

Pt. 925

48 CFR Ch. 9 (10-1-04 Edition)

952.223-72 shall be included in the contract or subcontract.

(d) In facilities not meeting the requirements of either 923.7002(b) or 923.7002(c) of this section and where there is a machine capable of producing ionizing radiation, it is DOE policy not to regulate such activity where it is adequately regulated by a state or other Federal agency. In such cases, neither clause 952.223-71 nor 952.223-72 shall be incorporated in the contract. Where the contracting officer, with appropriate environmental, safety and health advice determines that no state or other Federal agency exists to adequately regulate the operation and/or use of such machines, the clause found at 952.223-72 shall be included in the contract. The Assistant Secretary for Environment, Safety and Health (or designee) shall be consulted to determine if a non-agreement (NRC) state or a facility located in a non-agreement state has been reviewed by any other DOE office to establish that the state agency has the essential authority and resources for enforcing the radiation protection standards. This is to assure reasonable consistency in the assessment of radiation protection in non-agreement states and subsequent use of 952.223-72.

(e) In a situation where the contractor or subcontractor is performing DOE work at more than one location, inclusion of either, or both, 952.223-71 and 952.223-72 may be appropriate. In such cases, the contract or subcontract must include language to specify the extent of applicability of each clause used. For example, with a parenthetical: (Applicable only to work performed at a contractor site which has 952.223-71 or 952.223-72 clause in its contract or subcontract).

(f) Except as prescribed in 48 CFR 970.1504-5(c), the contracting officer shall insert the clause at 48 CFR 952.223-76, Conditional Payment of Fee or Profit—Safeguarding Restricted Data and Other Classified Information and Protection of Worker Safety and Health, in all contracts that contain both the clause at 48 CFR 952.204-2, Security, and the clause at 48 CFR 952.250-70, Nuclear hazards indemnity agreement.

(g) Except as prescribed in 48 CFR 970.1504-5(c), the contracting officer shall insert the clause at 48 CFR 952.223-77, Conditional Payment of Fee or Profit—Protection of Worker Safety and Health, in all contracts that do not contain the clause at 48 CFR 952.204-2, Security, but that do contain the clause at 48 CFR 952.250-70, Nuclear hazards indemnity agreement.

Subpart 925.70—Acquisition of Nuclear Hot Cell Services

SOURCE: 58 FR 8910, Feb. 18, 1993, unless otherwise noted.

925.7000 Scope of subpart.

This subpart prescribes policies for selection for contract award of nuclear hot cell services when one of the competitors is a foreign company. This subpart does not apply to the acquisition and use of nuclear hot cell facilities on-site at a DOE-owned or -leased facility.

925.7001 Definitions.

Costs related to the decommissioning of nuclear facilities, as used in this subpart, means any cost associated with the compliance with regulatory requirements governing the decommissioning of nuclear facilities licensed by the Nuclear Regulatory Commission. Such costs for foreign facilities and for Department of Energy facilities are costs of decommissioning associated with the compliance with foreign regulatory requirements or the Department's own requirements.

Costs related to the storage and disposal of nuclear waste, as used in this subpart, means any costs, whether required by regulation or incurred as a matter of prudent business practice, associated with the storage or disposal of nuclear waste.

Foreign company, as used in this subpart, means a company which offers to perform nuclear hot cell services at a facility which is not subject to the laws and regulations of the United

States, its agencies, and its political subdivisions.

Nuclear hot cell services, as used in this subpart, means services related to the examination of, or performance of various operations on, nuclear fuel rods, control assemblies, or other components that are emitting large quantities of ionizing radiation, after discharge from nuclear reactors, which are performed in specialized facilities located away from commercial nuclear power plants, generally referred to in the industry as "hot cells."

Nuclear waste, as used in this subpart, means any radioactive waste material subject to regulation by the Nuclear Regulatory Commission or the Department of Energy, or in the case of foreign offers, by comparable foreign organizations.

United States company, as used in this subpart, means a company which offers to perform nuclear hot cell services at a facility subject to the laws and regulations of the United States, its agencies, and its political subdivisions.

925.7002 Policy.

In selecting offer(s) for award of contracts for nuclear hot cell services, costs related to the decommissioning of nuclear facilities and storage and disposal of nuclear waste are to be considered in a way which affords United States and foreign companies an equal competition in accordance with 925.7003. Upon determining that no offer from a foreign firm has a reasonable chance of being selected for award, the requirements of this subpart will not apply.

925.7003 Requirements.

(a) For the acquisition of nuclear hot cell services under the conditions in paragraph (b) of this section, the selection official in evaluating competitive offers for selection purposes only shall:

(1) Consider neither costs related to the decommissioning of nuclear waste facilities nor costs related to the storage and disposal of nuclear waste, or

(2) Add these costs to offers of foreign companies.

(b) The requirements of this section apply under the following circumstances:

(1) One or more of the offers is submitted by a United States company and includes costs related to the decommissioning of nuclear facilities and costs related to the storage and disposal of nuclear waste because it is subject to such costs; and

(2) One or more of the offers is submitted by a foreign company and does not include these types of costs. (A foreign company might not be subject to such costs or might not have to include these types of costs in its offer if the firm is subsidized in decommissioning activity or storage and disposal of nuclear waste, or a foreign government is performing the activities below the actual cost of the activity.)

925.7004 Contract clause.

The contracting officer shall insert the clause at 952.225-70, Subcontracting for Nuclear Hot Cell Services, in solicitations and contracts involving nuclear hot cell services. This clause does not flow down to second-tier subcontracts.
