Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 ..............................................................as of January 1
- Title 17 through Title 27 .................................................................as of April 1
- Title 28 through Title 41 ..............................................................as of July 1
- Title 42 through Title 50 ..............................................................as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 2002), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96–511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBsolete ProvisionS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, or 1973–1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

IncorPoration by Reference

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

Properly approved incorporations by reference in this volume are listed in the Finding Aids at the end of this volume.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed in the Finding Aids of this volume as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, Washington DC 20408, or call (202) 523–4534.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.
REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

(a) The term *Act* means Public Act No. 10, 73 Congress (48 Stat. 31), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246), as amended.

(e) The term *Administrator* means the Administrator of the Agricultural Marketing Service, with power to redelegate, or any officer or employee of the Department to whom authority has been delegated or may hereafter be delegated to act in his stead.

(f) [Reserved]

(g) The term *Federal Register* means the publication provided for by the act of July 26, 1935 (49 Stat. 500), and acts supplementary thereto and amendatory thereof.

(h) The term *hearing* means that part of the proceeding which involves the submission of evidence.

(i) The term *marketing agreement* means any marketing agreement or any amendment thereto which may be entered into pursuant to section 8b of the act.

(l) The term hearing clerk means the hearing clerk, United States Department of Agriculture, Washington, DC.

§ 900.3 Proposals.

(a) A marketing agreement or a marketing order may be proposed by the Secretary or by any other person. If any person other than the Secretary proposes a marketing agreement or marketing order, he shall file with the Administrator a written application, together with at least four copies of the proposal, requesting the Secretary to hold a hearing upon the proposal. Upon receipt of such proposal, the Administrator shall cause such investigation to be made and such consideration thereof to be given as, in his opinion, are warranted. If the investigation and consideration lead the Administrator to conclude that the proposed marketing agreement or marketing order will not tend to effectuate the declared policy of the act, or that for other proper reasons a hearing should not be held on the proposal, he shall deny the application, and promptly notify the applicant of such denial, which notice shall be accompanied by a brief statement of the grounds for the denial.

(b) If the investigation and consideration lead the Administrator to conclude that the proposed marketing agreement or marketing order will tend to effectuate the declared policy of the act, or that for other proper reasons a hearing should be held on the proposal, he shall deny the application, and promptly notify the applicant of such denial, which notice shall be accompanied by a brief statement of the grounds for the denial.

§ 900.4 Institution of proceeding.

(a) Filing and contents of the notice of hearing. The proceeding shall be instituted by filing the notice of hearing with the hearing clerk. The notice of hearing shall contain a reference to the authority under which the marketing agreement or marketing order is proposed; shall define the scope of the hearing as specifically as may be practicable; shall contain either the terms or substance of the proposed marketing agreement or marketing order or a description of the subjects and issues involved and shall state the industry, area, and class of persons to be regulated, the time and place of such hearing, and the place where copies of such proposed marketing agreement or marketing order may be obtained or examined. The time of the hearing shall not be less than 15 days after the date of publication of the notice in the FEDERAL REGISTER, as provided in this subpart, unless the Administrator shall determine that an emergency exists which requires a shorter period of notice, in which case the period of notice shall be that which the Administrator may determine to be reasonable in the circumstances: Provided. That, in the case of hearings on amendments to marketing agreements or marketing orders, the time of the hearing may be less than 15 days but shall not be less than 3 days after the date of publication of the notice in the FEDERAL REGISTER.

(b) Giving notice of hearing and supplemental publicity. (1) The Administrator shall give or cause to be given notice of hearing in the following manner:

(i) By publication of the notice of hearing in the FEDERAL REGISTER;

(ii) By mailing a true copy of the notice of hearing to each of the persons known to the Administrator, to be interested therein;

(iii) By issuing a press release containing the complete text or a summary of the contents of the notice of hearing and making the same available to such newspapers in the area proposed to be subjected to regulation as reasonably will tend to bring the notice to the attention of the persons interested therein;

(iv) By forwarding copies of the notice of hearing addressed to the governors of such of the several States of the United States and to executive heads of such of the Territories and possessions of the United States as the Administrator, having due regard for the subject matter of the proposal and the public interest, shall determine, should be notified.

(2) Legal notice of the hearing shall be deemed to be given if notice is given in the manner provided in paragraph (b)(1)(i) of this section; and failure to give notice in the manner provided in
§ 900.5 Docket number.

Each proceeding, immediately following its institution, shall be assigned a docket number by the hearing clerk and thereafter the proceeding may be referred to by such number.

§ 900.6 Judges.

(a) Assignment. No judge who has any pecuniary interest in the outcome of a proceeding shall serve as judge in such proceeding.

(b) Powers of judges. Subject to review by the Secretary, as provided elsewhere in this subpart, the judge, in any proceeding, shall have power to:

(1) Rule upon motions and requests;
(2) Change the time and place of hearing, and adjourn the hearing from time to time or from place to place;
(3) Administer oaths and affirmations and take affidavits;
(4) Examine and cross-examine witnesses and receive evidence;
(5) Admit or exclude evidence;
(6) Hear oral argument on facts or law;
(7) Do all acts and take all measures necessary for the maintenance of order at the hearing and the efficient conduct of the proceeding.

(c) Who may act in absence of judge. In case of the absence of the judge or his inability to act, the powers and duties to be performed by him under this part in connection with a proceeding may, without abatement of the proceeding unless otherwise ordered by the Secretary, be assigned to any other judge.

(d) Disqualification of judge. The judge may at any time withdraw as judge in a proceeding if he deems himself to be disqualified. Upon the filing by an interested person in good faith of a timely and sufficient affidavit of personal bias or disqualification of a judge, the Secretary shall determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

§ 900.7 Motions and requests.

(a) General. All motions and requests shall be filed with the hearing clerk, except that those made during the course of the hearing may be filed with the judge or may be stated orally and made a part of the transcript. Except as provided in §900.15(b) such motions and requests shall be addressed to, and ruled on by, the presiding officer if made prior to his certification of the transcript pursuant to §900.10 or by the Secretary if made thereafter.

(b) Certification to Secretary. The judge may in his discretion submit or certify to the Secretary for decision any motion, request, objection, or other question addressed to the judge.

§ 900.8 Conduct of the hearing.

(a) Time and place. The hearing shall be held at the time and place fixed in the notice of hearing, unless the judge shall have changed the time or place, in which event the judge shall file with the hearing clerk a notice of such change, which notice shall be given in the same manner as provided in §900.4 (relating to the giving of notice of the hearing): Provided, That, if the change in time or place of hearing is made less than 5 days prior to the date previously fixed for the hearing, the judge, either in addition to or in lieu of causing the notice of the change to be given, shall
announce, or cause to be announced, the change at the time and place previously fixed for the hearing.

(b) Appearances—(1) Right to appear. At the hearing, any interested person shall be given an opportunity to appear, either in person or through his authorized counsel or representative, and to be heard with respect to matters relevant and material to the proceeding. Any interested person who desires to be heard in person at any hearing under these rules shall, before proceeding to testify, state his name, address, and occupation. If any such person is appearing through a counsel or representative, such person or such counsel or representative shall, before proceeding to testify or otherwise to participate in the hearing, state for the record the authority to act as such counsel or representative, and the names and addresses and occupations of such person and such counsel or representative. Any such person or such counsel or representative shall give such other information respecting his appearance as the judge may request.

(2) Debarment of counsel or representative. Wherever, while a proceeding is pending before him, the judge finds that a person, acting as counsel or representative for any person participating in the proceeding, is guilty of unethical or unprofessional conduct, the judge may order that such person be precluded from further acting as counsel or representative in such proceeding. An appeal to the Secretary may be taken from any such order, but the proceeding shall not be delayed or suspended pending disposition of the appeal: Provided, That the judge may suspend the proceeding for a reasonable time for the purpose of enabling the client to obtain other counsel or other representative. In case the judge has ordered that a person be precluded from further acting as counsel or representative in the proceeding, the presiding officer, within a reasonable time thereafter shall submit to the Secretary a report of the facts and circumstances surrounding such order and shall recommend what action the Secretary should take respecting the appearance of such person as counsel or representative in other proceedings before the Secretary. Thereafter the Secretary may, after notice and an opportunity for hearing, issue such order, respecting the appearance of such person as counsel or representative in proceedings before the Secretary, as the Secretary finds to be appropriate.

(3) Failure to appear. If any interested person fails to appear at the hearing, he shall be deemed to have waived the right to be heard in the proceeding.

(c) Order of procedure. (1) The judge shall, at the opening of the hearing prior to the taking of testimony, have noted as part of the record the notice of hearing as filed with the Office of the Federal Register and the affidavit or certificate of the giving of notice or the determination provided for in §900.4(c).

(2) Evidence shall then be received with respect to the matters specified in the notice of the hearing in such order as the judge shall announce.

(d) Evidence—(1) In general. The hearing shall be publicly conducted, and the testimony given at the hearing shall be reported verbatim.

(i) Every witness shall, before proceeding to testify, be sworn or make affirmation. Cross-examination shall be permitted to the extent required for a full and true disclosure of the facts.

(ii) When necessary, in order to prevent undue prolongation of the hearing, the judge may limit the number of times any witness may testify to the same matter or the amount of corroborative or cumulative evidence.

(iii) The judge shall, insofar as practicable, exclude evidence which is immaterial, irrelevant, or unduly repetitive, or which is not of the sort upon which responsible persons are accustomed to rely.

(2) Objections. If a party objects to the admission or rejection of any evidence or to any other ruling of the judge during the hearing, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the judge. The transcript shall not include argument or debate thereon except as ordered by the judge. The ruling of the judge on any objection shall be a part of the transcript. Only objections made before the judge may subsequently be relied upon in the proceeding.
§ 900.9

(3) Proof and authentication of official records or documents. An official record or document, when admissible for any purpose, shall be admissible as evidence without the production of the person who made or prepared the same. Such record or document shall, in the discretion of the judge, be evidenced by an official publication thereof or by a copy attested by the person having legal custody thereof and accompanied by a certificate that such person has the custody.

(4) Exhibits. All written statements, charts, tabulations, or similar data offered in evidence at the hearing shall, after identification by the proponent and upon satisfactory showing of the authenticity, relevancy, and materiality of the contents thereof, be numbered as exhibits and received in evidence and made a part of the record. Such exhibits shall be submitted in quadruplicate and in documentary form. In case the required number of copies is not made available, the judge shall exercise his discretion as to whether said exhibits shall, when practicable, be read in evidence or whether additional copies shall be required to be submitted within a time to be specified by the judge. If the testimony of a witness refers to a statute, or to a report or document (including the record of any previous hearing) the judge, after inquiry relating to the identification of such statute, report, or document, shall determine whether the same shall be produced at the hearing and physically be made a part of the evidence as an exhibit, or whether it shall be incorporated into the evidence by reference. If relevant and material matter offered in evidence is embraced in a report or document (including the record of any previous hearing) containing immaterial or irrelevant matter, such immaterial or irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the presiding officer.

(5) Official notice. Official notice may be taken of such matters as are judicially noticed by the courts of the United States and of any other matter of technical, scientific or commercial fact of established character: Provided, That interested persons shall be given adequate notice, at the hearing or subsequent thereto, of matters so noticed and shall be given adequate opportunity to show that such facts are inaccurate or are erroneously noticed.

(6) Offer of proof. Whenever evidence is excluded from the record, the party offering such evidence may make an offer of proof, which shall be included in the transcript. The offer of proof shall consist of a brief statement describing the evidence to be offered. If the evidence consists of a brief oral statement or of an exhibit, it shall be inserted into the transcript in toto. In such event, it shall be considered a part of the transcript if the Secretary decides that the judge’s ruling in excluding the evidence was erroneous. The judge shall not allow the insertion of such evidence in toto if the taking of such evidence will consume a considerable length of time at the hearing. In the latter event, if the Secretary decides that the judge erred in excluding the evidence, and that such error was substantial, the hearing shall be reopened to permit the taking of such evidence.

§ 900.9 Oral and written arguments.

(a) Oral argument before judge. Oral argument before the judge shall be in the discretion of the judge. Such argument, when permitted, may be limited by the judge to any extent that he finds necessary for the expeditious disposition of the proceeding and shall be reduced to writing and made part of the transcript.

(b) Briefs, proposed findings and conclusions. The judge shall announce at the hearing a reasonable period of time within which interested persons may file with the hearing clerk proposed findings and conclusions, and written arguments or briefs, based upon the evidence received at the hearing, citing, where practicable, the page or pages of the transcript of the testimony where such evidence appears. Factual material other than that adduced at the hearing or subject to official notice shall not be alluded to therein, and, in any case, shall not be considered in the formulation of the marketing agreement or marketing
order. If the person filing a brief desires the Secretary to consider any objection made by such person to a ruling of the judge, as provided in §900.8(d), he shall include in the brief a concise statement concerning each such objection, referring where practicable, to the pertinent pages of the transcript.

§ 900.10 Certification of the transcript.

The judge shall notify the hearing clerk of the close of a hearing as soon as possible thereafter and of the time for filing written arguments, briefs, proposed findings and proposed conclusions, and shall furnish the hearing clerk with such other information as may be necessary. As soon as possible after the hearing, the judge shall transmit to the hearing clerk an original and three copies of the transcript of the testimony and the original and all copies of the exhibits not already on file in the office of the hearing clerk. He shall attach to the original transcript of testimony his certificate stating that, to the best of his knowledge and belief, the transcript is a true transcript of the testimony given at the hearing except in such particulars as he shall specify; and that the exhibits transmitted are all the exhibits as introduced at the hearing with such exceptions as he shall specify. A copy of such certificate shall be attached to each of the copies of the transcript of testimony. In accordance with such certificate the hearing clerk shall note upon the official record copy and cause to be noted on other copies, of the transcript each correction detailed therein by adding or crossing out (but without obscuring the text as originally transcribed) at the appropriate place any words necessary to make the same conform to the correct meaning, as certified by the judge. The hearing clerk shall obtain and file certifications to the effect that such corrections have been effected in copies other than the official record copy.

§ 900.11 Copies of the transcript.

(a) During the period in which the proceeding has an active status in the Department, a copy of the transcript and exhibits shall be kept on file in the office of the hearing clerk, where it shall be available for examination during official hours of business. Thereafter said transcript and exhibits shall be made available by the hearing clerk for examination during official hours of business after prior request and reasonable notice to the hearing clerk.

(b) If a personal copy of the transcript is desired, such copy may be obtained upon written application filed with the reporter and upon payment of fees at the rate (if any) provided in the contract between the reporter and the Secretary.

§ 900.12 Administrator’s recommended decision.

(a) Preparation. As soon as practicable following the termination of the period allowed for the filing of written arguments or briefs and proposed findings and conclusions the Administrator shall file with the hearing clerk a recommended decision.

(b) Contents. The Administrator’s recommended decision shall include: (1) A preliminary statement containing a description of the history of the proceedings, a brief explanation of the material issues of fact, law, or discretion presented on the record, and proposed findings and conclusions with respect to such issues as well as the reasons or basis therefor; (2) a ruling upon each proposed finding or conclusion submitted by interested persons, and (3) an appropriate proposed marketing agreement or marketing order effectuating his recommendations.

(c) Exceptions to recommended decision. Immediately following the filing of his recommended decision, the Administrator shall give notice thereof, and opportunity to file exceptions thereto by publication in the Federal Register. Within a period of time specified in such notice any interested person may file with the hearing clerk exceptions to the Administrator’s proposed marketing agreement or marketing order, or both, as the case may be, and a brief in support of such exceptions. Such exceptions shall be in writing, shall refer, where practicable, to the related pages of the transcript and may suggest appropriate changes in the proposed marketing agreement or marketing order.

(d) Omission of recommended decision. The procedure provided in this section may be omitted only if the Secretary
finds on the basis of the record that due and timely execution of his functions imperatively and unavoidably requires such omission.

§ 900.13 Submission to Secretary.

Upon the expiration of the period allowed for filing exceptions or upon request of the Secretary, the hearing clerk shall transmit to the Secretary the record of the proceeding. Such record shall include: All motions and requests filed with the hearing clerk and rulings thereon; the certified transcript; any proposed findings or conclusions or written arguments or briefs that may have been filed; the Administrator’s recommended decision, if any, and such exceptions as may have been filed.

§ 900.13a Decision by Secretary.

After due consideration of the record, the Secretary shall render a decision. Such decision shall become a part of the record and shall include: (a) A statement of his findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law or discretion presented on the record, (b) a ruling upon each proposed finding and proposed conclusion not previously ruled upon in the record, (c) a ruling upon each exception filed by interested persons and (d) either (1) a denial of the proposal to issue a marketing agreement or marketing order or (2) a marketing agreement and, if the findings upon the record so warrant, a marketing order, the provisions of which shall be set forth directly or by reference, regulating the handling of the commodity or product in the same manner and to the same extent as such marketing agreement, which order shall be complete except for its effective date and any determinations to be made under § 900.14(b) or § 900.14(c). Provided, That such marketing order shall not be executed, issued, or made effective until and unless the Secretary determines that the requirements of § 900.14(b) or § 900.14(c) have been met.

§ 900.14 Execution and issuance of marketing agreements and marketing orders.

(a) Execution and issuance of marketing agreement. If the Secretary has approved a marketing agreement, as provided in § 900.13(a), the Administrator shall cause copies thereof to be distributed for execution by the handlers eligible to become parties thereto. If and when such number of the handlers as the Secretary shall deem sufficient shall have executed the agreement, the Secretary shall execute the agreement. After execution of a marketing agreement, such agreement shall be filed with the hearing clerk, and notice thereof, together with notice of the effective date, shall be given by publication in the Federal Register. The marketing agreement shall not become effective less than 30 days after its publication in the Federal Register, unless the Secretary, upon good cause found and published with the agreement, fixes an earlier effective date therefor: Provided, That no marketing agreement shall become effective as to any person signatory thereto before either (1) it has been filed with the Office of the Federal Register, or (2) such person has received actual notice that the Secretary has executed the agreement and the effective date of the marketing agreement.

(b) Issuance of marketing order with marketing agreement. Whenever, as provided in paragraph (a) of this section, the Secretary executes a marketing agreement, and handlers also have executed the same as provided in section 8c(8) of the Act, he shall, if he finds that it will tend to effectuate the purposes of the Act, issue and make effective the marketing order, if any, which was filed as a part of his decision pursuant to § 900.13(a). Provided, That the issuance of such order shall have been approved or favored by producers as required by section 8c(8) of the Act.

(c) Issuance of marketing order without marketing agreement. If, despite the failure or refusal of handlers to sign the marketing agreement, as provided in section 8c(8) of the Act, the Secretary makes the determinations required...
under section 8c(9) of the Act, the Secretary shall issue and make effective the marketing order, if any, which was filed as a part of his decision pursuant to §900.13a.

(d) **Effective date of marketing order.** No marketing order shall become effective less than 30 days after its publication in the **Federal Register**, unless the Secretary, upon good cause found and published with the order, fixes an earlier effective date therefor: **Provided**, That no marketing order shall become effective as to any person sought to be charged thereunder before either (1) it has been filed with the Office of the Federal Register, or (2) such person has received actual notice of the issuance and terms of the marketing order.

(e) **Notice of issuance.** After issuance of a marketing order, such order shall be filed with the hearing clerk, and notice thereof, together with notice of the effective date, shall be given by publication in the **Federal Register**. (7 U.S.C. 610(c).)

§ 900.16 Ex parte communications.

(a) At no stage of the proceeding following the issuance of a notice of hearing and prior to the issuance of the Secretary's decision therein shall an employee of the Department who is or may reasonably be expected to be involved in the decisional process of the proceeding discuss ex parte the merits of the proceeding with any person having an interest in the proceeding or with any representative of such person: **Provided**, That procedural matters and status reports shall not be included within this limitation; and **Provided further**, That an employee of the Department who is or may reasonably be expected to be involved in the decisional process of the proceeding may discuss the merits of the proceeding with such a person if all parties known to be interested in the proceeding have been given notice and an opportunity to participate. A memorandum of any such discussion shall be included in the record of the proceeding.

(b) **Extensions of time.** The time for the filing of any document or paper required or authorized by the foregoing provisions of this subpart to be filed may be extended by the judge before the record is certified by the judge or by the Administrator after the record is so certified by the judge but before it is transmitted to the Secretary, or by the Secretary (after the record is transmitted to the Secretary) upon request filed, and if, in the judgment of the judge, Administrator, or the Secretary, as the case may be, there is good reason for the extension. All rulings made pursuant to this paragraph shall be filed with the hearing clerk.

(c) **Effective date of filing.** Any document or paper required or authorized by the foregoing provisions of this subpart to be filed shall be deemed to be filed when it is postmarked or when it is received by the hearing clerk.

(d) **Computation of time.** Sundays and Federal holidays shall be included in computing the time allowed for the filing of any document or paper: **Provided**, That, when such time expires on a Sunday or legal holiday, such period shall be extended to include the next following business day.

§ 900.17  ex parte communication relevant to the merits of the proceeding except as provided in paragraph (a) of this section.

(c) If an employee of the Department who is or may reasonably be expected to be involved in the decisional process of the proceeding receives or makes a communication prohibited by this section, the Department shall place on the public record of the proceeding:

(1) All such written communications;
(2) Memoranda stating the substance of all such oral communications; and
(3) All written responses, and memoranda stating the substance of all oral responses thereto.

(d) Upon receipt of a communication knowingly made or knowingly caused to be made by a party in violation of this section, the Department may, to the extent consistent with the interest of justice and the policy of the underlying statute, take whatever steps are deemed necessary to nullify the effect of such communication.

(e) For the purposes of this section, ex parte communication means an oral or written communication not on the public record with respect to which reasonable prior notice to all interested parties is not given, but which shall not include requests for status reports (including requests on procedural matters) on any proceeding.

[42 FR 10833, Feb. 24, 1977]

§ 900.17  Additional documents to be filed with hearing clerk.

In addition to the documents or papers required or authorized by the foregoing provisions of this subpart to be filed with the hearing clerk, the hearing clerk shall receive for filing and shall have custody of all papers, reports, records, orders, and other documents which relate to the administration of any marketing agreement or marketing order and which the Secretary is required to issue or to approve.

§ 900.18  Hearing before Secretary.

The Secretary may act in the place and stead of a judge in any proceeding under this subpart. When he so acts the hearing clerk shall transmit the record to the Secretary at the expiration of the period provided for the filing of proposed findings of fact, conclusions and orders, and the Secretary shall thereupon, after due consideration of the record, issue his final decision in the proceeding: Provided, That he may issue a tentative decision in which event the parties shall be afforded an opportunity to file exceptions before the issuance of the final decision.

(b) Contents. The answer shall specify which of the material allegations of fact or of law in the petition are controverted and which are not controverted. The answer also may contain affirmative allegations of fact constituting separate defenses and statements of objections to the sufficiency of the whole or any part of the petition.

§ 900.52b Amended pleadings.

At any time before the close of the hearing the petition or answer may be amended, but the hearing shall, at the request of the adverse party, be adjourned or recessed for such reasonable time as the judge may determine to be necessary to protect the interests of the parties. § 900.53 Withdrawal of petition.

If, at any time after the petition is filed, the petitioner desires to withdraw the same, he shall file with the hearing clerk (or, if filed during the course of a hearing, with the judge) a written request for permission to withdraw. Each proceeding, immediately following its institution, shall be assigned a docket number by the hearing clerk and thereafter the proceeding may be referred to by such number.

(e) Disqualification of judge. The judge may at any time withdraw as judge in a proceeding if he deems himself to be disqualified. Upon the filing by an interested person in good faith of a timely and sufficient affidavit of personal bias or disqualification of a judge, the Secretary shall determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

§ 900.56 Consolidated hearings.
At the discretion of the judge, hearings upon two or more petitions pertaining to the same order may be consolidated, and the evidence taken at such consolidated hearing may be embodied in a single record.

§ 900.57 Intervention.
Intervention in proceedings subject to this subpart shall not be allowed, except that, in the discretion of the Secretary or the judge, any person (other than the petitioner) showing a substantial interest in the outcome of a proceeding shall be permitted to participate in the oral argument and to file a brief.

§ 900.58 Prehearing conferences.
In any proceeding in which it appears that such procedure will expedite the proceeding, the judge, at any time prior to the commencement of or during the course of the hearing, may request the parties or their counsel to appear at a conference before him to consider (a) the simplification of issues; (b) the possibility of obtaining stipulations of fact and of documents which will avoid unnecessary proof; (c) the limitation of the number of expert or other witnesses; and (d) such other matters as may expedite and aid in the disposition of the proceeding. No transcript of such conference shall be made, but the judge shall prepare and file for the record a written summary of the action taken at the conference, which shall incorporate any written stipulations or agreements made by
§ 900.59 Motions and requests.

(a) General. (1) All motions and requests shall be filed with the hearing clerk, except that those made during the course of an oral hearing may be filed with the judge or may be stated orally and made a part of the transcript.

(2) The judge is authorized to rule upon all motions and requests filed or made prior to the transmittal by the hearing clerk to the Secretary of the record as provided in this subpart. The Secretary shall rule upon all motions and requests filed after that time.

(b) Certification of motions. The submission or certification of any motion, request, objection, or other question to the Secretary, as provided in this subpart, shall be in the discretion of the judge.

§ 900.60 Oral hearings before judge.

(a) Time and place. The judge shall set a time and place for hearing and shall file with the hearing clerk a notice stating the time and place of hearing. If any change in the time or place of hearing becomes necessary, it shall be made by the judge, who, in such event, shall file with the hearing clerk a notice of the change. Such notice shall be served upon the parties, unless it is made during the course of an oral hearing and made a part of the transcript.

(b) Appearances—(1) Representation. In any proceeding under the act, the parties may appear in person or by counsel or other representative. The Department, if represented by counsel, shall be represented by an attorney assigned by the General Counsel of the Department, and such attorney shall present or supervise the presentation of the position of the Department.

(2) Debarment of counsel or representative. Whenever, while a proceeding is pending before him, the judge finds that a person acting as counsel or representative for any party to the proceeding is guilty of unethical or unprofessional conduct, the judge may order that such person be precluded from further acting as counsel or representative in such proceeding. An appeal to the Secretary may be taken from any such order, but the proceeding shall not be delayed or suspended pending disposition of the appeal: Provided, That the judge may suspend the proceeding for a reasonable time for the purpose of enabling the client to obtain other counsel or representative. In case the judge has issued an order precluding a person from further acting as counsel or representative in the proceeding, the judge, within a reasonable time thereafter, shall submit to the Secretary a report of the facts and circumstances surrounding the issuance of the order and shall recommend what action the Secretary should take respecting the appearance of such person as counsel or representative in other proceedings before the Secretary. Thereafter, the Secretary may, after notice and an opportunity for hearing, issue such order respecting the appearance of such person as counsel or representative in proceedings before the Secretary as the Secretary finds to be appropriate.

(3) Failure to appear. If the petitioner, after being duly notified, fails to appear at the hearing, he shall be deemed to have authorized the dismissal of the proceeding, without further procedure, and with or without prejudice as the judge may determine. In the event that the petitioner appears at the hearing and no representative of the Department appears, the judge shall proceed ex parte to hear the evidence of the petitioner. Provided, That failure on the part of such representative of the Department to appear at a hearing shall not be deemed to be waiver of the Department’s right to file suggested findings of fact, conclusions and order; to
be served with a copy of the judge’s initial decision and to appeal to the Secretary with respect thereto.

(c) Order of proceeding. Except as may be determined otherwise by the judge, the petitioner shall proceed first at the hearing.

(d) Evidence—(1) In general. The hearing shall be publicly conducted, and the testimony given at the hearing shall be reported verbatim.

(i) The testimony of witnesses at a hearing shall be upon oath or affirmation and subject to cross-examination.

(ii) Any witness may, in the discretion of the judge, be examined separately and apart from all other witnesses except those who may be parties to the proceeding.

(iii) The judge shall exclude, insofar as practicable, evidence which is immaterial, irrelevant, or unduly repetitive, or which is not of the sort upon which responsible persons are accustomed to rely.

(2) Objections. If a party objects to the admission or rejection of any evidence or to the limitation of the scope of any examination or cross-examination, or any other ruling of the judge, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow which may be pursued in an appeal pursuant to §900.65 by the party adversely affected by the judge’s ruling.

(3) Depositions. The deposition of any witness shall be admitted, in the manner hereinafter provided in and subject to the provisions of §900.61.

(4) Affidavits. Except as is otherwise provided in this subpart, affidavits may be admitted only if the evidence is otherwise admissible and the parties agree (which may be determined by their failure to make timely objections) that affidavits may be used.

(5) Proof and authentication of official records or documents. An official record or document, when admissible for any purpose, shall be admissible in evidence without the production of the person who made or prepared the same. Such record or document shall, in the discretion of the judge, be evidenced by an official publication thereof or by a copy attested by the person having legal custody thereof and accompanied by a certificate that such person has the custody.

(6) Exhibits. All written statements, charts, tabulations, or similar data offered in evidence at the hearing shall, after identification by the proponent and upon a satisfactory showing of the admissibility of the contents thereof, be numbered as exhibits and received in evidence and made a part of the record. Except where the judge finds that the furnishing of copies is impracticable, a copy of each exhibit, in addition to the original, shall be filed with the judge for the use of each other party to the proceeding. The judge shall advise the parties as to the exact number of copies which will be required to be filed and shall make and have noted on the record the proper distribution of the copies. If the testimony of a witness refers to a statute, or to a report, document, or transcript, the judge, after inquiry relating to the identification of such statute, report, document, or transcript, shall determine whether the same shall be produced at the hearing and physically be made a part of the evidence as an exhibit, or whether it shall be incorporated into the evidence by reference. If relevant and material matter offered in evidence is embraced in a report, document, or transcript containing immaterial or irrelevant matter, such immaterial or irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the judge.

(7) Official notice. Official notice will be taken of such matters as are judicially noticed by the courts of the United States and of any other matter of technical, scientific, or commercial fact of established character: Provided, That the parties shall be given adequate notice, at the hearing or by reference in the judge’s report or the tentative order or otherwise, of matters so noticed, and (except where official notice is taken, for the first time in the proceeding, in the final order) shall be given adequate opportunity to show that such facts are erroneously noticed.

(8) Offer of proof. Whenever evidence is excluded from the record, the party offering such evidence may make an offer of proof, which shall be included
§ 900.61 Depositions.

(a) Procedure in lieu of deposition. Before any party may have testimony taken by deposition, said party shall, if practicable, submit to the other party an affidavit which shall set forth the facts to which the witness would testify, if the deposition should be taken. If, after examination of such affidavit, the other party agrees, or (within 10 days after submission of the affidavit) fails to object, that the affidavit may be used in lieu of the deposition, the judge shall admit the affidavit in evidence and shall not order the deposition to be taken.

(b) Application for taking deposition. Upon the application of a party to the proceeding, the judge may, at any time after the filing of the moving paper, order, under the facsimile signature of the Secretary, the taking of testimony by deposition. The application shall be in writing and shall be filed with the hearing clerk and shall set forth: (1) The name and address of the proposed deponent; (2) the name and address of the person (referred to hereinafter in this section as the judge), qualified under the rules in this part to take depositions, before whom the proposed examination is to be made; (3) the proposed time and place of the examination, which shall be at least 15 days after the date of the mailing of the application; and (4) the reasons why such deposition should be taken.

(c) Judge’s order for taking deposition. If, after the examination of the application, the judge is of the opinion that the deposition should be taken, he shall order its taking. The order shall be filed with the hearing clerk and shall be served upon the parties and shall state: (1) The time and place of the examination (which shall not be less than 10 days after the filing of the order); (2) the name of the judge before whom the examination is to be made; (3) the name of the deponent. The judge and the time and place need not be the same as those suggested in the application.

(d) Qualifications of judge. The deposition shall be taken before the judge, or before a judge authorized by the law of the United States or by the law of the place of the examination to administer oaths, or before a judge authorized by the Secretary to administer oaths.

(e) Procedure on examination. (1) The deponent shall be examined under oath or affirmation and shall be subject to cross-examination. The testimony of the deponent shall be recorded by the judge or by some person under his direction and in his presence. In lieu of oral examination, parties may transmit written interrogatories to the judge prior to the examination and the judge shall propound such interrogatories to the deponent.

(2) The applicant must arrange for the examination of the witness either
by oral examination or by written interrogatories. If it is found by the judge, upon the protest of a party to the proceeding, that such party has his residence and his place of business more than 100 miles from the place of the examination and that it would constitute an undue hardship upon such party to be represented at the examination, the applicant will be required to conduct the examination by means of interrogatories. When the examination is conducted by means of interrogatories, copies of the interrogatories shall be served upon the other parties to the proceeding at least five days prior to the date set for the examination, and the other parties shall be afforded an opportunity to file with the judge cross-interrogatories at any time prior to the time of the examination.

(f) Certification by judge. The judge shall certify on the deposition that the deponent was duly sworn by him and that the deposition is a true record of the deponent’s testimony. He shall then securely seal the deposition, together with two copies thereof, in an envelope and mail the same by registered mail to the hearing clerk.

(g) Use of depositions. A deposition ordered and taken in accord with the provisions of this section may be used in a proceeding under the act if the judge finds that the evidence is otherwise admissible and (1) that the witness is dead; or (2) that the witness is at a distance greater than 100 miles from the place of hearing, unless it appears that the absence of the witness was procured by the party offering the deposition; or (3) that the witness is unable to attend or testify because of age, sickness, infirmity, or imprisonment; or (4) that the party offering the deposition has endeavored to procure the attendance of the witness by subpoena but has been unable to do so; or (5) that such exceptional circumstances exist as to make it desirable, in the interests of justice, to allow the deposition to be used. If a deposition has been taken, and the party upon whose application it was taken refuses to offer it in evidence, the other party may offer the deposition, or any part thereof, in evidence.

§ 900.62 Subpenas.

(a) Issuance of subpenas. The attendance of witnesses and the production of documentary evidence from any place in the United States on behalf of any party to the proceeding may, by subpoena, be required at any designated place of hearing. Subpenas may be issued by the Secretary or by the judge, under the facsimile signature of the Secretary, upon a reasonable showing by the applicant of the grounds, necessity, and reasonable scope thereof.

(b) Application for subpoena duces tecum. Subpenas for the production of documentary evidence, unless issued by the judge upon his own motion, shall be issued only upon a certified written application. Such application shall specify, as exactly as possible, the documents desired and shall show their competency, relevancy, and materiality and the necessity for their production.

(c) Service of subpenas. Subpenas may be served (1) by a United States Marshal or his deputy, or (2) by any other person who is not less than 18 years of age, or (3) by registering and mailing a copy of the subpoena addressed to the person to be served at his or its last known residence or principal place of business or residence. Proof of service may be made by the return of service on the subpoena by the United States Marshal or his deputy; or, if served by an individual other than a United States Marshal or his deputy, by an affidavit of such person stating that he personally served a copy of the subpoena addressed to the person named therein; or, if service was by registered mail, by an affidavit made by the person mailing the subpoena that it was mailed as provided in this paragraph and by the signed return postoffice receipt: Provided, That, if the subpoena is issued on behalf of the Department, the return receipt without an affidavit of mailing shall be sufficient proof of service. In making personal service, the person making service shall leave a copy of the subpoena with the person subpoenaed; the original, bearing or accompanied by the required proof of service, shall be returned to the official who issued the same.
§ 900.63 Fees and mileage.
Witnesses who are subpoenaed and who appear in such proceeding, including witnesses whose depositions are taken, shall be paid the same fees and mileage that are paid witnesses in the courts of the United States, and persons taking depositions shall be entitled to the same fees as are paid for like services in the courts of the United States, to be paid by the party at whose request the deposition is taken. Witness fees and mileage shall be paid by the party at whose instance the witnesses appear, and claims thereof, as to witnesses subpoenaed on behalf of the Department, shall be proved before the person issuing the subpoena, and, as to witnesses subpoenaed on behalf of any other party, shall be presented to such party.

§ 900.64 The Administrative Law Judge’s decision.
(a) Corrections to and certification of transcript. (1) At such time as the judge may specify, but not later than the time fixed for filing proposed findings of fact, conclusions and order, or briefs, as the case may be, the parties may file with the judge proposed corrections to the transcript.
(2) As soon as practicable after the filing of proposed findings of fact, conclusions and order, or briefs, as the case may be, the judge shall file with the hearing clerk his certificate indicating any corrections to be made in the transcript, and stating that, to the best of his knowledge and belief, the transcript, as corrected, is a true, correct, and complete transcript of the testimony given at the hearing, and that the exhibits are all the exhibits properly a part of the hearing record. The original of such certificate shall be attached to the original transcript and a copy of such certificate shall be served upon each of the parties by the hearing clerk who shall also enter onto the transcript (without obscuring the text) any correction noted in the certification.
(b) Proposed findings of fact, conclusions, and orders. Within 10 days (unless the judge shall have announced at the hearing a shorter or longer period of time) after the transcript has been filed with the hearing clerk, as provided in paragraph (a) of this section, each party may file with the hearing clerk proposed findings of fact, conclusions, and order, based solely upon the evidence of record, and briefs in support thereof.
(c) Administrative Law Judge’s Decision. The judge, within a reasonable time after the termination of the period allowed for the filing of proposed findings of fact, conclusions, and orders, and briefs in support thereof, shall prepare upon the basis of the record, and shall file with the hearing clerk, his initial decision, a copy of which shall be served by the hearing clerk, upon each of the parties. Such decision shall become final without further proceedings 35 days after the date of service thereof, unless there is an appeal to the Secretary by a party to the proceeding: Provided, however, That no decision shall be final for the purpose of judicial review except a final decision issued by the Secretary pursuant to an appeal by a party to the proceeding.

§ 900.65 Appeals to Secretary: Transmission of record.
(a) Filing of appeal. Any party who disagrees with a judge’s decision or any part thereof, may appeal the decision to the Secretary by transmitting an appeal petition to the hearing clerk within 30 days after service of said decision upon said party. Each issue set forth in the appeal, and the arguments thereon, shall be separately numbered; shall be plainly and concisely stated; and shall contain detailed citations of the record, statutes, regulations and authorities being relied upon in support thereof. The appeal petition shall be served upon the other party to the proceeding by the hearing clerk.
(b) Argument before Secretary. (1) Oral argument. A party bringing an appeal may request within the prescribed time period for filing such appeal, an opportunity for oral argument before the Secretary. Failure to make such request in writing, within the prescribed time period, shall be deemed a waiver of oral argument. The Secretary, in his discretion, may grant, refuse or limit any request for oral argument on appeal.
(2) **Scope of argument.** Argument to be heard on appeal, whether oral or in a written brief, shall be limited to the issues raised by the appeal, except that if the Secretary determines that additional issues should be argued, the parties shall be given reasonable notice of such determination, so as to permit preparation of adequate arguments on all the issues to be argued.

(c) **Response.** Within 20 days after service of an appeal brought by a party to the proceeding, any other party may file a response in support of or in opposition to such appeal.

(d) **Transmittal of record.** Whenever an appeal is filed by a party to the proceeding, the hearing clerk shall transmit to the Secretary the record of the proceeding. Such record shall include: The pleadings; any motions and requests filed, and the rulings thereon; the transcript of the testimony taken at the hearing, as well as the exhibits filed in connection therewith; any statements filed under the shortened procedure; any documents or papers filed in connection with prehearing conferences; such proposed findings of fact, conclusions, and orders, and briefs in support thereof, as may have been filed in connection with the hearing; the judge’s initial decision; and the appeal petition; briefs in support thereof, and responses thereto as may have been filed in the proceeding.

§ 900.66 **Consideration of appeal by the Secretary and issuance of final order.**

(a) **Consideration of appeal.** As soon as practicable after the receipt of the record from the hearing clerk, or, in case oral argument was had, as soon as practicable thereafter, the Secretary, upon the basis of and after due consideration of the record, shall rule on the appeal. If the Secretary decides that no change or modification of the judge’s decision is warranted, he may adopt the Judge’s decision as the final order of the Secretary, preserving any right of the party bringing the appeal to seek judicial review of such decision in the proper forum. At no stage of the proceeding between its institution and the issuance of the order shall the Secretary discuss ex parte the merits of the proceeding with any person who is connected with the proceeding in an advocative or an investigative capacity, or with any representative of such person: Provided, however, That the Secretary may discuss the merits of the proceeding with such a person if all parties to the proceeding, or their representatives, have been given an opportunity to be present. If, notwithstanding the foregoing provisions of this section, a memorandum or other communication from any party, or from any person acting on behalf of any party, which relates to the merits of the proceeding, receives the personal attention of the Secretary (or, if an official other than the Secretary is to issue the order, then of such other official) during the pendency of the proceeding, such memorandum or communication shall be regarded as argument made in the proceeding and shall be filed with the hearing clerk, who shall serve a copy thereof upon the opposite party to file a reply thereto.

(b) **Issuance of final order.** A final order issued by the Secretary shall be filed with the hearing clerk, who shall serve it upon the parties: Provided, That, if the terms of the order differ substantially from those proposed in the decision of the judge, the Secretary shall, if he deems it advisable to do so, direct that a copy of the order be served upon the parties as a tentative order; and, in such event, opportunity shall be given the parties to file exceptions thereto and written arguments or briefs in support of such exceptions. In such case, if exceptions are filed within a period of time (to be fixed by the Secretary but not to exceed 20 days) following the service of the tentative order, the Secretary shall give consideration, to and shall make such changes in the tentative order as he deems to be appropriate; otherwise, the tentative order shall become final, as of the day following the date of expiration of the period fixed for the filing of exceptions.

(d) Effective date of filing. Any document or paper, except a petition filed pursuant to §900.52, required or authorized under these rules to be filed shall be deemed to have been filed when it is postmarked, or when it is received by the hearing clerk. hearing in order to determine the facts as, in his opinion, are warranted. If, in the opinion of the Administrator and the General Counsel, the facts developed as a result of such investigation or hearing warrant such action, the General Counsel shall refer the matter to the Attorney General for appropriate action.

§ 900.210 Disclosures of information.

All information in the possession of any official which relates to the business or property of any person, and which was furnished by, or obtained from, such person pursuant to the provisions of any marketing agreement or marketing order, shall be kept confidential and shall not be disclosed, divulged, or made public, unless otherwise expressly provided in said marketing agreement or marketing order, or unless said person authorizes said official, in writing, to disclose such information, except that:

(a) Such information may be disclosed, divulged, or made public if it has been obtained from or furnished by a person who is not the person to whose business or property such information relates or an employee of such latter person, or if such information is otherwise required by law to be furnished to an official;

(b) Such information may be furnished to other officials for use in the regular course of their official duties;

(c) Such information may be combined and published in the form of general statistical studies or data in which the identity of the person furnishing such information or from whom it was obtained shall not be disclosed;

(e) Such information may be offered in evidence (whether or not it has been obtained from or furnished by the person against whom it is offered) by or on behalf of the Secretary, the United States, or the official who obtained it or to whom it was furnished, in any administrative hearing held pursuant to section 8c(15)(A) of the Act or in any action, suit, or proceeding, civil or criminal, in which the Secretary or the United States or any such official is a party, and:

(The civil penalty provided in this section is prescribed under the authority contained in sec. 10(c) of the Act (7 U.S.C. 610(c)); this provision is not intended to supersede the provision in section 8d(2) of the Act (7 U.S.C. 608d(2)) for criminal liability and removal from office.)
§ 900.300 General.

Unless otherwise prescribed, the procedure contained in this subpart shall be applicable to each producer referendum conducted for the purpose of ascertaining whether the issuance by the Secretary of a milk marketing order is approved or favored, as required under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended, 7 U.S.C. 601–674). The procedure in this subpart replaces the procedure for conducting similar referenda (15 FR 5177) issued August 7, 1950.

§ 900.301 Definitions.

As used in this subpart and in all supplementary instructions, forms, and documents, unless the context or subject matter otherwise requires, the following terms shall have the following meanings:

(a) Act. Act means Public Act No. 10, 73d Congress (48 Stat. 31), as amended, and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246), as amended.

(b) Department. Department means the United States Department of Agriculture.

(c) Secretary. Secretary means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(d) Administrator. Administrator means the Administrator of the Agricultural Marketing Service, with power to redelegate, or any officer or employee of the Department to whom authority has been delegated or may hereafter be delegated to act in his stead.

(e) Person. Person includes any individual, partnership, corporation, association, and any other business unit.

(f) Order. Order means the marketing order (including an amendatory order) with respect to which the Secretary has directed that a referendum be conducted.

(g) Producer. Producer means any person who is a dairy farmer and who, during the representative period, met the requirements of the term producer as defined in the order had such order been in effect during the representative period.

(h) Handler. Handler means any person who, during the representative period, met the requirements of the term handler as defined in the order had such order been in effect during the representative period.

(i) Referendum agent. Referendum agent means the person designated by the Secretary to conduct the referendum.

(j) Representative period. Representative period means the period designated by the Secretary pursuant to section 8c of the Act (7 U.S.C. 608c).

(k) Cooperative association. Cooperative association means any association of producers that the administrator has found to be qualified pursuant to section 608c(12) of the Act.

§ 900.302 Associations eligible to vote.

(a) Any association of producers, not previously determined to be a cooperative association may file an application for a determination as to whether it is a cooperative association and thus eligible to vote in a referendum. Such application shall be filed with the Administrator at least 60 days prior to the holding of the referendum: Provided, however, That the Administrator may permit the filing of an application in less than 60 days when, in the opinion of the Administrator, such filing would not delay the conduct of the referendum.

(b) Within a time fixed by the referendum agent, but not later than 5 days prior to the final date for balloting, each cooperative association electing to vote shall, upon the request of the referendum agent, furnish to him a certified list showing the name and address of each producer for whom it claims the right to vote and the plant at which such person’s milk was received during the representative period.

§ 900.303 Conduct of referendum.

The referendum shall be conducted by mail in the manner prescribed in this subpart. The referendum agent may utilize such personnel or agencies
§ 900.304 Who may vote.

(a) Each producer shall be entitled to only one vote and to cast one ballot in each referendum; and no person who may claim to be a producer shall be refused a ballot. Each producer casting more than one ballot with conflicting votes shall thereby invalidate all ballots cast by such producer in such referendum. Each ballot cast shall contain a certification by the person casting the ballot that he is a producer.

(b) Except as provided in section 8c(5)(B) of the act, as amended, any cooperative association eligible under § 900.302 may, if it elects to do so, vote and cast one ballot for producers who are members of, stockholders in, or under contract with, such cooperative association. A cooperative association shall submit, with its ballot, a certified copy of the resolution authorizing the casting of the ballot. Each such cooperative association entitled to vote in a referendum casting more than one ballot with conflicting votes shall thereby invalidate all ballots cast by such voter in such referendum.

(c) Voting by proxy or agent, or in any manner, except by the producer or cooperative association will not be permitted; however, a producer which is other than an individual may cast its ballot by a person who is duly authorized and such ballot shall contain a certification by such person that the person on whose behalf the ballot is cast is a producer.

§ 900.305 Duties of referendum agent.

The referendum agent shall also:

(a) For purposes of mailing, prepare a record of producers which will disclose the name of each such person, his address, the name of the handler who received the producer’s milk during the representative period, and the name of the cooperative association, if any, which claims the right to vote for the producer. Such record may be compiled from readily available sources, including the following:

(1) Records of the Department;
(2) Producer records supplied by handlers;
(3) Health authority records;
(4) Certifications signed by dairy farmers who claim to be producers;
(5) Any other reliable sources of information which may be available to the referendum agent.

(b) Apply, as a guide, the following criteria in preparing a record of producers:

(1) When the order requires approval by an appropriate health authority before a person meets the definition of producer, only those persons having such approval and who otherwise meet the definition may be regarded as producers. When the definition of producer requires the shipment of milk to a handler or a plant as well as health authority approval, only those persons having such approval and whose milk was received by a handler or at a plant may be regarded as producers.

(2) When the order requires shipment to a handler or to a plant, without regard to health authority approval, a person may not be regarded as a producer, except as provided in paragraph (b)(6) of this section, unless his name appears on the handler’s producer records.

(3) In the case of a producer that is other than an individual, the business unit shall be regarded as the producer.

(4) No person may be included in the record more than once although he may operate more than one farm, hold more than one health authority approval, or appear on more than one handler’s producer records.

(5) In the event the health authority records are not available, are inaccurate, or are incomplete, the appearance of the producer’s name on a handler’s records as an approved producer shall be prima facie evidence of health authority approval.

(6) In the event any handler refuses or fails to make his records available to the referendum agent, a certification signed by the producer shall be regarded by the referendum agent as prima facie evidence that such person is eligible to vote.

(c) Verify the information supplied by each cooperative association which wishes to vote on behalf of producers, as follows:

(1) Examine the records of the cooperative association for the purpose of ascertaining whether each producer
claimed by the cooperative association is a member of, stockholder in, or under contract with the cooperative association.

(2) Identify the persons ascertained to be members of, stockholders in, or under contract with a cooperative association which wishes to vote on behalf of its producers with the names of producers which appear on the record compiled pursuant to paragraph (a) of this section.

(3) In determining whether a cooperative association may vote on behalf of a producer the following criteria shall be used:

(i) The cooperative association may vote for each producer who is a member of, stockholder in, or under contract with such cooperative association on the date of the order directing that the referendum be conducted.

(ii) The cooperative association may cast only one ballot for all such producers.

(iii) Whenever more than one cooperative association claims the right to vote for a producer only the cooperative association which furnished evidence satisfactory to the referendum agent that such association was in fact marketing the milk of the producer on the date of the referendum order may vote for such producer.

§ 900.306 Notice of the referendum.

(a) The referendum agent shall at least 5 days prior to the final date for balloting:

(1) Mail to each cooperative association which has elected to cast a ballot on behalf of its producers and to each of all other known producers, a notice of the referendum which will include instructions for completing the ballot, a statement as to the time within which the ballot must be mailed to, and received by, the referendum agent, a copy of the final decision, and a ballot containing a description of the terms and conditions of the order.

(2) Give public notice of the referendum:

(i) By furnishing press releases and other information to available media of public information (including but not limited to press, radio, and television facilities) serving the area, announcing the time within which ballots must be completed and mailed to and received by the referendum agent, eligibility requirements, where additional information may be procured, and other pertinent information; and

(ii) By such other means as said agent may deem advisable.

(b) [Reserved]

§ 900.307 Time for voting.

There shall be no voting except within the time specified by the referendum agent as stated in the notice of the referendum.

§ 900.308 Tabulation of ballots.

(a) General. The referendum agent shall verify the information supplied with each ballot. If he ascertains that the person who cast the ballot was eligible to do so, that the ballot is complete and was mailed and received within the prescribed time, the ballot shall be eligible to be counted. If the referendum agent ascertains that the person who cast the ballot was not eligible to do so, or if the producer who cast the ballot was a member of, stockholder in, or under contract with a cooperative association which cast a valid ballot, or if the ballot is not completed or cast in accordance with instructions, or if the ballot was not mailed to or received by the referendum agent within the prescribed time, the ballot shall be marked “disqualified” with a notation on the ballot as to the reason for the disqualification. The total number of ballots cast, including the disqualified ballots, shall be ascertained. The number of eligible ballots cast approving and the number of eligible ballots cast disapproving the issuance of the order shall also be ascertained. The ballots marked “disqualified” shall not be considered as approving or disapproving the issuance of the order, and the persons who cast such ballots shall not be regarded as participating in the referendum.

(b) Individual-handler pool provisions. Whenever separate approval of the pooling provisions of the order is required by section 608c(5)(B)(i) of the act, any ballot which approves the pooling provisions, or approves the pooling provisions and disapproves the
issuance of the order, shall be disqualified; and the referendum agent shall mark the ballot accordingly.

(c) Record of results of the referendum. The referendum agent shall notify the Administrator of the number of eligible ballots cast, the count of the votes, the number of disqualified ballots and the number of producers who were eligible to cast ballots. The referendum agent shall seal the ballots, including those marked "disqualified", the list of eligible voters and tabulation of ballots, and shall transmit to the Administrator a complete detailed report of all action taken in connection with the referendum together with all the ballots cast and all other information furnished to or compiled by the referendum agent.

(d) Announcement of the results of the referendum. Announcement of the results of the referendum will be made only at the direction of the Secretary. The referendum agent, or others who assist in the referendum, shall not disclose the results of the referendum or the total number of ballots cast.

§ 900.309 Confidential information.

The ballots cast, the identity of any person who voted, or the manner in which any person voted and all information furnished to, compiled by, or in the possession of the referendum agent, shall be regarded as confidential.

§ 900.310 Supplementary instructions.

The Administrator is authorized to issue instructions and to prescribe forms and ballots, not inconsistent with the provisions of this subpart, to govern the conduct of referenda by referendum agents.

§ 900.311 Submittals or requests.

Interested persons may secure information or make submittals or requests to the Administrator with respect to the provisions contained in this subpart.
§ 900.352 Confidential information.

The documents and other information submitted by an applicant association and otherwise obtained by investigation, examination of books, documents, papers, records, files and facilities, and in reports filed subsequent to initial determinations of qualification, shall be regarded as confidential and shall be governed by §900.210.

§ 900.353 Qualification standards.

Statutory requirements for qualification of cooperative associations are provided in subsections (5) and (12) of section 608c of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The association must: (a) Be a cooperative marketing association of producers, qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the ‘‘Capper-Volstead Act,’’ (7 U.S.C. 291, 292); (b) have its entire organization and all of its activities under the control of its members; (c) have full authority in the sale of its members’ milk; and (d) be engaged in making collective sales or marketing of milk or milk products for the producers thereof. Qualification for exemption from deductions for marketing service payments under specific marketing orders and payment for milk of members under specific orders shall be determined in accordance with the terms of the respective marketing orders.

§ 900.354 Inspection and investigation.

The Secretary of Agriculture, or his duly authorized representative, shall have the right, at any time after an application is received, to examine all books, documents, papers, records, files and facilities of the association, to verify any of the information submitted and to procure such other information as may be required to determine whether the association is qualified in accordance with its application.

§ 900.355 Annual reporting.

Determinations of qualification for privileges and exemptions are subject to amendment, termination or suspension if the association does not currently meet the qualification standards. An association found to be qualified pursuant to the Act is required to file an annual report after its annual meeting has been held following the close of its fiscal year. Form DA–24 is used for this purpose. The report form is available at the Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, DC 20250. The association is required to file a copy of its report with the Dairy Division at Washington and with the market administrator of each order under which it operates.

§ 900.356 Listing of qualified associations.

A copy of each determination of qualification is furnished to the respective association. Copies are also filed in the Dairy Division, Agricultural Marketing Service, and with the Hearing Clerk, Office of the Secretary, U.S. Department of Agriculture, Washington, DC 20250, where they are available for public inspection. A list of qualified associations engaged in marketing milk under a particular milk marketing order is maintained at the office of the market administrator of the order.

§ 900.357 Denial of application; suspension or revocation of determination of qualification.

Any cooperative association whose application has been wholly or partially denied, or whose determination of qualification has been wholly or partly revoked or suspended, may petition the Secretary for a review of such action. Such petition shall state facts relevant to the matter for which review is sought. After due notice to such cooperative association, the Director of the Dairy Division, or in his absence the Acting Director, shall hold, in the manner hereinafter specified, an informal hearing.

(a) Notice. Notice shall be given in writing and shall be mailed to the last known address of the association, or of an officer thereof, at least 3 days before the date set for a hearing. Such notice shall contain: A statement of the time and place of the hearing, said place to be as convenient to the association as can reasonably be arranged, and may contain a statement of the reason for calling the hearing and the nature of
the questions upon which evidence is desired or upon which argument may be presented.

(b) **Parties.** Hearings are not to be public and are to be attended only by representatives of the association and of the Government, and such other persons as either the association or the Government desires to have appear for purposes of submitting information or as counsel.

(c) **Conduct of hearing.** The Director or Acting Director of the Dairy Division, or a person designated by him, shall preside at the hearing. The hearing shall be conducted in such manner as will be most conducive to the proper disposition of the matter. Written statements or briefs may be filed by the association within the time specified by the presiding officer.

(d) **Preliminary report.** The presiding officer shall prepare a preliminary report setting forth a recommendation as to what action shall be taken and the basis for such action. A copy of said report shall be served upon the association by mail or in person. The association may file exceptions to said report within 10 days after service thereof.

(e) **Final report.** After due consideration of all the facts and the exceptions, if any, the Director of the Dairy Division shall issue a final report setting forth the action to be taken and the basis for such action.

The votes of each member cast for or against any recommendation made pursuant to this subpart shall be duly recorded. Whenever an assembled meeting is held each member must vote in person.

(c) The committee may, in cases of emergency, vote by telephone and all such votes must be confirmed in writing. § 905.35 Right of the Secretary.

The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time and upon his disapproval shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith.

§ 905.36 Funds.

(a) All funds received by the committee pursuant to any provision of this subpart shall be used solely for the purposes herein specified and shall be accounted for in the manner provided in this subpart.
§ 905.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred to carry out the functions of the committee under this subpart during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments upon handlers as provided in §905.41.

§ 905.41 Assessments.

(a) Each handler who first handles fruit shall pay to committee, upon demand, such handler’s pro rata share of the expenses which the Secretary finds will be incurred by the committee for the maintenance and functioning, during each fiscal period, of the committee established under this subpart. Each such handler’s share of such expenses shall be that proportion thereof which the total quantity of fruit shipped by such handler as the first handler thereof during the applicable fiscal period is of the total quantity of fruit so shipped by all handlers during the same fiscal period. The Secretary shall fix the rate of assessment per standard packed carton of fruit to be paid by each such handler. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) At any time during or after the fiscal period, the Secretary may increase the rate of assessment so that the sum of money collected pursuant to the provisions of this section shall be adequate to cover the said expenses. Such increase shall be applicable to all fruit shipped during the given fiscal period. In order to provide funds to carry out the functions of the committee established under §905.19, handlers may make advance payment of assessments.

(c) In the case of an extreme emergency, the committee may borrow money on a short term basis to provide funds for the administration of this part. Any such borrowed money shall only be used to meet the committee’s current financial obligations, and the committee shall repay all such borrowed money by the end of the next fiscal period from assessment income.

§ 905.42 Handler’s accounts.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not exceed approximately one-half of one fiscal period’s expenses. Such reserve funds may be used (1) to cover any expenses authorized by this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, each handler entitled to a proportionate refund shall be credited with such refund against the operations of the following fiscal period unless he demands payment of the sum due him, in which case such sum shall be paid to him. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such
§ 905.50 Marketing policy.

(a) Before making any recommendations pursuant to §905.51 for any variety of fruit, the committee shall, with respect to the regulations permitted by §905.52, submit to the Secretary a detailed report setting forth an advisable marketing policy for such variety for the then current shipping season. Such report shall set forth the proportion of the remainder of the total crop of such variety of fruit (determined by the committee to be available for shipment during the remainder of the shipping season of such variety) deemed advisable by the committee to be shipped during such season.

(b) In determining each such marketing policy and advisable proportion, the committee shall give due consideration to the following factors relating to citrus fruit produced in Florida and in other States: (1) Market prices, including prices by grades and sizes of the fruit for which regulation is recommended; (2) maturity, condition, and available supply, including the grade and size thereof in the producing areas; (3) other pertinent market information; and (4) the level and trend in consumer income. The committee shall submit to the Secretary its recommendations and supporting information respecting the factors enumerated in this section.

(c) In addition to the foregoing, the committees shall set forth a schedule of proposed regulations for the remainder of the shipping season for each variety of fruit for which recommendations to the Secretary pursuant to §905.51 are contemplated. Such schedules shall recognize the practical operations of harvesting and preparation for market of each variety and the change in grades and sizes thereof as the respective seasons advance. In the event it is deemed advisable to alter such marketing policy or advisable proportion as the shipping season progresses, in view of changed demand and supply conditions with respect to fruit, the said committee shall submit to the Secretary a report thereon.

(d) The committee shall transmit a copy of each marketing policy report or revision thereof to the Secretary and to each producer and handler who files a request therefor. Copies of all such reports shall be maintained in the office of the committee where they shall be available for examination by producers and handlers.

§ 905.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate any variety in the manner provided in §905.52, it shall give due consideration to the following factors relating to the citrus fruit produced in Florida and in other States: (1) Market prices, including prices by grades and sizes of the fruit for which regulation is recommended; (2) maturity, condition, and available supply, including the grade and size thereof in the producing areas; (3) other pertinent market information; and (4) the level and trend in consumer income. The committee shall submit to the Secretary its recommendations and supporting information respecting the factors enumerated in this section.

(b) The committee shall give notice of any meeting to consider the recommendation of regulations pursuant to §905.52 by mailing a notice of meeting to each handler who has filed his address with committee for this purpose. The committee shall give the same notice of any such recommendation before the time it is recommended that such regulation become effective.

[42 FR 59370, Nov. 17, 1977]

§ 905.52 Issuance of regulations.

(a) Whenever the Secretary shall find from the recommendations and reports

funds shall be returned pro rata to the persons from whom such funds were collected.

(b) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members a suit against any handler for the collection of such handler’s pro rata share of the said expense.

§ 905.53 Inspection and certification.

(a) Whenever the handling of a variety of a type of fruit is regulated pursuant to §905.52, each handler who handles any variety of such type of fruit shall, prior to the handling of any lot of such variety, cause such lot to be inspected by the Federal-State Inspection Service and certified by it as meeting all applicable requirements of such regulation: Provided, That such inspection and certification shall not be required if the particular lot of fruit previously had been so inspected and

(1) Limit the shipments of any grade or size, or both, of any variety, in any manner as may be prescribed, and any such limitation may provide that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the grade and size limitations applicable to shipments of the same varieties grown in Regulation Area I: Provided, That whenever any such grade or size limitation restricts the shipment of a portion of a specified grade or size of a variety the quantity of such grade or size that may be shipped by a handler during a particular week shall be established as a percentage of the total shipments of such variety by such handler in such prior period established by the committee with the approval of the Secretary, in which he shipped such variety.

(2) Limit the shipment of any variety by establishing and maintaining, only in terms of grades or sizes, or both, minimum standards of quality and maturity;

(3) Limit the shipment of the total quantity of any variety by prohibiting the shipment thereof: Provided, that no such prohibition shall apply to exports or be effective during any fiscal period with respect to any variety other than for one period not exceeding five days during the week in which Thanksgiving Day occurs, and for not more than two periods not exceeding a total of 14 days during the period December 20 to January 20, both dates inclusive.

(4) Provide that exports of any variety shall be limited to grades and sizes different from the grade and size limitations applicable to shipments of such variety in the 48 contiguous States and the District of Columbia of the United States, and specify condition requirements for such variety; and

(5) Fix the size, capacity, weight, dimensions, marking, or pack of the container or containers which may be used in the shipment of fruit for export.

Provided, that such regulation shall not authorize the use of any container which is prohibited for use for fruit under the provisions of Chapter 601 of the Florida Statutes and regulations effective thereunder.

(b) Prior to the beginning of any such regulations, the Secretary shall notify the committee of the regulation issued by him, and the committee shall notify all handlers by mailing a copy thereof to each handler who has filed his address with said committee for this purpose.

(c) Whenever the Secretary finds from the recommendations and reports of the committee, or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of fruit in order to effectuate the declared policy of the act, he shall so modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis, and in like manner, the Secretary may terminate any such modification or suspension.

§ 905.152 Procedure for determining handlers’ permitted quantities of Robinson, Dancy and similar tangerine varieties when a portion of the 210 size of such varieties is restricted.

(a) For the purposes of this section the prior period specified in §905.52 is hereby established as a average week within the immediately preceding three seasons, together with the current season. When used in the regulation of Dancy tangerines the term season means the twenty weeks beginning with the first full week in October, and the term current season means the elapsed weeks beginning with the first
§ 905.153 Procedure for determining handlers’ permitted quantities of red seedless grapefruit when a portion of sizes 48 and 56 of such variety is restricted.

(a) For the purposes of this section, the prior period specified in §905.52 is hereby established as an average week within the immediately preceding five seasons. Each handler’s average week shall be computed by adding the total volume of red seedless grapefruit handled in the immediately preceding five seasons and dividing the total by 165. The average week for handlers with less than five previous seasons of shipments shall be calculated by adding the total volume of shipments for the seasons they did ship red seedless grapefruit, divide by the number of seasons, divide further by 33. New handlers with no record of shipments could ship size 48 and 56 red seedless grapefruit as a percentage of total shipments equal to the percentage applied to other handlers’ average week; once such handlers have recorded shipments, their average week shall be calculated as an average of total shipments for the weeks they have shipped red seedless grapefruit during the current season. When used in the regulation of red seedless grapefruit, the term season means the weeks beginning the third Monday in September and ending the first Sunday in the following May. The term regulation period means the 11 week period beginning the third Monday in September of the current season.

(b) When a size limitation restricts the shipment of a portion of sizes 48 and 56 red seedless grapefruit during a particular week as provided in §905.52, the committee shall compute the quantity of sizes 48 and 56 red seedless grapefruit that may be shipped by each handler by multiplying the handler’s calculated average week shipments of such grapefruit by the percentage established by regulation for red seedless grapefruit for that week. Such set percentage may vary from week to week but shall not be less than 25 percent in any week.

(c) The committee shall notify each handler of the quantity of size 48 and 56 red seedless grapefruit such handler may handle during a particular week.

(d) During any regulation week for which the Secretary has fixed the percentage of sizes 48 and 56 red seedless grapefruit, any person who has received an allotment may handle, in addition to their total allotment available, an amount of size 48 and 56 red seedless grapefruit up to 10 percent greater than their allotment. The quantity of the overshipment shall be deducted from the handler’s allotment for the following week. Overshipments will not be allowed during week 11. If the handler fails to use his or her entire allotment, the undershipment is not carried forward to the following
§ 905.161 Repacking shipper.

(a) A repacking shipper is a person who repacks and ships citrus fruit grown in the production area in Florida which has been previously inspected and certified as meeting the requirements specified under §905.52 of the order, and who has obtained a currently valid repacking certificate of privilege issued to him or her by the committee as specified in §905.162.

(b) Each repacking shipper, to qualify for a repacking certificate of privilege, must notify the committee 10 days prior to his or her first shipment of repacked citrus fruit during a particular fiscal period of his or her intent to ship such citrus fruit, submit an Application for a Repacking Certificate of Privilege form supplied by the committee, and agree to other requirements as set forth in §§905.162 and 905.163 inclusive, with respect to such shipments. The repacking shipper shall certify that he or she will only handle previously inspected and certified citrus fruit.

(c) Any repacking shipper who handles citrus fruit shipped under a repacking certificate of privilege must, other order provisions notwithstanding, meet the following requirements:

1. All such citrus fruit must be positive lot identified by the Federal or Federal/State Inspection Service and certified as meeting the applicable requirements for citrus fruit shipped to the domestic market (fruit shipped from the production area to any point outside thereof in the 48 contiguous States and the District of Columbia of the United States), prior to being repacked and shipped by the repacking shipper. Each such citrus fruit shipment shall be accompanied by a Federal-State manifest that certifies the grade and amount of each load of citrus fruit received, which shall be retained by the repacking shipper.

2. Be reported as required in §905.163.

3. The repacking facility used to repack previously inspected and certified citrus fruit by the repacking shipper shall not have operable equipment to wash, brush, wax, or dry citrus fruit.

4. All citrus fruit handled by a repacking shipper shall be packed in approved Florida Department of Citrus fruit containers.

5. Each container shipped with such citrus fruit shall be marked with the repacking shipper’s repacking certificate of privilege number.

§ 905.162 Repacking certificate of privilege.

(a) Application. Application for a repacking certificate of privilege by a repacking shipper shall be made on an Application for a Repacking Certificate of Privilege form supplied by the committee. Each such application shall contain, but need not be limited to, the name, address and Florida citrus fruit dealer license number of the applicant; approximate number of boxes to be handled during the season; the various types of containers to be used to ship the repacked citrus fruit; a certification to the Secretary of Agriculture and to the committee as to the truthfulness of the information shown thereon; and any other appropriate information or documents deemed necessary by the committee or duly authorized agents for the purposes stated in § 905.161.

(b) Approval. The committee or its duly authorized agents shall give prompt consideration to each application for a repacking certificate of privilege. Approval of an application based upon a determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a repacking certificate of privilege to the applicant. Each such certificate shall expire at the end of the fiscal period.

(c) Suspension or denial of certificate of privilege. The committee may investigate the handling of repacked fresh citrus fruit shipments under certificates of privilege to determine whether repacking shippers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that a repacking shipper is failing to comply with the requirements and regulations applicable to such certificates, the certificate of privilege issued to such repacking shipper may be suspended or, in the case of an application for the issuance of an initial certificate, such certificate shall be denied until the applicant comes into compliance with the requirements and regulations applicable to such certificates. Prior to suspending or denying an application for a certificate of privilege, the committee shall give the shipper or applicant an opportunity, either orally or in writing, to present opposing facts and reasons. The shipper or applicant shall be informed of the committee’s determination in writing and in a timely manner.

§ 905.163 Reports of shipments under repacking certificate of privilege.

(a) Each repacking shipper who handles citrus fruit under a repacking certificate of privilege shall supply the committee with reports on each shipment as requested by the committee, on a Report of Shipments Under Certificate of Privilege form supplied by the committee, showing the name and address of the repacking shipper; name and address of the handler supplying the inspected and certified citrus fruit for such shipment; number of packages; size and containers; brand; grade; certificate number; and any other information deemed necessary by the committee. Each repacking shipper of citrus fruit shall maintain on file a copy of the Federal-State manifest that certifies the grade and amount of each load of citrus fruit received. These manifests shall be readily available to the committee upon request.

(b) One copy of the Report of Shipments Under Certificate of Privilege form on each shipment shall be forwarded to the committee promptly, one copy of such form shall be retained by the repacking shipper, and one copy of such form shall accompany the shipment. Failure to complete and return such form shall cause for suspension of the repacking shippers repacking certificate of privilege.

Each handler’s share of such expense shall be proportionate to the ratio between the total quantity of fruit handled by him as the first handler thereof during a fiscal period and the total quantity of fruit handled by all handlers as first handlers thereof during such fiscal period.

§ 906.33 Budget.

At the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee shall recommend the rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its estimates and recommendations.

§ 906.34 Assessments.

§ 906.35 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, it shall be refunded proportionately to the persons from whom collected.

(2) The committee, with the approval of the Secretary may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not equal approximately 1 fiscal period’s expenses. Such reserve funds may be used for any expenses authorized pursuant to § 906.32 and for necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the terms of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

(d) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect, and if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

The committee shall give notice to handlers of any such recommendation at the same time such recommendation is submitted to the Secretary.

§ 906.40 Issuance of regulations.

The Secretary shall limit the handling of fruit whenever he finds from the recommendation and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulations may:

(a) Limit the handling of particular grades, sizes, qualities, maturities, or packs of any or all varieties of fruit during a specified period or periods: Provided, That specific maturity requirements applicable to the handling of any variety may be prescribed under this section only in the event that appropriate maturity requirements for such variety are not in effect under State authority.

Upon the basis of recommendations and information submitted by the committee, or other available information, the Secretary, whenever he finds that it will tend to effectuate the declared policy of the act, shall modify, suspend, or terminate regulations issued pursuant to §§ 906.34, 906.40, 906.45, or any combination thereof, in order to facilitate the handling of fruit:

(a) For relief or for charity;

(b) For processing or for manufacture or conversion into specified products; and
§ 906.43  Notification of regulations.

The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 906.44  Safeguards.

(a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent the handling of fruit pursuant to §906.41 or §906.42 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of certificates of privilege if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to ship fruit pursuant to §§906.41 and 906.42.

(2) Handlers shall obtain inspection provided by §906.45, or pay the assessment levied pursuant to §906.34, or both, in connection with shipments made under §906.42: Provided, That such inspection and assessment requirements shall not apply to fruit handled for canning or freezing.

(3) Handlers shall obtain certificates of privilege from the committee to handle fruit affected or to be affected under the provisions of §§906.41 and 906.42.

(b) The committee may rescind or deny certificates of privilege to any handler if proof is obtained that fruit handled by him for the purposes stated in §§906.41 and 906.42 was handled contrary to the provisions of this part.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of fruit covered by such applications, the number of such applications denied and certificates granted, the quantity of fruit handled under duly issued certificates, and such other information as may be requested.

(b) Regrading, resorting, or repacking any lot of fruit shall invalidate any prior inspection insofar as the requirements of this section are concerned. No handler shall handle fruit after it has been regraded, resorted, repacked, or in any other way prepared for market, unless each lot of fruit is inspected by an authorized representative of the Federal or Federal-State Inspection Service: Provided, That the committee, with the approval of the Secretary, may provide for waiving inspection requirements on any fruit in circumstances where it appears reasonably certain that, after regrading, resorting, or repacking, such fruit meets the applicable quality and other standards then in effect;

(d) When fruit is inspected in accordance with the requirements of this section a copy of each inspection certificate issued shall be made available to the committee by the inspection service;

(e) The committee may recommend and the Secretary may require that any fruit handled or transported by motor vehicle shall be accompanied by a copy of the inspection certificate issued thereon, which certificate shall be surrendered to such authority as may be designated.

Compilations of general reports from data submitted by handlers is authorized, subject to prohibition of disclosure of individual handlers identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the fruit received and disposed of by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

Such nominations shall be submitted to the Secretary by the committee not later than February 15 of each year. The committee shall prescribe procedural rules, not inconsistent with the provisions of this section, for the conduct of nominations.

(2) Only growers may participate in the nomination and election of nominees for grower members and their alternates. Each grower shall be entitled to cast only one vote for each nominee to be elected in the district in which he produces limes. No grower shall participate in the election of nominees in more than one district in any one fiscal year.

(3) Only handlers may participate in the nomination and election of nominees for handler members and their alternates. Each handler is entitled to cast only one vote for each nominee to be elected in the district in which such handler handles limes. Each vote shall be weighted by the volume of limes

§ 911.21 Term of office.

The term of office of each member and alternate member of the committee shall begin April 1, and shall terminate March 31 of the following year. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and qualify and until their respective successors are selected and have qualified. The consecutive terms of office of members shall be limited to three terms.
§ 911.23 Selection.

From the nominations made pursuant to §911.22, or from other qualified persons, the Secretary shall select the five grower members of the committee, the four handler members of the committee, and an alternate for each such member.

§ 911.24 Failure to nominate.

If nominations are not made within the time and in the manner prescribed in §911.22, the Secretary may, without regard to nominations, select the members and alternate members of the committee on the basis of the representation provided for in §911.20.

§ 911.25 Acceptance.

Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 911.26 Vacancies.

To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any member or alternate member of the committee, shall be nominated and selected in the manner specified in §§911.22 and 911.23. If the names of nominees to fill any such vacancy are not made available to the Secretary within fifteen days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in §911.20.

§ 911.27 Alternate members.

An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified. In the event both a member and his alternate are unable to attend a committee meeting, the chairman may designate any alternate who is present and who is not serving for any member to serve in such absent member's place and stead: Provided, That only grower alternate members may be so designated to serve for grower members and only handler alternate members may be so designated to serve for handler members.

§ 911.28 Powers.

The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part.

(c) To make and adopt rules and regulations to effectuate the terms and provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 911.29 Duties.

The committee shall have, among others, the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the compensation and to define the duties of each;

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee.
and which shall be subject to examination by the Secretary;

(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a certified public accountant at least once each fiscal year, and at such other times as the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To investigate and assemble data on the growing, handling, and marketing conditions with respect to limes;

(i) To submit to the Secretary such available information as he may request;

(j) To notify, as provided in this part, producers and handlers of all meetings of the committee to consider recommendations for regulation;

(k) To give the Secretary the same notice of meetings of the committee as is given to its members;

(l) To consult with such representatives of growers or groups of growers as may be deemed necessary and to pay the travel expenses incurred by such representatives in attending committee meetings at the request of the committee: Provided, That the committee shall not pay the travel expenses of more than three such representatives in connection with any one meeting of the committee;

(m) To investigate compliance with the provisions of this part; and

(n) With the approval of the Secretary, to redefine the districts into which the production area is divided, and to reapportion the representation of any district on the committee: Provided, That any such changes shall reflect, insofar as practicable, shifts in lime production within the districts and the production area.

§ 911.30 Procedure.

(a) Except as provided in paragraphs (c) and (d) of this section, six members of the committee, including alternates acting for members, shall constitute a quorum and any decision, recommenda-

tion or other action of the committee shall require not less than five concurring votes, including one by a handler, or an alternate acting as such: Provided, That if the committee is increased by one, the quorum requirement shall be increased to seven and any decision, recommendation or other action of the committee shall require not less than six concurring votes, including one by a handler or an alternate acting as such.

(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: Provided, That such meetings shall be subject to the establishment of telephone communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place.

(c) For any recommendation of the committee pursuant to §911.53 as to the total quantity of limes deemed advisable to be handled during any week immediately following two or more continuous weeks of regulation pursuant to §911.54 nine members of the committee, including alternates acting for members, shall constitute a quorum and nine concurring votes shall be required. The quorum and voting requirements specified in this paragraph shall not apply to recommendations pursuant to §911.53 to increase the quantity that may be handled during the applicable week or pursuant to §911.54 to terminate or suspend a regulation.

(d) For any recommendation of the committee for an assessment rate exceeding $0.20 per bushel to be applied pursuant to §911.41, the quorum requirement shall be eight members or alternates acting for members and eight concurring votes shall be required.

§ 911.31 Expenses.

The members of the committee and their respective alternates when performing duties at the direction of the committee, shall be reimbursed for expenses necessarily incurred by them in
§ 911.32 Annual report.

The committee shall, as soon as practicable after the close of each fiscal year, prepare and mail an annual report to the Secretary and to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal year; (b) an appraisal of the effect of such regulatory operations upon the lime industry; and (c) any recommendations for changes in the program.

§ 911.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred to enable the committee to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal year. The funds to cover such expenses shall be acquired by the levying of assessments as provided for in § 911.41.

§ 911.41 Assessments.

(a) Each person who first handles limes shall, with respect to limes so handled by him, pay to the committee upon demand such person’s pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during each fiscal year. Each such person’s share of such expenses shall be equal to the ratio between the total quantity of limes handled by him as the first handler thereof during the applicable fiscal year and the total quantity of limes so handled by all persons during the same fiscal year. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative. If a handler does not pay his assessment within the time prescribed by the committee, the unpaid assessment may be subject to an interest charge at rates prescribed by the committee with the approval of the Secretary.

(b) The Secretary shall fix the rate of assessment per 55-pounds of fruit or equivalent in any container or in bulk, to be paid by each such handler. At any time during or after a fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all fruit handled during the applicable fiscal year. In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance.

§ 911.42 Accounting.

(a) If, at the end of a fiscal year, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in paragraph (a)(2) of this section, each person entitled to a proportionate refund of the excess assessment shall be credited with such refund against the operation of the following fiscal year unless such person demands repayment thereof, in which event it shall be paid to him: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal year may be applied by the committee at the end of such fiscal year to any outstanding obligations due the committee from such person.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining at the end of a fiscal year which are in excess of the expenses necessary for committee operations during such year may be carried over into following
years as a reserve. Such reserve may be established at an amount not to exceed approximately 3 fiscal years' operational expenses. Funds in the reserve may also be used to cover the necessary expenses of liquidation, in the event of termination of this part to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal year when there is a crop failure, or during any period of suspension of any or all the provisions of this part. Such reserve may also be used by the committee to finance its operations during any fiscal year prior to the time that assessment income is sufficient to cover such expenses and to cover deficits incurred during any fiscal year when income is less than expenses. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part, and shall be accounted for in the manner provided in this part. The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements.

§911.46 Marketing policy.

Each fiscal year prior to making any recommendation pursuant to §911.47 or §911.53, the committee shall submit to the Secretary a report setting forth its marketing policy for such fiscal year. Such marketing policy report shall contain information relative to (a) the estimated total production of limes within the production area; (b) the expected general quality and size of limes in the production area and in other areas, including foreign competing areas; (c) the expected demand conditions for limes in different market outlets; (d) the expected shipments of limes produced in the production area and in other areas including foreign competing areas, together with a schedule of estimated weekly shipments of limes during such fiscal year; (e) supplies of competing commodities; (f) trend and level of consumer income; (g) other factors having a bearing on the marketing of limes; and (h) the type of regulations expected to be recommended during the season. In the event it becomes advisable, because of changes in the supply and demand situation for limes, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report and copies thereof shall be maintained in the offices of the committee where they shall be available for examination by growers and handlers.

§911.47 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of limes in the manner provided in §911.48, it shall so recommend to the Secretary.
§ 911.48  Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of limes whenever he finds, from the recommendations and information submitted by the committee or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Prohibit, during any specified period or periods, the handling of any variety or varieties of limes which do not meet such grade, size, and quality (including internal quality and juice content) standards as shall be prescribed; Provided, That such regulations may require that limes not meeting minimum size requirements established under this section be marked with a Food and Drug Administration approved food dye as a necessary and incidental safeguard to prevent such limes from entering fresh marketing channels for regulated limes.

(2) Prescribe minimum standards of quality for any variety or varieties of limes and limit the handling thereof to those meeting such minimum standards:

(3) Limit the shipment of the total quantity of limes by prohibiting the shipment thereof; Provided, That no such prohibition shall be effective during any fiscal period other than for four periods not exceeding six days each immediately prior to, including, or following July 4, Labor Day, Thanksgiving Day, and Christmas Day.

(4) Fix the size, capacity, weight, dimensions, or pack of the container or containers which may be used in the packaging, and the transportation, sale, shipment, or other handling of limes; and

(5) Establish and prescribe pack specifications for the grading and packing of any variety or varieties of limes and require that all limes handled shall be packed in accordance with such pack specifications, and shall be identified by appropriate labels, seals, stamps, or tags, affixed to the containers by the handler under the supervision of the committee or an inspector of the Federal-State Inspection Service, showing the particular pack specifications of the lot.

(6) Provide that any or all requirements effective pursuant to paragraphs (a)(1), (3), and (4) of this section applicable to the handling of limes shall be different for the handling of limes within the production area and for the handling of limes between the production area and any point outside thereof.

(7) Prescribe requirements, as provided in this paragraph, applicable to exports of any variety of limes which are different from those applicable to the handling of the same variety to other destinations.

(b) The committee shall be informed immediately of any such regulations issued by the Secretary and the committee shall promptly give notice thereof to growers and handlers.

§ 911.49 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §911.48 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of limes in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 911.50 Exemption certificate.

In the event the handling of limes is regulated pursuant to §911.48, the committee shall issue one or more exemption certificates to any person who furnishes evidence satisfactory to the committee that, by reason of conditions beyond his control, he will be prevented, because of such regulation, from having as large a proportion of a particular variety of his limes handled as the average proportion of all such limes which may be handled. Such exemption certificates shall authorize the person to whom the certificates are issued to handle, or have handled, a percentage of his crop of the particular variety of limes equal to the percentage determined as aforesaid. The committee shall adopt, with the approval of the Secretary, procedural rules by which such exemption certificates will be issued and the limes covered thereunder may be handled. Exemption certificates shall be transferred to the handler of the limes covered by such certificates at the time the limes are delivered to such handler.

§ 911.51 Inspection and certification.

Whenever the handling of any variety of limes is regulated pursuant to §911.48, each handler who handles limes shall, prior thereto, cause each lot of limes handled to be inspected by the Federal-State Inspection Service and certified by it as meeting the applicable requirements of such regulation: Provided, That such inspection and certification shall be required when the limes previously have been so inspected and certified only if such limes have been regraded, resorted, or re-packaged after the prior inspection and certification. Promptly thereafter, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection with respect to such handling.

§ 911.52 Limes not subject to regulations.

Except as otherwise provided in this section, any person may, without regard to the provisions of §§911.41, 911.48, 911.51, and 911.54 through 911.58, and the regulations issued thereunder, handle limes (a) for consumption by charitable institutions; (b) for distribution by relief agencies; (c) for commercial processing into products; or (d) in such minimum quantities or types of shipments, or for such specified purposes as the committee, with the approval of the Secretary, may prescribe. The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent limes handled under the provisions of this section from entering channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications with the committee for authorization to handle.
§ 911.53 Recommendation for volume regulation.

(a) The committee may, during any week, recommend to the Secretary the total quantity of limes which it deems advisable to be handled to destinations within the forty-eight contiguous States of the United States, the District of Columbia and Canada during the next succeeding week: Provided, That such volume regulation shall not be recommended for any week except during the 18-week regulatory period beginning with the week preceding the first full week in May: Provided, further, That no such regulation shall be recommended after such regulations have been in effect for an aggregate of eight (8) weeks during the aforesaid period.

(b) In making its recommendations, the committee shall give due consideration to the following factors:

(1) Market prices for limes;
(2) Supply of limes en route to principal markets;
(3) Supply, maturity, and condition of limes in the production area;
(4) Market prices and supplies of fruits from competitive producing areas, including foreign competing areas, and supplies of other competitive fruits;
(5) Trend and level in consumer income; and
(6) Other relevant factors.

(c) At any time during a week for which the Secretary, pursuant to §911.54, has fixed the quantity of limes which may be handled, the committee may recommend to the Secretary that such quantity be increased for such week. Each such recommendation, together with the committee’s reason for such recommendation, shall be submitted promptly to the Secretary.

§ 911.54 Issuance of volume regulations.

Whenever the Secretary finds from the recommendation and information submitted by the committee, or from other available information, that to limit the quantity of limes which may be handled to destinations within the 48 contiguous States of the United States, the District of Columbia and Canada during a specified week of a regulatory period will tend to effectuate the declared policy of the act, he shall fix such quantity: Provided, That such regulations during a regulatory period shall not in the aggregate limit the volume of lime shipments for more than eight (8) weeks. The quantity so fixed for any week may be increased by the Secretary at any time during such week. Such regulations may, as authorized by the act, be made effective irrespective of whether the season average price of limes is in excess of the parity price. The Secretary may, upon the recommendation of the committee, or upon other available information, terminate or suspend any regulation pursuant to this section at any time.

[43 FR 39321, Sept. 5, 1978]

§ 911.55 Prorate bases.

(a) Each person who desires to handle limes shall submit to the committee, at such time and in such manner as may be designated by the committee, and upon forms made available by it, a written application for a prorate base and for allotments as provided in this section and §911.56.

(b) Such application shall be substantiated in such manner and shall be supported by such information as the committee may require.

(c) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the
committee the factors considered in making the correction.

(d) Each week during the regulatory period when volume regulation is likely to be recommended for the following week, the committee shall compute a prorate base for each handler who has made application in accordance with the provisions of this section. The prorate base for each such handler shall be computed by adding together the handler’s shipments of limes in the current season and his shipments in the immediately preceding seasons, if any, within the representative period, in which he shipped limes and dividing such total by a divisor computed by adding together the number of weeks elapsed in the current season and eighteen weeks for each of such immediately preceding seasons within the representative period in which the handler shipped limes. “Shipments” shall include only those limes which were shipped to destinations within the forty-eight contiguous States of the United States, the District of Columbia and Canada; “representative period” means the two preceding seasons together with the current season; the term “season” means the eighteen-week period beginning with the week preceding the first full week in May of any fiscal year; and the term “current season” means the period beginning with the week preceding the first full week in May of the current fiscal year through the fourth full week preceding the week of regulation: Provided, That when official shipping records are available to the committee he said “current season” shall extend through the third full week preceding the week of regulation.

§ 911.55 Allotments.

Whenever the Secretary has fixed the quantity of limes which may be handled during any week, the committee shall calculate the quantity of limes which may be handled during such week by each person who has applied for a prorate base and for whom such a base was computed by the committee. Such quantity shall be the allotment of such person and shall be that portion of the total quantity fixed by the Secretary which, expressed in terms of percent, is equal to the percentage that such applicant’s prorate base is of the aggregate of the prorate bases of all such applicants. The committee shall give reasonable notice in writing to each person of the allotment computed for him pursuant to this section.

§ 911.57 Overshipments.

During any week for which the Secretary has fixed the total quantity of limes which may be handled, any person who has received an allotment including any handler who received zero allotment computed pursuant to §§ 911.55 and 911.56 may handle, in addition to the total allotment available to him, an amount of limes equal to 50 bushels or two percent of such total allotment, whichever is the greater, except that during two weeks of each regulatory period any handler may overship his total allotment by more than such amount: Provided, That such overshipment shall not exceed an amount equal to 10 percent of such total allotment: And provided, further, That each handler who intends to so overship notifies the committee of his intended overshipment no later than the close of business on Thursday during the week of such intended overshipment.

Effective Date Note: At 61 FR 17552, Apr. 22, 1996, §911.56 was suspended indefinitely.

§ 911.58 Undershipments.

If any person handles during any week a quantity of limes, covered by a regulation issued pursuant to §911.54, in an amount less than the total allotment available to him for such week, he may handle, during the next week, only, a quantity of limes, in addition to that permitted by the allotment available to him for such week, equivalent to such undershipment or 50 percent of the allotment issued to him for the week during which the undershipment was made, whichever is the lesser: Provided, That the committee, with
the approval of the Secretary, may increase or decrease such percentage.

EFFECTIVE DATE NOTE: At 61 FR 17552, Apr. 22, 1996, §911.58 was suspended indefinitely.

§ 911.59 Allotment loans and transfers.

(a) A person to whom an allotment has been issued for a particular week may lend or transfer all or part of such allotment to other persons to whom allotments also have been issued.

(b) Loaned or transferred allotment may be used only during the particular week for which issued.

(c) Each party to any loan or transfer, shall, prior to the handling of any limes covered by a loan or transferred allotment, notify the committee of the loan or transfer including the applicable dates, if any, of repayment.

(d) If not volume regulation is in effect in the week when a loan repayment is due the repayment requirement shall be deemed canceled.

(e) Any handler to whom an allotment has been issued and who desires to be a party to any such loan or transfer arrangement, may communicate such information to the committee. As a service to handlers, the committee shall act as a clearinghouse of such information and make it available to all such handlers upon request. However, as required by paragraph (c) of this section each party to any such loan or transfer shall, prior to the handling of any limes covered by the loan or transferred allotment, notify the committee of the loan or transfer, including the applicable dates, if any, of repayment.

EFFECTIVE DATE NOTE: At 61 FR 17552, Apr. 22, 1996, §911.59 was suspended indefinitely.

§ 911.60 Reports.

(a) Each handler shall furnish to the committee, at such times and for such periods as the committee may designate, certified reports covering, to the extent necessary for the committee to perform its functions, the following: (1) The quantities of each variety of limes he received; (2) a complete record of the quantities disposed of by him, segregated as to varieties and as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition, the destination, by State, zone, or market area, of each lot of limes handled, and identification of the carrier transporting such fruit; (4) identification of the inspection certificates and the exemption certificates, if any, pursuant to which the fruit was handled, together with the destination of each such exempted disposition, and of all fruit handled pursuant to §911.56; and (5) the quantity of each variety held by him at the end of the period.

(b) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such times as it may prescribe, such other information as may be necessary to enable the committee to perform its duties under this part.

(c) Each handler shall maintain for at least two succeeding fiscal years, such records of the limes received and disposed of by him as may be necessary to verify the reports he submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of, one or more designated employees of the committee. No such employee shall disclose to any person, other than the Secretary upon request therefor, data or information obtained or extracted from such reports and records which might affect the trade position, financial condition, or business operation of the particular handler from whom received: Provided, That such data and information may be combined, and made available to any person, in the form of general reports in which the identities of the individual handler furnishing the information is not disclosed and may be revealed to any extent necessary to effect compliance with the provisions of this part and the regulations issued thereunder.

EFFECTIVE DATE NOTE: At 61 FR 17552, Apr. 22, 1996, §911.60 was suspended indefinitely.

by a majority of the producers: Pro-

the Secretary, produced more than 50
percent of the volume of the limes pro-
duced within the production area: And
provided further, That such termination
shall be announced by March 15 of the
then current fiscal year.

Secretary has found that continuance
of this part is not favored by producers
who, during a representative period de-

shall be effective only if announced on
or before March 15 of the then current

Such regulations may:

(1) Prohibit, prior to such time as shall be specified, the handling of any size or sizes of any variety or varieties of avocados grown in District 1 or District 2.

(2) Prohibit the handling of any variety or varieties of avocados grown in District 1 or District 2 which do not meet such quality and maturity standards as shall be prescribed.

(3) Limit the shipment of the total quantity of avocados by prohibiting the shipment thereof: Provided, That no such prohibition shall be effective during any fiscal period, other than for four periods not exceeding six days each immediately prior to, including, or following July 4, Labor Day, Thanksgiving Day, and Christmas Day.

If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 915.53  Exemption certificates.

Whenever a regulation is in effect pursuant to §915.51(a)(1), the committee shall issue one or more exemption certificates to any person who furnishes proof, satisfactory to the committee, that his avocados of a particular variety are mature prior to the time such variety may be handled under such regulation. Such exemption certificates shall authorize the person to whom the certificates are issued to handle, or have handled, only that portion of his avocados of the particular variety which the committee has determined to be mature. The committee shall adopt, with the approval of the Secretary, procedural rules by which such exemption certificates will be issued and the avocados covered thereunder may be handled. Exemption certificates shall be transferred to the handler of the avocados covered by such certificates at the time the avocados are delivered to such handler.

§ 915.54  Inspection and certification.

Whenever the handling of any variety of avocados is regulated pursuant to §915.51, each handler who handles avocados shall, prior thereto, cause each lot of avocados handled to be inspected by the Federal-State Inspection Service and certified by it as meeting the applicable requirements of such regulation: Provided, That such inspection and certification shall not be required whenever the avocados previously have been so inspected and certified. Promptly thereafter, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection with respect to such handling.

(b) The Secretary shall conduct a referendum as soon as practicable after the end of the fiscal year ending March 31, 1990, and at such time every sixth year thereafter, to ascertain whether continuance of this part is favored by avocado producers. The Secretary may terminate the provisions of this part at the end of any fiscal year in which the Secretary has found that continuance of this part is not favored by producers who, during a representative period determined by the Secretary, have been engaged in the production for market of avocados in the production area: Provided, That termination of this part shall be effective only if announced on or before March 15 of the then current fiscal year.

(c) The provisions of this part shall, in any event, terminate whenever the provisions of the Act authorizing them cease to be in effect.

§ 915.66 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 915.67 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 915.68 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 915.69 Derogation.

Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to...
exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 915.70 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 915.71 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

(c) If it is determined from the available information that the applicant is not entitled to be registered with the committee, he shall be so informed by written notice stating why the certificate of registration was not issued.
(d) Any certificate of registration issued to a handler pursuant to this section may be canceled by the committee under circumstances which would have justified denial of his application.
(e) The committee shall suspend the certificate of registration issued under this section of any handler who fails to pay assessments or furnish reports as required under this part, and so advise the handler in writing of the suspension and the effective date. Such meeting shall be supervised by the Nectarine Administrative Committee which may prescribe such rules and procedures as may be necessary to assure a membership representative of all shippers.

(c) The Shippers’ Advisory Committee may attend each meeting of the Nectarine Administrative Committee held to consider recommendations with respect to regulations of shipments pursuant to the provisions of this subpart. The Shippers’ Advisory Committee may advise the committee on matters relating to such recommendations, but shall have no vote with such committee in any matter. § 916.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not equal approximately one fiscal period’s expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred

Expenses and Assessments

§ 916.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired in the manner prescribed in § 916.41.

§ 916.41 Assessments.

(a) As his pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal period, each person who first handles nectarines during such period shall pay to the committee, upon demand, assessments on all nectarines so handled. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person during a fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period’s expenses. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all nectarines handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purposes.

§ 916.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, it shall be refunded proportionately to the persons from whom it was collected: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not equal approximately one fiscal period’s expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred
§ 916.45 Marketing research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research and development projects designed to assist, improve, or promote the marketing, distribution and consumption or efficient production of nectarines. Such projects may provide for any form of marketing promotion including paid advertising. The expense of such projects shall be paid by funds collected pursuant to §916.41.

[36 FR 9290, May 22, 1971]
§ 916.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of nectarines whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of nectarines grown in the production area;

(2) Limit the shipment of nectarines by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of nectarines.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary and the committee shall promptly give notice thereof to handlers.

§ 916.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §916.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of nectarines in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 916.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§916.41, 916.52, 916.53, and 916.55, and the regulations issued thereunder, handle nectarines (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §§916.41, 916.52, 916.53, or 916.55, the handling of nectarines (1) to designated market areas within the State of California; or (2) for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to §916.45), or in such minimum quantities or types of shipments, as may be prescribed.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent nectarines handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle nectarines pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the nectarines will not be used for any purpose not authorized by this section.

§ 916.55 Inspection and certification.

(a) Whenever the handling of any variety of nectarines is regulated pursuant to §916.52, or §916.53, each handler who handles nectarines shall, prior thereto, cause such nectarines to be inspected by the Federal or Federal-State Inspection Service and certified as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall not be

(c) Each handler shall maintain for at least two succeeding fiscal years, such records of the nectarines received and disposed of by him as may be necessary to verify the reports he submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of, one or more designated employees of the committee. No such employee shall disclose to any person, other than the Secretary upon request therefor, data or information obtained or extracted from such reports and records which might affect the trade position, financial condition, or business operation of the particular handler from whom received: Provided, That such data and information may be combined, and made available to any person, in the form of general reports in which the identities of the individual handler furnishing the information is not disclosed and may be revealed to any extent necessary to effect compliance with the provisions of this part and the regulations issued thereunder.

(c) The Secretary shall terminate the provisions of this part whenever he finds by referendum or otherwise that such termination is favored by a majority of the growers: Provided, That such majority has, during the current marketing season, produced more than 50 percent of the volume of the nectarines which were produced within the production area for shipment in fresh form. Such termination shall become effective on the first day of March subsequent to the announcement thereof by the Secretary.

(d) The committee shall consider all petitions from growers submitted to it for termination of this part provided such petitions are received by the committee prior to October 1 of the then current fiscal period. Upon recommendation of the committee received not later than December 1 of the then current fiscal period, the Secretary shall conduct a referendum among the growers prior to February 15 of such fiscal period to ascertain whether continuance of this part is favored by producers.

(e) The Secretary shall conduct a referendum within the period beginning December 1, 1974, and ending February 15, 1975, to ascertain whether continuance of this part is favored by the growers. The Secretary shall conduct such referendum within the same period of every fourth fiscal period thereafter.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 916.66 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which

One growers’ nomination meeting shall be held in each district. The shippers’ nomination meeting shall be held in the district which, during the preceding year, produced the most nectarines. The request need not be in writing but it shall be confirmed immediately in writing on a waiver form to be supplied by the inspection service;

(2) The Federal-State Inspection Service advises the handler that it is not practicable to provide inspection at the time and place designated by the handler. This advice may be verbal but it shall be confirmed in writing by the Federal-State Inspection Service by execution of the waiver form on which the handler submitted his written request. A confirmed copy thereof shall be forwarded by the inspection service to the office of the Nectarine Administrative Committee.

(3) The Federal-State Inspection Service furnishes the handler with the number of the waiver which shall cover the nectarines on which inspection is requested;

§ 916.160 Reporting procedure.

(a) Report of daily packout. When requested by the Nectarine Administrative Committee, each shipper who ships nectarines shall furnish to the manager of the Nectarine Administrative Committee or its designee a report of the number of packages by container type, by variety and by district of origin, which the shipper packed during the preceding day.

(b) Recapitulation of shipments. Each shipper of nectarines shall furnish to the manager of the Nectarine Administrative Committee not later than November 15 of each year a recapitulation of shipments of each variety shipped during the just-completed season. The recapitulation shall show: The name of the shipper, the shipping point, the district of origin, the variety, and the number of packages, by size, for each container type.

(c) Destination report. Each shipper who ships nectarines shall furnish to the manager of the Nectarine Administrative Committee a report of the number of packages of nectarines shipped to each destination, and whether the nectarines were yellow-fleshed or white-fleshed, and whether the nectarines were “CA Utility” quality: Provided, That handlers who shipped fewer than 50,000 containers or container equivalents of any combination of nectarines, peaches, and plums during the previous season are exempted from these reporting requirements: Provided further, That handlers who begin operation during or after the 2001 season shall be exempted from these reporting requirements during their first season of operation. The destination is defined as nectarine shipments to any domestic or international market. Destination information for domestic market shipments shall include city and state, and zip code, if known. Destination information for international market shipments shall include the country to which shipped. This report shall be submitted by the fifteenth of each month following the month in which nectarine shipments were made.

Subpart—Container and Pack Regulation

§ 916.350 California Nectarine Container and Pack Regulation.

(a) During the period beginning April 1 and ending October 31, no handler shall ship any package or container of any variety of nectarines except in accordance with the following terms and conditions:

(1) Such nectarines when packed in any closed package or container, except master containers of consumer packages and individual consumer packages, shall conform to the requirements of standard pack: Provided, That nectarines in any such volume-filled container need only be filled to within one inch of the top of the container.

(2) Each package or container of nectarines shall bear, on one outside end in plain sight and in plain letters, the word nectarines and, except for consumer packages in master containers and consumer packages mailed directly to consumers, the name of the variety, if known or, when the variety is not known, the words unknown variety.

(3) Each package or container of nectarines, except for consumer packages in master containers and consumer packages mailed directly to consumers, shall bear, on one outside end clearly and legibly in plain sight and in plain letters the words “U.S. Mature” or “US MAT” if such nectarines are mature as defined in the United States Standards for Grades of Nectarines (7 CFR 51.3145 through 51.3160); or may instead bear on one outside end clearly and legibly in plain sight and in plain letters the words “California Well Maturated” or “CA WELL MAT” if such nectarines are well matured as defined in §916.356.

(4) Each package or container of nectarines, except consumer packages mailed directly to consumers, shall bear, on one outside end in plain sight and in plain letters, the following count and/or size description of the nectarines as applicable.

(i) The size of nectarines packed in molded forms (tray-packs) in the No. 22D and the No. 32 standard boxes, or consumer packages; No. 22G standard lug boxes, experimental containers; or the No. 12B fruit (peach) boxes or flats; and the size of wrapped nectarines packed in rows in No. 12B fruit (peach) boxes shall be indicated in accordance with the number of nectarines in each container, such as “80 count,” “88 count,” etc.

(ii) The size of nectarines in molded forms (tray-packs) in experimental containers, and in No. 22G standard lug boxes, shall be indicated according to the number of such nectarines when packed in molded forms in the No. 22D standard lug box or the No. 32 standard box, in accordance with the requirements of standard pack, such as “80 size,” “88 size,” etc., along with count requirements in paragraph (a)(4)(i) of this section.

(iii) The size of nectarines loose-filled or tight-filled in any container shall be indicated according to the number of such nectarines when packed in molded forms in the No. 22D or No. 32 standard lug box in accordance with the requirements of standard pack, such “80 size,” “88 size,” etc.

(iv) The size of nectarines when packed in loose-filled or tight-filled containers, shall be marked in accordance with the following table 1 and table 2 which specify the tray-pack size designation in Column A with the corresponding maximum number of nectarines in a 16-pound sample of each size of the fruit in Column B: Provided, That the following procedure shall be used in determining whether nectarines meet the minimum size requirements specified for each size category in this section applying the 16-pound sample. A sample consisting of one-half of the specified number of fruit for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full
number of fruit shall be used to determine the sample weight. If a sample fails with respect to minimum size requirements on the basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

must also bear the number of nectarines contained in the package, the name of the variety, if known, or if the variety is not known, the words Unknown Variety, and be marked as specified in paragraph (a)(3) of this section.

(b) As used in this section, “standard pack” and “fairly uniform in size” shall have the same meaning as set forth in the U.S. Standards for Grades of Nectarines (§§51.3145 to 51.3160) and all other terms shall have the same meaning as when used in the amended marketing agreement and order. A No. 12B standard fruit box measures 2%/ to 7%/x11%/x16%/ inches, No. 22D standard lug box measures 2%/ to 7%/x13%/x16%/ inches, No. 22E standard lug box measures 8%/x13%/x16%/ inches, No. 22G standard lug box measures 7%/ to 7%/x13%/x15%/ inches, No. 32 standard box measures 5%/ to 7%/x12%/x19%/ inches.

All dimensions are given in depth (inside dimensions) by width by length (outside dimensions). “Individual consumer packages” means packages holding 15 pounds or less net weight of nectarines. “Tree ripe” means “tree ripened” and fruit shipped and marked as “tree ripe,” “tree ripened,” or any similar terms using the words “tree” and “ripe” must meet the minimum California Well Matured standards.

(c) Each container of nectarines in plastic, 12%/x19%/ inch reusable and recyclable containers shall meet and bear, on the container lid or on the outside end, all applicable marking requirements under the order.

(d) During the period April 1 through October 31, 2001, each container or package when packed with nectarines meeting the “CA Utility” quality requirements, shall bear the words “CA Utility,” along with all other required container markings, in letters at least ¾ inch in height.

Subpart—Grade and Size Regulation

§916.356 California Nectarine Grade and Size Regulation

(a) During the period beginning April 1 and ending October 31, no handler shall ship:

(1) Any lot or package or container of any variety of nectarines unless such nectarines meet the requirements of U.S. No. 1 grade: Provided, That nectarines 2 inches in diameter or smaller, shall not have fairly light-colored, fairly smooth scars which exceed an aggregate area of a circle ½ inch in diameter, and nectarines larger than 2 inches in diameter shall not have fairly light-colored, fairly smooth scars which exceed an aggregate area of a circle ¼ inch in diameter: Provided further, That an additional tolerance of 25 percent shall be permitted for fruit that is not well formed but not badly misshapen: Provided further, That all varieties of nectarines which fail to meet the U.S. No. 1 grade only on account of lack of blush or red color due to varietal characteristics shall be considered as meeting the requirements of this subpart: Provided further, That during the period April 1 through October 31, 2001, any handler may handle nectarines if such nectarines meet “CA Utility” quality requirements. The term “CA Utility” means that not more than 40 percent of the nectarines in any container meet or exceed the requirements of the U.S. No. 1 grade, except that when more than 30 percent of the nectarines in any container meet or exceed the requirements of U.S. No.
§ 916.356 7 CFR Ch. IX (1–1–02 Edition)

1 grade, the additional 10 percent shall have non-scoreable blemishes as determined when applying the U.S. Standards for Grades of Nectarines; and such nectarines are mature and are:

(i) Free from insect injury which has penetrated or damaged the flesh; split pits which cause an unhealed crack or one or more well healed cracks which, either singly or in the aggregate, are more than 3/8 inch in length; mold, brown rot, and decay which has affected the edible portion; and

(ii) Free from serious damage due to skin breaks, cuts, growth cracks, bruises, or other causes. Damage to any nectarine is serious when it causes a waste of 10 percent or more, by volume, of the individual nectarine.

(iii) Tolerances. Not more than 10 percent, by count, of the nectarines in any one container may be below the requirements which are prescribed by this paragraph, including not more than 5 percent, by count, for any one defect, except split pits. An additional tolerance of 10 percent, by count, of the nectarines in any one container or bulk lot may contain nectarines affected with split pits. This means a total tolerance of 20 percent is allowed for all defects, including split pits, but not to exceed 15 percent for split pits alone.

(iv) The Federal or Federal-State Inspection Service shall make final determinations on maturity through the use of color guides or such other tests as determined appropriate by the inspection agency. The Federal or Federal-State Inspection Service will use the maturity guides listed in table 1 to paragraph (a)(1)(iv) in making maturity determinations for the specified varieties when inspecting to the ‘‘well matured’’ level of maturity. For these varieties, not less than 90 percent of any lot shall meet the color guide established for the variety, and an aggregate area of not less than 90 percent of the fruit surface shall meet the color guide established for the variety, except that for the Tom Grand variety of nectarines, not less than an aggregate area of 80 percent of the fruit surface shall meet the color guide established for the variety. For varieties not listed, the Federal or Federal-State Inspection Service will use such tests as it seems proper. A variance for any variety from the application of the maturity guides specified in table 1 to paragraph (a)(1)(iv) may be granted during the season to reflect changes in crop, weather, or other conditions that would make the specified guides an inappropriate measure of ‘‘well matured.’’

(d) To establish such other committees to aid the commodity committee in the performance of its duties under this part as may be deemed advisable.

(e) Each season prior to any recommendation to the Secretary for a regulation of shipments pursuant to §§917.40 through 917.43 to determine the marketing policy to be followed for the respective commodity during the ensuing fiscal period and to submit such policy to the Secretary, said policy report to contain, among other provisions, information relative to the estimated total production and shipments of the fruit by districts, information as to the expected general quality and size of fruit, possible or expected demand conditions of different market outlets, supplies of competitive commodities, such analysis of the foregoing factors and conditions as the committee deems appropriate, and the type of regulations of shipments expected to be recommended for the respective fruit.

(f) To submit as soon as practicable after the beginning of each fiscal year to the Secretary, for his approval, a budget of its expenses for each fiscal period, including its proportional share of the expenses of the Control Committee and an explanation of the items therein, and a recommendation as to the rate of assessment for the respective fruit for which the commodity committee was established.

(g) With the approval of the Secretary, to redefine the Districts into which the State of California has been divided under §917.14 or change the representation of any representation area affecting the respective commodity committee: Provided, however, that if any such changes are made, representation on any such committee from the various representation areas shall be based, so far as practicable, upon the proportionate quantity of the respective fruit shipped from the respective representation area during the preceding three fiscal periods: Provided further, that the commodity committees shall follow the principle, so far as practicable, of assigning a member position on the commodity committees to any representation area from which five percent of regulated shipments have originated during such periods.

[41 FR 17528, Apr. 27, 1976, as amended at 56 FR 46369, Sept. 12, 1991]

EFFECTIVE DATE NOTE: At 59 FR 10056, Mar. 3, 1994, in §917.35, in paragraph (a), the words “and Pear” and “each” were suspended everywhere they appear, effective April 4, 1994.
§ 917.36 Expenses and Assessments

§ 917.36 Expenses.
Each commodity committee is authorized to incur such expenses as the Secretary finds are reasonable and are likely to be incurred by the said commodity committee during each fiscal period for the maintenance and functioning of such committee, including its proportionate share of the expenses of the Control Committee; and for such research and service activities relating to handling of the fruit for which the commodity committee was established as the Secretary may determine to be appropriate. The funds to cover such expenses shall be acquired by the levying of assessments as provided in §917.37.

§ 917.37 Assessments.
(a) As his pro rata share of the expenses which the Secretary finds are reasonable and are likely to be incurred by the commodity committees during a fiscal period, each handler shall pay to the Control Committee, upon demand, assessments on all fruit handled by him. The payment of assessments for the maintenance and functioning of the committees may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the respective rate of assessment which handlers shall pay with respect to each fruit during each fiscal period in an amount designed to secure sufficient funds to cover the respective expenses which may be incurred during such period. At any time during or after the fiscal period, the Secretary may increase the rates of assessment in order to secure funds to cover any later findings by the Secretary relative to such expenses, and such increase shall apply to all fruit shipped during the fiscal period.

(c) In order to provide funds to carry out the functions of the commodity committee prior to commencement of shipments in any season, shippers may make advance payments of assessments, which advance payments shall be credited to such shippers and the assessments of such shippers shall be adjusted so that such assessments are based upon the quantity of fruit shipped by such shippers during such season. Any shipper who ships fruit for the account of a grower may deduct, from the account of sale covering such shipment or shipments, the amount of assessments levied on said fruit shipped for the account of such grower.

§ 917.38 Accounting.
If, at the end of a fiscal period the assessments collected are in excess of expenses incurred, each commodity committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not exceed approximately one fiscal period’s expenses. Such reserve funds may be used (1) to cover any expenses authorized by this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, each handler entitled to a proportionate refund shall be credited with such refund against the operations of the following fiscal period or be paid such refund. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That, to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

Research

§ 917.39 Production research, market research and development.

The committees, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fruit. Such projects may provide for any form of marketing promotion including paid advertising. The expenses of such projects shall be paid from funds collected pursuant to §917.37.
§ 917.40 Recommendations for regulations.

(a) Whenever a commodity committee deems it advisable to regulate the handling of any variety or varieties of fruit in the manner provided in §917.41, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the commodity committee shall give consideration to current information with respect to the factors affecting the supply and demand for such fruit during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the commodity committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 917.41 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of any variety or varieties of fruit whenever he finds, from the recommendations and information submitted by the commodity committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Limit, during any period or periods, the total quantity of any grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of fruit;

(2) Limit the shipment of any variety or varieties of fruit by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of any fruit.

(b) The commodity committee shall be informed immediately of any such regulation issued by the Secretary, and the commodity committee shall promptly give notice thereof to handlers.

§ 917.42 Modification, suspension, or termination of regulations.

(a) In the event the commodity committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §917.41 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the commodity committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of fruit in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 917.43 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§917.37, 917.41, and 917.42, and the regulations issued thereunder, handle fruit (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the commodity committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §917.41, §917.42, §917.45, or §917.37, the handling of fruit; (1) To designated market areas outside the continental United States; (2) for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to §917.39); or (3) in such minimum quantities or types of shipments, as may be prescribed.

(c) The commodity committee shall, with the approval of the Secretary, prescribe such rules, regulations, and
§ 917.45 Inspection and certification.

(a) Whenever the handling of any variety of a particular fruit is regulated pursuant to §917.41 or §917.42, each handler who handles such fruit shall, prior thereto, cause such fruit to be inspected by the Federal or Federal-State Inspection Service: Provided, That inspection and certification shall not be required if such fruit has previously been so inspected and certified. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the commodity committee a copy of the certificate of inspection issued with respect to such fruit. The commodity committees may, with the approval of the Secretary, prescribe rules and regulations waiving the inspection requirements of this section where it is determined that inspection is not available: Provided, That all shipments made under such waiver shall comply with all regulations in effect.

(b) The Control Committee may enter into an agreement with the Federal and Federal-State Inspection Services with respect to the costs of the inspection required by paragraph (a) of this section, for any or all fruits, and may collect from handlers their respective pro rata shares of such costs.

§ 917.50 Reports.

(a) Each handler shall furnish to the Manager of the Control Committee, at such times and for such periods as the Control Committee or the commodity committees may designate, certified reports covering, to the extent necessary for the committees to perform their functions, each shipment of fruits as follows:

6. The destination;
7. Identification of the inspection certificate or waiver pursuant to which the fruit was handled;
8. The price per package at which sold, including specific and detailed information relative to all discounts, allowances, rebates, or other adjustments thereof.

(b) Upon request of any committee, made with the approval of the Secretary, each handler shall furnish to the Manager of the Control Committee, in such manner and at such times as it may prescribe, such other information as may be necessary to enable the committee to perform its duties under this part.

(c) Each handler shall maintain for at least two succeeding fiscal years, such records of the fruits received and disposed of by him as may be necessary to verify the reports he submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of, one or more designated employees of the Control Committee. No such employee shall disclose to any person, other than the Secretary upon request therefor, data or information obtained or extracted from such reports and records which might affect the trade position, financial condition, or business operation of the particular handler from whom received: Provided, That such data and information may be combined, and made available to any person, in the form of general reports in which the identities of the individual handlers furnishing the information are not disclosed and may be revealed.

(2) Each package or container of peaches shall bear, on one outside end in plain sight and in plain letters, the word peaches and, except for consumer packages in master containers and consumer packages mailed directly to consumers, the name of the variety, if known or, when the variety is not known, the words unknown variety.

(3) Each package or container of peaches, except for consumer packages in master containers and consumer packages mailed directly to consumers, shall bear on one outside end clearly and legibly in plain sight and in plain letters the words “U.S. Mature” or “US MAT” if such peaches are mature as defined in the United States Standards for Grades of Peaches (7 CFR 51.1210 through 51.1223); or may instead bear on one outside end clearly and legibly in plain sight and in plain letters the words “California Well Matured” or “CA WELL MAT” if such peaches are well matured as defined in §917.459.

(4) Each package or container of peaches, except consumer packages mailed directly to consumers, shall bear on one outside end in plain sight and in plain letters, the following count and/or size description of the peaches as applicable:

(i) The size of peaches packed in molded forms (tray-packs) in the No. 22D and No. 32 standard boxes, cartons, or consumer packages; No. 22G standard lug boxes or experimental containers; or No. 12B fruit (peach) boxes or flats; and the size of wrapped peaches packed in rows in No. 12B fruit (peach) boxes shall be indicated in accordance with the number of peaches in each container, such as “80 count,” “88 count,” etc.

(ii) The size of peaches in molded forms in experimental containers and in the No. 22G standard lug box shall be indicated according to the number of such peaches when packed in molded forms in the No. 22D standard lug box or the No. 32 standard box in accordance with the requirements of standard pack, such as “80 size,” “88 size,” etc., along with the count requirements in paragraph (a)(4)(i) of this section.

(iii) The size of peaches loose-filled or tight-filled in any container shall be indicated according to the number of such peaches when packed in molded forms in No. 22D or No. 32 standard boxes, in accordance with the requirements of standard pack, such as “80 size,” “88 size,” etc.

(iv) The size of peaches, when packed in loose-filled or tight-filled containers, shall be marked in accordance with the following table 1 and table 2 which specify the tray-pack size designation in Column A with the corresponding maximum number of peaches in a 16-pound sample of each size of the fruit in Column B: Provided, That the following procedure shall be used in determining whether peaches meet the minimum size requirements specified for each size category in this section applying the 16-pound sample. A sample consisting of one-half of the specified number of fruit for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full number of fruit shall be used to determine the sample weight. If a sample fails with respect to
§ 917.442

minimum size requirements on the basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

§ 917.459 California Peach Grade and Size Regulation.

(a) During the period beginning April 1 and ending November 23, no handler shall ship:

(1) Any lot or package or container of any variety of peaches unless such peaches meet the requirements of U.S. No. 1 grade: Provided, That an additional 25 percent tolerance shall be permitted for fruit with open sutures which are damaged, but not seriously damaged: Provided further, That peaches of the Peento type shall be permitted a 10 percent tolerance for healed, non-serious, blossom-end growth cracks: Provided further, That during the period April 1 through November 23, 2001, any handler may handle peaches if such peaches meet “CA Utility” quality requirements. The term “CA Utility” means that not more than 40 percent of the peaches in any container meet or exceed the requirement of the U.S. No. 1 grade, except that when more than 30 percent of the peaches in any container meet or exceed the requirements of U.S. No. 1 grade, the additional 10 percent shall have non-scoreable blemishes as determined when applying the U.S. Standards for Grades of Peaches; and that such peaches are mature and are:

(i) Free from insect injury which has penetrated or damaged the flesh; split pits which cause an unhealed crack or one or more healed cracks which, either singly or in the aggregate, are more than \( \frac{1}{2} \) inch in length; and mold, brown rot, and decay; and

(ii) Free from serious damage due to cuts, skin breaks, growth cracks, bruises, scab, rust, blight, disease, hail or other causes. Damage to any peach is serious when it causes a waste of 10 percent or more, by volume, of the individual peach.

(iii) Tolerances. Not more than 10 percent, by count, of the peaches in any container may be below the requirements prescribed by this paragraph.
Not more than one-half of this tolerance shall be allowed for any one cause. Individual containers in any lot may contain not more than one and one-half times the tolerances specified if the percentage of defects of the entire lot averages within the tolerances.

(iv) The Federal or Federal-State Inspection Service shall make final determinations on maturity through the use of color chips or such other tests as determined appropriate by the inspection agency. The Federal or Federal-State Inspection Service will use the maturity guides listed in table 1 to paragraph (a)(1)(iv) in making maturity determinations for the specified varieties when inspecting to the “well matured” level of maturity. For these varieties, not less than 90 percent of any lot shall meet the color guide established for the variety, and an aggregate area of not less than 90 percent of the fruit surface shall meet the color guide established for the variety. For varieties not listed, the Federal or Federal-State Inspection Service will use such tests as it deems proper. A variance for any variety from the application of the maturity guides specified in table 1 to paragraph (a)(1)(iv) may be granted during the season to reflect changes in crop, weather, or other conditions that would make the specified inappropriate measure of “well matured.”

(5) Organic pears means pears which are produced, harvested, distributed, stored, processed and packaged without application of synthetically compounded fertilizers, pesticides, or growth regulators. In addition, no synthetically compounded fertilizers, pesticides, or growth regulators shall be applied by the grower to the field or area in which the pears are grown for 12 months prior to the appearance of flower buds and throughout the entire growing and harvest season for pears.

§ 920.34 Annual report.

The committee shall, as soon as is practicable after the close of each marketing season, prepare and mail an annual report to the Secretary and make a copy available to each grower and handler who requests a copy of the report.

EXPENSES AND ASSESSMENTS

§ 920.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired in the manner prescribed in §920.41.

(b) The Secretary shall fix the rate of assessment to be paid by each such person during a fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period’s expenses. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred: Provided, That any assessment, excluding any amount collected pursuant to §920.55(c), must be limited to a maximum assessment rate of three and one-half cents per flat, or the equivalent thereof. The Secretary may increase this maximum rate in each succeeding year after the initial year of order operation by the Consumer Price Index (cost of living) for California as published by the Bureau of Labor Statistics. Such increase shall be applied to all kiwifruit handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purposes.

§ 920.50 Marketing policy.

(a) Each season prior to making any recommendations pursuant to §920.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing marketing season. Such marketing policy report shall contain information relative to:

§ 920.52 Issuance of regulations.

In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified, in this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in §922.20.

If the names of nominees to fill any such vacancy are not made available to the Secretary within a reasonable time after such vacancy occurs, the Secretary may fill
such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in §922.20.

§ 922.27 Alternate members.

An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member and perform such other duties as assigned. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified. In the event both a member of the committee and his alternate are unable to attend a committee meeting, the member or the committee may designate any other alternate member from the same district and group (handler or grower) to serve in such member’s place and stead.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve. Such reserve may be established at an amount not to exceed approximately one fiscal period’s operational expenses; and such reserve may be used to cover the necessary expenses of liquidation, in the event of termination of this part, and to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal period when there is a crop failure, or during any period of suspension of any or all of the provisions of this part. Such reserve may also be used by the committee to finance its operations, during any fiscal period, prior to the time that assessment income is sufficient to cover such expenses; but any of the reserve funds so used shall be returned to the reserve as soon as assessment income is available for this purpose. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report, including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

Such nominations, if made, shall be filed with the Secretary no later than the effective date of this part. In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified, in this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in §923.20.

If the names of nominees to fill any such vacancy are not made available to the Secretary within a reasonable time after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in §923.20.

§ 923.27 Alternate members.

An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member and perform such other duties as assigned. (a) Twelve members of the committee, including alternates acting for members, shall constitute a quorum; and any action of the committee shall require the concurring vote of at least nine members.
(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: Provided, That such meetings shall be subject to the establishment of communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place. Any such meeting shall be considered as an assembled meeting.
(c) The committee may vote by telegraph, telephone, or other means of communication, and any votes so cast shall be confirmed promptly in writing: Provided, That if an assembled meeting is held, all votes shall be cast in person.

The committee shall, prior to the last day of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. § 923.40 Expenses and Assessments

§ 923.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee to enable it to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments as prescribed in §923.41.

§ 923.41 Assessments.

(a) Each person who first handles cherries shall, with respect to the cherries so handled by him, pay to the committee upon demand such person’s pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal period. Each such person’s share of such expenses shall be equal to the ratio between the total quantity of cherries handled by him as the first handler thereof during the applicable fiscal period and the total quantity of cherries so handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all cherries handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

(c) If a handler does not pay any assessment within the time prescribed by the committee, the assessment may be subject to an interest or late payment charge, or both, as may be established by USDA as recommended by the committee.

§ 923.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in paragraph (a)(2) of this section, each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve. Such reserve may be established at an amount not to exceed approximately one fiscal period’s operational expenses; and such reserve may be used to cover the necessary expenses of liquidation, in the event of termination of this part, and to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal period when there is a crop failure, or during any period of suspension of any or all of the provisions of this part. Such reserve may also be used by the committee to finance its operations, during any fiscal period, prior to the time that assessment income is sufficient to cover such expenses; but any of the reserve funds so used shall be returned to the reserve as soon as assessment income is available for this purpose. Upon termination of this part, any funds not required to
§ 923.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section,

the handling of cherries whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of cherries grown in any district or districts of the production area;

(2) Limit the shipment of cherries by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of cherries.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to growers and handlers.

§ 923.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§923.41, 923.52, 923.53, and 923.55, and the regulations issued thereunder, handle cherries (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §§923.41, 923.52, 923.53, or 923.55, the handling of cherries in such minimum quantities, or types of shipments, or for such specified purposes, as the committee, with approval of the Secretary, may prescribe. Specified purposes under this section may include shipments of cherries for grading or packing to specified locations outside the production area and shipments to facilitate the conduct of marketing research and development projects established pursuant to §923.45.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent cherries handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle cherries pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the cherries will not be used for any purpose not authorized by this section. The committee may rescind or deny to any packing facility the special purpose shipment certificate if proof satisfactory to the committee is obtained that cherries shipped for the purpose stated in this section were handled

§ 923.55 Inspection and certification.

Whenever the handling of any variety of cherries is regulated pursuant to §923.52 or §923.53, each handler who handles cherries shall, prior thereto, cause such cherries to be inspected by the Federal-State Inspection Service, and certified by it as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall be required for cherries which previously have been inspected and certified only if such cherries have been regraded, resorted, re-packaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such cherries.

REPORTS

§ 923.60 Reports.

(a) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part. Such reports may include, but are not necessarily limited to, the following: (1) The quantities of each variety of cherries received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such cherries, and (4) the destination of each shipment of such cherries.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers are authorized, subject to the prohibition of disclosure of individual handler’s identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the cherries received, and of cherries disposed of, by such handler as may be necessary to verify reports pursuant to this section.

§ 923.65 Proceedings after termination.

EXPENSES AND ASSESSMENTS

§ 924.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds
§ 924.41 Assessments.

(a) Each person who first handles prunes shall, with respect to the prunes so handled by him, pay to the committee upon demand such person’s pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal period. Each such person’s share of such expenses shall be equal to the ratio between the total quantity of prunes handled by him as the first handler thereof during the applicable fiscal period and the total quantity of prunes handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all prunes handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

§ 924.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in paragraphs (a) (2) and (3) of this section, each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may establish and maintain during one or more fiscal years an operating monetary reserve in an amount not to exceed approximately one fiscal year’s operational expenses. Funds in such reserve shall be available for use by the committee for all expenses authorized pursuant to §924.40.

(3) Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this part.
RESEARCH
§ 924.45 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, and marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fresh prunes. The expense of such projects shall be paid from funds collected pursuant to §924.41.

REGULATIONS
§ 924.50 Marketing policy.

(a) Each season prior to making any recommendations pursuant to §924.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing season. Such marketing policy report shall contain information relative to:

1. The estimated total production of prunes within the production area;
2. The expected general quality and size of prunes in the production area and in other areas;
3. The expected demand conditions for prunes in different market outlets;
4. The expected shipments of prunes produced in the production area and in areas outside the production area;
5. Supplies of competing commodities;
6. Trend and level of consumer income;
7. Other factors having a bearing on the marketing of prunes; and
8. The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for prunes, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report, including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 924.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of prunes in the manner provided in §924.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for prunes during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 924.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of prunes whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

1. Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack or any combination thereof, of any variety or varieties of prunes grown in any district or districts: Provided, That whenever any regulation under this paragraph prescribes a specific maturity requirement applicable to the handling of any variety of prunes, such maturity requirement shall apply uniformly to all prunes of such variety grown in both districts;
2. Limit the shipment of prunes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;
3. Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of prunes;
§ 924.53

(4) Prescribe requirements, as provided in this paragraph, applicable to exports of any variety of prunes which are different from those applicable to the handling of the same variety to other destinations.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to growers and handlers.

§ 924.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §924.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of prunes in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such suspension.

§ 924.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§924.41, 924.52, 924.53, and 924.55, and the regulations issued thereunder, handle prunes (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §924.41, §924.52, §924.53, or §924.55, the handling of prunes in such minimum quantities, or types of shipments, or for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to §924.45) as the committee, with approval of the Secretary, may prescribe.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent prunes handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle prunes pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the prunes will not be used for any purpose not authorized by this section.

§ 924.55 Inspection and certification.

Whenever the handling of any variety of prunes is regulated pursuant to §924.52 or §924.53, each handler who handles prunes shall, prior thereto, cause such prunes to be inspected by the Federal or Federal-State Inspection Service, and certified by it as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall be required for prunes which previously have been so inspected and certified only if such prunes have been regraded, resorted, repackaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such prunes. The committee may, with the approval of the Secretary, prescribe rules and regulations modifying the inspection requirements of this section as to time and place such inspection shall be performed whenever it is determined it would not be practical to perform the required inspection at a particular location: Provided, That all such shipments shall comply with all regulations in effect.
§ 924.60 Reports.

(a) Upon request of the committee made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part. Such reports may include, but are not necessarily limited to, the following: (1) The quantities of each variety of prunes received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such prunes; and (4) the destination of each shipment of such prunes.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers are authorized, subject to the prohibition of disclosure of individual handler's identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the prunes received, and of prunes disposed of, by such handler as may be necessary to verify reports pursuant to this section.

§ 924.61 Compliance.

Except as provided in this part, no person shall handle prunes, the shipment of which has been prohibited by the Secretary in accordance with the provisions of this part; and no person shall handle prunes except in conformity with the provisions and the regulations issued under this part.

§ 924.62 Right of the Secretary.

The members of the committee (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 924.63 Effective time.

The provisions of this part and any amendments thereto shall become effective at such time as the Secretary may declare above his signature, and shall continue in force until terminated in one of the ways specified in §924.64.

§ 924.64 Termination.

(a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner in which he may determine.

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that continuance is not favored by the majority of producers who, during a representative period determined by the Secretary, were engaged in the production area in the production of prunes for market in fresh form: Provided, That such majority has produced for market during such period more than 50 percent of the volume of prunes produced for fresh market in the production area; but such termination shall be effective only if announced on or before March 31 of the then current fiscal period.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.
§ 924.65 Proceedings after termination.
(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.
(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.
(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 924.66 Effect of termination or amendment.
Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 924.67 Duration of immunities.
The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon the termination of this part, except with respect to acts done under and during the existence of this part.

§ 924.68 Agents.
The Secretary may, by designation in writing, name any officer or employee of the United States, or name, any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 924.69 Derogation.
Nothing contained in the provisions of this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 924.70 Personal liability.
No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 924.71 Separability.
If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

The funds to cover such expenses shall be acquired in the manner prescribed in §925.41.

§ 925.41 Assessments.

(a) Each person who first handles grapes shall pay to the committee, upon demand, such handler’s pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.
(b) The Secretary shall fix the rate of assessment to be paid by each such person during a fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period's expenses. At any time during or after a fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later findings by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all grapes handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments in the current period's shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

(c) Any assessment not paid by a handler within a period of time prescribed by the committee may be subject to an interest or late payment charge, or both. The period of time, rate of interest, and late payment charge shall be recommended by the committee and approved by the Secretary. Subsequent to such approval, all assessments not paid within the prescribed time shall be subject to the interest or late payment charge, or both.

§ 925.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (d)(2) of this section, it shall be refunded proportionately to the persons from whom it was collected: Provided, That any sum paid by a person in excess of that person's pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds in the reserve shall not exceed approximately one fiscal period's expenses. Such reserve funds may be used: (i) To defray expenses, during any fiscal period, prior to the time the assessment income is sufficient to cover such expenses; (ii) to cover deficits incurred during any fiscal period when assessment income is less than expenses; (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative; or (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practicable such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee under this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in such member's possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

§ 925.45 Production research and market research and development.

The committee, with the approval of the Secretary, may establish or provide
§ 925.50 Marketing policy.

§ 925.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of grapes upon finding from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act.

Such regulation may: (1) Limit the handling of any grade, size, quality, maturity, or pack, or any combination thereof, of any or all varieties of grapes during any period or periods; (2) limit the handling of any grade, size, quality, maturity, or pack of grapes differently for different varieties, or any combination of the foregoing during any period or periods; (3) limit the handling of grapes by establishing in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level; (4) fix the size, capacity, weight, dimensions, markings, materials, or pack of the container which may be used in handling grapes; (5) establish holidays by prohibiting the packing of all varieties of grapes during a specified period or periods.

(b) No handler shall handle grapes that were packed during any period when such packing was prohibited by any regulation issued under paragraph (a)(5) of this section unless such grapes are handled under §925.54.

§ 925.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §925.52 should be modified, suspended, or terminated with respect to any or all shipments of grapes in order to effectuate the declared policy of the act, the Secretary shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, the Secretary shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.
§ 925.54 Special purpose shipments.

(a) Regulations in effect pursuant to §925.41, §925.52, or §925.55 may be modified, suspended, or terminated to facilitate handling of grapes for purposes which may be recommended by the committee and approved by the Secretary.

(b) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent grapes handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section.

INSPECTION AND CERTIFICATION

§ 925.55 Inspection and certification.

(a) Whenever the handling of any variety of grapes is regulated pursuant to §925.52, each handler who handles grapes shall, prior thereto, cause such grapes to be inspected by the Federal or Federal-State Inspection Service and certified as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall not be required for grapes which previously have been so inspected and certified if such prior inspection was performed within such period as may be established pursuant to paragraph (b) of this section. Promptly after the inspection and certification each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such grapes.

(b) The committee may, with the approval of the Secretary, establish a period prior to shipment during which the inspection required by this section must be performed.

(c) Each handler shall maintain for at least two succeeding fiscal periods after the end of the fiscal period in which the transactions occurred, such records of the grapes received and disposed of by such handler as may be necessary to verify the reports such handler submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of one or more designated employees of the committee. number corresponding to the lot inspection conducted by an authorized inspector, except that such requirement shall not apply to containers in the center tier of a lot palletized in a 3 box by a 3 box pallet configuration.

(c) Organically grown grapes. Organically grown grapes (defined to mean grapes which have been grown for market as natural grapes by performing all the normal cultural practices, but not using any inorganic fertilizers or agricultural chemicals including insecticides, herbicides, and growth regulators, except sulfur) need not meet the minimum individual berry size requirements of this section if the following conditions and safeguards are met: (1) The handler of such grapes has registered and certified with the committee on a date specified by the committee the location of the vineyard, the acreage and variety of grapes, and such other information as may be needed by the committee to carry out these provisions; (2) each container of organically grown grapes bears the words “organically grown” on one outside end of the container in plain letters in addition to requirements specified under paragraph (b)(3) of this section.

(d) By-product grapes. The handling of grapes for processing (raisins, crushing and other by-products) is exempt from requirements specified in paragraphs (a), (b), and (c) of this section if the committee determines that the person handling such grapes has secured the appropriate permit or order from the County Agricultural Commissioner, and the by-product plant or packing plant to which the grapes are shipped has adequate facilities for commercial processing, grading, packing or manufacturing of by-products for resale.

(e) Suspension of packing holidays. Upon approval of the committee, the prohibition against packing or repacking grapes on any Saturday or Sunday, or on the Memorial Day or Independence Day holidays of each year, may be modified or suspended to permit the handling of grapes provided such handling complies with procedures and safeguards specified by the committee.

(f) Certain maturity, container, and pack requirements cited in this regulation are specified in the Title 3: California Code of Regulations and are incorporated by reference. Copies of such requirements are available from Ronald L. Cioffi, Chief, Marketing Order Administration Branch, F&V, AMS, USDA, Washington, DC 20090–6456, telephone (202) 720–2491. They are also available for inspection at the office of the Federal Register Information Center, 800 North Capitol Street, NW., suite 700, Washington, DC 20408. This incorporation by reference was approved by the Director of the Federal Register. These materials are incorporated as they existed on the date of the approval and a notice of any change in these materials will be published in the Federal Register.

(g) The Federal or Federal-State Inspection Service, F&V, AMS, USDA, is the governmental inspection service for certifying the grade, size, quality, and maturity of table grapes grown in the production area. The inspection and certification services will be available upon application in accordance with the rules and regulations governing inspections and certification of fresh fruits, vegetables, and other products (7 CFR part 51); except that all persons who request such inspection and certification must provide adequate facilities in which the inspections may be conducted and also provide the necessary equipment and incidental supplies that are considered as standard requirements for providing fresh inspection under Federal or Federal-State inspection procedures.

§ 927.20 Establishment and membership.

A Control Committee, consisting of 12 individual persons as its members, is hereby established to administer the terms and provisions of this subpart as specifically provided in §§927.20 through 927.35. There shall be two alternates, designated as the “first alternate” and the “second alternate,” respectively, for each member of the committee. Six members of the Control Committee and their respective alternates shall be growers of pears, and six members and their respective alternates shall be handlers of pears. Each district shall be represented on the Control Committee by one grower member and one handler member except that the Hood River-White Salmon-Underwood District and the Wenatchee District shall be represented on the committee by two grower members and two handler members.

§ 927.21 Nomination and selection of members and their respective alternates.

The grower members and their respective alternates for each district shall be selected by the Secretary from nominees elected by the handlers in such district, and the handler members and their respective alternates for each district shall be selected by the Secretary from nominees elected by the handlers in such district.

§ 927.22 Meetings for election of nominees.

Nominations for members of the Control Committee and their alternates shall be made at meetings of growers and handlers held in each of the districts designated in §927.11 at such times and places as the Control Committee shall designate. At each of such meetings the growers or handlers eligible to participate therein shall select a chairman and a secretary of that meeting. In the election of nominees, each grower and each handler shall be entitled to vote in accordance with the provisions of §927.23. The chairman of the meeting shall announce at the meeting the name of each person for whom votes have been cast, whether as a member or as an alternate for a member, and the number of votes cast for each such person; and the chairman or the secretary of such meeting shall forthwith transmit such information to the Secretary or his designated representative.

§ 927.35 Funds and other property.

(a) All funds received by the Control Committee pursuant to any of the provisions of this subpart shall be used solely for the purposes specified in this subpart, and the Secretary may require the Control Committee and its members to account for all receipts and disbursements.

[51 FR 30627, Aug. 28, 1986]

EXPENSES AND ASSESSMENTS

§ 927.40 Expenses.

The Control Committee is authorized to incur such expenses as the Secretary finds may be necessary to carry out its functions under this subpart. The funds to cover such expenses shall be acquired by the levying of assessments as provided in §927.41.

§ 927.41 Assessments.

(a) Assessments will be levied only upon handlers who first handle pears. Each handler shall pay assessments on all pears handled by such handler as the pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the Control Committee during a fiscal period. The payment of assessments for the maintenance and functioning of the Control Committee may be required under this part throughout the period such assessments are payable irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) Based upon a recommendation of the Control Committee or other available data, the Secretary shall fix the rate of assessment that handlers shall pay on all pears handled during each fiscal period, and may also fix supplemental rates of assessment on individual varieties or subvarieties to secure sufficient funds to provide for projects authorized under §927.47. At any time during the fiscal period when it is determined on the basis of a committee recommendation or other information that a different rate is necessary for all pears or for any varieties or subvarieties, the Secretary may modify a rate of assessment and such new rate shall apply to any or all varieties or subvarieties that are shipped during the fiscal period.

(c) The Control Committee may impose a late payment charge on any handler who fails to pay any assessment within the time prescribed by the committee. In the event the handler thereafter fails to pay the amount outstanding, including the late payment charge, within the prescribed time, the Control Committee may impose an additional charge in the form of interest on such outstanding amount. The amount of such late payment charge and rate of interest, shall be prescribed by the Control Committee, with the approval of the Secretary.

(d) In order to provide funds to carry out the functions of the Control Committee prior to commencement of shipments in any season, handlers may make advance payments of assessments, which advance payments shall be credited to such handlers and the assessments of such handlers shall be adjusted so that such assessments are based upon the quantity of each variety of pears handled by such handlers during such season. Further, payment discounts may be authorized by the Control Committee upon the approval of the Secretary to handlers making such advance assessment payments.

§ 927.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the committee, with the approval of the Secretary, may carryover such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not exceed approximately one fiscal period’s expenses. Such reserve may be used (1) to cover any expense authorized under this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. Any such excess not retained in a reserve or applied to any outstanding obligation of the person from whom it was collected shall be refunded proportionately to the persons from whom it was collected. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.
§ 927.43 Use of funds.

From the funds acquired pursuant to §927.41 the Control Committee shall pay the salaries of its employees, if any, and pay the expenses necessarily incurred in the performance of the duties of the Control Committee.

§ 927.44 Collection of unpaid assessments.

The Control Committee, with the approval of the Secretary, may institute and maintain, in its own name or in the names of its members, legal proceedings against any handler assessed for the collection of such handler’s pro rata share of the aforesaid expenses.

§ 927.45 Contributions.

The Control Committee may accept voluntary contributions but these shall only be used to pay expenses incurred pursuant to section 927.47. Furthermore, such contributions shall be free from any encumbrances by the donor and the Control Committee shall retain complete control of their use.

§ 927.47 Research and development.

The Control Committee, with the approval of the Secretary, may establish or provide for the establishment of production research, or marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of pears. Such projects may provide for any form of marketing promotion, including paid advertising. The expense of such projects shall be paid from funds collected pursuant to §§927.41 and 927.45. Expenditures for a particular variety of pears shall approximate the amount of assessments and voluntary contributions collected for that variety of pears.

§ 927.50 Recommendation by the Control Committee.

(a) It shall be the duty of the Control Committee to investigate, from time to time, supply and demand conditions relative to pears and each grade, size, and quality of each variety thereof. Such investigations by the Control Committee shall be with respect to the following: (1) Estimated production of each variety of pears and of each grade, size, and quality thereof; (2) prospective supplies and prices of Bartlett pears and other fruits, both in fresh and processed form, which are competitive to the marketing of pears; (3) prospective exports of pears and imports of pears from other producing areas; (4) probable harvesting period for each variety of pears; (5) the trend and level of consumer income; (6) general economic conditions; and (7) other relevant factors.

(b) On or before August 1 of each year, the Control Committee shall recommend regulations to the Secretary if it finds, on the basis of the foregoing investigations, that such regulation as is provided in §927.51 will tend to effectuate the declared policy of the act.

(c) In the event the Control Committee at any time finds that by reason of changed conditions any regulation issued pursuant to §927.51 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

§ 927.51 Issuance of regulations; and modification, suspension, or termination thereof.

(a) Whenever the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that regulation, in the manner specified in this section, of the shipment of pears would tend to effectuate the declared policy of the act, he shall so limit the shipment of pears during a specified period or periods. Such regulation: (1) May limit the total quantity of any grade, size, quality, or combination thereof, of any variety of pears...
grown in any district and may prescribe different requirements applicable to shipments to different export markets; or (2) may prescribe minimum standards of quality for any variety of pears and limit the shipment thereof to those meeting such minimum standards.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of pears grown in any district in order to effectuate the declared policy of the act, he shall so modify, suspend, or terminate such regulation. If the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate such modification or suspension.

§ 927.52 Prerequisites to Control Committee recommendations.

(a) Decisions of the Control Committee with respect to any recommendations to the Secretary pursuant to the establishment or modification of a supplemental rate of assessment for an individual variety of pears shall be made by affirmative vote of not less than 75 percent of the applicable total number of votes, computed in the manner hereinafter described in this section, of all committee members. Decisions of the Control Committee pursuant to the provisions of §927.50 shall be made by an affirmative vote of not less than 80 percent of the applicable total number of votes, computed in the manner hereinafter prescribed in this section, of all committee members.

(b) With respect to a particular variety of pears, the applicable total number of votes shall be the aggregate of the votes allotted to the members of the committee in accordance with the following: Each member shall have one vote as an individual and, in addition, shall have an equal share of the vote of the district represented by such member; and such district vote shall be computed by the Control Committee as soon as practical after the beginning of each fiscal period on either—

1. The basis of one vote for each 25,000 boxes (except 2,500 boxes for Forelle and Seckel varieties) of the average quantity of such variety produced in the particular district and shipped therefrom during the immediately preceding three fiscal periods; or

2. Such other basis as the Control Committee may recommend and the Secretary may approve.

The votes so allotted to a member of the committees may be cast by such member on each recommendation relative to the variety of pears on which such votes were computed.

§ 927.53 Notification.

(a) The Control Committee shall give prompt notice to growers and handlers of each recommendation to the Secretary pursuant to the provisions of §927.50.

(b) The Secretary shall immediately notify the Control Committee of the issuance of each regulation and of each modification, suspension, or termination of a regulation and the Control Committee shall give prompt notice thereof to growers and handlers.

§ 927.54 Exemption certificates.

(a) As soon as practicable after the beginning of each fiscal period the Control Committee shall adopt and announce the procedural rules by which exemption certificates may be issued to growers. The Control Committee shall determine the percentage which the grades and sizes of each variety of pears which could be shipped from each district under the regulation bears to the total quantity of each variety of pears which could be shipped from that district in the absence of regulation. An exemption certificate may thereafter be granted to any grower who furnishes proof that he will be prevented, because of the regulation in effect, from shipping a percentage of a particular variety of his pears equal to
§ 927.60 Inspection and certification.

(a) Except as hereinafter provided no handler shall ship any pears not theretofore inspected, and a certificate issued with respect thereto, by a duly authorized representative of the Federal-State Inspection Service: Provided, That such inspection and certification of shipments of pears may be performed by such other inspection service as the Control Committee, with the approval of the Secretary, may designate. Promptly after shipment of any pears, the handler shall submit, or cause to be submitted, to the Control Committee a copy of the inspection certificate issued on such shipment.

The Control Committee may prescribe regulations to prevent pears shipped for either of such purposes from entering commercial fresh-fruit channels of trade contrary to the provisions of this subpart.

(c) The Control Committee may, with the approval of the Secretary, designate storage warehouses within the area and prescribe rules and regulations whereby pears may be shipped to such storage warehouses exempt from the provisions of this subpart: Provided, That pears so shipped shall not thereafter be handled contrary to the provisions of this subpart.

§ 927.70 Reports.

Upon the request of the Control Committee, subject to the disapproval of the Secretary, each handler shall furnish to the Control Committee, in such manner and at such times as it prescribes, such information as will enable it to perform its duties under this subpart.

§ 927.71 Compliance.

Except as provided in §927.65, no handler shall ship any pears contrary to
the applicable restrictions and limitations specified in, or effective pursuant to, the provisions of this subpart.

§ 927.72 Duration of immunities.

The benefits, privileges, and immunities conferred by virtue of this subpart shall cease upon termination hereof, except with respect to acts done under and during the existence of this subpart.

§ 927.73 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remaining provisions and the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 927.74 Derogation.

Nothing contained in this subpart is or shall be construed to be in derogation of, or in modification of, the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 927.78 Termination.

(a) The Secretary may at any time terminate this subpart.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such operation obstructs or does not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever the Secretary finds that such termination is favored by a majority of the growers of pears who, during such fiscal period, have been engaged in the area in the production of pears for market: Provided, That such majority have produced for market during such period more than 50 percent of the volume of pears produced for market in the area. Such termination shall be effective only if announced on or before the last day of the then current fiscal period.

(d) The Secretary shall conduct a referendum within every six-year period beginning on the date this section becomes effective, to ascertain whether continuance of this subpart is favored by producers. The Secretary may terminate the provisions of this subpart at the end of any fiscal period in which the Secretary has found that continuance of this subpart is not favored by producers who, during a representative period determined by the Secretary, have been engaged in the production for market of pears in the production area: Provided, That termination of the order shall be effective only if announced on or before the last day of the then current fiscal period.

(e) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(b) The joint trustees shall continue in such capacity until discharged by the Secretary; from time to time account for all receipts and disbursements; deliver all funds and property on hand, together with all books and records of the Control Committee and of the joint trustees, to such person as the Secretary shall direct; and, upon the request of the Secretary, execute such assignments or other instruments necessary and appropriate to vest in such person full title to all of the funds or claims vested in the Control Committee or in said joint trustees.

(c) Any funds collected pursuant to this subpart and held by such joint trustees or such person over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the joint trustees or such other person in the performance of their duties under this subpart, as soon as practicable after the termination hereof, shall be returned to the handlers pro rata in proportion to their contributions thereto.

(d) Any person to whom funds, property, or claims have been delivered by the Control Committee or its members, upon direction of the Secretary, as provided in this section, shall be subject to the same obligations and duties with respect to said funds, property, or claims as are imposed upon the members of said Committee or upon said joint trustees.

§ 927.80 Amendments.

Amendments to this subpart may be proposed from time to time by the Control Committee or by the Secretary.

§ 927.81 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart or the issuance of any amendment to either, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued hereunder, or (b) release or extinguish any violation of this subpart or of any regulation issued hereunder, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 927.110 Determination of district percentages.

(a) The Control Committee, at its meeting held on or before August 1 of each year for the purpose of making recommendations to the Secretary under the provisions of §927.50, shall estimate the district percentages which the grades and sizes of each variety of pears permitted to be shipped from each district under the recommended regulation bears to the total quantity of each variety of pears which could be shipped from that district in the absence of regulation.

(b) Any notice issued or given pursuant to this estimate shall specifically state that each of the said percentages is merely an estimate subject to change, and is not to be relied upon until final action is taken as hereinafter provided. Each exemption committee, as hereinafter constituted in each district, shall meet and elect a district chairman and a secretary, either at or within ten days following said meeting of the Control Committee. Said district chairman shall immediately notify the secretary of the Control Committee of the names of the chairman and the secretary. The chairman of each exemption committee shall call a meeting of such committee within his district not later than a date to be determined each year by the Control Committee at the meeting specified in paragraph (a) of this section.

(c) At said district meeting, the district percentage estimates made by the Control Committee shall be reviewed by the exemption committee, and, if found to be not in accordance with conditions then existing within the district, said committee shall recommend proper adjustments to the Control Committee. Each exemption committee shall make only one recommendation for adjustment of district percentages in any one season, and said recommendation shall be made not later than the date specified by the Control Committee, except that should a major change occur in the crop or crops in any district after such date, the exemption committee may recommend a further change in such percentages. In the event no adjustment is recommended by the exemption committees by the date above specified, the Control Committee shall immediately, on the basis of information and evidence available to it, establish the district percentages to be used in computing exemptions to growers.

(d) The Control Committee shall give prompt notice to growers and handlers of the final percentages to be used in computing exemptions to growers.

(e) Any action taken by an exemption committee shall be approved by four affirmative votes, and each such committee shall keep accurate minutes and records of the proceedings of each of its meetings. A copy of such minutes and records shall be forwarded to the secretary of the Control Committee promptly after each meeting.

§ 927.110a Application for exemption certification.

Each application for an exemption certificate authorizing the shipment (pursuant to §927.54) during a particular marketing season of any variety of pears shall be filed with the Secretary of the Control Committee. At the same time, and in order to insure prompt handling of such application, the applicant shall mail or deliver a copy of the application to the chairman of the exemption committee in the district in which the pears are grown. The application should be filed at the time the pears are harvested, and must be filed prior to the time the applicant’s crop is graded, sized, and packed. § 927.111 Exemption committee.

The members and alternate members of the Control Committee residing in the district in which the applicant grower’s orchard is located shall act as an exemption committee for that district and shall make or cause to be made such additional investigation as may be necessary to determine whether the portion of the applicant’s production covered by the inspection certificates adequately represents the applicant’s total production of such variety. The cost of such inspection shall be borne by the applicant. The application to be submitted shall be “Form E-1 Growers Application for Exemption Certificate” and shall contain the following information:

(a) The name and address of the applicant;
(b) The location of the orchard (by district and distance from the nearest town) from which the fruit is to be shipped pursuant to the exemption certificate;
(c) The number and age of the trees producing the particular variety for which exemption is requested;
(d) The estimated quantity of such variety which could be shipped by the applicant in the absence of the grade, size, or quality regulations in effect at the time the application is filed;
(e) The percentage of such variety, as set forth in the attached Federal-State inspection certificate or the weighted average of such percentages if there is more than one inspection certificate, which meets the requirements of the aforesaid effective grade, size, or quality regulations;
(f) The quantity of such variety which meets the requirements of the aforesaid effective grade, size, or quality regulations (such quantity shall be determined by applying the applicable percentage prescribed in paragraph (e) of this section to be the estimated quantity pursuant to paragraph (d) of this section);
(g) The total crop of such variety and the quantity shipped during the preceding marketing season;
(h) The names of the shippers who shipped all or any portion of the applicant’s aforesaid crop during the preceding marketing season;
(i) The reasons why the quantity of the particular variety of pears, for which exemption is requested, does not meet the aforesaid effective grade, size, or quality regulations; and
(j) The name of the shipper or shippers who will ship the exempted pears if the exemption certificate is issued.

§ 927.112 Issuance of exemption certificate.

In the event such exemption committee finds and determines from proof, satisfactory to the committee, that the applicant is entitled to an exemption certificate, such exemption certificate shall be issued so as to permit the applicant to ship or have shipped the requisite quantity of his pears. Each exemption certificate shall be signed by the secretary or assistant secretary of the Control Committee.

In the event the secretary of the Control Committee has reason to believe that any such finding or determination by an exemption committee is improper or not in accordance with the facts, he may disapprove the same, and shall make or cause to be made such further investigation as he may determine to be necessary or advisable, and may request or obtain such information as he may deem necessary to enable him to determine whether or not and to what extent an applicant is entitled to an exemption certificate.

§ 927.113 Appeal to Control Committee.

Any grower, whose application is denied in whole or in part by the appropriate exemption committee or by the secretary of the Control Committee, may file a written appeal with the Control Committee within fifteen (15) days after the date of the notice to such grower of the decision involved. Upon receipt of such appeal, the secretary of the Control Committee shall submit the same, together with all applicable information and data, including the report of the exemption committee on that grower’s application to the members of the Control Committee, who thereafter shall review the same and shall determine whether and to what extent the applicant is entitled to an exemption certificate. Thereupon the secretary of the Control Committee shall issue to that grower such exemption certificate as the Control Committee shall determine to be proper.

§ 927.114 Appeal to Secretary.

Any grower who is dissatisfied with the Control Committee’s determination with respect to any appeal by that grower from a decision by an exemption committee or by the Secretary of the Control Committee with respect to that grower’s application for an exemption certificate, may appeal from such determination by the Control Committee to the Secretary of Agriculture. Any such appeal shall be made by filing with the secretary of the Control Committee a written notice of appeal within fifteen (15) days after notice to that grower of the aforesaid determination by the Control Committee. Promptly upon receipt of notice of an appeal signed by the applicant, the secretary of the Control Committee shall forward to the Secretary of Agriculture, or to his designated representative, a true and correct copy of all information pertaining to that grower’s application for an exemption certificate and the action taken thereon by the Control Committee, together with such written information and proof as was submitted to or obtained by the Control Committee with regard to said application, and a true copy of the appellant grower’s notice of appeal.

§ 929.27 Alternate members.

An alternate member of the committee, during the absence of the member for whom he is an alternate, shall act in the place and stead of such member and perform such other duties as assigned. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified. In the event both a grower member of the committee and his alternate are unable to attend a committee meeting, the committee may designate any other grower alternate member to serve in such member’s place and stead at that meeting: Provided, That not more than four members and alternate members selected from those nominated pursuant to § 929.22(b)(1) shall serve as members at the same meeting: And provided, further, That grower alternates shall not serve in place of an absent non-industry member.

(b) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part;
(c) To make and adopt rules and regulations to effectuate the terms and provisions of this part; and
(d) To recommend to the Secretary amendments to this part.

§ 929.31 Duties.

The committee shall have, among others, the following duties:

(b) To appoint such employees, agents, and representatives as it may deem necessary and to determine the compensation and to define the duties of each;
(c) To submit to the Secretary as soon as practicable after the beginning of each fiscal period a budget for such fiscal period, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such period;
(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;
(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;
(f) To cause its books to be audited by a competent public accountant at least once each fiscal year and at such times as the Secretary may request;
(g) To act as intermediary between the Secretary and any grower or handler;
(h) To investigate and assemble data on the growing, handling, and marketing conditions with respect to cranberries;
(i) To submit to the Secretary the same notice of meetings of the committee as is given to its members;

(a) Five members of the committee, or alternates acting for members, shall constitute a quorum and any action of
the committee shall require at least five concurring votes: Provided, That if the committee is increased by the addition of a public member and such public member or alternate is present at a meeting, 6 members shall constitute a quorum and any action of the committee on which the public member votes shall require 6 concurring votes. If the public member abstains from voting on any particular matter, 5 concurring votes shall be required for an action of the committee.

(b) The committee may vote by telephone, telegraph, or other means of communication, and any votes so cast shall be confirmed promptly in writing: Provided, That if an assembled meeting is held, all votes shall be cast in person.

(c) All assembled meetings of the committee shall be open to growers and handlers. The committee shall publish notice of such meetings in such newspapers as it deems appropriate and shall mail notice of such meetings to each grower and handler who has filed his name and address with the committee for such purpose.

§ 929.41 Assessments.

(a) As a handler’s pro rate share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal period, a handler shall pay to the committee assessments on all cranberries acquired as the first handler thereof during such period, except as provided in §929.55: Provided, That no handler shall pay assessments on excess cranberries as provided in §929.57. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect, irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each handler during a fiscal period in an amount designated to secure funds sufficient to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period’s expenses. At any time during or after the fiscal period, the Secretary may increase the assessment rate in order to secure funds sufficient to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all cranberries acquired during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal year, before sufficient operating income is available from assessments, the committee may accept the payment of assessments in advance and may also borrow money for such purposes.

(c) If a handler does not pay such assessment within the period of time prescribed by the committee, the assessment may be increased by either a late payment charge, or an interest charge, or both, at rates prescribed by the committee, with the approval of the Secretary.

[57 FR 38748, Aug. 27, 1992]
§ 929.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the committee, with the approval of the Secretary, may carryover such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not exceed approximately one fiscal period’s expenses. Such reserve funds may be used (1) to cover any expenses authorized by this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, it shall be refunded proportionately to the handlers from whom the excess was collected. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate; Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

§ 929.45 Research and development.

(a) The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and market development projects designed to assist, improve, or promote the marketing, distribution, consumption, or efficient production of cranberries. The expense of such projects shall be paid from funds collected pursuant to §929.41, or from such other funds as approved by the Secretary.

(b) The committee may, with the approval of the Secretary, establish rules and regulations as necessary for the implementation and operation of this section.

[57 FR 38748, Aug. 27, 1992]

§ 929.46 Marketing policy.

(a) Each year prior to May 1 the committee shall estimate the marketable quantity for the following crop year.

(b) As soon as practicable after August 1 of each crop-year and prior to making any recommendations pursuant to paragraphs (b) (7) and (8) of this section or to §929.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the crop-year. Such marketing policy shall contain the basis therefor and information relating to:

(1) The estimated total production of cranberries;
(2) The expected general quality of such cranberry production;
(3) The estimated carryover, as of September 1, of frozen cranberries and other cranberry products;
(4) The expected demand conditions for cranberries in different market outlets;
(5) Supplies of competing commodities;
(6) Trend and level of consumer income;
(7) The recommended desirable total marketable quantity of cranberries including a recommended adequate carryover into the following crop year of frozen cranberries and other cranberry products;
(8) Regulation pursuant to §929.52 expected to be recommended by the committee during the crop year together with its recommendation of the free and restricted percentages and beginning with the 1974–75 crop year, the recommended allotment percentages, if any, for the crop year; and
(9) Other factors having a bearing on the marketing of cranberries.

§ 929.47 Preliminary regulation.

(a) Beginning with the 1968–69 crop year, and continuing for each crop year thereafter through August 31, 1974, no handler shall handle, as the first handler thereof, cranberries purchased by him from a grower or acquired by him for handling for the account of a grower until he has determined the identity

[57 FR 38748, Aug. 27, 1992]
of the grower and the quantity of cranberries attributed to such grower. The handler shall furnish such information to the committee at such times and in such forms as the committee, with the approval of the Secretary, may request.

(b) So that each producer may qualify for a base quantity, pursuant to § 929.48, the committee shall furnish each producer early in each calendar year beginning in 1969, and as soon as practicable after the effective date of the amendment for the 1968 calendar year, a form to be filed with the committee whereon the producer reports the location of his bog(s), the acreage of cranberries he intends to harvest, and such other information as the committee needs to establish a base quantity for such producer.

[33 FR 11641, Aug. 16, 1968]

§ 929.48 Sales history.

(a) Determination of sales history. (1) The initial sales history shall be computed by the committee for each grower using the best four out of six years of such grower’s sales history, which shall include all commercial sales from the first complete crop year following adoption of this amendment, plus the prior five years’ history of commercial sales, except as otherwise provided in paragraph (a)(5) of this section. For a grower with four years or less of commercial sales history, the initial sales history shall be computed by the committee using all available years of such grower’s commercial sales history.

(2) A new sales history shall be computed for each grower after each crop year during which no volume regulation was established, in the same manner as for the initial sales history, except that the most recent crop year shall be used instead of the earliest crop year, and except as otherwise provided in paragraph (a)(4) of this section. The committee, with the approval of the Secretary, may, by regulation, alter the number and identity of years to be used in computing these subsequent sales histories.

(3) A new sales history shall be calculated for each grower after each crop year, during which a volume regulation has been established, using a formula determined by the committee, with the approval of the Secretary.

(4) Beginning with the first complete crop year following the adoption of this section, if a grower has no commercial sales from such grower’s cranberry acreage for three consecutive crop years due to forces beyond the grower’s control, the committee shall compute a level of commercial sales for the fourth year for that acreage using an estimated production, obtained by crediting the grower with the average sales from the preceding three years during which sales occurred. Any and all relevant factors regarding the grower’s lost production may be considered by the committee prior to establishing a sales history for such acreage.

(5) The committee shall compute a sales history for a grower who has no history of sales associated with such grower’s cranberry acreage during a crop year when a volume regulation has been established, using the greater of the following:

(i) The total estimated commercial sales from a grower’s cranberry acreage, or

(ii) The state average yield per acre multiplied by the grower’s cranberry producing acreage. Provided, That a grower having unused allotment and received a sales history computed under either of these methods shall forfeit such unused allotment.

(b) Grower report. Each grower shall file a report with the committee by January 15 of each crop year, indicating the total acreage harvested, the total commercial cranberry sales in barrels from such acreage, and the amount of any new or renovated acreage planted, to allow the committee to compute a sales history for each grower.

(c) The committee may establish, with the approval of the Secretary, rules and regulations necessary for the implementation and operation of this section.

[57 FR 38749, Aug. 27, 1992]

§ 929.49 Marketable quantity, allotment percentage, and annual allotment.

(a) Marketable quantity and allotment percentage. If the Secretary finds, from the recommendation of the committee
§ 929.50 Transfers.

(a) Transfers to another grower. A grower who owns cranberry acreage on which a sales history has been established may transfer the acreage and sales history to another grower. When transfers of acreage occur, transfers of sales history will be made under the following conditions:

(1) A lease agreement between the owner of the cranberry producing acreage and a lessee: Terms of such lease agreement, as is necessary for the committee to administer this part. On or before June 1, the committee shall issue to each grower an annual allotment that can be handled for each grower whose total crop will be delivered to that handler. In cases where a grower delivers a crop to more than one handler, such grower’s annual allotment will be apportioned equitably among the handlers.

(f) Growers who do not produce cranberries equal to their estimated annual allotment shall transfer their unused allotment to such growers’ handlers.

(b) The marketable quantity shall be apportioned among growers by applying the allotment percentage to each grower’s sales history, established pursuant to §929.48. Such allotment percentage shall be established by the Secretary and shall equal the marketable quantity divided by the total of all growers’ sales histories. Except as provided in paragraph (f) of this section, no handler shall purchase or handle on behalf of any grower cranberries not within such grower’s annual allotment.

(c) In any crop year in which the production of cranberries is estimated by the committee to be equal to or less than its recommended marketable quantity, the committee may recommend and the Secretary may increase or suspend the allotment percentage applicable to that year. In the event it is found that market demand is greater than the marketable quantity previously set, the committee may recommend and the Secretary may increase such quantity.

(d) Issuance of annual allotments. The committee shall require all growers to qualify for that allotment by filing with the committee, on or before April 15 of each year, a form wherein growers include the following information: The location of their cranberry producing acreage from which their annual allotment will be produced; the amount of acreage which will be harvested; changes in location, if any, of annual allotment; and such other information, including a copy of any lease agreement, as is necessary for the committee to administer this part. On or before June 1, the committee shall issue to each grower an annual allotment, determined by applying the allotment percentage established pursuant to paragraph (b) of this section to the grower’s sales history.

(e) On or before June 1 of any year in which an allotment percentage is established by the Secretary, the committee shall notify each handler of the annual allotment that can be handled for each grower whose total crop will be delivered to that handler. In cases where a grower delivers a crop to more than one handler, such grower’s annual allotment will be apportioned equitably among the handlers.

(g) Handlers who receive cranberries more than the sum of their growers’ annual allotments have “excess cranberries,” pursuant to §929.59, and shall so notify the committee. Handlers who have remaining unused allotments pursuant to paragraph (f) of this section are “deficient” and shall so notify the committee. The committee shall equitably distribute unused allotments to all handlers having excess cranberries.

(h) The committee may establish, with the approval of the Secretary, rules and regulations necessary for the implementation and operation of this section.

[33 FR 11641, Aug. 16, 1968, as amended at 57 FR 38749, Aug. 27, 1992]
agreement shall be filed with the committee prior to the committee recognizing such transfer. The lease agreement filed with the committee shall include the following information:

(i) Name of owner and lessee;
(ii) Starting and ending dates of the lease;
(iii) Amount of acreage transferred; and
(iv) The amount of sales history transferred.

(2) Total sale of cranberry acreage. When there is a sale of a grower’s total cranberry producing acreage, the seller and buyer shall file a completed transfer form with the committee and the buyer will have immediate access to the sales history computation process.

(3) Partial sale or lease of cranberry acreage. When less than the total cranberry producing acreage is sold or leased, sales history associated with the portion of the acreage being sold or leased shall be transferred with the acreage. The seller and lessor shall provide the committee with a completed transfer or lease form outlining such distribution of acreage and sales history between the parties. Such transfer or lease form shall include that percentage of the sales history, as defined in § 929.48(a)(1), attributable to the acreage being transferred or leased.

(4) No transfer shall be recognized by the committee unless the transferee and transferor notify the committee in writing: Provided That, if unusual circumstances exist, the Committee may recognize a transfer when only one form from the transferee or transferor is filed with the committee.

(5) In a year of nonregulation, in the absence of any sales history associated with the cranberry acreage being transferred or leased, the committee shall determine the buyer’s or lessee’s sales history pursuant to § 929.48 of the order.

(6) During a year when a volume regulation has been established, no transfer or lease of cranberry producing acreage, without accompanying sales history, shall be recognized until the committee is in receipt of a completed transfer or lease form.

(b) The committee may establish, with the approval of the Secretary, rules and regulations, as needed, for the implementation and operation of this section.

[57 FR 38749, Aug. 27, 1992]

§ 929.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of cranberries in the manner provided in § 929.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply of and demand for cranberries during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 929.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of cranberries whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that such regulation will tend to effectuate the declared policy of the Act. Such regulation shall limit the total quantity of cranberries which may be handled during any fiscal period either by fixing the free and restricted percentages, which percentages shall be applied to cranberries acquired by handlers during such fiscal period in accordance with § 929.54, or by establishing an allotment percentage in accordance with § 929.49.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to handlers.

[27 FR 8101, Aug. 15, 1962, as amended at 57 FR 38750, Aug. 27, 1992]
§ 929.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §929.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation: Provided, That no such modification shall increase the restricted percentage previously established for the then current fiscal year.

§ 929.54 Withholding.

(a) Whenever the Secretary has fixed the free and restricted percentages for any fiscal period, as provided for in §929.52(a), each handler shall withhold from handling a portion of the cranberries he acquires during such period: Provided, That such withholding requirements shall not apply to any lot of cranberries for which such withholding requirement previously has been met by another handler in accordance with §929.55. The withheld portion shall be equal to the sum of the products obtained by multiplying each of the following quantities, as applicable, by the restricted percentage:

(1) The quantity of screened cranberries acquired;

(2) The quantity of screened cranberries obtained at the time unscreened lots of cranberries are screened: Provided, That, if the cranberries have not been screened by a date specified by the committee, with the approval of the Secretary, as the date by which each handler shall have met the withholding requirement, the quantity of screened cranberries shall be determined as set forth in paragraph (a)(3) of this section; and

(3) The quantity of screened cranberries contained in unscreened lots of cranberries acquired (i) which are destined for disposition without screening, or (ii) but which have not been screened prior to the date referred to in paragraph (a)(2) of this section. The committee, with the approval of the Secretary, shall prescribe uniform rules to be followed in determining the quantity of screened cranberries in each lot of unscreened cranberries.

(b) The committee, with the approval of the Secretary, shall prescribe the manner in which, and date or dates during the fiscal period by which, handlers shall have complied with the withholding requirements specified in paragraph (a) of this section.

(c) Withheld cranberries shall meet such standards of grade, size, quality, or condition as the committee, with the approval of the Secretary, may prescribe. All such cranberries shall be inspected by the Federal or Federal-State Inspection Service. A certificate of such inspection shall be issued which shall show, among other things, the name and address of the handler, the number and type of containers in the lot, the location where the lot is stored, identification marks, including lot stamp, if used, and a certification of the quantity of cranberries in such lot that meet the prescribed standards. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee at the place designated by the committee a copy of the certificate of inspection issued with respect to such cranberries.

(d) Any handler who withholds from handling a quantity of cranberries in excess of that required pursuant to paragraph (a) of this section shall have such excess quantity credited toward the next fiscal year’s withholding obligation, if any, of such handler: Provided, That such credit shall be applicable only (1) if the restricted percentage established pursuant to §929.52 was modified pursuant to §929.53; (2) to the extent such excess was disposed of prior to such modification; and (3) after such handler furnishes the committee with such information as it prescribes regarding such withholding and disposition.

§ 929.55 Interhandler transfer.

(a) Transfer of cranberries from one handler to another may be made without prior notice to the committee, except during a period when a volume regulation has been established. If such transfer is made between handlers who have packing or processing facilities located within the production area, the assessment and withholding obligations provided under this part shall be assumed by the handler who agrees to meet such obligation. If such transfer is to a handler whose packing or processing facilities are outside of the production area, such assessment and withholding obligation shall be met by the handler residing within the production area.

(b) All handlers shall report all such transfers to the committee on a form provided by the committee four times a year or at other such times as may be recommended by the committee and approved by the Secretary.

(c) The committee may establish, with the approval of the Secretary, rules and regulations necessary for the implementation and operation of this section.

§ 929.56 Special provisions relating to withheld (restricted) cranberries.

(a) Except as otherwise directed by the Secretary, as near as practicable to the beginning of the marketing season of each fiscal period with respect to which the marketing policy proposes regulation pursuant to §929.52(a), the committee shall determine the amount per barrel each handler shall deposit with the committee for it to release to him, in accordance with paragraph (b) of this section, all or part of the cranberries he is withholding; and the committee shall give notice of such amount of deposit to handlers. Such notice shall state the period during which such amount of deposit shall be in effect. Whenever the committee determines that, by reason of changed conditions or otherwise, a different amount should thereafter be deposited for the release of withheld cranberries, it shall give notice to handlers of the new amount and the effective period thereof. Each determination as to the amount of deposit shall be on the basis of the committee’s evaluation of the following factors:

1. The prices at which growers are selling cranberries to handlers,
2. The prices at which handlers are selling fresh market cranberries to dealers,
3. The prices at which cranberries are being sold for processing into products, and
4. The prices the committee has paid to purchase cranberries to replace released cranberries in accordance with this section.

(b) Any handler may make a written request to the committee for the release of all or part of the cranberries he is withholding from handling pursuant to §929.54(a). Each such request shall state, in addition to all other information as may be prescribed by the committee, the quantity of cranberries for which release is requested and shall be accompanied by a deposit (in cash, or a cashier’s or certified check made payable to the Cranberry Marketing Committee) in an amount equal to the product of the number of barrels stated in the request multiplied by the then effective amount per barrel to be deposited. If the committee determines such request is properly filled out, is accompanied by the required deposit, and contains a certification that the handler is withholding such cranberries, it shall release to such handler the quantity of cranberries specified in his request. Such determination shall be made not later than 72 hours after the request is received by the committee.

(c) Funds deposited for the release of withheld cranberries, pursuant to paragraph (a) of this section, shall be used by the committee to purchase from handlers unrestricted (free percentage) cranberries in an aggregate amount as nearly equal to, but not in excess of, the total quantity of the released cranberries as it is possible to purchase to replace the released cranberries. All handlers shall be given an opportunity to participate in such purchase. If a larger quantity is offered than can be purchased, the purchases shall be made at the lowest prices possible. If two or more handlers offer at the same price,
§ 929.57 Outlets for restricted cranberries.

(a) Except as provided in this section and in § 929.56, cranberries withheld from handling may be disposed of only through diversion to such outlets as the committee, with the approval of the Secretary, finds are noncompetitive to outlets for unrestricted (free percentage) cranberries.

(b) The storage and disposition of all cranberries withheld from handling shall be subject to the supervision and accounting control of the committee.

§ 929.58 Exemption.

(a) Upon the basis of the recommendation and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements pursuant to this part the handling of cranberries in such minimum quantities as the committee, with the approval of the Secretary, may prescribe.

(b) The committee, with the approval of the Secretary, shall prescribe such rules, regulations, and safeguards as it may deem necessary to ensure that cranberries handled under the provisions of this section are handled only as authorized.

§ 929.59 Excess cranberries.

(a) Whenever the Secretary establishes an allotment percentage pursuant to § 929.52, handlers shall be notified by the committee of such allotment percentage and shall withhold from handling such cranberries in excess of the total of their growers' annual allotments obtained during such period. Such withheld cranberries shall be defined as "excess cranberries" after all unused allotment has been allocated.

(1) Excess cranberries received by a handler shall be made available for inspection by the committee or its representatives from the time they are received until final disposition is completed. Such excess cranberries shall be identified in such manner as the committee may specify in its rules and regulations with the approval of the Secretary.

(2) All matters dealing with handler-held excess cranberries shall be in accordance with such rules and regulations established by the committee, with the approval of the Secretary.

(b) Prior to January 1, or such other date as recommended by the committee and approved by the Secretary, handlers holding excess cranberries shall submit to the committee a written plan outlining procedures for the systematic disposal of such cranberries in the outlets prescribed in § 929.61.
§ 929.62 Reports.

(a) Inventory. Each handler shall, upon request of the committee, file promptly with the committee a certified report, showing such information as the committee shall specify with respect to any cranberries and cranberry products which were held by him on such date as the committee may designate.

(b) Receipts. Each handler shall, upon request of the committee, file promptly with the committee a certified report as to the quantity of cranberries handled by him during any designated period or periods.

(c) Withholding. Each handler shall, upon request of the committee, file
§ 929.63  Records.

Each handler shall maintain such records of all cranberries acquired, withheld from handling, handled, and otherwise disposed of as will substantiate the required reports and as may be prescribed by the committee. All such records shall be maintained for not less than three years after the termination of the crop year in which the transactions occurred or for such lesser period as the committee may direct.

§ 929.64  Verification of reports and records.

For the purpose of assuring compliance and checking and verifying records and the reports filed by handlers, the committee, through its duly authorized agents, shall have access to any premises where applicable records are maintained, where cranberries are received, stored, handled, and otherwise disposed of and, at any time during reasonable business hours, shall be permitted to inspect such handler premises and any and all records of such handlers with respect to matters within the purview of this part.

§ 929.65  Confidential information.

All reports and records furnished or submitted by handlers to the committee and its authorized agents which include data or information constituting a trade secret or disclosing the trade position, financial condition, or business operations of the particular handler from whom received, shall be received by and at all times kept in the custody and under the control of one or more employees of the committee, who shall disclose such information to no person other than the Secretary.

§ 929.69 Termination.

(a) The Secretary may at any time terminate the provisions of this part by giving at least one day’s notice by means of a press release or in any other manner in which he may determine.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part whenever he finds by referendum or otherwise that such termination is favored by a majority of the growers: Provided, That such majority has, during the current fiscal year, produced more than 50 percent of the volume of the cranberries which were produced within the production area. Such termination shall become effective on the last day of July subsequent to the announcement thereof by the Secretary.

(d) The Secretary shall conduct a referendum during the month of May 1975 to ascertain whether continuance of this part whenever he finds by referendum or otherwise that such termination is favored by a majority of the growers: Provided, That such majority has, during the current fiscal year, produced more than 50 percent of the volume of the cranberries which were produced within the production area. Such termination shall become effective on the last day of July subsequent to the announcement thereof by the Secretary.

§ 929.70 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 929.71 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued hereunder, or (b) release or extinguish any violation of this part or any regulation issued hereunder, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 929.72 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 929.73 Agents.

The Secretary may, by designation in writing, name any officer or employee
§ 929.74 Derogation.

Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 929.75 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 929.76 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

Subpart—Rules and Regulations

§ 929.101 Minimum exemption.

The requirements of §929.41 Assessments and §929.54 Withholding shall not apply to any handler in a fiscal year during which the handler handles not more than a total of 300 barrels of cranberries.

[53 FR 12374, Apr. 14, 1988]

§ 929.102 Procedure to determine quantity of screened cranberries in unscreened lots.

The determination pursuant to §929.54 of the quantity of screened cranberries contained in an unscreened lot shall be made in accordance with the following procedure and on the basis of a sample of representative boxes comprising no less than 2 percent of the cranberries in the lot:

(a) The cranberries in the sample are cleaned to remove chaff, and the boxes of cleaned berries are weighed. The weight of the boxes themselves is then deducted to determine the weight of the cleaned berries. The weight of the cleaned berries is divided by the number of boxes in the sample to obtain the net weight of cleaned cranberries per box. The net weight is multiplied by the number of boxes in the lot to obtain the net weight of the berries in the unscreened lot.

(b) The cleaned berries are run through a separator, having a \(\frac{9}{32}\) inch screen, and with the bounce boards in the lowest position.

(c) The berries from the lower three bounce boards are rerun through the separator.

(d) The berries from the upper four bounce boards are thoroughly mixed and a random cupful (approximately 1 pint) is used to determine, from a count of the sound and unsound berries, the percentage of sound berries in the lot.

(e) Such percentage is adjusted by increasing it by 5 percentage points but not to exceed a total of 100 percent. (This increase makes the sample comparable to lots of screened cranberries, as such lots generally contain an average of 5 percent unsound berries.)

(f) The net weight, as determined in accordance with paragraph (a) of this section, of the berries in the unscreened lot, is multiplied by the adjusted percentage to obtain the quantity of screened cranberries in the unscreened lot.

[28 FR 11611, Oct. 31, 1963]
§ 929.103 Inspection procedure.

(a) Inspection of withheld cranberries shall be limited to any plant, storage facility, or other location, within the production area where facilities suitable to the inspection service are available for sampling, weighing, and inspection of cranberries.

(b) The handler offering any lot of cranberries for inspection shall furnish the necessary labor and pay the costs of moving, weighing, and otherwise making available the sample the inspector chooses for inspection. The size of the sample shall be determined by the inspector. In the case of inspection of a lot of unscreened cranberries, the sample shall be screened by the handler under the supervision of the inspector and the inspection certificate shall show the quantity of cranberries in such lot which meets the requirements established for withheld cranberries pursuant to §929.54(c).

[28 FR 11611, Oct. 31, 1963]

§ 929.104 Outlets for excess cranberries.

(a) In accordance with §929.61, excess cranberries may be disposed of only in the following noncommercial or noncompetitive outlets, but only if the requirements in paragraph (b) of this section are complied with:

1. Foreign countries, except Canada.
2. Charitable institutions.
3. Any nonhuman food use.
4. Research and development projects approved by the committee dealing with the development of foreign and domestic markets, including, but not limited to dehydration, radiation, freeze drying, or freezing of cranberries.

(b) Excess cranberries may not be converted into canned, frozen, or dehydrated cranberries or other cranberry products by any commercial process. Handlers may divert excess cranberries in the outlets listed in paragraph (a) of this section only if they meet the diversion requirements specified in §929.61(c).

§ 929.105 Reporting.

(a) Each report required to be filed with the committee pursuant to §§929.6 and 929.48 shall be mailed to the committee office or delivered to that office. If the report is mailed, it shall be deemed filed when postmarked.

(b) Certified reports shall be filed with the committee, on a form provided by the committee, by each handler not later than January 5, May 5, and August 5 of each fiscal period and by September 5 of the succeeding fiscal period showing:

1. The total quantity of cranberries the handler acquired and the total quantity of cranberries and Vaccinium oxycoccus cranberries the handler handled from the beginning of the reporting period indicated through December 31, April 30, July 31, and August 31, respectively, and
2. The respective quantities of cranberries and Vaccinium oxycoccus cranberries and cranberry products and Vaccinium oxycoccus cranberry products held by the handler on January 1, May 1, August 1, and August 31 of each fiscal period.

[33 FR 16492, Nov. 13, 1968]

§ 929.106 Fiscal period.

The fiscal period specified in §929.6 of this part which began September 1, 1968, and ends on August 31, 1969, is changed to include the period of August 1, through August 31, 1968. Thereafter, the fiscal period will begin on September 1 and end on August 31 of the following year.

[33 FR 16492, Nov. 13, 1968]

§ 929.110 Transfers or sales of cranberry acreage.

(a) Sales or transfers of cranberry acreage shall be reported by the transferor and transferee to the committee, in writing, on forms provided by the committee. Completed forms shall be sent to the committee office not later than 30 days after the transaction has occurred.

(b) Upon transfer of all or a portion of a growers' acreage, the committee shall be provided with certain information on the forms it will provide to the parties. The transferor and transferee
must provide the following information:
(1) Crop records for the acreage involved;
(2) Annual production and sales for each crop year on the acreage involved, either in total, or for each individual parcel; and
(3) Such other information as the committee deems necessary.

(c) Cranberry acreage sold or transferred shall be recognized in connection with the issuance of sales history as follows:
(1) If a grower sells all of the acreage comprising the entity, all prior sales history shall accrue to the purchaser;
(2) If a grower sells only a portion of the acreage comprising the entity from which prior sales have been made, the purchaser and the seller must agree as to the amount of sales history attributed to each portion and shall provide, on a form provided by the committee, sufficient information so that sales are shown separately by crop year. However, the sales history attributed to each portion shall not exceed the total sales history, as determined by the committee, for such acreage at the time of transfer.
(d) During a year of regulation, all transfers of growers’ sales histories for partial or total leases of acreage shall be received in the Committee office by close of business on July 31.

§ 929.142 Reserve.
(a) It is necessary and appropriate to establish and maintain a reserve in an amount not to exceed approximately one fiscal period’s operational expenses to be used in accordance with the provisions of §929.42 of the marketing agreement and this part, and
(b) Assessments collected for each of the fiscal periods ended July 31, 1963; July 31, 1965; July 31, 1966; and July 31, 1967, were in excess of expenses for such periods. The committee is hereby authorized to place excess funds in said reserve.

§ 929.149 Determination of sales history.
A sales history for each grower shall be computed by the Committee in the following manner.
(a) For each grower with acreage with 7 or more years of sales history, a new sales history shall be computed using an average of the highest 4 of the most recent 7 years of sales. If the grower has acreage with 6 years sales history, a new sales history shall be computed by averaging the highest 4 of the 6 years. If the grower has acreage with 5 years of sales history and such acreage was planted prior to 1995, a
new sales history shall be computed by averaging the highest 4 of the 5 years.

(b) For growers whose acreage has 5 years of sales history and was planted in 1995 or later, the sales history shall be computed by averaging the highest 4 of the 5 years and shall be adjusted as provided in paragraph (d). For growers whose acreage has 4 years of sales history, the sales history shall be computed by averaging all 4 years and shall be adjusted as provided in paragraph (d). For growers whose acreage has 1 to 3 years of sales history, the sales history shall be computed by dividing the total years sales by 4 and shall be adjusted as provided in paragraph (d).

(c) For growers with acreage with no sales history or for the first harvest of replanted acres, the sales history will be 75 barrels per acre for acres planted or re-planted in 2000 and first harvested in 2001 and 156 barrels per acre for acres planted or re-planted in 1999 and first harvested in 2001.

(d) In addition to the sales history computed in accordance with paragraphs (a) and (b) of this section, additional sales history shall be assigned to growers with acreage planted in 1995 or later. The additional sales histories depending on the date the acreage is planted are shown in Table 1.

(e) Fresh fruit sales shall be deducted from the sales histories. The sales history assigned to each grower shall represent processed sales only.

(f) If a grower’s fruit does not qualify as fresh fruit upon delivery to the handler, it is converted to processed fruit, the handler shall give priority to this grower when allocating unused allotment if the grower does not have sufficient processed sales history to cover the converted fruit.

§ 929.158 Exemptions.
If fresh and organically-grown cranberries are exempted from the volume regulation as recommended by the Committee and approved by the Secretary, the following provisions to these exemptions shall apply:

(a) Sales of packed-out cranberries intended for sales to consumers in
§ 929.160 Public member eligibility requirements and nomination procedures.

(a) Public member and alternate member candidates shall not represent an agricultural interest and shall not have a financial interest in, or be associated with the production, processing, financing, or marketing of cranberries.

(b) Public member and alternate member candidates should be able to devote sufficient time to attend committee activities regularly and to familiarize themselves with the background and economies of the cranberry industry.

(c) Names of candidates together with evidence of qualification for public membership on the Cranberry Marketing Committee shall be submitted to the committee at its business office.

(d) Questionnaires shall be sent by the committee to those persons submitted as candidates to determine their eligibility and interest in becoming a public member.

(e) The names of persons nominated by the committee for the public member and alternate positions shall be submitted to the Secretary with such information as deemed pertinent by the committee or as requested by the Secretary.

(f) Public members shall serve a two-year term which coincides with the term of office of industry members of the committee.

On and after September 1, 2000, an assessment rate of $0.08 per barrel is established for cranberries.

§ 929.250 Marketable quantity and allotment percentage for the 2000–2001 crop year.

The marketable quantity for the 2000–2001 crop year is set at 5.468 million barrels and the allotment percentage is designated at 85 percent. The marketable quantity may be adjusted to retain the 85 percent allotment percentage if the total industry sales history increases due to established growers receiving additional sales history on acreage with four years sales or less.

(e) Board members from Districts 5, 6, 8 and 9 may be either grower or handler members and will be nominated and elected as outlined in §930.23. If
§ 930.21 Reestablishment.

Districts, subdivisions of districts, and the distribution of representation among growers and handlers within a respective district or subdivision thereof, or among the subdivision of districts, may be reestablished by the Secretary, subject to the provisions of § 930.23, based upon recommendations by the Board. In recommending any such changes, the Board shall consider:

(a) the relative importance of producing areas;
(b) relative production;
(c) the geographic locations of producing areas as they would affect the efficiency of administration of this part;
(d) shifts in cherry production within the districts and the production area;
(e) changes in the proportion and role of growers and handlers within the districts; and (f) other relevant factors.

§ 930.22 Term of office.

The term of office of each member and alternate member of the Board shall be for three fiscal years: Provided that, of the nine initial members and alternates from the combination of Districts 1, 2 and 3, one-third of such initial members and alternates shall serve only one fiscal year, one-third of such members and alternates shall serve only two fiscal years, one-third of such members and alternates shall serve three fiscal years; and one-half of the initial members and alternates from Districts 4 and 7 shall serve only one fiscal year, and one-half of such initial members and alternates shall serve two fiscal years (determination of which of the initial members and their alternates shall serve for 1 fiscal year, 2 fiscal years, or 3 fiscal years, in both instances, shall be by lot). Members and alternate members shall serve in such capacity for the portion of the term of office for which they are selected and have qualified until their respective successors are selected, have qualified and are appointed. The consecutive terms of office of grower, handler and public members and alternate members shall be limited to two 3-year terms, excluding any initial term lasting less than 3 years. The term of office of a member and alternate member for the same seat shall be the same. If this part becomes effective on a date such that the initial fiscal period is less than six months in duration, then the tolling of time for purposes of this subsection shall not begin until the beginning of the first 12-month fiscal period.

(a) Forms and ballots. Nomination and election of initial and successor members and alternate members of the Board shall be conducted through petition forms and election ballots distributed to all eligible growers and handlers via the U.S. Postal Service or other means, as determined by the Secretary. Similar petition forms and election ballots shall be used for both members and alternate members and any requirements for election of a member shall apply to the election of an alternate.

(b) Nomination:
Agricultural Marketing Service, USDA

§ 930.23

(1) In order for the name of a grower nominee to appear on an election ballot, the nominee’s name must be submitted with a petition form, to be supplied by the Secretary or the Board, which, except in District 8, contains at least five signatures of growers, other than the nominee, from the nominee’s district who are eligible to vote in the referendum. Grower petition forms in District 8 must be signed by only two growers, other than the nominee, from the nominee’s district.

(2) In order for the name of a handler nominee to appear on an election ballot, the nominee’s name must be submitted with a petition form, to be supplied by the Secretary or the Board, which contains the signature of at least one handler, other than the nominee, from the nominee’s district who is eligible to vote in the referendum. The requirement that the petition form be signed by a handler other than the nominee shall not apply in any District where less than two handlers are eligible to vote.

(3) Only growers, including duly authorized officers or employees of growers, who are eligible to serve as grower members of the Board shall participate in the nomination of grower members and alternate grower members of the Board. No grower shall participate in the submission of nominees in more than one district during any fiscal period. If a grower produces cherries in more than one district, that grower may select in which district he or she wishes to participate in the nominations and election process and shall notify the Secretary or the Board of such selection. A handler may not participate in the nominations process in one district and the elections process in a second district in the same election cycle. If a person is a grower and a grower-handler only because some or all of his or her cherries were custom packed, but he or she does not own or lease and operate a processing facility, such person may vote only as a grower.

(5) In Districts 5, 6, 8 and 9, both growers and handlers may be nominated for the district’s Board seat. Grower and handler nominations must follow the petition procedures outlined in paragraphs (b)(1) and (b)(2) of this section.

(6) All eligible growers and handlers in all districts may submit the names of the nominees for the public member and alternate public member of the Board.

(7) After the appointment of the initial Board, the Secretary or the Board shall announce at least 180 days in advance when a Board member’s term is expiring and shall solicit nominations for that position in the manner described in this section. Nominations for such position should be submitted to the Secretary or the Board not less than 120 days prior to the expiration of such term.

(c) Election:

(1) After receiving nominations, the Secretary or the Board shall distribute ballots via the U.S. Postal Service or other means, as determined by the Secretary, to all eligible growers and handlers containing the names of the nominees by district for the respective seats on the Board, excluding the public voting member seat. The ballots will clearly indicate that growers and handlers may only rank or otherwise vote for nominees in their own district.

(2) Except as provided in paragraph (c)(4) of this section, only growers, including duly authorized officers or employees of growers, who are eligible to serve as grower members of the Board shall participate in the selection of nominees in more than one district during any fiscal period. If a handler handles cherries in more than one district, that handler may select in which district he or she wishes to participate in the election of Board
§ 930.24 Appointment.

The selection of nominees made pursuant to elections conducted under § 930.23(c) shall be submitted to the Secretary in a format which indicates the nominees by district, with the nominee receiving the highest number of votes at the top and the number of votes received being clearly indicated. The Secretary shall appoint from those nominees or from other qualified individuals, the grower and handler members of the Board and an alternate for each such member on the basis of the representation provided for in § 930.20 or as provided for in any reapportionment or reestablishment undertaken pursuant to § 930.21. The public member and alternate public member are nominated by the Board pursuant to § 930.23(d) and shall also be subject to appointment by the Secretary. The Secretary shall appoint from nominees by the Board or from other qualified individuals the public member and the alternate public member.

§ 930.25 Failure to nominate.

If nominations are not made within the time and in the manner prescribed in § 930.23, the Secretary may, without regard to nominations, select the members and alternate members of the Board on the basis of the representation provided for in § 930.20 or as provided for in any reapportionment or reestablishment undertaken pursuant to § 930.21.

§ 930.26 Acceptance.

Each person to be appointed by the Secretary as a member or as an alternate member of the Board shall, prior to such appointment, qualify by advising the Secretary that he or she agrees to serve in the position for which nominated for selection.

§ 930.27 Vacancies.

To fill any vacancy occasioned by the failure of any person appointed as a member or as an alternate member of the Board to qualify, or in the event of

(d) To recommend to the Secretary amendments to this part.

§ 930.28 Alternate members.

An alternate member of the Board, during the absence of the member for whom that member serves as an alternate, shall act in the place and stead of such member and perform such other duties as assigned. However, if a member is in attendance at a meeting of the Board, an alternate member may not act in the place and stead of such member. In the event of the death, removal, resignation, or disqualification of a member, the alternate shall act for the member until a successor for such member is appointed and has qualified.

§ 930.29 Eligibility for membership on Cherry Industry Administrative Board.

(a) Each grower member and each grower alternate member of the Board shall be a grower, or an officer or employee of a grower, in the district for which nominated or appointed.

(l) To submit to the Secretary such available information as the Secretary may request;

(m) To investigate compliance with the provisions of this part;

(n) To develop and submit an annual marketing policy for approval by the Secretary containing the optimum supply of cherries for the crop year established pursuant to §930.50 and recommending such action(s) necessary to achieve such optimum supply;

(o) To implement volume regulations established under §930.50 and issued by the Secretary under §930.51, including the release of any inventory reserves;

(p) To provide thorough communication to growers and handlers regarding the activities of the Board and to respond to industry inquiries about Board activities;

(q) To oversee the collection of assessments levied under this part;

(r) To enter into contracts or agreements with such persons and organizations as the Board may approve for the development and conduct of activities, including research and promotion activities, authorized under this part or for the provision of services required by this part and for the payment of the cost thereof with funds collected through assessments pursuant to §930.41 and income from such assessments. Contracts or agreements for any plan or project shall provide that:

(1) The contractors shall develop and submit to the Board a plan or project together with a budget(s) which shall show the estimated cost to be incurred for such plan or project;

(2) Any contract or agreement for a plan or project and any plan or project adopted by the Board shall only become effective upon approval by the Secretary; and

(3) Every such contracting party shall keep accurate records of all of its transactions and make periodic reports to the Board of activities conducted and an accounting for funds received and expended, and such other reports as the Secretary or the Board may require. The Secretary or employees of the Board may audit periodically the records of the contracting party;

(s) To establish standards or grade requirements for cherries for frozen and canned cherry products, subject to the approval of the Secretary;

(u) To borrow such funds, subject to the approval of the Secretary and not to exceed the expected expenses of one fiscal year, as are necessary for administering its responsibilities and obligations under this part; and

(v) To establish, with the approval of the Secretary, such rules and procedures relative to administration of this subpart as may be consistent with the provisions contained in this subpart and as may be necessary to accomplish the purposes of the Act and the efficient administration of this subpart.

§ 930.32  Procedure.

(a) Twelve members of the Board, including alternates acting for absent members, shall constitute a quorum. For any action of the Board to pass, at least two-thirds of the entire Board must vote in support of such action.

(b) The Board may provide through its own rules and regulations, subject to approval by the Secretary, for simultaneous meetings of groups of its members assembled at different locations and for votes to be conducted by telephone or other means of communication. Votes so cast shall be promptly confirmed in writing.

(c) All meetings of the Board are open to the public, although the Board may hold portions of meetings in executive session for the consideration of
certain business. The Board will establish, with the approval of the Secretary, a means of advanced notification of growers and handlers of Board meetings.

§ 930.33 Expenses and compensation.

Except for the public member and alternate public member who shall receive such compensation as the Board may establish and the Secretary may approve, the members of the Board, and alternates when acting as members, shall serve without compensation but shall be reimbursed for necessary and reasonable expenses, as approved by the Board, incurred by them in the performance of their duties under this part. The Board at its discretion may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective member(s), and may pay the expenses of such alternates.

EXPENSES AND ASSESSMENTS

§ 930.40 Expenses.

The Board is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired by the levying of assessments as provided in § 930.41.

§ 930.41 Assessments.

(a) An assessment may be levied upon handlers annually under this part to cover the administrative costs of the Board, costs of inspection, and any research, development and promotion activities initiated by the Board under § 930.48.

(b) Each part of an assessment intended to cover the costs of each activity in paragraph (a) of this section, must be identified and approved by the Board and the Secretary, and any notification or other statement regarding assessments provided to handlers must contain such information.

(c) As a pro rata share of the administrative, inspection, research, development, and promotion expenses which the Secretary finds reasonable and likely to be incurred by the Board during a fiscal period, each handler shall pay to the Board assessments on all cherries handled, as the handler thereof, during such period: Provided, a handler shall be exempt from any assessment on the tonnage of handled cherries that are diverted according to § 930.59 which includes cherries represented by grower diversion certificates issued pursuant to § 930.58(b) and acquired by handlers and those cherries devoted to exempt uses under § 930.62.

(d) The Secretary, after consideration of the recommendation of the Board, shall fix the rate of assessment to be paid by each handler during the fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be approved and incurred during such period or subsequent period as provided in paragraph (c) of this section. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all cherries handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments, the Board may accept the payment of assessments in advance, and may borrow money for such purposes.

(e) Assessments not paid within a time prescribed by the Board may be made subject to interest or late payment charges, or both. The period of time, rate of interest, and late payment charge will be as recommended by the Board and approved by the Secretary: Provided, That when interest or late payment charges are in effect, they shall be applied to all assessments not paid within the prescribed period of time.

(f) Assessments will be calculated on the basis of pounds of cherries handled: Provided, That the formula adopted by the Board and approved by the Secretary for determining the rate of assessment will compensate for differences in the number of pounds of
§ 930.42 Accounting.  
(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the Board, with the approval of the Secretary, may carry over all or any portion of such excess into subsequent fiscal periods as a reserve. Such reserve funds may be used to cover any expenses authorized by this part, and to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, it shall be refunded proportionately to the handlers from whom the excess was collected. Without an additional reserve level approved by the Secretary, the amount held in reserve may not exceed approximately one year’s operational expenses. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such a manner as the Secretary may determine to be appropriate: Provided, That to the extent practicable, such funds shall be returned pro rata to the persons from whom such funds were collected.  
(b) All funds received by the Board pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the Board and its members to account for all receipts and disbursements.

QUALITY CONTROL

§ 930.44 Quality control.  
(a) Quality standards. The Board may establish, with the approval of the Secretary, such minimum quality and inspection requirements applicable to cherries as will contribute to orderly marketing or be in the public interest. If such requirements are adopted, no handler shall process cherries into manufactured products or sell manufactured products in the current of commerce unless such cherries and/or such cherries used in the manufacture of products meet the applicable requirements as evidenced by certification acceptable to the Board. The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this section.  

(b) Inspection and certification. Whenever the handling of any cherries requires inspection pursuant to this part, each handler who handles cherries shall cause such cherries to be inspected by the appropriate division of USDA, and certified by it as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall be required for cherries which previously have been so inspected and certified only if such cherries have been regraded, resorted, repackaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the Board a copy of the certificate of inspection issued with respect to such cherries.

RESEARCH, MARKET DEVELOPMENT AND PROMOTION

§ 930.48 Research, market development and promotion.  
The Board, with the approval of the Secretary, may establish or provide for the establishment of production and processing research, market research and development, and/or promotional activities, including paid advertising, designed to assist, improve or promote the efficient production and processing, marketing, distribution, and consumption of cherries subject to this part. The expense of such projects shall be paid from funds collected pursuant to this part and the income from such funds.

REGULATIONS

§ 930.50 Marketing policy.  
(a) Optimum supply. On or about July 1 of each crop year, the Board shall hold a meeting to review sales data, inventory data, current crop forecasts and market conditions in order to establish an optimum supply level for the crop year. The optimum supply volume
§ 930.50

shall be calculated as 100 percent of the average sales of the prior three years reduced by average sales that represent dispositions of restricted percentage cherries qualifying for diversion credit for the same three years, unless the Board determines that it is necessary to recommend otherwise with respect to sales of restricted percentage cherries, to which shall be added a desirable carryout inventory not to exceed 20 million pounds or such other amount as the Board, with the approval of the Secretary, may establish. This optimum supply volume shall be announced by the Board in accordance with paragraph (h) of this section.

(b) Preliminary percentages. On or about July 1 of each crop year, the Board shall establish a preliminary free market tonnage percentage which shall be calculated as follows: From the optimum supply computed in paragraph (a) of this section, the Board shall deduct the carryin inventory to determine the tonnage requirements (adjusted to a raw fruit equivalent) for the current crop year which will be subtracted by the current year USDA crop forecast. If the resulting number is positive, this would represent the estimated over-production which would need to be the restricted percentage tonnage. This restricted percentage tonnage would then be divided by the sum of the USDA crop forecast for the regulated districts to obtain the percentages for the regulated districts. The Board shall establish a preliminary restricted percentage equal to the quotient, rounded to the nearest whole number, with the compliment being the preliminary free tonnage percentage. If subtracting the current crop year requirement, computed in the first sentence from the current USDA crop forecast, results in a negative number, the Board shall establish a preliminary free tonnage of 100 percent with a preliminary restricted percentage of zero. The Board shall announce these preliminary percentages in accordance with paragraph (h) of this section.

(c) Interim percentages. Between July 1 and September 15 of each crop year, the Board may modify the preliminary free market tonnage and restricted percentages to adjust to the actual pack occurring in the industry. The Board shall announce any interim percentages in accordance with paragraph (h) of this section.

(d) Final percentages. No later than September 15 of each crop year, the Board shall review actual production during the current crop year and make such adjustments as are necessary between free and restricted tonnage to achieve the optimum supply and recommend such final free market tonnage and restricted percentages to the Secretary and announce them in accordance with paragraph (h) of this section. The difference between any final free market tonnage percentage designated by the Secretary and 100 percent shall be the final restricted percentage. With its recommendation, the Board shall report on its consideration of the factors in paragraph (e) of this section.

(e) Factors. When computing preliminary and interim percentages, or determining final percentages for recommendation to the Secretary, the Board shall give consideration to the following factors:

1. The estimated total production of cherries;
2. The estimated size of the crop to be handled;
3. The expected general quality of such cherry production;
4. The expected carryover as of July 1 of canned and frozen cherries and other cherry products;
5. The expected demand conditions for cherries in different market segments;
6. Supplies of competing commodities;
7. An analysis of economic factors having a bearing on the marketing of cherries;
8. The estimated tonnage held by handlers in primary or secondary inventory reserves; and
9. Any estimated release of primary or secondary inventory reserve cherries during the crop year.

(f) Modification. In the event the Board subsequently deems it advisable to modify its marketing policy, because of national emergency, crop failure, or other major change in economic conditions, it shall hold a meeting for that purpose, and file a report thereof.
§ 930.51 Issuance of volume regulations.

(a) Whenever the Secretary finds, from the recommendation and supporting information supplied by the Board, that to designate final free market tonnage and restricted percentages for any cherries acquired by handlers during the crop year will tend to effectuate the declared policy of the Act, the Secretary shall designate such percentages. Such regulation designating such percentage shall fix the free market tonnage and restricted percentages, totaling 100 percent, which shall be applied in accordance with this section, §§ 930.55, 930.57 and 930.59 to cherries grown in regulated districts, as determined under § 930.52, and handled during such fiscal period.

(b) The Board shall be informed immediately of any such regulation issued by the Secretary, and the Board shall promptly give notice thereof to handlers.

(c) That portion of a handler’s cherries that are restricted percentage cherries is the product of the restricted percentage imposed under paragraph (a) of this section multiplied by the tonnage of cherries, originating in a regulated district, handled, including those diverted according to § 930.59, by

with the Secretary within 5 days (exclusive of Saturdays, Sundays, and holidays) after the holding of such meeting, which report shall show the Board’s recommended modification and the basis therefor.

(g) Reserve tonnage to sell as free tonnage. In addition, the Board shall make available tonnage equivalent to an additional 10 percent, if available, of the average sales of the prior 3 years for market expansion. Handlers can determine if they need the additional tonnage and inform the Board so that reserve cherries may be released to them. Handlers not desiring the additional tonnage would not have it released to them.

(h) Publicity. The Board shall promptly give reasonable publicity to growers and handlers of each meeting to consider a marketing policy or any modification thereof, and each such meeting shall be open to them and to the public. Similar publicity shall be given to growers and handlers of each marketing policy report or modification thereof, filed with the Secretary and of the Secretary’s action thereon. Copies of all marketing policy reports shall be maintained in the office of the Board, where they shall be made available for examination. The Board shall notify handlers, and give reasonable publicity to growers, of its computation of the optimum supply, preliminary percentages, and interim percentages and shall notify handlers of the Secretary’s action on final percentages by registered or certified mail.

(i) Restricted Percentages. Restricted percentage requirements established under paragraphs (b), (c) or (d) of this section may be fulfilled by handlers by either establishing an inventory reserve in accordance with § 930.55 or § 930.57 or by diversion of product in accordance with § 930.59. In years where required, the Board shall establish a maximum percentage of the restricted quantity which may be established as a primary inventory reserve such that the total primary inventory reserve does not exceed 50 million pounds. Handlers will be permitted to divert (at plant or with grower-diversion certificates) as much of the restricted percentage requirement as they deem appropriate, but may not establish a primary inventory reserve in excess of the percentage established by the Board for restricted cherries. In the event handlers wish to establish inventory reserve in excess of this amount, they may do so, in which case it will be classified as a secondary inventory reserve and will be regulated accordingly.

(j) Inventory Reserve Release. In years when inventory reserve cherries are available and when the expected availability of cherries from the current crop plus expected carryin inventory does not fulfill the optimum supply, the Board shall release not later than November 1st of the current crop year such volume from the inventory reserve as will satisfy the optimum supply.
that handler in that fiscal year. Therefore, while diverted cherries, including those represented by grower diversion certificates, may be exempt from assessment under § 930.41, they must be counted when computing restricted percentage requirements.

(d) The Board, with the approval of the Secretary, shall develop rules and regulations which shall provide guidelines for handlers in complying with any restricted tonnage requirements, including, but not limited to, a grace period of at least 30 days to segregate and appropriately document any tonnage they wish to place in the inventory reserve and to assemble any applicable diversion certificates.

§ 930.52 Establishment of districts subject to volume regulations.

(a) Upon adoption of this part, the districts in which handlers shall be subject to any volume regulations implemented in accordance with this part shall be those districts in which the average annual production of cherries over the prior three years has exceeded 15 million pounds. Handlers in districts not meeting the 15 million pound requirement at the time of order promulgation shall become subject to volume regulation implemented in accordance with this part in the crop year that follows any three-year period in which the 15 million pound average production requirement is exceeded in that district.

(b) Handlers in districts which are not subject to volume regulation would only be so regulated to the extent that they handled cherries which were grown in a district subject to regulation as specified in paragraph (a) of this section. In such a case, the handler must place in inventory reserve pursuant to § 930.55 or § 930.57 or divert pursuant to § 930.59 the required restricted percentage of the crop originating in the regulated district.

(c) Handlers in districts not meeting the production requirement described in paragraph (a) of this section in a given year would not be subject to volume regulation in the next crop year.

(d) Any district producing a crop which is less than 50 percent of the average annual processed production in that district in the previous five years would be exempt from any volume regulation if, in that year, a restricted percentage is established.

(e) The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this section.

§ 930.53 Modification, suspension, or termination of regulations.

(a) In the event the Board at any time finds that, by reason of changed conditions, any regulations issued pursuant to §§ 930.44 or 930.51 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the Board or from other available information, that a regulation issued pursuant to §§ 930.44 or 930.51 should be modified, suspended or terminated with respect to any or all shipments of cherries in order to effectuate the declared policy of the Act, the Secretary shall modify, suspend, or terminate such regulation.

§ 930.54 Prohibition on the use or disposition of inventory reserve cherries.

(a) Release of primary and secondary inventory reserve cherries. Except as provided in § 930.50 and paragraph (b) of this section, cherries that are placed in inventory reserve pursuant to the requirements of § 930.50, § 930.51, § 930.55, or § 930.57 shall not be used or disposed of by any handler or any other person: Provided, That if the Board determines that the total available supplies for use in normal commercial outlets do not at least equal the amount, as estimated by the Board, needed to meet the demand in such outlets, the Board shall recommend to the Secretary and provide such justification that, during such period as may be recommended by the Board and approved by the Secretary, a portion or all of the primary and/or secondary inventory reserve cherries shall be released for such use.

(b) Reserved.

Editorial Note: At 66 FR 232, Jan. 3, 2001, in § 930.54 paragraph (a), the word “normal” was suspended indefinitely.
§ 930.55 Primary inventory reserves.

(a) Whenever the Secretary has fixed the free market tonnage and restricted percentages for any fiscal period, as provided for in §930.51(a), each handler in a regulated district shall place in his or her primary inventory reserve for such period, at such time, and in such manner, as the Board may prescribe, or otherwise divert, according to §930.59, a portion of the cherries acquired during such period.

(b) The form of the cherries, frozen, canned in any form, dried, or concentrated juice, placed in the primary inventory reserve is at the option of the handler. Except as may be limited by §930.50(i) or as may be permitted pursuant to §§930.59 and 930.62, such inventory reserve portion shall be equal to the sum of the products obtained by multiplying the weight or volume of the cherries in each lot of cherries acquired during the fiscal period by the then effective restricted percentage fixed by the Secretary: Provided, That in converting cherries in each lot to the form chosen by the handler, the inventory reserve obligations shall be adjusted in accordance with uniform rules adopted by the Board in terms of raw fruit equivalent.

(c) Inventory reserve cherries shall meet such standards of grade, quality, or condition as the Board, with the approval of the Secretary, may establish. All such cherries shall be inspected by USDA. A certificate of such inspection shall be issued which shall show, among other things, the name and address of the handler, the number and type of containers in the lot, the grade of the product, the location where the lot is stored, identification marks (can codes or lot stamp), and a certification that the cherries meet the prescribed standards. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the Board, at the place designated by the Board, a copy of the certificate of inspection issued with respect to such cherries.

(d) Handlers shall be compensated for inspection costs incurred on cherries placed in the primary inventory reserve. All reporting of cherries placed in, rotated into, or released from an inventory reserve shall be in accordance with rules and procedures established by the Board, with the approval of the Secretary. The Board could, with the approval of the Secretary, also limit the number of inspections of reserve cherries being rotated into inventory reserves for which the Board would be financially liable.

(e) Except as provided in §930.54, handlers may not sell inventory reserve cherries prior to their official release by the Board. Handlers may rotate cherries in their inventory reserves with prior notification to the Board. All cherries rotated into the inventory reserve must meet the applicable inspection requirements.

§ 930.56 Off-premise inventory reserve.

Any handler may, upon notification to the Board, arrange to hold inventory reserve, of his or her own production or which was purchased, on the premises of another handler or in an approved commercial storage facility in the same manner as though the inventory reserve were on the handler's own premises.

§ 930.57 Secondary inventory reserve.

(a) In the event the inventory reserve established under §930.55 of this part is at its maximum volume, and the Board has announced, in accordance with §930.50, that volume regulation will be necessary to maintain an orderly supply of quality cherries for the market, handlers in a regulated district may elect to place in a secondary inventory reserve all or a portion of the cherries the volume regulation would otherwise require them to divert in accordance with §930.59.

(b) Should any handler in a regulated district exercise his or her right to establish a secondary inventory reserve under paragraph (a) of this section, all costs of maintaining that reserve, as well as inspection costs, will be the responsibility of the individual handler.

(c) The secondary inventory reserve shall be established in accordance with §§930.55 (b) and (c) and such other rules and regulations which the Board, with the approval of the Secretary, may establish.

(d) The Board shall retain control over the release of any cherries from the secondary inventory reserve. No
cherries may be released from the secondary reserve until all cherries in any primary inventory reserve established under §930.55 have been released. Any release of the secondary inventory reserve shall be in accordance with the annual marketing policy and with §930.54.

§ 930.58 Grower diversion privilege.

(a) In general. Any grower may voluntarily elect to divert, in accordance with the provisions of this section, all or a portion of the cherries which otherwise, upon delivery to a handler, would become restricted percentage cherries. Upon such diversion and compliance with the provisions of this section, the Board shall issue to the diverting grower a grower diversion certificate which such grower may deliver to a handler, as though there were actual harvested cherries.

(b) Eligible diversion. Grower diversion certificates shall be issued to growers only if the cherries are diverted in accordance with the following terms and conditions or such other terms and conditions that the Board, with the approval of the Secretary, may designate:

(1) The form and content of applications and agreements relating to the diversion, including provisions for supervision and compensation; and

(2) Provisions for mapping areas in which cherries will be left unharvested.

(c) Application/mapping. The Board, with the approval of the Secretary, shall develop rules and regulations providing for the diversion of cherries by growers. Such regulations may include, among other things:

(1) The form and content of applications and agreements relating to the diversion, including provisions for supervision and compensation; and

(2) Provisions for mapping areas in which cherries will be left unharvested.

(d) Diversion certificate. If the Board approves the application it shall so notify the applicant and conduct such supervision of the applicant’s diversion of cherries as may be necessary to assure that the cherries have been diverted. After the diversion has been accomplished, the Board shall issue to the diverting grower a diversion certificate stating the weight of cherries diverted.

Where diversion is carried out by leaving the cherries unharvested, the Board shall estimate the weight of cherries diverted on the basis of such uniform rule prescribed in rules and regulations as the Board, with the approval of the Secretary, may recommend to implement this section.

§ 930.59 Handler diversion privilege.

(a) In general. Handlers handling cherries harvested in a regulated district may fulfill any restricted percentage requirement in full or in part by voluntarily diverting cherries or cherry products in a program approved by the Board, rather than placing cherries in an inventory reserve. Upon such diversion and compliance with the provisions of this section, the Board shall issue to the diverting handler a handler diversion certificate which shall satisfy any restricted percentage or diversion requirement to the extent of the Board or Department inspected weight of the cherries diverted.

(b) Eligible diversion. Handler diversion certificates shall be issued to handlers only if the cherries are diverted in accordance with the following terms and conditions or such other terms and conditions that the Board, with the approval of the Secretary, may establish. Such diversion may take place in any of the following forms which the Board, with the approval of the Secretary, may designate:

(1) Uses exempt under §930.62; nonhuman food uses; or other uses, including diversion by leaving such cherries unharvested.

(2) Provided, that diversion may not be accomplished by converting cherries into juice or juice concentrate.

(c) Notification. The handler electing to divert cherries through means specified in this section or other approved means (not including uses exempt under §930.62), shall first notify the Board of such election. Such notification shall describe in detail the manner in which the handler proposes to divert cherries including, if the diversion is to be by means of destruction of the cherries, a detailed description of the
§ 930.60 **Equity holders.**

(a) **Inventory reserve ownership.** The inventory reserve shall be the sole responsibility of the handlers who place products into the inventory reserve. A handler’s equity in the primary inventory reserve may be transferred to another person upon notification to the Board.

(b) **Agreements with growers.** Individual handlers are encouraged to have written agreements with growers who deliver their cherries to the handler as means of destruction and ultimate disposition of the cherries. It shall also contain an agreement that the proposed diversion is to be carried out under the supervision of the Board and that the cost of such supervision is to be paid by the handler. Uniform fees for such supervision shall be established by the Board, pursuant to rules and regulations approved by the Secretary.

(d) **Application.** The handler electing to divert cherries by utilizing an exemption under §930.62 shall first apply to the Board for approval of such diversion; no diversion should take place prior to such approval. Such application shall describe in detail the uses to which the diverted cherries will be put. It shall also contain an agreement that the proposed diversion is to be carried out under the supervision of the Board and that the cost of such supervision is to be paid by the applicant. The Board shall notify the applicant of the Board’s approval or disapproval of the submitted application.

(e) **Diversion certificate.** The Board shall conduct such supervision of the handler’s diversion of cherries under paragraph (c) or under paragraph (d) of this section as may be necessary to ensure that the cherries are diverted. After the diversion has been accomplished, the Board shall issue to the diverting handler a handler diversion certificate indicating the weight of cherries which may be used to offset any restricted percentage requirement.

**EFFECTIVE DATE NOTE:** At 66 FR 39413, July 31, 2001, in §930.59, paragraph (b), the words "Provided. That diversion may not be accomplished by converting cherries into juice or juice concentrate" were suspended indefinitely.

§ 930.61 **Handler compensation.**

Each handler handling cherries from a regulated district that is subject to volume regulations shall be compensated by the Board for inspection relating to the primary inventory reserve as the Board may deem to be appropriate. The Board, with the approval of the Secretary, may adopt rules and regulations as are necessary and incidental to the administration of this section.

§ 930.62 **Exemptions.**

The Board, with the approval of the Secretary, may exempt from the provisions of §§930.41, 940.44, 930.51, 930.53, and 930.55 through 930.57 cherries: Diverted in accordance with §930.59; used for new product and new market development; used for experimental purposes or for any other use designated by the Board, including cherries processed into products for markets for which less than 5 percent of the preceding 5-year average production of cherries were utilized. The Board, with the approval of the Secretary, shall prescribe such rules, regulations, and safeguards as it may deem necessary to ensure that cherries handled under the provisions of this section are handled only as authorized.

§ 930.63 **Deferment of restricted obligation.**

(a) **Bonding.** The Board, with the approval of the Secretary, may require handlers to secure bonds on deferred inventory reserve tonnage. Handlers may, in order to comply with the requirements of §§930.50 and 930.51 and regulations issued thereunder, secure bonds on restricted percentage cherries to temporarily defer the date that inventory reserve cherries must be held to any date requested by the handler. This date shall be not later than 60
days prior to the end of that crop year. Such deferment shall be conditioned upon the voluntary execution and delivery by the handler to the Board of a written undertaking within thirty (30) days after the Secretary announces the final restricted percentage under §930.51. Such written undertaking shall be secured by a bond or bonds with a surety or sureties acceptable to the Board that on or prior to the acceptable deferred date the handler will have fully satisfied the restricted percentage amount required by §930.51.

(b) Rulemaking authority. The Board, with the approval of the Secretary, may adopt rules and regulations necessary and incidental to the administration of this section.

REPORTS AND RECORDS

§ 930.70 Reports.

(a) Weekly production, monthly sales, and inventory data. Each handler shall, upon request of the Board, file promptly with the Board, reports showing weekly production data; monthly sales and inventory data; and such other information, including the volume of any cherries placed in or released from a primary or secondary inventory reserve or diverted, as the Board shall specify with respect to any cherries handled by the handler. Such information may be provided to the Board members in summary or aggregated form only without any reference to the individual sources of the information.

(b) Other reports. Upon the request of the Board, with the approval of the Secretary, each handler shall furnish to the Board such other information with respect to the cherries acquired, handled, stored and disposed of by such handler as may be necessary to enable the Board to exercise its powers and perform its duties under this part.

(c) Protection of proprietary information. Under no circumstances shall any information or reports be made available to the Board members, or to any person designated by the Board or by the Secretary, which will reveal the proprietary information of an individual handler.

§ 930.71 Records.

Each handler shall maintain such records of all cherries acquired, handled, stored or sold, or otherwise disposed of as will substantiate the required reports and as may be prescribed by the Board. All such records shall be maintained for not less than two years after the termination of the fiscal year in which the transactions occurred or for such lesser period as the Board may direct with the approval of the Secretary.

§ 930.72 Verification of reports and records.

For the purpose of assuring compliance and checking and verifying the reports filed by handlers, the Secretary and the Board, through its duly authorized agents, shall have access to any premises where applicable records are maintained, where cherries are received, stored, or handled, and, at any time during reasonable business hours, shall be permitted to inspect such handlers premises and any and all records of such handlers with respect to matters within the purview of this part.

§ 930.73 Confidential information.

All reports and records furnished or submitted by handlers to the Board and its authorized agents which include data or information constituting a trade secret or disclosing trade position, financial condition, or business operations of the particular handler from whom received, shall be received by and at all times kept in the custody and under the control of one or more employees of the Board or its agent, who shall disclose such information to no person other than the Secretary.

MISCELLANEOUS PROVISIONS

§ 930.80 Compliance.

Except as provided in this part, no person may handle cherries, the handling of which has been prohibited by the Secretary under this part, and no person shall handle cherries except in conformity with the provisions of this part and the regulations issued hereunder. No person may handle any cherries for which a diversion certificate has been issued other than as provided in §§930.58(b) and 930.59(b).
§ 930.81 Right of the Secretary.

Members of the Board (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each regulation, decision, determination, or other act of the Board shall be subject to the Secretary’s disapproval at any time. Upon such disapproval, the disapproved action of the Board shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 930.82 Effective time.

The provisions of this part, and of any amendment thereto, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated, or suspended.

§ 930.83 Termination.

(a) The Secretary may, at any time, terminate any or all of the provisions of this part by giving at least 1 day’s notice by means of a press notice or in any other manner in which the Secretary may determine.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this part whenever the Secretary finds that such provisions do not tend to effectuate the declared policy of the Act.

(c) The Secretary shall terminate the provisions of this part whenever the Secretary finds by referendum or otherwise that such termination is favored by a majority of the growers and processors: Provided, That such majority has, during the current fiscal year, produced or canned and frozen more than 50 percent of the volume of the cherries which were produced or processed within the production area. Such termination shall become effective on the last day of June subsequent to the announcement thereof by the Secretary.

(d) The Secretary shall conduct a referendum within the month of March of every sixth year after the effective date of this part to ascertain whether continuation of this part is favored by the growers and processors. The Secretary may terminate the provisions of this part at the end of any fiscal period in which the Secretary has found that continuance is not favored by a majority of growers and processors who, during a representative period determined by the Secretary, have been engaged in the production or processing of tart cherries in the production area. Such termination shall be announced on or before the end of the fiscal period.

(e) The provisions of this part shall, in any event, terminate whenever the provisions of the Act authorizing them cease to be in effect.

Effective Date Note: At 66 FR 58359, Nov. 21, 2001, in §930.83 In paragraph (d), the sentence “The Secretary shall conduct a referendum within the month of March of every sixth year after the effective date of this part to ascertain whether continuation of this part is favored by the growers and processors” was suspended effective March 1 through March 31, 2002.

§ 930.84 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the then functioning members of the Board shall, for the purpose of liquidating the affairs of the Board, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall:

(1) continue in such capacity until discharged by the Secretary;

(2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Board and of the trustees, to such person as the Secretary may direct; and

(3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the Board or in the trustees pursuant to this part.

(c) Any person to whom funds, property, and claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligations imposed upon the Board and upon the trustees.

290
§ 930.85 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not:

(a) Affect or waive any right, duty, obligation, or liability which shall have risen or which may thereafter arise in connection with any provision of this part or any regulation issued thereunder;

(b) Release or extinguish any violation of this part or any regulation issued thereunder;

(c) Affect or impair any rights or remedies of the Secretary or any other person with respect to any such violation.

§ 930.86 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 930.87 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the U.S. Department of Agriculture, to act as the Secretary’s agent or representative in connection with any provisions of this part.

§ 930.88 Derogation.

Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the Act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 930.89 Personal liability.

No member or alternate member of the Board and no employee or agent of the Board shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate member, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 930.90 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 930.91 Amendments.

Amendments to this subpart may be proposed, from time to time, by the Board or by the Secretary.

§ 930.100 Grower diversion certificates.

(a) In accordance with paragraph (b) of this section, the Board may, for the 1997 crop year, issue diversion certificates to growers, in districts subject to volume regulation (Northwest Michigan, Central Michigan, New York, and Utah) who have voluntarily elected to divert in the orchard all or a portion of their 1997 tart cherry production which otherwise, upon delivery to handlers, would become restricted percentage cherries. Growers may offer the diversion certificate to handlers in lieu of delivering cherries.

(b) Terms and conditions. To be eligible to receive diversion credit, growers voluntarily choosing to divert cherries must meet the following terms and conditions:

(1) In order to receive a certificate, a grower must demonstrate, to the satisfaction of the Board, that rows or trees which were selected for diversion were not harvested. Trees six years old or younger do not qualify for diversion.

(2) The grower must furnish the Board with a total harvested production amount so the Board can calculate the amount of grower diversion tonnage to be placed on the diversion certificate. The Board will confirm the grower’s production amount with information provided by handlers (to which the grower delivers cherries) on Board Form Number Two.
§ 930.120 Board membership.

Pursuant to §930.20(e), membership of the Cherry Industry Administrative Board is increased from 18 to 19 members and alternates. There will be one grower and one handler member from District 8.

Subpart—Administrative Rules and Regulations

§ 930.133 Compensation rate.

A compensation rate of $250 per meeting shall be paid to the public member and to the alternate public member when attending Board meetings. Such compensation is a per meeting rate. For example, if a Board meeting is convened and lasts one or two days or only four hours, the public member and/or alternate public member attending the meeting would receive $250 each.

§ 930.141 Delinquent assessments.

(a) Pursuant to §930.41, the Board shall impose an interest charge on any handler whose assessment payment has not been received by October 1 of each crop year. The interest rate shall be a rate of one percent per month and shall be applied to the unpaid assessment balance not paid by the October 1 due date. In addition to the interest charge, the Board shall impose a late payment charge on any handler whose assessment payment has not been received within 90 days from the due date of October 1. The late payment charge shall be 10 percent of the unpaid balance.

(b) [Reserved]

§ 930.158 Grower diversion and grower diversion certificates.

(a) Grower diversion certificates. The Board may issue diversion certificates to growers in districts subject to volume regulation who have voluntarily elected to divert in the orchard all or a portion of their tart cherry production which otherwise, upon delivery to handlers, would become restricted percentage cherries. Growers may offer the diversion certificate to handlers in lieu of delivering cherries. Handlers may redeem diversion certificates with the Board through November 1 of each crop year.
pursuant to a restricted percentage amount established for a tart cherry diversion program. Each map shall contain the grower’s name and number assigned by the Board, the grower’s address, block number or name when appropriate, location of orchard or orchards and other information which may be necessary to accomplish the desired diversion. On or before July 1, the grower should inform the Board of such grower’s intention to divert in-orchard and what type of diversion will be used. The four types of diversion are random row diversion, whole block diversion, partial block diversion and in-orchard tank diversion. A grower who informs the Board about the type of diversion he or she wishes to use by July 1 can elect to use any diversion method or a combination of diversion methods. Only random row or in-orchard tank diversion methods may be used if the Board is not so informed by July 1. Trees that are four years or younger do not qualify for diversion.

(1) Random row diversion. Using the orchard map furnished by the grower, the Board will randomly select rows of trees within the orchard to be diverted. The amount of cherries to be diverted will be based on the preliminary restricted percentage amount established pursuant to §930.50. A grower may elect a different percentage amount; however, the grower needs to inform the Board as soon as possible after the preliminary percentages are announced of this other amount, but in no event shall this be less than seven days in advance of harvest. The designated rows indicated by the map must not be harvested. After completing harvest of the remaining rows in the orchard, the grower must notify the Board and/or the Board’s compliance officer. A compliance officer will then be allowed to observe the grower’s orchard to assure that the selected rows have not been harvested. The grower must inform the Board of the total production of the orchard to calculate the tonnage that was diverted.

(2) Whole block diversion. Based on maps supplied by the grower, a sampling procedure will be used to determine the amount of cherries in the orchard to be diverted. A block is defined as rows that run in the same direction, are similar in age, and have definable boundaries. The Board will require a number of tree sites to be sampled depending on the size of the block. A tree site is a planted tree or an area where a tree was planted and may have been uprooted or died. If a block has 5 rows or less, or 200 or less tree sites, 3 rows would be randomly chosen to be sampled, if a block has 6 to 15 rows, or 201–400 tree sites, 4 rows would be randomly chosen to be sampled, and if a block has 16 or more rows and greater than 400 tree sites, 5 rows would be randomly chosen to be sampled. The Board’s compliance officer will apply the sampling procedure (based on the number of rows or the number of tree sites) which results in the fewest number of tree sites required to be sampled. From each of the rows to be sampled, ten contiguous tree sites will be sampled. Only trees more than five years old will be harvested for the sample. For example, if it is determined that five rows are to be sampled, 10 contiguous tree sites in each of the five rows will be subject to harvest. Trees within the 10 sites which are more than five years old will be harvested. The harvested tonnage will be converted to a volume that represents the entire block of cherries. If, for example, a total of 4,600 pounds is harvested from...
the sample tree sites and this total is divided by 50 tree sites a yield of 92 pounds per tree site is obtained. To find the total yield for the block, the 92 pounds per tree site yield is multiplied by the 880 tree sites that were mapped in the block and that equals 80,960 pounds for that block. The compliance officer would be allowed access to the block to oversee the sampling process and to confirm that the block has been diverted.

(3) Partial block diversion. Partial block diversion will also be accomplished using maps supplied by the grower. Sampling will be done as in whole block diversion except that only partial blocks would be selected and sampled. Growers may divert up to five partial blocks, or 50 percent of a grower’s total number of blocks per year. Such block(s) must be mapped and will be sampled as described under whole block diversion. Rows used in partial block diversion must be contiguous.

(4) In-orchard tank diversion. Growers wishing to in-orchard tank divert must pick the cherries to be diverted and place them in harvesting tanks. A compliance officer would then probe the tanks for volume measurement and observe the destruction of the cherries on the grower’s premises. Growers wishing to take advantage of this option must have at least 10 tanks ready for diversion. The compliance officer has up to five days to come to the grower’s premises to observe the diversion after being contacted.

(c) Compliance. Growers who voluntarily participate in the grower diversion program must sign and file with the Board a Grower Diversion Application. By signing the application, a grower agrees to the terms and conditions of the grower diversion program as contained in these regulations. To be eligible to receive diversion credit, growers voluntarily choosing to divert cherries must meet the following terms and conditions:

(1) In order to receive a certificate, a grower must demonstrate, to the satisfaction of the Board, that rows or trees which were selected for diversion were not harvested. Trees four years old or younger do not qualify for diversion.

(2) The grower must furnish the Board with a total harvested production amount so the Board can calculate the amount of grower diversion tonnage to be placed on the diversion certificate. The Board will confirm the grower’s production amount with information provided by handlers (to which the grower delivers cherries) on Board form Number Two.

(3) The grower must agree to allow a Board compliance officer to visit the grower’s orchard to confirm that diversion has actually taken place. If the terms and conditions for whole block, partial block or in-orchard tank diversion are not completed, the Board shall not issue the grower a diversion certificate. If a grower who chooses random row diversion harvests rows that were designated not to be harvested, the grower should inform the Board immediately of the error. The grower will then be required to divert twice the amount (rows or trees) incorrectly harvested to correct the mistake. The grower will still receive a diversion certificate equal to the original requested amount. However, in instances where a grower is at the end of harvesting the orchard and fails to divert a complete block or specified rows, the Board shall multiply by two the difference between the original diversion amount and the actual diverted amount. The Board shall subtract that amount from the diversion application amount. Thus, the grower would receive a grower diversion certificate equal to a portion of the originally requested amount. If the grower does not inform the Board of such errors, the grower will not receive a diversion certificate.

handlers will receive diversion certificates stating the weight of cherries diverted. Diversion credit may be used to fulfill any restricted percentage requirement in full or in part. Any information of a confidential and/or proprietary nature included in this application would be held in confidence pursuant to §930.73 of the order.

(b) Board notification and handler plan. Any handler intending to divert cherries or cherry products pursuant to §930.59 of the order (except through exempt uses under §930.62 of the order) must notify the Board of such intent and provide a plan by November 1 which shows how the handler intends to meet the restricted percentage obligation, except that, for the 1997–98 season only, the deadline is February 5, 1998. The Board may extend this date in individual cases pursuant to a written request showing good cause why the plan cannot be provided by the due date. A handler will have one year to fulfill such plan. The details of the plan shall include, but not be limited to, the name and address of the handler, the total product processed at-plant, product diverted at-plant, in-orchard diversion certificates redeemed, anticipated donations to charitable outlets, disposition to exempt outlets or uses and detailed plans for how and where such disposition will be made, and inventory reserve amount. It shall also contain an agreement that the proposed diversion is to be carried out under the supervision of the Board and that the cost of such supervision is to be paid by the handler. Supervision of diversion by means other than destruction of the cherries at a handler’s facility will be subject to supervision as found necessary by the Board. USDA inspectors or Board employees will supervise diversion of cherry products at-plant at the current hourly rate under USDA’s inspection fee schedule (7 CFR 52.42).

(d) Diversion of finished products. Handlers may be granted diversion credit for finished tart cherry products that are accidentally destroyed during the 1998–1999 crop year (July 1, 1998, through June 30, 1999), and thereafter. To receive diversion credit under this option the cherry products must be owned by the handler at the time of accidental destruction, be a marketable product at the time of processing, be included in the handler’s end of the year handler plan, and have been assigned a Raw Product Equivalent (RPE) by the handler to determine the volume of cherries. In addition, the accidental destruction, and disposition of the product must be verified by either a USDA inspector or Board agent or employee who witnesses the disposition of the accidentally destroyed product. Products will be considered destroyed if they sustain damage which renders them unacceptable in normal market channels.

(e) Contributions to approved charitable organizations. When diverting by donating cherries or cherry products to charitable organizations, handlers should follow the requirements specified herein. For contributions to qualify for diversion credit, the contributed product should be marked clearly “NOT FOR RESALE”. The receiving organization must be approved by the Board as a qualified recipient of contributions of tart cherry products. Such organizations must be tax-exempt, must not sell the donated products and must be noncompetitive with other tart cherry industry sales outlets. Once products are donated to an organization, the Board must receive satisfactory documentation of the transaction. Handlers should provide the Board with information on how the product was used and the volume of product used.

(f) Grower diversion certificates. To satisfy restricted percentage obligations by redeeming grower diversion certificates handlers must present to the
§ 930.162 Board grower diversion certificates obtained from growers who have diverted cherries by non-harvest, and who have been issued diversion certificates by the Board in accordance with the applicable rules and regulations governing the issuance of grower diversion certificates. For this crop year July 1, 1997, through June 30, 1998, grower diversion certificates will be valid until February 5, 1998.

§ 930.162 Exemptions.

(a) General. Tart cherries which are used for the purpose of new product development, for new market development, for development of export markets, for experimental purposes, for export to countries other than Canada, and Mexico, or which are donated to charitable organizations may be granted an exemption by the Board and will be exempt from §§ 930.41, 930.44, 930.51, 930.53, and §§ 930.55 through 930.57, subject to the following terms and conditions. Tart cherry juice and juice concentrate products are not eligible for exempt use/diversion credit in domestic markets. Only tart cherry juice and juice concentrate products for export can receive exempt use/diversion credit. Any information received of a confidential and/or proprietary nature included in this application will be protected from disclosure pursuant to § 930.73 of the order.

(b) Definitions. The terms in paragraph (a) of this section shall have the following meaning:

(1) New product development. The development of new tart cherry products or of foods or other products in which tart cherries or tart cherry products are incorporated which are not presently being produced on a commercial basis. New product development can also include the production or processing of a tart cherry product using a technique not presently being utilized commercially in the tart cherry industry. Once total industry utilization for a new product exceeds 2 percent of the five year average production of tart cherries, the product shall no longer be considered under development and not eligible for a new product development exemption.

(2) New market development. The development of markets for tart cherry products which are not commercially established markets and which are not competitive with commercial outlets presently utilized by the tart cherry industry (including the development of new export markets). A new market becomes commercially established, when total industry utilization in the market exceeds 2 percent of the five year average production of tart cherries.

(3) Development of export markets. The sale of cherries or cherry products, including the development of sales for new or different tart cherry products or the expansion of sales for existing tart cherry products, to countries other than Canada, and Mexico.

(4) Experimental purposes. The use of cherries or cherry products in preliminary and/or developmental activities intended to result in new products, new applications and/or new markets for tart cherry products. Any exemption for experimental work shall be limited in scope, duration and volume based on information supplied by the applicant at the time a request for exemption is made. In no case shall an individual exemption for experimental purposes last longer than five years or exceed 100,000 pounds raw product equivalent of tart cherries.

(c) Obtaining approval for exempt uses. In order to receive exemptions for cherries or cherry products utilized for exempt purposes, handlers must apply to the Board for a new exemption or for renewal of an existing exemption by November 1 for the next succeeding year, except for the 1997 year only, handlers may apply through February 5, 1998. A handler shall have one crop year to dispose of cherries or cherry products to exempt outlets approved by the Board, unless granted a renewal. Handlers applying to the Board for a new exemption or for renewal of an existing exemption are subject to the following conditions:

(1) When applying to the Board for an exemption for new product development, handlers must detail the nature of their new product, how it differs from current, existing products and the anticipated short and long term sales
volume for the exemption. It will be the Board staff’s responsibility to analyze and investigate any request and upon completion of that analysis authorize or deny the exemption.  

(2) When applying to the Board for an exemption for new market development, handlers must detail the nature of their new market, how it differs from current, existing markets and the anticipated short and long term sales volume for the exemption. It will be the Board staff’s responsibility to analyze and investigate any request and upon completion of that analysis authorize or deny the exemption.

(3) When applying to the Board for an exemption for the development of export markets for tart cherries or cherry products (including juice and juice concentrate) in countries other than Canada and Mexico, including the expansion of sales in existing export markets, handlers must detail the nature of their product, specify whether such product differs from current products being sold in export markets, and estimate the anticipated short and long term sales volumes for the requested exemption.

(4) When applying to the Board for an exemption for experimental purposes, handlers must indicate the preliminary and/or developmental experimental activity. Such experimental purposes should be intended to result in new products, new applications and/or new markets for existing tart cherry products. Any exemption for experimental work shall be limited in scope, duration and volume which the proposing party shall specify at the time a request for exemption is made. In no case shall an exemption for experimental purposes last longer than five years or exceed 100,000 pounds raw product equivalent per handler of tart cherries during the duration of the experiment.

(d) Review of applications. A Board appointed subcommittee of three persons which shall include the manager (or a Board member acting in the Manager’s stead), the public member and one industry person who is not on the Board, shall review applications for exemption or renewal of exemption and either approve or deny the exemption. Any denial of an application for exemption or renewal of an existing exemption shall be served on the applicant by certified mail and shall state the reasons for the denial. Within 10 days after the receipt of a denial, the applicant may file an appeal, in writing, with the Deputy Administrator, Fruit and Vegetable Programs, supported by any arguments and evidence the applicant may wish to offer as to why the application for exemption or renewal of exemption should have been approved. The Deputy Administrator upon consideration of such appeal will take such action as deemed appropriate with respect to the application for exemption or renewal of exemption.

(e) Progress report. Each handler that is granted an exemption must submit to the Board an annual progress report, due May 1 of each crop year. The progress report shall include the results of the exemption activity (comparison of intended activity with actual activity) for the year in its entirety, the volume of exempted fruit, an analysis of the success of the exemption program, and such other information as the Board may request.

(f) Diversion credit; failure to meet terms and conditions of exemption. Handler diversion certificates for exempt uses shall be issued to handlers provided that terms and conditions applicable to exempt uses are satisfied. Diversion certificates will not be issued to handlers for any volume of tart cherry products for which such terms and conditions are not satisfied and such cherries would be subject to all of the terms and conditions of §§930.41, 930.44, 930.51, 930.53, and §§930.55 through 930.57.

(g) Failure to meet terms and conditions for exemption. Upon termination of an exemption, any volume of tart cherry products that were granted an exemption but were not utilized for the authorized exempt purpose would be subject to all of the terms and conditions of §§930.41, 930.44, 930.51, 930.53, and §§930.55 through 930.57.

§930.163 Deferment of restricted obligation.

A handler may obtain a surety bond on restricted percentage cherries to be posted to temporarily defer the date
that inventory reserves must be held. The surety bond must be posted at two times the market value of the quantity of cherries for which the holding obligation is being deferred. The Board can temporarily defer the date inventory reserve cherries must be held to any date requested by the handler. However, this date shall not be later than 60 days prior to the end of the crop year. The deferment shall be conditioned on the execution and delivery by the handler to the Board of a written undertaking within 30 days after the Secretary announces the final restricted percentage under §930.51. The written undertaking (required to be secured by a bond or bonds with a surety or sureties acceptable to the Board) must guarantee that on or prior to the deferment date requested by the handler the handler will have fully satisfied the restricted percentage obligation. On or prior to the deferment date requested by the handler, the handler will have to fully satisfy the restricted percentage obligation. In the event, a handler has posted the surety bond, reached the deferment date deadline and does not have cherries in the inventory reserve to cover his/her inventory reserve obligation, the bond will be forfeited to the Board. The Board will then buy cherries to fulfill that handler’s obligation.

§931.22 Nomination.

(a) Initial members. Nominations for each of the initial members of the committee, together with nominations for the initial alternate members for each position, may be submitted to the Secretary by individual growers and handlers. Such nominations may be made by means of separate group meetings of the growers and handlers concerned in each district, which shall be publicized and open to all growers and handlers. Such nominations, if made, shall be filed with the Secretary no later than the effective date of this part. In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified in this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in §931.20.

§ 931.33 Expenses.

The members of the committee and alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part: Provided, That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses as aforesaid.

§ 931.34 Annual report.

The committee shall, as soon as is practicable after the close of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal period; (b) a review of the effect of such regulatory operations upon the pear industry; and (c) any recommendations for changes in the program.

EXPENSES AND ASSESSMENTS

§ 931.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments as prescribed in §931.41.

§ 931.41 Assessments.

(a) Each person who first handles pears shall, with respect to the pears so handled by him, pay to the committee upon demand such person's pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal period. Each such person's share of such expenses shall be equal to the ratio between the total quantity of pears handled by him as the first handler thereof during the applicable fiscal period and the total quantity of pears so handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all pears handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year's shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

§ 931.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows: (1) Except as provided in paragraphs (a) (2) and (3) of this section, each person entitled to a proportionate refund
§ 931.45 Marketing research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of pears. The expense of such projects shall be paid from funds collected pursuant to §931.41.

§ 931.50 Marketing policy.

(a) Each season prior to making any recommendations pursuant to §931.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing season. Such marketing policy report shall contain information relative to:

1. The estimated total production of pears within the production area;
2. The expected general quality and size of pears in the production area and in other areas;
3. The expected demand conditions for pears in different market outlets;
4. The expected shipments of pears produced in the production area and in areas outside the production area;
5. Supplies of competing commodities;
6. Trend and level of consumer income;
7. Other factors having a bearing on the marketing of pears; and
8. The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for pears, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall maintain in its office a copy of each marketing policy report, including each revised marketing policy reports, where they may be available to growers and handlers, and may also by
§ 931.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of pears in the manner provided in §931.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for pears during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 931.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of pears whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulation will tend to effectuate the declared policy of the act. Such regulation may:

(1) Limit, during any period or periods, the shipment of any particular grade, size, quality, or pack, or any combination thereof, of any variety or varieties of pears grown in any district or districts of the production area;

(2) Limit the shipment of pears by establishing, in terms of grades, sizes, or both, minimum standards of quality during any period when the season average price is expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in packaging or handling of pears: Provided, That no regulations shall prohibit the use of the 14-pound box or the standard western pear box; and

(4) Prescribe requirements, as provided in this paragraph, applicable to exports of any variety of pears which are different from those applicable to the handling of the same variety to other destinations.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to growers and handlers.

§ 931.53 Modification, suspension, or termination of regulations.

(a) As each handler’s pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal year, each handler who first handles olives during the current crop year shall pay to the committee, upon demand, assessments less any amounts which may be credited pursuant to § 932.45, on all olives to be used in the production of packaged olives, including olives to be used in canned ripe olives of the “tree-ripened” type or green olives when such are regulated as packaged olives pursuant to § 932.52. The payment of assessments for maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such handler during a fiscal year in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period. At any time during or after the fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. The payment of assessments for maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(c) Any assessment not paid by a handler within a period of time prescribed by the committee may be subject to an interest or late payment charge, or both. The period of time, rate of interest and late payment charge shall be as recommended by the committee and approved by the Secretary. § 932.40 Accounting.

(a) If, at the end of a fiscal year, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve as provided in paragraph (a)(2) of this section, the committee shall refund or credit to handler accounts the aforesaid excess. Each handler’s share of such excess funds shall be the amount of assessments such handler has paid in excess of such handler’s pro rata share of the actual net expenses of the committee for such fiscal year. Excess funds may be used temporarily by the committee to defray expenses of the subsequent fiscal year: Provided, That each handler’s share of such excess shall be made available to the handler by the committee within five months after the end of the fiscal year.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal years as a reserve: Provided, That funds already in the reserve do not exceed approximately one fiscal year’s expenses. Such reserve funds may be used for any expenses authorized pursuant to § 932.38 and for necessary expenses of liquidation in the event of termination of this part. Such reserve funds may be used in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practicable, such funds shall be returned pro rata to the persons from whom such funds were collected.
(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

No handler shall receive credit in excess of such handler's pro rata share of the total monies allotted by the committee for brand advertising credit. Each advertisement must be published, broadcast or displayed during the fiscal year for which credit is requested. Before any creditable brand advertising may be undertaken pursuant to this paragraph (a)(2) of this section, the Secretary, upon recommendation by the committee, shall prescribe appropriate rules and regulations as are necessary to effectively regulate such activity.

(b) In recommending marketing research and development projects pursuant to this section, the committee shall give consideration to the following factors:

(2) The supply situation among competing areas and commodities; and

(3) The need for marketing research with respect to any marketing development activity and the need for a coordinated effort with USDA's Plentiful Food Program.

(c) In recommending production research projects pursuant to this section, the committee shall give consideration to the extent and need for assistance to, and improvement of California olive production.

(d) If the committee should conclude that a program of production research, marketing research, or development should be undertaken or continued pursuant to this section in any fiscal year, it shall submit the following for the approval of the Secretary:

Size certification of such styles shall be applicable to any or all sizes of olives recommended by the committee and approved by the Secretary pursuant to §932.52(a)(2). Size certification procedures recommended to the Secretary may include but are not limited to the establishment of average count ranges, acceptable count ranges, and approximate counts (midpoints) for each variety or variety group.

(3) Each handler shall, under the supervision of any such inspection service, dispose of into noncanning use an aggregate quantity of olives, comparable in size and characteristics and equal to the quantities shown on the certification for each lot to be:

(i) A producer who produces olives in more than one district must choose the district in which the producer will vote and notify the Committee of that choice. If the Committee is not notified and more than one ballot is received from such a producer, the first ballot received will be counted. Candidates may only vote in the district in which they are seeking nomination.

(ii) Each ballot will list separately the names of candidates for the member positions and the names of candidates for the alternate member positions for said district.

(iii) A ballot will be mailed to producers of record to give them an opportunity to vote. Committee records will be used to determine the list of producers eligible to cast ballots. However, any producer who is not identified in such records may receive a ballot if the Committee determines that such producer is eligible to participate in nominations in that district.

(iv) A producer may cast a vote for as many candidates as there are member or alternate positions in said district.

(v) The candidate on each list, as prescribed in paragraph (a)(2)(ii) of this section, who receives the most votes will be the nominee for the first position, and until all positions for that district are filled, the candidates receiving the second, third and fourth highest number of votes will be the nominees for the second, third and fourth position respectively.

(vi) In the event of a tie which would result in elimination of a tied candidate, a second ballot with the names of those tied candidates will be mailed to producers in said district for another vote.

(b) Nomination meetings. In lieu of the mail ballot nomination procedure specified in paragraph (a) of this section, the Committee may schedule nomination meetings. In such an event, the following procedure will apply:

(1) Prior to March 15 of each odd-numbered year, the Committee shall schedule a nomination meeting to be held in each district for the purpose of obtaining nominees for producer members and alternate members for such district.

(2) Nominations for members and balloting thereon shall precede nominations and balloting for alternate members.

(3) The candidate for each position who receives the highest number of votes shall be the nominee for the position: Provided, That such candidate receives a majority of the ballots cast. If no candidate receives such a majority, the two candidates who received the highest number of votes shall participate in a run-off balloting to determine which is the nominee.
(c) For the purposes of this section, a producer is a person engaged in a proprietary capacity as a single business unit in the production of olives for market as packaged olives and includes an individual (owner-operated), partnership, corporation, association, institution, or other legal business unit.

(d) Determination of producer eligibility. (1) Only producers (including duly authorized officers or employees of producers) who produced olives within the district shall participate in the nomination and election of producer members and alternates.

(2) Each producer (as defined in paragraph (c) of this section) shall be entitled to cast only one vote for each position.

(3) A producer having olive acreage in more than one district may participate in nominations and elections in only one district. The district in which the producer wishes to participate shall be the producer’s choice.

(4) Any member of a producer’s family (husband, wife, son or daughter) may vote on behalf of an owner-operated, landlord-tenant, family enterprise, or other farming unit.

(5) Any authorized officer or employee of a corporation which is a producer may vote.

(6) Any authorized member of a partnership which is a producer may vote.

(7) Power of attorney (proxies) for voting purposes are not accepted.

§932.139 Late payment and interest charges.

(a) The committee shall impose a late payment charge on any handler whose assessment has not been received in the committee’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 30 days of the invoice date shown on the handler’s assessment statement. The late payment charge shall be five percent of the unpaid balance.

(b) In addition to that specified in paragraph (a) of this section, the committee shall impose an interest charge on any handler whose assessment payment has not been received in the committee’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 30 days of the invoice date. The interest charge shall be the current commercial prime rate of the committee’s bank plus two percent which shall be applied to the unpaid balance and late payment charge for the number of days all or any part of the assessment specified in the handler’s assessment statement is delinquent beyond the 30 day payment period.

(c) The committee, upon receipt of a late payment equal to or greater than
the assessment specified on the handler’s assessment statement, shall promptly notify the handler (by registered mail) of any late payment charge and/or interest due as provided in paragraphs (a) and (b) of this section. If such charges are not paid, or the envelope containing payment is not legibly postmarked by the U.S. Postal Service, within 30 days of the date on such notification, late payment and interest charges as provided in paragraphs (a) and (b) of this section will accrue on the unpaid amount.

§ 932.150 Modified minimum quality requirements for canned green ripe olives.

The minimum quality requirements prescribed in §932.52 (a)(1) of this part are hereby modified with respect to canned green ripe olives so that no requirements shall be applicable with respect to color and blemishes of such olives.

§ 932.151 Incoming regulations.

(a) Inspection stations. Natural condition olives shall be sampled and size-graded only at inspection stations which shall be a plant of a handler or other place having facilities for sampling and size-grading such olives: Provided, That such location and facilities are satisfactory to the Inspection Service and the committee: Provided further, That upon prior application to, and approval by, the committee, a handler may have olives size-graded at an inspection station other than the one where the lot was sampled.

(b) Lot identification. Immediately upon receipt of each lot of natural condition olives for which inspection is required, the handler shall complete Form COC 3A or 3C, weight and grade report or such other lot identification form as may be approved by the committee, which shall contain at least the following: (1) Lot number; (2) date; (3) variety; and (4) number and type containers. Pending completion of size-grading of such lot, or the sampling of such lot if it is to be size-graded by sample, the handler shall maintain identity of such lot of olives with its corresponding lot weight and grade report.

(c) Weighing. Each lot of natural condition olives for which inspection is required shall be separately weighed to determine the net weight of olives. If the lot is to be size-graded by sample, the lot shall be weighed upon receipt by the handler. If the lot is to be size-graded by lot, the net weight shall be determined after size-grading by weighing all of the component parts resulting from the size-grading operations (including culls), and totaling such weights.

(d) Incoming inspection—(1) General. The handler is responsible for the proper performance of all actions connected with the identification of lots of olives, the weighing of boxes or bins, the taking of samples, the size-grading of samples, and the furnishing of necessary personnel for the carrying out of such actions. All such actions shall be performed under the supervision of the Inspection Service.

(2) Certification. For each lot of olives that are size-graded, the handler shall complete Form COC-3A or 3C weight and grade report, which shall contain at least the following: (i) Name of handler; (ii) name of producer; (iii) county of production; (iv) applicable lot number; (v) weight certificate number; (vi) net weight; (vii) number and type of containers; (viii) date received; (ix) time received; (x) method of size-grade determination (sample or lot); (xi) weight of sample, if size-graded by sample; and (xii) the quantity of olives in each size designation. The completed Form COC-3A or 3C shall be furnished to the Inspection Service which shall certify thereon that the lot was

size-graded as required by § 932.51 if in accordance with the facts.

(e) Disposition of noncanning olives—
(1) Notification and inspection of noncanning olives. Prior to disposition of noncanning olives the handler shall complete Form COC–5, report of limited and undersize and cull olives inspection and disposition, which shall contain the following: (i) Type and number of containers; (ii) type of olives (undersize or culla); (iii) net weight; (iv) variety; (v) outlet (green olives, olive oil, etc.); and (vi) consignee. Before disposition of such olives, the completed Form COC–5 shall be furnished to the Inspection Service which shall inspect the olives for conformance with the information contained thereon, and, if correct, so certify in the space provided thereon.

(2) Control and surveillance. Noncanning olives that have been reported on Form COC–5 and inspected by the Inspection Service shall, unless such olives are disposed of immediately after being inspected under supervision of the inspector, be identified by fixing to each bin or pallet of boxes an COC control card which may be obtained from the committee. Such olives shall be kept separate and apart from other olives in the handler’s possession and shall be disposed of only in the outlet shown on Form COC–5 and under the supervision of an inspector of the Inspection Service.

(3) Time period for disposition. All required disposition of noncanning olives shall be completed not later than September 30 of the crop year following the one in which the obligation is incurred or such later date that a handler may specify in a notice filed with the committee at least 15 days prior to September 15 of such subsequent crop year: Provided, That such notice shows that such handler has a sufficient quantity of olives held in storage to meet his obligation and such later date is not later than the date when he will have completed his disposition of olives of the crop year of obligation.

(4) Olives not subject to incoming inspection. Except as otherwise prescribed in § 932.51(b), any lot of olives to be used solely in the production of green olives or canned ripe olives of the “tree ripened” type shall not be subject to incoming inspection: Provided, That the applicable requirements of § 932.51(b) are met and the handler notifies the Inspection Service, in writing, that such lot is to be so used. Notice may be given by writing on the weight certificate “Lot to be used solely for use in the production of green olives or tree ripened olives” and a copy of such weight certificate given to the Inspection Service.

(5) Partially exempted lots. (1) Pursuant to § 932.55, any handler may process any lot of natural condition olives for use in the production of packaged olives which has not first been weighed and size-graded as an individual lot as required by § 932.51(a) (i) and (ii), but was combined with any other lot or lots of natural condition olives, only if (i) all the olives in the combined lot are delivered to the handler in the same day, (ii) the total net weight of the olives delivered to the handler by any person in such day does not exceed 500 pounds, (iii) each such person had authorized combination of his lot with other lots, and (iv) the combined lot of the natural condition olives is weighed and size-graded as required by § 932.51(a) (i) and (ii) prior to processing the olives.

(2) Whenever the natural condition olives in partially exempt individual lots are combined with other such olives as provided in paragraph (f)(1) of this section, the provision of the section applicable on individual lots shall apply instead to a combined lot.

(3) Each such handler shall file with the committee a weekly report showing for each day of the week the respective quantity in combined lots together with each person’s authorization for combining lots. The report shall be filed upon a form supplied by the committee.

(g) Additional Marketing Order Size Designations. Pursuant to the authority in § 932.51(a)(1)(i), the following additional size designations are established:

Each such report shall contain at least the following: (i) Date; (ii) Place of inspection; (iii) Name and address of handler; (iv) Can code; (v) Variety; (vi) Fruit size; (vii) Can size; (viii) Style; (ix) Total number of cases; (x) Number of cans per case; and (xi) Reason why the applicable requirements were not met.

(2) All such packaged olives shall be kept separate and apart from other packaged olives and shall be so identified by control cards or other means satisfactory to the Inspection Service and the committee that their identity is readily apparent. Such packaged olives may be reprocessed under supervision of the Inspection Service. Any such packaged olives that are not so reprocessed may be disposed of only in accordance with § 932.155.

(e) Examination of certain olives received for use in the production of canned ripe olives of the tree-ripened type. § 945.32 Powers.

The committee shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;
§ 945.33 Duties.

It shall be the duty of the committee:

(a) To act as intermediary between the Secretary and any producer or handler;

(b) To select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(d) To investigate, from time to time, and to assemble data on the growing, harvesting, shipping and marketing conditions with respect to potatoes, and to engage in such research and service activities which relate to the handling or marketing of potatoes as may be approved by the Secretary;

(e) To furnish to the Secretary such available information as he may request;

(f) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(j) To consult, cooperate and exchange information when deemed desirable by the committee with other potato marketing committees and other individuals or agencies in connection with all proper committee activities and objectives under this subpart.

BUDGET, EXPENSES AND ASSESSMENTS

§ 945.40 Expenses.

The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share such expenses upon the basis of a fiscal period. Each handler’s share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a fiscal period and the total quantity of potatoes handled by all handlers as first handlers thereof during the same period.

§ 945.41 Budget.

At the beginning of each fiscal period, and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenses as authorized in §945.40. The committee shall present such budget promptly to the Secretary with an accompanying report showing the basis for its calculations.

§ 945.42 Assessments.

(a) The funds to cover the committee’s expenses pursuant to §945.40 shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who ships potatoes as the first handler thereof
shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler’s pro rata share of such expenses.

(b) Assessments shall be levied upon handlers at a rate per hundredweight of potatoes or equivalent established by the Secretary. Such rate may be established upon the basis of the committee’s budget recommendations, and other available information.

(c) At any time during or subsequent to a given fiscal period, the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendation, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes assessable under this part and handled by the first handler thereof during such fiscal period.

(d) The committee may impose a late payment charge or an interest charge, or both, on any handler who fails to pay, on or before the due date established by the Secretary, the total assessment for which such handler is liable. Such due date and the late payment fee and interest rate shall be recommended by the committee and approved by the Secretary.

(e) In order to provide funds to carry out its function, after the effective date of this subpart the committee may accept advance assessments from handlers. Advance assessments received from a handler shall be credited toward assessments levied against that handler during that fiscal period. In the case of an extreme emergency, the committee may also borrow money on a short term basis to provide funds for the administration of this part. Any such borrowed money shall only be used to meet the committee’s current financial obligations, and the committee shall repay all borrowed money by the end of the next fiscal period from assessment income.

§ 945.50 Marketing policy.

(a) Preparation. Prior to or at the same time as recommendations are made pursuant to §945.51, the committee shall consider, and prepare, a proposed policy for the marketing of potatoes. (b) Reports. (1) The committee shall promptly submit a report to the Secretary setting forth the aforesaid marketing policy and shall notify producers and handlers of the contents of such report on the new or revised marketing policy.

§ 945.51 Recommendation for regulations.

Whenever the committee deems it advisable that the handling of potatoes be regulated pursuant to §945.52, or §945.53, or both, it shall recommend to the Secretary grade, size, quality, or maturity regulation, or any combination thereof, or amendment thereto, or modification, suspension, or termination thereof, whenever it finds that such regulation, as provided in such sections, will tend to effectuate the declared policy of the act.

§ 945.52 Issuance of regulations.

(a) The Secretary shall limit the handling of potatoes whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation will tend to effectuate the declared policy of the act. Such limitation may:

(1) Regulate in any or all portions of the production area, the handling of particular grades, sizes, qualities, or maturities, or any combination thereof, of any or all varieties of potatoes during any period; or

(2) Regulate the shipment of particular grades, sizes, qualities, or maturities of potatoes differently, for different varieties, for different portions of the production area, for different packs, for different containers, or for any combination of the foregoing, during any period; or

(3) Fix the size, capacity, weight, dimensions, pack, labeling or marking of the container, or containers, which may be used in the packaging or handling of potatoes, or both; or

(e) Processing into specified products; and
(f) Such other purposes which may be specified by the Committee, with the approval of the Secretary.

§ 945.54 Minimum quantity exemption.

The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued or in effect pursuant to §§ 945.40 to 945.65, inclusive, or any combination thereof.

§ 945.55 Notification of regulation.

The Secretary shall notify the committee of any regulations issued or of any modifications, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 945.56 Safeguards.

(a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to § 945.53 from entering channels of trade and other outlets for other than the specific purpose authorized therefor.

(b) Safeguards, provided by this section, may include, but shall not be limited to, requirements that handlers:

1. Shall obtain the inspection required by § 945.65 or pay the assessment provided by § 945.42, or both, in connection with the potato shipments effected in accordance with § 945.53; and

2. Shall obtain Certificates of Privilege from the committee for shipments of potatoes effected or to be effected under provisions of § 945.53.

(e) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications for such certificates, the number of such applications denied and certificates granted, the quantity of potatoes shipped under duly issued certificates, and such other information as may be requested by the Secretary.

INSPECTION AND CERTIFICATION

§ 945.65 Inspection and certification.

(a) During any period in which regulations are in effect pursuant to § 945.42, § 945.52, or § 945.53, or any combination thereof, no handler shall handle potatoes unless such potatoes are inspected by an authorized representative of the Federal-State Inspection Service, and are covered by a valid inspection certificate, except when relieved from such requirements pursuant to recommendations by the committee and approved by the Secretary.

(b) Regrading, resorting, or repacking any lot of potatoes shall invalidate any prior inspection certificates covering such potatoes insofar as the requirements of this section are concerned. During any period in which shipments of potatoes are regulated, as aforesaid, no handler shall handle potatoes after they have been regraded, resorted, repacked, or in any way further prepared for market, unless such potatoes are inspected and covered by a valid inspection certificate as required in paragraph (a) of this section.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate shall be valid may be established by the committee with the approval of the Secretary, and such length of time may be different for shipments for different purposes.
§ 945.70

(d) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available promptly to the committee by the inspection service.

COMPLIANCE

§ 945.70 Compliance.

Except as provided in this part, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall ship potatoes except in conformity to the provisions of this subpart.

MISCELLANEOUS PROVISIONS

§ 945.80 Reports.

(a) Upon the request of the committee, with approval of the Secretary, every handler shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its powers and perform its duties under this subpart. The Secretary shall have the right to modify, change, or rescind any requests for reports pursuant to this section.

(b) All data or other information constituting a trade secret, or disclosing a trade position or business condition of a particular handler shall be treated as confidential and shall at all times be received by and kept in the custody and under the control of one or more designated employees of the committee. Information which would reveal the circumstances of a single handler shall be disclosed to no person other than the Secretary.

(c) Each handler shall maintain for at least two succeeding fiscal periods such records of potatoes received and of potatoes disposed of by such handler as may be necessary to verify reports required pursuant to this section. The committee, with the approval of the Secretary, may prescribe rules and regulations issued pursuant to this section specifying handler records and reports which the committee may need to perform its functions.

(d) For the purpose of assuring compliance and checking and verifying reports filed by handlers, the Secretary and the committee, through its duly authorized agents, shall have access to any premises where applicable records are maintained, where potatoes are held, and, at any time during reasonable business hours, shall be permitted to inspect such handlers’ premises and any and all records of such handlers with respect to matters within the purview of this part.

§ 945.81 Right of the Secretary.

The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 945.82 Effective time.

The provisions of this subpart shall become effective at such time as the Secretary may declare above his signature attached to this subpart, and shall continue in force until terminated in one of the ways specified in this subpart.

§ 945.83 Termination.

(a) The Secretary may, at any time, terminate the provision of this subpart by giving at least one day’s notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a
majority of producers who, during the preceding fiscal period, have been engaged in the production for market of potatoes: Provided, That such majority has, during such period, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced on or before April 30 of the then current fiscal period.

(d) The Secretary shall conduct a referendum as soon as practicable after July 31, 1992, and at such time every sixth year thereafter, to ascertain whether continuance of this order is favored by potato producers. The Secretary may terminate the provisions of this order at the end of any fiscal period in which the Secretary has found that continuance of this order is not favored by producers who, during a representative period determined by the Secretary, have been engaged in the production for market of potatoes in the production area. Termination of the order shall be effective only if announced on or before July 1 of the then current fiscal period.

(e) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 945.84 Proceedings after termination.

(a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

§ 945.85 Effect of termination or amendments.

(a) Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (1) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (2) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (3) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

(b) The persons who are committee members and alternates on the effective date of this subpart shall continue in office until their successors have been selected and have qualified. All rules and regulations issued or approved by the Secretary pursuant to this part (Order No. 945, as amended) and not in conflict herewith, which are in effect immediately prior to the date of this amendment shall continue in effect under this subpart as originally issued, or subsequently modified, until such rules and regulations are changed, modified, or suspended in accordance with this subpart.

§ 945.86 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.
§ 945.87 Agents.

§ 945.88 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers, granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 945.89 Personal liability.

No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

§ 945.90 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 945.91 Amendments.

Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

[47 FR 17272, Apr. 22, 1982]

§ 945.112 Terms.

Terms used in this subpart shall have the same meaning as when used in the marketing agreement and order, both as amended.

Certificates of Privilege

§ 945.120 General.

Whenever shipments of potatoes for special purposes pursuant to § 945.53 are relieved in whole or in part from grade and size regulations issued under § 945.52 the committee shall require information and evidence as to the manner, methods, and timing of such shipments as safeguards against the entry of any such potatoes into trade channels other than those for which intended. Such information and evidence shall include the requirements set forth below with respect to Certificates of Privilege.

§ 945.121 Qualification.

Before handling potatoes for special purposes which do not meet regulations issued pursuant to § 945.52 a handler must qualify with the committee to handle shipments for special purposes. To qualify he must (a) apply for and receive a Certificate of Privilege
indicating his intent to so handle potatoes; (b) agree to comply with reporting and other requirements set forth in §§945.121 to 945.125, inclusive, with respect to such shipments; and (c) receive approval of the committee, or its duly authorized agents, to so handle potatoes. Such approval will be based upon evidence furnished in his application for a Certificate of Privilege, and other information available to the committee.

§ 945.122 Application.

(a) Application for a Certificate of Privilege shall be made on forms furnished by the committee. Each application may contain, but need not be limited to, the name and address of the handler; the quantity by grade, size, quality and variety of the potatoes to be shipped; the mode of transportation; the consignee; the destination; the purpose for which the potatoes are to be used; a certification to the United States Department of Agriculture and to the committee as to the truthfulness of the information shown thereon; and any other appropriate information or documents deemed necessary by the committee or its duly authorized agents for the purpose stated in §945.120.

(b) The committee may require each handler making shipments of potatoes for export to include with his application a copy of the Department of Commerce Shipper's Export Declaration Form No. 7525–V applicable to such shipment.

§ 945.123 Approval.

The committee or its duly authorized agents shall give prompt consideration to each application for a Certificate of Privilege. Approval of an application, based upon a determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a Certificate of Privilege to the applicant. Each certificate shall cover a specified period, and specified qualities and quantities of potatoes to be sold or transported to the designated consignee for the purposes declared.

§ 945.124 Reports.

Each handler of potatoes shipping under Certificates of Privilege shall supply the committee with reports as requested by the committee or its duly authorized agents showing the name and address of the shipper; the car or truck identification; the loading point; destination; consignee; the inspection certificate number when inspection is required; and any other information deemed necessary by the committee.

§ 945.125 Disqualification.

The committee from time to time may conduct surveys of handling of potatoes for special purposes requiring Certificates of Privilege to determine whether handlers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that a handler or consignee is failing to comply with requirements and regulations applicable to handling of potatoes in special outlets, and requiring such certificates, a Certificate or Certificates of Privilege issued such handler may be rescinded and further certificates denied. Such disqualification shall apply to, and not exceed, a reasonable period of time as determined by the committee but in no event shall it extend beyond the end of the succeeding fiscal period. Any handler who has a certificate rescinded or denied may appeal to the committee in writing for reconsideration of his disqualification.

§ 945.130 Reestablishment of districts and reapportionment of committee membership.

(a) Pursuant to §945.23: (1) The following new districts are established;

(i) District No. 1, the counties of Bonneville, Butte, Clark, Freemont, Jefferson, Madison, and Teton;

(ii) District No. 2, the counties of Bannock, Bear Lake, Bingham, Caribou, Franklin, Oneide, and Power; and

(iii) District No. 3, Malheur County, Oreg., and the remaining designated counties in Idaho included in the production area, and not included in District No. 1 or District No. 2.

(2) The membership of the Idaho-Eastern Oregon Potato Committee
shall be apportioned among the districts of the production area so as to provide the following representation:

(i) Three producer members and one handler member from District No. 1;

(ii) One producer member and one handler member from District No. 2; and

(iii) One producer member and one handler member from District No. 3.

The respective alternates shall be selected on the same basis of representation as the members.

(b) The new districts are hereby established in the current fiscal year only for the purpose of making nominations of committee members for the coming fiscal year. The new districts are to be established as operating entities beginning on June 1, 1972.

(c) Terms used in this section have the same meaning as when used in said marketing agreement and this part.

Otherwise, such potatoes, including lots that are positive lot identified, can only be shipped if a new inspection is performed to verify that the potatoes meet the requirements specified in paragraphs (a), (b), and (c) of this section. If the subsequent inspection verifies that the lot meets the requirements of paragraphs (a), (b), and (c) of this section, a new certificate, a new numbered notesheet, or a new shipping clearance report shall be issued and, if positive lot identified, shall reference the original PLI number, and a new PLI number need not be applied to the lot. However, if upon subsequent inspection, the lot does not meet the requirements specified in either paragraphs (a), (b), or (c) of this section, the lot shall be reconditioned in the presence of an authorized representative of the Idaho Federal-State Inspection Service or Oregon Federal-State Inspection Service prior to the close of the business day. If the lot is reconditioned prior to the close of the business day, a new certificate, a new numbered notesheet, or a new shipping clearance report must be issued, and either a new PLI number must be applied to the lot or the original PLI number must be modified. If the PLI numbered lot is not reconditioned prior to the close of the business day, all PLI numbers must be obliterated. Any inspection certificate, numbered notesheet, or shipping clearance report issued upon a subsequent inspection, including when a lot is reconditioned, must be issued within four days of shipment of the potatoes.

(4) Handlers shall provide the Committee with the destination zip codes of all potatoes handled by permitting the Idaho Federal-State Inspection Service or Oregon Federal-State Inspection Service to review the bills of lading upon inspection to determine the destination zip codes. The destination zip codes shall be included on the inspection certificates. The destination zip codes and the quantity shall be provided by the handler to the Committee.
on lots which are positive lot identified, either orally or in writing. Whenever potatoes are diverted to a different destination, the handler shall notify the Committee of the new destination zip code and quantity orally or in writing as soon as practicable.

The term prepeeling means the commercial preparation in a prepeeling plant of clean, sound, fresh potatoes by washing, peeling, or otherwise removing the outer skin, trimming, sorting, and properly treating to prevent discoloration preparatory to sale in one or more of the styles of peeled potatoes described in §52.2422 of the United States Standards for Peeled Potatoes (7 CFR 52.2421–52.2433). The term other processing has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute "other processing." The terms Idaho Utility grade and Oregon Utility grade shall have the same meaning as when used in the standards for potatoes for the respective State. Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 98 and Order No. 945, both as amended.

EDITORIAL NOTE: After January 1, 1979, "Budget of Expenses and Rate of Assessment" regulations (e.g. sections .200 through .299) and "Handling" regulations (e.g. sections .300 through .399) which are in effect for a year or less, will not be carried in the Code of Federal Regulations. In developing its marketing policy, the committee shall investigate relevant supply and demand conditions for potatoes. In such investigations, the committee shall give appropriate considerations to the following:

§ 946.41 Assessments.

Each handler shall pay to the committee upon demand, his pro rata share of the expenses authorized by the Secretary for each fiscal period. At any time during or after a fiscal period, the Secretary may increase the rate of assessment as necessary to cover authorized expenses. Such increase shall be applicable to all potatoes handled during the given fiscal period. The payment of expenses for the maintenance and functioning of the committee may be required during periods when no regulations are in effect. If a handler does not pay his assessment within the time prescribed by the committee, the assessment may be increased by a late payment charge or an interest charge, or both, at rates prescribed by the committee with the approval of the Secretary.

[37 FR 10917, June 1, 1972]

§ 946.42 Accounting.

(a) Excess funds. At the end of a fiscal period, funds in excess of the year’s expenses shall be placed in an operating reserve not to exceed approximately two fiscal periods’ operational expenses or such lower limits as the committee, with the approval of the Secretary, may establish. Funds in such reserve shall be available for use by the committee for expenses authorized pursuant to § 946.40. Funds in excess of those placed in the operating reserve shall be refunded to handlers. Each handler’s share of such excess shall be the amount of assessments he paid in excess of his pro rata share of the actual expenses of the committee and the addition, if any, to the operating reserve.

(b) Accounting of funds upon termination of order. Any money collected as assessments pursuant to this subpart and remaining unexpended in the possession of the committee after termination of this part shall be distributed in such manner as the Secretary may direct: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

[37 FR 10917, June 1, 1972]

§ 946.43 Funds.

All funds received by the committee pursuant to any provisions of this subpart shall be used solely for the purposes specified in this subpart and shall be accounted for in the following manner:

(a) Whenever the Secretary finds, upon the basis of the recommendations and information submitted by the committee, or from other available information, that it will tend to effectuate the declared policy of the act, he shall modify, suspend, or terminate any or all regulations issued pursuant to this part in order to facilitate shipments of potatoes for the following purposes:

[376]

(2) Charity;
(3) Export;
(4) Seed;
(5) Prepeeling;

[37 FR 10918, June 1, 1972]

§ 946.55 Safeguards.

(a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to §946.54 from entering channels of trade and other outlets for other than the specific purposes authorized therefor, and the transportation of potatoes for grading and storing to points outside the production area.

(b) Safeguards provided by this section may include, but shall not be limited to, requirements that handlers:
(1) Shall obtain the inspection required by §946.60 or pay the assessment provided by §946.41, or both, in connection with the potato shipments effected in accordance with §946.54, and

(c) The committee, with the approval of the Secretary, shall prescribe rules governing the issuance and the contents of the special purpose certificate.

(d) The committee may rescind, or deny to any handler the special purpose certificate if proof satisfactory to the committee is obtained that potatoes shipped by him for the purpose stated in §946.54 were handled contrary to the provisions of this section.

(e) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the number of such applications denied, and certificates granted, the quantity of potatoes shipped under duly issued certificates, and such other information as may be requested by the Secretary.

[37 FR 10918, June 1, 1972]

INSPECTION AND CERTIFICATION

§ 946.60 Inspection and certification.

(a) During any period in which the Secretary regulates the shipment of potatoes pursuant to the provisions of this subpart, each handler who first ships potatoes shall, prior to making shipment, cause each shipment to be inspected by an authorized representative of the Federal-State inspection service or such other inspection service as the Secretary shall designate. The committee may, with the approval of the Secretary, prescribe rules and regulations modifying the inspection requirements of this section in circumstances under which such requirements would create an undue hardship on growers or shippers: Provided, That all such shipments shall comply with all regulations in effect: And provided further, That proper safeguards to assure compliance are adopted.

(b) Each such handler shall make arrangements with the inspecting agency to forward promptly to the committee a copy of such inspection certificate: Provided, however, That (1) each handler making shipments of potatoes during such period shall prior to making such shipment, determine if such shipment has been inspected and if such shipment has not been so inspected and is not covered by an inspection certificate, each handler making such determinations shall have such potatoes inspected and shall arrange for a copy of the inspection certificate to be forwarded to the committee as aforesaid, and (2) each handler who first ships potatoes after such potatoes are regraded, resorted, or repacked, or in any other way further prepared for market shall have each shipment of such potatoes inspected as provided in this section.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 946.64 Proceedings after termination.

(a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustee shall continue in such capacity until discharged by the Secretary; shall from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 946.336 Handling regulation.

No person shall handle any lot of potatoes unless such potatoes meet the requirements of paragraphs (a), (b), (c), and (g) of this section or unless such potatoes are handled in accordance with paragraphs (d) and (e), or (f) of this section, except that shipments of the blue or purple flesh varieties of potatoes shall be exempt from both this handling regulation and the assessment requirements specified in §946.41.

(a) Minimum quality requirements—

(1) Grade: All varieties—U.S. No. 2 or better grade.

(2) Size: (i) At least 1 7/8 inches in diameter, except that all red, yellow fleshed, and white types may be 1 inch (25.4 mm) minimum diameter, if they otherwise meet the requirements of U.S. No. 1.

(ii) All Russet types, 2 inches (54.0 mm) minimum diameter, or 4 ounces minimum weight.

(iii) Any type of any size may be packed in a 3-pound or less container if the potatoes otherwise meet the requirements of U.S. No. 1.

(iv) Tolerances—The tolerance for size contained in the U.S. Standards for Grades of Potatoes shall apply.

(3) Cleanness: All varieties and grades—as required in the United States Standards for Grades of Potatoes. For example: U.S. No. 2—“not seriously damaged by dirt,”” and U.S. No. 1—“fairly clean.”

(b) Minimum maturity requirements—

(1) Red, yellow fleshed and white types: Not more than “moderately skinned.”

(2) Russet types: Not more than “slightly skinned.”

(c) Pack:—

(1) Domestic: Potatoes packed in cartons shall be U.S. No. 1 grade or better, except that potatoes which fail to meet the U.S. No. 1 grade only because of internal defects may be shipped provided the lot contains not more than 10 percent damage by any internal defect or combination of internal defects but not more than 5 percent serious damage by any internal defect or combination of internal defects.

(2) Export: Potatoes packed in cartons shall be U.S. No. 1 grade or better.

(d) Special purpose shipments. (1) The minimum grade, size, cleanness, maturity, and pack requirements set forth in paragraphs (a), (b), and (c) of this section shall not apply to shipments of potatoes for any of the following purposes:

(i) Livestock feed;

(ii) Charity;

(iii) Seed;

(iv) Prepeeling;

(v) Canning, freezing, and “other processing” as hereinafter defined;

(vi) Grading or storing at any specified location in Morrow or Umatilla Counties in the State of Oregon, in District 5, or in Spokane County in District 1;

(vii) Export, except to Alaska and Hawaii and except as provided in paragraph (c)(2) of this section; or

(viii) Experimentation.

(2) Shipments of potatoes for the purposes specified in paragraphs (d)(1)(i) through (viii) of this section shall be exempt from inspection requirements specified in paragraph (g) of this section except shipments pursuant to paragraph (d)(6) of this section shall comply with inspection requirements of paragraph (e)(2) of this section. Shipments specified in paragraphs (d)(1)(i), (ii), (iii), (v) and (viii) of this section shall be exempt from assessment requirements as specified in §946.248 and established pursuant to §946.41.

(i) Notify the committee of intent to ship potatoes by applying on forms furnished by the committee a special purpose shipment
§ 946.336 7 CFR Ch. IX (1–1–02 Edition)

report on each such shipment, a copy of which must also accompany each shipment. The handler shall forward copies of each such special purpose shipment report to the committee office and to the receiver with instructions to the receiver to sign and return a copy to the committee office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for cancellation of such handler’s certificate applicable to such special purpose shipments and/or the receiver’s eligibility to receive further shipments pursuant to such certificate. Upon cancellation of such certificate, the handler may appeal to the committee for reconsideration; such appeal shall be in writing:

(i) Before diverting any such special purpose shipment from the receiver of record as previously furnished to the committee by the handler such handler shall submit to the committee a revised special purpose shipment report.

(2) Handlers desiring to ship potatoes for grading or storing to any specified location in Morrow or Umatilla Counties in the State of Oregon, to District No. 5, or to Spokane County in District No. 1 shall:

(i) Notify the committee of intent to so ship potatoes by applying on forms furnished by the committee for a certificate applicable to such special purpose shipment. Upon receiving such application, the committee shall supply to the handler the appropriate certificate after it has determined that adequate facilities exist to accommodate such shipments and that such potatoes will be used only for authorized purposes;

(ii) If reshipment is for any purpose other than as specified in paragraph (d) of this section, each handler desiring to make reshipment of potatoes which have been graded or stored shall, prior to reshipment, cause each such shipment to be inspected by an authorized representative of the Federal-State Inspection Service. Such shipments must comply with the minimum grade, size, cleanliness, maturity, and pack requirements specified in paragraphs (a), (b), and (c) of this section;

(iii) If reshipment is for any of the purposes specified in paragraph (d) of this section, each handler making reshipment of potatoes which have been graded or stored shall do so in accordance with the applicable safeguard requirements specified in paragraph (e) of this section.

(3) Each handler making shipments of potatoes for canning, freezing, or “other processing” pursuant to paragraph (d) of this section shall:

(i) First apply to the committee for and obtain a Special Purpose Certificate to make shipments for processing;

(ii) Make shipments only to those firms whose names appear on the committee’s list of canners, freezers, or other processors of potato products maintained by the committee, or to persons not on the list provided the handler furnishes the committee, prior to such shipment, evidence that the receiver may reasonably be expected to use the potatoes only for canning, freezing, or other processing;

(iii) Upon request by the committee, furnish reports of each shipment pursuant to the applicable Special Purpose Certificate;

(iv) Mail to the office of the committee a copy of the bill of lading for each Special Purpose Certificate shipment promptly after the date of shipment unless other arrangements are made;

(v) Bill each shipment directly to the applicable processor.

(4) Each receiver of potatoes for processing pursuant to paragraph (d) of this section shall:

(i) Complete and return an application form for consideration of approval as a canner, freezer, or other processor of potato products;

(ii) Certify to the committee and to the Secretary that potatoes received from the production area for processing will be used for such purpose and will not be placed in fresh market channels;

(iii) Report on shipments received as the committee may require and the Secretary approve.

(5) Each handler desiring to make shipments of potatoes for export shall:

(i) Notify the committee of intent to so ship potatoes by applying on forms
furnished by the committee for a certificate applicable to such special purpose shipment. Such information shall include the quantity of potatoes to be shipped and the name and address of the exporter;

(ii) After the certificate is approved and the shipment is made, furnish the committee with a copy of the on-board bill of lading applicable to such shipment unless other arrangements are made;

(iii) Before diverting any such special purpose shipment from the receiver of record as previously furnished to the committee by the handler such handler shall submit to the committee a revised special purpose shipment report.

(6) Each handler desiring to make shipments of potatoes for experimentation shall:

(i) First apply to the committee for and obtain a Special Purpose Certificate to make shipments for experimentation;

(ii) Upon request by the committee, furnish reports of each shipment pursuant to the applicable Special Purpose Certificate.

(f) Minimum quantity exemption. Each handler may ship up to, but not to exceed 5 hundredweight of potatoes per day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any shipment over 5 hundredweight of potatoes.

(g) Inspection. (1) Except when relieved by paragraphs (d) or (f) of this section, no person may handle any potatoes unless a Federal-State Inspection Notesheet or certificate covering them has been issued by an authorized representative of the Federal-State Inspection Service and the document is valid at the time of shipment. Further, any bulk load shipments of potatoes not relieved in paragraphs (d) or (f) of this section must also be accompanied by a Shipping Clearance Report issued by the Federal-State Inspection Service and valid at the time of shipment.

(2) U.S. No. 1 grade or better potatoes in the State of Washington which are resorted or repacked within 72 hours of being inspected and certified are exempt from reinspection.

(h) Definitions. The terms U.S. No. 1, U.S. No. 2, not seriously damaged by dirt, fairly clean, slightly skinned, and moderately skinned shall have the same meaning as when used in the United States Standards for Grades of Potatoes (7 CFR 51.1540–51.1566), including the tolerances set forth in it. The term prepeeling means the commercial preparation in the prepeeling plant of clean, sound, fresh tubers by washing, peeling or otherwise removing the outer skin, trimming, sorting, and properly treating to prevent discoloration preparatory to sale in one or more of the styles of peeled potatoes described in §52.2422 United States Standards for Grades of Peeled Potatoes (7 CFR 52.2421–52.2433). The term other processing has the same meaning as the term appearing in the Act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute “other processing.” Other terms used in this section have the same meaning as when used in the marketing agreement, as amended, and this part.

EDITORIAL NOTE: After January 1, 1979, “Budget of Expenses and Rate of Assessment” regulations (e.g. sections .200 through .299) and “Handling” regulations (e.g. sections .300 through .399) which are in effect for a year or less, will not be carried in the Code of Federal Regulations. § 947.340  Handling regulation.

No person shall handle any variety of potatoes grown in the production area, except for non-white fleshed varieties of potatoes, unless such potatoes meet the requirements specified in paragraphs (a) through (f) of this section, or unless such potatoes are handled in accordance with paragraphs (g) and (h), or (i) of this section.

(a) Grade requirements. Such potatoes grade at least U.S. No. 2.

(b) Size requirements. (1) Such potatoes shipped to points within the continental United States shall be at least 2 inches in diameter or weigh at least 4 ounces, and such potatoes shipped to export destinations shall be at least 1 1/2 inches in diameter.

(2) Red-skinned varieties of potatoes may be shipped without regard to any minimum size requirement, if they otherwise grade at least U.S. No. 1.

(3) All non-red-skinned varieties of potatoes that measure 1 3/4 inches in diameter or less may be shipped if such potatoes otherwise grade at least U.S. No. 1.

(c) Cleanness requirements. All varieties and grades—As required in the United States Standards for Grades of Potatoes, except that U.S. Commercial may be no more than “slightly dirty.”

(d) Maturity (skinning) requirements. (1) Round and White Rose varieties: not more than “moderately skinned.”

(2) Other Long Varieties (including but not limited to Russet Burbank and Norgold): not more than “slightly skinned.”

(3) Not to exceed a total of 100 hundredweight of potatoes may be handled during any seven day period without meeting these maturity requirements. Prior to shipment of potatoes exempt from the above maturity requirements, the handler shall obtain from the committee a Certificate of Privilege.

(e) Pack. Potatoes packed in cartons shall be either: (1) U.S. No. 1 grade or better, except that potatoes that fail to meet the U.S. No. 1 grade only because of hollow heart and/or internal discoloration may be shipped provided the lot contains not more than 10 percent damage by hollow heart and/or internal discoloration, or not more than 5 percent serious damage by internal defects; or (2) U.S. No. 2 potatoes weighing at least 10 ounces.

(f) Inspection. (1) Except when relieved by paragraphs (g) and (h), or (i) of this section and paragraph (f)(2) of this section, no person shall handle potatoes without first obtaining inspection from an authorized representative of the Federal-State Inspection Service.

(2) Handlers making shipments from facilities located in an area where inspection costs would otherwise exceed one and one-half times the current per-hundredweight inspection fee, are exempt from on-site inspection provided such handler has made application to the committee for inspection exemption on forms supplied by the committee, and provided further that such handler signs an agreement with the committee to report each shipment on a daily basis and pay the committee a sum equal to the current inspection fee.

(3) For the purpose of operation under this part each required inspection certificate is hereby determined, pursuant to §947.60(c) to be valid for a period of not to exceed 14 days following completion of inspection as shown on the certificate. The validity of an inspection certificate covering inspected and certified potatoes that are stored in mechanically refrigerated storage within 14 days of the inspection shall be 14 days plus the number of days that the potatoes were held in refrigerated storage.
(4) Any lot of potatoes previously inspected pursuant to § 947.60 and certified as meeting the requirements of this part is not required to have additional inspection under § 947.60(b) after regrading, resorting, or repacking such potatoes, if the inspection certificate is valid at the time of regrading, resorting, or repacking of the potatoes.

(g) Special purpose shipments. The minimum grade, size, cleanliness, maturity, pack and inspection requirements set forth in paragraphs (a) through (f) of this section shall not be applicable to shipments of potatoes for any of the following purposes:

(1) Certified seed, subject to applicable safeguard requirements of paragraph (h) of this section.

(2) Livestock feed: However, potatoes may not be handled for such purposes if destined to points outside of the production area, except that shipments to the counties of Benton, Franklin and Walla Walla in the State of Washington and to Malheur County, Oregon, may be made, subject to the safeguard provisions of paragraph (h) of this section.

(3) Planting in the district where grown: Further, potatoes for this purpose grown in District No. 2 or District No. 4 may be shipped between those two districts.

(4) Between districts within the production area for grading or storing. In addition, potatoes grown in District No. 5 may be shipped for grading and storing to points in the counties of Adams, Benton, Franklin and Walla Walla in the State of Washington, or to Malheur County, Oregon, without regard to the safeguard provisions of paragraph (h) of this section.

(5) Charity: Except that shipments for charity may not be resold if they do not meet the requirements of paragraphs (a), (b), (c), (d) and (e) of this section. This exemption shall not apply to any part of a shipment which exceeds 19 hundredweight.

(i) Definitions. (1) The terms U.S. No. 1, U.S. Commercial, U.S. No. 2, Size B, moderately skinned and slightly skinned shall have the same meaning as when used in the United States Standards for Grades of Potatoes (7 CFR 51.1540 – 51.1566) including the tolerances set forth therein.

(2) The term slightly dirty means potatoes that are not damaged by dirt.

(3) The term prepeeling means the commercial preparation in a prepeeling plant of clean, sound, fresh potatoes by washing, peeling or otherwise removing the outer skin, trimming, sorting, and properly treating to prevent discoloration preparatory to sale in one or more of the styles of peeled potatoes described in § 52.2422, United States
Standards for Grades of Peeled Potatoes (7 CFR 52.2421–52.2433).

(4) The term other processing has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, or starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute “other processing.”

(5) The term non-white fleshed potatoes means all colored fleshed varieties of potatoes other than white-fleshed varieties of potatoes.

(6) Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 114, as amended, and this part.

(b) Area marketing policies. Each season prior to or at the same time as initial recommendations are made pursuant to § 948.21, each area committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for the industry to follow in handling the respective area’s potatoes during the ensuing season. Additional reports shall be submitted from time to time if it is deemed advisable by an area committee to adopt a new marketing policy because of changes in the demand and supply situation with respect to potatoes. The
committee shall publicly announce the submission of each such marketing policy report and copies thereof shall be available at the committee’s office for inspection by any producer or any handler. In determining each such marketing policy the committee shall give due consideration to the following:

(1) Supply of potatoes by grade, size, quality, and maturity in the respective area, in the production area, and in other areas;

(2) Market prices for fresh potatoes, including grower, shipping point, and terminal market prices by grade, size, and quality in different packs or in different containers;

§ 948.22 Issuance of regulations.

(2) Limit the handling of particular grades, sizes, qualities, or maturities of potatoes differently, for different varieties, for different containers, for different packs, for different portions of the production area, for different purposes under § 948.23, or for any combination of the foregoing, during any period.

§ 948.24 Safeguards.

(b) Such safeguards may include requirements that handlers or processors desiring to handle potatoes pursuant to §948.23 shall:

(1) Apply for and obtain Certificates of Privilege from the area committee for handling potatoes affected or to be affected under the provisions of §948.23;

(3) Furnish the committee such information, and execute or obtain execution of such documents, as the committee may require.

(c) An area committee may rescind or deny to any handler permission to handle potatoes pursuant to §948.23 if proof satisfactory to the committee is obtained that potatoes handled by him for a purpose stated in §948.23 were handled contrary to the provisions of this subpart.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes handled under duly issued certificates, and such other information as may be requested.

EXEMPTIONS

§ 948.28 Policy.

Any producer whose potatoes have been adversely affected by acts beyond the control or reasonable expectation of a prudent grower and who, by reason of any regulation issued pursuant to this part, is or will be prevented from shipping or having shipped during the then current marketing season, or a specific portion thereof, as large a proportion of his potato crop as the average proportion shipped or to be shipped during comparable portions of the season by all producers in his immediate area of production, may apply to the committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

§ 948.29 Procedure.

Rules and procedures for granting exemptions may be issued by the Secretary, upon recommendation of area committees. Such rules and procedures may provide for methods of determinations by area committees of average proportions of crops shipped or being shipped in respective areas or subdivisions thereof during any or all portions of a season, for processing applications for exemption, for issuing or denying certificates of exemption, for administrative compliance with certificates issued, for reports by handlers thereon, and for such other procedures as may be necessary to administration hereof.

§ 948.30 Granting exemptions.

An area committee may issue certificates of exemption to any qualified applicant who furnishes adequate evidence to such committee:

(a) That the grade, size, or quality of the applicant’s potatoes have been adversely affected by acts beyond his control or reasonable expectations;

(b) That by reason of regulations issued pursuant to §948.20 or §948.22, the applicant will be prevented as a producer from shipping or having shipped as large a proportion of his production as the average proportion of production shipped by all producers in said applicant’s immediate area of production during the season, or a specific portion thereof.

(c) Each such certificate issued shall permit the person identified therein to ship or have shipped the potatoes described thereon, and evidence of such certificates shall be made available to subsequent handlers thereof.
§ 948.31 Investigation.

An area committee shall be permitted at any time to make a thorough investigation of any applicant’s claim pertaining to exemptions.

§ 948.32 Appeal.

If any applicant for exemption certificates is dissatisfied with the determination by an area committee with respect to his application, he may file an appeal with the committee. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal.

RESEARCH AND DEVELOPMENT

§ 948.35 Research and development.

The committee, with the approval of the Secretary, may provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of potatoes and may make available committee information and data to any person, or to any employee of an agency or its agent, authorized by the committee as its agent with the approval of the Secretary, to conduct such projects.

INSPECTION

§ 948.40 Inspection and certification.

(a) During any period in which the handling of potatoes is regulated pursuant to §948.20 through §948.24, inclusive, no handler shall handle potatoes unless such potatoes are inspected by an authorized representative of the Federal or a Federal-State Inspection Service and are covered by a valid inspection certificate, except when relieved of such requirements by §948.22(b), §948.23, or §948.40(b).

(b) Rules may be issued by the Secretary, upon recommendation of the Colorado Potato Committee requiring inspection on regraded, resorted or repacked lots, or providing for special inspection requirements or relief therefrom. Such rules may provide distinctions, insofar as practical, between handling at shipping point and handling in receiving markets within the production area.

(c) Upon recommendation of an area committee and approval by the Secretary, any or all potatoes so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of a Federal or Federal-State Inspector or the committee. Master containers may bear the identification instead of the individual containers within said master container.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(e) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

(f) Area committees with the approval of the Colorado Potato Committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of potatoes by motor vehicle or by other means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or other document authorized by the committee to indicate that such inspection has been performed. Such certificate or document shall be surrendered to such authority as may be designated.

COMMITTEES

(a) For each committee member there shall be an alternate who shall have the same qualifications. During a member’s absence, or when called upon to do so in accordance with the terms hereof, or in the event of a member’s death, removal, resignation, or disqualification, an alternate shall act in his place and stead until the member’s successor is selected and has qualified.

(b) Area committees, with the Secretary’s approval, may provide through rules for members or for alternates to recommend regulations for early crop potatoes or for late crop potatoes and to specify the particular crop for which each group shall be responsible.

§ 948.53 Reestablishment.

Areas, subdivisions of areas, the distribution of representation among the subdivision of areas, or among marketing organizations within respective areas may be reestablished by the Secretary upon area committee recommendations. Upon approval therefor of respective committees affected thereby, areas may be reestablished. In recommending any such changes, the committee shall consider (a) the relative importance of new producing sections, (b) relative production, (c) changes in marketing organizations and their relative status in the industry, (d) the geographic locations of producing sections as they would affect the efficiency of administration of this part, and (e) other relevant factors.

§ 948.54 Eligibility.

Area committee members and alternates shall be individuals who shall be residents of, and producers or handlers, as the case may be, in the respective area. Also, each member or alternate to qualify as a representative (a) for producers shall be a producer, or an officer or employee of a producer; (b) for producer’s cooperative marketing associations shall be members or employees of such associations; or (c) for handlers other than cooperative marketing associations shall be a handler, or an officer or employee of a handler.

§ 948.55 Term of office.

The term of office of each area committee member and alternate shall be for two years. The term of office for Colorado Potato Committee members and alternates shall be for one year. The dates on which terms of office for each committee shall begin and end shall be established by the Secretary pursuant to respective committee recommendation. Terms of office of area committee members shall be arranged so that approximately one-half shall terminate each year. Determination of which initial members and alternates shall serve for one year or two years shall be by lot.

§ 948.56 Nomination and selection.

(a) Each area committee shall hold or cause to be held, not less than 15
days prior to the expiration date of respective terms of office, meetings of producers and handlers for each subdivision in which terms expire or in which vacancies otherwise occur.

(b) At each such meeting one or more nominees shall be designated for each impending vacancy as member or alternate. Such designation may be by ballot or by motion at the option of those present in voting capacity.

(c) Only producers may participate in designating producer nominees; only handlers may participate in designating handler nominees; and only duly authorized representatives of producers' cooperative marketing associations may participate in designating nominees to represent such associations. If no separate representation is provided for producers' cooperative marketing associations, duly authorized representatives of such associations may participate in designating handler nominees.

(d) Each producers' cooperative marketing association shall be entitled to cast only one vote in designating nominees to represent such associations. Each producer and each handler shall be entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives.

(e) If a producer, handler, or producers' cooperative marketing association is engaged in producing or handling potatoes in more than one area, or in more than one subdivision of an area, such producer, handler, or producers' cooperative marketing association shall elect the area or subdivision in which he may participate in designating nominees. In no event shall there be participation in more than one area or subdivision.

§ 948.57 Failure to nominate.

If nominations are not made pursuant to the provisions of §948.56 by the date provided therein, the Secretary may, without regard to nominations, select members and alternates on the basis of the representation provided for in this part.

§ 948.58 Vacancies.

To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate to qualify, or in the event of the death, removal, resignation, or disqualification of a member or alternate, a successor for his unexpired term may be selected by the Secretary from nominations made pursuant to §948.56, from previously unselected nominees on the current nominee list, or from other eligible persons.

§ 948.59 Qualification.

Each person selected as a member or as an alternate shall qualify by promptly filing a written acceptance with the Secretary.

§ 948.60 Compensation and expenses.

(a) Members of each area committee and their alternates shall serve without salary, but may be compensated at a rate not in excess of $10 per day while engaged on committee business, and may be reimbursed for necessary expenses actually incurred while so engaged. At the discretion of an area committee, alternates may be requested to attend any or all committee meetings and receive compensation and expenses therefor regardless of attendance by the respective members.

(b) The compensation and expenses of members and alternates of the Colorado Potato Committee shall be paid by the respective area committee they represent.

(c) Such other expenses as may be incurred by the Colorado Potato Committee pursuant to a budget of expenses approved by the Secretary shall be allotted to, and paid by, one or more of the area committees, as may be specified in an order issued by the Secretary pursuant to the provisions of this subpart.

§ 948.61 Procedure.

(a) A majority of all members of a committee shall be necessary to constitute a quorum or to pass and motion or approve any committee action.

(b) Each committee may provide for the members thereof, including the alternate members when acting as members, to vote by mail, telegraph, telephone, or other means of communication, provided that any such vote cast orally shall be confirmed promptly in writing. If any assembled meeting is held all votes shall be cast in person.
§ 948.62 Powers.

Each committee shall have the following powers:

(a) To administer the provisions of this subpart as specified herein;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

EXPENSES AND ASSESSMENTS

§ 948.75 Expenses.

Each area committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for purposes determined to be appropriate for administration of this part. Handlers shall share expenses upon the basis of a fiscal period. Each handler’s share of such expenses shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a fiscal period and the total quantity of potatoes handled by all handlers as first handlers thereof during such fiscal period.

§ 948.76 Budget.

As soon as practicable after the beginning of each fiscal period and as may be necessary thereafter, each area committee shall prepare an estimated
budget of income and expenditures necessary for its administration of this part. Each area committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. Each area committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 948.77 Assessments.

(a) The funds to cover each area committee’s expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles potatoes under this part, shall pay assessments to his respective area committee upon demand, which assessments shall be in payment of such handler’s pro rata share of the area committee’s expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of each area committee’s budget, recommendations, and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period each area committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes grown within the particular area where an area committee recommends such increase and which were handled by the first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of each area committee may be required under this part throughout the period it is in effect irrespective to whether particular provisions thereof are suspended or become inoperative.

(e) In order to provide funds to enable each area committee to perform its functions under this part, handlers may make advance payment of assessments.

§ 948.78 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, it shall be refunded proportionately to the persons from whom it was collected.

(2) An area committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve are less than approximately two fiscal period’s expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses; (ii) to cover deficits incurred during any fiscal period when assessment income is less than expenses; (iii) to defray expenses incurred during any period when any or all provisions of this subpart are suspended or are inoperative; (iv) to cover necessary expenses of liquidation in the event of termination of this subpart. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by an area committee pursuant to the provisions of this part shall be used solely for the purposes specified herein. The Secretary may at any time require an area committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of an area committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to such committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such committee full title to all of the property funds and claims vested in such member pursuant to this part.

(d) Each area committee may make recommendations to the Secretary for
§ 948.80

one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for such committee.

REPORTS

§ 948.80 Reports.

Upon request of an area committee or of the Colorado Potato Committee through an area committee, each handler within the respective area of such area committee shall furnish to the area committee in such manner and at such time as it may prescribe, reports and other information as may be necessary for the committee to perform its duties under this part.

(a) Such reports may include, but are not necessarily limited to the following examples:

(4) Information essential to identification of any or all specific quantities, lots, and disposition of potatoes handled under §§948.23 to 948.30, inclusive, which may include identification of inspection certificates, exemption certificates, certificates of privilege, or other appropriate identification, including the destination of each special shipment, where necessary.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers are authorized, subject to prohibition of disclosure of individual handlers’ identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the potatoes received and disposed of by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

§ 948.81 Compliance.

Except as provided in this subpart, no handler shall handle potatoes, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall handle potatoes except in conformity to the provisions of this subpart.

§ 948.82 Right of the Secretary.

The members of each area committee (including successors and alternates) and any agent or employee appointed or employed by any committee shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of each committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

(d) The provisions of this subpart shall in any event terminate whenever the provisions of the Act authorizing them cease to be in effect.

§ 948.85 Proceedings after termination.

(a) Upon the termination of the provisions of this subpart the then functioning members of each area committee shall continue as joint trustees for the purpose of liquidating the affairs of their respective area committee of all funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of said committees and of the trustees, to such person as the Secretary may direct; and shall upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in said committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by an area committee or its members pursuant to this section shall be subject to the same obligations imposed upon the members of such committees and upon the said trustees.

§ 948.86 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart or the issuance of any amendments to either thereof, shall not (a) effect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart; or (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart; or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the Act or otherwise, or in accordance with
§ 948.90 Personal liability.

No member or alternate of any committee or any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, willful misconduct or gross negligence.

§ 948.91 Separability.

§ 948.120 General.

Whenever shipments of potatoes for special purposes under § 948.23 are relieved in whole or in part from grade and size regulations issued under § 948.22 the committee shall require information and evidence as to the manner, methods, and timing of such shipments as safeguards against the entry of any such potatoes into trade channels other than those for which intended. Such information and evidence
shall include the requirements set forth below with respect to Certificates of Privilege.

§ 948.121 Qualification.

Before handling potatoes for special purposes which do not meet regulations issued under § 948.22 a handler must qualify with the committee to handle shipments for special purposes. To qualify he must (a) apply for and receive a Certificate of Privilege indicating his intent to so handle potatoes; (b) agree to comply with reporting and other requirements set forth in §§ 948.121 to 948.125, inclusive, with respect to such shipments; and (c) receive approval of the committee to so handle potatoes. Such approval will be based upon evidence furnished in his application for a Certificate of Privilege, and other information available to the committee.

§ 948.122 Application.

(a) Application for Certificate of Privilege shall be made in person, by telephone, or on forms furnished by the committee. Each application may contain, but need not be limited to, the name and address of the handler; the quantity by grade, size, quality and variety of the potatoes to be shipped; the mode of transportation; the consignee; the destination; the purpose for which the potatoes are to be used; a certification to the United States Department of Agriculture and to the committee as to the truthfulness of the information shown thereon; and any other appropriate information or documents deemed necessary by the committee for the purposes stated in § 948.120.

(b) [Reserved]

§ 948.123 Approval.

The committee or its duly authorized agents shall give prompt consideration to each application for a Certificate of Privilege. Approval of an application based upon a determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a Certificate of Privilege to the applicant. Each certificate shall cover a specified period, and specified qualities and quantities of potatoes to be sold or transported to the designated consignee for the purposes declared.

§ 948.124 Reports.

Each handler of potatoes shipping under Certificates of Privilege shall supply the committee with reports as requested by the committee or its duly authorized agents showing the name and address of the shipper; the car or truck identification; the loading point; destination; consignee; the inspection certificate number when inspection is required; and any other information deemed necessary by the committee.

§ 948.125 Disqualification.

The committee from time to time may conduct surveys of handling of potatoes for special purposes requiring Certificates of Privilege to determine whether handlers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that a handler or consignee is failing to comply with requirements and regulations applicable to handling of potatoes in special outlets, and requiring such certificates, a Certificate or Certificates of Privilege issued such handler may be rescinded and further certificates denied. Such disqualification shall apply to, and not exceed, a reasonable period of time as determined by the committee but in no event shall it extend beyond the end of the succeeding fiscal period. Any handler who has a certificate rescinded or denied may appeal to the committee in writing for reconsideration of his disqualification.

§ 948.126 General cull regulation.

For purpose of operation under this part it is hereby determined pursuant to paragraph (d) of §948.40 that each inspection certificate shall be valid for a period not to exceed five days following the date of inspection as shown on the inspection certificate.

(2) No handler may transport or cause the transportation by motor vehicle of any shipment of potatoes for which an inspection certificate is required unless each shipment is accompanied by a copy of the inspection certificate applicable thereto and the copy is made available for examination at any time upon request.

(3) Each handler who handles potatoes after such potatoes are regraded, resorted, or repacked shall have such potatoes reinspected, unless such handler has received a waiver from reinspection pursuant to rules established by the Secretary upon the recommendation of the committee.

(d) Special purpose shipments. (1) The grade, size, maturity and inspection requirements of paragraphs (a), (b), and (c) of this section and the assessment requirements of this part shall not be applicable to shipments of potatoes for:

The term prepeeling means the commercial preparation in a prepeeling plant of clean, sound, fresh potatoes by washing, peeling or otherwise removing the outer skin, trimming, sorting, and properly treating to prevent discoloration preparatory to sale in one or more of the styles of peeled potatoes described in §52.2422 United States Standards for Grades of Peeled Potatoes (7 CFR 52.2421–52.2433). The term other processing has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute “other processing.” The term manufacture or conversion into specified products means the preparation of potatoes for market into products by peeling, slicing, dicing, applying material to prevent oxidation, or other means approved by the committee, but not including other processing. The committee is authorized to incur such expenses as the Secretary finds may be necessary to carry out the functions of the committee pursuant to the provisions of this subpart during each fiscal year. The funds to cover such expenses shall be acquired by levying assessments as provided in § 953.34.

§ 953.34 Assessments.

(a) Each handler who first handles potatoes shall, with respect to the potatoes so handled by him, pay to the committee such handler's pro rata share of the expenses which the Secretary finds will be necessarily incurred by the committee for its maintenance and functioning during each fiscal year. Such handler's pro rata share of such expenses shall be equal to the ratio between the total quantity of potatoes handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of potatoes handled by all handlers as the first handlers thereof, during the same fiscal year. The Secretary shall fix the rate of assessment to be paid by such handlers: Provided, That the rate of assessment during each fiscal year shall not exceed 1 cent per hundred-weight.

(b) At any time during or after a fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the committee for its expenses during any fiscal period when assessment income is less than expenses. Such increase shall be applicable to all potatoes handled by any handler during the given fiscal year. In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

§ 953.35 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, it shall be refunded proportionately and to the extent practical to the persons from whom it was collected: Provided, That each handler may be credited with such refund, for the operations of the following fiscal period, unless he demands payment thereof, in which event such proportionate refund shall be paid to him.

(2) The committee, with the approval of the Secretary, may establish an operating monetary reserve, and may carry over into subsequent fiscal periods such excess in a reserve so established: Provided, That funds in the reserve shall not exceed approximately one fiscal period's expenses. Such reserve funds may be used by the committee (i) to defray expenses authorized pursuant to § 953.33, (ii) to defray expenses during any fiscal period, prior to the time assessment income is sufficient to cover such expenses, (iii) to cover deficits incurred during any fiscal period when assessment income is less than expenses, (iv) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, and (v) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation and after reasonable effort by the committee it is found impracticable to return such remaining funds to handlers from whom collected, such funds shall be disposed of in such manner as the Secretary may determine to be appropriate.

(b) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person or persons to act as trustee or trustees for holding records, funds, or any other committee property during periods of suspension of this part, or during any period or periods when regulations are not in effect; and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

[33 FR 8504, June 8, 1968]

§ 953.36 Funds.

All funds received by the committee pursuant to any provision of this subpart shall be used solely for the purposes specified in this subpart and shall be accounted for in the following manner:
(a) The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements; and

(b) Whenever any person ceases to be a member of the committee, he shall account for all receipts and disbursements and deliver all property and funds in his hands, together with all books and records in his possession, to his successor in office or to such person as the Secretary may designate, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or in such designated person the right to all the property, funds, or claims vested in such member.

REGULATIONS

§ 953.40 Marketing policy.

Prior to or at the same time initial recommendations in any fiscal period are made pursuant to §953.41, the committee shall prepare a marketing policy, and promptly submit a copy thereof to the Secretary, setting forth its proposed policy for the marketing of potatoes during such fiscal period. In the event it becomes advisable to deviate from such marketing policy, because of changed demand and supply conditions, or as the Secretary may request, the committee shall formulate a revised marketing policy and shall submit a report thereof to the Secretary. Notice of each such marketing policy and revision thereof shall be given to producers, handlers, and other interested parties by bulletins, newspapers, or other appropriate media, and copies thereof shall be available for examination at the committee office to all interested parties.

[33 FR 8504, June 8, 1968]

§ 953.41 Recommendations for regulations.

(a) It shall be the duty of the committee to investigate supply and demand conditions for grades, sizes, and qualities of all potatoes. Whenever the committee finds that such conditions make it advisable to regulate the shipment of particular grades, sizes, or qualities of potatoes during any period in any or all portions of the production area, it shall recommend to the Secretary the particular grades, sizes, and qualities, or any combination thereof, of such potatoes deemed advisable to be shipped during such period: Provided, That the committee shall not recommend to the Secretary any regulation limiting the shipment of U.S. No. 1 grade or better, as such grades are defined in United States Standards for Potatoes in effect at the time of recommendation.

(b) In determining the grades, sizes, and qualities of potatoes or any and all combinations thereof deemed advisable to be regulated in view of the prospective demand thereof, the committee shall give due consideration to the following factors:

1. Market prices, including prices by grades and sizes, of potatoes for which regulation is recommended;

2. Potatoes on hand in the market areas as manifested by supplies en route and on track at the principal markets;

3. Available supply, quality, and condition of potatoes in the production area and other production areas;

4. Supplies from competing areas and regions producing potatoes;

5. The trend and level of consumer income; and

6. Other relevant factors.

§ 953.42 Issuance of regulations.

Whenever the Secretary shall find, from the recommendations, information and evidence submitted by the committee, or from other available information, that to limit the shipment of potatoes to particular grades, sizes, and qualities thereof in any or all portions of the production area would tend to effectuate the declared policy of the act, he shall so limit by appropriate regulations thereon the shipment of such potatoes during a specified period. The Secretary shall notify the committee of any such regulation and the committee shall give reasonable notice thereof to handlers: Provided, That no regulations shall be issued under this subpart limiting the shipment of U.S. No. 1 grade or better, as such grades are defined in United States Standards for Potatoes in effect at the time such regulations are issued.
§ 953.43 Minimum standards of quality.

(a) Recommendation. Whenever the committee deems it advisable to establish and maintain minimum standards of quality governing the shipment of potatoes, it shall recommend to the Secretary such minimum standards of quality in terms of grades, sizes, or both, below which shipments are to be prohibited. At the time of submitting each such recommendation, the committee shall also submit to the Secretary the supporting data and information upon which it acted in making such recommendation. The committee shall submit in support of its recommendations such other data and information as may be requested by the Secretary, and shall promptly give adequate notice to all handlers and growers of each such recommendation.

(b) Establishment. Whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that to prohibit the shipment of potatoes below certain specified minimum grades, or smaller than certain specified minimum sizes, or both, would be in the public interest and would tend to effectuate the declared policy of the act, he shall so prohibit the shipment of such potatoes. The Secretary shall immediately notify the committee of the issuance of each such regulation, and the committee shall promptly give adequate notice thereof to handlers and growers.

(c) Modification or suspension. (1) The committee may recommend to the Secretary the modification, suspension, or termination of orders relating to minimum standards provided for or established pursuant to this subpart. If the Secretary finds, upon the basis of such recommendation and information, or upon the basis of other available information, that to modify, suspend, or terminate such orders relating to minimum standards of quality will tend to effectuate the declared policy of the act, he shall so modify or suspend such standards for (i) a specified period of time, or (ii) for an indefinite period of time.

(2) The Secretary shall immediately notify the committee and the committee shall promptly give notice to handlers and growers, of any order issued by the Secretary modifying, suspending, or terminating any orders relating to minimum standards of quality established pursuant to, or provided for, in this subpart.

§ 953.44 Limitation of regulations.

(a) Nothing contained in this subpart shall authorize any limitation of the shipment of potatoes for any of the following purposes:

(1) Potatoes shipped for consumption by charitable institutions or for distribution by relief agencies;

(2) Potatoes shipped for manufacturing or conversion into byproducts, except for manufacturing or conversion into specified products recommended by the committee for regulation and approved by the Secretary therefor; and

(3) Upon recommendation of the committee and approval of the Secretary, potatoes shipped for livestock feed, export, or for other specified purposes.

(b) The Secretary shall give prompt notice to the committee of any approval issued by him under the provisions of this section. The committee may prescribe adequate safeguards to prevent potatoes shipped for the purposes stated above from entering the current of interstate commerce or directly burdening, obstructing, or affecting such commerce contrary to the provisions of this subpart, which safeguards may include (1) a requirement by the committee that growers and handlers who ship potatoes pursuant to this section shall file applications to do so with the committee and (2) Federal-State inspection provided by §953.50 and the payment of a pro rata share of expenses provided by §953.34: Provided, That such inspection and payment of expenses may be required at different times than otherwise specified by the aforesaid sections. The committee may issue certificates of privilege for shipments of potatoes affected or to be affected under the provisions of this section and shall make a weekly report to the Secretary showing the number of certificates applied for, the number of bushels of potatoes covered by such applications, the number of certificates denied and granted, the number of bushels of potatoes shipped under duly issued certificates,
Agricultural Marketing Service, USDA

§ 953.45 Minimum quantities.
The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, quantities below which shipments shall be free from regulations issued pursuant to: § 953.42, Regulations, § 953.50, Inspection and certification, and § 953.34, Assessments.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee’s recommendations or other available information.

5. To cover necessary expenses of liquidation in the event of termination of this part.

Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate except that to the extent practicable, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) If such excess is not retained in a reserve as provided in paragraph (a) of this section, each handler entitled to a proportionate refund of the excess assessments collected shall be credited at the end of a fiscal period with such refund against the operations of the following fiscal period unless such handler demands payment thereof, in which event such proportionate refund shall be paid.

If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of the representation provided for in this subpart.

EXPENSES AND ASSESSMENTS

§ 958.40 Expenses.

The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler’s share of such expenses shall be proportionate to the ratio between the total quantity of such handler’s onion shipments inspected pursuant to this part that are handled by him as the first handler thereof during a fiscal period, and the total quantity of such onions handled by all handlers as first handlers thereof during the same period.

§ 958.41 Budget.

Prior to each fiscal period, and as may be necessary thereafter the committee shall prepare a budget of estimated income and expenditures necessary for the administration of this part. The committee shall recommend to the Secretary a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget promptly to the Secretary with an accompanying report thereon showing the basis for its calculations and recommended rate.

§ 958.42 Assessments.

(a) The funds to cover the committee’s expenses pursuant to §958.40 shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who handles onions as the first handler thereof which are inspected pursuant to this part shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler’s pro rata share of such expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee’s recommendations or other available information.

(c) At any time during or subsequent to a given fiscal period, the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendation, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all onion shipments inspected pursuant to this part during such fiscal period.

§ 958.43 Accounting.

(a) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member or alternate of the committee, he shall account for all receipts, disbursements, funds, and property (including, but not being limited to, books and other records) pertaining to the committee’s activities for which he is responsible, and deliver all such property and funds in his hands to such successor, agency, or person as may be designated by the Secretary, and shall
execute such assignments and other instruments as may be necessary or appropriate to vest in each such successor, agency, or person as may be designated by the Secretary the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, and any other committee property during periods of suspension of this part, or during any periods when regulations are not in effect; and, if the Secretary determines such action appropriate, he may direct that such person or persons shall so act as trustee or trustees.

§ 958.44 Reserve fund.

At the end of each fiscal period, funds in excess of the committee’s expenses may be placed in an operating reserve not to exceed approximately 1 fiscal year’s operational expenses or such lower limits as the committee, with the approval of the Secretary, may establish. Also, the committee, with the approval of the Secretary, may include in its budget an item for such reserve. Funds in the reserve shall be available for use by the committee for expenses authorized pursuant to §958.46. Funds in excess of those placed in the operating reserve shall be refunded to handlers. Each handler’s share of such excess shall be the amount he paid in excess of his pro rata share of the expenses of the committee.

[32 FR 11261, Aug. 3, 1967]

§ 958.45 Accounting of funds upon termination of the order.

Any funds collected as assessments pursuant to this subpart and remaining unexpended in the possession of the committee after termination of this part shall be distributed in such manner as the Secretary may direct: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(2) To commercial dehydrators for processing by such dehydrators into dehydrated onion products, from entering channels of trade for other than the purpose authorized therefor.

(b) The committee, with the approval of the Secretary, may also prescribe rules and regulations governing the issuance, and the contents, of Certificates of Privilege if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(b) Regarding, resorting, or repacking any lot of onions shall invalidate prior inspection certificates insofar as the requirements of this section are concerned. (c) Upon recommendation of the committee, and approval of the Secretary, all onions that are required to be inspected and certified in accordance with this section, shall be identified by appropriate seals, stamps, tags, or other identification to be furnished by the committee and affixed to the containers by the handler under the direction and supervision of the Federal-State, or Federal inspector, or the committee. Master containers may bear the identification instead of the individual containers within said master container.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

Compilations of general reports from data submitted by handlers is authorized, subject to the prohibition of disclosure of individual handler’s identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the onions received, and of
§ 958.70 Effective time.

§ 958.71 Termination.

(a) The Secretary may at any time terminate the provisions of this subpart by giving at least one day’s notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operations of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers who, during a representative period, have been engaged in the production for market of onions: Provided, That such majority has, during such representative period, produced for market more than fifty percent of the volume of such onions produced for market, but such termination shall be effective only if announced on or before May 31 of the then current fiscal period.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 958.72 Proceeding after termination.

(a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as joint trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession, or under control, of the committee, including claims for any funds unpaid and property not delivered at the time of such termination. Action by said trustee-ship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 958.73 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or of any regulations issued under this subpart; (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart; or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

(d) Onions for peeling, chopping or slicing. Onions that have been inspected and certified as meeting the requirements of paragraphs (a) and (b) of this section and that are subsequently peeled, chopped, or sliced for fresh market within the production area may be handled without reinspection. Each handler making shipments of onions for such purposes shall provide the committee with a copy of the original inspection certificate verifying that minimum marketing order requirements have been met. Such handlers shall also document on forms provided by the committee, in quadruplicate, the intended use and destination of the onions, referencing the inspection certificate number. Two copies of such forms shall be sent on shipment to the handler altering the onions destined for fresh market, and one copy will be mailed to the committee. Upon receipt, the handler responsible for altering such onions will document the weight of the finished product and promptly return one signed copy to the committee. Failure of the handler or processor to report such shipments by promptly signing and returning the applicable report to the committee office may be cause for cancellation of such handler’s Certificate of Privilege and/or the processor’s eligibility to receive further shipments pursuant to such Certificate of Privilege. Upon cancellation of any such Certificate of Privilege the handler may appeal to the committee for reconsideration.

(g) Minimum quantity exemption. Each handler may ship up to, but not to exceed, one ton of onions each day without regard to the inspection and assessment requirements of this section. This exception shall not apply to any portion of a shipment that exceeds one ton of onions.

(h) Definitions. The terms "U.S. No. 1," "U.S. Commercial," and "U.S. No. 2" have the same meaning as defined in the United States Standards for Grades of Onions (Other than Bermuda-Granex-Grano and Creole Types), as amended (7 CFR 51.2830 through 2854), or the United States Standards for Grades of Bermuda-Granex-Grano Type Onions (7 CFR 51.3195 through .3209), as amended, whichever is applicable to the particular variety, or variations thereof specified in this section. The term "braided red onions" means onions of red varieties with tops braided (interlaced). "Pearl onions" means onions produced using specific cultural practices that limit growth to the same general size as boilers and picklers, and that have been inspected and certified as measuring 1 3/4 inches in
diameter or less. The term “moderately cured” means the onions are mature and are more nearly well cured than fairly well cured. Other terms used in this section have the same meaning as when used in Marketing Agreement No. 130 and this part.

§ 959.121 Qualification.

Before handling onions for special purposes which do not meet regulations issued pursuant to §959.52, a handler, when required by such regulations, must qualify with the committee to handle shipments for special purposes. To qualify he must (a) apply for and receive a Certificate of Privilege indicating his intent to so handle onions, (b) agree to comply with reporting and other requirements set forth in §§959.120 to 959.125, inclusive, with respect to such shipments, and (c) receive approval of the committee, or its duly authorized agents, to so handle onions. Such approval will be based upon evidence furnished in his application for Certificate of Privilege and other information available to the committee.

§ 959.122 Application.

(a) Applications for a Certificate of Privilege shall be made on forms furnished by the committee. Each application may contain, but need not be limited to, the name and address of the handler; the quantity by grade, size, and quality of the onions to be shipped; the mode of transportation; the consignee; the destination; the purpose for which the onions are to be used; and certification to the United States Department of Agriculture and to the committee as to the truthfulness of the information shown thereon, and any other appropriate information or documents deemed necessary by the committee or its duly authorized agents for the purposes stated in §959.120.

(b) The committee may require each handler making shipments of onions for export to include with his application a copy of the Department of Commerce Shippers Export Declaration Form No. 7525-V applicable to such shipment.

§ 959.123 Approval.

The committee or its duly authorized agents shall give prompt consideration to each application for a Certificate of Privilege. Approval of an application, based upon the determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a Certificate of Privilege to the applicant. Each certificate shall cover a specified period and specified qualities and quantities of onions to be sold or transported to a designated consignee for the purpose declared.

§ 959.124 Reports.

Each handler of onions shipping under Certificates of Privilege shall supply the committee with reports as requested by the committee, or its duly authorized agents, showing the name and address of the shipper; the car or truck identification; the loading point; destination; consignee; the inspection certificate number when inspection is required; and any other information deemed necessary by the committee.

§ 959.125 Disqualification.

The committee from time to time may conduct surveys of handling of onions for special purposes requiring Certificates of Privilege to determine whether handlers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that the handler or consignee is failing to comply with requirements and regulations applicable to handling of onions in special outlets and requiring such certificates, a Certificate or Certificates of Privilege issued such handler may be rescinded and subsequent certificates denied. Such disqualification shall apply to, and not exceed, a reasonable period of time as determined by the committee, but in no event shall it extend beyond the date of the succeeding fiscal period. Any handler who has a Certificate rescinded or denied may appeal to the committee in writing for reconsideration of his disqualification.

§ 959.126 Handling of culls.

(a) The handling of culls, i.e., onions which fail to meet the grade, size and quality requirements established under §959.52(b) of this part, is prohibited, unless such onions are:

§ 966.41 Budget.

At the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 966.42 Assessments.

(a) The funds to cover the committee’s expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles tomatoes shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler’s pro rata share of the committee’s expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee’s recommendations and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all tomatoes which were regulated under this part and which were shipped by the first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective whether particular provisions thereof are suspended or become inoperative.

(e) In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance, or may borrow money on a short-term basis not to exceed one full-year coinciding with the existing committee’s term of office. § 966.43 Accounting.

(a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member of the committee or alternate, he shall account to his successor, the committee, or to the person designated by the Secretary, for all receipts, disbursements, funds and property (including but not being limited to books and other records) pertaining to the committee’s activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.
§ 966.44 Excess funds.

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, to the extent practical it shall be refunded proportionately to the persons from whom it was collected.

(2) The committee, with the approval of the Secretary, may establish an operating monetary reserve and may carry over to subsequent fiscal periods excess funds in a reserve so established: Provided, That funds in the reserve shall not exceed approximately one fiscal period’s expenses. Such reserve funds may be used (i) to defray any expenses authorized under this part, (ii) to defray expenses during any fiscal period prior to the time assessment income is sufficient to cover such expenses, (iii) to cover deficits incurred during any fiscal period when assessment income is less than expenses, (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination any funds not required to defray the necessary expenses of liquidation, and after reasonable effort by the committee it is found impracticable to return such remaining funds to handlers, such funds shall be disposed of in such manner as the Secretary may determine to be appropriate.

(b) [Reserved]

INTERPRETATIVE RULES

§ 966.150 Meaning of “producer”.

The term “producer” is defined in § 966.8 as being any person engaged in a proprietary capacity in the production of tomatoes for market. Under the definition of “tomatoes” in § 966.5, such production must have been in the production area. Section 966.22 provides that each person selected as a committee member or alternate must be a producer, or an officer or an employee of a corporate producer. Section 966.27 provides that producers may vote for nominees for members and alternates on the Florida Tomato Committee, the administrative agency established pursuant to said marketing agreement and order. Section 966.3 defines a person as an individual, partnership, corporation, association, or other business unit. The term “person” is construed to mean the business unit which produces the tomatoes for market.

(a) The prevailing principle which shall apply to the determination of “producer” is who or which interest as a unit, whether an individual, partnership, corporation, association, or any other business unit, has the authority to pass title to the tomatoes grown and made a part of the marketable supply of tomatoes. In other words, the terms shall be limited to those who have an
ownership in tomatoes produced in the production area.

(b) **Producer** means any person, as defined in this section: (1) Who or which owns and farms land resulting in his or its ownership of the tomatoes produced thereon; (2) who or which rents or farms land, resulting in his or its ownership of all or a portion of the tomatoes produced thereon; or (3) who or which owns land which he or it does not farm and, as rental for such land, obtains the ownership of a portion of the tomatoes produced thereon.

(c) The term “partnership” shall be deemed to include a husband and wife with respect to land, the title to which, or leasehold interest in which, is vested in them as tenants in common, joint tenants, tenants by entirety, or, under community property laws, as community property. The term “partnership” shall also be deemed to include individuals, partnerships or corporations which join together by agreement, informal or otherwise, for the purpose of growing tomatoes and which, as a unit, have authority to transfer title to such tomatoes at the time they are harvested or subsequent thereto. The term “partnership” shall also include so-called “joint ventures,” wherein one or more parties to the arrangement contributes capital and others contribute labor, management, equipment, or other services, or any variation of such contributions by two or more parties, so that it results in the growing of tomatoes and the authority to transfer title to the tomatoes so produced from that business unit to some other parties in the marketing chain.

(d) Each legal entity, whether an individual, a partnership, a “joint venture,” or a corporation, so engaged in the production of tomatoes for market shall have one vote for each position which is to be filled for the district for which he or it is eligible to vote. In the case of a partnership or a “joint venture,” such vote shall not be accepted in the absence of unanimous agreement of the respective members. In the case of a corporation, such vote shall be cast pursuant to the authorization of its board of directors. In the case of a person who owns land which he or it does not farm but, as rental for such land, obtains the ownership of a portion of the tomatoes produced thereon, such person shall be regarded as the producer of that portion and entitled to one vote, and the tenant on such land shall be regarded as the producer of the remaining portion produced on such land and also entitled to one vote.

(e) A producer eligible to vote is a person who produced tomatoes for market in a proprietary capacity in the production area during the then current fiscal period, i.e., between August 1, of the previous year and July 31 of the then current year. If a person who would otherwise qualify as a producer in a proprietary capacity in the production area planted tomatoes for market as fresh tomatoes during the current fiscal period, but (1) did not market any tomatoes in the fresh market during the current fiscal period due to adverse weather conditions, or (2) has tomatoes in production for fresh market during the current fiscal period, although still unharvested, he shall, nevertheless, be eligible as a producer to vote for committee nominees, if he produced and marketed tomatoes grown in the production area in the next preceding fiscal period.

(b) District No. 2: The counties of Brevard, Glades, Indian River, Martin, Osceola, Okeechobee, Palm Beach, St. Lucie, and Broward in the State of Florida.

(c) Terms used in this section have the same meaning as when used in said marketing agreement and this part.

(ii) Tomatoes of designated sizes may not be commingled, and each container or lid shall be marked to indicate the designated size.

(iii) Only 6×7, 6×6, or 5×6, may be used to indicate the above listed size designations or containers of tomatoes.

(iv) To allow for variations incident to proper sizing, not more than a total of ten (10) percent, by count, of the tomatoes in any lot may be smaller than the specified minimum diameter or larger than the maximum diameter.

(3) Containers. (i) All tomatoes packed by a registered handler shall be packed in containers of 10, 20, and 25 pounds designated net weights. The net weight of the contents shall not be less than the designated net weight and shall not exceed the designated net weight by more than two pounds. Section 51.1863 of the U.S. Tomato Standards shall apply to all containers.

(ii) Each container or lid shall be marked to indicate the designated net weight and must show the name and address of the registered handler (as defined in §966.7) in letters at least one-fourth (1⁄4) inch high, and such containers must be packed at the registered handler’s facilities.

(iii) The container in which the tomatoes are packed must be clean and bright in appearance without marks, stains, or other evidence of previous use.

(4) Inspection. Tomatoes shall be inspected and certified pursuant to the provisions of §966.60. Each handler who applies for inspection shall register with the committee pursuant to §966.113. Persons not certified by the committee as a registered handler shall be issued inspection certificates on shipments handled by such persons stating “Fails to meet the requirements of Marketing Order No. 966 because the handler is not a registered handler.” Evidence of inspection must accompany truck shipments.
§966.323

(b) Special purpose shipments. The requirements of paragraph (a) of this section shall not be applicable to shipments of tomatoes for pickling, processing, experimental purposes, relief, charity, export, or other outlets recommended by the committee and approved by the Secretary, if the handler thereof complies with the safeguard requirements of paragraph (c) of this section. Shipments for processing are also exempt from the assessment requirements of this part.

(c) Safeguards. Each handler making shipments of tomatoes for pickling, canning, experimental purposes, relief, charity, or export in accordance with paragraph (b) of this section shall:

(1) Apply to the committee and obtain a Certificate of Privilege to make such shipments.

(2) Prepare on forms furnished by the committee a report in quadruplicate on such shipments authorized in paragraph (b) of this section.

(3) Bill or consign each shipment directly to the designated applicable receiver.

(4) Forward one copy of such report to the committee office and two copies to the receiver for signing and returning one copy to the committee office. Failure of the handler or receiver to report such shipments by signing and returning the applicable report to the committee office within ten days after shipment may be cause for cancellation of such handler’s certificate and/or receiver’s eligibility to receive further shipments pursuant to such certificate. Upon cancellation of any such certificate, the handler may appeal to the committee for reconsideration.

(d) Exemption—(1) For types. The following types of tomatoes are exempt from these regulations: Elongated types commonly referred to as pear shaped or paste tomatoes and including but not limited to San Marzano, Red Top, and Roma varieties; cerasiform type tomatoes commonly referred to as cherry tomatoes; hydroponic tomatoes; and greenhouse tomatoes. Specialty packed red ripe tomatoes, yellow meated tomatoes, and single layer and two layer place packed tomatoes are exempt from the container net weight requirements specified in paragraph (a)(3)(i) of this section, and the requirement that each container or lid shall be marked to indicate the designated net weight as specified in paragraph (a)(3)(ii) of this section, but must meet the other requirements of this section. Producer field-packed tomatoes must meet all of the requirements of this section except for the requirement that all containers must be packed at registered handler facilities as specified in paragraph (a)(3)(ii) of this section, and the requirement that such tomatoes designated as size 6 × 6 must meet the maximum diameter requirement specified in paragraph (a)(2)(i) of this section: Provided, That 6 × 6 and larger is used to indicate the listed size designation on containers.

(2) For minimum quantity. For purposes of this regulation each person subject thereto may handle up to but not to exceed 50 pounds of tomatoes per day without regard to the requirements of this regulation, but this exemption shall not apply to any shipment or any portion thereof of over 50 pounds of tomatoes.

(3) For special packed tomatoes. Tomatoes which met the inspection requirements of paragraph (a)(4) of this section which are resorted, regraded, and repacked by a handler who has been designated as a “Certified Tomato Repacker” by the committee are exempt from:

(i) The tomato grade classifications of paragraph (a)(1) of this section;

(ii) The size classifications of paragraph (a)(2) of this section, except that the tomatoes shall be at least 2-9/32 inches in diameter; and

(iii) The container weight requirements of paragraph (a)(3) of this section.

(4) For varieties. Upon recommendation of the committee, varieties of tomatoes that are elongated or otherwise misshapen due to adverse growing conditions may be exempted by the Secretary from the provisions of paragraph (a)(2) of this section.

(e) Report of packouts. Each registered handler shall, at the end of each day during which handling activities have been conducted, or the following morning as the committee may prescribe, provide to the committee or its designated agent a complete and accurate accounting of the number of containers
of tomatoes packed that day. The report shall include an accounting of the grade, size, maturity, and net weight of the containers packed in each such category. The total packout report shall be provided to the committee or its authorized agent in a timely fashion that allows the committee to compile a daily, industry-wide packout report.

(f) Assessments. Handlers shall pay assessments as provided in §966.42. Assessment will be based on inspection certificates supplied to the committee by the Federal-State Inspection Service.

Hydroponic tomatoes means tomatoes grown in solution without soil; greenhouse tomatoes means tomatoes grown indoors; specialty packed red ripe tomatoes means tomatoes which at the time of inspection are #5 or #6 color (according to color classification requirements in the U.S. tomato standards) with their calyx ends and stems attached and cell packed in a single layer container; and producer field-packed tomatoes means tomatoes which at the time of inspection are #3 color or higher (according to color classification requirements in the U.S. tomato standards), that are picked and place packed in new containers in the field by a producer as defined in §966.150 and transferred to a registered handler’s facilities for final preparation for market. A Certified Tomato Repacker is a repacker of tomatoes in the regulated area who has the facilities for handling, regrading, re-sorting, and repacking tomatoes into consumer sized packages and has been certified as such by the committee. Processing as used in §§966.120 and 966.323 means the manufacture of any tomato product which has been converted into juice, or preserved by any commercial process, including canning, dehydrating, drying, and the addition of chemical substances. Other terms in this section shall have the same meaning as when used in Marketing Agreement No. 125, as amended, and this part, and the U.S. tomato standards.

(a) There is hereby established a Florida Celery Committee consisting of 16 members, including 15 producer or handler members and one public member to administer the terms and provisions of this part. Each shall have a respective alternate who shall have the same qualifications as the member.

(b) The Secretary, upon the recommendation of the committee, may reestablish the number of producer or handler members on the committee. In recommending any such change, the committee shall give consideration to the total number of growers and handlers in the production area during the current or previous season, and other relevant factors. A change in the number of committee members can become effective at any time, provided, the effective date is more than 30 days prior to the date on which nominations are held.

§ 967.26 Eligibility.
Each member and alternate of the committee, except for the public member and alternate, shall be at the time of his selection and during his term of office, a producer or handler, or an officer or employee of a producer or handler in the group for which selected. § 967.27 Nominations.
Nominations for committee members and alternates may be made in the following manner:
(a) Growers in each group, as established in paragraph (d) or as reestablished pursuant to paragraph (g) of this section, may nominate persons for each member and alternate position in their respective group.
(b) A meeting of producers shall be held in the production area to nominate members and alternates to the committee. The incumbent committee shall hold such meeting or cause it to be held prior to July 1 of each year. Nominations thereat shall be certified to by the committee and submitted to the Secretary by July 1 of each year together with information deemed pertinent by the committee or as requested by the Secretary. If such nominations are not made in the manner specified by July 1, the Secretary may select representatives for such positions without nominations.

Agricultural Marketing Service, USDA

§ 967.36 Marketable Quantity.

(a) Whenever the committee recommends and the Secretary finds on the basis of such recommendations or other information, that limiting the total quantity of celery to be handled during a marketing season, or revising a Marketable Quantity previously established, would tend to effectuate the declared policy of the act, he shall establish the Marketable Quantity which handlers may handle as first handlers for such season, or revise a previously established Marketable Quantity.

(b) When a Marketable Quantity is established for any season, no handler may handle any harvested celery during such season unless (1) it is within...
§ 967.37

the Marketable Allotment of a producer who has a Base Quantity pursuant to §967.38, and (2) such producer authorized the first handler thereof to purchase or otherwise handle it.

§ 967.37 Base Quantities.

(a)(1) Base Quantities for producers with a history of production and order participation for the period 1965–66 through 1976–77 shall be Base Quantities in effect for the 1976–77 season, as recorded by the Florida Celery Committee on December 15, 1976, subject to modifications relating to current production and marketing experience specified in (b) through (e) of this section, or to transfers pursuant to §967.39.

(b) Periodically, but at least once each five years, the committee shall review Base Quantities and recommend any change in the formula, to be prescribed by the Secretary, for determining Base Quantities which may be deemed appropriate.

(c) The committee may recommend rules pertaining to producers who wish to obtain, hold, or transfer Base Quantities or Marketable Allotments. Such rules shall be subject to approval of the Secretary and may require producers to file reports and information with respect thereto, including but not limited to past quantities marketed in the representative period, their qualifications as producers, as well as particulars on sale and handling of celery as a result of any Base Quantities or Marketable Allotments that may be issued to them.

(d)(1) Beginning with the 1978–79 season, a reserve in the amount of six percent of the total Base Quantities shall be established annually. Such reserve shall be used for the issuance of Base Quantities to new producers and adjustments in Base Quantities for producers with existing Base Quantities, with 50 percent being made available for new producers and 50 percent available for adjustments for producers with existing Base Quantities.

(2) Base Quantities issued to new producers shall be permanent, subject to requirements of §967.37(e). Base Quantities issued to new producers shall not be transferable within three years after issuance. Any adjustments in Base Quantities issued to producers with existing Base Quantities shall be effective for one season only and a new request by such producers for adjustment in Base Quantity shall be submitted each season.

(3) The committee may recommend rules for establishing such reserve and for procedures whereby persons may apply for Base Quantities thereunder. Such rules shall be subject to approval by the Secretary. Rules may provide for open informal hearings by the committee on applicants’ requests and may establish guides or standards for equitable and thorough consideration of pertinent factors relating to each case, including but not limited to past production of celery by applicant, acreage planted, average yields, the production capacity of the farm or land the applicant expects to use, land, labor, and equipment available to applicant for celery production, economic and marketing factors, and other factors deemed pertinent.

(4) Each person filing an application hereunder for a new Base Quantity or adjustment in an established Base Quantity shall be notified by the committee of its determination thereon. Such determination and considerations appertaining thereto shall be subject to review by the Secretary. If a Base Quantity is issued to an applicant hereunder, the requirements of §967.38(c) shall then apply.

(e) A condition for the continuing validity of a Base Quantity is production of celery thereunder. If no bona fide effort is made to produce and sell celery thereunder for two consecutive seasons commencing with the 1977–78 season, the Base Quantity may be declared invalid due to lack of use and cancelled at the end of the second season of non-production. The committee shall determine criteria, subject to approval by the Secretary, as to whether a bona fide effort has been made to produce
and sell celery, including one requirement that the producer must have sold at least 50 percent of each of his seasonal Marketable Allotments, unless prevented from doing so by acts of God or other circumstances beyond his control.

(f) Annual registration of Base Quantity holders will be required no later than May 1 or such other date as may be approved pursuant to regulations. For the 1977–78 season Base Quantity holders shall register within 30 days following the effective date of this part but no later than July 31, 1977. Any Base Quantity holder who does not register or who has not made firm and substantial commitments to produce celery for the forthcoming season shall have his Base Quantity eliminated from the calculations in determining the Uniform Percentage. However, such procedure will not cause the Base Quantity holder to lose his Base Quantity.

§ 967.38 Marketable Allotments.

(a) When the Secretary establishes a season’s Marketable Quantity, a percentage shall be determined by dividing the amount fixed as the season’s Marketable Quantity by the total Base Quantities of producers who have registered with the committee pursuant to § 967.37(f).

(b) The Marketable Allotment for each producer shall be established by the committee by multiplying his Base Quantity by the appropriate Uniform Percentage. The resulting amount shall be his Marketable Allotment for a season. The committee shall notify each producer of his allotment.

(c) After a producer has been notified of his Marketable Allotment, he shall, in turn, notify the committee, on forms furnished by it, the handler or handlers who will first handle all or a portion of his Marketable Allotment for the ensuing season, as well as the number of crates each such handler will so handle. This information shall be sent by the committee to the respective handlers.

(d) If the committee recommends and the Secretary approves, that no season’s Marketable Quantity be established, the Marketable Allotment of each producer shall be unlimited.

(e) When the Marketable Quantity is equal to or smaller than total Base Quantities, the first 37,500 crates of each producer’s Base Quantity shall be subtracted from both the Marketable Quantity and total Base Quantities when the Uniform Percentage is calculated in this section (§ 967.38(a)), and the Uniform Percentage for the first 37,500 crates will be 100 percent. In the event the Marketable Quantity exceeds total Base Quantities, there shall be no exemption for the first 37,500 crates and the Uniform Percentage shall be applied to each producer’s total Base Quantity.

(f) Marketable allotments shall be issued only to producers who have registered by May 1, or such other date prescribed by the Secretary, and indicated firm and substantial commitments for the production of celery for the forthcoming season.

§ 967.39 Transfers.

(a) Producers’ Base Quantities or Marketable Allotments, or both, may be transferred upon appropriate requests therefor, pursuant to § 967.37 and upon approval of the committee.

(b) Any producer with a Base Quantity may request a transfer of all or a portion of his Base Quantity for a specified period of time.

(c) Any producer with a Marketable Allotment may request a transfer of all or a portion of his Marketable Allotment during a current season.

(d) Producers must advise the committee, prior to final approval of a transfer, that a different amount will be handled by a handler or handlers due to any transfer authorized in paragraph (c) of this section. The committee, upon receipt of such notification, shall advise the handler or handlers involved of the adjustments in the amount they may handle as first handlers thereof for the current season, based upon the number of crates involved in the transfer, as well as issue revised Marketable Allotments to the producers involved.
§ 967.40 Issuance of other regulations.

(a) The Secretary may limit the handling of celery whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulations would tend to effectuate the declared policy of the act.

(b) Such regulations may:

(1) Establish specific Flow-to-Market periods and limit the total quantity of celery which may be handled therein;

(ii) The committee may recommend and the Secretary may issue such rules as are necessary to effectuate the Flow-to-Market procedures and regulations.

(ii) The committee may recommend to the Secretary and the Secretary may limit in conformity with paragraph (a) of this section the total quantity of celery which is deemed advisable to be handled during any specified Flow-to-Market period or periods.

(iii) In making its recommendations, the committee shall give due consideration to the following factors:

(a) Market prices for celery; (b) supply of celery on hand at shipping point, on track at, and en route to, the principal markets; (c) supply, maturity, and condition of celery in the production area; (d) market prices and supplies of celery from competitive producing areas, and supplies of other competitive vegetables; (e) trend and level in consumer income; and (f) other relevant factors as specified by the committee in its recommendation.

(iv) At any time during a Flow-to-Market period for which the Secretary has fixed the quantity of celery which may be handled, the committee may recommend to the Secretary that such quantity be increased for such period. Each such recommendation, together with the committee’s reason for such recommendation, shall be submitted promptly to the Secretary.

(v) Whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that to limit the quantity of celery which may be handled during a specified Flow-to-Market period will tend to effectuate the declared policy of the Act, he shall fix such quantity. The quantity so fixed for any such period may be increased by the Secretary at any time during such period. The Secretary may upon the recommendation of the committee, or upon other available information, terminate or suspend any regulation at any time.

(vi)(a) At the times specified by the committee, each handler of celery shall submit to the committee, on forms to be supplied by the committee, a report setting forth the number of crates each producer or farm operation will make available to him for handling during the applicable period; and in the case of a farm operation, shall specify the number of total crates available which are to be attributed to each holder of a Marketable Allotment who is involved in the farm operation so that each holder of a Marketable Allotment is treated as an individual producer for the purposes of the Flow-to-Market regulation.

(b) Such written request and report shall be submitted at such time and in such manner and contain such other information as the committee may recommend and the Secretary approve.

(c) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the committee the facts considered in making the correction.

(vii)(a) Whenever the Secretary has fixed the total quantity of celery that may be handled during a regulated Flow-to-Market period, the committee shall compute under a uniform rule, for each producer entitled thereto, the quantity of celery which may be handled for or purchased from him by handlers during such period. The amount to be handled under these regulations will be in addition to that quantity of harvested celery a handler has on hand at the commencement of the specified Flow-to-Market period, as reflected in required reports approved for committee use by the Secretary.

(b) The percentage obtained by dividing the quantity of crates set by the
Secretary for such Flow-to-Market period by the total crates stated to be available by all handlers for such period shall be applied uniformly to the amount available for handling for each producer to determine the maximum number of crates that may be handled by or for him during that period: Provided, That it is within his unused Marketable Allotment pursuant to §967.38: And provided further, That until more than 37,500 crates of his production has been handled on his behalf during the current season, the handler thereof shall not have the number of crates he handles for or sells on behalf of such producer reduced by the Flow-to-Market regulation; however such handler shall be limited to 100 percent of that which was stated to be marketable in such Flow-to-Market period for that producer.

(c) For the purpose of determining compliance with Flow-to-Market limitations, a tolerance of 1 percent of an allotment holder’s allowed Flow-to-Market quantity for such period or 200 crates, whichever is less, is permitted.

(viii) Verification of compliance with allotments: During any season or Flow-to-Market period for which allotment regulations are in effect, all acreage of celery included in applications for allotments shall be subject to field checking by the committee to determine compliance with allotments. Checking procedures, methods for establishing committee determinations, means for notifying handlers and other persons of the extent to which allotments have been used shall be in accordance with rules recommended by the committee and approved by the Secretary.

(2) Establish total holidays by limiting the handling of harvested celery during a specified period or periods. The amount to be handled under these regulations will be that quantity of harvested celery a handler has on hand at the commencement of the holiday, as reflected in required reports approved for committee use by the Secretary;

(3) Limit in any or all portions of the production area the handling of particular grades, sizes, qualities, or celery differently, for different varieties, for different portions of the production area, for different markets, for different sizes and types of containers, or for any combination of the foregoing, during any period;

(4) Limit the handling of celery when parity prices have been reached by establishing and maintaining minimum standards of quality and maturity in terms of grades or sizes;

(b) The committee shall recommend to the Secretary, with its considerations and judgments thereon, the amount, if any, of harvested celery, in terms of crates, which should be established in a reserve for Base Quantities for the ensuing season. Such reserve may be calculated as a percentage of the total Marketable Quantity for a season or the then current Base Quantities, or shipments for a previous season or the average of shipments for two or more seasons, or on other similar basis to be determined by the committee with the Secretary’s approval.

(c) The reserve, if any, for a particular season shall, for any season after the initial season, be established by the Secretary, pursuant to the committee recommendations or other available information, no later than the date of the establishment of Marketable Quantity.

(d) Applicants for Base Quantities or increases of Base Quantities, who have registered under § 967.151(a), may apply to the committee for a portion of such reserve within such time and on forms prescribed by it. The committee shall consider each application in accordance with § 967.151(b) and the amount of celery needed to meet the Marketable Quantity or revised Marketable Quantity for the season, the historical supply available, and the decline or increase in volume of celery production by other producers; and, if approved thereunder, determine the Base Quantity for each such applicant.

(e) Any balance of the reserve which has not been distributed during a current season shall not carry forward into the following season.

(c) Any producer who transferred, with approval of the committee, all or a portion of his Base Quantity for a specified period of time prior to the commencement of the 1974–75 season shall have the transferred Base Quantity reissued to him upon the expiration date of such transfer.

Three members shall be handlers from District No. 1.

(d) The public member and alternate shall be a resident of the production area and be neither a grower nor a handler and shall have no direct financial interest in the commercial production, financing, buying, packing or marketing of melons, except as a consumer, nor shall such person be a director, officer or employee of any firm so engaged.

PART 980—VEGETABLES; IMPORT REGULATIONS

Sec.

980.1 Import regulations; Irish potatoes.

980.117 Import regulations; onions.

980.212 Import regulations; tomatoes.

980.501 Safeguard procedures for potatoes, onions, and tomatoes exempt from grade, size, quality, and maturity requirements.
§ 980.1 Import regulations; Irish potatoes.

(a) Findings and determinations with respect to imports of Irish potatoes. (1) Pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby found that:

(i) Grade, size, quality, and maturity regulations have been issued from time to time pursuant to the following marketing orders: No. 949 (part 949 of this chapter), No. 945 (part 945 of this chapter), No. 948 (part 948 of this chapter), No. 947 (part 947 of this chapter), No. 950 (part 950 of this chapter), No. 946 (part 946 of this chapter), and No. 953 (part 953 of this chapter);

(ii) During the past several years, grade, size, quality, and maturity regulations have been in effect pursuant to two or more of such orders during each month of the year;

(iii) The marketing of Irish potatoes can be reasonably distinguished by the several seasonal categories, i.e., winter, early spring, late spring, early summer, late summer, and fall. The bulk of the fall crop is harvested and placed in storage in the fall and marketed over a period of several months extending into the following summer. But potatoes harvested from the other seasonal crops are generally marketed as the potatoes are harvested. The marketing seasons for these crops overlap.

(iv) Concurrent grade, size, quality, and maturity regulations under two or more of the aforesaid marketing orders are expected in the ensuing and future seasons, as in the past.

(2) Therefore it is hereby determined that:

(i) Imports of red-skinned, round type potatoes during the months of October through the following June are in most direct competition with the marketing of the same type potatoes produced in Area No. 2, Colorado (San Luis Valley) covered by Marketing Order No. 948, as amended (part 948 of this chapter); and during the period August 1 through June 4 of the following year they are in most direct competition with all other round type potatoes produced in Area No. 3, Colorado (Northern Colorado) covered by Marketing Order No. 948, as amended (part 948 of this chapter): Provided, That for the period March 6 through June 14, 1968, imports of all other round type potatoes are in most direct competition with the marketing of the same type potatoes produced in the State of Maine covered by Order No. 950 (part 950 of this chapter): Provided further, That for the period June 1 through June 4, 1970, imports of all other round type potatoes are in most direct competition with the marketing of the same type potatoes produced in the Southeastern States covered by Order No. 953 (part 953 of this chapter): Provided further, That for the period June 1 through June 4, 1971, imports of all other round type potatoes are in most direct competition with the marketing of the same type potatoes produced in the Southeastern States covered by Order No. 953 (part 953 of this chapter).

(ii) Imports of long type potatoes during each month of the marketing year are in most direct competition with potatoes of the same type produced in the area covered by Order No. 945 (part 945 of this chapter).

(b) Grade, size, quality, and maturity requirements. On and after the effective date hereof importation of Irish potatoes, except certified seed potatoes, shall be prohibited unless they comply with the following requirements:

(1) For the period October 1 through the following June of each marketing year, the grade, size, quality, and maturity requirements of Area No. 2, Colorado (San Luis Valley) covered by Marketing Order No. 948, as amended (part 948 of this chapter) applicable to potatoes of the red-skinned round type; and from July 1 through September 30...
§ 980.1  

Each marketing year the grade, size, quality, and maturity requirements of Marketing Order No. 946 (part 946 of this chapter) shall be the respective grade, size, quality, and maturity requirements for imported red-skinned round type potatoes, except there shall be no size requirements for imported red-skinned round type of potatoes that are imported in containers containing a net weight of 3 pounds or less, if the potatoes are U.S. No.1 grade or better.

(2) During the period June 5 through July 31 of each marketing year, the grade, size, quality, and maturity requirements of Marketing Order No. 953 (part 953 of this chapter) applicable to potatoes of the round type shall be the respective grade, size, quality, and maturity requirements for imports of other round type potatoes; and during the period August 1 through the following June 4 of each year the grade, size, quality, and maturity requirements of Area No. 3, Colorado (northern Colorado) covered by Marketing Order No. 948, as amended (part 948 of this chapter) shall be the respective grade, size, quality, and maturity requirements for imports of all other round type potatoes. Provided, That for the period March 6 through June 14, 1968, the grade, size, quality, and maturity requirements of Marketing Order No. 950, as amended (part 950 of this chapter) applicable to potatoes of the round type shall be the respective grade, size, quality, and maturity for imports of other round type potatoes: Provided further, That for the period June 1 through June 4, 1970, the grade, size, quality, and maturity requirements of Marketing Order No. 953, as amended (part 953 of this chapter) applicable to potatoes of the round type shall be the respective grade, size, quality, and maturity for imports of other round type potatoes: Provided further, That for the period June 1 through 4, 1971, the grade, size, quality, and maturity requirements of Marketing Order No. 953, as amended (part 953 of this chapter) applicable to potatoes of the round types shall be the respective grade, size, quality, and maturity for imports of other round type potatoes.

(3) Through the entire year the grade, size, quality, and maturity requirements of Marketing Order 945, as amended (part 945 of this chapter) applicable to potatoes of all long types shall be the respective grade, size, quality, and maturity requirements for imported potatoes of all long types.

(4) The grade, size, quality, and maturity requirements as provided for in this paragraph shall apply to imports of similar types of potatoes, unless otherwise ordered, on and after the effective date of the applicable domestic regulation or amendment thereto, as provided in this paragraph or 3 days following publication of such regulation or amendment in the Federal Register, whichever is later.

(c) Minimum quantities. Any importation which, in the aggregate, does not exceed 500 pounds may be imported without regard to the provisions of this section.

(d) Plant quarantine. No provisions of this section shall supersede the restrictions or prohibitions of potatoes under the Plant Quarantine Act of 1912.

(e) Certified seed. Certified seed potatoes shall include only those potatoes which are officially certified and tagged as seed potatoes by the Plant Health Directorate, Food Production and Inspection Branch, Agriculture Canada, and which are subsequently used as seed.

(f) Designation of governmental inspection services. The Federal or Federal-State Inspection Service, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are hereby designated as governmental inspection services for the purpose of certifying the grade, size, quality, and maturity of Irish potatoes that are imported, or to be imported, into the United States under the provisions of section 8e of the Act.

(g) Inspection and official inspection certificates. An official inspection certificate certifying the potatoes meet the United States import requirements for Irish potatoes under section 8e (7

540
§ 980.1

U.S.C. 608e) issued by a designated governmental inspection service applicable to a particular shipment of potatoes is required on all imports of potatoes other than certified seed.

1(i) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables, and other products (part 51 of this title), and each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

1(ii) Since inspectors may not be stationed in the immediate vicinity of a port, or point of entry, an importer of uninspected and uncertified Irish potatoes should make advance arrangements for inspection. Each importer should give at least the specified advance notice to one of the following applicable inspection offices prior to the time the Irish potatoes would be imported.

1(3) Inspection certificates shall cover only the quantity of potatoes that is being imported at a particular port of entry by particular importers.

1(4) Each inspection certificate issued with respect to any Irish potatoes to be imported into the United States shall set forth, among other things:

1(i) The date and place of inspection;
1(ii) The name of the shipper, or applicant;

1(1) Definitions. (i) For the purpose of this part potatoes meeting the requirements of Canada No. 1 grade and Canada No. 2 grade shall be deemed to comply with the requirements of the U.S. No. 1 grade and U.S. No. 2 grade, respectively, and the tolerances for size, as set forth in the U.S. Standards for Potatoes (§§51.1540 to 51.1556, inclusive of this title) may be used.

1(2) Importation means release from custody of the U.S. Bureau of Customs.

1(i) Exemptions. The grade, size, quality and maturity requirements of this section shall not be applicable to potatoes imported for canning, freezing, other processing, livestock feed, charity, or relief, but such potatoes shall be...
subject to the safeguard provisions contained in §980.501. Processing includes canning, freezing, dehydration, chips, shoestrings, starch and flour. Processing does not include potatoes that are only peeled, or cooled, sliced, diced, or treated to prevent oxidation, or made into fresh potato salad.

§980.117 Import regulations; onions.

(a) Findings and determinations with respect to onions. (1) Under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby found that:

(i) Grade, size, quality, and maturity regulations have been issued regularly under Marketing Orders No. 958 and 959, both as amended;

(ii) Since December 9, 1985, grade, size, quality, and maturity regulations have been in effect pursuant to these orders during the period August through July;

(iii) The marketing of onions can be reasonably distinguished by the seasonal categories, i.e., late summer and early spring. The bulk of the late summer crop is harvested and placed in storage in late summer and early fall and marketed over a period of several months extending into the following spring. But the onions harvested from the early spring crop are generally marketed as soon as the onions are harvested. The marketing seasons for these crops overlap;

(iv) Concurrent grade, size, quality, and maturity regulations under the two marketing orders are expected in future seasons, as in the past.

(2) Therefore, it is hereby determined that: Imports of onions during the June 5 through March 9 period are in most direct competition with the marketing of onions produced in designated counties of Idaho and Malheur County, Oregon, covered by Marketing Order No. 958, as amended (7 CFR part 958), and during the March 10 through June 4 period the marketing of imported onions is in most direct competition with onions produced in designated counties in South Texas covered by Marketing Order No. 959, as amended (7 CFR part 959).

(b) Grade, size, quality, and maturity requirements. On and after the effective date hereof no person may import onions as defined herein unless they are inspected and meet the following requirements:

(1) During the period June 5 through March 9 of each marketing year, whenever onions grown in designated counties in Idaho and Malheur County, Oregon, are regulated under Marketing Order No. 958, imported onions shall comply with the grade, size, quality, and maturity requirements imposed under that order.

(2) During the period March 10 through June 4 of each marketing year, whenever onions grown in designated counties in South Texas are regulated under Marketing Order No. 959, imported onions shall comply with the grade, size, quality, and maturity requirements imposed under that order.

(c) Minimum quantity exemption. Any importation which in the aggregate does not exceed 110 pounds (50 kilograms) may be imported without regard to the provisions of this section.

(d) Plant quarantine. Provisions of this section shall not supersede the restrictions or prohibitions on onions under the Plant Quarantine Act of 1912.

(e) Designation of governmental inspection service. The Federal or the Federal-State Inspection Service, Food Safety and Quality Service, U.S. Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality, and maturity of onions that are imported into the United States under the provisions of section 8e of the act.

(f) Inspection and official inspection certificates. (1) An official inspection certificate certifying the onions meet the U.S. import requirements for onions under section 8e (7 U.S.C. 608e–1), issued by a designated governmental inspection service and applicable to a specified lot is required on all imports of onions.

§ 980.117

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (7 CFR part 2851). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the onions will be imported.

(ii) The marketing of fresh tomatoes from Florida covered by Marketing Order No. 966, as amended, can reasonably be expected to occur during the months of October through June;

(2) Therefore, it is hereby determined that imports of fresh tomatoes during the months of October through June are in most direct competition with the marketing of fresh tomatoes produced in Florida covered by Marketing Order No. 966, as amended.

(b) Grade, size, quality and maturity requirements. On and after the effective date hereof no person may import fresh tomatoes except pear shaped, cherry, hydroponic and greenhouse tomatoes as defined herein, or tomatoes to be used in noncommercial outlets for experimental purposes, unless they are inspected and meet the following requirements:

(e) Designation of Governmental inspection service. The Federal or the Federal-State Inspection Service, Food Safety
and Quality Service, United States Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality and maturity of tomatoes that are imported into the United States under the provisions of Section 8e of the act.

(f) Inspection and official inspection certificates. (1) An official inspection certificate certifying the tomatoes meet the United States import requirements for tomatoes under Section 8e (7 U.S.C. 608e–1), issued by a designated governmental inspection service and applicable to a specified lot is required on all imports of fresh tomatoes.

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (7 CFR part 2851). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since the inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the tomatoes will be imported.

(4) Inspection certificates shall cover only the quantity of tomatoes that is being imported at a particular port of entry by a particular importer.

(5) Each inspection certificate issued with respect to any tomatoes to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper, or applicant;

(iii) The commodity inspected;

(iv) The quantity of the commodity covered by the certificate;

(v) The principal identifying marks on the containers;

(vi) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(vii) The following statement, if the facts warrant: Meets import requirements of 7 U.S.C. 608e–1.

(g) Reconditioning prior to importation. Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation.
any shipment of tomatoes for the purpose of making it eligible for importation.

(h) Definitions. For the purpose of this section, Importation means release from custody of the United States Bureau of Customs. Cherry tomatoes means cerasiform types commonly referred to as "cherry tomatoes." Pear shaped tomatoes means elongated types, commonly referred to as pear shaped or paste tomatoes and include San Marzano, Red Top and Roma varieties. Hydroponic tomatoes means tomatoes grown in solution without soil. Greenhouse tomatoes means tomatoes grown indoors. The terms relating to grade and size, as used herein, shall have the same meaning as when used in the U.S. Standards for Grades of Fresh Tomatoes (7 CFR 2851.1855 to 2851.1877; title 7, chapter I, part 51 was redesignated title 7, chapter 28, part 2851 on June 27, 1977).

(i) Exemptions. The grade, size, quality and maturity requirements of this section shall not apply to tomatoes for charity, relief, canning or pickling, but such tomatoes shall be subject to the safeguard provisions contained in §980.501. Processing includes canning and pickling.

§980.501 Safeguard procedures for potatoes, onions, and tomatoes exempt from grade, size, quality, and maturity requirements.

(a) Each person who imports:

(1) Potatoes, onions or tomatoes for consumption by charitable institutions or by distribution by relief agencies;

(2) Potatoes, onions, or tomatoes for processing;

(3) Potatoes or onions for livestock feed; or

(4) Pearl onions, shall obtain an "Importer’s Exempt Commodity Form" (FV-6) from the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA and shall show the completed "Importer’s Exempt Commodity Form" to the U.S. Customs Service Regional Director or District Director, as applicable, at the port at which the customs entry is filed. One copy shall be mailed to the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA with a postmark no later than two days after the date of importation and a third copy shall accompany the lot to the exempt outlet specified on the form. Any lot offered for inspection and, all or a portion thereof, subsequently imported as exempt under this provision shall be reported on an "Importer’s Exempt Commodity Form" and such form, accompanied by a copy of the applicable inspection certificate, shall be mailed to the Marketing Order Administration Branch.

(b) Each person who receives an exempt commodity for the purposes specified in paragraph (a) of this section shall also receive a copy of the same numbered Importer’s Exempt Commodity Form filed by the importer or customs broker and shall certify, by completing and signing Section II of the form and mailing the form to the Marketing Order Administration Branch within two days of receipt of the exempt lot, that such lot has been received and will be utilized in the exempt outlet.

(c) It is the responsibility of the importer to notify the Marketing Order Administration Branch of any lot of exempt commodity rejected by a receiver, shipped to an alternative exempt receiver, returned to the country of origin, or otherwise disposed of. In such cases, a second "Importer’s Exempt Commodity Form" must be filed by the importer providing sufficient information to determine ultimate disposition of the exempt lot and such disposition shall be so certified by the final receiver.

(d) All FV-6 forms and other correspondence regarding entry of 8e commodities must be mailed to the Marketing Order Administration Branch, USDA, AMS, P.O. Box 96456, room 2523–S, Washington, D.C. 20090–6456, telephone (202) 720–4907. FV-6 forms submitted by fax must be followed by a mailed, original copy of the FV-6. Agricultural Marketing Service, USDA

§ 981.41 Research and development.

(a) General. The Board, with the approval of the Secretary, may establish or provide for the establishment of projects involving production research, marketing research and development projects, and marketing promotion including paid advertising and crediting the pro rata expense assessment obligations of handlers with such portion of their direct expenditures for marketing promotion including paid advertising, shall require at least seven affirmative votes.

(c) Creditable expenditures. The Board, with the approval of the Secretary, may provide for crediting all or any portion of a handler's direct expenditures for marketing promotion including paid advertising, that promotes the sale of almonds, almond products or their uses. No handler shall receive credit for any allowable direct expenditures that would exceed the total of his assessment obligation which is attributable to that portion of his assessment designated for marketing promotion including paid advertising. Such expenditures may include, but are not limited to, money spent for advertising space or time in newspaper, magazines, radio, television, transit, and outdoor media, including the actual standard agency commission costs not to exceed 15 percent.

(d) Promotion guidelines. All marketing promotion activity engaged in by the Board, including paid advertising, shall be subject to the following terms and conditions:

4. Upon conclusion of each activity, but at least annually, the Board shall summarize and report the results of such activity to its members and to the Secretary.

(e) Rules and regulations. Before any project involving marketing promotion, including paid advertising and the crediting of the pro rata expense assessment obligation of handlers is
undertaken pursuant to this section, the Secretary, after recommendation by the Board, shall prescribe appropriate rules and regulations as are necessary to effectively regulate such activity.

QUALITY CONTROL

§ 981.42 Quality control.

(a) Incoming. Except as provided in this paragraph, each handler shall cause to be determined, through the inspection agency, and at handler expense, the percent of inedible kernels in each variety received by him and shall report the determination to the Board. The quantity of inedible kernels in each variety in excess of two percent of the kernel weight received, shall constitute a weight obligation to be accumulated in the course of processing and shall be delivered to the Board, or Board accepted crushers, feed manufacturers, or feeders. The Board, with the approval of the Secretary, may change this percentage for any crop year, may authorize additional outlets, may exempt bleaching stock from inedible kernel determination or obligation and may establish rules and regulations necessary and incidental to the administration of this provision, including the method of determining inedible kernel content and satisfaction of the disposition obligation. The Board for good cause may waive portions of obligations for those handlers not generating inedible material from such sources as blanching or manufacturing.

(b) Outgoing. For any crop year the Board may establish, with the approval of the Secretary, such minimum quality and inspection requirements applicable to almonds to be handled or to be processed into manufactured products, as will contribute to orderly marketing or be in the public interest. In such crop year, no handler shall handle or process almonds into manufactured items or products unless they meet the applicable requirements as evidenced by certification acceptable to the Board. The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this provision.

[41 FR 26853, June 30, 1976, as amended at 41 FR 53651, Dec. 8, 1976]

VOLUME REGULATION

§ 981.45 General.

In order to effectuate the declared policy of the act, no handler shall handle almonds except in accordance with the terms and conditions of this part.

§ 981.46 Withholding reserve.

When a reserve percentage has been fixed for any crop year, as hereinafter provided, no handler shall handle almonds except on condition that he comply with the requirements in respect to withholding reserve almonds and the prescribed disposition thereof.

§ 981.47 Method of establishing salable and reserve percentages.

Whenever the Secretary finds, from the recommendations and supporting information supplied by the Board or from any other available information, that to designate the percentages of almonds during any crop year which shall be salable almonds and reserve almonds would tend to effectuate the declared policy of the act, he shall designate such percentages. Except as provided in §981.50 the salable and reserve percentages shall each be applied to the kernel weight of almonds received by a handler for his own account during the crop year. In establishing such salable and reserve percentages, the Secretary shall give consideration to the ratio of estimated trade demand (domestic plus export, less the handler carryover available to satisfy trade demand plus the desirable handler carryover at the end of the crop year) to the estimated production of marketable almonds (all expressed in terms of kernel weight) or the allocation quantity (marketable production plus almonds diverted to oil or feed when eligible for reserve satisfaction) whichever is applicable; the recommendation submitted to him by the Board; and such
other information as he deems appropriate. The total of the salable and reserve percentages established each crop year shall equal 100 percent.

[41 FR 26853, June 30, 1976, as amended at 61 FR 32921, June 26, 1996]

§ 981.48 Increase of salable percentage.

Upon request filed prior to May 15 by the Board or, if the Board should fail to request, by two or more handlers who have handled at least 15 percent of all almonds handled in the preceding crop year, and after findings of fact (based upon a revision of the estimates required under §981.49 and other pertinent information) that the quantity of salable almonds is not sufficient to satisfy trade demand and desirable carryover requirements for the crop year, the Secretary may increase the salable percentage. Such findings shall be made in the manner specified in §981.47.

§ 981.49 Board estimates and recommendations.

To aid the Secretary in fixing the salable and reserve percentages, the Board shall furnish to the Secretary, not later than August 1, the following estimates (kernel weight basis) and recommendations for the crop year, each of which, or any later revisions thereof, shall be adopted by the affirmative vote of at least six members:

(a) The quantity of marketable almonds to be produced;
(b) The estimated handler carryover and the estimated reserve inventory as of July 31;
(c) The desirable handler carryover and the probable reserve inventory at the end of the crop year;
(d) The trade demand, taking into consideration anticipated imports, economic conditions and the anticipated market price (within the limitations of the act); and
(e) The recommended salable and reserve percentages to be established.

The Board shall also furnish to the Secretary a complete report of the proceedings of the Board meeting at which the recommended salable and reserve percentages were considered. If, for any reason, the Board fails to make these estimates or to recommend to the Secretary salable and reserve percentages as required hereby, reports representing the views of members with respect to such matters may be submitted to the Secretary who may act on the basis of such reports or other information available to him.

§ 981.50 Reserve obligation.

Whenever salable and reserve percentages are in effect for a crop year, each handler shall withhold from handling a quantity of almonds having a kernel weight equal to the reserve percentage of the kernel weight of all almonds such handler receives for his own account during the crop year; Provided, That, any quantity of almonds delivered to outlets such as poultry or animal feed or crushing into oil, in a manner permitting accountability to the Board, shall not be included in such receipts. The quantity of almonds hereby required to be withheld from handling shall constitute, and may be referred to as the "reserve" or "reserve obligation" of a handler. The almonds handled as salable almonds by any handler, in accordance with the provisions of this part, shall be deemed to be that handler’s quota fixed by the Secretary within the meaning of section 8a(5) of the act.

[41 FR 26853, June 30, 1976]

§ 981.51 Requirements for reserve.

Each handler may satisfy his reserve obligation with such almonds specified in the terms of the agency agreement authorized in §981.67, including all applicable inspection and certification requirements. Any handler who does not become an agent may receive credit by similarly delivering almonds to the Board or its designees. These requirements may be established by the Board, with the approval of the Secretary, and from time to time so modified, and may include grade requirements for reserve almonds delivered to human consumption outlets.

§ 981.52 Holding requirement and delivery.

Each handler shall, at all times, hold in his possession or under his control, in proper storage for the account of the Board, the quantity of almonds necessary to meet his reserve obligation less: (a) Any quantity which was disposed of by him pursuant to § 981.67; and (b) any quantity for which he is otherwise relieved by the Board of responsibility to so hold almonds. Upon demand of the Board reserve almonds shall be delivered to the Board f.o.b. handler’s warehouse or point of storage, except that the Board shall not make such demand upon a handler with respect to reserve almonds for which he has agreed to undertake disposition pursuant to § 981.67. Any handler who does not act as agent for the Board in the disposition of reserve almonds shall be subject to the applicable inspection and certification requirements prescribed by the Board pursuant to § 981.67.

[41 FR 26853, June 30, 1976]

§ 981.54 Payment to handlers for services rendered.

The Board may pay handlers for necessary services rendered by them in connection with almonds eventually disposed of directly by the Board as reserve including but not limited to storing, shelling, sorting, bleaching, grading, packaging, fumigating, and other services in accordance with such schedule of payments and under such conditions as may be established by the Secretary after recommendation of the Board.

§ 981.55 Interhandler transfers.

(a) Any handler may, upon notice to and under the supervision and direction of the Board, transfer almonds or reserve credits to another handler. Any such transfers shall be accounted for in such manner that the reserve obligation and assessments on the combined transactions of the participating handlers shall be fully met and such reserve withholding obligation and assessments may be divided between such handlers in accordance with their arrangements subject to approval of the Board.

(b) When salable and reserve percentages are in effect, any handler may transfer reserve withholding obligation to other handlers. Terms and conditions implementing this provision must be recommended by the Board and approved by the Secretary.

§ 981.56 Assistance of Board in accounting for reserve.

The Board, on written request, may assist handlers in accounting for their reserve obligations and may aid any handler in acquiring almonds to meet any deficiency in his reserve.

§ 981.57 Application of salable and reserve percentages after end of crop year.

The salable and reserve percentages established for any crop year shall continue in effect with respect to all almonds for which the reserve obligation has not been previously met, which are received for his own account or handled during that crop year shall be adjusted to the newly established percentages.

§ 981.59 Adjustment upon increase of salable percentage.

(a) Upon any increase in the salable percentage and corresponding decrease in the reserve percentage, the reserve obligation of each handler for the entire crop year to the effective date of such action shall be computed in accordance with such revised salable and reserve percentages. From the reserve almonds that may have been withheld by him and not yet disposed of, any handler authorized to act and acting as agent of the Board in disposing of reserve pursuant to § 981.66 shall be permitted to select, under the supervision and direction of the Control Board, the particular reserve almonds to be restored to his salable percentage, and
§ 981.66 Conditions governing disposition of reserve.

(a) General. The Board shall have power and authority to sell or dispose of any and all reserve almonds withheld upon the best terms and at the highest return obtainable consistent with the ultimate complete disposition of reserve, subject to all conditions of this section.

(b) Exclusion from salable normal trade channels. No reserve almonds shall be

§ 981.65 Prohibition on the use or disposition of reserve almonds.

Except as provided in §§ 981.66 and 981.67, almonds that are withheld as reserve pursuant to the requirements of § 981.50 or are creditable in satisfaction of a reserve withholding obligation thereunder, shall not be used or disposed of by any handler or any other person.

§ 981.60 Determination of kernel weight.

(a) Almonds for which settlement is made on kernel weight. All lots of almonds, whether shelled or unshelled, for which settlement is made on the basis of kernel weight shall be included in the total kernel weight for any handler at the settlement weight.

(b) Almonds for which settlement is made on unshelled weight. The settlement weight for unshelled almonds shall be determined on the basis of representative samples of unshelled almonds reduced to shelled weight.

sold in the United States, Puerto Rico, and the Canal Zone other than to governmental agencies or to charitable institutions for charitable purposes, except for diversion into almond oil, almond butter, poultry or animal feed, or into other channels which the Board finds are noncompetitive with existing normal markets for almonds, and with proper safeguards in each case to prevent such almonds thereafter entering the channels of trade in such normal markets.

(c) Disposition after December 31. Any reserve almonds remaining unsold as of December 31 shall be disposed of by the Board as soon as practicable through the most readily available reserve outlets. The date of December 31 herein specified may be extended to a later date by the Secretary, upon recommendation of the Board or other information.

(d) Expenses. Direct expenses incurred by the Board in the maintenance and disposition of reserve almonds shall be charged against the proceeds of sales of such almonds.

(e) Distribution of proceeds. Net proceeds from the disposition of reserve almonds by the Board shall be distributed to each handler in proportion to his relative share of such disposition in terms of creditable reserve kernel weight pursuant to §981.51 or such other basis as the Board may adopt with the approval of the Secretary.

§981.67 Disposition by handler.

Upon request of a handler, made prior to the delivery by him of any reserve to the Board in any crop year, the Board shall authorize such handler to act as agent of the Board, upon such reasonable terms and conditions, including inspection and certification requirements, as the Board may specify and subject to the conditions of §981.66 in disposing of the reserve withheld from handling by such handler for that crop year. Any handler who is authorized to dispose of his reserve may, through arrangement with another handler dispose of such reserve through such other handler or, in lieu of disposition, may acquire credits for reserve disposition from another handler. In the first instance, the second handler shall also be subject to the conditions of §981.66. It shall be the obligation of any handler authorized to dispose of such reserve to effect disposition thereof in accordance with all applicable requirements and conditions. The proceeds of such disposition shall be retained by the handler making the disposition, except that, in case he disposes of the reserve of another handler, the proceeds from that disposition shall be divided between the two handlers on the basis of a mutual agreement. Such authorization shall expire as of December 31 of the next crop year, and any reserve then remaining undisposed of by the handler shall be returned to the Board. If the date of December 31 specified in §981.66(e) is extended, the date of December 31 shall be extended correspondingly. Any handler who has been authorized to act as agent of the Board in disposing of his reserve may terminate such agency as of April 1 of the particular crop year by giving written notice to the Board to that effect not later than the previous March 20, in which event such handler shall return to the Board, for disposition by it, all reserve almonds remaining in his possession. In case a handler does not terminate his agency as of April 1, he shall be required to continue to serve as such agent until December 31 of the next crop year. The Board shall not terminate such an agency prior to December 31 unless the agent violates the terms and conditions specified by the Board or other provisions of the order. During the period of such agency the Board, as principal, shall not dispose of the reserve withheld from handling by said agent. The Board, with the approval of the Secretary may prescribe such rules and regulations as are necessary to regulate disposition of reserve almonds including methods for crediting as reserve any salable almonds sold and delivered to reserve outlets.

§ 981.70 Records and verification.

Each handler shall keep records which will clearly show the details of his or her receipts of almonds, withholdings, sales, shipments, inventories, reserve disposition, advertising and promotion activities, as well as other pertinent information regarding his or her operation pursuant to the provisions of this part: Provided, that, such records shall be kept in the State of California. Such records shall be retained by the handler for 2 years after the end of the crop year to which they apply. Each handler's premises shall be accessible to authorized representatives of the Board and the Secretary for examination and audit of the aforesaid records and for inspection and observation of almonds. The Board shall make such checks of almonds or audits of each handler's records as it deems appropriate or are requested by the Secretary to insure that accurate information as required in this part is being furnished by handlers.

(EFFECTIVE DATE NOTE: At 40 FR 4416, Jan. 30, 1975, § 981.71 was suspended indefinitely.)

§ 981.71 Record of receipts.

For the purpose of establishing the reserve obligation and furnishing statistical information to the Board necessary for the conduct of its operations, each handler, on receiving almonds for his own account, shall issue to the person from whom so received a receipt therefor. At least two duplicates thereof shall be made at the time of issuance, one of which shall be retained by the handler as a part of his records and the other submitted to the Board as hereinafter provided. Such receipts shall be serially numbered and shall accurately show for each lot received, the identity of the handler, the name and address of the person from whom received, the number of containers in the lot, the variety, whether shelled or unshelled, and the settlement weight for each such variety. The character and amount of all adjustments deducted from the gross weight shall be shown with the gross weight on the receipt issued by the handler.

(EFFECTIVE DATE NOTE: At 40 FR 4416, Jan. 30, 1975, in § 981.72, the second sentence was suspended indefinitely.)

§ 981.72 Reports of receipts.

Each handler receiving almonds for his own account shall tabulate such receipts by varieties and shall submit reports thereof to the Board in such form and at such intervals as the Board may prescribe for all receipts issued by him. Such reports shall be accompanied by duplicate copies of the receipts issued pursuant to the provisions of § 981.71 for all almonds included in such report. The Board, after checking such reports in such manner as it deems desirable, shall determine in the manner specified in § 981.60 the kernel weight of the almonds so received.

(EFFECTIVE DATE NOTE: At 40 FR 4416, Jan. 30, 1975, in § 981.72, the second sentence was suspended indefinitely.)

§ 981.73 Periodic reports.

On or before January 15, and April 15, and August 15 of each crop year, each handler shall file with the Board a written report, certified to the Board and to the Secretary by such handler as to its completeness and correctness, showing as of the close of business on December 31, March 31, and July 31, respectively, such information as may be prescribed by the Board for use in redetermination of kernel weight and marketing policy considerations.

(EFFECTIVE DATE NOTE: At 40 FR 4416, Jan. 30, 1975, in § 981.73, the second sentence was suspended indefinitely.)

§ 981.74 Other reports.

Upon the request of the Board, made with the approval of the Secretary, every handler shall furnish to the Board in such manner and at such times as it prescribes (in addition to such other reports as are specifically provided for in this part) such other information as will enable the Board to perform its duties and exercise its powers hereunder.

§ 981.75 Confidential nature of records and reports.

All information contained in handler records made available to the Board or the Secretary, or in reports to the Board, constituting a trade secret or disclosing the trade position, financial condition, or business operations of
any handler shall be considered as confidential information. Such information received by the Board, shall be kept in the custody and under the control of one or more employees of the Board, who shall disclose such information to no person except the Secretary.

§981.76 Handler list of growers.

No later than December 31 of each crop year, each handler other than a cooperative handler (hereinafter, referred to as independent handler) governed by this subpart shall, upon request, submit to the Board a complete list of growers who have delivered almonds to such independent handler during that crop year.

§981.80 Expenses.

The Board is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during each crop year, for the maintenance and functioning of the Board, including the accumulation and maintenance of an operating reserve fund, and for such purposes as the Secretary may, pursuant to the provisions of this subpart, determine to be appropriate. The recommendation of the Board as to the expenses for each such year, together with all data supporting such recommendation, shall be submitted to the Secretary on or before August 1 of the crop year in connection with which such recommendation is made.

§981.81 Assessment.

(a) Requirement for payment. Each handler shall pay to the Board on demand by the Board, from time to time, such sum less any amounts credited pursuant to §981.41, based on such rate per pound of almonds, kernel weight basis, received by him for his own account (except as to receipts from other handlers on which assessments have been paid) as the Secretary finds is necessary to provide funds to meet the authorized board expenses and the operating reserve requirements, and establishes for the crop year. Upon redetermination of the kernel weight of almonds received by handlers for their own account as provided in §981.61, such redetermined kernel weight for each handler, adjusted for receipts on which assessments have been paid, shall be the basis upon which he shall pay assessments. At any time during or after a crop year, the Secretary may increase the rate of assessments to apply to all such almonds during such crop year to secure sufficient funds to cover the expenses authorized by §981.80 or by any later finding by the Secretary relative to the expenses of the Board, and such additional assessments shall be paid to the Board by each handler on demand. The payment of assessments for the maintenance and functioning of the Board may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) Refunds. Any money collected as assessments for either the administrative (maintenance and functioning) or research activities of the Board and not used for the expenses of the applicable crop year, may be used in paying the Board’s expenses of the first four months of the succeeding crop year. No later than the fifth month the amount not expended from assessments collected for administrative-research in the previous crop year shall be retained in the operating reserve fund. Any amounts, not credited pursuant to §981.41 for a crop year may be used by the Board for its marketing promotion expenses of the succeeding crop year, and any unexpended portion of those amounts at the end of that crop year shall be retained in the marketing promotion portion of the operating reserve fund. Any funds in each portion of the operating reserve fund in excess of the level authorized pursuant to paragraph (c) of this section shall be refunded to handlers or used to reduce the assessment rate of the subsequent crop year, as the Board may determine. Each handler’s share of a refund shall be the amount by which his payment of assessments exceeds his pro rata share of the two major classifications of Board expenses. For the purpose of computing

Subpart—Administrative Rules and Regulations

§ 981.401 Adjusted kernel weight.

(a) Definition. Adjusted kernel weight shall mean the actual gross weight of any lot of almonds: Less weight of containers; less moisture of kernels in excess of five percent; less shells, if applicable; less processing loss of one percent for deliveries with less than 95 percent kernels; less trash or other foreign material. The adjusted kernel weight shall be determined by sampling certified by the inspection agency.

(b) Computation. The computation of adjusted kernel weight shall be in the manner shown in the following examples. The examples are based on the analysis of a 1,000 gram sample taken from a lot of almonds weighing 10,000 pounds with less than 95 percent kernels, and a 1,000 gram sample taken from a lot of almonds weighing 10,000 pounds with 95 percent or more kernels. The first computation example is for the lot with less than 95 percent kernels containing the following: Edible kernels, 530 grams; inedible kernels, 120 grams; foreign material, 350 grams, and moisture content of kernels, seven percent. Excess moisture is two percent. The second computation example is for the lot with 95 percent or more kernels containing the following: Edible kernels, 840 grams; inedible kernels, 120 grams; foreign material, 40 grams; and moisture content of kernels, seven percent. Excess moisture is two percent. The example computations are as follows:

§ 981.408 Inedible kernel.

§ 981.413 Roadside stand exemption.
The term at retail at a roadside stand as used in §981.13 shall be defined to mean sales for home use and not for resale which are not in excess of 100 pounds net kernel weight to any one customer per day. § 981.441 Credit for market promotion activities, including paid advertising.

(a) In order for a handler to receive credit for his/her own promotional activities from his/her pro rata portion of advertising assessment payments, pursuant to §981.41(c), the Board must determine that such expenditures meet the applicable requirements of this section. Credit will be granted either in the form of a payment from the Board, or as an offset to that portion of the assessment if activities are conducted and documented to the satisfaction of the Board at least 2 weeks prior to the Board’s first and second assessment billings, and at least 3 weeks prior to the Board’s third and fourth assessment billings in a crop year: Provided, That promotional activities conducted during the 1998-99 crop year must be conducted and documented at least 2 weeks prior to the Board’s fourth assessment billing in order to receive credit. If the handler(s) conduct activities and submit documentation according to applicable provisions in this section, their advertising assessment obligation will be reduced according to the amount of proven activities approved by the Board.

(c) The Board shall grant Credit-Back for qualifying activities only to the handler who performed such activities and who filed a claim for Credit-Back in accordance with this section.

(d) Credit-Back shall be granted only for qualified promotional activities which are conducted and completed during the crop year for which Credit-Back is requested.

(e) The following requirements shall apply to Credit-Back for all promotional activities:

(1) Credit-Back granted by the Board shall be that which is appropriate when compared to accepted professional practices and rates for the type of activity conducted. In the case of claims for Credit-Back activities not covered by specific and established criteria, the Board shall grant the claim if it is consistent with practices and rates for similar activities. To this end, the Board may issue guidelines for qualifying activities from time to time as warranted. For activities in markets other than the United States and Canada, paragraph (e)(5) of this section shall also apply.

(2) The clear and evident purpose of each activity shall be to promote the sale, consumption or use of California almonds, and nothing therein shall detract from this purpose.

(3) No Credit-Back will be given for advertising placed in publications that target the farming or grower trade. No Credit-Back shall be given for any outdoor advertising in California almond growing counties with more than 1,000 bearing acres: Provided, That outdoor advertising in these counties which specifically directs consumers to a handler-operated outlet offering direct purchase of almonds will be eligible for Credit-Back.
§ 981.441

(4) Credit-Back shall be granted for those qualified activities specified below, except that Credit-Back will not be allowed in any case for travel expenses, or for any promotional activities that result in price discounting:

(i) Paid advertising directed to end-users, trade or industrial users. Foreign market expenses paid by third parties as part of a handler’s contract with FAS or CDFA will not be eligible for Credit-Back.
§ 981.442 Quality control.

(a) Incoming. Pursuant to §981.42(a), the quantity of inedible kernels in each variety of almonds received by a handler, including almonds of his own production, shall be determined and disposed of in accordance with the provisions of this section.

(1) Sampling. Each handler shall cause a representative sample of almonds to be drawn from each lot of any variety received. The sample shall be drawn before inedible kernels are removed from the lot, or the lot is processed or stored by the handler. For receipts at premises with mechanical sampling equipment and under contracts providing for payment by the handler to the producer for sound meat content, samples shall be drawn by the handler in a

§ 981.442

(6) A handler must file claims with the Board to obtain Credit-Back for promotional expenditures, as follows:

(i) All claims submitted to the Board for any qualified activity must include:

(A) A description of the activity and when and where it was conducted;

(B) Copies of all invoices from suppliers or agencies;

(C) Copies of all canceled checks issued by the handler in payment of these invoices; and

(D) An actual sample, picture or other physical evidence of the activity.

(ii) Handlers may receive credit against their assessment obligation up to the advertising amount of the assessment installment due: Provided, That handlers submit the required documentation for a qualified activity at least 2 weeks prior to the mailing of the Board’s first and second assessment notices, and at least 3 weeks prior to the mailing of the Board’s third and fourth assessment notices in a crop year: Provided further, That promotional activities conducted during the 1998–99 crop year must be conducted and documented at least 2 weeks prior to the mailing of the Board’s fourth assessment notice in order to receive credit. In all other instances, handlers must remit the advertising assessment to the Board when billed, and a refund will be issued to the extent of proven, qualified activities.

(iii) Checks from the Board in payment of approved Credit-Back claims will be mailed to handlers on February 15, April 15, June 15, and 30 days after submission of final claims for the crop year: Provided, That for activities conducted during the 1998–99 crop year, final claims pertaining to such commitments outstanding must be submitted within 105 days after the close of the crop year. All other final claims for which no statement of Credit-Back commitments outstanding has been filed must be submitted by August 15 of that calendar year.

(f) Appeals. If a determination is made by the Board staff that a particular promotional activity is not eligible for Credit-Back because it does not meet the criteria specified herein, or for any other reason, the affected handler may request the Public Relations and Advertising Committee to review the Board’s decision. If the affected handler disagrees with the decision of the Public Relations and Advertising Committee, the handler may request that the Board review the Committee decision. If the handler disagrees with the decision of the Board, the handler, through the Board, may request that the Secretary review the Board’s decision. Handlers have the right to request anonymity in the review of their appeal. The Secretary maintains the right to review any decisions made by the aforementioned bodies at his/her discretion.

manner acceptable to the Board and the inspection agency. The inspection agency shall make periodic checks of the mechanical sampling procedures. For all other receipts, including but not limited to field examination and purchase receipts, accumulations purchased for cash at the handler’s door or from an accumulator, or almonds of the handler’s own production, sampling shall be conducted or monitored by the inspection agency in a manner acceptable to the Board. All samples shall be bagged and identified in a manner acceptable to the Board and the inspection agency.

(2) Variety. For the purpose of classifying receipts by variety to determine a handler’s disposition obligation, “variety” shall mean that variety of almonds which constitutes at least 90 percent of a lot. If no variety constitutes at least 90 percent of the almonds in a lot, the lot shall be designated as “mixed”. If the variety which constitutes at least 90 percent of the almonds in the lot is unknown, the lot shall be designated “unknown”.

(3) Analysis of sample. Each sample shall be analyzed by or under the surveillance of the inspection agency to determine the kernel content and the proportion of inedible kernels in the sample. The inspection agency shall prepare a report for each handler showing, by variety, the total adjusted kernel weight received by handler, the edible kernel weight and any other information as the Board may prescribe. The report shall cover the handler’s daily receipt or the handler’s total receipts during a period not exceeding one week, and shall be submitted by the inspection agency to the Board and the handler.

(4) Disposition obligation. (i) The weight of inedible kernels in excess of 1 percent of kernel weight reported to the Board of any variety received by a handler shall constitute that handler’s disposition obligation. For any almonds sold inshell, the weight may be reported to the Board and the disposition obligation for that variety reduced proportionately.

(ii) If a sufficient sample is not available for any lot of almonds, the handler may establish and substantiate, to the satisfaction of the Board, the received weight, the edible and inedible kernel weights, and the adjusted kernel weight by providing sufficient information as the Board may prescribe. If the handler is only able to establish and substantiate the approximate received weight, an inedible disposition obligation of 10 percent of such received weight may be applied, upon agreement between the Board and the handler.

(5) Meeting the disposition obligation. Each handler shall meet its disposition obligation by delivering packer pickouts, kernels rejected in blanching, pieces of kernels, meal accumulated in manufacturing, or other material, to crushers, feed manufacturers, feeders, or dealers in nut wastes on record with the Board as accepted users. Handlers shall notify the Board at least 72 hours prior to delivery: Provided, That the Board or its employees may lessen this notification time whenever it determines that the 72 hour requirement is impracticable. The Board may supervise deliveries at its option. In the case of a handler having an annual total obligation of less than 1,000 pounds, delivery may be to the Board in lieu of an accepted user, in which case the Board would certify the disposition lot and report the results to the USDA. For dispositions by handlers with mechanical sampling equipment, samples may be drawn by the handler in a manner acceptable to the Board and the inspection agency. For all other dispositions, samples shall be drawn by or under supervision of the inspection agency. Upon approval by the Board and the inspection agency, sampling may be accomplished at the accepted user’s destination. The edible and inedible almond meat content of each delivery shall be determined by the inspection agency and reported by the inspection agency to the Board and the handler. The handler’s disposition obligation will be credited upon satisfactory completion of ABC Form 8. ABC Form 8, Part A, is filled out by the handler, and Part B by the accepted user. Deliveries containing less than 50 percent almond meat content shall not be credited against the disposition obligation. At least 25 percent of a handler’s total crop year inedible disposition obligation shall be satisfied with
§ 981.450 Exempt dispositions.

As provided in §981.50 any handler disposing of almonds for crushing into oil, or for poultry or animal feed, may have the kernel weight of these almonds excluded from his receipts, and exempt from program obligations so long as the handler qualifies as, or delivers such almonds to, a crusher, a feeder, or dealer in nut waste; the crusher, feeder, or dealer are acceptable to the Board; each delivery is made directly to the crusher, feeder, or dealer, by June 30 of the crop year; and each delivery is certified to the Board by the handler on ABC Form 8.

§ 981.455 Interhandler transfers.

(a) Transfers of almonds. Interhandler transfers of almonds pursuant to §981.55 shall be reported to the Board on ABC Form 7. The report shall contain the following information: (1) Date of transfer; (2) the names, and plant locations of both the transferring and receiving handlers; (3) the variety of almonds transferred; (4) whether the almonds are shelled or unshelled; and (5) the name of the handler assuming reserve and assessment obligations on the almonds transferred. ABC Form 7 shall be signed by the transferring handler and by the receiving handler if the latter is assuming the obligation(s).

(b) Transfers of reserve credits. A handler may transfer reserve credits to another handler after having filed with the Board, in accordance with §981.474, a completed ABC Form 13/14 covering the almonds to be diverted to a non-competitive outlet and all the documentation applicable thereto. Such a transfer does not relieve the transferring handler of any reserve obligations.
§ 981.467 Disposition in reserve outlets by handlers.

(a) Agents of Board. Beginning with August 1 of any crop year, a handler may become an agent of the Board pursuant to §981.67 for the purpose of disposing of reserve almonds of such crop year, in the authorized outlets. The agency shall be established upon a handler executing a reserve agreement (ABC Form 12) ABC, applicable to diversion, containing terms and conditions specified by the Board.

(b) Reserve credit. Credit in satisfaction of a reserve obligation shall not exceed the accrued reserve obligation derived by applying the reserve percentage to the quantity of almonds received by a handler for his own account during the crop year. Disposition by an agent of the Board in eligible reserve outlets within a crop year in excess of his reserve obligation shall be held to be a disposition of salable almonds. Whenever such disposition has been inspected and certified, if required, and has complied with the terms, conditions, and documentation applicable to disposition of reserve almonds as determined by the Board, the disposition may be credited against any reserve obligation subsequently incurred by the handler during that crop year, or the disposition may be credited pursuant to §981.455(b) against the reserve obligation of another handler.

(c) Minimum prices. Minimum prices shall apply to 1990–91 crop year reserve almonds diverted to almond butter, natural almond paste, foil packets for sales to airlines, and sales to government agencies, including federal and state school lunch programs. Prices are F.O.B. handlers plant. The prices may contain a maximum of two percent brokerage commission. No cash discounts are allowed. If the destination of any export is unknown to the handler, such handler shall have the broker/exporter furnish this information to the Board. In support of this report, the handler shall keep invoices on the shipments, or such other documentation as may be acceptable to the Board. The reports shall be received by the Board within five calendar days after the close of each month of the crop year.

(b) Reserve reports. In any crop year when reserve almonds are diverted to noncompetitive outlets, such handler shall report such handler’s intentions to divert on ABC Form 13 and the completion of diversion on ABC Form 14. Upon notice to all handlers, the Board may waive the requirements to file ABC Form 13 for diversion of almonds to noncompetitive outlets which are acceptable to the Board.

(c) Handler information reports. Each handler shall file no later than September 1 of each year ABC Form 42, a Handler Information Sheet, listing the handler’s name, address, phone number, ownership or corporate information and acknowledging receipt of marketing order program information.

§ 981.481 Interest and late payment charges.

(a) Pursuant to §981.481, the Board shall impose an interest charge on any handler whose assessment payment has not been received in the Board’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 30 days of the invoice date shown on the handler’s statement. The interest charge shall be a rate of one and one half percent per month and shall be applied to the unpaid assessment balance for the number of days all or any part of the unpaid balance is delinquent beyond the 30 day payment period.

(b) In addition to the interest charge specified in paragraph (a) of this section, the Board shall impose a late payment charge on any handler whose payment has not been received in the Board’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 60 days of the invoice date. The late payment charge shall be 10 percent of the unpaid balance.

HAZELNUT CONTROL BOARD

§ 982.30 Establishment and membership.

(a) There is hereby established a Hazelnut Marketing Board consisting of 10 members, each of whom shall have an alternate member, to administer the terms and provisions of this part. Each member and alternate shall meet the same eligibility qualifications. The 10 member positions shall be allocated as follows:

(b) Four of the members shall represent handlers, as follows:

(1) One member shall be nominated by the handler who handled the largest volume of hazelnuts during the two marketing years preceding the marketing year in which nominations are made;

(2) One member shall be nominated by the handler who handled the second largest volume of hazelnuts during the two marketing years preceding the marketing year in which nominations are made;

(3) One member shall be nominated by the handler who handled the third largest volume of hazelnuts during the two marketing years preceding the marketing year in which nominations are made;

(4) The fourth handler member shall be nominated by and represent all other handlers.

(c) Five members shall represent growers and shall be nominated for the districts designated in or established pursuant to §982.31. One grower member shall represent each of the five grower districts unless changes are made pursuant to §982.31(b).

(d) One member shall be a public member who is neither a grower nor a handler.

(e) The Secretary, or the Board with the approval of the Secretary, may revise the handler representation on the
§ 982.31 Grower districts.

(a) For the purpose of nominating grower members and alternate members, the following districts within the production area are hereby established:

(1) District 1—The State of Washington, and Clackamas and Multnomah Counties in Oregon.

(2) District 2—Marion and Polk Counties in Oregon.

(3) District 3—Linn, Lane, and Benton Counties in Oregon.

(4) District 4—Yamhill County in Oregon.

(5) District 5—All other Oregon counties within the production area.

(b) The Secretary, upon the recommendation of the Board, may reestablish districts within the production area and may reapportion grower membership among the various districts: Provided, That in recommending any such changes, the Board shall give consideration to (1) the relative importance of production in each district and the number of growers in each district; (2) the geographic location of districts as they would affect the efficiency of administering this part; and (3) other relevant factors.

§ 982.32 Initial members and nomination of successor members.

(a) Members and alternate members of the Board serving immediately prior to the effective date of this amended subpart shall continue to serve on the Board until their respective successors have been selected.

(b) Nominations for successor handler members and alternate members specified in §982.30(b)(4) shall be made by the handlers in that category by mail ballot. All votes cast shall be weighted according to the tonnage of certified merchantable hazelnuts and, when shelled hazelnut grade and size regulations are in effect, the inshell equivalent of certified shelled hazelnuts (computed to the nearest whole ton) recorded by the Board as handled by each handler during the two marketing years preceding the marketing year in which nominations are made.

(c) Nominations for successor grower member and alternate grower member positions specified in §982.30(b)(4) shall be made by the growers in that category by mail ballot. All votes cast shall be weighted according to the tonnage of certified merchantable hazelnuts and, when shelled hazelnut grade and size regulations are in effect, the inshell equivalent of certified shelled hazelnuts (computed to the nearest whole ton) recorded by the Board as handled by each grower during the two marketing years preceding the marketing year in which nominations are made. If less than one ton is recorded for any such handler, the vote shall be weighted as one ton. Voting will be by position, and each eligible grower can vote for a member and an alternate member. The person receiving the highest number of weighted votes for each position shall be the nominee for that respective position.

(d) For the purposes of nominating and voting for handler members and alternates, the tonnage of hazelnuts shall be credited to the handler responsible under the order for the payment of assessments of those hazelnuts.

(e) Nominees to successor grower member and alternate member positions shall be submitted to the Secretary after the Board conducts balloting of growers, or officers or employees of growers, in the grower districts according to the following procedure: Names of the candidates to be shown on the ballot for a particular district may be submitted to the Board by petitions signed by not less than ten growers on record with the Board as growers being in that district; each grower may sign only as many petitions as there are persons to be nominated within that district. If such petitions fail to result in submission of at least two names for a district, the Board shall request County Agricultural Extension Agents in that district to recommend one or more eligible growers to be included on the ballot. Ballots, accompanied by the names of all such candidates, with spaces to indicate voters’ choices and spaces for
write-in candidates, together with voting instructions, shall be mailed to all growers who are on record with the Board. The person receiving the highest number of votes shall be the member nominee for that district, and the person receiving the second highest number of votes shall be the alternate member. The Board shall recommend one candidate in case of a tie vote.

(f) Nominations received in the foregoing manner by the Board for all handler and grower member and alternate member positions shall be certified and sent to the Secretary at least 60 days prior to the beginning of each two-year term of office, together with all necessary data and other information deemed by the Board to be pertinent or requested by the Secretary. If nominations are not made within the time and manner specified in this subpart, the Secretary may, without regard to nominations, select the Board members and alternates on the basis of the representation provided for in this subpart.

(g) The members of the Board shall nominate the public member and alternate public member at the first meeting following the selection of members for a new term of office.

§ 982.33 Selection and term of office.

(a) Selection. Members and their respective alternates shall be selected by the Secretary from nominees submitted by the Board or from among other qualified persons.

(b) Term of office. The term of office of Board members and their alternates shall be for two years beginning on July 1 and ending on June 30, but they shall serve until their respective successors are selected and have qualified: Provided, That beginning with the 1996-97 marketing year, no member shall serve more than three consecutive two-year terms as member and no alternate member shall serve more than three consecutive two-year terms as alternate unless specifically exempted by the Secretary. Nomination elections for all Board grower and handler member and alternate positions shall be held every two years.

(c) The members on the Board shall continue to serve until the new members and alternates have been selected and have qualified.

§ 982.34 Qualification.

(a) Any person prior to selection as a member or an alternate member of the Board shall qualify by filing with the Secretary a written acceptance of willingness to serve on the Board.

(b) Each grower member and alternate shall be, at the time of selection and during the term of office, a grower or an officer, employee, or agent of a grower in the district for which nominated.

(c) Each handler member and alternate shall be, at the time of selection and during the term of office, a handler or an officer, employee, or agent of a handler.

(d) Any member or alternate member who at the time of selection was a member (or employed by or an agent of a member) of the group which nominated that person shall, upon ceasing to be such, become disqualified to serve further and that position shall be deemed vacant. In the event any grower member or alternate member of the Board handles hazelnuts produced by other growers or becomes an employee or agent of a handler, that person shall be disqualified to continue to serve on the Board in that capacity.

(e) No person nominated to serve as a public member or alternate member shall have a financial interest in any hazelnut growing or handling operation.

(f) The Board, with the approval of the Secretary, may issue rules and regulations covering matters of qualifications for members or alternate members.
§ 982.35 Vacancy.

To fill any vacancy occasioned by the death, removal, resignation, or disqualification of any member or alternate of the Board, a successor for his unexpired term shall be nominated and selected in the manner provided in §§982.32 and 982.33, so far as applicable, unless selection is deemed unnecessary by the Secretary.

§ 982.36 Alternates.

An alternate for a member of the Board shall act in the place of the member during such member’s absence or, upon the member’s death, removal, resignation, or disqualification, until a successor for that member’s term has been selected and has qualified.

(a) Seven members of the Board shall constitute a quorum at an assembled meeting of the Board, and any action of the Board shall require the concurring vote of at least six members. At any assembled meeting, all votes shall be cast in person.

(b) The Board may vote by mail, telephone, telegraph, or other means of communication: Provided, That any votes (except mail votes) so cast shall be confirmed at the next regularly scheduled meeting. When any proposition is submitted for voting by any such method, its adoption shall require 10 concurring votes.

(c) The members of the Board and their alternates shall serve without compensation, but members and alternates acting as members shall be allowed their necessary expenses: Provided, That the Board may request the attendance of one or more alternates not acting as members at any meeting of the Board, and such alternates may be allowed their necessary expenses.

§ 982.38 Powers.

The Board shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart;

(d) To recommend to the Secretary amendments to this subpart.

§ 982.39 Duties.

The Board shall have among others the following duties:

(a) To select from among its members such officers and adopt rules or bylaws for the conduct of its meetings as it deems advisable;

(b) To act as intermediary between the Secretary and any handler or grower;

(c) To keep minute books and records which will clearly reflect all of its acts and transactions, and such books and records shall be available for examination by the Secretary at any time;

(d) To furnish to the Secretary such available information as he may request;

(e) To appoint such employees as it deems necessary and determine the salaries, define the duties and fix the bonds of such employees;

(f) To cause the books of the Board to be audited by one or more public accountants approved by the Board at least once for each marketing year and at such other times as the Board deems necessary or as the Secretary may request, and to file with the Secretary reports of all audits made;

(g) To investigate the growing, shipping and marketing conditions with respect to hazelnuts, and assemble data in connection therewith;

(h) To give the Secretary the same notice of the meetings of the Board as is given to its members; and

(i) To furnish to the Secretary a report of the proceedings of each meeting of the Board held for the purpose of making marketing policy recommendations.

MARKETING POLICY

§ 982.40 Marketing policy and volume regulation.

(a) General. As provided in this section, prior to September 20 of each marketing year, the Board may hold meetings for the purpose of computing its marketing policy for that year and shall do so for the purpose of submitting any recommendations on its policy to the Secretary. The Board may designate one of its employees to compute and announce the preliminary computed free and restricted percentages.

(b) Inshell trade demand. If the Board determines that volume regulation would tend to effectuate the declared policy of the act, it shall compute and announce an inshell trade demand for that year prior to September 20. The inshell trade demand shall equal the average of the preceding three years' trade acquisitions of inshell hazelnuts: Provided, That the Board may increase such average by no more than 25 percent if market conditions justify such an increase. If the trade acquisitions during any or all of these years were abnormal because of crop or marketing conditions, the Board may use a prior year or years in determining the three-year average.

(c) Inshell allocation. (1) Preliminary computed percentages. Prior to September 20 of a marketing year, the Board shall compute and announce preliminary computed free and restricted percentages for that year, to release 80 percent of the inshell trade demand for that year. The preliminary computed free percentage shall be computed by multiplying that trade demand, adjusted by the declared carryin, by 80 percent, and by dividing that amount by the Board's estimate of orchard-run production less the average disappearance during the preceding three years, plus the undeclared carryin. The difference between 100 percent and the preliminary free percentage shall be the preliminary computed restricted percentage. At the same time, the Board may announce the portion of the restricted supply that may be shelled or exported, and the remainder of that supply to be disposed of in outlets approved by the Board pursuant to §982.52.

(2) Interim final and final percentages. On or before November 15, the Board shall meet to recommend to the Secretary the interim final and final free and restricted percentages, including the portion of the restricted supply that may be shelled or exported. The interim final percentages shall release 100 percent of the inshell trade demand previously computed by the Board for the marketing year. The final free and restricted percentages may release an additional 15 percent of the average of the preceding three years' trade acquisitions of inshell hazelnuts for desirable carryout. If the trade acquisitions during any or all of these years were abnormal, the Board may use a prior year or years in determining this three-year average. The final free and restricted percentages shall become effective 30 days prior to the end of the marketing year, or earlier as may be recommended by the Board and approved by the Secretary. The recommendations to the Secretary shall include the following:

(i) The estimated tonnage of merchantable hazelnuts expected to be produced during the marketing year.
(ii) The estimated tonnage of inshell hazelnuts held by handlers on the first day of the marketing year which may be available for handling as inshell hazelnuts thereafter.
(iii) Any other pertinent factors bearing on the marketing of hazelnuts during the marketing year.

Whenever the Secretary finds, on the basis of the recommendation of the Board or other available information that, to establish the interim final and final free and restricted percentages would tend to effectuate the declared policy of the act, the Secretary shall establish such percentages.

(d) Grade and size regulations. Prior to September 20, the Board may consider grade and size regulations in effect and may recommend modifications thereof to the Secretary.

(e) Revision of marketing policy. At any time prior to February 15 of the marketing year, the Board may recommend to the Secretary revisions in the marketing policy for that year: Provided, That in no event shall any
§ 982.41 Free and restricted percentages.

The free and restricted percentages computed by the Board or established by the Secretary pursuant to §982.40 shall apply to all merchantable hazelnuts handled during the current marketing year. Until the preliminary computed free and restricted percentages are computed by the Board for the current marketing year, the percentages in effect at the end of the previous marketing year shall be applicable.

§ 982.45 Establishment of grade and size regulations.

(a) Minimum standards. No handler shall handle any inshell or shelled hazelnuts unless such inshell hazelnuts meet requirements of Oregon No. 1 grade and medium size (as defined in the Oregon Grade Standards Hazelnuts In Shell), and such shelled hazelnuts meet such requirements as are established by the Secretary on the basis of a recommendation of the Board, except as may be otherwise provided in §982.37. These minimum standards may be modified by the Secretary on the basis of a recommendation of the Board or other information whenever he finds that such modification would tend to effectuate the declared policy of the act. Such minimum standards and the provisions of this part relating to the administration thereof shall continue in effect irrespective of whether the season average price of hazelnuts is above the parity level specified in section 2(1) of the act.

(b) Additional grade and size regulations. When the season average price of hazelnuts is not determined to be above parity, the Secretary may establish additional grade and size regulations for inshell hazelnuts in the form of a more restrictive minimum standard than that specified in paragraph (a) of this section, or pack specifications as to grades and sizes that may be handled, if he finds, on the basis of a recommendation of the Board or other information, that such regulations would tend to effectuate the declared policy of the act.

§ 982.46 Inspection and certification.

(a) Before or upon handling any hazelnuts, or before any inshell or shelled hazelnuts are credited (under §§982.50 or 982.51) in satisfaction of a restricted obligation, each handler shall, at his own expense, cause such hazelnuts to be inspected and certified by the Federal-State Inspection Service as meeting the then effective grade and size regulations or, if inshell or shelled hazelnuts are withheld under §982.51, the applicable requirements specified in that section. The handler obtaining such inspection of hazelnuts shall cause a copy of the certificate issued by such inspection service applicable to such hazelnuts to be furnished to the Board.

(b) All hazelnuts so inspected and certified shall be identified as prescribed by the Board. Such identification shall be affixed to the hazelnut containers by the handler under direction and supervision of the Board or the Federal-State Inspection Service, and shall not be removed or altered by any person except as directed by the Board.

(c) Whenever the Board determines that the length of time in storage and conditions of storage of any lot of certified merchantable hazelnuts have been or are such as to normally cause deterioration, it may require that such
§ 982.50 Restricted obligation.

(a) No handler shall handle inshell hazelnuts unless prior to or upon shipment thereof, he: (1) Has withheld from handling a quantity, by weight, of certified merchantable hazelnuts determined by dividing the quantity handled, or to be handled, by the applicable free percentage and multiplying the quotient by the restricted percentage; (2) has withheld from handling an equivalent quantity of creditable ungraded inshell hazelnuts under § 982.51(a); or (3) has under § 982.51(b), declared in lieu of a quantity of certified merchantable hazelnuts, under paragraph (a)(1) of this section, the equivalent quantity, by weight as determined under that section, of shelled hazelnuts certified as meeting the standards in effect for Oregon No. 1 grade for shelled hazelnuts as contained in Oregon Grade Standards for Hazelnut Kernels or such other standards as may be recommended by the Board and established by the Secretary. Any handler who intends to withhold shelled hazelnuts in satisfaction of a restricted obligation must make such declaration to the Board prior to shelling any such hazelnuts. Withholding may be temporarily deferred under the bonding provisions in § 982.54. The quantity of hazelnuts required to be withheld shall be the restricted obligation. Certified merchantable hazelnuts handled in accordance with this subpart shall be deemed to be the handler’s quota fixed by the Secretary within the meaning of section 8a(5) of the Act.

(b) Inshell hazelnuts withheld by a handler in satisfaction of his restricted obligation shall not be handled and shall be held by him subject to examination by and accounting control of, the Board until disposed of pursuant to this part.

(c) A handler having certified merchantable hazelnuts which have not been handled at the end of a marketing year may elect to have those hazelnuts bear the restricted and assessment obligations of that year or of the marketing year in which handled. The Board shall establish such procedures as are necessary to facilitate the administration of this option among handlers.

(d) Whenever the restricted percentage for a marketing year is reduced, each handler’s restricted obligation shall be reduced to conform with the new restricted percentage. Any handler who, upon such reduction, is withholding restricted hazelnuts in excess of his new restricted obligation may have the excess freed from withholding by complying with such procedures as the Board may require to insure identification of the remaining hazelnuts withheld.

§ 982.51 Restricted credit for ungraded inshell hazelnuts and for shelled hazelnuts.

(a) A handler may withhold ungraded inshell hazelnuts in lieu of certified merchantable hazelnuts in satisfaction of that handler’s restricted obligations, and the weight on which credit may be received shall be the shelled hazelnut equivalent weight as inspected by the Federal-State Inspection Service multiplied by 2.5. Any lot of ungraded hazelnuts not meeting the moisture requirements for certified merchantable hazelnuts shall not be eligible for credit. All determinations as to the shelled hazelnut equivalent weight shall be made by the Federal-State Inspection Service at the handler’s expense. Hazelnuts so withheld shall be subject to the applicable requirements of § 982.50. The weight of all such lots for which a handler has received credit shall be adjusted by the Board when the lots are handled or disposed of so that the creditable weight is equal to the amount of certified merchantable inshell hazelnuts or certified shelled hazelnuts that are subsequently handled or disposed of from those lots. If this adjustment causes the handler to no longer be in satisfaction of that handler’s restricted obligation as required by § 982.50, the deficiency shall be satisfied in the subsequent marketing year. If this adjustment results in a handler disposing of,
§ 982.52 Disposition of restricted hazelnuts.

Hazelnuts withheld from handling as inshell hazelnuts pursuant to §§982.50 and 982.51 may be disposed of as follows:

(a) Shelling. Any handler may dispose of such hazelnuts by shelling them under the direction or supervision of the Board or by delivering them to an authorized sheller. Any person who desires to become an authorized sheller in any marketing year may submit written application during such year to the Board. Such application shall be granted only upon condition that the applicant agrees:

(1) To use such restricted hazelnuts as he may receive for no purpose other than shelling;
(2) To dispose of or deliver such restricted hazelnuts, as inshell hazelnuts, to no one other than another authorized sheller;
(3) To comply fully with all laws and regulations applicable to shelling of hazelnuts; and
(4) To make such reports, certified to the Board and to the Secretary as to their correctness, as the Board may require.

(b) Export. Sales of certified merchantable restricted hazelnuts for shipment to destinations outside the continental United States and such other distribution areas as may be recommended by the Board and established by the Secretary shall be made only by the Board. Any handler desiring to export any part or all of that handler’s certified merchantable restricted hazelnuts shall deliver to the Board the certified merchantable restricted hazelnuts to be exported, but the Board shall be obligated to sell in export only such quantities for which it may be able to find satisfactory export outlets. Any hazelnuts so delivered for export which the Board is unable to export shall be returned to the handler delivering them. Sales for export shall be made by the Board only on execution of an agreement to prevent exportation into the area designated in §982.16. A handler may be permitted to act as an agent of the Board, upon such terms and conditions as the Board may specify, in negotiating export sales, and when so acting shall be entitled to receive a selling commission as authorized by the Board. The proceeds of all export sales, after deducting all expenses actually and necessarily incurred, shall be paid to the handler whose certified merchantable restricted hazelnuts are so sold by the Board.

(c) Other outlets. In addition to the dispositions authorized in paragraphs (a) and (b) of this section, the Board may designate such other outlets into which such hazelnuts may be disposed which it determines are noncompetitive with normal market outlets for inshell hazelnuts. Such dispositions shall be made under the direction or supervision of the Board.

(d) Restricted credits. During any marketing year, handlers who dispose of a quantity of eligible hazelnuts in restricted outlets in excess of their restricted obligations, may transfer such excess credits to another handler or handlers. Upon a handler’s written request to the Board during a marketing year, the Board shall transfer any or all of such excess restricted credits to such other handler or handlers that the handler may designate. The Board, with the approval of the Secretary, shall establish rules and regulations.
for the transfer of excess restricted credits.

§ 982.53 Substandard hazelnuts.

The Board shall, with the approval of the Secretary, establish such reporting and disposition procedures as it deems necessary to insure that hazelnuts which do not meet the effective inshell or shelled hazelnut minimum standards do not enter normal market outlets for certified hazelnuts.

§ 982.54 Deferment of restricted obligation.

(a) Bonding. Compliance by any handler with the requirements of §982.50 when restricted hazelnuts may be withheld shall be temporarily deferred to any date requested by the handler, but not later than 60 days prior to the end of the marketing year. Such deferment shall be conditioned upon the voluntary execution and delivery by the handler to the Board of a written undertaking before beginning to handle merchantable hazelnuts during the marketing year. Such written undertaking shall be secured by a bond or bonds with a surety or sureties acceptable to the Board that on or prior to such date the handler will have fully satisfied the restricted obligation required by §982.50, subject to any adjustment pursuant to §982.51.

(b) Bonding requirement. Such bond or bonds shall, at all times during their effective period, be in such amounts that the aggregate thereof shall be no less than the total bonding value of the handler’s deferred restricted obligation. The bonding value shall be the deferred restricted obligation poundage multiplied by the applicable bonding rate. The cost of such bond or bonds shall be borne by the handler filing same.

(c) Bonding rate. Said bonding rate shall be an amount per pound as established by the Board. Such bonding rate shall be based on the estimated value of restricted credits for the current marketing year. Until bonding rates for a marketing year are fixed, the rates in effect for the preceding marketing year shall continue in effect.

The Board should make any necessary adjustments once such new rates are fixed.

(d) Restricted credit purchases. Any sums collected through default of a handler on the handler’s bond shall be used by the Board to purchase restricted credits from handlers, who have such restricted credits in excess of their needs, and are willing to part with them. The Board shall at all times purchase the lowest priced restricted credits offered, and the purchases shall be made from the various handlers as nearly as practicable in proportion to the quantity of their respective offerings of the restricted credits to be purchased.

(e) Unexpended sums. Any unexpended sums which have been collected by the Board through default of a handler on the handler’s bond, remaining in the possession of the Board at the end of a marketing year, shall be used to reimburse the Board for its expenses, including administrative and other costs incurred in the collection of such sums, and in the purchase of restricted credits as provided in paragraph (d) of this section.

(f) Transfer of restricted credit purchases. Restricted credits purchased as provided for in this section shall be turned over to those handlers who have defaulted on their bonds for liquidation of their restricted obligation. The quantity delivered to each handler shall be that quantity represented by sums collected through default.

(g) Collection upon bonds. Collection upon any defaulted bond shall be deemed a satisfaction of the restricted obligation represented by the collection.

§ 982.55 Exchange of certified merchantable hazelnuts withheld.

Any handler who has withheld from handling certified merchantable hazelnuts pursuant to the requirements of §982.50 may exchange therefor an equal quantity, by weight, of other certified merchantable hazelnuts. Any such exchange shall be made under the direction or supervision of the Board.
§ 982.56 Interhandler transfers.

Within the area of production, interhandler transfers of hazelnuts may be made as follows:

(a) Uncertified inshell hazelnuts may be sold or delivered by one handler to another for packing or shelling, and the receiving handler shall be responsible for compliance with the regulations effective pursuant to this part with respect to such hazelnuts.

(b) Restricted hazelnuts withheld by a handler may be sold or delivered to another handler for shelling, export, or other authorized outlet subject to the disposition requirements set forth in § 982.52.

(c) Certified hazelnuts other than restricted hazelnuts may be sold or delivered by one handler to another and the transferring handler shall be responsible for compliance with the requirements effective pursuant to this part, unless specified and agreed upon in writing by both handlers that the receiving handler shall be responsible for such compliance and a copy of such agreement is furnished to the Board.

(d) The Board, with the approval of the Secretary, shall establish procedures, including necessary reports, for such transfers.

§ 982.57 Exemptions.

(a) General. The Board, with the approval of the Secretary, may establish or provide for the establishment of projects involving production research, marketing research and development, and marketing promotion, including paid advertising, designed to assist, improve, or promote the marketing, distribution, consumption, or efficient production of hazelnuts. The Board may also provide for crediting the pro rata expense assessment obligations of a handler with such portion of such handler’s direct expenditures for such marketing promotion including paid advertising as may be authorized. The expenses of such projects shall be paid from funds collected pursuant to § 982.61, § 982.63, or credited pursuant to paragraph (b) of this section.

(b) Creditable expenditures. The Board, with the approval of the Secretary, may provide for crediting all or any portion of a handler’s direct expenditures for marketing promotion including paid advertising, that promotes the sale of hazelnuts, hazelnut products, or their uses. No handler shall receive credit for any allowable direct expenditures that would exceed the total of the handler’s assessment obligation which is attributable to that portion of the handler’s assessment designated for marketing promotion including paid advertising.

(c) Rules and regulations. Before any projects involving marketing promotion, including paid advertising and the crediting of the pro rata expense assessment obligation of handlers is undertaken pursuant to this section, the Secretary, after recommendation
by the Board, shall prescribe appropriate rules and regulations as are necessary to effectively administer such projects.

EXPENSES AND ASSESSMENTS

§ 982.60 Expenses.

The Board is authorized to incur such expenses including maintenance of an operating reserve fund as the Secretary may find are reasonable and likely to be incurred by it during each marketing year, for the maintenance and functioning of the Board and for such purposes as the Secretary may, pursuant to the provisions of this subpart, determine to be appropriate. The recommendation of the Board as to the expenses and size of the operating reserve for each such marketing year, together with all data supporting such recommendations, shall be submitted to the Secretary at the beginning of the fiscal year in connection with which such recommendation is made. The funds to cover such expenses shall be acquired by levying assessments as provided in §982.61.

§ 982.61 Assessments.

(a) For each marketing year, the Secretary shall fix an assessment rate per pound of hazelnuts handled and withheld, including the creditable weight of ungraded restricted hazelnuts withheld pursuant to §982.51 and, when subject to regulation pursuant to §982.45, the inshell equivalent of shelled hazelnuts certified which are produced from other than restricted hazelnuts that will provide sufficient funds to meet the authorized expenses and reserve requirements of the Board. At any time during or after a marketing year when he determines, on the basis of a Board recommendation or other information, that a different rate is necessary, the Secretary may modify the assessment rate and the new rate shall be applicable to all such hazelnuts. Each handler shall pay to the Board on demand, assessments on all such assessable hazelnuts at the rate fixed by the Secretary, less any amounts credited pursuant to §982.58. The Board shall impose a late payment charge on any handler who fails to pay his assessment within the time prescribed by the Board. In the event the handler thereafter fails to pay the amount outstanding, including the late payment charge, within the prescribed time, the Board shall impose an additional charge in the form of interest on such outstanding amount. The rate of such charges shall be prescribed by the Board, with the approval of the Secretary.

(b) In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the Board may accept the payment of assessments in advance, and may also borrow money for such purpose. Further, payment discounts may be authorized by the Board upon the approval of the Secretary to handlers making such advance assessment payments.

§ 982.62 Accounting.

(a) Operating reserve. The Board with the approval of the Secretary may establish and maintain an operating monetary reserve in an amount not to exceed approximately one marketing year’s operational expenses or such lower limits as the Board with the approval of the Secretary may establish.

(b) Refunds. At the end of a marketing year funds in excess of the marketing year’s expenses and reserve requirements shall be refunded to handlers from whom collected and each handler’s share of such excess funds shall be the amount of assessments the handler paid in excess of the handler’s pro rata share of expenses of the Board. However, excess funds may be maintained and used by the Board until December 1 following the end of any such marketing year: Provided, That the Board shall refund to each handler upon request, or credit to the handler’s account with the Board, the handler’s share of such excess prior to January 1.

(c) Termination. Upon termination of this subpart any money remaining unexpended in possession of the Board shall be distributed in such manner as
§ 982.63 Contributions.

The Board may accept voluntary contributions but these shall only be used to pay expenses incurred pursuant to §982.58. Furthermore, such contributions shall be free from any encumbrances by the donor and the Board shall retain complete control of their use.

§ 982.64 Creditable promotion and advertising reports.

Each handler shall file such reports of creditable promotion including paid advertising conducted pursuant to §982.58 as recommended by the Board and approved by the Secretary.

[51 FR 29550, Aug. 19, 1986]

§ 982.65 Carryover reports.

As of January 1, May 1, and August 1, or such other dates as the Board may recommend and the Secretary approve, each handler shall report within 10 days to the Board the handler’s inventory of inshell and shelled hazelnuts. Such reports shall be certified to the Board and the Secretary as to their accuracy and completeness and shall show, among other items, the following: (a) Certified merchantable hazelnuts on which the restricted obligation has been met; (b) merchantable hazelnuts on which the restricted obligation has not been met; (c) the merchantable equivalent of any hazelnuts intended for handling as inshell hazelnuts; and (d) restricted hazelnuts withheld.

[46 FR 26040, May 11, 1981]

§ 982.66 Shipment reports.

Each handler shall report to the Board the respective quantities of inshell and shelled hazelnuts handled by him during such periods and in such manner as are prescribed by the Board with the approval of the Secretary.

§ 982.67 Reports of disposition of restricted hazelnuts.

(a) Each handler, before he disposes of any quantity of restricted hazelnuts held by him, shall file with the Board a report of his intention to dispose of such quantity of restricted hazelnuts. This report shall be filed not less than five days prior to the date on which the restricted hazelnuts are disposed of, unless the five-day period is expressly waived by the Board.

(b) Each handler, within 15 days after the disposition of any quantity of restricted hazelnuts, shall file with the Board a report of the actual disposition of such quantity of restricted hazelnuts. Such reports shall be certified to the Board and to the Secretary as to their correctness and accuracy.

(c) All reports required by this section shall show the quantity, pack, and location of the hazelnuts covered by such reports; the applicable handler’s storage lot and inspection certificate numbers; and the disposition of the restricted hazelnuts which is intended or which has been accomplished.

§ 982.68 Other reports.

Each handler shall furnish to the Board such other reports as the Board, with the approval of the Secretary, may require to enable it to exercise its powers and to perform its duties.

§ 982.69 Verification of reports.

For the purpose of checking and verifying reports submitted by handlers, the Secretary and the Board, through its duly authorized agents, shall have access to each handler’s premises at any time during reasonable business hours and shall be permitted to inspect any hazelnuts held by such handler and all records of the handler with respect to hazelnuts held or disposed of by such handler and all records of the handler with respect to promotion and advertising activities conducted pursuant to §982.58. Each handler shall furnish all labor necessary to facilitate such inspections as the Secretary or the Board may make.
of such handler’s holdings of any hazelnuts. Each handler shall store hazelnuts in such manner as to facilitate inspection, and shall maintain adequate storage records which will permit accurate identification of all such hazelnuts held.

§ 982.70 Confidential information.

All reports and records furnished or submitted by handlers to the Board, which include data or information constituting a trade secret or disclosing of the trade position, financial condition, or business operations of the particular handler from whom received, shall be kept in the custody and under the control of one or more employees of the Board, and shall be disclosed to no person except the Secretary.

§ 982.71 Records.

Each handler shall maintain such records of hazelnuts received, held, and disposed of by the handler, as such records detailing such handler’s promotion and advertising activities, as may be prescribed by the Board in order to perform its function under this part. Such records shall be retained and be available for examination by authorized representatives of the Board or the Secretary for a period of two years after the end of the marketing year in which the transactions occurred.

(b) Suspension or termination. (1) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day’s notice by means of a press release or in any other manner which he may determine.

(2) The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(3) Referendum. The Board shall recommend to the Secretary during the first half of every 10-year period starting January 1, 1990, that a referendum be conducted to ascertain whether continuance of this subpart is favored by the producers.

(4) The Secretary shall terminate the provisions of this subpart at the end of any marketing year whenever the Secretary finds that such termination is favored by a majority of the producers of hazelnuts who during the preceding marketing year have been engaged in the production for marketing of hazelnuts in the States of Oregon and Washington: Provided, That such majority have during such period produced for market more than 50 percent of the volume of such hazelnuts produced for market within said States; but such termination shall be effected only if announced 30 days or more before the end of the then current marketing year.

(5) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

Subpart—Grade and Size Regulation

§ 982.101 Grade requirements for shelled hazelnuts.

(a) Pursuant to §982.45(a), no handler shall handle any shelled hazelnuts unless such hazelnuts meet the grade requirements for shelled hazelnuts as contained in exhibit A of this section.

(b) Pursuant to §§982.50(a) and 982.51(b), a handler may declare and withhold shelled hazelnuts in lieu of merchantable hazelnuts in satisfaction of the handler’s restricted obligation. Shelled hazelnuts so declared and withheld shall, in lieu of the standards prescribed in §982.50(a)(3), meet the grade requirements contained in exhibit A of this section.

EXHIBIT A

Grade Requirements for Shelled Hazelnuts

Hazelnut kernels or portions of hazelnut kernels shall meet the following requirements:

1. Well dried and clean;
2. Free from foreign material, mold, rancidity, decay or insect injury; and
3. Free from serious damage caused by serious shriveling, or other means.

Tolerances

In order to allow for variations incident to proper grading and handling the following tolerances, by weight, are permitted as specified:

1. For Foreign Material: 0.02 of one percent, for foreign material.
2. For Defects: Five percent for kernels or portions of kernels which are below the requirements of this grade, including not more than the following: Two percent for mold, rancidity, decay or insect injury: Provided, That not more than one percent shall be for mold, rancidity, or insect injury.

Definitions

1. Well dried means that the kernels are firm and crisp, not containing more than 6 percent moisture.
2. Clean means practically free from plainly visible adhering dirt or other foreign material.
3. Foreign material means any substance other than the hazelnut kernels, or portions of kernels. (Loose skins, pellicles or corky tissue which have become separated from the kernels shall not be considered as foreign material, provided that this material does not exceed .02 of one percent by weight.)
4. Serious damage means any specific defect described in this section, or any equally objectionable variation of any one of these defects, or any other defects, or any combination of defects, which seriously detracts from the appearance or the edible or marketing quality of the individual portion of the kernel or of the lot as a whole. The following defects shall be considered as serious damage.
   i. Serious shriveling means when the kernel is seriously shrunken, wrinkled and tough.
   ii. Mold means that there is a visible growth of mold either on the outside or inside of the kernel.
   iii. Rancidity means that the kernel is noticeably rancid to the taste. An oily appearance of the flesh does not necessarily indicate a rancid condition.
   iv. Decay means that any portion of the kernel is decomposed.
   v. Insect injury means that the insect, frass or web is present, or the kernel or portion of kernel show definite evidence of insect feeding.

§ 982.450 Application of restricted obligation.

(a) Each handler required to withhold restricted hazelnuts pursuant to §982.50 or §982.51 shall hold such hazelnuts separate from all other hazelnuts and shall maintain the identity of each lot so withheld. The restricted product withheld must be reported to the Board on F/H Form 1d, Restricted Inshell Certified.

(b) Each handler making the election pursuant to §982.50(c) in connection with certified merchantable hazelnuts which have not been handled, shall thereupon give written notification to the Board on F/H Form 4 of the particular election and of the weight and identity of the hazelnuts involved.

(c) Pursuant to §982.50(d), a handler may withdraw from withholding restricted hazelnuts in excess of such handler’s restricted obligation upon advising the Board of the weight and lot identity of the hazelnuts to be withdrawn. When the quantity of restricted hazelnuts to be withdrawn consists of a part of a lot of ungraded hazelnuts, no part of such lot shall be withdrawn unless the remainder of such lot is reinspected and meets the requirements of §982.51. Handlers will use F/H Form 1d prior to the end of the marketing year or F/H Form 7 after the end of the marketing year, when reporting the withdrawal of restricted hazelnuts from withholding status.

§ 982.452 Disposition of restricted hazelnuts.

(a) Shelling. (1) Any person desiring to shell restricted hazelnuts during a fiscal year may do so upon being designated by the Board as an authorized sheller for such year. Application for such designation shall be made in duplicate on F/H Form B and include, in addition to the conditions specified in §982.52(a), the following: (i) The location of the applicant’s shelling operation; (ii) the number of years such person has operated a hazelnut shelling plant; and (iii) the daily (8-hour) shelling capacity of the plant. Designation of an authorized sheller shall be effected by the board manager signing the application form and returning a signed copy of the form to the applicant. Each such designation shall continue in effect during the particular fiscal year so long as the authorized sheller is in compliance with the requirements and conditions pursuant to §982.52 applicable to authorized shellers.

(2) When an authorized sheller completes the shelling of a lot of restricted hazelnuts, the sheller shall submit a report thereon to the Board on F/H Form 7 showing: (i) The date shelling was completed; (ii) the inspection certificate or lot number; (iii) the quantity shelled; (iv) the weight of the kernels produced; and (v) the location where restricted hazelnuts were held immediately prior to shelling.

(b) Exports. Any handler who desires to act as agent of the Board in negotiating export sales of certified merchantable restricted hazelnuts may do so upon the execution of an “Export Agreement”, F/H Form A, wherein the handler agrees, among other things, to negotiate such export sales at not less than such price as the Board may prescribe, and in conformity to and compliance with the other terms and conditions of the Export Agreement including those set forth in §982.52(b).

(c) Other authorized outlets. Under the direction or supervision of the Board, a handler may dispose of restricted hazelnuts for charitable purposes and for promoting the consumption of hazelnuts on behalf of the hazelnut industry in general. The report required under

Each interhandler transfer of hazelnuts pursuant to §982.56 (a) and (c) may be made upon notification to the Board in triplicate by the receiving handler on F/H Form 2 signed by both the transferring handler and the receiving handler which shall include the following information: (a) Date of transfer; (b) names of the transferring and receiving handlers; (c) locations between which the hazelnuts were transferred; (d) whether uncertified inshell

(d) Keep a record of receipts, holdings, and use of substandard hazelnuts available for examination by authorized representatives of the Board and the U.S. Department of Agriculture for a period of two years after the end of the marketing year in which the recorded transactions are completed; and

(e) Make such reports, certified to the Board and the Secretary of Agriculture as to their correctness, as the Board with the approval of the Secretary may require.

§ 982.455 Exchange of certified merchantable hazelnuts withheld.

Each handler desiring to exchange hazelnuts pursuant to §982.55 shall prior thereto file a written notification with the Board setting forth for the respective quantities of hazelnuts involved in the exchange, the inspection certificate numbers, quantities, locations, and applicable lot numbers.

§ 982.454 Sureties acceptable to the Board.

Bonds secured by cash, cashier’s or certified checks, or by assets that are entirely separate and apart from the handler named in the bond may be accepted by the Board pursuant to §982.54(a). As a condition of accepting any surety, the Board may require such financial statements or other information relating to the ability of such surety to guarantee a handler’s bond as it deems necessary. Handlers are also required to submit F/H Form C to the Board to document the handler’s execution of a bond.

§ 982.453 Disposition of substandard hazelnuts.

The Board shall maintain a list of approved users who are crushers, livestock feed manufacturers, or livestock feeders, and of the locations of the facilities to which substandard hazelnuts may be shipped. Users interested in purchasing substandard hazelnuts or hazelnut waste must make prior application to the Board on F/H Form D to be included on the approved list of such users. Each handler who disposes of substandard hazelnuts to an approved user shall, upon shipment, report to the Board on F/H Form D1 the quantities disposed of or shipped. Substandard hazelnuts disposed of to an approved user may only be shipped directly to an approved location where the crushing, feed manufacture, or feeding is to take place. The Board may deny approval to any user application, or may remove any user from the approved list when such denial or removal is deemed necessary to ensure control over disposition of substandard hazelnuts. This may occur if the Board determines that substandard hazelnuts are not properly shipped to, or utilized at, approved facilities, in compliance with this requirement. F/H Form D includes the location and description of the disposal facilities to be used as well as a certification to the Board and the Secretary of Agriculture that the applicant will:

(a) Crush, manufacture feed, or feed to livestock such hazelnuts at the location;

(b) Use such hazelnuts for no other purpose than for crushing into oil, manufacturing into livestock feed, or livestock feeding;

(c) Permit such inspection of premises and of hazelnuts received and held, and such examination of books and records covering hazelnut transactions as the Board may require;

(d) Keep a record of receipts, holdings, and use of substandard hazelnuts available for examination by authorized representatives of the Board and the U.S. Department of Agriculture for a period of two years after the end of the marketing year in which the recorded transactions are completed; and

(e) Make such reports, certified to the Board and the Secretary of Agriculture as to their correctness, as the Board with the approval of the Secretary may require.

§ 982.450 Transfer of excess restricted credits.

(a) Notification. Each handler having excess restricted credits who wants to transfer all or a portion thereof to another handler or handlers, may notify the Board accordingly. The Board shall make available to all handlers such information on a weekly basis.

(b) Application. Each handler who has excess restricted credits and desires to transfer them to another handler, may submit such request to the Board on F/H Form 3. This form shall include: (1) The name and signature of the handler requesting the transfer; (2) the name and signature of the designated handler to whom the transfer is to be made; (3) the amount of excess restricted credits to be transferred; and (4) such other information as may be needed by the Board to enable the Board to effect the requested transfer of the excess restricted credits.

(c) Transfer. The Board shall transfer the requested amount of the excess restricted credits from one handler to a designated handler upon receipt of a completed F/H Form 3 together with such information as may be required by this section.

§ 982.460 Late payment and interest charges.

The Board shall impose a late payment charge on any handler failing to pay his assessment within 30 days of the billing date shown on the handler’s assessment statement received from the Board. Such amount shall be shown on the statement as the “Assessment Due”. The late payment charge shall be 5 percent of the unpaid balance of that amount. In the event the handler fails to pay the delinquent amount, including the late payment charge, within 60 days following the billing date, an additional 1 percent interest charge shall be applied monthly thereafter to the unpaid balance, including any accumulated interest. Any amount paid by a handler as assessments, including any charges imposed pursuant to this paragraph, shall be credited when the payment is received in the Board’s office.

All reports shall be submitted to include transactions through the end of each month, or other reporting periods established by the Board, and are due in the Board office on the tenth day following the end of the reporting period. The quantities of inshell hazelnuts handled shall be reported by size. The respective quantities of merchantable or ungraded hazelnuts withheld as restricted product shall be reported separately, and with respect to hazelnuts certified for shelling, or certified kernels withheld, the kernel weight and inshell equivalent weight shall be reported separately by size.

[54 FR 46721, Nov. 7, 1989]

On or before January 15 and July 15, or any other date requested by the Board with the approval of the Secretary, each handler shall:

(a) Report to the Board on F/H Form 6 such handler’s receipts and disposition of inshell hazelnuts and production of hazelnut kernels during the respective preceding six-month period of July 1 to December 31, and the preceding 12-month period of July 1 to June 30; and

(b) Report to the Board on F/H Form 5 such handler’s inventory of hazelnuts as of January 1 and July 1, respectively, showing the quantities of

§ 984.36 Term of office.

The term of office of Board members, and their alternates shall be for a period of two years ending on June 30 of odd-numbered years, but they shall serve until their respective successors are selected and have qualified.

§ 984.37 Nominations.

(a) Nominations on behalf of growers who market their walnuts through cooperative handlers in California shall be submitted on a ballot cast by each such handler for its growers. The vote of each such handler shall be weighted by the kernelweight of the walnuts certified as merchantable during the preceding marketing year for each such handler. The person receiving the highest number of votes for the cooperative grower position shall be the nominee.

(b) Nominations on behalf of independent growers in Group 4, whenever such group represents independent growers and Groups 5 and 6, shall be submitted after ballot by such growers pursuant to an announcement by press releases of the Board to the news media in the walnut producing areas. Such releases shall provide pertinent voting information, including the names of candidates and the location where ballots may be obtained. Ballots shall be accompanied by full instructions as to their markings and mailing and shall include the names of incumbents who are willing to continue serving on the Board and such other candidates as may be proposed pursuant to methods established by the Board with the approval of the Secretary. Each grower in Group 4, whenever such group represents independent growers, and Groups 5 and 6, regardless of the number and location of his walnut orchard(s) shall be entitled to cast only one ballot in the nomination and each vote shall be given equal weight. If the independent grower has orchard(s) in both grower districts he shall advise...

All handlers’ votes shall be weighted by the kernelweight of walnuts certified as merchantable by each handler during the preceding marketing year. Each independent handler in California may vote for the independent handler member nominees and their alternates. However, no independent handler shall have more than one person on the Board either as member or alternate member. The person receiving the highest number of votes for an independent and cooperative handler member position shall be the nominee for that position.

(e) Nominations in the foregoing manner received by the Board shall be reported to the Secretary on or before June 15 of each odd-numbered year, together with a certified summary of the results of the nominations. MARKETING POLICY

§ 984.48 Marketing estimates and recommendations.

(a) Each marketing year the Board shall hold a meeting, prior to September 20, for the purpose of recommending to the Secretary a marketing policy for such year. Each year such recommendation shall be adopted by the affirmative vote of at least six members of the Board and shall include the following, and where applicable, on a kernelweight basis:

(1) Its estimate of the orchard-run production in the area of production for the marketing year;
(2) Its estimate of the handler carryover on August 1 of inshell and shelled walnuts;
(3) Its estimate of the merchantable and substandard walnuts in the production;
(4) Its estimate of the trade demand for such marketing year for shelled and inshell walnuts, taking into consideration trade carryover, imports, prices, competing nut supplies, and other factors;
(5) Its recommendation for desirable handler carryover of inshell and shelled walnuts on July 31 of each marketing year;
(6) Its recommendation as to the free and reserve percentages to be established for walnuts;
(7) Its recommendation of the percentage of reserve walnuts that may be exported pursuant to §984.56, when it determines that the quantity of reserve walnuts that may be exported should be limited;
(8) Its opinion as to whether grower prices are likely to exceed parity; and
(9) Its recommendation for change, if any, in grade and size regulations.

(b) [Reserved]

§ 984.49 Volume regulation.

(a) Free, reserve, and export percentages. Whenever the Secretary finds, on the basis of the Board’s recommendation or other information, that limiting the quantity of walnuts that may be handled in domestic markets for merchantable free walnuts during a marketing year will tend to effectuate the declared policy of the act, he shall establish a free percentage to prescribe the portion of such walnuts which may be handled as free walnuts, and a reserve percentage to prescribe the portion that must be withheld as reserve walnuts. Whenever the Board recommends an export percentage pursuant to §984.48(a)(7), the Secretary shall establish a percentage if he finds it would tend to effectuate the declared policy of the act.

(b) Revision of percentages. (1) On or before February 15 of the marketing year, the Board may recommend that the free percentage be increased and the reserve percentage be decreased. On the basis of the Board’s recommendation or other information the Secretary may establish such revisions. If the reserve percentage is reduced when an export percentage is in effect, an increase shall be made in the export percentage so that the quantity previously authorized for export will not be reduced. If the revised reserve quantity is less than the quantity previously authorized for export the export percentage shall be 100 percent. Upon revision, all reserve obligations that are theretofore accrued on merchantable walnuts certified during such year on the basis of the previously effective percentages shall be adjusted accordingly.

(2) Any time prior to July 1, the Board may recommend an increase in the export percentage, if it finds that there is an insufficient volume of reserve walnuts available for export and additional demand exists, which would not adversely affect the disposition of the oncoming crop. On the basis of the Board’s recommendation or other information, the Secretary may establish such revision.

§ 984.51 Inspection and certification of inshell and shelled walnuts.

(a) Before or upon handling of any walnuts for use as free or reserve walnuts, each handler at his own expense shall cause such walnuts to be inspected to determine whether they meet the then applicable grade and size regulations. Such inspection shall be performed by the inspection service designated by the Board with the approval of the Secretary. Handlers shall obtain a certificate for each inspection and cause a copy of each certificate issued by the inspection service to be furnished to the Board. Each certificate shall show the identity of the handler, quantity of walnuts, the date of inspection, and for inshell walnuts the grade and size of such walnuts as set forth in the United States Standards for Walnuts (Juglans regia) in the Shell. Certificates covering reserve shelled walnuts for export shall also show the grade, size, and color of such walnuts as set forth in the United States Standards for Shelled Walnuts (Juglans regia). The Board, with the approval of the Secretary, may prescribe such additional information to be shown on the inspection certificates as it deems necessary for the proper administration of this part.

(b) Inshell merchantable walnuts certified shall be converted to the kernel weight equivalent at 45 percent of their inshell weight. This conversion percentage may be changed by the Board with the approval of the Secretary.

(c) Upon inspection, all walnuts for use as free or reserve walnuts shall be identified by tags, stamps, or other means of identification prescribed by the Board and affixed to the container by the handler under the supervision of the Board or of a designated inspector and such identification shall not be altered or removed except as directed by the Board. The assessment requirements in §984.69 shall be incurred at the time of certification.

(d) Whenever the Board determines that the length of time in storage or conditions of storage of any lot of merchantable walnuts which has been previously inspected have been or are such as normally to cause deterioration, such lot of walnuts shall be reinspected.
§ 984.52 Processing of shelled walnuts.

(a) No handler shall slice, chop, grind, or in any manner change the form of shelled walnuts unless such walnuts have been certified as merchantable or as suitable for processing pursuant to paragraph (b) of this section. The Board shall establish such procedures as are necessary to insure that all such walnuts are inspected and certified prior to any such processing.

(b) Any lot of shelled walnuts which, upon inspection, fails to meet the minimum standard effective pursuant to §984.50 solely due to excess shriveling may be certified for processing provided that the total amount of shrivel does not exceed 20 percent, by weight, of the lot. All such walnuts must be re-inspected after processing and shall be certified as merchantable if the processed material meets the effective minimum standard. The provisions of this paragraph may be modified by the Secretary, upon recommendation of the Board or other information.

§ 984.54 Establishment of obligation.

(a) Reserve obligation. Whenever free and reserve percentages are in effect for a marketing year, each handler shall withhold a kernelweight of certified merchantable walnuts equal to a quantity derived by the application of the reserve percentage to the kernelweight of certified walnuts. The kernelweight of certified merchantable walnuts which handlers are required to withhold shall be the “reserve obligation.” The walnuts handled for use as free walnuts by any handler in accordance with the provisions of this part shall be deemed to be that handler’s quota fixed by the Secretary within the meaning of section §(a)(5) of the act.

(b) Holding requirements. Each handler shall at all times hold in his possession or under his control in proper storage the kernelweight of certified merchantable walnuts necessary to meet his reserve obligation less: (1) Any quantity which was disposed of by him pursuant to §984.56; and (2) any quantity for which he is otherwise relieved by the Board of responsibility to so hold walnuts.

§ 984.56 Disposition of reserve walnuts.

(a) General. The Board shall have power and authority to sell or dispose of any and all reserve walnuts withheld upon the best terms and at the highest returns obtainable consistent with the ultimate complete disposition of reserve, subject to all conditions of this section. The Board may dispose of reserve walnuts through handlers acting as agents of the Board under the terms and conditions specified by the Board.

(b) Export. The Board may export or authorize the disposition in export to the destinations outside the United States, Puerto Rico, and the Canal Zone, the quantity of reserve walnuts permitted to be exported by the export percentage establishment pursuant to §984.49. Reserve walnuts may be exported by any handler as an agent of the Board under the terms and conditions specified by the Board.

(c) Pooling. At any time during the marketing year a handler may deliver reserve walnuts and any substandard walnuts meeting the minimum kernel content requirements effective pursuant to §984.50(e) to the Board for pooling and crediting against his reserve obligation. Any reserve walnuts that the handler as agent of the Board has not disposed of by the end of the marketing year shall thereafter be delivered to the Board for pooling on demand. The Board shall dispose of these walnuts for use in the following outlets: Government agencies, charitable institutions, poultry or animal feed, walnut oil or other markets non-competitive with markets for merchantable free walnuts. The Board may rent and operate or arrange the use of facilities for storage and disposition of reserve walnuts delivered to it.

(d) Crediting. The kernelweight of walnuts disposed of in accordance with this section shall be credited to the handler’s reserve obligation. At any time during the marketing year, upon a handler’s written request, the Board
§ 984.59 Interhandler transfers.

(a) Within the area of production inshell walnuts may be sold or delivered by one handler to another for packing or shelling and the receiving handler shall comply with the regulations made effective pursuant to this part with respect to such walnuts.

(b) A handler may, for the purpose of meeting his reserve obligation, acquire walnuts from another handler, and any assessments, reserve obligations, and inspection requirements with respect to walnuts so transferred, shall be assumed by the buying handler. The Board, with the approval of the Secretary, may establish methods and procedures including necessary reports for such transfers.

(c) Except as provided in paragraphs (a) and (b) of this section, whenever transfers of walnuts are made from one handler to another, the first handler thereof shall comply with all of the regulations effective pursuant to this part.

§ 984.64 Disposition of substandard walnuts.

Substandard walnuts may be disposed of only for manufacture into oil, livestock feed, or such other uses as the Board determines to be noncompetitive with existing domestic and export markets for merchantable walnuts and with proper safeguards to prevent such walnuts from thereafter entering channels of trade in such markets. Wherever free and reserve percentages are in effect, the kernelweight of any walnuts meeting the minimum kernel content requirements effective pursuant to §984.50(e), may be pooled and the disposition credited to the handler’s reserve obligation pursuant to §984.56. Each handler shall submit, in such form and at such intervals as the Board may determine, reports of (a) his production and holdings of substandard walnuts and (b) the disposition of all substandard walnuts to any other person, showing the quantity, lot, date, name and address of the person to whom delivered, the approved use and such other information pertaining thereto as the Board may specify.

§ 984.65 Compliance.

Except as provided in this subpart, no person shall handle walnuts, inshell or shelled, during any marketing year in which this subpart and any regulations issued by the Secretary hereunder are in effect, unless such person has previously met the obligations imposed by each such regulation and the provisions of this subpart.

§ 984.66 Assistance of the Board in meeting reserve obligation.

The Board may assist any handler in accounting for his reserve obligation and may aid any handler in acquiring walnuts to meet any deficiency in his reserve obligation, or in accounting for, or disposing of reserve walnuts.

§ 984.67 Exemptions.

(a) Exemption from volume regulation. Reserve percentages shall not apply to lots of merchantable inshell walnuts which are of mammoth size or larger as defined in the then effective United States Standards for Walnuts in the Shell, or to such quantities as the Board may, with the approval of the Secretary, prescribe.

(b) Exemptions from assessments, quality, and volume regulations—(1) Sales by growers direct to consumers. Any walnut grower may handle walnuts of his own production free of the regulatory and
assessment provisions of this part if he sells such walnuts in the area of production directly to consumers under the following types of exemptions.

(i) At roadside stands and farmers’ markets;

(ii) In quantities not exceeding an aggregate of 500 pounds of inshell walnuts or 200 pounds of shelled walnuts during any marketing year (at locations other than those specified in (b)(i) of this section); and

(iii) If shipped by parcel post or express in quantities not exceeding 10 pounds of inshell walnuts or 4 pounds of shelled walnuts to any one consumer in any one calendar day.

(2) Green walnuts. Walnuts which are green and which are so immature that they cannot be used for drying and sale as dried walnuts may be handled without regard to the provisions of this part.

(3) Noncompetitive outlets. Any person may handle walnuts, free of the provisions of this part, for use by charitable institutions, relief agencies, governmental agencies for school lunch programs, and diversion to animal feed or oil manufacture pursuant to an authorized governmental diversion program.

(c) Rules and modifications. The Board may establish, with the approval of the Secretary, such rules, regulations and safeguards and such modifications as will promote the objectives of this subpart.

EXPENSES AND ASSESSMENTS

§ 984.68 Expenses.

The Board is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each marketing year for the maintenance and functioning of the Board, and for such other purposes as the Secretary may, pursuant to this part, determine to be appropriate. The Board shall file a proposed budget of expenses and a rate of assessment with the Secretary as soon as practicable after the beginning of each marketing year.

[41 FR 31544, July 29, 1976]

§ 984.69 Assessments.

(a) Requirement for payment. Each handler shall pay the Board, on demand, his pro rata share of the expenses authorized by the Secretary for each marketing year. Each handler’s pro rata share shall be the rate of assessment per kernelweight pound of walnuts fixed by the Secretary times the kernelweight of merchantable walnuts he has certified. At any time during or after the marketing year the Secretary may increase the assessment rate as necessary to cover authorized expenses and each handler’s pro rata share shall be adjusted accordingly.

(b) Reserve walnut pool expenses. The Board is authorized temporary use of funds derived from assessments collected pursuant to paragraph (a) of this section to defray expenses incurred in disposing of reserve walnuts pooled. All such expenses shall be deducted from the proceeds obtained by the Board from the sale or other disposal of pooled reserve walnuts.

(c) Refunds. At the end of a marketing year, funds in excess of the marketing year’s expenses shall be refunded to handlers from whom collected and each handler’s share of such excess funds shall be the amount of assessments he has paid in excess of his pro rata share of the actual expenses of the Board. Excess funds may be used temporarily by the Board to defray expenses of the subsequent marketing year: Provided, That each handler’s share of such excess shall be made available to him by the Board within five months after the end of the year.

(d) Termination. Any money collected from assessments hereunder and remaining unexpended in the possession of the Board upon termination of this part shall be distributed in such manner as the Secretary may direct.

REPORTS, BOOKS, AND OTHER RECORDS

§ 984.71 Reports of handler carryover.

Each handler shall submit to the Board in such form and on such dates as the Board may prescribe, reports
§ 984.72 Reports of merchantable walnuts handled.

§ 984.77 Verification of reports.

For the purpose of verifying and checking reports filed by handlers or the operations of handlers, the Secretary and the Board through its duly authorized representatives shall have access to any premises where walnuts and walnut records are held. Such access shall be available at any time during reasonable business hours. Authorized representatives shall be permitted to inspect any walnuts held and any and all records of the handler with respect to matters within the purview of this part. Each handler shall maintain complete records on the receiving, holding, and disposition of both inshell and shelled walnuts. Each handler shall furnish all labor necessary to facilitate such inspections at no expense to the Board or the Secretary. Each handler shall store all walnuts held by him in such manner as to facilitate inspection and shall maintain adequate storage records which will permit accurate identification with respect to inspection certificates of respective lots and of all such walnuts held or disposed of theretofore. The Board, with the approval of the Secretary, may establish any methods and procedures needed to verify reports.

§ 984.78 Certification of reports.

All reports submitted to the Board as required in this part shall be certified to the Secretary and the Board as to the completeness and correctness of the information contained therein.

§ 984.79 Confidential information.

All reports and records submitted by handlers to the Board, which include data or information constituting a trade secret or disclosing the trade position, or financial condition or business operations of the handler shall be kept in custody of one or more employees of the Board and shall be disclosed to no person except the Secretary.

§ 984.80 Books and other records.

Each handler shall maintain such records of walnuts received, held and disposed of by him as may be prescribed by the Board for the purpose of performing its functions under this subpart. Such books and records shall be retained and be available for examination by authorized representatives of the Board and the Secretary for a period of two years after the end of the marketing year in which the recorded transactions are completed.

These records shall include the following:

(a) The names and addresses of the persons from whom received, and the quantities received from each such person;

(b) The names and addresses of the persons to whom disposal is made, and the quantities disposed of to each such person;

(c) The quantities used by the handler for such purposes as manufacturing, production of oil, and livestock feeding; and

The Committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it for such purposes as the Secretary may, pursuant to this subpart, determine to be appropriate, and for the maintenance and functioning of the Committee during each marketing year. The Committee shall submit to the Secretary a budget for each marketing year, including an explanation of the items appearing therein, and a recommendation as to the rate of assessment for such year.

§ 985.41 Assessments.

Each person who first handles salable oil shall pay to the Committee, upon demand, that handler’s pro rata share of the expenses authorized by the Secretary for each marketing year. Each handler’s pro rata share shall be the rate of assessment fixed by the Secretary times the quantity of oil which the handler handles as the first handler thereof. Funds in excess of those placed in the operating reserve shall be refunded to handlers: Provided, That any sum paid by a first handler in excess of that handler’s pro rata share of the expenses during any marketing year may be applied by the
Committee at the end of such marketing year to any outstanding obligations due the Committee from such person. Each handler’s share of such excess funds shall be the amount of assessments paid in excess of that handler’s pro rata share.

(b) Disposition of funds upon termination of order. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practicable, such funds will be returned pro rata to the first handler from whom such funds were collected.

Such recommendations shall be made prior to February 15, or such other date as the Committee, with the approval of the Secretary, may establish.

(b) At any time during the marketing year for which the Secretary, pursuant to § 985.52(a), has established a salable quantity and allotment percentage for each class of oil, the Committee may recommend to the Secretary that such quantity be increased with an appropriate increase in the allotment percentage. Each such recommendation, together with the Committee’s reason for such recommendation, shall be submitted promptly to the Secretary.

A producer who has changed or changes identity from an individual producer to a partnership or corporate producer, or from a partnership to a corporate or individual producer, or from a corporate to a partnership or individual producer, may for the purpose of establishing the initial and subsequent allotment base, register with the Committee as one and the same person.

(b)(1) Initially, the allotment base for each class of oil shall be established by the Committee for each registered producer, at the option of such producer, as follows:

(i) The average annual number of pounds of oil of that class sold during any two marketing years of the representative base period; or

(ii) The average annual number of pounds of that class of oil sold during the representative period plus 33 1/3 percent of oil of that class currently available for sale; or

(iii) The quantity of that class of oil sold during the 1979 marketing year, plus the quantity of that class of oil currently available for sale.

(2) If a producer has spearmint planted by February 27, 1979, but has no sales history during the representative period, the producer’s allotment base shall be established by multiplying its acreage to be harvested for spearmint oil by the average amount of oil per acre sold in the allotment base of other producers in the state or area, whichever is more representative, in which the acreage is located: Provided, That, the Committee shall review and adjust these allotment bases in accordance with paragraph (c) of this section on the basis of the producer’s sales of spearmint oil.

(c) Periodically, but at least once every five years, the Committee shall review and adjust each producer’s allotment base to recognize changes and trends in production and demand. Any such adjustment shall be made in accordance with a formula prescribed by the Committee with the approval of the Secretary.

The Committee shall designate a Committee employee as reserve pool manager.

(b) Disposition. (1) When, in any marketing year, a producer has produced less than the annual allotment of a class of oil, the producer may, upon notification of the Committee, fill the deficiency with the same class of reserve oil from the producer's prior production.

(2) Prior to March 15 of any year, or such other date as recommended by the Committee and approved by the Secretary, a producer may notify the Committee of a possible deficiency in the producer's ensuing year's production of oil and wishes to use reserve oil from own production to fill the ensuing year's annual allotment. The Committee shall approve the producer's request if the oil is still available at the time of the request.

(3) Under supervision of the Committee, a producer may exchange salable oil for the same class and quantity of reserve oil from own production so long as the oil is properly identified.

(4) When the Committee finds that additional oil is needed to fill the normal market demand, it shall offer all or a portion of the reserve oil for sale to handlers. Offers to sell, extension of offers and withdrawal of offers shall be subject to disapproval by the Secretary. The Committee may establish rules and regulations governing the offers and sale to handlers.

The proceeds from the disposition of reserve oil shall be distributed, after deduction of any expenses incurred by the Committee in receiving, handling, storing, and disposing thereof, to the equity holders or their successors in interest, on the basis of the number of pounds, class of oil and quality credited to each equity holder's account in the pool. A full accounting to each equity holder, or successor in interest, in each reserve pool shall be made by the Committee annually.

§ 985.58 Exempt oil.

(3) In matters relating to recommendation of any program of paid advertising or major program of market promotion pursuant to §987.33, concurrence by at least six members is required.

(d) At all assembled meetings each vote shall be cast in person.

(e) The Committee may vote upon any proposition by mail, or telephone when confirmed in writing within 2 weeks, or telegram, upon due notice and full and identical explanation to all members, including alternates acting as members, but any such action shall not be considered valid unless unanimously approved.

(f) If the total number of members of the Committee is changed pursuant to §987.21, the minimum voting requirements shall be in the same ratio to the revised total number of members, as nearly as practicable, as the minimum voting requirements prescribed in paragraph (c) of this section are to nine.

MARKET DEVELOPMENT

§ 987.33 Research and promotion.

(a) The Committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects, including marketing promotion and paid advertising, designed to assist, improve, or promote the marketing, distribution, and consumption of dates. The expenses of such projects...
shall be paid from funds collected pursuant to §987.72. Upon conclusion of each program, but at least annually, the Committee shall summarize and report on the program status and accomplishments, to its members and the Secretary. A similar report to the Committee shall be required of any contracting party on any paid advertising or major program. Also, for each advertising or major program the contracting party shall be required to maintain records of money received and expenditures and such shall be available to the Committee and the Secretary. The Committee shall, with the approval of the Secretary, establish criteria which will determine such major program.

(b) [Reserved]

§987.34 Development.

As early as practicable, but no later than October 31, the Committee shall prepare and submit to the Secretary, a report setting forth its marketing policy, including data on which it is based, by variety, for regulation of dates in the crop year.

(a) The committee shall consider such factors as: (1) The estimated production of dates during the crop year; (2) the estimated production of DAC dates, export dates, and product dates; (3) the handler carrying on October 1 of dates of those qualities; (4) the estimated trade demand in each outlet during the crop year; and (5) the desirable carryout, by outlet.

(b) If dates to be handled as free dates are not synonymous with those to be handled in DAC outlets, the Committee shall consider such additional factors as: (1) The supply of marketable dates that will be available from the estimated production, and from the October 1 carryin, that could be used as free dates, and (2) the estimated trade demand for free dates during the current crop year, and the desirable carryout for free dates.

(c) The Committee shall submit its recommendation as to grade, size, and container regulations and its recommendation whether free and restricted percentages should be established and if so, the free and restricted percentages and the appropriate withholding factor.

[43 FR 4252, Feb. 1, 1978]

§987.35 Modifications.

In the event the Committee subsequently determines that the marketing policy should be modified due to changing supply or demand conditions, it shall formulate and submit to the Secretary its modified marketing policy along with the data which it considered in connection with such modification.

§987.36 Notice.

The Committee shall give notice through newspapers having general circulation in the area of production or by other means of communication to producers and handlers of the contents of each marketing policy report submitted to the Secretary and of each report modifying such marketing policy. Copies of all such reports shall be maintained in the office of the Committee where they shall be available for examination by producers and handlers.

§987.38 Handlers of record.

Each crop year but no later than October 10 for continuing handlers and prior to handling dates in the case of new handlers, any person desiring to handle dates shall submit a report to the Committee on a form prescribed by it containing the following information with respect to all dates which such person expects to handle:

(a) The name and address of each producer;

(b) The location of each date garden; and

(c) The acreage and estimated current season’s production thereon.

Those reports required to be filed by October 10 shall reflect producers who are signed up with the handlers as of October 1 of the then current crop year. The Committee, with the approval of the Secretary, may issue rules and regulations to carry out the provisions of this section.

[43 FR 4252, Feb. 1, 1978]
§ 987.39 Grade Regulation

§ 987.39 The establishment of minimum standards.

In order to effectuate the declared policy of the act, all dates handled as marketable dates shall meet the requirements of U.S. Grade C, or if for further processing, U.S. Grade C (Dry) of the effective U.S. Standards for Grades of Dates, 7 CFR 52.1001: Provided, That the Secretary, may upon recommendation of the Committee, prescribe other minimum standards of grades and sizes for marketable dates of any variety to be handled in any designated outlet. To aid the Secretary in prescribing such other minimum standards, the Committee shall furnish to the Secretary the data upon which it acted in recommending such standards. The provisions hereof relating to minimum standards of grades and sizes for marketable dates and inspection requirements, within the meaning of section 2(3) of the act, and any other provisions relating to the administration and enforcement thereof shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2(1) of the act. Notice of the minimum standard regulation shall be sent by the Committee to all handlers of record. On and after the effective date of such regulations, no handler shall handle dates except in accordance with such regulations.

§ 987.40 Additional grade or size regulations.

Whenever the Committee deems it advisable to establish grade or size requirements for any variety of dates, in addition to the minimum standard provided pursuant to § 987.39, to govern dates of such variety to be handled in any designated outlet or to be withheld to meet withholding obligation, or both, it shall recommend to the Secretary requirements as to grade based on the effective United States Standards for Grades of Dates or any modification thereof, and such size requirements as it may deem appropriate. If the Secretary finds, upon the basis of such recommendation or other information available to him, that such additional grade or size regulation, or both such regulations, will tend to effectuate the declared policy of the act, he shall establish such regulations. Notice thereof, showing the effective date, shall be sent by the Committee to all handlers of record. On and after the effective date no handler shall handle dates of such variety in any designated outlet or withhold such dates to meet withholding obligation except in accordance with such regulations.

§ 987.41 Inspection.

(a) Packed dates. Prior to handling any dates packed for handling each handler shall, at his own expense, cause: (1) An inspection to be made of such dates in order to ascertain if such dates meet the applicable grade and size requirements prescribed or provided for in this part; and (2) a certification for handling to be made of all such dates as meet such grade and size regulations.

(b) Dates for further processing. Prior to handling any dates for further processing each handler shall, at his own expense, cause: (1) An inspection to be made to ascertain if such dates meet the applicable grade and size requirements effective pursuant to §987.39 or §987.40, except for character associated with moisture; and (2) a certification for further processing to be made of all such dates as meet such grade and size requirements: Provided, That such inspection and certification requirements shall not apply to inter-handler transfers within the area of production of field-run dates or graded dates.

(c) Identification and service. All dates handled shall be identified by seals, stamps, or other means prescribed by the Committee and affixed to the containers by the handlers under the supervision of the Committee or the designated inspectors. Inspection shall be performed by inspectors of the United States Department of Agriculture's Processed Products Standardization and Inspection Branch or such other inspection service as may be recommended by the committee and approved by the Secretary. Handlers shall
§ 987.45 Withholding restricted dates.

(a) Whenever free and restricted percentages for any variety of dates have been established for a crop year by the Secretary in accordance with §987.44, each handler shall, at the time of having dates of such variety certified for handling as free dates (including those for further processing that are to be handled as free dates), withhold from handling a quantity of marketable dates of such variety having a weight equal to the restricted percentage for such variety referable to the dates so far certified. The withholding requirement shall not apply to dates certified for delivery directly to an excess supply removal program of the Secretary. The weight required to be withheld shall be determined by dividing the restricted percentage by the free percentage and applying the resultant withholding factor, rounded to the nearest one-tenth of one percent, to the weight of dates so certified. The withholding factor, computed as aforesaid, shall be established by the Secretary. When pitted dates are certified, the weight to be withheld shall be determined by dividing the weight of the pitted dates certified for handling or further processing by a divisor established by the Committee with the approval of the Secretary and applying the withholding factor.

(b) Compliance by any handler with the withholding of restricted dates may be deferred to any date not later than January 31 of any crop year, upon request to the Committee and when accompanied by a written undertaking that on or prior to such date, he will have fully satisfied his withholding obligation. Such undertaking shall be secured by a bond or bonds to be filed with, and acceptable to, the Committee and with a surety or sureties acceptable to the Committee, running in favor of the Committee and the Secretary in an amount conditioned upon full compliance with such undertaking. The amount shall be determined by multiplying the poundage of the deferred restricted obligation by a bonding rate per pound which would provide funds estimated to be sufficient for the Committee to purchase on the open market a volume of dates equivalent to the deferred obligation. Such bonding...
§ 987.45 7 CFR Ch. IX (1–1–02 Edition)

rate shall be established annually, and modified as necessary, by the Committee. Any sums collected through default by a handler on his bond shall be used by the Committee to purchase dates to meet the violated restricted obligation, reimburse the Committee for expenses relative to the default, and any excess money remaining shall be refunded to the defaulting handler. The dates so purchased by the Committee shall be turned over to the defaulting handler for disposition as restricted dates. In the event the Committee is unable to purchase a poundage of dates equal to the defaulted volume, the sums collected shall, after reimbursement of Committee expenses in connection with the default, be distributed among all handlers other than the defaulting handler in proportion to the volume of certified dates handled as free dates (including those for further processing that were handled as free dates), during the crop year in which the default occurred.

(c) At any time during the crop year free dates may be inspected and certified for handling or for further processing as provided in §987.41. Dates so certified shall, at the time of certification, be identified by appropriate seals, stamps, or tags to be furnished by the Committee and to be affixed to the containers by the handler under the direction and supervision of the Committee or its designated inspectors. The assessment requirements in §987.72 as well as the withholding obligation prescribed in paragraph (a) of this section shall be met at the time of certification. However, a handler who has had more free dates certified for handling or further processing than he subsequently shipped or otherwise handled may, upon request to the Committee and with its approval, have any of such excess quantity of the certified dates suspended from certification of record or, if damaged or the outlet changed, removed from certification, and his withholding and assessment obligations adjusted accordingly. A handler, who has had dates certified for handling or further processing and has not had them so suspended from certification of record or removed from certification, may carry such certified free dates over into the new crop year and need not pay the assessment nor meet the requirements of any withholding percentages established for such year.

(d) Dates withheld to meet the withholding obligation shall be stored at the expense of the handler, in storage of his own choosing and disposed of in accordance with §987.55. All such dates shall be inspected and identified by appropriate seals, stamps, or tags to be furnished by the Committee and to be affixed to the containers by the handler under the direction and supervision of the Committee or its designated inspectors. All withholding and movement of restricted dates, shall be subject to the supervision and accounting control of the Committee and reports shall be filed as required by this part. Any handler who during a crop year disposes in restricted outlets of a quantity of marketable dates in excess of his withholding obligation of such year may: (1) On written request delivered to the Committee not later than September 30 of such crop year have a part or all of such excess transferred, by the Committee, to such other handler or handlers as he may name, for crediting such other handlers' withholding obligations incurred in that crop year; and in addition (2) have a part or all of the remainder of such excess credited to his restricted obligation of the subsequent crop year: Provided, That the amount of any such credit shall not exceed that established by the Committee, with the approval of the Secretary, as the percentage of such withholding obligation.

(e) On request to the Committee and with its approval, a handler may, in accordance with the provisions of this paragraph and any applicable rules and regulations which the Committee may prescribe with the approval of the Secretary, defer until any date not later than September 30 of the crop year the meeting of any portion of his obligation to withhold restricted dates by setting aside such amount of graded dates as will assure a quantity of marketable dates equal at least to the quantity needed to be withheld to meet his withholding obligation. With respect to any such dates the handler may set aside in connection with such
§ 987.46 Revisions of percentages.

The Secretary may, on recommendation of the Committee submitted prior to January 31 of the crop year, or on the basis of other information available to him, increase the free percentage to conform with such new relation as may be found to exist between trade demand for free dates and available supply of marketable dates of applicable grade and size. Upon any revision in the free and restricted percentages the control obligation of each handler with respect to free dates handled or certified for handling or for further processing by him for the entire crop year shall be recomputed in accordance with such revised control percentages. The handler shall be permitted to select, insofar as practicable, under the supervision and direction of the Committee, any field-run dates set aside will be held separate and apart from other dates and appropriately marked; (2) such dates will not be removed from the stacks in which so set aside for substitution of other dates, disposition, or for any other reason without prior written permission of the Committee; and (3) inspection of said dates by the Committee will be permitted at any reasonable time. In order to satisfy a withholding obligation by direct disposal of field-run dates into cull outlets, the disposal shall be under the supervision of the Committee and through persons on a Committee approved list of feeders and manufacturers. The handler may, upon giving prior notice to the Committee of any of the following proposed actions with respect to field-run dates withheld and obtaining its approval, (i) dispose of any such set-aside, field-run dates in the same manner as provided for direct disposal (ii) grade such dates and have the graded dates certified as marketable dates and withhold or dispose of such marketable dates as restricted dates, or (iii) substitute for the set-aside, field-run dates an equivalent quantity of marketable dates which he shall withhold or dispose of as restricted dates.

§ 987.47 Surplus.

All cull dates and all substandard dates, including such dates blended with varieties within the generic term dates not regulated by this part, except any utility dates released to human consumption outlets pursuant to § 987.36, are surplus dates of any crop year. No handler shall ship or deliver such surplus dates to other than the Committee or its designee(s) for disposition in eligible outlets for such dates, except that any producer or handler may dispose of any such surplus dates of his own production within his own livestock feeding operations. Surplus dates delivered to the Committee shall be disposed of by it, in those outlets specified in § 987.56, at the best prices attainable and the proceeds returned pro rata, after deduction of Committee costs, to equity holders. The Committee may assist handlers with the cleaning, storage, or delivery of surplus dates and may, with the approval of the Secretary, establish rules and regulations necessary and incidental to administration of this regulation.

CONTAINER REGULATION

§ 987.48 Container regulation.

Whenever the Committee deems it advisable to establish a container regulation for any variety of dates, it shall recommend to the Secretary the size, capacity, weight, or pack of the container, or containers, which may be used in the handling or packaging of dates, or both. If the Secretary finds upon the basis of such recommendation or other information available to him that such container regulation would tend to effectuate the declared policy of the act he shall establish such regulation and notice thereof showing the effective date shall be sent by the Committee to all handlers of record. After the effective date of such regulation, no handler shall handle dates of such variety except in accordance with such regulation and all other applicable requirements in effect pursuant to this part.

QUALIFICATIONS TO REGULATION

§ 987.50 Application after end of crop year.

Unless otherwise specified the regulations and the bonding rates established for any crop year shall continue in effect with respect to all free dates for which control obligations have not been previously met, until regulations and bonding rates are established for the new crop year. Thereupon the withholding obligations for all free dates handled or certified for handling or for further processing during such crop year shall be adjusted to the newly established percentages and a similar adjustment shall be made in any bond or bonds already given for that crop year.

§ 987.51 Interhandler transfers.

Transfers of dates may be made from one handler to another, and each handler who so transfers any such dates shall immediately upon the completion of the particular transfer notify the Committee of the transfer, specifying the date of the transfer, the quantity and variety of dates involved, and the name of the receiving handler. If such transfer is wholly within the area of production, the assessment and withholding obligations shall be placed on the handler agreeing to assume them: Provided, That in the absence of the Committee receiving notice of a specific agreement on such obligations, the buying handler shall be held accountable. If such transfer is from within the area of production to any point outside thereof, the assessment and withholding obligations shall be met by the handler within the area of production. Except for packed dates inspected and certified for handling prior to transfer and which are not repacked, any receiving handler (other than a repacker not otherwise a handler, who shall comply with § 987.53) shall comply with the requirements of § 987.41 on all dates, but this shall apply to repacked dates previously inspected and certified for handling only if the handler
§ 987.52 Exemption.

The Committee may exempt from regulation, upon written request of any producer or handler, the dates he sells to consumers through roadside stands, local date shops, mail order or specialty outlets, if it determines that the particular request is not likely to materially interfere with the objectives of this part. All dates handled pursuant to exemptions under this section shall be reported to the Committee in such manner and in such form as the Committee may prescribe. The Committee shall issue, with the approval of the Secretary, appropriate rules and regulations establishing the bases on which exemptions may be granted.

§ 987.53 Application of regulations to repackers.

Repackers shall be exempt from those requirements of this part, including reporting requirements, with respect to packed dates which had been certified for handling, pursuant to §987.41(a), prior to receipt, except that:

(a) A repacker who processes such dates by machine pitting shall comply with the grade, size, inspection, certification, and identification requirements, and

(b) a repacker who repackages such dates in containers other than those in which received, shall comply with the then effective container regulations established pursuant to §987.48.

The Committee, with the approval of the Secretary, may prescribe rules and regulations governing the opportunity to participate in such sales. The provisions of this section shall not preclude restricted dates being disposed of in outlets for utility and cull dates prescribed in §987.56.

Any person may become an approved manufacturer or feeder if he (1) submits an application to the Committee in which he agrees, as a condition to approval of his application, to furnish to the Committee such information as it may require and to comply with the requirements and restrictions relative to the use and disposition of such dates, as set forth in this part, and (2) receives from the Committee written approval of his application. Such reports shall be filed within 10 days of the date of the carryover. These reporting dates specified may be changed, upon recommendation of the Committee, together with substantiation of the need therefore, with the approval of the Secretary.

§ 987.63 Reports on restricted dates withheld.

Each handler from time to time, on demand of the Committee, shall file with it a report of the restricted dates withheld by him in satisfaction of his withholding obligation. Such reports shall show such information as the Committee may require and may be in such form as the Committee may prescribe.

§ 987.64 Reports on disposition of restricted, other marketable, utility, and cull dates.

Each handler disposing of any dates pursuant to §§ 987.55 and 987.56 shall promptly thereafter report such disposition to the Committee in such form as the Committee may prescribe.

§ 987.65 Other reports.

Upon request of the Committee each handler shall furnish to it in such manner and at such times as it prescribes, such other information as will enable the Committee to perform its duties and exercise its powers hereunder.

§ 987.66 Certification of reports.

§ 987.67 Confidential information.
All data or other information constituting a trade secret or disclosing a trade position or business condition shall be received by, and kept in the custody of, one or more designated employees of the Committee and information which would reveal the circumstances of a single handler shall be disclosed to no person other than the Secretary.

§ 987.68 Verification of reports and records.
For the purpose of checking compliance with record keeping requirements and verifying reports filed by handlers, the Secretary and the Committee, through its duly authorized employees, shall have access to any premises where dates are held and, at any time during reasonable business hours, shall be permitted to examine any dates held and any and all records with respect to matters within the purview of this part. Handlers shall furnish labor necessary to facilitate such examinations at no expense to the Committee. All handlers shall maintain complete records establish and which accurately show the quantity of dates handled, disposed of, and withheld. The Committee, with the approval of the Secretary, may establish the type of records to be maintained. Such records shall be retained by handlers for not less than two years subsequent to the termination of each crop year.

EXPENSES AND ASSESSMENTS

§ 987.71 Expenses.
The Committee is authorized to incur such expenses, including maintenance of an operating reserve fund, as the Secretary may find are reasonable and are likely to be incurred by it during each crop year for the maintenance and functioning of the Committee and for such other purposes as he determines to be appropriate. The recommendation of the Committee as to total expenses and allocation thereof for each crop year, together with all data supporting such recommendation, shall be submitted to the Secretary within a reasonable time after the marketing policy for each crop year is recommended.

§ 987.72 Assessments.
(a) Requirement for payment. Each handler shall pay to the Committee upon demand, on all dates he has certified as meeting the requirements for marketable dates and utility dates utilized in product outlets including the eligible portion of any field-run dates certified and set aside or disposed of pursuant to §987.45(f), his pro rata share of all expenses which the Secretary finds are reasonable and likely to be incurred by the Committee during each crop year. Should the condition arise wherein the utility portion of dates handled in certain other outlets should not be, in the opinion of the Committee, subject to the payment of assessments on that portion, the Committee may recommend and the Secretary approve by rulemaking, such exclusion. Each handler’s pro rata share shall be the rate of assessment per hundredweight fixed by the Secretary. At any time during or after a crop year the Secretary may increase such assessment rate to secure sufficient funds to cover unanticipated expenses or a deficit in assessable poundage. Any such increase shall apply to all assessable poundage of the crop year. The Committee may accept payments of assessments in advance and may borrow money in any amount not to exceed 10 percent of the estimated expenses set forth in its budget for the then crop year. The assessment weight of pitted dates shall be determined by dividing the weight of such dates by a divisor established by the Committee with the approval of the Secretary.
(b) Surplus expenses. The Committee is authorized to use temporarily funds derived from assessments collected pursuant to paragraph (a) of this section to defray expenses incurred in disposing of surplus dates. All such expenses shall be deducted from the proceeds obtained by the Committee from such disposal.
(c) Operating reserve. The Committee, with the approval of the Secretary, may establish and maintain during one or more crop years an operating monetary reserve in an amount not to exceed 50 percent of the average of expenses incurred during the most recent five preceding crop years, except that an established reserve need not be reduced to conform to any recomputed average. Funds in reserve shall be available for use by the Committee for expenses authorized pursuant to §987.71.

(d) Refunds. Funds held by the Committee at the conclusion of the crop year in excess of the crop year’s expenses, including reserve requirements, may be used to defray expenses for no more than the ensuing four months, and thereafter within a reasonable time the Committee shall credit, or upon demand, refund the aforesaid excess to handlers who contributed to such excess: Provided, That the excess due any handler may be applied, in whole or in part, by the Committee to any outstanding obligation due the Committee from such handler. A handler’s share of the excess funds shall be the amount of assessments he paid in excess of his actual pro rata share of the expenses, including reserve requirements, of the Committee for the preceding crop year. Upon termination of this subpart any money in possession of the Committee shall be distributed pro rata to the persons from whom such funds were collected.

Prior to applying the markings required by this section, each handler shall remove or delete from each container all former identifying marks which conflict with those applicable to the dates currently in the container. Dates of each outlet category shall be held, stored, or shipped in a manner to preserve their identity. Except as provided in paragraph (d) of this section, the markings on the containers shall be not less than five-sixteenths (5/16) inch in height on containers exceeding 5 pounds net weight and not less than one-eighth (1/8) inch in height on smaller containers. All markings shall be legible.

(b) DAC dates. Each handler shall mark every shipping or storage container (excluding subcontainers) of DAC dates with his name or that of the distributor for whom the handler is packing, and the lot number. Under the supervision of the inspection service every container shall be marked with the date of inspection, the name or insignia of the inspection service, and the letters “DAC”.

However, “Export Mexico” shall be in letters not less than three-fourths (3/4) inch in height on containers exceeding 5 pounds net weight, and not less than one-eighth (1/8) inch in height on smaller containers. Whenever a handler, or an approved date product manufacturer, utilizes a procedure that maintains the identity of the lot and assures that the dates will be used in products or exported, the Committee may waive the requirements of this paragraph for that lot.

(f) Unidentified dates. If a handler loses the identity of any lot of dates
§ 987.112a Grade, size, and container requirements for each outlet category.

(a) In lieu of the minimum standards prescribed in §987.39, the following standards are prescribed as the minimum grades and sizes for marketable dates to be handled in the applicable outlets. These standards shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2(1) of the act.

(b) DAC dates. (1) All varieties of DAC dates may be handled in the United States, Canada, or any other outlet established for dates of lesser grades or sizes.

(2) DAC dates of any variety shall at least meet the requirements of U.S. Grade B, except that up to 25 percent, by weight, of the dates may possess semi-dry or dry calyx ends, but not more than 5 percent, by weight, of the dates may possess dry calyx ends. Also, with respect to whole dates of the Deglet Noor variety, the individual dates in the sample from the lot shall weigh at least 6.5 grams, but up to 10 percent, by weight, may weigh less than 6.5 grams, except beginning February 21, 1997, and ending October 31, 1997, the 10 percent tolerance shall be increased to 15 percent. These size requirements are in addition to, and do not supersede, the requirements as to uniformity of size prescribed in the grade standards.

(c) Dates for further processing. (1) Except as provided in §987.152(b)(1), all varieties of FP dates may be disposed of only (i) to persons in the United States capable of processing and packing the dates and having them certified as DAC dates, or (ii) exported to the countries designated in paragraph (d)(2) of this section.

Also, with respect to whole dates of the Deglet Noor variety, the individual dates in the sample from the lot shall weigh at least 6.5 grams, but up to 10 percent, by weight, may weigh less than 6.5 grams, except beginning February 21, 1997, and ending October 31, 1997, the 10 percent tolerance shall be increased to 15 percent. Such dates shall at least meet U.S. Grade C (dry) except for defects removable by washing: Provided, That Deglet Noor dates shall score not less than 31 points for character and 24 points for absence of defects but up to 40 percent, by weight, of the dates may be damaged by broken skin.

(3) Dates of any variety identified as “Export—Mexico” and inspected and certified as at least meeting the requirements of U.S. Grade C may be exported only to Mexico. No dates shall be exported to Mexico unless the handler certifies to the Committee and the U.S. Department of Agriculture, on CDAC Form No. 11(a), which shall be submitted to the Committee, that the importing buyer has agreed that such dates will not reenter the United States or be shipped to Canada. The form shall show the identity of the handler, the trucker, the importer, the destination of the dates, the location of the border-crossing station, and such other information as the Committee deems appropriate to perform its duties and exercise its powers under this part.

(e) Product dates. (1) Dates of any variety identified as “Product” dates and inspected and certified as at least meeting the requirements of this paragraph may be disposed of by handlers for use or used by them in the production of table syrup, rings, chunks, pieces, butter, paste, and macerated dates or other products approved by the Committee. If the handler does not use the dates in products, he may sell them to: (i) Other handlers within the area of production for conversion into products, or (ii) to date product manufacturers approved by the Committee regardless of their location. Once the dates have been converted from their whole or pitted form, they may be shipped to any market in the United States, Canada, or foreign country.

(2) Product dates of any variety and identified as “Product” shall meet the requirements of U.S. Grade C, except that mashing and mechanical injury not affecting eating quality shall not be considered in determining the defect factor.

(f) Change of outlet. A handler may change the outlet category for any lot of dates: Provided, That prior to such change, the handler files a completed CDAC Form No. 1(a) and a new inspection certificate with the Committee. If the grade and size requirements of the new outlet category are the same as or less than the requirements of the outlet category previously intended, only a condition inspection is required. If the grade and size requirements of the new outlet category are greater, a complete inspection is required. The handler shall change the marking on the
containers to conform with the identification requirements prescribed in §987.112 for the new outlet.

(g) Deteriorated dates. Any marketable dates which deteriorated in quality so that they are either utility or cull dates may be disposed of only in the applicable outlets for such dates or they may be reconditioned and upon reconditioning, the modified lot may be reinspected and recertified, as applicable.

All ballots shall provide for write-in candidates and must be returned by the close of business on the polling date to be counted.

(b)(1) Producers. Each producer may vote for three producer members and three producer alternate members. No producer may vote more than once for any one person. The three individuals receiving the highest number of votes for the producer member positions shall be the producer member nominees. Individuals nominated for producer member and failing to receive enough votes to become a producer member nominee shall have their names listed with those nominated for producer alternate members and the votes cast for them as member shall be counted with any votes they received for producer alternate member. The three individuals receiving the highest number of votes for the producer alternate member positions shall be the producer alternate member nominees.

§ 987.145 Withholding obligation.

(a) Satisfying the withholding obligation. Any handler may satisfy all or part of his withholding obligation for any variety of dates for which free and restricted percentages have been established by having an adequate quantity of that variety inspected and certified as meeting the applicable grade, size, and container requirements prescribed by the Committee for any approved restricted date outlet.

(b) Credit for excess disposition in restricted outlets. Disposition of marketable dates in restricted outlets in excess of a handler’s withholding obligation may be: (1) Transferred pursuant to § 987.45 upon such handler filing a completed CDAC Form No. 12 to set aside graded dates or CDAC Form No. 13 to set aside field-run dates; and (2) the pledged dates are set aside as a lot and identified by the handler as “Restricted” and as “Graded” or “Field-Run”, as appropriate, and as to the number of containers, the date of set-aside and whether or not the dates have been inspected. If the handler sets aside field-run dates or disposes of field-run dates in outlets prescribed in or pursuant to § 987.56 to obtain withholding credit for the sound date portion in the lot, the field-run dates shall meet the requirements prescribed in paragraph (f) of this section for eligible field-run dates, as determined by the inspection service.

(e) Identification of restricted dates. Any lot of restricted dates not immediately disposed of through exportation to countries approved by the Committee or directed to approved product outlets shall be stored as a lot separate from all other dates and in a specified location for the crop year in which such excess disposition occurred. All such crediting or accumulation shall be contingent upon the Committee receiving, in due course, confirmation that the dates were disposed of in eligible restricted outlets. With respect to exports, the withholding credit shall be granted upon the Committee receiving notification from the inspection service, and in due course a copy of the on board bill of lading or other documentary evidence satisfactory to the Committee.

(g) Substitution. Any handler may, under the direction and supervision of the Committee or the inspection service, substitute for any quantity of restricted dates held by him a like quantity of dates of the same variety and of the same or more recent year's production which have been certified and identified as meeting the requirements for restricted dates.  

§ 987.152 Exemption from regulations.  
(a) Producer exemption. The Committee may permit any producer to sell dates from such producer's own production free of the requirements of §§987.41, 987.45, 987.48, and 987.72 when sold directly to consumers through a roadside stand or date shop owned or operated by the producer within 25 miles of the city limits of Indio, California, through shipments by parcel post or express, or by certified producers at certified farmers' markets, as these terms are defined by the State of California. The applicant shall indicate on such form the products he intends to make, the quantity of dates he may use, and the location of his facilities. In addition, as a condition of approval, the applicant shall agree on such form not to use any of the products dates for sale as whole or pitted dates, to file a report of the disposition of each lot on the Committee’s Form No. 8, and to make shipments by common carrier of up to 150 pounds to any one purchaser in any one day exempt from the provisions of §§987.41(a) and 987.49, or to make shipments by common carrier of up to 150 pounds to any one purchaser in any one day exempt from the provisions of §§987.41(a): Provided, That the hand-layered dates or the shipment to a single purchaser in any 1 day have been packed from dates certified as meeting the grade requirements for DAC dates and have not been commingled with other dates. Permission to use these exemptions shall be granted only upon the handler filing with the Committee its CDAC Form No. 10 wherein he describes how he plans to sell, and agrees to sell only specific dates and to report such sales.

(2) Donations. The Committee may permit any handler to donate marketable dates other than DAC dates to needy persons, prisoners, or Indians on reservations. Before such donation is made, such handler shall file a request for donation with the Committee detailing the quantity and grade of dates involved and the name and address of the intended donee. The Committee shall approve or disapprove each such application on the basis of the information furnished or its own investigation, and may revoke any approval for cause. The Committee shall meet at the call of the chairman, or vice-chairman when acting as chairman, or at the call of any three members. All decisions of the Committee reached shall be by majority vote of the members present. All votes shall be cast in person and a quorum must be present. The presence of 25 members shall be required to constitute a quorum. The Committee shall give to the Secretary the same notice of meetings of the Committee as it gives to its members.

§ 989.39 Compensation and expenses.
The members and alternate members of the committee shall serve without compensation, but shall be allowed their necessary expenses as approved by the committee.

§ 989.54 Marketing policy.

(a) Trade demand. On or before August 15 of each crop year, the Committee shall hold a meeting to review shipment data, inventory data, and other matters relating to the quantity of raisins of all varietal types. For any varietal type for which a free tonnage percentage may be recommended, the Committee shall compute a trade demand. The trade demand shall be 90 percent of the prior crop year’s shipments (converted to a natural condition weight) of free tonnage and reserve tonnage sold for free use for that varietal type, into all market outlets, adjusted by the carryin on August 1 of the current crop year and the desirable carryout for the varietal type at the end of that crop year. If the prior year’s shipments were limited because of crop conditions, the Committee may select the shipments of one of the three years preceding the prior crop year. The desirable carryout shall be increased from 45,000 to 60,000 tons for Natural (sun-dried) Seedless raisins at a rate of 5,000 tons per year for three crop years following the effective date of this amended subpart. The desirable carryout for Dipped Seedless raisins shall be 1,500 tons, and for Oleate and Related Seedless raisins, 1,500 tons. The trade demand computed by the Committee shall be announced by the Committee in accordance with paragraph (h) of this section.

(b) Preliminary percentages. On or before October 5 of each crop year (except that the Committee may extend this date not more than five business days if warranted by a late crop), the Committee shall estimate the production of any varietal type of raisins for which it has computed a trade demand. If the Committee determines that volume regulation is desirable during the crop year for that varietal type, it shall compute and announce preliminary free and reserve percentages for that varietal type: Provided, That such production estimate shall include by varietal type the raisins handlers are expected to acquire from producers and the total tonnage of raisins diverted under a raisin diversion program. The Committee shall compute a preliminary free percentage to release 85 percent of the computed trade demand, if it determines that a field price has been established for that varietal type, or 65 percent of the trade demand if no field price has been established. The preliminary free percentage shall be computed by multiplying the trade demand by either 85 percent or 65 percent (as the case may be) and dividing the product by the estimated production of that varietal type and rounding the resulting percentage to the nearest full percent. The difference between 100 percent and the preliminary free percentage shall be the preliminary reserve percentage.

(c) Interim percentages. Prior to February 15, the Committee may modify the preliminary free and reserve percentages to release less than the trade demand.

(d) Final percentages. No later than February 15, the Committee shall recommend to the Secretary, final free and reserve percentages which will tend to release the full trade demand for any varietal type for which preliminary or interim percentages have been computed and announced. The difference between any final free percentage designated by the Secretary and 100 percent shall be the final reserve percentage. With its recommendation, the committee shall report on its consideration of the factors in paragraph (e) of this section.

(e) Factors. When computing preliminary and interim percentages, or determining final percentages for recommendation to the Secretary, the
Committee shall give consideration to the following factors:

1. The estimated tonnage held by producers, handlers, and for the account of the Committee at the beginning of the crop year;
2. The expected general quality and any modifications of the minimum grade standards;
3. The estimated tonnage of standard and off-grade raisins which will be produced;
4. If different than the computed trade demand, the estimated trade demand for raisins in free tonnage outlets;
5. If not estimated as provided in paragraph (a) of this section, an estimated desirable carryout at the end of the crop year for free tonnage and, if applicable, for reserve tonnage;
6. The estimated market requirements for raisins outside free tonnage outlets, considering the estimated world raisin supply and demand situation;
7. Current prices being received and the probable general level of prices to be received for raisins by producers and handlers;
8. The trend and level of consumer income;
9. Any prohibition of trade practices, pursuant to §989.62 intended for the crop year; and
10. Any other pertinent factors bearing on the marketing of raisins including the estimated supply of and demand for other varietal types and regulations applicable thereto.

(f) Modification. In the event the Committee subsequently deems it advisable to modify its marketing policy on any crop, because of national emergency, crop failure, or other major change in economic conditions, it shall hold a meeting for that purpose, and file a report thereof with the Secretary within 5 days (exclusive of Saturdays, Sundays, and holidays) after the holding of such meeting, which report shall show such modification and the basis therefor.

g) Reserve tonnage to sell as free tonnage. On or before November 15 of the crop year, the Committee shall make two simultaneous offers of reserve tonnage to handlers to sell as free tonnage for each varietal type for which preliminary percentages have been computed and announced. One offer shall consist of a quantity equal to 10 percent of the prior year’s (or the alternative year selected by the Committee pursuant to paragraph (a) of this section) shipments of free tonnage and reserve tonnage sold for free use into all market outlets to equate the current year’s supply with the prior year’s shipments. This offer shall be allocated to handlers on the basis of their prior year’s acquisitions. The second offer, to provide for market expansion, shall consist of a quantity equal to 10 percent of the prior year’s (or the alternative year selected by the Committee pursuant to paragraph (a) of this section) shipments of free tonnage and reserve tonnage sold for free use. This offer shall be allocated to handlers on the basis of their prior year’s shipments of free tonnage and reserve tonnage sold for free use. Each offer shall be open to handlers not more than five business days, and subsequently, two offers of any tonnage unsold in the original offers open not more than two business days each, may be made. The reoffer tonnage shall be allocated to handlers who purchase 100 percent of their allocation in preceding offers, and shall be on the basis of the quantity each handler purchased, as a percentage of the total quantity purchased by all handlers eligible to participate. At the close of the second reoffer, any remaining tonnage may be offered to handlers who purchased all of their allocations from previous offers on a first-come first-served basis and such offer shall be open to handlers for one business day. Any handler who had no shipments or acquisitions of raisins during the prior crop year will be allocated raisins under these offers on the basis of his acquisition (up to the time the original offer is made) of raisins in the current crop year. If field prices are not established, the offer shall be made not more than fifteen days following such establishment. The price of reserve tonnage raisins offered to handlers to sell as free tonnage, pursuant to this paragraph, shall be the established field price for free tonnage raisins of that varietal type, plus 3 percent of the established field price, plus
the estimated costs incurred by the Committee for equity holders.

(h) Publicity. The Committee shall promptly give reasonable publicity to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each meeting to consider a marketing policy or any modification thereof, and each such meeting shall be open to them. Similar publicity shall be given to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each marketing policy report or modification thereof, filed with the Secretary and of the Secretary’s action thereon. Copies of all marketing policy reports shall be maintained in the office of the Committee, where they shall be made available for examination by any producer, dehydrator, handler, or cooperative bargaining association representative.

The Committee shall notify handlers, dehydrators and the cooperative bargaining association(s), and give reasonable publicity to producers of its computation of the trade demand, preliminary percentages, and interim percentages and shall notify handlers, dehydrators, and the cooperative bargaining association(s) of the Secretary’s action on percentages by registered or certified mail.

§ 989.55 Regulation by the Secretary.

Whenever the Secretary finds, from the recommendation and supporting information supplied by the Committee or from other available information, that to designate final free and reserve percentages for any varietal type of standard raisins acquired by handlers, during the crop year will tend to effectuate the declared policy of the Act, the Secretary shall designate such percentages. In the event the Secretary finds that suspension or termination of any percentages computed by the Committee or designated by the Secretary tend to effectuate the declared policy of the Act, the Secretary shall suspend or terminate such percentages.

§ 989.56 Raisin diversion program.

(a) Announcement of program. On or before November 30 of each crop year, the committee shall hold a meeting to review production data, supply data, demand data, including anticipated demand to all potential market outlets, desirable carryout inventory, and other matters relating to the quantity of raisins of all varietal types. When the committee determines that raisins exist in the reserve pool in excess of projected market needs for any varietal type, it may announce the amount of such tonnage eligible for diversion during the subsequent crop year. At the same time, the committee shall determine and announce to producers, handlers, and the cooperative bargaining association(s) the allowable harvest cost to be applicable to such diversion tonnage. A production cap of 2.75 tons of raisins per acre shall be established for any production unit approved for participation in a diversion program. The committee, with the approval of the Secretary, may recommend, at the same time that the diversion tonnage for that season is announced, a change in the production cap for that season’s diversion program of less than 2.75 tons per acre for any production unit approved for the diversion program.

(b) Voluntary diversion. No producer shall be required to participate in any raisin diversion program.

(c) Issuance of diversion certificates. After the committee announces a raisin diversion program, any producer may divert grapes of the producer’s own production and receive from the committee a diversion certificate in accordance with the applicable rules and regulations. Such certificates may
only be submitted by producers to handlers in accordance with applicable rules and regulations. Diversion certificates issued by the committee shall apply to a specific production unit and shall be equal to the creditable fruit weight, not to exceed the production cap established pursuant to paragraph (a) of this section, of such raisins produced on such unit during the prior crop year or the last prior crop year eligible for such diversion: Provided, That in the case of a production unit, or partial production unit, removed from production through vine removal or other means established by the committee, the committee may issue a diversion certificate in an amount greater than the creditable fruit weight of the raisins produced therein or the production cap applicable.

(d) Redemption of diversion certificates. Handlers may redeem diversion certificates for reserve pool raisins. To redeem a certificate, a handler must present the diversion certificate to the Committee and pay the Committee an amount equal to the harvest cost it has established, plus an amount equal to the payment for receiving, storing, fumigating, handling, and inspecting reserve tonnage raisins specified in §989.401 for the entire tonnage represented on the certificate. Upon receipt of the diversion certificate, the Committee shall note on the certificate that it is cancelled.

(e) Implementation of the program. The Committee shall establish, with the approval of the Secretary, such rules and regulations as may be necessary for the implementation and operation of a raisin diversion program.

GRADE AND CONDITION STANDARDS

§ 989.58 Natural condition raisins.

(a) Regulation. No handler shall acquire or receive natural condition raisins which fail to meet such minimum grade and condition standards as the committee may establish, with the approval of the Secretary, in applicable rules and regulations: Provided, That a handler may receive raisins for reconditioning and may receive or acquire off-grade raisins for use in eligible non-normal outlets: And provided further, That a handler may acquire natural condition raisins which exceed the tolerance established for maturity under a weight dockage system established pursuant to rules and regulations recommended by the committee and approved by the Secretary. Nothing contained in this paragraph shall apply to the acquisition or receipt of natural condition raisins of a particular varietal type for which minimum grade and condition standards are not applicable or then in effect pursuant to this part.

(b) Changes in minimum grade and condition standards for natural condition raisins. The committee may recommend to the Secretary changes in the minimum grade and condition standards for natural condition raisins of any varietal type and may recommend to the Secretary that minimum grade and condition standards for any varietal type be added to or deleted. The committee shall submit with its recommendation all data and information upon which it acted in making its recommendation, and such other information as the Secretary may request. The Secretary shall approve any such change if he finds, upon the basis of data submitted to him by the committee or from other pertinent information available to him, that to do so would tend to effectuate the declared policy of the act.

(c) Publicity and notice. The committee shall give prompt and reasonable public notice to producers, dehydrators, and handlers of each recommendation submitted by it to the Secretary and of each regulation issued by the Secretary. Notice of such regulation shall be given to all handlers by registered or certified mail.

(d) Inspection and certification. (1) Each handler shall cause an inspection and certification to be made of all natural condition raisins acquired or received by him, except with respect to:

(1) An interplant or interhandler transfer of offgrade raisins as described in paragraph (e)(2) of this section, unless such inspection and certification are required by rules and procedures made
effective pursuant to this amended subpart; (i) an interplant or interhandler transfer of free tonnage raisins as described in §989.59(e); (iii) raisins received from a dehydrator which have been previously inspected pursuant to paragraph (d)(2) of this section; (iv) any raisins for which minimum grade and condition standards are not then in effect; (v) raisins received from a cooperative bargaining association which have been inspected and are in compliance with requirements established pursuant to paragraph (d)(3) of this section; and (vi) any raisins, if permitted in accordance with such rules and procedures as the committee may establish with the approval of the Secretary, acquired or received for disposition in eligible nonnormal outlets. The handler shall be reimbursed by the committee for inspection costs incurred by him and applicable to pool tonnage held for the account of the committee. Except as otherwise provided in this section, prior to blending raisins, acquiring raisins, storing raisins, reconditioning raisins, or acquiring raisins which have been reconditioned, each handler shall obtain an inspection certification showing whether or not the raisins meet the applicable grade and condition standards: Provided, That the initial inspection for infestation shall not be required if the raisins are fumigated in accordance with such rules and procedures as the committee shall establish with the approval of the Secretary. The handler shall submit or cause to be submitted to the committee a copy of such certification, together with such other documents or records as the committee may require. Such certification shall be issued by inspectors of the Processed Products Standardization and Inspection Branch of the U.S. Department of Agriculture, unless the committee determines, and the Secretary concurs in such determination, that inspection by another agency would improve the administration of this amended subpart. The committee may require that raisins held on memorandum receipt be reinspected and certified as a condition for their acquisition by a handler.

(e) Off-grade raisins. (1) Any natural condition raisins tendered to a handler which fail to meet the applicable minimum grade and condition standards may: (i) Be received or acquired by the handler for disposition, without further inspection, in eligible non-normal outlets; (ii) be returned unstemmed to the person tendering the raisins; or (iii) be received by the handler for reconditioning. Off-grade raisins received by a handler under any one of the three described categories may be changed to any other of the categories under such rules and procedures as the committee, with the approval of the Secretary, shall establish. No handler shall ship or otherwise dispose of off-grade raisins which he does not return to the tenderer, transfer to another handler as provided in paragraph (e)(2) of this section, or recondition so that they at least meet the minimum standards prescribed in or pursuant to this amended subpart, except into eligible non-normal outlets.

(2) Off-grade raisins may be transferred from the plant of the handler where received to another plant of his or to that of another handler within the State of California under such rules and procedures as the committee, with
§ 989.59 Regulation of the handling of raisins subsequent to their acquisition by handlers.

(a) Regulation. Unless otherwise provided in this part, no handler shall: (1) Ship or otherwise make final disposition of natural condition raisins unless they at least meet the effective and applicable minimum grade and condition standards for natural condition raisins; or (2) ship or otherwise make final disposition of packed raisins unless they at least meet such minimum grade standards established by the committee, with the approval of the Secretary, in applicable rules and regulations or as later changed or prescribed pursuant to the provisions of paragraph (b) of this section: Provided, That nothing contained in this paragraph shall prohibit the shipment or final disposition of any raisins of a particular varietal type for which minimum standards are not applicable or then in effect pursuant to this part. And provided further, That a handler may grind raisins, which do not meet the minimum grade standards for packed raisins because of mechanical damage or sugaring, into a raisin paste.

(b) The committee may recommend changes in the minimum grade standards for packed raisins of any varietal type and may recommend to the Secretary that minimum grade standards for any varietal type be added or deleted. The committee shall submit with its recommendation all data and information upon which it acted in making its recommendation, and such other information as the Secretary may request. The Secretary shall approve any such change if he finds, upon the basis of data submitted to him by the committee or from other pertinent information available to him, that to do so would tend to effectuate the declared policy of the act.

(c) Publicity and notice. The committee shall give prompt and reasonable notice to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each recommendation submitted by it to the Secretary and of each regulation issued by the Secretary. Notice of such regulation shall be given to all handlers of record by registered or certified mail.

(d) Inspection and certification. Unless otherwise provided in this section, each handler shall, at his own expense, before shipping or otherwise making final disposition of raisins, cause and inspection to be made of such raisins to determine whether they meet the then
applicable minimum grade and condition standards for natural condition raisins or the then applicable minimum grade standards for packed raisins. Such handler shall obtain a certificate that such raisins meet the aforementioned applicable minimum standards and shall submit or cause to be submitted to the committee a copy of such certificate together with such other documents or records as the committee may require. The certificate shall be issued by the Processed Products Standardization and Inspection Branch of the United States Department of Agriculture, unless the committee determines, and the Secretary concurs in such determination, that inspection by another agency will improve the administration of this amended subpart. Any certificate issued pursuant to this paragraph shall be valid only for such period of time as the committee may specify, with the approval of the Secretary, in appropriate rules and regulations.

(e) Inter-plant and inter-handler transfers. Any handler may transfer from his plant to his own or another handler's plant within the State of California any free tonnage raisins without having had such raisins inspected as provided in paragraph (d) of this section. The transferring handler shall transmit promptly to the committee a report of such transfer, except that transfers between plants owned or operated by the same handler need not be reported. Before shipping or otherwise making final disposition of such raisins, the receiving handler shall comply with the requirements of this section.

(f) Disposition of offgrade raisins, other failing raisins, and raisin residual material in eligible nonnormal outlets. Any offgrade raisins, except those returned unstemmed to the tenderer or successfully reconditioned, and any raisin residual material which may be received or acquired by a handler or accumulated by a handler from reconditioning raisins or from processing standard raisins and other failing raisins, shall be disposed of or marketed by the handler, without further inspection, in eligible nonnormal outlets: Provided, That no packer shall be precluded from recovering raisins from such accumulations or acquisitions: Provided further, That whenever the Secretary concludes, on the basis of a recommendation of the committee, that to specify one or more nonnormal outlets as ineligible for any class of such receipts, acquisitions, or accumulations will tend to effectuate the declared policy of the act, he shall specify such ineligible outlets and prohibit the shipment thereto or final disposition therein of such class by handlers as well as the receipt and use thereof by processors: And provided further, That no processor who is a distiller shall be precluded from receiving or using for distillation (1) the standard raisins which subsequently fail to meet the said applicable standards, (2) the raisin residual material accumulated from processing standard raisins, or (3) the raisin residual material referable to the standard raisin equivalent recovered in reconditioning; and any handler may ship such raisins and raisin residual material to such processor. The Committee shall establish, with the approval of the Secretary, such rules and procedures as may be necessary to insure adequate control over the off-grade raisins, other failing raisins, and raisin residual material subject to this paragraph. Such rules may include a requirement that the disposition and use of all or any class of off-grade raisins, other failing raisins, or raisin residual material be confined to the area. The provisions of this paragraph are not intended to excuse any failure to comply with all applicable food and sanitary rules and regulations of city, county, State, Federal, or other agencies having jurisdiction.

(g) Exemption of experimental and specialty packs. The committee may establish, with the approval of the Secretary, rules and procedures providing for the exemption of raisins in experimental and specialty packs from one or more of the requirements of the minimum grade standards of this section, together with the inspection and certification requirements if applicable.

§ 989.60 Exemption.

(a) Notwithstanding any other provisions of this amended subpart, the
§ 989.61 Above parity situations.

The provisions of this part relating to minimum grade and condition standards and inspection requirements, within the meaning of section 2(3) of the act, and any other provisions pertaining to the administration and enforcement of the order, shall continue in effect irrespective of whether the estimated season average price to producers for raisins is in excess of the parity level specified in section 2(1) of the act.

[42 FR 37202, July 20, 1977]

§ 989.62 Authorization for prohibition of trade practices.

Whenever the Secretary finds, upon recommendation of the committee or other information, that continuance of certain practices in trade channels would tend to interfere with the achieving of the objectives of this part, he may prohibit handlers from using such practices, for any crop year or portion thereof, in selling raisins in containers exceeding four pounds net weight. The prohibited practices may include:

(a) Any provision within or added to a sales contract, or action or agreement outside such contract, whereby the handler is obligated to reflect declines in market prices of raisins by charging the buyer a subsequent market price in lieu of the sales price specified in the contract.

(b) Any agreement in an undertaking to hold raisins in reserve for possible future delivery to a buyer, or action or agreement outside such undertaking, whereby the handler is obligated to not reflect increases in market prices by charging the buyer a price specified in the agreement.

Prior to any such practices being prohibited in any crop year, the committee shall recommend, for the approval of the Secretary, such rules and procedures and such record keeping requirements as are necessary to administer these prohibitions and obtain compliance therewith.

§ 989.65 Free and reserve tonnage.

The standard raisins acquired by handlers which are free tonnage, and any reserve tonnage purchased for free use, may be disposed of by him in any marketing channel, subject to the applicable provisions of this part. A handler’s free tonnage of a varietal type of raisin shall be either the free percentage of the standard raisins of the varietal type acquired by him or all of the standard raisins of the varietal type acquired by him if no free percentage is established by the Committee or designated by the Secretary for that varietal type. A handler’s reserve tonnage...
§ 989.66 Reserve tonnage generally.

(a) The standard raisins acquired by a handler which are designated as reserve tonnage and reserve tonnage transferred to a handler by the committee shall be held by him for the account of the committee and subject to the applicable restrictions of this part.

(b) (1) Each handler shall hold in storage all reserve tonnage acquired by him and all reserve tonnage transferred to him by the committee until he has been relieved of such responsibility by the committee either by delivery to the committee or otherwise. Such handler shall store such reserve tonnage raisins in natural condition without addition of moisture and in such manner as will maintain the raisins in the same condition as when he acquired them, except for normal and natural deterioration and shrinkage, and except for loss through fire, acts of God or other conditions beyond the handler’s control.

(2) Reserve tonnage acquired by a handler or transferred to a handler by the committee shall be stored separate and apart from other raisins to such extent and identified in such manner as the committee shall specify in its rules and procedures with the approval of the Secretary.

(3) Each handler may, under the direction and supervision of the committee, substitute for any reserve tonnage raisins a like quantity of standard raisins of the same varietal type and of the same or more recent year’s production. Each such handler shall give the committee reasonable advance notice of his intention to substitute, the exact location of the raisins for which substitution is to be made, and arrange with the committee a mutually satisfactory time for the substitution.

(c) Reserve tonnage raisins delivered by any handler to the committee, or to any person designated by it, in the form of natural condition raisins shall in the aggregate be not more than 2 percent less than the average maturity level of all raisins such handler acquired during the applicable crop year. The committee may require that such delivery consist of natural condition raisins, or it may arrange for such delivery to consist of packed raisins.

(d) Reserve tonnage raisins delivered by any handler to the committee, or to any person designated by it, whether in the form of natural condition raisins or packed raisins shall meet the applicable minimum grade or grade and condition standards, except for normal and natural deterioration. The committee shall have the authority to require, in its discretion and at its expense, such reinspection and certification of reserve pool tonnage raisins as it may deem necessary.

(e) In the event the committee offers to handlers reserve tonnage raisins for contract packing or for sale in export, as provided in §989.67, each handler shall be given the opportunity to pack or purchase his share of each offer.

(f) Handlers shall be compensated for receiving, storing, fumigating, handling, and inspection of that tonnage of reserve raisins determined by the reserve percentage of a crop year and held by them for the account of the committee, in accordance with a schedule of payments established by the committee and approved by the Secretary. A box rental shall be paid by the committee to producers or handlers for boxes used in storing reserve tonnage raisins beyond the crop year of acquisition in accordance with a rental schedule established by the committee and approved by the Secretary. The handler compensation shall be reviewed annually and shall be paid, as

§ 989.67 Disposal of reserve raisins.

(a) At the time the committee meets to consider free and reserve percentages for a crop year, the committee shall consider the marketing of reserve tonnage raisins for the subsequent 12-month period. The committee shall dispose of all reserve tonnage in such manner as to achieve, as nearly as may be practicable, maximum disposal of such raisins by the time reserve tonnage raisins from the subsequent crop year are available. Any reserve tonnage raisins held unsold by the committee on May 1 of the subsequent crop year shall be physically disposed of promptly in any available outlet not competitive with normal market channels for free tonnage raisins or sales of new crop reserve tonnage raisins in export: Provided, That, whenever the Secretary finds, based upon a recommendation of the committee, or on the basis of information otherwise available to him that because of national emergency, crop failure, an insufficient supply of reserve tonnage raisins for export, or other change of economic or marketing conditions, retention of reserve tonnage raisins carried over is warranted, the foregoing requirements as to disposal shall not apply and such raisins may be disposed of in any outlet recommended by the committee and approved by the Secretary.

(b) Reserve tonnage raisins shall be disposed of by the committee: (1) By

to the amount determined to be earned and unpaid, as soon as practicable after the end of the second quarter of the crop year and quarterly thereafter. Any handler may request the committee, by registered or certified mail, at any time after June 1 of a crop year to remove or relocate reserve tonnage raisins of the current crop year which remain in his possession. At any time during a crop year, a handler may request removal or relocation of reserve tonnage of a prior crop year. In each instance, he may request that the committee provide the necessary containers for any such removal or relocation. When so requested as to current crop year raisins, the committee shall make the removal or relocation, the availability of containers, storage space and time of request permitting, by September 15 of the subsequent crop year, and as to raisins of the prior crop year, within 30 days, supplying the necessary containers if so requested. If the committee removes or relocates reserve raisins of the current crop year pursuant to a handler's request, and such raisins are released to him by September 15 of the subsequent crop year, the handler shall reimburse the committee for any costs incurred by it in such removal or relocation. If any handler requests removal or relocation of reserve raisins, the committee shall immediately give notice thereof to the Secretary.

(g) The committee shall have the authority, in its discretion, to obtain loans, nonrecourse or otherwise, on any part of the reserve tonnage not subject to release as desirable free tonnage and to pledge or hypothecate the raisins on which such loans are obtained as security therefor: Provided, That in every such case, there shall be included in the loan agreement a provision to the effect that, in case the lender obtains possession or control of such raisins, he will dispose of them in such a manner as will not tend to defeat the objectives of this amended subpart. The net proceeds of any such loan shall be distributed by the committee pursuant to paragraph (h) of this section.

(h) The net proceeds from the disposition of reserve tonnage raisins of any varietal type shall be distributed by the committee to the respective producers, or their successor in interest thereto, on the basis of the volume of their respective contributions to the reserve tonnage of such varietal type. Distribution of the proceeds in connection with the reserve tonnage contributed by a nonprofit cooperative marketing association which has authority to market the raisins of its members and to allocate the proceeds therefrom to such members shall be made to such association. Advance or progress payments may be made by the committee, in conformity with the provisions of this paragraph, as sufficient funds become available.

sale to handlers for sale in specified outlets or for resale to exporters for sale in export outlets; (2) by direct sale to any agency of the U.S. Government for noncompetitive use; (3) by direct sale to foreign government agencies or foreign importers in any country not listed pursuant to paragraph (c) of this section or where the procurement of raisins is so regulated as to preclude purchases from domestic handlers; (4) by gift; and (5) by any other means consistent with the provisions of this section, and in outlets noncompetitive with those for free tonnage raisins.

(c) The committee shall sell reserve raisins to handlers for export sale to countries on a list established by the Secretary, on the basis of the recommendation of the committee or from other available information. The list of countries shall be reviewed by the committee annually when it reviews matters relating to the free tonnage, and shall recommend any changes in the list to the Secretary for approval. No country may be removed from the list for the purpose of permitting direct sale by the committee unless a finding is made by the committee and approved by the Secretary, that such removal and subsequent direct sale by the committee shall not lead to disruption of sale of reserve tonnage raisins by handlers in other countries on the list, and that although handlers have been able to offer reserve tonnage raisins at competitive prices to the country to be so removed, there remains an unfilled demand in such country which has not been supplied by handlers and which could be supplied by the committee at the same prices by means of direct sale.

(d)(1) Reserve tonnage raisins shall be sold to handlers at prices and in a manner intended to maximum producer returns and achieve maximum disposition of such raisins by the time reserve tonnage raisins from the subsequent crop year are available. The committee may pay the cost of transporting reserve tonnage from one handler to another and in the event a handler has more than one plant, the committee may pay the cost of transporting reserve tonnage to the handler’s plant of its choice. In each offer or reoffer of reserve tonnage raisins for export, the committee may include a quantity of raisins not to exceed 2 percent of the total tonnage offered in such offer or reoffer, which it may sell to handlers whose regular allocation provides insufficient tonnage to fill a containerized freight shipping container: Provided, That such sale may be made only when the remaining portion of a handler’s regular allocation will fill at least 50 percent of such container and shall be made to a handler only one time in each offer or reoffer of reserve tonnage raisins. No offer or reoffer shall be made until 5 days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary complete information as to varietal type, quantity, and price involved in such offer or reoffer, and the Secretary may disapprove the offer or reoffer or any term thereof: Provided, That at any time prior to the expiration of the 5-day period, the offer or reoffer may be made to handlers upon the committee receiving from the Secretary notice that he does not disapprove the making of the offer or reoffer. Subject to the same conditions as are set forth in the preceding sentence with respect to the making of such offer or reoffer, the committee may withdraw an offer or reoffer to sell reserve tonnage raisins to handlers or may extend the offer or reoffer period but not when such extension would deprive one or more handlers of an opportunity to purchase raisins.

(2) Except for the final offer of the reserve tonnage from a crop year, an offer of reserve tonnage raisins for export shall provide for a specific tonnage. Each handler’s share of the reserve tonnage offered prior to November 1 of any crop year shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by him during the preceding crop year is of the free tonnage raisins acquired by all handlers during the preceding crop year who remain handlers. If reserve tonnage raisins have been removed by the committee from a handler’s premises pursuant to §989.66(f), such handler’s allocation of reserve pool offers subsequent to such removal and prior to November 1 of the following crop year shall be reduced by the percentage such removed reserve
tonnage is of the total reserve tonnage acquired by such handler in the crop year. Subsequent to October 31, each handler’s share shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by the handler during the then current crop year is of the total free tonnage raisins acquired by all handlers during the then current crop year. With respect to any offer other than the initial offer, each handler’s share of the total quantity offered as of that date (the then current offer plus all prior offers of that crop year) shall first be determined by the appropriate formula. His share of the current offer shall then be determined by subtracting from his share of the total quantity offered, the total of his share of prior offers from the beginning of the crop year. If any handler did not acquire raisins during the preceding crop year, the basis for his share of any quantity of reserve tonnage raisins offered prior to November 1 shall be his acquisitions of free tonnage raisins during the then current crop year. The current free tonnage acquisitions of all such new handler shall, for the purposes of determining the shares of all handlers prior to November 1, be added to the total acquisitions of free tonnage raisins during the preceding crop year of all handlers in business at the time the offer is made.

(3) With respect to any offer of reserve tonnage for sale to handlers for resale in export, the committee may provide that any such tonnage un purchased at the end of the share reservation period will be reoffered to handlers without regard to shares and that approval for handlers’ applications for purchase may be made in the same order in which the applications are received by the committee. Such reoffer may be made by the committee at the time it makes a regular offer of reserve tonnage, at any time during the period a regular offer is in effect, or within a reasonable time after a regular offer has expired.

(4) The final offer of the reserve tonnage from a crop year may be offered to handlers without regard to shares and approval of handlers’ applications for purchase may be made in the same order in which the applications are received by the committee.

(5) Whenever a handler’s share or allocation pursuant to this paragraph is less than or exceeds his holdings of reserve tonnage by a minor quantity, the committee may adjust the handler’s share or allocation so as to avoid the cost of the physical transfer. The maximum quantity by which a handler’s share or allocation may be so allocated shall be prescribed in rules and procedures which the committee shall establish with the approval of the Secretary.

(e) The committee may sell reserve tonnage raisins as provided in paragraph (b)(3) of this section only when such country is not included in the list of specified countries established pursuant to paragraph (c) of this section and may sell reserve tonnage raisins to foreign government agencies of foreign importers in any country removed from such list. No agreement to sell reserve tonnage raisins shall be entered into by the committee until 5 days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary complete information as to varietal type, quantity, price and foreign country involved in any such proposed sale, and the Secretary may disapprove such sale or any term thereof: Provided, That, at any time prior to the expiration of the 5-day period, the sale may be made upon the committee receiving from the Secretary notice that he does not disapprove the making of the sale.

(f) Whenever the committee concludes that the orderly disposition of reserve tonnage would be promoted by the committee replacing any portion or all of handlers’ export shipments of free tonnage raisins, to other than free tonnage outlets, made prior to the committee’s first offer to sell reserve tonnage, it may do so and may specify such requirements and conditions as are necessary to carry out the replacement consistent with the objectives of this amended subpart. The committee may establish a price for such replacement tonnage which is higher, the same as, or lower than that for reserve tonnage in the first offer of the crop year. Any such replacement offer by the committee shall be governed by those provisions of paragraph (d)(1) of
(g)(1) The committee may, subject to review by the Secretary, refuse to sell reserve tonnage raisins for export:

(i) To any handler who is in default on any previous purchase of reserve tonnage raisins from the committee;

(ii) To any handler currently not in compliance with the provisions of a sales agreement covering reserve tonnage raisins, executed by such handler with the committee; or

(iii) To any handler who signifies an intention to sell reserve tonnage to or through any person who has previously failed to complete a sale of reserve tonnage raisins to a foreign buyer and such raisins remain to be exported and remain unsold to any foreign buyer in an eligible export market.

(2) Handlers who are in default of timely payment under any purchase agreement are subject to an interest and late payment charge(s) recommended by the committee and approved by the Secretary on the delinquent amount that is owed the committee. The interest charge shall be the current prime rate plus 2 percent established by the bank in which the committee has its administrative assessment funds deposited, on the day the amount owed becomes delinquent; and further, that such rate of interest be added to the bill monthly until the handler’s delinquent amount owed plus applicable interest has been paid: Provided, That, if such amount which packers fail to contract for packing does not exceed 250 tons, or if it is necessary to deviate from the foregoing in order to meet terms and conditions of shipment, the committee may, in its discretion, allocate such reserve tonnage raisins among packers as it deems appropriate, but the shares of packers in subsequent offers or reoffers shall be adjusted accordingly.

(h) Each packer’s share of an offer of reserve tonnage raisins for contract packing shall be determined as the same proportion that the reserve tonnage raisins acquired by him is of the reserve tonnage raisins acquired by all packers. In the event that any packer fails to contract for packing any or all of his share of any offer, the remaining portion thereof shall be reoffered by the committee to all packers who contracted for packing all of their respective shares, in proportion to their respective acquisitions: Provided, That, if such amount which packers fail to contract for packing does not exceed 250 tons, or if it is necessary to deviate from the foregoing in order to meet terms and conditions of shipment, the committee may, in its discretion, allocate such reserve tonnage raisins among packers as it deems appropriate, but the shares of packers in subsequent offers or reoffers shall be adjusted accordingly.

(i) In the event the committee determines that the applicable procedures as specified in paragraphs (d) and (h) of this section will not provide an allocation for handlers which is suitable for a particular situation, the committee, with the approval of the Secretary, may recommend changes in the rate of interest to another rate of interest. When the committee determines to change the rate of interest or a late payment charge is needed, and such change is approved by the Secretary, the committee shall announce the change in the rate of interest or the rate of late payment charge through a mailing by the committee to handlers.

(3) Appeals. If a determination is made by the committee that a handler has not complied with the provisions of this section and any actions allowed under this section are taken against the handler, such handler may request a hearing before an appeals subcommittee established by the committee. If the handler disagrees with the subcommittee’s decisions, the handler may request the committee to review the subcommittee’s decision. The committee may, subject to the approval of the Secretary, establish additional procedures concerning appeals.

(j) The committee shall not sell reserve tonnage raisins of any varietal type to handlers to provide them with raisins to sell as free tonnage, other than as provided in §989.54, unless it files with the Secretary complete information and receives from the Secretary notice that he does not disapprove of such sale and that because of: National emergency, crop failure; change of economic or marketing conditions; free tonnage shipments during the then current crop year exceeding shipments of a comparable period of

(2) Handlers who are in default of timely payment under any purchase agreement are subject to an interest and late payment charge(s) recommended by the committee and approved by the Secretary on the delinquent amount that is owed the committee. The interest charge shall be the current prime rate plus 2 percent established by the bank in which the committee has its administrative assessment funds deposited, on the day the amount owed becomes delinquent; and further, that such rate of interest be added to the bill monthly until the handler’s delinquent amount owed plus applicable interest has been paid: Provided, That, if such amount which packers fail to contract for packing does not exceed 250 tons, or if it is necessary to deviate from the foregoing in order to meet terms and conditions of shipment, the committee may, in its discretion, allocate such reserve tonnage raisins among packers as it deems appropriate, but the shares of packers in subsequent offers or reoffers shall be adjusted accordingly.

(j) The committee shall not sell reserve tonnage raisins of any varietal type to handlers to provide them with raisins to sell as free tonnage, other than as provided in §989.54, unless it files with the Secretary complete information and receives from the Secretary notice that he does not disapprove of such sale and that because of: National emergency, crop failure; change of economic or marketing conditions; free tonnage shipments during the then current crop year exceeding shipments of a comparable period of
§ 989.70 Storage of raisins held on memorandum receipt and of packer-owned tonnage.

All raisins stored by a handler for another person on memorandum or warehouse receipt, or raisins produced and stored by a handler, shall be stored separate and apart from other raisins and shall be clearly marked or tagged as raisins stored on memorandum or warehouse receipt or as raisins produced by the handler but not acquired by him in his capacity as a handler.

§ 989.71 Disposition of unsold reserve tonnage in above parity situations.

In the event that the Secretary should find, during a crop year when reserve tonnage percentages have been designated and are in effect pursuant to this part, that the estimated season average price for raisins for that crop year will be in excess of the price level contemplated by the provisions of section 2(1) of the act, he shall issue an order providing for the orderly disposition of the unsold reserve tonnage then on hand, in such outlets, at such times, and in accordance with such terms and conditions, as he may determine to be appropriate in the circumstances. In determining the liquidation procedures and terms, the Secretary shall give consideration to the data and recommendations, if any, which may be submitted by the committee.

§ 989.72 Exemption of educational institutions.

The committee may exempt, wholly or in part, from the volume regulation provisions of this part, that volume of raisins received or acquired by public
or private educational agencies or institutions incidental to or in connection with teaching, experimental, or research activities.

Each handler shall, upon request of the committee, file promptly with the committee a certified report, showing such information as the committee shall specify with respect to any raisins which were held by him on a date designated by the committee, which information as specified may include, but not be limited to: (1) The quantity of any raisins so held, segregated as to varietal type, natural condition, packed, standard quality or off-grade quality; and (2) the locations of the raisins.

(b) Acquisition reports. Each handler shall submit to the committee in accordance with such rules and procedures as are prescribed by the committee, with the approval of the Secretary, certified reports, for such periods as the committee may require, with respect to his acquisitions of each varietal type of raisins during the particular period covered by such report, which report shall include, but not be limited to: (1) The total quantity of standard raisins acquired; (2) the quantity of reserve tonnage referable to his acquisitions of standard raisins; (3) the locations of such reserve tonnages; (4) the total quantity of off-grade raisins acquired pursuant to § 989.58(e)(1)(i), and (5) cumulative totals of such acquisitions from the beginning of the then current crop year to and including the end of the period for which the report is made. Upon written application made to the committee, a handler may be relieved of submitting such reports after completing his packing operations for the season. Upon request of the committee, each handler shall furnish to the committee, in such manner and at such times as it may require, the name and address of each person from whom he acquired raisins and the quantity of each varietal type of raisins acquired from each such person.

(c) Each handler shall file such reports of creditable promotion including paid advertising as recommended by the Committee and approved by the Secretary.

(d) Other reports. Upon the request of the committee, with the approval of the Secretary, each handler shall furnish to the committee such other information as may be necessary to enable it to exercise its powers and perform its duties under this amended part.

§ 989.75 Confidential information.

All reports and records furnished or submitted by a handler to the committee shall be received by, and at all times kept under the custody or control of, one or more employees of the committee, who shall disclose to no person, except the Secretary upon request therefor, data or information obtained or extracted therefrom which would constitute a trade secret or the disclosure of which might affect the trade position, financial condition, or business operations of the particular handler from whom received: Provided, That the committee may require such an employee to disclose to it, or to any person designated by it or by the Secretary, information and data of a general nature, compilations of data affecting handlers as a group, and any data affecting one or more handlers, so long as the identity of the individual handlers involved is not disclosed.

§ 989.76 Records.

Each handler shall maintain such records of all raisins received, and of all raisins acquired, by him as prescribed by the committee. Such records shall include, but not be limited to, the quantity of raisins of each varietal type acquired from each person and the name and address of each such person, total acquisitions, total sales, and total other disposition of each varietal type which he handles, and each handler shall maintain such records for at least two years after the termination of the crop year in which the transactions occurred. The Committee, with the approval of the Secretary, may prescribe rules and regulations to include under this section handler records that

§ 989.80 Assessments.

Such handler’s pro rata share of such expenses shall be equal to the ratio between the total free tonnage acquired by such handler plus any reserve tonnage released or sold to him for use as free tonnage, during the applicable crop year and the total free tonnage acquired by all handlers plus all reserve tonnage released or sold to all handlers for use as free tonnage, during the same crop year: Provided, That (1) in computing the total free tonnage acquired by a particular handler, there shall be excluded all standard raisins (recovered by the reconditioning of off-grade raisins) acquired by the handler and which comprise the assessable portion of another handler pursuant to paragraph (b) of this section, and (2) the computation of

For the purpose of incoming and outgoing inspection of natural condition raisins, lot means, except as otherwise provided in this paragraph, the quantity of such raisins of the same varietal type or of differing varietal types when commingled within their containers (including sweat and picking boxes and bins), which does not exceed a car, truck, or truck-trailer load, and which is submitted for inspection at one time and in the same place.

(2) Separation of large units. If a quantity of raisins in excess of a car, truck, or truck-trailer load is submitted for inspection, the total quantity may, at the discretion of the inspector, be separated into such readily identifiable portions, either prior to or in the course of inspection, as can be conveniently and properly inspected, and each such portion shall constitute a lot.

(3) Resubmission after reconditioning. Raisins which are submitted for inspection after reconditioning (such as sorting or drying) and whose original lot identity is no longer applicable, shall be a new lot.

(4) Meeting and failing portions. Where a portion of a quantity of raisins submitted for inspection meets the minimum grade and condition standards and has been separated from the remainder of the raisins failing to meet such standards:

(6) Special condition. Notwithstanding other provisions of this section, any quantity of raisins failing to meet such standards and which are not to be reconditioned may be a single lot.

(b) Packed raisins. For the purpose of outgoing inspection of packed raisins, lot means: (1) For in-line inspection (i.e., where samples are drawn from a flow of raisins prior to packaging), the aggregate quantity of raisins of the same varietal type, subtype, or size (or in their mixed form), processed in any continuous production of one calendar day and packaged in one size and style of package but excluding those rejected by inspection; and (2) for floor inspection (i.e., where samples are drawn from containers of raisins), the aggregate quantity of such raisins in like containers but not necessarily processed in one continuous production or during one calendar day, identifiable and offered for inspection as a lot.

§ 989.110 Varietal types.

Pursuant to §989.10, specific definitions for each varietal type of raisins contained in that section are as follows:

(a) Natural (sun-dried) Seedless includes all sun-dried seedless raisins that possess characteristics similar to Natural Thompson Seedless raisins which, for the purpose of expediting drying, have not been dipped in or sprayed with water, with or without soda, oil or other chemicals prior to or during the drying process.

(b) Dipped Seedless includes all raisins produced by artificial dehydration of seedless grapes that possess the characteristics similar to Thompson Seedless grapes which, in order to expedite drying, have been dipped in or sprayed with water only after such grapes have been removed from the vine.

(c) Oleate and Related Seedless includes all raisins produced by sun-drying or artificial dehydration of seedless grapes which, in order to expedite drying, are dipped in or sprayed with water with soda, oil, Ethyl Oleate, Methyl Oleate or any other chemicals either while such grapes are on the vine or after they have been removed from the vine.

(d) Golden Seedless includes all seedless raisins whose color generally varies from golden yellow to dark amber.

(e) Muscats (including other raisins with seeds) include all raisins which usually contain seeds and possess characteristics similar to Muscat raisins.

(f) Sultanana includes all raisins which usually contain an undeveloped (vestigial) seed and possess characteristics similar to Sultanana raisins.

(g) Zante Currant includes all raisins that possess characteristics similar to those produced from Black Corinth or White Corinth grapes.

(h) Monukka includes all raisins produced from Monukka grapes.

(i) Other Seedless includes all raisins produced from Ruby Seedless, Kings Ruby Seedless, Flame Seedless and other seedless grapes not included in any of the varietal categories for Seedless raisins defined in paragraphs (a), (b), (c), (d) or (h) above.

§ 989.111 Independent producer and small cooperative producer.

(a) Independent producer means any producer who is not a member of a cooperative bargaining association or a cooperative marketing association, nor has sold for cash to a cooperative marketing association.

(b) Small cooperative producer means any producer who is a member of a cooperative marketing association which acquired less than 10 percent of total raisin acquisitions during the crop year preceding the year in which nominations are held.

§ 989.115 Independent handler, major cooperative marketing association handler, and small cooperative marketing association handler.

(a) Independent handler means any handler who is not a cooperative marketing association of producers.

(b) Major cooperative marketing association handler means any handler who is a cooperative marketing association of producers which acquired not less than 10 percent of the total raisin acquisitions during the crop year preceding nominations.

(c) Small cooperative marketing association handler means any handler who is a cooperative marketing association of producers which acquired less than 10 percent of the total raisin acquisitions during the crop year preceding nominations.

§ 989.122 Districts for independent and small cooperative producer representation on the Committee.

For the purposes of §989.26(c) and commencing with the term of office beginning May 1, 1984, independent and small cooperative producer districts are as follows:

(a) District No. 1. All of the counties north of Fresno County.
§ 989.126

(b) District No. 2. All of the counties south of Fresno County.
(c) District No. 3 All of Fresno County.

§ 989.126 Representation of the Committee.

(a) To provide independent and small cooperative producers equitable representation throughout the production area commencing with the term of office beginning May 1, 1984, representation shall be apportioned among the three districts specified in §989.122. Districts 1 and 2 shall each have one producer member, and District 3 shall have the remaining producer members to which independent and small cooperative producers are entitled pursuant to §989.26(c).

(b) Pursuant to section 989.26(d) and commencing with the term of office beginning May 1, 1994, apportionment of the independent and small cooperative marketing association handlers shall be:

(1) Two members selected from and representing the four handler(s) other than major cooperative marketing association handler(s) who acquired the largest percentage of the total raisin acquisitions during the preceding crop year;

(2) Three members selected from and representing the six handlers other than major cooperative marketing association handler(s) who acquired the next largest percentage of the total raisin acquisitions during the preceding crop year; and

(3) The remaining member(s) selected from and representing all other handlers, including small cooperative marketing association handler(s) and all processors.

[49 FR 18730, May 2, 1984, as amended at 59 FR 27226, May 26, 1994]

§ 989.129 Voting at nomination meetings.

Any person (defined in §989.3 as an individual, partnership, corporation, association, or any other business unit) who is engaged, in a proprietary capacity, in the production of grapes which are sun-dried or dehydrated by artificial means to produce raisins and who qualifies under the provisions of §989.29(b)(2) shall be eligible to cast one vote for a nominee for each producer member position and one vote for a nominee for each producer alternate member position on the committee which is to be filled for his district. Such person must be the one who or which: (a) Owns and farms land resulting in his or its ownership of such grapes produced thereon; (b) rents and farms land, resulting in his or its ownership of all or a portion of such grapes produced thereon; or (c) owns land which he or it does not farm and, as rental for such land, obtains the ownership of a portion of such grapes or the raisins. In this connection, a partnership shall be deemed to include two or more persons (including a husband and wife) with respect to land the title to which, or leasehold interest in which, is vested in them as tenants in common, joint tenants, or under community property laws, as community property. In a landlord-tenant relationship, wherein each of the parties is a producer, each such producer shall be entitled to one vote for a nominee for each producer member position and one vote for each producer alternate member position. Hence, where two persons operate land as landlord and tenant on a share-crop basis, each person is entitled to one vote for each such position to be filled. Where land is leased on a cash rental basis, only the person who is the tenant or cash renter (producer) is entitled to vote. A partnership or corporation, when eligible, is entitled to cast only one vote for a nominee for each producer position to be filled in its district.

§ 989.139 Compensation for attendance of alternates at Committee meetings.

Whenever a member of the Raisin Administrative Committee has reason to believe that he will be unable to attend a Committee meeting and has so notified his alternate or the Committee manager, such notification or a request from the manager shall be held to be a request for the alternate to attend and he shall be reimbursed for reasonable
expenses subject to the limitations contained in §989.39. 

MARKETING POLICY

§ 989.154 Marketing policy computations.

(a) Desirable carryout levels. The desirable carryout levels to be used in computing and announcing a crop year’s marketing policy shall be equal to the total shipments of free tonnage during August, September, and October for each of the past 5 crop years, for each varietal type, converted to a natural condition basis, dropping the high and low figures, and dividing the remaining sum by three.

(b) Estimated trade demand. Pursuant to §989.54(e)(4), estimated trade demand is a figure different than the trade demand computed according to the formula in §989.54(a). The Committee shall use an estimated trade demand to compute preliminary and interim free and reserve percentages, or determine such final percentages for recommendation to the Secretary for 1999–2000 crop Natural (sun-dried) Seedless (NS) raisins if the crop estimate is equal to, less than, or no more than 10 percent greater than the computed trade demand. Provided, That the final reserve percentage computed using such estimated trade demand shall be no more than 10 percent, and no reserve shall be established if the final 1999–2000 NS raisin crop estimate is less than 235,000 natural condition tons.

[64 FR 43902, Aug. 12, 1999, as amended at 65 FR 44008, July 18, 2000]

§ 989.156 Raisin diversion program.

(a)(1) Quantity to be diverted. On or before November 30 of each crop year, the Committee shall announce the quantity of raisins eligible for a raisin diversion program. On or before January 15 of each crop year, the Committee may announce an increase in the tonnage eligible for a raisin diversion program. The quantity eligible for diversion may be announced for any of the following varietal types of raisins: Natural (sun-dried) Seedless, Muscat (including other raisins with seeds), Sultana, ZanteCurrant, Monukka, and Other Seedless raisins. At the same time the Committee shall determine and announce to producers, handlers, and the cooperative bargaining association(s) the allowable harvest cost to be applicable to such diversion tonnage. The factors to be reviewed by the Committee in determining allowable harvest costs shall include but not be limited to: Costs for picking, turning, rolling, boxing, paper trays, vineyard terracing, hauling to the handler, and crop insurance.

(2) The Committee may limit any season’s diversion program to production units on which producers agree to remove the vines. Such restriction shall be announced at the time the tonnage available for that season’s diversion program is announced.

(b) Application for diversion certificates. Any producer desiring to participate in a raisin diversion program shall file with the Committee, by certified mail, prior to December 20 of the crop year, an application on Form RAC-1000, “Application for Raisin Diversion Certificate” together with a copy of any two of the following four documents: Plot Map from County Hall of Records; irrigation tax bill; county property tax bill; or any other document containing an Appraisal Parcel Number. Such application shall include at least the following information:

(1) The name, address, and telephone number of the producer;

(2) The location and size of the production unit to be diverted;

(3) The raisin production by varietal type on such production unit during the prior crop year or the last crop year eligible for such diversion;

(4) The handler to whom such raisins were delivered;

(5) A statement identifying whether the applicant will remove the vines in the production unit under the program;

(6) A statement that all persons with an equity interest in the grapes in the production unit to be diverted consent to the filing of the application; and

(7) A statement that the producer agrees to comply with the regulations established for a raisin diversion program.
The producer applicant shall sign the application certifying that the information contained therein is true and correct.

(c) Handling of applications. After the Committee receives the producer applications, it shall review them to determine whether all the required information has been provided and appears reliable. Any incomplete application shall be returned to the producer applicant for correction together with a statement of the error or omission in the application. The applicant shall have a reasonable opportunity to correct such application. However, such correction must be received by the Committee on or before January 12.

(d) Priority of applications and allocations of tonnage. Those producer applications indicating that the vines of the producing units will be removed shall receive first priority over other applicants when reserve tonnage under the program is to be allocated. Grafting vines of one varietal type to another varietal type does not constitute removal under the program. If the production volume in such applications exceeds the amount of diversion tonnage available under the program, a lottery will be held to allocate such diversion tonnage among the applicants. In conducting any lottery under this section, the Committee may group producer applications on a handler-by-handler basis, and separate lotteries will be held for each such group. The diversion tonnage of raisins available for each such group in each lottery may not exceed the percentage of total handler acquisitions acquired by the group’s handler during the previous crop year. To the extent diversion tonnage exists after such group lotteries, such remaining diversion tonnage may be allocated by one lottery of all remaining producer applications. If reserve tonnage exists under the program after the allocation of diversion tonnage has been made to all eligible producer applicants who remove vines, all other applications shall be considered. If the production volume in such applications exceeds the amount of reserve raisin tonnage remaining under the program, a lottery will be held to allocate the remaining diversion tonnage in the manner described above.

(e) Approval of applications. The Committee shall notify the applicant for diversion, in writing, as to whether or not the application has been approved. If the application is not approved, the notification shall state the reason(s) for disapproving the application.

(f) Disclosure of information. The applicant, whose application has been approved, agrees that by participating in the raisin diversion program, the information in the application may be disclosed to the Committee, its representatives, or agents. The Committee, its representatives, or agents may not use this information for any personal use and shall comply with all applicable provisions pertaining to the unauthorized disclosure of such information.

(g) Verification. Any applicant whose application has been approved, authorizes Committee representatives and agents to have access to the production unit in the diversion program during reasonable business hours during the crop year to confirm compliance with the program. Notice will be provided to the applicant of such visits.

(h) Compliance. (1) Methods of diversion. An approved applicant shall be required to remove the vines, spur-prune the vines, remove the bunches or take other means to preclude grapes from being produced and harvested on the production unit: Provided, That vine removal may be the only means of diversion in some seasons as determined and announced by the Committee. Bunches which occur on vines in an approved production unit shall be removed and destroyed by the applicant before maturity. If the Committee representatives or agents determine that there is an average of more than four bunches per vine remaining on an approved production unit shall be removed and destroyed by the applicant before maturity. If the Committee representatives or agents determine that there is an average of more than four bunches per vine remaining on an approved production unit shall be removed and destroyed by the applicant before maturity. If the Committee representatives or agents determine that there is an average of more than four bunches per vine remaining on an approved production unit shall be removed and destroyed by the applicant before maturity. If the Committee representatives or agents determine that there is an average of more than four bunches per vine remaining on an approved production unit shall be removed and destroyed by the applicant before maturity. If the Committee representatives or agents determine that there is an average of more than four bunches per vine remaining on an approved production unit shall be removed and destroyed by the applicant before maturity.
Agricultural Marketing Service, USDA

§ 989.156

1 of the crop year in which a raisin diversion program is implemented. Producers who remove the vines on a production unit after August 15 may qualify for a diversion program for that crop year if a diversion program is announced and if diversion on that unit and vine removal after August 15 can be documented and verified.

(3) Failure to divert. Any raisin producer who does not take the necessary measures to remove the grapes on an approved production unit by June 1, or any raisin producer who has indicated the removal of vines or the intent to remove such vines and who does not remove such vines on an approved production unit by June 1, shall not be issued a diversion certificate, may be subject to liquidated damages and interest charges as provided in paragraph (q) of this section, may be subject to an injunctive action under the Act, and may be denied the opportunity to participate in the next diversion program, when implemented: Provided, That any producer who has more than one production unit and fails to divert on an approved production unit may be denied the opportunity to participate on all of that producer’s production units, in the next diversion program. For spur-pruned vines, this date may be extended 2 weeks from the date of the inspection of a producer’s vineyard if more than four bunches on spur-pruned vines are present at the time of inspection.

(i) Issuance of certificates. When preliminary percentages are announced, the Committee shall issue diversion certificates to those approved applicants who have removed grapes in accordance with this section. Such certificates shall represent an amount of reserve tonnage raisins equal to the amount of raisins diverted from the production unit(s) specified in the producer application, or additional quantity granted by the Committee when vines are diverted through vine removal or any other means established by the Committee, as the case may be. If, prior to issuance of a certificate, the Committee is notified by an approved applicant that such applicant’s interest in the production unit(s) involved in the program has been transferred to another person, the Committee may substitute the transferee for the applicant provided the transferee agrees to comply with the provisions of this section.

(j) Submission of diversion certificates from producer to handlers. Diversion certificates may be submitted by producers only to handlers. The handler shall pay the producer for the free tonnage applicable to the diversion certificate minus the established harvest cost for the entire tonnage shown on the certificate.

(k) Redemption of certificates. Any handler holding diversion certificates may redeem such certificates for reserve pool raisins from the Committee. To redeem a certificate, a handler must present the diversion certificate to the Committee and pay the Committee an amount equal to the established harvest costs plus an amount equal to the payment for receiving, storing, fumigating, handling, and inspecting raisins as specified in § 989.401 for the entire tonnage shown on the certificate. Handlers who acquire diversion certificates from producers shall report acquisitions of such certificates and submit them for redemption in a manner and for the reporting periods provided in § 989.173(b) for the acquisition of raisins acquired from producers. The Committee shall issue a reserve release entitling the handler to an amount of reserve pool raisins equal to the entire tonnage shown on the certificate. Upon receipt of the diversion certificate, the Committee shall note on the certificate that it is cancelled. Diversion certificates will only be valid and honored if presented to the Committee for redemption on or before December 15 of the crop year for which they were issued: Provided, That for the 2001 diversion program for Natural (sun-dried) Seedless raisins, producers who have not sold certificates to handlers on or before December 17, 2001, may present them to the Committee on or before December 21, 2001. The Committee shall verify and stamp such certificates to indicate that the certificate is valid until January 18, 2002. Handlers may redeem such certificates with the RAC on or before January 18, 2002, in the same manner as described elsewhere in this paragraph (k).
(l) **Lost, damaged, or destroyed certificates.** The Committee should be notified of any lost, damaged, or destroyed certificates as quickly as possible by a handler or producer so that appropriate measures such as issuing new certificates may be taken.

(m) **Appeals.** If a determination is made by the Committee that a producer has not complied with these regulations and is not entitled to a diversion certificate, that a producer is subject to liquidated damages and interest or that a producer is denied the opportunity to participate in the next RDP, such producer may request a hearing before an appeals subcommittee established by the Committee. If a producer disagrees with the subcommittee’s decision, the producer may request the Committee to review the subcommittee’s decision. If the producer disagrees with the Committee’s decision upon review, the producer may, through the Committee, request the Secretary’s review of the decision.

(n) **Voiding certificates.** If, subsequent to a diversion certificate being issued to a producer but before it has been submitted to a handler, the Committee determines that the producer did not comply with these regulations, it shall void the certificate.

(o) **Production unit.** For the purposes of the raisin diversion program, a production unit is a clearly defined geographic area with permanent boundaries (either natural or man-made). A producer must be able to document to the Committee the previous year’s production data for that specific area by means of sales receipts or other delivery or transfer documents which indicate the creditable fruit weight delivered to handlers from that specific area. If the information submitted by producers on the application concerning a unit’s production is significantly greater than past production on the unit, production on neighboring units, or the industry norm, or the production is unable to be verified based on submitted documentation, the Committee may request additional documentation such as tray count, payroll records, prior years’ production, and insurance records to substantiate the tonnage of raisins produced on all production units that such applicant controls or owns. Producers’ would not be precluded from submitting other information substantiating production if those producers’ desired. A new production unit will not be eligible for the raisin diversion program until at least 1 year’s production has been grown and is documented. An existing production unit, transferred to a new or expanding producer, is eligible for the raisin diversion program as soon as the previous year’s production can be properly documented.

(p) **Handling of reserve pool tonnage released when diversion certificates are redeemed.** Handlers shall comply with the applicable provisions of the order and administrative rules and regulations for the reserve pool tonnage released under the raisin diversion program in the same manner as raisins acquired from producers. Such provisions shall include, but not be limited to, reporting, satisfying reserve pool obligations, payment of assessments, storing reserve tonnage, and the remedies in the event of failure to deliver reserve tonnage raisins.

(q) **Liquidated damages and interest charges.** By applying to participate in a raisin diversion program, an applicant agrees that the failure of the approved applicant to timely remove the vines or grapes will cause serious and substantial damage to the program and the raisin industry and that, in consideration of the approval of the application, such applicant will pay liquidated damages and interest to the Committee, in the event of such failure to timely remove vines or grapes. Since it would be difficult, if not impossible, to determine the amount of such liquidated damages, the following amount, which is a fair measure of damages and not a penalty, shall apply:

1. The amount of the liquidated damages shall be computed by multiplying the tonnage on the approved diversion application (Form RAC-1000) by the harvest cost determined and announced by the Committee.

2. Each approved applicant shall, with the respect to liquidated damages not paid by July 1, pay to the Committee interest on such unpaid liquidated damages at the rate of the prime rate of the bank in which the Committee has its reserve pool funds
§ 989.157 Raisins produced from grapes grown outside of California.

The handler shall notify the inspection service in writing at least one business day in advance of the time such handler plans to begin receiving raisins produced from grapes grown outside the State of California, unless a shorter period is acceptable to the inspection service.

(d) Raisins produced from grapes grown outside of the State of California and received by a handler shall be marked for identification by the inspector affixing to one container on each pallet or to each bin in each lot a prenumbered RAC control card (to be furnished by the Committee), which shall remain affixed until the raisins are moved in order to allow a representative of the Committee to observe and verify such vine removal.
§ 989.158 Natural condition raisins.

(a) Incoming inspection. (1)(i) The Committee shall, upon request of a handler who complies with the requirements of this part with respect to inspection points, designate as his inspection point any place (including his plant or receiving station) where the handler receives raisins.

(ii) Each handler shall, at his expense, provide at each of his inspection points reasonably safe and adequate facilities for receiving raisins, drawing samples, and efficient inspection of natural condition raisins. At the time of inspection of any lot, the handler shall, at his expense, provide the inspector with any assistance necessary in the inspection of the raisins, including the movement of individual containers. Each handler, other than a processor, shall maintain with the Committee a current written description, defining the boundaries and other pertinent details, of each of his inspection points. In the event the Committee determines that any inspection point, or any modification thereof, does not comply with the definition or the requirements of this part, it shall notify the handler of the changes necessary for compliance. The handler shall make such changes promptly. In the event any of his inspection points is the same as that of another handler or person receiving raisins or grapes in any form, the handler shall maintain his raisins separate and apart from any other raisins.

(iii) The weight of each lot of raisins tendered for receiving, storage, reconditioning, acquisition, or disposition shall be substantiated by an official “State Certificate of Weights and Measures” issued by a public weighmaster, whether located at the inspection point or otherwise, or such other document approved by the Committee which accurately reflects the weight of each lot tendered. The net weight of such raisins for the purposes of this part, shall be determined by deducting the sand tare and box tare from the gross weight of the raisins. The sand tare shall be the weight of the sand and other foreign material removed from the raisins by passing the raisins over a screen (of a type commonly used by the industry for such purpose) having 36 square openings to the square inch, with each opening being one-eighth of an inch square.

(2) No handler, other than a processor, shall receive at points other than at an inspection point, natural condition raisins from a tenderer, either for acquisition, storage, reconditioning, inspection, or for disposition in eligible nonnormal outlets: Provided, That this requirement shall not preclude a handler from dehydrating, free from the provisions of this part, natural condition raisins from a tenderer, either for acquisition, storage, reconditioning, inspection, or for disposition in eligible nonnormal outlets:

§ 989.158 Natural condition raisins.

(e) Each handler shall store raisins produced from grapes grown outside the State of California separate and apart from all other raisins held by such handler to the satisfaction of the Committee. Storage of such raisins shall be deemed “separate and apart” if the containers are marked as raisins produced from grapes grown outside the State of California and placed so as to be readily and clearly identified.

(f) Any raisins received by a handler produced from grapes grown outside the State of California shall be processed and/or disposed of under the surveillance of the inspection service. The handler shall notify the inspection service in writing at least one business day in advance of the time such processing and/or disposition will occur, unless a shorter period is acceptable to the inspection service.

(g) The handler receiving raisins produced from grapes grown outside of California shall pay fees assessed by the inspection service to identify and maintain surveillance of such raisins.

Agricultural Marketing Service, USDA

§989.158

(3) For each lot of natural condition raisins received by a handler for acquisition, reconditioning, storage, inspection, or for disposition in eligible non-normal outlets, the handler shall, immediately upon physical receipt and tentative acceptance thereof, issue a prenumbered (numbered serially in advance) door receipt or weight certificate showing the name and address of the tenderer, the weight of the lot, the number and type of containers in the lot, and any other information necessary to identify the lot. For the purposes of identifying incoming lots of raisins, other than dehydrated raisins covered by paragraph (e) of this section, a handler, if it is impracticable for him to issue immediately a door receipt or weight certificate, may issue for temporary use only a prenumbered “Request for USDA Inspection” on a form furnished by the Committee. Any such raisins so received by a handler shall, prior to their acceptance, be inspected at an inspection point during the unloading process, and if certified as standard raisins shall be, unless returned to the tenderer, either promptly acquired by the handler or received for storage on memorandum receipt: Provided, That in the absence of an inspector to perform inspection during unloading, the handler shall not permit unloading to occur unless such absence is during normal business hours and the handler has a written statement from the inspection service to the effect that inspection cannot be furnished within a reasonable time: And provided further, That the raisins so unloaded shall be inspected promptly upon an inspector being available. It shall be the handler’s responsibility in any case to arrange for the inspection, other than with respect to dehydrated raisins covered by paragraph (e) of this section, and furnish weight certificates promptly. Any raisins received by a handler as off-grade for disposition in eligible non-normal outlets or for reconditioning may be accepted uninspected: Provided, That an application for receiving such uninspected raisins shall be submitted by the handler, on a form furnished by the Committee, to the Inspection Service prior to, or upon physical receipt of, such off-grade raisins. Such form shall provide for at least the name and address of the tenderer (equity holder), date, number, and type of containers, net weight of the raisins, and the particular defect(s) the handler indicates would cause the raisins to be off-grade. Handlers shall complete and sign the form. The application for such uninspected raisins shall not be acceptable unless signed by the tenderer. The uninspected raisins shall be subject to surveillance by the Inspection Service. Each lot of raisins accepted by a handler for reconditioning shall be reconditioned separately from any other lot.

(4) If any lot of natural condition raisins tendered to a handler is separated into two or more lots because a portion of the original lot failed to meet minimum grade and condition standards, or because the entire lot failed due to more than one defect, the handler shall issue a prenumbered weight certificate for each such new lot not returned to the tenderer, showing the name and address of the tenderer, the weight of the lot, and the number and type of containers in the lot. The weight of any meeting lot shall be determined by weighing it, or by weighing the failing portion of the incoming lot and deducting the weight thereof from the weight of the incoming lot. The weight of each failing lot shall be determined by weighing it, or by deriving such weight by applying the original average container weight to the number of containers. Provided, That when the condition of a lot of such raisins may have changed subsequent to the original inspection, an additional inspection, rather than an appeal inspection, may be obtained.

(5) Any financially interested party may, upon the payment of any fees assessed by the inspection service, obtain an appeal inspection. An appeal inspection shall be applicable only to raisins which have not been removed from their containers, with pallet control cards still affixed, are readily identifiable, and have not been removed from the original inspection point: Provided, That when the condition of a lot of such raisins may have changed subsequent to the original inspection, an additional inspection, rather than an appeal inspection, may be obtained.

(6) Raisins produced by a handler shall be subject to the requirements of paragraph (a) (3) and (4) of this section upon delivery to an inspection point. Raisins produced by a handler by dehydration within an inspection point
shall be subject to the requirements of paragraph (a) (3) and (4) of this section immediately upon completion of said dehydration.

(7) The inspection certificate for a mixed lot of natural condition raisins (raisins of different varietal types mingled within their containers) shall show the percentage which the raisins of each varietal type is of the total raisins contained in the lot.

(8) With respect to any lot of natural condition raisins being received and inspected at a handler’s inspection point pursuant to paragraph (a)(3) of this section, the handler shall notify the inspection service if he elects to have the raisins inspected for infestation. If the handler elects not to have the raisins inspected for infestation, he shall: (i) Fumigate promptly all raisins he receives; (ii) notify the inspection service in advance of the time he plans to fumigate such raisins; (iii) permit the inspection service to monitor the fumigation; and (iv) permit the inspection service to make periodic incubation checks of his packed raisins. The inspection service shall certify the raisins received as standard raisins if they meet all other grade and condition standards. If the handler elects to have the raisins inspected for infestation, the inspector shall afford such handler the opportunity to fumigate such raisins during the inspection and certification process. Such raisins shall remain under the supervision of the inspector during the fumigation. The inspection certificate shall not be issued until the fumigation is completed: Provided, That the inspection certificate shall be issued, whether or not the fumigation is completed, not later than five business days after the date the inspection and certification process is suspended by the inspector to permit fumigation.

(9) With respect to any lot (as defined in §989.104(a)(1)) of natural condition raisins being received and inspected at a handler’s inspection point pursuant to paragraph (a)(3) of this section and notwithstanding separation of the meeting portion of the original lot from the failing portions thereof for the purposes on §989.104 and paragraph (a)(4) of this section, any tenderer may, when permitted by the handler and when notified by the inspector of defects during the inspection and certification process, and in accordance with the provisions of this subparagraph, perform any one or more of the following on an individual box basis: (i) Mix raisins within boxes containing raisins that are wet, or of high moisture content in some areas of the box; (ii) dump raisins from wet boxes into dry boxes; (iii) remove wet raisins; or (iv) remove foreign material such as sandburs, puncture vine seed, Eucalyptus pods or leaves, rocks, and sticks. This authorization to the tenderer shall not extend to raisins in containers larger than sweat boxes; and the number of boxes in the original lot on which the aforesaid actions may be performed during such process shall not exceed ten, or five percent of the total number of containers in the lot, whichever is less. Where the percentage computation results in a fraction of a box and is less than ten boxes, it shall be rounded upward to the next number. The entire lot of raisins shall remain under surveillance of the inspector during such process. The actions of the tenderer shall be done without delay, take place at the unloading dock in the inspection point, or in the immediate area thereof, and be under observation of the inspector.

(b) Submission of inspection certificates to the Committee. A copy of each inspection certificate which a handler is required to submit to the Committee pursuant to §989.58(d) shall be submitted not later than Wednesday of the week following the week for which such certificate was issued. This may be accomplished by authorizing the inspection service to submit a copy of each such inspection certificate directly to the Committee. A copy of such authorization shall be furnished to the Committee.

(c) Off-grade raisins—(1) Holding and identification. The inspection certificates covering any lot of off-grade raisins shall state whether or not such off-grade raisins are storable. Any raisins which do not meet the applicable grade and condition standards shall be classified in one of the three categories specified in §989.58(e)(1) within 5 business days (excluding Saturdays, Sundays, and holidays) after inspection or
Agricultural Marketing Service, USDA

§ 989.158

3 such business days after issuance of the inspection certificate, whichever is later: Provided, That these time limits may be extended by the Committee under such conditions as it may deem necessary in the circumstances. The handler shall report to the Committee the information as required and specified in § 989.173(b)(5). Any such lot of off-grade raisins shall be identified immediately following inspection by fixing to a container on each pallet a pre-numbered RAC control card (to be furnished by the Committee), and kept separate and apart from any other raisins in the handler’s possession. In the event the handler does not normally use pallets in his operation the RAC control card shall be affixed to one or more of the containers in each lot. The RAC control cards shall remain fixed to the containers until the raisins are (i) disposed of by the handler in eligible nonnormal outlets, (ii) returned unstemmed to the tenderer, or (iii) submitted for reconditioning. The cards shall be removed only by an inspector of the inspection service or authorized Committee personnel, except control cards designating lots held only for fumigation may be removed by the handler after the completion of fumigation to the satisfaction of the inspection service. Each lot of off-grade raisins not returned to the tenderer shall be stored by the handler separate and apart by varietal types from all other raisins and by disposition and conditioning categories which preserve the lot identity and, if for reconditioning, the defect identity. Off-grade raisins shall be stored in such a manner as to be accessible to the Committee.

(2) Change in off-grade categories. After raisins have been classified as to the categories in § 989.58(e)(1), any lot of natural condition off-grade raisins held by a handler under paragraph (i) or (iii) of § 989.58(e)(1), may be changed to the other category, or to paragraph (ii). Prior to making such change the handler shall notify the inspection service in writing at least one business day in advance of the time he plans to begin such change. Any off-grade lot under paragraph (ii) of § 989.58(e)(1) which has not been removed from the handler premises and is identifiable with the original inspection, may be tendered to the handler for the purposes of paragraph (i) or (iii) of § 989.58(e)(1) and, if accepted, the handler shall so report to the Committee. It shall be the responsibility of the handler to establish and maintain the identity of the raisins in the changed categories in accordance with the applicable provisions of paragraph (c)(1) of this section. Where the tenderer has a financial interest in the raisins the handler shall, before making any change in category, submit to the Committee evidence of the tenderer’s permission to make any such change, except for changes from paragraph (i) or paragraph (iii) to paragraph (ii) of § 989.58(e)(1).

(3) Interplant and interpacker transfer of off-grade raisins. Any packer may, pursuant to § 989.58(e)(2) and under the surveillance of the inspection service, transfer to or from another packer’s plant in California, any off-grade raisins for reconditioning. Such transfer may be for the packer’s convenience or that of a financially interested person. Where a tenderer or other person has a financial interest in the raisins, the handler shall first obtain the tenderer’s or other interested person’s written agreement to the transfer. The handler shall notify the inspection service in advance and in writing on a form to be provided by the Committee, of the time he plans to transfer each lot and shall send a copy of the notification to the Committee. The notification shall be at least 1 business day in advance of the transfer unless a shorter period is acceptable to the inspection service. In the same manner except for the tenderer’s or other person’s written agreement, any packer may transfer off-grade raisins from one of his plants or inspection points to another of his plants in California. In both cases such raisins may be removed directly to the premises of the receiving packer or another plant of the packer under the surveillance of the inspection service. Upon completion of the transfer all applicable provisions of this part shall apply with respect to such raisins and the packer receiving them.

(4) Reconditioning off-grade raisins—reconditioning requirements. (i) The handler shall notify the inspection service in writing at least one business day in
advance of the time he plans to begin reconditioning each lot of raisins, unless a shorter period is acceptable to the inspection service. Natural condition raisins which have been reconditioned shall continue to be considered natural condition raisins for purposes of reinspection (inspection pursuant to §989.58(d)) or setaside by a handler to satisfy the handler’s reserve pool obligation, after such reconditioning has been completed, if no water or moisture has been added; otherwise, such raisins shall be considered as packed raisins. The weight of the raisins reconditioned successfully shall be determined by reweighing, except where a lot, before reconditioning, failed due to excess moisture only. The weight of such raisins resulting from reconditioning a lot failing account excess moisture may be determined by deducting 1.2 percent of the weight for each percent of moisture in excess of the allowable tolerance. When necessary due to the presence of sand, as determined by the inspection service, the requirement for deducting sand tare and the manner of its determination, as prescribed in paragraph (a)(1) of this section, shall apply in computing the net weight of any such successfully reconditioned natural condition raisins. If, after reconditioning, such raisins meet the minimum grade standards, but no longer are natural condition raisins as defined in §989.8, any handler who acquires such raisins shall meet his reserve obligation from natural condition standard raisins of the same varietal type acquired by him. The weight of the reconditioned raisins acquired as packed raisins shall be adjusted to natural condition weight by the use of factors applicable to the various degrees of processing accomplished. The applicable factor shall be that selected by the inspector of the reconditioned raisins from among factors established by the Committee with the approval of the Secretary.

(ii) In reconditioning off-grade raisins, a handler shall use methods designed to remove the defects whereby the lot fails to qualify as standard raisins. Lots with identical defects may be reconditioned simultaneously (commingled basis) but lots with differing defects shall be reconditioned as separate lots.

(5) General. Reconditioning of off-grade raisins by a handler shall be done in accordance with such procedure as will enable the inspector to observe the off-grade raisins at any time and to make a proper inspection. A packer may recover raisins from residual raisin material obtained from his reconditioning operations in conformity with the applicable provisions of §989.158(g)(1).

(6) Off-grade raisins which are not reconditioned successfully. (i) Except as provided in paragraph (c)(6)(ii) of this section, no handler shall return to the tenderer any off-grade raisins received for reconditioning which, after his reconditioning of them is complete, have been stemmed and which then fail to meet the applicable minimum grade standards. Any raisins which fail to meet the applicable minimum grade and condition standards after reconditioning and all residual material from reconditioning, held by the handler, shall be identified promptly by affixing to one or more containers in each lot, or to a container in each pallet if pallets are used, a prenumbered RAC control card as prescribed in paragraph (c)(1) of this section: Provided, That such failing raisins and residual material which are placed directly into trucks or trailers for immediate disposition need not be identified by affixing thereto a RAC control card. The handler shall physically dispose of the residual material, and any failing raisins which he does not return unstemmed to the tenderer, only in eligible nonnormal outlets as provided in §989.158(g)(2).

(ii) Any packer may arrange for or permit the tenderer to remove the stemmed raisins (described in paragraph (c)(6)(i) of this section), but not the residual, directly to the premises, within California, of another packer for further reconditioning of the raisins at the latter’s premises. Such removal
and transfer shall be made under the surveillance of the inspection service. The packer shall notify the inspection service as required in paragraph (c)(3) of this section and shall obtain from the receiving packer a written statement that he will receive the raisins for reconditioning. The notification shall be on a form provided by the Committee, and a copy thereof and of the receiving packer’s statement shall be forwarded by the transferring packer to the Committee. Such raisins may be received by the other packer without inspection. On and after such receipt of the raisins for further reconditioning, all applicable provisions of this part shall apply with respect to such raisins and the packer so receiving them.

(7) Return of off-grade raisins to tenderer. Any off-grade raisins which are to be returned unstemmed to the tenderer pursuant to §989.58(e)(1)(ii), shall be physically returned within five business days after the issuance of the inspection certificate: Provided, That such time limit may be extended by the Committee as it may deem justified by extenuating circumstances. The handler shall file with the Committee a report of the returned raisins as required in §989.173(b)(4).

(i) Unstemmed and stemmed raisins. For the purpose of determining whether or not off-grade raisins may be returned to the person tendering such raisins, “unstemmed” raisins shall be defined as lots of raisins that contain 150 or more capstems per pound. “Stemmed” raisins means lots of raisins that contain less than 150 capstems per pound.

(d) Reinspection of raisins held more than one hundred and twenty days on memorandum receipt. No handler shall acquire raisins held on memorandum receipt for a period longer than one hundred and twenty (120) days unless such raisins have been reinspected and certified immediately prior to acquisition as meeting the minimum requirements for standard raisins: Provided, That the Committee at any other time may require such reinspection and certification of raisins held on memorandum receipt as a prerequisite to acquisition if it has reason to believe that the raisins do not then meet such requirements.

(e) Inspection of raisins on dehydrator’s premises—(1) Application and agreement. (i) Any dehydrator may submit to the Committee for approval, and the Committee may approve, in accordance with the provisions of this paragraph an application and agreement, on a form furnished by the Committee, providing for dehydrator on-premise inspection of natural condition raisins produced by the dehydrator by subjecting grapes to artificial heat. Raisins so produced are referred to in paragraph (a)(3) of this section and in this paragraph as “dehydrated raisins.”

(ii) The provisions of such application and agreement shall include at least the following:

(a) The dehydrator shall request the inspection service to inspect all dehydrated raisins which the dehydrator produces and to issue a related memorandum report of inspection at the time of loading any quantity of such raisins for delivery to a packer’s inspection point;

(b) The dehydrator will arrange with the inspection service for the necessary inspection service to be performed by the service, and the dehydrator will submit to the Committee a statement from the inspection service that the dehydrator has adequate facilities for the inspection and that such arrangements have been made;

(c) All necessary reconditioning of dehydrated raisins, identification and segregation of raisins, and movement of inspected dehydrated raisins on or from the dehydrator’s premises shall be done in such manner and under such conditions as the inspection service may require;

(d) The dehydrator shall, at the time of the packer’s receipt of such raisins, furnish to the packer to whose inspection point the inspected raisins are delivered the original and one copy of the memorandum report of inspection covering such raisins;

(e) The dehydrator shall maintain such records and furnish such reports and permit access to such records and the dehydrator’s premises as required in the application and agreement or as
§ 989.158

the Committee may subsequently request; and

(f) The application and agreement may be suspended or terminated as provided therein.

(iii) The Committee will notify raisin packers of each dehydrator whose application and agreement has been approved by the Committee (such dehydrator is referred to in this subpart as “authorized dehydrator”); similarly, the Committee will notify packers of each suspension or termination of a previously approved application and agreement.

(2) Delivery of inspected dehydrated raisins. Any dehydrated raisins which (i) are inspected on an authorized dehydrator’s premises where produced; (ii) are moved promptly and directly to a packer’s inspection point from the premises of the authorized dehydrator; (iii) are accompanied by an applicable memorandum report of inspection to be furnished to the packer; and (iv) are otherwise in compliance with the provisions of such approved application and agreement and this paragraph may be received by the packer without the inspection at time of receipt required by § 989.58(d). With respect to such dehydrated raisins, the packer shall comply with all applicable requirements and procedures of this part, including, but not limited to, inspection after any necessary reconditioning and the inspection prescribed in § 989.59.

(3) Packer’s obligations. Immediately upon a packer’s receiving any such already inspected dehydrated raisins accompanied by the applicable memorandum report of inspection, the packer shall give to the inspector at the packer’s inspection point where the dehydrated raisins were received, the original and one copy of such memorandum report so that the inspector may enter the net weight and scale ticket number on such memorandum report of inspection and copy thereof. Whenever a packer receives off-grade raisins from an authorized dehydrator he shall so advise the inspector at the packer’s inspection point at the time of such receipt; and such raisins shall not be unloaded except in the presence of the inspector or in accordance with such prior arrangements as may have been made between the packer and the inspection service.

(f) Inspection of raisins at cooperative bargaining association’s receiving station—(1) Application and agreement. (i) In accordance with the provisions of this paragraph, any cooperative bargaining association may submit to the Committee for approval, and the Committee may approve, an application and agreement, on a form furnished by the Committee, providing that where the association receives from individual producers lots of natural condition raisins at any of its receiving points and the raisins are inspected and stored consistent with such application and agreement, such lots shall be eligible for delivery to handlers, pursuant to paragraph (f)(3) of this section, without reinspection. Any raisins which upon inspection by the inspection service do not meet the applicable grade and condition standards shall be identified immediately following inspection and kept separate and apart from any other raisins in the association’s possession.

(2) Terms and conditions. The provisions of such application and agreement shall include at least the following terms and conditions:

(i) That the association shall, prior to delivery of any raisins to handlers, arrange for inspection services at the association’s receiving station(s), and cause to be submitted to the Committee a statement by the inspection service of such arrangement and of the association’s having adequate labora-

tory and other facilities for such services available at the association’s receiving station(s).

(ii) That the association shall maintain such facilities satisfactory to the inspection service.

(iii) That the association shall request inspection of each lot of raisins immediately upon physical arrival thereof at the association’s receiving station(s), and shall provide the inspector with any assistance necessary in the inspection of such raisins, including the movement of individual containers.

(iv) That the association shall fumigate all raisins received at the association’s receiving station(s) as necessary to assure that the raisins are free from
active infestation and maintain them as such while on such premises, and that fumigation shall be performed to the satisfaction of the inspection service.

(v) That the association shall, with respect to all raisins entering its premises which are not returned to the producer as provided in paragraph (f)(2)(vi) of this section, promptly affix to one or more containers in each lot, or to a container in each pallet if pallets are used, a Committee control card showing thereon such information as the Committee requires to maintain the producer identity of each lot and prevent commingling with any other lot. The association shall not move all or any portion of a lot of raisins on the premises of the association’s receiving station(s) or load any such raisins for shipment, except in the presence of an inspector of the inspection service.

(vi) That the association shall store any standard raisins and any off-grade raisins which are held by it after receipt and inspection on the premises of the association’s receiving station(s) under conditions which protect the raisins from rain, infestation and contamination, and which can be expected to maintain their respective conditions except for normal and natural deterioration and shrinkage. Any raisins which after receipt and inspection are not accepted and held by the association shall be returned to the producer within 5 business days after the issuance of the inspection certificate.

(vii) That the association shall furnish the inspection service with a completed Committee form requesting issuance, at the time of loading any lot of inspected raisins for delivery to any handler’s inspection point, of a memorandum report of inspection covering such lot.

(viii) That the association shall deliver to the handler at the time of receipt of any such lot of eligible raisins at the handler’s inspection point the original and one copy of the inspection service’s related memorandum report of inspection; and such original and copy shall accompany the shipment of such lot from the premises of the association’s receiving station(s) to the handler’s inspection point.

(ix) That the association shall maintain complete records of the receipt, holding and disposition of each lot of raisins and retain such records for at least 2 years after the crop year in which such transactions occurred.

(x) That the association shall file promptly with the Committee certified reports showing such information as the Committee may request relative to the association’s receipts, holdings, and dispositions of raisins.

(xi) That the association shall permit the Committee, the inspection service, and the Secretary of Agriculture, through their duly authorized representatives, to have access to the premises of the association’s receiving station(s) to inspect such premises and any raisins thereon and any and all records with respect to the association’s receipts, holdings and dispositions of raisins.

(xii) That upon approval of the application and agreement the Committee will notify handlers of such approval and that eligible lots of inspected raisins will not require incoming inspection at handler inspection points; will notify the interested handlers of any suspension or revocation, for good cause, of the eligibility of a particular lot of raisins; and will notify handlers of any suspension or termination of the application and agreement.

(xiii) That the Committee will request the inspection service to establish a fee to the association for the services to be rendered at the same rate as is charged handlers.

(xiv) That the application and agreement may be suspended or terminated as provided therein.

(3) Waiver of requirement for incoming inspection at handler inspection point. Any lot of raisins which (i) is inspected on the premises of the association’s receiving station(s) pursuant to an approved application and agreement, (ii) is in compliance with the provisions of such application and agreement and this paragraph, (iii) is moved under the surveillance of the inspection service to a handler’s inspection point from the association’s receiving station(s) after issuance of the related memorandum report of inspection, and (iv) is accompanied by such memorandum report to be furnished to the handler may
§ 989.159 Regulation of the handling of raisins subsequent to their acquisition.

(a) Inspection facilities. At each of the premises where packed raisins are to be inspected each handler shall, at his expense provide reasonably safe and adequate space and other facilities necessary for the proper and efficient inspection of such raisins.

(b) Identification of inspected raisins.

(1) Each handler shall mark each shipping container with legible code or other identification satisfactory to the Committee and the inspection service which shall indicate (i) with respect to packed raisins, the date that the raisins in such shipping containers were packed, and (ii) with respect to shipments of natural condition raisins, the date on which such raisins were inspected.

(2) Each handler shall furnish promptly to the Committee, through the inspection service, a certified report on a form furnished by the Committee showing the handler’s count and weight of the raisins of each pack and varietal type packed each day.

(c) Outgoing inspection. (1) Outgoing inspection and certification of raisins as required by § 989.59(d) shall be made as set forth in this paragraph.

(2) Such inspection of natural condition raisins (which is subject to exceptions and exemptions provided in this part) shall be made of each individual lot and in each case not more than five days before the date of shipment or other final disposition of the lot. The certificate that the raisins meet the applicable minimum grade and condition standards for natural condition raisins, which the handler is required to obtain and submit to the Committee pursuant to § 989.59(d), shall be on Form FV 146 labeled “Certificate of Quality and Condition (Processed Foods).” If shipment involves exportation to a foreign country, the handler shall surrender to the United States Customs Service at the port of exit two copies of such inspection certificate. Such an inspection and certification (on Form FV 146) may, if requested by the handler, be made at the time of his receipt or acquisition of the raisins. In such an event, no additional inspection shall be required if the lot remains intact and identifiable, and shipment or other final disposition takes place within five days after the date of the inspection.

(3) Such inspection of packed raisins shall be made prior to shipment or other final disposition, and unless made during the final processing or packing operations so as to facilitate proper sampling, the inspector shall perform the inspection on the basis of representative samples drawn from shipping containers of the packed raisins.

(4) Except as otherwise provided in this part, where there is presented for inspection a lot of packed raisins consisting of raisins of different varietal types or sub-types commingled within their containers, each such type and sub-type shall be inspected separately, except that inspection for moisture shall be performed on the lot as a whole. The inspection certificate shall show the respective percentages which the raisins of the various types and sub-types are of the lot and whether
each meets the applicable minimum grade standards. In the event the raisins of any such varietal type or sub-type contained in the lot fail to meet the applicable requirements, other than for moisture, none of the lot shall be certified as meeting minimum grade standards. In the event the raisins of any such varietal type or sub-type contained in the lot fail to meet the applicable requirements, other than for moisture, none of the lot shall be certified as meeting minimum grade standards unless it is found to be practicable to separate the raisins into two new lots, one which meets and the other which fails to meet all of the applicable minimum standards, respectively. Any lot of mixed types or sub-types of packed raisins for which minimum grade standards are prescribed for each type or sub-type pursuant to §989.59(a) and (b) but which in their commingled form cannot be inspected against the standards for the respective varietal types or sub-types and hence are excluded from the category of “Mixed types” as defined in the then effective United States Standards for Grades of Processed Raisins, or any raisins which as a mixed lot contain moisture in excess of 18 percent, shall not be certified as meeting the minimum grade standard for packed raisins.

(d) Submission of inspection certificates to the Committee. A copy of each inspection certificate which a handler is required to submit to the Committee pursuant to §989.59(d) shall be submitted not later than Wednesday of the week following the week in which the certificate was issued. This may be accomplished by authorizing the inspection service in writing to submit a copy of each such inspection certificate directly to the Committee. A copy of such authorization shall be furnished to the Committee.

(e) Term of inspection certificate. Any handler who:

(1) Fails to ship or make other final disposition for human consumption of any lot of packed raisins within 90 calendar days, or of any lot of natural condition raisins within 5 calendar days, after the date of the last inspection of the lot; or

(2) Has any shipment or portion of a shipment returned to his inspection point or storage premises within the area, shall, before any such shipment or final disposition, or before blending with other raisins, have such raisins inspected for condition and shall furnish promptly to the Committee (which may be through the inspection service as provided in §989.158(b)) a copy of the inspection certificate showing that the raisins meet the respective requirements of this part for shipment, final disposition or blending.

(5) Exemption of experimental and specialty packs—(1) Shipment under exemption. Upon obtaining approval of the Committee as provided in this paragraph, any handler may ship or dispose of raisins in experimental or specialty packs without regard to one or more of the requirements of the minimum grade standards for packed raisins and inspection and certification requirements, prescribed pursuant to §989.59.

For the purpose of this exemption, experimental and specialty packs means raisins processed using methods, materials, or techniques that are not normally employed in packing raisins.

(2) Application for exemption. Each application for exemption shall be filed with the Committee in triplicate. The application shall at least contain information as to: (i) The name and address of the handler; (ii) the estimated quantity of each varietal type of raisins for which the exemption is requested; (iii) the specific requirements in the minimum grade standards from which exemption is requested; (iv) the special processing involved; (v) the net weight of each type of container; (vi) whether disposition will be made direct to consumers, wholesalers, retailers, persons, or organizations, and any special uses to be made of such raisins; and (vii) the general quality, style, and condition of the raisins for which the exemption is requested.

(3) Committee action on application. The Committee in its discretion shall approve each application for exemption of raisins, if it concludes that such exemption shall not jeopardize the objectives of the marketing order program. The Committee shall notify the handler promptly in writing of its approval or disapproval of his application and, if the application is approved, the maximum quantity for which approval is granted. If the application is disapproved, the Committee shall inform the handler of the reasons therefor.
(4) Reports. The handler shall report shipments or other dispositions under an approved exemption as required pursuant to §989.173(e).

(g) Off-grade raisins, other failing raisins, and raisin residual material—(1) Recovery of raisins. For the purposes of §§989.59(f) and 989.158(c)(4), a packer may recover raisins from: (i) Residual raisins from his processing of standard raisins; (ii) any raisins acquired as standard raisins which fail to meet the applicable outgoing grade and condition standards; (iii) any raisins rejected on a condition inspection; and (iv) residual raisins from reconditioning of off-grade raisins: Provided, That such recovery under paragraphs (g)(1)(ii) and (iii) of this section must occur without blending, if the failure to meet the minimum grade standards for packed raisins is due to a defect or defects affecting the wholesomeness of the raisins: And provided further. That such recovery under paragraph (g)(1)(iv) of this section must occur without blending, except as permitted in §989.158(c)(4)(ii), and the weight of standard raisins in residual from off-grade raisins shall be credited equitably to the same lot or lots from which the residual was obtained. The provisions of this paragraph are not intended to excuse any failure to comply with all applicable food and sanitary rules and regulations of city, county, state, federal, or other agencies having jurisdiction.

(2) Disposition. (i) Except as authorized in this part, no handler shall ship or otherwise dispose of any off-grade raisins, other failing raisins, or raisin residual material. Any handler may ship, transfer, or otherwise dispose of off-grade raisins, other failing raisins, and raisin residual material to or at points within the continental United States (other than Alaska) for use in eligible nonnormal outlets only after filing with the Committee a written application to make such shipment, transfer, or other disposition and receiving its written approval thereof. However, the requirements of prior filing and approval of any such application shall not apply to:

(a) The transfer of any such raisins or residual material by a handler from one of his plants to another of his plants in the State of California, except any transfer of raisins which are for reconditioning shall be in accordance with §989.158(c)(3);

(b) Any interpacker transfer or removal of off-grade raisins made in accordance with §§989.158(c)(3) and of unsuccessfully reconditioned off-grade raisins which have been stemmed (other falling raisins) made in accordance with §989.158(c)(6)(ii);

(c) Any return by a handler of unstemmed off-grade raisins to the tenderer in accordance with §989.158(c)(7);

(d) Any shipment or transfer of off-grade raisins, other failing raisins, or raisin residual material by any handler to a processor within the State of California for use, within the State, in eligible nonnormal outlets;

(e) Any shipment or transfer of off-grade raisins, other failing raisins, or raisin residual material by any handler to any person with an effective agreement with the Committee, in which he agrees (1) to use such raisins and raisin residual material only in eligible nonnormal outlets, (2) if not so used, to pay to the Committee liquidated damages in the amount and under the conditions specified in paragraph (g)(2)(iii) of this section, and (3) to maintain complete, accurate, and current records regarding his dealings in raisins and raisin residual material, retain the records for at least 2 years, and permit representatives of the Committee and Secretary of Agriculture to examine all of his books and records relating to raisins and residual material; and

(f) Any direct use by the handler of such raisins or material in eligible nonnormal outlets within the State of California.

(ii) Each such application shall, in addition to the agreement specified in paragraph (g)(2)(iii) of this section, include as a minimum: (a) The names and addresses of the handler, the consignee, and the user; (b) the quantity of off-grade and other failing raisins and the quantity of raisins residual material to be shipped or otherwise disposed of; (c) a description of such off-grade raisins and other failing raisins and raisin residual material, as to type or origin; (d) the present location
§ 989.160 Exemptions.

(a) Any processor may receive or acquire any raisins for use in eligible non-normal outlets, and dispose of them for such use, without having them inspected and certified. Processors receiving or acquiring raisins under such exemption, or otherwise receiving or acquiring raisins which do not meet the applicable minimum grade and condition standards, shall not ship or otherwise dispose of any such raisins except in conformity with the provisions of § 989.159(g)(2). Processors shall report receipts and acquisitions and make such other reports as are required pursuant to §§ 989.73 and 989.173.

(b) Disposition of raisins produced in Southern California. Raisins produced from grapes dried on the vine in the counties of Riverside, Imperial, San
§ 989.166 Reserve tonnage generally.

(a) Set-aside obligations—(1) Natural (sun-dried) Seedless. Handlers who acquire any lot of natural condition Natural (sun-dried) Seedless raisins which have been dipped in or sprayed with water, with or without chemicals prior to or during the drying process, for purposes other than to expedite drying, or that have been produced from seedless varieties of grapes other than Thompson Seedless (i.e., Fiesta, Emerald Seedless, Perlette, Delight, and other similar grape varieties), may set aside such raisins to satisfy their reserve pool obligation: Provided, That such raisins shall be identified by the Inspection Service affixing to one container on each pallet or to each bin in each lot, a prenumbered RAC control card (to be furnished by the Committee) which shall remain affixed until raisins are processed or disposed of as natural condition raisins: and Provided further, That such raisins shall not be delivered to the Committee or transferred to another handler without approval of the Committee or the receiving handler.

(2) Mixed varietal types. A handler who acquired any lot of natural condition raisins of mixed varietal types (commingled within their containers) shall meet the reserve tonnage setaside obligation for each varietal type contained in the mixed lot by setting aside raisins of each such varietal type which have not been mixed or commingled with raisins of any other varietal type. The obligation as to each varietal type shall be computed according to the reserve percentage established by the Secretary, and the percentage of the varietal type contained in the mixed lot as shown by the incoming inspection certificate applicable thereto.

(b) Storage of reserve tonnage raisins—(1) Time limits for setting aside pool tonnage. Handlers shall be allowed 3 calendar days (exclusive of Saturdays, Sundays, and holidays), after the preliminary or interim percentages have been computed and announced by the Committee, and after the publication in the Federal Register of the applicable final reserve percentages established for the crop year, or after any reserve tonnage raisins are acquired subsequent to the percentages being announced or established, to segregate and properly stack each varietal type of reserve tonnage raisins.

(2) Conditions. Each handler shall store reserve tonnage raisins in storage and under conditions which protect them from rain and which reasonably can be expected to maintain the raisins free of any biological or other infestation or contamination. Each handler shall, pursuant to §989.66(b)(2), store each varietal type of reserve tonnage raisins held by him for the account of the Committee, separate and apart from all other raisins. Storage of such raisins shall be deemed “separate and apart” if the containers are so marked and placed as to be capable of ready and clear identification as to the category in which are held. Reserve tonnage raisins shall be stored in sweat boxes, picking boxes, or other portable containers not exceeding one ton capacity:

(3) Substitution of free tonnage. A handler may, pursuant to §989.66(b)(3), after giving the Committee reasonable advance notice in writing and under its direction and supervision, substitute standard raisins for reserve tonnage raisins.

(c) Remedy in the event of failure to deliver reserve tonnage raisins. A handler who fails to deliver to the Committee, upon request, any reserve tonnage raisins in the quantity and quality for which he has become obligated (after any shrinkage allowances which may then be in effect are applied and allowances for any deterioration due to conditions beyond his control are made) shall compensate the Committee for the amount of the loss resulting from his failure to so deliver. The amount of compensation for any shortage of tonnage shall be determined by multiplying the quantity of reserve raisins not delivered by the latest weighted
average price per ton received by producers during the particular crop year for free tonnage raisins of the same varietal type or types, plus any charges already paid or credited to the handler and cost incurred by the Committee on account of the handler’s failure to deliver. The weighted average price shall be determined from those sales made during the particular crop year up to the time such cash payment is requested by the Committee, or up to the end of the particular crop year, whichever date may be earlier. The amount which a handler shall compensate the Committee for any reserve raisins which have deteriorated so as to be off-grade in quality during storage for reasons within his control, shall be the latest weighted average price received by the Committee for the applicable varietal type of reserve pool raisins, less the amount actually received by the Committee in the disposition of the deteriorated raisins delivered by the handler (or the salvage value of such raisins as determined by the Committee). Any amounts paid to the Committee in satisfaction of such deficiencies shall accrue to the earnings of the applicable reserve pool. The remedies provided in this paragraph shall be in addition to, and not exclusive of, any or all of the remedies or penalties prescribed in the act for failure on the part of the handler to comply with the applicable provisions of the act or of this part.

(d) Disposition of reserve tonnage raisins which become off-grade for causes beyond the handler’s control. Any reserve tonnage raisins held by or for the account of the Committee which become off-grade for reasons beyond the handler’s control shall, at the Committee’s discretion, be reconditioned or disposed of by the Committee, or under the Committee’s control, in eligible non-normal outlets. Any monetary loss sustained in the reconditioning or disposition of such raisins, not covered by insurance carried by the Committee, shall be charged to the applicable reserve pool.

(e) Offers of reserve tonnage raisins to handlers for sale in export. Whenever the Committee offers reserve tonnage raisins to handlers for sale in export, it shall specify in addition to the normal contract terms and conditions, the total quantity, the price and period within which each handler will be permitted to purchase his share of the offer. Whenever a handler’s share of an offer is less than, or exceeds, his holding of reserve tonnage raisins by not more than 10 tons, the Committee may adjust his share so as to avoid the cost involved in the physical transfer of raisins. If, prior to the expiration of the offer period, a handler desires to obtain reserve tonnage in an amount greater than that represented by his share of the offer, he may negotiate with another handler for any unpurchased portion of the other handler’s share of an outstanding offer. No such transaction shall be deemed to reduce the transferring handler’s share or to increase the transferee handler’s share so as to affect either handler’s share privileges in subsequent offers. Transfers to implement such transactions between handlers shall be permitted by the Committee only upon receipt of written authorization, on a form furnished by the Committee, by the transferring handler. All limitations applicable to the transferred tonnage shall continue to apply. Such reserve tonnage raisins will be released by the Committee to the transferee handler upon submission of his completed application and full payment for such raisins, and such transferee handler shall be responsible to the Committee for all documentation required in connection with the transaction. All such transfers shall be made at the expense of the handlers concerned.

§ 989.167 Disposal of reserve raisins.

(a) Offer of reserve tonnage raisins for use in noncompetitive outlets. Whenever the Committee proposes to offer to sell standard reserve tonnage raisins in noncompetitive outlets pursuant to §989.67 (a) and (b), it shall promptly file with the Secretary complete information with respect thereto and the basis therefor. The Secretary shall have the right to disapprove, within seven calendar days, the making of such an offer.
§ 989.173

or sale or any term or conditions there- 
of.

(b) Determination of price of reserve tonnage sold for free tonnage use. Whenever, pursuant to § 989.67(j), the Committee concludes, with respect to any varietal type of raisins, that a downward trend in the price received by producers for free tonnage, or in the prices received by handlers for free tonnage packed raisins, makes it impracticable to sell reserve tonnage at the average price received by producers for free tonnage plus pooling costs, the Committee, subject to the requirements of § 99.67(j), may sell reserve tonnage raisins at the currently prevailing field price for free tonnage raisins of the same varietal type, unless such price is deemed to be unrepresentative of the current f.o.b. price of free tonnage packed raisins. In such an event, or if there is no current field price, the Committee shall make any offer of reserve tonnage at approximately the computed field price obtained by deducting from the current f.o.b. price for free tonnage packed raisins of the varietal type to be offered, the approximate recent packing and handling margin between such packed price and the field price for free tonnage raisins. This paragraph (b) shall not be in effect from July 30, 1984, through July 31, 1986.

(c) Terms of reserve tonnage offers. Whenever the Committee offers reserve tonnage raisins to handlers for use in free tonnage outlets, the Committee shall, among other terms and conditions of the offer, specify (1) the period in which each handler shall be given the opportunity to purchase his share of the offer, and (2) the period in which each eligible handler shall be given an opportunity to purchase his respective share of any reoffer. In the event reserve pool raisins are transferred by the Committee, the purchasing handler shall promptly empty the raisins from the containers used in the transfer so that the Committee may return the containers and pallets used in the transfer to the handler from whom the raisins were transferred within 10 business days from the date of transfer. Any handler who refuses to permit the containers in which reserve pool raisins are stored to leave his premises, shall, at his expense, place such raisins in containers supplied by the Committee.

Subpart—Assessment Rates

§ 989.347 Assessment rate.

On and after August 1, 2000, an assessment rate of $6.50 per ton is established for assessable raisins produced from grapes grown in California.

[65 FR 57943, Sept. 27, 2000]

Subpart—Schedule of Payments

§ 989.401 Payments for services performed with respect to reserve tonnage raisins.

(a) Payment for crop year of acquisition—(1) Receiving, storing, fumigating, and handling. Each handler shall be compensated at a rate of $46 per ton (natural condition weight at the time of acquisition) for receiving, storing, fumigating, and handling the reserve tonnage raisins, as determined by the final reserve tonnage percentage, acquired during a particular crop year and held by the handler for the account of the Committee during all or any part of the same crop year.

(2) Inspection. Each handler shall be reimbursed by the Committee for inspection costs applicable to the reserve tonnage raisins, as determined by the final reserve tonnage percentage, received and held by him for the account of the Committee. Such payment shall be made at the currently applicable rate per ton paid by such handler to the Inspection Service and on the quantity reported by the handler. The Committee shall pay the cost of any inspection required by it of such reserve tonnage raisins while they are being held for its account: Provided, That the cost of inspection of any raisins substituted, pursuant to §989.66(b)(3), by a handler for such reserve tonnage raisins, or which he received by transfer from another handler by purchasing, as permitted pursuant to §989.166, a portion or all of such other handler’s share of an offer, shall be borne by the handler and shall not be reimbursed to him by the Committee.

(b) Additional payment for reserve tonnage raisins held beyond the crop year of acquisition. Additional payment for reserve tonnage raisins held beyond the crop year of acquisition shall be made in accordance with this paragraph. Each handler holding such raisins for the account of the Committee on August 1 shall be compensated for storing, handling, and fumigating such raisins at the rate of $2.30 per ton per month, or any part thereof, between August 1 and October 31, and at the rate of $1.18 per ton per month, or any part thereof, between November 1 and July 31. Such services shall be completed so that the Committee is assured that the raisins are maintained in good condition.

(c) Payment of rental on boxes and bins containing raisins held beyond the crop year of acquisition. Payment of rental on boxes and bins containing reserve tonnage raisins held beyond the crop year of acquisition shall be made in accordance with this paragraph. Each handler who furnishes boxes or bins in which such raisins are held for the account of the Committee on August 1 shall be compensated for the use of such boxes and bins. The rate of compensation shall be: For boxes, two and one-half cents per day, not to exceed a total payment of $1 per box per year, per average net weight of raisins in a sweatbox, with equivalent rates for raisins in boxes other than sweatboxes; and for bins 20 cents per day per
Agricultural Marketing Service, USDA

§ 989.701

bin, not to exceed a total of $10 per bin per year. For purposes of this paragraph, box means any container with a capacity of less than 1,000 pounds, and bin means any container with a capacity of 1,000 pounds or more. The average net weight of raisins in each type of box shall be the industry average as computed by the Committee for the box in which the raisins are so held. No further compensation shall be paid unless the raisins are so held in the boxes on the succeeding August 1.

(d) Payment for other services—(1) General. In addition to the payments provided in paragraphs (a), (b), and (c) of this section, handlers shall be compensated for other services performed with respect to reserve tonnage raisins as set forth in this paragraph.

(2) Transportation. The Committee may arrange with any handler for transporting reserve tonnage raisins. Payment for such transportation shall be based on then prevailing haulage rates within the production area for the type of transportation required.

(3) Packing. A handler who accepts an offer by the Committee to pack reserve tonnage raisins for its account shall be compensated for such packing in an amount determined by or acceptable to the Committee. In considering the amount of compensation to be paid, the Committee shall take into account, among other factors, the particular varietal type of raisins to be packed, the particular pack or package required, and the quantity and quality of the raisins to be packed.

(4) Redelivery. In the event the Committee removes reserve tonnage raisins of a previous crop year from a handler upon the request provided for in §989.66(f) and such handler subsequently desires redelivery to him of reserve tonnage raisins for contract packing, or other purpose, he shall reimburse the Committee in advance of such redelivery for the net costs to it of the removal, storage, and redelivery of such raisins: Provided, That the Committee may waive payment by the handler of part or all of such costs if it determines that such waiver is reasonably necessary to the prompt and favorable disposition of the raisins involved.

Subpart—Conversion Factors

§ 989.601 Conversion factors for raisin weight.

The following factors for the named varietal types of raisins shall be used to convert the net weight of reconditioned raisins acquired by handlers as packed raisins to natural condition weight. The net weight of the raisins after the completion of processing shall be divided by the applicable factor to obtain the natural condition weight: Provided, That the adjusted weight does not exceed the original weight of the raisins prior to reconditioning; and Provided further, That, if the adjusted weight exceeds the original weight, the original weight will be used.

Subpart—Quality Control

§ 989.701 Minimum grade and condition standards for natural condition raisins.

Effective pursuant to §989.58, raisins meeting the varietal standards hereinafter set forth shall be considered as standard raisins and those failing to meet such standards shall be considered as off-grade raisins. Where the raisins in any lot consist of two or more varietal types commingled within their containers, the lot shall be considered as a mixed lot and as standard raisins if they meet for each defect the most restrictive requirements for the varietal types of raisins comprising the lot.
In the event layered Muscats (including other raisins with seeds) or Cluster Seedless raisins are commingled within their containers with loose Muscats (including other raisins with seeds) or loose Cluster Seedless raisins respectively, the entire lot shall be considered as loose Muscats (including other raisins with seeds) or Natural (sun-dried) Seedless raisins. The raisins shall be considered as standard raisins if the lot as a whole meets the minimum standards for loose Muscats (including other raisins with seeds) or Natural (sun-dried) Seedless raisins: Provided, That with respect to the requirements peculiar to a varietal type such as possessing characteristic color, flavor, or odor, the raisins shall be considered as meeting such requirements if they have been properly prepared as raisins. In each category, only those raisins which have been properly dried and cured in original natural condition, are free from active infestation, and are in such condition that they are capable of being received, stored, and packed without undue deterioration or spoilage, shall be considered as stor-able raisins.

(a) Natural (sun-dried) Seedless, Monukka and Other Seedless raisins. Natural condition Natural (sun-dried) Seedless, Monukka and Other Seedless raisins shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugaring, mechanical injury, sunburn, or other similar injury; (2) shall have a normal characteristic color, flavor, and odor of properly prepared raisins; (3) shall contain not more than 5 percent, by weight, of sub-standard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes), and shall also contain at least 50 percent well-matured or reasonably well-matured raisins; (4) shall not exceed 16 percent moisture as determined by the dried fruit moisture tester method, except that there shall be no maximum moisture content for Cluster Seedless raisins; and (5) shall be of such quality and condition as can be expected to withstand storage as provided in the order and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee, and that with respect to Cluster Seedless raisins, in addition to the above requirements the raisins shall be fairly free from shattered (or loose end) berries, and be uniformly cured; shall contain 30 percent or more “2 Crown” or larger size berries; and shall be of such quality and condition that when processed in accordance with good commercial practice will, except for moisture content, meet the minimum standards for processed raisins established by the Committee.

(b) Dipped Seedless, and Oleate and Related Seedless. Natural condition Dipped Seedless, and Oleate and Related Seedless raisins shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugaring, mechanical injury, sunburn, or other similar injury; (2) shall have a normal characteristic flavor and odor of properly prepared raisins; (3) shall contain not more than 5 percent, by weight, of sub-standard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes), and for the 1985–86 and subsequent crop years also contain at least 50 percent well-matured or reasonably well-matured raisins; (4) shall not exceed 14 percent moisture as determined by the dried fruit moisture tester method, (5) shall be of such quality and condition as can be expected to withstand storage as provided in the order and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee.

(c) Golden Seedless. Natural condition Golden Seedless raisins shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugaring, mechanical injury, sunburn, or other similar injury; (2) shall have a normal characteristic flavor and odor of properly prepared raisins; (3) shall contain not
§ 989.701  

more than 5 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes), and for the 1985-86 and subsequent crop years also contain at least 50 percent well-matured or reasonably well-matured raisins; (4) shall not exceed 14 percent moisture as determined by the dried fruit moisture tester method, (5) shall be of such quality and condition as can be expected to withstand storage as provided in the order and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee; and (6) shall possess a color varying from yellowish green to dark amber or dark greenish amber with not more than 15 percent, by weight, of all the raisins being definitely dark berries.  *Definitely dark berries* means raisins which are definitely darker than dark amber and characteristic of “naturally” raisined grapes.

(d) Muscats (including other raisins with seeds). Natural condition Muscat raisins (including other raisins with seeds) shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugar, mechanical injury, sunburn or other similar injury; (2) shall have a normal characteristic color, flavor, and odor of properly prepared raisins and shall contain not more than 12 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes); (3) shall not exceed 16 percent moisture as determined by the dried fruit moisture tester method; and (4) the raisins shall be of such quality and condition as can be expected to withstand storage as provided in the marketing agreement and order, and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee.

(e) Sultana Raisins. Natural condition Sultana raisins shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugaring, mechanical injury, sunburn, or other similar injury; (2) shall have a normal characteristic color, flavor, and odor of properly prepared raisins and shall contain not more than 12 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes); (3) shall not exceed 16 percent moisture as determined by the dried fruit moisture tester method; and (4) the raisins shall be of such quality and condition as can be expected to withstand storage as provided in the marketing agreement and order, and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee.

(f) Zante Currant Raisins. Natural condition Zante Currant raisins shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugaring, mechanical injury, sunburn, or other similar injury; (2) shall have a normal characteristic color, flavor, and odor of properly prepared raisins and shall contain not more than 12 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes); (3) shall
not exceed 16 percent moisture as determined by the dried fruit moisture tester method; and (4) the raisins shall be of such quality and condition as can be expected to withstand storage as provided in the marketing agreement and order, and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee.

§ 993.22 Consumer package.
Consumer package means: (a) Any container of prunes holding less than 10 pounds of standard processed prunes or standard prunes; or (b) any container holding less than 10 pounds of prunes and other dried fruit if more than 60 percent of the net weight of mixed dried fruit in the lot consists of standard processed prunes or standard prunes.

§ 993.23 Part and subpart.
Part means the order regulating the handling of dried prunes produced in California, and all rules, regulations, and supplementary orders issued thereunder. This order regulating the handling of dried prunes produced in California shall be a subpart of such part.

PRUNE MARKETING COMMITTEE

§ 993.24 Establishment and membership.

A Prune Marketing Committee (herein referred to as the “Committee”), consisting of 22 members with an alternate member for each such member, is hereby established to administer the terms and provisions of this part, of whom with their respective alternates, 14 shall represent producers, 7 shall represent handlers, and 1 shall represent the public. Committee membership shall be allocated in accordance with the following grouping with the alternate positions identically allocated:
(a) Three handler members to represent handlers who are cooperative marketing associations of producers (referred to in this part as “cooperative handlers”); 
(b) Three handler members to represent handlers other than cooperative handlers (referred to in this part as “independent handlers”);
§ 993.25 Term of office.

The term of office of members, and their respective alternates, shall be two years, ending on May 31 of even numbered years, and any later date which may be necessary for the selection and qualification of their respective successors.

§ 993.26 Selection.

Selection of members of the committee, and their respective alternates, shall be made in the appropriate number specified in §993.24, by the Secretary from nominees nominated pursuant to this part or, in the discretion of the Secretary, from other eligible persons.

§ 993.27 Eligibility.

Producer members of the Committee shall be at the time of their selection, and during their term of office, producers in the group, for which selected and if to represent a district also producers in the district for which selected, and, except for producer members representing cooperative producers, shall not be engaged in the handling of prunes either in a proprietary capacity or as a director, officer, or employee. Handler members of the Committee shall be handlers in the group they represent or directors, officers, or employees of such handlers. These eligibility requirements shall not apply to the public member and alternate member.

§ 993.28 Nominees.

(a) For the purpose of obtaining nominations for producer members to represent independent producers, the Committee shall, with the approval of the Secretary, divide the area into districts giving, insofar as practicable, equal representation to numbers of independent producers and production of prune tonnage by such producers. The number of districts shall be equal to the number of such producer members or seven, whichever is the lesser. Candidates for nomination by independent producers from the various districts shall be obtained at meetings convened by the committee. Following such meetings, the committee shall prepare a separate ballot for each of the districts, or a joint ballot for two or more districts, containing (1) the names of the candidates for each district involved and (2) provision for write-in candidates. The ballot shall be mailed to each independent producer of record in each district. The voting procedure (including the casting of the ballot by mail addressed to the committee), and tabulation of votes shall be in accordance with rules and regulations prescribed by the committee, with the approval of the Secretary. Each voter shall be entitled to cast only one vote for a member nominee and only one vote for an alternate member nominee in a district in which he is a producer, and no voter shall vote for candidates in more than one district. In case he is a producer in more than one district, he shall elect in which of such districts he will vote and notify the committee as to his vote.
choice. Whenever the number of producer members to represent independent producers during the ensuing term of office is to exceed seven, one nominee shall be nominated by independent producers in each of the seven districts and an additional nominee for each member in excess of the seven members shall be nominated, without reference to districts, by such seven nominees. The committee shall recommend the establishment of districts, or any changes therein, to the Secretary prior to January 31 of each year in which nominations are made.

(b) Before April 16 of each even-numbered year nominations of producer members to represent cooperative producers and handler members to represent cooperative handlers shall be submitted to the Secretary by cooperative marketing associations engaged in the handling of prunes. The number of cooperative producer members and handler members to be nominated by each cooperative marketing association shall bear, as near as practicable, the same percentage as each cooperative marketing association’s tonnage of prunes handled as first handler thereof is to the total tonnage handled by all cooperative marketing associations during the preceding crop year.

(c) In any year in which nominations are made following a crop year during which the tonnage of prunes handled by independent handlers exceeded the tonnage of prunes handled by cooperative handlers as first handlers, nominees for member positions to represent independent handlers shall be nominated as follows:

(1) Each of the two independent handlers who handled during such preceding crop year, the two largest percentages of the prune tonnage handled by all independent handlers shall nominate from their organizations, one nominee for a handler member and one for an alternate member;

(2) Three independent handlers who handled during such preceding crop year the next three largest percentages of the prune tonnage handled by all independent handlers shall nominate from among their organizations, one nominee for a handler member and one for an alternate member;

(3) All other independent handlers who handled the remaining percentage of such prune tonnage shall nominate from their organizations, one nominee for a handler member and one for an alternate member.

In any year in which nominations are made following a crop year during which the tonnage of prunes handled by cooperative handlers as first handlers exceeded the tonnage of prunes handled by independent handlers as first handlers, nominees for two member and alternate positions to represent the independent handlers referred to in paragraph (c)(1) of this section shall be nominated in accordance with said paragraph (c)(1), and one nominee for the member and one for the alternate position to represent all other independent handlers shall be nominated by the handlers referred to in paragraph (c)(2) and (3) of this section and the votes of such handlers shall be weighted by the tonnage of prunes handled during the preceding crop year by the respective handlers.

(d) The committee shall establish with the approval of the Secretary, the procedures by which such nominations, other than by cooperative marketing associations engaged in the handling of prunes, shall be obtained and shall submit such nominations to the Secretary before April 16 of the year in which nominations are made. In the event the committee determines that any nominating procedure specified in this section does not result in equitable representation, it may establish, with the prior approval of the Secretary, such modifications as will tend to assure such representation.

(e) The producer and handler members of the Committee selected for a new term of office shall nominate a public member and alternate member at the first meeting following their selection.

§ 993.30 Failure to nominate.

If a nomination for any position on the committee is not received by the Secretary by May 1, the Secretary may select an eligible individual without regard to nominations.

§ 993.31 Acceptance.

Each person selected as a member or alternate member of the committee shall, prior to serving on the committee, qualify by filing with the Secretary a written acceptance within 15 days after receiving notice of his selection.

§ 993.32 Vacancies.

In the event of any committee vacancy occasioned by the removal, resignation, disqualification, or death of any member, or in the event of the failure of any person selected as a member or alternate member to qualify, a successor for the unexpired term shall be nominated within 60 calendar days thereof. Such nominations shall be made in the manner provided for in this subpart, insofar as applicable, except that nominations of nominees for a producer member position to represent independent producers may, at the discretion of the committee, be made to the committee by the incumbent producer members of the committee who represent independent producers.

§ 993.33 Voting procedure.

Decisions of the Committee shall be by majority vote of the members present and voting and a quorum must be present; Provided, That decisions on marketing policy, grade or size regulations, pack specifications, salable and reserve percentages, and on any matters pertaining to the control or disposition of reserve prunes or to prune plum diversion pursuant to § 993.62, including any delegation of authority for action on such matters and any recommendation of rules and procedures with respect to such matters, including any such decision arrived at by mail or telegram, shall require at least 14 affirmative votes. A quorum shall consist of at least 13 members of whom at least 8 must be producer members and at least 4 must be handler members. Except in case of emergency, a minimum of 5 days notice must be given with respect to any meeting of the Committee. In case of an emergency, to be determined within the discretion of the chairman of the Committee, as much notice of a meeting as is practicable in the circumstances shall be given. The Committee may vote by mail or telegram upon due notice to all members, but any proposition to be so voted upon first shall be explained accurately, fully, and identically by mail or telegram to all members. When any proposition is submitted to be voted on by such method, one dissenting vote shall prevent its adoption.

[46 FR 61637, Dec. 18, 1981]

§ 993.34 Expenses.

The members of the committee, and alternates when acting as members, or when alternates’ expenses are authorized by the committee, shall serve without compensation but shall be allowed their expenses.

[30 FR 9798, Aug. 6, 1965]

§ 993.35 Powers.

The committee shall have the following powers:

(a) To administer the terms and provisions of this subpart;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 993.36 Duties.

The committee shall have, among others, the following duties:

(a) To act as intermediary between the Secretary and any producer, dehydrator, or handler;

(b) To keep minutes, books, and other records which shall clearly reflect all of its acts and transactions,
and such minutes, books, and other records shall be subject to examination by the Secretary at any time;

(c) To make, subject to the prior approval of the Secretary, scientific and other studies, and assemble data on the producing, handling, shipping, and marketing conditions relative to prunes, which are necessary in connection with the performance of its official duties;

(d) To select, from among its members, a chairman and other appropriate officers, and to adopt such rules and regulations for the conduct of the business of the committee as it may deem advisable;

(e) To appoint or employ such other persons as it may deem necessary, and to determine the salaries and define the duties of such persons;

(f) To submit to the Secretary not later than the fourth Tuesday of July of each year, a budget of its anticipated expenditures and the recommended rate of assessment for the ensuing crop year, and the supporting data therefor;

(g) To submit to the Secretary such available information with respect to prunes as the committee may deem appropriate, or as the Secretary may request;

(h) To prepare and submit to the Secretary quarterly statements of the financial operations of the committee, exclusive of reserve prune operations, and to make such statements, together with the minutes of the meetings of said committee, available for inspection at the offices of the committee by producers, dehydrators, and handlers;

(i) To prepare and submit to the Secretary annually, as soon as practicable after the end of each crop year and at such other times as the committee may deem appropriate or the Secretary may request, a statement of the committee's financial operations with respect to reserve prunes for such crop year and to make such statement available at the offices of the committee for inspection by producers, dehydrators, and handlers;

(j) To cause the books of the committee to be audited by a certified public accountant at least once each crop year, and at such other times as the committee may deem necessary or as the Secretary may request, and two copies of each such audit report shall be submitted to the Secretary and a copy which does not contain confidential data shall be available for inspection at the offices of the committee, by producers, dehydrators, and handlers;

(k) To give the Secretary the same notice of meetings of the committee as is given to the members of the committee;

(l) To give producers, dehydrators, and handlers reasonable advance notice of meetings of the committee, and to maintain all such meetings open to such persons;

(m) To investigate compliance with the provisions of this subpart and with any rules and regulations established pursuant to such provisions; and

(n) To establish, with the approval of the Secretary, such rules and procedures relative to administration of this subpart as may be consistent with the provisions contained in this subpart and as may be necessary to accomplish the purposes of the act and the efficient administration of this subpart.

§ 993.37 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of prunes. The expense of such projects shall be paid from funds collected pursuant to § 993.81.

MARKETING POLICY

§ 993.41 Marketing policy.

(a) On or before the first Tuesday of each July, the committee shall prepare and submit to the Secretary a report setting forth its recommended marketing policy for the ensuing crop year. If it becomes advisable to modify such policy, because of changed demand, supply, or other conditions, the committee shall formulate a new policy and shall submit a report thereon to the Secretary. Notice of the committee's marketing policy, and of any modifications thereof, shall be given
§ 993.48
promptly by reasonable publicity to producers, dehydrators, and handlers.

(b) In formulating its marketing policy for the ensuing crop year, the committee shall consider and shall include in its report to the Secretary, the following estimates (natural condition basis) and recommendations:

(1) The carryover of salable prunes as of August 1;
(2) The carryover of reserve prunes as of August 1;
(3) The grade and size composition of the salable and reserve carryovers;
(4) The quantity of prunes to be produced without regard to possible diversions of prune plums by producers;
(5) The probable quality and prune sizes in the crop;
(6) The domestic trade demand by uses of prunes;
(7) The foreign trade demand by countries or groups of countries;
(8) The desirable carryout of salable prunes at the end of the ensuing crop year;
(9) The quantity of undersized prunes in the crop, itemized as to French prunes and non-French prunes;
(10) The quantity of prunes to be withheld as reserve prunes so as to protect against errors of estimation and permit orderly marketing of the supply;
(11) The recommended salable and reserve percentages;
(12) The quantity of prune plums, dried weight basis, deemed desirable to be diverted pursuant to §993.62;
(13) Any recommended change in regulations pursuant to §§993.49 to 993.53, inclusive;
(14) The probable assessable tonnage for the purposes of §993.81; and
(15) The current prices for prunes, the trend and level of consumer income, whether producer prices are likely to exceed parity, and such other factors as may have a bearing on the marketing of prunes or the administration of this part.

§ 993.50 Outgoing regulation.

(a) Except as otherwise specifically provided, no handler shall ship or otherwise make final disposition of prunes which fail to meet the applicable minimum standards set forth in §993.97 (Exhibit A), or as such standards may be modified, for standard prunes or standard processed prunes.

(b) The Secretary, on the basis of a recommendation of the committee or other information, may establish size regulations, pack specifications, or more restrictive grade regulations with respect to prunes that may be shipped or otherwise disposed of by a handler if such action would tend to effectuate the declared policy of the act. If a more restrictive grade regulation is established in connection with §993.97 (Exhibit A) it shall insofar as practicable apply comparably to both natural condition prunes and processed prunes. When pack specifications are in effect, no handler shall ship prunes in consumer packages, unless such prunes are identified by an appropriate label, seal, stamp, or tag affixed to such container by the handler showing the size of prunes in the lot from which the container was packed. In order to effectuate such orderly marketing of prunes as will be in the public interest, whether prices are above or below parity, no handler shall use descriptive terms in a manner inconsistent with that set forth in this subpart or in any pack specifications or other regulation issued by the Secretary pursuant to this subpart.

(c) Non-French prunes: No handler shall ship or otherwise make final disposition of any lot of standard prunes or standard processed prunes of the non-French varieties or any lot which includes non-French prunes in excess of a tolerance to be prescribed by the Secretary on recommendation of the Committee, unless the average count of such non-French prunes contained in any such lot is 40 or less per pound. However, under safeguards to be established by the Committee, any lot containing non-French prunes with an average size count of more than 40 prunes per pound may be shipped to or disposed of in prune product outlets in which they lose their form and character as prunes by conversion prior to consumption. A tolerance as to the permitted deviation of sizes about the average count shall be prescribed by the Secretary, upon recommendation of the Committee.

(d) French prunes: No handler shall ship or otherwise make final disposition of any lot of French prunes for human consumption as prunes, or any lot of mixed dried fruit containing French prunes for human consumption as mixed dried fruit, unless the average size count of French prunes contained in any such lot is 100 or less per pound. However, under safeguards to be established by the Committee, any lot containing French prunes with an average size count of more than 100 prunes per pound may be shipped to or disposed of in prune product outlets in which they lose their form and character as prunes by conversion prior to consumption. In determining whether any such lot conforms to this minimum size requirement, the following tolerance shall apply: In a sample of 100 ounces, the count per pound of 10 ounces of the smallest prunes shall not vary from the count per pound of 10 ounces of the largest prunes by more than 45 points. The Secretary may, upon the basis of the recommendation and information submitted by the Committee and other available information, modify this tolerance for uniformity of size.

(e) No handler shall ship or otherwise make final disposition of any lot of substandard prunes except for use as...
§ 993.51 Inspection and certification.

Each handler shall at his own expense, before or upon the receiving, and before the shipping or disposing of prunes, cause an inspection to be made of such prunes to determine whether they meet the applicable grade and size requirements or the pack specifications, including labeling, effective pursuant to this part. Such handler shall obtain a certificate that such prunes meet the aforementioned applicable requirements and shall submit such certificate, or cause it to be submitted, to the committee. Acceptable certificates shall be those issued by inspectors of the Dried Fruit Association of California. The Secretary may designate another inspection service in the event the services of the Association prove unsatisfactory.

§ 993.52 Modification.

Minimum standards, pack specifications or size regulations, including the openings prescribed in §993.49(c), may be modified by the Secretary, on the basis of a recommendation of the committee or other information, whenever he finds that such modification would tend to effectuate the declared policy of the act.

§ 993.53 Above parity situations.

The minimum standards, the minimum sizes, including the minimum undersized regulation in §993.49(c), and the provisions of this part relating to administration shall continue in effect irrespective of whether the estimated season average price for prunes is in excess of the parity level specified in section 2(1) of the act.
§ 993.54 Establishment of salable and reserve percentages.
Whenever the Secretary finds, from the recommendations and supporting information supplied by the committee, or from any other available information, that to establish the percentages of prunes for any crop year which shall be salable prunes and reserve prunes, respectively, or to modify the previously established percentages, would tend to effectuate the declared policy of the act, he shall establish or modify such percentages. The salable and reserve percentages when applied to the natural condition weight of prunes, excluding the quantity of undersized prunes determined pursuant to §993.49(c), such handler receives during the crop year from producers and dehydrators plus that diverted tonnage (dried weight natural condition prune basis) on diversion certificates credited to or held by him which were issued pursuant to §993.62. However, if the committee determines the requirement as to setaside reflecting average marketable content of receipts is not essential to achieve program objectives for the crop of a particular season, it may be eliminated for that season by the committee, with the approval of the Secretary. As a prerequisite for making this determination, the committee must find that the resultant setaside procedures assure that the trade demand for manufacturing prunes, as well as prunes for consumption as prunes, will be met. The salable prunes permitted to be disposed of by any handler in accordance with the provisions of this part shall be deemed to be that handler’s quota fixed by the Secretary within the meaning of section 8a(5) of the act.

§ 993.55 Application of salable and reserve percentages after end of crop year.
The salable and reserve percentages established for any crop year shall remain in effect after that crop year until salable and reserve percentages are established for another crop year. After such percentages are established, all reserve obligations shall be adjusted to the newly established percentages.

[46 FR 61637, Dec. 18, 1981]

§ 993.56 Reserve obligation.
Whenever salable and reserve percentages are in effect for any crop year, the reserve obligation of a handler shall approximate the average marketable content of the handler’s receipts and shall be a weight of natural condition prunes equal to the reserve percentage applied to the natural condition weight of prunes, excluding the quantity of undersized prunes determined pursuant to §993.49(c), such handler receives during the crop year from producers and dehydrators plus that diverted tonnage (dried weight natural condition prune basis) on diversion certificates credited to or held by him which were issued pursuant to §993.62. However, if the committee determines the requirement as to setaside reflecting average marketable content of receipts is not essential to achieve program objectives for the crop of a particular season, it may be eliminated for that season by the committee, with the approval of the Secretary. As a prerequisite for making this determination, the committee must find that the resultant setaside procedures assure that the trade demand for manufacturing prunes, as well as prunes for consumption as prunes, will be met. The salable prunes permitted to be disposed of by any handler in accordance with the provisions of this part shall be deemed to be that handler’s quota fixed by the Secretary within the meaning of section 8a(5) of the act.

§ 993.58 Deferment of time for withholding.

(a) Compliance by any handler with the requirement of §993.57 for withholding reserve prunes may be temporarily deferred to any date desired by the handler, but not later than November 15 of the crop year, upon the execution and delivery by such handler to the committee of a written undertaking that on or prior to the desired date he will have fully satisfied his holding requirement. Such undertaking shall be secured by a bond or bonds to be filed with and acceptable to the committee in the amount or amounts specified, conditioned upon full compliance with such undertaking.

(b)(1) Each bond shall be provided by and at the handler’s expense, with a surety or sureties acceptable to the committee, and shall be in an amount computed by multiplying the pounds of natural condition prunes for which deferment is desired by the bonding rate. Such bonding rate shall be established by the committee at a level sufficient to achieve the objectives of this part.

(2) In case a handler defaults in meeting his deferred withholding requirement, any funds collected by the committee from the bonding company through such default shall be used by the committee to purchase from handlers a quantity of natural condition prunes, up to but not exceeding the quantity on which default occurred. Purchases shall be made from prunes with respect to which the reserve obligation has been met, and shall be of grades, varieties, or sizes and in such containers as the committee specifies in consideration of available reserve prune outlets. Purchases shall be at prices determined to be appropriate by the committee and if more prunes are offered than required by the committee, it shall make the purchases from various handlers as nearly as practicable in proportion to the quantity of their respective offerings at the same price. The committee shall dispose of the prunes acquired as soon as practicable in the most favorable reserve prune outlets and shall deposit the proceeds from such sales, less committee expenses in connection with such transaction, with reserve pool funds for distribution to equity holders.

(3) If for any reason the committee is unable to purchase a quantity of prunes as large as the quantity of reserve prunes in default by the handler, any remaining balance of funds received because of the default less expenses of the committee, shall be deposited with reserve pool funds for distribution to equity holders.

(c) A handler who has defaulted on his bond shall be credited on his reserve obligation with, and his holding requirement reduced by, that quantity of prunes represented by the sums collected but not more than the extent of his default.

§ 993.59 Payment to handlers for services.

The committee shall pay handlers for necessary services rendered by them in connection with reserve prunes including, but not limited to, inspection, receiving, storing, grading, and fumigation, in accordance with a schedule of payments and conditions established by the Secretary after recommendation by the committee.

PRODUCER DIVERSION

§ 993.62 Diversion privileges.

(a) Prune plums. The words prune plums as used in this section mean plums of a variety used in the production of prunes.

(b) Voluntary principle. No producer shall be required to divert all or any
portion of the prune plums produced by him.

(c) Authorization. If, on the basis of a committee recommendation for diversion operations, the availability of governing rules and procedures established by the Secretary after recommendation of the committee, and other information, the Secretary concurs that diversion operations should be permitted, he shall authorize such operations.

(d) Diversion certificates. After diversion operations are authorized, and subject to the applicable rules and procedures, any producer may divert prune plums of his own production for eligible purposes and receive from the committee a diversion certificate therefor: Provided, That diversion certificates for prune plums diverted by producer members of a cooperative marketing association shall be issued by the committee to the association if it so requests. To the extent permitted by the rules and procedures, the certificate may be submitted to any handler in lieu of reserve prunes and to the same extent the certificate shall entitle the handler to satisfy his reserve obligation. Only to the extent permitted by the rules and procedures, diversion certificates may be transferable among producers and handlers.

(e) Eligible diversions. Within such restrictions as may be prescribed in rules and procedures, diversion may be authorized for such diversions as are not competitive with the normal marketing of prunes and prune products. Such eligible diversions may include: (1) Disposal of prune plums for nonhuman use; (2) leaving prune plums unharvested; and (3) such other methods of diversion as may be authorized. No diversion certificate shall be issued by the committee for prune plums which would not, under normal producer practices, be dried and delivered to a handler.

(f) Nonparticipation in pool proceeds. Any prune plums diverted pursuant to this section shall not be included in any reserve pool.

(g) Payment of costs. Prior to the issuance of a diversion certificate to a producer or a cooperative marketing association, the producer or association shall pay to the committee fees established to cover costs pertaining to the diversion.

[30 FR 9800, Aug. 6, 1965]

§ 993.65 Disposition of reserve prunes.

(a) Committee’s right of disposition. The committee shall have the power and authority to sell or dispose of any and all reserve prunes (1) to meet demand either (i) as domestic trade demand, or (ii) as foreign trade demand, or (2) for use in any outlet, defined in rules and procedures, established by the Secretary after recommendation of the committee, noncompetitive with normal outlets for salable prunes.

(b) Methods of disposition. The committee may, for any of the purposes of § 993.65(a), offer to sell and sell reserve prunes to handlers for disposition or sale by them in specified outlets. Sale of reserve prunes by the committee to any handler for resale in such outlets or for resale to other persons for sale in such outlets shall be governed by the provisions of a sales agreement, executed by the handler with the committee. The committee may refuse to sell reserve prunes to any handler if the handler violates the terms and conditions of the agreement or other provisions of this part. The committee may sell reserve prunes into any outlet in which direct selling is determined to be more appropriate.

(c) Offers to sell reserve prunes. No offer to sell reserve prunes either to handlers or to other persons shall be made by the committee until 5 days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary complete information as to the terms and conditions of the proposed offer including the basis for determining the handlers’ shares: Provided, That at any time prior to the expiration of the 5-day period the offer may be made upon the committee receiving from the Secretary notice that he does not disapprove it.

(d) Transfer of shares. No handler may transfer a reserve obligation. However, any handler who is authorized by the committee to dispose of reserve prunes may arrange with another handler to dispose of his share of reserve prunes...
§ 993.71 Confidential information.

All reports and records furnished or submitted by handlers to the committee which include data or information constituting a trade secret or disclosing of the trade position, financial condition, or business operations of the particular handler from whom received shall be received by, and at all times kept in the custody and under the control of one or more employees of the committee, who shall disclose such information to no person except the Secretary. Notwithstanding the above provisions of this section, information may be disclosed to the committee when reasonably necessary to enable the committee to carry out its functions under this subpart.

§ 993.72 Reports of acquisitions, sales, uses, and shipments.

Each handler shall file such reports of his acquisitions, sales, uses, and shipments of prunes, as may be requested by the committee.

§ 993.73 Other reports.

Upon the request of the committee, each handler shall furnish such other reports and information as are needed to enable the committee to perform its functions under this subpart.

§ 993.74 Records.

Each handler shall maintain such records of prunes received, held and disposed of by him, as are prescribed by the committee and needed by it to perform its functions under this subpart. Such records shall be retained for at least two years beyond the crop year of their applicability.

§ 993.75 Verification of reports.

For the purpose of checking and verifying reports filed by handlers or the operation of handlers under the provisions of this subpart, the Secretary, and the Committee through its duly authorized agents, shall have access to any premises where prunes may be held by any handler and at any time during reasonable business hours, shall be permitted to inspect any prunes so held by such handler and any and all records of such handler with respect to the holding or disposition of all prunes which may be held or which may have been disposed of by him.

[37 FR 862, Jan. 20, 1972]

EXPENSES AND ASSESSMENTS

§ 993.80 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each crop year for the maintenance and functioning of the committee and for such other purposes as the Secretary may, pursuant to the provisions of this subpart, determine to be appropriate.

§ 993.81 Assessments.

(a) Each handler shall pay to the committee, upon demand, with respect to all salable prunes handled by him as the first handler thereof, his pro rata share of all expenses which the Secretary finds are reasonable and likely to be incurred by the committee during each crop year. Each handler’s pro rata share shall be the rate of assessment.
§ 993.88 Agents.

(a) Authorization by Secretary. The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division in the United States Department of Agriculture, to act as

per ton fixed by the Secretary. At any time during or after a crop year the Secretary may increase the rate of assessment to cover unanticipated expenses of the committee or a deficit in assessable tonnage.

(b) In order to provide funds to carry out the functions of the committee, the committee may accept advance payments from any handler to be credited toward such assessments as may be levied pursuant to this section against the respective handler.

(c) Any money collected as assessments during any crop year and not expended in connection with the committee’s operations may be used by the committee for a period of five months subsequent to such crop year. At the end of such period the committee shall, from funds on hand, refund or credit to handler accounts the aforesaid excess. Each handler’s share of such excess funds shall be the amount of assessments he has paid in excess of his pro rata share of the actual net expenses of the committee for the preceding crop year. Any money collected from assessments hereunder and remaining unexpended in the possession of the committee at the termination of this part, shall be distributed in such manner as the Secretary may direct: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(26 FR 476, Jan. 19, 1961, as amended at 30 FR 9800, Aug. 6, 1965)

§ 993.82 Funds.

All funds received by the committee pursuant to the provisions of this part shall be used solely for authorized purposes. The Secretary may, at any time, require the committee or its members and alternate members to account to the committee for all receipts and disbursements.

MISCELLANEOUS PROVISIONS

§ 993.83 Rights of the Secretary.

The members of the committee (including successors or alternates) and any agent or employee appointed or employed by the committee, shall be subject to the removal or suspension by the Secretary, in his discretion, at any time. Each and every decision, determination, or other acts of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and upon such disapproval, shall be deemed null and void.

§ 993.84 Personal liability.

No member or alternate member of the committee, or any employee, representative, or agent thereof shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person, for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate member, employee, representative, or agent, except for acts of dishonesty.

§ 993.85 Separability.

If any provision of this subpart is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 993.86 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 993.87 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 993.88 Agents.
§ 993.89 Effective time.

The provisions of this subpart, as well as any amendments to this subpart, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated, or during suspension, in one of the ways specified in §993.90.

§ 993.90 Termination or suspension.

(a) Failure to effectuate policy of act. The Secretary may, at any time, terminate the provisions of this subpart, by giving at least one day’s notice by means of a press release or in any other manner which he may determine. The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(b) Referendum. The Secretary shall terminate the provisions of this subpart on or before the fifteenth day of July of any crop year, to be effective at the end of such crop year, whenever he is required to do so by the provisions of section 8c(16)(B) of the act. The Secretary may, at any time he deems it desirable, hold a referendum of producers to determine whether they favor termination of this subpart. However, beginning with 1951, if the Secretary receives a recommendation, adopted by at least a majority vote of the producer members of the committee, requesting the holding of such a referendum, the Secretary shall hold such a referendum: Provided, That the Secretary shall not be required to hold such a referendum upon the basis of such a recommendation more than once every two years.

(c) Termination of act. The provisions of this subpart shall terminate, in any event, upon the termination of the act.

§ 993.91 Procedure upon termination.

Upon the termination of this subpart, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee. Action by such trustee shall require the concurrence of a majority of the said trustees. Such trustees shall continue in such capacity until discharged by the Secretary, and shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all the funds, properties, and claims vested in the committee or the joint trustees, pursuant to this subpart. Any person to whom funds, property, or claims have been transferred or delivered by the committee or the joint trustees, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said committee and upon said joint trustees.

§ 993.92 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary, or of any other person, with respect to such violation.

§ 993.93 Amendments.

Amendments to this subpart may be proposed from time to time, by any person or by the committee, and may be made a part of this subpart by the procedures provided under the act.

[38 FR 22887, Aug. 27, 1973]
§ 993.149  Receiving of prunes by handlers.

(a) Receiving stations—(1) General. Prunes shall be received by a handler at any receiving station so designated by the Committee. Receiving station shall mean any plant of a handler or a dehydrator’s premises; this term shall also mean any other place where prunes are normally and usually received by a handler in any considerable volume as ranch deliveries, and at which there are adequate facilities to enable the inspection service to determine whether the prunes meet the applicable grade, size, and condition requirements.

(i) In any election year in which four member positions and four alternate member positions are assigned to independent handlers for the ensuing term of office, the Committee shall, prior to April 1 of such year, cause to be held a meeting of the three independent handlers classified in the group specified in §993.28(c)(2) and a separate meeting of all other independent handlers classified in the group specified in §993.28(c)(3). Each group at its meeting shall, from among that group, elect one member nominee and one alternate member nominee by plurality vote. Each handler present at the meeting of his group shall be entitled to one vote for a candidate for each position assigned to that group.

(ii) In any election year in which only three member positions and three alternate member positions are assigned to independent handlers for the ensuing term of office, the Committee shall, prior to April 1 thereof, cause to be held a meeting of all independent handlers except those classified in the group specified in §993.28(c)(1). At such meeting one member nominee and one alternate member nominee shall be elected in accordance with the applicable provisions of §993.28(c).

(2) Independent handler nominees. (i) Prior to March 15 of each election year, the Committee shall notify each independent handler of record of the group of independent handlers in which he has been classified pursuant to the provisions of §993.28(c) and of the number of independent handler positions on the Committee for the ensuing term of office pursuant to the provisions of §993.24 (b) and (c). Prior to April 1 of each election year, each of the two independent handlers classified in the group specified in §993.28(c)(1) shall notify the Committee in writing of his nominee for member and nominee for alternate member as prescribed therein.

(ii) In any election year in which four member positions and four alternate member positions are assigned to independent handlers for the ensuing term of office, the Committee shall, prior to April 1 of such year, cause to be held a meeting of the three independent handlers classified in the group specified in §993.28(c)(2) and a separate meeting of all other independent handlers classified in the group specified in §993.28(c)(3). Each group at its meeting shall, from among that group, elect one member nominee and one alternate member nominee by plurality vote. Each handler present at the meeting of his group shall be entitled to one vote for a candidate for each position assigned to that group.

(iii) In any election year in which only three member positions and three alternate member positions are assigned to independent handlers for the ensuing term of office, the Committee shall, prior to April 1 thereof, cause to be held a meeting of all independent handlers except those classified in the group specified in §993.28(c)(1). At such meeting one member nominee and one alternate member nominee shall be elected in accordance with the applicable provisions of §993.28(c).

§ 993.149

Identification tag showing the name and address of such producer or dehydrator, the date of delivery, the county of production, the number and type of containers, the approximate net weight of the prunes, the place where the prunes are to be inspected, and any other information necessary to identify such prunes to the satisfaction of the inspector and the Committee. For each such delivery, the handler shall issue to the producer or dehydrator a door receipt or weight certificate showing the name and address of the producer or dehydrator, the weight of the delivery, and any other information necessary to identify the delivery. Such information shall be available to the inspector and the Committee. Each lot shall be sampled separately and as soon as practicable following delivery. The handler shall supply any necessary information together with any assistance needed by the inspector in drawing samples including the dumping of containers.

(2) Certification. Following inspection of a lot not returned to the producer or dehydrator, the handler shall require the inspection service to issue, in quintuplicate, a certificate containing at least the following information: (i) The place where samples were drawn and the date and place of inspection; (ii) the name and address of the producer or dehydrator, the handler, and the inspection service; (iii) the variety of the prunes, the county in which such prunes were produced, the number and type of the containers thereof, the net weight of the prunes as shown on the applicable door receipt or weight certificate, together with the number of such receipt or certificate, and the contract or account number under which the prunes were delivered; (iv) whenever applicable, the percentage by weight of undersized prunes in the lot; (v) with respect to the balance of the lot, the inspector’s computation of the percentage, by screen size of prunes and in the aggregate, of each group or combination of groups of defects for which a maximum tolerance is in effect; (vi) whether the prunes in the lot, exclusive of any undersized prunes, are standard or substandard; (vii) the inspector’s computation of the percentage of weight of each screen size and in the aggregate, of offgrade prunes (those defective pursuant to §993.97) necessary to be removed therefrom in order for the remainder in each screen size and in the aggregate to be standard prunes, and (viii) the average size count of prunes of each screen size and of the aggregate: Provided, That whenever an undersized prune regulation is in effect for the crop year, the average size count shall be of all prunes except undersized prunes in the lot, by screen size and in the aggregate. The handlers shall require the inspection service to furnish promptly the producer or dehydrator with one copy of the certificate and the handler with two copies.

(d) Conditional provisions—(1) Wet or slack-dry prunes. Any prunes delivered to a handler by a producer or dehydrator which an inspector determines have not been properly dried and cured in original natural condition, or which show evidence of the addition thereto of water, may be held by the handler for the account of the producer or dehydrator for conditioning by further drying or dehydration: Provided, That such prunes shall be identified and kept separate and apart from any other prunes in the handler’s possession until resubmitted for inspection and certified as properly dried and cured, or returned to the producer or dehydrator. The certificate shall show, in addition to other inspection requirements, that the conditioning was performed and indicate the net weight after conditioning.

(2) Prunes with active insect infestation. Any prunes delivered to a handler which an inspector determines are not free from active insect infestation, may be returned to the producer or dehydrator or may be held by the handler for the account of the producer or dehydrator for conditioning by fumigation: Provided, That such prunes shall be identified and kept separate and apart from any other prunes in the handler’s possession until resubmitted for inspection and certified to show, in addition to other inspection requirements, performance of fumigation and freedom from active infestation.

(3) High moisture content prunes. The delivery of any high moisture content prunes to a handler by a producer or dehydrator shall be reported promptly.
§ 993.150 Disposition of prunes by handlers.

(a) Inspection stations. An inspection station shall be any plant of a handler, and any other place where he handles prunes.

(b) Outgoing inspection. Except as otherwise specifically provided, no handler shall ship or otherwise make final disposition of natural condition prunes or of processed prunes unless he has, prior to such shipment or final disposition, had them inspected and obtained a certificate showing that such prunes meet the effective minimum standards. Such inspection shall be made during that portion of the final preparation of the prunes for shipment or other final disposition as will permit proper sampling, whether in-line or floor inspection, and no handler shall perform such final preparation unless an inspector is present. The handler shall furnish promptly to the inspector a copy of the shipping or disposition order or other

documents, which shall show the date of each shipment or disposition, the applicable reference number thereof, and an adequate description of the shipment or disposition. For the prunes inspected each day which meet the applicable minimum grade and size requirements for standard prunes, or standard processed prunes, the handler shall cause the inspector to issue in triplicate a signed certificate containing the following information: (1) The date and place of inspection; (2) the name and address of the handler and of the inspection service; (3) the number and size of packages or the net weight of prunes; (4) the number of the worksheet or worksheets on which the inspector’s computations and results of tests are recorded; and (5) a statement that the prunes meet the effective minimum standards for standard prunes, or standard processed prunes, as the case may be.

(c) Interhandler transfers. With the exception of those prunes held by a handler pending their disposition pursuant to §993.49(c) and those prunes held by him for the account of the Committee pursuant to §993.57, a handler may transfer prunes to another handler within the area. Any such interhandler transfer may be without the transferring handler having an inspection made as provided for in §993.51: Provided, That before each such transfer the transferring handler shall: (1) Give written notice of the transfer to the inspection service including the proposed date of the transfer, the names of the handlers and, by plant designation, the present location and the destination of the prunes, the number of containers, variety, size designation, and total net weight of the prunes, and the manifest or billing number; and (2) receive from the inspection service a DFA Form P–5 “Shipping Inspection Report and Certificate” marked “Interhandler Transfer Report” on which the inspection service recorded the information furnished by the transferring handler. The transferring handler shall sign the “Interhandler Transfer Report” including all copies thereof that were received from the inspection service, and forward the signed original and one copy to the receiving handler at the time of the interhandler transfer. Upon receipt of the transferred prunes, the receiving handler shall enter on both the original and the copy the date he received the prunes, sign the original, and immediately forward it to the inspection service. The transferring handler shall cause the inspection service to promptly report the transfer to the Committee. As provided in §993.50(f), the receiving handler shall, before shipping or otherwise making final disposition of such prunes, comply with the requirements of §§993.50 and 993.51.

(d) Tolerances for non-French prunes. Any lot of standard prunes or standard processed prunes containing more than 2 percent by weight of non-French prunes shall be disposed of only in prune product outlets as prescribed in §993.50(c) unless the non-French prunes therein have an average count of 40 or less per pound and unless in a 100-ounce sample of the lot, the count per pound of 10 ounces of the smallest prunes in the sample does not vary from the count per pound of 10 ounces of the largest prunes in the sample by more than 35 points. A lot shall be deemed to exceed the 2 percent tolerance for non-French prunes whenever an inspection shows such prunes exceed 2 percent in any four consecutive sampling units of two tons or less or, if less than four such units are sampled, in such lesser number of units.

(e) Prunes which fail to meet minimum standards—(1) Committee’s approval of disposition—(4) General. Those defective prunes which fail to meet the applicable minimum standards and are held for disposition without removal of defective prunes in excess of maximum tolerances, may only be used, if within the tolerances prescribed in §993.97 II. C. (1), (2), and (3), for prune products, or if any such tolerances are exceeded and any live infestation corrected by fumigation, for non-human consumption or be destroyed. In order to insure that all such prunes are shipped or otherwise disposed of in accordance with §993.50(e), no handler shall during any crop year ship or otherwise make final disposition of any such prunes, other than prune waste subject to daily non-
human disposition for sanitation purposes, unless prior thereto he had obtained during that crop year (except as otherwise provided in paragraph (e)(1)(iii) of this section) the Committee’s approval of his application to do so.

(ii) Application for approval. The handler’s application to ship or otherwise make final disposition of any such prunes shall be submitted on Form PMC 2.2 “Application for Permission to Dispose of Substandard Prunes”. If the prunes are for shipment, the application shall set forth: (a) The name and address of the handler’s vendee and the name and address of the consignee whether the same as or different from the vendee; (b) the particular use to be made of the prunes; (c) if such use is to be by a person other than the handler’s vendee or the consignee, the name and address of such user; and (d) the crop year or the period within, or the portion of, the crop year during which shipments are to be made. When the use or the name and address of the consignee or user are not known by the handler, the handler shall arrange for the submission of such information to the Committee. If use is to be by the handler, the application shall so indicate and shall set forth all applicable information. Each application for shipment shall be limited to the handler’s vendee and the consignee if different from the vendee, and to a specific user and use, and may be open as to quantity: Provided, That, when the use or name and address of the user are not known by the handler, the application shall include the quantity of prunes to be shipped and be limited to that quantity. Each application for final disposition for a particular use by the handler shall be limited to such handler and use.

(iii) Approval of applications. The Committee’s approval of a handler’s application shall be transmitted to the handler on Form PMC 2.3 “Permission to Dispose of Substandard Prunes”. In approving an application, the Committee shall specify the crop year, or the period within or the portion of the crop year, for which the approval is granted: Provided, That, the Committee may approve in July any such application that is submitted during that month by the handler for shipment or other final disposition of the prunes covered thereby in the succeeding crop year. When the use or the name and address of the user or consignee are not known to the handler, the Committee shall not approve the application until it has been informed as to such use and user and consignee of the prunes.

(iv) Disapproval of applications; or revocation of approved applications. In acting on an application, the Committee may disapprove the application when: (a) The application does not conform with the requirements of paragraph (e)(1)(ii) of this section; (b) the Committee has cause to believe that the prunes covered by the application will not be shipped or disposed of in accordance with the application; or (c) the handler, or any of the parties involved in the proposed shipment or disposition, had shipped or made other disposition of prunes covered by a previously approved application inconsistent with that application. The Committee may for cause revoke a handler’s previously approved application if he ships or makes other disposition inconsistent with such application. Whenever a user uses prunes inconsistent with an approved application, the Committee may for cause revoke such application, and such other approved applications applicable to such user as the Committee deems necessary to assure that the prunes covered by such applications will not be used in a manner inconsistent with those applications or the order. The Committee shall notify the handler in writing of each disapproval and each revocation.

(v) Evidence of non-human disposition. Whenever defective or substandard prunes or prune waste are shipped to or otherwise disposed of in non-human consumption outlets, or destroyed, the handler shall furnish the Committee with a copy of the shipping document or other documentary evidence of the disposition as may be satisfactory to the Committee and at such times as the Committee may direct.

(vi) Books and records. Each handler who ships or otherwise disposes of defective or substandard prunes or prune
waste shall make available for examination by the Committee, at his business office at any reasonable time during business hours, copies of all applicable purchase orders, sales contracts, or disposition documents, together with any further information which the Committee may deem necessary or desirable to enable it to determine whether such prunes or prune waste have been or will likely be utilized as authorized.

(2) Out of the area shipments. Whenever substandard prunes for human consumption are packed in closed containers, and if for shipment outside the area they shall be so packed, each such container shall be clearly marked “For Manufacturing Purposes Only”. Whenever substandard prunes restricted to non-human usage are shipped in closed containers, each such container shall be clearly marked “For Non-Human Usage”. In each instance, the letters shall be of reasonable prominence and in a conspicuous place on the container.

(3) Inspection of substandard prunes. Each handler shall cause substandard prunes, for use in prune products, to be inspected (prior to disposition or shipment by a handler) by an inspector, and that such inspector issue, in triplicate, a signed clearance certificate (for the preparation of which the handler shall make available to the inspector the necessary data) containing the following information: (i) The date and place of inspection and clearance; (ii) the name and address of the inspection service and of the handler; (iii) the number and kind of packages, the net weight, and the adequacy of the marking; (iv) the lot number or shipping or disposition order number; (v) the committee’s approval number; (vi) the destination; and (vii) the actual percentage of off-grade prunes of each group, or combination of groups, of defects in excess of the then current tolerances for standard prunes or standard processed prunes.

(f) Pitted prunes—(1) For human consumption as such. (i) No handler shall ship or otherwise make final disposition of any lot of pitted prunes for human consumption as pitted prunes unless these prunes do not exceed an average of 0.5 percent by count of prunes with whole pits and/or pit fragments 2 mm or longer; and four of ten subsamples examined have no more than 0.5 percent by count of prunes with whole pits and/or pit fragments 2 mm or longer. For the purposes of this paragraph (f)(1)(ii), pitted prunes means prunes with the pit removed that are characterized by a uniform depression and minimal skin break where the pit has been removed.

(ii) No handler shall ship or otherwise make final disposition of any lot of pitted prunes for human consumption as pitted prunes unless these prunes do not exceed an average of 0.5 percent by count of prunes with whole pits and/or pit fragments 2 mm or longer; and four of ten subsamples examined have no more than 0.5 percent by count of prunes with whole pits and/or pit fragments 2 mm or longer. For the purposes of this paragraph (f)(1)(ii), pitted prunes means prunes with the pit removed that are characterized by a uniform depression and minimal skin break where the pit has been removed.

(iii) No handler shall ship or otherwise make final disposition of any lot of macerated prunes for human consumption as pitted prunes unless these prunes do not exceed an average of 2 percent by count of prunes with whole pits and/or pit fragments 2 mm or longer; and four of ten subsamples examined have no more than 2 percent by count with whole pits and/or pit fragments 2 mm or longer. For the purposes of this paragraph (f)(1)(iii), macerated prunes means prunes with the pit removed that are characterized by a flattened appearance with slightly more skin breaks where the pit has been removed than with pitted prunes.

(2) For use in prune products. Any lot of substandard prunes, whether natural condition or processed, if within the applicable tolerances prescribed in §993.97 II C (1), (2), and (3), may be pitted and shipped or disposed of for use and used in prune products for human consumption: Provided, That prior to shipment or other final disposition by handler, such prunes have lost their form and character as prunes to the satisfaction of the inspector and the committee. An inspection certificate on such lot shall not be issued until the inspector has determined that the prunes therein have lost their form and character as prunes. Disposition of pitted prunes by handlers for use in prune products shall be in accordance with the applicable provisions of paragraph (e) of this section.
§ 993.150  7 CFR Ch. IX (1–1–02 Edition)

(g) Disposition of undersized prunes—

(1) Application for and approval of disposition. Undersized prunes accumulated by a handler pursuant to section 993.49(c) shall be disposed of in nonhuman consumption outlets during the crop year in which the prunes establishing such obligations were received from producers or dehydrators, or such later date that a handler may request in a notice, filed with the Committee at least 30 days prior to July 31 of the year of accumulation: Provided, That, such handler has made a bona fide effort to dispose of its undersized prunes as demonstrated by the shipment of at least 65 percent of its undersized obligation by May 31; such handler has a sufficient quantity of undersized prunes held in storage to meet its remaining obligation; and the extension of time requested is not later than 60 days beyond the end of the crop year. Prior to making any such disposition, the handler shall obtain the Committee’s approval of his application to do so. The handler’s application to ship or otherwise make final disposition of any such undersized prunes shall be submitted on Form PMC 2.21 “Application for Permission to Dispose of Undersized Prunes” which shall set forth: (i) The name and address of the handler’s vendee and the name and address of the consignee whether the same as or different from the vendee; (ii) the particular use to be made of the prunes; (iii) if such use is to be by a person other than the handler’s vendee or the consignee, the name and address of such user; and (iv) the crop year or the period within, or portion of, the crop year during which shipment or other disposition is to be made. When the use or the name and address of the consignee or user are not known by the handler, the handler shall arrange for the submission of such information to the Committee. If use is to be by the handler, the application shall so indicate and shall set forth all applicable information. Each application for shipment shall be limited to the handler’s vendee and the consignee, if different from the vendee, and to a specific user and use. Each application for final disposition for a particular use by the handler shall be limited to such handler and use. The Committee’s approval of a handler’s application shall be transmitted to the handler on Form PMC 2.31 “Permission to Dispose of Undersized Prunes.” In approving an application, the Committee shall specify the crop year or the period within, or the portion of, the crop year for which the approval is granted. When the use of name and address of the user or consignee are not known to the handler, the Committee shall not approve the application until it has been informed as to such use and user and consignee of the prunes. The requirements of §993.150(e)(1)(iv) (except Item (a) thereof), (v), and (vi) with regard to disapproval of applications or revocation of approved applications, evidence of nonhuman disposition, and the maintenance of books and records, applicable to prunes which fail to meet minimum standards, shall also apply to undersized prunes.

(2) Documentation of disposition of undersized prunes—(1) Inspection and certification. The handler shall cause an inspection to be made of each lot of undersized prunes prior to shipment or other disposition to determine whether such prunes meet the applicable requirements prescribed with respect to undersized prunes. After such determination, the handler shall cause a signed inspection certificate applicable to such prunes to be forwarded promptly to the Committee.

(ii) Documentation of shipment or other disposition. For each quantity of undersized prunes so shipped or otherwise disposed of, the handler shall promptly forward to the Committee one copy of the applicable bill of lading, truck receipt, or related documentation of disposition which shall show: (a) The name of the consignee; (b) the Committee approval number; (c) the destination by name and address of the person designated to receive the prunes; (d) the date of shipment or other disposition; (e) the inspection certificate number; (f) the net weight of the prunes; (g) the weight certificate number; and (h) identification of the prunes as undersized prunes.

(iii) Certification or receipt. The handler shall forward with each quantity of undersized prunes disposed of a certification form in triplicate, Form PMC 4.71 “User’s Receipt of Dried
Prunes for Nonhuman Usage” on which the handler shall have entered the following applicable information: (a) The inspection certificate number; (b) the Committee approval number; (c) the shipping or other disposition document number; (d) the name of the carrier; (e) the date of shipment or other disposition; and (f) the license or car number of each carrier unit, if applicable, used in the movement of the prunes to the destination of disposition or usage. The handler shall cause, either directly or through the vendee or consignee, the user of the prunes to certify on Form PMC 4.71 the receipt by him of the applicable prunes and to promptly forward the original thereof to the Committee. Such certification shall set forth the location where the prunes were received, the date of such receipt, the name and address of the person who will use or otherwise dispose of the prunes, and the signature and authority of the certificate to act for the user.

(iv) Certification of usage. The handler shall cause, either directly or through the vendee or consignee, the user of the prunes to certify, and forward to the Committee, one copy of Form PMC 4.71, following use or disposition thereof, that the prunes have been used or otherwise disposed of, the date and location at which use or other disposition took place, the name and address of the user, the signature and authority of the certificant to act for the user, and the date of his certification.

(3) Tolerances permitting a deviation in prune sizes from applicable undersized openings—(i) Undersized French prunes. Whenever an undersized regulation specifies an opening of \(\frac{23}{32}\) of an inch for French prunes, any quantity of French prunes disposed of by a handler in compliance with \(\S\) 993.50(g) shall not contain more than 15 percent by weight of prunes which do not pass freely through a round opening \(\frac{24}{32}\) of an inch in diameter. Whenever an undersized regulation specifies an opening of \(\frac{24}{32}\) of an inch in diameter for French prunes, any quantity of non-French prunes disposed of by a handler in compliance with \(\S\) 993.50(g) shall not contain more than 12 percent by weight of prunes which do not pass freely through a round opening \(\frac{26}{32}\) of an inch in diameter.

(ii) Undersized non-French prunes. Whenever an undersized regulation specifies an opening of \(\frac{23}{32}\) of an inch for non-French prunes, any quantity of non-French prunes disposed of by a handler in compliance with \(\S\) 993.50(g) shall not contain more than 10 percent by weight of prunes which do not pass freely through a round opening \(\frac{24}{32}\) of an inch in diameter. Whenever an undersized regulation specifies an opening of \(\frac{24}{32}\) of an inch in diameter for non-French prunes, any quantity of non-French prunes disposed of by a handler in compliance with \(\S\) 993.50(g) shall not contain more than 12 percent by weight of prunes which do not pass freely through a round opening \(\frac{26}{32}\) of an inch in diameter.

RESERVE CONTROL

§ 993.156 Application of reserve percentage.

The reserve obligation of each handler shall be determined by applying the reserve percentage to the weight of prunes in each lot, after deducting the weight of prunes in such lot shown as a percentage on the applicable inspection certificate as necessary to be removed therefrom pursuant to \(\S\) 993.49(c), in such manner as may be prescribed in such reserve control regulation established for the crop year in which such lot is received by a handler from a producer or dehydrator.

[30 FR 13311, Oct. 20, 1965]

§ 993.157 Holding and delivery of reserve prunes.

(a) Sales and deliveries. Committee sales and deliveries of reserve prunes from the holdings of any handler shall not exceed the quantity of reserve prunes required to be held by him. The reserve prune holding requirement of the handler shall be reduced by the tonnage so sold or delivered.
§ 993.158 Assistance to handlers.

As assistance to handlers, the committee shall furnish each handler a monthly tabulation, beginning as soon as possible after the start of the crop year, showing his reserve obligation and holding requirement based on records on file with the committee.

(c) Failure to hold and deliver reserve prunes in accordance with reserve obligation. In the event a handler fails to hold for the committee and deliver his total reserve prune obligation in any category and is unable to rectify such a deficiency with salable prunes, he shall compensate the committee in an amount computed by multiplying the pounds of natural condition prunes so deficient by the applicable values established by the committee. Provided, that the remedies prescribed herein shall be in addition to, and not exclusive of, any of the remedies or penalties prescribed in the act with respect to noncompliance. The determination of any such deficiency shall include application of any tolerance allowance for shrinkage in weight, increase in the number of prunes per pound, and normal and natural deterioration and spoilage which may then be in effect.

(d) Excess delivery of prunes to the committee. In the event a handler delivers to the committee as reserve prunes a quantity of prunes in excess of his holding requirement for reserve prunes, the committee shall make such practical adjustments as are consistent with this part and this may include compensating the handler for such excess (nonreserve prunes) by paying to him the proceeds received by the committee for such excess.

(e) Holding reserve prunes on other than a handler's premises. No handler shall hold reserve prunes on the premises of another handler, or in approved commercial storage other than on his own premises, unless prior thereto he notifies the committee in a certified report on Form PMC 5.1 “Notice of Proposed Intent to Store Reserve Prunes” which shall contain at least the following information: (1) The date and the name and address of the handler; (2) the name and address of the person on whose premises the reserve prunes will be stored for the handler; (3) the approximate quantity to be so stored and the exact location and description of the storage facilities; and (4) the proposed date that such storage will begin. The report shall be accompanied by a signed statement by the persons on whose premises the reserve prunes are to be stored agreeing to hold such prunes under conditions of proper storage and further agreeing to permit access to such premises by the committee at any time during business hours for the purpose of examining or taking delivery of such prunes in accordance with the provisions of this part. No handler shall be permitted to hold reserve prunes on any premises outside the area.

(g) Delivery by nonsignatory handlers. Any handler not signing the sales agreement authorized pursuant to §993.65(b), shall deliver to the Committee, upon demand, the total weight of his reserve obligation by such variety, grade, and size categories, and at the count per pound for each size category as is required by the reserve control regulation of the applicable crop year. Such deliveries of prunes may be either graded prunes or any lot of ungraded prunes, or portion thereof, identifiable to the satisfaction of the committee as being in the same form as when received: Provided, That the percent of standard prunes in each lot shall be taken into account but with respect to any lot of graded prunes, no credit shall be given to the standard obligation of the handler if in a sample of 100 ounces, the count per pound of 10 ounces of the smallest prunes exceeds the count per pound of 10 ounces of the largest prunes by more than 45 prunes per pound.

§ 993.158 Deferment of reserve withholding.

Any handler who desires to defer withholding pursuant to the provisions...
§ 993.159 Schedule of payments and conditions.

(a) Rate of payment for necessary services. Each handler shall, with respect to reserve prunes held by him for the account of the committee pursuant to §993.57, be paid at the rate of $25 per ton (natural condition weight) for necessary services rendered by him in connection with such prunes so held during all or any part of the crop year in which the prunes were received from producers or dehydrators. Such amount shall, together with the additional payments, as applicable, provided in this section, be in full payment for the costs incurred in connection with but not being limited to, the following services: Inspection, receiving, storing, grading, and fumigation. The costs include, but are not limited to:

(1) Acquisition costs, which include those for salaries, commission, or brokerage fees, transportation and handling between plants and receiving stations, inspection, and other costs, including container expense, incidental to acquisition or storage;

(2) Direct labor costs, which include those for receiving, grading, preliminary sorting and storing (including that performed by the handler at the receiving station), and loading for shipment or other delivery to the committee or its designee; and

(3) Plant overhead costs, which include those for superintendence, indirect labor, fuel, power and water, taxes and insurance on facilities, depreciation and rent, repairs and maintenance, factory supplies and expense, and employee benefits (payroll taxes, compensation insurance, and other such costs).

(b) Reimbursement for required insurance costs. Each handler holding reserve prunes for the account of the Committee shall maintain proper insurance thereon, including fire and extended coverage, in valuations (according to grade and/or size) established by, or acceptable to, the Committee for the particular crop year. The Committee shall reimburse the handler for the actual costs of such insurance. Prior to the receipt of reserve prunes at the beginning of each crop year, the handler shall certify to the Committee and the Secretary, on Form PMC 4.5, that he has a fire and extended coverage policy fully insuring all reserve prunes received by him during such crop year. Such certification shall contain the following information: (1) The name and address of the handler; (2) the location(s) where reserve prunes will be held for the account of the Committee and the premium rate per $100 value per annum at each location; (3) the value per ton at which the reserve prunes are insured; and (4) the name and address of the insurance underwriter.

(c) Certain additional payments in connection with the holding of reserve prunes for the account of the Committee. (1) Whenever a handler is directed by the committee to move and dump containers or reserve prunes held by him for the account of the committee for the purpose of causing an inspection to be made of the prunes, as provided in §993.75, but without taking delivery of the prunes at that time, the handler shall be paid for such services at the rate of $2.50 per ton (natural condition weight).

(2) Commencing with 1968–69 crop year reserve prunes, each handler holding reserve prunes for the account of the committee beyond the end of the crop year in which such prunes were received from producers or dehydrators shall be paid as follows:
§ 993.162 Voluntary prune plum diversion.

(a) Quantity to be diverted. The Committee shall indicate the quantity of prune plums that producers may divert pursuant to §993.62 whenever it recommends to the Secretary that diversion operations for a crop year be permitted. The Committee shall compute the dried weight equivalent of prune plums so diverted on a dryaway basis in accordance with the following schedule:

(1) For prune plums of French variety produced in the counties of Del Norte, Humboldt, Lake, Marin, Mendocino, Napa, Siskiyou, Solano, Sonoma, and Trinity, 1 pound of dried prunes for each 2.6 pounds of prune plums diverted;

(2) For prune plums of French varieties produced in the counties of Alameda, Monterey, San Benito, Santa Clara, Santa Cruz, San Francisco, and San Mateo, 1 pound of dried prunes for each 2.75 pounds of prune plums diverted;

(3) For prune plums of French varieties produced in the counties of Amador, Butte, Colusa, Contra Costa, Glenn, Sacramento, Shasta, Sutter, Tehama, Yolo, and Yuba, 1 pound of dried prunes for each 3 pounds of prune plums diverted;

(4) For prune plums of French varieties produced in the counties of Fresno, Merced, San Joaquin, San Luis Obispo, Stanislaus, Tulare, and all of the counties in the area not included in paragraphs (a)(1), (2), and (3) of this section, 1 pound of dried prunes for each 3.25 pounds of prune plums diverted; and

(5) For prune plums of non-French varieties produced in any country in the area, 1 pound of dried prunes for each 3.50 pounds of prune plums diverted.

Whenever diversion operations for a crop year have been authorized by the Secretary, the Committee shall notify producers, dehydrators, and handlers, known to it of such authorization.

(b) Eligible diversions. Eligible diversions shall preclude prune plums from becoming prunes and shall be limited to the following methods: (1) Disposing of harvested prune plums under Committee supervision for nonhuman use at a location and in a manner satisfactory to the Committee; and (2) leaving unharvested the entire production of prune plums from a solid block of bearing trees designated by the producer applying for the diversion. In accordance with §993.62(c), eligible diversion shall not apply to prune plums which would not, under normal producer practices, be dried and delivered to a handler.
(c) Applications for diversion—(1) By producers. Each producer desiring to divert prune plums of his own production shall, prior to diversion, file with the Committee a certified application on Form PMC 10.1 “Application for Prune Plum Diversion” containing at least the following information: (i) The name and address of the producer; whether the producer is an owner-operator, share-landlord, share-tenant, or cash tenant; and the name and address of any other person or persons sharing a proprietary interest in such prune plums; (ii) the proposed method of diversion and the location where diversion is to take place; (iii) the quantity and variety of prune plums proposed to be diverted; and (iv) the approximate period of diversion. A deposit fee shall accompany each application and shall be the greater of either $100 or the amount obtained by multiplying the quantity, in tons, of prune plums proposed to be diverted by $3.50.

(2) By dehydrator as agent. Any producer, or group of producers, may authorize any dehydrator to act as agent to divert harvested prune plums. Prior to diversion such dehydrator shall submit to the Committee with respect to each producer the certified application on Form PMC 10.1 “Application for Prune Plum Diversion” required by paragraph (c)(1) of this section. A deposit fee shall accompany each application and shall be the greater of either $100 per producer who authorized the dehydrator to act as agent or the amount obtained by multiplying the quantity in tons of prune plums proposed to be diverted by $3.50: Provided, That with respect to any group of four or more producers that authorized the dehydrator to act as agent for the group and the dehydrator so informs the Committee, the deposit fee shall be the greater of either $200 or the amount obtained by multiplying the aggregate quantity in tons of prune plums proposed to be diverted by the group by $3.50.

(3) Receipt of applications. The Committee shall establish, and give prompt notice of a final date for receipt of applications for diversion: Provided, That if the Committee determines that the total quantity of prune plums covered by applications received by such date is substantially less than the quantity which the Committee has determined pursuant to paragraph (a) of this section, the Committee may provide such additional time for such receipt of applications as it deems appropriate and establish and give prompt notice of such additional time.

(d) Approval of applications. No certificate of diversion shall be issued by the Committee unless it has approved the application covering such diversion.

(1) The Committee’s approval of an application shall be in writing, and include at least the following: (i) The details as to the method of diversion to be followed; (ii) the method of appraisal to be used by the Committee to determine the quantity of prune plums diverted; (iii) the lesser of either the quantity specified in the the application for diversion as proposed to be diverted, or any modification of that quantity as a result of any Committee proration of the total quantity proposed to be diverted by all producers; and (iv) such other information as may be necessary to assist the applicant in meeting the requirements of this section, including the conditions of proof of diversion under which diverted prune plums shall receive credit for certification.

(2) If the Committee determines that it cannot approve an application it shall notify the applicant promptly. The Committee shall state the reason for failing to approve the application, and request the applicant to submit, if practicable, an amended application correcting the deficiencies in the original application.

(3) The Committee shall establish, and give prompt notice of a final date by which a producer may modify his approved application including changing the proposed method of diversion and the quantity of prune plums proposed to be diverted: Provided, That any change in the proposed method of diversion shall include information on the location where such diversion is to take place and shall be accompanied by a payment of $50 as a service charge, and any increase in the quantity of prune plums proposed to be diverted shall be accompanied by a payment of $4.50 per ton for such increase, of which...
§ 993.162  7 CFR Ch. IX (1–1–02 Edition)

$3.50 shall be the deposit fee and $1 shall be a service charge.

(4) Whenever an applicant cancels his approved diversion application prior to diversion, no part of the deposit fee covering actual costs incurred in connection with the application shall be refunded except upon approval by the Committee following review of all circumstances in the matter.

(e) Report of diversion. (1) When diversion of prune plums has been completed, the diverter (whether producer or dehydration agent of a producer) shall submit the required proof of such diversion to the Committee. When the Committee concludes that diversion has been completed pursuant to the requirements of this section, it shall furnish the producer whose prune plums were diverted with a listing of the total quantity of prune plums concluded to be so diverted: Provided, That a producer shall be given credit for any quantity of his prune plums diverted in excess of the quantity approved by the Committee pursuant to paragraph (d) of this section but not in excess of 120 percent of such approved quantity and then only to the extent that such creditable excess is already covered by his applicable deposit fee or such fee is increased by an additional deposit to cover such excess.

(2) Upon completion of the computation of dryaway pursuant to paragraph (a) of this section applicable to the diverter’s diversion of prune plums, the Committee shall issue a report of diversion to the producer whose prune plums were diverted for the total quantity, dried weight equivalent, credited for diversion setting forth the computations by which such total quantity was derived.

(f) Transferable certificate of diversion—(1) General. As hereinafter set forth, transferable certificates of diversion shall be issued by the Committee. Any transferable certificate of diversion issued to a handler that is a cooperative marketing association, or submitted to a handler and accepted by him, shall be returned to the Committee by the handler for credit against the handler’s reserve obligation of the crop year in accordance with §993.57. Such credit shall be based on the amount shown on the certificate, and shall be applied to reduce the handler’s holding requirement for such crop year. With respect to such creditable certificate of a handler with a holding requirement prior to issuance or acceptance, as applicable, of the transferable certificate of diversion, such credit shall result in an adjustment downward in the handler’s then applicable holding requirement in an amount equal to that computed by applying the applicable salable percentage to the total quantity on such certificate. Any adjustment in a handler’s holding requirement shall not affect his obligation, if any, to continue to hold reserve prunes that are undersized prunes. The term undersized prunes shall have the same meaning as prescribed by the Secretary for the then current crop year. If the Committee determines that effective administration of diversion operations requires establishment of a final date for submission of transferable certificates of diversion by producers to handlers, or a final date for return of such certificates by handlers to the Committee for crediting against their reserve obligations, or both, it shall establish such dates.

(2) Issuance to producers. Except as provided in paragraph (f)(3) of this section, the Committee shall issue transferable certificates of diversion to each producer diverting prune plums and to whom a report of diversion was issued. Prior to issuance of any such transferable certificate of diversion, the producer shall advise the Committee, in writing: (i) Of the name of the handler to whom the transferable certificate of diversion is to be submitted and who is holding reserve prunes referable to prunes received from such producer; and (ii) how much of the quantity shown on his report of diversion he desires to use in lieu of reserve prunes but not in excess of the quantity of reserve prunes referable to prunes received from such producer. The Committee shall enter on the transferable certificate of diversion the name of the handler and the quantity covered by the certificate. The transferable certificate of diversion shall be endorsed by the producer and the handler prior to its return to the Committee in order to be credited by the Committee against such handler’s
remain unused and he desires to transfer a transferable certificate of diversion covering all or any part of such unused portion to another producer, he shall advise the Committee, in writing, of the name and address of such producer, together with the applicable quantity desired to be covered by the transfer, and, if known, the name of the handler to whom such a transferable certificate is to be submitted. However, the quantity to be covered by the transfer shall not exceed the quantity of reserve prunes referable to prunes received by the handler from the transferee-producer. The Committee shall enter on the transferable certificate of diversion the names of the transferee-producer and the handler, and the quantity covered by the certificate. Prior to submission of any such transferred diversion certificate to a handler, the transferee-producer shall advise the Committee, in writing, of the name and address of the handler to whom the transferable certificate is to be submitted and who is holding reserve prunes referable to prunes received from such producer. Such transferred diversion certificate shall be endorsed by both producers and the handler in order to be credited by the Committee against such handler’s reserve obligation.

(3) Issuance to a cooperative marketing association. In connection with prune plums diverted by producers who are members of a cooperative marketing association, the Committee shall, when so requested by the association, issue the applicable transferable certificates of diversion to it. The quantity entered on the report of diversion of a cooperative producer shall be entered on or annexed to the applicable transferable certificate of diversion issued to the association. Such transferable certificates of diversion shall be returned to the Committee by the association endorsed by an authorized officer of the association in order to be credited by the Committee against the association’s reserve obligation.

(4) Applicability of certain payments. The provisions of §§993.59 and 993.159 governing payments to a handler for necessary services rendered by the handler in connection with reserve prunes shall not be applicable to prunes no longer required to be held as reserve prunes due to a downward adjustment by the Committee in the handler’s holding requirement on the basis of applicable transferable certificates of diversion returned to the Committee.

(g) Costs. Pursuant to §§993.62(g), the costs pertaining to diversion are to be defrayed by payment of fees by the producer or cooperative marketing association to whom a diversion certificate is issued. After authorized diversion operations for a crop year are completed, the Committee shall ascertain its costs of diversion operations during such crop year. If the total amount represented by the deposit fees which accompanied the applications for diversion exceeds such costs, each producer, and each cooperative marketing association, entitled thereto shall receive a proportionate refund of the net amount. Such refund shall be calculated in the same proportion as the quantity of prune plums diverted by each such producer, and each such cooperative marketing association, is to the total quantity of prune plums diverted: Provided, That the Committee may prescribe a minimum charge to cover costs of processing each application for diversion submitted to it.

Disposition of Reserve Prunes

§ 993.165 Disposition of reserve prunes.

(a) General. For purposes of §993.65(a)(2), normal outlets for salable prunes (herein referred to as “normal outlets”) and outlets noncompetitive with normal outlets for salable prunes (herein referred to as “noncompetitive outlets”) are defined in paragraphs (b) and (c) of this section.

Upon written notice by the committee, non-profit cooperative agricultural marketing associations which are handlers shall file with the committee within 10 days (exclusive of Saturdays, Sundays, and legal holidays) thereafter a signed cumulative report of the prunes received from its members and any other producers or dehydrators from whom the handler receives handling services, which shall contain the following information: (1) The name and address of the association and the date of the report; (2) the aggregate net weight of prunes, as shown by the applicable incoming inspection certificates, required to be disposed of for nonhuman consumption in accordance with § 993.150(g); and (3) the total net weight of prunes received, itemized by crop years of production, and itemized as to salable and reserve prunes by category as developed from inspection certificates.

(c) Carryover and marketing policy information. Upon request of the committee, a handler shall within 10 days (exclusive of Saturdays, Sundays, and legal holidays) thereafter, file with the committee a signed report on Form PMC 14.1 "Report of Carryover and Marketing Policy Information," containing such of the following items of information as may be requested by the committee: (1) The tonnage of prunes held by the handler by size and grade, as of the date specified in the committee's request and the tonnage of reserve prunes by size in each category; and (2) the handler's estimate of the tonnage of prunes held by producers and dehydrators from whom the handler received prunes during the current or preceding crop year, of the tonnage and quality and size of prunes expected to be produced by such producers and dehydrators during the current or following crop year, of current prices being received by producers, dehydrators, and handlers, and of the probable trade demand.

(a) Numerical designations. Each of the following is a numerical size category described by the range of the size counts of prunes per pounds included in the respective size categories expressed as follows or in an applicable equivalent range expressed in the metric system per 500 grams: 15/20, 15/22, 18/24, 20/30, 25/35, 30/40, 40/50, 45/50, 60/70, 70/80, 75/85, 80/90, and 90/100.

(b) Nomenclature designations. Each of the following is a nomenclature size category: (1) Extra large; (2) Large; (3) Medium; and (4) Small, breakfast, petite, or economy.

(c) Nomenclature designations defined. As used in paragraph (b) of this section:
§ 993.601 More restrictive grade regulation.

(a) Incoming and outgoing grade regulation. Whenever the estimated season average price to producers for prunes does not exceed the parity level specified in section 2(1) of the act, the minimum standards which handlers’ receipts of natural condition prunes are required to meet pursuant to §993.50(a) shall be the applicable standards set forth in §993.97 Exhibit A: minimum standards, except that the following revised tolerance allowances shall apply in lieu of the tolerance allowances prescribed in paragraphs I C(2), II C(3), I C(5) and II C(6) of §993.97 as follows:

1. Extra large means any size count which falls within the range of 25 to 40 prunes, inclusive, per pound;

(b) Above parity situations. Whenever the estimated season average price to producers for prunes exceeds the parity level specified in section 2(1) of the act, the minimum standards set forth in §993.97 shall apply in their entirety.

§ 993.602 Maximum tolerances.

In lieu of the provision prescribed in I C of §993.97 that the tolerance allowances prescribed therein shall be on a weight basis, the tolerance allowance percentage for each defect or group of defects in I C of §993.97 shall be derived by dividing the number of prunes in the applicable sample affected with the applicable defect(s) by the total number of prunes in such sample.

QUALITY REGULATIONS

§ 997.20 Incoming regulation.

(a) No handler shall receive or acquire peanuts intended for human consumption, either from a producer or other person, unless such peanuts are inspected pursuant to §997.50 and are determined to be Segregation 1 peanuts at time of receipt from the producer or, if received from another person, had not been mixed with peanuts of a lower quality than Segregation 1 and meet the following additional requirements specified in this section: Provided, That a handler may—

1. Acquire shelled peanuts from the Commodity Credit Corporation (CCC) or cleaned inshell or shelled peanuts from other handlers, a handler as defined in 7 CFR 998.8, or from buyers who have purchased such peanuts from handlers or from the CCC, if the lot has been certified as meeting the requirements of §997.30(a) and the identity is maintained; and/or

2. Perform services for an area association pursuant to a peanut receiving and warehouse contract.

(b) Moisture and foreign material—(1) Moisture. Except as provided under paragraph (d) of §997.20, no handler shall receive or acquire peanuts containing more than 10.49 percent moisture: Provided, That peanuts of a higher moisture content may be received and dried to not more than 10.49 percent moisture prior to storing or milling. For farmers stock peanuts, moisture determinations shall be rounded to the nearest whole number. Moisture determinations on shelled peanuts shall be carried to the hundredths place.

2. Foreign material. No handler shall receive or acquire farmers stock peanuts containing more than 10.49 percent foreign material, except that peanuts having a higher foreign material content may be received or acquired if they are held separately until shelled, or moved over a sand-screen before storage, or shipped directly to a plant for prompt shelling. The term sand-screen means any type of farmers stock cleaner which, when in use, removes sand and dirt.

(c) Damage. For the purpose of determining damage, other than concealed damage, on farmers stock peanuts, all percentage determinations shall be rounded to the nearest whole number.

(d) Seed peanuts. Peanuts which are not Segregation 1 peanuts and therefore cannot be acquired for human consumption may be acquired, shelled and delivered for seed purposes. Peanuts intended for seed use, produced under the auspices of a State agency which regulates or controls the production of seed peanuts, which do not meet Segregation 1 requirements shall be stored and shelled separate from peanuts intended for human consumption. However, Segregation 2 seed peanuts, produced under the auspices of the State agency, which contain up to 3.00 percent damaged kernels and are free from visible Aspergillus flavus may be stored and shelled with Segregation 1 peanuts which are also produced under the auspices of the State agency. A handler whose operations include custom seed shelling may receive, custom shell, and deliver for seed purposes farmers stock peanuts, and such peanuts shall be exempt from the requirements of this section and, therefore, shall not be required to be inspected and certified as meeting these requirements, and the handler shall report to the Division the weight of each lot of farmers stock peanuts received on such basis on a form provided by the Department. However, handlers who acquire seed peanut residuals from their custom shelling of
uninspected (farmers stock) seed peanuts or from another person may mill such residuals with other receipts or acquisitions of the handler, and such peanuts which meet the requirements specified in §997.30(a) may be disposed of by sale to human consumption outlets.

(e) Oilstock. Handlers may acquire for disposition to domestic crushing or export farmers stock peanuts of a lower quality than Segregation 1 or cleaned inshell peanuts which fail to meet the requirements for human consumption. Handlers may act as accumulators and acquire, for other handlers; a handler as defined in 7 CFR 998.8 or from other persons, Segregation 2 or 3 farmers stock peanuts. Handlers may also acquire shelled peanuts originating from Segregation 2 or 3 farmers stock or lots of entire mill production of peanuts from Segregation 1 farmers stock or lots of shelled peanuts originating from Segregation 1 peanuts and which have been positive lot identified as specified in §997.30(d), which failed to meet the requirements for human consumption pursuant to §997.30(a): Provided, That all such acquisitions are held separate from Segregation 1 peanuts acquired for milling or from edible grades of shelled or milled peanuts. Handlers may commingle the Segregation 2 and 3 peanuts or keep them separate and apart. Handlers who acquire farmers stock peanuts of a lower quality than Segregation 1 or cleaned inshell peanuts which fail to meet the requirements for human consumption shall report such acquisitions to the Division as prescribed on a form prescribed by the Division. Handlers who acquire grades or sizes of shelled peanuts which fail to meet the requirements for human consumption for disposition to domestic crushing and subsequent export to countries shall report such disposition on a form provided by the Division.

(f) Shelled peanuts. Handlers may acquire shelled peanuts (which originated from “Segregation 1 peanuts”) from other handlers or a handler as defined in 7 CFR 998.8, for remilling and subsequent disposition to human consumption outlets. Further disposition of such peanuts shall be regulated by §997.40.

(g) No producer may handle, process, prepare for sale, or otherwise alter peanuts of his own production from the condition of farmers stock, for disposition in human consumption outlets unless such peanuts are first inspected and certified pursuant to §997.50 and meet the applicable requirements of this section.

§997.30 Outgoing regulation.

(a) Shelled peanuts. (1) No handler shall dispose of shelled peanuts for human consumption unless such peanuts are positive lot identified, certified “negative” as to aflatoxin and certified as meeting the following requirements:

(2) The term fall through, as used in this paragraph, shall mean sound split and broken kernels and whole kernels which pass through specified screens. Prior to shipment, appropriate samples for pretesting shall be drawn in accordance with paragraph (c) of this section from each lot of peanuts. For the current crop year, “negative” aflatoxin content means 15 parts per billion (ppb) or less for peanuts which have been certified as meeting edible quality grade requirements.

(b) Cleaned inshell peanuts. No handler shall ship, sell, or otherwise dispose of cleaned inshell peanuts for human consumption:

(1) With more than 1.00 percent kernels with mold present unless a sample of such peanuts, drawn by an inspector of the Federal or Federal-State Inspection Service, was analyzed chemically by a U.S. Department of Agriculture laboratory (hereinafter referred to as “USDA laboratory”) or a laboratory listed in paragraph (c) of this section and found to be wholesome relative to aflatoxin;

(2) With more than 2.00 percent peanuts with damaged kernels;

(3) With more than 10.00 percent moisture; or

(4) With more than 0.50 percent foreign material.

(c) Sampling and testing shelled peanuts. (1) Each handler shall cause appropriate samples of each lot of edible quality shelled peanuts to be drawn by an inspector of the Federal or Federal-State Inspection Service. The gross amount of peanuts drawn shall be large enough to provide for a grade analysis, for a grading check-sample, and for three 48-pound samples for aflatoxin assay. The three 48-pound samples shall be designated by the Federal or Federal-State Inspection Service as “Sample #1N”, “Sample #2N”, and “Sample #3N” and each sample shall be placed in a suitable container and “positive lot identified” by means acceptable to the Inspection Service. Sample #1N may be prepared for immediate testing or Sample #1N, Sample #2N, and Sample #3N may be returned to the handler for testing at a later date.

(2) The handler shall cause Sample #1 to be ground by the Federal or Federal-State Inspection Service, a USDA laboratory or a laboratory listed herein, in a “subsampling mill” approved by the Division. The resultant ground subsample from Sample #1N shall be of a
size specified by the Division and shall be designated as “Subsample 1—ABN” and at the handler’s or buyer’s option, a second subsample may also be extracted from Sample #1N. It shall be designated as “Subsample 1—CDN”. Subsample 1—CDN may be sent as requested by the handler or buyer, for aflatoxin assay, to a USDA laboratory or other laboratory that can provide analyses results on such samples in 36 hours. The cost of sampling and testing Subsample 1—CDN shall be for the account of the requester. Subsample 1—ABN shall be analyzed only in a USDA laboratory or a laboratory listed herein. Both Subsamples 1—ABN and 1—CDN shall be accompanied by a notice of sampling signed by the inspector containing, at least, identifying information as to the handler (shipper), the buyer (receiver), if known, and the positive lot identification of the shelled peanuts. A copy of such notice covering each lot shall be sent to the Division.

(3) The samples designated as Sample #2N and Sample #3N shall be held as aflatoxin check-samples by the Inspection Service or the handler and shall not be included in the shipment to the buyer until the analyses results from Sample #1N are known.

(4) Upon call from the laboratory, handler shall cause Sample #2N to be ground by the Inspection Service in a “subsampling mill.” The resultant ground subsample from Sample #2N shall be of a size specified by the Division and it shall be designated as “Subsample #2—ABN.” Upon call from the laboratory, the handler shall cause Sample #3N to be ground by the Inspection Service in a “subsampling mill.” The resultant ground subsample from Sample #3N shall be of a size specified by the Division and shall be designated as “Subsample #3—ABN”, “Subsamples 2—ABN and 3—ABN” shall be analyzed only in a USDA laboratory or a laboratory listed herein and each shall be accompanied by a notice of sampling. A copy of each such notice shall be sent to the Division. The results of each assay shall be reported by the laboratory to the handler and to the Division. All costs involved in the sampling and testing of peanuts required by this regulation shall be for the account of the applicant.

(5) Information on making arrangements for the required inspection and certification can be obtained by contacting the Fresh Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, USDA, P.O. § 997.40 Reconditioning and disposition of peanuts failing quality requirements.

(a) Lots of peanuts which have not been certified as meeting the requirements for disposition to human consumption outlets, may be disposed of for non-human consumption uses which are not regulated or limited by the provisions specified in this section: Provided, That each such lot is positive lot identified, using red tags, and certified as to aflatoxin content (actual numerical count). However, on the shipping papers covering the disposition of each such lot of inedible quality peanuts, the handler shall cause the following statement to be shown: “The peanuts covered by this bill of lading (or invoice, etc.) are not to be used for human consumption.”

(b) Except for inedible quality peanuts disposed of under the provisions of paragraph (f)(2) of this section and peanuts derived from the milling for seed of Segregation 2 and 3 farmers stock peanuts, peanuts which have not been certified as meeting the standards set forth in paragraphs (a) or (b) of §997.30 shall be disposed of as prescribed hereinafter in this section.

To be eligible for disposal into human consumption outlets, such peanuts after blanching, shall have had the positive lot identity maintained and be accompanied by a negative aflatoxin certificate. The residual peanuts, excluding skins and hearts, resulting from blanching under these provisions, shall be placed in suitable containers acceptable to AMS and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or, in the alternative, such residuals shall be positive lot identified by the Federal or Federal-State Inspection Service, and shall be disposed of, by the blancher to crushers who agree to comply with the terms of paragraph (c) of this section. Lots of peanuts moved under these provisions must be accompanied by a valid grade inspection certificate and a valid aflatoxin certificate. To be eligible for disposal into human consumption outlets, such peanuts after roasting, shall have had the positive lot identity maintained and be accompanied by a negative aflatoxin certificate. Roasting under the provisions of this paragraph shall be performed only by blanchers who are approved by the Committee.

(e) Remilling peanuts failing quality requirements. The rate of assessment shall be the same as the administrative assessment approved by the Secretary and applied to signatory handlers under the Peanut Marketing Agreement No. 146. Such administrative assessment shall be applied during the crop year beginning July 1 and ending June 30 of the following year. Each handler’s pro rata share shall be the rate of assessment fixed by the Secretary per net ton of farmers stock peanuts received or acquired, other than those peanuts described in §997.20(a) (1) and (2). In the situation of §998.35, the Secretary may authorize handlers to acquire Segregation 2 peanuts from producers or intermediaries. The acquisition of loose shelled kernels or their removal from farmers stock peanuts shall be in accordance with such procedures as the committee, with the approval of the Secretary, may establish.

§ 998.33 Inspection, certification and identification.

Each handler shall, at his own expense, prior to or upon receiving and before shipping or disposing of peanuts, cause an inspection to be made of any such peanuts not covered by a valid inspection certificate, to determine whether they meet the applicable grade requirements effective pursuant to this agreement and shall comply with such identification requirements as the committee, with the approval of the Secretary, may prescribe. Such handler shall obtain a certificate that such peanuts meet the aforementioned applicable requirements and all such certificates shall be available for examination or use by the committee. § 998.35 Above parity situations.

Minimum standards established under §§ 998.31 and 998.32, the grading and inspection requirements, and the provisions of this agreement relating to administration and indemnification shall continue in effect irrespective of whether or not the estimated season average price for peanuts is in excess of the parity level specified in section 2(1) of the Act.

§ 998.36 Indemnification.

The committee shall, upon such terms and conditions as it may establish with the approval of the Secretary, indemnify any handler, to the extent specified, for losses incurred by him on peanuts which have been milled for sale for human consumption and which meet the applicable grade and other requirements but which are determined by the committee or the U.S. Food and Drug Administration to be unsuitable for human consumption because of aflatoxin including such peanuts returned, resold or rejected to a handler by a purchaser. Any peanuts for which the handler is indemnified pursuant to this paragraph shall be delivered to the committee or disposed of as the committee may direct. Funds for such indemnification shall be obtained pursuant to § 998.48. The period of indemnification on any crop may extend to December 31 of the calendar year following the year in which the crop was produced.

§ 998.44 Verification of reports.

For the purpose of checking and verifying reports filed by handlers or the operation of handlers under the provisions of this agreement, the Secretary and the committee, through its duly authorized agents, shall have access to any premises where peanuts may be held by any handler and at any time during reasonable business hours, shall be permitted to inspect any peanuts so held by such handler and any and all records of such handler with respect to the acquisition, holding, or disposition of all peanuts which may be held or which may have been disposed of by him.

§ 998.47 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each crop year for the maintenance and functioning of the committee and for such other purposes as the Secretary may, pursuant to the provisions of this agreement, determine to be appropriate.

§ 998.48 Assessments.

(a) Each handler shall pay to the committee, upon demand, with respect to peanuts received by him, including his own production, his pro rata share of all expenses, indemnification and other, which the Secretary finds are reasonable and likely to be incurred by the committee during each crop year. An assessment rate may be increased to cover a deficit in the administrative fund.

(b) In order to provide funds to carry out the functions of the committee, the committee may borrow money or may accept advance payments from any handler to be credited toward such assessments as may be levied pursuant to this section against the respective handler.

(c) Indemnification reserve. The committee, with the approval of the Secretary, may establish and maintain during one or more crop years a monetary reserve in an amount approximating anticipated expenses for indemnification pursuant to § 998.36.

(d) Refunds. Administrative funds held by the committee at the conclusion of the crop year in excess of the
crop year’s expenses, other than indemnification funds, may be used to defray expenses for no more than the ensuing four months, and thereafter within a reasonable time the committee shall credit the aforesaid administrative excess to handlers who contributed to such excess: Provided, That the excess due any handler shall be applied, in whole or in part, by the committee to any outstanding obligation due the committee from such handler. Should any handler discontinue handling peanuts, such excess shall be refunded to him. A handler’s share of such excess funds shall be the amount of such assessments he paid in excess of his actual pro rata share of the administrative expenses of the committee. Upon termination of this agreement any indemnification money in possession of the committee shall be turned over to any successor committee or disposed of, with the approval of the Secretary, for projects of benefit to the peanut industry and any residual together with any administrative money shall be distributed in such manner as the Secretary may direct: Provided, That, to the extent practicable, such residual funds shall be returned pro rata to the persons from whom collected.

of the act. Moreover, if the provisions of the CCC price support program relating to purchases from shellers are discontinued, or change appreciably, consideration shall be given to termination of this agreement.

(b) Referendum. The Secretary shall terminate, in accordance with section 8c(16)(B) of the Act, the provisions of this agreement at the end of any crop year whenever he finds that such termination is favored by a majority of the producers of peanuts who during the crop year have been engaged in the production of peanuts for market: Provided, That such majority have during such period produced for market more than 50 percent of the volume of such peanuts produced for market within the area, but such termination shall be effective only if announced on or before June 1 of the then current crop year.

(c) Termination of Act. The provisions of this agreement shall terminate, in any event, whenever the provisions of the act authorizing them cease to be in effect.

§ 998.58 Procedure upon termination.

Upon the termination of this agreement, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee. Action by such trustees shall require the concurrence of a majority of said trustees. Such trustees shall continue in such capacity until discharged by the Secretary, and shall account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such persons as the Secretary may direct; and shall upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all the funds, properties, and claims vested in the committee or the joint trustees, pursuant to this section, shall be subject to the same obligations imposed upon the members of said committee and upon said joint trustees.

§ 998.59 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this agreement or of any regulation issued pursuant thereto, or the issuance of any amendment to either thereof, shall not:

(a) Affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise, in connection with any provisions of this agreement or any regulation issued thereunder, or

(b) Release or extinguish any violation of this agreement or any regulation issued thereunder, or

(c) Affect or impair any rights or remedies of the Secretary, or of any other persons, with respect to such violation.

§ 998.60 Counterparts.

This agreement may be executed in multiple counterparts and, when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.

§ 998.61 Additional parties.

After the effective date of this agreement, any handler may become a party hereto if a counterpart is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary and such party has complied with assessment obligations and the quality regulations applicable to the current crop. The benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting part.

IMPLEMENTING REGULATIONS

§ 998.100 Incoming quality regulation for 1997 and subsequent crop peanuts.

The following modify §998.5 of the peanut marketing agreement and modify or are in addition to the restrictions of section 31 on handler receipts or acquisitions of peanuts:

(a) Modification of §998.5, paragraphs (b), (c), and (d). Paragraphs (b), (c), and
(d) of §998.5 of the peanut marketing agreement are modified for the purposes of this section as to farmers stock peanuts to read respectively as follows:

(b) Segregation 1. Segregation 1 peanuts means farmers stock peanuts with not more than 2 percent damaged kernels nor more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible Aspergillus flavus.

(c) Segregation 2. Segregation 2 peanuts means farmers stock peanuts with more than 2 percent damaged kernels or more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible Aspergillus flavus.

(d) Segregation 3. Segregation 3 peanuts means farmers stock peanuts with visible Aspergillus flavus.

(b) Moisture and foreign material—(1) Moisture. Except as provided under paragraph (d) of this section, no handler shall receive or acquire peanuts containing more than 10.49 percent moisture: Provided, That peanuts of a higher moisture content may be received and dried to not more than 10.49 percent moisture prior to storing or milling. On farmers stock, such moisture determinations shall be rounded to the nearest whole number; on shelled peanuts, the determinations shall be carried to the hundredths place and shall not be rounded to the nearest whole number.

(2) Foreign material. No handler shall receive or acquire farmers stock peanuts containing more than 10.49 percent foreign material, except that peanuts having a higher foreign material content may be received or acquired if they are held separately until milled, or moved over a sand-screen before storage, or shipped directly to a plant for prompt shelling. The term sand-screen means any type of farmers stock cleaner which, when in use, removes sand and dirt.

(c) Damage. For the purpose of determining damage, other than concealed damage, on farmers stock peanuts, all percentage determinations shall be rounded to the nearest whole number.

(d) Seed peanuts. A handler may acquire and deliver for seed purposes farmers stock peanuts which meet the requirements of Segregation 1 peanuts. If the seed peanuts are produced under the auspices of a State agency which regulates or controls the production of seed peanuts, they may contain up to 3 percent damaged kernels and have visible Aspergillus flavus, and, in addition, the following moisture content, as applicable:

(1) Seed peanuts produced in the Southeastern and Virginia-Carolina areas, may contain up to 10.49 percent moisture except Virginia type peanuts which are not stacked at harvest time may contain up to 11.49 percent moisture; and

(2) Seed peanuts produced in the Southwestern area may contain up to 10.49 percent moisture.

Any seed peanuts produced under the auspices of a State agency which contain up to 3 percent damaged kernels and are free from visible Aspergillus flavus, may be stored and shelled with Segregation 1 seed peanuts which are also produced under the auspices of the State agency. Any seed peanuts with visible Aspergillus flavus shall be stored and shelled separate from other peanuts, and any residuals not used for seed shall not be used or disposed of for human consumption unless it is determined to be wholesome by chemical assay for aflatoxin. A handler whose operations include custom shelling may receive, custom shell, and deliver for seed purposes farmers stock peanuts, and such peanuts shall be exempt from the Incoming Quality Regulation requirements, and, therefore, shall not be required to be inspected and certified as meeting the Incoming Quality Regulation requirements, and the handler shall report to the Committee, as requested, the weight of each lot of farmers stock peanuts received on such basis on a form furnished by the Committee. Handlers who acquire seed peanut residuals from their custom shelling of uninspected (farmers stock) seed peanuts or from another producer or sheller may mill such residuals with other receipts or acquisitions of the handler, and such residuals which meet the Outgoing Quality Regulation requirements, may be disposed of by sale to human consumption outlets.

(e) Oilstock. Handlers may acquire for disposition to domestic crushing or export farmers stock peanuts of a lower quality than Segregation 1 or grades or sizes of shelled peanuts or cleaned...
inshell peanuts which fail to meet the requirements for human consumption. The provision of §998.31 of the marketing agreement restricting acquisitions of such peanuts to handlers who are crushers is hereby modified pursuant to §998.34, to authorize all handlers to act as accumulators and acquire, from other handlers or non-handlers, Segregation 2 or 3 farmers stock peanuts. Handlers may also acquire for crushing or export from other handlers peanuts originating from Segregation 2 or 3 farmers stock or the entire mill production of shelled peanuts from Segregation 1 farmers stock or lots of peanuts originating from Segregation 1 peanuts and which have been positive lot identified as specified in paragraph (d) of §998.200. Outgoing quality regulation, which failed to meet the requirements for human consumption pursuant to paragraph (a) of §998.200. Outgoing quality regulation: Provided, That all such acquisitions are held separate from Segregation 1 peanuts acquired for milling or from edible grades of shelled or milled peanuts. Handlers may commingle the Segregation 2 and 3 peanuts or keep them separate and apart. Handlers who acquire farmers stock peanuts of a lower quality than Segregation 1 or grades or sizes of shelled peanuts or cleaned inshell peanuts which fail to meet the requirements for human consumption shall report such acquisitions as prescribed by the Committee. To be eligible to receive or acquire Segregation 2 or 3 farmers stock peanuts and shelled peanuts originating therefrom, a handler shall pay to the Area Association a fee for the purpose of covering cost of supervision of the disposition of such peanuts.

(f) Segregation 2 and 3 control. To assure the removal from edible outlets of any lot of peanuts determined by Federal-State Inspection Service to be Segregation 2 or Segregation 3, each handler shall inform each employee, country buyer, commission buyer, or like person through whom the handler receives peanuts of the need to receive and withhold all lots of Segregation 2 and Segregation 3 peanuts from milling for edible use. If any lot of Segregation 2 or Segregation 3 farmers stock peanuts is not withheld but returned to the producer, the handler shall cause the Inspection Service to forward immediately a copy of the inspection certificate on the lot to the designated office of the handler and a copy to the Committee which shall be used only for information purposes.

(g) Shelled peanuts. Handlers may acquire shelled peanuts which originated from “Segregation 1 peanuts,” from other handlers, for remilling and subsequent disposition to human consumption outlets.

(h) Segregation 2 and Segregation 3 farmers stock peanuts held separate and apart or commingled, and disposed of to domestic or export crushing are exempt from assessments under this section.

§ 998.200 Outgoing quality regulation for 1997 and subsequent crop peanuts.

The following modify or in addition to the peanut marketing agreement restrictions of §998.32 on handler disposition of peanuts:

(a) Shelled peanuts. (1) No handler shall dispose of shelled peanuts for human consumption unless such peanuts are positive lot identified, certified “negative” as to aflatoxin, and certified as meeting the following requirements:

(2) The term fall through, as used in this paragraph, shall mean sound split and broken kernels and whole kernels which pass through specified screens.

(b) Cleaned inshell peanuts. No handler shall ship or otherwise dispose of cleaned inshell peanuts for human consumption:

(1) With more than 1.00 percent kernels with mold present unless a sample of such peanuts, drawn by an inspector of the Federal or Federal-State Inspection Service, was analyzed chemically by laboratories approved by the Committee or by a U.S. Department of Agriculture laboratory (hereinafter referred to as “USDA laboratory”) and found to be wholesome relative to aflatoxin;

(2) with more than 2.00 percent peanuts with damaged kernels; 

(3) with more than 10.00 percent moisture; or

(4) with more than 0.50 percent foreign material. The lot size of such peanuts in bags or bulk shall not exceed 200,000 pounds.

(c) Sampling and testing shelled peanuts. (1) Prior to shipment, each handler shall cause appropriate samples of each lot of edible quality shelled peanuts to be drawn by an inspector of the Federal or Federal-State Inspection Service. The gross amount of peanuts drawn shall be large enough to provide for a grade analysis, for a grading check-sample, and for three 48-pound samples for aflatoxin assay. The three 48-pound samples shall be designated by the Federal or Federal-State Inspection Service as “Sample #1,” “Sample #2,” and “Sample #3” and each sample shall be placed in a suitable container and “positive lot identified” by means acceptable to the Inspection Service and the Committee. Sample #1 may be prepared for immediate testing or Sample #1, Sample #2, and Sample #3 may be returned to the handler for testing at a later date. However, before

shipment of the lot to the buyer (receiver), the handler shall cause Sample #1 to be ground by the Federal or Federal-State Inspection Service or a USDA or designated laboratory in a “subsampling mill” approved by the Committee. The resultant ground subsample from Sample #1 shall be of a size specified by the Committee and be designated as “Subsample 1-AB” and at the handler's or buyer’s option, a second subsample may also be extracted from Sample #1. It shall be designated as “Subsample 1-CD.” Subsample 1-CD may be sent as requested by the handler or buyer, for aflatoxin assay, to a laboratory listed on the most recent Committee list of approved laboratories that can provide analyses results on such samples in 36 hours. Subsample 1-AB shall be analyzed only in USDA or designated laboratories. Both Subsamples 1-AB and 1-CD shall be accompanied by a notice of sampling signed by the inspector containing, at least, identifying information as to the handler (shipper), the buyer (receiver), if known, and the positive lot identification of the shelled peanuts. A copy of such notice covering each lot shall be sent to the Committee office.

(2) The samples designated as Sample #2 and Sample #3 shall be held as aflatoxin check-samples by the Inspection Service or the handler and shall not be included in the shipment to the buyer until the analyses results from Sample #1 are known. Upon call from the USDA or designated laboratory or the Committee, the handler shall cause Sample #2 to be ground by the Inspection Service in a “subsampling mill.” The resultant ground subsample from Sample #2 shall be of the size specified by the Committee and it shall be designated as “Subsample 2-AB.” Upon call from the USDA or designated laboratory or the Committee, the handler shall cause Sample #3 to be ground by the Inspection Service in a “subsampling mill.” The resultant ground subsample from Sample #3 shall be of the size specified by the Committee and it shall be designated as “Subsample 3-AB.” Subsamples 2-AB and 3-AB shall be analyzed only in USDA or designated laboratories and each shall be accompanied by a notice of sampling. A copy of each such notice shall be sent to the Committee office and the cost of delivery of Subsamples 2-AB and 3-AB to the laboratory and the cost of assay on them shall be at the Committee’s expense.

(3) All costs involved in sampling and testing Subsample 1-CD shall be for the account of the buyer of the lot and at the buyer’s expense. However, if the handler elects to pay any portion of these cost the handler shall charge the buyer accordingly. Aflatoxin sampling and testing cost for the AB subsamples shall be included as a separate item in the handler’s invoice to the buyer at the rate of $0.0027 per pound or $0.27 per hundredweight of the peanuts covered by the invoice. When any of the samples or subsamples have been lost, misplaced, or spoiled and replacement samples are needed, the entire cost of drawing the replacement samples shall be for the account of the handler. The results of each assay shall be reported to the buyer listed on the notice of sampling and, if the handler desires, to the handler. If a buyer is not listed on the notice of sampling, the results of the assay shall be reported to the handler, who shall promptly cause notice to be given to the buyer of the contents thereof, and such handler shall not be required to furnish additional samples for assay.

(4) For the current crop year, “negative” aflatoxin content means 15 parts per billion (ppb) or less for peanuts which have been certified as meeting edible quality grade requirements as determined by the Committee’s sampling plan applicable to the respective grade categories.

(d) Identification. Each lot of shelled or cleaned inshell peanuts, in lot sizes not exceeding 200,000 pounds, shall be identified by positive lot identification procedures prior to being shipped or otherwise disposed of. For the purpose of this regulation, “positive lot identification” of a lot of shelled or inshell peanuts is a means of relating the inspection certificate to the lot which has been inspected so that there can be no doubt that the peanuts are the same ones described on the inspection certificate. The crop year that is shown on the positive lot identification tags, or
other means of positive lot identification shall accurately describe the crop year in which the peanuts in the lot were produced. Such procedure on bagged peanuts shall consist of attaching a lot numbered tag bearing the official stamp of the Federal or Federal-State Inspection Service to each filled bag in the lot. The tag shall be sewed (machine sewed if shelled peanuts) into the closure of the bag except that in plastic bags the tag shall be inserted prior to sealing so that the official stamp is visible. Any peanuts moved in bulk or bulk bins shall have their lot identity maintained by sealing the conveyance and if in other containers by other means acceptable to the Federal or Federal-State Inspection Service and to the Committee. All lots of shelled or cleaned inshell peanuts shall be handled, stored, and shipped under positive lot identification procedures, except those lots which have been reconstituted and/or commingled at the request of the receiver. All such reconstituted and/or commingled lots will no longer be considered positive lot identified and, therefore, no longer be eligible for indemnification or for appeal inspection. Handlers shall keep and maintain records of the quantities involved in each reconstituting and/or commingling procedure, whether in single or multiple lots, and such records shall be available to the Committee on request.

(e) Reinspection. Whenever the Committee has reason to believe that peanuts may have been damaged or deteriorated while in storage, the Committee may reject the then effective inspection certificate and may require the owner of the peanuts to have a reinspection to establish whether or not such peanuts may be disposed of for human consumption.

(f) Further modification of §998.32. (1) The provisions of §998.32(a) restricting the disposition of peanuts which fail to meet the requirements specified hereinafter in this section to the Commodity Credit Corporation or in such manner as may be prescribed by the Committee with the approval of the Secretary, is hereby modified to specify that only peanuts which have been certified as meeting the requirements specified in paragraphs (a) or (b) of this section, which have been sampled pursuant to paragraph (c) of this section, and which have been identified pursuant to paragraph (d) of this section are eligible for disposition to human consumption outlets.

(2) Lots of peanuts which have not been certified as meeting the requirements for disposition to human consumption outlets, may be disposed for non-human consumption uses which are not regulated or limited by the provisions specified hereinafter in this section. Provided, That each such lot is positive lot identified, using red tags, and certified as to aflatoxin content (actual numerical count). However, on the shipping papers covering the disposition of each such lot of inedible quality peanuts, the handler shall cause the following statement to be shown: “The peanuts covered by this bill of lading (or invoice, etc.) are not to be used for human consumption.”

(3) Except for inedible quality peanuts disposed of under the provisions of paragraph (f)(2) of this section and peanuts derived from the milling for seed of Segregation 2 and 3 farmers stock peanuts, peanuts which have not been certified as meeting the standards set forth in paragraphs (a) or (b) of this section shall be disposed of as prescribed hereinafter in this section.

(g) Sheller oil stock residuals— for crushing or export. Peanuts and portions of peanuts which are separated from edible quality peanuts by screening or sorting or other means during the milling process, may be segregated into categories or commingled as sheller oil stock residuals. Such sheller oil stock residuals shall be identified pursuant to paragraph (d) of this section, but using a red tag, and such peanuts may be disposed of domestically or to the export market in bulk or bags or other suitable containers. Disposition to crushing may be to handlers who are crushers or to domestic crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of this paragraph and all other applicable requirements of the Agreement. The movement of such peanuts shall be reported to the Committee by the shipping handler and the crusher, as requested by the Committee.
§ 998.200

(1) If the peanuts have not been tested and certified as to aflatoxin content, as prescribed in paragraph (c) of this section, the handler shall cause the following statement to be shown on the shipping papers: "The peanuts covered by this bill of lading (or invoice, etc.) are limited to crushing only and may contain aflatoxin."

(2) If the peanuts are certified as 301 ppb or more aflatoxin content, disposition shall be limited to crushing or export.

(b) Blanching and remilling peanuts failing quality requirements. (1) Handlers may blanch or cause to have blanched positive lot identified shelled peanuts, which originated from Segregation 1 peanuts, that fail to meet the requirements of paragraph (a) of this section. Lots of peanuts which are moved under these provisions must be accompanied by a valid grade inspection certificate and the title shall be retained by the handler until the peanuts are blanched and certified by an inspector of the Federal or Federal-State Inspection Service as meeting the requirements for disposal into human consumption outlets. To be eligible for disposal into human consumption outlets, such peanuts after blanching, must meet specifications as listed in paragraph (a) of this section and be accompanied by an aflatoxin certificate determined to be negative by the Committee. Lots of peanuts which have been certified as meeting fall through requirements as specified in paragraph (a) of this section, prior to blanching, shall be exempt from fall through requirements after blanching. The residual peanuts, excluding skins and hearts, resulting from blanching under these provisions, shall be placed in suitable containers acceptable to the Committee and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or, in the alternative, such residuals shall be positive lot identified by the Federal or Federal-State Inspection Service, and shall be disposed of, by the blancher, to handlers who are crushers, or to crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of paragraph (g) of this section and all other applicable requirements of the Agreement. Blanching under the provisions of this paragraph shall be performed only by those firms who agree to procedures acceptable to the Committee and who are approved by the Committee to do such blanching.

(2) Handlers may contract with Committee approved remillers for remilling shelled peanuts, which originated from Segregation 1 peanuts, that fail to meet the requirements for disposition to human consumption outlets here-tofore specified in paragraph (a) of this section: Provided, That such lots of peanuts contain not in excess of 10 percent fall through. Lots of peanuts moved under these provisions must be accompanied by a valid grade inspection certificate and must be positive lot identified and the title of such peanuts shall be retained by the handler until the peanuts have been remilled and certified by the Federal or Federal-State Inspection Service as meeting the requirements for disposition to human consumption outlets specified in paragraph (a) of this section, and be accompanied by an aflatoxin certificate determined to be negative by the Committee. Remilling under these provisions may include composite remilling of more than one such lot of peanuts owned by the same handler. However, such peanuts owned by one handler shall be held and remilled separate and apart from all other peanuts. The residual peanuts resulting from remilling under these provisions, shall be placed in suitable containers acceptable to the Committee and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or, in the alternative, such residuals shall be positive lot identified by the Federal or Federal-State Inspection Service, and shall be disposed of, by the remiller, to handlers who are crushers, or to crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of paragraph (g) of this section and all other applicable requirements of the Agreement. Remilling under the provisions of this paragraph shall be performed only by those firms who agree to procedures acceptable to the Committee and who are approved by the Committee to do such remilling.
(3) Handlers may contract with Committee approved blanchers for roasting positive lot identified shelled peanuts, which originated from Segregation 1 peanuts, that meet the grade requirements of paragraph (a) of this section but are positive as to aflatoxin. Lots of peanuts moved under these provisions must be accompanied by a valid grade inspection certificate and a valid aflatoxin certificate. To be eligible for disposal into human consumption outlets, such peanuts after roasting, shall have had the positive lot identity maintained and be accompanied by an aflatoxin certificate determined to be negative by the Committee. The residual peanuts, excluding skins and hearts, resulting from roasting under these provisions, shall be placed in suitable containers acceptable to the Committee and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or in the alternative, such residuals shall be positive lot identified by a Federal or Federal-State Inspection Service, and shall be disposed of, by the blancher, to handlers who are crushers, or to crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of paragraph (g) of this section and all other applicable requirements of the Agreement. Roasting under the provisions of this paragraph shall be performed only by blanchers who are approved by the Committee.

(i) Documentation of compliance. Each handler shall keep and maintain records of all receipts and acquisitions and all milling, remilling, blanching, use and disposition of peanuts which have not been certified as meeting the requirements for disposition to human consumption, pursuant to paragraph (a) or (b) of this section, as will document and substantiate compliance and performance under this agreement.

§ 998.300 Terms and conditions of indemnification for 1996 and subsequent crop peanuts.

(a) For the purpose of paying indemnities on a uniform basis pursuant to §998.36 of the peanut marketing agreement, each handler shall promptly notify or arrange for the buyer to notify the Manager, Peanut Administrative Committee, of any lot of cleaned inshell or shelled peanuts, milled into one of the categories listed in paragraph (a) of the Outgoing quality regulation (7 CFR 998.200) or paragraph (j) of this section, on which the buyer, including the user division of a handler, has withheld usage due to a finding as to aflatoxin content as shown by the results of further chemical assay, after shipment.

(b) To be eligible for indemnification, such a lot of peanuts shall have been inspected and certified as meeting the quality requirements for Indemnifiable Grades as specified in paragraph (a) of the Outgoing quality regulation (7 CFR 998.200), shall have met all other applicable regulations issued pursuant thereto, including the pretesting requirements in paragraphs (a) and (c) of the Outgoing quality regulation (7 CFR 998.200) and the lot identification shall have been maintained. If the Committee concludes, based on further assays, that the lot is so high in aflatoxin that it should be handled pursuant to this section, and such is incurred in by the Agricultural Marketing Service, the lot shall be accepted for indemnification.

(c) The indemnification payment shall be transportation expenses (excluding demurrage, loading and unloading charges, custom fees, border re-entry fees, etc.) from the handler’s plant or storage to the point within the Continental United States or Canada where the rejection occurred and from such point to a delivery point specified by the Committee if the lot is found by the Committee to be unwholesome as to aflatoxin after such lot had been certified negative as to aflatoxin prior to being shipped or otherwise disposed of for human consumption by the handler pursuant to requirements of the Outgoing quality regulation (7 CFR 998.200).

(d) Claims for indemnification may be filed by any handler sustaining a loss as a result of a buyer withholding from human consumption a portion or all of the product made from a lot of peanuts which has been determined to
§ 998.300

Eligible lots of cleaned inshell peanuts which are found, after shipment, to contain excessive aflatoxin may be rejected to the extent of the equivalent indemnification value applicable to the peanuts used in the product so withheld. On products manufactured from edible quality grades of peanuts, such claims may be filed with the Committee no later than November 1 of the second year following the year in which the peanuts were produced.

(e) Notice of claims for indemnification on peanuts of the current crop year shall be received by the Committee (by mail or legible facsimile) no later than the close of the business day on November 1, following the end of the crop year. For the purpose of this paragraph, “notice” shall be defined as the covering (executed and signed) Form PAC–5, accompanied by a copy of the applicable valid grade inspection certificate and the lab certificate showing the aflatoxin assay results which caused the request for rejection.

(f) Each handler shall include, directly or by reference, in the handler’s sales contract, the following provisions:

(1) Buyer shall give the Peanut Administrative Committee (Committee) office notice of any request made to the Federal or Federal-State Inspection Service for an “appeal” inspection for aflatoxin. Results of the “appeal” inspection will be reported by the Federal or Federal-State Inspection Service or other designated lab to Committee management. If the Committee management determines that the test results of the “appeal” sample show the lot to be high in aflatoxin, Committee management shall inform the buyer and handler of the results. In this case, the buyer may apply to reject the lot and return it to the handler by filing a rejection letter with Committee management. Upon a determination of the Committee, confirmed by the Agricultural Marketing Service, authorizing rejection, such peanuts, and title thereto, if passed to the buyer, shall be returned to the seller. Buyer must return the rejected lot to the seller within 45 days of the date on which Committee management informs buyer of the “appeal” sample test results, otherwise the buyer agrees that he/she forfeits the right to reject the lot and return it to the seller.

(2) Seller shall, prior to shipment of a lot of shelled peanuts covered by this sales contract, cause appropriate samples to be drawn by the Federal or Federal-State Inspection Service from such lot, shall cause the sample(s) to be sent to a USDA laboratory or if designated by the buyer, a laboratory listed on the most recent Committee list of approved laboratories to conduct such assay, for an aflatoxin assay and cause the laboratory, if other than the buyer’s to send one copy of the results of the assay to the buyer. A portion of the costs of aflatoxin sampling and testing, as provided in §998.200(c)(3), shall be for the account of the buyer and the buyer agrees to pay such costs.

(g) Any handler who fails to include such provisions in his/her sales contract shall be ineligible for indemnification payments with respect to any claim filed with the Committee on current crop year peanuts covered by the sales contract.

(h)(1) Any handler who fails to conform to the requirements of paragraph (g) of the Incoming quality regulation (7 CFR 998.100) shall be ineligible for any indemnification payments until such condition or conditions are corrected to the satisfaction of the Committee.

(2) Any handler who fails to comply with the requirements of paragraph (h)(1) or (h)(2) of the Outgoing quality regulation (7 CFR 998.200) shall be ineligible for any indemnification payments until such non-compliance is corrected to the satisfaction of the Committee.

(i) Any handler who fails to cause positive lot identification on any lot of peanuts to accurately reflect the crop year in which such peanuts were produced, pursuant to paragraph (d) of the Outgoing quality regulation (7 CFR 998.200), shall be ineligible for any indemnification payments until such non-compliance is corrected to the satisfaction of the Committee.

(j) Categories of cleaned inshell peanuts eligible for indemnification are as follows:

(1) Cleaned inshell peanuts

1Eligible lots of cleaned inshell peanuts which are found, after shipment, to contain excessive aflatoxin, may be rejected to the
Agricultural Marketing Service, USDA

(k) Compliance. (1) Well dried and clean;
(2) Free from foreign material, mold, rancidity, decay or insect injury; and
(3) Free from serious damage caused by serious shriveling, or other means.

TOLERANCES

In order to allow for variations incident to proper grading and handling the following tolerances, by weight, are permitted as specified:

(1) For Foreign Material: 0.02 of one percent, for foreign material.
(2) For Defects: Five percent for kernels or portions of kernels which are below the requirements of this grade, including not more than the following: Two percent for mold, rancidity, decay or insect injury: Provided, That not more than one percent shall be for mold, rancidity, or insect injury.

DEFINITIONS

(1) Well dried means that the kernels are firm and crisp, not containing more than 6 percent moisture.
(2) Clean means practically free from plainly visible adhering dirt or other foreign material.
(3) Foreign material means any substance other than the filbert kernels, or portions of kernels. (Loose skins, pellicles or corky tissue which have become separated from the kernels shall not be considered as foreign material, provided that this material does not exceed .02 of one percent by weight.)
(4) Serious damage means any specific defect described in this section, or any equally objectionable variation of any one of these defects, or any other defects, or any combination of defects, which seriously detracts from the appearance or the edible or marketing quality of the individual portion of the kernel or of the lot as a whole. (1) Dates which are donated to needy persons, prisoners or Native Americans on reservations; or
(2) Walnuts which are: green walnuts (so immature that they cannot be used for drying and sale as dried walnuts); walnuts used in non-competitive outlet s such as use by charitable institutions, relief agencies, governmental agencies for school lunch programs, and diversion to animal feed or oil manufacture shall obtain an “Importer’s Exempt Commodity Form” (FV-6) from the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, and shall show the completed “Importer’s Exempt Commodity Form” to the U.S. Customs Service Regional Director or District Director, as applicable, at the port at which the customs entry is filed. One copy shall be mailed to the Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, with a postmark not later than two days after the date of importation and a third copy shall accompany the lot to the exempt outlet specified on the form. Any lot offered for inspection and, all or a portion thereof, imported as exempt under this provision shall be reported on an “Importer’s Exempt Commodity Form” and such form, accompanied by a copy of the applicable inspection certificate, shall be mailed.

(ii) The term "fall through," as used in this section, shall mean sound split and broken kernels and whole kernels which pass through specified screens.

(2) **Cleaned-inshell peanuts.** Peanuts declared as cleaned-inshell peanuts may be presented for sampling and outgoing inspection at the port-of-entry. Alternatively, peanuts may be conditionally released as cleaned-inshell peanuts but shall not subsequently undergo any cleaning, sorting, sizing or drying process prior to presentation for outgoing inspection as cleaned-inshell peanuts. Cleaned-inshell peanuts intended for human consumption may not contain more than:

(i) 1.00 percent kernels with mold present, unless a sample of such peanuts is drawn by the inspection service and analyzed chemically by a USDA or PAC-approved laboratory and certified "negative" as to aflatoxin.

(ii) 2.00 percent peanuts with damaged kernels;

(iii) 10.00 percent moisture (carried to the hundredths place); and

(iv) 0.50 percent foreign material.
(d) Sampling and inspection. (1) All sampling and inspection, quality certification, chemical analysis, and Positive Lot Identification, required under this section, shall be done by the inspection service, a USDA laboratory, or a PAC-approved laboratory, as applicable, in accordance with the procedures specified in this section. The importer shall make arrangements with the inspection service for sampling, inspection, Positive Lot Identification and certification of all peanuts accumulated by the importer. The importer also shall make arrangements for the appropriate disposition of peanuts failing edible quality requirements of this section. All costs of sampling, inspection, certification, identification, and disposition incurred in meeting the requirements of this section shall be paid by the importer. Whenever peanuts are offered for inspection, the importer shall furnish any labor and pay any costs incurred in moving and opening containers as may be necessary for proper sampling and inspection.

(2) For farmers stock inspection, the importer shall cause the inspection service to perform an incoming inspection and to issue a CFSA–1007, “Inspection Certificate and Sales Memorandum,” form designating the lot as Segregation 1, 2, or 3 quality peanuts. For shelled and cleaned-inshell peanuts, the importer shall cause the inspection service to perform an outgoing inspection and issue an FV–184–9A, “Milled Peanut Inspection Certificate,” reporting quality and size of the shelled or cleaned inshell peanuts, whether the lot meets or fails to meet quality requirements for human consumption of this section, and that the lot originated in a country other than the United States. The importer shall provide to the Secretary copies of all CFSA–1007 and FV–184–9A forms applicable to each peanut lot conditionally released to the importer. Such reports shall be submitted as provided in paragraphs (f)(2) and (f)(3) of this section.

(3) Procedures for sampling and testing peanuts. Sampling and testing of peanuts for incoming and outgoing inspections of peanuts presented for consumption into the United States will be conducted as follows:

(i) Application for sampling. The importer shall request inspection and certification services from one of the following inspection service offices convenient to the location where the peanuts are presented for incoming and/or outgoing inspection. To avoid possible delays, the importer should make arrangements with the inspection service in advance of the inspection date. A copy of the Customs Service entry document specific to the peanuts to be inspected shall be presented to the inspection official at the time of sampling the lot.

§999.600

Positive Lot Identification (PLI)

(a) Positive Lot Identified by the inspection service or under the guidance of the inspection service shall be designated as “Sample 1IMP,” “Sample 2IMP,” and “Sample 3IMP.” Such positive lot identification methods may be dictated by the size and containerization of the lot, by warehouse storage or space requirements, or, by necessary further movement of the lot prior to receipt of certification. All lots forwarded to a reconditioning facility must be accompanied by valid PLI certification. Failing lots that are reconditioned shall be positive lot identified by sewing tags on bags or affixing a seal and taping bulk bin containers after such reconditioning or by other means acceptable to the inspection service that clearly identifies the peanuts in the lot, is securely affixed to the lot, and prevents peanuts from being removed or added to the lot.

(ii) Sampling. Sampling of bulk farmer stock lots shall be performed at a facility that utilizes a pneumatic sampler or approved automatic sampling device. The maximum lot size of farmer stock peanuts shall be one conveyance, or two or more conveyances not exceeding a combined weight of 50,000 pounds (22,680 kilograms). Shelled peanut lots and cleaned-in-shell lots, in bulk or bags, shall not exceed 200,000 pounds. For farmer stock, shelled and cleaned-in-shell lots not completely accessible for sampling, the applicant shall be required to have lots made accessible for sampling pursuant to inspection service requirements. The importer shall cause appropriate samples of each lot of edible quality shelled peanuts to be drawn by the inspection service. The amount of such peanuts drawn shall be large enough to provide for a grade and size analysis, for a grading check-sample, and for three 48-pound samples for aflatoxin assay. Because there is no acceptable method of drawing official samples from bulk conveyances of shelled peanuts, the importer shall arrange to have bulk conveyances of shelled peanuts sampled during the unloading process. A bulk lot sampled in this manner must be Positive Lot Identified by the inspection service and held in a sealed bin until the associated inspection and aflatoxin test results have been reported.

(4) Positive Lot Identification (PLI) shall be applied to all shelled and cleaned-in-shell peanut lots during or immediately after first inspection by the inspection service or under the guidance of the inspection service. Positive Lot Identification of a lot may be accomplished by: Wrapping PLI tape around bags or boxes on pallets; shrink wrapping pallets or multiple bags and applying a PLI sticker; stenciling and numbering of individual bags or boxes; affixing PLI seals on shipping container doors; or by other methods acceptable to the inspection service that clearly identifies the lot, is securely affixed to the lot, and prevents peanuts from being removed or added to the lot.
§ 999.600  7 CFR Ch. IX (1–1–02 Edition)

be analyzed only in a USDA or PAC-approved laboratory. The methods prescribed by the Instruction Manual for Aflatoxin Testing, SD Instruction-1, August 1994, shall be used to assay the aflatoxin level. The cost of testing and notification of Subsamples 1–ABIMP and 1–CDIMP shall be borne by the importer.

(iii) The samples designated as Sample 2IMP and Sample 3IMP shall be held as aflatoxin check-samples by the inspection service or the importer until the analyses results from Sample 1IMP are known. Upon call from the USDA or PAC-approved laboratory, the importer shall cause Sample 2IMP to be ground by the inspection service in a subsampling mill. The resultant ground subsample from Sample 2IMP shall be designated as “Subsample 2–ABIMP.” Upon further call from the laboratory, the importer shall cause Sample 3IMP to be ground by the inspection service in a subsampling mill. The resultant ground subsample shall be designated as “Subsample 3–ABIMP.” The importer shall cause Subsamples 2–ABIMP and 3–ABIMP to be sent to and analyzed only in a USDA or PAC-approved laboratory. Each subsample shall be accompanied by a Milled Peanut Inspection Certificate or a Notice of Sampling. All costs involved in the sampling, shipment and assay analysis of subsamples required by this section shall be borne by the importer.

(iv)(A) To arrange for chemical analysis, importers shall contact one of the following USDA or PAC-approved laboratories:

(v) Reporting aflatoxin assays. A separate aflatoxin assay certificate, Form CSSD–3 “Certificate of Analysis for Official Samples” or equivalent PAC-approved laboratory form, shall be issued by the laboratory performing the analysis for each lot. The assay certificate shall identify the importer, the volume of the peanut lot assayed, date of the
Agricultural Marketing Service, USDA

§ 999.600

assay, and numerical test result of the assay. The importer shall file, or cause to be filed, with the Secretary, all USDA Form CSSD-3, or equivalent chemical assay forms issued on failing peanuts. The importer shall cause the results of all chemical assays issued by PAC-approved laboratories to be filed with the Secretary. The results of the assay shall be reported as follows.

(A) For the current peanut quota year, “negative” aflatoxin content means 15 parts per billion (ppb) or less aflatoxin content for peanuts which have been certified as meeting edible quality grade requirements. Such lots shall be certified as “Meets U.S. import requirements for edible peanuts under § 999.600 with regard to aflatoxin.”

(B) Lots containing more than 15 ppb aflatoxin content shall be certified as “Fails to meet U.S. import requirements for edible peanuts under Section § 999.600 with regard to aflatoxin.” The certificate of any non-edible peanut lot also shall specify the aflatoxin count in ppb.

(6) Appeal inspection. In the event an importer questions the results of a quality and size inspection, an appeal inspection may be requested by the importer and performed by the inspection service. A second sample will be drawn from each container and shall be double the size of the original sample. The results of the appeal sample shall be final and the fee for sampling, grading and aflatoxin analysis shall be charged to the importer. Lots that show evidence of PLI violation or tampering, as determined by the inspection service, are not eligible for appeal inspection.

(e) Disposition of peanuts failing edible quality requirements. Peanuts shelled, sized, and sorted in another country prior to arrival in the U.S. and shelled peanuts which originated from imported Segregation 1 peanuts that fail minimum grade requirements specified in the table in paragraph (c)(1)(i) of this section (excessive damage, minor defects, moisture, or foreign material) or are positive to aflatoxin may be reconditioned by remilling and/or blanching. Peanuts that fail minimum grade requirements because of excessive “fall through” may be blanched. After such reconditioning, peanuts meeting the minimum grade requirements in the table, including minimum “fall through” requirements, and which are negative to aflatoxin (15 ppb or less), may be disposed for edible use. Residual peanuts resulting from milling or reconditioning of such lots shall be disposed of as prescribed as follows:

(1) Failing peanut lots may be disposed for non-human consumption uses (such as livestock feed, wild animal feed, rodent bait, seed, etc.) which are not otherwise regulated by this section; Provided, That each such lot is Positive Lot Identified and certified as to aflatoxin content (actual numerical count). On the shipping papers covering the disposition of each such lot, the importer shall cause the following statement to be shown: “The peanuts covered by this bill of lading (or invoice) are not to be used for human consumption.”

(2) Peanuts, and portions of peanuts which are separated from edible quality peanuts by screening or sorting or other means during the milling process (“sheller oilstock residuals”), may be sent to non-edible peanut markets pursuant to paragraph (e)(1) of this section, crushed or exported. Such peanuts may be commingled with other milled residuals. Such peanuts shall be positive lot identified, red tagged in bulk or bags or other suitable containers.

(i) If such peanuts have not been certified as to aflatoxin content, as prescribed in paragraph (d) of this section, disposition is limited to crushing and the importer shall cause the following statement to be shown on the shipping papers: “The peanuts covered by this bill of lading (or invoice, etc.) are limited to crushing only and may contain aflatoxin.”

(ii) If the peanuts are certified as 301 ppb or more aflatoxin content, disposition shall be limited to crushing or export.

(3) Shelled peanuts which originated from Segregation 1 peanuts that fail minimum grade requirements specified in the table in paragraph (c)(1)(i) of this section, peanuts derived from the milling for seed of Segregation 2 and 3 farmers stock peanuts, and peanuts which are positive to aflatoxin, may be remilled or blanched. Residuals of remilled and/or blanched peanuts which
§ 999.600  
continue to fail minimum grade requirements in the table shall be disposed pursuant to paragraphs (e)(1) or (2) of this section.

(4) Shelled peanuts that are certified as meeting minimum grade requirements specified in the table in paragraph (c)(3)(i) of this section and which are positive to aflatoxin may be roasted during blanching. After roasting, such peanuts certified as meeting aflatoxin requirements (15 ppb or less), and which are positive lot identified, may be disposed to human consumption outlets without further grade analysis. The residual peanuts, excluding skins and hearts, resulting from roasting process, shall be red tagged and disposed of to non-edible outlets pursuant to paragraphs (e)(1) or (2) of this section.

(5) All certifications, lot identifications, and movement to non-edible dispositions, sufficient to account for all peanuts in each consumption entry, shall be reported to the Secretary by the importer pursuant to paragraphs (f)(2) and (f)(3) of this section.

(f) Safeguard procedures.  

(1) Prior to, or upon, arrival of a foreign-produced peanut lot at a port-of-entry, the importer, or customs broker acting on behalf of the importer, shall mail or send by facsimile transmission (fax) a copy of the Customs Service entry documentation for the peanut lot or lots to the inspection service office that will perform sampling of the peanut shipment. More than one lot may be entered on one entry document. The documentation shall include: The Customs Service entry number; the container number(s) or other identification of the lot(s); the volume of peanuts in each lot being entered; the inland shipment destination where the lot will be in storage or made available for inspection; and a contact name or telephone number at that destination. The inspection office shall sign, stamp, and return the entry document to the importer. The importer shall cause a copy of the relevant entry documentation to accompany each peanut lot and be presented to the inspection service at the time of sampling.

(2) The importer shall file, of cause to have filed, with the Secretary, copies of failing grade and aflatoxin certificates and non-edible disposition documents which identify the importer and the disposition outlet for failing quality peanuts. Such reports shall be sufficient to account for all peanuts failing quality requirements of this section: Provided, That: importers shall cause all certificates of peanuts meeting aflatoxin requirements issued by PAC-approved laboratories to be filed with the Secretary. Proof of non-edible disposition may include bills-of-lading, transfer certificates, and other documentation showing shipment from the importer, blancher, remiller, warehouse, or other entity, to crushing, feed or seed use, burying, or other non-edible disposition. Such documentation must include the weight of peanuts being disposed and the name and telephone number of the disposing entity. Proof of re-export must include U.S. Customs Service documentation showing exportation from the United States. These documents must be sent to the Marketing Order Administration Branch, Attn: Report of Imported Peanuts. Facsimile transmissions and overnight mail may be used to ensure timely receipt of inspection certificates and other documentation. Fax reports should be sent to (202) 395-6623. Overnight and express mail deliveries should be addressed to USDA, AMS, FV, Marketing Order Administration Branch, 1400 Independence Avenue, SW, Room: 2255–S, Washington, DC, 20250, Attn: Report of Imported Peanuts. Regular mail should be sent to FV, AMS, USDA, PO Box 96456, Room 2255–S, Washington, DC 20090–6456, Attn: Report of Imported Peanuts.

(3) All peanuts imported into the United States subject to this part shall be conditionally released by the U.S. Customs Service for a period of 180 days following the date of Customs Service release, for the purpose of determining whether such peanuts meet the quality requirements for human consumption or non-edible disposition and reporting such certification or non-edible disposition to the Secretary.

(4) If the Secretary finds during, or upon termination, of the conditional release period that a lot of peanuts is
not entitled to admission into the commerce of the United States, the Secretary shall request the Customs Service, within 30 days after close of the conditional release period, to demand return of said lot of peanuts to Customs Service custody. Failure to comply with a redelivery demand within 30 days of the date of the redelivery demand, may result in the assessment against the importer of record and surety, jointly and severally of liquidated damages equal to the value of the peanuts involved. Failure to fully comply with quality and handling requirements or failure to notify the Secretary of disposition of all foreign-produced peanuts, as required under this section, may result in a compliance investigation by the Secretary. Falsification of reports submitted to the Secretary is a violation of Federal law punishable by fine or imprisonment, or both.

(5) An extension of the 180-day conditional release period may be granted by the Secretary upon request of the importer. Extension shall not exceed an additional 60 calendar days. Requests for extension shall be specific to each peanut lot and shall include the lot’s Customs Service entry number, the positive lot identification, weight or volume, and current storage location. Requests for extension of the conditional release period shall be made in writing pursuant to paragraph (f)(2) of this section.

(6) Peanuts for which an import application is filed with the Customs Service but which are subsequently exported without sampling or inspection by the inspection service, need not be reported to the Secretary.

(g) Reinspection. Whenever the Secretary has reason to believe that peanuts may have been damaged or deteriorated while in storage, the Secretary may reject the then effective inspection and aflatoxin certificates and require the importer to have the peanuts reinspected to establish whether or not such peanuts may be disposed of for human consumption.

(8) Early arrival and storage. Peanut lots sampled and inspected upon arrival in the United States, but placed in storage for more than one month prior to beginning of the quota year for which the peanuts will be entered, must be reported to AMS at the time of inspection. The importer shall file copies of the Customs Service documentation showing the volume of peanuts placed in storage and the storage location, including any identifying number of the storage warehouse. Such peanuts should be stored in clean, dry warehouses and under cold storage conditions consistent with industry standards. Pursuant to paragraph (f)(7) of this section, the Secretary may require reinspection of the lot at the time the lot is declared for entry with the Customs Service.

(g) Additional requirements. (1) Nothing contained in this section shall preclude any importer from milling or reconditioning, prior to importation, any shipment of peanuts for the purpose of making such peanuts eligible for importation into the United States. However, all peanuts intended for human consumption use must be certified as meeting the quality requirements specified in paragraph (c) of this section, prior to such disposition.

(2) Conditionally released peanut lots of like quality and belonging to the same importer may be commingled. Defects in an inspected lot may not be blended out by commingling with other lots of higher quality. Commingled also must be consistent with applicable Customs Service regulations. Commingled lots must be reported and disposed of pursuant to paragraphs (f)(2) and (f)(3) of this section.

(3) Inspection by the Federal or Federal-State Inspection Service shall be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (7 CFR part 51). The importer shall make each conditionally released lot available and accessible for inspection as provided in this section. Because inspectors may not be stationed in the immediate vicinity of some ports-of-entry, importers must make arrangements for sampling, inspection, and certification through one of the offices and laboratories listed in paragraphs (d)(3) and (d)(5) of this section, respectively.

(4) Imported peanut lots sampled and inspected at the port-of-entry, or at other locations, shall meet the quality standards prescribed by Federal law unless otherwise specified by the regulations of the Secretary.

797
§ 999.600

requirements of this section in effect on the date of inspection.

(5) A foreign-produced peanut lot entered for consumption or for warehouse may be transferred or sold to another person: *Provided*, That the original importer shall be the importer of record unless the new owner applies for bond and files Customs Service documents pursuant to 19 CFR 141.20 and 141.113: *Provided further*, That such peanuts must be certified and reported to the Secretary pursuant to paragraphs (f)(2) and (f)(3) of this section.

(6) Payment of the cost of transportation, sampling, inspection, certification, chemical analysis, and Positive Lot Identification, as well as remilling and blanching, and further inspection of remilled and blanched lots, and disposition of failing peanuts, shall be the responsibility of the importer. Whenever an applicant presents peanuts for inspection, the applicant shall furnish any labor and pay any costs incurred in moving, opening containers for sampling, and the shipment of samples as may be necessary for proper sampling and inspection. The inspection service shall bill the applicant for fees covering quality inspections and other certifications as may be necessary to certify edible quality or non-edible disposition. USDA and PAC-approved laboratories shall bill the applicant separately for aflatoxin assay fees. The importer also shall pay Customs Service costs as required by that agency.

(7) Each person subject to this section shall maintain true and complete records of activities and transactions specified in this section. Such records and documentation accumulated during entry shall be retained for not less than two years after the calendar year of acquisition, except that Customs Service documents shall be retained as required by that agency. The Secretary, through duly authorized representatives, shall have access to any such person’s premises during regular business hours and shall be permitted, at any such time, to inspect such records and any peanuts held by such person.

(8) The provisions of this section do not supersede any restrictions or prohibitions on peanuts under the Federal Plant Quarantine Act of 1912, the Federal Food, Drug and Cosmetic Act, any other applicable laws, or regulations of other Federal agencies, including import regulations and procedures of the Customs Service.
