

§ 510.4

TTY-VOICE (301) 504-1743; Facsimile (301) 504-1648; e-mail *vherberger@ars.usda.gov* or *shutchison@ars.usda.gov*. The FOIA Coordinator is delegated authority to make determinations regarding such requests in accordance with Subsection 1.3(c) of this title.

§ 510.4 Multitrack processing.

(a) When ARS has a significant number of requests, the nature of which precludes a determination within 20 working days, the requests may be processed in a multitrack processing system, based on the date of receipt, the amount of work and time involved in processing the request, and whether the request qualifies for expedited processing.

(b) ARS may establish as many processing tracks as appropriate; processing within each track shall be based on a first-in, first-out concept, and rank-ordered by the date of receipt of the request.

(c) A requester whose request does not qualify for the fastest track may be given an opportunity to limit the scope of the request in order to qualify for the fastest track. This multitrack processing system does not lessen agency responsibility to exercise due diligence in processing requests in the most expeditious manner possible.

(d) ARS shall process requests in each track on a "first-in, first-out" basis, unless there are unusual circumstances as set forth in § 1.16 of this title, or the requester is entitled to expedited processing as set forth in § 1.9 of this title.

§ 510.5 Denials.

If the FOIA Coordinator determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the FOIA Coordinator shall give written notice of denial in accordance with § 1.7(a) of this title.

§ 510.6 Appeals.

Any person whose request is denied shall have the right to appeal such denial. Appeals shall be made in accordance with § 1.14 of this title and should be addressed as follows: Administrator,

SOURCE: 51 FR 34191, Sept. 25, 1986, unless otherwise noted.

§ 520.1 General statement.

These procedures assure that research and other activities of the Agricultural Research Service (ARS) comply with the intent of the National Environmental Policy Act of 1969 (NEPA) and appropriate regulations implementing this Act. These procedures incorporate and supplement, and are not a substitute for, CEQ regulations under 40 CFR parts 1500-1508, and Department of Agriculture NEPA Policies and Procedures under 7 CFR part 1b. ARS conducts and supports research as authorized by legislation to support one of the USDA goals of assuring adequate supplies of high quality food and fiber. Information generated through such research often forms the basic data needed to assess the impact of a new technology upon the environment. Large scale projects simulating commercial practices are normally implemented in cooperation with other agencies of the Federal or State Governments.

§ 520.2 Definition.

Control Agents mean biological material or chemicals which are intended to enhance the production efficiency of an agricultural crop or animal such as through elimination of a pest.
