AUTHORITY: 16 U.S.C. 2101 *et seq.*

SOURCE: 56 FR 63585, Dec. 4, 1991, unless otherwise noted.

Subpart A—Stewardship Incentive Program

§ 230.1 Purpose and scope.

(a) The regulations in this subpart govern the operation of the Stewardship Incentive Program as provided in section 6 of the Cooperative Forestry Assistance Act, as amended by title XII of the Food, Agriculture, Conservation, and Trade Act of 1990 (16 U.S.C. 2101, *et seq.*). This subpart sets forth the rules and procedures by which the Stewardship Incentive Program will be administered by the Forest Service to establish forest stewardship practices on nonindustrial private forest land.

(b) The cost-share assistance provided under the Stewardship Incentive Program shall complement rather than replace or duplicate the existing Agricultural Conservation Program and Forestry Incentives Program. Tree planting and improvement and other State priorities for program activities and practices funded under the Stewardship Incentive Program shall be designed to provide multiple resource benefits not available through other cost-share programs.

§ 230.2 Definitions.

As used in this subpart, the following terms shall mean:

Act means the Cooperative Forestry Assistance Act as amended (16 U.S.C. 2101, *et seq.*).

Assignee means any person, corporation, government agency, or other legal entity to whom a landowner transfers legal rights to receive all or part of federal cost-share payments.

Chief means the Chief of the Forest Service.

§ 230.3

Committee means the State Forest Stewardship Coordinating Committee established pursuant to section 19(b)(1) of the Act.

Fiscal year means the fiscal year of the United States Government which is October 1 through September 30.

Landowner means any private individual, group, association, corporation, Indian tribe or other native group, or other private legal entity, excluding corporations whose stocks are publicly traded or legal entities principally engaged in the production of wood products.

Nonindustrial private forest land means rural lands with existing tree cover or which are suitable for growing trees and owned by any landowner as defined in this subpart.

Practice means a stewardship activity or conservation measure consistent with the landowner plan to accomplish the landowner's desired management objectives.

Program means the Stewardship Incentive Program.

Regional Forester means the Forest Service official charged with the administration of a Region of the National Forest System as described in 36 CFR 200.2, except that with reference to the States covered by the Eastern Region, such term shall mean the Area Director for States and Private Forestry, Northeastern Area (36 CFR 200.2);

Resource Management Professional means any person who is recognized by the State Forester as having the knowledge and skills to develop landowner plans for managing the biological, economic, and environmental interrelationship of forest resources and to identify appropriate activities to manage, protect, or enhance forest resources including, but not limited to, an employee of a State forestry agency, other State resource agency, the Soil Conservation Service, a consulting forester, or wildlife biologist.

Service Representative means a resource management professional designated by the State Forester to perform any or all of the following technical assistance functions: Review and approval of landowner plans, determination of need and feasibility of practices, establishment of site specific

36 CFR Ch. II (7-1-06 Edition)

practice specifications, certification of completion of practices and performance of compliance checks pursuant to this subpart.

State means any one of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Commonwealth of the North Marianas Islands, the Trust Territory of the Pacific Islands and the Territories and possessions of the United States.

State Forester means the employee of a State responsible for administration and delivery of forestry and assistance within such State.

USDA means the U.S. Department of Agriculture.

§ 230.3 National program administration.

(a) The Chief shall develop and oversee all Program policy and procedure and monitor the implementation of such policy and procedure over the life of the Program.

(b) The Chief shall annually distribute among the States such cost-share funds as may be available for the Program after addressing the public benefit incidental to such distribution and after giving appropriate consideration to the following: The total acreage of nonindustrial private forest land in each State, the potential productivity of such land, the number of owners eligible for cost sharing in each State, the need for reforestation in each State, the opportunities to enhance nontimber resources on such forest lands, and the anticipated demand for timber and nontimber resources in each State. In making distributions under this paragraph, the Chief shall consult with a group of not less than five State Foresters selected by a majority of the State foresters.

(c) Tree planting, tree maintenance, and tree improvement are national priorities for cost-share practices under the Programs. In addition to these practices, the Chief, in consultation with the State Foresters, may develop other national priorities for practices to be cost shared under the Program and shall communicate such priorities to guide administration of the Program.

Forest Service, USDA

§ 230.4

(d) The Chief shall review and determine approval of State plans, including any revisions of such plans.

(e) The Chief, in consultation with the State Foresters, shall annually re-evaluate and set the percentage of Program funding to be made available for landowner forest stewardship plan development (§230.7(a)(1) of this subpart).

(f) The Chief may enter into such agreements with any other USDA agency as are necessary to administer the Program. These agreements may include provisions authorizing the collection of Program participant information, the management of accounting ledgers, and the disbursement of payment to participants.

(g) The Chief shall retain final authority to resolve all issues which may arise in the administration of the Program.

§ 230.4 State program administration.

(a) In each State participating in the Program, the Secretary of Agriculture, in consultation with the State Forester, shall establish a State Forest Stewardship Coordinating Committee whose composition meets the requirements of section 19(b) of the Act. The Committee shall be chaired by the State Forester, or the designee thereof.

(b) In each State participating in the Program, the Committee shall recommend to the State Forester for approval:

(1) Stewardship Incentive Program needs within the State;

(2) The minimum contiguous acreage of eligible nonindustrial private forest land, consistent with §230.5(c) of this subpart;

(3) Those nationally approved practices that will be eligible for cost-share assistance within the State;

(4) Those nationally approved technical practices and minimum specifications to be used in implementing practices;

(5) The cost-share levels, by practice, which will encourage tree planting, maintenance, and improvement, and other high priority practices within the State that will result in multiple resource benefits:

(6) The fixed rate or reimbursement or designated percentage of total cost for practice components;

(7) The distribution mechanism for the allocation of cost-share funds within the State;

(8) The assignment of technical responsibility, by type of Program practice, to the appropriate Service Representative;

(9) Guidelines for establishing annual priorities for the approval of landowner applications;

(10) The mechanisms for ensuring landowner compliance with practice specification;

(11) The mechanisms to monitor State participation in the Program; and

(12) Any adjustments in Program guideline, administration, or funding levels to better achieve Program objectives within the State.

(c) The State Forester, after giving full consideration to the recommendations of the Committee, shall approve Program administration procedures as set forth in paragraph (b) of this section. In the event a Committee fails to make timely recommendations with regard to any matter listed in paragraph (b) of this section, the State Forester is authorized to approve administrative procedures for implementing the Program without further delay.

(d) To participate in the Program, the State Forester, in consultation with the Committee, shall develop a State plan that shall provide baseline data on the forest resources of the State; outline threats to the forest resources of the State; describe economic and environmental opportunities that are linked with the forest resources of the State; address management problems, opportunities, and objectives associated with intermingled Federal, State, and private land ownership patterns within the State; and make planning recommendations for Federal, State, and local implementation of the Act.

(1) The State Plan shall cover a 5-year period, identify management goals for nonindustrial private forest lands and set priorities for achieving the goals and objectives identified for the State for each year.

§ 230.5

(2) State Foresters may use existing resource inventories, landowner surveys, and other relevant planning data to develop the State plan.

(3) State plans shall become effective upon approval by the Chief.

(e) The State Forester shall administer the Program within the State and monitor the Programs to ensure that it is achieving desired results and shall ensure landowner compliance with practice installation specifications and maintenance of the practice.

(f) Not more than 10 percent of a State allocation of funds may be used to finance State Program development and administration. The State Forester must obtain approval from the Regional Forester of the amount of the State's Program allocation to be used for State Program development and administration.

(g) The percent of the State's Program allocation of funds that may be used to cost-share the development of Landowner Forest Stewardship plans will be determined pursuant to § 230.3(e) of this subpart. The State Forester must obtain approval from the Regional Forester of the amount of the State's Program allocation to be used for Landowner Forest Stewardship Plan development (§ 230.7(a)(1) of this subpart).

(h) The State Forester shall document and make available for public inspection all determinations made in consultation with the Committee.

§ 230.5 Eligibility requirements.

(a) All nonindustrial private forest landowners as defined in § 230.2 of this subpart, including those who produce forest products on a part-time or intermittent basis, who meet the requirements of this section, are eligible to apply for and receive assistance under the Program without regard to race, color, religion, national origin, age, sex, marital status, or handicap.

(b) To be eligible to receive cost-share funds under the Program, a landowner shall own not more than a total of 1,000 acres of nonindustrial private forest land, except where the State Forester, with the concurrence of the Regional Forester, determines that significant public benefits would accrue from approval of a landowner owning

36 CFR Ch. II (7-1-06 Edition)

not more than 5,000 acres. In making a determination of significant public benefits, the State Forester and the Regional Forester shall consider, at a minimum, whether the installation of practices by landowners who own more than 1,000 acres but less than 5,000 acres are necessary to achieve cost-effective resource management objectives without unduly affecting Program participation of other eligible landowners.

(c) To be eligible to receive cost-share funds under the Program, a landowner shall not own less than the minimum contiguous acreage as established by the State Forester. However, in no case shall the minimum contiguous acreage requirement be higher than 25 acres.

(d) To be eligible to receive cost-share funds under the Program, a landowner must agree to manage the following lands under a Landowner Forest Stewardship Plan prepared pursuant to § 230.6 of this subpart:

(1) All of their nonindustrial private forest land with existing tree cover within a contiguous tract; and

(2) Other nonindustrial private forest land within the same contiguous tract which is identified by the landowner and approved by the Service Representative as suitable for growing trees and scheduled for conversion to a Program practice.

(e) To be eligible to receive cost-share funds under the Program, a landowner must agree to maintain Program practices for 10 years, unless otherwise specified by the Chief.

§ 230.6 Landowner forest stewardship plan.

(a) Prior to receiving approval to implement any Program practice identified in § 230.7(a)(2)-(9) of this subpart, eligible landowners shall have an approved landowner forest stewardship plan. The landowner forest stewardship plan shall be prepared by a Resource Management Professional and approved by a Service Representative and shall identify and describe actions to be taken by the landowner to protect and manage soil, water, aesthetic qualities, recreation, timber, and fish and wildlife resources in a manner

which is compatible with the objectives of the landowner.

(b) A landowner forest stewardship plan shall be effective for not less than 10 years, but shall be reviewed at least every five years and may be revised as needed, subject to approval of the Service Representative.

(c) To the extent deemed applicable by the Service Representative, where existing landowner management plans such as conservation plans, Tree Farm management plans, or similar plans meet or can be amended to meet Landowner Forest Stewardship Plan requirements, such plans shall satisfy the requirements of this section.

(d) If a landowner sells or otherwise conveys land covered by a landowner forest stewardship plan, such plan shall remain in effect if agreed to by the new owner. New landowner objectives shall be incorporated through plan revision as needed. Where the new landowner does not agree to adopt the Landowner Forest Stewardship plan, the new landowner cannot obtain approval of new Program practices without preparation and approval of a new Landowner Forest Stewardship Plan.

§ 230.7 Program practices.

(a) Practices for which cost sharing is available under the Stewardship Incentive Program and the reporting codes assigned to each are as follows:

(1) Landowner Forest Stewardship Plan Development (SIP1), which identifies landowner objectives and multiple resource management decisions.

(2) Reforestation and Afforestation (SIP2), which includes establishment or reestablishment of diverse stands of forest trees through natural regeneration, planting, or direct seeding for conservation purposes and sustainable timber production.

(3) Forest and Agroforest Improvement (SIP3), which includes the improvement of forest and agroforest stand productivity, vigor, and health, and the value and quality of wood products.

(4) Windbreak and Hedgerow Establishment, Maintenance and Renovation (SIP4), which includes the establishment, maintenance, and renovation of windbreaks and hedgerows to conserve

energy, protect farmsteads, livestock, and crops, and reduce soil erosion.

(5) Soil and Water Protection and Improvement (SIP5), which includes the maintenance or improvement of water quality and soil productivity on forest land.

(6) Riparian and Wetland Protection and Improvement (SIP6), which includes the protection, restoration, and improvement of wetlands and riparian areas to maintain water quality and enhance habitat.

(7) Fisheries Habitat Enhancement (SIP7), which includes the protection and enhancement of habitat for native resident and anadromous fisheries.

(8) Wildlife Habitat Enhancement (SIP8), which includes the establishment and enhancement of permanent habitat for game and nongame wildlife species.

(9) Forest Recreation Enhancement (SIP9), which includes the enhancement of outdoor recreation activities and aesthetics.

(b) In the application and use of pesticides, including biological, chemical, and behavioral substances, practice performance shall meet all label requirements, State and Federal regulations, and local ordinances.

(c) Anyone who carries out practices under this Program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations.

§ 230.8 Application and approval.

(a) A landowner wishing to participate in the Program shall contact the local office of the State Forester who shall provide information necessary to make application.

(b) The State Forester, or such official as the State Forester may designate, shall make basic eligibility determinations, including whether the applicant meets nonindustrial private forest land ownership criteria and minimum and maximum acreage criteria in accordance with § 230.5 of this subpart, and approve Program practices. The landowner shall be notified of such determination in writing by mail.

§ 230.9

36 CFR Ch. II (7-1-06 Edition)

(c) The State Forester, or such official as the State Forester may designate, shall approve Program practices based on the following:

(1) For approval of practices described in § 230.7(a)(2)–(a)(9) of this subpart, verification that the landowner has an approved landowner forest stewardship plan.

(2) A determination whether the practice is needed and feasible.

(3) A determination that the practice is consistent with funding priorities established by the State Forester.

(d) Applications shall not be approved unless cost-share funds are available. Approval of an application shall constitute an agreement by the United States and the landowner to cost-share approved practices upon acceptable performance.

(e) Upon approval of Program practices, a Service Representative shall prepare a project outline that identifies the needed technical practices, specifications, and approximate time frame(s) for the implementation of the practice(s) to achieve the objectives of the landowner forest stewardship plan. Upon agreement by the landowner and the Service Representative to the requirements set forth in the project outline, the outline shall be attached to and become part of the landowner forest stewardship plan and shall be effective for the duration of the practice. Requirements of a project outline shall constitute the basis for determining acceptable performance upon practice completion.

(f) Upon approval of Program practices, the landowner shall be notified of approved practices in writing. Such notice shall state that the landowner can begin implementing approved practices.

§ 230.9 Payment to landowners.

(a) To be eligible for cost-share payments, a landowner must complete each practice within eighteen months of approval. However, if practice(s) are not completed in eighteen months due to conditions beyond the landowner's control, a six month extension period may be granted by the Service Representative.

(b) Upon certification by the Service Representative that a practice has

been completed in accordance with specifications, the federal cost-share payment will be calculated and disbursed to the landowner. Service Representatives shall have the right of access to the landowner's property to inspect practices for the duration of the practice maintenance period.

(c) The amount of payment under the Program to any one landowner shall not exceed \$10,000 in any given fiscal year. For each landowner participating in the Program, the payment limitation shall apply as follows:

(1) Where husband and wife hold joint ownership, they shall be considered as a single landowner.

(2) Where any number of individuals hold common ownership, they shall be considered as a single landowner.

(3) Where the individual is a partner, corporate shareholder, or has an ownership interest in another private legal entity, the amount of payment to the individual shall be equivalent to the percentage of ownership the individual holds in such partnership, corporation or other private legal entity times the payment made to such partnership, corporation or other legal entity.

(d) Levels of federal cost-share funds to be paid to landowners shall be set by the State Forester, but shall not exceed 75 percent of the actual costs incurred by a participating landowner. Non-Federal program funds and other donated assistance may be used to supplement cost-share assistance under the Program; however, the total of all funds and assistance shall not exceed 100 percent of the actual cost of practice implementation.

(e) A practice may consist of one or more component activities. A landowner may receive partial payment for completed components on the condition that the landowner agrees to complete the remaining component(s) of the practice within the time period specified by the Service Representative, not to exceed eighteen months following approval to implement the practice, unless an extension is justified as provided in paragraph (a) of this section.

(f) Where performance actually rendered does not meet the minimum specifications of a practice due to factors beyond the landowner's control,

Forest Service, USDA

§ 230.11

the State Forester or designee may approve cost-share payment under one of the following conditions:

(1) The landowner repeats applications of components previously implemented or establishes additional eligible components under such terms and conditions as the Service Representative may require, in which case, the State Forester shall approve additional cost-sharing for additional or repeated components to the extent such measures are needed to meet the objectives of the landowner forest stewardship plan; or

(2) The landowner establishes to the satisfaction of the Service Representative that:

(i) A reasonable effort was made to meet the minimum requirements; and

(ii) The practice, as performed, adequately meets the objectives of the landowner forest stewardship plan.

(g) Where the landowner has received cost-share assistance for site preparation and the establishment of trees has been unsuccessful due to factors beyond the landowner's control, the Service Representative shall require that trees be re-established and shall approve cost-share assistance for such activity.

(h) If a landowner sells, conveys, or otherwise loses control of lands upon which there is a continuing obligation to maintain a practice and the new landowner does not agree to assume the responsibility for maintaining the practice, the landowner who was originally obligated to maintain the practice shall be liable to reimburse the United States for all cost-share payments on such practices.

(i) In case of death or incompetency of any landowner, the State Forester shall approve cost-share payments to the successor if the successor agrees to maintain the practices for the duration of the required maintenance period.

(j) Any landowner who may be entitled to any cost-share payment under this subpart may assign the right thereto, in whole or in part, under the following terms:

(1) Payments may be assigned only for performance of a Program practice.

(2) A payment which is made to a landowner may not be assigned to pay or secure any preexisting debt.

(3) Neither the United States, the Forest Service, the Secretary of Agriculture, nor any disbursing agent shall be liable in any suit if payment is made to an assignor rather than to an assignee, and nothing in this section shall be construed to authorize any suit against the United States, the Forest Service, the Secretary or any disbursing agent if payment is not made to the assignee, or if payment is made to only one of several assignees.

(k) No cost-share payment or portion thereof due and owing any landowner shall be subject to any claim arising under State law by any creditor, except agencies of the United States Government.

§ 230.10 Prohibitions.

(a) No cost-share funds shall be paid for the following:

(1) Costs incurred before an application for cost-share assistance is approved;

(2) The implementation of any practice(s) already required by law, regulation, or other authority; and

(3) Repairs or normal upkeep or maintenance of any practice.

(b) No cost-share assistance shall be paid for repeating practices on the same site by the same landowner which have been implemented under the Forestry Incentives Program (16 U.S.C. 2104) or any other Federal, State, or local government programs, or private sector programs, except where such practices are repeated due to a failure of a prior practice without fault of the landowner.

§ 230.11 Recapture of payment.

(a) If any landowner, successor, or assignee uses any scheme or device to unjustly benefit from this program, the cost-share funds shall be withheld or a refund of all or part of any Program payments otherwise due or paid that person shall be secured. A scheme or device includes, but is not limited to, coercion, fraud or misrepresentation, false claims, or any business dissolution, reorganization, revival, or other legal mechanism designed for or having the effect of evading the requirements of this subpart.

(b) If any landowner or successor takes any action or fails to take action

§ 230.12

which results in the destruction or impairment of a prescribed practice for the duration of the practice, cost-share funds shall be withheld or a recapture of all or part of any Program payments otherwise due or paid shall be secured based on the extent and effect of destruction and impairment.

(c) Nothing in this section requiring the withholding or refunding of cost-share funds shall preclude any penalty or liability otherwise imposed by law.

§ 230.12 Reconsideration.

Any landowner, successor, or assignee who is dissatisfied with any determination made under the Program may request reconsideration by the State Forester and, if the matter is still not resolved, by the Regional Forester. All requests for reconsideration shall be in writing and shall contain factual information explaining the basis for requesting reconsideration. All decisions upon reconsideration shall be issued in writing.

§ 230.13 Information requirements.

The requirements governing the preparation of a State forest stewardship plan in § 230.4(d) of this subpart, the landowner forest stewardship plan in § 230.6 of this subpart, and the application requirements of § 230.8 constitute information requirements as defined by the Paperwork Reduction Act of 1980 (44 U.S.C. 3507) and have been approved for use pursuant to 5 CFR part 1320 and assigned OMB Control Number 0596-0120.

Subpart B—Urban and Community Forestry Assistance Program

SOURCE: 65 FR 57549, Sept. 25, 2000, unless otherwise noted.

§ 230.20 Scope and authority.

The Urban and Community Forestry Assistance Program is authorized by Section 9 of the Cooperative Forestry Assistance Act of 1978, as amended (16 U.S.C. 2105). The scope of this authority includes the provision of technical, financial, and related assistance to State and local governments, non-profits, and other members of the public to: maintain, expand, and preserve forest

36 CFR Ch. II (7-1-06 Edition)

and tree cover; expand research and education efforts related to trees and forest cover; enhance technical skills and understanding of tree maintenance and practices involving cultivation of trees, shrubs and complementary ground covers; and implementing a tree planting program to complement urban tree maintenance and open space programs. The Secretary has delegated the authority for implementing the program to the Chief of the Forest Service under 7 CFR 2.60(a)(16).

§ 230.21 Implementation of the program.

(a) The Urban and Community Forestry Assistance Program is implemented through the Forest Service Grants, Cooperative Agreements, and Other Agreements Program (FSM 1580) and the Grants, Cooperative Agreements, and Other Agreements Handbook (FSH 1509.11). The Forest Service Manual and Handbook are available from the Forest Service internet homepage or at National Forest offices.

(b) The Forest Service, under the authority of the Cooperative Forestry Assistance Act of 1978 and through the Urban and Community Forestry Assistance Program, coordinates financial, technical, and related assistance with the Natural Resources Conservation Service for the Urban Resources Partnership initiative. The Natural Resources Conservation Service provides similar assistance through the Urban Resources Partnership initiative under the authority of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590a-590f). The Urban Resources Partnership is an initiative in which Federal agencies, in cooperation with State and local agencies, community groups, and non-governmental organizations endeavor to be more effective, responsive, and efficient in working together to protect, improve, and rehabilitate the environment in urban areas of the Nation. The Forest Service and Natural Resources Conservation Service implement the Urban Resources Partnership initiative under the "Urban Resources Partnership National Guidance for U.S. Department of Agriculture Personnel" and applicable agency and departmental procedures for Federal grants and cooperative

agreements. Copies of the Guidance may be obtained from the Cooperative Forestry Staff, Forest Service, USDA, P.O. Box 96090, Washington, DC 20090-6090.

Subpart C—Forest Land Enhancement Program

SOURCE: 68 FR 34314, June 9, 2003, unless otherwise noted.

§ 230.30 Purpose and scope.

(a) The regulations in this subpart govern the operation of the Forest Land Enhancement Program (hereafter, FLEP) as provided in Section 4 of the Cooperative Forestry Assistance Act (16 U.S.C. 2101 *et seq.*), as amended by title VIII of the Farm Security and Rural Investment Act of 2002 (Pub. L. 107-171). The purpose of FLEP is to provide a coordinated and cooperative Federal, State, and local sustainable forestry program for the establishment, management, maintenance, enhancement, and restoration of forests on nonindustrial private forest land.

(b) The educational assistance, resource management expertise, and financial assistance provided under FLEP shall complement any existing Federal or State programs or programs offered through institutions of higher learning providing assistance to nonindustrial private forest landowners. FLEP promotes improved coordination and cooperation among Federal, State, and local programs regarding the establishment, maintenance, enhancement, and restoration of nonindustrial private forestlands.

(c) Participation in FLEP is voluntary on the part of both the State and the nonindustrial forest landowner. To participate, each State must have nonindustrial private forest lands, a State Forester or equivalent, and a State Forest Stewardship Coordinating Committee.

§ 230.31 Definitions.

The terms used in this subpart are defined as follows:

Capital investment or improvement. Durable equipment or assets capable of being amortized or depreciated over a period of 3 or more years, not including activities or practices carried out as

part of the Forest Land Enhancement Program (FLEP) cost-share element.

Catastrophic natural event. Destructive natural event, which includes, but is not limited to, wildfires, insect infestations, disease outbreaks, droughts, floods, windstorms, freezing, ice storms, hail, sleet, mudslides, landslides, earthquakes, avalanches, tornadoes, volcanoes, hurricanes, or tsunamis.

Chief. The Chief of the Forest Service, United States Department of Agriculture.

Committee. The State Forest Stewardship Coordinating Committee.

Concurrence. Review, verification, and confirmation by the Responsible Official that the State priority plan contains all of the key elements required by law and the rules of this subpart.

Cost-share. A program payment, on a reimbursable basis, at a maximum of 75 percent of the cost incurred by a landowner for implementation of a State-approved activity or practice authorized under FLEP.

Financial assistance. Funds disbursed as an award by the Federal Government to an eligible party from the FLEP annual apportionment, in the form of money, including grants, agreements, contracts, and other arrangements.

Fiscal year. The accounting period, used by the United States Government, from October 1 through September 30.

Landowner. An individual, group, association, corporation, Indian Tribe, or other legal private entity owning nonindustrial private forest land or a person who receives concurrence from the landowner for practice implementation and who holds a lease on the land for a minimum of 10 years. Corporations whose stocks are publicly traded or owners principally engaged in the primary processing of raw wood products are excluded.

Management plan. A written plan prepared by a service representative and approved by a State Forester.

Nonindustrial private forest land. Rural lands with existing tree cover, or which are suitable for growing trees, that are owned by any landowner as defined in this section.

§ 230.32

36 CFR Ch. II (7-1-06 Edition)

Practice. A prescribed, natural resource management activity that is consistent with a practice plan and implemented through FLEP to enhance the multiple resource values and benefits and that results in improved conditions on nonindustrial private forest land. A practice may consist of multiple components.

Practice plan. A plan prepared by a service representative and approved by the State Forester that documents the specific practices that are to occur as a result of a landowner application for cost-share. A practice plan may be a stand-alone document or it may be a part of a management plan.

Responsible official. USDA Forest Service Regional Forester, Area Director, or Institute Director charged with the administration of FLEP.

Service representative. Any person who is recognized by a State Forester as having the knowledge and skills to develop management plans, understanding of the economic and environmental interrelationships of forestry and/or agroforestry resources, and the ability to identify appropriate activities to manage, protect, or enhance such resources. The State Forester designates service representatives as the line officers to perform specified FLEP elements.

State. Includes each of the States in the United States, and the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

State Forester. The director or other head of a State forestry agency or equivalent State official.

State priority plan. The document required from a State to participate in FLEP. A State Forester jointly prepares this plan with the State Forest Stewardship Coordinating Committee to facilitate long-term sustainability of nonindustrial private forest lands within the State.

§ 230.32 National program administration.

(a) The Chief shall develop and implement FLEP in partnership with State forestry agencies and in consultation with other Federal, State, and local

natural resource management agencies, institutions of higher learning, and a broad range of private sector interests.

(b) In collaboration with State Foresters, the Chief of the Forest Service and Responsible Officials shall oversee developing and implementing FLEP policy and procedure, including the monitoring of program results over the life of FLEP to ensure that environmental, economic, and social values and public benefits are derived from the program.

(c) The Chief shall annually distribute such funds as may be available for FLEP to the Responsible Official(s) for each of the three geographic funding areas based on the criteria set out in the Forest Service Manual Chapter 3310.

(d) In developing allocation factors for making FLEP distributions under this subpart,

(1) The Chief shall consult with the State Foresters through their Forest Resource Management Committee, a standing committee of the National Association of State Foresters, or its successor.

(2) Allocation factors shall be based on National data sources that address the current status of forest lands of each State or Territory participating in FLEP. Data must be measurable, inclusive of all States, objective, and reliable. The data will address those factors described in the Cooperative Forestry Assistance Act (16 U.S.C. 2103(i), Distribution of Cost-Share Funds).

(e) National priorities for FLEP shall reflect the Department and Forest Service priorities for nonindustrial private forest land as provided in the Forest Service Manual Chapter 3310.

(f) The Responsible Official(s) in each of the three geographic funding areas shall coordinate with their respective State Foresters to determine the final allocation to each State based on the following:

- (1) National priorities;
- (2) National allocation factors;
- (3) Regional and State-wide priorities;
- (4) Ability of the State to deliver FLEP; and
- (5) Direction in the Forest Service Manual Chapter 3310.

Forest Service, USDA

§ 230.34

(g) FLEP financial assistance may be disbursed to a third party that will assist in program delivery. The Forest Service may disburse funds directly to a third party, which may include, but is not limited to, Federal, State, or local agencies, and landowner, non-profit, or private organizations, with written approval by the State Forester.

(h) Except as provided at § 230.34(d), no financial assistance shall be provided by the Forest Service to a State Forester or any third party, until the Responsible Official has concurred with the State's priority plan.

(i) The Chief has final authority to resolve all issues that may arise in the administration of FLEP.

(j) The Forest Service shall provide National and regional administrative and financial support and oversight through distribution of available FLEP funds to State Foresters and through monitoring, review, and evaluation of FLEP activities and accomplishments.

(k) FLEP funds may not be used by States for capital investments or capital improvements unless specifically authorized in a funding document and must be limited to \$5,000. The limitation on capital improvements excludes practices and activities cost-shared with landowners through FLEP.

(l) Funds may not be authorized in the financial assistance document or used for the purchase of land, any interest in land, or any interest in an endowment.

(m) By September 30, 2006, the Chief must submit a cumulative report to the Secretary of Agriculture summarizing all the activities and practices funded under FLEP as of that date.

§ 230.33 Responsible Official program administration.

(a) The Responsible Official shall review and provide concurrence with State priority plans, including any revisions of such plans.

(b) The Responsible Official shall provide oversight for all aspects of FLEP, including program reviews and shall ensure that the Forest Service is represented on each State Forest Stewardship Coordinating Committee.

(c) The Responsible Official shall disburse funds to the State Forester or

their designated third parties in a timely manner.

(d) The Responsible Official shall determine the final funds distribution to States.

(e) The funds will be distributed to individual States based on criteria in § 230.32 (f).

(f) Policy in the Forest Service Manual Chapter 3310 will provide additional direction for funding distribution.

(g) The Responsible Official must submit an annual report to the Chief summarizing all activities and practices funded through FLEP for the previous fiscal year.

(h) By September 1, 2006, the Responsible Official must submit a cumulative report to the Chief summarizing all activities and practices funded through FLEP as of June 1, 2006, along with copies of the reports submitted from the participating States.

§ 230.34 State program administration.

(a) In States electing to participate in FLEP, the State Forester and the State Forest Stewardship Coordinating Committee, established pursuant to section 19(b) of the Cooperative Forestry Assistance Act, as amended (16 U.S.C. 2101, *et seq.*), shall jointly develop a State priority plan. The plan must be submitted to the appropriate Responsible Official for review and concurrence.

(b) The State Forester shall develop, implement and administer FLEP consistent with the State priority plan. The State Forester must ensure that all activities are carried out properly and that all cost-shared practices meet the appropriate standards and specifications.

(c) No match of funds is required from the State for participation in FLEP.

(d) In order to facilitate development of FLEP any State may request up to \$50,000 of the first-year allocation in advance of Forest Service concurrence with a State priority plan.

(e) Each State participating in FLEP shall submit an annual report to the respective Responsible Official, reporting all activities and practices funded through FLEP for the previous fiscal year. The report shall contain data on

§ 230.35

36 CFR Ch. II (7–1–06 Edition)

accomplishments by educational assistance, technical assistance, and cost-share assistance based on State objectives and measurable outcomes included in State priority plans.

(f) By July 15, 2006, the State Forester of each State participating in FLEP must submit to the respective Responsible Official a summary report of all State activities and practices funded through FLEP as of June 1, 2006.

§ 230.35 FLEP elements.

(a) States may use FLEP funds to assist landowners in managing their non-industrial private forest lands and related resources through the following elements:

(1) Development and implementation of educational programs;

(2) Resource management expertise and technical assistance; and

(3) Financial assistance through cost-share programs.

(b) All participating States may use a portion of allocated funds for FLEP administration costs.

(c) States do not have to participate in all FLEP elements.

§ 230.36 State priority plan—purpose and scope.

(a) The State priority plan shall be used to guide FLEP implementation in each participating State through fiscal year 2007 and can be revised as needed.

(b) The State priority plan must describe the various roles and responsibilities of the State Forester, State Forest Stewardship Coordinating Committee, and other agencies and organizations in FLEP planning, delivery, and accountability to the program objectives.

(c) The State priority plan must contain the following:

(1) Data from standard forest inventory and analysis reports on the forest resources found within the State;

(2) A description of concerns, issues, problems and threats related to resource management for all nonindustrial private forest and agroforestry resources;

(3) Identification of the desired objectives and environmental, economic, and social values and public benefits to be derived from FLEP;

(4) An explanation of how FLEP funds are to be used to complement efforts of sustainable forestry management already in place within the State;

(5) A rationale for, and a proposed distribution of, funds for the FLEP elements listed at section 230.35 that the State plans to implement; and

(6) A description of the public participation process used in the development of the plan, including outreach efforts to landowners with limited resources.

(d) If an existing State Forest Stewardship plan, as described at section 19(b)(3) of the Cooperative Forestry Assistance Act (16 U.S.C. 2101, *et seq.*), adequately addresses some or all of the required information, it may be incorporated into the State priority plan by reference.

(e) The State priority plan must also outline the State FLEP priorities, policies, and procedures that will be implemented to encourage landowners to practice sustainable management and to actively conserve and enhance their forest resources.

(f) Each FLEP element described in the State priority plan must clearly state objectives and measurable outcomes to be achieved.

(g) All activities performed using FLEP funds must be consistent with the purpose of the program.

§ 230.37 State priority plan—educational assistance.

(a) Educational assistance includes development and delivery of:

(1) Activities;

(2) Events;

(3) Programs;

(4) Curriculum;

(5) Written materials;

(6) Workshops;

(7) Training sessions;

(8) Web site construction and maintenance; or

(9) Similar activities designed to bring landowners to an informed decision point and accelerate adoption of sustainable forest practices in a State.

(b) If a State determines that all or some of its funds will be used for education, the State priority plan must describe the types of activities that will be covered, participating entities, expected outcomes, and method(s) that

Forest Service, USDA

§ 230.40

will be used for documenting and evaluating accomplishments.

§ 230.38 State priority plan—technical assistance.

(a) Technical assistance includes, but is not limited to:

(1) Agreements with other agencies, institutions of higher education, natural resource consultants, or private organizations to augment or complement existing services of a State Forestry agency;

(2) Grants, agreements, contracts or other arrangements to provide services to landowners not offered by a State;

(3) Support of existing technical assistance delivery by State forestry agencies or development of such technical assistance;

(4) The development or application of new tools or technology for servicing landowners; or

(5) Similar undertakings.

(b) If a State determines that all or some of its funds will be used for technical assistance, the State priority plan shall describe:

(1) Who will provide the assistance;

(2) Outreach efforts directed at specific groups or categories of landowners;

(3) Expected long- and short-term outcomes; and

(4) Method(s) for documenting accomplishments.

§ 230.39 State priority plan—financial assistance.

(a) Cost-share financial assistance includes a wide range of activities and practices developed by a State Forester, in cooperation with the State Forest Stewardship Coordinating Committee.

(b) A State does not have to adopt a separate FLEP cost-share program if a State cost-share program already exists that meets the objectives of FLEP. However, FLEP funds must be accounted for in accordance with Federal financial accounting standards. If an existing cost-share program is used, a copy of the guidelines for that program must be referenced and attached to the State priority plan.

(c) If a State determines that all or some of its funds will be placed into a cost-share program, the State priority

plan must identify and describe how the cost-share funds will be made available to landowners participating in FLEP and expected outcomes and method(s) for documenting and evaluating accomplishments.

(d) The cost-share section of the State priority plan must include all of the following information:

(1) Describe any land ownership or annual acreage eligibility limitation under FLEP that is more restrictive than that established by the authorizing statute;

(2) Describe any limitations for cost-share of management plans;

(3) Define what constitutes a management plan if a State chooses to adopt more restrictive requirements than those established in this subpart; and

(4) Identify aggregate payment limitations to any one landowner receiving cost-share funds through FLEP.

(e) The State priority plan must also describe how funds identified for cost-share with landowners will be distributed and how cost-share rates are determined and established for each practice.

(f) The State priority plan must describe the application and payment process for landowners interested in participating in and receiving cost-share through FLEP (§ 230.42).

(g) The State priority plan must also address the following steps related to financial assistance:

(1) Application procedure;

(2) Approval process;

(3) Performance period;

(4) Cancellation of approvals;

(5) Certification of performance;

(6) Payment;

(7) Maintenance and compliance;

(8) Procedure for recapture of funds for non-compliance; and

(9) Appeals procedures.

§ 230.40 Eligible practices for cost-share assistance.

(a) The State priority plan must document and describe which of the following eleven categories will be made available to landowners for cost-share funding:

§ 230.41

36 CFR Ch. II (7-1-06 Edition)

(1) *Management Plan Development*—Development or revision of a management plan that must meet the minimum standards of a Forest Stewardship Plan (16 U.S.C. 2103a(f)(i)). The plan applies to those portions of the landowner's property on which any practice or activity funded under FLEP shall be carried out, as well as any property of the owner that may be affected by the activity or practice. Management plans are not subject to any acreage limits, and therefore cost-sharing such a plan under FLEP is exempt from the 1,000-acre (or 5,000-acre) limit unless restricted as described in the State priority plan.

(2) *Afforestation and Reforestation*—Site preparation, planting, seeding, or other practices to encourage natural regeneration or to ensure forest establishment and carbon sequestration.

(3) *Forest Stand Improvement*—Practices to enhance growth and quality of wood fiber, special forest products, and carbon sequestration.

(4) *Agroforestry Implementation*—Establishment, maintenance, and renovation of windbreaks, riparian forest buffers, silvopasture, alley cropping, or other agroforestry practices, including purposes for energy conservation and carbon sequestration in conjunction with agriculture, forest, and other land uses.

(5) *Water Quality Improvement and Watershed Protection*—Establishment, maintenance, renovation, and restoration practices, including any necessary design and engineering to improve and protect water quality, riparian areas, and forest wetlands and watersheds.

(6) *Fish and Wildlife Habitat Improvement*—Establishment, maintenance, and restoration practices to create, protect, or improve fish and wildlife habitat, including any necessary design and engineering.

(7) *Forest Health and Protection*—Establishment of practices primarily to detect, monitor, assess, protect, improve, or restore forest health, including detection and control of insects, diseases, and animal damage to established stands.

(8) *Invasive Species Control*—Establishment, maintenance and restoration practices primarily to detect, monitor,

eradicate, or control the spread of invasive species.

(9) *Wildfire and Catastrophic Risk Reduction*—Establishment of practices primarily to reduce the risk from wildfire and other catastrophic natural events.

(10) *Wildfire and Catastrophic Event Rehabilitation*—Establishment of practices primarily to restore and rehabilitate forests following wildfire and other catastrophic natural events.

(11) *Special Practices*—Establishment, maintenance, and restoration practices addressing other conservation concerns on nonindustrial private forest lands as proposed by the State Forester and the Committee, which must have concurrence by the responsible official.

(b) A practice may consist of one or more components.

§ 230.41 Eligibility requirements for cost-share assistance.

(a) All landowners of nonindustrial private forest land as defined in § 230.31 of this subpart, including those who engage in primary processing of raw wood products on a part-time or intermittent basis and who otherwise meet the requirements of this section, are eligible to apply for and receive assistance under FLEP without regard to race, color, religion, national origin, age, sex, disability, political affiliation, sexual orientation, or marital or family status.

(b) A landowner is eligible to receive funds under the cost-share element of FLEP for treatment of not more than a total of 1,000 acres of land annually, except where a State Forester, with the concurrence of a responsible official, determines that significant public benefits would accrue from approval of a landowner's treating up to 5,000 acres annually. In making a determination of significant public benefits, the State Forester and the responsible official shall consider, at a minimum, whether landowners who treat more than 1,000 acres annually can achieve cost-effective resource management objectives without unduly excluding FLEP participation of other eligible landowners.

(c) In order to meet the following minimum requirements to be eligible to receive cost-share through FLEP for

all practices except development of a management plan, a landowner must:

(1) Own the minimum acreage as established in the State priority plan; however, in no case shall the minimum acreage requirement be higher than 25 acres;

(2) Agree to conduct land treatment(s) according to the landowner's practice plan and to maintain FLEP practices for a minimum of 10 years, unless the State Forester specifies a shorter duration. The 10-year lifespan does not apply to recurring practices such as prescribed burning, light disking in openings, herbicide application, and other practices that are identified as needed in the management plan and practice plan; and

(3) Have a management plan submitted to the State Forester in which the lands are located that meets any requirements established by the State in its priority plan. Existing landowner management plans such as Tree Farm management plans, Forest Stewardship management plans, or similar plans may either meet, or can be amended to meet this requirement.

(d) A leaseholder who has a long-term lease on the land to be treated through FLEP must provide a copy of the lease to the State Forester in order to be eligible to receive cost-share assistance.

§ 230.42 Cost-share assistance application and payment procedures.

(a) Landowner applications for cost-share payments shall not be approved unless cost-share funds are available. The obligation of funds upon approval of an application constitutes an agreement by the State and the landowner to cost-share a completed practice on a reimbursable basis when the service representative verifies that the practice has been implemented.

(b) Upon receiving an application for an eligible FLEP practice and making a determination that funds are available, a service representative shall prepare a practice plan that identifies the needed practices, specifications, and performance period for the implementation of the practice(s) to achieve the objectives of the landowner. The requirements of a practice plan may be contained in a management plan. The practice plan is the basis for deter-

mining acceptable performance upon completion of the practice.

(c) Upon approval of a FLEP application, the State Forester shall notify the landowner in writing. Such notice shall state that the landowner can begin implementing the approved practice(s) and that funds have been obligated for reimbursement of a specified amount of the total cost. Practice costs incurred before approval are not eligible unless authorized by the State Forester. The notice shall also state that payment shall be made upon the service representative's verification that the practice has been implemented in accordance with the specifications of the practice plan and activities described in the management plan.

(d) Any landowner who carries out practices under FLEP shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations.

(e) To be eligible for cost-share reimbursement payment, a landowner must complete each practice within the performance period specified in the State priority plan, not to exceed 24 months. However, if practice(s) are not completed within the performance period specified, due to conditions beyond the landowner's control, the State Forester may grant an extension for a time period specified in the State priority plan, not to exceed 12 months.

(f) Upon certification by the service representative that a practice has been completed in accordance with the practice plan, the cost-share payment shall be calculated and disbursed to the landowner. Landowners must provide to service representatives the right of access to the landowner's property to inspect practices for the duration of the maintenance period for the practices.

(g) The maximum aggregate amount of cost-share payment under FLEP to any one landowner shall not exceed \$100,000 through 2007, with the following exception for Alaska Indian Tribes. The Alaska State Forester, in consultation with the State Forest Stewardship Coordinating Committee

§ 230.42

36 CFR Ch. II (7-1-06 Edition)

and the Responsible Official, shall establish the maximum aggregate payment to any one Alaska Indian Tribe, however, the 1,000- and 5,000-acre limits shall apply.

(h) The State priority plan shall set the levels of cost-share assistance to be paid to landowners, not to exceed 75 percent of the total costs incurred by a participating landowner. Non-Federal program funds and other donated assistance may be used to supplement cost-share through FLEP; however, the total of all funds and assistance shall not exceed 100 percent of the total cost of practice implementation, and the Federal share of the total cost shall be reduced by any gross revenue from any material sold as a result of the cost-share practice.

(i) States may use the cost-share rate to define priority practices and priority areas by reserving the maximum rate of 75 percent of the total costs for the practices and areas having the highest priority.

(j) State priorities for cost-share shall reflect the national priorities as listed in the Forest Service Manual Chapter 3310.

(k) Other priorities may be developed by the State Forester in consultation with the State Forest Stewardship Coordinating Committee.

(l) A landowner may receive partial payment, if allowed in the State priority plan, for completed components on the condition that the landowner agrees to complete the remaining components of the practice within the performance period specified in the practice plan.

(m) Where performance actually rendered does not meet the minimum specifications of a practice due to factors beyond the landowner's control, the State Forester may approve cost-share payments under one of the following conditions:

(1) The landowner repeats application of practices previously implemented or establishes additional eligible practices under such terms and conditions as the service representative may require, in which case the State Forester may approve cost-share payments for additional or repeated practices to the extent such measures are needed to meet

the objectives of the management plan; or

(2) The landowner establishes, to the satisfaction of the service representative that:

(i) A reasonable effort was made to meet the minimum requirements; and

(ii) The practice, as performed, adequately meets the objectives of the practice plan.

(n) In case of death or incompetence of any landowner, the State Forester shall approve cost-share payments to the successor in title or other persons or entities in control of the landowner property if they agree to maintain the practices for the duration of the required maintenance period.

(o) Any landowner who may be entitled to a cost-share payment under this subpart may assign the right thereto, in whole or in part, under the following terms:

(1) Payments may be assigned only for performance of a FLEP practice;

(2) A payment that is made to a landowner may not be assigned to pay or secure any preexisting debt; and

(3) Nothing in this section shall be construed to authorize suit against the United States, the Department of Agriculture, the Forest Service, any State or any disbursing agent acting on their behalf, if payment is made to an assignor rather than to an assignee or if payment is made to only one of several assignees.

(p) No financial assistance or portion thereof due and owing to any landowner shall be subject to any claim arising under State or other law by any creditor, except for claims of agencies of the United States Government.

(q) Prior to receiving approval to implement any FLEP practice identified in the State priority plan, except for management plan development, eligible landowners shall have an approved practice plan providing appropriate technical standards concerning the performance of the requested practice(s). A service representative shall approve the plan. In reviewing and approving plans, to the extent deemed applicable by the service representative, existing landowner management plans such as Tree Farm management plans, Forest Stewardship management plans, or similar plans may either meet, or can

Forest Service, USDA

§ 230.45

be amended to meet, the practice plan requirements under FLEP.

§ 230.43 Cost-share assistance—prohibited practices.

(a) Cost-share payments for the following are prohibited:

(1) Costs incurred before an application for cost-share is approved in writing, except:

(i) As pre-approved by the State Forester, or

(ii) The materials and items that may be purchased before approval of the practice as described in the State priority plan;

(2) Repeated practices on the same site within the required maintenance period which have been implemented under any other Federal, State, or local government programs, or private sector programs, except where such practices are repeated due to a failure of a prior practice without fault of the landowner or recurring practices as noted in this subpart;

(3) Capital investments or capital improvements not related to FLEP practices, purchase of land or any interest in land, or any interest in an endowment as provided in section 230.32(k) and (l);

(4) Practices associated with the development of or improvement to landowner nursery operations;

(5) Practices associated with the development of or improvement to nut and fruit orchards or Christmas tree plantings or maintenance; or

(6) Any practice that is not related to the long-term sustainability of non-industrial private forest lands or agroforestry activities.

§ 230.44 Cost-share assistance—reporting requirement.

(a) FLEP cost-share accomplishments should be reported using the following standard categories of practices:

(1) FLEP1—Management Plan Development;

(2) FLEP2—Afforestation and Reforestation;

(3) FLEP3—Forest Stand Improvement;

(4) FLEP4—Agroforestry Implementation;

(5) FLEP5—Water Quality Improvement and Watershed Protection;

(6) FLEP6—Fish and Wildlife Habitat Improvement;

(7) FLEP7—Forest Health and Protection;

(8) FLEP8—Invasive Species Control;

(9) FLEP9—Fire and Catastrophic Risk Reduction;

(10) FLEP10—Fire and Catastrophic Event Rehabilitation; and

(11) FLEP11—Special Practices.

(b) All reporting must include activities and accomplishments for each category of FLEP practices.

§ 230.45 Recapture of cost-share assistance.

(a) Payments made to landowners may be recaptured under one or more of the following circumstances:

(1) If any landowner, successor, or assignee uses any scheme or device to unjustly benefit from FLEP. A scheme or device includes, but is not limited to, coercion, fraud or misrepresentation, false claims, or any business dissolution, reorganization, revival, or other legal mechanism designed for or having the effect of evading the requirements of FLEP. Financial assistance payments shall be withheld or a refund of all or part of any FLEP payments otherwise due or paid to that person shall be secured.

(2) If any landowner or successor takes any action or fails to take action, which results in the destruction or impairment of a prescribed practice for the duration of the practice. Cost-share payments shall be withheld or a recapture of all or part of any FLEP payments otherwise due or paid shall be secured, based on the extent and effect of destruction and impairment.

(3) If a landowner sells, conveys, or otherwise loses control of the land, except when determined by a State Forester to have been beyond the landowner's control, upon which there is a continuing obligation to maintain a practice, and the new landowner does not agree to assume the responsibility for maintaining the practice. In such cases the landowner who was originally obligated to maintain the practice shall be liable to reimburse the State(s) for all cost-share on such practices.

§ 230.46

(b) Nothing in this section requiring the withholding or refunding of financial assistance payments shall preclude any penalty or liability otherwise imposed by law.

(c) Any landowner, successor, or assignee who is dissatisfied with any determination made under FLEP may request reconsideration by the State Forester and, if the matter is not resolved, by the Responsible Official. All requests for reconsideration shall be in writing and shall contain factual information explaining the basis for the request. All decisions on reconsideration must be issued in writing.

§ 230.46 Information collection requirements.

The requirements governing the preparation of a State priority plan, management plan, and practice plan, the reporting requirements, and the application requirements of this subpart constitute information requirements as defined by the Paperwork Reduction Act of 1995 and have been assigned Office of Management and Budget (OMB) control number 0596-0168.

PART 241—FISH AND WILDLIFE

Subpart A—General Provisions

Sec.

- 241.1 Cooperation in wildlife protection.
- 241.2 Cooperation in wildlife management.
- 241.3 Federal refuge regulations.

Subpart B—Conservation of Fish, Wildlife, and Their Habitat, Chugach National Forest, Alaska

- 241.20 Scope and applicability.
- 241.21 Definitions.
- 241.22 Consistency determinations.
- 241.23 Taking of fish and wildlife.

AUTHORITY: 16 U.S.C. 472, 539, 551, 683.

Subpart A—General Provisions

SOURCE: 6 FR 1987, Apr. 17, 1941, unless otherwise noted.

§ 241.1 Cooperation in wildlife protection.

(a) Officials of the Forest Service will cooperate with State, county, and Federal officials in the enforcement of all

36 CFR Ch. II (7-1-06 Edition)

laws and regulations for the protection of wildlife.

(b) Officials of the Forest Service who have been, or hereafter may be, lawfully appointed deputy game wardens under the laws of any State, will serve in such capacity with full power to enforce the State laws and regulations relating to fur-bearing and game animals, birds, and fish. Such officials will serve as State deputy game wardens without additional pay, except that they may accept the usual fees allowed by the respective States for issuing hunting and fishing licenses. All officials of the Forest Service are prohibited from accepting bounties, rewards, or parts of fines offered by any person, corporation or State for aid rendered in the enforcement of any Federal or State law relating to fur-bearing and game animals, birds, and fish.

§ 241.2 Cooperation in wildlife management.

The Chief of the Forest Service, through the Regional Foresters and Forest Supervisors, shall determine the extent to which national forests or portions thereof may be devoted to wildlife protection in combination with other uses and services of the national forests, and, in cooperation with the Fish and Game Department or other constituted authority of the State concerned, he will formulate plans for securing and maintaining desirable populations of wildlife species, and he may enter into such general or specific cooperative agreements with appropriate State officials as are necessary and desirable for such purposes. Officials of the Forest Service will cooperate with State game officials in the planned and orderly removal in accordance with the requirements of State laws of the crop of game, fish, fur-bearers, and other wildlife on national forest lands.

§ 241.3 Federal refuge regulations.

Until a cooperative agreement has been entered into between the Chief of the Forest Service and appropriate State officials for the regulation of game as provided in § 241.2 and the necessary implementing laws or regulations have been promulgated and taken
