§ 929.47 Preliminary regulation.

(a) Beginning with the 1968-69 crop year, and continuing for each crop year thereafter through August 31, 1974, no handler shall handle, as the first handler thereof, cranberries purchased by him from a grower or acquired by him for handling for the account of a grower until he has determined the identity of the grower and the quantity of cran-

berries attributed to such grower. The handler shall furnish such information to the committee at such times and in such forms as the committee, with the approval of the Secretary, may request.

(b) So that each producer may qualify for a base quantity, pursuant to § 929.48, the committee shall furnish each producer early in each calendar year beginning in 1969, and as soon as practicable after the effective date of the amendment for the 1968 calendar year, a form to be filed with the committee whereon the producer reports the location of his bog(s), the acreage of cranberries he intends to harvest, and such other information as the committee needs to establish a base quantity for such producer.

§ 929.48 Sales history.

(a) *Determination of sales history.* (1) The initial sales history shall be computed by the committee for each grower using the best four out of six years of such grower's sales history, which shall include all commercial sales from the first complete crop year following adoption of this amendment, plus the prior five years' history of commercial sales, except as otherwise provided in paragraph (a)(5) of this section. For a grower with four years or less of commercial sales history, the initial sales history shall be computed by the committee using all available years of such grower's commercial sales history.

(2) A new sales history shall be computed for each grower after each crop year during which no volume regulation was established, in the same manner as for the initial sales history, except that the most recent crop year shall be used instead of the earliest crop year, and except as otherwise provided in paragraph (a)(4) of this section. The committee, with the approval of the Secretary, may, by regulation, alter the number and identity of years to be used in computing these subsequent sales histories.

(3) A new sales history shall be calculated for each grower after each crop year, during which a volume regulation has been established, using a formula determined by the committee, with the approval of the Secretary.
