(b) Any person desiring to provide air transportation as a commuter air carrier must comply with the provisions of part 298 of this chapter and submit data to support a fitness determination in accordance with part 204 of this chapter. An executed original plus two (2) true copies of the fitness data shall be filed with DOT Dockets, PL-401, 400 7th Street, SW., Washington, DC 20590-0002. § 201.2 Amendments.
If, after receipt of any application, the Department asks the applicant to supply additional information, such information shall be furnished in the form of a supplement to the original application.

§ 201.3 Incorporation by reference.
Incorporation by reference shall be avoided. However, where two or more applications are filed by a single carrier, lengthy exhibits or other documents attached to one may be incorporated in the others by reference if that procedure will substantially reduce the cost to the applicant.

§ 201.4 General provisions concerning contents.
(a) All pages of an application shall be consecutively numbered, and the application shall clearly describe and identify each exhibit by a separate number or symbol. All exhibits shall be deemed to constitute a part of the application to which they are attached. (b) All amendments to applications shall be consecutively numbered and shall comply with the requirements of this part.
(c) Requests for authority to engage in interstate air transportation shall not be included in the same application with requests for authority to engage in foreign air transportation. Similarly, requests for authority to engage in scheduled air transportation under section 41102 of the Statute or with requests for authority to engage in interstate all-cargo air transportation under section 41103 of the Statute shall not be included in the same application with requests for authority to engage in charter air transportation under section 41102 of the Statute.

(e) Each application for foreign scheduled air transportation shall include an adequate identification of each route for which a certificate is desired, including the terminal and intermediate points to be included in the certificate for which application is made.
(f) Each application shall give full and adequate information with respect to each of the relevant filing requirements set forth in part 204 of this chapter. In addition, the application may contain such other information and data as the applicant shall deem necessary or appropriate in order to acquaint the Department fully with the particular circumstances of its case; however, the statements contained in an application shall be restricted to significant and relevant facts.

(1) Advertise, list schedules, or accept reservations for the air transportation covered by its application until the application has been approved by the Department; or

(b) An applicant for new or amended certificate or commuter air carrier authority may not advertise or publish schedule listings for the air transportation covered by its application after the application has been approved by the Department (but before all authority issued by DOT, including the FAA, becomes effective) unless such advertising or schedule listings prominently state: “This service is subject to receipt of government operating authority.”

§ 201.6 Applicability.

Unless the certificate or the order authorizing its issuance shall otherwise provide, such terms, conditions and limitations as are set forth in this part, and as may from time to time be prescribed by the Department, shall apply to the exercise of the privileges granted by each certificate issued under section 41102 or section 41103 of the Statute.

§ 201.7 General certificate conditions.

(a) It shall be a condition upon the holding of a certificate that any intentional failure by the holder to comply with any provision of Statute or any order, rule, or regulation issued thereunder or any term, condition, or limitation of such certificate shall be a failure to comply with the terms, conditions, and limitations of the certificate within the meaning of section 41110 of the Statute even though the failure to comply occurred outside the territorial limits of the United States, except to the extent that such failure shall be necessitated by an obligation, duty, or liability imposed by a foreign country.

(b) Failure to file the reports required by part 241, 291, or 298 of this chapter shall be sufficient grounds to revoke a certificate.

(c) The authority to transport U.S. mail under a certificate is permissive, unless the Department, by order or rule, directs a carrier or class of carriers to transport mail on demand of the U.S. Postal Service; such certificate confers no right to receive subsidy, for the carriage of mail or otherwise.

(d) An all-cargo air transportation certificate shall confer no right to carry passengers, other than cargo attendants accompanying a shipment, or to engage in any air transportation outside the geographical scope of interstate cargo transportation. Such certificate shall not, however, restrict the right of the holder to provide scheduled, charter, contract, or other transportation of cargo, by air, within that geographical scope.

(e) It shall be a condition upon the holding of a certificate that the holder have and maintain in effect and on file with the Department a signed counterpart of Agreement 18900 (OST Form 4523), and a tariff (for those carriers otherwise generally required to file tariffs) that includes its terms, and that the holder comply with all other requirements of part 203. OST Form 4523 may be obtained from the Office of Aviation Analysis, Special Authorities Division.

PART 203—WAIVER OF WARSAW CONVENTION LIABILITY LIMITS AND DEFENSES

Sec. 203.1 Scope.
203.2 Applicability.
203.3 Filing requirements for adherence to Montreal Agreement.
203.4 Montreal Agreement as part of airline-passerger contract and conditions of carriage.
203.5 Compliance as condition on operations in air transportation.

SOURCE: ER–1324, 48 FR 8044, Feb. 25, 1983, unless otherwise noted.

§ 203.1 Scope.

This part requires that certain U.S. and foreign direct air carriers waive the passenger liability limits and certain carrier defenses in the Warsaw Convention in accordance with the provisions of Agreement 18900, dated May 13, 1966, and provides that acceptance of authority for, or operations by the carrier in, air transportation shall be considered to act as such a waiver by that carrier.

§ 203.2 Applicability.

This part applies to all direct U.S. and foreign direct air carriers, except for air taxi operators as defined in part
§ 203.3 Filing requirements for adherence to Montreal Agreement.

All direct U.S. and foreign air carriers shall have and maintain in effect and on file in the Department’s Documentary Services Division (Docket 17325) on OST Form 4523 a signed counterpart to Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and Hague Protocol approved by CAB Order E–23680, dated May 13, 1966 (the Montreal Agreement), and a signed counterpart of any amendment or amendments to such Agreement that may be approved by the Department and to which the air carrier or foreign air carrier becomes a party. U.S. air taxi operators registering under part 298 of this chapter and Canadian charter air taxi operators registering under part 294 of this chapter may comply with this requirement by filing completed OST Forms 4507 and 4523, respectively, in accordance with the provisions of those parts.

§ 203.4 Montreal Agreement as part of airline-passenger contract and conditions of carriage.

(a) As required by the Montreal Agreement, carriers that are otherwise generally required to file tariffs shall file with the Department’s Tariffs Division a tariff that includes the provisions of the counterpart to Agreement 18900.

(b) As further required by that Agreement, each participating carrier shall include the Agreement’s terms as part of its conditions of carriage. The participating carrier shall give each of its passengers the notice required by the Montreal Agreement as provided in § 221.175 of this chapter.

(c) Participation in the Montreal Agreement, whether by signing the Agreement, filing a signed counterpart to it under § 203.3, or by operation of law under § 203.5, shall constitute a special agreement between the carrier and its passengers as a condition of carriage that a liability limit of not less than $75,000 (U.S.) shall apply under Article 22(1) of the Warsaw Convention for passenger injury and death. Such participation also constitutes a waiver of the defense under Article 20(1) of the Convention that the carrier was not negligent.

(The reporting provisions contained in paragraph (a) were approved by the Office of Management and Budget under control number 3024–0064.)

§ 203.5 Compliance as condition on operations in air transportation.

It shall be a condition on the authority of all direct U.S. and foreign carriers to operate in air transportation that they have and maintain in effect and on file with the Department a signed counterpart of Agreement 18900, and a tariff (for those carriers otherwise generally required to file tariffs) that includes its provisions, as required by this subpart. Notwithstanding any failure to file that counterpart and such tariff, any such air carrier or foreign air carrier issued license authority (including exemptions) by the Department or operating in air transportation shall be deemed to have agreed to the provisions of Agreement 18900 as fully as if that air carrier or foreign air carrier had in fact filed a properly executed counterpart to that Agreement and tariff.

[Docket No. 47582, 57 FR 38766, Aug. 27, 1992, as amended at 60 FR 43524, Aug. 22, 1995]
§ 204.6 Certificated and commuter air carriers proposing a change in operations, ownership, or management which is not substantial.

Carriers proposing to make a change which would not substantially affect their operations, management, or ownership, such as certificated carriers applying for additional authority which would not substantially change their operations, will be presumed to be fit and need not file any information relating to their fitness at time of the change. However, if the Department concludes, from its own analysis or based on information submitted by third parties, that such change may bring the carrier’s fitness into question, the Department may require the applicant carrier to file additional information.

§ 204.7 Revocation for dormancy.

(a) An air carrier that has not commenced any type of air transportation operations for which it was found fit, willing, and able within one year of the date of that finding, or an air carrier that, for any period of one year after the date of such a finding, has not provided any type of air transportation for which that kind of finding is required, is deemed no longer to continue to be fit to provide the air transportation for which it was found fit and, accordingly, its authority to provide such air transportation shall be revoked.

(b) An air carrier found fit which commences operations within one year after being found fit but then ceases operations, shall not resume operations without first filing all of the data required by § 204.3 at least 45 days before it intends to provide any such air transportation. Such filings shall be addressed to the Documentary Services Division, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. The Department will entertain requests for exemption from this 45-day advance filing requirement for good cause shown. If there has been no change in fitness data previously formally filed with the Department, the carrier shall file a sworn statement to that effect signed by one of its officers. The carrier may contact the Department (Air Carrier Fitness Division) to ascertain which data are already available to the Department and need not be refilled. A carrier to which this paragraph applies shall not provide any air transportation for which it is required to be found fit, willing, and able until the Department decides that the carrier continues to be fit, willing, and able to perform such air transportation. During the pendency of the Department’s consideration of a data submission under this paragraph, the expiration period set out in paragraph (a) of this section shall be stayed. If the decision or finding by the Department on the issue of the carrier’s fitness is favorable, the date or that decision or finding shall be the date considered in applying paragraph (a) of this section.

(c) For purposes of this section, the date of a Department decision or finding shall be the service date of the Department’s order containing such decision or finding, or, in cases where the Department’s decision or finding is made by letter, the date of such letter.

(d) For purposes of this section, references to operations and to the providing of air transportation shall refer only to the actual performance of flight operations under an operating certificate issued to the carrier by the FAA.

PART 205—AIRCRAFT ACCIDENT LIABILITY INSURANCE

Sec.
205.1 Purpose.
205.2 Applicability.
205.3 Basic requirements.
205.4 Filing of evidence of insurance.
205.5 Minimum coverage.
205.6 Prohibited exclusions of coverage.
205.7 Cancellation, withdrawal, modification, expiration, or replacement of insurance coverage.
205.8 Cargo liability disclosure statement.

§ 205.1 Purpose.

This part contains the rules for aircraft accident liability insurance coverage needed by U.S. direct air carriers to obtain or to exercise authority from the Department to operate in interstate or foreign air transportation, and by foreign direct air carriers to operate under permit or other authority in foreign air transportation. It further requires a disclosure statement to shippers about cargo liability limits and insurance coverage for U.S. and foreign direct air carriers.

§ 205.2 Applicability.

These rules apply to all U.S. direct air carriers, including commuter air carriers and air taxi operators as defined in §298.2 of this chapter, and foreign direct air carriers, including Canadian charter air taxi operators as defined in §294.2(c) of this chapter.

§ 205.3 Basic requirements.

(a) A U.S. or foreign direct air carrier shall not engage in air transportation unless it has in effect aircraft accident liability insurance coverage that meets the requirements of this part for its air carrier or foreign air carrier operations. The minimum amounts of coverage required by this part may be provided either by insurance policies or by self-insurance plans. The currently effective policy of insurance or complete plan for self-insurance shall be available for inspection by the Department at the carrier’s principal place of business. The current certificate of insurance or a summary of the complete self-insurance plan on file with the Department, as required by §205.4, shall be available for public inspection at the carrier’s principal place of business.

(b) For purposes of this part, a certificate of insurance is one or more certificates showing insurance by one or more insurers (excluding reinsurers) of currently effective and properly endorsed policies of aircraft accident liability insurance in compliance with this part. When more than one such insurer is providing coverage, the limits and types of liability assumed by each insurer (excluding reinsurers) shall be clearly stated in the certificate of insurance. Insurance policies and self-insurance plans named in a certificate of insurance that accompanies an application for initial registration or for operating authority shall become effective not later than the proposed starting date for air carrier operations as shown in the application.

(c) The certificate of insurance shall list the types or classes of aircraft, or the specific aircraft by FAA or foreign government registration number, with respect to which the policy of insurance applies, or shall state that the policy applies to all aircraft owned or operated by the carrier in its air transportation operations. With respect to certificates of insurance that list aircraft by government registration number, the policy or self-insurance plan shall state that, while an aircraft owned or leased by the carrier and declared in the policy is withdrawn from normal use because of its breakdown, repair, or servicing, such insurance as is provided by the policy or plan for that aircraft shall apply also to another aircraft of similar type, horsepower, and seating capacity, whether or not owned by the insured, while temporarily used as a substitute aircraft.

(d) Each certificate of insurance shall be signed by an authorized officer, agent, or other representative of the insurer or the insurance broker.

(e) Insurance coverage to meet the requirements of this part shall be obtained from one or more of the following:

1. An insurer licensed to issue aircraft accident liability policies in any State, Commonwealth, or Territory of the United States, or in the District of Columbia;

2. Surplus line insurers named on a current list of such insurers issued and approved by the insurance regulatory authority of any State, Commonwealth, or Territory of the United States or of the District of Columbia; or
Office of the Secretary, DOT § 205.5

(3) Insurers licensed or approved by a foreign government. This requirement may be waived by the Department in the public interest.

§ 205.4 Filing of evidence of insurance.

(a) A U.S. or foreign air carrier shall file a certificate of insurance or a complete plan for self-insurance with the Department. Each carrier shall ensure that the evidence of aircraft accident liability coverage filed with the Department is correct at all times. The Department will normally notify the carrier within 20 days of receipt if the certificate or plan does not meet the requirements of this part. Certificates of Insurance shall be filed on OST Form 6410 for U.S. air carriers, including commuter air carriers and air taxi operators, and OST Form 6411 for foreign air carriers, including Canadian air taxi operators. The Department may return the certificate or self-insurance plan to the carrier if it finds for good cause that such certificate or plan does not show adequate evidence of insurance coverage under this part. Forms may be obtained from and should be filed with the Department at the addresses specified in paragraph (c) of this section. Forms may also be obtained on the Internet at http://ostpxweb.dot.gov.

(b) If the coverage is by type or class of aircraft or by specific aircraft, endorsements that add previously unlisted aircraft or aircraft types or classes to coverage, or that delete listed aircraft, types, or classes from coverage, shall be filed with the Department at the addresses specified in paragraph (c) of this section not more than 30 days after the effective date of the endorsements. Aircraft shall not be listed in the carrier’s operations specifications with the FAA and shall not be operated unless liability insurance coverage is in force.

(c) Certificates of insurance and endorsements required in paragraphs (a) and (b) of this section shall be submitted to the Department of Transportation, Federal Aviation Administration, Program Management Branch, AFS–260, 800 Independence Avenue, SW., Washington, DC 20591. For those air carriers that have a mailing address in the State of Alaska, the forms shall be submitted to the Department of Transportation, Federal Aviation Administration, Alaskan Region Headquarters, AAL–230, 222 West 7th Avenue, Box 14, Anchorage, Alaska 99513. For Canadian air taxis, the forms shall be submitted to the Department of Transportation, Special Authorities Division, X–46, 400 7th Street, SW., Washington, DC 20590.

(Approved by the Office of Management and Budget under control number 2106–0030)

§ 205.5 Minimum coverage.

(a) Insurance contracts and self-insurance plans shall provide for payment on behalf of the carrier, within the specific limits of liability in this section, of all sums that the carrier shall become legally obligated to pay as damages, excluding any deductible in the policy, for bodily injury to or death of a person, or for damage to the property of others, resulting from the carrier’s operation or maintenance of aircraft in air transportation provided under its authority from the Department.

(b) U.S. and foreign direct air carriers, including commuter air carriers but excluding U.S. air taxi operators and Canadian charter air taxi operators, shall maintain the following coverage:

(1) Third-party aircraft accident liability coverage for bodily injury to or death of persons, including non-employee cargo attendants, other than passengers, and for damage to property, with minimum limits of $300,000 for any one person in any one occurrence, and a total of $20,000,000 per involved aircraft for each occurrence, except that for aircraft of not more than 60 seats or 18,000 pounds maximum pay-load capacity, carriers need only maintain coverage of $2,000,000 per involved aircraft for each occurrence.

(2) Any such carrier providing air transportation for passengers shall, in addition to the coverage required in
paragraph (b)(1) of this section, maintain aircraft accident liability insurance coverage for bodily injury to or death of aircraft passengers, with minimum limits of $300,000 for any one passenger, and a total per involved aircraft for each occurrence of $300,000 times 75 percent of the number of passenger seats installed in the aircraft.

(c) U.S. air taxi operators registered under part 298 shall maintain the following coverage:

(1) Third-party aircraft accident liability coverage for bodily injury to or death of persons, including non-employee cargo attendants, other than passengers, with minimum limits of:

(i) $75,000 for any one person in any one occurrence, and a total of $300,000 per involved aircraft for each occurrence, and

(ii) A limit of at least $100,000 for each occurrence for loss of or damage to property.

(2) U.S. air taxi operators carrying passengers in air transportation shall, in addition to the coverage required in paragraph (c)(1) of this section, maintain aircraft accident liability insurance coverage for bodily injury to or death of aircraft passengers, with minimum limits of $75,000 for any one passenger, and a total per involved aircraft for each occurrence of $75,000 times 75 percent of the number of passenger seats installed in the aircraft.

(d) Canadian charter air taxi operators registered under part 294 of this chapter shall maintain the following coverage:

(1) Third-party aircraft accident liability coverage for bodily injury to or death of persons, including non-employee cargo attendants, and for damage to property, with a minimum coverage of $75,000 for any one person in any one occurrence, and a total of $2,000,000 per involved aircraft for each occurrence, except that Canadian charter air taxi operators operating aircraft of more than 30 seats or 7,500 pounds maximum cargo payload capacity, and a maximum authorized takeoff weight on wheels not greater than 35,000 pounds shall maintain coverage for those aircraft of $20,000,000 per involved aircraft for each occurrence.

(2) Canadian charter air taxi operators engaging in passenger charter air service under part 294 of this chapter shall, in addition to the coverage required in paragraph (d)(1) of this section, maintain aircraft accident liability coverage for bodily injury to or death of aircraft passengers, with a minimum coverage of $75,000 for any one passenger and a total per involved aircraft for each occurrence of $75,000 times 75 percent of the total number of passenger seats installed in the aircraft.

(e) Notwithstanding paragraphs (b), (c) and (d) of this section, the carrier may be insured for a combined single limit of liability for each occurrence. The combined single-limit coverage must be not less than the combined required minimums for bodily injury and property damage coverage plus, if the aircraft is used in passenger service, the required total passenger coverages stipulated in paragraph (b) of this section for U.S. and foreign direct air carriers and commuter carriers, paragraph (c) of this section for U.S. air taxi operators, or paragraph (d) of this section for Canadian charter air taxi operators. The single-limit liability policy for the required aircraft accident liability coverage may be provided by a single policy or by a combination of primary and excess policies.

(f) The liability coverage shall not be contingent upon the financial condition, solvency, or freedom from bankruptcy of the carrier. The limits of the liability for the amounts required by this part shall apply separately to each occurrence. Any payment made under the policy or plan because of any one occurrence shall not reduce the coverage for payment of other damages resulting from any other occurrence.

[Docket No. 47939, 57 FR 40101, Sept. 2, 1992; 57 FR 52590, Nov. 4, 1992]

For example: the minimum single limit of liability acceptable for any aircraft in air taxi passenger service with 16 passenger seats would be computed on the basis of limits set forth in paragraph (c) as follows: 16 × 75 equals 12; 12 × $75,000 equals $900,000; $900,000 plus $300,000 (nonpassenger liability per occurrence) plus $100,000 (property damage per occurrence) equals $1,300,000. The latter amount is the minimum in which a single-limit liability policy may be written.
§ 205.6 Prohibited exclusions of coverage.

(a) No warranty or exclusion in the policy or plan or in any endorsement or amendment to the policy or plan, nor any violation of the policy or plan by the carrier, shall remove the liability coverage required by this part, except as specifically approved by the Department. This requirement shall not limit the right of insurers to recover from the carrier for amounts paid.

(b) A policy of insurance or a self-insurance plan required by this part shall not contain the following exclusions:

(1) Violation of any safety-related requirement imposed by statute or by rule of a government agency.

(2) Liability assumed by the carrier under an agreement to raise the liability limitations of the Warsaw Convention by signing a counterpart to the agreement of carriers (such as the Montreal Agreement, 1899, as approved by Board Order E-23680, May 13, 1966, agreeing to a limit on the carrier’s liability for injury or death of passengers of $75,000 per passenger), or any amendment to such agreement that may be approved by the Department and to which the carrier becomes a party.

§ 205.7 Cancellation, withdrawal, modification, expiration, or replacement of insurance coverage.

(a) Each policy of aircraft accident liability insurance and plan for self-insurance shall specify that it shall remain in force, and may not be replaced, canceled, withdrawn, or in any way modified to reduce the minimum standards set forth in this part, or to change the extent of coverage, by the insurer or the carrier, nor expire by its own terms, in regard to coverage for the carrier in its common carrier operations in air transportation, until 10 days after written notice by the insurer (in the event of replacement, by the retiring insurer), or by the insurer’s representative, or by the carrier, describing the change, to the Department at the addresses specified in § 205.4(d), which 10-day notice period shall start to run from the date such notice is actually received at the Department. For purposes of this part, a policy will not be considered to have expired if the same insurer renews its coverage without reduction in the extent of coverage or amounts of coverage, and without a break in coverage, whether or not a new policy is issued, and notice to the Department is not required in that event. If the coverage being changed is by type or class of aircraft or by specific aircraft, endorsements adding or deleting specific aircraft or types or classes of aircraft, for which prior notice would be required by this paragraph, shall be filed in accordance with § 205.4(b), and prior notice of the change need not be given under this paragraph.

(b) The requirements of this section shall not apply if the policy contains a lesser time period for cancellation in a war risk exclusion. If the war risk exclusion is activated by the insurer, the insurer or its representative shall immediately notify the Department.

§ 205.8 Cargo liability disclosure statement.

Every direct U.S. or foreign air carrier providing air cargo service in air transportation shall give notice in writing to the shipper, when a shipment is accepted, of the existence or absence of cargo liability insurance, and the limits on the extent of its liability, if any. The notice shall be clearly and conspicuously included on or attached to all of its rate sheets and airwaybills.

(3) Part 298, subpart D, §§298.30, and 298.38, and subpart H, and
(4) Part 298, subpart F, if the certificated carrier conducts operations with small aircraft only (a certificated carrier conducting operations with both small and large aircraft is subject only to the reporting requirements contained in part 241 of this chapter).
(b) If a certificated carrier, when conducting operations with small aircraft, provides foreign air transportation that includes a segment for which tariff filing is required and another segment for which tariff filing is not required, then for through service over that routing the carrier has the option of filing a tariff or charging the sum of the applicable local rates, fares, or
Office of the Secretary, DOT

SOURCE: Amdt. No. 211–18, 52 FR 5442, Feb. 22, 1987, unless otherwise noted.
§ 211.30 Eligibility.
Foreign carriers owned and controlled by citizens of the Federated States of Micronesia, the Marshall Islands, Palau and/or the United States may, in accordance with the provisions of paragraph 5(b) of Article IX of the Federal Programs and Services Agreement between the United States and those governments, apply for authority as “Freely Associated State Air Carriers.” The permit application for such authority shall be labeled on the front page, “Application for Freely Associated State Foreign Air Carrier Permit.”

§ 211.31 Application.
The application shall include, in addition to other requirements of this part, documentation clearly establishing:
(a) That the carrier is organized under the laws of the Federated States of Micronesia, the Marshall Islands, Palau or the United States;
(b) That substantial ownership and effective control of the carrier are held by citizens of the Federated States of Micronesia, the Marshall Islands, Palau and/or the United States;
(c) That citizens of other countries do not have interests in the carrier sufficient to permit them substantially to influence its actions, or that substantial justification exists for a temporary waiver of this requirement;
(d) That the Administrator of the Federal Aviation Administration has determined that the carrier complies with such safety standards as the Administrator considers to be required.
(e) That the government or governments of the Freely Associated States concerned have consented to the carrier’s operation as a “Freely Associated State Air Carrier.”

§ 211.32 Issuance of permit.
If the Department is satisfied that the applicant meets the requirements of §211.31 (a) through (e), and that grant of all or part of the requested authority would otherwise be in the public interest, the Department may, subject to Presidential review under section 801(a) of the Federal Aviation Act, issue a “Freely Associated State Foreign Air Carrier Permit” to the applicant, including such terms, conditions or limitations as the Department may find to be in the public interest.

§ 211.33 Interstate and interstate authority.
(a) An application under this subpart may include a request, in addition to other foreign air transportation, for authority to engage in interstate air transportation between Guam, the Commonwealth of the Northern Mariana Islands and Honolulu, Hawaii, and interstate air transportation within the Commonwealth of the Northern Mariana Islands. A request for all or part of such limited interstate air transportation authority shall be supported by documentation establishing:
(1) The impact of such interstate air transportation services on the economic projections of the carrier’s proposed operations;
(2) The need for such proposed interstate air transportation by the affected U.S. points;
(3) The economic impact of such interstate air transportation on services provided by other carriers providing essential air transportation services to eligible Freely Associated State points within the scope of part 272 of this chapter.
(b) The Department may grant a Freely Associated State Air Carrier authority to engage in all or part of the interstate air transportation requested in paragraph (a) of this section provided that the Department finds:
(1) That grant of such interstate air transportation authority would be in furtherance of the objectives of the Compact of Free Association and related agreements between the United States and the Freely Associated States, and would otherwise be in the public interest; and
(2) That grant of such interstate air transportation authority would not significantly impair the economic viability of existing services providing essential air transportation to any eligible Freely Associated State point within the scope of part 272 of this chapter.
or significantly increase compensation that may be required to maintain any such essential air transportation.

(c) The Department may, at any time, subject to Presidential review under section 41307, suspend, modify, or revoke such interstate authority if it concludes that the requirements specified in paragraph (b) of this section are not then being met.

§211.34 Other permits.

Nothing in this section shall be construed as limiting the authority of the Department to issue a foreign air carrier permit, other than a Freely Associated State Foreign Air Carrier Permit, to a carrier owned or controlled, in whole or in part, by citizens of the Federated States of Micronesia, the Marshall Islands or Palau, that does not meet the requirements of this section.

§211.35 Termination of eligibility.

The eligibility of a carrier owned or controlled, in whole or in part, by citizens of the Federated States of Micronesia, the Marshall Islands or Palau, respectively, for issuance of a Freely Associated State Foreign Air Carrier Permit under this subpart shall exist only for such period as subparagraphs (a), (d), and (e) (eligibility for Freely Associated State essential air transportation subsidy compensation), or subparagraph (c) (limited interstate air transportation authority), of paragraph (5) of the Agreement on Civil Aviation Economic Services and Related Programs (Article IX of the Federal Programs and Services Agreement) remain in effect between the Government of those States and the Government of the United States, insofar as authority is conferred by such permits for purposes specified in those subparagraphs.

Single entity charter means a charter the cost of which is borne by the charterer and not by individual passengers, directly or indirectly.

Sixth-freedom charter means a charter flight carrying traffic that originates in a country other than the country of the foreign air carrier’s home country, provided the flight operates via the home country of the foreign air carrier.

For the purpose of this section, payment to the carrier’s depository bank, as designated in the charter contract, shall be deemed payment to the carrier.
(f) A certificated or foreign air carrier operating a U.S.-originating passenger charter shall be responsible to return to his or her point of origin any passenger who purchased round trip transportation on that charter and who was transported by that carrier on his or her outbound flight; except that this provision shall not apply in cases where the return transportation is to be provided by another certificated or foreign air carrier.
(g) A certificated or foreign air carrier may not perform any charter flight for which a statement of authorization is required under §212.9 until one has been granted by the Department. (j) A certificated air carrier may not, except as set forth in part 121 of the Federal Aviation Regulations (14 CFR part 121), limit the availability, upon reasonable request, of air transportation and related services to a person who may require help from another person in expeditiously moving to an emergency exit for evacuation of an aircraft.

the charter price paid by or on behalf
of such participant);

cipant payments (including those for
accommodations and services) and assure
the certificated or foreign air carrier’s
contractual and regulatory responsibil-
ities to charter participants in the amount of at least
$10,000 times the number of flights, ex-
cept that the amount need not be more
than $200,000. The liability of the se-

price paid by or on behalf of such par-

cargo charter trip) originating in the
United States or any Overseas Military

bank no later than the close of the
business day following the receipt of
the check or money order or the cash,

(5) As used in this section the term “bank” means a bank insured by the Federal Deposit Insurance Corporation.

(b) The escrow agreement required under paragraph (a) of this section shall not be effective until approved by the Department. Claims against the escrow may be made only with respect to the non-performance of air transportation.

(c) The carrier may elect, in lieu of furnishing an escrow agreement pursuant to paragraph (a) of this section, to furnish and file with the Department a surety bond with guarantees to the United States Government the performance of all charter trips (other than cargo charter trips) originating in the United States and of all overseas military personnel charter trips, as defined in part 372 of this chapter, to be performed, in whole or in part, by such carrier pursuant to any contracts entered into by such carrier. The amount of such bond shall be unlimited.1 Claims under the bond may be made only with respect to the non-performance of air transportation.

(d) The bond permitted by this section shall be in the form set forth as

the appendix to this part. Such bond shall be issued by a bonding or surety company—

(1) Which is listed in Best’s Insurance Reports (Fire and Casualty) with a general policyholders’ rating of “A” or better or

(2) Which is listed in the U.S. Department of Treasury’s notice listing companies holding Certificates of Authority as acceptable sureties on Federal bonds and as acceptable reinsuring companies, published in the FEDERAL REGISTER on or about July 1. The bonding or surety company shall be one legally authorized to issue bonds of that type in the State in which there is located the office or usual residence of the agency designated by the carrier under 49 U.S.C. 46103 to receive service of notices, process and other documents issued by or filed with the Department of Transportation. For the purposes of this section the term “State” includes any territory or possession of the United States, or the District of Columbia. If the bond does not comply with the requirements of this section, or for any reason fails to provide satisfactory or adequate protection for the public, the Department will notify the certificated or foreign air carrier by registered or certified mail, stating the deficiencies of the bond. Unless such deficiencies are corrected within the time limit set forth in the notification, no amounts payable in advance by customers for the subject charter trips shall be accepted by the carrier.

(e) The bond required by this section shall provide that unless the charterer files a claim with the carrier, or, if the carrier is unavailable, with the surety, within 60 days after cancellation of a charter trip with respect to which the charterer’s advance payments are secured by the bond, the surety shall be released from all liability under the bond to such charterer for such charter trip. The contract between the carrier and the charterer shall contain notice of this provision.

1While the face amount of the bond is unlimited, claims are limited to amounts that are paid to carrier for U.S.-originating passenger charter flights that carrier fails to perform or to refund.

§ 212.10 Application for statement of authorization.

(a) Application for a statement of authorization shall be submitted on OST Form 4540 except that for part charters or long-term wet leases the application may be in letter form. An application for a long-term wet lease shall describe the purpose and terms of the wet lease agreement. Except for an application for a long-term wet lease involving a codeshare agreement, an original and two copies of an application shall be submitted to the Department of Transportation, Office of International Aviation, U.S. Air Carrier Licensing Division, X–44 (for an application by a certificated air carrier), or Foreign Air Carrier Licensing Division, X–45 (for an application by a foreign air carrier), 400 7th Street, SW., Washington, DC 20590; an original and two copies of an application for long-term wet lease involving a codeshare agreement shall be submitted to DOT Dockets, PL–401, 400 7th Street, SW., Washington, DC 20590, or by electronic submission to DOT Dockets according to procedures at the DOT Dockets website. Upon a showing of good cause, the application may be transmitted by facsimile (fax) or telegram, or may be made by telephone, provided, that in the case of a fax or telephone application, the applicant must confirm its request (by filing an original and two copies of its application as described above) within three business days.

(b) A copy of each application for a long-term wet lease shall also be served on the Director of Flight Standards Service (AFS–1), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, and on each certificated air carrier that is authorized to serve the general area in which the proposed transportation is to be performed.

(c)(1) Applicants for statements of authorization filed by foreign air carriers shall include documentation to establish the extent to which the country of the applicant’s nationality deals with U.S. air carriers on the basis of reciprocity for similar flights, if such flights are not subject to a bilateral agreement, and

(i) The Department has not established that the country accords reciprocity;

(ii) The Department has found reciprocity defective in the most recent
prior approval application involving the country; or

(iii) Changes in reciprocity have occurred since the most recent Department finding for the country in question.

(2) Applications filed by certificated or foreign air carriers to conduct long-term wet leases shall include, for the country of the lessee’s nationality, the documentation specified in paragraph (c)(1) of this section.

(d)(1) Applications shall be filed at least 5 business days before commencement of the proposed flight or flights, except as specified in paragraphs (d)(2), (d)(3), and (d)(4) of this section. Late applications may be considered upon a showing of good cause for the lateness.

(2) Applications for a part charter or for a long-term wet lease shall be filed at least 45 calendar days before the date of the first proposed flight.

(3) Applications specifically required under §212.9(d) shall be filed at least 30 calendar days before the proposed flight or flights (10 calendar days for cargo charters), unless otherwise specified by the Department.

(4) Applications required by a Department order under §212.9(e) shall be filed at least 14 calendar days before the proposed flight or flights, unless otherwise specified by the Department.

(5) Where an application is required by more than one provision of this part and/or order of the Department, only one application need be filed, but it must conform to the earliest applicable filing deadline.

(6) The Department may require service of applications as it deems necessary.

(e)(1) Any part in interest may file a memorandum supporting or opposing an application. Three copies of each memorandum shall be filed within 7 business days after service of the application or before the date of the proposed flight or flights, whichever is earlier. Memorandums will be considered to the extent practicable; the Department may act on an application without waiting for supporting or opposing memorandums to be filed.

(2) Each memorandum shall set forth the reasons why the application should be granted or denied, accompanied by whatever data, including affidavits, the Department is requested to consider.

(3) A copy of each memorandum shall be served on the certified or foreign air carrier applying for approval.

(f)(1) Unless otherwise ordered by the Department, each application and memorandum filed in response will be available for public inspection at the Office of International Aviation immediately upon filing. Such information with respect to codeshare applications and responsive pleadings will be available for public inspection at DOT Dockets or at the DOT Dockets website. Notice of the filing of all applications shall be published in the Department’s Weekly List of Applications Filed.

(2) Any person objecting to public disclosure of any information in an application or memorandum must state the grounds for the objection in writing. If the Department finds that disclosure of all or part of the information would adversely affect the objecting person, and that the public interest does not require disclosure, it will order that the injurious information be withheld.

§ 212.11 Issuance of statement of authorization.

(a) The Department will issue a statement of authorization if it finds that the proposed charter flight, part charter, or wet lease meets the requirements of this part and that it is in the public interest. Statements of authorization may be conditioned or limited.

(b) In determining the public interest the Department will consider (but not be limited to) the following factors:

(1) The extent to which the authority sought to be covered by and consistent with bilateral agreements to which the United States is a party.

(2) The extent to which an applicant foreign air carrier’s home country (and, in the case of a long-term wet lease, the lessee’s home country) deals with U.S. air carriers on the basis of substantial reciprocity.

(3) Whether the applicant or its agent has previously violated the provisions of this part.
\section*{Office of the Secretary, DOT}

(4) Where the application concerns a long-term wet lease:

(i) Whether the lessor (applicant) or its agent or the lessee (charterer) or its agent has previously violated the provisions of the Department’s charter regulations.

(ii) Whether, because of the nature of the arrangement and the benefits involved, the authority sought should be the subject of a bilateral agreement.

(iii) To what extent the lessor owns and/or controls the lessee, or is owned and/or controlled by the lessee.

(c) The Department will submit any denial of an authorization specifically required of a foreign air carrier under §212.9(d) to the President of the United States at least 10 days before the proposed departure. The denial will be subject to stay or disapproval by the President within 10 days after it is submitted. A shorter period for Presidential review may be specified by the Department where the application for authorization is not timely or properly filed. Denial of a late-filed application need not be submitted to the President. For the purposes of this paragraph, an application filed by a foreign air carrier under §212.9(d) to conduct a cargo charter will be considered as timely filed only if it is filed at least 30 calendar days before the proposed flight, notwithstanding the 10-day filing requirement for cargo charters in §212.10(d)(3).

(d) The Department will publish notice of its actions on applications for statements of authorization in its Weekly List of Applications Filed. Interested persons may upon request obtain copies of letters of endorsed forms advising applicants of action taken on their applications.

\section*{\textit{§212.12} Waiver.}

The Department may grant a waiver of any of the provisions of this part upon a finding that such waiver is in the public interest. A certificated or foreign air carrier may request a waiver by filing a written application with the Department, citing the specific provision to be waived and providing justification for such waiver.

\textbf{APPENDIX A TO \textit{PART 212—CERTIFICATED OR FOREIGN AIR CARRIER’S SURETY BOND UNDER \textit{PART 212 OF THE REGULATIONS OF THE DEPARTMENT OF TRANSPORTATION (14 CFR \textit{PART 212)}}}}

Whereas this bond is written to assure compliance by the Principal with rules and regulations of the Department of Transportation relating to security for the protection of charterer of civil aircraft for charter trips (other than cargo charter trips) originating in the United States or of Overseas Military Personnel Charter trips and shall inure to the benefit of any and all such charterers to whom the Principal may be held legally liable because of the Principal’s failure faithfully to perform, fulfill, and carry out all contracts made by the Principal while this bond is in effect for the performance of charter trips (other than cargo charter trips) involved, the authority sought should be the subject of a bilateral agreement.

Now, therefore, the condition of this obligation is such that if the Principal shall pay or cause to be paid to such charterer any sum or sums for which the Principal may be held legally liable by reason of the Principal’s failure faithfully to perform, fulfill, and carry out all contracts made by the Principal while this bond is in effect for the performance of charter trips (other than cargo charter trips) involved, the authority sought should be the subject of a bilateral agreement.

The Principal or the Surety may at any time terminate this bond by written notice to the Department of Transportation at its office in Washington, D.C., such termination to become effective thirty (30) days after actual receipt of said notice by the Department. The Surety shall not be liable hereunder for the payment of the damages hereinafter described which arise as the result of any contracts for the performance of air transportation services made by the Principal after the termination of this bond becomes effective, as herein provided, but such termination shall not affect the liability of the Surety hereunder for the payment of any such damages arising as the result of any contracts for the performance of air transportation services made by the Principal after the termination of this bond becomes effective. APPENDIX B TO PART 212—CERTIFICATION OF COMPLIANCE

Organization Charterworthiness for Affinity Charter Air Transportation and Eligibility of All Prospective Passengers for Such Flights Under Part 212 of the Regulations of the Department of Transportation (14 CFR Part 212)

§ 213.2 Reports of traffic data.

The Department may at any time require any foreign air carrier to file with the Department traffic data disclosing the nature and extent of such carrier’s engagement in transportation between points in the United States and points outside thereof. The Department will specify the traffic data required in each such instance. Interested persons seeking reconsideration of a Department determination under this section may file a petition pursuant to Rule 14 of part 302 within 10 days after Department action.

(b) In the case of a foreign air carrier permit for scheduled air transportation which is not the subject of an air transport agreement between the United States and the government of the holder, the Department, if it finds that the public interest so requires, may with or without hearing order the foreign air carrier to file within 7 days after service of such order, an original and three copies of any or all of its existing schedules of service between any point in the United States and any point outside thereof, and may require such carrier thereafter to file an original and three copies of any proposed schedules of service between such points at least 30 days prior to the date of inauguration of such service. Such schedules shall contain all schedules of aircraft which are or will be operated by such carrier between each pair of points set forth in the order, the type of equipment used or to be used, the time of arrival and departure at each point, the frequency of each schedule, and the effective date of any proposed schedule.

(d) The carrier may continue to operate existing schedules, and may inaugurate operations under proposed schedules 30 days after the filing of such schedules with the Department, unless the Department with or without hearing issues an order, subject to stay or disapproval by the President of the United States within 10 days after adoption, notifying the carrier that such operations, or any part of them, may be contrary to applicable law or may adversely affect the public interest. If the notification pertains to a proposed schedule, service under such schedule shall not be inaugurated; if the notification pertains to existing schedules, service under such schedules shall be discontinued on the date specified in the Department’s order. Such date shall be not less than ten days after adoption of the Department’s order unless affirmative Presidential approval is obtained at an earlier date.

In the case of service by mail, the date of mailing shall be considered the date of service.

Sec. 215.1 Applicability.

215.2 Purpose.

215.3 Use of name.

215.4 Change of name or use of trade name.

SOURCE: 53 FR 17923, May 19, 1988, unless otherwise noted.

§ 215.1 Applicability.

This part applies to all certified air carriers, commuter air carriers, and foreign direct air carriers and to initial or amended applications for authority, applications for certificate or permit transfers or reissuances, and registration of business names.

§ 215.2 Purpose.

This part sets rules under which direct air carriers may use the names in their operating authorizations and change those names. It further provides for notification to air carriers that may be affected by the use by other air carriers of the same or similar names. Its purpose is to place the responsibility for resolving private disputes about the use of similar names with the air carriers involved, through recourse to the trade names statutes and the courts. These rules do not preclude Department intervention or enforcement action should there be evidence of a significant potential for, or of actual, public confusion.

§ 215.3 Use of name.

In holding out to the public and in performing air transportation services, a direct air carrier or foreign direct air carrier subject to this part shall use only the name in which its operating
authorization is issued or trade name is registered, and shall not operate or hold out to the public in a name not acknowledged by the Department to be so registered. Minor variations in the use of this name, including abbreviations, contractions, initial letters, or other variations of the name that are identifiable with the authorized name, are permitted. Slogans and service marks shall not be considered names for the purpose of this part, and their use is not restricted.

§ 215.4 Change of name or use of trade name.

(a) Registrations. Any air carrier subject to this part that desires to change the name in which its operating authorization has been issued, or to use a trade name, or to obtain initial operating authority must register the name with the Department. The Department will construe any application for initial, reissued, or transferred authority as containing a "registration" of the intended name. A separate name registration document need not be filed. A carrier registering use of a trade name, without seeking reissuance of its underlying certificate commuter or foreign air carrier permit or exemption authority, must file a statement that complies with §§302.3 and 302.4 of this chapter registering its intended name with the Air Carrier Fitness Division if it is a U.S. certificated or commuter carrier, or within the Licensing Division if it is a foreign air carrier.

(b) Montreal Agreement. Each registration under this section shall be accompanied by three copies of a counterpart to the Montreal Agreement (Agreement 18900) (OST Form 4523) signed by the carrier using the proposed name. Upon arrival of the application, the Department will place a copy of the signed OST form 4523 in Docket 17325.

(Reporting and recordkeeping requirements in paragraph (b) were approved by the Office of Management and Budget under control number 3024–0064.)

§ 215.5 Procedure in case of similarity of names.

The Department will compare the proposed name in any registration filed under this part or in an application for new, reissued, or transferred authority with a list of names used by existing certificated, commuter and foreign direct air carriers. The Department will notify the applicant of any other certificated, foreign or commuter carriers that may have an identical or similar name. The registrant must then notify those carriers of its registration. The notification will identify the applicant and state its proposed name or the name requested, area of operation or proposed area of operation, type of business, and other pertinent matters. The registrant must then file a certificate of service of the notification with the Department.

§ 215.6 Acknowledgment of registration.

After completion of the filing and notification requirements of this part, the Department may acknowledge the registration by notice in the action granting the application for initial operating authority, transfer, or reissuance or by separate notice in the case of use of a trade name. Non-action under this provision shall not be construed as an adjudication of any rights or liabilities.

PART 216—COMINGLING OF BLIND SECTOR TRAFFIC BY FOREIGN AIR CARRIERS

Sec. 216.1 Definitions.
216.2 Applicability.
216.3 Prohibition.
216.4 Special authorizations.
216.5 Existing permits.
216.6 Existing unauthorized operations.

AUTHORITY: 49 U.S.C. Chapters 401, 413, 417.
SOURCE: ER–525, 33 FR 692, Jan. 19, 1968, unless otherwise noted.

§ 216.1 Definitions.

(a) As used in this part, unless the context otherwise requires:
Act means the Federal Aviation Act of 1958, as amended.

Blind sector traffic means revenue traffic, carried by a foreign air carrier on a flight operating in air transportation, which is enplaned at one foreign point and deplaned at another foreign point, where at least one of such points is not named as a terminal or intermediate point in the carrier’s applicable foreign air carrier permit.

Note: This definition shall not be deemed to include the carriage of authorized beyond homeland traffic (i.e., traffic carried between a point named in a carrier’s foreign air carrier permit and a point beyond a homeland terminal point authorized under such permit).

Revenue traffic means persons, property or mail carried for compensation or hire.

(b) Terms defined in section 101 of the Act have the meaning expressed in such definitions.

§ 216.2 Applicability.

This part sets forth the requirements applicable to foreign air carriers for obtaining a Special Authorization from the Board with respect to any deviation from an authorized foreign air transportation route for the purpose of commingling blind sector traffic with air transportation traffic carried pursuant to a foreign air carrier permit issued by the Board. The deviation by a foreign air carrier from its authorized route for the purpose of combined carriage to or from the United States of nonrevenue or other traffic, the carriage of which does not constitute engaging in foreign air transportation, is governed by the provisions of part 375 of this chapter.

§ 216.3 Prohibition.

No foreign air carrier shall carry any blind sector traffic, as defined in this part, on any flight operating in air transportation pursuant to the authority of a foreign air carrier permit issued under section 402 of the Act, unless the combined carriage of such traffic has been specifically authorized by such permit, or by a Special Authorization issued under §216.4.

§ 216.4 Special authorizations.

(a) Applications. Any foreign air carrier may apply to the Board for a Special Authorization, as required by this part, for the carriage of blind sector traffic on a particular flight, series of flights, or for a specified or indefinite period of time between specified points. Applications shall be submitted directly to the Board, addressed to the attention of the Director, Bureau of International Aviation. One original and two copies in conformity with the requirements of §§302.3(b) and 302.4(a) and (b) of this chapter shall be filed. The applications shall contain a proper identification of the applicant; the flight or flights upon which it is proposed to carry such blind sector traffic, including routing, nontraffic stops, and dates or duration of the authority sought; a full description of such traffic, and points between which such traffic will be carried; information or documentation as to whether the country of which the applicant is a national grants reciprocal privileges to U.S. carriers; and the reasons for requesting such authorization together with such additional information as will establish that the grant of such authority will otherwise be in the public interest. Such additional information as may be specifically requested by the Board shall also be furnished.

(b) Service. Applications shall be served upon each direct U.S. air carrier certificated to engage in individually ticketed or waybilled foreign air transportation over any portion of the route to which the application pertains, and on such other persons as the Board may require, and proof of such service shall accompany the application as provided in §302.7 of this chapter. Notice of such applications shall also be published in the Board’s Weekly List of Applications Filed.

(c) Memoranda in support or opposition. Any interested person may file a memorandum in support of or in opposition to the grant of an application. Such memorandum shall set forth in detail the reasons why it is believed that the application should be granted or denied and shall be accompanied by such data, including affidavits, which it is desired that the Board consider. Copies of the memorandum shall be served upon the applicant. Nothing in this subparagraph shall be deemed to preclude the Board from granting or
§ 216.5 Existing permits.

“Foreign aircraft permits” issued by the Board under the provisions of part 375 of the Board’s Special Regulations, authorizing the combined carriage of blind sector traffic as defined in this part, shall continue in effect in accordance with their terms until their expiration date unless sooner terminated, revoked or modified by the Board. Such permits shall, upon the effective date of this part, be deemed to constitute a Special Authorization issued pursuant to §216.4.

§ 216.6 Existing unauthorized operations.

This part applies to foreign air carriers that are authorized by the Department to provide civilian passenger and/or cargo service to or from the United States, whether performed pursuant to a permit or exemption authority.

§ 217.3 Reporting requirements.

(a) Each foreign air carrier shall file BTS Form 41 Schedule T-100(f) “Foreign Air Carrier Traffic Data by Non-stop Segment and On-flight Market.” All traffic statistics shall be compiled in terms of each flight stage as actually performed.

(b) The traffic statistics reported on Schedule T-100(f) shall be accumulated in accordance with the data elements prescribed in §217.5 of this part, and these data elements are patterned after those in section 19-5 of part 241 of this chapter.

(c) One set of Form 41 Schedule T-100(f) data shall be filed.

(d) Schedule T-100(f) shall be submitted to the Department within thirty (30) days following the end of each reporting month.

(e) Schedule T-100(f) shall be filed with the Bureau of Transportation Statistics at the address referenced in §217.10 and the Appendix to §217.10 of this part.

[53 FR 46294, Nov. 16, 1988, as amended at 67 FR 49223, July 30, 2002; 67 FR 58689, Sept. 18, 2002]

§ 217.4 Data collected (service classes).

(a) The statistical classifications are designed to reflect the operating elements attributable to each distinctive class of service offered for scheduled, nonscheduled and charter service.

(b) The service classes that foreign air carriers shall report on Schedule T-100(f) are:

1. F Scheduled Passenger/Cargo
2. G Scheduled All-Cargo
3. L Nonscheduled Civilian Passenger/Cargo Charter
4. P Nonscheduled Civilian All-Cargo Charter
5. Q Nonscheduled Services (Other than Charter), This service class is reserved for special nonscheduled cargo flights provided by a few foreign air carriers under special authority granted by the Department.

§ 217.5 Data collected (data elements).

(a) Within each of the service classifications prescribed in §217.4, data shall be reported in applicable traffic elements.

(b) The statistical data to be reported on Schedule T-100(f) are:

1. Air carrier. The name and code of the air carrier reporting the data. The carrier code is assigned by DOT. The Office of Airline Information (OAI’S) will confirm the assigned code upon request; OAI’s address is in the Appendix to §217.10 of this part.

2. Reporting period date. The year and month to which the reported data are applicable.

3. Origin airport code. This code represents the industry designator as described in the Appendix to §217.10 of this part. A common private industry source of these industry designator codes is the Official Airline Guides
Office of the Secretary, DOT § 217.9

(OAG). Where none exists, OAI will furnish a code upon request. OAI’s address is in the Appendix to §217.10 of this part.

(4) Destination airport code. This represents the industry designator, from the source described in §217.5(b)(3).

(5) Service class code. For scheduled and other services, the applicable service class prescribed in §217.4 of this part shall be reported.

(6) Aircraft type code. This code represents the aircraft type, as specified in the Appendix to §217.10 of this part. Where none exists, OAI will furnish a code upon request.

(7) Revenue aircraft departures performed (Code 510). The number of revenue aircraft departures performed.

(8) Revenue passengers transported (Code 130). The total number of revenue passengers on board over a flight stage, including those already on the aircraft from previous flight stages. Includes both local and through passengers on board the aircraft.

(9) Revenue freight transported (kilograms) (Code 237). The volume, expressed in kilograms, of revenue freight that is transported. As used in this part, “Freight” means revenue cargo other than passengers or mail.

(10) Total revenue passengers in market (Code 110). The total number of revenue passengers enplaned in a market, boarding the aircraft for the first time. While passengers may be transported over several flight stages in a multi-segment market, this data element (code 110) is an unduplicated count of passengers originating within the market.

(11) Total revenue freight in market (kilograms) (Code 217). The amount of revenue freight cargo (kilograms) that is enplaned in a market, loaded on the aircraft for the first time.

(12) Available capacity-payload (Code 270). The available capacity is collected in kilograms. This figure shall reflect the available load (see load, available in 14 CFR part 241 Section 03) or total available capacity for passengers, mail and freight applicable to the aircraft with which each flight stage is performed.

(13) Available seats (Code 310). The number of seats available for sale. This figure reflects the actual number of seats available, excluding those blocked for safety or operational reasons. Report the total available seats in item 310.

§ 217.6 Extension of filing time.

(a) If circumstances prevent the filing of a Schedule T–100(f) report on or before the due date prescribed in section 22 of part 241 of this chapter and the Appendix to §217.10 of this part, a request for an extension must be filed with the Director, Office of Airline Information.

(b) The extension request must be received at the address provided in §217.10 at least 3 days in advance of the due date, and must set forth reasons to justify granting an extension, and the date when the report can be filed. If a request is denied, the air carrier must submit the required report within 5 days of its receipt of the denial of extension.

[53 FR 46294, Nov. 16, 1988, as amended at 60 FR 66722, Dec. 26, 1995]

§ 217.7 Certification.

The certification for BTS Form 41 Schedule T–100(f) shall be signed by an officer of the air carrier with the requisite authority over the collection of data and preparation of reports to ensure the validity and accuracy of the reported data.

[53 FR 46294, Nov. 16, 1988, as amended at 60 FR 66722, Dec. 26, 1995]

§ 217.8 Reporting procedures.

Reporting guidelines and procedures for Schedule T–100(f) are prescribed in the Appendix to §217.10 of this part.

§ 217.9 Waivers from reporting requirements.

(a) A waiver from any reporting requirement contained in Schedule T–100(f) may be granted by the Department upon its own initiative, or upon the submission of a written request of the air carrier to the Director, Office of Airline Information, when such a waiver is in the public interest.
(b) Each request for waiver must demonstrate that: Existing peculiarities or unusual circumstances warrant a departure from the prescribed procedure or technique; a specifically defined alternative procedure or technique will result in substantially equivalent or more accurate portrayal of the operations reported; and the application of such alternative procedure will not adversely affect the uniformity in reporting applicable to all air carriers.

[50 FR 66722, Dec. 26, 1985]

§ 217.10 Instructions.

(a) Foreign air carriers shall submit Form 41 Schedule T–100(f) on either floppy discs produced on microcomputers or on other ADP media, such as magnetic tape, or hardcopy reports.

(b) The detailed instructions for preparing Schedule T–100(f) are contained in the Appendix to this section. Blank copies of Schedule T–100(f) are available from the Office of Airline Information, K–25, Room 4125, U.S. Department of Transportation, 400 Seventh St., SW., Washington, DC 20590.

APPENDIX TO SECTION 217.10 OF 14 CFR PART 217—INSTRUCTIONS TO FOREIGN AIR CARRIERS FOR REPORTING TRAFFIC DATA ON FORM 41 SCHEDULE T–100(f)

(a) General instructions.

(1) Description. Form 41 Schedule T–100(f) provides flight stage data covering both passenger/cargo and all cargo operations in scheduled and nonscheduled services. The schedule is used to report all flights which serve points in the United States or its territories as defined in this part.

(2) Applicability. Each foreign air carrier holding a §41302 permit or exemption authority shall file Schedule T–100(f).

(3) Address for filing reports: Office of Airline Information, K–25, Room 4125, U.S. Department of Transportation, 400 Seventh St., SW., Washington, DC 20590.

(4) Filing period. Form 41 Schedule T–100(f) shall be filed monthly and is due at the Department thirty (30) days following the end of the reporting month to which the data are applicable.

(5) Number of copies. A single set of legible Form 41 Schedule T–100(f) data and certification shall be submitted.

(6) Foreign air carrier certification. Each foreign air carrier shall submit a certification statement (illustrated at the end of this Appendix) as an integral part of each monthly Schedule T–100(f), as prescribed in §217.5 of this part.

(7) Alternative filing on Automatic Data Processing (ADP) media. Foreign air carriers are encouraged to use ADP equipment to reduce the manual effort of preparing Schedule T–100(f). Foreign air carriers may use the floppy disk medium. ADP submission requirements for floppy discs are prescribed in paragraph (f).

(b) Preparation of Form 41 Schedule T–100(f):

(1) Explanation of nonstop segments and on-flight markets. There are two basic categories of data, one pertaining to nonstop segments and the other pertaining to on-flight markets. For example, the routing (A-B-C-D) consists of three nonstop segment records A–B, B–C, and C–D, and six on-flight market records A–B, A–C, A–D, B–C, B–D, and C–D.

(2) Guidelines for reporting a nonstop segment. A nonstop segment is reported when one or both points are in the United States or its territories. These data shall be merged with that for all of the other reportable nonstop operations over the same segment. Nonstop segment data must be summarized by aircraft type, under paragraph (h)(1), and class of service, paragraph (g)(1)(v).

(3) Rules for determining a reportable on-flight market. On-flight markets are reportable when one or both points are within the U.S., with the following exceptions: (i) Do not report third country to U.S. markets resulting from flight itineraries which serve a third country prior to a homeland point in flights passing through the homeland bound for the U.S.; and (ii) do not report U.S. to third country markets resulting from flight itineraries serving third country points subsequent to a homeland point in flights outbound from the U.S. and passing through the homeland. In reporting data pertaining to these two exceptions, the traffic moving to or from the U.S. relating to the applicable prior or subsequent third countries (referred to as “behind” or “beyond” traffic) is to be combined with the applicable foreign homeland gateway point, just as though the traffic were actually enplaned or deplaned at the homeland gateway, without disclosure of the actual prior or subsequent points. Applicable flights are illustrated in examples (6) and (7) under paragraph (c).

(c) Examples of flights. Following are some typical flight itineraries that show the reportable nonstop segment and on-flight market entries. The carrier’s homeland is the key factor in determining which on-flight markets are reportable.

(1) SQ flight #11 LAX—NRT—SIN. This is an example of a flight with an intermediate foreign country. It is not necessary to report anything on the NRT—SIN leg.

(2) SQ flight #15 LAX—HNL—TPE—SIN. This is an example of two U.S. points, an intermediate third country, and a homeland point. Information is reportable on only the on-flight markets and nonstop segments that consist of one or both U.S. points.

(3) LB flight #902 LPB-VVI-MAO-CCS-MIA. This flight serves two homeland points and two different foreign countries before terminating in the U.S. Nonstop segment information is required only for the nonstop segment involving a U.S. point. On-flight market information is required in 8 of the 10 markets, LPB-MIA and VVI-MIA, since these involve homeland and U.S. points; MAO-MIA is necessary to show traffic carried into the U.S., and CCS-MIA for the same reason, and also because in all cases where a nonstop segment entry is required, a corresponding on-flight market entry must also be reported.

(2) On-flight Market Entries. The applicable on-flight market entries shall be summarized to create totals by service class within pairs-of-points.

(e) Preparation of hard copy Schedule T-100(f):
(1) Section A—Indicative and flight pattern information. A copy of Schedule T-100(f) is shown at the end of this Appendix. Section A defines the origin and destination points and the service class code to which the nonstop segment data in Section B and the on-flight market data in Section C are applicable. Section A information, along with the carrier code and report date, must be included on each schedule.

(2) Section B—Nonstop segment information. Section B of the schedule is used for reporting nonstop segment information by aircraft type. To reduce the number of schedules reported, space is provided for including data on multiple different aircraft types. Similarly, the on-flight market section has been included on a single Schedule T-100(f), along with the nonstop segment data, rather than on a separate schedule.

(3) Section C—On-flight market information. Section C of the schedule is used for reporting on-flight market data. There will always be an on-flight market that corresponds to the nonstop segment. Because the on-flight market data are reported at the service class level rather than by aircraft type, a specific flight may produce more on-flight markets than nonstop segments, (see examples in paragraph (c) of this Appendix), resulting in data reported in sections A and C only.

(f) ADP media reports:
(1) ADP report format. A foreign air carrier may, in accordance with the following guidelines, use personal computers (and in some cases mainframe or minicomputers) to report Schedule T-100(f) data.
§ 217.10

(i) Reporting medium. ADP data submission must be on IBM compatible disks. Carriers using mainframe or minicomputers shall download (transcribe) to the required IBM compatible disk. Carriers wishing to use a different ADP procedure or e-mail must obtain written approval to do so from the BTS Assistant Director—Airline Information under the waiver provisions in § 217.9 of this part. Requests for approval to use alternative methods must disclose and describe in sufficient detail the proposed data transmission methodology.

(ii) File characteristics. OAI files are reported in ASCII delimited format, sometimes called Data Interchange Format (DIF). This form of recording data provides for variable length fields (data elements) which, in the case of alphabetic data, are enclosed by quotation marks ("' and separated by a comma (,); numeric data elements are recorded without editing symbols and separated by a comma. The data is identified by its juxtaposition within a given record. Each record submitted by an air carrier shall contain the specified number of data elements all of which must be juxtapositionally correct.

Sample No. 1 represents a full record, using the applicable fields for reporting both the nonstop segment (6 through 9) and the on-flight market information (10 and 11). The service class is “F” indicating scheduled passenger/cargo service; the aircraft type code is 8161; the 816 indicates a Boeing 747–100, and the 1 in the units position indicates the standard “passengers-above and cargo-below” configuration.

Sample No. 2 contains nonstop segment information only. It is needed in this example to report the volumes transported on the same nonstop segment, but with a second aircraft type.

Sample No. 3 contains nonstop segment and on-flight market information for the same points, but for another service class (code letter “G” indicates all-cargo service). Also, the units position of aircraft type is a 2, indicating a cargo cabin. Field numbers 8 and 10 are for reporting passengers. In this case both contain a zero, indicating no passengers, while at the same time maintaining the required juxtaposition.

Sample No. 4 shows the reporting of only on-flight market information for a pair-of-points for which there is no corresponding nonstop segment information.

(iii) Schedule T–100(f) record layout. Each minidisk record shall consist of data fields for recording a maximum of eleven (11) elements. The order and description of the data fields are as follows:

1. Carrier code: Alphanumeric
2. Report date: Numeric
3. Origin airport: Alphabetic
4. Destination airport: Alphabetic
5. Service class code: Alphabetic
6. Aircraft type code: Numeric
7. Aircraft departures performed: Numeric
8. Revenue passengers transported: Numeric
9. Revenue freight transported: Numeric
10. Total revenue passengers in market: Numeric
11. Total revenue freight in market: Numeric

(A) Fields numbered 1 through 11 must always be provided. Therefore, enter a zero (0) or space when there is no reportable data for a given element. See paragraph (g)(1) through (g)(3) for a detailed definition of each data element.

(B) The following are sample disk records:

2. External labeling requirements: Physical label. The following data must be clearly printed on a label affixed to the minidisk or its container.

Carrier Name
Carrier code (as prescribed by DOT, BTS, OAI)
File identification = “T–100(F) DATA”
Report date (year, month to which data applies)

(3) Collating sequence, optional. If practical, the records should be sorted by origin and destination airport codes, service class, and aircraft type. However, the sequence is optional. Data may be submitted in any sequence including random.

(4) Summarization. See summarization rules as specified in paragraph (d)(1).

(g) Data element definitions:

1. Service pattern information.
2. External labeling requirements: Physical label. The following data must be clearly printed on a label affixed to the minidisk or its container.
3. Collating sequence, optional. If practical, the records should be sorted by origin and destination airport codes, service class, and aircraft type. However, the sequence is optional. Data may be submitted in any sequence including random.
4. Summarization. See summarization rules as specified in paragraph (d)(1).
Office of the Secretary, DOT

§ 217.10

(ii) Line A–2 Report date. This is the year and month to which the data are applicable. For example, 200009 indicates the year 2000, and the month of September.

(iii) Line A–3 Origin airport code. This is the departure airport, where an aircraft begins a flight segment, and where the passengers originate in an on-flight market. Use the 3-letter code from the City/Airport Codes section of the Official Airline Guide Worldwide Edition. If no 3-letter code is available, OAI will assign one; the address is in paragraph (a)(3) of this Appendix.

(iv) Line A–4 Destination airport code. This is the arrival airport, where an aircraft stops on a flight segment, and where passengers deplane (get off the flight) after reaching their destination in a market. Use the 3-letter code from the source described in paragraph (g)(1)(iii) of this Appendix.

(v) Line A–5 Service class code. Select one of the following single letter codes which describes the type of service being reported on a given flight operation.

F = Scheduled Passenger/cargo Service
G = Scheduled All-cargo Service
L = Nonscheduled Civilian Passenger/Cargo Charter
P = Nonscheduled Civilian All-Cargo Charter
Q = Nonscheduled Services (Other than Charter)

(2) Nonstop segment information:

(i) Line B–1 Aircraft type code. Use the four digit numeric code prescribed in paragraph (h)(1) of this Appendix. If no aircraft type code is available, OAI will assign one. The address is in paragraph (a)(3) of this Appendix.

(ii) Line B–2 Aircraft departures performed. This is the total number of physical departures performed with a given aircraft type, within service class and pair-of-points.

(iii) Line B–3 Revenue passengers transported. This is the total number of revenue passengers transported on a given nonstop segment. It represents the total number of revenue passengers on board over the segment without regard to their actual point of enplanement.

(iv) Line B–4 Revenue freight transported. This item is the total weight in kilograms (kg) of the revenue freight transported on a given nonstop segment without regard to its actual point of enplanement.

(3) On-flight market information:

(i) Line C–1 Total revenue passengers in market. This item represents the total number of revenue passengers, within service class, that were enplaned at the origin airport and deplaned at the destination airport.

(ii) Line C–2 Total revenue freight in market. This item represents the total weight in kilograms (kg) of revenue freight enplaned at the origin and deplaned at the destination airport.

(h) [Reserved]

(i) Joint Service.

The Department may authorize joint service operations between two direct air carriers. Examples of these joint service operations are:

Blocked-space agreements;
Part-charter agreements;
Code-sharing agreements;
Wet-lease agreements, and similar arrangements.

(2) Joint-service operations shall be reported on BTS Form 41 Schedules T–100 and T–100(f) by the air carrier in operational control of the flight, i.e., the air carrier that uses its flight crew to perform the operation. If there are questions about reporting a joint-service operation, contact the BTS Assistant Director—Airline Information at the address in paragraph (a)(3) of this appendix.

218.2 Applicability.
218.3 Prohibition against unauthorized operations employing aircraft leased with crew.
218.4 Condition upon authority of lessee.
218.5 Application for disclaimer of jurisdiction.

218.7 Presumption.

SOURCE: ER–716, 36 FR 23148, Dec. 4, 1971, unless otherwise noted.

§ 218.1 Definitions.

For the purpose of this part the term lease shall mean an agreement under which an aircraft is furnished by one party to the agreement to the other party, irrespective of whether the agreement constitutes a true lease, charter arrangement, or some other arrangement.

§ 218.2 Applicability.

This part applies to foreign air carriers and other persons not citizens of the United States which, as lessors or lessees, enter into agreements providing for the lease of aircraft with crew to a foreign air carrier for use in foreign air transportation. For purposes of section 402 of the Act, the person who has operational control and safety responsibility is deemed to be the carrier, and is required to have appropriate operating authority.

§ 218.3 Prohibition against unauthorized operations employing aircraft leased with crew.

(a) No foreign air carrier, or other person not a citizen of the United States, shall lease an aircraft with crew to a foreign air carrier for use by the latter in performing foreign air transportation unless either:

(1) The lessor holds a foreign air carrier permit issued under section 402 of the Act or an approved registration issued under part 294 of this chapter, and any statement of authorization required by part 212 of this chapter; or

(2) The Board has issued an exemption under section 416 of the Act specifically authorizing the lessor to engage in the foreign air transportation to be performed under the lease; or

(3) The Board has issued an order under §218.6 disclaiming jurisdiction over the matter.

(b) For purposes of this part, an aircraft shall be considered to be leased with crew if:

(1) The pilot in command or a majority of the crew of the aircraft, other than cabin attendants:

(i) Is to be furnished by the lessor;

(ii) Is employed by the lessor;

(iii) Continues in the employ of the lessor in the operation of services other than those provided for in the agreement between the parties; or

(iv) Has been employed by the lessor prior to the lease, and the employment of whom by the lessee is coextensive with the period or periods for which the aircraft is available to the lessee under the lease; or

(2) The aircraft is operated under operations specifications issued to the lessor by the Federal Aviation Administration.

§ 218.4 Condition upon authority of lessee.

In any case where a foreign air carrier leases from another foreign air carrier or other person not a citizen of the United States an aircraft with crew for use in performing foreign air transportation, it shall be a condition upon the authority of the lessee to perform such foreign air transportation that compliance be achieved with the requirements of this part.

§ 218.5 Application for disclaimer of jurisdiction.

The parties to a lease with crew as described in §218.3(b) may apply to the Board for an order disclaiming jurisdiction over the matter. The application
shall be filed jointly by both parties to the lease, and shall generally conform to the procedural requirements of part 302, subpart A, of this chapter. It shall be served upon any air carrier providing services over all or any part of the route upon which air transportation services will be provided pursuant to the agreement. The application should set forth in detail all evidence and other factors relied upon to demonstrate that true operational control and safety responsibility for the air transportation services to be provided are in the hands of the lessee rather than the lessor. A copy of the agreement and all amendments thereof, as well as a summary interpretation of its pertinent provisions, shall be included with the applications. Any interested person may file an answer to the application within 7 days after service hereof. Until the Board has acted upon the application, no operations in foreign transportation shall be performed pursuant to the agreement.

§ 218.6 Issuance of order disclaiming jurisdiction.

If the Board finds that true operational control and safety responsibility will be vested in the lessee and not in the lessor (i.e., that the lease transaction is in substance a true lease of aircraft rather than a charter or series of charters), and that the performance of the operations provided for in such lease will not result in the lessor’s being engaged in foreign air transportation, it will issue an order disclaiming jurisdiction over the matter. Otherwise the application for disclaimer of jurisdiction will be denied.

§ 218.7 Presumption.

Whether under a particular lease agreement the lessor of the aircraft is engaged in foreign air transportation is a question of fact to be determined in the light of all the facts and circumstances. However, in circumstances where the lessor furnishes both the aircraft and the crew, there is a presumption that true operational control and safety responsibility are exercised by the lessor, and that the agreement constitutes a charter arrangement under which the lessor is engaged in foreign air transportation. The burden shall rest upon the applicants for disclaimer of jurisdiction in each instance to demonstrate by an appropriate factual showing that the operation contemplated will not constitute foreign air transportation by the lessor.

Subpart A—General

§ 221.1 Applicability of this part.
All tariffs and amendments to tariffs of air carriers and foreign air carriers filed with the Department pursuant to chapter 415 of the statute shall be constructed, published, filed, posted and kept open for public inspection in accord with the regulations in this part and orders of the Department.

§ 221.2 Carrier’s duty.

(a) Must file tariffs. (1) Except as provided in paragraph (d) of this section, every air carrier and every foreign air carrier shall file with the Department, and provide and keep open to public inspection, tariffs showing all fares, and charges for foreign air transportation between points served by it, and between points served by it and points served by any other air carrier or foreign air carrier, when through service and through rates shall have been established, and showing to the extent required by regulations and orders of the Department, all classifications, rules, regulations, practices, and services in connection with such foreign air transportation.

(2) Tariffs shall be filed, and provided in such form and manner, and shall contain such information as the Department shall by regulation or order prescribe. Any tariff so filed which is not consistent with chapter 415 of the statute and such regulations and orders may be rejected. Any tariff so rejected shall be void, and may not be used.

(b) Must observe tariffs. No air carrier or foreign air carrier shall charge or demand or collect or receive a greater or less or different compensation for foreign air transportation or for any service in connection therewith, than the fares and charges specified in its currently effective tariffs; and no air carrier or foreign air carrier shall, in any manner or by any device, directly or indirectly, or through any agent or broker, or otherwise, refund or remit any portion of the fares, or charges so specified, or extend to any person any privileges or facilities, with respect to matters required by the Department to be specified in such tariffs, except those specified in such tariffs.

(c) No relief from violations. Nothing contained in this part shall be construed as relieving any air carrier or foreign air carrier from liability for violations of the statute, nor shall the filing of a tariff, or amendment thereto, relieve any air carrier or foreign air carrier from such violations or from violations of regulations issued under the statute.

(d) Exemption authority. Air carriers and foreign air carriers, both direct and indirect, are exempted from the requirement of section 41504 of the statute and any requirement of this chapter to file, and shall not file with the Department, tariffs for operations under the following provisions:

(1) Part 291, Domestic Cargo Transportation;
(2) Part 296, Indirect Air Transportation of Property;
(3) Part 297, Foreign Air Freight Forwarders and Foreign Cooperative Shippers Association;

§ 221.63 Other types of governing tariffs.

Subject to approval of the Department, carriers may publish other types of governing tariffs not specified in this subpart, such as routing guides.

Subpart I—Suspension of Tariff Provisions by Department

§ 221.80 Effect of suspension by Department.

(a) Suspended matter not to be used. A fare, charge, or other tariff provision which is suspended by the Department, under authority of chapter 415 of the statute, shall not be used during the period of suspension specified by the Department’s order.

(b) Suspended matter not to be changed. A fare, charge, or other tariff provision which is suspended by the Department shall not be changed in any respect or withdrawn or the effective date thereof further deferred except by authority of an order or special tariff permission of the Department.

(c) Suspension continues former matter in effect. If a tariff publication containing matter suspended by the Department directs the cancellation of a tariff or any portion thereof, which contains fares, charges, or other tariff provisions sought to be amended by the suspended matter, such cancellation is automatically suspended for the same period insofar as it purports to cancel any tariff provisions sought to be amended by the suspended matter.

(d) Matter continued in effect not to be changed. A fare, charge, or other tariff provision which is continued in effect not to be changed. A fare, charge, or other tariff provision which is continued in effect as a result of a suspension by the Department shall not be changed during the period of suspension unless the change is authorized by order or special tariff permission of the Department, except that such matter may be reissued without change during the period of suspension.

§ 221.81 Suspension supplement.

(a) Suspension supplement. Upon receipt of an order of the Department
suspending any tariff publication in part or in its entirety, the carrier or agent who issued such tariff publication shall immediately issue and file with the Department a consecutively numbered supplement for the purpose of announcing such suspension.

(c) Suspension notice. The suspension supplement shall contain a prominent notice of suspension which shall:

(1) Indicate what particular fares, charges, or other tariff provisions are under suspension,

(2) State the date to which such tariff matter is suspended,

(3) State the Department’s docket number and order number which suspended such tariff matter, and

(4) Give specific reference to the tariffs (specifying their D.O.T. or other identifying numbers), original or revised records and paragraphs or provisions which contain the fares, charges, or other tariff provisions continued in effect.

§ 221.82 Reissue of matter continued in effect by suspension to be canceled upon termination of suspension.

When tariff provisions continued in effect by a suspension are reissued during the period of such suspension, the termination of the suspension and the coming into effect of the suspended matter will not accomplish the cancellation of such reissued matter. In such circumstances, prompt action shall be taken by the issuing agent or carrier to cancel such reissued provisions upon the termination of the suspension in order that they will not conflict with the provisions formerly under suspension.

§ 221.83 Tariff must be amended to make suspended matter effective.

(a) When the Department vacates an order which suspended certain tariff matter in full or in part, such matter will not become effective until the termination of the suspension period unless the issuing agent or carrier amends the pertinent tariffs in the manner prescribed in this subpart except as provided in paragraph (b) of this section.

(b) If the Department vacates its suspension order prior to the original published effective date of the tariff provisions whose suspension is vacated, such provisions will become effective on their published effective date.

§ 221.84 Cancellation of suspended matter subsequent to date to which suspended.

(a) Endeavor to cancel prior to expiration of suspension period. When an order of the Department requires the cancellation of tariff provisions which were suspended by the Department and such cancellation is required to be made effective on or before a date which is after the date to which such tariff provisions were suspended, the issuing carrier or agent shall, if possible, make the cancellation effective prior to the date to which such tariff provisions were suspended.

(b) When necessary to republish matter continued in effect by suspension. If suspended tariff provisions become effective upon expiration of their suspension period and thereby accomplish the cancellation of the tariff provisions continued in effect by the suspension, the issuing agent or carrier shall republish and reestablish such canceled tariff provisions effective simultaneously with the cancellation of the suspended provisions in compliance with the Department’s order. The tariff amendments which reestablish such canceled tariff provisions shall bear reference to this subpart and the Department’s order.

§ 221.90 Required notice.

(a) Statutory notice required. Unless otherwise authorized by the Department or specified in a bilateral agreement between the United States and a foreign country, all tariff filings shall be made on the following schedule, whether or not they effect any changes:

stating a rule that affects only such a fare;
(2) At least 25 days before they are to become effective, for matching tariffs that are to become effective on the same date as the tariff to be matched and that meet competition as described in §221.94(c)(1)(v); and
(3) At least 60 days before they are to become effective, for all other tariffs.

(b) Computing number of days' notice. A tariff publication shall be deemed to be filed only upon its actual receipt by the Department, and the first day of any required period of notice shall be the day of actual receipt by the Department.

When a tariff is filed on behalf of a carrier participating therein under authority of its concurrence or power of attorney, such concurrence or power of attorney shall, if not previously filed with the Department, be transmitted at the same time such tariff is submitted for filing.

§ 221.94 Explanation and data supporting tariff changes and new matter in tariffs.
When a tariff is filed with the Department which contains new or changed local or joint fares or charges for foreign air transportation, or new or changed classifications, rules, regulations, or practices affecting such fares or charges, or the value of the service thereunder, the issuing air carrier, foreign air carrier, or agent shall submit with the filing of such tariff:
(a) An explanation of the new or changed matter and the reasons for the filing, including (if applicable) the basis of rate making employed. Where a tariff is filed pursuant to an intercarrier agreement approved by the Department, the explanation shall identify such agreement by DOT Docket number, DOT order of approval number, IATA resolution number, or if none is designated, then by other definite identification. Where a tariff is filed on behalf of a foreign air carrier pursuant to a Government order, a copy of such order shall be submitted with the tariff.
(b) Appropriate Economic data and/or information in support of the new or changed matter.

   (iii) To the extent fares for scheduled passenger service are within a statutory or Department-established zone of fare flexibility; and
   (iv) To meet competition: Provided, that
   (A) Changed matter will be deemed to have been filed to meet competition only when it effects decreases in fares
or charges and/or increases the value of service so that the level of the fares or charges and the services provided will be substantially similar to the level of fares or charges and the services of a competing carrier or carriers.

(B) New matter will be deemed to have been filed to meet competition only when it establishes or affects a fare or charge and a service which will be substantially similar to the fares or charges and the services of a competing carrier or carriers.

(C) When new or changed matter is filed to meet competition over a portion of the filing air carrier’s system and is simultaneously made applicable to the balance of the system, such matter, insofar as it applies over the balance of the system, will be deemed to be within the exception in this paragraph (c)(1)(iv) of this section only if such carrier submits an explanation as to the necessity of maintaining uniformity over its entire system with respect to such new or changed matter.

(D) In any case where new or changed matter is filed to meet competition, the filing carrier or agent must supply, as part of the filing justification, the complete tariff references which will serve to identify the competing tariff matter which the tariff purports to meet. In such case the justification or attachment shall state whether the new or changed matter is identical to the competing tariff matter or whether it approximates the competing tariff matter. If the new or changed matter is not identical, the transmittal letter or attachment shall contain a statement explaining, in reasonable detail, the basis for concluding that the tariff publication being filed is substantially similar to the competing tariff matter.

§ 221.102 Accessibility of tariffs to the public.

Each file of tariffs shall be kept in complete and accessible form. § 221.105 Special notice of limited liability for death or injury under the Warsaw Convention.

(a)(1) In addition to the other requirements of this subpart, each air carrier and foreign air carrier which, to any extent, avails itself of the limitation on liability to passengers provided by the Warsaw Convention, shall, at the time of delivery of the ticket, furnish to each passenger whose transportation is governed by the Convention and whose place of departure or place of destination is in the United States, the following statement in writing:

Advice to International Passengers on Limitations of Liability

Passengers embarking upon a journey involving an ultimate destination or a stop in a country other than the country of departure are advised that the provisions of a treaty known as the Warsaw Convention may be applicable to their entire journey including the portion entirely within the countries of departure and destination. The Convention governs and in most cases limits the liability of carriers to passengers for death or personal injury to approximately $10,000. Additional protection can usually be obtained by purchasing insurance from a private company. Such insurance is not affected by any limitation of the carrier’s liability under the Warsaw Convention. For further information please consult your airline or insurance company representative.

(2) Provided, however, That when the carrier elects to agree to a higher limit of liability to passengers than that provided in Article 22(1) of the Warsaw Convention, such statement shall be modified to reflect the higher limit. The statement prescribed herein shall be printed in type at least as large as 10-point modern type and in ink contrasting with the stock on:

(i) Each ticket;

(ii) A piece of paper either placed in the ticket envelope with the ticket or attached to the ticket; or

(iii) The ticket envelope.

(b) Each air carrier and foreign air carrier which, to any extent, avails itself of the limitation on liability to passengers provided by the Warsaw Convention, shall also cause to be displayed continuously in a conspicuous public place at each desk, station, and position in the United States which is in the charge of a person employed exclusively by it or by it jointly with another person, or by any agent employed by such air carrier or foreign air carrier to sell tickets to passengers whose transportation may be governed by the Warsaw Convention and whose place of departure or destination may be in the United States, a sign which shall have printed thereon the statement prescribed in paragraph (a) of this section:

Provided, however, That an air carrier, except an air taxi operator subject to part 298 of this subchapter, or foreign air carrier which provides a higher limitation of liability than that set forth in the Warsaw Convention and has signed a counterpart of the agreement among carriers providing for such higher limit, which agreement was approved by the Civil Aeronautics Board by Order E–23680, dated May 13, 1966 (31 FR 7302, May 19, 1966), may use the alternate form of notice set forth in the proviso to § 221.106(a) of this chapter in full compliance with the posting requirements of this paragraph. And provided further, That an air taxi operator subject to part 298 of this subchapter, which provides a higher limitation of liability than that set forth in the Warsaw Convention and has signed a counterpart of the agreement among carriers providing for such higher limit, which agreement was approved by the Civil Aeronautics Board by Order E-

Notice of Limited Liability for Baggage

For most international travel (including domestic portions of international journeys) liability for loss, delay, or damage to baggage is limited to approximately $9.07 per pound for checked baggage and $400 per passenger for unchecked baggage unless a higher value is declared and an extra charge is paid. Special rules may apply for valuable articles. Consult your carrier for details.

(2) Provided, however, That an air carrier or foreign air carrier which, to any extent, avails itself of limitations of liability for loss, damage to, or delay in delivery of baggage shall include on or with each ticket issued in the United States or in a foreign country by it or its authorized agent, the following notice printed in at least 10 point type:

Notice of Baggage Liability Limitations

For most international travel (including domestic portions of international journeys) liability for loss, delay, or damage to baggage is limited to approximately $9.07 per pound for checked baggage and $400 per passenger for unchecked baggage unless a higher value is declared in advance and additional charges are paid. Excess valuation is limited to a maximum of $20 per kilo. Consult your carrier for details.

(b)(1) Each air carrier and foreign air carrier which, to any extent, avails itself of limitations of liability for loss, damage to, or delay in delivery of baggage shall cause to be displayed continuously in a conspicuous public place at each desk, station, and position in the United States which is in the charge of a person employed exclusively by it or by it jointly with another person, or by any agent employed by such air carrier or foreign air carrier to sell tickets to persons or accept baggage for checking, a sign which shall have printed thereon the following statement:

Advice to Passengers on Limitations of Liability

Airline liability for death or personal injury may be limited by the Warsaw Convention and tariff provisions in the case of travel to or from a foreign country.

For most international travel (including domestic portions of international journeys) liability for loss, delay, or damage to baggage is limited to approximately $9.07 per pound for checked baggage and $400 per passenger for unchecked baggage unless a higher value is declared and an extra charge is paid. Special rules may apply to valuable articles. See the notice with your tickets or consult your airline or travel agent for further information.

(3) Provided, however, That carriers may include in the notice the parenthetical phrase "($20.00 per kilo)" after the phrase "$9.07 per pound" in referring to the baggage liability limitation for most international travel. Such statements shall be printed in bold-face type at least one-fourth of an inch high and shall be so located as to be clearly visible and clearly readable to the traveling public.

(b)(2) Each air carrier and foreign air carrier which, to any extent, avails itself of limitations of liability for loss, damage to, or delay in delivery of baggage shall cause to be displayed continuously in a conspicuous public place at each desk, station, and position in the United States which is in the charge of a person employed exclusively by it or by it jointly with another person, or by any agent employed by such air carrier or foreign air carrier to sell tickets to persons or accept baggage for checking, a sign which shall have printed thereon the following statement:

Advice to International Passengers on Limitation of Liability

Passengers traveling to or from a foreign country are advised that airline liability for death or personal injury and loss or damage to baggage may be limited by the Warsaw Convention and tariff provisions. See the notice with your ticket or contact your airline ticket office or travel agent for further information.

(3) Provided, however, That carriers may include in the notice the parenthetical phrase "($20.00 per kilo)" after the phrase "$9.07 per pound" in referring to the baggage liability limitation for most international travel. Such statements shall be printed in bold-faced type at least one-fourth of an inch high and shall be so located as to be clearly visible and clearly readable to the traveling public.

(2) Provided, however, That carriers may include in the notice the parenthetical phrase "($20.00 per kilo)" after the phrase "$9.07 per pound" in referring to the baggage liability limitation for most international travel.
It shall be the responsibility of each carrier to ensure that travel agents authorized to sell air transportation for such carrier comply with the notice provisions of paragraphs (a) and (b) of this section.

Any air carrier or foreign air carrier subject to the provisions of this section which wishes to use a notice of limited liability for baggage of its own wording, but containing the substance of the language prescribed in paragraphs (a) and (b) of this section may substitute a notice of its own wording upon approval by the Department.

The requirements as to time and method of delivery of the notice (including the size of type) specified in paragraphs (a) and (b) of this section may be waived by the Department upon application and showing by the carrier that special and unusual circumstances render the enforcement of the regulations impractical and unduly burdensome and that adequate alternative means of giving notice are employed.

Applications for relief under paragraphs (d) and (e) of this section shall be filed with the Department’s Office of International Aviation not later than 15 days before the date on which such relief is requested to become effective.

Notwithstanding any other provisions of this section, no air taxi operator subject to part 298 of this subchapter shall be required to give the notices prescribed in paragraph (c) of this section.

Each carrier shall display continuously in a conspicuous public place at each airport or other ticket sales office of the carrier a notice printed in large type reading as follows:

These provisions may be inspected by any person upon request and for any reason. The employees of this office will lend assistance in securing information, and explaining any terms.

Each carrier shall provide to the passenger a complete copy of the text of any/all terms and conditions applicable to the contract of carriage, free of charge, immediately, if feasible, or otherwise promptly by mail or other delivery service, upon request at any airport or other ticket sales office of the carrier. In addition, all other locations where the carrier’s tickets may be issued shall have available at all times, free of charge, information sufficient to enable the passenger to request a copy of such term(s).

(b) Notice of incorporated terms. Each carrier and ticket agent shall include on or with a ticket or other written instrument given to the passenger, that embodies the contract of carriage, a conspicuous notice that:

The contract of carriage may incorporate terms and conditions by reference; passengers may inspect the full text of each applicable incorporated term at any of the carrier’s airport locations or other ticket sales offices of the carrier; and passengers, shippers and consignees have the right to receive, upon request at any airport or other ticket sales office of the carrier, a free copy of the full text of any/all such terms by mail or other delivery service;

(d) Direct notice of certain terms. A passenger must receive conspicuous written notice, on or with the ticket, or other similar document, of the salient features of any terms that restrict refunds of the price of the transportation, impose monetary penalties on customers, or permit a carrier to raise the price or impose more restrictive conditions of contract after issuance of the ticket.

§ 221.108 Transmission of tariff filings to subscribers.

(a) Each carrier required to file tariffs in accordance with this part shall make available to any person so requesting a subscription service as described in paragraph (b) of this section for its passenger tariffs issued by it or by a publishing agent on its behalf.

(b) Under the required subscription service one copy of each new tariff publication, including the justification required by §221.94, must be transmitted to each subscriber thereto by first-class mail (or other equivalent means agreed upon by the subscriber) not later than one day following the time the copies for official filing are transmitted to the Department. The subscription service described in this section shall not preclude the offering of additional types of subscription services by carriers or their agents.

(c) The carriers or their publishing agents at their option may establish a charge for providing the required subscription service to subscribers: Provided, That the charge may not exceed a reasonable estimate of the added cost of providing the service.

Subpart L—Rejection of Tariff Publications

§ 221.110 Department’s authority to reject.

The Department may reject any tariff which is not consistent with section 41504 of the statute, with the regulations in this part, or with Department orders.

§ 221.111 Notification of rejection.

When a tariff is rejected, the issuing carrier or agent thereof will be notified electronically or in writing that the tariff is rejected and of the reason for such rejection.

§ 221.112 Rejected tariff is void and must not be used.

A tariff rejected by the Department is void and is without any force or effect whatsoever. Such rejected tariff must not be used.

Subpart M—Special Tariff Permission To File on Less Than Statutory Notice

§ 221.120 Grounds for approving or denying Special Tariff Permission applications.

(a) General authority. The Department may permit changes in fares, charges or other tariff provisions on less than
Office of the Secretary, DOT \ § 221.121

the statutory notice required by section 41505 of the statute.

(b) Grounds for approval. The following facts and circumstances constitute some of the grounds for approving applications for Special Tariff Permission in the absence of other facts and circumstances warranting denial:

(1) Clerical or typographical errors. Clerical or typographical errors in tariffs constitute grounds for approving applications for Special Tariff Permission to file on less than statutory notice the tariff changes necessary to correct such errors. Each application for Special Tariff Permission based on such grounds shall plainly specify the errors and contain a complete statement of all the attending facts and circumstances, and such application shall be presented to the Department with reasonable promptness after issuance of the defective tariff.

(2) Rejection caused by clerical or typographical errors or unintelligibility. Rejection of a tariff caused by clerical or typographical errors constitute grounds for approving applications for Special Tariff Permission to file on less than statutory notice, effective not earlier than the original effective dates in the rejected tariff but with the errors corrected. Each application for the grant of Special Tariff Permission based on such grounds shall plainly specify the errors and contain a complete statement of all the attending facts and circumstances, and such application shall be filed with the Department within five days after receipt of the Department’s notice of rejection.

(3) Newly authorized transportation. The fact that the Department has newly authorized a carrier to perform foreign air transportation constitutes grounds for approving applications for Special Tariff Permission to file on less than statutory notice the fares, rates, and other tariff provisions covering such newly authorized transportation.

(4) The fact that a passenger fare is within a statutory or Department-established zone of fare flexibility constitutes grounds for approving an application for Special Tariff Permission to file a tariff stating that fare and any rules affecting them exclusively, on less than statutory notice. The Department’s policy on approving such applications is set forth in §399.35 of this chapter.

(5) Lowered fares and charges. The prospective lowering of fares or charges to the traveling public constitutes grounds for approving an application for Special Tariff Permission to file on less than statutory notice a tariff stating the lowered fares or charges and any rules affecting them exclusively. However, the Department will not approve the application if the proposed tariff raises significant questions of lawfulness, as set forth in §399.35 of this chapter.

(c) Filing notice required by formal order. When a formal order of the Department requires the filing of tariff matter on a stated number of days’ notice, an application for Special Tariff Permission to file on less notice will not be approved. In any such instance a petition for modification of the order should be filed in the formal docket.

§ 221.121 How to prepare and file applications for Special Tariff Permission.

(a) Form. Each application for Special Tariff Permission to file a tariff on less than statutory notice shall conform to the requirements of §221.122 if filed electronically.

(b) Number of paper copies and place of filing. For paper format applications, the original and one copy of each such application for Special Tariff Permission, including all exhibits thereto and amendments thereof, shall be sent to the Office of International Aviation, Department of Transportation, Washington, DC 20590.

(c) Who may make application. Applications for Special Tariff Permission to file fares, or other tariff provisions on less than statutory notice shall be made only by the issuing carrier or agent authorized to issue and file the proposed tariff. Such application by the issuing carrier or agent will constitute application on behalf of all carriers participating in the proposed fares, or other tariff provisions.

(d) When notice is required. Notice in the manner set forth in paragraph (e) of this section is required when a carrier files an application for Special Tariff Permission:
§ 221.122 Special Tariff Permission to be used in its entirety as granted.

Each Special Tariff Permission to file fares, or other tariff provisions on less than statutory notice shall be used in its entirety as granted. If it is not desired to use the permission as granted, and lesser or more extensive or different permission is desired, a new application for Special Tariff Permission conforming with § 221.121 in all respects and referring to the previous permission shall be filed.

§ 221.123 Re-use of Special Tariff Permission when tariff is rejected.

If a tariff containing matter issued under Special Tariff Permission is rejected, the same Special Tariff Permission may be used in a tariff issued in lieu of such rejected tariff provided that such re-use is not precluded by the terms of the Special Tariff Permission, and is made within the time limit thereof or within seven days after the date of the Department’s notice of rejection, whichever is later, but in no event later than fifteen days after the expiration of the time limit specified in the Special Tariff Permission.

Subpart N—Waiver of Tariff Regulations

§ 221.130 Applications for waiver of tariff regulations.

Applications for waiver or modification of any of the requirements of this part 221 or for modification of chapter 415 of the statute with respect to the filing and posting of tariffs shall be made by the issuing carrier or issuing agent.

§ 221.131 Form of application for waivers.

Applications for waivers shall be in the form of a letter addressed to the Office of International Aviation, Department of Transportation Washington, DC 20590, and shall:

(a) Specify (by section and paragraph) the particular regulation which the applicant desires the Department to waive.

(b) Show in detail how the proposed provisions will be shown in the tariff under authority of such waiver if granted (submitting exhibits of the proposed provision where necessary to clearly show this information).

(c) Set forth all facts and circumstances on which the applicant relies as warranting the Department’s granting the authority requested. No tariff or other documents shall be filed pursuant to such application prior to the Department’s granting the authority requested.

Subpart O—Giving and Revoking Concurrences to Carriers

§ 221.140 Method of giving concurrence.

(a) A concurrence prepared in a manner acceptable to the Office of International Aviation shall be used by a carrier to give authority to another carrier to issue and file with the Department tariffs which contain joint fares or charges, including provisions governing such fares or charges, applying to, from, or via points served by the carrier giving the concurrence. A concurrence shall not be used as authority to file joint fares or charges in which the carrier to whom the concurrence is given does not participate, and
Office of the Secretary, DOT § 221.150

It shall not be used as authority to file local fares or charges.

(b) Number of copies. Each concurrence shall be prepared in triplicate. The original of each concurrence shall be filed with the Department, the duplicate thereof shall be given to the carrier in whose favor the concurrence is issued, and the third copy shall be retained by the carrier who issued the concurrence.

(c) Conflicting authority to be avoided. Care should be taken to avoid giving authority to two or more carriers which, if used, would result in conflicting or duplicate tariff provisions.

§ 221.141 Method of revoking concurrence.

(a) A concurrence may be revoked by filing with the Department a Notice of Revocation of Concurrence prepared in a form acceptable to the Office of International Aviation.

(b) Sixty days' notice required. Such Notice of Revocation of Concurrence shall be filed on not less than sixty days' notice to the Department. A Notice of Revocation of Concurrence will be deemed to be filed only upon its actual receipt by the Department, and the period of notice shall commence to run only from such actual receipt.

(c) Number of copies. Each Notice of Revocation of Concurrence shall be prepared in triplicate. The original thereof shall be filed with the Department and, at the same time that the original is transmitted to the Department, the duplicate thereof shall be sent to the carrier to whom the concurrence was given. The third copy shall be retained by the carrier issuing such notice.

(d) Amendment of tariffs when concurrence revoked. When a concurrence is revoked, a corresponding amendment of the tariff or tariffs affected shall be made by the issuing carrier of such tariffs, on not less than statutory notice, to become effective not later than the effective date stated in the Notice of Revocation of Concurrence. In the event of failure to so amend the tariff or tariffs, the provisions therein shall remain applicable until lawfully canceled.

§ 221.142 Method of withdrawing portion of authority conferred by concurrence.

If a carrier desires to issue a concurrence conferring less authority than a previous concurrence given to the same carrier, the new concurrence shall not direct the cancellation of such previous concurrence. In such circumstances, such previous concurrence shall be revoked by issuing and filing a Notice of Revocation of Concurrence in a form acceptable to the Office of International Aviation. Such revocation notice shall include reference to the new concurrence.

Subpart P—Giving and Revoking Powers of Attorney to Agents

§ 221.150 Method of giving power of attorney.

(a) Prescribed form of power of attorney. A power of attorney prepared in accordance with a form acceptable to the Office of International Aviation shall be used by a carrier to give authority to an agent and (in the case of the agent being an individual) such agent's alternate to issue and file with the Department tariffs which contain local or joint fares or charges, including provisions governing such fares or charges, applicable via and for account of such carrier. Agents may be only natural persons or corporations (other than incorporated associations of air carriers). The authority conferred in a power of attorney may not be delegated to any other person.

(b) Designation of tariff issuing person by corporate agent. When a corporation has been appointed as agent it shall forward to the Department a certified excerpt of the minutes of the meeting of its Board of Directors designating by name and title the person responsible for issuing tariffs and filing them with the Department. Only one such person may be designated by a corporate agent, and the title of such designee shall not contain the word "Agent". When such a designee is replaced the Department shall be immediately notified in like manner of his successor. An officer or employee of an incorporated tariff-publishing agent may not be authorized to act as tariff agent in his/her individual capacity. Every tariff issued
§ 221.151 Method of revoking power of attorney.

(a) A power of attorney may be revoked only by filing with the Department in the manner specified in this section a Notice of Revocation of Power of Attorney in a form acceptable to the Office of International Aviation. (b) Sixty days' notice required. Such Notice of Revocation of Power of Attorney shall be filed on not less than sixty days' notice to the Department. A Notice of Revocation of Power of Attorney will be deemed to be filed only upon its actual receipt by the Department, and the period of notice shall commence to run only from such actual receipt.

(c) Number of copies. Each Notice of Revocation of Power of Attorney shall be prepared in triplicate. The original thereof shall be filed with the Department and, at the same time that the original is transmitted to the Department, the duplicate thereof shall be sent to the agent in whose favor the power of attorney was issued (except, if the alternate agent has taken over the tariffs, the duplicate of the Notice of Revocation of Power of Attorney shall be sent to the alternate agent). The third copy of the notice shall be retained by the carrier.

(d) Amendment of tariffs when power of attorney is revoked. When a power of attorney is revoked, a corresponding amendment of the tariff or tariffs affected shall be made by the issuing agent of such tariffs, on not less than statutory notice, to become effective not later than the effective date stated in the Notice of Revocation of Power of Attorney. In the event of failure to so amend the tariff or tariffs, the provisions therein shall remain applicable until lawfully canceled.

§ 221.152 Method of withdrawing portion of authority conferred by power of attorney.

If a carrier desires to issue a power of attorney conferring less authority than a previous power of attorney issued in favor of the same agent, the new power of attorney shall not direct the cancellation of such previous power of attorney. In such circumstances, such previous power of attorney shall be revoked by issuing and filing a Notice of Revocation of Power of Attorney in a form acceptable to the Office of International Aviation. Such revocation notice shall include reference to the new power of attorney.

Subpart Q—Adoption Publications Required To Show Change in Carrier's Name or Transfer of Operating Control

§ 221.160 Adoption notice.

(a) When the name of a carrier is changed or when its operating control is transferred to another carrier (including another company which has not previously been a carrier), the carrier which will thereafter operate the properties shall immediately issue, file with the Department, and post for public inspection, an adoption notice in a form and containing such information as is approved by the Office of International Aviation. (The carrier under its former name or the carrier from whom the operating control is transferred shall be referred to in this subpart as the "former carrier", and the carrier under its new name or the carrier, company, or fiduciary to whom the operating control is transferred shall be referred to in this subpart as the "adopting carrier").

(b) The adoption notice shall be prepared, filed, and posted as a tariff. The adoption notice shall include reference to the new carrier and other carriers. At the same time that the adoption notice is transmitted to the
Office of the Secretary, DOT § 221.165

Department for filing, the adopting carrier shall send copies of such adoption notice to each agent and carrier to whom the former carrier has given a power of attorney or concurrence. (See § 221.163.)

§ 221.161 Notice of adoption to be filed in former carrier’s tariffs.

At the same time that the adoption notice is issued, posted, and filed pursuant to § 221.160, the adopting carrier shall issue, post and file with the Department a notice in each effective tariff issued by the former carrier providing specific notice of the adoption in a manner authorized by the Office of International Aviation and which shall contain no matter other than that authorized.

§ 221.162 Receiver shall file adoption notices.

A receiver shall, immediately upon assuming control of a carrier, issue and file with the Department an adoption notice as prescribed by §§ 221.160 and 221.161 and shall comply with the requirements of this subpart.

§ 221.163 Agents’ and other carriers’ tariffs shall reflect adoption.

If the former carrier is shown as a participating carrier under concurrence in tariffs issued by other carriers or is shown as a participating carrier under power of attorney in tariffs issued by agents, the issuing carriers and agents of such tariffs shall, upon receipt of the adoption notice, promptly file on statutory notice the following amendments to their respective tariffs:

(a) Cancel the name of the former carrier from the list of participating carriers.

(b) Add the adopting carrier (in alphabetical order) to the list of participating carriers. If the adopting carrier already participates in such tariff, reference to the substitution notice shall be added in connection with such carrier’s name in the list of participating carriers.

§ 221.164 Concurrences or powers of attorney to be reissued.

(a) Adopting carrier shall reissue adopted concurrences and powers of attorney. Within a period of 120 days after the date on which the change in name or transfer of operating control occurs, the adopting carrier shall reissue all effective powers of attorney and concurrences of the former carrier by issuing and filing new powers of attorney and concurrences, in the adopting carrier’s name, which shall direct the cancellation of the respective powers of attorney and concurrences of the former carrier. The adopting carrier shall consecutively number its powers of attorney and concurrences in its own series of power of attorney numbers and concurrence numbers (commencing with No. 1 in each series if it had not previously filed any such instruments with the Department), except that a receiver or other fiduciary shall consecutively number its powers of attorney or concurrences in the series of the former carrier. The cancellation reference shall show that the canceled power of attorney or concurrence was issued by the former carrier.

(b) If such new powers of attorney or concurrences confer less authority than the powers of attorney or concurrences which they are to supersede, the new issues shall not direct the cancellation of the former issues; in such instances, the provisions of §§ 221.142 and 221.152 shall be observed. Concurrences and powers of attorney which will not be replaced by new issues shall be revoked in the form and manner and upon the notice required by §§ 221.141 and 221.151.

(c) Reissue of other carriers’ concurrences issued in favor of former carrier. Each carrier which has given a concurrence to a carrier whose tariffs are subsequently adopted shall reissue the concurrence in favor of the adopting carrier. If the carrier which issued the concurrence to the former carrier desires to revoke it or desires to replace it with a concurrence conferring less authority, the provisions of §§ 221.141 and 221.142 shall be observed.

§ 221.165 Cessation of operations without successor.

If a carrier ceases operations without having a successor, it shall:

(a) File a notice in each tariff of its own issue and cancel such tariff in its entirety.
§ 221.170 Revoke all powers of attorney and concurrences which it has issued.

Subpart R—Electronically Filed Tariffs

§ 221.170 Applicability of the subpart.

(a) Every air carrier and foreign air carrier shall file its international passenger fares tariffs consistent with the provisions of this subpart, and part 221 generally. Additionally, any air carrier and any foreign air carrier may file its international passenger rules tariffs electronically in machine-readable form as an alternative to the filing of printed paper tariffs as provided for elsewhere in part 221. This subpart applies to all carriers and tariff publishing agents and may be used by either if the carrier or agent complies with the provisions of subpart R. Any carrier or agent that files electronically under this subpart must transmit to the Department the remainder of the tariff in a form consistent with part 221, Subparts A through Q, on the same day that the electronic tariff would be deemed received under § 221.190(b).

(b) To the extent that subpart R is inconsistent with the remainder of part 221, subpart R shall govern the filing of electronic tariffs. In all other respects, part 221 remains in full force and effect.

§ 221.180 Requirements for electronic filing of tariffs.

(a) No carrier or filing agent shall file an electronic tariff unless, prior to filing, it has signed a maintenance agreement or agreements, furnished by the Department of Transportation, for the maintenance and security of the carrier’s on-line tariff database.

(b) No carrier or agent shall file an electronic tariff unless, prior to filing, it has submitted to the Department’s Office of International Aviation, Pricing and Multilateral Affairs Division, and received approval of, an application containing the following commitments:

(1) The filer shall file tariffs electronically only in such format as shall be agreed to by the filer and the Department. The filer shall include with its application a proposed format of tariff. [41 FR 49479, Nov. 9, 1976, as amended by Docket No. 47939, 57 FR 40102, Sept. 2, 1992]
§ 234.1 Purpose.

The purpose of this part is to set forth required data that certain air carriers must submit to the Department and to computer reservations system vendors in computerized form, except as otherwise provided, so that information on air carriers’ quality of service can be made available to consumers of air transportation. This part also requires that service quality data be disclosed directly to consumers.

§ 234.2 Definitions.

For the purpose of this part:

Cancelled flight means a flight operation that was not operated, but was listed in a carrier’s computer reservation system within seven calendar days of the scheduled departure.

Discontinued flight means a flight dropped from a carrier’s computer reservation system more than seven calendar days before its scheduled departure.

Diverted flight means a flight which is operated from the scheduled origin point to a point other than the scheduled destination point in the carrier’s published schedule. For example, a carrier has a published schedule for a flight from A to B to C. If the carrier were to actually fly an A to C operation, the A to B segment is a diverted flight, and the B to C segment is a cancelled flight.

Extra-section flight means a flight conducted as an integral part of scheduled passenger service, that has not been provided for in published schedules and is required for transportation of traffic that cannot be accommodated on the regularly scheduled flight.

Flight means any nonstop scheduled passenger flight segment with a specific flight number scheduled to be operated pursuant to a published schedule within a specific origin-destination city pair, other than transborder or foreign air transportation. In the case of reporting to computer reservations system vendors, flight also means one-stop or multi-stop single plane scheduled operations that include any flight segments for which performance is reported pursuant to this part.

Late or late flight means a flight that arrives at the gate 15 minutes or more after its published arrival time.

Mishandled-baggage report means a report filed with a carrier by or on behalf of a passenger that claims loss, delay, damage or pilferage of baggage.

New flight means a flight added to a carrier’s schedule to operate in a specific origin-destination city pair and not scheduled to depart within 30 minutes of any discontinued flight that was contained in the carrier’s published schedules for the same city pair during the previous month.

On-time means a flight that arrives less than 15 minutes after its published arrival time.

On-time performance means the percentage of scheduled operations of a specific flight that an air carrier operates on-time during a month.

On-time performance code means a single character determined in accordance with the provisions of this part that reflects the monthly on-time performance of certain nonstop flights and single plane one-stop or multi-stop flights, the schedule and availability of which are listed in a computer reservation system (CRS) regulated by 14 CFR part 255.

Reportable flight means any nonstop flight, including a mechanically delayed flight, to or from any airport within the contiguous 48 states that accounts for at least 1 percent of domestic scheduled-passenger revenues in the previous calendar year, as reported to the Department pursuant to part 241 of this title. Qualifying airports will be specified periodically in accounting and reporting directives issued by the Office of Airline Information.

Reporting carrier means an air carrier certificated under 49 U.S.C. 41102 that accounted for at least 1 percent of domestic scheduled-passenger revenues in the 12 months ending March 31 of each year, as reported to the Department pursuant to part 241 of this title. Reporting carriers will be identified periodically in accounting and reporting directives issued by the Office of Airline Information.
Office of the Secretary, DOT § 234.4

Wet-leased flight means a flight operated with a leased aircraft and crew.

§ 234.3 Applicability.

This part applies to certain domestic scheduled passenger flights that are held out to the public by certificated air carriers that account for at least 1 percent of domestic scheduled passenger revenues. Certain provisions also apply to voluntary reporting to on-time performance by carriers.

§ 234.4 Reporting of on-time performance.

(a) Each reporting carrier shall file BTS Form 234 “On-Time Flight Performance Report” with the Office of Airline Information on a monthly basis, setting forth the information for each of its reportable flights held out in the Official Airline Guide (OAG), in the computer reservations systems (CRS), or in other schedule publications. The reportable flights include, but are not limited to, cancelled flights, mechanically cancelled flights, diverted flights, new flights and wet-leased flights. The report shall be made in the form and manner set forth in accounting and reporting directives issued by the Director, Office of Airline Statistics, and shall contain the following information:

(1) Carrier and flight number.
(2) Aircraft tail number.
(3) Origin and Destination airport codes.
(4) Published OAG departure and arrival times for each scheduled operation of the flight.
(5) CRS scheduled arrival and departure time for each scheduled operation of the flight.
(6) Actual departure and arrival time for each operation of the flight.
(7) Difference in minutes between OAG and CRS scheduled arrival times.
(8) Difference in minutes between OAG and CRS scheduled departure times.
(9) Actual wheels-off and wheels-on times for each operation of the flight.
(10) Date and day of week of scheduled flight operation.
(11) Scheduled elapsed time, according to CRS schedule.
(12) Actual elapsed time.
(13) Amount of departure delay, if any.
(14) Amount of arrival delay, if any.
(15) Amount of elapsed time difference, if any.
(16) Causal code for cancellation, if any.
(17) Minutes of delay attributed to the air carrier, if any.
(18) Minutes of delay attributed to extreme weather, if any.
(19) Minutes of delay attributed to the national aviation system, if any.
(20) Minutes of delay attributed to security, if any.
(21) Minutes of delay attributed to a previous late arriving aircraft, if any.

(b) When reporting the information specified in paragraph (a) of this section for a diverted flight, a reporting carrier shall use the original scheduled flight number and the original scheduled origin and destination airport codes. Carriers are not required to report causal information for diverted flights.

(c) A reporting carrier shall report the information specified in paragraph (a) of this section for a new flight beginning with the first day of the new scheduled operation.

(d) A reporting carrier shall not report the information specified in paragraph (a) of this section for any discontinued or extra-section flight.

(e) Actual arrival, departure and elapsed times shall be measured by the times at which the aircraft arrived at and departed from the gate or passenger loading area.

(f) The published arrival time and departure time of a flight shall be, respectively, the scheduled arrival and departure times in effect on the date of the scheduled operation of the flight, as shown in the most recent Official Airline Guide, and in computer reservations systems. Each carrier shall designate a single computer reservations system in addition to the Official Airline Guide as the sources of scheduled arrival time and departure time data in its reports to the Department and shall report the scheduled arrival times and departure times listed in those sources for each flight. Scheduled elapsed
§ 234.5 Times, amount of departure and/or arrival delay, and elapsed time difference shall be calculated using the scheduled times shown in the designated CRS source.

(g) Reporting carriers should use the following codes to identify causes for cancelled flights:

Code
A—Air Carrier
B—Extreme Weather
C—National Aviation System (NAS).
D—Security

(1) Air Carrier cancellations are due to circumstances that were within the control of the air carrier (e.g., lack of flight crew, maintenance, etc.).

(2) Extreme weather cancellations are caused by weather conditions (e.g., significant meteorological conditions), actual or forecasted at the point of departure, en route, or point of arrival that, in accordance with applicable regulatory standards and/or in the judgment of the air carrier, prevents operation of that flight and/or prevents operations of subsequent flights due to the intended aircraft being out of position as a result of a prior cancellation or delay attributable to weather.

(3) NAS cancellations are caused by circumstances within the National Aviation System. This term is used to refer to a broad set of conditions: weather-non-extreme, airport operations, heavy traffic volume, air traffic control, etc.

(4) Security cancellations may be the result of malfunctioning screening or other security equipment or a breech of security that causes the evacuation of the airport or individual concourses or the need to re-screen passengers.

(h) Reporting carriers should use the following causes to identify the reasons for delayed flights:

CAUSE
Air Carrier
Extreme weather
NAS
Security
Late arriving aircraft

(1) Air carrier delays are due to circumstances within the control of the air carrier.

(2) Extreme weather delays are caused by weather conditions (e.g., significant meteorological conditions), actual or forecasted at the point of departure, en route, or point of arrival that, in accordance with applicable regulatory standards and/or in the judgment of the air carrier, prevents operation of that flight and/or prevents operations of subsequent flights due to the intended aircraft being out of position as a result of a prior cancellation or delay attributable to weather.

(3) NAS delays are caused by circumstances within the National Aviation System. This term is used to refer to a broad set of conditions: weather-non-extreme, airport operations, heavy traffic volume, air traffic control, etc.

(4) Security delays may be the result of malfunctioning screening or other security equipment or a breech of security that causes the evacuation of the airport or individual concourses or the need to re-screen passengers.

(5) Late arriving aircraft delays are the result of a late incoming aircraft from the previous flight.

(i) When reporting causal codes in paragraph (a) of this section, reporting carriers are required to code delays only when the arrival delay is 15 minutes or greater; and reporting carriers must report each causal component of the reportable delay when the causal component is 5 minutes or greater.

§ 234.6 Form of reports.

Except where otherwise noted, all reports required by this part shall be filed within 15 days of the end of the month for which data are reported. The reports must be submitted to the Office of Airline Information in a format specified in accounting and reporting directives issued by the Bureau of Transportation Statistics’ Assistant Director for Airline Information.

§ 234.5 Baggage-handling statistics.

Each reporting carrier shall report monthly to the Department on a domestic system basis, excluding charter flights, the total number of passengers enplaned systemwide, and the total number of mishandled-baggage reports filed with the carrier. The information
shall be submitted to the Department within 15 days of the end of the month to which the information applies and must be submitted with the transmittal letter accompanying the data for on-time performance in the form and manner set forth in accounting and reporting directives issued by the Director, Office of Airline Information.

§ 234.7 Voluntary reporting.

(a) In addition to the data for each reportable flight required to be reported by this part, a reporting carrier may report to DOT for every other nonstop domestic flight that it schedules, the reportable flight data specified in this part.

(b) Any air carrier that is not a reporting carrier may file the data specified in this part for every reportable flight that it schedules, or for every nonstop domestic flight that it schedules.

(c) Voluntary reports containing information not required to be filed (1) must be submitted in the same form and manner, and at the same time, as reports containing data required to be filed, and (2) must be accompanied by a written statement describing in detail the information that is being voluntarily submitted. A carrier that files a voluntary report must continue to do so for a period of not less than 12 consecutive months.

§ 234.8 Calculation of on-time performance codes.

(a) Each reporting carrier shall calculate an on-time performance code in accordance with this section and as provided in more detail in accounting and reporting directives issued by the Director, Office of Airline Information. The calculations shall be performed for each reportable flight, except those scheduled to operate three times or less during a month. In addition, each reporting carrier shall assign an on-time performance code to each of its single plane one-stop or multi-stop flights, or portion thereof, that the carrier holds out to the public through a CRS, the last segment of which is a reportable flight.

(b) The on-time performance code shall be calculated as follows:

1. Based on reportable flight data provided to the Department, calculate the percentage of on-time arrivals of each nonstop flight. Calculations shall not include discontinued or extra-section flights for which data are not reported to the Department.

2. Based upon the on-time performance percentage calculated in paragraph (b)(1) of this section, assign a single digit code to each flight that reflects the percentile of on-time performance achieved by the flight, as set forth in the following table:

<table>
<thead>
<tr>
<th>Code</th>

3. For a one-stop or multi-stop flight, or portion thereof, listed in a CRS, the performance code for the nonstop flight segment arriving at the destination listed in the CRS shall be used.

4. In the case of a new flight, carriers shall assign a performance code consisting of the letter “N.” A flight that is not a new flight shall be assigned the performance code calculated for the flight that it replaces, even if the two flights do not have the same flight number. In the case of a flight scheduled to operate three times or less during a month, carriers shall assign a performance code consisting of the letter “U.”

(c) Carriers shall calculate on-time performance percentages and assign on-time performance codes on a monthly basis. This process shall be completed no later than the 15th day of each month, when the reports required by this part are due to the Department,
§ 234.9 Reporting of on-time performance codes.

No later than the 15th day of each month, each reporting carrier shall deliver, or arrange to have delivered, to each system vendor, as defined in 14 CFR part 235, the on-time performance codes required to be determined above. Carriers may report the codes by insuring that they are included in basic schedule tapes provided to CRS vendors or by providing a separate tape that will permit the CRS vendors to match the performance codes with basic schedule tapes.

§ 234.10 Voluntary disclosure of on-time performance codes.

(a) Any air carrier may determine, in accordance with the provisions of §234.8 of this part, the on-time performance codes for the flights for which it voluntarily provides flight information to the Department pursuant to §234.7 of this part.

(b) A carrier may supply these additional on-time performance codes to system vendors at the same time and in the same manner as the required disclosures are made to system vendors, provided that voluntary disclosures must continue for a period of not less than 12 consecutive months, and must be supplied either:

(1) For each of the carrier’s reportable flights and each of its single plane one-stop or multi-stop flights, or portions thereof, that it holds out to the public through a CRS, the last segment of which is a reportable flight or

(2) For each of the carrier’s domestic flights.

§ 234.11 Disclosure to consumers.

During the course of reservations or ticketing discussions or transactions, or inquiries about flights, between a carrier’s employees and the public, the carrier shall disclose upon reasonable request the on-time performance code for any flight that has been assigned a code pursuant to this part.

§ 234.12 Waivers.

Any carrier may request a waiver from the reporting requirements of this part. Such a request, at the discretion of the Director, Bureau of Transportation Statistics may be granted for good cause shown. The requesting party shall state the basis for such a waiver.

§ 234.13 Reports by air carriers on incidents involving animals during air transport.

(a) Any air carrier that provides scheduled passenger air transportation shall, within 15 days of the end of the month to which the information applies, submit to the United States Department of Transportation’s Aviation Consumer Protection Division a report on any incidents involving the loss, injury, or death of an animal during air transport provided by the air carrier.

(b) The report shall be made in the form and manner set forth in reporting directives issued by the Deputy General Counsel for the U.S. Department of Transportation and shall contain the following information:

(1) Carrier and flight number;

(6) Narrative description of the cause of the incident;

(7) Narrative description of any corrective action taken in response to the incident; and

(8) Name, title, address, and telephone number of the individual filing the report on behalf of the air carrier.

(c) For purposes of this section:

(1) The air transport of an animal includes the entire period during which an animal is in the custody of an air carrier, from check-in of the animal prior to departure until the animal is returned to the owner or guardian of the animal at the final destination of the animal; and
Office of the Secretary, DOT § 240.1

(2) Animal means any warm or cold blooded animal which, at the time of transportation, is being kept as a pet in a family household in the United States.

- The period from the date of one filing to the date of the next filing.

**Tax effects**
- Differentials in income taxes of a period attributable to (1) revenue or expense transactions which enter into the determination of pretax accounting income in one period and into the determination of taxable income in another period, (2) deductions or the excess of deductions over revenues to be reported for income tax purposes for a period, and (3) adjustments of prior periods (or of the opening balance of retained earnings) and direct entries to other stockholders’ equity accounts which enter into the determination of taxable income in a period but which do not enter into the determination of pretax accounting income of that period. A permanent
difference does not result in a “tax effect” as the term is used in this System of Accounts and Reports.

**Ton.** A short ton (2,000 pounds).

**Ton-mile.** One ton of cargo transported 1 mile. Ton-miles are computed by multiplying the aircraft miles flown on each flight stage by the number of tons transported on that stage.

**Ton-mile, nonrevenue.** One ton of nonrevenue traffic transported 1 mile.

**Ton-mile, passenger.** One ton of passenger weight (including all baggage) transported 1 mile. (See also Weight, passenger.)

**Ton-mile, revenue.** One ton of revenue traffic transported 1 mile.

**Ton-miles available, revenue.** The aircraft miles flown on each flight stage multiplied by the ton capacity available for use on that stage.

**Traffic, deplaned.** A count of the number of passengers getting off and tons of cargo unloaded from an aircraft. For this purpose, passengers and cargo on aircraft leaving a carrier’s system on interchange flights are considered as deplaning and the interchange point; and passengers and cargo moving from one operation to another operation of the same carrier, for which separate reports are required by the Department of Transportation, are considered as deplaning at the junction point.

**Traffic, enplaned.** A count of the number of passengers boarding and tons of cargo loaded on an aircraft. For this purpose, passengers and cargo on aircraft entering a carrier’s system on interchange flights are considered as enplaning at the interchange point; and passengers and cargo moving from one operation to another operation of the same carrier, for which separate reports are required by the Department of Transportation, are considered as enplaning at the junction point.

**Traffic, nonrevenue.** Passengers and cargo transported by air for which no remuneration or token service charges are received by the air carrier. Airline employees, officers and directors, or other persons, except for ministers of religion, who are traveling under reduced-rate transportation authorized by 49 U.S.C. 41511(a) and 14 CFR part 223, as well as travel agents, cargo agents, and tour conductors traveling at reduced fares are also considered nonrevenue traffic.

**Traffic office.** A facility where air transportation is sold, and related processes of documentation and reservation confirmation are performed.

**Traffic, revenue.** Passengers and cargo transported by air for which remuneration is received by the air carrier. Airline employees, officers and directors, or other persons, except for ministers of religion, who are traveling under reduced-rate transportation authorized by 49 U.S.C. 41511(a) and 14 CFR part 223, travel agents, cargo agents, and tour conductors traveling at reduced fares, and other passengers and cargo carried for token service charges, are not considered as revenue traffic.

**Transportation, free.** The carriage of any person or cargo (other than cargo owned by the air carrier) without compensation.

**Unit basis (in depreciation accounting).** A plan under which depreciation expenses is accrued upon the basis of the book cost of the individual item of property in relation to the service life and salvage value of the particular item.

**Value, service.** The difference between the book cost and the residual value of property and equipment.

**Weight, allowable gross.** The maximum gross weight (of the aircraft and its contents) which an aircraft is licensed to carry into the air on each flight stage.

**Weight, average available.** The average capacity available for revenue traffic, determined by dividing available ton-miles by aircraft miles in revenue service.

**Weight, empty.** The weight of the airframe, engines, propellers, and fixed equipment of an aircraft. Empty weight excludes the weight of the crew and payload, but includes the weight of all fixed ballast, unusable fuel supply, undrainable oil, total quantity of engine coolant, and total quantity of hydraulic fluid.

**Weight, passenger.** For the purposes of this part, a standard weight of 200 pounds per passenger (including all baggage) is used for all civil operations and classes of service. Other weights may be prescribed in specific instances upon the initiative of the Department of Transportation or upon a factually supported request by an air carrier.

**Wet-Lease Agreement means an agreement under which one carrier leases an aircraft with flight crew to another air carrier.**

### Section 04 Air Carrier Groupings

(a) All large certificated air carriers are placed into three basic air carrier groupings based upon their level of operations and the nature of these operations. In order to determine the level of operations, total operating revenues for a twelve-month period are used. The following operating revenue ranges are used to establish air carrier groupings:

<table>
<thead>
<tr>
<th>Carrier Group</th>
<th>Total Annual Operating Revenues</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>0–$100,000,000</td>
</tr>
<tr>
<td>II</td>
<td>$100,000,000–$1,000,000,000</td>
</tr>
<tr>
<td>III</td>
<td>$1,000,000,000+</td>
</tr>
</tbody>
</table>
For reporting purposes, Group I air carriers are further divided into two subgroups: (1) Air carriers with total annual operating revenues from $20,000,000 to $100,000,000 and (2) Air carriers with total annual operating revenues below $20,000,000.

(b) Both the criteria for establishing air carrier groupings and the assignment of each air carrier to a specific group of carriers will be reviewed periodically by the Director, Office of Airline Information, to assure the maintenance of appropriate standards for the grouping of carriers. When an air carrier’s level of operations passes the upper or lower limit of its currently assigned carrier grouping, the carrier is not automatically transferred to a different group and a new level of reporting. The Office of Airline Statistics will issue an updated listing of the carrier groups on an annual basis. A carrier may petition for reconsideration of its assigned carrier grouping or request a waiver from the accounting and reporting requirements that are applicable to a particular group under the provisions of section 1–2 of this Uniform System of Accounts and Reports.

GENERAL ACCOUNTING PROVISIONS

Section 1 Introduction to System of Accounts and Reports

Sec. 1–1 Applicability of system of accounts and reports.

Each large certificated air carrier shall keep its books of account, records and memoranda and make reports to the BTS in accordance with this system of accounts and reports. The BTS reserves the right, however, under the provisions of sections 49 U.S.C. 41701 and 41708, to expand or otherwise modify the classes of carriers subject to this system of accounts and reports.

Sec. 1–2 Waivers from this system of accounts and reports.

A waiver from any provision of this system of accounts or reports may be made by the BTS upon its own initiative or upon the submission of written request therefor from any air carrier, or group of air carriers, provided that such a waiver is in the public interest and each request for waiver expressly demonstrates that: existing peculiarities or unusual circumstances warrant a departure from a prescribed procedure or technique; a specifically defined alternative procedure or technique will result in a substantially equivalent or more accurate portrayal of operating results or financial condition, consistent with the principles embodied in the provisions of this system of accounts and reports; and the application of such alternative procedure will maintain or improve uniformity in substantive results as between air carriers.

are recorded during the current accounting year are subclassified as between (1) those which relate to the current accounting year and adjustments of a recurrent nature applicable to prior accounting years, and (2) extraordinary items of material magnitude.

(c) In order to afford air carriers as much flexibility and freedom as possible in establishing ledger and subsidiary accounts to meet their individual needs, a minimum number of account subdivisions have been prescribed in this Uniform System of Accounts. It is intended, however, that each air carrier, in maintaining its accounting records, will provide subaccount and subsidiary account segregations of accounting elements which differ in nature of accounting characteristics, in a manner which will render individual elements readily discernible and traceable throughout the accounting system, and will provide for relating profit and loss elements to applicable balance sheet counterparts.

Sec. 1–4 System of accounts coding.

(a) A four digit control number is assigned for each balance sheet and profit and loss account. Each balance sheet account is numbered sequentially, within blocks, designating basic balance sheet classifications. The first two digits of the four digit code assigned to each profit and loss account denote a detailed area of financial activity or functional operation. The first two digits, thus assigned to each profit and loss account, are numbered sequentially within blocks, designating more general classifications of financial activity and functional operation. The second two digits assigned to profit and loss accounts denote objective classifications.

(b) A fifth digit, appended as a decimal, has been assigned for internal control by the BTS of prescribed subdivisions of the primary objective balance sheet and profit and loss classifications. A different fifth digit code number from that assigned by the BTS may be adopted for internal record-keeping by the air carrier provided the prescribed subclassification of objective accounts is not impaired and the code number assigned by the BTS is employed in reporting to the BTS on Form 41 Reports.

Sec. 1–5 Records.

(a) The general books of account and all books, records, and memoranda which support in any way the entries therein shall be kept in such manner as to provide at any time full information relating to any account. The entries in each account shall be supported by such detailed information as will render certain the identification of all facts essential to a verification of the nature and character of each entry and its proper classification under the prescribed Uniform System of Accounts. Registers, or other appropriate records, shall be maintained of the history and nature of each note receivable and each note payable.

(b) The books and records referred to herein include not only accounting records in a limited technical sense, but all other records such as organization tables and charts, internal accounting manuals and revisions thereof, minute books, stock books, reports, cost distributions and other accounting work sheets, correspondence, memoranda, etc., which may constitute necessary links in developing the history of, or facts regarding, any accounting or financial transaction.

(c) All books, records and memoranda shall be preserved and filed in such manner as to readily permit the audit and examination thereof by representatives of the DOT. All books, records, and memoranda shall be housed or stored in such manner as to afford protection from loss, theft, or damage by fire, flood or otherwise and no such books and records shall be destroyed or otherwise disposed of, except in conformance with 14 CFR part 249 for the preservation of records.

Sec. 1–6 Accounting entities.

(a) Separate accounting records shall be maintained for each air transport entity for which separate reports to the BTS are required to be made by
sections 21(g) and for each separate corporate or organizational division of the air carrier. For purposes of this Uniform System of Accounts and Reports, each nontransport entity conducting an activity which is not related to the air carrier’s transport activities and each transport-related activity or group of activities qualifying as a nontransport venture pursuant to paragraph (b) of this section, whether or not formally organized within a distinct organizational unit, shall be treated as a separately operated organizational division; except that provisions of this paragraph and paragraph (b) shall not apply to leasing activities.

(b) As a general rule, any activity or group of activities comprising a transport-related service provided for in transport-related revenue and expense accounts 09 through 18 shall be considered a separate nontransport venture under circumstances in which either: (1) A separate corporate or legal entity has been established to perform such services, (2) the aggregate annual revenue rate, as determined in section 2–1(d), during either of the prior two years exceeds the greater of $1 million per annum or one percent of the air carrier’s total annual transport revenues, or (3) the aggregate annual expense rate, as determined in section 2–1(d), during either of the prior two years exceeds the greater of $1 million or one percent of the carrier’s total annual operating expenses. Provided, That revenues and expenses from in-flight sales, and interchange sales shall be considered related to air transportation and accounted for accordingly, regardless of the revenue or expense standard set forth above.

(c) The records for each required accounting entity shall be maintained with sufficient particularity to permit a determination that the requirements of section 2–1 have been complied with.

Sec. 2.1 Generally accepted accounting principles.

(a) The accounting provisions contained in this part are based on generally accepted accounting principles (GAAP). Persons subject to this part are authorized to implement, as prescribed by the Financial Accounting Standards Board, newly issued GAAP pronouncements until and unless the Director, Office of Airline Information (OAI), issues an Accounting Directive making an initial determination that implementation of a new pronouncement would adversely affect the Department’s programs.

(b) The Director, OAI, shall review each newly issued GAAP pronouncement to determine its affect on the Department’s regulatory programs. If adopting a specific change in GAAP would adversely affect the Department’s programs, the Director will issue the results of the review in the form of an Accounting Directive. The directive will state the reasons why the particular change should not be incorporated in the uniform system of accounts and contain accounting guidance for maintaining the integrity of the Department’s air carrier accounting provisions.

(c) Objections and comments relating to the Department’s decision not to implement a change in generally accepted principles may be addressed to Director, Office of Airline Information.
Sec. 2–2

K–25, Room 4125, U.S. Department of Transportation, 400 Seventh St., SW., Washington, DC 20590. If significant objections are raised urging adoption of a particular GAAP pronouncement, the Department will institute a rulemaking.

Sec. 2–2 Basis of allocation between entities.

(a) The provisions of this section shall apply to each person controlling an air carrier, each person controlled by the air carrier, as well as each transport entity and organizational division of the air carrier for which separate records must be maintained pursuant to section 1–6.

(b) Each transaction shall be recorded and placed initially under accounting controls of the particular air transport entity or organizational division of the air carrier or member of an affiliated group to which directly traceable. If applicable to two or more accounting entities, a proration shall be made from the entity of original recording to other participating entities on such basis that the statements of financial condition and operating results of each entity are comparable to those of distinct legal entities. The allocations involved shall include all debits and credits associated with each entity.

(c) For purposes of this section, investments by the air carrier in resources or facilities used in common by the regulated air carrier and those transport-related revenue services defined as separate nontransport ventures under section 1–6(b) shall not be allocated between such entities but shall be reflected in total in the appropriate accounts of the entity which predominately uses those investments. Where the entity of predominance use is a nontransport venture, the air carrier shall reflect the investment in account 1510.3, Advances to Associated Companies.

(d) For purposes of this Uniform System of Accounts and Reports, all revenues shall be assigned to or apportioned between accounting entities on bases which will fully recognize the services provided by each entity, and expenses, or costs, shall be apportioned between accounting entities on such bases as will result: (1) With respect to transport-related services, in the assignment thereto of proportionate direct overheads, as well as direct labor and materials, of the applicable expense functions prescribed by this system of accounts and reports, and (2) with respect to separate ventures, in the assignment thereto of proportional general and administrative overheads as well as the direct overheads, labor, and materials.

Sec. 2–3 Distribution of revenues and expenses within entities.

(a) Revenues and expenses attributable to a single natural objective account or functional classification shall be assigned accordingly.

(b) Revenue and expense items which are common to two or more natural objective accounts shall be recorded in the objective accounts to which they predominantly relate.

(c) Expense items contributing to more than one function shall be charged to the general overhead functions to which applicable except that where only incidental contribution is made to more than a single function an item may be included in the function to which primarily related, provided such function is not distorted by including an aggregation of amounts applicable to other functions. When assignment of expense items on the basis of the primary activity to which related does not in the aggregate result in a fair presentation of the expenses applicable to each function, apportionment shall be made between functions based upon a study of the contribution to each function during a representative period.

Sec. 2–4 Accounting period.

(a) The accounting year of each air carrier subject to this Uniform System
Office of the Secretary, DOT

Sec. 2–5

of Accounts shall be the calendar year unless otherwise approved by the BTS.

(b) Each air carrier shall keep its financial accounts and records on a full accrual basis for each quarter so that all transactions, as nearly as may reasonably be ascertained, shall be fully reflected in the air carrier’s books for the quarter in which revenues have been earned and the costs attaching to the revenues so earned in each quarter have been incurred independently of the incidence of sales or purchases and settlement with debtors or creditors.

(c) Expenditures incurred during the current accounting year which demonstrably benefit operations to be performed during subsequent accounting years to a significant extent shall be deferred and amortized to the period in which the related operations are performed when of sufficient magnitude to distort the accounting results of the year in which incurred.

(d) Expenditures charged directly or amortized to operations within one accounting year shall not be reversed in a subsequent accounting year and re-amortized or charged directly against operations of subsequent years except that retroactive adjustments are permitted where necessary to conform with adjustments required by the DOT for ratemaking purposes.

Sec. 2–5 Revenue and accounting practices.

(a) Revenue accounting practices shall conform to the provisions of account 2160, Air Traffic Liability.

(b) Each route air carrier shall physically verify the reliability of its passenger revenue accounting practice at least once each accounting year.

(c) For those carriers who use the yield or average-fare method to determine earned revenue, the analysis supporting the verification shall include:

(1) The cutoff date for the liability to be verified; such cutoff date shall be at the end of a calendar month.

(2) A trial balance as of the cutoff date of all subaccounts supporting the Air Traffic Liability control account; the subsidiary trial balance must agree with the Air Traffic Liability control account or a reconciliation statement furnished.

(3) A statement to the effect that a sales listing of the value of all unmatched auditor coupons has been compiled and compared to the general ledger control figure; the statement required by this subparagraph shall indicate whether or not the value of the unmatched coupons is in agreement with the general ledger. If the sales listing is not in agreement with the Air Traffic Liability control account, the amount of such difference shall be shown on such statement.

(b) Each air carrier shall subdivide this account in such manner that the balance can be readily segregated as between balances in United States currency and the balances in each foreign currency.

1100 Short-term Investments.

(a) Record here the cost of short-term investments such as special deposits and United States Government securities, any other temporary cash investments, and the allowance for unrealized gain or loss on current marketable equity securities.

(b) Special deposits for more than one year, not offset by current liabilities, shall not be included in this account but in account 1550 Special Funds.

(c) This account should be charged or credited for discount or premium on United States Government securities or other securities which should be amortized to profit and loss account 80 Interest Income.

1200 Notes Receivable.

(a) Record here current notes receivable including those from associated companies, company personnel, and all other sources.

(b) Balances of notes payable to associated companies shall not be offset against amounts carried in this account. Balances with associated companies which are not normally settled

Footnotes:

1 Prescribed for group II and group III air carriers only.

2 At the option of the air carrier, these accounts may be assigned Nos. 2629 and 2729, respectively, for accounting purposes.

Note: Digits to right of decimals and italicized codes established for BTS control purposes only.

Section 4 General

(a) The balance sheet accounts are designed to show the financial condition of the air carrier as at a given date, reflecting the asset and liability balances carried forward subsequent to the closing or constructive closing of the air carrier’s books of account.

(b) The balance sheet accounts prescribed in this system of accounts for each air carrier group are set forth in Section 3, Chart of Balance Sheet Accounts. The balance sheet elements to be included in each account are presented in section 6.

currently shall not be included in this account but in balance sheet account 1510.3 Advances to Associated Companies.

1270 Accounts Receivable.

(a) Record here current accounts receivable including those due from the United States Government, foreign governments, associated companies, company personnel, and other amounts due for the performance of air transportation.

(b) Amounts due from the United States Government shall be maintained in such fashion as will clearly and separately identify service mail pay receivables, subsidy receivables and other than mail transportation receivables.

(c) Amounts due for the performance of air transportation shall include gross amounts due whether settled through airline clearing houses or with individual carriers. Amounts payable collected as agent shall not be credited to this account, but should be included in account 2190 Other Current Liabilities.

(d) Balances payable to associated companies shall not be offset against amounts carried in this account. Balances with associated companies which are not normally settled currently shall not be included in this account but in balance sheet account 1510.3 Advances to Associated Companies.

1290 Allowance for Uncollectible Accounts.

(a) Record here accruals for estimated losses from uncollectible accounts.

(b) All accounts against which allowances have been established shall be examined quarterly for the purpose of redetermining the basis of accruals to be applied to subsequent accounting periods and the reasonableness of allowances already provided.

1300 Spare parts and supplies.

(a) Record here the cost of:

(1) Flight equipment replacement parts of a type which ordinarily would be recurrently expended and replaced rather than repaired and reused;

(2) Unissued fuel inventories for use in the overall or system operations of the carrier. Adjustments of inventories for aircraft fuel due to retroactive price increases and decreases shall not be entered in this account but in profit and loss account 45, Aircraft Fuels and Oils; and

(3) Unissued and unapplied materials and supplies held in stock such as unissued shop materials, expendable tools, stationery and office supplies, passenger service supplies, and restaurant and food service supplies.

(b) Costs paid by the air carrier such as transportation charges and customs duties; excise, sales, use and other taxes; special insurance; and other charges applicable to the cost of spare parts and supplies shall be charged to this account when they can be definitely allocated to specific items or units of property. If such costs cannot be so allocated, or if of minor significance in relation to the cost of such property, such amounts may be charged to balance sheet account 1890 Other Assets and Deferred Charges and cleared either by a suitable “loading charge” as the parts are used or by current charges to appropriate expense or property accounts; so long as the method of application does not cause material distortion in operating expenses from one accounting period to another.

(c) Reusable spare parts and supplies recovered in connection with construction, maintenance, or retirement of property and equipment shall be included in this account at fair and reasonable values but in no case shall such values exceed original cost. Recoveries of normally reparable and reusable parts of a type for which losses in value may be covered on a practical basis through valuation allowance provisions shall be included in this account on an original cost basis. Scrap and nonusable parts, expensed from this account and recovered, shall be included at net amounts realizable therefrom with contra credit to the expense accounts initially charged.

(d) The cost of rotatable parts and assemblies of material value included in
Office of the Secretary, DOT

Section 6

this account which ordinarily are repaired and reused and possess a service life approximating that of the primary property types to which related shall not be recorded in this account but in balance sheet account 1608 Flight Equipment Rotable Parts and Assemblies. For purposes of identifying rotatable parts and assemblies of insignificant unit value which may be included in this account, a reasonable maximum unit value limitation may be established.

(e) Any losses sustained or gains realized upon the abandonment or other disposition of flight equipment expendable parts shall be taken up as capital gains or losses in the periods in which sustained or realized. (See balance sheet account 1311.)

(f) Items in this account shall be charged to appropriate expense accounts as issued for use. Profit and loss on sales of inventory items as a routine service to others shall be included in profit and loss accounts 14 General Service Sales—Associated Companies, or 16 General Service Sales—Outside, and the parts sold shall be removed from this accounts at full cost.

(g) Materials and supplies held in small supply and purchased currently may be charged to appropriate expense accounts when purchased.

(h) An allowance for inventory adjustment applicable to materials and supplies is prohibited. Items in this account shall be charged to appropriate expense accounts as issued for use.

(i) Subaccounts shall be established within this account for the separate recording of each class or type of spare parts and supplies.

1311 Allowance for Obsolescence—Spare Parts and Supplies.

(a) Accruals shall be made to this account when allowances are established for losses in the value of expendable parts. The accruals to this account shall be made by charges to profit and loss account 73 Provisions for Obsolescence and Deterioration—Expendable Parts. Records shall be maintained with sufficient detail to permit association of the allowances with each class or type of expendable parts.

(b) The accruals to this account shall be based upon a predetermination by the air carrier of that portion of the total inventory of each class and type of expendable parts against which an allowance for loss is to be accrued. Expendable parts issued for use in operations shall be charged to operating expenses as issued and shall not be charged to this account. If at the end of any calendar year the amount of the allowance exceeds the product of the applicable inventory for the year determined consistently on a year-end or average basis, and the sum of the standard percentage accrual rates for all prior years including the current, the allowance shall be adjusted downward by the amount of the excess. Such adjustments shall be charged to this account and credited to profit and loss account 73 Provisions for Obsolescence and Deterioration—Expendable Parts.

(c) Where changing conditions necessitate a revision or adjustment in rates of accrual, such revision or adjustment shall be made applicable to current and subsequent accounting periods and shall not be applied retroactively to prior accounting periods. Following retirement of airframe or aircraft engine types to which related, any balance remaining in this account shall be offset against related balances carried in balance sheet account 1300 Spare Parts and Supplies and the net cleared to profit and loss accounts 88.5 Capital Gains and Losses—Operating Property or 88.6 Capital Gains and Losses—Other.

1410 Prepaid Items.

Record here prepayments of obligations which if not paid in advance would require the expenditure of working capital within one year, such as prepaid rent, insurance, taxes, interest, etc. Unexpired insurance and miscellaneous prepayments applicable to periods extending beyond one year where significant in amount shall be charged to balance sheet account 1820 Long-Term Prepayments.
Section 6

1420 Other Current Assets.

Record here current assets not provided for in balance sheet accounts 1010 to 1410, inclusive.

INVESTMENTS AND SPECIAL FUNDS

1510 Investments in Associated Companies.

(a) Record here net investments in associated companies.
(b) [Reserved]
(c) This account shall be subdivided by all air carrier groups as follows:

1510.1 Investments in Investor Controlled Companies.

Record here the cost of investments in investor controlled companies except that permanent impairment in the value of securities may be reflected through charges to profit and loss classification 8100, Nonoperating Income or Expense—Net. This account shall also include the equity in undistributed earnings or losses since acquisition. In the event dividends are declared by such companies, the air carrier shall credit this account for its share in dividends declared and debit balance sheet account 1270 Accounts Receivable. This account shall separately state: (a) The cost of such investments at date of acquisition and (b) the equity in undistributed earnings or losses since acquisition.

Section 8 General

(a) The profit and loss accounts are designed to reflect, through natural groupings, the elements entering into the derivation of income or loss accruing to the proprietary interests during each accounting period.

(b) The prescribed system of accounts provides for the co-ordinate grouping of all revenues and expenses in terms of
both major natural objectives and functional activities and for subdivision of both to provide varying degrees of detail for air carriers of differing accounting capacities and/or requirements.

(c) The detailed objective accounts established for each air carrier group, by the dual subdivision of profit and loss elements in terms of both natural objectives and functional activities, are set forth in section 7, Chart of Profit and Loss Accounts.

(d) The prescribed system of accounts provides generally that profit and loss elements shall be grouped in accordance with their inherent characteristics within the following primary classifications:

1. Operating revenues. (i) This primary classification shall include revenues of a character usually and ordinarily derived from the performance of air transportation and air transportation-related services, which relate to services performed during the current accounting year, and adjustments of a recurrent nature applicable to services performed in prior accounting years.

(ii) Operating revenues shall be subclassified in terms of functional activities as provided in section 9.

2. Operating expenses. (i) This primary classification shall include expenses of a character usually and ordinarily incurred in the performance of air transportation and air transportation-related services, which relate to services performed during the current accounting year, and adjustments of a recurring nature attributable to services performed in prior accounting years.

(ii) Operating expenses shall be subclassified in terms of functional activities as provided in sections 10 and 11.

3. Nonoperating income and expense—net. This primary classification (8100) shall include income and loss incident to commercial ventures not inherently related to the performance of the common carrier air transport services of the accounting entity; other revenues and expenses attributable to financing or other activities which are extraneous to and not an integral part of air transportation or its incidental services; and special recurrent items of a nonperiod nature.

4. Income taxes for current period. This primary classification (9100) shall include provisions for Federal, state, local, and foreign taxes which are based upon the net income of the air carrier for the current period together with refunds for excess profits credits or carryback of losses and increases or reductions of income taxes of prior years of a magnitude which will not distort net income of the current accounting year. Income taxes applicable to special income credits or debits recorded in profit and loss classification 9700 Extraordinary Items, and other material income tax items not allocable to income of the current accounting year, shall not be included in this classification but in profit and loss classification 9700 Extraordinary Items.

5. Discontinued operations. This primary classification (9600) shall include earnings and losses of discontinued nontransport operations and gains or losses from the disposal of nontransport operations the result of which are customarily accounted for through profit and loss objective accounts 86, 87 and 88.2.

6. Extraordinary items. This primary classification (9700) shall include material items characterized by their unusual nature and infrequent occurrence.

7. Cumulative effect of changes in accounting principles. This primary classification (9800) shall include the cumulative effect of material changes in accounting principles.

Section 9 Functional Classification—

Operating Revenues

3900 Transport Revenues.

This classification is prescribed for all air carrier groups and shall include all revenues from the air transportation of traffic of all classes. It shall consist of the following subclassifications:
3100 Scheduled Services.

This subclassification shall include revenues from the transportation by air of individual passengers or cargo shipments (as opposed to charter flights) pursuant to published schedules, including extra sections and other flights performed as an integral part of published flight schedules.

3200 Nonscheduled Services.

This subclassification shall include revenues from the transportation by air of traffic applicable to the performance of aircraft charters, and other air transportation services not part of services performed pursuant to published flight schedules (but shall not include data applicable to flights performed as extra sections to published flight schedules, which shall be reported in the subclassification 3100 Scheduled Services).

4800 Transport-Related Revenues.

(a) This classification is prescribed for all air carrier groups and shall include all revenues from the United States Government as direct grants or aids for providing air transportation facilities and all revenues from services which grow from and are incidental to the air transportation services performed by the air carrier.

(b) Revenues related to services of a magnitude or scope beyond an incidental adjunct to air transportation services shall not be included in this classification (see section 1–6(b)). Revenues applicable to such services shall be included in profit and loss classification 8100, Nonoperating Income and Expense-Net, and the accounting modified to conform with that of a nontransport division whether or not the service is organized as a nontransport division.

[ER–841, 39 FR 11997, Apr. 2, 1974]

Section 10 Functional Classification—Operating Expenses of Group I Air Carriers

5100 Flying Operations.

(a) This function shall include expenses incurred directly in the in-flight operation of aircraft and expenses attaching to the holding of aircraft and aircraft operational personnel in readiness for assignment to an in-flight status.

(b) This function shall not include expenses incurred in repairing, servicing or storing aircraft, expenses incurred on the ground in protecting and controlling the inflight movement of aircraft, or the compensation of ground personnel and other expenses incurred in scheduling or preparing aircraft or aircraft operational personnel for flight assignment. Such expenses shall be included in function 5400 Maintenance or function 6900 General Services and Administration.

5400 Maintenance.

(a) This function shall include all expenses, both direct and indirect, specifically identifiable with the repair and upkeep of property and equipment as may be required to meet operating and safety standards; in inspecting or checking property and equipment in accordance with prescribed operational standards; and in polishing or cleaning property and equipment when such polishing or cleaning is not an incidental routine in connection with the normal productive use of property and equipment.

(b) This function shall include the cost of direct labor, materials, and outside services and maintenances overhead or other costs specifically associated with maintenance operations regardless of the location at which incurred.

(c) This function shall not include costs incurred in the construction, improvement, or modification of property and equipment even when necessitated to meet new or changed operating or safety standards. Such costs shall be charged to appropriate property and equipment accounts.

(d) Costs incurred by aircraft handling personnel in visual inspection, minor check and servicing of aircraft, while in line service, shall not be included in this function when performed as an incidental routine during the normal productive use of aircraft but shall be included in function 6900 General Services and Administration.

(e) Each Group I air carrier shall maintain the following subfunctions:
5200 Direct Maintenance.

a. This subfunction shall include the costs of labor, materials and outside services consumed directly in periodic maintenance operations and the maintenance and repair of property and equipment, of all types and classes, regardless of the location at which incurred, exclusive of costs specifically identified with maintenance property and equipment expenses in balance sheet accounts 1630 Equipment, 1639 Improvements to Leased Buildings and Equipment, and 1640.1 Maintenance Buildings and Improvements which shall be included in subfunction 5300 Maintenance Burden.

b. The cost of direct labor, materials and supplies, as well as outside repairs, used in the maintenance and repair of property and equipment shall be recorded on running job orders or tickets covering repairs and periodic inspections except servicing. Where a number of like items are maintained on a group basis, it will be necessary to maintain only one job order for each group.

c. When supervisory personnel such as crew chiefs, inspectors and foremen are engaged in direct labor in connection with equipment maintenance, a proportionate part of their salaries and wages shall be charged to the appropriate direct labor accounts. The cost of transporting property to and from shops for repair and maintenance shall be included as a part of the cost of the materials and supplies used in the repair or maintenance of such property and equipment. Transportation charges, customs and duties, etc.; shall be included in the cost of repairs and maintenance operations when made by outside parties.

5300 Maintenance Burden.

a. This subfunction shall include all overhead or general expenses which are specifically identified with activities involved in periodic maintenance operations and the maintenance and repair of property and equipment of all types and classes, including the cost of direct labor, materials and outside services identified with the maintenance and repair of maintenance property and equipment included in balance sheet accounts 1630 Equipment, 1639 Improvements to Leased Buildings and Equipment, and 1604.1 Maintenance Buildings and Improvements. It shall include expenses specifically attributed to the administration of maintenance stocks and stores, the keeping of pertinent maintenance operations records, and the scheduling, controlling, planning and supervision of maintenance operations.

b. This subfunction shall not include expenses related to financial accounting, purchasing or other overhead activities which are of general applicability to all operating functions. Such expenses shall be included in function 6900 General Services and Administration.

c. This subfunction shall include only those expenses attributable to the current air transport operations of the air carrier. Maintenance burden associated with capital projects of the air carrier, other than overhauls of airframes and aircraft engines shall be allocated to such projects. Maintenance burden incurred in common with services to other companies and operating entities shall be allocated to such services on a pro rata basis unless the services are so infrequent in performance or small in volume as to result in no appreciable demands upon the air carrier's maintenance facilities. When overhauls of airframes or aircraft engines are on an accrual basis instead of being expensed directly, maintenance burden shall be allocated to such overhauls on a pro rata basis.

Standard burden rates may be employed for quarterly allocations of maintenance burden. The rates are reviewed at the close of each calendar year. When the actual burden rate for the year differs materially from the standard burden rate applied, adjustment shall be made to reflect the actual cost incurred for the full accounting year. Allocations of maintenance burden to capital projects, and service sales to others shall be made through the individual maintenance burden objective accounts, except that the air carrier may make such allocations by credits to profit and loss account 77 Uncleared Expense Credits provided that use of that account will not undermine the significance of the individual maintenance burden objective accounts in terms of the expense levels associated with the air carrier's air transport services. Maintenance burden allocated to overhauls shall be credited to profit and loss subaccounts 5372.1 or 5372.6 Airworthiness Allowance Provisions. (ER–755, 37 FR 19726, Sept. 21, 1972, as amended by ER–980, 42 FR 36, Jan. 3, 1977; ER–1027, 42 FR 60128, Nov. 25, 1977; ER–1188, 45 FR 48870, July 22, 1980; Amdt. 241–58, 54 FR 5595, Feb. 6, 1989)

6900 General Services and Administration.

This function shall include expenses incurred on the ground in controlling and protecting the in-flight movement of aircraft; landing, handling, or servicing aircraft on the ground; selling transportation; servicing and handling traffic of all classes; promoting the development of traffic; administering operations generally; and all other expenses not otherwise provided for in functions 5100 Flying Operations, 5400
Section 11

Maintenance and 7000 Depreciation and Amortization.

7000 Depreciation and Amortization.

This function shall include all charges to expense to record losses suffered through current exhaustion of the serviceability of property and equipment due to wear and tear from use and the action of time and the elements, which are not replaced by current repairs, as well as losses in serviceability caused by obsolescence, supersession, discoveries, change in demand or actions by public authority. It shall also include charges for the amortization of capitalized developmental and preoperating costs, leased property under capital leases and other intangible assets applicable to the performance of air transportation. (See sections 6–1696, 1830 and 1890.)

[Amdt. 241–58, 54 FR 5595, Feb. 6, 1989]

7100 Transport-Related Expenses.

(a) This function shall include all expense items applicable to the generation of transport-related revenues included in section 9, Function 4800.

(b) Such expense related to services of a magnitude or scope beyond an incidental adjunct to air transportation services shall not be included in this function (see section 1–6(b)). Expenses applicable to the generation of such revenues shall be included in profit and loss classification 8100, Nonoperating Income and Expense-Net, and the accounting modified to conform with that of a nontransport division whether or not the service is organized as a nontransport division.

(c) This function shall also include expenses representing increases in costs incurred in common with the air transport service, to the extent such increases result from the added transport-related services, as well as a pro rata share of the costs incurred by the air carrier in operating facilities which are used jointly with others. As a general rule, this function shall not include those expenses, other than joint facilities costs, which would remain as an essential part of the air transport services if the transport-related services were terminated.

Section 11 Functional Classification—Operating Expenses of Group II and Group III Air Carriers

5100 Flying Operations.

(a) This function shall include expenses incurred directly in the in-flight operation of aircraft and expenses attaching to the holding of aircraft and aircraft operational personnel in readiness for assignment to an in-flight status.

(b) This function shall not include expenses incurred in repairing, servicing or storing aircraft, expenses incurred on the ground in protecting and controlling the in-flight movement of aircraft, or compensation of ground personnel and other expenses incurred in scheduling or preparing aircraft or aircraft operational personnel for flight assignment. Such expenses shall be included in function 5400 Maintenance, or function 6400 Aircraft and Traffic Servicing.

5400 Maintenance.

(a) This function shall include all expenses, both direct and indirect, incurred in the repair and upkeep of property and equipment as may be required to meet operating and safety standards; in inspecting or checking property and equipment in accordance with prescribed operational standards; and in polishing or cleaning property and equipment when such polishing or cleaning is not an incidental routine in connection with the normal productive use of property and equipment.

(b) This function shall include the cost of direct labor, materials, and outside services and maintenance overhead or other costs associated with maintenance operations regardless of the location at which incurred.

(c) This function shall not include costs incurred in the construction, improvement, or modification of property and equipment even when necessitated to meet new or changed operating or safety standards. Such costs shall be charged to appropriate property and equipment accounts.
Office of the Secretary, DOT

Section 11

(d) Costs incurred by aircraft handling personnel in visual inspection, minor check and servicing of aircraft, while in line service, shall not be included in this function when performed as an incidental routine during the normal productive use of aircraft but shall be included in function 6400 Aircraft and Tariff Servicing.

(e) Both Group II air carriers and Group III air carriers shall maintain the following subfunctions:

5200 Direct Maintenance.

a. This subfunction shall include the costs of labor, materials and outside services consumed directly in periodic maintenance operations and the maintenance and repair of property and equipment of all types and classes, regardless of the location at which incurred, exclusive of maintenance property and equipment included in balance sheet accounts 1630 Equipment, 1639 Improvements to Leased Buildings and Equipment, and 1640.1 Maintenance Buildings and Improvements, which shall be included in subfunction 5300 Maintenance Burden.

b. The cost of direct labor, materials and supplies, as well as outside repairs, used in the maintenance and repair of property and equipment shall be recorded on running job orders or tickets covering repairs and periodic inspections except servicing. Where a number of like items are maintained on a group basis, it will be necessary to maintain only one job order for each group.

c. When supervisory personnel such as crew chiefs, inspectors and foremen are engaged in direct labor in connection with equipment maintenance, a proportionate part of their salaries and wages shall be charged to the appropriate direct labor accounts. The cost of transporting property to and from shops for repair and maintenance shall be included as a part of the cost of the materials and supplies used in the repair or maintenance of such property and equipment. Transportation charges, customs and duties, etc., shall be included in the cost of repairs and maintenance operations when made by outside parties.

5300 Maintenance Burden.

a. This subfunction shall include all overhauls or general expenses used directly in the activities involved in periodic maintenance operations and the maintenance and repair of property and equipment of all types and classes, including the cost of direct labor, materials and outside services used in the maintenance and repair of maintenance property and equipment included in balance sheet accounts 1630 Equipment, 1639 Improvements to Leased Buildings and Equipment, and 1640.1 Maintenance Buildings and Improvements. It shall include expenses related to the administration of maintenance stocks and stores, the keeping of pertinent maintenance operation records, and the scheduling, controlling, planning and supervision of maintenance operations.

b. This subfunction shall not include expenses related to financial accounting, purchasing or other overhead activities which are of general applicability to all operating functions. Such expenses shall be included in function 6800 General and Administrative.

c. This subfunction shall include only those expenses attributable to the current air transport operations of the air carrier. Maintenance burden associated with capital projects of the air carrier, other than overhauls of airframes and aircraft engines, shall be allocated to such projects. Maintenance burden incurred in common with services to other companies and operating entities shall be allocated to such services on a pro rata basis unless the services are so infrequent in performance or small in volume as to result in no appreciable demands upon the air carrier's maintenance facilities. When overhauls of airframes or aircraft engines are as a consistent practice accounted for on an accrual basis instead of being expensed directly, maintenance burden shall be allocated to such overhauls on a pro rata basis. Standard burden rates may be employed for quarterly allocations of maintenance burden provided the rates are reviewed at the close of each calendar year. When the actual burden rate for the year differs materially from the standard burden rate applied, adjustment shall be made to reflect the actual costs incurred for the full accounting year. Allocations of maintenance burden to capital projects, and service sales to others shall be made through the individual maintenance burden objective accounts, except that the air carrier may make such allocations by credits to profit and loss account 77 Uncleared Expense Credits under such circumstances in which the use of that account will not undermine the significance of the individual maintenance burden objective accounts in terms of the expense levels associated with the air carrier's air transport services. Maintenance burden allocated to overhauls shall be credited to profit and loss subaccounts 5372.1 or 5372.6 Airworthiness Allowance Provisions.

5500 Passenger Service.

This function shall include all expenses chargeable directly to activities contributing to the comfort, safety and convenience of passengers while in
flight and when flights are interrupted. It shall not include expenses incurred in enplaning or deplaning passengers, or in securing and selling passenger transportation and caring for passengers prior to entering a flight status. Such expenses shall be included in functions 6400 Aircraft and Traffic Servicing and 6700 Promotion and Sales, respectively.

6400 Aircraft and Traffic Servicing.

(a) This function shall include the compensation of ground personnel and other expenses incurred on the ground incident to the protection and control of the in-flight movement of aircraft, scheduling and preparing aircraft operational crews for flight assignment, handling and servicing aircraft while in line operation, servicing and handling traffic on the ground, subsequent to the issuance of documents establishing the air carrier’s responsibility to provide air transportation, and in-flight expenses of handling and protecting all nonpassenger traffic including passenger baggage.

(b) This function shall include only those aircraft servicing and cleaning expenses which are incurred as an incidental routine during the normal productive use of aircraft in line operations. It shall not include expenses incurred in the repair and maintenance of property and equipment, or in checking or inspecting property and equipment in accordance with prescribed operational standards when such activities are not an incidental routine during the normal productive use of aircraft. Such expenses shall be included in function 5400 Maintenance.

(c) This function shall not include expenses incurred in securing traffic, arranging aircraft space for traffic sold or in issuing documents confirming traffic sales and establishing the air carrier’s responsibilities to provide air transportation. Such expenses shall be included in function 6700 Promotion and Sales. However, for purposes of this system of accounts, expenses attributable to the operation of airport traffic offices, excluding reservation centers, shall be included in this function. Expenses attributable to the operation of reservation or aircraft space control centers shall be included in function 6600 Aircraft Servicing and 6700 Promotion and Sales, respectively.

(d) Group III air carriers shall further subdivide this function as follows:

6200 Traffic Servicing.

a. This subfunction shall include the compensation of ground personnel and other expenses incurred on the ground incident to handling traffic of all types and classes on the ground subsequent to the issuance of documents establishing the air carrier’s responsibility to provide air transportation. Expenses attributable to the operation of airport traffic offices shall also be included in this subfunction; expenses attributable to reservations centers shall be excluded. It shall include expenses incurred in both enplaning and deplaning traffic as well as expenses incurred in preparation for enplaning and all expenses subsequent to deplaning.

b. This subfunction shall also include costs incurred in handling and protecting all nonpassenger traffic while in flight. It shall not include expenses incurred in contributing to the comfort, safety and convenience of passengers while in flight or when flights are interrupted. Such expenses shall be included in function 5500 Passenger Service.

6300 Servicing Administration.

a. This subfunction shall include expenses of a general nature incurred in performing supervisory or administrative activities relating solely and in common to subfunctions 6100 Aircraft Servicing and 6200 Traffic Servicing. Nor shall this subfunction include expenses of a general administrative character and of significant amount regularly contributing to operating functions generally. Such expenses shall be included in function 6800 General and Administrative.

b. The expenses in this subfunction shall be recorded separately for each geographic location at which incurred.
6700 Promotion and Sales.

(b) It shall also include the compensation of personnel and other expenses incident to documenting sales; expenses incident to controlling and arranging or confirming aircraft space for traffic sold; expenses incurred in direct sales solicitation and selling of aircraft space; and expenses incurred in developing tariffs and schedules for publication.

(c) This function shall not include expenses incurred in handling traffic subsequent to the issuance of documents establishing the air carrier's responsibility to provide air transportation which shall be included in functions 5500 Passenger Service and 6400 Aircraft and Traffic Servicing. However, for purposes of this system of accounts, expenses attributable to the operation of airport traffic offices, excluding reservation centers, shall be included in function 6400 Aircraft and Traffic Servicing. Expenses attributable to the operation of reservation or aircraft space control centers shall be included in function 6700 Promotion and Sales regardless of the location at which incurred.

(d) Group III air carriers shall subdivide this function as follows:

6500 Reservations and Sales.

This subfunction shall include expenses incident to direct sales solicitation, documenting sales, controlling and arranging or confirming aircraft space sold, and in developing tariffs and schedules for publication. It shall also include expenses attributable to the operation of city traffic offices. Expenses incurred in stimulating traffic and promoting the air carrier or air transportation generally shall not be included in this subfunction but in function 6600 Advertising and Publicity.

6600 Advertising and Publicity.

(a) This subfunction shall not include expenses incurred in direct sales solicitation and selling of aircraft space. Such costs shall be included in subfunction 6500 Reservations and Sales.

(b) This subfunction shall not include expenses incurred directly in promoting traffic or in promoting relations of the air carrier generally with the public which shall be included in function 6700 Promotion and Sales. Nor shall this function include expenses, regularly applicable in large part to a specific function, which contribute only incidentally, or in small amount, to various other functions. Such expenses when of such size as will not distort the function to which predominantly related, shall be included in the specific function to which regularly related. However, expenses of a general administrative character and of significant amount regularly contributing to operating functions generally shall be included in this function.

7000 Depreciation and Amortization.

This function shall include all charges to expense to record losses suffered through current exhaustion of the serviceability of property and equipment due to wear and tear from use and the action of time and the elements, which are not replaced by current repairs, as well as losses in serviceability occasioned by obsolescence, supersession, discoveries, change in popular demand or action by public authority. It shall also include charges for the amortization of capitalized developmental and preoperating costs, leased property under capital leases, and other intangible assets applicable
Section 12

(b) Such expense related to services of a magnitude or scope beyond an incidental adjunct to air transportation services shall not be included in this function (see section 1–6(b)). Expenses applicable to the generation of such revenues shall be included in profit and loss classification 8100, Nonoperating Income and Expense-Net, and the accounting modified to conform with that of a nontransport division whether or not the service is organized as a nontransport division.

(c) This function shall also include expenses representing increases in costs incurred in common with the air transport service, to the extent such increases result from the added transport-related services, as well as a pro rata share of the costs incurred by the air carrier in operating facilities which are used jointly with others. As a general rule, this function shall not include those expenses, other than joint facilities, costs, which would remain as an essential part of the air transport services if the transport-related services were terminated.

This account shall include credits for refund claims arising from the carryback of losses in the year in which the loss occurs, credits for the carry-forward of losses in the year to which the loss is carried, and investment tax credits in the year in which each credit is utilized to reduce the liability for income taxes.

(b) Income taxes shall be allocated among the transport entities of the air carrier, its nontransport divisions, and members of an affiliated group. Under circumstances in which income taxes are determined on a consolidated basis by an air carrier and other members of an affiliated group, the income tax expense to be recorded by the air carrier shall be the same as would result if determined for the air carrier separately for all time periods, except that the tax effect of carryback and carryforward operating losses, investment tax credits, or other tax credits generated by operations of the air carrier shall be recorded by the air carrier during the period in which applied in settlement of the taxes otherwise attributable to any member, or combination of members, of the affiliated group. Any difference between the income tax so recorded and the amount at which settlement is to be made shall be recorded in subaccount 88.1 Intercompany Transaction Adjustment—Credit or in subaccount 89.1 Intercompany Transaction Adjustment—Debit, as is appropriate.

(c) This account shall be subdivided as follows by all carrier groups:

93.2 **Amortization of Deferred Investment Tax Credits.**  

Section 16 Objective Classification—Discontinued Operations

95 **Discontinued Operations.**  
(a) Record here the earnings (losses) of discontinued nontransport operations. For the purposes of this system of accounts and reports discontinued operations shall refer to the disposal of investor controlled companies and nontransport ventures whether sold, abandoned, spun off, or otherwise disposed of. This account shall not include earnings or losses from discontinued transport or transport-related operations.

*CFD = Computed by DOT from detail Schedule T–100 and T–100(l) data.

(c) These reported items are further described as follows:

(1) Reporting period date. The year and month or quarter to which the reported data are applicable.

(2) Carrier, Carrier entity code. Each foreign air carrier shall report its name and code (assigned by DOT). Each U.S. air carrier shall report its name and entity code (a five digit code assigned by DOT that identifies both the carrier and its entity) for its particular operations. The Office of Airline Information (OAI) will assign or confirm codes

161
upon request; OAI’s address is in the Appendix to section 25 of this part and the Appendix to §217.10 of this chapter.

(3) Service class code. The service class codes are prescribed in section 19–4 of this part. In general, classes are divided into two broad categories, either K (scheduled) or V (nonscheduled), where K=F+G for all carriers and V=L+N+P+R for U.S. air carriers and comprises L+P and Q for foreign air carriers. Refer to section 19–4 for the more information on service class codes F, G, L, N, P, R and Q.

(4) Record type code. This code indicates whether the data pertain to non-stop segment (record type S) or on-flight market (record type M).

(5) Aircraft type code. This code represents the aircraft types, as described in the Appendix to section 25 of this part.

(6) Origin, Destination airport code(s). These codes represent the industry designators described in the Appendix to section 25 of this part. A common private industry source of these industry designator codes is the Official Airline Guides (OAG). OAI will assign codes upon request if not listed in the OAG.

(7) 110 Revenue passengers enplaned. The total number of revenue passengers enplaned at the origin point of a flight, boarding the flight for the first time; an unduplicated count of passengers in a market. Under the T–100 system of reporting, these enplaned passengers are the sum of the passengers in the individual on-flight market figures.

(8) 130 Revenue passengers transported. The total number of revenue passengers transported over single flight stage, including those already on board the aircraft from a previous flight stage. Report only the total revenue passengers transported in item 130. For all air carriers and all entities, item 130 revenue passengers transported is reported on Form 41 Schedule T–100 in Column B–7, as follows:

(9) 140 Revenue passenger-miles. Computed by multiplying the interairport distance of each flight stage by the number of passengers transported on that flight stage.

(10) 210 Revenue cargo tons enplaned. The total number of cargo tons enplaned. This data element is a sum of the individual on-flight market figures for each of the following categories: 217 Freight and 219 Mail. This element represents an unduplicated count of the revenue traffic in a market.

(11) 220 Revenue tons transported. The number of tons of revenue traffic transported. This element is the sum of the following elements: 231 Passengers transported-total, 237 Freight, and 239 Mail.

(12) 240 Revenue ton-miles—total. Ton-miles are computed by multiplying the revenue aircraft miles flown (410) on each flight stage by the number of tons transported on that stage. This element is the sum of 241 through 249.

(13) 241 Revenue ton-miles—passenger. Equals the number of passengers times 200, times interairport distance, divided by 2000. A standard weight of 200 pounds per passenger, including baggage, is used for all operations and service classes.

(14) 247 Revenue ton-miles—freight. Equals the volume of freight in whole tons times the interairport distance.

(15) 249 Revenue ton-miles—mail. Equals the volume of mail in whole tons times the interairport distance.

(16) 270 Available capacity-payload. The available capacity is collected in pounds. This figure shall reflect the payload or total available capacity for passengers, mail and freight applicable to the aircraft with which each flight stage is performed.

(17) 280 Available ton-miles. The aircraft miles flown on each flight stage multiplied by the available capacity on the aircraft in tons.

(18) 310 Available seats. The number of seats available for sale. This figure reflects the actual number of seats available, excluding those blocked for safety.
Office of the Secretary, DOT

or operational reasons. Report the total available seats in item 310. For all air carriers and all entities, item 310 available seats, total is reported on Form 41 Schedule T–100 in column B–4, as follows.

(19) **320 Available seat-miles.** The aircraft miles flown on each flight stage multiplied by the seat capacity available for sale.

(20) **410 Revenue aircraft miles flown.** Revenue aircraft miles flown are computed in accordance with the airport pairs between which service is actually performed; miles are generated from the data for scheduled aircraft departures (Code 520) times the interairport distances (Code 501).

(21) **430 Revenue aircraft miles scheduled.** The number of revenue aircraft miles scheduled. All such data shall be maintained in conformity with the airport pairs between which service is scheduled, whether or not in accordance with actual performance.

(22) **501 Interairport distance.** The great circle distance, in official statute miles as prescribed in part 247 of this chapter, between airports served by each flight stage. Official interairport mileage may be obtained from the Office of Airline Information at the address included in section 25 of this part.

(23) Revenue aircraft departures performed. The number of revenue aircraft departures performed.

(24) **520 Revenue aircraft departures scheduled.** The number of revenue aircraft departures scheduled, whether or not actually performed.

(25) **610 Revenue aircraft hours (airborne).** The elapsed time, computed from the moment the aircraft leaves the ground until it touches down at the next landing. This includes flight training, testing, and ferry flights.

(26) **630 Aircraft hours (ramp-to-ramp).** The elapsed time, computed from the moment the aircraft first moves under its own power from the boarding ramp at one airport to the time it comes to rest at the ramp for the next point of landing. This data element is also referred to as “block” and block-to-block aircraft hours.

(27) **650 Total aircraft hours (airborne).** The elapsed time, computed from the moment the aircraft leaves the ground until it touches down at the next landing. This includes flight training, testing, and ferry flights.

(28) **810 Aircraft days assigned to service—carrier’s equipment.** The number of days that aircraft owned or acquired through rental or lease (but not interchange) are in the possession of the reporting air carrier and are available for service on the reporting carrier’s routes plus the number of days such aircraft are in service on routes of others under interchange agreements. Includes days in overhaul, or temporarily out of service due to schedule cancellations. Excludes days that newly acquired aircraft are on hand, but not available for productive use, days rented or leased to others (for other than interchange) and days in possession but formally withdrawn from air transportation service.

(29) **820 Aircraft days assigned to service—carrier’s routes.** The same as “aircraft days assigned to service—carrier’s equipment,” but excluding the number of days that the reporting carrier’s owned or rented equipment are in the possession of others under interchange agreements and including the number of days aircraft of others are in the possession of the reporting air carrier under interchange agreements.

(30) **921 Aircraft fuels issued (gallons).** The amount of aircraft fuels issued, in U.S. gallons, during the reporting period for both revenue and nonrevenue flights.

Section 19–6

Public disclosure of traffic data.

(a) Detailed domestic on-flight market data and nonstop segment data except military data shall be made publicly available after processing. Domestic data are defined as data from air transportation operations from a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands, or a U.S. territory or possession to a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico
and the Virgin Islands, or a U.S. territory or possession. Domestic military operations are reported under service codes N or R.

(b) Detailed international on-flight market and nonstop segment data in Schedule T–100 and Schedule T–100(f) reports, except military data, shall be publicly available immediately following the Department’s determination that the database is complete, but no earlier than six months after the date of the data. Military operations are reported under service codes N or R. Data for on-flight markets and nonstop segments involving no U.S. point shall not be made publicly available for three years. Industry and carrier summary data may be made public before the end of six months or the end of three years, as applicable, provided there are three or more carriers in the summary data disclosed. The Department may, at any time, publish international summary statistics without carrier detail. Further, the Department may release nonstop segment and on-flight market detail data by carrier before the end of the confidentiality period as follows:

(1) To foreign governments as provided in reciprocal arrangements between the foreign country and U.S. Government for exchange of on-flight market and/or nonstop segment data submitted by air carriers of that foreign country and U.S. carriers serving that foreign country;

(2) To parties to any proceeding before the Department under Title IV of the Federal Aviation Act of 1958, as amended, as required by the Administrative Law Judge or other decision-maker of the Department. Parties may designate agents or consultants to receive the data in their behalf, provided the agents or consultants agree to abide by the disclosure restrictions. Any data to which access is granted pursuant to this provision may be introduced into evidence, subject to the normal rules of admissibility of evidence.

(3) To agencies and other components of the U.S. Government for their internal use only.

Sec. 19–7

Passenger origin-destination survey.

(a) All U.S. large certificated air carriers conducting scheduled passenger operations (except helicopter carriers) shall participate in a Passenger Origin-Destination (O & D) Survey covering domestic and international operations, as described in the instructions manual entitled, Instructions to Air Carriers for Collecting and Reporting Passenger Origin-Destination Survey Statistics (Appendix A to this section), and in Passenger Origin-Destination Directives issued by the Department’s Bureau of Transportation Statistics (BTS), Office of Airline Information (OAI). Copies of these Instructions and Directives are provided to each large carrier participating in the Survey. Copies are also available from the Office of Airline Information, K–25, Room 4125, U.S. Department of Transportation, 400 Seventh St., SW., Washington, DC 20590.

(b) Those participating air carriers that have access to automatic data processing (ADP) services shall utilize magnetic tape, cartridge, floppy diskette or other ADP media for transmitting the prescribed data. Those carriers without ADP capability should contact the Office of Airline Information for further instructions ((202) 366–4373).

(c) A statistically valid sample of light coupons shall be selected for reporting purposes. The sample shall consist of at least 1 percent of the total lifted ticket flight coupons for all large domestic markets listed in the Instructions and 10 percent for all others—including domestic and international markets. The sample shall be selected and reported in accordance with the requirements of paragraph (a) of their section, except that the participating O & D carriers with nonstandard ticketing procedures, or other special operating characteristics, may propose alternative procedures. Such departures from standard O & D Survey practices shall not be authorized unless approved in writing by the Director, Office of Airline Information under the procedures in Sec. 1–2 of 14 CFR part 241. The data to be recorded and reported from selected lifted ticket flight coupons, as stipulated in the Instructions and Directives shall include the
Office of the Secretary, DOT

following data elements: Point of origin, carrier on each flight-coupon stage, fare-basis code for each flight-coupon stage, points of stopover or connection (interline and intraline), point of destination, number of passengers, and total dollar value of ticket (fare plus tax).

d) Data covering the operations of foreign air carriers that are similar to the information collected in the Passenger Origin-Destination Survey are generally not available to the Department, the U.S. carriers, or U.S. interests. Therefore, because of the damaging competitive impact on U.S. carriers and the adverse effect upon the public interest that would result from unilateral disclosure of the U.S. survey data, the Department has determined its policy to be that the international data in the Passenger Origin-Destination Survey shall be disclosed only as follows:

1. To an air carrier directly participating in and contributing input data to the Survey or to a legal or consulting firm designated by an air carrier to use on its behalf O & D data in connection with a specific assignment by such carrier.

2. To parties to any proceeding before the Department to the extent that such data are relevant and material to the issues in the proceeding upon a determination to this effect by the Administrative Law Judge or by the Department’s decision-maker. Any data to which access is granted pursuant to this section may be introduced into evidence subject to the normal rules of admissibility of evidence.

3. To agencies and other components of the U.S. Government.

4. To other persons upon a showing that the release of the data will serve specifically identified needs of U.S. users which are consistent with U.S. interests.

5. To foreign governments and foreign users as provided in formal reciprocal arrangements between the foreign and U.S. governments for the exchange of comparable O & D data.

e) The Department reserves the right to make such other disclosures of the O & D data as is consistent with its regulatory functions and responsibilities.

APPENDIX A TO Sec. 19–7—INSTRUCTIONS TO AIR CARRIERS FOR COLLECTING AND REPORTING PASSENGER ORIGIN-DESTINATION SURVEY STATISTICS

All questions, comments, extension and waiver requests should be addressed to:
I. GENERAL DESCRIPTION OF O&D SURVEY

A. Flow Chart of O&D Reporting From Tickets

B. Narrative Description

A single O&D Survey is conducted continuously by the large U.S. certificated air carriers. Foreign air carriers do not directly participate in the Survey, although some of their data are captured in the Survey, since passengers who share a ticketed itinerary between a U.S. carrier and a foreign carrier may be sampled by the U.S. carrier. The authority for these instructions is found in 14 CFR part 241, section 19–7, and in the CAB Sunset Act of 1984 (Pub. L. 94–443).

The Survey samples revenue passenger trips moving in whole or in part on domestic and/or international scheduled services of the carriers participating in the Survey. In general, these requirements do not apply to small certificated, all-cargo and all charter carriers.

The source documents for the Survey data are passenger tickets. These data are collected from the "lifted" flight coupons of tickets (a portion of a multi-part ticket booklet of three or more coupons, including one for each stage of the passenger's trip itinerary which is lifted by the carrier as the passenger boards a particular flight segment).

The Survey data are taken from the coupon that is lifted by a participating carrier, unless it is apparent from the lifted coupon that another participating carrier has already recorded and reported the data, in which instance the ticket coupon is non-reportable for the second honoring/participating carrier. The complete passenger itinerary, and related data on type of fare and dollar value of the ticket, is recorded as

Each ticket booklet is comprised of one or more flight coupons for passenger travel in a city-pair market, plus a passenger coupon (the traveler's receipt) and the auditor coupon (for the carrier's internal controls).
Office of the Secretary, DOT

Sec. 19–7

eone entry from the sampled, reportable flight coupon.

The recording of data from the sampled flight coupon normally consists of transcribing the information exactly as indicated on the ticket. The detail recorded for each trip shows the complete routing from the origin city (airport code) to the destination city (airport code) including, in sequence from the origin, each point of transfer and stopover (intraline and interline), the summarized fare-basis code shown for each flight coupon stage of the itinerary, and the total dollar value of the fare and tax for the entire ticket.

Prior to 1987, the Survey was generally based on a 10-percent sample of passenger tickets. Beginning July 1, 1987, the Survey is collected primarily on the basis of a stratified, scientific sample of at least 1 percent of tickets in domestic major markets and 10 percent of tickets in all other domestic and in all international city-pair markets. The Survey data are taken from the selected flight coupons of the tickets sampled: single-coupon or double-coupon round trips in domestic major markets where the ticket serial number ends in double zero (00) and all other ticket coupons ending in zero (0). This procedure yields a “two-tiered” stratified sample.

Group tickets are included on the basis of a 10-percent sample when the number of passengers on such a group ticket is 10 or less. Group tickets with more than 10 passengers on each ticket are included on the basis of a 100 percent census, i.e., all such tickets are sampled, regardless of serial number, and the total data listed are conformed to a 10 percent sample for inclusion in the O&D Survey.

Following the selection of reportable flight coupons and the recording of data, each participating carrier shall edit and summarize2 the data into a quarterly report to the Department.

II. EFFECTIVE DATE OF INSTRUCTIONS

These data collection and reporting instructions are effective on and after July 1, 1987 and apply to all flight coupons lifted on or after July 1, 1987.

III. CARRIERS PARTICIPATING IN SURVEY

A. Participating carriers. As defined in section 19–7 of the Department’s Economic Regulations (14 CFR part 241), the participants in the O&D Survey include all large certificated air carriers conducting scheduled passenger services (except helicopter carriers).

These participating carriers collect and report data in accordance with these Instructions, and supplemental Passenger Origin-Destination Directives that may be issued periodically. The list of participating carriers will be issued by reporting directive under the authority in 14 CFR 285.27(b).

B. Amendments to list of participating carriers. As new carriers begin service, they will be required to file O&D Survey Data. These carriers will not be added to the participating carrier list automatically, but will be added when the next annual review is made.

IV. SUBMISSION OF REPORTS

A. Period covered by reports. Reports are to be filed for each calendar quarter of the year as shown below:

1 Due dates falling on Saturday, Sunday or national holiday will become effective the first following work day.

C. Format of report. The report may be submitted in any one of the following formats:

1 ADP media including magnetic tapes and floppy discs. 2 Magnetic tapes, floppy discs and similar media will be returned to the carriers, upon request, following completion of the processing cycle by the Department.

2 These summarization procedures include showing two or more passengers with the same itinerary as one O&D record and compressing extremely lengthy itineraries (such as around-the-world tickets) into a standard trip stage length limit (which may be either seven or twenty-three stages, at the carrier’s option), as explained in Section V.D.

3 Hard copy BTS Form 2787, in typewritten form, for carriers that lack computer capability. Sample formats of the required data appear in Sections IX and XII. Supplies of blank Form 2787 are available, upon request, from the Director, Office of Airline Information (address on inside cover). Any reasonable facsimile of Form 2787 will be acceptable in lieu of Form 2787, if approved in advance by the Director.

D. Number of copies of report to be filed. A participating carrier shall file with the Department a single copy of its quarterly O&D data report. When ADP submissions are transmitted, the package is to contain a transmittal letter describing the contents, and stating the overall record and passenger...
counts included in the submission. Each submission is to be labeled externally as to submitting carrier and time period of the O&D Survey data.

E. Address for filing reports. Reports should be submitted to the Director, Office of Airline Information (address on inside cover).

V. SELECTION OF SAMPLE AND RECORDING OF DATA.4

A. Sampling Basis. Each participating carrier in this O&D Survey shall search all listed flight coupons, whether the coupons are its own ticket stock or on the ticket stock of another U.S. or foreign carrier (either standard IATA and ARC ticket stock or non-standard ticket stock), and is to select for reporting purposes the following flight coupons:

(1) Major domestic markets. All single-passenger flight coupons that are either a single flight coupon ticket or part of a round trip, two coupon ticket where the ticket serial number ends in the digits double-zero (00).

NOTE.—The list of major domestic markets will be issued by reporting directive under the authority in 14 CFR 385.2(b).

(2) International markets and all other domestic markets. (a) All single-passenger flight coupons with ticket serial numbers ending with the digit zero (0);

(b) Those group-ticket flight coupons with 10 or fewer passengers with ticket serial numbers ending with the digit zero (0);

(c) Those group-ticket flight coupons with 11 or more passengers without regard to serial number; and

(d) Itineraries in major domestic markets that comprise more than two coupons are sampled on a uniform 10 percent basis, by selecting all ticket serial numbers ending with the digit zero (0).

B. Selection of Reportable Flight Coupons.

The flight coupons identified above are to be examined to isolate the reportable flight coupons, i.e. coupons from which data are to be recorded. Flight coupon data are reported only by the first honoring and participating carrier (operating carrier). Such carriers shall report the required data for the entire ticketed itinerary.

If a participating carrier has preceded an examining carrier on any stage in the trip itinerary, including any stage in a conjunction itinerary and any stage in a reissued ticket (either before or after reissue) that coupon is not reportable.

For conjunction tickets, the ticket number for the first ticket booklet determines if the conjunction tickets should be reported in the Survey. Otherwise, conjunction tickets do not require special treatment and are governed by the rules for regular tickets.

No adjustment is made in the Survey for alterations or changes in the trip itinerary subsequent to the stage covered by the reportable coupon.

C. Optional Use of Other Sampling Procedures.

(1) Alternative sampling procedures or alternative O&D data systems may be proposed by participating carriers with non-standard ticketing procedures, or other special operating characteristics. Data reported under proposed alternative procedures must approximate the usefulness and statistical validity of the O&D Survey.

(2) Such departures from the prescribed O&D Survey practices shall not be authorized unless approved in writing by the Director, Office of Airline Information (address inside front cover). The proposed alternative O&D Survey procedures must be described in detail in the letter requesting the waiver.

D. Recording of Data from Reportable Flight Coupons. (1) The following items are to be reported from the reportable flight coupons:

(a) Point of origin,

(b) Operating carrier on each flight stage (if unknown, identify ticketed carrier),

(c) Ticketed carrier on each flight stage,

(d) Fare-basis on each flight coupon, C, D, F, G, X or Y,

(e) Points of stopover or connection (interline and intraline),

(f) Point of destination,

(g) Number of passengers, and

(h) Total dollar value of ticket (fare plus tax and other charges, such as Passenger Facility Charges).

(2) The individual items are to be recorded in the sequence of occurrence in the itinerary as follows:

(a) All entries for points (airport codes) in an itinerary are to be recorded in three-letter airport code data to fit into the stage-length limitation (seven or twenty-three stages at the carrier's option), all airport codes are to be reported, including data on

4Codes to be used are those appearing in the Official Airline Guide at the time the data are being recorded. If a code is not found in the OAG, contact the Director, Office of Airline Information (address inside front cover).
Office of the Secretary, DOT

commuter, foreign, intra-state and other carriers’ portions of itineraries. Normally codes are recorded as they appear on the ticket. However, if a code is obviously incorrect, record the correct code. For instance, if a ticket is coded DCA-NYC or Washington/National to New York when the flight stage actually operated from Washington, Dulles to Newark (EWR), record the correct airport code. When only name spellings of a city appear on the ticket for multi-airport cities (such as Washington, New York, San Francisco, or Los Angeles), record the specific three letter airport code. In cases where two airport codes are shown on the ticket for a point, such as when the passenger arrives at an airport such as San Francisco and departs from another local airport such as Oakland, record the code for the arrival airport, enter a surface segment indicator (—) to the departure airport, and record the departure airport code. When the surface portion is at the beginning or end of an itinerary, the surface indicator is to be omitted. For example:

In the above example, the passenger trip stages or segments are compressed into the maximum of 7 stages so that several intermediate city-pairs (Los Angeles to Seattle to Anchorage, or LAX—SEA—Anc) and the related carriers have not been recorded, as prescribed below in this Section V.D.(3)(e). In addition, after the fourth city-pair (Los Angeles—Salt Lake City), the passenger trip itinerary moves from the initial four-part ticket booklet onto another “conjunction” ticket, and the summary fare code data are not recorded beyond the initial four-part ticket.

(b) All entries for operating and ticketed carriers for a coupon stage of an itinerary are to be recorded using two character IATA-assigned or DOT codes, as in the above example. Note that the fare code summary was properly inserted after the ticketed carrier’s code, i.e., UA for United Air Lines and Y for unrestricted coach class service. When a two-character carrier code is shown on the ticket, record that code for the ticketed carrier. However, if a code is obviously incorrect, record the correct carrier code. If the reporting carrier does not know the operating carrier on a downline code-share segment, it would use the ticketed carrier’s code for both the operating and ticketed carriers. The reporting carrier is not responsible for knowing the operating carrier of a downline code-share where it is not a party to the code-share segment. Except for the infrequent compression of data to fit into the stage-length limitation (7 or 23 stages at the carrier’s option), all carrier codes are to be recorded, including data on air taxis, commuters, intra-state, and other carrier portions of itineraries. On tickets involving interchange service or other cooperative carrier arrangements, the juncture point(s) where the passenger moves from one carrier
system to another is to be recorded as an intermediate point in the itinerary, even when not shown on the ticket and even though the flight may overfly the juncture point.

(c) Entries for fare-basis codes are to be taken from the “fare basis” and “fare description” portions of the ticket and simplified into the appropriate category, as shown below. No attempt shall be made to determine and record fare-basis codes for that portion of a conjunction ticket appearing in the ticket. Fare-basis codes are to be recorded in one-character alphabetic codes. The fare-basis codes are recorded as follows:

- C—Unrestricted Business Class
- D—Restricted Business Class
- F—Unrestricted First Class
- G—Restricted First Class
- X—Restricted Coach/Economy Class
- Y—Unrestricted Coach/Economy Class
- U—Unknown (This fare category is used when none is shown on a ticket coupon, or when a fare category is not discernible, or when none is shown on a ticket coupon, or when two or more carrier fare codes are compressed into a single stage of a passenger trip).

(d) In recording the number of passengers, each single-passenger ticket is to be recorded as one passenger. Tickets for infants under two years of age not occupying a seat are not to be counted. A revenue passenger is defined in Section X.

For group tickets of 10 or fewer passengers per ticket record the actual number of passengers on each ticket, i.e., either 2, 3, 4, 5, 6, 7, 8, 9 or 10. For group tickets with 11 or more passengers (those sampled at a 100-percent rate) record the actual number of passengers traveling on each ticket, but keep these entries separate from the group ticket records with 10 or fewer passengers and from the single-passenger ticket records. Group tickets with 11 or more passengers are to be sorted and summarized to combine all passengers for all itineraries which are identical in every respect, i.e., points, carriers, fare basis codes, and average dollar value (as defined in paragraph (e), below). The total number of passengers on each summarized record is to be divided by 10, rounding to the nearest whole passenger. If the quotient ends in 0.5 or more, raise to the next whole passenger. If the quotient ends in less than 0.5, drop the fraction. These large group-ticket records, after division by 10 for compatibility with the other data, are to be merged with the single-passenger records and with the group-ticket entries from tickets of 10 or fewer passengers for the quarterly O&D Survey report.

(e) The total dollar value shall be taken from the “Total” box on each ticket and shall be the sum of the fare plus tax for the entire ticket. Record this amount in whole U.S. dollars, with the cents dropped. Do not round cents to nearest whole dollar.

Amounts on tickets stated in foreign currency are to be converted to U.S. dollar equivalents. For all group tickets, the dollar value to be recorded shall be the average amount per passenger, determined by dividing the total dollar value for the entire group by the number of passengers on the group ticket, dropping cents in the average amount.

(3) The length of the itineraries to be recorded is limited to a maximum of seven stages or twenty-three stages, at the carrier's option. This recognizes that the vast majority of tickets sampled have seven stages or fewer and that the rare occurrences of extremely lengthy itineraries do not impact the overall Survey results enough to justify their reporting burden. Therefore, trips longer than these limits are compressed to fall within the stated maximums. The ticketed origin and destination are retained, but the intermediate routing is compressed by applying the following rules, in sequence:

(a) Combine any contiguous open, unknown carrier, or surface stages eliminating the connecting point, and ignoring the fare-basis codes, if different;

(b) Combine any contiguous stages via the same non-U.S. carrier, eliminating the connecting point, and ignoring the fare-basis codes, if different;

(c) Combine any contiguous stages via different non-U.S. carrier, making the carrier “UK”, eliminating the connecting point, and ignoring fare-basis codes, if different;

(d) Combine any contiguous stages via the same U.S. carrier, eliminating the connecting point, and ignoring the fare-basis codes, if different, and;

(e) If the trip, after applying the four steps above, is still too long, record the compressed routing through to the stage length limitation city (seventh or twenty-third city), enter UK as the final carrier, and then record the ticketed destination as the next (the 8th or 24th) city.

VI. SUMMARIZATION OF RECORDED DATA

A. General. Prior to the submission of each quarterly report to the Department, each carrier is to summarize the data in accordance with the rules in Section VI.B. In special hardship cases, carriers may submit a waiver request (with justification under Section 1–2 of 14 CFR part 241) requesting permission to report their flight coupon records exactly as represented on their lifted tickets. Waiver requests must provide the documentation described in Section VI.C. so that the Department can develop the necessary procedures and edit routines to ensure the accuracy and reliability of the overall O&D Survey results. The granting of such waivers will depend upon the availability of resources for the Department to assume this.
additional burden, which can only be determined on a case by case basis, after evaluating each carrier’s need.

B. Rules for Summarization. Sort the recorded entries into sequence by the entire record (excluding the passenger field), i.e., by origin, complete routing (including fare-basis codes), tickets destination, and dollars value of ticket. All identical records are then to be combined into one summary record. The number of passengers on the summary record is to be the sum of the passenger amounts of all the individual records combined. Passengers are only summarized where records are identical in all respects except in number of passengers including dollar value of ticket.

NOTE: DO NOT SUMMARIZE DOLLARS OVER IDENTICAL RECORDS. This summarization is to include the entries from group tickets, but only after the entries for group tickets with 11 or more passengers have been summarized and divided by 10, as stated in Section V.D.(2)(d). Carriers submitting quarterly O&D Survey reports on magnetic tapes or similar formats such as “floppy discs” will follow the ADP INSTRUCTIONS in Section IX. Carriers filing reports on hardcopy BTS Forms 2787 are to enter, on the last page of the report, the overall total of the number of passengers in the report.

C. Waiver Requests. Requests for permission to depart from the required O&D Survey procedures should include a procedural statement describing the process the carrier proposed to employ in examining, selecting and editing the data from reportable flight coupons for the O&D Survey, as well as a flow chart diagramming the proposed procedures.

D. Quantity and Quality Controls. Carriers are expected to establish and maintain continuous quantity and quality controls on the flow of all lifted flight coupons through their system processes to determine the total number of coupons handled and the number of reportable coupons selected. Such data controls and tests have not been specified by the Department, and necessarily must be developed by each carrier. Each participating carrier shall develop and use on a continuous basis such control tests as are necessary to ensure that all reportable coupons are being selected, recorded and reported as intended by these O&D Survey Instructions. Such controls and tests extend over all ADP processing, both in-house and that from external service bureaus.

VII. Editing of Recorded Data
A. City and Airport Codes. Prior to submission of O&D Survey reports, each carrier is to edit the recorded data to validate city and airport codes. This edit is to verify that the codes recorded are valid official codes, and it is independent of whether or not the carriers shown actually operated into or out of the airport shown. Any questions about airport codes should be addressed to the Director, Office of the Secretary, DOT.

B. Staff Review. The OAI staff will review the carrier procedures and practices and may request modifications or the use of special procedures necessary to improve the sample or to bolster the controls for accuracy and reliability.
IX. ADP INSTRUCTIONS

Each carrier electing to submit its Survey reports in machine listing form or magnetic media in lieu of hardcopy BTS Form 2787 is to be governed by the following instructions:

A. Instructions for Submitting Records on Magnetic Media

Each reel of tape will be returned to the individual carrier upon request.
(2) Detail record. (a) All records are to be summarized on the complete itinerary\(^1\) (columns 7 through 200) and the summary record only for each itinerary is to be submitted. The tape file, including the identification record, is to be in sequence by complete itinerary. (b) The tape record layout is shown on the following page. (d) Magnetic Tape Instructions: (a) All tapes are to be written using the standard IBM extended binary coded decimal interchange code (EBCDIC). (b) The recording density can be either 6250 or 1600 B.P.I. (c) All tape will contain standard IBM volume header, and trailer records. (d) External labels will contain the carrier, name, the report date, file identification, and an address for returning the tapes. (4) Transmittal letter. The tape shall be accompanied by a transmittal letter which shows the number of records reported and the total number of passengers contained in the report. B. Editing of Tape Records. Prior to submission of data, each carrier is requested to edit and correct its data so that its O&D Survey report may be as error-free as is reasonably practicable. The methods to be used in editing are left to the carriers’ discretion, but with assistance available upon request from the Department’s Office of Airline Information (OAI). To aid the carriers in maintaining a current file of editing criteria, OAI will re-issue, as needed, the city/airport-carrier file to each participating carrier. There will be a five-position field to denote the city/airport-carrier. The first three positions denotes the airport and the last two positions denotes the air carrier. C. Standard Formats for Floppy Disk or Cartridge Submissions. Carriers should use the 200 position format with the standard length fields prescribed for magnetic media submissions. The record layout is detailed in subsection A1) of this section. However, to simplify the PC submissions, the submitter may report the dollar value of the ticket in the field immediately after the last reported city code, rather than in positions 196–200. Submitters may separate fields by using commas or tabs (comma delimited ASCII or tab delimited ASCII format).

X. GLOSSARY OF TERMS

Selected terms used in the foregoing instructions are here defined and explained in the context of the O&D Survey.

ADP. An abbreviation for automated data processing, which is the term applied to all forms of machine processed data.

Carrier. Any scheduled air carrier, U.S. or foreign, that appears on a coupon stage in a ticketed itinerary, including helicopter, air taxi, commuter, intra-Alaska carriers, and intra-state carriers.

City or origin. (See origin.)

Conjunction ticket. Two or more tickets concurrently issued to a passenger on the same itinerary that together constitute a single contract of carriage.

Connecting point. An intermediate point in an itinerary at which the passenger deplanes from one flight and boards another flight, either on the same carrier or from the flight of one carrier to a flight of another carrier, for continuation of the journey.

Coupon stage. (See flight-coupon stage.)

Destination. The last point in the itinerary and the last point at which the passenger is to deplane at the completion of the journey. (In roundtrip itineraries, the destination and the origin are the same.)

Dollar value of ticket. (See total dollar value of ticket.)

Domestic. Itineraries within or between the 50 U.S. States and the District of Columbia are considered domestic for this Survey.

Fare basis code. The alphabetic code(s) or combination of alphabetic and numeric codes appearing in the “Fare basis” box on the flight coupon which describe the applicable service and discount to which the passenger is entitled. All fare basis codes are summarized into basic categories; namely C—Unrestricted Business Class, D—Restricted Business Class, F—Unrestricted First Class, G— Restricted First Class, X—Restricted Coach/Economy Class, Y—Unrestricted Coach/Economy Class, and U—Unknown (This fare category is used when none is shown on a ticket coupon, or when a fare category is not discernible, or when two or more carrier fare codes are compressed into a single stage of a passenger trip).

Fare ladder. The “For-issuing-office-only” box of a ticket.

Flight-coupon stage. The portion of an itinerary which lies between two contiguous points in the itinerary and points the passenger is to travel on a single flight.

Group ticket. A single ticket valid for the transportation of two or more passengers over the same itinerary.

---

\(^1\)Itinerary includes total dollar value of ticket.
Sec. 19–7

Interline transfer. An occurrence at an intermediate point in an itinerary where a passenger changes from one carrier to another carrier, with or without a stopover.

Intermediate point. Any point in an itinerary, other than the origin or destination, at which the passenger makes an interline or intraline connection or stopover.

International. The world area outside the 50 U.S. States and the District of Columbia. Itineraries between points outside the 50 States are considered as international for this Survey, as well as itineraries between the 50 States and U.S. possessions, and between or within U.S. possessions.

Intraline transfer. An occurrence at an intermediate point in an itinerary where a passenger changes from a flight of one carrier to another flight of that same carrier, with or without stopover, or where the passenger changes from one class of service to another class of service on the same flight.

Itinerary. All points in the passenger journey, beginning with the origin, followed by the routing, and ending with the destination, in the sequence shown on the ticket.

Operating air carrier. Under a code-share arrangement, the air carrier whose aircraft and flight crew are used to perform a flight segment.

Origin. The first point in the itinerary and the point where the passenger first boards a carrier at the beginning of the itinerary.

Participating carrier. A carrier which is governed by the Survey data collection and reporting instructions contained herein and which is required to file Survey reports with the Department of Transportation.

Point. A city or airport (always identified by its airport code).

Reissued ticket. A ticket issued in exchange for all or part of the unused portion of a previously issued ticket.

Reportable flight coupon. A flight coupon in an itinerary in which the carrier examining the coupon is the first participating carrier to lift a flight coupon in the itinerary and from which coupon the examining carrier records the Survey data.

Reporting carrier. The carrier in a given itinerary which has lifted the reportable flight coupon in that itinerary and which carrier is required to record the Survey data for that itinerary for the report to the Department.

Routing. The carrier on each flight-coupon stage in an itinerary and the intermediate points of routing stopover or connection (interline or intraline) in the sequence of occurrence in the movement of the passenger from origin to destination. The routing also includes fare-basis summary codes on each flight-coupon stage, to the extent these are available from the ticket.

Scheduled service. Transport service operated on a certificated large air carrier’s routes pursuant to published flight schedules, including extra sections of scheduled flights.

Stage. (See flight-coupon stage.)

Ticketed air carrier. Under a code-share arrangement, the air carrier whose two-character air carrier code is used for a flight segment, whether or not it actually operates the flight segment.

Total dollar value of ticket. The sum of the fare plus tax for the entire ticketed itinerary, in whole U.S. dollars with cents dropped. For a group ticket, the amount is the average per passenger. For fares stated in foreign currency, it is the equivalent in U.S. dollars.

Transfer. (See interline transfer and intraline transfer.)
GENERAL REPORTING PROVISIONS—LARGE CERTIFICATED AIR CARRIERS

Section 21 Introduction to System of Reports

(a) Each large certificated air carrier subject to the Federal Aviation Act of 1958, as amended, shall file with the BTS, monthly, quarterly, semiannually, and annually BTS Form 41 Reports of financial and operating statistics as prescribed herein unless waiver has been made by the Civil Aeronautics Board.

(b) The system prescribed provides for the submission by each air carrier of four classes of financial and operating statistics, on individual schedules of the BTS Form 41 Report, grouped as follows:

A. Certification.
B. Balance Sheet Elements.
P. Profit and Loss Elements.
T. Traffic and Capacity Elements.
The prescribed system of reports provides that the frequency of reporting shall be monthly for some schedules, quarterly for some, semiannually for some and annually for others. It also provides in some areas for the classification of large certificated air carriers into Group I, Group II, and Group III with the form and content differentiated as between groups.

Each schedule of the prescribed BTS Form 41 Report has been assigned a specific code. The prefix alphabetical codes A, B, P and T respectively, have been employed to denote certification, balance sheet, profit and loss, and traffic and capacity. The digits immediately following the alphabetical prefix designate the particular schedule.

Upon approval by the Director, Office of Airline Information, a carrier may:

1. Supply its own computer prepared formats provided each schedule conforms with the size and format of the forms prescribed in this part.

2. Use telefacsimile, or fax, equipment to submit the forms prescribed by this part; however, forms transmitted by fax must conform to an 8⅛ × 14 inch size. With prior approval, larger forms may be reduced in size of 8⅛ × 14 for transmission to the Department.

In submitting each schedule prescribed by this part to the Department, each reporting air carrier shall adhere to the following guidelines:

1. A good quality black ribbon shall be used in preparing the original copy of each schedule.

2. In no event shall any information be typed on the reverse side of copies submitted to the Department.

3. Except as provided for in paragraph (e) of this section, no photocopy or similar process shall be used.

4. Four separate air carrier entities shall be established for large certificated air carriers conducting scheduled service for the purpose of submitting the prescribed reports. They are as follows: (1) Domestic operations; (2) operations via the Atlantic Ocean; (3) operations via the Pacific Ocean; and (4) operations in Latin American areas. With respect to the first classification, the domestic entity shall embrace all operations within and between the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the U.S. Virgin Islands, and shall also include Canadian transborder operations. The reports to be submitted by each entity shall be comparable to those required of a distinct legal entity whether the reporting entity constitutes such an entity, a semiautonomous physically separated operating division of the carrier, or an entity established for reporting purposes only.

5. Upon approval by the Director, Office of Airline Information, a carrier may:

6. Upon approval by the Director, Office of Airline Information, a carrier may:

7. Upon approval by the Director, Office of Airline Information, a carrier may:

8. Upon approval by the Director, Office of Airline Information, a carrier may:

9. As a general rule separate reports shall be made by the different route and charter air carriers as defined in section 03 which is an air carrier. However, transactions of associated companies in which 100 percent equity control resides in the reporting air carrier shall be consolidated with transactions of the reporting air carrier when such associated companies perform services related to the transport operations of the reporting air carrier almost exclusively and are not engaged in air transportation for their own account.

10. Generally, route air carriers’ nonscheduled services shall be treated as an integral part of the reporting entity, to which most closely related whatever regard to the geographic area in which such nonscheduled services may actually be performed. However, supplemental reports shall be made of nonscheduled services (including service for the Department of Defense) in areas not encompassed by the prescribed reporting entity in any month in which
Office of the Secretary, DOT

Section 22

the available ton-miles of such non-scheduled services exceed 5 percent of the available ton-miles of the reporting entity. Such supplemental reports shall continue until waived by the BTS upon a showing that such nonscheduled operations will not in the subsequent 12-month period exceed the 5-percent limit. The supplemental reports to be filed each month or calendar quarter, as applicable, shall be comprised of report Schedules P–5, T–1, and T–2. Transport and nontransport revenues pertaining to such separately reported nonscheduled services shall be reported on Schedule P–2 each quarter.

(i) When and as required in the national interest, any air carrier which performs nonscheduled transport services for the Department of Defense shall, when directed by the Department, make separate reports for such services as if they were conducted by a physically separate transport entity, such reports shall consist of Schedules P–1 through P–7, T–1, and T–2. The letter “D” shall be inserted on such reports, following the schedule number of each P and T schedule. When a carrier has more than one reporting entity, nonscheduled transport and nonscheduled Defense services shall be assigned to the reporting entity to which more closely related.

Section 22 General Reporting Instructions

(a) One copy of each schedule in the BTS Form 41 report shall be filed with the BTS and shall be received on or before the due date indicated for each such schedule in the list titled “Due Dates of Schedules in BTS Form 41 Report.”

1 Due dates falling on a Saturday, Sunday or national holiday will become effective the first following work day.
2 Reporting due dates on Form 41 Schedules B and P are extended to March 30 if preliminary schedules are filed at the Department by February 10.

(b) Each large certificated air carrier shall file the applicable schedules of the BTS Form 41 Report with the BTS in accordance with the above instructions with the following exceptions:

1. The time for filing B and P report schedules for the final quarter or semiannual period of each calendar year may be extended to the following March 30 if the preliminary Schedules B–1 or B–1.1 and P–1.1 or P–1.2 are submitted, as applicable, and are received on or before their respective due dates.

2. For the third month of any calendar quarter, Schedule P–1(a) need not be filed if Schedule P–1.1 or P–1.2 for the quarter or semiannual period, as applicable, is received on the due date prescribed for Schedule P–1(a).

3. Income and expense data on Schedule P–1(a) for each month will be withheld by the BTS from public disclosure, until such time as (i) the semiannual or quarterly financial reports are due, (ii) the semiannual or quarterly financial reports are filed, or (iii) information covered by monthly reports is publicly released by the carrier concerned, whichever occurs first. Before that time, income and expense data reported on Schedule P–1(a) will be disclosed to parties to any proceeding before the DOT to the extent that such data are relevant and material to the issues in the proceeding upon a determination to this effect by the administrative law judge assigned to the case or by the DOT. Any data to which access is granted may be introduced into evidence, subject to the normal rules of admissibility of evidence. The DOT will make other disclosure of these data upon its own motion or upon application of any interested person, when the DOT finds the public interest so requires. The BTS may, from time to time, publish summary information compiled from Schedule P–1(a) in a form which will not identify the individual carrier. At the request of an air carrier, and upon a showing by such air carriers that public disclosure of its preliminary year-end report would adversely affect its interests and would not be in the public interest, the BTS will withhold such preliminary year-end report from public disclosure until such time as (i) the final report is filed, (ii) the final report is due, or (iii) information covered by the preliminary report is publicly released by the carrier concerned, whichever occurs first.

(c) If circumstances prevent the filing of a report on or before the prescribed due date, consideration will be given to the granting of an extension

---

Office of the Secretary, DOT  

upon receipt of a written request therefor. To provide ample time for consideration and communication to the air carrier of the action taken, such a request must be delivered to the Board in writing at least three (3) days in advance of the due date, setting forth good and sufficient reason to justify the granting of the extension and the date when the report can be filed. Except in cases of emergency, no such request will be entertained which is not in writing and received by the BTS at least three (3) days before the prescribed due date. If a request is denied, the air carrier remains subject to the filing requirements to the same extent as if no request for extension of time had been made.

(d) [Reserved]

(e) All financial data reported on B, P and G schedules shall reflect the status of the air carrier’s books of account for the period for which the report is being made and shall conform to the instructions contained in this Uniform System of Accounts and Reports. At the option of the air carrier, Group III air carriers may round reported financial data to the nearest thousands of dollars by typing “($000)” at the top of each amount column. All Group I and Group II air carriers may, at their option, round reported financial data to the nearest whole dollars by dropping the cents. All rounded amounts must be balanced within and between schedules. This option applies only to the submission of hardcopy reports. Instructions for the submission of data in ADP format are contained in the Accounting and Reporting Directives, which are available from OAI.

(f) Traffic and other operational statistics included in schedules of the BTS Form 41 reports shall reflect data pertaining to the month, quarter or 12-months-to-date period for which the report is being made.

(g) Adjustments correcting errors in previously reported traffic and other operational statistics shall not be included in data reported in schedules for the current period but shall be effected by submission of corrected schedules for the period to which applicable or, if only a few items are involved, by written notice and authorization to the BTS to correct previously filed reports except that any correction which amounts to less than one-half of one percent (0.5%) of the corrected amount for the month to which related may be included in the report for the current month provided the amount of the correction is clearly noted on the Form 41 Report.

(h) All letters and statements of correction or revision of reported data shall be a part of the BTS Form 41 reports.

(i) All changes in accounting methods having a material impact upon the particular financial elements involved, and all changes in methods of computing and reporting traffic and capacity statistics having a material impact upon the particular statistic involved shall be adequately explained and identified in the report first reflecting such changes. Such explanations related to financial position or financial results shall be made on BTS Form 41 Schedule P-2. Changes in methods for computing or reporting traffic and capacity statistics shall be identified and explained on a separate sheet attached to the first report affected. (See sec. 2–16.) The reporting requirements shall not be construed, in any sense, as relieving the air carrier of the responsibility for conforming its procedures to those otherwise prescribed in this system of accounts and reports.

(j) All financial statements released by carriers to the public reflecting a financial position or operating results for dates or reporting periods not covered by reports on file with the Board shall be filed with the Board simultaneously with their public release.

Aircraft engines leased under interchange arrangements shall not be so reported.
(c) All dates shall indicate the day, the month and the year; shall be provided on a unit basis for airframes only, and, shall be reported for each aircraft engine group by date of transaction.

(d) Column 1, “Year of First Delivery—Airframe,” shall reflect, for each reported airframe, the year that the airframe was first delivered by its manufacturer.

(e) Column 2, “Airframe Manufacturer’s Serial Number,” shall reflect the serial number assigned to each reported airframe by its manufacturer.

(f) Column 4, “Acquisitions or Retirements,” shall be used to indicate, for each item entered, whether it represents an acquisition or retirement. This shall be indicated by inserting in Column 4 an “A” for acquisition or an “R” for retirement.

(g) Column 8, “Maximum Seating Capacity,” shall reflect the number of passenger seats installed in each airframe acquired. When airframes are designed for multiple adjustable seating configurations, the maximum number of seats for which designed shall be reported. When the seating configuration of airframes is modified subsequent to original acquisition, the revised passenger capacity of each airframe shall be reported in the quarter in which modified and referenced to identify original capacity reported.

(h) Column 9, “Cost,” shall reflect the book cost of reported airframe and aircraft engine acquisitions and retirements.

(i) Column 10, “Amortization/Depreciated Cost,” shall reflect the book cost, less amortization or depreciation expense, for airframes and aircraft engines that have been retired.

(j) Column 11, “Realization,” shall reflect the proceeds from the disposition of airframes and aircraft engines, including any insurance proceeds.

(k) Column 12, “Acquired From Disposition,” shall reflect: (1) for acquisitions: the name of the person or organization from which airframes and aircraft engines are acquired and (2) for dispositions (retirements): the name of the person or organization to which airframes and aircraft engines are sold or a notation as to the nature of the retirement and the account to which any depreciated cost has been charged, if not sold. Items included in accounts 1607, 1608, 1707, and 1708, sold as a part of an airframe or aircraft sales transaction, shall also be identified by the name of the buyer. Other sales of items included in these accounts shall be reported in a separate group in aggregate for each property account affected.

Schedule B–12—Statement of Cash Flows

(a) This schedule shall be filed quarterly by all Group I and Group II air carriers and Group I air carriers that have annual operating revenues of $20 million or more.

(b) This schedule shall be filed for the overall or system operations of the air carrier.

(c) The statement of cash flows shall separately disclose the amount of net cash provided or used during the reporting period from the carrier’s operating activities, investing activities and financing activities. The effect on cash and cash equivalents of the total amount of net cash provided or used during the quarter from each of the above activities shall be clearly disclosed so as to reconcile beginning and ending cash and cash equivalents.

(d) Carriers may use either the direct or indirect method of reporting cash flows. Under either method, the reporting of cash flows from investing and financing activities will remain the same. However, the reporting of cash flows from operating activities does differ between the two methods.

(e) For carriers electing to use the direct method, cash flows from operating activities are reported as gross amounts of the principal components of cash receipts and cash payments from operating activities, such as cash received from passengers and shippers, cash paid to suppliers, and cash paid to employees. Each carrier using the direct method shall provide as part of its statement of cash flows, a separate schedule that reconciles net income (as reported on Schedule P–1.2 in Account 9899) to cash flow from operating activities.

(f) For carriers electing to use the indirect method, cash flows from operating activities are reported as gross amounts of the principal components of cash receipts and cash payments from operating activities, such as cash received from passengers and shippers, cash paid to suppliers, and cash paid to employees. Each carrier using the indirect method shall provide as part of its statement of cash flows, a separate schedule that reconciles net income (as reported on Schedule P–1.2 in Account 9899) to cash flow from operating activities.

(g) Regardless of the method used, the statement of cash flows shall reflect the amount of net cash flow provided or used by operating activities during the reporting period.

(h) The balance of “Cash and Cash Equivalents,” at the beginning and ending of the quarterly period covered by the report, should equal the sum of Accounts 1010, “Cash,” and 1100, “Short-term Investments,” as reported on the immediately preceding and current quarterly Schedule B–1, “Balance Sheet.” If the sum of these two accounts does not equal the total “Cash and Cash Equivalents” reported on the statement of cash flows, then a footnote explaining the difference shall be provided as part of the statement of cash flows.

Schedule B–43—Inventory of Airframes and Aircraft Engines

(a) This schedule shall be filed by all Group I, Group II and Group III air carriers.

(b) This schedule shall show the results of operations for six-month periods ending June 30 and December 31. Data reported in the ‘‘12 Months-to-Date’’ column shall represent for each individual item the sum of the amount reported in the ‘‘Current Period’’ column and the next previous six-month period.

(c) Each carrier shall insert in the space provided for ‘‘OAG Code’’ its carrier code as contained in the Official Airlines Guide (OAG). If the OAG does not contain a carrier code for the reporting carrier, a code will be provided by the Office of Airline Information upon request. This code will then be placed in the space provided for ‘‘carrier code.’’

(d) ‘‘Operating Revenue’’ shall be put in categories as follows:

(1) ‘‘Transport Revenue’’ shall include the revenue generated by the performance of air transportation services. This category shall be subdivided as follows:

(i) ‘‘Scheduled Service’’ shall include all transport revenue derived from operations between pairs of points which are served on a regularly scheduled basis. Transport revenue received from scheduled service operations shall be subdivided as follows:

(A) Passengers. Revenue generated from the transportation of passengers shall be included in this category,

(1) Interest Expense.

(2) Other Nonoperating (Net).

(h) “Income Tax” shall reflect the provisions for accruals of Federal, State, local, and foreign taxes based upon taxable income, and computed at the normal and surtax rates in effect during the current accounting year.

(d) Data reported in the “12 Months-to-Date” column shall represent for each item the sum of amounts reported in the “Quarter” column for the current and next previous three quarters.

(e) Group III air carriers shall subdivide total Transport Revenues-Passenger (Account 3901) between Accounts 3901.1, Passenger-Flight Class and Account 3901.2 Passenger-Coach, only for operations that are reported in the international entity (Atlantic, Pacific and Latin American). First class and coach passenger revenues associated with transport operations reported in the domestic entity shall be reported as a combined total in Account 3901 Transport Revenues-Passenger.

(f) All Group I and Group II air carriers shall report first class and coach passenger revenues as a combined total in Account 3901 Transport Revenues-Passenger, for both domestic and international entity operations. However, U.S. air carriers in any carrier group that elect to do so may continue to report first class and coach revenue data, if they consider such voluntary reporting to be less burdensome than changing their existing financial reporting system.

For the purposes of this part, "part-time employees" means those employees hired to work less than the number of hours that is customary or standard for their occupational specialty.

(e) In the event of a labor strike, the “number of employees” to be reported on this schedule shall be determined on and actual payroll basis. Actual payroll shall be determined in accordance with paragraph (d) of these reporting instructions. An air carrier that on October 24, 1978, held a certificate under 49 U.S.C. 41102 shall also report in a footnote on this schedule the number of full-time employees who were deprived of employment because of a strike (i.e., the number of full-time employees who, but for a strike, would have been included in the number reported in accordance with paragraph (d)(7)).

are on hand but not available for productive use, days dry-leased or rented to others, and days in possession but formally withdrawn from air transportation service.

Schedule P-5.2—Aircraft Operating Expenses and Related Statistics

(a) This schedule shall be filed by all Group II and Group III air carriers.

(b) Route and charter air carriers shall file this schedule for each operating entity of the air carrier.

(c) Data applicable to each aircraft type operated by the air carrier shall be reported in separate columns of this schedule. "Aircraft Type" refers to aircraft models (such as B-707-300, DC-9-30, etc.) that are prescribed in the Accounting and Reporting Directives, which is available from the Office of Airline Information. In the space provided for "Aircraft Code," the air carrier shall insert the four digit code which is prescribed in the Accounting and Reporting Directives for the reported aircraft type. For route air carriers, expenses of operating aircraft provided by other carriers under interchange agreements shall be separately reported in total for all such aircraft as if for a distinct aircraft type. Interchange expenses applicable to aircraft of the same type as those owned or operated by the air carrier shall be distributed in summary memo form as item 98.1 and 98.2 to each aircraft type owned or operated by that air carrier. Aircraft types not generally used in revenue service shall be separately reported. If more than one type of aircraft is involved, a separation of data relating to each type of aircraft shall not be required.

(d) Each aircraft type for which a report is being made shall be identified at the head of each column in the space provided. Data applicable to aircraft designed primarily for cargo service and only incidentally used for passenger service shall be reported in separate columns, and the word "cargo" shall be inserted after the aircraft type at the head of the column. The prescribed reporting by aircraft types may be reviewed from time to time upon request by individual air carriers, or upon the initiative of the BTS, and groupings of aircraft types for reporting purposes may be prescribed or amended in specific instances.

(e) Italicized codes and item titles do not constitute accounts or account numbers prescribed for air carrier accounting, but shall be used for reporting purposes only.

(f) Item 79.6 "Applied Maintenance Burden" shall reflect a memorandum allocation by each air carrier of the total expenses included in subfunction 5300 "Maintenance Burden" between maintenance of flight equipment, ground property and equipment, and maintenance of ground property and equipment. The allocation of subfunction 5300 (maintenance burden) shall include the net effect of charges and credits to profit and loss accounts.

(g) Item 73 "Obsolescence and Deterioration—Expendable Parts" shall reflect (for obsolescence and deterioration of flight equipment expendable parts) the gross provisions for losses in value of expendable parts during the current accounting period offset by any credits applicable to the current period for adjustments for excess inventory levels determined pursuant to section 6-1311.

(h) The total of function 5100 "Flying Operations" reported on this schedule shall agree with the corresponding amount reported on Schedule P-1.2.

Schedule P-6—Operating Expenses by Objective Groupings

(a) This schedule shall be filed quarterly by all Group II and Group III air carriers and Group I air carriers that have annual operating revenues of $20 million or more.

(b) Route and charter air carriers shall file this schedule for each separate operating entity.

Schedule P-7—Operating Expenses by Functional Groupings—Group III Air Carriers

(a) This schedule shall be filed by all Group III air carriers.

(b) Route and charter air carriers shall file this schedule for each operating entity of the air carrier.

(c) Line 38 "Total Operating Expenses" shall agree with the corresponding amount reported on Schedule P-1.2.

Schedule P-10—Employment Statistics by Labor Category

(a) This schedule shall be filed annually by all Group II and Group III air carriers and Group I air carriers that have annual operating revenues of $20 million or more.

(b) Separate sets of this schedule shall be filed for each operating entity of the air carrier. Employees will be allocated to the reporting entities on a basis consistent with that used in the allocation of salaries for Form 41 financial reporting purposes.

(c) Column 3, "Number of Employees," shall reflect, for each category in column 1, the weighted average number of full-time employees who received pay for any part of the calendar year. In determining the weighted average, all temporary or part-time employees shall be restated, based on their hours paid, as an equivalent number of full-time employees who received pay for any part of the calendar year. Column 4, "Days in possession but formally withdrawn from air transportation service," shall be used for reporting purposes only.

(d) Labor category description—"Other personnel" shall include all employees whose
salary is chargeable to accounts 30, 32, 34 and 35 in this Uniform System of Accounts and Reports.

(e) Labor category description—“Transport-related” shall include all employees whose salary is not chargeable to one of the various salary accounts contained in the Uniform System of Accounts and Reports. For example, this category would include those employees who work in transport-related operations and other activities for which a separate payroll account is not prescribed. The number of employees reported as transport-related shall be calculated in accordance with paragraph (c) of these reporting instructions.

Schedule P–12(a)—Fuel Consumption by Type of Service and Entity

(a) This schedule shall be filed monthly by all Group II and Group III air carriers and Group I air carriers that have annual operating revenues of $20 million or more.

(b) A single copy (original only) of this schedule shall be filed to report monthly fuel consumption data by type of service and entity.

(c) For the purposes of this schedule, type of service shall be either scheduled service or nonscheduled service as those terms are defined in section 63 of part 241.

(d) For the purpose of this schedule, scheduled service shall be reported separately for: (1) Intra-Alaskan operations; (2) domestic operations, which shall include all operations within and between the 50 States of the United States (except Intra-Alaska), the District of Columbia, the Commonwealth of Puerto Rico and the United States Virgin Islands and Canadian transborder operations; (3) Atlantic operations (excluding Bermuda); (4) Pacific operations which shall include the North/Central Pacific, South Pacific (including Australia) and the Trust Territories; and (5) Latin American operations which shall include the Caribbean (including Bermuda and the Guianas), Mexico and South/Central America.

(e) For the purpose of this schedule, nonscheduled service shall be reported separately for domestic operations and international operations as defined in paragraph (d) above, except that domestic and international MAC operations shall be reported on separate lines.

(f) The cost data reported on each line shall represent the average cost of fuel, as determined at the station level, consumed in that entity.

(g) The cost of fuel shall include shrinkage but exclude (1) “through-put” and “in to plane” fees, i.e., service charges or gallonage levies assessed by or against the fuel vendor or concessionaire and passed on to the carrier in a separately identifiable form and (2) nonrefundable Federal and State excise taxes. However, “through-put” and “in to plane” charges that cannot be identified or segregated from the cost of fuel shall remain a part of the cost of fuel as reported on this schedule.

(h) Each air carrier shall maintain records for each station showing the computation of fuel inventories and consumption for each fuel type. The periodic average cost method shall be used in computing fuel inventories and consumption. Under this method, an average unit cost for each fuel type shall be computed by dividing the total cost of fuel available (Beginning Inventory plus Purchases) by the total gallons available. The resulting unit cost shall then be used to determine the ending inventory and the total consumption costs to be reported on this schedule.

(i) Where amounts reported for a specific entity include other than Jet A fuel, a footnote shall be added indicating the number of gallons and applicable costs of such other fuel included in amounts reported for that entity.

(j) Where any adjustment(s) recorded on the books of the carrier results in a material distortion of the current month’s schedule, carriers shall file a revised schedule P–12(a) for the month(s) affected.

(k) Data reported on this schedule shall be withheld from public release until the quarterly Form 41 P schedules for the calendar quarter to which the monthly schedules relate are due at the BTS. However, aggregate data may be released before that time without identifying individual carriers. Provisions governing the due dates for submitting the quarterly P schedules are contained in paragraphs (a) and (b) of section 22 of this part. Individual carrier fuel data withheld from public disclosure may be disclosed by the BTS to:

(1) Parties to any proceeding before the DOT to the extent such material is relevant and material to the issues in the proceeding upon a determination to this effect by the administrative law judge assigned to the case or by the DOT;

(2) Agencies and other components of the Federal Government for their internal use only; and

(3) Such persons and in such circumstances as the BTS determines to be in the public interest or consistent with its regulatory functions and responsibilities.

The Department will issue “Accounting and Reporting Directives” to make necessary technical changes to these T–100 instructions. Technical changes which are minor in nature do not require public notice and comment.

(2) Microcomputer diskette—(i) Optional specification. If an air carrier desires to use its personal computers (PC’s), rather than mainframe or minicomputer to prepare its data submissions, the following specifications for filing data on diskette media apply:

(ii) Reporting medium. Microcomputer ADP data submission of T–100 information must be on IBM compatible disks. Carriers wishing to use a different ADP procedure must obtain written approval to do so from the BTS Assistant Director—Airline Information. Requests for approval to use alternate methods must disclose and describe the proposed data transmission methodology. Refer to paragraph (k) of this appendix for microcomputer record layouts.

(iii) Microcomputer file characteristics. The files will be created in ASCII delimited format, sometimes called Data Interchange Format (DIF). This form of recording data provides for variable length fields (data elements), which, in the case of alphabetic data, are enclosed by quotation marks (“”) and separated by a comma (,) or tab. Numeric data elements that are recorded without editing symbols are also separated by a comma (,) or tab. The data are identified by its juxtaposition within a given record. Therefore, each record must contain the exact number of data elements, all of which must be juxtapositionally correct. Personal computer software including most spreadsheets, database management programs, and BASIC are capable of producing files in this format.

(d) Filing date for reports. The reports must be received at BTS within 30 days following the end of each reporting period.

(e) Address for filing: Data Administration Division, K–14, Room 4125, Office of Airline Information, Bureau of Transportation Statistics, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590–0001.

(f) ADP format for magnetic tape—(1) Magnetic tape specifications. IBM compatible 9–track EBCDIC recording. Recording density of 6250 or 1600 bpi. The order of recorded information is:

Volume label
Header label
Data records
Trailer label

(2) [Reserved]

(g) External tape label information:

Carrier name
Report date
File identification
Carrier address for return of tape reel

(h) Standards. It is the policy of the Department to be consistent with the American National Standards Institute and the Federal Standards Activity in all data processing and telecommunications matters. It is our intention that all specifications in this application be in compliance with standards promulgated by these organizations.

(i) Volume, header, and trailer label formats:

(1) Use standard IBM label formats. The file identifier field of the header labels should be “T–100.SYSTEM”.

(2) [Reserved]

(k) Record layouts for microcomputer diskettes. The record layouts for diskettes are generally identical to those shown for magnetic tape, with the exception that delimiters (quotation marks, tabs and commas) are used to separate fields. It is necessary that the order of fields be maintained in all records.

(1) File characteristics. The files will be created in ASCII delimited format, sometimes called Data Interchange Format (DIF). This form of recording data provides for variable length fields (data elements) which, in the case of alphabetic data, are enclosed by quotation marks (‘’) and separated by a comma (,) or tab. Numeric data elements that are recorded without editing symbols are also separated by a comma (,) or tab. The data are identified by their juxtaposition within a given record. Therefore, it is critical that each record contain the exact number of data elements, all of which must be juxtapositionally correct. PC software including most spreadsheets, data base management programs, and BASIC produce minidisk files in this format.

(2) File naming conventions for diskettes. For microcomputer reports, each record type shall be contained in a separate DOS file on the same physical diskette. The following DOS naming conventions should be followed: Record type S = SEGMENT.DAT Record type M = MARKET.DAT

(i) Discussion of Reporting Concept. (1) Schedule T-100 collects summarized flight stage data and on-flight market data. All traffic statistics shall be compiled in terms of each revenue flight stage as actually performed. The detail T-100 data shall be maintained in such a manner as to permit monthly summarization and organization into two basic groupings. The first grouping, the non-stop segment information, is to be summarized by equipment type, within class of service, within pair-of-points, without regard to individual flight number. The second grouping requires that the enplane/deplane information be broken out into separate units called on-flight market records, which shall be summarized by class of service, within pair-of-points, without regard for equipment type or flight number.

(2) [Reserved]

(m) Joint Service—(1) Joint-service operations. The Department may authorize joint-service operations between two direct air carriers. Examples of these joint-service operations are: Blocked-space agreements; part-charter agreements; code-sharing agreements; wet-lease agreements, and other similar arrangements.

(i) Joint-service operations are reported by the carrier in operational control of the flight, i.e., the carrier that uses its flight crews under its own FAA operating authority. The traffic moving under these agreements is reported on Schedule T-100 the same way as any other traffic on the aircraft.

(ii) If there are questions about reporting a joint-service operation, contact the BTS Assistant Director—Airline Information (fax no. 202 366–3383, telephone no. 202 366–4373).

(iii) Operational control. The air carrier in operational control of the aircraft (the carrier that uses its flight crew under its own FAA operating authority) must report joint-service operations.

§ 243.1 Purpose.
The purpose of this part is to ensure that the U.S. government has prompt and adequate information in case of an aviation disaster on covered flight segments.

§ 243.3 Definitions.
Air piracy means any seizure of or exercise of control over an aircraft, by force or violence or threat of force or violence, or by any other form of intimidation, and with wrongful intent.

Aviation disaster means:
(1) An occurrence associated with the operation of an aircraft that takes place between the time any passengers have boarded the aircraft with the intention of flight and the time all such persons have disembarked or have been removed from the aircraft, and in which any person suffers death or serious injury, and in which the death or injury was caused by a crash, fire, collision, sabotage or accident;
(2) A missing aircraft; or
(3) An act of air piracy.
Contact means a person not on the covered flight or an entity that should be contacted in case of an aviation disaster. The contact need not have any particular relationship to a passenger.

Covered airline means:
(1) certificated air carriers, and
(2) foreign air carriers, except those that hold Department of Transportation authority to conduct operations in foreign air transportation using only small aircraft (i.e., aircraft designed to have a maximum passenger capacity of not more than 60 seats or a maximum payload capacity of not more than 18,000 pounds).

Covered flight segment means a passenger-carrying flight segment operating to or from the United States (i.e., the flight segment where the last point of departure or the first point of arrival is in the United States). A covered flight segment does not include a flight segment in which both the point of departure and point of arrival are in the United States.

Full name means the given name, middle initial or middle name, if any, and family name or surname as provided by the passenger.

Passenger means every person aboard a covered flight segment regardless of whether he or she paid for the transportation, had a reservation, or occupied a seat, except the crew. For the purposes of this part, passenger includes, but is not limited to, a revenue and non-revenue passenger, a person holding a confirmed reservation, a standby or walkup, a person rerouted from another flight or airline, an infant held upon a person’s lap and a person occupying a jump seat. Airline personnel who are on board but not working on that particular flight segment would be considered passengers for the purpose of this part.

United States means the States comprising the United States of America, the District of Columbia, and the territories and possessions of the United States, including the territorial sea and the overlying airspace.

§ 243.5 Applicability.
This part applies to covered flight segments operated by covered airlines. (See §243.3 of this part)
§ 243.7 Information collection requirements.

(a) For covered flight segments, each covered airline shall:

(1) Collect, or cause to be collected, the full name for each passenger who is a U.S. citizen. U.S.-citizen passengers for whom this information is not obtained shall not be boarded;

(2) Solicit, or cause to be solicited, a name and telephone number of a contact from each passenger who is a U.S. citizen; and

(3) Maintain a record of the information collected pursuant to this section.

(b) The covered airline operating the flight segment shall be responsible for ensuring compliance with paragraph (a) of this section.

§ 243.9 Procedures for collecting and maintaining the information.

Covered airlines may use any method or procedure to collect, store and transmit the required information, subject to the following conditions:

(a) Information on individual passengers shall be collected before each passenger boards the aircraft on a covered flight segment.

(b) The information shall be kept until all passengers have disembarked from the covered flight segment.

(c) The contact information collected pursuant to section 243.7(a)(2) of this part shall be kept confidential and released only to the U.S. Department of State, the National Transportation Safety Board (upon NTSB’s request), and the U.S. Department of Transportation pursuant to oversight of this part. This paragraph does not preempt other governments or governmental agencies that have an independent, legal right to obtain this information.

(d) The contact information collected pursuant to section 243.7(a)(2) of this part shall only be used by covered airlines for notification of family members or listed contacts following an aviation disaster. The information shall not be used for commercial or marketing purposes.

§ 243.11 Transmission of information after an aviation disaster.

(a) Each covered airline shall inform the Managing Director of Overseas Citizen Services, Bureau of Consular Affairs, U.S. Department of State immediately upon learning of an aviation disaster involving a covered flight segment operated by that carrier. The Managing Director may be reached 24 hours a day through the Department of State Operations Center at (202) 647–1512.

(b) Each covered airline shall transmit a complete and accurate compilation of the information collected pursuant to § 243.7 of this part to the U.S. Department of State as quickly as possible, but not later than 3 hours, after the carrier learns of an aviation disaster involving a covered flight segment operated by that carrier.

(c) Upon request, a covered airline shall transmit a complete and accurate compilation of the information collected pursuant to § 243.7 of this part to the Director, Family Support Services, National Transportation Safety Board.

§ 243.13 Filing requirements.

(a) Each covered airline that operates one or more covered flight segments shall file with the U.S. Department of Transportation a brief statement summarizing how it will collect the passenger manifest information required by this part and transmit the information to the Department of State following an aviation disaster. This description shall include a contact at the covered airline, available at any time the covered airline is operating a covered flight segment, who can be consulted concerning information gathered pursuant to this part.

(b) Each covered airline shall file any contact change as well as a description of any significant change in its means of collecting or transmitting manifest information on or before the date the change is made.

(c) All filings under this section should be submitted to OST Docket 98–3905, Dockets Facility (SVC–121.30), U.S. Department of Transportation, Room PL–401, 400 Seventh Street, SW., Washington, DC 20590. The statement shall be filed by July 1, 1998, or, for covered airlines beginning operations after July 1, 1998, prior to the date a covered airline operates a covered flight segment.
§ 243.15 Conflict with foreign laws.

(a) If a covered airline obtains a waiver in the manner described in this section, it will not be required to solicit, collect or transmit information under this part in countries where such solicitation or collection would violate applicable foreign law, but only to the extent it is established by the carrier that such solicitation or collection would violate applicable foreign law.

(b) Covered airlines that claim that such solicitation, collection or transmission would violate applicable foreign law in certain foreign countries shall file a petition requesting a waiver in the Docket Facility, on or before October 1, 1998, or on or before beginning service between that country and United States. Such petition shall include copies of the pertinent foreign law, as well as a certified translation, and shall include opinions of appropriate legal experts setting forth the basis for the conclusion that collection would violate such foreign law. Statements from foreign governments on the application of their laws will also be accepted.

(c) The U.S. Department of Transportation will notify the covered airline of the extent to which it has been satisfactorily established that compliance with all or part of the data collection requirements of this part would constitute a violation of foreign law.

(d) The U.S. Department of Transportation will maintain an up-to-date listing in OST Docket 98–3305 of countries where adherence to all or a portion of this part is not required because of a conflict with applicable foreign law.

§ 243.17 Enforcement.

The U.S. Department of Transportation may at any time require a covered airline to produce a passenger manifest including emergency contacts and phone numbers for a specified covered flight segment to ascertain the effectiveness of the carrier’s system. In addition, it may require from any covered airline further information about collection, storage and transmission procedures at any time. If the Department finds a covered airline’s system to be deficient, it will require appropriate modifications, which must be implemented within the period specified by the Department. In addition, a covered airline not in compliance with this part may be subject to enforcement action by the Department.

PART 247—DIRECT AIRPORT-TO-AIRPORT MILEAGE RECORDS

Source: Amdt. 247–2, 56 FR 67170, Dec. 30, 1991, unless otherwise noted.

§ 247.1 Official mileage record of the Department of Transportation.

The direct airport-to-airport mileage record now maintained, and as hereafter amended or revised from time to time by the Office of Airline Information of the Bureau of Transportation Statistics of the Department of Transportation in the regular performance of its duties, is hereby adopted as the official mileage record of the Department and the mileages set forth therein shall be used in all instances where it shall be necessary to determine direct airport-to-airport mileages pursuant to the provisions of Titles IV and X of the Federal Aviation Act of 1958, as amended, or any rule, regulation, or order of the Department pursuant thereto.

PART 248—SUBMISSION OF AUDIT REPORTS

Sec.
248.1 Applicability.
248.2 Filing of audit reports.
248.4 Time for filing reports.
248.5 Withholding from public disclosure.

Source: ER–420, 29 FR 13799, Oct. 7, 1964, unless otherwise noted.

§ 248.1 Applicability.

The requirements of this part shall be applicable to all air carriers subject to the requirements of part 241 of this subchapter.
§ 248.2 Filing of audit reports.

(a) Whenever any air carrier subject to §248.1 shall have caused an annual audit of its books, records, and accounts to be made by independent public accountants, such air carrier shall file with the Office of Airline Information, in duplicate, a special report consisting of a true and complete copy of the audit report submitted by such independent public accountants, including all schedules, exhibits, and certificates included in, attached to, or submitted with or separately as a part of, the audit report.

(b) Each air carrier subject to §248.1 that does not cause an annual audit to be made of its books, records, and accounts for any fiscal year shall, at the close of such fiscal year file with the Board’s Office of the Comptroller, as a part of its periodic reports, a statement that no such audit has been performed.

(Approved by the Office of Management and Budget under control number 2138-0004)

§ 248.4 Time for filing reports.

The report required by this part shall be filed with the Office of Airline Information within 15 days after the due date of the appropriate periodic BTS Form 41 Report, filed for the 12-month period covered by the audit report, or the date the accountant submits its audit report to the air carrier, whichever is later.

§ 248.5 Withholding from public disclosure.

The special reports required to be filed by §248.2 shall be withheld from public disclosure, until further order of the BTS, if such treatment is requested by the air carrier at the time of filing.

§ 249.3 Preservation of records.

(a) All records listed in §§ 249.20 and 249.21 may be preserved on either paper or nonerasable microfilm (see § 249.4). However, a paper or microfilm record need not be created to satisfy the requirements of this part if the record is initially prepared in a machine-readable medium such as punched cards, magnetic tapes, and disks. The records maintained in machine-readable media and the underlying data used in their preparation shall be preserved for the periods prescribed in §§ 249.20 and 249.21. A paper or microfilm record shall not be destroyed after transfer to a machine-readable medium before expiration of the prescribed period; however, a waiver permitting the early destruction of paper or microfilm records transferred to a machine-readable medium may be granted by the Director, Office of Airline Information, when it is demonstrated by the requesting carrier that the substantive purpose of the retention requirement will be met by retention of the information in machine-readable form (see § 249.10).

(b) Each record kept in a machine-readable medium shall be accompanied by a statement clearly indicating the type of data included in the record and certifying that the information contained in it is complete and accurate. This statement shall be executed by a person having personal knowledge of the facts contained in the records. The records shall be indexed and retained in such a manner so that they are easily accessible, and the carrier shall have the facilities available to locate, identify and reproduce the records in readable form without loss of clarity. Authorized representatives of the DOT shall be given immediate access to the carrier’s facilities upon request.

(c) If any record which must be retained under the provisions of §§ 249.20

Authorized representatives of the DOT means any persons, including special agents and auditors, designated by the DOT to perform inspections, audits, or examinations within the purview of the DOT’s authority.

Certificated air carrier means the holder of a certificate of public convenience and necessity issued by the Department of Transportation under 49 U.S.C. 41102 or a certificate for all-cargo air service issued by the Department of Transportation under 49 U.S.C. 41103.

Final adjudication means the expiration date of the last possible period of review or reconsideration of a given case, by the DOT or by a court, that is provided by applicable statute or regulation.

Open mail rate period means the time interval between the date of institution of a new mail rate proceeding or the start of service over a new route for which no mail rate has previously been fixed, and the date upon which a DOT order setting the final mail rate becomes legally effective.

Pending case means any case that the DOT is empowered to hear before its final adjudication.

Records include all documents that are related to, or constitute integral links in developing the history of, or facts regarding, financial transactions or physical operations of a particular segment, operating division, or entire system of the carrier’s operations. The term includes any copy of initially prepared documents which bear approvals, comments, or notations which were added and are of significance to a full explanation of recorded facts or information. The term records means not only accounting records in a limited technical sense but all other evidentiary accounts of events such as memoranda, correspondence, working sheets, tabulating equipment listings punched cards, computer-produced listings, microfilm, and magnetic storage media (i.e., magnetic tapes, disks). The term records also means microform and/or tape reproductions of documents made as authorized by this subpart. In addition, the term records includes any of the above-described materials coming into the possession of the air carrier through merger, consolidation, succession, transfer, or other acquisition.

Supporting papers (records) means any group of documentary papers, such as memoranda, correspondence, working sheets, etc., that assist in upholding the accuracy or clarity of related records.

§ 249.3 Preservation of records.

(a) All records listed in §§ 249.20 and 249.21 may be preserved on either paper or nonerasable microfilm (see § 249.4). However, a paper or microfilm record need not be created to satisfy the requirements of this part if the record is initially prepared in a machine-readable medium such as punched cards, magnetic tapes, and disks. The records maintained in machine-readable media and the underlying data used in their preparation shall be preserved for the periods prescribed in §§ 249.20 and 249.21. A paper or microfilm record shall not be destroyed after transfer to a machine-readable medium before expiration of the prescribed period; however, a waiver permitting the early destruction of paper or microfilm records transferred to a machine-readable medium may be granted by the Director, Office of Airline Information, when it is demonstrated by the requesting carrier that the substantive purpose of the retention requirement will be met by retention of the information in machine-readable form (see § 249.10).

(b) Each record kept in a machine-readable medium shall be accompanied by a statement clearly indicating the type of data included in the record and certifying that the information contained in it is complete and accurate. This statement shall be executed by a person having personal knowledge of the facts contained in the records. The records shall be indexed and retained in such a manner so that they are easily accessible, and the carrier shall have the facilities available to locate, identify and reproduce the records in readable form without loss of clarity. Authorized representatives of the DOT shall be given immediate access to the carrier’s facilities upon request.

(c) If any record which must be retained under the provisions of §§ 249.20
and 249.21 is included as an exhibit to another document which must also be retained, the carrier need only keep in its files one copy of the record to satisfy these record retention requirements. In these cases, the carrier shall establish adequate cross-references to assist in locating the record.

d) The provisions in this part do not excuse noncompliance with requirements of any other governmental body, Federal or State, prescribing longer retention periods for any records.

§ 249.4 Photographic copies.

(a) Any record may be transferred to nonerasable microfilm (including microfiche, computer output microfilm, and aperture cards) at any time. Records so maintained on microfilm shall satisfy the minimum requirements listed in paragraphs (b) through (f) of this section.

(b) The microfilm shall be of a quality that can be easily read and that can be reproduced in paper similar in size to an original without loss of clarity or detail during the periods the records are required to be retained in §§ 249.20 and 249.21.

(c) Microfilm records shall be indexed and retained in such a manner as will render them readily accessible, and the company shall have facilities available to locate, identify and read the microfilm and reproduce in paper form. Authorized representatives of the DOT shall be given immediate access to these facilities upon request.

(d) Any significant characteristic, feature, or other attribute which microfilm will not preserve shall be clearly indicated at the beginning of each roll of film or series of microfilm records if applicable to all records on the roll or series, or on the individual record, as appropriate.

(e) The printed side of printed forms need not be microfilmed for each record if nothing has been added to the printed matter common to all such forms, but an identified specimen of the form shall be on the film for reference.

(f) Each roll of film or series of microfilm records shall include a microfilm of a certificate stating that the photographs are direct and facsimile reproductions of the original records and they have been made in accordance with prescribed regulations. Such a certificate shall be executed by a person having personal knowledge of these facts. Where the microfilm is computer output, the microfilm certificate shall state that the information is complete and accurate.

§ 249.5 Storage of records.

Each carrier shall provide reasonable protection from damage by fire, floods, and other hazards for records subject to the provisions of this part.

§ 249.6 Destruction of records.

(a) Upon the expiration of the period of preservation prescribed in this regulation, records may be destroyed at the option of the carrier.

(b) Unless otherwise specified, duplicate copies of records may be destroyed at any time if they contain no significant information not shown on the originals.

§ 249.7 Restrictions on record destruction.

(a) Each carrier that has been named a party to a pending mail rate case shall retain all records remaining in its custody as of the beginning of an “open mail rate period” until the occurrence of one of the following contingencies, whichever is first:

(1) Final adjudication of a DOT order fixing the final mail compensation payable for services rendered during an “open mail rate period.”

(2) Receipt of a notice issued by the Director, Office of Airline Information in response to a written application filed by the carrier, authorizing the destruction of specifically identified categories of records. An application should be filed when the carrier believes that certain categories of records are not relevant to the proper processing of a pending mail proceeding. The application should list those categories of records which the carrier wants to destroy and its reasons for believing that the records are not necessary or useful in determining its statutory mail pay.
§ 249.8  Premature loss or destruction of records.

If records are destroyed or lost before the expiration of the prescribed retention period, a statement shall be prepared and submitted to the Director, Office of Airline Information, which lists, as accurately as possible, the unavailable records and describes the circumstances under which they became unavailable.

§ 249.9  Carriers going out of business.

The records referred to in these regulations may be destroyed after the business is discontinued and the carrier is completely liquidated. The records may not be destroyed until dissolution is final and all transactions and litigations are completed. When a carrier is merged with another company which is regulated by the DOT, the successor company shall preserve records of the merged company in accordance with these regulations.

§ 249.10  Waiver of requirements.

A waiver from any provision of this regulation may be made by the Director, Office of Airline Information, upon the Director’s own initiative or upon submission of a written request by a carrier or group of carriers. Each request for waiver shall demonstrate that unusual circumstances warrant a departure from prescribed retention periods, procedures, or techniques, or that compliance with the prescribed requirements would impose an unreasonable burden on the carrier, and that granting the waiver would be in the public interest.

Subpart B—Preservation of Records by Carrier

§ 249.20  Preservation of records by certificated air carriers.

Each certificated air carrier shall retain its records according to the provisions of this section. Unless otherwise specified in the “Schedule of Records,” each retention period shall begin on the date when the records are created or otherwise come into the possession of the carrier.

250.11 Public disclosure of deliberate overbooking and boarding procedures.

§ 250.1 Definitions.

Airport means the airport at which the direct or connecting flight, on which the passenger holds confirmed reserved space, is planned to arrive or some other airport serving the same metropolitan area, provided that transportation to the other airport is accepted (i.e., used) by the passenger.

Carrier means: (1) A direct air carrier, except a helicopter operator, holding a certificate issued by the Department of Transportation pursuant to 49 U.S.C. 41102 (formerly sections 401(d)(1), 401(d)(2), 401(d)(5) and 401(d)(8) of the Federal Aviation Act of 1958), or an exemption from 49 U.S.C. 41101 (formerly section 401(a) of the Act), authorizing the transportation of persons, or (2) A foreign route air carrier holding a permit issued by the Department pursuant to 49 U.S.C. 41301 through 41306 (formerly section 402 of the Act), or an exemption from the appropriate provision of 49 U.S.C. 41301 through 41306, authorizing the scheduled foreign air transportation of persons.

Comparable air transportation means transportation provided to passengers at no extra cost by a carrier as defined above.

Confirmed reserved space, means space on a specific date and on a specific flight and class of service of a carrier which has been requested by a passenger and which the carrier or its agent has verified, by appropriate notation on the ticket or in any other manner provided therefor by the carrier, as being reserved for the accommodation of the passenger.

Large aircraft means any aircraft that has a passenger capacity of more than 60 seats.

Stopover means a deliberate interruption of a journey by the passenger, scheduled to exceed 4 hours, at a point between the place of departure and the final destination.

Sum of the values of the remaining flight coupons means the sum of the applicable one-way fares, including any surcharges and air transportation taxes, less any applicable discounts.

§ 250.2 Applicability.

This part applies to every carrier, as defined in §250.1, with respect to flight segments with large aircraft in (1) interstate air transportation and (2) foreign air transportation originating at a point within the United States.

[ER–1306, 47 FR 52985, Nov. 24, 1982, as amended at 68 FR 52836, Sept. 8, 2003]

§ 250.2a Policy regarding denied boarding.

In the event of an oversold flight, every carrier shall ensure that the smallest practicable number of persons holding confirmed reserved space on that flight are denied boarding involuntarily.

§ 250.2b Carriers to request volunteers for denied boarding.

(a) In the event of an oversold flight, every carrier shall request volunteers for denied boarding before using any other boarding priority. A “volunteer” is a person who responds to the carrier’s request for volunteers and who willingly accepts the carriers’ offer of compensation, in any amount, in exchange for relinquishing the confirmed reserved space. Any other passenger denied boarding is considered for purposes of this part to have been denied boarding involuntarily, even if that passenger accepts the denied boarding compensation.

(b) If an insufficient number of volunteers come forward, the carrier may deny boarding to other passengers in accordance with its boarding priority rules. However, the carrier may not deny boarding to any passenger involuntarily who was earlier asked to volunteer without having been informed.
§ 250.3 Boarding priority rules.

(a) Every carrier shall establish priority rules and criteria for determining which passengers holding confirmed reserved space shall be denied boarding on an oversold flight in the event that an insufficient number of volunteers come forward. Such rules and criteria shall reflect the obligations of the carrier set forth in §§250.2a and 250.2b to minimize involuntary denied boarding and to request volunteers, and shall be written in such manner as to be understandable and meaningful to the average passenger. Such rules and criteria shall not make, give, or cause any undue or unreasonable preference or advantage to any particular person or subject any particular person to any unjust or unreasonable prejudice or disadvantage in any respect whatsoever.

(b) [Reserved]

§ 250.5 Amount of denied boarding compensation for passengers denied boarding involuntarily.

(a) Subject to the exceptions provided in §250.6, a carrier as defined in §250.1, shall pay compensation to passengers denied boarding involuntarily from an oversold flight at the rate of 200 percent of the sum of the values of the passenger’s remaining flight coupons up to the passenger’s next stopover, or if none, to the passenger’s final destination, with a maximum of $400. However, the compensation shall be one-half the amount described above, with a $200 maximum, if the carrier arranges for comparable air transportation, or other transportation used by the passenger that, at the time either such arrangement is made, is planned to arrive at the airport of the passenger’s next stopover or if none, at the airport of the passenger’s destination, not later than 2 hours after the time the direct or connecting flight on which confirmed space is held is planned to arrive in the case of interstate air transportation, or 4 hours after such time in the case of foreign air transportation.

(b) Carriers may offer free or reduced rate air transportation in lieu of the cash due under paragraph (a) of this section, if (1) the value of the transportation benefit offered is equal to or greater than the cash payment otherwise required, and (2) the carrier informs the passenger of the amount of cash compensation that would otherwise be due and that the passenger may decline the transportation benefit and receive the cash payment.

§ 250.6 Exceptions to eligibility for denied boarding compensation.

A passenger denied boarding involuntarily from an oversold flight shall not be eligible for denied boarding compensation if:

(a) The passenger does not comply fully with the carrier’s contract of carriage or tariff provisions regarding ticketing, reconfirmation, check-in, and acceptability for transportation;

(b) The flight for which the passenger holds confirmed reserved space is unable to accommodate that passenger because of substitution of equipment of lesser capacity when required by operational or safety reasons;

(c) The passenger is offered accommodations or is seated in a section of the aircraft other than that specified on the ticket at no extra charge, except that a passenger seated in a section for which a lower fare is charged shall be entitled to an appropriate refund; or

(d) The carrier arranges comparable air transportation, or other transportation used by the passenger at no extra cost to the passenger, that at the time such arrangements are made is planned to arrive at the airport of the passenger’s next stopover or, if none, at the airport of the final destination not later than 1 hour after the planned arrival time of the passenger’s original flight or flights.

§ 250.7 Denial of boarding for failure to check in.

(a) A carrier as defined in §250.1, shall not deny boarding to a passenger denial of boarding involuntarily for failure to check in unless:

(A) The flight for which the passenger holds confirmed reserved space is unable to accommodate that passenger because of substitution of equipment of lesser capacity when required by operational or safety reasons;

(B) The carrier makes comparable air transportation or other transportation available at no extra cost to the passenger, that at the time such arrangements are made is planned to arrive at the airport of the passenger’s next stopover or, if none, at the airport of the final destination not later than 1 hour after the planned arrival time of the passenger’s original flight or flights.
§ 250.8 Denied boarding compensation.

(a) Every carrier shall tender to a passenger eligible for denied boarding compensation, on the day and place the denied boarding occurs, except as provided in paragraph (b), cash or an immediately negotiable check for the appropriate amount of compensation provided in §250.5.

(b) Where a carrier arranges, for the passenger’s convenience, alternate means of transportation that departs before the payment can be prepared and given to the passenger, tender shall be made by mail or other means within 24 hours after the time the denied boarding occurs.

[ER–1394, 49 FR 43625, Oct. 31, 1984]

§ 250.9 Written explanation of denied boarding compensation and boarding priorities.

(a) Every carrier shall furnish passengers who are denied boarding involuntarily from flights on which they hold confirmed reserved space immediately after the denied boarding occurs, a written statement explaining the terms, conditions, and limitations of denied boarding compensation, and describing the carriers’ boarding priority rules and criteria. The carrier shall also furnish the statement to any person upon request at all airport ticket selling positions which are in the charge of a person employed exclusively by the carrier, or by it jointly with another person or persons, and at all boarding locations being used by the carrier.

(b) The statement shall read as follows:

COMPENSATION FOR DENIED BOARDING

If you have been denied a reserved seat on (name of air carrier), you are probably entitled to monetary compensation. This notice explains the airline’s obligation and the passenger’s rights in the case of an oversold flight, in accordance with regulations of the U.S. Department of Transportation.

VOLUNTEERS AND BOARDING PRIORITIES

If a flight is oversold (more passengers hold confirmed reservations than there are seats available), no one may be denied boarding against his or her will until airline personnel first ask for volunteers who will give up their reservation willingly, in exchange for a payment of the airline’s choosing. If there are not enough volunteers, other passengers may be denied boarding involuntarily in accordance with the following boarding priority of (name of air carrier): (In this space carrier inserts its boarding priority rules or a summary thereof, in a manner to be understandable to the average passenger.)

COMPENSATION OF INVOLUNTARY DENIED BOARDING

If you are denied boarding involuntarily, you are entitled to a payment of “denied boarding compensation” from the airline unless:

(1) You have not fully complied with the airline’s ticketing, check-in, and reconfirmation requirements, or you are not acceptable for transportation under the airline’s usual rules and practices, or (2) you are denied boarding because the flight is canceled; or (3) you are denied boarding because a smaller capacity aircraft was substituted for safety or operational reasons; or (4) you are offered accommodations in a section of the aircraft other than specified in your ticket, at no extra charge, (a passenger seated in a section for which a lower fare is charged must be given an appropriate refund); or (5) the airline is able to place you on another flight or flights that are planned to reach your final destination within one hour of the scheduled arrival of your original flight.

AMOUNT OF DENIED BOARDING COMPENSATION

Passengers who are eligible for denied boarding compensation must be offered a payment equal to the sum of the face values of their ticket coupons, with a $200 maximum. However, if the airline cannot arrange “alternate transportation” (see below) for the passenger, the compensation is doubled ($400 maximum). The “value” of a ticket coupon is the one-way fare for the flight shown on the coupon including any surcharge and air transportation tax, minus any applicable discount. All flight coupons, including connecting flights, to the passenger’s final destination or first 4-hour stopover are used to compute the compensation.

“Alternate transportation” is air transportation (by an airline licensed by DOT) or other transportation used by the passenger which, at the time the arrangement is made, is planned to arrive at the passenger’s next scheduled stopover (of 4 hours or longer) or final destination no later than 2 hours (for flights within U.S. points, including territories and possessions) or 4 hours (for international flights) after the passenger’s originally scheduled arrival time.
METHOD OF PAYMENT

The airline must give each passenger who qualifies for denied boarding compensation a payment by cash or check for the amount specified above, on the day and place the involuntary denied boarding occurs. However, if the airline arranges alternate transportation for the passenger’s convenience that departs before the payment can be made, the payment will be sent to the passenger within 24 hours. The air carrier may offer free tickets in place of the cash payment. The passenger may, however, insist on the cash payment, or refuse all compensation and bring private legal action.

PASSENGER’S OPTIONS

Acceptance of the compensation may relieve (name of air carrier) from any further liability to the passenger caused by its failure to honor the confirmed reservation. However, the passenger may decline the payment and seek to recover damages in a court of law or in some other manner.

(Approved by the Office of Management and Budget under control number 3024-0003)

§ 250.10 Report of passengers denied confirmed space.

Every carrier shall file, on a quarterly basis, the information specified in BTS Form 251. The reporting basis shall be flights originating or terminating at, or servicing, a point within the United States. The reports are to be submitted within 30 days after the quarter covered by the report. The calendar quarters end March 31, June 30, September 30 and December 31. “Total Boardings” on line 7 of Form 251 shall include only passengers on flights for which confirmed reservations are offered. No reports need be filed for inbound international flights on which the protections of this part do not apply.

(Approved by the Office of Management and Budget under control number 2138-0018)

§ 250.11 Public disclosure of deliberate overbooking and boarding procedures.

(a) Every carrier shall cause to be displayed continuously in a conspicuous public place at each desk, station, and position in the United States which is in the charge of a person employed exclusively by it, or by it jointly with another person, or by any agent employed by such air carrier or foreign air carrier to sell tickets to passengers, a sign located so as to be clearly visible and clearly readable to the traveling public, which shall have printed thereon the following statement in boldface type at least one-fourth of an inch high:

NOTICE—OVERBOOKING OF FLIGHTS

Airline flights may be overbooked, and there is a slight chance that a seat will not be available on a flight for which a person has a confirmed reservation. If the flight is overbooked, no one will be denied a seat until airline personnel first ask for volunteers willing to give up their reservation in exchange for a payment of the airline’s choosing. If there are not enough volunteers the airline will deny boarding to other persons in accordance with its particular boarding priority. With few exceptions persons denied boarding involuntarily are entitled to compensation. The complete rules for the payment of compensation and each airline’s boarding priorities are available at all airport ticket counters and boarding locations. Some airlines do not apply these consumer protections to travel from some foreign countries, although other consumer protections may be available. Check with your airline or your travel agent.

(b) Every carrier shall include with each ticket sold in the United States the notices set forth in paragraph (a) of this section, printed in at least 12-point type. The notice may be printed on a separate piece of paper, on the ticket stock, or on the ticket envelope. The last two sentences of the notice shall be printed in a type face contrasting with that of the rest of the notice.

(c) It shall be the responsibility of each carrier to ensure that travel agents authorized to sell air transportation for that carrier comply with the notice provisions of paragraphs (a) and (b) of this section.

(d) [Reserved]

(e) Any air carrier or foreign air carrier engaged in foreign air transportation that complies fully with this part for inbound traffic to the United
Office of the Secretary, DOT

States need not use the last two sentences of the notices required by paragraph (a) of this subsection. (Approved by the Office of Management and Budget under control number 3024-0018)

PART 252—SMOKING ABOARD AIRCRAFT

§ 252.1 Purpose.

This part implements a ban on smoking of tobacco products on air carrier and foreign air carrier flights in scheduled intrastate, interstate and foreign air transportation, as required by 49 U.S.C 41706. It also addresses smoking on charter flights. Nothing in this regulation shall be deemed to require air carriers or foreign air carriers to permit the smoking of tobacco products aboard aircraft.

NOTE TO §252.1: As defined in 49 U.S.C. 40102, an “air carrier” is a citizen of the United States undertaking to provide air transportation, and a “foreign air carrier” is a person, not a citizen of the United States, undertaking to provide foreign air transportation.

§ 252.2 Applicability.

This part applies to all operations of air carriers engaged in interstate, intrastate and foreign air transportation and to foreign air carriers engaged in foreign air transportation, but does not apply to the on-demand services of air taxi operators.

§ 252.3 Smoking ban: air carriers.

Air carriers shall prohibit smoking on all scheduled passenger flights.

§ 252.5 Smoking ban: foreign air carriers.

(a) Foreign air carriers shall prohibit smoking on all scheduled passenger flight segments:

(1) Between points in the United States, and

(2) Between the U.S. and any foreign point.

(b) A foreign government objecting to the application of paragraph (a) of this section on the basis that paragraph (a)

provides for extraterritorial application of the laws of the United States may request and obtain a waiver of paragraph (a) from the Assistant Secretary of Transportation for Transportation Policy, provided that an alternative smoking prohibition resulting from bilateral negotiations is in effect.

§ 252.7 No-smoking sections.

(a) Except as provided in paragraph (b) of this section, air carriers operating nonstop flight segments to which §§252.3 and 252.13 do not apply shall provide, at a minimum:

(1) A no-smoking section for each class of service;

(2) A sufficient number of seats in each no-smoking section to accommodate all persons in that class of service who wish to be seated there;

(3) Expansion of no-smoking sections to meet passenger demand; and

(4) Special provisions to ensure that if a no-smoking section is placed between smoking sections, the non-smoking passengers are not unreasonably burdened.

(b) On flights for which passengers may make confirmed reservations and on which seats are assigned before boarding, an air carrier need not provide a seat in a no-smoking section to a passenger who has not met the carrier’s requirements as to time and method of obtaining a seat on the
§ 252.8 Extent of smoking restrictions.

The restrictions on smoking described in §§ 252.3 through 252.7 shall apply to all locations within the aircraft.

§ 252.9 Ventilation systems.

Air carriers shall prohibit smoking whenever the ventilation system is not fully functioning. Fully functioning for this purpose means operating so as to provide the level and quality of ventilation specified and designed by the manufacturer for the number of persons currently in the passenger compartment.

§ 252.11 Aircraft on the ground.

(a) Air carriers shall prohibit smoking whenever the aircraft is on the ground.

(b) With respect to the restrictions on smoking described in § 252.5, foreign air carriers shall prohibit smoking from the time an aircraft begins enplaning passengers until the time passengers complete deplaning.

§ 252.13 Small aircraft.

Air carriers shall prohibit smoking on aircraft designed to have a passenger capacity of 30 or fewer seats.

Note to § 252.13: This section, like the rest of this part, does not apply to on-demand services of air taxi operators; see § 252.2 in this part.

§ 252.15 Cigars and pipes.

Air carriers shall prohibit the smoking of cigars and pipes aboard aircraft.

§ 252.17 Enforcement.

Air carriers and foreign air carriers shall take such action as is necessary to ensure that smoking by passengers or crew is not permitted in no-smoking sections or at other times or places where smoking is prohibited by this part, and to maintain required separation of passengers in smoking and no-smoking areas.

§ 252.19 Single-entity charters.

On single-entity charters operated pursuant to §§ 207.50 or 208.300 of this title, air carriers need not comply with the procedures of this part 252 if such a request is made by the charterer, provided that each passenger on such flights is given notice of the smoking procedures for the flight at the time he or she first makes arrangements to take the flight.

PART 253—NOTICE OF TERMS OF CONTRACT OF CARRIAGE

Sec.
253.1 Purpose.
253.2 Applicability.
253.3 Definitions.
253.4 Incorporation by reference in the contract of carriage.
253.5 Notice of incorporated terms.
253.6 Explanation of incorporated terms.
253.7 Direct notice of certain terms.
253.8 Qualifications to notice requirements.

Source: ER–1302, 47 FR 52134, Nov. 19, 1982, unless otherwise noted.

§ 253.1 Purpose.

The purpose of this rule is to set uniform disclosure requirements, which preempt any State requirements on the same subject, for terms incorporated by reference into contracts of carriage for scheduled service in interstate and overseas passenger air transportation.

§ 253.2 Applicability.

This rule applies to all scheduled direct air carrier operations in interstate and overseas air transportation. It applies to all contracts with passengers, for those operations, that incorporate terms by reference.
§ 253.3 Definitions.

Large aircraft means any aircraft designed to have a maximum passenger capacity of more than 60 seats.

Passenger means any person who purchases, or who contacts a ticket office or travel agent for the purpose of purchasing, or considering the purchase of, air transportation.

Ticket office means station, office, or other location where tickets are sold that is under the charge of a person employed exclusively by the carrier, or by it jointly with another person.

§ 253.4 Incorporation by reference in the contract of carriage.

(a) A ticket or other written instrument that embodies the contract of carriage may incorporate contract terms by reference (i.e., without stating their full text), and if it does so shall contain or be accompanied by notice to the passenger as required by this part. In addition to other remedies at law, an air carrier may not claim the benefit as against the passenger of, and the passenger shall not be bound by, any contract term incorporated by reference if notice of the term has not been provided to that passenger in accordance with this part.

(b) Each air carrier shall make the full text of each term that it incorporates by reference in a contract of carriage available for public inspection at each of its airport and city ticket offices.

(c) Each air carrier shall provide free of charge by mail or other delivery service to passengers, upon their request, a copy of the full text of its terms incorporated by reference in the contract. Each carrier shall keep available at all times, free of charge, at all locations where its tickets are sold within the United States information sufficient to enable passengers to order the full text of such terms.

(The notice requirements contained in paragraphs (b) and (c) were approved by the Office of Management and Budget under control number 3024–0061)

§ 253.5 Notice of incorporated terms.

Except as provided in § 253.8, each air carrier shall include on or with a ticket, or other written instrument given to a passenger, that embodies the contract of carriage and incorporates terms by reference in that contract, a conspicuous notice that:

(a) Any terms incorporated by reference are part of the contract, passengers may inspect the full text of each term incorporated by reference at the carrier's airport or city ticket offices, and passengers have the right, upon request at any location where the carrier’s tickets are sold within the United States, to receive free of charge by mail or other delivery service the full text of each such incorporated term;

(b) The incorporated terms may include and passengers may obtain from any location where the carrier’s tickets are sold within the United States further information concerning:

(1) Limits on the air carrier’s liability for personal injury or death of passengers, and for loss, damage, or delay of goods and baggage, including fragile or perishable goods;

(2) Claim restrictions, including time periods within which passengers must file a claim or bring an action against the carrier for its acts or omissions or those of its agents;

(3) Rights of the carrier to change terms of the contract. (Rights to change the price, however, are governed by § 253.7);

(4) Rules about reconfirmation of reservations, check-in times, and refusal to carry;

(5) Rights of the carrier and limitations concerning delay or failure to perform service, including schedule changes, substitution of alternate air carrier or aircraft, and rerouting.

(Approved by the Office of Management and Budget under control number 3024–0061)
§ 253.6 Explanation of incorporated terms.
Each air carrier shall ensure that any passenger can obtain from any location where its tickets are sold within the United States a concise and immediate explanation of any terms incorporated by reference, concerning the subjects listed in §253.5(b).

(Approved by the Office of Management and Budget under control number 3024–0061)

§ 253.7 Direct notice of certain terms.
A passenger shall not be bound by any terms restricting refunds of the ticket price, imposing monetary penalties on passengers, or permitting the carrier to raise the price, unless the passenger receives conspicuous written notice of the salient features of those terms on or with the ticket.

(Approved by the Office of Management and Budget under control number 3024–0061)

§ 253.8 Qualifications to notice requirements.
(a) If notice is not provided in accordance with §253.5 at a ticket sales location outside of the United States that is not a U.S. air carrier ticket office, the price paid for the portion of such ticket that is for interstate and overseas air transportation shall be refundable without penalty if the passenger refuses transportation by the carrier. Each air carrier shall ensure that passengers who have bought tickets at those locations without the notice required in §253.5 are given that notice not later than check-in for the travel in interstate or overseas air transportation, and that conspicuous notice is included on or with the ticket stating that the price for that travel is refundable without penalty.

(b) An air taxi operator (including a commuter air carrier) not operating under subpart I of part 298 of this chapter shall not be considered to have incorporated terms by reference into its contract of carriage merely because a passenger has purchased a flight segment on that carrier that appears on ticket stock that contains a statement that terms have been incorporated by reference.

In any flight segment using large aircraft, or on any flight segment that is included on the same ticket as another flight segment that uses large aircraft, an air carrier shall provide to passengers, by conspicuous written material included on or with its ticket, either:  
(a) Notice of any monetary limitation on its baggage liability to passengers; or  
(b) The following notice: “Federal rules require any limit on an airline’s baggage liability to be at least $3,000 per passenger.”

§ 254.6  Periodic adjustments.  
The Department of Transportation will review the minimum limit of liability prescribed in this part every two years. The Department will use the Consumer Price Index for All Urban Consumers as of July of each review year to calculate the revised minimum liability amount. The Department will use the following formula:  
\[ \text{Amount} = \frac{2500 \times (a/b)}{100} \]  
where:  
a = July CPI-U of year of current adjustment  
b = Most current CPI-U figure when final rule is issued.

255.4  Display of information.  
255.5  Contracts with participating carriers.  
255.6  Exceptions.  
255.7  Prohibition against carrier bias.

AUTHORITY: 49 U.S.C. 40101, 40102, 40105, 40113, 41712.

SOURCE: 69 FR 1032, Jan. 7, 2004, unless otherwise noted.

§ 255.1  Purpose.  
(a) The purpose of this part is to set forth requirements for the operation of computer reservations systems used by travel agents and certain related air carrier distribution practices so as to prevent unfair, deceptive, predatory, and anticompetitive practices in air transportation and the sale of air transportation.  
(b) Nothing in this part operates to exempt any person from the operation of the antitrust laws set forth in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12).

§ 255.2  Applicability.  
This part applies to firms that operate computerized reservations systems for travel agents in the United States, and to the sale in the United States of interstate, overseas, and foreign air transportation through such systems.

§ 255.3  Definitions.  
Availability means information provided in displays with respect to the seats a carrier holds out as available for sale on a particular flight.  
Carrier means any air carrier, any foreign air carrier, and any commuter air carrier, as defined in 49 U.S.C. 40102(3), 49 U.S.C. 40102(22), and 14 CFR 298.2(f), respectively, that is engaged directly in the operation of aircraft in passenger air transportation.  
Display means the system’s presentation of carrier schedules, fares, rules or availability to a subscriber by means of a computer terminal.  
Integrated display means any display that includes the schedules, fares, rules, or availability of all or a significant proportion of the system’s participating carriers.  
On-time performance code means a single-character code supplied by a carrier to the system in accordance with the provisions of 14 CFR Part 234 that reflects the monthly on-time performance history of a nonstop flight or one-stop or multi-stop single plane operation held out by the carrier in a CRS.  
Participating carrier means a carrier that has an agreement with a system for display of its schedules, fares, or
seat availability, or for the making of reservations or issuance of tickets through a system.

**Subscriber** means a ticket agent, as defined in 49 U.S.C. 40102(40), that holds itself out as a source of information about, or reservations for, the air transportation industry and that uses a system.

**System** means a computerized reservations system offered to subscribers for use in the United States that contains information about schedules, fares, rules or availability of carriers and provides subscribers with the ability to make reservations, if it charges any carrier a fee for system services. It does not mean direct connections between a ticket agent and the internal reservations systems of individual carriers.

§ 255.4 Display of information.

(a) All systems shall provide at least one integrated display that includes the schedules, fares, rules, and availability of all participating carriers in accordance with the provisions of this section. This display shall be at least as useful for subscribers, in terms of functions or enhancements offered and the ease with which such functions or enhancements can be performed or implemented, as any other displays maintained by the system vendor. No system shall make available to subscribers any integrated display unless that display complies with the requirements of this section.

(1) Each system must offer an integrated display that uses the same editing and ranking criteria for both online and interline connections. This display shall be at least as useful for subscribers, in terms of functions or enhancements offered and the ease with which such functions or enhancements can be performed or implemented, as any other displays maintained by the system vendor. No system shall make available to subscribers any integrated display unless that display complies with the requirements of this section.

(b) In ordering the information contained in an integrated display, systems shall not use any factors directly or indirectly relating to carrier identity.

(1) Systems may order the display of information on the basis of any service criteria that do not reflect carrier identity and that are consistently applied to all carriers and to all markets.

(2) When a flight involves a change of aircraft at a point before the final destination, the display shall indicate that passengers on the flight will change from one aircraft to another.

(3) Each system shall provide to any person upon request the current criteria used in editing and ordering flights for the integrated displays and the weight given to each criterion and the specifications used by the system’s programmers in constructing the algorithm.

(c) Systems shall not use any factors directly or indirectly relating to carrier identity in constructing the display of connecting flights in an integrated display.

(1) Systems shall select the connecting points (and double connect points) to be used in the construction of connecting flights for each city pair on the basis of service criteria that do not reflect carrier identity and that are applied consistently to all carriers and to all markets.

(2) Systems shall select connecting flights for inclusion (“edit”) on the basis of service criteria that do not reflect carrier identity and that are applied consistently to all carriers.

(3) Systems shall provide to any person upon request current information on:

(i) All connecting points and double connect points used for each market;

(ii) All criteria used to select connecting points and double connect points;

(iii) All criteria used to “edit” connecting flights; and

(iv) The weight given to each criterion in paragraphs (c)(3)(i), (ii) and (iii) of this section.

(4) Participating carriers shall be entitled to request that a system use up to five connect points (and double connect points) in constructing connecting flights for the display of service in a
market. The system may require participating carriers to use specified procedures for such requests, but no such procedures may be unreasonably burdensome, and any procedures required of participating carriers must be applied without unreasonable discrimination between participating airlines.

(5) When a system selects connecting points and double connect points for use in constructing connecting flights it shall use at least fifteen points and six double connect points for each city-pair, except that a system may select fewer such connect or double connect points for a city-pair where:

(i) Fewer than fifteen connecting points and six double connect points meet the service criteria described in paragraph (c)(1) of this section; and

(ii) The system has used all the points that meet those criteria, along with all additional connecting points and double connect points requested by participating carriers.

(6) If a system selects connecting points and double connect points for use in constructing connecting flights it shall use every point requested by a participating carrier up to the maximum number of points that the system can use. The system may use fewer than all the connect points requested by participating carriers to the extent that:

(i) Points requested by participating carriers do not meet the service criteria described in paragraph (c)(1) of this section; and

(ii) The system has used all the points that meet those criteria.

(d) Each system shall apply the same standards of care and timeliness to loading information concerning every participating carrier. Each system shall display accurately information submitted by participating carriers. Each system shall provide to any person upon request all current data base update procedures and data formats.

(e) Systems shall use or display information concerning on-time performance of flights as follows:

(1) Within 10 days after receiving the information from participating carriers or third parties, each system shall include in all integrated schedule and availability displays the on-time performance code for each nonstop flight segment and one-stop or multi-stop single plane flight, for which a participating carrier provides a code.

(2) A system shall not use on-time flight performance as a ranking factor in ordering information contained in an integrated display.

(f) Each participating carrier shall ensure that complete and accurate information is provided each system in a form such that the system is able to display its flights in accordance with this section.

(g) A system may make available to subscribers the internal reservations system display of a participating carrier, provided that a subscriber and its employees may see any such display only by requesting it for a specific transaction.

§ 255.5 Contracts with participating carriers.

(a) No system may require a carrier to maintain any particular level of participation or buy any enhancements in its system on the basis of participation levels or enhancements selected by that carrier in any other foreign or domestic computerized reservations system, as a condition to participation in the system.

(b) No system may require any carrier as a condition to participation to provide it with fares that the carrier has chosen not to sell through that system.

§ 255.6 Exceptions.

The obligations of a system under §255.4 shall not apply with respect to a carrier that refuses to enter into and comply with a participating airline contract with that system.

§ 255.7 Prohibition against Carrier Bias.

No carrier may induce or attempt to induce a system to create a display that would not comply with the requirements of §255.4.

§ 255.8 Sunset Date.

Unless extended by a document published in the Federal Register, these rules shall terminate on July 31, 2004.

PART 256 [RESERVED]
PART 257—DISCLOSURE OF CODE-SHARING ARRANGEMENTS AND LONG-TERM WET LEASES

§ 257.1 Purpose.
The purpose of this part is to ensure that ticket agents doing business in the United States, air carriers, and foreign air carriers tell consumers clearly when the air transportation they are buying or considering buying involves a code-sharing arrangement or a long-term wet lease, and that they disclose to consumers the transporting carrier’s identity.

§ 257.2 Applicability.
This part applies to the following:
(a) Direct air carriers and foreign air carriers that participate in code-sharing arrangements or long-term wet leases involving scheduled passenger air transportation; and
(b) Ticket agents doing business in the United States that sell scheduled passenger air transportation services involving code-sharing arrangements or long-term wet leases.

§ 257.3 Definitions.
As used in this part:
(a) Air transportation means foreign air transportation or interstate air transportation as defined in 49 U.S.C. 40102 (a)(23) and (25) respectively.
(b) Carrier means any air carrier or foreign air carrier as defined in 49 U.S.C. 40102(2) or 49 U.S.C. 40102(21), respectively, that is engaged directly in scheduled passenger air transportation, including by wet lease.
(c) Code-sharing arrangement means an arrangement whereby a carrier’s designator code is used to identify a flight operated by another carrier.
(d) Designator code means the airline designations originally allotted and administered pursuant to Agreements CAB 24606 and 26056.
(e) Long-term wet lease means a lease by which the lessor provides both an aircraft and crew dedicated to a particular route(s), and which either:
(1) Lasts more than 60 days; or
(2) Is part of a series of such leases that amounts to a continuing arrangement lasting more than 60 days.
(f) Ticket agent has the meaning ascribed to it in 49 U.S.C. 40102(40).
(g) Transporting carrier means the carrier that is operating the aircraft in a code-sharing arrangement or long-term wet lease.

§ 257.4 Unfair and deceptive practice.
The holding out or sale of scheduled passenger air transportation involving a code-sharing arrangement or long-term wet lease is prohibited as unfair and deceptive in violation of 49 U.S.C. 41712 unless, in conjunction with such holding out or sale, carriers and ticket agents follow the requirements of this part.

§ 257.5 Notice requirement.

(a) Notice in schedules. In written or electronic schedule information provided by carriers in the United States to the public, the Official Airline Guides and comparable publications, and, where applicable, computer reservations systems, carriers involved in code-sharing arrangements or long-term wet leases shall ensure that each flight in scheduled passenger air transportation on which the designator code is not that of the transporting carrier is identified by an asterisk or other easily identifiable mark and that the corporate name of the transporting carrier and any other name under which that service is held out to the public is also disclosed.

(b) Oral notice to prospective consumers. In any direct oral communication in the United States with a prospective consumer in any telephone calls placed from the United States concerning a flight that is part of a code-sharing arrangement or long-term wet lease, a ticket agent doing business in the United States or a carrier shall tell the consumer, before booking transportation, that the transporting carrier is not the carrier whose
designator code will appear on the ticket and shall identify the transporting carrier by its corporate name and any other name under which that service is held out to the public.

(c) Written notice. Except as specified in paragraph (c)(3) of this section, at the time of purchase, each selling carrier or ticket agent shall provide each consumer of scheduled passenger air transportation sold in the United States that involves a code-sharing arrangement or long-term wet lease with the following notice:

(1) If an itinerary is issued, there shall appear in conjunction with the listing of any flight segment on which the designator code is not that of the transporting carrier a legend that states ‘‘Operated by’’ followed by the corporate name of the transporting carrier and any other name in which that service is held out to the public. In the case of single-flight-number service involving a segment or segments on which the designator code is not that of the transporting carrier, the notice shall clearly identify the segment or segments and the transporting carrier by its corporate name and any other name in which that service is held out to the public. The following form of statement will satisfy the requirement of this paragraph (c)(1):

IMPORTANT NOTICE: Service between XYZ City and ABC City will be operated by Jane Doe Airlines d/b/a QRS Express.

(2) If no itinerary is issued, the selling carrier or ticket agent shall provide a separate written notice that clearly identifies the transporting carrier by its corporate name and any other name under which that service is held out to the public for any flight segment on which the designator code is not that of the transporting carrier. The following form of notice will satisfy the requirement of this paragraph (c)(2):

IMPORTANT NOTICE: Service between XYZ City and ABC City will be operated by Jane Doe Airlines d/b/a QRS Express.

(3) If transportation is purchased far enough in advance of travel to allow for advance delivery of the ticket by mail or otherwise, the written notice required by this part shall be delivered in advance along with the ticket. If time does not allow for advance delivery of the ticket, or in the case of ticketless travel, the written notice required by this part shall be provided no later than the time that they check in at the airport for the first flight in their itinerary.

(4) At the purchaser’s request, the notice required by this part may be delivered in person or by telecopier, electronic mail, or any other reliable method of transmitting written material.

(d) In any printed advertisement published in or mailed to or from the United States (including those published through the Internet) for service in a city-pair market that is provided under a code-sharing arrangement or long-term wet lease, the advertisement shall prominently disclose that the advertised service may involve travel on another carrier and clearly indicate the nature of the service in reasonably sized type and shall identify all potential transporting carriers involved in the market being advertised by corporate name and by any other name under which that service is held out to the public. In any radio or television advertisement broadcast in the United States for service in a city-pair market that is provided under a code-sharing or long-term wet lease, the advertisement shall include at least a generic disclosure statement, such as ‘‘Some services are provided by other airlines.’’

§257.6 Effective and compliance dates.

(a) This Part is effective as of August 25, 1999.

(b) Compliance with the following sections is mandatory as of August 25, 1999:

(1) §257.1, §257.2, §257.3, §257.4, §257.5(d), and §257.6.

(2) §257.5(b) to the extent that it requires sellers of air transportation to give consumers oral notice before booking transportation involving a code-share arrangement.

(1) Of the fact that the selling carrier is not the transporting carrier and
(ii) Of the transporting carrier’s identity (as shown by its two-letter designator code in CRS displays).

(c) Compliance with the following sections is mandatory as of March 15, 2000:
(1) § 257.5(a) and § 257.5(c) in their entirety.
(2) § 257.5(b) insofar as it requires sellers of air transportation to give consumers
(i) Oral notice before booking transportation involving a code-share arrangement of the transporting carrier’s corporate name and any other name under which the service is held out to the public and
(ii) The same disclosures for long-term wet leases as for code-sharing arrangements.

§ 258.1 Purpose.
The purpose of this part is to ensure that consumers are adequately informed before they book air transportation or embark on travel involving change-of-gauge services that these services require a change of aircraft en route.

§ 258.2 Applicability.
This part applies to the following:
(a) Direct air carriers and foreign air carriers that sell or issue tickets in the United States for scheduled passenger air transportation on change-of-gauge services or that operate such transportation; and

PART 271—GUIDELINES FOR SUBSIDIZING AIR CARRIERS PROVIDING ESSENTIAL AIR TRANSPORTATION

Sec. 271.1 Purpose.

271.2 Definitions.

271.3 Carrier subsidy need.

271.4 Carrier costs.

271.5 Carrier revenues.

271.6 Profit element.

271.7 Subsidy payout formula.

271.8 Rate period.

271.9 Discrimination prohibited.

SOURCE: ER–1398, 49 FR 49846, Dec. 24, 1984, unless otherwise noted.

§ 271.1 Purpose.

This part establishes the guidelines required by 49 U.S.C. 41736 to be used by the Department in establishing the fair and reasonable amount of compensation needed to ensure the continuation of essential air service to an eligible place under 49 U.S.C. 41731 and 41734. These guidelines are intended to cover normal carrier selection cases and rate renewal cases, and not necessarily emergency carrier selection cases.

[60 FR 43524, Aug. 22, 1995]

§ 271.2 Definitions.

As used in this part:

Eligible place means a place in the United States that—

(1) Was an eligible point under section 419 of the Federal Aviation Act of 1958 as in effect before October 1, 1988;

(2) Received scheduled air transportation at any time between January 1, 1990, and November 4, 1990; and

(3) Is not listed in Department of Transportation Orders 89–9–37 and 89–12–52 as a place ineligible for compensation under Subchapter II of Chapter 417 of the Statute.

Essential air service is that air transportation which the Department has found to be essential under Subchapter II of Chapter 417 of the Statute.

[60 FR 43524, Aug. 22, 1995]

§ 271.3 Carrier subsidy need.

In establishing the subsidy for an air carrier providing essential air service at an eligible place, the Department will consider the following:

(a) The reasonable projected costs of a carrier in serving that place;

(b) The carrier’s reasonable projected revenues for serving that place;

(c) The appropriate size of aircraft for providing essential air service at that place; and

(d) A reasonable profit for a carrier serving that place.

§ 271.4 Carrier costs.

(a) The reasonable costs projected for a carrier providing essential air service at an eligible place will be evaluated:

(1) For costs attributable to the carrier’s flying operations (direct expenses), by comparing the projected costs submitted by the carrier with the following:

(i) The carrier’s historical direct operating costs with the same or similar aircraft types;

(ii) The direct operating unit costs of similar carriers using the same or similar equipment; and
§ 271.5Carrier revenues.

(a) The projected passenger revenue for a carrier providing essential air service at an eligible place will be calculated by multiplying the following:

(i) A reasonable projected net fare, which is the standard fare expected to be charged for service between the eligible place and the designated hub less any dilution caused by joint fare arrangements, discount fares that it offers, or prorates of fares for through one-line passengers; and

(ii) The traffic (including both local and beyond traffic) projected to flow between the eligible place and the designated hub or hubs, which is based on the carrier’s own estimates, Department estimates, and on traffic levels in the market at issue when such data are available.

(b) The reasonableness of a carrier’s passenger revenue projections will be evaluated by:

(1) Comparing the carrier’s proposed fare with the fare charged in other city-pair markets of similar distances and traffic densities; and

(2) Comparing the carrier’s proposed pricing structure with historical pricing practices in the market at issue, with the pricing practices of that carrier in other markets, and with any standard industry pricing guidelines that may be available.

(c) An estimate of freight and other transport-related revenue will be included as a component of projected revenues and will be based on recent experience in the market involved and on the experience of the carrier involved in other markets.

§ 271.6Profit element.

The reasonable return for a carrier for providing essential air service at an eligible place generally will be set at a flat percentage, typically 5 percent of that carrier’s projected operating costs as established under §271.4, plus any applicable interest expenses on flight equipment.

§ 271.7Subsidy payout formula.

(a) Subsidy will be paid by the Department to the air carrier monthly, based on the subsidy rate established by the Department for the carrier under this part. Payments will not vary except as provided in this section.

(b) While a carrier’s subsidy rate will not vary even if actual revenues or
costs differ from projections, the actual amount of each payment may vary depending on the following factors:

(1) Seasonal characteristics of the carrier's operations at the eligible place;
(2) The actual number of flights completed, aircraft miles flown, available seat-miles flown, or variations in other operational elements upon which the subsidy rate is based; or
(3) Adjustments to the carrier's subsidy required by §271.8(b).

(c) Payments will continue for the duration of the rate term established under §271.8 provided that the carrier continues to provide the required service.

§271.8 Rate period.

(a) The subsidy rate generally will be set for a 2-year period, or two consecutive 1-year periods. The Department may set the rate for a shorter period in the following situations:

(1) A commuter air carrier is replacing a larger certificated carrier at the eligible place;
(2) Traffic at the eligible place has substantially decreased;
(3) The Department considers the cost or revenue projections of the carrier for the second year to be unrealistic;
(4) It is likely that there will be changes in the eligible place essential air service level; or
(5) The uncertainties of the market or other circumstances warrant a shorter rate period.

(b) The subsidy rate established for a carrier under this part will not be changed during the rate period unless an adjustment is required in the public interest.

(c) At the end of the rate period, the carrier will not have a continuing right to receive subsidy for providing essential air service at the eligible place.

§271.9 Discrimination prohibited.

(a) All air carriers receiving subsidy under this part shall comply with the following:

(1) The Age Discrimination Act of 1975;
(2) The Civil Rights Act of 1964 and 49 CFR part 21; and
(3) The Rehabilitation Act of 1973, 49 CFR part 27, and part 382 of this chapter.

(b) Within 1 year after it first receives a subsidy under this part, the carrier shall evaluate its practices and procedures for accommodating the handicapped in accordance with §382.23 of this chapter.

(c) All air carriers seeking a subsidy under this part shall include in their subsidy application the assurances required by 49 CFR parts 20, 21, 27 and 29, and §382.21 of this chapter.

§ 272.2 Palau (the Freely Associated States) provides, among other things, for the Department of Transportation (Department), as successor to the Civil Aeronautics Board (Board), to guarantee essential air service, with compensation if necessary, to certain places in these islands. Subparagraph 5(h) of the Agreement provides that the Department shall adopt rules to implement the provisions of paragraph 5 as it in its discretion deems appropriate. Section 221(a)(5) of the Compact, which was adopted by Congress as public laws (Pub. L. 99–239, Jan. 14, 1986; Pub. L. 99–658, Nov. 14, 1986), provides that the Department (as successor to the Board) has the authority to implement the provisions of paragraph 5 of the Agreement. This part implements these provisions of paragraph 5.

§ 272.3 Places eligible for guaranteed essential air service.

(a) Subject to the provisions of this part, and paragraph 5 of Article IX of the Federal Programs and Services Agreement, the Department will make provision for the operation of essential air service, with compensation if necessary, to the following places in the Freely Associated States:

In the Federated States of Micronesia:

- Ponape, Truk and Yap.

In the Marshall Islands:

- Majuro and Kwajalein.

In Palau:

- Koror.

(b) The places specified herein in the Federated States of Micronesia, the Marshall Islands or Palau, respectively, shall cease to be eligible places under this part if any of those Governments withdraw from the subsidy provisions of Article IX of the Federal Programs and Services Agreement in accordance with paragraph 8 of Article IX or Article XII of that Agreement.

§ 272.4 Applicability of procedures and policies under 49 U.S.C. 41731–42.

Since the authority of the Department to guarantee essential air service is derived from the Federal Programs and Services Agreement and the Compact of Free Association, the provisions and procedures utilized by the Department in implementation of 49 U.S.C. 41731–42 will be followed only to the extent determined by the Department to be consistent with the obligations assumed by the United States in the Agreement and Compact, and the provisions of this part.

§ 272.5 Determination of essential air service.

Procedures for the determination of essential air service under this section, and review of that determination, shall, except to the extent otherwise directed by the Department, be governed by §325.4 (except the application of 49 U.S.C. 41737 in §325.4(b)); §325.6(a); §§325.8–325.11; §325.12 (provided that all documents shall be served on the President and the designated authorities of the Freely Associated State concerned); and §§325.13 and 325.14 of this chapter.

§ 272.6 Considerations in the determination of essential air service.

(a) In the determination of essential air service to an eligible Freely Associated State place, the Department shall consider, among other factors, the following:

1. The demonstrated level of traffic demand;
2. The amount of compensation necessary to maintain a level of service sufficient to meet that demand;
3. The extent to which the demand may be accommodated by connecting
§ 272.8
Obligation to continue service.

(a) If the Department finds that a proposed termination, suspension, or reduction in service by an air carrier or Freely Associated State Air Carrier will, or may, reduce service to an eligible Freely Associated State place below the level of essential air service to such place, whether or not the Department has previously determined the level of essential air service to such place, the Department may direct the air carrier or Freely Associated State Air Carrier concerned to maintain service to such place at a level the Department determines will ensure essential air service to such place, pending the commencement of alternative service as required to maintain the level of essential air service previously, or thereafter, determined by the Department.

(b) During any period the Department requires an air carrier or Freely Associated State Air Carrier to maintain a level of service proposed to be terminated, suspended or reduced, following the filing of a 90 day notice in accordance with § 272.7, the Department will provide for the payment of compensation to such carrier for any losses incurred by that carrier as a result of such required continuation of service in accordance with the procedures set forth in part 271 of this chapter. If the carrier is already receiving compensation pursuant to § 272.9 of this part, the Department will continue to direct payment of such compensation during any period the carrier is required to maintain service. Such payments shall be made by the Department of Interior from funds appropriated for this purpose.

(c) The Department will review its order from time to time and will revise

§ 272.9 Selection of a carrier to provide essential air service and payment of compensation.

(a) If the Department finds that essential air service will not be maintained to an eligible Freely Associated State place, the Department shall invite applications to provide the service required to maintain essential air service to such place.

(b) If the Department determines that essential air service will not be provided to such place in the absence of the payment of subsidy compensation to a carrier or carriers, the Department shall determine the compensation necessary, considering all other service to such place in accordance with §272.6(a)(3), to maintain the level of essential air service determined by the Department under §272.5, and the times and manner of the payment of such compensation.

(c) The compensation determined by the Department to be necessary to maintain essential air service to such place shall be paid by the Department of Interior out of funds appropriated for that purpose, to the carrier or carriers selected by the Department.

(d) The Department shall continue to specify compensation to be paid to a carrier or carriers under this section only as long as the Department determines that essential air service will not be provided to the Freely Associated State in the absence of the payment of such compensation.

(e) Except as permitted in paragraph (f) of this section, the Department shall select a U.S. air carrier or carriers to provide essential air service for compensation.

(f) The Department may select a Freely Associated State Air Carrier, holding a foreign air carrier permit issued in accordance with subpart D of part 211 of this chapter, to provide essential air service for compensation, only if—

(1) No U.S. air carrier is available to provide the required essential air service; or

(2) The compensation necessary for the provision of the required essential air service would be substantially less than the compensation necessary if such essential air service were to be provided by a U.S. air carrier.

(g) Any order of the Department selecting a Freely Associated State Air Carrier to provide such essential air service shall be submitted to the President of the United States not less than 10 days prior to its effective date and shall be subject to stay or disapproval by the President.

(h) Among the criteria that will be considered by the Department in its determination of the carrier or carriers to be selected to perform the required essential air service are:

(1) The desirability of developing an integrated linear system of air transportation whenever such a system most adequately meets the air transportation needs of the Freely Associated States concerned;

(2) The experience of the applicant in providing scheduled air service in the vicinity of the Freely Associated States for which essential air service is proposed to be provided;

(3) The amount of compensation that will be required to provide the proposed essential air service;

(4) The impact of the proposed service on service provided to other Freely Associated State points; and

(5) The views of the Governments of the Freely Associated States concerned.

(i) The Department may from time to time, on its own motion, or upon application of any carrier or government, review and change its selection of a carrier to provide essential air service, or its determination as to the compensation necessary to provide such essential air service.
Office of the Secretary, DOT

(j) All applications or other documents filed or issued in proceedings under this section shall be served upon the President of the Freely Associated State concerned and the Authorities designated by that Government(s) in accordance with Article II, paragraph 10, of the Federal Programs and Services Agreement supplemental to the Compact of Free Association, and such Government shall be a party to any such proceeding. In reaching its determination, the Department will carefully consider any views of such Government that have been submitted.

§ 272.10 Conditions applicable to carriers serving a subsidized market.

(a) The Department may, after providing an opportunity for comment by the carrier or carriers affected, impose service, fare or rate conditions on any U.S., Freely Associated State, foreign air carrier, or foreign carrier by air as a precondition to the payment of compensation necessary to maintain essential air service, whether or not the affected carrier is itself receiving subsidy compensation in the market, if it finds that:

(1) Essential air service in a Freely Associated State market or markets will not be provided in the absence of the payment of compensation;

(2) Specified service, rate or fare conditions are or will be necessary or desirable to minimize the required subsidy compensation; and

(3) The imposition of such conditions will not unduly impair the service provided in the market.

(b) To the extent the carrier or carriers upon whom the conditions are imposed pursuant to paragraph (a) of this section do not hold a certificate, permit, or other authority from the Department that may be amended to effectively implement the specified conditions, the Department may notify the Government(s) of the Freely Associated States concerned that the imposition of such conditions on those carriers by those Governments shall be a precondition to the payment of the subsidy compensation required to maintain essential air service in the market in question.

(c) The Department may withhold or suspend its provision for the payment of subsidy compensation required to maintain essential air service unless and until the Freely Associated State(s) concerned take the necessary action to impose the specified conditions on the carriers referred to in paragraph (b) of this section, and those carriers have complied with the specified conditions.

(d) Any order of the Department imposing conditions, or requiring the imposition of conditions, pursuant to this paragraph shall be submitted to the President for review not less than 10 days prior to its effective date, and shall be subject to stay or disapproval by the President.

§ 272.11 Effective date of provisions.

The provisions of this part shall not become effective for Palau until the Compact of Free Association and Article IX of the Federal Programs and Services Agreement become effective for Palau.

§ 272.12 Termination.

These provisions shall terminate on October 1, 1998, unless the program of essential air service to the Federated States of Micronesia, the Marshall Islands, and Palau is specifically extended by Congress.

This amendment is issued under the authority of 49 CFR 1.57(l).

Subpart A — General

§ 291.1 Applicability.

This part applies to cargo operations in interstate air transportation by air carriers certificated under section 41102 or 41103 of the Statute. It also applies to applicants for an all-cargo air transportation certificate under section 41103 of the Statute.

(60 FR 3532, Aug. 22, 1995)

§ 291.2 Definitions.

All-cargo air transportation means the transportation by aircraft in interstate air transportation of only property or only mail, or both.

Interstate air transportation means the transportation of passengers or property by aircraft as a common carrier for compensation, or the transportation of mail by aircraft—

(1) Between a place in—

(i) A State, territory, or possession of the United States and a place in the District of Columbia or another State, territory, or possession of the United States;

(ii) Hawaii and another place in Hawaii through the airspace over a place outside Hawaii;

(iii) The District of Columbia and another place in the District of Columbia; or

(iv) A territory or possession of the United States and another place in the same territory or possession; and

(2) When any part of the transportation is by aircraft.

Reporting carrier for Schedule T–100 purposes means the air carrier in operational control of the aircraft, i.e., the carrier that uses its flight crew under its own FAA operating authority.

Section 41102 carrier means an air carrier certificated under section 41102 of the Statute to transport persons, property and mail or property and mail only.

Section 41103 carrier means an air carrier holding a certificate issued under section 41103 of the Statute to provide all-cargo air transportation.

Service, scheduled cargo means transport service operated pursuant to published flight schedules including extra sections. There is no requirement on the number of weekly flights nor is there a requirement that the schedule be published in the Official Airline Guide.

Wet-Lease Agreement means an agreement under which one carrier leases an aircraft with flight crew to another air carrier.

Subpart B — All-Cargo Air Transportation Certificates

§ 291.10 Applications.

Applications for all-cargo air service certificates shall comply with the provisions of part 201 and subpart B of part 302 of this chapter with regard to filing procedures, and with the provisions of

§ 291.30

Subpart C—General Rules for All-Cargo Air Transportation

§ 291.20 Applicability.

The rules in this subpart apply to cargo operations in interstate air transportation performed by air carriers certificated under sections 41102 or 41103 of the Statute. Section 41103 carriers that operate passenger-only or combination aircraft under section 41102, part 298 of this chapter, or other Department authority, must comply with the rules in this subpart in connection with cargo operations in interstate air transportation, whether provided on all-cargo or combination aircraft, operated pursuant to this authority or otherwise. In case a carrier may operate a particular flight under either a section 41102 certificate or a section 41103 certificate, the flight is presumed to be operated under the carrier’s section 41103 authority.

(60 FR 43526, Aug. 22, 1995)

§ 291.22 Aircraft accident liability insurance requirement.

No air carrier shall operate all-cargo aircraft or provide all-cargo air transportation unless such carrier has and maintains in effect aircraft accident liability coverage that meets the requirements of part 203 of this chapter.

§ 291.23 Record retention.

(a) The provisions of 14 CFR part 249, Preservation of air carrier accounts, records and memoranda, shall apply to all carriers, except that records pertaining to transportation provided on aircraft eligible to be operated under part 298 of this title, and records concerning transportation outside the geographic scope of interstate air transportation, need not be maintained unless required by other Department regulations.

(b) Each carrier shall retain for 1 year a copy of each rate sheet, airwaybill contract, and other document reflecting changed, new, or other previously unreported general or special prices or rules governing the carriage of freight in interstate air transportation (except mail), unless the transportation was performed in accordance with an effective tariff on file with the Department. Each carrier shall retain for 1 year a copy of any formula based on standard weight, mileage, or other method used to determine an individual airbill or contract.

(Approved by the Office of Management and Budget under control number 3024–0022)

§ 291.31 Exemptions from the Statute.

(a) Each section 41102 or 41103 air carrier providing cargo operations in interstate air transportation is, with respect to such transportation, exempted from the following portions of the Statute only if and so long as it complies with the provisions of this part and the conditions imposed hereinafter, and to the extent necessary to permit it to conduct cargo operations in interstate air transportation:

1. Sections 41310, 41705,
2. Chapter 415, and
3. Chapter 419 for all-cargo operations under section 41103.

(b) Each air carrier providing cargo operations in interstate air transportation under section 41103 of the Statute is exempted from the provisions of section 41106(a) of the Statute to the extent necessary to permit it to compete for and operate cargo charters in interstate air transportation for the Department of Defense under contracts of more than 30 days' duration.

(c) The Department of Defense is exempted from section 41106(a) of the Statute to the extent necessary to permit it to negotiate and enter into contracts of more than 30 days' duration with any section 41103 carrier for operation of cargo charters in interstate air transportation.

(c) Summary of traffic and capacity statistics. This summary shall include the following elements:

(1) Total revenue ton-miles, which are the aircraft miles flown on each flight stage times the number of tons of revenue traffic carried on that stage. They shall be categorized as follows:
   (i) Property; and
   (ii) Mail.

(2) Revenue tons enplaned, reflecting the total revenue tons of cargo loaded on aircraft during the annual period;

   (2) Transport revenues from the carriage of mail in scheduled and nonscheduled service; and
   (3) Transport-related revenues;

(b) Total operating expenses;

(c) Operating profit or loss, computed by subtracting the total operating expenses from the total operating revenues; and

(d) Net income, computed by subtracting the total operating and nonoperating expenses, including interest expenses and income taxes, from the total operating and nonoperating revenues.

§ 291.44 BTS Schedule P–12(a), Fuel Consumption by Type of Service and Entity.

(a) For the purposes of BTS schedule P–12(a), type of service shall be either scheduled service or nonscheduled service as those terms are defined in §291.45(c)(2) and (3).

(b) For the purpose of this schedule, scheduled service shall be reported separately for:
   (1) Intra-Alaskan operations;
   (2) Domestic operations, which shall include all operations within and between the 50 States of the United States (except Intra-Alaska), the District of Columbia, the Commonwealth of Puerto Rico and the United States Virgin Islands, or a U.S. territory or possession to a place in any State of the United States the District of Columbia, the Commonwealth of Puerto Rico and the United States Virgin Islands, or a U.S. territory or possession;
   (3) International operations are flight stages with one or both terminals outside the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the United States Virgin Islands, or a U.S. territory or possession.

(c) For the purpose of this schedule, nonscheduled service shall be reported separately for domestic operations and international operations as defined in paragraphs (b)(2) and (b)(3) of this section, except that domestic and international Military Airlift Command (MAC) operations shall be reported on separate lines.

(d) The cost data reported on each line shall represent the average cost of fuel, as determined at the station level, consumed in that geographic entity.

(e)(1) The cost of fuel shall include shrinkage, but excludes:
   (i) “Throughput” and “in to plane” fees, i.e., service charges or gallonage...
levies assessed by or against the fuel vendor or concessionaire and passed on to the carrier in a separately identifiable form; and

(ii) Nonrefundable Federal and State excise taxes.

(2) However, “through-put” and “in to plane” charges that cannot be identified or segregated from the cost of fuel shall remain a part of the cost of fuel as reported on this schedule.

(f) Each air carrier shall maintain records for each station showing the computation of fuel inventories and consumption for each fuel type. The periodic average cost method shall be used in computing fuel inventories and consumption. Under this method, an average unit cost for each fuel type shall be computed by dividing the total cost of fuel available (Beginning Inventory plus Purchases) by the total gallons available. The resulting unit cost shall then be used to determine the ending inventory and the total consumption costs to be reported on this schedule.

(g) Where amounts reported for a specific entity include other than Jet A fuel, a footnote shall be added indicating the number of gallons and applicable costs of such other fuel included in amounts reported for that entity.

(h) Where any adjustment(s) recorded on the books of the carrier results in a material distortion of the current month’s schedule, carriers shall file a revised Schedule P-12(a) for the month(s) affected.

§ 291.45 BTS Schedule T-100, U.S. Air Carrier Traffic and Capacity Data by Nonstop Segment and On-Flight Market.

(a) Each section 41103 all-cargo air carrier shall file Schedule T-100, “U.S. Air Carrier Traffic and Capacity Data by Nonstop Segment and On-Flight Market”.

(b) Schedule T-100 shall be filed monthly.

(1) Schedule T-100 collects summarized flight stage data and on-flight market data for revenue flights. All traffic statistics shall be compiled in terms of each flight stage as actually performed. The detail T-100 data shall be maintained in such a manner as to permit monthly summarization and organization into two basic groupings. First, the nonstop segment information which is to be summarized by equipment type, within class of service, within pair-of-points, without regard to individual flight number. The second grouping requires that the enplanement/deplanement information be broken out into separate units called on-flight market records, which shall be summarized by class of service, within pair-of-points, without regard for equipment type or flight number.

(2) Joint-service operations. The Department may authorize joint-service operations between two direct air carriers. Examples of these joint-service operations are: blocked-space agreements; part-charter agreements; code-sharing agreements; wet-lease agreements, and similar arrangements.

(i) Joint-service operations are reported by the carrier in operational control of the flight, i.e., the carrier that uses its flight crews under its own FAA operating authority. The traffic moving under these agreements is reported on Schedule T-100 the same way as any other traffic on the aircraft.

(ii) If there are questions about reporting a joint-service operation, contact the BTS Assistant Director—Airline Information (fax no. 202 366-3383, telephone no. 202 366-4373). Joint-service operations are reported in Schedule T-100 in accordance with this paragraph (b).

(iii) Operational control. The air carrier in operational control of the aircraft (the carrier that uses its flight crews under its own FAA operating authority) must report joint services.

(c) Service classes.

(1) The statistical classifications are designed to reflect the operating characteristics attributable to each distinctive type of service offered. The combination of scheduled and nonscheduled operations with passenger, all-cargo, and military services are placed into service classes as follows:

(2) Scheduled services include traffic and capacity elements applicable to air transportation provided pursuant to published schedules and extra sections of scheduled flights. Scheduled Passenger/Cargo (Service Class F) is a composite of first-class, coach, and mixed passenger/cargo service.

(3) Nonscheduled services include all traffic and capacity elements applicable to the performance of nonscheduled aircraft charters, and other air transportation services not constituting an integral part of services performed pursuant to published flight schedules.

(d) Air transport traffic and capacity elements. Within each of the service classifications, carriers shall report air transport traffic and capacity elements. The elements are reported on segment and/or market records as follows:

(e) These reported items are further described as follows:

(1) **Reporting period date.** The year and month to which the reported data are applicable.

(2) **Carrier, Carrier entity code.** Each air carrier shall report its name and entity code (a five digit code assigned by BTS that identifies both the carrier and its entity) for its particular operations. The Office of Airline Information (OAI) will assign or confirm codes upon request. OAI’s address is Office of Airline Information, Bureau of Transportation Statistics, DOT, Room 4125, K-14, 400 Seventh Street, SW., Washington, DC 20590-0001.

(3) **Service class code.** The service class codes are prescribed in section 298.45(c). In general, classes are divided into two broad categories, either scheduled or nonscheduled, where scheduled = F + G and nonscheduled = L + N + P + R.

(4) **Record type code.** This code indicates whether the data pertain to nonstop segment (record type S) or on-flight market (record type M).

(5) **Aircraft type code.** This code represents the aircraft types, as described in the BTS’ Accounting and Reporting Directives.

(6) **Origin, Destination airport code(s).** These codes represent the industry designators. An industry source of these industry designator codes is the Official Airline Guide (OAG). OAI assigns codes, upon request, if not listed in the OAG.

(7) **110 Revenue passengers enplaned.** The total number of revenue passengers enplaned at the origin point of a flight, boarding the flight for the first time; an unduplicated count of passengers in a market.

(8) **130 Revenue passengers transported.** The total number of revenue passengers transported over a single flight stage, including those already on the aircraft from a previous flight stage.

(9) **140 Revenue passenger-miles.** Computed by multiplying the inter-airport distance of each flight stage by the number of passengers transported on that flight stage.

(10) **210 Revenue cargo tons enplaned.** The total number of cargo tons enplaned. This data element is a sum of the individual on-flight market figures for each of the following categories: 217
§ 291.45

Freight and Mail. This element represents an unduplicated count of the revenue traffic in a market.

(11) Enplaned freight. The total weight of revenue freight enplaned at the origin point of a flight, loaded onto the flight for the first time; an unduplicated count of freight in a market.

(12) Enplaned mail. The total weight of mail enplaned at the origin point of a flight, loaded onto the flight for the first time; an unduplicated count of mail in a market.

(13) Revenue tons transported. The number of tons of revenue traffic transported. This element is the sum of the following elements: Passengers transported-total, Freight, and Mail.

(14) Transported freight. The total weight of freight transported over a single flight stage, including freight already on the aircraft from a previous flight stage.

(15) Transported mail. The total weight of mail transported over a single flight stage, including mail already on the aircraft from a previous flight stage.

(16) Revenue ton-miles—total. Ton-miles are computed by multiplying the revenue aircraft miles flown (410) on each flight stage by the number of tons transported on that stage. This element is the sum of (17) through (29).

(17) Revenue ton-miles—passenger. Equals the number of passengers times 200, times inter-airport distance, divided by 2000. A standard weight of 200 pounds per passenger, including baggage, is used for all operations and service classes.

(18) Revenue ton-miles—freight. Equals the volume of freight in whole tons times the inter-airport distance.

(19) Revenue ton-miles—mail. Equals the volume of mail in whole tons times the inter-airport distance.

(20) Available capacity-payload. The available capacity is collected in pounds. This figure shall reflect the payload or total available capacity for passengers, mail and freight applicable to the aircraft with which each flight stage is performed.

(21) Available ton-miles. The aircraft miles flown on each flight stage multiplied by the available capacity on the aircraft in tons.

(22) Available seats. The number of seats available for sale. This figure reflects the actual number of seats available, excluding those blocked for safety or operational reasons. In the domestic entity, report the total available seats in item 130. Scheduled and non-scheduled available seats are reported in item 130.

(23) Available seat-miles. The aircraft miles flown on each flight stage multiplied by the seat capacity available for sale.

(24) Revenue aircraft miles flown. Revenue aircraft miles flown are computed based on the airport pairs between which service is actually performed; miles are generated from the data for scheduled aircraft departures (Code 520) times the inter-airport distances (Code 501).

(25) Revenue aircraft miles scheduled. The number of revenue aircraft miles scheduled. All such data shall be maintained in conformity with the airport pairs between which service is scheduled, whether or not in accordance with actual performance.

(26) Inter-airport distance. The great circle distance, in official statute miles as prescribed in part 247 of this chapter, between airports served by each flight stage. Official inter-airport mileage may be obtained from the Office of Airline Information.

(27) Revenue aircraft departures performed. The number of revenue aircraft departures performed.

(28) Revenue aircraft departures scheduled. The number of revenue aircraft departures scheduled, whether or not actually performed.

(29) Revenue aircraft hours (airborne). The elapsed time, computed from the moment the aircraft leaves the ground until its next landing.

(30) Aircraft hours (ramp-to-ramp). The elapsed time, computed from the moment the aircraft first moves under its own power from the boarding ramp at one airport to the time it comes to rest at the ramp for the next point of landing. This data element is also referred to as ‘block’ and ‘block-to-block’ aircraft hours.

(31) Total aircraft hours (airborne). The elapsed time, computed from the
moment the aircraft leaves the ground until it touches down at the next landing. This includes flight training, testing, and ferry flights.

(i) Public availability of Schedule T–100 data. Detailed domestic on-flight market and nonstop segment data in Schedule T-100, except military data, shall be publicly available after processing. Domestic data are defined as data from air transportation operations from a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands, or a U.S. territory or possession to a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands, or a U.S. territory or possession.

APPENDIX TO § 291.45—INSTRUCTIONS TO U.S. AIR CARRIERS FOR REPORTING TRAFFIC AND CAPACITY DATA ON SCHEDULE T–100

(a) Format of reports—(1) Automatic Data Processing (ADP) magnetic tape. Refer to paragraph (d) of this appendix for instructions pertaining to mainframe and minicomputer reporting. The Department will issue “Accounting and Reporting Directives” to make necessary technical changes to these T–100 instructions. Technical changes which are minor in nature do not require public notice and comment.

(2) Microcomputer diskette—(i) Optional specification. If an air carrier desires to use its personal computers (PC’s)’s, rather than mainframe or minicomputers to prepare its data submissions, the following specifications for filing data on diskette media apply.

(ii) Reporting medium. Microcomputer ADP data submission of T-100 information must be on IBM compatible disks. Carriers wishing to use a different ADP procedure must obtain written approval to do so from the BTS Assistant Director—Airline Information. Requests for approval to use alternate methods must disclose and describe the proposed data transmission methodology. Refer to paragraph (i) of this appendix for microcomputer record layouts.

(iii) Microcomputer file characteristics. The files will be created in ASCII delimited format, sometimes called Data Interchange Format (DIF). This form of recording data provides for variable length fields (data elements) which, in the case of alphabetic data, are enclosed by quotation marks (”) and separated by a comma (,) or tab. Numeric data elements that are recorded without editing symbols are also separated by a comma (,) or tab. The data are identified by their juxtaposition within a given record. Therefore, each record must contain the exact number of data elements, all of which must be juxtapositionally correct. Personal computer software including most spreadsheets, database management programs, and BASIC are capable of producing files in this format.

(b) Filing date for reports. The reports must be received at BTS within 30 days following the end of each reporting period.

(c) Address for filing. Data Administration Division, K–14, Room 4125, Office of Airline Information, Bureau of Transportation Statistics, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590–0001.

(d) ADP format for magnetic tape—(1) Magnetic tape specifications. IBM compatible 9-track EBCDIC recording. Recording density of 6250 or 1600 bpi. The order of recorded information is:

(i) Volume label.

(ii) Header label.

(iii) Data records.

(iv) Trailer label.

(2) [Reserved]

(e) External tape label information. (1) Carrier name.

(2) Report date.

(3) File identification.

(4) Carrier address for return of tape reel.

(f) Standards. It is the policy of the Department to be consistent with the American National Standards Institute and the Federal Standards Activity in all data processing and telecommunications matters. It is our intention that all specifications in this application are in compliance with standards promulgated by these organizations.

(g) Volume, header, and trailer label formats—(1) Use standard IBM label formats. The file identifier field of the header labels should be “T–100.SYSTEM”.

(h) Magnetic tape record layouts for T–100—

(1) Nonstop segment record layout.

### Subpart G—Public Disclosure of Data

#### § 291.60 Public disclosure of data.

(a) Detailed domestic on-flight market data and nonstop segment data, except military data, shall be made publicly available after processing. Domestic data are defined as data from air transportation operations from a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands, or a U.S. territory or possession to a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands, or a U.S. territory or possession. Domestic military operations are reported under service codes N or R.

(b) Detailed international on-flight market and nonstop segment data in Schedule T–100 and Schedule T–100(f) reports, except military data, shall be publicly available immediately following the Department’s determination that the database is complete, but no earlier than six months after the date of the data. Military operations are reported under service codes N or R. Data for on-flight markets and nonstop segments involving no U.S. points shall not be made publicly available for three years. Industry and carrier summary data may be made public before the end of six months or the end of three years, as applicable, provided there are three or more carriers in the

summary data disclosed. The Department may, at any time, publish international summary statistics without carrier detail. Further, the Department may release nonstop segment and on-flight market detail data by carrier before the end of the confidentiality period as follows:

(1) To foreign governments as provided in reciprocal arrangements between the foreign country and the U.S. Government for exchange of on-flight market and/or nonstop segment data submitted by air carriers of that foreign country and U.S. carriers serving that foreign country.

(2) To parties to any proceeding before the Department under Title IV of the Federal Aviation Act of 1958, as amended, as required by an Administrative Law Judge or other decision-maker of the Department. Parties may designate agents or consultants to receive the data in their behalf, provided the agents or consultants agree to abide by the disclosure restrictions. Any data to which access is granted pursuant to this provision may be introduced into evidence, subject to the normal rules of admissibility.

(3) To agencies or other components of the U.S. Government for their internal use only.

§ 292.11 Revocation of exemption.

(a) The Department, upon complaint or upon its own initiative, may, immediately and without hearing, revoke, in whole or in part, the exemption granted by this part with respect to a carrier or carriers, when such action is in the public interest.

(b) Any such action will be taken in an order issued by the Assistant Secretary for Aviation and International Affairs, and will identify:

1) The tariff matter to be filed; and
2) The deadline for carrier compliance.

(c) Revocations under this section will have the effect of reinstating all applicable tariff requirements and procedures specified in the Department’s regulations for the tariff material to be
§ 292.20  Rule of construction.

Carriers holding an effective exemption from the duty to file tariffs under this part shall not, unless otherwise directed by order of the Department, be subject to tariff posting, notification or subscription requirements set forth in 49 U.S.C. 41504 or 14 CFR part 221, except as provided in § 292.21 of this part.

1. The notice, inspection, explanation and other requirements set forth in 14 CFR 221.177(a)(1), (a)(2), (a)(4), (b), (c) and (d) are complied with, to the extent applicable, except that the notice required under 14 CFR 221.177(b)(1) shall refer to the title or general nature of the publication(s) or document(s) containing the full text of the referenced terms rather than to "terms and conditions filed in public tariffs with U.S. authorities";

2. In addition to other remedies at law, a carrier may not claim the benefit as against a shipper or consignee of, and a shipper or consignee shall not be bound by, any contract term which is incorporated by reference under this paragraph (a)(1) of this section are complied with, to the extent applicable; and

(c) The purpose of this section is to set uniform disclosure requirements, which preempt any State requirements on the same subject, for terms incorporated by reference into contracts of carriage for the scheduled transportation of cargo in foreign air transportation.

§ 292.22  Effectiveness of tariffs on file.

(a) Cargo rate tariffs on file with the Department, including related classification and/or applicability rules, cease to be effective as tariffs under 49 U.S.C. 41504 and 41510, as well as under the provisions of 14 CFR Part 221, and they are canceled by operation of law.

(b) As of March 1, 1996, all remaining cargo tariffs on file with the Department cease to be effective as tariffs under 49 USC 41504 and the provisions of 14 CFR part 221, and are canceled by operation of law. Any such tariffs may be canceled voluntarily prior to that date. With respect to terms expressly agreed in the contract of carriage, carriers, agents and other persons are relieved from the requirement of adherence to filed tariffs in 49 USC 41510 and the related provisions of 14 CFR part 221 as of November 30, 1995.

(c) Applications for filing and/or effectiveness of any cargo tariffs pending on November 30, 1995 are dismissed by operation of law. No new filings or applications will be permitted except as provided under § 292.11.

Subpart A—General

§ 294.1 Applicability and purpose.
This part establishes a classification of foreign air carriers known as “Canadian charter air taxi operators,” and establishes registration procedures for these carriers operating or seeking to operate transborder services between Canada and the United States. This part also exempts Canadian charter air taxi operators from certain provisions of the Subtitle VII of Title 49 of the United States Code (Transportation), and establishes rules applicable to their operations in the United States. This part does not provide exemption from the safety regulatory provisions of the Statute that are administered by the U.S. Department of Transportation through the Federal Aviation Administration (FAA), and Canadian charter air taxi operators in the conduct of their operations must observe all applicable safety standards and requirements.

§ 294.2 Definitions.

As used in this part:
(a) Agreement means the Air Transport Agreement Between the Government of the United States and the Government of Canada, signed at Ottawa, February 24, 1995, with Annexes and any amendments, supplements, reservations, or supersessions to it.
(b) Canadian charter air taxi operator means a foreign air carrier that is substantially owned and effectively controlled by Canadian citizens, the Government of Canada, or both, whose foreign air transportation operations are limited to charter air service between points in Canada and points in the United States, and that does not use large aircraft in those operations.
(c) Charter air service means non-scheduled commercial air transportation of persons and their accompanied baggage, and of property, on a time, mileage, or trip basis where the entire planeload capacity of one or more aircraft has been engaged, or the transportation of mail by aircraft.
(d) Large aircraft means any aircraft that are not small aircraft as defined in this section.
(e) Maximum authorized takeoff weight has the meaning assigned to it in regulations of the Canadian Transport Commission.
(f) Maximum certificated takeoff weight means the maximum takeoff weight authorized by the terms of the aircraft airworthiness certificate. This weight may be found in the airplane operating
§ 294.3 General requirements for Canadian charter air taxi operators.

A Canadian charter air taxi operator shall conduct charter air service between the United States and Canada only if it:

(a) Has been registered by the Department under this part;

(b) Does not directly or indirectly utilize large aircraft in charter air services;

(c) Has and maintains in effect liability insurance coverage that complies with the requirements set forth in subpart E of this part and has and maintains a current certificate of insurance evidencing such coverage on file with the Department;

(d) Has and maintains in effect and on file with the Department a signed counterpart of Agreement 18900 (OST Form 4523) and complies with all other requirements of part 203 of this chapter;

(e) Has effective authority from the Government of Canada to conduct charter air service between the United States and Canada.

(f) Has been granted Federal Aviation Administration operations specifications required under part 129 of the Federal Aviation Regulations;

(g) Is substantially owned and effectively controlled by Canadian citizens, or the Government of Canada, or a combination of both; and

(h) Complies with the terms, conditions, and limitations of this part.

(The reporting requirements contained in paragraph (d) were approved by the Office of Management and Budget under control number 3024–0064)

Subpart B—Exemption

§ 294.10 Exemption authority.

Canadian charter air taxi operators registered under this part are exempt from the following provisions of the Statute to the extent necessary to perform charter air service between the United States and Canada, and as long as they comply with the terms, conditions, and limitations of this part:

(a) Section 41302 (permits).

(b) Section 41501 (carrier’s duty to observe reasonable rates).

(c) Section 41310 (discrimination).
Office of the Secretary, DOT

§ 294.22 Notification to the Department of change in operations or identifying information.

Registrants shall refile a copy of OST Form 4505 with the Department’s Office of International Aviation, Special Authorities Division, upon any of the following events. The refiled shall be sent by electronic mail, or other means, so as to be received by the Department not later than 30 days after the reported event has occurred.

(a) The carrier changes its name. When a carrier refiles OST Form 4505 to indicate a change of name:

(d) After receipt of OST Form 4505, the Department may request additional information.

(e) After the period for objections and answers has expired, the Department will take one of the following actions:

(1) Issue the registration by stamping its effective date on OST Form 4505 and sending a copy of it to the carrier.

(2) Reject the application for failure to comply with this part;

(3) Issue the registration subject to such terms, conditions, or limitations as may be consistent with the public interest; or

(4) Institute evidentiary proceedings to consider whether the registration should be issued.

(f) An action described in paragraph (e) of this section will normally be taken within 60 days after the registration application is received. The Department will consider requests for faster action that include a full explanation of the need for expedited action.

(g) A registration shall not be issued until the Department receives evidence that the applicant has effective authority issued by the Government of Canada. The applicant must provide copies of its Air Carrier Operating certificate and non-scheduled international license issued by the Government of Canada.

(h) Rejection of an application for registration will not preclude the filing of a new application by the same carrier.

§ 294.30 Scope of service and equipment authorized.

(a) Upon fulfillment of the requirements of §294.3 of this part, the registrant will have Department authority to engage in charter air services between any point or points in Canada and any point or points in the United States using small aircraft.

(b) Nothing in this part shall be construed as authorizing the operation of large aircraft in charter air service, and the exemption provided by this part extends only to the direct operations of charter air service in accordance with the limitations and conditions of this part using aircraft designed to have:

(1) A maximum passenger capacity of no more than 30 seats and a maximum payload capacity of no more than 7,500 pounds, and/or

(2) A maximum authorized takeoff weight on wheels not greater than 35,000 pounds.

(c) A Canadian charter air taxi operator shall not use large aircraft for charter air service until it has been granted a permit by the Department under section 41302 of the Statute or granted an exemption under section 41701 of the Statute. Its application for such a permit or exemption should refer to the registration under this part. Registration under this part will be canceled when a section 41302 permit has been granted by the Department for the use of large aircraft in foreign charter air service.

§ 294.31 Use of business name.

(a) A Canadian charter air taxi operator, in holding out charter air service to the public and performing its charter operations, shall do so only in the names in which its registration is issued under this part. The Department may require a Canadian charter air taxi operator to change such names where they appear to be inconsistent with the public interest.

(b) [Reserved]

§ 294.32 Security arrangements for operating Public Charters.

(a) The Canadian charter air taxi operator shall meet the bonding or escrow requirements applicable to foreign air carriers as set forth in §212.3 of this chapter.

(b) The Canadian charter air taxi operator shall ensure that it does not receive any payments for the charter until after the charter has been completed. In this case, its contracts with the charter operator and the charter operator’s depository bank, if any,
shall state that the charter operator or bank, as applicable, shall retain control of and responsibility for all participant funds intended for payment for charter air service until after the charter has been completed, notwithstanding any provision of part 380.

§ 294.33 Compliance with the regulations of the Federal Aviation Administration.

(a) Registrants under this part shall obtain FAA operations specifications required under part 129 or other applicable rules of the Federal Aviation Regulations prior to beginning operations into the United States. Registrants should write to the FAA office at one of the following addresses to obtain instructions on how to apply for FAA authority.

(b) If the registrant’s business address is located on or east of 76 degrees West Longitude (in or east of Ottawa, Ontario) it should write to: Federal Aviation Administration, General Aviation District Office No. 1, Albany County Airport, Albany, New York 12211.

(c) If the registrant’s business address is located on or east of 100 degrees West Longitude (in or east of Winnipeg, Manitoba) and west of 76 degrees West Longitude (west of, but not including, Ottawa, Ontario) it should write to: Federal Aviation Administration, Flight Standards District Office, 1 Airport Way, Rochester, New York 14624.

(d) If the registrant’s business address is west of Winnipeg, Manitoba, it should write to: Federal Aviation Administration, General Aviation District Office, 1601 Lind Avenue, SW., Renton, Washington 98055.

§ 294.40 Aircraft accident liability insurance requirements.

(c) If the substantive terms of the counter sign and ticket notice required by this section differ, the terms contained in the required ticket notice govern.

§ 298.31 Scope of service and equipment authorized.
Nothing in this part shall be construed as authorizing the operation of large aircraft in air transportation, and the exemption provided by this part to air taxi operators and commuter air carriers that register with
the Department extends only to the direct operation in air transportation in accordance with the limitations and conditions of this part of aircraft originally designed to have a maximum passenger capacity of 60 seats or less or a maximum payload capacity of 18,000 pounds or less.

§ 298.32 Limitations on operations to eligible places.

No person shall provide scheduled passenger service as a commuter air carrier at an eligible place unless it has been found by the Department to be fit, willing, and able to conduct such service and issued a Commuter Air Carrier Authorization as provided in subpart E of this part.

§ 298.33 Security requirements.

In conducting operations under this part, an air taxi operator or a commuter air carrier is required to adhere to all security requirements established by the Department of Transportation and the Department of Homeland Security applicable to such operations.

§ 298.34 [Reserved]

§ 298.36 Limitations on use of business name.

(a) An air taxi operator or commuter air carrier in holding out to the public and in performing its services in air transportation shall do so only in the name or names in which its air carrier certificate is issued pursuant to section 44702 of the Statute by the Federal Aviation Administration, and in which it is registered with the Department under this part, or in which its Commuter Air Carrier Authorization is issued or other trade name is registered.

(b) Slogans shall not be considered names for the purposes of this section, and their use is not restricted hereby.

(c) Commuter air carriers are subject to the provisions of part 215 of this chapter with regard to the use and change of air carrier names.

§ 298.52 Air taxi operations by commuter air carriers.
(a) A commuter air carrier that holds an effective Commuter Air Carrier Authorization and otherwise meets the requirements of this part is also authorized to conduct air taxi operations (e.g., scheduled cargo, mail under a U.S. Postal Service contract, on-demand passenger, on-demand cargo, or other service such as air ambulance operations, firefighting or seasonal operations) without having to meet the registration requirements of subpart C of this part, except as provided in paragraph (b) of this section.

(b) Should a commuter air carrier cease conducting all scheduled passenger operations and its Commuter Air Carrier Authorization is suspended pursuant to §§298.53 and/or 204.7 of this chapter, it may continue to conduct air taxi operations provided that the carrier maintains in effect liability insurance coverage as required for such operations by part 205 of this chapter and, within 10 days of the cessation of scheduled passenger operations, registers as an air taxi operator in accordance with subpart C of this part; and provided further that the carrier continues to hold authority from the Federal Aviation Administration to conduct such air taxi operations.

§ 298.53 Suspension or revocation of authority.
A Commuter Air Carrier Authorization may be suspended or revoked if any of the following occur:
(a) The operator fails to maintain insurance coverage as required by part 205 of this chapter for commuter operations;
(b) The scheduled passenger authority under the operator’s Air Carrier Certificate is suspended or revoked by the Federal Aviation Administration;
(c) The operator does not commence operations for which it has been found fit, or the operator ceases those operations as provided in §204.7 of this chapter;
(d) The Department finds that the carrier is not fit, willing, and able to conduct scheduled service or fails to qualify as a citizen of the United States; or
(e) The Department determines that it is otherwise in the public interest to do so.

Subpart F—Reporting Requirements

§ 298.60 General reporting instructions.
(a) Each commuter air carrier and each small certificated air carrier shall file with the Department’s Bureau of Transportation Statistics (BTS) the applicable schedules of BTS Form 298-C, A Report of Financial and Operating Statistics for Small Aircraft Operators’ and Schedule T–100, U.S. Air Carrier Traffic and Capacity Data by Nonstop Segment and On-Flight Market” as required by this section.

(b) Should a commuter air carrier cease conducting all scheduled passenger operations and its Commuter Air Carrier Authorization is suspended pursuant to §§298.53 and/or 204.7 of this chapter, it may continue to conduct air taxi operations provided that the carrier maintains in effect liability insurance coverage as required for such operations by part 205 of this chapter and, within 10 days of the cessation of scheduled passenger operations, registers as an air taxi operator in accordance with subpart C of this part; and provided further that the carrier continues to hold authority from the Federal Aviation Administration to conduct such air taxi operations.

§ 298.53 Suspension or revocation of authority.
A Commuter Air Carrier Authorization may be suspended or revoked if any of the following occur:
(a) The operator fails to maintain insurance coverage as required by part 205 of this chapter for commuter operations;

(c) The operator does not commence operations for which it has been found fit, or the operator ceases those operations as provided in §204.7 of this chapter;
(d) The Department finds that the carrier is not fit, willing, and able to conduct scheduled service or fails to qualify as a citizen of the United States; or
(e) The Department determines that it is otherwise in the public interest to do so.

Subpart F—Reporting Requirements

§ 298.60 General reporting instructions.
(a) Each commuter air carrier and each small certificated air carrier shall file with the Department’s Bureau of Transportation Statistics (BTS) the applicable schedules of BTS Form 298-C, A Report of Financial and Operating Statistics for Small Aircraft Operators’ and Schedule T–100, U.S. Air Carrier Traffic and Capacity Data by Nonstop Segment and On-Flight Market” as required by this section.

(b) A single copy of the BTS Form 298-C report shall be filed quarterly with the Office of Airline Information (OAI) for the periods ended March 31, June 30, September 30 and December 31 of each year to be received on or before May 10, August 10, November 10, and February 10, respectively. An electronic filing of the monthly Schedule T–100 is due at OAI within 30 days after
§ 298.61 Reporting of traffic statistics.

(a) Each commuter air carrier and small certificated air carrier shall file Schedule T-100, A.U.S. Air Carrier Traffic and Capacity Data by Nonstop Segment and On-Flight Market.

(b) Schedule T-100 shall be filed monthly as set forth in “298.60.

(1) Schedule T-100 collects summarized flight stage data and on-flight market data from revenue flights. All traffic statistics shall be compiled in terms of each flight stage as actually performed. The detail T-100 data shall be maintained in such a manner as to permit monthly summarization and organization into two basic groupings. The first grouping, the nonstop segment information, is to be summarized by equipment type, within class of service, within pair-of-points, without regard to individual flight number. The second grouping requires that the enplanement/deplanement information be broken out into separate units called on-flight market records, which shall be summarized by class of service, within pair-of-points, without regard for equipment type or flight number.

(2) Joint-service operations. The Department may authorize joint service operations between two direct air carriers. Examples of these joint-service operations are: blocked-space agreements; part-charter agreements; code-sharing agreements; wet-lease agreements, and similar arrangements.

(i) Joint-service operations are reported by the carrier in operational control of the flight, i.e., the carrier that uses its flight crews under its own FAA operating authority. The traffic moving under these agreements is reported on Schedule T-100 the same way as any other traffic on the aircraft.

(ii) If there are questions about reporting a joint-service operation, contact the BTS Assistant Director—Airline Information (fax no. 202 366-3383, telephone no. 202 366-4373). Joint-service operations are reported in Schedule T-100 in accordance with this paragraph (b).

(3) Service classes. (1) The statistical classifications are designed to reflect the operating characteristics attributable to each distinctive type of service offered. The combination of scheduled and nonscheduled operations with passenger, all-cargo, and military services are placed into service classes as follows:

<table>

</thead>
<tbody>
<tr>
<td>F</td>

<tr>
<td>P</td>
<td>Nonscheduled Civil Cargo</td>
</tr>
<tr>
<td>N</td>
<td>Nonscheduled Military Passenger/Cargo</td>
</tr>
<tr>
<td>R</td>
<td>Nonscheduled Military Cargo</td>
</tr>
</tbody>
</table>

(2) Scheduled services include traffic and capacity elements applicable to air transportation provided pursuant to published schedules and extra sections of scheduled flights. Scheduled Passenger/Cargo (Service Class F) is a composite of first class, coach, and mixed passenger/cargo service.

(3) Nonscheduled services include all traffic and capacity elements applicable to the performance of nonscheduled aircraft charters, and other air transportation services not constituting an integral part of services performed pursuant to published flight schedules.

(d) Air transport traffic and capacity elements. (1) Within each of the service classifications, carriers shall report air transport traffic and capacity elements. The elements are reported on segment or market records as follows:

(2) [Reserved]

(e) These reported items are further described as follows:

1. **Reporting period date.** The year and month to which the reported data are applicable.

2. **Carrier, Carrier entity code.** Each air carrier shall report its name and entity code (a five digit code assigned by BTS that identifies both the carrier and its entity) for its particular operations. The Office of Airline Information (OAI) will assign or confirm codes upon request; OAI’s address is Office of Airline Information, BTS, DOT Room 4125, K–14, 400 Seventh Street, SW., Washington, DC 20590–0001.

3. **Service class code.** The service class codes are prescribed in section 298.61(c). In general, classes are divided into two broad categories, either scheduled or nonscheduled, where scheduled = F + G and nonscheduled = L + N + P + R.

4. **Record type code.** This code indicates whether the data pertain to nonstop segment (record type S) or on-flight market (record type M).

5. **Aircraft type code.** This code represents the aircraft types, as described in the BTS’ Accounting and Reporting Directives.

6. **Origin, Destination airport code(s).** These codes represent the industry designators. An industry source of these industry designator codes is the Official Airline Guide (OAG). OAI assigns codes upon request if not listed in the OAG.

7. **110 Revenue passengers enplaned.** The total number of revenue passengers enplaned at the origin point of a flight, boarding the flight for the first time; an unduplicated count of passengers in a market. Under the T–100 system of reporting, these enplaned passengers are the sum of the passengers in the individual on-flight markets. In the domestic entity, report only the total revenue passengers enplaned in item 110.

8. **130 Revenue passengers transported.** The total number of revenue passengers transported over a single flight stage, including those already on the aircraft from a previous flight stage. In the domestic entity, report only the total revenue passengers transported in item 130.

9. **140 Revenue passenger-miles.** Computed by multiplying the inter-airport distance of each flight stage by the number of passengers transported on that flight stage.

10. **210 Revenue cargo tons enplaned.** The total number of cargo tons enplaned. This data element is a sum of the individual on-flight market figures for each of the following categories: 217 Freight and 219 Mail. This element represents an unduplicated count of the revenue traffic in a market.

11. **217 Enplaned freight.** The total weight of revenue freight enplaned at the origin point of a flight, loaded onto the flight for the first time; an unduplicated count of freight in a market.

12. **219 Enplaned mail.** The total weight of mail enplaned at the origin point of a flight, loaded onto the flight for the first time; an unduplicated count of mail in a market.
§ 298.61  

(13) 230 Revenue tons transported. The number of tons of revenue traffic transported. This element is the sum of the following elements: 231 Passengers transported-total, 237 Freight, and 239 Mail.

(14) 237 Transported freight. The total weight of freight transported over a single flight stage, including freight already on the aircraft from a previous flight stage.

(15) 239 Transported mail. The total weight of mail transported over a single flight stage, including mail already on the aircraft from a previous flight stage.

(16) 240 Revenue ton-miles—total. Ton-miles are computed by multiplying the revenue aircraft miles flown (410) on each flight stage by the number of tons transported on that stage. This element is the sum of 241 through 249.

(17) 241 Revenue ton-miles—passenger. Equals the number of passengers times 200, times inter-airport distance, divided by 2000. A standard weight of 200 pounds per passenger, including baggage, is used for all operations and service classes.

(18) 247 Revenue ton-miles—freight. Equals the volume of freight in whole tons times the inter-airport distance.

(19) 249 Revenue ton-miles—mail. Equals the volume of mail in whole tons times the inter-airport distance.

(20) 270 Available capacity-payload. The available capacity is collected in pounds. This figure shall reflect the payload or total available capacity for passengers, mail, and freight applicable to the aircraft with which each flight stage is performed.

(21) 280 Available ton-miles. The aircraft miles flown on each flight stage multiplied by the available capacity on the aircraft in tons.

(22) 310 Available seats. The number of seats available for sale. This figure reflects the actual number of seats available, excluding those blocked for safety or operational reasons. In the domestic entity, report the total available seats in item 130. Scheduled and non-scheduled available seats are reported in item 130.

(23) 320 Available seat-miles. The aircraft miles flown on each flight stage multiplied by the seat capacity available for sale.

(24) 410 Revenue aircraft miles flown. Revenue aircraft miles flown are computed based on the airport pairs between which service is actually performed; miles are generated from the data for scheduled aircraft departures (Code 520) times the inter-airport distances (Code 501).

(25) 430 Revenue aircraft miles scheduled. The number of revenue aircraft miles scheduled. All such data shall be maintained in conformity with the airport pairs between which service is scheduled, whether or not in accordance with actual performance.

(26) 501 Inter-airport distance. The great circle distance, in official statute miles as prescribed in part 247 of this chapter, between airports served by each flight stage. Official inter-airport mileage may be obtained from the Office of Airline Information.

(27) 510 Revenue aircraft departures performed. The number of revenue aircraft departures performed.

(28) 520 Revenue aircraft departures scheduled. The number of revenue aircraft departures scheduled, whether or not actually performed.

(29) 610 Revenue aircraft hours (airborne). The elapsed time, computed from the moment the aircraft leaves the ground until its next landing.

(30) 630 Aircraft hours (ramp-to-ramp). The elapsed time, computed from the moment the aircraft first moves under its own power from the boarding ramp at one airport to the time it comes to rest at the ramp for the next point of landing. This data element is also referred to as ‘block’ and ‘block-to-block’ aircraft hours.

(31) 650 Total aircraft hours (airborne). The elapsed time, computed from the moment the aircraft leaves the ground until it touches down at the next landing. This includes flight training, testing, and ferry flights.

(f) Public availability of Schedule T–100 data. Detailed domestic on-flight market and nonstop segment data in Schedule T–100, except military data, shall be publicly available after processing. Domestic data are defined as data from air transportation operations from a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico
Office of the Secretary, DOT § 298.61

and the Virgin Islands, or a U.S. territory or possession to a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands, or a U.S. territory or possession.

Technical changes which are minor in nature do not require public notice and comment.

(2) Microcomputer diskette.—(i) Optional specification. If an air carrier desires to use its personal computers (PC’s), rather than mainframe or minicomputers to prepare its data submission of T–100 information must be on IBM compatible disks. Carriers wishing to use a different ADP procedure must obtain written approval to do so from the BTS Assistant Director—Airline Information. Requests for approval to use alternate methods must disclose and describe the proposed data transmission methodology. Refer to paragraph (k) of this appendix for microcomputer record layouts.

(ii) Reporting medium. Microcomputer ADP data submission of T–100 information must be in ASCII format. IBM compatible computers in compliance with standards promulgated by these organizations.

(iii) Microcomputer file characteristics. The files will be created in ASCII delimited format, sometimes called Data Interchange Format (DIF). This form of recording data provides for variable length fields (data elements) which, in the case of alphabetic data, are enclosed by quotation marks (‘’) and separated by a comma (,) or tab. The data are identified by their juxtapositionally correct. Personal computer software including most spreadsheets, data base management programs, and BASIC are capable of producing files in this format.

(b)–(c) [Reserved]

(d) Filing date for reports. The reports must be received at BTS within 30 days following the end of each reporting period.

(e) Address for filing. Data Administration Division, K–14, Room 1225, Office of Airline Information, Bureau of Transportation Statistics, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590–0001.

(1) ADP format for magnetic tape—(1) Magnetic tape specifications. IBM compatible 9-track EBCDIC recording. Recording density of 6250 or 1600 bpi. The order of recorded information is:

(i) Volume label.
(ii) Header label.
(iii) Data records.
(iv) Trailer label.

(g) External tape label information. (1) Carrier name.
(2) Report date.
(3) File identification.
(4) Carrier address for return of tape reel.

(h) Standards. It is the policy of the Department to be consistent with the American National Standards Institute and the Federal Standards Activity in all data processing and telecommunications matters. It is our intention that all specifications in this application are in compliance with standards promulgated by these organizations.

(1) Volume, header, and trailer label formats—
(2) Use standard IBM label formats. The file identifier field of the header labels should be “T–100.SYSTEM”.

(2) [Reserved]

§ 298.62 Reporting of financial data.

(a) Each commuter air carrier and each small certificated air carrier shall file BTS Form 298–C, Schedule F–1 “Report of Financial Data.” This report shall be filed quarterly as set forth in § 298.60 of this part.

(b) Each carrier shall indicate in the space provided, its full corporate name and the quarter for which the report is filed.

(c) This schedule shall be used to report financial data for the overall or system operations of the carrier. At the option of the carrier, the data may be reported in whole dollars by dropping the cents. Financial data shall be reported in the following categories:

1. Line 1 “Total Operating Revenues” shall include gross revenues accruing from services ordinarily associated with air transportation and air transportation-related services. This category shall include revenue derived from scheduled service operations, revenue derived from nonscheduled service operations, amounts of compensation paid to the carrier under section 41732 of the Statute and other transport-related revenue such as in-flight sales, restaurant and food service (ground), rental of property or equipment, limousine service, cargo pick-up and delivery charges, and fixed-base operations involving the selling or servicing of aircraft, flying instructions, charter flights, etc.

2. Line 2 “Total Operating Expenses” shall include expenses of a character usually and ordinarily incurred in the performance of air transportation and air transportation services. This category shall include expenses incurred: directly in the in-flight operation of aircraft; in the holding of aircraft and aircraft personnel in readiness for assignment to an in-flight status; on the ground in controlling and protecting the in-flight movement of aircraft; landing, handling or servicing aircraft on the ground; selling transportation; servicing and handling traffic; promoting the development of traffic; and administering operations generally. This category shall also include expenses which are specifically identifiable with the repair and upkeep of property and equipment used in the performance of air transportation, all depreciation and amortization expenses applicable to property and equipment used in providing air transportation services, all expenses associated with the transport-related revenues included on line 1 of this schedule, and all other expenses not specifically mentioned which are related to transport operations. Interest expense and other nonoperating expenses attributable to financing or other activities which are extraneous to and not an integral part of air transportation or its incidental services shall not be included in this category.

(k) Record layouts for microcomputer diskettes. The record layouts for diskettes are generally identical to those shown for magnetic tape, with the exception that delimiters (quotation marks and commas) are used to separate fields. It is necessary that the order of fields be maintained in all records.

1. File characteristics. The files will be created in ASCII delimited format, sometimes called Data Interchange Format (DIF). This form of recording data provides for variable length fields (data elements) which, in the case of alphabetic data, are enclosed by quotation marks (‘’) and separated by a comma (,) or tab. Numeric data elements that are recorded without editing symbols are also separated by a comma (,) or tab. The data are identified by their juxtaposition within a given record. Therefore, it is critical that each record contain the exact number of data elements, all of which must be juxtapositionally correct. PC software including most spreadsheets, data base management programs, and BASIC produce minidisks files in this format.

2. File naming conventions for diskettes. For microcomputer reports, each record type should be contained in a separate DOS file on the same physical diskette. The following DOS naming conventions shall be followed:

(i) Record type S = SEGMENT.DAT
(ii) Record type M = MARKET.DAT

[Doc. No. OST 98–4043, 67 FR 49231, July 30, 2002]
Office of the Secretary, DOT § 298.63

(3) Line 3 “Net Income or (Loss)” shall reflect all operating and nonoperating items of profit and loss recognized during the period except for prior period adjustments.

(4) Line 4 “Passenger Revenues-Scheduled Service” shall include revenue generated from the transportation of passengers between pairs of points which are served on a regularly scheduled basis.

(d) Data reported on this schedule shall be withheld from public release for a period of 3 years after the close of the calendar quarter to which the report relates.

§ 298.63 Reporting of aircraft operating expenses and related statistics by small certificated air carriers.

(a) Each small certificated air carrier shall file BTS Form 298–C, Schedule F–2 “Report of Aircraft Operating Expenses and Related Statistics.” This schedule shall be filed quarterly as prescribed in § 298.60. Data reported on this report shall be for the overall or system operations of the air carrier.

(b) Each carrier shall indicate in the space provided its full corporate name and the quarter for which the report is filed.

(c) This schedule shall show the direct and indirect expenses incurred in aircraft operations. Direct expense data applicable to each aircraft type operated by the carrier shall be reported in separate columns of this schedule. Each aircraft type reported shall be identified at the head of each column in the space provided for “Aircraft Type.” “Aircraft Type” refers to aircraft models such as Beech–18, Piper PA–32, etc. Aircraft Type designations are prescribed in the Accounting and Reporting Directives, which is available from the BTS’ Office of Airline Information. In the space provided for “Aircraft Code” carriers shall insert the three digit code prescribed in the Accounting and Reporting Directives for the reported aircraft type. (NOTE: Aircraft of the same type but different cabin configuration may be grouped into a single classification; therefore, carriers are not required to report the fourth digit of an aircraft code indicating cabin configuration.)

(d) Line 1 Direct aircraft operating expenses shall be reported in the following categories:

(1) Line 2 “Flying Operations (Less Rental)” shall be subdivided as follows:

(i) Line 3 “Pilot and Copilot” expense shall include pilots’ and copilots’ salaries, and related employee benefits, pensions, payroll taxes and personnel expenses.

(ii) Line 4 “Aircraft Fuel and Oil” expense shall include the cost of fuel and oil used in flight operations and non-refundable aircraft fuel and oil taxes.

(iii) Line 5 “Other” expenses shall include general (hull) insurance, and all other expenses incurred in the in-flight operation of aircraft and holding of aircraft and aircraft operational personnel in readiness for assignment to an in-flight status, which are not provided for otherwise on this schedule.

(2) Line 6 “Total Flying Operations (Less Rentals)” shall equal the sum of lines 3, 4 and 5.

(3) Line 7 “Maintenance-Flight Equipment” shall include the cost of labor, material and related overhead expended by the carrier to maintain flight equipment, general services purchased for flight equipment maintenance from associated or other outside companies, and provisions for flight equipment overhauls.

(4) Line 8 “Depreciation and Rental-Flight Equipment” expense shall include depreciation of flight equipment, amortization of capitalized leases for flight equipment, provision for obsolescence and deterioration of spare parts, and rental expense of flight equipment.

(5) Line 9 “Total Direct Expense” shall equal the sum of lines 6, 7 and 8.

(e) Line 10 Indirect aircraft operating expenses shall be reported only in total for all aircraft types and shall be segregated according to the following categories:

(1) Line 11 “Flight Attendant Expense” shall include flight attendants’ salaries, and related employee benefits, pensions, payroll taxes and personnel expenses.

(2) Line 12 “Traffic Related Expense” shall include “traffic solicitor salaries,
traffic commissions, passenger food expense, traffic liability insurance, advertising and other promotion and publicity expenses, and the fringe benefit expenses related to all salaries in this classification.

(3) Line 13 “Departure Related (Station) Expense” shall include aircraft and traffic handling salaries, landing fees, clearance, customs and duties, related fringe benefit expenses and maintenance and depreciation on ground property and equipment.

(4) Line 14 “Capacity Related Expense” shall include salaries and fringe benefits for general management personnel, recordkeeping and statistical personnel, lawyers and law clerks, and purchasing personnel; legal fees and expenses; stationery; printing; uncollectible accounts; insurance purchased-general; memberships; corporate and fiscal expenses; and all other expenses which cannot be identified or allocated to some other specifically identified indirect cost category.

(f) Line 15 “Total Indirect Expense” shall equal the sum of lines 11, 12, 13 and 14.

(g) Line 16 “Total Operating Expense” shall equal the sum of lines 9 and 15.

(b) The Office of Airline Information may waive any reporting requirements contained in §298.61, §298.62, §298.63 and §298.64 of this part, upon its own initiative or upon written request from any air carrier if the waiver is in the public interest and the request demonstrates that:

1. Unusual circumstances warrant such a departure;
2. A specifically defined alternative procedure or technique will result in a substantially equivalent or more accurate portrayal; and
3. The application of the alternative procedure will maintain or improve uniformity in reporting between air carriers.

§298.66 Reporting exemption for State collection of data.

(a) The Office of Airline Information may exempt a commuter air carrier from the reporting requirements of §298.61 of this part if a State government collects the information specified in that section and provides it to the Department by the dates specified. The data provided to the Department in this manner must be at least as reliable as if they were collected by the Department directly.

(b) The Office of Airline Information will provide assistance to any State agency interested in participating in this exemption program.

§298.65 Requests for extensions of time within which to file reports or for waivers from reporting requirements.

(a) If circumstances prevent the filing of BTS Form 298-C on or before the due date, a written request for an extension may be submitted. Except in cases of emergency, the request must be delivered to the BTS’s Office of Airline Information in writing at least three days in advance of the due date. The request must state good and sufficient reason to justify the granting of the extension and the date when the report can be filed. If the request is denied, the air carrier remains subject to the filing requirements to the same extent as if no request for extension of time had been made.

(b) The Office of Airline Information may waive any reporting requirements contained in §298.61, §298.62, §298.63 and §298.64 of this part, upon its own initiative or upon written request from any air carrier if the waiver is in the public interest and the request demonstrates that:

1. Unusual circumstances warrant such a departure;
2. A specifically defined alternative procedure or technique will result in a substantially equivalent or more accurate portrayal; and
3. The application of the alternative procedure will maintain or improve uniformity in reporting between air carriers.

§298.70 Public disclosure of data.

(a) Detailed domestic on-flight market data and nonstop segment data except military data shall be made publicly available after processing. Domestic data are defined as data from air transportation operations from a place in any State of the United States, the
Office of the Secretary, DOT § 298.80

District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands, or a U.S. territory or possession to a place in any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands, or a U.S. territory or possession. Domestic military operations are reported under service codes N or R.

(b) Detailed international on-flight market and nonstop segment data in Schedule T-100 and Schedule T-100(f) reports, except military data, shall be publicly available immediately following the Department’s determination that the database is complete, but no earlier than six months after the date of the data. Military operations are reported under service codes N or R. Data for on-flight markets and nonstop segments involving no U.S. points shall not be made publicly available for three years. Industry and carrier summary data may be made public before the end of six months or the end of three years, as applicable, provided there are three or more carriers in the summary data disclosed. The Department may, at any time, publish international summary statistics without carrier detail.

(c) Schedule F-1 “Report of Financial Data” shall be withheld from public release for a period of 3 years after the close of the calendar quarter to which the report relates.

(d) The Department may release nonstop segment and on-flight market detail data by carrier or individual Schedule F-1 “Report of Financial Data” before the end of the confidentiality period as follows:

(1) To foreign governments as provided in reciprocal arrangements between the foreign country and the U.S. Government for exchange of on-flight market and/or nonstop segment data submitted by air carriers of that foreign country and U.S. carriers serving that foreign country.

(2) To parties to any proceeding before the Department under Title IV of the Federal Aviation Act of 1958, as amended, as required by an Administrative Law Judge or other decision-maker of the Department. Parties may designate agents or consultants to receive the data in their behalf, provided the agents or consultants agree to abide by the disclosure restrictions. Any data to which access is granted pursuant to this provision may be introduced into evidence, subject to the normal rules of admissibility.

(3) To agencies or other components of the U.S. Government for their internal use only.

Subpart H—Violations § 298.80 Enforcement.

In case of any violation of the provisions of the Statute, or this part, or any other rule, regulation, or order issued under the Statute, the violator may be subject to a proceeding pursuant to section 46101 of the Statute before the Department, or sections 46106 through 46108 of the Statute before a U.S. District Court, as the case may be, to compel compliance therewith; or to civil penalties pursuant to the provisions of sections 46301 of the Statute; or, in the case of a willful violation, to criminal penalties pursuant to the provisions of section 46316 of the Statute; or other lawful sanctions including revocation of operating authority.

PART 300—RULES OF CONDUCT IN DOT PROCEEDINGS UNDER THIS CHAPTER

§ 300.0 Applicability.

The rules of conduct set forth in this part except as otherwise provided in this or any other DOT regulation shall govern the conduct of the parties and their representatives, and the relationships between the Office of the Secretary of Transportation, the Office of the Assistant Secretary for Aviation and International Affairs, and the Office of the General Counsel, including regular personnel, and officials, special Government employees, consultants, or experts under contract to the Department of Transportation (DOT) and administrative law judges (hereinafter referred to as “DOT employee(s)”) and all other persons in all DOT matters involving aviation economic and enforcement proceedings.

§ 300.0a Applicability of 49 CFR part 99.

(a) Except as provided in paragraph (b) of this section, each DOT employee involved in matters covered by this chapter shall comply with the rules on “Employee Responsibilities and Conduct” in 49 CFR part 99.

(b) The rules in this part shall be construed as being consistent with those in 49 CFR part 99. If a rule in this part is more restrictive than a rule in 49 CFR part 99, the more restrictive rule shall apply.

§ 300.1 Judicial standards of practice.

Certain of DOT’s functions involving aviation economic and enforcement proceedings are similar to those of a court, and parties to cases before DOT and those who represent such parties are expected—in fact and in appearance—to conduct themselves with honor and dignity as they would before a court. By the same token, any DOT employee or administrative law judge carrying out DOT’s quasi-judicial functions and any DOT employee making recommendations or advising them are expected to conduct themselves with the same fidelity to appropriate standards of propriety that characterize a court and its staff. The standing and effectiveness of DOT in carrying out its quasi-judicial functions are in direct relation to the observance by DOT,
§ 300.2 Prohibited communications.

(a) Basic requirement. Except as provided in paragraphs (c), (d), and (e) there shall be no substantive communication in either direction between any concerned DOT employee and any interested person outside DOT, concerning a public proceeding, until after final disposition of the proceeding, other than as provided by Federal statute or published DOT rule or order.

(b) Definitions. For purposes of this part:

(1) A “substantive communication” is any written or oral communication relevant to the merits of the proceeding.

(2) The “DOT decisionmaker” is defined in 14 CFR 302.2 and 302.18.

(3) A “concerned DOT employee” is a DOT employee who is or may reasonably be expected to be directly involved in a decision which is subject to a public proceeding.

(4) A “public proceeding” is one of the following:

(i) A hearing proceeding (i.e., proceeding conducted on-the-record after notice and opportunity for an oral evidentiary hearing as provided in §§302.17–302.38)

(ii) A rulemaking proceeding involving a hearing as described in paragraph (b)(4)(i) of this section or an exemption proceeding covered by this chapter. (Other rulemaking proceedings are covered by the ex parte communication policies of DOT Order 2100.2.)

(iii) A tariff filing after DOT has ordered an investigation or a complaint has been filed or docketed.

(iv) A proceeding initiated by DOT show-cause order, after the filing in the docket of an identifiable written opposition to the order’s tentative findings.

(v) Any other proceeding initiated by a docket filing, other than a petition for generally applicable rulemaking, after the filing in the docket of an identifiable written opposition to the initiating document.

(c) General exceptions. Paragraph (a) of this section shall not apply to the following:

(1) Informal communications between legal counsel, including discussions about stipulations and other communications considered proper in Federal court proceedings.

(2) Information given to a DOT employee who is participating in a hearing case on behalf of an office that is a party, to another DOT employee who is reviewing that work, or to his or her supervisors within that office.

(3) Communications made in the course of an investigation to determine whether formal enforcement action should be begun.

(4) Settlement discussions and mediation efforts.

(5) Information given at the request of a DOT employee acting upon a specific direction of DOT, in a case other than a hearing proceeding as described in paragraphs (b)(4) (i) and (ii) (a “non-hearing case”), where DOT has decided that emergency conditions exist and this rule would otherwise prevent the obtaining of needed information in a timely manner.

(6) Information given at the request of a DOT employee in a nonhearing case that is to be decided within 30 days after the filing of the initiating document.

(7) Nonhearing cases that are to be decided within 30 days after the filing of the initiating document.

(8) Nonhearing cases arising under 49 U.S.C. 41731–42.

(9) In nonhearing cases, communications with other Federal agencies not exempted by paragraph (e) of this section, provided the agencies have not participated as parties in the proceeding by making filings on-the-record.

(10) Information given at the request of a DOT career employee in the course of investigating or clarifying information filed, or pursuant to a waiver granted to an applicant or other interested person, in docketed proceedings involving determinations of fitness and/or U.S. citizenship only, for that portion of the proceeding that precedes the issuance of a show-cause order or
an order instituting a formal proceeding. Motions for such waivers and any answers shall be filed in the applicable docket in accordance with §302.11 of the Department’s Procedural Regulations (14 CFR 302.11) and served upon all parties to the proceeding.

(d) Status and expedition requests. Paragraph (a) of this section shall not apply to oral or written communications asking about the status, or requesting expeditious treatment, of a public proceeding. However, any request for expeditious treatment should be made in accordance with the Rules of Practice, particularly Rule 11, §302.11 of this chapter.

(e) National defense and foreign policy. In nonhearing cases, paragraph (a) of this section shall not apply to communications concerning national defense or foreign policy matters, including international aviation matters. In hearing cases, any communications on those subjects that would be barred by paragraph (a) of this section are permitted if the communicator’s position with respect thereto cannot otherwise be fairly presented, but such communications shall not be included as part of the record on which decisions must be made.

(f) Communications not considered. A communication in violation of this section shall not be considered part of a record, or included as available material, for decision in any proceeding.

§300.3 Reporting of communications.

(a) General. The following types of substantive communication shall be reported as specified in paragraph (b) of this section:

(1) Any communication in violation of §300.2(a) of this chapter.

(2) Information given upon determination of an emergency under §300.2(c)(5) of this chapter.

(3) Information given at the request of a DOT employee in a tariff matter under §300.2(c)(6) of this chapter.

(4) Communications in nonhearing cases to be decided within 30 days under §300.2(c)(7) of this chapter.

(5) Communications in nonhearing cases arising under 49 U.S.C. 41731–42, made under §300.2(c)(8).

(b) Public filing. (1) A written communication shall be placed onto the electronic docket management system (DMS) in the file of the docket number corresponding to the proceeding, which shall be available for inspection and copying during business hours in Office of Docket Operations and Media Management.

(2) An oral communication shall be summarized by the DOT employee receiving it. One copy shall be put into a public file as described in paragraph (b)(1) of this section, and another copy shall be mailed to the communicator.

(3) Electronic copies of written communications and oral summaries shall be posted to the DOT’s electronic docket. Such docketed materials may be searched, viewed, and downloaded through the Internet at http://dms.dot.gov.

(4) Copies of all filings under this part dealing with discontinuances or reductions of air transportation shall be mailed to the directly affected local communities, State agencies, and airport managers.

(c) Status and expedition requests. A DOT decisionmaker who receives a communication asking about the status or requesting expeditious treatment of a public proceeding, other than a communication concerning national defense or foreign policy (including international aviation), shall either:

(1) Refer the communicator to Office of Docket Operations and Media Management.

(2) If the DOT decisionmaker responds by advising on the status, put a memorandum describing the exchange in the public file as described in paragraph (b)(1) of this section.

§300.4 Separation of functions in hearing cases.

(a) This section applies after the initiation of a hearing or enforcement case by the Department.

(b) A DOT employee who is participating in a hearing case on behalf of an
office that is a party, another DOT employee who is in fact reviewing the position taken, or who has participated in developing the position taken in that case, or, in cases involving accusatory or disciplinary issues (including all enforcement cases) such employees’ supervisors within that office, shall have no substantive communication with any DOT decisionmaker, administrative law judge in the case, or other DOT employee advising them, with respect to that or any factually related hearing case, except in accordance with a published DOT rule or order. In addition, each bureau or office supervisor of a DOT employee who is participating in a hearing case on behalf of that office when it is a party shall have no substantive communication with any administrative law judge in the case, or DOT employee advising the judge, in that or any factually related hearing case, except in accordance with a published DOT rule or order. For each hearing case, bureau or office heads shall maintain a publicly available record of those employees who are participating or are in fact reviewing the position taken in that case.

(c) In hearing cases involving fares or rates, or applications for a certificate or permit under 49 U.S.C. 41102 and 41302, or applications by a holder for a change in a certificate or permit, a supervisor who would not be permitted to advise the DOT decisionmaker under paragraph (a) may advise the DOT decisionmaker in the following manner: The supervisor’s advice must either be made orally in an open DOT meeting or by a memorandum placed in the docket or other public file of such matter. Oral advice must be summarized in writing by the supervisor and placed in the docket or file of the matter. A copy of such written memorandum or summary of oral advice must be served on each party to the proceeding within 3 business days after such advice is given to the concerned DOT decisionmaker. Each of the parties may comment in writing on such advice within 5 business days after service or the summary. In no event, however, may a supervisor advise the DOT decisionmaker if he or she acted as the office’s counsel or witness in the matter.

(d) In enforcement cases, the Office of the Assistant General Counsel for Aviation Enforcement and Proceedings, under the supervision of the Deputy General Counsel, will conduct all enforcement proceedings and related investigative functions, while the General Counsel will advise the DOT decisionmaker in the course of the decisional process. The Office of the Assistant General Counsel for Aviation Enforcement and Proceedings will report to the Deputy General Counsel. To ensure the independence of these functions, this Office and the Deputy General Counsel, for the purpose of this section, shall be considered an “office” as that term is used in paragraph (a), separate from the General Counsel and the rest of the Office of the General Counsel.

[Docket No. 82, 50 FR 2380, Jan. 16, 1985, as amended at 60 FR 43528, Aug. 22, 1995]

Every person representing a client in matters before DOT in all contacts with DOT employees, should:

(a) Strictly observe the standards of professional conduct;

(b) Refrain from statements or other actions designed to mislead DOT or to cause unwarranted delay;

(c) Avoid offensive or intemperate behavior;

(d) Advise all clients to avoid improprieties and to obey the law as the attorney believes it to be; and

(e) Terminate the professional relationship with any client who persists in improprieties in proceedings before DOT.

§ 300.7 Conciseness.

Every oral or written statement made in a DOT proceeding shall be as

(a) No person, otherwise than as provided by law for the proper discharge of official duty, shall directly or indirectly give, offer, or promise anything of value to any DOT employee for or because of any official act performed or to be performed by such DOT employee (18 U.S.C. 201).

(b) Subject to 49 CFR part 99, it is improper for persons interested in the business of DOT to provide hospitality, gifts, entertainment, or favors to any DOT employee.

(c) Persons interested in the business of DOT should familiarize themselves with (49 CFR part 99), in order that they shall not encourage or cause any violation of the provisions of that part by any DOT employee.

§ 300.9 Permanent disqualification of employees from matters in which they personally participated before joining DOT or the Civil Aeronautics Board.

Any DOT employee shall permanently disqualify himself or herself from participation in every matter before the Department in which he or she previously personally and substantially participated for an interested person or entity, including other agencies of the United States Government, before joining the DOT or the Civil Aeronautics Board. Such disqualification shall be applicable also if a person is closely related to a DOT employee as partner, associate, employer, or the like, personally and substantially participated in a matter before DOT prior to the employee’s employment by the Department or the Civil Aeronautics Board and the circumstances were such that the DOT employee’s subsequent participation in the matter as a DOT employee could fairly be said to create the appearance that his or her participation would be affected by his or her prior relationship. Notwithstanding the foregoing, the disqualification of any DOT employee whose prior “official responsibility” or relationship to one with such responsibility occurred on behalf of another agency of the United States Government shall only be applicable with respect to issues on which the prior governmental employer took a position in the proceeding unless participation could fairly be said to create the appearance that his or her participation would be affected by his or her prior relationship.

§ 300.10 Temporary disqualification of employees from matters in which they had official responsibility before joining DOT.

Any DOT employee shall temporarily disqualify himself or herself from participation in any matter before DOT if he or she represented, was associated with or was employed by an interested person or entity including other agencies of the United States Government before joining DOT, and, although he or she did not personally and substantially participate in the matter, the matter was within his or her “official responsibility,” as that term is defined in §300.14 of this chapter except that the action referred to therein shall be private action as well as “Government” action. Such disqualification shall be applicable also if a person closely related to the DOT employee as partner, associate, employer, or the like, who, while not personally and substantially participating in the matter, had it within his or her “official responsibility” as that term is defined in §300.14 of this chapter, and modified above, and the circumstances are such that the DOT employee’s subsequent participation in the matter as a DOT employee could fairly be said to create the appearance that his or her participation would be affected by his or her prior relationship. Notwithstanding the foregoing, the disqualification of any DOT employee whose prior “official responsibility” or relationship to one with such responsibility occurred on behalf of another agency of the United States Government shall only be applicable with respect to issues on which the prior governmental employer took a position in the proceeding. The temporary disqualification shall run for a period of one year.
§ 300.15 Opinions or rulings by the General Counsel.

(a) The General Counsel is authorized to render opinions or rulings to the public on the application of the provisions of this part. When written request is made for such opinions and rulings, they shall be transmitted to DOT and shall be available to the public in the Documentary Services Division after any appeal to or review by the Secretary has been completed or after the time for review has expired. Identifying details shall normally be stricken from copies available to the public unless the public interest requires disclosure of such details.

(b) If any person is disqualified from a particular proceeding under the provisions of §§300.9, 300.10, 300.13, 300.14, and 300.17 of this chapter by a ruling of the General Counsel, or by such person’s own action, such disqualification shall be memorialized in a writing filed

[Docket No. 82, 50 FR 2380, Jan. 16, 1985, as amended at 60 FR 43528, Aug. 22, 1995]

§ 300.10a Permanent and temporary disqualification of DOT employees.

The terms of §§300.9 and 300.10 shall not be construed to apply to DOT employees who previously personally and substantially participated in matters before the Board, which have become the subject of DOT proceedings.

§ 300.11 Disqualification of Government officers and employees.

No officer or employee of the Federal Government, other than a “special Government employee” as defined in 18 U.S.C. 202, shall represent anyone, other than in the proper discharge of his or her official duties, in any DOT proceeding or matter in which the United States is a party or has a direct and substantial interest.

(18 U.S.C. 205)

§ 300.12 Practice of special Government employees permitted.

A special Government employee, who qualifies as such under the provisions of 18 U.S.C. 202(a), may participate in DOT proceedings only to the extent and in the manner specified in 18 U.S.C. 205.

§ 300.13 Permanent disqualification of former Civil Aeronautics Board members and employees and DOT employees from matters in which they personally participated.

No former Board member or employee or DOT employee shall act as agent or attorney before DOT for anyone other than the United States in connection with any proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, or other particular matter, involving a specific party or parties, in which the United States is a party or has a direct and substantial interest and in which he or she participated personally and substantially through decision, approval, disapproval, recommendation, rendering of advice, investigation, or otherwise as a Board member or employee or DOT employee.

(18 U.S.C. 207(a))

§ 300.14 Temporary disqualification of former DOT employees from matters formerly under their official responsibility.

Within one year after termination of employment with DOT, no former DOT employee shall appear personally before DOT on behalf of any person other than the United States in any DOT proceeding or matter in which the United States is a party or has a direct and substantial interest and which was under his or her official responsibility at any time within one year preceding termination of such responsibility. The term “official responsibility” means the direct administrative or operating authority, whether intermediate or final, and either exercisable alone or with others, and either personally or through subordinates, to approve, disapprove, or otherwise direct Government action.

(18 U.S.C. 202(b), 207(b))

[Docket No. 82, 50 FR 2380, Jan. 16, 1985, as amended at 60 FR 43528, Aug. 22, 1995]

§ 300.15 Opinions or rulings by the General Counsel.

(a) The General Counsel is authorized to render opinions or rulings to the public on the application of the provisions of this part. When written request is made for such opinions and rulings, they shall be transmitted to DOT and shall be available to the public in the Documentary Services Division after any appeal to or review by the Secretary has been completed or after the time for review has expired. Identifying details shall normally be stricken from copies available to the public unless the public interest requires disclosure of such details.

(b) If any person is disqualified from a particular proceeding under the provisions of §§300.9, 300.10, 300.13, 300.14, and 300.17 of this chapter by a ruling of the General Counsel, or by such person’s own action, such disqualification shall be memorialized in a writing filed
§ 300.16 Waivers.

(a) A former Board member, Board employee or DOT employee with outstanding scientific or technological qualifications who is disqualified from acting in a representative capacity under the provisions of §300.13 or §300.14 of this chapter may nevertheless participate in a proceeding in a scientific or technological field pursuant to the terms of a certificate issued in compliance with the proviso following 18 U.S.C. 207 (a) and (b).

(b) An employee who believes his or her prior employment relationships will not affect the integrity of his or her services may request that the prohibition of §300.9 or §300.10 of this chapter be waived by the appropriate Ethics Counselor under 49 CFR 99.735–71.

§ 300.17 Disqualification of partners of DOT employees.

No partner of a DOT employee shall act as agent or attorney for anyone other than the United States in any DOT proceeding or matter in which such employee participates or has participated personally and substantially through decision, approval, disapproval, recommendation, rendering advice, investigation, or otherwise, or which is the subject of his or her official responsibility.

§ 300.18 Motions to disqualify DOT employee in review of hearing matters.

In cases to be determined on an evidentiary record, a party desiring that a concerned DOT employee disqualify himself or herself from participating in a DOT decision shall file a motion supported by an affidavit setting forth the grounds for such disqualification in the form and within the periods prescribed in §302.11 of this chapter. Where review of the administrative law judge’s decision can be obtained only upon the filing of a petition for discretionary review, such motions must be filed on or before the date answers are due pursuant to §302.32. In cases where exceptions are filed to recommended, initial, or tentative decisions or where the DOT decisionmaker orders review of an initial or recommended decision on his or her own initiative, such motions must be filed on or before the date briefs are due pursuant to §302.35 or §302.218, as applicable. Failure to file a timely motion will be deemed a waiver of disqualification. Applications for leave to file an untimely motion seeking disqualification of a concerned DOT employee must be accompanied by an affidavit setting forth in detail why the facts relied upon as grounds for disqualification were not known and could not have been discovered with reasonable diligence within the prescribed time.

§ 300.19 Use of confidential information.

No former CAB member or employee or DOT employee, or any person associated with him or her, shall ever use or undertake to use in any DOT proceeding or matter any confidential facts or information which came into the possession of such Member or employee or to his or her attention by reason of his or her employment with the CAB or DOT without first applying for and obtaining the consent of the appropriate ethics counselor for the use of such facts or information.

§ 300.20 Violations.

(a) DOT may disqualify, and deny temporarily or permanently the privilege of appearing or practicing before it in any way to, any person who is found by DOT after written notice of charges and hearing to have engaged in unethical or improper professional conduct. Any violation of this part shall be deemed to be such conduct.

(b) When appropriate in the public interest, DOT may deny any application or other request of a party in a proceeding subject to this part where DOT finds after hearing that such party has, in connection with any DOT proceeding, violated any of the provisions of this part or any of the provisions of Chapter 11 of Title 18 of the United States Code. DOT may also condition its further consideration of such party’s application or other request or the effectiveness of any order granting such application or other request upon
Office of the Secretary, DOT

such party’s first taking such action as DOT may deem necessary or appropriate to remedy the violation of this part or Chapter 11 of Title 18 of the United States Code to prevent or deter any repetition of such violation. DOT may in addition issue a cease and desist order against any repetition of such or similar misconduct.

(c) The actions authorized by this section may take place within the framework of the matter during or concerning which the violations occur or in a separate matter, as the DOT decisionmaker or the presiding administrative law judge may direct. A complaint alleging that a violation has occurred in the course of a matter shall be filed in the docket or appropriate public file of such matter unless such complaint is made after DOT’s decision of the matter has become final, in which event such complaint may be filed pursuant to part 302, subpart D of the rules of practice. A violation in the course of a matter which may be attributable to or affect the fitness of a party will ordinarily either be disposed of within the framework of such matter or be considered within the context of any subsequent matter involving the interests of such party. Other violations will ordinarily be disposed of in a separate proceeding.

(d) In the case of any violation of the provisions of this part, the violator may be subject to civil penalties under the provisions of 49 U.S.C. 46301. The violator may also be subject to a proceeding brought under 49 U.S.C. 46101 before the Department, or sections 46106 through 46108 of the Statute before a U.S. District Court, as the case may be, to compel compliance with civil penalties which have been imposed.

APPENDIX A TO PART 302—INDEX TO RULES OF PRACTICE

SOURCE: Docket No. OST–97–2090, 65 FR 6457, Feb. 9, 2000, unless otherwise noted.

§ 302.1 Applicability and description of part.

(a) Applicability. This part governs the conduct of all aviation economic proceedings before the Department whether instituted by order of the Department or by the filing with the Department of an application, complaint, petition, motion, or other authorized or required document. This part also contains delegations to administrative law judges and to the DOT decisionmaker of the Department’s function to render the agency decision in certain cases and the procedures for review of those decisions. This part applies unless otherwise specified by order of the Department.

(b) Description. Subpart A of this part sets forth general rules applicable to all types of proceedings. Each of the other subparts of this part sets forth special rules applicable to the type of proceedings described in the title of the subpart. Therefore, for information as to applicable rules, reference should be made to subpart A and to the rules in the subpart relating to the particular type of proceeding, if any. In addition, reference should be made to Subtitle VII of Title 49 of the United States Code (Transportation) (the Statute”), and to the substantive rules, regulations and orders of the Department relating to the proceeding. Whenever there is any conflict between one of the general rules in subpart A and a special rule in another subpart applicable to a particular type of proceeding, the special rule will govern.

(c) Reference to part and method of citing rules. This part may be referred to as the “Rules of Practice”. Each section, and any paragraph or subparagraph thereof, may be referred to as a “Rule”. The number of each rule need include only the numbers and letters at the right of the decimal point. For example, “302.7 Service of documents”, may be referred to as “Rule 7”.

§ 302.2 Definitions.

Administrative law judge as used in this part means an administrative law judge appointed pursuant to 5 U.S.C. 3105.

DOT Decisionmaker as used in this part is the official authorized to issue final decisions of the Department as set forth in § 302.18. This includes the Assistant Secretary for Aviation and International Affairs, the senior career official in the Office of the Assistant Secretary for Aviation and International Affairs, the Deputy Secretary, and the Secretary.

Hearing case or oral hearing case means any proceeding that the Department has determined will be conducted on the record using oral evidentiary procedures subject to 5 U.S.C. 556 and 557.

Non-hearing case means any proceeding not involving oral evidentiary procedures.

Party as used in this part includes the person initiating a proceeding, such as an applicant, complainant, or petitioner; any person filing an answer to such filing; and any other persons as set forth in § 302.18.

Statute when used in this chapter means Subtitle VII of Title 49 of the United States Code (Transportation).

Subpart A—Rules of General Applicability

§ 302.3 Filing of documents.

(a) Filing address, date of filing, hours.

(1) Documents required by any section
of this part to be filed with the Department must be filed with Department of Transportation Dockets at the Department’s offices in Washington, DC. Documents may be filed either on paper or by electronic means using the process set at the DOT Dockets Management System (DMS) internet website.

(2) Such documents will be deemed to be filed on the date on which they are actually received by the Department. Documents must be filed between the hours of 9:00 a.m. and 5:00 p.m., eastern standard or daylight saving time, whichever is in effect in the District of Columbia at the time, Monday to Friday, inclusive, except on legal holidays. Electronic filings may be made at any time under the process set by the Department. Electronic filings that are received after the specified Dockets Facility hours shall be deemed to be constructively received on the next Dockets Facility business day.

(b) Formal specifications of documents. (1) Documents filed under this part must be on white paper not larger than 8 ½ by 11 inches, including any tables, charts and other documents that may be included. Ink must be black to provide substantial contrast for scanning and photographic reproduction. Text must be double-spaced (except for footnotes and long quotations which may be single-spaced) using type not smaller than 12 point. The left margin must be at least 1 ½ inches; all other margins must be at least 1 inch. The title page and first page must bear a clear date and all subsequent pages must bear a page number and abbreviated heading. In order to facilitate automated processing in document sheet feeders, documents of more than one page should be held together with removable metal clips or similar retainers. Original documents may not be bound in any form or include tabs, except in cases assigned by order to an Administrative Law Judge for hearing, in which case the filing requirements will be set by order. Section 302.35 contains additional requirements as to the contents and style of briefs.

(2) Papers may be reproduced by any duplicating process, provided all copies are clear and legible. Appropriate notes or other indications must be used, so that the existence of any matters shown in color on the original will be accurately indicated on all copies.

(c) Number of copies. Unless otherwise specified, an executed original, along with the number of true copies set forth below for each type of proceeding, must be filed with Department of Transportation Dockets. The copies filed need not be signed, but the name of the person signing the original document, as distinguished from the firm or organization he or she represents, must also be typed or printed on all copies below the space provided for signature. § 302.5 Amendment of documents.

(a) An application may be amended prior to the filing of answers thereto, or, if no answer is filed, prior to the issuance of an order establishing further procedures, disposing of the application, or setting the case for hearing. Thereafter, applications may be amended only if leave is granted pursuant to the procedures set forth in §302.11.

(b) Except as otherwise provided, if properly amended, a document and any statutory deadline shall be made effective as of the date of original filing but the time prescribed for the filing of an answer or any further responsive document directed towards the amended document shall be computed from the date of the filing of the amendment.

§ 302.6 Responsive documents.

(a) Answers. Answers to applications, complaints, petitions, motions or other documents or orders instituting proceedings may be filed by any party. In hearing cases, answers may be filed by any party to such proceedings or any person who has a petition for intervention pending. Except as otherwise provided, answers are not required.

(b) Further responsive documents. Except as otherwise provided, a reply to an answer, reply to a reply, or any further responsive document is not authorized.

(c) Motions for leave to file otherwise unauthorized documents. (1) The Department will accept otherwise unauthorized documents for filing only if leave has been obtained from the DOT decisionmaker or, if applicable, the administrative law judge, on written motion and for good cause shown.

(2) Such motions shall contain a concise statement of the matters relied upon as good cause and shall be attached to the pleading or other document for which leave to file is sought, or the written motion may be incorporated into the otherwise unauthorized document for which admission is sought. In such event, the document filed shall be titled to describe both the motion and the underlying documents.

(3) Where unauthorized responsive documents are not permitted, all new matter contained in an answer filed pursuant to paragraph (a) of this section shall be deemed controverted.

(d) Time for filing. Except as otherwise provided, an answer, motion, or other further responsive document shall be filed within seven (7) days after service of any document, order, or ruling to which the proposed filing is responsive and must be served on all parties to the proceeding.

§ 302.7 Service of documents.

(a) Who makes service—(1) The Department. Formal complaints, notices, orders, and similar documents issued by the Department will be served by the Department upon all parties to the proceeding.

(2) The parties. Answers, petitions, motions, briefs, exceptions, notices, protests, or memoranda, or any other documents filed by any party or other person with the Department shall be served by such party or other person upon all parties to the proceeding in which it is filed; including, where applicable, all persons who have petitioned for intervention in, or consolidation of applications with, such proceeding. Proof of service shall accompany all documents when they are filed. The Department may require additional service of any document(s).

(b) How service may be made. Service may be made by first class mail, express mail, registered or certified mail, facsimile transmission, personal delivery, or by electronic mail. The Department may prescribe other means of service by order or notice. The means of service selected must be done in such manner so as to have the same attributes as section 46103 of the Statute, which provides for service of notices and processes in a proceeding by personal service or registered or certified mail.

(c) Who may be served. Service upon a party or person may be made upon an individual, or upon a member of a partnership or firm to be served, or upon the president or other officer of the corporation, company, firm, or association to be served, or upon the assignee...
or legal successor of any of the foregoing, or upon any attorney of record for the party, or upon the agent designated by an air carrier or foreign air carrier under section 46103 of the Statute, but it shall be served upon a person designated by a party to receive service of documents in a particular proceeding in accordance with §302.4(a)(2)(iv) once a proceeding has been commenced.

(d) Where service may be made. Service shall be made at the principal place of business of the party to be served, or at his or her usual residence if he or she is an individual, or at the office of the party's attorney of record, or at the office or usual residence of the agent designated by an air carrier or foreign air carrier under section 46103 of the Statute, or at the post office or electronic address or facsimile number stated for a person designated to receive service pursuant to §302.4(a)(2)(iv).

(e) Proof of service. Proof of service of any document shall consist of one of the following:

(1) A certificate of mailing executed by the person mailing the document.

(2) A certificate of successful transmission executed by the person transmitting the document by facsimile or electronic mail, listing the facsimile numbers or electronic mail address to which the document was sent, and stating that no indication was received that any transmission had failed. In the event of an electronic transmission failure, any other authorized means of service may be substituted and the appropriate proof of service provided.

(f) Date of service. The date of service by post office or electronic mail is the date of mailing. Whenever proof of service by personal delivery or facsimile transmission is made, the date of such delivery or facsimile transmission shall be the date of service.

(g) Freely Associated State Proceedings. In any proceeding directly involving air transportation to the Federated States of Micronesia, the Marshall Islands, or Palau, the Department and any party or participant in the proceeding shall serve all documents on the President and the designated authorities of the government(s) involved. This requirement shall apply to all proceedings where service is otherwise required, and shall be in addition to any other service required by this chapter.

§ 302.8 Computation of time.

In computing any period of time prescribed or allowed by this part, by notice, order or regulation or by any applicable statute, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Saturday, Sunday, or legal holiday for the Department, in which event the period runs until the end of the next day that is neither a Saturday, Sunday, nor holiday. When the period of time prescribed is seven (7) days or fewer, intermediate Saturdays, Sundays, and holidays shall be excluded in the computation, unless otherwise specified by the DOT decisionmaker or the administrative law judge assigned to the proceeding, as the case may be.

§ 302.9 Continuances and extensions of time.

(a) Whenever a party has the right or obligation to take action within a period prescribed by this part, by a notice given thereunder, or by an order or regulation, the DOT decisionmaker or the administrative law judge assigned to the proceeding, as appropriate, may:

(1) Before the expiration of the prescribed period, with or without notice, extend such period, or

(2) Upon motion, permit the act to be done after the expiration of the specified period, where good cause for the failure to act on time is clearly shown.

(b) Except where an administrative law judge has been assigned to a proceeding, requests for continuance or extensions of time, as described in paragraph (a) of this section, shall be directed to the DOT decisionmaker. Requests for continuances and extensions of time may be directed to the Chief Administrative Law Judge in the absence of the administrative law judge assigned to the proceeding.

§ 302.10 Parties.

(a) In addition to the persons set forth in §302.2, in hearing cases, parties
§302.11 Motions.

(a) Generally. An application to the DOT decisionmaker or an administrative law judge for an order or ruling not otherwise specifically provided for in this part shall be by motion. If an administrative law judge is assigned to a proceeding and before the issuance of a recommended or initial decision or the certification of the record to the DOT decisionmaker, all motions shall be addressed to the administrative law judge. At all other times, motions shall be addressed to the DOT decisionmaker. All motions shall be made at an appropriate time depending upon the nature thereof and the relief requested therein. This paragraph should not be construed as authorizing motions in the nature of petitions for reconsideration.

(b) Form and contents. Unless made during a hearing, motions shall be made in writing in conformity with §§302.3 and 302.4, shall state their grounds and the relief or order sought, and shall be accompanied by any affidavits or other evidence desired to be relied upon. Motions made during hearings, answers to them, and rulings on them, may be made orally on the record unless the administrative law judge directs otherwise. Written motions shall be filed as separate documents, and shall not be incorporated in any other documents, except where incorporation of a motion in another document is specifically authorized by the Department, or where a document is filed that requests alternative forms of relief and one of these alternative requests is properly to be made by motion. In these instances the document filed shall be appropriately titled and identified to indicate that it incorporates a motion; otherwise, the motion will be disregarded.

(c) Answers to motions. Within seven (7) days after a motion is served, or such other period as the DOT decisionmaker or the administrative law judge may fix, any party to the proceeding may file an answer in support of or in opposition to the motion, accompanied by such affidavits or other evidence as it desires to rely upon. Except as otherwise provided, no reply to an answer, reply to a reply, or any further responsive document shall be filed.

(d) Oral arguments; briefs. No oral argument will be heard on motions unless the DOT decisionmaker or the administrative law judge otherwise directs. Written memoranda or briefs may be filed with motions or answers to motions, stating the points and authorities relied upon in support of the position taken.

(e) Requests for expedition. Any interested person may by motion request expedition of any proceeding or file an answer in support of or in opposition to such motions.

(f) Effect of pendency of motions. The filing or pendency of a motion shall not automatically alter or extend the time to take action fixed by this part or by any order of the Department or of an administrative law judge (or any extension granted thereunder).
(g) Disposition of motions. The DOT decisionmaker shall pass upon all motions properly submitted to him or her for decision. The administrative law judge shall pass upon all motions properly addressed to him or her, except that, if the administrative law judge finds that a prompt decision by the DOT decisionmaker on a motion is essential to the proper conduct of the proceeding, the administrative law judge may refer such motion to the DOT decisionmaker for decision.

(b) Appeals to the DOT decisionmaker from rulings of administrative law judges. Rulings of administrative law judges on motions may not be appealed to the DOT decisionmaker prior to his or her consideration of the entire proceeding except in extraordinary circumstances and with the consent of the administrative law judge. An appeal shall be disallowed unless the administrative law judge finds, either on the record or in writing, that the allowance of such an appeal is necessary to prevent substantial detriment to the public interest or undue prejudice to any party. If an appeal is allowed, any party may file a brief with the DOT decisionmaker prior to his or her consideration of the entire proceeding or at any other appropriate time irrespective of the filing of an appeal or any action taken on it.

§ 302.12 Objections to public disclosure of information.

(a) Generally. Part 7 of the Office of the Secretary regulations, Public Availability of Information, governs the availability of records and documents of the Department to the public. (49 CFR 7.1 et seq.)

(b) Information contained in written documents. Any person who objects to the public disclosure of any information filed in any proceeding, or pursuant to the provisions of the Statute, or any Department rule, regulation, or order, shall segregate, or request the segregation of, such information into a separate submission and shall file it separately in a sealed envelope, bearing the caption of the enclosed submission, and the notation “Confidential Treatment Requested Under §302.12.” At the time of filing such submission (or, when the objection is made by a person who is not the filer, within five (5) days after the filing of such submission), the objecting party shall file a motion to withhold the information from public disclosure, in accordance with the procedure outlined in paragraph (d) or (f) of this section, as appropriate. Notwithstanding any other provision of this section, copies of the filed submission and of the motion need not be served upon any other party unless so ordered by the Department.

(c) Information contained in oral testimony. Any person who objects to the public disclosure of any information sought to be elicited from a witness or deponent on oral examination shall, before such information is disclosed, make his or her objection known. Upon such objection duly made, the witness or deponent shall be compelled to disclose such information only in the presence of the administrative law judge or the person before whom the deposition is being taken, as the case may be, the official stenographer and such attorneys for and representative of each party as the administrative law judge or the person before whom the deposition is being taken shall designate, and after all present have been sworn to secrecy. The transcript of testimony containing such information shall be segregated and filed in a sealed envelope, bearing the title and docket number of the proceeding, and the notation “Confidential Treatment Requested Under §302.12 Testimony Given by (name of witness or deponent).” Within five (5) days after such testimony is given, the objecting person shall file a motion in accordance with the procedure outlined in paragraph (d) of this section, to withhold the information from public disclosure. Notwithstanding any other provision of this section, copies of the segregated portion of the transcript and of the motion need not be served upon any other party unless so ordered by the Department.
§ 302.13 Consolidation of proceedings.

(a) Initiation of consolidations. The Department, upon its own initiative or upon motion, may consolidate for hearing or for other purposes or may contemporaneously consider two or more proceedings that involve substantially the same parties, or issues that are the same or closely related, if it finds that such consolidation or contemporaneous consideration will be conducive to the proper dispatch of its business and to the ends of justice and will not unduly delay the proceedings. Although the Department may, in any particular case, consolidate or contemporaneously consider two or more proceedings on its own motion, the burden of seeking consolidation or contemporaneous consideration of a particular application shall rest upon the applicant and the Department will not undertake to search its docket for all applications that might be consolidated or contemporaneously considered.

(b) Time for filing. Unless the Department has provided otherwise in a particular proceeding, a motion to consolidate or contemporaneously consider an application with any other application shall be filed within 21 days of the original application in the case of international route awards under section 41102 of the Statute (see §302.212), or, where a proceeding has
§ 302.14 Petitions for reconsideration.

(a) Department orders subject to reconsideration; time for filing. (1) Unless an order or a rule of the Department specifically provides otherwise:

(i) Any interested person may file a petition for reconsideration of any interlocutory order issued by the Department that institutes a proceeding; and

(ii) Any party to a proceeding may file a petition for reconsideration, rehearing, or reargument of final orders issued by the Department (See §302.38), or an interlocutory order that defines the scope and issues of a proceeding or suspends a provision of a tariff on file with the Department.

(2) Unless otherwise provided, petitions for reconsideration shall be filed, in the case of a final order, within twenty (20) days after service thereof, and, in the case of an interlocutory order, within ten (10) days after service. However, neither the filing nor the granting of such a petition shall operate as a stay of such final or interlocutory order unless specifically so ordered by the DOT decisionmaker. Within ten (10) days after a petition for reconsideration, rehearing, or reargument is filed, any party to the proceeding may file an answer in support of or in opposition. Motions for extension of time to file a petition or answer, and for leave to file a petition or answer after the time for the filing has expired, will not be granted except on a showing of unusual and exceptional circumstances, constituting good cause for the movant’s inability to meet the established procedural dates.

(b) Contents of petition. A petition for reconsideration, rehearing, or reargument shall state, briefly and specifically, the matters of record alleged to have been erroneously decided, the ground relied upon, and the relief sought. If a decision by the Secretary or Deputy Secretary is requested, the petition should describe in detail the reasons for such request and specify any important national transportation policy issues that are presented. If the petition is based, in whole or in part, on allegations as to the consequences that would result from the final order, the basis of such allegations shall be set forth. If the petition is based, in whole or in part, on new matter, such new matter shall be set forth, accompanied by a statement to the effect that petitioner, with due diligence, could not have known or discovered such new matter prior to the date the case was submitted for decision. Unless otherwise directed by the DOT decisionmaker upon a showing of unusual or exceptional circumstances, petitions for reconsideration, rehearing or reargument or answers thereto that exceed twenty-five (25) pages (including appendices) in length shall not be accepted for filing by Department of Transportation Dockets.

(c) Successive petitions. A successive petition for rehearing, reargument, reconsideration filed by the same party or person, and upon substantially the same ground as a former petition that has been considered or denied will not be entertained.
§ 302.15 Non-hearing procedures.

In cases where oral evidentiary hearing procedures will not be used, §302.17 through §302.37, relating to hearing procedures, shall not be applicable except to the extent that the DOT decisionmaker shall determine that the application of some or all of such rules in the particular case will be conducive to the proper dispatch of its business and to the public interest. References in these and other sections of this part to powers or actions by administrative law judges shall not apply.

§ 302.16 Petitions for rulemaking.

Any interested person may petition the Department for the issuance, amendment, modification, or repeal of any regulation, subject to the provisions of part 5, Rulemaking Procedures, of the Office of the Secretary regulations (49 CFR 5.1 et seq.).

§ 302.17 Administrative law judges.

(a) Powers and delegation of authority.
(1) An administrative law judge shall have the following powers, in addition to any others specified in this part:
   (i) To give notice concerning and to hold hearings;
   (ii) To administer oaths and affirmations;
   (iii) To examine witnesses;
   (iv) To issue subpoenas and to take or cause depositions to be taken;
   (v) To rule upon offers of proof and to receive relevant evidence;
   (vi) To regulate the course and conduct of the hearing;
   (vii) To hold conferences before or during the hearing for the settlement or simplification of issues;
   (viii) To rule on motions and to dispose of procedural requests or similar matters;
   (ix) To make initial or recommended decisions as provided in §302.31;
   (x) To take any other action authorized by this part or by the Statute.

(b) Disqualification. An administrative law judge shall withdraw from the case if at any time he or she deems himself or herself disqualified. If, prior to the initial or recommended decision in the case, there is filed with the administrative law judge, in good faith, an affidavit of personal bias or disqualification with substantiating facts and the administrative law judge does not withdraw, the DOT decisionmaker shall determine the matter, if properly presented by exception or brief, as a part of the record and decision in the case. The DOT decisionmaker shall not otherwise consider any claim of bias or disqualification.

§ 302.18 DOT decisionmaker.

(a) Assistant Secretary for Aviation and International Affairs. Except as provided in paragraphs (b) and (c) of this section, the Assistant Secretary for Aviation and International Affairs is the
Office of the Secretary, DOT

§ 302.20

The Assistant Secretary shall have all of the powers set forth in §302.17(a)(1) and those additional powers delegated by the Secretary. The Assistant Secretary may delegate this authority in appropriate non-hearing cases to subordinate officials.

(b) Oral hearing cases assigned to the senior career official. Carrier selection proceedings for international route authority that are set for oral hearing and such other oral hearing cases as the Secretary deems appropriate will be assigned to the senior career official in the Office of the Assistant Secretary for Aviation and International Affairs, who will serve as the DOT decisionmaker. In all such cases, the administrative law judge shall render a recommended decision to the senior career official, who shall have all of the powers set forth in §302.17(a)(1) and those additional powers delegated by the Secretary.

(1) Decisions of the senior career official are subject to review by, and at the discretion of, the Assistant Secretary for Aviation and International Affairs. Petitions for discretionary review of decisions of the senior career official will not be entertained. A notice of review by the Assistant Secretary will establish the procedures for review. Unless a notice of review is issued, the decision of the senior career official will be issued as a final decision of the Department and will be served fourteen (14) days after it is adopted by the senior career official.

(2) Final decisions of the senior career official may be reviewed upon a petition for reconsideration filed pursuant to §302.14. Such a petition shall state clearly the basis for requesting reconsideration and shall specify any questions of national transportation policy that may be involved. The Assistant Secretary will either grant or deny the petition.

(3) Upon review or reconsideration, the Assistant Secretary may either affirm the decision or remand the decision to the senior career official for further action consistent with such order of remand.

(4) Subject to the provisions of paragraphs (b)(1) through (3) of this section, final decisions of the senior career official will be transmitted to the President of the United States when required under 49 U.S.C. 41307.

(c) Secretary and Deputy Secretary. The Secretary or Deputy Secretary may exercise any authority of the Assistant Secretary whenever he or she believes a decision involves important questions of national transportation policy.

§ 302.19 Participation by persons not parties.

Any person, including any State, subdivision thereof, State aviation commission, or other public body, may appear at any hearing, other than in an enforcement proceeding, and present any evidence that is relevant to the issues. With the consent of the administrative law judge or the DOT decisionmaker, such person may also cross-examine witnesses directly. Such persons may also present to the administrative law judge a written statement on the issues involved in the proceeding. Such written statements shall be filed and served on all parties prior to the close of the hearing.

§ 302.20 Formal intervention.

(a) Who may intervene. Any person who has a statutory right to be made a party to an oral evidentiary hearing proceeding shall be permitted to intervene. Any person whose intervention will be conducive to the public interest and will not unduly delay the conduct of such proceeding may be permitted to intervene.

(b) Considerations relevant to determination of petition to intervene. In passing upon a petition to intervene, the following factors, among other things, will be considered and will be liberally interpreted to facilitate the effective participation by members of the public in Department proceedings:

(1) The nature of the petitioner's right under the statute to be made a party to the proceeding;

(2) The nature and extent of the property, financial or other interest of the petitioner;

(3) The effect of the order that may be entered in the proceeding on petitioner's interest;
§ 302.21

(4) The availability of other means whereby the petitioner’s interest may be protected;

(5) The extent to which petitioner’s interest will be represented by existing parties;

(6) The extent to which petitioner’s participation may reasonably be expected to assist in the development of a sound record; and

(7) The extent to which participation of the petitioner will broaden the issues or delay the proceeding.

(c) Petition to intervene—(1) Contents. Any person desiring to intervene in a proceeding shall file a petition in conformity with this part setting forth the facts and reasons why he or she thinks he or she should be permitted to intervene. The petition should make specific reference to the factors set forth in paragraph (b) of this section.

(2) Time for filing. Unless otherwise ordered by the Department:

(i) A petition to intervene shall be filed with the Department prior to the first prehearing conference, or, in the event that no such conference is to be held, not later than fifteen (15) days prior to the hearing.

(ii) A petition to intervene filed by a city, other public body, or a chamber of commerce shall be filed with the Department not later than the last day prior to the beginning of the hearing.

(iii) A petition to intervene that is not timely filed shall be dismissed unless the petitioner shall clearly show good cause for his or her failure to file such petition on time.

(3) Answer. Any party to a proceeding may file an answer to a petition to intervene, making specific reference to the factors set forth in paragraph (b) of this section, within seven (7) days after the petition is filed.

(4) Disposition. The decision granting, denying or otherwise ruling on any petition to intervene may be issued without receiving testimony or oral argument either from the petitioner or other parties to the proceeding.

(d) Effect of granting intervention. A person permitted to intervene in a proceeding thereby becomes a party to the proceeding. However, interventions provided for in this section are for administrative purposes only, and no decision granting leave to intervene shall be deemed to constitute an expression by the Department that the intervening party has such a substantial interest in the order that is to be entered in the proceeding as will entitle it to judicial review of such order.

§ 302.21 Appearances.

(a) Any party to a proceeding may appear and be heard in person or by a designated representative.

(b) No register of persons who may practice before the Department is maintained and no application for admission to practice is required.

(c) Any person practicing or desiring to practice before the Department may, upon hearing and good cause shown, be suspended or barred from practicing.

§ 302.22 Prehearing conference.

(a) Purpose and scope of conference. At the discretion of the administrative law judge, a prehearing conference may be called prior to any hearing. Written notice of the prehearing conference shall be sent by the administrative law judge to all parties to a proceeding and to other persons who appear to have an interest in such proceeding. The purpose of such a conference is to define the issues and the scope of the proceeding, to secure statements of the positions of the parties and amendments to the pleadings, to schedule the exchange of exhibits before the date set for hearing, and to arrive at such agreements as will aid in the conduct and disposition of the proceeding. For example, consideration will be given to:

(1) Matters that the DOT decision-maker can consider without the necessity of proof;

(2) Admissions of fact and of the genuineness of documents;

(3) Requests for documents;

(4) Admissibility of evidence;

(5) Limitation of the number of witnesses;

(6) Reducing of oral testimony to exhibit form;

(7) Procedure at the hearing; and

(8) Use of electronic media as a basis for exchange of briefs, hearing transcripts and exhibits, etc., in addition to the official record copy.
§ 302.24 Evidence.

(a) Presenting evidence. Presenting evidence at the hearing shall be limited to material evidence relevant to the issues as drawn by the pleadings or as defined in the report of prehearing conference, subject to such later modifications of the issues as may be necessary to protect the public interest or to prevent injustice, and shall not be unduly repetitious. Evidence shall be presented in such form by all parties as the administrative law judge may direct.

(b) Objections to evidence. Objections to the admission or exclusion of evidence shall be in short form, stating the grounds of objections relied upon, and the transcript shall not include argument or debate except as ordered by the administrative law judge. Rulings on such objections shall be a part of the transcript.

(c) Exhibits. When exhibits are offered in evidence, one copy must be furnished to each of the parties at the hearing, and two copies to the administrative law judge, unless the parties previously have been furnished with copies or the administrative law judge directs otherwise. If the administrative law judge has not fixed a time for the exchange of exhibits, the parties shall exchange copies of exhibits at the earliest practicable time, preferably before the hearing or, at the latest, at the commencement of the hearing. Copies of exhibits may, at the discretion of the administrative law judge or the DOT decisionmaker, be furnished by use of electronic media in lieu of or in addition to a paper record copy.

(d) Substitution of copies for original exhibits. In his or her discretion, the administrative law judge may permit a party to withdraw original documents offered in evidence and substitute true copies in lieu thereof.
(e) Designation of parts of documents. When relevant and material matter offered in evidence by any party is embraced in a book, paper, or document containing other matter not material or relevant, the party offering the same shall plainly designate the matter so offered. The immaterial and irrelevant parts shall be excluded and shall be segregated insofar as practicable. If the volume of immaterial or irrelevant matter would unduly encumber the record, such submission will not be received in evidence, but may be marked for identification, and, if properly authenticated, the relevant or material matter may be read into the record, or, if the administrative law judge so directs, a true copy of such matter, in proper form, shall be received as an exhibit, and like copies delivered by the party offering the same to opposing parties or their attorneys appearing at the hearing, who shall be afforded an opportunity to examine the submission, and to offer in evidence in like manner other portions of the exhibit.

(f) Records in other proceedings. In case any portion of the record in any other proceeding or civil or criminal action is offered in evidence, a true copy of such matter, in proper form, shall be received in evidence, but may be marked for identification, and, if properly authenticated, the relevant or material matter may be read into the record, or, if the administrative law judge so directs, a true copy of such matter, in proper form, shall be received as an exhibit, and like copies delivered by the party offering the same to opposing parties or their attorneys appearing at the hearing, who shall be afforded an opportunity to examine the submission, and to offer in evidence in like manner other portions of the exhibit unless:

1. The portion is specified with particularity in such manner as to be readily identified;
2. The party offering the same agrees unconditionally to supply such copies later, or when required by the DOT decisionmaker;
3. The parties represented at the hearing stipulate upon the record that such portion may be incorporated by reference, and that any portion offered by any other party may be incorporated by like reference upon compliance with paragraphs (f)(1) and (2) of this section; and
4. The administrative law judge directs such incorporation or waives the requirement in paragraph (f)(3) of this section with the consent of the parties.

(g) Official notice of facts contained in certain documents. (1) Without limiting, in any manner or to any extent, the discretionary powers of the DOT decisionmaker and the administrative law judge to notice other matters or documents properly the subject of official notice, facts contained in any document within the categories enumerated in this subdivision are officially noticed in all formal economic proceedings except those subject to subpart D of this part. Each such category shall include any document antedating the final Department decision in the proceeding where such notice is taken. The matters officially noticed under the provisions of this paragraph are:

1. Air carrier certificates or applications therefor, together with any requests for amendment, and pleadings responding to applications when properly filed.
2. All Form 41 reports required to be filed by air carriers with the Department.
3. Reports of Traffic and Financial Data of all U.S. Air Carriers issued by the Civil Aeronautics Board (CAB) or the Department.
4. Airline Traffic Surveys and Passenger Origin-Destination Surveys, Domestic and International, compiled by the CAB or the Department and published and/or made available either to the public or to parties in proceedings.
5. Compilations of data relating to competition in the airline industry and made available to the public by the CAB or the Department, such as the 1990 Airline Competition Study.
6. All tariffs, including the electronic versions, and amendments thereof, of all air carriers, on file with the DOT decisionmaker.
7. All reports, including the electronic versions, and amendments thereof, of all air carriers, on file with the Department.
8. Service Mail Pay and Subsidy for U.S. Certified Air Carriers published by the CAB and any supplemental data and subsequent issues published by the CAB or the Department.
9. Air Traffic Activity Data issued by the FAA.
Office of the Secretary, DOT

(xii) Airport Facilities Directory, Form 5010, issued by the FAA.

(xiii) The Airman’s Information Manual issued by the FAA.

(xiv) ICAO Statistical Summary, Preliminary Issues and Nos. 1 through 14, and Digest of Statistics, Nos. 15 through 71, prepared by ICAO, Montreal, Canada, with all changes and additions.

(xix) ABC World Airways Guide and all Official Airline Guides, including the North American, Worldwide, All-Cargo and quick reference editions, including electronic versions.

(2) Any fact contained in a document belonging to a category enumerated in paragraph (g)(1) of this section shall be deemed to have been physically incorporated into and made part of the record in such proceedings. However, where the decision rests on official notice of a material fact or facts, it will set forth such items with sufficient particularity to advise interested persons of the matters that have been noticed.

(h) Receipt of documents after hearing. No document or other writings shall be accepted for the record after the close of the hearing except in accordance with an agreement of the parties and the consent of the administrative law judge or the DOT decisionmaker.

(i) Exceptions. Formal exceptions to the rulings of the administrative law judge made during the course of the hearing are unnecessary. For all purposes for which an exception otherwise would be taken, it is sufficient that a party, at the time the ruling of the administrative law judge is made or sought, makes known the action he or she desires the administrative law judge to take or his or her objection to an action taken, and his or her grounds therefor.

(j) Offers of proof. Any offer of proof made in connection with an objection taken to any ruling of the administrative law judge rejecting or excluding proffered oral testimony shall consist of a statement of the substance of the evidence that counsel contends would be adduced by such testimony, and if the excluded evidence consists of evidence in documentary or written form or of reference to documents or records, a copy of such evidence shall be marked for identification and shall constitute the offer of proof.

§ 302.25 Subpoenas.

(a) An application for a subpoena requiring the attendance of a witness at a hearing or the production of documentary evidence may be made without notice by any party to the administrative law judge or, in the event that an administrative law judge has not been assigned to a proceeding or is not available, to the DOT decisionmaker or the Chief Administrative Law Judge, for action.

(b) An application for a subpoena shall be in duplicate except that if it is
made during the course of a hearing, it may be made orally on the record with the consent of the administrative law judge.

(c) All such applications, whether written or oral, shall contain a statement or showing of general relevance and reasonable scope of the evidence sought, and shall be accompanied by two copies of a draft of the subpoena sought that, in the case of evidence, shall describe the documentary or tangible evidence to be subpoenaed with as much particularity as is feasible, or, in the case of a witness, the name of the witness and a general description of the matters concerning which the witness will be asked to testify.

(d) The administrative law judge or DOT decisionmaker considering any application for a subpoena shall issue the subpoena requested if the application complies with this section. No attempt shall be made to determine the admissibility of evidence in passing upon an application for a subpoena, and no detailed or burdensome showing shall be required as a condition to the issuance of a subpoena.

(e) Where it appears during the course of a proceeding that the testimony of a witness or documentary evidence is relevant to the issues in a proceeding, the administrative law judge, Chief Administrative Law Judge or DOT decisionmaker may issue on his or her own initiative a subpoena requiring such witness to attend and testify or requiring the production of such documentary evidence.

(f) Subpoenas issued under this section shall be served upon the person to whom directed in accordance with §302.7(b). Any person upon whom a subpoena is served may within seven (7) days after service or at any time prior to the return date thereof, whichever is earlier, file a motion to quash or modify the subpoena with the administrative law judge or, in the event an administrative law judge has not been assigned to a proceeding or is not available, to the DOT decisionmaker or the Chief Administrative Law Judge for action. If the person to whom the motion to modify or quash the subpoena has been addressed or directed, has not acted upon such a motion by the return date, such date shall be stayed pending his or her final action thereon. The DOT decisionmaker may at any time review, upon his or her own initiative, the ruling of an administrative law judge or the Chief Administrative Law Judge denying a motion to quash a subpoena. In such cases, the DOT decisionmaker may order that the return date of a subpoena be stayed pending action thereon.

(g) The provisions of this section are not applicable to the attendance of DOT employees or the production of documentary evidence in the custody thereof at a hearing. The attendance of DOT employees and the production of documentary evidence in their custody are governed by 49 CFR Parts 9 and 7, respectively.

§ 302.26 Depositions.

(a) For good cause shown, the DOT decisionmaker or administrative law judge assigned to a proceeding may order that the testimony of a witness be taken by deposition and that the witness produce documentary evidence in connection with such testimony. Ordinarily an order to take the deposition of a witness will be entered only if:

(1) The person whose deposition is to be taken would be unavailable at the hearing,
(2) The deposition is deemed necessary to perpetuate the testimony of the witness,
(3) The taking of the deposition is necessary to prevent undue and excessive expense to a party and will not result in an undue burden to other parties or in undue delay.

(b) Any party desiring to take the deposition of a witness shall make application therefor in duplicate to the administrative law judge or, in the event that an administrative law judge has not been assigned to a proceeding or is not available, to the DOT decisionmaker or the Chief Administrative Law Judge for action. The DOT decisionmaker or Chief Administrative Law Judge, setting forth the reasons why such deposition should be taken, the name and residence of the witness, the time and place proposed for the taking of the deposition, and a general description of the matters concerning
which the witness will be asked to testify. If good cause be shown, the administrative law judge, the DOT decisionmaker, or the Chief Administrative Law Judge, as the case may be, may, in his or her discretion, issue an order authorizing such deposition and specifying the witness whose deposition is to be taken, the general scope of the testimony to be taken, the time when, the place where, the designated officer (authorized to take oaths) before whom the witness is to testify, and the number of copies of the deposition to be supplied. Such order shall be served upon all parties by the person proposing to take the deposition a reasonable period in advance of the time fixed for taking testimony.

(c) Witnesses whose testimony is taken by deposition shall be sworn or shall affirm before any questions are put to them. Each question shall be recorded and the answers shall be taken down in the words of the witness.

(d) Objections to questions or evidence shall be in short form, stating the grounds of objection relied upon, but no transcript filed by the designated officer shall include argument or debate. Objections to questions or evidence shall be noted by the designated officer upon the deposition, but he or she shall not have power to decide on the competency or materiality or relevance of evidence, and he or she shall record the evidence subject to objection. Objections to questions or evidence not made before the designated officer shall not be deemed waived unless the ground of the objection is one that might have been obviated or removed if presented at that time.

(e) The testimony shall be reduced to writing by the designated officer, or under his or her direction, after which the deposition shall be signed by the witness unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign, and certified in usual form by the designated officer. If the deposition is not signed by the witness, the designated officer shall state on the record this fact and the reason therefor. The original deposition and exhibits shall be forwarded to Department of Transportation Dockets and shall be filed in the proceedings.

(f) Depositions may also be taken and submitted on written interrogatories in substantially the same manner as depositions taken by oral examination. Ordinarily such procedure will be authorized only if necessary to achieve the purposes of an oral deposition and to serve the balance of convenience of the parties. The interrogatories shall be filed in quadruplicate with two copies of the application and a copy of each shall be served on each party. Within seven (7) days after service any party may file with the person to whom application was made two copies of his or her objections, if any, to such interrogatories and may file such cross-interrogatories as he or she desires to submit. Cross-interrogatories shall be filed in quadruplicate, and a copy thereof together with a copy of any objections to interrogatories, shall be served on each party, who shall have five (5) days thereafter to file and serve his or her objections, if any, to such cross-interrogatories. Objections to interrogatories or cross-interrogatories, shall be served on the DOT decisionmaker or the administrative law judge considering the application. Objections to interrogatories shall be made before the order for taking the deposition issues and if not so made shall be deemed waived. When a deposition is taken upon written interrogatories, and cross-interrogatories, no party shall be present or represented, and no person other than the witness, a reporter, and the designated officer shall be present at the examination of the witness, which fact shall be certified by the designated officer, who shall ask the interrogatories and cross-interrogatories to the witness in their order and reduce the testimony to writing in the witness’s own words. The provisions of paragraph (e) of this section shall be applicable to depositions taken in accordance with this paragraph.

(g) All depositions shall conform to the specifications of §302.3 except that the filing of three copies thereof shall be sufficient. Any fees of a witness, the reporter, or the officer designated to take the deposition shall be paid by the person at whose instance the deposition is taken.
§ 302.27 Rights of witnesses; attendance fees and mileage.

(a) Any person appearing as a witness in any proceeding governed by this part, whether in response to a subpoena or by request or permission of the Department, may be accompanied, represented, and advised by counsel and may be examined by that counsel after other questioning.

(b) Any person who submits data or evidence in a proceeding governed by this part, whether in response to a subpoena or by request or permission of the Department, may retain, or, on payment of lawfully prescribed costs, procure, a copy of any document so submitted or a copy of any transcript made of such testimony.

(c) No person whose attendance at a hearing or whose deposition is to be taken shall be obliged to respond to a subpoena unless upon a service of the subpoena he or she is tendered attendance fees and mileage by the party at whose instance he or she is called in accordance with the requirements of paragraphs (c)(1) and (2) of this section; Provided, That a witness summoned at the instance of the Department or one of its employees, or a salaried employee of the United States summoned to testify as to matters related to his or her public employment, need not be tendered such fees or mileage at that time.

(1) Witnesses who are not salaried employees of the United States, or such employees summoned to testify on matters not related to their public employment, need not be tendered such fees or mileage at that time.

(2) Witnesses who are salaried employees of the United States and who are summoned to testify on matters relating to their public employment, irrespective of at whose instance they are summoned, shall be paid in accordance with applicable Government regulations.

§ 302.28 Transcripts of hearings.

(a) Hearings shall be recorded and transcribed under supervision of the administrative law judge, by a reporting firm under contract with the Department. Copies of the transcript that may, at the discretion of the administrative law judge, be furnished by use of electronic media in addition to the official copy, shall be supplied to the parties to the proceeding by said reporting firm, at the contract price for copies.

(b) The administrative law judge shall determine whether “ordinary transcript” or “daily transcript” (as those terms are defined in the contract) will be necessary and required for the proper conduct of the proceeding and the Department will pay the reporting firm the cost of reporting its proceedings at the contract price for such type of transcript. If the administrative law judge has determined that ordinary transcript is adequate, and has notified the parties of such determination (in the notice of hearings, or otherwise), then any party may request reconsideration of such determination and that daily transcript be
required. In determining what is necessary and required for the proper conduct of the proceeding, the administrative law judge shall consider, among other things:

(1) The nature of the proceeding itself;
(2) The DOT decisionmaker’s needs as well as the reasonable needs of the parties;
(3) The cost to the Department; and
(4) The requirements of a fair hearing.

(c) If the administrative law judge has determined that ordinary transcript is adequate, or, upon reconsideration, has adhered to such determination, then any party may request the reporting firm to provide daily transcript. In that case, pursuant to its contract with the Department, the reporting firm will be obligated to furnish to the Department daily transcript upon the agreement by the requesting party to pay to the reporting firm an amount equal to the difference between the contract prices for ordinary transcript and daily transcript, provided that the requesting party makes such agreement with the reporting firm at least twenty-four (24) hours in advance of the date for which such transcript is requested.

(d) Any party may obtain from the Office of the Assistant Secretary for Administration, the name and address of the private reporting company with which the Department currently has a contract for transcripts and copies, as well as the contract prices then in effect for such services.

§ 302.29 Argument before the administrative law judge.

(a) The administrative law judge shall give the parties to the proceeding adequate opportunity during the course of the hearing for the presentation of arguments in support of or in opposition to motions, and objections and exceptions to rulings of the administrative law judge.

(b) When, in the opinion of the administrative law judge, the volume of the evidence or the importance or complexity of the issues involved warrants, he or she may, either on his or her own motion or at the request of a party, permit the presentation of oral argument, and may impose such time limits on the argument as he or she may determine appropriate. Such argument shall be transcribed and bound with the transcript of testimony and will be available to the Department decisionmaker for consideration in deciding the case.

§ 302.30 Briefs to the administrative law judge.

Within such limited time after the close of the reception of evidence fixed by the administrative law judge, any party may, upon request and under such conditions as the administrative law judge may prescribe, file for his or her consideration briefs which may include proposed findings of fact and conclusions of law that shall contain exact references to the record and authorities relied upon.
§ 302.31 Initial and recommended decisions; certification of the record.

(a) Action by administrative law judge after hearing. Except where the DOT decisionmaker directs otherwise, after the taking of evidence and the receipt of briefs which may include proposed findings of fact and conclusions of law, if any, the administrative law judge shall take the following action:

(1) Initial decision. If the proceeding does not involve foreign air transportation, the administrative law judge shall render an “initial decision.” Such decision shall encompass the administrative law judge’s decision on the merits of the proceeding and on all ancillary procedural issues remaining for disposition at the close of the hearing.

(2) Recommended decision. In cases where the action of the Department involves foreign air transportation and is subject to review by the President of the United States pursuant to section 41307 of the Statute, the administrative law judge shall render a “recommended decision.” Such decision shall encompass the administrative law judge’s decision on the merits of the proceeding and on all ancillary procedural issues remaining for disposition at the close of the hearing.

(b) Certification to the DOT decisionmaker for decision. At any time prior to the close of the hearing, the DOT decisionmaker may direct the administrative law judge to certify any question or the entire record in the proceeding to the DOT decisionmaker for decision. In cases where the record is thus certified, the administrative law judge shall not render a decision but shall make a recommendation to the DOT decisionmaker as required by section 8(a) of the Administrative Procedure Act (5 U.S.C. 558(a)) unless advised by the DOT decisionmaker that he or she intends to issue a tentative decision.

(c) Every initial or recommended decision issued shall state the names of the persons who are to be served with copies of it, the time within which exceptions to, or petitions for review of, such decision may be filed, and the time within which briefs in support of the exceptions may be filed. In addition, every such decision shall recite that it is made under delegated authority, and contain notice of the provisions of paragraph (d) of this section. In the event the administrative law judge certifies the record to the DOT decisionmaker without an initial or recommended decision, he or she shall notify the parties of the time within which to file with the DOT decisionmaker briefs which may include proposed findings of fact and conclusions of law.

(d) Unless a petition for discretionary review is filed pursuant to § 302.32, exceptions are filed pursuant to § 302.217, or the DOT decisionmaker issues an order to review upon his or her own initiative, the initial decision shall become effective as the final order of the Department thirty (30) days after service thereof; in the case of a recommended decision, that decision shall be transmitted to the President of the United States under 49 U.S.C. 41307. If a petition for discretionary review or exceptions are timely filed or action to review is taken by the DOT decisionmaker upon his or her own initiative, the effectiveness of the initial decision or the transmission of the recommended decision is stayed until the further order of the DOT decisionmaker.

§ 302.32 Petitions for discretionary review of initial or recommended decisions; review proceedings.

(a) Petitions for discretionary review.

(1) Review by the DOT decisionmaker pursuant to this section is not a matter of right but is at the sole discretion of the DOT decisionmaker. Any party may file and serve a petition for discretionary review by the DOT decisionmaker of an initial decision or recommended decision within twenty-one (21) days after service thereof, unless the DOT decisionmaker sets a different period for filing.

(2) Petitions for discretionary review shall be filed only upon one or more of the following grounds:

(i) A finding of a material fact is erroneous;

(ii) A necessary legal conclusion is without governing precedent or is a departure from or contrary to law, the Department’s rules, or precedent;

(iii) A substantial and important question of law, policy or discretion is involved; or
(iv) A prejudicial procedural error has occurred.

(3) Each issue shall be separately numbered and plainly and concisely stated. Petitioners shall not restate the same point in repetitive discussions of an issue. Each issue shall be supported by detailed citations of the record when objections are based on the record, and by statutes, regulations or principal authorities relied upon. Any matters of fact or law not argued before the administrative law judge, but that the petitioner proposes to argue on brief to the DOT decisionmaker, shall be stated.

(4) Petitions for discretionary review shall be self-contained and shall not incorporate by reference any part of another document. Except by permission of the DOT decisionmaker, petitions shall not exceed twenty (20) pages including appendices and other papers physically attached to the petition.

(5) Requests for oral argument on petitions for discretionary review will not be entertained by the DOT decisionmaker.

(b) Answers. Within fifteen (15) days after service of a petition for discretionary review, any party may file and serve an answer of not more than fifteen (15) pages in support of or in opposition to the petition. If any party desires to answer more than one petition for discretionary review in the same proceeding, he or she shall do so in a single document of not more than twenty (20) pages.

(c) Orders declining review. The DOT decisionmaker’s order declining to exercise the discretionary right of review will specify the date upon which the administrative law judge’s decision shall become effective as the final decision of the Department. A petition for reconsideration of a Department order declining review will be entertained only when the order exercises, in part, the DOT decisionmaker’s discretionary right of review, and such petition shall be limited to the single question of whether any issue designated for review and any issue not so designated are so inseparably interrelated that the former cannot be reviewed independently or that the latter cannot be made effective before the final decision of the Department in the review proceeding.

(d) Review proceedings. (1) The DOT decisionmaker may take review of an initial or recommended decision upon petition or on his or her own initiative or both. The DOT decisionmaker will issue a final order upon such review without further proceedings on any or all the issues where he or she finds that matters raised do not warrant further proceedings.

(2) Where the DOT decisionmaker desires further proceedings, he or she will issue an order for review that will:

(i) Specify the issues to which review will be limited. Only those issues specified in the order shall be argued on brief to the DOT decisionmaker, pursuant to §302.35, and considered by the DOT decisionmaker;

(ii) Specify the portions of the administrative law judge’s decision, if any, that are to be stayed as well as the effective date of the remaining portions thereof; and

(iii) Designate the parties to the review proceeding.

§ 302.33 Tentative decision of the DOT decisionmaker.

(a) Except as provided in paragraph (b) of this section, whenever the administrative law judge certifies the record in a proceeding directly to the DOT decisionmaker without issuing an initial or recommended decision in the matter, the DOT decisionmaker shall, after consideration of any briefs submitted by the parties, prepare a tentative decision and serve it upon the parties. Every tentative decision of the DOT decisionmaker shall state the names of the persons who are to receive copies of it, the time within which exceptions to such decision and briefs, if any, in support of or in opposition to the exceptions may be filed, and the date when such decision will become final in the absence of exceptions thereto. If no exceptions are filed to the tentative decision of the DOT decisionmaker within the period fixed, it shall become final at the expiration of such period unless the DOT decisionmaker orders otherwise.

(b) The DOT decisionmaker may, in his or her discretion, omit a tentative decision in proceedings under subpart
§ 302.34 Exceptions to tentative decisions of the DOT decisionmaker.

(a) Time for filing. Within ten (10) days after service of any tentative decision of the DOT decisionmaker, any party to a proceeding may file exceptions to such decision with the DOT decisionmaker.

(b) Form and contents of exceptions. Each exception shall be separately numbered and shall be stated as a separate point, and appellants shall not restate the same point in several exceptions. Each exception shall state, sufficiently identify, and be limited to, an ultimate conclusion in the decision to which exception is taken (such as, selection of one carrier rather than another to serve any point or points; points included in or excluded from a new route; imposition or failure to impose a given restriction; determination of a rate at a given amount rather than another). No specific exception shall be taken with respect to underlying findings or statements, but exceptions to an ultimate conclusion shall be deemed to include exceptions to all underlying findings and statements pertaining thereto; Provided, however, That exceptions shall specify any matters of law, fact, or policy that were not argued before the administrative law judge but will be set forth for the first time on brief to the DOT decisionmaker.

(c) Effect of failure to restate objections in briefs. In determining the merits of an appeal, the DOT decisionmaker will not consider the exceptions or the petition for discretionary review but will consider only the brief. Each objection contained in the exceptions or each issue specified in the DOT decisionmaker’s order exercising discretionary review must be restated and supported by a statement and adequate discussion of all matters relied upon, in a brief filed pursuant to and in compliance with the requirements of this section.

§ 302.35 Briefs to the DOT decisionmaker.

(a) Time for filing. Within such period after the date of service of any tentative decision by the DOT decisionmaker as may be fixed therein, any party may file a brief addressed to the DOT decisionmaker in support of his or her exceptions to such decision or in opposition to the exceptions filed by any other party. Briefs to the DOT decisionmaker on initial or recommended decisions of administrative law judges shall be filed only in those cases where the DOT decisionmaker grants discretionary review and orders further proceedings, pursuant to §302.32(d)(2), and only upon those issues specified in the order. Such briefs shall be filed within thirty (30) days after date of service of the order granting discretionary review unless otherwise specified in the order. In cases where, because of the limited number of parties and the nature of the issues, the filing of opening, answering, and reply briefs will not unduly delay the proceeding and will assist in its proper disposition, the DOT decisionmaker may direct that the parties file briefs at different times rather than at the same time.

(b) Effect of failure to restate objections in briefs. In determining the merits of an appeal, the DOT decisionmaker will not consider the exceptions or the petition for discretionary review but will consider only the brief. Each objection contained in the exceptions or each issue specified in the DOT decisionmaker’s order exercising discretionary review must be restated and supported by a statement and adequate discussion of all matters relied upon, in a brief filed pursuant to and in compliance with the requirements of this section.

(c) Formal specifications of briefs—(1) Contents. Each brief shall discuss every point of law, fact, or precedent that the party submitting it is entitled to raise and that it wishes the DOT decisionmaker to consider. Each brief shall include a summary of the argument not to exceed five (5) pages. Support and justification for every point raised shall include itemized references to the pages of the transcript of hearing, exhibit or other matter of record, and citations of the statutes, regulations, or principal authorities relied upon. If a brief or any point discussed in the brief is not in substantial conformity with the requirement for such support and justification, no motion to strike or dismiss such document shall be made but the DOT decisionmaker may disregard the points involved. Copies of

Whenever economic data and other facts are provided in any pleading, such information shall include enough detail so that final results can be obtained without further clarification. Sources, bases, and methodology used in constructing exhibits, including any estimates or judgments, shall be provided.

§ 302.206 Verification.
Any pleading filed under this subpart shall include a certification as provided in § 302.4(b).

§ 302.207 Cases to be decided on written submissions.
(a) Applications under this subpart will be decided on the basis of written submissions unless the DOT decision-maker, on petition as provided in § 302.208 or on his or her own initiative, determines that an oral presentation or an administrative law judge’s decision is required because:
1. Use of written procedures will prejudice a party;
2. Material issues of decisional fact cannot adequately be resolved without oral evidentiary hearing procedures; or
3. Assignment of an application for oral evidentiary hearing procedures or an initial or recommended decision by an administrative law judge is otherwise required by the public interest.
(b) The standards employed in deciding cases under § 302.210(a)(1) or (5) shall be the same as the standards applied in cases decided under § 302.210(a)(4). These are the standards set forth in the Statute as interpreted and expanded upon under that Statute.

§ 302.208 Petitions for oral presentation or judge’s decision.
(a) Any person may file a petition for oral evidentiary hearing, oral argument, an initial or recommended decision, or any combination of these. Petitions shall demonstrate that one or more of the criteria set forth in § 302.207 are applicable to the issues for which an oral presentation or judge’s decision is requested. Such petitions shall be supported by a detailed explanation of the following:
1. Why the evidence or argument to be presented cannot be submitted in the form of written evidence or briefs;
2. Which issues should be examined by an administrative law judge and why such issues should not be presented directly to the DOT decision-maker for decision;
3. An estimate of the time required for the oral presentation and the number of witnesses whom the petitioner would present; and
4. If cross-examination of any witness is desired, the name of the witness, if known, the subject matter of the desired cross-examination or the title or number of the exhibit to be cross-examined, what the petitioner expects to establish by the cross-examination, and an estimate of the time needed for it.
(b) Petitions for an oral hearing, oral argument, or an administrative law judge’s decision shall be filed no later than the due date for answers in proceedings governed by § 302.211, § 302.212.
and §302.213, and be accompanied with the information specified in paragraphs (a)(1) and (a)(2) of this section. Filing of the information required in paragraphs (a)(3) and (a)(4) of this section may be deferred until the DOT decisionmaker has decided to hold a formal proceeding.

(c) Where a stipulation of disputed facts would eliminate the need for an oral presentation or an administrative law judge's decision, parties shall include in their petitions an offer to withdraw the request should the stipulation be made.

§302.209 Procedures for deferral of applications.

Within twenty-eight (28) days after the filing of an application under this subpart, the DOT decisionmaker may defer further processing of the application until all of the information necessary to process that application is submitted. The time periods contained in this subpart with respect to the disposition of the application shall not begin to run until the application is complete. In addition, the DOT decisionmaker may defer action on a foreign air carrier permit application for foreign policy reasons.

§302.210 Disposition of applications; orders establishing further procedures.

(a) General requirements. The DOT decisionmaker will take one of the following actions with respect to all or any portion of each application:

(1) Issue an Order to Show Cause why the application should not be granted, denied or dismissed, in whole or in part.

(2) Issue a Final Order granting the application if the DOT decisionmaker determines that there are no material issues of fact that warrant further procedures for their resolution.

(3) Issue a Final Order dismissing or rejecting the application for lack of prosecution or if the application does not comply with this subpart or is otherwise materially deficient.

(4) Issue an order setting the application for oral evidentiary hearing. The order will establish the scope of the issues to be considered and the procedures to be employed, and will indicate whether one or more attorneys from the Office of the Assistant General Counsel for Aviation Enforcement and Proceedings will participate as a party. All of the procedures set forth in §302.214 through §302.218 will apply unless the DOT decisionmaker decides otherwise.

(b) Additional evidence. An order establishing further procedures under paragraph (a)(1), (4) or (5) of this section may provide for the filing of additional evidence.

(c) Petitions for reconsideration. Petitions for reconsideration of an order issued under this section will not be entertained except to the extent that the order dismissed or rejected all or part of an application. If a petition for reconsideration results in the reinstatement of all or part of an application, the deadline for final Department decision established in §302.220 will be calculated from the date of the order reinstating the application.

§302.211 Procedures in certificate cases involving initial or continuing fitness.

(a) Applicability. This section applies to cases involving certificate authority under sections 41102 and 41103 of the Statute, including applications for new authority, renewals, amendments, modifications, suspensions, and transfers of such certificates, where the issues involve a determination of the applicant's fitness to operate. Where such applications propose the operation of scheduled service in limited entry international markets, the provisions of §302.212 also apply.

(b) Order establishing further procedures. Within 90 days after a complete application is filed, the DOT decisionmaker will take action as provided in §302.210.

§ 302.212 Procedures in certificate cases involving international routes.

(a) Applicability. This section applies to cases involving certificates under section 41102 of the Statute that involve international routes, including applications to obtain, renew, amend, transfer, or remove restrictions in such certificates.

(b) Answers to applications. Answers shall be filed within twenty one (21) days after the filing of the original application.

(c) Conforming applications or motions to modify scope. Any person may file an application for the same authority as sought in an application to obtain, renew, or amend a certificate filed under paragraph (a) of this section. Requests to modify the issues to be decided and to consolidate applications filed in other dockets shall be filed as a “motion to modify scope.” Motions and applications under this section shall include economic data, other facts, and any argument in support of the person’s position and must be filed within twenty one (21) days after the original application is filed. Later-filed competing applications shall conform to the base and forecast years used by the original applicant and need not contain traffic and financial data for markets for which data have already been submitted by another person.

(d) Answers to conforming applications or motions to modify scope. Answers to conforming applications and motions to modify scope filed in accordance with paragraph (b) of this section shall be filed within fourteen (14) days after the filing of the conforming application or motion. Answers may argue that an application should be dismissed. Answers may also seek to consolidate an application filed in another docket if that application conforms to the scope of the proceeding proposed in the motion to modify scope and includes the information prescribed in §302.202. Answers and applications shall not, however, propose the consideration of additional markets.

(e) Order establishing further procedures. Within 90 days after a complete application is filed, the DOT decisionmaker will issue an order as provided in §302.210.

§ 302.213 Procedures in foreign air carrier permit cases.

(a) Applicability. This section applies to cases involving foreign air carrier permits under section 41302 of the Statute, including applications for new authority, renewals, amendments, modifications, suspensions, and transfers of such permits.

(b) Executive departments. In addition to the standards set forth in §302.207(b), the views of other executive agencies, such as the Department of State, and the Federal Aviation Administration’s evaluation of the applicant’s operational fitness, may be sought in determining the appropriate action on applications filed under this section.

(c) Order establishing further procedures. As soon as possible after the date that answers are due and all information needed to reach a decision is filed, the DOT decisionmaker will issue an order as provided in §302.210.

§ 302.214 Oral evidentiary hearing.

If the DOT decisionmaker determines under §302.210(a)(4) that an oral evidentiary hearing should be held, the application or applications will be set for oral hearing before an administrative law judge. The issues will be those set forth in the order establishing further procedures. The procedures in §302.17 to §302.38 governing the conduct of oral evidentiary hearings will apply.

§ 302.215 Briefs to the administrative law judge.

Briefs to the administrative law judge shall be filed within the following periods, as applicable:

(a) Fourteen (14) days after the close of the oral evidentiary hearing, unless the administrative law judge determines that, under the circumstances of the case, briefs are not necessary or that the parties will require more time to prepare briefs; or

(b) Fourteen (14) days after the filing of additional evidence called for in the order establishing further procedures if no oral evidentiary hearing is called for, unless the DOT decisionmaker determines that some other period should be allowed.
§ 302.216 Administrative law judge’s initial or recommended decision.

(a) In a case that has been set for oral evidentiary hearing under §302.210(a)(4), the administrative law judge shall adopt and serve an initial or recommended decision within one hundred thirty-six (136) days after the issuance of the order establishing further procedures unless:

(1) The DOT decisionmaker, having found extraordinary circumstances, has by order delayed the initial or recommended decision by a period of not more than thirty (30) days; or

(2) An applicant has failed to meet the procedural schedule adopted by the judge or the DOT decisionmaker. In this case, the administrative law judge may, by notice, extend the due date for the issuance of an initial or recommended decision for a period not to exceed the period of delay caused by the applicant.

(b) In a case in which some of the issues have not been set for oral hearing under §302.210(a)(4), the administrative law judge shall adopt and serve an initial or recommended decision within the time established by the DOT decisionmaker in the order establishing further procedures, except that that due date may be extended in accordance with paragraph (a)(2) of this section.

(c) The initial or recommended decision shall be issued by the administrative law judge fourteen (14) days after it is served. Unless exceptions are filed under §302.217 or the DOT decisionmaker issues an order to review on his or her own initiative, an initial decision shall become effective as the final order of the Department the day it is issued. Where exceptions are timely filed or the DOT decisionmaker takes action to review on his or her own initiative, the effectiveness of the initial decision is stayed until further order of the DOT decisionmaker.

(d) In all other respects, the provisions of §302.31 shall apply.

§ 302.217 Exceptions to administrative law judge’s initial or recommended decision.

(a) Within seven (7) days after service of any initial or recommended decision of an administrative law judge, any party may file exceptions to the decision with the DOT decisionmaker.

(b) If timely and adequate exceptions are filed, review of the initial or recommended decision is automatic.

(c) In all other respects, the provisions of §302.34 shall apply.

§ 302.218 Briefs to the DOT decisionmaker.

(a) In a case in which an initial or recommended decision has been served and exceptions have been filed, any party may file a brief in support of or in opposition to any exceptions. Such briefs shall be filed within fourteen (14) days after service of the initial or recommended decision.

(b) In a case in which no exceptions have been filed, briefs shall not be filed unless the DOT decisionmaker has taken review of the initial or recommended decision on his or her own initiative and has specifically provided for the filing of such briefs.

(c) In all other respect, the provisions of §302.35 shall apply.

§ 302.219 Oral argument before the DOT decisionmaker.

If the order establishing further procedures provides for an oral argument, or if the DOT decisionmaker otherwise decides to hear oral argument, all parties will be notified of the date and hour set for that argument and the amount of time allowed each party. The provisions of §302.36(b) shall also apply.

§ 302.220 Final decision of the Department.

In addition to the provisions of §302.38, the following provisions shall apply:

(a) In the case of a certificate application that has been set for oral evidentiary hearing under §302.210(a)(4), the Department will issue its final order within ninety (90) days after the initial or recommended decision is issued. If an application has failed to meet the procedural schedule established by the Department, the DOT decisionmaker may, by notice, extend the date for a final decision for a period equal to the period of delay caused by the applicant.

(b) Applications for exemption from section 4101 or 41301 of the Statute (including those that incorporate an exemption from section 41304) that involve ten (10) or fewer flights may be submitted to the U.S. Air Carrier Licensing Division or the Foreign Air Carrier Licensing Division (as appropriate), Office of International Aviation, on OST Form 4536. However, that form may not be used for:

(1) Applications filed under section 40109(g) of the Statute;

(2) Applications by persons who do not have either:

(i) An effective air carrier certificate or foreign air carrier permit from the Department, or

(ii) A properly completed application for such a certificate or permit, and an effective exemption from the Department for operations similar to those proposed;

(3) Successive applications for the same or similar authority that would total more than ten (10) flights; or

(4) Any other application for which the Department decides the requirements of §§302.3 and 302.4 are more appropriate. Upon a showing of good cause, the application may also be filed by cablegram, telegram, facsimile, electronic mail (when available), or telephone; all such telephonic requests must be confirmed by written application within three (3) business days of the original request.

(e) Applications filed under paragraph (b) or (c) of this section will normally not be docketed. The Department may require such applications to
§ 302.303 Contents of applications.

(b) Factual statement. Each application shall state:

(1) The section(s) of the Statute or the rule, regulation, term, condition, or limitation from which the exemption is requested;

(2) The proposed effective date and duration of the exemption;

(3) A description of how the applicant proposes to exercise the authority (for example, applications for exemption from section 41101 or 41301 of the Statute should include at least: places to be served; equipment types, capacity and source; type and frequency or service; and other operations that the proposed service will connect with or support); and

(4) Any other facts the applicant relies upon to establish that the proposed service will be consistent with the public interest.

(c) Supporting evidence. (1) Each application shall be accompanied by:

(i) A statement of economic data, or other matters or information that the applicant desires the Department to officially notice;

Applications by foreign carriers shall state whether the applicant’s homeland government grants U.S. carriers authority similar to that requested. If so, the application shall state whether the fact of reciprocity has been established by the Department and cite the pertinent finding. If the fact of reciprocity has not been established by the Department, the application shall include documentation to establish such reciprocity.

(d) Emergency cabotage. Applications under section 40109(g) of the Statute shall, in addition to the information required in paragraphs (b) and (c) of this section, contain evidence showing that:

(1) Because of an emergency created by unusual circumstances not arising in the normal course of business, traffic in the markets requested cannot be accommodated by air carriers holding certificates under section 41102 of the Statute;

(2) All possible efforts have been made to accommodate the traffic by using the resources of such air carriers (including, for example, the use of foreign aircraft, or sections of foreign aircraft, under lease or charter to such air carriers, and the use of such air carriers’ reservation systems to the extent practicable);

(3) The authority requested is necessary to avoid unreasonable hardship for the traffic in the market that cannot be accommodated by air carriers; and

(4) In any case where an inability to accommodate traffic in a market results from a labor dispute, the grant of the requested exemption will not result in an unreasonable advantage to any party in the dispute.

(e) Renewal applications. An application requesting renewal of an exemption or other limited authority under this subpart that is intended to invoke the automatic extension provisions of 5 U.S.C. 558(c) shall comply with, and contain the statements and information required by part 377 of this chapter.

(f) Record of service. An application shall list the parties served as required by §302.304.

(iv) The Governor of the State in which each affected airport is located, and

A copy of every docketed application for exemption shall be posted in Department of Transportation Dockets and listed in the Department’s Weekly List of Applications Filed. A copy of every undocketed application shall be posted in the Licensing Division’s lobby of the Office of International Aviation.

§ 302.306 Dismissal or rejection of incomplete applications.

(a) Dismissal or rejection. The Department may dismiss or reject any application for exemption that does not comply with the requirements of this part.

(b) Additional data. The Department may require the filing of additional data with respect to any application for exemption, answer, or reply.

Within fifteen (15) days after the filing of an application for exemption, any person may file an answer in support of or in opposition to the grant of a requested exemption. Such answer shall set forth in detail the reasons why the exemption should be granted or denied. An answer shall include a statement of economic data or other matters the Department is requested...
§ 302.308 Replies to answers.

Within seven (7) days after the last day for filing an answer, any interested party may file a reply to one or more answers.

§ 302.309 Requests for hearing.

The Department will not normally conduct oral evidentiary hearings concerning applications for exemption. However, the Department may, in its discretion, order such a hearing on an application. Any applicant, or any person opposing an application, may request an oral evidentiary hearing. Such a request shall set forth in detail the reasons why the filing of affidavits or other written evidence will not permit the fair and expeditious disposition of the application. A request relying on factual assertions shall be accompanied by affidavits establishing such facts. If the Department orders an oral evidentiary hearing, the procedures in subpart A of this part shall apply.

§ 302.310 Exemptions on the Department's initiative.

The Department may grant exemptions on its own initiative when it finds that such exemptions are required by the circumstances and consistent with the public interest.

§ 302.311 Emergency exemptions.

(a) Shortened procedures. When required by the circumstances and consistent with the public interest, the Department may take action, without notice, on exemption applications prior to the expiration of the normal period for filing answers and replies. When required in a particular proceeding, the Department may specify a lesser time for the filing of answers and replies, and notify interested persons of this time period.

(b)(1) Applications. Applications for emergency exemption need not conform to the requirements of this subpart or of subpart A of this part (except as provided in this section and in §302.303(d) concerning emergency cabotage requests). However, an application for emergency exemption must normally be in writing and must state in detail the facts and evidence that support the application, the grounds for the exemption, and the public interest basis for the authority sought. In addition, the application shall state specific reasons that justify departure from the normal exemption application procedures. The application shall also identify those persons notified as required by paragraph (c) of this section. The Department may require additional information from any applicant before acting on an application.

(2) Oral requests. The Department will consider oral requests, including telephone requests, for emergency exemption authority under this section in circumstances that do not permit the immediate filing of a written application. All oral requests must, however, provide the information required in paragraph (b)(1) of this section, except that actual evidence in support of the application need not be tendered when the request is made. All oral requests must be confirmed by written application, together with all supporting evidence, within three (3) business days of the original request.

(c) Notice. Except when the Department decides that no notice need be given, applicants for emergency exemption shall notify, as appropriate, those persons specified in §302.304(b) of this subpart. Such notification shall be made in the same manner, contain the same information, and be dispatched at the same time, as the application made to the Department.

§ 302.401 Applicability.

This subpart contains the specific rules that apply to Department proceedings to enforce the provisions of Subtitle VII of the Statute, and the rules, regulations, orders and other requirements issued by the Department, as well as the filing of informal and formal complaints. Except as modified by this subpart, the provisions of subpart A of this part apply.

Extensions of time for filing an answer may be granted by the Assistant General Counsel for good cause shown.

(b) Offers to satisfy. A respondent in a formal complaint may offer to satisfy the complaint through submission of facts, offer of settlement or proposal of adjustment. Such offer shall be in writing and shall be served, within fifteen (15) days after service of the complaint, upon the same persons and in the same manner as an answer. The submittal of

   (2) Issue an order dismissing the complaint in whole or in part, stating the reasons for such dismissal.

(b) An order dismissing a complaint issued pursuant to paragraph (a)(2) of this section shall become effective as a final order of the Department thirty (30) days after service thereof.

(c) Whenever the Assistant General Counsel has failed to act on a formal complaint within a reasonable time after an answer is due, the following motions may be addressed to the Deputy General Counsel:
   (1) By the complainant to institute an enforcement proceeding by docketing the complaint upon a showing that it is in the public interest to do so; and
   (2) By the respondent to dismiss the complaint upon a showing that it is in the public interest to do so.

(d) The Deputy General Counsel may grant, deny, or defer any of the motions, in whole or in part, and take appropriate action to carry out his or her decision.

§ 302.407 Commencement of enforcement proceeding.

(a) Whenever in the opinion of the Assistant General Counsel there are reasonable grounds to believe that any economic regulatory provision of the Statute, or any rule, regulation, order, limitation, condition, or other requirement established pursuant thereto, has been or is being violated, that efforts to satisfy a complaint as provided by §302.405 have failed, and that the investigation of any or all of the alleged violations is in the public interest, the Assistant General Counsel may issue a notice instituting an enforcement proceeding before an administrative law judge.

(b) The notice shall incorporate by reference the formal complaint submitted pursuant to §302.404 or shall be accompanied by a complaint by an attorney from the Office of the Assistant General Counsel. The notice and accompanying complaint, if any, shall be formally served upon each respondent and each complainant.

(c) The proceedings thus instituted shall be processed in regular course in accordance with this part. However, nothing in this part shall be construed to limit the authority of the Department to institute or conduct any investigation or inquiry within its jurisdiction in any other manner or according to any other procedures that it may deem necessary or proper.

(d) Whenever the Assistant General Counsel seeks an assessment of civil penalties in an enforcement proceeding, he or she shall serve on all parties to the proceeding a notice of the violations alleged and the amount of penalties for which the respondent may be liable. The notice may be included in the notice instituting a formal enforcement proceeding or in a separate document.

(e) In any proceeding in which civil penalties are sought, any decisions issued by the Department shall state the amount of any civil penalties assessed upon a finding of violation, and the time and manner in which payment shall be made to the United States.

§ 302.408 Answers and replies.

(a) Within fifteen (15) days after the date of service of a notice issued pursuant to §302.407, the respondent shall file an answer to the complaint attached thereto or incorporated therein unless an answer has already been filed in accordance with §302.405. Any requests for extension of time for filing of an answer to such complaint shall be filed in accordance with §302.11.

§ 302.412 Admissions as to facts and documents.

(a) At any time after an answer has been filed, any party may file with the DOT decisionmaker or administrative law judge a motion to dismiss or a motion for summary judgment, including supporting affidavits. The procedure on such motions shall be in accordance with the Federal Rules of Civil Procedure (28 U.S.C.), particularly Rules 6(d), 7(b), 12, and 56, except that answers and supporting papers to a motion to dismiss or for summary judgment shall be filed within seven (7) days after service of the motion.

(b) Parties may petition the DOT decisionmaker to review any action by the administrative law judge granting summary judgment or dismissing an enforcement proceeding under the procedure established for review of an initial decision in §302.32.

§ 302.410 Consolidation of proceedings.

The DOT decisionmaker or Chief Administrative Law Judge may, upon his or her own initiative, or upon motion of any party, consolidate for hearing or for other purposes, or may contemporaneously consider, two or more enforcement proceedings that involve substantially the same parties or issues that are the same or closely related, if he or she finds that such consolidation or contemporaneous hearing will be conducive to the dispatch of business and to the ends of justice and will not unduly delay the proceedings.

§ 302.411 Motions to dismiss and for summary judgment.

(a) At any time after an answer has been filed, any party may file with the DOT decisionmaker or the administrative law judge a motion to dismiss or a motion for summary judgment, including supporting affidavits. The procedure on such motions shall be in accordance with the Federal Rules of Civil Procedure (28 U.S.C.), particularly Rules 6(d), 7(b), 12, and 56, except that answers and supporting papers to a motion to dismiss or for summary judgment shall be filed within seven (7) days after service of the motion.

(b) Parties may petition the DOT decisionmaker to review any action by the administrative law judge granting summary judgment or dismissing an enforcement proceeding under the procedure established for review of an initial decision in §302.32.
§ 302.413 Evidence of previous violations.

Evidence of previous violations by any person or of any provision of the Statute or any requirement thereunder found by the Department or a court in any other proceeding or criminal or civil action may, if relevant and material, be admitted in any enforcement proceeding involving such person.

§ 302.414 Prehearing conference.

A prehearing conference may be held in an enforcement proceeding whenever the administrative law judge believes that the fair and expeditious disposition of the proceeding requires one. If a prehearing conference is held, it shall be conducted in accordance with § 302.22.

§ 302.415 Hearing.

After the issues have been formulated, whether by the pleadings or otherwise, the administrative law judge shall give the parties reasonable written notice of the time and place of the hearings. Except as may be modified by the provisions of this subpart, the procedures in § 302.17 to § 302.38 governing the conduct of oral evidentiary hearings will apply.

§ 302.416 Appearances by persons not parties.

With consent of the administrative law judge, appearances may be entered without request for or grant of permission to intervene by interested persons who are not parties to the proceeding. Such persons may, with the consent of the administrative law judge, cross-examine a particular witness or suggest to any party or counsel therefor questions or interrogations to be asked witnesses called by any party, but may not otherwise examine witnesses and may not introduce evidence or otherwise participate in the proceeding. However, such persons may present to both the administrative law judge and the DOT decisionmaker an oral or written statement of their position on the issues involved in the proceeding.

§ 302.417 Settlement of proceedings.

(a) The Deputy General Counsel and the respondent may agree to settle all or some of the issues in an enforcement proceeding at any time before a final decision is issued by the DOT decisionmaker. The Deputy General Counsel shall serve a copy of any proposed settlement on each party and shall submit the proposed settlement to the administrative law judge for approval. The submission of a proposed settlement shall not automatically delay the proceeding.

(b) Any party to the proceeding may submit written comments supporting or opposing the proposed settlement within ten (10) days from the date of service.

(c) The administrative law judge shall approve the proposed settlement, as submitted, if it appears to be in the public interest, or otherwise shall disapprove it.

(d) Information relating to settlement offers and negotiations will be withheld from public disclosure if the Deputy General Counsel determines that disclosure would interfere with the likelihood of settlement of an enforcement proceeding.

§ 302.418 Motions for immediate suspension of operating authority pendente lite.

All motions for the suspension of the economic operating authority of an air carrier during the pendency of proceedings to revoke such authority shall be filed with, and decided by, the DOT decisionmaker. Proceedings on the motion shall be in accordance with § 302.11. In addition, the DOT decisionmaker shall afford the parties an opportunity for oral argument on such motion.
§ 302.419 Modification or dissolution of enforcement actions.
Whenever any party to a proceeding, in which an order of the Department has been issued pursuant to section 46101 of the Statute or an injunction or other form of enforcement action has been issued by a court of competent jurisdiction pursuant to section 46106 of the Statute, believes that changed conditions of fact or law or the public interest require that said order or judicial action be modified or set aside, in whole or in part, such party may file with the Department a motion requesting that the Department take such administrative action or join in applying to the appropriate court for such judicial action, as the case may be. The motion shall state the changes desired and the changed circumstances warranting such action, and shall include the materials and argument in support thereof. The motion shall be served on each party to the proceeding in which the enforcement action was taken. Within thirty (30) days after the service of such motion, any party so served may file an answer thereto. The Department shall dispose of the motion by such procedure as it deems appropriate.

§ 302.420 Saving clause.
Repeal, revision or amendment of any of the economic regulatory provisions of the Statute or of the Department’s rules, regulations, orders, or other requirements shall not affect any pending enforcement proceeding or any enforcement proceeding initiated thereafter with respect to causes arising or acts committed prior to said repeal, revision or amendment, unless the act of repeal, revision or amendment specifically so provides.

Subpart E—Rules Applicable to Proceedings With Respect to Rates, Fares and Charges for Foreign Air Transportation

§ 302.501 Applicability.
This subpart sets forth the special rules applicable to proceedings with respect to rates, fares and charges for foreign air transportation under Chapter 415 of the Statute. Except as modified by this subpart, the provisions of subpart A apply.

§ 302.502 Institution of proceedings.
A proceeding to determine the lawfulness of rates, fares, or charges for the foreign air transportation of persons or property by aircraft, or the lawfulness of any classification, rule, regulation, or practice affecting such rates, fares or charges, may be instituted by the filing of a petition or complaint by any person, or by the issuance of an order by the Department.

§ 302.503 Contents and service of petition or complaint.
(a) If a petition or complaint is filed, it shall state the reasons why the rates, fares, or charges, or the classification, rule, regulation, or practice complained of are unlawful and shall support such reasons with a full factual analysis.
(b) A petition or complaint shall be served by the petitioner or complainant upon the air carrier against whose tariff provision the petition or complaint is filed.
(c) Answers to complaints, other than those filed under § 302.506, shall be filed within seven (7) working days after the complaint is filed.

§ 302.504 Dismissal of petition or complaint.
If the Department is of the opinion that a petition or complaint does not state facts that warrant an investigation or action on its part, it may dismiss such petition or complaint without hearing.

§ 302.505 Order of investigation.
The Department, on its own initiative, or if it is of the opinion that the facts stated in a petition or complaint warrant it, may issue an order instituting an investigation of the lawfulness of any present or proposed rates, fares, or charges for the foreign air transportation of persons or property by aircraft or the lawfulness of any classification, rule, regulation, or practice affecting such rates, fares, or charges, and may assign the proceeding for hearing before an administrative law judge. If a hearing is held, except
as modified by this subpart, the provisions of §302.17 through §302.38 of this part shall apply.

§ 302.506 Complaints requesting suspension of tariffs; answers to such complaints.

(a) Formal complaints seeking suspension of tariffs pursuant to section 41509 of the Statute shall fully identify the tariff and include reference to:

1. The issued or posting date,
2. The effective date,
3. The name of the publishing carrier or agent,
4. The Department number, and
5. Specific items or particular provisions protested or complained against.

The complaint should indicate in what respect the tariff is considered to be unlawful, and state what complainant suggests by way of substitution.

(b) A complaint requesting suspension of a tariff ordinarily will not be considered unless made in conformity with this section and filed no more than ten (10) days after the issued date contained within such tariff.

(c) A complaint requesting suspension, pursuant to section 41509 of the Statute, of an existing tariff for foreign air transportation may be filed at any time. However, such a complaint must be accompanied by a statement setting forth compelling reasons for not having requested suspension within the time limitations provided in paragraph (b) of this section.

(d) In an emergency satisfactorily shown by the complainant, and within the time limits herein provided, a complaint may be sent by facsimile, telegram, or electronic mail (when available) to the Department and to the carrier against whose tariff provision the complaint is made. Such complaint shall state the grounds relied upon, and must be confirmed in writing within three (3) business days and filed and served in accordance with this part.

(e) Answers to complaints shall be filed within six (6) working days after the complaint is filed.

§ 302.507 Computing time for filing complaints.

In computing the time for filing formal complaints pursuant to §302.506, with respect to tariffs that do not contain a posting date, the first day preceding the effective date of the tariff shall be the first day counted, and the last day so counted shall be the last day for filing unless such day is a Saturday, Sunday, or legal holiday for the Department, in which event the period for filing shall be extended to the next successive day that is not a Saturday, Sunday, or holiday. The computation of the time for filing complaints as to tariffs containing a posting date shall be governed by §302.8.

Subpart F—Rules Applicable to Proceedings Concerning Airport Fees

§ 302.601 Applicability.

(a) This subpart contains the specific rules that apply to a complaint filed by one or more air carriers or foreign air carriers ("carriers"), pursuant to 49 U.S.C. 47129(a), for a determination of the reasonableness of a fee increase or a newly established fee for aeronautical uses that is imposed upon the carrier by the owner or operator of an airport. This subpart also applies to requests by the owner or operator of an airport for such a determination. An airport owner or operator is considered to have imposed a fee on a carrier when it has taken all steps necessary under its procedures to establish the fee, whether or not the fee is being collected or carriers are currently required to pay it.

(b) This subpart does not apply to—

1. A fee imposed pursuant to a written agreement with a carrier using the facilities of an airport;
2. A fee imposed pursuant to a financing agreement or covenant entered into prior to August 23, 1994, or
3. Any other existing fee not in dispute as of August 23, 1994.

(c) Except as modified by this subpart, the provisions of subpart A of this part apply.

§ 302.602 Complaint by a carrier; request for determination by an airport owner or operator.

(a) Any carrier may file a complaint with the Secretary for a determination as to the reasonableness of any fee imposed on the carrier by the owner or operator of an airport. Any airport
owner or operator may also request such a determination with respect to a fee it has imposed on one or more carriers. The complaint or request for determination shall conform to the requirements of this subpart and §§ 302.3 and 302.4 concerning the form and filing of documents.

(b) If a carrier has previously filed a complaint with respect to the same airport fee or fees, any complaint by another carrier and any airport request for determination shall be filed no later than seven (7) calendar days following the initial complaint. In addition, all complaints or requests for determination must be filed on or before the sixtieth (60th) day after the carrier receives written notice of the imposition of the new fee or the imposition of the increase in the fee.

(c) To ensure an orderly disposition of the matter, all complaints and any request for determination filed with respect to the same airport fee or fees will be considered in a consolidated proceeding, as provided in § 302.606.

§ 302.603 Contents of complaint or request for determination.

(a) The complaint or request for determination shall set forth the entire grounds for requesting a determination of the reasonableness of the airport fee. The complaint or request shall include a copy of the airport owner or operator's written notice to the carrier of the imposition of the fee, a statement of position with a brief, and all supporting testimony and exhibits on which the filing party intends to rely. In lieu of submitting duplicative exhibits or testimony, the filing party may incorporate by reference testimony and exhibits already filed in the same proceeding.

(b) All exhibits and briefs prepared on electronic spreadsheet or word processing programs should be accompanied by standard-format computer diskettes containing those submissions. The disk submission must be in one of the following formats, in the latest two versions, or in such other format as may be specified by notice in the Federal Register: Microsoft Word (or RTF), Word Perfect, Ami Pro, Microsoft Excel, Lotus 123, Quattro Pro, or ASCII tab-delineated files. Parties should submit three copies of each diskette to Department of Transportation Dockets: one copy for the docket, one copy for the Office of Hearings, and one copy for the Office of Aviation Analysis. Filers should ensure that files on the diskettes are unalterably locked.

(c) When a carrier files a complaint, it must also certify:

(1) That it has served on the airport owner or operator and all other carriers serving the airport the complaint, brief, and all supporting testimony and exhibits, and that those parties have received or will receive these documents no later than the date the complaint is filed. Such service shall be by hand, by electronic transmission, or by overnight express delivery. (Unless a carrier has informed the complaining carrier that a different person should be served, service may be made on the person responsible for communicating with the airport on behalf of the carrier about airport fees);

(2) That the carrier has previously attempted to resolve the dispute directly with the airport owner or operator;

(3) That when there is information on which the carrier intends to rely that is not included with the brief, exhibits, or testimony, the information has been omitted because the airport owner or operator has not made that information available to the carrier. The certification shall specify the date and form of the carrier's request for information from the airport owner or operator; and

(4) That any submission on computer diskette is a true copy of the data file used to prepare the printed versions of the exhibits or briefs.

(d) When an airport owner or operator files a request for determination, it must also certify:

(1) That it has served on all carriers serving the airport the request, brief, and all supporting testimony and exhibits, and that those parties have received or will receive these documents no later than the date the request is filed. Such service shall be in the same manner as provided in § 302.603(c)(1).
§ 302.604 Answers to a complaint or request for determination.

(a)(1) When a carrier files a complaint under this subpart, the owner or operator of the airport and any other carrier serving the airport may file an answer to the complaint as provided in paragraphs (b) and (c) of this section.

(2) When the owner or operator of an airport files a request for determination of the reasonableness of a fee it has imposed, any carrier serving the airport may file an answer to the request.

(b) The answer to a complaint or request for determination shall set forth the answering party’s entire response. When one or more additional complaints or a request for determination has been filed pursuant to §302.602(b) with respect to the same airport’s fee or fees, the answer shall set forth the answering party’s entire response to all complaints and any such request for determination. The answer shall include a statement of position with a brief and any supporting testimony and exhibits on which the answering party intends to rely. In lieu of submitting duplicative exhibits or testimony, the answering party may incorporate by reference testimony and exhibits already filed in the same proceeding.

(c) Answers to a complaint shall be filed no later than fourteen (14) calendar days after the filing date of the first complaint with respect to the fee or fees in dispute at a particular airport. Answers to a request for determination shall be filed no later than fourteen (14) calendar days after the filing date of the request.

(d) All exhibits and briefs prepared on electronic spreadsheet or word processing programs should be accompanied by standard-format computer diskettes containing those submissions as provided in §302.603(b).

(e) The answering party must also certify that:

(1) it has served the answer, brief, and all supporting testimony and exhibits by hand, by electronic transmission, or by overnight express delivery on the carrier filing the complaint or the airport owner or operator requesting the determination, and that those parties have received or will receive these documents no later than the date the answer is filed; and

(2) that any submission on computer diskette is a true copy of the data file used to prepare the printed versions of the exhibits or briefs.

§ 302.605 Replies.

(a) The carrier submitting a complaint may file a reply to any or all of the answers to the complaint. The airport owner or operator submitting a request for determination may file a reply to any or all of the answers to the request for determination.

(b) The reply shall be limited to new matters raised in the answers. It shall constitute the replying party’s entire response to the answers. It shall be in the form of a reply brief and may include supporting testimony and exhibits responsive to new matters raised in the answers. In lieu of submitting duplicative exhibits or testimony, the replying party may incorporate by reference testimony and exhibits already filed in the same proceeding.

(c) The reply shall be filed no later than two (2) calendar days after answers are filed.

(d) All exhibits and briefs prepared on electronic spreadsheet or word processing programs should be accompanied by standard-format computer diskettes containing those submissions as provided in §302.603(b).

(e) The carrier or airport owner or operator submitting the reply must certify that it has served the reply and all supporting testimony and exhibits on the party or parties submitting the answer to which the reply is directed, and that those parties have received or will receive these documents no later than the date the reply is filed, and that any submission on computer diskette is a true copy of the data file used to prepare the printed versions of the exhibits or briefs.
§ 302.606 Review of complaints or requests for determination.

(a) Within thirty (30) days after a complaint or request for determination is filed under this subpart, the Secretary will determine whether the complaint or request meets the procedural requirements of this subpart and whether a significant dispute exists, and take appropriate action pursuant to paragraph (b), (c), or (d) of this section. When both a complaint and a request for determination have been filed with respect to the same airport fee or fees, the Secretary will issue a determination as to whether the complaint, the request, or both meet the procedural requirements of this subpart and whether a significant dispute exists within thirty (30) days after the complaint is filed.

(b) If the Secretary determines that a significant dispute exists, he or she will issue an instituting order assigning the complaint or request for hearing before an administrative law judge. The instituting order will—

(1) Establish the scope of the issues to be considered and the procedures to be employed;

(2) Indicate the parties to participate in the hearing;

(3) Consolidate into a single proceeding all complaints and any request for determination with respect to the fee or fees in dispute; and

(4) Include any special provisions for exchange or disclosure of information by the parties.

(c) If the Secretary determines that the complaint or request does not meet the procedural requirements of this subpart, the complaint or request for determination will be dismissed without prejudice to filing a new complaint. The order of the Secretary will set forth the terms and conditions under which a revised complaint or request may be filed.

(d) If the Secretary finds that no significant dispute exists—

(1) If the proceeding was instituted by a complaint, the Secretary will issue an order dismissing the complaint, which will contain a concise explanation of the reasons for the determination that the dispute is not significant.

(2) If the proceeding was instituted by a request for determination, the Secretary will either issue a final order as provided in §302.610 or set forth the schedule for any additional procedures required to complete the proceeding.

§ 302.607 Decision by administrative law judge.

The administrative law judge shall issue a decision recommending a disposition of a complaint or request for determination within sixty (60) days after the date of the instituting order, unless a shorter period is specified by the Secretary.

§ 302.608 Petitions for discretionary review.

(a) Within five (5) calendar days after service of a decision by an administrative law judge, any party may file with the Secretary a petition for discretionary review of the administrative law judge’s decision.

(b) Petitions for discretionary review shall comply with §302.32(a). The petitioner must also certify that it has served the petition by hand, by electronic transmission, or by overnight express delivery on all parties to the proceeding and that those parties have received or will receive the petition no later than the date it is filed.

(c) Any party may file an answer in support of or in opposition to any petition for discretionary review. The answer shall be filed within four (4) calendar days after service of the petition for discretionary review. The answer shall comply with the page limits specified in §302.32(b).

§ 302.609 Completion of proceedings.

(a) When a complaint or a request for determination with respect to an airport fee or fees has been filed under this subpart and has not been dismissed, the Secretary will issue a determination as to whether the fee is reasonable within 120 days after the complaint or request is filed.

(b) When both a complaint and a request for determination have been filed with respect to the same airport fee or fees and have not been dismissed, the Secretary will issue a determination as to whether the fee is reasonable within 120 days after the complaint is filed.
§ 302.610 Final order.

(a) When a complaint or request for determination stands submitted to the Secretary for final decision on the merits, he or she may dispose of the issues presented by entering an appropriate order, which will include a statement of the reasons for his or her findings and conclusions. Such an order shall be deemed a final order of the Secretary.

(b) The final order of the Secretary shall include, where necessary, directions regarding an appropriate refund or credit of the fee increase or newly established fee which is the subject of the complaint or request for determination.

(c) If the Secretary has not issued a final order within 120 days after the filing of a complaint by an air carrier or foreign air carrier, the decision of the administrative law judge shall be deemed to be the final order of the Secretary.

Subpart G—Rules Applicable to Mail Rate Proceedings and Mail Contracts

§ 302.701 Applicability.

(a) This subpart sets forth the special rules applicable to proceedings for the establishment of mail rates by the Department for foreign air transportation and air transportation between points in Alaska, and certain contractual arrangements between the U.S. Postal Service and certificated air carriers for the carriage of mail in foreign air transportation entered into pursuant to 39 U.S.C. 5402(a), 84 Stat. 772.

(b) Such contracts must be for the transportation of at least 750 pounds of mail per flight, and no more than five (5) percent, based on weight, of the international mail transported under any such contract may consist of letter mail.

Final Mail Rate Proceedings

§ 302.702 Institution of proceedings.

(a) Proceedings for the determination of rates of compensation for the transportation of mail may be commenced by the filing of a petition by an air carrier whose rate is to be fixed, or the U.S. Postal Service, or upon the issuance of an order by the DOT decisionmaker.

(b) The petition shall set forth the rate or rates sought to be established, a statement that they are believed to be fair and reasonable, the reasons supporting the request for a change in rates, and a detailed economic justification sufficient to establish the reasonableness of the rate or rates proposed.

(c) In any case where an air carrier is operating under a final mail rate uniformly applicable to an entire rate-making unit as established by the DOT decisionmaker, a petition must clearly and unequivocally challenge the rate for such entire rate-making unit and not only a part of such unit.

(d) All petitions, amended petitions, and documents relating thereto shall be served upon the U.S. Postal Service by sending a copy to the Assistant General Counsel, Transportation Division, Washington, DC 20250–1124, by registered or certified mail, postpaid, prior to the filing thereof with the Department. Proof of service on the U.S. Postal Service shall consist of a statement in the document that the person filing it has served a copy as required by this section.

(e) Answers to petitions shall be filed within twenty (20) days after service of the petition.

§ 302.703 Order to show cause or instituting a hearing.

Whether the proceeding is commenced by the filing of a petition or upon the Department’s own initiative, the DOT decisionmaker may issue an order directing the respondent to show cause why it should not adopt such findings and conclusions and such final rates as may be specified in the order to show cause, or may issue an order setting the matter for hearing before an administrative law judge.

§ 302.704 Objections and answers to order to show cause.

(a) Where an order to show cause is issued, any person having objections to the rates specified in such order shall file with the DOT decisionmaker an answer within forty-five (45) days after the date of service of such order or
within such other period as the order may specify.

(b) An answer to an order to show cause shall contain specific objections, and shall set forth the findings and conclusions, the rates, and the supporting exhibits that would be substituted for the corresponding items in the findings and conclusions of the show cause order, if such objections were found valid.

(c) An answer filed by a person who is neither a party nor a person ultimately permitted to intervene in an oral evidentiary hearing if such proceeding is established shall be treated as a memorandum filed under §302.706.

§ 302.705 Further procedures.

(a) If no answer is filed within the designated time, or if a timely filed answer raises no material issue of fact, the DOT decisionmaker may, upon the basis of the record in the proceeding, enter a final order fixing the rate or rates.

(b) If an answer raising a material issue of fact is filed within the time designated in the Department’s order, the DOT decisionmaker may then issue an order authorizing additional pleadings and/or establishing further procedural steps, including setting the matter for oral evidentiary hearing before an administrative law judge.

§ 302.706 Hearing.

(a) If a hearing is ordered under §302.705, the issues at such hearing shall be formulated in accordance with the instituting order, except that at a prehearing conference, the administrative law judge may permit the parties to raise such additional issues as he or she deems necessary to make a full determination of a fair and reasonable rate.

(b) The parties to the proceeding shall be the air carrier or carriers for whom rates are to be fixed, the U.S. Postal Service, the Office of the Assistant General Counsel for Aviation Enforcement and Proceedings and any other person whom the DOT decisionmaker or administrative law judge permits to intervene in accordance with §302.20.

§ 302.707 Procedure for fixing temporary mail rates.

At any time during the pendency of a proceeding for the determination of final mail rates, the DOT decisionmaker, upon his or her own initiative, or on petition by the air carrier whose rates are in issue or by the U.S. Postal Service, may fix temporary rates of compensation for the transportation of mail subject to downward or upward adjustment upon the determination of final mail rates.

§ 302.708 Invocation of procedure.

(a) Conferences between DOT employees, representatives of air carriers, the U.S. Postal Service and other interested persons may be called by DOT employees for the purpose of considering and clarifying issues and factual material in pending proceedings for the establishment of rates for the transportation of mail.

(b) At the commencement of an informal mail rate conference pursuant to this section, the authorized DOT employees conducting such conference shall issue a written statement to each person present at such conference a written statement to the effect that such conference is being conducted pursuant to this section and stating the time of commencement of such conference; and at the termination of such conference the DOT employees conducting such conference shall note in writing on such statement
§ 302.709 Scope of conferences.

The mail rate conferences shall be limited to the discussion of, and possible agreement on, particular issues and related factual material in accordance with sound rate-making principles. The duties and powers of DOT employees in rate conferences essentially will not be different, therefore, from the duties and powers they have in the processing of rate cases not involving a rate conference. The employees’ function in both instances is to present clearly to the DOT decision-maker the issues and the related material facts, together with recommendations. The DOT decision-maker will make an independent determination of the soundness of the employees’ analyses and recommendations.

§ 302.710 Participants in conferences.

The persons entitled to be present in mail rate conferences will be the representatives of the carrier whose rates are in issue, the staff of the U.S. Postal Service, and the authorized DOT employees. No other person will attend unless the DOT employees deem his or her presence necessary in the interest of one or more purposes to be accomplished, and in such case his or her participation will be limited to such specific purposes. No person, however, shall have the duty to attend merely by reason of invitation by the authorized DOT employees.

§ 302.711 Conditions upon participation.

(a) Nondisclosure of information. As a condition to participation, every participant, during the period of the conference and for ninety (90) days after its termination, or until the Department takes public action with respect to the facts and issues covered in the conference, whichever is earlier:

(1) Shall, except for necessary disclosures in the course of employment in connection with conference business, hold the information obtained in conference in absolute confidence and trust;

(2) Shall not deal, directly or indirectly, for the account of himself or herself, his or her immediate family, members of his or her firm or company, or as a trustee, in securities of the air carrier involved in the rate conference except that under exceptional circumstances special permission may be obtained in advance from the DOT decisionmaker; and

(3) Shall adopt effective controls for the confidential handling of such information and shall instruct personnel under his or her supervision, who by reason of their employment come into possession of information obtained at the conference, that such information is confidential and must not be disclosed to anyone except to the extent absolutely necessary in the course of employment, and must not be misused. (The term “information”, as used in this section, shall refer only to information obtained at the conference regarding the future course of action or position of the Department or its employees with respect to the facts or issues discussed at the conference.)

(b) Signed statement required. Every representative of an air carrier actually present at any conference shall sign a statement that he or she has read this entire instruction and promises to abide by it and advise any other participant to whom he or she discloses any confidential information of the restrictions imposed above. Every representative of the U.S. Postal Service actually present at any conference shall, on his or her own behalf, sign a statement to the same effect.

(c) Presumption of having conference information. A director of any air carrier that has had a representative at the conference, who deals either directly or indirectly for himself or herself, his or her immediate family, members of his or her firm or company, or as a trustee, in securities of the air carrier involved in the conference, during the restricted period set forth above, shall be presumed to have come into possession of information obtained at the conference knowing that such information was subject to the restrictions imposed above; but such presumption can be rebutted.

(d) Compliance report required. Within ten (10) days after the expiration of the time specified for keeping conference

matters confidential, every participant, as defined in paragraph (e) of this section, shall file a verified compliance report with Department of Transportation Dockets stating that he or she has complied in every respect with the conditions of this section, or if he or she has not so complied, stating in detail in what respects he or she has failed to comply.

(e) Persons subject to the provisions of this section. For the purposes of this section, participants shall include:

1. Any representative of any air carrier and any representative of the U.S. Postal Service actually present at the conference;

2. The directors and the officers of any air carrier that had a representative at the conference;

3. The members of any firm of attorneys or consultants that had a representative at the conference; and

4. The members of the U.S. Postal Service staff who come into possession of information obtained at the conference, knowing that such information is subject to the restrictions imposed in this section.

§ 302.712 Information to be requested from an air carrier.

When an air carrier is requested to submit detailed estimates as to traffic, revenues and expenses by appropriate periods and the investment that will be required to perform the operations for a future period, full and adequate support shall be presented for all estimates, particularly where such estimates deviate materially from the air carrier’s experience. With respect to the rate for a past period, essentially the same procedure shall be followed. Other information or data likewise may be requested by the DOT employees. All data submitted by the air carrier shall be certified by a responsible officer.

§ 302.713 DOT analysis of data for submission of answers thereto.

After a careful analysis of these data, the DOT employees will, in most cases, send the air carrier a statement of exceptions showing areas of differences. Where practicable, the air carrier may submit an answer to these exceptions. Conferences will then be scheduled to resolve the issues and facts in accordance with sound ratemaking principles.

§ 302.714 Availability of data to the U.S. Postal Service.

The representatives of the U.S. Postal Service shall have access to all conference data and, insofar as practicable, shall be furnished copies of all pertinent data prepared by the DOT employees and the air carrier, and a reasonable time shall be allowed to review the facts and issues and to make any presentation deemed necessary. Provided, That in cases other than those involving an issue as to the service mail rates payable by the U.S. Postal Service pursuant to section 41901 of the Statute, representatives of the U.S. Postal Service shall be furnished with copies of data under this provision only upon their written request.

§ 302.715 Post-conference procedure.

No briefs, argument, or any formal steps will be entertained by the DOT decisionmaker after the rate conferences. The form, content and time of the staff’s presentation to the DOT decisionmaker are entirely matters of internal procedure. Any party to the mail rate proceeding may, through an authorized DOT employee, request the opportunity to submit a written or oral statement to the DOT decisionmaker on any unresolved issue. The DOT decisionmaker will grant such requests whenever he or she deems such action desirable in the interest of further clarification and understanding of the issues. The granting of an opportunity for such further presentation shall not, however, impair the rights that any party might otherwise have under the Statute and this part.

§ 302.716 Effect of conference agreements.

No agreements or understandings reached in rate conferences as to facts or issues shall in any respect be binding on the Department or any participant. Any party to mail rate proceedings will have the same rights to file an answer and take other procedural steps as though no rate conference had been held. The fact, however, that a rate conference was held
§ 302.717 Waiver of participant conditions.

After the termination of a mail rate conference hereunder, the air carrier whose rates were in issue may petition the DOT decisionmaker for a release from the obligations imposed upon it and all other persons by § 302.711. The DOT decisionmaker will grant such petition only after a detailed and convincing showing is made in the petition and supporting exhibits and documents that there is no reasonable possibility that any of the abuses sought to be prevented will occur or that the Department’s processes will in any way be prejudiced. There will be no hearing or oral argument on the petition and the DOT decisionmaker will grant or deny the request without being required to assign reasons therefor.

§ 302.718 Filing.

Any air carrier that is a party to a contract to which this subpart is applicable shall file three (3) copies of the contract in the Office of Aviation Analysis, X–50, Department of Transportation, Washington, DC 20590, not later than ninety (90) days before the effective date of the contract. A copy of such contract shall be served upon the persons specified in § 302.720 and the certificate of service shall specify the persons upon whom service has been made. One copy of each contract filed shall bear the certification of the secretary or other duly authorized officer of the filing air carrier to the effect that such copy is a true and complete copy of the original written instrument executed by the parties.

§ 302.719 Explanation and data supporting the contract.

Each contract filed pursuant to this subpart shall be accompanied by economic data and such other information in support of the contract upon which the filing air carrier intends that the Department rely, including, in cases where pertinent, estimates of the annual volume of contract mail (weight and ton-miles) under the proposed contract, the nature of such mail (letter mail, parcel post, third class, etc.), together with a statement as to the extent to which this traffic is new or diverted from existing classes of air and surface mail services and the priority assigned to this class of mail.

§ 302.720 Service.

A copy of each contract filed pursuant to § 302.718, and a copy of all material and data filed pursuant to § 302.719, shall be served upon each of the following persons:

(a) Each certificated and commuter (as defined in § 298.2 of this chapter) air carrier, other than the contracting carrier, that is actually providing scheduled mail services between any pair of points between which mail is to be transported pursuant to the contract; and

(b) The Assistant General Counsel, Transportation Division, U.S. Postal Service, Washington, DC 20260–1124.

§ 302.721 Complaints.

Within fifteen (15) days of the filing of a contract, any interested person may file with the Office of Aviation Analysis, X–50, Department of Transportation, Washington, DC 20590, a complaint with respect to the contract setting forth the basis for such complaint and all pertinent information in support of same. A copy of the complaint shall be served upon the air carrier filing the contract and upon each of the persons served with such contract pursuant to § 302.720.

§ 302.722 Answers to complaints.

Answers to the complaint may be filed within ten (10) days of the filing of the complaint, with service being made as provided in § 302.720.
Office of the Secretary, DOT

§ 302.723 Further procedures.
(a) In any case where a complaint is filed, the DOT decisionmaker shall issue an order dismissing the complaint, disapproving the contract, or taking such other action as may be appropriate. Any such order shall be issued not later than ten (10) days prior to the effective date of the contract.
(b) In cases where no complaint is filed, the DOT decisionmaker may issue a letter of notification to all persons upon whom the contract was served indicating that the Department does not intend to disapprove the contract.
(c) Unless the DOT decisionmaker disapproves the contract not later than ten (10) days prior to its effective date, the contract automatically becomes effective.

§ 302.724 Petitions for reconsideration.
Except in the case of a Department determination to disapprove a contract, no petitions for reconsideration of any Department determination pursuant to this subpart shall be entertained.

[Amdt. 303–2, 54 FR 33499, Aug. 15, 1989]

§ 303.02 Definitions.

(a) The term Act refers to the Federal Aviation Act of 1958, as amended. (49 U.S.C. 1301 et seq.)

(b) The term Assistant Secretary means the Assistant Secretary for Aviation and International Affairs, or as delegated. As provided in 49 CFR 1.43, the Secretary or Deputy Secretary may exercise any authority in lieu of the Assistant Secretary under the provisions of this part.

(c) The term documents means (1) all written, recorded, transcribed or graphic matter including letters, telegrams, memoranda, reports, studies, forecasts, lists, directives, tabulations, logs, or minutes and records of meetings, conferences, telephone or other conversations or communications; and (2) all information contained in data processing equipment or materials. The term does not include daily or weekly statistical reports in whose place an annual or monthly summary is submitted.

(d) The term Documentary Services Division means the Documentary Services Division of the Office of the Assistant General Counsel for Regulation and Enforcement.

(e) The term hearing means either a show cause proceeding as provided in §303.44 of this part or a full evidentiary hearing as provided in §303.45 of this part, whichever is determined by the Assistant Secretary to be appropriate.

(f)–(g) [Reserved]

(h) The term Section 412 transaction means any contract, agreement or discussion of a cooperative working arrangement within the scope of section 412 of the Act. (49 U.S.C. 1382).

(i) [Reserved]

§ 303.03 Requirement to file application.

A person who seeks approval of a section 412 transaction must file with the Documentary Services Division an application that conforms to the requirements set forth in §§303.04 and 303.05 of this part.

[50 FR 31142, July 31, 1985, as amended by Amdt. 303–2, 54 FR 33499, Aug. 15, 1989]

§ 303.04 General rules governing application content, procedure and conditions of approval.

(a) Unless specifically exempted by these regulations or by an order of the Assistant Secretary, a person filing an application pursuant to §303.03 of this part shall prepare and file the application in the manner specified in this section. The application shall contain the information required by subpart D of this part. An application may be deemed incomplete if it is not in substantial compliance with these requirements.

(b) The parties to the transaction may file either separate applications or one joint application so long as all the information required herein is submitted for each party to the transaction. The Assistant Secretary or Administrative Law Judge, if the matter has been assigned to a judge, upon his or her initiative or upon application, may order the target company or other
persons to submit some or all of the information required by this subpart, or other information under 14 CFR 302.25.

(c) Each page of the application and each document submitted with the application shall be marked with the name, initials, or some other identifying symbol of the applicant. The application shall also indicate the date of preparation and the name and corporate position of the preparer.

(d) Where the required information is in data processing equipment, on microfilm, or is otherwise not eye-readable, the applicant shall provide such information in eye-readable form.

(e) The information provided by the applicant shall be updated in a timely fashion throughout the period of consideration of the application.

(f) If any information or documents required by the applicable subpart are not available, the applicants shall file an affidavit executed by the individual responsible for the search explaining why they cannot be produced.

(g) The Assistant Secretary or the Administrative Law Judge may order any applicant to submit information in addition to that required by the applicable subpart.

(h) An applicant may withhold a document required by this part on the ground that it is privileged, but each document so withheld shall be identified and the applicant shall supply a brief description of the nature of the document, a written statement indicating the basis of the privilege claimed, and the names of the preparers and recipients of the document. If any interested party contests the assertion of privilege, the document shall be promptly submitted to the Assistant Secretary, or the Administrative Law Judge, if the matter has been assigned to a Judge. Where appropriate, an in camera inspection may be ordered.

(i) The person submitting the application to the Department shall send a complete copy of the application to the Chief, Transportation Section, Antitrust Division of the Department of Justice, at the same time as it is filed with the Documentary Services Division.

(j) The applicant shall, if requested, be responsible for expeditiously providing the application to any interested person, whether or not a party.

(k) Unless otherwise specified in this subpart, all applications shall conform generally to the requirements set forth in 14 CFR part 302, subpart A.

(l) In exceptional circumstances, the Assistant Secretary may waive or alter the procedural requirements of this part to permit a transaction to proceed on an expedited basis.

§ 303.05 Applications requesting antitrust immunity.

(a) Each application must state explicitly whether or not the applicant seeks antitrust immunity under the provisions of section 414 of the Act. If antitrust immunity is requested, the application should specify whether the applicant seeks full immunity or immunity only from the provisions of sections 4, 4a and 4c of the Clayton Act, 15 U.S.C. 15, 15a, 15c. Each application seeking antitrust immunity shall contain a statement explaining why the applicant believes immunity is in the public interest and necessary in order for the transaction to proceed.

(b) [Reserved]

(c) Any material misrepresentation of fact in such an application shall be grounds for rescission nunc pro tunc of any antitrust immunity granted as a result of the misrepresentation.

(d) A request for renewal of any immunity granted does not operate under section 558 of Administrative Procedure Act, 5 U.S.C. 558(c), to extend the period of immunity conferred.

[50 FR 31142, July 31, 1985, as amended by Amdt. 303–2, 54 FR 33499, Aug. 15, 1989]

§ 303.06 Review of antitrust immunity.

The Assistant Secretary may initiate a proceeding to review any antitrust immunity previously conferred by the Civil Aeronautics Board or the Department in any section 412 transaction. The Assistant Secretary may terminate or modify such immunity if the Assistant Secretary finds after notice and hearing that the previously conferred immunity is not consistent with the provisions of section 414. In any proceeding to review such immunity,
the proponents of the immunity will have the burden of justifying the continuation of previously conferred immunity under the provisions of section 414.

§ 303.07 Transitional rule.

If a section 412 application or a request for antitrust immunity under section 414 is pending on the date this part is amended, such application or request shall be deemed made pursuant to the provisions of this part, as amended.

Subpart B [Reserved]

§§ 303.10–303.19 [Reserved]

Subpart C [Reserved]

§§ 303.20–303.24 [Reserved]

Subpart D—Section 412 Applications

§ 303.30 General provisions concerning contents of applications.

A Section 412 application shall contain the following general information:

(a) The name, mailing address and primary line of business of each party to the contract, agreement or request for authority to discuss a possible cooperative working arrangement.

(b) If the contract or agreement for which approval is sought is not evidenced by a resolution of an air carrier association, the application shall contain a copy of the contract or agreement that is certified to be true and complete by each party to the contract of agreement. If the contract or agreement is set forth in an exchange of correspondence, copies of all such correspondence must be submitted and must be certified as true and complete by each party to the contract or agreement. If approval is sought for a request for authority to discuss a possible cooperative working arrangement, the application shall contain a complete description of the possible cooperative working arrangement and all matters to be discussed. The description shall be certified to be true and complete by each party to the proposed discussion.

(c) If the contract, agreement or request for authority to discuss a cooperative working arrangement is evidenced by a resolution or other action of an air carrier association, the application shall contain the resolution or other action and a certification by an authorized employee of the association that the resolution or other action was duly adopted on a certain date. The authorized employee shall also specify in such certification the name of each air carrier that concurred in such resolution or other action and the name of each air carrier member that did not concur. Contracts, agreements and requests for authority to discuss cooperative working arrangements may be filed in this manner only if the Association has complied with 14 CFR part 263.

§ 303.31 Justification for the application.

A section 412 application shall explain the nature and purpose of the contract, agreement or request to discuss a cooperative working arrangement and describe how it changes any price, rule or practice existing under a previously-approved application. The application also, consistent with Department of Transportation and CAB precedent, shall contain factual material, documentation and argument in support of the application. Economic analyses, when required, shall include full explanatory details, including data sources and allocation methods. If the applicants intend to rely on public benefits to justify approval they shall describe these benefits, including foreign policy and comity considerations.

§ 303.32 Service of the application.

(a) Except as provided in paragraph (b) of this section, a section 412 application described in §303.30(c) of this subpart and any related pleadings shall be served on any person or organization that has previously advised the air carrier association of its desire for
service of such agreements. Each application shall contain the names and addresses of all persons served and a notice that any party in interest may within 21 days of the date of the application file comments with the Assistant Secretary in support or opposition to the application.

(b) Service of IATA Traffic Conference agreements and amendments thereto upon any person or organization that previously has advised IATA of its desire for service of agreements may be accomplished by sending a summary notice specifying the filing date; the IATA memorandum number; the particular Conferences involved; the subject matter (e.g. cargo/pas-
senger, tariffs/agency matters/ procedures); the proposed effective date(s); the markets or Conference areas affected; the names of the carriers participating in the agreement; the names of all persons served; and a notice that any party in interest may within 21 days of the date of filing of the application or request a hearing within 21 days of the date of filling or other period as specified. The weekly list will normally be prepared on the following Monday, or as soon as possible, and will be posted on a public bulletin board in the Documentary Services Division. The list also shall be submitted for publication in the FEDERAL REGISTER.

(b) In appropriate case, particularly when an application concerns a matter of broad public significance, the Assistant Secretary may cause a notice of an application and request for public comment to be published separately in the FEDERAL REGISTER.

§ 303.42 Comments on application.

(a) Unless a different comment period is specified in the weekly list, or in a notice of filing published in the FEDERAL REGISTER, any person may file comments, responses to the application, and/or a request for a hearing within 21 days of the filing of an application.

(b) Comments supporting or opposing an application or proposing conditions and responses thereto shall state with particularity the factual basis on which the person commenting relies, and provide affidavits or other material in support of the factual basis, if appropriate.

(b) Requests for a formal oral evidentiary hearing must set out with specificity the material issues of fact in dispute that cannot be resolved without such a hearing. Vague, unsupported allegations will not suffice.

§ 303.43 Action following the comment period.

(a) [Reserved]

(b) Section 412 applications. After the period for which comments, requests for a hearing or responses to an order
Office of the Secretary, DOT § 303.46

§ 303.46 Decision by the Assistant Secretary.

The Assistant Secretary shall decide, on the basis of the record and in accordance with the procedures prescribed in part 302 of this chapter, whether to grant or deny, in whole or in part, the application. A copy of the Assistant Secretary's final decision shall be served on all parties.

§ 303.44 Show cause proceedings.

If the Assistant Secretary determines that an application, or review of a previously granted application, will be considered in a show cause proceeding, a tentative decision shall be issued inviting interested persons to show cause why the tentative decision should not be made final. Interested persons may respond to the order within the time specified in the order. Replies to such responses shall be permitted within the time specified in the order. Persons wishing to introduce additional facts into the record should incorporate such information in their responses or replies by affidavit. In the case of applications, show cause orders may be issued after the receipt of initial comments on the application.

§ 303.45 Evidentiary hearings.

(a) If the Assistant Secretary determines that an application, or review of a previous granted application, should be the subject of a full evidentiary hearing, he or she shall issue an order so stating. The term "full evidentiary hearing" includes any hybrid format set out in the instituting order. This order shall set forth the issues that are to be considered in such hearing.

(b) After the issuance of an order for a full evidentiary hearing, the Chief Administrative Law Judge shall promptly appoint an Administrative Law Judge to conduct such hearing in accordance with section 7 of the Administrative Procedure Act, 5 U.S.C. 556, and the Rules of Practice in part 302 of this chapter.

(c) The applicants and the Assistant General Counsel for Aviation Enforcement and Proceedings shall be parties in any full evidentiary hearing held under these regulations. The Assistant Attorney General, Antitrust, shall be a party upon notice filed with the Administrative Law Judge. Other persons may intervene as parties as provided by §302.20 of this chapter.

(d) Within the time specified in the order instituting the full evidentiary hearing, the Administrative Law Judge shall recommend to the Assistant Secretary that the application be approved or denied or that the previously granted exemption approval or immunity should be terminated or continued in accordance with the standards of the Act. The recommendation shall be in writing, shall be based solely on the hearing record, and shall include a statement of the Administrative Law Judge's findings and conclusions, and the reasons or basis therefore, or all material issues of fact, law or discretion presented on the record. Copies of the recommendation shall be served on each party.

(e) Within 10 days after the date the Administrative Law Judge serves his or her recommendation, any party may file written exceptions to the recommendation for consideration by the Assistant Secretary. Within 21 days after the service date of the judge's recommendation, any party may file a brief in support of or in opposition to any exceptions. This period may be altered by order of the Assistant Secretary, who may also authorize the filing of reply briefs.

§ 303.46 Decision by the Assistant Secretary.

The Assistant Secretary shall decide, on the basis of the record and in accordance with the procedures prescribed in part 302 of this chapter, whether to grant or deny, in whole or in part, the application. A copy of the Assistant Secretary's final decision shall be served on all parties.
§ 305.1 Applicability.

The provisions of this part shall govern informal nonpublic investigations, as distinguished from formal investigations and adjudicatory proceedings, undertaken by the Office of the Assistant General Counsel for Aviation Enforcement and Proceedings with a view to obtaining information from any person. While the Department seeks and encourages voluntary cooperation and believes that it is in the best interest of all parties concerned, it will utilize the procedures provided by this part to compel the disclosure of information by any person where DOT wishes to determine whether such person, or any other person, has been or is violating any provisions of Title IV or sections 1002, 1003, or 1108(b) of the Act, or any rule, regulation, order, certificate, permit, or letter or registration issued pursuant thereto by DOT and when the information appears to be relevant to the matter under investigation. This part shall not apply to employees or records of other agencies of the U.S. Government, the District of Columbia, or the several States and their political subdivisions.

§ 305.2 Definition.

For the purpose of, and as used in this part, the term investigation means a non-adjudicatory, informal nonpublic investigation for the purpose of determining whether formal enforcement action should be instituted with respect to alleged violations of law.

§ 305.3–§ 305.4 [Reserved]

§ 305.5 Initiation of investigation.

An investigation may be initiated by order of the Department. Attorneys of the Office of the Assistant General Counsel for Aviation Enforcement and Proceedings shall conduct such investigations pursuant to the provisions of this part and they shall be designated Investigation Attorneys. Investigation Attorneys, administrative law judges and the DOT decisionmaker are hereby authorized to exercise and perform their duties and functions under this part in accordance with the provisions of the Act and the rules and regulations of the Department.

§ 305.6 Appearance of witnesses.

 Witnesses may be required to appear before any administrative law judge for the purpose of receiving their testimony or receiving from them documents or other data relating to any subject under investigation. Such testimony shall be mechanically or stenographically recorded, and a transcript thereof shall be made and incorporated in the record of the investigation.

§ 305.7 Issuance of investigation subpenas.

(a) The Deputy General Counsel, the DOT decisionmaker, the chief administrative law judge or the administrative law judge designated to preside at the reception of evidence, may issue a subpena directing the person named therein to appear before a designated administrative law judge at a designated time and place to testify or to produce documentary evidence relating to any matter under investigation, or both. Each such subpena shall briefly advise the person required to testify or submit documentary evidence of the purpose and scope of the investigation, and a copy of the order initiating the investigation shall be attached to the subpena.

(b) Witnesses subpenaed to appear shall be paid the fees and mileage prescribed in §302.7 of the Rules of Practice (14 CFR 302.7). Service of such subpenas shall be made in accordance with
§ 305.8  [Reserved]

§ 305.9  Rights of witnesses.

Any person required to testify or to submit documentary evidence shall be entitled to procure, on payment of lawfully prescribed costs, a copy of any document produced by such person and of his or her own testimony as stenographically reported. Any person compelled to testify or to produce documentary evidence may be accompanied, represented, and advised by counsel.

§ 305.10  Nonpublic character of proceedings.

Investigations shall be attended only by the witnesses and their counsel, the administrative law judge, the Investigation Attorney, other DOT personnel concerned with the conduct of the proceeding and the official stenographer. All orders initiating investigations, motions to quash or modify investigation subpoenas, orders disposing of such motions, documents, and transcripts of testimony shall be part of the record in the investigation. Unless DOT determines otherwise, all orders initiating investigations which do not disclose the identity of the particular persons of firms under investigation shall be published in the Federal Register. Except as otherwise required by law, the remainder of the record of such proceedings shall constitute internal DOT documents which shall not be available to the general public. The use of such records in DOT proceedings subject to part 302 of the Rules of Practice shall be governed by §§ 302.25(g) and 302.12 and by the law of evidence applicable to DOT proceedings.

(Docket No. 82, 50 FR 2421, Jan. 16, 1985, as amended at 65 FR 6456, Feb. 9, 2000)

§ 305.11  Procedures after investigation.

Upon completion of the investigation, where the Deputy General Counsel, determines that no corrective action is warranted, the investigation will be closed, and any documentary evidence obtained in the investigation will be returned to the persons who produced it. Where remedial action is indicated by the investigation, the Deputy General Counsel will proceed pursuant to subpart D of part 302 of the Rules of Practice or will take such other action as may be appropriate.

(Docket No. 82, 50 FR 2421, Jan. 16, 1985, as amended at 65 FR 6456, Feb. 9, 2000)

§ 305.12  Motions to quash or modify an investigation subpoena.

Any person upon whom an investigation subpoena is served may, within seven (7) days after such service or at any time prior to the return date thereof, whichever is earlier, file a motion to quash or modify such subpoena with the administrative law judge who issued such subpoena, or in the event the administrative law judge is not available, with the chief administrative law judge for action by himself or herself or by the DOT decisionmaker. Such motions shall be made in writing in conformity with Rules 3 and 4 of the Rules of Practice (part 302 of this subchapter); shall state with particularity the grounds therefor and the relief sought; shall be accompanied by the evidence relied upon and all such factual matter shall be verified in accordance with the provisions of Rule 4(b) of the aforesaid Rules of Practice. Written memoranda or briefs may be filed with the motions, stating the points and authorities relied upon. No oral argument will be heard on such motions unless the chief administrative law judge, the administrative law judge or the DOT decisionmaker directs otherwise. A subpoena will be quashed or modified if the evidence whose production is required is not reasonably relevant to the matter under investigation, or the demand made does not describe with sufficient particularity the information sought, or the subpoena is unlawful or unduly burdensome. The filing of a motion to quash or modify an investigation subpoena shall stay the return date of such subpoena until such motion is granted or denied. The DOT decisionmaker may at any time review, upon his or her own initiative, the ruling of an administrative law judge or the chief administrative law
judge denying a motion to quash a subpoena. In such cases, the DOT decision-maker may order that the return date of a subpoena which he or she has elected to review be stayed pending DOT action thereon.

PART 313—IMPLEMENTATION OF THE ENERGY POLICY AND CONSERVATION ACT

Sec.
313.1 Purpose, scope, and authority.
313.2 Policy.
313.3 Definitions.
313.4 Major regulatory actions.
313.5 Energy information.
313.6 Energy statements.
313.7 Integration with environmental procedures.

SOURCE: Docket No. 82, 50 FR 2425, Jan. 16, 1985, unless otherwise noted.

§ 313.1 Purpose, scope, and authority.

(a) Chapter 77 (Energy Conservation) of Title 42 (The Public Health and Welfare), authorizes and directs certain actions to conserve energy supplies through energy conservation programs and where necessary, the regulation of certain energy uses, and to provide for improved energy efficiency of motor vehicles, major appliances, and certain other consumer products. In furtherance of these purposes, 42 U.S.C. 6362 requires several transportation regulatory agencies, including DOT, to submit a number of reports to the Congress with respect to energy conservation and efficiency, and where practicable and consistent with the exercise of DOT's authority under other law, to include in any major regulatory action a statement of its probable impact on energy efficiency and energy conservation. 42 U.S.C. 6362(b) directs DOT to define the term "major regulatory action" by rule.

(b) Section 40113 of Subtitle VII of Title 49 of the United States Code (Transportation) ("the Statute"), authorizes DOT to establish such rules, regulations, and procedures as are necessary to the exercise of its functions and are consistent with the purposes of the Statute.

(c) The purpose of these regulations is to establish procedures and guidelines for the implementation of DOT's responsibility under 42 U.S.C. 6362 to include in any major regulatory action taken by DOT a statement of the probable impact on energy efficiency and energy conservation.

(d) These regulations apply to all proceedings before DOT, as provided herein.

(Docket No. 82, 50 FR 2425, Jan. 16, 1985, as amended at 60 FR 43528, 43529, Aug. 22, 1995)

§ 313.2 Policy.

(a) General. It is the policy of DOT to view the conservation of energy and the energy efficiency improvement goals of Chapter 77 of Title 42 as part of DOT's overall mandate, to be considered along with the several public interest and public convenience and necessity factors enumerated in section 40101 of the Statute. To the extent practicable and consistent with DOT's authority under the Statute and other law, energy conservation and efficiency are to be weighed in the decision-making process just as are DOT's traditional policies and missions.

(b) Implementation. Implementation of this policy is through the integration of energy findings and conclusions into decisions, opinions, or orders in proceedings involving a major regulatory action, as defined in this part.

(c) Proceedings in progress. The provisions of this part are intended primarily for prospective application. Proceedings in progress on the effective date of this part, in which an application has been docketed but no final decision made public, shall adhere to §313.6(a) of this part, provided that the fair, efficient, and timely administration of DOT's regulatory activities is not compromised thereby. Nothing herein shall imply a requirement for new or additional hearings, a reopening of the record, or any other procedures which would tend to delay a timely decision in proceedings in progress.

(d) Hearings. Public hearings will not normally be held for the purpose of implementing 42 U.S.C. 6362, particularly in connection with proposed actions
which do not require notice and hearing as a prerequisite to decision under the Statute. Hearings may be ordered in exceptional circumstances where the proposed action is of great magnitude or widespread public interest and, in addition, presents complex issues peculiarly subject to resolution through evidentiary hearings and the process of cross-examination.

[Docket No. 82, 50 FR 2425, Jan. 16, 1985, as amended at 60 FR 43528, 43529, Aug. 22, 1995]

§ 313.3 Definitions.
As used in this part:
(a) Energy efficiency means the ratio of the useful output of services in air transportation to the energy consumption of such services.
(b) Energy statement is a statement of the probable impact of a major regulatory action on energy efficiency and energy conservation, contained in a decision, opinion, order, or rule.
(c) Major regulatory action is any decision by the DOT decisionmaker or administrative law judge requiring an energy statement pursuant to §313.4 of this part.
(d) NEPA means the National Environmental Policy Act of 1969.
(e) Statute means Subtitle VII of Title 49 of the United States Code (Transportation).

[Docket No. 82, 50 FR 2425, Jan. 16, 1985, as amended at 60 FR 43529, Aug. 22, 1995]

§ 313.4 Major regulatory actions.
(a) Any initial, recommended, tentative or final decision, opinion, order, or final rule is a major regulatory action requiring an energy statement, if it:
(1) May cause a near-term net annual change in aircraft fuel consumption of 10 million (10,000,000) gallons or more, compared to the probable consumption of fuel were the action not to be taken; or
(2) Is specifically so designated by DOT because of its precedential value, substantial controversy with respect to energy conservation and efficiency, or other unusual circumstances.
(b) Notwithstanding paragraph (a)(1) of this section, the following types of actions shall not be deemed as major regulatory actions requiring an energy statement:
(1) Tariff suspension orders under section 41509 of the Statute, emergency exemptions or temporary exemptions not exceeding 24 months under section 40109 of the Statute and other proceedings in which timely action is of the essence;
(2) Orders instituting or declining to institute investigations or rulemaking, setting or declining to set applications for hearing, on reconsideration, or on requests for stay;
(3) Other procedural or interlocutory orders;
(4) Actions taken under delegated authority; and
(5) Issuance of a certificate where no determination of public convenience and necessity is required.
(c) Notwithstanding paragraph (a)(1) of this section, DOT may provide that an energy statement shall not be prepared in a proceeding which may result in a major regulatory action, if it finds that:
(1) The inclusion of an energy statement is not consistent with the exercise of DOT's authority under the Statute or other law;
(2) The inclusion of an energy statement is not practicable because of time constraints, lack of information, or other unusual circumstances; or
(3) The action is taken under laws designed to protect the public health or safety.

[Docket No. 82, 50 FR 2425, Jan. 16, 1985, as amended at 60 FR 43529, Aug. 22, 1995]

§ 313.5 Energy information.
(a) It shall be the responsibility of applicants and other parties or participants to a proceeding which may involve a major regulatory action to submit sufficient information about the energy consumption and energy efficiency consequences of their proposals or positions in the proceeding to enable the administrative law judge or the DOT decisionmaker, as the case may be, to determine whether the proceeding will in fact involve a major regulatory action for purposes of this part, and if so, to consider the relevant energy factors in the decision and prepare the energy statement.
§313.6 Energy statements.

(a) Each major regulatory action shall include, to the extent practicable, consideration of the probable impact of the action taken or to be taken upon energy efficiency and conservation. The administrative law judge or the DOT decisionmaker, as the case may be, shall normally make findings and conclusions about:

(1) The net change in energy consumption;
(2) The net change in energy efficiency; and
(3) The balance struck between energy factors and other public interest and public convenience and necessity factors in the decision.

(b) Energy findings and conclusions contained in any initial or recommended decision are a part of that decision and thus subject to discretionary review by DOT.

(c) In the case of orders to show cause initiated by DOT, energy findings and conclusions may be omitted if adequate information is not available. In such instances, the energy statement shall be integrated into the final decision.

§313.7 Integration with environmental procedures.

(a) In proceedings in which an environmental impact statement or a finding of no significant impact is prepared by a responsible official pursuant to DOT’s procedures implementing the National Environmental Policy Act of 1969 (NEPA), the energy information called for by this part may be included in that statement or declaration in order to yield a single, comprehensive document. In such instances, the DOT’s NEPA procedures shall govern the submission of the energy information. However, it shall remain the responsibility of the administrative law judge or the DOT decisionmaker, as the case may be, to make the findings and conclusions required by §313.6(a) of this part.

(b) A determination that a major regulatory action within the meaning of 42 U.S.C. 6362 and this part may be involved in a proceeding is independent from any determination that the proceeding is a “major Federal action significantly affecting the quality of the human environment” within the meaning of NEPA, and vice versa.

$314.11$ Applications.

(a) Who may file. An application may be filed by an employee who has been deprived of employment or adversely affected with respect to compensation, or by a representative of one or more such employees.

(b) Title and contents. Applications shall be titled “Application for Determination of Qualifying Dislocation,” and shall contain, with respect to at least one employee:

(1) Name and address of the employee;

(2) Number of years employed by carrier as of October 24, 1978;

(3) Name and address of the applicant, if different from paragraph (b)(1);

(4) Name of carrier-employer;

(5) Position held by employee immediately before being deprived of employment or adversely affected with respect to compensation;

(6) Date on which employee was deprived of employment or adversely affected with respect to compensation; and

(7) An explanation of the applicant’s basis for claiming that a qualifying dislocation has occurred, including all supporting evidence available to the applicant.

(c) Service. The Department will serve a copy of each application on the affected carrier, the collective bargaining representatives of that carrier’s employees, the Secretary of Labor, and any State agencies that are acting as agents of the Secretary of
§ 314.12 Answers.

Any person may file an answer to an application within 15 days after the application is served.

§ 314.13 Disposition of applications.

(a) After the due date for answers, the Department will dismiss the application or begin an investigation to determine whether a qualifying dislocation has occurred.

(b) The Department will dismiss an application if it does not name an employee who, on October 24, 1978, had been employed by a carrier for at least 4 years.

(c) The Department will dismiss an application if the carrier has neither become bankrupt nor undergone a major contraction.

(d) The Department will dismiss an application even though the carrier has become bankrupt or undergone a major contraction, if it finds that the bankruptcy or major contraction clearly did not have as its major cause the change in regulatory structure provided by the Airline Deregulation Act.

(e) A DOT order dismissing an application will announce the reasons for the dismissal.

§ 314.14 Show-cause order.

When the Department makes a preliminary determination of whether the major cause of the bankruptcy or major contraction was the change in regulatory structure provided by the Airline Deregulation Act of 1978, it will issue an order announcing a tentative decision that a qualifying dislocation has, or has not, occurred. The order will direct all interested persons to show cause why the tentative decision should not be made final, and will allow 30 days for objections to be filed. The Department will publish a summary of the order in the Federal Register and serve a copy of the order on each of the following:

(a) The applicant and the applicant’s representative, if any;

(b) The affected carrier;

(c) The collective bargaining representatives of the carrier’s employees;

(d) The Secretary of Labor;

(e) State agencies that are acting as agents of the Secretary of Labor to administer the Employee Protection Program.

§ 314.15 Oral proceedings.

The Department will provide for an oral evidentiary hearing, with notice published in the Federal Register and served on the persons listed in §314.14, if there are material issues of decisional fact that cannot otherwise be adequately resolved. The DOT decisionmaker may in his or her discretion hear oral argument before making a final determination.

§ 314.16 Final determination.

The Department will publish in the Federal Register a summary of an order announcing its final determination and, within 3 business days after the determination, serve a copy of the order on the persons listed in §314.14.

Subpart C—Major Contractions

§ 314.20 Regular monthly computation.

(a) The Department will monitor the number of full-time employees of each carrier, including employees deprived of employment because of a strike, as reported monthly by carriers in accordance with part 241 of this chapter.

(b) The DOT does not require monthly reporting of the number of positions that are vacant as a result of terminations for cause and, except as set forth in paragraph (c)(3) of this section, will not account for those positions in computing major contractions. In the cases set forth in paragraphs (c)(1) and (c)(2) of this section, the DOT presumes that the number of employment positions vacant as a result of terminations for cause is small enough that accounting for them would not change the result.

(c) Each month, with respect to each carrier:

(1) If the carrier’s current reported full-time employment level is 92 percent or less of any of the carrier’s preceding 12 monthly levels, DOT will find...
that the carrier has undergone a major contraction.

(2) If the current reported level is 93 percent or more of each of the carrier’s preceding 12 monthly levels, the Department will not find that the carrier has undergone a major contraction.

(3) If neither of the conditions described in paragraphs (c)(1) and (c)(2) of this section is present, the Department will ascertain by special report from the carrier, and add to the reported employment levels, the number of positions that were vacant in each of the relevant months as a result of terminations for cause. If the resulting figure for the current month is 92.5 percent or less of the resulting figure for any of the preceding 12 months, the Department will find that the carrier has undergone a major contraction. Otherwise, the Department will not make such a finding.

§ 314.21 Advance determinations.

(a) If circumstances indicate that a major contraction will occur, the Department may make an advance determination of a major contraction without waiting for the regular monthly computation set forth in §314.20. The Department will consider whether to make an advance determination either on its own initiative or upon receipt of an application from an employee who has been deprived of employment or adversely affected with respect to compensation, or a representative of one or more such employees.

(b) An application under this section shall be titled “Application for Advance Determination of Major Contraction.” It shall contain the information set forth in §314.11 (b)(1) through (b)(6) and an explanation of the applicant’s basis for claiming that a major contraction will occur, including all supporting evidence available to the applicant. A person may consolidate an application under this section with an application under §314.11 for determination of a qualifying dislocation.

(c) The Department will terminate an advance determination of major contraction whenever it finds that the predicted major contraction has not occurred or will not occur.

§ 314.22 Notice of major contraction.

Upon finding a major contraction under §314.20, or making or terminating an advance determination under §314.21, the Department will publish the finding in the FEDERAL REGISTER and send written notice of it to the persons listed in §314.14.

§ 323.1 Applicability.

This part applies to certificated air carriers who terminate or suspend service to a point, or in a market, and to all air carriers who terminate, suspend, or reduce service below the level of essential air service under 49 U.S.C. 41731-41742.

[Docket No. 82, 50 FR 2430, Jan. 16, 1985, as amended by Doc. No. OST-96-1269, 61 FR 19165, May 1, 1996]

§ 323.2 Definitions.

As used in this part:
Certificated carrier means a direct air carrier holding authority to provide air transportation granted by the Department of Transportation (“DOT”) or the
§ 323.3 Who shall file notices.

(a) Terminations, suspensions, or reductions by certificated carriers. The notice described in §323.4(a) shall be filed by any certificated carrier that intends to:

(1) Terminate or suspend all passenger air transportation that it is providing to any eligible place in the United States when that termination or suspension will leave no certificated carriers serving that place. Service shall be considered to be terminated or suspended whenever it is operated less than 5 days per week, with three or more intermediate stops, or in one direction only between the two places;

(2) Reduce passenger air transportation so that any eligible place receives less than the level of essential air service determined by DOT;

(3) Terminate or suspend all passenger air transportation that it is providing to any eligible place in the United States for which DOT has not issued an essential air service determination under either §325.5 or §325.7 of this chapter, when that termination or suspension will leave only one certificated carrier serving that place. Service shall be considered to be terminated or suspended whenever it is operated less than 5 days per week, with three or more intermediate stops, or in one direction only between the two places;

(4) Reduce passenger air transportation to any eligible place in Alaska for which DOT has not determined the level of essential air service so that the service between that place and every other place served by a certificated carrier is either:

(i) Less than two round trip flights per week, or

(ii) Less than the average weekly number of round trip flights actually provided during calendar year 1976, or

(iii) Less than the number of flights specified under an agreement between DOT and the State of Alaska; or

(5) Terminate, suspend, or reduce passenger air transportation at an eligible place for which DOT has issued, or is required to issue, an essential air service determination under section 41731 or section 41733 of the Statute so that the total available seats of all the carriers linking that place to FAA-designated hubs will be reduced by 33 percent or more during a 90-day period. Service to a hub shall be considered to be terminated or suspended whenever it is operated less than 5 days per week, with three or more intermediate stops, or in one direction only between two places.

[Docket No. 82, 50 FR 2430, Jan. 16, 1985, as amended by Doc. No. OST-96-1269, 61 FR 19165, May 1, 1996]
(b) [Reserved]

(c) Uncertificated carriers. The notice described in §323.4(a) shall be filed by any uncertificated carrier that intends to terminate, suspend, or reduce:

(1) Air transportation so that any eligible place receives less than the level of essential air service determined by the DOT;

(2) Passenger air transportation to any eligible place for which DOT has not determined the level of essential air service, other than a place in Alaska, so that there is no FAA-designated hub from which the place receives at least two round trip flights per day, 5 days per week; or

(3) Passenger air transportation to any eligible place in Alaska, for which DOT has not determined the level of essential air service, so that the service between that place and every other place served by a certificated carrier is either:

(i) Less than two round trip flights per week, or

(ii) Less than the average number of weekly round trip flights actually provided during calendar year 1976, or

(iii) Less than the number of flights specified under an agreement between DOT and the State of Alaska.

(d) For the purpose of this section, in ascertaining the level of air transportation being provided to a place or between two places, air transportation that has been the subject of a notice filed under this section shall be considered not in operation for the duration of the notice period.

(e) If a certificated carrier was, before October 24, 1978, granted authority to suspend air transportation, and that authority ends on a stated date, the carrier shall comply with the requirements of this part before continuing the suspension beyond that date.

(f) If a certificated carrier was, before October 24, 1978, granted authority to terminate or suspend air transportation, but has not suspended service, the carrier shall comply with the requirements of this part before terminating or suspending service.

(iv) Date of intended termination, suspension, or reduction of service.

5. A statement whether DOT has determined the level of essential air service for the point, and

(i) If such a determination has been made, a statement whether the intended termination, suspension, or reduction will reduce air transportation to the place below the essential level; or

(ii) If such a determination has not been made, and the place is an eligible place, a statement whether the intended termination, suspension, or reduction reasonably appears to deprive the place of essential air service, and an explanation.

6. If the place is an eligible place, the calendar date when objections are due under §323.10.

7. Proof of service upon all persons specified in §323.7(a). The proof of service shall include the names of all carriers served and the names and addresses of all other persons served.

(a) If an objection has been filed under this part, DOT will dispose of the objection by order.

(b) If no objection has been filed within the time allowed by § 323.10(a), DOT may:

(1) By order prohibit a termination, suspension, or reduction that reasonably appears to deprive any eligible place of essential air transportation;

(a) Objections shall be filed not later than:

(1) 12 days from the date of filing of a 30-day notice;

(2) 15 days from the date of filing of a 60-day notice; or

(3) Take no action.
§ 323.14 Temporary suspension authority for involuntary interruption of service.

However, the provisions of this paragraph shall apply to interruptions due to airport inadequacies only if the carrier is unable to serve the place through any airport convenient to the place with the type of equipment last regularly used to serve the place.

(b) In the case of an interruption of service caused by a strike, the carrier shall give immediate notice of the interruption to DOT. Suspension authority under this section due to a strike shall expire 90 days after employees return to work.

(c) If service to a place is interrupted for more than 3 consecutive days for reasons beyond the carrier’s control other than a strike, the holder shall give notice to DOT within 3 days following the date of first interruption, setting forth the date of first interruption and a full statement of the reasons for the interruption.

(d) The notice required by paragraph (b) or (c) of this section shall be marked for the attention of the Director, Office of Aviation Analysis.

§ 323.15 Report to be filed after strikes.

(a) Within 15 days following resumption of service after a strike, an air carrier shall file a report with DOT containing a list of all flights that were canceled, the date they were canceled, and the date service was resumed.

(b) The report shall be marked for the attention of the Director, Office of Aviation Analysis.

§ 323.16 Listings in schedule publications.

Each air carrier filing a notice under §323.3 (a)(2), (a)(4), (a)(5), or (c) shall continue to list the affected flights in all generally-distributed schedule publications in which the flight was listed before the notice. The listings shall continue until DOT permits the flights to be discontinued. The listings may include a notice stating that the flights are “to be discontinued as of (date) subject to government approval.”

§ 323.17 Delays in discontinuing service.

If transportation that is the subject of a notice under this part is not discontinued within 90 days of the intended date stated in the notice, a new notice must be filed before the service may be discontinued. However, if DOT requires the carrier to provide service beyond the stated date, the carrier need not file a new notice if it discontinues the service within 90 days after DOT permits it to do so.

§ 323.18 Carriers’ obligations when terminating, suspending, or reducing air service.

Any air carrier that terminates, suspends, or reduces air service, whether or not subject to the notice requirements of this part, shall make reasonable efforts to contact all passengers holding reservations on the affected flights to inform them of the flights’ cancellation.

§ 323.19 Withdrawal notice by exemption carriers in certain limited-entry markets.

As a condition on the exemption, an air carrier operating under exemption authority in an international market which is the subject of a carrier selection proceeding shall file a notice with the Department at least ninety days
before it terminates service in that market. Once such a notice has been filed, the carrier may not terminate service in that market during the notice period unless the air carrier chosen in the selection proceeding enters the market and the Department grants the operating carrier permission to do so. The Department may allow earlier termination for good cause when in the public interest.

SOURCE: Docket No. 82, 50 FR 2434, Jan. 16, 1985, unless otherwise noted.

§ 325.1 Purpose.

The purpose of this part is to establish procedures to be followed in designating eligible points and in determining essential air transportation levels for eligible points, and in the appeals and periodic reviews of these determinations, under section 419 of the Act.

§ 325.2 Applicability.

This part applies to essential air service determinations for communities designated as eligible under section 419(a) of the Act and to eligible point designations and essential air service determinations for communities that qualify under section 419(b) of the Act. It applies to the gathering of data by the Department, and to the participation of State, local, and other officials and other interested persons in the designation and determination processes.

Note: Criteria for designating eligible points under section 419(b) are contained in part 270 of this chapter. Guidelines for deciding essential air service levels are contained in part 398 of this chapter.

§ 325.3 Definitions.

As used in this part, eligible point means:
(a) Any point in the United States, the District of Columbia, and the several territories and possessions of the United States to which any direct air carrier was authorized, under a certificate issued by CAB under section 401 of the Act, to provide air service on October 24, 1978, whether or not such service was actually provided;
(b) Any point in the United States and the several territories and possessions of the United States that was deleted from a section 401 certificate between July 1, 1968 and October 24, 1978, inclusive, and that has been designated as an eligible point under the Act; or
(c) Any other point in Alaska or Hawaii that has been designated as an eligible point under the Act.

§ 325.4 State and local participation.

(a) DOT, on a periodic basis, will send a questionnaire to each eligible point that is served by not more than one certificated air carrier, or is designated as an eligible point under section 419(b) of the Act, or for which DOT is reviewing its essential air service needs. The questionnaire will be addressed to:
(1) The chief executive of the principal city, or other unit of local government at the affected point, that is named or has been previously named in a qualifying section 401 certificate. For points in Alaska or Hawaii that are named DOT as eligible points without having been listed on a section 401 certificate, the principal city is the most populous municipality at the point;
(2) The individual or entity with direct supervision over and responsibility for the airport at the eligible point; and
(3) The State agency with jurisdiction over air transportation in the State containing the eligible point. If there is no such State agency, the
§ 325.5 Determinations and designations.

(a) Not later than October 24, 1979, after reviewing all information submitted, CAB issued determinations of the essential level of air service for eligible points that, on October 24, 1978, were served by not more than one direct air carrier holding a certificate under section 401 of the Act for scheduled service to the point.

(b) DOT will issue a determination of the essential level of air service for a point within 6 months after each of the following events:

(1) A notice is received that service to an eligible point will be reduced to only one carrier that holds a section 401 certificate;

(2) A point is designated as an eligible point under section 419(b) of the Act and either paragraph (c) of this section, paragraph (d) of this section, or §325.7(e); or

(3) A review was conducted of essential air service of that point under §325.6.

(c) Not later than January 1, 1982, CAB designated the communities described in §270.2(a) and (b) as eligible points or as ineligible.

(d) After January 1, 1982, DOT may designate communities in Alaska or Hawaii as eligible points if they apply for such designation.

§ 325.6 Periodic reviews.

(a) The Department will start a periodic review of essential air service within 1 year of the date of the previous determination of essential air service for eligible points receiving subsidized service, within 2 years of the date of the previous determination for eligible points in Alaska, and within 3 years of the date of the previous determination for eligible points without subsidized air service.

(b) The review shall be conducted in accordance with the procedures in §§325.4, 325.5 and 325.7.

(c) The Department may review the designation under section 419(b) of a community as an eligible point to determine whether that point continues to meet the criteria in part 270 of this chapter.

§§ 325.7–325.9 [Reserved]

§ 325.10 Modification of the designated level of essential air service.

(a) Any person may file with DOT a petition titled “Petition for Modification of Essential Air Service Level,” asking to modify the essential air service level at a point.

(b) The petition shall identify the point affected, and specifically state the reasons why the petitioner believes the designated essential level is inadequate. It should contain any facts and arguments that support its requests, and describe the level of essential air service that should be substituted.

(c) Any person may, within 30 days after the filing of a petition for modification, file an answer to that petition titled “Answer to Petition for Modification.”

PART 330—PROCEDURES FOR COMPENSATION OF AIR CARRIERS

Subpart A—General Provisions

§ 330.1 What is the purpose of this part?
§ 330.3 What do the terms used in this part mean?

The following terms apply to this part:

Air carrier means any U.S. air carrier, as defined in 49 U.S.C. 40102.

Air taxi operator means an air carrier, other than a commuter air carrier, that holds authority issued under 14 CFR part 298 and 14 CFR part 121 or part 135.

Available seat-miles (ASMs) means the aircraft miles flown on each flight stage by an air carrier multiplied by the number of seats available for revenue use on that stage.

Certificated air carrier means an air carrier holding a certificate issued under 49 U.S.C. 41102 or 41103.

Commuter air carrier means an air carrier as defined in 14 CFR 298.2(e) that holds a commuter air carrier authorization issued under 49 U.S.C. 41738.

Incremental loss means a loss incurred by an air carrier in the period of September 11, 2001–December 31, 2001, as a result of the terrorist attacks on the United States of September 11, 2001. It does not include any loss that would have been incurred if the terrorist attacks on the United States of September 11, 2001, had not occurred.

Regional air carrier means an air carrier that operates at least one large aircraft and has annual operating revenues of less than $100 million.

Revenue ton-miles (RTMs) means the aircraft miles flown on each flight stage by the air carrier multiplied by the number of tons of revenue cargo transported on that stage. For purposes of this part, RTMs include only those resulting from all-cargo flights.

§ 330.5 What funds will the Department distribute under this part?

Under this part, the Department will distribute up to the full amount of the compensation it determines is payable to air carriers under section 103(b) of the Act, and up to the full amount of the set-aside provided for in subpart C of this part to air carriers eligible for it. The Department may require additional information to support payments to individual carriers in connection with this final payment.

§ 330.7 [Reserved]

§ 330.9 What are the limits on compensation to air carriers?

(a) You are eligible to receive compensation equaling the lesser of your direct and incremental losses or the amount calculated by the formula set forth in section 103(b)(2) of the Act.

(b) If at any time we determine that a carrier has been compensated in an amount that exceeds the amount to which it is entitled under section 103(b) of the Act or the subpart C set-aside program, the Department will notify the carrier of the basis for the determination, the amount that must be repaid, and the procedures to follow for making a repayment. We will follow collection procedures under the Federal Claims Collection Act of 1966 (31 U.S.C. 3701 et seq.) to the extent required by law, in recovering such overpayments. This process will also apply to collection of overpayments by the Department as a result of an audit by representatives of the Department, including the Office of the Inspector General, or the Comptroller General under section 103 of the Act, which may be the subject of a separate collection action.

§ 330.11 Which carriers are eligible to apply for compensation under this part?

(a) If you are a certificated air carrier, a commuter air carrier, an air taxi, or an indirect air carrier, you are eligible to apply for compensation under Subpart B of this part.

(b) [Reserved]
Office of the Secretary, DOT

§ 330.27 What information must certificated and commuter air carriers submit?
(a) You must submit Form 330 (Final), found in Appendix A to this part. Data supplied on Form 330 (Final) in Appendix A to this part must be tied only to the airline portion of their businesses and must exclude non-air transportation related expenses.
(b) [Reserved]
(c) Air carriers that operate both passenger/combination aircraft and all-cargo aircraft and routinely report to the Department ASMs and RTMs separately for both types of flights must submit two versions of Form 330 (Final) in Appendix A to this part to seek compensation on both an ASM and RTM basis. Financial and operational data (both actual and forecasted) must be disaggregated and correlate exclusively to one or the other type of operation.
(d) You must include the following financial information on Form 330 (Final) for the period September 11, 2001 through December 31, 2001:
   (1) Your pre-September 11, 2001, profit/loss forecast for the period beginning September 11, 2001, and ending December 31, 2001. This forecast must reflect seasonal reductions in capacity and the cost savings associated with such reductions. Documentation verifying that the pre-September 11, 2001, forecast was, in fact, completed before that date must also be submitted with your application.
   (2) Your actual results for that same period reflecting any losses that were a direct result of the terrorist attacks of September 11, 2001. These actual results must incorporate all cost reductions associated with capacity reductions and furloughs you made due to the reduced demand for air service after the September 11th attacks (e.g., employee pay adjustments and furloughs, changes in aircraft fleet in service, schedule and capacity changes, etc.).
   (3) The difference between your forecast profits/losses and actual results for that period (i.e., the difference between the figures in paragraphs (d) (1) and (2) of this section).
   (4) The actual losses you report must be net losses, before taxes, taking into...
account savings from such items as reductions in passenger and cargo handling costs, fuel consumption, landing fees, revenue/traffic-related expenses (e.g., commissions, food and beverage, booking fees, credit card fees), and savings of other costs due to the ground stop and subsequent schedule/capacity/staff reductions (including savings from layoffs of employees, adjusted for severance payments), as well as proceeds from business recovery insurance or other insurance payments. You must not report as losses insurance premium increases that have been or will be compensated by the Government under the Act, or other losses that have been or will be compensated by other subsidies or assistance provided by Federal, state, or local governments.

§ 330.29 What information must air taxi operators submit on Form 330 (Final) and Form 330–C?

As an air taxi operator, you must complete Form 330 (Final) in accordance with the requirements in §330.27. You must also complete pages 2, 5, and 6 (certifying pages 2 and 5) of Form 330–C as shown in Appendix C to this part. Explanatory notes are included on that Form.

§ 330.31 What data must air carriers submit concerning ASMs or RTMs?

(a) Except as provided in paragraph (d) of this section, if you are applying for compensation as a passenger or combination passenger/cargo carrier, you must have submitted your August 2001 total completed ASM report to the Department for your system-wide air service (e.g., scheduled, non-scheduled, foreign, and domestic).

(b) Except as provided in paragraph (d) of this section, if you are applying for compensation as an all-cargo carrier, you must have submitted your RTM reports to the Department for the second calendar quarter of 2001.

(c) In calculating and submitting ASMs and RTMs under paragraphs (a) and (b) of this section, there are certain things you must not do:

(1) Except at the direction of the Department, or to correct an error that you document to the Department, you must not alter the ASM or RTM reports you earlier submitted to the Department. Your ASMs or RTMs for purposes of this part are as you have reported them to the Department according to existing standards, requirements, and methodologies established by the Office of Airline Information (Bureau of Transportation Statistics).

(2) You must not include ASMs or RTMs resulting from operations by your code-sharing or alliance partners.

(d) If you have not previously reported ASMs or RTMs as provided in paragraphs (a) and (b) of this section for a given operation or operations, you may submit your calculation of ASMs or RTMs to the Department with your application. You must certify the accuracy of this calculation and submit with your application the data and assumptions on which the calculation is based. After reviewing your submission, the Department may modify or reject your calculation.

(1) If you are a direct air carrier that has operated your aircraft for a lessee (i.e., a wet lease, or aircraft, crew, maintenance, and insurance (ACMI) operation), you may submit your calculation of ASMs or RTMs for these flights. Your submission must include the following elements:

(i) Documentation that you otherwise qualify as an air carrier;

(ii) Documentation that you are a wet lessor, and an explanation of why you did not previously report ASMs or RTMs for the operations in question;

(iii) Documentation of the identity of the wet lessees involved in these operations; and

(iv) Accurate and auditable records of ASMs or RTMs actually flown during the relevant time period for these operations.

(2) If you are an indirect air carrier, you may submit your calculation of ASMs or RTMs for flights that direct air carriers have operated for you under contract or other arrangement. Your submission must include the following elements:

(i) Documentation that you otherwise qualify as an air carrier;

(ii) Documentation that you are an indirect air carrier, and an explanation of why you did not previously report ASMs or RTMs for the operations in question;
(iii) Documentation of the identify of the direct air carriers involved in these operations; and
(iv) Accurate and auditable records of ASMs or RTMs actually flown during the relevant time period for these operations.

§ 330.33 Must carriers certify the truth and accuracy of data they submit?
Yes, with respect to all information submitted or retained under §§ 330.27–330.31 and 330.35, your Chief Executive Officer (CEO), Chief Financial Officer (CFO), or Chief Operating Officer (COO) or, if those titles are not used, the equivalent officer, must certify that the submitted information was prepared under his or her supervision and is true and accurate, under penalty of law.

§ 330.35 What records must carriers retain?
As an air carrier that applies for compensation under this part, you must retain records as follows:
(a) You must retain all books, records, and other source and summary documentation supporting your claims for compensation of direct and incremental losses pursuant to Sections 101, 103, and 106 of the Act. This requirement includes, but is not limited to, the following:
(1) You must retain supporting evidence and documentation demonstrating the validity of the data you provide under §§ 330.27–330.31.
(2) You must retain documentation verifying that your pre-September 11, 2001, forecast was the most recent forecast available to that date.
(3) You must also retain documentation outlining the assumptions made for all forecasts and the source of the data and other inputs used in making the forecasts.
(4) You must agree to have your independent public accountant retain all reports, working papers, and supporting documentation pertaining to the agreed-upon procedures engagement conducted by your independent public accountant under the requirements of this part for a period of five years. The accountant must make this information available for audit and examination by representatives of the Department of Transportation (including the Office of the Inspector General), the Comptroller General of the United States, or other Federal agencies.

§ 330.37 Are carriers which participate in this program subject to audit?
(a) All payments you receive from the Department of Transportation under this program are subject to audit. All information you submit with your applications and all records and documentation that you retain are also subject to audit.
(b) Except as provided in paragraph (d) of this section, before you are eligible to receive payment from the final installment of compensation under the Act, there must be an independent public accountant’s report based on the performance of procedures agreed upon by the Department of Transportation with respect to the carrier’s forecasts and actual results. The independent public accountant’s engagement must be performed in accordance with generally accepted professional standards applicable to agreed-upon procedures engagements. You must submit the results of the agreed-upon procedures engagement to the Department with your application for payment of the final installment.
(c) The following are the core requirements for the independent public accountant’s review:
(1) Determine that the earnings forecast presented to the Department was inclusive of the entity’s full operations
§ 330.39  What are examples of types of losses that the Department does not allow?

(a)(1) The Department generally does not allow air carriers to include in their calculations aircraft impairment charges, charges or expenses attributable to lease buyouts, or other losses that are not actually and fully realized in the period between September 11, 2001 and December 31, 2001.

(2) The Department will consider requests to accept adjustments for extraordinary or non-recurring expenses or revenues on a case-by-case basis. If, as a carrier, you make such a request, you must demonstrate the following to the satisfaction of the Department:

(i) That the expense or revenue was (or was not, as appropriate) the direct

records of the carrier or the financial statements included in the carrier’s Securities and Exchange Commission Form 10–Q, and consistent with GAAP, except to the extent that GAAP would require or allow treatment that would be inconsistent with the Act or this part;

(9) Determine that the insurance recoveries and government payments reported by the air carrier and offsetting income were in accordance with the air carrier’s general ledger accounting records;

(10) Determine that the information presented in the air carrier’s Supplemental Certification were in accordance with the air carrier’s general ledger accounting records;

(i) Include in the auditor’s report full documentation for each exception taken by the auditor; and

(12) Identify air carrier reports and records utilized in performing the procedures in paragraphs (c)(1) through (11) of this section.

(d) If you are a carrier that reported fewer than 10 million ASMs for the month of August 2001 or fewer than two million RTMs for the quarter ending June 30, 2001, you are not required to report to the Department on the basis of an agreed-upon procedures engagement by an independent public accountant. Instead, you may report on the basis of simplified procedures approved by the Department.

(10) Determine that the information presented in the air carrier’s Supplemental Certification were in accordance with the air carrier’s general ledger accounting records;

(i) Include in the auditor’s report full documentation for each exception taken by the auditor; and

(12) Identify air carrier reports and records utilized in performing the procedures in paragraphs (c)(1) through (11) of this section.

(d) If you are a carrier that reported fewer than 10 million ASMs for the month of August 2001 or fewer than two million RTMs for the quarter ending June 30, 2001, you are not required to report to the Department on the basis of an agreed-upon procedures engagement by an independent public accountant. result of the terrorist attacks of September 11, 2001;
(ii) That the revenue or expense was reported in accordance with Generally Accepted Accounting Principles (GAAP), except to the extent that the GAAP would require or allow treatment that would be inconsistent with the Act or this part;
(iii) That an expense was fully borne within the September 11—December 31, 2001, period and is permanent; and
(iv) That the resulting additional compensation would not be duplicative of other allowances for compensation.

(b) The Department generally does not accept claims by air carriers that cost savings should be excluded from the calculation of incurred losses. Consequently, the Department will generally not allow such claims to be used in a way that has the effect of increasing the compensation for which an air carrier is eligible.

Subpart C—Set-Aside for Certain Carriers

§ 330.41 What funds is the Department setting aside for eligible classes of air carriers?

The Department is setting aside a sum of up to $35 million to compensate eligible classes of air carriers, for which application of a distribution formula containing ASMs as a factor, as set forth in section 103(b)(2) of the Act, would inadequately reflect their share of direct and incremental losses.

§ 330.43 What classes of air carriers are eligible under the set-aside?

There are two classes of eligible air carriers:
(a) You are a Class I air carrier if you are an air taxi, regional, commuter or indirect air carrier and you reported 75,000 or fewer ASMs to the Department for the month of August, 2001.
(b) You are a Class II air carrier if you are an air taxi, regional, commuter or indirect air carrier and you reported between 75,001 and 10 million ASMs to the Department for the month of August, 2001.

In Table 4 below, separately identify and explain any and all out-of-period expenses, extraordinary or non-recurring expenses, and adjustments to actual expenses not directly related to the terrorist events of September 11, 2001 that were excluded from Column B (Boxes B-2 and B-5 on page 1 of this form) but not from Column A, the forecasted expenses. You should use a separate sheet to provide a complete explanation.

The operations for hire for which losses are claimed in this chart must have been cancelled entirely, resulting in a complete loss of revenue for those operations. Revenue for these operations must not have been re-captured through subsequent re-accommodation of the same trips. Such non-recovered losses in revenues had associated countervailing reductions in operating expenses that have also been incorporated in the data and calculations in this chart.

* Air transportation for hire includes only commercial services operated under Part 121 or Part 135 operating certificates. Other services operated under Part 91, as well as dry leases and flights operated for the purpose of flight instructions, maintenance testing and aircraft positioning are excluded.

** This number should be the same number as listed on the operator's current Part 298 registration and current FAA-issued operations specifications.

*** For all-cargo operations, please note aircraft that are operated under contract for another express or all-cargo carrier and identify those carriers and provide details on a separate, attached sheet.

NOTE: If the operator records and reports aircraft miles, the operator should compute and enter available seat miles by multiplying the number of seats times the aircraft miles. If the operator does not report aircraft miles, DOT will compute the available seat miles. If the operator records and reports cargo RTMs, the operator should enter the amounts directly on the form. If not, DOT will estimate the RTMs based on the other data submitted. All carriers, however, must report airborne hours and departures.

EXPLANATORY NOTES:

1. In order to avoid the possibility of misinterpretation, we are requiring that numbers or notations (for example, "N/A") be entered into all data blocks on all forms even if those numbers are zero. We also note that all amounts are to be reported in whole numbers.

2. The required forecasted amounts should be based on a forecasting and/or budgeting approach or similar accounting system if the air carrier routinely uses that method. For those carriers whose accounting systems or methodologies rely more on actual or short run projections, we ask that they make a "good faith" effort to categorize their revenues and expenses according to the required forms. In this regard, the following may provide additional assistance.

3. As general guidance, we include the following information that has been adapted from 14 CFR Part 298 (Section 298.62) or 14 CFR Part 241. Air transportation for hire includes only commercial services operated under Part 121 or Part 135 operating certificates. Other services operated under Part 91, as well as dry leases and flights operated for the purpose of flight instructions, maintenance testing and aircraft positioning are excluded.

4. Total operating revenues generally include gross revenues accruing from services ordinarily associated with air transportation. It is meant to include revenue derived from scheduled service, on demand and nonscheduled service operations.

5. In general, total operating expenses include expenses of the type usually and ordinarily incurred in the performance of air transportation. It includes expenses incurred: directly in the in-flight operation of aircraft; in the holding of aircraft and aircraft personnel in readiness for assignment to an in-flight status; on the ground, in controlling and protecting the in-flight movement of aircraft; landing and handling aircraft on the ground; selling transportation, servicing and handling passenger and cargo traffic; promoting the development of traffic and administering operations generally. It shall also include expenses which are specifically identifiable with the repair and upkeep of property and equipment used in the performance of air transportation and all depreciation and amortization expenses applicable to property and equipment used in providing air transportation services.

6. Non-operating income includes such items as interest income and other similar investments. It may also include capital gains (for example, aircraft sales). Non-operating expenses include interest expense and other expenses attributable to financing or other activities that are extraneous to and not an integral part of air transportation or its incidental services. It may also include capital losses (for example, aircraft sales).

7. We note that claims for compensation cannot be based solely on lost revenues, that is, the total revenue that an air taxi operator expected to receive from flights that would have been flown but were cancelled due to the DOT-mandated flight stoppage. While these amounts would provide information on the changes in total operating revenues, it is important to recognize that changes in total operating expenses must also be considered in calculating operating income and net income which is ultimately used to determine compensation. Also, for those carriers with less sophisticated accounting systems, the calculation of forecasted total operating expenses might be based on an analysis of fixed costs (those that stay the same regardless of the number of flights or changes in passenger and cargo traffic) and variable costs (those that change in proportion to the level of operations and traffic volume).

8. All carriers should be able to provide actual financial results for the period of September 11 to September 30, 2001, as required. We will not accept incomplete forms or reports that are submitted in lieu of the required forms and we will not accept the submission of invoices, flight logs, sales records, calendar notations of events or other similar documents in lieu of the required forms. However, supporting documentation must be retained for audit purposes.
Office of the Secretary, DOT

PART 331—PROCEDURES FOR REIMBURSEMENT OF GENERAL AVIATION OPERATORS AND SERVICE PROVIDERS IN THE WASHINGTON, DC AREA

Subpart A—General Provisions

§ 331.1 What is the purpose of this part?

The purpose of this part is to establish procedures to implement section 185 of the Transportation, Treasury, Housing and Urban Development, the Judiciary, the District of Columbia, and Independent Agencies Appropriation Act, 2006 (“the Act” or “the 2006 Appropriation Act”), Public Law 109–115, 119 Stat. 2396. Section 185 is intended to reimburse certain fixed-base general aviation operators or providers of general aviation ground support services at five airports in the Washington, DC metropolitan area for direct and incremental losses due to the actions of the Federal government to close airports to general aviation operations following the terrorist attacks of September 11, 2001.

§ 331.3 What do the terms used in this part mean?

The following terms apply to this part:

Airport means Ronald Reagan Washington National Airport; College Park Airport in College Park, Maryland; Potomac Airfield in Fort Washington, Maryland; Washington Executive/Hyde Field in Clinton, Maryland; or Washington South Capitol Street Heliport in Washington, DC.

Closed or closure means the period of time until the first general aviation operations were generally permitted at Ronald Reagan Washington National Airport; until November 30, 2005 at Washington South Capitol Street Heliport; or the earliest that transient traffic was generally permitted to return to the three Maryland airports.

Department means the U.S. Department of Transportation and all its components, including the Office of the Secretary (OST) and the Federal Aviation Administration (FAA).

Direct and incremental losses means losses incurred by a fixed-base general aviation operator or a provider of general aviation ground support services as a result of the Federal government’s closure of an airport following the terrorist attacks against the United States on September 11, 2001. These losses do not include any losses that
§ 331.5 Who may apply for reimbursement under this part?

If you are or were an eligible fixed-base general aviation operator or provider of general aviation ground support services (collectively “operators or providers”) at an eligible airport or airports in the Washington, DC area, and incurred direct or incremental losses during the applicable reimbursement periods stated at §331.13 that were solely due to the actions of the Federal government following the terrorist attacks on the United States on September 11, 2001, you may apply for reimbursement under this part. If you are applying for reimbursement based on losses at more than one airport, then you must submit separate applications for each airport. For example, if you are a provider of general aviation ground support services at Ronald Reagan Washington National Airport and Potomac Airfield in Fort Washington, Maryland, you must submit two separate applications.

§ 331.7 What losses will be reimbursed?

(a) You may be reimbursed an amount up to the difference between the adjusted income you actually or reasonably forecasted for the eligible reimbursement period and the actual adjusted income you earned during the eligible reimbursement period. If you did not forecast for the eligible reimbursement period or any part of the eligible reimbursement period, you may be reimbursed for the difference between what you can show you would have reasonably expected to earn as adjusted income during that period had the airport at which you are or were an operator or provider not been closed as the result of Federal government actions, and the actual adjusted income you earned during the eligible reimbursement period. Adjusted income is calculated on a pretax basis. It is the total of Operating Profit or Loss (i.e., Total Operating Revenues minus Total Operating Expenses) and Nonoperating Income (Loss); however, it excludes certain expenses, including lobbying expenses that were incurred to promote reimbursement for losses after the terrorist attacks or enact what became Section 185 of Pub. L. 109–115. Extraordinary, non-recurring, or unusual adjustments, and capital losses are normally ineligible for reimbursement. If you wish to claim for such an adjustment or loss, you must demonstrate that such adjustments were solely attributable to the Federal government’s closure of the five Washington-area airports, are in conformity with Generally Accepted Accounting Principles, were fully borne within the statutory reimbursement period, that the loss was not discretionary in nature, and that reimbursement would not be duplicative of other relief.

(b) A temporary loss that you recovered after the attacks of September 11, 2001, or that you expect to recover, is
not eligible for reimbursement under this part. You will not be reimbursed for those losses incurred through your own fault, negligence, or violation of law, or because of the actions of a third party (e.g., an airport).

(c) If you engaged in any non-aviation income-producing activities after September 11, 2001, such income must be reported under question number 5 in the appendix to this part.

(d) So called “cost savings” claims (i.e., increasing the claimed amount of reimbursement by reducing actual expenses to “adjust” for savings in expense categories asserted not to have been affected by the terrorist attacks) are not eligible for reimbursement.

(e) You cannot claim reimbursement for the lost time value of money (i.e., interest on lost profits for the period of time the funds were not available for your use).

(f) Lobbying fees and attorneys’ fees incurred to promote reimbursement for losses after the terrorist attacks or enact Section 185 of Pub. L. 109-115 are not eligible for reimbursement.

(g) Your calculation of revenues, expenses and income must be based on financial documents maintained in the ordinary course of business that were prepared for the eligible reimbursement period, such as income statements, statements of operations, profit-and-loss statements, operating forecasts, budget documents or other similar documents.

§ 331.9 What funds will the Department distribute under this part?

The Department will distribute the full amount of reimbursement it determines is payable to you under section 185 of the Act. Payment may be made in one or more installments.

§ 331.11 What are the limits on reimbursement to operators or providers?

(a) You are eligible to receive reimbursement subject to the set-aside (subpart C of this part) for eligible operators or providers at College Park Airport in College Park, Maryland; Potomac Airfield in Fort Washington, Maryland; and Washington Executive/Hyde Field in Clinton, Maryland. The amount available to you as reimbursement may be reduced to cover the cost of independent verification and auditing, as set forth in §331.17.

(b) If you receive more reimbursement than the amount to which you are entitled under section 185 of the Act or the subpart C set-aside, the Department will notify you of the basis for the determination and the amount that you must repay to the Department. The Department will follow collection procedures under the Federal Claims Collection Act of 1966 (31 U.S.C. 3701 et seq.) to the extent required by law, in recovering such overpayments.

(c) Payment will not be made to you until you have agreed to release the United States Government for all claims for financial losses resulting from the closure of the five airports in the Washington, DC area. The Department will provide a release form to applicants that must be completed before any payment is made under Section 185 of the Act.

§ 331.13 What is the eligible reimbursement period under this part?

The eligible reimbursement period for direct and incremental losses differs by airport:

(a) For Ronald Reagan Washington National Airport the eligibility period for reimbursement is from September 11, 2001 until October 18, 2005.

(b) For College Park Airport in College Park, Maryland, the eligibility period for reimbursement is from September 11, 2001 until February 13, 2005.

(c) For Potomac Airfield in Fort Washington, Maryland, the eligibility period for reimbursement is from September 11, 2001 until February 13, 2005.

(d) For the Washington South Capitol Street Heliport in Washington, DC, the eligibility period for reimbursement is from September 11, 2001 to November 30, 2005.

(e) For Washington Executive/Hyde Field in Clinton, Maryland, there are two eligibility periods for reimbursement. The first period is from September 11, 2001 until May 16, 2002. The second period is from September 29, 2002 until February 13, 2005.
§ 331.15 How will other grants, subsidies, or incentives be treated by the Department?

Grants, subsidies, or incentives that you have received during the eligible reimbursement period, either directly or indirectly, from Federal, State, and local entities, to reimburse you for the cost of operations and capital improvements associated with implementing security programs, or maintaining or providing general aviation services and facilities, will be considered revenues and should be reported as such on your application.

§ 331.17 How will the Department verify and audit claims under this part?

Departmental staff will initially review each claim in detail, and contact you should questions arise. If they are unable to satisfactorily resolve the matter following consultation with you, your claim will be forwarded to the Office of the Inspector General, or another independent auditor, for verification and, if necessary, an audit. In addition, the Department may consult with, or make referrals to, other government agencies, including the Department of Justice. If an audit is necessary, a ceiling amount reached, and the audit does not support the claimed amount, your reimbursement may be reduced to cover one-third the cost of the audit.

§ 331.19 Who is the final decision maker on eligibility for, and amounts of reimbursement?

The Assistant Secretary of Aviation and International Affairs will make a final determination of your eligibility and the amount of reimbursement you will receive.

Subpart B—Application Procedures

§ 331.21 What information must operators or providers submit in their applications for reimbursement?

(a) You must submit the Application Form for Reimbursement under Section 185 of Public Law 109–115 ("Application Form"), located in the appendix to this part, along with the profit and loss statements, forecasts, or other financial documents (collectively “supporting financial documents”) generated as a routine matter for the purposes of managing your business, and relied upon in completing your application.

(b) To the extent that your calculation of revenues, expenses and incomes are based on monthly records, you must adjust your calculation, on a prorata basis, to conform to the eligibility period. For example, if you utilize a monthly financial record to prepare a calculation of your September 2001 revenues, you should apportion your results for the period between September 11 and September 30, 2001.

(c) If multiple forecasts were prepared for the same period, you must utilize the one most recently approved, prior to September 11, 2001, so long as it is otherwise objective and reliable.

(d) If you provided information to the Department as part of its study entitled Estimated Financial Losses to Selected General Aviation Entities in the Washington, DC Area (Oct. 2005) ("2005 General Aviation Study"), you should not simply reiterate the same data provided to the Department at that time; you must provide the most current information that is available to you. If you do reiterate that same data provided to the Department for the 2005 General Aviation Study, the basis for your estimates must be verifiable from the supporting financial documents that you submit with your application.

(e) Failure to include all required information will delay consideration of your application by the Department and may result in a rejection. You have the burden to document and substantiate your claim; the Department will provide reimbursement only if it is satisfied that payment is fully supported.

(f) If, prior to September 11, 2001, you did not prepare a forecast covering the entire eligible reimbursement period, or if the forecast you completed is not relevant to the information required by this part, you may submit an “after-the-fact” estimate of the amount that you would have reasonably expected to accrue as adjusted income had the airport at which you are or were an operator or provider not closed. “After-the-fact” estimates must consider items particular to your business, including
labor agreements and the terms of contracts in place at the time of the eligible reimbursement period, short-term or long-term budget documents, documents submitted in support of applications for loans or lines-of-credit, and other similar documents. You must explain the methodology that you used when preparing your reconstructed forecast.

(g) You must certify that the information on the application in the appendix to this part and all of the supporting financial documents that you are submitting is true and accurate under penalty of law and that you acknowledge that falsification of information may result in prosecution and the imposition of a fine and/or imprisonment.

(h) You must retain all materials you relied upon to establish your claim for losses.

(i) You must provide mitigating expenses, lobbying expenses incurred to promote reimbursement for losses after the terrorist attacks or enact Section 185 of the Act, and special expenses, as well as extraordinary adjustments, as instructed in the appendix to this part.

(j) If you need professional accounting services to assist in the preparation of your application, you may claim reimbursement for 80% of the actual amount you paid for such services, up to a maximum reimbursement of $2,000. You may claim reimbursement only for professional services; your own time in applying for reimbursement is not reimbursable. Any claim for professional accounting services must be accompanied with appropriate documentation as to the nature and extent of services performed, the amount billed, and payment. Employment or use of such professional services does not relieve you of the responsibility for the accuracy and completeness of the application.

(k) If you believe that the release of financial information provided to the Department in support of your application would cause you substantial harm if released by the Department to the public upon an appropriately made request, you may request that the Department hold portions of your application as confidential. Your request must specify the portions of your application that should be held by the Department as confidential, and you must provide an explanation as to how the release of such information would cause you substantial harm.

§ 331.23 In what format must applications be submitted?

(a) The Application Form, located in the appendix to this part, must be submitted in hardcopy format and, if possible, in electronic format. The Department has made available an electronic version of this form at the following Web site: http://ostpxweb.dot.gov/aviation/index.html. (Click on “Programs” and scroll to “General Aviation Operator and Service Provider Reimbursement.”)

(b) All supporting financial documents must be submitted in hard copy. In addition, you may submit financial and accounting tabular data in Excel spreadsheet format, utilizing a 3.5″ floppy disk, compact disk, or flash memory device, and doing so may expedite the processing of your claim.

(c) Faxed and e-mailed applications are not acceptable and will not be considered.

§ 331.25 To what address must operators or providers send their applications?

(a) You must submit your application and all required supporting information, to the following address: U.S. Department of Transportation, Office of Aviation Analysis (X–50)Aviation Relief Desk, Room 6401, 400 7th Street, SW., Washington, DC 20590.

(b) Your application must be submitted via courier or an express package service, such as registered U.S. Postal Service, Federal Express, UPS, or DHL.

(c) If complete applications are not submitted to the address in paragraph (a) of this section, they will not be accepted by the Department.

§ 331.27 When are applications due under this part?

You must submit your application by June 8, 2007.
Subpart C—Set-Aside for Operators or Providers at Certain Airports

§ 331.31 What funds are available to applicants under this subpart?

The Department is setting aside a sum of $5 million to reimburse eligible operators or providers, as set forth in section 185 of the Act.

§ 331.33 Which operators and providers are eligible for the set-aside under this subpart?

Operators or providers at the following three airports during the eligible reimbursement periods are eligible for the set-aside:

(a) College Park Airport in College Park, Maryland;
(b) Potomac Airfield in Fort Washington, Maryland; and
(c) Washington Executive/Hyde Field in Clinton, Maryland.

§ 331.35 What is the basis upon which operators or providers will be reimbursed through the set-aside under this subpart?

Operators or providers eligible under this subpart will be reimbursed pursuant to the same procedures set forth in subpart B of this part. If total losses for all eligible claims at the three airports set forth in §331.31 of this part are less than $5 million, then such claims will be paid in full. If the total losses for all eligible claims at the three airports set forth in §331.31 of this part exceed $5 million, then the total losses will be divided on a pro rata basis, and a proportionate amount for each claim will be distributed to applicants.

§ 331.37 What will happen to any remaining funds if operators and providers at the three Maryland airports make reimbursable claims totaling less than $5 million?

If the operators and providers who are eligible for the $5 million set-aside do not exhaust the funds designated under the set-aside, then any remaining money from the set-aside will be made available for other valid claims made under this part.

INSTRUCTIONS FOR COMPLETING APPLICATION FORM FOR REIMBURSEMENT UNDER SECTION 185 OF PUBLIC LAW 109–115

1. Applicant name.
   This is the person or legal entity who undertakes to act as a fixed-base general aviation operator or who provides general aviation ground support services, directly or by a lease or any other arrangement.

2. Applicant address.
   The applicant address is the location within the local tax authority jurisdiction that is held out to the public as the business or airport address.

   This question asks the applicant to identify those airports in the Washington, DC area where it provided either fixed-base general aviation services or general aviation ground support services on September 11, 2001. Check as many airports as you served on September 11, 2001.

4. Briefly describe the nature of the applicant’s operations as a fixed-base general aviation operator or a provider of general aviation ground support services at each airport during the eligible period for reimbursement.
   You should describe the specific fixed-base general aviation services or general aviation ground support services that you provided at each of the airports.

5. Did the applicant or any part of it conduct non-fixed-base general aviation activities or provide non-aviation ground support services during the 2001 through 2005 period?
   Check “Yes” if you conducted any non-fixed-base general aviation activities or provided non-aviation ground support services during the 2001 through 2005 period. Describe the activities that you undertook during this period that did not directly support general aviation at the airport.

6. Briefly describe how the events of September 11, 2001 affected the applicant’s operations as a fixed-base general aviation operator or a provider of general aviation ground support services.
   You should describe how the level and conduct of your operations as a fixed-base general aviation operator or your operations as a provider of general aviation ground support services were changed as a result of September 11, 2001 and the ensuing security restrictions that were imposed by the Federal government.

7. Did the applicant undertake any actions to lessen or offset the impact of the Federal government’s closure of airports in the Washington, DC area following the attacks of September 11, 2001?
   Check “Yes” if you attempted to minimize the impact that the terrorist attacks of September 11, 2001 had on your business. Briefly describe your actions and the effect that they had on you. Include any activities or services undertaken after September 11, 2001 that did not provide support for general aviation but that did provide revenues to sustain your business.

8. Has the applicant filed income taxes for any period between 1999 and 2005?
   Check “Yes” if you filed income taxes during this period, and indicate the filing status under which you filed your income tax returns.

   Attach to this Appendix copies of your profit and loss statements, or such financial records as you generated as a routine matter for the use of management, for the periods 1999 through 2005, that show your actual financial results. Similarly, attach copies of any actual forecasts that you prepared for both these baseline periods and for any part of the reimbursement periods that were prepared prior to September 11, 2001.

No.

132 OF PUBLIC LAW 109–115
185 OF PUBLIC LAW 109–115
331 OF PUBLIC LAW 109–115
This question directs applicants to provide the Department with certain financial documents in order to verify and substantiate their claims. Documents that you have already prepared should be sufficient. When necessary, you should supplement these documents with footnotes or explanations that are pertinent to your reimbursement claim. The financial data may include such documents as income statements, statements of operations, forecasts of operating results, income projections, pro forma budget projections, budget documents, tax preparation support material, information presented in investment perspectives and registrations, or other similar information that in whole or in part cover the period from 1999 through 2005.

10. The requested amount of reimbursement claimed below must be based on a comparison of actual operating results (revenues, expenses and profits or losses) (adjusted as shown), with a similarly adjusted company forecast of operating results that existed prior to September 11, 2001 if such a forecast was actually prepared. If the applicant did not prepare any such pre-September 11 forecasts, or prepared them for less than the full reimbursement period, an after-the-fact estimate of what the applicant can document that it reasonably expected to earn during the remaining eligible period may be submitted. If such an after-the-fact estimate is used, describe below the period for which it applies and the methodology that was used to determine it.

Indicate here whether an “after-the-fact” forecast was prepared, and briefly describe the methodology used in preparing the forecast. Your methodology must take into account items relevant to your businesses, such as the terms of existing contracts, short-term or long-term budget documents, documents submitted in support of applications for loans or lines-of-credit, existing labor agreements and leasing agreements, and other similar types of documents.

In preparing your “after-the-fact” forecast, you may wish to consult a July 2001 report prepared for the FAA entitled Forecasting Aviation Activity by Airport. This report was prepared by GRA, Incorporated (GRA), for the FAA’s Office of Aviation Policy Plans Statistical and Forecast Branch (APOP–110). While the Department recognizes that fixed-base general aviation operators and providers of general aviation ground support services are different entities than larger airports at which scheduled service is provided, the Department believes that this document offers relevant guidance to applicants who do not prepare forecasts as part of regular business operations. This July 2001 report may be accessed at: http://www.faa.gov/data_statistics/aviation_data_statistics/forecasting/media/AFI.doc.

The July 2001 report explains the basic steps usually utilized in preparing forecasts, including: Identifying parameters and measures to forecast; collecting forecast information of expected revenues or expenses, including budgets; gathering and evaluating data; selecting a forecast method (such as regression and trend analysis, share analysis, or exponential smoothing); applying methods and evaluating results; and summarizing and documenting the results.

Additionally, data sources to assist you in making adjustments to your forecast are available from the Department’s Web site at http://ostpweb.dot.gov/aviation/index.html (Click on “Programs” and scroll down to “General Aviation Operator and Service Provider Reimbursement’’). The Department notes that, while it can answer questions for applicants that might arise while applicants develop forecasts, the Department is not in a position to propose or develop projections for applicants.

11. Reimbursement Claim.

For purposes of completing the information in the reimbursement claim table, total operating revenues (line 1) include the inflow of funds to the applicant resulting from the sale of goods and services related to the activities of a fixed-base operator or a provider of general aviation services. Examples include, but are not limited to, monetary amounts or value received for providing: aircraft fuel or oil; delivery of aircraft fuel or oil; transient and long-term storing, tie down parking and sheltering of aircraft; maintenance, inspection, checking, upgrading of aircraft and aircraft related equipment and for polishing and cleaning property and equipment; providing flight instruction services and materials; and miscellaneous items for purchase such as maps, books, flight clothing, sectional charts, devices and parts for aircraft, food services, hospitality services, auto rentals, aircraft custodial and sanitation services, assistance grants from state and Federal government agencies, insurance payments, and revenues derived from the business activities conducted at alternative airports to those that were closed.

Total operating expenses (line 2) include the cost to the applicant of providing the goods and services related to the activities of a fixed-base operator or a provider of general aviation services. Examples include, but are not limited to: Labor costs for all categories of employees (including compensation, vacation and sick leave pay, medical benefits, workmen’s compensation contributions, accruals or annuity payments to pension funds, training reimbursements, professional fees, licensing fees, educational or recreational activities for the benefit of the employee, stock incentives, etc.); the cost of fuel and oil including nonrefundable aircraft fuel and oil taxes; insurance; flight and ground equipment parts; general services purchased for flight or ground equipment maintenance; depreciation of flight and ground equipment;
amortization of capitalized leases for flight and ground equipment; provisions for obsolescence and deterioration of spare parts; insurance premiums; and rental expenses of flight and ground facilities associated with business activities conducted at alternative airports to those that were closed. Advertising, promotion and publicity expenses, landing fees, clearance, customs and duties, utilities, bookkeeping, accounting, recordkeeping and legal services are also part of the total operating expenses.

Operating profit or loss is calculated by subtracting the total operating expenses from the total operating revenues. If the total operating revenues exceed the total operating expenses, the calculation results in an operating profit. If the total operating expenses exceed the total operating revenues, the calculation results in an operating loss.

Nonoperating income and expenses include: income and loss incident to commercial ventures not inherently related to the direct provision of fixed-base operator services or general aviation ground support services; other revenues and expenses attributable to financing or other activities that are extraneous to and not an integral part of general aviation services; and special recurrent items of a nonperiod nature.

Examples of non-operating income include, but are not limited to: Interest income; foreign exchange gains; equity investment in an investor controlled company; intercompany transactions; dividend income; and net unrealized gains on marketable equity securities.

Examples of non-operating expenses include, but are not limited to: Interest on long-term debt and capital leases; interest on short-term debt; imputed interest capitalized; amortization of discount and expense on debt; foreign exchange losses; fines or penalties imposed by governmental authorities; costs related to property held for future use; donations to charities, social and community welfare purposes; losses on reacquired and retired or resold debt securities; and losses on uncollectible non-operating receivables.

For reasons set forth elsewhere in § 331.7 of this part, you may not include lobbying expenses that were incurred to promote reimbursement for losses after the terrorist attacks or enact Section 183 of Pub. L. 109–115. Non-operating income is the result of subtracting the non-operating expenses from the non-operating revenues. Professional application fees provide for reimbursement of 80 percent of the cost of professional accounting services required in the preparation and submission of the application. Adjusted Income for each of the Columns A and B is the sum of the Operating profit (or loss) (line 3) plus line 6. Non-operating income (loss). Each line of Column C is the result of subtracting Column B from Column A, except on line 7, Professional Application Fees, where the claimant may enter 80 percent of professional application fees (up to a maximum of $2,000). The Adjusted Income figure on the Total line of Column C represents the amount claimed as total reimbursement; it may of course be adjusted as the result of Department review. All Adjusted Income figures do not reflect taxes due in the current period, as a consequence, reimbursements will be pre-tax and income taxes may be due on reimbursed funds.

The difference between column A and B is the basis for column C. This constitutes the total amount of your claim for reimbursement. As the eligibility periods, for the most part, begin and end on days other than the first or last days of the month, quarter or year, data from already existing financial statements must be adjusted, on a pro rata basis, to reflect the eligibility periods. For example, the period of eligibility for all applicants begins on September 11, 2001 and therefore, the only time period during the month of September that is eligible for reimbursement is September 11 through September 30, a period of 20 days. Applicants should be prepared to show both how they apportioned such financial data into the reimbursement periods, and why they chose the apportionment approach used. Applicants can then use these estimates for the specified periods at the beginning and end of the eligible period to add to the financial amounts for 2002, 2003, and 2004 to calculate the total amounts sought in Appendix A.

12. Has the applicant or any of its subsidiaries or affiliates received grants, subsidies, incentives or similar payments from local, state, or Federal governmental entities in support of the security, maintenance and provision of general aviation services and facilities furnished in response to the events of September 11, 2001? (This includes payments under the Aviation and Transportation Security Act of 2001 (Public Law 107–38) and the Airport Improvement Program under the Airport and Airway Improvement Act of 1982 (Public Law 97–248).)

This question requires that you disclose all grants, subsidies, or incentives that you received during the eligible reimbursement period, either directly or indirectly, from Federal, State, and local entities, to reimburse you for the cost of operations and capital improvements associated with implementing security programs, or maintaining or providing general aviation services and facilities.

13. Has the applicant or any of its subsidiaries or affiliates incurred lobbying expenses, mitigating expenses, or special expenses (as described in the section captioned “Information must operators or providers submit in their applications for reimbursement?”), or extraordinary adjustments?

Check “Yes” if you incurred any such expenses or experienced any such adjustments.
Office of the Secretary, DOT

You must briefly describe the nature of such expenses and adjustments, including the amounts. Additionally, you must indicate whether or not such expenses or adjustments have been included in or excluded from the totals in the table at item number 11.

Lobbying includes any amount paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress.

Mitigating expenses include the utilization of property, the provision of services and the sale of goods that were undertaken to mitigate losses arising from the Federal government’s closure of airports attendant to the September 11, 2001 attack. These could include expenses incurred for the provision of services and sale of goods moved from restricted airports to unrestricted airports or compensation for non-aviation oriented goods and services provided at restricted airports. Mitigating expenses may also include operating expenses for aviation-related fixed assets or capital utilized outside of the restricted airport.

Special expenses include, but are not limited to, moving expenses, additional security equipment and facilities, and loss on sales of assets that arose from the direct imposition of restrictions during the period September 11, 2001 through the applicable eligible date. Any item reported under Special Expenses shall not also be expensed in other expense categories that are reflected in the calculation of the reimbursement claim. Details regarding special expenses should be noted in footnotes.

Extraordinary adjustments are events or transactions that are material to your business and unusual in nature and infrequent in occurrence.

You must certify that all information contained on the Background and Eligibility Form and the documents submitted in support of your application (e.g., profit and loss statements, actual forecasts, after-the-fact forecasts, etc.) are accurate. This certification is made under penalty of law. Falsification may be grounds for monetary and/or criminal sanctions. This certification must be made by a company President, CEO, COO, or CFO.

(b) Every air carrier shall make the documents listed in this section available in the United States upon request by an authorized representative of the DOT and shall permit such representative to make such notes and copies thereof as he deems appropriate.

§374a.8 Prospective application of part.

The provisions of this part shall apply only to the extension of credit by an air carrier to a candidate, or to a person acting on his behalf, which is made subsequent to the effective date of this part, and shall not be applicable to debts incurred prior to such date but which are unpaid as of the effective date of this part. The provisions of this part will be applicable, however, to all credit transactions which occur subsequent to the effective date of the part even though the credit account in

Subpart H—Special Authorization

§ 375.1 Definitions.

As used in this part:

Act means the Federal Aviation Act of 1958, as amended;

Air transportation means the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in interstate, overseas, or foreign commerce (see section 101 (10) and (23) of the Federal Aviation Act, 49 U.S.C. 1301);

Category shall indicate a classification of aircraft such as airplane, helicopter, glider, etc.;

Commercial air operations shall mean operations by foreign civil aircraft engaged in flights for the purpose of crop dusting, pest control, pipeline patrol, mapping, surveying, banner towing, skywriting, or similar agricultural and industrial operations performed in the United States, and any operations for remuneration or hire to, from or within the United States including air carriage involving the discharging or taking on of passengers or cargo at one or more points in the United States, including carriage of cargo for the operator’s own account if the cargo is to be resold or otherwise used in the furtherance of a business other than the business of providing carriage by aircraft, but excluding operations pursuant to foreign air carrier permits issued under 49 U.S.C. 41301, exemptions, and all other operations in air transportation.

Exemption means an exemption granted, under section 416(b) of the Act, authorizing air transportation by a foreign air carrier;
Foreign air carrier permit means a permit authorizing foreign air transportation by a foreign air carrier pursuant to section 402 of the Act;

Foreign aircraft permit means a permit authorizing navigation of foreign civil aircraft in the United States pursuant to section 1108(b) of the Act and this part;

Stop for non-traffic purposes means a landing for any purpose other than taking on or discharging passengers, cargo or mail, and does not include landings for embarking or disembarking stopover passengers or transshipped cargo or mail, or for other than strictly operational purposes.

Type means all aircraft of the same basic design including all modifications thereto except those modifications that result in a change in handling or flight characteristics.

§ 375.2 Applicability.
The provisions of this part regulate the admission to, and navigation in, the United States of foreign civil aircraft other than aircraft operated under authority contained in a foreign air carrier permit or exemption. This part also contains provisions that specify the extent to which certain classes of flight operations by foreign civil aircraft may be conducted, and the terms and conditions applicable to such operations. Nothing in this part shall authorize any foreign civil aircraft to engage in air transportation nor be deemed to provide for such authorization by the Department.

§ 375.3 [Reserved]

Subpart B—Authorization

§ 375.10 Certain foreign civil aircraft registered in ICAO member states.

Subject to the observance of the applicable rules, conditions, and limitations set forth in this part:

(a) Foreign civil aircraft manufactured in a State that at the time of manufacture was a member of the International Civil Aviation Organization (ICAO), and registered in a State that at the time of flight is a member of ICAO, may be navigated in the United States;

(b) Foreign civil aircraft manufactured in a State that at the time of manufacture was not a member of ICAO, and registered in a State that at the time of flight is a member of ICAO, may be navigated in the United States,

(1) If the State of registry has notified ICAO that the requirements under which it issues or renders valid certificates of airworthiness are equal to or above the minimum standards established pursuant to the Chicago Convention, or

(2) If such notification has not been made to ICAO at the time of flight, there is on file with the Department a statement by the State of registry that, with regard to aircraft of the type that is proposed to be operated hereunder, the requirements under which certificates of airworthiness are issued or rendered valid are equal to or above the minimum standards established pursuant to the Chicago Convention.

§ 375.11 Other foreign civil aircraft.

A foreign civil aircraft other than those referred to in §375.10 may be navigated in the United States only when (a) the operation is authorized by the Department under the provisions of this part, and (b) the aircraft complies with any applicable airworthiness standards of the Federal Aviation Administration for its operation.

Subpart C—Rules Generally Applicable

§ 375.19 Nature of privilege conferred.
The provisions of this part, and of any permit issued hereunder, together with section 1108(b) of the Act, are designed, among other purposes, to carry out the international undertakings of the United States in the Chicago Convention, in particular Article 5. That article gives foreign aircraft the privilege of “taking on or discharging passengers, cargo or mail” subject to the
§ 375.20 Airworthiness and registration certificates.

Foreign civil aircraft shall carry currently effective certificates of registration and airworthiness issued or rendered valid by the country of registry and shall display the nationality and registration markings of that country. However, a foreign civil aircraft may carry, in lieu of such certificate of airworthiness, an effective special flight authorization issued by the Federal Aviation Administration for the operations being performed.

§ 375.21 Airmen.

Members of the flight crew of a foreign civil aircraft shall have in their personal possession valid airman certificates or licenses authorizing them to perform their assigned functions in the aircraft and for the operation involved issued or rendered valid by the country of registry of the aircraft or by the United States. No such flight crew members shall perform any flight duty within the United States that they are not currently authorized to perform in the country issuing or validating the certificate.

§ 375.22 Flight operations.

Flights of foreign civil aircraft in the United States shall be conducted in accordance with the currently applicable rules of the Federal Aviation Administration.

§ 375.23 Maximum allowable weights.

Foreign civil aircraft that are permitted to navigate in the United States on the basis of foreign airworthiness certificates must conform to the limitations on maximum certified weights prescribed or authorized for the particular variation of the aircraft type, and for the particular category of use, by the country of manufacture of the aircraft type involved.

§ 375.24 Entry and clearance.

All U.S. entry and clearance requirements for aircraft, passengers, crews, baggage and cargo shall be followed.

§ 375.25 Unauthorized operations.

No foreign civil aircraft shall be navigated in the United States unless authorized by this part. Commercial air operations (other than those authorized by §375.36) shall not be undertaken without a permit issued by the Department.

§ 375.26 Waiver of sovereign immunity.

Owners and operators of aircraft operated under this part that are engaged in proprietary of commercial activities waive any defense of sovereign immunity from suit in any action or proceeding instituted against any of them in any court or other tribunal in the United States for any claim relating to that operation.

Subpart D—Authorized Operations

§ 375.30 Operations other than commercial air operations.

Foreign civil aircraft that are not engaged in commercial air operations into, out of, or within the United States may be operated in the United States and may carry non-revenue traffic to, from or between points in the United States.

§ 375.31 Demonstration flights of foreign aircraft.

Flights of foreign civil aircraft within the United States may be made for the purpose of demonstration of the
aircraft or any component thereof (including demonstrations at airshows), provided no persons, cargo or mail are carried for remuneration or hire.

§ 375.32 Flights incidental to agricultural and industrial operations outside the United States.

Foreign civil aircraft that are engaged in agricultural or industrial operations to be performed wholly outside the United States may be navigated into, out of, and within the United States in connection with those operations provided that the aircraft is not at the time engaged in the carriage of passengers, cargo, or mail for remuneration or hire.

§ 375.33 Transit flights, irregular operations.

Foreign civil aircraft carrying passengers, property or mail for remuneration or hire, but not engaged in scheduled international air services, are authorized to navigate nonstop across the territory of the United States and to make stops for non-traffic purposes. The navigation of foreign civil aircraft in the United States is not authorized under this section when the elapsed time between landing and takeoff at a stop in the United States exceeds 24 hours and passengers are permitted to leave the airport or when passengers, property or mail are transferred to another aircraft. Flights involving stops under such circumstances may, however, be performed in the case of emergency relating to the safety of the aircraft, passengers, cargo or crew.

§ 375.34 Indoctrination training.

Foreign civil aircraft may be operated in the United States for the purpose of giving indoctrination training in the operation of the aircraft concerned to a buyer or a buyer’s employees or designees. This section does not, however, authorize foreign civil aircraft to be used within the United States for the purpose of flight instruction for remuneration or hire.

§ 375.35 Free transportation.

(a) Foreign civil aircraft may be navigated in the United States by a foreign air carrier for the transportation of persons and property specified in paragraph (b) of this section over the following non-traffic segments provided such transportation is not for compensation or hire:

1. Between two or more points in the United States;
2. Between a point in the United States named in the carrier’s section 402 permit or exemption, and a point outside the United States not so named, when authorized in accordance with the provisions of part 216 of this chapter to carry blind sector traffic to or from such unnamed foreign point; and
3. Between a point in the United States and a point outside thereof when the carrier lands at the United States point for non-traffic purposes in exercise of the privilege granted under the International Air Services Transit Agreement.

(b) Free transportation may be provided under this section for the following categories of persons and property:

1. Directors, officers and employees, and their parents and immediate families, of the foreign air carrier operating the aircraft;
2. Directors, officers and employees, and their parents and immediate families, of an air carrier or another foreign air carrier traveling pursuant to a pass interchange arrangement;
3. Travel agents being transported for the purpose of familiarizing themselves with the carrier’s services, if the agents are under no obligation to sell the transporting carrier’s services;
4. Witnesses and attorneys attending any legal investigation in which any such foreign air carrier is involved;
5. Persons injured in aircraft accidents and physicians and nurses attending such persons;
6. Any persons or property with the object of providing relief in cases of general epidemic, natural disaster or other catastrophe;
7. Any person who has the duty of guarding foreign government officials travelling on official business; and
8. Guests of a foreign air carrier (including members of the press) on delivery flights of newly-acquired or newly-renovated aircraft.
§ 375.36 Lease of foreign civil aircraft without crew.

Foreign civil aircraft that are leased without crew to an air carrier or citizen or permanent resident of the United States, and used by the lessee in otherwise authorized air transportation or commercial air operations, may be operated into, out of, and within the United States in accordance with any applicable regulations prescribed by the Federal Aviation Administration.

§ 375.37 Certain business aviation activities using U.S.-registered foreign civil aircraft.

For purposes of this section, “company” is defined as a person that operates civil aircraft in furtherance of a business other than air transportation. Such aircraft shall include U.S.-registered foreign civil aircraft that are not otherwise engaged in commercial air operations, or foreign air transportation, and which are operated by a company in the furtherance of a business other than transportation by air, when the carriage is within the scope of, and incidental to, the business of the company (other than transportation by air), may be operated to, from, and within the United States as follows:

(a) Intra-company operations. A company operating a U.S.-registered foreign civil aircraft may conduct operations for a subsidiary or parent or a subsidiary of its parent on a fully-allocated cost reimbursable basis; provided, that the operator of the U.S.-registered foreign civil aircraft must hold majority ownership in, be majority owned by, or have a common parent with, the company for which it provides operations;

(b) Interchange operations. A company may lease a U.S.-registered foreign civil aircraft to another company in exchange for equal time when needed on the other company’s U.S. registered aircraft, where no charge, assessment, or fee is made, except that a charge may be made not to exceed the difference between the cost of owning, operating, and maintaining the two aircraft;

(c) Joint ownership operations. A company that jointly owns a U.S.-registered foreign civil aircraft and furnishes the flight crew for that aircraft may collect from the other joint owners of that aircraft a share of the actual costs involved in the operation of the aircraft; and

(d) Time-sharing operations. A company may lease a U.S.-registered foreign civil aircraft, with crew, to another company; provided, that the operator may collect no charge for the operation of the aircraft except reimbursement for:

1. Fuel, oil, lubricants, and other additives,
2. Travel expenses of the crew, including food, lodging, and ground transportation,
3. Hanger and tie-down costs away from the aircraft’s base of operations,
4. Insurance obtained for the specific flight,
5. Landing fees, airport taxes, and similar assessments,
6. Customs, foreign permit, and similar fees directly related to the flight,
7. In flight food and beverages,
8. Passenger ground transportation,
9. Flight planning and weather contract services,
10. An additional charge equal to 100 percent of the expenses for fuel, oil, lubricants, and other additives.

Subpart E—Operations Requiring Specific Preflight Authorization of Filing

§ 375.40 Permits for commercial air operations.

(a) Permit required. Except for aircraft being operated under a foreign air carrier permit, an exemption, or as otherwise provided in Subpart D or H of this part, foreign civil aircraft may engage in commercial air operations only if there is carried on board the aircraft a permit issued by the Department in accordance with this subpart authorizing the operations involved.
(b) Aircraft are not authorized to engage in air transportation under this section. Where an operation involves the carriage of persons, property or mail for compensation or hire, the Department will determine whether particular flights for which a permit is sought will be in common carriage, and therefore in air transportation, based on all the facts and circumstances surrounding the applicant’s entire operations. The burden rests upon the applicant in each instance to demonstrate by an appropriate factual showing that the contemplated operation will not constitute common carriage from, to or within the United States. In general, an applicant that holds itself out to the public, or to a particular class or segment, as willing to furnish transportation for hire is a common carrier.

§ 375.43 Application for foreign aircraft permit.

(a) Applications for foreign aircraft permits shall be submitted on OST Form 4509. (Appendix A), in duplicate, addressed to the Chief, Discrete Operations Branch, Licensing Division, P-45, Office of Aviation Operations. Upon a showing of good cause, applications may be made by telegram or by telephone.

(b) Applications shall contain a proper identification (including citizenship) of the applicant (the operator of the aircraft concerned) and of the owner thereof (if different from the applicant), a description of the aircraft by make, model, and registration marks; and a full description of the operations for which authority is desired, indicating type and dates of operations and number of flights, and routing. In the case of cargo flights, the names of all contractors, agents, if any, and the beneficial owner of the cargo, and a description of the cargo and of the proposed operations shall be provided. In the case of passenger flights, a full identification and description of the group chartering the aircraft, and identification of the travel agent, if any, shall be provided. Applications shall also contain a statement as to whether the applicant’s homeland allows operators of U.S.-registered aircraft to conduct similar operations.

(c) Applications shall be filed at least 15 days in advance of the proposed commencement date of the operations. The Department may direct the applicant to serve copies of its application on additional persons. Late applications
§ 375.44 Issuance of permit.

(a) The Department will issue a foreign aircraft permit if it finds that the proposed operations meet the requirements of this part and are in the public interest. Foreign aircraft permits may be conditioned or limited by the Department. Permits must be carried aboard the applicant’s aircraft during flight over U.S. territory, and are not transferable.

(b) In determining whether to grant a particular application, the Department will consider, among other factors, the extent to which the country of the applicant’s nationality deals with U.S. civil aircraft operators on the basis of substantial reciprocity, and whether the operation is otherwise in the public interest.

§ 375.45 Records and reports of occasional planeload charters.

(a) Cargo documents. The holder of a permit for cargo operations shall issue a manifest or shipping document to its shipper with respect to each shipment.

(b) [Reserved]

(c) Contents of documents for passenger flights. The holder of a permit for passenger charters originating or terminating in the United States shall require each charterer to file with it prior to flight a list of names and addresses of all passengers to be transported on each flight.

(d) Reports of unused authority. All foreign operators of occasional planeload charters for which authority is granted must notify the Department, in writing, not later than 15 days after the expiration of their permits, or their failure to use this authority. The unused authority shall otherwise be deemed to have been exercised.

Subpart F—Transit Flights

§ 375.50 Transit flights; scheduled international air service operations.

(a) Requirement of notice. Scheduled international air services proposed to be operated pursuant to the International Air Services Transit Agreement in transit across the United States may not be undertaken by foreign civil aircraft unless the operator of such aircraft, and (if other than the operator) the carrier offering such service to the public, has, not less than 30 days prior to the date of commencement of such service, filed a Notice of Proposed Transit Flights Pursuant to the International Air Services Transit Agreement in accordance with the provisions of paragraphs (b) and (c) of this section.

(b) Filing of the notice. An original and two copies of the Notice shall be filed with the Chief, Discrete Operations Branch, Licensing Division, P-
(c) Content of notice. A “Notice of Proposed Transit Flights Pursuant to the International Air Services Transit Agreement” shall be clearly labeled as such, and as a minimum shall set forth, with whatever detail may be necessary, the following information:

(1) The name, country or organization, and citizenship of the operator, and, if other than the operator, of the carrier offering the services to the public. If any interest (direct or indirect) in the operator or offeror of services is held by nationals of a country other than the country of organization or citizenship, the nature and extent of such interest must be fully disclosed. If any officer or director of the operator or carrier offering the services is a national of a country other than the country of organization or citizenship, the position of duties of such officer or director, and the officer and director’s relevant position in relation to other officers and directors must similarly be fully disclosed. If the information required in this subsection has been previously supplied to the Department, the applicant may incorporate it by reference.

(2) The State of registration of the aircraft proposed to be operated.

(3) A full description of the proposed operations including the type of operations (passenger, property, mail, or combination), date of commencement, duration and frequency of flights, and routing (including each terminal and intermediate point to be served).

(4) A statement as to whether or not any advertisement or publication of the proposed operations has been made in the United States. If there has been any advertisement or publication of the operations in the United States, copies of all such advertisements or publications shall be included.

(5) Any change with respect to these matters (minor changes in schedules or routing excepted) shall also be filed with the Department.

(d) Authorized operations. If the operator and the carrier offering services to the public (if different from the operator) have filed a “Notice of Proposed Transit Flights Pursuant to the International Air Services Transit Agreement,” at least 30 days before the date of commencement of the proposed operations in accordance with paragraphs (a), (b), and (c) of this section, the described operations may be commenced and performed without further authorization from the Department, unless and until the Department issues an order notifying the operator and/or the carrier offering the services to the public that, considering the matters submitted in the Notice, the Department is of the view that a question may exist as to whether:

(1) The proposed services are authorized pursuant to the terms of the International Air Services Transit Agreement;

(2) Substantial ownership and effective control are vested in nationals of a State party to the International Air Services Transit Agreement;

(3) The proposed operations will be in compliance with the laws of the United States, the Department’s rules, or the provisions of this section; or

(4) The operator or its government have performed their obligations under the International Air Services Transit Agreement.

(e) Prohibited operations. If the Department issues an order of notification as described in paragraph (d) of this section, neither the operator, nor the carrier offering the services to the public, shall commence the proposed operations, or, except as may be otherwise specified in the order, operate any flights subsequent to receipt of the order, unless and until the Department issues a foreign aircraft permit pursuant to the provisions of section 1108(b) of the Act and this part specifically authorizing such operations.

(f) Foreign aircraft permit—application and procedures. If the Department issues an Order of Notification as described in paragraph (d) of this section, the carrier’s Notice of Proposed Transit Flights Pursuant to the International Air Services Transit Agreement shall be treated as an application
§ 375.60 Penalties.

The operation of a foreign aircraft within the United States or over adjacent territorial waters in violation of the provisions of this part constitutes a violation of the Federal Aviation Act and of this chapter, and may, in addition, constitute a violation of the rules of the Federal Aviation Administration. Such operation makes the person or persons responsible for the violation or violations subject to a civil penalty as provided in section 901 of the Act, and to the alteration, amendment, modification, suspension or revocation of any permit issued under this part and of any U.S. certificate involved as provided in section 609 of the Act. Engaging in air transportation as defined in the Act by a foreign aircraft without a foreign air carrier permit issued pursuant to section 402 of the Act or an exemption, or in violation of the terms of such authority constitutes not only a violation of this part but of title IV of the Act as well, which entails a criminal penalty as set forth in section 902 of the Act.

Subpart H—Special Authorization

§ 375.70 Special authorization.

Any person desiring to navigate a foreign civil aircraft within the United States other than as specifically provided in this part may petition the Department for a special authorization to conduct the particular flight or series of flights. Such authorization may be issued only if the Department finds that the proposed operation is fully consistent with the applicable law, that the applicant’s homeland grants a similar privilege with respect to operators of U.S.-registered aircraft, and that the proposed operation is in the interest of the public of the United States.

PART 377—CONTINUANCE OF EXPIRED AUTHORIZATIONS BY OPERATION OF LAW PENDING FINAL DETERMINATION OF APPLICATIONS FOR RENEWAL THEREOF

Subpart A—General Provisions

§ 377.1 Definitions.

As used in this part:

Authorization means any agency certificate, approval, statutory exemption or other form of permission granted pursuant to sections 101(3), 401, 402, 408, 409, 412 and 416 of the Federal Aviation Act of 1958, as amended. Where any operating authorization creates more than one separate route, each of these shall be deemed a separate authorization for the purposes of this part.

Renewal application means any application filed in conformity with the requirements of this part which requests either a renewal or a new license and is intended to invoke the provisions of the last sentence of 5 U.S.C. 558(c).

Route means an authorization which permits an air carrier to render unlimited regularly scheduled service between a specifically designated pair of terminal points and intermediate points, if any.

(SPR–84, 40 FR 24998, June 12, 1975, as amended by SPR–184, 47 FR 7212, Feb. 18, 1982)

§ 377.2 Applicability of part.

(a) This part implements the last sentence of 5 U.S.C. 558(c) with regard to temporary authorizations granted by the Board.

NOTE: The last sentence of 5 U.S.C. 558(c) provides: “When the licensee has made timely and sufficient application for a renewal or a new license in accordance with agency rules, a license with reference to an activity of a continuing nature does not expire until the application has been finally determined by the agency.”

(b) Nothing in this part prevents the Board from terminating at any time, in accordance with law, any authorization or any extension of an authorization.

(c) Nothing in this part constitutes a determination that any given authorization is a “license with reference to an activity of a continuing nature” within the meaning of 5 U.S.C. 558(c).

(SPR–184, 47 FR 7212, Feb. 18, 1982)

§ 377.3 Authorizations not covered by 5 U.S.C. 558(c).

The Board hereby determines that the following authorizations are not licenses “with reference to an activity of a continuing nature” within the meaning of 5 U.S.C. 558(c):

(a) Authorizations granted for a specified period of 180 days or less; and

(b) Authorizations, other than those granted under section 401 of the Act, that by their terms are subject to termination at an uncertain date upon the happening of an event, including fulfillment of a condition subsequent or occurrence of a contingency.

(SPR–184, 47 FR 7212, Feb. 18, 1982)

§ 377.4 Certain authorizations with alternative termination dates.

Unless granted under section 401 of the Act, an authorization that by its terms is subject to termination alternatively, either at an uncertain date upon the happening of an event or upon the arrival of a specified date:

(a) Will not be considered a “license with reference to an activity of a continuing nature” within the meaning of 5 U.S.C. 558(c), if the event occurs before the specified date; and

(b) Ordinarily (subject to Board interpretation under § 377.5) will be considered such a license, if the event does not occur before the specified date and
§ 377.5 Procedure to obtain Board interpretation.

(a) The Board will determine upon written request by the holder of a temporary authorization or by any competitively affected air carrier or foreign air carrier, or upon its own initiative, whether the temporary authorization is a “license with reference to an activity of a continuing nature” within the meaning of 5 U.S.C. 558(c).

(b) A written request for such a Board determination shall be filed at least 60 days before the deadline set forth in § 377.10 for a timely renewal application.

(c) The filing of such a written request shall not affect the timeliness requirements for renewal applications that are set forth in § 377.10 or any other applicable Board rule or order.

§ 377.10 Requirements for, and effect of, renewal applications.

(a) Identification of authorization covered by renewal application. Each renewal application shall identify the authorization or authorizations to which it is intended to relate. The application shall indicate the applicant’s intention to rely upon 5 U.S.C. 558(c) as implemented by this part. In case of applications for renewal of an authorization for route service, the renewal application shall specifically identify the separate routes which the applicant proposes to continue serving pursuant to the expiring authorization, pending final determination of the renewal application.

(b) Contents of renewal application. The application must contain all the information required by law and the Board’s regulations, and meet the requirements thereof as to form. The new authorization sought need not be of the same duration as the expiring authorization. If the application relates to renewal of route authority, it must contain, as a minimum, a request for renewed authority to render route service between the terminals named in each separate route for which renewal is requested.

(c) Timeliness. The application must be filed and served in compliance with applicable law and the Board’s regulations at least 60 days before the expiration date of the outstanding temporary authorization, except that:

(1) For certificates issued under section 401 of the Act with a specified expiration date, the deadline is 180 days before the expiration date;

(2) For certificates issued under section 401 of the Act that terminate by their terms upon the happening of an event that could not be foreseen, the deadline is 30 days after the time that the carrier has notice that the event will occur or has occurred;

(3) For foreign air carrier permits issued under section 402 of the Act and exemptions issued under section 416 to non-U.S. citizens, the deadline is the expiration date itself;

(4) For renewal by substantially equivalent certificate authority of fixed term route authorizations granted by exemption and for interim extension of the exemption, pursuant to § 399.18 of this chapter, the deadline is 90 days before the expiration date; and

(5) Nothing in this part supersedes a requirement for earlier filing contained in any law, Board rule or order, or temporary authorization.

(d) Effect. In the case of authorizations which constitute licenses with reference to activities of a continuing nature within the meaning of 5 U.S.C. 558(c), the filing of an application complying in all respects with the requirements of paragraphs (a) through (c) of this section shall extend the authorization to which it relates as then outstanding in its entirety, together with all applicable terms, conditions and limitations, until the application has been finally determined by the Board. In the case of routes granted under section 401 of the Act, the duty to render adequate service continues to attach to every point as provided in the expired authorization which is extended pursuant to this provision. The date of final determination of the application shall be the date when the final order determining the application takes effect, or
when the applicable period for filing of petitions for rehearing, reargument or reconsideration expires, or when a timely filed petition therefor is denied, whichever occurs latest.

$377.11 Processing of defective renewal applications.

When the Board determines that a renewal application does not comply with the requirements of this part, or that it does not relate to a license with reference to an activity of a continuing nature, it will so notify the applicant. The applicant may amend his application to cure the deficiency as a matter of right at any time prior to the date when the application was due pursuant to §377.10(c).

Subpart A—General Provisions

§ 380.1 Applicability.

This part applies to Public Charter air transportation of passengers in interstate or foreign air transportation, whether furnished by direct air carriers or Public Charter operators. This part also relieves such charter operators from various provisions of subtitle VII of Title 49 of the United States Code (statute), formerly Title IV of the Federal Aviation Act of 1958.
as amended, for the purpose of enabling them to provide Public Charters utilizing aircraft chartered from such direct air carriers. It also declines jurisdiction over foreign Public Charter operators operating foreign-originating Public Charters.

§ 380.2 Definitions.

For the purposes of this part:

Certificated air carrier means a U.S. direct air carrier holding a certificate issued under the statute.

Charter flight means a flight operated under the terms of a charter contract between a direct air carrier and its customer. It does not include scheduled air transportation, scheduled foreign air transportation, or nonscheduled cargo air transportation, sold on an individually ticketed or individually waybilled basis.

Direct air carrier means a certificated commuter or foreign air carrier, or an air taxi operator registered under part 298 of this chapter, or a Canadian charter air taxi operator registered under part 294 of this chapter, that directly engages in the operation of aircraft under a certificate, authorization, permit or exemption issued by the Department.

Educational institution means a school that is operated as such on a year-round basis and is empowered to grant academic degrees or secondary school diplomas by any government in the United States or by a foreign government.

Foreign air carrier means a direct air carrier that holds a foreign air carrier permit issued under the statute or an exemption issued under the statute authorizing direct foreign air transportation.

Foreign Public Charter operator means an indirect air carrier which is not a citizen of the United States as defined in the statute, that is authorized to engage in the formation of groups for transportation on Public Charters in accordance with this part.

Indirect air carrier means any person who undertakes to engage indirectly in air transportation operations and who uses for such transportation the services of a direct air carrier.

Public Charter means a one-way or round-trip charter flight to be performed by one or more direct air carriers that is arranged and sponsored by a charter operator.

Public Charter operator means a U.S. or foreign Public Charter operator.

(2) The spouse, children, and parents of a student participant may accompany the participant on a charter operated under this section.

(e) The Department, upon application or on its own initiative, may waive any of the provision of this part if it finds such action to be in the public interest.

§ 380.4 Enforcement.

In the case of any violation of the provision of the Statute or of this part, or any other rule, regulations, or order issued under the Statute, the violator may be subject to a proceeding pursuant to the Statute before the Department or a U.S. district court, as the case may be, to compel compliance therewith: to civil penalties pursuant to the provisions of the Statute, or to criminal penalties pursuant to the provisions of the Statute, or other lawful sanctions.

Subpart B—Conditions and Limitations

§ 380.10 Public Charter requirements.

(b) If the charter operator cancels 10 or more days before the scheduled date of departure, the operator must so notify each participant in writing within 7 days after the cancellation but in any event not less than 10 days before the scheduled departure date of the outbound trip. A charter operator may organize and operate a Public Charter only in accordance with this part, and subject to the following conditions:

(a) No charter operator shall operate, sell, receive money from any prospective participant for, or offer to sell or otherwise advertise a charter or series of charters until the Office of Aviation Analysis, Special Authorities Division, has accepted a Public Charter prospectus as described in §380.28.

(b) If within 10 days after the filing the Department notifies the charter operator that it has rejected the prospectus for noncompliance with this part, the prohibitions set forth in paragraph (a) of this section shall continue until the Department advises that it has accepted the prospectus.

(e) The charter operator shall notify the depository bank (if any) and the securer of any change described in paragraph (c) of this section not later than when filing a prospectus amendment to reflect the change. (Approved by the Office of Management and Budget under Control Number 2106–0005)

§ 380.26 Discrimination.

§ 380.27 Methods of competition.

No charter operator shall engage in unfair or deceptive practices or unfair methods of competition in air transportation or the sale thereof.

§ 380.28 Charter prospectus.

(a) The charter prospectus shall include an original and two copies of the following:

(A) The proposed flight schedule, listing the origin and destination cities, dates, type of aircraft, number of seats, and charter price for each flight;

(B) The tour itinerary (if any) including hotels (name and length of stay at each), and other ground accommodations and services; and

(ii) A statement that they have entered into a charter contract that covers the proposed flight schedule, that the contract complies with all applicable Department regulations, and that a copy of the schedule has been sent to the depository bank (if any) and the operator’s securer. The schedule shall be identified with a number assigned by the charter operator that does not duplicate any schedule numbers assigned by the operator to other proposed flight schedules. The proposed flight schedule, tour itinerary (if any), and statement shall be filed on OST Form 4532.

(2)(i) From the charter operator and the securer, a statement:

(B) That the securer has received a copy of the proposed flight schedule.

The statement shall identify the proposed flight schedule by the schedule number assigned by the charter operator in accordance with paragraph (a) of this section. If there are any outstanding claims against the agreement, the charter operator and securer shall also state that they have executed a rider or amendment increasing the coverage by the amount of the claims, or that the securer will separately pay any claims for which it may be liable without impairing the agreement or reducing the amount of its coverage.

(b) Any solicitation material that states a price per passenger shall also include one of the following:

1. A statement referring to the operator-participant contract for further information about conditions applicable to the charter; or

2. The full text of the operator-participant contract.

(c) Except as set forth in §380.33a for operator's option plan contracts, if the charter prospectus names alternative dates or cities, any solicitation material that states a price per passenger shall also state that the actual dates or cities have not yet been selected, if that is the case.

(d) Any solicitation material that names a hotel but does not name every hotel named in the operator-participant contract shall also state that substitutions may be made.

(e) In any solicitation material from a direct air carrier, indirect air carrier, or an agent of either, for a charter, charter tour (i.e., a combination of air transportation and ground accommodations), or a charter tour component (e.g., a hotel stay), any price stated for such charter, tour, or component shall be the entire price to be paid by the participants to the air carrier, or agent, for such charter, tour, or component.

§ 380.31 General requirements for operator-participant contracts.

If a member of a group that will travel together pays for the group, that member may sign the contract on behalf of the group.

(b) For telephone sales only, the charter operator may accept payment by credit card without the participant having first signed an operator-participant contract provided that the charter operator first advises the customer:

1. That he or she has the right to receive the operator-participant contract before making a booking;

4. A full refund must be made of any amounts charged to a credit card for any participant who cancels before the operator-participant contract is signed.

(c) The contract form may include a space that participants may check to authorize the charter operator to retain their money while attempting to make other arrangements for them if there is no space available on the flight or on specific alternative flights they have requested.

(d) If there is no space available on the flight or specific alternative flights
requested by the participant the operator shall return all the participant’s money within 7 days after receiving it unless the participant, in accordance with paragraph (c) of this section, has authorized the operator to retain the payments while the operator attempts to make other arrangements for the participant. If the operator retains the payments while attempting to make other arrangements for the participant, it shall notify the participant of the fact within 7 days after receiving the payments, but in no event later than the departure. For the purpose of the time periods in this paragraph, receipt of money by a travel agent on behalf of a charter operator will not be considered as receipt by the operator.

(e) Except as set forth in §380.33a for operator’s option plan contracts, the operator-participant contract shall not specify alternative dates for the outbound or return flights, or alternative origin or destination cities for any flight leg.

(f) The contract form shall be printed in 7-point or larger type. (g) The contract form shall include a space that participants may check to indicate that they wish to be furnished details of trip cancellation, health, and accident insurance.

(h) The contract form shall be designed so as to enable participants to retain a copy of the general terms and conditions after signing it. The specific information supplied by participants (such as choices of dates, cities, or other options) need not be retainable.

§ 380.32 Specific requirements for operator-participant contracts.

Contracts between charter operators and charter participants shall state:

(a) The name and complete mailing address of the charter operator;

(g) The tour itinerary, if any, including the name and location of the hotels, length of stay at each, and other ground accommodations and services that are part of the tour;

(h) That the charter operator may not cancel the charter less than 10 days before the scheduled departure date, except for circumstances that make it physically impossible to perform the charter trip;

\(^1\)If the credit card merchant account is separate from the depository account, it must be used solely as a conduit, i.e., all credit card payments toward Public Charter trips must be immediately remitted to the depository account in full, without holdback, or retention of any portion of the participant’s payment. If the depository bank is not the credit card merchant bank, the Department must be satisfied that there are adequate procedural safeguards for the protection of participants’ payments.
§ 380.32 14 CFR Ch. II (1–1–08 Edition)

(k) That if the charter is canceled, a refund will be made to the participant within 14 days after the cancellation;
(l) The right to refunds if the participant changes plans is limited;
(m) The right to refunds if the participant changes plans, including
   (1) The right to a full refund, for sales made by credit card, until an operator-participant contract is signed; and

(n) The procedure for obtaining the refunds described in paragraph (m) of this section, including that they will be made within 14 days after the cancellation or substitution;
(o) The meaning of "major change", as set forth in § 380.33(a);
(p) That if the charter operator knows of a major change 10 or more days before scheduled departure, the operator will notify the participant of the change within 7 days after first knowing of it, but in any event at least 10 days before scheduled departure;
(q) That if the charter operator first knows of a major change less than 10 days before scheduled departure, the operator will get the message to the participant as soon as possible;
(r) That within 7 days after receiving a pre-departure notification of a major change but in no event later than departure, the participant may cancel, and that a full refund will be made to the participant within 14 days after cancelling;
(s) That upon a post-departure notification of a major change, the participant may reject the substituted hotel or the changed date, origin, or destination of a flight leg and be sent, within 14 days after the return date named in the contract, a refund of the portion of his payment allocable to the hotel accommodations or air transportation not provided;
(t) That the participants rights and remedies set forth in the contract, including the procedures for major changes, shall be in addition to any other rights or remedies available under applicable law, although the operator may condition a refund on the participant's waiver of additional remedies;
(u) That trip cancellation, health, and accident insurance is available and that the operator will furnish details of the insurance to participants who check the space provided for this purpose on the contract form;
(v) The name and address of the surety company or bank issuing the security agreement; and that unless the charter participant files a claim with the charter operator or, if he is unavailable, with the securee, within 60 days after termination of the charter, the securee shall be released from all liability under the security agreement to that participant. Termination means the date of arrival (or in the case of a canceled charter, the intended date or arrival) of the return flight. If there is no return flight in a participant's itinerary, termination means the date or intended date of departure of the last flight in the participant's itinerary;
(w) For international flights only: That additional restrictions may be imposed on the flight by the foreign government involved, and that if landing rights are denied by a foreign government the flight will be canceled with a full refund to the participant.    (1) The prospectus includes a certification by the charter operator and the direct air carrier that landing rights have been obtained from all the foreign governments involved, and
   (2) All the foreign governments involved have adopted country-of-origin rules for charterworthiness;
(x) That the charter operator is the principal and is responsible to the participants for all services and accommodations offered in connection with the charter. However, the contract may expressly provide that the charter operator, unless negligent, is not responsible for personal injury or property damage caused by any direct air carrier, hotel or other supplier of services in connection with the charter.

In any event, however, a date change that the operator knows of more than 2 days before the scheduled flight date, and any delay of more than 48 hours, will be considered a major change.

(2) A change in the origin or destination city shown in the operator-participant contract for any flight leg (or, if the contract states alternative cities, the city designated to the participant by the operator in accordance with § 380.33a(b)), unless the change affects only the order in which cities named in a tour package are visited.

(3) A substitution of any hotel that is not named in the operator-participant contract; and

(4) A price increase to the participant that occurs 10 or more days before departure and results in an aggregate price increase of more than 10 percent.

(b) The charter operator shall not increase the price to any participant less than 10 days before departure.

(c) The charter operator shall notify all participants of major changes, as required by the operator-participant contract. This notification shall include the participants’ rights to refunds required to be described in the operator-participant contract. The operator shall, if applicable, also notify the participants that the acceptance of a refund constitutes a waiver of their legal rights.

(d) Except as otherwise specified, notifications and refunds required by this part are considered made at the time they are mailed or sent by an equivalent method.

(e) The charter operator shall make all refunds required to be described in the operator-participant contract within the time limits set forth in paragraphs (k), (n), (r), and (s) of § 380.32, as applicable.

(a) The operator is in physical possession of enough tickets for admission to the event to provide such tickets for a substantial number of seats on the tour; or

(b) The operator has entered into a written contract with an organization that is the distributor of such tickets or an organization that receives such tickets directly from the distributor (e.g., a bowl committee; football conference, league or team; concert promoter or arena; etc.), the terms of which provide for that organization to furnish the operator enough admission tickets to provide such tickets for a substantial number of seats on the tour; or

(c) The operator has entered into a written contract with another person or organization that has a written contract or series of written contracts with the distributor of such tickets or with an organization that receives such tickets directly from the distributor, the terms of which provide for that organization (the organization with which the operator has contracted) to furnish the operator enough admission tickets to provide such tickets for a substantial number of seats on the tour.

§ 381.9 Sales.

(a) Except as provided in paragraph (b) of this section:

(1) No operator of a Special Event Tour shall accept money for a seat on a Special Event Tour, or authorize an agent to accept such money, unless the operator has physical possession of, or written contracts (in the manner described in §381.7) for, a ticket for admission to the event for that individual. To the extent that the operator receives an unsolicited booking for which the operator does not have physical possession of or written contracts for a ticket for admission to the event, any payment accompanying that booking must be returned within 3 business days.

(2) Upon acceptance of the money for a sale, the operator must reserve one event ticket for that individual. An operator may not sell more seats on the tour than it has event tickets in hand or under contract. (An operator need not continue to reserve an event ticket for an individual who withdraws from the tour by providing notice to the operator or by being notified by the operator that the individual’s participation has been canceled due to failure to remit a required installment payment.)

(b) An operator of a Special Event Tour may accept a booking and payment from an individual for whom the operator does not have an event ticket in hand or under contract if that individual agrees in writing that he or she understands that no event ticket has been reserved for him or her. This agreement shall specify whether the person has agreed to participate in the tour without an event ticket and/or the operator has agreed to attempt to acquire an event ticket for this person. If the two parties agree that the operator will attempt to acquire an event ticket, the agreement shall specify any penalties that will apply if the individual later cancels because an event ticket did not become available. If the operator notifies this person that an event ticket has become available, that person shall enjoy all the other protections of this part from that time.

§ 381.11 Refunds.

If promised admission to the primary event for which a Special Event Tour was organized is not furnished by the tour operator, at the tour price agreed to before departure (including any increases that the participant has accepted pursuant to §381.13(a)), the operator must provide each tour participant affected in this way a refund of the total tour price. This refund is to be provided within 14 calendar days after the scheduled return date of the tour.
§ 381.13 Price increases.

(a) Should the tour operator increase a participant’s tour price by more than 10 percent (aggregate of all increases to that participant), that participant shall have the option of canceling his or her participation in the tour and receiving a full refund within 14 days after the cancellation.

(b) The tour operator shall not increase the tour price to any participant less than ten days before departure.

§ 382.5 Definitions.

As used in this part—

Air Carrier or carrier means any citizen of the United States who undertakes, whether directly or indirectly or by a lease or any other arrangement, to engage in air transportation.

Air carrier airport means a public, commercial service airport which emplanes annually 2,500 or more passengers and receives scheduled air service.

Air transportation means interstate, overseas, or foreign air transportation, or the transportation of mail by aircraft, as defined in the Federal Aviation Act.

Individual with a disability means any individual who has a physical or mental impairment that, on a permanent or temporary basis, substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment. As used in this definition, the phrase:

(a) Physical or mental impairment means:

(1) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological, musculoskeletal, special sense organs, respiratory including speech organs, cardio-vascular, reproductive, digestive, genito-urinary, hemic and lymphatic, skin, and endocrine; or

(b) Major life activities means functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(c) Has a record of such impairment means has a history of, or has been classified, or misclassified, as having a mental or physical impairment that substantially limits one or more major life activities.

(d) Is regarded as having an impairment means:

(1) Has a physical or mental impairment that does not substantially limit major life activities but that is treated by an air carrier as constituting such a limitation;

(2) Has a physical or mental impairment that substantially limits a major life activity only as a result of the attitudes of others toward such an impairment; or

(3) Has none of the impairments set forth in this definition but is treated by an air carrier as having such an impairment.

Indirect air carrier means a person not directly involved in the operation of an aircraft who sells air transportation services to the general public other than as an authorized agent of an air carrier.
§ 382.7 Qualified individual with a disability

Qualified individual with a disability means an individual with a disability who—

(a) With respect to accompanying or meeting a traveler, use of ground transportation, using terminal facilities, or obtaining information about schedules, fares or policies, takes those actions necessary to avail himself or herself of facilities or services offered by an air carrier to the general public, with reasonable accommodations, as needed, provided by the carrier;

(b) With respect to obtaining a ticket for air transportation on an air carrier, offers, or makes a good faith attempt to offer, to purchase or otherwise validly to obtain such a ticket;

(c) With respect to obtaining air transportation, or other services or accommodations required by this part:

(1) Purchases or possesses a valid ticket for air transportation on an air carrier and presents himself or herself at the airport for the purpose of traveling on the flight for which the ticket has been purchased or obtained; and

(2) Meets reasonable, nondiscriminatory contract of carriage requirements applicable to all passengers;

Schedule air service means any flight scheduled in the current edition of the Official Airline Guide, the carrier’s published schedule, or the computer reservation system used by the carrier.

§ 382.7 General prohibition of discrimination.

(a) A carrier shall not, directly or through contractual, licensing, or other arrangements:

(1) Discriminate against any otherwise qualified individual with a disability, by reason of such disability, in the provision of air transportation;

(2) Require an individual with a disability to accept special services (including, but not limited to, preboarding) not requested by the passenger;

(3) Exclude a qualified individual with a disability from or deny the person the benefit of any air transportation or related services that are available to other persons, even if there are separate or different services available for individuals with a disability except when specifically permitted by another section of this part; or,

(4) Take any action adverse to an individual because of the individual’s assertion, on his or her own behalf or through or on behalf of others, of rights protected by this part or the Air Carrier Access Act.

(b) If an indirect air carrier provides facilities or services for passengers that are covered for other carriers by sections §§ 382.21–382.55, the indirect air carrier shall do so in a manner consistent with those sections.

(c) Carriers shall, in addition to meeting the other requirements of this part, modify policies, practices, and facilities as needed to ensure nondiscrimination, consistent with the standards of section 504 of the Rehabilitation Act, as amended. Carriers are not required to make modifications that would constitute an undue burden or would fundamentally alter their program.

§ 382.9 Assurances from contractors.

Carriers’ contracts with contractors who provide services to passengers, including carriers’ agreements of appointment with travel agents (excluding travel agents who are not U.S. citizens who provide services to air carriers outside the United States, its territories and commonwealths), shall include a clause assuring:

(a) Nondiscrimination on the basis of disability, consistent with this part, by such contractors in activities performed on behalf of the carriers; and

(b) That contractor employers will comply with directives issued by carrier complaints resolution officials (CROs) under § 382.67.

§§ 382.11–382.19 [Reserved]

Subpart B—Requirements Concerning Facilities

§ 382.21 Aircraft accessibility.

(a) The following requirements apply to new aircraft operated under 14 CFR part 121 and ordered by the carrier after the effective date of this part or delivered to the carrier more than two
§ 382.21 Office of the Secretary, DOT

years after the effective date of this part:

(i) Aircraft with 30 or more passenger seats on which passenger aisle seats have armrests shall have movable aisle armrests on at least one-half of passenger aisle seats.

(ii) Such armrests are not required to be provided on aisle seats on which a movable armrest is not feasible or aisle seats which a passenger with a mobility impairment is precluded from using by an FAA safety rule.

(iii) For aircraft equipped with movable aisle armrests as required by this paragraph, carriers shall configure cabins, or establish administrative systems, to ensure that an individuals with mobility impairments or other individuals with a disability can readily obtain seating in rows with movable aisle armrests.

(2) Aircraft with 100 or more passenger seats shall have a priority space in the cabin designated for stowage of at least one folding wheelchair;

(3) Aircraft with more than one aisle in which lavatories are provided shall include at least one accessible lavatory. This lavatory shall permit a qualified individual with a disability to enter, maneuver within as necessary to use all lavatory facilities, and leave, by means of the aircraft’s on-board wheelchair. The accessible lavatory shall afford privacy to persons using the on-board wheelchair equivalent to that afforded ambulatory users. The lavatory shall provide door locks, accessible call buttons, grab bars, faucets and other controls, and dispensers usable by qualified individuals with a disability, including wheelchair users and persons with manual impairments;

(i) Aircraft with more than 60 passenger seats having an accessible lavatory, whether or not required to have such a lavatory by paragraph (a)(3) of this section, shall be equipped with an operable on-board wheelchair for the use of passengers.

(ii) The carrier shall ensure that an operable on-board wheelchair is provided for a flight using an aircraft with more than 60 passenger seats on the request (with advance notice as provided in § 382.33(b)(8)) of a qualified individual with a disability who represents to the carrier that he or she is able to use an inaccessible lavatory but is unable to reach the lavatory from a seat without the use of an on-board wheelchair.

(iii) On-board wheelchairs shall include footrests, armrests which are movable or removable, adequate occupant restraint systems, a backrest height that permits assistance to passengers in transferring, structurally sound handles for maneuvering the occupied chair, and wheel locks or another adequate means to prevent chair movement during transfer or turbulence. The chair shall be designed to be compatible with the maneuvering space, aisle width, and seat height of the aircraft on which it is to be used, and to be easily pushed, pulled, and turned in the cabin environment by carrier personnel.

(b)(1) Except as provided in paragraph (b)(2) of this section, aircraft in service on the effective date of this part shall not be required to be retrofitted for the sole purpose of enhancing accessibility.

(2) Each carrier, within two years of the effective date of this part, shall comply with the provisions of paragraph (a)(4) of this section with respect to all aircraft with more than 60 passenger seats operated under 14 CFR part 121.

(c) Whenever an aircraft operated under 14 CFR part 121 which does not have the accessibility features set forth in paragraph (a) of this section undergoes replacement of cabin interior elements or lavatories, or the replacement of existing seats with newly manufactured seats, the carrier shall meet the requirements of paragraph (a) of this section with respect to the affected feature(s) of the aircraft.

(d) Aircraft operated under 14 CFR part 121 with fewer than 30 passenger seats (with respect to the requirements of paragraph (a)(1) of this section), fewer than 100 passenger seats (with respect to the requirements of paragraph (a)(2) of this section) or 60 or fewer passenger seats (with respect to the requirements of paragraph (a)(4) of this section), and aircraft operated under 14 CFR part 135, shall comply with the requirements of this section to the extent not inconsistent with structural, weight and balance, operational and interior configuration limitations.
§ 382.23 Airport facilities.

(a) This section applies to all terminal facilities and services owned, leased, or operated on any basis by an air carrier at a commercial service airport, including parking and ground transportation facilities.

(b) Air carriers shall ensure that the terminal facilities and services subject to this section shall be readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. Air carriers shall be deemed to comply with this Air Carrier Access Act obligation if they meet requirements applying to places of public accommodation under Department of Justice (DOJ) regulations implementing Title III of the Americans with Disabilities Act (ADA).

(c) The carrier shall ensure that there is an accessible path between the gate and the area from which aircraft are boarded.

(d) Systems of inter-terminal transportation, including, but not limited to, shuttle vehicles and people movers, shall comply with applicable requirements of the Department of Transportation’s ADA rule.

(e) The Americans with Disabilities Act Accessibility Guidelines (ADAAGs), including section 10.4 concerning airport facilities, shall be the standard for accessibility under this section.

(f) Contracts or leases between carriers and airport operators concerning the use of airport facilities shall set forth the respective responsibilities of the parties for the provision of accessible facilities and services to individuals with disabilities as required by this part for carriers and applicable section 504 and ADA rules of the Department of Transportation and Department of Justice for airport operators.

[Amtd. 6, 61 FR 56422, Nov. 1, 1996]
disability to provide advance notice of his or her intention to travel or of his or her disability as a condition of receiving transportation or of receiving services or accommodations required by this part.

(b) A carrier may require up to 48 hours advance notice and one-hour advance check-in concerning a qualified individual with a disability who wishes to receive any of the following services, types of equipment, or accommodations:

1. Medical oxygen for use on board the aircraft, if this service is available on the flight;
2. Carriage of an incubator, if this service is available on the flight;
3. Hook-up for a respirator to the aircraft electrical power supply, if this service is available on the flight;
4. Accommodation for a passenger who must travel in a stretcher, if this service is available on the flight;
5. Transportation for an electric wheelchair on a flight scheduled to be made with an aircraft with fewer than 60 seats;
6. Provision by the carrier of hazardous materials packaging for a battery for a wheelchair or other assistive device;
7. Accommodation for a group of ten or more qualified individuals with a disability, who make reservations and travel as a group; and
8. Provision of an on-board wheelchair on an aircraft that does not have an accessible lavatory.

(c) If a passenger does not meet advance notice or check-in requirements established by a carrier consistent with this section, the carrier shall nonetheless provide the service, equipment, or accommodation if it can do so by making a reasonable effort, without delaying the flight.

(d) Carriers’ reservation and other administrative systems shall ensure that when advance notice is provided by qualified individuals with a disability as provided by this section, the notice is recorded and properly transmitted to operating employees responsible for providing the accommodation concerning which notice was provided.

(e) If the qualified individual with a disability provides the notice required by the carrier for a service under paragraph (b) of this section, the carrier shall ensure that the requested service is provided.

(f) If a qualified individual with a disability provides advance notice to a carrier, and the individual is forced to change to the flight of a different carrier because of the cancellation of the original flight or the substitution of inaccessible equipment, the first carrier shall, to the maximum extent feasible, provide assistance to the second carrier in providing the accommodation requested by the individual from the first carrier.

§ 382.35 Attendants.

(a) Except as provided in this section, a carrier shall not require that a qualified individual with a disability travel with an attendant as a condition of being provided air transportation. A concern on the part of carrier personnel that an individual with a disability may need to use inaccessible lavatory facilities or may otherwise need extensive special assistance for personal needs which carrier personnel are not obligated to provide is not a basis on which the carrier may require an attendant.

(b) A carrier may require that a qualified individual with a disability meeting any of the following criteria travel with an attendant as a condition of being provided air transportation, if the carrier determines that an attendant is essential for safety:

1. A person traveling in a stretcher or incubator. The attendant for such a person must be capable of attending to the passenger’s in-flight medical needs;
2. A person who, because of a mental disability, is unable to comprehend or respond appropriately to safety instructions from carrier personnel, including the safety briefing required by 14 CFR 121.571(a)(3) and (a)(4) or 14 CFR 135.117(b);
3. A person with a mobility impairment so severe that the person is unable to assist in his or her own evacuation of the aircraft;
4. A person who has both severe hearing and severe vision impairments, if the person cannot establish some means of communication with carrier personnel, adequate to permit transmission of the safety briefing required.
§ 382.37 Seat assignments.

(a) Carriers shall not exclude any qualified individual with a disability from any seat in an exit row or other location or require that a qualified individual with a disability sit in any particular seat, on the basis of disability, except in order to comply with the requirements of an FAA safety regulation or as provided in this section.

(b) If a person’s disability results in involuntary active behavior that would result in the person properly being refused transportation under §382.31, and the safety problem could be mitigated to a degree that would permit the person to be transported consistent with safety if the person is seated in a particular location, the carrier shall offer the person that particular seat location as an alternative to being refused transportation.

(c) If a service animal cannot be accommodated at the seat location of the qualified individual with a disability whom the animal is accompanying (see §382.55(a)(2)), the carrier shall offer the passenger the opportunity to move with the animal to a seat location, if present on the aircraft, where the animal can be accommodated, as an alternative to requiring that the animal travel with checked baggage.

§ 382.38 Seating accommodations.

(a) On request of an individual who self-identifies to a carrier as having a disability specified in this paragraph, the carrier shall provide the following seating accommodations, subject to the provisions of this section:

(1) For a passenger who uses an aisle chair to access the aircraft and who cannot readily transfer over a fixed aisle armrest, the carrier shall provide a seat in a row with a movable aisle armrest.

(2) The carrier shall provide a seat next to a passenger traveling with a disability for a person assisting the individual in the following circumstances:

(i) When an individual with a disability is traveling with a personal care attendant who will be performing a function for the individual during the flight that airline personnel are not required to perform (e.g., assistance with eating);

(ii) When an individual with a vision impairment is traveling with a reader/assistant who will be performing functions for the individual during the flight; or

(iii) When an individual with a hearing impairment is traveling with an interpreter who will be performing functions for the individual during the flight.

(3) For an individual traveling with a service animal, the carrier shall provide, as the individual requests, either a bulkhead seat or a seat other than a bulkhead seat.

(4) For a person with a fused or immobilized leg, the carrier shall provide a bulkhead seat or other seat that provides greater legroom than other seats, on the side of an aisle that better accommodates the individual’s disability.

(b) A carrier that provides advance seat assignments shall comply with the requirements of paragraph (a) of this section by any of the following methods:

(1) The carrier may “block” an adequate number of the seats used to provide the seating accommodations required by this section.

(i) The carrier shall not assign these seats to passengers not needing seating accommodations provided under this...
Office of the Secretary, DOT § 382.38

paragraph until 24 hours before the scheduled departure of the flight.

(ii) At any time up until 24 hours before the scheduled departure of the flight, the carrier shall assign a seat meeting the requirements of this section to an individual who requests it.

(iii) If an individual with a disability does not make a request at least 24 hours before the scheduled departure of the flight, the carrier shall meet the individual’s request to the extent practicable, but is not required to reassign a seat assigned to another passenger in order to do so.

(2) The carrier may designate an adequate number of the seats used to provide seating accommodations required by this section as “priority seats” for individuals with disabilities.

(i) The carrier shall provide notice that all passengers assigned these seats (other than passengers with disabilities listed in paragraph (a) of this section) are subject to being reassigned to another seat if necessary to provide a seating accommodation required by this section. The carrier may provide this notice through its computer reservation system, verbal information provided by reservation personnel, ticket notices, gate announcements, counter signs, seat cards or notices, frequent-flier literature, or other appropriate means.

(ii) The carrier shall assign a seat meeting the requirements of this section to an individual who requests the accommodation and checks in at least one hour before the scheduled departure of the flight. If all designated priority seats that would accommodate the individual have been assigned to other passengers, the carrier shall reassign the seats of the other passengers as needed to provide the requested accommodation.

(iii) If the individual with a disability does not check in at least an hour before the scheduled departure of the flight, the carrier shall meet the individual’s request to the extent practicable, but is not required to reassign a seat assigned to another passenger in order to do so.

(c) On request of an individual who self-identifies to a carrier as having a disability other than one in the four categories listed in paragraph (a) of this section and as needing a seat assignment accommodation in order to readily access and use the carrier’s air transportation services, a carrier that assigns seats in advance shall provide such an accommodation, as described in this paragraph.

(1) A carrier that complies with paragraph (a) this section through the “seat-blocking” mechanism of paragraph (b)(1) of this section shall implement the requirements of this paragraph as follows:

(i) When the passenger with a disability not described in paragraph (a) of this section makes a reservation more than 24 hours before the scheduled departure time of the flight, the carrier is not required to offer the passenger one of the seats blocked for the use of passengers with disabilities listed under paragraph (a) of this section.

(ii) However, the carrier shall assign to the passenger any seat, not already assigned to another passenger, that accommodates the passenger’s needs, even if that seat is not available for assignment to the general passenger population at the time of the request.

(2) A carrier that complies with this section through the “designated priority seats” mechanism of paragraph (b)(2) of this section shall implement the requirements of this paragraph as follows:

(i) When a passenger with a disability not described in paragraph (a) of this section makes a reservation, the carrier shall assign to the passenger any seat, not already assigned to another passenger, that accommodates the passenger’s needs, even if that seat is not available for assignment to the general passenger population at the time of the request.

(ii) If such a passenger is assigned to a designated priority seat, he or she is subject to being reassigned to another seat as provided in paragraph (b)(2) of this section.

(d) A carrier that does not provide advance seat assignments shall provide seating accommodations for persons described in paragraphs (a) and (c) of this section by allowing them to board the aircraft before other passengers, including other “pre-boarded” passengers, so that the individuals needing seating accommodations can select
§ 382.39 Provision of services and equipment.

Carriers shall ensure that qualified individuals with a disability are provided the following services and equipment:

(a) Carriers shall provide assistance requested by or on behalf of qualified individuals with a disability, or offered by air carrier personnel and accepted by qualified individuals with a disability, in enplaning and deplaning. The delivering carrier shall be responsible for assistance in making flight connections and transportation between gates.

(1) This assistance shall include, as needed, the services personnel and the use of ground wheelchairs, boarding wheelchairs, on-board wheelchairs where provided in accordance with this part, and ramps or mechanical lifts.

(2) Boarding shall be by level-entry loading bridges or accessible passenger lounges, where these means are available. Where these means are unavailable, assistance in boarding aircraft with 30 or fewer passenger seats shall be provided as set forth in §382.40, and assistance in boarding aircraft with 31 or more seats shall be provided as set forth in §382.40a. In no case shall carrier personnel hand-carry a passenger in order to provide boarding or deplaning assistance (i.e., directly pick up the passenger's body in the arms of one or more carrier personnel to effect a change of level that the passenger needs to enter or leave the aircraft). Hand-carrying of passengers is permitted only for emergency evacuations.

(b) Carriers shall provide services within the aircraft cabin as requested by or on behalf of individuals with a disability, or when offered by air carrier personnel and accepted by individuals with a disability as follows:

(1) Assistance in moving to and from seats, as part of the enplaning and deplaning processes;

(2) Assistance in preparation for eating, such as opening packages and identifying food;

(3) If there is an on-board wheelchair on the aircraft, assistance with the use of the on-board wheelchair to enable the person to move to and from a lavatory;

(4) Assistance to a semianmibulatory person in moving to and from the lavatory, not involving lifting or carrying the person; or

seats that best meet their needs if they have taken advantage of the opportunity to pre-board.

(e) A carrier may comply with the requirements of this section through an alternative method not specified in paragraphs (b) through (d) of this section. A carrier wishing to do so shall obtain the written concurrence of the Department of Transportation (Office of the Secretary) before implementing the alternative method.

(f) The carrier shall assign a seat providing an accommodation requested by an individual with a disability, as specified in this section, even if the seat is not otherwise available for assignment to the general passenger population at the time of the individual's request.

(g) If the carrier has already provided a seat to an individual with a disability to furnish an accommodation required by paragraph (a) or (c) of this section, the carrier shall not reassign that individual to another seat in response to a subsequent request from another individual with a disability, without the first individual's consent.

(h) In no case shall any individual be denied transportation on a flight in order to provide accommodations required by this section.

(i) Carriers are not required to furnish more than one seat per ticket or to provide a seat in a class of service other than the one the passenger has purchased.

(j) In responding to requests from individuals for accommodations required by this section, carriers shall comply with FAA safety rules, including those pertaining to exit seating (see 14 CFR 121.585 and 135.129).

(k) Carriers are required to comply with this section beginning September 30, 1998.

(5) Assistance in loading and retrieving carry-on items, including mobility aids and other assistive devices stowed on board in accordance with §382.41.

(c) Carriers are not required to provide extensive special assistance to qualified individuals with a disability. For purposes of this section, extensive special assistance includes the following activities:

(1) Assistance in actual eating;

(2) Assistance within the restroom or assistance at the passenger’s seat with elimination functions;

(3) Provision of medical services.

§ 382.40 Boarding assistance for small aircraft.

(a) Paragraphs (b) and (c) of this section apply to air carriers conducting passenger operations with aircraft having 19–30 seat capacity at airports with 10,000 or more annual enplanements.

(b) Carriers shall, in cooperation with the airports they serve, provide boarding assistance to individuals with disabilities using mechanical lifts, ramps, or other suitable devices that do not require employees to lift or carry passengers up stairs.

(c)(1) Each carrier shall negotiate in good faith with the airport operator at each airport concerning the acquisition and use of boarding assistance devices. The carrier(s) and the airport operator shall, by no later than September 2, 1997, sign a written agreement allocating responsibility for meeting the boarding assistance requirements of this section between or among the parties. The agreement shall be made available, on request, to representatives of the Department of Transportation.

(2) The agreement shall provide that all actions necessary to ensure accessible boarding for passengers with disabilities are completed as soon as practicable, but no later than December 2, 1998 at large and medium commercial service hub airports (those with 1,300,000 or more annual enplanements); December 2, 1999 for small commercial service hub airports (those with between 250,000 and 1,199,999 annual enplanements); or December 4, 2000 for non-hub commercial service primary airports (those with between 10,000 and 249,999 annual enplanements). All air carriers and airport operators involved are jointly responsible for the timely and complete implementation of the agreement.

(3) Under the agreement, carriers may require that passengers wishing to receive boarding assistance requiring the use of a lift for a flight using a 19–30 seat aircraft check in for the flight one hour before the scheduled departure time for the flight. If the passenger checks in after this time, the carrier shall nonetheless provide the boarding assistance by lift if it can do so by making a reasonable effort, without delaying the flight.

(4) Boarding assistance under the agreement is not required in the following situations:

(i) Access to aircraft with a capacity of fewer than 19 or more than 30 seats;

(ii) Access to float planes;

(iii) Access to the following 19-seat capacity aircraft models: the Fairchild Metro, the Jetstream 31, and the Beech 1900 (C and D models);

(iv) Access to any other 19-seat aircraft model determined by the Department of Transportation to be unsuitable for boarding assistance by lift on the basis of a significant risk of serious damage to the aircraft or the presence of internal barriers that preclude passengers who use a boarding or aisle chair to reach a non-exit row seat.

(5) When boarding assistance is not required to be provided under paragraph (c)(4) of this section, or cannot be provided as required by paragraphs (b) and (c) of this section for reasons beyond the control of the parties to the agreement (e.g., because of mechanical problems with a lift), boarding assistance shall be provided by any available means to which the passenger consents, except hand-carrying as defined in §382.39(a)(2) of this part.

(6) The agreement shall ensure that all lifts and other accessibility equipment are maintained in proper working condition.

(d)(1) The training of carrier personnel required by §382.61 shall include, for those personnel involved in providing boarding assistance, training to proficiency in the use of the boarding
assistance equipment used by the carrier and appropriate boarding assistance procedures that safeguard the safety and dignity of passengers.

(2) Carriers who do not operate aircraft with more than a 19-seat capacity shall ensure that those personnel involved in providing boarding assistance are trained to proficiency in the use of the boarding assistance equipment used by the carrier and appropriate boarding assistance procedures that safeguard the safety and dignity of passengers.

[Amid. 6, 61 FR 56423, Nov. 1, 1996]

§ 382.40a Boarding assistance for large aircraft.

(a) Paragraphs (b) and (c) of this section apply to air carriers conducting passenger operations with aircraft having a seating capacity of 31 or more passengers at airports with 10,000 or more annual enplanements, in any situation where passengers are not boarded by level-entry loading bridges or accessible passenger lounges.

(b) Carriers shall, in cooperation with the airports they serve, provide boarding assistance to individuals with disabilities using mechanical lifts, ramps, or other suitable devices that do not require employees to lift or carry passengers up stairs.

(c)(1) Each carrier that does not provide passenger boarding by level-entry loading bridges or accessible passenger lounges shall negotiate in good faith with the airport operator at each airport concerning the acquisition and use of boarding assistance devices. The carrier(s) and the airport operator shall, by no later than March 4, 2002, sign a written agreement allocating responsibility for meeting the boarding assistance requirements of this section between or among the parties. The agreement shall be made available, on request, to representatives of the Department of Transportation.

(2) The agreement shall provide that all actions necessary to ensure accessible boarding for passengers with disabilities are completed as soon as practicable, but no later than December 4, 2002. All air carriers and airport operators involved are jointly responsible for the timely and complete implementation of the agreement.

(3) Under the agreement, carriers may require that passengers wishing to receive boarding assistance requiring the use of a lift for a flight check in for the flight one hour before the scheduled departure time for the flight. If the passenger checks in after this time, the carrier shall nonetheless provide the boarding assistance by lift if it can do so by making a reasonable effort, without delaying the flight.

(4) Level-entry boarding assistance under the agreement is not required with respect to float planes or with respect to any widebody aircraft determined by the Department of Transportation to be unsuitable for boarding assistance by lift, ramp, or other device on the basis that no existing boarding assistance device on the market will accommodate the aircraft without a significant risk of serious damage to the aircraft or injury to passengers or employees.

(5) When level-entry boarding assistance is not required to be provided under paragraph (c)(4) of this section, or cannot be provided as required by paragraphs (b) and (c) of this section (e.g., because of mechanical problems with a lift), boarding assistance shall be provided by any available means to which the passenger consents, except hand-carrying as defined in §382.39(a)(2).

(6) The agreement shall ensure that all lifts and other accessibility equipment are maintained in proper working condition.

(d) The training of carrier personnel required by §382.61 shall include, for those personnel involved in providing boarding assistance, training to proficiency in the use of the boarding assistance equipment used by the carrier and appropriate boarding assistance procedures that safeguard the safety and dignity of passengers.

§ 382.41 Stowage of personal equipment.

(a) All stowage of qualified individuals with a disability’s wheelchairs and other equipment covered by this part in aircraft cabins shall be in accordance with 14 CFR 121.589 and 14 CFR 121.285(c) or 14 CFR 135.87, as applicable.

432
(b) Carriers shall permit qualified individuals with a disability using personal ventilators/respirators to bring their equipment, including non-spillable batteries that meet the requirements of 49 CFR 173.159(d) and any applicable FAA safety regulations, on board the aircraft and use it.

(c) Carriers shall permit qualified individuals with a disability to stow canes and other assistive devices on board the aircraft in close proximity to their seats, consistent with the requirements of FAA safety regulations for carry-on items.

(d) Carriers shall not, in implementing their carry-on baggage policies, count toward a limit on carry-on items any assistive device brought into the cabin by a qualified individual with a disability.

(e) Carriers shall provide for on-board stowage of passengers’ wheelchairs (including collapsible or break-down battery-powered wheelchairs, subject to the provisions of paragraph (g)(5) of this section) as carry-on baggage as follows:

1. Carriers shall permit the stowage of wheelchairs or components of wheelchairs in overhead compartments and under seats, consistent with the requirements of FAA safety regulations for carry-on items.

2. In an aircraft in which a closet or other approved stowage area is provided in the cabin for passengers’ carry-on items, of a size that will accommodate a folding, collapsible, or break-down wheelchair in that area. A individual with a disability who takes advantage of a carrier offer of the opportunity to pre-board the aircraft may stow his or her wheelchair in this area, with priority over the carry-on items brought onto the aircraft by other passengers enplaning at the same airport. A individual with a disability who does not take advantage of a carrier offer of the opportunity to preboard may use the area to stow his or her wheelchair on a first-come, first-served basis along with all other passengers seeking to stow carry-on items in the area.

3. If an approved stowage area in the cabin is not available for a folding, collapsible, or break-down wheelchair, the wheelchair shall be stowed in the cargo compartment.

(f) When a folding, collapsible, or break-down wheelchair cannot be stowed in the passenger cabin as carry-on baggage, carriers shall provide for the checking and timely return of passengers’ wheelchairs and other assistive devices as close as possible to the door of the aircraft, so that passengers may use their own equipment to the extent possible, except where this practice would be inconsistent with DOT regulations governing the transportation of hazardous materials.

1. At the request of the passenger, the carrier may return wheelchairs or other assistive devices to the passenger at the baggage claim area instead of at the door of the aircraft.

2. In order to achieve the timely return of wheelchairs, passengers’ wheelchairs and other assistive devices shall be among the first items retrieved from the baggage compartment.

3. Wheelchairs and other assistive devices shall be stowed in the baggage compartment with priority over other cargo and baggage. Where this priority results in passengers’ baggage being unable to be carried on the flight, the carrier shall make its best efforts to ensure that the other baggage reaches the passengers’ destination within four hours of the scheduled arrival time of the flight.

(g) Whenever baggage compartment size and aircraft airworthiness considerations do not prohibit doing so, carriers shall accept a passenger’s battery-powered wheelchair, including the battery, as checked baggage, consistent with the requirements of 49 CFR 175.10(a)(19) and (20) and the provisions of paragraph (f) of this section.

1. Carriers may require that qualified individuals with a disability wishing to have battery-powered wheelchairs transported on a flight (including in the cabin) check in one hour before the scheduled departure time of the flight. If such an individual checks in after this time, the carrier shall nonetheless carry the wheelchair if it can do so by making a reasonable effort, without delaying the flight.
§ 382.43 Treatment of mobility aids and assistive devices.

(a) When wheelchairs or other assistive devices are disassembled by the carrier for stowage, the carrier shall reassemble them and ensure their prompt return to the individual with a disability. Wheelchairs and other assistive devices shall be returned to the passenger in the condition received by the carrier.

(b) With respect to domestic transportation, the baggage liability limits of 14 CFR part 254 do not apply to liability for loss, damage, or delay concerning wheelchairs or other assistive devices. The criterion for calculating the compensation for a lost, damaged, or destroyed wheelchair or other assistive device shall be the original purchase price of the device.

(c) Carriers shall not require qualified individuals with a disability to sign waivers of liability for damage to or loss of wheelchairs or other assistive devices.

§ 382.45 Passenger information.

(a) A carrier shall make available, on request, the following information concerning facilities and services related to the provision of air transportation to qualified individuals with a disability. This information shall pertain to the type of aircraft and, where feasible, the specific aircraft scheduled for a specific flight:

(1) The location of seats, if any, with movable armrests and any seats which the carrier, consistent with this part, does not make available to qualified individuals with a disability;

(2) Any limitations on the ability of the aircraft to accommodate qualified individuals with disabilities, including limitations on the availability of boarding assistance to the aircraft, with respect to the departure and destination points and any intermediate stops. The carrier shall provide this information to any passenger who states that he or she uses a wheelchair for boarding, even if the passenger does not explicitly request the information.

(b) Individuals with disabilities shall be permitted to provide written directions concerning the disassembly and reassembly of their wheelchairs.

required by 14 CFR 121.571 (a)(3) and (a)(4) or 14 CFR 135.117(b):

2. Carrier personnel may offer an individual briefing to any other passenger;

3. Individual safety briefings for qualified individuals with a disability shall be conducted as inconspicuously and discreetly as possible;

4. Carrier personnel shall not require any qualified individual with a disability to demonstrate that he or she has listened to, read, or understood the information presented, except to the extent that carrier personnel impose such a requirement on all passengers with respect to the general safety briefing, and shall not take any action adverse to a qualified individual with a disability on the basis that the person has not “accepted” the briefing.

(c) Each carrier shall ensure that qualified individuals with a disability, including those with vision or hearing impairments, have timely access to information the carrier provides to other passengers in the terminal or on the aircraft (to the extent that it does not interfere with crewmembers' safety duties as set forth in FAA regulations) including, but not limited to, information concerning ticketing, flight delays, schedule changes, connections, flight check-in, gate assignments, and the checking and claiming of luggage; Provided, That persons who are unable to obtain such information from the audio or visual systems used by carriers in airports or on aircraft shall request the information from carrier personnel. Carriers shall also provide information on aircraft changes that will affect the travel of individuals with a disability.

(d) Carriers shall have, at each airport they use, a copy of this part and shall make it available for review by individuals with a disability on request.

§ 382.47 Accommodations for persons with hearing impairments.

(a) Each carrier providing scheduled air service, or charter service under section 401 of the Federal Aviation Act, and which makes available telephone reservation and information service available to the public shall make available a telecommunications device for the deaf (TDD) service to enable persons with hearing impairments to make reservations and obtain information. The TDD service shall be available during the same hours as the telephone service for the general public and the response time for answering calls shall be equivalent. Users of the TDD service shall not be subject to charges for a call that exceed those applicable to other users of the telephone information and reservation service.

(b) In aircraft in which safety briefings are presented to passengers on video screens, the carrier shall ensure that the video presentation is accessible to persons with hearing impairments.

(1) Except as provided in paragraph (b)(2) of this section, the carrier shall implement this requirement by using open captioning or an inset for a sign language interpreter as part of the video presentation.

(2) A carrier may use an equivalent non-video alternative to this requirement only if neither open captioning nor a sign language interpreter inset could be placed in the video presentation without so interfering with it as to render it ineffective or would be large enough to be readable.

(3) Carriers shall implement the requirements of this section by substituting captioned video materials for uncaptioned video materials as the uncaptioned materials are replaced in the normal course of the carrier’s operations.

§ 382.49 Security screening of passengers.

(a) Qualified individuals with a disability shall undergo security screening in the same manner, and be subject to the same security requirements, as other passengers. Possession by a qualified individual with a disability of an aid used for independent travel shall not subject the person or the aid to special screening procedures if the person using the aid clears the security system without activating it. Provided, That this paragraph shall not prohibit security personnel from examining a mobility aid or assistive device which,
in their judgment, may conceal a weapon or other prohibited item. Security searches of qualified individuals with a disability whose aids activate the security system shall be conducted in the same manner as for other passengers. Private security screenings shall not be required for qualified individuals with a disability to a greater extent, or for any different reason, than for other passengers.

(b) Except as provided in paragraph (c) of this section, if a qualified individual with a disability requests a private screening in a timely manner, the carrier shall provide it in time for the passenger to enplane.

(c) If a carrier employs technology that can conduct an appropriate screening of an individual with a disability without necessitating a physical search of the person, the carrier is not required to provide a private screening.

§ 382.51 Communicable diseases.

(a) Except as provided in paragraph (b) of this section, a carrier shall not take any of the following actions, with respect to a person who is otherwise a qualified individual with a disability, on the basis that the individual has a communicable disease or infection:

(1) Refuse to provide transportation to the person;
(2) Require the person to provide a medical certificate; or
(3) Impose on the person any condition, restriction, or requirement not imposed on other passengers.

(b)(1) The carrier may take the actions listed in paragraph (a) of this section with respect to an individual who has a communicable disease or infection only if the individual’s condition poses a direct threat to the health or safety of others.

(2) For purposes of this section, a direct threat means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures, or by the provision of auxiliary aids or services.

(3) In determining whether an individual poses a direct threat to the health or safety of others, a carrier must make an individualized assessment, based on reasonable judgment that relies on current medical knowledge or on the best available objective evidence, to ascertain: the nature, duration, and severity of the risk; that the potential harm to the health and safety of others will actually occur; and whether reasonable modifications of policies, practices, or procedures will mitigate the risk.

(4) In taking actions authorized under this paragraph, carriers shall select the alternative, consistent with the safety and health of other persons, that is least restrictive from the point of view of the passenger with the communicable disease. For example, the carrier shall not refuse to provide transportation to an individual if provision of a medical certificate or reasonable modifications to practices, policies, or procedures will mitigate the risk of communication of the disease to others to an extent that would permit the individual to travel.

(5) If an action authorized under this paragraph results in the postponement of a passenger’s travel, the carrier shall permit the passenger to travel at a later time (up to 90 days from the date of the postponed travel) at the fare that would have applied to the passenger’s originally scheduled trip without penalty or, at the passenger’s discretion, provide a refund for any unused flights, including return flights.

(6) Upon the passenger’s request, the carrier shall provide to the passenger a written explanation of any action taken under this paragraph within 10 days of the request.

(c) If a qualified individual with a disability with a communicable disease or infection of the kind described in paragraph (b) of this section presents a medical certificate to the carrier, as provided in §382.53(c)(2), the carrier shall provide transportation to the individual, unless it is not feasible for the carrier to implement the conditions set forth in the medical certificate as necessary to prevent the transmission of the disease or infection to other persons in the normal course of a flight.

[55 FR 8046, Mar. 6, 1990, as amended by Amdt. 6, 61 FR 56423, Nov. 1, 1996]
§ 382.53 Medical certificates.

(a) Except as provided in this section, a carrier shall not require a person who is otherwise a qualified individual with a disability to have a medical certificate as a condition for being provided transportation.

(b)(1) A carrier may require a medical certificate for a qualified individual with a disability—

(i) Who is traveling in a stretcher or incubator;

(ii) Who needs medical oxygen during a flight, as provided in 14 CFR 121.574; or

(iii) Whose medical condition is such that there is reasonable doubt that the individual can complete the flight safely, without requiring extraordinary medical assistance during the flight.

(2) For purposes of this paragraph, a medical certificate is a written statement from the passenger's physician saying that the passenger is capable of completing a flight safely, without requiring extraordinary medical assistance during the flight.

(3) For purposes of this paragraph, a medical certificate is a written statement from the passenger's physician saying that the disease or infection would not, under the present conditions in the particular passenger's case, be communicable to other persons during the normal course of a flight. The medical certificate shall state any conditions or precautions that would have to be observed to prevent the transmission of the disease or infection to other persons in the normal course of a flight. It shall be dated within ten days of the date of the flight for which it is presented.

§ 382.55 Miscellaneous provisions.

(a) Carriers shall permit dogs and other service animals used by individuals with a disability to accompany the persons on a flight.

(1) Carriers shall accept as evidence that an animal is a service animal identification cards, other written documentation, presence of harnesses or markings on harnesses, tags, or the credible verbal assurances of the qualified individual with a disability using the animal.

(b)(1) Carriers shall not require qualified individuals with a disability to sit on blankets.

(2) Carriers shall not restrict the movements of individuals with a disability in terminals or require them to remain in a holding area or other location in order to be provided transportation, to receive assistance, or for other purposes, or otherwise mandate separate treatment for individuals with a disability, except as permitted or required in this part.

§ 382.57 Charges for accommodations prohibited.

Carriers shall not impose charges for providing facilities, equipment, or services that are required by this part to be provided to qualified individuals with a disability.

§ 382.59 [Reserved]

Subpart D—Administrative Provisions

§ 382.61 Training.

(a) Each carrier which operates aircraft with more than 19 passenger seats shall provide training, meeting the requirements of this paragraph, for all its personnel who deal with the traveling public, as appropriate to the duties of each employee.

(1) The carrier shall ensure training to proficiency concerning:
§ 382.63 Carrier programs.

(a)(1) Each carrier that operates aircraft with more than 19 passenger seats shall establish and implement, within 180 days of the effective date of this part, a written program for carrying out the requirements of this part.

(b) Carriers are not excused from compliance with the provisions of this part during the 180 days before carrier programs are required to be established.

(b)(1) The program shall include the following elements:

(1) The carrier’s schedule for training its personnel in compliance with §382.61;

(2) The carrier’s policies and procedures for accommodating individuals with a disability consistent with the requirements of this part.
§ 382.65 Compliance procedures.

(a) Each carrier providing scheduled service shall establish and implement a complaint resolution mechanism, including designating one or more complaints resolution official(s) (CRO) to be available at each airport which the carrier serves.

(1) The carrier shall make a CRO available to any person who complains of alleged violations of this part during all times the carrier is operating at the airport.

(2) The carrier may make the CRO available via telephone, at no cost to the passenger, if the CRO is not present in person at the airport at the time of the complaint. If a telephone link to the CRO is used, TDD service shall be available so that persons with hearing impairments may readily communicate with the CRO.

(b) Each carrier shall establish a procedure for resolving written complaints alleging violation of the provisions of this part.

(1) A carrier is not required to respond to a complaint postmarked more than 45 days after the date of the alleged violation.

(2) A written complaint shall state whether the complainant has contacted a CRO in the matter, the name of the CRO and the date of the contact, if
§ 382.70 Disability-related complaints received by carriers.

(a) For the purposes of this section, a disability-related complaint means a specific written expression of dissatisfaction received from, or submitted on behalf, of an individual with a disability concerning a difficulty associated with the person’s disability, which the person experienced when using or attempting to use an air carrier’s or foreign air carrier’s services.

(b) This section applies to certificated U.S. carriers and foreign air carriers operating to, from, and in the United States, conducting passenger operations with at least one aircraft having a designed seating capacity of more than 60 passengers. Foreign air carriers are covered by this section only with respect to disability-related complaints associated with any flight segment originating or terminating in the United States.

(c) Carriers shall categorize disability-related complaints that they receive according to the type of disability and nature of complaint. Data concerning a passenger’s disability must be recorded separately in the following areas: vision impaired, hearing impaired, vision and hearing impaired, mentally impaired, communicable disease, allergies (e.g., food allergies, chemical sensitivity), paraplegic, quadriplegic, other wheelchair, oxygen, stretcher, other assistive device (cane, respirator, etc.), and other disability. Data concerning the alleged discrimination or service problem related to the disability must be separately recorded in the following areas: refusal to board, refusal to board without an attendant, security issues concerning disability, aircraft not accessible, airport not accessible, advance notice dispute, seating accommodation, failure to provide adequate or timely assistance, damage to assistive device, storage and delay of assistive device, service animal problem, unsatisfactory information, and other.

(d) Carriers shall submit an annual report summarizing the disability-related complaints that they received during the prior calendar year using the form specified in Appendix A to this Part. The first report shall cover complaints received during calendar year 2004 and shall be submitted to the Department of Transportation by January 25, 2005. Carriers shall submit all subsequent reports on the last Monday in January of that year for the prior calendar year. All submissions must be made through the World Wide Web except for situations where the carrier can demonstrate that it would suffer undue hardship if it were not permitted to submit the data via paper copies, disks, or email, and DOT has approved an exception. All fields in the form must be completed; carriers are to enter “0” where there were no complaints in a given category. Each annual report must contain the following certification signed by an authorized representative of the carrier: “I, the undersigned, do certify that this report has been prepared under my direction in accordance with the regulations in
(e) Carriers shall retain correspondence and record of action taken on all disability-related complaints for three years after receipt of the complaint or creation of the record of action taken. Carriers must make these records available to Department of Transportation officials at their request.

(f)(1) In a code-share situation, each carrier shall comply with paragraphs (c) through (e) of this section for—

(i) Disability-related complaints it receives from or on behalf of passengers with respect to difficulties encountered in connection with service it provides;

(ii) Disability-related complaints it receives from or on behalf of passengers when it is unable to reach agreement with its code-share partner as to whether the complaint involves service it provides or service its code-share partner provides; and

(iii) Disability-related complaints forwarded by another carrier or governmental agency with respect to difficulties encountered in connection with service it provides.

(2) Each carrier shall also forward to its code-share partner disability-related complaints the carrier receives from or on behalf of passengers with respect to difficulties encountered in connection with service provided by its code-sharing partner.

(g) Each carrier, except for carriers in code-share situations, shall comply with paragraphs (c) through (e) of this section for disability-related complaints it receives from or on behalf of passengers as well as disability-related complaints forwarded by another carrier or governmental agency with respect to difficulties encountered in connection with service it provides.

(h) Carriers that do not submit their data via the Web shall use the disability-related complaint data form specified in appendix A to this part when filing their annual report summarizing the disability-related complaints they received. The report shall be mailed, by the dates specified in paragraph (d) of this section, to the following address: U.S. Department of Transportation, Aviation Consumer Protection Division, 400 7th Street, SW., Room 4107, C-75, Washington, DC 20590.

PART 383—CIVIL PENALTIES

Sec.
383.1 Basis and purpose.
383.2 Amount of penalty.

SOURCE: 69 FR 41423, July 9, 2004, unless otherwise noted.

§ 383.1 Basis and purpose.

(a) Basis. This part implements the civil penalty provisions of Vision 100—Century of Aviation Reauthorization Act (Pub. L. 108–176, 117 Stat. 2490, December 12, 2003, section 503) (Vision 100). Because this statute revises or reaffirms all civil penalty provisions under 49 U.S.C. 46301, no further adjustments to account for inflation are required under the terms of Federal Civil Penalties Inflation Adjustment Act of 1990 (Pub. L. 101–410, 104 Stat. 890) and the Debt Collection Improvement Act of 1996 (Pub. L. 104–134, section 31001). The latter requires that federal agencies adjust civil penalties at least every four years to reflect any inflation which may have occurred.

(b) Purpose. This part incorporates the civil penalty liability amounts prescribed in 49 U.S.C. 46301(a), as modified by Vision 100.

§ 383.2 Amount of penalty.

Civil penalties payable to the U.S. Government for violations of Title 49, Chapters 401 through 421, pursuant to 49 U.S.C. 46301(a) as revised by Vision 100, are as follows:

(a) A general civil penalty of not more than $25,000 (or $1,100 for individuals or small businesses) applies to violations of statutory provisions and rules or orders issued under those provisions, other than those listed in paragraph (b) of this section, (see 49 U.S.C. 46301(a)(1));

(b) With respect to small businesses and individuals, notwithstanding the general $1,100 civil penalty, the following civil penalty limits apply:

(1) A maximum civil penalty of $10,000 applies for violations of most provisions of Chapter 401, including the anti-discrimination provisions of sections 40127 (general provision), and 41705 (discrimination against the disabled) and rules and orders issued thereunder (see 49 U.S.C. 46301(a)(5)(A));

(2) A maximum civil penalty of $5,000 applies for violations of section 41719 and rules and orders issued thereunder (see 49 U.S.C. 46301(a)(5)(C)); and

(3) A maximum civil penalty of $2,500 applies for violations of section 41712 or consumer protection rules or orders (see 49 U.S.C. 46301(a)(5)(D)).

Staff action means the exercise of a function under Subparts I, II and IV of Subtitle VII of Title 49 of the United States Code (Transportation) by a staff member pursuant to assignment under this part.

Staff members means officers and employees of the Department who are assigned authority under this part.

Statute means Subtitle VII of Title 49 of the United States Code (Transportation).

§ 385.2 Applicability.

This part describes the organization of the Department insofar as, pursuant to authority conferred on it by section 40113 of the Statute, the Department has adopted rules herein or elsewhere which make continuing assignments of authority with respect to any of its functions of making orders or other determinations, many of which are not required to be made on an evidentiary record upon notice and hearing or which are not the subject of contest, and Department personnel have been assigned to perform such functions.
§ 385.3 Scope of staff action.

Applications for relief which, pursuant to this part, may be granted by staff members under assigned authority, and proceedings on such requests shall be governed by applicable rules in the same manner as if no assignment had been made (see §385.5). In such proceedings, each staff member may determine any procedural matters which may arise, including, inter alia, service of documents on additional persons; filing of otherwise unauthorized documents; waivers of procedural requirements; requests for hearing; requests for additional information; dismissal of applications upon the applicant’s request, most applications, or incomplete or otherwise defective applications; and extensions of time. Such determinations, except those which would terminate the matter, shall be subject to review only in connection with review of the staff member’s decision on the merits. The dismissal of incomplete or otherwise defective applications under authority set forth in this part shall be without prejudice except where under otherwise applicable law the time for making application has run out or where the defect is not corrected within a reasonable time fixed by the staff member. Under the authority assigned to the staff as set forth in this part to approve, disapprove, grant, or deny, relief may be granted or denied in part and grants may be made subject to lawful and reasonable conditions. Moreover, where applicable, the authority to grant relief also includes authority to renew or extend an existing authorization.

§ 385.4 Form of staff action.

Unless otherwise specified, staff action shall be by order or informal writing (letters, telegrams, decision marked on copy of application form, etc.). Such orders or informal writings shall contain a recital that action is taken pursuant to authority assigned herein, shall, in cases where there are “parties or interveners,” or where there may be an adverse effect upon a person with a substantial interest, contain a brief reference to the right of aggrieved parties to petition the Reviewing Official for review pursuant to applicable procedural rules, including a statement of the time within which petitions must be filed (§385.51); shall state whether the filing of a petition shall preclude the action from becoming effective; and shall be in the name of the person exercising the assigned function. They shall contain all findings, determinations and conclusions which would be required or appropriate if they were issued by the Secretary. Upon request, the appropriate Department Official shall attest as Departmental action orders or informal writings issued pursuant to this part which have become the action of the Department (§385.52).

§ 385.5 Procedures prescribed in other regulations.

Procedures set forth in this part do not supersede procedures applicable to matters on which decision has been assigned unless otherwise specifically provided herein: Provided, however, That any provisions in other regulations which provide for reconsideration of nonhearing determinations are not applicable to decisions made under authority assigned herein or to decisions made upon review thereof by the Reviewing Official.
§ 385.6 Referral to the Reviewing Official.

When the staff member finds that the public interest so requires, or that, with respect to other than matters requiring immediate action as hereafter specified, there will be insufficient time for discretionary review of his or her decision upon petition, the staff member shall, in lieu of exercising the authority, submit the matter to the Reviewing Official for decision. In any case in which the staff member finds that immediate action is required with respect to any matter assigned herein, the disposition of which is governed by prior precedent and policy, the staff member may take appropriate action and specify that the filing of a petition for review shall not preclude such action from becoming effective.

§ 385.7 Exercise of authority by superiors.

Any assignment of authority to a staff member other than the Chief Administrative Law Judge, the Administrative Law Judge, and the Deputy General Counsel, shall also be deemed to be made, severally, to each such staff member's respective superiors. In accordance with the Department's principle of management responsibility, the superior may choose to exercise the assigned power personally. Moreover, the Secretary may at any time exercise any authority assigned herein.

§ 385.8 Exercise of authority in “acting” capacity.

Unless the assignment provides otherwise, staff members serving in an “acting” capacity may exercise the authority assigned to the staff members for whom they are acting.

Such answers shall comply with the form and filing requirements applicable to petitions and shall be served on the applicant and any other person who has theretofore served a document in the matter on such respondent.

§ 385.32 Effective date of staff action.

Unless, within the time provided by or pursuant to this regulation, a petition for review is duly filed, the Department gives notice that it will review on its own motion, staff action shall, without further proceedings, be effective and become the action of the Department upon the expiration of such period. A timely petition for review filed in accordance with the provisions of this section, or notice given by the Department of review on its own motion, shall stay the staff action pending disposition by the Department, unless the Department determines otherwise or unless the staff action provides otherwise in accordance with subpart A of this part. However, in cases where the Department’s regulations provide that permissions or approvals are granted, or that other legal effects result, within a stated period from the filing with the Department of a prescribed document, unless the Department gives notice to the contrary or takes other action within said period, such notice given or action taken by a staff member under delegated authority shall toll the running of such period. A timely petition for review of staff action which is not stayed by its filing which is received after or not acted upon before the effective date of the action shall be entertained and disposed of on its merits as a petition for reconsideration.

§ 385.33 Review by the staff.

Where a petition for review is duly filed, the staff member may, upon consideration of all documents properly filed, reverse his or her decision. Except in the case of Administrative Law Judges, action taken by a staff member other than an office head or Assistant General Counsel may be reversed by the respective office head or Assistant General Counsel who is in the supervisory chain of command with respect to the staff member who took the initial action. If the initial action is reversed, the petition for review will not be submitted to the Reviewing Official. Staff action reversing the initial action shall be subject to petition for Department review as any other staff action.

§ 385.34 Decision by the Reviewing Official.

(a) Decline of right to review. If the Reviewing Official declines the right to exercise discretionary review, the staff action stayed by the petition for review shall become effective on the second business day following the date of service of the order, unless the order provides otherwise.

(b) Exercise of right to review. The Reviewing Official will exercise his or her discretionary right of review either upon petition or on his or her own motion. The Reviewing official may, by order provide for interlocutory relief pending his or her decision on the merits and may limit the issues on review. The Reviewing Official may affirm, modify or set aside the staff action; may order the matter remanded, or may order further submittals or other proceedings before making a decision on the merits. In case the Reviewing Official affirms the staff action, staff action stayed by the petition for review shall become effective on the second
business day following the date of service of the Reviewing Official’s order, unless the order provides otherwise. Decisions by the Reviewing Official under this part are final and are not subject to petitions for reconsideration.

PART 389—FEES AND CHARGES FOR SPECIAL SERVICES

Subpart A—General Provisions

Sec. 389.1 Policy and scope.

Pursuant to the provisions of Title V of the Independent Offices Appropriation Act of 1952 (5 U.S.C. 140) as implemented by Bureau of Budget Circular A–25, dated September 23, 1959, the Board sets forth in this regulation the special services made available by the Board and prescribes the fees to be paid for these and various other services.

Subpart B—Fees for Special Services

§ 389.10 Applicability of subpart.

This subpart describes certain special services made available by the Board and prescribes the fees and charges for these services.

§ 389.11 Services available.

Upon request and payment of fees as provided in subsequent sections, there are available, with respect to documents subject to inspection, services as follows:

(a) Locating and copying records and documents.
(b) Certification of copies of documents under seal of the Board.
(c) Subscriptions to publications of the Board.
(d) Transcripts of hearings.

§ 389.12 Payment of fees and charges.

The fees charged for special services may be paid by check, draft, or postal money order, payable to the Civil Aeronautics Board, except for charges for reporting services which are performed under competitive bid contracts with non-Government firms. Fees for reporting are payable to the firms providing the services.

§ 389.13 Fees for services.

Except for photocopy work, the basic fees set forth below provide for documents to be mailed with ordinary first class postage prepaid. If copy is to be transmitted by registered, certified, air, or special delivery mail, postal fees therefor will be added to the basic fee. Also, if special handling or packaging is required, costs therefor will be added to the basic fee. For photocopy work, postage will be in addition to the fee for copying.

§ 389.14 Locating and copying records and documents.

Public records and documents on file with the Civil Aeronautics Board will
be located and copied upon request and payment of fees as set forth below:

(a) There shall be no charge in connection with searches for records or documents under this chapter.

(b) Photocopies of records or documents shall be made using the Board’s facilities or by contractors.

(1) The fee for photocopying will be 15 cents per page.

(2) The fee for copying by contractors will be that established in the contracts with the Board and will be billed directly by those contractors.

(c) Copies of board data on magnetic tapes, or extractions of data from Board data tapes, will be made by the National Archives and Records Service (NARS) of the General Services Administration or by computer service bureaus.

(1) The Director, Bureau of Accounts and Statistics, furnishes many public records and documents contained on magnetic tape to NARS. Initial requests for data should be made directly to the Machine Readable Archives Division, National Archives and Records Services, General Services Administration, Washington, D.C. 20408, with the applicant directly reimbursing NARS for its copying or data extraction charges. When NARS does not have the requested data, the Director, Bureau of Accounts and Statistics, upon written request, will furnish the tapes for a reasonable length of time to a computer service bureau chosen by the applicant subject to the Director’s approval. The computer service bureau shall assume the liability for the cost of replacing any tape that may be damaged or destroyed by it.

(2) The fee for data copying by NARS will be determined by NARS.

(3) The fee for data copying by a computer service bureau shall be established by agreement between the requesting party and the computer service bureau.

(d) Where the Board’s fee for service requested will exceed $100, the service will not be performed until payment has been received. In such cases, the requester will be notified promptly of the amount of the fee, and the requested service will be performed as expeditiously as practicable following receipt of payment.

(e) Applications for waivers or modifications of any fees required to be paid to the Board under this section may be filed in accordance with the following:

(1) Each applicant shall set forth briefly and succinctly the relief that it seeks and the reasons why such relief should be granted. Waivers or modifications of stated fees shall be granted only where it is demonstrated that such action is in the public interest because furnishing of the information requested can be considered as primarily benefiting the general public.

(2) Applications requesting waivers or modifications of fees under this section shall be addressed to the Managing Director, who has been delegated authority by the Board to decide such applications in §385.12 of this chapter, and shall accompany the request for service under this section.

(3) The Managing Director shall either rule on the application or, at his discretion, pass the matter on to the Board for its determination. In acting upon such applications the Managing Director and the Board, where applicable, shall be guided by the procedures and requirements of §310.9(d) of this chapter.

(4) A decision by either the Managing Director or the Board pursuant to paragraph (d)(3) of this section is final and will not be subject to petitions for reconsideration.

§ 389.15 Certification of copies of documents.

The Secretary of the Board will provide, on request, certifications or validation (with the Civil Aeronautics Board seal) of documents filed with or issued by the Board. Copies of tariffs filed with the Board will be certified only when such copies have been made under the Board’s supervision upon request of the applicant. Charges for this service are as follows:

(a) Certification of the Secretary, $2. This fee includes clerical services involved in checking the authenticity of records to be certified. If copying of the documents to be certified is required, the copying charges provided for in §389.14 will be in addition to the charges specified in this section.
§ 389.16 Board publications.
(a) Charges for publications. Charges have been established by the Superintendent of Documents for subscriptions to certain Board publications. A list of these publications together with information on how they can be ordered is contained in the “List of Publications”, which is available on request from the Board’s Publications Services Division, B–22, Washington, D.C., 20428.
(b) Free services. No charge will be made by the Board for notices, decisions, orders, etc., required by law to be served on a party to any proceeding or matter before the Board. No charge will be made for single copies of Board publications individually requested in person or by mail, except where a charge is specifically fixed for a publication at the time of its issuance.
(c) Reciprocal services. Arrangements may be made with the Board’s Bureau of International Aviation for furnishing publications to a foreign country or to an international organization on a reciprocal basis.
[OR–178, 46 FR 8445, Jan. 27, 1981]
§ 389.17 Transcripts of proceedings.
Transcripts of testimony and oral argument are furnished to the Board by a non-Government contractor for any proceeding in which the presiding officer has determined that such transcript should be made, and copies thereof may be purchased directly from the reporting firm, at prices and upon other terms and conditions specified in the contract made between the Board and the reporting firm, and currently in effect, pursuant to section 11 of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770, 5 U.S.C. App. I). Any person may obtain from the Director, Office of Facilities and Operations, the name and address of the reporting firm with which the Board currently has such contract, as well as the contract prices then in effect for the various types of transcript and copying services covered by such contract.
[OR–84, 39 FR 22417, June 24, 1974]
§ 389.22 Failure to make proper payment.

(a) (1) Except as provided in §389.23, documents (except tariff publications) which are not accompanied by filing fees shall be returned to the filing party, and such documents shall not be considered as filed by the Board.

(2) Except as provided in §389.23, records which are not accompanied by the appropriate filing fees shall be retained and considered filed with the Department. The Department will notify the filer concerning the non-payment or underpayment of the filing fees, and will also notify the filer that the records will not be processed until the fees are paid.

(b) The filing fee tendered by a filing party shall be accepted by the Board office to whom payment is made, subject to post audit by the Chief of the Board’s Finance Division and notification to the filing party within 30 days of any additional amount due. Not more than 5 days after receipt of the notification, the determination of the Chief, Finance Division, may be appealed to the Managing Director of the Board, who has been delegated authority by the Board to decide such appeals in §385.12 of this chapter. The filing party may submit to the Board a petition for review of the Managing Director’s decision pursuant to §385.50 of this chapter, and proceedings thereon will be governed by part 385, subpart C, of this chapter.

(c) The amount found due by the Chief, Finance Division, shall be paid within 10 days of notification except that (1) if that decision is appealed to the Managing Director, the amount due shall be paid within 10 days after the Managing Director notifies the filing party that he has affirmed or modified the decision of the Chief, Finance Division; and (2) if the decision of the Managing Director is appealed to the Board, the amount due shall be paid within 10 days after the Board notifies the filing party that it has affirmed or modified the staff decision. If the amount due is not paid, the document (except a tariff publication) shall be returned to the filing party along with the fee tendered, and such document shall be deemed to have been dismissed or withdrawn.

§ 389.23 Application for waiver or modification of fees.

(a) Applications may be filed asking for waiver or modification of any fee paid under this subpart. Each applicant shall set forth the reasons why a waiver or modification should be granted, and by what legal authority.

(b) Applications asking for a waiver or modification of fees shall be sent to the Managing Director of the Board, and shall accompany the document filed. Applicants may appeal the decision of the Managing Director to the Board under §385.50 of this chapter. When no petition for review is filed with the Board, or when the Board reviews the Managing Director’s decision, if the amount found due is not paid within 10 days after receipt of notification of the final determination, the document shall be returned to the filing party.

§ 389.24 Foreign air carriers.

A foreign air carrier, or such carriers, if from the same country, acting jointly, may apply for a waiver of the requirements of this part based on reciprocity for U.S. air carriers contained in the requirement of their home governments, or as provided in a treaty or agreement with the United States. To apply for a waiver under this section, foreign air carriers shall send waiver requests to the Director, Bureau of International Aviation. The request should include applicable official government rules, decisions, statements of policy, or comparable evidence concerning filing fees for U.S. air carriers, or for all carriers serving that country. Once a waiver has been granted for a

*(b) Electronic Tariff Filing Fees. The filing fee for one (1) or more tariff pages filed by U.S. air carriers will be charged even if the tariff includes matters involving participating foreign air carriers. It will also be charged if the tariff is issued by a foreign air carrier and includes matters involving participating U.S. air carriers, unless the foreign air carrier has obtained a waiver under §389.24. The fee will not be charged for a blank looseleaf page unless it cancels matters in the preceding issue of the page.

Provided: That no fee shall be assessed for those records submitted to the Department pursuant to §221.500(b)(1) of this subpart.

§ 389.26 Special rules for tariff page filings.

(a) Tariffs issued by carriers. The filing fee for tariff pages filed by U.S. air carriers will be charged even if the tariff includes matters involving participating foreign air carriers. It will also be charged if the tariff is issued by a foreign air carrier and includes matters involving participating U.S. air carriers, unless the foreign air carrier has obtained a waiver under §389.24. The fee will not be charged for a blank looseleaf page unless it cancels matters in the preceding issue of the page.

(b) Tariffs issued by publishing agents.

(1) If the tariff is issued for one or more air carriers exclusively, the fee will be charged for each page.

(2) If the tariff is issued for one or more air carriers and one or more foreign air carriers, the fee will be charged for each page, except for those pages that the issuing agent states contain only:

(i) Matters pertaining exclusively to foreign air carriers that have been granted a waiver, or

(ii) Changes in matters pertaining to foreign air carriers that have been granted a waiver and that are included
§ 389.27 Refund of fee.

(a) Any fee charged under this part may be refunded in full or in part upon request if the document for which it is charged is withdrawn before final action is taken. Such requests shall be filed in accordance with §389.23.

(b) Any person may file an application for refund of a fee paid since April 28, 1977, on the grounds that such fee exceeded the Board's cost in providing the service. The application shall be filed with the Board’s Comptroller and shall contain: the amount paid, the date paid, and the category of service.

SOURCE: Docket No. OST–95–397, 60 FR 43529, Aug. 22, 1995, unless otherwise noted.

§ 398.1 Purpose.

The purpose of this part is to establish general guidelines for the determination of basic essential air service for each eligible place under 49 U.S.C. 41731 and 41732. Procedures for the determination of the essential air service level for a place are contained in part 325 of this chapter.

§ 398.2 Number and designation of hubs.

(a) What is a hub? The Department considers hubs as belonging to any one of three classifications:

(1) A large hub is a place accounting for at least 1.00 percent of the total enplanements in the United States;

(2) A medium hub is a place accounting for at least 0.25 percent but less than 1.00 percent of the total enplanements in the United States; and

(3) A small hub is a place accounting for at least 0.05 percent but less than 0.25 percent of the total enplanements in the United States.

(b) How many hubs? (1) As a general matter, the Department will require service to one large or medium hub.

(2) In Alaska or when the nearest large or medium hub is more than 400 miles from the eligible place, the Department may instead require service to a small hub or nonhub.

(3) In some cases, the Department may require service to two hubs, of which at least one will be a large or medium hub. The Department will require service to two hubs if an eligible place has close commercial, geographic, and political ties to both hubs and if there is sufficient traffic from the eligible place to support two round trips a day to both hubs. If traffic is not sufficient, the Department may require one round trip a day to both hubs if the community requests such service.

(4) In no event will essential air service consist of service to more than two hubs.

(c) Which hub? (1) In designating hubs, the Department will weigh all of the following factors:

(i) The extent to which candidate hubs provide access to the national air transportation system;

(ii) The commercial, geographic, and political ties of candidate hubs to the eligible place;

(iii) The traffic levels to candidate hubs, as shown by traffic studies and origin and designation data;

(iv) The distance of candidate hubs from the eligible place; and

(v) The size of candidate hubs. Large size will be a positive factor, but principally as substantiating the access and community-ties factors.

(2) For Alaska, rather than requiring service to a hub, the Department may instead require that service from an eligible place be provided to a nearby focal point for traffic which, in turn, has service to a hub.

§ 398.3 Specific airports.

(a) At an eligible place, essential air service may be specified as service to a particular airport. In the case of hyphenated places, essential air service will be specified as service to more than one airport only if clearly necessary and if the multi-airport service is economically feasible and justified on the basis of traffic levels at those airports.
Office of the Secretary, DOT § 398.6

(b) At a hub, essential air service is not usually specified as service to a particular airport.

§ 398.4 Equipment.

(a) Except in Alaska, service will be provided by aircraft offering at least 15 passenger seats, unless:

(1) Average daily enplanements at the place did not exceed 11 passengers for any fiscal year from 1976 through 1986;

(2) The requirement would necessitate the payment of compensation in a fiscal year for service at the place when compensation would otherwise not be necessary; or

(3) The affected community agrees in writing to the use of smaller aircraft to provide service at the place.

(b) The aircraft must have at least two engines and use two pilots, unless scheduled air transportation has not been provided to the place in aircraft with at least two engines and using two pilots for at least 60 consecutive operating days at any time since October 31, 1978.

(c) The aircraft must be pressurized when the service regularly involves flights above 8,000 feet in altitude.

(d) All aircraft must meet the applicable safety standards of the Federal Aviation Administration.

(e) The aircraft must be conveniently accessible to passengers by stairs rather than over the wing.

§ 398.5 Frequency of flights.

(a) Except in Alaska, at least two round trips each weekday and two round trips each weekend.

(b) In Alaska, a level of service at least equal to that provided in 1976, or two round trips each week, whichever is greater, except that the Department and the appropriate State authority of Alaska may agree to a different level of service after consulting with the affected community.

(c) An essential air service level may be set at more than that stated in paragraphs (a) and (b) of this section if:

(1) Historical traffic data and studies of traffic-generating potential for the place indicate that more frequent service is needed to accommodate passengers and accompanying baggage with the aircraft used at that place;

(2) More flights are needed because the capacity available to the eligible place is being shared with traffic destined for an intermediate stop or for a place beyond the eligible place;

(3) More flights are needed to accommodate passengers because smaller aircraft are being used at the place;

(4) More flights are needed in order to ensure adequate connecting opportunities as provided for by § 398.7; or

(5) For Alaska, the appropriate state agency agrees that more frequent service is needed to accommodate cargo traffic with the aircraft used at the eligible place.

(d) For eligible places where traffic levels vary substantially with the season, a two-tier level of essential air service may be established with required flight frequencies changing accordingly.

§ 398.6 Seat guarantees.

(a) The number of seats guaranteed at the eligible place will be sufficient to accommodate the estimated passenger traffic at an average load factor of 60 percent, except that an average load factor of 50 percent will be used when service is provided with aircraft having fewer than 15 passenger seats.

(b) Only under unusual circumstances will an eligible place’s essential air service level be set at a number of flights that will accommodate more than 40 passengers a day in each direction (a total of 80 inbound and outbound passengers). Generally, 40 passengers can be accommodated by guaranteeing 67 seats a day in each direction (a total of 134 inbound and outbound seats).

(c) The Department may guarantee an eligible place more than 67 seats a day if:

(1) The number of stops between or beyond the eligible place and the hub results in available aircraft capacity being shared with passengers at those other places;

(2) The distance between the eligible place and the designated hub requires the use of large aircraft;

(3) The eligible place has suffered an abrupt and significant reduction in its service that warrants a temporary increase in the maximum guaranteed capacity; or
§ 398.7 Timing of flights.

To qualify as essential air service, flights must depart at reasonable times, considering the needs of passengers with connecting flights at the hub. It is the policy of the Department to consider the reasonableness of the time in view of the purpose for which the local passengers are traveling. If travel is primarily to connect with other flights at the hub, local flight times should be designed to link with those flights. If travel is primarily local (i.e., to and from the hub), there should be at least one morning flight in each direction and one late-afternoon or evening flight in each direction.

§ 398.8 Number of intermediate stops.

(a) Except in Alaska, no more than one intermediate stop is permitted in providing essential air service between the eligible place and its hub, unless otherwise agreed to with the community. In cases where an eligible place receives service to two hubs, however, more than one intermediate stop is permitted between that place and its secondary hub.

(b) In Alaska, more than one intermediate stop is permitted if required by low traffic levels at the eligible place or by the long distance between the eligible place and its hub.

(c) The Department may specify nonstop service when necessary to make the service viable.

(d) Where an eligible place normally is an intermediate stop that shares available capacity with another place, it is the policy of the Department either to require additional capacity (more flights or larger aircraft) between the eligible place and its hub or to specify some turnaround operations on that route segment.

§ 398.9 Load factor standards.

The load factor standards used in this part may be raised for individual eligible places under either of the following circumstances:

(a) The place is served by the carrier as part of a linear route; or

(b) It would be in the interest of the community, the carrier, or the general public to raise the load factor standard for that place.

§ 398.10 Overflights.

The Department considers it a violation of 49 U.S.C. 41732 and the air service guarantees provided under this part for an air carrier providing essential air service to an eligible place to overfly that place, except under one or more of the following circumstances:

(a) The carrier is not compensated for serving that place and another carrier is providing by its flights the service required by the Department’s essential air service determination for that place;

(b) Circumstances beyond the carrier’s control prevent it from landing at the eligible place;

(c) The flight involved is not in a market where the Department has determined air service to be essential;

(d) The eligible place is a place in Alaska for which the Department’s essential air service determination permits the overflight.

§ 398.11 Funding reductions.

(a) If, in any fiscal year, appropriations for payments to air carriers remain at or below the amounts estimated as necessary to maintain subsidy-supported essential air service at the places receiving such service, and Congress provides no statutory direction to the contrary, appropriations shall not be available for essential air service to otherwise eligible places within the 48 contiguous States and Puerto Rico that have a rate of subsidy per passenger in excess of $200.00, or are located:

(1) Less than 70 highway miles from the nearest large or medium hub airport;

(2) Less than 55 miles from the nearest small hub airport; or

(3) Less than 45 highway miles from the nearest nonhub airport that has enplaned, on certificated or commuter carriers, 100 or more passengers per day in the most recent year for which the Department has obtained complete data.
Office of the Secretary, DOT

(b) The rate of subsidy per passenger shall be calculated by dividing the annual subsidy in effect as of July 1 of the prior fiscal year by the total origin-and-destination traffic during the most recent year for which the Department has obtained complete data.

Subpart D [Reserved]
§ 399.1 Applicability.

All statements of general policy adopted by the Board for the guidance of the public will be published in this part, except as provided in § 399.2.

§ 399.2 Exclusions.

The following types of policies are generally not included in this part:
(a) Policies relating solely to the internal management of the Board;
(b) Policies requiring secrecy in the public interest or in the interest of national defense;
(c) Policies that are repetitive of section 102 of the Act;
(d) Policies that are fully expressed in a procedural or substantive rule of the Board, or in any opinion, decision, order, certificate, permit, exemption, or waiver of the Board;
(e) Expressions of encouragement or admonition to industry to follow a certain course of action;
(f) Positions on legislative items and on other matters that are outside the scope of the Board’s current statutory powers and duties.

§ 399.3 Statements in other Board documents.

No statement contained in any Board opinion, decision, order, certificate, permit, exemption, or waiver shall be considered a statement of policy within the meaning of this part, even though such statements may constitute a precedent in future cases or declare future policy to be followed in like cases. Similarly, a denial by the Board or relief sought, or statements of the Board’s reasons for failure to issue a rule upon which rulemaking proceedings have been commenced shall not be considered statements of policy, except to the extent that it is specifically stated that such denial or failure is based upon a policy thereafter to be followed.

§ 399.4 Nature and effect of policy statements.

Policy statements published in this part will be observed by the Board until rescinded, but any policy may be amended from time to time as experience or changing conditions may require. Changes in policy may be made with or without advance notice to the public and will become effective upon publication in the Federal Register unless otherwise provided. If it appears to the Board, in its consideration of any matter before it, that the application of a policy published in this part would run counter to an express provision of law or policy enunciated by Congress in the Act, the published policy shall not be applicable to such matter.

§ 399.5 Arrangement of policy statements.

The statements of general policy relating to the various duties and functions of the Board are grouped according to subject matter in the following subparts; the titles of the subparts indicate the general subject matter included therein.

Subpart B—Policies Relating to Operating Authority
§§ 399.10–399.11 [Reserved]

§ 399.12 Negotiation by air carriers for landing rights in foreign countries.

(a) It is the policy of the Board (jointly with the Department of State) that, as a general rule, landing rights abroad for United States flag air carriers will be acquired through negotiation by the U.S. Government with foreign governments rather than by direct negotiation between an air carrier and a foreign government.

(b) It is corollary to the foregoing policy that no United States air carrier may avail itself of representations by one foreign government to further its interest with another foreign government, especially with respect to landing rights, except insofar as such representations have been specifically authorized by the U.S. Government.
§ 399.18 Maximum duration of fixed-term route authorization granted by exemption; renewal of such authority.

It is the policy of the Board to limit the duration of exemptions which authorize fixed-term route service to a maximum period of two years, and to entertain requests for renewal of such authority only when incorporated in a duly filed application for substantially equivalent certificate authority under section 401 of the Act. (See §377.10(c) of this chapter (Special Regulations).)

[PS–21, 29 FR 1446, Jan. 29, 1964, as amended at 65 FR 6457, Feb. 9, 2000]

§ 399.19 [Reserved]

§ 399.21 Charter exemptions (except military).

In deciding applications for exemptions from section 41102 of Title 49 of the United States Code by air carriers seeking to perform charter service in air transportation, we will give primary weight to the chartering public’s own assessment of the air carrier services that best meet its transportation needs. Therefore, we will not, as a general rule, consider as relevant to our decision on such applications, objections based upon (1) offers by the objectors to perform the charter service, and/or (2) estimates of revenue or traffic diversion, unless in the latter case the objectors demonstrate that the diversion resulting from grant of the exemption would threaten their ability to fulfill their certificate obligations.

[PS–78, 43 FR 31886, July 24, 1978, as amended at 60 FR 43531, Aug. 22, 1995]

Subpart C—Policies Relating to Rates and Tariffs

§ 399.30 Definitions.

As used in this subpart:

DPFI formula fare means the trunk coach formula fare on July 1, 1977, as established by the Board in Phase 9 of the Domestic Passenger Fares Investigation (Docket 21868–9).

SIFL means the standard industry fare level, as set forth in §399.31.

[PS–92, 45 FR 24118, Apr. 9, 1980]
§ 399.32 Zone of limited suspension for domestic passenger fares.

(a) Applicability. This section sets forth the Board’s policy on passenger fares for scheduled service by certificated air carriers in the following areas, except to the extent that greater flexibility is set forth in §399.33:

(1) Within the 48 contiguous States and the District of Columbia (“the Mainland”); and

(2) Between the Mainland and Puerto Rico, the Virgin Islands, Hawaii, or Alaska.

(b) Downward flexibility. Each carrier may set fares in each market at any amount below the SIFL. The Board will not suspend such a fare on the ground that its level is unreasonable, except in the following extraordinary circumstances:

(1) There is a high probability that the fare would be found to be unlawful after investigation;

(2) There is a substantial likelihood that the fare is predatory so that there would be an immediate and irreparable harm to competition if the fare were allowed to go into effect;

(3) The harm to competition is greater than the injury to the traveling public if the proposed fare were unavailable; and

(4) The suspension is in the public interest.

(c) [Reserved]

(d) Upward flexibility. Each carrier may set fares above the SIFL in accordance with §399.33:

(1) For service on the Mainland: Up to 30 percent above the sum of the SIFL plus $14. Each time after January 13, 1981, that the Board adjusts the SIFL for cost increases in accordance with §399.31(c), it will adjust the $14 figure by the same percentage rounded to the nearest whole dollar. The Board order announcing the adjustment will be published in the Federal Register and served on all certificated carriers, and copies will be available through the Domestic Fares and Rates Division, Bureau of Domestic Aviation, Civil Aeronautics Board, Washington, D.C. 20428.

(2) For service between the Mainland and Puerto Rico, the Virgin Islands, Hawaii, or Alaska: Up to 30 percent above the SIFL.

(e) Fares above the zone. Tariff filings that state fares above the applicable zone must include the data and information set forth in §221.165 of this chapter. For peak fares, this must include a description of the carrier’s off-peak fares that are available in the market. The Board will suspend a fare above the zone that it finds not to be justified by cost or competitive factors.

§ 399.33 Additional fare flexibility.

For scheduled service in the areas set forth in §399.32(a), certificated air carriers have the following fare flexibility in addition to that set forth in §399.32:

(a) First class. Carriers may without restriction set the level of first class fares.

(b) Small aircraft. Carriers may without restriction set the level of fares for service with aircraft designed to have a maximum passenger capacity of 60 or fewer seats.

(c) Through service and on-line connecting service. For through service and on-line connecting service, carriers may set their fares up to the sum of the local fares minus one tax-rounded coach ceiling terminal charge for each local fare after the first, if that level is higher than the ceiling set forth in §399.32(d). The Board will not suspend such a fare on the ground that its level is unreasonable except upon a clear showing of abuse of market power that the Board does not expect to be corrected through marketplace forces.

§ 399.331 Fares above line. Tariff filings that state fares above the applicable zone must include the data and information set forth in §221.165 of this chapter. For peak fares, this must include a description of the carrier’s off-peak fares that are available in the market. The Board will suspend a fare above the zone that it finds not to be justified by cost or competitive factors.

§ 399.332 Special rules applicable to certain services.

For service in the areas set forth in §399.32(a), certificated air carriers have the following fare flexibility in addition to that set forth in §399.32:

(a) First class. Carriers may without restriction set the level of service as follows:

(b) Small aircraft. Carriers may without restriction set the level of fares for service with aircraft designed to have a maximum passenger capacity of 60 or fewer seats.

(c) Through service and on-line connecting service. For through service and on-line connecting service, carriers may set their fares up to the sum of the local fares minus one tax-rounded coach ceiling terminal charge for each local fare after the first, if that level is higher than the ceiling set forth in §399.32(d). The Board will not suspend such a fare on the ground that its level is unreasonable except upon a clear showing of abuse of market power that the Board does not expect to be corrected through marketplace forces.

§ 399.333 Additional fare flexibility.

For scheduled service in the areas set forth in §399.32(a), certificated air carriers have the following fare flexibility in addition to that set forth in §399.32:

(a) First class. Carriers may without restriction set the level of first class fares.

(b) Small aircraft. Carriers may without restriction set the level of fares for service with aircraft designed to have a maximum passenger capacity of 60 or fewer seats.

(c) Through service and on-line connecting service. For through service and on-line connecting service, carriers may set their fares up to the sum of the local fares minus one tax-rounded coach ceiling terminal charge for each local fare after the first, if that level is higher than the ceiling set forth in §399.32(d). The Board will not suspend such a fare on the ground that its level is unreasonable except upon a clear showing of abuse of market power that the Board does not expect to be corrected through marketplace forces.
§ 399.34 Intra-Hawaii and Intra-Puerto Rico/Virgin Islands fare flexibility.

For scheduled service within Hawaii, and within and between Puerto Rico and the Virgin Islands, certificated air carriers have the fare flexibility set forth in §§ 399.32 and 399.33, except that:

(a) Instead of the limits set forth in §399.32(d), the upper limit of the zone for Puerto Rico/Virgin Islands is 30 percent above the SIFL, and for Hawaii is 30 percent above the SHFL; and

(b) The fare flexibility set forth in §399.33(a) (first class) does not apply to service within Hawaii.

2 Domestic Tariffs.
4 AS=Alaska Airlines; NW=Northwest Orient Airlines; WA=Western Airlines; WC=Wien Air Alaska.
§ 399.35 Special tariff permission.

(a) Definition. As used in this section, to grant STP means to approve a carrier's application for Special Tariff Permission to file a tariff on less than the statutory notice set forth in § 221.160(a) of this chapter.

(b) Lower fares, rates, and charges. It is the policy of the Board to grant STP for tariffs that state lower fares, rates, or charges and any rules affecting only those lower fares, rates, or charges, except that:

(1) The Board will not grant STP to match a tariff filed on statutory notice; and

(2) The Board will not grant STP if the proposed fares, rates, charges, or rules raise significant questions of lawfulness, that is, could reasonably be expected to be found unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or predatory, under current statutory or Board guidelines. In these situations, if the carrier files the tariff on statutory notice and at the same time applies for STP to advance the tariff's effective date, the Board will use its best efforts to act within 15 days to grant or deny STP.

(c) Higher fares or rates. For tariffs that state higher fares or rates, and any rules affecting only those fares or rates, the Board's policy on STP is, except in unusual or emergency circumstances:

(1) To grant STP if the resulting fares or rates are within a statutory or Board-established zone of fare or rate flexibility; and

(2) Otherwise, to deny STP.

§ 399.36 Unreasonable discrimination.

(a) As used in this section:

(1) Unreasonable discrimination means unjust discrimination or unreasonable preference or prejudice; and

(2) Rate means rate, fare, or charge.
Office of the Secretary, DOT § 399.41

(b) Except in unusual circumstances or as provided in paragraph (c) of this section, the Board will find a rate for domestic air transportation to constitute unreasonable discrimination only if:

(1) There is a reasonable probability that the rate will result in significant long-run economic injury to passengers or shippers;

(2) The rate is in fact discriminatory according to a reasonable cost allocation or other rational basis;

(3) The rate does not provide transportation or other statutorily recognized benefits that justify the discrimination; and

(4) Actual and potential competitive forces cannot reliably be expected to eliminate the undesirable effects of the discrimination within a reasonable period.

(c) A rate that discriminates on the basis of the status of the traffic carried will not be presumed to be unreasonably discriminatory, unless the use of the status categories in question is contrary to established national anti-discrimination policy.

§ 399.37 Joint fares.

There should be joint fares in all markets over all routings within the contiguous 48 states and the District of Columbia as follows:

(a) Level. The level shall not exceed the sum of the maximum local fares permitted by this subpart minus one tax-rounded coach ceiling terminal charge for each interline connection, and in any event shall not exceed the sum of the actual local fares.

(b) Division. Joint fares shall be divided according to the relative costs of the mileage flown by each carrier participating in the interline movement. However, where a joint fare is equal to the sum of the actual local fares, each carrier shall get the local fare as its share.

§ 399.39 Equipment purchase deposits.

Equipment purchase deposits are advance payments made by air carriers to manufacturers for the purchase of equipment to be delivered in the future, or funds segregated by air carriers for this purpose. It is the policy of the Board not to recognize equipment purchase deposits in an air carrier’s investment base for ratemaking purposes. When equipment is acquired by an air carrier and placed in air-transport service, the Board will recognize in the air carrier’s investment base interest on purchase deposits on such equipment capitalized and amortized in accordance with the Uniform System of Accounts and Reports for Certified Air Carriers (part 241 of this chapter).

§ 399.40 Tariffs for domestic air transportation on or after January 1, 1983.

The Board will not approve or accept any tariff filings for interstate or overseas air transportation to be performed on or after January 1, 1983. Any tariffs for such transportation that do not specify an earlier expiration date shall expire at midnight on December 31, 1982.

§ 399.41 Zones of limited suspension for international cargo rates.

(a) Applicability. This section states the Board’s policy for suspending rate changes for the transportation of property in foreign air transportation. It does not affect the Board’s authority to suspend any rate as unjustly discriminatory, unduly preferential, or unduly prejudicial. This section applies to rate changes by all direct air carriers and direct foreign air carriers.

(b) Standard foreign rate levels. For each market in foreign air transportation, the standard foreign rate level for the carriage of property shall be the bulk general commodity rates in effect in that market on April 1, 1982, as adjusted in accordance with paragraph (f) of this section. However, the general commodity rate for shipments larger than 500 kg. shall be deemed to be the same as the 500 kg. rate for the purposes of this paragraph, regardless of any different rate in effect in the market.
(c) **Ceilings of limited rate suspension.** Except as provided in paragraph (d) of this section, the Board will not suspend as unreasonable any proposed rate for foreign air transportation of property equal to or less than the following levels:

1. For all bulk rates (GCR’s and SCR’s) in the Atlantic region, 20 percent above the standard foreign rate level.
2. For all bulk rates (GCR’s and SCR’s) in the Pacific region, 15 percent above the standard foreign rate level.
3. For all bulk rates (GCR’s and SCR’s) in the Western Hemisphere region (except Mexico and Canada), 5 percent above the standard foreign rate level.
4. For all bulk rates (GCR’s and SCR’s) in Canada/Mexico transborder markets, 10 percent above the standard foreign rate level for the Western Hemisphere.
5. For all container rates, no maximum level.

(d) **Extraordinary circumstances.** The Board may suspend any tariff if it finds that:

1. The suspension is in the public interest because of unreasonable regulatory action by a foreign government with respect to rate proposals of an air carrier, or
2. All of the following extraordinary circumstances are present:
   1. It is highly probable that the fare would be found unreasonable after investigation;
   2. There is a substantial likelihood of immediate and irreparable harm to the public if the rate is allowed to go into effect; and
   3. The suspension is required by the public interest.

(e) **Burden of proof.** Persons requesting tariff suspension under paragraph (d) of this section shall have the burden of producing convincing evidence that the conditions of that paragraph are present.

(f) **Standard foreign rate level adjustments.** (1) The Board will periodically adjust the standard foreign rate levels to reflect the percentage change in average operating costs per available ton-mile since the previous adjustment.

2. Costs will be averaged for three regions—the Atlantic, the Pacific, and Western Hemisphere—and applied equally among all markets in each region.

3. Cost computations will be based on scheduled freighter and combination service by U.S. air carriers.

4. Adjustments will be made on April 1 and October 1 of each year, or more frequently as the Board finds appropriate.

5. In computing costs under this section, the Board will make no adjustments for load factors, aircraft utilization, or other matters due to operational decisions made solely by carrier management. However, the Board retains the discretion to normalize costs for strikes, mandatory aircraft groundings, and other occurrences not solely due to management decisions.

(g) **Definitions.** For the purpose of this section:

1. **GCR** means general commodity rate.
2. **SCR** means specific commodity rate.
3. **Container rate** means any rate specifically applicable to property tendered to the carrier in a unit load device.

### § 399.42 Flight equipment depreciation and residual values.

For rate-making purposes, for air carriers receiving subsidy under section 406 of the Act, it is the policy of the Board that flight equipment depreciation will be based on the conventional straight-line method of accrual, employing the service lives and residual values set forth below:

§ 399.43 Treatment of leased aircraft.

In determining the appropriate treatment of leased aircraft for ratemaking purposes, it is the Board’s policy to recognize actual rental expenses. In unusual circumstances where the leased aircraft value (determined on a constructive depreciated basis) in relation to net book value of owned aircraft operated by the same air carrier is significantly in excess of the ratio for the aggregate of the domestic trunklines and local service carriers (computed on the same basis), a reasonable profit element may be added which shall reflect the additional risks of operations with the leased aircraft, to the extent that such risks are not compensated by the return on investment. Such profit element would be determined by applying the standard rate of return, less 6 percentage points, to the value of the leased aircraft, on a constructive depreciated basis, to the extent the ratio of such value to depreciated cost of owned aircraft plus the value of leased aircraft exceeds the average for the domestic air carriers. Rental cost plus allowable profit, if any, will not be recognized in amounts exceeding depreciation plus return on investment computed as if the aircraft had been purchased by the carrier.

[PS–44, 36 FR 7229, Apr. 16, 1971]

§ 399.44 Treatment of deferred Federal income taxes for rate purposes.

For rate-making purposes other than the determination of subsidy under section 406(b), it is the policy of the Board that Federal income tax expense should be based on the normal taxes that would be paid under the depreciation standards used for rate making, and that accumulated reserves for deferred taxes should be excluded from the recognized capitalization for rate-base purposes.

5 Total transport-related expense, less any excess of expense over total transport-related revenues.

§ 399.60 Standards for determining priorities of hearing.

(a) General. This policy statement describes the general standards which will be used by the Board in determining the order in which it will designate for hearing those matters on its docket which are to be decided after notice and hearing. Among such matters are applications for certificates of public convenience and necessity or for foreign air carrier permits; applications under section 408 of the Act for approval of consolidations or acquisitions of control; complaint cases; and various rate-making proceedings.

(b) Standards. Matters will be assigned for hearing in accordance with the degree of relative priority which each matter is entitled to on the basis of the comparative public interest involved therein. Among other things, the Board will take into account:

(1) Statutory requirements for preference or statutory limitations on the time within which the Board shall act;
(2) The impact of delay on the public or particular persons;
(3) The need for promptly securing compliance with the provisions of the Act;
(4) The time for which the matter has already been pending and which would be required to dispose of it;
(5) Whether the application requests renewal of an existing temporary authorization; and
(6) In matters relating to operating authority:
   (i) Whether a proposal might reduce subsidy or increase economy of operations;
   (ii) Whether an application proposes new service;
   (iii) The volume of traffic that might be affected by the grant or denial of the proposal;
   (iv) The period that has elapsed since the Board considered the service needs of the places or areas involved; and
   (v) The relative availability of necessary staff members of the carriers, communities and the Board, in the light of other proceedings already in progress, to handle the processing of the case.

Interested persons may urge upon the Board such considerations as they believe should lead it to accord a particular application a priority different from that which the Board has given it.

§ 399.61 Presentations of public and civic bodies in route proceedings.

For the purpose of implementing the Board's policy to provide for the exclusion of irrelevant, immaterial, or unduly repetitious evidence and otherwise to expedite route proceedings, and in light of experience, the following guidelines are hereby established:

(a) Public and civic bodies which represent the same geographic area or community should consolidate their presentation of evidence, briefs or oral argument to the examiner and the Board;

(b) A public body or a civic organization, or several such bodies or organizations whose presentation of evidence is consolidated, should keep to a minimum the number of witnesses used to present the factual evidence in support of the community's position;

(c) Exhibits offered in evidence by a public body or civic organization should be limited to evidence of the economic characteristics of the community and area involved, data as to community of interest and traffic, evidence with respect to the sufficiency of existing service, and airport data, and should not include data relating to number of electricity, water and gas meters, telephones, schools, freight car loadings, building permits, sewer connections, or volume of bank deposits in the community.

§ 399.62 Target dates in hearing cases.

(a) Applicability. This section applies to initial and recommended decisions of administrative law judges, final decisions, and decisions on petitions for review or reconsideration in cases in which the Board has ordered a trial-type hearing before an administrative law judge.

(b) Issuance of target dates. In cases to which this section applies, the Board or the administrative law judge, as the situation calls for, shall issue a notice of the target date for the completion of
the initial or recommended decision, final decision, or decision on a petition for review or reconsideration. The Board or the administrative law judge shall endeavor to render the pending decision not later than the target date.

(c) Time for promulgating target dates. (1) In the case of initial, recommended, or final decisions, notice of target dates shall be issued, served, and filed within 20 days of the submission of closing briefs, or the conclusion of oral argument to the administrative law judge or the Board, as may be appropriate.

(2) In the case of petitions for review or for reconsideration, notices of target dates shall be issued, served, and filed within 20 days of the date for the filing of answers: Provided, That, in the case of petitions for reconsideration of Board decisions awarding new route authority, the Board shall, in lieu of issuing individual target dates, endeavor to render its decision no later than the day preceding the effective date of the new authority awarded.

§ 399.63 Role of staff in route proceedings.

(a) General. This policy statement establishes the standards applicable to staff participation in oral hearing cases involving award of route authority.

(b) Standards. The staff’s role during such hearings, primarily because it acts in the broad public interest, and not for a particular private or local interest, is to assure that essential evidence is introduced to resolve the public interest issues; that the evidence submitted by the parties is subject to adversary testing, and that decisional options are developed with the public interest in mind. In route cases designated by the Board that offer the opportunity for developing new policies, the staff shall make a prehearing presentation of the decisional options available, and describe the kinds of evidence needed or available to develop each option. The staff need not and should not be required to develop evidence on each option. In every case, after the close of the hearing, however, the staff shall advocate a position based upon one or more of the decisional options identified in its prehearing presentation or developed at trial.

(3) To the extent possible, the Board, in its instituting orders, will identify or designate the cases which involve the development of new policies or unusual evidentiary issues that will require the type of staff participation described in § 399.63(b)(1).

§ 399.70 Cross-references to the Office of the Secretary’s Rulemaking Procedures.

Subpart F—Policies Relating to Rulemaking Proceedings

The rules and policies relating to the disposition of rulemaking petitions by the Department of Transportation Office of the Secretary are located in its rulemaking procedures contained in 49 CFR part 5. The criteria for identifying significant rules and determining whether a regulatory analysis will be
performed are set forth in the Department’s Regulatory Policies and Procedures, 44 FR 11034, February 26, 1979, and Executive Order 12866.

§ 399.73 Definition of small business for Regulatory Flexibility Act.

For the purposes of the Department’s implementation of chapter 6 of title 5, United States Code (Regulatory Flexibility Act), a direct air carrier or foreign air carrier is a small business if it provides air transportation only with small aircraft as defined in §298.3 of this chapter (up to 60 seats/18,000 pound payload capacity).

[Doc. No. OST-96-1429, 61 FR 29019, June 7, 1996]

Subpart G—Policies Relating to Enforcement

§ 399.80 Unfair and deceptive practices of ticket agents.

It is the policy of the Board to regard any of the following enumerated practices (among others) by a ticket agent as an unfair or deceptive practice or unfair method of competition:

(a) Misrepresentations which may induce members of the public to believe that the ticket agent is an air carrier.

(b) Using or displaying or permitting or suffering to be used or displayed the name, trade name, slogan or any abbreviation thereof, of the ticket agent, in advertisements, on or in places of business, or on aircraft in connection with the name of an air carrier with whom it does business, in such manner that it may mislead or confuse the traveling public with respect to the agency status of the ticket agent.

(c) Misrepresentations as to the quality or kind of service, type or size of aircraft, time of departure or arrival, points served, route to be flown, stops to be made, or total trip-time from point of departure to destination.

(d) Misrepresentation as to qualifications of pilots or safety record or certification of pilots, aircraft or air carriers.

(e) Misrepresentations that passengers are directly insured when they are not so insured; for example, where the only insurance in force is that protecting the air carrier in event of liability.

(f) Misrepresentations as to fares and charges for air transportation or services in connection therewith.

(g) Misrepresentation that special discounts or reductions are available, when such discounts or reductions are not specific in the lawful tariffs of the air carrier which is to perform the transportation.

(h) Advertising or otherwise offering for sale or selling air transportation or services in connection therewith.

(i) Misrepresentations that special priorities for reservations are available when such special considerations are not in fact granted to members of the public generally.

(j) Selling air transportation to persons on a reservation or charter basis for specified space, flight, or time, or representing that such definite reservation or charter is or will be available or has been arranged, without a binding commitment with an air carrier for the furnishing of such definite reservation or charter as represented or sold.

(k) Selling or issuing tickets or other documents to passengers to be exchanged or used for air transportation knowing or having reason to know or believe that such tickets or other documents will not be or cannot be legally honored by air carriers for air transportation.

(l) Failing or refusing to make proper refunds promptly when service cannot
§ 399.81 Unrealistic or deceptive scheduling.

(a) It is the policy of the Board to consider unrealistic scheduling of flights by any air carrier providing scheduled passenger air transportation to be an unfair or deceptive practice and an unfair method of competition within the meaning of section 411 of the Act.

(b) With respect to the advertising of scheduled performance, it is the policy of the Board to regard as an unfair or deceptive practice or an unfair method of competition the use of any figures purporting to reflect schedule or on-time performance without indicating the basis of the calculation, the time period involved, and the pairs of points or the percentage of systemwide operations thereby represented and whether the figures include all scheduled flights or only scheduled flights actually performed.

§ 399.82 Passing off of carrier identity by affiliation between carriers.

(a) Applicability. This policy shall apply to proceedings in which the Board, in exercising its regulatory powers with respect to air carriers and foreign air carriers, is required to determine whether carriers have engaged in unfair or deceptive practices, or unfair methods of competition. The standards herein shall not be construed to supersede any action previously taken by the Board in a particular proceeding dealing with the subject matter of this statement, but to the extent not inconsistent therewith shall provide standards which supplement, or implement such specific Board action. The limitation of this policy statement to certain affiliated carriers should not be construed as an indication that the Board will permit other carriers to pass off by means of activities which are inconsistent with the minimum safeguards set forth in paragraph (c) of this section. In such cases the Board may determine in an adjudicatory proceeding that the activities engaged in have a tendency to pass off and constitute an unfair or deceptive practice or an unfair method of competition.

(b) Definition. For the purpose of this statement, the term affiliation, as between an air carrier and a foreign air carrier, shall mean that one of the carriers directly or indirectly has one of the following relationships to the other:

(1) Owns or controls 10 percent or more of the securities of the other, with or without an accompanying power to vote;

(2) Is in control of the other within the meaning of section 408 of the Act;

(3) Has any of the interlocking relationships described in section 409 of the Act;

(4) Is jointly controlled with the other carrier, directly or indirectly by a third person;

(5) Provides general agency services for the other carrier.

For the purpose of this statement, general agency services shall mean services performed under an agreement between an air carrier and a foreign air carrier which provides for the general representation of one by the other in a specified area or point, in relation to services such as the following: Solicitation and sale of passenger, express, and cargo transportation; airport transportation and hotel accommodations; local advertising and publicity; local sales offices; passenger services; local government representation; purchase,
lease or other acquisition of equipment; or aircraft and transit services, aircraft inspection, aircraft dispatch.

(c) Minimum safeguards. The minimum safeguards which the Board will consider as adequate to foreclose passing off by affiliated carriers are as follows:

(1) An air carrier and any affiliated foreign air carrier shall not engage in joint public relations activities at points served by both carriers which tend to pass off the services of one carrier as the services of the other carrier or as part of a unified system of which each is a part;

(2) Where one affiliated carrier provides general agency services for the other carrier, at points served by both carriers, it shall specifically identify all flights of the other carrier as flights of that carrier without reference to any relationship to the carrier performing the agency services;

(3) All forms of display (including aircraft insignia), scheduled publications, advertising, or printed matter employed by affiliated carriers shall not state or imply that the services of either carrier are performed in common with the other carrier or as part of a single system. In cases where it is necessary to indicate that any agency service is performed by one affiliated carrier for the other, the references to the carrier performing the agency should be sufficiently subordinated to the name of the other carrier as to emphasize the limited role of the agent;

(4) Telephone facilities at points served by both carriers should preserve the identity of the individual carriers;

(5) Where joint traffic or sales facilities are maintained by affiliated carriers, the separate identity of each carrier should be maintained by reasonably comparable use of display advertising, desk-space, personnel uniforms, and other facilities and activities;

(6) Where one carrier sells time payment tickets for travel over the other carrier (except interline travel), the application form should identify the carrier performing the transportation;

(7) The respective personnel of the affiliated carriers shall preserve the individual identity of the respective carriers in all public dealings.

(d) Unfair and deceptive practice. It is the policy of the Board to regard any joint activity of an affiliated air carrier and a foreign air carrier as an unfair or deceptive practice or an unfair method of competition where such joint activity does not satisfy the minimum safeguards enumerated in the preceding subsection.

(e) Exceptions. Exceptions to a safeguard set forth in paragraph (c) of this section may be recognized for activities in a foreign country if the Board finds that special circumstances pertaining to the country render the safeguard inappropriate. Exceptions on other grounds may be recognized pursuant to §399.4.

[PS–29, 30 FR 13781, Oct. 29, 1965]

§ 399.83 Unfair or deceptive practice of air carrier, foreign air carrier, or ticket agent in orally confirming to prospective passenger reserved space on scheduled flights.

It is the policy of the Board to consider the practice of an air carrier, foreign air carrier, or ticket agent, of stating to a prospective passenger by telephone or other means of communication that a reservation of space on a scheduled flight in air transportation is confirmed before a passenger has received a ticket specifying thereon his confirmed reserved space, to be an unfair or deceptive practice and an unfair method of competition in air transportation or the sale thereof within the meaning of section 411 of the Act, unless the tariff of the particular air carrier or foreign air carrier provides for confirmation of reserved space by the means so used.

[PS–58, 39 FR 38096, Oct. 29, 1974]

§ 399.84 Price advertising.

The Board considers any advertising or solicitation by a direct air carrier, indirect air carrier, or an agent of either, for passenger air transportation, a tour (i.e., a combination of air transportation and ground accommodations), or a tour component (e.g., a hotel stay) that states a price for such air transportation, tour, or tour component to be an unfair or deceptive practice, unless the price stated is the entire price to be paid by the customer to the air carrier, or agent, for such air transportation.
§ 399.85 Transportation, tour, or tour component.

[PS–113, 49 FR 49440, Dec. 20, 1984]

§ 399.86 Payments for non-air transportation services for air cargo.

The Board considers that payments by air carriers and foreign air carriers to shippers, indirect air carriers, or foreign indirect air carriers for non-air transportation preparation of air cargo shipments are for services ancillary to the air transportation, and are not prohibited under section 403 of the Act.

[PS–86, 44 FR 45609, Aug. 3, 1979]

§ 399.87 [Reserved]

Subpart H—Other Policies Relating to Interests, Activities, and Relationships of Air Carriers

§ 399.91 Air carrier participation in programs of technical assistance to airlines of less developed countries.

(a) Applicability. This policy shall apply to proceedings under sections 406, 409, and 412 of the Act in which the Board is required to make any determination as to the public interest or consistency with the Act of any agreement or relationship sought to be entered into by an air carrier, or officer or director thereof, with a foreign airline in connection with the performance of some activity pursuant to a technical assistance contract financed by an agency of the U.S. Government.

(b) Policy. It is the policy of the Board that all U.S. air carriers interested in performing contracts for aviation technical assistance to foreign airlines should have equal access to information necessary to bid on such contracts, and should be given equal consideration thereafter in the award of such contracts based upon customary contracting criteria and subject to the considerations set forth below:

(1) The air carrier selected should possess the necessary technical and managerial skills and economic strength to perform the assigned task in the recipient country to the credit of the United States. Where familiarity with the particular language and culture of the recipient country are important to the success of the project, weight should be given to the capabilities of all interested carriers in this regard, including particularly those which a route carrier may have acquired through service to the country or area.

(2) Where a single U.S. route carrier is serving or is certificated to serve the recipient country or the region in which it is located, and where initiation or continued operation of the route by such carrier is an important national interest objective of the United States, weight should be given to any evidence that an award of the contract to the route carrier as opposed to any other U.S. carrier would be held to achieve this objective.

(3) An air carrier performing a technical assistance contract will necessarily occupy a close special relationship with the airline and government of the recipient country. Over and above the terms of any specific contract, there is latent in such relationship the possibility of a relative preference for such carrier over a competing U.S. air carrier in matters of interline traffic, governmental restrictions, etc. Accordingly, where more than one U.S. route carrier is certificated to serve the recipient country and more than one such carrier wishes to perform the technical assistance, none of such carriers should be awarded the contract over the objection of any other except under very unusual circumstances.

(4) Technical assistance contracts should contain realistic objectives and require competent performance at reasonable cost and within a reasonable period of time consistent with the ability of the foreign airline to become self-sufficient.

(5) Technical assistance contracts should not be awarded to a U.S. route carrier with major economic interests hostile to those of the U.S. route carrier serving the country.

(6) Technical assistance contracts should not be awarded to subsidized carriers except under special circumstances. Such circumstances should include at least a showing (i) that the subsidized carrier has special qualifications, the utilization of which
is required in the national interest by the circumstances of a particular program, and (ii) that performance of the contract will not interfere with the primary business of the subsidized carrier which is to provide air transportation in the United States. In the latter connection, it is to be recognized that participation with maximum effectiveness in a technical assistance program would not only divert the attention of top management from certificated services but might also involve the assignment of the most competent senior operational and technical personnel, the diversion of funds at least on a short-term basis, and the possible transfer from certificated services of aircraft and related equipment. Normally, therefore, unless substantial evidence and arguments are produced to the contrary, participation by subsidized carriers in technical assistance programs will be considered inconsistent with the public interest.

[PS–22, 29 FR 5788, May 1, 1964]

Subpart I—Policies Relating to Disclosure of Information

§ 399.101 Public release of Board decisions in cases where the action of the Board is subject to the review or approval of the President.

(a) By Executive Order 11920, 41 FR 23665 (June 11, 1976), effective July 11, 1976, the President has authorized the issuance for public inspection of decisions by the Board in cases where the action of the Board is subject to the review or approval of the President in accordance with section 801 of the Federal Aviation Act. In the interest of national security, and in order to allow for consideration of appropriate action under Executive Order 11652, Executive Order 11920 provides that decisions shall be withheld from public disclosure for five days after submission to the President but may be released on or after the sixth day following receipt by the President of all unclassified portions of the text if the Board is not notified by the Assistant to the President for National Security Affairs or his designee that all or part of the decision shall be withheld from public disclosure.

(b) It is the policy of the Board to release to the public all decisions by the Board in section 801 cases as promptly as possible following submission of such decision to the President. Upon receipt of notice by the Assistant to the President for National Security Affairs as required by the Executive Order, the Board shall promptly provide one copy for public inspection in the Docket Section and one copy for public inspection and copying in the Public Reference Room, and shall promptly thereafter print and process the decision for more general distribution in accordance with Board procedures. Where the Board is required to withhold portions of the text of its decision it shall make public those portions of its decision which may be publicly released. Where the Board is required to withhold public release of its decision in its entirety it shall nonetheless publicly indicate that its decision has been transmitted to the President. The Board shall not publicly indicate that its decision has been transmitted to the President in those cases in which the Assistant to the President for National Security Affairs or his designee determines that classification of the existence of the decision is appropriate and so informs the Board. The provisions are also applicable to decisions submitted to the President for review pursuant to section 801(b) of the Act.

§ 399.120 Duration of certificates in limited-entry markets.

All certificate authority that the Department grants to U.S. air carriers in carrier selection proceedings will be awarded in the form of experimental certificates of five years’ duration pursuant to section 401(d)(8) of the Federal Aviation Act. This provision does not alter or amend permanent certificates issued prior to January 1, 1985.
