

(D) Standing or flooded standing agricultural crops where grain is inadvertently scattered solely as a result of a hunter entering or exiting a hunting area, placing decoys, or retrieving downed birds.

(E) Participants may not possess shot (either in shotshells or as loose shot for muzzleloading) other than steel shot, bismuth-tin, tungsten-iron, tungsten-polymer, tungsten-matrix, tungsten-nickel iron, or other shots that are authorized in §20.21(j) of this part.

(f) *Under what conditions would we suspend the managed take program?* Following authorization by the Director, we will annually assess the overall impact and effectiveness of the program on resident Canada goose populations to ensure compatibility with long-term conservation of this resource. If at any time evidence is presented that clearly demonstrates that resident Canada geese populations no longer need to be reduced in order to allow resolution or prevention of injury to people, property, agricultural crops, or other interests, the Director, in writing, will suspend the program for the resident Canada goose population in question. However, resumption of injuries caused by growth of the population and not otherwise addressable by the methods available in part 21 may warrant reinstatement of such regulations. A State must reapply for approval, including the same information and discussions noted in 21.61(d). Depending on the location of the injury or threat or injury, the Director, in writing, may suspend or reinstate this authorization for one or more resident Canada goose populations, but not others.

(g) *What population information is the State or Tribe required to collect concerning the resident Canada goose managed take program?* Participating States and Tribes must provide an annual estimate of the breeding population and distribution of resident Canada geese in their State. The States and Tribes must submit this estimate on or before August 1 of each year, to the Chief, Division of Migratory Bird Management, 4401 N. Fairfax Dr., MBSP-4107, Arlington, Virginia 22203.

(h) *What are the general program conditions and restrictions?* The program is

subject to the conditions elsewhere in this section, and, unless otherwise specifically authorized, the following conditions:

(1) Nothing in this section applies to any Federal land within a State's or Tribe's boundaries without written permission of the Federal agency with jurisdiction.

(2) States may not undertake any actions under this section if the activities adversely affect other migratory birds or species designated as endangered or threatened under the authority of the Endangered Species Act. Persons operating under this section must immediately report the take of any species protected under the Endangered Species Act to the Service. Further, to protect certain species from being adversely affected by management actions, States must:

(i) Follow the Federal State Contingency Plan for the whooping crane;

(ii) Conduct no activities within 300 meters of a whooping crane or Mississippi sandhill crane nest; and

(iii) Follow all Regional (or National when available) Bald Eagle Nesting Management guidelines for all management activities.

(i) *Has the Office of Management and Budget (OMB) approved the information collection requirements of the program?* OMB has approved the information collection and recordkeeping requirements of the program under OMB control number 1018-0133. We may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number. You may send comments on the information collection and recordkeeping requirements to the Service's Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 222—ARLSQ, 1849 C Street, NW., Washington, DC 20240.

## Subpart A—Introduction

### § 22.1 What is the purpose of this part?

This part controls the taking, possession, and transportation within the United States of bald eagles (*Haliaeetus leucocephalus*) and golden eagles (*Aquila chrysaetos*) and their parts, nests, and eggs for scientific, educational, and depredation control purposes; for the religious purposes of American Indian tribes; and to protect other interests in a particular locality. This part also governs the transportation into or out of the United States of bald and golden eagle parts for scientific, educational, and Indian religious purposes. The import, export, purchase, sale, trade, or barter of bald and golden eagles, or their parts, nests, or eggs is prohibited.

[64 FR 50472, Sept. 17, 1999, as amended at 73 FR 29083, May 20, 2008]

## 50 CFR Ch. I (10–1–08 Edition)

### § 22.2 What activities does this part apply to?

(a)(1) You can possess or transport within the United States, without a Federal permit:

(i) Any live or dead bald eagles, or their parts, nests, or eggs that were lawfully acquired before June 8, 1940; and

(ii) Any live or dead golden eagles, or their parts, nests, or eggs that were lawfully acquired before October 24, 1962.

(2) You may not transport into or out of the United States, import, export, purchase, sell, trade, barter, or offer for purchase, sale, trade, or barter bald or golden eagles, or their parts, nests, or eggs of these lawfully acquired pre-act birds. However, you may transport into or out of the United States any lawfully acquired dead bald or golden eagles, their parts, nests, or dead eagles, if you acquire a permit issued under § 22.22 of this part.

(3) No exemption from any statute or regulation will apply to any offspring of these pre-act birds.

(4) You must mark all shipments containing bald or golden eagles, alive or dead, their parts, nests, or eggs as directed in § 14.81 of this subchapter. The markings must contain the name and address of the person the shipment is going to, the name and address of the person the shipment is coming from, an accurate list of contents by species, and the number of each species.

(b) The provisions in this part are in addition to, and are not in lieu of, other regulations of this subchapter B which may require a permit or prescribe additional restrictions or conditions for the importation, exportation, and interstate transportation of wildlife (see also part 13 of this subchapter).

[39 FR 1183, Jan. 4, 1974, as amended at 64 FR 50472, Sept. 17, 1999]

### § 22.3 Definitions.

In addition to definitions contained in part 10 of this subchapter, the following definitions apply within this part 22:

*Area nesting population* means the number of pairs of golden eagles known to have a resting attempt during the

## U.S. Fish and Wildlife Serv., Interior

## § 22.4

preceding 12 months within a 10-mile radius of a golden eagle nest.

*Disturb* means to agitate or bother a bald or golden eagle to a degree that causes, or is likely to cause, based on the best scientific information available, (1) injury to an eagle, (2) a decrease in its productivity, by substantially interfering with normal breeding, feeding, or sheltering behavior, or (3) nest abandonment, by substantially interfering with normal breeding, feeding, or sheltering behavior.

*Export* for the purpose of this part does not include the transportation of any dead bald or golden eagles, or their parts, nests, or dead eggs out of the United States when accompanied with a valid transportation permit.

*Golden eagle nest* means any readily identifiable structure built, maintained or occupied by golden eagles for propagation purposes.

*Import* for the purpose of this part does not include the transportation of any dead bald or golden eagles, or their parts, nests, or dead eggs into the United States when accompanied with a valid transportation permit.

*Inactive nest* means a golden eagle nest that is not currently used by golden eagles as determined by the absence of any adult, egg, or dependent young at the nest during the 10 days before the nest is taken.

*Nesting attempt* means any activity by golden eagles involving egg laying and incubation as determined by the presence of an egg attended by an adult, an adult in incubation posture, or other evidence indicating recent use of a golden eagle nest for incubation of eggs or rearing of young.

*Person* means an individual, corporation, partnership, trust, association, or any other private entity, or any officer, employee, agent, department, or instrumentality of any State or political subdivision of a State.

*Resource development or recovery* includes, but is not limited to, mining, timbering, extracting oil, natural gas and geothermal energy, construction of roads, dams, reservoirs, power plants, power transmission lines, and pipelines, as well as facilities and access routes essential to these operations, and reclamation following any of these operations.

*Take* includes also pursue, shoot, shoot at, poison, wound, kill, capture, trap, collect, or molest or disturb.

*Transportation into or out of the United States* for the purpose of this part means that the permitted item or items transported into or out of the United States do not change ownership at any time, they are not transferred from one person to another in the pursuit of gain or profit, and they are transported into or out of the United States for Indian religious purposes, or for scientific or exhibition purposes under the conditions and during the time period specified on a transportation permit for the items.

[39 FR 1183, Jan. 4, 1974, as amended at 48 FR 57300, Dec. 29, 1983; 64 FR 50472, Sept. 17, 1999; 72 FR 31139, June 5, 2007]

### § 22.4 Information collection requirements.

(a) The Office of Management and Budget approved the information collection requirements contained in this part 22 under 44 U.S.C. 3507 and assigned OMB Control Number 1018-0022. The Service may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number. We are collecting this information to provide information necessary to evaluate permit applications. We will use this information to review permit applications and make decisions, according to criteria established in the Bald and Golden Eagle Protection Act and its regulations, on the issuance, suspension, revocation, or denial of permits. You must respond to obtain or retain a permit.

(b) We estimate the public reporting burden for these reporting requirements to vary from 1 to 4 hours per response, with an average of 1 hour per response, including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the forms. Direct comments regarding the burden estimate or any other aspect of these reporting requirements to the Service Information Collection Control Officer, MS-222 ARLSQ, U.S. Fish and Wildlife Service, Washington, DC 20240, or the Office of Management and Budget, Paperwork Reduction

Project (1018-0022), Washington, DC 20603.

[63 FR 52637, Oct. 1, 1998]

### Subpart B—General Requirements

#### § 22.11 What is the relationship to other permit requirements?

You may not take, possess, or transport any bald eagle (*Haliaeetus leucocephalus*) or any golden eagle (*Aquila chrysaetos*), or the parts, nests, or eggs of such birds, except as allowed by a valid permit issued under this part, 50 CFR part 13, 50 CFR part 17, and/or 50 CFR part 21 as provided by § 21.2, or authorized under a depredation order issued under subpart D of this part. We will accept a single application for a permit under this part and any other parts of this subchapter B if it includes all of the information required for an application under each applicable part.

(a) A permit that covers take of bald eagles or golden eagles under 50 CFR part 17 for purposes of providing prospective or current ESA authorization constitutes a valid permit issued under this part for any take authorized under the permit issued under part 17 as long as the permittee is in full compliance with the terms and conditions of the permit issued under part 17. The provisions of part 17 that originally applied will apply for purposes of the Eagle Act authorization, except that the criterion for revocation of the permit is that the activity is incompatible with the preservation of the bald eagle or the golden eagle rather than inconsistent with the criterion set forth in 16 U.S.C. 1539(a)(2)(B)(iv).

(b) You do not need a permit under parts 17 and 21 of this subchapter B for any activity permitted under this part 22 with respect to bald or golden eagles or their parts, nests, or eggs.

(c) You must obtain a permit under part 21 of this subchapter for any activity that also involves migratory birds other than bald and golden eagles, and a permit under part 17 of this subchapter for any activity that also involves threatened or endangered species other than the bald eagle.

(d) If you are transporting dead bald or golden eagles, or their parts, nests, or dead eggs into or out of the United

## 50 CFR Ch. I (10-1-08 Edition)

States, you will also need a Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) permit under part 23 of this subchapter.

[64 FR 50472, Sept. 17, 1999, as amended at 68 FR 61140, Oct. 27, 2003; 73 FR 29083, May 20, 2008]

#### § 22.12 What activities are illegal?

(a) You may not sell, purchase, barter, trade, import, or export, or offer for sale, purchase, barter, or trade, at any time or in any manner, any bald eagle (*Haliaeetus leucocephalus*), or any golden eagle (*Aquila chrysaetos*), or the parts, nests, or eggs of these birds, and we will not issue a permit to authorize these acts.

(b) You may not transport into or out of the United States any *live* bald or golden eagle, or any *live* egg of those birds, and we will not issue a permit to authorize these acts.

[64 FR 50472, Sept. 17, 1999]

### Subpart C—Eagle Permits

#### § 22.21 What are the requirements concerning scientific and exhibition purpose permits?

We may, under the provisions of this section, issue a permit authorizing the taking, possession, transportation within the United States, or transportation into or out of the United States of lawfully possessed bald eagles or golden eagles, or their parts, nests, or eggs for the scientific or exhibition purposes of public museums, public scientific societies, or public zoological parks. We will not issue a permit under this section that authorizes the transportation into or out of the United States of any live bald or golden eagles, or any live eggs of these birds.

(a) *How do I apply if I want a permit for scientific and exhibition purposes?* (1) You must submit applications for permits to take, possess, or transport within the United States lawfully acquired live or dead bald or golden eagles, or their parts, nests, or live or dead eggs for scientific or exhibition purposes to the appropriate Regional Director—Attention: Migratory Bird Permit Office. You can find addresses

for the Regional Directors in 50 CFR 2.2.

(2) If you want a permit to *transport into or out of the United States* any lawfully acquired dead bald or golden eagles or their parts, nests, or dead eggs for scientific or exhibition purposes, you must submit your application to the Office of Management Authority. Your application must contain all the information necessary for the issuance of a CITES permit. You must also comply with all the requirements in part 23 of this subchapter before international travel. Mail should be addressed to: Office of Management Authority, U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, Room 700, Arlington, VA, 22203.

(3) Your application for any permit under this section must also contain the information required under this section, §13.12(a) of this subchapter, and the following information:

(i) Species of eagle and number of such birds, nests, or eggs proposed to be taken, possessed, or transported;

(ii) Specific locality in which taking is proposed, if any;

(iii) Method taking proposed, if any;

(iv) If not taken, the source of eagles and other circumstances surrounding the proposed acquisition or transportation;

(v) Name and address of the public museum, public scientific societies, or public zoological park for which they are intended;

(vi) Complete explanation and justification of request, nature of project or study, number of specimens now at institution, reason these are inadequate, and other appropriate explanations.

(b) *What are the conditions?* In addition to the general conditions in part 13 of this subchapter B, permits to take, possess, transport within the United States, or transport into or out of the United States bald or golden eagles, or their parts, nests, or eggs for scientific or exhibition purposes, are also subject to the following condition: In addition to any reporting requirement specifically noted in the permit, you must submit a report of activities conducted under the permit to the Regional Director—Attention: Migratory

Bird Permit Office, within 30 days after the permit expires.

(c) *How do we evaluate your application for a permit?* We will conduct an investigation and will only issue a permit to take, possess, transport within the United States, or transport into or out of the United States bald or golden eagles, or their parts, nests, or eggs for scientific or exhibition purposes when we determine that the taking, possession, or transportation is compatible with the preservation of the bald eagle and golden eagle. In making this determination, we will consider, among other criteria, the following:

(1) The direct or indirect effect which issuing such permit would be likely to have upon the wild populations of bald and golden eagles;

(2) Whether the expertise, facilities, or other resources available to the applicant appear adequate to successfully accomplish the objectives stated in the application;

(3) Whether the justification of the purpose for which the permit is being requested is adequate to justify the removal of the eagle from the wild or otherwise change its status; and

(4) Whether the applicant has demonstrated that the permit is being requested for *bona fide* scientific or exhibition purposes of public museums, public scientific societies, or public zoological parks.

(d) *Tenure of permits.* The tenure of permits to take bald or golden eagles for scientific or exhibition purposes shall be that shown on the face of the permit.

[39 FR 1183, Jan. 4, 1974, as amended at 63 FR 52638, Oct. 1, 1998; 64 FR 50472, Sept. 17, 1999]

**§ 22.22 What are the requirements concerning permits for Indian religious purposes?**

We will issue a permit only to members of Indian entities recognized and eligible to receive services from the United States Bureau of Indian Affairs listed under 25 U.S.C. 479a-1 engaged in religious activities who satisfy all the issuance criteria of this section. We may, under the provisions of this section, issue a permit authorizing the taking, possession, and transportation within the United States, or transportation into or out of the United States

## § 22.22

## 50 CFR Ch. I (10–1–08 Edition)

of lawfully acquired bald eagles or golden eagles, or their parts, nests, or eggs for Indian religious use. We will not issue a permit under this section that authorizes the transportation into or out of the United States of any *live* bald or golden eagles, or any *live* eggs of these birds.

(a) *How do I apply if I want a permit for Indian religious purposes?* You must submit applications for permits to take, possess, transport within the United States, or transport into or out of the United States lawfully acquired bald or golden eagles, or their parts, nests, or eggs for Indian religious use to the appropriate Regional Director—Attention: Migratory Bird Permit Office. You can find addresses for the appropriate Regional Directors in 50 CFR 2.2. If you are applying for a permit to *transport into or out of the United States*, your application must contain all the information necessary for the issuance of a CITES permit. You must comply with all the requirements in part 23 of this subchapter before international travel. Your application for any permit under this section must also contain the information required under this section, § 13.12(a) of this subchapter, and the following information:

(1) Species and number of eagles or feathers proposed to be taken, or acquired by gift or inheritance.

(2) State and local area where the taking is proposed to be done, or from whom acquired.

(3) Name of tribe with which applicant is associated.

(4) Name of tribal religious ceremony(ies) for which required.

(5) You must attach a certification of enrollment in an Indian tribe that is federally recognized under the Federally Recognized Tribal List Act of 1994, 25 U.S.C. 479a–1, 108 Stat. 4791 (1994). The certificate must be signed by the tribal official who is authorized to certify that an individual is a duly enrolled member of that tribe, and must include the official title of that certifying official.

(b) *What are the permit conditions?* In addition to the general conditions in part 13 of this subchapter B, permits to take, possess, transport within the United States, or transport into or out of the United States bald or golden ea-

gles, or their parts, nests or eggs for Indian religious use are subject to the following conditions:

(1) Bald or golden eagles or their parts possessed under permits issued pursuant to this section are not transferable, except such birds or their parts may be handed down from generation to generation or from one Indian to another in accordance with tribal or religious customs; and

(2) You must submit reports or inventories, including photographs, of eagle feathers or parts on hand as requested by the issuing office.

(c) *How do we evaluate your application for a permit?* We will conduct an investigation and will only issue a permit to take, possess, transport within the United States, or transport into or out of the United States bald or golden eagles, or their parts, nests or eggs, for Indian religious use when we determine that the taking, possession, or transportation is compatible with the preservation of the bald and golden eagle. In making a determination, we will consider, among other criteria, the following:

(1) The direct or indirect effect which issuing such permit would be likely to have upon the wild populations of bald or golden eagles; and

(2) Whether the applicant is an Indian who is authorized to participate in *bona fide* tribal religious ceremonies.

(d) *How long are the permits valid?* We are authorized to amend, suspend, or revoke any permit that is issued under this section (see §§ 13.23, 13.27, and 13.28 of this subchapter).

(1) A permit issued to you that authorizes you to take bald or golden eagles will be valid during the period specified on the face of the permit, but will not be longer than 1 year from the date it is issued.

(2) A permit issued to you that authorizes you to transport and possess bald or golden eagles or their parts, nests, or eggs within the United States will be valid for your lifetime.

(3) A permit authorizing you to transport dead bald eagles or golden eagles, or their parts, nests, or dead eggs into or out of the United States can be used for multiple trips to or from the United States, but no trip can be longer than 180 days. The permit

will be valid during the period specified on the face of the permit, not to exceed 3 years from the date it is issued.

[39 FR 1183, Jan. 4, 1974, as amended at 63 FR 52638, Oct. 1, 1998; 64 FR 50473, Sept. 17, 1999]

**§ 22.23 What are the requirements for permits to take depredating eagles?**

(a) *How do I apply for a permit?* You must submit applications for permits to take depredating bald or golden eagles to the appropriate Regional Director—Attention: Migratory Bird Permit Office. You can find addresses for the appropriate Regional Directors in 50 CFR 2.2. Your application must contain the information and certification required by § 13.12(a) of this subchapter, and the following additional information:

- (1) Species and number of eagles proposed to be taken;
- (2) Location and description of property where taking is proposed;
- (3) Inclusive dates for which permit is requested;
- (4) Method of taking proposed;
- (5) Kind and number of livestock or domestic animals owned by applicant;
- (6) Kind and amount of alleged damaged; and
- (7) Name, address, age, and business relationship with applicant of any person the applicant proposes to act for him as his agent in the taking of such eagles.

(b) *What are the permit conditions?* In addition to the general conditions set forth in part 13 of this subchapter B, permits to take depredating bald or golden eagles shall be subject to the following conditions:

- (1) Bald or golden eagles may be taken under permit by firearms, traps, or other suitable means except by poison or from aircraft;
- (2) The taking of eagles under permit may be done only by the permittee or his agents named in the permit;
- (3) Any eagle taken under authority of such permit will be promptly turned over to a Service agent or other game law enforcement officer designated in the permit; and
- (4) In addition to any reporting requirement on a permit, you must submit a report of activities conducted under the permit to the appropriate Regional Director—Attention: Migra-

tory Bird Permit Office within 10 days following completion of the taking operations or the expiration of the permit, whichever occurs first.

(c) *Issuance criteria.* The Director shall conduct an investigation and not issue a permit to take depredating bald or golden eagles unless he has determined that such taking is compatible with the preservation of the bald or golden eagle. In making such determination the Director shall consider the following:

- (1) The direct or indirect effect which issuing such permit would be likely to have upon the wild population of bald or golden eagles;
- (2) Whether there is evidence to show that bald or golden eagles have in fact become seriously injurious to wildlife or to agriculture or other interests in the particular locality to be covered by the permit, and the injury complained of is substantial; and
- (3) Whether the only way to abate the damage caused by the bald or golden eagle is to take some or all of the offending birds.

(d) *Tenure of permits.* The tenure of any permit to take bald or golden eagles for depredation control purposes shall be that shown on the face thereof, and shall in no case be longer than 90 days from date of issue.

[39 FR 1183, Jan. 4, 1974, as amended at 63 FR 52638, Oct. 1, 1998; 64 FR 50473, Sept. 17, 1999]

**§ 22.24 Permits for falconry purposes.**

The Director may, upon receipt of an application and in accordance with the issuance criteria of this section, issue a permit authorizing the possession and transportation of golden eagles for falconry purposes.

(a) *Application procedures.* Submit applications for permits to possess and transport golden eagles for falconry purposes to the appropriate Regional Director (Attention: Migratory bird permit office). You can find addresses for the Regional Directors in 50 CFR 2.2. Each application must contain the general information and certification required in § 13.12(a) of this subchapter, and the following additional information:

- (1) A copy of the applicant's master (or equivalent) class permit issued in accordance with 50 CFR 21.28.

(2) A statement of the applicant's experience in handling large raptors, including the species, type of experience and duration of the activity in which the experience was acquired.

(3) At least two (2) letters of reference from individuals with recognized experience in handling and/or flying eagles. Each letter must contain a concise history of the author's experience with eagles. Eagle handling experience is defined as, but is not limited to, the handling of pre-Act birds, zoological specimens, rehabilitating eagles, or scientific studies involving eagles. Each letter must also assess the applicant's capability to properly care for the fly golden eagles in falconry, and recommend the issuance or denial of the permit.

(4) A description of the facilities in which golden eagles will be housed.

(5) If requesting an eagle(s) from the Service, applicants must specify the sex, age and condition of the eagle(s) they will accept.

(6) For eagles already legally possessed, a copy of the permit or other documentation authorizing possession of said birds, and the procedures to be used to minimize or eliminate hazards associated with the use of imprinted birds in falconry.

(7) Name, address, age and experience in handling raptors of any person the applicant proposes to act as an authorized agent in taking possession of golden eagles provided by the Service.

(8) To obtain additional or replacement golden eagles, a request in writing to the appropriate special agent in charge must be tendered, identifying the existing permit and, for replacement eagles, the reason for such replacement.

(b) *Permit conditions.* In addition to the general conditions set forth in part 13 of this subchapter B, permits to possess and transport golden eagles for falconry purposes are subject to the following conditions:

(1) Golden eagles possessed for falconry purposes are considered as raptors and must be maintained in accordance with Federal falconry standards described in §§ 21.28 and 21.29 of this subchapter.

(2) Only golden eagles legally obtained may be possessed and transported for falconry purposes.

(3) Captive breeding of golden eagles possessed for falconry purposes is prohibited.

(4) The applicant, or authorized agent, must agree to take possession of a requested golden eagle(s) within 72 hours of notification of availability. Expenses incurred by the applicant in taking possession of said eagle(s) will be the applicant's responsibility.

(5) The golden eagle(s) must be banded with a numbered eagle marker provided by the Service.

(6) All permits issued pursuant to this section shall state on their face that eagles possessed for falconry purposes under authority of this permit may not be transferred or otherwise intentionally disposed of by any means, including release to the wild, without written approval from the appropriate regional director.

(7) All permits issued pursuant to this section shall state on their face that the appropriate special agent in charge must be notified no later than ten (10) days after the death of a permit holder.

(c) *More restrictive State laws.* Nothing in this section shall be construed to prevent a State from making and/or enforcing more restrictive laws and regulations as regards the use of golden eagles in falconry.

(d) *Issuance criteria.* The Director shall conduct an investigation and shall not issue a permit to possess and transport golden eagles for falconry purposes unless he has determined: that such possession and transportation is compatible with the preservation of golden eagles; that the proposed possession and transportation of golden eagles for falconry is not otherwise prohibited by laws and regulations within the State where the activity is proposed; and that the applicant is qualified to possess and transport golden eagles for falconry purposes. In making the latter determination, the Director shall consider, but shall not necessarily be limited to, the following:

(1) The applicant's cumulative falconry experience.

(2) The applicant's demonstrated ability to handle and care for large raptors.

(3) Information contained in the applicant's letters of reference.

(e) *Tenure of permits.* Any permit to possess and transport golden eagles for falconry purposes is valid for as long as the holder maintains a valid master (or equivalent) class falconry permit or until revoked in writing by the Service.

(f) *Permission to trap golden eagles for falconry purposes.* Applicants desiring to trap golden eagles from the wild for use in falconry must request and obtain permission from the Service prior to exercising this privilege. The following applies to requests:

(1) Only golden eagles from a specified depredation area may be trapped for falconry purposes.

(2) Permission to trap golden eagles must be requested in writing from the appropriate State Animal Damage Control (ADC) supervisor subsequent to issuance of the permit to possess and transport golden eagles for falconry purposes.

(3) Permission to trap will not be granted until the permittee suitably demonstrates to the State ADC supervisor or a designated project leader his/her qualifications and capabilities to trap golden eagles from the wild.

(4) All such trapping must be conducted under the direct supervision of the State ADC supervisor or designated project leader in the specified depredation area.

(5) Any permission to trap golden eagles from the wild pursuant to this section shall in no case extend more than 90 days from the date of issue.

(6) Upon issuance of permission to trap in accordance with the above conditions, the appropriate special agent in charge will be notified in writing by the State ADC supervisor of the individual's name, address, location of the

specified depredation area and tenure of permission to trap golden eagles.

(The information collection requirements approved by the Office of Management and Budget under control number 1018-0022. The information is necessary to determine potential permittee's qualifications and is required to obtain a permit)

[49 FR 891, Jan. 6, 1984, as amended at 63 FR 52638, Oct. 1, 1998]

**§ 22.25 What are the requirements concerning permits to take golden eagle nests?**

The Director may, upon receipt of an application and in accordance with the issuance criteria of this section, issue a permit authorizing any person to take golden eagle nests during a resource development or recovery operation when the nests are inactive, if the taking is compatible with the preservation of the area nesting population of golden eagles. The information collection requirements contained within this section have been approved by the Office of Management and Budget under 44 U.S.C. 3507 and assigned clearance number 1018-0022. This information is being collected to provide information necessary to evaluate permit applications. This information will be used to review permit applications and make decisions, according to the criteria established in this section for the issuance or denial of such permits. The obligation to respond is required to obtain or retain a permit.

(a) *How do I apply for a permit to take golden eagle nests?* You must submit applications for permits to take golden eagle nests to the appropriate Regional Director—Attention: Migratory Bird Permit Office. You can find addresses for the appropriate Regional Directors in 50 CFR 2.2. We will only accept applications if you are engaged in a resource development or recovery operation, including the planning and permitting stages of an operation. Your application must contain the general information and certification required by § 13.12(a) of this chapter plus the following additional information:

(1) A description of the resource development or recovery operation in which the applicant is engaged;

(2) The number of golden eagle nests proposed to be taken;

§ 22.25

50 CFR Ch. I (10–1–08 Edition)

(3) A description of the property on which the taking is proposed, with reference made to its exact geographic location. An appropriately scaled map or plat must be included which delineates the area of the resource development or recovery operation and identifies the exact location of each golden eagle nest proposed to be taken. The map or plat must contain enough detail so that each golden eagle nest proposed to be taken can be readily located by the Service.

(4) For each golden eagle nest proposed to be taken, the applicant must calculate the area nesting population of golden eagles and identify on an appropriately scaled map or plat the exact location of each golden eagle nest used to calculate the area nesting population unless the Service has sufficient data to independently calculate the area nesting population. The map or plat must contain enough details so that each golden eagle nest used to calculate the area nesting population can be readily located by the Service.

(5) A description of each activity to be performed during the resource development or recovery operation which involves the taking of a golden eagle nest;

(6) A statement with any supporting documents from ornithologists experienced with golden eagles or other qualified persons who have made on site inspections and can verify the applicant's calculation of the area nesting population;

(7) The length of time for which the permit is requested, including the dates on which the proposed resource development or recovery operation is to begin and end;

(8) A statement indicating the intended disposition of each nest proposed to be taken. Applicants should state whether they are willing to collect any nest for scientific or educational purposes; and

(9) A statement indicating any proposed mitigation measures that are compatible with the resource development or recovery operation to encourage golden eagles to reoccupy the resource development or recovery site. Mitigation measures may include reclaiming disturbed land to enhance golden eagle nesting and foraging habi-

tat, relocating in suitable habitat any inactive golden eagle nest taken, or establishing one or more nest sites. If the establishment of one or more nest sites is proposed, a description of the materials and methods to be used and the exact location of each artificial nest site must be included.

(b) *Additional permit conditions.* In addition to the general conditions set forth in part 13 of this chapter, permits to take golden eagle nests are subject to the following additional conditions:

(1) Only inactive golden eagle nests may be taken.

(2) The permittee shall submit a report of activities conducted under the permit to the Director within ten (10) days following the permit's expiration;

(3) The permittee shall notify the Director in writing at least 10 days but not more than 30 days before any golden eagle nest is taken;

(4) The permittee shall comply with any mitigation measures determined by the Director to be feasible and compatible with the resource development or recovery operation; and

(5) Any permit issued before the commencement of a resource development or recovery operation is invalid if the activity which required a permit is not performed.

(c) *Issuance criteria.* The Director shall conduct an investigation and not issue a permit to take any golden eagle nest unless such taking is compatible with the preservation of the area nesting population of golden eagles. In making such determination, the Director shall consider the following:

(1) Whether the applicant can reasonably conduct the resource development or recovery operation in a manner that avoids taking any golden eagle nest;

(2) The total number of golden eagle nests proposed to be taken;

(3) The size of the area nesting population of golden eagles;

(4) Whether suitable golden eagle nesting and foraging habitat unaffected by the resource development or recovery operation is available to the area nesting population of golden eagles to accommodate any golden eagles displaced by the resource development or recovery operation;

(5) Whether feasible mitigation measures compatible with the resource development or recovery operation are available to encourage golden eagles to reoccupy the resource development or recovery site. Mitigation measures may include reclaiming disturbed land to enhance golden eagle nesting and foraging habitat, relocating in suitable habitat any golden eagle nest taken, or establishing one or more nest sites; and

(6) Whether the area nesting population is widely dispersed or locally concentrated.

(d) *Tenure of permits.* The tenure of any permit to take golden eagle nests is 2 years from the date of issuance, unless a shorter period of time is prescribed on the face of the permit. Permits may be renewed in accordance with part 13 of this chapter.

[48 FR 57300, Dec. 29, 1983, as amended at 63 FR 52638, Oct. 1, 1998; 64 FR 50474, Sept. 17, 1999]

**§§ 22.26–22.27 [Reserved]**

**§ 22.28 Permits for bald eagle take exempted under the Endangered Species Act.**

(a) *Purpose and scope.* This permit authorizes take of bald eagles (*Haliaeetus leucocephalus*) in compliance with the terms and conditions of a section 7 incidental take statement under the Endangered Species Act of 1973, as amended (ESA) (16 U.S.C. 1531 et seq.; 50 CFR 402, Subpart B).

(b) *Issuance Criteria.* Before issuing you a permit under this section, we must find that you are in full compliance with the terms and conditions contained in the applicable ESA incidental take statement for take of eagles, based on your certification and any other relevant information available to us, including, but not limited to, monitoring or progress reports required pursuant to your incidental take statement. The terms and conditions of the Eagle Act permit under this section, including any modified terms and conditions, must be compatible with the preservation of the bald eagle.

(c) *Permit conditions.* (1) You must comply with all terms and conditions of the incidental take statement issued under section 7 of the ESA, or modified

measures specified in the terms of your permit issued under this section. At permit issuance or at any time during its tenure, the Service may modify the terms and conditions that were included in your ESA incidental take statement, based on one or more of the following factors:

(i) You requested and received modified measures because some of the requirements for take authorization under the ESA were not necessary for take authorization under the Eagle Act;

(ii) The amount or extent of incidental take authorized under the take statement is exceeded;

(iii) New information reveals effects of the action that may affect eagles in a manner or to an extent not previously considered, and requires modification of the terms and conditions to ensure the preservation of the bald eagle or the golden eagle; or

(iv) The activity will be modified by the permittee in a manner that causes effects to eagles that were not previously considered and which requires modification of the terms and conditions in the incidental take statement in order to ensure the preservation of the bald eagle or the golden eagle.

(2) During any period when the eagles covered by your incidental take statement are listed under the ESA, you must comply with the terms and conditions of both the incidental take statement and the permit issued under this section.

(d) *Permit duration.* The permit will be valid until the action that will take eagles, as described in the incidental take statement or modified to condition the permit issued under this section, is completed, as long as the permittee complies with the terms and conditions of the permit, including any modified terms and conditions.

(e) *Applying for an eagle take permit.* (1) Your application must consist of a copy of the applicable section 7 incidental take statement issued pursuant to the Endangered Species Act (ESA), and a signed certification that you are in full compliance with all terms and conditions of the ESA incidental take statement.

(2) If you request reevaluation of the terms and conditions required under

## § 22.31

your previously granted ESA incidental take statement for eagles, you must include a description of the modifications you request, and an explanation for why you believe the original conditions or measures are not reasonably justified to offset the detrimental impact of the permitted activity on eagles.

(3) Send completed permit applications to the Regional Director of the Region in which the disturbance would occur—Attention: Migratory Bird Permit Office. You can find the current addresses for the Regional Directors in § 2.2 of subchapter A of this chapter.

[73 FR 29083, May 20, 2008]

### **Subpart D—Depredation Control Orders on Golden Eagles**

#### **§ 22.31 Golden eagle depredations control order on request of Governor of a State.**

(a) Whenever the Governor of any State requests permission to take golden eagles to seasonally protect domesticated flocks and herds in such State, the Director shall make an investigation and if he determines that such taking is necessary to and will seasonally protect domesticated flocks and herds in such States he shall authorize such taking in whatever part or parts of the State and for such periods as he determines necessary to protect such interests.

(b) Requests from the Governor of a State to take golden eagles to seasonally protect domesticated flocks and herds must be submitted in writing to the Director listing the periods of time during which the taking of such birds is recommended, and including a map of the State indicating the boundaries of the proposed area of taking. Such requests should include a statement of the facts and the source of such facts that in the Governor's opinion justifies the request. After a decision by the Director, the Governor will be advised in writing concerning the request and a notice will be published in the FEDERAL REGISTER.

## 50 CFR Ch. I (10–1–08 Edition)

#### **§ 22.32 Conditions and limitations on taking under depredation control order.**

(a) Whenever the taking of golden eagles without a permit is authorized for the seasonal protection of livestock, such birds may be taken by firearms, traps, or other suitable means except by poison or from aircraft.

(b) Any person exercising any of the privileges granted by this subpart D must permit all reasonable times, including during actual operations, any Service agent, or other game law enforcement officer free and unrestricted access over the premises on which such operations have been or are being conducted; and shall furnish promptly to such officer whatever information he may require concerning such operations.

(c) The authority to take golden eagles under a depredations control order issued pursuant to this subpart D only authorizes the taking of golden eagles when necessary to seasonally protect domesticated flocks and herds, and all such birds taken must be reported and turned over to a local Bureau Agent.

### **PART 23—CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES OF WILD FAUNA AND FLORA (CITES)**

#### **Subpart A—Introduction**

Sec.

- 23.1 What are the purposes of these regulations and CITES?
- 23.2 How do I decide if these regulations apply to my shipment or me?
- 23.3 What other wildlife and plant regulations may apply?
- 23.4 What are Appendices I, II, and III?
- 23.5 How are the terms used in these regulations defined?
- 23.6 What are the roles of the Management and Scientific Authorities?
- 23.7 What office do I contact for CITES information?
- 23.8 What are the information collection requirements?

#### **Subpart B—Prohibitions, Exemptions, and Requirements**

- 23.13 What is prohibited?
- 23.14 [Reserved]
- 23.15 How may I travel internationally with my personal or household effects, including tourist souvenirs?
