§ 220.7 Requirements for participation.

(a) The School Food Authority shall make written application to the State agency, or FNSRO where applicable, for any school in which it desires to operate the School Breakfast Program, if such school did not participate in the Program in the prior fiscal year. The School Food Authority shall also submit for approval, either with the application or at the request of the State agency, or FNSRO where applicable, a free and reduced price policy statement in accordance with part 245 of this chapter. A School Food Authority which simultaneously makes application for the National School Lunch Program and the School Breakfast Program shall submit one free and reduced price policy statement which shall provide that the terms, conditions, and eligibility criteria set forth in such policy statement shall apply to the service of free and reduced price lunches and to the service of free and reduced price breakfasts. If, at the time application is made for the School Breakfast Program, a School Food Authority has an approved free and re-

duced price policy statement on file with the State agency, or FNSRO where applicable, for the National School Lunch Program, it need only confirm in writing that such approved policy statement will also apply to the operation of its School Breakfast Program. Applications for the School Breakfast Program shall not be approved in the absence of an approved free and reduced price policy statement.

(1) A school which also either participates in the National School Lunch Program or only receives donations of commodities for its nonprofit lunch program under the provisions of part 250 of this chapter (commodity only school) shall apply the same set of eligibility criteria so that children who are eligible for free lunches shall also be eligible for free breakfasts and children who are eligible for reduced price lunches shall also be eligible for reduced price breakfasts.

(2) Schools shall obtain a minimum of two food safety inspections per school year conducted by a State or local governmental agency responsible for food safety inspections. Schools participating in more than one child nutrition program shall only be required to obtain a minimum of two food safety inspections per school year if the food preparation and service for all meal programs take place at the same facility. Schools shall post in a publicly visible location a report of the most recent inspection conducted, and provide a copy of the inspection report to a member of the public upon request.

(b) Applications shall solicit information in sufficient detail to enable the State agency to determine whether the School Food Authority is eligible to participate in the Program and extent of the need for Program payments.

(c) Within the funds available to them, State agencies, or FNSRO's where applicable, shall approve for participation in the School Breakfast Program any school making application and agreeing to carry out the program in accordance with this part. State agencies, or FNSRO's where applicable, have a positive obligation, however, to extend the benefits of the School

§ 220.7

Breakfast Program to children attending schools in areas where poor economic conditions exist.

(d) Any School Food Authority may employ a food service management company (or other nonprofit agency or nonprofit organization) in the conduct of its feeding operation in one or more of its schools. The contract between the School Food Authority and the food service management company shall expressly provide that:

(1) The food service management company shall maintain such records (supported by invoices, receipts, or other evidence) as the School Food Authority will need to meet its responsibilities under this part, and shall report thereon to the School Food Authority promptly at the end of each month;

(2) Any federally donated commodities received by the School Food Authority and made available to the food service management company shall enure only to the benefit to the School Food Authority's nonprofit school food service and be utilized therein; and

(3) The books and records of the food service management company pertaining to the School Food Authority's feeding operation shall be available for a period of 3 years from the date of the submission of the final Financial Status Report, for inspection and audit by representatives of the State agency, of the Department, and of the General Accounting Office at any reasonable time and place, except that if audit findings have not been resolved, the records shall be retained beyond the three-year period as long as required for the resolution of the issues raised by the audit.

(e) Each school food authority approved to participate in the program shall enter into a written agreement with the State agency or the Department through the FNSRO, as applicable, that may be amended as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the State agency or the FNSRO to suspend or terminate the agreement in accord-

If a single State agency administers any combination of the Child Nutrition Programs, that State agency shall provide each SFA with a single agreement with respect to the operation of those programs. Such agreements shall provide that the School Food Authority shall, with respect to participating schools under its jurisdiction:

(1)(i) Maintain a nonprofit school food service; (ii) in accordance with the financial management system established under § 220.13(i) of this part, use all revenues received by such food service only for the operation or improvement of that food service *Except that*, facilities, equipment, and personnel support with funds provided to a school food authority under this part may be used to support a nonprofit nutrition program for the elderly, including a program funded under the Older Americans Act of 1965 (42 U.S.C. 3001 *et seq.*); (iii) revenues received by the nonprofit school food service shall not be used to purchase land or buildings or to construct buildings; (iv) limit its net cash resources to an amount that does not exceed three months average expenditure for its nonprofit school food service or such other amount as may be approved by the State agency; and (v) observe the limitations on any competitive food service as set forth in § 220.12 of this part;
