### §9.0 Purpose.

The purpose of this part is to establish procedures relating to the Department's voluntary labeling program for household appliances and equipment to promote and effect energy conservation.

### §9.1 Goal of program.

(a) This program was initiated in response to the direction of President Nixon in his 1973 Energy Message that the Department of Commerce in cooperation with the Council on Environmental Quality and the Environmental Protection Agency develop a voluntary labeling program which would apply to energy-consuming home appliances.

## §9.2

(b) The goal of this program is to encourage manufacturers to provide consumers, at the point of sale, with information on the energy consumption and energy efficiency of household appliances and equipment. Such information, presented in a uniform manner readily understandable to consumers, would be displayed on labels attached to or otherwise provided with the appliances or equipment. The labels will include a system intended to make it possible for consumers to compare by cost or otherwise the energy consumption and energy efficiency characteristics when purchasing household appliances and equipment and to select those that can effect savings in energy consumption.

### §9.2 Definitions.

(a) The term *Secretary* means the Secretary of Commerce.

(b) The term *manufacturer* means any person engaged in the manufacturing or assembling of new appliances or equipment in the United States, or in the importing of such products for sale or resale, or any person whose brand or trademark appears on such products who owns such brand or trademark and has authorized its use on such products, if the brand or trademark of the person actually manufacturing or assembling the products does not appear on the products.

(c) The term *energy consumption* means the energy resources used by appliances or equipment under conditions of use approximating actual operating conditions insofar as practical as determined through test procedures contained or identified in a final Voluntary Energy Conservation Specification published under §9.4(e).

(d) The term *energy efficiency* means the energy use of appliances or equipment relative to their output of services, as determined through test procedures contained or identified in a final Voluntary Energy Conservation Specification published under §9.4(e).

(e) The term *consumer* means the first person who purchases a new appliance or item of equipment for purposes other than resale.

(f) The term *class of appliance or equipment* means a group of appliances or equipment whose functions or fea-
