

each sample or lot of cottonseed in the order of its receipt.

(b) Each such sample which is in proper condition for analysis under these regulations and which is accompanied by the certificate of a licensed cottonseed sampler certifying it to be an official sample that represents an identified lot of cottonseed shall be considered an official sample. In any case where the original sample is lost or destroyed before analysis, the duplicate thereof, retained by the licensed cottonseed sampler, as provided in §61.34 of this subchapter, shall become the official sample. Each licensed chemist shall retain for at least 2 weeks a portion of each official sample first analyzed; and in any case where a review is requested under §61.8 of this subchapter, such retained portion shall be considered an official sample for purposes of review analysis.

(c) Each such sample which is: (1) Not sufficient for proper analysis as an official sample under these regulations, or

(2) Not accompanied by a certificate of a licensed cottonseed sampler, or

(3) Not believed to be samples of the same seed represented by an official sample (except duplicates or lost or destroyed official samples) shall be considered an unofficial sample and the licensed cottonseed chemist's certificate of the grade thereof shall be plainly marked: "Sample not official; grade applies to sample only." This paragraph shall not apply to mill control or crush samples.

§96.12 Unlicensed persons shall not analyze and certify the grade of official samples.

(a) No person shall in any way represent that he or she is a chemist licensed under the Act, unless that person holds a license issued under the Act. Title 18 U.S.C. 1001, Crimes and Criminal Procedures, makes it a criminal offense to knowingly and willfully make such false representations.

(b) Only licensed chemists shall analyze and certify the grade of official cottonseed samples.

§96.13 Grade certificate; form.

Each grade certificate issued under the Act by a licensed chemist shall be in a form, approved for the purpose by

the Director and shall embody within its written or printed terms:

(a) The caption "Cottonseed Grade Certificate."

(b) The serial number assigned to it.

(c) The date and place of issuance.

(d) A statement certifying that the analysis of the cottonseed sample was made according to the methods approved by the Director of the Division and that the grade given is according to the official standards of the United States.

(e) A statement of the condition of the lot of cottonseed as reported by the sampler, and in cases where the sample was submitted by a licensed sampler, the name and license number of the sampler.

(f) The identification of each lot of cottonseed by the marks and notations by which the seed was identified at the time the sample was taken, and the origin of the cottonseed by county and State.

(g) All analytical data required by the Director.

(h) The signature and license number of the chemist. In addition, the grade certificate may include any other matter consistent with the Act or the regulations in this part. Two copies of the grade certificate form shall be submitted to and approved by the Division, before use by a licensed chemist. A copy of each certificate shall be mailed to a designated office of the Division within 36 hours after its issuance.

§96.14 Reports of licensed chemists.

Each licensed chemist shall periodically, when requested by the Director, make reports on forms furnished for the purpose by the Division, concerning the activities as such licensed chemist.

§96.15 Information of violations.

Whenever any person licensed under this part becomes aware of information relating to the violation of the Act or these regulations, such person shall inform the Director of the Division of the alleged violations.
