

Food and Nutrition Service, USDA

§ 246.11

available to the State agency shall be equivalent to the foods specified in paragraph (c) of this section.

(2) The State agency shall—

(i) Distribute the commodity foods to the local agency or participant;

(ii) Ensure satisfactory storage conditions for the commodity foods, including documentation of proper insurance; and

(iii) Ensure that there are proper storage facilities for commodity foods.

(e) *Plans for substitutions or eliminations.* (1) The State agency may submit to FNS a plan for substitution of food(s) acceptable for use in the Program to allow for different cultural eating patterns and substitution or elimination of a category of foods to accommodate the special needs of homeless persons, and/or residents of institutions if the State agency chooses to serve such persons under § 246.7(m)(2) of this part. The plan shall provide the State agency's justification, including a specific explanation of the cultural eating pattern or the homeless situation which requires the proposed alteration and other information necessary for FNS to evaluate the plan as specified in paragraph (e)(2) of this section for cultural substitutions and in paragraph (e)(3) of this section for homeless substitutions or eliminations.

(2) FNS will evaluate a State agency's plan for substitution of foods for different cultural eating patterns based on the following criteria:

(i) Any proposed substitute food must be nutritionally equivalent or superior to the food it is intended to replace.

(ii) The proposed substitute must be widely available to participants in the areas where the substitute is intended to be used.

(iii) The cost of the substitute must be equivalent to or less than the cost of the food it is intended to replace.

(3) FNS will evaluate a State agency's plan for substitution or elimination of a food category to accommodate the special needs of a specific group of homeless persons based on the justification presented by the State agency documenting the need. Documentation shall illustrate that all alternatives from within existing food packages have been explored and shall

include a specific description of the circumstances of the homeless persons to be served that necessitate the proposed food package alteration.

(4) FNS will make a determination on the proposed plan based on the evaluation criteria specified in paragraph (e)(2) or (e)(3) of this section, as appropriate. The State agency shall substitute or eliminate foods only after receiving the written approval of FNS.

(f) *Infant formula manufacturer registration.* Infant formula manufacturers supplying formula to the WIC Program shall register with the Secretary of Health and Human Services under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321 *et seq.*). Such manufacturers wishing to bid for a State contract to supply infant formula to the program shall first certify with the State health department that their formulas comply with the Federal Food, Drug, and Cosmetic Act and regulations issued pursuant to the Act.

§ 246.11 Nutrition education.

(a) *General.* (1) Nutrition education shall be considered a benefit of the Program, and shall be made available at no cost to the participant. Nutrition education shall be designed to be easily understood by participants, and it shall bear a practical relationship to participant nutritional needs, household situations, and cultural preferences including information on how to select food for themselves and their families. Nutrition education shall be thoroughly integrated into participant health care plans, the delivery of supplemental foods, and other Program operations.

(2) The State agency shall ensure that nutrition education is made available to all participants. Nutrition education may be provided through the local agencies directly, or through arrangements made with other agencies. At the time of certification, the local agency shall stress the positive, long-term benefits of nutrition education

and encourage the participant to attend and participate in nutrition education activities. However, individual participants shall not be denied supplemental foods for failure to attend or participate in nutrition education activities.

(3) As an integral part of nutrition education, the State agency shall ensure that local agencies provide drug and other harmful substance abuse information to all pregnant, postpartum, and breastfeeding women and to parents or caretakers of infants and children participating in the program. Drug and other harmful substance abuse information may also be provided to pregnant, postpartum, and breastfeeding women and to parents or caretakers of infants and children participating in local agency services other than the Program.

(b) *Goals.* Nutrition education shall be designed to achieve the following two broad goals:

(1) Stress the relationship between proper nutrition and good health with special emphasis on the nutritional needs of pregnant, postpartum, and breastfeeding women, infants and children under five years of age, and raise awareness about the dangers of using drugs and other harmful substances during pregnancy and while breastfeeding.

(2) Assist the individual who is at nutritional risk in achieving a positive change in food habits, resulting in improved nutritional status and in the prevention of nutrition-related problems through optimal use of the supplemental foods and other nutritious foods. This is to be taught in the context of the ethnic, cultural and geographic preferences of the participants and with consideration for educational and environmental limitations experienced by the participants.

(c) *State agency responsibilities.* The State agency shall perform the following activities in carrying out nutrition education responsibilities:

(1) Develop and coordinate the nutrition education component of Program operations with consideration of local agency plans, needs and available nutrition education resources.

(2) Provide in-service training and technical assistance for professional

and para-professional personnel involved in providing nutrition education to participants at local agencies. The State agency shall also provide training on the promotion and management of breastfeeding to staff at local agencies who will provide information and assistance on this subject to participants.

(3) Identify or develop resources and educational materials for use in local agencies, including breastfeeding promotion and instruction materials, taking reasonable steps to include materials in languages other than English in areas where a significant number or proportion of the population needs the information in a language other than English, considering the size and concentration of such population and, where possible, the reading level of participants.

(4) Develop and implement procedures to ensure that nutrition education is offered to all adult participants and to parents and guardians of infant or child participants, as well as child participants, whenever possible.

(5) Monitor local agency activities to ensure compliance with provisions set forth in paragraphs (c)(7), (d), and (e) of this section.

(6) Establish standards for participant contacts that ensure adequate nutrition education in accordance with paragraph (e) of this section.

(7) Establish standards for breastfeeding promotion and support which include, at a minimum, the following:

(i) A policy that creates a positive clinic environment which endorses breastfeeding as the preferred method of infant feeding;

(ii) A requirement that each local agency designate a staff person to coordinate breastfeeding promotion and support activities;

(iii) A requirement that each local agency incorporate task-appropriate breastfeeding promotion and support training into orientation programs for new staff involved in direct contact with WIC clients; and

(iv) A plan to ensure that women have access to breastfeeding promotion and support activities during the prenatal and postpartum periods.

Food and Nutrition Service, USDA

§ 246.12

(d) *Local agency responsibilities.* Local agencies shall perform the following activities in carrying out their nutrition education responsibilities:

(1) Make nutrition education available or enter into an agreement with another agency to make nutrition education available to all adult participants, and to parents or caretakers of infant and child participants, and whenever possible, to child participants. Nutrition education may be provided through the use of individual or group sessions. Educational materials designed for Program participants may be utilized to provide education to pregnant, postpartum, and breastfeeding women and to parents or caretakers of infants and children participating in local agency services other than the program.

(2) Develop an annual local agency nutrition education plan consistent with the State's nutrition education component of Program operations and in accordance with this part and FNS guidelines. The local agency shall submit its nutrition education plan to the State agency by a date specified by the State agency.

(e) *Participant contacts.* (1) The nutrition education contacts shall be made available through individual or group sessions which are appropriate to the individual participant's nutritional needs. All pregnant participants shall be encouraged to breastfeed unless contraindicated for health reasons.

(2) During each six-month certification period, at least two nutrition contacts shall be made available to all adult participants and the parents or caretakers of infant and child participants, and wherever possible, the child participants themselves.

(3) Nutrition education contacts shall be made available at a quarterly rate, but not necessarily taking place within each quarter, to parents or caretakers of infant participants certified for a period in excess of six months.

(4) The local agency shall document in each participant's certification file that nutrition education has been given to the participant in accordance with State agency standards, except that the second or any subsequent nutrition education contact during a certification period that is provided to a

participant in a group setting may be documented in a masterfile. Should a participant miss a nutrition education appointment, the local agency shall, for purposes of monitoring and further education efforts, document this fact in the participant's file, or, at the local agency's discretion, in the case of a second or subsequent missed contact where the nutrition education was offered in a group setting, document this fact in a master file.

(5) An individual care plan shall be provided for a participant based on the need for such plan as determined by the competent professional authority, except that any participant, parent, or caretaker shall receive such plan upon request.

(6) Contacts shall be designed to meet different cultural and language needs of Program participants.

Subpart E—State Agency Provisions

§ 246.12 Food delivery systems.

(a) *General.* This section sets forth design and operational requirements for food delivery systems. In recognition of emergent electronic benefits transfer (EBT) technology, FNS may, on a case-by-case basis, modify regulatory provisions to the extent FNS determines the particular EBT system provides adequate safeguards that serve the purpose of the provisions being modified.

(1) *Management.* The State agency is responsible for the fiscal management of, and accountability for, food delivery systems under its jurisdiction. The State agency may permit only authorized vendors, home food delivery contractors, and direct distribution sites to accept food instruments.

(2) *Design.* The State agency must design all food delivery systems to be used by its local agencies.

(3) *FNS oversight.* FNS may, for a stated cause and by written notice, require revision of a proposed or operating food delivery system and will allow a reasonable time for the State agency to effect such a revision.
