

Federal Highway Administration, DOT**§ 710.503****Subpart E—Property Acquisition Alternatives****§ 710.501 Early acquisition.**

(a) *Real property acquisition.* The State may initiate acquisition of real property at any time it has the legal authority to do so based on program or project considerations. The State may undertake early acquisition for corridor preservation, access management, or other purposes.

(b) *Eligible costs.* Acquisition costs incurred by a State agency prior to executing a project agreement with the FHWA are not eligible for Federal-aid reimbursement. However, such costs may become eligible for use as a credit towards the State's share of a Federal-aid project if the following conditions are met:

(1) The property was lawfully obtained by the State;

(2) The property was not land described in 23 U.S.C. 138;

(3) The property was acquired in accordance with the provisions of 49 CFR part 24;

(4) The State complied with the requirements of title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-2000d-4);

(5) The State determined and the FHWA concurs that the action taken did not influence the environmental assessment for the project, including:

(i) The decision on need to construct the project;

(ii) The consideration of alternatives; and

(iii) The selection of the design or location; and

(6) The property will be incorporated into a Federal-aid project.

(7) The original project agreement covering the project was executed on or after June 9, 1998.

(c) *Reimbursement.* In addition to meeting all provisions in paragraph (b) of this section, the FHWA approval for reimbursement for early acquisition costs, including costs associated with displacement of owners or tenants, requires the STD to demonstrate that:

(1) Prior to acquisition, the STD made the certifications and determinations required by 23 U.S.C. 108(c)(2)(C) and (D); and

(2) The STD obtained concurrence from the Environmental Protection Agency in the findings made under paragraph (b)(5) of this section regarding the NEPA process.

§ 710.503 Protective buying and hardship acquisition.

(a) *General conditions.* Prior to the STD obtaining final environmental approval, the STD may request FHWA agreement to provide reimbursement for advance acquisition of a particular parcel or a limited number of parcels, to prevent imminent development and increased costs on the preferred location (Protective Buying), or to alleviate hardship to a property owner or owners on the preferred location (Hardship Acquisition), provided the following conditions are met:

(1) The project is included in the currently approved STIP;

(2) The STD has complied with applicable public involvement requirements in 23 CFR parts 450 and 771;

(3) A determination has been completed for any property subject to the provisions of 23 U.S.C. 138; and

(4) Procedures of the Advisory Council on Historic Preservation are completed for properties subject to 16 U.S.C. 470(f) (historic properties).

(b) *Protective buying.* The STD must clearly demonstrate that development of the property is imminent and such development would limit future transportation choices. A significant increase in cost may be considered as an element justifying a protective purchase.

(c) *Hardship acquisitions.* The STD must accept and concur in a request for a hardship acquisition based on a property owner's written submission that:

(1) Supports the hardship acquisition by providing justification, on the basis of health, safety or financial reasons, that remaining in the property poses an undue hardship compared to others; and

(2) Documents an inability to sell the property because of the impending project, at fair market value, within a time period that is typical for properties not impacted by the impending project.

(d) *Environmental decisions.* Acquisition of property under this section

§ 710.505

23 CFR Ch. I (4-1-04 Edition)

shall not influence the environmental assessment of a project, including the decision relative to the need to construct the project or the selection of a specific location.

§ 710.505 Real property donations.

(a) *Donations of property being acquired.* A non-governmental owner whose real property is required for a Federal-aid project may donate the property to the STD. Prior to accepting the property, the owner must be informed by the agency of his/her right to receive just compensation for the property. The owner shall also be informed of his/her right to an appraisal of the property by a qualified appraiser, unless the STD determines that an appraisal is unnecessary because the valuation problem is uncomplicated and the fair market value is estimated at no more than \$2500, or the State appraisal waiver limit approved by the FHWA, whichever is greater. All donations of property received prior to the approval of the NEPA document must meet environmental requirements as specified in 23 U.S.C. 323(d).

(b) *Credit for donations.* Donations of real property may be credited to the State's matching share of the project. Credit to the State's matching share for donated property shall be based on fair market value established on the earlier of the following: either the date on which the donation becomes effective, or the date on which equitable title to the property vests in the State. The fair market value shall not include increases or decreases in value caused by the project. Donations may be made at anytime during the development of a project. The STD shall develop sufficient documentation to indicate compliance with paragraph (a) of this section and to support the amount of credit applied. The total credit cannot exceed the State's pro-rata share under the project agreement to which it is applied.

(c) *Donations and conveyances in exchange for construction features or services.* A property owner may donate property in exchange for construction features or services. The value of the donation is limited to the fair market value of property donated less the cost of the construction features or serv-

ices. If the value of the donated property exceeds the cost of the construction features or services, the difference may be eligible for a credit to the State's share of project costs.

§ 710.507 State and local contributions.

(a) *General.* Real property owned by State and local governments incorporated within a federally funded project can be used as a credit toward the State matching share of total project cost. A credit cannot exceed the State's matching share required by the project agreement.

(b) *Effective date.* Credits can be applied to projects where the initial project agreement is executed after June 9, 1998.

(c) *Exemptions.* Credits are not available for lands acquired with any form of Federal financial assistance, or for lands already incorporated and used for transportation purposes.

(d) *State contributions.* Real property acquired with State funds and required for federally-assisted projects may support a credit toward the non-Federal share of project costs. The STD must prepare documentation supporting all credits including:

(1) A certification that the acquisition satisfied the conditions in 23 CFR 710.501(b); and

(2) Justification of the value of credit applied. Acquisition costs incurred by the State to acquire title can be used as justification for the value of the real property.

(e) *Credit for local government contributions.* A contribution by a unit of local government of real property which is offered for credit, in connection with a project eligible for assistance under this title, shall be credited against the State share of the project at fair market value of the real property. Property may also be presented for project use with the understanding that no credit for its use is sought. The STD shall assure that the acquisition satisfied the conditions in 23 CFR 710.501(b), and that documentation justifies the amount of the credit.

Federal Highway Administration, DOT**§ 710.511****§ 710.509 Functional replacement of real property in public ownership.**

(a) *General.* When publicly owned real property, including land and/or facilities, is to be acquired for a Federal-aid highway project, in lieu of paying the fair market value for the real property, the State may provide compensation by functionally replacing the publicly owned real property with another facility which will provide equivalent utility.

(b) *Federal participation.* Federal-aid funds may participate in functional replacement costs only if:

(1) Functional replacement is permitted under State law and the STD elects to provide it.

(2) The property in question is in public ownership and use.

(3) The replacement facility will be in public ownership and will continue the public use function of the acquired facility.

(4) The State has informed the agency owning the property of its right to an estimate of just compensation based on an appraisal of fair market value and of the option to choose either just compensation or functional replacement.

(5) The FHWA concurs in the STD determination that functional replacement is in the public interest.

(6) The real property is not owned by a utility or railroad.

(c) *Federal land transfers.* Use of this section for functional replacement of real property in Federal ownership shall be in accordance with Federal land transfer provisions in subpart F of this part.

(d) *Limits upon participation.* Federal-aid participation in the costs of functional replacement are limited to costs which are actually incurred in the replacement of the acquired land and/or facility and are:

(1) Costs for facilities which do not represent increases in capacity or betterments, except for those necessary to replace utilities, to meet legal, regulatory, or similar requirements, or to meet reasonable prevailing standards; and

(2) Costs for land to provide a site for the replacement facility.

(e) *Procedures.* When a State determines that payments providing for

functional replacement of public facilities are allowable under State law, the State will incorporate within the State's ROW operating manual full procedures covering review and oversight that will be applied to such cases.

§ 710.511 Transportation enhancements.

(a) *General.* Section 133(b) (8) of title 23 of the United States Code authorizes the expenditure of surface transportation funds for transportation enhancement activities (TEA). Transportation enhancement activities which involve the acquisition, management, and disposition of real property, and the relocation of families, individuals, and businesses, are governed by the general requirements of the Federal-aid program found in titles 23 and 49 of the Code of Federal Regulations (CFR), except as specified in paragraph (b)(3) of this section.

(b) *Requirements.* (1) Displacements for TEA are subject to the Uniform Act.

(2) Acquisitions for TEA are subject to the Uniform Act except as provided in paragraphs (b)(3), (b)(4), and (b)(5) of this section.

(3) Entities acquiring real property for TEA who lack the power of eminent domain may comply with the Uniform Act by meeting the limited requirements under 49 CFR 24.101(a)(2).

(4) The requirements of the Uniform Act do not apply when real property acquired for a TEA was purchased from a third party by a qualified conservation organization, and—

(i) The conservation organization is not acting on behalf of the agency receiving TEA or other Federal-aid funds, and

(ii) There was no Federal approval of property acquisition prior to the involvement of the conservation organization. [“Federal approval of property acquisition” means the date of the approval of the environmental document or project authorization/agreement, whichever is earlier. “Involvement of the conservation organization” means the date the organization makes a legally binding offer to acquire a real property interest, including an option to purchase, in the property.]

§ 710.513

(5) When a qualified conservation organization acquires real property for a project receiving Federal-aid highway funds on behalf of an agency with eminent domain authority, the requirements of the Uniform Act apply as if the agency had acquired the property itself.

(6) When, subsequent to Federal approval of property acquisition, a qualified conservation organization acquires real property for a project receiving Federal-aid highway funds, and there will be no use or recourse to the power of eminent domain, the limited requirements of 49 CFR 24.101(a)(2) apply.

(c) *Property management.* Real property acquired with TEA funds shall be managed in accordance with the property management requirements provided in subpart D of this part. Any use of the property for purposes other than that for which the TEA funds were provided must be consistent with the continuation of the original use. When the original use of the real property is converted by sale or lease to another use inconsistent with the original use, the STD shall assure that the fair market value or rent is charged and the proceeds reapplied to projects eligible under title 23 of the United States Code.

§ 710.513 Environmental mitigation.

(a) The acquisition and maintenance of land for wetlands mitigation, wetlands banking, natural habitat, or other appropriate environmental mitigation is an eligible cost under the Federal-aid program. FHWA participation in wetland mitigation sites and other mitigation banks is governed by 23 CFR part 777.

(b) Environmental acquisitions or displacements by both public agencies and private parties are covered by the Uniform Act when they are the result of a program or project undertaken by a Federal agency or one that receives Federal financial assistance. This includes real property acquired for a wetland bank, or other environmentally related purpose, if it is to be used to mitigate impacts created by a Federal-aid highway project.

23 CFR Ch. I (4-1-04 Edition)

Subpart F—Federal Assistance Programs

§ 710.601 Federal land transfer.

(a) The provisions of this subpart apply to any project undertaken with funds for the National Highway System. When the FHWA determines that a strong Federal transportation interest exists, these provisions may also be applied to highway projects that are eligible for Federal-aid under Chapters 1 and 2 of title 23, of the United States Code, and to highway-related transfers that are requested by a State in conjunction with a military base closure under the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510, 104 Stat. 1808, as amended).

(b) Sections 107(d) and 317 of title 23, of the United States Code provide for the transfer of lands or interests in lands owned by the United States to an STD or its nominee for highway purposes.

(c) The STD may file an application with the FHWA, or can make application directly to the land-owning agency if the land-owning agency has its own authority for granting interests in land.

(d) Applications under this section shall include the following information:

(1) The purpose for which the lands are to be used;

(2) The estate or interest in the land required for the project;

(3) The Federal-aid project number or other appropriate references;

(4) The name of the Federal agency exercising jurisdiction over the land and identity of the installation or activity in possession of the land;

(5) A map showing the survey of the lands to be acquired;

(6) A legal description of the lands desired; and

(7) A statement of compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4332, *et seq.*) and any other applicable Federal environmental laws, including the National Historic Preservation Act (16 U.S.C. 470(f)), and 23 U.S.C. 138.

(e) If the FHWA concurs in the need for the transfer, the land-owning agency will be notified and a right-of-entry requested. The land-owning agency
