

## §92.5

## 50 CFR Ch. I (10–1–06 Edition)

*Game Management Unit*, also referred to simply as *Unit*, means 1 of the 26 geographical areas listed in the codified State of Alaska hunting and trapping regulations and on maps of the Alaska State Game Management Units.

*Immediate family* means spouse, children, parents, grandchildren, grandparents, and siblings.

*Included areas* are defined in §92.5.

*Indigenous inhabitant* means a permanent resident of a village within a subsistence harvest area, regardless of race.

*Migratory bird*, for the purposes of this part, means the same as defined in §10.12 of subchapter B of this chapter. Species eligible to harvest are listed in §92.32.

*Native* means the same as “Alaska Native” as defined in this section.

*Nonwasteful taking* means making a reasonable effort to retrieve all birds killed or wounded, and retaining such birds in possession between the place where taken and the hunter’s permanent or temporary place of residence, or to the location where the birds will be consumed or preserved for food.

*Partner organization or regional partner* means a regional or local organization, or a local or tribal government that has entered into a formal agreement with the U.S. Fish and Wildlife Service for the purpose of coordinating the regional programs necessary to involve subsistence hunters in the regulatory process described in this part.

*Permanent resident* means any person whose primary, permanent home for the previous 12 months was within a subsistence harvest area in Alaska. Whenever absent from this primary, permanent home, the person has the intention of returning to it. Factors demonstrating a person’s primary, permanent home may include: an address listed on an Alaska Permanent Fund dividend application; an Alaska license to drive, hunt, fish, or engage in an activity regulated by a government entity; voter registration; location of residences owned, rented, or leased; location of stored household goods; the residence of the person’s spouse, minor children, or dependents; tax documents; whether the person claims residence in another location for any pur-

pose; or status as a tribal member of a tribe in a subsistence harvest area.

*Seabirds* refers to all bird species listed in §92.32 within the families Alcidae, Laridae, Procellariidae, and Phalacrocoracidae.

*Service Regulations Committee* means the Migratory Bird Regulations Committee of the U.S. Fish and Wildlife Service.

*Shorebirds* refers to all bird species listed in §92.32 within the families Charadriidae, Haematopodidae, and Scolopacidae.

*State* means State of Alaska.

*Subsistence* means the customary and traditional harvest or use of migratory birds and their eggs by eligible indigenous inhabitants for their own nutritional and other essential needs.

*Subsistence harvest areas* encompass customary and traditional hunting areas of villages in Alaska that qualify for a spring or summer subsistence harvest of migratory birds under this part.

*Taxidermy* refers to birds preserved and mounted in lifelike representations. Taxidermy does not include preserving bird parts to be integrated into traditional arts and crafts.

*Village* is defined as a permanent settlement with one or more year-round residents.

*Waterfowl* refers to all bird species listed in §92.32 within the family Anatidae.

[67 FR 53517, Aug. 16, 2002, as amended at 68 FR 43027, July 21, 2003; 69 FR 17327, Apr. 2, 2004]

### §92.5 Who is eligible to participate?

If you are a permanent resident of a village within a subsistence harvest area, you will be eligible to harvest migratory birds and their eggs for subsistence purposes in the spring and summer.

(a) *Included areas*. Village areas located within the Alaska Peninsula, Kodiak Archipelago, the Aleutian Islands, or in areas north and west of the Alaska Range are subsistence harvest areas, except that villages within these areas not meeting the criteria for a subsistence harvest area as identified in paragraph (c) of this section will be excluded from the spring and summer subsistence harvest.

(1) Any person may request the Co-management Council to recommend that an otherwise included area be excluded by submitting a petition stating how the area does not meet the criteria identified in paragraph (c) of this section. The Co-management Council will forward petitions to the appropriate regional management body for review and recommendation. The Co-management Council will then consider each petition and will submit to the U.S. Fish and Wildlife Service any recommendations to exclude areas from the spring and summer subsistence harvest. The U.S. Fish and Wildlife Service will publish any approved recommendations to exclude areas in subpart D of this part.

(2) Based on petitions for inclusion recommended by the Co-management Council in 2003, the Service added the following communities to the included areas under this part starting in the 2004 harvest season:

(i) Upper Copper River Region—Gulkana, Gakona, Tazlina, Copper Center, Mentasta Lake, Chitina, Chistochina.

(ii) Gulf of Alaska Region—Chugach Community of Tatitlek, Chugach Community of Chenega, Chugach Community of Port Graham, Chugach Community of Nanwalek.

(iii) Cook Inlet Region—Tyonek.

(iv) Southeast Alaska Region—Hoonah.

(3) Based on petitions for inclusion recommended by the Co-management Council in 2004, the Service added the following communities to the included areas under this part starting in the 2005 harvest season:

(i) Southeast Region—Craig, Hydaburg, Yakutat.

(ii) [Reserved]

(b) *Excluded areas.* Village areas located in Anchorage, the Matanuska-Susitna or Fairbanks North Star Boroughs, the Kenai Peninsula roaded area, the Gulf of Alaska roaded area, or Southeast Alaska generally do not qualify for a spring or summer harvest. Communities located within one of these areas may petition the Co-management Council through their designated regional management body for designation as a spring and summer subsistence harvest area. The petition

must state how the community meets the criteria identified in paragraph (c) of this section. The Co-management Council will consider each petition and will submit to the Service any recommendations to designate a community as a spring and summer subsistence harvest area. The Service will publish any approved new designations of communities as spring and summer subsistence harvest areas in subpart D of this part. All areas outside Alaska are ineligible.

(c) *Criteria for determining designation as a spring and summer subsistence harvest area.* A previously excluded community may be included in the spring/summer harvest regulations if recommended by the Alaska Migratory Bird Co-management Council. The Alaska Migratory Bird Co-management Council will recommend designation of subsistence harvest areas based on a deliberative process using the best available information on nutritional and cultural needs and customary and traditional use. The Alaska Migratory Bird Co-management Council recommendations will accommodate traditional spring and summer harvests without creating new traditions or increasing harvest of migratory birds. Recommendations will be made based on the majority of factors and the weight of the evidence using the following criteria:

(1) A pattern of use recurring in the spring and summer of each year prior to 1999, excluding interruptions by circumstances beyond the user's control;

(2) The consistent harvest and use of migratory birds on or near the user's permanent residence;

(3) A use pattern that includes the handing down of knowledge of hunting skills and values from generation to generation;

(4) A use pattern in which migratory birds are shared or distributed among others within a definable community of persons; a community for purposes of subsistence uses may include specific villages or towns, with a historical pattern of subsistence use; and

(5) A use pattern that includes reliance for subsistence purposes upon migratory birds or their eggs and that meets nutritional and other essential needs including, but not limited to,

## §92.6

## 50 CFR Ch. I (10–1–06 Edition)

cultural, social, and economic elements of the subsistence way of life.

(d) *Participation by permanent residents of excluded areas.* Immediate family members who are permanent residents of excluded areas may participate in the customary spring and summer subsistence harvest in a village's subsistence harvest area with the permission of the village council, where it is appropriate to assist indigenous inhabitants in meeting their nutritional and other essential needs or for the teaching of cultural knowledge to or by their immediate family members. Eligibility for participation will be developed and recommended by the Co-management Council and adopted or amended by regulations published in subpart D of this part.

[67 FR 53517, Aug. 16, 2002, as amended at 68 FR 43027, July 21, 2003; 69 FR 17327, Apr. 2, 2004; 70 FR 18248, Apr. 8, 2005]

### §92.6 Use and possession of migratory birds.

You may not sell, offer for sale, purchase, or offer to purchase migratory birds, their parts, or their eggs taken under this part.

(a) *Eligible persons.* Under this part, you may take birds for human consumption only. Harvest and possession of migratory birds must be done using nonwasteful taking. Nonedible byproducts of migratory birds taken for food may be used for other purposes, except that taxidermy is not allowed.

(b) *Noneligible persons.* You may receive portions of birds or their eggs not kept for human consumption from eligible persons only if you have a valid permit issued under 50 CFR 21.27 for scientific research or education, and consistent with the terms and conditions of that permit.

[69 FR 17227, Apr. 2, 2004]

### §§ 92.7–92.9 [Reserved]

## Subpart B—Program Structure

### §92.10 Alaska Migratory Bird Co-management Council.

(a) *Establishment.* The U.S. Fish and Wildlife Service hereby establishes, as authorized by the Protocol amending the Canada Treaty, a statewide management body to be known as the Alas-

ka Migratory Bird Co-management Council.

(b) *Membership.* The Co-management Council must include Alaska Native, Federal, and State of Alaska representatives, as equals.

(1) The Federal and State governments will each seat one representative. The Federal representative will be appointed by the Alaska Regional Director of the U.S. Fish and Wildlife Service, and the State representative will be appointed by the Commissioner of the Alaska Department of Fish and Game. Regional partner organizations may seat 1 representative from each of the 12 regions identified in §92.11(a).

(2) The Federal and State representatives and the collective Native representatives will each have one vote, for a total of three votes for the entire council.

(c) *Roles and responsibilities.* The Co-management Council is authorized to:

(1) Hold public meetings for the purpose of conducting business related to spring and summer subsistence harvest of migratory birds;

(2) Develop recommendations for regulations governing the spring and summer subsistence harvest of migratory birds and their eggs;

(3) Develop recommendations for, among other things, law enforcement policies, population and harvest monitoring, education programs, research and use of traditional knowledge, and habitat protection;

(4) Develop procedures and criteria by which areas and communities can be determined to be eligible or ineligible for a spring/summer subsistence harvest;

(5) Provide guidelines to the regional management bodies each year for formulation of annual regulations;

(6) Consolidate regional recommendations and resolve interregional differences in order to prepare statewide recommendations;

(7) Establish committees to gather or review data, develop plans for Co-management Council actions, and coordinate programs with regional management bodies;

(8) Send regional representatives from the Co-management Council to meetings of the Pacific Flyway Council and to meetings of the other Flyway
