§ 783.1 Applicability.

This part governs and provides the requirements and authorities for administration of the Tree Assistance Program (TAP) of the Farm Service Agency. This program shall operate only to the extent funds are appropriated for this program. Payments will be limited to lost eligible trees, bushes or vines, and all claims are subject to the availability of funds.

§ 783.2 Administration.

(a) The program will be administered under the general supervision and direction of the Administrator, Farm Service Agency (FSA), and the Deputy Administrator for Farm Programs, FSA. In the field, the regulations in this part will be administered by the FSA State and county committees.

(b) State and county committees, and representatives and their employees, do not have authority to modify or waive any of the provisions of the regulations of this part.

(c) The State committee shall take any action required by the regulations of this part that the county committee has not taken. The State committee shall also:

(1) Correct, or require a county committee to correct any action taken by such county committee that is not in accordance with the regulations of this part; or

(2) Require a county committee to withhold taking any action that is not in accordance with this part.

(d) No provision or delegation to a State or county committee shall preclude the Deputy Administrator, FSA,

or a designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

(e) The Deputy Administrator may authorize State and county committees to waive or modify deadlines, except statutory deadlines, and other non-statutory requirements in cases where lateness or failure to meet such other requirements does not adversely affect operation of the program.

(f) Data furnished by the applicants will be used to determine eligibility for program benefits. Although participation in TAP is voluntary, program benefits will not be provided unless the participant furnishes all requested data.
