 Spinach, New Zealand—*Tetragonia tetragonioides* (Pall.) Ktze.  
 Squash—*Cucurbita pepo* L., *C. moschata* (Duchesne) Poiret, and *C. maxima* Duchesne  
 Tomato—*Lycopersicon esculentum* Mill.  
 Tomato, husk—*Physalis pubescens* L.  
 Turnip—*Brassica rapa* L. subsp. *rapa*  
 Watermelon—*Citrullus lanatus* (Thunb.) Matsum. and Nakai var. *lanatus*

### § 361.2 General restrictions on the importation of seed and screenings.

(a) No person shall import any agricultural seed, vegetable seed, or screenings into the United States un-

less the importation is in compliance with this part.

(b) Any agricultural seed, vegetable seed, or screenings imported into the United States not in compliance with this part shall be subject to exportation, destruction, disposal, or any remedial measures that the Administrator determines are necessary to prevent the dissemination into the United States of noxious weeds.

(c) Except as provided in § 361.7(b), coated or pelleted seed may enter the United States only if each lot of seed is accompanied by an officially drawn and sealed sample of seed drawn from the lot before the seed was coated or pelleted. The sample must be drawn in a manner consistent with that described in § 361.5 of this part.

(d) Except as provided in §§ 361.4(a)(3) and 361.7(c), screenings of all agricultural seed and vegetable seed are prohibited entry into the United States.

### § 361.3 Declarations and labeling.

(a) All lots of agricultural seed, vegetable seed, and screenings imported into the United States must be accompanied by a declaration from the importer of the seed or screenings. The declaration must state the kind, variety, and origin of each lot of seed or screenings and the use for which the seed or screenings are being imported.

(b) Each container of agricultural seed and vegetable seed imported into the United States for seeding (planting) purposes must be labeled to indicate the identification code or designation for the lot of seed; the name of each kind or variety of agricultural seed or the name of each kind and variety of vegetable seed present in the lot in excess of 5 percent of the whole; and the designation "hybrid" when the lot contains hybrid seed. Kind and variety names used on the label shall conform to the kind and variety names used in the definitions of "agricultural seed" and "vegetable seed" in § 361.1. If any seed in the lot has been treated, each container must be further labeled, in type no smaller than 8 point, as follows:

(1) The label must indicate that the seed has been treated and provide the name of the substance or process used to treat the seed. Substance names
