shall delay approval of any transfer of allotment from or to the farm until the violation is cleared or the allotment reduction is made. However, if the allotment reduction in such case cannot be made effective for the current crop year before the final date for reducing allotments for violations, the transfer may be approved by the county FSA committee. In any case, if, after a transfer of tobacco acreage allotment has been approved by the county FSA committee, it is determined that the allotment for the farm from which to which such acreage is transferred is to be reduced for a violation, the allotment reduction for such farm shall be delayed until the following year.

(6) Claim for tobacco marketing quota penalty. A transfer of acreage allotment from a farm shall not be approved if a claim has been filed against the lessor, seller, or transferring owner for a tobacco marketing quota penalty and the claim remains unpaid. However, this provision shall not apply if the claim is paid or the entire proceeds of the lease or sale of the allotment are applied against the claim and the county FSA committee determines that the amount paid for the lease or sale represents a reasonable price for the acres of allotment being transferred.

(7) Approval after review period. A transfer of allotment shall not be approved by the county FSA committee for any farm before the time of filing an application for review, as shown on
§ 723.217 Release and reapportionment of old farm acreage allotments for Cigar-filler and Binder (types 42, 43, 44, 54, and 55) tobacco.

(a) Annual or permanent release of acreage allotments to State committee. Except as provided in this paragraph, all or any part of a farm acreage allotment on which Cigar-filler and Binder (types 42, 43, 44, 54, and 55) tobacco will not be produced and which the owner or operator voluntarily releases on an annual basis, or both the owner and operator voluntarily releases on a permanent basis, in writing to the State FSA committee by not later than the final date for filing releases established by the State FSA committee for the current year shall be deducted from the allotment of such farm.

(1) For the farm voluntarily releasing tobacco farm acreage allotment on an annual basis, such acreage will be considered as having been planted on the date of filing releases established by the State FSA committee for the current year shall be deducted from the allotment of such farm. The tobacco history acreage for a farm releasing on a permanent basis

§ 723.217 Reconstituted farm. The allotment for a farm being divided or combined in the current year shall be the allotment after the transfer has been approved. Notwithstanding the above, in the case of a division, the county FSA committee shall allocate the acreage that was transferred by lease to the tracts involved in the division as the parent farm owners and operators designate in writing. In the absence of such designation, the county FSA committee shall apportion the leased acreage.

(12) Consent of lien holder. A transfer of allotment other than by annual lease shall not be approved from a farm subject to a mortgage or other lien unless the transfer is agreed to in writing by the lien holder.

§ 723.218 Determining tobacco history acreage.

With respect to each respective kind of tobacco, the tobacco history acreage shall be determined for each farm for which a tobacco acreage allotment was established for such kind of tobacco for the current year.

(a) The history acreage shall be the same as the farm acreage allotment for the respective kind of tobacco if in the current year, or either of the two preceding years, the sum of the planted and considered planted acreage of such kind of tobacco was as much as 75 percent of the farm acreage allotment. Otherwise, the history acreage shall be the sum of the planted and considered planted acreage of such kind of tobacco.

(b) Notwithstanding any other provision of this section, for the respective kind of tobacco, the history acres for the current year and for each year of the base period shall be reduced to zero if:

(1) A new farm allotment was canceled;

(2) The allotment was in a pool established in accordance with the eminent domain provision of part 718 of this chapter and the period of eligibility has expired for transferring the allotment from the pool; or

(3) The county FSA committee determines that the farm has been retired from agricultural production and the allotment is not eligible for pooling in accordance with the eminent domain provisions of part 718 of this chapter.
§ 723.219 Forfeiture of burley tobacco marketing quota.

(a) Determination of quota subject to forfeiture. (1) For purposes of paragraph (b) of this section, the phrase “owns a farm” means ownership of:

(i) A farm as constituted under part 718 of this chapter, if the entire farm shares a common ownership; or

(ii) All of the land within a farm which shares a common ownership if the parent farm consists of tracts of land having separate ownerships.

(2) For purposes of paragraph (b) of this section, the county FSA committee shall apportion, in accordance with the provisions of part 718 of this chapter, the burley tobacco quota assigned to a farm between the various tracts of land which are separately owned by:

(i) A person not using the land on the farm for which a burley tobacco marketing quota is established for agricultural purposes.

(ii) A person who uses the land on the farm for which the burley tobacco marketing quota is established for agricultural purposes or for educational, instructional, or demonstrational purposes.

(3) The farm marketing quota determined under this section for each farm or tract, as applicable, shall be the amount of quota subject to forfeiture under this section.

(b) Person who does not use the land on the farm for which the marketing quota is established for agricultural purposes or does not use such marketing quota for educational, instructional, or demonstrational purposes. For purposes of this paragraph, the term “person” means a person as defined in part 718 of this chapter, including any governmental entity, public utility, educational institution, religious institution or joint venture (but not including any farming operation involving only spouses), but excluding any individual.

(1) Required forfeiture. With respect to any person owning a farm for which a burley tobacco marketing quota is established, if the county FSA committee determines that such person does not use the land on such farm for agricultural purposes, or does not use such burley tobacco marketing quota for educational, instructional, or demonstrational purposes, such person shall forfeit such quota which is not sold on or before December 1 of the year after any year for which the county FSA committee makes such determination.

(2) Agricultural purposes. Land on the farm for which a burley tobacco marketing quota is established shall be considered to be used for agricultural purposes if the county FSA committee determines that:

(i) In the current year or either of the 2 preceding years such land is used for the production of:

(A) Row crops of any type;

(B) Livestock or poultry (including pasture and forage for livestock);

(C) Trees (including orchards and vineyards); or

(D) Hay or native grasses on open land; or

(ii) In the current year such farm is owned by an educational institution which uses such burley tobacco marketing quota solely for educational, instructional, or demonstrational purposes.

(3) Documentation. Within 30 days after a written request is made by the county FSA committee, or within such extended time as may be granted by the county FSA committee, a person must submit such documentation as may be requested to support a determination that the provisions of paragraph (b)(1) of this section have been met with respect to such person. Upon failure of such person to timely respond to this request, the county FSA committee shall determine that the person does not use the land on the farm for agricultural purposes, or does not use the burley tobacco marketing quota for educational, instructional, or demonstrational purposes.

(c) Buyers of quota fail to share in the risk of production.

(1) Forfeiture required. If any person buys burley tobacco quota and such person fails to share in the risk of producing the tobacco which was planted subject to such quota during any of the 3 crop years beginning with the crop year for which the purchase became effective, such person shall forfeit the purchased quota if it is not sold on or before December 31 of the year after the crop year in which such crop was
§723.219

planted. However, any purchaser or subsequent purchaser of quota required to be sold under the mandatory sale to prevent forfeiture, provisions of paragraph (b) of this section shall be required to share in the risk of production of such quota for five crop years beginning with the crop year for which the purchase became effective.

(2) Failure to utilize purchased quota for the production of tobacco shall not result in the forfeiture of such quota, but the three year period and the five year period which is specified in paragraph (c)(1) of this section shall be extended 1 year for each year for which the quota is not utilized.

(3) Reduction for failure to share in the risk of production. The effective quota shall be reduced, but not below zero pounds, for leasing and marketing quota purposes only, to the extent of the purchased quota for each crop after the crop year in which the buyer of such quota fails to share in the risk of producing a crop of tobacco which is subject to such quota.

(4) Determining forfeited amount. If only part of the quota on a farm is attributable to a purchased quota, the amount of the farm marketing quota which must be forfeited under paragraph (c) of this section shall be determined by increasing or decreasing each respective purchase of farm marketing quota for the farm to reflect changes in national quota factors since the purchase occurred and subtracting the pounds of quota which have been sold to prevent forfeiture.

(d) Hearing. Before any forfeiture of quota becomes effective under the provisions of this section, the county FSA committee shall:

(1) Schedule a hearing for the affected person.

(2) Notify the affected person of the hearing at least 10 days in advance of the hearing.

(3) Make a determination, on the basis of the evidence presented at the hearing by or on behalf of the affected person and by or on behalf of the county FSA committee as to whether or not:

(i) Any of the conditions for forfeiture specified in this section exist; and

(ii) The affected person knowingly failed to take steps to prevent forfeiture of allotment and quota when such forfeiture conditions have been determined to exist with respect to the provisions of paragraph (b) of this section.

(iii) The affected person knowingly failed to take steps to prevent forfeiture of burley tobacco quota.

(4) Notify the affected persons of the county FSA committee determination and, if forfeiture of quota is to be required, afford such person an opportunity to appeal to a review committee in accordance with the provision of part 711 of this chapter.

(e) Apportionment of data and determination of quota after forfeiture. (1) Apportionment of data. The pounds of farm marketing quota retained on the forfeiting farm after the forfeiture shall be divided by the farm marketing quota established for the farm before the forfeiture to determine a factor for apportioning farm data. The data to be retained on the forfeiting farm shall be determined by multiplying the factor by the following data for the forfeiting farm:

(i) Overmarketings which have been subtracted when determining the effective farm marketing quota of the forfeiting farm.

(ii) Pounds of quota transferred from the forfeiting farm by lease or by the owner in the current year.

(iii) Pounds of quota reduced in the current year for a marketing quota violation in a prior year.

(iv) Previous year’s effective farm marketing quota.

(v) Previous year’s marketings.

(vi) Previous year’s farm marketing quota.

(vii) Pounds of quota transferred to the farm by lease or by owner in the previous year.

The portion of the forfeiting farm data which shall be included in a forfeiture pool for the county shall be determined by subtracting the pounds of each respective item of farm data which are retained on the forfeiting farm from the pounds of the respective item of data which were established for the forfeiting farm before forfeiture.
(2) **Forfeiture pool.** The data for the forfeiture pool shall be added to any previous data in the forfeiture pool.

(3) **Quota after forfeiture.** After adjustment of data, the effective farm marketing quota shall be determined in accordance with the provisions of §723.206 of this part for the forfeiting farm.

(i) **Forfeiture pool. (1) Establishing forfeiture pool.** A forfeiture pool shall be established in each county in which a forfeiture of quota occurs. The forfeiture pool shall be increased to include data for each forfeiture and shall be decreased for each reallocation in order to reflect any forfeited or reallocated amounts of:

(i) Farm marketing quota for the current year.

(ii) Quota reduced for marketing quota violations.

(iii) Quota transferred from the forfeiting farm by lease or by the owner.

(iv) Previous year’s effective farm marketing quota.

(v) Previous year’s marketings.

(2) **Adjustment of data in forfeiture pool.** At the beginning of the current year, the data in the forfeiture pool shall be adjusted by the factor used in determining quotas for old farms. Quota data in the forfeiture pool shall be decreased each time any burley tobacco quota is reallocated from the forfeiture pool. Such decrease in the quota data will be made in the same proportion as the pounds of quota which are reallocated from the pool are to the pounds of quota which were in the pool before the reallocation.

(g) **Reallocation of quota from forfeiture pool. (1) Application.** In order to establish eligibility to receive quota from the forfeiture pool in the current year, an application must be made on a form approved by the Deputy Administrator. Such application must be filed:

(i) **Who may file.** By an active producer.

(ii) **When to file.** On or before April 30. The State FSA committee may establish an earlier date if notice of such earlier date is given in time for interested applicants to file an application by the earlier date.

(iii) **Where to file.** At the county FSA office which serves the farm for which the application is filed.

(2) **Eligibility of applicant.** In order for an applicant to be eligible for quota from the forfeiture pool, the county FSA committee must determine that:

(i) The application was filed timely.

(ii) The applicant is an active tobacco producer.

(iii) During the current year or during the 4 years preceding the current year, the applicant has not sold or forfeited quota from any farm.

(3) **Time to reallocate.** The county FSA committee shall:

(i) Not reallocate any quota from the forfeiture pool until the time has passed for filing an application for forfeited quota for the current year.

(ii) Reallocate any quota from the forfeiture pool only during the 30-day period beginning on the day after the final day for filing an application for quota from the forfeiture pool.

(4) **Reallocation by county FSA committee.** Reallocation of any burley tobacco quota shall be made by the county FSA committee. In making its determination of the amounts of quota to reallocate, the county FSA committee may consider the size of the current quotas on the farms of the eligible applicants, the length of time the applicants have been farming tobacco, the type of farming done by the applicants (i.e., livestock, grain, or other commodities), previous leasing history of the applicants, and such other factors which in the judgment of the county FSA committee should be considered. A burley tobacco quota may be reallocated to a farm which currently does not have a burley tobacco quota. A factor shall not be used to reallocate quota between all eligible applicants.

(5) **Basis for reallocation from forfeiture pool.** Reallocation from the forfeiture pool shall be on the basis of pounds of farm marketing quota.

(6) **Amount of quota to be reallocated.** The county FSA committee may reallocate all or part of the quota in the forfeiture pool. The minimum amount of quota which may be reallocated to an eligible applicant is the total amount of quota in the pool or 100 pounds, whichever is less. The maximum amount is 500 pounds. However, up to 1,500 pounds may be allocated with State FSA committee concurrence.
§ 723.220 Forfeiture of flue-cured tobacco acreage allotment and marketing quota.

(a) Determination of allotment and quota subject to forfeiture. (1) For purposes of paragraphs (b) and (c) of this section, the phrase “owns a farm” means ownership of:

(i) A farm as constituted under part 718 of the chapter if the entire farm shares a common ownership; or

(ii) All of the land within a common ownership if the parent farm consists of separate ownership tracts of land.

(2) For purposes of paragraphs (b) and (c) of this section, the county FSA committee shall, in accordance with the provisions of part 718 of this chapter, apportion the flue-cured tobacco year and such owner would otherwise be required to sell or forfeit the farm marketing quota because in the preceding crop year the owner of such quota did not share in the risk of producing a crop of tobacco which was subject to such purchased or reallocated quota, the new owner may be considered the buyer of the quota instead of being considered as a successor-in-interest to the previous owner of the farm. However, the new owner must furnish to the county FSA committee on or before June 30 of the current year a certification that such owner intends to become an active burley tobacco producer. Any purchased or reallocated quota, which is acquired by a new owner who is not considered to be the buyer of the quota in accordance with the provisions of this paragraph, shall be subject to the same terms and conditions with respect to forfeiture which would be applicable if the new owner actually had purchased the quota at the time the farm was acquired.

(2) Buyer no longer shares in risk of production. The owner of a farm shall become the successor-in-interest to the buyer of burley tobacco quota which was transferred to a farm but which was not owned by such buyer if the buyer ceases to share in the risk of production of burley tobacco produced on the farm.

§ 723.220 Forfeiture of flue-cured tobacco acreage allotment and marketing quota.

(a) Determination of allotment and quota subject to forfeiture. (1) For purposes of paragraphs (b) and (c) of this section, the phrase “owns a farm” means ownership of:

(i) A farm as constituted under part 718 of the chapter if the entire farm shares a common ownership; or

(ii) All of the land within a common ownership if the parent farm consists of separate ownership tracts of land.

(2) For purposes of paragraphs (b) and (c) of this section, the county FSA committee shall, in accordance with the provisions of part 718 of this chapter, apportion the flue-cured tobacco year and such owner would otherwise be required to sell or forfeit the farm marketing quota because in the preceding crop year the owner of such quota did not share in the risk of producing a crop of tobacco which was subject to such purchased or reallocated quota, the new owner may be considered the buyer of the quota instead of being considered as a successor-in-interest to the previous owner of the farm. However, the new owner must furnish to the county FSA committee on or before June 30 of the current year a certification that such owner intends to become an active burley tobacco producer. Any purchased or reallocated quota, which is acquired by a new owner who is not considered to be the buyer of the quota in accordance with the provisions of this paragraph, shall be subject to the same terms and conditions with respect to forfeiture which would be applicable if the new owner actually had purchased the quota at the time the farm was acquired.

(2) Buyer no longer shares in risk of production. The owner of a farm shall become the successor-in-interest to the buyer of burley tobacco quota which was transferred to a farm but which was not owned by such buyer if the buyer ceases to share in the risk of production of burley tobacco produced on the farm.

§ 723.220  
acreage allotment and marketing quota assigned to a farm between:  
(i) All land which is owned by any person which is not significantly involved in the management or use of land for agricultural purposes, as described in paragraph (b) of this section; and  
(ii) Each common ownership tract of land in the farm other than that described in paragraph (a)(2)(i) of this section.  
(3) With respect to the provisions of paragraph (c) of this section, an acreage allotment and marketing quota shall be determined for a tract in accordance with paragraph (a)(2)(ii) of this section only to the extent that records are available to show the contribution which the tract made to the flue-cured tobacco acreage allotment of the parent farm.  
(4) The farm acreage allotment and farm marketing quota determined under this section for each farm or tract, as applicable, will be the amount of allotment and quota subject to forfeiture under this section.

(b) Persons not significantly involved in management or use of land for agricultural purposes.  
For purposes of this paragraph, the term “person” means a person as defined in part 718 of this chapter, including any: Governmental entity, public utility, educational institution, or religious institution, but not including any: Individual, partnership, joint venture, family farm corporation, trust, estate, or similar fiduciary account with respect to which 50 percent or more of the beneficial interest is in one or more individuals; or educational institution that uses a flue-cured tobacco acreage allotment and marketing quota for instruction or demonstrational purposes.

(1) Required forfeiture. If at any time the county FSA committee determines that any person which owns farm for which a flue-cured tobacco acreage allotment and marketing quota are established is not significantly involved in the management or use of land for agricultural purposes, such person shall forfeit such allotment and quota which is not sold on or before December 1 of the year for which the county FSA committee makes such a determination.

(2) Owner ceases to be significantly involved. A person shall be considered to be significantly involved in the management or use of land for agricultural purposes if the county FSA committee determines that:  
(i) For the 3 preceding years, more than 20 percent of the gross income of the person has been derived from the management or use of land for the production of crops which are planted and harvested annually, and/or livestock, including pasture and forage for livestock; and  
(ii) Any other person or all other persons which in combination own more than 50 percent of the assets of the owner of the flue-cured tobacco allotment and marketing quota also meet the criteria specified in paragraph (b)(2)(i) of this section.  
(3) Documentation. Within 30 days after a written request is made by the county FSA committee, or within such extended time as may be granted by the county FSA committee, a person must submit such documentation as may be requested to support a determination that the provisions of paragraph (b)(2) of this section have been met with respect to such person. Upon failure of such person to timely respond to such request, the county FSA committee shall determine that the person is not significantly involved in the management or use of land for agricultural purposes.  
(c)-(d) [Reserved]

(e) Buyers of allotment fail to share in the risk of production.  
(1) Forfeiture required. If any person buys flue-cured acreage allotment and quota and such person fails to share in the risk of producing the tobacco which was planted subject to such quota during any of the three crop years beginning with the crop year for which the purchase became effective such person shall forfeit the purchased quota if it is not sold on or before December 31 of the year after the crop year in which such crop was planted.  
(2) Failure to utilize purchased allotment and quota. Failure to utilize purchased allotment and quota for the production of tobacco shall not result in the forfeiture of such quota, but the
§ 723.220

3 year period which is specified in paragraph (e)(1) of this section shall be extended 1 year for each year for which the quota is not utilized.

(3) Reduction for failure to share in risk of production. The effective allotment and quota shall be reduced, but not below zero acres or pounds, for planting, leasing, and marketing quota purposes only, to the extent of purchased allotment and quota for each crop year after the crop year in which the buyer of such allotment and quota fails to share in the risk of producing a crop of tobacco planted under such allotment and quota.

(4) Determining forfeited amount. If only part of the allotment and quota on a farm resulted from purchased allotment or quota, the amount of farm marketing quota which must be forfeited under paragraph (e) of this section shall be determined by:

(i) Increasing or decreasing each respective purchase of farm marketing quota for the farm to reflect any annual changes in national acreage and national yield factors subsequent to the year of purchase.

(ii) Adding the amounts determined in paragraph (e)(4)(i) of this section, multiplying the result by the farm yield for the farm, and subtracting the pounds of quota which have been sold to prevent forfeiture.

(f) Tobacco not planted nor considered planted. Notwithstanding any other provision of this part, any person who owns a farm for which a flue-cured tobacco acreage allotment and marketing quota are established, shall forfeit such allotment and quota after February 15 of any year immediately following the 1st year of the 3-year period immediately preceding the year for which the county FSA committee determines that flue-cured tobacco was not planted nor considered planted on such farm during at least 2 years of such 3-year period.

(g) Hearing. Before any forfeiture of allotment and quota becomes effective under the provisions of this section, the county FSA committee shall:

(1) Schedule a hearing for the affected person.

(2) Notify the affected person of the hearing at least 10 days in advance of the hearing.

(3) Make a determination, on the basis of evidence presented at the hearing by or on behalf of the affected person and by or on behalf of the county FSA committee as to whether:

(i) Any of the conditions of requiring forfeiture as specified in this section exist; and

(ii) The affected person knowingly failed to take steps to prevent forfeiture of a flue-cured tobacco acreage allotment and marketing quota.

(4) Notify the affected person of the county FSA committee determination and, if forfeiture of allotment and quota is to be required, afford such person an opportunity to appeal to a review committee under the provisions of part 711 of this chapter.

(5) Wait until the period has passed for the affected person to appeal the county FSA committee or review committee determination that allotment and quota must be forfeited under the provisions of this section.

(h) Apportionment of data and determination of allotment and quota after forfeiture. (1) Apportionment of data. The pounds of farm marketing quota retained on the forfeiting farm after the forfeiture shall be divided by the farm marketing quota established for the forfeiting farm before the forfeiture to determine a factor for apportioning farm data for the current year and for the base period. The data to be retained on the forfeiting farm shall be determined by multiplying the factor by the following data of the forfeiting farm, the:

(i) Planted and considered planted acres for the base period.

(ii) History acres for the base period.

(iii) Farm acreage allotment for the base period.

(iv) Overmarketings which have not been subtracted when determining the effective farm marketing quota of the forfeiting farm.

(v) Acres of allotment reduced in the current year for a marketing quota violation in a prior year.

(vi) Previous year’s effective farm marketing quota.

(vii) Previous year’s marketings.

(viii) Previous year’s farm marketing quota.
(ix) Pounds of quota transferred from the forfeiting farm by lease in the current year.

(x) Pounds of quota transferred to the farm by lease in the previous year.

The portion of the forfeiting farm data which shall be included in a forfeiture pool for the county shall be determined by subtracting the acres or pounds which are retained on the forfeiting farm from the acres or pounds established for the forfeiting farm before forfeiture.

(2) **Forfeiture pool.** The data for the forfeiture pool shall be added to any previous data in the forfeiture pool.

(3) **Allotment and quota after forfeiture.** After adjustment of data, the effective farm acreage allotment and the effective farm marketing quota shall be determined in accordance with § 723.205 and 723.206 of this part, respectively, for the forfeiting farm.

(i) Forfeiture pool. (1) **Establishing forfeiture pool.** A forfeiture pool shall be established in each county in which a forfeiture of allotment and quota occurs. The forfeiture pool shall be increased to include data for each forfeiture and shall be decreased for each reallocation in order to reflect any forfeited or reallocated amounts of the:

(i) Farm acreage allotment for the current year and for the base period.

(ii) Farm marketing quota for the current year and for the base period.

(iii) Acres reduced for violation.

(iv) Planted and considered planted acres for the base period.

(v) History acres for the base period.

(vi) Previous year’s effective farm marketing quota.

(vii) Previous year’s marketing.

(viii) Quota transferred from the forfeiting farm by lease.

(2) **Yield for forfeiture pool.** The farm yield for the forfeiture pool shall be determined by dividing the farm marketing quota in the forfeiture pool by the farm acreage allotment in the forfeiture pool. The preliminary farm yield for the forfeiture pool shall be determined by dividing the farm yield by the national yield factor.

(3) **Adjustment of data in forfeiture pool.** At the beginning of the current year, the data in the forfeiture pool shall be adjusted by the factors used in determining yields, allotments, and quotas for old farms. Acreage and quota data in the forfeiture pool shall be decreased each time quota is reallocated from the forfeiture pool, such decrease to be made in the same proportion as the pounds of quota which are reallocated from the pool are to the pounds of quota which were in the pool before the reallocation.

(j) **Reallocation of allotment and quota from forfeiture pool.** (1) **Application.** In order to establish eligibility to receive allotment and quota from the forfeiture pool in the current year, an application must be made on a form approved by the Deputy Administrator. Such application must be filed:

(i) **Who may file.** By an active producer.

(ii) **When to file.** On or before March 31. The State FSA committee may establish an earlier date if notice of such earlier date is given in time for interested applicants to file an application by the earlier date.

(iii) **Where to file.** At the county FSA office which serves the farm for which the application is filed.

(2) **Eligibility of applicant.** In order for an applicant to be eligible for allotment and quota from the forfeiture pool, the county FSA committee must determine that:

(i) The application was filed timely.

(ii) The applicant is an active producer.

(iii) During the current year or during the 4 years preceding the current year, the applicant has not:

(A) Sold or forfeited allotment and quota from any farm.

(B) Used the designation method of division to retain less allotment than the farm would have retained by another method of division.

(3) **Time to reallocate.** The county FSA committee shall:

(i) Not reallocate any allotment and quota from the forfeiture pool until the time has passed for filing an application for forfeited allotment and quota for the current year.

(ii) Reallocate any allotment and quota from the forfeiture pool only during the 30-day period beginning on the day after the final day for filing an application for allotment and quota from the forfeiture pool.
§ 723.220

(4) Reallocation by county FSA committee. Reallocation of any allotment and quota shall be made by the county FSA committee. In making its determination of the amounts to reallocate, the county FSA committee may consider the size of the current allotments on the farms of the eligible applicants, the length of time the applicants have been farming tobacco, the type of farming done by the applicants (i.e., livestock, grain, or other commodities), and other factors which in the judgment of the county FSA committee should be considered. Allotment and quota may be reallocated to a farm which currently does not have a flue-cured tobacco allotment. A factor shall not be used to reallocate allotment and quota between all eligible applicants.

(5) Basis for reallocation from forfeiture pool. Reallocation from the forfeiture pool shall be on the basis of pounds of farm marketing quota.

(6) Amount of quota to reallocate. The county FSA committee may reallocate all or part of the quota in the forfeiture pool.  

(i) Minimum. The minimum amount of quota which may be reallocated to an eligible applicant is the total amount of quota in the pool or 200 pounds, whichever is less.

(ii) Maximum. The maximum amount of quota which may be reallocated to an eligible applicant is 1,000 pounds. However, with State FSA committee approval, up to 2,500 pounds may be allocated.

(7) Data for receiving farm. All data for the forfeiture pool shall be apportioned to the receiving farm in the proportion that the reallocated farm marketing quota is to the total farm marketing quota in the forfeiture pool before the reallocation. The pounds of farm marketing quota reallocated to a farm shall be divided by the farm yield for the farm to determine the amount of reallocated farm acreage allotment. The data determined for the receiving farm in accordance with the provisions of this paragraph shall be added to any previous data for the receiving farm.

(8) Allotment and quota for receiving farm. After any adjustments which are made in accordance with the provisions of this section, the farm acreage allotment, the effective farm acreage allotment, and the effective farm marketing quota shall be determined for the receiving farm according to §§ 723.205 and 723.206, respectively, of this part.

(k) Forfeiture of reallocated allotment and quota. Allotment and quota which is reallocated in accordance with the provisions of this section shall be forfeited if the applicant to whom the quota is reallocated fails to share in the risk of producing a crop of tobacco which is subject to such quota during any of the 3 years beginning with the crop year during which the quota is reallocated. The amount of farm marketing quota which must be forfeited shall be determined in the same manner which is specified in paragraph (e)(4) of this section with respect to the forfeiture of purchased quota. Any forfeiture of quota shall occur on December 1 of the year in which the applicant fails to share in the risk of production of tobacco which is produced subject to such quota. While the failure to utilize a quota shall not subject the quota to forfeiture, the 3 year period which is specified in this paragraph shall be extended by 1 year for each year in which the quota is not utilized.

(l) Successor-in-interest. The successor-in-interest shall be subject to the provisions of this section in the same manner and to the same extent as would be applicable to the person whose interest was assumed.

(1) New owner. The new owner of a farm on which a portion or all of the farm acreage allotment and farm marketing quota for such farm was either purchased and/or was reallocated from forfeited allotment and quota shall become the successor-in-interest to the previous owner of the farm. However, if a farm is acquired by a new owner on or before June 15 of the current crop year and such owner would otherwise be required to sell or forfeit the farm acreage allotment and farm marketing quota because in the preceding crop year the owner of such allotment and quota did not share in the risk of producing a crop of tobacco which was subject to such purchased or reallocated allotment and quota, the new owner may be considered the buyer of the allotment and quota instead of...
§ 723.302 Tobacco for experimental purposes.

For farms on which tobacco is being grown for experimental purposes by or under the direction of a publicly owned agricultural experiment station, such tobacco shall be exempt from any penalties otherwise required by this part.
§ 723.303 if, before the beginning of the harvesting of tobacco from any farm on which experimental tobacco is being grown, the director of such publicly owned agricultural experimental station furnishes a report, to the State Executive Director for the State in which the farm is located, that includes the following information:
(a) Name and address of the publicly owned agricultural experiment station.
(b) Name of the owner, and name of the operator if different from the owner, and the farm number of each farm on which tobacco is grown for experimental purposes only.
(c) The acreage or poundage of tobacco that is to be grown on each farm for experimental purposes only.
(d) A certification signed by the director of the publicly owned agricultural experiment station to the effect that such acreage or poundage of tobacco is being grown for each farm for experimental purposes only, the tobacco is being grown under the auspices of such director, and the acreage of each plot was considered necessary for carrying out the experiment.

§ 723.304 Determination of discount varieties.
(a) Definition. Discount variety means any of the flue-cured tobacco seed varieties designated as Coker 139, Coker 140, Reams 64, Reams 266, or Dixie Bright 244, or a mixture or strain of such seed varieties, or any breeding line of flue-cured tobacco seed varieties, including, but not limited to, 187-Golden Wilt (also designated by such names as No-Name, XYZ, Mortgage Lifter, Super XyZ), having the quality and chemical characteristics of the seed varieties designated as Coker 139, Coker 140, Coker 316, Reams 64, Reams 266, or Dixie Bright 244. However, where there is growing in a field of type plants of not more than 2 percent, such off-type plants shall not be considered in certifying the flue-cured tobacco variety being produced. Flue-cured tobacco variety which is not certified to be discount variety shall be considered as “acceptable variety.”
(b) Producer report. The operator, or any producer, on each farm producing flue-cured tobacco shall file with the county FSA office a report on MQ-32 showing whether or not discount variety tobacco was planted on the farm.
(c) Failure to file report. If the operator of a farm on which flue-cured tobacco is being produced in the current year fails or refuses, within 7 days after a request of the county FSA committee on MQ-34-1, Notice of Action Required Regarding Determination of
Seed Varieties of Flue-Cured Tobacco, to file a report on MQ–32, showing whether or not there was planted any of the discount varieties of flue-cured tobacco on such farm, all flue-cured tobacco produced on such farm shall be considered by the county FSA committee to be discount variety tobacco unless the county FSA committee finds that failure to comply with the request was due to circumstances beyond the control of the farm operator.

(d) Notice to farm operator. The farm operator having discount variety tobacco shall be given written notice by certified mail on MQ–34–2, Notice of Determination of Discount Variety of Flue-Cured Tobacco. This notice to the farm operator shall constitute notice to all persons who, as owner, operator, landlord, tenant, or sharecropper, are interested in the tobacco grown on the farm.

(e) Producer’s right to recertify. Any producer on a farm who received a Form MQ–34–2 notifying such producer that the farm has discount variety tobacco when in fact an acceptable variety is being produced may recertify on Form MQ–32.

(f) Issuance of marketing cards. (1) If a farm is considered to have discount variety tobacco available for marketing and the farm is eligible for price support, the county FSA executive director shall issue MQ–76, bearing the notation “Discount Variety-Limited Price Support.” If the farm is considered to have discount variety tobacco but it is not eligible for price support, the county FSA executive director shall issue MQ–76, bearing the notation “Discount Variety-No Price Support.”

(i) Where an MQ–76, bearing the notation, “Discount Variety-Limited Price Support” is issued for a farm, the card may be exchanged at the county FSA office for an MQ–76, without the notation, or

(ii) Where an MQ–76, bearing the notation, “Discount Variety-No Price Support” is issued for a farm the card may be exchanged at the county FSA office for MQ–76 with the notation “No Price Support.” However, the farm operator shall establish to the satisfaction of the county FSA committee that there has been no commingling or substitution of discount variety tobacco produced on the farm or on any other farm operated by such operator, and that all discount variety tobacco has been marketed or satisfactorily disposed of, or accounted for.

(3) MQ–76 issued to identify marketings of tobacco grown for experimental purposes by or for publicly owned experiment stations shall bear the notation “Discount Variety-Limited Price Support” if such tobacco is discount variety tobacco.

(g) Identification of flue-cured leaf account tobacco as acceptable variety—(1) Whenever the Director determines there is a significant amount of discount variety tobacco available for marketing in any marketing year, the Director may cause to be initiated the provisions of this paragraph. In addition, the Director may terminate any action initiated hereunder when it is determined that no discount variety of flue-cured tobacco remains available for sale during the remainder of the current marketing season. Notification to warehouse operators of action required under this paragraph shall be by the State FSA executive director.

(ii) Each warehouse operator who offers for auction sale any leaf account Flue-Cured tobacco on a warehouse floor other than such operator’s own floor, and who requests the other warehouse operator to identify such tobacco as being “acceptable variety” shall execute MQ–79–1 (Flue-Cured), Dealer’s Certification–Resale Tobacco.

(iii) Each executed MQ–79–1 (Flue-Cured) shall show the following information with respect to each lot of resale tobacco:

(A) Crop year.

(B) Name and address of warehouse where the tobacco is being offered for sale.

(C) Tobacco sale bill number and date.

(D) Date, signature of dealer and current address, and dealer identification number.
§ 723.305 Issuance of marketing cards.

(a) General. Each marketing of tobacco from a farm in a quota area shall be identified by a valid marketing card unless prior to marketing an AMS certification is issued for such tobacco to indicate that such tobacco is a nonquota kind of tobacco.

(1) A marketing card (MQ–76 or MQ–77) shall be issued for the current marketing year for each farm having quota tobacco available for marketing. Cards shall be issued in the name of the farm operator except that:

(i) Cards issued for tobacco grown for experimental purposes only shall be issued in the name of the experiment station,

(ii) Cards issued to a successor-in-interest shall be issued in the name of the successor-in-interest.

(iii) For kinds of tobacco other than flue-cured and burley, if a part of a farm which includes the tobacco acreage on the farm is cash leased to such producer, cards shall be issued in the name of such producer. The face of the marketing card may show the name of other interested producers. A marketing card may be issued in the name of a producer who is not the farm operator if the county FSA committee determines pursuant to the procedure in paragraph (a)(2) of this section that such producer has been or likely will be deprived of the right to use the marketing card issued for the farm to market such producer’s proportionate share of the crop.

(b) Estimate of production. For any farm on which discount variety tobacco is being grown, a Form MQ–92, Estimate of Production, shall be obtained.
Farm Service Agency, USDA

§ 723.305

issued for the farm to market such producer’s proportionate share of the crop, a separate marketing card shall be issued to such producer. With respect to burley and flue-cured tobacco, the marketing card issued for the farm shall be recalled and a separate marketing card, showing 103 percent of the producer’s proportionate share of the effective farm marketing quota shall be issued to each such producer who it is determined has been or likely will be deprived of the opportunity to market such producer’s proportionate share of the crop and another card (or other cards if considered preferable by the county FSA committee) shall be issued showing 103 percent of the producer’s proportionate share of the effective farm marketing quota to enable the other producers on the farm to market their proportionate shares. The marketing cards issued pursuant to this subparagraph shall reflect the proportionate pounds, if any, already marketed by each producer.

(3) The procedure in paragraph (a)(2) of this section shall not apply to a person who was a producer on the farm in a prior year but who is not a producer in the current crop year.

(b) Person authorized to issue marketing cards. The county FSA executive director shall be responsible for the issuance of marketing cards. For kinds of tobacco other than burley and flue-cured tobacco, each marketing card shall bear the actual or facsimile signature of the county FSA executive director who issued the card.

(c) Rights of producers and successors-in-interest. (1) Each producer having a share in tobacco available for marketing from a farm shall be entitled to the use of the marketing card for marketing such producer’s proportionate share.

(2) Any person who succeeds, other than a dealer, in whole or in part to the share of a producer in the tobacco available for marketing from a farm, shall, to the extent of such succession, have the same right to the use of the marketing card and bear the same liability for penalties as the original producer.

(d) No price support—burley and flue-cured tobacco. For burley and flue-cured tobacco, the notation “No Price Support” shall be entered on each marketing card issued for the use of:

(1) Farm. The farm if any producer on the farm is ineligible for price support under the provisions of part 1464 of this title.

(2) Producer. The producer on a farm if the producer is ineligible for price support under the provisions of part 1464 of this title.

(e) Farm quota data entered on marketing card and supplemental card for burley or flue-cured tobacco:

(1) Any marketing card issued to market burley or flue-cured tobacco shall show when issued, in the space provided on the reverse side, the pounds computed by multiplying 103 percent times the effective farm marketing quota.

(2) Notwithstanding paragraph (e)(1) of this section, if the tobacco available for marketing from the farm is determined by the county FSA committee or the county FSA executive director to be less than the effective farm marketing quota, for purposes of issuing a marketing card and showing thereon the farm’s 103 percent of the effective quota, the effective farm marketing quota for the farm shall be considered to be the pounds determined to be available for marketing from the farm. If any producer on the farm satisfies the county FSA committee or county FSA executive director that the quantity of tobacco produced on the farm in the current year, plus any carryover tobacco from a prior year, is greater than the previously determined pounds of tobacco available for marketing from the farm, the pounds shown on the marketing card shall be increased accordingly, but not to exceed an amount which would cause the total pounds shown on the marketing card to equal 103 percent of the effective farm marketing quota.

(3) Upon request by the farm operator, a supplemental marketing card bearing the same name and identification as shown on the original marketing card may be issued for a farm upon return to the county FSA office of an original marketing card or a supplemental marketing card. The pounds computed as the balance of 103 percent of quota from a prior marketing card
shall be shown in the first space on the reverse side of the marketing card.

(4) Upon written request of the farm operator two or more marketing cards may be issued for a farm if the farm operator specifies the number of pounds of quota to be assigned to each marketing card. In such case, the total pounds of quota specified in the entry, “103 percent of quota,” on all marketing cards issued for the farm may not exceed 103 percent of the effective farm marketing quota.

(f) Farm quota data entered on marketing card and supplemental card for any kind of tobacco other than burley or flue-cured: (1) Within quota marketing card. A within quota marketing card, MQ–76, indicating the tobacco is eligible for price support shall be issued for use in identifying the kind of tobacco that is available for marketing from a farm when such tobacco:

(i) Is eligible for price support according to the provisions of part 1464 of this title.

(ii) Was grown for experimental purposes by a publicly owned agricultural experiment station.

(2) Excess marketing card. An excess marketing card (MQ–77) shall be issued for a farm for marketing a kind of tobacco that is ineligible for price support. Before the MQ–77 is issued the county FSA executive director shall enter on such marketing card the rate of any penalty that is to be deducted from the proceeds from any marketing of tobacco identified by such marketing card. An MQ–77 shall be issued for each farm for each kind of tobacco for which:

(i) There is excess tobacco available for marketing from the farm; or

(ii) The producer is not an eligible producer or the tobacco is not eligible tobacco as determined in accordance with part 1464 of this title.

(3) Full penalty rate. The full penalty rate shall be entered on each MQ–77 issued to identify tobacco produced on a farm for which:

(i) An acreage allotment was not established;

(ii) The farm operator or another producer on the farm prevents the county FSA committee from obtaining information necessary to determine the correct acreage of tobacco on the farm;

(iii) The farm operator fails in accordance with part 718 of this chapter to provide a certification of acreage planted to tobacco, or

(iv) The farm operator or another producer on the farm has not agreed to make contributions to the No Net Cost Fund or pay assessments to the No Net Cost Account, as applicable, in accordance with part 1464 of this title.

(4) Converted penalty rate. Except as provided in paragraph (f)(3) of this section, a converted penalty rate shall be entered on each MQ–77 issued to identify tobacco produced on a farm from which there is excess tobacco available for marketing and the percentage of excess is less than 100 percent. For the purpose of determining the penalty due on each marketing by a producer of tobacco subject to penalty, the converted rate of penalty per pound shall be determined by multiplying the applicable rate of penalty for the current crop by the percent excess determined according to this paragraph. For a farm without carryover tobacco from a prior year, the percent excess shall be determined by dividing the excess acreage of tobacco by the harvested acreage of tobacco for the farm. For a farm having carryover tobacco from a prior year, the percent excess shall be determined as follows:

(i) Determine the number of “carryover” acres by dividing the number of pounds of carryover tobacco from the prior year by the normal yield for the farm for that year. Reduce such “carryover” acres by the amount determined by subtracting the harvested acreage from the allotment in the current year. If the “carryover” acres are entirely offset by the underharvested acreage, the percent excess will be zero and an MQ–76 may be issued if the farm otherwise is eligible for price support and the remainder of this paragraph (f)(4) of this section are inapplicable.

(ii) Determine the number of “within quota carryover acres” by multiplying the “carryover acres” by the “percent within quota” (i.e., 100 percent minus the percent excess) for the year in which the carryover tobacco was produced.

(iii) Determine the “total acres” of tobacco by adding the “carryover
acres” and the acreage of tobacco harvested in the current year.
(iv) Determine the “excess acres” by subtracting from the “total acres” the sum of the current year’s allotment and the “within quota carryover acres.”
(v) Determine the percent excess by dividing the “excess acres” by the “total acres.”
(5) Except as provided in paragraphs (f)(3) and (4) of this section, a zero penalty rate shall be entered on any MQ-77 issued in accordance with this section.

§ 723.306 Claim stamping and replacing marketing cards.

(a) Claim stamping. If a person is indebted to the United States and such indebtedness has been recorded on the county debt record, any marketing card issued for the farm on which the person has a producer interest shall bear the notation “U.S. Claim” followed by the amount of the indebtedness. The name of the debtor-producer, if different from the farm operator, shall be recorded directly under the claim notation. The notation “TMQ” indicating tobacco marketing quota as the type of indebtedness shall constitute notice to any buyer that until the amount of penalty is paid, the United States has a lien with respect to any crop of tobacco in which the debtor-producer has an interest. A claim notation other than “TMQ” shall constitute notice to any buyer that subject to prior liens, the net proceeds from any tobacco pledged as collateral for a price support loan shall be paid to the “Farm Service Agency, USDA” to the extent of the indebtedness shown. The acceptance and use of a marketing card bearing a notation and information concerning an indebtedness to the United States shall not constitute a waiver by the debtor-producer of any right to contest the validity of such indebtedness by appropriate appeal. As claim collections are made, the amount of the claim shown on the card shall be revised to show the claim balance. If requested by the producer, the county FSA executive director who issued the marketing card shall issue a claim-free marketing card when the claim has been paid.

(b) Replacing, exchanging, or issuing additional marketing cards. Subject to the approval of the county FSA executive director, two or more marketing cards may be issued for any farm. Upon the return to the county FSA office of a marketing card which had been used in its entirety and before the marketing of tobacco from the farm has been completed, a new marketing card bearing the same name, information, and identification as the used card shall be issued for the farm. A new marketing card shall be issued to replace a card which has been determined by the county FSA executive director who issued the card to have been lost, destroyed, or stolen.

§ 723.307 Invalid cards.

(a) Reasons for being invalid. A marketing card shall be invalid if:
(1) It is not issued or delivered in the manner prescribed;
(2) An entry is omitted or is incorrect;
(3) It is lost, destroyed, stolen, or becomes illegible; or,
(4) Any erasure or alteration has been made and not properly initialed by the county FSA executive director.

(b) Validating invalid cards. If any entry is not made on a marketing card as required, either through omission or incorrect entry, and the proper entry is made and initialed by the county FSA executive director who issued the card, or by a marketing recorder, then such card shall become valid.

(c) Returning invalid cards. In the event any marketing card becomes invalid (other than by loss, destruction or theft, or by omission, alteration, or incorrect entry, which has not been corrected by the county FSA executive director who issued the card, or by a marketing recorder), the farm operator, or the person in possession of the card, shall return it to the county FSA office at which it was issued.

§ 723.308 Rate of penalty.
The rate of penalty for a marketing year shall be equal to seventy-five (75) percent of the average market price for
§ 723.309 Persons to pay penalty.

Subject to any additional requirements or provisions for remittances which are contained in §723.409 of this part, the persons to pay the penalty due on any marketing of tobacco subject to penalty shall be determined as follows:

(a) Auction sale. The penalty due on marketings by a producer or dealer through an auction sale shall be paid by the warehouse operator who may deduct an amount equivalent to the penalty from the price paid to the producer or dealer.

(b) Nonauction sale. The penalty due on tobacco acquired directly from a producer or dealer, other than at an auction sale, shall be paid by the person acquiring the tobacco who may deduct an amount equivalent to the penalty from the price paid to the producer or dealer in the case of a sale.

(c) Marketing outside the United States. The penalty due on marketings by a producer or dealer directly to any person outside the United States shall be paid by the producer or dealer making the sale.

§ 723.310 Date penalty is due.

(a) Payment of penalty. Penalties shall become due at the time the tobacco is marketed, except that in the case of false identification or failure to account for disposition, the penalty shall be due on the date of such false identification or failure to account for disposition. The penalty shall be paid by remitting the amount due to the State FSA office not later than the end of the calendar week in which the tobacco becomes subject to penalty. A draft, money order, or check drawn payable to the Farm Service Agency may be used to pay any penalty, but any such draft or check shall be received subject to payment at par.

(b) Auction sale net proceeds. If the penalty due on any auction sale of tobacco by a producer is in excess of the net proceeds of such sale (gross amount for all lots included in the sale less usual warehouse charges), the amount of the net proceeds accompanied by a copy of the tobacco sale bill covering such sale may be remitted as the full penalty due. Usual warehouse charges shall not include the following:

(1) Advances to producers,

(2) Charges for hauling, or

(3) Any other charges not usually incurred by producers in marketing tobacco through a warehouse.

(c) Nonauction sales. Nonauction sales of excess tobacco shall be subject to the full rate of penalty and shall be paid in full even though the penalty may exceed the proceeds for the sale of tobacco.

§ 723.311 Lien for penalty; liability of persons who are affiliated with indebted person or who permit the indebted person to use their identification card.

(a) Lien on tobacco. Until the amount of any marketing quota penalty imposed under this part is paid, a lien shall exist in favor of the United States for the amount of the penalty on:

(1) The tobacco with respect to which such penalty is incurred; and

(2) Any other tobacco subject to marketing quotas in which the person liable for payment of the penalty has an interest and which is marketed in the same or a subsequent marketing year.

(b) Lien precedence. The lien, described in paragraph (a) of this section, attaches at the time that the penalty is assessed. As to third parties, in the event of a lack of actual notice of the lien, then notice shall be deemed to occur when:

(1) In the case of indebted producers, the debt is entered on the debt record maintained by the county FSA office of the county in which the tobacco was grown;

(2) In the case of an indebted warehouse operator, the debt is entered on the debt record of the State FSA office for the State in which the warehouse is located; and

(3) In the case of an indebted dealer, the debt is entered on the debt record of the State FSA office for the State in
Farm Service Agency, USDA

§ 723.312 Request for refund of penalty.

Any person who paid any penalty may request the return of the amount of any such payment which is in excess of the amount required to be paid. Such request shall be filed on Form MQ–85, Farm Record and Account, with the county FSA office within 2 years after the month in which the dealer is required to file reports.

(c) Availability of list of marketing quota penalty debts. Each county and State FSA office shall maintain a list of tobacco marketing penalty debts which have been entered on the debt record in their office. The list shall be available for examination upon request by any interested person.

(d) Liability for penalty owed by another person. (1) When a penalty in excess of $10,000 is incurred under this part by an entity, all persons who have a substantial ownership interest in the entity shall be jointly and severally liable with the entity for the payment of such penalty, unless it is demonstrated to the satisfaction of the Deputy Administrator that the violation was inadvertent. Substantial ownership interest shall be deemed to be any ownership interest greater than ten percent.

(2) A dealer or warehouse operator who permits an indebted person to use such dealer’s or warehouse operator’s identification card to market tobacco shall be liable for the amounts due by the indebted person to the United States under this part up to the amount of the value of the tobacco so marketed. In addition, unless the Deputy Administrator determines otherwise, any persons or person, who as a warehouse operator or dealer becomes affiliated with any person who at the time of affiliation is indebted under this part to the United States, shall be liable for the amount of the debt owed to the United States by the person with whom such person or persons become affiliated up to the amount of the value of any tobacco which is marketed by such affiliated warehouse operator or dealer during the time of the affiliation with the indebted person. Affiliation may include any relationship in which the parties have a common interest in tobacco, or in an enterprise or entity involved in the marketing, processing, or handling of tobacco, or where the parties both hold a position of responsibility or ownership in such an enterprise or entity, or where there is common ownership of a business involved in the transaction. A warehouse operator or dealer may also be considered to be affiliated with an indebted person when such warehouse operator or dealer is associated with a person who is both:

(i) An employee or otherwise authorized to buy and sell tobacco for such warehouse operator or dealer; and

(ii) An indebted person or at the time of indebtedness incurred by an entity was a substantial owner or an officer of the indebted entity.

Affiliation may also be deemed to occur where parties have traded in tobacco under circumstances which indicate that there may be a lack of arm’s length trading between the parties such as where the parties engage in casual or undocumented transactions in significant quantities of tobacco, or where the parties have traded in tobacco with each other without a movement of the tobacco, or where there is a trading in tobacco without documentation of a significant exchange of money, or other circumstances which indicate an affiliation. Where questions of affiliation arise, it shall be the burden on the parties involved to show that trading in such tobacco was conducted in accordance with normal trade practices and was not part of a scheme or device to avoid payments of sums due the United States or the CCC.

(e) TMQ lien notation. Upon notification that a TMQ lien has been established, the producer marketing card (MQ–76) or dealer identification card (MQ–79–2) shall be returned immediately to the issuing office for recording the TMQ lien. Failure to immediately return the applicable card will result in FSA notifying all registered warehouse operators and dealers of the TMQ lien information and of their responsibilities for collecting the TMQ lien. The card shall be promptly returned to the producer or dealer after it is annotated with the TMQ lien.

§ 723.312 Request for refund of penalty.

Any person who paid any penalty may request the return of the amount of any such payment which is in excess of the amount required to be paid. Such request shall be filed on Form MQ–85, Farm Record and Account, with the county FSA office within 2 years after the month in which the dealer is required to file reports.

(c) Availability of list of marketing quota penalty debts. Each county and State FSA office shall maintain a list of tobacco marketing penalty debts which have been entered on the debt record in their office. The list shall be available for examination upon request by any interested person.

(d) Liability for penalty owed by another person. (1) When a penalty in excess of $10,000 is incurred under this part by an entity, all persons who have a substantial ownership interest in the entity shall be jointly and severally liable with the entity for the payment of such penalty, unless it is demonstrated to the satisfaction of the Deputy Administrator that the violation was inadvertent. Substantial ownership interest shall be deemed to be any ownership interest greater than ten percent.

(2) A dealer or warehouse operator who permits an indebted person to use such dealer’s or warehouse operator’s identification card to market tobacco shall be liable for the amounts due by the indebted person to the United States under this part up to the amount of the value of the tobacco so marketed. In addition, unless the Deputy Administrator determines otherwise, any persons or person, who as a warehouse operator or dealer becomes affiliated with any person who at the time of affiliation is indebted under this part to the United States, shall be liable for the amount of the debt owed to the United States by the person with whom such person or persons become affiliated up to the amount of the value of any tobacco which is marketed by such affiliated warehouse operator or dealer during the time of the affiliation with the indebted person. Affiliation may include any relationship in which the parties have a common interest in tobacco, or in an enterprise or entity involved in the marketing, processing, or handling of tobacco, or where the parties both hold a position of responsibility or ownership in such an enterprise or entity, or where there is common ownership of a business involved in the transaction. A warehouse operator or dealer may also be considered to be affiliated with an indebted person when such warehouse operator or dealer is associated with a person who is both:

(i) An employee or otherwise authorized to buy and sell tobacco for such warehouse operator or dealer; and

(ii) An indebted person or at the time of indebtedness incurred by an entity was a substantial owner or an officer of the indebted entity.

Affiliation may also be deemed to occur where parties have traded in tobacco under circumstances which indicate that there may be a lack of arm’s length trading between the parties such as where the parties engage in casual or undocumented transactions in significant quantities of tobacco, or where the parties have traded in tobacco with each other without a movement of the tobacco, or where there is a trading in tobacco without documentation of a significant exchange of money, or other circumstances which indicate an affiliation. Where questions of affiliation arise, it shall be the burden on the parties involved to show that trading in such tobacco was conducted in accordance with normal trade practices and was not part of a scheme or device to avoid payments of sums due the United States or the CCC.

(e) TMQ lien notation. Upon notification that a TMQ lien has been established, the producer marketing card (MQ–76) or dealer identification card (MQ–79–2) shall be returned immediately to the issuing office for recording the TMQ lien. Failure to immediately return the applicable card will result in FSA notifying all registered warehouse operators and dealers of the TMQ lien information and of their responsibilities for collecting the TMQ lien. The card shall be promptly returned to the producer or dealer after it is annotated with the TMQ lien.

§ 723.313 Identification of marketings.

(a) Burley or flue-cured tobacco. With respect to:
(i) Identification of producer marketings. Each auction and nonauction marketing of burley or flue-cured tobacco shall be identified by a valid marketing card, Form MQ–76, issued for the farm. The reverse side of the marketing card shall show in pounds:
(1) 103 percent of quota,
(ii) Balance of 103 percent of quota after each sale, and
(iii) Date of each sale.

(ii) Cross-references of tobacco sale bill number to prior sale bill. Each warehouse operator, for each lot of tobacco weighed in on the warehouse floor for sale the same day, shall cross-reference the tobacco sale bill to each prior tobacco sale bill for tobacco identified by the same marketing card. To accomplish the cross-reference, each other tobacco sale bill number shall be entered by the warehouse operator in the “Remarks” space on the tobacco sale bill, on all copies, at the time such tobacco is weighed at the warehouse.

(3) Recording producer sale. Each producer sale at auction shall be recorded on Form MQ–72–1, Report of Tobacco Auction Sale, and each producer sale at nonauction shall be recorded on a Form MQ–72–2, Report of Tobacco Nonauction Purchase. For producer sales at nonauction, the dealer purchaser shall execute Form MQ–72–2 and shall enter the data on Form MQ–76. For producer sales at auction, Form 72–1 and Form MQ–76 shall be executed only by the FSA marketing recorder.

(4) Identification of dealer marketings of resale tobacco. Each auction and nonauction marketing of resale tobacco in the current year, such tobacco shall be identified by a dealer identification card, Form MQ–79–2, issued to the dealer for use in the current marketing year.

(b) Dark air-cured, fire-cured, or Virginia sun-cured tobacco. With respect to dark air-cured, fire-cured, or Virginia sun-cured tobacco:

(1) Identification of producer marketings. Each marketing of such kind of tobacco from a farm shall be identified by a valid marketing card issued for the farm for the respective kind of a tobacco, either an MQ–76 or MQ–77 (including sale memo). With respect to each nonauction sale from:
(i) A within quota farm a check mark shall be entered on the inside of MQ–76, and
(ii) An excess farm for which an MQ–77 is issued, an executed bill of nonauction sale shall be prepared, and such bill of nonauction sale shall be delivered to a marketing recorder or other person who is authorized to issue sale memos.

(2) Suspended sale and sales without marketing cards. Any suspended sale, which is not identified by an MQ–76 or MQ–77 (including a sale memo) on or before the last warehouse sale day of the marketing season, or within 4 weeks after the date of marketing, whichever comes first, shall be identified by MQ–82. Sale Without Marketing Card, as a marketing of excess tobacco. Form MQ–82 shall be executed only by a marketing recorder or other representative of the State FSA executive director.

(3) Other persons authorized to execute MQ–76 or MQ–77 (including sale memo).
(i) A warehouse operator who has been authorized during the current marketing year on MQ–78, Tobacco Warehouse Organization, may record a sale on MQ–76 or MQ–77 (including the issuance of a sale memo) to identify a sale for a farm if a marketing recorder is not available at the warehouse when the marketing card is presented.

(ii) Any warehouse operator, or dealer, who engages in the business of acquiring scrap tobacco from farmers, and who has been authorized on MQ–78, may for each purchase of scrap tobacco execute an MQ–76, or MQ–77 (including a sale memo if the bill of nonauction sale has been executed).

(4) Verification of sales processed during the absence of marketing recorder. Any person authorized on MQ–78 to act as a marketing recorder shall promptly present to a marketing recorder for verification each warehouse bill (floor sheet) processed and identified by an MQ–76 or MQ–77 (including any sale
memos) executed in the absence of a marketing recorder.

(5) Withdrawal of approval to act as marketing recorder. The authorization on MQ–78 for persons may be withdrawn by the State FSA executive director if such action is determined to be necessary to properly enforce the regulations in this part.

(c) Separate display on auction warehouse floor. Any warehouse operator upon whose floor more than one kind of tobacco is offered for sale at public auction shall for each respective kind of tobacco:

(1) Display it in separate areas on the auction warehouse floor.

(2) Use a lot ticket that is distinguishably different from the lot ticket used to identify any other kind of tobacco.

(3) Identify each lot by a lot ticket clearly showing the kind of tobacco. However, if where the tobacco is represented to be a nonquota kind the lot ticket shall have imprinted thereon the type designation for the kind of quota tobacco normally marketed in the area.

(4) Make and keep records that will ensure a separate accounting and reporting of each of such kinds of tobacco (quota and nonquota) sold at auction over the warehouse floor.

(d) Identification of returned first sale (producer) tobacco. When resold at auction, tobacco which has been previously sold and returned to the warehouse by the buyer is resale tobacco. When such tobacco is resold by the warehouse operator, it shall be identified as leaf account resale tobacco.

(e) Verification of penalties by warehouse operators or dealers. Each sale of tobacco by a producer which is subject to penalty and which has been recorded by a marketing recorder shall be verified by a warehouse operator or dealer to determine whether the amount of penalty shown to be due has been correctly computed. Such warehouse operator shall not be relieved of any liability for the amount of penalty due because of any error which may occur in computing the penalty and recording the sale.

(g) Marketing card and sale memo for cigar tobacco. With respect to cigar tobacco:

(1) If a sale of producer’s cigar tobacco to a buyer is not identified with a marketing card (MQ–76 or MQ–77) issued for the farm, including a sale memo from MQ–77, by the end of the sale day and recorded and reported on MQ–79 (CF&B), Buyers Record, by the tenth day of the calendar month next following the month during which the sale occurred, the marketing shall be identified on MQ–79 (CF&B) as a marketing of excess tobacco and reported not later than the tenth day of the calendar month next following the month during which the sale occurred.

(2) Verification of penalty by buyer. Each excess sale memo issued by a buyer shall be verified by the buyer to determine whether the amount of penalty shown to be due has been correctly computed and such buyer shall not be relieved of any liability with respect to the amount of penalty due because of any error which may occur in issuing the sale memo.

Subpart D—Recordkeeping, Reporting Requirements, Marketing Penalties, and Other Penalties

§ 723.401 Registration of burley and flue-cured tobacco warehouse operators and dealers.

(a) Warehouse registration. For burley and flue-cured tobacco, any warehouse operator dealing in either flue-cured or burley tobacco shall be registered with the U.S. Department of Agriculture. Such registration will be handled by the North Carolina State FSA Office, Raleigh, North Carolina.

(b) Dealer registration. Each person who expects to deal in burley or flue-cured tobacco during a marketing year shall complete a Dealer Application and Agreement (MQ–79–2–A) annually,
§ 723.401 7 CFR Ch. VII (1–1–02 Edition)

except dealers who are exempt from maintaining or filing records and reports as provided in §723.405. The application must be filed after March 1 of the calendar year in which the marketing year begins, and shall be filed with the State FSA office or, if designated by the State Executive Director, the county FSA office for the county where the dealer resides or where the dealer’s principal business is located. The applicant shall provide the names, and such other information as required by the Deputy Administrator, of all other persons who will be authorized to use the dealer identification card (MQ–79–2). A dealer entity is limited to one dealer registration number. Persons affiliated with another dealer of the same household shall not be eligible for a dealer registration number unless the Deputy Administrator determines that the entities or individuals are separate and independent.

(c) Approval of application and agreement. The State Executive Director of the State FSA office shall, under the direction of the Deputy Administrator, be the approving official for the Dealer Application and Agreement. If the approving official has reason to doubt that the applicant is a bona fide dealer or intends to become a bona fide dealer, the application may be disapproved until such time as the applicant furnishes information satisfactory to the State FSA committee that the application is bona fide and that the dealer identification card (MQ–79–2) is issued. Failure to comply with the provisions of §§723.404 or 723.414 or with other material provisions of this part...
§ 723.402 Warehouse authorized to retain producer marketing cards between sales.

(a) General. Notwithstanding any other provisions of this part, to facilitate the scheduling of farmer’s tobacco to the warehouse, marketing cards, with the permission of the producer, may be retained at the warehouse between sales even though no producer on the farm for which the card is issued has tobacco on the floor for sale or to be settled for, as provided in this section.

(b) Warehouse eligible to retain producers marketing cards between sales. A warehouse shall be eligible to retain producer marketing cards between sales if the operator thereof shall:

(1) Execute and file on a form approved by FSA a written request with the State FSA committee (or county FSA committee if designated by the State FSA committee).

(2) Agree to be responsible to FSA for an amount of money equal to that amount that may be assessed against any producer as marketing quota penalties, if the marketing that is the basis of assessment of penalty occurred while the warehouse was authorized to have custody of the marketing card, for:

(i) Burley or flue-cured tobacco for any overmarketing resulting from errors made at the warehouse in entering “balance after sale” pounds on the producer’s marketing card or failure to deduct pounds sold on producer’s marketing card.

(ii) Tobacco falsely identified for marketing by use of the producer’s marketing card.

(iii) Producer’s failure to account for any tobacco marketed by use of the producer’s marketing card.

(iv) Any burley or flue-cured tobacco marketed at the warehouse in excess of 103 percent of quota as shown on the producer’s marketing card.

(3) Agree to maintain an accurate and up-to-date journal containing a listing of all producer marketing cards retained by the warehouse to facilitate the scheduling of farmer’s tobacco. The journal shall show for each card retained the:

(1) Name of the operator;

(ii) Serial number of farm;

(iii) Marketing card number, if applicable;

(iv) Date marketing card obtained from producer; and

(v) Date marketing card returned to producer.

Such journals shall be maintained for the length of time and under the conditions required for other warehouse records.

(4) Agree to return the marketing card to the producer at any time the producer may so request, or in the absence of a request, return it to the producer within 7 days after the close of the warehouse for the season.

(5) Agree that this authorization may be terminated by FSA for failure to comply with provisions of this agreement.

(c) Penalties considered to be the responsibility of warehouse operators. Notwithstanding any other provision of this part, a warehouse operator who executes and files a written request with the State FSA committee (or county FSA committee if designated by the State FSA committee) for authorization to retain producer’s marketing cards at the warehouse, with grower permission, shall be responsible to FSA for an amount of money equal to the amount that may be assessed against the producer as marketing quota penalties if the marketing that is the basis of such assessment occurred while the warehouse was authorized to have custody of the marketing card, for:

(1) Any burley or flue-cured tobacco overmarketings resulting from errors made at the warehouse in entering “balance after sale” pounds on the producer’s marketing card or failure to deduct pounds sold on the producer’s marketing card. However, the warehouse operator shall not be responsible for any penalty under this subparagraph, if such penalty would not have been assessed against
§ 723.403 the producer in accordance with § 723.409(e) of this part.

(2) Tobacco falsely identified for marketing by use of the producer’s marketing card.

(3) Producer’s failure to account for any tobacco marketed by use of such producer’s marketing card.

(4) With respect to burley or flue-cured producers, tobacco marketed at the warehouse in excess of 103 percent of quota as shown on the producer’s marketing card.

§ 723.403 Auction warehouse operators’ records and reports.

(a) Report on Form MQ–78, Tobacco Warehouse organization. Each warehouse operator shall annually, prior to opening of auction markets, furnish FSA an executed Form MQ–78 showing:

(1) Form of business organization.

(2) Names and addresses of warehouse officials and bookkeeper.

(3) Names and addresses of other warehouses in which the officials and bookkeepers have a financial interest.

(4) Names and addresses of custodians of warehouse records, including their location.

(b) Separate records and reports. Each auction warehouse operator shall keep the records and make the reports separately for each quota or nonquota kind of tobacco as provided in this section.

(c) Record of marketing. Each warehouse operator shall:

(1) Auction or nonauction sale. Keep such records as will enable the warehouse operator to furnish the following information to State FSA office with respect to each sale of tobacco made at such person’s warehouse:

(i) The name of the operator of the farm on which the tobacco was produced and the name of the producer, in the case of a sale by a producer.

(ii) The name of the seller in the case of a resale.

(iii) Date of sale.

(iv) Number of pounds sold.

(v) Amount of any penalty and the amount of any deduction for such penalty from the price paid the producer.

(vi) With respect to each individual lot of tobacco constituting an auction sale, the:

(A) Name of purchaser.

(B) Number of pounds sold.

(C) Gross sale price.

(2) Separate account records. Maintain records of all purchases and resales of tobacco by the warehouse operator to show a separate account for:

(i) Nonauction purchases by or on behalf of the warehouse operator of farmer-owned tobacco.

(ii) Purchases and resales of:

(A) Leaf account tobacco.

(e) Identification of tobacco for marketing—

(1) Marketing card. Each marketing of tobacco from a farm in any State for which a farm marketing quota has been established for any kind of tobacco shall be identified by a marketing card issued for the farm on which such tobacco was produced (unless prior to the marketing of such tobacco an AMS inspection certificate is obtained showing that the tobacco offered for sale is a kind of tobacco not subject to marketing quotas).

(2) Recording farm identification. For burley or flue-cured tobacco, at the time the tobacco is weighed in, the warehouse operator shall record on the tobacco sale bill, the State and county codes and the farm serial number from the marketing card issued for the farm from which the tobacco is to be marketed.

(3) Return of marketing card. For tobacco that is to be sold at auction, the warehouse operator shall retain the marketing card until the producer has been paid for the sale of the tobacco or the tobacco is removed from the warehouse by the producer at which time the marketing card shall be returned to the producer. In any case where a producer’s marketing card is found in the possession of a warehouse operator, and no producer on the farm for which the card is issued has tobacco on the floor for sale, or tobacco for which settlement is not yet completed, such card will be picked up by an FSA representative for return to the producer. The warehouse operator shall be responsible for the safekeeping and proper use of the marketing card during such person’s retention of the marketing card.

(4) No price support. For burley or flue-cured tobacco, if tobacco is to be marketed at auction from a farm for which a marketing card is issued bearing the notation “No Price Support”, the warehouse operator shall enter the same notation on the tobacco sale bill at the time the tobacco is weighed in for sale. The warehouse operator shall prepare a separate tobacco sale bill to cover any tobacco which represents more than 103 percent of the effective farm marketing quota and the notation “No Price Support” shall be shown on such tobacco sale bill. The sale of such tobacco shall be considered a separate sale.

(5) Nonauction purchase. The warehouse operator shall enter the letters “NA” on each line of a tobacco sale bill on which there is recorded tobacco purchased by or for the warehouse at nonauction sale and shall record on all such tobacco sale bills:

(i) For burley or flue-cured tobacco, the farm serial number from the marketing card that is used to identify the tobacco at the time of the nonauction purchase.

(ii) For tobacco other than burley or flue-cured, the serial number of the marketing card that is used to identify the tobacco at the time of the nonauction purchase.

(6) Copy of sale bill. The warehouse operator shall furnish to the producer a copy of the tobacco sale bill bearing the letters “NA” for any lot of such tobacco purchased by the warehouse operator.

(7) Lot ticket. At the time tobacco is weighed for marketing, the warehouse operator shall record the weight of the lot of tobacco on the tobacco sale bill and on the lot ticket. The sale bill number on which the lot of tobacco is recorded shall be recorded on the lot ticket. If the marketing card which is presented to identify the tobacco at weigh-in bears the notation “No Price Support,” the same notation shall be entered by the warehouse operator on the lot ticket for each lot of tobacco which is identified with the same marketing card.

(8) Recording serial number of marketing card. For tobacco other than burley or flue-cured, before the tobacco is offered for sale, the warehouse operator shall record, on the sale bill, the serial number of the Form MQ-76 or MQ-77 issued for the farm from which the tobacco is to be marketed at auction.

(9) Recording sale bill number. For tobacco other than burley or flue-cured, the serial number of the sale bill shall be recorded:
§ 723.403

(10) Burley or flue-cured marketings. A marketing card used to cover a sale of burley or flue-cured tobacco shall show on the reverse side the poundage balance of the “103 percent of quota.”

(i) Auction sale. At the time of weighing the tobacco sale bill shall show the poundage balance of 103 percent of the farm’s quota. The tobacco sale bill shall show the pounds on which penalty is due, and the amount of penalty.

(ii) Nonauction sale to a warehouse operator at the warehouse. If the tobacco sale bill includes both an auction sale and a nonauction sale such combined pounds shall be used to compute and reflect the balance of the “103 percent of quota.” The tobacco sale bill shall show the pounds on which penalty is due and the amount of penalty.

(iii) Nonauction country purchase by a warehouse operator. The warehouse operator shall deduct, from the balance of the “103 percent of quota” entry on the marketing card, the pounds of tobacco purchased as a nonauction country purchase. In addition, each warehouse operator shall record on Form MQ-77 or MQ-76, the sale memo (front) shall be executed, including the signature of the producer on the reverse side.

When an MQ-77 is used a sale memo shall be executed, including the signature of the producer on the reverse side.

(b) Part of a delivery of a producer’s tobacco as a nonauction purchase, and the remainder of the tobacco is sold at auction, if such tobacco is identified by an MQ-76 the Record of Sales shall be completed to show the name and address of the warehouse, the date of sale, the sale bill number, check-mark under both auction and nonauction, and, under “Lbs. Sold,” the amount of penalty due, name and address of the warehouse, and the date of sale. In addition, the reverse side of the sale memo shall show the number of pounds sold at non-auction.

(f) Nonquota tobacco or quota tobacco of a different kind. If tobacco is presented for sale that is represented to be nonquota tobacco or should there be a question as to what kind of quota tobacco is being offered for sale, an inspection shall be obtained from the Agricultural Marketing Service of this Department (AMS) after the tobacco is weighed and in line for sale. The lot ticket for the tobacco shall be cross-referenced to the sale bill by sale bill number and date. The sale bill shall show the producer’s name and address and the State and county code and farm number of the farm on which the tobacco was produced. If an AMS inspection shows that a lot of tobacco is of a different kind than that identified by the lot ticket, such tobacco shall be deleted from the original sale bill and a revised sale bill prepared. Copies of the lot ticket and sale bill shall be furnished to the State FSA office at the end of the sale day.

(g) Labeling tobacco sale bill for resale tobacco. In the case of resales, each sale bill shall show “resale” and:

(2) When cleared, such suspended sale shall show “suspended-cleared” and date cleared. If a suspended sale is not cleared from suspension by the last auction sale day for the warehouse for the season (or for burley tobacco only, within 7 days of the sale if such date is earlier), it shall be considered a sale of excess tobacco and penalty at the full rate shall be remitted by the warehouse operator.

(i) Payee to be shown on auction warehouse check. Any auction warehouse which issues a check to cover the auction or nonauction sale of tobacco shall issue such check only in the name of the payee. A warehouse check shall not be issued in the name of the seller and bearer, for example “John Doe or Bearer.”

(j) Warehouse entries on other dealer’s reports. Each warehouse operator shall record, or have the dealer record, on a Form MQ–79 the total purchases and resales made by each such dealer or other warehouse operator during each sale day at the warehouse. Warehouse operators shall sign the Form MQ–79 on the same line as the transaction is recorded when a dealer resells tobacco at the warehouse. If any tobacco resold by the dealer and carried over by the dealer from a crop produced prior to the current crop, an entry shall be made on the MQ–79 to clearly show such fact.

(k) Warehouse data for burley or flue-cured tobacco. (1) Each operator of a burley or flue-cured tobacco auction warehouse shall prepare at the end of each sale day a report on MQ–80, Daily Warehouse Sales Summary, showing for each sale day:

(4) The warehouse operator shall furnish to the marketing recorder a copy of each executed MQ-80.

(5) Before the next marketing season begins, carryover tobacco reported by the warehouse operator as provided in paragraph (k)(3) of this section shall be reinspected by a representative of FSA.

(i) If the reinspection indicates an amount of carryover tobacco different from that amount determined by the initial inspection, the warehouse operator shall:

(A) Provide for the weighing of such tobacco which shall be witnessed by a representative of FSA.
(B) Furnish to such representative at the time of weighing a certification as to the actual weight of the tobacco.

(ii) If the FSA representative determines that the weight of the tobacco is different, by reweighing, than the amount reported on the initial certification, the initial weight, together with the reweighed quantity after taking into consideration any purchases and resales that occurred subsequent to the initial certification as provided in paragraph (k)(3) of this section, shall be used for the purpose of determining the amount of penalty, if penalty is due.

(iii) The reweighed quantity shall be the official pounds to be credited to the account as carryover tobacco.

(iv) If upon reinspection by a representative of FSA, there is an amount of tobacco determined to be damaged tobacco, the pounds of damaged tobacco shall be deducted from the purchase credit, if not done so previously, and no carryover credit shall be allowed for such damaged tobacco for the next marketing year.

(l) Warehouse data for tobacco other than burley or flue-cured. (1) Each operator of a tobacco auction warehouse, other than the operator of a burley or flue-cured auction warehouse, shall prepare and promptly forward at the end of each sale day to the State FSA office a report on MQ-80, Daily Auction

If the warehouse operator gains possession of the tobacco and it is resold by such warehouse operator, it shall be identified as resale tobacco.

(2) For burley and flue-cured tobacco:
(i) After each nonauction purchase, the dealer shall enter a declining balance of "103 percent of quota" on the reverse side of the marketing card. The declining balance shall be determined by reducing the previous "103 percent of quota" entry on the marketing card by the number of pounds of tobacco purchased. The date the tobacco was purchased also shall be entered on the marketing card at the time each lot of tobacco is purchased.
(ii) After each nonauction purchase, the dealer shall prepare a Form MQ–72–2 which shall set forth the following:

The dealer may deduct the producer’s share of each assessment from the price paid for the tobacco. However, the No Net Cost Assessment shall not be remitted from a producer who identifies the tobacco for marketing with a marketing card which has zero pounds as the 103 percent entry on the marketing card. A marketing penalty at the full rate shall be collected on the marketings identified by such card. The amount of the No Net Cost and the Tobacco Marketing Assessments which is applicable to tobacco marketed during each marketing year will be the amount per pound which is approved and announced by the Secretary.

(ii) For nonauction purchases which are made by the dealer from producers, the dealer shall remit the producer’s and the dealer’s share of the No Net Cost and Tobacco Marketing Assessments as provided in part 1464 of this title. The dealer may deduct the producer’s share of each assessment from the price paid for the tobacco. However, the No Net Cost Assessment shall not be remitted from a producer if the marketing card used to identify a kind of tobacco shows a converted penalty rate of 100 percent. A marketing penalty at the full rate shall be collected on the marketings identified by such card. After each transaction is entered on the Form MQ–79, each dealer shall enter a balance to reflect the pounds of tobacco remaining that may be sold without causing prior resales to exceed prior purchases. Any tobacco sold in excess of such balance shall be considered excess tobacco and subject to a marketing quota penalty at the full penalty rate. The purchaser shall sign the Form MQ–79 on the same line as the transaction is recorded by the dealer as provided in paragraph (d)(5) of this section.

(2) For all kinds of tobacco, each dealer shall keep a record and make reports on Form MQ–79 showing all purchases and resales of tobacco made by or for the dealer and, in the event of a purchase or resale of tobacco which is purchased by the dealer from a crop of tobacco produced prior to the current crop, the Form MQ–79 shall be annotated to indicate that such tobacco was so purchased and carried over from a crop produced prior to the current crop.

(3) A Form MQ–79 shall be prepared and a copy (together with executed copies of Form MQ–72–2 for all nonauction purchases of burley and flue-cured tobacco) shall be forwarded to the State FSA office not later than the end of the calendar week in which such tobacco was purchased or resold. However, if tobacco is purchased prior to the opening of the local auction market, the Form MQ–79 shall be prepared and a copy, together with executed copies of Form MQ–72–2 for all nonauction purchases, shall be forwarded to the State FSA office not later than the end of the calendar week which would include the first day of the local auction market where the resale takes place.

(4) The data to be entered on Form MQ–72–2 for nonauction purchases from a producer shall be the data which is enumerated in accordance with the provisions of paragraph (c)(2) of this section.

(5) At the end of the dealer’s marketing operation, but not later than April 1 for tobacco other than flue-cured and January 15 for flue-cured tobacco, such dealer shall for each kind of tobacco:

(ii) Report on such “final” MQ–79 for the season the quantity of tobacco on hand and its location,
(iii) Permit its inspection by a representative of FSA, and
(iv) Provide for weighing of such tobacco (to be witnessed by a representative of FSA) and furnish a certification as to the actual weight of such tobacco. After the weight of such tobacco has been determined as provided in this section, it shall be considered as the official weight for comparing purchases and resales for the purpose of determining the amount of penalty, if penalty is due.

(v) If upon inspection by a representative of FSA, there is an amount of tobacco determined to be damaged tobacco according to §723.104, such amount of pounds shall be deducted from the purchase credit and no carryover credit shall be allowed for such damaged tobacco for the next marketing year.

When the reinspection indicates an amount of carryover tobacco different from that amount determined by the initial inspection, the dealer shall provide for the weighing of such tobacco which shall be witnessed by an FSA representative. The dealer shall furnish to such representative at the time of weighing a certification as to the actual weight of such tobacco. If an FSA representative determines that the weight of the tobacco is different, by reweighing, than the amount reported on the initial weight together with the reweighed quantity after taking into consideration any purchases and resales that occurred subsequent to the initial certification as provided in paragraph (d)(5) of this section shall be used for the purpose of determining penalty, if penalty is due. Penalty shall be assessed, after the initial certification and reconciliation, when the redetermined pounds exceed the amount determined by taking the initial pounds of carryover tobacco plus purchases, minus resales. The redetermined pounds shall be the official pounds to be credited to the account as carryover. If upon reinspection by a representative of FSA, there is an amount of tobacco determined to be damaged tobacco under § 723.104, such amount of pounds shall be deducted from the purchase credit and no carryover credit shall be allowed for such damaged tobacco for the next marketing year.

(e) Daily report to warehouse operator for buyers correction account. Notwithstanding the provisions of § 723.405 of this part, reports shall be made as follows:

(1) Any dealer, buyer, or any other person receiving tobacco from or through a warehouse operator at an auction sale or otherwise, which is not invoiced to such person or which is incorrectly invoiced to such person by the warehouse operator, shall furnish to the warehouse operator on a daily sales basis an adjustment invoice or buyers settlement sheet.

(2) Each dealer who purchases tobacco on a warehouse floor for any sale day in which there is no adjustment required in the account as shown on the warehouse bill-out invoice for that sale day, shall file a negative report with the warehouse operator for that sale day.

(3) Such reports as required under paragraphs (d)(1) and (2) of this section shall be furnished daily, if practicable (otherwise, they shall be furnished at the end of each week), and shall show the identification number of the warehouse where the purchase was made.

(f) Reporting of processed tobacco. Any dealer who delivers tobacco to a firm for the purpose of redrying, processing or stemming of such tobacco shall, by the end of the week in which such tobacco was delivered, report to the State FSA office on MQ–79, Dealer’s Report:

(1) The date delivered;

(2) Name and address of the firm to which the tobacco was delivered; and

(3) Pounds of tobacco (green weight) delivered which shall be entered in the resales pounds column. Such tobacco
shall be considered as a resale on the date of delivery for the purpose of bal-
anci

ing the dealer account and collection of penalties where penalties are due.

(g) Tobacco represented to be a nonquota kind. Any dealer who plans to
purchase tobacco that was produced on a farm in a quota area shall treat such
tobacco as a quota kind of tobacco ac-
cording to the provisions of this part 723 unless prior to the purchase a cer-
tification is obtained from an AMS in-
spector to indicate that such tobacco is a nonquota kind of tobacco. In such
case, the dealer shall mail or otherwise
deliver to the State FSA office, on the
date of the purchase, a copy of the
AMS certification and a statement
signed by the AMS inspector, the pro-
ducer, and the dealer to indicate the:

(1) State and county code and farm
number of the farm on which the to-
bacco was produced.
(2) Name and address of the producer.
(3) Name and address of the dealer.
(4) Weight of the tobacco.

§ 723.405 Dealers exempt from regular
records and reports on MQ–79; and
season report for dealers.

(a) Any dealer or buyer who acquires
tobacco in the form in which tobacco
ordinarily is sold by farmers and re-
sells 5 percent or less of any such to-
bacco shall not be subject to the re-
quirements of §723.404 of this part ex-
cept for the requirements which relate
to the reporting of nonauction pur-
chases from producers and the require-
ments of §723.404(e) of this part. A deal-
er or buyer whose resales in the form
normally marketed by producers farm-
ers exceed 5 percent of their purchases
as a direct result of order buying for
another dealer for a service fee may re-
port under paragraph (b) of this section
in lieu of §723.404 of this part (except
for requirements which relate to non-
auction purchases from producers and
requirements of §723.404(e) of this part.

(b)(1) This paragraph is applicable
only to burley and flue-cured tobacco.
Each dealer or buyer shall make a re-
port to the Director, not later than
February 1 of each year for flue-cured
and April 1 for burley tobacco, showing
by States where acquired, source and
pounds of all tobacco, in the form nor-
mally marketed by producers, pur-
chased at auction or nonauction in-
cluding tobacco received which was not
billed to the dealer or buyer. Any ac-
quision of tobacco in the form nor-
mally marketed by producers by the
dealer or buyer during the marketing
year (October 1 through September 30
for burley tobacco and July 1 through
June 30 for flue-cured tobacco) which is
not included in the initial report shall
be reported in like manner no later
than the end of the calendar week fol-
lowing the week in which the tobacco
was acquired. The report shall show:

(2) For purchases at auction for each
warehouse;
(i) USDA registration number (ware-
house code),
(ii) Name and address of warehouse,
(iii) Gross pounds originally billed to
the buyer,
(iv) Gross pounds billed to the buyer
for which payment was made,
(v) Gross pounds from the company
correction account deducted for short
lots and short weights and returned
lots, and
(vi) Gross pounds from the company
correction account added for long lots
and long weights.

(3) For purchases at nonauction;
(i) Name and address of seller (dealer
or farmer),
(ii) Seller’s number (dealer’s registra-
tion number or farm number, including
State and county code), and
(iii) Pounds purchased.

§ 723.406 Provisions applicable to dam-
aged tobacco or to purchases of to-
bacco from processors or manufac-
turers.

(a) Damaged tobacco. Any dealer,
warehouse operator, or other person
who intends to purchase damaged to-
bacco shall notify the State FSA office
where the warehouse operator or dealer
is registered or should be registered.
Such report must be made at least 2
business days in advance of the pur-
chase so as to allow for inspection ar-
rangements to be made. The inspection
shall be conducted by an FSA rep-
resentative and no purchase credit

§ 723.407 Cigar tobacco buyer’s records and reports.

(a) This section is applicable to buyers of cigar tobacco—(1) Definition of cigar buyer. With respect to this section, a buyer is any person who buys cigar tobacco including an association or cooperation that receives tobacco from producers for the purpose of:

(i) Selling it for the producers, or

(ii) Placing it under price-support loan through Commodity Credit Corporation.

(2) Report of buyer’s name and address. Each buyer shall properly execute, detach, and promptly forward to the State FSA office, “Receipt for Buyer’s Record” contained in MQ-79 (CF&B), which is issued to the buyer.
§ 723.407

(b) Record of purchases. A buyer shall keep records which provide the following information for each lot of each kind of tobacco purchased or sold by the buyer, including tobacco obtained from grading tobacco for producers or furnishing curing space, or stripping space:

(1) The name of:
   (i) The operator of the farm on which the tobacco was produced; or
   (ii) The name and address of the seller, in the case of a sale by a person other than the farm operator.

(2) The identification number of the farm at/from which the tobacco was purchased.

(3) The date of purchase.

(4) The pounds of tobacco purchased.

(5) The gross purchase price.

(6) The amount of penalty.

(7) The amounts remitted for the No Net Cost and Tobacco Marketing Assessments.

(c) Report of sales. Each buyer shall maintain records which will show, by kind of tobacco, the disposition of tobacco purchased under paragraph (b) of this section.

(d) The dealer shall remit the producer’s and the dealer’s share of the No Net Cost and Tobacco Marketing Assessments as provided in part 1464 of this title. The dealer may deduct the producer’s share of each assessment from the price paid for the tobacco. The No Net Cost Assessment shall not be collected from a producer who identifies the tobacco for marketing with a marketing card which has a converted penalty rate of 100 percent on the marketing card. A marketing penalty at the full rate shall be collected on the space for the seller if other than the operator, the serial number of the marketing card (MQ–76), and the amount of penalty. If a marketing card is not presented by the producer, the buyer shall enter the word “None” in the space for the serial number of the marketing card (MQ–76), and the amount of penalty. If a marketing card is not presented by the producer, the buyer shall enter the word “None” in the space for the seller’s name.

(2) The original of MQ–79 (CF&B), excess sale memos (MQ–77), and a remittance for all penalties shown by entries on MQ–79 (CF&B) and on the excess sale memos (MQ–77) to be due shall be forwarded to the State FSA office not later than the 10th day of the calendar month next following the month during which the sale date occurred.

(3) In addition to forms MQ–79 and MQ–72–2, if applicable, form MQ–79 (Supplemental) shall be executed to record information relating to each nonauction purchase of tobacco for which the No Net Cost and Tobacco Marketing Assessments are due from producers and dealers. The form MQ–79 (Supplemental) shall be forwarded to the State FSA office at the same time as the purchase is reported on the MQ–79. A check, draft, or money order in the amount of the collections recorded on form MQ–79 (Supplemental) and made payable to Commodity Credit Corporation shall be submitted to the
§ 723.408 Producer’s records and reports.

(a) Failure to file reports or filing false reports. (1) With respect to any kind of tobacco, if the producer on a farm files an incomplete or incorrect report, fails to file a report, or files or aids or acquiesces in the filing of any false report with respect to the amount of such kind of tobacco produced on or marketed from the farm, applicable tobacco acreage allotment or burley farm marketing quota next established for such farm shall be reduced, unless the county and State FSA committees determine, according to instructions issued by the Deputy Administrator, that such reduction is not required.

(2) For all kinds of tobacco except burley tobacco, if a farm operator files a report of acreage of the applicable kind of tobacco on the farm and, after a determination of the acreage, it is determined by the county FSA committee (with approval of the State FSA committee) that the report was false (either significantly under reported or significantly over reported by more than the tolerance for reporting as provided in part 718 of this chapter) in what amounts to a scheme or device to defeat the purpose of the program, the allotment next established for such farm shall be reduced by an amount equivalent to the acreage from which more than one crop of tobacco was grown and harvested.

(c) False identification. If there is false identification of any kind of tobacco, the applicable farm acreage allotment or farm marketing quota next established for the farm and kind of tobacco involved shall be reduced, except that such reduction for any such farm shall not be made if the county and State FSA committees determine, according to instructions issued by the Deputy Administrator, that such reduction is not required.

(d) Report on marketing card. (1) The operator of each farm on which tobacco is produced shall return to the county FSA office each marketing card issued for the farm whenever marketings from the farm are completed and, in no event, later than, (i) June 1 of the marketing year in the case of cigar tobacco, and (ii) For all other kinds of tobacco, not later than 20 days after the close of the tobacco auction markets for the marketing year for the locality in which the farm is located. Failure to return the marketing card within 15 days after written request by certified mail from the county FSA executive director shall constitute failure to account for disposition of all tobacco marketed from the farm unless disposition of tobacco marketed from the farm is otherwise accounted for to the satisfaction of the county FSA committee.

(b) Harvesting second crop tobacco from the same farm. For all kinds of tobacco except burley, if in the same calendar year more than one crop of tobacco was grown from:

(1) The same tobacco plants, or

(2) Different tobacco plants, and is harvested for marketing from the same acreage of a farm, the acreage allotment next established for such farm shall be reduced by an amount determined by multiplying the acreage falsely reported (difference between reported and determined acreage) by:

(i) With respect to flue-cured tobacco, the farm yield established for the farm for the year in which the false report was filed, or

(ii) For any other kind of tobacco, the actual yield per acre for the year in which the false report was filed.

(3) Any report of a marketing of tobacco by a producer or any use of production marketing card to sell the tobacco or the pledge the tobacco for a price support loan shall be considered the filing of a false report by the producer and, in addition to other remedies as may apply, the remedies provided in paragraph (a)(1) of this section shall apply, if, under the provisions of part 1464 of this title, the producer was not considered to have been an “eligible producer” with respect to such marketing or other disposition of tobacco.
farm operator must certify with respect to each:

(A) MQ-77, to the quantity of tobacco on hand and its location.

(B) MQ-76, to the accuracy of the Record of Sales recorded on the card.

(ii) Failure of the farm operator to make the applicable certification shall constitute failure to satisfactorily account for the disposition of tobacco marketed from the farm.

(3) Upon failure to satisfactorily account to the county FSA committee for disposition of tobacco marketed from the farm the allotment or quota next established for such farm and such kind of tobacco shall be reduced, except that such reduction for any such farm shall not be made if it is established to the satisfaction of the county FSA committee and a representative of the State FSA committee that the failure to furnish such proof of disposition was unintentional and no producer on such farm could reasonably have been expected to furnish such proof of disposition. However, such failure will be construed as intentional unless such proof of disposition is furnished and payment of all additional penalty is made, or no person connected with such farm for the year for which the acreage allotment or quota is being established caused, aided, or acquiesced in the failure to furnish such proof.

(e) Report of production and disposition. (1) In addition to any other reports which may be required by this subpart, the operator or any producer on a farm (even though the harvested acreage does not exceed the acreage allotment or quota) shall, upon written request by certified mail from the State or county FSA committee, furnish on Form MQ-108-1, Report of Unmarketed Tobacco, a written report of the amount and location of the applicable kind of tobacco produced on the farm which is unmarketed at the end of the marketing season and the amount the applicable kind of tobacco produced by such operator or producer on any other farm, which is unmarketed at the end of the marketing season and which is stored on the farm, by sending the report to the county FSA committee within 15 days after the request was mailed to such person at such person’s last known address.

(3) Failure to file the MQ-108 or MQ-108–1 as requested, or the filing of MQ-108 or MQ-108–1 which is found by the State or county FSA committee to be incomplete or incorrect shall, to the extent that it involves tobacco produced on the farm, constitute failure to account for the disposition of tobacco produced on the farm and the allotment or quota next established for such farm shall be reduced, except that such reduction shall not be made if it is established to the satisfaction of the county or State FSA committee that failure to furnish such proof of disposition was unintentional and no producer on such farm could reasonably have been expected to furnish such proof of disposition: However, such failure will be construed as intentional unless such proof of disposition is furnished and payment of all additional penalty is
made, or no person connected with such farm for the year for which the farm acreage allotment or farm marketing quota is being established caused, aided, acquiesced in the failure to furnish such proof.

(f) Reports by producer-manufacturers.

(1) For all kinds of tobacco except burley and flue-cured tobacco, each producer who manufactures tobacco products from tobacco produced by or for such person as a producer, shall report to the State FSA office with respect to each farm on which such tobacco is produced and as soon as all tobacco from the farm has been weighed as follows:

(i) If the harvested acreage is within the allotment, the producer-manufacturer shall report the total pounds of tobacco produced, the date(s) on which such tobacco was weighed, the farm serial number of the farm on which it was produced, and the estimated value of such tobacco.

(ii) If the harvested acreage is in excess of the allotment, the producer-manufacturer shall report the total pounds of tobacco produced on the farm, the date(s) on which the tobacco was weighed, the farm serial number of the farm on which it was produced, the estimated value of the tobacco, and the location of the tobacco. If the required reports are not made, penalty shall be paid on the tobacco by the producer-manufacturer, at the converted rate of penalty shown on the marketing card issued for the farm, when it is moved from the place where it can be conveniently inspected by the county FSA committee at any time separate and apart from any other tobacco.

(2) If the producer-manufacturer has excess tobacco and does not pay the penalty thereon at the converted rate of penalty shown on the marketing card, such producer-manufacturer shall notify in writing the buyer of the manufactured product or the buyer of any residue resulting from processing the tobacco, at time of sale of such product or residue, of the precise amount of penalty due on such manufactured product or residue. In such event, the producer-manufacturer shall immediately notify the State FSA executive director a report on a form to be furnished by such State FSA executive director, showing the name and address of the buyer of the manufactured products or residue, a detailed account of the disposition of such tobacco and the exact amounts of penalty due with respect to each such sale of such products or residue to indicate, together with copies of the written notice that was given to the buyer of such products or residue to indicate the exact amount of the penalty due.

3 Failure to file the report required in paragraph (f)(2) of this section, or the filing of a report which is found by the State FSA committee to be incomplete or incorrect, shall be considered failure of the producer-manufacturer to account for the disposition of tobacco produced on the farm and the allotment next established for the farm shall be reduced for such failure, except that such reduction for any such farm shall not be made if it is established to the satisfaction of the county and State FSA committees, that:

(i) The failure to furnish such report of disposition was unintentional and the producer-manufacturer on such farm could not reasonably have been expected to furnish such report of disposition. However such failure will be construed as intentional unless such report of disposition is furnished and payment of all additional penalty is made, or

(ii) No person connected with such farm for the year for which the allotment is being established caused, aided, or acquiesced in the failure to furnish such report. The producer-manufacturer shall be liable for the payment of penalty.

(g) Amount of allotment or quota reductions—(1) Burley tobacco. For burley tobacco, the farm marketing quota determined for a farm for the current year shall be reduced by that amount of tobacco which is involved in a marketing quota violation as described in paragraphs (a), (b), (c), (d), or (e), of this section which occurred in any prior year. However, the amount of such reduction shall not exceed the current year farm marketing quota. The county FSA committee shall determine the amount of tobacco involved in the marketing quota violation. If the actual
quantity of tobacco involved in such violation is unknown, the county FSA committee shall determine the quantity by considering both the condition of the crop during production, if known, and such other information as is available.

(2) Kinds of tobacco except burley tobacco. The amount of reduction in the allotment for the current year for a violation described in paragraphs (a), (c), (d), (e), or (f) of this section shall be that percentage, but not to exceed 100 percent, which the amount of the tobacco involved in the violation is of the respective farm marketing quota for the farm for the year in which the violation occurred times the current year farm acreage allotment. The quantity of tobacco in violation shall be determined by the county FSA committee. If known, the actual quantity shall be determined by the county FSA committee to be the amount of tobacco involved in the violation. If the actual quantity is unknown, determine the quantity by taking into consideration the condition of the crop during production, if known, and such other information that is available.

(h) Allotment or quota reduction for combined farms. If the farm involved in the violation is combined with another farm prior to the reduction, the allotment or quota reduction shall be applied as heretofore provided in this section to that portion of the farm acreage allotment or farm marketing quota for which a reduction is required.

(i) Allotment or quota reduction for divided farms. If the farm involved in the violation has been divided prior to the reduction, the reduction shall be applied as heretofore provided in this section to the allotments or quota for the divided farms required to be reduced.

(j) Quota reductions for flue-cured tobacco. For flue-cured tobacco only, if an acreage allotment reduction is made under this section, the marketing quota shall be reduced to reflect such reduction in an amount determined by multiplying the acreage reduction by the farm yield.

(k) County administrative hearing in connection with violations. Except for the failure to return a marketing card, the allotment or quota for any farm shall not be reduced for a violation under this section until the operator of the farm has been afforded an opportunity to discuss the nature and extent of the violation with the county FSA committee. If after having been afforded an opportunity to discuss a violation with the county FSA committee the farm operator fails or refused to discuss the violation, the county FSA committee shall take action as required by this part.

(l) Sequence of allotment or quota reductions. For burley and flue-cured tobacco, if the tobacco farm acreage allotment or farm marketing quota for a farm is to be reduced in the current year because of both:

(1) A violation, and

(2) Overmarketings in a prior year, the reduction in the farm acreage allotment or farm marketing quota for the violation shall be made before making the reduction for overmarketings.

(m) Correction of farm records. For burley and flue-cured tobacco, where farm data for actual marketings are determined to be incorrect because of a violation, the records shall be corrected for each farm on which the tobacco was produced, and for each farm whose card was used to identify marketings.

(n) Report on Form MQ–92, Estimate of Production. An estimate of production, Form MQ–92, shall be prepared immediately prior to harvest for each farm for which the county or State FSA committee or a representative of the county or State FSA committee believes than an MQ–92 for the farm would be in the best interests of the program. The county FSA committee shall have the authority to visit any farm for the purpose of making an estimate of production or determination of planted acreage needed to complete an estimate of production.

(o) Effect of false identification on establishing future farm marketing quotas. Notwithstanding any other provision of this section, with respect to burley or flue-cured tobacco, if a producer falsely identifies such tobacco as having been produced on or marketed from a farm, the quantity of the tobacco which is falsely identified shall be considered, for the purpose of establishing future farm marketing quotas, as having been
§ 723.409
producer on both the farm for which it was identified as having been produced, and the farm of actual production, if known, or, as the case may be, such quantity of tobacco shall be considered as actually marketed from the farm.

§ 723.409 Producer violations, penalties, false identification collections and remittances by dealers, buyers, handlers, warehouses, and other parties; related issues.

(a) Generally—(1) Circumstances in which penalties are due. A penalty shall be due on all marketings from a farm which are:
   (i) In excess of the applicable quota or allotment;
   (ii) Made without a valid marketing card;
   (iii) Made under circumstances where a buyer or dealer, or their agents, know, or have reason to know, that the tobacco was, or is, marketed in a manner which by itself or in combination with other marketings is designed to, or has the effect of, defeating the purposes of the tobacco price support and production adjustment program, avoiding marketing quota limitations, or otherwise avoiding provisions of this part or part 1464 of this title;
   (iv) Falsely identified; or,
   (v) Marketings for which the producer or other party fails to make a proper account as required by the provisions of this part.

(2) Amount of the penalty. The amount of the penalty shall be the amount computed by multiplying the penalty rate by the penalty quantity.

(3) Penalty rate. The penalty rate for purposes of this section is that rate which is computed as the penalty rate per pound for the applicable kind of tobacco under §723.308, except to the extent that a converted penalty rate may be used as provided for in this section.

(4) Penalty quantity. The penalty quantity for purposes of this section shall be the amount of marketings from the farm in excess of 103 percent of the farm’s effective marketing quota for that year, except that if the violation involves false identification or a failure to account for tobacco, the FSA may, in its discretion, depending on the nature of the violations, use as the penalty quantity an amount up to 25 percent of the farm’s effective marketing quota plus 100 percent of the farm yield on any excess acreage for the farm (acreage planted in excess of the allotted acres, as estimated or determined).

(i) For tobacco other than burley and flue-cured tobacco, the penalty quantity shall be the amount of marketings from the farm in excess of the farm’s marketing quota provided further, that in order to aid in the collection of the penalty the FSA may endeavor, to the extent practicable, to apply the penalty to all of the farm’s marketing by converting the full penalty rate to a converted proportionate penalty rate which rate may be identified on the producer’s marketing card and collected and remitted accordingly. In making the calculation of the converted penalty rate, the agency shall take into account any carryover tobacco applicable for the farm. If an erroneous penalty rate is shown on the marketing card, then the producer of the tobacco and the producer who marketed the tobacco shall be liable for any balance due.

(5) Limitations on reduced penalty quantities. No penalty shall be assessed at less than the maximum amount unless it is determined by the county FSA committee, with the concurrence of the State FSA committee, that all of the following exist with respect to such violation:
   (i) The violation was inadvertent and unintentional;
   (ii) All of the farm’s production has been accounted for and there are no excess marketings for which there are penalties outstanding;
   (iii) The records for all involved farms have been corrected to show the marketings involved; and
   (iv) The false identification or failure to account did not give the producer an advantage under the program.
(6) Effect of improper, invalid, deceptive or unaccounted for marketings on penalty quantity calculation. Any marketing made without a valid marketing card, falsely identified, or unaccounted for in accordance with the requirements of this part, or made under circumstances which are designed to, or have the effect of, defeating the purpose of the tobacco marketing quota and price support program, avoiding any limitation on marketings, avoiding a penalty, or avoiding compliance with, or the requirements of, any regulation under this part or under part 1464 of this title, shall be considered an excess marketing of tobacco. Further, such marketings shall, unless shown to the satisfaction of the county FSA committee to be otherwise, be considered, where relevant, to be in excess of 103 percent of the applicable marketing quota for the farm, and shall be subject to a penalty at the full penalty rate for each pound so marketed.

(7) Pledging of tobacco by an ineligible producer. In addition to any other circumstances in which a penalty may be assessed under this part, the marketing or pledging for a price support loan of any tobacco when the producer is not considered to be an “eligible producer” under the provisions of part 1464 of this title, shall be considered to be a false identification of tobacco and shall be dealt with accordingly. This remedy shall be in addition to all others as may apply.

(8) Failures to make certain reports. If any producer who manufactures tobacco products from tobacco produced by such person or another fails to make the report required by §723.408(f) or otherwise required by this part, or makes a false report, such producer shall be deemed to have failed to account for the disposition of tobacco produced on the farm(s) involved. The filing of a report by a producer under §723.408 of this part which the State FSA committee finds to be incomplete or incorrect shall constitute a failure to account for the disposition of tobacco produced on the farm.

(b) Special provisions for tobacco buyers, dealers, handlers, warehouse operators and others who acquire, handle, or facilitate the marketing of tobacco. Notwithstanding the provisions of paragraph (a) of this section and other provisions of this part:

(1) Unless such amount has been remitted by another in accord with the provisions of this part, a dealer, buyer, warehouse operator or other person handling tobacco shall collect, and remit to FSA, an amount equal to the full penalty rate provided for in §723.208 times the quantity of tobacco involved where the tobacco is not identified with a valid producer or dealer card, the tobacco is sold under suspicious circumstances, or when there is reason to suspect that the tobacco may be subject to a penalty for any reason or may be marketed in derogation of the goals and purposes of the tobacco support program. For purposes of the preceding sentence “handling” shall include any services provided with respect to the tobacco, and any facilitation of the marketing of tobacco regardless of the level or amount of contact, if any, that the party may actually have with the tobacco.

(2) The amount of the penalty required to be collected may be deducted from the proceeds due a seller and all parties chargeable under paragraph (b)(1) of this section shall be jointly and severally liable for insuring that the monies are remitted to FSA except to the extent that the Director shall allow for an exemption to facilitate the marketing of tobacco, or for some other reason.

(3) The collection and remittance of penalty shall be in addition to any other obligations that such person may have to collect other amounts, including other penalties or assessments due on such marketings.

(4) If a penalty is collected and remitted by a buyer, dealer, or warehouse operator that is shown not to be due or only partially due, then the overpayment shall be refunded to the appropriate party. It is the responsibility of the person that collected the penalty and the person that sold the tobacco involved to show to the satisfaction of the FSA that such penalty is not due in the full amount collected.

(c) Canceled allotment or quota. If part or all of the tobacco produced on a farm has been marketed and the farm acreage allotment or farm marketing quota for the farm is canceled, any
penalty due on the marketings shall be paid by the producers.

(d) Overmarketing proportionate share of effective farm marketing quota-burley or flue-cured tobacco. With respect to burley or flue cured tobacco, if the county FSA committee determines that the farm operator or another producer on the farm has marketed more than 103 percent of such operator’s or producer’s share of the effective farm marketing quota with intent to deprive some other producer on the farm from marketing such producer’s proportionate share of the same crop of tobacco, such operator or other producer shall be liable for marketing penalties at the full rate per pound for each pound of tobacco marketed above 103 percent of such producer’s share of the effective farm marketing quota. However, the sum of such penalties shall not exceed the total penalties due on total marketings above 103 percent of the effective farm marketing quota for the farm on which such tobacco was produced. Before assessment of penalty pursuant to this paragraph, a hearing shall be scheduled by the county FSA committee and the operator and affected producers shall be invited to be present, or to be represented, to determine whether the operator or another producer on the farm has marketed more than 103 percent of such person’s proportionate share of the effective farm marketing quota. The notice of the hearing shall request the farm operator and affected producers to bring to the hearing floor sheets and other relevant supporting documents. At least two members of the county FSA committee shall be present at the hearing. The hearing shall be held at the time and place named in the notice and any action taken to impose penalty shall be taken after the hearing. If the farm operator or other affected producer does not attend the hearing, or is not represented, the county FSA committee shall make a determination on the basis of available records and shall assess any penalties that may be required against the applicable person.

(e) Penalties not to be assessed-burley or flue-cured tobacco. With respect to burley or flue-cured tobacco, if the operator or another producer on the farm markets a quantity of tobacco above 103 percent of the effective farm marketing quota for the farm and such overage is found to have been caused by the failure to record or improper recording of tobacco poundage data on the marketing card, that amount of the penalty as was due to such failure to record or improper recording will not be required to be paid by the farm operator or other producer if:

(1) For amounts of $100 or less, the county FSA committee, and

(2) For amounts over $100, the county FSA committee with approval of the State FSA committee determines that each of the following conditions is applicable:

(i) The failure to record or incorrect recording resulted from action or inaction of a marketing recorder or another FSA employee, and

(ii) The farm operator or another producer on the farm had no knowledge of such failure or error. Overmarketings for a farm for which the marketing penalty will not be paid pursuant to the provisions of this paragraph shall be determined based upon the correct effective farm marketing quota and correct actual marketings of tobacco from the farm.

(f) Refusal to contribute required assessments. A marketing penalty at the full rate per pound is due on each pound of tobacco marketed from a farm when the farm operator or producers refuse to pay no-net-cost or marketing assessments as provided in part 1464 of this title. In all such cases, the farm from which the tobacco has been produced shall be considered to have a marketing quota of zero pounds and an allotment of zero acres.

and flue-cured tobacco, any first marketing of tobacco at an auction sale by a producer which is not identified by a valid marketing card at the time of marketing shall be considered to be a marketing of excess tobacco and the penalty thereon shall be collected and remitted by the warehouse operator unless prior to marketing, an AMS inspection certificate is obtained showing that the tobacco is of a kind not subject to marketing quotas.

(b) Auction sale without dark air-cured, fire-cured, or Virginia sun-cured tobacco marketing card. For dark air-cured, fire-cured, or Virginia sun-cured tobacco, any first marketing of tobacco at an auction sale by a producer which is not identified by a valid marketing card (MQ-76 or MQ-77 (including sale memo)) on or before the last warehouse sale day of the marketing season, or within 4 weeks following the date of marketing, whichever comes first, shall be identified by an MQ-82, and shall be presumed, subject to rebuttal, to be a marketing of excess tobacco. The penalty thereon shall be paid by the warehouse operator.

(c) Burley or flue-cured tobacco non-auction sale. For burley and flue-cured tobacco, any nonauction marketing of tobacco which:

(1) Is not identified by a valid marketing card and recorded at the time of marketing on MQ-79, Dealer's Report, the marketing card, and MQ-72-2, Report of Tobacco Nonauction Purchase; or

(2) If purchased prior to the opening of the local auction market for the current year, is not identified by an MQ-76 or MQ-77 (including a valid sale memo) and recorded on MQ-79 not later than the end of the calendar week which includes the first day of the local auction markets, shall be presumed, subject to rebuttal, to be a marketing of excess tobacco. The penalty thereon shall be paid by the purchaser of such tobacco.

(e) Failure to obtain an MQ-76 and sale memo, and failure to record a sale on MQ-76-cigar tobacco. Any sale of cigar tobacco for which a dealer:

(1) If within quota, fails to record the sale on the marketing card issued for the farm, or

(2) If the tobacco was produced on a farm for which an excess marketing card was issued, fails to obtain a valid sale memo by the end of the sale date, shall be presumed, subject to rebuttal, to be a marketing of excess tobacco. The penalty thereon shall be paid by the buyer who fails to make the required record.

(f) Leaf account tobacco. If warehouse resales exceed prior leaf account purchases, such marketings shall be considered to be a marketing of excess tobacco unless such warehouse operator furnishes evidence acceptable to the State FSA committee showing that such marketing is not a marketing of excess tobacco. However, evidence acceptable to the State FSA committee shall not be based on the warehouse operator's proof of purchase of tobacco that is not in the form normally marketed by producers even though such evidence indicates that resales exceed prior leaf account purchases as a result of the blending of tobacco, which was not in the form normally marketed by producers, with the warehouse operator's prior purchases of leaf account tobacco.
§ 723.410  7 CFR Ch. VII (1–1–02 Edition)

(g) Dealer tobacco—burley and flue-cured. The burley or flue-cured tobacco resales by a dealer (as shown or due to be shown on Form MQ–79), which are in excess of such dealer’s total prior purchases of the respective kind of tobacco shall be considered to be a marketing of excess tobacco and penalty thereon shall be due at the time the marketing takes place which results in the excess. If the resale which results in penalty being due is made at auction, the warehouse shall deduct the penalty from the proceeds of the sale and shall remit the penalty to the marketing recorder. If the resale which results in penalty being due is made at nonauction, the purchaser shall deduct the penalty from the proceeds of the sale and shall remit the penalty to the applicable State FSA office.

(h) Resales not reported. Any resale of tobacco which is required to be reported by a warehouse operator or dealer, but which is not reported within the time and in the manner required, shall be considered to be a marketing of excess tobacco, unless and until such warehouse operator or dealer furnishes proof of such resale which is acceptable to the State FSA executive director. The penalty thereon shall be paid by the warehouse operator or dealer who fails to make the report as required.

(i) Marketing falsely identified by a person other than the producer of the tobacco. If any marketing of tobacco by a person other than the producer is identified by a marketing card other than the marketing card issued for the farm on which the tobacco was produced, and the source of production of the tobacco is unknown, such marketing shall be presumed, subject to rebuttal, to be a marketing of excess tobacco. The marketing quota penalty shall be paid by the person who marketed the tobacco.

(j) Carryover tobacco, except cigar tobacco. Any tobacco on hand, except for cigar tobacco, and reported or due to be reported under §§723.403 of this part for warehouse operators and §§723.404 of this part for dealers shall be included as a resale in determining whether an account for a kind of tobacco has excess resales. Unless the warehouse operator furnishes proof acceptable to the State FSA committee and unless the dealer furnishes proof acceptable to the State FSA executive director, showing that such account does not represent excess tobacco, penalty at the full rate for the respective kind of tobacco shall be paid thereon by such warehouse operator or dealer.

(k) Unrecorded sale of cigar tobacco. Any sale of cigar tobacco which is not recorded on MQ–79 (CF&B), Buyer’s Record Book, by the 10th day of the month following the month during which the sale dated occurred shall be presumed, subject to rebuttal, to be a marketing of excess tobacco. The penalty thereon shall be paid by the buyer who fails to make the record.

(l) Floor sweepings. Any person who markets floor sweepings in excess of allowable floor sweepings shall be subject to a civil penalty of 150 percent of the average market price for the immediately preceding marketing year, as determined by the U.S. Department of Agriculture. The calculated penalty rate shall be rounded to the nearest whole cent. Any floor sweepings on hand more than 30 days (15 days with respect to flue-cured tobacco) after the warehouse closes for the auction season shall be considered marketed. The floor sweepings on hand shall be weighed by the warehouse operator and the weight shall be certified by the warehouse operator, such weighing to be done in the presence of a representative of either the county FSA committee or State FSA committee. If the floor sweepings are destroyed in the presence of a representative of the county FSA committee, within 30 days (15 days with respect to flue-cured tobacco) after the warehouse closes shall not be considered as marketed when determining the quantity of floor sweepings marketed. If the county FSA committee determines, after the warehouse has been closed for the auction season for more than 30 days (15 days with respect to flue-cured tobacco), that the cumulative quantity of floor sweepings marketed and considered marketed in the current marketing year is in excess of the allowable floor sweepings, the person responsible for such marketings shall be given notice.
of the determination and shall be afforded an opportunity to request reconsideration of such determination in accordance with the provisions of part 780 of this chapter. A determination that a civil penalty is due for marketing floor sweepings in excess of the allowable floor sweepings shall not become final and shall not be assessed until such person has been afforded an opportunity for a hearing and such person has exhausted the applicable administrative remedies. The notice of assessment shall require such person to pay the civil penalty to the Farm Service Agency, USDA within 15 days after the mailing of the notice.

(m) Blending tobacco not in the form normally marketed by producers—burley and flue-cured tobacco. Tobacco purchased from processors or manufacturers that is considered not in the form normally marketed by producers that is blended with tobacco in the form normally marketed by producers shall not be credited as a purchase to the dealer’s or warehouse operator’s account by the State FSA committee when reconciling the warehouse operator’s leaf account or the dealer’s purchases and resales. Tobacco not in the form normally marketed by producers that is blended with other tobacco shall be deemed to be excess tobacco and penalty shall be due on the pounds of tobacco by which a warehouse operator’s or dealer’s resales exceed prior purchases.

(n) Advances and other cases in which the producer’s marketing card is used improperly. For tobacco of any kind to which this part applies, if tobacco is marketed by a person by using the producer’s marketing card or the tobacco is pledged for a price support loan by using that card, but under the provisions of part 1464 of this title, the producer is deemed to have not been an “eligible producer” with respect to the disposition of that tobacco at the time because of an advance or other preauction arrangement, such disposition of the tobacco shall be considered a false identification of the tobacco and may be considered to be a marketing of excess tobacco. In such cases, the person who paid the advance, took possession of the tobacco, or made the agreement with the producer which made the producer no longer an “eligible producer” with respect to the tobacco, shall be jointly and severally liable with the producer for any penalty with respect to such disposition which is levied against the producer under the provisions of this part and additionally, if such disposition is determined to be a marketing of excess tobacco, shall be liable for a penalty calculated by using the penalty rate for the tobacco involved multiplied by the pounds of tobacco involved. These remedies shall be in addition to any other remedies which may apply, including but not limited to, any liability for a refund of any price support loan advances which were paid in the name of, or for the account of, the producer of the tobacco.

§ 723.412 Separate records and reports from persons engaged in tobacco related businesses.

Any person who is required to keep any record or make any report as a warehouse operator, dealer, buyer, trucker, or as a person engaged in the hauling, processing, or storage of tobacco, and who is engaged in more than one such business, shall keep such records as will enable such person to make separate reports for each such business in which such person is engaged to the same extent for each such business as if the person were engaged in no other business.

§ 723.413 Length of time records and reports are to be kept.

Records to be kept and copies of the reports required to be made by any person under this subpart shall be on a marketing year basis and shall be retained for 3 years after the end of the marketing year. Records shall be kept for such longer period of time as may be requested in writing by the State FSA executive director, or the Director.

§ 723.414 Failure to keep records and make reports or making false report or record.

(a)(1) Failure to keep records and make reports. Under the provisions of section 373(a) of the Act, any warehouse operator, processor, buyer, dealer, trucker, or person engaged in the business of sorting, redrying, stemming, packing, or otherwise processing tobacco who fails to make any report or keep any record as required, or who makes any false report or record, is guilty of a misdemeanor, and upon conviction shall be subject to a fine of not more than $500 for each offense. In addition, any tobacco warehouse operator, dealer, or buyer who fails, upon being requested to do so, to remedy a violation by submitting complete reports and keeping accurate records shall be subject to an additional fine, not to exceed $5,000.

(2) False representation—warehouse operators, dealers, and processors. The
monetary penalties described in this part are in addition to penalties prescribed by other criminal statutes including 18 U.S.C. 231 which provides for a fine of not more than $10,000 or imprisonment for not more than 5 years, or both, for a person convicted of knowingly and willingly committing such acts as making a false acreage report, altering a marketing card, falsely identifying tobacco or buying and selling unused "103 percent of quota poundage" on marketing cards.

(c) Misrepresentation and scheme or device. A warehouse operator or dealer who is determined by FSA to have knowingly:

(1) Adopted any scheme or device which tends to defeat the purpose of the tobacco program.
(2) Made any fraudulent representation,
(3) Misused a MQ–76 or MQ–79–2, or
(4) Sold excess tobacco, shall pay a marketing quota penalty as prescribed in this part.

§ 723.415 Examination of records and reports.

For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining the information required to be furnished, in any report, but not so furnished, any warehouse operator, processor, dealer, buyer, trucker, or person engaged in the business of sorting, redrying, stemming, picking, or otherwise processing tobacco for producers, shall make available at one place for examination by representatives of the State FSA executive director and by employees of the Office of Investigation and Office of Audit, and of the Tobacco and Peanuts Division of the Farm Service Agency, U.S. Department of Agriculture upon written request by the State FSA executive director, all such books, papers, records, lot tickets, tobacco sale bills, buyer adjustment invoices, accounts, canceled checks, check register, check stubs, correspondence, contracts, documents, warehouse bill-out invoices or daily summary journal sheet, the tissue copy of Form MQ–72–1, Report of Tobacco Auction Sale, journal of producer marketing cards retained at warehouse and memoranda as the State FSA executive director has reason to believe are relevant and are within the control of such person.

§ 723.416 Information confidential.

All data reported to or acquired by the Secretary pursuant to the provisions of this subpart shall be kept confidential by all officers and community committees, and all county FSA office employees. Only such data so reported or acquired as the Deputy Administrator deems relevant shall be disclosed by them, and then only in a suit or administrative hearing under title III of the Act. The provisions of this section shall not be deemed to prohibit the issuance of general statements based upon the report of a number of parties which statements do not identify the information furnished by any person.

Subpart E—Establishing Burley and Flue-Cured Tobacco National Marketing Quotas

SOURCE: 63 FR 11583, Mar. 10, 1998, unless otherwise noted.

§ 723.501 Scope.

This subpart sets out regulations for setting annual national marketing quotas for burley and flue-cured tobacco based on the purchase intentions of certain manufacturers of cigarettes and on other factors. It also sets out penalty provisions for manufacturers who fail to purchase, within the tolerances set in this part, the amount of domestic tobacco, by kind, reflected in the stated intention as accounted for in accordance with this subpart.

§ 723.502 Definitions.

In addition to the definitions set forth at §723.104, the definitions set forth in this section shall be applicable for purposes of administering the provisions of this subpart.

CCC. The Commodity Credit Corporation, an instrumentality of the USDA.

Domestic manufacturer. A domestic manufacturer of cigarettes.

Domestic manufacturer of cigarettes. A manufacturer, who as determined by the Director, produces and sells more...
than 1 percent of the cigarettes produced and sold in the United States annually.

Price support inventory. The inventory of tobacco which, with respect to a particular kind of tobacco, has been pledged as collateral for a price support loan made by CCC through a producer-owned cooperative marketing association.

Producer owned cooperative marketing associations. Those associations or their successors, which by law act as agents for producers for price support loans for tobacco, and which were, as of January 1, 1986, for burley and flue-cured tobacco, the Burley Tobacco Growers Cooperative Association, the Burley Stabilization Corporation, and the Flue-Cured Tobacco Cooperative Stabilization Corporation.

Unmanufactured tobacco. Stemmed and unstemmed leaf tobacco, stems, trimmings, and scrap tobacco.

§723.503 Establishing the quotas.

(a) General. Subject to the 3-percent adjustment provided for in paragraph (b) of this section, the annual marketing quotas for burley and flue-cured tobacco shall be calculated for each marketing year for each kind separately as follows:

(1) Domestic manufacturer purchase intentions. First, for each kind and year, the Director shall calculate the aggregate relevant purchaser intentions as declared or set under this section.

(2) Exports. Next, the Director shall add to the total determined under paragraph (a)(1) of this section the amount which is equal to the Director’s determination of the average quantity of exported domestic leaf tobacco of the applicable kind for the past 3 marketing years. For this purpose, exports include unmanufactured tobacco only, including, but not limited to, stemmed and unstemmed leaf tobacco, stems, trimmings, and scrap tobacco, and excludes tobacco contained in manufactured products including, but not limited to, cigarettes, cigars, smoking tobacco, chewing tobacco, snuff and semi-processed bulk smoking tobacco. The quantity of exports for the most recent year, as needed, may be estimated.

(3) Reserve stock level adjustment. The Director may then adjust the total calculated by adding the sums of paragraphs (a)(1) and (a)(2) of this section, by making such adjustment which the Director, in his discretion, determines necessary to maintain inventory levels held by producer loan associations for burley and flue-cured tobacco at the reserve stock level. For burley tobacco, the reserve stock level for these purposes is the larger of 50 million pounds farm sales weight or 15 percent of the previous year’s national market quota. For flue-cured tobacco, the reserve stock level for these purposes is the larger of 100 million pounds farm sales weight or 15 percent of the previous year’s national market quota. Any adjustment under this clause shall be discretionary taking into account supply conditions; provided that for burley tobacco no downward adjustment under this clause may exceed the larger of 35 million pounds (farm sales weight) or 50 percent of the amount by which loan inventories exceed the reserve stock level. However, if for any of the 2001 and subsequent crops the uncommitted pool stocks of burley tobacco become equal to or less than the reserve stock level, then for that year and any subsequent year the limitation contained in the previous sentence on the amount of the downward adjustment in quota that may be made based on the reserve stock level, for that kind of tobacco, shall not apply.

(b) Additional 3-percent adjustment. The amount otherwise calculated under paragraph (a) of this section may be adjusted by the Director by 3 percent of the total. This adjustment is discretionary and may be made irrespective of whether any adjustment has been made under paragraph (a)(3) of this section and may be made to the extent the Director deems such an adjustment is in the best interest of the program.

(c) Dates of announcement. For flue-cured tobacco, the quota determination should be announced by December 15 preceding the marketing year. For burley, the announcement should be made by February 1 preceding the marketing year.

§ 723.504 Manufacturers’ intentions; penalties.

(a) Generally. Each domestic manufacturer shall, for each marketing year, for burley and flue-cured tobacco separately, submit a statement of its intended purchases of eligible tobacco by the date prescribed in paragraph (d) of this section; further, at the end of the marketing year, each such manufacturer shall submit a statement of its actual countable purchases of eligible tobacco for that marketing year, by kind, for burley and flue-cured tobacco. For these purposes, countable purchases of eligible tobacco shall be as defined in, and determined under, paragraph (b) of this section. If a domestic manufacturer fails to file a statement of intentions, the Director shall declare the amount which will be considered that manufacturer’s intentions for the marketing year. That declaration by the Director shall be based on the domestic manufacturer’s previous reports, or such other information as is deemed appropriate by the Director in the Director’s discretion. Notice of the amount so declared shall be forwarded to the domestic manufacturer. If the domestic manufacturer fails to file a year-end report or files an inaccurate or incomplete report, then the Director may deem that the manufacturer has no purchases to report or take such other action as the Director believes is appropriate to fulfill the goals of this section. Intentions and purchases of countable tobacco will be compared for purposes of determining whether a penalty is due from the domestic manufacturer.

(b) Eligible tobacco for statements of intentions and countable purchases toward those intentions. For reports and determinations under this section, eligible tobacco for purposes of determining the countable purchases under paragraph (a) of this section will be unmanufactured domestic tobacco of the relevant kind for use to manufacture, for the domestic or foreign consumption, cigarettes, semi-processed bulk smoking tobacco and other tobacco products. Eligible tobacco for these purposes does not include tobacco purchased for export as leaf tobacco, stems, trimmings, or scrap. Countable purchases of eligible tobacco shall include purchases of eligible tobacco made by domestic manufacturers directly from the producers, from a regular auction market, or from the price support loan inventory, and shall also include purchases by the manufacturer where the manufacturer purchases or acquires the tobacco from dealers or buyers who purchased the tobacco for the domestic manufacturer during the relevant marketing year directly from a producer, at a regular auction market, or from the price support loan inventory.

(c) Weight basis and nature of reports. The weight basis used for all reports and comparisons shall be a farm sales weight basis unless the Director permits otherwise and all reports will be considered to have been made on that basis unless the report clearly states otherwise. Submitted reports shall be assumed to cover countable purchases of eligible tobacco only, absent indications to the contrary.

(d) Due dates and addresses for reports. For flue-cured tobacco, the domestic manufacturer’s statement of intentions shall be submitted by December 1 before the marketing year and the year-end report shall be submitted by August 20 following the end of the marketing year. Those respective dates for burley tobacco shall be January 15 before the burley tobacco marketing year and November 20 after the burley tobacco marketing year. Reports shall be mailed or delivered to the Director, Tobacco and Peanuts Division, STOP 0514, 1400 Independence Avenue, SW, Washington, DC 20250–0514.

(e) Penalties. A domestic manufacturer shall be liable for a penalty equal to twice the purchaser’s no-net-cost assessment rate per pound for the applicable kind of tobacco for the relevant marketing year, if the manufacturer’s purchases of either burley or flue-cured tobacco for the marketing year do not equal or exceed, as determined by the Director, 90 percent of their stated purchase intentions for that kind of tobacco for the relevant marketing year. The Director shall adjust the domestic manufacturer’s intentions, however, to the extent, that producers have not produced the full amount of the national quota for the relevant marketing year for the particular kind of tobacco.
tobacco. The burden of establishing all purchases shall be with the domestic manufacturer and the Director may, in the case of indirect purchases for the manufacturer, require that the manufacturer obtain verification of the purchases by the dealer who made the purchase from the producer, at a regular auction market, or from the price support loan inventory, in order to assure that the tobacco is, to the manufacturer, a countable purchase. The Director may require such additional information as determined needed to enforce this subpart.

(f) Penalty notice and penalty remittance. Penalties will be assessed after notice and an opportunity for hearing before the Director. Remittances are to be made to the CCC and will be credited to the applicable producer loan association’s no-net-cost fund or account as provided for in part 1464 of this title.

(g) Maintenance and examination of records. Each domestic manufacturer shall keep all relevant records of purchases, by kind, of burley and flue-cured tobacco for a period of at least 3 years. The Director, Office of Inspector General, or other duly authorized representative of the United States may examine such records, receipts, computer files, or other information held by a domestic manufacturer that may be used to verify or audit such manufacturer’s reports. The reasonable cost of such examination or audit may be charged to the domestic manufacturer. All records examined or received under this part by officials of the Department of Agriculture shall be kept confidential to the extent required by law.

Considered produced credit. If the marketings of peanuts from a farm in the current year are less than such farm's basic quota, the credit granted in the current year (but not to exceed the basic quota established for the farm for the current year less the pounds of peanuts which were produced and marketed from the farm during the current marketing year) for the amount of one or more of the following as may apply:

Loan additional peanuts. Peanuts which are pledged as collateral for a price support loan at the applicable additional loan rate established by or for CCC.

Market. To dispose of peanuts (including farmers stock peanuts, shelled peanuts, cleaned peanuts, or peanuts in processed form) by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. The terms “marketed”, “marketing”, and “for market” shall have corresponding meanings to the term “market” in the connection in which they are used. The terms “barter” and “exchange” shall include the use of any quantity of peanuts by the producer as payment to another for any reason including payment for the harvesting, picking, threshing, cleaning, crushing, or shelling of peanuts, or for any other service rendered to the producer. Any lot of farmers stock peanuts will be considered as marketed when acquired from the producer. Peanuts which are delivered by the producer as collateral for, or in settlement of, a price support loan will be considered as marketed at the time of delivery. Delivery shall be deemed to have occurred when the peanuts are unloaded at the delivery point. Any peanuts produced on a farm which are retained on the farm after January 31, or such later date as may be established by the Executive Vice President, CCC, of the year following the year in which the peanuts were
produced shall be considered as marketed for domestic edible use as of January 31, or such later date.

*Marketing year.* The 12 month period beginning on August 1 of a current year in which the peanuts are grown and ending July 31 of the following year.

*National poundage quota.* The poundage quota announced by the Secretary for the relevant crop year.

*Nonquota farm.* A farm that does not have a basic quota greater than zero for the current year.

*Peanut quantity marketed or considered marketed.* With respect to a lot of farmers stock peanuts, the quantity of such peanuts that is marketed or considered marketed shall be:

(i) *Inspected peanuts.* For peanuts inspected by the Federal-State Inspection Service at the time of marketing, the gross weight of the lot less foreign material in the lot and less moisture in excess of 7 percent of gross weight for the lot.

(ii) *Noninspected peanuts.* For peanuts not inspected by the Federal-State Inspection Service at the time of marketing, the gross weight of the lot.

(iii) *Shelled peanuts.* For shelled peanuts marketed by a producer, the poundage of the shelled peanuts in the lot multiplied by a factor of 1.5.

(i) Any peanuts which were not dug;

(ii) Any dug peanuts not picked or threshed which are disposed of under the direction and supervision of FSA personnel; and

(iii) Green peanuts.

*Planted acreage.* The acreage on which peanuts were planted in a workmanlike manner determined in accordance with the provisions of part 718 of this chapter.

*Preliminary quota.* For the current year and an eligible farm, the basic quota established for the farm for the preceding year to the extent that the farm is not subject to a reduction in quota.

*Quota farm.* A farm having a basic quota greater than zero in the current year.

*Quota peanuts.* Peanuts (except green peanuts) which are marketed or considered marketed from a farm for domestic edible use. Quota peanuts shall be considered to be all peanuts which are dug on a farm except the following:

(i) Green peanuts;

(ii) Peanuts which are placed under loan at the additional loan rate and not redeemed by the producer;

(iii) Peanuts which are marketed in accordance with the requirements of this part as contract additional peanuts.

(iv) Peanuts considered marketed but because of conditions beyond the control of the producer had no commercial value as determined by the FSA at the time the peanuts were marketed.

*Seed sheller.* A person who in the course of such person’s usual business operations shells peanuts for use as seed for the subsequent year’s crop.

*Temporary seed quota.* Quota temporarily allocated for the current crop year only and in an amount determined by FSA to account for the amount of seed peanuts planted on the farm for production of peanuts, excluding green peanuts and peanuts produced under the one-acre exemption set forth in §729.306 of this part.

*Tillable cropland.* Cropland (excluding orchards, vineyards, land devoted to trees, and land being prepared for nonagricultural uses) which the county committee determines can be planted to crops without unusual preparation or cultivation.

*Yield per acre or actual yield.* The yield of peanuts for a farm for a crop year computed by dividing the total production of peanuts for the farm by the final acreage of peanuts for the farm.

§ 729.104 Administration.

(a) The regulations in this part will be administered under the general supervision of the Administrator, FSA, and shall be carried out in the field by State and county FSA committees.

(b) State and county committees, and representatives and employees thereof do not have the authority to modify or waive any of the provisions of the regulations of this part.

(c) The State committee:
§ 729.108 Request for reconsideration or appeal.

Any producer who is dissatisfied with a determination rendered by the county FSA committee under this part may file a request for reconsideration or appeal in accordance with part 780 of this chapter.

§ 729.109 Instructions and forms.

The Director shall cause to be prepared and issued such forms and instructions as are necessary for carrying out this subpart. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator.

Subpart B—Poundage Quotas, Notices of Quotas, Transfers, and Release and Reapportionment

§ 729.201 Apportionment of National poundage quota to States.

The national poundage quota for peanuts for each of the 1996 through 2002 crops less a reserve for the correction of errors shall be apportioned to States in the same proportion that the national poundage quota was allocated to farms in the State for the 1995 crop year. Accordingly, based on the poundage quota allocated to farms in the State for the 1995 crop year, 16 States shall share in the 1996 through 2002 national poundage quotas for peanuts and the following factors shall be used to allocate such quota to the respective States: Alabama—0.13445344, Arizona—0.0062508, Arkansas—0.0038229, California—0.004293, Florida—0.042752, Georgia—0.412912, Louisiana—0.000914, Mississippi—0.00379765, Missouri—0.00015357, New Mexico—0.0050694, North Carolina—0.1105213, Oklahoma—0.0677613, South Carolina—0.00735223, Tennessee—0.00042788, Texas—0.1318329, and Virginia—0.0791561.

§ 729.202 Reserve for corrections.

The Director, TPD, will hold a national reserve for purposes of correcting errors that are made in determining farm quotas. The Director will determine the reserve annually by multiplying the national quota announced by the Secretary by 0.0025. To the extent determined appropriate, the Director may authorize a State committee to correct any error in a farm’s quota.

[65 FR 247, Feb. 18, 2000]

§ 729.203 Quota not produced.

(a) Determining nonproduced quota.

For purposes of making a reduction in a farm’s basic quota when the quantity of peanuts produced and considered produced on such farm during any 2 or more years of the base period is less than the basic quota established for such farm for the respective year, the nonproduced quota shall be determined, for any year of the base period for which the sum of the farm’s produced and considered produced quota is less than such farm’s basic quota established for such year. The nonproduced quota shall be determined by subtracting the sum of the farm’s produced and considered produced quota for such year from the basic quota established for the farm for such year.

(b) Adjustment to nonproduced quota.

For purposes of determining basic quota for subsequent crop years, if the basic quota for a farm is reduced for nonproduction in accordance with this subpart, the nonproduced quota for the base period of the year of the reduction, as determined in accordance with paragraph (a) of this section, shall be adjusted downward by the amount that the basic quota was reduced. The adjustment shall be made in the nonproduced quota by starting with the year in which the nonproduced quantity was smallest during the most recent 2 years of that base period. If the nonproduced quota was equal in each of the most recent 2 years of that base period the adjustment shall begin with the most recent year of such 2 year period. If the nonproduced quota for the year the adjustment begins is less than the amount by which the farm’s basic quota was reduced for nonproduction, the adjustment to the nonproduced quota shall continue in the remaining year of the most recent 2 years of that base period until the nonproduced quota has been adjusted by an amount equal to the amount that the basic quota was reduced for nonproduction or until the nonproduced quota in each of the most recent 2 years of that base period has been reduced to zero.
§ 729.204 Temporary seed quota allocation.

(a) Applicability. The temporary allocation of quota pounds, as provided in this section shall be determined:

(1) For the marketing year only in which the crop is planted;

(2) For eligible producers for each of the 1996 through 2002 marketing years; and

(3) To exclude the production of green peanuts and peanuts produced under the one-acre exemption provided for in 7 CFR 729.306.

(b) Quantity of allocation. The temporary quota allocated to a producer shall be the farmers stock equivalent pounds of qualifying seed peanuts considered planted on the farm as determined by FSA by multiplying the acres determined planted to qualifying peanuts times the per-acre planting rates of:

(1) 95 pounds for Runner-type peanuts;

(2) 110 pounds for Virginia peanuts;

(3) 80 pounds for Spanish peanuts; and

(4) 80 pounds for Valencia peanuts.

(c) Conversion factor. For the purpose of determining the farmers stock basis for temporary seed quota allocations under this section, the amount of seed planted as determined in accord with paragraph (b) of this section shall be multiplied by a factor of 1.5.

(d) Time of notification. The notice of determination for temporary seed quota allocations shall be made by the Deputy Administrator as soon as practicable following the deadline for filing certifications of planted acres.

(e) Penalty for erroneous certification. If the certified acreage on which the temporary seed quota allocation is made is greater than the determined acreage, by more than the larger of 1 acre or 5 percent of the certified acreage not to exceed 10 acres, and the producer marketed the production for the acreage based upon an allocation of temporary seed quota on certified acres not determined, a penalty will be determined by multiplying the difference between the certified and determined acreage times the applicable per acre seeding rate times 140 percent of the per pound quota support rate for the applicable crop year. The penalty amount shall be calculated by multiplying the difference between the certified and determined peanut acreage by the applicable per acre seeding rate used in the calculation of the temporary seed quota by 140 percent of the applicable per pound quota support rate for the crop year involved. In addition, a commensurate penalty at the same rate may be assessed in cases within the tolerance allowed by the previous sentence in any instance in which the variance is determined to be due to a scheme or device to defeat the purposes of the program. Further, all errors may in all cases result in a commensurate diminution of the quota allowed the farm for the following year.

§ 729.205 Farms ineligible for farm poundage quota.

(a) Ineligible farms. Except for quota allocated under the provisions of §729.208 for experimental and research programs, effective beginning with the 1998 crop year, farm poundage quotas shall not be established for farms which are determined by FSA to be owned or controlled by:

(1) Municipalities, airport authorities, schools, colleges, refuges, and other public entities (other than a university used for research purposes).

(2) A person:

(i) Who is not a peanut producer; and

(ii) Whose primary domicile, as determined by FSA, in the case of any individual in a State outside the State in which the quota is allocated or, in the case of an entity, does not qualify under this section to be considered to be a resident of the State in which the quota is allocated.

(b) Determination of residency and related rules. (1) For purposes of administering paragraph (a) of this section, an entity may be considered a resident of the State in which the quota is located if:

(i) It is determined that a person or persons with at least a cumulative 20-percent interest in any such entity are individuals whose primary residence is in the State in which the quota is allocated; or
§ 729.206 Determining a farm’s basic quota.

(a) No change in State poundage quota. If the poundage quotas allocated to the State for the current year is the same as the State’s poundage quota for the preceding year, the current year’s basic quota for each quota farm in the State shall be the same as such farm’s preliminary quota for the current year.

(b) Increase in State poundage quota—

(1) Eligible farms. If the poundage quota allocated to a State for the current year is greater than the poundage quota allocated to such State for the preceding year, the amount of increase in the poundage quota shall be allocated proportionately, on the basis of each farm’s production history as determined under this part, among:

(i) All quota farms in the State.

(ii) All other farms in the State that were nonquota farms in the preceding year and on which peanuts were produced and marketed in at least 2 years of the base period.

(2) Factor. A factor shall be determined to apportion, to eligible farms, the increase in the State’s poundage quota. The factor shall be determined by dividing the amount of increase in the State poundage quota by the total of the farm production history for all eligible farms determined in accordance with paragraph (b)(1) of this section.

(3) Basic quota. The current year basic quota for each:

(i) Quota farm in the State shall be the preliminary quota plus an amount determined by multiplying the farm’s production history by the factor determined in accordance with paragraph (b)(2) of this section.

(ii) Eligible farm that was a nonquota farm in the preceding year shall be the result obtained by multiplying such farm’s production history by the factor determined in accordance with paragraph (b)(2) of this section.
(c) Decrease in State poundage quota. If the poundage quota allocated to a State for the current year is less than the poundage quota allocated to such State for the preceding year, the current year’s basic quota for each quota farm in the State shall be determined by multiplying the current year’s preliminary quota by a factor determined by dividing the State quota by the total of the current year’s preliminary quotas on all farms in the State.

(d) Reduction for nonproduction of quota—(1) Reconstitutions. If the farm resulted from a farm reconstitution during the base period, any reduction determined according to this paragraph for nonproduction of the basic quota shall be made separately for the individual tracts in the farm in such manner as the Deputy Administrator determines to be appropriate.

(2) Reduction amount. The current year’s basic quota otherwise determined for a farm in accordance with paragraph (a), (b), or (c) of this section shall be reduced if, with respect to any 2 years of the base period, the county committee determines that part, or all, of the basic quota for such farm was not produced or considered produced on the farm. The amount of the reduction shall be the sum of the two smallest quantities, including zero pounds if applicable, of nonproduced quota determined in accordance with this subpart for such farm during the base period.

(e) Reallocation of quota reduced or permanently released—(1) Eligible farms. The total of quotas permanently released and quotas reduced for nonproduction according to paragraph (d) of this section, hereinafter referred to as the State quota available for reallocation shall be reallocated to farms on which peanuts were produced and marketed in at least 2 years of the base period.

(2) Factor for reallocation of quotas. The factors for reallocations of the State quota available for reallocation shall be determined as follows:

(i) Determine State totals of farm production history separately for eligible:

(A) Quota farms.

(B) Nonquota farms.

(ii) If the totals of the farm production history from eligible quota farms is equal to or greater than 3 times the total of the farm production history from eligible nonquota farms, determine a factor by dividing the State quota available for reallocation by the sum of the separate State totals of farm production history from eligible quota and nonquota farms.

(iii) If paragraph (e)(2)(ii) of this section is not applicable, determine separate factors for eligible quota and nonquota farms as follows:

(A) For eligible quota farms, determine the factor by multiplying the State quota available for reallocation by .75 and dividing the result by the State total of the farm production history from eligible quota farms.

(B) For eligible nonquota farms, determine the factor by multiplying the State quota available for reallocation by .25 and dividing the result by the State total of farm production history from eligible nonquota farms.

(iv) Notwithstanding paragraphs (e)(2)(ii) and (iii) of this section, if the factor determined for a nonquota farm is greater than 0.3333 a factor of 0.3333 shall be used to reallocate to the nonquota farm such nonquota farm’s share of the State quota available for reallocation.

(3) Application of factor. The current year’s basic quota for each eligible farm determined according to paragraph (e)(1) of the section shall be determined by multiplying such farm’s production history by the applicable factor determined in accordance with paragraph (e)(2) of this section. If a current year’s basic quota otherwise has been determined for the farm in accordance with this section, the basic quota determined in accordance with this paragraph shall be added to any basic quota otherwise determined for such farm in accordance with this section.

(f) Reallocation in Texas of quota reduced for nonproduction and permanently released quota—(1) Special provisions for certain Texas Counties. Notwithstanding the provisions in paragraphs (b) and (e) of this section, all of the quota reduced for nonproduction on all Texas farms, except that portion reallocated to nonquota farms in accordance with paragraph (e) of this section, shall be reallocated to farms having 1990-crop...
§ 729.206  7 CFR Ch. VII (1–1–02 Edition)

basic quotas in any Texas county in which the production of additional peanuts in 1989 exceeded the total of 1989-crop basic quotas on all farms in such county. The production of additional peanuts in 1989 exceeded the total of 1989-crop basic quotas on all farms in each of the following Texas counties: Andrews, Bailey, Briscoe, Childress, Collingsworth, Dickens, Donley, Gaines, Hale, Hall, Hardeman, Haskell, Hidalgo, Hockley, Knox, Lamb, Terry, Wheeler, Wilbarger, and Yoakum counties.

(2) Allocation to counties. Any quota to be allocated to eligible Texas counties in accordance with paragraph (f)(1) of this section shall be apportioned to the eligible counties on the basis of the total production of additional peanuts in the respective counties for the 1988 crop. Accordingly, based on the production of additional peanuts in 1988, such quota shall be apportioned to eligible counties according to the following factors:

Andrews—0.005342, Bailey—0.003007, Briscoe—0.016039, Childress—0.008190, Collingsworth—0.184498, Dickens—0.000000, Donley—0.03 1981, Gaines—0.413627, Hale—0.006477, Hall—0.063101, Hardeman—0.010278, Haskell—0.137459, Hidalgo—0.008190, Hockley—0.000000, Knox—0.002818, Lamb—0.026475, Terry—0.000647, Wheeler—0.000679, Wilbarger—0.009885, and Yoakum—0.016039.

(3) Exception to allocation to counties. In that Gaines county is the only county listed in paragraph (f)(1) of this section for which the total of farm basic quotas exceeded 20,000,000 pounds for the 1989 crop of peanuts and the total of farm basic quotas in Gaines County for the 1989 crop was 22,853,615 pounds, if the cumulative increase in the basic quota for Gaines County, granted under any special rules for Texas under this section and its predecessor for the 1991 and subsequent crops exceeds 22,853,615 pounds, the amount in excess of 22,853,615 pounds shall, in accordance with the provisions of the authorizing legislation, be apportioned to the remainder of the counties listed in paragraph (f)(1) of this section on the basis of the total production of additional peanuts in the respective counties for the 1988 crop.

(4) Determining factor for reallocation of quota—(1) To receive a share of any quota allocated to eligible Texas counties under paragraph (f)(2) of this section, a farm must have had a basic quota greater than zero for the 1990 crop of peanuts. If a farm that had a basic quota greater than zero in 1990 is reconstituted subsequent to 1990:

(A) By division, the resulting farms will be considered to have had a basic quota greater than zero in 1990 for purposes of determining eligibility to receive a share of any quota allocated to eligible Texas counties under paragraph (f)(2) of this section.

(B) By combination, the resulting farm will not be considered to have had a basic quota greater than zero in 1990 for purposes of determining eligibility to receive a share of any quota allocated to eligible Texas counties under paragraph (f)(2) of this section unless, prior to the combination, each farm that is involved in the combination was considered to have had a basic quota greater than zero in 1990 for purposes of determining eligibility to receive an increased quota under paragraph (f)(2) of this section.

(ii) A farm allocation factor shall be determined for each eligible farm as follows:

(A) Using data from the year preceding the year for which the reallocation is being made, determine a factor by dividing the quantity of contract additional peanuts delivered to handlers from the farm by the total remaining peanuts marketed from the farm.

(B) Total all factors determined in accordance with paragraph (f)(4)(ii)(A) of this section.

(C) Except as may be determined by the Deputy Administrator to avoid schemes and devices in contravention of the purposes of this part to avoid inequities, the farm allocation factor shall be determined by dividing the factor determined in accordance with paragraph (f)(4)(ii)(A) of this section by the total determined in accordance with paragraph (f)(4)(ii)(B) of this section.

(5) Increase in basic quota. The basic quota otherwise determined for a farm in accordance with the provisions of this section shall be increased by an
Farm Service Agency, USDA

§729.207 Tenants sharing in increased quota.

(a) General. If the poundage quota allocated to a State is greater than the poundage quota allocated to such State for the preceding year, an eligible tenant who leased a part or all of a farm in any county in such State for the production of peanuts shall share equally with the farm owner, in accordance with the provisions in this section, in that quantity of basic quota that is allocated, as a result of the tenants production of additional peanuts on the farm during the base period to such farm, from the States increased poundage quota. Farms ineligible for quota allocation under § 729.205 do not receive a quota increase; therefore, the provisions of this section with respect to tenant share are not applicable to such farms.

(b) Eligible tenant. If a person leased part or all of a farm, and had a 100 percent producer interest in one or more fields of peanuts that were produced on such farm during the base period, and such farm’s basic quota is increased as a result of an increase in a State’s poundage quota, such person shall be considered as an eligible tenant on such farm and shall share in such increase in the farms basic quota if such person:

1. Ownership interest. Does not have any ownership interest in such farm;
2. Shared in previous year’s production of peanuts. Shared in the production of any peanuts produced on the farm in the crop year immediately preceding the crop year for which such increase in basic quota is granted;
3. Application for share of increase. Files an application at the county FSA office of the county in which such farm is located for administrative purposes, by February 15 of the crop year for which such increase in basic quota is granted, for a share of such increase;
4. Supporting proof. Provides supporting proof, that is acceptable to the county committee, of the quantity of additional peanuts produced on such farm by such person during each year of the base period.

(c) Tenant’s share of increase. An eligible tenant’s share of the increase in a farm’s basic quota shall be one half of an amount determined by multiplying the quantity of additional peanuts produced by such tenant and for which acceptable proof was provided in accordance with paragraph (b) of this section.

(d) Disposition of tenant’s share of increase.

1. By tenant. An eligible tenant may dispose of any basic quota determined for such tenant in accordance with paragraph (c) of this section. Such disposition must take place by:

(i) Time for disposition. The later of April 1 of the current year or 30 days after the date of notification of the amount of such basic quota.

(ii) Manner of disposition. Filling an application at the county FSA office to transfer such basic quota:

(A) Farm owned by tenant. To a farm within the county that is owned by such tenant.

(B) Sale of quota. By sale to the owner of any farm within the county in accordance with § 729.214 of this part.

2. Allocation to other farms. Any basic quota determined for an eligible tenant in accordance with paragraph (c) of this section that is not disposed of by such eligible tenant in accordance with paragraph (d)(1) of this section shall, to the extent practicable, be reallocated...
§ 729.208 Allocation of quota for experimental and research programs.

(a) General. A basic quota shall be established for the 1991 crop for each land-grant institution identified in the Act of May 8, 1914 (38 stat. 372, chapter 79; 7 U.S.C. 341 et seq.), colleges eligible to receive funds under the Act of August 30, 1890 (26 stat. 419 chapter 841; 7 U.S.C. 321 et seq), including Tuskegee Institute and, as appropriate, the Agricultural Research Service of the Department of Agriculture if such institution possessed basic quota for the 1985 crop year or was authorized under this part at that time to market peanuts from the 1985 crop for quota purposes without incurring marketing penalties.

(b) Amount of allocation. The amount of quota allocated from the national reserve to an eligible institution shall not exceed the poundage quota allocated to the institution for the 1985 crop year and shall not exceed the quantity of peanuts that was exempted from payment of marketing penalties by such institution for the 1985 crop, as applicable, except that the total pounds allocated for the 1991 crop to all institutions in the State shall be allocated so as not to exceed one-tenth of one percent of the poundage quota allocated to the State in which the respective institutions are located.

(c) Limitation. The quantity of peanuts marketed by such institution by use of the quota granted in accordance with paragraph (b) of this section shall not exceed the quantity needed for experimental and research purposes. The director of each such institution shall be responsible for providing information as needed to determine compliance with this section.

(d) Quota for 1991 through 2002 crops. For each institution with continuing eligibility for which a 1995 basic quota was determined in accordance with this section or its predecessor, a basic quota shall be established for the 1996 through 2002 crops in the same manner as for other farms within the State.

§ 729.209 Tillable cropland limitation.

If any person owns a farm for which the basic quota exceeds an amount determined by multiplying the larger of the farm yield or the highest actual yield for the farm during the base period by the tillable cropland on the farm, the person shall take steps, such as the sale of quota, the purchase of tillable cropland, the permanent transfer of quota, or other similar means that will result in elimination of the excess. If such person fails to take such action, the farm’s preliminary quota for the next year, and the basic quota permanently shall be reduced by the amount of the excess.

§ 729.210 Determining a farm’s effective quota.

The effective quota for a farm shall be the basic quota adjusted by:

(a) Upward adjustment. Adding the:

(1) The temporary seed quota allocated to the farm;
(2) Quota temporarily reapportioned to the farm; or
(3) Quota temporarily transferred to the farm by either lease, owner, or operator.

(b) Downward adjustment. Subtracting the quota:

(1) Temporarily transferred from the farm by either lease, owner or operator;
(2) Temporarily released; or
§ 729.213 Erroneous notice of effective farm poundage quota.

If the official notice of effective quota issued for a farm erroneously stated a quota larger than the correct effective quota, the quota shown on the erroneous notice shall serve as the
§ 729.214 Basis for marketing penalty computations for the farm for the current marketing year only if the county committee determines and the State Executive Director concurs that:

(a) Extent of error. The error was not so substantial as to place the operator on notice that such notice of quota was incorrect; and

(b) Response to notice. The operator, relying upon such notice and acting in good faith:

(1) Has made plans, or is engaged in activities, to produce the quota in the amount set forth on the erroneous notice (for example, land preparation; purchase of seed, fertilizer, and other production materials; or reducing the acreage of other crops); or

(2) Has planted the acreage of peanuts needed to produce the erroneous farm poundage quota.

[61 FR 37000, July 16, 1996]

§ 729.214 Transfer of quota by sale, lease, owner, or operator.

Peanut quota may be transferred between eligible farms, or between separately owned tracts within a farm, in accordance with the provisions of this section.

(a) Basis of transfers. A transfer of quota may be either permanent or temporary to the extent provided for in this section.

(1) Permanent. A permanent transfer shall be based on a part or all of the farm’s basic quota. The maximum quota that may be permanently transferred from a farm in the current year is the farm’s basic quota. A permanent transfer may be by:

(i) Sale. The sale of a farm’s basic quota.

(ii) Owner. The owner transferring basic quota between two farms when such farms have identical ownership as determined by FSA under instructions of the Deputy Administrator.

(2) Temporary. A temporary transfer is for one year and shall be based on a part or all of the farm’s effective quota. The maximum quota that may be temporarily transferred from a farm in the current year is the farm’s effective quota. A temporary transfer, to the extent permitted by this section, may be by:

(i) Lease. The lease and transfer of a farm’s effective quota.

(ii) Owner. The owner transferring effective quota to another farm owned or operated by such owner.

(iii) Operator. The operator transferring effective quota to another farm owned or operated by such operator.

(2) Where to file. Filed in the county FSA office which serves the county in which the transferring farm is located for administrative purposes.

(3) Signatures. Agreed upon and signed by:

(i) Sale or lease. In the case of a sale or lease, the owner(s) and operator of the transferring farm and the owner(s) or operator of the receiving farm. However, if a lease is filed after July 31 by a farm operator who cash leased the farm the signature of the owner(s) of such farm is not required.

(ii) Owner transfer. In the case of an owner transfer, the owner of the transferring farm who also must be the owner or operator of the receiving farm.

(iii) Operator transfer. In the case of an operator transfer, the operator of the transferring farm who also must be the owner or operator of the receiving farm.

(iv) Lienholder. In all cases, any person who holds a mortgage or other lien against the transferring farm.

(4) Witness. Signed on Form FSA–375, by each person whose signature is required by paragraph (b)(3) of this section, in the presence of a State or county committee member or an FSA employee who shall sign Form FSA–375 as a witness. If such signatures cannot be witnessed in the county FSA office where the farm is administratively located, they may be witnessed in any State or county FSA office convenient to the owner or operator’s residence.

The requirement that signatures be witnessed for producers that are ill, infirm, reside in distant areas, or are in similar hardship situations or may be unduly inconvenienced may be waived provided the county FSA office mails
Form FSA–375 for the required signatures.

(5) **When to file.** Filed at any time after all required signatures have been recorded.

(i) **Permanent transfer.** If filed:
- (A) Before August 1, the transfer shall be effective for the current year.
- (B) After July 31, the transfer agreement shall not be approved until the next year’s quota is determined for the transferring farm.

(ii) **Temporary transfer.** If filed after July 31 and before February 1, the transfer agreement shall not be approved unless both the transferring farm and the receiving farm meet applicable provisions in paragraph (f) of this section that apply to transfers filed during such period.

(c) **Location of farms.** In order to transfer poundage quota between two farms, such farms must be located within the same State and, to the extent required by paragraph (d) of this section, in the same county. It is not necessary for the receiving farm to have had a basic quota in the current or prior year, except as provided in paragraph (d)(4) of this section.

(d) **Limitations on transfer by sale or lease.** Subject to the provisions of paragraph (m) of this section:

- (1) **States with less than 10,000 tons of quota.** With respect to farms in any State for which the State’s poundage quota for the year preceding the current year was less than 10,000 tons, transfers of peanut quota by sale or lease may be made to any other farm in any county within the State.

- (2) **States with 10,000 tons or more of quota.** For farms in States with 10,000 tons or more of quota:
  - (i) Poundage quota may be transferred to any other farm within the same county.
  - (ii) If the farm is in a county with less than a total of 50 tons of quota, the poundage quota may be transferred to any other farm within the same State without regard to the limitations set forth in paragraph (d)(2)(iii) of this section.
  - (iii) If the farm is in a county with a total of 50 tons or more of quota, poundage quota transferred out of county shall be limited to 40 percent of the quota in the transferring county as of January 1, 1996. Further, the cumulative unexpired out-of-county transfers for a crop year may not exceed the following percentages of the quota in the transferring county as of January 1, 1996:
    - (A) 15 percent for the 1996 crop;
    - (B) 25 percent for the 1997 crop;
    - (C) 30 percent for the 1998 crop;
    - (D) 35 percent for the 1999 crop; and
    - (E) 40 percent for the 2000 and subsequent crops.

- (iv) **Selecting approved transfers.** For purposes of administering the limitations on the amount of transfers, the Director shall establish a method for selecting, by lot or other method, those applications which are to be approved. The Director may give preference to permanent transfers.

- (3) **Fall transfers.** The limitations in paragraph (d)(2)(iii) of this section do not apply to 1-year fall transfers, which may, in all cases, be made to any farm in the same State, subject to such restrictions as otherwise apply for fall transfers.

- (4) **Owner or operator transfer.** Owner or operator transfers of poundage quota are permitted to contiguous counties within the same State without regard to the percentage limitations of paragraph (d)(2)(iii) of this section; provided that, the receiving farm had a basic quota established for the preceding year’s crop and has the same owner, in an owner transfer, or the same operator, in an operator transfer.

(e) **Transfers to and from the same farm (subleasing)—**

- (1) **Transfer agreement filed after January 31 and before August 1.** The county committee shall not approve a transfer agreement which is filed after January 31 of any year and before August 1 of the same year, if the approval would result in a temporary transfer both to and from either the transferring or receiving farm during such period, except that such transfer agreement may be approved if the farm that otherwise would be eligible to transfer or receive such quota resulted from a farm reconstitution that was approved subsequent to a transfer of quota.

- (2) **Record of transfer filed after July 31 and before February 1.** The county committee shall not approve a temporary
transfer of effective quota if the transfer agreement is filed after July 31 of any year and before February 1 of the following year and approval would result in a temporary transfer both to and from either the receiving farm or transferring farm during such period.

(f) Other transfer provisions—(1) Temporary transfer of quota from a farm. A temporary transfer of quota from a farm by lease, owner, or operator shall not be approved:

(i) Effective quota includes reapportioned quota. If the transfer agreement was filed before August 1 of a crop year and the effective quota for the farm includes temporarily reapportioned quota from quota released from other farms of that crop year.

(ii) Peanut poundage quota penalty. If any person whose signature is required to perfect the transfer is known to owe a peanut poundage quota penalty. However, this provision shall not apply if the penalty is paid or, in the case of a transfer by lease, the entire proceeds of the lease are applied to the penalty and the county committee determines that the amount paid for the lease represents a reasonable price for the pounds of quota being leased.

(iii) Filed after July 31 and before February 1 (“Fall transfers”). If filed after July 31 of the crop year and before February 1 of the following year, unless:

(A) The reported or determined acreage of peanuts plus prevented planted credit for the transferring farm for the current year, when multiplied by the larger of the farm yield or the highest actual yield during the base period, is equal to or greater than 90 percent of the farm’s effective quota prior to adjustment for temporary seed quota allocated to the farm;

(B) The county committee determines that the producers on the farm made a good faith effort to produce a normal crop of peanuts on the acreage devoted to peanuts.

(C) The quantity to be transferred does not exceed the quota balance remaining on the farm’s marketing card(s); and

(D) For a lessee, such lessee provides satisfactory evidence that the lease is a cash lease or the owner signs the transfer agreement.

(2) Temporary transfer of quota to a farm. A temporary transfer of quota to a farm by lease, owner, or operator shall not be approved:

(i) Tillable cropland limitation. If the transfer agreement was filed before August 1 of the crop year and the effective quota after the transfer would exceed an amount determined by multiplying the acreage of tillable cropland on the farm by the larger of the farm yield or the highest actual yield per acre during the base period.

(ii) Filed after July 31 and before February 1. If the transfer agreement is filed after July 31 of the crop year and before February 1 of the following year unless the quantity being transferred:

(A) Is needed in order to market all eligible peanuts from the receiving farm as quota peanuts, and

(B) Does not exceed an amount by which the receiving farm’s effective quota before the transfer is less than the entire production of peanuts from the farm exclusive of any peanuts that have been graded as Segregation 2 or Segregation 3 peanuts.

(3) Permanent transfer of quota from a farm. A permanent transfer of quota from a farm by sale or by owner shall not be approved:

(i) Permanent transfer of quota by sale to the farm. For the amount of quota purchased and permanently transferred to the farm in the current year and during the base period, as adjusted for any increase or decrease in such quota due to adjustment in the national quota during the base period, except that a transfer of a tenant’s share of any peanut quota increase shall not be considered for purposes of determinations made under the provisions of this paragraph.

(ii) Peanut poundage quota penalty. If the owner is known to owe a peanut poundage quota penalty. However, this provision shall not apply if the penalty is paid, or in the case of a sale of quota, the entire proceeds from the sale of quota are applied to the penalty and the county committee determines that the amount paid for the quota represents a reasonable price for the pounds of quota being sold.
(iii) Conservation Reserve contract. If the peanut quota is subject to an approved Conservation Reserve Program contract.

(4) Permanent transfer of quota to a farm. A permanent transfer of quota to a farm by sale or by owner shall not be approved if the basic quota after transfer would exceed an amount determined by multiplying the acreage of tillable cropland on the farm by the larger of the farm yield or the highest actual yield per acre during the base period.

(g) Approval or disapproval of a transfer agreement. The county committee shall approve or disapprove each transfer agreement. The county committee shall approve each transfer agreement which meets the eligibility conditions as set forth in this section or in this part. However, the county committee may delegate authority to the county executive director or other county FSA employee to act on behalf of the county committee and approve a transfer agreement which meets the eligibility conditions as set forth in this section. Such delegation may authorize the approval of any eligible transfer agreement or the delegation of authority may be restrictive as to the type of transfer agreements that may be approved. Only the county committee shall disapprove a transfer agreement.

(1) Time for determination. Any approval or disapproval of a transfer agreement should be made within 30 days after the transfer agreement is filed with the county committee unless additional time is required as the result of conditions beyond the control of the county committee. However, if a transfer agreement is filed after July 31 of the crop year that provides for a temporary transfer of poundage quota, the transfer agreement shall not be approved until the next year’s quota is determined for the transferring farm.

(2) Effective date. An approved transfer agreement shall become effective during the current crop year, except that if an agreement to permanently transfer quota is filed after July 31 of the crop year, such agreement shall become effective for the next crop year.

(h) Effect of permanent transfer of quota. In the event of a permanent transfer of a quota, applicable farm data for each year of the base period shall be transferred to the receiving farm from the transferring farm in proportion to the quantity of basic quota which has been transferred from the transferring farm.

(1) Notice of revised quotas. A revised notice of farm poundage quota shall be issued for each farm affected by the transfer of farm poundage quota.

(j) Cancellation of transfer—(1) A transfer approved on the basis of incorrect information furnished by the parties to the transfer agreement, or approved due to error by the county committee, shall be void and canceled effective as of the date of approval except as may be provided by the Deputy Administrator to accomplish the purposes of this part. The cancellation shall not be effective for the current marketing year if:

(i) The transfer approval was made on the basis of incorrect information unknowingly furnished in good faith by the parties to the transfer agreement or the transfer approval was made in error by the county committee, and

(ii) The parties to the transfer agreement were not notified of the cancellation prior to the marketing of quota peanuts in excess of the revised effective farm poundage quota.

(2) If cancellation of a transfer is required, the county committee shall issue revised notices of poundage quota showing the reasons for, and effect of, the cancellation.

(k) Withdrawal or minor revision. The county committee may permit withdrawal or minor revisions of a transfer upon a:

(1) Written request by all parties to the transfer, and

(2) County committee determination that such withdrawal or revision is clearly in the best interest of all the producers and will not impair the effective operation of the peanut program.

(1) Adjustment of marketings. For the purpose of computing production history for quota increase based on production, in the case of temporary transfers by owner to the same owner or operator to the same operator, if the current year’s produced or considered-produced credit from the receiving farm exceeds such farm’s basic quota, such produced or considered-produced
§ 729.215 Release and reapportionment of quota.

(a) Release. By filing Form FSA–278 with the county FSA office that serves the county in which the farm is located for administrative purposes, part or all of the farm’s:

(1) Temporary release. Effective quota may be temporarily released to the county committee for the current year.

(2) Permanent release. Basic quota may be permanently released to the county committee. If the farm consists of separately identifiable tracts having different ownership, the owner(s) of any tract may permanently release part or all of the basic quota contributed to the farm by such tract.

(b) Request for released quota. Permanently released quota shall be reallocated without a request from the farm’s owner or operator to eligible farms as determined in accordance with § 729.204 of this part. Temporarily released quota, may be reapportioned to farms for which a request for released quota has been filed, on Form FSA–278, in the county FSA office that serves the county in which the farm is located for administrative purposes. Temporarily released quota shall be reapportioned in accordance with the provisions of this section.

(c) Time for filing. The final date for filing a release of quota or for requesting reapportionment of temporary released quota shall be:

(1) Permanent release. For quota to be permanently released, thirty days after the date of mailing of the notice of the farm’s quota.

(2) Temporary release or request for released quota. For a temporary release or a request for released quota, the date established by the State committee for the county in which the farm is located for administrative purposes.

(d) Signature requirement. The FSA–278 shall be signed by:

(1) Temporary releases. In the case of a temporary release, the farm operator. In addition, if quota was either leased and transferred from the farm, or released from the farm, in more than one year of the base period, the FSA–278 shall be signed by the farm’s owner(s).

(2) Permanent releases. In the case of a permanent release, both the owner(s) and operator of the farm.

(e) Reapportionment of temporarily released quota—(1) Time to reapportion. The county committee shall reapportion, within 10 days after the final date for temporary release of quota in the county, any quota that will be reapportioned to farms in the county. In addition, if the county committee receives released quota from the State committee, such quota shall be reapportioned within 10 days after receipt of the notice of the availability of the quota.

(2) Basis of reapportionment. The county committee:

(i) When reapportioning temporarily released quota, shall give priority to producers on nonquota farms and to producers on farms having basic quotas that are significantly below the average basic quota in the county. Otherwise, the county committee shall reapportion the released quota in amounts determined by the county committee to be fair and reasonable on the basis of:

(A) Experience by the applicant in producing peanuts;

(B) Soil and other physical factors affecting the production of peanuts on the applicant’s farm; and

(C) Tillable cropland available for the production of peanuts on the applicant’s farm.

(ii) Shall not reapportion released quota to a farm that has transferred

(b) Disapproval of quotas. No loan for quota peanuts may be made available for any crop of peanuts with respect to which it is determined by the Deputy Administrator that poundage quotas have been disapproved by producers pursuant to a referendum conducted in accordance with section 358–1(d) of the Agricultural Adjustment Act of 1938, as amended.

§ § 729.301 7 CFR Ch. VII (1–I–02 Edition)

(2) A marketing card issued to a successor-in-interest shall be issued in the name of the successor-in-interest.

(c) Issuance of producer identification cards. A producer identification card shall be issued in the same name that is entered on the marketing card(s) for each eligible farm. The producer identification card will be used to identify the farm on which the peanuts were produced and the card must accompany each lot of peanuts when offered for sale. Producer identification cards shall be issued at the time the marketing cards are issued.

(d) Person authorized to issue cards. The county executive director shall be responsible for the issuance of marketing cards and producer identification cards.

(e) Rights of producers and successors-in-interest. (1) Each producer having a share in the peanuts available for marketing from a farm shall be entitled to the use of the marketing and identification cards for marketing such producer’s proportionate share of the peanuts produced on the farm, as determined by the county committee.

(2) Any person who the county committee determines has succeeded, in whole or in part, to the share of a producer in the peanuts available for marketing from a farm shall, to the extent of such succession, have the same rights to the use of the marketing and identification cards and bear the same liability for penalties as the original producer would with respect to the disposition of the peanuts.

(f) Data on marketing card and supplemental card—(1) Before issuance, the following data and information must be recorded on the marketing card:

(i) The name of each producer and the producer’s share of the crop of peanuts;

(ii) The effective farm poundage quota;

(2) A supplemental marketing card bearing the same name identification as shown on the original marketing card may be issued for a farm if an original or supplemental marketing card is returned to the county office. The balance of the poundage quota for the farm from the returned marketing card shall be recorded as the effective farm poundage quota on the supplemental card.

(3) Two or more marketing cards may be issued for a farm if the farm operator specifies in writing the amount of the effective quota (not to exceed the balance of effective quota available) which is to be assigned to each card.

(g) Issuance of producer identification cards—(1) Before issuance, the following information shall be recorded on the producer identification card:

(i) Name and address of the farm operator;

(ii) State, county code, and farm serial number.

(h) Replacing a lost, stolen, or destroyed marketing card. A new marketing card shall be issued to replace a card which has been determined by the county executive director who issued the card to have been lost, destroyed, or stolen, if the farm operator gives immediate written notice of such fact to the appropriate county FSA office and furnishes a satisfactory report of the quantity of peanuts which was marketed by use of such marketing card before such card was lost, stolen, or destroyed.
§ 729.304 Marketing card entries.
(a) Immediately after each lot of peanuts is marketed, the buyer, or the buyer’s representative, shall make the following entries on the marketing card from the FSA–1007:

§ 729.303 Designation of category for marketing peanuts.

If a lot of peanuts is inspected by the Federal-State Inspection Service, the producer shall designate to the handler whether the lot of peanuts is to be marketed as quota loan, quota commercial, loan additional, or contract additional peanuts as defined in part 1446 of this title. The designation must be made within the time allowed by the handler but not later than the close of inspection of the third workday (excluding Saturday, Sunday, or legal holiday) after the peanuts are inspected and graded. In the absence of a designation, any Segregation 1 peanuts shall be marketed and deemed to be marketed in the following order of priority:
(a) As quota loan or quota commercial peanuts, at the option of the buying point operator, to the extent of the unused poundage quota on the peanut marketing card which is used to identify the peanuts for marketing;
(b) As contract additional peanuts to the extent of the unused contract poundage balance on the peanut marketing card which is used to identify the peanuts for marketing if the peanuts are being marketed through the contracting handler; or
(c) As loan additional peanuts.

§ 729.302 Identification of producer marketings.
The producer must identify each lot of peanuts offered for marketing through a handler by furnishing to the handler the farm operator identification card FSA–1003, and the peanut marketing card FSA–1002, which was issued for the farm on which the peanuts were produced. The producer may at the producer’s risk leave the peanut marketing card in the custody of the handler during the period between marketing lots of peanuts to the same handler; however, the marketing card shall not be left in the possession of the handler after the producer has completed marketings for the season.

§ 729.304 Invalid cards. A marketing card shall be invalid under any one of the following conditions:
(1) It is not issued or delivered in the form and manner prescribed.
(2) Any entry is omitted or is incorrect.
(3) It is lost, destroyed, or stolen.
(4) An alteration has been made without the approval of the county executive director.
(5) For a paper card, the card becomes illegible.

§ 729.303 Validating invalid cards. If a marketing card is known to be invalid, the farm operator or other producer shall return the marketing card to the county office. The county executive director shall issue a replacement marketing card or the marketing card may be made valid by entering data previously omitted or by correcting any incorrect data previously entered.

§ 729.302 Identification of producer marketings.
The producer must identify each lot of peanuts offered for marketing through a handler by furnishing to the handler the farm operator identification card FSA–1003, and the peanut marketing card FSA–1002, which was issued for the farm on which the peanuts were produced. The producer may at the producer’s risk leave the peanut marketing card in the custody of the handler during the period between marketing lots of peanuts to the same handler; however, the marketing card shall not be left in the possession of the handler after the producer has completed marketings for the season.

§ 729.303 Designation of category for marketing peanuts.
Any marketings of peanuts which are not inspected by the Federal-State Inspection Service prior to marketing shall be deemed to be a marketing of quota peanuts. If a lot of peanuts is inspected by the Federal-State Inspection Service, the producer shall designate to the handler whether the lot of peanuts is to be marketed as quota loan, quota commercial, loan additional, or contract additional peanuts as defined in part 1446 of this title. The designation must be made within the time allowed by the handler but not later than the close of inspection of the third workday (excluding Saturday, Sunday, or legal holiday) after the peanuts are inspected and graded. In the absence of a designation, any Segregation 1 peanuts shall be marketed and deemed to be marketed in the following order of priority:
(a) As quota loan or quota commercial peanuts, at the option of the buying point operator, to the extent of the unused poundage quota on the peanut marketing card which is used to identify the peanuts for marketing;
(b) As contract additional peanuts to the extent of the unused contract poundage balance on the peanut marketing card which is used to identify the peanuts for marketing if the peanuts are being marketed through the contracting handler; or
(c) As loan additional peanuts.

§ 729.305 Peanuts on which penalties are due and refund of excess penalty collected.

(a) In addition to other remedies as may apply, a penalty is due from the person involved in a violation of this part and shall be assessed against such person at the basic penalty rate on:

(1) The quantity of peanuts which is marketed or considered to be marketed from a farm for domestic edible use in excess of the effective farm poundage quota for the farm.

(2) All peanuts produced on a farm for which the producer:

(i) Failed to report the peanut acreage as provided in accordance with part 718 of this chapter; or

(ii) Is responsible, if entry on the farm to authorized representatives of the Secretary for the purpose of determining the acreage of peanuts on the farm is refused or denied.

(3) The quantity of peanuts falsely identified, as determined by the county committee with the concurrence of the State committee. The quantity of peanuts subject to penalty under this provision shall be the quantity of peanuts determined by the county committee to have been falsely identified. Acts considered to be false identification shall include the following:

(i) Identifying or permitting the identification of peanuts at time of marketing as having been produced on a farm other than the farm of actual production;

(ii) Marketing or permitting the marketing of peanuts to a registered handler without identifying the peanuts with a peanut marketing card issued for the farm on which such peanuts were produced;

(iii) Permitting the use of the peanut marketing card for the farm to record a marketing of peanuts when, in fact, peanuts were not marketed from the farm; or

(iv) Marketing peanuts that have been commingled with those of another farm.

(4) All peanuts, the disposition of which the producer has failed to account for to the satisfaction of the county committee. The quantity of peanuts subject to penalty under this provision shall be the amount of peanuts determined by the county committee to have been marketed or considered marketed from the farm in excess of the quantity for which the producer has satisfactorily accounted.

(5) All additional peanuts marketed as contract additional peanuts in excess of the pounds contracted between the producer and handler as provided in part 1446 of this title.

(6) The quantity of farmers stock peanuts the county committee determines was necessary to plant the reported acreage for the crop year if the producer fails or refuses to file an accurate seed peanut report of seed purchases; and

(7) All peanuts marketed in violation of this subpart for reasons not otherwise enumerated in paragraph (a) of this section.

(b) If the reported acreage of peanuts on a farm differs from the determined acreage by more than the tolerance provided in part 718 of this chapter, a penalty at the converted rate shall be due from all producers on the farm on all peanuts marketed from the farm. In addition, in the case of a false certification, the sanctions provided for in §729.204(e) shall apply except to the extent that it may be determined by the Deputy Administrator that a second assessment would be unduly redundant.

(c) Any penalty collected in excess of the correct amount as determined pursuant to this section may be refunded upon a finding by the county committee that an excess amount was collected.

§ 729.306 Farms with one acre or less of peanuts.

All peanuts produced on a farm on which the acreage of peanuts is one acre or less may be marketed for domestic edible use without incurring a marketing penalty if the producer who shares in the peanuts produced on any such farm does not share in the peanuts produced on any other farm.
§ 729.307 Assessment of penalties; joint and several liability.

Any person against whom a penalty is assessed in accordance with this subpart, shall be notified of the penalty assessment in writing by the appropriate county committee. Such notice shall state the amount of the penalty and the basis upon which the penalty is being assessed. The notice shall also state that the person against whom the penalty is being assessed may request reconsideration of the assessment of the penalty in accordance with part 780 of this chapter. If more than one person is liable for a penalty, the liability of all persons involved shall be joint and several liability.

§ 729.308 Lien for penalty.

(a) Lien on peanuts. Until the amount of any penalty provided by this part is paid, a lien on the crop of peanuts with respect to which such penalty is incurred, and on any subsequent crops of peanuts subject to poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States.

(b) Lien precedence. The lien on the peanuts takes precedence over all claims and attaches at the time the debt is entered on a county claim record in the county FSA office for the county in which the subsequent crop is grown.

(c) List of peanut marketing penalty debts. Each county FSA office shall maintain a list of peanut marketing penalties for which a claim has been established and recorded in such office. The list shall be made available for examination upon written request by any interested person.

§ 729.309 Persons to pay penalty or collect debts.

(a) Marketings to handlers. The buyer shall be liable for the full penalty due on marketings of excess quota peanuts that such handler buys or otherwise acquires from a producer. Also, the buyer shall be liable with the producer for the full penalty due on peanuts purchased from a producer as additional peanuts in excess of the amount contracted with the producer as contract additional peanuts in accordance with part 1446 of this title. The buyer may deduct the penalty from the price paid to the producer for the peanuts. If the net value of a lot of peanuts is less than the penalty due on such lot, or if the handler fails to collect the penalty due on any marketing of a lot of peanuts from a farm, the buyer and each of the producers on the farm shall be held jointly and severally liable for the amount of any unpaid penalty due on such lot of peanuts.

(b) Other marketings. The producer is liable for the penalty due on any marketings of excess quota peanuts to persons who are not established peanut buyers.

(c) Penalty for error on marketing card. The producer and the buyer are jointly and severally liable for any penalties which may be due if the buyer made an error or failed to properly record the pounds of peanuts marketed on the producer’s marketing card and such error resulted in marketings in excess of the effective poundage quota or the pounds contracted as additional peanuts in accordance with part 1446 of this title.

(d) Notice to affected parties. All affected parties shall be deemed to be on notice that penalties are due when the marketings of peanuts for domestic edible use exceed the effective poundage quota indicated on the marketing card or the marketing of peanuts as contract additional peanuts exceeds the amount contracted by the producer as additional peanuts in accordance with part 1446 of this title. In addition:

(1) PPQ lien. If a peanut poundage quota (PPQ) lien is recorded on a claim record maintained in a county FSA office in accordance with §729.308 of this part or recorded on the peanut marketing card such recordation shall constitute notice to any peanut buyer that until the amount of the penalty involved plus accrued interest is paid, the United States has a lien on any peanuts, from any crop year that are subject to farm poundage quotas in which the person liable for payment of the penalty has an interest. Peanut poundage quota (PPQ) lien amounts shall be collected by the buyer and paid to the Farm Service Agency prior to making collection for any other liens or claims, except for a lien that was perfected before the PPQ lien became
§ 729.310 Payment of penalty or other debt.

(a) Method of payment. A draft, money order, or check made payable to the Farm Service Agency may be used to pay any penalty, other indebtedness collected in accordance with this subpart, or interest thereon. All methods of payment shall be received subject to collection and payment at face value.

(b) Due date. The penalty becomes due on the date of marketing, or in the case of false identification or failure to account for the disposition of peanuts, the date the producer is notified of the false identification or the failure to account, as applicable.

(c) Interest. The person liable for payment or collection of the penalty shall be liable also for interest thereon at the rate of interest charged CCC for its borrowings by the United States Treasury on the date such penalty became due. If the rate charged CCC by the Treasury is increased, the interest due on the penalty may be, to the extent permitted by law, increased commensurately for the period of such increase. Interest shall accrue from the date the penalty was due if the penalty is not remitted within 30 days after the date the penalty was assessed. Nothing in paragraph (c) of this section, shall limit the liability of a person for pre-penalty interest where otherwise provided for in this part or otherwise provided for by law.

§ 729.311 Peanuts on which penalties are not to be assessed.

Notwithstanding other provisions in this subpart:

(a) Error in weight. A penalty shall not be collected if such penalty results from an error in net weight of a lot of peanuts marketed, as reported on Form FSA–1007, Inspection Certificate and Sales Memorandum, and the error does not exceed one-tenth of one percent of the correct net weight of such lot of peanuts. However, notwithstanding the preceding sentence, in the case of fraud or conspiracy, a penalty shall be due for any error in the net weight, regardless of the size or amount of the error.

(b) Peanuts grown on State prison farms. A penalty shall not be collected on peanuts grown on State prison farms for consumption within such State prison system, and so consumed.

(c) Peanuts grown for experimental or research purposes. (1) A penalty shall not be collected on the marketing of any peanuts that are:

(i) Grown only for experimental or research purposes, which shall include seed determined by the Deputy Administrator to be breeder or foundation seed;

(ii) Grown on land owned or leased by a publicly-owned agricultural experiment station, which shall include a State-operated seed organization;

(iii) Produced at public expense by employees of entities described in paragraph (c)(1)(ii) of this section, or are produced by farmers for seed determined by the Deputy Administrator to be breeder or foundation seed peanuts for experimental or research purposes pursuant to an agreement with a publicly-owned agricultural experiment station, which shall include such State-operated seed organizations.

(2) The exemption from penalty, as provided in paragraph (c)(1) of this section shall not apply unless:
Farm Service Agency, USDA

§ 729.314

(i) Such peanuts are used for purposes other than for:
(A) Food or feed, or
(B) Seed to produce peanuts for food.
(ii) The director of the applicable publicly-owned agricultural experiment station, including State-operated seed organizations, furnishes to the State FSA Executive Director:
(A) A list, by county, showing for each farm on which such peanuts are grown for experimental or research purposes, the name and address of the entity that supplies information; the name of the owner, and operator, if different from the owner, of the farm on which such peanuts are grown; and the acreage of peanuts grown for such experimental or research purposes;
(B) A signed statement that such acreage of peanuts will be grown for experimental and research purposes including breeder and foundation seed; such production of peanuts is necessary for the State-operated program conducted for such purposes by the entity; and such peanuts will be produced under the direction of representatives of such entity; and
(C) Such additional reports, if any, as the Deputy Administrator may require.
(d) Unique strains used to plant green peanut acreage. Seed peanuts used to plant peanuts for use as green peanuts shall not be subject to penalty if the county committee determines that such seed peanuts:
(1) Are unique strains of peanuts used for green peanuts.
(2) Are not commercially available, and,
(3) Are used exclusively to plant peanuts for harvest as green peanuts.

§ 729.312 Reduction or waiver of penalty.

(a) Reduction or waiver of penalty. The county committee may reduce or waive any penalty required to be assessed by this subpart in cases in which the county committee, with concurrence of the State committee, determines that the violations upon which the penalties were based were unintentional or without knowledge on the part of the parties concerned.

(b) Time of reduction or waiver. A penalty may be reduced or waived by an authorized official or committee either before or after it has been formally assessed. If the reduction or waiver is made before formal assessment, the notice of assessment shall state the amount of reduction or waiver and the basis upon which the reduction or waiver was made.

(c) Reconsideration or appeal. Any person against whom a penalty is assessed under this subpart may, through a request for reconsideration or through an appeal, as applicable, request that the penalty be reduced or waived.

§ 729.313 Failure to comply with program.

Any person who has failed to comply with the provisions in this part because such person was misinformed or relied on the advice of an authorized representative of the Secretary in rendering performance under this part, and such person believed in good faith that such misinformation or advice met the requirements of the program as set forth in these regulations, may file a request with the State committee for review of an adverse county committee ruling with respect to such failure to comply. After review of the case, the State committee shall submit the case to the Deputy Administrator with its recommendation. The Deputy Administrator may grant relief as deemed appropriate in such case. This authority, however, does not extend to cases where such person knew or had sufficient reason to know that the action or advice of the representative of the Secretary upon which the person relied was improper or erroneous, or where the adverse action is based on changes made in the statutory authority of the program or changes in regulations issued for the program.

§ 729.314 Schemes and devices.

(a) Penalties shall be assessed in such manner as will correct for and nullify any action in which a person has knowingly, whether passively or actively:
(1) Engaged in, acquiesced in, or adopted any scheme or device which tends to defeat the purpose of the regulations in this part,
(2) Made any fraudulent representation, or
(3) Misrepresented any fact affecting a program determination.
§ 729.315 Handling Segregation 3 peanuts.

(a) Disposition of Segregation 3 peanuts. Any producer who has a lot of farmers stock peanuts classified by the inspector as Segregation 3 peanuts shall retain such lot of peanuts for seed in accordance with paragraph (c) of this section or shall deliver such lot of peanuts:

(1) To the area association for a price support loan subject to such conditions as apply to eligibility for such loans including those in part 1446 of this title.

(2) As contract additional peanuts subject to provisions of part 1446 of this title;

(3) As quota peanuts, subject to the conditions set forth in this part to a handler who has signed the peanut marketing agreement provided the peanuts were produced for seed under an agreement with a State agency;

(4) To a handler as quota peanuts if:

(i) The peanuts were produced for seed under an agreement with a State agency.

(ii) The handler to whom the peanuts are sold has, for that purpose, signed a supervision supplement to a warehousing contract with the area marketing association.

(b) Failure to properly dispose of Segregation 3 peanuts. If the producer does not, within the time allowed in this part for designation of the category for marketing such peanuts, dispose of Segregation 3 peanuts in the manner specified in this section, such producer shall be ineligible for continued quota price support for the remainder of the marketing year.

(2) Liquidated damages. Any peanut producer participating in the price support loan program shall be deemed to have agreed that:

(i) CCC will incur serious and substantial damage to its program to support the price of peanuts if Segregation 3 peanuts are disposed of other than in the manner prescribed by this subpart or by the CCC;

(ii) The amount of such damages will be difficult, if not impossible, to ascertain;

(iii) With respect to any lot of peanuts which is pledged as collateral for a quota price support loan but which is ineligible for such loan, or any lot of peanuts which is pledged as collateral for a quota price support loan by a producer after the producer has disposed of any lot of Segregation 3 peanuts in any manner other than in the manner prescribed in this section, liquidated damages shall be due to CCC, not as a penalty, based on the difference between the quota loan rate and the additional loan rate (on a per pound basis) per net pound of such peanuts;

(iv) Such liquidated damages are a reasonable estimate of the probable actual damages which CCC would suffer because of such action by the producer; and,

(v) This remedy shall be in addition to any other remedy or sanction available against the producer, including penalties under this part.

(c) Retention of Segregation 3 peanuts for seed. If the producer elects to retain a lot of Segregation 3 peanuts for seed, the buying point operator shall give a copy of the FSA–1007 to the producer as a record showing the quantity and quality factors of the peanuts. The producer:

(1) Shall designate such peanuts as quota peanuts.

(2) Shall have the net weight of such peanuts determined and deducted from the farm marketing card.

(3) Shall advise the inspector that the peanuts are being retained for seed.

(4) Must store such peanuts separate from other peanuts on the farm.

(5) Shall notify the county executive director when such peanuts are used and otherwise account for the disposition of such peanuts.

(6) Shall not sell such peanuts to a handler for seed; however, the peanuts may be sold to another producer for seed.

(7) May, if it is later determined that such peanuts are unfit for seed use and after receiving prior approval from the county office, sell such peanuts as quota peanuts for crushing without benefit of price support.
§ 729.316 Marketing assessments.

(a) Subject to adjustments in accordance with § 729.317, a nonrefundable marketing assessment shall, in the amount provided for in this section, be due on each pound of farmers stock peanuts marketed or considered marketed by a producer, including marketings by pledging peanuts as collateral for a price support loan. The per pound assessment as a percentage of the applicable national average quota or additional peanut loan rate, shall be an amount equal to:

(1) 1.15 percent for the 1996 crop; and

(2) 1.2 percent for the 1997 through 2002 crops.

(b) Collections and payment of marketing assessments. The first purchaser of peanuts shall:

(1) Collect from the producer a marketing assessment equal to the quantity of peanuts acquired multiplied by:

(i) In the case of the 1996 crop, a per pound amount equal to .6 percent of the national average loan rate; and

(ii) In the case of each of the 1997 through 2002 crops, a per pound amount equal to .65 percent of the applicable national average loan rate.

(2) In addition to the amount collected under paragraph (1) of this section, pay a marketing assessment in an amount equal to the quantity of peanuts acquired multiplied by .55 percent of the applicable national average loan rate.

(c) Private marketings. For all peanuts retained on the farm for seed or other uses or marketed by such producer to any person outside the United States or marketed in private marketings through a retail or wholesale outlet to any person who is not required to register as a handler in accordance with part 1446 of this title, the producer shall pay a marketing assessment equal to the full amount determined by multiplying the per pound amount provided in paragraph (a) of this section by the gross weight of the peanuts if they are uninspected farmers stock peanuts or, if inspected, the net weight of such peanuts. If such peanuts are shelled before they are marketed, the quantity marketed shall be converted to a farmers stock equivalent consistent with this part, for purposes of determining the amount of assessment that is due.

(d) Loan collateral peanuts. With respect to peanuts that are pledged as collateral for a price support loan through an approved warehouse, an assessment shall be:

(1) Determined and paid by multiplying the net weight of such peanuts by the applicable per pound amount provided in paragraph (b)(1) of this section for private sales and deducting the total from the loan value of such peanuts before other deductions may be made for any other reason; and

(2) Further determined and paid by multiplying the net weight of such peanuts, when sold from the price support inventory, by the applicable per pound amount provided in paragraph (b)(2) of this section for private sales and collecting that amount from the person who acquires such peanuts from the applicable association or from the CCC.

(e) Remittance of marketing assessments. With respect to marketing assessments as provided in:

(1) Paragraph (b) of this section, such assessments shall be remitted in a manner prescribed by the Deputy Administrator. To avoid a penalty, as prescribed in this section, the marketing assessments due with respect to any lot of peanuts acquired directly from a producer must be remitted during the 15 days that follow the week in which the data from the applicable Form FSA–1007 is due to be transmitted to FSA in accordance with the provisions in part 1446 of this title. For purposes of this section a week shall be the 168 hour period that begins at 12:01 a.m. local time on any Sunday and the postmark on the envelope in which such marketing assessment is remitted may be the basis for determining whether the marketing assessment was remitted timely;

(2) Paragraph (c) of this section, such assessments shall be remitted, within 10 days after the date such peanuts are marketed, and shall be remitted to the county FSA office that serves the county in which the farm is administratively located. Peanuts that are retained on the farm for seed or other use, shall be considered marketed at the time the certification of marketings is filed or due to be filed at the
§ 729.317 Increased marketing assessments.

(a) Applicability. If area quota pool losses are not otherwise covered by the offsets prescribed by part 1446 of this title, and the transfer of marketing assessments collected in accordance with provisions of this part, the marketing assessment for quota peanut producers shall be:

(1) Increased by an amount needed by CCC to cover such losses; and

(2) Collected as determined by CCC on all quota peanuts marketed in the next marketing year in the area covered by the quota pool which had the loss.

(b) Insufficient collections. If the amount of such increased assessments collected on the marketing of quota peanuts in any year is less than the amount needed to cover the accumulated net pool losses for any crop, there shall be an increased assessment in subsequent years until the amount needed is collected.

(c) Excess collections. If the increased amount of assessments, as provided in this section, collected on the marketing of quota peanuts for any year is greater than the amount needed for the purpose for which the collection is made, the excess amount shall be retained to offset any losses which may occur in quota pools within that marketing area in subsequent years.

(d) Collection procedures. Unless otherwise specified by CCC, the collection procedures for the increased assessments shall be as provided for in §729.316 and the assessment rates of §729.316 shall be increased accordingly.

Subpart D—Recordkeeping and Reporting Requirements

§ 729.401 Peanuts marketed to persons who are not registered handlers.

(a) If peanuts are marketed to persons other than registered peanut handlers, the operator of the farm on which the peanuts were produced shall file a report of the marketings by executing Form FSA–1011, Report of Acreage and Marketing of Peanuts to Non-established Buyers. The FSA–1011 must be mailed or delivered to the county executive director of the county in which the farm is administratively located within 15 days after the marketing of peanuts from the farm has been completed. If peanuts are marketed by the producer in small lots directly to consumers, such as in the case of local street sales, a daily or weekly summary of the quantity marketed and the place of marketing may be reported in lieu of the name and address of each buyer.

(b) Failure to file an FSA–1011 as required or the filing of a report which the county committee finds to be incomplete or inaccurate shall constitute failure to account for the disposition of the peanuts on the farm and may result in the assessment of marketing penalties, as provided in this part.

(c) All peanuts marketed to persons other than registered handlers shall be considered as marketings of quota peanuts.
§ 729.402 Report on marketing card.

The farm operator shall return each peanut marketing card to the issuing county FSA office as soon as marketings from the farm are completed or at such earlier time as the county executive director may request. At the time the last marketing card for a farm is returned, the farm operator shall execute a certification of the pounds of peanuts retained for seed or other use. Failure to return a marketing card or failure to execute the certification of the quantity of peanuts retained for seed or other uses shall constitute failure to account for the disposition of peanuts marketed from the farm. Marketing penalties may be assessed for such failure as provided in this part, unless a satisfactory report of disposition is furnished to the county committee.

§ 729.403 Report of marketing green peanuts.

(a) Farm operator report. The operator of each farm from which green peanuts are marketed shall report the marketing of green peanuts. The operator shall make the report by filing Form FSA–1011 at the FSA office of the county in which the farm is administratively located. The report shall show for the farm:

(1) The acreage on the farm from which peanuts were marketed solely as green peanuts; and

(2) The name and address of the buyer to, or through whom, each lot of green peanuts was marketed and the quantity in each lot marketed and the date marketed. However, if green peanuts are marketed by the producer in small lots directly to consumers, such as in the case of local street sales, the report may be made as either a daily or weekly summary of the quantity so marketed and the place of marketing may be reported in lieu of the name and address of each buyer.

(b) Buyer report. Each buyer of green peanuts shall report purchases of green peanuts from producers on FSA–1011 to the county FSA office in the county in which the farm is administratively located. Small lot purchases not in commercial quantities including, but not limited to, street sales, local market sales, and grocery store sales shall not be subject to this reporting requirement. This report shall subject the buyer to a review of those purchase and sales records as required in this part. Each buyer shall keep records of green peanuts purchased including the following information:

(1) Date of purchase;

(2) Name and address of producer selling green peanuts;

(3) Name and address of farm operator and farm number (including State and county codes) of the farm on which the green peanuts were produced; and

(4) Pounds of green peanuts purchased.

(c) Failure to file green peanut report. Failure to file any report of the marketing of green peanuts as required by this section or the filing of a report which the county committee finds to be incomplete or inaccurate shall, subject the farm operator or buyer, as applicable, to marketing penalties as set forth in this part.

§ 729.404 Report of acquisition of seed peanuts.

(a) If peanuts are planted on a farm in the current year and the seed peanuts were acquired by purchase or gift, the farm operator shall file a report with the county FSA office of the acquisition of the seed peanuts. The report must be filed by the farm operator at the time a report of planted acreage of peanuts is made in accordance with provisions of part 718 of this chapter. The report shall include:

(1) The name and address of the handler or person from whom peanuts were purchased or obtained as a gift for the purpose of planting the peanut acreage on the farm in the current year;

(2) The pounds of peanuts acquired for seed;

(3) The basis (farmers stock or shelled) of determining the quantity acquired;

(4) The type of peanuts acquired; and

(5) The date of acquisition.

(b) Unique strains of peanuts that are not commercially available and are retained on a farm to plant green peanuts shall also be reported to the county FSA office.
§ 729.405 Report of production and disposition.

(a) In addition to any other reports which may be required under this subpart, the farm operator or any producer on the farm shall furnish, upon written request by certified mail from the State Executive Director, a report to the State committee of production and disposition of the peanuts grown on the farm. The report must be filed on FSA–1010, Report of Production and Disposition, within 15 days after the request is mailed. The report shall show the:

(1) Final acreage of peanuts on the farm;
(2) Total production of peanuts on the farm;
(3) Name and address of the buyer to or through whom each lot of peanuts was marketed, the number of pounds in each lot, and the date marketed;
(4) Quantity and disposition of peanuts not marketed; and
(5) Type of peanuts.

(b) Notwithstanding paragraph (a) of this section, if peanuts are marketed in small lots to persons who are not established buyers, the report otherwise required in paragraph (a) of this section, may be made as either a daily or weekly summary of the number of pounds marketed and the place of marketing may be reported in lieu of the name and address of each buyer.

(c) Failure to file the FSA–1010 as requested or the filing of an FSA–1010 which is found by the State committee to be incomplete, incorrect, or in violation of the requirements of paragraphs (a) or (b) of this section, shall constitute failure of the producer to account for the production and disposition of peanuts produced on the farm and the producer shall be subject to marketing penalties as set forth in this part.

§ 729.406 Persons engaged in more than one business.

Any person who is required under this subpart to keep any record or make any report as a buyer, processor, or other person engaged in the business of shelling or crushing peanuts, and who is engaged in more than one such business, shall keep such records for each such business.

§ 729.407 Penalty for failure to keep records and make reports.

Any person, who dries farmers stock peanuts by artificial means for a producer, any buyer, warehouseman, processor, common carrier of peanuts, any broker or dealer in peanuts, any agency marketing peanuts for a buyer or dealer, any peanut growers’ cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts, or manufacturing peanut products, or any person owning or operating a peanut combine, or any farmer engaged in the production of peanuts, who fails to make any report or keep any record, including electronic records, as required under this part or who makes any false report or record shall be deemed to have improperly handled peanuts for the quantity of peanuts to which such failure applies for which a penalty may be assessed under the provisions of this part or part 1446 of this title, as applicable. Such liability is in addition to criminal penalties or other remedies permitted by law.

§ 729.408 Examination of records and reports.

The Deputy Administrator, the Director of the Tobacco and Peanuts Division, the FSA State Executive Director, or their designees, and all auditors and agents of the Office of Inspector General, United States Department of Agriculture (USDA) or the General Accounting Office are authorized to examine any records of any producer, or handler, or person buying or processing peanuts as deemed necessary to enforce the peanut poundage quota program and shall be allowed access to such records. Upon a request for such examination, any person who dries farmers stock peanuts by artificial means for a producer, any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any farmer engaged in the production of peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts or manufacturing peanut products, or any person owning or operating a peanut combine, shall make
available for examination such books, papers, automated records, electronic records, accounts, correspondence, contracts, documents, and memoranda as are under the control of the person receiving the request which any person hereby authorized to examine records has reason to believe are relevant to any matter which relates to the provisions of this part. Any person who fails to provide such access shall be subject to a penalty payable to CCC in amount up to, as determined by the Deputy Administrator, the amount calculated by multiplying the amount of peanuts involved by the quota support rate for the applicable crop year.

§ 729.409 Length of time records and reports are to be kept.

Records required to be kept and copies of the reports required to be made by any person under this subpart shall be on a marketing year basis and shall be retained for a period of 3 years after the end of the marketing year. Records shall be kept for such longer periods of time as may be required in writing by the State Executive Director, or the Director of the Tobacco and Peanuts Division.

§ 735.3 Application forms.

Applications for licenses under sections 4 and 9 of the act and for amendments of licenses under section 5 of the act shall be made to the Secretary upon forms prescribed for the purpose and furnished by the Service, shall be in English, shall truly state the information therein contained, and shall be signed by the applicant. The applicant shall at any time furnish such additional information as the Secretary or the Administrator shall find to be necessary to the consideration of his application.

§ 735.3a All facilities to be licensed or exempted.

All facilities within the same city or town used for the storage of cotton by an applicant for a warehouse license must qualify for a license and be licensed under the act if the applicant is to be licensed to operate as a cotton warehouseman in such city or town, unless the facilities which are not to be covered by a license are exempted by the Secretary or his designated representative upon a finding that, due to the exercise of adequate controls by some independent agency over the operation of nonfederally licensed facilities, there would be no likelihood of interchange or substitution of cotton stored in such facilities with cotton stored in the federally licensed facilities. If all such facilities do not qualify for a license or for an exemption under this section, the applicant shall not be licensed under the act as a cotton warehouseman in the city or town in which the facilities in question are located. Each applicant for a warehouse license must apply for a license covering all facilities operated by him for the storage of cotton within the same city or town for exemption as provided in this section. If a licensed cotton warehouseman acquires any additional cotton storage facilities within the same city or town in which his licensed warehouse is located, he shall file promptly an application for a license or an exemption of the additional facilities. No cotton storage facility acquired by a licensed cotton warehouseman, subsequent to the issuance of his license, in the same city or town as his licensed facilities, shall be used for the storage of cotton until it qualifies for license and is licensed or is exempted as provided in this section. If any one of the licensed cotton storage facilities operated by a warehouseman in the same city or town becomes ineligible for a license at any time for any reason, it shall not thereafter be used for the storage of cotton until the condition making it ineligible is removed or an exemption is granted as provided in this section. The use for the storage of cotton by a licensed warehouseman of a facility which is in the same city or town as his licensed facilities and is neither licensed nor exempted, or other violation of the provisions of this section, shall be cause for suspension or revocation of any license issued to the warehouseman for the storage of cotton.

§ 735.4 Grounds for not issuing a license.

A license for the conduct of a warehouse, or any amendment to a license, under the regulations in this part, shall not be issued if it is found by the Secretary, or his designated representative, that the warehouse is not suitable for the proper storage of cotton; that the warehouseman does not possess a good reputation, or does not have a net worth of at least $25,000, or is incompetent to conduct such warehouse in accordance with the act and the regulations in this part; or that there is any other sufficient reason within the intent of the act for not issuing such license. If all the facilities operated for the storage of cotton by the applicant within the same city or town are not to be licensed under the act, the applicant shall not be licensed as a cotton warehouseman with respect to any of such facilities, unless an exemption is granted as provided in § 735.3a.

§ 735.5 Financial requirements.

(a) Each warehouseman conducting a warehouse licensed under the Act or for which application for a license

under the Act has been made must maintain complete, accurate, and current financial records which shall be available to the Secretary for review or audit at the Secretary’s request.

(b) Each warehouseman conducting a warehouse for which application for license under the Act is made shall provide with the application and each licensed warehouseman: shall annually, or more frequently if required, furnish to the Secretary, financial statements from the records required in paragraph (a) of this section, prepared according to generally accepted accounting principles. Such statements shall include but not be limited to: (1) Balance sheet, (2) statement of income (profit and loss), (3) statement of retained earnings, and (4) statement of changes in financial position. The chief executive officer for the warehouseman shall certify under penalty of perjury that the statements, as prepared, accurately reflect the financial condition of the warehouseman as of the date designated and fairly represent the results of operations for the period designated.

(c) Each warehouseman conducting a warehouse licensed under these regulations shall have the financial statements required in paragraph (b) of this section audited or reviewed by an independent public accountant. The Secretary may, at his discretion, require an audited financial statement prepared by an independent certified public accountant. He may also, at his discretion, require an on-site examination and an audit by USDA personnel. Audits and reviews by independent certified public accountants and independent public accountants specified in this section must be made in accordance with standards established by the American Institute of Certified Public Accountants. The accountant’s certification, assurances, opinion, comments, and notes on such statements, if any, must be furnished along with the financial statements. Licensees who cannot immediately meet these requirements may apply to the Secretary for a temporary waiver of this provision. The Secretary may grant such waiver for a period not to exceed 180 days if the licensee can furnish evidence of good and substantial reasons therefor.

(d) Each warehouseman conducting a warehouse which is licensed under this part, or for which application for such a license has been made, must have and maintain:

(1) Total net assets liable and available for the payment of any indebtedness arising from the conduct of the warehouse of at least the amount obtained by multiplying $10.00 by the warehouse capacity in bales to a maximum of $250,000 in each State; however, no person may be licensed or remain licensed as a warehouseman under this part unless that person has allowable net assets of at least $25,000 in each State. (Any deficiency in net assets above the $25,000 minimum may be supplied by an increase in the amount of the warehouseman’s bond in accordance with §735.12(c) of this part); and

(2) Total current assets equal to or exceeding total current liabilities or evidence acceptable to the Secretary that funds will be and remain available to meet current obligations.

(e) If a warehouseman is licensed or is applying for licenses to operate two or more warehouses under this part, the maximum number of bales which all such warehouses will accommodate when stored in the manner customary to the warehouses, as determined by the Secretary, shall be considered in determining whether the warehouseman meets the net asset requirements specified in paragraph (d) of this section.

(f) Subject to such terms and conditions as the Secretary may prescribe and for the purposes of determining allowable assets and liabilities under paragraphs (d) and (e) of this section:

(1) Capital stock will not be considered a liability;

(2) Appraisals of the value of fixed assets in excess of the book value claimed in the financial statement submitted by a warehouseman to conform with paragraphs (b) and (c) of this section may be allowed if (i) prepared by independent appraisers acceptable to the Secretary and (ii) the assets are fully insured against casualty loss;

(3) Financial statements of a parent company which separately identifies the financial position of the warehouse as a wholly owned subsidiary and

Immediately upon receipt of his license or of any modification or extension thereof under the act, the warehouseman shall post the same, and thereafter, except as otherwise provided in the regulations in this part, keep it posted until suspended or terminated, in a conspicuous place in the principal office where receipts issued by the warehouseman are delivered to depositors.

§ 735.6 Suspension or revocation of warehouse licenses.

Pending investigation, the Secretary, or his designated representative, whenever he deems necessary, may suspend a warehouseman’s license temporarily without hearing. Upon written request and a satisfactory statement of reasons therefor, submitted by a warehouseman, the Secretary, or his designated representative, may, without hearing, suspend or cancel the license issued to such warehouseman. The Secretary, or his designated representative, may, after opportunity for hearing has been afforded in the manner prescribed in this section, suspend or revoke a license issued to a warehouseman when such warehouseman:

(a) Does not have a net worth of at least $25,000;
(b) Has parted, in whole or in part, with his control over the licensed warehouse;
(c) Is in process of dissolution or has been dissolved;

(h) Has in any other manner violated or failed to comply with any provision which meets the requirements of paragraphs (b), (c), and (d) of this section.

§ 735.7 Suspension or revocation of warehouse licenses.

Immediately upon receipt of his license or of any modification or extension thereof under the act, the warehouseman shall post the same, and thereafter, except as otherwise provided in the regulations in this part, keep it posted until suspended or terminated, in a conspicuous place in the principal office where receipts issued by the warehouseman are delivered to depositors.

§ 735.6 License shall be posted.

Immediately upon receipt of his license or of any modification or extension thereof under the act, the warehouseman shall post the same, and thereafter, except as otherwise provided in the regulations in this part, keep it posted until suspended or terminated, in a conspicuous place in the principal office where receipts issued by the warehouseman are delivered to depositors.

§ 735.5(d), (1) and (2);
§ 735.8 Return of suspended or revoked warehouse license.

In case a license issued to a warehouseman terminates or is suspended or revoked by the Secretary, or his designated representative, such license shall be returned to the Secretary. At the expiration of any period of suspension of such license, unless it be in the meantime revoked, the dates of the beginning and termination of the suspension shall be indorsed thereon, it shall be returned to the warehouseman to whom it was originally issued, and it shall be posted as prescribed in §735.6; or in the discretion of the Administrator a new license may be issued.

§ 735.9 Lost or destroyed warehouse license.

Upon satisfactory proof of the loss or destruction of a license issued to a warehouseman, a duplicate thereof may be issued under the same number.

§ 735.10 Unlicensed warehousemen must not represent themselves as licensed.

No warehouse or its warehouseman shall be designated as licensed under the act and no name or description conveying the impression that it or he is so licensed shall be used, either in a receipt or otherwise, unless such warehouseman holds an unsuspended and unrevoked license for the conduct of such warehouse.

WAREHOUSE BONDS

§ 735.11 Bond required; time of filing.

Each warehouseman applying for a warehouse license under the act shall, before such license is granted, file with the Secretary or his designated representative a bond either:

(a) In the form of a bond containing the following conditions and such other terms as the Secretary or his designated representative may prescribe in the approved bond forms, with such changes as may be necessary to adapt the forms to the type of legal entity involved:

Now, therefore, if the said license(s) or any amendments thereto be granted and said principal, and its successors and assigns operating said warehouse(s), shall faithfully perform during the period of this bond all obligations of a licensed warehouseman under the terms of [the United States Warehouse Act] and regulations thereunder relating to the above-named products.

Then this obligation shall be null and void and of no effect, otherwise to remain in full force. For purposes of this bond, the aforesaid obligations under the Act, regulations, and contracts include obligations under any and all modifications of the Act, the regulations, and the contracts that may hereafter be made, notice of which modifications to the surety being hereby waived.

This bond shall remain in force and effect for a minimum term of one year beginning with the effective date of this bond and thereafter shall be considered as a continuous bond, subject to termination as herein provided.

Regardless of the number of years this bond remains in force, or the number of premiums paid, and regardless of the number or amount of claims or claimants, in no event shall the aggregate liability of the surety under this bond exceed the amount of this bond.

This bond may be terminated at the end of the initial one year term by providing at least 120 days advance written notice of cancellation to the Secretary. This bond may be canceled at any time after the initial one year term beginning with the bond effective date by providing 120 days advance written notice of cancellation to the Secretary. If said notice is given by the surety, a copy of the notice shall be mailed on the same day
to the principal. Cancellation of this bond shall not affect any liability that shall have accrued under this bond prior to the effective date of cancellation.

This bond shall be effective on and after

A bond in this form shall be subject to 7 CFR 735.5 and 735.12 through 735.15, and 31 CFR part 225; or

A certificate of participation and coverage in such fund shall be furnished to the Secretary annually. If administration or application of the fund shall change after being approved by the Secretary, the Secretary may revoke his approval. Such revocation shall not affect a depositor's rights which have arisen prior to such revocation. Upon such revocation the licensed warehouseman then must comply with paragraphs (a) or (c) of this section. Such certificate of participation shall not be subject to §§ 735.12 and 735.13; or

(c) In case of a deficiency in net assets above the twenty-five thousand dollars ($25,000) minimum required by §735.5(d)(1), there shall be added to the amount of bond determined in accordance with paragraph (a) of this section an amount equal to such deficiency or a letter of credit in the amount of the deficiency issued to the Secretary for a period of not less than two years to coincide with the period of any deposit of obligations under 7 CFR 735.11(c). Any letter of credit must be clean, irrevocable, issued by a commercial bank payable to the Secretary by sight draft and insured as a deposit by the Federal Deposit Insurance Corporation.

(d) If the Secretary, or his designated representative, finds that conditions exist which warrant requiring additional bond, there shall be added to the amount of bond as determined under the other provisions of this section, a further amount to meet such conditions.

In the discretion of the Secretary, a properly executed instrument in form approved by him, amending, extending, or continuing in force and effect the obligations of a valid bond previously filed by the warehouseman and otherwise complying with the act and the regulations in this part may be filed in lieu of a new bond.

§ 735.14 Bond required each year.

A continuous form of license shall remain in force for more than one year from its effective date or any subsequent extension thereof, provided that the warehouseman has on file with the Secretary a bond meeting the terms and conditions as outlined in 7 CFR 735.11. Such bond must be in the amount required by the Secretary and approved by him or his designated representative. Failure to provide for or renew a bond shall result in immediate and automatic termination of the warehouseman’s license.

§ 735.15 Approval of bond.

No bond, amendment, or continuation thereof shall be accepted for the purposes of the act and the regulations in this part until it has been approved by the Secretary, or his designated representative.

(b) If cotton is tendered to a licensed warehouseman for storage and the cotton is of the same grade and staple and is tendered in such quantity by any one depositor that efficiency of operation dictates that such cotton should be stored in a lot or lots without regard to visibility of all tags on all bales within any lot, the warehouseman may store such cotton if each lot originally contained two or more bales: Provided, however, that each bale entering into a lot must bear an individual bale identification, and must be stored so that the number of bales within the lot may be accurately determined.

(b) A warehouseman who lacks space and desires to transfer at his own expense, identity preserved depositor stored cotton, for which receipts have been issued to another licensed warehouse may physically do so subject to the following terms and conditions:

The receiving warehouseman will store each such lot intact, and will attach a header card to the lot showing the receipt number, number of bales, and a copy of the Bill of Lading with the individual tag numbers, marks, or identifiers to the stored lot. (4) The shipping warehouseman’s bond shall be increased to consider the addition of the transferred cotton to the licensed capacity of the warehouse with the net asset requirements based on the total of the licensed capacity and the forwarded cotton (The bond amount need not be more than $250,000 unless necessary to cover a deficiency in net assets to meet requirements. The receiving warehouseman must not incur storage obligations that exceed the licensed capacity of the receiving warehouse);

(5) The shipping warehouseman continues to retain storage obligations to the owners of all cotton deposited in the warehouse for storage whether forwarded or retained and is, except as otherwise agreed upon under paragraph (b)(6) of this section, required to redeliver the cotton, upon demand, to the depositor or the depositor’s transferee at the warehouse where the cotton was first deposited for storage;

(6) The owner of cotton deposited for storage at the warehouse must make settlement and take delivery at the warehouse where the cotton was first deposited for storage, unless the owner of the cotton, with the consent of both the shipping warehouseman and the receiving warehouseman, elects to take delivery at the warehouse to which cotton was transferred under this section;

(7) Nothing in this section diminishes the right of the owner of the cotton to receive or the obligation of the warehouseman of a licensed warehouse from which the product is transferred, to deliver to the owner the same cotton, identity preserved, called for by the warehouse receipt or other evidence of storage;

(8) Recording and retention of non-negotiable warehouse receipts received as a result of forwarding cotton under this section shall be subject to the requirements for warehouse receipts specified elsewhere in these regulations; and

(9) If it is the shipping warehouseman’s obligation by terms of the warehouse receipt or otherwise to insure the cotton subject to the transfer, he must in accordance with 7 CFR 735.23 keep such cotton insured in his own name or transfer the cotton only to a warehouse where the cotton is fully insured.

[59 FR 51358, Oct. 11, 1994]

§ 735.51  Warehouse annual and inspection fees.
warehousemen must pay:

3. Satisfactory evidence that he is competent to sample, classify and/or weigh cotton;

4. A statement by the applicant that he agrees to comply with and abide by the terms of the act and the regulations in this part so far as the same may relate to him; and

5. Such other information as the Administrator may deem necessary:

Provided, That when an application for a license to classify cotton is filed by a person who does not intend to classify cotton for any particular licensed warehouseman but who does intend to classify cotton stored or to be stored in a licensed warehouse and to issue class certificates therefor, as provided for by the act and the regulations in this part, independent of the warehouse receipts issued to cover such cotton, it shall not be necessary to furnish such statement as is required in this paragraph.
§ 735.55

Upon a written request and a satisfactory statement of reasons therefore, submitted by a licensed sampler, classifier, and/or weigher, the Secretary, or his designated representative, may, without hearing, suspend or revoke the license issued to such licensed sampler, classifier, and/or weigher. The Secretary, or his designated representative, may, after opportunity for hearing has been afforded in the manner prescribed in this section, suspend or revoke a license issued to a licensed sampler, classifier, and/or weigher when such licensed sampler, classifier, and/or weigher (a) has ceased to perform services as such sampler, classifier, and/or weigher, or (b) has in any other manner become incompetent or incapacitated to perform the duties of such licensed sampler, classifier, and/or weigher. As soon as it shall come to the attention of a licensed warehouseman that any of the conditions mentioned under (a) or (b) of this section exist, it shall be the duty of such warehouseman to notify, in writing, the Administrator. Before the license of any licensed sampler, classifier, and/or weigher is permanently suspended or revoked pursuant to section 12 of the act, such licensed sampler, classifier, and/or weigher shall be furnished by the Secretary or by his designated representative, a written statement specifying the charges and shall be allowed a reasonable time within which he may answer the same in writing and apply for a hearing, an opportunity for which shall be afforded in accordance with § 735.89.

§ 735.65 Suspended or revoked licenses; return; termination of license.

(a) In case a license issued to a sampler, classifier, and/or weigher is suspended or revoked by the Secretary, or his designated representative, such license shall be returned to the Secretary. Thereupon the license of such sampler, classifier, and/or weigher shall be returned to the Secretary. In case such license shall apply to other warehouses, the Secretary, or his designated representative, shall issue to him a new license, omitting the names of the warehouses covering which licenses have been revoked. Such new license shall be posted as prescribed in § 735.56.

§ 735.66 Lost or destroyed licenses.

Upon satisfactory proof of the loss or destruction of a license issued to a licensed sampler, classifier, and/or weigher, a duplicate thereof may be issued under the same number.

§ 735.67 Unlicensed classifiers and weighers.

No person shall in any way represent himself to be a sampler, classifier, and/or weigher licensed under the act unless he holds an unsuspended and unrevoked license issued under the act.

for the purpose of the act or the regulations in this part it shall be stated in accordance with §§ 735.68 through 735.73 as far as applicable.

§ 735.69 Official cotton standards of the United States.

The official cotton standards of the United States, established and promulgated under the United States Cotton Standards Act of March 4, 1923 (42 Stat. 1517; 7 U.S.C. 51–56), within their scope, are hereby adopted as the official cotton standards for the purposes of the act and the regulations in this part.

§ 735.70 Defective cotton; designation; terms defined.

In the case of paragraph (a)(1) of this section the particular extraneous matter or irregularities or defects shall be stated.

(b) If cotton be reduced in value, by reason of the presence of extraneous matter of any character or irregularities or defects, below its grade or below its apparent length of staple according to the official cotton standards of the United States, the grade or length of staple from which it is so reduced, and the grade or length of staple to which it is so reduced, and the quality or condition which so reduces its value shall be determined and stated.

(c) For the purposes of this section, the following terms shall be construed, respectively, to mean:

(1) Cotton of perished staple. Cotton that has had the strength of fiber as ordinarily found in cotton destroyed or unduly reduced through exposure to the weather either before picking or after baling, or through heating by fire, or on account of water packing, or by other causes.

(2) Cotton of immature staple. Cotton that has been picked and baled before the fiber has reached a normal state of maturity, resulting in a weakened staple of inferior value.

(3) Gin-cut cotton. Cotton that shows damage in ginning through cutting by the saws, to an extent that reduces its value more than two grades.

(4) Reginned cotton. Cotton that has passed through the ginning process more than once and cotton that, after having been ginned, has been subjected to a cleaning process and then baled.

(5) Repacked cotton. Cotton that is composed of factors', brokers', or other samples, or of loose or miscellaneous lots collected and rebaled, or cotton in a bale which is composed of cotton from two or more smaller bales or parts of bales.

(6) False packed cotton. Cotton in a bale (i) containing substances entirely foreign to cotton, (ii) containing damaged cotton in the interior with or without any indication of such damage upon the exterior, (iii) composed of good cotton upon the exterior and decidedly inferior cotton in the interior in such manner as not to be detected by customary examination—that is, a plated bale, or (iv) containing pickings or linters worked into the bale.

(7) Mixed packed cotton. Cotton in a bale which, in the samples drawn therefrom, shows (i) a difference of three or more grades, or (ii) a difference of three or more color gradations, or (iii) a difference of two or more grades and two or more color gradations, or (iv) a difference in length of staple of one-eighth inch or more.

(8) Water packed cotton. Cotton in a bale that has been penetrated by water during the baling process, causing damage to the fiber, or a bale that through exposure to the weather or by other means, while apparently dry on the exterior, has been damaged by water in the interior.
§ 735.71 Class based on inspection and sample.

Whenever the grade or other class of cotton is required to be, or is, stated by a warehouseman or a classifier or board of cotton examiners for the purposes of the act or the regulations in this part, it shall be based upon a careful inspection of and a sample properly drawn from the cotton. Samples submitted to a board of cotton examiners for issuance of Form A memorandums and samples from which classification is to be determined by licensed classifiers for purposes of the Act and the regulations in this part shall be drawn by samplers licensed under the Act and said regulations and in accordance with § 735.72.

§ 735.72 Samples.

Each sample shall be approximately 6 ounces in weight, not less than 3 ounces of which are to be drawn from each side of the bale. Each sample must be representative of the bale from which drawn. Samples shall not be dressed or trimmed and shall be carefully handled in such manner as not to cause loss of leaf, sand, or other material, or otherwise change their representative character. Any sample which does not meet these requirements may be rejected.

§ 735.73 Lower grade (of two samples) to determine classification.

If a sample drawn from one portion of a bale is lower in grade or shorter in length than one drawn from another portion of such bale, the classification of the bale shall be that of the sample showing the lower grade or shorter length.

§ 735.74 Access to official cotton standards.

Each licensed warehouseman and each licensed classifier shall keep himself provided with, or have access to, a set of practical forms of the official cotton standards of the United States, or such parts thereof as the Administrator may deem necessary for use in the locality in which the licensed warehouse is located.

COTTON APPEALS

§ 735.75 Who may appeal.

Whenever the grade or other class of cotton, for which official cotton standards of the United States are in effect, is stated on a receipt or a cotton class certificate issued under the act and the regulations in this part, and a question arises as to the true grade or other class of such cotton, any person having an interest in the cotton may take an appeal for the determination of such question.

§ 735.76 Complaint.

In order to take such an appeal a complaint in writing in accordance with § 735.77 shall be filed with a duly authorized cotton examiner or a board of cotton examiners, or with the Administrator, who shall designate a cotton examiner or a board of cotton examiners for the purpose of disposing of such complaint.

(6) The grade or other class assigned by the licensed classifier, if any;

(7) The grade or other class, different from that assigned by the licensed warehouseman, which is contended for by any interested party;

(9) If samples have been agreed upon and submitted in accordance with §735.79(b).

(b) When practicable, the complainant shall file with the complaint, the warehouse receipt or class certificate, if any, covering the cotton involved in the appeal. When such receipt or certificate is not filed before the issuance of the cotton appeal certificate, a definite statement indicating why such papers are not produced shall be filed with the complaint.

[64 FR 54511, Oct. 7, 1999]

§ 735.78 Proof of agent’s authority.

In case a complaint is filed under §§735.75 through 735.77 by a person purporting to act in behalf of another person, the Administrator, or the cotton examiner or the board of cotton examiners with whom it was filed, may, if considered necessary, require proof of the authority of such person to file the complaint.

§ 735.79 Determination of appeals; samples.

(a) Appeals taken hereunder shall be determined upon the basis of samples of the cotton involved which have been drawn and submitted in accordance with this section.

(b) The complainant may submit samples of the cotton involved which have been agreed upon by the licensed warehouseman in whose warehouse the cotton is stored and the interested parties other than such warehouseman, or have been drawn by a disinterested person selected for the purpose by the warehouseman and such parties. Such samples shall be drawn in accordance with §735.72.

§ 735.80 Dismissal of appeals.

The Administrator or the cotton examiner or board of cotton examiners by whom an appeal is heard may dismiss such appeal upon request of the complainant, or for noncompliance with the regulations in this part, or if it be found that the appeal was not taken in good faith. In case of an appeal filed in the first instance with a cotton examiner, a dismissal upon request of the complainant shall be made only before notice of grade or other class as provided in §735.81 is issued.

§ 735.81 Cotton appeal certificate.

When an appeal filed with a board of cotton examiners has been determined, it shall immediately issue a cotton appeal certificate. When an appeal has been determined by a cotton examiner he shall issue a notice, a copy of which shall be sent by him to all parties shown by the record of the appeal to have an interest therein. In such notice the grade or other class assigned by him to the cotton involved in the appeal shall be stated, and any such interested party shall have a reasonable time, fixed in such notice, within which he may request of the Administrator a review of the appeal by a board of cotton examiners. In case such request is not filed with such cotton examiner in the time fixed therefor, or in case within such time every such interested party waives in writing a review by a board of cotton examiners, the cotton examiner shall immediately issue a cotton appeal certificate showing the grade or other class assigned to the cotton by him. In case a request under this section for a review of an appeal is filed within the time fixed for the filing of such request, the cotton examiner shall note in his records the time of such filing and shall immediately notify the Administrator, who shall cause the appeal to be reviewed.
§ 735.82 Expenses paid by complainant.

All expenses for the transmission of communications from the complainant, for telegraph and telephone toll charges on messages addressed to him, and for drawing and submitting samples required by §735.79, including such traveling expenses, if any, incurred in accordance with the fiscal regulations of the Department as the Administrator may deem proper, shall be borne by the complainant in the appeal in connection with which such expenses were incurred.

§ 735.83 Advance deposit by complainant.

If required by the cotton examiner or board of cotton examiners by whom the appeal is heard, the complainant shall make an advance deposit to cover the expenses payable by him under §735.82. Such deposit shall be in an amount fixed by the cotton examiner or board of cotton examiners, and shall be in the form of a check, certified if required by the Administrator or a post office or express money order, payable to the order of “Treasurer of the United States.” As soon as possible after the determination of an appeal in connection with which any such advance deposit shall have been made, the Administrator shall furnish the Treasurer of the United States with a statement of the expenses, if any, chargeable against such advance deposit. Thereupon the Treasurer of the United States shall return to the person making the advance deposit as much thereof as shall not be required for the payment of such expenses.

§ 735.84 New warehouse receipt.

Upon demand by the lawful holder of a receipt for cotton involved in an appeal under §§735.75 through 735.85, the licensed warehouseman shall surrender to such holder the original cotton appeal certificate issued in such appeal, and, if the grade or other class shown by such certificate be different from that shown by the receipt, shall, upon the return of the old receipt, issue a new receipt stating the grade or other class shown by such cotton appeal certificate.

§ 735.85 Disposition of samples.

Samples submitted in appeals under this part may be used for the purposes of the Department or disposed of in accordance with the property regulations of the Department, and the proceeds, if any, covered into the Treasury of the United States as miscellaneous receipts, or may, at any time, in the discretion of the Administrator, be returned to the complainant at his expense.

§ 735.200  Applicability.

The cotton shipping standard set forth in §735.201 is applicable to all cotton warehousemen licensed under the Act and to all warehousemen that issue electronic warehouse receipts through an authorized electronic warehouse receipt provider in accordance with part 735 regardless of whether the warehouse is licensed under the Act.

§ 735.201  Cotton shipping standard.

Unless prevented from doing so by force majeure, a warehouseman identified in §735.200 shall deliver stored cotton without unnecessary delay. A warehouseman shall be considered to have delivered cotton without unnecessary delay, if for the week in question, the warehouseman has delivered or staged for scheduled delivery at least 4.5 percent of either their licensed storage capacity or Commodity Credit Corporation-approved storage capacity or other storage capacity as determined by the Secretary to be in effect during the relevant week of shipment.

§ 735.202  Compliance and dispute resolution.

(a) Any claim for noncompliance with the cotton shipping standard may be resolved by the parties involved through established industry, professional, or mutually agreed upon arbitration procedures. The arbitration procedures shall be nondiscriminatory and provide each person equal access and protection relating to the cotton shipping standard.

(b) No arbitration determination or award resulting from noncompliance with the shipping standard shall affect, obligate, or restrict the Service’s authority to provide, administer, and regulate the issuance of a license, receipt,

(c) The Service shall not settle unresolved disputes involving the cotton shipping standard or associated damages.

(d) In the event a party requests assistance from or initiates the involvement of the Service in a matter relating to the cotton shipping standard, the initiating party shall be responsible for all costs incurred by the Service. Costs incurred that exceed the Service’s good faith estimate will be the responsibility of the initiating party.

Immediately upon receipt of his license or of any modification or extension thereof under the act, the warehouseman shall post same, and thereafter, except as otherwise provided in the regulations in this part, keep it posted until suspended or terminated, in a conspicuous place in the principal office where receipts issued by such warehouseman are delivered to depositors.
§ 736.9 Warehouse license; suspension; revocation.

Pending investigation, the Secretary, or his designated representative, whenever he deems necessary, may suspend a warehouseman's license temporarily without hearing. Whenever any of the conditions mentioned in paragraphs (a) through (h) of this section shall come into existence, it shall be the duty of the warehouseman to notify the Administrator immediately of the existing condition. Before a license is revoked or suspended (other than temporarily pending investigation) for any violation of, or failure to comply with, any provision of the act or of the regulations in this part, or upon the ground that unreasonable or exorbitant charges have been made for services rendered, the warehouseman involved shall be furnished by the Secretary, or his designated representative, a written statement, specifying the charges and shall be allowed a reasonable time within which he may answer the same in writing and apply for a hearing, an opportunity for which shall be afforded in accordance with §736.99.

§ 736.10 Return of suspended or revoked license.

In case a license issued to a warehouseman terminates or is suspended or revoked by the Secretary or his designated representative, such license shall be immediately returned to the Secretary. At the expiration of any period of suspension of such license, unless it be in the meantime revoked, the dates of the beginning and termination of the suspension shall be indorsed thereon, it shall be returned to the warehouseman to whom it was originally issued and it shall be posted as prescribed in §736.8. Provided, That in the discretion of the Secretary, or his designated representative, a new license may be issued without reference to the suspension.

§ 736.11 Lost or destroyed warehouse license.

Upon satisfactory proof of the loss or destruction of a license issued to a warehouseman, a duplicate thereof, or a new license may be issued under the same number.

§ 736.12 Unlicensed warehousemen must not represent themselves as licensed.

No warehouse or its warehouseman shall be designated as licensed under the act, and no name or description conveying the impression that it or he is so licensed shall be used, either in a receipt or otherwise, unless such warehouseman holds an unsuspended and unrevoked license for the conduct of such warehouse.

For purposes of this bond, the aforementioned obligations under the Act and regulations and contracts include obligations under any and all modifications of the Act, the regulations, and the contracts that may hereafter be made, notice of which modifications to the surety being hereby waived.

This obligation shall be and remain in full force and effect for a minimum of one year beginning with the effective date and shall be considered a continuous bond thereafter until terminated as herein provided.

This obligation shall be and remain in full force and effect from date of issue until one hundred twenty (120) days after notice in writing of cancellation shall have been received by the Secretary from the principal or surety. If said notice shall be given by the surety, a copy thereof shall be mailed on the same day to the principal. Cancellation of this bond and cancellation of any of its provisions shall not affect any liability accrued thereon at the time of said notice or which may accrue thereon during the one hundred twenty (120) days after such notice.

A bond in this form shall be subject to 7 CFR 736.6 and 736.14 through 736.17, and 31 CFR part 225, or

(b) In the form of a certificate of participation in and coverage by an indemnity or insurance fund as approved by the Secretary, established and maintained by a State, backed by the full faith and credit of the applicable State, and which guarantees depositors of the licensed warehouse full indemnification for the breach of any obligation of the licensed warehouseman under the terms of the Act and regulations. A certificate of participation and coverage in such fund shall be furnished to the Secretary annually. If administration or application of the fund shall change after being approved by the Secretary, the Secretary may revoke his approval. Such revocation shall not affect a depositor’s rights which have arisen prior to such revocation. Upon such revocation the licensed warehouseman then must comply with paragraph (a). Such certificate of participation shall not be subject to §§736.14 and 736.15, or

(c) In the form of a deposit with the Secretary as security, United States bonds, Treasury notes, or other public debt obligations of the United States or obligations which are unconditionally guaranteed as to both interest and principal by the United States, in a sum equal at their par value to the amount of the penal bond required to be furnished, together with an irrevocable power of attorney and agreement in the form prescribed, authorizing the Secretary to collect or sell, assign and transfer such bonds or notes so deposited in case of any default in the performance of any of the conditions or stipulations of such penal bond.

Obligations posted in accordance with this paragraph may not be withdrawn by the warehouseman until one year after license termination or until satisfaction of any claims against the obligations whichever is later. A bond in this form shall be subject to 7 CFR 736.6 and 736.14 through 736.17 and 31 CFR part 225.

[52 FR 37127, Oct. 5, 1987]

§ 736.14 Amount of bond; additional amounts.

(a) The amount of bond to be furnished for each warehouse under the regulations in this part shall be fixed at a rate of 20 cents per bushel for the first 1,000,000 bushels of licensed capacity; 15 cents per bushel for the next 1,000,000 bushels of licensed capacity; and 10 cents per bushel for all licensed capacity over 2,000,000 bushels: Provided, That in any case the amount of
bond shall not be less than $20,000 nor more than $500,000, except as prescribed in paragraph (c) of this section. The licensed capacity shall be the maximum number of bushels of grain that the warehouse could accommodate as determined under §736.6(d).

(b) In case a warehouseman is licensed or is applying for licenses to operate two or more warehouses in the same State he may give a single bond meeting the requirements of the Act and the regulations in this part to cover all his warehouses within the State. In such case the warehouses to be covered by the bond shall be deemed to be one warehouse only for purposes of determining the amount of bond required under paragraph (a) of this section.

(c) In case of a deficiency in net assets above the $50,000 minimum required under §736.6(d)(1), there shall be added to the amount of bond determined in accordance with paragraph (a) of this section an amount equal to such deficiency or a letter of credit in the amount of the deficiency issued to the Secretary for a period of not less than two years to coincide with the period of any deposit of obligation under 7 CFR 736.13(c). Any letter of credit must be clean, irrevocable, issued by a commercial bank, payable to the Secretary by sight draft and insured as a deposit by the Federal Deposit Insurance Corporation. If the Secretary, or his designated representative, finds that conditions exist which warrant requiring additional bond, there shall be added to the amount of bond as determined under the other provisions of this section, a further amount to meet such conditions.

§ 736.16 New bond required each year.

A continuous form of license shall remain in force for more than one year from its effective date or any subsequent extension thereof, provided that the warehouseman has on file with the Secretary a bond meeting the terms and conditions as outlined in 7 CFR 736.13. Such bond must be in the amount required by the Secretary and approved by him or his designated representative. Failure to provide or renew a bond shall result in immediate and automatic termination of the warehouseman’s license.

§ 736.17 Approval of bond.

No bond, amendment, or continuation thereof shall be accepted for the purposes of the act and the regulations in this part until it has been approved by the Secretary, or his designated representative.

WAREHOUSE RECEIPTS

§ 736.18 Form.

(a) Every receipt, whether negotiable or nonnegotiable, issued for grain stored in a licensed warehouse shall, in addition to complying with the requirements of section 18 of the act, embody within its written or printed terms the following:

(1) The name of the warehouseman and the designation, if any, of the warehouse,

(2) A statement whether the warehouseman is incorporated or unincorporated, and if incorporated, under what laws,
§ 736.20 Copies of receipts.

At least one actual or skeleton copy of all receipts shall be made, and all copies, except skeleton copies, shall have clearly and conspicuously printed...
§ 736.21 Lost or destroyed receipts; bond.

(a) In the case of lost or destroyed receipts, if there be no statute of the United States or law of a State applicable thereto a new receipt upon the same terms, subject to the same conditions, and bearing on its face the number and the date of the receipt in lieu of which it is issued and a plain and conspicuous statement that it is a duplicate receipt issued in lieu of a lost or destroyed receipt, may be issued upon compliance with the conditions set out in paragraph (b) of this section.

(b) Before issuing such new or duplicate negotiable receipt the warehouseman shall require the depositor or other person applying therefor to make and file with him (1) an affidavit showing that the applicant is lawfully entitled to the possession of the original receipt, that he has not negotiated or assigned it, how the original receipt was lost or destroyed, and if lost, that diligent effort has been made to find the receipt without success, and (2) a bond in an amount double the value, at the time the bond is given, of the grain represented by the lost or destroyed receipt, may be issued upon compliance with the conditions set out in paragraph (b) of this section.

(c) Before issuing such new or duplicate non-negotiable receipt, obtain a written statement from the holder that the original non-negotiable receipt is lost and requires the issuance of a duplicate non-negotiable receipt.

§ 736.22 Printing of receipts.

No receipt shall be issued by a licensed warehouseman unless it is:

(a) In a form prescribed by the Administrator,

(b) Upon distinctive paper or card stock specified by the Administrator,

(c) Printed by a printer with whom the United States has a subsisting agreement and bond for such printing, and

(d) On paper and/or card stock tinted with ink in the manner prescribed by the agreement under paragraph (c) of this section.

§ 736.23 Partial delivery of grain.

If a warehouseman delivers a part only of a lot of grain for which he has issued a negotiable receipt under the act, he shall take up and cancel such receipt and issue a new receipt in accordance with the regulations in this part for the undelivered portion of the grain. The new receipt shall show the date of issuance and also indicate the number and date of the receipt first issued.

§ 736.24 Return of receipts before delivery of grain.

Except as permitted by law or by the regulations in this part, a warehouseman shall not deliver any grain for which he has issued a negotiable receipt until the receipt has been returned to him and canceled; and shall not deliver grain for which he has issued a non-negotiable receipt until such receipt has been returned, or he has obtained from the depositor or the depositor’s agent, a written order therefore and a receipt upon delivery.
§ 736.25 Nonnegotiable receipts.

Each person to whom a nonnegotiable receipt is issued shall furnish the warehouseman with a statement in writing indicating the person or persons having power to authorize delivery of grain covered by such receipt, together with the bona fide signature of such person or persons. No licensed warehouseman shall honor an order for the release of grain covered by a nonnegotiable receipt until he has first ascertained that the person issuing the order has authority to order such release, and that the signature of the releasing party is genuine.

§ 736.26 Omission of grade; no compulsion by warehouseman.

No warehouseman shall, directly or indirectly by any means whatsoever, compel or attempt to compel the depositor of any grain stored or offered for storage in his warehouse to request the issuance of a receipt omitting the statement of grade.

§ 736.27 Loading out without weighing.

(a) When the lawful owner of an entire lot of identity preserved grain or a mass of grain stored in a single bin requests the warehouseman to deliver said lot or mass without reweighing said grain, the warehouseman may make such delivery if there is an accurate record of the weight of such grain when received. Such deliveries shall be made only when the lawful owner agrees to assume all shortages and other risks incidental thereto, and after the warehouse receipts covering all of the grain in the container have been surrendered to the warehouseman and canceled. After the receipts covering such grain have been surrendered for cancellation no other grain shall be placed in the bin until the entire lot has been delivered.

(b)(1) When the lawful owner of fungible grain requests the warehouseman to deliver grain out of the warehouse without weighing, the warehouseman may, but is not compelled to, make such delivery provided the grain is to be moved into another warehouse in the United States where weights can be established. The weights established at the receiving warehouse must be supervised by an independent weighing agency unless the shipping warehouse and the receiving warehouse are operated by the same warehouseman, or unless destination weights are available within 24 hours of shipment. Whenever a warehouseman delivers fungible grain out of a warehouse without weighing, the weight of the grain unloaded at the receiving warehouse shall be the weight used to determine fulfillment of the shipping warehouseman’s delivery obligations.

(2) When fungible grain is delivered out of the warehouse without weighing, the warehouseman shall estimate as accurately as possible the weight of the grain delivered out and shall promptly obtain destination weights from the receiving warehouse. Should the Administrator determine that such estimated weights are not reasonably accurate, or that destination weights are not promptly obtained, or that destination weights are not supervised by an independent weighing agency when required, he may thereafter require the warehouseman to weigh all fungible grain delivered out of the warehouse.

(3) Any weight certificate issued covering grain delivered out of the warehouse without being weighed must state in bold letters on the face of the certificate the fact that the weight is an estimated weight.

§ 736.29 Receipts; basis for issuance.

Before issuing any receipt under the Act each warehouseman shall, unless he personally weighed, inspected, and graded, if graded, a lot of grain, first obtain either a copy of, or the original weight certificate, and inspection certificate, if any, covering said lot of
§ 736.30 Receipts for stored grain.

Receipts must be issued for all grain stored in a warehouse. Receipts need not be issued against nonstorage grain, but each warehouseman shall keep accurate records of the weights, kinds, and grades of all lots of nonstorage grain received into and delivered from his warehouse. Whenever the purpose for which any lot of nonstorage grain was received into a warehouse is changed so that its approximate delivery period from the warehouse becomes indeterminate, receipts shall be issued to cover such grain. Records required under this section with respect to nonstorage grain shall be retained, as a part of the records of the warehouse, for a period of one year after December 31 of the year in which the lot of nonstorage grain is delivered from the warehouse.

[62 FR 33540, June 20, 1997]

§ 736.33 Insurance; requirements.

(a) Each warehouseman, when so requested in writing as to any grain by the depositor thereof or lawful holder of the receipt covering such grain, shall, to the extent to which, in the exercise of due diligence, he is able to procure such insurance, keep such grain while in his custody as a warehouseman insured in his own name or arrange for its insurance otherwise to the extent so requested, against loss or damage by fire, lightning, and/or tornado. When insurance is not carried in the warehouseman’s name, the receipts shall show that the grain is not insured by the warehouseman. Such insurance shall be covered by lawful policies issued by one or more insurance companies authorized to do such business, and subject to service of process in suits brought in the State where the warehouse is located. If the warehouseman is unable to procure such insurance to the extent requested, he shall, orally or by telegraph or by telephone immediately notify the person making the request of the fact. Nothing in this section shall be construed to prevent the warehouseman from adopting a rule that he will insure all grain stored in his warehouse.

(b) Each warehouseman shall comply fully with the terms of insurance policies or contracts covering his licensed warehouse and all products stored therein, and shall not commit any acts, nor permit his employees to do anything, which might impair or invalidate such insurance.

(c) Each warehouseman shall keep exposed conspicuously in the place prescribed by §736.8, and at such other place as the Administrator or his representative may from time to time designate, a notice stating briefly the conditions under which the grain will be stored.
insured against loss or damage by fire, lightning, and tornado.

(d) Each warehouseman shall, in accordance with his contracts with insurance and bonding companies for the purpose of meeting the insurance and bonding requirements of the regulations in this part, pay such premiums, permit such reasonable inspections and examinations, and make such reasonable reports as may be provided for in such contracts.

(e) Each warehouseman shall promptly take such steps as may be necessary and proper to collect any moneys which may become due under contracts of insurance entered into by him for the purpose of meeting the requirements of the regulations in this part, and shall, as soon as collected, promptly pay to the persons concerned any portion of such moneys which they may be entitled to receive from him.

(f) If at any time a fire occurs at or within any licensed warehouse, it shall be the duty of the warehouseman to report immediately the occurrence of such fire and the extent of damage to the Administrator.

§ 736.34 Records; safe keeping.

Each warehouseman shall provide a fireproof safe, vault, or compartment in which he shall keep, when not in actual use, all records, books, and papers pertaining to the licensed warehouse, including his current receipt book, copies of issued and canceled receipts, except that with the written consent of the Service, upon a showing by such warehouseman that it is not practicable to provide such fireproof safe, vault, or compartment, he may keep such records, books and papers in some other place of safety, approved by the Service. Each canceled receipt shall be retained by warehouseman for a period of six years after December 31 of the year in which the receipt is canceled and for such longer period as may be necessary for the purposes of any litigation which the warehouseman knows to be pending, or as may be required by the Administrator in particular cases to carry out the purposes of the act. Canceled receipts shall be arranged by the warehouseman in numerical order and otherwise in such manner as shall be directed, for purposes of audit, by authorized officers or agents of the Department of Agriculture.

§ 736.35 Warehouse charges.

A warehouseman shall not make any unreasonable or exorbitant charge for services rendered. Before a license to conduct a warehouse is granted under the act the warehouseman shall file with the Department a copy of his rules and a schedule of charges to be made by him if licensed. Before making any change in such rules or schedule of charges he shall file with the Department a statement in writing showing the proposed change and the reasons therefor. Each warehouseman shall keep exposed conspicuously in the place prescribed by § 736.8, and at such other place, accessible to the public, as the Service may from time to time designate, a copy of his current rules and schedule of charges.

The warehouseman shall keep conspicuously posted on the door of the public entrance to his office and to his licensed warehouse a notice showing the hours during which the warehouse will be kept open, except when such warehouse is kept open continuously from 8 a.m. to 6 p.m.

(b) In case the warehouse is not to be kept open as required by paragraph (a) of this section, the notice posted as prescribed in that paragraph shall state the period during which the warehouse is to be closed and the name of an accessible person, with the address where he is to be found, and the telephone number, if any, who shall be authorized to deliver grain stored in such warehouse, upon lawful demand by the
§ 736.37 System of accounts.
Each warehouseman shall have and maintain a system of accounts, approved for the purpose by the Service. This shall include a stock record showing for each lot of grain received for storage its net weight including dockage, if any, its grade when its grade is required to be, or is, ascertained, its location, the dates received for and delivered out of storage, the receipts issued and canceled, also a separate record for each depositor of his grain, which shall include a detailed record of all moneys received and disbursed and of all insurance policies taken out and canceled on request of each depositor. The warehouseman shall further keep a general insurance account showing the policy number, issuing company, amount, binding, and expiration dates of all fire, tornado, and other insurance policies taken out by him and in each instance show the property covered by such policies. These records shall also show similar information concerning any nonstorage grain handled through the warehouse. Such records shall be retained by the warehouseman for a period of six years after December 31 of the year in which created, and for such longer period as may be necessary for the purposes of any litigation which the warehouseman knows to be pending, or as may be required by the Administrator in particular cases to carry out the purposes of the Act.

(Approved by the Office of Management and Budget under control number 0560–0120)

§ 736.38 Reports required.
(a) Each warehouseman shall, from time to time, if requested by the Service, make such reports, on forms prescribed and furnished for the purpose by the Service, concerning the condition, contents, operation, and business of the warehouse.
(b) Each warehouseman shall keep on file, as a part of the records of the warehouse, for a period of three years after December 31 of the year in which submitted, an exact copy of each report submitted by such warehouseman under the regulations in this part.

(Approved by the Office of Management and Budget under control number 0560–0120)

§ 736.39 Inspections; examination of warehouse.
Each warehouseman shall permit any officer or agent of the Department, authorized by the Secretary, or his designated representative, for the purpose, to enter and inspect or examine on any business day during the usual hours of business, any warehouse for the conduct of which such warehouseman holds a license, the office thereof, the books, records, papers, and accounts relating thereto, and the contents thereof and such warehouseman shall furnish such officer or agent the assistance necessary to enable him to make any inspection or examination under this section.

§ 736.40 Care of grain in licensed warehouses.
Each warehouseman shall at all times, including any period of suspension of his license, exercise such care in regard to grain in his custody as a reasonably careful owner would exercise under the same circumstances and conditions.

§ 736.41 Care of other grain and other commodities.
If, at any time, a warehouseman shall handle or store grain otherwise than as a licensed warehouseman, or shall handle or store any other commodity, he shall so protect the same, and otherwise exercise care with respect to it, as not to endanger the grain in his custody as a warehouseman or impair the insurance thereof or his ability to meet his obligations and perform his duties under the act and the regulations in this part.

§ 736.42 Excess storage.
(a) If at any time a warehouseman shall store grain in his warehouse in excess of the capacity for which it is licensed, such warehouseman shall immediately notify the Secretary of such
excess storage, the reason therefor, and the location thereof.

(b) A warehouseman who lacks sufficient space and desires to transfer stored grain for which receipts have been issued to another licensed warehouse may do so either by physical movement or by other methods accepted as standard industry practice subject to the following terms and conditions:

(1) The transferring (shipping) warehouseman’s accepted rules or schedule of charges must contain notice that the warehouseman may forward grain deposited on a commingled basis under such terms and conditions as the Secretary may prescribe.

(2) For purposes of this section of the regulations a licensed warehouse means a warehouse operated by a warehouseman who holds an unsuspended, unrevoked license under the U.S. Warehouse Act for grain, or a warehouse operated by a warehouseman who holds an effective warehouse license for the public storage of grain and/or rice issued by a State that has financial, bonding and examination requirements for the benefit of all depositors.

(3) Non-negotiable warehouse receipts shall be obtained promptly by the shipping warehouseman from the receiving warehouseman for all transferred grain. Such receipts shall have printed or stamped in large bold or outlined letters diagonally across the face and covering the face from corner to corner the words ‘‘NOT NEGOTIABLE’’. Receipts are not valid for collateral purposes. They shall be retained by the shipping warehouseman to be presented to and used by Department examiners in lieu of an on-site inventory. The grain covered by such receipts is not the property of either the receiving or shipping warehouseman but held in trust by both solely for the benefit of the depositors whose bailed grain was transferred individually or collectively and the depositor or the depositor’s transferee retains title thereto.

(4) The shipping warehouseman’s bond shall be increased to consider the addition of the transferred grain to the licensed capacity of the warehouse with the net asset requirements based on the total of the licensed capacity and the forwarded grain. The bond amount need not be more than $500,000 unless necessary to cover a deficiency in net assets to meet requirements. The receiving warehouseman shall not incur storage obligations that exceed the licensed capacity of his warehouse.

(5) The shipping warehouseman continues to retain storage obligation to the owners of all grain deposited in the warehouse for a storage whether forwarded or retained and is, except as otherwise agreed upon under paragraph (b)(6) of this section, required to rede- deliver the grain upon demand to the depositor or the depositor’s transferee at the warehouse where the grain was first deposited for storage.

(6) The owner of grain deposited for storage at the warehouse must make settlement and take delivery at the warehouse where the grain was first deposited for storage, unless the owner of the commodity, with the consent of both the shipping warehouseman and the receiving warehouseman, elects to take delivery at the warehouse to which grain was transferred under this section.

(7) Nothing in this section shall in any way diminish the right of the owner of the grain to receive on delivery, or the obligation of the warehouseman of a licensed warehouse from which the product is transferred, to deliver the owner, grain in the amount, and of the kind, quality, and grade, called for by the warehouse receipt or other evidence of storage.

(8) Recording and retention of non-negotiable warehouse receipts received as a result of forwarding a commodity under this section shall be subject to the requirements for warehouse receipts specified elsewhere in these regulations.

(9) If it is the shipping warehouseman’s obligation by terms of the warehouse receipt or otherwise to insure the grain subject to the transfer, he must in accordance with 7 CFR 736.33 keep such grain insured in his own name or transfer the grain only to a warehouse where the grain is fully insured.

(c) A warehouseman may transfer stored grain for which receipts have not and are not to be issued to another
licensed warehouse for continued storage by complying with the provisions of paragraphs (b)(1), (2), (5), (6), (7), and (9) of this section. However, in no event shall the warehouseman’s total storage obligations to others (not including stored receipted grain shipped under provisions of paragraph (b) of this section) exceed the shipping warehouseman’s licensed capacity.

[52 FR 8057, Mar. 16, 1987]

§ 736.43 Removal of specially stored grain.

Except as may be required by law or the regulations in this part, a warehouseman shall not remove any grain for storage from the licensed warehouse or a part thereof in which it may be specially binned or stored for insurance purposes, and transfer the grain to another bin without first obtaining the receipt, canceling the same and issuing a new receipt for said grain following its transfer.

§ 736.44 Grades and weights; bulk grain.

Except as provided in §736.27 each warehouseman shall accept all storage and nonstorage grain and shall deliver out all storage and nonstorage grain, other than specially binned grain, in accordance with the grades of such grain as determined by a person duly licensed to inspect and grade such grain and to certificate the grade thereof and in accordance with the weights of such grain as determined by a person duly licensed to weigh such grain and to certificate the weight thereof, under the Act, and the regulations in this part; or if an appeal from the determination of an inspector has been taken, such grain shall be accepted for and delivered out of storage in accordance with the grades as finally determined in such appeal.

§ 736.45 Storage of identity-preserved grain.

Upon acceptance for storage of bulk grain the identity of which is to be preserved, the warehouseman shall store such grain in a bin or bins, a compartment or compartments, or other container or containers identified by clearly distinguishable identification insignia permanently and securely affixed thereto, subject to such control by the Department as may seem administratively necessary to protect depositors or holders of receipts. If the grain is received in barreled or otherwise suitable containers, such bags or containers shall be so marked and so placed in the warehouse that the identity of the grain will not be lost while in storage. The warehouseman’s records shall at all times clearly show the location of all identity-preserved grain stored in the warehouse.

§ 736.46 Sacked grain.

Each warehouseman shall keep sacked grain stored in an orderly manner so as to permit easy access to all lots and to facilitate inspecting, sampling, counting, and identification of each lot.

§ 736.47 Warehouses to be kept clean.

Each warehouseman shall keep his warehouse reasonably clean at all times and free from straw, rubbish, or accumulations of materials that will increase the fire hazard or interfere with the handling of grain.

§ 736.48 Delivery of fungible grain.

Except as may be provided by law or the regulations in this part, each warehouseman: (a) Upon proper presentation of a receipt for any grain other than identity-stored grain, and which grain has not at the request of the depositor or lawful holder of the receipt covering such grain or otherwise as permitted by law or the regulations in this part, been dried or otherwise conditioned by such warehouseman, and upon payment or tender of all advances and legal charges, shall deliver to such depositor or lawful holder of such receipt grain of the grade and quantity named in such receipt; and (b) upon proper presentation of a receipt for any grain the identity of which was to have been preserved during the storage period, and upon payment or tender of all advances and legal charges, shall deliver to the person lawfully entitled thereto, the identical grain so stored in his warehouse.
§ 736.49 Cleaning of grain.

Each warehouseman whose warehouse is equipped with machinery suitable for the purpose, shall clean all bulk grain, received for storage in such warehouse, on which the inspector at the request of the depositor or lawful holder of the receipt covering such grain has set dockage for cleaning.

§ 736.50 Grades; separate in storage.

A warehouseman may not mix lots of different grades of grain stored or received for storage except when the identity of the grain to be stored is to be preserved or when a depositor surrenders receipts covering two or more lots and requests the warehouseman to deliver the amount of grain represented by the canceled receipts in such a manner that they will become one lot. The balance, if any, of grain resulting from this operation, after weighing and inspecting, is to be stored with grain of like grade or its identity preserved.

§ 736.51 Stocks to be in balance by grades.

Warehousemen must keep stocks of grain in storage by grades in balance with the grades of grain represented by outstanding storage obligations for which receipts have been or are to be issued, except when the grain has unavoidably improved or deteriorated through natural causes. In case the grades of stored grain should get out of balance with grades represented by outstanding storage obligations for which receipts have been or are to be issued, the warehouseman shall effect proper adjustments.

§ 736.52 Out-of-condition and damaged grain.

(a) If the condition of any grain offered for storage is such that it probably will affect the condition of grain in the licensed warehouse, the warehouseman shall not receive such grain for storage or store such grain in his licensed warehouse, but, if the warehouse has separate bins or is equipped with proper conditioning apparatus, he may receive such grain for storage in such separate bins or he may condition it and then store it in such manner as will not lower the grade of other grain.

(b) In case the warehouseman or the Department shall find that storage of grain in direct contact with any part of the structure of the warehouse results, or is likely to result, in damage to the grain, the warehouseman shall not store grain in such part of the warehouse except in such manner and by the use of such material as will keep the grain in the same condition as when stored.

§ 736.53 Reconditioning grain.

In case the warehouseman considers that any portion of the grain in his warehouse is out of condition, or becoming so, he shall direct the inspector to examine the grain in question. If the inspector finds such grain to be out of condition or becoming so and he is of the opinion that by re-elevating, screening, blowing, cooling, or drying the grain can be brought back into condition or that further deterioration can be prevented, such warehouseman shall give immediate notice of the fact to the persons and in the manner specified in § 736.54. If, within 24 hours after the giving of such notice, the owners of such grain have not otherwise directed as to the disposition of same, such warehouseman, with the approval of the inspector, shall, in his warehouse to the extent to which it is equipped with machinery suitable for the purpose, or may in another warehouse or elevator so equipped to the extent to which his warehouse is not equipped with suitable machinery, subject the grain to any or all of the above-mentioned processes.

§ 736.54 Notice of condition of grain.

(a) If the warehouseman with the approval of the inspector, shall determine that the further deterioration of any grain can not be prevented by reconditioning, or after treating it in accordance with § 736.53, it is still out of condition, the warehouseman shall give immediate notice of the fact, in accordance with paragraphs (b) and (c) of this section.

(b) Such notice shall state:

(1) The warehouse in which the grain is stored,

(2) The quantity, kind, and grade, if determined, of the grain at the time the notice is given,
§ 736.55  Sale of grain at public auction.

If the grain, advertised in accordance with the requirements of §736.54 has not been removed from storage by the owner thereof, within 10 days from the date of notice of its being out of condition, the warehouseman in whose warehouse such grain is stored may sell the same at public auction at the expense and for the account of the owner after giving 10 days’ notice in the manner specified in §736.54(c).

§ 736.56  Identity-preserved grain; acceptance.

Subject to the provisions of section 13 of the act (39 Stat. 488; 7 U.S.C. 254), a licensed warehouseman may elect not to receive grain for storage the identity of which is to be preserved while in storage.
§ 736.57 License fees.

(a) Fees are collected in advance for each original, amended, modified, extended, reinstated, or duplicate warehouseman’s license; and for each original, duplicate, or modified license issued to inspect, sample, grade, classify, or weigh commodities.

(b) Fee changes, if applicable, will be announced by Notice in the FEDERAL REGISTER on or before July 1, and effective the following October 1.

[59 FR 51358, Oct. 11, 1994]

§ 736.58 Warehouse annual and inspection fees.

Warehousemen must pay:

(a) An annual fee which will be determined by computing the capacity for each warehouse location under a single license and adding those amounts together to determine the total due. The fee will be assessed and payable when the warehouse bond is furnished in accordance with these regulations, for acceptance by the Secretary and annually thereafter on the bond renewal date. The capacity for each identifiable location will be determined by the Secretary. The total capacity of all locations may not exceed the capacity stated in the current license. An identifiable location is a fully functional public warehouse as determined by the Secretary. The annual fee a licensed warehouseman is assessed may be adjusted by the amount Commodity Credit Corporation (CCC) pays, if CCC has a storage contract or agreement with the warehouseman.

(b) An inspection fee for each original and amendment inspection.

(c) An inspection fee at the rate of 100 percent of the annual fee charged warehouses without a CCC storage contract or agreement.

§ 736.59 Advance deposit.

Before any license is granted, or an original examination or inspection is made, or reexamination or reinspection for modification of an existing license is made, or when the annual fee for the licensed warehouse is assessed, pursuant to the regulation in this part, the applicant or licensee shall deposit with the Service the amount of the fee prescribed. Such deposit shall be made in the form of a check, certified if required by the Service, draft, or post office or express money order, payable to the order of the Service.

§ 736.60 Return of excess deposit.

The Treasurer of the United States shall hold in his custody each advance deposit made under §736.59 until the fee, if any, is assessed and he is furnished by the Service with a statement showing the amount thereof and against whom assessed. Any part of such advance deposit which is not required for the payment of any fee assessed shall be returned to the party depositing same.

§ 736.61 Inspectors’ and weighers’ applications.

(a) Application for licenses to inspect and grade or to weigh grain under section 11 of the act (46 Stat. 1464; 7 U.S.C. 252) shall be made to the Administrator on forms furnished for the purpose by him. Each application shall be in English, shall be signed by the applicant, and shall contain or be accompanied by a statement from the warehouseman for whom the applicant will inspect, grade, or weigh grain under the act, showing whether the applicant is competent and is acceptable to such warehouseman for the purpose.

(b) Each inspectors’ application shall contain:

(1) Evidence that he can correctly grade grain in accordance with the official standards of the United States, or
§ 736.62 Examination.
Each applicant for license as an inspector or weigher and each inspector or weigher shall, whenever requested by an authorized agent of the Department, submit to an examination or test to show his ability properly to inspect and grade or to weigh grain.

§ 736.63 Posting of license.
Each inspector or weigher shall keep his license conspicuously posted in a place designated for the purpose by the Service unless authorized by the Service not to do so.

§ 736.64 Duties of inspector and weigher.
Each inspector and each weigher whose license remains in effect shall, without discrimination, as soon as practicable, and upon reasonable terms, inspect and grade or weigh and certificate the grade or weight of grain, stored or to be stored in a warehouse, for which he holds a license, if such grain be offered to him under such conditions as permit proper inspection and weighing and the determination of the grade or weight thereof. No inspector shall issue a certificate of grade for any grain unless the inspection and grading thereof be based upon a correct and representative sample of the grain.

§ 736.65 Inspection certificate; form.
(a) Except as provided in paragraph (b) of this section, each inspection certificate issued under the act by an inspector shall be in a form approved for the purpose by the Department, and shall embody the following information within its written or printed terms:

(1) The caption “United States Warehouse Act, Grain Inspection Certificate”.

(2) Whether it is an original, a duplicate, or other copy, and that it is not negotiable,

(3) The name and location of the warehouse in which the grain is or is to be stored,

(4) A statement showing whether the inspection covers grain moving into or out of the warehouse,

(5) The date of the certificate,

(6) The consecutive number of the certificate,

(7) The approximate amount of grain covered by the certificate,

(8) The kind of grain covered by the certificate,

(9) The grade of the grain, as determined by such duly licensed inspector, in accordance with §736.76, and, in the case of grain for which no official standards of the United States are in effect, the standards or description in accordance with which such grain is graded.

(10) A statement that the certificate is issued by an inspector licensed under the United States Warehouse Act and the regulations thereunder.

(11) A statement conspicuously placed to the effect that the certificate is not valid for the purposes of the United States Grain Standards Act, and

(12) The signature of the inspector who inspected and graded the grain.
§ 736.70 Inspections.

Each inspector and each weigher shall permit any authorized officer or agent of the Department to inspect or examine, on any business day during the usual hours of business, his books, papers, records, and accounts relating to the business in which he is engaged, including the inspection certificate and records of his business relating to the operation of any such warehouse, if the inspection certificate was issued under the regulations in this part.

§ 736.66 Copies of certificate to be accessible.

Each inspector shall, as soon as possible after grading any grain and not later than the close of business on the next following business day, make accessible to the parties interested in a transaction in which the grain is involved at the place designated in §736.63 a true copy of the inspection certificate issued by him for such grain, or a record of each lot or parcel of grain inspected and graded by such licensed inspector showing the information contained on such inspection certificate.

§ 736.67 Weight certificate.

(a) Each weight certificate issued under the Act by a weigher shall be in a form approved for the purpose by the Service, and shall embody the following information within its written or printed terms:

(1) The caption “United States Warehouse Act, Grain Weight Certificate”;

(2) Whether it is an original, a duplicate, or other copy, and that it is not negotiable;

(3) The name and location of the warehouse in which the grain is or is to be stored;

(4) Whether the grain is weighed into or out of the warehouse;

(5) The date of the certificate;

(6) The consecutive number of the certificate;

(7) The net weight, including dockage, if any, of the grain except as provided in §736.27(b);

(8) A statement that the certificate is issued by a weigher licensed under the United States Warehouse Act and the regulations thereunder, and

(9) The signature of the weigher.

In addition, the weight certificate may include any other matter not inconsistent with the Act or the regulations in this part provided the approval of the Service is first secured.

(b) In lieu of a weight certificate in the form prescribed in paragraph (a) of this section, an official weight certificate issued pursuant to the provisions of the U.S. Grain Standards Act, or an official weight certificate issued pursuant to the Agricultural Marketing Act of 1946 on grain which is stored or to be stored in a warehouse licensed under the U.S. Warehouse Act is acceptable for purposes of the Act and the regulations in this part.

§ 736.68 Certificate; grade and weight.

The grade and weight of any grain, ascertained by an inspector and a weigher, may be stated on a certificate meeting the combined requirements of §§736.65, 736.67, if the form of such certificate shall have been approved for the purpose by the Service.

§ 736.69 Copies of certificates to be kept.

Each inspector and each weigher shall keep for a period of 1 year in a place accessible to interested parties a copy of each certificate issued by him under the regulations in this part, and shall file a copy of each such certificate with the warehouse in which the grain covered by the certificates is stored.

§ 736.70 Inspections.

Each inspector and each weigher shall keep for a period of 1 year in a place accessible to interested parties a certificate issued by him under the regulations in this part, and shall file a copy of each such certificate with the warehouse in which the grain covered by the certificates is stored.
§ 736.71 Reports.

Each inspector and each weigher shall, from time to time, if requested by the Service, make reports, on forms approved for the purpose by the Service, bearing upon his activities as such inspector or weigher.

§ 736.72 Licenses; suspension or revocation.

Pending investigation, the Secretary, or his designated representative, may, whenever he deems necessary, suspend the license of an inspector or weigher temporarily without hearing. Upon a written request or a satisfactory statement of reasons therefor, submitted by the inspector or weigher, the Secretary, or his designated representative, may, without hearing, suspend or revoke the license issued to such inspector or weigher. The Secretary, or his designated representative, may, after opportunity for hearing has been afforded in the manner prescribed in this section, suspend or revoke a license issued to an inspector or a weigher when such licensee: (a) Has ceased to perform services as such inspector or weigher, or (b) has in any other manner become incompetent or incapacitated to perform the duties of such inspector or weigher. As soon as it shall come to the attention of a warehouseman that either of the conditions mentioned under paragraph (a) or (b) of this section exists, it shall be the duty of such warehouseman to notify the Service in writing. Before the license of any inspector or weigher is permanently suspended or revoked pursuant to section 12 of the Act, such inspector or weigher shall be furnished by the Secretary, or his designated representative, a written statement specifying the charges and shall be allowed a reasonable time within which he may answer the same in writing and apply for a hearing, an opportunity for which shall be afforded in accordance with §736.99.

§ 736.73 Suspended or revoked license; termination of license.

(a) In case a license issued to an inspector or a weigher is suspended or revoked by the Secretary, or his designated representative, such license shall be returned to the Secretary. At the expiration of any period of suspension of such license, unless in the meantime it be revoked, the dates of the beginning and termination of the suspension shall be indorsed thereon, it shall be returned to the inspector or weigher to whom it was originally issued and it shall be posted as prescribed in §736.63.

(b) Any license issued under the Act and the regulations in this part to an inspector or weigher shall automatically be suspended as to any warehouse whenever the license of such warehouse shall be suspended and shall automatically terminate as to any warehouse whenever the license of such warehouse shall be revoked. Upon either suspension or termination of any inspector’s or weigher’s license under this paragraph, such license shall be returned to the Department. In case such license shall apply to other warehouses, the Secretary, or his designated representative, shall issue to the licensee a new license, omitting the names of the warehouses for which licenses have been revoked or suspended. Such new license shall be posted as prescribed in §736.63.

§ 736.74 Lost or destroyed licenses.

Upon satisfactory proof of the loss or destruction of a license issued to an inspector or weigher, a duplicate thereof may be issued under the same number, in the discretion of the Secretary, or his designated representative.

§ 736.75 Unlicensed inspectors and weighers.

No person shall in any way represent himself to be an inspector or weigher for purposes of the U.S. Warehouse Act unless he holds an unsuspended and unrevoked license or authorization in
§ 736.81 Request for appeal.

A request for an appeal inspection by a depositor or holder of receipt must be made by written notice to the warehouseman before the identity of the lot of grain has been lost and not later than the close of business on the first business day following furnishing of the statement of original grade or if the appeal is requested by the warehouseman, notice must be given promptly to the owner of the grain. Oral notice may be made if followed by written notice. Where is it not practical for a warehouseman to maintain the identity of all grain being received for storage until depositors receive a statement of grade and consequently opportunity for appeal, any depositor or his agent before or at the time of delivery of his grain may request the warehouseman to retain the identity of such lot until said depositor has been furnished with a statement of grade for the lot and has waived or requested and received an appeal inspection grade. The warehouseman need not preserve the identity of the lot in the original carrier; but with the knowledge and consent of the depositor or agent may use other means to preserve such identity. Further, if compliance with such request would adversely affect receiving, storing or delivering the grain of other depositors, the warehouseman may defer unloading such grain until
§ 736.82 Appeal sample—obtaining, preservation, delivery and examination.

(a) The lot of grain for which an appeal is requested shall be resampled in such manner and quantity as the depositor or holder of receipt and the warehouseman agree results in a representative sample of the lot acceptable to each for appeal purposes. Should they be unable to agree on such a sample, a sample drawn by a duly licensed inspector in the presence of both shall be deemed binding. In no case shall the sample be of less than 2000 grams by weight.

(b) The sample shall be packaged, to the satisfaction of the interested parties, so as to preserve its original condition.

(c) For grains for which there are official U.S. Standards the sample shall be secured and delivered to the nearest office charged with providing official inspection service under the U.S. Grain Standards Act and/or the Agricultural Marketing Act of 1946. At this point procedures as set forth in regulations issued under the U.S. Grain Standards Act or under the Agricultural Marketing Act of 1946 shall govern. For grain for which there are no official U.S. Standards the party requesting the appeal shall apply directly to the Administrator for relief. The Administrator or delegate thereof shall promptly determine the appeal based on approved standards and set the required fees. Such determination shall be binding on all concerned parties.

(d) The sample shall be accompanied by: (1) A copy of the written request for appeal, (2) the grain inspection certificate originally issued, and (3) an agreement to pay the costs of such inspection as prescribed by the U.S. Grain Standards Act, the Agricultural Marketing Act or the Administrator.

(e) The sample of the grain involved in the appeal shall be examined as soon as possible. Such tests shall be applied as are necessary; and, unless the appeal is dismissed, a grade certificate shall be issued by the person determining the grade, showing the grade assigned by him to such grain. This certificate shall supersede the inspection certificate originally issued for the grain involved. The original or a copy of the new grade certificate shall be sent to the depositor or holder of receipt, the licensed warehouseman and the licensed inspector making the original determination of grade.

§ 736.83 Dismissal of appeal.

The departmental agency to whom the appeal has been made may dismiss such appeal without its determination upon request of the party initiating the appeal or for noncompliance with the regulations in this part.

§ 736.84 Freedom of appeal.

(a) No person licensed under the Act, shall, directly or indirectly by any means whatsoever, deter or prevent or attempt to deter or prevent any party from taking an appeal.

(b) No rule, regulation, bylaw, or custom of any market, board of trade, chamber of commerce, exchange, inspection department or similar organization nor any contract, agreement, or understanding, shall be ground for refusing to determine any appeal.

§ 736.85 Owner not compelled to store.

Nothing in these regulations shall require the owner or his agent to store such grain with the licensed warehouseman after the appeal inspection, but if the grain is stored it shall be accepted for and delivered out of storage in accordance with the grade as finally determined in such appeal.

§§ 736.86–736.95 [Reserved]

MISCELLANEOUS

§ 736.86 Bonds required; re State warehouses.

Every person applying for a license, or licensed under section 9 of the act shall, as such, be subject to all portions of the regulations in this part, so far as they may relate to warehousemen. In case there is a law of any State providing for a system of warehouses owned, operated or leased by such State, a person applying for a license under section 9 of the act, to accept the
custody of grain and to store the same in any of said warehouses, may, in lieu of a bond or bonds, complying with §§736.13 and 736.14, file with the Secretary, or his designated representative, a single bond meeting the requirements of the act and this part, in such form, and in such amount not less than $5,000 as he shall prescribe, to insure the performance by such person, with respect to the acceptance of the custody of grain and its storage in the warehouses in such system for which licenses are or may be issued, of his obligations arising during the periods of such licenses, and in addition, if desired by the applicant, during the periods of any amendments thereto. In fixing the amount of such bond, consideration shall be given, among other appropriate factors, to the character of the warehouses involved, their actual or contemplated capacity, the bonding requirements of the State and its liability with respect to such warehouses. If the Secretary, or his designated representative, shall find the existence of conditions warranting such action, there shall be added to the amount of the bond, so fixed, a further amount, fixed by him, to meet such conditions.

§736.97 Publications.
Publications under the act and the regulations in this part shall be made in such media as may be deemed proper by the Administrator.

§736.98 Information of violations.
Every person licensed under the act shall immediately furnish the Department any information which comes to the knowledge of such person tending to show that any provision of the act or the regulations in this part has been violated.

§736.99 Procedure in hearings.
Hearings under the Act or the regulations in this part, except those relating to appeals or arbitrations shall be conducted in accordance with the Rules of Practice Governing Formal Adjudicatory Administrative Proceedings Established by the Secretary under various statutes (7 CFR 1.130 through 1.151).

§ 736.105 Registrar of warehouse receipts; futures contract market.

The Administrator may approve as registrar of warehouse receipts issued for grain in licensed elevators operating in any terminal market or in any futures contract market the official designated by the State in which such market is located, if such an official position has been created by law, or any other individual, provided such individual is not an employee of, or the owner of, any such licensed elevator, or the owner of, or an employee of the owner of, grain deposited in any such licensed elevator.

§§ 736.106—736.107 [Reserved]

§ 736.108 Additional bonding required.

In addition to the financial responsibility and the bonding requirements of §§736.6, 736.13 through 736.17, such additional bond shall be required for the protection of the public as will make the bonded responsibility of each licensed warehouseman equal to the maximum amount of bond required of nonlicensed warehousemen by the exchange, board of trade, or other agency within said market in which the licensed warehouseman is operating.

§ 736.109 Examination of warehouses; board of trade interest.

Annually or more frequently if desired, a duly authorized committee of any exchange or board of trade that has been designated as a contract market may enter any warehouse operating under the regulations in this part, when accompanied by U.S. warehouse examiners, to observe the official examination of the warehouse; or such committee may participate in the making of such examination, under the supervision and direction of the U.S. warehouse examiner in charge. The committee may also with the warehouse examiners have access to the warehouseman’s records of receipts, fire insurance, weights and grades. In lieu of an examination by any committee of the exchange or board of trade the Department will furnish if desired to the secretary of the exchange or board of trade a summarized statement of its findings of conditions at each licensed warehouse operating within the market.

§ 736.110 Registration of public warehouse receipts; protection.

When a contract market designates any agency for the registration of public warehouse receipts and such agency is approved as provided for in §736.105, all warehouse receipts shall be registered with the registrar and any change in ownership of a warehouse receipt shall be reported to the registrar by the owner thereof, giving his name and address to the registrar. All registered receipts shall be entitled to the following protection:

(a)(1) Whenever any licensed warehouseman considers that any grain stored in his warehouse is out of condition, or becoming so, and should be loaded out in order to protect the interests of the parties concerned, such warehouseman shall notify the registrar and the Administrator, giving the location, approximate quantity, grades, and condition of such grain, and the specific reason which makes loading out necessary. The registrar shall immediately notify the chief sampler, if there be one, otherwise the chief inspector, of the contract market who shall at once proceed to the warehouse in which the grain is stored and examine it, in conjunction with the licensed warehouseman. If the chief sampler, or chief inspector, agrees with the warehouseman that the grain should be loaded out, he shall so notify the registrar and the Administrator. If the chief sampler does not agree with the warehouseman, the latter shall have the right to appeal to the Administrator who shall appoint an appeals committee as provided in §736.107. If, on such appeal, the warehouseman is sustained, the registrar shall be notified and such warehouse receipts as are selected as provided in this section shall no longer be regular for delivery in satisfaction of futures contracts made under the rules and regulations of such contract market.

(2) The registrar shall thereupon select the oldest registered warehouse receipt for grain of the grade involved
and such additional next oldest registered warehouse receipts in the order of their issuance as may be necessary to equal the total quantity of the grain involved, unless such grain has been stored identity preserved, and shall notify such holder or holders or their agents and the president of the contract market of the condition of the grain and the necessity for its being loaded out. When this information reaches the president of the contract market he shall appoint a committee consisting of five disinterested handlers of cash grain, and notify the Administrator of the appointment of said committee giving the name, address, and business of each member. Each member of said committee shall be subject to disapproval by the Administrator. If no exception is taken to the committee membership during the same business day by the Administrator, the committee shall meet at once, and after taking into consideration various factors that establish the value of the grade of grain called for by the receipts held by such owner or owners, shall determine the fair value of the grain on the basis of the market quotations for grain of the grade called for by the receipts on the day of the finding of the appeals committee that the grain should be loaded out, which price shall be paid to the owner or holder of each such receipt by the licensed warehouseman. If the price offered is not satisfactory to any such owner or holder, a committee appointed by the president of such contract market at the request of such owner or holder shall procure other offers for such grain and such offers shall be immediately reported to such owner or holder or to his agent. If the owner refuses to accept any such offers he shall have the 2 following business days to order and furnish facilities for loading such grain out of store and during this period the warehouseman shall be obliged to deliver the grain covered by the warehouse receipts, but not more than 3 days shall elapse after notification by the registrar to the holder of the receipts before satisfactory disposition shall have been made of the grain either by sale or by ordering out and furnishing facilities to load same, provided the amount of such grain does not exceed 100,000 bushels in any one elevator. If the amount of grain in question exceeds 100,000 bushels, the owner or owners of the warehouse receipts shall be allowed 48 hours of grace over and above the aforementioned 3 days for each 100,000 bushels or fraction thereof in excess of the first 100,000 bushels.

(b) In the event that the holder of the warehouse receipt or his agent fails to remove the grain or make other satisfactory disposition of same within the prescribed time it shall be held for his account and any loss in grade sustained shall likewise be for his account.

(c) Nothing in this section shall be construed as prohibiting the warehouseman from fulfilling contracts from other stocks under his control, subject to the U.S. Warehouse Act and regulations thereunder.

§ 736.111 Terminal markets.
Sections 736.103 through 736.111 apply only to warehousemen operating in such markets as may have been heretofore or may be hereafter designated as futures contract markets, and §§736.103 through 736.107 apply also to warehousemen operating in such markets as the Department may view as terminal markets, and the appointment heretofore or hereafter of a registrar of warehouse receipts, as provided in §736.105 is conclusive that the Department views such market as a terminal market for purposes of the Warehouse Act. All other regulations issued under the act and applicable to grain warehousemen shall apply to warehousemen operating in such terminal or futures contract markets except as such regulations may conflict with §§736.103 through 736.111.

§ 737.64 Suspension or revocation of licenses.

Pending investigation the Secretary or his designated representative may, whenever he deems necessary, suspend the license of a sampler, inspector, grader, or weigher temporarily without hearing. Upon a written request and a satisfactory statement of reasons therefor submitted by the licensee, or when the licensee has ceased to perform the services for which licensed, the Secretary or his designated representative may, without hearing, suspend or revoke the license issued to such licensee. The Secretary, or his designated representative may, after opportunity for hearing, when possible, have been afforded in the manner prescribed in this section, suspend or revoke a license issued to a sampler, inspector, grader, or weigher when such licensee has, in any manner, become incompetent or incapacitated to perform his duties as such licensee. As soon as it shall come to the attention of a licensed warehouseman that any of the conditions in this section exist, it shall be his duty to notify in writing the Service. Before the license of any sampler, inspector, grader, or weigher is permanently suspended or revoked, pursuant to section 12 of the act, such licensee shall be furnished by the Secretary or his designated representative, a written statement specifying the charges and shall be allowed a reasonable time within which he may answer the same in writing and apply for a hearing, an opportunity for which shall be afforded in accordance with § 737.78.

§ 737.65 Return of suspended, revoked, terminated licenses.

Any license issued to a sampler, inspector, grader, or weigher shall automatically terminate as to any warehouse whenever the license of such warehouse is suspended, expires, or is revoked, and the license of such sampler, inspector, grader, or weigher shall be returned to the Secretary. In case such
license shall apply to more than one warehouse, the Secretary or his designated representative shall issue a new license, omitting the names of the warehouses for which licenses have been suspended, terminated, or revoked. Such new license shall be posted as prescribed in §737.54.

Upon satisfactory proof of the loss or destruction of a license issued to a sampler, inspector, grader, or weigher a duplicate thereof or a new license may be issued under the same or a new number.

TOBACCO CLASSIFICATION

§737.69 Type, grade, form, or condition; statement.
Whenever the type, grade, form, or condition of tobacco is stated for the purposes of the act and the regulations in this part, the terms used shall be correctly applied and shall be so selected as not to convey a false impression of the tobacco. In determining the type, grade, form, or condition of a package of tobacco, the package as a whole shall be considered rather than parts of it which do not materially affect the value of the entire package and minor irregularities in the tobacco shall be overlooked.

§737.70 Standards to be used.
Until such time as official tobacco standards of the United States are in effect, the type, grade, form, and condition of tobacco shall be stated: (a) In accordance with such standards, if any, as may be approved for the purpose by the Administrator, or his representative, or (b) in the absence of any such standards, in accordance with the standards adopted by any tobacco organization or by the tobacco trade generally in the locality in which the warehouse is located, subject to disapproval by the Administrator.

§737.71 Type, grade, form, or condition.
Whenever the type, grade, form, or condition of tobacco is stated for the purposes of the act and the regulations in this part, the terms used shall be correctly applied and shall be so selected as not to convey a false impression of the tobacco. In determining the type, grade, form, or condition of a package of tobacco, the package as a whole shall be considered rather than parts of it which do not materially affect the value of the entire package and minor irregularities in the tobacco shall be overlooked.

§737.72 Type, grade, and form; statement.
Whenever the type, grade, or form of tobacco is stated for the purposes of the act and the regulations in this part, it shall be based upon a careful and thorough examination of the package of tobacco or an official sample thereof. In case the tobacco in one part of a package or sample is inferior to that in other parts of the package or sample, the grade assigned to the tobacco shall be an average, considering the proportion that each part bears to the whole, and in case of a question as to which grade of two or more grades should be assigned to the tobacco, the lowest grade in question shall be assigned.

§737.73 Statement of condition.
Whenever the condition of tobacco is stated for the purpose of the act and the regulations in this part, it shall be based upon a careful and thorough examination of the package of tobacco. In case any portion of a package of tobacco is found to be in a tangled, doubtful keeping, or nested condition, the condition stated for the whole package shall be based upon such tangled, doubtful keeping, or nested portion.

APPEAL ON SAMPLING OR CLASSIFICATION OF TOBACCO

§737.74 New receipts; expenses.
If a question arises as to the accuracy of an official sample, or whether the type, grade, form, or condition of the tobacco was correctly stated in a
receipt or certificate issued under the act or the regulations in this part, the warehouseman concerned or any person financially interested in the tobacco involved may, after reasonable notice to the other party, submit the question to such committee as the Administrator may appoint. The decision of the committee shall be final, unless the Administrator shall direct a review of the question. Immediately upon making their decision, the committee shall issue a certificate embodying their findings to the appellants and the licensee or licensees involved. If the decision of the committee be that the sample was not representative of the package of tobacco, or that the type, grade, form, or condition was not correctly stated, the receipt or certificate involved shall be returned to and canceled by the licensee who issued it and the licensee shall issue in lieu thereof a new receipt or certificate embodying therein the statement of type, grade, form, or condition in accordance with the findings of the committee. All necessary and reasonable expense of such appeal shall be borne by the losing party, unless the Administrator shall decide that the expense should be proportioned between the parties.

MISCELLANEOUS

§ 737.75 Bonds required; re State warehouses.

Every person applying for a license or licensed under section 9 of the act shall, as such, be subject to all portions of the regulations in this part, except §737.5, so far as they may relate to warehousemen. If there is a law of any State providing for a system of warehouses owned, operated, or leased by such State, a person applying for a license under section 9 of the act, to accept the custody of tobacco and to store the same in any of said warehouses, may, in lieu of a bond or bonds, complying with §737.12, file with the Secretary a single bond meeting the requirements of the act and the regulations in this part, in such form, and in such amount not less than $5,000 as he shall prescribe, to insure the performance by such person, with respect to the acceptance of the custody of tobacco and its storage in the warehouses in such system for which licenses are or may be issued, of his obligations arising during the periods of such licenses, and in addition, if desired by the applicant, during the periods of any modifications or extensions thereof. In fixing the amount of such bond, consideration shall be given, among other appropriate factors, to the character of the warehouses involved, their actual or contemplated capacity, the bonding requirements of the State, and its liability with respect to such warehouses. If the Secretary shall find the existence of conditions warranting such action, there shall be added to the amount of the bond so fixed a further amount, fixed by him, to meet such conditions.

§ 737.76 Publications.

Publications under the act and the regulations in this part shall be made in such media as may be deemed proper by the Administrator.

[62 FR 33541, June 20, 1997]

§ 737.77 Violations to be reported.

Every person licensed under the act shall immediately furnish the Service any information which comes to the knowledge of such person tending to show that any provision of the act or the regulations in this part has been violated.

§ 737.78 Procedure in hearings.

Hearings under the Act or the regulations in this part, except those relating to appeals or arbitrations shall be conducted in accordance with the Rules of Practice Governing Formal Adjudicatory Administrative Proceedings Instituted by the Secretary under various statutes (7 CFR 1.130 through 1.151).

§ 737.79 One document and one license to cover several products.

A license may be issued for the storage of two or more agricultural products in a single warehouse. Where such a license is desired, a single application, inspection, bond, record, report, or other paper, document, or proceeding relating to such warehouse,
§ 737.80 Assets and bond; combination warehouses.

Where such license is desired, the amount of the bond, net assets, and inspection and license fees shall be determined by the Administrator in accordance with the regulations applicable to the particular agricultural product which would require the largest bond and the greatest amount of net assets and of fees if the full capacity of the warehouse was used for its storage.

§ 737.81 Amendments.

Any amendment to, or revision of, the regulations in this part, unless otherwise stated therein, shall apply in the same manner to persons holding licenses at the time it becomes effective as it applies to persons thereafter licensed under the act.

The applicant shall at any time furnish such additional information as the Secretary or the Administrator may find to be necessary to the proper consideration of his application.

§ 738.4 Grounds for not issuing license.

A license for the conduct of a warehouse shall not be issued if it be found by the Secretary, or his designated representative, that the warehouse is not suitable for the proper storage of wool, that the warehouseman is incompetent to conduct such warehouse in accordance with the act and the regulations in this part, or that there is any other sufficient reason within the intent of the act for not issuing such license.
§ 738.5 Net assets.

Any warehouseman conducting a warehouse licensed or for which application for license has been made under the act shall have and maintain above all exemptions and liabilities net assets liable for the payment of any indebtedness arising from the conduct of the warehouse, to the extent of at least $15 per 1,000 pounds or fraction thereof of the maximum number of pounds of wool that the warehouse will accommodate when stored in the manner customary to the warehouse as determined by the Administrator: Provided, The amount of such assets shall not be less than $5,000 and need not be more than $100,000. § 738.6 Posting license.

Immediately upon receipt of his license or of any amendment thereto under the act, the warehouseman shall post the same, and thereafter, except as otherwise provided in the regulations in this part, keep it posted, until suspended or revoked, in a conspicuous place in the principal office where receipts issued by the warehouseman are delivered to depositors.

Whenever any of the conditions mentioned in paragraphs (a) to (e) of this section shall come into existence, it shall be the duty of the warehouseman to notify immediately the Administrator of the existing condition. Before a license is permanently suspended or revoked for any violation of, or failure to comply with, any provision of the act or of the regulations in this part, or upon the ground that unreasonable or exorbitant charges have been made for services rendered, the warehouseman involved shall be furnished by the Secretary, or his designated representative, a written statement specifying the charges and shall be allowed a reasonable time within which he may answer the same in writing and apply for a hearing, an opportunity for which shall be afforded in accordance with §738.72.

§ 738.8 Return of terminated, suspended, or revoked license.

No warehouse or its warehouseman or any other person shall be designated or represented as licensed under the act, and no name or description conveying the impression that it or he is so licensed shall be used, either in a receipt or otherwise, unless such person or warehouseman holds an unsuspended and unrevoked license for the conduct of such warehouse.

Now, therefore, if the said license(s) or any amendments thereto be granted and said principal, and its successors and assigns operating said warehouse(s), shall:

For purposes of this bond, the aforesaid obligations under the act and regulations and contracts shall include obligations under any and all modifications of the Act, the regulations, and the contracts that may hereafter be made, notice of which modifications to the surety being hereby waived.

§ 738.12 Basis of amount of bond; additional amounts.

(a) Exclusive of any amount which may be added in accordance with paragraphs (b) and (c) of this section, the amount of such bond shall be at the rate of $15 per 1,000 pounds or fraction thereof of the maximum number of pounds of wool that the warehouse will accommodate when stored in the manner customary to the warehouse for which such bond is required, as determined by the Administrator but not less than $5,000 nor more than $50,000. If such warehouseman has applied for licenses to conduct two or more warehouses in the same State, the assets applicable to all of which shall be subject to the liabilities of each, and shall desire to give a single bond meeting the requirements of the act and the regulations in this part for the said warehouses, such warehouses shall be deemed to be one warehouse for the purposes of the bond required under §§ 738.11 through 738.15.

(b) In case of a deficiency in net assets as required by § 738.5, there shall be added to the amount of the bond fixed in accordance with paragraph (a) of this section, an amount equal to such deficiency.

(c) If the Secretary or his designated representative finds the existence of conditions warranting such action, there shall be added to the amount fixed in accordance with paragraphs (a) and (b) of this section a further amount fixed by him to meet such conditions.

§ 738.13 Amendment of license.

If application is made under § 738.3 for an amendment of a license, and no bond previously filed by the warehouseman under §§ 738.11 through 738.15 covers obligations arising under such amendment, the warehouseman shall, when notice has been given by the Secretary, or his designated representative, that such amendment will be granted upon compliance by such warehouseman with the act, file with the

In the discretion of the Secretary, or his designated representative, a properly executed instrument in form approved by him, amending, extending, or continuing in force and effect the obligations of a valid bond previously filed by the warehouseman and otherwise complying with the act and the regulations in this part may be filed in lieu of a new bond.

§ 738.14 New bond required each year.
Whenever a license has been issued for a period longer than 1 year, such license shall not be effective beyond 1 year from its effective date unless the warehouseman shall have filed a new bond in the required amount with, and such bond shall have been approved by, the Secretary or his designated representative, prior to the date on which that license would have expired had it been issued for but 1 year, subject to the provisions of §738.13.

§ 738.15 Approval of bond.
No bond, amendment, or continuation thereof shall be deemed accepted for the purposes of the act and the regulations in this part until it has been approved by the Secretary or his designated representative.

If a warehouseman delivers a part only of a lot of wool for which he has issued a negotiable receipt, he shall take up and cancel such receipt and issue a new receipt in accordance with the regulations in this part for the undelivered portion of the wool.

If the warehouseman is unable to procure such insurance to the extent requested, he shall, orally, or by telegraph, or by telephone immediately notify the person making the request of the fact. Such records shall be retained by the warehouseman for a period of six years after December 31 of the year in which created, and for such longer period as may be necessary for the purposes of any litigation which the warehouseman knows to be pending, or as may be required by the Administrator in particular cases to carry out the purposes of the Act.

(b) Each warehouseman shall provide a metal fireproof safe, a fireproof vault, or a fireproof compartment in which he shall keep, when not in actual use, all records, books, and papers pertaining to the warehouse, including his current receipt book, copies of receipts issued, and canceled receipts, except that, with the written approval of the Department upon a showing by such warehouseman that it is not practicable to provide such fireproof safe, vault, or compartment, he may keep such records, books, and papers in some other place of safety approved by the Administrator or his representatives. Each canceled receipt shall be retained by the warehouseman for a period of six years after December 31 of
the year in which the receipt is canceled and for such longer period as may be necessary for the purposes of any litigation which the warehouseman knows to be pending, or as may be required by the Administrator in particular cases to carry out the purposes of the act. (b) If, at any time, a warehouseman shall handle or receive wool otherwise than as a licensed warehouseman, or shall handle or store any other commodity, he shall so protect the same and otherwise exercise such care with respect to it as not to endanger the wool in his custody as a licensed warehouseman or impair the insurance thereon or his ability to meet his obligations and perform his duties under the act and the regulations in this part.

As soon as it shall come to the attention of a licensed warehouseman that any of the conditions in this section exist, it shall be his duty to notify in writing the Administrator. Before the license of any grader or weigher is permanently suspended or revoked pursuant to section 12 of the act, such licensee shall be furnished by the Secretary, or by his designated representative, a written statement specifying the charges and shall be allowed a reasonable time within which he may answer the same in writing and apply for a hearing, an opportunity for which shall be afforded in accordance with § 738.72.

§ 738.61 Return of suspended, revoked, terminated licenses.

§ 738.73 One document and one license to cover several products.

(a) A license may be issued for the storage of two or more agricultural products in a single warehouse. Where such license is desired, a single application, inspection, bond, record, report, or other paper, document, or proceeding relating to such warehouse shall be sufficient unless otherwise directed by the Service.

(b) Where such license is desired, the amount of the bond, net assets, and inspection and license fees shall be determined by the Administrator in accordance with the regulations applicable to the particular agricultural product which would require the largest bond and the greatest amount of net assets and of fees if the full capacity of the warehouse was used for its storage.

The applicant shall at any time furnish such additional information as the Secretary or his designated representative shall find to be necessary to the consideration of his application.

§ 739.4 Grounds for not issuing license.

Pending investigation, the Secretary, or his designated representative, may, whenever he deems necessary, suspend the license of an inspector or of a weigher temporarily without hearing. Upon a written request and a satisfactory statement of reasons therefor, submitted by the inspector or weigher, or when the inspector or weigher has ceased to perform such services at the warehouse, the Secretary, or his designated representative, may, without hearing, suspend or revoke the license issued to such inspector or weigher. The Secretary, or his designated representative, may, after opportunity for hearing, when possible, has been afforded in the manner prescribed in this section, suspend or revoke a license issued to an inspector or a weigher when such inspector or weigher has in any manner become incompetent or incapacitated to perform the duties of a licensed inspector or licensed weigher. As soon as it shall come to the attention of a warehouseman that any of the conditions mentioned in this section exist, it shall be his duty to notify the Administrator in writing. Before the license of any inspector or weigher is permanently suspended or revoked pursuant to section 12 of the act, such licensee shall be furnished by the Secretary or his designated representative, a written statement specifying the charges and shall be allowed a reasonable time within which he may answer the same in writing and apply for a hearing, an opportunity for which shall be afforded in accordance with § 739.80.

§ 739.70 Suspended or revoked license; return; termination of license.

(a) If a license issued to an inspector or to a weigher is suspended or revoked, by the Secretary, or by his designated representative, it shall be returned to the Secretary. At the expiration of any period of suspension of a license, unless in the meantime it be revoked, the dates of the beginning and termination of the suspension shall be indorsed thereon, and it shall be returned to the inspector or weigher to whom it was originally issued, and it shall be posted as prescribed in § 739.61.

(b) Any license issued to an inspector or weigher shall automatically be suspended or terminated as to any warehouse whenever the license of such warehouse is suspended or revoked. Thereupon the license of such inspector or weigher shall be returned to the Secretary. If such license is applicable to warehouses other than those for which the licenses have been suspended or revoked, the Secretary, or his designated representative, shall issue a new license to the inspector or weigher, omitting the names of the warehouses for which licenses have been so suspended or revoked. Such new licenses shall be posted as prescribed in § 739.61.

§ 739.71 Lost or destroyed licenses.

Upon satisfactory proof to the loss or destruction of a license issued to an inspector or weigher, a duplicate thereof or a new license may be issued under the same or a new number.

§ 739.72 Unlicensed inspector or weigher; misrepresentation.

No person shall in any way represent himself to be an inspector or weigher licensed under the act unless he holds an unsuspended and unrevoked license issued under the act.
§ 739.73 Statement of classification.
Whenever the variety, grade, or condition of beans is required to be or is stated for the purposes of this act and the regulations in this part, it shall be stated in accordance with §§ 739.74 and 739.75.

§ 739.74 Standards to be used.
The official bean standards of the United States are hereby adopted as the official beans standards for the purposes of the act and regulations.

§ 739.75 Statement of variety, grade, condition.
Whenever the variety, grade or condition of beans is stated for the purpose of this act and the regulations in this part, the terms used shall be correctly applied and shall be so stated as not to convey a false impression of the beans. In case of doubt as to the variety, grade or condition of a given lot of beans, a determination shall be made of such facts by drawing samples fairly representative of the contents of the lot of beans offered for storage. These samples shall be thoroughly mixed, and after being so mixed, from this mixture by quartering a sufficient quantity shall be taken which shall constitute the sample for the purpose of determining the grade.

Appeal of Grades

§ 739.76 Conditions and procedure of appeal.
(a) If a question arises as to whether the variety, grade or condition of the beans was correctly stated in a receipt or inspection certificate issued under the act or the regulations in this part, the warehouseman concerned or any person financially interested in the beans involved may, after reasonable notice to the other party, submit the question to such representatives of the Service as the Administrator may appoint. The decision of such representatives shall be final, unless the Administrator shall direct a review of the question. Immediately upon making their decision, these representatives shall issue a certificate embodying their findings to the appellants and the licensee or licensees involved.
(b) If the decision of the representatives of the Service be that the variety, grade, or condition was not correctly stated, the receipt or certificate involved shall be returned to and canceled by the licensee who issued it, and the licensee shall issue in lieu thereof a new receipt or certificate embodying therein the statement of variety, grade, or condition, in accordance with the findings of the aforesaid representatives.
(c) All necessary and reasonable expense of such arbitration shall be borne by the losing party, unless the Administrator or his representative shall decide that the expense should be prorated between the parties.

Miscellaneous

§ 739.77 Bonds required.
Every person applying for a license, or licensed under section 9 of the act, shall, as such, be subject to all portions of the regulations in this part except §739.5, so far as they may relate to warehousemen. If there is a law of any State providing for a system of warehouses owned, operated, or leased by such State, a person applying for a license under section 9 of the act, to accept the custody of beans and to store the same in any of said warehouses, may, in lieu of a bond or bonds complying with §§ 739.11 and 739.12, file with the Secretary a single bond meeting the requirements of the act and the regulations in this part, in such form and in such amount not less than $5,000 as he shall prescribe, to insure the performance by such person, with respect to the acceptance of the custody of beans and their storage in the warehouses in such system for which licenses are or may be issued, of his obligations arising during the periods of such licenses, or amendments thereto. In fixing the amount of such bond, consideration shall be given, among other appropriate factors, to the character of the warehouses involved, their actual or contemplated capacity, the bonding requirements of the State and its liability with respect to such warehouses. If the Secretary, or his designated representative, shall find the
existence of conditions warranting such action, there shall be added to the amount of the bond so fixed a further amount, fixed by him, to meet such conditions.

§ 739.78 Publications.
Publications under the act and the regulations in this part shall be made in such media as may be deemed proper by the Administrator.

(62 FR 33541, June 20, 1997)

§ 739.79 Information of violations.
Every person licensed under the act shall immediately furnish the Service any information which comes to the knowledge of such person tending to show that any provision of the act or the regulations in this part has been violated.

§ 739.80 Procedure in hearings.
Hearings under the Act or the regulations in this part, except those relating to appeals or arbitrations shall be conducted in accordance with the Rules of Practice Governing Formal Adjudicatory Administrative Proceedings Instituted by the Secretary under various statutes (7 CFR 1.130 through 1.151).

§ 739.81 One document and one license to cover several products.
A license may be issued for the storage of two or more agricultural products in a single warehouse. Where such a license is desired, a single application, inspection, bond, record, report, or other paper, document or proceeding relating to such warehouse, shall be sufficient unless otherwise directed by the Administrator.

§ 739.82 Bond for combination warehouse.
Where such license is desired, the amount of the bond, net assets, and inspection and license fees shall be determined by the Administrator in accordance with the regulations applicable to the particular agricultural product which would require the largest bond and the greatest amount of net assets and of fees if the full capacity of the warehouse were used for its storage.

§ 739.83 Amendments.
Any amendment to, or revision of, the regulations in this part, unless otherwise stated therein, shall apply in the same manner to persons holding licenses at the time it becomes effective as it applies to persons thereafter licensed under the act.

§ 740.4

WAREHOUSE LICENSES

§ 740.3 Application form.

Applications for licenses and for amendments of licenses under the Act shall be made to the Administrator upon prescribed forms furnished by the Service, shall be in English, shall truly state the information therein contained, and shall be signed by the applicant. The applicant shall at any time furnish such additional information as the Administrator shall find to be necessary to the consideration of his application.

§ 740.4 All facilities to be licensed or exempted.

All facilities within the same city or town used for the storage of nuts by an applicant for a warehouse license must qualify for a license and be licensed under the Act if the applicant is to be licensed to operate as a nut warehouseman in such city or town, unless the facilities which are not to be covered by a license are exempted by the Administrator upon a finding that, due to the exercise of adequate controls by some independent agency over the operation of the nonfederally licensed facilities, there would be no likelihood of the interchange, substitution, or commingling of nuts stored in such facilities with nuts stored in the federally licensed facilities. If all such facilities do not qualify for a license or for an exemption under this section, the applicant shall not be licensed under the Act as a nut warehouseman in the city or town in which the facilities in question are located. Each applicant for a nut warehouse license must apply for a license covering all facilities operated by him for the storage of nuts within the same city or town in which his licensed warehouse is located. He shall file promptly an application for a license or an exemption of the additional facilities. No nut storage facility acquired by a licensed nut warehouseman subsequent to the issuance of his license, in the same city or town as his licensed facilities, shall be used for the
§ 740.5 Storage of nuts until it qualifies for license and is licensed or is exempted as provided in this section. If any one of the licensed nut storage facilities operated by a warehouseman in the same city or town becomes ineligible for a license at any time for any reason, it shall not thereafter be used for the storage of nuts, until the condition making it ineligible is removed or an exemption is granted as provided in this section. The use for the storage of nuts by a licensed warehouseman of a facility which is in the same city or town as his licensed facilities and is neither licensed nor exempted, or other violation of the provisions of this section, shall be cause for suspension or revocation of any license issued to the warehouseman for the storage of nuts.

§ 740.5 Scales; bin and compartment numbers.
(a) Each warehouse must be equipped with suitable scales in good order, and so arranged that all nuts, whether for storage or for nonstorage purposes, can be weighed in and out of the warehouse. The scales in any warehouse shall be subject to examination by representatives of the Department and to disapproval by the Administrator. If he disapproves any weighing apparatus, it shall not thereafter be used in ascertaining the weight of nuts for the purposes of this Act, until such disapproval be withdrawn.

(b) Both bulk bins and compartments for sacked nuts of all warehouses licensed under the Act shall be identified by means of clearly discernible numbers securely affixed thereto. The series of numbers to be used shall be approved by the Service. Bulk bins shall be numbered so as to be easily identified at the openings on top and also on or near the outlets. Compartments shall be numbered in such a manner as to clearly show the space covered by each number.

§ 740.6 Net assets.
(a) Each warehouseman conducting a warehouse licensed, or for which application for a license has been made under the regulations in this part, shall have and maintain above all exemptions and liabilities, total net assets liable for the payment of any indebtedness arising from the conduct of the warehouse, to the extent of at least $25 per ton for the maximum number of tons of peanuts, 2 cents per pound for the maximum number of pounds of walnuts or filberts, and/or 3 cents per pound for the maximum number of pounds of pecans, that the warehouse could accommodate when stored in the manner customary to the warehouse as determined by the Administrator: Provided, That no person may be licensed as a warehouseman under the regulations in this part unless he has allowable net assets of at least $10,000: And provided further, That any deficiency in net assets required above the $10,000 minimum may be supplied by an increase in the amount of the warehouseman’s bond in accordance with §740.14(c). In determining total net assets, credit may be given for insurable property such as buildings, machinery, equipment, and merchandise inventory, only to the extent that such property is protected by insurance against loss or damage by fire. Such insurance shall be in the form of lawful policies issued by one or more insurance companies authorized to do such business and subject to service of process in suits brought in the State in which the warehouse is located.

(b) In case a warehouseman is licensed or is applying for licenses to operate two or more warehouses under the regulations in this part, the maximum quantity of nuts which all such warehouses will accommodate when stored in the manner customary to the warehouse, as determined by the Administrator, shall be considered in determining whether the warehouseman meets the net assets requirements specified in paragraph (a) of this section.

(c) For the purposes of paragraphs (a) and (b) of this section only, capital stock as such shall not be considered a liability.

§ 740.7 Grounds for not issuing license.
A license for the conduct of a warehouse, or any amendment to a license, under the regulations in this part, shall not be issued if it is found by the Secretary that the warehouse is not suitable for the proper storage of nuts;
that the warehouseman does not possess a good reputation, or does not have a net worth of at least $10,000, or is incompetent to conduct such warehouse in accordance with the Act and the regulations in this part; or that there is any other sufficient reason within the intent of the Act for not issuing such license. If all the facilities operated for the storage of nuts by the applicant within the same city or town are not to be licensed under the Act, the applicant shall not be licensed as a nut warehouseman with respect to any of such facilities, unless an exemption of the facilities which are not to be licensed is granted as provided in §740.4.

§ 740.8 License shall be posted.

Immediately upon receipt of his license of any modification or extension thereof under the Act, the warehouseman shall post the same, and thereafter, except as otherwise provided in the regulations in this part, keep it posted until suspended or terminated, in a conspicuous place in the principal office where receipts issued by such warehouseman are delivered to depositors.

§ 740.9 Suspension, cancellation or revocation of warehouse licenses.

(a) Pending investigation, the Secretary, whenever he deems necessary, may suspend a warehouseman’s license temporarily without hearing. Upon written request and a satisfactory statement of reasons therefor, submitted by a warehouseman, the Secretary may, without hearing, suspend or cancel the license issued to such warehouseman. The Secretary may, after opportunity for hearing has been afforded in the manner prescribed in this section, suspend or revoke a license issued to a warehouseman when he determines that such warehouseman:

(1) Does not have a net worth of at least $10,000;
(2) Has parted, in whole or in part, with his control over the licensed warehouse;
(3) Is in process of dissolution or has been dissolved;
(4) Has ceased to operate such licensed warehouse;
(5) Has in any other manner become nonexistent or incompetent or incapacitated to conduct the business of the warehouse;
(6) Has made unreasonable or exorbitant charges for services rendered;
(7) Is operating in the same city or town in which his licensed warehouse facilities are located, any facility for storage of nuts which is not covered by a license or an exemption as provided in §740.4.
(8) Has in any other manner violated or failed to comply with any provision of the Act or the regulations in this part.

(b) Whenever any of the conditions mentioned in paragraphs (a)(1) through (8) of this section shall come into existence, it shall be the duty of the warehouseman to notify the Administrator immediately of the existing condition. Before a license is revoked or suspended (other than temporarily pending investigation) for any violation of, or failure to comply with, any provision of the Act or the regulations in this part, or upon the ground that unreasonable or exorbitant charges have been made for services rendered, the warehouseman involved shall be furnished by the Secretary a written statement specifying the charges and shall be allowed a reasonable time within which he may answer the same in writing and apply for a hearing, an opportunity for which shall be afforded in accordance with §740.81.

§ 740.10 Return of suspended or revoked warehouse license.

In case a license issued to a warehouseman terminates or is suspended, revoked, or canceled by the Secretary, it shall be returned immediately to the Secretary. At the expiration of any period of suspension of such license, unless it be in the meantime revoked or canceled, the dates of the beginning and termination of the suspension shall be indorsed thereon, and it shall be returned to the licensed warehouseman to whom it was originally issued, and it shall be posted as required in §740.8: Provided, That in the discretion of the Administrator a new license may be issued without reference to such suspension.
§ 740.11 Lost or destroyed warehouse license.

Upon satisfactory proof of the loss or destruction of a license issued to a warehouseman, a duplicate thereof or a new license may be issued under the same or a new number at the discretion of the Administrator.

§ 740.12 Unlicensed warehousemen must not represent themselves as licensed.

No warehouse or its warehouseman shall be designated as licensed under the Act and no name or description conveying the impression that it or he is so licensed shall be used, either in a receipt or otherwise unless such warehouseman holds an unsuspended, unrevoked, and uncanceled license for the conduct of such warehouse.

WAREHOUSE BONDS

§ 740.13 Bond required; time of filing.

Each warehouseman applying for a warehouse license under the Act shall, before such license is granted, file with the Secretary a bond containing the following conditions and such other terms as the Secretary may prescribe in the approved bond forms, with such changes as may be necessary to adapt the forms to the type of legal entity involved:

Now, therefore, if the said license(s) or any amendments thereto be granted and said principal, and its successors and assigns operating said warehouse(s), shall:

Faithfully perform during the period of 1 year commencing ______, or until the termination of said license(s) in the event of termination prior to the end of the 1 year period, all obligations of a licensed warehouseman under the terms of the Act and regulations thereunder relating to the above-named products; and

Faithfully perform during said 1 year period and thereafter, whether or not said warehouse(s) remain(s) licensed under the Act, such delivery obligations and further obligations as a warehouseman as exist at the beginning of said 1 year period or are assumed during said period and prior to termination of said license(s) under contracts with the respective depositors of such products in the warehouse(s);

Then this obligation shall be null and void and of no effect, otherwise to remain in full force. For purposes of this bond, the aforesaid obligations under the Act and regulations and contracts shall include obligations under any and all modifications of the Act, the regulations, and the contracts that may hereafter be made, notice of which modifications to the surety being hereby waived.

§ 740.14 Amount of bonds; additional amounts.

(a) The amount of bond to be furnished for each warehouse under the regulations in this part for peanuts shall be fixed at a rate of $25 per ton for the first 10,000 tons of licensed capacity and $20 per ton for all tons of licensed capacity over 10,000 tons; for walnuts and filberts the bond shall be fixed at a rate of 2 cents per pound for the licensed capacity; and for pecans the bond shall be fixed at a rate of 3 cents per pound for the licensed capacity: Provided, That in any case the amount of bond shall not be less than $20,000 nor more than $500,000, except as prescribed in paragraph (c) of this section. The licensed capacity shall be the maximum quantity of nuts that the warehouse will accommodate when stored in the manner customary to the warehouse as determined by the Administrator.

(b) In case a warehouseman is licensed or is applying for licenses to operate two or more warehouses in the same State he may give a single bond meeting the requirements of the Act and the regulations in this part to cover all his warehouses within the State. In such case the warehouses to be covered by the bond shall be deemed to be one warehouse only for purposes of determining the amount of bond required under paragraph (a) of this section.

(c) In case of a deficiency in net assets above the $10,000 minimum required under § 740.6, there shall be added to the amount of bond determined in accordance with paragraph (a) of this section an amount equal to such deficiency. In any other case in which the Administrator finds that conditions exist which warrant requiring additional bond, there shall be added to the amount of bond as determined under the other provisions of this section, a further amount to meet such conditions.

§ 740.15 Amendment to license; bond.

In case an application is made for an amendment to a license and no bond
previously filed by the warehouseman under §§740.13 through 740.17 covers obligations arising during the period covered by such amendment, the warehouseman shall, when notice has been given by the Secretary, that his application for such amendment will be granted upon compliance by such warehouseman with the Act, file with the Secretary, within a time, if any, fixed in such notice, a bond complying with the Act. In the discretion of the Secretary, a properly executed instrument in form approved by him, amending, extending, or continuing in force and effect the obligations of a valid bond previously filed by the warehouseman and otherwise complying with the Act and the regulations in this part, may be filed in lieu of a new bond.

§ 740.16 New bond required each year.

A continuous form of license shall not remain in force for more than one year from its effective date, or any subsequent extension thereof, unless each year prior to the date on which the license would expire, the warehouseman files a bond in the required amount with the Secretary and such bond has been approved by him.

§ 740.17 Approval of bond.

No bond, amendment, or continuation thereof shall be accepted for the purposes of the Act and the regulations in this part until it has been approved by the Secretary.

The applicant shall at any time furnish such additional information as the Secretary or the Administrator shall find to be necessary to the consideration of his application.

§ 741.4 Grounds for not issuing license.

A license for the conduct of a warehouse shall not be issued if it be found by the Secretary or his designated representative, that the warehouse is not suitable for the proper storage of sirup, that the warehouseman is incompetent to conduct such warehouse in accordance with the act and this part, or that there is any other sufficient reason within the purposes of the act for not issuing such license.

§ 741.5 Net assets required.

The warehouseman conducting a warehouse licensed or for which application for license has been made under the act shall have and maintain above all exemptions and liabilities net assets liable for the payment of any indebtedness arising from the conduct of the warehouse, to the extent of at least 5 cents per gallon of sugarcane sirup and 10 cents per gallon of maple sirup or honey, of the maximum number of gallons that the warehouse will accommodate when stored in the manner customary to the warehouse as determined by the Administrator, except that the amount of such assets shall not be less than $5,000, and need not be more than $100,000. Each person to whom a nonnegotiable receipt is issued shall furnish the warehouseman with a statement in writing indicating the person or persons having power to authorize delivery of sirup covered by such receipt, together with the bona fide signature of such person or persons. No licensed warehouseman shall honor an order for the release of sirup covered by a nonnegotiable receipt until he has first ascertained that the person issuing the order has authority to order such release and that the signature of the releasing party is genuine. Provided, That if the holder of such nonnegotiable receipt agrees in writing to hold blameless both the warehouseman and bondsmen for any loss that might result from improper delivery through receipt of an unauthorized telegram, deliveries may be made on receipt of telegraphic orders to be followed immediately with usual confirmation order.

§ 741.23 Omission of grade; no compulsion by warehouseman.

When insurance is not carried in the warehouseman’s name, the receipts shall show that the sirup is not insured by him. Such insurance shall be covered by lawful policies issued by one or more insurance companies authorized to do such business in the State where the warehouse is located. If the warehouseman is unable to procure such insurance, he shall, orally, or by telegraph or by telephone and at his own expense, immediately notify the person making the request. Nothing in this section shall be construed to prevent a warehouseman from adopting a rule that he will insure all sirup.

(b) Each warehouseman shall keep exposed conspicuously in the place prescribed by §741.6, and at such other place as the Administrator, or his representative may from time to time designate, a notice stating briefly the conditions under which sirup will be insured against loss or damage by fire, lightning, or tornado.

If the warehouseman shall store commodities other than those for which he is licensed, a nonlicensed receipt shall be issued, which shall contain in its terms a provision that said commodities are accepted for storage only until such time as the space which they may occupy may be needed for products for the storage of which the warehouseman is licensed. Under no circumstances shall any commodities for the storage of which the warehouseman is not licensed be stored if the storage of such commodities might adversely affect the commercial value of, or impair the insurance on sirup covered by licensed receipts.

§ 741.29 Records to be kept in safe places.

If there is a law of any State providing for a system of warehouses owned, operated, or leased by such State, a person applying for a license under section 9 of the act, to accept the custody of sirup and to store the same in any of said warehouses, may, in lieu of a bond or bonds, complying with §§741.11 and 741.12, file with the Secretary a single bond meeting the requirements of the act and this part, in such form and in such amount not less than $5,000, as he shall prescribe, to insure the performance by such person, with respect to the acceptance of the custody of sirup and its storage in the warehouses in such system for which licenses are or may be issued, of his obligations arising during the periods of such licenses, and in addition, if desired by the applicant, during the periods of any modifications or extensions thereof. In fixing the amount of such bond, consideration shall be given, among other appropriate factors, to the character of the warehouses involved, their actual or contemplated capacity, the bonding requirements of the State, and its liability with respect to such warehouses. Where such a license is desired, the amount of the bond, net assets, and inspection and license fees shall be determined by the Administrator in accordance with the sections applicable to the particular agricultural product which would require the largest bond and the greatest amount of net assets and of fees if the full capacity of the warehouse was used for its storage.

§ 742.77 Classification; statement.

Whenever the grade or condition of cottonseed is required to be or is stated for the purposes of this act and the regulations in this part, it shall be stated in accordance with §§742.78 and 742.79.

§ 742.78 Standards to be used.

Until such time as official cottonseed grades of the United States are in effect, the grade and condition of cottonseed shall be stated as far as applicable (a) in accordance with the State standards, if any, established in the State in which the warehouse is located, (b) in the absence of any State standards, in accordance with the standards, if any, adopted by any cottonseed organization or by the cottonseed trade generally in the locality in which the warehouse is located, subject to the disapproval of the Administrator, or (c) in the absence of the aforesaid standards in accordance with any standards approved by the Administrator.

§ 742.79 Statement of grade; condition.

Whenever the grade or condition of the cottonseed is stated for the purposes of this act and this part, the terms used shall be correctly applied and shall be so selected as not to convey a false impression of the cottonseed. In case of doubt as to the grade or condition of a given lot of cottonseed a determination shall be made of such facts by drawing at least six samples of five (5) pounds each, fairly representative of the contents of the car, or two samples of two (2) pounds each fairly representative of the contents of the wagon from the various parts of the carload or wagonload of cottonseed offered for storage. These samples shall be thoroughly mixed and after being so mixed, from this mixture by quartering, not less than 100 grams shall be taken, which shall constitute the sample for the purpose of determining the grade.

ARBITRATION

§ 742.80 Arbitration.

(a) Except when agreements have been made in accordance with the "United States Arbitration Act" (43 Stat. 883; 9 U.S.C. 1-14), in case a question arises as to whether the condition, grade, or weight of cottonseed was correctly stated in a receipt, inspection certificate, grade certificate, or weight certificate issued under the act and the regulations in this part or as to whether an official sample was properly drawn by a licensed inspector in accordance with the regulations in this part, the licensed warehouseman concerned or any person financially interested in the cottonseed involved may, after reasonable notice to the other interested party, submit the question to an arbitration committee for determination in accordance with this section.

(b) Such arbitration committee shall be composed of three or more disinterested persons who are competent to pass upon the questions involved. If there be a local trade organization such as a board of trade, chamber of commerce, exchange, or inspection department which provides such a committee under a rule or practice acceptable to the Administrator for the purpose, such a committee may determine the question. In the absence of such a committee, or if for any good reason not inconsistent with the act and the
§ 742.81 Bonds required.

Every person applying for a license, or licensed under section 9 of the act shall as such, be subject to all portions of the regulations in this part except §742.5, so far as they may relate to warehousemen. In case there is a law of any State providing for a system of warehouses owned, operated, or leased by such State, a person applying for a license under section 9 of the act, to accept the custody of cottonseed and to store the same in any of said warehouses, may, in lieu of a bond or bonds, complying with §§742.12 and 742.13, file with the Secretary a single bond meeting the requirements of the act and the regulations in this part, in such form, and in such amount not less than $5,000 as he shall prescribe, to insure the performance by such person, with respect to the acceptance of the custody of cottonseed and its storage in the warehouse in such system for which licenses are or may be issued, of his obligations arising during the periods of such licenses, and in addition, if desired by the applicant, during the periods of any modifications or extensions thereof. In fixing the amount of such bond, consideration shall be given, among other appropriate factors, to the character of the warehouses involved, their actual or contemplated capacity, the bonding requirements of the State, and its liability with respect to such warehouses. If the Secretary shall find the existence of conditions warranting such action, there shall be added to the amount of the bond so fixed, a further amount, fixed by him, to meet such conditions.
§ 742.82 Publications.

Publications under the act and the regulations in this part shall be made in such media as may be deemed proper by the Administrator.

§ 742.83 Information of violations.

Every person licensed under the act shall immediately furnish the Administrator any information which comes to the knowledge of such person tending to show that any provision of the act or the regulations in this part has been violated.

§ 742.84 Procedure in hearings.

Hearings under the Act or the regulations in this part, except those relating to appeals or arbitrations shall be conducted in accordance with the Rules of Practice Governing Formal Adjudicatory Administrative Proceedings Instituted by the Secretary under various statutes (7 CFR 1.130—1.151).

Where such license is desired, the amount of the bond, net assets, and inspection and license fees shall be determined by the Administrator in accordance with the regulations applicable to the particular agricultural product which would require the largest bond and the greatest amount of net assets and of fees if the full capacity of the warehouse was used for its storage.

§ 742.87 Amendments.

Any amendment to, or revision of, the regulations in this part, unless otherwise stated therein, shall apply in the same manner to persons holding licenses at the time it becomes effective as it applies to persons thereafter licensed under the act.

§ 752.1 Program objective.

(a) The regulations in this part set forth the terms and conditions for the Water Bank Program. The Secretary is authorized to enter into agreements and make payments to eligible persons in important migratory waterfowl nesting and breeding areas. Specified wetlands identified for the conservation of water or related uses on a conservation plan shall be developed in cooperation with the Soil and Water Conservation District in which the lands are located.

(b) The objective of the Water Bank Program (hereinafter referred to in this part as the “program”) is to preserve, restore, and improve the wetlands of the Nation, and thereby: (1) Conserve surface waters, (2) preserve and improve habitat for migratory waterfowl and other wildlife resources, (3) reduce runoff, soil and wind erosion, (4) contribute to flood control, (5) contribute to improved water quality and reduce stream sedimentation, (6) contribute to improved subsurface moisture, (7) reduce acres of new land coming into production and to retire lands now in agricultural production, (8) enhance the natural beauty of the landscape, and (9) promote comprehensive and total water management planning.

§ 752.2 Definitions.

(a) Adjacent land means land on a farm which adjoins designated types 1 through 7 wetlands and is considered essential for the protection of the wetland or for the nesting, breeding, or feeding of migratory waterfowl. Adjacent land need not be contiguous to the land designated as wetland, but cannot be located more than one quarter of a mile away. Types 1 and 2 wetlands may be designated as adjacent land rather than wetland if located not more than one quarter mile from types 3 through 7 wetlands.

(b) Administrator means the Administrator or Acting Administrator of the
Farm Service Agency (FSA), U.S. Department of Agriculture.
(c) Agreement means a water bank agreement.
(d) Conservation plan means a written record of the land user's decisions on the use and management of the wetland and adjacent areas covered by the agreement. The conservation plan is the basis for the agreement. It includes a schedule of conservation treatment and management required to improve, protect, or restore the wetland and to maintain the wetland and adjacent land as a functional wetland unit for the life of the agreement. Conservation treatment and management of the vegetation for wetland protection, wildlife habitat, or other authorized objectives are consistent with the program objectives and priorities.
(e) Wetlands means the inland fresh areas described as types 1 through 7 in Circular 39, Wetlands of the United States, as published by the United States Department of the Interior.
(f) In the regulations in this part and in all instructions, forms, and documents in connection therewith, all other words and phrases specifically relating to FSA operation shall, unless the context of subject matter otherwise requires, have the meanings assigned to them in the regulations governing reconstitution of farms, allotments and bases, part 719 of this chapter, as amended.

§ 752.3 Administration.
(a) The program will be administered under the general supervision of the Administrator, in consultation with the Secretary of the Interior or his designee, and shall be carried out in the field by FSA State and county committees.
(b) Members of county committees are authorized to approve water bank agreements on behalf of the Secretary of Agriculture.
(c) State and county committees do not have authority to modify or waive any of the provisions of these regulations, or any amendment, supplement, or revision thereto. They do not have authority to modify or waive any of the provisions of any agreement entered into hereunder except to the extent specifically authorized in this part.

§ 752.4 Geographical applicability.
The program will be applicable in States and counties designated by the Deputy Administrator, State and County Operations, FSA (hereinafter referred to as the “Deputy Administrator”) after consultation with the United States Fish and Wildlife Service, United States Department of the Interior.

§ 752.5 Eligible farm.
A farm is eligible for participation in the program if: (a) At the time the request for an agreement is filed, land on the farm is not covered by a Water Bank Program agreement; (b) the farm contains at least one of the types 3 through 7 wetlands which are identified in a conservation plan developed in cooperation with the Soil and Water Conservation District in which the farm is located; and (c) the farm meets the other requirements specified in this part.

§ 752.6 Land eligible for designation.
(a) Land placed under an agreement shall be specifically identified and designated for the period of the agreement.
(b) Land eligible for designation must be: (1) Privately owned inland fresh wetland areas of types 1 through 7 of which at least 2 acres must be types 3 through 7 wetlands with respect to which, in the absence of inclusion in the program, destruction of the wetland character could reasonably be expected; (2) privately owned inland fresh wetland areas of types 1 through 7 which are under a drainage easement with the U.S. Department of the Interior or with a State government which permits agricultural use; or (3) other privately owned land which is adjacent to or within one quarter mile of designated types 1 through 7 wetlands and which is determined by the county committee to be essential for the nesting, breeding, or feeding of migratory waterfowl, or for the protection of wetland.
(c) The following land is not eligible for designation: (1) Land on which the ownership has changed during the 2-year period preceding the first year of the agreement period unless: (i) The new ownership was acquired by will or succession as a result of the death of the previous owner, or (ii) the land was acquired by the owner or operator to replace eligible land from which he was displaced because of its acquisition by any Federal, State, or other agency having the right of eminent domain. However a new owner shall not be prohibited from entering into an agreement if the person has operated the land to be designated for as long as 2 years preceding the first year of the agreement and has control of such land for the agreement period. The provisions of this subparagraph shall not prohibit the continuation of an agreement by a new owner after an agreement has once been entered into under this part.

(2) Land which is set aside or diverted under any other program administered by the Department of Agriculture.

(3) Land which is owned by the United States or a State or local government or political subdivision thereof.

(4) Land which is harvested in the first year of the agreement period prior to being designated, except for land on which timber is harvested in accordance with §752.7(g).

(5) Types 1 through 7 wetlands which are common to more than one farm unless the portion of a wetland area located on the farm which controls the potential outlet for drainage is placed under agreement. After an agreement has been approved for the farm controlling the outlet for drainage, an agreement may be entered into with any or all other farms for other portions of the common wetland area if all agreements have the same beginning date as the farm controlling the outlet for drainage.

§ 752.7 Use of designated acreage.

(a) The acreage designated under an agreement shall be maintained for the agreement period in a manner which will preserve, restore or improve the wetland character of the land. Persons entering into an agreement shall devote the adjacent land to conservation uses as specified in the agreement.

(b) The designated acreage shall not be drained, burned, filled, or otherwise used in a manner which would destroy the wetland character of the acreage, except that the provisions of this paragraph shall not prohibit the carrying out of management practices which are specified in a conservation plan for the farm which is developed in cooperation with the Soil and Water Conservation District in which the farm is located.

(c) The designated acreage shall not be used as a dumping area for draining other wetlands. However, the county committee may authorize the use of the designated area to receive limited drainage waters upon a determination that such use is consistent with the sound management of wetlands and is specified in the conservation plan for the farm.

(d) The designated acreage shall not be used: (1) As a source of irrigation water or as acreage for a set-aside, land diversion, acreage reduction or other program, or (2) to meet the conserving base acreage requirement for any other program.

(e) No crop shall be harvested from the designated acreage and such acreage shall not be grazed, except as may be specified in the conservation plan for the farm except that the designated acreage may be grazed in the first year of the agreement period prior to the date the agreement is approved.

(f) During periods of severe drought, haying of the designated acreage may be approved under specified conditions which are prescribed by the Deputy Administrator in consultation with the Secretary of Interior or his designee.

(g) The harvesting of timber products may be permitted but only in accordance with a Forest Management Plan which is included in the conservation plan and which is approved by the State forester or equivalent State official.

§ 752.8 Water bank program agreement.

(a) An agreement shall be executed for each participating farm. The agreement shall be signed by the owner of the designated acreage and any other person who, as landlord, tenant, or sharecropper, will share in the payment or has an interest in the designated acreage.

(b) There may be more than one agreement for a farm.

(c) Each agreement shall be signed by a member of the county committee on behalf of the Secretary.

§ 752.9 Agreement period.

(a) The agreement period shall be 10 years. The agreement shall become effective on January 1 of the year in which the agreement is approved except that the agreement shall become effective on January 1 of the next succeeding year in cases where, at the time the agreement is approved, the county committee determines that the agreement signers will be unable to comply with the provisions of §752.7 relating to the use of designated acreage in the year in which such agreement is approved.

(b) Subject to a modification of payment rates and such other provisions which may be determined to be desirable, agreements may be renewed for additional periods of 10 years each.

§ 752.10 Awarding water bank agreements.

(a) Persons wishing to be considered for an agreement shall file a request with the county committee indicating the acreage which is to be designated under the agreement. In order to be eligible for participation in the program, such persons must agree to designate: (1) 2 or more acres of types 3 through 7 wetlands, and (2) a total of at least 10 acres consisting of types 1 through 7 wetlands or adjacent land, or any combination thereof, identified in a conservation plan developed in cooperation with the Soil and Water Conservation District in which the farm is located. In addition, the Soil Conservation Service (SCS) must certify that the designated acreage constitutes a viable wetland unit, contains sufficient adjacent land to protect the wetland, and provides essential habitat for the nesting, breeding or feeding of migratory waterfowl. An acreage of less than 10 acres may be designated if the SCS representative recommends acceptance of the acreage and certifies that the area offered for agreement is a good, viable wetland unit and that the acceptance of the acreage would be in accord with the purposes of the program.

(b) Persons desiring to participate in the program may agree to designate any additional amount to types 1 through 7 wetlands and adjacent land. However, the maximum acreage of adjacent land which is designated under the agreement with respect to which payment shall be based cannot exceed four times the total acreage of types 3 through 7 wetlands which is designated under the agreement. This maximum acreage restriction may be waived by the State committee if such waiver would further the program objectives.

(c) Where funds allocated to the county do not permit accepting all requests which are filed, the county committee may limit the approval of requests for agreements in accordance with instructions issued by the Deputy Administrator.

§ 752.11 Responsibility of agreement signers.

(a) The owner of the designated acreage is responsible for compliance with the agreement and for any refunds or deductions for failure to comply fully with the terms of the agreement while a party to such agreement.

(b) Each other person signing the agreement is jointly and severally responsible with the owner for compliance with the agreement and for any refunds or payment reductions which may be required for failure to comply fully with the terms of the agreement while a party to such agreement.

§ 752.12 Provisions relating to tenants and sharecroppers.

(a) No agreement shall be approved if it appears that the owner, landlord, or
§ 752.13 Determination of compliance.

(a) Determination of the acreage designated under the agreement shall be made in accordance with part 718 of this chapter, as amended.

(b) A representative of the county or State committee or any authorized representative of the Secretary shall have the right at any reasonable time to enter a farm concerning which representations have been made on any forms filed under the program in order to measure the designated acreage, to examine any records pertaining thereto, and to otherwise determine the accuracy of any representations and the performance of any obligations by the signatories of a WBP agreement.

§ 752.14 Annual payments.

(a) Persons on the farm having an interest in the designated acreage shall be eligible for an annual payment.

(b) The annual per acre payment rates for wetlands and for adjacent land shall be those rates which are recommended by the county and State committee and approved for each county by the Deputy Administrator. If the wetlands are subject to a drainage easement with the United States Department of the Interior or a state governmental entity, the payment rates for such wetlands will be 80 percent of the approved county rates which are applicable to wetlands in the county. A listing of all approved rates shall be available for inspection at the county FSA office.

(c) The payment shall be divided among the owner of the designated acreage and any other person having an interest in such acreage, including tenants and sharecroppers, in the manner agreed upon by them as representing their respective contributions to compliance with the agreement. The county committee shall refuse to approve an agreement if it determines that the proposed division of payment is not fair and equitable. The annual payment and the division of the payment shall be specified in the agreement.

§ 752.15 Adjustment of annual rates.

(a) The county committee shall reexamine the payment rates with respect to each agreement at the beginning of the fifth year of any ten-year initial or renewal period and before the renewal period expires.

(b) An adjustment in the payment rates shall be made for any initial or renewal period taking into consideration the current land rental rates and crop values in the area. No adjustment shall be made in a payment rate which will result in a reduction of an annual payment rate from the rate which is specified in the initial agreement.

§ 752.16 Refunds or forfeitures for non-compliance.

(a) Except as otherwise provided in paragraph (b) of this section, no payment shall be made to any person for any year with respect to any agreement for which it is determined that for such year:

(1) There has been a failure to maintain the wetland character of the designated acreage and devote the adjacent land to the use specified in the agreement as provided in §752.7 (a);

(2) There has been a failure to comply with the prohibition against drainage, burning, filling, or otherwise using the designated acreage in a manner which would destroy the wetland character of the acreage as provided in §752.7 (b);

(3) There has been a failure to comply with the prohibition against using the designated acreage as a dumping area for draining other wetlands as provided in §752.7 (c);

(4) There has been a failure to comply with the prohibition against using the designated acreage as a source of irrigation water or as acreage for a set-aside, land diversion, acreage reduction or other program, or to meet the conserving base acreage requirement for...
any other program as provided in §752.7 (d);
(5) There has been a failure to comply with the prohibition against harvesting a crop from or grazing the designated acreage as provided in §752.7(e);
(6) There has been a failure to comply with the provisions relating to having the designated acreage during periods of severe drought as provided in §752.7(f);
(7) There has been a failure to comply with the provisions relating to the harvesting of timber products as provided in §752.7(g); or
(8) There has been a failure to comply with the provisions relating to tenants and sharecroppers as provided in §752.12.
(b) The regulations governing the making of payments when there has been a failure to comply fully with the provisions of this part requires a refund or forfeiture of the entire annual payment under the agreement for the year and it is determined that the failure to comply is of such a nature as to warrant termination of the agreement. If an agreement is terminated, the persons signing the agreement shall forfeit all rights to further payments under the agreement and shall refund all payments received under the agreement.

§ 752.17 Actions defeating purposes of program.
If the county committee with the concurrence of the State committee, or the State committee, finds that any person has taken any action which tends to defeat the purposes of the program, all or any part of the annual payment which otherwise would be due under the program may be withheld or be required to be refunded.

§ 752.18 Filing of false claims.
The making of a fraudulent representation by a person in the payment documents or otherwise for the purpose of obtaining a payment from the county committee shall render the person liable, in addition to any liability under applicable Federal criminal and civil fraud statutes, for a refund of any payments received by such person as the result of the fraudulent representation.

§ 752.19 Depriving others of payments.
If the State committee finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation) which deprives any other person of a payment to which such person is otherwise entitled under the program, the State committee may withhold or require a refund of all or any part of the program payment which otherwise would be due to the person who employed such scheme or device.

§ 752.20 Modification of an agreement.
(a) Any reconstitution of farms shall be made in accordance with the regulations governing reconstitution of farms, part 719 of this chapter, as amended.
(b) If the farm is reconstituted because of purchase, sale, change of operation, or otherwise, the agreement shall be modified in accordance with instructions issued by the Deputy Administrator with respect to any reconstituted farm which contains all or any part of the original designated acreage. The modified agreement or agreements shall reflect the changes in the number of acres in any reconstituted farm, the designated acreage, interested persons, and division of payments. If persons who were not signatories to the original agreement are required to execute such modified agreement or agreements in accordance with the provisions of §752.8, but such persons are not willing to become parties to the modified agreement or for any other reason a modified agreement is not executed, the agreement shall be terminated with respect to the designated acreage which is not continued in the program, and all unearned payments shall be forfeited or refunded to FSA. The annual payment for the year in which a reconstitution occurs shall not be considered earned unless the designated acreage is continued in the program and there is a compliance with the agreement for the full agreement year. The persons on the farm prior to the reconstitution who were signatories to the agreement
§ 752.21 Termination of agreements.

The Deputy Administrator may, by mutual agreement with the parties to the agreement, consent to the termination of an agreement where: (a) The operator of the farm is physically handicapped and could not reasonably be expected to comply with the terms and conditions of the agreement; (b) the operator is or was mentally unstable at the time of the signing of the agreement and could not reasonably be expected to comply with the terms and conditions of the agreement; (c) the parties to the agreement are unable to comply with the terms of the agreement as the result of conditions beyond their control; (d) compliance with the terms of the agreement would work a severe hardship on the parties to the agreement; or (e) termination of the agreement would be in the public interest. If an agreement is terminated in accordance with the provisions of this section, the annual payment for the year in which the agreement is terminated shall not be considered to have been earned unless there is compliance with the terms and conditions of the agreement for the entire calendar year.

§ 752.22 Transfer of interest in an agreement.

(a) If a person acquires an interest in the designated acreage during the period covered by an agreement, such person may, with the consent of the other parties to the agreement and with approval of the county committee, become a party to the agreement and share in payments thereunder. A person, by becoming a party to the agreement, shall be jointly and severally responsible with the other signatories to the agreement for compliance with the terms and conditions of the agreement. In addition, such person shall be liable for any payment reductions or refunds which may be required as the result of the failure to comply with the terms and conditions of such agreement after becoming a party to the agreement.

(b) If a signatory to an agreement ceases to have an interest in the designated acreage, such person thereby ceases to be a party to the agreement. However, such person will not be relieved of any liability for deductions and refunds for failure to comply with the terms and conditions of the agreement while a party to the agreement.

§ 752.23 Successors-in-interest.

In case of death, incompetency, or disappearance of any person, any payment due shall be paid to the successor as determined in accordance with provisions of the regulations in part 707 of this chapter, as amended.

§ 752.24 Agreement not in conformity with regulations.

If, after an agreement is approved by the county committee, it is discovered
that such agreement is not in conformity with the regulations as the result of a misunderstanding of the program procedures by a signatory to the agreement, a modification of the agreement may be made by mutual agreement. If persons who are currently eligible to execute the corrected agreement are unwilling to do so, the agreement shall be terminated and all payments paid or payable under the agreement shall be forfeited or refunded, except as may be allowed by the Deputy Administrator in accordance with the provisions of §752.25.

§ 752.25 Performance based upon advice or action of county or State committee.

The provisions of part 790 of this chapter, as amended, relating to performance based upon action or advice of an authorized representative of the Secretary shall be applicable to this program.

§ 752.26 Setoffs and withholdings.

The regulations issued by the Secretary governing setoffs and withholdings, part 13 of this title, as amended, shall be applicable to this program.

§ 752.27 Debt collection.

Any debts arising under this program are governed with respect to their collection by the Federal Claims Collection Act of 1966 (31 U.S.C. 3701) and the regulations found at chapter II of 4 CFR.

§ 752.28 Appeals.

Any person may obtain review of determinations affecting participation in this program in accordance with part 614 of this title.

[80 FR 67316, Dec. 29, 1995]

§ 752.29 Payments not subject to claims.

Any payments due any person shall be determined and allowed without regard to State law and without regard to any claim or lien against any crop, or proceeds thereof, which may be asserted by any creditor, except as provided in §752.26.

§ 752.30 Prohibition against payments.

The regulations in part 796 of this chapter prohibiting the making of payments to program participants who harvest or knowingly permit to be harvested for illegal use marijuana or other such prohibited drug-producing plants on any part of the lands owned or controlled by them are applicable to this program.

§ 752.31 Delegation of authority.

No delegation herein to a State or county committee shall preclude the Administrator, or his designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

§ 752.32 Paperwork Reduction Act assigned numbers.

The Office of Management and Budget has approved the information collection requirements contained in these Regulations (§§752.8, 752.10 and 752.13) under the provisions of 44 U.S.C. Chapter 35 and OMB number 0560–0062 has been assigned.

§ 755.1 Definitions.

As used in this subpart the following terms shall have the following meanings:

(a) Act means the Appalachian Regional Development Act of 1965.

§ 755.4 General.

(a) The Appalachian Land Stabilization and Conservation Program will be administered in the field by State and county committees under the general direction and supervision of the Administrator. Members of county committees are hereby authorized to sign contracts on behalf of the Secretary. State and county committees do not have authority to modify or waive any of the provisions of these regulations, or any amendment, supplement, or revision thereto.

(b) Landowners, operators, and occupiers desiring to share in the accomplishment of the purposes and objectives of the program will be given an opportunity to enter into contracts in accordance with the regulations of this part, and then only in counties or areas specifically approved in the State program developed hereunder.

§ 755.3 Geographical applicability.

The Appalachian Land Stabilization and Conservation Program will be limited to the States and counties designated as part of the Appalachian Region as defined in §755.1 of the regulations of this part, and then only in counties or areas specifically approved in the State program developed hereunder.

§ 755.2 Purposes and objectives.

The general purposes and objectives of the Appalachian Land Stabilization and Conservation Program are to promote economic growth of the Region and to promote the conservation and development of the Region’s soil and water resources. This program is a long-term program designed to carry out the policy of the Act by assisting landowners, operators, or occupiers through contracts providing for land stabilization, erosion and sediment control, reclamation through changes in land use, and the establishment of practices and measures for the conservation and development of the Region’s soil, water, woodland, wildlife, and recreation resources.
§ 755.5  State programs.

(a) The State program shall be developed by the State or a political subdivision thereof in accordance with the regulations contained in this subpart. The Farm Service Agency and other applicable agencies of the Department of Agriculture shall cooperate with the State governmental officials in the development of the program. The chairman of the State Agricultural Conservation Program Development Group shall be the point of contact with the State governmental officials. The State Agricultural Conservation Program Development Group, which consists of the State ASC Committee (including the State Director of Extension), the State conservationist of the Soil Conservation Service, and the Forest Service official having jurisdiction over farm forestry in the State, shall consult with organizations and agencies within the State that have conservation interests and responsibilities. Upon request of the Governor of the State, a person selected as a direct representative of the Governor may be designated by the Secretary as an additional member of the ACP Development Group with equal authority with other members of the Group in the development of the State program.

(b) The State program shall include the following provisions: (1) Identification of program objectives and areas in the State where the program will be applicable; (2) the designation of practices for which cost-share assistance is requested for each designated area, including specifications for each proposed practice; and (3) the proposed cost-share rates for each practice.

(c) Minimum specifications which practices must meet to be eligible for Federal cost-sharing shall be set forth in the State program, or be incorporated therein by specific reference to a standard publication or other written document containing such specifications. For practices involving the establishment or improvement of vegetative cover, the specifications shall include, where appropriate, liming fertilization, and seeding rates, eligible seeds and mixtures, seeding dates, requirements for cultural operations and inoculation, and other steps essential to the successful establishment or improvement of the vegetative cover. For mechanical or construction type practices, the specifications shall include, where appropriate, the types and sizes of material, installation or construction requirements, and other steps essential to the proper functioning of the structure. For other practices, the specifications shall include those steps essential to the successful performance
of the practice. Practice specifications may provide minimum performance requirements which will qualify the practice for cost-sharing and maximum limits of performance which will be eligible for cost-sharing. For practices which authorize Federal cost-sharing for applications of liming materials and commercial fertilizers, the minimum applications and maximum applications on which cost-sharing is authorized shall be determined on the basis of a current soil test: Provided, however, That if available facilities are not adequate to permit the desired use of soil tests under the program, an alternative basis for determination by the county committee of such application shall be authorized to the extent necessary.

(d) The following practices and uses are authorized:

(1) Establishment of permanent sod waterways to dispose of excess water without causing erosion.

(2) Establishment of a permanent vegetative cover for soil protection or as a needed land use adjustment.

(3) Constructing terraces to detain or control the flow of water and check soil erosion.

(4) Constructing diversion terraces, ditches, or dikes to intercept runoff and divert excess water to protected outlets.

(5) Constructing erosion control, detention, or sediment retention dams, pits, or ponds to prevent or heal gullying or to retard or reduce runoff of water.

(6) Constructing channel lining, chutes, drop spillways, pipe drops, drop inlets, or similar structures for the protection of outlets and water channels that dispose of excess water.

(7) Streambank or shore protection, channel clearance, enlargement or realignment, or construction of floodways, levees, or dikes, to prevent erosion or flood damage to farmland.

(8) Establishment of a stand of trees or shrubs to prevent erosion.

(9) Establishment of a stand of forest trees or shrubs on farmland for purposes other than the prevention of erosion.

(10) Improvement of a stand of forest trees.

(11) Establishment of contour strip-cropping to protect soil from erosion.

(12) Constructing or sealing dams, pits, or ponds as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.

(13) Developing springs or seeps for livestock water as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.

(14) Controlling competitive shrubs to permit growth of adequate desirable vegetative cover.

(15) Improvement of an established vegetative cover for soil or watershed protection.

(16) Treatment of farmland to permit the use of legumes and grasses for soil improvement and protection.

(17) Construction of water facilities for wildlife habitat or protection.

(18) Establishment of vegetative cover to provide habitat, food, or shelter for wildlife.

(19) Conservation practices to develop recreation resources—establishment of picnic and sports area; establishment of camping and nature recreation areas; establishment of hunting and shooting preserve area; establishment of fishing area; establishment of summer water sports area; establishment of winter sports area.

(20) Other practices not covered above which are determined to be needed to accomplish the purpose of the program.

(e) The Soil Conservation Service shall have the same technical responsibility for Appalachian Land Stabilization and Conservation Program practices as it has for the same or similar Agricultural Conservation Program Practices including applicable components of approved recreation practices. The Forest Service is responsible for the technical phases of forestry practices.

(f) Each proposed State program shall be submitted to the Commission by the member thereof representing such State. The estimated amount of funds needed to accomplish the objectives of such program shall be stated in the submission of the proposed program to the Commission. If approved by the Commission, the proposed State
§ 755.6 Cost-share contract.

(a) Filing requests. (1) Landowners, operators, or occupiers in eligible counties shall be furnished information with respect to the program and afforded an opportunity to request a cost-share contract covering those practices which would accomplish the objectives of the program on the farm.

(2) The request shall be on a form and in accordance with instructions prescribed by the Administrator.

(b) Entering into a contract. (1) The county committee is authorized to approve the contract on behalf of the Secretary.

(2) The contract must be signed by the owner of the land on which cost-share payments are provided under the contract and by the operator of the farm. The contract shall also be signed by any occupiers who will share in payments in one or more years of the contract period.

(3) There shall be only one contract for a farm.

(4) The final date for signing the contract shall be the date announced by the Administrator.

(c) Contract period. (1) The period to be covered by a contract shall be not less than 3 years or longer than 10 years as agreed to by the contract signers and the county committee.

(2) The first year of the contract period shall begin on the date of the approval of the contract and shall end on December 31 of such year. Each subsequent year of the contract period shall be on a calendar year basis.

§ 755.7 Cost-share payments.

(a) Subject to the conditions and limitations in this subpart, cost-sharing may be authorized for practices needed during the period of the contract to conserve and develop soil, water, woodland, wildlife, and recreation resources. Payment of the cost-shares shall be made only upon application submitted on a form prescribed by the Administrator. Practices required to be established under the contract which are started after a request for a contract is filed shall be considered as started during the contract period.

(b) Cost-share rates shall not exceed 80 per centum of the average cost of carrying out the land treatment measures or such lower rate as the county committee determines will accomplish the objectives of the program. As a further limitation, cost-sharing may not be authorized in excess of a total amount computed by multiplying the number of acres designated under contract times $50, unless a representative of the State committee approves an amount in excess of this limitation on the basis that the income potential and benefits derived from expenditures of the additional money warrant the higher limit.

(c) Cost-sharing shall not be approved for more than 50 acres per farm.

(d) The total acreage with respect to which any landowner, operator, or occupier receives cost-sharing payments shall not exceed 50 acres under all contracts in which he has an interest.

(e) Cost-sharing for the practices or components thereof contained in the approved State program is conditioned upon the establishment, maintenance, and performance of the practices in accordance with all applicable specifications and program provisions. The county committee shall specify on the practice approval the date by which the practice must be completed. Subject to the availability of funds, cost-sharing may be authorized for the restoration or replacement of any needed conservation measure if during the contract period the original conservation use is destroyed or rendered unsuitable through no fault of the contract signers.

(f) In addition to the provisions contained in this subpart, cost-sharing payments shall also be subject to the following regulations of the Agricultural Conservation Program (7 CFR 701.1–701.93, as amended):
§ 755.8 Modification of contract.

(a) If the farm is reconstituted in accordance with the regulations governing Reconstitution of Farms, Allotments, and Bases, part 719 of this chapter, as amended, or if there is any change in the land covered by a contract entered into pursuant to §755.20, because of purchase, sale, change of operation, or otherwise, the contract shall be modified. Such modified contract or contracts shall reflect the changes in the number of acres in any resulting farm, the acreage covered by the contract, interested persons, and practices called for under the original contract. If persons who were not signatories to the original contract are eligible and required to sign such modified contract or contracts but are not willing to become parties to the modified contract or for any other reason a modified contract is not entered into, cost-share payments for practices which have not been carried out shall be forfeited with respect to acreage not continued in the program. In addition, with respect to acreage not continued in the program, cost-share payments paid for practices (or components thereof) which have been carried out shall be refunded by the owner of such acreage prior to reconstitution unless the county committee with the approval of the State committee determines that the failure to carry out all of the practices called for by the original contract will not impair the practices which have been carried out and the completed practices will provide conservation benefits consistent with the cost-shares which have been paid. Notwithstanding the foregoing, if control of land was lost through eminent domain proceedings or to an agency having the right of eminent domain, any cost-share payments paid under the contract with respect to such land are not required to be refunded.

(b) Except in cases covered by paragraph (a) of this section, if the ownership or operation of the farm or the land covered by the contract changes in such a manner that the contract no longer contains the signatures of persons required to sign the contract as provided in §755.6, the contract shall be modified to reflect the new interested persons. If such persons are not willing to become parties to the modified contract, or for any other reason a modified contract is not entered into, cost-share payments shall be forfeited and refunded in accordance with the rules in paragraph (a) of this section.

(c) Upon request of the contract signers and approval of the county committee, a contract may be modified to change or add practices, or to make other changes which are consistent with this subpart, the State program, and the conservation and development plan.

(d) Upon request of the contract signers, a contract which would otherwise be in a noncompliance status at the end of the contract period under the provisions of §755.10(a) of these regulations may be modified to extend the contract period not to exceed a total period of 10 years if the county committee determines that failure to establish the practices specified in the contract was not the result of the fault or negligence of the contract signers.

§ 755.9 Termination of contracts.

The Deputy Administrator may consent to the termination of a contract in cases where the parties to the contract are unable to comply with the terms of the contract due to conditions beyond their control, in cases where compliance with the terms of the contract would work a severe hardship on the parties to the contract, or in cases where termination of the contract would be in the public interest, provided the parties to the contract refund such part of the cost-share payments made under the contract as the Deputy Administrator determines appropriate.

§ 755.10 Noncompliance.

(a) Failure to establish the practices specified in the contract within the time specified by the county committee shall be a violation of the contract and all payments under the contract shall be forfeited and refunded.

(b) Failure to maintain a practice for the contract period or the normal lifespan of the practice, whichever is shorter, in accordance with good farming practices shall be a violation of the contract and any payment made in connection with such practice shall be refunded unless the practice is restored within the time prescribed by the county committee. The normal lifespan of a practice shall be determined by the county committee.

(c) If the county committee finds that any person has adopted or participated in any practice which tends to defeat the purposes of the program, it may withhold, or require to be refunded, all or any part of cost-share payments paid or payable under the program. It shall be considered a practice defeating the purposes of the program if the contract signers do not make available for public use a recreation resource development for which costs are shared. The regulations governing nondiscrimination in federally assisted programs of the Department of Agriculture, part 15 of this title, shall be applicable to this program.

§ 755.11 Signatures.

Signatures to contracts and related forms shall be in conformity with the instructions on signatures and authorizations applicable to the Agricultural Conservation Program.

§ 755.12 Filing of false claims.

The making of a fraudulent representation by a person in the payment documents or otherwise for the purpose of obtaining a payment from the county committee shall render the person liable, aside from any additional liability under criminal and civil fraud statutes, for a refund of the payments received by him with respect to which the fraudulent representation was made.

§ 755.13 Delegation of authority.

No delegation in this subpart to a State or county committee shall preclude the Administrator, or his designee, from determining any question arising under the program or reversing or modifying any determinations made by a State or county committee.

§ 755.14 Reporting performance.

The Operator of the farm, in accordance with instructions issued by the Deputy Administrator, shall report to the county committee on Form ACP-245 the extent of compliance with the terms of the contract.

§ 755.15 Handling exceptional cases.

The Deputy Administrator may allow payment for performance not meeting all program requirements, where not prohibited by statute, if in his judgment such action is needed to permit a proper disposition of the case. Such action may be taken only where the person acted in good faith and in reasonable reliance on any instruction or commitment of any member, or employee of the State or county committee or representatives of other Federal agencies assigned responsibility under the program, in meeting his obligations under the contract and in so doing reasonably accomplished the purposes of the contract. The amount of the payment shall be based on the actual performance and shall not exceed the amount to which the person

(c) The State committee shall take any action required by this part which has not been taken by the county committee. The State committee shall also:

(1) Correct, or require a county committee to correct, any action taken by such county committee which is not in accordance with the regulations of this part; or

(2) Require a county committee to withhold taking any action which is not in accordance with the regulations of this part.

(d) No delegation herein to a State or county committee shall preclude the Deputy Administrator for Farm Programs, FSA, or a designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

(e) The Deputy Administrator for Farm Programs, FSA, may authorize State and county committees to waive or modify deadlines and other program requirements in cases where timeliness or failure to meet such other requirements does not adversely affect the operation of the program.

(b) The county committee shall determine the fair market value of the affected farmer’s normal marketings, which, for the purposes of this subpart, shall be the sum of the net proceeds such farmer would have received for his normal marketings in each of the pay periods in the application period.

§ 760.3 Indemnity payments on milk.

An indemnity payment for milk may be made to an affected farmer who is determined by the county committee to be in compliance with all the terms and conditions of this subpart in the amount of the fair market value of his normal marketings for the application period, as determined in accordance with §§760.4 and 760.5, less (a) any amount he received for whole milk marketed during the application period, and (b) any payment not subject to refund which he received from a milk handler with respect to whole milk removed from the commercial market during the application period.

§ 760.5 Fair market value of milk.

(a) The county committee shall determine the fair market value of the affected farmer’s normal marketings, which, for the purposes of this subpart, shall be the sum of the quantities of whole milk which such farmer would have sold in the commercial market in each of the pay periods in the application period but for the removal of his whole milk from the commercial market because of the detection of a residue of a violating substance.

(b) Normal marketings for each pay period are based on the average daily production during the base period.

(c) Normal marketings determined in paragraph (b) of this section are adjusted for any change in the daily average number of cows milked during each pay period the milk is off the market compared with the average number of cows milked daily during the base period.

(d) If only a portion of a pay period falls within the application period, normal marketings for such pay period shall be reduced so that they represent only that part of such pay period which is within the application period.
§ 760.6 Information to be furnished.

The affected farmer shall furnish to the county committee complete and accurate information sufficient to enable the county committee or the Deputy Administrator to make the determinations required in this subpart. Such information shall include, but is not limited to:

(a) A copy of the notice from, or other evidence of action by, the public agency which resulted in the removal of the affected farmer’s whole milk from the commercial market.

(b) The specific name of the violating substance causing the removal of his whole milk from the commercial market, if not included in the notice or other evidence of action furnished under paragraph (a) of this section.

(c) The quantity and butterfat test of whole milk produced and marketed during the base period. This information must be a certified statement from the affected farmer’s milk handler or any other evidence the county committee accepts as an accurate record of milk production and butterfat tests during the base period.

(d) The average number of cows milked during the base period and during each pay period in the application.

(e) If the affected farmer markets his whole milk through a milk handler, a statement from the milk handler showing, for each pay period in the application period, the average price per hundred-weight of whole milk similar in quality to that marketed by the affected farmer during the base period used to determine his normal marketings. If the milk handler has information as to the transportation, administrative, and other costs of marketing which are normally incurred by producers who market through the milk handler but which the affected farmer did not incur because of removal of his whole milk from the market, the average price stated by the milk handler shall be the average gross price paid producers less any such costs. If the milk handler does not have such information, the affected farmer shall furnish a statement setting forth such costs, if any.

(f) The amount of proceeds, if any, received by the affected farmer from the marketing of whole milk produced during the application period.

(g) The amount of any payments not subject to refund made to the affected farmer by the milk handler with respect to the whole milk produced during the application period and removed from the commercial market.

(h) To the extent that such information is available to the affected farmer, the name of any pesticide, chemical, or toxic substance used on the farm within 24 months prior to the application period, the use made of the pesticide, chemical, or toxic substance, the approximate date of such use, and the name of the manufacturer and the registration number, if any, on the label on the container of the pesticide, chemical, or toxic substance.

(i) To the extent possible, the source of the pesticide, chemical, or toxic substance that caused the contamination of the whole milk, and the results of any laboratory tests on the feed supply.

(j) Such other information as the county committee may request to enable the county committee or the Deputy Administrator to make the determinations required in this subpart.

An indemnity payment for milk may be made under this subpart to an affected farmer only under the following conditions:
§ 760.9 Other legal recourse.

(a) No indemnity payment shall be made for contaminated milk resulting from residues of chemicals or toxic substances if, within 30 days after receiving a complete application, the Deputy Administrator determines that other legal recourse is available to the farmer. An application shall not be deemed complete unless it contains all information necessary to make a determination as to whether other legal recourse is available to the farmer. However, notwithstanding such a determination, the Deputy Administrator may reopen the case at a later date and make a new determination on the merits of the case as may be just and equitable.

(b) In the event that a farmer receives an indemnity payment under this subpart, and such farmer is later compensated for the same loss by the person (or the representative or successor in interest of such person) responsible for such loss, the indemnity payment shall be refunded by the farmer to the Department of Agriculture: Provided, That the amount of such refund shall not exceed the amount of other compensation received by the farmer.

§ 760.20 Payments to manufacturers of dairy products.

An indemnity payment may be made to the affected manufacturer who is determined by the Deputy Administrator to be in compliance with all the terms and conditions of this subpart in the amount of the fair market value of the product removed from the commercial market because of pesticide residues, less any amount the manufacturer receives for the product in the form of salvage.

NOTE: Manufacturers are not eligible for payment when dairy products are contaminated by chemicals, toxic substances (other than pesticides) or nuclear radiation or fallout.

§ 760.21 Application for payments by manufacturers.

The affected manufacturer, or his legal representatives, shall file an application for payment with the Deputy Administrator, FSA, Washington, D.C., through the county office serving the county where the contaminated product is located. The application for payment may be in the form of a letter or memorandum. Such letter or memorandum, however, must be accompanied by acceptable documentation to support such application for payment.

§ 760.22 Information to be furnished by manufacturer.

The affected manufacturer shall furnish the Deputy Administrator, through the county committee, complete and accurate information sufficient to enable him to make the determination as to the manufacturer’s eligibility to receive an indemnity payment. Such information shall include, but is not limited to:

(a) A copy of the notice or other evidence of action by the public agency which resulted in the product being removed from the commercial market.

(b) The name of the pesticide causing the removal of the product from the commercial market and, to the extent possible, the source of the pesticide.

(c) A record of the quantity of milk or butterfat used to produce the product for which an indemnity payment is requested.

(d) The identity of any pesticide used by the affected manufacturer.

(e) Such other information as the Deputy Administrator may request to enable him to make the determinations required in this subpart.

§ 760.23 Other requirements for manufacturers.

An indemnity payment may be made under this subpart to an affected manufacturer only under the following conditions:

(a) If the pesticide contaminating the product was used by the affected manufacturer, he establishes each of the following: (1) That the pesticide, when used, was registered and recommended for such use as provided in § 760.2(f); (2) that the contamination of his product was not the result of his failure to use the pesticide in accordance with the directions and limitations stated on the label of the pesticide; and (3) that the contamination of his product was not otherwise his fault.

(b) If the pesticide contaminating the product was not used by the affected manufacturer: (1) He did not know or have reason to believe that the milk from which the product was processed contained a harmful level of pesticide residue, and (2) the contamination of his product was not otherwise his fault.

(c) In the event that a manufacturer receives an indemnity payment under this subpart, and such manufacturer is later compensated for the same loss by the person (or the representative or successor in interest of such person) responsible for such loss, the indemnity payment shall be refunded by the manufacturer to the Department of Agriculture: Provided, That the amount of such refund shall not exceed the amount of other compensation received by the manufacturer.

§ 760.24 Limitation of authority.
(a) County executive directors and State and county committees do not have authority to modify or waive any of the provisions of the regulations in this subpart.
(b) The State committee may take any action authorized or required by the regulations in this subpart to be taken by the county committee when such action has not been taken by the county committee. The State committee may also:
   (1) Correct, or require a county committee to correct, any action taken by such county committee which is not in accordance with the regulations in this subpart.
   (2) Require a county committee to withhold taking any action which is not in accordance with the regulations in this subpart.
(c) No delegation herein to a State or county committee shall preclude the Deputy Administrator or his designee from determining any question arising under the regulations in this subpart or from reversing or modifying any determination made by a State or county committee.

§ 760.25 Estates and trusts; minors.
(a) A receiver of an insolvent debtor’s estate and the trustee of a trust estate shall, for the purpose of this subpart, be considered to represent an insolvent affected farmer or manufacturer and the beneficiaries of a trust, respectively, and the production of the receiver or trustee shall be considered to be the production of the person or manufacturer he represents. Program documents executed by any such person will be accepted only if they are legally valid and such person has the authority to sign the applicable documents.
(b) An affected dairy farmer or manufacturer who is a minor shall be eligible for indemnity payments only if he meets one of the following requirements:
   (1) The right of majority has been conferred on him by court proceedings or by statute; (2) a guardian has been appointed to manage his property and the applicable program documents are signed by the guardian; or (3) a bond is furnished under which the surety guarantees any loss incurred for which the minor would be liable had he been an adult.
(2) [Reserved]

The appeal regulations issued by the Administrator, FSA, part 780 of this chapter, shall be applicable to appeals by dairy farmers or manufacturers from determinations made pursuant to the regulations in this subpart.

§ 760.27 Setoffs.
(a) If the affected farmer or manufacturer is indebted to any agency of the United States and such indebtedness is listed on the county debt record, indemnity payments due the affected farmer or manufacturer under the regulations in this part shall be applied, as provided in the Secretary’s setoff regulations, part 13 of this title, to such indebtedness.
(b) Compliance with the provisions of this section shall not deprive the affected farmer or manufacturer of any right he would otherwise have to contest the justness of the indebtedness involved in the setoff action, either by administrative appeal or by legal action.

§ 760.28 Overdisbursement.
If the indemnity payment disbursed to an affected farmer or to a manufacturer exceeds the amount authorized under the regulations in this subpart, the affected farmer or manufacturer shall be personally liable for repayment of the amount of such excess.

§ 760.29 Death, incompetency, or disappearance.
In the case of the death, incompetency, or disappearance of any affected farmer or manufacturer who would otherwise receive an indemnity payment, such payment may be made to the person or persons specified in the regulations contained in part 707 of this chapter. The person requesting such payment shall file Form FSA–325, “Application for Payment of Amounts Due Persons Who Have Died, Disappeared, or Have Been Declared Incompetent,” as provided in that part.

§ 760.32 Instructions and forms.

The Deputy Administrator shall cause to be prepared such forms and instructions as are necessary for carrying out the regulations in this subpart. Affected farmers and manufacturers may obtain information necessary to make application for a dairy indemnity payment from the county FSA office. § 760.33 Availability of funds.

Payment of indemnity claims will be contingent upon the availability of funds to the Department to pay such claims. With respect to claims filed after October 1, 1982, if the Department determines that the amount of claims to be filed under the program will exceed the funds available to the Department, to pay such claims payments will be made so that each eligible claimant will receive a pro rata share of the remaining funds available to the Department to pay dairy indemnity claims.

§§ 762.1–762.100 [Reserved]

§ 762.101 Introduction.

(a) Scope. This subpart contains regulations governing Operating Loans and Farm Ownership loans guaranteed by the Farm Service Agency. This subpart applies to lenders, holders, borrowers, Agency personnel, and other parties involved in making, guaranteeing, holding, servicing, or liquidating such loans.

(b) Policy. The Agency issues guarantees on loans made to qualified loan applicants without regard to race, color, religion, sex, national origin, marital status, or age, provided the loan applicant can enter into a legal and binding contract, or whether all or part of the applicant’s income derives from any public assistance program or whether the applicant, in good faith, exercises any rights under the Consumer Protection Act.

(c) Lender list and classification. (1) The Agency maintains a current list of lenders who express a desire to participate in the guaranteed loan program. This list is made available to farmers upon request.
(2) Lenders who participate in the Agency guaranteed loan program will be classified into one of the following categories:

(i) Standard Eligible Lender under §762.105,
(ii) Certified Lender, or
(iii) Preferred Lender under §762.106.

(3) Lenders may continue to make loans under Approved Lender Program (ALP) agreements until they expire; however, these agreements will not be renewed when they expire. All ALP agreements with farm credit institutions will expire on February 12, 2001.

(d) Type of guarantee. Guarantees are available for both a loan note or a line of credit. A loan note is used for a loan of fixed amount and term. A line of credit has a fixed term, but no fixed amount. The principal amount outstanding at any time, however, may not exceed the line of credit ceiling contained in the contract. Both guarantees are evidenced by the same loan guarantee form.

(e) Termination of loan guarantee. The loan guarantee will automatically terminate as follows:

(1) Upon full payment of the guaranteed loan. A zero balance within the period authorized for advances on a line of credit will not terminate the guarantee;
(2) Upon payment of a final loss claim; or
(3) Upon written notice from the lender to the Agency that a guarantee is no longer desired provided the lender holds all of the guaranteed portion of the loan. The loan guarantee will be returned to the Agency office for cancellation within 30 days of the date of the notice by the lender.

(b) Definitions.

Additional security. Collateral in excess of that needed to fully secure the loan.

Agency. The Farm Service Agency, including its employees and state and area committee members, and any successor agency.

Allonge. An attachment or an addendum to a note.

Applicant. For guaranteed loans, the lender requesting a guarantee is the applicant. The party applying to the lender for a loan will be considered the loan applicant.

Aquaculture. The husbandry of aquatic organisms in a controlled or selected environment. An aquatic organism is any fish, amphibian, reptile, or aquatic plant. An aquaculture operation is considered to be a farm only if it is conducted on the grounds which the loan applicant owns, leases, or has an exclusive right to use. An exclusive right to use must be evidenced by a permit issued to the loan applicant and the permit must specifically identify the waters available to be used by the loan applicant only.

Assignment of guaranteed portion. A process by which the lender transfers the right to receive payments or income on the guaranteed loan to another party, usually in return for payment in the amount of the loan’s guaranteed principal. The lender retains the unguaranteed portion in its portfolio and receives a fee from the purchaser or assignee to service the loan, and receive and remit payments according to a written assignment agreement. This assignment can be reassigned or sold multiple times.

Average farm customers. Those conventional farm borrowers who are required to pledge their crops, livestock, and other chattel and real estate security for the loan. This does not include those high-risk farmers with limited security and management ability who are generally charged a higher interest rate by conventional agricultural lenders. Also, this does not include those
low-risk farm customers who obtain financing on a secured or unsecured basis, who have as collateral such items as savings accounts, time deposits, certificates of deposit, stocks and bonds, and life insurance, which they are able to pledge for the loan.

Basic Security. All farm machinery, equipment, vehicles, foundation and breeding livestock herds and flocks, including replacements, and real estate which serves as security for a loan guaranteed by the Agency.

Beginning farmer or rancher. A beginning farmer or rancher is an individual or entity who:

(1) Meets the loan eligibility requirements for OL or FO assistance, as applicable, in accordance with this subpart;

(2) Has not operated a farm or ranch, or who has operated a farm or ranch for not more than 10 years. This requirement applies to all members of an entity;

(3) Will materially and substantially participate in the operation of the farm or ranch:

(i) In the case of a loan made to an individual, individually or with the immediate family, material and substantial participation requires that the individual provide substantial day-to-day labor and management of the farm or ranch, consistent with the practices in the county or State where the farm is located.

(ii) In the case of a loan made to an entity, all members must materially and substantially participate in the operation of the farm or ranch. Material and substantial participation requires that the individual provide some amount of the management, or labor and management necessary for day-to-day activities, such that if the individual did not provide these inputs, operation of the farm or ranch would be seriously impaired;

(4) Agrees to participate in any loan assessment and financial management programs required by Agency regulations;

(5) Does not own real farm or ranch property or who, directly or through interests in family farm entities owns real farm or ranch property, the aggregate acreage of which does not exceed 25 percent of the average farm or ranch acreage of the farms or ranches in the county where the property is located.

If the farm is located in more than one county, the average farm acreage of the county where the loan applicant’s residence is located will be used in the calculation. If the applicant’s residence is not located on the farm or if the loan applicant is an entity, the average farm acreage of the county where the major portion of the farm is located will be used. The average county farm or ranch acreage will be determined from the most recent Census of Agriculture developed by the U.S. Department of Commerce, Bureau of the Census or USDA;

(6) Demonstrates that the available resources of the loan applicant and spouse (if any) are not sufficient to enable the loan applicant to enter or continue farming or ranching on a viable scale; and

(7) In the case of an entity:

(i) All the members are related by blood or marriage; and

(ii) All the stockholders in a corporation are beginning farmers or ranchers.

Borrower. An individual or entity which has outstanding obligations to the lender under any Agency loan or loan guarantee program. A borrower includes all parties liable for Agency debt, including collection-only borrowers, except those whose total loan and accounts have been voluntarily or involuntarily foreclosed or liquidated, or who have been discharged of all Agency debt.

Capital leases. Agreements under which the lessee effectively acquires ownership of the asset being leased. A lease is a capital lease if it meets any one of the following criteria:

(1) The lease transfers ownership of the property to the lessee at the end of the lease term.

(2) The lessee has the right to purchase the property for significantly less than its market value at the end of the lease.

(3) The term of the lease is at least 75 percent of the estimated economic life of the leased property.

(4) The present value of the minimum lease payments equals or exceeds 90 percent of the fair market value of the leased property.

408
Cash flow budget. A projection listing all anticipated cash inflows (including all farm income, nonfarm income and all loan advances) and all cash outflows (including all farm and nonfarm debt service and other expenses) to be incurred by the borrower during the period of the budget. Cash flow budgets for loans under $50,000 do not require income and expenses itemized by categories. A cash flow budget may be completed either for a 12 month period, a typical production cycle or the life of the loan, as appropriate. It may also be prepared with a breakdown of cash inflows and outflows for each month of the review period and includes the expected outstanding operating credit balance for the end of each month. The latter type is referred to as a “monthly cash flow budget.”

Collateral. Property pledged as security for a loan to ensure repayment of an obligation.

Conditional commitment. The Agency’s commitment to the lender that the material it has submitted is approved subject to the completion of all conditions and requirements contained therein.

Consolidation. The combination of outstanding principal and interest balance of two or more OL loans.

Controlled. When a director or employee has more than a 50 percent ownership in the entity or, the director or employee, together with relatives of the director or employee, have more than a 50 percent ownership.

Cooperative. An entity which has farming as its purpose and whose members have agreed to share the profits of the farming enterprise. The entity must be recognized as a farm cooperative by the laws of the State in which the entity will operate a farm.

Cosigner. A party who joins in the execution of a promissory note to assure its repayment. The cosigner becomes jointly and severally liable to comply with the terms of the note. In the case of an entity applicant, the cosigner cannot be a member, partner, joint operator, or stockholder of the entity.

County average yield. The historical average yield for a commodity in a particular political subdivision, as determined or published by a government entity or other recognized source.

Debt writedown. To reduce the amount of the borrower’s debt to that amount that is determined to be collectible based on an analysis of the security value and the borrower’s ability to pay.

Deferral. A postponement of the payment of interest or principal or both. Principal may be deferred in whole or in part, interest may only be partially deferred.

Depreciation and amortization expenses. An annual allocation of the cost or other basic value of tangible capital assets, less salvage value, over the estimated life of the unit (which may be a group of assets), in a systematic and rational manner.

Direct loan. A loan serviced by the Agency as lender.

Entity. Cooperatives, corporations, partnerships, or joint operations.

Family farm. A farm which:

1. Produces agricultural commodities for sale in sufficient quantities so that it is recognized in the community as a farm rather than a rural residence;
2. Provides enough agricultural income by itself, including rented land, or together with any other dependable income to enable the borrower to:
   i. Pay necessary family living and operating expenses;
   ii. Maintain essential chattel and real property; and
   iii. Pay debts;
3. Is managed by:

(x) Payment of training costs required or recommended by the Agency.
(2) Loan funds under a line of credit may be advanced only for the following purposes:
(i) Payment of annual operating expenses, family subsistence, and purchase of feeder animals;
(ii) Payment of current annual operating debts advanced for the current
operating cycle; (Under no circumstances can carry-over operating debts from a previous operating cycle be refinanced);

(iii) Purchase of routine capital assets, such as replacement of livestock, that will be repaid within the operating cycle;

(iv) Payment of scheduled, non-delinquent, term debt payments provided the debt is for authorized FO or OL purposes.

(v) Purchase of cooperative stock for credit, production, processing or marketing purposes; and

(vi) Payment of loan closing costs.

(b) Farm ownership loan purposes. Guaranteed FO are authorized only to:

(1) Acquire or enlarge a farm or ranch; examples include, but are not limited to, providing down payments, purchasing easements for the loan applicant’s portion of land being subdivided, and participating in the beginning farmer downpayment FO program under part 1943, subpart A, of this title;

(2) Make capital improvements; examples include, but are not limited to, the construction, purchase, and improvement of a farm dwelling, service buildings and facilities that can be made fixtures to the real estate, (Capital improvements to leased land may be financed subject to the limitations in §762.122);

(3) Promote soil and water conservation and protection; examples include the correction of hazardous environmental conditions, and the construction or installation of tiles, terraces and waterways;

(4) Pay closing costs, including but not limited to, purchasing stock in a cooperative and appraisal and survey fees; and

(5) Refinancing indebtedness incurred for authorized FO and OL purposes, provided the lender and loan applicant demonstrate the need to refinance the debt.

(c) Highly erodible land or wetlands conservation. Loans may not be made for any purpose which contributes to excessive erosion of highly erodible land or to the conversion of wetlands to produce an agricultural commodity. A decision by the Agency to reject an application for this reason may be appealable. An appeal questioning wheth-

er the presence of a wetland, converted wetland, or highly erodible land on a particular property must be filed directly with the USDA agency making the determination in accordance with the agency’s appeal procedures.

(d) Judgment debts. Loans may not be used to satisfy judgments obtained in the United States District courts. However, Internal Revenue Service judgment liens may be paid with loan funds.

§762.122 Loan limitations.

(a) OL term limitations. (1) No guaranteed OL shall be made to any loan applicant after the 15th year that a loan applicant, or any individual signing the promissory note, received a direct or guaranteed OL.

(2) Notwithstanding paragraph (c)(1) of this section, if a borrower had any combination of direct or guaranteed OL closed in 10 or more prior calendar years prior to October 28, 1992, eligibility to receive new guaranteed OL is extended for 5 additional years from October 28, 1992, and the years need not run consecutively. However, in the case of a line of credit, each year in which an advance is made after October 28, 1992, counts toward the 5 additional years. Once determined eligible, a loan or line of credit may be approved for any authorized term.

(b) Leased land. When FO funds are used for improvements to leased land the terms of the lease must provide reasonable assurance that the loan applicant will have use of the improvement over its useful life, or provide compensation for any unexhausted value of the improvement if the lease is terminated.

(c) Tax-exempt transactions. The Agency will not guarantee any loan made with the proceeds of any obligation the interest on which is excluded from income under section 103 of the Internal Revenue Code of 1986. Funds generated through the issuance of tax-exempt obligations may not be used to purchase the guaranteed portion of any Agency guaranteed loan. An Agency guaranteed loan may not serve as collateral for a tax-exempt bond issue.
§ 762.124 Interest rates, terms, charges, and fees.

(a) Interest rates. (1) The interest rate on a guaranteed loan or line of credit may be fixed or variable as agreed upon between the borrower and the lender. The lender may charge different rates on the guaranteed and the non-guaranteed portions of the note. The guaranteed portion may be fixed while the unguaranteed portion may be variable, or vice versa. If both portions are variable, different bases may be used.

(2) If a variable rate is used, it must be tied to a rate specifically agreed to between the lender and borrower in the loan instruments. Variable rates may change according to the normal practices of the lender for its average farm customers, but the frequency of change must be specified in the loan or line of credit instrument.

(3) Neither the interest rate on the guaranteed portion nor the unguaranteed portion may exceed the rate the lender charges its average agricultural loan customer. At the request of the Agency, the lender must provide evidence of the rate charged the average agricultural loan customer. This evidence may consist of average yield data, or documented administrative differential rate schedule formulas used by the lender.

(4) Interest must be charged only on the actual amount of funds advanced and for the actual time the funds are outstanding. Interest on protective advances made by the lender to protect the security will be charged at the note rate but limited to paragraph (a)(3) of this section.

(5) The lender and borrower may collectively obtain a temporary reduction in the interest rate through the interest assistance program in accordance with § 762.150.

(b) OL terms. (1) Loan funds or advances on a line of credit used to pay annual operating expenses will be repaid when the income from the year’s operation is received, except when the borrower is establishing a new enterprise, developing a farm, purchasing feed while feed crops are being established, or recovering from disaster or economic reverses.

(2) The final maturity date for each loan cannot exceed 7 years from the date of the promissory note or line of credit agreement. Advances for purposes other than for annual operating expenses will be scheduled for repayment over the minimum period necessary considering the loan applicant’s ability to repay and the useful life of the security, but not in excess of 7 years.
§ 762.125 Financial feasibility.

(a) General. (1) Notwithstanding any other provision of this section, PLP lenders will follow their internal procedures on financial feasibility as agreed to by the Agency during PLP certification.

(2) The loan applicant’s proposed operation must project a feasible plan as defined in §762.102(b).

(3) For standard eligible lenders, the projected income and expenses of the borrower and operation used to determine a feasible plan must be based on the loan applicant’s proven record of production and financial management.

(4) For CLP lenders, the projected income and expenses of the borrower and the operation must be based on the loan applicant’s financial history and proven record of financial management.

(5) For those farmers without a proven history, a combination of any actual history and any other reliable source of information that are agreeable with the lender, the loan applicant, and the Agency will be used.

(6) The cash flow budget analyzed to determine a feasible plan must represent the predicted cash flow of the operating cycle.

(7) Lenders must use price forecasts that are reasonable and defensible. Sources must be documented by the lender and acceptable to the Agency.

(8) When a feasible plan depends on income from other sources in addition to income from owned land, the income must be dependable and likely to continue.

(9) The lender will analyze business ventures other than the farm operation to determine their soundness and contribution to the operation. Guaranteed loan funds will not be used to finance a nonfarm enterprise. Nonfarm enterprises include, but are not limited to: raising earthworms, exotic birds, tropical fish, dogs, or horses for nonfarm purposes; welding shops; boarding horses; and riding stables.

(10) When the loan applicant has or will have a cash flow budget developed down payment FO for beginning farmers under part 1943, subpart A, of this title.

§ 762.125 Financial feasibility.

(c) FO terms. Each loan must be scheduled for repayment over a period not to exceed 40 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured, taking into account the probable depreciation of the security.

(d) Balloon installments under loan note guarantee. Balloon payment terms are permitted on FO or OL subject to the following:

(1) Extended repayment schedules may include equal, unequal, or balloon installments if needed on any guaranteed loan to establish a new enterprise, develop a farm, or recover from a disaster or an economical reversal.

(2) Loans with balloon installments must have adequate collateral at the time the balloon installment comes due. Crops, livestock other than breeding livestock, or livestock products produced are not sufficient collateral for securing such a loan.

(3) The borrower must be projected to be able to refinance the remaining debt at the time the balloon payment comes due based on the expected financial condition of the operation, the depreciated value of the collateral, and the principal balance on the loan.

(e) Charges and Fees. (1) The lender may charge the loan applicant and borrower fees for the loan provided they are no greater than those charged to unguaranteed customers for similar transactions. Similar transactions are those involving the same type of loan requested (for example, operating loans or farm real estate loans).

(2) Late payment charges (including default interest charges) are not covered by the guarantee. These charges may not be added to the principal and interest due under any guaranteed note or line of credit. However, late payment charges may be made outside of the guarantee if they are routinely made by the lender in similar types of loan transactions.

(3) Lenders may not charge a loan origination and servicing fee greater than 1 percent of the loan amount for the life of the loan when a guaranteed loan is made in conjunction with a down payment FO for beginning farmers under part 1943, subpart A, of this title.
§ 762.126 Security requirements.

(a) General. (1) The lender is responsible for ensuring that proper and adequate security is obtained and maintained to fully secure the loan, protect the interest of the lender and the Agency, and assure repayment of the loan or line of credit.

(2) The lender will obtain a lien on additional security when necessary to protect the Agency’s interest.

(b) Guaranteed and unguaranteed portions. (1) All security must secure the entire loan or line of credit. The lender may not take separate security to secure only that portion of the loan or line of credit not covered by the guarantee.

(2) The lender may not require compensating balances or certificates of deposit as means of eliminating the lender’s exposure on the unguaranteed portion of the loan or line of credit. However, compensating balances or certificates of deposit as otherwise used in the ordinary course of business are allowed for both the guaranteed and unguaranteed portions.

(c) Identifiable security. The guaranteed loan must be secured by identifiable collateral. To be identifiable, the lender must be able to distinguish the collateral item and adequately describe it in the security instrument.

(d) Type of security. (1) Guaranteed loans may be secured by any property if the term of the loan and expected life of the property will not cause the loan to be undersecured.

(2) For loans with terms greater than 7 years, a lien must be taken on real estate.

(3) Loans can be secured by a mortgage on leasehold properties if the lease has a negotiable value and is subject to being mortgaged.

(4) The lender or Agency may require additional personal and corporate guarantees to adequately secure the loan. These guarantees are separate from, and in addition to, the personal obligations arising from members of an entity signing the note as individuals.

(e) Lien position. All guaranteed loans will be secured by the best lien obtainable. Provided that:

(1) When the loan is made for refinancing purposes, the guaranteed loan

Farm Service Agency, USDA

§ 762.126 in conjunction with a proposed or existing Agency direct loan, the two cash flow budgets must be consistent.

(b) Estimating production. (1) Standard eligible lenders must use the best sources of information available for estimating production in accordance with this subsection when developing cash flow budgets.

(2) Deviations from historical performance may be acceptable, if specific to changes in operation and adequately justified and acceptable to the Agency.

(3) For existing farmers, actual production for the past 3 years will be utilized.

(4) For those farmers without a proven history, a combination of any actual history and any other reliable source of information that are agreeable with the lender, the loan applicant, and the Agency will be used.

(5) When the production of a growing commodity can be estimated, it must be considered when projecting yields.

(6) When the loan applicant’s production history has been so severely affected by a declared disaster that an accurate projection cannot be made, the following applies:

(i) County average yields are used for the disaster year if the loan applicant’s disaster year yields are less than the county average yields. If county average yields are not available, State average yields are used. Adjustments can be made, provided there is factual evidence to demonstrate that the yield used in the farm plan is the most probable to be realized.

(ii) To calculate a historical yield, the crop year with the lowest actual or county average yield may be excluded, provided the loan applicant’s yields were affected by disasters at least 2 of the previous 5 consecutive years.

(c) Refinancing. Loan guarantee requests for refinancing must ensure that a reasonable chance for success still exists. The lender must demonstrate that problems with the loan applicant’s operation that have been identified, can be corrected, and the operation returned to a sound financial basis.

§ 762.127 Appraisal requirements.

(a) General. The Agency may require a lender to obtain an appraisal based on the type of security, loan size, and whether it is primary or additional security. Except for authorized liquidation expenses, the lender is responsible for all appraisal costs, which may be passed on to the borrower, or a transferee in the case of a transfer and assumption.

(b) Exception. Notwithstanding other provisions of this section, an appraisal is not required for any additional security, or for loans of $50,000 or less if a strong equity position exists.

(c) Chattel appraisals. A current appraisal (not more than 12 months old) of primary chattel security is generally required on all loans. An appraisal for loans or lines of credit for annual production purposes that are secured by crops is only required when a guarantee is requested late in the current production year and actual yields can be reasonably estimated. The appraised value of chattel property will be based on public sales of the same, or similar, property in the market area. In the absence of such public sales, reputable publications reflecting market values may be used. Appraisal reports may be on the Agency’s appraisal of chattel property form or on any other appraisal form containing at least the same information. Chattel appraisals will be performed by appraisers who possess sufficient experience or training to estimate the market value of agricultural property. Agency officials may accept an appraisal that is not current if there have been no significant changes in the market or on the subject real estate and the appraisal was either completed within the past 12 months or updated by a qualified appraiser if not completed within the past 12 months.

(d) Real estate appraisals. A current real estate appraisal is required when real estate will be primary security. Agency officials may accept an appraisal that is not current if there have been no significant changes in the market or on the subject real estate and the appraisal was either completed within the past 12 months or updated by a qualified appraisal if not completed within the past 12 months.

1. Appraiser qualifications. On loan transactions of $250,000 or less, the lender must demonstrate to the Agency’s satisfaction that the appraiser possesses sufficient experience or training to estimate the market value of agricultural property. On loan transactions greater than $250,000, which includes principal plus accrued interest through the closing date, the appraisal must be completed by a State certified general appraiser.
(2) Appraisals. Real estate appraisals must be completed in accordance with the Uniform Standards of Professional Appraisal Practice. Appraisals may be either a complete or limited appraisal provided in a self-contained or summary format. Restricted reports, as defined in the Uniform Standards of Professional Appraisal Practice, are not acceptable.

§ 762.128 Environmental and special laws.

(a) Environmental requirements. The requirements found in part 1940, subpart G, of this title must be met for guaranteed OL and FO. CLP and PLP lenders may certify that they have documentation in their file to demonstrate compliance with paragraph (c) of this section. Standard eligible lenders must submit evidence supporting compliance with this section.

(b) Determination. The Agency determination of whether an environmental problem exists will be based on:

(1) The information supplied with the application;

(2) The Agency Official’s personal knowledge of the operation;

(3) Environmental resources available to the Agency including, but not limited to, documents, third parties, and governmental agencies;

(4) A visit to the farm operation when the available information is insufficient to make a determination;

(5) Other information supplied by the lender or loan applicant upon Agency request. If necessary, information not supplied with the application will be requested by the Agency.

(c) Special requirements. Lenders will assist in the environmental review process by providing environmental information. In all cases, the lender must retain documentation of their investigation in the loan applicant’s case file.

(1) A determination must be made as to whether there are any potential impacts to a 100 year floodplain as defined by Federal Emergency Management Agency floodplain maps, Natural Resources Conservation Service data, or other appropriate documentation.

(2) The lender will assist the borrower in securing any applicable permits or waste management plans. The lender may consult with the Agency for guidance on activities which require consultation with State regulatory agencies, special permitting or waste management plans.

(3) The lender will examine the security property to determine if there are any structures or archeological sites which are listed or may be eligible for listing in the National Register of Historic Places. The lender may consult with the Agency for guidance on which situations will need further review in accordance with the National Historical Preservation Act and part 1940, subpart G, and part 1901, subpart F, of this title.

(4) The loan applicant must certify they will not violate the provisions of §363 of the CONSACT, the Food Security Act of 1985, and Executive Order 11990 relating to Highly Erodible Land and Wetlands.

(5) All lenders are required to ensure that due diligence is performed in conjunction with a request for guarantee of a loan involving real estate. Due diligence is the process of evaluating real estate in the context of a real estate transaction to determine the presence of contamination from release of hazardous substances, petroleum products, or other environmental hazards and determining what effect, if any, the contamination has on the security value of the property. The Agency will accept as evidence of due diligence the most current version of the American Society of Testing Materials (ASTM) transaction screen questionnaire available from 100 Barr Harbor Drive, West Conshohocken, Pennsylvania 19428–2959, or similar documentation, approved for use by the Agency, supplemented as necessary by the ASTM phase I environmental site assessments form.

(d) Equal opportunity and non-discrimination. (1) With respect to any aspect of a credit transaction, the lender will not discriminate against any applicant on the basis of race, color, religion, national origin, sex, marital status, or age, provided the applicant can execute a legal contract. Nor will the lender discriminate on the basis of
§ 762.129 Percent of guarantee and maximum loss.

(a) General. The percent of guarantee will not exceed 90 percent based on the credit risk to the lender and the Agency both before and after the transaction. The Agency will determine the percentage of guarantee.

(b) Exceptions. The guarantee will be issued at 95 percent in any of the following circumstances:

(1) The sole purpose of a guaranteed FO or OL is to refinance an Agency direct farm loan. When only a portion of the loan is used to refinance a direct Agency farm credit program loan, a weighted percentage of a guarantee will be provided;

(2) When the purpose of an FO guarantee is to participate in the down payment loan program; or

(3) When a guaranteed OL is made to a farmer or rancher who is participating in the Agency’s down payment loan program. The guaranteed OL must be made during the period that a borrower has the down payment loan outstanding.

(c) CLP and PLP guarantees. All guarantees issued to CLP or PLP lenders will not be less than 80 percent.

(d) Maximum loss. The maximum amount the Agency will pay the lender under the loan guarantee will be any loss sustained by such lender on the guaranteed portion including:

(1) The pro rata share of principal and interest indebtedness as evidenced by the note or by assumption agreement;

(2) Any loan subsidy due and owing;

(3) The pro rata share of principal and interest indebtedness on secured protective and emergency advances made in accordance with this subpart; and

(4) Principal and interest indebtedness on recapture debt pursuant to a shared appreciation agreement. Provided that the lender has paid the Agency its pro rata share of the recapture amount due.

§ 762.130 Loan approval and issuing the guarantee.

(a) Processing timeframes. (1) Standard Eligible Lenders. Complete applications from Standard Eligible Lenders will be approved or rejected, and the lender notified in writing, no later than 30 calendar days after receipt.

(2) CLP and PLP lenders. (i) Complete applications from CLP or PLP lenders will be approved or rejected not later than 14 calendar days after receipt.

(ii) For PLP lenders, if this timeframe is not met, the proposed guaranteed loan will automatically be approved, subject to funding, and receive an 80 or 95 percent guarantee, as appropriate.

(3) Complete applications. For purposes of determining the application processing timeframes, an application will be not be considered complete until all information required to make an approval decision, including the information for an environmental review, is received by the Agency.

(4) The Agency will confirm the date an application is received with a written notification to the lender.

(b) Funding preference. Loans are approved subject to the availability of funding. When it appears that there are not adequate funds to meet the needs of all approved loan applicants, applications that have been approved will be placed on a preference list according to the date of receipt of a complete application. If approved applications have been received on the same day, the following will be given priority:

(1) An application from a veteran

(2) An application from an Agency direct loan borrower
(3) An application from a loan applicant who:
(i) Has a dependent family,
(ii) Is an owner of livestock and farm implements necessary to successfully carry out farming operations, or
(iii) Is able to make down payments.
(4) Any other approved application.
(c) Conditional commitment. (1) The lender must meet all of the conditions specified in the conditional commitment to secure final Agency approval of the guarantee.
(2) The lender, after reviewing the conditions listed on the conditional commitment, will complete, execute, and return the form to the Agency. If the conditions are not acceptable to the lender, the Agency may agree to alternatives or inform the lender and the loan applicant of their appeal rights.
(d) Lender requirements prior to issuing the guarantee. (1) Lender certification. The lender will certify as to the following on the appropriate Agency form:
(i) No major changes have been made in the lender’s loan or line of credit conditions and requirements since submission of the application (except those approved in the interim by the Agency in writing);
(ii) Required hazard, flood, crop, worker’s compensation, and personal life insurance (when required) are in effect;
(iii) Truth in lending requirements have been met;
(iv) All equal employment and equal credit opportunity and nondiscrimination requirements have been or will be met at the appropriate time;
(v) The loan or line of credit has been properly closed, and the required security instruments have been obtained, or will be obtained, on any acquired property that cannot be covered initially under State law;
(vi) The borrower has marketable title to the collateral owned by the borrower, subject to the instrument securing the loan or line of credit to be guaranteed and subject to any other exceptions approved in writing by the Agency. When required, an assignment on all USDA crop and livestock program payments has been obtained;
(vii) When required, personal, joint operation, partnership, or corporate guarantees have been obtained;
(viii) Liens have been perfected and priorities are consistent with requirements of the conditional commitment;
(ix) Loan proceeds have been, or will be disbursed for purposes and in amounts consistent with the conditional commitment and as specified on the loan application. In line of credit cases, if any advances have occurred, advances have been disbursed for purposes and in amounts consistent with the conditional commitment and line of credit agreements;
(x) There has been no material adverse change in the borrower’s condition, financial or otherwise, since submission of the application; and
(xi) All other requirements specified in the conditional commitment have been met.
(2) Inspections. The lender must notify the Agency of any scheduled inspections during construction and after the guarantee has been issued. The Agency may attend these field inspections. Any inspections or review performed by the Agency, including those with the lender, are solely for the benefit of the Agency. Agency inspections do not relieve any other parties of their inspection responsibilities, nor can these parties rely on Agency inspections for any purpose.
(3) Execution of lender’s agreement. The lender must execute the Agency’s lender’s agreement and deliver it to the Agency.
(4) Closing report and guarantee fees. (i) The lender must complete an Agency closing report form and return it to the Agency along with any guarantee fees.
(ii) Guarantee fees are 1 percent and are calculated as follows: Fee = Loan Amount x % Guaranteed x .01. The non-refundable fee is paid to the Agency by the lender. The fee may be passed on to the borrower and included in loan funds.
(iii) The following guaranteed loan transactions are not charged a fee:
(A) Loans involving interest assistance;
(B) Loans where a majority of the funds are used to refinance an Agency direct loan; and
§ 762.140

(C) Loans to beginning farmers or ranchers involved in the direct beginning farmer downpayment program.

(e) Promissory notes, line of credit agreements, mortgages, and security agreements. The lender will use its own promissory notes, line of credit agreements, real estate mortgages (including deeds of trust and similar instruments), and security agreements (including chattel mortgages in Louisiana and Puerto Rico), provided:

(1) The forms meet Agency requirements;
(2) Documents comply with State law and regulation;
(3) The principal and interest repayment schedules are stated clearly in the notes and are consistent with the conditional commitment;
(4) The note is executed by the individual liable for the loan. For entities, the note is executed by the member who is authorized to sign for the entity, and by all members of the entity as individuals. Individual liability can be waived by the Agency for members holding less than 10 percent ownership in the entity if the collectability of the loan will not be impaired; and
(5) When the loan purpose is to refinance or restructure the lender’s own debt, the lender may continue to use the existing debt instrument and attach an allonge that modifies the terms of the original note.

(f) Replacement of loan guarantee, or assignment guarantee agreement. If the guarantee or assignment guarantee agreements are lost, stolen, destroyed, mutilated, or defaced, except where the evidence of debt was or is a bearer instrument, the Agency will issue a replacement to the lender or holder upon receipt of acceptable documentation including a certificate of loss and an indemnity bond.

§§ 762.131–762.139 [Reserved]

§ 762.140 General servicing responsibilities.

(a) General. (1) Lenders are responsible for servicing the entire loan in a reasonable and prudent manner, protecting and accounting for the collateral, and remaining the mortgagee or secured party of record.

(2) The lender cannot enforce the guarantee to the extent that a loss results from a violation of usury laws or negligent servicing.

(b) Borrower supervision. The lender’s responsibilities regarding borrower supervision include, but are not limited to the following:

(1) Ensuring loan funds are not used for unauthorized purposes.
(2) Ensuring borrower compliance with the covenants and provisions contained in the promissory note, loan agreement, mortgage, security instruments, any other agreements, and this part. (3) Ensuring the borrower is in compliance with all laws and regulations applicable to the loan, the collateral, and the operations of the farm.

(5) Performing an annual analysis of the borrower’s financial condition to determine the borrower’s progress. The annual analysis will include:

(i) For loans secured by real estate only, the analysis for standard eligible lenders must include an analysis of the borrower’s balance sheet. CLP lenders will determine the need for the annual analysis based on the financial strength of the borrower and document the file accordingly. PLP lenders will perform an annual analysis in accordance with the requirements established in the lender’s agreement.
(ii) For loans secured by chattels, all lenders will review the borrower’s progress regarding business goals, trends and changes in financial performance, and compare actual to planned income and expenses for the past year.
(iii) An account of the whereabouts or disposition of all collateral.
(iv) A discussion of any observations about the farm business with the borrower.

(c) Monitoring of development. The lender’s responsibilities regarding the

(2) Making periodic inspections during construction to ensure that any development is properly completed within a reasonable period of time; and

(3) Verification that the security is free of any mechanic's, materialmen's, or other liens which would affect the lender's lien or result in a different lien priority from that proposed in the request for guarantee.

(d) The guaranteed loan installments will be paid before unguaranteed loans held by the same lender.

§ 762.141 Reporting requirements.

Lenders are responsible for providing the local Agency credit officer with all of the following information on the loan and the borrower:

(a) When the guaranteed loan becomes 30 days past due, and following the lender's meeting or attempts to meet with the borrower, all lenders will submit the appropriate Agency form showing guaranteed loan borrower default status. The form will be resubmitted every 60 days until the default is cured either through restructuring or liquidation.

(b) All lenders will submit the appropriate guaranteed loan status reports as of March 31 and September 30 of each year;

(c) CLP lenders also must provide the following:

(1) A written summary of the lender's annual analysis of the borrower's operation. This summary should describe the borrower's progress and prospects for the upcoming operating cycle. This annual analysis may be waived or postponed if the borrower is financially strong. The summary will include a description of the reasons an analysis was not necessary.

(2) For lines of credit, an annual certification stating that a cash flow projecting at least a feasible plan has been developed, that the borrower is in compliance with the provisions of the line of credit agreement, and that the previous year income and loan funds and security proceeds have been accounted for.

(d) In addition to the requirements of paragraphs (a), (b), and (c) of this section, the standard eligible lender also will provide:

(1) Borrower's balance sheet, and income and expense statement for the previous year.

(e) PLP lenders will submit additional reports as required in their lender's agreement.

(f) A lender receiving a final loss payment must complete and return an annual report on its collection activities for each unsatisfied account for 3 years following payment of the final loss claim.

§ 762.142 Servicing related to collateral.

(a) General. The lender's responsibilities regarding servicing collateral include, but are not limited to, the following:

(1) Obtain income and insurance assignments when required.

(2) Ensure the borrower has or obtains marketable title to the collateral.

(3) Inspect the collateral as often as deemed necessary to properly service the loan.

(4) Ensure the borrower does not convert loan security.

(5) Ensure the proceeds from the sale or other disposition of collateral are accounted for and applied in accordance with the lien priorities on which the guarantee is based or used for the purchase of replacement collateral.

(6) Ensure the loan and the collateral are protected in the event of foreclosure, bankruptcy, receivership, insolvency, condemnation, or other litigation.

(7) Ensure taxes, assessments, or ground rents against or affecting the collateral are paid.

(8) Ensure adequate insurance is maintained.
(9) Ensure that insurance loss payments, condemnation awards, or similar proceeds are applied on debts in accordance with lien priorities on which the guarantee was based, or used to rebuild or acquire needed replacement collateral.

(b) Partial releases. (1) A lender may release guaranteed loan security without FSA concurrence as follows:

(i) When the security item is being sold for market value and the proceeds will be applied to the loan in accordance with lien priorities. In the case of term loans, proceeds will be applied as extra payments and not as a regular installment on the loan.

(ii) The security item will be used as a trade-in or source of down payment funds for a like item that will be taken as security.

(iii) The security item has no present or prospective value.

(2) A partial release of security may be approved in writing by the Agency upon the lender’s request when:

(i) Proceeds will be used to make improvements to real estate that increase the value of the security by an amount equal to or greater than the value of the security being released.

(ii) Security will be released outright with no consideration, but the total unpaid balance of the guaranteed loan is less than or equal to 75 percent of the value of the security for the loan after the release, excluding the value of growing crops or planned production, based on a current appraisal of the security.

(iii) Significant income generating property will not be released unless it is being replaced and business assets will not be released for use as a gift or any similar purpose.

(iv) Agency concurrence is provided in writing to the lender’s written request. Standard eligible lenders and CLP lenders will submit the following to the Agency:

(A) A current balance sheet on the borrower; and

(B) A current appraisal of the security. Based on the level of risk and estimated equity involved, the Agency will determine what security needs to be appraised. Any required security appraisals must meet the requirements of §762.127; and

(C) A description of the purpose of the release; and

(D) Any other information requested by the Agency to evaluate the proposed servicing action.

(3) The lender will provide the Agency copies of any agreements executed to carry out the servicing action.

(4) PLP lenders will request servicing approval in accordance with their agreement with the Agency at the time of PLP status certification.

(c) Subordinations. (1) The Agency may subordinate its security interest on a direct loan when a guaranteed loan is being made if the requirements of the regulations governing Agency direct loan subordinations are met and only in the following circumstances:

(i) To permit a guaranteed lender to advance funds and perfect a security interest in crops, feeder livestock, livestock offspring, or livestock products;

(ii) When the lender requesting the guarantee needs the subordination of the Agency’s lien position to maintain its lien position when servicing or restructuring;

(iii) When the lender requesting the guarantee is refinancing the debt of another lender and the Agency’s position on real estate security will not be adversely affected; or

(iv) To permit a line of credit to be advanced for annual operating expenses.

(2) The Agency may subordinate its basic security in a direct loan to permit guaranteed line of credit only when both of the following additional conditions are met:

(i) The total unpaid balance of the direct loans is less than or equal to 75 percent of the value of all of the security for the direct loans, excluding the value of growing crops or planned production, at the time of the subordination. The direct loan security value will be determined by an appraisal. The lender requesting the subordination and guarantee is responsible for providing the appraisal and may charge the applicant a reasonable appraisal fee.

(ii) The applicant cannot obtain sufficient credit through a conventional guaranteed loan without a subordination.
(3) The borrower is in default when 30 days past due on a payment or in violation of provisions of the loan documents.

(b) In the event of a borrower default, SEL and CLP lenders will:

(1) Report to the Agency in accordance with §762.141.

(2) Determine whether it will repurchase the guaranteed portion from the holder in accordance with §762.144, if the guaranteed portion of the loan was sold on the secondary market.

(3) Arrange a meeting with the borrower within 15 days of default (45 days after payment due date for monetary defaults) to identify the nature of the delinquency and develop a course of action that will eliminate the delinquency and correct the underlying problems. Non-monetary defaults will be handled in accordance with the lender's note, loan agreements and any other applicable loan documents.

(i) The lender and borrower will prepare a current balance sheet and cash flow projection in preparation for the meeting. If the borrower refuses to cooperate, the lender will compile the best financial information available.

(ii) The lender or the borrower may request the attendance of an Agency credit officer. If requested, the Agency credit officer will assist in developing solutions to the borrower's financial problems.

(iii) The lender will summarize the meeting and proposed solutions on the Agency form for guaranteed loan borrower default status completed after the meeting. The lender will indicate
§ 762.144 Repurchase of guaranteed portion from a secondary market holder.

(a) Request for repurchase. The holder may request the lender to repurchase the unpaid guaranteed portion of the loan when:

1. The borrower has not made a payment of principal and interest due on the loan for at least 60 days; or

2. The lender has failed to remit to the holder its pro-rata share of any payment made by the borrower within 30 days of receipt of a payment.

(b) Repurchase by the lender. (1) When a lender is requested to repurchase a loan from the holder, the lender must consider the request according to the servicing actions that are necessary on the loan. In order to facilitate servicing and simplified accounting of loan transactions, lenders are encouraged to repurchase the loan upon the holder’s request.

2. The repurchase by the lender will be for an amount equal to the portion of the loan held by the holder plus accrued interest.

(c) Repurchase by the Agency. (1) If the lender does not repurchase the loan, the holder must inform the Agency in writing that demand was made on the lender and the lender refused. Following the lender’s refusal, the holder may continue as holder of the guaranteed portion of the loan or request that the Agency purchase the guaranteed portion. Within 30 days after written demand to the Agency from the holder with required attachments, the Agency will forward to the holder payment of the unpaid principal balance, with accrued interest to the date of repurchase. If the holder does not desire repurchase or purchase of a defaulted loan, the lender must forward the holder its pro-rata share of payments, liquidation proceeds and Agency loss payments.

(2) With its demand on the Agency, the holder must include:

(i) A copy of the written demand made upon the lender.

(ii) Originals of the guarantee and note properly endorsed to the Agency, or the original of the assignment of guarantee.

(iii) A copy of any written response to the demand of the holder by the lender.

(iv) An account to which the Agency can forward the purchase amount via electronic funds transfer.

(3) The amount due the holder from the Agency includes unpaid principal, unpaid interest to the date of demand, and interest which has accrued from the date of demand to the proposed payment date.

(i) Upon request by the Agency, the lender must furnish upon Agency request a current statement, certified by a bank officer, of the unpaid principal and interest owed by the borrower and the amount due the holder.

(ii) Any discrepancy between the amount claimed by the holder and the information submitted by the lender must be resolved by the lender and the holder before payment will be approved by the Agency. The Agency will not participate in resolution of any such
discrepancy. When there is a discrepancy, the 30 day Agency payment requirement to the holder will be suspended until the discrepancy is resolved.

(iii) In the case of a request for Agency purchase, the government will only pay interest that accrues for up to 90 days from the date of the demand letter to the lender requesting the repurchase. However, if the lender requested repurchase from the Agency within 60 days of the request to the holder and for any reason not attributable to the holder and the lender, the Agency cannot make payment within 30 days of the holder’s demand to the Agency, the holder will be entitled to interest to the date of the payment.

(4) At the time of purchase by the Agency, the original assignment of guarantee will be assigned by the holder to the Agency without recourse, including all rights, title, and interest in the loan.

(5) Purchase by the Agency does not change, alter, or modify any of the lender’s obligations to the Agency specified in the lender’s agreement or guarantee; nor does the purchase waive any of the Agency’s rights against the lender.

(6) The Agency succeeds to all rights of the holder under the Guarantee including the right of set-off against the lender.

(7) Within 180 days of the Agency’s purchase, the lender will reimburse the Agency the amount of repurchase, with accrued interest, through one of the following ways:

(i) By liquidating the loan security and paying the Agency its pro-rata share of liquidation proceeds; or

(ii) Paying the Agency the full amount the Agency paid to the holder plus any accrued interest.

(8) The lender will be liable for the purchase amount and any expenses incurred by the Agency to maintain the loan in its portfolio or liquidate the security. While the Agency holds the guaranteed portion of the loan, the lender will transmit to the Agency any payment received from the borrower, including the pro-rata share of liquidation or other proceeds.

(9) If the borrower files for reorganization under the provisions of the bankruptcy code or pays the account current while the purchase by the Government is being processed, the Agency may hold the loan as long it determines this action to be in the Agency’s interest. If the lender is not proceeding expeditiously to collect the loan or reimbursement is not waived under this paragraph, the Agency will demand payment by the lender and collect the purchase amount through administrative offset of any claims due the lender.

(10) The Agency may sell a purchased guaranteed loan on a non-recourse basis if it determines that selling the portion of the loan that it holds is in the Government’s best interest. A non-recourse purchase from the Agency requires a written request to the Agency from the party that wishes to purchase it, and written concurrence from the lender;

(d) Repurchase for servicing. (1) If, due to loan default or imminent loan restructuring, the lender determines that repurchase is necessary to adequately service the loan, the lender may repurchase the guaranteed portion of the loan from the holder, with the written approval of the Agency.

(2) The lender will not repurchase from the holder for arbitrage purposes. With its request for Agency concurrence, the lender will notify the Agency of its plans to resell the guaranteed portion following servicing.

(3) The holder will sell the guaranteed portion of the loan to the lender for an amount agreed to between the lender and holder.

§762.145 Restructuring guaranteed loans.

(a) General. (1) To restructure guaranteed loans standard eligible lenders must:

(i) Obtain prior written approval of the Agency for all restructuring actions; and,

(ii) Provide the items in paragraph (b) and (e) of this section to the Agency for approval.

(2) If the standard eligible lender’s proposal for servicing is not agreed to by the Agency, the Agency approval official will notify the lender in writing within 14 days of the lender’s request.

(3) To restructure guaranteed loans CLP lenders must:
§ 762.145

(i) Obtain prior written approval of the Agency only for debt write down under this section.

(ii) Submit all calculations required in paragraph (e) of this section for debt writedown.

(iii) For restructuring other than write down, provide FSA with a certification that each requirement of this section has been met, a narrative outlining the circumstances surrounding the need for restructuring, and copies of any applicable calculations.

(4) PLP lenders will restructure loans in accordance with their lender’s agreement.

(5) All lenders will submit copies of any restructured notes or lines of credit to the Agency.

(b) Requirements. For any restructuring action, the following conditions apply:

(1) The borrower meets the eligibility criteria of §762.120, except the provisions regarding prior debt forgiveness and delinquency on a federal debt do not apply.

(2) The borrower’s ability to make the amended payment is documented by the following:

   (i) A feasible plan (see §762.102(b)). If interest assistance is required to achieve a feasible plan, the items required by §762.150(d) must be submitted with a restructuring request. Feasible plan is defined in §762.102(b).

   (ii) Current financial statements from all liable parties.

   (iii) Verification of nonfarm income.

   (iv) Verification of all debts of $1,000 or more.

   (v) Applicable credit reports.

   (vi) Financial history (and production history for standard eligible lenders) for the past 3 years to support the cash flow projections.

(3) A final loss claim may be reduced, adjusted, or rejected as a result of negligent servicing after the concurrence with a restructuring action under this section.

(4) Balloon payments are prohibited; however, the loan can be restructured with unequal installments, provided that, in addition to a feasible plan for the upcoming operating cycle, a feasible plan can be reasonably projected after the installments increase. Feasible plan is defined in §762.102(b).

(5) If a borrower is current on a loan, but will be unable to make a payment, a restructuring proposal may be submitted prior to the payment coming due.

(6) The lender may capitalize the outstanding interest when restructuring the loan as follows:

   (i) As a result of the capitalization of interest, a rescheduled promissory note may increase the amount of principal which the borrower is required to pay. However, in no case will such principal amount exceed the statutory loan limits contained in §762.122.

   (ii) When accrued interest causes the loan amount to exceed the statutory loan limits, rescheduling may be approved without capitalization of the amount that exceeds the limit. Non-capitalized interest may be scheduled for repayment over the term of the rescheduled note.

   (iii) Only interest that has accrued at the rate indicated on the borrower’s original promissory notes may be capitalized. Late payment fees or default interest penalties that have accrued due to the borrower’s failure to make payments as agreed are not covered under the guarantee and may not be capitalized.

(7) The lender’s security position will not be adversely affected because of the restructuring. New security instruments may be taken if needed, but a loan does not have to be fully secured in order to be restructured.

(8) Any holder agrees in writing to any changes in the original loan terms, including the approval of interest assistance. If the holder does not agree, the lender must repurchase the loan from the holder for any loan restructuring to occur.
(9) After a guaranteed loan is restructured, the lender must provide the Agency with a copy of the restructured promissory note.

(c) Rescheduling. The following conditions apply when a guaranteed loan is rescheduled or reamortized:

(1) Payments will be rescheduled within the following terms:

(i) FO and existing SW may be amortized over the remaining term of the note or rescheduled with an uneven payment schedule. The maturity date cannot exceed 40 years from the date of the original note.

(ii) OL notes must be rescheduled over a period not to exceed 15 years from the date of the rescheduling. An OL line of credit may be rescheduled over a period not to exceed 7 years from the date of the rescheduling or 10 years from the date of the original note, whichever is less. Advances cannot be made against a line of credit loan that has had any portion of the loan rescheduled.

(2) The interest rate for a rescheduled loan is the negotiated rate agreed upon by the lender and the borrower at the time of the action, subject to the loan limitations for each type of loan.

(3) A new note is not necessary when rescheduling occurs. However, if a new note is not taken, the existing note or line of credit agreement must be modified by attaching an allonge or other legally effective amendment, evidencing the revised repayment schedule and any interest rate change. If a new note is taken, the new note must reference the old note and state that the indebtedness evidenced by the old note or line of credit agreement is not satisfied. The original note or line of credit agreement must be retained.

(d) Deferrals. The following conditions apply to deferrals:

(1) Payments may be deferred up to 5 years, but the loan may not be extended beyond the final due date of the note.

(2) The principal portion of the payment may be deferred either in whole or in part.

(3) Interest may be deferred only in part. Payment of a reasonable portion of accruing interest as indicated by the borrower’s cash flow projections is required for multi-year deferrals.

(4) There must be a reasonable prospect that the borrower will be able to resume full payments at the end of the deferral period.

(e) Debt writedown. The following conditions apply to debt writedown:

(1) A lender may only write down a delinquent guaranteed loan or line of credit in an amount sufficient to permit the borrower to develop a feasible plan as defined in §762.102(b).

(2) The lender will request other creditors to negotiate their debts before a writedown is considered.

(3) The borrower cannot develop a feasible plan after consideration is given to rescheduling and deferral under this section.

(4) The present value of the loan to be written down, based on the interest rate of the rescheduled loan, will be equal to or exceed the net recovery value of the loan collateral.

(5) The loan will be restructured with regular payments at terms no shorter than 5 years for a line of credit and OL note and no shorter than 20 years for FO, unless required to be shorter by §762.145(c)(1)(i) and (ii).

(6) No further advances may be made on a line of credit that is written down.

(7) Loans may not be written down with interest assistance. If a borrower’s loan presently on interest assistance requires a writedown, the writedown will be considered without interest assistance.

(8) The writedown is based on writing down the shorter-term loans first.

(9) When a lender requests approval of a writedown for a borrower with multiple loans, the security for all of the loans will be cross-collateralized and continue to serve as security for the loan that is written down. If a borrower has multiple loans and one loan is written off entirely through debt writedown, the security for that loan will not be released and will remain as security for the other written down debt. Additional security instruments will be taken if required to cross-collateralize security and maintain lien priority.

(10) The writedown will be evidenced by an allonge or amendment to the existing note or line of credit reflecting the writedown.
§ 762.146 Other servicing procedures.

(a) Additional loans and advances. (1) Notwithstanding any provision of this section, the PLP lender may make additional loans or advances in accordance with the lender’s agreement with the Agency.

(2) SEL and CLP lenders must not make additional loans or advances without prior written approval of the Agency, except as provided in the borrower’s loan or line of credit agreement.

(3) In cases of a guaranteed line of credit, lenders may make an emergency advance when a line of credit has reached its ceiling. The emergency advance will be made as an advance under the line and not as a separate note. The lender’s loan documents must contain sufficient language to provide that any emergency advance will constitute a debt of the borrower to the lender and be secured by the security instrument. The following conditions apply:

(i) The loan funds to be advanced are for authorized operating loan purposes;

(ii) The financial benefit to the lender and the Government from the advance will exceed the amount of the advance; and

(iii) The loss of crops or livestock is imminent unless the advance is made.

(4) Protective advance requirements are found in §762.149.

(b) Release of liability upon withdrawal. An individual who is obligated on a guaranteed loan may be released from liability by a lender, with the written consent of the Agency, provided the following conditions have been met:

(1) The individual to be released has withdrawn from the farming or ranching operation;

(2) A divorce decree or final property settlement does not hold the withdrawing party responsible for the loan payments;

(3) The withdrawing party’s interest in the security is conveyed to the individual or entity with whom the loan will be continued;

(4) The ratio of the amount of debt to the value of the remaining security is less than or equal to .75, or the withdrawing party has no income or assets from which collection can be made; and

(5) Withdrawal of the individual does not result in legal dissolution of the entity to which the loans are made. Individually liable members of a general or limited partnership may not be released from liability.

(6) The remaining liable party projects a feasible plan (see §762.102(b)).

(c) Release of liability after liquidation. After a final loss claim has been paid on the borrower’s account, the lender may release the borrower or guarantor from liability if:

(1) The Agency agrees to the release in writing;

(2) The lender documents its consideration of the following factors concerning the borrower or guarantors:

(i) The likelihood that the borrower or guarantor will have a sufficient level of income in the reasonably near
future to contribute to a meaningful reduction of the debt;

(ii) The prospect that the borrower or guarantor will inherit assets in the near term that may be attached by the Agency for payment of a significant portion of the debt;

(iii) Whether collateral has been properly accounted for, and whether liability should be retained in order to take action against the borrower or a third party for conversion of security;

(iv) The availability of other income or assets which are not security;

(v) The possibility that assets have been concealed or improperly transferred;

(vi) The effect of other guarantors on the loan; and

(vii) Cash consideration or other collateral in exchange for the release of liability.

3) The lender will use its own release of liability documents.

(d) Interest rate changes. (1) The lender may change the interest rate on a performing (nondelinquent) loan only with the borrower’s consent.

(2) If the loan has been sold on the secondary market, the lender must repurchase the loan or obtain the holder’s written consent.

(3) To change a fixed rate of interest to a variable rate of interest or vice versa, the lender and the borrower must execute a legally effective allonge or amendment to the existing note.

(4) If a new note is taken, it will be attached to and refer to the original note.

(5) The lender will inform the Agency of the rate change.

(e) Consolidation. Two or more Agency guaranteed loans may be consolidated, subject to the following conditions:

(1) The borrower must project a feasible plan after the consolidation. See §762.102(b) for definition of feasible plan.

(2) Only OL may be consolidated.

(3) Existing lines of credit may only be consolidated with a new line of credit if the final maturity date and conditions for advances of the new line of credit are made the same as the existing line of credit.

(4) Guaranteed OL may not be consolidated with a line of credit, even if the line of credit has been rescheduled.

(5) Guaranteed loans made prior to October 1, 1991, cannot be consolidated with those loans made on or after October 1, 1991.

(6) OL secured by real estate or with an outstanding interest assistance agreement or shared appreciation agreement cannot be consolidated.

(7) A new note or line of credit agreement will be taken. The new note or line of credit agreement must describe the note or line of credit agreement being consolidated and must state that the indebtedness evidenced by the note or line of credit agreement is not satisfied. The original note or line of credit agreement must be retained.

(8) The interest rate for a consolidated OL loan is the negotiated rate agreed upon by the lender and the borrower at the time of the action, subject to the loan limitations for each type of loan.

(9) The Agency approves the consolidation by executing a modification of guarantee. The modification will indicate the consolidated loan amount, new terms, and percentage of guarantee, and will be attached to the originals of the guarantees being consolidated. If loans with a different guarantee percentage are consolidated, the new guarantee will be at the lowest percentage of guarantee being consolidated

(10) Any holders must consent to the consolidation, or the guaranteed portion must be repurchased by the lender.

§762.147 Servicing shared appreciation agreements.

(a) Lender responsibilities. The lender is responsible for:

(1) Monitoring the borrower’s compliance with the shared appreciation agreement;

(2) Notifying the borrower of the amount of recapture due; and

(3) Beginning October 1, 1999, a notice of the agreement’s provisions not later than 12 months before the end of the agreement; and
(4) Reimbursing the Agency for its pro-rata share of recapture due.

(b) Recapture. (1) Recapture of any appreciation of real estate security will take place at the end of the term of the agreement, or sooner if the following occur:
   (i) On the conveyance of the real estate security (or a portion thereof) by the borrower.
   (A) If only a portion of the real estate is conveyed, recapture will only be triggered against the portion conveyed. Partial releases will be handled in accordance with §762.141(b).
   (B) Transfer of title to the spouse of the borrower on the death of such borrower will not be treated as a conveyance under the agreement.
   (ii) On repayment of the loan; or
   (iii) If the borrower ceases farming.
(2) Calculating recapture.
   (i) The amount of recapture will be based on the difference between the value of the security at the time recapture is triggered and the value of the security at the time of writedown, as shown on the shared appreciation agreement.
   (ii) Security values will be determined through appraisals obtained by the lender and meeting the requirements of §762.127.
   (iii) All appraisal fees will be paid by the lender.
   (iv) The amount of recapture will not exceed the amount of writedown shown on the shared appreciation agreement.
   (v) If recapture is triggered within 4 years of the date of the shared appreciation agreement, the lender shall recapture 75 percent of any positive appreciation in the market value of the property securing the loan or line of credit agreement.
   (vi) If recapture is triggered after 4 years from the date of the shared appreciation agreement, the lender shall recapture 50 percent of any positive appreciation in the market value of the property securing the loan or line of credit agreement.
(3) Servicing recapture debt.
   (i) If recapture is triggered under the shared appreciation agreement and the borrower is unable to pay the recapture in a lump sum, the lender may:
   (A) Reschedule the recapture debt with the consent of the Agency, provided the lender can document the borrower’s ability to make amortized payments on the recapture debt, plus pay all other obligations. In such case, the recapture debt will not be covered by the guarantee;
   (B) Pay the Agency its pro rata share of the recapture due. In such case, the recapture debt of the borrower will be covered by the guarantee; or
   (C) Service the account in accordance with §762.149.
(4) Paying the Agency. Any shared appreciation recaptured by the lender will be shared on a pro-rata basis between the lender and the Agency.

§ 762.148 Bankruptcy.

(a) Lender responsibilities. The lender must protect the guaranteed loan debt and all collateral securing the loan in bankruptcy proceedings. The lender’s responsibilities include, but are not limited to:
   (1) Filing a proof of claim where required and all the necessary papers and pleadings;
   (2) Attending, and where necessary, participating in meetings of the creditors and court proceedings;
   (3) Protecting the collateral securing the guaranteed loan and resisting any adverse changes that may be made to the collateral;
   (4) Seeking a dismissal of the bankruptcy proceeding when the operation as proposed by the borrower to the bankruptcy court is not feasible;
   (5) When permitted by the bankruptcy code, requesting a modification of any plan of reorganization if it appears additional recoveries are likely.
   (6) Monitor confirmed plans under chapters 11, 12 and 13 of the bankruptcy code to determine borrower compliance. If the borrower fails to comply, the lender will seek a dismissal of the reorganization plan; and
   (7) Keeping the Agency regularly informed in writing on all aspects of the proceedings.
(i) The lender will submit a default status report when the borrower defaults and every 60 days until the default is resolved or a final loss claim is paid.

(ii) The default status report will be used to inform the Agency of the bankruptcy filing, the reorganization plan confirmation date and effective date, when the reorganization plan is complete, and when the borrower is not in compliance with the reorganization plan.

(b) Bankruptcy expenses. (1) Reorganization.

(i) Expenses, such as legal fees and the cost of appraisals incurred by the lender as a direct result of the borrower’s chapter 11, 12, or 13 reorganization, are covered under the guarantee, provided they are reasonable, customary, and provide a demonstrated economic benefit to the lender and the Agency.

(ii) Lender’s in-house expenses, which are those expenses which would normally be incurred for administration of the loan, including in-house lawyers, are not covered by the guarantee.

(2) Liquidation expenses in bankruptcy.

(i) Reasonable and customary liquidation expenses may be deducted from the proceeds of the collateral in liquidation bankruptcy cases.

(ii) In-house expenses are not considered customary liquidation expenses, may not be deducted from collateral proceeds, and are not covered by the guarantee.

(c) Estimated loss claims in reorganization. (1) At confirmation. The lender may submit an estimated loss claim upon confirmation of the reorganization plan in accordance with the following:

(i) The estimated loss payment will cover the guaranteed percentage of the principal and accrued interest written off, plus any allowable costs incurred as of the effective date of the plan.

(ii) The lender will submit supporting documentation for the loss claim, and any additional information requested by the Agency, including justification for the legal fees included on the claim.

(iii) The estimated loss payment may be revised as consistent with a court-approved reorganization plan.

(iv) Protective advances made and approved in accordance with §762.149 may be included in an estimated loss claim associated with a reorganization, if:

(A) They were incurred in connection with the initiation of liquidation action prior to bankruptcy filing; or

(B) The advance is required to provide repairs, insurance, etc. to protect the collateral as a result of delays in the case, or failure of the borrower to maintain the security.

(2) Interest only losses. The lender may submit an estimated loss claim for interest only after confirmation of the reorganization plan in accordance with the following:

(i) The loss claims may cover interest losses sustained as a result of a court-ordered, permanent interest rate reduction.

(ii) The loss claims will be processed annually on the anniversary date of the effective date of the reorganization plan.

(iii) If the borrower performs under the terms of the reorganization plan, annual interest reduction loss claims will be submitted on or near the same date, beyond the period of the reorganization plan.

(3) Actual loss.

(i) Once the reorganization plan is complete, the lender will provide the Agency with documentation of the actual loss sustained.

(ii) If the actual loss sustained is greater than the prior estimated loss payment, the lender may submit a revised estimated loss claim to obtain payment of the additional amount owed by the Agency under the guarantee.

(iii) If the actual loss is less than the prior estimated loss, the lender will reimburse the Agency for the overpayment plus interest at the note rate from the date of the payment of the estimated loss.

(4) Payment to holder. In reorganization bankruptcy, if a holder makes demand upon the Agency, the Agency will pay the holder interest to the plan’s effective date. Accruing interest thereafter will be based upon the provisions of the reorganization plan.

(d) Liquidation under the bankruptcy code. (1) Upon receipt of notification
that a borrower has filed for protection under Chapter 7 of the bankruptcy code, or a liquidation plan under chapter 11, the lender must proceed according to the liquidation procedures of this part.

(2) If the property is abandoned by the trustee, the lender will conduct the liquidation according to §762.149.

(3) Proceeds received from partial sale of collateral during bankruptcy may be used by the lender to pay reasonable costs, such as freight, labor and sales commissions, associated with the partial sale. Reasonable use of proceeds for this purpose must be documented with the final loss claim in accordance with §762.149(a)(vi).

\section*{§ 762.149 Liquidation.}

(a) Mediation. When it has been determined that default cannot be cured through any of the servicing options available, or if the lender does not wish to utilize any of the authorities provided in this part, the lender must:

(1) Participate in mediation according to the rules and regulations of any State which has a mandatory farmer-creditor mediation program;

(2) Consider private mediation services in those States which do not have a mandatory farmer-creditor mediation program; and

(3) Not agree to any proposals to re-write the terms of a guaranteed loan which do not comply with this part. Any agreements reached as a result of mediation involving defaults and or loan restructuring must have written concurrence from the Agency before they are implemented.

(b) Liquidation plan. If a default cannot be cured after considering servicing options and mediation, the lender will proceed with liquidation of the collateral in accordance with the following:

(1) Within 30 days of the decision to liquidate, standard eligible and CLP lenders will submit a written liquidation plan to the Agency which includes:

(i) Current balance sheets from all liable parties or, if the parties are not cooperative, the best information available, or in liquidation bankruptcies, a copy of the bankruptcy schedules or discharge notice;

(ii) A proposed method of maximizing the collection of debt which includes specific plans to collect any remaining loan balances on the guaranteed loan after loan collateral has been liquidated, including possibilities for judgment;

(A) If the borrower has converted loan security, the lender will determine whether litigation is cost effective. The lender must address, in the liquidation plan, whether civil or criminal action will be pursued. If the lender does not pursue the recovery, the reason must be documented when an estimated loss claim is submitted.

(B) Any proposal to release the borrower from liability will be addressed in the liquidation plan in accordance with §762.146(c)(3);

(iii) An independent appraisal report on all collateral securing the loan that meets the requirements of §762.127 and a calculation of the net recovery value of the security as defined in §762.102. The appraisal requirement may be waived by the Agency in the following cases:

(A) The bankruptcy trustee is handling the liquidation and the lender has submitted the trustee’s determination of value;

(B) The lender’s proposed method of liquidation rarely results in receipt of less than market value for livestock and used equipment; or

(C) A purchase offer has already been received for more than the debt;

(iv) An estimate of time necessary to complete the liquidation;

(v) An estimated loss claim if the liquidation period is expected to exceed 90 days.

(vi) An estimate of reasonable liquidation expenses; and

(vii) An estimate of any protective advances.

(2) PLP lenders will submit a liquidation plan as required by their lender’s agreement.

(c) Agency approval of the liquidation plan. (1) CLP lender’s or standard eligible lender’s liquidation plan, and any revisions of the plan, must be approved by the Agency.

(2) If, within 20 calendar days of the Agency’s receipt of the liquidation plan, the Agency fails to approve it or fails to request that the lender make
revisions, the lender may assume the plan is approved. The lender may then proceed to begin liquidation actions at its discretion as long as it has been at least 60 days since the borrower's eligibility for interest assistance was considered.

(3) At its option, the Agency may liquidate the guaranteed loan as follows:

(i) Upon Agency request, the lender will transfer to the Agency all rights and interests necessary to allow the Agency to liquidate the loan. The Agency will not pay the lender for any loss until after the collateral is liquidated and the final loss is determined; and

(ii) If the Agency conducts the liquidation, interest accrual will cease on the date the Agency notifies the lender in writing that it assumes responsibility for the liquidation.

(d) Estimated loss claims. An estimated loss claim will be submitted by the lender with the liquidation plan if the liquidation is expected to exceed 90 days. The estimated loss will be based on the following:

(1) The Agency will pay the lender the guaranteed percentage of the total outstanding debt, less the net recovery value of the remaining security, less any unaccounted for security; and

(2) The lender will discontinue interest accrual on the defaulted loan at the time the estimated loss claim is paid by the Agency. If the lender estimates that there will be no loss after considering the costs of liquidation, interest accrual will cease 90 days after the decision to liquidate or an estimated loss of zero will be submitted.

(e) Protective advances. (1) Prior written authorization from the Agency is required for all protective advances in excess of $5,000 for CLP lenders and $3,000 for standard eligible lenders. The dollar amount of protective advances allowed for PLP lenders will be specified when PLP status is awarded by the Agency or as contained in the lender's agreement.

(2) The lender may claim recovery for the guaranteed portion of any loss of monies advanced as protective advances as allowed in this part, plus interest that accrues on the protective advances.

(3) Payment for protective advances is made by the Agency when the final loss claim is approved, except in bankruptcy actions.

(4) Protective advances are used only when the borrower is in liquidation, liquidation is imminent, or when the lender has taken title to real property in a liquidation action.

(5) Legal fees are not a protective advance.

(6) Protective advances may only be made when the lender can demonstrate the advance is in the best interest of the lender and the Agency.

(7) Protective advances must constitute a debt of the borrower to the lender and be secured by the security instrument.

(8) Protective advances must not be made in lieu of additional loans.

(f) Unapproved loans or advances. The amount of any payments made by the borrower on unapproved loans or advances outside of the guarantee will be deducted from any loss claim submitted by the lender on the guaranteed loan, if that loan or advance was paid prior to, and to the detriment of, the guaranteed loan.

(g) Acceleration. (1) If the borrower is not in bankruptcy, the lender shall send the borrower notice that the loan is in default and the entire debt has been determined due and payable immediately after other servicing options have been exhausted.

(2) The loan cannot be accelerated until after the borrower has been considered for interest assistance and the conclusion of mandatory mediation in accordance with §762.149.

(3) The lender will submit a copy of the acceleration notice or other document to the Agency.

(h) Foreclosure. (1) The lender is responsible for determining the necessary parties to any foreclosure action, or who should be named on a deed of conveyance taken in lieu of foreclosure.

(2) When the property is liquidated, the lender will apply the net proceeds to the guaranteed loan debt.

(3) When it is necessary to enter a bid at a foreclosure sale, the lender may bid the amount that it determines is
reasonable to protect its and the Agency’s interest. At a minimum, the lender will bid the lesser of the net recovery value or the unpaid guaranteed loan balance.

(i) Final loss claims. (1) Lenders may submit a final loss claim when the security has been liquidated and all proceeds have been received and applied to the account.

(2) If a lender acquires title to property either through voluntary conveyance or foreclosure proceeding, the lender will submit a final loss claim after disposing of the property. The lender may pay reasonable maintenance expenses to protect the value of the property while it is owned by the lender. These may be paid as protective advances or deducted as liquidation expenses from the sales proceeds when the lender disposes of the property. The lender must obtain Agency written concurrence before incurring maintenance expenses which exceed the amounts allowed in §762.149(e)(1).

(3) The lender will make its records available to the Agency for the Agency’s audit of the propriety of any loss payment.

(4) All lenders will submit the following documents with a final loss claim:

(i) An accounting of the use of loan funds;

(ii) An accounting of the disposition of loan security and its proceeds;

(iii) A copy of the loan ledger indicating loan advances, interest rate changes, protective advances, and application of payments, rental proceeds, and security proceeds, including a running outstanding balance total; and

(iv) Documentation, as requested by the Agency, concerning the lender’s compliance with the requirements of this part.

(5) The Agency will notify the lender of any discrepancies in the final loss claim or, approve or reject the claim within 40 days.

(6) The Agency will reduce a final loss claim based on its calculation of the dollar amount of loss caused by the lender’s negligent servicing of the account. Loss claims may be reduced or rejected as a result of the following:

(i) A loss claim may be reduced by the amount caused by the lender’s failure to secure property after a default, and will be reduced by the amount of interest that accrues when the lender fails to contact the borrower or takes no action to cure the default, once it occurs. Losses incurred as a result of interest accrual during excessive delays in collection, as determined by the Agency, will not be paid.

(ii) Unauthorized release of security proceeds, failure to verify ownership or possession of security to be purchased, or failure to inspect collateral as often required so as to ensure its maintenance.

(7) Losses will not be reduced for the following:

(i) Servicing deficiencies that did not contribute materially to the dollar amount of the loss.

(ii) Unaccounted security, as long as the lender’s efforts to locate and recover the missing collateral was equal to that which would have been expended in the case of an unguaranteed loan in the lender’s portfolio.

(8) Default interest, late charges, and loan servicing fees are not payable under the loss claim.

(9) The final loss will be the remaining outstanding balance after application of the estimated loss payment and the application of proceeds from the liquidation of the security.

(10) If the final loss is less than the estimated loss, the lender will reimburse the Agency for the overpayment, plus interest at the note rate from the date of the estimated loss payment.

(11) The lender will return the original guarantee marked paid after receipt of a final loss claim.

(j) Future Recovery. The lender will remit any recoveries made on the account after the Agency’s payment of a final loss claim to the Agency in proportion to the percentage of guarantee, in accordance with the lender’s agreement, until the account is paid in full or otherwise satisfied.

(k) Overpayments. The lender will repay any final loss overpayment determined by the Agency upon request.

(l) Electronic funds transfer. The lender will designate one or more financial institutions to which any Agency payments will be made via electronic funds transfer.
§ 762.150 Interest assistance program.

(a) Requests for interest assistance. (1) To apply for interest assistance in conjunction with a new request for guarantee, the lender will submit the following:

(i) A completed cash flow budget and interest assistance needs analysis portion of the application form. Interest assistance can be applied to each loan, only to one loan or any distribution the lender selects; however, interest assistance is only available on as many loans as necessary to achieve a feasible plan.

(ii) For loans with unequal payments, a proposed debt repayment schedule which shows principal and interest payments for the subject loan, in each year of the loan.

(2) To request interest assistance on an existing guaranteed loan, the lender must submit to the Agency the following:

(i) A completed cash flow projection and interest assistance needs analysis portion of the application form. Interest assistance can be applied to each loan, only to one loan or any distribution the lender selects as required to achieve a feasible plan.

(ii) For loans with unequal payments, a proposed debt repayment schedule which shows scheduled payments for the subject loan in each of the remaining years of the loan.

(iii) Cash flow budgets and supporting justification to document that the request meets the requirements outlined in paragraph (b) of this section. This will include a typical cash flow if the projected cash flow budget is atypical.

(3) Requests for interest assistance on lines of credit or loans made for annual operating purposes must be accompanied by a projected monthly cash flow budget.

(b) Requirements. (1) The typical term of scheduled loan repayment will not be reduced solely for the purpose of maximizing eligibility for interest assistance. To be eligible for interest assistance, a loan must be scheduled over the maximum terms typically used by lenders for similar type loans within the limits set by §762.124 of this part. At a minimum, loans will be scheduled for repayment over the terms listed below, but for OL not to exceed the life of the security:

(i) An OL for the purpose of providing annual operating and living expenses will be scheduled for repayment when the income is scheduled to be received from the sale of the crops, livestock, and livestock products which will serve as security for the loan.

(ii) OL for purposes other than annual operating and living expenses (i.e. equipment, livestock, refinancing of existing debt) will be scheduled over 7 years from the effective date of the proposed interest assistance agreement.

(iii) FO and SW secured by real estate will be scheduled for 20 years from the closing date of the original note covered by the guarantee.

(2) The lender must document that a feasible plan, as defined in §762.102(b), is not possible without reducing the interest rate on the borrower’s loan and with the debt restructured over the term of repayment.

(3) The lender must determine whether the borrower, including members of an entity, owns any significant assets that do not contribute directly to essential family living or farm operations. The lender must determine the market value of these assets and prepare a cash flow budget based on the assumption that the value of these assets will be used for debt reduction. If a feasible plan can then be achieved, the borrower is not eligible for interest assistance. All interest assistance calculations will be based on the cash flow budget which assumes that the assets will be sold.

(4) A borrower’s new guaranteed loan is eligible for interest assistance if all the following conditions are met:

(i) The applicant needs interest assistance in order to achieve a feasible plan.

(ii) If significant changes in the borrower’s cash flow budget are anticipated after the initial 12 months, then the typical cash flow budget must demonstrate that the borrower will still have a feasible plan, following the anticipated changes, with or without interest assistance.

(iii) If a feasible plan cannot be achieved, even with other creditors voluntarily adjusting their debts and with
the interest assistance, the interest assistance request will not be approved.

(5) An existing guaranteed loan is eligible for interest assistance if the borrower needs interest assistance to achieve a feasible plan as defined in §762.102(b), and the borrower meets the eligibility criteria of §762.120, except the provision regarding prior debt forgiveness. If a feasible plan cannot be achieved, even with other creditors voluntarily adjusting their debts and with the interest assistance, the interest assistance request will not be approved. If a borrower has multiple loans, interest assistance may be provided on one or each loan, as available, to the extent necessary to achieve a feasible plan.

(6) The term of the interest assistance agreement under this section shall not exceed 10 years from the date of the first interest assistance agreement signed by the loan applicant, including entity members, or the outstanding term of the loan, as limited by this section, whichever is less.

(7) The lender may charge a fixed or variable interest rate. The type of rate must be the same as the type of rate in the underlying note or line of credit agreement. The lender will reduce the interest rate charged the borrower's account by at least the amount of interest assistance.

(8) The borrower must be an operator of not larger than a family size farm.

(c) Interest assistance closing. (1) Initial guaranteed loans will be closed in accordance with §762.130.

(2) The lender will then prepare and deliver to the Agency a closing report for each initial and existing guaranteed loan which has been granted interest assistance.

(3) When all requirements have been met, the lender and the Agency will execute an interest assistance agreement.

(d) Interest assistance claims and payments. (1) The interest assistance claim will be prepared by the lender. The following conditions apply to the claims process:

(i) No claim period can exceed 12 months. The initial and final claim periods may be less than 12 months. In such claims, the 4 percent payment will be prorated over the number of months in the claim period. The period for all other claims must be 12 months.

(ii) To permit the borrower to prepare for the upcoming year, a claim should be filed within 60 days of each anniversary date. Claims not filed within 1 year of the anniversary date will not be paid and the amount due the lender is permanently forfeited.

(iii) If a claim is submitted without an interest assistance review in accordance with §762.102, when it is required, the claim will not be processed until the review is submitted by the lender.

(iv) Upon full payment of the note or line of credit, the lender will immediately prepare the request for interest assistance payment and submit it to the Agency.

(v) Interest assistance payments shall cease upon the assumption and transfer of the loan if the transferee was not liable for the debt on the effective date of the interest assistance agreement. The lender shall request payment through the date of the transfer or assumption. The claim must be submitted within 1 year or it will be denied and the payment permanently forfeited.

(vi) All claims will be supported by detailed calculations of average daily principal balances during the claim period.

(vii) The Agency will review the claim and the supporting documentation. If the information and the supporting documentation is not complete and correct, the reviewing official will notify the lender in writing of the actions needed to correct the request.

(viii) If there is a substitution of lender, a claim for the first lender's interest assistance, through the effective date of the substitution, will be submitted by the first lender and processed at the time of the substitution.

(ix) Interest assistance claims shall be submitted concurrently with the submission of estimated loss claims where interest accrual ceases, or final loss claims that are not preceded by an estimated loss claim.

(2) [Reserved]

(e) Request for continuation of interest assistance. (1) For all interest assistance agreements exceeding 12 months, the lender will perform an analysis of the applicant’s farming operation and
need for continued interest assistance. The following information will be submitted to the Agency:

(i) A summary of the operation’s actual financial performance in the previous year, including a detailed income and expense statement.

(ii) A narrative description of the causes of any major differences between the previous year’s projections and actual performance.

(iii) A current balance sheet.

(iv) A cash flow budget for the period being planned. A monthly cash flow budget is required for all lines of credit and operating loans made for annual operating purposes. All other loans may include either an annual or monthly cash flow budget.

(v) A copy of the interest assistance needs analysis portion of the application form which has been completed based on the planned period’s cash flow budget.

(2) The loan will be eligible for continuation of interest assistance if the cash flow budget projects a feasible plan with interest assistance applied. However, interest assistance can be applied only to as many loans as necessary to achieve a positive cash flow for the plan period. If the cash flow budget indicates that the borrower requires a level of interest assistance greater than 4 percent to project a feasible plan, then the Agency will deny the continuation of interest assistance. Interest assistance will be reduced to zero during that period.

(3) The documentation listed above will be provided to the Agency concurrently with the lender’s submission of its request for interest assistance payment. This information will be provided to the Agency within 60 days after the review date specified on the interest assistance agreement.

(4) A request for continuation of interest assistance will be completed for 12 month periods, effective on the anniversary date.

(5) The initial review may be submitted in conjunction with any claim within the initial 12 month period. The anniversary date and length of the review period will be stated on the interest assistance agreement. Any request for interest assistance adjustment submitted effective any time other than the review date will be denied, except for those cases where it is necessary to service the loan with rescheduling, re-amortization, deferral or writedown.

(6) If the review is not completed and submitted to the Agency within 1 year of the review date, no claim will be paid for that period.

(7) Notification of Adverse Action. The lender will be notified in writing of all Agency decisions in which a request for interest assistance, a request for continuation of interest assistance or lender’s claim for interest assistance are denied. The notification letter will provide specific reasons for the decision and appeals will be handled in accordance with parts 11 and 780 of this title.

(g) Servicing of loans covered by an interest assistance agreement.

(1) Loans covered by interest assistance agreements cannot be consolidated.

(2) The loan will be transferred with the interest assistance agreement only in cases where the transferee was liable for the debt at the time interest assistance was granted. Under no other circumstances will the interest assistance be transferred. If interest assistance is necessary for the transferee to achieve a feasible plan, the lender may request such assistance, which may be approved if interest assistance funds are available and the applicant is eligible. The maximum length of the agreement will be 10 years from the date of the first agreement covering a loan for which the transferee was liable. If interest assistance is necessary for a feasible plan and funds are available, the request for assumption of the Agency guaranteed debt will be denied.

(3) When consideration is given to using a debt writedown to service a delinquent account, the subsidy level will be recalculated prior to any writedown. If a feasible plan can be obtained using interest assistance and funds are available, then the interest assistance will be authorized and no writedown will be approved. If a feasible plan cannot be achieved using 4 percent interest assistance, all further calculations for determining debt writedown eligibility and amounts to be written down will be
based on the borrower receiving no interest assistance. If debt writedown is approved, the interest assistance claim for the previous review period will be processed in conjunction with the writedown loss claim. The interest assistance agreement will not be canceled and the anniversary date can remain the same or be re-established under the same guidelines that it was originally established. If the lender determines through its annual analysis that interest assistance is necessary for a feasible plan, a request to reinstate the subsidy in a subsequent review period may be submitted in accordance with paragraph (e) of this section.

(4) In the event of rescheduling or deferral of loans with interest assistance, interest assistance will remain available for that loan under the terms of the existing interest assistance agreement. Additional years of interest assistance and/or increases in the restructured loan amount will require additional funding. If the additional interest assistance is needed in order to produce a feasible plan throughout the life of the rescheduled loan and funds are not available for the additional interest assistance, then the rescheduling will not be approved by the Agency. In no case will the subsidy be extended more than 10 years from the effective date of the first interest assistance agreement signed by the loan applicant or by anyone who signed the note or line of credit agreement.

(5) In cases where the interest on a loan covered by an interest assistance agreement is reduced by court order in a reorganization plan under the bankruptcy code, interest assistance agreement will be terminated effective on the date of the court ordered interest reduction. The lender will file a claim due through the effective date of the court ordered interest reduction. Guaranteed loans which have had their interest reduced by bankruptcy court order are not eligible to receive interest assistance.

(6) For Loan Guarantees held by holders, Agency purchase of the guaranteed portion of a loan will stop interest assistance payments on that portion. Interest assistance payments will cease upon termination of the Loan Guarantee, upon reaching the expiration date contained in the agreement or upon cancellation by the Agency.

(7) When a borrower defaults on a loan, interest assistance may be considered in conjunction with a rescheduling action in accordance with §762.145(b). After the meeting required by §762.149(b)(3) and consideration of actions to correct the delinquency, the lender will notify the Agency of the results of the meeting. If the restructuring proposal includes interest assistance, the lender will provide the items required by paragraph (d) of this section in addition to those items required by §762.145. Liquidation must not be initiated, except in accordance with §762.143(b)(3)(v).

(h) Cancellation of interest assistance agreement. The interest assistance agreement is incontestable except for fraud or misrepresentation, of which the lender and borrower have actual knowledge at the time that the interest assistance agreement is executed, or which the lender or borrower participates in or condones.

(i) Adjustment of assistance level between review dates. After the initial or renewal request for interest assistance is processed, no adjustments can be made until the next review or adjustment date except when necessary to service the loan with a rescheduling or deferral.

(j) Excessive interest assistance. Upon written notice to the lender, borrower and any holder, the Agency may amend or cancel the interest assistance agreement and collect from the lender any amount of interest Assistance granted which resulted from incomplete or inaccurate information, an error in computation, or any other reason which resulted in payment that the lender was not entitled to receive.

(k) The Deputy Administrator for Farm Loan Programs has the authority to grant an exception to any requirement involving interest Assistance if it is in the best interest of the Government.
§ 762.160 Sale, assignment and participation.

(a) The following general requirements apply to selling, assigning or participating guaranteed loans.

(1) Subject to Agency concurrence, the lender may sell, assign or participate all or part of the guaranteed portion of the loan to one or more holders at or after loan closing, only if the loan is not in default. However, a line of credit can be participated, but not sold or assigned.

(2) The Agency may refuse to execute the Assignment of Guarantee and prohibit the sale in case of the following:

(i) The Agency purchased and is holder of a loan that was sold by the lender that is requesting the assignment.

(ii) The lender has not complied with the reimbursement requirements of § 762.144(c)(7), except when the 180 day reimbursement or liquidation requirement has been waived by the Agency.

(3) The lender will provide the Agency with copies of all appropriate forms used in the sale or assignment.

(4) The guaranteed portion of the loan may not be sold or assigned by the lender until the loan has been fully disbursed to the borrower, except a line of credit may be participated prior to being fully advanced.

(5) The lender is not permitted to sell, assign or participate any amount of the guaranteed or unguaranteed portion of loan to the loan applicant or borrower, or members of their immediate families, their officers, directors, stockholders, other owners, or any parent, subsidiary, or affiliate.

(6) Upon the lender’s sale or assignment of the guaranteed portion of the loan, or participation of the line of credit, the lender will remain bound to all obligations indicated in the Guarantee, lender’s agreement, the Agency program regulations, and to future program regulations not inconsistent with the provisions of the Lenders agreement. The lender retains all rights under the security instruments for the protection of the lender and the United States.

(b) The following will occur upon the lender’s sale or assignment of the guaranteed portion of the loan:

(1) The holder will succeed to all rights of the Guarantee pertaining to the portion of the loan purchased.

(2) The lender will send the holder the borrower’s executed note attached to the Guarantee.

(3) The holder, upon written notice to the lender and the Agency, may assign the unpaid guaranteed portion of the loan. The holder must sell the guaranteed portion back to the original lender if requested for servicing or liquidation of the account.

(4) The guarantee or assignment of guarantee in the holder’s possession does not cover:

(i) Interest accruing 90 days after the holder has demanded repurchase by the lender, except as provided in the assignment of guarantee and § 762.144(c)(3)(iii).

(ii) Interest accruing 90 days after the lender or the Agency has requested the holder to surrender evidence of debt repurchase, if the holder has not previously demanded repurchase.

(c) In a participation, the lender sells an interest in a loan but retains the note, the collateral securing the note, and all responsibility for loan servicing and liquidation. The guarantee does not encompass the participant.

(1) The lender must retain at least 10 percent of the total guaranteed loan amount from the unguaranteed portion of the loan in its portfolio, except when the loan guarantee exceeds 90 percent, the lender must retain the total unguaranteed portion.

(2) Participation with a lender by any entity does not make that entity a holder or a lender as defined in this part.

(d) Negotiations concerning premiums, fees, and additional payments for loans are to take place between the holder and the lender. The Agency will participate in such negotiations only as a provider of information.

(i) The borrower submits a completed Agency application form; and
(ii) The account is delinquent due to circumstances beyond the borrower’s control and cannot be brought current within 1 year; or
(iii) The account is current, but due to circumstances beyond the borrower’s control, the borrower will be unable to meet the annual loan payments.

(2) Terms. The term of a loan may not be extended beyond 40 years from the date of the original note.

(i) Reamortization within the remaining term of the loan will be predicated on a projection of the tribe’s operating expenses indicating the ability to meet the new payment schedule; and
(ii) No intervening lien exists on the security for the loan which would jeopardize the Government’s security priority.

(3) Consolidation of notes. If one or more notes are to be reamortized, consolidation of the notes is authorized.

(b) Interest rate reduction. The Agency may consider a reduction of the interest rate for an existing loan to the current interest rate as available from any Agency office provided:

(1) The borrower submits a completed Agency application form;
(2) The loan was made more than 5 years prior to the application for the interest reduction; and
(3) The Department of the Interior and the borrower certify that the borrower meets at least one of the criteria contained in paragraph (e)(2) of this section.

(3) The borrower will be able to meet all financial commitments, including the Agency payments, after the deferral period has ended.

(d) Land exchanges. In the cases where a borrower proposes to exchange any portion of land securing a loan for other land, title clearance and a new mortgage on the land received by the borrower in exchange, which adequately secures the unpaid principal balance of the loan, will be required unless the Agency determines any remaining land or other loan security is adequate security for the loan.

(e) Debt write-down.

(1) Application. The Agency will consider debt write-down under either the land value option or rental value option, as requested by the borrower.

(i) The borrower must submit a completed Agency application form;

(ii) If the borrower applies and is determined eligible for a land value and a rental value write-down, the borrower will receive a write-down based on the write-down option that provides the greatest debt reduction.

(2) Eligibility. To be eligible for debt write-down, the borrower (in the case of a tribal corporation, the Native American tribe of the borrower) must:

(i) Be located in a county which is identified as a persistent poverty county by the United States Department of Agriculture, Economic Research Service pursuant to the most recent data from the Bureau of the Census; and

(ii) Have a socio-economic condition over the immediately preceding 5 year
period that meets the following two factors as certified by the Native American tribe and the Department of the Interior:

(A) The Native American tribe has a per capita income for individual enrolled tribal members which is less than 50 percent of the Federally established poverty income rate established by the Department of Health and Human Services;

(B) The tribal unemployment rate exceeds 50 percent;

(3) Land value write-down. The Agency may reduce the unpaid principal and interest balance on any loan made to the current market value of the land that was purchased with loan funds provided:

(i) The market value of such land has declined by at least 25 percent since the land was purchased as established by a current appraisal;

(ii) Land value decrease is not attributed to the depletion of resources contained on or under the land;

(iii) The loan was made more than 5 years prior to the application for land value writedown; and

(iv) The loan has not previously been written down under paragraph (e)(4) of this section and has not been written down within the last 5 years under this paragraph.

(4) Rental value write-down. The Agency may reduce the unpaid principal and interest on any loan, so the annual loan payment for the remaining term of each loan equals the average of annual rental value of the land purchased by each such loan for the immediately preceding 5-year period provided:

(i) The loan was made more than 5 years prior to the rental value writedown;

(ii) The description of the land purchased with the loan funds and the rental values used to calculate the 5 year average annual rental value of the land have been certified by the Department of the Interior;

(iii) The borrower provides a current appraisal of the land; and

(iv) The loan has not been previously written down under this paragraph and has not been written down within the last 5 years under paragraph (e)(3) of this section.

(f) Release of reserve. Existing reserve accounts may be released for the purpose of making ITLAP loan payments or to purchase additional lands, subject to the following:

(1) A written request is received providing details of the use of the funds;

(2) The loan is not delinquent;

(3) The loan adequately secured by a general assignment of tribal income.

PART 773—SPECIAL APPLE LOAN PROGRAM

§ 773.1 Introduction.

This part contains the terms and conditions for loans made under the Special Apple Loan Program. These regulations are applicable to applicants, borrowers, and other parties involved in making, servicing, and liquidating these loans. The program objective is to assist producers of apples suffering from economic loss as a result of low apple prices.

§ 773.2 Definitions.

As used in this part, the following definitions apply:

Agency is the Farm Service Agency, its employees, and any successor agency.

Apple producer is a farmer in the United States or its territories that
produced apples, on not less than 10 acres, for sale in 1999 or 2000.

Applicant is the individual or business entity applying for the loan.

Business entity is a corporation, partnership, joint operation, trust, limited liability company, or cooperative.

Cash flow budget is a projection listing all anticipated cash inflows (including all farm income, nonfarm income and all loan advances) and all cash outflows (including all farm and nonfarm debt service and other expenses) to be incurred by the borrower during the period of the budget. A cash flow budget may be completed either for a 12 month period, a typical production cycle or the life of the loan, as appropriate.

Domestically owned enterprise is an entity organized in the United States under the law of the state or states in which the entity operates and a majority of the entity is owned by members meeting the citizenship test.

False information is information provided by an applicant, borrower, or other source to the Agency which information is known by the provider to be incorrect, and was given to the Agency in order to obtain benefits for which the applicant or borrower would not otherwise have been eligible.

Feasible plan is a plan that demonstrates that the loan will be repaid as agreed, as determined by the Agency.

Security is real or personal property pledged as collateral to assure repayment of a loan in the event there is a default on the loan.

USPAP is Uniform Standards of Professional Appraisal Practice.

§ 773.3 Appeals.

A loan applicant or borrower may request an appeal or review of an adverse decision made by the Agency in accordance with 7 CFR part 11.

§§ 773.4–773.5 [Reserved]

§ 773.6 Eligibility requirements.

Loan applicants must meet all of the following requirements to be eligible for a Special Apple Program Loan:

(a) The loan applicant must be an apple producer;

(b) The loan applicant must be a citizen of the United States or an alien lawfully admitted to the United States for permanent residence under the Immigration and Nationalization Act. For a business entity applicant, the majority of the business entity must be owned by members meeting the citizenship test or, other entities that are domestically owned. Aliens must provide the appropriate Immigration and Naturalization Service forms to document their permanent residency;

(c) The loan applicant and anyone who will execute the promissory note must possess the legal capacity to enter into contracts, including debt instruments;

(d) At loan closing the loan applicant and anyone who will execute the promissory note must not be delinquent on any Federal debt, other than a debt under the Internal Revenue Code of 1986;

(e) At loan closing the loan applicant and anyone who will execute the promissory note must not have any outstanding unpaid judgments obtained by the United States in any court. Such judgments do not include those filed as a result of action in the United States Tax Courts;

(f) The loan applicant, in past or present dealings with the Agency, must not have provided the Agency with false information; and

(g) The individual or business entity loan applicant and all entity members must have acceptable credit history demonstrated by debt repayment. A history of failure to repay past debts as they came due (including debts to the Internal Revenue Service) when the ability to repay was within their control will demonstrate unacceptable credit history. Unacceptable credit history will not include isolated instances of late payments which do not represent a pattern and were clearly beyond the applicant’s control or lack of credit history.

§ 773.7 Loan uses.

Loan funds may be used for any of the following purposes related to the production or marketing of apples:

(a) Payment of costs associated with reorganizing a farm to improve its profitability;
Farm Service Agency, USDA

§ 773.10

(b) The maximum loan is further limited to $300 per acre of apple trees in production in 1999 or 2000, whichever is greater.
(c) Loan funds may not be used to pay expenses incurred for lobbying or related activities.
(d) Loans may not be made for any purpose which contributes to excessive erosion of highly erodible land or to the conversion of wetlands to produce an agricultural commodity.

§ 773.9 Environmental compliance.

(a) Except as otherwise specified in this section, prior to approval of any loan, an environmental evaluation will be completed by the Agency to determine if the proposed action will have any adverse impacts on the human environment and cultural resources. Loan applicants will provide all information necessary for the Agency to make its evaluation.
(b) The following loan actions were reviewed for the purpose of compliance with the National Environmental Policy Act (NEPA), 40 CFR parts 1500 through 1508, and determined not to have a significant impact on the quality of the human environment, either individually or cumulatively. Therefore the following loan actions are categorically excluded from the requirements of an environmental evaluation:
(1) Payment of legal costs associated with reorganizing a farm to improve its profitability as long as there will be no changes in the land’s use or character;
(2) Purchase of farm equipment which will not be affixed to a permanent mount or position;
(3) Acquiring or leasing a farm;
(4) Refinancing an indebtedness not greater than $30,000;
(5) Purchase of stock in a credit association or in a cooperative which deals with the production, processing or marketing of apples; and

It was determined that these loan actions are non-undertakings with no potential to affect or alter historic properties and therefore, will not require consultation with the State Historic Preservation Officer, Tribal Historic Preservation Officer, or other interested parties.
(d) If adverse environmental impacts, either direct or indirect, are identified, the Agency will complete an environmental assessment in accordance with the Council on Environmental Quality’s Regulations for Implementing the Procedural Provisions of NEPA to the extent required by law.
(e) In order to minimize the financial risk associated with contamination of real property from hazardous waste and other environmental concerns, the Agency will complete an environmental risk evaluation of the environmental risks to the real estate collateral posed by the presence of hazardous substances and other environmental concerns.
(1) The Agency will not accept real estate as collateral which has significant environmental risks.
(2) If the real estate offered as collateral contains significant environmental risks, the Agency will provide the applicant with the option of properly correcting or removing the risk, or offering other non-contaminated property as collateral.

§ 773.10 Other Federal, State, and local requirements.

Borrowers are required to comply with all applicable:
(a) Federal, State, or local laws;

(b) Except as required in §773.19(e), the Agency will waive requirements for a complete application, listed in paragraphs (a)(5) and (a)(6) of this section, for requests of $30,000 or less.

§ 773.19 Interest rate, terms, security requirements, and repayment.

(a) Interest rate. The interest rate will be fixed for the term of the loan. The rate will be established by the Agency and available in each Agency Office, based upon the cost of Government borrowing for loans of similar maturities.

(b) Terms. The loan term will be for up to 3 years, based upon the useful life of the security offered.

(c) Security requirements. The Agency will take a lien on the following security, if available, as necessary to adequately secure the loan:

1. Real estate;

3. Crops;
4. Other assets owned by the applicant; and
5. Assets owned and pledged by a third party.

(d) Documentation of security value.

1. For loans that are for $30,000 or less, collateral value will be based on the best available, verifiable information.

§ 774.1 

(f) Creditworthiness. All loan applicants must have an acceptable credit history demonstrated by debt repayment. A history of failure to repay past debts as they came due (including debts to the Internal Revenue Service) when the ability to repay was within their control will demonstrate unacceptable credit history. Unacceptable credit history will not include isolated instances of late payments which do not represent a pattern and were clearly beyond the applicant’s control or lack of credit history.

§ 773.20 Funding applications.

Loan requests will be funded based on the date the Agency approves the application. Loan approval is subject to the availability of funds.

§ 773.21 Loan decision, closing, and fees.

(a) Loan decision. (1) The Agency will approve a loan if it determines that:

In the case of an entity applicant, all officers or partners and any board members also will be required to execute the promissory notes as individuals.

(c) Fees. The applicant will pay all loan closing fees including credit report fees, fees for appraisals, fees for recording any legal instruments determined to be necessary, and all notary, lien search, and similar fees incident to loan transactions. No fees will be assessed for work performed by Agency employees.

The purpose of the program is to make disaster payments to eligible producers of sugarcane, sugar beets, peanuts and soybeans who have suffered a loss of production of their 1990 crop as the result of a natural disaster in 1989.

Agricultural Statistical Service (NASS). Any reference in this part to NASS shall not restrict FSA from using data from other sources.

(e) No delegation herein to a State or county ASC committee shall preclude the Administrator, FSA, or a designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county ASC committee.

§ 777.3 Definitions.

In determining the meanings of the provisions of this part, unless the context indicates otherwise, words imparting the singular include and apply to several persons or things, words imparting the plural include the singular, words imparting the masculine gender include the feminine as well, and words used in the present tense include the past and future as well as the present. The following terms shall have the following meanings and all other words and phrases shall have the meanings assigned to them in the regulations governing the reconstitution of farms in part 719 of this chapter.

Actual production means the quantity of soybeans and peanuts actually harvested and in the case of sugar beets and sugarcane the quantity of sugar produced from such crop, or which could have been harvested or produced as determined by the county ASC committee in accordance with instructions issued by the Deputy Administrator, State and County Operations (Deputy Administrator), (FSA). Such quantity includes all harvest acreages including sugarcane harvested for seed.

Disaster payment yield means as applicable, the average of actual yields for the years 1987 through 1989 in accordance with instructions issued by the Deputy Administrator or the county average yield for the crop, established by FSA. Such county average yield shall be the average of the county average yields, including seed cane production, for the years 1985 through 1989 as determined by NASS, excluding the year in which the yield was the highest and the year in which the yield was the lowest.

Eligible crop means the 1990 crop of sugarcane, sugar beets, soybeans and peanuts.

Eligible disaster means a December 1989 frost or freeze.

Eligible producer means, with respect to an eligible crop for which an application for disaster payment has been made under this part, a person who as owner, landlord, tenant, or sharecropper is entitled to share in such crops, or the proceeds therefrom, available for marketing from the farm or would have been if such crop had been produced. Such person includes the producer who was on the farm at the time of the 1989 freeze and who may or may not have been the producer who harvested the 1990 crop.

Expected production means the disaster yield times the sum of the 1990 planted acreage of the crop and the 1990 prevented planted acreage of the crop.

§ 777.4 Availability of disaster payments.

Disaster payments will be made available to eligible producers of 1990 crop of an eligible crop who suffered losses because of the occurrence of an eligible disaster in 1989.

§ 777.5 Disaster benefits.

(a) Disaster payments for low yield losses on 1990 crop of sugarcane are authorized to be made to producers who file a CCC–441SU, Application for 1990 Disaster Benefits, if:

(1) The farm operator submits an Application for Disaster Credit (Form FSA–574), in accordance with instructions issued by the Deputy Administrator, State and County Operations (Deputy Administrator), (FSA). Such quantity includes all harvest acreages including sugarcane harvested for seed.

(2) The farm operator submits a record of Production and Yield (Form FSA–658) in accordance with § 1477.7; and

(3) The county ASC committee determines that because of an eligible disaster condition, producers on a farm were able to harvest less than 60 percent of the expected production of an eligible crop in 1990.

(b) Each eligible producer's share of a disaster payment shall be based on the eligible producer's share of the crop or the proceeds therefrom or, if no crop was produced, the share which the eligible producer would have otherwise received if the crop had been produced.
§ 777.6 Filing application for payment.

(a) Applications for payment shall be filed by the applicant with the county FSA office serving the county where the producer’s farm is located for administrative purposes.

(b) An application for payment shall be filed as soon as practicable after the producer’s eligibility has been established in accordance with §777.5(a). Applications for payment must be filed no later than June 28, 1991.

   (ii) Contains misleading or false information.

(b) Any foreign person who violates the reporting obligation as described in paragraph (a) of this section shall be subject to the following penalties:

1. Late-filed reports: One-tenth of one percent of the fair market value, as determined by the Farm Service Agency, of the foreign person's interest in the agricultural land with respect to which such violation occurred.

   (i) Total time the violation existed.
   (ii) Method of discovery of the violation.
   (iii) Extenuating circumstances concerning the violation.
   (iv) Nature of the information misstated or not reported.

(c) The fair market value for the land, with respect to which such violation occurred, shall be such value on the date the penalty is assessed, or if the land is no longer agricultural, on the date it was last used as agricultural land. The price or current estimated value reported by the foreign person, as verified and/or adjusted by the County Agricultural Stabilization and Conservation Committee for the County where the land is located, will be considered to be the fair market value.

§ 781.5 Penalty review procedure.

(a) Whenever it appears that a foreign person has violated the reporting obligation as described in paragraph (a) of §781.4, a written notice of apparent liability will be sent to the foreign person's last known address by the Farm Service Agency. This notice will set forth the facts which indicate apparent liability, identify the type of violation listed in paragraph (a) of §781.4 which is involved, state the amount of the penalty to be imposed, include a statement of fair market value of the foreign person's interest in the subject land, and summarize the courses of action available to the foreign person.

(b) The foreign person involved shall respond to a notice of apparent liability within 60 days after the notice is mailed. If a foreign person fails to respond to the notice of apparent liability, the proposed penalty shall become final. Any of the following actions by the foreign person shall constitute a response meeting the requirements of this paragraph.

1. Payment of the proposed penalty in the amount specified in the notice of
§ 781.6 apparent liability and filing of a report, if required, in compliance with §781.3. The amount shall be paid by check or money order drawn to the Treasurer of the United States and shall be mailed to the U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C. The Department is not responsible for the loss of currency sent through the mails.

(2) Submission of a written statement denying liability for the penalty in whole or in part. Allegations made in any such statement must be supported by detailed factual data. The statement should be mailed to the Administrator, Farm Service Agency, U.S. Department of Agriculture, P.O. Box 2415, Washington, DC 20013.

(3) A request for a hearing on the proposed penalty may be filed in accordance with part 780 of this title.

(c) After a final decision is issued pursuant to an appeal under part 780 of this title, the Administrator or Administrator's designee shall mail the foreign person a notice of the determination on appeal, stating whether a report must be filed or amended in compliance with §781.3, the amount of the penalty (if any), and the date by which it must be paid. The foreign person shall file or amend the report as required by the Administrator. The penalty in the amount stated shall be paid by check or money order drawn to the Treasurer of the United States and shall be mailed to the United States Department of Agriculture, P.O. Box 2415, Washington, DC 20013. The Department is not responsible for the loss of currency sent through the mails.

(d) If the foreign person contests the notice of apparent liability by submitting a written statement or a request for a hearing thereon, the foreign person may elect either to pay the penalty or decline to pay the penalty pending resolution of the matter by the Administrator. If the Administrator determines that the foreign person is not liable for the penalty or is liable for less than the amount paid, the payment will be wholly or proportionally refunded. If the Administrator ultimately determines that the foreign person is liable, the penalty finally imposed shall not exceed the amount imposed in the notice of apparent liability.

(e) If a foreign person fails to respond to the notice of apparent liability as required by paragraph (b) of this section, or fails to pay the penalty imposed by the Administrator under paragraph (d) of this section, the case will, without further notice, be referred by the Department to the Department of Justice for prosecution in the appropriate District Court to recover the amount of the penalty.

(f) Any amounts approved by the U.S. Department of Agriculture for disbursement to a foreign person under the programs administered by the Department may be setoff against penalties assessed hereunder against such person, in accordance with the provisions of 7 CFR part 13.

§ 782.3 Administration.
The end-use certificate program will be administered under the general supervision and direction of the Administrator, Farm Service Agency (FSA), U.S. Department of Agriculture (USDA), through the Office of the Deputy Administrator for Commodity Operations (DAO), FSA, Washington, D.C., and the Kansas City Commodity Office (KCCO), FSA, Kansas City, MO, in coordination with the Commissioner of Customs pursuant to a Memorandum of Understanding.

§ 782.4 OMB control numbers assigned pursuant to the Paperwork Reduction Act.

Subpart B—Implementation of the End-Use Certificate Program

§ 782.10 Identification of commodities subject to end-use certificate regulations.

(a) The regulations in this part are applicable to wheat and barley, respectively, imported into the U.S. from any foreign country, as defined in 19 CFR 134.1, or instrumentality of such foreign country that, as of April 8, 1994, required end-use certificates for imports of U.S.-produced wheat or barley.

(b) Because Canada is the only country with such requirements on wheat, and no country has an end-use certificate requirement for barley, only wheat originating in Canada is affected by the regulations in this part.

§ 782.11 Extent to which commodities are subject to end-use certificate regulations.

(a) In the event that Canada eliminates the requirement for end-use certificates on imports from the U.S., the provisions of the regulations in this part shall be suspended 30 calendar days following the date Canada eliminates its end-use certificate requirement, as determined by the Secretary.

(b) The provisions of the regulations in this part may be suspended if the Secretary, after consulting with domestic producers, determines that the program has directly resulted in the:

(1) Reduction of income to U.S. producers of agricultural commodities, or
(2) Reduction of the competitiveness of U.S. agricultural commodities in world export markets.

§ 782.12 Filing FSA–750, End-Use Certificate for Wheat.

Such payment reductions shall be applied after the imposition of applicable payment limitation provisions.

(f) Federal, State, and local governments and agencies and political subdivisions thereof are not eligible for benefits under this part.

(a) Applications for payment shall be filed by the eligible owner with the local county office and shall contain an estimate by the applicant of the number of eligible trees or eligible vines
which constitute the qualifying loss and the amount of the acreage of the individual stands with respect to which the loss was suffered. The applicant must provide sufficient evidence of the losses so as to allow the county committee to determine qualifying losses.

(b)(1) The county committee or a designee may conduct field reviews to determine the actual qualifying loss and the acreage of individual stands with respect to which the loss was suffered. The county committee and, if designated by the county committee, the county executive director, are authorized, subject to the provisions of this part, to approve or disapprove all applications, subject to the limitations and conditions of this part, provided the applicant is not a county committee member or an FSA employee.

(2) The State committee shall approve or disapprove applications of the county committee members and all FSA employees except applications submitted by the State Executive Director, or by a State committee member.

(4) All applications forwarded to a higher reviewing authority for consideration shall be accompanied by committee recommendations. No application shall be approved unless the owner meets all eligibility requirements. Information furnished by the applicant and any other information, including knowledge of the county and State committee members concerning the owner’s normal operations, shall be taken into consideration in making recommendations and approvals. If information furnished by the owner is incomplete or ambiguous and sufficient information is not otherwise available with respect to the owner’s farming operations in order to make a determination as to the owner’s eligibility, the owner’s application shall not be approved until sufficient additional information is provided by the owner.

(c) If an owner is eligible to receive payments under this part and the catastrophic risk protection crop insurance program (7 CFR part 1437) for the same tree or vine loss, the eligible owner must choose whether to receive the other program benefits or payments under this part. The eligible owner cannot receive both. However, if the other program benefits are not available until after the eligible owner has received benefits under this part, the eligible owner may obtain the other program benefits if the eligible owner refunds the total amount of the payment received prior to receiving the other program benefits. If the eligible owner purchased additional coverage insurance, as defined in 7 CFR 400.651, or is eligible for emergency loans, the eligible owner will be eligible for assistance under such program, and this part as long as the amount received for the loss under the additional coverage or the emergency loan together with the amount received from the other programs does not exceed the amount of the actual loss of the eligible owner.

§ 783.9 Obligations of an eligible owner.

(a) Eligible owners must submit a request for assistance on the approved form and must also submit all documentation requested by the appropriate official as necessary to make determinations specified in this part.

(2) Execute all required documents;

(3) Comply with all applicable noxious weed laws; and

(4) Complete the TAP practice within 24 months of the date the application is approved.

Such interest shall be charged at the rate determined for late payment charges.
under part 1403 of this title and computed from the date of disbursement of the payment to the date of the refund.

d) Eligible owners must allow representatives of FSA to visit the site for the purposes of examining and certifying mortality and practice completion.

§ 783.10 Partial performance.

(a) Participants may elect not to replant the maximum amount of eligible trees or eligible vines because of imposition of the payment limitation in §783.5(c) or any other reason. If owners partially complete their practices after they apply, but do not replant or rehabilitate all of their qualifying trees or vines, the county committee shall calculate payment based on the extent performed.

(b) Eligible owners who have been paid but choose not to complete the practice by the final practice expiration date shall refund their payments with interest. Interest on these refunds shall be calculated beginning on the date the payment was disbursed. Such refund amounts may be reduced, at the discretion of the Deputy Administrator, when only part of the required replanting practice is not implemented.

§ 783.11 Liens and claims of creditors; set-offs.

Any payment or portion thereof due any person under this part shall be allowed without regard to questions of title under State law, and without regard to any claim or lien in favor of any person except agencies of the U.S. Government. The regulations governing set-offs and withholdings found at part 792 of this chapter shall be applicable to this part.

§ 783.12 Appeals.

Any person who is dissatisfied with a determination made with respect to this part may make a request for reconsideration or appeal of such determination in accordance with the appeal regulations set forth at part 11 of this title and part 780 of this chapter.

§ 783.13 Misrepresentation and scheme or device.

(a) A person shall be ineligible to receive assistance under this program if such person is determined by the State committee or the county committee to have:

(1) Adopted any scheme or device which tends to defeat the purpose of this program;

(2) Made any fraudulent representation; or

(3) Misrepresented any fact affecting a program determination.

(b) All moneys paid by CCC under this part to any such person or to any other person as a result of such person’s actions shall be refunded to CCC with interest together with such other sums as may become due. The party engaged in acts prohibited by this section and the party receiving payment shall be jointly and severally liable for any refund due under this section and for related charges. The remedies provided to CCC in this part shall be in addition to other civil, criminal, or administrative remedies which may apply.

§ 783.14 Estates, trusts, and minors.

(a) Program documents executed by persons legally authorized to represent estates or trusts will be accepted only if such person furnishes evidence of the authority to execute such documents.

(b) A minor who is an otherwise eligible owner shall be eligible for assistance under this subpart only if such person meets one of the following requirements:

(1) The minor establishes that the right of majority has been conferred on the minor by court proceedings or by statute;

(2) A guardian has been appointed to manage the minor’s property and the applicable program documents are executed by the guardian; or

(3) A bond is furnished under which the surety guarantees any loss incurred for which the minor would be liable had the minor been an adult.

In addition, applicants may download a copy of the Form FSA–382 at http://www.usda.gov/dafp/psd/.

(b) A request for “Year 1” benefits under this part must be submitted on a completed Form FSA–382. The Form FSA–382 should be submitted to the FSA county office serving the county where the sheep and lamb operation is located but, in any case, must be received by the FSA county office by the close of business on October 13, 2000. Applications not received by the close of business on October 13, 2000, will be returned as not having been timely filed and the sheep and lamb operation filing the application will not be eligible for benefits under this program.

(c) The sheep and lamb operation requesting “Year 1” benefits under this part must certify to the accuracy of the information provided in their application for benefits. All information provided is subject to verification and spot checks by FSA. Refusal to allow FSA or any other agency of the Department of Agriculture to verify any information provided will result in a determination of ineligibility. Providing a false certification may be subject to additional civil and criminal sanctions.

(d) Not withstanding any other provisions of this section, payments will not be made under this section for the acquisition of rams to the extent that any such purchase, at any time during “Year 1”, created, or help create, a ratio of rams to ewes for the operation that was less than 1 ram to 15 ewes. However, the limitation on payments provided for in the preceding sentence shall not apply to the extent that the operation establishes to the satisfaction of the COC that a lower ratio of rams to ewes is customary for the operation.

§ 784.5 Year 1 eligibility.

(a) To be eligible to receive the “Year 1” payments under this part, as described in §784.1, at the rates provided in §784.6, a sheep and lamb operation must be engaged in the business of producing and marketing agricultural products at the time of filing the application, must have in 1999 gross annual revenue of $2.5 million or less, and must have done at least one of the following during “Year 1”:

(1) Purchased rams for breeding purposes within that operation, provided that such rams must have been at least 90 days of age when purchased and must have been, or will be, maintained by the operation for at least 90 days continuously after the date of purchase;

(2) Enrolled sheep in an eligible sheep improvement program; or

(3) Made sheep and lamb operation facility improvements with respect to their operation.

(b) With respect to paragraph (a)(3) of this section, in order to receive payments, the sheep and lamb operation must submit supporting documentation of the cost of the improvements made to the facility during program “Year 1” and must use facility improvements for sheep and lamb production activities continuously for at least the next 3 consecutive years. Upon a failure to maintain the facility for the full three years, the operation must refund the “Year 1” facility payment immediately and with interest.

(c) With respect to payments made for activities addressed in paragraph (a)(1) of this section, upon any failure to maintain a ram after payment for the full required 90-day period, unless that period has already expired, the operation must immediately refund the payment made and with interest.

§ 784.6 Year 1 rate of payment and limitations on funding.

Subject to the availability of funds and to the proration rules of §784.10,
“Year 1” payments for qualifying operations shall be at the following rates:

(c) 20% of the cost of the qualifying facility improvements up to $2,500 per sheep and lamb operation.

§ 784.7 Year 2 and Year 3 time and method for application.

(a) To receive “Year 2” and “Year 3” benefits, as described in §784.1, at rates set out in §784.9, sheep and lamb operations may obtain an application, Form FSA–383 (Livestock and Sheep Meat Adjustment Assistance Program Payment Application), in person, by mail, by telephone, or by facsimile from any county FSA office. In addition, applicants may download a copy of the Form FSA–383 at http://www.fsa.usda.gov/dafp/psd/.

(c) A request for “Year 2” and “Year 3” benefits under this part must be submitted on a completed Form FSA–383. The Form FSA–383 should be submitted to the FSA county office serving the county where the sheep and lamb operation is located but, in any case, must be received by the FSA county office by the close of business on August 15, 2001, if applying for “Year 2” benefits, and by the close of business on August 15, 2002, if applying for “Year 3” benefits. Applications not received by the respective deadlines will be returned as not having been timely filed and the sheep and lamb operation will not be eligible for the benefits which were the subject of the failed application.

(d) The sheep and lamb operation requesting benefits under this part must certify to the accuracy of the information provided in their application for benefits. All information provided is subject to verification and spot checks by FSA. Refusal to allow FSA or any other agency of the Department of Agriculture to verify any information provided will result in a determination of ineligibility. Data furnished by the applicant will be used to determine eligibility for program benefits. Furnishing the data is voluntary; however, without it program benefits will not be approved. Providing a false certification to the Government is punishable by imprisonment, fines and other penalties.

§ 784.8 Year 2 and Year 3 eligibility.

(a) Subject to the availability of funds, “Year 2” and “Year 3” payments will, as described in §784.1, be made for eligible marketings of slaughter lambs for slaughter. Such payments for slaughter lambs, as opposed to feeder lambs, can be received by an operation, at the rates described in §784.9, for those eligible lambs slaughtered in the respective time periods comprising “Year 2” and “Year 3” if the lambs were owned, by the operation, in the normal course of raising lambs for slaughter, continuously for 30 days prior to the marketing for slaughter and if the carcasses produced by the slaughter of the lamb meets the criteria set out in paragraph (b) of this section. Other criteria, as set out in this part, may also apply as a condition for, or limitation on, payment.

(b) In order for a marketing of a slaughter lamb to qualify for payment under paragraph (a) of this section, the carcass produced by the slaughter must be evaluated and certified by an AMS agent or their assigned representative that such carcass meets the following criteria:

2. Meet the requirements of USDA Yield Grade 2;
3. Have a muscling confirmation score of “Average Choice” or better; and
4. Have a 55–75 pound dressed hot carcass weight;

(c) Subject to the availability of funds, in order to be eligible for the “Year 2” and “Year 3” feeder lamb payments referred to in §784.1, at the rates specified in §784.9, sheep operations must have in the preceding year of which payment is sought had a gross

(d) To be eligible for any payments under this section, the sheep and lamb operation must be engaged in the business of producing and marketing agricultural products at the time of filing the application.

(e) In addition, to be eligible for “Year 2” and “Year 3” payments, a sheep and lamb operation must submit a timely application during the application period for “Year 2” and “Year 3” benefits and comply with all other terms and conditions of this part or are contained in the application to be eligible for such benefits.

§ 784.9 Year 2 and Year 3 rate of payment.

Subject to the availability of funds, and the proration rules set out in §784.10, “Year 2” and “Year 3” payments may be made to sheep and lamb operations at the following rates:

(a) $3 for each qualifying feeder lamb; plus

(b) $5 for each eligible qualifying slaughter lamb, except those slaughter lambs marketed during the period of June 1 through July 31 of the applicable program year for which the payment rate will be $8 per head.

§ 784.10 Availability of funds for Year 1 through Year 3.

Total payments under this part, unless otherwise determined by the FSA, cannot exceed $30 million. In the event that funds should be insufficient to complete payments for a program year then the claims for that program year shall be prorated by a national factor so as to reduce the payments to be made to the amount available. Payments for preceding years will not be affected.

§ 784.11 Appeals.

Any sheep and lamb operation which is dissatisfied with a determination made pursuant to this part may make a request for reconsideration or appeal of such determination in accordance with the appeal regulations set forth at parts 11 and 780 of this title.

§ 784.12 Misrepresentation and scheme or device.

(a) A sheep and lamb operation shall be ineligible to receive assistance under this program if it is determined by the State committee or the county committee to have:

(1) Adopted any scheme or device which tends to defeat the purpose of this program;

(2) Made any fraudulent representation; or

(3) Misrepresented any fact affecting a program determination.

(b) Any funds disbursed pursuant to this part to any person or operation engaged in a misrepresentation, scheme, or device, shall be refunded with interest together with such other sums as may become due. Any sheep and lamb operation or person engaged in acts prohibited by this section and any sheep and lamb operation or person receiving payment under this part shall be jointly and severally liable with other persons or operations involved in such claim for benefits for any refund due under this section and for related charges. The remedies provided in this part shall be in addition to other civil, criminal, or administrative remedies which may apply.

§ 784.13 Estates, trusts, and minors.

(a) Program documents executed by persons legally authorized to represent estates or trusts will be accepted only if such person furnishes evidence of the authority to execute such documents.

(b) A minor who is otherwise eligible for assistance under this part must, also:

(1) Establish that the right of majority has been conferred on the minor by court proceedings or by statute;
§ 784.14 Death, incompetency, or disappearance.

In the case of death, incompetency, disappearance or dissolution of a person that is eligible to receive benefits in accordance with this part, such person or persons specified in part 707 of this chapter may receive such benefits, as determined appropriate by FSA.

§ 784.15 Maintaining records.

Persons making application for benefits under this program must maintain accurate records and accounts that will document that they meet all eligibility requirements specified herein. Such records and accounts must be retained for 3 years after the date of payment to the sheep and lamb operations under this program. Destruction of the records after such date shall be the risk of the party undertaking the destruction.

§ 784.16 Refunds; joint and several liability.

(a) In the event there is a failure to comply with any term, requirement, or condition for payment arising under the application, or this part, and if any refund of a payment to FSA shall otherwise become due in connection with the application, or this part, all payments made under this part to any sheep and lamb operation shall be refunded to FSA together with interest as determined in accordance with paragraph (c) of this section and late payment charges as provided in part 1403 of this title.

(b) All persons signing a sheep and lamb operation’s application for payment as having an interest in the operation shall be jointly and severally liable for any refund, including related charges, which is determined to be due for any reason under the terms and conditions of the application or this part with respect to such operation.

(c) Interest shall be applicable to refunds required of any person under this part if FSA determines that payments or other assistance was provided to a person who was not eligible for such assistance. Such interest shall be charged at the rate of interest which the United States Treasury charges the Commodity Credit Corporation (CCC) for funds, from the date FSA made such benefits available to the date of repayment or the date interest increases as determined in accordance with applicable regulations. FSA may waive the accrual of interest if FSA determines that the cause of the erroneous determination was not due to any action of the person.

(d) Interest determined in accordance with paragraph (c) of this section may be waived at the discretion of FSA alone for refunds resulting from those violations determined by FSA to have been beyond the control of the person committing the violation.

(e) Late payment interest shall be assessed on all refunds in accordance with the provisions of, and subject to the rates prescribed in 7 CFR part 792.

(f) Any excess payments made by FSA with respect to any application under this part must be refunded.

(g) In the event that a benefit under this subpart was provided as the result of erroneous information provided by any person, the benefit must be repaid with any applicable interest.

§ 792.1 Applicability.

Except as may otherwise be provided by statute, this part sets forth the manner in which the Farm Service Agency (FSA) will settle and collect debts by FSA. The provisions of part 1403 of this title are applicable to actions of FSA regarding the settlement and collection of debts on the behalf of the Commodity Credit Corporation (CCC).

§ 792.2 Administration.

The regulations in this part will be administered under the general supervision and direction of the Administrator, FSA.

§ 792.3 Definitions.

The following definitions shall be applicable to this part:

Administrative charges means the additional costs of processing delinquent debts against the debtor, to the extent such costs are attributable to the delinquency. Such costs include, but are not limited to, costs incurred in obtaining a credit report, costs of employing commercial firms to locate debtor, costs of employing contractors for collection services, costs of selling collateral or property to satisfy the debt.

Administrative offset means deducting money payable or held by the United States Government, or any agency thereof, to satisfy in whole or in part a debt owed the Government, or any agency thereof.

FSA means the Farm Service Agency of the United States Department of Agriculture (USDA).

CCC means the Commodity Credit Corporation.

Certified financial statement means an account of the assets, liabilities, income and expenses of a debtor, executed in accordance with generally accepted accounting principles and attested to as accurate by the debtor and preparer, under penalty of perjury.

Claim means an amount of money or property which has been determined by FSA, after a notice of delinquency and a demand for the payment of the debt has been made by FSA, to be owed to FSA by any person other than a Federal agency.

Credit reporting agency means: (1) A reporting agency as defined at 4 CFR 102.5(a), or

(2) Any entity which has entered into an agreement with USDA concerning the referral of credit information.

Debt means any amount owed to FSA which has not been satisfied through payment or otherwise.

Debt record refers to the account, register, balance sheet, file, ledger, data
§ 792.4 Demand for payment of debts.

(a) When a debt is due FSA, an initial written demand for payment of such amount shall be mailed or hand-delivered to the debtor. If the debt is not paid in full by the date specified in the initial demand letter, or if a repayment schedule acceptable to FSA has not been arranged with the debtor, the initial demand may be followed by two subsequent written demands at approximately 30-day intervals, unless it is determined by FSA that further demands would be futile and the debtor’s response does not require rebuttal. The initial or subsequent demand letters shall specify the following:

1. The basis for and the amount of the debt determined to be due FSA, including the principal, applicable interest, costs, and other charges;
2. FSA’s intent to establish an account on a debt record 30 days after the date of the letter, or other applicable period of time, if the debt is not paid within that time;
3. The applicable late payment interest rate.

(i) If a late payment interest rate is specified in the contract, agreement or program regulation, the debtor shall be informed of that rate and the date from which the late payment interest has been accruing;

(ii) If a late payment interest rate is not specified in the contract, agreement or program regulation, the debtor shall be informed of the applicable late payment interest rate set out in §792.10.

3. FSA’s intent, if applicable, to collect the debt 30 days from the date of the initial demand letter, or other applicable period of time, by administrative offset from any CCC or FSA payments due or to become due to the debtor, and that the claim may be reported to other agencies of the Federal government for offset from any amounts due or to become due to the debtor;
§ 792.5 Collection by payment in full.

Except as FSA may provide, FSA shall collect debts owed to the Government, including applicable interest, penalties, and administrative costs, in full, whenever feasible whether the debt is being collected by administrative offset or by another method, including voluntary payment. If a debt is paid in one lump sum after the due date, FSA will impose late payment interest, as provided in §792.10, unless such interest is waived as provided in §792.11.

§ 792.6 Collection by installment payments.

(a) Payments in installments may be arranged, at FSA’s discretion, if a debtor furnishes satisfactory evidence of inability to pay a claim in full by the specified date. The size and frequency of installment payments shall:
(1) Bear a reasonable relation to the size of the debt and the debtor’s ability to pay; and
(2) Normally be of sufficient size and frequency to liquidate the debt in not more than three years.

(b) Except as otherwise determined by FSA, no installment arrangement will be considered unless the debtor submits a certified financial statement which reflects the debtor’s assets, liabilities, income, and expenses. The financial statement shall not be required to be submitted sooner than 15 workdays following its request by FSA.

(c) All installment payment agreements shall be in writing and require the payment of interest at the late payment interest rate in effect on the date such agreement is executed, unless such interest is waived or reduced by FSA. The installment agreement shall specify all the terms of the arrangement and include provision for accelerating the debt in the event the debtor defaults.

(d) FSA may deem a repayment plan to be abrogated if the debtor fails to comply with its terms.

(e) If the debtor’s financial statement or other information discloses the ownership of assets which are not encumbered, the debtor may be required to secure the payment of an installment note by executing a security agreement and financing agreement which provides FSA a security interest in the assets until the debt is paid in full.

(f) If the debtor owes more than one debt to FSA, FSA may allow the debtor to designate the manner in which a voluntary installment payment is to be
§ 792.7 Collection by administrative offset.

(a) The provisions of this section shall apply to all debts due FSA except as otherwise provided in this part and part 1404 of this title. This section is not applicable to:

(1) FSA requests for administrative offset against money payable to a debtor from the Civil Service Retirement and Disability Fund and FSA requests for salary offset against a present, former or retired employee of the Federal Government which shall be made in accordance with regulations at part 3 of this title;

(2) FSA requests for administrative offset against a Federal income tax refund payable to a debtor which shall be made in accordance with §792.19;

(3) Cases in which FSA must adjust, by increasing or decreasing, a payment which is to be paid under a contract in order to properly make other payments due by FSA; and

(4) Any case in which a statute explicitly provides for or prohibits using administrative offset to collect the debt for the type of debt involved.

(b) Debts due FSA or CCC may be collected by administrative offset from amounts payable by FSA:

(1) When requested or approved by the Department of Justice; or
(2) When a person is indebted under a judgment in favor of FSA or the United States.

(d) A payment due any person may be offset when there is a breach of a contract or a violation of FSA program requirements, and offset is considered necessary by FSA to protect the financial interests of the Government.

(e) FSA may effect administrative offset against a payment to be made to a debtor prior to completion of the procedures required by paragraphs (b)(1) through (b)(4) of this section if:

(1) Failure to take the offset would substantially prejudice FSA’s ability to collect the debt; and
(2) The time before the payment is to be made does not reasonably permit the completion of those procedures.

(b)(1) Judgments in favor of the United States may be offset against any amounts payable by FSA based on information provided by or obtained from the Department of Justice. Debts due any agency other than FSA which have not been reduced to judgment by FSA to a debtor when an agency of the U.S. Government has submitted a written request for offset which is mailed or hand-delivered to the appropriate FSA State office, Kansas City Financial Management Office, Kansas City Management Office, or Kansas City Commodity Office. Such written request must:

(i) Bear the signature of an authorized representative of the requesting agency;
(ii) Include a certification that all requirements of the law and the regulations for collection of the debt and for requesting offset have been complied with;
§ 792.8 Priorities of offsets versus assignments.

(iii) State the name, address (including county), and, where legally available, the Social Security number or employer ID number of the debtor, and a brief description of the basis of the debt, including identification of the judgment, if any;

(iv) State the amount of the debt separately as to principal, interest, penalties, and administrative costs. Interest, if any, shall be computed on a daily basis to a date shown in the request. The amount to be offset shall not exceed the principal sum owed by the debtor, plus interest computed in accordance with the request, and any late payment interest, penalties and administrative costs that have been assessed;

(v) Certify that the debtor has not filed for bankruptcy. If the debtor has filed for bankruptcy, a copy of the order of the bankruptcy court relieving the agency from the automatic stay must be included; and

(vi) State the name, address, and telephone number of a contact person within the agency and the address to which payment should be sent.

(2) Unless prohibited by law, the head of an agency, or a designee, may defer or subordinate in whole or in part the right of the agency to recover through offset all or part of any indebtedness to such agency, or may withdraw a request for offset. Notice of such action must be sent to the appropriate FSA office.

(g) (1) After FSA has complied with the provisions of this part, FSA may request other agencies of the Government to offset amounts payable by them to persons indebted to FSA.

(2) In the case of a request to IRS for a tax refund offset, the provisions at § 792.19 shall apply.

(h)(1) Debts shall be collected by offset in the following order of priority without regard to the date of the request for such collection:

(i) Debts to FSA.

(ii) Debts to other agencies of USDA as determined by FSA.

(iii) Debts to other government agencies as determined by FSA.

(2) In the case of multiple debts involving the same debtor, FSA may, at its discretion, deviate from the usual order of priority in applying recovered amounts to debts owed other agencies when considered to be in the Government’s best interest. Such decision shall be made by FSA based on the facts and circumstances of the particular case.

(i) Amounts recovered by offset for FSA and CCC debts but later found not to be owed to the Government shall be promptly refunded.

(j) The debtor shall be notified whenever any offset action has been taken.

(k) Offsets made pursuant to this section shall not deprive a debtor of any right he or she might otherwise have to contest the debt involved in the offset action either by administrative appeal or by legal action.

(l) Any action authorized by the provisions of this section may be taken:

(1) Against a debtor’s pro rata share of payments due any entity which the debtor participates in, either directly or indirectly, as determined by FSA.

(2) When FSA determines that the debtor has established an entity, or reorganized, transferred ownership of, or changed in some other manner, their operation, for the purpose of avoiding the payment of the claim or debt.

(m) The amount to be offset shall not exceed the actual or estimated amount of the debt, including interest, administrative charges, and penalties, unless the Department of Justice requests that a larger specified amount be offset.

(n) Offset action will not be taken against payments when:

(1) A debt has been discharged as provided in § 792.16.

(2) FSA determines such action will unduly interfere with the administration of an FSA or CCC program.

(3) The debt has been delinquent for more than ten years or legal action to enforce the debt due FSA is barred by an applicable period of limitation, whichever is later.

[59 FR 15829, Apr. 5, 1994, as amended at 60 FR 43706, Aug. 23, 1995]
§ 792.10 Late payment interest, penalty and administrative charges.

(a) Late payment interest provisions of this section shall not apply:
(1) To debts owed by Federal agencies and State and local governments. Interest on debts owed by such entities shall be charged to the extent authorized under the common law or applicable statutory authority.
(2) If an applicable statute, regulation, agreement, or contract either prohibits the charging of such interest or specifies the interest or charges applicable to the debt involved;
(3) If the late payment interest is waived by FSA in accordance with § 792.11.
(4) To administrative charges as set forth in paragraph (f) of this section.
(b) FSA will assess late payment interest on the full amount of delinquent debts. For purposes of this section, the term “full amount of the delinquent debt” means the sum of the principal, accrued program interest, and any other charges which are otherwise due and owing to FSA on the delinquent debt at the time the late payment interest is assessed, except as provided in paragraphs (a)(2) and (d)(3) of this section.
(c) The late payment interest shall be expressed as an annual rate of interest which FSA charges on delinquent debts. The late payment interest rate shall be equal to the higher of the Treasury Department’s current value.
§ 792.11 Waiver of late payment interest, penalty charge and administrative charges.

(a) FSA shall waive the collection of late payment interest and administrative charges on a debt or any portion of a debt which is paid within 30 days after the date on which late payment interest began to accrue.

(b) FSA may waive the assessment and collection of all or a portion of the penalty charge on debts which are appealed in accordance with 7 CFR part 780 or other applicable appeal procedures from either the date of the appeal or the date such interest began to accrue, whichever is later, until the date a final administrative determination is issued. Such waiver shall not apply for any delay due to:

(1) The appellant’s request for a postponement of the scheduled hearing;

(2) The appellant's request for an additional time following the hearing to present additional information or a written closing statement; or

(3) The appellant’s failure to timely present information to the reviewing authority.

(c) Assessment and collection of late payment interest, the penalty charge and administrative charges under this part may be waived by FSA in full, or in part, if it is determined by the Controller, FSA, or his or her designee,
that such action is in the best interest of FSA.

§ 792.12 Administrative appeal.

If the opportunity to appeal the determination has not previously been provided under part 24 of this title or part 780 of this chapter or any other appeal procedure, a debtor may obtain an administrative review under part 780 of this chapter, or other applicable appeal procedures, of FSA’s determination concerning the existence or amount of a debt, if a request is filed with the authority who made the determination within 15 days of the date of FSA’s initial demand letter, unless a longer period is specified in the initial demand letter.

§ 792.13 Additional administrative collection action.

Nothing contained in this part shall preclude the use of any other administrative or contractual remedy which may be available to FSA to collect debts owed to the Government.

§ 792.14 Contact with debtor’s employing agency.

When a debtor is employed by the Federal Government or is a member of the military establishment or the Coast Guard, and collection by offset cannot be accomplished in accordance with 5 U.S.C. 5514, FSA may contact the employing agency to arrange for payment of the debt by allotment or otherwise, in accordance with section 206 of Executive Order No. 11222, May 8, 1965, 30 FR 6469, 3 CFR, 1964–1965 Comp., p 306.

§ 792.15 Prior provision of rights with respect to debt.

FSA will not provide an administrative appeal with respect to issues which were raised or should have been raised at any administrative review requested by the debtor as provided under another statute or regulation before:

(a) Effecting administrative offset;

(b) Referring the debt to private collection or credit reporting agencies;

(c) Referring the debt for salary offset against the current pay of a present or former Government employee; or

(d) Referring the debt to IRS for tax refund offset.

§ 792.16 Discharge of debts.

(a) Except as required by other applicable regulation or statute, a debt or part thereof owed FSA shall be discharged with the concurrence of the Department of Justice, if applicable, and the records and accounts on that debt closed in the following situations:

(1) When an obligation or part thereof is discharged in bankruptcy;

(2) When an obligation or part thereof is the subject of a final judgment entered by a court of competent jurisdiction which is adverse to FSA and no appeal will be taken by FSA;

(3) When a debt or part thereof is compromised and paid, the amount of such compromise;

(4) When collection of a debt by administrative offset is barred in accordance with §792.7(b)(5).

(b) Debts discharged in accordance with this section may be reported to the Internal Revenue Service pursuant to §792.20.

§ 792.17 Referral of delinquent debts to credit reporting agencies.

(a) This section specifies the procedures that will be followed by FSA and the rights that will be afforded to debtors when FSA reports delinquent debts to credit reporting agencies.

(b) Before disclosing information to a credit reporting agency in accordance with this part, FSA shall review the claim and determine that it is valid and delinquent.

(c) Before a debt may be referred to a credit reporting agency, the debtor must be notified, pursuant to §792.4, of FSA’s intent to make such a report. Such notification shall include:

(1) FSA’s intent to disclose to a credit reporting agency that the debtor is responsible for the debt, and that such disclosure will be made not less than 60 days after notification to such debtor;

(2) The information intended to be disclosed to the credit reporting agency under paragraph (g)(1) of this section.

(3) The debtor’s right to enter a repayment agreement on the debt, including, at the discretion of FSA, installment payments, and that if such

referred to the Department of Justice before they can be discharged.

(b) Debts which cannot be compromised or on which collection action cannot be suspended or terminated, may be referred to the Department of Justice for collection action. Claims of less than $600.00 exclusive of interest, penalties, and administrative costs will not be referred to the Department of Justice unless:

(1) Referral is important to a significant enforcement policy, or
(2) The debtor not only has the clear ability to pay the claim, but the Government can effectively enforce payment, having due regard for the exemptions available to the debtor under State and Federal law and the judicial remedies available to the Government.

§ 792.20 Reporting discharged debts to IRS.

(a) In accordance with IRS regulations, FSA may report to IRS as discharged debts on IRS Form 1099–G the amounts specified in paragraph (b) of this section.

(b) The following discharged debts may be reported to IRS: (1) The amount of a debt discharged under a compromise agreement between FSA and the debtor, except for compromises made due to doubt about the Government’s ability to prove its case in court for the full amount of the debt.

(2) The amount of a debt discharged by the running of the statutory period of limitation for collecting the debt by administrative offset specified in 31 U.S.C. 3716.

§ 792.21 Referral of debts to private collection agencies.

If FSA’s collection efforts have been unsuccessful after 90 days from the date of delinquency, the head of the agency or his designee may enter into a contract with any person or organization, under such terms and conditions as the head of the agency or his designee considers appropriate for collection services to recover debts owed to FSA.

§ 792.22 Collection and compromise.

The Administrator, FSA, or his designee may compromise any claim of the Government of not more than $100,000.00 exclusive of interest, penalties, and administrative charges, or such higher amount as may be prescribed, that has not been referred to another executive or legislative agency for further collection action.

PART 795—PAYMENT LIMITATION

General

§ 795.1 [Reserved]

§ 795.2 Applicability.
§ 795.3 Definitions.

(a) The terms defined in part 719 of this chapter, governing reconstitutions of farms, shall be applicable to this part and all documents issued in accordance with this part, except as otherwise provided in this section.

(b)(1) Subject to the provisions of this part, the term “person” shall mean an individual, joint stock company, corporation, association, trust, estate, or other legal entity. In order to be considered to be a separate person for the purposes of this part with respect to any crop, in addition to any other provision of this part, an individual or other legal entity must:

(i) Have a separate and distinct interest in the crop or the land on which the crop is produced;

(ii) Exercise separate responsibility for such interest; and

(iii) Be responsible for payment of the cost of farming related to such interest from a fund or account separate from that of any other individual or entity.

(2) The term “person” shall not include any cooperative association of producers that markets commodities for producers with respect to the commodities so marketed for producers.

(c) The term “family member” shall mean the individual, the great-grandparent, grand-parent, child, grandchild, and great-grandchild of such individual and the spouses of all such individuals.

(d) The term “separate unit” shall mean an individual who, prior to December 31, 1985: (1) Had been engaged in a separate farming operation and (2) in accordance with the provisions of this part, had been determined to be a separate person or could have so determined under the circumstances existing at such time.

§ 795.4 Family members.

Effective for the 1987 through 1990 crops, an individual shall not be denied a determination that such individual was a “person” solely on the basis that:

(a) A family member cosigns for, or makes a loan to, such individual and leases, loans or gives equipment, land or labor to such an individual; and

(b) Such family members were organized as separate units prior to December 31, 1985.

§ 795.5 Timing for determining status of persons.

Except as otherwise set forth in this part, the status of individuals or entities as of March 1, or such other date as may be determined and announced by the Administrator shall be the basis on which determinations are made in accordance with this part for the year for which the determination is made.
§ 795.6 Multiple individuals or other entities.

The rules in §§ 795.5 through 795.16 shall be used to determine whether certain multiple individuals or legal entities are to be treated as one person or as separate persons for the purpose of applying the limitation. In cases in which more than one rule would appear to be applicable, the rule which is most restrictive on the number of persons shall apply.

§ 795.7 Entities or joint operations not considered as a person.

A partnership, joint venture, tenants-in-common, or joint tenants shall not be considered as a person but, notwithstanding the provisions of §795.3, each individual or other legal entity who shares in the proceeds derived from farming by such joint operations shall be considered a separate person, except as otherwise provided in this part, and shall be listed as a producer for payment purposes on program documents. The payment shares listed on the program documents for each individual or other legal entity shall be the same as each individual or other legal entity shares in the proceeds derived from farming by such joint operation. Notwithstanding the foregoing, each individual or other legal entity who shares in the proceeds derived from farming by such joint operation shall not be considered as a separate person unless the individual or other legal entity is actively engaged in the farming operations of the partnership or other joint operation. An individual or other legal entity shall be considered as actively engaged in the farming operations of the partnership or other joint operation if its contribution to the joint operation is commensurate with its share in the proceeds derived from farming by such joint operation. Members of the partnership or joint venture must furnish satisfactory evidence that their contributions of land, labor, management, equipment, or capital to the joint operation are commensurate with their claimed shares of the proceeds. A capital contribution may be a direct out-of-pocket input of a specified sum or an amount borrowed by the individual. If the contribution consists substantially of capital, such capital must have been contributed directly to the joint operation by the individual or other legal entity and not acquired as a result of (a) a loan made to the joint operation, (b) a loan which was made to such individual or other legal entity by the joint operation or any of its members or related entities, or (c) a loan made to such individual or other legal entity which was guaranteed by the joint operation or any of its members or related entities.

§ 795.8 Corporations and stockholders.

(a) A corporation (including a limited partnership) shall be considered as one person, and an individual stockholder of the corporation may be considered as a separate person to the extent that such stockholder is engaged in the production of the crop as a separate producer and otherwise meets the requirements of §795.3, except that a corporation in which more than 50 percent of the stock is owned by an individual (including the stock owned by the individual’s spouse, minor children, and trusts for the benefit of such minor children), or by a legal entity, shall not be considered as a separate person from such individual or legal entity.

(b) Where the same two or more individuals or other legal entities own more than 50 percent of the stock in each of two or more corporations, all such corporations shall be considered as one person.

(c) The percentage share of the value of the stock owned by an individual or other legal entity shall be determined as of March 1 of the crop year, except that where a stockholder voluntarily acquires stock after March 1 and before the harvest of the crop, the amount of any stock so acquired shall be included in determining the percentage share of the value of the stock owned by the stockholder. Where there is only one class of stock, a stockholder’s percentage share of the value of the outstanding stock shall be equal to the percentage of the outstanding stock owned by the stockholder. If the corporation has more than one class of stock the percentage share of the value of the stock owned by a stockholder shall be determined by the Deputy Administrator on the basis of market quotations, and if market quotations
§ 795.9
are lacking or too scarce to be recognized the percentage share of the value of the stock shall be determined by the Deputy Administrator on the basis of all relevant factors affecting the fair market value, including the rights and privileges of the various stock issues.

§ 795.9 Estate or trust.

(a) An estate or irrevocable trust shall be considered as one person except that, where two or more estates or irrevocable trusts have common beneficiaries or heirs (including spouses and minor children) with more than a 50-percent interest, all such estates or irrevocable trusts shall be considered as one person.

(b) An individual heir of an estate or beneficiary of a trust may be considered as a separate person to the extent that such heir or beneficiary is engaged in the production of crops as a separate producer and otherwise meets the requirements of §795.3, except that an estate or irrevocable trust which has a sole heir or beneficiary shall not be considered as a separate person from such heir or beneficiary.

(c) Where an irrevocable trust or an estate is a producer on a farm and one or more of the beneficiaries or heirs of such trust or estate are minor children, the minor children’s pro rata share of the program payments to the trust or estate shall be attributed to the parent of the minor children except as otherwise provided in §795.12.

(d) A revocable trust shall not be considered as a separate person from the grantor.

§ 795.10 Club, society, fraternal or religious organization.

Each individual club, society, fraternal or religious organization may be considered as a separate person to the extent that each such club, society, fraternal or religious organization is engaged in the production of crops as a separate producer and otherwise meets the requirements of §795.3.

§ 795.11 Husband and wife.

With respect to the 1988 crop year, a husband and wife shall be considered to be one person except that such individuals who, prior to their marriage, were separately engaged in unrelated farming operations will be determined to be separate persons with respect to such farming operations so long as the operations remain separate and distinct from any farming operation conducted by the other spouse if such individuals have executed a Contract to Participate in the 1988 Price Support and Production Adjustment Programs by April 15, 1988. Such individuals must file a form FSA-561 with the county committee for each such farming operation by July 8, 1988, if they desire to be considered as separate persons under this section.

(53 FR 21410, June 8, 1988)

§ 795.12 Minor children.

(a) A minor child and his parents or guardian (or other person responsible for him) shall be considered as one person, except that the minor child may be considered as a separate person if such minor child is a producer on a farm in which the parents or guardian or other person responsible for him (including any entity in which the parents or guardian or other person responsible for him has a substantial interest, i.e., more than a 20-percent interest) takes no part in the operation of the farm (including any activities as a custom farmer) and owns no interest in the farm or allotment or in any portion of the production on the farm, and if such minor child:

(1) Is represented by a court-appointed guardian who is required by law to make a separate accounting for the minor and ownership of the farm is vested in the minor, or

(2) Has established and maintains a different household from his parents or guardian and personally carries out the actual farming operations on the farm for which there is a separate accounting, or
§ 795.15 Determining whether agreement is a share lease or a cash lease.

(a) Cash lease. If a rental agreement contains provisions for a guaranteed minimum rental with respect to the amount of rent to be paid to the landlord by a tenant, such agreement shall be considered to be a cash rental agreement. In addition, the rental agreement must be customary and reasonable for the area.

(b) Share lease. If a rental agreement contains provisions that require the payment of rent on the basis of the

(3) Has a farming operation resulting from his being the beneficiary of an irrevocable trust and ownership of the property is vested in the trust or the minor.

(b) A person shall be considered a minor until he reaches 18 years of age. Court proceedings conferring majority on a person under 18 years of age will not change such person’s status as a minor for purposes of applying the regulations.

§ 795.13 Other cases.

Where the county committee is unable to determine whether certain individuals or legal entities involved in the production of a commodity are to be treated as one person or separate persons, all the facts regarding the arrangement under which the commodity is produced shall be submitted to the State committee for decision. Where the State committee is unable to determine whether such individuals or legal entities are to be treated as one person or separate persons, all the facts regarding the arrangement under which the farming operation is conducted shall be submitted to the Deputy Administrator for decision.

§ 795.14 Changes in farming operations.

(a) Subject to the provisions of this part, a person may exercise his or her right heretofore existing under law, to divide, sell, transfer, rent, or lease his or her property if such division, sale, transfer, rental arrangement, or lease is legally binding as between the parties thereto. However, any document representing a division, sale, transfer, rental arrangement, or lease which is fictitious or not legally binding as between the parties thereto shall be considered to be for the purpose of evading the payment limitation and shall be disregarded for the purpose of applying the payment limitation. Any change in farming operations that would otherwise serve to increase the number of persons for purposes of applying the payment limitation must be bona fide and substantive.

(b) A substantive change includes, for example, a substantial increase or decrease in the size of allotment by purchase, sale, or lease; a change from a cash lease to a share lease or vice versa; and dissolution of an entity such as a corporation or partnership.

(c) Examples of the types of changes that would not be considered as substantive are the following:

Example 1. A corporation is owned equally by four shareholders. The corporation owns land, buildings, and equipment and in the prior year carried out substantial farming operations. Three of the shareholders propose forming a partnership which they would own equally. The partnership would cash lease land and equipment from the corporation with the objective of having the three partners considered as separate persons for purposes of applying the payment limitation under the provisions of §795.7 of the regulations. The formation of such a partnership and the leasing of land from a corporation in which they hold a major interest would not constitute a substantive and bona fide change in operations. Therefore, the corporation and the partners would be limited to a single payment limitation.

Example 2. Three individuals each have individual farming operations which, if continued unchanged, would permit them to have a total of three payment limitations. The three individuals propose forming a corporation which they would own equally. The corporation would then cash lease a portion of the farmland owned and previously operated by the individuals with the objective of having the corporation considered as a separate person for purposes of applying the payment limitation under the provisions of §795.8 of the regulations. The formation of such a corporation and the leasing of land from the stockholders would not constitute a substantive and bona fide change in operations. Therefore, the corporation and the three individuals would be limited to three payment limitations.
amount of the crop produced or the proceeds derived from the crop, such agreement shall be considered to be a share rental agreement. In addition, the rental agreement must be customary and reasonable for the area.

§ 795.16 Custom farming.

(a) Custom farming is the performance of services on a farm such as land preparation, seeding, cultivating, applying pesticides, and harvesting for hire with remuneration on a unit of work basis, except that, for the purpose of applying the provisions of this section, the harvesting of crops and the application of agricultural chemicals by firms regularly engaged in such businesses shall not be regarded as custom farming. A person performing custom farming shall be considered as being separate from the person for whom the custom farming is performed only if:

(1) The compensation for the custom farming is paid at a unit of work rate customary in the area and is in no way dependent upon the amount of the crop produced, and (2) the person performing the custom farming (and any other entity in which such person has more than a 20-percent interest) has no interest, directly or indirectly, (i) in the crop on the farm by taking any risk in the production of the crop, sharing in the proceeds of the crop, (ii) in the allotment on the farm, or (iii) in the farm as landowner, landlord, mortgage holder, trustee, lienholder, guarantor, agent, manager, tenant, sharecropper, or in any other similar capacity.

(b) A person having more than a 20-percent interest in any legal entity performing custom farming shall be considered as being separate from the person for whom the custom farming is performed only if:

(1) The compensation for the custom farming service is paid at a unit of work rate customary in the area and is in no way dependent upon the amount of the crop produced, and (2) the person having such interest in the legal entity performing the custom farming has no interest, directly or indirectly, (i) in the crop on the farm by taking any risk in the production of the crop, sharing in the proceeds of the crop, granting or guaranteeing the financing of the crop, (ii) in the allotment on the farm, or (iii) in the farm as landowner, landlord, mortgage holder, trustee, lienholder, guarantor, agent, manager, tenant, sharecropper, or in any other similar capacity.

§ 795.17 Scheme or device.

All or any part of the payments otherwise due a person under the upland cotton, wheat, feed grain and rice programs on all farms in which the person has an interest may be withheld or required to be refunded if the person adopts or participates in adopting any scheme or device designed to evade or which has the effect of evading the rules of this part. Such acts shall include, but are not limited to, concealing from the county committee any information having a bearing on the application of the rules of this part or submitting false information to the county committee (for example, a set-aside agreement which is entered into that differs from information furnished to the county committee concerning the manner in which program payments are actually shared, concerning the actual facts of a sale, or concerning the transfer of property) or creating fictitious entities for the purpose of concealing the interest of a person in a farming operation.

§ 795.20 Joint and several liability.

Where two or more individuals or legal entities, who are treated as one person hereunder, receive payments which in the aggregate exceed the limitation, such individuals or legal entities shall be liable, jointly and severally, for any liability arising therefrom. The provisions of this part requiring the refund of payments shall be applicable in addition to any liability under criminal and civil fraud statutes.

§ 795.21 Appeals.

Any person may obtain reconsideration and review of determinations made under this part in accordance with the appeal regulations, part 790 of this chapter, as amended.
§ 795.22 Interpretations.

In interpretations previously issued pursuant to the payment limitation regulations and published at 36 FR 16569, 37 FR 3049, 39 FR 15021 and 41 FR 17527 shall be applicable in construing the provisions of this part.

§ 795.23 Paperwork Reduction Act assigned number.

The information collection requirements contained in these regulations (7 CFR part 795) have been approved by the Office of Management and Budget under the provisions of 44 U.S.C. Chapter 35 and have been assigned OMB control number 0560-0096.

[49 FR 14719, Apr. 13, 1984]

§ 795.24 Relief.

If a producer relied on a county committee and/or State committee “person” determination for a crop year and higher reviewing authority makes a more restrictive determination, the Deputy Administrator may grant relief only for such crop year if the producer was not afforded an opportunity to exercise other alternatives with respect to the producer’s farming operation and the program provisions and the county committee has determined that the producers acted in good faith based upon the original “person” determination.

AUTHORITY: 5 U.S.C. 301, 552; 7 CFR 1.1 through 1.16.
SOURCE: 44 FR 10353, Feb. 20, 1979, unless otherwise noted.

§ 798.1 General statement.
This part is issued in accordance with the regulations of the Secretary of Agriculture at 7 CFR 1.1 through 1.16, and appendix A, implementing the Freedom of Information Act (5 U.S.C. 552). The Secretary’s regulations as implemented by the regulations in this part, govern the availability of records of the FSA and Commodity Credit Corporation (CCC) to the public.

§ 798.2 Public inspection and copying.
5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying. Members of the public may request access to such materials maintained by FSA and/or CCC at the Office of the Director, Information Division, Farm Service Agency, Room 3608 South Building, P.O. Box 2415, Washington, D.C. 20013, between the hours of 8:15 and 4:45 p.m., Monday through Friday.

[50 FR 53259, Dec. 31, 1985]

§ 798.3 Index.
5 U.S.C. 552(a)(2) requires that each agency publish or otherwise make available a current index of all materials required to be made available for public inspection and copying. FSA maintains an index of FSA National Handbooks, CCC Board Dockets, decisions of the Board of Contract Appeals of the Department of Agriculture affecting FSA or CCC, and Marketing Quota Review Committee determinations. In view of the small number of public requests for such index, publication of the index is unnecessary and impractical. The index is maintained and available to the public at the office shown in §798.2 and copies of the index are available upon request in person or by mail to that office.

§ 798.4 Request for records.
Request for records under 5 U.S.C. 552(a)(3) shall be made in accordance with 7 CFR 1.3. Reasonable requests for material not in existence may also be honored where their compilation will not unduly interfere with FSA operations and programs. Each FSA office in the field and each FSA office and division in Washington (see statement of Organization and Functions of FSA, 40 FR 18815, and of CCC, 35 FR 14951, and any amendments thereto) is designated as an “information center” and shall make space available to inspect and copy records in their custody not exempted from disclosure. Copies of records shall also be made available upon request. The head of each office or division is authorized to receive requests for records and to make determinations regarding requests for records in the office’s custody in accordance with 7 CFR 1.4(c). Requests to Washington divisions and offices shall be addressed to USDA, FSA, P.O. Box 2415, Washington, D.C. 20013. The heads of FSA field offices shall be addressed as listed in the local telephone directory under “U.S. Government, Department of Agriculture, FSA”. Names and addresses of heads of field offices may also be obtained from the office indicated in §798.2.

§ 798.5 Appeals.
Any person whose request under §798.4 of this part is denied shall have the right to appeal such denial. This appeal shall be submitted in accordance with 7 CFR 1.3(e) and addressed to the Administrator, FSA (Executive Vice-President, CCC), USDA, FSA, P.O. Box 2415, Washington, D.C. 20013.

§ 798.6 Fees.
This schedule supplements the fee schedule in 7 CFR, part 1, subpart A.
appendix A and sets forth the fees to be charged by FSA for providing copies of records, materials, and services not covered in appendix A:

(a) Records, materials and services furnished without cost.

(1) One copy each of related directives, or blank forms required by FSA for program participation, if requester is a program participant.

(2) List of names and addresses of county and/or community committee members, and names of county employees in the county.

(3) One copy of an investigation report furnished to an appellant for a program appeal.

(b) Records, materials and services for which fees are charged.

(1) National handbooks. Three dollars for the first copy. One dollar for each additional copy. (The term “copy” includes all national amendments to date. They will be furnished separately for the requester to assemble).

(2) Field supplementation to national handbooks. Five cents per page, not to exceed $3, for each supplement.

(3) Computerized records. The requester shall furnish the necessary reels when computerized records are furnished on magnetic tape.

§ 799.1 Background.

The National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 et seq.) establishes national policies and goals for the protection of the environment. Section 102(2) of NEPA contains certain procedural requirements directed toward the attainment of such goals. Section 102(2) also requires all Federal agencies to give appropriate consideration to the environmental effects of their proposed actions in their decisionmaking and to prepare detailed environmental statements on recommendations or reports on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment. Executive Order 11991 of May 24, 1977 (42 FR 26967), directed the Council on Environmental Quality (CEQ) to issue regulations to implement the procedural provisions of NEPA. Accordingly, CEQ issued final NEPA regulations (40 CFR parts 1500 through 1508) on November 29, 1978, which are binding on all Federal agencies as of July 30, 1979. These regulations provide that each Federal agency shall as necessary adopt implementing procedures to supplement the regulations. The U.S. Department of Agriculture adopted such procedures in a final rule (7 CFR part 3100) published on July 30, 1979. The CEQ regulations at 40 CFR 1507.3 (b) identify those items which must be addressed in agency procedures.

§ 799.2 Purpose.

The purpose of this part is to establish agency procedures which supplement NEPA regulations issued by CEQ and USDA. This regulation, together with such NEPA regulations issued by CEQ and USDA, will supersede regulations issued by the Farm Service Agency (FSA) on December 20, 1974 (39 FR 43996).

§ 799.3 Applicability.

This part, together with NEPA regulations issued by CEQ and USDA, applies to all programs administered by FSA which might have significant impacts on the environment.

§ 799.4 Definitions.

(a) The term environmental evaluation means agency appraisal of the potential or likely environmental impacts of proposed legislation, a new program, a major change in a program, an action related to a program or an action related to part of a program which will be used by the responsible agency official to determine whether or not an environmental assessment and/or an environmental impact statement is needed. Such appraisal shall relate to the same environmental concerns as an environmental impact statement. The environmental evaluation shall particularly
focus on the adverse affects of FSA actions on the environmental factors listed on Form FSA–929 (see Appendix 2) and on the significance of the action as discussed in the CEQ regulations concerning NEPA at 40 CFR 1508.27. As required, the environmental evaluation shall be made by an interdisciplinary team.

(b) In the regulations in this part and in all instructions, forms, and documents in connection therewith, all other words and phrases shall, unless the context or subject matter otherwise requires, have the meanings assigned to them in the regulations governing reconstitution of farms, allotments and bases, part 719 of this chapter, as amended.

§ 799.7 Early involvement in private and state and local activities requiring Federal approval.

(a) The NEPA regulations at 40 CFR 1501.2(d) require agencies to provide for early involvement in actions which, while planned by private applicants or other non-Federal entities, require some form of Federal involvement.

(b) To implement the requirements of 40 CFR 1501.2(d) with respect to these actions FSA shall:

(1) Prepare, where practicable, generic guidelines describing the scope and level of environmental information required from applicants seeking assistance from FSA as a basis for evaluating their proposed actions, and make these guidelines available upon request.

(2) Provide such guidance on a project-by-project basis to applicants seeking assistance from FSA.

(3) Upon receipt of an application for agency approval, or notification that an application will be filed, consult as required with other appropriate parties to initiate and coordinate the necessary environmental analyses.

(c) The responsibilities under this section shall be coordinated by the Conservation and Environmental Protection Division of the Farm Service Agency, Washington, D.C.

(d) To facilitate compliance with paragraph (a) of this section, private applicants seeking assistance from FSA and other non-Federal entities are expected to:

(1) Contact FSA as early as possible in the planning process for guidance on the scope and level of environmental...
§ 799.8 Making supplements to EISs part of the final administrative record.

Where FSA evaluates a proposal on the basis of a formal administrative record and an EIS on the proposal has been prepared, any supplement to the EIS shall be made a part of the formal record before a final decision on the proposal is made.

§ 799.9 Ensuring that environmental factors are considered in agency decisionmaking.

(a) The NEPA regulations at 40 CFR 1501.1 contain requirements to ensure adequate consideration of environmental factors in decisionmaking. To fulfill these requirements, FSA officials shall:

(1) Consider all relevant environmental factors in evaluating proposals for agency action;

(2) Make all relevant environmental documents, comments and responses part of the record in formal rule-making or adjudicatory proceedings;

(3) Ensure that all relevant environmental documents, comments and responses accompany the proposal through existing review processes;

(4) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating proposals for agency action.

(5) Where an EIS has been prepared, consider the specific alternatives analyzed in the EIS when evaluating the proposal which is the subject of the EIS.

(b) The four categories of FSA activities that have or are likely to have significant environment impacts on the human environment are:

(1) Legislative proposals.

(2) Initial program implementation.

(3) Major changes in ongoing programs.

(4) Major environmental concerns with ongoing programs.

(c) Initial NEPA involvement in program categories in paragraph (b) of this section shall begin at the time FSA begins developing a legislative program proposal. The decision whether such additional statement is needed will be made by an interdisciplinary team. The NEPA process on legislative proposals and FSA programs is carried out at the national level.

(d) Individual farm participation in FSA programs will normally not require any major involvement with the NEPA process. The practices carried out under FSA programs that might have impacts on the quality of the human environment will normally have been discussed in environmental assessments or impact statements on the applicable programs. However, for those practices that might significantly affect the quality of the human environment, the county committee
§ 799.10 Criteria and identification of FSA actions as to degree of involvement under the NEPA process.

(a) FSA will for each of its legislative proposals, initial program implementation, program changes or any actions under its ongoing programs make a determination by the use of an environmental evaluation as to whether or not an environmental assessment or EIS is required.

(b) The NEPA regulations issued by CEQ at 40 CFR 1507.3(b)(2) in conjunction with the regulations at 40 CFR 1508.4 require agencies to determine those typical classes of actions for treatment under NEPA. The typical classes of FSA actions for treatment under NEPA are set forth as follows:

(1) Actions normally requiring an EIS are:

(i) Production adjustment programs to balance supply and demand of specified commodities, through cropland set-aside or other acreage diversion.

(ii) Agricultural Conservation Program.

(iii) Rural Clean Water Program.

(iv) Other major actions that are determined after an environmental evaluation that have a potential for significantly affecting the quality of the human environment.

(2) Actions normally not requiring an assessment or an EIS are:

(i) Individual farm participation in FSA programs.

(ii) Pooling agreements and special projects under FSA programs.

(iii) Production adjustment programs for tobacco, peanuts and extra long staple cotton.

(iv) Emergency Conservation Program.

(v) Water Bank Program.

(vi) Forestry Incentives Program.

(vii) Sugar Program.

(viii) Wool and Mohair Incentives Program.

(ix) Bee and Dairy Indemnity Programs.

(x) Commodity Income and Support and Disaster Protection Programs.

(xi) Facility Loan Program.

(xii) Grain Reserve Program.

(xiii) Livestock Feed Program.
(xiv) Naval Stores Program.
(xv) Indian Acute Distress Donation Program.
(xvi) Other major actions that are determined after an environmental evaluation not to significantly affect the quality of the human environment.

(c) FSA will independently determine by an environmental evaluation whether an environmental assessment or an EIS is required on actions included in paragraph (b) of this section where the presence of extraordinary circumstances or other unforeseeable factors indicate that some other level of environmental review may be appropriate.

(d) If an environmental evaluation indicates that an action will significantly affect the quality of the human environment, the preparation of an environmental assessment and/or an EIS will be necessary before the action is carried out.

§ 799.11 Expedited procedures.

Where emergency circumstances make it necessary to take action with significant environmental impact without following the provisions of the NEPA regulations issued by CEQ, USDA, and FSA, FSA will, by working through the USDA Office of Environmental Quality, consult with CEQ and/or EPA about alternative arrangements (7 CFR 3100.35).

§ 799.12 Program termination.

An environmental assessment or an EIS will not be needed when a program or part of a program is discontinued because of a mandatory legislative requirement where the enabling legislation for such program does not provide authority to ameliorate or mitigate any resulting environmental effects on the quality of the human environment.

§ 799.13 Environmental information.

Interested persons may contact the Conservation and Environmental Protection Division, FSA, for information regarding FSA compliance with NEPA.

(b) Public inspection and copying. Materials maintained by the Service, including those described in 7 CFR 1.5, will be made available, upon a request which has not been denied, for public inspection and copying at the U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration, at 14th Street and Independence Avenue, SW., Washington, D.C. 20250. OFFICIAL INSPECTION AND CLASS X OR CLASS Y WEIGHING REQUIREMENTS

§ 800.15 Services.

(a) General. These regulations implement requirements for a national inspection and weighing system. This system promotes the uniform and accurate application of the official grain standards and provides inspection and weighing services required by the Act and as requested by applicants for official services. The types and kinds of services available under the Act and regulations can be obtained at all specified service points in the United States and on U.S. grain in Canadian ports.

(b) Responsibilities for complying with the official inspection, aflatoxin testing, and weighing requirements.

(1) Export grain. Exporters are responsible for (i) complying with all inspection, Class X weighing, and other certification provisions and requirements of section 5(a)(1) of the Act and the regulations applicable to export grain and (ii) having all corn, as defined in §810.401, exported from the United States tested for aflatoxin contamination unless the buyer and seller agree not to have the corn tested. The Service shall perform the aflatoxin testing service unless the buyer and seller
agree to have the corn tested by an entity other than the Service.

(2) Intercompany barges. Operators of export elevators at export port locations are responsible for complying with Class X weighing requirements and regulations covering intercompany grain shipments received by barge.

(3) Grain in marked containers. When grain is in a container that bears an official grade designation or mark, the person who places the designation or mark on the container or the person who places the grain in a container that bears the designation or mark shall be responsible for determining that the grain has been inspected or weighed by official personnel and qualifies for the official grade designation or mark.

(4) Grain for which representations have been made. Any person who makes a representation that (i) grain has been officially inspected or weighed; or (ii) grain has been officially inspected or weighed and found to be of a particular kind, class, quality, condition, or weight; or (iii) particular facts have been established with respect to the grain by official inspection or weighing, shall be responsible for determining that the representation is true and is not in violation of the Act and regulations.

§ 800.16 Certification requirements for export grain.

(a) General. Official Export Grain Inspection and Weight Certificates, Official Export Grain Inspection Certificates, and Official Export Grain Weight Certificates for bulk or sacked grain shall be issued according to § 800.162 for export grain loaded by an export elevator. Only these types of export certificates showing the official grade, official aflatoxin test results if required under the Act and the regulations, and/or the Class X weight of the grain shall be considered to be in compliance with inspection and weighing requirements under the Act for export grain.

(b) Promptly furnished. Export certificates shall be considered promptly furnished if they are forwarded by the shipper or the shipper's agent to the consignee not later than 10 business days after issuance.

§ 800.17 Special inspection and weighing requirements for sacked export grain.

(a) General. Subject to the provisions of § 800.18, sacked export grain shall be (1) officially inspected on the basis of official samples obtained with an approved sampling device and operated in accordance with instructions, (2) Class X weighed or checkweighed, and (3) officially checkloaded by official personnel at the time the grain is loaded aboard the export carrier, in accordance with the provisions of paragraphs (b) and (c) of this section.

(b) Services at time of loading. When official sampling, official inspection, Class X weighing or checkweighing, and checkloading of sacked export grain loaded aboard an export carrier is performed at one location and time, official export inspection and weight certificate(s) which identify the export carrier shall be issued.

(c) Services prior to loading. When official sampling, official inspection, and Class X weighing or checkweighing of sacked export grain is performed prior to the date of loading aboard an export carrier, official “OUT” certificates shall be issued. An examination by official personnel for condition and checkloading of the grain shall be made as the grain is loaded aboard the export carrier. If the examination for condition and the checkloading shows that the identity or quantity of the grain has not changed or the condition of the grain has not changed beyond expected variations prescribed in the instruction, official export inspection and weight certificates shall be issued on the basis of the official “OUT” certificates and the checkloading. If the identity, quantity, or the condition has changed, official export inspection and weight certificates shall be issued on the basis of the most representative samples, including weight samples, obtained at the time the grain is loaded aboard the export carrier.
§ 800.18 Waivers of the official inspection and Class X weighing requirements.

(a) General. Waivers from the official inspection and Class X weighing requirements for export grain under section 5 of the Act shall be provided in accordance with this section and the Act.

(b) Waivers. (1) 15,000 metric-ton waiver. Official inspection and Class X weighing requirements apply only to exporters and individual elevator operators who (i) exported 15,000 metric tons or more of grain during the preceding calendar year, or (ii) have exported 15,000 metric tons or more of grain during the current calendar year. Exporters and elevator operators who are granted a waiver by reason of this paragraph shall, as a condition of the waiver, keep such accounts, records, and memorandum to fully and correctly disclose all transactions concerning lots of all export grain shipments. In addition, the exporters or elevator operators shall notify the Service in writing of the intention to export grain under this waiver. In the case of lots waived under this provision, if such lots are required by contract to be inspected or weighed, or if the lots are represented by official inspection or weight certificates, then such certificates shall meet the requirements of section 5 of the Act.

(2) Grain exported for seeding purposes. Official inspection and Class X weighing requirements do not apply to grain exported for seeding purposes, provided that (i) the grain is (A) sold or consigned for sale and invoiced as seed; and (B) identified as seed for seeding purposes on the Shipper’s Export Declaration; and (ii) records pertaining to these shipments are made available, upon request by the Service, for review or copying purposes.

(3) Grain shipped in bond. Official inspection and weighing requirements do not apply to grain that is shipped from a foreign country to a foreign country through the United States in bond in accordance with applicable regulations of the United States Customs Service (19 CFR part 18).

(4) Grain exported by rail or truck to Canada or Mexico. Inspection and weighing requirements do not apply to grain exported by rail or truck from the United States to Canada or Mexico.

(5) Grain not sold by grade. Official inspection requirements may be waived by the Service on a shipment-by-shipment basis for export grain not sold, offered for sale, or consigned for sale by official grade if (i) the contract and any amendments clearly show that the buyer and seller mutually agree to ship the grain without official inspection and (ii) a copy of the contract and any amendments is furnished in advance of loading, along with a completed application on a form prescribed by the Service.

(6) Service not available. Upon request, any required official inspection or Class X weighing of grain may be waived on a shipment-by-shipment basis if (i) official personnel are not and will not be available within a 24-hour period to perform needed inspection or weighing services and (ii) both the buyer and seller of the grain are made aware that the grain has not been officially inspected or Class X weighed.

(7) Emergency waiver. Upon request, the requirements for official inspection or Class X weighing of grain may be waived whenever the Service determines (i) that an emergency exists that precludes official inspection or Class X weighing and (ii) that granting an emergency waiver will not impair the objectives of the Act. To qualify for an emergency waiver, the exporter or elevator operator shall make timely application and comply with all conditions which may be required by the Service.

All copies of such records will be made at the Service’s expense. Reasonable accommodations shall be made available to the duly authorized representative by elevator owners and operators, and merchandisers for such examination of records.

(b) Disclosure of business information. FGIS employees or persons acting for FGIS under the Act shall not, without the consent of the elevator operator or merchandiser concerned, divulge or make known in any manner, any facts or information acquired pursuant to the Act and regulations except as authorized by the Administrator, by a court of competent jurisdiction, or otherwise by law.

(a) Consent and agreement by applicant. In submitting a request for official services, the applicant and the owner of the grain consent to the special and general requirements specified in paragraphs (b) and (c) of this section. These requirements are essential to carry out the purposes or provisions of the Act.

(b) General requirements. (1) Access to grain. Grain on which official services are to be performed shall, except as provided in §§800.85, 800.86, 800.98, and 800.99, be made accessible by the applicant for the performance of the requested official service and related monitoring and supervision activities. For the purposes of this section, grain is not “accessible” if it is offered for official services (i) in containers or carriers that are closed and cannot, with reasonable effort, be opened by or for official personnel; (ii) when any portion is located so as to prohibit the securing or a representative sample; or (iii) under conditions prescribed in the instructions as being hazardous to the health or safety of official personnel.

(2) Working space. When official services are performed at an elevator, adequate and separate space must be provided by the applicant for the performance of the requested service and related monitoring and supervision activities. Space will be “adequate” if it meets the space, location, and safety requirements specified in the instructions.

(3) Notice of changes. The operator of each facility at which official services...
are performed must notify the appropriate agency or field office promptly, in full detail, of changes in the grain handling and weighing facilities, equipment, or procedures at the elevator that could or would affect the proper performance of official services.

(4) **Loading and unloading conditions.** As applicable, each applicant for official services must provide or arrange for suitable conditions in the (i) loading and unloading areas and the truck and railroad holding areas; (ii) gallery and other grain-conveying areas; (iii) elevator legs, distributor, and spout areas; (iv) pier or dock areas; (v) deck and stowage areas in the carrier; and (vi) equipment used in loading or unloading and handling the grain. Suitable conditions are those which will facilitate accurate inspection and weighing, maintain the quantity and the quality of the grain that is to be officially inspected or weighed, and not be hazardous to the health and safety of official personnel, as prescribed in the instructions.

(5) **Timely arrangements.** Requests for official service shall be made in a timely manner; otherwise, official personnel may not be available to provide the requested service. For the purpose of this paragraph, “timely manner” shall mean not later than 2 p.m., local time, of the preceding business day.

(6) **Observation of activities.** Each applicant for official services must provide any interested person, or their agent, an opportunity to observe sampling, inspection, weighing, and loading or unloading of grain. Appropriate observation areas shall be mutually defined by the Service and facility operator. The areas shall be safe and shall afford a clear and unobstructed view of the performance of the activity, but shall not permit a close over-the-shoulder type of observation by the interested person.

(7) **Payment of bills.** Each applicant, for services under the Act, must pay bills for the services according to §§800.70 through 800.73.

(8) **Written confirmations.** When requested by the agency or field office, verbal requests for official services shall be confirmed in writing. Each written request shall be signed by the applicant, or the applicant’s agent, and shall show or be accompanied by the following information: (i) The identification, quantity, and specific location of the grain; (ii) the name and mailing address of the applicant; (iii) the kind and scope of services desired; and (iv) any other information requested by the agency or field office.

(9) **Names and addresses of interested persons.** When requested, each applicant for official services shall show on the application form the name and address of each known interested person.

(10) **Surrender of superseded certificates.** When a request for official service results in a certificate being superseded, the superseded certificate must be promptly surrendered.

(11) **Recordkeeping and access.** Each applicant for official services must comply with applicable recordkeeping and access-to-facility provisions in §§800.25 and 800.26.

(12) **Monitoring equipment.** Owners and operators of elevators shall, upon a finding of need by the Administrator, provide equipment necessary for the monitoring by official personnel of grain loading, unloading, handling, sampling, weighing, inspection, and related activities. The finding of need will be based primarily on a consideration of manpower and efficiency.

(c) **Special requirements for official Class X and Class Y weighing services.** (1) **General.** Weighing services shall be provided only at weighing facilities which have met the conditions, duties, and responsibilities specified in section 7A(f) of the Act and this section of the regulations. Weighing services will be available only in accordance with the requirements of §800.115. (2) **Conditions.** The facility shall provide the following information annually to the Service: (i) The facility owner’s name and address; (ii) the facility operator’s name and address; (iii) the name of each individual employed by the facility as a weigher and a statement that each individual: (A) Has a technical ability to operate grain weighing equipment and (B) has a reputation for honesty and integrity; (iv)

a blueprint or similar drawing of the facility showing the location of: (A) The loading, unloading, and grain handling systems; (B) the scale systems used or to be used in weighing grain; and (C) the bins and other storage areas; (v) the identification of each scale in the facility that is to be used for weighing grain under the Act; (vi) the following information regarding automated data processing systems: (A) Overall system intent, design, and layout; (B) make, model, and technical specifications of all hardware; (C) description of software, language used, and flow charts of all programs, subprograms, routines, and subroutines; and (D) complete operating instructions; and (vii) any other information deemed necessary to carry out the provisions of the Act.

If a facility has, or plans to have, an automated data processing system which is used in conjunction with any portion of the scale system, grain handling system, or the preparing or printing of official weight certificates, the facility shall make available to the Service sufficient documentation to ensure that the system cannot be used deceptively or otherwise provide inaccurate information. The Service or approved scale testing and certification organization shall conduct an onsite review to evaluate the performance and accuracy of each scale that will be used for weighing grain under the Act, and the performance of the grain loading, unloading, and related grain handling equipment and systems.

§ 800.47 Withdrawal of request for official services.

An applicant may withdraw a request for official services any time before official personnel release results, either verbally or in writing. See §800.51 for reimbursement of expenses, if any.

§ 800.48 Dismissal of request for official services.

(a) Conditions for dismissal. (1) General. An agency or the Service shall dismiss requests for official services when (i) §800.76 prohibits the requested service; (ii) performing the requested service is not practicable; (iii) the agency or the
§ 800.49 Conditional withholding of official services.

(a) Conditional withholding. An agency or the Service shall conditionally withhold requests for official services when an applicant fails to meet any requirement prescribed in § 800.46.

(b) Procedure and withholding. When an agency or the Service proposes to conditionally withhold official services, the applicant shall be notified of the reason for the proposed action. The applicant will then be afforded reasonable time to take corrective action or to show that there is no basis for withholding services. If the agency or the Service determines that corrective action has not been adequate, the applicant will be notified. Any results of official services shall not be released when a request for service is withheld.

(Secs. 8, 9, 10, 13 and 18, Pub. L. 94–582, 90 Stat. 2870, 2875, 2877, 2880, and 2884, 7 U.S.C. 79, 79a, 79b, 84, 87, and 87e) [49 FR 30915, Aug. 2, 1984]

§ 800.50 Refusal of official services and civil penalties.

(a) Grounds for refusal. Any or all services available to an applicant under the Act may be refused, either temporarily or indefinitely, by the Service for causes prescribed in section 10(a) of the Act. Such refusal by the Service may be restricted to the particular facility or applicant (if not a facility) found in violation or to a particular type of service, as the facts may warrant. Such action may be in addition to, or in lieu of, criminal penalties or other remedial action authorized by the Act.

(b) Provision and procedure for summary refusal. The Service may, without first affording the applicant (hereafter in this section "respondent") a hearing, refuse to provide official inspection and Class X or Y weighing services pending final determination of the proceeding whenever the Service has reason to believe there is cause, as prescribed in section 10 of the Act, for refusing such official services and considers such action to be in the best interest of the official services system under the Act: Provided that within 7 days after refusal of such service, the Service shall afford the respondent an opportunity for a hearing as provided under paragraph (c)(2) of this section.

Pending final determination, the Service may terminate the temporary refusal if alternative managerial, staffing, financial, or operational arrangements satisfactory to the Service can be and are made by the respondent.

(c) Procedure for other than summary refusal. Except as provided in paragraph (b) of this section, before the Service refuses to provide official services the respondent shall be (1) notified of the services that are to be refused, the locations at which and the time period for which service will be refused, and the reasons for the refusal; and (2) afforded an opportunity for a hearing in accordance with the provisions of the Rules of Practice Governing Formal Adjudicatory Proceedings Instituted by the Secretary Under Various Statutes (7 CFR 1.130 et seq.). At the discretion of the Service, prior to initiation of formal adjudicatory proceedings, the respondent may be given an opportunity to express his or her views on the action proposed by the Service in an informal conference before the Administrator of the Service. If, as a result of such an informal conference, the Service and the respondent enter into a consent agreement, no formal adjudicatory proceedings shall be initiated.

(d) Assessment of civil penalties. Any person who has knowingly committed any violation of section 13 of the Act or has been convicted of any violation of other Federal law with respect to the handling, weighing, or official inspection of grain may be assessed a civil penalty not to exceed $75,000 for each such violation as the Administrator determines is appropriate to effect compliance with the Act. Such action may be in addition to, or in lieu of, criminal penalties under section 14 of the Act, or in addition to, or in lieu of, the refusal of official services authorized by the Act.

(e) Provisions for civil penalty hearings. Before a civil penalty is assessed against any person, such person shall be afforded an opportunity for a hearing, as provided under paragraph (c)(2) of this section.

(f) Collection of civil penalties. Upon failure to pay the civil penalty, the Service may request the Attorney General to file civil action to collect the penalty in a court of appropriate jurisdiction.

§800.51 Expenses of agency, field office, or Board of Appeals and Review.

For any request that has been dismissed or withdrawn under §§800.47, 800.48, or 800.49, respectively, each applicant shall pay expenses incurred by the agency or the Service.

§800.52 Official services not to be denied.

Subject to the provisions of §§800.48, 800.49, and 800.50, no person entitled to official services under the Act shall be denied or deprived of the right thereto by reason of any rule, regulation, bylaw, or custom of any market, board of trade, chamber of commerce, exchange, inspection department, or similar organization; or by any contract, agreement, or other understanding.

§800.55 Descriptions by grade.

(a) General. In any sale, offer for sale, or consignment for sale, which involves the shipment of grain in interstate or foreign commerce, the description of grain, as being of a grade in any advertising, price quotation, other negotiation of sale, contract of sale, invoice, bill of lading, other document, or description on bags or other containers of the grain, is prohibited if such description is other than by an official grade designation, with or without additional information as to specified factors. An official grade designation contains any of the following: The term "U.S.", the numerals 1 through 5, the term "Sample grade." or the name of a subclass or a special grade of grain specified in the Official United States Standards for Grain.

(b) Proprietary brand names or trade marks. A description of grain by a proprietary brand name or a trademark that does not resemble an official grade designation is prohibited if such description is other than by an official grade designation, with or without additional information as to specified factors. An official grade designation contains any of the following: The term "U.S.", the numerals 1 through 5, the term "Sample grade." or the name of a subclass or a special grade of grain specified in the Official United States Standards for Grain.
§ 800.56 Requirements on descriptions.

Section 13 of the Act contains certain prohibitions with respect to the use of official grade designations, official marks, and other representations with respect to grain.

(a) The use of an official grade designation, with or without factor information, or of official criteria information, or of the term "official grain standards," shall not, without additional information, be considered to be a representation that the grain was officially inspected.

(b) The use of any symbol or term listed as an official mark, at § 800.0(b)(68), with respect to grain shall be considered to be a representation of official service under the Act: Provided however, that the use of the official marks "official certificate;" "officially inspected;" "official inspection;" "officially weighed;" "official weight;" and "official weighing" shall not be considered to be a representation of official service under the Act if it is clearly shown that the activity occurred under the U.S. Warehouse Act (7 U.S.C. 241 et seq.). Provided further, that the use of the official mark "officially tested" with respect to grain inspection and weighing equipment shall not be considered to be a representation of testing under the Act if it is clearly shown that the equipment was tested under a State statute.

[50 FR 9982, Mar. 13, 1985]

§ 800.60 Deceptive actions and practices.

In the absence of prior adequate notice to appropriate official personnel, any action or practice, including the loading, weighing, handling, or sampling of grain that knowingly causes or is an attempt to cause the issuance by official personnel of a false or incorrect official certificate or other official form, is deemed to be deceptive and, as such, is a violation of section 13(a)(3) of the Act. For the purposes of this paragraph, adequate notice is written or oral notice given to an agency or the Service, as applicable, before official personnel begin to perform official inspection or weighing services. If oral notice is given, it must be confirmed in writing within 2 business days. To be adequate, the notice must explain the nature and extent of the action or practice in question and must identify the grain, stowage container, equipment, facility, and the official personnel actually or potentially involved.

(Approved by the Office of Management and Budget under control number 0580–0011)

§ 800.61 Prohibited grain handling practices.

(a) Definitions. For the purpose of this section, dockage and foreign material in grain shall be:

(1) Defined for export elevators at export port locations as set forth in 7 CFR part 810 and as dust removed from grain and collected in a bin/container and as dust settling on floors, equipment, and other areas, commonly referred to as dust sweepings; and

(2) Defined for other than export elevators as set forth in 7 CFR part 810.

(b) Prohibited practices. Except as permitted in paragraphs (c) and (d) of this section, no person shall:
(1) Recombine or add dockage or foreign material to any grain, or
(2) Blend different kinds of grain except when such blending will result in grain being designated as Mixed grain in accordance with subpart E of the Official United States Standards for Grain.
(3) Add water to grain for purposes other than milling, malting, or similar processing operations.

(c) Exemption. (1) The Administrator may grant exemptions from paragraph (b) of this section for grain shipments sent directly to a domestic end-user or processor. Requests for exemptions shall be submitted by grain handlers to the Service through the domestic end-users or processors or their representatives.
(2) Grain sold under an exemption shall be consumed or processed into a product(s) by the purchaser and not resold into the grain market.
(3) Products or byproducts from grain sold under an exemption shall not be blended with or added to grain in commercial channels, except for vegetable oil which may be used as a dust suppressant in accordance with (d)(4) of this section.

(d) Exceptions. Paragraph (b) shall not be construed as prohibiting the following grain handling practices. Compliance with paragraphs (d)(1) through (d)(6) of this section does not excuse compliance with applicable Federal, State, and local laws.
(1) Blending. Grain of the same kind, as defined by the Official United States Standards for Grain, may be blended to adjust quality. Broken corn or broken kernels may be recombined or added to whole grain of the same kind provided that no foreign material or dockage has been added to the broken corn or broken kernels.
(2) Insect and fungi control. Grain may be treated to control insects and fungi. Elevators, other grain handlers, and their agents are responsible for the proper use and applications of insecticides and fungicides. Sections 800.88 and 800.96 include additional requirements for grain that is officially inspected and weighed.
(3) Marketing dockage and foreign material. Dockage and foreign material may be marketed separately.
(4) Dust suppressants. Grain may be treated with an additive, other than water, to suppress dust during handling. Elevators, other grain handlers, and their agents are responsible for the proper use and application of dust suppressants. Sections 800.88 and 800.96 include additional requirements for grain that is officially inspected and weighed.
(5) Identification. Confetti or similar material may be added to grain for identification purposes. Elevators, other grain handlers, and their agents are responsible for the proper use and application of such materials. Sections 800.88 and 800.96 include additional requirements for grain that is officially inspected and weighed.
(6) Export loading facilities. Between May 1, 1987, and December 31, 1987, export elevators at export port locations may recombine dockage and foreign material, but not dust, with grain provided such recombination occurs during the loading of a vessel with the intended purpose of ensuring uniformity of dockage and foreign material in the cargo.

§ 800.71  Fees assessed by the Service.

(a) Official inspection and weighing services. The fees shown in schedules A and B apply to official inspection and weighing services performed by FGIS in the United States and Canada. The fees shown in schedule C apply to official inspection and weighing services performed by delegated States and designated agencies in the United States, except for those State agencies that have been delegated additional responsibilities by FGIS. These States shall be assessed fees as set forth in the State’s Delegation of Authority document. Failure of a delegated State or designated agency to pay prescribed fees within 30 days after being due, shall result in automatic termination of the delegation or designation. The delegation or designation shall be reinstated if fees currently due, plus interest and any further expenses incurred by the Service because of the termination are paid within 60 days of the termination.

(b) Exceptions. For good cause shown by an agency, the Administrator may grant case-by-case exceptions to the requirements in this section, provided that a determination is made that the agency fees would be reasonable and nondiscriminatory.

(c) Reasonable fees. In determining if an agency’s fees are reasonable, the Service will consider whether the fees:

(1) Cover the estimated total cost to the agency of (i) official inspection services, (ii) Class X or Class Y weighing services, (iii) inspection equipment testing services, and (iv) related supervision and monitoring activities performed by the agency; (2) Are reasonably consistent with fees assessed by adjacent agencies for similar services; (3) Are assessed on the basis of the average cost of performing the same or similar services at all locations served by the agency; and (4) Are supported by sufficient information which shows how the fees were developed.

(d) Nondiscriminatory fees. In determining if fees are nondiscriminatory, the Service will consider whether the fees are collected from all applicants for official service in accordance with the approved fee schedule. Charges for time and travel incurred in providing service at a location away from a specified service point shall be assessed in accordance with the approved fee schedule.

(e) Schedule of fees to be established. (1) Each agency shall establish a schedule of fees for official services which the agency is delegated or designated the authority to perform. The schedule shall be in a standard format in accordance with the instructions. Such schedules may include fees for nonofficial services provided by the agency, but they shall be clearly identified and will not be subject to approval by the Service.

(2) The schedule shall be published and made available by the agency to all users of its services.

(f) Request for approval of fees. (1) Time requirement. A request for approval of a new or revised fee shall be submitted to the Service not less than 60 days in advance of the proposed effective date for the fee. Failure to submit a request within the prescribed time period may be considered grounds for postponement or denial of the request.

(2) Contents of request. Each request shall show:

(i) the present fee, if any, and the proposed fee, together with data showing in detail how the fee was developed, and

(ii) the proposed effective date.

(g) Review of request.

(1) Approval action. If upon review the Service finds that the request and supporting data justify the new or revised fee, the request will be marked “approved” and returned to the agency.

(2) Denial action. If the Service finds that the request and supporting data do not justify the new or revised fee, approval of the request will be withheld pending receipt of any additional supporting data which the agency has to offer. If the data are not submitted within a reasonable period, the request shall be denied. In the case of a denial of a request, the agency shall be notified of the reason for denial.

(Approved by the Office of Management and Budget under control numbers 0580–0003 and 0580–0012)

§ 800.71  Fees assessed by the Service.

(a) Official inspection and weighing services. The fees shown in schedules A and B apply to official inspection and weighing services performed by FGIS in the United States and Canada. The fees shown in schedule C apply to official inspection and weighing services performed by delegated States and designated agencies in the United States, except for those State agencies that have been delegated additional responsibilities by FGIS. These States shall be assessed fees as set forth in the State’s Delegation of Authority document. Failure of a delegated State or designated agency to pay prescribed fees within 30 days after being due, shall result in automatic termination of the delegation or designation. The delegation or designation shall be reinstated if fees currently due, plus interest and any further expenses incurred by the Service because of the termination are paid within 60 days of the termination.

**Note:**
1. The fees include the cost of supervision functions performed by the Service for official inspection and weighing services performed by delegated States and/or designated agencies.
2. A fee shall be assessed for each carrier or sample inspected if a combined lot certificate is issued or a uniform loading plan is used to determine grade.
3. A fee shall be assessed per ship regardless of the number of lots or sublots loaded at a specific service point. A fee shall not be assessed for divided-lot certificates.
4. Inspection services for all other lots include, but are not limited to, sampling service, condition examinations, and examination of grain in bins and containers. For weighing services, all other lots include, but are not limited to, seaways and inhouse bin transfers.
5. Fees shall be assessed for a maximum of two factors. If more than two factors are determined, fees are assessed at rates in table 1 (1)(v) or (2)(ii) above, as applicable, based on carrier or type sample represented.
6. Official criteria includes, but is not limited to, protein and oil analyses. A fee shall be assessed for each sample tested.
7. A Class Y ship fee shall be assessed for shipments destined for domestic markets only.

(b) Registration certificates and renewals. (1) Fees for registration certificates and renewals will be based on the nature of the business:

(i) Firms engaged in the business of buying grain for sale in foreign commerce or the business of handling, weighing, or transporting of grain for sale in foreign commerce

(ii) Firms engaged in the business of buying grain for sale in foreign commerce or the business of handling, weighing, or transporting of grain for sale in foreign commerce who also are in a control relationship as defined in Section 17A(b)(2) of the Act, with respect to a business engaged in the business of buying, handling, weighing, or transporting grain for sale in interstate commerce

(2) Requests for extra copies of registration certificates shall be accompanied by a fee of $2.50 for each copy.

(c) Designation amendments. An application for an amendment to a designation shall be accompanied by a fee of $75.00.

(d) Each application for approval to operate as a scale testing organization shall be accompanied by a fee of $350.

**Legislation References:**
§ 800.72 Explanation of additional service fees for services performed in the United States only.

(a) When transportation of the service representative to the service location (at other than a specified duty point) is more than 25 miles from an FGIS office, the actual transportation cost in addition to the applicable hourly rate for each service representative will be assessed from the FGIS office to the service point and return. When commercial modes of transportation (e.g., airplanes) are required, the actual expense incurred for the round-trip travel will be assessed. When services are provided to more than one applicant, the travel and other related charges will be prorated between applicants.

(b) In addition to a 2-hour minimum charge for service on Saturdays, Sundays, and holidays, an additional charge will be assessed when the revenue from the services in §800.71, schedule A, table 2, does not equal or exceed what would have been collected at the applicable hourly rate. The additional charge will be the difference between the actual unit fee revenue and the hourly fee revenue. Hours accrued for travel and standby time shall apply in determining the hours for the minimum fee.

§ 800.73 Computation and payment of service fees; general fee information.

(a) Computing hourly rates. The applicable hourly rate will be assessed in quarter hour increments for:

1. Travel from the FGIS field office or assigned duty station to the service point and return;
2. The performance of the requested service, less mealtime.

(b) Application of fees when service is delayed or dismissed by the applicant. The applicable hourly rate will be assessed for the entire period of scheduled service when:

1. Service has been requested at a specified location;
2. A service representative is on duty and ready to provide service but is unable to do so because of a delay not caused by the Service; and
3. FGIS officials determine that the service representative cannot be utilized to provide service elsewhere without cost to the Service.

(c) Application of fees when an application for service is withdrawn or dismissed. The applicable hourly rate will be assessed to the applicant for the entire period of scheduled service if the request is withdrawn or dismissed after the service representative departs for the service point, or if the service request is not canceled by 2 p.m., local time, the business day preceding the date of scheduled service. However, the applicable hourly rate will not be assessed to the applicant if FGIS officials determine that the service representative can be utilized elsewhere or released without cost to the Service.

(d) To whom fees are assessed. Fees for inspection, weighing, and related services performed by service representatives, including additional fees as provided in §800.72, shall be assessed to and paid by the applicant for the service.

(e) Monthly payment of administrative fee. At the option of the applicant, an agreement for 12 equal monthly payments may be entered into for payment of the administrative fee. These monthly payments will be based on the previous fiscal year’s volume applied to the current year’s administrative fee schedule. If the volume of grain inspected is more than the amount of grain agreed upon at the beginning of the fiscal year, at the point the agreed upon volume is exceeded, the current year’s administrative fee schedule shall apply to the remaining amount of grain for the rest of the fiscal year. If the volume of grain inspected is less than the agreed upon amount, any excess monies paid to the Service shall be applied to the next fiscal year’s administrative fee unless a request for a refund is made by the applicant.

(f) Advance payment. As necessary, the Administrator may require that fees shall be paid in advance of the performance of the requested service. Any fees paid in excess of the amount due shall be used to offset future billings, unless a request for a refund is made by the applicant.

(g) Form of payment. Bills for fees assessed under the regulations in this
§ 800.75  
Part for official services performed by FGIS shall be paid by check, draft, or money order, payable to the U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration.

No agency shall perform official and unofficial weighing on the same mode of conveyance at the same facility.

(b) Restricted services. (1) Not standardized grain. § 800.80 Methods and order of performing official inspection services.

(a) Methods. (1) General. All official inspection services shall be performed in accordance with methods and procedures prescribed in the regulations and the instructions.

(2) Lot inspection services. A lot inspection service shall be based on a representative sampling and examination of the grain in the entire lot, except as provided in §800.85, and an accurate analysis of the grain in the sample.

(3) Stowage examination service. A stowage examination service shall be based on a thorough and accurate examination of the carrier or container into which grain will be loaded.

(4) Submitted sample inspection service. A submitted sample inspection service shall be based on a submitted sample of sufficient size to enable official personnel to perform a complete analysis for grade. If a complete analysis for grade cannot be performed because of an inadequate sample size or other conditions, the request for service shall be dismissed or a factor only inspection may be performed upon request.

(5) Reinspection and appeal inspection service. A reinspection, appeal inspection, or Board appeal inspection service shall be based on an independent review of official grade information, official factor information, or other information consistent with the scope of the original inspection.

(b) Order of service. Official inspection services shall be performed, to the extent practicable, in the order in which they are received. [50 FR 49669, Dec. 4, 1985]
§ 800.81 Sample requirements; general.

(a) Samples for official sample-lot inspection service. (1) Original official sample-lot inspection service. For original sample-lot inspection purposes, an official sample shall be (i) obtained by official personnel; (ii) representative of the grain in the lot; (iii) protected from manipulation, substitution, and improper or careless handling; and (iv) obtained within the prescribed geographical boundaries of the agency or field office performing the service.

(2) Official sample-lot reinspection and appeal inspection service. For an official sample-lot reinspection service or an official appeal sample-lot inspection service, the sample(s) on which the reinspection or appeal is determined shall (i) be obtained by official personnel and (ii) otherwise meet the requirements of paragraph (a)(1) of this section. If the reinspection or appeal inspection is determined on the basis of official file sample(s), the samples shall meet the requirements of §800.82(d).

(b) New sample. Upon request and if practicable, a new sample shall be obtained and examined as a part of a reinspection or appeal inspection. The provision for a new sample shall not apply if obtaining the new sample involves a change in method of sampling.

(c) Representative sample. A sample shall not be considered representative unless it (1) has been obtained by official personnel, (2) is of the size prescribed in the instructions, and (3) has been obtained, handled, and submitted in accordance with the instructions. A sample which fails to meet the requirements of this paragraph may, upon request of the applicant, be inspected as a submitted sample.

(d) Protecting samples. Official personnel shall protect official samples, warehouseman’s samples, and submitted samples from manipulation, substitution, or improper and careless handling which may deprive the samples of their representativeness or which may change the physical or chemical properties of the grain, as appropriate, from the time of sampling or receipt until the inspection services are completed and the file samples have been discarded.

(e) Disposition of samples. (1) Excess grain. Any grain in excess of the quantity specified in the instructions for the requested service, the file samples, and samples requested by interested persons shall be returned to the lot from which the grain was obtained or to the owner of the lot or the owner’s order.

(2) Inspection samples. Inspection samples, after they have served their intended purpose, shall be disposed of as follows:

(i) Samples which contain toxic substances or materials shall be kept out of food and feed channels, and

(ii) Official personnel shall dispose of samples obtained or submitted to them according to procedures established by the Service. Complete and accurate records of disposition shall be maintained.

(Approved by the Office of Management and Budget under control number 0580–0011)

§ 800.82 Sampling provisions by level of service.

(a) Original inspection service. (1) Official sample-lot inspection service. Each original inspection service shall be performed on the basis of one or more official samples obtained by official personnel from grain in the lot and forwarded to the appropriate agency or field office.

(2) Warehouseman’s sample-lot inspection. Each original warehouseman’s sample-lot inspection service shall be performed on the basis of samples obtained by a licensed warehouseman and sent to the appropriate agency or field office in whose circuit the warehouse is located.

(3) Submitted sample service. Each original submitted sample inspection service shall be performed on the basis of the sample as submitted.

(b) Reinspection, and appeal inspection services. (1) Official sample-lot inspection
service. Each of these inspection services shall be performed on the basis of official samples as available, including file samples, at the time the service is requested. In performing these services, a sample obtained with an approved diverter-type mechanical sampler or with a pelican sampler generally shall be used with respect to quality factors and official criteria, and a sample obtained with a probe at the time of the reinspection or appeal, generally, shall be used with respect to heating, musty, sour, insect infestation, and other condition and odor factors. In instances where original inspection results are based on samples obtained by probe, the decision as to whether file samples or new samples obtained by probe are to be used shall be made by the official personnel performing the service.

(2) Warehouseman’s sample-lot inspection service. Each reinspection service and appeal inspection service on a warehouseman’s sample shall be performed on an analysis of the official file sample.

(3) Submitted sample service. Each reinspection service and appeal inspection service on a submitted sample shall be performed on an analysis of the official file sample.

(c) Board appeal inspection services. Board appeal inspection services shall be performed on an analysis of the official file sample.

(d) Use of file samples. (1) Requirements for use. A file sample that is retained by official personnel in accordance with the procedures prescribed in the instructions may be considered representative for a reinspection service, appeal inspection service, and a Board appeal inspection service if (i) the file sample has remained at all times in the custody and control of the official personnel that performed the inspection service in question; and (ii) the official personnel who performed the original inspection service and those who are to perform the reinspection, the appeal inspection, or the Board appeal inspection service determine that the samples were representative at the time the original inspection service was performed and that the quality or condition of the grain in the samples has not changed.

(2) Certificate statement. When the results of a reinspection, appeal inspection, or Board appeal inspection service are based on an official file sample, the certificate for the reinspection service, the appeal inspection service, and the Board appeal inspection service shall show a statement, as specified in the instructions, indicating that the results are based on the official file sample.

[50 FR 49670, Dec. 4, 1985]

§ 800.83 Sampling provisions by kind of movement.

(a) Export cargo movements. (1) Bulk grain. Except as may be approved by the Administrator on a shipment-by-shipment basis in an emergency, each inspection for official grade, official factor, or official criteria on an export cargo shipment of bulk grain shall be performed on official samples obtained from the grain (i) as the grain is being loaded aboard the final carrier; (ii) after the final elevation of the grain prior to loading and as near to the final loading spout as is physically practicable (except as approved by the Administrator when representative samples can be obtained before the grain reaches the final loading spout); and (iii) by means of a diverter-type mechanical sampler approved by the Service and operated in accordance with instructions. If an approved diverter-type mechanical sampler is not properly installed at an elevator or facility as required, each certificate issued at that elevator or facility for an export cargo shipment of bulk grain shall show a statement indicating the type of approved sampling method used, as prescribed in the instructions.

(b) Sacked grain. Each inspection for official grade, official factor, or official criteria on an export cargo shipment of sacked grain shall be performed on official samples obtained from the grain by any sampling method approved by the Service and operated in accordance with instructions. If an approved diverter-type mechanical sampler is not properly installed at an elevator or facility as required, each certificate issued at that elevator or facility for an export cargo shipment of sacked grain shall show a statement indicating the type of approved sampling method used, as prescribed in the instructions.

(b) Other movements. Each inspection for official grade, official factor, or official criteria on a domestic cargo movement ("In," "Out," or "en route barge movement), a movement in a
§ 800.84 Inspection of grain in land carriers, containers, and barges in single lots.

(a) General. The reinspection of bulk or sacked grain loaded or unloaded from any carrier or container, except shipload grain, shall be conducted in accordance with the provisions in this section and procedures prescribed in the instructions.

(b) Single and multiple grade procedure.

(1) Single grade. When grain in a carrier or container is offered for inspection as one lot and the grain is found to be uniform in condition, the grain shall be sampled, inspected, graded, and certificated as one lot. For the purpose of this paragraph, condition only includes the factors heating, musty, or sour.

(2) Multiple grade. When grain in a carrier or container is offered for inspection as one lot and the grain is found to be not uniform in condition because portions of the grain are heating, musty, or sour, the grain in each portion will be sampled, inspected, and graded separately; but the results shall be shown on one certificate. The certificate shall show the approximate quantity or weight of each portion, the location of each portion in the carrier or container, and the grade of the grain in each portion.

(3) Infested. If any portion of grain in a lot is found to be infested, according to applicable provisions of the Official U.S. Standards for Grain, the entire lot shall be considered infested. When grain in railcars or trucks with permanently enclosed tops is considered infested, the applicant for inspection shall be promptly notified and given the option of (i) receiving a grade certificate with a special grade designation indicating that the entire lot is infested or (ii) fumigating the grain in the lot in accordance with instructions and receiving a grade certificate without the special grade designation.

(c) One certificate per carrier: exceptions. Except as provided in this paragraph, one official certificate shall be issued for the inspection of the grain in each truck, trailer, truck/trailer(s) combination, railcar, barge, or similarly sized carrier. The requirements of this paragraph are not applicable:

(1) When grain is inspected in a combined lot under §800.85;

(2) When grain is inspected under paragraph (d) of this section; or

(3) When certification is at the option of the applicant in accordance with instructions.

(d) Bulkhead lots. If grain in a carrier is offered for official inspection as two or more lots and the lots are separated by bulkheads or other partitions, the grain in each lot shall be sampled, inspected, and graded separately in accordance with paragraphs (a) and (b) of this section. An official certificate shall be issued for each lot inspected. Each certificate shall show the term “Bulkhead Lot,” the approximate quantity or weight of the grain in the lot, the location of the lot in the carrier, and the grade of the grain in the lot.

(e) Bottom not sampled. If bulk grain offered for official inspection is at rest in a carrier or container and is fully accessible for sampling in an approved manner, except that the bottom of the carrier or container cannot be reached with each probe, the grain shall be sampled as thoroughly as possible with an approved probe. The grain in the resulting samples shall be inspected, graded, and certificated, except that each certificate shall show a statement, as specified in the instructions, indicating the depth probed. Any inspection which is based on a sample that does not represent the entire carrier or container does not meet the mandatory inspection requirements of section 5(a)(1) of the Act.

(f) Partial inspection—heavily loaded.

(1) General. When an “In” movement of bulk grain is offered for inspection at rest in a carrier or container and is loaded in such a manner that it is possible to secure only door-probe or shallow-probe samples, the container shall be considered to be “heavily loaded.”
and the request for inspection either shall be dismissed or a partial inspection shall be made. If the request is for the inspection of an “Out” movement of grain, the request shall be dismissed on the grounds that the grain is not accessible for a correct “Out” inspection.

(2) Certification procedure. If a partial inspection is made, the grain will be sampled as thoroughly as possible with an approved probe and inspected, graded, and a “partial inspection—heavily loaded” certificate issued. The certificate shall show the words “Partial inspection—heavily loaded” in the space provided for remarks. The type of samples that were obtained shall be described in terms of “door probe” or “shallow probe.”

(3) Reinspection and appeal inspection procedure. A request for a reinspection or an appeal inspection service on grain in a carrier or container that is certificated as “Part lot” shall be dismissed in accordance with §800.48(a)(4).

(4) Restriction. No “partial inspection—heavily loaded” certificate shall be issued for sacked grain or any inspection other than the inspections described in paragraphs (f)(1) through (4) of this section and §800.85(h)(2).

(g) Part lots. (1) General. If a portion of the grain in a carrier or container is removed, the grain that is removed and the grain remaining shall be considered separate lots. When an official inspection service is requested on either portion, the grain shall be sampled, inspected, graded, and a “part-lot” inspection certificate issued.

(2) Grain remaining in carrier or container. The certificate for grain remaining in a carrier or container shall show (i) the following completed statement: “Partly unloaded; results based on portion remaining in (show carrier or container identification),” (ii) the term “Part lot” following the quantity information, (iii) the identification of the carrier or container, and (iv) the estimated amount and location of the part lot.

(3) Grain unloaded from carrier or container. If grain is sampled by official personnel during unloading, the certificate for the grain that is unloaded shall show (i) the completed statement: “Part lot; results based on portion removed from (show carrier identification)” and (ii) the term “Part lot” following the quantity information. If the grain is not sampled by official personnel during unloading, the certificate may, upon request of the applicant, show a completed statement such as “Applicant states grain is ex-car ___” or “Applicant states grain is ex-barge ___,” but the certificate shall not otherwise show a carrier or container identification or the term “Part lot.”

(h) Identification for compartmented cars. The identification for compartments in a compartmented railcar shall, in the absence of readily visible markings, be stated in terms of the location of the grain in a compartment, with the first compartment at the brake end of the car being identified as B-1, and the remaining compartments being numbered consecutively towards the other end of the car.

§ 800.85  7 CFR Ch. VIII (1–1–02 Edition)

(c) Inspection procedure; general—land carriers and barges. (1) Inspection during loading, or unloading, or at rest. Grain in two or more land carriers and barges that are to be officially inspected as a combined lot shall be sampled in a reasonably continuous operation. Representative samples shall be obtained from the grain in each individual carrier and inspected in accordance with procedures as prescribed in the instructions.

(2) Recertification. Grain that has been officially inspected and certificated as two or more single lots may be recertificated as a combined lot if (i) the grain in each lot was sampled in a reasonably continuous operation; (ii) the original inspection certificates issued for the single lots have been surrendered to official personnel; (iii) representative file samples of the single lots are available; (iv) the grain in the single lots is of one grade and quality; (v) official personnel who performed the inspection service for the single lots and those who are to recertificiate the grain as a combined lot determine that the samples used as a basis for the inspection of the grain in the single lots were representative at the time of sampling and have not changed in quality or condition; and (vi) the quality or condition of the grain meets uniformity requirements established by the Service for official inspection of grain in combined lots.

(d) Weighted or mathematical average. Information shown on a certificate for grain in a combined lot shall, subject to the provisions of paragraphs (e) through (h) of this section, be based on the weighted or mathematical averages of the analysis of the sublots in the lot and shall be determined in accordance with the instructions.

(e) Infested grain. If the grain in a combined lot is offered for official inspection as it is being loaded aboard a carrier and the grain, or a portion of the grain, in a lot is found to be infested, according to applicable provisions of the Official U.S. Standards for Grain, the applicant shall be notified and may exercise options specified in the instructions. When grain in railcars or trucks with permanently enclosed tops is considered infested, the applicant shall be given the option of (1) receiving a grade certificate with a special grade designation indicating that the entire lot is infested or (2) furnishing the grain in the lot in accordance with instructions and receiving a grade certificate without the special grade designation.

(f) Grain uniform in quality. Samples obtained from grain officially inspected as a combined lot shall be examined for uniformity of quality. If the grain in the samples is found to be uniform in quality and the grain is loaded aboard or is unloaded from the carriers in a reasonably continuous operation, the grain in the combined lot shall be officially inspected and certificated as one lot. The requirements of this paragraph (f) and paragraph (c) of this section with respect to reasonably continuous loading or unloading do not apply to grain which is at rest in carriers when the grain is offered for inspection.

(g) Grain not uniform in quality. When grain officially inspected as a combined lot is found to be not uniform in quality or if the grain is not loaded or unloaded in a reasonably continuous operation, the grain in each portion, and any grain which is loaded or unloaded at different times, shall be officially sampled, inspected, graded, and certificated as single lots.

(h) Special certification procedures. (1) Grain not uniform in quality. When grain in a combined lot is found to be not uniform in quality under paragraph (g) of this section, the official inspection certificate for each portion of different quality shall show (i) the grade, identification, and approximate quantity of the grain and (ii) other information required by the instructions.

(2) Partial inspection. When an in-bound movement of bulk grain is offered for official inspection at rest as a combined lot and all carriers are not fully accessible for sampling, the request for official inspection either shall be dismissed or a combined lot inspection shall be made on those carriers that are accessible. Those lots that are not accessible shall be handled in accordance with § 800.84. If the request is for an official inspection service on an out-bound movement of grain at rest in a combined lot, the request
shall be dismissed on the ground that the grain is not accessible for a correct “Out” inspection.

(3) Official mark. If grain in a combined lot is inspected for grade as it is being loaded aboard two or more carriers, upon request of the applicant, the following mark shall be shown on the inspection certificate: “Loaded under continuous official inspection” or “Loaded under continuous official inspection and weighing.”

(4) Combined-lot certification; general.

Each official certificate for a combined-lot inspection service shall show the identification for the “combined lot” or, at the request of the applicant, the identification of each carrier in the combined lot. If the identification of each carrier is not shown, the statement “Carrier identification available on official inspection log” shall be shown on the inspection certificate in the space provided for remarks. The identification and any seal information for the carriers may be shown on the reverse side of the inspection certificate, provided the statement “See reverse side” is shown on the face of the certificate in the space provided for remarks.

(5) Recertification. If a request for a combined-lot inspection service is filed after the grain has been officially inspected and certified as single lots, the combined-lot inspection certificate shall show (i) the date of inspection of the grain in the combined lot (if the single lots were inspected on different dates, the latest of the dates shall be shown); (ii) a serial number other than the serial numbers of the official inspection certificates that are to be superseded; (iii) the location of the grain, if at rest, or the name of the elevator from which or into which the grain in the combined lot was loaded or unloaded; (iv) a statement showing the approximate quantity of grain in the combined lot; (v) a completed statement showing the identification of any superseded certificates; and (vi) if at the time of issuing the combined-lot inspection certificate the superseded certificates are not in the custody of the official personnel, a statement indicating that the superseded certificates have not been surrendered shall be clearly shown in the space provided for remarks. If the superseded certificates are in the custody of official personnel, the superseded certificates shall be clearly marked “Void.”

(1) Further combining. After a combined-lot inspection certificate has been issued, there shall be no further combining and no dividing of the certificate.

(2) Limitation. No combined-lot inspection certificate shall be issued (1) for any official inspection service other than as described in this section or (2) which shows a quantity of grain in excess of the quantity in the single lots.

4. Unclassed wheat of any grade may contain not more than 10.0 percent of wheat of other classes.
5. Includes contrasting classes.
(3) Grain accepted by the inspection plan. Grain which is offered for inspection as part of a single lot and accepted by a statistical acceptance sampling and inspection plan according to the provisions of this section and procedures prescribed in the instructions shall be certificated as a single lot provided it was sampled in a reasonably continuous operation. Official factor and official criteria information shown on the certificate shall be based on the weighted or mathematical averages of the analysis of sublots.

(4) Grain rejected by the inspection plan. When grain which is offered for inspection as part of a single lot is rejected by the plan or is not sampled in a reasonably continuous operation, the grain in each portion shall be certificated separately. If any portion of grain is not accepted by the plan and designated a material portion, the applicant shall be promptly notified and have the option of:

(i) Removing the material portion from the carrier; or

(ii) Requesting the material portion be separately certified; or

(iii) Requesting either a reinspection or an appeal inspection of the material portion; or

(iv) Requesting a reinspection service and/or an appeal inspection service on the entire lot.

(5) Reinspection service and appeal inspection service. A reinspection or an appeal inspection may be requested on a material portion. A Board appeal inspection may also be requested on a material portion after the reinspection or appeal inspection. A reinspection, an appeal inspection, and a Board appeal inspection may be requested on the total sublots in the lot.

(i) Material portions. A material portion designated by the plan may be reinspected or appeal inspected once in the field, but not both, and once at the Board of Appeals and Review. The reinspection or appeal inspection result shall, unless a material error is found, be averaged with the original inspection result. The inspection plan tolerances shall be reapplied to the material portion grain to determine acceptance or rejection. If a material error is found, the reinspection or appeal inspection result shall replace the original inspection result or the Board appeal result shall replace the previous inspection result. For purposes of this section, a material error is defined as results differing by more than two standard deviations. Acceptance or rejection of that portion of grain shall be based on the reinspection or appeal inspection and on the Board

appeal inspection result alone when a material error is found.

(ii) Entire lot. The applicant may request a reinspection service, an appeal inspection service, and a Board appeal inspection service on the entire lot. Inspection results for these services shall replace the previous inspection results. The tolerances shall be reapplied to all portions of the entire lot to determine acceptance or rejection.

(d) Infested grain. (1) Available options. If grain or any portion of grain in a single shiplot, unit train, or lash barge lot is found to be infested, according to the provisions of the Official U.S. Standards for Grain, the applicant shall be promptly notified and have the option of:

(i) Unloading the portion of infested grain from the lot and an additional amount of other grain in common stowage with the infested grain; or

(ii) When applicable, completing the loading and treating all infested grain in the lot; or

(iii) When applicable, treating the infested grain for the purpose of destroying the insects, subject to subsequent examination by official personnel; or

(iv) Continue loading without treating the infested grain, in which case all of the infested grain in the lot and all grain in common stowage areas with the infested grain will be officially certificated as infested according to the provisions of the Official U.S. Standards for Grain.

(2) Exception. If infested grain in loaded into common stowage with a lot, or a portion of a lot, which has not been officially certificated as being infested, the applicant loading the infested grain may not use the option in paragraph (d)(1)(i) of this section.

(3) With treatment. If infested grain is treated with a fumigant in accordance with the instructions and the treatment is witnessed by official personnel, the official sampling, inspection, grading, and certification of the lot shall continue as though the infested condition did not exist.

(e) Special certification procedures. (1) Rejected grain. When grain is rejected by the inspection plan under paragraph (o)(4) of this section, the official inspection certificate for each different portion of different quality shall show:

(i) A statement that the grain has been loaded aboard with grain of other quality;

(ii) The grade, location, or other identification and approximate quantity of grain in the portions; and

(iii) Other information required by the regulations and the instructions.

The requirement of paragraph (e)(1)(i) of this section does not apply to grain that is inspected as it is unloaded from the carrier or to portions loaded in separate carriers or stowage space.

(2) Common stowage. (i) Without separation. When bulk grain is offered for official inspection as it is loaded aboard a ship and is loaded without separation in a stowage area with other grain or another commodity, the official inspection certificate for the grain in each lot shall show the kind, the grade, if known, and the location of the other grain, or the kind and location of the other commodity in the adjacent lots.

(ii) With separation. When separations are laid between lots, the official inspection certificates shall show the kind of material used in the separations and the locations of the separations in relation to each lot.

(iii) Exception. The common stowage requirements of this paragraph are not applicable to the first lot in a stowage area unless a second lot is loaded, in whole or in part, in the stowage area prior to issuing the official inspection certificate for the first lot.

(3) Protein. A special statement indicating the actual protein range of a lot shall be shown on the official inspection certificate if the difference between the lowest and highest protein determinations for the lot exceeds 1.0 percent when protein is officially determined and a specific range limit is not established by the contract grade.

(4) Part lot. If part of a lot of grain in an inbound carrier is unloaded and part is left in the carrier, the unloaded grain shall be officially inspected and certificated in accordance with the provisions of §800.84(g).

(5) Official mark. If the grain in a single lot is officially inspected for grade as it is being loaded, upon request, the following official mark shall be shown...
on the inspection certificate: “Loaded under continuous official inspection.”

§ 800.96 Weighing procedures.

(a) Inbound. Inbound grain that is to be weighed must be routed directly from the carrier and cannot be cleaned, dried, or otherwise processed to remove or add other grain or material en

route. Except as noted in paragraph (c) of this section, the identity of an inbound lot shall be considered lost when a portion of the lot is transferred or otherwise removed prior to weighing or a portion of grain or other material is added to the lot prior to weighing. When loss of identity occurs, no amount shall be shown in the “Net Weight” portion of the weight certificate for the lot.

(b) Outbound. Outbound grain that has been weighed must be routed directly from the scale to the carrier and cannot be cleaned, dried, or otherwise processed to remove or add other grain or material en route. Except as noted in paragraph (c) of this section, the identity of an outbound lot will be considered lost if a portion of the lot is transferred or otherwise removed from the lot after weighing or a portion of grain or other material is added to the lot after weighing. When loss of identity occurs, no amount shall be shown in the “Net Weight” portion of the weight certificate for the lot.

(c) Exceptions. (1) Spills. (i) Outbound. (A) Replaced. If a spill occurs in handling and loading of outbound grain and the spilled grain is retrieved, or is replaced in kind, and is loaded on board during the loading operations, the weight certificate shall show the weight of the grain that was physically loaded on board. Upon request of the applicant, an additional certificate may be issued by the agency or the field office to show the weight of the additional grain that was used to replace a spill.

(B) Not replaced. If a spill occurs in the handling and loading of outbound grain and the spilled grain is not retrieved or is not replaced during the loading operation, the weight certificate shall show the weight of the grain that was actually weighed, minus the estimated amount of the grain that was spilled. Upon request of the applicant, an additional certificate may be issued showing the estimated amount of grain that was spilled. The applicant may, upon request, have the total amount that was weighed shown on the weight certificate with the estimated amount of the spilled grain noted.

(ii) Inbound. If a spill occurs in the handling of inbound grain and the grain is not retrieved and weighed, the weight certificate shall show the weight of the grain that was actually unloaded from the carrier and a statement regarding the spill as prescribed in the instructions.

(2) Additives. If additives are applied during loading to outbound, including export, grain after weighing or during unloading to inbound grain before weighing for the purpose of insect or fungi control, dust suppression, or identification, the weight certificate shall show the actual weight of the grain after the application of the additive for inbound grain or the actual weight of the grain prior to the application of the additive for outbound or export grain and a statement showing the type and purpose of the additive application, except that no statement is required to be shown when the additive is a fumigant applied for the purpose of insect control.

(3) Dust. If dust is removed during the handling of grain, the weight certificate shall not be adjusted to reflect the weight of the removed dust.

(4) Commingled carriers. If grain from two or more identified carriers becomes mixed, (i) the combined weight of the grain shall be shown in the “Net Weight” block of one certificate with all carrier identification shown in the identification of carrier section of the certificate, or (ii) upon request of the applicant, a certificate shall be issued for each carrier with the “Net Weight” block crossed out, and with the total combined weight unloaded and the identification of the other carrier(s) shown in the “Remarks” section.

(5) Unremoved grain. If, after unloading an inbound carrier, there is sound grain remaining in the carrier that could have been removed with reasonable effort, the weight certificate shall show the weight of the grain that was actually unloaded from the carrier and

§ 800.97 Weighing grain in containers, land carriers, barges, and shiplots.

(a) General. The weighing of grain loaded or unloaded from any carrier shall be conducted according to this section and the instructions.

(b) Procedure. (1) General. If grain in a carrier is offered for inspection or weighing service as one lot, the grain shall be weighed and certificated as one lot. The identification of the carrier shall be recorded on the scale tape or ticket and the weight certificate.

(2) Sacked grain. If sacked grain is offered for weighing and the grain is not fully accessible, the request for weighing service shall be dismissed.

(3) Part lots. If a portion of an inbound lot of grain is unloaded and a portion is left in the carrier because it is not uniform in quality or condition, or the lot is unloaded in other than a reasonably continuous operation, the portion that is removed and the portion remaining in the carrier shall be considered as part lots and shall be weighed and certificated as part lots.

(c) Certification of trucklots, carlots, and bargelots. (1) Basic requirement. One official certificate shall be issued for the weighing of the grain in each truck, trailer, truck/trailer(s) combination, railroad car, barge, or similarly sized carrier. This requirement shall not be applicable to grain weighed as a combined lot under § 800.98.

(2) Part-lot weight certificates. A part-lot weight certificate shall show (i) the weight of the portion that is unloaded and (ii) the following statement: “Part-lot: The net weight stated herein reflects a partial unload.”

(d) Certification of shiplot grain. (1) Basic requirement. The certificate shall show (i) if applicable, a statement that the grain has been loaded aboard with other grain, (ii) the official weight, (iii) the stowage or other identification of the grain, and (iv) other information required by the regulations and the instructions.

(2) Common stowage. (i) Without separation. If bulk grain is offered for weighing as it is being loaded aboard a ship and is loaded without separation in a stowage area with other grain or another commodity, the weight certificate for the grain in each lot shall show that the lot was loaded aboard with other grain or another commodity without separation and the relative location of the grain.

(ii) With separation. If separations are laid between adjacent lots, the weight certificates shall show the kind of material used in the separations and the location of the separations in relation to each lot.

(iii) Exception. The common stowage requirements of this paragraph shall not be applicable to the first lot in a stowage area unless a second lot has been loaded, in whole or in part, in the stowage area before issuing the official weight certificate for the first lot.

(3) Official mark. If the grain is officially weighed in a reasonably continuous operation, upon request by the applicant, the following statement may be shown on the weight certificate: “Loaded under continuous official weighing.”

§ 800.98 Weighing grain in combined lots.

(a) General. The weighing of bulk or sacked grain loaded aboard, or being loaded aboard, or unloaded from two or more carriers as a combined lot shall be conducted according to this section and the instructions.

(b) Weighing procedure. (1) Single lot weighing. Single lots of grain that are to be weighed as a combined lot shall be weighed in one location. The grain loaded into or unloaded from each carrier must be weighed in accordance with procedures prescribed in the instructions. In the case of sacked grain, a representative weight sample shall be obtained from the grain in each carrier unless otherwise specified in the instructions.

(2) Recertification. Grain that has been weighed and certificated as two or more single lots may be recertificated as a combined lot provided that (i) the grain in each single lot has been weighed in one location, (ii) the original weight certificates issued for the single lots have been or will be surrendered to the appropriate agency or field.
§ 800.99 Checkweighing sacked grain.

(a) General. Each checkweighing service performed on a lot of sacked grain to determine the weight of the grain shall be made on the basis of one or more official weight samples obtained from the grain by official personnel according to this section and procedures prescribed in the instructions.

(b) Representative sample. No official weight sample shall be considered to be representative of a lot of sacked grain unless the sample is of the size prescribed in the instructions and has been obtained and weighed according to the procedures prescribed in the instructions.

(c) Protecting samples and data. Official personnel and other employees of an agency or the Service shall protect official weight samples and data from manipulation, substitution, and improper and careless handling which might deprive the samples and sample data of their representativeness.
(d) Restriction on weighing. No agency shall weigh any lot of sacked grain unless at the time of obtaining the official weight sample the grain from which the sample was obtained was located within the area of responsibility assigned to the agency. Upon good cause shown by the agency, the Administrator may grant an exception to this rule on a case-by-case basis.

(e) Equipment and labor. Each applicant for weighing services shall provide necessary labor for obtaining official weight samples and place the samples in a position for weighing and shall supply suitable weighing equipment approved by the Service, pursuant to the regulations and the instructions.

(f) Disposition of official weight samples. In weighing sacked grain in lots, the grain in the official weight samples shall be returned to the lots from which the samples were obtained.

(g) Provisions by kinds of service. (1) “IN” movements. Each checkweighing on an “IN” movement of sacked grain shall be based on an official weight sample obtained while the grain is at rest in the carrier or during unloading, in accordance with procedures prescribed in the instructions.

(2) “OUT” movements (export). Each checkweighing of sacked export grain shall be based on an official weight sample obtained as the grain is being loaded aboard the final carrier, as the grain is being sacked, or while the grain is at rest in a warehouse or holding facility, in accordance with procedures prescribed in the instructions.

(3) “OUT” movements (other than export). Each checkweighing of an “OUT” movement of nonexport sacked grain shall be based on an official weight sample obtained from the grain as the grain is being loaded in the carrier, or while the grain is at rest in the carrier, or while the grain is being sacked, in accordance with procedures prescribed in the instructions.

(4) “LOCAL” weighing. Each checkweighing of a “LOCAL” movement of sacked grain shall be based on an official weight sample obtained while the grain is at rest or while the grain is being transferred, in accordance with procedures prescribed in the instructions.

§ 800.118 Certification.

Official certificates shall be issued according to §800.160. Upon request, a combination inspection and Class X weighing certificate may be issued when both services are performed in a reasonably continuous operation at the same location by the same agency or field office.

§ 800.125 Who may request reinspec- tion services or review of weighing services.

(a) General. Any interested person may request a reinspection or review of weighing service, except as provided for in §800.86(c)(5). Only one reinspection service or review of weighing service may be performed on any original service. When more than one interested person requests a reinspection or review of weighing service, the first person to file is the applicant of record.

(b) Kind and scope of request. The kind and scope of a reinspection or review of weighing service will be limited to the kind and scope of the original service.

If the request specifies a different kind or scope, the request will be dismissed. The request may be resubmitted as a request for original services. Official criteria are considered separately from official grade or official factors when determining the kind and scope. When requested, a reinspection for official grade or official factors and official criteria may be handled separately even though both sets of results are reported on the same certificate. Moreover, a reinspection or review of weighing may be requested on either the inspection or Class X weighing results when both results are reported on a combination inspection and Class X weight certificate. Reinspections for grade shall include a review of all official factors that (1) may determine the grade; or (2) are reported on the original certificate; and (3) are required to be shown.

§ 800.126 How to request reinspection or review of weighing services.

(a) General. Requests shall be made with the agency or field office that performed the original service. All requests shall include the information specified in §800.46. Verbal requests shall be confirmed in writing when requested by official personnel. Copies of request forms may be obtained from the agency or field office. If at the time the request is filed the documentation required by §800.46 is not available, official personnel may, at their discretion, withhold services pending the receipt of the required documentation. A reinspection certificate or the results of a review of weighing service shall not be issued unless (1) the documentation requested under §800.46 has been

§ 800.129 Certificating reinspection and review of weighing results.

(a) General. Except as provided in paragraph (a)(1) of this paragraph, official certificates shall be issued according to §800.160 and the instructions. Except as provided in paragraph (b)(2) of this section, only the result of the reinspection service shall be reported.

(1) Results of material portion sublots. When results of a reinspection on a material portion do not detect a material error, they shall be averaged with the original inspection results. For purposes of this section, a material error is defined as results differing by more than two standard deviations. The averaged inspection results shall replace the original inspection results recorded on the official inspection log. Reinspection results shall replace the original inspection results recorded on the official inspection log if a material error is detected. No certificates will be issued unless requested by the applicant or deemed necessary by official personnel.

(2) Reporting review of weighing results. When the review of weighing service results indicate that the original weighing results were correct, the applicant will be notified in writing. When the original weighing service results are incorrect, a corrected weight certificate or, if applicable, a corrected combination inspection and Class X weight certificate will be issued according to the provisions of §800.165.

(b) Required statements on reinspection certificates. Each reinspection certificate shall show the statements required by this section, §800.161, and applicable instructions.

(1) Each reinspection certificate must clearly show (i) the term “Reinspection” and (ii) a statement identifying the superseded certificate.
superseded certificate will be considered null and void as of the date of the reinspection certificate.

(2) When official grade or official factors, Class X weighing results, and official criteria are reported on the same certificate, the reinspection certificate shall show a statement indicating that the reinspection results are based on official grade, or official factors, or official criteria and that all other results are those of the original service.

(3) If the superseded certificate is in the custody of the agency or field office, the superseded certificate shall be marked “Void.” If the superseded certificate is not in the custody of the agency or field office at the time the reinspection certificate is issued, a statement indicating that the superseded certificate has not been surrendered shall be shown on the reinspection certificate.

(4) As of the date of issuance of the official certificate, the superseded certificate for the original service will be void and shall not be used to represent the grain.

(5) When certificates are issued under paragraph (a)(1) of this section, the reinspection certificate shall show a statement indicating that the results replaced the original results and that the reinspection certificate is not valid for trading purposes.

§ 800.135 Who may request appeal inspection services.

(a) General. Any interested person may request appeal inspection or Board appeal inspection services, except as provided for in §800.86(c)(5). When more than one interested person requests an appeal inspection or Board appeal inspection service, the first person to file is the applicant of record. Only one appeal inspection may be obtained from any original inspection or reinspection service. Only one Board appeal inspection may be obtained from an appeal inspection. Board appeal inspections will be performed on the basis of the official file sample. Board appeal inspections are not available on stowage examination services.

(b) Kind and scope of request. The kind and scope of an appeal inspection service will be limited to the kind and scope of the original inspection, or reinspection, or, in the case of a Board appeal inspection service, the appeal inspection service. If the request specifies a different kind or scope, the request shall be dismissed. It may, however, be resubmitted as a request for original services. Official criteria is considered separately from official grade or official factors when determining kind and scope. When requested, an appeal inspection for grade, or official factors, and official criteria may be handled separately even though both results are reported on the same certificate. Moreover, an appeal inspection may be requested on the inspection results when both inspection and Class X weighing results are reported on a combination inspection and Class X weight certificate. An appeal inspection for grade shall include a review of all official factors that (1) may determine the grade; or (2) are reported on the original, reinspection, or in the case of a Board appeal inspection, the appeal inspection certificate; and (3) are required to be shown on a certificate of grade.

§ 800.136 How to request appeal inspection services.

(a) General. Requests shall be filed with the field office responsible for the area in which the original service was performed. Requests for Board appeal inspections may be filed with the Board of Appeals and Review or the field office that performed the appeal inspection. All requests shall include the information specified in §800.46. Verbal requests shall be confirmed in writing when requested by official personnel as specified in §800.46. (b) Results of material portion sublots. When results of an appeal inspection performed by a field office or the Board of Appeals and Review on a material portion do not detect a material error, they shall be averaged with the previous inspection results recorded on the official inspection log for the identified sample. For purposes of this section, a material error is defined as results differing by more than two standard deviations. The appeal or Board appeal inspection result shall replace the previous inspection results recorded on the official inspection log for the identified sample if a material error is detected. No certificate will be issued unless requested by the applicant or deemed necessary by inspection personnel.

(c) Required statements. Each appeal certificate shall show the statements required by this section, §800.161, and applicable instructions.

An appeal inspection certificate will not be issued unless (1) documentation requested under §800.46 has been submitted or (2) office personnel determine that sufficient information has been made available so as to perform the request. A record that sufficient information has been made available must be included in the record of the official service.

(b) Filing requirements. Requests will be considered filed on the date they are received by official personnel. A record shall be maintained for all requests. Requests must be filed (1) before the grain has left the specified service point where the grain was located when the original inspection was performed, (2) no later than the close of business on the second business day following the date of the last inspection, and (3) before the identity of the grain has been lost. If a representative file sample as prescribed in §800.82 is available, official personnel may waive the requirements pursuant to this paragraph. The requirements of paragraph (b)(1) of this section may be waived only upon written consent of the applicant and all interested persons. The requirements of paragraphs (b)(2) and (b)(3) of this section may be waived at the request of the applicant or other interested persons. The requirement of paragraph (b)(2) of this section may also be waived upon satisfactory showing by an interested person of evidence of fraud or that because of distance or other good cause, the time allowed for filing was not sufficient. If an application is not in compliance, the applicant shall be provided an opportunity to submit the needed information. If the needed information is not submitted within a reasonable time, as determined by the Service, the application may be dismissed. When an application is dismissed, the Service shall notify the applicant, in writing, of the reason(s) for the dismissal.

(2) Applicant. Each applicant for authority to operate as a designated agency shall be reviewed to determine whether the applicant meets the conditions and criteria specified in the Act and regulations; and (iii) the applicant is better able than any other applicant to provide official services.

(3) Specified service points. An agency may change its specified service points by notifying the Service in advance. Interested persons may obtain a list of specified service points within an agency’s area of responsibility by contacting the agency. The list shall include all specified service points and shall identify each specified service point which operates on an intermittent or seasonal basis.

(g) Responsibilities. (1) Providing official services. Insofar as practicable, each agency shall be responsible for providing at all locations in its assigned area each service authorized by the designation. The agency shall perform all official services according to the Act, regulations, and instructions in effect at the time of designation or which may be promulgated subsequently.

(2) Fees. The agency shall charge fees according to §800.70.

A notice of triennial termination shall be issued by the Service to a designated agency at least 120 calendar days in advance of the termination date. The notice shall provide instructions for requesting renewal of the designation. Failure to receive a notice from the Service shall not exempt a designated agency from the responsibility of having its designation renewed on or before the specified termination date.

(ii) Renewal. Designations may be renewed, upon application, in accordance with criteria and procedures for designation prescribed in section 7(f) of the Act and this section of the regulations. The Administrator may decline to renew a designation if: (A) The requesting agency fails to meet or comply with any of the criteria for designation set forth in the Act, regulations, and instructions, of (B) the Administrator determines that another qualified applicant is better able to provide official services in the assigned area.

(2) Automatic termination. Failure to pay the user fees prescribed by the Service for supervisory costs related to official inspection and weighing services within 30 days after due shall result in the automatic termination of the designation. The designation shall be reinstated if fees currently due, plus interest and any further expenses incurred by the Service because of the termination, are paid within 60 days after the termination.

(3) Voluntary cancellation. An agency may request that its designation be canceled by giving 90 days written notice to the Service.

(4) Suspension or revocation of designation. (i) General. A designation is subject to suspension or revocation, under section 7(g)(3) of the Act, by the Service, whenever the Administrator determines that: (A) The agency has failed to meet one or more of the criteria specified in section 7(f) of the Act or the regulations for the performance of official functions, or otherwise has not complied with any provision of the Act, regulations, or instructions, or (B) has been convicted of any violation of other Federal law involving the handling or official inspection of grain.

(ii) Summary suspension. The Service may, without first affording the agency (hereafter referred to in this paragraph as the “respondent”) an opportunity for a hearing, suspend a designation or refuse to reinstate a designation when the suspension period has expired, pending final determination of the proceeding whenever the Service has reason to believe there is cause for revocation of the designation and considers such action to be in the best interest of the official inspection and weighing system. A suspension or refusal to reinstate a suspended designation shall be effective upon the respondent’s receipt of a notice from the Service. Within 30 calendar days following the issuance of a notice of such action, the Service shall afford the respondent an opportunity for a hearing under paragraph (h)(4)(iii) of this section. The Service may terminate the action if it finds that alternative managerial, staffing, financial, or operational arrangements satisfactory to the Service can be and are made by the respondent.

(iii) Other than summary suspension. (d) Termination. (1) Voluntary. A scale testing and certification organization may request cancellation of its approval by notifying the Service.

(2) Suspension or revocation of approval. (i) General. An approval is subject to suspension or revocation whenever the Administrator determines that the approved organization has violated any provision of the Act or regulations, or has been convicted of any violation involving the handling, weighing, or inspection of grain under Title 18 of the United States Code.

(ii) Summary suspension. The Service may, without first affording the organization an opportunity for a hearing, suspend an approval or refuse to reinstate an approval when the suspension period has expired, pending final determination of the proceeding whenever the Service has reason to believe there is cause for revocation of the approval and considers such action to be in the best interest of the official weighing system. A suspension or refusal to reinstate a suspended approval shall be effective when the organization receives a notice from the Service. Within 30 calendar days following the issuance of a notice of such action, the Service shall give the organization an opportunity for a hearing under paragraph (d)(2)(iii) of this section. (a) Distinctly low quality. The determination of distinctly low quality is made on the basis of the lot as a whole at the time of sampling when a condition exists that may or may not appear in the representative sample or the sample as a whole.

(b) Certain quality determinations. Each determination of rodent pellets, bird droppings, other animal filth, broken glass, castor beans, cockleburs, crotalaria seeds, dockage, garlic, live insect infestation, large stones, moisture, temperature, an unknown foreign substance(s), and a commonly recognized harmful or toxic substance(s) is made on the basis of the sample as a whole. When a condition exists that may not appear in the representative sample, the determination may be made on the basis of the lot as a whole at the time of sampling according to procedures prescribed in FGIS instructions.

(c) Stones. Concreted earthy or mineral matter and other substances of similar hardness that do not disintegrate in water.

(d) Test weight per bushel. The weight per Winchester bushel (2,150.42 cubic inches) as determined using an approved device according to procedures prescribed in FGIS instructions. Test weight per bushel in the standards for corn, mixed grain, oats, sorghum, and soybeans is determined on the original sample. Test weight per bushel in the standards for barley, flaxseed, rye, sunflower seed, triticale, and wheat is determined after mechanically cleaning the original sample. Test weight per bushel is recorded to the nearest tenth pound for corn, rye, triticale, and wheat. Test weight per bushel for all other grains, if applicable, is recorded in whole and half pounds with a fraction of a half pound disregarded. Test weight per bushel is not an official factor for canola.

(e) Whole kernels. Grain with ¼ or less of the kernel removed.

§ 810.104

(c) All other determinations. The basis of determination for all other factors is contained in the individual standards.

§ 810.104 Percentages.

(a) Rounding. Percentages are determined on the basis of weight and are rounded as follows:

(1) When the figure to be rounded is followed by a figure greater than or equal to 5, round to the next higher figure; e.g., report 6.36 as 6.4, 0.35 as 0.4, and 2.45 as 2.5.

(2) When the figure to be rounded is followed by a figure less than 5, retain the figure; e.g., report 8.34 as 8.3, and 1.22 as 1.2.

(b) Recording. The percentage of dockage in flaxseed and sorghum is reported in whole percent with fractions of a percent being disregarded. Dockage in barley and triticale is reported in whole and half percent with a fraction less than one-half percent being disregarded. Dockage in wheat and rye is reported in whole and tenth percents to the nearest tenth percent. Foreign material in sunflower seed is reported to the nearest one-half percent. Ranges of sunflower seed foreign material are reported as follows: 0.0 to 0.24 is reported as 0.0 percent, 0.25 to 0.74 as 0.5 percent, 0.75 to 1.24 as 1.0 percent, and the like. Foreign material and fines in mixed grain is reported in whole percent.

§ 810.105 Grades and grade requirements.

§ 810.106 Grade designations.

(a) Grade designations for grain. The grade designations include in the following order:

(1) The letters “U.S.”;

(2) The abbreviation “No.” and the number of the grade or the words “Sample grade”;

(3) When applicable, the subclass;

(4) The class or kind of grain;

(5) When applicable, the special grade(s) except in the case of bright, extra heavy, and heavy oats or plump rye, the special grades, “bright”, “extra heavy”, “heavy” and “plump” will precede the word “oats” or “rye” as applicable; and

(6) When applicable, the word “dockage” together with the percentage thereof.

When applicable, the remarks section of the certificate will include in the order of predominance; in the case of a mixed class, the name and approximate percentage of the classes; in the case of sunflower seed, the percentage of admixture; in the case of mixed grain, the grains present in excess of 10.0 percent of the mixture and when applicable, the words Other grains followed by a statement of the percentage of the combined quantity of those kinds of grains, each of which is present in a quantity less than 10.0 percent; in the case of wheat, if requested, the percentage of protein content.

(b) Optional grade designations. In addition to paragraph (a) of this Section, grain may be certificated under certain conditions as described in FGIS instructions when supported by official analysis, as “U.S. No. 2 or better (type
of grain), “U.S. No. 3 or better (type of grain)”, and the like.

§ 810.201 Definition of barley.

Grain that, before the removal of dockage, consists of 50 percent or more mixed grain. Tolerances for live insects responsible for infested barley, canola, corn, oats, sorghum, soybeans, sunflower seed, and mixed grain are defined according to sampling designations as follows:

1. Representative sample. The representative sample consists of the work portion, and the file sample if needed and when available. These grains will be considered infested if the representative sample (other than shiplots) contains two or more live weevils, or one live weevil and five or more other live insects injurious to stored grain, or ten or more other live insects injurious to stored grain.

2. Lot as a whole (stationary). The lot as a whole is considered infested when ten or more other live insects injurious to stored grain are found in, on, or about the lot (excluding submitted samples and shiplots).

3. Sample as a whole (continuous loading/unloading of shiplots and bargelots). The minimum sample size for shiplots and bargelots is 500 grams per each 2,000 bushels of grain. The sample as a whole is considered infested when a component (as defined in FGIS instructions) contains two or more live weevils, or one live weevil and five or more other live insects injurious to stored grain, or ten or more other live insects injurious to stored grain.

§ 810.108 Special grade designations.

Special grade designations are shown as prescribed in §810.106. Multiple special grade designations will be listed in alphabetical order. In the case of treated wheat, the official certificate shall show whether the wheat has been scoured, limed, washed, sulfured, or otherwise treated.

Subpart C—United States Standards for Canola—Terms Defined

SOURCE: 57 FR 3274, Jan. 29, 1992, unless otherwise noted.

§ 810.301 Definition of canola.

Seeds of the genus Brassica from which the oil shall contain less than 2 percent erucic acid in its fatty acid profile and the solid component shall contain less than 30.0 micromoles of any one or any mixture of 3-butenyl glucosinolate, 4-pentenyl glucosinolate, 2-hydroxy-3-butenyl, or 2-hydroxy-4-pentenyl glucosinolate, per gram of air-dried, oil free solid. Before the removal of dockage, the seed shall contain not more than 10.0% of other grains for which standards have been established under the United States Grain Standards Act.

§ 810.302 Definitions of other terms.

(a) Conspicuous Admixture. All matter other than canola, including but not limited to ergot, sclerotinia, and stones, which is conspicuous and readily distinguishable from canola and which remains in the sample after the removal of machine separated dockage. Conspicuous admixture is added to machine separated dockage in the computation of total dockage.

(b) Damaged kernels. Canola and pieces of canola that are heat-damaged, sprout-damaged, mold-damaged, distinctly green damaged, frost damaged, rimed damaged, or otherwise materially damaged.

(c) Distinctly green kernels. Canola and pieces of canola which, after being crushed, exhibit a distinctly green color.

(d) Dockage. All matter other than canola that can be removed from the original sample by use of an approved device according to procedures prescribed in FGIS instructions. Also, underdeveloped, shriveled, and small pieces of canola kernels that cannot be recovered by properly rescreening or recleaning. Machine separated dockage is added to conspicuous admixture in the computation of total dockage.

(e) Ergot. Sclerotia (sclerotium, sing.) of the fungus, Claviceps species, which are associated with some seeds other than canola where the fungal organism has replaced the seed.

(f) Heat-damaged kernels. Canola and pieces of canola which, after being crushed, exhibit that they are discolored and damaged by heat.

(g) Inconspicuous admixture. Any seed which is difficult to distinguish from canola. This includes, but is not limited to, common wild mustard (Brassica kaber and B. juncea), domestic brown mustard (Brassica juncea), yellow mustard (B. hirta), and seed other than the mustard group.

(h) Sclerotia (Sclerotium, sing.). Dark colored or black resting bodies of the fungi Sclerotinia and Claviceps.

(i) Sclerotinia. Genus name which includes the fungus Sclerotinia sclerotiorum which produces sclerotia. Canola is only infrequently infected, and the sclerotia, unlike sclerotia of ergot, are usually associated within the stem of the plants.

PRINCIPLES GOVERNING THE APPLICATION OF STANDARDS

§ 810.303 Basis of determination.

Each determination of conspicuous admixture, ergot, sclerotinia, stones, damaged kernels, heat-damaged kernels, distinctly green kernels, and inconspicuous admixture is made on the basis of the sample when free from...
dockage. Other determinations not specifically provided for under the general provisions are made on the basis of the sample as a whole, except the determination of odor is made on either the basis of the sample as a whole or the sample when free from dockage. The content of glucosinolates and erucic acid is determined on the basis of the sample according to procedures prescribed in FGIS instructions.

(2) Lot inspection service. A lot inspection service shall be based on official personnel obtaining representative samples, examining the commodity in the entire lot, and making an accurate analysis of the commodity on the basis of the samples.

(3) Submitted sample inspection service. A submitted sample inspection service shall be based on a submitted sample of sufficient size to enable official personnel to perform an accurate, complete analysis. The sample size will be prescribed in the instructions. If a complete analysis cannot be performed because of an inadequate sample size or other conditions, the request shall be dismissed or a factor only inspection may be performed upon request.

(b) Order of service. Inspection services shall be performed, to the extent practicable, in the order in which requests for service are received.

(c) Recording receipt of documents. Each document submitted by or on behalf of an applicant for inspection service shall be promptly stamped or similarly marked by official personnel to show the date of receipt.

(d) Conflicts of interest. (1) Official personnel shall not perform or participate in performing an inspection service on a commodity or a carrier or container in which the official personnel have a direct or indirect financial interest.

(2) Official personnel shall not perform, participate in performing, or issue a certificate if the official personnel participated in a previous inspection or certification of the lot unless there is only one authorized person available at the time and place of the requested inspection service.

§ 868.31 Kinds of inspection services.

(a) General. The inspection of commodities shall be according to the—

(1) Standards of class, grade, other quality designation, quantity, or condition for such commodities promulgated by the Administrator; or

(1) Original lot inspection service. The sample(s) on which the original inspection is determined shall be—

(i) Obtained by official personnel;

(ii) Representative of the commodity in the lot;

(iii) Obtained under conditions that ensure the sample is representative of the lot.

—Compliance with the requirements in this paragraph does not excuse failure to comply with all applicable sanitation rules and regulations of city, county, State, Federal, or other agencies having jurisdiction over such plants and operations.
(iii) Protected by official personnel from manipulation, substitution, and improper or careless handling; and

(iv) Obtained within the prescribed area of responsibility of the cooperator or field office performing the inspection service.

A sampling report signed by the sampler shall accompany each sample. The report shall include the identity, quantity, and location of the commodity sampled; the name and mailing address of the applicant; and all other information regarding the lot as may be required.

(c) Representative sample. A sample shall not be considered representative of a commodity lot unless the sample—

(1) Has been obtained by official personnel;

(2) Is of the size prescribed in the instructions; and

(3) Has been obtained, handled, and submitted in accordance with the instructions.

(d) Protecting samples. Official personnel shall protect samples from manipulation, substitution, and improper and careless handling which would deprive the samples of their representativeness or which would change the physical and chemical properties of the commodity from the time of sampling until inspection services are completed and file samples have been discarded.

§ 868.34 Partial inspection.

When the entire lot is not accessible for examination or a representative sample cannot be obtained from the entire lot, the certificate shall state the estimated quantity of the commodity in the accessible portion and the quantity of the entire lot. The inspection shall be limited to the accessible portion. In addition, the words “Partial Inspection” shall be printed or stamped on the certificate.

§ 868.35 Sampling provisions by level of service.

633
instructions shall be considered representative for retest inspection, appeal inspection, and Board appeal inspection service if: (i) The file samples have remained at all times in the custody and control of the official personnel that performed the inspection service and (ii) the official personnel who performed the inspection service in question and those who are to perform the retest inspection, the appeal inspection, or the Board appeal inspection service determines that the samples were representative of the commodity at the time the inspection service was performed and that the quality or condition of the commodity in the samples has not since changed.

(2) Certificate statement. The certificate for a retest inspection, appeal inspection, or Board appeal inspection service which is based on a file sample shall show the statement "Results based on file sample."

§ 868.36 Loss of identity.

(2) More commodity or other material, including a fumigant or insecticide, is added to the lot after the original inspection was performed, unless the addition of the fumigant or insecticide was performed in accordance with the instructions; or

(3) At the option of official personnel performing an appeal inspection or Board appeal inspection service, the identity of a commodity in a closed carrier or container may be considered lost if the carrier or container is not sealed or the seal record is incomplete.

(b) Carriers and containers. The identity of a carrier or container shall be considered lost if:

At their discretion, official personnel may withhold inspection service pending receipt of the required documentation.

(b) Request requirements. Requests for original inspection service, other than submitted sample inspections, must be made with the cooperator or the Service responsible for the area in which the service will be provided. Requests for submitted sample inspections may be made with any cooperator or any field office that provides original inspection service. Requests for inspection of commodities during loading, unloading, handling, or processing shall be received far enough in advance so official personnel can be present.

§ 868.44 New original inspection.

When circumstances prevent a retest inspection, appeal inspection, or Board appeal inspection, an applicant may request a new original inspection on any previously inspected lot; except that a new original inspection may not be performed on an identifiable commodity lot which, as a result of a previous inspection, was found to be contaminated with filth, other than insect fragments in nongraded processed products, or to contain a deleterious substance. A new original inspection shall be based on a new sample and shall not be restricted to the scope of any previous inspection. A new original inspection certificate shall not supersede any previously issued certificate.

§ 868.50 Who may request retest inspection service.

(a) General. Any interested person may request a retest inspection service on nongraded commodities. When more than one interested person requests a retest inspection service, the first interested person to file is the applicant of record. Only one retest inspection service may be performed on any original inspection service.

(b) Scope of request. A retest inspection service may be requested for any or all quality factors tested but shall be limited to analysis of the file sample.

§ 868.51 How to request retest inspection service.

(a) General. Requests shall be made with the field office responsible for the area in which the original inspection service was performed. Verbal requests shall be confirmed in writing, upon request, as specified in §868.21. Copies of request forms may be obtained from the field office upon request. If at the time the request is filed and the documentation required by §868.21 is not available, official personnel may, at their discretion, withhold service pending the receipt of the required documentation.

(b) Request requirements. Requests will be considered filed on the date they are received by official personnel.

(Approved by the Office of Management and Budget under control number 0580–0012)

(1) Each retest inspection certificate shall clearly show the term “Retest” and a statement identifying the superseded original certificate. The superseded certificate shall be considered null and void as of the date of the retest certificate. When applicable, the certificate shall also show a statement as to which factor(s) result is based on the retest inspection service and that all other results are those of the original inspection service.

(2) If the superseded certificate is in the custody of the Service, the superseded certificate shall be marked “Void.” If the superseded certificate is not in the custody of the Service at the time the retest certificate is issued, a statement indicating that the superseded certificate has not been surrendered shall be shown on the retest certificate.

§ 868.60 Who may request appeal inspection service.

(a) General. Any interested person may request appeal inspection or Board appeal inspection service. When more than one interested person requests an appeal inspection or Board appeal inspection service, the first interested person to file is the applicant of record. retest inspection service for nongraded commodities. Only one Board appeal inspection may be obtained from any original or appeal inspection service for graded commodities. Board appeal inspection shall be performed on the basis of the file sample.

(b) Kind and scope of request. When the results for more than one kind of service are reported on a certificate, an appeal inspection or Board appeal inspection service, as applicable, may be requested on any or all kinds of services reported on the certificate. The scope of an appeal inspection service will be limited to the scope of the original inspection or, in the case of a Board appeal inspection service, the original or appeal inspection service. A request for appeal inspection of a retest inspection will be based upon the scope of the original inspection. If the request specifies a different scope, the request shall be dismissed. An appeal inspection for grade shall include a review of all factors that: (1) Determine the grade and (2) are reported on the original or, in the case of a Board appeal inspection, the original or appeal inspection certificate.

Except as may be agreed upon by the interested persons, the application shall be made: (i) Before the rice has left the place where the inspection being appealed was performed and (ii) no later than the close of business on the second business day following the date of the inspection being appealed. However, the Administrator may extend the time requirement as deemed necessary.

(2) Subject to the limitations of paragraph (b)(3) of this section, the applicant may request that an appeal inspection be based on: (i) The file sample or (ii) a new sample. However, an appeal inspection shall be based on a new sample only if the lot can positively be identified by official personnel as the one that was previously inspected and the entire lot is available and accessible for sampling and inspection. Board appeals shall be on the basis of the file sample.

(3) An appeal inspection shall be limited to a review of the sampling procedure and an analysis of the file sample when, as a result of a previous inspection, the commodity was found to be contaminated with filth (other than insect fragments in nongraded processed products) or to contain a deleterious substance. If it is determined that the sampling procedures were improper, a new sample shall be obtained if the lot can be positively identified as the lot which was previously inspected and the entire lot is available and accessible for sampling and inspection.

(Approved by the Office of Management and Budget under control number 0580–0012)

§ 868.62 Who shall perform appeal inspection service.

(d) Who may issue a certificate. (1) Authority. Certificates for inspection services may be issued only by official personnel who are specifically authorized or licensed to perform and certify the results reported on the certificate.

(2) Exception. The person in the best position to know whether the service was performed in an approved manner and that the determinations are accurate and true should issue the certificate. If the inspection is performed by one person, the certificate should be issued by that person. If an inspection is performed by two or more persons, the certificate should be issued by the person who makes the majority of the determinations or the person who makes the final determination. The Service shall issue a termination notice 60 days before the termination date. The notice shall give detailed instructions for requesting renewal of license, state whether a reexamination is required, and, if a reexamination is required, give the scope of the examination. Failure to receive a notice from the Service shall not exempt a licensee from the responsibility of having the license renewed by the termination date.
(2) Exception. The license of an individual under contract with the Service shall terminate upon termination of the contract.

(d) **Surrender of license.** Each license that is terminated or which is suspended or revoked under §868.84 shall be promptly surrendered to the Administrator or other official of the Service designated by the Administrator.

(Approved by the Office of Management and Budget under control number 0580–0012)

§ 868.82 Voluntary cancellation or suspension of license.

Upon request by a licensee, the Service may cancel a license or suspend a license for a period of time not to exceed 1 year. A license that has been voluntarily suspended shall be returned by the Service upon request by the licensee within 1 year, subject to the provisions of §868.81(a) and (b); a license that has been cancelled shall be considered void and shall not be subject to return or renewal.

§ 868.83 Automatic suspension of license by change in employment.

A license issued to an individual shall be automatically suspended when the individual ceases to be employed by the cooperator. If the individual is reemployed by the cooperator or employed by another cooperator within 1 year of the suspension date and the license has not terminated in the interim, upon request of the licensee, the license will be reinstated subject to the provisions of §868.81(a) and (b).

§ 868.84 Suspension or revocation of license.

(a) **General.** (1) An inspector’s, technician’s, or sampler’s license may be suspended or revoked if the licensee: (i) Willfully, carelessly, or through incompetence fails to perform the duties specified in the Act, regulations, standards, or the instructions or (ii) becomes incapable of performing required duties.

(2) A license may not be suspended or revoked until the individual: (i) Has been served notice, in person or by registered mail, that suspension or revocation of the license is under consideration for reasons set out in the notice and (ii) has been given an opportunity for a hearing.

(b) **Procedure for summary action.** In cases where the public health, interest, or safety require, the Administrator may summarily suspend an inspector’s, technician’s, or sampler’s license without prior hearing. In such cases, the licensee shall be advised of the factors which appear to warrant suspension or revocation of the license. The licensee shall be accorded an opportunity for a hearing before the license is finally suspended or revoked.

(c) **Procedures for other than summary action.** Except in cases of willfulness or those described in paragraph (b) of this section, the Administrator, before instituting proceedings for the suspension or revocation of a license, shall provide the licensee an opportunity to demonstrate or achieve compliance with the Act, regulations, standards, and instructions. If the licensee does not demonstrate or achieve compliance, the Administrator may institute proceedings to suspend or revoke the license.

(The information collection requirements contained in paragraph (c) have been approved by the Office of Management and Budget under control number 0580–0012)

¹ Fees apply to determinations (original or appeals) for kind, class, grade, factor analysis, equal to type, milling yield, or any other quality designation as defined in the U.S. Standards for Rice or applicable instructions, whether performed singly or in combination at other than the applicant’s facility.
² Interpretive line samples may be purchased from the U.S. Department of Agriculture, GIPSA, FGIS, Technical Services Division, 10363 N. Ambassador Drive, Kansas City, Missouri 64153–1394. Interpretive line samples also are available for examination at selected FGIS field offices. A list of field offices may be obtained from the Director, Field Management Division, USDA, GIPSA, FGIS, 1400 Independence Avenue, SW, STOP 8630, Washington, D.C. 20250–8630. The interpretive line samples illustrate the lower limit for milling degrees only and the color limit for the factor “Parboiled Light” rice.
³ Fees for other services not referenced in table 2 will be based on the noncontract hourly rate listed in § 868.90, table 1.
§ 868.92  Explanation of service fees and additional fees.

(a) Costs included in the fees. Fees for official services in §§868.90 and 868.91 include—

(1) The cost of performing the service and related supervision and administrative costs;

(2) The cost of per diem, subsistence, mileage, or commercial transportation to perform the service for rice inspection only in §868.91, table 1. See §868.90, table 1, footnote 1, for fees for inspection of commodities other than rice.

(3) The cost of first-class mail service;

(4) The cost of overtime and premium pay; and

(5) The cost of certification except as provided in §868.92(c).

(b) Computing hourly rates. Hourly fees will be assessed in quarter hour increments for—

(1) Travel from the FGIS field office or assigned duty location to the service point and return; and

(2) The performance of the requested service, less mealtime.

(c) Additional fees. Fees in addition to the applicable hourly or unit fee will be assessed when—

(1) An applicant requests more than the original and three copies of a certificate;

(2) An applicant requests onsite typing of certificates or typing of certificates at the FGIS field office during other than normal working hours; and

(3) An applicant requests the use of express-type mail or courier service.

(d) Application of fees when service is delayed by the applicant. Hourly fees will be assessed when—

(1) Service has been requested at a specified location;

(2) A Service representative is on duty and ready to provide service but is unable to do so because of a delay not caused by the Service; and

(3) FGIS officials determine that the Service representative(s) cannot be utilized elsewhere or cannot be released without cost to the Service.

(e) Application of fees when an application for service is withdrawn or dismissed. Hourly fees will be assessed to the applicant for the scheduled service if the request is withdrawn or dismissed after the Service representative departs for the service point or if the request for service is not withdrawn or dismissed by 2 p.m. of the business day preceding the date of scheduled service. However, hourly fees will not be assessed to the applicant if FGIS officials determine that the Service representative can be utilized elsewhere or if the Service representative can be released without cost to the Service.

(f) To whom fees are assessed. Fees for official services including additional fees as provided in §868.92(c) shall be assessed to and paid by the applicant for the Service.

(g) Advance payment. As necessary, the Administrator may require that fees shall be paid in advance of the performance of the requested service. Any fees paid in excess of the amount due shall be used to offset future billings, unless a request for a refund is made by the applicant.

(h) Time and form of payment. (1) Fees for Federal inspection service. Bills for fees assessed under the regulations for official services performed by FGIS shall be paid by check, draft, or money order, payable to U.S. Department of Agriculture, Federal Grain Inspection Service.

(2) Fees for cooperator inspection service. Fees for inspection services provided by a cooperator shall be paid by the applicant to the cooperator in accordance with the cooperator’s fee schedule.

Subpart B—Marketing Standards

§ 868.101 General information.

The Grain Inspection, Packers and Stockyards Administration (GIPSA) of the U.S. Department of Agriculture (USDA) facilitates the fair and efficient marketing of agricultural products by maintaining voluntary grade standards for Beans, Whole Dry Peas, Split Peas, and Lentils, which provide a uniform language for describing the quality of these commodities in the
marketplace. These standards may cover (but are not limited to) terms, classes, quality levels, performance criteria, and inspection requirements. Procedures contained in this part set forth the process which GIPSA will follow in developing, issuing, revising, suspending, or terminating the U.S. standards for Beans, Whole Dry Peas, Split Peas, and Lentils. Communications about GIPSA standards in general should be addressed to the Administrator, GIPSA, USDA, 1400 Independence Avenue, S.W., Washington, D.C. 20250–3601.

§ 868.102 Procedures for establishing and revising grade standards.
(a) GIPSA will develop, revise, suspend, or terminate grade standards if it determines that such action is in the public interest. GIPSA encourages interested parties to participate in the review, development, and revision of grade standards. Interested parties include growers, producers, processors, shippers, distributors, consumers, trade associations, companies, and State or Federal agencies. Such persons may at any time recommend that GIPSA develop, revise, suspend, or terminate a grade standard. Requests for action should be in writing, and should be accompanied by a draft of the suggested change, as appropriate.
(b) GIPSA will:
(1) Determine the need for new or revised standards;
(2) Collect technical, marketing, or other appropriate data;
(3) Conduct research regarding new or revised standards, as appropriate; and
(4) Draft the proposed standards.
(c) If GIPSA determines that new standards are needed, existing standards need to be revised, or the suspension or termination of existing standards is justified, GIPSA will undertake the action with input from interested parties.

§ 868.103 Public notification of grade standards action.
(a) After developing a standardization proposal, GIPSA will publish a notice in the Federal Register proposing new or revised standards or suspending or terminating existing standards. The notice will provide a sufficient comment period for interested parties to submit comments.
(b) GIPSA will simultaneously issue a news release about these actions, notifying the affected industry and general public. GIPSA will also distribute copies of proposals to anyone requesting a copy or to anyone it believes may be interested, including other Federal, State, or local government agencies.
(c) All comments received within the comment period will be made part of the public record maintained by GIPSA, will be available to the public for review, and will be considered by GIPSA before final action is taken on the proposal.
(d) Based on the comments received, GIPSA’s knowledge of standards, grading, marketing, and other technical factors, and any other relevant information, GIPSA will decide whether the proposed actions should be implemented.
(e) If GIPSA concludes that the changes as proposed or with appropriate modifications should be adopted, GIPSA will publish the final changes in the Federal Register as a final notice. GIPSA will make the grade standards and related information available in printed form and electronic media.
(f) If GIPSA determines that proposed changes are not warranted, or otherwise are not in the public interest, GIPSA will either publish in the Federal Register a notice withdrawing the proposal, or will revise the proposal and again seek public input.

Subpart C—United States Standards for Rough Rice

NOTE TO THE SUBPART: Compliance with the provisions of these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal laws.

SOURCE: 42 FR 40869, Aug. 12, 1977; 42 FR 64356, Dec. 23, 1977, unless otherwise noted.
§ 868.201 Definition of rough rice.

Rice (Oryza sativa L.) which consists of 50 percent or more of paddy kernels (see §868.202(i)) of rice.

[34 FR 7863, May 17, 1969. Redesignated and amended at 60 FR 16364, 16365, Mar. 30, 1995]

§ 868.202 Definition of other terms.

For the purposes of these standards, the following terms shall have the meanings stated below:

(a) Broken kernels. Kernels of rice which are less than three-fourths of whole kernels.

(b) Chalky kernels. Whole or large broken kernels of rice which are one-half or more chalky.

(c) Classes. The following four classes:
- Long Grain Rough Rice
- Medium Grain Rough Rice
- Short Grain Rough Rice
- Mixed Rough Rice

Classes shall be based on the percentage of whole kernels, large broken kernels, and types of rice.

(1) “Long grain rough rice” shall consist of rough rice which contains more than 25 percent of whole kernels and which after milling to a well-milled degree, contains not more than 10 percent of whole or broken kernels of medium or short grain rice.

(2) “Medium grain rough rice” shall consist of rough rice which contains more than 25 percent of whole kernels and which after milling to a well-milled degree, contains not more than 10 percent of whole or large broken kernels of medium or short grain rice.

(3) “Short grain rough rice” shall consist of rough rice which contains more than 25 percent of whole kernels and which, after milling to a well-milled degree, contains not more than 10 percent of whole or large broken kernels of long grain rice or whole kernels of short grain rice.

(4) “Mixed rough rice” shall consist of rough rice which contains more than 25 percent of whole kernels and which, after milling to a well-milled degree, contains not more than 10 percent of “other types” as defined in paragraph (h) of this section.

(d) Damaged kernels. Whole or broken kernels of rice which are distinctly discolored or damaged by water, insects, heat, or any other means, and whole or large broken kernels of parboiled rice in non-parboiled rice. “Heat-damaged kernels” (see paragraph (e) of this section) shall not function as damaged kernels.

(e) Heat-damaged kernels. Whole or large broken kernels of rice which are materially discolored and damaged as a result of heating, and whole or large broken kernels of parboiled rice in non-parboiled rice which are as dark as, or darker in color than, the interpretive line for heat-damaged kernels.

(f) Milling yield. An estimate of the quantity of whole kernels and total milled rice (whole and broken kernels combined) that are produced in the milling of rough rice to a well-milled degree.

(g) Objectionable seeds. Seeds other than rice, except seeds of Echinochloa crusgalli (commonly known as barnyard grass, watergrass, and Japanese millet).

(h) Other types. (1) Whole kernels of:
- Long grain rice in medium or short grain rice,
- Medium grain rice in long or medium grain rice,
- Short grain rice in long or medium grain rice,
- Large broken kernels of long grain rice in medium or short grain rice and large broken kernels of medium or short grain rice in long grain rice.

Note: Broken kernels of medium grain rice in short grain rice and large broken kernels of short grain rice in medium grain rice shall not be considered other types.

(2) Paddy kernels. Whole or broken unhulled kernels of rice.

(j) Red rice. Whole or large broken kernels of rice on which there is an appreciable amount of red bran.

(k) Seeds. Whole or broken seeds of any plant other than rice.

(l) Smutty kernels. Whole or broken kernels of rice which are distinctly infected by smut.

(m) Types of rice. The following three types:
- Long grain
- Medium grain
- Short grain

Types shall be based on the length–width ratio of kernels of rice that are unbroken and the width, thickness, and shape of kernels of rice that are broken as prescribed in FGIS instructions.
§ 868.207 Moisture.

Water content in rough rice as determined by the use of an approved device in accordance with procedures prescribed in FGIS instructions. For the purpose of this paragraph, “approved device” shall include the McGill Miller No. 3 and any other equipment that is approved by the Administrator as giving equivalent results.

§ 868.208 Milling yield determination.

Milling yield shall be determined by the use of an approved device in accordance with procedures prescribed in FGIS instructions. For the purpose of this paragraph, “approved device” shall include the McGill Miller No. 3 and any other equipment that is approved by the Administrator as giving equivalent results.

Note: Milling yield shall not be determined when the moisture content of the rough rice exceeds 18.0 percent.

§ 868.208 Percentages.

(a) Rounding. Percentages are determined on the basis of weight and are rounded as follows:

(1) When the figure to be rounded is followed by a figure greater than or equal to 5, round to the next higher figure; e.g., report 6.36 as 6.4, 0.35 as 0.4, and 2.45 as 2.5.

(2) When the figure to be rounded is followed by a figure less than 5, retain the figure; e.g., report 8.34 as 8.3 and 1.22 as 1.2.

(b) Recording. All percentages, except for milling yield, are stated in whole and tenth percent to the nearest tenth percent. Milling yield is stated to the nearest whole percent.

[54 FR 21403, May 18, 1989. Redesignated at 60 FR 16364, Mar. 30, 1995]

§ 868.209 Information.

Requests for the Rice Inspection Handbook, Equipment Handbook, or for information concerning approved devices and procedures, criteria for approved devices, and requests for approval of devices should be directed to the U.S. Department of Agriculture, Federal Grain Inspection Service, P.O. Box 96454, Washington, DC 20090–6454, or any field office or cooperator.

(b) The grade designation for the class Mixed Rough Rice shall include, in the following order: (1) The letters “U.S.”; (2) the number of the grade or the words “Sample grade,” as warranted; (3) the words “or better,” when applicable and requested by the applicant prior to inspection; (4) the class; (5) each applicable special grade (see §868.213); (6) the percentage of whole kernels of each type in the order of predominance; (7) the percentage of large broken kernels of each type in the order of predominance; (8) the percent of material removed by the No. 6 sieve or the No. 6 sizing plate; (9) when applicable, the percentage of seeds; and (10) a statement of the milling yield.

Note: Large broken kernels other than long grain, in Mixed Rough Rice, shall be certificated as “medium or short grain.”

§ 868.212 Special grades and requirements.

A special grade, when applicable, is supplemental to the grade assigned under §868.210. Such special grades for rough rice are established and determined as follows:

(a) Infested rough rice. Tolerances for live insects for infested rough rice are defined according to sampling designations as follows:

(1) Representative sample. The representative sample consists of the work portion, and the file sample if needed

and when available. The rough rice (except when examined according to paragraph (a)(3) of this section will be considered infested if the representative sample contains two or more live weevils, or one live weevil and one or more other live insects injurious to stored rice or five or more other live insects injurious to stored rice.

(2) Lot as a whole (stationary). The lot as a whole is considered infested when two or more live weevils, or one live weevil and one or more other live insects injurious to stored rice, or five or more other live insects injurious to stored rice, or 15 or more live Angoumois moths or other live moths injurious to stored rice are found in, on, or about the lot.

(3) Sample as a whole during continuous loading/unloading. The minimum sample size for rice being sampled during continuous loading/unloading is 500 grams per each 100,000 pounds of rice. The sample as a whole is considered infested when a component (as defined in FGIS instructions) contains two or more live weevils, or one live weevil and one or more other live insects injurious to stored rice, or five or more other live insects injurious to stored rice, or 15 or more live Angoumois moths or other live moths injurious to stored rice are found in, on, or about the lot.

(b) Parboiled rough rice. Parboiled rough rice shall be rough rice in which the starch has been gelatinized by soaking, steaming, and drying. Grades U.S. No. 1 to U.S. No. 6 inclusive, shall contain not more than 10.0 percent of ungelatinized kernels. Grades U.S. No. 1 and U.S. No. 2 shall contain not more than 0.1 percent, grades U.S. No. 3 and U.S. No. 4 not more than 0.2 percent, and grades U.S. No. 5 and U.S. No. 6 not more than 0.5 percent of nonparboiled rice. If the rice is: (1) Not distinctly colored by the parboiling process, it shall be considered “Parboiled Light”; (2) distinctly but not materially colored by the parboiling process, it shall be considered “Parboiled”; (3) materially colored by the parboiling process, it shall be considered “Parboiled Dark.” The color levels for “Parboiled Light,” “Parboiled,” and “Parboiled Dark” rice shall be in accordance with
§ 868.213 Special grade designation.

The grade designation for infested, parboiled, smutty, glutinous, or aromatic rough rice shall include, following the class, the word(s) “Infested,” “Parboiled,” “Parboiled Light,” “Parboiled Dark,” “Smutty,” “Glutinous,” or “Aromatic,” as warranted, and all other information prescribed in § 868.211.
