

§ 94.24 Restrictions on the importation of live swine, pork, or pork products from Baja California, Baja California Sur, Chihuahua, and Sinaloa.

The Mexican States of Baja California, Baja California Sur, Chihuahua, and Sinaloa, which are declared to be free of classical swine fever (CSF) in §§ 94.9 and 94.10, supplement their pork supplies with fresh (chilled or frozen) pork imported from regions designated in §§ 94.9 and 94.10 as being affected by CSF, share a common land border with CSF-affected regions, or import live swine from CSF-affected regions under conditions less restrictive than would be acceptable for importation into the United States. Thus, there exists a possibility that live swine, pork, or pork products from the CSF-free regions listed in this section may be commingled with live swine, pork, or pork products from CSF-affected regions, resulting in a risk of CSF introduction into the United States. Therefore, live swine, pork, or pork products and shipstores, airplane meals, and baggage containing pork or pork products, other than those articles regulated under part 95 or part 96 of this chapter, originating in the CSF-free regions listed in this section shall not be brought into the United States unless the following requirements are met in addition to other applicable requirements of parts 93 and 327 of this title:

(a) *Live swine.* The swine must be accompanied by a certification issued by a full-time salaried veterinary officer of the Government of Mexico. Upon arrival of the swine in the United States, the certification must be presented to an authorized inspector at the port of arrival. The certification must identify both the exporting region and the region of origin as a region designated in §§ 94.9 and 94.10 as free of classical swine fever at the time the swine were in the region and must state that:

(1) The swine have not lived in a region designated in §§ 94.9 and 94.10 as affected with classical swine fever.

(2) The swine have never been commingled with swine that have been in a region that is designated in §§ 94.9 and 94.10 as affected with classical swine fever;

(3) The swine have not transited through a region designated in §§ 94.9 and 94.10 as affected with classical swine fever unless moved directly through the region to their destination in a sealed means of conveyance with the seal intact upon arrival at the point of destination; and

(4) The conveyances or materials used in transporting the swine, if previously used for transporting swine, have been cleaned and disinfected in accordance with the requirements of § 93.502 of this subchapter.

(b) *Pork or pork products.* The pork or pork products must be accompanied by a certification issued by a full-time salaried veterinary officer of the Government of Mexico. Upon arrival of the pork or pork products in the United States, the certification must be presented to an authorized inspector at the port of arrival. The certification must identify both the exporting region and the region of origin of the pork or pork products as a region designated in §§ 94.9 and 94.10 as free of classical swine fever at the time the pork or pork products were in the region and must state that:

(1) The pork or pork products were derived from swine that were born and raised in a region designated in §§ 94.9 and 94.10 as free of classical swine fever and were slaughtered in such a region at a federally inspected slaughter plant that is under the direct supervision of a full-time salaried veterinarian of the Government of Mexico and that is eligible to have its products imported into the United States under the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) and the regulations in § 327.2 of this title;

(2) The pork or pork products have never been commingled with pork or pork products that have been in a region that is designated in §§ 94.9 and 94.10 as affected with classical swine fever;

(3) The pork or pork products have not transited through a region designated in §§ 94.9 and 94.10 as affected with classical swine fever unless moved directly through the region to their destination in a sealed means of conveyance with the seal intact upon arrival at the point of destination; and

(4) If processed, the pork or pork products were processed in a region designated in §§ 94.9 and 94.10 as free of classical swine fever in a federally inspected processing plant that is under the direct supervision of a full-time salaried veterinary official of the Government of Mexico.

(Approved by the Office of Management and Budget under control number 0579-0230)

PART 95—SANITARY CONTROL OF ANIMAL BYPRODUCTS (EXCEPT CASINGS), AND HAY AND STRAW, OFFERED FOR ENTRY INTO THE UNITED STATES

Sec.

- 95.1 Definitions.
- 95.2 Region of origin.
- 95.3 Byproducts from diseased animals prohibited.
- 95.4 Restrictions on the importation of processed animal protein, offal, tankage, fat, glands, certain tallow other than tallow derivatives, and serum due to bovine spongiform encephalopathy.
- 95.5 Untanned hides and skins; requirements for unrestricted entry.
- 95.6 Untanned hides and skins; importations permitted subject to restrictions.
- 95.7 Wool, hair, and bristles; requirements for unrestricted entry.
- 95.8 Wool, hair, and bristles; importations permitted subject to restrictions.
- 95.9 Glue stock; requirements for unrestricted entry.
- 95.10 Glue stock; importations permitted subject to restrictions.
- 95.11 Bones, horns, and hoofs for trophies or museums; disinfected hoofs.
- 95.12 Bones, horns, and hoofs; importations permitted subject to restrictions.
- 95.13 Bone meal for use as fertilizer or as feed for domestic animals; requirements for entry.
- 95.14 Blood meal, tankage, meat meal, and similar products, for use as fertilizer or animal feed; requirements for entry.
- 95.15 Blood meal, blood albumin, intestines, and other animal byproducts for industrial use; requirements for unrestricted entry.
- 95.16 Blood meal, blood albumin, intestines, and other animal byproducts for industrial use; importations permitted subject to restrictions.
- 95.17 Glands, organs, ox gall, and like materials; requirements for unrestricted entry.

- 95.18 Glands, organs, ox gall, and like materials; importations permitted subject to restrictions.
- 95.19 Animal stomachs.
- 95.20 Animal manure.
- 95.21 Hay and straw; requirements for unrestricted entry.
- 95.22 Hay and straw; importations permitted subject to restrictions.
- 95.23 Previously used meat covers; importations permitted subject to restrictions.
- 95.24 Methods for disinfection of hides, skins, and other materials.
- 95.25 Transportation of restricted import products; placarding cars and marking billing; unloading enroute.
- 95.26 Railroad cars, trucks, boats, aircraft and other means of conveyance, equipment or containers, yards, and premises; cleaning and disinfection.
- 95.27 Regulations applicable to products from Territorial possessions.
- 95.28 Hay or straw and similar material from tick-infested areas.
- 95.29 Certification for certain materials.

AUTHORITY: 7 U.S.C. 8301-8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

§ 95.1 Definitions.

Whenever in the regulations in this part the following words, names, or terms are used they shall be construed, respectively, to mean:

Administrator means the Administrator, Animal and Plant Health Inspection Service, or any individual authorized to act for the Administrator.

Animal and Plant Health Inspection Service (APHIS) means the Animal and Plant Health Inspection Service of the United States Department of Agriculture.

Animal byproducts means hides, skins, hair, wool, glue stock, bones, hoofs, horns, bone meal, hoof meal, horn meal, blood meal, meat meal, tankage, glands, organs, or other parts or products of ruminants and swine unsuitable for human consumption.

Approved chlorinating equipment means equipment approved by Veterinary Services as efficient for the disinfection of effluents against the contagions of foot-and-mouth disease and rinderpest.

Approved establishment means an establishment approved by Veterinary Services for the receipt and handling of restricted import animal byproducts.
